Mouth - Dry mouth, better by drinking cold water. Sticky mouth. Dry, viscid saliva. Sweet, metallic, taste. Tongue glistens, cracked, **red, dry, shining**, smooth or heavy, lemon yellow, furred in dysentery. Tongue thickly coated, broad, flat, indented. Tongue pains at the root when protruded. As of a hair on back part of the tongue, not better by eating or drinking. Aphthous ulcers deeply corroding. Toothache, radiating with swelling of the glands.

Modalities - Better from heat, wrapping up, pressure, motion, short sleep. Skin symptoms better cold weather. Open air ameliorates, especially vertigo, but aggravates the gastric complaints and chilliness. Worse from cold, damp, open air, spring, hot weather. Worse from undressing, stooping, sitting, after sleep, morning, 2 a.m. to 3 a.m. **Worse from suppressed catarrh**, protruding tongue, **alcohol, beer**. Worse by eating, causes cough, weight in stomach.

Nose - **Pressure and pain at root or bridge of nose**. Nose feels heavy, dry. **Sinusitis** with distress and fullness at root of nose. Chronic rhinitis. Profuse, watery nasal discharge. **Nasal discharges, thick, stringy, ropy, lumpy, sticky, greenish, yellow**, acid. **Post-nasal drip of thick mucus** (Hydr.). Much hawking of thick mucus. **Coryza with obstruction of nose**. Ozaena. **Suppressed catarrh**. Fetid smell from retention of discharge in nose. **Loss of smell**. Violent sneezing, worse in the morning. Tickling as from a hair in left nostril. Inability to breathe through nose. **Large mucus plugs**. Tough, elastic plugs, leave a raw surface. Clinkers in nose. Snuffles, especially in overweight children. **Nasal septum ulcerates**, round ulcer. Abscess. Thick, dark red blood from nose. Nasal polyps. Sensation as if two loose bones were rubbing together on blowing the nose. Nasal diphtheria. Expired air feels hot.

Perspiration - Cold sweat on forehead, hands, feet and thighs. Perspiration on back during effort at stool. Profuse sweats while sitting quietly.

Rectum - Sensation of a plug in anus. Periodic constipation with pain across the loins and brown urine. Dysentery, tenesmus, stools are brown, frothy. Stools, jelly-like, gelatinous, **worse mornings**.

Skin - Skin is hot, dry and red, better cool air. Brown spots. Acne. Lupus with burning. Burning, tingling in skin. Herpes zoster. Blisters on soles. Skin eruptions, worse summer. Dryness of skin, with itching of whole body. Itching with vesicular eruption. Papular eruptions. Pustular eruption, resembling smallpox with burning pains. Pustules with black tops. **Ulcers with punched-out edges**. Ulcers with tendency to penetrate and tenacious exudation. Ulcers painful in cold weather. Depressed, round scars after healing of eruptions or ulcers.

Sleep - Drowsiness in open air. Great inclination to stretch and yawn. During sleep frequent starts, incoherent talk, tossing of arms. Unrefreshing, feels debilitated in limbs. Wakened by dyspnea, palpitation. Wakened with desire to urinate. Worse on waking.

Stomach - Dilatation of stomach. Gastritis. Sore spot in stomach or food lies like a load. Feels as if digestion had stopped. **Round ulcer of stomach**. Nausea with heat in the body, better eating and open air. Nausea with burning in anus and erections. Nausea and vomiting after beer. Regurgitates liquids. Vomiting more than he drinks of bright, yellow water. Gastric symptoms are relieved after eating, and the rheumatic symptoms reappear.

Temperature - Hot flushes, followed by sticky sweat, then chill. Burning of upper part of body and face with internal chilliness and violent thirst. Chilliness alternating with flushes of heat. Chill with sweat. Cold sweat on hands and feet. Attacks of chilliness from feet upwards, and sensation as if skull on vertex became contracted, in frequently returning paroxysms. Chilliness in back, with sleepiness. Chills with giddiness and nausea, followed by heat. Sensation of coldness and trembling.

Throat - Dry, burning and rough. Burning, extending to the stomach. Fauces red and inflamed. Tickling in

larynx with cough and belchings, then vertigo, worse eating, better heat. Fissured pharynx. Aphthae. Something sticks in with pain into neck and shoulders. Throat pains when putting the tongue out. Voice is hoarse, worse evening. Catarrhal laryngitis, cough has a brassy sound. Hawks up thick mucus, must wipe it away. Diphtheria with profound prostration and soft pulse. **Tough and stringy discharge from mouth and throat.** Sensation of choking on lying down. **Uvula relaxed, edematous**, bladder-like. Pseudo membranous deposit on tonsils and soft palate. Parotid glands swollen. Tonsils swollen with deafness in children.

Urine - Scanty, high-colored urine, with a white film and copious whitish sediment and pain in back. Urine alkaline and ropy. Ropy mucus in urine. **Hematochyluria.** Bloody urine and pain in back.

Vertigo - Vertigo in many complaints, on stooping or when rising from a seat. Vertigo with nausea and inclination to vomit. Vertigo followed by vomiting of acid, white mucus fluid. Vertigo better from walking in open air.

Vision - Dim vision, confused, during vertigo. **Blindness before headache**, sight returns with the increasing headache. Vision seems crossed, better looking with one eye. Sees double. Figures vanish on looking at them. All objects seem to be enveloped in a yellow mist. Yellow sight. Sees various colors and bright sparks.

COMMENTS - Characteristic formation of large mucus plugs or linkers on membranes, especially in the nose. This may be regarded as an advanced stage of the stringy mucus secretions. Formation of false membranes in croup and diphtheria with hoarse, metallic cough. Formation of casts of the bronchial tubes in fibrinous bronchitis.

Sinus infections, sinusitis, nasal discharges. Sinusitis after a cold, particularly if a history. Keynote of thick yellow-green mucus that can be so thick that they may not be able to blow it out. Viscous, sticky, lumpy, stringy mucus (Hydr., Puls., Merc.).

Mucus in lumps, can have blood. Jelly-like mucus. Loss of smell.

Severe pain at the root of the nose when the discharge stops. Sinusitis with bone pains in the face. Very severe sinus headaches. Headaches over the eye or at the root of the nose. Severe headaches with suppressed discharge. Blinding migraine headaches, severe pain (Iris, Nat-m.). Pains over either eye, often followed by sinus congestion.

Mucus in the chest, difficult to expectorate (Caust., Ant-t.). Copious mucus in the lungs, especially in the bronchioles. Gelatinous mucus in the elderly, coughed up in the morning, dark green, jelly mucus.

Cough with stringy, difficult expectoration. worse early morning. A pain from mid sternum through to back. Brassy cough. Coughs up sticky mucus. Cough caused by eating. Sensation as if a hair on the back part of the tongue or in the left nostril.

Wet asthma (Kali-c., Puls., Ant-t.). Asthma in children, stringy mucus that relieves. Otitis media with a discharge (Merc.). Stringy vomit. Vaginitis with stringy discharge. Stringy breast milk.

Circular ulcers, as if someone punched them out of the skin. Ulcers from burns. Sores and ulcers that don't heal with ropy mucus. Internal and external ulceration.

Shifting pains and sudden pains (Lac-c.). Pains appear and disappear suddenly. Diagonal pains. Localized pain. Stinging pains all over. Pains in short jerks as if a nerve were suddenly pulled. Cramps in various parts. Twitches in hands and feet.

Arthritis with wandering pains or pains in small spots. Joints crack with arthritis. Rheumatic-like or shooting and pricking pains. Rheumatic pains were worse and the gastric pains better after eating.

Great prostration, discomfort, debility and desire to lie down. Neuralgic attacks, recurring every day, at the same hour. Epilepsy with a flow of tough, stringy fluid from the mouth during the attacks. Vertigo with many complaints, on stooping or rising from a seat.

Mentally ill-humored and low in spirit. Listless, aversion to mental and physical exertion. Weak memory, vanishing of thoughts. Anxiety arising from chest.

Swollen abdomen immediately after a full meal. Food lies like a load, as if digestion were suspended. Weight in pit of stomach immediately after eating, flatulence. Severe diarrhea, stools are lumpy, mucus and jelly-like substances. Odorless stools.

Painful vomiting, sour, mixed with clear mucus, may be bitter from the presence of bile. Vomiting from attempt to eat or drink, with distress and burning rawness about the stomach. Vomiting in alcoholics, especially beer-drinkers. Gastric ulcers.

Aversion to meat, desires for beer, acid drinks. Beer and malt liquors aggravate, more pronounced in hot weather, autumn, and spring. Chronic effects of drinking too much malt liquor, especially lager beer.

Some of the workmen found they could not drink coffee as it made them worse and they were obliged to take to tea instead. This bears out Hering's dictum that "winedrinkers should take coffee and beer drinkers should take tea." Coffee antidotes wine and tea antidotes beer.

W. J. Pierce recorded the case of James S., 40. For four months past, as soon as he swallowed food (not

liquids), a tickling in the throat excited a severe cough, which stopped only on vomiting and was followed by a watery coryza. This was so distressing that for two months he had eaten only two meals a day. There was pharyngeal catarrh with stringy mucus hanging from naso-pharynx. Kali-bi. 1c, a tablet every two hours, was given. He had no more vomiting and only coughed twice in the next five days and was soon quite cured.

J. B. Garrison recorded the rapid action of Kali-bi. in two cases of intermittent fever on an indication given to him by Martin Dischere. Dischere once mistakenly took an overdose of Kali-bi., which was followed by vomiting of a large quantity of bright yellow water, tasting very bitter.

Garrison's first case was that of a laborer, ill amonth with fever, pains and paroxysm at 1 p.m. Just before Garrison saw him he had vomited "a large quantity of bright yellow water." Kali-bi. lx, one grain dissolved in a tumbler of water, a teaspoonful every two hours, cured at once.

The second case was that of a woman who had been nine months under allopathic treatment. She had not been out of the house for two months and had been told she could not recover. Among other symptoms, she vomited much more than she drank. In the morning, she vomited a large bowlful of bright yellow fluid.

Goullon gave the case of an enormously fat man of "formless colossal body" who complained of chronic accumulation of phlegm. He seemed fairly filled up with it, especially in the morning, for which all domestic remedies and mineral waters had been given in vain.

Kali-bi. 2x was ordered, a few grains in hot water every evening. In two weeks, the patient could resume his walks. He felt easy on his chest, the accumulation of phlegm disappeared, his bowels became regular instead of constipated. Kali-bi. is particularly suited to fat people.

Storer cured with Kali-bi. a case of asthma in a man who noticed that the attacks were caused by and always followed sex. Kali-bi. was prescribed on other indications, but this symptom must be noted. Marked worse from sex and from emissions.

Nash related a cure with Kali-bi. 30c, in which a women had deep, punched-out ulcers with regular edges. One of them had perforated the soft palate and threatened the whole palate. It had a syphilitic appearance and also a stringy discharge, but not to a great amount. In three weeks, the local condition entirely healed and the patient's general state improved correspondingly.

H. W. Champlin cited a case of chronic rheumatism in a woman over 70. She was restless and sleepless at night and Rhus-t. relieved this somewhat. Closer investigation brought out that the pains changed rapidly from one place to another and that they occupied small spots that could be covered with the point of a finger. Kali-bi. cured rapidly.

Grimmer noted that the anemia and cachexia in its pathogenesis, together with the fact that it has cured lupus, puts this remedy in the anticancer group. It affects the skin and mucus membranes (the internal skin) markedly. Catarrhal and rheumatic states are prominent features calling for its use.

RELATIONS - Antidotes: Ars., Lach. **Compare:** (1) Ant-t., Brom., Hep., Ind., Calc., Ant-c. (2) In the production of false membranes: Brom., Caust., Sul-ac., Ip. (3) Oxyg., Caust., Kali-c. - fat subjects. (4) Kali-i., Nit-ac. - syphilis. (5) Bor. - croup, fair subjects. (6) Mez., Sil., Phyt. - bone diseases. (7) Hydr. and Iris. - viscous, tough secretions. (8) Sep. and Teucr. "clinkers." (9) Puls. - wandering rheumatism, gonorrheal rheumatism, pains worse in warm room, measles, catarrhal deafness, swelling of salivary glands. (10) Coc-c., whooping cough, mucus, clear stringy, Kali-bi. yellow stringy. Rhus-t. - better of pain on moving affected part, Rhus-t. has better by warmth, eruptions of Kali-bi. begin in hot weather, those of Rhus-t. in cold. (11) Sulph. - sensation of hair in throat.

REFERENCES - Boericke. Clarke. Grimmer. Murphy. Phatak.

***KALI BROMATUM

(Potassium Bromide)

PHARMACY - kali-br. Kali bromatum. Potassium bromide. Solution. Trituration. Historical **dose:** Trituration and all potencies.

CLINICAL - **Acne.** Albuminuria. Alcoholism. **Amnesia. Aphasia.** Asthma. Backache. **Cholera, infantum.** Chorea. Chordee. Colic. **Convulsions.** Delirium. **Delusions. Depression.** Diabetes mellitus. **Epilepsy.** Erythema nodosum. Headaches. Hemorrhoids. Imbecility. Impotency. Insanity. **Insomnia.** Laryngeal, spasms. Laryngismus. Locomotor, ataxia. Mania. Manic depression. Melancholy. Memory, weakness. Menorrhagia. Metrorrhagia. **Nightmares. Night-terrors.** Nose, eruption. Numbness. Nymphomania. Ovaries, disorders. Paralysis. Parkinson's disease. Pityriasis. Polyps, rectal. Prostration. **Psoriasis. Schizophrenia.** Screaming. Sebaceous, cysts. Seborrhea. Self-abuse. **Senility.** Sensibility, loss. **Sleeplessness.** Sleepwalking. Speech, disorders. Sterility. **Strokes.** Syphilis. Tabes dorsalis. Tetanus. Uremia. Urine, incontinence. Uterine, fibroids. Vaginismus. Vertigo.

HOMEOPATHIC - Like all potash salts, this weakens the heart and lowers temperature. Causes brominism. Symptoms of allopathic overdoses are added to the proving symptoms and the clinical experience of homeopaths.

Alberton noted that Kali-br. has been given allopathically in epileptic and other convulsive disorders with the idea of overwhelming the disease rather than of curing it. The effect has been to reduce or prevent the recurrence of epileptic attacks at the expense of keeping the patient constantly under the influence of the drug and producing a state of mental imbecility, "**decreasing the excitability and power of the motor cells of the brain.**"

Hare noted that the keynotes for the bromides include general weakness and feebleness of the nervous system, posttyphoid and post-puerperal insanity, senile softening of the brain and irritation of the gastrointestinal mucus membrane.

Kali-br. affects the mind and nerves, producing **failure of mental power, loss of memory**. Melancholy. General numbness and anesthesia of mucus membranes especially of eyes, throat and skin.

Skin eruptions, psoriasis. **Acne**, especially at puberty and at the menstrual period. Clarke knew of no remedy of such universal usefulness in cases of simple acne as in Kali-br. 30c. Moist eruptions and pityriasis of the scalp. Seborrhea. Erythema nodosum.

Epilepsy, associated with sexual excess or abuse in men and with menses in women. Attacks during the new moon, followed by headaches. Onset of diseased condition is slow without any pain. Convulsions. Parkinson's disease. Numbness of whole

body. **Symptoms of strokes**. Paralysis. Aphasia, somnolence and stertor. Loss of sexual desire. Sexual fantasies, satyriasis and nymphomania. Uremia. Albuminuria. Nodular form of chronic gout.

Kali bromatum

MIND - Brain fag from grief and anxiety. Failing brain-power (Anae., Bar-c., Phos.). **Loss of memory**. Forgetful on waking in morning. Senile softening of the brain. Weak memory, confused thoughts. Perception slow, answers slowly.

Mistakes in speaking or writing. Confusion as to his identity, over daily affairs. **Amnesic aphasia**. Aphasia, from embolism of middle cerebral artery. Forgets how to talk, has to be told the word before he can speak it.

Ailments after emotional excitement. Nervous irritability from severe illness or death of a friend, loss of property or reputation. **Wrings hands, hands and fingers in constant motion**. Feeling of helplessness, in afternoon. Fits of uncontrollable weeping.

Extremely sensitive to pain. Fidgety, busy hands, fumbles in his pockets. Hurried when eating. Moves arms about wildly. Headstrong and haughty when sick. Domineering. Loss of self-confidence.

Constant fear of breaking down under stress. Constant worry, fears to see people or to be spoken to. Fear of being alone, of his own shadow, to walk past certain corners, of a ringing doorbell. Fear of new people. Fear of insanity. Fear of being poisoned (Hyos.).

Sadness in morning on waking. Melancholy, much concerned about health, complains without cause. **Deep depression with painful delusions and persistent insomnia**. Profound indifference and disgust for life. Suicidal depression, mania with trembling. Manic depression. **Schizophrenia**.

Religious depression. Feeling of moral deficiency; want of moral feeling. Imagines he is singled out as an object of divine wrath. Dread of impending destruction of all near to her. Remorse, wrings hands, bursts into tears.

Active delirium. Delirium with delusions. **Paranoid delusions, thinks he is pursued**. Suspicious, delusions of conspiracies, that his life is threatened. Delusion he will commit some great crime, that she will murder her children or husband, that her child is dead. Delusion that he is a devil.

Hallucinations of sight and sound, with or without mania, precede brain and paralytic symptoms. Horrible visions, can't be comforted by friends. Mental symptoms after a stroke. Chronic alcoholism.

Abdomen - Abdomen sunken, almost stuck to vertebral column. **Retraction of abdomen** with spasms. Prostration. Ascites of hepatic or splenic origin. Flatulent colic. Colic in young children. Cutting colic. **Internal coldness** of abdomen during painless diarrhea. Sensation as if bowels were falling out. Trembling sensation in bowels. Enlargement of liver and spleen. Small tumor in region of spleen.

Back - Backache, tired lameness of legs. Tabes dorsalis from sexual excesses.

Causations - Ill effects of worry, anger, fright, emotional disturbance. Chorea from fright. Loss of business, reputation and embarrassment. Illness or death of a near friend. Sexual excess, sexual abuse.

Chest - Burning in chest. Tightness of chest when breathing.

Constitutions - Nervous constitutions. Children who can swallow solids with ease from birth, yet choke when they try to drink.

Cough - Cough dry, hard and almost incessant. Dry, fatiguing, paroxysmal cough. Dry, spasmodic cough in

weak, nervous children. Dry cough due to reflex action from stomach, intestines or uterus. Hacking cough at night. Whooping cough. Nervous cough during pregnancy.

Ears - Hardness of hearing. Ringing in ear. Sounds echo in ears, headache. Roaring synchronous with pulse, at night.

Eyes - Eyes sunken, lusterless, gaze fixed. Eyeballs move in every direction. Squinting after night terrors of children. Vision dim. Pupils dilated, with heavy lids and drowsiness. Vessels of fundus enlarged, conjunctiva congested.

Face - **Acne in young people**. Acne worse before menses. Pimples on face, cheeks and forehead. Bluish-red eruptions. **Itching pimples, pustules leave scars**. Complexion yellow, cachectic. Face flushed. Face pale, appeared as one drunk

with hallucinations. Expression wearied, anxious, dull, stupefied, imbecile, expressionless. Papular rash.

Female - Menses scanty. Epileptic attacks at or near menstrual periods. Menorrhagia with strong sexual desire. Headache, insomnia, and heat in genitals after menses. Metrorrhagia. Flooding in young women with sexual desire. Sterility from excessive sexual indulgence. Sexual feeling lost. Aversion to sex (Sep.). Excessive sexual desire during menses. Nymphomania during puerperal state. Pruritus of external genitals. Voluptuous itching, tingling and irritation in external genitals. Ovarian neuralgia. with great nervous uneasiness from ungratified sexual desire. Cystic tumors of ovaries. Ovarian swelling, tenderness of left ovary. Uterine fibroids. Induration of uterus. Enlargement of uterus. Subinvolution. Vaginismus. Convulsions during labor. Painful heat flushings and congestion to head during menopause.

Food - Taste foul, salty, lost. Intense thirst with dry mouth. Dysphagia of liquids (Hyos.). Troublesome pressure at stomach after dinner, lassitude. Anorexia.

Head - Heaviness of head, confusion, slow speech, staggers as if drunk. **Numbfeeling in head**, worse occiput. Severe throbbing, aching, in occipital region. Headache from concussion of brain. Headache after epileptic attack. Migraine with flushed face, throbbing temples, injected conjunctiva, photophobia. **Congestive headaches**. Mercurial headache. Brain irritated. Anemia of brain from loss of fluids. **Symptoms of apoplexy**. Constrictive sensation in brain as if too tight. Drooping of head, cannot hold it erect. Incipient meningitis. Hydrocephalus. Scalp feels tight. Seborrhea. Pityriasis.

Heart - Weakens the heart and lowers temperature. Feeble heart with intermitting action. Action of heart slow and fluttering. Heart's beat weak, sounds distant and feeble. Pulse, accelerated, later becomes slower and small. Cardiac neuroses from spinal or uterine irritation.

Kidneys - Diabetes mellitus (Ph-ac.).i Urethra numb, sensibility diminished. Incontinence of urine. Involuntary nocturnal emissions of urine. Neuralgia of neck of bladder. Urine profuse with thirst. Urine copious, pale, abundance of phosphates. Urine scanty, even suppressed in collapse. Urine dribbling a few drops at beginning of every stool.

Limbs - Jerking and twitching of muscles. **Fidgety hands**, busy twitching of fingers. Hands and fingers in constant motion. Trembling of hands during voluntary motion. Unsteady gait. Cannot stand erect, legs weak.

Lungs - Asthma with dry cough, tosses arms about wildly. Asthma of nervous origin. Spasmodic asthma of children. Infantile capillary bronchitis with severe dyspnea. Pneumonia in alcoholics. Great dyspnea, breath hot, hurried. Spasmodic croup. Cough dry, fatiguing, hacking cough at night. Copious, whitish expectoration in torpid cases of bronchitis. Reflex cough during pregnancy.

Male - Spermatorrhea. Chordee during gonorrhea. **Effects of sexual excesses**, especially loss of memory, impaired co-ordination, numbness and tingling in limbs. Lessened desire, debility and impotence, with melancholy, epilepsy, nervous prostration. Lascivious fancies and dreams. Erections at night, with backache, uncontrollable fidgetiness. Impotence with melancholy, loss of memory, nervous prostration, epilepsy. Excessive sexual desire with constant erections at night. Satyriasis. Sexual excitement during partial slumber.

Modalities - Better when busy mentally and physically. Skin better in cold weather. Worse from mental exertion. Worse from emotions, anger, fright, worry, grief. Worse at night. Worse at 2 a.m. Worse periodically, new moon. Worse at summer, hot weather. Worse from puberty. Worse before, during and after menses. Worse unsatisfied sexual desire. Worse sexual excess. Cough worse lying down.

Mouth - Fetid breath, a peculiar sickening odor, profuse saliva. Suppressed salivation in teething children. Foul, salty taste. Loss of taste. Numbness. Difficult speech, stammering.

Nose - Smell impaired. Erythematous swelling of nose. Coryza with tendency to extension into throat. Thick mucus and yellow scabs in nostrils.

Perspiration - Sweat abundant, viscid, all over, long lasting and exhausting (ague).

Rectum - Asiatic cholera, first stage, vomiting, cramps, rice-water discharges. **Cholera infantum** with reflex cerebral irritation, jerking and twitching of muscles. Persistent diarrhea, much blood expelled. Painless diarrhea, with great chilliness, even in a hot room. Constipation, stools very dry, hard and infrequent. Painful

hemorrhoids. Blind hemorrhoids, intensely painful varices with black stools. Fissure of rectum and painful growths. Spasmodic stricture of sphincter ani. Rectal polyps.

Sensations - Parts feel as if growing large. Paroxysms of numbness, feels as if needles were pricking him. Trembling sensation.

Skin - Anesthesia of skin. Skin cold, clammy. **Acne simplex** and indurated, bluish red, pustular, worse on face and chest. Acne of face, cheeks and forehead. Pimples leave scars. Itching, worse on chest, shoulders and face. **Psoriasis**, syphilitic psoriasis. Moist eczema of legs. Moist eruptions, scars remaining after eruptions. Eruption of small boils in successive crops with troublesome itching. Large indolent, painful pustules, boils. Seborrhea. Pityriasis. Rose-colored eruption on lower limbs. Long lasting scrofulous ulcerations. Sebaceous cysts. Scars remaining after eruptions.

Sleep - Extreme drowsiness. **Insomnia**. Sleeplessness due to worry, grief and sexual excess. Sleeplessness in anemic patients or nervous persons. Sleepless, restless can only calm herself by incessant occupation. Sleeplessness during convalescence from acute diseases. Restless sleep. Deep, profound sleep. Grinding teeth in sleep. **Night terrors in children, awake screaming, unconscious, recognizes no one**, followed by squinting. Sleepwalking in children. Waking with severe headache in a child. Horrible dreams.

Stomach - Dyspepsia. Weakness of stomach. **Persistent hiccough** (Sul-ac.). Vomiting of all drinks and intense thirst, with cholera infantum. Vomiting with intense thirst after each meal. Vomiting of mucus. Hysterical vomiting after exciting emotions. Vomiting of alcoholics after a debauch. Morning sickness.

Stool - Green, watery, rice-water stools with rapid collapse, painless. Frequent, green, water stools, with violent abdominal spasms. Bloody mucopurulent diarrhea. Stools painless.

Teeth - Odontitis of children. Difficult dentition in children, with vomiting and diarrhea. Gums as if numb. Grinding teeth in sleep with moans and cries.

Temperature - Body cold, skin corrugated and mottled. Cold limbs. Shivering with cold and cold skin. Heat like cold stage, not very strongly marked. Head hot. feels as if in a furnace with coldness and chills. Chilliness in a hot room and itching during high fever. Painful hot flushing of the face during menopause.

Throat - Congestion of uvula and fauces, then edematous. **Anesthesia** of fauces, pharynx and larynx. Hoarseness, extremely painful and disagreeable. Dryness of throat. Dysphagia of liquids, can swallow only solids, especially in children (Hyos.). Laryngismus stridulus, uncomplicated, from neurosis or reflex irritation. Spasmodic croup. Chronic catarrh. Diphtheria with quick pulse, fever, dry tongue, and offensive breath.

Tongue - Tongue protrudes with a jerk, chorea. Tongue is red, brown, dry, enlarged, tender. White tongue.

Vertigo - Vertigo, as if ground gave way, worse stooping. Vertigo with palpitations, nausea and even unconsciousness. Dizziness, noises in ear, nervous excitement, sleepless. Staggering gait.

COMMENTS - Kali-br. has a very profound action on the generative organs and the mental side of the generative sphere causing sensual, lascivious fancies, satyriasis and nymphomania, and finally impotence and wasting of the sexual organs.

Epilepsy, particularly cases associated with sexual excess or abuse in men and those in which the fits occur during or near the menstrual period in women. Epilepsy after fright, anger, or childbirth. Can be affected by phases of the moon. Headache after the attack.

Spasms from fright, anger or emotions. Spasms in nervous, plethoric persons during childbirth. Staggering gait, ataxia, numbness and tingling in legs and spine with increase in sexual appetite.

Paralysis with twitchings of the limbs. Fidgeting of the hands and feet (Hyos.). Reflexes are diminished and there is loss of general sensibility and also of certain parts, particularly fauces, larynx and urethra. Numb sensation of the brain.

Schizophrenia, manic depression. Suicidal depression. Depressed, melancholic, uncontrollable weeping. Laughing and crying fits. Disordered faculties. Fear of going insane, fear of losing mental or emotional control. Memory loss, amnesia (Anae.). Aphasia.

Chronic insomnia, especially in the elderly (Calc., Ars.). Insomnia due to worry, mortification, grief, financial shock and loss (Aur.). Restlessness and sleeplessness from worry. Drowsiness.

Deep sleep may be broken by a start, though waking is very difficult. Confused dreams. Night terrors in children where they scream, without recollection of the terror (Tub., Calc.). Grind teeth and moan while sleeping. Sleepwalking.

Cholera infantum with hydrocephalic symptoms. Dentition. Whooping cough. Bright's disease. Acne, particularly relating to hormonal changes. Sebaceous cysts and wens. Growths.

Ovarian cysts, fibroids and fatty tumors. Uterine hemorrhage, with ovarian tumors.

Metrorrhagia or menorrhagia, may arise from reflected irritation and may be accompanied with sexual excitement.

Hering noted that Kali-br. is useful for "flooding, especially in young women."

Amory Hare noted that pulmonary edema or suffocative bronchitis may develop in the lungs. The patient may become cachectic and the condition can resemble typhoid fever.

Wenzel Heyberger recorded a case of diabetes in a woman, 68, cured with Kali-br. The patient had been ill five months and was reduced to a skeleton. She first noticed a remarkably good appetite, but after meals had heartburn and belchings.

She had polyuria and frequent disturbances at night to pass water. Weak in the head, confused, memory impaired. Vision was almost gone. Rushing and roaring in ears. Tormenting thirst. Stools difficult and delayed. Powders medicated with Kali-br. 2c were given, one every six hours.

The first night the patient slept without disturbance and the quantity of urine and proportion of sugar diminished. After about six weeks, the improvement seemed to stop and Kali-br. was given in allopathic doses, but this aggravated the condition. Kali-br. 2c was resumed and the case went to a cure.

Hale cured with Kali-br. many cases of cholera infantum and one case of "violent periodic umbilical colic, leaving tenderness on pressure." The characteristic hour of recurrence was 5 p.m.

Buford used it extensively in such cases and in potencies approaching the crude form. Kali-br. is more particularly adapted to persons inclined to obesity, to children, and to nervous women. More symptoms have been noted on the right side than on the left.

RELATIONS - Kali-br. is **Antidoted by:** Vegetable acids, oils, Camp., Nux-v., Zinc. **It antidotes:** Lead poisoning. **It follows well:** Aeon, and Spong, in croup, Eug. in acne. **Compare:** (1) Camph. Am-br., Aur. (2) Bor. - night-terrors. (3) Kali-c. - persons inclined to obesity, also Am-c., Calc., Graph. (4) Kali-i. - acne, syphilis, Kali-p. and Calc. - night terrors. (5) Hyos. - mania, excited sensorium

without inflammation of brain, fears being poisoned, sees ghosts, sexual excitement. (6) Plat. - sees ghosts, demons. (7) Arg-n. - fearful apprehensive mood, imagines cannot pass a certain point. (8) Glon. - fears being poisoned, also Rhus-t. (9) Staph. - mental depression, weakness of legs from masturbation. (10) Gels. - incoordination of muscles. (11) Con. - nervous cough during pregnancy. (12) Bov., Stram. - slow, difficult speech, stammering. (13) Ip. - cholera infantum. (14) Zinc. - fidgety restlessness, Zinc, of feet, Kali-br. of hands. (15) Tarent. - reflex symptoms, any little irritation such as dentition or indigestion may causes convulsions. Fidgety hands.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***KALI CARBONICUM

(Potassium Carbonate)

PHARMACY - kali-c. Kali carbonicum. Potassium carbonate. Potassic carbonate. Salt of Tartar. Solution. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Amenorrhea. Anemia. **Asthma.** Axilla, perspiration. **Backaches.** Bilioussness. **Bronchitis.** Catarrh. Chilblains. **Colds. Coughs.** Debility. Dropsy. Dysmenorrhea. Dyspepsia. Ear, inflammation. Eyes, inflammation. Face, blotches. Fears. Freckles. Hair, disorders. Headaches. Heart, disorders. Hemorrhage. Hemorrhoids. Hip joint disease. Hydrothorax. Hysteria. Kidneys, disorders. Larynx, catarrh. Leucorrhea. Liver, disorders. **Lumbago.** Lungs, disorders. Menopause, disorders. Menorrhagia. Metrorrhagia. **Pleurisy.** Pleurodynia. **Pneumonia.** Pregnancy, disorders. Premenstrual, syndrome. Sciatica. Sleeplessness. Spinal, irritation. Stomach, disorders. Stomach, pain. Throat, sore. Toothaches. Tuberculosis. Typhoid. Urination, frequent. Urticaria. Uterus, cancer. Wens. Whooping cough.

HOMEOPATHIC - Kali-c. is potassium carbonate. sometimes called "vegetable alkali," and existing in all plants. It was originally obtained from the ashes left after burning wood and vegetable structures, although it is not limited to vegetable structures.

Kali-c. is typical of the Kali group of rem-

Kali carbonicum edies. The potassium salts have an affinity for solid tissues and blood corpuscles. The fibrous tissues and ligaments of the joints, uterus and back are particularly affected. Tissues are often relaxed, joints give way, the back feels as if broken, the patient feels compelled to lie down or lean on something.

Goullon specifically mentioned Kali-c. usefulness in chronic laryngeal catarrh and knee conditions. Useful for conditions of the uterus, heart, lungs, pleura, bronchi and larynx.

Keynote sweat, backache and weakness. Weakness of the muscles, heart, the back, limbs, weakness of intellect. Useful for patients with vague symptoms, or for those who withhold their symptoms. Soft pulse, coldness. General depression. Soporific.

Sharp stitching, cutting pains. Jerking, stabbing or catching pains, better by motion, worse during rest and lying on affected side. Stinging pains from within out, in muscles and internal parts. Throbbing pains, numbness or coldness of single parts, abdomen, fingers. Pain in small spot, on left side, on uncovered parts. Parts lain

on are painful or go to sleep.

Twitching of the muscles, rigidity and atony of the muscles. Convulsions, seems to pass off with belchings. Tendency to start with a loud cry, when touched, even lightly, especially in the soles, which leads a thrill throughout the whole body. **Giving- out** sensation.

Tendency to dropsy. Bag-like swellings over the eyes, between the eyebrows and the upper lids. For fleshy, elderly people with dropsical and paretic tendencies. Fatty degeneration. Hypothyroidism.

Tuberculosis. Tubercular diathesis. Old gouty cases, advanced Bright's. Discharges are profuse and acrid. Sudden unconsciousness. Closing of ulcers or fistulous openings, catching cold and over strain. Disposition to phlebitis.

Goullon noted the importance of this polycryst in female complaints. It is similar to Sep., although it differs in having pains and trouble before protracted and frequent menses. Menopausal flushings, associated with disturbance of the heart, violent palpitations. Miscarriage, and the consequent debilitated states. Useful after labor.

Sensitive to every atmospheric change and **intolerance of cold weather.** Early morning aggravation. Generally worse 2 a.m. to 4 a.m.

MIND - Obstinate and dogmatic. Narrowminded, rigid, strong imprinted beliefs. Deep desire for routine, propriety. Impractical, stoic. Refusal to admit to sickness. May mislead others by acting healthier than they are.

Antagonism with herself. Quarrels with family. Peevish and irritable, after sex. Impetuous. Desire **for company, yet treats them outrageously** and worse from consolation.

Alternating mood, at one time good and quiet, at another excited and angry at trifles. Frequently hopeful, frequently despondent. Indifference with bodily exhaustion. Sadness in open air. Great depression. Want of self-confidence.

Mental dullness. Weakness of memory for expressing oneself. Impaired intellect. Absentminded, forgetful. At a loss to know how to say what she wishes. Sudden attack of unconsciousness. Sensation as if bed were sinking. Desire to be carried.

Full offear and imaginations. Frightened from touch. **Fear of death when alone.** Imagines himself sick. Fears of the future, of the unknown, of ghosts. Fear of losing control. Kleptomania.

Anxiety, in stomach. Anxious about his own diseased condition. Anxiety from flatulence when lying on right side. Anxiety, excitement when hungry. Nervous excitability, hysteria, sudden shrieking.

Hypersensitive to pain, noise touch. Easily startled, starts when touched especially on feet, on dropping to sleep. **Starting from noise.** Never quiet or contented. Admonitions causes weeping. Weeping when telling of her sickness. Weeping with headache. **Abdomen** - Yellow, scaly spots on ab

domen. **Distension and coldness of abdomen.** Hard, tympanitic and cold.

Abdomen feels as if it would burst. Hard distension of abdomen with painfulness

Kali carbonicum of umbilical region. Throbbing at navel. Much flatulence. Incarceration of flatus with colic. Pain from left side through abdomen, must turn on right side before he can rise. Cutting pain as if intestines were torn. Feeling as if a cold fluid passed through intestines during menses. Sensation of a lump rising from the abdomen, to throat and on coughing. Swelling of inguinal glands.

Back - Backache as if broken. **Severe backache before and during menses, during pregnancy, labor or after a miscarriage.** Stiffness and paralytic feeling in back. Backache with weak feeling, must lie down.

Backache, must rise in order to turn over in bed. **Lumbago** with sudden sharp pains extending up and down, back and down the thighs. **Lower back feels weak.** Burning in spine (Gua.). Spine painful while eating. Pulsations in back. Gnawing pain in coccyx. Pain in buttocks and thighs and hip joint. Sharp pain in region of kidneys and right scapula. Tearing pain in lumbar region, impeding respiration. Swelling of cervical glands.

Breasts - Fine stitches in breasts. **Swollen, sensitive and painful breasts,** before menses.

Causations - Ill effects of suppressions of eruptions in childhood. Never well since pneumonia, catching cold, overstrain.

Chest - Angina pectoris. **Stabbing, stitching pains.** Cutting pain in chest, worse lying on right side. Sore pain in chest. **Coldness of chest.** Lungs seem to stick to the ribs. **Whole chest very sensitive during coughing.** Weakness of chest from rapid walking, also tightness and oppression. Dull, painful stitches in chest. Pressure in the chest. Small pimples on chest and back. Painful swelling of axillary glands. Sweat in axilla. Hydrothorax. Pleurisy.

Constitutions - Suited to dark haired, aged persons of lax tissue, inclined to be fat. To diseases after childbirth or after loss of fluids. Suited for those who are thin blooded, cold, sensitive to atmospheric changes to every draft of air, always shivering with dropsical and paralytic tendency. Tubercular diathesis.

Kali carbonicum

Coughs - **Dry, hard, suffocative, choking cough about 3 a.m. with sharp pains.** Tormenting cough, wakens from sleep. Cough with acute pain in chest. Cough with relaxed uvula. Incessant, hard retching or choking, futile cough, then vomiting. Spasmodic cough with gagging or vomiting of ingesta and sour phlegm. Cough after measles, worse eating or drinking.

Ears - Stitches in ears from within outwards. Itching in ears. Purulent discharge from ears. Discharge of yellow liquid cerumen. Right ear is hot, left is pale and cold. Itching, cracking, ringing and roaring. Noises in ear with headache. Noise is disagreeable. Intolerance of human voice.

Eyes - Asthenopia. Sharp pains in eyes. Pressure in and above eyes. Eyes as if pressed inward, while reading. Soreness of external canthus, with burning pain. Small round ulcers on cornea. Painful sensation of light penetrating the brain on shutting the eyes. Deep pain in eyes, with lachrymation and photophobia. Lachrymation when yawning. Lids stick together in morning. **Swelling of eyelids.** Enormous bag-like swelling under and over eyes. Swelling of glabella between brows. Cold eyelids.

Face - Haggard, exhausted look. Bloating in morning. Pale, sickly, sallow with sunken eyes. Freckles. Light brown spots, old warts, papulous eruptions. Pimples on face and eyebrows, with redness and swelling. Inflammation and swelling of parotids. Swelling of lower jaw and submaxillary glands. Tearing stitches in cheek. Cramps in jaws. Drawing pain in face. One cheek hot, the other cold. Scurf on upper lip. Lips peel, chapped.

Female - Amenorrhea with backache. Difficult first menses. Menses, delayed in young girls with chest symptoms and ascites. Suppressed menses with anasarca or ascites. Itching of vulva before menses.

Premenstrual syndrome, swollen breasts, water retention. Menses irritating, pungent odor. Violent colicky pain before menses. Menses, early with profuse discharge (Calc.). Menses too late,

Kali carbonicum pale, scanty with soreness about genitals. Profuse and long-continued menses of bright red blood. Menorrhagia, better taking bath. Uterine hemorrhage, constant oozing after copious flow with violent backache, relieved from sitting and pressure. Hemorrhages after curetting or other treatments. Leucorrhea with labor-like pains causing itching and burning, better washing. Soreness of genitals during sex and during menses. Uterine tumors, cysts. Eclampsia, better belchings. Impending miscarriage with pains from back into buttocks and thighs. **Labor pains inefficient. Labor pains felt in back,** down the hips and thighs. **Complaints after childbirth or miscarriage.** After miscarriage, when there is great weakness of back. Puerperal fever with cutting pain in hypogastrium with black and scanty urine. Promotes expulsion of moles.

Food - Disgust for food or ravenous appetite. When hungry, feels anxious, nauseated, nervous, tingling, palpitation etc. Wants to eat frequently but least food oppresses her. Disgust for food. Milk and warm food disagree. Diarrhea worse milk. Ice water disagrees. Aversion to meat. Desire for sweets or acids.

Head - Burning in top of head and soles of feet. **Headache from riding in cold wind.** Headache comes on with yawning. Wakes from headache. Headache into eyes, worse motion, sneezing, coughing, stooping, yawning. Headache better when raising the head and pressing the forehead. Headache on riding in carriage. **Catarrhal, congestive headaches,** better free discharge from nose. One-sided headache with nausea. Throbbing and humming. Sensation as if something loose in head, turning, twisting towards the forehead. Aching in occiput. Sharp pains in forehead, temples. Pressing as of a stone in forehead and vertex. Pressure and drawing tearing in forehead. **Great dryness of hair.** Hair, dry, falls out (Fl-ac.) from eyebrows, temples and beard. Painful tumors on scalp. Wens on scalp.

Heart - Angina pectoris. **Tendency to fatty degeneration of heart.** Dyspnea with violent and irregular beating of heart. Threatened heart failure. Insufficiency of mitral valves. Pulse is small, soft, variable, intermittent or dicrotic. **Weak, rapid pulse intermits,** due to digestive disturbance. Heart's action intermittent, irregular, tumultuous, **weak. Arrhythmia.** Palpitations, then weakness, in valvular disease. Palpitations and burning in heart region. **Palpitations on slightest effort.** Violent palpitations, shakes the whole body, throbbing extending to fingertips and toes. Sensation as if heart were suspended, seems to hang by a thread. Sharp pains about heart and through to scapula.

Kidneys - **Sharp pain in kidneys,** going from buttocks to thighs. Burning in left kidney. Nephritis from exposure to cold or injury. Pressure on bladder long before urination, the more it is pressed less the urine flows. Slow urination with burning in urethra. **Urine, foamy with thick red sediment.** Rises several times at night to urinate. Nocturnal bedwetting of adults. Involuntary urination when coughing, sneezing, etc.

Limbs - **Arthritis.** Deformative arthritis, worse in small joints. Rheumatic joint pains. Nightly rheumatic pains. Sharp, aching pains in the joints and tendons. Pressive pain in joints. Limbs go to sleep easily. **Back and legs give out.** Limbs feel numb and heavy. Uneasiness, heaviness, jerking, tearing and swelling in limbs. Limbs sensitive to pressure. Jerks the limbs, especially when the feet are touched. **Cold hands and cold feet in bed.** Sciatica, tearing pain in the thighs with jerking of muscles. Paralysis of elderly people and dropsical disorders. **Hip joint disease.** Weakness in arms, feel numb, cold. Tearing in arms from shoulder to wrist.

Lacerating in wrist joint. **Pain from hip to knee.** Knees painful, worse going downstairs or upstairs. White swelling of knees. **Soles very sensitive.** Itching of great toes with pain. Spasmodic contraction of fingers and toes. Tips of toes and fingers

Kali carbonicum painful. Burning like fire in fingers.

Liver - Sharp pain or soreness. Chronic liver troubles, with soreness. Jaundice and dropsy.

Lungs - Shortness of breath in morning. Dyspnea, as if no air could get into lungs. Labored breathing, after paroxysms of **cough. Arrest of breath awakens at night.** Leaning forward relieves chest symptoms.

Asthmatic, wheezing, worse least motion or walking. Asthma, worse from 2 a.m. to 4 a.m. Asthma, alternating with diarrhea with vertigo. **Asthma, better when sitting up or bending forward.** Asthma, better from rocking back and forth. Asthma with loss of appetite. **Tendency to colds, better in warm climate.** Bronchitis, whole chest very sensitive. Pneumonia. Pneumonia, after measles. **Never well since pneumonia.** Pleurisy. Pleuritis with violent palpitations. **Hydrothorax.** Tendency to tuberculosis. Whooping cough. Expectoration must be swallowed, cheesy taste, copious, offensive, lumpy. Expectoration scanty and tenacious.

Male - Copious, painful pollutions with painful erections. Strange, uneasy feeling in genitals. Chronic gonorrhea, painful scanty discharge, burning during and after urination. Complaints after **sex. Excessive emissions, followed by weakness.** Prostration after sex, often with shuddering. Sleeplessness and uneasiness for 2 or 3 days after sex. Aversion to sex.

Modalities - Better in warm weather, warmth, open air, moving about, sitting with elbows on knees. **Worse from cold air,** cold weather, draft, change of weather, after overheating. **Worse 2 a.m. to 4 a.m.,** lying on left side, **lying on painful side.** Worse exertion, sudden or unguarded motion, touch, stooping, sex. Worse soup, coffee, water, loss of fluids. **Worse since pneumonia.** Worse before menses, **after childbirth, miscarriage.**

Mouth - Offensive odor from mouth every morning, like old cheese. Much saliva constantly in mouth. Bad, slimy taste. Mouth covered with painful, burning vesicles. Aphthae. General dryness of mouth without thirst, with stricture of

esophagus in gastritis. Sticking and biting in posterior portion of palate. Burning, soreness or painful pimples on tip of tongue. Gums separate from teeth. Itching in gums, pus oozes out.

Nose - Swollen, hard, red, covered with pimples. Itching, burning in nose. Sore, scurfy, crusty nostrils. **Ulcerated nostrils.** Dryness of nose alternating with obstruction. Chronic catarrh. Chronic colds. Breathes through mouth. Obstruction better walking in open air. **Stuffs up in warm room.** Descending coryza. Coryza during menses. Post-nasal dripping (Spig.). Fetid, thick, fluent, yellow-green, crusty discharge. Bloody nasal mucus. Nosebleed on washing face in morning. Ulcerative pain in right nostril.

Perspiration - Offensive or sour smelling sweat. Scanty sweat, foul on feet. Perspires on slightest exertion. General inability to sweat. Sweats on painful part, on affected part. Sweats mostly on upper parts. Sweats at night, without relief, with cough. Perspires on every mental exertion, reading, writing. Perspires after pneumonia. Perspires after eating. Easily sweats, excited by exercise during day. Warm drinks aggravates.

Rectum - Discharge of much flatus. Ascarides. **Constipation,** after or during menses, in women after frequent miscarriages or multiple and difficult childbirths (Sep.). Constipation alternating with diarrhea. Ineffectual urging to stool, rectum feels too weak to expel it. Chronic diarrhea of dyspeptics, only during the day. Painless diarrhea with rumbling in abdomen and burning at anus. Stitching like fine needles during pregnancy or red-hot poker in rectum, better cool bathing. Burning in rectum and anus. Itching of rectum (Ign.). Itching, ulcerated pimples around anus. Easy prolapse of rectum (Graph., Podo.). Anal fistula. Hemorrhoids, large, swollen, painful, burn like fire, Hemorrhoids **extremely sensitive to touch,** inflamed, bleeding. Pain in hemorrhoids when coughing.

Sensations - Sensation as if bed were sinking. Sensation of a lump rolling over on coughing, rising from right abdomen to throat. Pulsative pains and throbbings. Burning sensation and burning pains. Whole body as if it were hollow.

Skin - Skin dry, sensitive, itching, better scratching. Eczema eruption dry at first, but when scratched exuding moisture. Burning as from mustard plaster. General itching or hives during menses. Nettle rash before menses. Itching of warts. Tension, pressure, rending in scars. Herpetic spots on face. Ulcers bleed at night.

Sleep - Yawns with headache. Sleepiness during forepart of day and during day. Drowsy after eating, falls asleep while eating. **Sleeplessness from cough.** Nocturnal restlessness before menses. Restless, dreamful sleep during menses. Twitching of limbs, grinding of teeth, crying while sleeping. Talks in sleep. Wakes at 1 a.m. or 2 a.m., cannot sleep again. **Wakes at about 2 a.m. to 4 a.m.** with nearly all complaints. Horrid, anxious dreams with frequent awaking and desire to urinate. Dreams of water, thieves, misfortunes, diseases, dead people. Erotic, imaginative, fantastic, sentimental.

Stomach - **Anxiety felt in stomach.** Easy choking when eating. Gagging. Fullness even after little drink or food. Feeling of lump in pit of stomach. **Stomach feels as if it would burst.** Constant feeling as if **stomach were full of water.** Epigastric pain to back. Epigastrium is very sensitive externally. Gastric disorders from ice

water. Dyspepsia of old people, burning acidity, bloating. **Everything eaten seems to turn into gas.** Flatulence, distended and sensitive. Salty, sour regurgitation. **Sour belchings.** Sour eructations before menses. Nausea on every inward emotion. Nausea with faintness and anxiety. **Nausea, better lying down.** Nausea at sight of food, in morning. Vomiting of sour mucus, ingesta and slime. Nocturnal vomiting of food. Nausea during pregnancy.

Stools - Stools, difficult, large, hard lumps, with sharp pains. Stool like sheep's dung. Large discharge of blood with natural

stool. Stools followed by burning or torn feeling. Insufficient soft stool after much pressure most of it remains.

Teeth - Tearing, lancinating pains. Drawing pains. Tearing pain in teeth, jaws. Stitches in teeth with swelling of cheeks. Toothache only while eating. Toothache, alternating with stitching pains in left breast, only while eating. Looseness of teeth. Gums separate from teeth. Pyorrhea. Itching in gums, pus oozes out.

Temperature - Chills with dyspnea, hot hands and sleepiness in open air. Frequent shuddering during day. Chilly in morning. Internal heat with external chilliness. Internal burning. Fever with surging of blood or throbbing in blood vessels. Fever with dyspnea.

Throat - Dry, parched, rough. Hoarseness and loss of voice. Stricture of esophagus. **Swallowing difficult,** food slowly descends, remains halfway in esophagus with gagging and vomiting. Small particles of food go easily in windpipe. Sticking pain as from fish bone or splinters. Stinging pain when swallowing. **Sore throat, always takes cold and the cold settles in throat.** Throat feels as if squeezed, as if lungs came into throat. Catarrhal aphonia with violent sneezing. Scratching and stinging in throat and chest during cough. Hawks up tough mucus in morning. Tonsils enlarged. Swelling of cervical glands.

Tongue - Tongue, gray-white. Tip of tongue burns as if raw. Burning, soreness or painful pimples on tip of tongue. Tongue covered with painful, burning vesicles. Tongue coated gray, in sick headache.

Vertigo - Vertigo on turning around, when rapidly turning head or body, when walking. Vertigo from riding in a carriage. Vertigo, as if proceeding from stomach. Must lie down as soon as vertigo comes on, otherwise he is thrown down. Vertigo, as after intoxication.

Vision - Vision weak after measles, miscarriage, **after sex.** Spots, gauze and black points before the eyes. Bright sparks, blue, green spots, drops. Muscae volitantes while reading or looking at a bright light. Sees sparks, during cough. Can't fix sight of any object steadily without water running from eyes and feeling of dizziness.

COMMENTS - Generally very sensitive to changes in weather, particularly sensitive in affected area. Chilly, tendency to take cold. Symptoms worse when body temperature is low, aversion to open air. Very sensitive to drafts, will catch a cold at every little draft. Cannot tolerate drafts (Nux-v., Calc., Hep., Sulph.).

Easily startled by any noise, especially if unexpected. Cannot bear to be touched, starts when touched ever so lightly, especially on the feet. Generally right sided, particularly the base of the right lung, and the apices, according to Goullon. Worse exertion.

Characteristic sweat, backache and weakness, particularly in conditions of debility from loss of fluids. Keynote bag-like swellings or puffiness around the upper eye, eyebrow, can be between the eyebrows. Alternating symptoms. Organ pathology due to suppressed mental symptoms.

Constant backache, with a giving out feeling in the back and legs, or as if the back was broken. The pain may extend downwards to the buttocks and even to the knee. Pain from hip to knee (more especially if right sided). Lower backache, especially during labor, menstrual cramps.

Lumbago. Hip joint disease. Spasms, puerperal convulsions and paralysis. Twitching of muscles, rigidity of muscles, muscular atony. Disposition to over lifting.

Stitching pains, pulsations, better by pressure and by lying flat on the back. Sharp, stabbing pains that are worse motion. Sticking, burning, sharp pains like knives or needles. Sharp pains, wandering and stabbing, especially with arthritis.

Osteoarthritis, deformative arthritis and migratory arthritis, pains that go from joint to joint. Burning and stabbing pains in the fingers and toes. Gout, gouty arthritis. Stiffness in neck and shoulders. Pain worse motion, with sharp pains. Edema. Peripheral edema, varicose veins.

Affinity for tissues. Tumors, cancers and fibroids. Affects the blood and circulation. Anemia with great debility, skin watery, milky white. Hemorrhages.

Dropsical disorders. Ulcers, bleeding at night.

Throbbing of blood vessels all over body and to ends of fingers and toes. Irregular heart. Fatty degeneration of the heart and other muscles. Sensation as if the heart were suspended by a thread. History of heart attack. Great affinity for the lungs. Pneumonia and pleurisy (Bry.), worse coughing or movement, better pressure. Chronic respiratory problems in the elderly (Phos.). Sharp, stabbing, and stitching pains in the lungs. Oppression of breathing. Shortness of breath. Asthma, better sitting up in bed or on all fours. May sit up in bed

with pillows (Ars.), may sleep sitting up.

Coughs worse from 2 a.m. to 4 a.m. Dry, paroxysmal cough, loosens viscid mucus or pus which must be swallowed. Spasms with gagging or vomiting of ingesta. Expectoration of hard, white or smoky masses, which fly from the throat when coughing, with globules of pus.

Tendency to sinus headaches. Useful for sick headaches. Violent headaches about the inner temples, violent stitching or jerking pains, on one side of the head or both. Onesided headache with nausea. Pressure and drawing in forehead extending into eyes and root of nose. Congestion to head and heat of face often accompany the headaches.

Toothache, only when eating. Easy choking, food easily gets into windpipe. Difficulty swallowing. Pain in the back when swallowing. Fish bone sensation in the throat, general tendency to stitching pains.

Disordered digestion, flatulence, distention, constipation. Gas, bloating, craving for sweets (Lyc.). Intolerance for milk, aversion to brown bread. Colic pains, severe colitis. Lack of muscular control especially with urologic things. History of diabetes.

Premenstrual syndrome with bloating, water retention. Very sensitive breasts, painful before the period. Backache with period, or

preceding period. Insufficient labor pains, transferred labor. Labor pains felt in back (Cimic., felt in thighs).

Insomnia, cannot relax, without reason. Unrefreshed sleep. Drowsiness, while eating. Worse after sex, feel weak and prostrated (Sil., Calc.), sleepless after sex. Complaints after sex in males, especially complaints of the eyes.

One case of a headache that Clarke cured was better by lying down, better by a tight band around the head.

A man had an ulcer of the right leg with swelling of the ankle and he complained of waking at 2 a.m. Kali-c. 30c cured, but in the meantime he developed a great weakness of the right thigh, as if it would give out when walking.

The symptom "pain from the hip to the knee" led to a cure in a woman, 73, stout, short, pale and of very soft tissue, who had for four months suffered from rheumatic pains, and an offensive vaginal discharge.

A local practitioner was consulted and pronounced it cancer of the womb in an advanced stage and gave her four months to live. She described to Clarke the pain as being all around the lower abdomen and a "dull, heavy, depressing, dead pain, commencing at the inner part of the top of the right hip, iliac crest and extending to the knee."

The pain was so severe it made her feel quite sick and faint. The discharge was very offensive like decaying meat. Great weakness and trembling accompanied the discharge. Urine was almost like blood at times, and had a sandy sediment.

Kali-c. 1,000c. was given and at once improvement set in. In a few months all the bad symptoms had disappeared and never returned. The patient lived ten years after this episode.

Id of Stettin, Germany, recorded the case of a woman, 65, who suffered from chronic bronchial catarrh and emphysema. In November, 1886, she had asthmatic complaints, depriving her of sleep with cough and mucus expectoration difficult to raise.

She was so weary when eating that she fell asleep and could not finish her meal.

Tired after eating. In the morning, passed much flatulence. Kali-c. 10c removed the condition in a few days.

The following March after a cold there was a recurrence, but without the weariness, and Kali-c. failed. Ars. 15c rapidly cured.

The same patient also had a toothache alternating with tearing, stitching pain in left breast and under left false ribs. The side pains were worse at night, especially in evening as soon as she lay down, worse lying down, particularly worse lying on the right (painless) side. Not influenced by pressure or motion.

RELATIONS - Antidotes: Camph., Coff. **Compare:** (1) Kali-sal. - vomiting, especially of pregnancy, arteriosclerosis with chronic rheumatism. (2) Kali-sil. - gouty nodosities. (3) Kali-acet. - diabetes, diarrhea, dropsy, alkaline urine, very much increased in quantity. (4) Kali-cit. - Bright's disease-1 grains to wineglass of water. (5) Kali-ox - lumbago, convulsions. (6) Kali-pic. - jaundice, violent belchings. (7) Kali-t. - paraplegia. (8) Kali-tel. - garlicky odor of breath, salivation, swollen tongue. (9) Calc., Am-p., Phos., Lyc., Bry., Nat-m, Stann., Sep. **Complementary:** Carb-v. - lowness of vitality may suggest a preliminary course of Carb-v. to nurse up recuperation to the point that Kali-c. would come in helpfully. **Follows:** Nux-v. often in stomach and bladder troubles.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***KALI CHLORICUM

(Potassium Chlorate)

PHARMACY-kali-chl. Kali Chloricum. Potassium chlorate. Potassic chlorate. Trituration. Solution. **Historical**

dose: All potencies.

CLINICAL -Albuminuria. Anemia. Aphthae. Asthma. Cancrum oris. Clumsiness. Colic. Convulsions. Crusta lactea. Cystitis. Dysentery. Edema. Epithelioma. Facial, paralysis. Hangnails. Hematuria. Hemorrhages. Hemorrhoids. Hepatitis. Mercurial, poisoning. Mouth, inflammation. **Nephritis.** Neuralgias. **Noma.** Paralysis. Pharyngitis. Pimples. Proctalgia. Purpura. Scurvy. Stomatitis. Syphilis. Tic douloureux. **Toxemia.** Ulcers.

HOMEOPATHIC - Kali-chl. is not to be confused with the chloride that constitutes Schiessler's Kali-m. Hering amalgamated the symptoms of the two under the heading Kali- m., but Clarke kept them separate. Kali-chl. is an exceedingly active poison. It has long been used in the old school in solution as a wash for sore mouth and foul ulcers.

Hutchinson observed a number of cases in which it produced the very condition that it was give to cure, the "most acute ulceration and follicular stomatitis. The whole mucus surface was red and tumid and in the cheeks, lips, etc., were numerous gray-based ulcers."

Fatal poisoning has occurred, death occurring in convulsions. The blood is disorganized and after death, the liver, spleen and kidneys are found softened and filled with disorganized blood, this should give it a place in cases of lardaceous and fatty degeneration of solid viscera. The mouth, hypochondria and rectum are the most affected.

Profound prostration, coldness in different parts and organs. Easy hemorrhages, nosebleed, bloody stools etc. Hemoglobinuria. Anemia. Septicemia. **Noma.** Discharges are fetid. Gray, white, plastic exudates.

Chronic nephritis. Parenchymatous nephritis with stomatitis. Acute ulcerative and follicular stomatitis. Scurvy. Hepatitis. Lardaceous and fatty degeneration of liver, spleen and kidneys and other solid organs. **Toxemic conditions of pregnancy** with urinary symptoms.

MIND - Cheerfulness alternating with sadness. Confusion while walking in open air. Confusion from wine. Delusion he must starve. **Refuses to eat.** Desires death during chill.

Abdomen - Gripping colic with shifting of flatulence and diarrhea, followed by continuous rectal pain.

Chest - Constriction of chest, as from sulphur fumes.

Face - Swollen, she can hardly see in the morning. Neuralgic pains, worse talking, eating or slight touch, followed by numbness.

Heart - Coldness in precordial region. Right pulse full, left small. Coldness in blood.

Kidneys - Nephritis. Urine albuminous, scanty, suppressed. Albumin and bile, high phosphoric acid with low total solids. Hematuria, diuresis.

Limbs - Ankles swell in the evening. Arms, feet cold.

Modalities - Better from nosebleed, mental symptoms. Worse from cold, coughing, sneezing, ajar, mercury.

Mouth - Whole mucus surface red, tumid with gray-based ulcers. **Stomatitis,** aphthous and **gangrenous.** Fetor. Noma. Scurvy. Salivation, profuse secretion of acid saliva. Tongue, swollen, cold. Mercurial stomatitis (as a mouth wash).

Nose - Bleeding at night, only from right nostril.

Rectum - Diarrhea, profuse, greenish mucus. Gripping colic with shifting of flatulence and diarrhea, followed by continuous rectal pain. Dysentery, much blood passing with mucus, profuse greenish. Cries with violent cutting pain in the rectum in dysentery and diarrhea.

Skin - Cold. Jaundice. Discolored, chocolate tint. Pimples between lip and chin. Itching miliary or papular eruptions.

Stomach - Sudden, incessant vomiting of all food, of offensive dark green mucus. Stomach cold. Sensations of a weight in the epigastric and umbilical regions. Flatulence.

Throat - Cold feeling in throat.

COMMENTS - Rushmore recorded a proving of Kali-chl. in an unmarried woman, 50, short, brunette, who had goiter in early life, which disappeared under the application of iodine. Later on, a fibroid tumor developed in the uterus. For this the patient was advised to take crude potassium chlorate, dissolved in water, daily.

Symptoms observed included an increased moral irritability. Felt dreadfully dull and stupid. Dizzy on stooping and rising. Slight headache over eyes, objects appear double, beside each other. Face swollen so she could hardly see on rising in morning. Smarting of tongue.

Kali-chl. took away her desire for acids. Diminished appetite. Much commotion and flatulence in abdomen. Increased urine.

Dreams of terrible things never thought. Great coolness, shivering on cold days, seemed as if it cooled off her blood. Clumsiness. General bloated feeling.

In the provers, great weakness manifested. Rheumatic and neuralgic pains, many occurring in the facial nerves. Facial paralysis. Pimples in various parts, between lip and chin. The heart was the seat of much disturbance, and a coldness was felt about the précordia. Disordered stomach and bowels. Excited sexual organs.

Allen credited Kali-chl. with the cure of "Dysentery with most violent cutting pains as from knives, frequent stools, tenesmus, making the patient cry out, evacuations very small, almost pure blood, great prostration."

Allen noted that it cured epithelioma of the face and of the great toe.

RELATIONS - Antidote to: Merc. **Compare:** (1) Especially Kali-m. (2) Caust. - facial paralysis. (3) Kali-bi. - follicular pharyngitis. (4) Zinc., Cadm-s. and Cact. - asthma with great constriction of chest. (5) Graph., Kali-n. and Nat-m. - cold feeling about heart.

REFERENCES - Boericke. Clarke. Phatak.

***KALI CHLOROSUM

(Javelle Water)

PHARMACY - kali-chls. Kali chlorosum. Javelle water. Bleaching fluid. Formula variable, contains potassium hypochlorate principally, chloride and some carbonate. Solution. **Historical dose:** All potencies.

CLINICAL - Aphonia. Asthma. Coryza. Diphtheria.

HOMEOPATHIC - The observations with Javelle water are from poisoning cases. The most notable symptoms were watery eyes, pale, puffy face, and constriction of the throat and chest. Much sensitivity. Sensitiveness of epigastrium and especially of larynx and whole anterior portion of neck. Cramps and restlessness.

RELATIONS - Compare: (1) Kali-chl., Calc- m., Chlor., Nat-hchls.

REFERENCES - Clarke.

***KALI CITRICUM

(Potassium Citrate)

PHARMACY - kali-cit. Kali citricum. Potassium citrate. Citrate of potash. Solution. Trituration. **Historical dose:** Trituration and all potencies.

HOMEOPATHIC - Kali-cit. has been used in solution (eight to ten grains to a wineglass of water) to assist the action of the kidneys in sufferers from Bright's disease who were under the absolute skim-milk dietary. It has also been used in the same way in old school practice, as a solvent for gouty concretions about joints.

COMMENTS - Kali-cit. has not been proved, but "Agricola" recorded the effect of a large dose given by an allopath to a patient suffering from suppressed kidney action after influenza.

In three days the kidneys acted freely, but new symptoms were set up including tympanites, a constant flow of mucus from the anus. Awful gastric and abdominal pains, "as if a machine were at work inside, skinning the inside of the stomach and the whole length of the intestinal tube" (Nit-ac.). Flatus was constant and in great amount, producing a pain of its own, which was a prominent feature.

REFERENCES - Clarke.

***KALI CYANATUM

(Potassium Cyanide)

PHARMACY - kali-cy. Kali cyanatum. Potassium cyanide. Cyanide of potash. Kali cyanidum. Kali cyanuretum. Solution. Trituration. **Historical dose:** All potencies.

CLINICAL - Aphasia. Asthma. Cancer. Cheyne-Stokes. Chills. Ciliary, neuralgias. Convulsions. Epilepsy. Eye, disorders. Facial pain. Headaches. Memory lost. Neuralgias. Rheumatism. Sciatica. Speech, lost. Strokes. **Tongue, cancer.** Vertigo.

HOMEOPATHIC - Commonly used in photography. As it is easily accessible, many cases of suicide and attempted suicide have occurred by its means. It is from the symptoms observed in such cases, as well as the provings by Lembke and others, that this remedy is understood.

Agonizing neuralgias, especially of orbital and supra-maxillary with screaming and loss of consciousness. Neuralgic pains are unbearable, more common in the temporal and facial regions involving the trigeminal nerve.

Ciliary neuralgia, trifacial neuralgia, tic douloureux. Epilepsy. General convulsions. Sudden convulsive action of whole body, about ten minutes after heart ceased to beat. Sphincters rigidly contracted.

Sudden sinking sensation. Sick headache. Stroke. Prolonged stupor. Intense vertigo, objects seem to be moving around him. Head drawn backwards, unable to tolerate any covering on head. Convulsive motion of eyelids and eyeballs. Pupils largely dilated and insensible to light. Obscuration of vision.

Cheyne-Stokes breathing. Asthma. **Cancer of the tongue** with indurated edges. Speech loss. Rheumatism. Sciatica, unsteady gait.

MIND - Gentle disposition. Irritability with absent persons. Crossness almost uncontrollable on entering room, but cold, open air produces good mood. Aphasia, inability to recollect certain words for several days. Lies on

floor in a deep stupor.

Abdomen - A feeling as if bowels were about to act. Pains in abdomen and groin in afternoon.

Back - Vague pain in neck. Marked weakness in lumbar regions with dull pain and weakness of iliac region, while walking and in afternoon.

Chest - Anxious feeling in the chest. Oppression of chest.

Ears - Rushing in ears.

Eyes - Eyes fixed. Eyelids began to open and shut alternately, eyeballs stared in different directions. Eyes closed, but on raising lids the eyeballs were seen to be in uninterrupted convulsive motion. Swelling of upper lids. Pupils largely distended and insensible to light. Obscuration of vision. Loss of sight, then double vision as sight returns. Diplopia.

Face - Severe neuralgia in temporal region, recurring daily at same hour. Pain in orbital and supra-maxillary region, with screaming and loss of consciousness.

Head - Head drawn backwards. Gnawing pain across temple. Sharp pains in occiput. Soreness of scalp over parietal regions. Unable to tolerate any covering on head, whether in the cold or warmth, because it causes a headache for months after.

Heart - Stitches in heart and lungs. Jerking stitches in heart on respiration. Palpitation of heart. Pulse at times fifteen beats slower than usual.

Kidneys - Bladder distended by a large amount of urine, which has to be evacuated by a catheter. Urine came away involuntarily.

Limbs - Unsteady gait. Limbs icy cold, rigid and convulsed. Limbs are flaccid with occasional convulsions more like a shuddering than anything else. Tetanic spasms of muscles of arms and legs.

Lungs - Cough prevents sleep, respiration weak, cannot take deep breath. Hoarse voice. Loud mucus rattle. Superficial respiration, slow and difficult breathing. Respiration nearly suspended, but thorax convulsively raised, at irregular intervals, far apart.

Modalities - Better from motion in open air. **Worse from 4 a.m. to 4 p.m.**

Mouth - **Cancerous ulceration of tongue** with indurated edges. Tongue has peculiar dark ground seen through heavy, white coating. Lips and mucus membrane of mouth pale. Slight frothing at the mouth. Difficult speech, power of speech lost but intelligence intact.

Nose - Inside of nose is parched, hot and dry. Expelling blood, blood drying quickly in nose.

Rectum - Bowels obstinately constipated, feces came away involuntarily.

Sleep - Sleepiness during day. Restless, dream filled sleep all night, could not lie on one side for any length of time. Dreams very lively, especially towards morning, can be horrid, exciting.

Stomach - Copious vomiting, followed by return of consciousness. Severe burning in stomach. Sharp gastric pains. Great sensitiveness of epigastric region. Pain at epigastrium of a griping intermittent character.

Temperature - Hands and face covered with cold perspiration. Surface of whole body cold and moist. Shivers. Coldness of limbs, pendulous and without muscular power. Chill on waking from naps, or wakes him before he can get soundly asleep, followed by a very slight sweat. Wakes 6 a.m. with heat and disagreeable feverish perspiration over whole body, except legs below the knees with flushed face.

Throat - Astringent sensation in throat with nausea, lasting until after midnight. Feeling of constriction about fauces, with muscular tremors about throat, great stiffness in throat after. Patient was able to swallow as soon as a large amount of fluid filled the pharynx, after every swallow the whole body was seized with convulsive tremors and flushes of redness spreading over the face. Had no sensation of act of swallowing.

Vertigo - Intense vertigo, so that all objects seemed to be moving around him.

COMMENTS - Stroke and epileptic symptoms (Hydr-ac.), with pronounced, slow breathing. Strong tetanic convulsions. Loss of consciousness and vision, vision returns doubled when consciousness returns. The chief clinical uses have been in epithelioma of the tongue, apoplectic and epileptic conditions, respiratory disorders, rheumatism of the joints and neuralgias.

In one poisoning case, the fingers were stretched out and spasmodically contracted.

In another case, after the failure of all efforts to restore the patient (a photographer) with ether injections and repeated washings out of the stomach, he was placed in a hot bath and icy-cold water was poured over his head and nape.

Each time water was poured on his head, the patient drew deep inspirations which gradually grew deeper and more regular until consciousness was restored.

Kali cyanatum

He complained of sharp occipital and gastric pains. Convalescence was rapid, but a general muscular weakness and impairment of speech lasted a long time.

Cattel recorded in the early volumes of the Brit. Jour. of Homeopathy several remarkable cases of neuralgia

cured by Kali-cy. He followed Hering's guiding symptoms, "agonizing attacks of neuralgic pains between temporal regions and ciliary arch and maxilla with screaming and apparent loss of sensibility, as if struck with a stroke, pulse 84, face flushed."

"Severe neuralgia in temporal region and left upper jaw, daily at 4 a.m. increasing until 10 and ceasing at 4 p.m. in the interval, anorexia, fever, headache." The symptoms were worse in a room, worse immediately after meals (fullness), and better by motion in open air.

E. T. Adams treated an inveterate whiskeydrinker, 55, for a swelling on the right side of the tongue, excavated so deeply that the first joint of the thumb could be laid in it. It had been pronounced cancerous.

The patient could take no solid nutriment and fluids only with great pain. Under Kali-cy., he recovered rapidly, was able to walk and to eat dry bread and cooked beef with comparative ease. Persuaded by his former attendants to undergo operation, he died nineteen days after.

Petroz was the first to give Kali-cy. 1,000c in cases of this kind. A woman had cancerous ulcer of right side of tongue involving the root. With a view of relieving the woman's sufferings. Petroz gave her Kali-cy. 1.000c once in four days.

In two weeks the suffering was much diminished, the tongue appeared less thick and speech easier. In another fortnight the patient's countenance had lost its gray hue and drawn features and she could eat a crumb of bread. The case went on to complete and permanent cure.

RELATIONS - Compare: (1) Plat., Stann., Cedr., Mez. (2) Mur-ac. (3) Hy-ac., Camph. (3) In periodic ciliary neuralgia, Cedrón. (4) Neuralgiagradually increasing and decreasing, Stann., Plat. (5) Also, according to Cooper, Sulph. (6) Sudden onset, gradual decline, Sul-ac. (7) Fingers spread out, Sec.

REFERENCES - Boericke. Clarke. Grimmer. Murphy.

***KALI FERROCYANATUM

(Potassic Ferrocyanide)

PHARMACY - kali-fcy. Kali ferrocyanatum. Potassic ferrocyanide. Prussian blue. Yellow prussiate of potash. Kali ferrocyanidum. **Historical dose:** All potencies.

CLINICAL - Heart, disorders. Leucorrhea. Neuralgias. Pulse weak.

HOMEOPATHIC - Prussian blue has physical and mental prostration following an infectious disease. Inability to sustained routine work. Neuralgic disorders depending on impoverished blood and exhausted nerve centers, especially spinal.

Fatty and functional heart troubles. Pulse weak, small, irregular. Uterine symptoms with a bearing-down sensation (Sep.) and gastric sinking. Profuse, pus-like leucorrhea with a passive hemorrhage.

REFERENCES - Boericke.

***KALI HYPOPHOSPHORICUM

(Potassium Hypophosphate)

PHARMACY - kali-hp. Kali hypophosphori- cum. Potassium hypophosphate. **Historical dose:** Trituration and all potencies.

CLINICAL - Anemia. Tea, effects.

HOMEOPATHIC - **Gmitdebility with atrophy of muscular tissue.** Phosphaturia with general anemia or leucocythemia. Chronic bronchitis where the expectoration are **thick and fetid**, sometimes **scanty and tough**. Effects of excessive tea drinking.

REFERENCES - Boericke.

***KALI IODATUM

(Potassium Iodide)

PHARMACY - kali-i. Kali iodatum. Potassium iodide. Kali hydroiodicum. Solution. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - **Acne, rosacea.** Actinomycosis. Allergies. Aneurysm. Anhidrosis. Arteriosclerosis. Asthma. Boils. Bright's, disease. Bubo. Bunions. **Cancer.** Cachexia. Colds. Condylomata. Coryza. Coughs. Croup. Debility. Decay, bones. Dropsy. Ears. pain. Edema, glottidis. Emaciation. Erythema, nodosum. Eyes, disorders. **Facial, neuralgias.** Fibroids. **Gland, swellings.** Goiter. Gonorrhea. Gout. Hemorrhages. Hay fever. Housemaid's knee. Influenza. Inter-menstrual, hemorrhage. Inris. Joints, disorders. Laryngitis. Liver, diseases. Locomotor, ataxia. Lumbago. Lungs, disorders. **Meningitis.** Menstruation, disorders. Neuralgias. Nodes. Noises, ears. Nystagmus. Odor, body. Pancreatitis. Paralysis. Pleurisy. **Pleuritic, effusion.** Prostate, disorders. **Radiation, poisoning. Rheumatism.** Rickets. Rupia. **Sciatica.** Scrofula. Smallpox. Spine, curvature. Spleen. **Syphilis. Thyroid, disorders.** Tic, douloureux. Tinnitus. Tongue, neuralgia. Tuberculosis. Tumors. Ulcers. Wens.

HOMEOPATHIC - Potassium iodide was used as anti-syphilitic remedy and is also antidotal to mercury. Kali-i. is perhaps more anti-scrofulous than anti-syphilitic. It acts best in scrofulous patients, especially if syphilis or mercurialization, or both, are added. It also causes infiltration, edema and dropsy of various kinds. The blood is acted upon and hemorrhage occurs, and purpura hemorrhagica.

Grimmer said Kali-i. cured many types of tumors and cancers generally based on a syphilitic or tubercular miasms, and often there is a combination of both these in many cases of malignancy. Nightly aggravations of complaints.

Hering spoke of Kali-i. as having been curative in pneumonia and Bright's disease. Specific for aneurysm. Has been commended as a protective against foot and-mouth disease in cattle. In material doses, for fungoid disease (thrush, ringworm, etc.) and bacterial diseases like tuberculosis.

Syphilis. In acute form with evening, remitting fever, going off in nightly perspiration. Second stage, mucus membranes and skin ulcerations. Tertiary symptoms, nodes.

Glandular swellings. Glands enlarged and indurated. Glands are swollen or atrophied. Dropsy from pressure from swollen glands. Infiltrations, edema. Profuse, watery, acrid coryza, especially when associated with pain in frontal sinus. Discharges are copious, watery, acrid, salty, thick, green or foul. Spitting blood.

Exostosis, swelling of the bones and rickets. Feels used up. Crushing or sharp stitching pains. Diffused soreness after pains of affected part. Pains long after injury. Coldness of painful part in bones.

Purpura and hemorrhagic diathesis. **Diffused sensitiveness**, of glands, scalp, etc. **Rheumatism in neck, back**, and feet, especially heels and soles. Rheumatism, worse cold and wet. Contraction of muscles and tendons, chronic arthritis with spurious ankylosis.

Weakness, emaciation. Arteriosclerosis. Cachexia. Actinomycosis. Fungoid diseases. Tea-taster's cough due to inhaling the fungus. Craves motion in open air. Brings about often favorable reaction in many chronic ailments even when not clearly symptomatically indicated.

MIND - Always troubled. Despondent. Trivial details of life seem insupportable. Nervous, must walk. Troublesome impressions easily become fixed ideas. Loss of memory. Cannot find words at the moment wanted, cannot write, play music, or think.

Anxious. Fright at every trifle, **starting from noise**. Inclined to sadness and weeping, especially in the evening. Half-mad all night, talkative and full of jokes. Dreads the return of dawn.

Restlessness during headache. Abusive, bad temper. Harsh tempered and cruel. Irritable, irascible, especially towards his children, his family. Indifference to her children. Aversion to being touched.

Abdomen - Flatulence with air hunger. Squeaking or clucking noise in abdomen. Sudden painful bloating of abdomen. Cutting and burning pain around navel. Swollen spleen after intermittent. Inguinal glands swollen.

Back - Small of the back as if in a vice. Bruised pain in lumbar region worse sitting bent. Pain in coccyx, as from a fall. Sharp pain in small of back when sitting. Chronic rheumatism of chest and back. Chills from sacrum up over back.

Breasts - Atrophy of breasts. Tumor of breast. Galactorrhea.

Chest - Air-passages raw. Chest pains go backwards. Pain from sternum to back.

Constitutions - Hemorrhagic diathesis. Gouty, rheumatic, syphilitic diathesis.

Cough - Violent cough, worse morning. Dry, morning and evening, with soreness of larynx, or rawness in throat. Deep, hollow, with whitish and greenish sputum, and tearing pain starting from ensiform cartilage. Hoarse, with pain through chest.

Ears - Tearing pain in right ear. Boring pain in the ears. Otitis media. Membranæ tympani depressed with adhesions. Noises in ear. Tinnitus. Deafness.

Eyes - Sunken eyes. Conjunctivared. Puffy, burning, watery eyes. Profuse lachrymation. **Syphilitic iritis**. Pustular keratitis and chemosis. Glaucoma. Pustules on cornea. Constant oscillations of the eyeballs. Winking is painful. Photophobia. Bony tumors of the orbit. Edema around eyes. Edema of eyelids with lachrymation. Lower lids twitch.

Face - Red face, with anxiety and restlessness. Blotches on cheeks. **Facial neuralgias**. Sharp pain in upper jaw. Tight pain at zygomata. Glutinous mucus on lips in a.m. Dry, chapped lips. Swelling and suppuration of submaxillary glands.

Female - Menses late, profuse. Menses too scanty. Dysmenorrhea with great urging to urinate. Uterus feels as if squeezed during menses. Leucorrhea, corrosive like meat washing. Leucorrhea watery, acrid, milky white, green or yellow, purulent. Mucus discharge from vagina. Fibroid tumors. Metritis. Severe burning, tearing and twitching, in ovarian region. Swelling and congestion of ovaries.

Food - Aversion to all food, to broth. Much thirst. Cold food and drink aggravate. All symptoms worse by drinking cold milk.

Head - Headache and heaviness in head. Severe headache with lachrymation. Bilateral headaches. Violent headaches, as if screwed, through sides of head, worse warmth and pressure. Hard painful lumps on cranium with headache. Congestive headache. Aching pain in sinuses. **Intense pain over eyes and root of nose.** Sharp pain in forehead on stooping. Brain feels enlarged. Big head and small jaws, rickets. Pain in scalp on scratching, as if ulcerated. Meningitis. Hydrocephalus. Scalp fissured and sore. Tender spots on head. Hair changes color and falls off.

Heart - Heart feels very weak. Fluttering of heart with nervousness. Palpitations and darting pains worse when walking. Aneurysm. Endocarditis. Valvular defects after repeated endocarditis. Pulse weak, slow, soft.

Kidneys - Darting pains in kidney region. Nephritis with pains in back. Urine increased with unquenchable thirst. Painful urging to urinate, better appearance of menses. Frequent urination of copious, clear, urine, worse before menses, at night. Nocturnal bedwetting.

Limbs - Severe bone pains. Contraction of joints. Periosteum thickened, especially tibia, sensitive to touch (Kali-bi., Asaf.). Chronic arthritis. Rheumatic pains at night and in damp weather. **Rheumatism of knees with effusion.** Pain in small of back and coccyx. Pain in hip, forcing limping. **Sciatica**, worse lying, on the affected side, sitting, standing, wakes him at night, better walking and flexing legs. Formication of lower limbs when sitting, better lying down. Tip of thumb ulcerates and turns yellow.

Lungs - Whistling asthmatic breathing. Asthma, of young people. Dyspnea on ascending with pain in heart. Difficult breathing on waking at night, with loss of voice. Air hunger with flatulency

in a.m., wakes choking. **Colds travels downward to chest.** Dry bronchitis. Air passages raw. Violent cough, worse in morning. **Expectoration like soap suds, greenish. Pneumonia**, when hepatization commences.

Pneumococcic meningitis. Stitching pains through lungs to back. Pulmonary edema with pneumonia. Pleuro-pneumonia. Lobular pneumonia. Hydrothorax (Merc., Sulph.). **Pleuritic effusion.** Tuberculosis, exhausting night sweats and loose stools. Sputum like soap-suds, green.

Male - Enlargement of prostate, with retention of urine. Chronic gonorrhea, discharge thick, green. Excoriation by least friction. Penis swollen, inflamed. Paraphimosis. Spermatic cords thickened. Atrophy of testes with diminution of sexual desire. Syphilis with indolent, swollen glands.

Modalities - Better from motion, cold, open air. Worse from heat, warm clothing or warm room, damp weather, changing weather. Worse pressure, touch, jarring, mercury, seaside, sunset to sunrise. Worse cold foods, especially milk.

Mouth - Offensive odor from mouth. Bitter taste, salty on waking. Increased saliva, bloody with a sweetish or disgusting taste. Saliva smells like onions. Viscid, salty saliva during pregnancy. Heat in whole mouth with swelling. Numbness of mouth, in morning on waking. Ulcers in mouth, as if coated with milk.

Nose - Red, swollen, especially the tip. **Nasal catarrh involving frontal sinus.** Burning, throbbing in nose and sinuses. Tightness at the root of the nose. Violent sneezing. Takes cold from every damp day. Coryza, descending, with salivation and dyspnea. **Profuse, acrid, hot, watery discharge, worse coolair.** Profuse, greenish, non-irritating discharges. Discharge of watery, cool, greenish, irritating, corroding mucus. Stuffiness and dryness of nose without discharge. **Ozaena with perforated septum. Takes cold** from every damp day. Accumulation of very tenacious mucus in nostrils. Loss of smell.

Perspiration - Profuse night sweats, which relieve.

Rectum - Diarrhea with pain in lumber region, as if broken or as if menses would appear. Early morning diarrhea of tuberculosis. Frequent stools. Light-green or yellow watery stools. Constipation. Stools scanty, hard, difficult. Serous mucus from rectum. Cancer of rectum. Fissured anus of infants.

Sensations - As though head were enlarged, as if it were screwed in, as if a large quantity of water were forced into brain, as if it would be forced asunder. As if a leaflet were at root of nose, as if a worm was crawling at root of nose. Back as if in a vice. As of a tumor in ovaries. Pain in chest as if cut to pieces. Bruised feeling in coccyx.

Skin - Acne, hydroa. **Acne rosacea.** Hives. Giant urticaria. Erythema nodosum. **Rough nodules. Small boils. Itching eruptions worse heat.** Itching, generally better scratching, worse at night. Itching herpes on face. Purple spots, worse on legs. Tendency to edematous swellings, eyelids, mouth, uvula, etc. Furuncular eruption. Pustular eruption, leaving scars. Rupia syphilitica. Vesicular eruptions. Vesicles from exposure to sun. Condylomata.

Sleep - Restless sleep. Frequent yawning without drowsiness. Sleeplessness from anguish. Weeps loudly during sleep, unconscious of it. Horrid dreams.

Stomach - Faintness at epigastrium. Emptiness and qualmish feeling, not better eating. Heartburn with flatulence. Throbbing, painful burning. Hiccough in evening. Sensation as if water brash is occurring. Nausea and vomiting with salivation. Violent vomiting with copious salivation. Rumbling and shrill noises in stomach. Ratulence.

Teeth - Toothache nagging, as if a worm were digging in it. Toothache at roots of teeth. Jerking toothache worse at night, better warmth. Teeth as if elongated. Teeth decayed. Gnawing pains. Gums recede from loose teeth. Gums swollen. Gumboils.

Temperature - Chilly in bones. Chilly in painful parts. Uncovers, then chilly. Chills with drowsiness. Alternate heat and chill. Heat with shudders. Fever in evening. Hot and dry, then drenching sweat. Fever with shuddering. Flushes, with dullness of head.

Throat - Dryness and itching in throat. Stinging pain when swallowing or talking. **Larynx feels raw.** Laryngeal edema. Loss of voice. Sore throat of speakers. Hoarseness with pain in chest. Nasal, catarrhal voice. Choking sensation from increased mucus. Uvula swollen and elongated. Enlarged tonsils. Goiter sensitive to contact.

Tongue - Epithelioma of tongue. Blisters on tip of tongue, with burning pain. Tongue white, swollen, shows impressions of teeth. Severe pain at root of tongue, at night.

Vertigo - Vertigo in the dark. Vertigo, worse railway traveling. Vertigo with reeling, after meals. Vertigo on awaking, giddy, fluttering, must get up or smother.

Vision - Dim and foggy vision, after scrofulous ophthalmia. Blurred vision and diplopia, only notices when looking to left. Complete blindness from effusion of water in brain. Blindness with dilated pupils, staring, watery eyes.

COMMENTS-Kali-i. is used in both potency and the crude salt, the general explanation is that the solvent action of the drug is most powerfully excited on new tissues.

Cancer. Tumors of the breast and uterus. Condylomata. Glandular swelling. Thyroid problems or goiter, with green discharge. Enlarged lymphatic glands, syphilitic nodes.

Neuralgic or inflammatory conditions where there is heightened and diffused sensitiveness of the affected part. Serous effusion on the brain, secondary to hepatization of the lungs. Relieves the throbbing, pulsative noises, especially when the heart is hypertrophied and inclined to fatty degeneration.

Laryngeal and pulmonary tuberculosis. Deep, hollow, hoarse cough with pain through breast. Stitches through the lungs in the middle of sternum, through sternum

to back or deep in chest while walking. Chest symptoms worse in early morning 2 a.m. to 5 a.m.

Expectoration is greenish, copious and looks like soapsuds. Chronic sinusitis. Thick, green mucus. Coryza recurs repeatedly from every little cold and makes the nose red and swollen.

Coryza, discharge is acrid, watery, the eyes smart and are puffed. Lachrymation. Iritis, keratitis and chemosis. Thick, green offensive discharge, ozaena and perforation of the bones may occur.

Scrofulous and syphilitic eruptions. Papular and pustular eruption, especially on scalp and down back, the pustules leaving scars when they heal. Tinnitus aurium, sharp, shrill, hissing and piercing noises.

Terrible pain at the root of the tongue. Disordered digestive tract. Loss of appetite and indigestion with flatulence and bloating (Lyc.). Loose stools at 5 a.m. (Merc.). May crave or be aggravated by milk.

Headache worse 5 a.m., worse after a night's rest. heat. The chill of intermittent fever is not better by warmth, but many symptoms of the teeth and scalp are alleviated by warmth.

Rickets. Sciatica (Naphtin.). Burning, better slow walking, worse sitting, at night, lying on painful side, rest, standing, heat (Rhus-t., better heat). General aversion to heat.

Motion aggravates, especially walking, after the first movement in the lower limbs it is more bearable. Sitting hurts and flexing limbs helps some of the pains. Worse from touch. Great sensitiveness to atmospheric changes, better in open air.

Especially suitable for pale, delicate subjects who flush easily and are manifestly plethoric. For a diffused arterial vasculosis or venous state. Warm-blooded, violent, destructive people.

Several cases of abdominal tumor were successfully treated with Kali-i. in 3x, 10c and 15c triturations. Two of these had been unsuccessfully treated with the crude salt. Patients could not tolerate it on account of loss of appetite and irritation of the mucus membrane of mouth and throat.

One of these patients had a large tumor on the level of the great curvature of the stomach extending on both sides, plunging into the abdominal cavity and extending into the pelvis, it was adherent and difficult to define. She had jaundiced, dirty-looking skin and loss of appetite and vomited most of her food. A suspicion of latent syphilis led Gaudy to the remedy, which was perfectly tolerated in potency, though not in the crude. Health rapidly improved and in three months there was hardly any tumor to be discovered.

Cooper reported a second case in which a patient's womb was packed with fibroids and there was pain in the right inguinal region on exertion. Spirits were depressed, tinnitus like the buzzing of flies, constantly tired, sleepy feeling down the limbs, hot burning feet, though sometimes intense shivering all over. Pains in the breasts, which were tender.

Patient was unable to go long without food, constant distention as from flatus, sinking at scrobiculus cordis at

11 a.m., dreamy sleep. Kali-i. 30c left the patient in absolute comfort.

Cooper pointed out the characteristic diffused sensitiveness over affected parts that appeared in the provings. Hartlaub and Trinks noted the provers' experience of the painful scalp on scratching, as if ulcerated (after eleven days). Swelling of the whole thyroid gland increasing very rapidly with some sensitiveness to touch and pressure.

RELATIONS -Antidotedby: Hep., also Nit-ac. **Antidote to:** Merc., Lead poisoning. **Compare:** (1) Iod., Merc., Sulph., Mez. (2) Chopheenee - a Hindu remedy for syphilitic eruptions, ulcerations and bone-pains, used in tincture. (2) Iod. - goiter, heart affections, worse from warmth, tuberculosis. (3) Caust. - worse by touch, syphilis. (4) Kali-c. - worse from sex. worse 2-4 a.m., extreme sensitiveness. (5) Lach. - smothering sensation on waking and has hard lumps on scalp. (6) Kali-i. causes infiltration of bones as well as soft tissues. (7) Psor. and Gels. - in hay fever, Gels. has more sneezing. (8) Merc. - syphilis, catarrh, sensitiveness to weather, stitching pains through

lungs. Merc. in different directions, Kali-i. through sternum to back. (9) Erio. "Yerba Santa" - catarrhal tuberculosis. (10) Ant-t. - threatened paralysis of lungs. (11) Ars. - catarrhal symptoms, wasting, restlessness. (12) Bell. - brain congestion. (13) Apis - dropsy, worse by heat. (14) Lyc. - flatulent distention. (15) Mez., Puls., Sil., Sulph., Cimic., Chin., Nat-s. (16) Carb-s. - nismus in the ears. **Follows well:** Merc. **Followed well by:** Nit-ac.

REFERENCES - Boericke. Clarke. Grimmer. Murphy. Phatak.

***KALI MURIATICUM

(Potassium Chloride)

PHARMACY - kali-m. Kali muriaticum. Potassium chloride. Kali chloratum. Not to be confounded with Chlorate of potash. Kali chloricum. Trituration. Solution. **Historical dose:** Trituration and all potencies.

CLINICAL- Acne. **Allergies.** Aphthae. Breasts, cysts. Bubo. Bunion. Bums. Cataract. Chilblains. **Colds.** Constipation. **Coryza.** Croup. Cystitis. Diarrhea. Diphtheria. Dropsy. Dysentery. **Ear, disorders.** Eczema. Embolisms. **Eustachian, congestion.** Eye, disorders. Glands, swollen. Hay **ieser.** **Hemorrhoids.** Hodgkin's disease. Ingrown, toenails. Jaundice. Joints, stiff. Leucorrhea. Measles. Morning, sickness. Mumps. **Nasal, congestion.** Rheumatism. Scorbutus. Shingles. **Sinusitis.** Smallpox. Sycosis. Tendons, creaking. Thread-worms. Vaccination, effects. Warts.

HOMEOPATHIC - Schiessler introduced Kali-m. into homeopathy. His account of it is "it is contained in nearly all the cells and is chemically related to fibrin. It will dissolve white or grayish-white secretions of the mucus membrane and plastic exudations."

When the cells of the epidermis lose molecules of Kali-m. due to a morbid irritation, the fibrin comes to the surface as a white or whitish-gray mass. When dried, this forms a mealy covering. If the irritation affects the tissues under the epidermis, then fibrin and serum are exuded, causing the affected spot on the epidermis to rise in blisters. Similar processes may take place in and below epithelial cells.

Useful in **catarrhal disorders** in the subacute inflammatory states, fibrinous exudations and glandular swellings. **Whiteness of secretions,** exudations, eruptions of tissues. Tough, fibrinous exudations and discharges. **Milky white,** viscid, sticky, thick, slimy or lumpy discharges. **White or gray coating of base of tongue** and expectoration of thick, white phlegm.

Blood clots too readily. Embolism, indurations, hard swellings. Hard deposits, glandular swelling. Sore, cutting or sticking, shifting pains. Bursitis, patellar. Crawling and numbness. Crosswise symptoms. Slow reaction. Stubborn infiltration.

MIND - Discontent, discouraged. Sadness alternating with cheerfulness. Fears evil. Sits in silence. Imagines he must starve. Irritable and angry, at trifles.

Abdomen - Abdominal tenderness and swelling, fullness after eating. Flatulence. Tensive pressure in region of liver, better emission of flatus. Pressing pain in region of spleen. Colic with shifting of flatulence. Colic with diarrhea. Colic in pelvic region. Catarrh of duodenum from chill. Peritonitis. Suppurating buboes.

Back - Heaviness under right shoulder. Buzzing under right scapula. Lightning pains from small of back to feet. Backache better lying down. Must get out of bed and sit up.

Bladder - Cystitis. Inflammation of bladder with violent fever. Acute cases of inflammation of bladder, when swelling has set in and discharge is thick, white mucus. Acute and chronic catarrh of bladder. Dribbling urination. Discharge of white, thick mucus. Itching in urethra.

Breasts - Breasts cysts. Soft, tender nodes or growths in breasts. Painful breasts before or at menses.

Causations - Ill effects of vaccination, sprains, burns, blows, cuts.

Chest - Rawness in chest. Flushes of heat in chest. Constriction of chest as from vapors of sulphur. Oppression of chest with violent palpitations.

Cough - Loud, noisy stomach cough. Cough short, acute, and spasmodic. Whooping cough. **Sputum thick and white.** Violent cough during coryza.

Ears - Otitis media. Swimmer's ear infection. Earache with swelling of glands. **Eustachian tube blocked.** Soreness of Eustachian tube. **Glue ear.** Great effusion about the auricle. **Catarrhal conditions of the middle ear.** Deafness from catarrhal condition and occlusion of Eustachian tubes. Deafness from swelling of internal ear. **Sensation of a plug in ears.** Snapping, popping noises in ear. Crackling noises on blowing nose or swallowing. Swollen glands about the ear. Threatened mastoiditis.

Eyes - Trachoma. Cataract. Corneal opacities, pustules. Exudation in retina. Scintillations on coughing. White mucus, purulent scabs. Superficial ulcer. Congestion to eyes, irritated. Redness with some pain. Sensation of sand in eye. Edges of eyelids scabby. Yellow crusts of pus on edges.

Face - Bluish, sunken. Cheeks swollen and painful. Lips hot, swollen. Chapped lips from cold. Eruptions around mouth. Pimples on forehead, face, lips and chin. Barber's itch. Swollen glands about jaw and neck. Face aches with swelling of gums or cheek. Mumps without fever. Paralysis, following pain in face. Paralysis of right facial nerve. Muscles of face twitch and tremble, worse eating, speaking or coughing. Lightning-like attacks of pain in face.

Female - Menses too late or suppressed, checked or too early. Excessive discharge, **dark, clotted** or tough. Menses black blood like tar (Plat.). Leucorrhea, discharge of milky-white mucus, thick, non-irritating, bland. Morning sickness with vomiting of white phlegm. Threatened miscarriage.

Food - Habitual loss of appetite or refuses food. **Fatty or rich food causes indigestion.** Worse cold drinks.

Head - Confusion in head, also in occiput, with peculiar sensation in cervical muscles. **Sick headache with white-coated tongue.** Headache with vomiting of white phlegm. **Sinus headache with thick white discharge.** Headache with sneezing and coryza. **Catarrh of frontal sinuses.** Aching pain in temple. Stunning shock in or a leaden load holds down occiput, better letting hair down and warmth. Brain feels loose. Meningitis. Crusta lactea. Copious white dandruff. Perspiration on head.

Heart - Heart disease causing dropsy. Coldness in region of heart. Pericarditis. Palpitations from excessive flow of blood to heart. Pulse accelerated, or soft and sluggish. Pulse not synchronous with beats of heart.

Kidneys - Kidney disease with dropsy. Catarrhal nephritis. Dribbling urine. Discharge white thick mucus. Turbid urine, with dirty yellow sediment. Diabetes. Albuminuria during pregnancy.

Limbs - Rheumatic fever. **Swelling around joints.** Exudation and swelling around the joints. Rheumatic pains felt only during motion or increased by it. Nightly rheumatic pains, worse from warmth of bed. Lightning-like pains from small of back to feet, must get out of bed and sit up. **Cramps in limbs.** Twitching thighs. Tension in leg alternating with tension in arm. Cutting in bones. Bursitis. Cold foot sweat. Cold hands and feet. Chilblains on hands or feet or any part. Cracking of tendons in the back of the hand. Hands get stiff while writing or knitting.

Liver - Liver disease with dropsy. Jaundice, caused by a chill, resulting in catarrh of duodenum. Sluggish action or complete torpidity of liver. Pain in right side.

Lungs - **Difficult or oppressed breathing.** ■ Asthma with gastric derangements, mucus white and hard to cough up. Rattling sounds of air passing through thick, tenacious mucus in the bronchi, difficult to cough up. **Catarrhal pneumonia.** Bronchitis. Croupy inflammation of lungs. **Mucus white, thick and hard to cough up.** Yellowish green mucus. Expectoration sticky, milky or flies from the mouth.

Hemorrhage from lungs.

Male - Chronic syphilis. **Gonorrhea.** Gleet combined with eczema, visible or latent. Soft swelling of buboes, soft chancre. Condylomata. Hydrocele. Itching of scrotum. Orchitis from suppressed gonorrhea. Violent emissions with voluptuous dreams. Violent erections with emissions. Sexual desire diminished, with chilliness and apathy.

Modalities - Better from cold drinks, rubbing, letting hair down. Worse from open air, drafts, dampness, night. Worse cold drinks, fatty, rich food or pastry. Worse motion, sprains, lying, during menses. Rheumatic symptoms worse from warmth of bed.

Mouth - Aphthae. Thrush, white ulcers in the mouth. Eruptions around the mouth. Breath excessively fetid, in ulceration and diphtheria. Profuse and acid saliva. Accumulation of mucus. Salty, bitter taste, with coldness of tongue. Heat and dryness in mouth. Swollen glands about jaw and neck. Scorbutic gums. Gumboil before matter forms. Toothache with swelling of the gums and cheeks.

Nose - Nasal catarrh. Stuffy cold in head. Hawking of mucus from posterior sinuses. Phlegm or catarrh, **white and thick discharges.** Vault of pharynx covered with adherent crust. Nosebleeds (Arn., Phos.).

Perspiration - Sweating of head.

Rectum - Constipation, light-colored stools. Diarrhea after fatty food. Dysentery, purging with slimy stools.

Hemorrhoids, bleeding, blood dark and thick, fibrinous, clotted. Anus sore, worse walking or after stools.

Itching or crawling in anus after stools. Threadworms, causing itching **at anus**.

Skin - Chickenpox. Smallpox. Blisters arising from burns. Acne. Pimples on face, neck, etc. Erythema. Herpes zoster. Vesicular erysipelas and shingles. Eczema from suppressed or deranged uterine functions. **Vesicles containing thick, white contents**. Itching of whole body, in bed. Dry, flourlike scales on the skin (Ars.). Greenish, brownish, yellow crusts. Branny. Proud flesh. Carbuncles. Condylomata. Warty excrescences. Eruptions connected with stomach or menstrual disorders.

Sleep - Restless sleep, startled at least noise. Anxious dreams, towards morning. Somnolence.

Stomach - Dyspepsia and indigestion, with a whitish-gray tongue. Cutting pain in stomach. Eructations alternating with pains in chest and abdomen. Empty, sour eructations. Empty feeling in stomach. Pain in the stomach with constipation. Bulimia, hunger disappears by drinking water. Sick feeling after taking fat. **Fatty or rich food causes indigestion**. Morning sickness with vomiting of white phlegm. Nausea with eructations. Nausea with shivers. Stomach heavy, at night. Vomits food. Vomiting of white, opaque mucus, blood.

Stools - Pale, light-colored, hard or flocculent stools. Stools clay-colored, white, or slimy. Painful stools, passing nothing but mucus. Bloody stools, or bloody mucus. Stools so dry it almost crumbles.

Temperature - Shivering all over, or over back and neck, with warm feet. Continual chilliness with stiffness of hands, with vomiting of white (not transparent) mucus, in open air.

Throat - Chronic sore throat. **"Hospital"** sore throat. Croup, membranous exudation. Loss of voice, hoarseness. **Follicular tonsillitis**. Tonsils swollen, inflamed, swallowing excessively painful. Tonsils enlarged, can hardly breathe. Grayish- white, ulcerated throat. Adherent crusts in vault of pharynx. Pharynx feels cold. Eustachian catarrh. Hawks out thick, white mucus, cheesy.

Tongue - **Grayish-white, sticky, thick, slimy**, or dry coating on tongue. Tongue mapped, gray dr white at base. Tongue white, or only in middle. Coating of tongue after diarrhea. Coldness of tongue. Sensation as if a tumor were growing on the tongue. Glossitis. Burning, stinging blisters on tongue.

Vertigo - Vertigo after violent exercise. Vertigo with congestion to head. Vertigo during headache.

Vision - Scintillations on coughing or sneezing. Smoky and misty vision. Letters appear smaller when reading.

COMMENTS - Chronic catarrhal condition of the middle ear. Eustachian tube catarrh (Merc-d.). Closed Eustachian tubes. Pain in ears during pressure changes. Snapping and noises in the ear.

Common cold with yellow or watery mucus. A milky, white, thick discharge, can be lumpy or stringy. Grayish white, dry or slimy tongue. Bleeding hemorrhoids, dark, fibrous, clotted blood. Diphtheria. Rheumatic fever with exudation and swelling around the joints. Better from cold drinks.

It is said to have cured cataracts after Calcfl. helped. Clarke cured with it rheumatism affecting mostly the left shoulder and the elbow, worse in the morning on rising. There is some clinical evidence of helping breast cysts.

Boericke and Dewey noted the "protruded appearance of eyes, white tongue, croupy, hard cough, harsh barking."

Hering added "cough, noisy with protruded appearance of eyes." In one case, it caused a severe aggravation in which the patient felt "as if eyes would be forced out of head with cough."

Similar to Kali-chl, which has the keynote symptom "tendency to rush of blood to both eyes and light before both eyes on coughing and sneezing."

RELATIONS - Antidoted by: Bell., Calc-s., Hydr. .Puls. **Compare:** (1) Bell., which Kali-m. follows well in the catarrhal and hypertrophic conditions. (2) Kino - otorrhea with stitches in right ear. (3) Bry., Merc., Puls., Sulph. (4) Kali-chl. in tough secretions, Kali-bi., Kali-c., Hydr. (5) in rheumatic affections, Bry., Rhus-t., Sulph. (6) Merc-d. in the Eustachian tube and in inflammations of ear. (7) Graph., Nat-m., Nit-ac., Sil., Apis, Thuj. (8) Puls, in worse from fatty food, worse from warmth. **It follows well:** Calc-p. Calc-fl., Ferr-p.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***KALI NITRICUM

(Potassium Nitrate)

PHARMACY - kali-n. Kali nitricum. Potassium nitrate. Saltpetre. Nitre. Trituration. Solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthma. Bedwetting. Chest, pain. Colic. Debility. Diabetes, insipidus. **Dropsy**. Dysentery. Dysmenorrhea. Gastritis. Headaches. Heart, disorders. Hemorrhages. Herpes. Meniere's disease. Menorrhagia. Nephritis. Nosebleeds. Peritonitis. Pleurisy. Pneumonia. Polyps. Rheumatism. Tuberculosis. Vertigo.

HOMEOPATHIC - The Saltpetre of the Alchemists, Kali-n. is known in old-school practice principally as a "refrigerant diuretic" and as the active agent in the well known "nitre papers," which are burnt, producing fumes

to allay attacks of asthma.

A solution of saltpetre as an application was an old remedy for inveterate mange in cats. Nitre with sulphur and charcoal forms gunpowder. A teaspoonful of this in hot water was a favorite remedy for gonorrhea among soldiers in the days when black powder was used.

Affects the respiratory organs, kidneys, heart and blood vessels. Secretions are increased into cavities. Sudden **dropsical swellings over the whole body**. Pains are dull stitching, throbbing. Wooden, numbness. Very weak.

Asthma and cardiac asthma. Relapsing tuberculosis. Hemorrhagic tendency. Rheumatism. Gastro-intestinal inflammation with much debility and relapse in tuberculosis. Suppurative nephritis. Incontinence of urine in children.

MIND - Peevish, fretful. Bored. Mental weariness from lack of occupation or interest. Discouragement. Sadness when alone. Aversion to thinking in morning. Fear of death. Anxiety and congestion to chest. Anxiety during headache.

Abdomen - Excessive distention of abdomen. Gripping about umbilicus. Stitching and sticking pains. Violent pain in right side after eating veal. Peritonitis. Incarceration of flatus, especially in afternoon and evening. Very loud rumbling in abdomen.

Back - Aching in lumbar region. Pains in back on stooping. Shootings in and between scapula. Pains extend into the chest. Shooting pains in sacral region. Violent pains in loins on waking. Feeling in back as if kidneys engorged.

Chest - Chest feels constricted. Oppression on chest, when ascending. Contractive pain in chest. Sticking in left side near sternum. Inflammation of lungs.

Constitutions - Suited to asthmatic constitutions and chest complaints.

Ears - Shooting in ears. Inflammation and swelling of lobe of right ear. Chronic deafness from paralysis of auditory nerve. Vertigo and tinnitus. Tinkling and ringing in ears.

Eyes - Burning in eyes, with lachrymation and photophobia. External angle of right eye twitches, worse chewing. Vision becomes clouded. Turbid corpus vitreum (Arn., Ham., Phos.). Transient blindness. Colored circles before eyes. In evening, candles appear surrounded by a rainbowlike halo.

Female - **Profuse menses, black like ink**. Menses too early, profuse, preceded and with violent backache. Burning pains in the ovarian region only during menses (Zinc, after menses). Leucorrhea.

Food - Better hot food. Aversion to beef, eggs, meat, veal. **Worse from eating veal**, causing headache, diarrhea. Worse from cold food, fats, rich food, milk. Worse from beef, fish, lobster, oysters. Worse from beer, wine, bread, coffee, rice, soup, watery fruits and vegetables.

Head - Headache with vertigo, as if falling to right side and backwards, worse stooping. Head pain, better motion of carriage. Pains in occiput, better letting hair down. Scalp very sensitive.

Heart - Violent stitch in prœcordia and beating of heart. Palpitations, worse lying. **Pulse is weak, small** and thready.

Kidneys - Diabetes insipidus. Dull kidney pains. Burning in urethra while urinating and greatly diminished urine. Frequent and profuse emission of clear urine.

Limbs - Drawing in limbs with paralytic weakness. Rheumatic pains and stitches in limbs and joints. Stitches between shoulder blades. Tearing and sticking in shoulders and joints. Hands and fingers seem swollen.

Lungs - Rapid gasping breathing, sits upright. Congestion of right lung. Dyspnea so great that breath cannot be held long enough to drink, though thirsty. **Asthma** with excessive dyspnea, nausea, dull stitches and burning in chest. **Spasmodic croup**, paroxysm of crowing. Bronchitis with sharp, short, dry, hacking cough. Acute exacerbations in tuberculosis. Dry, morning cough with pain in the chest and bloody expectoration. Sour-smelling expectoration. Expectoration of clotted blood after hawking mucus.

Modalities - Better lying down, lying on right side, uncovering head, gentle motion, drinking water in sips. Worse cold, damp, taking cold, morning, afternoon. Worse lying with head low, walking, breathing, eating veal, coffee, wine, beer.

Mouth - Tongue loaded with a white coating. Tongue red with burning pimples. Burning blister at tip of tongue. Crawling on tongue. Taste disagreeable, nauseous, disgusting, sour. Fetid breath. Throat constricted and sore.

Nose - Violent coryza with obstruction of nose, and loss of smell. Sneezing. Swollen feeling, worse in the **right nostril**. Burning in nose with digging and clawing pain. The nasal bones are painful, especially to the touch. Swelling of interior of nose. Ulcers in the nostrils covered by a scurf. Nosebleed with acrid blood. Polyps (Thu., Sang-n.). Point red and itching.

Perspiration - Profuse perspiration every alternate night (Nit-ac.).

Rectum - Frequent pressing in rectum. Urgent want to evacuate with tenesmus. Dysentery with much cutting pain, great thirst and icy coldness of feet. **Diarrhea from eating veal**. Membranous shreds with tenesmus.

Thin, watery dark, bloody stools. Feces difficult, and retarded, evacuated with much effort. Hard like sheep's dung.

Skin - Lancinations in skin. Pricking like needles, followed by burning. Tubercles, size of a pea. Burning vesicles filled with yellowish serum, which break when scratched. Sudden dropsical swelling.

Sleep - Drowsiness during day. Disturbed sleep at night, constant dreaming, with frequent awakening. Anxious and uneasy dreams about dangerous situations. Nightmare. Coma.

Stomach - Faint-like weakness at stomach pit. Epigastric or sub-sternal pains go towards axilla. Gnawing, spasmodic weakness, and pressure on epigastrium. Burning in stomach. Severe pain after every meal. Nausea, as if about to vomit worse at night. Ineffectual retching. Vomiting of mucus, mixed with blood.

Teeth - Toothache, with sharp drawing, or tearing pains in teeth and head. Shooting in carious teeth, when touched. Pulsative toothache, at night, worse by cold things. Swelling of gums, of an inflammatory or scorbutic character, they bleed readily.

Temperature - External coldness, chin, skin. Extraordinary shiverings not better by hot drinks or coverings. Coldness in afternoon with thirst, or coldness, preceded by headache. Quotidian fever, with drawing pains in limbs. Profuse and colliquative sweat. Sweat in morning, especially on chest. Internal burning.

Throat - Laryngeal diphtheria. Sore throat with shooting pain. Nocturnal pain in throat, as if it were contracting. Impeded swallowing from tension and cutting in the larynx. Hoarseness. Loss of speech.

Vertigo - Fainting fits with vertigo in morning, worse on standing, better sitting down. Vertigo and tinnitus.

COMMENTS - Kali-n. has been extensively proved by homeopaths and symptoms have been added from cases of poisoning, so that its characteristics are well defined. It is almost equal to Kali-c. in producing stitching pains and it is similar to it in having a cough at 3 a.m.

Severe stitching, cutting, lancinating, tearing and pressing pains. As with many other Kalis, there is external sensitiveness of scalp, of abdomen, of testes.

Kali nitricum

Diabetes insipidus. Bedwetting. Painful colic. Diarrhea and dysentery. Sexual excitement. Pain in testes and cords. Menorrhagia with flow of ink-like blackness.

"The pain-like contraction in the eyes, forehead and face concentrates in the tip of the nose. Swollen feeling in right nostril, which is painful on pressure, sore pain in upper part of right nostril with external sensitiveness," these two last symptoms led to the cure of large nasal polyps in a girl.

In a poisoning case, during the recovery there was intense vertigo with tinnitus, which should indicate Kali-n. in some cases of Meniere's disease. Easy intoxication by wine or beer was noted by several provers. A peculiar symptom is a sour taste in the throat.

In the asthmatic state the breathlessness is so great that the patient, though thirsty, can only drink a sip at a time between the breaths. Allen defined the asthma of Kali-n. as asthma with excessive dyspnea, faintness and nausea with dull stitches or with burning pain in chest, rather free expectoration.

RELATIONS - Antidotes: Op., Nit-s-d. It antidotes opium or morphine poisoning, 8 to 10 grains to glass of water. **Compare:** (1) Cann-s. which contains a large amount of Kali-n. (2) Lyc., Sang., All-s., Ant-i.

REFERENCES - Boericke. Clarke. Phatak.

*****KALI OXALICUM**

(Potassium Bioxalate)

PHARMACY - kali-ox. Kali oxalicum. Potassium bioxalate. Kali oxalas. Salts of sorrel. Trituration. Solution.

Historical dose: All potencies.

CLINICAL - Convulsions. Cramps. Eyes inflamed. Lumbago. Vomiting.

HOMEOPATHIC - Only cases of poisoning have been observed with this salt. The main symptoms of Kali-ox. are those of violent irritation. Convulsions. Violent and continuous vomiting. Throbbing in the head with great thirst. Cramps. Severe pains in the back (Ox-ac., Rumx-a.). Coldness and collapse. One patient became insane.

MIND - Extreme depression. Insanity.

Abdomen - Violent pains in abdomen and convulsions. Scalding sensation extended over abdomen with tenderness on tolerably firm pressure.

Back - Pain in back. Severe lumbar pain.

Bladder - Urination accompanied by a sensation of scalding.

Eyes - Great soreness of eyes with dim vision. Conjunctive injected, pupils dilated.

Face - Countenance flushed. Face pale, anxious-looking and covered with a cold sweat. Face and lips pale with continual riggers over whole body.

Food - Great thirst and throbbing pain in head.

Head - Swimming in head, heaviness, throbbing pain and great thirst.

Kidneys - Urination accompanied by a sensation of scalding.

Limbs - Spasmodic contractions in hands. Great weakness in lower limbs. Cramps in legs. Muscular weakness. Falls and utters loud cries. Tendency to faint. Lying on the floor quite faint. Nails and fingers blue.

Mouth - Tongue and fauces red and irritable. Very strong acid taste of poison lasting two days.

Skin - Cold and clammy.

Stomach - Vomiting and faintness. Vomiting, continuing at intervals of ten minutes to an hour for nearly a week. Very severe burning pain in stomach and bowels. Excruciating pain, followed by violent convulsions and death.

Temperature - Sensations of coldness, succeeded by burning heat in chest and stomach and general muscular weakness. Continued rigors affecting whole body.

Throat - Scalding sensation in throat and stomach.

REFERENCES-Clarke.

***KALI PERMANGANICUM

(Potassium Permanganate)

PHARMACY - kali-perm. Kali permanganicum. Potassium permanganate. Permanganate of potash. Kali manganicum. Kali hypermanganicum. Solution in distilled water. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - **Bites**. Cough. **Diphtheria**. Gastritis. Opium poisoning. Ozaena. Salivation. **Snakebites**. Throat, sore. Uvula, swollen. Warts.

HOMEOPATHIC - Kali-perm, is a well-known disinfectant and has been chiefly used in medicine as a local application in diphtheria and other conditions where there are fetid discharges. Kali-perm, counteracts the effects of alkaloids of many poisonous plants owing to its oxidizing powers, if given before the alkaloid has been absorbed.

A case of opium poisoning is reported in which an ounce of laudanum had been swallowed by mistake. Kali-perm, in dilute solution (2 grains to the pint) was given repeatedly and acted promptly. The next day, only dryness of mouth and throat was felt. Intense irritation of nose, throat and larynx.

Kraft, who used it largely in **diphtheria**, dissolved a few grains in a tumbler of water, sufficient to make it very red. A teaspoonful of this was put into another tumbler of water and a teaspoonful out of the second tumbler was given every hour or two.

Various septic conditions, the tissues are infiltrated with tendency to sloughing. **Bites of snakes and for other animal poisons** (Led.). Dysmenorrhea.

Diphtheria, with extreme fetor of the breath and bloody discharges from the nose and intense prostration. Intense irritation of nose, throat and larynx with bloody and bloody discharges and constant inclination and constant flow of ropy mucus from the stomach. The uvula was swollen and red. **Back** - Muscles of neck feel sore.

Chest - Aching in region of cricoid cartilage, worse every attempt to swallow.

Ears - Sharp pricking pains extending from throat to left mastoid process, apparently along Eustachian tube.

Eyes - Profuse lachrymation.

Face - Face hot.

Food - Appetite lost. Thirst, inability to drink.

Head - Head feels full.

Kidneys - Compelled to urinate frequently.

Urine copious, clear, watery.

Limbs - Legs feel as though he could not move them, tremble on attempting to stand.

Lungs - Short, hacking cough, with a constant, painful urging to swallow, with blood-streaked sputa.

Mouth - Fetor of breath. Mouth and lips very dry, lips smart when exposed to cold air. Increased flow of saliva runs constantly out of the mouth. Swollen uvula. Speech painful, difficult, hoarse.

Nose - Posterior sinuses painful. Nasal discharge smart and irritates. Bloody discharge, nose feels stuffed and full as in catarrh. Profuse bleeding from nose.

Rectum - Obstinate constipation.

Skin - Profuse sweat.

Sleep - Restless at night. Sleepless.

Stomach - Hot, burning pain in stomach.

Sickening pain in stomach. Nausea and constant inclination to swallow. Nausea and vomiting.

Throat - Constrictive, smarting sensation in throat. Swollen and painful. Larynx feels raw. Everything hawked

up streaked with blood. Constant inclination to swallow.

COMMENTS - Potassium permanganate is recognized as being the most effective chemical antidote in cases of morphine or opium poisoning, acting directly on the morphine and oxidizing it to less toxic substances.

To be effective, the permanganate must come in direct contact with the opium or morphine in the stomach. The treatment is administration of two to five grains of potassium permanganate in dilute aqueous solution as soon as possible after the poison is taken, this amount to be increased if very large doses of the poison have been taken.

Washing out the stomach with a quantity of 1 to 500 solution of permanganate is also recommended, using at least a pint of this solution either by a stomach pump or by enforced vomiting.

RELATIONS - Kali-perm, antidotes opium. **Compare:** (1) Other oxidizing salts, especially Kah-bi., also Mang., Caust., Kali-c. (2) in edematous uvula, Mur-ac., Apis. (3) in diphtheria, Diph., Merc-cy., Arum-t., Kali-bi., Kali-m., (4) in thick, ropy mucus, Kali-bi.

REFERENCES - Boericke. Clarke.

***KALI PHOSPHORICUM

(Potassium Phosphate)

PHARMACY - kali-p. Kali phosphoricum. Potassium phosphate. Trituration. Solution in distilled water.

Historical dose: Trituration and all potencies.

CLINICAL - Agoraphobia. Alopecia, areata. Amenorrhea. Anemia. Aphthae. Asthma. Atrophy. Bedwetting. Brain, concussion. **Brain-fag.** Brain, softening. Cancrum oris. Carbuncle. **Cerebral, anemia.** Chilblains. Cholera. Constipation. Coughs. Diarrhea. Diphtheria. Dysentery. Dyspepsia. Emaciation. Enterocolitis. Erysipelas. Face, neuralgia. **Fatigue.** Feet, fidgety. Gangrene. Hay fever. **Headaches.** Hernia. Hypochondriasis. Hysteria. Impotency. **Insomnia.** Leucorrhea. Leukemia. Melancholia. **Memory, weak.** Menstrual, disorders. Miscarriage. **Nervous, prostration. Neurasthenia. Night-terrors.** Noma. Nosebleeds. Nymphomania. Ozaena. Palpitations. Paralysis. Pemphigus. Pneumonia. Ptosis. Puerperal fever. Puerperal mania. Pulmonary, edema. Seasickness. Sciatica. Scurvy. Stomach, ulcer. Typhoid fever. Typhus fever. Ulcers. Urticaria. Vertigo. **Weakness.** Whitlow. Whooping cough.

HOMEOPATHIC - Schiessler used this remedy for conditions arising from want of nerve power. According to Schiessler, Kali-p. is contained in the cells of the brains, nerves, muscles, blood (corpuscles and plasma) and intercellular fluids.

A disturbance in the motions of its molecules produces despondency, anxiety, fearfulness, fearfulness, homesickness, suspiciousness, agoraphobia, and weak memory. There is

Kali phosphoricum at first a small and frequent pulse, later it is retarded.

Pain with sensation of paralysis in sensory nerves. Weakness of muscles and nerves even to paralysis. Retarded nutrition, even total arrest in a limited area of cells and then a softening.

Cases in which there is increased sensitivity to all impressions from a weakness of the vital resistance or control. In weakened states from mental or physical shock, from over strain or over drain of the system.

H. T. Doge noted that it is indicated for worn-out nursing mothers, tired to distraction by nervous babies. Worn-out business and professional men or women, or students. Doge recommended the higher potencies where indications are close.

Characteristic low, nervous condition. Generally **nervous, sensitive, weak and easily fagged** by slight causes like pain, worry, mental fatigue etc. Conditions arising **from lack of nerve power**, neurasthenia, and mental and physical depression. **Nervous prostration.** Weak and tired.

Marked disturbance of the sympathetic nervous system, usually from excitement, overwork and worry. Convalescence after exhausting diseases. Muscular weakness after acute diseases. States of **weakness and decay**, gangrenous conditions. Suspected malignant tumors. Delayed labor.

Putrid, carrion like odor of secretions, foul odor of the body. Foul breath, with brownish mustard-like coat on the tongue. **Secretions are golden yellow.** Emaciation, wasting diseases. After surgery, when in the healing process **the skin is drawn tight** over the wound, especially cancer.

Stitching pains. Dull, heavy ache between the shoulders. Paralytic weakness or pain with sensation of paralysis. Paralysis infantile during dentition. Nervous, restless, fidgety feeling in feet, trembling sensation in muscles of legs. Numb sensations.

Sexual excitement from indulgence or suppression. Irregular, menses, pulse, etc. Seasickness without nausea. Especially adapted to the young.

MIND - **Mental and physical prostration** caused by a combination of **overworking** and psychological factors like excitement, worry and vexation. Mental fatigue from over study or overwork. **Brain fatigue. Mental exertion aggravates.**

Ailments from strong emotions, fright, grief, care. Extreme lassitude and depression, lethargy, gloom. Morose. Great despondency about business. **Slightest labor seems a heavy task.** Dullness of mind. Weak memory. Forgetful, loss of memory.

Shyness, disinclined to converse. Indisposition to meet people or to talk with them. Sighing or moaning. Homesickness. Sadness on waking. Weariness of life and fear of death. Negative, dark forebodings.

Very nervous, starts easily. Anxiety and worry. **Anxiety with nervous dread.** Apprehensive about future. Fear of being alone, open spaces, crowds. Fear about his health, of death.

Angry. Irritability when spoken to. Impatience about trifles. Gloomy moods. Dwelling upon grievances. Suspicious. Obstinate. Perverted affections. Aversion to own family, cruel to husband, baby.

Easily frightened. Starting from noise, when touched. Sensitive to light and noise, especially during menses. Disposition to feel bodily pains too acutely. Oversensitive children. Children cry and scream, fly into passion, can hardly **articulate. Night terrors.** Shyness, excessive blushing, from undue sensitiveness.

Hysterical fits of laughter and crying. Weeping about trifles. Religious melancholy, believes she is eternally and irretrievably damned. Continually weeping and crying. Wringing hands. Tears things. Pulling to pieces and tearing her clothing, as well as bed covering. Doesn't recognize her surroundings.

Abdomen - Abdomen feels cold, better covering. Cutting pain in abdomen. Affections of spleen. Splenic leukemia. Enterocolitis. Hernia. Flatulence with distress about heart.

Back - Stiffness of back after rest, better gentle motion. Paralytic lameness of back, must lean on a chair. Rheumatic pains

and weakness. Spinal irritation. Creeping sensation and intense pain along spine, relieves the headache.

Constitutions - Weak nervous system and brain. Suited to pale, sensitive, irritable persons.

Causations - Ill effects of mechanical injuries, grief, or vexation. Mental overwork.

Chest - Pain in lower part of left chest, worse coughing. Axillary sweat smells of onions.

Ears - Ulceration of the eardrum and middle ear suppurations, with foul discharge. **Sensitive hearing, cannot endure noise.** Noises in ears from nervous exhaustion. Noises in head on falling asleep. **Humming and buzzing** in the ears. Deafness from atrophic condition of nerve.

Eyes - Burn, sting, with a lot of tears. Yellow-gray milky secretion. Retinitis. Drooping of eyelids, especially the left (Caust.). Squint after brain diseases. Weakness of vision. Loss of perceptive power, after diphtheria from exhaustion. Black spots before eyes.

Face - Sad, careworn look. Livid and sunken with hollow eyes. Neuralgia of face followed by great weakness. Right-sided neuralgia, relieved by cold applications. Sharp pains from riding in cold air. Brown stripe at the edge of hair.

Female - Delayed menses with depression. Menses irregular. **Menses too late or too scanty** in pale, irritable, sensitive, lachrymose females. Menses, too profuse discharge. Menses, deep-red or black-red, thin and not coagulating. Menses, sometimes with offensive odor. **Horribly foul leucorrhea.** Periodical discharge of copious orange-colored fluid from vagina and rectum. Intense sexual desire for days after the menses. Tired, worn out, nervous women, **subject to miscarriage. Feeble and** ineffectual labor pains. Puerperal fever with absurd notions or mania.

Food - Hungry soon after eating. Wants to eat almost every hour. No appetite except for sweets. Craves ice cold water, cold drinks, vinegar, sweets. Aversion to food, bread and meat.

Head - Excruciating nervous headache with great sensitiveness to noise. **Headache of students, worse mental exertion.** Occipital pain, better after rising. Pains and weight at back of head, with feeling of weariness and exhaustion. **Cerebral anemia.** Headache with weary, empty, gone feeling at stomach (Ign., Sep.), with hunger. Headaches worse before and during menses. Headaches are relieved by gentle motion.

Heart - Sluggish circulation in sensitive, nervous subjects. Weak action of heart causes fainting. Palpitations with shortness of breath, with nervousness, anxiety, sleeplessness. Palpitations, worse slightest motion or ascending stairs. Intermittent action of heart from violent emotions, fright, grief, care. Pulse irregular.

Kidneys - Nocturnal bedwetting, in nervous, excitable children and in old people. Incontinence of urine. **Very yellow urine,** saffron yellow or milky. Bleeding from urethra. Urine comes in stops and starts.

Limbs - Paralytic lameness in back and limbs. Paralyzing pain in limbs, better motion and external warmth, worse during rest. Exertion aggravates. Pains with depression and subsequent exhaustion. Prickling in hands and feet. Numb fingertips. Feet fidgety. Chilblains. Foot feels frostbitten. Pains in soles.

Lungs - Nervous asthma, least food aggravates. Short breath, worse going upstairs. **Cough with yellow expectoration. Whooping cough** in highly nervous patients with great exhaustion. Frothy, expectoration with pulmonary edema.

Male - Nocturnal emissions. Sexual excitement. Impotency. Sexual power diminished. Prostration and weak vision after sex or after nightly emissions (Kali-c.).

Modalities - Better from warmth, rest, sleep, gentle motion, leaning against something. Better from nourishment, eating, when menses comes. **Worse mental and physical exertion, anxiety and worry.** Worse from slight causes. Worse from cold, dry air, cold drinks, eating. Worse puberty, sex, excitement, touch, pain, early morning.

Mouth - Aphthae. **Breath offensive, fetid.** Palate feels greasy. **Mouth excessively dry.** in morning. Gums, spongy, receding, with bright-red seam. Noma. Slow speech, becoming inarticulate. Nervous, chattering of teeth.

Nose - Hay fever with nervous irritability. Hay fever, as a prophylactic. Itching in posterior sinuses. Violent sneezing with symptoms of fresh cold, at 2 a.m. Ozaena. Nasal disease with offensive odor. Fetid discharge. Nosebleeds.

Perspiration - Excessive, exhausting, strong-smelling sweats. Axillary sweat smells of onions.

Rectum - **Diarrhea, foul, putrid odor.** Diarrhea caused by fright. Diarrhea with depression and exhaustion. Brain affection with diarrhea smelling like carrion. Diarrhea, at night and after eating. Dysentery, stools consist of pure blood, patient becomes delirious, abdomen swells. Cholera, rice water stools (Verat., Ars., Jatr.). Hot, golden yellow stools. Painless stools. Prolapse rectum (Ign., Podo.). Paretic condition of rectum and colon after removal of hemorrhoids.

Sensations - As if tongue would cleave to root of mouth, as if a ball were rising in throat, as if a rocket had passed through head.

Skin - Skin diseases with bad smelling discharge. Greasy, offensive smelling crusts or scales. Ulcers, ichorous, bad smelling. Vesicles with bloody, ichorous contents. Pemphigus. Urticaria. Erysipelas bordering on gangrene. Gangrene. Blue spots on skin. Skin inactive. Cold skin. Jaundiced.

Sleep - Drowsy. Yawning. **Sleeplessness from worry, over study, business troubles.** Sleeplessness from overactive mind. Restlessness and heat during sleep. Sleepwalking. Sighing and moaning during sleep. Amorous dreams. **Night terrors.** Awakening with fright and screaming. Loss of sleep.

Stomach - Indigestion with great nervous depression. Gastritis with failing strength. Nervous, gone sensation at the pit of stomach, better eating (Ign., Sep., Sulph.).

Hungry soon after eating. Feels seasick without nausea. Nausea, better belchings, worse coughing.

Teeth - Nervous chattering of teeth. Toothache, with easily-bleeding gums. Gums spongy and receding (Caps., Ham., Lach.). Toothache of highly nervous, delicate, pale, irritable, sensitive persons.

Temperature - Subnormal temperature.

Yellow fever.

Throat - Aphonia. Paralysis of vocal cords. Hoarseness from overexertion of voice. Croup, last stage. Sensation as if a ball rising in throat. Gangrenous sore throat.

Tongue - Tongue coated brownish, yellow like liquid mustard. Sensation as if tongue would adhere to roof of mouth from dryness of mouth. Creeping paralysis of the tongue.

Vertigo - Vertigo from fatigue, from lying down, when facing the sun, on standing up from sitting, when looking upward (Gran.).

COMMENTS - Chronic fatigue from excessive mental work or over-exertion of the mind; the mind and nervous system become weak. Mental fatigue. Headaches from over studying. Nervous insomnia (Aven.). Memory loss and difficulty concentrating in the elderly. Pain in the back of neck and head. General irritability, great despondency.

Depressed states of mind and body. Hypochondriasis, hysteria. Neurasthenia. Great lassitude, emaciation. Nervous, hot, restless, easily startled. The least touch causes starting. Trembling of hands from nervousness. Stitching pains. Numb fingertips.

Spasms of irritable weakness, paralysis. Progressive muscular atrophy, around ulcer of stomach. Typhoid, typhus fever. Septic states, septic fevers and hemorrhages. Phagedenic chancre, carbuncles. Toothache alternating with headache. Alopecia areata. Scurvy.

Menstrual headaches, backaches with menses. Severe vaginitis with yellow- brown, offensive discharge (Kreos.). Worse after sex and sensitiveness to touch. Aching in sacrum. Frequent urination, passing large quantities night and day, containing phosphates.

H. C. Allen noted the indications of waking in the early morning, the peculiar mouth and the severe action on the skin. Characteristic golden or orange-yellow color. Urine is very yellow. Allen gave the remedy for sleeplessness, and cured an old pelvic abscess with orange colored discharge.

W. T. Laird pointed out that Kali-p. cures a nervous dyspepsia almost identical with that of Anae. The Kali-p. patient is more decidedly neurasthenic than the other and the relapses, which are frequent in both, are mostly due to dietetic errors in Anae, cases and to excitement or worry in the Kali-p. cases.

H. M. Rean reported cures in cases of amenorrhea. One young woman, who was very nervous, pale blonde,

skin rather waxy, cross and snappish, but cried easily, had a constant dull headache, yet was very drowsy all day.

Fidgety, at times could not control herself, and called her mother to hold her hands. Menses did not appear until eighteen and were scanty then and since. Kali-p. 3x four times daily caused great improvement at next menstrual period. In three months the menses were regular and normal, and in five months the patient was perfectly well.

J. C. Nottingham considered a leading indication of Kali-p. "nervousness arising from excessive sexual excitement, whether indulged or suppressed." He has cured impotence and seminal losses on these indications.

RELATIONS - Compare: (1) Zinc., Gels., Cimic., Lach., Mur-ac. (2) Kali-hp. (3) Mac- roz.- extreme debility after severe illness, collapse. Macroz., weariness from no assignable cause, no pains. Boring pain at vertex, vomiting and retching all night, impossible to eyes, giddiness and cold. (4) Genist.

***KALI SILICICUM

(Potassium Silicate)

PHARMACY - kali-sil. Kali silicicum. Potassium silicate. Silicate of potash. **Historical dose:** Trituration and all potencies.

CLINICAL - Backache. Chilly. Constipation. Diarrhea. Eczema. Emaciation. Flatulence. Headaches. Leucorrhea. Nasal catarrh. Nausea. Photophobia. Vertigo. Warts.

HOMEOPATHIC - Kali-sil. is a deep acting remedy. Marked lassitude. Desire to lie down all the time. Absent-minded, anxious indolent, timid. Feeble will power. Emaciation. Head congested, blood surges from body to head. Nasal catarrh, discharge **bloody**, excoriating offensive. Nose, swollen, ulcerated.

Stiffness over body and limbs. Creeping sensation over limbs. Twitching of muscles. Weak and weary. Weight in stomach after eating, nausea, pain, flatulence. Pain in liver region. Constipation. Construction of anus during stool. Vertigo, coldness of head, photophobia.

MIND - Absent-minded. Confusion from mental exertion. Anxious. Indolent. Timid. Feeble willpower. Mental troubles worse consolation. Irritability and irresolution, after sex.

Eyes - Eyes better from heat. Photophobia.

Female - Backache during menses. Leucorrhea, excoriating, yellow, worse after menses. Eruptions on vulva. Itching of vulva.

Head - Head congested. Blood surges from body to head. Coldness of head. Headaches, worse from cold air. Headaches worse after sex, mental exertion, stooping and exerting the eyes. Headaches better warmth and wrapping head up.

Limbs - Creeping sensation over limbs. Stiffness of body and limbs. Twitching of muscles. Weak and weary limbs. Gouty nodosities. Offensive sweat on feet and between toes.

Liver - Pains in liver region.

Modalities - Better heat, summer. Worse open air, drafts, cold, winter, uncovering, bathing. Worse exertion, motion.

Nose - Nasal catarrh. Discharge bloody, excoriating, offensive. Nose swollen, ulcerated. Discharge and breath offensive.

Rectum - Constipation. Diarrhea, after midnight and at night. Painful diarrhea, during menses. Stools insufficient and difficult even though soft. Stools bloody, frequent, offensive, purulent and watery. Constriction of anus during stool. Itching of anus after stool.

Skin - Injuries and small wounds that suppurate and refuse to heal. Eczema. Warts, painful, stinging, suppurating, withering.

Stomach - Nausea, pain, flatulence. Weight in stomach after eating. Aversion to meat.

Temperature - Chilly, weak, wants to keep still and rest.

Vertigo - Vertigo while sitting and stooping.

REFERENCES - Boericke.

***KALI SULPHURICUM

(Potassium Sulphate)

PHARMACY-kali-s. Kali sulphuricum. Potassium sulphate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Arthritic nodes. Asthma. Bronchitis. Cataract. **Catarrh.** Chorea. Colds. **Constipation. Dandruff.** Diarrhea. Dyspepsia. **Eczema.** Epithelioma. Eustachian catarrh. Gleet. Gonorrhea. Headache. Hemorrhoids.

Intermittent fever. Leucorrhea. Metrorrhagia. Nails, diseased. Nasal, catarrh. Nettle-rash. Ophthalmia. Orchitis. Otorrhea. Ozaena. Palpitations. Pneumonia. Polyps. **Psoriasis**. Rheumatism. Rhus poisoning. Scabies. Scaldhead. Seborrhea. **Sinusitis**. Skin, disorders. Suppurations. Toothache. Vertigo. Whooping cough.

HOMEOPATHIC - Kali-s., introduced by Schiessler, affects respiration, mucus membranes and skin where it causes desquamation. Schiessler explains that Kali-s., in reciprocal action with iron, effects the transfer of the inhaled oxygen to all the cells and is contained in all the cells containing iron.

When a sulphate and any oxide of iron come into contact with decomposing organic substances they surrender their oxygen and form sulphate of iron. With more oxygen added, this may be further decomposed into sulphuric acid and an oxide of iron.

A deficiency of Kali-s. causes a sensation of heaviness and weariness, vertigo, chilliness, palpitations of the heart, anxiety, sadness, toothache, headache and pain in the limbs. Symptoms are worse in a warm room and towards evening, better in open, cool air.

Catarrh of larynx, bronchi, nostrils, etc., with yellow discharges. Catarrh of the stomach where the tongue has a yellowish mucus coating. **Profuse and deep yellow discharges**, thin or sticky.

Ailments accompanied by profuse desquamation. Suppurations. **Yellow, mucus and serous discharges**, profuse and intermittent. Later stages of inflammation. **Wandering pains**, wandering rheumatism (Puls., Kali-bi.). Stitching, tearing, festering pains that shift about.

Torpid processes. Lack of reaction. **Warmblooded**. Oxaluria. Facilitates the formation of new epithelium. Epithelial cancer. Interrupted growth of nails. Gonorrhea and ophthalmia neonatorum (Puls.).

MIND-Always hurried. Irritable. Timid. Confusion and restlessness, worse in a warm room. Mental exertion aggravates. Desires and then rejects things. Desire to lie down, but lying aggravates so must walk for relief.

. **Anxiety, better in the open air**. Anxiety in evening. Frightened at trifles. Fear of falling, of losing her reason. Claustrophobia with fear of suffocation.

Abdomen - Colicky pains, abdomen feels cold to touch. Abdomen cold and distended after eating. Hard, ascites, in whooping cough. Empty feeling in hypogastrium, better passing flatus.

Back - Pain in nape. Stiff neck, head inclined towards left. Rheumatic pains in back and limbs, worse in warm room, better cool open air.

Causations - Ill effects of chill when over heated. Injuries.

Chest - Anxiety in chest.

Ears - Eustachian deafness. Stinking otorrhea. Brown offensive secretion from right ear. Offensive discharge with polyps. **Discharge of yellow matter** (Hydr.). Watery, sticky, thin discharge.

Eyes - Purulent yellow mucus in eye diseases. Sticky, watery discharge from eyes. Thin, yellow crusts on eyelids. Cataract. Ophthalmia neonatorum.

Face - Aches in heated room, better cool open air. Epithelioma.

Female - Menses too late, scanty. Menses with a feeling of weight in the abdomen. Metrorrhagia. Leucorrhea, yellowish, watery.

Food - Burning thirst. Craves sweets, cold food, cold drinks. Dread of hot drinks. Averse to and worse from eggs.

Head - Rheumatic headache, beginning in evening. Headaches worse warm room, better open air. Headache during menses. Great pain on moving head from side to side or backwards. **Dandruff yellow, moist and sticky**. Scaldhead. Bald spots, after gonorrhea.

Kidneys - Albuminuria after scarlatina. Oxaluria. Pyelitis.

Limbs - Rheumatism. Rheumatic pains, worse heat, evening, better cold weather or cold applications. Pain in back and limbs, worse in a warm room. **Shifting, wandering pains**. Arthritic nodes. Cold hands and feet. Scaly eruption on arms, better hot water. Diseased condition of nails.

Lungs - Asthma with yellow, slimy expectoration, easily expelled. Coarse rales in lungs. Bronchitis, mucus is distinctly yellow and slimy, thin, or watery matter and profuse. **Rattling of mucus in lungs** (Ant-t.). Post-influenza cough, especially in children. Cough, worse in evening and in hot atmosphere. Croupy cough (Hep., Spong.). Pneumonia with wheezing. **Yellow, loose rattling mucus is coughed up with difficulty**. Sputum consists of watery matter. Whooping cough.

Male - Gonorrhea, slimy, yellowish, green discharges. Gleet. Orchitis after suppressed gonorrhea.

Modalities - Better from walking, fasting, discharge of flatus, cool, open air. Worse in evening (Puls.), noise, consolation. **Cannot stand warm rooms or other forms of heat**. Worse warm air, warm wraps, warm weather, heated room.

Mouth - Mouth breathing, snoring. Insipid, pappy taste. Loss of taste and smell. Tongue coated yellow and slimy. Yellow mucus coating on tongue. Painful gums. Toothache, worse warm room and toward evening, better cool open air. Blistered lips and mouth. Lower lip swollen. Epithelioma on lip.

Nose - Colds with yellow, slimy discharge. Yellow, thick discharge, alternating with watery discharge. **Sinusitis** with thick yellow, green discharges. Nose obstructed. Loss of smell and taste (Nat-m.). Swelling of the **nasal pharyngeal mucus membrane**, remaining after removal of adenoids.

Perspiration - Profuse, easy sweat.

Rectum - Constipation with hemorrhoids (Sulph.). Stools large like sheep's dung. **Black, thin, offensive stools.** Stools light-colored and bilious. Yellow, slimy diarrhea.

Skin - Dry skin. Itching, worse heat. Peeling, flaking of skin. **Psoriasis** (Ars., Thyr.). Intertrigo. Eczema, burning, itching, papular eruption. **Desquamation of skin.** Promotes desquamation after erysipelas. Accelerates removal of scabs in smallpox. Nettle rash. **Yellow scales.** Favus. Yellow skin jaundice. Skin affections with yellow, slimy discharge. Ulcers, ooze thin yellow water. Polyps. Epithelioma. **Suppressed rash of measles or other eruptive diseases, with harsh and dry skin.** Seborrhea. Scabs with yellow pus. Ringworm of scalp or beard with abundant scales. Scabies. Rhus poisoning.

Sleep - Sleeplessness from heat, warm room. Vivid, terrifying dreams of ghosts, death, robbers, murder. Dreams with violent struggling in their sleep.

Stomach - Burning thirst. Pressure and feeling of fullness in stomach. Sensation as if a heavy load on stomach. Sensation of faintness in stomach with befogged

feeling in head. Catarrh of stomach and duodenum. Nausea, and vomiting.

Temperature - Chilliness. Cold hands and feet. Intermittent fever. Temperature rises at night.

Throat - Croupy hoarseness (Hep., Spong.). Constant scraping. Sore throat and hoarseness after catching a cold. Every cold settles in larynx.

Vertigo - Dreadful vertigo on rising from lying, on standing from sitting. Vertigo when looking upwards. Vertigo with a fear of falling.

COMMENTS - Useful for chronic Puls, conditions, recurring earaches, asthma, respiratory problems, when Puls, doesn't cure completely. Yellow discharges, thick and bland, especially from the sinuses and lungs. Rattling mucus (Ant-t.). Wandering arthritis, worse hot applications and hot baths.

Desquamation. Skin conditions with flaking and peeling. Psoriasis, eczema, dandruff. Scabs with yellow pus. Ulcers ooze yellow, watery fluid. Skin cancer. Tongue can be yellow with a slimy coating. General sluggishness.

Modalities similar to Puls. Worse in warm, stuffy rooms, at twilight, better fresh air. Thirstless. Better walking in the fresh, open air. Mood changes and can weep easily. Claustrophobic with fear of suffocation.

M. E. Douglass reported an asthma case with a lot of thick, yellow expectoration. Much rattling in chest, with labored breathing and talking almost impossible, this was cured with Kali-s. 3x, five grains every hour in the attack.

Hansen cured with Kali-s. a case of psoriasis beginning on the right leg, later attacking the left elbow and left leg. Eruption, papular, oval and annular with paler centers, covered with whitish scales, skin beneath red and smooth. The guiding symptom was "great desquamation of the epidermis."

RELATIONS - Antidote to: Rhus poisoning. **Compare:** (1) Kali-s., Puls., Kali-bi., Nairn. (2) Puls., Kali-bi. (3) Hydr. - dyspepsia, epithelioma. (4) Chr-ac. 3x. - produces in the nasal passages very fine threads from the septum to external wall, disorders of nasal fosse

and hay fever. Chronic colds. Sneezing, red, watery eyes, irritation of mucus membrane. **Compatible:** Acet-ac. (itching and redness of skin), Calc., Hep., Puls., Rhus-t., Sep., Sil., Sulph.

REFERENCES - Boericke. Clarke. Murphy.

***KALI TARTARICUM

(Potassium Tartrate)

PHARMACY - kali-t. Kali tartaricum. Potassium tartrate. Cream of tartar. Tartrate of potash. Trituration. **Solution. Historical dose:** Trituration and all potencies.

CLINICAL - Colitis. Debility. Diarrhea. Emaciation. Flatulence. Paraplegia. Vomiting. Weakness.

HOMEOPATHIC - A few symptoms of this well-known substance are collected in Allen's works. Among them, pain in loins and paraplegia are very noticeable. Emaciation. Extreme weakness, can scarcely walk. Vomiting of black-green fluid. Feces look like coffee-grounds. Pain in umbilical region with great thirst.

Abdomen - Pain in umbilical region with thirst. Flatulence and griping. Pain in loins.

Limbs - Thighs and legs paralyzed. **Mouth** - Tongue brown and dry.

Pulse - Pulse feeble.

Rectum - Diarrhea and violent vomiting. Feces like coffee-grounds.

Stomach - Great thirst and pain in umbilical region. Inflammation of stomach and intestines. Violent vomiting and diarrhea. Vomits a black-green fluid.

REFERENCES - Clarke.

*****KALI TELLURICUM** (Potassium Tellurate) **PHARMACY**-kali-tel. Kali telluricum. Potassium tellurate. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Insomnia. Salivation. Tongue, swelling.

HOMEOPATHIC - A few symptoms of Kali-tel. have been observed, of which the garlicky odor of the breath was the most noticeable and persistent. Offensive breath. Tongue coated white and swollen, with salivation. Appetite increased at first, later diminished, finally lost.

Heart - Oppression in cardiac region.

Mouth - Tongue coated white and somewhat swollen. Offensive garlicky odor in mouth. Copious secretion of saliva.

Sleep - Sleepiness during first days.

Stomach - Inclination to vomit.

RELATIONS - Compare: (1) Tell., Phos. and Kali-p. - garlicky odor.

REFERENCES - Clarke.

*****KALMIA LATIFOLIA**

(Mountain Laurel)

PHARMACY - kalm. Kalmia latifolia. Mountain laurel. Ledum floribus bullatis. American laurel. Calico bush. Cistus chamierhododen- dros. N. O. Ericaceae. Rocky sterile hills, near water in New England States. Flowers May and June. Tincture of fresh leaves when the plant is in flower. **Historical dose:** Tincture and all potencies.

CLINICAL -Albuminuria. Angina, pectoris. Arthritis. Blindness. Bright's disease. Coryza. Dropsy. Dysmenorrhea. Gastralgia. Globus hystericus. Gout. Headache. **Heart, disease.** Hoarseness. **Locomotor, ataxia.** Lumbago. Nausea. **Neuralgias. Palpitations.** Ptosis. Pregnancy, albuminuria. **Rheumatic, fever. Rheumatism.** Retinitis. Scleroderma. Sunheadaches. Syphilitic, sore throat. Tachycardia. Tinnitus. Tobacco, effects. Tobacco, heart. Vertigo. Vomiting.

HERBAL - Kalmia is the name of a genus of heath worts native to North America. Kalmia latifolia, which has large and showy flowers, is found in the northern parts of the United States.

Its flowers yield a honey said to be deleterious, and its leaves and shoots certainly are so to cattle. Dr. Meadows says cattle eat Kalmia in the latter part of the winter when they are in want of something green.

Kalmia latifolia

K. angustifolia, probably for the same reason, has the name of lamb-kill. The powdered leaves are used as a local remedy in some skin diseases. The hard wood of K. latifolia is used in the manufacture of various articles. The Treasury of Botany noted that the Canadian partridge is said to become poisonous to humans after feeding on Kalmia berries.

HOMEOPATHIC - Hering introduced Kalm. into homeopathic practice, and he, and some friends, completed the first proving. The head, including the eyes and face, shows the majority of its action, followed by the heart. A number of skin symptoms confirm the popular use of the leaves, among them a **stiffness** of the skin, especially of the eyelids.

A heart, nerve, circulation and **rheumatic remedy**. In small doses, it accelerates the heart's action, in larger doses, it moderates it greatly. Nausea and slow pulse frequently accompany conditions.

Neuralgic pains, **shoot downwards with numbness**, tingling, trembling or paralytic weakness. **Neuralgia** after the disappearance of herpetic eruptions. Great weakness with neuralgia. **Pains of locomotor ataxia.** Protracted and continuous fevers with tympanites. **Albuminuria.** Paralytic sensations, pains and aching in the limbs.

Pains shift rapidly, shooting outward along the nerves with much nausea and slow pulse. Aching, bruised, stiff feeling. Dull tearing, crushing pain, moving downwards. Pain alternating with cardiac symptoms or between upper and lower limbs. Rheumatism, syphilitic. Motion brings on complaints.

MIND - Confusion of brain. Memory and mental faculties are perfect in a recumbent posture, but vertigo on attempting to move. Anxiety and palpitations. Irritable, cross. Talk of others aggravates.

Abdomen - Incarcerated flatus with nausea.

Sensation of weakness in abdomen extending to throat, better by eructation. Sudden pains in paroxysms, across abdomen, above umbilicus. Neuralgia of bowels.

Back - Pain from neck down arm, brachial- gia. Pain down back, as if it would break.

Kalmia latifolia Pain in localized regions of spine, through the shoulders. Sharp pain in lower part • of left scapula. **Lumbar pain of nervous origin**, with heat and burning. Sensation of lameness in small of back. Drawing or sharp pain in spine.

Chest - Angina pectoris with dyspnea and pain. Feverish heat with great pain in chest, worse when breathing and from slightest motion. Pain in chest as from a sprain. Sharp pain in lower chest. Shooting through chest above heart into shoulder blade. Pain in left arm. False pleurisy of winter season. Rheumatism of muscles of thorax and back, worse from every motion.

Ears - Sharp pain in and behind right ear, at night. Acute inflammation of meatus. Sound like blowing a horn after cracking in head. Meniere's disease.

Eyes - **Stiff drawing sensation when moving eyes. Pains increased by moving the eye.** Pressure in and above right eye. Paralysis of upper lids. Stiff eyelids. Retinitis, albuminuria especially during pregnancy. Rheumatic iritis. Scleritis. Itching in eyes, stinging when rubbing them. Eye symptoms worse evening and in open air.

Face - Anxious expression. Flushing with vertigo. Redness of face during throbbing headache. **Neuralgia, worse right side.** Neuralgia from exposure to cold, better eating, worse from worry or mental exertion. **Trigeminal neuralgia.** Facial neuralgia after herpes zoster. Sharp and tearing pains in bones of jaw and face. Itching of face at night. Tired feeling in masseters. Cracked lips with dry skin.

Female - Menses too soon. Menses regular but painful. Suppressed menses, with severe neuralgic pains throughout whole body, with pain in limbs, back and inside of thighs. Leucorrhea, one week after menses, aggravating other symptoms.

Head - Cracking in head, sounds like a horn blowing in the ears, frightens him. Headache worse and better with **sun. Headache begins at sunrise, worse at noon and leaves at sunset.** Headache worse bright sunlight. Headache better profuse urination. Shooting pain from nape to vertex and face. Maddening supra-orbital pain (right). Pain in front and temporal region from head, to nape, and to teeth, from cardiac origin. Aching in forehead.

Heart - Angina pectoris with empty eructations. Heart disease, after frequent attacks of rheumatism, or alternating with it. Tumultuous action, rapid and visible. Paroxysms of anguish around heart. Fluttering of heart with anxiety. Pains, sharp, burning shooting, stabbing, radiating to left scapula and arm. **Sharp pains take away the breath. Tachycardia** with pains (Thyr.). Severe palpitations with constriction of throat, worse motion. **Palpitations, worse leaning forward,** better sitting erect. Gouty and rheumatic metastasis of heart. Shooting through chest above heart into shoulder blades. **Tobacco heart.** Hypertrophy, valvular insufficiency. Aortic obstruction. Pulse slow, weak, tremulous (Dig., Apoc.). Frequent pulse.

Kidneys - Frequent urination of large quantity of yellow urine, with sharp pains in lumbar region. Frequent urination of scanty, hot urine. Profuse urination, better headache. Post-scarlatinal nephritis. Albuminuria with pains in lower limbs, dropsy. Albuminuria during pregnancy.

Limbs - **Pains affects a large part of a limb** or several joints and pass through quickly. Weakness, numbness, pricking and sense of coldness in limbs. **Joints red, hot, swollen.** Pains from hips to knees and feet. **Pains along ulnar nerve,** goes into third or fourth fingers. Tingling and numbness of left arm (heart pains). Deltoid rheumatism, especially right.

Liver - Pains in region of liver.

Lungs - Dyspnea and pressure from epigastrium toward the heart. Short-breathed, must breathe quickly, involuntary. Difficult and oppressed breathing, throat feels swollen, nausea, with palpitations and anxiety. Noise as from spasm of glottis when breathing. Hoarseness with coryza. Tickling in trachea. Frequent cough caused by dryness or scraping in the throat. Expectoration easy, smooth, gray, tasting putrid, salty.

Male - Frequent, spontaneous, lasting erections without desire. Pain in the right testicle in morning, in the left testicle in afternoon.

Modalities - Better from eating cloudy weather, continued motion, sitting, or standing upright. **Worse looking down,** turning eyes, stooping, **bending forward,** motion, lying on left side. Worse from heat of sun, open air, becoming cold, from sunrise to sunset. Worse during leucorrhea.

Mouth - Tingling in salivary gland. Sublingual salivary gland inflamed. Bitter taste with nausea, better eating. Tongue white, dry. Sharp pain in tongue. Tongue, sore left side, hurts when talking. Teeth tender, during facial neuralgia. Pressing in molars, late in evening. Tired feeling in chewing muscles. Lips, stiff, dry, swollen.

Nose - Coryza, with increased sense of smell. Coryza with sneezing, dullness, headache and hoarseness. Tearing in root of nose and nasal bones, with nausea.

Perspiration - Cold sweat.

Rectum - Diarrhea with dullness, dizziness, weariness, nausea and bellyache. Stools like mush, easily discharged. Stools as if glazed, followed by pressure on rectum.

Sensations - As if something loose in head diagonally across the top. As if the body was surcharged with electricity, as shuddering without coldness. As if something was being pressed away from under sternum.

Skin - Stiff, dry skin. Sensation of rigidity. Pricking sensation in skin with moderate sweat. Erysipelatous on

hand with oppressed breathing. Scabies-like eruptions. Red inflamed places here and there, exceedingly painful, as if boils would form. Scleroderma.

Sleep - Sleepless. Restless sleep, turns often. Periosteal pains prevent sleep. While sleeping, stands up and walks about. Talks in sleep. Fantastic dreams. Dreams of murder. **Wakes very early in morning.**

Stomach - Crampy pain with eructation of gas. Pain in pit of stomach, **worse by bending forward, relieved by sitting erect.** Sensation of something being pressed

under the epigastrium. Warm, glowing sensation in epigastrium. Gastralgia with empty eructations. Biliary attacks with nausea, vertigo and headache. Nausea and vomiting. Wine relieves vomiting.

Temperature - Shivering and coldness. Shaking chill in cold air; chills run over back. Protracted and continued fevers with tympanites. Fever with burning and pain in back and loins.

Throat - Throat feels swollen. Sensation as of a ball rising. Pressure in throat, stitches in eyes and nausea. Dryness in throat with aching pains, causing cough, difficult swallowing and thirst. Chronic syphilitic sore throat. Tickling in trachea. Noise as from spasm in glottis when breathing. Hoarseness during coryza.

Vertigo - Vertigo with headache, nausea, blindness, pains in the limbs and weariness. Vertigo worse from motion (Bry.), worse stooping, looking down. Vertigo with blindness.

Vision - Impaired vision. Vision becomes black on looking downward. Diplopia, from paralysis of ocular muscles. Glimmering vision, with dimness.

COMMENTS - For paralytic weakness and trembling. Neuralgias in almost all regions, generally on the right side. Wandering arthritis, sharp, shooting pain jumps from joint to joint. Arthritis with heart conditions or neuralgias. Wandering rheumatic pains that travel from above downwards. Rheumatic fever.

Pain, followed by numbness in the joints (Naphtin. with sciatica). Joints can swell, become red, hot and throbbing (Bell.). Pains worse sunrise to sunset (Nat-m., Spig.). Painful facial neuralgias (Spig., Mag-p.). Neuralgic pains are better from food.

Pain in the back, shuns all exertion, can hardly go up stairs. Pains in the periosteum preventing sleep. Pain between shoulders coming up over the head. Pain with nausea and slow pulse. Pain during the early part of the night or soon after going to sleep. Pain from a sudden chill or exposure to a sudden wind.

Tumultuous action of the heart and slow pulse. Every heartbeat has a strumming as if it would burst, along sternum to throat. Palpitations are better lying on back and breathing, worse on left side, from mental effort.

Generally acts on the right side of the head, the left side of the chest and the left arm. Vertigo from least motion, worse from motion (Bry.), even motion of eyes and eyelids is painful. Vertigo is worse on stooping, on looking down, on rising from a seat.

Headache comes on in the morning, worse again in evening. Headache, worse heat, better cold. Sun headache, worse or better with the sun. Headache and eye symptoms are worse in evening, from open air. Rubbing eyes causes stinging in them.

Scleroderma. Cheek roughness every summer. Much external sensitiveness, face, pit of stomach, muscles of neck sore, worse by touch.

Dry throat. Feeling as if a ball was rising in the throat. Dry, stiff, swollen, cracked lips. Tingling in the salivary glands immediately after eating. Stitches in the tongue.

Sensation of weakness in abdomen extending to throat. Vomiting with ruminating action, without the least nausea, better with wine. Pressure on rectum after stool. Symptoms worse during leucorrhea.

Vonder Luhe cured with Kalm. 200c an intercostal neuralgia of the left side, so intense that the patient could not lie down or sleep at night. The chief guiding symptom was a concomitant numb sensation of the whole left arm.

Lambert recorded the case of a gatekeeper, age 54, who had smoked since he was seven years old. He suffered from "tobacco heart" palpitations, occurring on the least exertion or fright and sometimes awakening him in the night. Intermittent pulse, no valvular lesion, tingling in the left arm and leg and sensation as if the blood did not circulate in them.

He could walk, but not far. The chief complaint was a sharp pain in the right temple like pins and needles, of eighteen months' duration. It was induced by touch

and turning the head quickly. Kalm. 3x cured the temporal neuralgia and greatly alleviated all the other symptoms.

Proell cured with Kalm. 1c, 2c and 3c headaches and weak memory in a boy of 13 that were preventing him from continuing his studies. He also had insufficiency of the mitral valve.

RELATIONS-Antidoted by: Aeon., Bell. **Antidote to:** Tab. **Compare:** (1) Kalm. contains Arbutin. (2) Der. of great service in neuralgic headaches of rheumatic origin). (3) Spig., Puls. **Complementary:** Benz-ac. **Follows well:** Nux-v., Thy., Spig.

***KAMALA

(Spoonwood)

PHARMACY - kam. Kamala. Spoon wood. Croton coccineus. Rottlera tinctoria. Mallotus philippinensis. N. O. Euphorbiaceae. India, South Arabia, Australia. A red mealy inflammable powder, obtained from the tri-lobed capsules of the plant. Tincture. Solution in ether. Trituration. **Historical dose:** Tincture and all potencies.

CLINICAL - Leprosy. Pustules. Skin, affections. **Tapeworm. Worms.**

HERBAL - Kamala is best known in medicine as a remedy for tapeworms. It is given in doses of half to two drachms. The Treasury of Botany noted that "Among the Arabs of Aden it is given internally in leprosy, and used in solution to remove freckles and pustules, while in this country it has been used successfully in treating the eruption known as 'wildfire' (Strophulus volaticus) in children, by rubbing the powder over the affected part with moist lint. "Kam. appears, however, to be most valued as an **anthelmintic**, and has been extensively used with much success in India in cases of **tapeworms**, three drachms being sufficient for a robust person, and half that quantity for one of feeble habit."

RELATIONS - Compare: (1) Kam. shows by its clinical uses its relationship with Croton and the other Euphorbians.

REFERENCES-Clarke.

***KARAKA

(Kopi Tree)

PHARMACY - kara. Karaka. Kopi tree. Co- rynocarpus levigatus. N. O. Myrsinaceae, Allen puts it in Anacardiaceae. New Zealand. Tincture or Trituration of fresh seeds. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Convulsions. Pains. Paralysis.

HOMEOPATHIC - The Treasury of Botany noted that karaka seeds contain a tasteless farinaceous substance and are eaten in times of scarcity. The raw seeds are poisonous and produce spasmodic pains, giddiness and partial paralysis. To render them edible, they are steamed for twenty-four hours and then either buried in the ground or allowed to soak in water for some days.

G. Bennett recorded a few symptoms observed in the case of a Maori chief poisoned with the seeds. Spasm with pains. Violent pain lasting a week. Partial paralysis. Heat anesthesia, when warm water was applied he did not feel any warmth from it. Violent spasms and convulsions of whole body, arms and legs stretched violently and rigidly out. Permanent rigid distortion.

COMMENTS - C. F. Fischer proved Kara, and used it clinically in cases of convulsions. He recorded an account of its effect from the proceedings of the New Zealand Institute.

"Violent spasms and convulsions of whole body, arms and legs stretched violently and rigidly out, great flushings of heat, protrusion of eyes and tongue, gnashing of jaws. The poison proves rapidly fatal if the patient is not attended to immediately and the limbs are permanently and rigidly distorted if they are not fixed in proper positions until the crisis is passed.

"The general treatment is to bind the patient (generally a child) with the limbs in right positions, dig a pit and place him in it, standing, buried up to the chin with a gag in his mouth.

"The writer described a youth, age 12, who had recovered after being poisoned, but whose limbs had not been properly secured and were ever after absolutely useless.

"One leg was curved up behind his loins, the other bent up with the foot outwards. One arm inclined behind his shoulder, the other slightly bent and extended forward and all, as to muscles inflexibly rigid. He could not move himself or even drive away the flies."

***KARWINSKIA HUMBOLDTIANA

PHARMACY - karw-h. Karwinskia humboldtiana. N. O. Rhamnaceae. Found in Mexico and Southern North America. The seeds, crushed and macerated are used for the preparation of the tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Acute poliomyelitis. Acute bulbar paralysis. Amyotrophy. Bedsores. Dyspnea. **Encephalitis. Paralysis. Paresis. Poliomyelitis.** Quadriplegia.

HERBAL - The plant Karwinskia belongs to the Rhamnaceae family, it is found in the northern states of Mexico. It is known locally under different names including Tullidora, the "little coyote," "wild capuli," "little black rod," and "cacachila."

It is a small shrub, but can grow up to 9 meters in some places. The leaves are elliptical or oblong, rounded at

the end, the flowers are small, yellow-green in color. The fruits are small in clusters from 6 to 9 mm in diameter, dark violet in color, usually containing four seeds of which only two are reproductive. The seeds are toxic, causing paralysis of the limbs, which becomes generalized and can terminate in death. They contain a fatty acid, a yellow substance and a glucoside, which is the cause of the paralysis of the motor nerves.

HOMEOPATHIC - The clinical observation of the mass intoxication of one hundred and six soldiers constitutes the first Memoirs of Dr. Castillo Najeros, published in Mexico in 1918. A homeopathic proving of Karw-h. was carried out by Luis de Legarreta and published in 1961 in his Materia Medica of Mexican Plants.

Karw-h. is a remedy with neurotrophic action, paralyzing the motor nerves. Flaccid paralysis, which increases, ending in quadriplegia.

Ascending progressive paralysis, flaccid and painless, predominantly on the left side, with amyotrophy of the lower limbs. Acute spinal paralysis, sub-acute atrophic spinal paralysis. Chronic anterior paralysis. Loss of contractility and mobility of the leg muscles. Reduction of tendons reflexes and skin.

Paresis of paralysis, rising to the upper limbs and muscles of the thorax and diaphragm. Paralysis of the lips, tongue and larynx. No diminution of reflexes of the bladder and intestines. Poliomyelitis. Acute and sub-acute, polioencephalitis. Bedsores.

Abdomen - Lack of intestinal inactivity, partial obstruction.

Back - Cramping pains in the back.

Ears - Buzzing in both ears.

Head - Severe headache. Constant headache with feeling of heaviness.

Heart - Pulse slower with fever.

Limbs - Progressive paralysis. Cramping pains in the arms and legs. Loss of contractility and mobility of the leg muscles.

Lungs - Dyspnea, which becomes worse and can end in respiratory paralysis. Bronchopneumonia, paralytic alveolitis, which can cause fatal asphyxia. Difficult speech.

Rectum - Diarrhea in the first 48 hours, followed by intestinal paralysis with difficulty in evacuating.

Skin - Bedsores.

Stomach - Nausea with vomiting.

RELATIONS - Compare: (1) Lath. - Weakness, then paralysis of the lower limbs with exaggerated reflexes and complaints of sensitivity. (2) Hydroph. - Paralysis with muscular dystrophy. (3) Plb. - Rapid emaciation, progressive paralysis of the limbs with amyotrophy and starting in the extensor muscles.

REFERENCES - Julian.

***KEROSOLENUM

(Kerosene)

PHARMACY - keroso. Kerosolenum. Kerosene. One of the lighter products, obtained by distillation from the crude oil. Kerosolene being the trade name given by the "Downer Kerosene Oil Company," nearly identical with gasoline. Solution in rectified spirit. **Historical dose:** All potencies.

CLINICAL - Anesthesia. Asphyxia. Convulsions. Delirium. Ecstasy. Laughter.

HOMEOPATHIC - The effects of Keroso. have been observed on workmen, and experiments have been made with it for the purpose of testing its anesthetic properties.

Keroso. causes a pleasurable kind of intoxication, but too much muscular rigidity, asphyxia and intermittent pulse to render it a safe anesthetic. Moderate convulsions.

Laughter was noticed in two cases and this should prove an indication in some kinds of delirium and insanity. Partially or wholly insensible, but rapidly recovers when brought into open air. Insensibility complete, though eyes not closed.

MIND - Sense of complete loneliness. Insensible, with inclination to laugh. Cannot keep still **Chest** - Breathing checked during convulsions due to rigid contraction of chest muscles.

Eyes - Eyes a little unnaturally open and staring.

Face - Momentary dusky redness of face at each convulsion (as in epilepsy).

Head - Peculiar lightness of head. Slight headache.

Limbs - Weakness of the limbs. **Modalities** - Better in open air.

Pulse - Accelerated intermittent, volume diminished during insensibility.

Temperature - Some sweating.

RELATIONS - Compare: (1) Petr., Paraf., Benzin.

REFERENCES - Clarke.

***KISSINGEN AQUA

(Saline Springs)

PHARMACY - kiss. Kissingen aqua. Saline springs. Cold, chlorinated, gaseous, saline Springs of Kissingen in Bavaria. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Constipation. Coms. Diabetes. Diarrhea. Gallbladder, disorders. Gout. Hemorrhoids. Liver, disorders. Mesenteric glands, disorders. Noises, ears. Rectum, disorders. Spleen, disorders. Warts.

HOMEOPATHIC - Kissingen water has been proved by Carl Preu and observations have been made on its general effects. Nat-m. is the leading solid ingredient, existing in the proportion of 5.82 out of a total of 8.55 in the 1,000. It compares with Nauheim, Kreutznach and, to some extent, with Vichy.

Useful for abdominal affections, especially a catarrhal condition of intestinal atony. Convalescence from typhoid and gallbladder affections. Disorders of the liver, spleen and intestinal glands.

Gout where the asthmatic principle appears to be repercussed upon the abdominal viscera, for then the waters draw it out to the joints. The dosage must be managed with extreme prudence, too much can bring on a true attack of gout.

Modalities - Worse in the forenoon, at night, on waking, while reading and writing. Vertigo worse while eating. Toothache worse during menstruation.

COMMENTS - Constantin James, recorded in Allen, noted that the dose is from three to six glasses of the water in the morning and two glasses at 4 p.m., but the general rule is that no more it to be drunk than the stomach can digest without difficulty.

In the first days, appetite and force is increase, but as the water is absorbed the effects become general. Then an eliminatory "crisis" comes on. The stools become brownish, loose, bilious. The urine is turbid, depositing a sediment which rapidly putrefies.

The secretion of the bronchial, genital, and ocular mucus membranes, as well as the skin, is increased and changed in character. Moral and physical prostration, old and long-forgotten troubles reappear. This crisis, which appears in the first or second week, soon disappears of itself and the cure proceeds.

In one case, a patient vomited blood after the disappearance of a hemorrhoidal flux. Kiss, restored the latter, and the bloodvomiting ceased.

Trembling, pulsation of the whole body. Weariness. Stitches here and there. Muscle volitantes. Noises in the ears. Chills, heat and perspiration. Tearful disposition, especially at 10 a.m. "If he only looks at any one he must weep."

RELATIONS - Compare: (1) Nat-m. - weeping disposition, chill at 10 a.m., catarrh, constipation. (2) Ant-c. - saburral condition. (3) Urt-u. - gout. (4) Ferr-pic. - warts and corns.

REFERENCES - Clarke.

***KOLA NUT

(Sterculia Acuminata)

PHARMACY - kola. Kola nut. Sterculia acuminata. Nux colae. Cola acuminata. Tincture of the ripe nuts without their shell containing caffeine and theobromine. N.O. Sterculiaceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcoholism. **Asthma.** Diarrhea. **Neurasthenia.**

HERBAL - Kola regulates the circulation and the heart rhythm. Weak heart. **Asthma. Neurasthenia.** Promotes the appetite and digestion. Diuretic and anti-diarrhea. Lessens the craving for **alcohol.**

Kola nuts give the power to endure prolonged physical exertion without taking food and without feeling fatigued.

RELATIONS - Compare: (1) Querc., Coca. (2) Alf. (3) Aven., Lach., Nux-v., Kudzu.

REFERENCES - Boericke.

***KOUSSO

(Brayera Anthelminthica)

PHARMACY - kou. Koussou. Brayera anthelminthica. Hagenia abyssinica. Kuso. Cosso. N. O. Rosaceae. Abyssinia. Infusion of dried flowers. Tincture of flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Miscarriage. Tapeworm. Worms.

HERBAL - The flowers of Koussou are a favorite remedy for tapeworm with the natives of Abyssinia. The use of them in European practice for that purpose has led to the observation of the few recorded symptoms, among which thirst, nausea and vomiting are prominent. In one case miscarriage was caused.

To use as a vermifuge, take a quarter of an ounce of the dried flowers and boil in four ounces of distilled water. Infuse for fifteen minutes without straining. The powder is to be taken with the infusion in the morning, fasting. Two such drafts may be given. It is best to give a purgative before and an hour or two after the draft.

Nausea and vomiting. Vertigo. Precordial anxiety, slowing and irregular pulse, delirium and collapse. Rapid and extreme prostration.

HOMEOPATHIC - Alexander Milne remarked "Though Kousso leads to the expulsion of the worm, it seems not to improve the morbid condition which favors its production." The prostration caused by the treatment is so great that Milne advises a course of Cinch, and Ferr. to follow.

RELATIONS - Compare: (1) Cuc-c., Gran., Fil. (2) Kam., an efficient remedy for tapeworm in 30-60 minims of tincture taken in cinnamon water.

REFERENCES - Clarke.

***KREOSOTUM

(Beech wood Kreosote)

PHARMACY - kreos. Kreosotum. Beech wood kreosote. Carbo pyroligneus. A product of distillation of wood tar from *Fagus syl- vaticus*. This remedy is a mixture of phenols obtained from distillation of wood tar. Solution in Rectified Spirit. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. Acne. Amenorrhea. Bedwetting. Belchings. **Blood, poisoning. Cancer.** Carbuncles. **Cholera infantum.** Coccyx, pain. Colic. Congenital syphilis. Constipation. Dentition. Diarrhea. Ear, disorders. Epithelioma. Eruptions. Flushings. **Gangrene.** Hemorrhages. Herpes. **Hoarseness.** Hysterical, vomiting. Impetigo. Irritations. **Leucorrhea.** Lupus. Menopause. Menstruation. Neuralgias. Ovary, disorders. Prostate, irritation. Pregnancy, vomiting. Pustules. **Putrid, odor.** Rheumatism. Seasickness. Septic, wounds. Stomach, disorders. Syphilis. Syphilitic deafness. Tongue, inflammation. **Toothache, decay.** Tuberculosis. **Ulcers.** Urine, incontinence. Uterus disorders. Vaginitis. Vomiting. Whooping cough. Yawning.

HOMEOPATHIC - The preservative principle of smoke was discovered by Reichenbach, a Moravian alchemist, early in the nineteenth century. Reichenbach discovered Kreosotum, and introduced it into medical practice and there was a rush for the new remedy. Its name, derived from the Greek, means 'flesh-preserver.' For a short time, it was a panacea and then fell into neglect, except among homeopaths.

Meredith proved on himself "the first heavy distillate from hard green wood," obtained at charcoal works in the 4x potency. The symptoms observed were so similar to those of Kreos. that they need not be separated, including a great thirst in the evening, enormous appetite, stabbings here and there, eyes feel as if in a woody smoke, sneezing, nasal pus, and spleen pain.

Teste grouped Kreos with Ars., Merc-c. Plb., Stann., Nit-ac., Sul-ac., Croc, and Arg- met. in his Merc, group. He noted that several members of this group, while preserving dead organic matter from decomposition, have just the opposite effect on living tissues.

The entire group shows symptoms including suppressed or, more frequently, increased secretions with putridity. Foul breath, bloating, decay of teeth and bones. Cadaverous coldness. Ravenous hunger, to anorexia. Predominant left-sidedness. The group favors the production of intestinal parasites and all are therefore anthelmintic.

Teste added that Kermes of Weinsberg had collected 135 cases in which death has occurred apparently from eating smoked food. The leading symptoms in all were a burning pain at the epigastrium, bloody vomiting, meteorism, violent colic with constipation, slow breathing, sinking of pulse and dilatation of pupils.

Kreos. is the most active of the carbons, producing rapid ulcerations and destructions of tissues. Disorganizes the blood. Pulsations all over the body and profuse bleeding from small wounds. Very severe, old neuralgic affections, pains aggravated by rest. Great debility with miserable feeling.

Inflammatory ulcerations, **cancers**, epitheliomas. Useful in treating cancerous ulcers of the gastrointestinal tract and uterus. Affinity for the glands and mucus membranes, particularly the digestive tract and genitals.

Tumefaction, puffiness, gangrene. Rapid decomposition of fluids and secretions and burning pains.

Excoriating, burning and offensive discharges. **Profuse, acrid, hot, foul, discharges**, belchings, sputum etc., that redden the part. Lumpy discharges, menses etc. Hemorrhages, passive, brown, dark from small wounds. Blackness of teeth, leucorrhea, lochia.

Fullness. Heaviness. Rapid emaciation. Scurvy. Complaints accompanying yawning. Pulsations all over the body. Congenital syphilis. Overgrown, poorly developed children. Ailments of teething children. Post-menopausal diseases.

Kreosotum

MIND - Deep, nervous and mental derangement, violent oscillation of symptoms. Ailments from strong emotions. Stupor, dizziness and vacancy in head with complete loss of thought, sight and hearing. Vanishing of thoughts. Stupid, forgetful.

Cross, willful and obstinate. Peevish, fretful, irritable, especially during headache. Dissatisfied, with everything. Child wants everything but throws it away when given. Apprehensive. Starting from fright. Fear at

the thought of sex in women. Fear of fasting. Shrieking in children during stool.

Dwells on past disagreeable occurrences. Longs for death. Delusions, visions of fire, things seem taller. **Says he is well when very sick.** Sensitive. Music causes weeping and palpitations.

Prostration and restlessness. Restlessness at night, after midnight, at 3 a.m. Children scream at night. Children would not sleep unless caressed and fondled. Child moans constantly or dozes with half open eyes, or is cross and sleepless during dentition. Restlessness before menses. Excitement before menses. Weak minded with suppressed menses.

Abdomen - Burning pain in bowels. Pressure in region of spleen. Gripping pain about navel before menses. Inflation and tension of abdomen. Contractive pain in abdomen. Shooting pain in abdomen. Pain, as from ulceration in abdomen, when breathing and moving. Painful sensation of coldness in abdomen with too scanty emission of urine. Violent abdominal cramps, worse in groins. Colic, resembling labor pains. Obstinate flatus in old abdominal disease. Tabes mesenterica.

Back - Great debility with backache. Sharp pain from small of back. Burning in sacrum. Scapulae as if bruised. Dragging pain in back extending to genitals and down the thighs. Sensation as if everything would come out (in women), with urging to stool and urination, with leucorrhea. Burning in back before menses. Glands of neck swollen.

Breasts - Sharp pain in breasts. Dwindling of breasts with small, hard, painful lumps. Breast cancer with hard, bluish red, and covered with little, scurfy protuberances.

Chest - Anxious feeling of heaviness and oppression in chest. Deep pain in chest. Sharp pain in chest, just over heart. Raw burning in chest, as if a hot coal. Sensation as if sternum were being crushed in.

Constitutions - Dark complexion, slight, lean. Livid complexion, sad and irritable disposition. Old women with post-menopausal disease. Torpid, leuco-phlegmatic temperament. Old-looking children, hard to awaken. Blondes. Over grown, and poorly developed children with marasmus. Hemorrhagic diathesis.

Cough - Cough, worse evening, with efforts to vomit, with pain in chest. Dry, spasmodic cough in morning, causes retching. Cough after influenza (Erio.). Cough during dentition. Winter coughs of old people with **heavy pressure on sternum.** Fatiguing cough with old people, with copious sputa, thick, yellow or white. Cough with little sputum.

Ears - Heat, burning, swelling and redness of left outer ear. Eruption around and pimples within. Itching in ears. Difficult hearing. **Difficult hearing during menses, buzzing and roaring.** Buzzing in head before menses. Sharp pain in ears. Humid tetter on ears.

Eyes - Eyes sunken with blue rings around. Eyes protruding. Hot, acrid, smarting tears. Heat in eyes with ulceration. Burning heat with lachrymation, worse bright light. Salty lachrymation. Lids red and swollen. Agglutination of eyelids. Constant quivering of eyelids. Uncontrollable twitching. Intense itching of margins of eyelids. Suffering of eyes alternating with limbs.

Face - Sick, suffering expression. Face hot, cheeks red. Yellow pallor with red blotches during chill or heat. Burning pains, worse talking or exertion, better lying on affected side. Lips red, bleeding. Upper lip sore and cracked. Moistens lips frequently without being thirsty. Scaly herpes on eyelids, cheeks and around mouth. Acne.

Old looking children.

Female - Premenstrual syndrome with irritability, headache, nausea, etc. Before menses looks swollen as if pregnant. Menses too early, prolonged,, worse lifting, overexertion. **Menstrual flow intermits** (Puls.), ceases on sitting or walking, reappears on lying down. Profuse, lumpy menses. **Discharge of clots of blood having a foul smell.** Vaginitis. Yellow, acrid leucorrhea, smells like green corn, worse between periods. **Offensive, corrosive leucorrhea,** gushing like bloody water, staining the linen yellow. Milky leucorrhea following pain in coccyx. **Leucorrhea during pregnancy.** Vomiting of pregnancy with salivation. Lochia blackish, lumpy and very offensive. Hemorrhage after sex. Violent pain during sex, burning in parts, followed by discharge of dark blood the next day. Sharp pain in vagina. Burning and soreness in external and internal parts. **Awful burning, as of red hot coal in pelvis.** Corrosive itching within vulva, between labia and thighs, burning and swelling of labia. Scirrhus of vagina, painful to slight touch. Warty or cauliflower excrescences of cervix. **Cancer, erosion of cervix. Uterine cancer.**

Food - Loss of appetite, everything tastes bitter. Aversion to meat. Craving for smoked meat. Disgust of food during convalescence. Better warm food, worse cold food, fasting.

Head - Heaviness or pressure in various parts of head. Pressing outward in forehead.

. Buzzing in head. Pulsation in forehead and vertex. Dull pain as from a board pressing against the forehead. Occipital pain (Gels., Zinc-pic.). Headache with sleepiness. Severe headache before and during menses. Scalp sensitive, worse combing hair. Falling of hair.

Heart - Anxiety at heart with oppressed breathing. Sharp pain in heart region. Pulsation in all arteries when at

rest. Pulse small, hard, slow. Pulse soft, weak, quick and trembling.

Kidneys - **Must hurry when desire comes to urinate.** As if a lump pressing down on bladder. Hurried, involuntary urination when lying, on coughing. Can urinate only when lying. **Bedwetting in the first part of night.** Frequent urination with copious urine during day. Diabetes. Drinks much but passes little at a time.

Urine offensive. Urine chestnut brown, clouded, reddish. Urine with red or white sediment. Urine colorless. Violent itching of vulva and vagina, worse when urinating.

Limbs - Skin on limbs dry and rough. Bruised pain in limbs. Paralytic sensation in limbs on waking. Boring pain in hip and knee joints, with sensation as if leg was too long when standing. Sharp pain in joints. Swelling of knee joints and wrists alternating with sensation of numbness and rigidity of limbs. Pain in left thumb as if sprained. Burning in soles. Ecchymosis, dorsal surface of fingers and hands eczematous. Sore scapulae.

Liver - Shooting and pressive pains in hepatic region. Sensation of fullness and pain as from contusion in liver.

Lungs - Raw burning in lungs, pains and oppression. Sternum feels pressed in. Shortness of breath with sensation of heaviness in chest. Difficult breathing with anxiety. Gangrene of lungs. **Copious, purulent expectoration,** after every cough. Hemoptysis, periodic attacks. Black, coagulated blood expectorated. White mucus, easily detached. Neglected tuberculosis. Bronchitis with heavy pressure on sternum. Bronchial irritation during dentition.

Male - Burning in genitals during sex from coming in contact with acrid vaginal discharge, penis swells next day. Prepuce, bluish black with hemorrhage and gangrene. Sexual desire too weak. Impotence during sex.

Modalities - Better from warmth, hot food, motion, pressure, after sleep. **Worse from dentition,** pregnancy, during and after menses, sex. Worse when lying down, rest, touch, sprains, eating. Worse in summer, open air, cold, 6 p.m. to 6 a.m., bad smells

Mouth - Aphthae or salivation during pregnancy. Bitter, flat taste, low down in throat. Putrid odor. Tongue coated white, sometimes dry. Pus, bluish, spongy, bleeding gums. **Very painful dentition,** child will not sleep. Intolerable toothache during pregnancy. Lips red, bleeding.

Nose - Offensive smell and discharge. Frequent sneezing in morning. Chronic catarrh of old people. Nasal secretion thick. Catarrh, fluent or dry, with much sneezing. Nasal catarrh, fluent, with acrid rawness in air-passages. Nosebleed thin, bright red blood. Nosebleed with heaviness and throbbing in forehead, with sleepiness. Lupus on nose and face, with burning (Ars.).

Perspiration - Cold sweat, feels weak. Sweats with heat and redness of cheeks. Sweats after coughing. Scanty sweat, only during morning.

Rectum - Diarrhea during menses. Diarrhea in nursing infants. Dysentery with nausea and vomiting. **Cholera infantum,** with painful dentition, green stools, nausea, dry skin, exhaustion. Constipation, evacuation very difficult, with burning. Cramp-like pain in rectum during stool. Sore pain, worse deep breathing. Child struggles and screams during stool, as if it would go into a fit. Constriction of rectum with uterine cancer. Burning hemorrhoids.

Sensations - As if a board was across forehead. As if brain would force through forehead. As if something floating before eyes. As if a hard twisted ball was lying in umbilical region, burning as of hot ■ coals deep in pelvis, as if small of back would break. As if scapula and other parts bruised. As if tendon of elbow joint too short. As if hip dislocated, as if leg too long when standing.

Skin - Dry, scaly eruptions, like psoriasis. Violently itching, moist or scruffy eczema on eyelids, face, joints, back of hands. Itching, worse towards evening. Nodosities and blisters like bug bites. Pustules and herpes. Wheals like urticaria. Urticaria after menses. Herpetic eruptions, better warmth. Old ulcers, painful, putrid. Ulcers break out and heal. Ulcers bleed after sex.

Small wounds bleed freely (Crot-h., Lach., Phos.). Senile gangrene.

Sleep - Great desire to sleep, with frequent yawning. **Sleeplessness, worse before midnight.** Children would not sleep unless caressed and fondled. Starting, when scarcely fallen asleep. Disturbed, restlessness of the whole body or sensation of fatigue and pains in all limbs. Tosses about without any apparent cause. Laughing during sleep. Child very difficult to waken out of sleep. Anxious dreams of pursuit, fire, falling from a height, being poisoned. Dreams of urinating, erections.

Stomach - Stomach cancer. Coldness, like ice water, in the stomach. Soreness or burning in epigastric region, temporarily better eating. Painful hard spot. Bitter taste after swallowing water. Hot, frothy belchings. Belching and hiccough. Nausea, vomiting food several hours after eating. Seasickness. **Nausea and vomiting before menses.** Nausea during pregnancy, with constant inclination to vomit without doing so. Sympathetic vomiting. Vomiting sweetish water in the morning during pregnancy. Vomiting undigested food with uterine ulcer. Vomiting of large quantities of sour, acrid fluid or of white, foamy mucus. Hematemesis.

Stools - Diarrhea, bloody, fetid, dark, brown, lenteric. Stools grayish or white, chopped. Very fetid, offensive, cadaverous-smelling stools. Bloody stools. Green stools during dentition.

Teeth - Very painful dentition, child will not sleep. Pegged teeth. Black spots on teeth. **Teeth dark and crumbly** (Staph., Ant-c.). **Very rapid decay of teeth** with spongy, bleeding gums. Toothache from decayed teeth. Intolerable toothache during pregnancy. Gums puffy, bluish. Bleeding of gums and nose, blood dark, quickly coagulating. Protruding gums infiltrated with dark watery fluid. Persistent oozing of dark, slightly coagulated blood after extraction of tooth.

Temperature - Predominance of cold, tendency to shiver. Thirst after shiverings. Transient chill without thirst. Chilly while at rest. Chill with great bodily restlessness.

Always feels chilly at menstrual period. Coldness of face and hands. Feverish sensation over whole body, with good appetite. Flushes of heat with circumscribed redness of the cheeks.

Throat - Putrid odor. Bitter taste when swallowing food or drinking water. Burning pain with inflammation. Burning, choking sensation. **Hoarseness with pain in larynx**, better sneezing. Scraping in throat with roughness and dryness.

Vertigo - Vertigo on turning around quickly, with staggering. Vertigo in morning, in open air, passes off in a room. Must hold on to something.

Vision - Confused, as when looking through a veil. Dim vision, as if something was floating before eyes, obliging to wipe them constantly. Dim vision during vomiting.

COMMENTS - A remedy for decomposition of tissue or rotting away of flesh (Pyrog., Carb-an.). Discharges are brownish, yellow, and very offensive, a carrion-like odor, cadaver-like odor, putrid, like rotten flesh. Tendencies toward bacterial infections. Tendency to hemorrhage.

Stomach and uterine cancers, gangrene, and injuries where the tissue decomposes and smells putrid. Breath or discharges that smell of rotting flesh. Cadaverous-smelling stools. Emaciation with decomposition. History of use in typhoid.

Intermittent fevers, marked periodicity. According to Grauvogl, Kreos. has a short period of action, one or two days. He noted the incompatibility in intermittents. Chin., which has a period of two to three weeks, may be given after Kreos., but not Kreos. after Chin.

Marked burning and stitching pains. Lupus of nose with burning pains. Chronic pneumonia with pain like red-hot coals in the chest. Pain and stiffness across hips and sacrum, at 7 a.m. sitting up in bed, continuing through the day. Knees give way and joints crack, particularly in the overweight.

Guernsey noted that Kreos. particularly affects the inner temples, external ears and lobe of the ear. Chronic headache accompanied with great drowsiness, with moaning in their sleep.

Intense itching. General sensitiveness to touch and contact. Large purulent blisters on concha of both ears with a red base like smallpox pustules. Small warts on the scalp after a headache. W. P. Wesselheft noted the indication of coarse, red, elevated acne pimples.

Clarke used it for toothache cases where the teeth are decayed, especially if the gums are scorbutic. Foul breath. Useful for infections, abscesses and a bad taste after a pulled tooth. Teeth decay, fall out, with swollen gums that bleed easily (Staph., Merc.). Gums are dark red or blue and very painful. Pyorrhea.

Nash noted the specific action on children, <K\$e&\31ty dwimng dmitm. PawÁAl dentition. Useful for teeth that come in rotten and brown, then break. Teste observed that it acted well on infants in the cradle, particularly for congenital syphilis.

Teste emphasized a discharge of fetid pus from the nostrils. Hoarseness is better by sneezing. Cough compels sitting up all night, causes involuntary urination. Eye symptoms alternate with drawing in the limbs.

Incessant vomiting, due to stomach weakness, inability to digest and rejection of a meal hours after it was eaten. Vomiting sweetish water during pregnancy, with pty- alism. Incessant vomiting with cadaverous stools in malignant disease of the stomach. Cholera infantum.

Nocturnal bedwetting from too profound sleep, child cannot be awakened when taken up. Bedwetting when the urine smells foul, offensive (Benz-ac.). Prostate and bladder irritation during night. Frequently rises to pass very little urine, urine comes in a spray. Sudden, great urging, the patient cannot go quickly enough. Copious, pale urine.

Complaints after menstruation or menopause. Foul smelling vaginitis where the chief complaint is the odor and not itching or burning. Guernsey notes the putrid leucorrhea, especially when it's fetid and exhausting.

Discharge stains the clothing yellow or brown. Leucorrhea is better sitting, worse standing and walking. Foul and offensive lochia after childbirth.

Sufferings from the non-appearance of menses, at menopause. General symptoms are worse after menstruation, during leucor- rhea, when yawning.

Grauvogl cured with Kreos. 3x a young woman, 20, of suppression of menses with a concomitant state of imbecility.

In another woman who had suppressed menses with tertian intermittent fever, the intermittent was cured with

Chin-s. one grain four times a day and then Grauvogl, hearing for the first time of the suppression of the menses, gave Kreos. 3x with the result that the fever returned in full force.

Quinine was again given and the fever again disappeared. Before the next period, as the patient was of the Nux-v. type, that remedy was given and the period was reestablished.

Gentry recorded a case of a woman, 45, on visiting a friend ill with dysentery, was struck by the odor, went home, commenced to vomit, and vomited all food or drink and continued without ceasing, vomiting or retching for three weeks, being fed by the rectum all the time. She was greatly emaciated and had to be held up by the nurse.

One dose of Kreos. 200c was given. In twenty minutes the retching ceased. The patient fell asleep, had no more vomiting and rapidly recovered. Up to this time she had been under allopaths, who advised that homeopathy should be tried, as they could do no more.

James H. Freer cured a woman, over 80, who suffered from incontinence of urine during bronchial attacks, which compelled her to keep to bed.

Villers had reported a case of incontinence, worse when lying down, that was cured by Kreos. This led Freer to the remedy, which rapidly cleared up the case, bronchitis and all. Freer also cured incontinence in a case of locomotor ataxia in a man, 74, with Kreos. 6c.

An allopathic authority, Vladimir de Holstein of Paris, accidentally cured aggravated constipation in a chlorotic girl with 6 drop doses of Kreos., given in beer or milk.

He gave it with the idea of "disinfecting" the intestines.

Meredith cured with it a young woman, 17, of intense urethral scalding after urination.

Cooper cured with Kreos. 30c a case of auditory vertigo in a patient with pegged teeth. No other medicine would touch the case. It is also frequently called for in acquired syphilis, especially in the skin manifestations. Kreos. cured at the same time constipation of ten to twelve days' duration.

Harmar Smith cured a girl, 10, of very frequent and violent eructation, she was apparently healthy in other respects. Bell, and Puls, did no good. Arg-n., aggravated. Kreos. 2x at once did good and cured in a few days.

RELATIONS -Antidote: Antidoted by: Aeon, (vascular erethism), Nux (violent pulsations in every part of body), according to Teste, Ferr. is the best antidote. **Compare:** (1) Fuli., Carb- ac., Iod., Lach. (2) Guajol. - is the principal constituent of Kreosote and similar in action, used in pulmonary tuberculosis. (3) Piper augustifolia - gonorrhea, hemorrhage from lungs, catarrhal condition of genitor-urinary organs and gastro-intestinal tract. Topically a hemostatic. Difficult, dry, deep, winter cough. Use the tincture. (4) Eupi. and Kreos., have many similar symptoms, hemorrhages, pulsations and menstrual disorders. (5) Pix. - in tuberculosis. (6) Kali-c. - product of burning wood, stitches, worse after sex. (7) Sep. - intermittent menses, outward pressure in genitals, painful sex, vomiting of pregnancy. **Complementary:** in malignant diseases: Ars., Phos., Sulph. **Followed well by:** Sulph., Ars. (in malignant disease), Bell., Calc., Kali-ca., Lyc., Nit-ac., Rhus., Sep. **Incompatible:** Carb- v., also after Chin.

***LAC CANINUM

(Dog's Milk)

PHARMACY - lac-c. Lac caninum. Dog's milk. Dilutions. **Historical dose:** All potencies.

CLINICAL - Arms, varicose. **Arthritis.** Backache. Bedwetting. Breast infections. **Breasts, painful.** Chancre. Colic. Croup. Cough. **Delusions.** Depression. Diarrhea. **Diphtheria.** Dysmenorrhea. Epulis. Eye, disorders. Fatty, degeneration. **Galactorrhea.** Gonorrhea. **Headaches.** Hematuria. Hemorrhages. Hysteria. Ichthyosis. Leucorrhea. Mastitis. **Migraines.** Menses, disorders. Nephritis. Neuralgia. Nosebleeds. Otitis. Ovarian, disorders. Photophobia. Polyuria. **Prostration.** Ranula. **Rheumatism.** Sciatica. Scurvy. Spinal, irritation. Stomach, disorders. Syphilis. **Throat, sore.** **Tonsillitis.** Toxemia. Tumors. Ulcers. **Uterus, disorders.** Vaccinosis. Varicose, veins. Warts. **Weakness.**

HOMEOPATHIC - Sammonicus and Sextus praised Lac-c. for photophobia and otitis. Pliny claimed that it cures ulceration of the uterine cervical os. Historically, it was considered an antidote to deadly poisons.

The Lac-c. provings were made with the 30c and upwards, and were published by Swan and Berridge. As in the cases of Bufo., Cast-eq., and other historical remedies, homeopathy has confirmed the accuracy of older observations. Disorganizes the blood and affects the throat, breasts, kidneys and rectum.

Great lassitude. **Great weakness and prostration.** Sinking spells every morning. Feels as if walking on air or of not touching the bed when lying down. Keynote **erratic pains, alternating sides**, often very rapid.

Diphtheria, both as a curative and as a prophylactic. Mouth and throat covered with aphthous yellowish-white ulcerations, easily bleeding. Sore throats, that cease entirely, only to commence on the opposite side, and often returning to its first location. Sore throats apt to begin and end with the menses.

Headaches where there is a sharp pain over the left eye, alternates to the right, then back again, with photophobia. Headaches, better cold compresses. Violent frontal and occipital headaches, migraines.

The pains moves from side to side. Sensitive to light and noise, the least touch aggravates. Cannot bear one part of the body to touch another, must keep even the fingers separate. The spine aches and is sensitive to the touch (Agar.).

Arthritis (Puls., Led.), particularly when moving **cross-wise**. **Arthritis**, better with ice on the joints, worse motion and heat (Apis.). **Wandering rheumatic pains**. Sciatica, pains alternating from the left to the right. Swelling of the joints with wandering pains.

Coldness in different parts and organs, in blood. Easy hemorrhages, nosebleed, bloody stools. Fetid discharges. Gray, white, plastic exudates. Fatty degeneration of liver, spleen and kidneys and other solid organs. Scurvy. Toxemia of pregnancy. Breast infections. Decided effect in drying up milk in women who cannot nurse the baby.

MIND - Alternation of moods. Mental symptoms worse before menses. Fixed ideas. Feels weak, nerves out of order. Paroxysms of nervousness. Very nervous, easily startled. **Oversensitive, can't bear anything to touch her.**

Very restless, cannot concentrate her thoughts or mind to read, wants to leave everything as soon as it is begun. Absentminded. Very forgetful, makes mistakes in writing, speaking. Makes purchases and walks away without them.

Pessimism. Severe hopelessness. **Despondent**. Want of self-confidence. Self loathing, especially of the body. Feeling of disgust and horror. Fits of weeping two or three times a day. Depression, doubts ability and success. Thinks himself of little consequence. Undertakes many things, perseveres in nothing.

Feels she is not herself. Feels that everything she says is a lie, that she is full of strange, peculiar feelings. Imagines that he wears someone else's nose. Desire for company, light.

Hysteria, delusions, fears. Hysteria at height of sexual orgasm.

Cross and irritable, with headache. Hatred. Insolent. Intense hatefulness. Attacks of rage, cursing and swearing at the slightest provocation. Child cross and irritable, screams all the time, especially at night, will not be pacified in any way.

Anxiety about health. Fear of disease, of tuberculosis, heart disease, heart attacks, dying. Fears she will become unable to perform her duties. Fear of going insane because of tormenting thoughts. **Fear of fainting**, of falling down the stairs. Fears to be alone. **Fear of snakes** (Calc., Lach.).

Delusions while sitting and thinking **Delusions, dreams of snakes**, vermin, insects, spiders. Sees big eyes and creeping things. Sees faces, worse in the dark. Delusion that the air surrounding her is full of hovering spirits. Delusion that she wears someone else's nose. Delusions of having a horrible disease, that her whole body is filled with pus.

Abdomen - Extreme heat in abdomen.

Abdomen very swollen and hard. Abdomen very sensitive, can't bear it touched. Bearing-down pains in abdomen. **Pressure from within outwards, as if contents of abdomen would be forced outwards.** Severe shooting pains in abdomen. Severe burning, in right hypochondriac and iliac region. Gripping colic with shifting of flatulence and diarrhea, followed by continuous rectal pain. Feeling of tension in left groin, does not want to walk or stand.

Back - Backache, nearly all day between scapula, worse after becoming warm. Cold creeping down back. Spine aches from base of brain to coccyx. Spine very sensitive to touch or pressure. Sharp neuralgic pain under right scapula. Lameness and cutting pain under left scapula, worse turning in bed. **Stiffness of neck.** Aching in neck, wants to bend head forwards.

Breasts - Breasts seem very full. **Breasts swollen, painful before menses** (Calc., Con., Kali-c., Puls.), and better on appearance of menses. **Breasts sensitive to touch, pressure.** Breasts sore when going up or down stairs, during **menses**. **Mastitis, worse from the least movement.** Breasts very painful with sharp, darting pain in right ovarian region. Constant pain in breasts, nipples. Breasts feel as if full of hard lumps. Breasts tumors and cancer. Tumors re-appear in opposite breast after being surgically removed. Knots and cakes in breasts, after miscarriage. **Galactorrhea.** Loss of milk while nursing without any known cause. Milk scanty. **Dries up the breast-milk.**

Causations - Result of fall. Diphtheria.

Chest - Constriction of chest, as from sulphur fumes. Clavicles sore to touch. Feeling of oppression and tightness behind sternum, with desire to draw a deep breath. Stabbing pain in right chest, just below nipple. Trembling, jerking and fluttering through chest. Fetid sweat in axilla, staining linen brown. Herpetic eruption in axilla with brownish scab.

Cough - Cough from tickling under middle of sternum. Cough from constant tickling in throat. Hard, metallic

cough. Croupy, dry cough. Hoarse barking cough. Cough with pain and oppression of chest.

Ears - Ear infections that alternates from ear to ear. Green odorless discharge. Sensation as if ears were full. Intense pain in right ear. Very sharp pain in right middle ear, must cover ear when walking in wind. Wakened at night by aching pains in the ear of the side she is lying on. Noises in ears. **Reverberation of voice, as if speaking in a large empty room.** Ringing in the right ear, buzzing at night. Sounds seems very far off. Deafness from hereditary syphilis.

Eyes - Dark brown ring under eyes. Eyes dull and lusterless. Eyes sensitive to light, cold air. Heaviness in eyeballs, with outward pressure. Eyes slightly swollen, profuse lachrymation with catarrh. **Eyes watery and discharging.** Agglutination of eyelids. Sharp pain in back of socket or right eye. Intense darting pain around left eye. Upper eyelids very heavy, can scarcely keep eyes open, very sleepy.

Face - Burning, flushing of face. Face very red, and then suddenly pale. Pale, careworn, anxious. Marked pallor of face. Swollen, she can hardly see in the morning. Neuralgic pains, worse talking. eating or slight touch, followed by numbness. Cracking of jaw while eating (Nit-ac. Rhus-t.). Swelling of submaxillary glands. Swelling of parotid passes from right to left.

Female - Menses too early, profuse. Menses scanty at first with pain in left ovary. **Menses flow in gushes.** Dysmenorrhea, abdomen sensitive even to weight of clothing. Membranous dysmenorrhea, pain in left groin. Leuconhea all day, but none at night, even after taking a long walk. Foul smell from genitals. Intense painful soreness of vulva. Itching of vulva. Herpes. Raw and bad smelling sores between labia and thighs. Sexual organs easily excited. Flatus from vagina. Bearing down pains as if everything would fall out through vagina. **Sharp pains in ovaries, alternating sides. Pain in left ovarian region.** Heat in ovarian and uterine region. Retroverted uterus. Very severe after pains, shooting down into thighs.

Food - Great hunger for large quantities, cannot satisfy her hunger. No appetite. Considerable thirst. Drinks little and often. Pain in throat better warm or cold drinks. Aversion to liquids, water, anything sweet, fat, greasy food. Desire for highly seasoned foods, salt, pepper, mustard, pungent things. Desires warm drinks, whiskey. **Craves milk and drinks much of it, aggravates.** Thought of milk makes sick, during sick headache.

Head - Headache with blurred vision, nausea and vomiting. Sick headaches. **Headaches that alternates sides.** Headaches over left eye on first awaking. Occipital pain with shooting extending to forehead. **Migraines.** Sensation as if brain were alternately contracted and relaxed. Severe pressure on brain. Pains and throbbing in temples. Constant noise in head. Head very sore and itches almost all the time. Sore pimples on scalp, discharging and forming scabs.

Heart - Coldness in precordial region, in blood. Heart beats rapidly from slight causes. Pulse rapid, quick. Full right pulse, small on the left. Palpitations of heart, irregular, causing shortness of breath. Violent palpitations when lying on left side, better turning on right. Pains when going up and down stairs.

Kidneys - Nephritis. Constant desire to urinate, passing large quantities frequently, or scanty urine. Urination causes intense pain in urethra, soon passing off. Urine albuminous, scanty, infrequent, suppressed. Urine dark, heavily loaded with thick reddish sediment. Hematuria. Sensation after urinating as if bladder still full. Dreams of urinating and wakes with urgent need. Nocturnal bedwetting.

Limbs -Alternating pains. Pain in limbs as if beaten. Aching pains in limbs and back. **Rheumatic pains, flying from joint to joint and side to side.** Rheumatism, better cold and cold applications. **Wandering pains from joint to joint.** Sciatica, right side. Pain in arms to fingers. Arms, feet cold. Burning of hands and feet at night. Ankles swell in the evening. Legs feel numb and stiff, cramps in feet.

Lungs - Very labored breathing, couldn't lie down flat. Lungs feel as though fastened to chest. Profuse, sticky, tough, white mucus in masses, with coryza.

Male - Right spermatic cord, low down, sore to touch. Red, smooth, glistening, cauliflower-like chancre on prepuce, left side of frenum, penis greatly swollen. Buboec and chancres. Gonorrheal with intermittent pains in the urethra. When gonorrhea is better, nasal catarrh sets in. Marked sexual desire.

Modalities - Better cold, cold drinks. Better open air, walking. Better turning on right side. Better from nosebleed, mental symptoms. Worse from cold, drafts, sharp winds. **Worse touch.** Worse pressure, motion. Worse a jar. Worse coughing, sneezing. Worse empty swallowing. Worse from rest. Worse at night. Worse after sleep. Worse during menses. Worse mercury. Worse morning of one day and in the evening of next.

Mouth - Mouth very dry without thirst. Putrid taste increased by sweets. Breath very offensive, putrid. Profuse salivation, slightly viscid, ran from mouth during sleep. Mouth constantly full of mucus, constant inclination to swallow, which causes pain. Drooling in diphtheria. Roof of mouth sore with blisters. Feter. Acute ulceration and follicular stomatitis, aphthous and gangrenous. Nursing sore mouth. Noma. **Jaw cracks while eating** (Nit-ac, Rhus-t.). Dry and peeling lips. Scurvy. Stutters when talking fast, has to speak slowly.

Nose - Fluids escape through nose, while drinking. Profuse, purulent nasal discharge at night. **Discharge acrid, nose and lips raw.** Watery discharge, followed by dry sensation in nose. Coryza, one nostril stuffed

up, the other free, alternating sides. Stuffed feeling in nose and throat. Bones of nose sore to pressure. **Coryza with discharge of thick white mucus.** Fluent catarrh from tubal nasal discharge like gonorrhea, staining pillow greenish yellow. Discharge of bloody pus. Nosebleed when speaking or swallowing. Nosebleeds at night, only from right nostril. Alae nasi and corners of mouth cracked. Smell of flowers seems to send chill over her.

Perspiration - Bathed in warm sweat, about face, neck and hands. Clammy sweat all over. Copious sweat of rank smell. Exhausting sweat after sleep, at night.

Rectum - Dysentery, blood with profuse, greenish mucus, cries with violent cutting pain in the rectum. Profuse diarrhea with colic pain. Diarrhea coming out with great force. Obstinate constipation. Great tenesmus, rectum as if it could not expel feces because they are soft. Urgent desire for stool, but passes only wind. Mucus yellow liquid stools. Stools large, whitish, rough, scaly, hard.

Skin - Dry, hot skin. Pimples between lip and chin. Herpetic eruption in both axilla. Ichthyosis with bran like desquamation of skin. **Very small blotches like fleabites.** Shining, glazed and red appearance of ulcers on shin and wrist. Crusts on skin, grayish yellow matter formed underneath and squeezed out.

Sleep - Great desire to sleep. Sleeplessness from emotional strain, with entire nervous debility, crying. Can't find any comfortable position in bed. Cries out and talks in sleep. **Dreams of snakes.** Dreams of urinating, of going on a journey. Wakes at night with a sensation as if bed were in motion. **Symptoms worse after sleep.**

Stomach - Stomach tender and bloated. Coldness in stomach. Burning in epigastric region, feeling of a weight and pressure of a stone in stomach. Weak, sinking feeling at stomach-pit, with nausea, on waking. Gnawing, hungry feeling, not better eating. Severe throbbing in region of solar plexus. Nausea on waking, with headache. Nausea at beginning of diphtheria. Nausea better by belchings of wind. Sudden, incessant vomiting of all food. Frequent attacks of severe vomiting. Vomiting of offensive, dark green mucus.

Teeth - Pain in left upper molars, coming from left temple through left ear. Teeth sensitive to cold water. Teeth loose, caused by defective nutrition and exposure. Gums swollen, ulcerated, retracted, bleeding.

Temperature - Chilly feeling lasting all day. Internal chilliness with external warmth. Fever and chills for a few days, up and down every few hours. Heat alternating with chill. Intense fever on waking, with perspiration. Exhausting sweats after sleep. Wakes at night in cold perspiration with fearful foreboding.

Throat - **Sore throat**, from constant inclination to swallow saliva. Painful swallowing, pain extends to ears. Sore throat and cough with menstruation. Sensitive to touch. Swelling of throat, worse after sleep. Throat cold, feels burned raw. Sensation as if throat were closing and he would choke. **Shining glazed** appearance of **deposit,pearly-white** or like white porcelain. Throat glistens like fish scales. **Uvula coated.** White ulcers on tonsils. Both tonsils swollen and covered with spots of exudation. Tonsils swollen as almost to close throat. **Tonsillitis, diphtheria, symptoms change repeatedly from side to side.** Larynx sensitive to pressure.

Lac caninum

Lump in throat. Wakes with mouth and throat painfully dry. Throat feels stiff as a board. Pricking sensation in throat. Tickling sensation causes constant cough. Hoarseness during menses.

Tongue - Dryness of tip of tongue. Tongue, swollen, cold, stiff, looks patched. Tongue coated white with bright red edges, profuse salivation. **Tongue coated whitish gray.** brown, yellow.

Vertigo - Dizzy sensation with slight nausea. Sensation of walking or floating in air (Stict.). Waking at night with sensation as if bed were in motion. Vertigo before menses.

Vision - Blurred vision, nausea and vomiting at height of attack of headache. Sensation of a film before eyes. **Tendency in retina to retain the impression of objects and colors**, or the old image is projected into the next. Difficulty in distinguishing objects. Colored spots before the eyes. **Difficulty in reading, letters run together**, page doesn't look clear.

COMMENTS - Hering stated that "Di- oscorides, Rhasis, Pliny and Sextus recommended it for the removal of the dead fetus." Hering added that the remedy was revived by Dr. Reisig of New York, who used it successfully in the treatment of diphtheria. After Dr. Reisig, the remedy was used by Bayard and Swan. Swan's potencies were prepared from Reisig's 17c.

Lac-c. was one of the major remedies for the diphtheria epidemics in the United States. Diphtheria with fetid discharges. Diphtheria paralysis. For the affects of diphtheria. Glistening, inflamed membranes, particularly of the throat.

Glistening, ulcerated tonsils. Tonsillitis. Swollen mucus follicles, covered with cream-colored mucus. Glossy throat, may have white patches on the tonsils. Sore throats, worse on the left, alternates sides. Sensitive, externally and internally (Hep.). Difficult swallowing, sharp pain that shoots to the ear (Phyt.). Tickling sensation in the throat or a lump in the throat.

Corners of the mouth and alae nasi are cracked. Hay fever and sinusitis where the discharges alternate.

Ozaena. Discharges of the upper palate. Bloody pus discharges several times a day. Crusts, under which gray matter forms. Bones of the nose are sore to pressure.

Hormonal and breast problems. Premenstrual syndrome with irritability, impulsiveness. Premenstrual syndrome with swollen, hypersensitive breasts, so sensitive the clothes cannot touch the breasts (Calc., Con.). Hysteria, especially before menses, can get violent (Lach.). Crying and weeping spells. Sore throats and headaches before menses. Menses ameliorate symptoms.

Ovarian cysts (Thuj.). After a rupture or surgery of an ovarian cyst, cysts appear on other side. Breast cancer after surgery that metastasized to the other breast. Mastitis, worse least motion (Bry.).

Hypersensitive nipples in nursing mothers, cannot continue nursing. More milk in one breast than the other, or pain in one breast while the baby nurses the other. For conditions causing milk to dry up, or to dry up milk. Lack of milk (Urt-u.).

Restless, nervous and prostration. Vertigo (Con., Phos., Cocc, Asar.). Sensation of lightness or levitation, seemed to walk on air (Asar., Calc.), as if they are floating up off the bed. Makes mistakes in writing and speaking, poor memory.

Periodic symptoms, worse in the morning of one day and in the afternoon of the next. Generally left sided, but will often move to the right. Alternating sides. Worse after sleep (Lach.). Very sensitive to the cold and cold wind, but better cold applications, worse heat. Desire milk and spicy foods.

The modality "alternation of sides" once led Clarke to the cure of an eczematous condition of the eyelids in a child. The child's aunt, who brought her to him, causally remarked that it often left one side entirely and went to the other and then back again. Lac-c. cleared it up in a very short time.

E. T. Balch asked for advice in the case of Maud, age 10, a brunette of healthy parents. She had fallen forward and hurt her chest while playing one and a half years earlier.

Nothing was thought of it at the time, but when brought to Dr. Balch, she was pale, emaciated, capricious, with no desire for play.

Her sleep was disturbed by frightful dreams. During the day, piteously begged her mother to take her, she was so afraid. She felt as though snakes were on her back. In response to advice, Balch gave one dose of Lac-c. 50,000c. dry, and in twenty-four hours the child became more lively and cheerful and very soon all abnormal sensations disappeared.

RELATIONS - Compare: (1) Lach., Cong. (2) Lac-v. - headache, rheumatic pains, constipation. (3) Lac-v-c., curds - nausea of pregnancy. (4) Lac-v-f. - diphtheria, leucorrhea, menorrhagia, dysphagia. (5) Lac-ac.

***LAC CAPRINUM

(Goat's Milk)

PHARMACY - lac-cpr. Lac caprinum. Goat's milk. Dilutions. N. O. Bovidae. **Historical dose:** All potencies.

CLINICAL - Arthritis. Backache. Headache. Hoarseness. Indigestion. **Joint,pains.** Leucorrhea. Palpitations. Rheumatism. Sexual, disorders. Vertigo.

HOMEOPATHIC - **Joint, pains. Wandering pains. Sharp, stitching pains. Cracking** in joints. Stiff, painful neck, worse turning head, worse draft, cold with dull, heavy sensation in head. **Chilliness.** Digestive disturbances. Pain in stomach, very tense, gurgling around 11 a.m. to 12 a.m. Sensation as if passage is obstructed.

Headache above left eye, disappearing quickly, later on the right side. Icy cold feet in bed preventing sleep. Worse after eating, as if stomach expands. Fetid odor from axilla, genitals, or feet. Vertigo better lying. Palpitations, worsecoffee, fright, fear of heart disease.

MIND - Anticipatory anxieties. Anxiety in chest. Impatience. Restlessness, nervousness, driving from place to place. Hurry, haste, everybody moves too **slowly. Startled**

Lac caprinum easily. Fear of being taken by surprise or attacked. Fear of sharp things. **Fear of having aheartattack.** Fear of heights. Oversensitive to noise. Sensitive to odors.

Capricious. Sadness, melancholy, especially during headache. Weeping, tearful mood, with headache. Homesickness. Desire for company, worse when alone. Averse to company with head pain. Aversion to music.

Strong sexual desires. Fear of own sexual impulses. Contemptuous. Indifference to opinion of others. Censorious. Suspicious, mistrustful. Indignation. Sulking. Indolence, aversion to work.

Irritability from trifles. Easy anger, lying down ameliorates. Anger, on waking. Anger from being interrupted. Uncontrollable anger, rage. Shrieking, screaming, desire to strike. Quarrelsomeness, scolding. Malicious. Threatening. Complaining. Rudeness.

Abdomen - Heaviness.

Back - Backache. Pain, between scapulae. **Chest** - Anxiety, in chest.

Dreams - Anxious dreams of quarrels, being pursued. Dreams of old friends, animals, goats, vegetables, fruits, flowers. Amorous dreams with pollutions.

Eyes - Pain in the morning. Winking.

Female - Leucorrhea, curdy. Scanty menses with sensation of profuse flow.

Food - Desires fried foods, cold milk, cold tea, spices, sweets.

Head - Headache above left eye, disappearing quickly, then on the right side. Fullness in the forehead. Heaviness in the forehead, above the eyes, better from pulling hair. Headache in the morning, 10 a.m. until 3 p.m. Pain accompanied by eye-blinking, sneezing, compelled to close eyes. Pain in forehead, left temple, better after sleep. Pressing pain in vertex, from exposure to sun, worse slightest motion.

Heart - Palpitations, worse from coffee, fright.

Limbs - Arthritis. **Joint,pains.** Rheumatism. **Wandering pains. Sharp, stitchingpains.** Pain in left thigh.

Male - Sexual, disorders. Sexual perversions. Night dreams with pollutions.

Modalities - Desire for cold bathing with intolerance for warm bathing. Warmth aggravates.

Neck - Stiff and painful, worse turning head, draft, cold.

Nose - Pain at root of nose. Acute smell. Sneezing.

Perspiration - Fetid odor from axilla, genitals, or feet.

Sleep - Icy cold feet in bed preventing sleep. Unrefreshing sleep.

Stomach - Appetite diminished, from anxiety. Burning pain, after eating, better bending double.

Throat - Hoarseness.

Urine - Burning, hot.

Vertigo - Vertigo, as if everything were turning in a circle, better lying down.

RELATIONS - Compare: Lac-c., Kali-c., Lac- f., Lac-h., Lac-v., Lac-v-c., Lac-d.

REFERENCES - Sankaran.

***LAC DELPHINUM

(Dolphin's Milk)

PHARMACY - lac-del. Lac delphinum. Dolphin's milk. Dilutions. **Historical dose:** All potencies.

CLINICAL - Aphthae. Constipation. Diarrhea. Flatulence. Headaches. Heartburn. Hemorrhoids. Numbness. Photophobia. Pneumonia. Vertigo.

HOMEOPATHIC - Delirium during chill.

MIND - Feels he is alone. Sensation of isolation. Insecurity. Introverted. Spaced-out feeling. Desire for company. Wants to be watched constantly. Conscientious about trifles. Irritability. Clairvoyant.

Tranquility. Affectionate. Amorous disposition. Communicative, expansive. Jestings. Antics, plays. Laughing easily. Desire for amusement. Sentimental with music. Desires bright colors. Love for animals. Loss of self-control. Impelled to touch things.

Fearlessness. Ailments from fright or fear. Anxiety about his family, children. Anxiety after eating. Fear of impending danger, of accidents, robbers. Fear in a crowd. Oversensitive to noise, on going to sleep.

Abdomen - Flatulence.

Back - Dull pain, on lying down.

Bladder - Burning, sore pains. Frequent urging to urinate, morbid desire. Urine odor strong, offensive.

Chest - Gurgling sounds. Sensation of a bubble, sides. Rib pain.

Ears - Redness. Sensation of dryness. Stopped sensation. Hearing acute.

Eyes - Photophobia. Burning pain, redness. Eye pain during fever. Burning eyes from reaction to perfume.

Face - Pressing pain. Maxillary sinus pain.

Food - Appetite diminished, enjoyment lost. Increased, hunger in morning. Thirst for cold drinks.

Head - Headaches, occiput, temples. Dull pains, worse right side.

Limbs - Numbness, better motion, rubbing, walking. Numbness in upper limbs during sleep. Numbness in leg, in morning. Cramp-like pains. Throbbing pain. Heavy feeling. Swelling of lower limbs, ankles. Sensation as if blister on toe. Foot perspiration. Eruption on foot. Itching on thigh, forearm, palm, in spots.

Lungs - Tickling in the air passages. Dry, short coughs. Expectoration grayish. Pneumonia.

Male - Sexual desire increased.

Mouth - Aphthae. Discoloration of tongue, red edges.

Nose - Nasal catarrh. Coryza with fever. Post-nasal discharge, watery. Sense of fullness. Pressing, pain.

Rectum - Inactive bowels. Constipation. Diarrhea. Stools dark, dry, infrequent, loose, small and watery. Flatus after dinner. Burning, smarting hemorrhoids.

Sleep - Light, restless sleep, turning left to right all night. Sleep interrupted. Position changes frequently. Sleep, semi-conscious, hears everything. Unrefreshing sleep. Anxious to wake up on time.

Stomach - Gnawing, pressing, burning pain, pressure, better warm applications, worse lying down on back. Burning pain, heartburn, after eating, coffee. Nausea in the morning.

Throat - Dryness, painful on swallowing, worse morning. Burning pain. Sore throat, left side. Lump in throat. Voice loss.

Vertigo - Vertigo during chill. Vertigo, with spaciness, obscurity of vision. Vertigo swaying toward left. Vertigo turning in a circle to the right. Vertigo as if floating.

Vision - Blurred, foggy vision. Acute vision for small objects. Objects seem large.

RELATIONS - Compare: Lac-c., Lac-f., Lac-h., Lac-v., Lac-v-c., Lac-d.

REFERENCES - Herrick.

***LAC EQUINUM

(Horse's Milk)

PHARMACY - lac-eq. Lac equinum. Horse's milk. Lac equorum. Dilutions. **Historical dose:** All potencies.

CLINICAL - Backache. Constipation. Convulsions. Fatigue. Flatulence. Herpes. Insomnia. Weakness.

HOMEOPATHIC - Convulsions on waking. Convulsions followed by paralysis. Convulsions during the fever. Tonic, clonic convulsions. Convulsions on right side of body. Convulsions in children. Intolerance of clothes. Fatigue. Evening or twilight, amel. Worse alcohol. Pulse, frequent, motion aggravates. Tension of muscles. Weakness after warm bathing. Weakness from warm weather. Weakness after menses.

MIND - Impatient, hurried. Irritable. Restless. Desire to travel. Industrious. Anger in traffic. Sensitive to noise. Easily offended. Complaining, quarrelsome. Discontented. Indignation, frustration. Cannot support injustice. Critical, censorious. Cursing. Dictatorial.

Forgetful. Memory weakness. Mistakes, transposes letters and numbers. Fuzzy sensation of mind. Wandering thoughts. Anticipatory anxiety, better lemonade. Anxiety of conscience. Anxiety after menses. Delusions of neglected duty. Insane delusions. Desire to escape.

Abdomen - Distension. Flatulence, after eating. Cramping pain, pressure.

Back - Backache, worse rising from a seat. Pimples. Backache, lumbar region. Aching pain lumbar region.

Bladder - Urination frequent.

Dreams - Vivid dreams, difficult to remember. Dreams of unsuccessful efforts. Dreams of fights, police, being pursued, animals, restrained by collars. Dreams of difficulties during journeys, foreigners. Amorous dreams, of being naked.

Eyes - Dry eyes.

Female - Decreased sex drive. Menses, early. Pains during menses. Ovary pain alternating sides, after menses. Left ovary pain after menses. Sexual passion, diminished or increased. Tingling voluptuous in left ovary, after menses

Food - Appetite increased. Desires lemonade. Aversion to chocolate.

Head - Headaches, worse forehead. Tension, constricted feeling.

Heart - Tachycardia.

Limbs - Cold feet. Sore knee on rising, ascending stairs. Pain in right shoulder. Hip pain, right side on walking. Hip pain, right side after rising from a seat. Hip pain, right side, extending to knee. Hip pain, alternating sides. Cramps, hands, legs. Blotches. Discoloration of toenails. Urticaria. Itching. Heaviness sensation while walking. Numbness right hand. Restless, hands, feet. Stiffness of knees, in morning on rising.

Lungs - Dry cough. Dyspnea. Difficult, taking a deep breath. Breath stops at epigastric area. Asthmatic, wheezing respiration. Difficult breathing.

Male - Decreased sex drive.

Mouth - Gums bleed easily.

Nose - Coryza, in open air, better cold.

Perspiration - Profuse sweats.

Rectum - Constipation. Incomplete evacuation. Urge to stool, with insufficient results. Loose stools. Mucus and flatus with stool.

Sleep - Insomnia. Sleepless after midnight. Wakes 3 a.m. to 5 a.m. Bad sleep. Sleeplessness, from full moon. Waking, frequent. Waking, 12a.m.-1 a.m. Waking, 2 a.m. Waking, 3 a.m. or 4 a.m. Waking as from a fright. Unrefreshing sleep.

Skin - Acne. Herpetic eruptions, itching, pimples. Skin discolored blackish, bluish. Eruptions, circinate.

Stomach - Belching. Burning pain. Nausea.

Throat - Constriction of throat.

Vertigo - Vertigo on waking.

RELATIONS - Compare: Lac-c., Lac-f., Lac-h., Lac-v., Lac-v-c., Lac-d.

REFERENCES - Herrick.

***LAC FELINUM

(Cat's Milk)

PHARMACY - lac-f. Lac felinum. Cat's milk. Dilutions. **Historical dose:** All potencies.

CLINICAL - **Asthenopia**. Breast, nodules. **Ciliary neuralgia**. Depression. Dysmenorrhea. Eye, disorders. Headaches. Keratitis. Leucorrhea. Mouth, inflammation. Neuralgias. Photophobia. Styes. Throat, catarrh. Trembling.

HOMEOPATHIC - Lac-f. was introduced by Swan; the full pathogenesis appears in Medical Visitor, Aug., 1893. The greatest number of the symptoms were experienced in the head and eyes, and many of them have been confirmed.

Lac-f. has eye symptoms, ciliary neuralgia, photophobia, **asthenopia** and dysmenorrhea. The clinically verified symptoms include a morbid conscientiousness, heaviness in forehead. Scalded sensation on tongue. Absence of appetite.

Eye disorders are mostly accompanied by shooting pains from eye backwards. Styes were present in some cases. Constant nervous trembling, especially of hands, as in alcoholics.

1IND - Great depression of spirits. Cannot weep, although sad. Feeling of helplessness. Contempt of self. **Morbid conscientiousness**, every little fault appeared a crime. Very irritable and cross to everyone. Aversion to men. Desire to travel.

Fear of pointed, sharp things, pins. Fear >f falling downstairs, without vertigo. Mental illusion that the corners of furniture or any ointed object near her, were about to run ito eyes.

Delusion she looks wretched on looking in mirror.

Abdomen - Pain in abdomen and back, as if menses about commencing. Pain in bowels. Sensation of a cold bandage over lower part of abdomen.

Breasts - Induration of breasts, nodules in breasts, pain, before menses. Milk, disappearing.

Chest - Oppressed breathing, continuing for several days. Difficulty in drawing a long breath, seems as if the breathing was done by upper part of lungs alone.

Eyes-Asthenopia. Sharp pain through center of left eyeball. Shooting pain from eyes backwards. Eye pains causing profuse lachrymation. **Ciliary neuralgia**. Heavy pressure downwards of eyebrows and eyelids, as if the parts were lead. **Sensation as if eyes were drawn backward**. Inclination to keep eyes shut. Eyes feel as if sunken in head and left eye occasionally waters. Twitching of outer end of left upper lid inside. Styes.

Female - Menses copious, too frequent, painful. Menses suppressed. Voluptuous itching. Itching of vulva inside and out, yellow leucorrhea. Leucorrhea ceased on third and reappeared on fourth day. Great weight and bearing down in pelvis like falling of the womb, worse when standing. Dragging pain in left ovary.

Food - No appetite. Great desire to eat paper. Craving for milk, salty things, fish. Aversion to milk, fats.

Head - Dull pain in forehead, in region of eyebrows. Heaviness in forehead. Heavy pressure in sides of head and vertex. **Sharp pain over left eye**. Acute pain on vertex, frontal region. Pulsations in head with sensation of heat in forehead and constriction across bridge of nose. **Formication at vertex**. Sensation of looseness of brain.

Kidneys - Frequent desire to urinate, urine very pale. Obstruction in urinating, has to wait.

Limbs - Numbness. Pain in right side of left wrist when using index finger. Legs ache. Left foot feels cold when touched by right foot. Coldness of foot, one cold the other hot. Sensitive feet. Touching feet.

Modalities - Worse lying on left side, on painful side.

Mouth - Loss of taste. Brassy taste in mouth. Salivation during sleep. Dryness of mouth. **Sensation as if tongue were scalded by a hot drink**. Redness under tongue, on gums and mouth. Very sore mouth. Soreness and sensation of ulcers on tongue and roof of mouth. Small white ulcers covering tongue and mouth. Tongue enlarged and serrated at edges by teeth.

Nose - Cannot bear the smell of clams of which she is normally very fond and cannot eat them. Icy coldness before headache.

Sleep - Dullness, sleepiness, gaping. Heavy, profound sleep, not easily awakened. Dreams of earthquakes, of being pursued.

Stomach - Great soreness and sensitiveness of epigastric region. After eating feels swollen, has to take off her dress and loosen clothes. Stomach sore all around just below the belt, worse left side. Occasionally very slight nausea. Heat in epigastrium.

Stool - Natural stool, but very slow in passing, at 2 a.m. Stool long, tenacious, slipping back when ceasing to strain, seeming inability of rectum to expel its contents.

Teeth - Pains in all the teeth as the hot pain from head touched them.

Temperature - Cold and heat alternately, each continuing but a short time.

Throat - Tough yellow mucus in pharynx, cannot hawk it up and has to swallow it. Mucus in pharynx and throat is thick, yellow tough, stringy, expectorated with difficulty and has a sickish sweet taste. Sensation of lump in throat.

COMMENTS - Many eye cases are on record. Swan wrote, "Terrible headache penetrating the left eyeball to center of brain with pain in left supra-orbital region extending through brain to right vertex."

In another case, Swan recorded "Pain in eyes back into head, extremely sharp with a sensation as if the eyes extended back. Great photophobia, any continued glare causes the pain."

Berridge reported the case of "Mr. H. 37. Left eye inflamed three weeks, deep red, photophobia, on left segment of cornea as ulcer. For three nights, pain like a knife running from left eye to left occiput, on lying down, especially on left side. Burning in left temple, near eye, worse at night.

"Lac-f. 40,000c. every four hours. Eye was better next days and steadily got well. The pain ceased first."

RELATIONS - Compare: (1) Lac-c., Lac-d. (2) In eye affections, Spig. (3) Styes - Staph., Puls., Hep.

Throat - Dry, red, sore upper part of pharynx in the morning, pain runs up to ears. Throat worse night and morning. Difficult swallowing, at night had to take hold of throat to assist in swallowing. Yellow mucus with a sickish sweet taste. Hoarseness

Lac vaccini flos after singing.

RELATIONS - Compare: (1) Lac-c., Lac- f., Lac-h., Lac-v., Lac-v-c., Lac-d. (2) Ars. stopped abruptly the excessive menses and accompanying pain, Lac-d. restored the flow and then they ceased naturally.

REFERENCES - Clarke.

***LAC VACCINUM

(Cow's Milk)

PHARMACY - lac-v. Lac vaccinum. Cow's milk. Dilutions. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Blindness. **Colds.** Constipation. Diabetes. Fever. Headaches. Leucorrhea. Milk, intolerance. **Otitis media.** Rheumatism. **Sinusitis.** Sternum, pains. Tongue, ulcers. Vertigo.

HOMEOPATHIC - Lac-v. was proved by J. C. Boardman of Trenton, New Jersey. Swan's 200c potency was used. The headaches, biliousness and constipation frequently induced by milk are well known.

The keynote of Lac-c. is alternation of sides, in Lac-v., the **symptoms appeared on both sides at once.** Pains in chest, abdomen, hips, thighs and knees were all felt on right and left sides simultaneously. Headache. Great thirst and excessive flow of urine. Diabetes.

Burnett observed that children who drink much milk after their teeth are grown become **very labile to catch colds and get ear infections.** Milk frequently aggravates . rheumatism.

MIND - General nervousness with depression of spirits, feeling as though about to hear bad news. Mental confusion.

Abdomen - Pain proceeding from sternum, extending across abdomen about an inch below umbilicus.

Back - Pains in sacrum.

Chest - A sharp pain on each side of sternum and about middle of chest with a sense of suffocation. Burning sensation. Sharp pains in left lower chest, beginning in right chest.

Ears - Ears felt stopped up, felt deaf in both ears, although she could hear as before.

Otitis media, worse drinking milk.

Eyes - Dull pain over eyes, more on right. Blurred, dimmed or obscured sight, off and on for a few moments at a time. Blindness of both eyes, comes and goes.

Female - White, watery leucorrhea, pain in sacrum.

Food - Thirst for cold water in quantities, drank three glasses during evening.

Head - Headache, heavy, dull, aching, drowsy, wants to go to sleep. Creeping sensation. Screw-like or vertical motion, beginning over left eye. Woke in morning with an aching pain all over head, most severe in occiput. Sensation like a fire-ball in each temple simultaneously.

Kidneys - Urinates every 15 minutes. Frequent discharge of profuse, clear urine, nearly colorless, no sediment. Urine not increased in morning, dark red without sediment.

Limbs - All the joints of body, especially knees, feel weak and powerless, as when half drunk. Aching pains in bones from hip joints to feet, with burning in both feet. Rheumatic pains in knee and ankles. Clammy, sticky coldness in hands and feet simultaneously.

Lungs - Asthma, worse drinking milk.

Mouth - Dirty, yellow coated tongue, parched. Acid saliva staining handkerchief yellow. Sore taste. **Sores in mouth.** Ulcers on tongue.

Nose - Nasal congestion, from allergies, worse drinking milk. **Sinusitis**.

Rectum - Obstinate constipation.

Sleep - Must force herself to keep awake, to keep her eyes open, to avoid falling backwards. Sleepy and could have fallen asleep at any time during the whole day. General restlessness and bad dreams. Dreams of trying to lay out a corpse.

Stomach - Swelling or bloating. Contractive, pressing pain in stomach, better by external pressure. Sour taste, nausea, but no rising or vomiting.

Temperature - Slight fever over the entire body with moist hands and aching in legs from thighs to knees. Hands became hot and dry. Pain on left side of head with a chilling sensation.

Throat - Sensation of plug in throat or larynx.

Vertigo - Vertigo, falls backwards if she closes her eyes.

COMMENTS - Swan gave reported cures including short, rheumatic pains in knee and ankles on walking, passing fetid flatus. Belchings and passing of much flatus.

Fever at night followed by profuse sweat all over, the fever was preceded by chilly feeling, beginning at shoulders, then running up from feet to head, headache. Fullness of head, as if too large and heavy. Vertigo. Flat white ulcers on tongue, sensitive, covered with white slimy mucus, extending to sides of cheeks. Brown crusts, having greasy appearance, especially in corners of mouth like "butter-sores."

RELATIONS - Compare: Lac-c., Lac-f., Lac-h., Lac-v., Lac-v-c., Lac-d.

REFERENCES - Clarke.

***LAC VACCINUM BUTYRICUM

(Buttermilk)

PHARMACY - lac-v-b. Lac vaccinum butyricum. Buttermilk. Buttermilk made from cows milk. Dilutions.

Historical dose: All potencies.

CLINICAL-Canker, sores. Coryza. Diarrhea. Dysentery. Flatulence. Hoarseness.

HOMEOPATHIC - Dullness of hearing, as if ear were filled with water. Sinus affections. Adherent nasal and postnasal mucus. Nose runs while eating. Stitches through chest on drawing deep breath or stooping. Canker sores. Scab at inner commissure of eye.

Diarrhea and dysentery. Loose stools, lumpy like small peas. Flatus from uterus and vagina, feels like marbles passing down. Itching of thumb and middle finger.

MIND - Great depression of spirits, the future looks dark and hopeless.

Abdomen - Rumbling in abdomen with loose stools. Flatulence, passes involuntarily.

Breasts - Sharp pain in left breast above nipple, on stooping or drawing deep breath.

Chest - Sensation as if an adhesion between lung and pleura. After stooping, sensation as if anterior mediastinum were filled with tenacious substance that stuck parts together; must throw shoulders back and separate parts. Sharp pain in left side below and to left of nipple on drawing deep breath. Painful stitch on right side between 6th and 7th ribs, to right of nipple. Tightness under sternum above center. Lameness through chest.

Ears - Dullness of hearing as if right ear were filled with water, or as if there were a thin film of wax on membrana tympani. Throbbing, beating in right ear. *

Eyes - Pain around right eye. Eyeball sensitive to pressure. Sharp, hot pain passing into left eyeball leaves a sense of heat. Sore spot on inner commissure of left eye on which scab formed, on removing scab a raw, sore place remains. Burning in both lids of left eye with redness of the meibomian glands and dull pain in superior arch of orbit.

Face - Pain in bone beneath right eye, pres- sive as with point of a finger.

Female - Menses early. Flatus can be felt passing, like marbles, into and down uterus and vagina, expelled with a puff.

Head - Heat in head. Dull pain in coronal region with fullness. Creaking sound as head is turned, with throbbing in base of occiput. Pain in forehead over and in outer end of right eyebrow. Dull heavy pain over eyebrows, with sensation of heat in forehead.

Kidney - Urine scanty, dribbling. Extremely slow in passing urine. No power to urinate.

Limbs - Shoulder pain as if dislocated. Right elbow itches. Hands very hot. Painful numbness in upper side of left thumb, slight sensation of heat. Itching on bones of thumbs, no eruption. Violent itching on dorsal surface of right middle finger, spot slightly red. Rough skin inside left thumb. Painful transverse fissure, slight bleeding. Pain glutei medius and minimus, a tired aching makes sitting very uncomfortable. Moist itching, rough eruption, in left popliteal space.

Lungs - Irritation and coughing. Sensation as if an adhesion between lung and pleura.

Male - Painful throb to right testicle, as if in epididymis and extending up the spermatic cord, with slight sinking sensation at stomach. Nocturnal emission, generally unconscious and without dreams, next day glans congested, hard as during an erection, the rest of penis flaccid.

Mouth - Tickling, itching and stinging sensation on left edge of tongue. Canker sores on inside of cheeks and lips.

Nose - Great heat and dryness in nostrils. Coryza and hoarseness, sneezing. Water runs from nose on eating. Profuse watery mucus from right nostril, then sharp pain in forehead over eyes. Tough adhesive mucus, posterior nares, difficult to hawk. Frequent swallowing. Hard plugs of mucus. Inflamed pimple on point. Small, white vesicles on sides.

Skin - Skin hot and dry. Dry skin of hands, with or without heat, must wet fingers to hold anything or turn pages. Musty smell from body with moisture of skin, no sweat. Pimples in groups slightly itching, painless. Pimples sore, cannot be rubbed. Pimples on abdomen, nates, folds of nates, thighs.

Sleep - Sleepy during day. Yawning. Great drowsiness, could hardly keep eyes open. Wakes at 4 a.m. with no further desire for sleep. Dreams of the bodily appearance of the devil.

Stomach - Slight sinking sensation at stomach, as if he would faint, with throbbing in testicle.

Stool - Loose, lumpy, painless stool. Lumps the size of small peas, with pressure on anus as if rectum protruded. Soft stool, very offensive.

Temperature - Slight rise in temperature.

Throat - Dryness of posterior fauces. Mucus surfaces of throat and nose hot and dry. Great dryness of larynx worse at region of glottis. Irritation and coughing. Coryza and hoarseness.

RELATIONS - Compare: Lac-c., Lac-f., Lac-h., Lac-v., Lac-v-c., Lac-d.

REFERENCES - Roberts.

***LAC VACCINUM COAGULATUM

(Milk Curds)

PHARMACY - lac-v-c. Lac vaccinum coagulum. Milk curds. **Historical dose:** All potencies.

CLINICAL - Morning sickness.

HOMEOPATHIC - The only use that Clarke knows as having been made of Lac-v-c. is in the nausea of pregnancy, the indication is **nausea of pregnancy** with desire for food and better by drinking milk (Chel.).

RELATIONS - Compare: Lac-c., Lac-f., Lac-h., Lac-v., Lac-v-c., Lac-d.

REFERENCES-Clarke.

***LAC VACCINUM DEFLORATUM

(Skimmed Cow's Milk)

PHARMACY - lac-d. Lac vaccinum defloratum. Skimmed cow's milk. Dilutions. **Historical dose:** All potencies.

CLINICAL - **Albuminuria.** Anemia. Appendicitis. **Asthma.** Breast, disorders. Bright's disease. Chilly. Colds.

Constipation. Coryza. Cramps. Delusions. Depression. Diabetes. Dropsy. Dyspnea. Eczema. Fainting. **Flatulence.** Gastroenteritis. **Headaches.** Heart, disorders. Herpes. Leucorrhoea. Lumbago. **Malnutrition.** Memory, lost. Menses, suppressed. **Milk allergy.** **Migraines.** **Morning sickness.** **Motion sickness.** Nausea. Obesity. Osteoporosis. Otitis media. Palpitations. **Photophobia.** **Pimples.** **Sciatica.** **Sick headache.** Sinusitis. Sore, throat. Tonsillitis. Vertigo. Vomiting.

HOMEOPATHIC - The idea of potentizing skimmed milk originated with Swan upon reading Donkin's "Skim Milk Treatment for Diabetes and Bright's disease." Milks contain an essence of all the tissues and salts of the animal that secretes it.

Lac-d. contains Nat-m., so it shares a thirst for large quantities, nausea and vomiting, and depression with crying and palpitations.

Lac-d. is useful in diseases with **malnutrition** and anemia. Feels completely exhausted, whether she does anything or not, great fatigue when walking.

Sick headaches with profuse flow of urine during pain. Headache ceases at sunset.

Sufferings from loss of sleep (Cocc.). **Motion sickness.** Dropsy from organic heart disease and from chronic liver complaints. Obesity. Osteoporosis. Sensation as if cold air was blowing on her, even while covered up, as if sheets were damp. Most symptoms occur in the morning.

Particularly useful for the symptoms caused by milk in some sensitive people, especially the violent headache and constipation. For those who become sick on taking milk.

MIND - Vacillation of mind. Listlessness. Disinclination for bodily or mental exertion. Doesn't want to see or talk to any one. Aversion to company. Loss of memory. **Sadness before and during menses.** Claustrophobia. Unconsciousness on raising arms above head.

Depression with crying, palpitations and fainting spells. Despondent, better conversation. No fear of death but is sure he is going to die. Suicidal disposition. Imagines all her friends are dead or will die. Delusions, thinks she will have to go to a convent.

Abdomen - Abdomen sore and sensitive to touch, worse pressure. **Heaviness as of a stone in abdomen.** Drawing pain, across lower part of abdomen. Severe pain across umbilicus, during headache. Chronic gastroenteritis, with chronic diarrhea and vomiting. **Flatulence.**

Back - Constant pain in lumbar region. Lumbago. **Hardpressive pains,** at fourth cervical vertebra. Chills creeping along back between scapulae. Herpetic eruptions on sides of neck, with itching and burning after scratching.

Breasts - **Scanty flow of milk,** restores the milk. Decrease in size of breasts during pregnancy.

Chest - **Soreness of chest with great pressure.** Tuberculous deposit in apices of both lungs.

Ears - Otitis media, worse from drinking milk.

Eyes - **Eyeballs intensely painful.** Photophobia, even candlelight unbearable. Great pain in eyes on first going into light, soon passing off. Upper eyelids very heavy. **Edges of eyelids feel contracted.** Sensation as if eyes were full of little stones during headache.

Face - Pale, sickly look. Dark stains beneath eyes. Flushes of heat in left side of face. Sallow complexion with eczema. **Pimples on face and forehead.** Painless swelling of the face.

Female - Menses, delayed in girls who drink much milk. **Menses delayed, with congestion of blood to head, coldness of hands, nausea and vertigo.** Menses irregular, sometimes very dark and scanty, sometimes colorless water. Menses suppressed by putting hands in cold water. **Pressing, bearing down pain in ovarian region.** Drawing pain across uterine region. Sensation of weight and dragging in left ovarian region. Slight yellowish leucorrhea.

Food - **Loss of appetite.** Can neither eat nor drink during **headache. Malnutrition.** Great thirst for large quantities, often intense. Drinking cold water causes nausea. **Aversion to milk,** causes sick headache. Smell or thought of food causes nausea, during headache.

Head - Persistent headaches for years. **Migraines,** cease at sunset. Pain begins in forehead to occiput, in morning on rising. **Intense throbbing pains** with blindness, nausea, vomiting and obstinate constipation. Headache preceded by blindness. Throbbing frontal headache with much pale urination, worse noise, light, motion. **Sick headache, with icy coldness all through body. Sick headache** with gastric symptoms, from drinking milk. **Headache over left eye and in left temple with profuse lachrymation, photophobia.** Headaches better cold applications, while generally better from heat. Head becomes sore on coughing. Headache during menses, better by bandaging, conversation. Headache alternating with tonsillitis. Head as if bruised, after headache. Distress in head after injury.

Heart - **Pressure around heart** with dyspnea, feeling that he is going to die. **Sharp pain in apex of heart,** as if a knife was cutting up and down. Palpitations of heart and flushes of heat.

Kidneys - **Constant pain in kidney region.** Boring, sore pain in kidneys. Frequent and profuse urination with headache or other pains. **Frequent but scanty urination.** Lack of sensation when the bladder is full. Urination involuntary, while walking in cold air, while riding or when hurrying to catch a **train. Albuminuria.** Urine very pale, can't retain it. **Urine very dark and thick.** Urine comes away drop by drop, or gushes out. Urine with a sensation of very hot water passing over parts. Bedwetting at night.

Limbs - Osteoporosis. Weak bones. Fingertips icy cold, rest of the hands warm. Aching, in wrists and ankles. Cold hands or feet during headache. Numbness and loss of sensation over outer and anterior surfaces of thighs. Weakness and aching in ankles, puffiness. Skin thickened at edges of feet.

Lungs - **Asthma attacks,** so that he could scarcely breathe, accompanied by bloating in epigastric region. **Asthma worse from drinking milk.** Short, dry cough with difficult expectoration of a small lump of mucus, which ameliorates cough.

Modalities - Better from rest. Better pressure. Better bandage. Better conversation. Better profuse flow of urine. **Worse from cold.** Worse least draft. Worse wet. Worse hands in cold water. **Worse milk. Worse in morning.** Worse loss of sleep. Worse weekly. **Worse motion.** Worse walking. Worse sitting down. Lying down aggravates the vertigo, headache, and urinary pain.

Mouth - **Offensive breath.** Mouth very dry. Mouth clammy and frothy during conversation. Grinding of teeth during sleep.

Nose - **Painful pressure or tightness at root of nose.** Sinusitis. Colds. Children suffer from coryza from drinking milk. Nasal catarrh, worse drinking milk.

Perspiration - Profuse, staining yellow, difficult to wash out. Sense as if sheets were damp.

Rectum - Constipation with ineffectual urging. **Persistent constipation,** better only by purgatives or enema, with violent attacks of sick headaches. Large, hard stools, with great straining, painful, lacerating anus.

Sensations - As though a knife was cutting up and down through the heart. As if head would burst. As if top of head was lifted off. As if a ball of pain in center of forehead. As if eyes full of little stones. As if flesh was off bones and edges were separated and sticking out. As if sheets were damp, as if a cold air blowing on her.

Skin - Very sensitive to cold. Face, neck, arms and body generally flush color of a red rose, with swelling, but no itching or burning. Symmetrical patches, causing itching and burning after scratching. Skin thickened at the edges of feet.

Sleep - Sleepy all day long. Great restlessness, extreme and protracted suffering from loss of sleep at night. Worse from loss of sleep.

Stomach - Violent pain in stomach from fatigue. Cramps in epigastric region. **Sour eructations.** Nausea and vomiting, with sensation of deathly sickness. Nausea from a recumbent position. Incessant vomiting with no relation to eating. Vomiting first of undigested food, sour, acid, then of bitter water. Vomit looks like coffee grounds. **Morning sickness. Motion sickness.**

Temperature - **Always feels chilly.** Very sensitive to cold. Very chilly when constipation is most persistent. Hectic fever, malignant typhoid. Hot fever continues until near morning, wakes in profuse sweat, which stains linen yellow. Sensation as if the sheets were damp.

Throat - **Sore throat, worse when swallowing.** Sore throat with slight, hacking cough. Sensation of a large ball rising from stomach to throat, causing distressing sense of suffocation. Globus hystericus.

Vertigo - Vertigo, worse lying on left side.

Vertigo when moving head from pillow, opening eyes while lying, turning while lying, must sit up. Faintness on extending arms overhead. **Cannot stand, but falls backwards.** Light-headed with throbbing in temples.

Vision - Dim vision, as if a cloud before eyes, can only see lights, no objects, preceding headache.

COMMENTS - The first proving was made by a woman in New York whose headache and nausea with constipation were strongly marked. A subsequent, more extensive proving was made under S w an by Dr. Laura Morgan. Hering noted that with but few exceptions the symptoms have received clinical verification.

Migraines, especially for people allergic to milk. Hormonal migraines. Throbbing, blinding headaches with nausea and vomiting. Headaches, better pressure and bandaging. Periodic sick headaches in anemic women, nausea, vomiting and obstinate constipation. Loss of sleep (Cocc.). Periodic symptoms, every eight days.

Intense thirst and emaciation with diabetes. Diabetes and nephritis, especially when aggravated by milk (Nat-c.). Obstinate constipation. Nutrition is perverted. Weight loss or obesity. Dropsy. Fatty degeneration.

Severe vomiting with no relief (Ip.). Morning sickness with severe nausea and vomiting, acidic, bitter taste in the mouth. The menses are irregular, sometimes very dark, scanty, sometimes colorless water.

Lac-d. cured a case in which menses were suppressed suddenly from putting hands into cold water. Great pain in uterine region. Intense headache. Pains flew all over. Flushed face. The patient slept after first dose, the next morning a slight flow appeared. A second dose brought back flow profusely and patient felt well and the flow continued.

Burnett maintained that excess of milk in the dietary of children after they have cut their first teeth renders them susceptible to colds. It may be well to recall that milk is one of the articles forbidden to hydrogenoid or chilly patients.

RELATIONS - Compare: (1) Colos. - diarrhea in infants. Whole body smells sour. Colic. (2) Nat-m., Lac-c., Lac-v-c., Lac-ac., Sac-1. (3) Vac., a cow nosode. (4) Nat-m. - diabetes, headache, constipation, heart. (5) Cocc. - menstrual sick-headaches. (6) Cact. - heart, but Lac d. has not the **"grasp"** of Cact. (7) Nux-m. - head heavy, tends to fall to left. Lac-d. to right.

REFERENCES - Boericke. Clarke. Murphy.

*****LACERTA AGILIS**

(Green Lizard)

PHARMACY - lacer. Lacerta agilis. Green lizard. Sand lizard. Large green spotted lizard. **N. O.** Lacertilia. Europe. Tincture of whole animal. A separate preparation of the spotted lizard should be made. **Historical dose:** All potencies.

CLINICAL - Blisters. Delirium. Indigestion. Skin, eruptions. Paralysis. Tongue, vesicles.

HOMEOPATHIC - The green lizard is usually considered to be non-poisonous, but Baldelli, who ate a lizard cut into small pieces, developed some decided symptoms of indigestion, blisters under the tongue and skin eruptions.

Lacer, has pain, swellings, numbness, left-sided paralysis, rigidity of the neck and jaw on the left side and tender muscles. Motion causes excruciating pains in bitten limb. Touch aggravates. Symptoms of the proving were better by drinking frequently vinegar and water.

MIND - Delirium with an alternating state of greatly increased mental acumen during intervals of reason.

COMMENTS - A girl, bitten on the sole of the left foot by a "large green spotted lizard," died of the effects of the bite after twenty-one days of suffering. This is recorded in Allen's Appendix and comes from an American source, so it is probably an American variety of *Lacerta* that is accountable for this.

RELATIONS - **Antidote:** vinegar. **Compare:** (1) *Amph.*, *Helo*.

REFERENCES - Boericke. Clarke.

*****LACHESIS MUTA**

(Bushmaster Snake)

PHARMACY - *lach.* *Lachesis muta*. Bushmaster. Surukuku. *Trigonocephalous lachesis*. N. O. *Ophidia*. *Crotalida*. South America. Dilution of the venom. Trituration. Dilutions. **Historical dose:** All potencies.

CLINICAL - Albuminuria. **Alcoholism**. Amblyopia. Aneurysm. Appendicitis. Asthenopia. Asthma. Atheroma. **Bedsore**s. **Boils**. Bubo. Bubonic plague. Cancer. Carbuncles. Catalepsy. Cecum, inflammation. Cellulitis. Chancre. Chilblains. Ciliary neuralgia. Cough. Cyanosis. **Delirium tremens**. Delusions. Diphtheria. Dog, bite. Dropsy. Dyspepsia. Ears, disorders. Epilepsy. Erysipelas. Eyes, disorders. Fainting. Fistula lachrymalis. Flatulence. Gallstones. Gangrene. Glanders. Gums, bleeding. Hay fever. Headaches. Heart, **disorders**. Heartburn. Hemiplegia. **Hemophilia**. **Hemorrhages**. Hemorrhoids. Hepatitis. Hernia. Herpes. **High blood pressure**. Hoarseness. **Hot, flushes**. Hysteria. Injuries. Intermittent, fever. Jaundice. Labor, pains. Laryngismus. Laryngitis. Leprosy. Liver disorders. Locomotor, ataxia. Malignant, pustule. **Mania**. **Manic depression**. Measles. Meniere's disease. **Menopause**. Mercury, effects. Morvan's disease. Mumps. Neuralgias. Nymphomania. Otorrhea. Ovary, disorders. **Paralysis**. Perspiration. Phlegmasia alba dolens. Plague. Pneumonia. **Premenstrual syndrome**. Puerperal fever. Puimdnary, edema. Purpura. Pyemia. Quinsy. Rabies. Scarlatina. **Schizophrenia**. Sciatica. Stings. **Strokes**. Syphilis. **Throat, sore**. Trachea, disorders. Traumatic, fever. Tumors. **Ulcers**. Varicose, veins. Vertigo. **Vicarious, menstruation**. Warts. Whitlow. **Wounds**.

HOMEOPATHIC - Lachesis was first introduced to homeopathy by Dr. Hering. His first experiments were made when he was studying the botany and zoology of the Upper Amazon for the German government. With the exception of his wife, all those around him were natives, who told him so much about the dreaded Surukuku that he offered a good reward for a live specimen.

One was brought in a bamboo box. Those who brought it immediately fled, along with his native servants. Hering stunned the snake with a blow on the head as the box opened, then, holding its head in a forked stick, he pressed its venom out of the poison bag upon milk sugar.

Handling the venom and preparing the lower potencies threw Hering into a fever with tossing delirium and mania, much to his wife's dismay. He slept through the night and woke with a clear mind.

He drank a little water to moisten his throat and asked his wife "What did I do and say?" His wife remembered and the symptoms were written down as the first installment of the proving. The natives crept back one by one next day and were astonished to find Hering and his wife alive.

The snake grows up to seven feet in length. It has fangs nearly an inch long, with a reddish brown skin marked along the back with black brown rhomboidal spots. Nearly all the provings of Lachesis were made with the 30c and higher potencies.

Like other snake venoms, it decomposes the blood, rendering it more fluid. It has a marked **hemorrhagic tendency**. **Hemorrhages** are thin, containing dark particles like charred straw.

Vicarious hemorrhages, nosebleed, bloody urine etc. Small wounds bleed a great deal. Hemophilia. **High blood pressure**. **Flushes of heat**, rushes of blood. Useful during menopause and for those of a melancholic disposition.

Malignant or septic states, gangrene, diabetic, traumatic, cancer, carbuncle, diphtheria, erysipelas. Purpura, diphtheria and other low forms of disease, when the system is thoroughly poisoned with profound prostration. Cellulitis with burning and blue color of the skin. Dropsy from liver and spleen diseases after scarlatina. Discharges are acrid and offensive. The ill effects of suppressed discharges.

Intensively rapid onset of the disease with great prostration. Intense nervous irritability with restless tossing and moving about.

Hysteria. **Manic-depression**. Hard throbbing or hammering pains. Neuralgic pains change locality with palpitations. As of thread drawing the part or spreading over.

Epilepsy, comes on during sleep from jealousy, onanism, loss of fluids. Chorea from piercing the ears.

Delirium tremens with much trembling and confusion. Trembling of the whole body of hands, tongue, etc. Catalepsy. Diphtheria paralysis and other disorders (*Botul.*). Diphtheria carriers.

Great physical and mental tension. Nerves become very sensitive, especially the cutaneous and vasomotor ones. Excessive sensitiveness of the surface with intolerance of touch or constriction. **Cannot bear anything**

tight anywhere. Sensation of constriction or tension, in the throat, abdomen, head. Sensation as if a skullcap.

Ascending sensations in throat, from hot flashes, chills. **Sensation of a lump** in throat, abdomen, liver, rectum, etc. As if a lump rolls about in bladder. Blueness of the affected parts of hands. Excessive painfulness of throat, ulcers, spots on body. Drawing sensations in vertex, jaws, in the rectum.

Symptoms appear on left side, then go to the right, especially in the throat and ovaries. **Left sided paralysis** after a stroke or cerebral exhaustion. Awkward gait, left side weak. Symptoms can develop in sleep and the patient wakes up from symptoms, at any time, day and night.

MIND - Profoundly disturbed mind. Mental symptoms worse after sleep. Ill effects of grief, fright, vexation, anger, jealousy, disappointed love, masturbation. Ailments from night watching, over-fatigue, loss of fluids, over-study.

Rapidly alternating states, exalted mind, rapid succession of ideas. **Mental confusion**. Weak memory. Frequent mistakes are made in writing and speaking. Very imaginative. Nervous, excitable. Restless, uneasy, does not want to attend to business, wants to be off somewhere all the time. Undertakes many things, perseveres in nothing.

Great loquacity, rambling, with mocking, jealousy, mistrust, haughtiness, satire and ridiculous ideas.

Frequently jumping from one subject to another, then sadness. Repeats the same thing over and over. **One word often leads into another story**.

Irritable, irascible, peevish. Mischievous. Disposed to be morose or to quarrel. Complains of trifles. Irritability alternating with loquacious delirium. **Malicious, wants to get revenge**. Passion, leading to anger. Hateful. Malice. **Violent anger and behavior**.

Selfishness, possessive, jealousy, suspicion and violence. **Insane jealousy and suspiciousness** (Hyos.). Quarrelsome from jealousy. **Jealousy, as foolish as it is irresistible**.

Chronic depression from long-lasting grief or sorrow. Intense sadness and anxiety. Weeps from anecdotes. **Grief and jealousy**. Forsaken feeling in the morning. Sadness in girls before puberty. **Depression worse before menses**, better during menses. **Depression since menopause**. Aversion to company during pregnancy. Weary of life, suicidal depression.

Manic depression. Mania. Great mental activity, ideas crowd rapidly. Desire for mental work in evening. Mania from over study. **Mania for work, shopping, spending money**. Necessity to do everything rapidly.

Schizophrenia. Paranoid schizophrenia. Persecuted feeling, thinks herself pursued, hated and despised. Delusion of being followed by enemies who are trying to harm him.

Mental confusion or alienation. Feels as if he had two wills. Derangement of sense of time. **Hysteria after suppression of discharges**. Memory active from suppressing sexual desire. Persistent erotic ideas without ability.

Superstitious. **Fear of snakes**. Hydrophobia. **Fear of being poisoned**, refuses medicine. Fear of suffocation (Puls.), that heart will stop, of death, of going insane. **Fears going to sleep**, lying down.

Delirium. Delirium and convulsions from night watching, over fatigue and anxiety. Visions and delirious talk as soon as he shuts eyes. **Ecstasy**.

Talks, sings or whistles constantly, makes odd motions with arms. Incoherent speech, talks as it were in a strange language. Crawls on the floor, spits often, hides, laughs or is angry during spasms.

Delusions and hallucinations. Feels full of poison. Nightly delusion of fire. Delusions of floating in the air. Thinks there are robbers in the house and wants to jump out of window.

Religious insanity (Verat., Stram.) or mania. **Religious affections in children**. Continually moaning that she was lost. Fear of being possessed. Thinks herself under super-human control. Persistent thoughts of evil. Prophetic perceptions, predicts the future correctly. Thinks she is dead and preparations are being made for her funeral.

Alcoholism. Violent alcoholism. Intoxicated state with fear, violence and mistrust. Intoxicated with jealousy, accusations. Delirium tremens.

Abdomen - Abdomen hot, sensitive, painfully stiff front loin down thighs. **Cannot bear anything around waist**. Tympanitic, sensitive, painful (Bell.). Cutting pain in right side of abdomen causing fainting. Burning like fire in hypogastric and lumbar region. Shooting pain in region of spleen, worse walking. Acute cutting, stinging, radiating from navel. Intussusception, threatening sloughing. Swelling in cecal region, must lie on back with knees drawn up, appendicitis. Pain from anus to navel. Strangulated umbilical hernia. Appendicitis. Peritonitis. Spasmodic colic, better bending forward. Incarceration of flatus.

Back - Backache with great restlessness. Small of back as if lame and weak, or as if sprained. Backache with abdominal cramps and throbbing headache before menses. Neck sensitive to the least pressure. Neck stiff, moves jaws with difficulty. Stiffness in sacrum. **Neuralgia of coccyx, worse rising from sitting**. Feels as if

sitting on something sharp, must sit perfectly still. Myelitis. Sensation of threads stretched from back to arms, legs, eyes, etc.

Breasts - Swelling of breasts. Breasts inflamed, bluish with blackish streaks. Fungus hematodes on right breasts. Nipples swollen, erect, painful to touch. Extreme sensitiveness of nipples. Child doesn't want to nurse. Milk, thin, blue.

Causations - Ill effects of suppressed discharges, injuries, sprains, puncture wounds, bites. Ailments from night watching, over-fatigue, loss of fluids, over-study. Ill effects of grief, fright, vexation, anger, jealousy, disappointed love, masturbation. Never well since menopause. Alcohol, delirium, tremens.

Chest - Burning, stinging, like coals of fire from chest through to scapulae. Chest feels constricted. Oppression of chest during sleep. Sensation as if a plug (Anae.), which moves up and down, with short cough. Blueness of skin of outer chest. Scarlet, shining, herpetic eruption under breasts, worse scratching. Swollen glands in axilla. Garlic odor of sweat in axilla.

Constitutions - Especially suited to alcoholics.

Cough -Tickling, dry cough, suffocative fits. Cough causes stitching pains in affected parts. Cough during sleep without being conscious of it. Very exhausting cough, sometimes causing vomiting. Cough as if some fluid has gone the wrong way. Cough after rising from lying position. Cough from smoking.

Ears - **Earache with sore throat.** Tearing pain from zygoma into ear, with sore throat. Pulsations in ear. **Ears sensitive to wind.** Numbness about ear and cheek. Polyps. Earwax too hard, dry. Earwax like chewed paper. Hardness of hearing with lack of earwax. Blockage of Eustachian tube (Kali-m.). Sensitivity to sounds. Roaring and singing, better putting finger in ear and shaking it. Whizzing noise, as from insects. Cracking, whizzing, drumming, with reverberation.

Eyes - Eyes watery from pain. Feels as if eyes were forced out on pressing the throat. Sensation as if eyes were drawn together by cords which were tied in a knot at root of nose. **Intra-ocular hemorrhages. Detached retina. Retinal bleeding.**

green or dry. hard, crumbling, white clay, putty like. Bloody mucus stools. Burning at anus after stool. **Milk passes undigested** in nursing children. Worms.

Sensations - As if everything was turning around. As if hair was pulled. As if white of egg had dried on face. As if teeth too long. As if rectum pricked with needles. Back as if broken.

Skin - Hair and nails unhealthy. Earthy, sallow and parchment-like, emaciation. Sore, dry, sensitive to cold. Violent itching and great dryness of skin. Itching vesicles on hands and fingers. Large nodosities between the skin and the flesh with shooting pains. Nettle-rash with much swelling. Small painless, red tetters, which exfoliate. Spreading blisters. Small blood boils. Corroding vesicles.

Sleep - Frequent and violent yawning. Inclination to go to sleep during day. Sleeplessness from flatus, from cutting wisdom-teeth, exhaustion. **Many anxious dreams, with talking, cries, and starting from fright.** Dreams of fire, flood, robbers, quarrels. Dreams of money, pleasures, misfortunes. Dreams of dead persons. Awakes at 2 a.m. or 3 a.m. and cannot fall to sleep. Unrefreshing sleep, more tired in the morning than on retiring.

Stomach - Sensation of emptiness in stomach. Constrictive pain in stomach. Pains, as from ulceration. Sour eructations and heartburn after cabbage, potatoes, greasy food, or milk. Acid risings. **Sour belching and vomiting of bitter water.** Eructations tasting of rotten eggs during pregnancy. Nausea and vertigo during a meal, followed by retching, and vomiting of bitter or salty serum. Nausea and sour vomiting during pregnancy, during colic. Vomiting of undigested milk.

Temperature - Chilly in evening. Chilly, takes cold, before menses. Chill running down back. Chill, better outdoor exercise. Fever at night, with night sweats and aversion to uncovering. Fever with dread of exposure, restlessness, sweat on head, redness and burning.

Throat - Sore throat with shooting pain when speaking and swallowing. **Sore**

Magnesia carbónica throat, worse before menses. Sticking pain in throat, worse talking and swallowing. Burning pain in throat and palate. Frequent rising of mucus in throat. Soft, fetid tubercles of color of peas are hawked up. Hawks up cheesy masses from throat.

Vertigo - Vertigo, worse when kneeling. Vertigo in evening with swooning. Continual giddiness, can hardly stand, with numbness of left arm. Vertigo, staggers in the street and fears to go out, lest people should strike against her.

COMMENTS - Cooper said that water containing magnesia, and that coming from magnesia limestone districts, is peculiarly soft feeling. It is often found that the physical characteristics of substances correspond with their dynamic influences, so there is reason for supposing that this softness has a soothing effect upon the nervous system when used in baths.

Mag-c. is to exhausted nerves what Chin, is to exhaustion from loss of fluids. Worn-out condition, often

produced during pregnancy or menses as these are an additional tax on a women's strength. Characteristic sensitiveness, mental and bodily, sensitivity to touch, to cold air. The least touch causes starting. Sensitiveness passes into neuralgic pains of the highest intensity. Lightning-like neuralgia, worse on the left side, insupportable during repose, must get up and walk about.

Tired and painful feeling, especially the legs and feet, aching, restless. Head injuries from shock, blows, mental distress. Unrefreshing sleep, more tired on waking than on going to bed.

Periodic symptoms, every second day, every three weeks, "all symptoms worse every third week." Worse from touch and pressure, but pressure in abdomen is better during the menstrual flow. Pain is worse on the side lain on. Smoking aggravates the headache.

Spasmodic disorders of stomach and intestines. Sour taste, breath, belchings, vomiting. Incarcerated gas causing severe abdominal pains. Colic with gas and bloating, cutting and stabbing pains in the abdomen (Cham.),

Apoplectic retinitis, absorbs hemorrhage. Cellulitis of orbit. Conjunctiva yellow. Unsteady look, eyes roll vacantly. Pupils at first contracted, then dilated. Photophobia. Pterygium. Fistula lachrymalis with eruptions on face.

Face - Blue circles around eyes. Purple, mottled, puffed, looks swollen, bloated. Jaundiced, chlorotic during heat. Pale. One cheek flushed, the other pale. Flushes of heat. Pain in facial bones. Trigeminal neuralgia, left side, heat running up into head (Phos.). Tearing pain in jaw bones (Amph.. Phos.). Lower jaw drops during coma. Itching of face. Enormous swelling of lips. Septic mumps. Submaxillary and cervical glands swollen.

Female - Acts especially well at beginning and close of menstruation. **Premenstrual syndrome.** Menses too short, too feeble. Menses, black, scanty, lumpy, acrid, vicarious from nose. **The less flow, the more pain.** Dysmenorrhea, on first day. Dysmenorrhea with pain in left ovary. Labor-like pains during menses. **Uterine and ovarian pains, all relieved by the flow** (Eupi.). Menorrhagia with chills at night, flushes of heat by day. Leucorrhea before menses. Leucorrhea, copious, smarting, staining and stiffening the linen greenish. Leucorrhea thick yellow, milky. Ovarian tumors. Left ovary, swollen indurated, painful. **Violent pain in left ovary.** Uterus feels as if the os is open. Sexual desire excited. Nymphomania. **Menopausal troubles,** like palpitations, hot flashes, hemorrhages, headaches, fainting spells. Prolapsed uterus during menopause.

Food - Hungry, cannot wait for food, or loss of hunger alternately. Better after eating, after fruit. Craving for coffee, which agrees. Desires alcohol, wine, oysters, farinaceous food, pickles, sour foods. Worse tobacco, wine, alcoholic drinks, acids and sour drinks. Throat symptoms are worse by hot drinks. Thirsty but fears to drink.

Head - Headache, heavy, bursting pain, down to nose. **Congestive headaches, rush of blood to head.** Bursting or throbbing, in temples. Headaches with flickerings, dim vision, very pale face. Pain through head on waking. Pain at root of nose. **Weight, pressure or burning of the vertex.** Waves of pain, worse after moving. One-sided headaches. Migraine, pain extending to neck and shoulders. **Sun headaches.** Sick headache, worse left side. **Headaches before menses. Headaches during menopause.** Burning of vertex with menopause. **Left-sided stroke, after abuse of alcohol.** Perforating tumor of the skull. Does not want hair touched. Sensitiveness of scalp. Falling of hair, especially during pregnancy.

Heart - Anxiety about heart. Visible palpitations of heart. Palpitations with pain. Palpitations with fainting spells, during menopause. **Palpitations, worse warm room.** Palpitations after sudden excitement. **Palpitations in morning on waking.** Constricted feeling causing palpitations with anxiety. Heart seems to stand still and then starts with a tremendous bound. Irregular heartbeats. Pulse, weak intermittent, slow, irregular. Restless, trembling. Weak heart, turns over or too big. **High blood pressure.** Carditis. Pericarditis. Senile arteriosclerosis. As if heart were hanging by a thread.

Kidneys - Sharp pains from kidneys through ureters. Small tumor in urethra causing retention. As if a ball rolling in the bladder when turning over. Pressure in bladder, with frequent urging. Inefficient urging. Violent burning during urination. No urine, no stool. Black, scanty urine with edema. Urine, frequent, foamy, dark, strong odor. Dark urine, with brown, gravelly sediment, like coffee grounds. Bloody urine. Albuminuria with hydrothorax. Dribbling after urination.

Limbs - **Paralysis after stroke.** Joints as if sprained, in morning on awaking. Bluish swelling of joints, after sprains. Erratic pains in joints. **Pain in tibia** after sore throat. Shortening of tendons. Sciatica, right side, better lying down. Sciatica, must lie still, worse by least motion. Rheumatism, with swelling of wrists and ankles. Knees cold or as if hot air is going through. Cramps in calves from fear. Toes feel broken. Foot sweat, foul or cold. Nightly burning in palms and soles. Tingling, pricking in left hand. **Trembling of hands in alcoholics.** Cracks in skin at the corners of nails. Felon, bluish swelling. Left arm numb, fingertips numb. Boils on thighs and fingers. Phlegmasia alba dolens.

Liver - *Liver region sensitive, can't bear anything around waist.* Sore, festering, throbbing deep in liver. Acute, in liver extending to stomach. Inflammation of liver with abscess. Hepatitis and abscess. Septic gallbladder. Liver complaints of alcoholics. Cirrhosis. Nutmeg liver. Liver complaints at menopause or after ague.

Lungs - *Sensation of suffocation and strangulation* on lying down, worse *when anything is around throat*, compels patient to spring from bed and rush for open window. Wants to be fanned. *Feels he must take a deep breath.* Cramp-like distress in precordial region. *Breathing almost stops on falling asleep* (Grind.). Can only breathe in upright position. Sensation as of a plug (Anae.), that moves up and down with a short cough. Large quantities of ropy mucus. Difficult expectoration, frothy, purulent, bloody with excessive perspiration. Watery, salty mucus, which has to be swallowed again. Hay asthma. Asthma, suffocating dyspnea. Asthma after scabies, if the itching ceases. Pneumonia. Hepatization, of left lung. Last stage of pneumonia. Bronchial attacks with cyanosis and cardiac disease. Cyanosis. Cyanosis neonatorum. Dropsy of lungs after scarlatina. Abscess of the lungs.

Male - Sore pain in urethra, in forepart of penis. Prepuce thickened. Scrotum swollen to enormous size. Buboec suppurating a long time. Sycotic ulcers, with bluish areolae. Gangrene of glans. Strong sexual desire, ideas, without physical power. During sex, the emission is tardy or does not occur at all. Semen with pungent odor. Cheerful after night emission. Ill effects of masturbation.

Modalities - *Better with the appearance of discharges*, warm applications, bathing affected part, *open air*. Better hard pressure, sitting bent, loosening clothes. *Better cold drinks*, eating, especially fruits, belchings. Worse spring, summer, sun, cloudy weather, extremes of weather, heat of room. *Worse from empty swallowing, liquids, hot drinks*, alcohol. Worse morning, *after sleep*. Worse from motion, standing or stooping, closing eyes, slight touch, pressure of clothes, around neck, waist. *Worse from suppressed discharges*, at start and close of menses, *menopause*.

Mouth - Copious, tenacious, thick, pasty saliva. Peppery, sour, coppery, nauseous taste. Bad odor from mouth. Cannot bear anything before mouth. Burning, in mouth with swelling of lips and gums. Gums, bluish, swollen, spongy, bleed easily. *Aphthous and denuded spots* with burning and rawness. Nursing sore mouth with swelling of tongue and lips. Stammering. Thick, blundering speech, cannot open mouth wide. *Speechless after having a stroke*.

Nose - Pain at root of nose. Cannot bear anything before nose. Hay asthma, paroxysms of sneezing (Sil., Sabad.). Stopped up coryza, preceded by headache. Complaints after suppressed coryza. Postnasal discharge of mucus. Discharge with every cough. Offensive, bloody discharges, corroding nostrils and lips. Blood and pus from nose. Nosebleed on blowing the nose. Nosebleed, blood thick, black. *Nosebleeds with amenorrhea*. Nostrils sensitive. Vesicular eruption about nose. Red pimples on nose of alcoholics.

Perspiration - *Hotflushes and hot perspiration*. Bloody, sweat staining blackish, yellow. Garlicky odor of sweat. Profuse sweats with most complaints. Copious sweats at night, about neck, wakes him from sleep. Sweats in axilla.

Rectum - *Constipation, offensive stool*. Constipation, very hard stools, between menses. Constipation of pregnancy. Diarrhea alternating with constipation. Diarrhea in hot weather, from fruits and acids.

Diarrhea after menses, during menopause. Diarrhea with frothy urine. Constant urging in rectum, not for stool. Hemorrhage from bowels like *charred straw, black particles*. *Anus feels tight*, as if nothing could go through it. Spasmodic pains in anus before and after stool. Burning in anus during and after stools. Burning, cutting, in rectum worse standing. Darting pain up rectum every time he sneezes or coughs. Itching at anus, worse after sleep. Discharge of blood or mucus from anus, during menses. Beating in the anus as from hammers with menses. As if a ball rolling when turning over. Fistula in anus. *Hemorrhoids protrude, become constricted, purplish*. Hemorrhoids with sharp pains on sneezing or coughing. Hemorrhoids with scanty menses, in menopause.

Sensations - As if frightened by visions behind him. Feeling as if knives were being thrust into brow, as if tongue bound or tied up, as if a part of right side of head cut away. As if neck constricted with a cord. As if heart hanging by a thread and every beat would tear it off, as though heart turned over and ceased beating for a moment, as if heart hadn't room to beat.

Skin - Dilated capillaries. *Bluish, purplish appearance*. Blue-black swellings. Cellulitis. Miliary eruptions. Purpura with intense prostration. *Senile erysipelas*. Black measles. Scarlet fever and scarlet eruptions. Pustular eruptions become black. Boils, carbuncles, ulcers with bluish, purple surroundings. Burning in ulcers at night. Varicose ulcers. Fungoid ulcers. Ulcers sensitive to touch. Dark blisters. Bedsores with black edges. Wens. Small wounds bleed much. Pyemia, dissecting wounds. Scars, redden, hurt, break open and bleed.

Sleep - Afraid to go to sleep for fear he will die before he wakes. Sleepiness, yet cannot sleep (Bell., Op.). Wide awake in evening. Sleeplessness from cerebral irritation, burning soles, anxiety. Sleeplessness of

alcoholics. Sudden starting when falling asleep. Children toss about moaning in sleep. Waking in fright at a trifle. Short naps disturbed by frightful dreams. Restless sleep, with many dreams and frequent waking, in morning is heavy and out of sorts. **Frightful dreams of snakes.** Amorous dreams. **Sleeps into aggravation.**

Stomach - **Can bear nothing tight over stomach, must loosen clothes.** Pit of stomach painful to touch. Soreness or cramp in epigastrium. Trembling movement in the epigastric region. Nausea from anything tight on throat. Nausea after drinking ice water, after going to bed. Nausea with great flow of saliva. Any food causes distress. **Gnawing pressure, better by eating,** but returning in few hours, especially with cancer. Belchings, before epilepsy, at menses. Vomiting of food, bile, greenish matter, mucus, pus, blood. Vomits during menses with headache.

Stools - Stool lies close to anus without passing and without urging. Thin, offensive stools. Stools watery, light yellow, dark, chocolate-colored, grayish, like potter's clay. Stools hard like sheep dung, scanty and insufficient. Cadaverous-smelling stool of decomposed blood. Stools mixed with blood and slime, worse at night, after acid fruits.

Teeth - Teeth as if wedged. Chattering of teeth. Crumbling of teeth. Teeth feel too long in hollow teeth. **Toothache, pain extends to ears.** Toothache from getting wet. Toothache during menses. Gums swollen, spongy, bleed. Gums dark purples during dentition. Periodontitis with swelling of cheek.

Temperature - Chills begin in small of back, runs up back. Chills worse drinking. Chills with sweat. Numbing coldness. Feet icy cold. Chills at night, flushes of heat by day. Internal heat, with cold feet. Shivering without coldness. Shivering during fever. **Heatflushes with menopause,** on vertex, on waking, on falling to sleep. Fever with violent headache, great loquacity. Intermittent fever every spring. Paroxysm returns after acids.

Throat - Throat very painful, worse slightest pressure, touch. **Sore throats, worse left side, swallowing liquids.** Chronic sore throat with much hawking, mucus

sticks. Throat pain extends to ear. **Collar and neckband must be very loose.** Constriction, better eating. Throat pit feels swollen or sore spot back of pit. Feeling as if something was swollen which must be swallowed. As if a lump in throat, ascending and is swallowed back again. As if hot lump or soft body or crumb of bread. **Worse from swallowing saliva or liquids.** Cannot swallow sweet or acrid things. Choking. Tonsillitis. Tonsils purplish. Quinsy. Purple, livid color of throat. Diphtheria, dusky, black membrane, pain **aggravated by hot drinks.** Septic parotiditis. Upper part of windpipe very sensitive to touch. Laryngismus stridulus. Larynx painful to touch. Loss of voice from paralysis of vocal cords or edema.

Tongue - Tongue red, dry and cracked at tip. Tip red, center brown. Tongue mapped, dry, black and stiff. Dry stripe in middle of tongue. Anterior half of tongue red, smooth and shining. Ulcers on sides of tongue. Blisters on tip of tongue. As if tongue was going to peel. Tongue swollen, burns. Tongue trembles when protruded. Tongue catches on teeth. Sudden forcible protrusion and retraction of tongue. Tongue as if bound or tied up. Sharp, in root of tongue, when yawning.

Vertigo - Fainting with pain in heart, nausea, pale face, vertigo. Vertigo on closing eyes, from walking in open air, before menses, and at menopause. Vertigo looking at the one and same object. Vertigo, relieved by onset of a discharge (menses or nasal catarrh). Vertigo, worse turning to right.

Vision - Paralysis of accommodation, causes asthenopia. Flickering vision, as from threads, or rays of sun. Dim vision with black flickering, often makes • reading difficult. Blue ring about lights, with fiery rays. Glimmering vision, in sun, with headache. Sees zigzag figures during headache. Flickering vision with congestion of head. Defective vision, after diphtheria, extrinsic muscles too weak to maintain focus. Blindness with lung or heart affections.

COMMENTS - Characteristic aggravation from sleep. Nash noted the case of an old, syphilitic patient who suffered from obstinate constipation and was taken with severe attacks of colic. The pains seemed to extend all through the abdomen and always came on at night.

The man was not making any progress when, one day, he remarked to Nash, "Doctor, if I could only keep awake I would never have another attack." And in response to an inquiring look from the doctor, he added, "I mean that I sleep into the attack and waken in it." One dose of Lach. 200c cured the colic and the constipation too.

High blood pressure. Hemorrhages contain flakes of decomposed blood, looks like charred wheat straw. Hemorrhagic diathesis. Hemophiliacs, bleeding easily (Sabin., Phos.). Nosebleeds or heavy menses. The heart feels too large, cramp-like pain in præcordia. Constriction. Palpitations with numbness down the arm. Cyanosis. Varicose veins.

Dark red eruptions, purplish swellings, black and blue spots. Small ulcers, sensitive to least touch. Buboec, plague (Naja.). Snakebites and infected wounds. Rabies, with thirst, spasms, sensitiveness and nervous prostration.

Excessive sensitiveness of the skin with intolerance to touch or constriction. Sensitive because of uneasiness from pain. Pain as if burnt or scalded on different parts. Pain in the shinbones. W. J. Guernsey pointed out that such pains often occur concomitantly with throat affections, worse or began on the left.

Sun-headaches. Headache with very pale face. Rush of blood to head. Throbbing headaches in temple with heat of head. Headache extending into nose, better when nasal catarrh comes on. Headaches, feels like the head will explode with blood.

Fainting fits and vertigo on closing eyes, on looking intently at any object in morning on waking. Fainting accompanying other complaints, with pain at heart, with nausea, with vertigo and pale face. Catalepsy. Awkward gait, weak left side. Gressus gallinaceus.

Low, muttering delirium. Intermittent fevers. Torpid state with cold limbs, tremor of body and hands, tremor of tongue. Tongue trembles, catches in the teeth or lower lip when the patient attempts to put it out. Numerous disturbances of sight and hearing. Clarke cured noises in the ears when worse after sleep.

Tickling, irritating cough. Diphtheria, mercurial and syphilitic sore throat. Sore throats, worse after sleep, from touch. Dark, bluish, purple color, with burning pains that are worse heat. Worse drinking liquids and better eating solids. Sensation of a lump in the throat (Ign.).

Touching the throat can cause suffocative spasms, cannot bear any pressure about neck. Pain from empty swallowing, liquids slightly easier, solid foods swallowed without pain. Prostration out of proportion to the appearance of the throat. Symptoms are worse on the left side or proceeding from the left to right.

Threatened paralysis of lungs. Asthma aggravated by sleep, can wake up choking. The least thing coming near mouth or nose interferes with breathing. Hay fever with a headache extending into nose, worse on suppression of the discharge. Sore nostrils and lips. Pus and blood from the nose. Red nose of alcoholics. Sensitiveness of the respiratory parts to touch, constriction and worse by anything tight around the neck.

Sinking feeling in the stomach, cannot go long without food. Symptoms are better after eating, especially after fruit. Unquenchable thirst, but nausea after drinking, worse by hot drinks. Desires oysters, wine, and coffee. Alcohol aggravates. Everything sours, heartburn. Fetid breath. Acute pain in liver extending towards stomach. Appendicitis.

Stitches in kidneys. Pain in the bladder and rectum. Desire to lift clothes up to prevent contact with the lower abdomen. Sensation as if a ball were rolling loose in the bladder or abdomen on turning over.

H. N. Martin noted that the urine has little black spots or flakes like soot floating in it. Urine is almost black, frequent, foaming, dark.

Urge to urinate after lying down, day or night, especially after sleep, more frequent in the night.

Constipation. Atony of the rectum. Painful constriction of anus followed by collapse. Visible spasmodic tenesmus in paroxysms from two to five minutes, extorting cries, passes blood and mucus. Diarrhea is fetid, cadaverous.

Tugging upward sensation. Full feeling in rectum and sensation as of little hammers beating. Burning in rectum. Stitch in rectum (upwards) when coughing or sneezing. Painful hemorrhoids, with scanty menses.

Severe premenstrual syndrome, energy before menses. Water retention and weight gain. Very sensitive, to light and noises, cries easily and becomes irritable. All symptoms ameliorated from menses.

Violent menstrual problems (Sep., Med.). Severe menstrual bleeding, dark blood with clots. Become weak and worn out from menses. Menses regular but scanty, pains better when flow is established. Symptoms occurring in connection with menses. In a case of Clarke's, Lach. 12c postponed the menses for a week.

Lochia are thin, ichorous insufficient. Swelling, induration of the ovaries, especially on the left. Tumors. Menopause, sensation of pulsating energy. Hot flashes. Varicose veins, the whole leg is swollen and aches, sore and burning. High sex drive, or suppressed drive.

Breast cancer, with a bluish appearance. Obstinate and distressing eruptions on the nipples and areola. Milk is thin and blue, nipples extremely sensitive to touch.

Better from the onset of a discharge or blood, worse from non-appearance of an expected discharge, as in menopause. Suppressions, particularly suppressed discharges.

Sensation as if a ball, lump or plug. Dislikes pressure or touch around the abdomen (Lyc., Chin.), or neck. Warm-blooded, worse heat. Symptoms begin on the left side and either remain there or proceed to the right.

Particularly suited to persons who have peculiar sensitiveness of the surface of the body. Debilitated, weakened persons. Children and elderly people. Thin rather than fat persons, persons who have been changed both mentally and physically by their illness. Women who have never been well since menopause.

Sufferers from effects of masturbation. Alcoholics. Persons who have been overdosed with mercury and for syphilitic disorders. Persons who cannot stand the sun and who are worse in summer weather.

RELATIONS -Antidote to venom: Ars., Merc., Radiate heat outwardly, alcohol inwardly, salt on the effects of bite. **Antidotes to potencies:** Alum., Bell., Cocc., Coff., Hep., Merc., Nit- ac., Nux-v., Ph-ac., to the visible

spasmodic tenesmus of rectum, Sep. According to Teste the chief antidote is Cedrón. **It antidotes:** Bufo, Crot-h., Rhus. **Compare:** (1) Puls. - menstrual cough, menses scanty, but pain worse as flow increases. (2) Con., Graph. - scanty menses. (3) Anthr. - carbuncles, boils. (4) Terebe., Kali-bi. - tongue glazed and shining, Apis, Lach. (5) Phos., Sulph. and Mur-ac. - piles during menses. (6) Bell, and Dulc. - paralysis of lungs. (7) Iris-t. - appendicitis. (8) Ph-ac. - disappointed love. (9) Lyss., Sabad. - throat affected left to right, S abad., more chronic. (10) Cot. - menopausal troubles. Nat-m., Nit-ac., Crot-h. (11) Amph., snake lizard - right jaw swollen and painful, sharp pains, headaches, sharp pains. Eruption of vesicles and pimples. (12) Naja, Elaps., Crot-h., Lepi. (13) Nux-m. - cough of pregnancy, Lach, has a cough at menstrual period when it is going off. (14) Staph. - on swallowing, pain runs externally along parotid gland to the ears, perspiration impossible. (15) Sil., Caul., Sul., Ust. and Vib. - left ovarian and left inffamammary pain. **Complementary:** Crot-c. often completes curative work of Lach. Also Lyc., Hep., Salam. **Incompatible:** Acet-ac., Am-c., Carb-ac.

***LACHNANTHES TINCTORIA

(Spirit-weed)

PHARMACY - Lachn. Lachnanthes tinctoria. Spirit-weed. N. O. Hemodoraceae. Tincture of whole plant.

Historical dose: Tincture and all potencies.

CLINICAL - **Chilliness.** Cough. Delirium. Diphtheria. Headaches. Heart, pains. Nosebleeds. Pneumonia, typhoid. Rheumatism. Sore, throat. **Stiff-neck. Torticollis. Tuberculosis.** Typhoid fever. **Wry neck.**

HOMEOPATHIC - Lachnantes grows in sandy swamps near the coast. The root is red and fibrous, sword-shaped leaves, hairy stem, and yellow, woolly flowers. It belongs to the same order as Aletris and is allied to the irises. A curious observation is that the white pigs and sheep of Virginia lose their hooves if they feed on Lachnantes, while the black varieties eat it without inconvenience.

A remedy for rheumatic symptoms about neck. **Spasmodic torticollis**, painful torticollis (Caust., Mag-p., Rhus-t). Wry neck. **Stiffness of neck**, drawn over to one side in sore throat. Pain in nape as if dislocated, when turning the neck or bending the head back.

Body icy cold, face yellow, tendency to sweat. Bubbling and boiling about the heart, rising to head. Bridge of nose feels pinched. Feeling of icy coldness in mid scapular region. Successfully used for diphtheria, typhoid fever, and typhoid pneumonia. **Tuberculosis.** Affinity for the head, chest and circulation. Very restless, throws herself about, feels weak.

MIND - Restlessness, tosses about, with perspiration. Tossing about and whining. Ill-humored and sleepy. Despondent, bitter crying spells during headache. Sees images, while dozing through day.

Great loquacity, afterwards stupid and irritable. Loquacious delirium with brilliant eyes and circumscribed red cheeks, at night between 1 a.m. to 2 a.m.. Great hilarity, especially in the evening. Excited over a trifles.

Abdomen - Rolling of wind in abdomen and discharge of flatulency. Sensation of heat through abdomen.

Back - Burning in right scapula, in spine above sacrum. Burning in region of left kidney, extending towards right side. Pain and stiffness in back. **Chilliness between the shoulder blades.** Sensation between the shoulder blades as if wet with cold perspiration. Pain in nape, as if dislocated. **Spasmodic torticollis.** Rheumatism of the neck. **Drawn over to one side** in sore throat. Stiff neck, the head is drawn to one side. **Wry neck.**

Bladder - Pressure on bladder while urinating.

Chest - Sensation of fullness in chest. Stitches on left side of chest, under right breast and under clavicle. Compelled to inhale deeply.

Ears - Singing in ear when walking in open air. Tearing in ears. Crawling and itching in ears, better by boring with the finger, but immediately returning and feeling as if something had closed the ear. Almost complete deafness during fever.

Eyes - Looks with fixed eyes. Bright, sparkling eyes with delirium. Pressing in eyes as from dust. Secretion of white mucus from eyes. Violent lachrymation and burning of eyes, sensation of dryness. Obscuration of sight, as if a cloud were before the eyes. Yellow spots before eyes. Eyes feel heavy, as if they could not be kept open. Sensation of twitching in upper eyelids.

Face - Swelling with redness and blueness under eyes. Pale, sickly countenance, face and lips bluish, eyes dull, feel thick and cold. Circumscribed redness of face with violent delirium and brilliant eyes. Yellow face. Sensation as if something were crawling over face.

Female - Menses too early, viscid blood mixed with mucus. Profuse, bright red menstrual blood. During menses, sensation of distention of abdomen, it feels as if it were boiling.

Food - Aversion to meat. Much thirst.

Head - Head feels heavy. **Head feels enlarged**, worse least noise. Circumscribed red cheeks, scalp feels

sore, as if hair was standing on end, burning in palms and soles. Bridge of nose feels as if pinched.

Right-sided pain, extending down to jaw. Scalp painful.

Heart - Stitches in heart with anxiety. Frequent violent pulsations of heart, each beat is double, one hard and full, the other soft and small. Trembling of heart with great debility. Sensation of heat, bubbling and boiling around heart region, rising to head.

Male - Violent burning in left half of the scrotum, drawing toward right side. Tingling and itching of scrotum. Perspiration of scrotum and penis.

Mouth - Saliva of tough mucus. Sensation if the mouth were sore and thick. Swelling and tension of the lips. Lips red.

Limbs - Tearing from the shoulder, extending to finger joints. Tearing in elbow joints. Tearing in knuckles of the middle fingers of the right hand. Thumb and index finger feel as if sprained. Burning of palms and soles. Cramps in the feet during night.

Lungs - Cough worse in bed and after sleeping. Dry cough, as if it came from larynx with sore throat. Expectoration streaked with blood with severe pain in chest. Pneumonia.

Nose - Profuse nosebleeds, pale blood. Bridge of nose feels pinched.

Perspiration - Sensation the skin is moist and sticky. Perspires freely after midnight. Sweats during cold. Sweats with dizziness. Sweats in morning.

Rectum - Continuous stitch in rectum. Frequent unsuccessful desire to evacuate. Frequent stool, passes much wind.

Sensations - As if head or vertex enlarged, as if split open with a wedge, as if hair standing on end. As if a cloud before eyes, pressing as from dust in eyes. As if something had closed ear. Bridge of nose as if pinched. As of something crawling over face.

Skin - Sensation in skin as if an eruption would appear. Pimples appear here and there, containing a watery fluid. Itching and burning in the skin all night, worse after scratching. Stinging, itching and tingling on thighs, legs, feet, arms.

Sleep - Sleepiness with yawning, eyes feel so heavy that she cannot keep them open. Cannot go to sleep easily. Sleepless or restless sleep with distressing dreams. After waking and stretching, a shock followed by chilliness and goose bumps all over.

Stomach - Sensation of qualmishness above navel, when walking in open air. Fullness in pit of stomach, beating as from a pulse, as if a hammer were beating on an ulcerated spot.

Teeth - Pain in all the teeth when eating or drinking warm things. All the teeth feel loose and too long, worse in bed.

Temperature - Continuous chilliness. Icy coldness of body, perspiration, principally on forehead. The skin is cold, damp and clammy during the chills. Feels hot, but the chills run all over before the heat can develop itself. Flashes of heat alternating with chilliness. Fever with violent delirium and brilliant eyes. Fever with somnolency.

Throat - Great dryness in throat, especially on waking in the night with much coughing. Sore throat with short cough. Itching when swallowing. Sensation of swelling in pharynx with stiffness of neck and head drawn to one side (diphtheria).

Vertigo - Giddiness in the head with sensation of heat in chest and around heart and perspiration. Vertigo with icy coldness of the forehead.

COMMENTS - Hering said the Native Americans chewed the plant when they met the "white man" to give them a flow of language. Remarkable loquacity. Produces a desire to talk a flow of language and the courage to make a speech.

Strong affinity for the head, chest and circulation. Sharp stitches in quick succession in the right side of the chest below mamma. Sensation of heat, bubbling and boiling in chest and region of heart, rising to head, giddy, breaks out into perspiration. Trembling of the heart.

Tuberculosis when the neck is drawn over to one side. Rheumatism of the neck and stiffness of the neck. Stiffness of the neck with the head twisted to one (right) side, especially when occurring with a sore throat.

Much dryness of throat, worse on waking in the night with coughing.

Headaches of great intensity, generally right-sided. Sensation as if the head is split open with a wedge, with icy coldness of the body, crying spells, worse by vomiting. Toothache, worse eating and drinking warm things. Continued chilliness. Sensation as if a piece of ice was lying on back between shoulders, then a shock followed by coldness over the whole body with goose bumps. Cold attacks occur on moving, better after going to bed. During the cold sensation, the skin is damp and clammy.

Fever with loquacious delirium, brilliant eyes and circumscribed red cheeks. Blueness about face, under eyes, and lips. Burning of palms and soles, under nail of left toe.

Arthur Dalzell reported the case of Mrs. B., 43, who had fibroid tuberculosis of both lungs, collapse of right

lower lobe. Great prostration and night-sweats. The bowels were alternately relaxed and confined. Pain and stiffness in the back, bruised all over, dry cough, roughness of throat, weak heartsounds. Bad sleep owing to a cough.

Lachn. tincture, three drops every four hours, was given. In three days the prostration was diminished and the cough was much better, night-sweats and bruised feeling gone. From this time an emulsion containing cod-liver oil, liquor pancreaticus, eggs, cream, hypophosphites and eucalyptus oil were given in addition. The case went on to recovery.

Dalzell also recorded the case of Mrs. R., 45, who was in the last stage of tuberculosis. Right lung consolidated, left in cavities. This patient had circumscribed flush on face, brilliant eyes, throat felt rough, overall bruised feeling. Remittent fever. Skin dry, except at night, when she had profuse perspiration. Constant dry cough. Muco-purulent expectoration.

Lachn. tincture, five drops every three hours, relieved all the symptoms and procured euthanasia, the patient dying quite easily twelve days later.

RELATIONS - Compare: (1) Dulc., Bry., Puls. (2) Fei. - nape of neck pains and great tension there.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***LACTICUM ACIDUM

(Lactic Acid)

PHARMACY - lac-ac. Lacticum acidum. Lactic acid. Milk acid. Lactis acidum. Dilutions. **Historical dose:** All potencies.

CLINICAL - Acidity. Aching, pain. Aphonia. Belchings. Bones, swelling. **Breasts, disorders.** Canker, sores. Coryza. Cough. **Debility. Diabetes.** Foot sweat. Gastroenteritis. **Glands, enlarged.** Hoarseness. Indigestion. Leucorrhea. Morning, sickness. **Nausea.** Nosebleed. Pregnancy, sickness. Rheumatic, pains. Rheumatism. Sciatica. Throat, constricted. Throat, sore. Trembling. Vomiting. **Water brash.** Weakness.

HOMEOPATHIC - Hering noted that lactic acid was discovered by Scheele in sour milk, the result of the spontaneous fermentation of sugar of milk under the influence of casein. It is also met with in many vegetable products which have turned sour.

Reisig first introduced it into homeopathy. Lactic acid has been proved in both the lower and higher potencies, but many valuable observations have been made on patients taking substantial doses for diabetes as it was often given for diabetes in the past.

In these cases, the symptoms of rheumatic fever were directly traced to the acid. Pain, swelling, stiffness and tenderness of joints, worse by motion (as with Bry., which antidotes Lac-ac.). Flying pains about limbs.

One pro ver had pain along the right sciatic nerve. The well-known effects of milk that has soured on the stomach and remained undigested were produced. Nausea, vomiting, burning and sense of weight.

Weakness, as if from exercise, aversion to exercise. Rheumatic affections. Rheumatic pains in joints, knees, worse by motion. Trembling of whole body, while walking. **Debility**, weariness of the limbs.

Acidity. Hot acrid belchings, worse smoking. Salivation, water brash. Morning sickness. Fullness or lump like puff ball in throat.

Frequent passing of large quantities of saccharine urine. **Diabetes.** Sweaty feet. **Breast troubles.**

MIND - Confusion. Forgetful, can't remember a thing an hour after it has happened. Dislikes to read or think. Lazy. Aversion to business or what formerly was pleasant to do. Contemptuous. Sarcastic. Finds fault, very exacting. Believes all she says is a lie. Great discouragement during pregnancy.

Abdomen - Pains across bowels and lower right side. Bearing down pain in upper part of abdomen. Sharp pain across lower abdomen before stool. Left hypochondrium sensitive to touch. Sharp cutting pains and jerking in muscle. Dull pain in left groin over hip bone.

Back - Pain in small of back, extending into shoulders. Sore aching in lower part of back, worse when walking. Stiff neck. Stiff down between scapulae and across shoulders.

Breasts - Pain in breasts with **enlargement of axillary glands.**

Chest - Left side of chest sore and painful. Cutting or sticking pain in upper third of right side.

Constitutions - Suited to anemic, pale women. Large doses disagreed with melancholic, choleric constitution, dark hair and eyes.

Cough - Hoarse, hard, dry cough with dryness of glottis. Spasmodic, ringing cough from irritation in throat. Cough from hot eructations. Cough with nausea and constricted feeling in throat. Constant cough worse spring and fall, with foot sweat. Cough worse from smoking.

Ears - Disturbed and troubled by noise. Roaring in left ear on rising, in afternoon. Singing, snapping in left ear. Pain from parotids into ear, stiff feeling in parotids.

Eyes - Sensation of fullness in eyes with headache. Eyes feel tired. Eyes feel as if they would burst. Marked

protrusion of eyes. Hyperesthesia of retina, steady aching in and behind eyeball. Pupils dilated. Photophobia, direct light painful. Jerking of left upper lid.

Face - Face flushed or congested from headache. Erysipelatous redness on left cheek and side of nose. Small vesicles on nose in morning. Parotids feel stiff. Pains from parotids into ear.

Female - Menses scanty, more profuse than usual. Itching of vulva during flow. Leucorrhea, staining linen yellow, when checked, nasal catarrh ensues. Pain as if menstruating, sitting with feet high lessens uterine soreness. Pain in small of back and lower abdomen. Aching pain in region of right ovary, worse by rapid walking or exercise. **Morning sickness** with salivation, nausea and vomiting, water brash better by breakfast.

Food- Appetite impaired. Voracious appetite and great thirst. Eating generally improves symptoms. Nausea on waking, better by eating in diabetes or pregnancy.

Head - Congestion of head, painless with strong pulsation of vessels of neck. Head feels very large. Headache with sensation of fullness in vertex. Dull pain in forehead, just over eyes and extending into eyes. Pain in head and back all night. Pain in occiput and alternating between there and forehead. Head sore to touch. Fine miliary eruption on scalp.

Heart - Sharp pains around heart, causes palpitations.

Kidneys - Frequent pain in kidneys. Frequent desire to urinate large quantities. Urinates day and night, the attempt to retain it causes pain. Copious urine, deep brownish red, with much reddish sediment. Sugar in urine. Morning urine contained a large amount of salt, in evening a large excess of sugar.

Limbs - Limbs feel chilly. Debility, weariness of the limbs. Weakness as if from exercise with rheumatic pains in the bones, aversion to exercise. **Rheumatic pain in joints and shoulders, wrists, knees**, with much weakness. Joints swollen, not tender, stiff. Severe, sharp pains in joints, stiffness. All pains worse by movement. Trembling of whole body while walking.

Lungs - Saw-like rasping sound. Frequent deep sighing inspirations and expirations. Spasmodic, ringing cough, caused by irritation in throat.

Male - Annoying erections in morning, but loins ache too much to attempt sex. Seminal emissions three successive nights.

Modalities - Smoking aggravates all symptoms.

Mouth - Mouth and fauces very dry and hot. Much saliva in mouth, tasting salty. **Copious salivation and water brash**, especially during pregnancy. Acrid taste with nausea. Sour, coppery taste. Very sore mouth. Roof of mouth dry, feels burnt. Canker sores.

Nose - Great sensitiveness of smell. Severe coryza. Stopped nose. Sneezing. Thick, yellow mucus from head to throat. Dryness of posterior nares, with hawking of mucus. Nosebleed every morning.

Perspiration - Copious perspiration. Unusual perspiration of feet.

Rectum - Aching pain in anus. Soft, mushy stool, diarrhea. Greenish yellow stools with tenesmus. Very costive, stool once a week, hard, black.

Skin - Skin harsh and dry, no sweat. Itching and burning, worse by cold. Red spots or blotches on various parts of the body, particularly thighs and lower limbs.

Sleep - Stupid, drowsy all day, restless all night. Sleeplessness from vertigo, from backache. Dreams of sexual intercourse, with erections, no emission. Horrible dreams, of abysses.

Stomach - Burning and weight in stomach. Burning, hot gas from stomach to throat, causing profuse secretion of tenacious mucus, **worse smoking. Hot, acrid belchings**. Food sours. Uneasiness in stomach after food and drink. Nausea with water brash or vomiting, better from eating. **Nausea, morning sickness**, especially in **pale, anemic** women. Nausea on rising in morning. Nausea after breakfast, not severe, but very persistent.

Nausea like seasickness. Constant nausea, persisting for days.

Temperature - Cold and chilly at times, mostly on limbs. Flushes of heat with headaches.

Throat-Dryness of throat with hoarseness. Dryness and rawness, extending to larynx. Sensation of a plug in the throat. Excessive hawking with or without nausea. Keeps swallowing. Difficulty of swallowing solids, liquids more easily. Fullness or lump like a puffball. Sense of constriction low down in throat, rough and dry. Intense burning in throat, fauces and esophagus worse by eructation. Faeuces hot, dry and swollen. Aphonia. Hoarseness.

Tongue - Tongue dry, parched, red and raw. Thick yellow coating on tongue with bad taste in morning. Tongue sticky, coated thick white. Tongue sore on left side.

Vertigo - Vertigo when turning head suddenly, on stooping, on rising. Vertigo at night. Vertigo worse with heat. Vertigo as if tossed on a rough sea. with nausea like seasickness.

COMMENTS - Cartier noted its use for acute gastroenteritis, six to ten drops in a small glass of water. It was used locally in the tuberculous ulceration of vocal cords.

Nash regarded the concomitance of rheumatic pains as the chief guiding symptom here. He recorded a case

of diabetes with rheumatic fever supervening, cured with Lac-ac. 200c.

Constant nausea, nausea on awaking, before rising. Nausea in diabetes, pregnancy, or rheumatism. Nausea, better from eating, belchings, worse from smoking. Smoking

• aggravates the belchings. Diabetes.

Severe pains in muscles and joints after exertion. Chronic fatigue with flu-like symptoms since physical over-exertion. Chronic fatigue with muscle aches. Inoffensive, copious foot-sweat (Sil.).

RELATIONS - Antidoted by: Bry. (relieved sharp pains upper third right side, but soreness remained).

Compare: (1) Sarcoc-ac. (2) Lith., Ph-ac. Lac-c., Lac-v-c., Lac-d., Sac-1. (3) In nausea of pregnancy, Nux-v., Puls., Ph-ac., Colch., Lyc., Lac-d. (4) Ip. - excessive hawking with or without nausea. (5) Caust. - phlegm in throat, cannot be hawked up, causing nausea. (6) Diabetes, Ph-ac., Acet-ac., Lac-d., Uran-n.

(7) Flying rheumatism, Puls., Rhus-t. (8) Great discouragement, Psor. **Incompatible:** Coffee worse symptoms.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

*****LACTUCA VIROSA**

(Acrid Lettuce)

PHARMACY - lact. *Lactuca virosa*. Acrid lettuce. Poison lettuce. Opium lettuce. "Lactucarium" or Lettuce opium. N. O. Compositae. Genus, Cicoraceae. Tincture of fresh flowering plant. Specimens of both *Lactuca vir.* and *Lactuca sat.* might be included in the tincture. Tincture of impissated juice. **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Anus, disorders. Ascites. Asthma. **Breast-feeding, disorders.** Constipation. Cough. Cramps. Diarrhea. Globus, hystericus. Gonorrhea. Headache. Heartburn. Hemipia. Hysteria. **Insomnia.** Levitation. Liver, disorders. Musca, volitantes. Noises, ears. Pylorus, pain. Sleep, excessive. Smell, illusions. Spinal cord, pains. Spleen, disorders. Whooping cough. Yawning.

HERBAL - The leaves of garden lettuce, *Lactuca sativa*, when too old and going to seed, have a bitter taste and the stalk contains a milky juice which is intensely bitter. This juice contains Lactucin and is common to all lettuces, but is especially virulent in *Lact. vir.* from which (as well as well as from *Lact. sat.*) Lactucarium or "Lettuce Opium," is prepared.

HOMEOPATHIC - Brunton noted that *Lact.* has a soporific action and is used "instead of Opium to allay cough, quiet nervousness and induce sleep in cases where from idiosyncrasy, Opium is not borne." This use of lettuces has been known from very remote times and has not been added to by old-school observers. The sleep-provoking power of *Lact.* is recognizable in sensitive persons who eat ordinary garden lettuce in salad. Boericke specified *Lact.* as a "true galactagogue," as it **increases the milk in breasts**. This remedy also acts upon the brain and circulatory system. Delirium tremens with sleeplessness, coldness and tremor. Hydrothorax and ascites.

Impotence. Sense of lightness and **tightness** affecting whole body, especially chest. Marked action on limbs.

MIND - Stupor of sense. Difficulty in thinking. Loss of memory. Anxiety and disturbed sleep. Great restlessness. Fear driving him from place to place. Negative thinking. Contrary. Excessive ill humor, provoked by slightest contradiction. Repulsive mood.

Prolonged emotional suffering, resulting in emotional deadness or coldness. Forsaken feeling. Disposition melancholy, fretful. Sadness with extravagant and exaggerated notions. Headache after grief.

Foolish behavior. Plays antics. Jumping. Singing or sighing. Delusions, sees soldiers on his bed. Delusions, that he would be murdered. Vivid, exaggerated fancies.

Abdomen - Sensation of weight, fullness.

Movements in abdomen. Borborygmi, abundant emission of wind. Colic in early morning, tense abdomen, relieved somewhat by evacuation and passing of wind. Cramping pain, better passing flatus. Dull shocks or else lacerations in right hypochondrium. Contusive pain in liver region, in morning.

Back - Tension in muscles of neck or right side, sometimes spasmodic. Lacerations under right armpit. Pains in spinal marrow, as far as the cauda equina and extending to sacrum. Contusive pain in lumbar region. Drawing pains in loins towards the groins.

Breasts - Milk absent. **Increase of milk in breasts** (Asaf.).

Chest - Constriction. Sense of oppression of chest. Squeezing sensation in lower chest. Sensation of warmth. Pain on bending forward. Shaking of chest during cough.

Cough - Cough as from dust. Must hold chest with both hands.

Ears - Drawing pains in ears, shootings followed by tension in left ear. Buzzing in ears, ringing sound before ears, in evening, in bed.

Eyes - Biting in the eyes. Burning in eyes, especially in the lids. Redness of conjunctiva with increased mucus

secretion in elderly persons. Pupils dilated. Cloudiness of vision, weakness of sight. Hemiopia. Flying insects before eyes, on stooping after a meal. Itching above the eyebrows.

Face - Pale. Heat of face with trembling and sensation of swelling of lips. Quivering in lips. Tingling with a feeling of tightness on face. Lancinations in chin at extremity of sub-maxillary nerve. Swelling of the lymphatic glands.

Female - Promotes menses. Menses too early. Bearing down and weak feeling about pelvic organs and general relaxed feeling. Painful gonorrhea.

Food - Want of appetite, food is repugnant, no appetite for bread and meat. Food tastes sickly, bitter. Appetite and thirst increased. Desires milk, pickles, sour. Aversion to bread, meat, wine. Better from bread, coffee, vegetable acids, worse from milk.

Head - Empty sensation. Sensation of looseness of brain. Dull, heavy, confused, dizzy. Heat of face and headache with general coldness. Pain, stupefying headache, after grief. Headache with disorders of respiratory organs.

Kidneys - Dragging pressure in region of bladder, as from urgency to urinate. Burning in urethra. **Urine smells of violets.** Urine clear as water, copious. Sensation as of a drop continuously passing along the urethra when seated.

Limbs - Cramp-like pains. Rush of blood to lower limbs. Sensation as if circulation in legs were suspended. Numbness while sitting. Coldness and numbness of feet and legs. Lame hip down left side, worse walking. Cramps in shin bones, extending to toes and side of leg involving calves. Tension in hollow of knee on rising from a seat, while walking. Tremor of hands and arms.

Lungs - Difficult breathing. Suffocative breathing from dropsy of the chest. Irritating, suffocating cough. Constant tickling cough. Incessant, spasmodic cough, as if chest would fly to pieces.

Male - Drawing pains at root of penis, in right spermatic cord and along internal surface of thigh. Diminished sexual appetite, chases away lasciviousness and voluptuous fancies. Painful erections during morning sleep. Swelling of a lymphatic vessel in penis, following morning erections.

Modalities - Better in open air, bending, sitting up. Worse from touch, crossing legs, sneezing, in a warm room. Yawning and stretching helps pressure in chest.

Mouth - Dry mouth, without thirst. White coating on tongue, thick mucus, sore, as if burned at tip. Contraction under tongue. Sharp pain in molars on left side of lower jaw, as if they were being twisted. Soreness of gums, on an empty socket on masticating.

Nose - Sensation as though end of nose were distended. Peculiar smell before nose and a similar taste in mouth. Coryza, followed by excoriation and dryness in nose. Frequent sneezing.

Rectum - Constipation, no stool the first day or else a tardy and hard evacuation (habitual constipation diminishes). Stool only after urgent calls and griping.

Sensations - As if chest would fly to pieces. As if circulation in legs was suspended. Coldness of stomach, throat, chest, feet.

Skin - Subcutaneous lancinating and pinching in various places. Inflammation and eruptions.

Sleep - Irresistible drowsiness in daytime. Frequent yawning and stretching of limbs. Restless, impossible to get to sleep. **Insomnia.** Disturbed sleep from anxiety, cough. Position, lying on back impossible. Sound, refreshing sleep. Deep, comatose sleep.

Stomach - Sensation of icy coldness in stomach. Sensation of retraction. Pains in stomach with contraction of pit of stomach, worse by pressure. After a meal, sensation of fullness in stomach with pressure downwards. Pain better passing flatus. Loathing, nausea, vomiting, sometimes with uneasiness at pit of stomach.

Temperature - Slight shivering chill. Frequent coldness over back and head, with heat in face. Chilliness in a warm room with coldness of hands and feet. Dry heat of upper part of body, with icy coldness of feet.

Throat - Slight burning in throat. Difficult swallowing with sensation as if uvula were raw with burning. Sensation of coldness in esophagus from eructations. Accumulation of mucus in throat, viscid mucus in throat in morning.

Vertigo - Vertigo with heaviness of head and lower limbs. Vertigo with blackness before eyes. Vertigo with sensation as if head were too large and expanded.

COMMENTS - There are several recorded instances of poisoning. A man, 25, ate Lact. in a salad, 7 p.m. and went to bed at 9. He woke at 11 with sharp, colicky pains, soon followed by nausea and vomiting that lasted all night. He fell asleep at 5 a.m., but in the morning was astonished to find himself unable to distinguish objects clearly.

A boy of 10 who ate the same meal became affected with lively delirium at midnight that lasted until morning. He jumped about on the bed, played all sorts of pranks and nobody could quiet him. He had no colic or vomiting. His pupils were dilated until the iris was a mere rim. Trying to read he mistook M for P and O for V. In his

delirium, he had hallucinations, saw on his bed a soldier, an inkstand, etc. Both these patients as well as another had liquid stools. The dilated pupils persisted some time.

Keynote indescribable sensation of tightness, affecting the whole body, but especially the chest. Intolerance to touch and pressure. Pain in spinal marrow even to cauda equina, streaming along coccyx. Right arm is much affected.

Much yawning and stretching to relieve the squeezing of the lower chest. Squeezing in left breast. Feeling as if a hundredweight on chest. Feeling of relaxation in the chest. Angina pectoris.

Asthma. Spasmodic cough in frequent paroxysms with feeling of suffocation. Attacks come suddenly without any apparent cause, induced by a violent tickling in pharynx and roof of mouth. Whooping cough, paroxysms preceded by anxiety. Antispasmodic. Chest symptoms are better sitting up.

Lactuca virosa

Tightness in the liver region. Enlargements of the liver with tightness. Stomach pain, better bending. Pinching in umbilical region, better crossing the legs.

Constipation and diarrhea with many concomitant anal symptoms. Sensation as of a drop continually passing along the urethra when seated. Urine smells like violets. Hering noted "painful gonorrhea in females." Used as a galactagogue (Aven.. Alf.).

Extraordinary lightness of body, more pronounced in open air. Feels as if swimming in bed. Dreams of swimming in the air or of walking above the ground. The head feels light, empty. Sensation as if head too large, as if brain loose. Sensation as if looking through gauze. Mild sedative.

Cured a case of hypertrophy of the ovaries in a woman of fifty as a consequence of a miscarriage twenty-five years before. The tumor was excessively large and the patient could get no rest because of the pain from the pressure. The rectum was contracted and feces evacuated with great pain.

"Fatigue during stool," and also "sleepiness during stool" were peculiar and may prove characteristic. Ebullitions rising up from abdomen suggest globus hystericus.

RELATIONS -Antidotedby: Vegetable acids and coffee. (In a proving of Lact., Acet-ac., aether and hoch. were more effectual than coffee). **Compare:** (1) Drowsiness, dryness and constipation - Op., Nux-m. (2) levitation, Stict. Puls., Ph-ac., Lac-c., Asar., Thuj., etc. (3) intolerance of anything tight around neck, Lach. (4) gonorrhea, urine smells of violets, Terebe. (5) squeezing in left breast, Bor. (6) Bor. has empty feeling. Coldness. (7) Helo., pain in soles as if he had jumped on a stone. (8) Bor., heart symptoms, Kali-c. and Kali-i., cough Dros. (9) Nabal. (10) Lach., Kali-c., (11) Spira. - galactagogue.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

*****LAETRILE**

(Amygdalin)

PHARMACY - laetr. Laetrile. Amygdalin. Pangamic acid. Vitamin B-17. Anti-cancer drug. **Historical dose:** All potencies.

CLINICAL - Anemia. Cancer. Cyanosis. Dizziness. Fatigue. Hair, loss. Headache. Hypotension. Liver, damage. Muscular, weakness. Nausea. Ptosis. Rheumatism. Tumors. Vomiting.

HOMEOPATHIC - Laetrile formula is laevo- D-mandelonitrile-B-glucuronide. Laetrile is a decomposition product resulting from the hydrolysis of amygdalin. This compound is chemically related to amygdalin, a substance found naturally in the pits of apricots and various other fruits.

The term "laetrile" was first proposed by Ernest T. Krebs, Jr. in 1949. Most proponents of laetrile for the treatment of cancer use the terms "laetrile" and "amygdalin" interchangeably. Amygdalin is one of the first and best known cyanogenic glycosides. Neither amygdalin nor laetrile contain free cyanide.

Amygdalin is a herbal constituent derived from the kernels of various fruits of the Genus *Prunus* (synonym amygdalus), which includes the plum, prune, cherry, peach and apricot. It is among the most ancient herbal remedies used against cancer.

Apricot kernels have been in medical use since the days of Pen T'sao (an herbalist), in 2800 B.C., in China. The great Persian master of pharmacy, medicine and natural sciences. Avicenna (980-1037), recommended the use of apricot bitter oil in the treatment of tumors of the spleen, uterus, stomach and liver.

Some doctors believe that laetrile **relieves the pain of cancer**. Experimental results show effects of amygdalin on breast tumors. Adenocarcinomas. Stoppage of growth of small tumors. Prevents the development of lung cancer metastases. Other reported uses have been in the treatment of high blood pressure and rheumatism.

Toxicities are generally mild when patients adhered to treatment schedules. The side effects associated with treatment mirror the symptoms of cyanide poisoning, including nausea, vomiting, and headache. Fatigue, muscular weakness, pain. Respiratory difficulties. Decreased blood cell counts. Hair loss and mouth sores.

More severe side effects are experienced when laetrile is given by mouth than when it is given by injection,

including mental confusion, dizziness. Cyanosis, anemia, hypotension. Liver damage. Ptosis. Ataxic neuropathies, difficulty walking due to damaged nerves. Coma.

RELATIONS - Compare: Ars., Cadm-s., Hydr.

REFERENCES - Murphy.

***LAMIUM ALBUM

(White Nettle)

PHARMACY - lam. Lamium album. White nettle. Lamium levigatum. Lamium macula- turn. Dead Nettle. N. O. Labiatae. Tincture of entire fresh plant while in flower and seed. **Historical dose:** Tincture and all potencies.

CLINICAL - Blisters. Chills. **Headaches. Hemorrhoids.** Hemoptysis. Hernia. Leucor- rhea. Menstruation, early. Ulcers.

HOMEOPATHIC - Lamium was proved by Hahnemann and others, including Stapf. Affinity for female and urinary organs. Sensation in urethra as though a drop of water were flowing through it. Hemoptysis. **Hemorrhoids** and hard stool with blood.

Menses appeared too early and were scanty. Much leucorrhea with biting sensation or without sensation, white mucus.

“Deep-in” headache (Bac.), tightness of scalp and a backward and forward motion of the head. **Headache with backward and forward motion of head.**

Much uneasiness of mind and body, trembling of limbs, weakness during the chill. Tearing and drawing in the limbs. Blisters on heel from slight rubbing. Ulcers on heel (All-c.).

MIND - Whining mood, inclination to weep, feels as if abandoned (Puls.). Great sadness with lachrymose humor. Great agitation and anxiety, which permit no rest.

Modalities - Better on rising, sitting. Worse while lying down in bed, in morning, rising from stooping. Worse in open air, drinking, eating.

COMMENTS - Farrington said, “Lamium has been recommended for external hemorrhoids. **‘Hardstool with blood’** is the nearest symptom bearing on this.”

RELATIONS - Compare: (1) Puls., All-c. (2) Members of the Mint tribe - Hedeo., Oci., Orig., Menth. (3) “Deep-in” headache, Bac. (4) Head moves backwards and forwards - Am., Cham., Lyc.

REFERENCES - Boericke. Clarke.

***LAPATHUM ACUTUM

(Common Dock)

PHARMACY - lapa. Lapathum acutum. Common dock. Lapathum sylvestre. Rumex obtusifolius. N. O. Polygonaceae. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Headache. Kidneys, pain. Leucorrhea. Nosebleed. Uterus, atony. Weariness.

HERBAL - Lapathum is the old name of the docks, now generally named rumex. The word is of Greek origin and signifies, according to Gerarde, “to soften, ease or purge the belly,” and the name was given to “herbs used in pottage and medicine, very well known to have the power of cleansing.”

HOMEOPATHIC - Lapa, was proved by Widenhorn. It produced some rather severe headaches and nosebleeds. Hansen said it is indicated in nosebleed following headache. Weight in stomach. Pain in kidneys with pressure from without inwards. Weak feeling in genitals. Leucorrhea with uterine bearing down pain. Weariness.

MIND - Sadness and morose, alternating with gaiety.

RELATIONS - Compare: (1) Rumx., Rheum., Phyt. (2) Sep., Lil-t. (3) Kidney pain, Santa.

REFERENCES - Boericke. Clarke.

***LAPIS ALBUS

(White Stone)

PHARMACY-lap-a. Lapisalbus. White stone. Calcareo silico-fluorica. Trituration. **Historical dose:** All potencies.

CLINICAL - Abscesses. Anemia. Bronchocèle. **Cancer. Cretinism.** Dyspepsia. Dysmenorrhea. Epithelioma. Fibroids. Fibroma. **Glands, disorders. Goiter.** Growths. **Hemorrhages.** Leucorrhea. Lipoma. Otitis media. Pruritus, vulva. Sarcoma. Scirrhus. Scrofula. Sores. Tuberculosis. Tumors. Ulcers.

HOMEOPATHIC - Lapis albus is silico-fluo- ride of calcium. A kind of gneiss, it was found by Grauvogl in the mineral springs of Gastein, Germany. These waters flow over gneiss formations into the valley of the Achen, where goiter and cretinism abound. The mineral waters have a reputation for curing ulcers, cancers and tumors.

Grauvogl cured with it a case of carcinoma and he and others have cured cases of goiter and scrofulous glands. **Uterine cancer.** Fibroid tumors with **intense burning** pains through the part with **profuse hemorrhage**. Pre-ulcerative stage of carcinoma. Sarcoma. Lipoma. Growths.

Glandular disorders, glands are elastic and pliable (Calc-f. and Cist, have a stony hardness). **Goiter.** Especially affects the connective tissue about the glands. Glandular swellings where no glands are usually found. Scrofulous affections, except in malarial cases. Fat, anemic babies with a ravenous appetite.

Burning, shooting, stinging pains in the stomach, pylorus, in the breasts and uterus. Severe menstrual pains causing weakness and swooning.

Chest - Persistent pains in breast region. Glandular hardening.

Ears - Suppurative otitis media.

Face - Opening in cheek as large as a silver dollar, in carcinoma. Epithelioma of lip, crusts coming off leave raw surface. Tumor of lower lip with burning, stinging pains, that make him jump off his feet.

Female - Painful menses, suddenly taken with pain so severe that she swoons.

Lapis albus Severe pain preceding the flow. Pruritus vulva. Burning, shooting, stinging pains in breasts and uterus. Uterine carcinoma.

Food - Ravenous appetite.

Head - Sick headache.

Skin - Scrofulous abscesses and sores.

Pruritus. Enlargement and induration of glands, **especially the cervical glands**. Lipoma, sarcoma, carcinoma.

COMMENTS - In two cases of cervical glands cured by Lap-a. 6c, Dewey related that a ravenous appetite developed while the remedy was being taken. He also noted that the swelling of the glands was elastic rather than of stony hardness.

In one patient, the swelling was as large as a goose-egg in the right sternoclavicular region. This patient, a young woman, was a blonde, as also was a woman of thirty-five whom he cured of goiter with the remedy.

Whiting recorded a fragmentary proving of Lap-a. Mrs. Smith., 40, fair, stout, no children, had a large bronchocele. Averse to all animal food, craved sweets. Craved and drank much ice-water in all seasons since a child. Feet and legs cold to knees.

Lap-a. 6x was given, 2 grains, powders, one four times a day. She reported in a month that the tumor was rapidly diminishing in size, but she was having much pain in it. No further medicine was given.

Two months later, the tumor had diminished to one-half, and the patient stated that since taking the powders she had had no pain at her menstrual period, no dyspepsia and no sick-headaches. She had experienced severe dysmenorrhea since the menses first appeared. Since leaving off the medicine, the pain in the tumor ceased and also the decrease in size.

Lap-a. 6x was again given and again the pain in the tumor came on and in addition, itching of the external genitals. The 30c and 200c caused such intense itching that the patient refused to take any more medicine of any kind.

Since then, Whiting cured many cases of pruritus and also of dysmenorrhea with Lap-a. The pains come on before the flow and cause swooning.

One patient, 19, had dysmenorrhea from the first. Pain so severe she would fall unconscious wherever she might happen to be, the swoon lasting half an hour at times. Better when flow established. Lap-a. 200c cured. Miss X., 34, normal until she had measles at age 20; since then, pain at commencement of menstruation, so severe as to cause fainting. "This severe pain would continue less for a day or until the flow was established." Lap-a. 200c cured in six months.

W. P. Wesselheft, discussing Whiting's paper, narrated the cure of a case of epithelioma of the lip in a man of seventy with Lap-a. 12x in water.

Dr. Gregory cured a young man of a tumor of the lip with Lap-a. 30c. It recurred two years later with "burning, stinging pain, which made him jump off his feet." More Lap-a. 30c was given and cured in a year. There was in further recurrence.

Bellows noted that where Sil. is indicated, progress is hastened by Lap-a.

RELATIONS - Compare: (1) Sil., Bad., Ars-i., Calc-i., Con., Kali-i., Aster. (2) Gast. - effect on scar tissues. (3) Ars., Calc., Cund., Iod., Kali-c., Spong.

REFERENCES - Anshutz. Boericke. Clarke.

***LAPIS GRANITES MURVEY

(Granite Rock)

PHARMACY - lap-gr-m. Lapis granites murvey. Granite rock. Murvey granite from near Barna. Co. Galway, Ireland. Triturations. **Historical dose:** All potencies.

CLINICAL - Chronic fatigue. Constipation. Dandruff. Diarrhea. **Exhaustion.** Fevers. Flatulence. Headache. Influenza. Nausea. Rheumatism. **Weakness.**

HOMEOPATHIC - Lap-gr-m. was first used as a medicine by ancient Egyptian physicians and it is mentioned in many of the medical scrolls. It has recently been proved in England by Nuala Eising.

Connemara granite of Ireland has one of the highest levels of radioactivity of the granites found in Britain and Ireland. The pink granite has a particularly high level of radioactivity.

Granite in Ireland is considered responsible for a higher rate of cancer and Down's syndrome in that country. Eising obtained a sample of the granite by breaking through a rock and taking a piece from the center which was previously not exposed. This was sent to the Galen Pharmacy and was potentized to the 30c potency, which was used by the provers.

Extreme exhaustion and weakness. Inability to move. Drags oneself around the place, having to lie down, sleep often. No inclination to do anything, pleasurable. Profound introversion and withdrawal. Occasional bursts of energy or nervous high energy.

Heavy and painful limbs. Rheumatic pains. Pressure, bruised and sore feeling. Headaches, frontal pain, or in temples. Delirious fevers or milder, recurring fevers, with profuse sweating.

Marked effect on the liver and digestive system, with nausea. Yellow skin. Lost or diminished sexual energy. Pain and discomfort in genital areas generally. Disturbed menstrual cycle and menstruation.

MIND - Apathy and weakness. Making decisions was a great effort. Spaced out all day and very giddy. Lack of concentration, very forgetful. Deep feeling of sadness and worthlessness. Weepy. Self-pity. Vulnerable feeling. Self-doubt, poor self-confidence.

Restlessness. Easily startled by sudden noises. Great fear for no apparent reason. Fear or panic attacks. Claustrophobia. Feeling of anticipation. Uneasy feelings as if something were about to happen or as if she had something to do and couldn't remember what.

Extremely introverted, detached and indifferent. Lonely. Introversion with arrogance. Believes that others are trivial or petty. **Aversion to company,** to socializing. Contempt for others. Insolent and rude. Suspicious of motives of others. Outbursts of anger. Irritability or anger at being invaded or disturbed by others.

Abdomen - Dull, heavy, dragging pain in lower abdomen, has to bend double. Pain radiates down thighs. Tension in the solar

plexus. Spluttery and full of gas with cramps in abdomen.

Back - Neck felt tense and painful. Aching, dull, heavy pain in the lower back. Pain in kidney region.

Breasts - Breasts sore and swollen.

Ears - Ear infections. Ears itchy inside and a thick discharge following. Eruption like a cold sore appeared on the left ear lobe, scabby, pus, itching. Ears felt like they were stuffed with cotton wool. Pressure and popping in ears, affecting hearing. Difficult hearing, voices and sounds seemed distant.

Eyes - Eyes were stinging, burning and watering. Burning sensation and pressure behind eyes. Eyelids felt heavy all day. Short-sighted.

Face - Pale. Face looks strained, frowns a lot.

Female - Disturbed menstrual cycle and menstruation, with pain and discomfort. Menses with severe pain in lower abdomen and lower back. Sharp pain in right ovary. Sexual urge diminished or lost.

Food - Appetite lost, with nausea. Hungry but couldn't find any food that interested her. Nibbling at food all the time out of boredom. Craving for sweets. Thirsty most of the time.

Head - Frontal pressure. Temples felt bruised and sore. Headache as if a tight band. Frontal headache, in morning. Head hot, scalp and forehead very itchy. Dandruff. Scalp scaly, itching with hair falling out.

Kidneys - Sharp, stabbing pains over kidneys. Aching pain in back over kidneys. Pressure on bladder. Frequent urination.

Limbs - Limbs sore and achy. Rheumatic pains, in right arm and left thigh at night. Sore, bruised type in left shoulder, over left kidney and in left hip. Arms were very heavy, had no power in them, lifting things was very difficult.

Lungs - Cough, like she was clearing her throat all the time. Short, phlegmy cough.

Male - Sexual energy lost or diminished.

Modalities - Better lying down, from alcohol. Worse from cold, even when hot. Worse from tobacco, particularly the weakness and nausea.

Nose - Acute sense of smell.

Rectum - Constipation and diarrhea. Chalky colored diarrhea, in the morning. Diarrhea with pains like premenstrual pains in her lower abdomen.

Skin - Very yellowish skin. Skin generally itchy, particularly the scalp. Pimples on neck and back. Eruptions, red patches of dry skin, intensely itching and burning. Must scratch, scratching brings up little lumps.

Sleep - Confused, exhausted on waking. Unrefreshing sleep. Dreams about the past, grandparents, mother, elderly relatives dying. Very aggressive dreams, attacking people, being in a war, being raped dead babies.

Stomach - Nausea with lost of appetite.

Temperature - Fever with sweat. Hot and feverish, sweating on palms and back. Sweating in bed.

Throat - Throat sore and raw. Tickling in throat causing a cough.

Vertigo - Feels giddy and exhausted. **COMMENTS** - Occasional desire for the company of one close friend, where no social effort was necessary, marked during anxiety. Assertive. Fear or panic attacks. Anxiety rising suddenly without apparent cause. Restlessness, have to keep moving. Trembling all over, particularly hands. Easily startled by sudden noises or while driving.

Eruptions. Red patches on skin, dry itching; with aggravations from dairy products. Skin and scalp symptoms. Inner ear infection; with pressure and popping. Weakness and nausea aggravated by smoking.

One case concerned a man who had moved to Galway two years earlier and was having recurring panic attacks since then. He was very introverted, with profound feelings of loneliness and isolation. He was prone to outbursts of anger. Granite 200c cured.

A second case concerned a woman who suffered from severe headaches, pain from her eyes. She had been diagnosed as nearsighted and needed glasses. She was tired all the time and had difficulty getting out of bed in the morning.

Introverted, strong feelings of hatred and jealousy. Enjoyed trying to provoke her passive husband into fighting. Granite 200c cured. She has had her eyes tested again since the remedy and her sight became perfect.

RELATIONS - Sulph. antidoted one proving and Zinc, the other. **Compare:** (1) Sil., Sep., Staph., Plat., Nat-m.

***LAPIS LAZULI

(Gemstone)

PHARMACY - lap-laz. Lapis lazuli. Gemstone. **Historical dose:** All potencies.

CLINICAL-Acne. Boils. Anal, itching. Conjunctivitis. Coryza. Diarrhea. Flatulence. Glands, swelling. Hair, loss. Headaches. Heartburn. Hemorrhoids. Hoarseness. Itching. Lachrymation. Leucorrhea. Meniere's, disease. Nausea. Night-sweats. Nosebleeds. Palpitations. Thyroid swollen. Tinnitus. Trembling. Vesicles. Weakness.

HOMEOPATHIC - The name lapis lazuli originated from Arabic "lazaward," meaning blue, and developed into azul, meaning blue sky. It is a combination of sodium- alumina-silicea with the golden lines and spots of pyrite. In folk medicine, lapis lazuli was used to treat cataract, headache, laryngitis, pharyngitis, and to regulate the thyroid gland. Neuritis, neuralgic pains, cramping pains, joint pains, dysmenorrhea. Melancholy, fever, apoplexy, epilepsy. Spleen diseases. Respiratory tract.

MIND - Absent-minded. Difficult concentration. Mistakes in speaking. Awkward, drops things. Weariness, worse in morning. Apathy, with sleepiness.

Mind active. Fretful. Vexation. Anger, bad temper. Irritable. Offended easily, takes everything in a bad light. Conscientious about trifles. Haughty. Indifferent. Averse to company, presence of other people aggravate symptoms.

Tranquility, serenity, yielding disposition. Forsaken feeling. Sense of isolation. Despondent, depressed, gloomy, melancholy. Causeless sadness. Taciturn, desire to be

silent. Cannot cry, though sad. Weeping suddenly.

Full of indefinite desires. Desire for retirement. Fear of rain, water. Fear of being hurt, of impending disease.

Anxiety from the pains in the heart. Presentiment of death. Delusions eyes are falling out, that she is pregnant.

Dreams of water, churches, witches. Prophetic dreams. Clairvoyance.

Abdomen - Distended. Flatulence, rumbling. Cutting, drawing and sharp pains.

Back - Backache in lumbar region. Lancinating, sharp, and pressing pains. Eruptions like flea bites. Itching.

Bladder - Urging to urinate. Burning pains.

Chest - Constriction, tension, tightness, on waking. Oppression of chest. Axillary glands swelling. Stitching pain in axilla.

Ears - Heat sensation. Ear pain on blowing nose. Tinnitus. Noises in ears, rushing, whistling.

Eyes - Conjunctivitis. Itching. Lachrymation from eye pain. Dim vision. Tired expression and sensation.

Face - Acne rosacea. Pale or red color. Boils.

Crusty, scabby eruptions.

Female - Brown leucorrhea.

Food - Thirstless. Desires chocolate, alcohol.

Head - Hair, loss. Headaches. Itching of scalp.

Heart - As if heart would cease to beat.

Pressing, stitching pain. Sore, bruised pain. Pain in heart, better walking. Palpitations with vertigo.

Kidneys - Drawing pains in kidneys.

Limbs - Numbness, upper limbs. Tottering gait. Cracking joints. Joint pains, burning, stitching. Trembling, worse after anger. Weak knees. Felon, onychia, paronychia, panaritium.

Male - Increased sexual desire.

Mouth - Dryness. Cracked, dry lips.

Neck - Swelling glands.

Nose - Nasal obstruction. Coryza. Fluent discharges. Nosebleeds, during headache or vertigo, on blowing the nose.

Rectum - Flatus, offensive like rotten eggs. Diarrhea. Stools, bloody, thin, liquid. Putrid odor of stool. Stools like balls. Anal itching. Rectal bleeding. Hemorrhoids.

Skin - Acne rosacea. Dry and itching. Night-sweats. Boils. Eruptions, crusty, scabby. Vesicles.

Sleep - Disturbed, during the full moon. Wakes after midnight. Wakes from vertigo.

Stomach - Nausea. Heartburn.

Throat - Cold sensation. Sore throat. Burning in throat. Sharp pains, on empty swallowing. Hoarseness. Nasal voice. Thyroid swollen.

Tongue - Burning sensation. Vesicles on tip. Metallic taste.

Vertigo - Vertigo in morning, on waking, with nosebleed, during headache. Vertigo and tinnitus like Meniere's disease.

RELATIONS - Compare: (1) Chin-s., Thios.

***LAPPA ARCTIUM

(Burdock)

PHARMACY- lappa. Lappa arctium. Burdock. Arctium lappa. Lappa major. Lappa officinalis. Arcion. Gobo. Great dote burre. N. O. Composite. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL-Acne. Backache. Belching. Boils. Bunions. Diarrhea. Dupuytren's contraction. Dyspepsia. Eczema. Eruptions. Flatus. Glands, disorders. Gonorrhea. Gout. Impotency. Infertility. Leucorrhea. Phosphaturia. Prolapsed, uterus. Rheumatism. Ringworm. Scrofula. **Sour, stomach.** Styes. Ulcers. Uterus, prolapsed. Vaginitis. Vertigo.

HERBAL - A writer in the Amer. Homeopath recommended the local use of the seedling roots in acne. The roots are softened by soaking in water for two hours, then the blunt end is rubbed on each individual pimple. It is not to be repeated more often than once a week.

HOMEOPATHIC - Lappa arctium has been extensively proved, notably by Dr. Jeanes and Dr. S. A. Jones. The provings generally confirm older teachings.

Lappa chiefly affects the skin, liver joints and uterus. Historically, it was given for prolapsed uterus, infertility, milky urine and sores about the joints. It was one of Culpepper's remedies for fetid sweat of axilla. Useful in skin therapeutics.

A large number of symptoms were observed upon the skin and mucus membranes. Acne, eczema, especially of the scalp, with discharge. Eruptions on the head, face and neck. In skin disorders, it has been used externally as a glycerol, as well as internally.

Styes and ulcerations on the edge of the eyelids. Crops of boils and styes (Anthr.). Profuse and frequent urination. Heavy, sore aching, as if lying uncomfortably. Numbness, lumbar region of aching calves. Constriction.

Abdomen - Flatulent dyspepsia, belching inodorous gas.

Back - Pains in back about eighth dorsal vertebra.

Chest - Trembling in chest. Acute tingling, cutting pain under middle of sternum, extending across breast.

Eyes - Redness about eyes. Crops of styes. Feeling as if the eye was small and constricted.

Face - Inveterate acne, worse touch. Spreading vesicular eruption, great tearing and itching. Herpetic eruption on right ala nasi.

Female - Uterine displacement, worse standing, walking, sudden jar. Bruised, sore, heavy feeling in uterus with great relaxation of vaginal tissue. Prolapsed uterus with much bearing down pain. Leucorrhea.

Head - Weight on vertex. Pain in head.

Eczema of scalp.

Heart - Pain in heart with indescribable movement under sternum. Exceedingly rapid pulse with frequent intermissions.

Kidneys - Profuse and frequent urination. Milky phosphatic urine.

Limbs - Eruption on limbs. Soreness of muscles. Pain in all joints. Old sores about joints. Rheumatic and gouty pains. Rheumatic pains entirely relieved by onset of diarrhea. Sharp, darting, fugitive pains in tendons. Dupuytren's contraction. Front

of thigh weak. Pain in hands, knees and ankles extending downward to fingers and toes. Bunion.

Lungs - Tickling in glottidis, loose-sounding cough, no expectoration. Short breath on exertion.

Male - Cutting, squeezed pain in whole length of urethra, scalding on urination. Ringworm-like patch of eruption on thigh beside testicles, groins raw. Loss of sexual desire.

Modalities - Better from cloudy weather. Worse cold, wet, shaking, violent exertion, lying on right side.

Nose - Red discoloration across the nose.

Rectum - Frequent yellow stools in forenoon, with some nausea. Diarrhea alternating with rheumatic symptoms.

Skin - Eruptions, sticky on head, face. Many small painful boils. Moist, offensive eruptions, grayish white crusts, especially when glands are swollen. Moist, foul eczema of infants. Old sores, about joints. **Axillary sweat cold**, runs down chest, foul.

Stomach -Sour stomach, sour taste, all food turns sour, vomits it. Diarrhea alternating with rheumatic symptoms.

Vertigo - Vertigo with nausea and vomiting.

RELATIONS - Compare: (1) The composites, Am., Calen., Ciña. (2) Bry. - rheumatism. (3) Frax., Lil-t. and Sep. - in uterine prolapse. (4) Calc-p. - phosphaturia. (5) Vine., Viol-t. - skin.

***LAPSANA COMMUNIS

(Nipple-wort)

PHARMACY - laps. Lapsana communis. Nipple-wort. N. O. Composite. Genus Cicora- cee. Tincture of infusion of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Hemorrhoids. Nipples, sore.

HERBAL - As the common name of Lapsana would imply, it is a popular remedy for sore nipples, a decoction of it being used as a lotion for that purpose. Cooper published documents in proof of its efficiency in hemorrhoids.

Three ounces of the green plant (or four of the dry) are boiled in three pints of thin water gruel until it is reduced to a pint and a half. The decoction is then strained. Half a pint is to be drunk on three mornings following, fasting immediately on getting out of bed.

One patient who was cured in this way said he had no swallowed the draft more than a few minutes before he felt his stomach as warm as if he had drunk hot brandy and water.

Only three doses were ordered and the patient was told, if not cured, to wait a fortnight before repeating the treatment.

HOMEOPATHIC - Laps, is a remedy for sore nipples and hemorrhoids. Cooper confirmed the power of Laps, over hemorrhoids, using single doses of the tincture.

RELATIONS - Compare: Calen.

REFERENCES - Clarke.

***LARCH

(Bach Flower Remedy)

PHARMACY - lar-b. Larch. Larix decidua. Twigs with young leaves and flowers are picked and boiled for half an hour. The water is drained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - BachgroupedLar-b. under **Despondency and Despair**, with Crb-a-b., Oak-b., Will-b., Star-b-b., Sw-ch-b., Elm-b. andPine-b.. States of low self-confidence. Lack of energy, drooping sensation, weary limbs and reluctant posture. Withdrawn.

MIND - Anticipates failure, feels that one cannot quite measure up to the challenges of life. Avoids new opportunities for growth and advancement. Sense of suppression, limitations. Feelings of inferiority, compares oneself with others. Fear of failure.

Bad self image. Focused within oneself (Cer-b., Mimul-b.). Worries about oneself. Sadness, regret, despondency, despair. Shy,

lack of personal strength. Lonely, alienation from others. Lax and dampened, without energy or incentive.

REFERENCES - Bach.

***LATHYRUS SATIVUS

(Wild Vetch)

PHARMACY - Lath. Lathyrus sativus. Wild vetch. Lathyrus cicera. Lesser chick-pea. "Jesse," "Jarosse." N. O. Leguminosae. Papilionaceae. Trituration of seeds. Tincture of the flower. Tincture of the green pods. Trituration of the dried pea. **Historical dose:** Tincture and all potencies.

CLINICAL - Amyotrophic lateral sclerosis. Athetosis. Beriberi. Constipation. Cramps. Depression. Diarrhea. Dysentery. **Emaciated, limbs.** Emaciation. Heartburn. Impotence. **Infantile, paralysis.** Locomotor ataxia. Lumbago. Multiple sclerosis. Nausea. **Paralysis.** Paralysis, spinal. Paraplegia. Parkinson's disease. **Poliomyelitis.** Rheumatic, paralysis. **Rheumatism.** Roaring (in horses). Spinal, sclerosis. Urine, incontinence. Vertigo. Vomiting.

HOMEOPATHIC - Lathyrus is a vetch, a member of the Leguminosae family that grows in India. Lathyrus contains variable amounts of a toxin that, when ingested, may cause lathyrism, a paralytic affection. Produces a perfect picture of certain spinal affections.

In Christison's Toxicology, it is stated that Lath, causes paraplegia, dragging gait, turning-in of the toes, stiffness and semiflexion of the knee joints.

The clinical record of Lath, indicates that it may prove useful in numerous cases of bedridden paraplegias and infantile spinal paralysis, as well as in certain forms of myelitis. In 1877, Clarke published cases relieved by Lath., two of paralysis, one of multiple sclerosis, one of rheumatic paralysis with stiff knees.

Affects the anterior and lateral columns of the cord, causing paralytic disorders of lower limbs, spastic paralysis, lateral sclerosis, beriberi. **Infantile paralysis.** Athetosis. Trembling of arms, worse on attempting to do anything.

Increased reflexes. Lack of pain. Wasting, exhaustive diseases with weakness and heaviness, slow recovery of nerve power. Sleepy, constant yawning.

MIND - Depressed, hypochondriacal. Lack of inner strength. Sense of being trapped by circumstances. Suppressed emotions.

Abdomen - Colic. Sensation as if a damp cloth around waist.

Back - Lumbago. Pain in back so severe as to prevent movement, worse or excited by touch.

Bladder - Increased bladder reflexes. Frequent urge to urinate, must hurry, or else voided involuntarily.

Ears - Singing in ears.

Kidneys - Pressure on bladder, if not immediately satisfied, urine, rushes out with great force. Incontinence of urine. Increased bladder reflex.

Limbs - Polio myelitis with marked spastic symptoms. Rheumatic paralysis. **Excessive rigidity of legs, spastic gait.** Tremulous, tottering gait. Knees knock together when walking. **Knee jerks exaggerated.** Cannot extend or cross legs when sitting. Sits bent forward, straightens up with difficulty. Stiffness and lameness of the ankles and knees. Heels do not touch the ground when walking. Feet are dragged or put down suddenly and forcibly while walking. While lying down legs can be moved from side to side but cannot be lifted. Legs blue, swollen, if hanging down. Cramps in legs, worse cold and cold feet. Legs are cold during day, become hot and burn at night better uncovering. Gluteal muscles and muscles of **lower limbs are emaciated.**

Male - Impotence. Occasional erections and pollutions.

Modalities - Better uncovering, lying down (lower limbs move freely). Worse from cold, damp weather, touch, movement.

Mouth - Burning pain, tip of tongue. Tingling and numbness of tongue and lips, as if scalded.

Rectum - Diarrhea, with urgent pressure on intestines. Dysentery. Constipation.

Sensations - Sensation as of a damp cloth around the waist.

Sleep - Continuous yawning and sleepiness.

Stomach - Weight in stomach and indigestion. Heartburn. Nausea and vomiting. Vomiting of blood.

Vertigo - Vertigo when standing with eyes closed.

COMMENTS - The two varieties of Lathyrus that have occasioned poisonings are Lath, sativus and Lath, cicera. The peas are very alike in appearance. Those of Lath, cicera are rather smaller than Lath, sativus, more square, and are a lighter brown. Except for this brownish color they could easily be mistaken for ordinary peas. Lath, cicera has red flowers. Lath, sativus, bluish. Both are cultivated for food and are sometimes cut green for fodder.

In the British Journal of Homeopathy there is an account of a wheat famine in India, where the peas of the plant were substituted for wheat and used as a food. Those who subsisted on it were taken, even during sleep, with sudden paralysis of the lower limbs. This occurred without warning in young men more than in young

women, and was never recovered from.

Another observer recorded fifty cases of people who had eaten the lathyrus bread and all stated that they became paralytic during the wet season of the country. They went to bed quite well and woke with stiff legs, unsteady gait and aching, but no severe pain. The upper limbs were free.

Another saw the disease in Algeria and described the symptoms in ten cases. Symptoms came on suddenly in damp weather with some pains in the loins, trembling, motor paralysis and exaggerated reflexes. He attributed these phenomena to an acute transverse myelitis with degenerative changes in the cord.

Polio (Gels.). Post-polio neuralgia syndrome (Rhus-t, Gels.). Guillain-Barre syndrome, ascending paralysis. Multiple sclerosis. Amyotrophic lateral sclerosis. Characteristic increased reflexes. Weak and lame joints. Severe muscle cramps in the calves. Pain induced by touch. Emaciation of the paralyzed muscles (Plb., Caust.).

Burning pain on the tip of the tongue. Weak bladder with sudden urgencies to urinate.

Never well since an influenza or a virus. Symptoms may be brought on or be made worse by cold or damp wind. Burning heat, better uncovering.

O'Connor found that marked benefit followed its use in old cases of myelitis with marked spastic symptoms. Bartlett recommended Lath, for excessive kneejerk and rigidity.

Hart spoke of it as a remedy for locomotor ataxia, but the absence of sensory symptoms and the presence of exaggerated reflexes would seem to contraindicate it in this disease. He also spoke of Lath, in spinal anemia, giving as symptoms "numbness, followed by pain in the lower limbs, sensation of a band around the body, unable to step or distinguish one limb from another."

In a case related by Bojanus, the general symptoms were the same. Lath, was the cause of the trouble, arising during the great Russian famine. Horses fed with Lath, along with oats manifested symptoms of paralysis of the limbs and also of the throat and wind-pipe, setting up the condition called "roaring." Some died of suffocation.

Clarke relieved several cases of spastic paralysis, including Miss R., 25, who had been ill four years with the usual symptoms of spastic paralysis. Excessive constipation and violent urging to pass water, if she attempted to retain it, it passed of itself. The muscles were hard and unyielding.

She was heavily drugged under allopathic treatment before coming under his care. Hyper, was first given with considerable benefit. As the improvement went no further, Lath. 1c and 30c were given and then the improvement was much more marked.

W. A. Dewey recorded a cure with Lath. 3x in a case of spastic paralysis in a man of twenty-eight. The attack had been coming on six months. The patient was a hunchback, having been deformed since the age of five, but this had given no more than the usual inconvenience.

Lathyrus sativus

On admission to the hospital (December 1, 1898), he was unable to make the slightest movement of the lower limbs, even of the toes.

The adductors were in a constant state of irritable contraction, so that the thighs were constantly crossed. Reflexes greatly exaggerated. No pain. Spine not tender. General health was normal. The only other symptom was a girdle sensation, as if he had a cold, damp cloth around his waist.

Three weeks after commencing Lath., there was slight lessening of rigidity. On April 5, 1899, he could raise his limbs and move his toes. On July 2nd he walked out of the hospital without difficulty, the abnormal irritability of the muscles having disappeared.

RELATIONS - Compare: (1) Oxyt., Sec. (2) Peti., a South American plant. - paralysis, paraplegia with numbness. Sensation of internal coldness. (3) Agrostema githago - burning sensation in stomach, through esophagus into throat in lower abdomen and anus, nausea, bitters vomiting. impaired locomotion, difficulty in remaining erect, vertigo and headache, burning from lower jaw to vertex.

*****LATRODECTUS HASELLTI**

(Black Spider)

PHARMACY - lat-h. Latrodectus hasselti. Black spider. N. O. Arachnida. New South Wales. **Historical dose:** All potencies.

CLINICAL - Blood poisoning. Delusions. Edema. Emaciation. Memory, loss. Paralysis. Septicemia. Tinnitus. Vertigo.

HOMEOPATHIC - Long lasting effects seem to indicate Lat-h. for **chronic blood poisoning**. Arrests intense pain in pyemia. Great edema near wound. Paralysis of limbs with great wasting of muscles. Violent, darting, burning pains preceding paralysis.

Septicemia conditions, blood poisoning. Tinnitus. Roaring noises. Loss of memory. Vertigo, tendency to fall **forward. Delusion offlying.**

REFERENCES - Clarke.

*****LATRODECTUS KATIPO**

(Red-back Spider.)

PHARMACY - lat-k. Latrodectus katipo. Red- back spider. N. O. Arachnida. New Zealand spider. Tincture of living spider. **Historical dose:** All potencies.

CLINICAL - Chorea. Delirium. Depression. Edema. Faintness. Heart, slow. Lymphangitis. Nettle-rash. Twitchings.

HOMEOPATHIC - Lat-k. is a venomous spider found in New Zealand and some parts of California. The symptoms recorded are the effects of bites. The seat of a bite becomes immediately painful and swelling occurs. In some cases, the swelling does not come on until some days after the bite.

In one case, five days after the bite, a scarlet papulous rash appeared on both limbs, burning like fire. The symptoms were somewhat slow in evolution. In a fatal case, that of a girl bitten on the abdomen, death did not occur until six weeks after the bite.

Lassitude, faintness, twitchings and trismus. Scarlet and burning eruptions. Lymphangitis with nervous twitchings. Long suffering, wasting. Loss of energy. Faint and pale.

MIND - Delirium, half smothered by imperfect intoxication. Semi-intoxicated state. Nervous depression.

Abdomen - Very severe drawing or cramping sensation in abdomen.

Face - Anxious expression. Extreme pallor changing to blue tint of face and body. Jaws stiff, could not open mouth to eat and could scarcely articulate.

Food - Loss of desire for food.

Heart - Almost pulseless. Pulse slow, scarcely more than twelve or fourteen beats to the minute.

Limbs - Severe shaking, burning pains ran from the bite on the foot up the limbs to back, with nervous twitching all over body. Pain felt almost equally in both limbs and seemed to center about heel. Feet felt as if rudely lacerated by dull instrument, walking him from sleep.

Lungs - Breathing almost ceased.

Skin - Small, red spot like flea-bite. Bitten surface raised, the raised part white with red halo with swelling and pain. Swelling size and shape of hen's egg. The bite remained a small purple point for nine days, on the tenth began to swell and turn white like a bee sting, pain and swelling rapidly increased, dorsum of foot and ankle like a puff-ball, red streak running up leg. A bright scarlet, papular eruption on both lower limbs, which stung and burned like fire.

Temperature - Limbs cold and flaccid. Cold, clammy sweat covered left lower extremity in morning.

RELATIONS - Compare: (1) Lat-m., Tarent., Mygal, Aran. (2) Apis, Vesp. and serpent poisons.

REFERENCES Clarke.

*****LATRODECTUS MACTANS**

(Black Widow Spider)

PHARMACY - lat-m. Latrodectus mactans. Black widow spider. N. O. Arachnida. Southern North America, South America. Tincture of living spider. **Historical dose:** All potencies.

CLINICAL - **Angina pectoris.** Chest, pains. Colic. Cramping, pain. **Heart, attacks. Heart, disorders.** Hematuria. Hemorrhages. Idiopathic thrombocytopenia. Infectious, purpura. Proteinuria.

HOMEOPATHIC - S.A. Jones and A. J. Tafel introduced Lat-m. into the Materia Medica. The bite produces tetanic effects that last several days. From the time a man was bitten he took 3 1/2 quart bottles of the best rectified whisky without any sign of intoxication.

Affects the heart, producing **angina pectoris. Heart attacks.** The precordial region seems to be the center of attack. **Restless with heart pains** and prostration. Constriction of chest muscles with radiation to shoulders and back. Fear of suffocating or dying.

Blood becomes thin, watery. Lowered coagulability. Inflammation of the coronary arteries. Pain in the solar plexus. Infectious purpura. Chronic hemorrhaging endothelial plasmatic condition. Chronic idiopathic thrombocytopenia.

Itching and redness of the part bitten, at first without pain, but violent pain soon commenced there (back of left hand), and extended in a short time up forearm and arm to shoulder and then to precordial region. Painful sensations extended up arm to shoulder, along neck to back of head, later, pain in precordia and apnea, screaming fearfully. Nervous tremors.

MIND - Speech hesitant with tears. Apparently moribund. Depression. Mental fatigue. Amnesia. Memory gives

no answer to logical deduction. Reading impossible. Staring up at ceiling, vague, in a stupor. Emotional disturbances. Very nervous.

Acute and enormous anxiety, with sensation of imminent death. **Anxiety about the heart.** Intense anguish with the sensation of severe thoracic constriction. Screams fearfully with pain, exclaiming that she would lose her breath and die. **Thinks he will suffocate.** Fear of dying. Lamenting helplessly. Wailing.

Agitation. Mental irritability and restlessness. Sensitive to noise. Writhing and rolling in pain. Extreme state of nervous irritation with fear of going mad. Psychosis, becomes mad and psychotic, with hallucinations.

Abdomen - Severe abdominal pain with nausea and a sinking sensation at epigastrium. Colic and hardness of the abdominal wall. Chronic cramp of the abdominal muscles without painful tenderness on palpation.

Back - Dorsal and lumbar cramps, going from the nape to the loins.

Chest-Angina pectoris. Violent, precordial pain extending to the axilla and down the arm and forearm to fingers, with numbness of the extremity. Sinking sensation. Cramping pain from chest to abdomen.

Ears - Pain in the right middle ear.

Eyes - Constant pulsating pain in the eyes.

Face - Expression of deep anxiety.

Food - Extreme thirst, vomits what he drinks.

Head - Pain in neck to back of head. Occipital pain. Headache, aggravated between 2 p.m. and 3 p.m.

Heart - Precordial anxiety. **Angina pectoris.** Pain in pr cordia with a loss of breath, screaming fearfully, exclaiming that she would lose her breath and die. **Violent heart pains, sharp, extending to shoulders or both arms to fingers with numbness. Restless with cardiac pain** and prostration. Pulse feeble and rapid.

Limbs - Left arm partially paralyzed, or feels paralyzed, with pain. Hard, aching pain in axilla. Stinging in right wrist with itching and redness of bitten spot. Paresthesia of lower limbs. Weakness of legs followed by cramps in the abdominal muscles.

Kidneys - Burning pains on urinating in the urethra. Urine red, albuminous with casts. Proteinuria, hematuria, glycosuria, diminution in the level of nitrogen eliminated through the urine.

Lungs - Bronchial rales. Cough with hawking, yellow, thick, acrid sputum. Pulmonary edema. **Gasping for breath.** Extreme apnea. Respiration only occasional, gasping. Respiration very slow, thinks he will suffocate. Fear of losing breath and dying.

Male - Frequent erections. Testicular pains, aggravated by movement. Very acute pains in the right testicle. Perspiration in the genital regions. Itching of prepuce with a little redness of the part.

Modalities - Better by sitting quietly. Worse from the slightest movement, even of the hands, exertion.

Mouth - Labial fissure. Copious salivation. Trembling of the tongue. White coloring of the tongue. Hypertrophy of the lingual papillae.

Nose - Nose blocked, thick, yellow discharge.

Pulse - Pulse, feeble and rapid. Pulse so frequent it could not be counted and so feeble it could scarcely be felt. Left pulse extinct, right pulse doubtful.

Rectum - Constriction of the anus with tarry stools. Copious evacuations similar to the black vomit.

Skin - Skin cold like ice, marble-white. Blue coloring. Heavy, cold perspiration. Skin very painful at the slightest touch. Burning of the soles of the feet. Eruption, which itches. Formication and extreme sensitivity. Loss of hair.

Sleep - Insomnia. Sleep disturbed, anxious. Dreams of flying.

Stomach - Eructation and loss of appetite. Nausea, then abdominal pains. Vomiting of black blood, which soothes the condition. Transfixation of pain or sinking at epigastrium. Feeling of weakness in epigastric region.

Throat - Throat red, dry. Tonsillitis with glairy deposit on tonsils. Pain on swallowing.

Vertigo - Vertigo and constrictive headache.

COMMENTS - Heart attack (Cact.), with sharp, shooting pains. Chest pain. Gasping for breath, difficulty breathing with a fear of dying.

Semple recorded a case of a man bitten on the prepuce. At first there was itching, in less than half an hour nausea, followed by severe abdominal pains. Soon after, violent precordial pains, extending to axilla and down left arm and forearm to fingers with numbness of the limbs and apnea. Dry cupping was resorted to and the blood that flowed was thin, florid and un-coagulable.

When Semple arrived, he found violent precordial pains, the left arm almost paralyzed, pulse 130, very feeble, Skin cold as marble, countenance expressive of deep anxiety. At eight the next morning, in spite of stimulants, the symptoms were worse and continued to increase until 2:30 p.m.

The pulse was uncountable and scarcely felt. Vomited black vomit, a quart or more. Soon after, reaction set in and the man gradually recovered. He had two copious stools like the black matter vomited earlier, and after that felt quite well.

Jones noted that the precordial region is the chief locus of attack. He considered the order of the occurrence of these symptoms of great importance.

Linnell recorded a case of angina pectoris, pain in precordial region and left arm, brought on by the slightest exertion, that was cured with Lat-m. 3c.

RELATIONS - Compare: (1) Lat-k. and other Arachnida. (2) Helo. - coldness. (3) Lach., Spig., Cimic., Cact., Kalm., Lycps. in angina pectoris. (4) Hir. - non-coagulating hemorrhages. (5) the Aran., Mygal., Ther., Lat-h., Lat-k. spider venoms. (6) Triât., Kissing bug - swelling with violent itching of fingers and toes. A smothering sensation and difficult breathing succeeded by fainting and rapid pulse. (7) Helo. - Intense chill, going from the inside to the outside. Vertigo with tendency to fall backwards. Numbness of the limbs. (8) Kalm. - Palpitations, aggravated when lying on the left side, pulse slow. Lightning pains, suddenly changing place. (9) Cact. - Feeling of constriction of the heart, as if a vice, spreading to the left arm, which feels numb. Hemorrhaging of black blood. (10) Spig. - Violent contractions of the heart with oppression, anxiety. Feels soothed when lying on the right side with head raised.

***LAUROCERASUS OFFICINALIS

(Cherry Laurel)

PHARMACY - laur. Laurocerasus officinalis. Cherry laurel. Common laurel. Aqua lauroc- erasi. Cerasus laurocerasus. Prunus laurocerasus. N. O. Rosacea. Tincture of young leaves. Dilutions of Aqua Laurocerasi.

Historical dose: Tincture and all potencies.

CLINICAL -Asphyxia, neonatorum. Asthma. Breathing, difficult. Cholera. Cholera infantum. Chorea. Convulsions. Coughs. Cramps. **Cyanosis. Debility.** Diarrhea. Dysmenorrhea. Epilepsy. Heart, disorders. Hemorrhages. Liver disorders. Lock-jaw. Memory, lost. Menopause. Metrorrhagia. Palpitations. Pneumonia, typhoid. Strokes. Tetanus. Tumors. Twitchings. Whooping cough.

HOMEOPATHIC - Laurocerasus, the so-called "Laurel" of our gardens, is not a member of the Lauraceae, though the Bay Laurel, Laurus nobilis, is. The Aqua Laurocerasi, prepared by distilling the fresh leaves, contains hydrocyanic acid and is supposed to owe all its medicinal virtue to this fact.

Symptoms accompanied by **sudden debility** and **lack of reaction**, especially in chest and heart disorders.

Asphyxia neonatorum. Cyanosis, of heart disorders. Suffocating spells about heart compel him to lie down. General coldness not ameliorated by warmth. Coldness and blueness with epileptiform convulsions.

Hemorrhages of thin, bright blood mixed with gelatinous clots. Dry, tickling cough. Cough with jelly-like expectoration dotted with bloody points. Spasmodic tickling cough in cardiac patients.

Internal burning. Nervous collapse. Long lasting faints. Sensation of falling down in brain, in abdomen, in heart etc. Bluntness of special senses.

Strokes. Spasm of facial muscles and esophagus. Epilepsy, clonic spasms of all limbs with paralytic weakness. Chorea, emotional with constant jerks, cannot keep still. Twitchings. Gasping, before during and after spasms. The speech indistinct after every excitement, gasping for breath. **Drink rolls audibly through esophagus and intestines.** Weak sphincters. Violent pain in stomach with loss of speech.

MIND - Insensibility and complete loss of sensation. Loss of consciousness, with loss of speech and motion.

Sudden loss of memory from fright, pain etc. Forgetful on motion. Dullness of special senses.

Angry when not understood. Want of moral feeling. Feels unloved. Cries easily when criticized. Sadness with impeded respiration.

Fear and anxiety about imaginary evils. Fear of insanity. Delusions, sees old men with long beards and distorted faces. Thinks she is accused, that she is criticized. Sees distorted faces on lying down during day. Visions of fire.

Abdomen - Falling down sensation of a lump in abdomen from above the navel to small of back, worse talking or overexertion. Gurgling flatulence.

Back - Painful stiffness in left side of neck and nape. Compressed feeling in shoulders and nape.

Causations - Effects of fright.

Chest - Constriction of chest. Burning in chest on taking inspiration. Dyspnea with sensation that he is unable to raise the chest walls, better lying down.

Ears - Hardness of hearing. Tingling, itching in ears.

Eyes - Dry eyes. Eyes widely open or halfclosed, convulsed, prominent and fixed. Burning pain in eyes. Pupils dilated and immovable. Eyes distorted. Objects look larger. Darkness before the eyes, with obscuration of sight.

Face - Blue with gasping. Lock-jaw. Twitching of the muscles of face. As if flies and spiders are crawling over the skin.

Female - Pain in uterus with cancer, with oozing of bright blood with gelatinous clots, better sleep. Faints with coldness during menses. Burning and stinking in and below breasts.

Head - Head pain worse 11 a.m. to 1 p.m. Nightly tearing in vertex. As if a cold wind were blowing on head. As if brain were falling. Brain feels contracted and painful.

Heart - Clutching at heart, folds hands over the heart, as if there were some trouble there worse by any exercise. Pains in the region of heart. Pulse, weak, variable, slow or irregular. Mitral regurgitation. Palpitations.

Kidneys - Urine, retained, suppressed, involuntary, with palpitations, suffocation and fainting.

Limbs - Skin blue. Veins of hands distended. Clubbing of fingers. Toes and fingernails become knotty. Cold clammy feet up to the knees in chorea, heart disease. Feet numb on crossing the legs. Sprained pains in hips, thighs and heels.

Liver - Pain in the liver as though abscess were forming. Liver indurated, atrophied.

Lungs - Shallow breathing. **Gasping for breath**, clutches at heart. Suffocation, gasps for breath, on sitting up. Exercise **causes pain around heart**. **Small** and feeble pulse. Threatening paralysis of lungs. Asphyxia neonatorum. **Cyanosis neonatorum**. Cough with valvular disease. Tickling, **dry cough**, with a copious, jelly-like, bloody expectoration.

Modalities - Better sitting up. Better lying with head low. Better sleep. Better eating. Better open air. Worse sitting up. Worse stooping. Worse exertion. Worse cold. Worse fright. Worse in the evening and night.

Mouth - Tongue, stiff, cold, burnt or numb. Speechlessness from pain in stomach. Foam at the mouth, with convulsions.

Rectum - Paralysis of anal sphincter, involuntary stools. Rectal cancer, with bleeding of bright red blood.

Sensations - Coolness of forehead as from draft of air. Weight on top of head. As if brain loose and falling into forehead when stooping. As if a veil before eyes. As if lungs could not be sufficiently expanded. As if lungs pressed against spine. As if mucus membranes were dry. Stitches are very prominent, also stiffness and pressure, especially pressure outward.

Skin - Cool, livid.

Sleep - Frequent yawning. Coma vigil. Sleeplessness from over-excitement and sudden heat. Fearful anxiety and restless, cannot fall to sleep. Spells of deep sleep with snoring and stertorous breathing. Troublesome and agitated dreams.

Stomach - Disgust for food during pregnancy. **Drinks roll audibly** through esophagus and intestines. Violent pain in stomach with loss of speech. Stomach pains during urination. Persistent hiccough. Bitter belchings. Nausea near a hot stove. Vomiting of food during cough.

Temperature - Coldness, chills and heat alternate. Shuddering, followed by burning heat. Heat running down the back. Thirst with dry mouth in afternoon.

Throat - Spasmodic contraction of throat and esophagus. Larynx and trachea raw. Low voice.

Vertigo - Vertigo with sleepiness.

COMMENTS - Laur. has a peculiar "gasping," gasping without really breathing. Blueness **and twitching** of the muscles of the face. Cyanosis, particularly in newborns (Aeon., Carb-v.). Valvular problems, regurgitation, weak hearts.

Suffocative spells about the heart, worse by sitting up, the patient is compelled to lie down (Psor.). Some heart symptoms compel the patient to sit up. Blue around fingertips. Clubbing of fingers, common in cyanosis and tuberculosis.

Guernsey gave these leading symptoms, "gasping for breath, the patient puts his hand to the heart as if there was some trouble there, this may result from running a short distance, which puts him completely out of breath, going upstairs, walking or any exercise may bring the gasping on."

Cough with valvular heart disease, incessant cough, especially on lying down, fluttering in heart and gasping with cough. Spasmodic cough of later stages of whooping cough, when patient is much prostrated and has nervous spasmodic symptoms. Dry, harassing cough of tuberculosis. Alternation of chill, fever and sweat in tuberculosis.

Long-lasting faints (Camph. has sudden fainting), seems to have no reactive power, face pale, blue, cold surface. Prostrate before getting up in the morning with difficulty opening the eyes. Nervous disorders with constant jerks, cannot keep still. Allen noted an extremely nervous, excitable condition accompanying ailments. Attacks of indigestion and pains across lower abdomen that come suddenly in the morning and generally disappear on getting up. Gnawing pain in lower abdomen, with occasional looseness of stool, particularly in old men. Green mucus diarrhea, with suffocative spells about heart.

Fluids roll audibly into the stomach. Digestion is weak, bowels confined. Low-spirited with flatulence and burning in chest after food. Audible and gurgling flatus, rolls about the upper abdomen. Constricted sensations in gullet, in rectum. Symptoms worse before eating.

Inclined to lose flesh and hemorrhages that are small in quantity and bright in color. Menorrhagia and dysmenorrhea. Eruptions are livid after pressure with the finger, the skin is long in regaining its color.

Constant tired and sick feeling. Sleepless with a great desire for sleep.

Coldness, internal coldness and external heat. Cold tongue. Heat of single parts. Warmth on center of forehead, then a coldness as from a draft of air lasting a long time. The left chest is most affected.

Pains start from the lower part of the spine and extend either around the pelvis or up to the head. Pains are accompanied with a sense of suffocation, a sick feeling with drowsiness, and a great desire to sleep that generally brings relief.

Cooper, in his work in Cancer and Cancer Symptoms, offered cases emphasizing the uterine symptoms. The indications of Laur., according to Cooper, are a sense of fatigue that pervades the whole system with a very painful condition of the hard and indurated tissue of the parts affected. Pain is much better by sleep.

Tendency to ooze blood, which is generally bright and mixed with gelatinous clots. This applies to the chest as well as to uterine and rectal symptoms, only the blood comes painlessly into the mouth, but with great pain in the vagina.

E. Wigg related the case of May S., 7, who had been troubled for some time with an almost incessant cough, for which many remedies were given without benefit. At last Wigg came to the conclusion that Laur. was the remedy and put ten drops of Laur. 200c into five tablespoonfuls of water ordering a teaspoonful of this to be taken every two hours when the child was awake.

This was at 4 p.m. After the third dose she fell asleep. At 3 a.m. she awoke in a very excited condition. Her mother asked her if she had not been dreaming, but her tongue was so stiff she could not answer. Suddenly she began to tremble all over as if in a chill.

After ten minutes she began to twitch and jerk. Wigg was sent for and found her in this convulsed state. She could not articulate for the thickness and heaviness of the tongue. The mind was clear. Recognizing the action of Laur., Wigg antidoted it with camphor, and later a cup of coffee, and symptoms ceased in a few hours. She had no more of the cough.

RELATIONS -Antidotes: the effects of digitalis given in crude doses. **Antidoted by:** Camph., Coff,lp., **Op.Compare:** (1) Hydr-ac., Camph., Sec., Am-c., Ambr. (2) Amyg., Prun., Prun-v., and other Rosacea. (3) In hunger after meals with feeling of emptiness, Calc., Chin., Cas-s., Chion., Grat. (4) after meals and after stool, Petr. (5) in semi-lateral swelling of tongue, Calc., Sil., Thuja. Laur. has loss of speech with it. **Compatible:** Bell. Phos., Puls., Verat.

***LAURUS NOBILIS

(Bay Leaf)

PHARMACY - laur-n. Laurus nobilis. Bay leaf. Bay laurel. Sweet bay. Grecian laurel. Laurel tree. Bay tree. N. O. Lauraceae. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Arthritis. Bacterial, infections. Blood, sugar. Bronchitis. Bruises. Cancer. Colic. Flatulence. Fungal, infections. Headaches. Indigestion. Influenza. Migraine. Rheumatism. Sprains. Stomach, ulcers.

HERBAL - The bay tree is indigenous to Asia Minor, from where it spread to the Mediterranean and then to other countries with similar climates. Bay leaves and berries have been used for their astringent, carminative, diaphoretic, digestive, diuretic, emetic and stomachic properties.

It has a long history of folk use in the treatment of many ailments, particularly as an aid to digestion and in the treatment of . bronchitis and influenza. It has been used to treat various types of cancer.

Bay leaf has been used as an herbal remedy for headaches. It contains compounds called parthenolides, which have proven useful in the treatment of migraines. It has also been shown to help the body process insulin more efficiently, leading to lower blood sugar levels. Reduces the effects of stomach ulcers.

Bay leaves also contain eugenol, which has anti-inflammatory and anti-oxidant properties. They are also anti-fungal and anti-bacterial. The leaves have been used to treat rheumatism, arthritic aches and pains.

Upper respiratory tract disorders. Hysteria. Amenorrhea. Flatulent colic.

Bay oil, Oleum Lauri, has been used in liniments for bruising and sprains. The essential oil has narcotic, antibacterial and fungicidal properties. An infusion has been used to improve the appetite and as an emmenagogue.

The fruit is antiseptic, aromatic, digestive, narcotic and a stimulant. It has been used in making carminative medicines and was used in the past to promote digestion. It has a tonic effect, stimulating the appetite and the secretion of digestive juices.

COMMENTS - Bay Laurel is the source of the bay leaves which are used for their flavor in cooking. It was also

the source of the laurel victory wreath of ancient Greece, and therefore the origin of the expression of “resting on one's laurels.”

According to legend, the Delphi oracle chewed bay leaves, or sniffed the smoke of burning leaves to promote visionary trances. In the Middle Ages it was believed to have many magical qualities.

It has also been used to keep moths away; the leaves' lauric acid content gives it insecticidal properties.

***LAVANDULA VERA

(Lavender)

PHARMACY - lav-v. Lavandula vera. Lavender. Lavandula angustifolia. N. O. Lamiaceae. Tincture of the flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Backache. Belching. Bums. Constipation. Flatulence. **Headaches.** Indigestion. **Insomnia.** Lice. **Memory, weak.** Nausea. Palpitations. Toothache. Wounds.

HERBAL - Although lavender is a native of southern European hillsides, where it thrives in the sparse soil and burning sunshine, it has been grown in Britain for decades. The Romans would certainly have introduced a herb they esteemed so highly, and possibly it had been introduced before their days.

Historically, lavender has been used not only for its fragrance but also as a disinfectant, vulnerance (useful for healing wounds), sedative, stimulant, tonic and caiminative (a medicine that expels flatulence). The herbal history of lavender can be traced back to ancient Greece.

Dioscorides (an army doctor) mentioned French lavender, which seems to have been used only medicinally by the Greeks. He attributed to it certain laxative and invigorating qualities and recommended its use in a tea-like infusion for chest complaints.

The Romans used lavender to perfume their public baths (its name derives from the Latin “lavare,” meaning to wash). Roman soldiers carried their own first aid kits of herbs, and whenever the armies settled herbs would be grown, including lavender.

The Romans were aware of lavender's healing, soothing and insect repellent properties, and used its oil in massage. They also burnt lavender in honor of their gods. Galen (129-199 AD) added lavender to the time honored antidotes, theriac and mithridate, and Nero's physician used it for anti-poison pills and in uterine disorders.

Abbes Hildegarde (1098-1180) from a monastery in the diocese of Malinz in Saxony, made some of the earliest mediaeval references to lavender in her writings. She realized its practical effect in getting rid of lice and prescribed it for cleaning eyes. She also thought it could drive away evil spirits.

The first original work on gardening written in English, a treatise by Jon Gardener (1440), mentions “lavyndull” growing in English gardens. From this date on, lavender is mentioned often in manuscripts and books, and it is clear that it became a popular herb valued for its medicinal virtues and scent.

HOMEOPATHIC - **Insomnia.** Memory, weak.

MIND - **Lack of focus.** Disorientated. Distracted, restless. Overwhelmed by responsibilities. Anxious, better alone. Worried feeling during the day. Active thoughts, prevents sleep.

Poor short term memory. Forgetful. Difficulty recalling events and conversations that occurred only days or even hours before. Difficult concentrating. Particularly tired when trying to communicate. Muddled up words or even forgot them altogether. Could not string a sentence together.

Disinclined to talk. Crossness and irritability. Jumpy, nerves on edge. Intolerant of others. Short tempered. Irritated by noise. Woke up feeling slightly headache and cross without reason. Does not feel comfortable but cannot say why.

Miserable and depressed. Negative outlook, fatalistic. Weeping. Felt insignificant and unlovable. Sensation that every thing feels far away. Indifferent to loved ones. Bored with life.

Abdomen - Constant burning indigestion, mid-abdomen. Bloating in abdomen.

Arms - Right arm painful. Burning sensation under right arm. Left elbow, bone pain as if sitting in damp. Elbow to hand felt numb, slight pins and needles. Right wrist, weak, difficulty in writing. Left hand, itchy at base of fingers, especially center finger.

Back - Backache. Lower back pain, in lumbar region. Lower back pain almost unbearable, better stretching. Dull aching pain over left kidney, right side of lumbar region. Pain better lying, worse sitting, bending down drawing up the knees. Dull nagging lumbar pain, worse lying, better sitting. Sharp, pulling ache. Unbearable pressing pain in lumbar region, feels as if internal organs are squeezed by hands, better bending down, drawing knees up, rest, worse movement, moving causes clinching pain, tighter and tighter.

Bladder - Slow urination.

Breasts - Sensitive breasts. Sharp tingling pain in right breast. Severely painful breasts.

Heart - Palpitations on climbing stairs.

Chest - Burning sensation in chest. Constant stinging pain in right breast. Tightness in chest muscles.

Ears - Severe stabbing pain in left ear. Loud sound like musical instrument in left ear.

Eyes - Heavy eyes through exhaustion, difficulty keeping the eyes open, the eyelids very heavy. Tiredness between and behind eyes. Painful left eye, wakes at night.

Generals - Immune system feels weak.

Female - Feels physically lighter before period. Menstrual flow heavy, stops abruptly.

Food - Appetite and thirst diminished. Appetite increased, no desire to eat. Increased thirst, evening. Wakes up with thirst. Thirsty with dry mouth. Desires for tea, orange juice. Desires green salad, fruit. Desires savory food. Averse to bread.

Head - Headaches. Congested feeling. Head feels clogged up, thick. Brain feels loose, floating, soft, spongy. Sensation of blood pulsating around brain. Dull headache on right side with stiff neck. Slight headache in forehead, above eyes. Throbbing frontal headache with pressure above eyes, better drinking water. Throbbing temples. Itching on right temple, red with white flakes.

Limbs - Uncoordinated movement. Constant dragging, painful ache in joints. Severe nagging aching in legs, thighs. Tingling, cramping limp in left leg. Pulling pain in right thigh. Aching pain in left calf muscle. Feet cold. Pain along side of big toenail on left foot.

Lungs - Breathing labored, better drinking

Mouth - Dry mouth with a slightly sensitive tongue, thirsty. Less saliva than usual. Increased saliva. Sticky saliva not better by washing mouth, eating or drinking. Thick saliva, better drinking. Dull aching in bottom right side of jaw. Toothache in carious teeth. Sharp pain upper incisor, better hot soup, worse cold butter.

Neck - Aching, painful neck.

Nose - Sense of smell increased. Slight running nose.

Rectum - Painless, sudden diarrhea. Constipation. Offensive stools. Sore rectum. Flatulent at night.

Shoulders - Stiff, aching pain in left shoulder. Painful right shoulder.

Skin - Dry skin, itching, worse scratching, after hot water, better in water, particularly

Lavandula vera on hands. **Burns.**

Sleep - Insomnia. Could not get to sleep even though tired. Restless, tossed around all over the place, constantly changing position. Disturbed sleep. Once asleep awakes early and find it difficult to get back to sleep. Heavy and unrefreshing sleep. Moaning in sleep.

Stomach - Stomach pains with hunger, even after eating. Stomach upset, burning indigestion. Indigestion, better milk, small meals. Slight dull ache, covering size of frying pan. Cramping pains with bloating and belching, better sitting up, worse lying down. Nausea. Upset stomach followed by constipation.

Throat - Sore, dry throats that persist, better drinking water, hot drinks. Sore throat only at night. Spasms, better drinking.

Tongue - Taste diminished. Unpleasant taste in mouth. Burning sensation on the tongue, sensitive, sore. Tip of tongue feels burnt, sore. Yellow coating on tongue.

Vertigo - Dizzy with flushed feeling, felt heat on top of head. Dizzy when turning suddenly, on driving car.

Vision - Diminished vision. Double vision, as if looking through frosted glass.

RELATIONS - Compare: Kali-p., Gink-b.

REFERENCES - Murphy.

***LECITHINUM

(Lecithin)

PHARMACY - lec. Lecithinum. Lecithin.

Prepared from the egg yolk or soybeans. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Convalescence. **Fatigue.** Impotency. Insomnia. **Malnutrition. Neurasthenia.** Ovarian, insufficiency. Tuberculosis. **Weakness.**

HOMEOPATHIC - Lecithin is important in the vital processes of plant and animal organisms. It is prepared from the yolk of egg, a phosphorus containing complex organic body. Causes an immediate decrease in the excretion of phosphates.

Favorable influence upon the nutritive conditions and especially upon the blood. Marked improvement in nutrition and general improvement in tuberculosis.

Galactagogue, it renders breast milk more nourishing.

General weakness. Anemia. **Neurasthenia.** Useful for convalescence. Tired, weak, short breath, loss of flesh. Insomnia. Ovarian insufficiency. Sexually weak. Impotency.

MIND - Mental exhaustion and impotency. **Prostration of mind.** Forgetful, dull, confused, worse mental exertion. Concentration difficult. **Confusion of mind, as if in a dream.** Insomnia. Excitement in company. Fear of impending disease.

Ears - Pulsating and ringing in ears.

Face - Pain in zygoma, face pale.

Head - Aching, especially in occiput-pulsating and ringing in ears. Pain in zygoma, face pale.

Kidneys - Scanty with phosphates, sugar or albumen.

Limbs - Soreness, aching, lack of energy. Tired and weak.

Sexual - Anaphrodisia and ovarian insufficiency. Male power lost or enfeebled. Impotency.

Stomach - Loss of appetite. Thirsty, craves wine and coffee. Bloated feeling. Sore pain in stomach rising toward throat.

RELATIONS - Compare: Agn., Phos.

REFERENCES - Boericke. Phatak.

***LEDUM PALUSTRE

(Wild Rosemary)

PHARMACY - led. Ledum palustre. Wild rosemary. Marsh tea. Marsh cistus. Labrador tea. N. O. Ericaceae. Tincture of dried small twigs and leaves collected after flowering begins. Tincture of whole fresh plant.

Historical dose: Tincture and all potencies.

CLINICAL - Alcoholism. **Anal, fissure.** Ascites. Asthma. Bedsores. **Bites. Black-eye.** Boils. **Bruises. Carbuncles.** Colic. Deafness. Ear, inflammation. Eczema. Erythema nodosum. Face, pimples. Feet, pains. **Gout.** Hemoptysis. Hands, pains. Joint, disorders. Lice. Meniere's disease. Priapism. Prickly, heat. **Punctured, wounds.** Rheumatism. **Rhus, poisoning.** Skin, eruptions. **Stings. Tetanus.** Tinnitus. Tuberculosis. **Vaccinations.** Varicella. Whitlow. **Wounds.**

HERBAL - Teste, who was one of the chief clinical authorities on Ledum, mentioned that it is native to damp regions of the North of Europe, and that no animal except the goat eats it on account of the strong, resinous smell of its leaves, which "keeps off lice and prevents flour from getting moldy."

Merat said Ledum cures the itch and scald-head, which Teste explained by its parasiticide action. This anti-parasitic action led Teste to think of Led. as a remedy for bites and punctured wounds, especially as certain symptoms of the proving seemed to agree with it.

The success which has attended this use of Led. in mosquito bites, stings of bees and wasps, rat bites, and needle pricks resulting in whitlows, confirmed the observation. Wesselheft noted that Led. aborted a felon in a few days, "Redness, swelling and throbbing in point of index finger from prick of a needle."

HOMEOPATHIC - Led. affects the fibrous tissue of joints, especially ankles, tendons, heels and skin, hence it can be called a rheumatic remedy, where rheumatism begins in the feet and travels upwards. Affected parts become purple puffy and then emaciate.

Punctured wounds, produced by sharp-pointed instruments or bites, particularly if the **wounded parts are cold.** Insect stings, animal **bites. Helps prevent tetanus** (Hyper, if tetanus develops). **Tetanus with twitching of muscles near wound.**

Rheumatic diathesis, functional pain, altered secretions, deposits of solid, earthy matter in the tissues. Rheumatism begins in feet and travels upward. Painful, cold, edematous joints. Shifting, tearing pains. Weakness and numbness of the affected parts. Dropsy.

Rushes of blood. Abscess and septic conditions, better by cold. Petechia. **Cold all the time,** in bed in the house. **General lack of body heat,** heat of bed is intolerable. Pale, delicate persons. Alcoholism. Eruption, like poison-oak and is antidotal to it.

MIND - Absent-minded. Mental dullness. Sluggishness. Difficult thinking and comprehending. **Confusion of mind, as if intoxicated,** after eating. Anxiety. Timidity. Ennui, boredom.

Discontented in daytime. Morose and peevish humor. Vehement angry mood. Tendency to anger and rage. Violent. Misanthropy. Dissatisfied, hates his fellow beings. **Hatred of men. Aversion to friends,** company. Avoids the sight of people. Desire for solitude.

Frightened easily. Fear in a crowd. Fear he will die if he goes to sleep after nightmare. Delirium on closing eyes. Ideas abundant on closing eyes. Dementia. Moaning, groaning. Suicidal disposition. Unconsciousness, coma.

Abdomen - Pain in abdomen as if intestines were bruised. Sensation of fullness in upper part of the abdomen. Ascites. Drawing pain. Colic as if diarrhea would set in from umbilicus to anus. Dysenteric bellyache. Frequent discharge of flatus.

Back - Lumbago. Stiffness, cramps in back, worse rising from sitting.

Causations - Ill effects of punctured wounds, recent or chronic injuries, animal and insect bites, stings, bruises. Ill effects of alcohol, hair cutting or suppressed discharges.

Chest - Oppressive constriction of chest. Chest hurts when touched. Pain along trachea.

Constitutions - Sanguine temperament. Adapted to full-blooded, plethoric, robust people. Suited to pale, delicate persons. Complaints of people who always feel cold and chilly. Rheumatic, gouty diathesis, constitutions abused by alcohol.

Ears - Hardness of hearing, as if the ears were stuffed up with cotton, worse cutting the hair, wetting the head.

Eyes - Bloodshot or bruised. **Black eye from injury.** Hemorrhage into the anterior chamber after an iridectomy. Ptosis of eye (right) from injury. **Contused wounds.** Aching in eyes. Cataract with gout. Tears acrid, make the lower lids and cheeks sore.

Face - Mottled. Facial eczema. **Red pimples on forehead and cheeks,** stinging when touched. Crusty eruptions around the nose and mouth. Swollen submental glands.

Female - Bleeding fibroids. Great coldness during menses, yet desires cold air. Menses too early and too copious, the blood is bright red. Leucorrhea.

Food - Violent thirst for cold water. Want of appetite and speedy satiety.

Head - Raging, pulsating headache, worse least covers. Blood boils on forehead. Itching as office. Misstep causes concussion in the brain. Affected after getting wet.

Kidneys - Urine often stops during the flow. Copious, clear, colorless urine, deficient in salts. Much uric acid and sand in urine.

Limbs - **Gouty pains** shoot all through the foot and limb and in joints, but especially in small joints. Gouty nodosities. Cracking in joints, worse warmth of bed. Cramps over hip joint. **Rheumatism begins in lower limbs and ascends** (Kalm., opposite.). Swollen blotchy ecchymotic legs and feet. Easily sprained ankles. Ankles swollen. **Soles painful, can hardly step on them.** Heels sore. Feet itch by night and are stiff in morning. Ball of great toe swollen (Both-1.). Feet held to earth as by a magnet, when attempting to move. Trembling of hands when moving them or grasping anything. Throbbing in right shoulder, on raising arm.

Lungs - Dyspnea, chest feels constricted. Suffocative arrest of breathing. Bronchitis with emphysema of the elderly. Whooping cough, spasmodic **double inspiration** with sobbing. Yellow, purulent, sputum. Cough with bloody expectoration. Hemoptysis, alternating with rheumatism or coxalgia.

Male - Inflammatory swelling of penis, the urethra is almost closed. Increased sexual desire. Violent and prolonged erections. Pollutions of bloody or serous semen.

Modalities - Better by application of ice water, bathing, cold, air, reposing. Worse in evening, night, heat of bed, warmth of covers, stove, air. Worse injury, motion of joints, spitting, eggs, wine.

Mouth - Bitter taste in the mouth, moldy when coughing. Sudden flow of watery saliva during colic. Musty taste with catarrhal affection.

Nose - Persistent nosebleed (Meli., Bry.). Soreness of the nose with violent burning.

Rectum - **Anal fissure.** Blind, smarting hemorrhoids.

Sensations - Pricking, biting sensations. Sensation of torpor of tissues, especially after suppressed discharge from ears, eyes and nose. Sensation as if something was gnawing in temples, occiput and ears. As if sand in eyes. As if eyeball would be forced out. Noises in ear as from ringing of bell or from a wind-storm, as if ear was obstructed by cotton. Itching as from lice on chest, as of lump in throat. As of boiling in hip joint. As if muscles of thigh in wrong position. As if knee beaten.

Skin - **Puncture, stab wounds. Animal bites and insect stings.** Ecchymosis. **Long discoloration after injuries, injections, vaccinations.** Twitches, from bites, nails, stings, with foul pus. Red spots and rash. Eruptions on only covered part. Acne on forehead, with sticking pain. Itching of feet and ankles, worse scratching and warmth of bed. **Carbuncles** (Anthr., Tarent-c.). **Antidote to rhuspoisoning** (Grind., Cypr., Anae.). Bedsores. Edematous swelling.

Sleep - Great inclination to sleep during day, drowsiness with great wish to lie down. Sleeplessness with restless tossing, jerking, fantastic visions and images on closing eyes. Agitated, anxious dreams. Uneasy dreams in which he changes from place to place and from one subject to another. Lascivious dreams with emission of semen.

Stomach - Nausea with the inclination to vomit, on expectorating. Dry, retching with eructation. Contractive pain in sternum when eating quickly. Water brash with cramp-like pains in abdomen.

Temperature - Coldness, want of body heat. **Coldness of parts,** worse in limbs with the pain during fever, as if in cold water. Sensation as of cold water over parts, general coldness with heat of face.

Foul sweat. Profuse night sweat.

Throat - Sore throat with shooting pain, during and after deglutition. Tormenting cough from tickling in larynx with nosebleed, then sobbing respiration, worse receding eruptions. Sensation as if there were a plug in the

throat.

Vertigo - Vertigo when walking, with tendency to fall to one side. Distress when head is covered.

COMMENTS - Puncture wounds, stab wounds, animal bites and insect stings (Hyper.), particularly if septic in appearance. After affects of punctured wounds. Preventative for tetanus. Side effects of vaccinations.

Dental work with punctures (Hyper., Am.). Bedsores. Sore, achy and bruised injuries (Am.). Injured part feels cold. Wounded area can emaciate. Wounds are better with cold applications.

Red, gushing hemorrhages. Hemoptysis alternating with attacks of rheumatism. Lengthy discoloration of contused parts. Slight injuries cause ecchymoses. Ecchymosis from blood transfusions or IVs.

Marked eye symptoms. Nash says Led. 200c is unequaled as a remedy for "blackeye" from a blow (Symph., if there is pain in the eyeball). Ecchymoses of conjunctiva. Inflammation of ear with deafness from getting cold (as having hair cut).

Sticking, tearing, throbbing pains. Pain in ankle as from sprain; limbs as if beaten and bruised. Hot, tense, hard swellings. Hering noted that "Ledum has often been given to horses when they go lame and draw up their legs. The pains move upward."

Led. occupies the second place in Teste's Am. group, in which are also Crot-t., Ferr., Mang., Rhus-t., and Spig. According to him, the sphere of Led. is frequently identical with that of Am.

However, Led. has a special action on the capillary system in parts where cellular tissue is wanting and where a dry, resisting texture is present, as in the fingers and toes. "It is, perhaps for this reason that it acts better on the small joints than on the large joints," hence its appropriateness in gout.

Rheumatism and gout that migrates from joint to joint, generally from feet upward. Pains shoot upward (Kalm., downward). Symptoms are worse from warmth, better by sitting with feet and legs in cold water. The warmth of the bed is intolerable, he must get up and walk about.

Teste describes the characteristic skin affection of Led. as a sort of bluish or violet-colored tuberosities, especially on the forehead. Eczematous eruptions with a tingling itching, that spreads over the whole body, penetrating into the mouth, probably also into the air-passages and occasions a spasmodic cough (Rhus-t. and Crot-t.).

Teste reported "In a gouty subject I have seen cough precede by days the breaking out of vesicle on the which could not fail to suggest the use of Led. These vesicles, which had existed on the bronchial membrane, before showing themselves in the face, on the shoulders, etc., became quite apparent on the tongue, where they might be traced to its root."

Eczema concentrated on one leg, less frequently on both at once. Ingalls commended a light paste of Led. (equal parts of Led., alcohol and water) as an application for carbuncles, giving Led. 1x internally at the same time.)

For hangovers from drinking hard liquor (Nux-v. is for wine and beer). For rhus poisoning.

Teste related a case of a puncture wound in which a young woman fell with an embroidery needle in her hand and the hand was pierced through, giving a serious wound. There was no hemorrhage, but Teste noticed the intense cold that accompanies and characterizes Ledum fever. Within a week, Led. cured the patient.

Yingling recorded a parallel case, A. J. M., 38, drove a rusty spike through his left foot near the arch of the instep, glancing to the inside of the foot without passing through the bone. This was at 5 p.m. At 8 p.m. a report was brought to Yingling relating the events.

A few moments after the accident the patient felt stiffening pains in the foot, running up the leg and rapidly increasing

in severity. Great chilliness with chattering of teeth followed. The lower jaw became somewhat stiff, general shivering, the neck felt stiff.

The patient reported that he "can't endure it much longer." Led. 3x was sent and rapid improvement took place from the first dose. A compress of Calen. 3x. was also applied, an attack of tetanus being evidently aborted.

Teste recorded the case of an octogenarian who had rheumatism of his left arm, chiefly in the elbow and wrist, coming on in the night or early morning. There was no more sleep for him unless he rose and took a cold bath after which he could sleep. Cured with Led. 30c.

E. Carleton completed the cure of a case of primary syphilis in which Aur. had done well, where the feet were held to the earth as by a magnet when attempting to move, when moving felt as if pricked with needles.

The pain rising gradually from feet to head, every joint and muscle of body and limbs stiff and sore, sore night-sweats, great emaciation with loss of appetite. Led. 200c in water, cured completely and speedily.

Dr. R. Hilbert, a German physician, obtained very satisfactory results from the use of an infusion of the leaves of Led. as an expectorant in bronchitis. He stated that the feeling of pain along the trachea, which is characteristic of the early stages of acute bronchitis, disappeared after a few doses of the remedy.

The fever rapidly subsided, especially in the case of children. In chronic bronchitis, the infusion facilitates

expectoration and lessens cough.

Particularly useful in bronchitis with emphysema of the aged, because of its action in rendering the bronchial secretion less viscid in these cases. It lessens dyspnea and stimulates the circulation. Whooping cough.

Lembke offered the indication that before the paroxysms there is an arrest of breathing. During attacks, there is nosebleed, a shattered feeling in head and chest, and rapid respiration. After, there is staggering, spasmodic contraction of diaphragm, and sobbing respiration. Worse in the evening.

RELATIONS - Antidoted by: Camph. according to Teste, Rhus-t. is the best antidote. **It antidotes:** Effects of alcohol, Apis. **Compare:** (1) Led. and Hyper, antidote spider poisons. (2) Ruta, Ham., Bell-p., Arn. (3) Kalm. - bot., Kalm. pains shoot down. Led. pains shoot up. (4) Arn. - trauma. Led. follows Arn. when it fails to relieve soreness, punctured wounds. (5) Crot-t. - skin cold. (6) Ham. - traumatic ecchymosis, black-eye. (7) Ruta - bruises, Ruta, especially of periosteum, Symph. of bone, Hyper, of nerve. (8) Apis - nightly itching of feet. (9) Am-m., Nat-c. (blistered heels), Zinc., Rhus-t., Nux-v., Sei., H-ac., Ant-c., Puls., Bov. (10) Sil. - worse from wine, Sil. - chronic rheumatism, extending from feet upwards, Sil. better covering up, Led. better uncovering.

Compatible: Aeon., Arn., Bell., Bry., Nux-v., Puls., Rhus-t., Sulph.

*****LEMNA MINOR** (Duckweed) **PHARMACY** - lem-m. Lemna minor. Duckweed. N. O. Lemnaceae or Pistiaceae. The fresh plant is pounded to a pulp and macerated in two parts by weight of alcohol. Tincture of the whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. **Atrophic rhinitis.** Catarrh. Coryza. Diarrhea. Influenza. Nose, disorders. Ozaena. **Polyyps. Rhinitis.**

HOMEOPATHIC - Lindley noted Dr. Robert Cooper's description in the Homeopathic Monthly, "The lowest form of phenogamous vegetation. It consists of lenticular floating fronds, composed of stem and leaf together and bearing the flowers in slits in the edge."

It forms the green scum found on stagnant ponds and dikes. It is found in two varieties, Lemna minor and Lemna gibba.

Nose blocked with polyyps. **Nasal polyyps, swollen turbinates. Atrophic rhinitis,** crusts and muco-purulent discharge very abundant with fetor. Asthma from nasal obstruction, worse in wet weather. Excessive catarrh with frequent sneezing attacks. Foul smell in nose or loss of smell.

Dr. Burnett noticed that Lem-m. patients have their nasal symptoms aggravated in damp and rainy weather. Lem-m.'s symptoms aggravated in heavy rains, Calen., when heavy clouds are about, Rhod. in thunder storms, and Dulc., in damp surroundings and in foggy weather.

Nasal polyyps in aman, 60, that were markedly worse in wet weather took Lem-m. 3x at 5 drops three times a day for a month, and said "That is the best tonic I have ever taken," he could breathe quite comfortably.

Abdomen - Rumbling and disturbance in bowels. Twisting pains in bowels, followed by diarrhea.

Ears - Hearing impaired.

Face - Pale, dull, sickly look.

Head - Flitting pains about head and legs with pains in eyes during heavy rain. Drowsy by day, restless at night.

Lungs - Asthma with nasal obstruction. Asthma, attacks coming on in rainy weather. Snoring inspiration.

Modalities - Worse in damp. Worse rainy weather. **Worse heavy rains.**

Mouth - **Putrid taste** on rising in the morning. Foulness of mouth, putrid teeth. Dry pharynx and larynx.

Nose - **Polyyps** which swell in wet weather. Nostrils plugged by swollen turbinates. Nasal obstruction from an edematous condition. Coryza and catarrh. Ozaena. Discharge profuse, thick, purulent, viscid, yellow, white. Post-nasal dripping, ulceration. Crusts and muco-purulent discharge very abundant. Pain like a string from nostrils to ear. **Foul smell from the nose and foul taste in the morning on waking.** Dryness of naso-pharynx.

Rectum - Diarrhea, worse wet, damp weather. Disposition to noisy diarrhea. Diarrhea with pains across bowels as from flatus, worse after eating with very putrid teeth. Bowels acted freely with much heat in anus. Morning diarrhea.

Sleep - Snoring, cured after an aggravation of diarrhea.

Smell - Odors, imaginary and real. **Putrid smell.** Loss of smell.

Throat - Sensation of intense dryness in pharynx and larynx. Dryness with atrophic rhinitis. Dropping of foul secretion from posterior sinuses.

COMMENTS - Nasal polyyps (Sang., Thuj.), nostrils plugged by swollen turbinates and other causes. Chronic atrophic rhinitis. Putrid smell in the nose, or loss of sense of smell. Nasal symptoms are worse in wet weather. Putrid taste in the mouth, especially on rising in the morning with a general foulness of mouth, due to postnasal

dripping. Disposition to "noisy diarrhea."

Clarke recorded a case of a woman, 47, who had, two years previously, met with an accident, a sign board fell on her head when she was out walking in the street. Seven days after, she was taken with sneezing attacks, suffered from nasal catarrh with little intermission until March, 1893, when she came under his care.

Psor. 30c relieved her trouble, which had made her life almost unbearable, as she never dared make an appointment for fear of an attack coming on, and she discontinued treatment. That winter, a sharp attack of influenza brought back the catarrh and it proved less amenable to treatment.

Fears of polyps distressed the patient, though Clarke could not discover any. However, she again made progress, when he thought of giving her Lem-m. on indications given by Dr. Cooper.

On February 15, 1894, Clarke gave Lemna 3x, one tablet four times a day. February 22, she felt very much better, freer in the head than at any time during the last ten years, spirits braced up. She steadily progressed to cure, and by March 15 could endure the smell of strong scented flowers, which before was impossible.

Captain B., aged forty-four, consulted Clarke on February 29, 1894, for violent neuralgia on the right side of the neck, the part being exquisitely sensitive to touch. He had a cough and cold for a month. On getting up in the morning, he filled two pocket handkerchiefs with yellow effusion before he got his nose clear.

Clarke gave him Bell. 12c to take until the neuralgia was better and then told him to take Lem-m. 3x, three times a day. On March 9 he reported that the Bell, speedily took away the neuralgia and that then the Lem-m. cleared off the catarrh in a most astonishing fashion. He never had a medicine act so magically before.

A man of sixty years of age with nasal polyps only moderately developed, yet of many years duration, was much troubled by the chronic nasal obstruction that was markedly worse in wet weather. Clarke gave him Lem-m. 3x, five drops in water, night and morning.

Returning in a month, he exclaimed, "That is the best tonic I have ever taken, I have never taken any medicine in my life that has done me so much good. I feel quite comfortable in my nose and can breathe through it quite well."

RELATIONS - Compare: (1) Dulc. - damp surroundings and foggy weather. (2) Calc., Teucr., Calen., Nat-s. (3) All-c., Agra., Chlor., etc., (4) in nasal catarrh, Teucr., Calc, and Thuja. in nasal polyps. (5) Psor., Cadm-s., Aur., Kali-bi. and Syph. in ozaena. (6) Anae, in bad smell in nose. **Follows well:** Calc., Merc., Psor.

***LEONURUS CARDIACA

(Motherwort)

PHARMACY - león. Leonurus cardiaca. Motherwort. N. O. Labiate. Tincture or infusion of fresh plant.

Historical dose: Tincture and all potencies.

CLINICAL - Dysentery. Hemorrhages. Miscarriages. **Suppressed, lochia. Suppressed, menses.** Vomiting.

HOMEOPATHIC - The popular name of this plant sufficiently indicates its traditional virtues. The only experience with it is an involuntary proving recorded by Clarence Bartlett.

A married woman, 40 took an infusion to produce miscarriage. Twenty-four hours later Bartlett saw her and found her vomiting and retching, passing bloody stools, suffering severe abdominal pains.

The pains were provoked by drinking anything more than a small quantity of water, which she did to allay her great thirst. Dry conjunctive, and a dry, cracked tongue were noted. The bowels symptoms were worse midnight to 3 a.m. Ars. 3x relieved all symptoms. She did not miscarry.

Influences pelvic organs, allays spasm and nervous irritability. Promotes secretions and reduces febrile excitement. **Suppressed lochia** and menses. Dysentery, with vomiting, frightful pains in abdomen and violent thirst. Tongue dry and cracked.

Abdomen - Very severe abdominal pains with soreness to touch. When lying on side, better drawing up legs; when on back, better with legs out straight.

Eyes - Conjunctive looked as if wiped dry.

Female - **Suppressed lochia** and menses. Tends to miscarriages.

Food - Intense thirst, yet drinking more than a very slight quantity of water, warm or cold, provokes epigastric pains.

Mouth - Tongue dry, coated or brownish white, covered with cracks in arborescent arrangement, main crack down center.

Rectum - During the night, frequent calls to stool. Stools dark brown, then bloody.

Stomach - Vomiting and retching.

RELATIONS - Antidoted by: Ars. **Compare:** Hedeo.

REFERENCES - Boericke. Clarke.

***LEPIDIUM BONARIENSE

(Brazilian Cress)

PHARMACY - lepi. *Lepidium bonariense*. Brazilian cress. *Lepidium mastruco*. *Senebiera pinnatifida*. N. O. Crucifere or Brassicacee. Tincture and trituration of fresh leaves. **Historical dose:** Tincture, trituration and all potencies.

CLINICAL - Breasts disorders. Cough. Headaches. Heart, disorders. Indigestion. Rheumatism.

HERBAL - *Lepidium* is a Brazilian cress. Mure noted that "It is very common in the neighborhood of Rio, where it is found along the roads and in stony regions." It is a great remedy in domestic practice in Brazil and is used for purposes similar to those for which *Am.* is used.

All the *Lepidium* are anti-scorbutic and *Lepidium oleraceum*, the New Zealand variety, was eagerly sought after as a remedy for scurvy by the early voyagers.

HOMEOPATHIC - Disorders of breasts, heart. Heart symptoms with numbness and pain in left arm, sensation of sinking in pit of stomach. Sensation of a tight girdle around chest, as of a knife piercing the heart.

Sharp pain in left side of head, face, chest, hip to knee. Pain in neck, back and limbs. A streak of pain from the temple to the chin, as if the face were cut with a razor. Burning in the throat, roaring in ears.

MIND - Sad and quarrelsome. Inability to think. Imagined the floor sinking under her. Imagines herself pursued by a phantom in a churchyard, cries with loss of voice next morning.

COMMENTS - Mure's proving of *Lepi.* brought out some distinctive symptoms on the left side of the head, in the limbs, and especially in the heart.

Heart symptoms with numbness and pain in the left arm. Sinking feeling in the pit of the stomach indicating an action in the solar plexus. Darting pains. Sharp, throbbing pains. Worse from stooping, turning head to the right, when covered.

RELATIONS - Compare: (1) *Am.*, *Lach.* (2) *Brass.*, *Cheir.*, *Thlaspi.*, *Armor.*, *sat.*, *Raph.*, *Sinap.* (3) *Spig.*, *Kalm.*, *Lycps.* - heart problems.

REFERENCES - Boericke. Clarke.

***LEPROMINIUM

(Leprosy Nosode)

PHARMACY - lepro. *Leprominium*. Leprosy nosode. **Historical dose:** All potencies.

CLINICAL - Acne, vulgaris. Alopecia. Aphonia. Dermatitis. Edema. Erythema multiforme. **Flatulence.** Gingivitis. Glaucoma. **Immune, disorders.** Iritis. Kaposi's, sarcoma. Leprosy. Leucoderma. Leukemia. Lichen, planus. Lipoma. Lupus, erythematosus. **Lupus, vulgaris.** Lymphoma. Molluscum, contagiosum. Neuritis. Neurofibromatosis. **Numbness.** Osteoarthritis. Pityriasis. **Psora. Psoriasis.** Rhinitis. Ringworm. Sarcoidosis. Scleroderma. **Skin, disorders.** Tinea versicolor. **Urticaria.**

HOMEOPATHIC - Leprosy is a disfiguring, crippling disease prevalent in tropical countries. Dr. Vakil introduced *Leprominium*, using signs and symptoms collected from 100 patients suffering from various types of leprosy.

There are two preparations. The first, *Leprominium H*, was prepared from a leprous nodule from the ear of a patient where the presence of *lepra bacilli* was microscopically demonstrated.

The second, *Leprominium A*, is used for ascertaining the reactivity of the patient, and was prepared from the *lepra bacilli* cultured on the foot web of an armadillo.

MIND - Meticulous. Mild or irritable. Brooding. Weeping. Attributes disease to fate. Hopeful of recovery. Fearless. Aversion to begging.

Feels rejected. Likes company. Desires sympathy, yet secludes self to hide early stages of disease. Religious melancholy. Desire to put on white colored clothes, aversion to black colored clothes. **Loathes life**, but not suicidal.

Abdomen - Flatulence in lower part of abdomen. Passing flatus ameliorates.

Cough - Chronic cough in some smokers with emphysematous changes.

Ears - Chronic otorrhea. Thickening and nodulation of the ear. Appearance as if had rat-bite.

Eyes - Swelling, puffy, baggy under eyes. Ectropion. Cannot close the eyes completely, sleeps with eyes half open. Eyelashes drop off. Red, painless discoloration. Sensation of heat. Xerophthalmia. Dryness, with bland or acrid lachrymation, worse from light, sun. Itching and agglutination. Photophobia. **Squints.** Conjunctivitis. Scleritis. Interstitial keratitis. **Iritis**, iridocyclitis. Trachoma. Corneal opacity. Herpes simplex on cornea. Glaucoma. Cataract formation, left to right. Blindness.

Face - Anesthesia of the face, anesthetic patches. Numbness and cobweb sensation. Deformed, leonine, prematurely old appearance. Thickened skin of the face with permanent wrinkling. Nodules on the face, nodulation and ulceration of nose and lips. Edema, angioneurotic. Palsy. Paralysis. Trigeminal neuralgia. Waxy

or oily look. Outer one third of eyebrows lost. Eyelashes lost. Mustache hair lost in the middle.

Female - Menopause early. Sexual desire absent.

Fever - Scanty perspiration. Rigors with fever. Remittent or intermittent fever with infections. Malaria giving rise to lepra reaction.

Food - Thirst increased. Desires green chilies, meat, fish, spicy, sour, ice cold water. Aversion to milk, sweets, worse from sour food.

Head - Alopecia areata. Hair loss on hypopigmented patches. Hair turns gray prematurely. Hemicrania.

Kidneys - Glomerulonephritis. Nephritic syndrome. Urination frequency increased in some patients. Intermittent flow. Urination painful, from walking in sun.

Limbs - Anesthesia of hands, feet. **Heat in palms, soles.** Ascending coldness. **Hands and feet icy cold.** Sensation of ice in limbs, better warm clothes. **Numbness and tingling.** Ascending numbness. Peripheral neuritis. Paralysis, paraplegia. Edema of the feet, worse evening, walking, hanging feet down. Wrist drop, foot drop. Pain in limbs, massaging ameliorates. Pain in knee joints, worse initial motion, better continued motion. Osteoarthritis. Nodules like neurofibromatosis. **Deformities of limbs.** Patches hypopigmented, well defined, thickened, raised. Sensation loss on hypopigmented patches. Non-healing ulcers. Gangrene. Maggots.

Lungs - Tendency to catch cold. Pulmonary tuberculosis. Difficulty breathing.

Male - Gynecomastia. Sexual desire absent. Desire increase, with nocturnal emissions. Enlarged testes.

Impotency. Aspermatogenesis. Oligospermia.

Mouth - Swelling lips. Flat-topped nodules on tongue, lips. Deep fissure in tongue. Glossitis. Adherent uvula to soft palate. Uvula ulceration. Infiltration and nodules on uvula and soft palate. Small ulcers. Gums bleed easily. Gingivitis. Turgid and swollen gums, shiny purplish in color.

Nose - **Nasal obstruction.** Clusters and scabs. Offensive scabs from nose but patient cannot smell. Waxy nose. Flattened tip. Collapse of the nose. Depressed nose. Atrophic rhinitis. Atrophy of the anterior and inferior turbinate. Perforation of septum. Nosebleeds, worse cold, wet on head, washing face, or sneezing.

Rectum - Constipation. Semi-solid stools with mucous, without pain in abdomen.

Skin - **Lupus vulgaris.** Anesthesia, hypoaesthesia or thickened erythematous anesthetic patches. Neurofibromatosis. Discoloration, **dark pigmentation.** **Dryness of whole body,** in many patients with scanty perspiration. Cracks deep in palms and soles. Erythema multiforme, ulcerous lesions. Nodules, small, pedunculated. Eruptions bullous, macules, flat, hypopigmented or erythematous. Pemphigoid **scabs,** dark brown small, scaling, resembling exfoliative dermatitis. Ichthyosis. **Psoriasis, itching all over.** Ringworm. **Urticaria.** Scabies. Pellagra. Skin sticking to the bones giving a shiny appearance like scleroderma.

Sleep - Eyes remain half open during sleep. Dreams frightful, unremembered. Dreams of dead people, dead relatives. Refreshed on waking.

Teeth - Loose teeth, because of changes in the bones which secure the teeth. Upper

Leprominum central and lateral incisor dropping out.

Throat - Cicatrices, laryngeal and pharyngeal constriction. **Sensation of something stuck in throat.** Hoarseness of voice. Loss of voice, complete aphonia.

Vertigo - Weak feeling, blackout. Vertigo with nausea, worse opening eyes, sun.

COMMENTS - Vakil concluded that Lepro. should prove to be a useful nosode on the basis of symptom similarity and also as an intercurrent remedy to clear the miasmatic background.

He noted that leprosy resembles many skin conditions, including leucoderma, nutritional discolouration of the skin, macular syphilides, tinea versicolor, lupus erythematosus, and lupus vulgaris. Neurofibromatosis, cutaneous sarcoidosis, leukaemia cutis, Kaposi's sarcoma, subcutaneous phycomycosis, lymphoma.

Seborrheic dermatitis, erythema multiforme, alopecia areata. Ringworm of the skin, psoriasis, lichen planus, pityriasis rosea, urticaria, scleroderma. Lipoma, acne vulgaris, molluscum contagiosum etc.

Leprosy can resemble progressive muscular atrophy, ainhum, gangrene, mango-toe, peripheral neuritis, Bell's palsy, Dupuytren's contracture, nasal deformities, maralaga paresthetica, carpal tunnel syndrome, syringomyelia, tabes dorsalis, and spina bifida. Leprosy also resembles syphilis to a great extent.

Leprosy affects the reticuloendothelial and immune system. The disease traumatizes the mind of the individual, and gives rise to symptoms resembling anxiety neurosis, depression and melancholia.

As it resembles many diseases, some of them chronic and intractable, and as this disease was widespread in many countries, "lepra" can be considered as a separate miasm. For complaints that develop slowly but give rise to irreversible pathological changes.

Vakil suggested that as Bac. and Tub. have separate spheres of action, Leprominum H and Leprominum A should have separate spheres of action.

Leprominum

Vakil noted the case of a female child, 6, came to the out-patient department of the Government Homeopathic Hospital with a rough patch of skin just near the right cubital fossa since she was 2. It was roughly 2 inches by 4 inches and itched slightly. There was thick scab formation with a raw surface underneath.

Mez. 30c was prescribed on the symptoms chilliness, possible bad effects of vaccination, and itching from touch. A small scab came off within a week, but there was no further improvement.

Vakil waited for 2 months, and was considering repeating the Mez. in a higher potency when he noticed an anesthetic patch on the back of the woman who accompanied her, who turned out to be the girl's neighbor.

Additional symptoms included a religious feeling, desire for white clothes, sympathetic and desiring sympathy for herself, tendency to catch cold, desire for green chilies and an obstinate skin condition.

Vakil prescribed Lepro. A 30x, single dose. To the surprise of all, the scabs started coming off within a week. By the end of the month she was 80% better. It was noticed that immediately after the administration of the nosode she had semi-solid stools with mucus and running of the nose for a week.

RELATIONS - Compare: Psor., Sulph. Mez.

REFERENCES - Vakil.

*****LEPTANDRA VIRGINICA**

(Culver's Root)

PHARMACY - lept. Leptandra virginica. Culver's root. Veronica virginica. Black root. Culver's physic. Tall speedwell. N. O. Scrophu- lariaceae. Tincture of resinoid Leptandrin. Tincture of fresh root of second year. Trituration of dried root. A fresh plant tincture should also be made and tested. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Ascites. Bilious, attack. Bilious, fever. **Black, stools.** Constipation. Diarrhea. Dysentery. Dyspepsia. Headaches. **Jaundice. Liver, disorders.** Remittent fever infantile. **Typhoid, fevers.** Yellow fever.

HOMEOPATHIC - Leptandra, in the form of the resinoid Leptandrin, was proved by Burt. As one of the grand characteristics of it relative Digitalis is white stools, so the grand characteristic of Leptandra is **black stools**.

Great varieties of stool, in the later stages of the proving it became dysenteric and mixed with shreds. Constipation with hard black stool, followed by softer stools.

Liver symptoms, with adult, heavy, frontal headache. These symptoms confirm the use of the drug by eclectics as a kind of "vegetable calomel." Sensation as if something was passing out of rectum.

Farrington noted the dull aching in the right hypochondrium, gallbladder and back of liver, accompanied by soreness. Burning distress in and about liver after spreading to stomach and bowels, with drowsiness and despondency. Bilious and typhoid fevers with black, tarry stools.

Eye symptoms (Euphr.). Generally rightside. Chilly sensation along the spine and down right arm. Pains in right shoulder and arm. Symptoms are worse by motion, rising causes nausea and faintness. Weakness, so great he is hardly able to stand.

MIND - Hopeless, despondent and drowsy. Sadness with liver troubles. Irritable. Anxiety in abdomen after stool. Sensitive to penetrating noises. Weary, can hardly walk.

Abdomen - Sore or dull, burning ache over liver or near gall bladder, extending down over bowels to navel or towards left scapula or along spine, which feels chilly. Constant dull aching in umbilical region. Great distress in stomach and intestines with desire for stool.

Back - Chilly sensation in shoulders and down back. Sore, lame feeling in small of back. Constant distress with very sharp pains by spells in lumbar region.

Eyes - Smarting and aching in eyes with dull pain in eyeballs. Profuse lachrymation. Lids agglutinated.

Female - Menses, suppressed or retarded with liver affection. Warm, watery leucorrhea, runs down the limbs, from ulceration of the os.

Food - Canine hunger. Craving for cold food and drinks, raw food, salads. Worse fats, rich foods, meat and vegetables.

Head - Dull pain, vertigo, drowsiness and depression. Dull frontal headache, with aching in navel. Smarting and aching in eyes.

Heart - Soreness in heart. Pulse slow and full.

Kidneys - Red or orange colored urine with dull aching in lumbar region.

Limbs - Pain in sciatic nerve (left), worse on sitting. Nails very thin, soft and splitting.

Liver - Acute liver conditions. Dull, burning aching in liver, worse near gallbladder. Sore or dull pain, worse from touch or pressure. Burning distress in back part of liver and spine. Liver swollen transversely. Periodical liver derangement, every two or three months. **Bilious states.** Gallstones. **Jaundice.** Hepatitis. Portal vein congestion.

Modalities - Better from lying on abdomen, on side. Worse from cold drinks, exposure to wet weather, motion, periodically.

Mouth - Tongue, yellow or black down center. Flat taste.

Rectum - Prolapse of rectum with hemorrhoids. Bleeding hemorrhoids. Rectal hemorrhage.

Skin - Jaundice. Dry, hot skin.

Sleep - Sleepiness with liver troubles. Sound sleep. Sleep restless after midnight, feels very ill next day.

Stomach - Craving for cold drinks, which aggravate burning and aching in stomach. Sinking at the pit of stomach. Great distress in stomach and small intestines with immediate desire for stool. Nausea and deathly faintness on rising. Bilious vomiting. Vomiting of bile, yellow tongue, shooting pains about liver, black stools.

Stools - Jaundice with clay-colored stools. Stools, muddy, watery, worse in morning. **Stools, tarry or black, foul** with pain at umbilicus. **Typhoid stools turn black and look like tar.** Stingy, waxy or spurting stool in the morning with pain at navel.

Temperature - Chilly along the spine and down the arm. Shivering or dry, hot skin, limbs cold and numb tongue black down center. Bilious typhoid fever.

COMMENTS - Affects the right side and liver. Bilious states. Enfeebled portal circulation. Hemorrhages due to liver disorders. Jaundice and black, tarry stools. Conditions with black, tarry stools. Melanotic stools. Hepatitis. History of cirrhosis, hepatitis jaundice or colon cancer with dried blood in the stools. Colon cancer. Weakness, hardly able to stand or walk. Typhoid. Malarial conditions. Useful as an herbal tonic for the liver.

Hale noted the order of the different kinds of stools in the proving. First there are black, thick, tar-like, fetid stools. This is followed by thinner, brownish, often fetid stools. Then stools of mixed mucus, flocculent and watery matter with yellow bile or blood. Finally, there is mucous, bloody stool mixed with shred-like substances, often pure blood.

Hale said it is only in cases of dysentery that have developed in this way that Lept. is curative, not in cases primarily dysenteric. Cases due to sudden climatic changes have been cured by it.

Neidhard observed a periodicity in cases cured by him. Periodical, occurring every two or three months, yellow-coated tongue, constant nausea with vomiting of bile. Shooting or aching pains in region of liver, loss of appetite, urine brownish or very dark, often pain in transverse colon, giddiness. Characteristic very dark, almost black stools.

RELATIONS - Compare: (1) Podo., Iris, Bry., Merc., Ptel., Myric. (2) Like Dig. and Tab. it has sinking at the pit of the stomach.

REFERENCES - Boericke. Clarke. Murphy.

***LEVICO AQUA

(Tyrol Mineral Springs)

PHARMACY - lev. Levico aqua. Tyrol mineral springs. An arsenical mineral water of the South Tyrol. Containing iron and copper with other elements. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Debility. Chorea. Skin, diseases.

HOMEOPATHIC - Levico has a high reputation among health resorts for nervous and skin cases, favoring assimilation and increasing nutrition.

Burnett is the only homeopathic authority. He said "Levico in 5 to 10 drop doses is a valuable intercurrent to help in grave cases where there is much debility. Notably after the searching remedies such as Bacillinum."

Lev. is supplied in two strengths, the strong and the weak. Either may be used in the doses indicated by Burnett, which is much smaller than that usually prescribed.

Chronic skin diseases. Chorea minor, spasms in scrofulous and anemic children. Debility. Favors assimilation and increases nutrition.

REFERENCES - Clarke.

***LEVOMEPRIMAZINE

PHARMACY - levo. Levomeprimazine. Allopathic drug. **Historical dose:** All potencies.

CLINICAL - Agoraphobia. Alcoholism. Allergies. Anorexia. Athetosis. Chorea. Epilepsy. Hypotension. Hypothyroidism. Mental, disorders. Myoclonia. Parkinson's disease. Tachycardia. Wilson's Disease.

HOMEOPATHIC - Symptoms of the toxicologic iatrogenic effects of the drug. The salt, used therapeutically, is the maleate.

Depressive action, anti-convulsive, sedative, anti-emetic, anti-histaminic. It is used in psychiatry for maniacal cases, conditions of agitation, delirium and hallucination in the form of tablets of 5 mg and 25 mg.

Symptoms result from the toxicology of the product, the clinical case of a female patient in Brussels, from self-observation by a pharmacist, and from the proving by O. A. Julian, on a group of sixteen provers, nine men

and seven women during the winter of 1968-69, using the 3x, 7c, 9c, 15c, 30c potencies and placebo. Mental complaints of a depressive and schizophrenic nature. General apathy with nausea. Mental laziness with agitation. Morning lassitude. Fatigue, sleepiness around 5 p.m. with slow heartbeat. Clear diminution in attention and ability to concentrate. Hypotension and tachycardia. Multiple allergic sensitivities. Intestinal, hepatic and gastric malfunctioning. Increase in weight.

MIND - Disinterested state. Anxiety from anticipation. Premonition of an indefinable imminent event. State of panic with desire to cry out for help. Anguish, aggravated in a room with light and people. Neurosis from anguish.

Instability. Desire to weep. Fear of going mad, nervy, on edge. Agoraphobia. Desire to harm someone. Anorexia. Schizophrenia. Hallucinations in chronic alcoholics.

Abdomen - Distention after eating starchy food. Hypertrophic cirrhosis of the liver. Entero-hepatic syndrome. Gastric and intestinal dyspepsia.

Back - Pains in the shoulder.

Blood - Rise in the sedimentation rate.

Chest - Oppression of chest.

Constitutions - Suited to phospho-fluoric or tubercular types with psychomotor depression, hypotension and disinterest in the environment, listless with morning fatigue.

Ears - Diminished hearing.

Eyes - Feeling of eyes enlarged.

Food - Anorexia, alternating with bulimia and desire to eat anything. Progressive loss of appetite. Desire for alcoholic drinks which are badly tolerated. Cannot digest milk, milk products, Crustacea.

Head - Diffuse, dull headache.

Heart - Acrocyanosis. Tachycardia neurosis, on exertion in anxious types. Postural hypotension. Heart constricted with anguish in the morning. Palpitations at the slightest effort.

Kidneys - Oliguria.

Limbs - Twisting spasms. Cramps, in the toes. Arthritis of the scapula and humerus. Clumsiness, drops things. Circulatory disorders at the periphery, the limbs of the limbs take on a purple color with mauve or white patches.

Lungs - Tachycardia with asthma. Dyspnea on effort. Dyspnea from anguish. Nervous asthma.

Male - Urinary retention. Diminished libido. Neurotic impotence.

Modalities - Better from gentle heat, coffee, tobacco. Worse from light, a crowd.

Mouth - Dryness in the mouth. Bitterness and bad breath. Tongue whitish-gray with absence of thirst.

Nose - Diminished sense of smell.

Rectum - Diarrhea with liquid stools around 8 p.m. with 4-5 successive stools. Constipation.

Skin - Pruritus sometimes accompanied by small urticaria patches. Prurigo strophulus. Painful skin hardening without suppuration, following intra-muscular injections of Levomepromazine.

Sleep - Yawning with sleepiness after meals. Unpleasant, anguished dreams, about the death of dear people.

Stomach - Gastric and intestinal dyspepsia.

Vertigo - Feeling of faintness.

RELATIONS - Compare: (1) Sep. - Apathy, sadness, headache with pressing pains. Feeling of emptiness in the stomach. Yellowish mark across the nose. Desire to be alone. (2) Tub. - Weakness with constant need to change place. Headache from mental exertion. Anxious, glum, melancholic. Morning diarrhea. (3) Chlorpr. - Disorders of the body of the endocrine system and the thalamus of an introverted psychopathic nature. Hallucination, genetic troubles. Thermal and hepatic disorders. General slowing down and dumbness. Catatonic syndrome. Vesicular, bullous rashes and pigmentation disorders.

REFERENCES-Julian.

***LIATRIS SPICATA

(Colic Root)

PHARMACY - liatr. *Liatris spicata*. Colic root. *Liatris serratula*. Dense button-snakeroot. Gay feather. Devil's bit. N. O. Composite, tribe Cioraceae. Tincture of powdered fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - *Anasarca*. Colic. **Diarrhea**. Dropsy. Headache. Indigestion. Kidney, dropsy. Ulcers.

HERBAL - *Liatris* is an old herbal remedy for indigestion and colic. T. C. Duncan explained

Liatris spicata that it is called "Devil's bit" as a piece is missing from each tube, as if it had been bitten out.

Liatris has the reputation of being "aromatic, stimulant, diaphoretic, diuretic, anodyne and carminative," particularly useful in colic, headache and flatulency.

HOMEOPATHIC -Generalanasarca due to heart and kidney disease. Colic. **Diarrhea** with violent urging and pain in lower part of back. Suppressed urine. Dropsy from liver or spleen diseases. Kidney dropsy. Applied locally to ulcers and unhealthy wounds. A prompt diuretic. Vascular stimulant. Increases functional activity of the skin, mucus membranes.

COMMENTS - Liatr. was introduced to homeopathic medicine because of its action in two cases of dropsy under eclectic treatment. The first was a case of dropsy from material enlargement of liver and spleen, the second was a case of dropsy with almost total suppression of urine. After other remedies had failed. Liatr. was given and, on the second day. the patient passed a gallon and a half of urine.

A. E. White wrote that it has a popular reputé as specific in chronic diarrhea following exposure in camp life, and also as an application to non-granulating ulcers. For this purpose the root is to be chewed and then applied. White was invited to chew a piece, which he did. In six or eight hours he had three successive calls to stool, very urgent, a little griping in lower back and some straining at stool. He has confirmed its use in camp diarrhea, but says it acts better if Sulph. or Merc-c. is given first.

White reported the case of Mr. X, 56, who had chronic diarrhea since the war. He had tried treatment of all kinds, homeopathic included. He had twelve to sixteen stools a day and had lost much weight. He was run down and had made up his mind he had only a short time to live.

He was given Sulph. 30x two doses, one each night, then Merc-c. 3x, a dose each night for five nights, then Liatr. 1x, four pellets each night for five weeks, by which time he was completely cured.

***LILIUM TIGRINUM

(Tiger Lily)

PHARMACY - Lil-t. Liliun tigrinum. Tiger lily. N. O. Liliaceae. Tincture of fresh stalk, leaves and flowers. Some of the provings were made with tincture of the pollen alone. **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Arthritis. Asthenopia. **Astigmatism.** Dementia. **Depression.** Diarrhea, Dysentery. Eyes disorders. Fibroma. **Heart, disorders.** **Hysteria.** **Ovarian disorders.** Pruritus vulva. Sexual disorders. Spinal irritation. Urination, frequent. **Uterus, disorders.** **Uterus, prolapsed.**

HOMEOPATHIC - The tiger lily, which was introduced into the West from China and Japan, was first suggested as a remedy by W. E. Payne. Carrol Dunham urged Payne to have it proved and assisted by having it proved on a woman under his supervision. The account of this case is given in Dunham's Science of Therapeutics. Some of the provings were made with the tincture of the pollen alone.

The provings showed symptoms of increased activity, things went more easily. Ill humor, drowsiness, sleep but with unpleasant dreams. Sweetish nausea without inclination to vomit. Abnormal fullness worse after eating ever so little. Bloating more pronounced and chiefly across hips, in uterine region.

Darting pains in head and lower abdomen, from ovaries down thighs. Knees ache. Pressure in vagina, pain at of sacrum extending to hips. Increased sexual instinct. Crazy feeling with thoughts of suicide, head grows wild after being quiet for a short time. Increased depressing weight, worse evening.

During the provings, Lil-t. was given for 10 days, then stopped, but the symptoms continued to develop and increase in intensity for eight weeks longer, when it had to be put an end to by an antidote.

Lil-t. manifests its chief action upon the venous circulation, the **heart and female organs**, ovaries and uterus. Useful for reflex conditions dependent on pathological conditions of these organs.

Lilium tigrinum

Uterine reflex states, dependent on pathology of uterus or ovaries. Utero-ovarian sagging. Symptoms of sexual overexcitement. Women exhausted by sexual excess. Often indicated in unmarried women.

Pain in small spots (Ox-ac.). Rheumatic arthritis. Burning palms and soles accompany complaints. **Full, heavy or forced outfeeling** in uterus, ovaries, heart etc. Wandering, flying, shooting pains or opening and shutting pains, radiating from ovary to heart, to left breast, down the legs etc. Backward pains, about eyes to occiput, from nipples through chest, from heart to left scapula.

Affects the bladder and rectum. Pulsations, ebullitions, gurglings and burnings. Nervous tremors in hypogastrium in spine, knees etc. Venous congestion. Acrid discharges. Nervous, hysterical. Faints in warm room or after standing for a long time. Rheumatism.

MIND - Mental and physical symptoms alternate. Mental and uterine symptoms alternate. Mental and heart symptoms alternate. **Hurried, wants to do several things at once**, walks fast, does not know why.

Restlessness and nervousness. Must keep busy.

Haughty and proud. Capriciousness. Abrupt. **Snappish.** Censorious, critical. Irritability and sensitivity. Indifferent to anything done for her. Apathy, indifference to love ones. Averse to amusement. Very timid. Prefers company.

Anxiety with palpitations. **Anxious, fears some organic and incurable disease.** Delusions that she has **an incurable disease.** Anxiety about business, the future, health. Dementia from business worries. **Fear of going insane,** impending disease and suffering, being incurable. Fear of falling, from faintness, worse close warm room. Fear of evil.

Discontented. Dissatisfied, envious of others. Sentimental. Sits alone and broods over imaginary troubles, dwells on past. Grief, sighing. Constant inclination to weep. Grief, hunting for something to grieve oneself.

Profounddepression, worse consolation. **Post-partum depression.** Desires death. Suicidal disposition by poison.

Disposed to curse, strike, think obscene things. Cursing, swearing, blasphemy, and profanity. Feels as if she must scream out. Desire to pull the hair out. Hysteria. **Wild, crazy feeling.** Stupefaction, as if intoxicated. Religious affections and sadness. Tormented about salvation. Delusions that she is doomed.

Strong sexual desire, lessened by keeping busy. Confusion of mind from sexual excitement. Sexual excitement, alternating with apprehension of religious ideas, or despair. Nymphomania. Erotic, sexual fantasies. **Dementia from sexual excesses,** uterine problems.

Abdomen - Abdomen sore, distended, can't bear weight or covers. Skin of abdomen feels stretched and stiff. Abdomen sensitive to pressure or jarring. Trembling sensation in abdomen. **Heavy dragging downfeeling** of whole abdominal contents with dysuria. Bearing down pain in lower part of abdomen, worse walking. Sharp pains, better gentle rubbing with warm hand, doubling up.

Back - Neck pain and aches, worse if tired. Glands on left side of neck swollen and painful. Broken feeling between scapula. Sensation of pulling upward from tip of coccyx. Spine sore, with stiffness, worse in loins. Dull pain in sacrum. Cold feeling across loins and sacrum. Back as if drawn backwards, after heart attack.

Breasts - Cutting pain in left breast, with sighing and shortness of breath. **Pains in left breast and left ovary.** Cramp like pain, in left breast, shoulder and fingers. Sensation as if a rivet or ball under left breast.

Causations - Ailments from being alone, celibacy, being unmarried. Ailments from sexual excesses, childbirth, menopause.

Chest - Constricted feeling in left side of chest. Oppressive load on chest. Tight, hot, congested feeling. Sharp, quick pains in left side of chest, with fluttering of heart. Chest feels as if too full of blood. As if a lump in the center of chest moving up and down on empty swallowing.

Ears - Neuralgia in right ear. Rushing sounds in ears after going to bed.

Eyes - **Wild look in eyes.** Biting and burning sensation, worse reading. Pain, extending back into head, lachrymation and impaired vision. Sensitive to light. Photophobia during pain in forehead. Hyperesthesia of retina. Weakened ciliary muscle (Arg-n.). Feel sprained.

Face - Heat and bloated feeling of face and head. Chilly feeling in face in afternoon.

Female - Amenorrhea with cardiac distress or burning stinging ovarian pains. Menses, early, scanty, dark, clotted offensive. Flow only when moving about. Menses cease when resting (Bell., Lac-c., Sep.). Dysmenorrhea with sensation of constriction from back around hips, ending in pubes. Offensive leucorrhea and great weakness during menses. Acrid, brown, thin leucorrhea, stains brown, worse after menses. Smarting in labia, worse after menses. **Ovarian pains with palpitations, mental symptoms.** Ovarian pain down thighs or up below the left breast. Sharp pain in region of ovaries and in back. Pains in left ovary and left breast.

Stinging pain in left ovarian region. Bloated feeling in uterine region. Neuralgic pains in uterus, cannot bear pressure of clothes. **Bearingdown pains** with urgent desire for stool. Sub-involution. **Congestion of uterus.** Prolapse uterus. Anteversion and retroversion of uterus. **Sensation as though all organs would escape** (Sep., Lac-c., Bell-p.), especially uterus. Constant desire to support parts externally, afraid to move. Nymphomania. Sexual desire increased, obscene, must keep herself busy. Sexual excitement, ending in orgasm. Voluptuous itching in vagina. Pruritus pudendi. Slow recovery after labor.

Food - Hungry, craving for meat, sour or sweet dainties. Aversion to coffee to bread. Thirsty, drinks often and much, before severe symptoms.

Head - Hot, dull, heavy, with morning diarrhea. Faint in warm room. **Wild feeling in head, as though she would be crazy- Headache** burning, dependent on uterine disorders, worse before and after menses, better at sunset. Headache over left eye to

vertex with vertigo and visual effects. Sick headache every few days, much worse at menses. Drawing hot pain through head and eyes, better frequent sneezing. Sharp neuralgic pains over eyes, worse motion and evening. Stinging, burning pains in forehead.

Heart - **Sensation as if heart were grasped in a vise** (Cact.). Heart as if alternately grasped and relaxed. As if heart is hanging by a thread. Heart feels full to bursting. Cold feeling about heart. Heaviness in region of heart. Sensation as if heart stopped, followed by rush of blood to heart and palpitations. Palpitation from excitement, worse lying on either side. **Palpitations during pregnancy.** Pain in cardiac region with feeling of

a load on chest. Angina pectoris with pain in right arm. Pulse irregular, very rapid. Pulsations all over the body. **Kidneys** - Frequent urging. Constant pressure on bladder with constant desire to urinate, with a sensation as of a ball in rectum. Frequent urination, almost every fifteen minutes, with scanty discharges, followed by irritation and smarting in urethra. Urine, milky and scanty, **hot like boiling oil**. If desire is not attended to, feeling of congestion in chest.

Limbs - Pain in back and spine with trembling, often of a pressing-down character. Limbs feel cold, clammy, worse when excited or nervous. As if a cool wind blowing on legs. Staggering gait, cannot walk straight, or on uneven ground. Pain from hip to hip. Joints feel dry. Trembling of knees. Legs ache, cannot keep them still. Pain in right arm, hip, ankle joint. Burning in palms and soles. Paralytic stiffness of fingers. Pricking in fingers.

Lungs - Air hunger, takes long, deep breath. **Suffocates in a warm or crowded room**, theater or church. Shortness of breath. Oppressed breathing with sighing. Sharp pain through right lung, worse in open air.

Male - Increased sexual desire. Lascivious dreams and emissions, followed by irritability, difficulty in fixing one's mind, selecting wrong words.

Modalities - Better from pressure, support, rubbing, lying on left side, crossing legs. Better from cool, open, fresh air, during the day, when busy. **Worse from warmth of room**, sunset, evening, night, afternoon, from 5 p.m. to 8 a.m.. Worse from motion, walking, standing, jarring, lying on left side, pressure of bed clothes, rubbing. Worse after miscarriage. **Worse from consolation**. Diarrhea worse early morning.

Mouth - Sweet taste in back of mouth. Foul taste, better eating. Taste of blood, during congestion to chest. Saliva abundant. Mouth and throat feel coated on waking in the night. Tongue, coated yellowish, white in patches. Darting pain from teeth to ear.

Nose - Sneezing, better pain in head and eyes. Discharge thin, clear, yellow mucus. Nose stopped up. Stoppage of right nostril with pain in right side of face. Rubbed her nose violently. Constant desire to pick nose.

Rectum - **Constant desire to defecate from pressure in rectum**, worse standing. Pressure downwards and backwards against rectum and anus. Weak, tremulous feeling extending to anus. Diarrhea, directly after dinner, sudden and peremptory. Early morning diarrhea after rising, urgent, cannot wait a moment. **Sensation as if diarrhea would come on**, passing off by urinating. Dysentery, mucus and blood with tenesmus, especially in plethoric and nervous women at menopause. Stool preceded by griping pains or great urging, with pressure on rectum. Stools, small, frequent with tenesmus. Tenesmus of the rectum and bladder. Hemorrhoids after childbirth.

Sensations - With nausea, a lump in center of chest which could be moved down by empty swallowing. As if an electric current in fingers and hands. As if cool wind blowing on lower limbs.

Skin - Tingling, formication, burning in various parts. Irritation of upper chest and arms and a fine rash about forehead and around borders of the hair with much itching. Skin of abdomen feels stiff and stretched.

Sleep - Yawning, stretching, drowsy. Unable to sleep on account of wild feeling in head. Slept soundly, but suddenly waked by desire to evacuate bladder. Restless sleep, wild feeling in head, everything seems too hot. Unrefreshing sleep with bad dreams, half-awaking, labored. **Frightful**, unpleasant dreams. **Amorous, lewd**, voluptuous dreams.

Stomach - Hollow, empty sensation in stomach and bowels. As if a hard body rolling around, during day only. Hunger, as if from spine. Flatulence. Nausea with sensation of lump in stomach. Nausea with pressure in vagina and pain at top of sacrum. Nausea with morning diarrhea. Morning sickness with frequent, copious urination. Retching, but no vomiting. Feels like vomiting when touching epigastrium. Vomiting from displacement of uterus.

Temperature - Chilly in cool open air, otherwise better. Chilly sensation running down face, head and back. Chills with violent beating of heart and constriction. Great heat and lassitude in afternoon with throbbing throughout body.

Throat - Soreness and dryness. Hawking of mucus with constant nausea. Enlargement of right tonsil, with exudation. Feeling of lump, with pulsations when lying.

Vertigo - Vertigo feeling as if intoxicated, head confused and heavy. Vertigo when walking, staggering forward. Vertigo better in fresh open air, worse in close room.

Vision - **Myopic astigmatism**, has to turn head sideways to see clearly, with frontal headache. Farsightedness. Presbyopia. Blurred vision with heat in eyes and lids. Blurred vision with prolapsed uterus. Dim vision after seminal emissions. Muscae volitantes.

COMMENTS - Characteristic downward dragging from shoulders, from thorax, from left breast, from epigastrium down to pelvis and out at the vagina as if everything would be forced through. Downward pressure in the rectum, bladder and loins.

General pelvic distress, affecting the bladder, rectum and back. Increased sexual instinct, more intense affect on female organs. High

Lilium tigrinum sex drive with bearing down pains (Sep., Murx.), and sharp, stabbing pains in the uterus. Consciousness of the ovaries as distinct, painful, burning spots with pains radiating from them down the thighs. Pains in the uterus and ovaries as if they were squeezed.

Premenstrual syndrome, worse consolation, very irritable before menses. Hurried and restless before menses (Arg-n., Sep.). Fatigue. Can have palpitations of tightness in the chest associated with menses or premenstrual syndrome.

Severe menstrual cramps (Sep.), as if squeezed with sharp, stabbing pains. Regular menses, flows only as long as she moves. Menses too soon, leucorrhea after menses. Intermittent, thin, brown leucorrhea, leaving a brown stain.

C. Sigmund Raue observed excellent results from Lil-t. 3x and 30c in cases of uterine fibroid presenting the characteristic symptoms of the remedy.

Another prover, a woman, 53, who had ceased to menstruate took a drop of Lil-t. 30c. She had a feeling of exhaustion as if the blood were pushed outward and later a blinding headache "as if all the blood were pressing outward through every aperture." Felt hurried and driven, without knowing why.

Sudden fluttering sensation in the heart, better if busy, with faintness, as though she could make no exertion but must sit still. Contractive pain in the heart, intermittent pressure. Alternate spasm and relaxation. Sharp pain in apex of heart. Pain and numbness in the right arm along with the heart pain. Alternation of heart pain with uterine or ovarian pains.

Intermittent action of the heart, every intermission is followed by a violent throb, causing an involuntary catching of the breath. At the same time, the blood rushes up through the carotids to the head, producing great heat and crowded feeling of head and face. Fever and sweat during the night.

Wandering pain, flying, shooting, squeezing and relaxing, opening and shutting, burning and radiating.

Lilium tigrinum

Pain radiates from ovary to heart, to left breast, down legs (especially left), across to opposite ovary, through left breast, to back from ilium, across sacrum. Pulling up sensation from the tip of the coccyx. Convulsive contractions of the muscles of the body. Backache. Generally left sided.

Intense restlessness, irritable nervous system, weak, trembling, aimless hurry, walks to and fro. Obscene thoughts. Disposition to strike and swear. Feeling as if she would be crazy if she did not hold tightly upon herself, feeling as if she must scream. Fear of dying.

One prover, who was astigmatic, had much suffering in the eyes during the proving, and found her astigmatism gone when the proving was over.

S. Lilienthal had among his symptoms "a sensation as if a rubber band were stretched tightly from temple to temple, as if a skullcap were crushing the head, as if the brain was being pushed through eyes and ears."

A patient to whom Clarke gave Lil-t. 30c said it caused a sensation in the abdomen as if the contents were "tied up in knots."

H. C. Allen noted the symptom "cannot walk on uneven ground."

Berridge cured a woman, 50, of heart pain, with a sensation as if the heart was grasped with a hand, with a cold feeling from apex of heart to under left scapula, excited by worry, worse lying on right side, better lying on left side and when busy at work.

RELATIONS - Antidoted by: Plat., Helon. (ante-version), Nux-v. (colic), Puls. **Compare:** (1) Cact., Helon., Murx., Sep., Plat., Pall. (2) Sep. - very like in most respects, but Lil-t. better by diverting mind and busying about, Sep. better by violent exertion, leucorrhea of Lil-t. is more excoriating, Lil-t. worse afternoon, Sep. better afternoon, Lil-t. pressure in anus, Sep. weight like a heavy ball. (3) Puls. - worse in warm room, venous stasis with taste of blood in mouth, weeping mood, Puls. quiet weeping. (4) Nat-m. - heart, uterus, coldness about heart. (5) Helon. - profound melancholy with consciousness of womb. (6) Cact. - heart constricted by iron band, constriction continuous, Lil-t. intermittent, uterine and ovarian pains. (7)

Sulph. - early morning diarrhea, burning palms and soles. (8) Zinc - heart symptoms better by lying on left side. (9) Pall, over-sensitive Plat., hauteur. (10) Aur. - prolapse, Aur. from weight of organ, Lil-t. from relaxation of ligaments. (11) Rhus-t. - pain and numbness of left arm with heart disease, Lil-t. more characteristic, right.

*****LIMULUS CYCLOPS**

(King-crab)

PHARMACY - lim. *Limulus cyclops*. King crab. *Limulus polyphemus*. *Polyphemus occidentalis*. Xiphosura. Horse foot. Saucepan. N. O. Merostomata or the pecilopoda of the Crustacea. Coast of North America. Triturations of the dried blood. **Historical dose:** Tincture and all potencies.

CLINICAL - Cholera. Colic. Constipation. Coryza. Diarrhea. Dyspnea. Fever. Hemorrhoids. Sea-bathing,

effects. Skin, affection. Strokes. **Vesicles.**

HOMEOPATHIC - Lim. was introduced by Hering, and partially proved by him and Lippe. Hering was surprised to see that the blood of the King crab he dissected was blue, and on investigation was found to contain copper. He thought it would prove to be another medicine for cholera.

The most notable symptoms include a rush of blood to the face with heat of the face and over whole body (Aster.). Bodily and mental exhaustion. Painful fullness of whole right side of body. Gastro enteric symptoms.

Drowsiness after sea bathing.

MIND - Mental depression. Weak memory. Forgetful, difficult to remember names. Confusion with heat of face, rush of blood to face, worse when meditating.

Abdomen - Abdomen hot and constricted.

Colic with heat. Cramp-like pain with watery stools.

Chest - Oppression of chest.

Eyes - Pain behind left eyeball.

Face - Flushing of face, worse in afternoon.

Rush of blood to face. Heat in face alternating with confusion in head.

Head - Headache from straining at stool.

Limbs - Crural neuralgia. Pain in right hip joint. Soles of feet ache, feel numb. Heels sore. Burning in palms.

Lungs - Husky voice. Dyspnea after drinking water. Oppression of chest.

Nose - Fluent coryza. Constant nasal dripping. Sneezing, worse drinking water. Pressure above nose and behind eyes.

Rectum - Hemorrhoids, constriction of anus.

Skin - *Itching spots and vesicles on face and hands.*

Throat - Husky voice.

COMMENTS-The only italicized Lim. symptoms in Allen are "Frequent rush of blood to the face and painful fullness of the whole right half of the body, especially here and there and in the lower limbs" and "heat, burning and constriction in abdomen."

Gastrointestinal disturbance, a choleric condition. Headache caused by straining at stool. Dyspnea, worse drinking. Coryza worse drinking cold water. Flushing of the face, worse in afternoon. Heat in face alternated with confusion in head.

RELATIONS - Compare: (1) Aster., Hom., Cupr. (2) Fenr. - flushing. Ind. - pains in head from straining at stool. Ars. - ill-effects of sea-bathing.

REFERENCES - Boericke. Clarke.

***LINARIA VULGARIS

(Snap dragon)

PHARMACY - lina. Linaria vulgaris. Snap dragon. Toad-flax. N. O. Scrophulariaceae. Tincture of fresh plant.

Historical dose: Tincture and all potencies.

CLINICAL - Apathy. Bedwetting. Diarrhea. **Fainting.** Hemorrhoids. Ophthalmia. Tongue, roughness. Tongue, prickling.

HOMEOPATHIC - In domestic practice, Linaria has long been used as a lotion for inflamed eyes and as an application for painful hemorrhoids. It is said to be purgative and diuretic. Lina, was proved by Muller, Raidi and others.

Farrington commended it for cardiac fainting, "faints dead away without apparent cause" ; and also in bedwetting, "bedwetting with frequent painful urging to urinate causing patient to rise at night." Carleton saw it produce "Fainting feeling three or four times a day, fainted away completely once."

Marked enteric symptoms. Pressure on stomach. Jaundice, splenic and hepatic hypertrophy. Salivation. Constriction of the throat. Thirst with rough tongue. Belchings. Nausea, vomiting. Bedwetting. Rectal symptoms. Diarrhea, with profuse urination. Better by taking tea with milk.

Great tiredness. General prostration. **Irresistible sleepiness.** **Fainting from heart weakness.** Confusion in the head. Coldness. Oppression of the breathing and stitches in the chest. Symptoms worse walking in open air.

MIND - Peevish mind. Indifferent. Confusion, stupid feeling in the head.. Ill-humor with dull pain in forehead, with fever, after the sleep, lasting until midnight.

RELATIONS-Antidoted by: Tea in milk. **Compare:** (1) Dig. - fainting and other Scrophularia. (2) Caust., Eup-per., Equis. - bedwetting.

REFERENCES - Boericke. Clarke.

***LINUM CATHARTICUM

(Purging Flax)

PHARMACY - linu-c. Linum catharticum. Purging flax. N. O. Linacee. Tincture of whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Bronchitis. Cough. Diarrhea. Hemorrhoids. Laryngitis. Rheumatism.

HOMEOPATHIC - Proved by Stokes and Gaston, Linu-c. has marked colic and diarrhea of loose, bright yellow stools and also of slender stools.

Nasal and respiratory catarrh, stuffed-up condition of nose and chest. Troublesome cough and difficult expectoration of frothy, yellow mucus. Menses omitted or delayed. Depressed sexual functions in men, absence of desire in women.

MIND - Dullness and depression. Irritable.

Modalities - Cough, worse walking in open air. Headache, better in open air and from eating.

RELATIONS - **Antidoted by:** Sulph. (headache). **Compare:** Linu-u.

REFERENCES - Clarke.

***LINUM USITATISSIMUM

(Flax-seed)

PHARMACY - linu-u. Linum usitatissimum. Flax-seed. Linseed. Common flax. Source of Linseed or Flax-seed. N. O. Linacee. Trituration and tincture of seed, meal, oil or freshly made poultice. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Convulsions. Hay fever. Headaches. Tongue, paralysis. Trismus. Urticaria.

HERBAL - Linseed-tea and linseed poultices are among the most innocent of domestic remedies, but occasionally the application of a linseed poultice has produced severe respiratory disturbances such as asthma, hives, etc. It has been found to contain a small quantity of hydrocyanic acid, which may account for this intensity.

The **“soothing” effects** of linseed-tea and linseed poultices are really of a specific and homeopathic nature. A teaspoonful of whole linseed, steeped in warm water for half an hour and then taken, acts as a laxative.

HOMEOPATHIC - Linu-u. is marked by **intense irritation**. The decoction is of service in inflammation of the urinary passages, cystitis, strangury, etc. Diseases of the intestinal tract. Trismus and paralysis of the tongue. Asthma, hay fever and urticaria.

MIND - Perfectly conscious, but only able to express herself by signs.

Eyes - Unpleasant heat, burning, dryness. Intense conjunctivitis. Chemosis. Swelling of lids, completely closes eye in one hour, edema persisted three days.

Face - Face red and slightly moist. Violent, dull pain in cheeks and temples. Jaws immovably clenched.

Head - Heavy frontal headache. Violent

pain in cheeks and temples. Rigid and prominent temporal muscles, jerk rapidly. Head shakes spasmodically in measured time.

Limbs - Upper limbs shaken by spasms, but pliable and uncontracted.

Lungs - Bronchial asthma. Livid, struggles for breath.

Mouth - Tip of the tongue turned upwards and backwards so as to touch the velum palati. Tongue drawn down into her throat. Complete paralysis of tongue. Could not articulate a syllable.

Nose - Irritation rapidly extended through lachrymal duct to nose. Heat, burning dryness with indescribably scraping. Itching sensation, nearly driving him wild. Nasal passage completely closed, compelled to breathe through mouth.

Skin - Herpes. Urticaria. One complete blotch from crown to toes, smarting, stinging, burning.

Stomach - Great weight in stomach. Fullness in stomach and precordial uneasiness, followed by convulsions. Severe colic. Vomiting with copious stools.

Throat - Irritation continued from eyes and nose down into throat. Throat filled with large white blisters.

COMMENTS - Clarke quoted the case of a woman in which the application of a linseed poultice to an ulcer over the right shin-bone produced an attack of asthma which nearly proved fatal. It was not the first time this had happened to her and she protested, but in vain, against the doctor's order. If a linseed poultice even come near her she felt constriction of the chest.

The doctor who ordered the poultice and reported the case, was speedily summoned to witness the worst attack of asthma he had ever seen. The patient was livid and struggling for breath. When the poultice was removed the symptoms gradually subsided. A crop of herpes appeared where the poultice had been and an eruption of urticaria over back, chest and arms.

Dr. A. G. Towner related his own experiences, noting that when he lived in New York state he could handle

linseed in all forms freely, but after moving to Illinois, it affected him powerfully.

Once he rubbed his eye while preparing a poultice; intense conjunctivitis came on at once, chemosis, and in an hour the eye was closed and did not come right again for three days. The irritation passed along the lachrymal duct and the same burning and irritation took place in the nose, nearly driving him wild.

The swelling closed the nostrils and he had to breathe through his mouth. The irritation still spread, affecting the throat, which was covered with large white blisters and a desperate attack of bronchial asthma supervened, slightly relieved by large doses of Ip.

In two hours, the skin became affected with an attack of "hives" (urticaria). "I was one complete blotch from the crown of my head to the end of my toes, a complete bodily eruption, smart, sting, burn." He had five of these attacks.

The steam of a poultice would cause coryza, the dust would occasion a complete attack. One was caused by inadvertently eating a lozenge containing linseed.

An entirely different set of symptoms was recorded by Allen in which a girl, 19, drank a cupful of milk into which she had poured by mistake some spoonfuls of linseed oil. Immediately she felt a fullness in her stomach and precordial uneasiness. She vomited profusely and had copious stools. She went to bed, where she was seized with spasms.

Head shook spasmodically in measured time, the eyes and prominent temporal muscles jerked rapidly. Jaws clenched. Tongue paralyzed and drawn down into throat. All the time the brain was quite clear.

A clyster of Asaf, gave temporary relief, but the symptoms recurred for a time with renewed violence. On the third day she was quite recovered, but her health was not good for some time.

RELATIONS -Antidotedby: Ip., Asaf. **Compare:** (1) Linu-c. - in asthma and skin disorders. (2) Ars., Chloral., Apis.

***LIPPIA MEXICANA

PHARMACY - lip. Lippia mexicana. N. O. Verbenaceae. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - The leading indication for Lip., as noted in the Chicago Medical Times, is a cough occurring every winter, especially in women. Hoarse ringing or barking chest coughs, without expectoration.

REFERENCES - Clarke.

***LIPPSPRINGE AQUA

(Lippspringe Springs)

PHARMACY - lipp. Lippspringe aqua. Lippspringe springs. The waters of the mineral spring in Lippspringe. Westphalia. Containing the sulphates of sodium and calcium, the chloride of magnesium and other salts in smaller proportion with carbonic acid, nitrogen and oxygen gases. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Hemoptysis. Hemorrhoids. Jaundice. Leucorrhea. Menorrhagia. Urinary stones. Urticaria. Worms.

HOMEOPATHIC - Lipp, is a cold, sulphurated, saline spring, very gaseous, with a saline and piquant taste. James wrote, "It is used in drink and bath as a refreshing and laxative medication. It is vaunted above all against commencing tuberculosis complicated with hemoptysis, when the subjects are plethoric, irritable and liable to pulmonary congestion."

The homeopathic data on Lipp, are derived partly from provings and partly from observations on patients. Marked purging or diuretic effect. Increased quantity of urine, with great urging. Urinary stones.

In one case, there was "a peculiar feeling of comfort" after urination. Alternation of bloody stools with hemoptysis occurred in one case. "Itching of nose and anus" suggests Lipp, as a worm remedy.

Jerking of the limbs, uneasiness, cramps in calves. Sneezing, palpitation, cramp and restlessness were worse evening. Perspiration and diarrhea were worse at night.

Heaviness of chest, worse after sex and from smoking. Worse by walking, better after urination.

MIND - Depressed, sad. In table. Apprehensive, worse riding in carriage, a kind of anxiety in the heart of impending misfortune with homesickness. Weak memory. Great desire to write.

RELATIONS - Compare: (1) Calc-s., Nat-s., Mag-m. Restlessness, Rhus-t., Zinc., Caust.

(2) better by urination, Gels., Eug., Lith-c. (3) worse after sex, Kali-c.

REFERENCES - Clarke.

LITHIUM BENZOICUM

*****(Lithium Benzoate)**

PHARMACY - lith-be. Lithium benzoicum. Lithium benzoate. **Historical dose:** All potencies.

CLINICAL - Gallstones. Uric acid, deposits.

HOMEOPATHIC - Hale quoted T. O. Summers as saying that Lith-be. had great effect in diminishing uric acid deposits and increasing the free hippuric acid of the urine. "It acts upon the urine before it leaves the blood." Deep-seated pains in loins in small of back. Uneasiness in bladder. Frequent desire. Bladder irritation. Diminishing uric acid. Gallstones.

REFERENCES - Boericke. Clarke.

LITHIUM BROMATUM

(Lithium Bromide)

PHARMACY - lith-br. Lithium bromatum. Lithium bromide. Trituration. Tincture. **Historical dose:** All potencies.

CLINICAL - Cerebral congestion. Epilepsy. Insomnia. Speech, thick. Strokes. Vertigo.

HOMEOPATHIC - Weir Mitchell gave thirty grains to a man (who had a previous attack of stroke and was hemiplegic) for numbness, vertigo, headache and thickness of speech. The one dose removed them in half an hour.

Mitchell gave Lith-br. in epilepsy when other bromides were not borne. Hale mentioned that it removed flushed face, insomnia and intense pain between the shoulder after any prolonged mental exertion. Cerebral congestion, threatened strokes, insomnia and epilepsy.

REFERENCES - Boericke. Clarke.

*****LITHIUM CARBONICUM**

(Lithium Carbonate)

PHARMACY - lith-c. Lithium carbonicum. Lithium carbonate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. Aneurysm. Angina pectoris. **Barber's itch.** Bubo. Coryza. Cystitis. **Depression.** Dyspepsia. Eye disorders. Gallstones. Glands, swelling. **Gout. Headaches.** Heart disorders. Hemipia. Hernia. Kidney, disorders. **Manic, depression.** Menstruation, disorders. Nose disorders. Obesity. Ossification of arteries. Prostatitis. Retina, anemia. **Rheumatism.** Spleen disorders. Stomach pain. Syphilis. Urethritis. **Uric acid diathesis.** Urinary disorders.

HOMEOPATHIC - Hering introduced and made the first provings of Lith-c. It affects the entire organism, but notably the head and eyes, urinary organs, heart and joints. **Uric acid diathesis.** Gout and tophi. Acidity.

Chronic rheumatism connected with heart lesions and asthenopia. Rheumatism connected with heart or eye lesions. Rheumatic nodes. Arthritic complaints accompanied with heart or eye symptoms. Recurring attacks of acute inflammation of the small joints.

Whole body feels sore and heavy. Pressing from within outward in head, abdominal ring, perineum, chest. Pain as of dull point. Violent sharp pains, as from red hot needles. Paralytic stiffness of the whole body. Prostration. Increase of bulk and weight.

Dry and harsh skin. Hot water aggravates the itching. Effects of bruises and falls. Bruised spots from falls and blows. Open air causes post-nasal dripping from nose and constriction of chest. Inspired air feels cold even into lungs.

MIND - Absent-minded. Slow, confused mind. Concentration difficult. Difficulty in remembering names. Makes mistakes while talking, omitting words, mispronounces, words. Want of self confidence. Timidity, bashful.

Restless, nervous. Anxiety and hopelessness at night, about future. Startled easily. Oversensitive. Easily irritable. Impatient. Quarrelsome, scolding. Averse to being spoken to, to being touched. Wants to be left alone.

Depression. Sadness, despondency. Disposed to weep about his lonesome condition. Staring, thoughtless.

Manic depression. Obsessive compulsive disorders. Claustrophobia. Fear in narrow places.

Abdomen - Feels swollen as if distended with wind. Cannot endure slightest pressure of clothes from fullness in epigastrium (Lach., Lyc.). Pressure, pain in hepatic region. Pain in left abdominal ring like a pressing from within outward. Indurated inguinal glands. Syphilitic bubo in left groin.

Back - Pressure as from a dull point, here and there. Sticking pain in sacral region. Soreness in right side, extending to sacrum. Prostration in sacrum at night.

Bladder - Tenesmus of bladder, while and after urinating. Soreness of bladder with frequent urination. Pain in bladder extending to spermatic cord after urination. Flashes of pain in region of bladder, more towards right, before urination. Burning in urethra. Sub-acute and chronic cystitis.

Breasts - **Pain in breast glands, which extends into the arms and fingers.**

Chest - Constriction of chest when walking in open air, after breakfast. Pressure in middle of chest from within outward, towards sides.

Constitutions - Gouty constitutions. Uric acid diathesis.

Ears - Pain behind left ear, extending to neck.

Eyes - Pain over eyes. Photophobia. Eyes sensitive after using them by candlelight. Eyes pain after reading. Dry lids.

Face - Prosopalgia. Both cheeks are covered with dry, bran-like scales. Glandular swellings on left side of face, throat and neck, some suppurating.

Female - Menses late, scanty. Menses cease suddenly and headache comes on.

Food - Appetite diminished. Appetite satisfied on beginning to eat. Worse after fruit

Lithium carbonicum or chocolate.

Head - Tension, as if bound, better sitting and going out. Constriction of forehead. Pains over the eyes.

Headache, better while eating, but returns and remains until food is again taken. Headache from sudden suppression of menses. Head feels too large. Externally sensitive. Trembling and throbbing. Head pain, better rubbing.

Heart - Trembling and fluttering of the heart, extending to back, worse vexation. Throbbing, dull stitch in cardiac region. Sudden shock in heart. Rheumatic soreness in heart region. Heart pain, extends to head. **Sore pain in heart, with eye symptoms.** Heart pain associated with bladder pains, better after urinating. **Heart symptoms, worse bending forward and better after urinating.** Pressure in heart while urinating. Heart pain before menses.

Kidneys - Pain in right kidney and ureter. **Uric acid diathesis.** Frequent, copious urination disturbing sleep. While urinating, pressure in heart. Urine scanty with much thirst. Urine with red brown sediment. Urine less in spite of taking normal drinks. Urine, free and colorless. Turbid urine with mucus. Urine scanty and dark, acrid, sandy deposits.

Limbs - Paralytic stiffness all over. **Uric acid diathesis.** Arthritis and gout. **Gout with pains in joints.** Rheumatic pains throughout shoulder joint, arms, fingers and small joints. **Pain in joints, relieved by very hot water.** Nodular swellings in joints. Ankle joint pains while walking. Pain in hollow of foot, extending to the knee. Swelling and tenderness of finger and toe joints, better hot water. Itching about joints, feet and hands. Soreness of fingers, better grasping.

Lungs - Air feels cold on inspiring, even into lungs. Violent cough when lying down. Cough from irritation in throat. Expectoration of much mucus.

Male - Pain in testes. Sharp pain in penis when sitting. Erections after copious urination at night. Erections disturbing sleep, better urinating. Gonorrhea with hemorrhage, alternating with thick, profuse discharge.

Modalities - Better from rest, eating, urinating. Better motion, rising and moving about outside. Worse in morning, at night, motion, on right side. Worse during menses, after menses suppressed.

Mouth - Teeth feel numb, dull and loose, can't bite on them.

Nose - Swollen and red nose, especially right side. Nose internally sore and dry. Soreness of tip of nose. Nose obstructed, worse morning and forenoon. Coryza, dripping from nose in open air. Mucus discharge in evening.

Perspiration - Copious sweats.

Rectum - Violent, painful, dull stitch in perineum near anus, from above downward, from within outward. Emission of much offensive flatus on awaking from sleep. Diarrhea, stools light-yellow, offensive, worse from fruits or chocolates.

Sensations - Temples as if bound. Head too large. Eyes dry. As if veil before eyes. Lancination as from red-hot needles in bubo. Arm as if paralyzed. Border of foot and soles as if gouty, itching.

Skin - Dry, harsh skin. Rough rash all over body, much loose epithelium tough, dry, itchy skin. Dull stitch, ending in itching. Eczema. Scabby, tettery eruption on hands, head and cheeks, preceded by red, raw skin.

Barber's itch.

Sleep - Sleepless the whole night with anxiety and feeling of helplessness. Restless sleep. Sleep disturbed by pains in joints, sacrum and feet. Sleep disturbed from copious urination, followed by erections. Voluptuous dreams, disturbing sleep.

Stomach - Acidity of stomach. Sticking, burning pains. **Gnawing pain in stomach, better by eating** (Anae.). Nausea with gnawing in stomach.

Temperature - General feeling of heat in body. Fever with sweat on back of hands. Shuddering starting from chest.

Throat - Soreness of throat, extending to ear. Lumps of mucus drip into throat. Hawking up mucus in large quantities.

Vertigo - Vertigo with ringing in the ears. Vertigo during headache. Vertigo as if floating. Dizzy states.

Vision - Asthenopia. Hemipia with pain

over eyes, invisible right half, worse during menses. Black motes. Sunlight blinds him. Sensation as if a veil before eyes.

COMMENTS - Keynote soreness. Bones, joints, muscles, whole body sore as if beaten. Prostration of whole body, especially knee joints and sacrum. Paralytic stiffness of whole body. Pressing from within outward, in head, abdominal ring, perineum, chest. Bruised spots from falls or blows.

Rheumatic soreness in heart region. Heart symptoms, worse bending forward and better after urinating, though worse on rising to urinate. Heart pain before and during menses. Menses cease suddenly and headache comes on.

Heaviness, better while eating, worse after. Confusion in the head. Eyes pain as if sore. Red and inflamed nose, dropping of solid lumps down the back of the nose. Acidity of the stomach.

According to Allen, lithium lactate has been found valuable for sub-acute rheumatism of the shoulder joint.

RELATIONS - Compare: (1) Lyc., Am-p., Benz-ac., Calc. (2) Lithium benzoicum, Lithiumbromatum, Lithium lacticum, Lithium chlor.

REFERENCES - Boericke. Clarke.

***LITHIUM LACTICUM

(Lithium Lactate)

PHARMACY - lith-lac. Lithium lacticum. Lithium lactate. **Historical dose:** Trituration and all potencies.

CLINICAL - Joint, pains. Rheumatism.

HOMEOPATHIC - A chemist, while preparing a combination of lactic acid and lithium carbonate, experienced rheumatic pains in the small joints. On this hint, Berghaus used Lith-lac. in local sub-acute rheumatism with good effect.

Allen said it especially affects the shoulder. Rheumatism of the shoulder and small joints, relieved by moving about, worse resting.

REFERENCES - Boericke. Clarke.

***LITHIUM MURIATICUM

(Lithium Muriate)

PHARMACY - lith-m. Lithium muriaticum. Lithium muriate. Dilute muriatic acid was saturated with the caustic and carbonate of lithium and evaporated. Solution. **Historical dose:** Trituration and all potencies.

CLINICAL - **Blurred, vision.** Heartburn. Heart, pains. Nose, sore. Tongue, numb. Vertigo. **Weakness.**

HOMEOPATHIC - Hering, who proved Lith- c., also proved this salt. He put one drop on his tongue, it had a fatty-salt taste. The tongue became numb as if fat were on it. Pains in the head, back teeth and heart.

Gohrwisch, who took the third dilution, had pains in the heart region and a hot, burning uprising in the throat and pit of stomach like heartburn. He also had pains in his teeth. The tip of the nose was red, sore and somewhat swollen.

Lith-m. has the symptoms of quinine poisoning. **General weakness**, marked muscular and general prostration, no gastrointestinal effects.

Nose sore, heartburn, pain in teeth. **Dizziness.** Head feels full. **Blurring of the vision.** Ringing in ears, marked tremors.

RELATIONS - Compare: (1) Lith-c.

REFERENCES-Clarke.

***LOBELIA CARDINALIS

(Red lobelia)

PHARMACY - lob-c. Lobelia cardinalis. Red lobelia. Cardinal flower. N. O. Lobeliaceae. Campanulaceae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anorexia. Debility. Headache. Sore throat.

HOMEOPATHIC - S. D. Dubs proved Lob-c., taking ten drops of the tincture in one dose. Dubs' symptoms were confirmed by a second proving by Kopp.

Burning in mouth and throat. Sticking and pricking sensation in various parts, especially left chest and left hypochondrium. Oppression of breathing.

Headache at base of occiput worse by motion and shaking head, stiffness in nape. Throbbing and weakness in lower limbs.

Most of the effects of Lob-c. lasted two weeks and it was three weeks before the appetite returned. Thirst for cold water, relieving the burning in tongue and fauces. Many symptoms occurred at 8 a.m. Sleepy, but difficulty

in sleeping.

COMMENTS - A woman, to whom Cooper gave one dose of Lob-c., had "flashes of light before eyes every day for a week." Cooper said it seemed to have an action distinct from that of other lobelias, since a dose of it brought back pains which had been relieved by Lob-d.

RELATIONS - Compare: (1) Lob., Lob-s. (2) Caps. - burning in mouth and throat, but Caps, is worse by cold water, Lob-c. better.

REFERENCES - Boericke. Clarke.

LOBELIA DORTMANNA

PHARMACY - lob-d. Lobelia dortmanna. N. O. Lobeliaceae. Campanulaceae. Tincture of fresh plant. Principal indigenous British species, found in shallow lakes. **Historical dose:** Tincture and all potencies.

CLINICAL - Ears, noises. Headache. Indigestion. Pyloms, affections.

HOMEOPATHIC - Cooper observed the Lob- ri. symptoms on patients after single doses of the tincture were allowed to exhaust their action. According to him, Lob-d. has much in common with Lob-e. and Lob-i.

RELATIONS - Compare: (1) Lob-i., Lob-s. **REFERENCES**-Clarke.

LOBELIA ERINUS

PHARMACY - lob-e. Lobelia erinus. N. O. Lobeliaceae. Campanulaceae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - Great dryness of skin, nasal and buccal mucus membranes. Dry patches of eczema, covering points of first fingers.

Malignant growths, extremely rapid development. Malignant disease of the face. Epithelioma. Skin cancer.

Cancer of the omentum. Cork-screw like pains in abdomen. Aversion to brandy.

Breasts disorders with tenderness of axilla, large, soft swelling. Left breast indurated and discharging. Left breast with scattered indurated nodules over adjacent tissues, burning and stinging pains, left arm swollen.

RELATIONS - Compare: Plb.

REFERENCES - Boericke.

*****LOBELIA INFLATA**

(Indian Tobacco)

PHARMACY - lob. Lobelia inflata. Indian tobacco, Puke weed. N. O. Lobeliaceae. Cam- panulaceae. Fields and roadsides from Canada to Southern U.S. Tincture of fresh plant when in flower and seed. Trituration of dried leaves. Acetum. **Historical dose:** Tincture and all potencies. Locally the tincture is antidotal to poison oak.

CLINICAL - Alcoholism. Allergies. Alopecia. Amenorrhea. Angina pectoris. **Asthma.** Bronchitis. Cardialgia. Coughs. Croup. **Deafness.** Diarrhea. Dysmenorrhea. **Dyspepsia.** Dyspnea. Emphysema. Faintness. Gallstones. Gastralgia. Hemorrhoids. Hay-asthma. Heart disorders. Hysteria. Meningeal headaches. Miller's, asthma. Morning sickness. Morphine, effects. **Nausea.** Palpitations. Pleurisy. Psoriasis. Rigid os. Seborrhea. Shoulders, pain. Stomach, disorders. Tea, effects. **Tobacco, habit. Tobacco, effects.** Urethra, stricture. Vagina, discharge. **Vomiting**, pregnancy. Wens. Whooping cough.

HERBAL - Matthew Lobe, whose name is given to this family of plants, was a physician and botanist attached to the court of James I. There are two British species, Lobelia dort- manna, found in shallow lakes, and Lobelia urens, which grows in healthy places.

Lobelia inflata, the North American variety, is the most important medically. According to Hale, this plant was used by the Indians as an emetic detergent in the same way as Verat. was used by the ancients to produce "Helleborism."

Samuel Thompson of New Hampshire, who founded the modern Botanical School, used chiefly lobelia, cayenne pepper and the

vapor bath. Often the acetum lobelia acts better than any other preparation.

In veterinary practice, it is said to have proved curative in the tetanus of horses, a disease it is also said to produce.

Lobelia probably obtained the name of "Indian Tobacco" from the similarity of its action to that of tobacco in producing intense nausea, vomiting, profound depression at the epigastrium and collapse. Treatment should always begin with a single dose if the symptoms permit, as in some cases it produces violent depression.

It must be kept in mind when studying lobelia that the herbalists used it in two forms: the decoction to produce emesis and through which they seem to have obtained its antidotal action or by virtue of which they aborted acute gout, and the acetum tincture, which they gave in chronic diseases and in moderate doses."

HOMEOPATHIC - Lobelia is a vaso-motor stimulant, increases the activity of all vegetative processes. It spends its force mainly upon the pneumogastric nerve, producing a depressed, relaxed condition with oppression of chest and epigastrium, impeded respiration, nausea and vomiting.

Asthma and gastric disorders with fatigue, relaxation of muscles, **nausea, vomiting and dyspepsia. Asthma** and labored breathing. Asthma with stomach disorders. **Nausea and vomiting** with nearly all the lung troubles or stomach disorders. **Deathly sickness all over** with oppressed rattling respiration. Diphtheria. Increased secretions, relaxation and weakness with sweat. **Catarrhal jaundice** (Chion.). **Suppressed discharges** (Sulph.). Sits with elbows on knees. **Cannot bear the odor of tobacco**, though addicted to its use. Bad effects of drunkenness.

MIND - Great depression and exhaustion. Despondent. Sobbing and weeping like a child. Presentiment of death and dyspnea. Fear of death. Felt he was dying with distress at chest. Felt he was dying, but was unconcerned.

Mentally restless. Confusion after eating, from motion. Lost his reason and became convulsed, it required several men to hold him. Violent raving with flushing of face and palpitations.

Abdomen - Abdomen distended with shortness of breath. Cutting and drawing pains in abdomen, worse after eating with headache. Sudden sharp pain, in left side of abdomen. Violent and painful constriction in epigastrium. Gripping and twisting with nausea, violent risings and emission of foul flatus. Borborygmi. Rumbling in bowels and passage of flatus downward. Intussusception of bowels. Incarcerated hernia.

Back - Pain in sacrum, cannot bear slightest touch. Sits leaning forward. Swelling and pain left side of neck. Rheumatic pain between the scapula. Dull pressure between scapula. Pain under right scapula worse bending forward. Burning, in back, as if in posterior wall of stomach.

Breasts - Pain in the breast. Burning feeling in breast, passing upward. A tightness of the breast with heat in forehead. Drawing in left breast from nipple to axilla.

Causations - Alcohol, tea, tobacco, smoke. Wetting feet. Suppressions. Foreign bodies.

Chest - Burning, pricking in air passages. Burning feeling in the chest, passing upwards. Constriction or oppressive fullness in chest. **Sensation of pressure or weight in chest, better by rapid walking.** Violent pains in chest, worse on breathing deeply. Tension in chest on turning body. As if band about chest with irresistible desire to cough. Rattle in chest, but does not expectorate.

Constitutions - Suited to persons inclined to be fleshy. Weak lungs.

Cough - Cramping, ringing cough, short breath, catching at throat. Spasmodic cough with sneezing, belching or gastric pain, worse motion. Single cough with a feeling of narrowness in chest. **Cough with vomiting**, yawning. Whooping cough, violent, racking, followed by expectoration of ropy mucus. Third stage of whooping cough, when expectoration ceases, or

Lobelia inflata when relapses occur. Inflammatory condition of mucus membrane of larynx, trachea and bronchi. Irritation provokes coughing and expectoration.

Ears - Aching in left ear. Constantly recurring earaches. Sudden shutting up of right ear, as if stopped by a plug. Profuse discharge from the ear. Shooting pain extending into left ear from painful spot in throat. **Deafness due to suppressed discharges**, otorrhea or eczema.

Eyes - Burning pain in eyes. Pain and soreness in right eye. Itching in angles of eyelids. Pressing pain in eyeballs, most in upper part. Pupils dilated. Hemipopia. Vision dim.

Face - Sudden pallor. Bathed in cold sweat. Sweat on face with nausea. Heat of face. Chilly feeling in left cheek extending to ear. Neuralgia of face with retarded menses.

Female - Suppressed menses. Menses too early, too profuse. During menstruation violent pain in sacrum. Labor pains with shortness of breath, rigid os and perineum. Pain in her sacrum and a sense of weight in genitals. Violent pain in the sacrum with fever.

Head - Dull, heavy pain. Pressive pain on left side of occiput, worse at night and from motion. Sudden shocks through the head. **Gastric headache with nausea, vomiting and great prostration. Sick headache with vertigo.** Headaches, worse afternoon until midnight, coughing, **from tobacco or tobacco smoke.** Brain racked by cough which causes intolerable pain. Heaviness in head with lassitude in back. Wens. Seborrhea.

Heart - Deep-seated pain in region of heart. Precordial anxiety. Sensation of weakness and pressure in epigastrium rising to heart. Pulse, weak or soft, flowing. Sensation as if heart would stand still.

Kidneys - Sticking pain in region of right kidney. Urine suppressed or infrequent. Increased secretion of urine, sometimes with want to urinate. Urine cloudy, deep red, with loose deposit, dull red or brown sediment, soon becoming turbid.

Limbs - Shooting pains through whole body, into fingertips and toes. Rheumatic feeling in right shoulder joint, goes to left upper arm and around elbow joint. Fine crawling stitches inside of right deltoid. Rheumatic pain in right elbow joint. Sweat of palms, backs of hands dry and cool, fingertips cold.

Lungs - **Asthma preceded by prickling all over.** Asthma, attacks with weakness, felt in pit of stomach. Sighing. **Hyperventilation.** Short inhalation and long, deep exhalation. **Panting, threatened with suffocation, fear of death. Dyspnea from constriction of chest, worse any exertion.** Dyspnea from short

exposure to cold. Dyspnea, with sense of a lump in stomach rising into mouth. Rattling in chest but no expectoration. Difficult breathing during labor pains. Emphysema with very dry tracheal and bronchial catarrh. Senile emphysema.

Male - Fatiguing heaviness, weight, in genital parts. Smarting of the prepuce.

Modalities - Better in afternoon, toward evening. Better from rapid walking, eating a little, warmth. **Worse tobacco or tobacco smoke.** Worse afternoon, evening and night, after sleep, cold, cold bathing. Worse slightest motion, exertion, touch, tea, suppressions, foreign bodies. Warm food causes vomiting.

Mouth - Acrid, burning taste in mouth, bitter, with foul tongue and thirst. **Mercurial taste.** Sharp, disagreeable taste in mouth at tip of tongue and back of throat. **Profuse salivation with good appetite.** Flow of clammy saliva in mouth with nausea. Tenacious mucus. Tongue white with a thick coating, on right side only. Dull, pressing pain in last left molar and temples.

Nose - Nosebleeds. Tip of nose very cold. **Cannot bear smell or taste of tobacco.**

Perspiration - Profuse sweat and prostration. Sweats towards evening or at night. Copious sweats at night. Cold sweat. Sweats after fever. Sweats with sleep. Sweats after vomiting, breaks out all over with sweat. Sweats followed by a sensation as if thousands of needles were piercing her skin from within outward.

Rectum - Discharge of black blood right after stool. Copious hemorrhages from hemorrhoidal vessels. Stools like pap, soft, green, diarrhea, sometimes with frequent evacuations and confusion of head. Soft, whitish stool.

Sensations - As if foreign body in throat. As if lump in pit of throat. As if esophagus contracted from below upward. As if a lump rose up to meet food and obstruct its descent. As if a lump or heavy load in stomach. Fullness in trachea as if from chest. As if a lump in larynx. As if the heart would stand still. As if a band about chest. As if blood stagnated in chest (better moving about). As if thousands of needles were pricking her skin from within outward.

Skin - **Prickling, itching all over body, with nausea.** Vesicular itch-like pustules with tingling itching. Vesicular eruption on skin. Eruption between fingers, on dorsum of hands and on forearms. Plaques of edema with ecchymoses.

Sleep - Yawning, followed by crawling in nose and sneezing. Yawning and belching of gas. Disturbed sleep with many dreams, sometimes anxious, painful dreams. Dreams are many without intermediate awakening, cold sweats. Dream that arm was amputated, of being wounded by a shot. Wakened early by very vivid dreams.

Stomach - **Faintness and weakness of epigastrium.** Sensation as if esophagus were contracted from below upward. As if a lump or heavy load in stomach. Acrid, burning taste, acidity with contractive feeling in stomach. Acidity, flatulence, shortness of breath after eating. Frequent gulping up of a burning, sour fluid. Profuse flow of saliva with retching, hiccough, dyspnea with good appetite. Heartburn with profuse flow of saliva. Hiccough followed by drowsiness. **Extreme nausea and vomiting.** Deathly nausea with vertigo, better by a little drink or food, worse night and early morning. **Nausea with prickling itching of skin.** Nausea and vomiting with profuse sweat, on face with respiratory symptoms. Morning sickness, suddenly disappears better by a little food and drink.

Temperature - Chilliness, coldness, of whole body, better near fire or from heat, worse after drinking. Thirst before the chill and through the whole fever. Intermittent fevers, commencing at noon with great paleness and anorexia. Heat with tendency to perspire.

Throat - Burning in throat, dryness of fauces. Dryness and pricking in throat, not better drinking. Sensation as if a lump in throat, impeding swallowing and respiration. Tickling in larynx with frequent fits of short coughing. Sensation of fullness in trachea. Spasmodic croup, with nausea, vomiting and threatening suffocation.

Vertigo - Vertigo with fear of death, nausea. Vertigo as if starting from left eye. Cerebral suffering, giddiness. Headache with slight giddiness.

COMMENTS - In Walter Besant's Life of Edward Henry Palmer, Palmer's own account of his cure by lobelia is recorded. In 1859, he was seized with pulmonary disease, which rapidly increased until he was told he had probably only a few months to live.

On the advice of a herbalist named Sher- ringham, he took a single large dose of lobelia and experienced a violent attack of vomiting, a cold chill mounting up from his feet, to hands, which he could no longer move, to his heart, which ceased to beat, to his throat, which ceased to breathe.

A doctor was sent for. "I felt myself dying," he said afterwards, describing the experience, "I was being killed by this dreadful cold spreading all over me. I was quite certain that my last moments had come. By the bedside stood my aunt, poor soul, crying. I saw the doctor feeling my pulseless wrist, watch in hand, the cold dews of death were on my forehead, the cold hand of death was on my limbs. Up to my lips, but no higher, I thought I was actually dead. I could see and hear but not speak, not even when the doctor let my hand fall on the pillow and said solemnly, 'He is gone.'"

Palmer said there was no pain, he was in no concern except about a book he wanted to finish. He recovered suddenly.

New strength came to him. The tuberculosis was arrested and was no more trouble to him for the rest of his life.

Symptoms concomitant with hereditary syphilis. Childhood tuberculosis. Childhood bronchopneumonia. Imperfect recoveries from chest affections, especially where tubercle threatens. Severe inflammatory conditions existing along with anthrax or with malignant deposits in different regions, useful in repeated as well as in single doses.

Whooping cough with dyspnea threatening suffocation. Must keep mouth open to breathe. Asthma with dryness of the throat and mouth, and a constricted feeling as if a band across the chest. Asthma with stomach nausea and vomiting (Ip.).

Pressive headaches, at the occiput, less frequently at the forehead, sometimes onesided (left), worse by motion, in evening, and especially at night. Continual periodic headache in the afternoon and increasing until midnight, every third attack being alternately more or less violent. Headache following intoxication, worse afternoon until midnight, worse from tobacco.

Brain racked by a cough, causing an intolerable pain. Heat and sweat about the head and face. Persistent earaches and headaches due to suppressed discharges, where the lips are dry and hot and continual feverish colds are prominent (Ars-i.).

Semi-lateral coating of the tongue. Continuous nausea with constant flow of saliva and sensitivity to the smell of food or tobacco, especially during pregnancy (Ign., Sep, Colch.).

Gastric derangements, extreme nausea and vomiting. Vomiting, face bathed in cold sweat. Sudden pallor with profuse sweat. Morning sickness, effects of suppressed or missed menstrual periods.

Exfoliating rash, psoriasis. Faulty secondary digestion. Thin, poor, without appetite. Tabes mesenterica. Pediculi corporis.

Conditions due to suppression, including cases of tuberculosis. Ailments that never finish, whether beginning from acutely inflammatory causes or not, it also fights with symptoms occasioned by mechanical

Lobelia inflata

irritants, e.g., where a spicula of bone presses on the brain (compression) or where a bone is lodged in bronchus.

H. M. Broderick recorded the case of a young woman, 18, who was ill for two years under allopathic treatment. Her symptoms included labored breathing, and a sense of tightness across the chest compelling her to take deep inspirations, which caused pain in heart region.

Pulse full, very rapid, a cough after each deep breath. She was unable to lie down because of the oppression and pain. Facial muscles twitched. Menses never regularly established, would go several weeks over time and then would last only a day.

Lob. 3x was given in water. After the second dose she went to bed and slept. The remedy was repeated just before her next menstrual period. She had no more attacks and menstruation became normal.

An elderly woman who had not menstruated in two years had pain in her shoulders. Lob. relieved the pain and brought on the menses.

Cooper recorded the case of a young woman, 23, with a family history of tuberculosis on both sides. She had, when 14 to 15 years old, severe pain in the left and sometimes the right side and around her lower abdomen with a faint feeling. This lasted until the monthly period came on regularly and then she was well until 20, when diarrhea came on, which nothing was able to check and which kept her in bed for months at a time.

The symptoms were pains all around abdomen and up the back, much worse after undressing, feeling of exhaustion or falling to pieces inside and out, and she could not bear anything to touch her. Four or five bowel movements daily when taking medicine, if she leaves it off, continual movements all day, it literally runs from her, watery, sometimes light-colored, sometimes dark, never bloody.

Menses very irregular, sometimes five to six weeks in between. All the symptoms, especially diarrhea, worse then, much tenderness all over abdomen, especially in ovarian regions, legs ache fearfully, pains

Lobelia inflata all over body, faints continually. Since the illness began, she was subject to neuralgia of the face, one or the other side, or both, extending to chest, coming and going suddenly at any time.

In spite of treatment of all kinds, including that of a skillful repertorian, she grew worse. She went into a hospital and there a small pile was removed with but temporary benefit, and after this the vagina as well as the rectum began to copiously discharge an excoriating fluid.

Lob., eight drops three times a day, was now given. She began to improve at once and in a few weeks was quite well. In this case, the difficulty first showed itself when the menstruation was commencing. It was relieved when the flow was regularly established, reappeared simultaneously with menstrual irregularity. In other cases

there is an analogous history.

The nausea has been used in the same way as that of Tab. and other emetics to produce relaxation of muscles, as, for example, rigid os. Sometimes this is affected by direct physiological action, but it may be homeopathic as in this cured case, "with every uterine contraction violent dyspnea, which seems to neutralize labor pain, rigid os and perineum."

Cutler experienced a characteristic prickling sensation. Keynote tenderness of the sacrum.

Cooper noted a symptom recorded by Jahr, "violent pain in the sacrum with fever supervening upon suppression of the menses during their flow." Alongside this symptom may be placed another, also vouched for by Cooper, the power of eliminating foreign substances (Sil.).

In one case, a woman got a piece of mutton-bone down her windpipe and into one of the bronchials. She was taken to the London Hospital, but the idea of operation was abandoned as hopeless and she was sent out. Lob. tincture was given, five drops three times a day. Soon a most violent cough was set up in the course of which the patient coughed up a large quantity of fetid pus, and finally the bone.

Teste classed Lob. with Sulph., and though the provings and clinical experience do not fully bear out what he says about its skin action, the results of botanical practice, confirmed by Cooper, show that it has an anti-psoric action and relieves morbid states due to the suppression of discharges.

P. H. Hale said that with the intense nausea it causes, there is sometimes a prickling itching of the skin, and he thinks he has seen benefit from its use in suppressed urticaria with nausea and vomiting.

Teste gave the symptom 'eruption between the fingers, on the dorsum of the hands and on the forearms, consisting of small vesicles accompanied by a tingling itching and resembling the itch pustules exactly.' As with Sulph. "faintness at the stomach" is a grand characteristic which will be found in a large proportion of the cases calling for the remedy.

Hale quoted Dr. Cutler's account of his own case. He had been asthmatic for ten years, liable to very severe and prolonged attacks. During the intervals the patient scarcely ever passed a night without more or less of it and as often as not was unable to lie in bed.

In the middle of an attack he had a tablespoonful of a fresh plant tincture. In three or four minutes his breathing was quite free, but there was no nausea and, thinking that necessary, he took another spoonful ten minutes after the first and this occasioned sickness.

Ten minutes later he took a third spoonful, and this produced a sensible effect on the stomach coats and a very little vomiting and "a kind of prickling sensation through the whole system even to the limbs of the fingers and toes. The urinary passage was perceptibly affected, by producing a smarting sensation in passing urine, which was provoked by stimulus on the bladder."

But all these symptoms very soon subsided and vigor seemed to be restored to the constitution that he had not experienced for years.

Cooper recorded the case of a girl, 9, who was seized with a very bad headache affecting the whole head and continuing night and day for two days, Merc. and Verat-v. were given in vain. Lob. acet., two or three drops in a little water given in the morning after a bad night, gave immediate relief and restored the appetite.

Cooper considered it a meningitis headache and he finds Lob. and Kali-i. 30c especially useful in these. Excessive sensitiveness is a leading indication for the latter. A headache with "dull, heavy pain passing around the forehead from one temple to the other, immediately above eyebrows."

G. W. Boskowitz related the case of a man, 40, who had twice had gonorrhea, the second attack, three years before, having left him with a gleet discharge. For a year the stream had been diminishing until at last it took him half an hour to empty the bladder. Many surgeons had tried to pass an instrument and had failed.

Boskowitz also failed several times, until one day he dropped fifteen drops of Lob. tincture into the urethra and held the meatus to retain it, for five minutes. It produced a smarting which soon passed away and then the sound passed with ease. Boskowitz has used Lob. in similar cases with success.

Guernsey noted that the "urine has a deep red color and deposits a copious red sediment." Dyspnea, as well as nausea, occur in connection with imperfect menstrual cycles may indicate Lob.

Dr. Coffin professed to cure children and adults whose lives were despaired of from poisoning by various substances by decoctions of Lob., but whether by directly évacuant action or not it was not stated.

There is some clinical experience of a few drops mixed in water curing a baby of severe convulsions caused by taking in Chlorodyne.

In tincture, Lob. causes evacuation of the bowels and is an emetic. It is of service locally as in an enema, and in cases of difficult catheterism. A few drops of Lob. in boiling water takes away the pain and tension of inflamed hemorrhoids, the patient sits on a utensil thus filled.

The necessity of taking Lob. in doses sufficient to cause pathogenic symptoms was insisted on by Thompson and, though it led to some disasters, seems to have been the means of saving some lives.

Thompson tells how, as a boy, he chewed this herb and so learned practically its effects. He used to give it to other boys out of sport. One day while mowing he gave a sprig of it to a companion. By the time they had got six rods the man said he thought the sprig would kill him: he never felt so ill in his life before. He was in a profuse perspiration, trembled all over and was as pale as a corpse. Unable to walk, he lay down and vomited "two quarts." He was helped to his house, ate a good dinner and returned to work in the afternoon. After this he "felt better than he had for a long time." This gave Thompson his first notion of the medicinal virtues of Lob.

In a paper read before the Brit. Hom. Society, November 1, 1888. Cooper explained that he got no good out of Lob. until, under the advice of a herbalist, he used a solution made with common vinegar.

RELATIONS - Antidote: Ip., Tab. **Compare:** (1) The other lobelias, Dig. and Tab. - heart affections, vomiting, worse by motion, sudden pallor with profuse sweat. (2) Ars. - asthma, hay fever, gastric troubles. (3) Verat. - gastric troubles. (4) Ip. - asthma, gastric troubles. (5) Nux-v. - morning sickness, gastric troubles of alcoholics. (6) Bry. - worse by movement, cough causes headache. (7) Abies-n. and Thuja. - effects of tea. (8) Lac-ac. - vomiting with profuse salivation. (9) Kali-i. - meningitis headaches. (10) Ign. - worse tobacco or tobacco smoke.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***LOBELIA PURPURASCENS (Purple Lobelia)

PHARMACY - lob-p. Lobelia purpurascens. Purple lobelia. N. O. Lobeliaceae. Campanulaceae. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

Lobelia purpurascens CLINICAL - Blood poisoning. Heart, paralysis. Influenza, headache. Lichen tropicus. Lungs, paralysis. Snakebites. Tongue, paralysis. Typhoid fever. Vertigo.

HOMEOPATHIC - The first mention of this plant was made by Erskine C. White under the name Lobelia rubra, corrected later by F. Kopp and White himself to Lob-p.

Lob-p. grows profusely in the Australian bush, preferably in moist places and most profusely, noted Kopp, where snakes most abound. White added that it prefers loose sandy soils. This is interesting since James S. Bray, quoted by White and Kopp, observed that the iguana after a fight with a snake, whenever it happened to be bitten, ate this Lobelia.

Bray once found a number of sheep dead and from their appearance he at first thought they had been bitten by snakes. But on examining their stomachs he found the leaves and stalks of Lob-p. and he came to the conclusion that this was the cause of their death.

Lob-p. acts very like Bapt. in low typhoid conditions and seems to neutralize the poison of influenza. Intense prostration, vital and nervous. Paralysis of lungs and resultant poisoning with carbonic acid gas, vomiting and coma. Deadly chill without shivering, but overpowering the system.

MIND - Hasty disposition. Confused and depressed. Dejection.

Causations - Blood poisoning. Snakebites.

Eyes - Can't keep eyes open. Spasmodic closure of lids.

Head - Headaches with nausea, vertigo. Headaches with pain between eyebrows.

Heart - Heart feel paralyzed. Heartbeats sound to him like boom of a drum.

Lungs - Respiration slow. Lungs feel paralyzed.

Modalities - Worse from movement, in damp weather.

Mouth - Decay of teeth, in nervous persons.

Skin - Liable to boils. Sweats copiously.

COMMENTS - White gave a short pathogenesis in which symptoms like the effects of snake-poison are prominent. His symptoms, together with those of Kopp, who crushed with his teeth and swallowed a leaf, will be found arranged in the Schema. They bear a strong family resemblance to those of Lob.

White gave a clinical experience of his own which is important. "This plant, if only touched carelessly with the teeth, produces overwhelming giddiness. I had noticed that the sickening stupor and headache it produces exactly resembled those of La Influenza, before I knew the name of the plant.

"My headache disappeared like magic under Lob. purp. tincture and I used to notice that all chest symptoms were avoided under its sway. The influenza breaks out in wet weather. This plant with its tiny gem-like white blossoms, always carpets the earth after each rain throughout the year."

Growing on sandy soil, it contains flint; like Sec., Staph, and the common carrot, it agrees especially well with patients who are deficient in silica and who are nervous, liable to boils of a hasty disposition, perspire profusely and whose teeth are always decaying.

RELATIONS - Compare: (1) Lob., Tab., Lach, and other snake-poisons. (2) Bapt. - influenza, typhoid. (3) Sec., Staph. - teeth.

REFERENCES - Clarke.

***LOBELIA SYPHILITICA

(Great Blue Lobelia)

PHARMACY-lob-s.Lobeliasyphilitica. Great blue lobelia. Lobeliacerulea. N. O. Lobeliaceae. Campanulaceae. Grows in low grounds in U. S. Tincture of fresh plant. Acetum. **Historical dose:** Tincture and all potencies.

CLINICAL - Acidity. Adenoids. Asthma. Back, pains. Borborygmi. Cartilages, pains. Catarrh. Coryza. Cough. Diarrhea. Dyspepsia. Dyspnea. Eustachian catarrh. Flatulence. Hay fever. Influenza. Kidneys, pains. Lumbago. Melancholia. Post-nasal catarrh. Pylorus, pain. Sciatica. Spine, pains. Spleen disorders. Stomach cough. Throat, sore.

HOMEOPATHIC - The symptoms of the Lob-s. proving, while in many points like those of the other lobelias, do not bring out the emetic properties of Lob. There is, however, epigastric sinking, flatulence, dyspepsia and diarrhea. Lob-c., Lob. and Lob-s. all have a milky juice.

Lob-s. gives a perfect picture of sneezing influenza involving the posterior sinuses, palate and fauces. Eustachian catarrh. Internal nose painfully sensitive to cool air. Dull, aching pain over root of nose. Breathing difficult.

Depressed. Flushing after dinner better somewhat in open air. **Great oppression in lower part of chest**, as if air could not reach there. Dry, hacking cough. **Pain in chest under short ribs of left side.**

Pain in forehead over eyes, pain and gas in bowels, followed by copious watery stools with tenesmus and soreness of anus. Pain in posterior part of spleen. Pain in knees. Prickling in soles.

MIND - Depressed, unhappy. Constant disposition to cry, with sadness and dejection. Bad effects from grief. **Mental exertion aggravates.** Brain weakness and exertion of mind intolerable. Frequent mistakes in spelling and writing. Confused feeling and slight aching in head. Seemed as if he would go wild.

Abdomen - Pain in posterior aspect of spleen.

Back - Pain in back on left side. **Causations** - Grief. Suppressions. **Chest** - Pain about and under short ribs.

Head - Reading and writing aggravates pain in forehead.

Lungs - Deep inspiration or inhaling moderately cool air aggravates.

Modalities - Soreness of ischium worse from touch. Worse motion, mental exertion, at dinner, at night.

Stomach - Drinking cold water relieves gastric symptoms.

COMMENTS - Hale quoted Rafinesque as saying that the analysis of Lob-s. shows it to contain silex, iron and muriate and phosphate of lime.

The marked action of Lob-s. on the posterior sinuses led Cooper to use it with success in cases of deafness arising from an "unhealthy, soft, swollen, easily bleeding catarrhal" condition of the nose-pharynx. This is emphasized by another symptom: "Dull aching pain in center of forehead, over root of nose."

Cooper, who used an acetic preparation, considered that with this, as well as with the Inflata, a history of suppression is a leading indication. There are many notable symptoms in the back, back of chest and about the lower ribs.

Some of these led Jeanes (the first prover) to make a very fine cure of melancholia in an educated intelligent man. "Great depression of spirits, unhappy state of mind, always associated with pain about and under short ribs in back on left side, extending outward nearly to left side, posterior aspect of region of spleen."

Pain on inside of right scapula. Farrington added, "Pain under (not below) inner border of left scapula, worse after weeping." Pain in right maxillary joint with pain in middle of right lung, breast, larynx, left side of chest near axilla with aching in left shoulder and arm.

Pains travel about, from right to left, from left tonsil to right, from back down legs, from eighth rib downward, aching from back of head down nape.

RELATIONS - Compare: (1) Other lobelias. (2) Puls. - mental depression and weeping. (3) Chel. and Ran-b. - scapular pains. (4) Hydr. - post-nasal catarrh. (5) Cean. - spleen. (6) Lob. has one-sided coating of tongue. Lob-s. has left half of palate dry. (7) Podo, relieved the diarrhea of Lob. s., but not the acute abdominal pains.

REFERENCES - Clarke.

***LOLIUM TEMULENTUM

(Darnel)

PHARMACY-lol.Loliumtemulentum.Darnel. Loleum temulentum. N. O. Gramineae. Tincture of ripe spikelets. Tincture of ripe seeds. Trituration of the dried seeds. **Historical dose:** Tincture, trituration and all potencies.

CLINICAL - Convulsions. Delirium tremens. Paralysis. Parkinson's disease. Tremor. Writer's cramp.

HOMEOPATHIC - The name Darnel means "stupefied," and the plant's evil reputation is of very ancient date. The symptoms are the result of observations made on persons poisoned by eating a meal containing an admixture of Lolium tem.

Allen mentioned an assertion that Lolium is much infested with ergot and that it is to this that the poisoning symptoms are due. the unaffected grain being inert. Allen noted in support of this that the poisonings have been most frequently observed in low, wet districts and during wet seasons.

Tightness in the calves, violent pain in the calves as if bound with cords. This tightness affects the rest of the legs in less degree. Writer's cramp. Paralytic conditions. Tremors and convulsions, Parkinson's disease. Nausea and vomiting of the bread containing it and mucus with it. Cold rigors internal chilliness, cold sweat. Delirium tremens. Prostration and restlessness. An Italian physician, Fantoni, tried it in headaches and meningitis.

Bonino cured a carpenter, 29, who had trembling of the for hands eleven years, worse in the morning. The legs had also begun to tremble. His father and brother were similarly affected. Merc-v. and Agar, only relieved temporarily. Lol. cured.

MIND - Anxiety and general uneasiness. Depressed. Comprehension slow and difficult, distracted, confusion and stupefaction. Difficult speech. Mania. Slight delirium.

Ears - Noises in ears.

Head - Head feels heavy.

Limbs - Cold limbs. Gait unsteady. **Trembling of all limbs**, cannot write, cannot hold a glass of water. Spasms of arms and legs. Violent pain in calves, as if bound by a cord.

Modalities - Worse damp, wet season.

Mouth - Tongue tremulous. Speech difficult, cannot pronounce the whole word.

Rectum - Severe purging.

Stomach - Nausea, vomiting.

Temperature - Cold rigors, especially in limbs.

Vertigo - Vertigo, must close eyes.

COMMENTS - Anshutz stated, "The use of the drug by Dr. Bonino was truly homeopathic for the short proving of it. Allen Encyclopedia reports trembling of the limbs andhand so great that 'he could not hold a glass of water.'

"A carpenter aged twenty-nine years, had been suffering ever since his eighteenth year of trembling in both hands, especially in the morning of late also his legs began to tremble. It is remarkable that both his father and his brother were subject to the same ailment, while no definite cause could be indicated.

"He was first given Mercurius, then Agaricus, which brought a partial but only transitory improvement. Finally Bonino prescribed Lol., which in a short time effected a cure."

Dr. Mossa commented that the pathogenic effects of this remedy which has not yet been proved at all are only known to some degree from its effects when it has been mixed with grain and baked into bread.

Lol. has caused chest troubles, vertigo (hence the name darnel-grass in German Taumelloch), trembling, paralysis with anguish and distress, vomiting, failing of the memory, blindness, headache, epileptic attacks, deep sleep and insanity.

RELATIONS - Compare: (1) Anan., Sec. (2) Lath. - paralysis, worse wet seasons. (3) Op. - sleep.

REFERENCES - Anshutz. Clarke.

*****LOMATIUM DISSECTUM**

(Indian Carrot)

PHARMACY - Iom-d. Lomatium dissectum. Indian carrot. Biscuit-root. N. O. Apiaceae. Tincture of fresh plant.

Historical dose: Tincture and all potencies.

CLINICAL - AIDS. Bacterial, infections. **Bronchitis**. Candida. Chronic fatigue. Colds. Hepatitis. Herpes. HIV. Immune, weakness. **Influenza. Lung, disorders. Pneumonia**. Sinusitis. Sores. Tuberculosis. Viral, infections. Wounds.

HERBAL - Botanists named it Leptotaenia dissecta until 1942 when it was renamed Lomatium dissectum, a slightly different classification. One of the many Lomatium species is often called "Biscuit-root", as the pulp was pounded into cakes. Its large taproot and its kinship with common carrots, also gave it the name "Indian Carrot."

The root of the Lomatium dissectum plant is a natural medicine with extensive traditional use by the Native Americans of the Pacific Northwest and Northern Nevada where it grows. It was used primarily for upper respiratory infections, colds, and influenza although a great many other uses have been noted.

Anti-microbial especially in the lungs and upper respiratory tract. Traditionally used to treat all cases of colds and flus. It can be employed for quick acting relief in all cases of viral or bacterial infection, particularly where there is a large amount of thick or sticky mucus and where infection is deep seated and persistent. Specific for pneumonia, infective bronchitis and tuberculosis. Some research has indicated a greater activity against gram

positive bacteria.

Its action of limiting infection makes Lomatium valuable as a mouth wash and gargle for oral and throat infections, as a douche for bacterial and viral infections as well as for Candida, as a skin wash for infected cuts or wounds, and in many other 'first aid' situations.

The anti-viral and anti-bacterial properties of Lomatium dissectum have attracted the interest of herbalists and Naturopathic physicians who are utilizing it in the treatment of today's most difficult viral diseases. It may be part of a protocol in the treatment of Hepatitis-C, Influenza, HIV, AIDS, Chronic-fatigue, Pneumonia, Bronchitis, Herpes simplex. Sinusitis, and common Colds.

COMMENTS - When the influenza epidemic hit Northern Nevada in 1918, Ernst Krebs MD of Carson City was surprised to see the local Washoe people recovering, and he inquired as to their medicine. They called it "Toh-sa" or "Do-sa". Dr. Krebs called it Balsamea, due to its biting odor of balsamic resins.

The Indians gather this root in the late fall, November being considered the proper month for gathering. The root is used in the fresh or dry state. It is cut up and a decoction is made by boiling the root in water, skimming off the top and giving large doses of the broth. A pound of root is considered about the proper dose to treat a case of fever for three days, which is the longest time needed to break up a fever due to influenza or a pulmonary disease, although the Washoes used it as a panacea.

Whether a coincidence or not, there was not a single death in the Washoe tribe from influenza or its complications, although Indians living in other parts of the State where the root did not grow died in numbers. It was such a remarkable coincidence that the root was investigated by a practicing physician who saw apparently hopeless cases recover without any other medication or care of any kind.

A preparation was prepared and employed in a great many cases among the whites, from the mildest to the most virulent types of influenza, and it proved, among other things, that it is the nearest approach we have today to a specific in epidemic influenza and the accompanying pneumonia. Where used early it proved itself to be a reliable agent in preventing pulmonary complications.

Other physicians were induced to give it a trial, with the same results. It is beyond the experimental stage, as its therapeutic action in this direction is established and beyond any doubt. The cases in which it has been used run into the hundreds. There is probably no therapeutic agent so valuable in the treatment of influenzal pneumonia and, as far as being tried, in ordinary lobar pneumonia if started early.

***LONICERA PERICLYMENUM

(Wild Honeysuckle)

PHARMACY - Lon-p. Lonicera periclymenum. Wild honeysuckle. European honeysuckle. Serótina. Woodbine. Goats' leaf. N. O. Cap- rifoliacee. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anger. Asthma. Constipation. Dyspnea. Fevers. Hiccoughs. Irritability. **Lung, disorders.** Mouth, ulcers. Spasms. Ulcers. Vomiting.

HERBAL - The plant has expectorant and laxative properties. A syrup made from the flowers has been used in the treatment of respiratory diseases, shortness of breath and asthma. A decoction of the leaves is considered beneficial in treating diseases of the liver and spleen. It is used as a mouthwash for ulcers and is considered to be a good ingredient in gargles.

The flowers are antispasmodic, astringent, diuretic, expectorant, febrifuge and sudorific. The fruit is emetic and cathartic. The herbage is used as a cutaneous and mucus tonic and as a vulnerary. It is also diaphoretic. The leaves are laxative and slightly astringent. The seed is diuretic. The bark is anti-catarrhal, depurative, diuretic and sudorific.

HOMEOPATHIC - Cooper cured with Lon-p. irritability of temper with violent outbursts and has seen it produce the same (Croc.).

RELATIONS - **Compare:** (1) Lon-x., Vib., Op. Samb.,Sym-r. (2)Nux-v., Staph.,Hyos.,Croc. - outbursts of temper.

REFERENCES - Clarke.

***LONICERA XYLOSTEUM

(Fly Woodbine)

PHARMACY - Lon-x. Lonicera xylosteum. Fly woodbine. N. O. Caprifoliacee. Trituration or tincture of berries. **Historical dose:** Tincture, trituration and all potencies, third to sixth potency.

CLINICAL - Albuminuria. Coma vigil. Convulsions. Syphilis. Uremia. Vomiting.

HOMEOPATHIC - Lon-x. is known from the effect of poisoning by its berries. Trembling and jerking of the limbs, violent convulsions. Abdomen retracted, especially in umbilical region. Vomiting and purging. Uremic

convulsions. Albuminuria.

Syphilis. Contraction of one pupil and dilatation of the other. Seemed neither to hear nor see, unable to make answer. When

raised from bed, limbs and head fall over as if paralyzed. Coma.

MIND - Dullness of the mind. Stupefaction. Coma.

Abdomen - Abdomen retracted, especially in umbilical region, soft. Violent colic.

Eyes - Contraction of one pupil and dilatation of the other. Pupils dilated. Conjunctiva red. Everything foggy and indistinct to vision for half an hour. Photophobia.

Face - Red face. Pale. Lips dry.

Food - Excessive thirst.

Head - Congestion of head and chest.

Heart - Violent impulse of heart. Pulse slow, small, soft, irregular.

Limbs - Jerking of limbs. Trembling of whole body. Violent convulsions. Limbs and head fall over as if paralyzed. Limbs cold.

Lungs - Respiration rapid and deep.

Mouth - Tongue moist, coated with mucus.

Rectum - Bloody stools.

Sleep - Sleepy. Constant deep sleep with half-open eyes, red face. Coma.

Stomach - Profuse vomiting, and purging.

Temperature - Limbs are cold. Profuse, cold perspiration. Fever.

RELATIONS - Compare: (1) Lon-p. (2) Dig. - slow pulse. (3) Cadm-s. and Rhod. one pupil contracted, the other dilated.

REFERENCES - Boericke. Clarke.

*****LOXOSCELES RECLUSA**

(Brown Recluse Spider)

PHARMACY - Ioxo-r. *Loxosceles reclusa*. Brown recluse spider. Loxoscelidae. **Historical dose:** All potencies.

CLINICAL - Abscess. Alcoholism. Anorexia. Aphthae. Backache. Belching. **Bites.** Chronic fatigue syndrome. Cold, sores. Constipation. Coryza. Coughs. Depression. Diarrhea. Dyslexia. **Ecchymosis. Erythema.** Fibromyalgia. Gangrene. Headaches. Heartburn. Hoarseness. Incontinence. Insomnia. Leucorrhea. Nausea. Palpitations. Rheumatism. Sciatica. Suicidal. **Ulcers.** Warts. **Wounds.**

HOMEOPATHIC - The victim is often not aware of the spider bite until two to six hours later, unless, and this is rarely the case, he witnesses the spider in the act. The first symptoms after the bite include a stinging sensation with mild to intense pain. The immediate local effects of envenomation are a transient erythema, which produces a dusky or mottled appearance to the skin. Sometimes a blister quickly follows.

During the first several hours the dusky hue expands, traveling downward from the site of the bite, along the forces of gravity. The pathologic process is fully established within six hours, and within 24 hours the area where necrosis is taking place is indeed striking.

The zone of erythema is replaced by violaceous discoloration, and subsequently an irregular zone of necrosis develops ranging in measurement from a few centimeters to more than 30 cm.

A septic necrosis proceeds to dry gangrenous slough and black eschar formation. Open ulcers form as the necrotic area breaks away from surrounding healthy tissue. Thus the venom diffuses through subcutaneous tissue until the supply is exhausted. In some cases it extends through the fascia, exposing the underlying muscles.

Healing of such ulcerous wounds can require months, and often a sunken scar endures. If the quantity of venom is small, no necrosis occurs and only the local erythema appears.

MIND - Cries easily. Oversensitive. Sentimental. Sighing. Forsaken feeling. Despair of recovery, in morning on waking. Sadness, despondency, depression, melancholy. Silent grief. Morbid thoughts. Suicidal depression. Thoughts of throwing himself from a height, hanging. Anxiety from pains.

Apathy. Awkwardness. Mental prostration. Forgetfulness. Memory weakness. Concentration difficult. Spaced-out feeling. Confusion. Lost conception of time. Tendency to lose things. Mistakes in spelling, time, writing words.

Industrious, mania for work. Conscientious about trifles. Reproachful. Indisposed to talk, desire to be silent, taciturn. Lack of self-confidence. Easily offended. Obstinate, headstrong. Rude. Rage, fury. Anger, alternating with quick repentance. Fear of dark, animals, bats.

Abdomen - Distension. Tingling. Cramping pain. Pains, better bending double.

Back - Backache, worse lumbar region. Numbness. Stiffness in neck and back.

Bladder - Incontinence in bed, at night. Urine bright yellow, strong odor, scanty.

Breasts - Stitching pain. Sore and bruised pain.

Coughs - Dry coughs. Coughs from mucus in throat.

Ears - Sharp, shooting pains. Noises in ears, hissing and ringing. Hears high-pitched noises.

Eyes - Ecchymosis. Pupils dilated. Yellow eyes. Bloodshot eyes in the morning. Burning pains.

Female - Menses frequent, too early, too late. Leucorrhea yellow, greenish. Pain in right ovary. Sexual desire increased.

Food - Desires eggs, meat, onions, tea, sweets, ice cream, sour foods. Aversion to seafood, spicy foods.

Head - Headaches, throbbing and pulsating. Frontal headaches, with burning, pressure in the eyes. Constricted feeling. Tingling.

Heart - Pulse frequent, accelerated. Palpitations after frightening dream.

Limbs - Joint pains, aching, cutting and burning. Shoulder pain and stiffness. Neuralgic pains. Sciatica, better walking. Numbness, insensibility. Tingling. Warts on feet.

Lungs - Accelerated breathing.

Modalities - Better at night. Bathing, better washing. Worse evening, morning on waking.

Mouth - Dry, cracked and fissured. Aphthae, on lips. Cold sores. Abscess of gums.

Nose - Coryza. Clear discharges. Acute sense of smell.

Rectum - Formication, burning in anus. Constipation. Diarrhea in morning, driving out of bed.

Sensation - Alternating heat sensation with cold. Body feels heavy. Emptiness, hollow sensation right side of body.

Skin - Cracks, fissures. Warts.

Sleep - Sleeplessness after waking.

Stomach - Emptiness, weak feeling. Faintness, goneness, hungry feeling. Stomach cramps. Heartburn. Belching. Nausea.

Stools - Stools acrid, corrosive, excoriating, bloody. Stools light-colored, yellow.

Throat - Sore throat. Hoarseness. Sensation of phlegm in throat.

RELATIONS - Compare: Tarent., Tarent-h., Lat-m.

REFERENCES - Klein.

***LUFFA OPERCULATA

PHARMACY - luf-op. Luffa operculata. Esponjina. Cabacinha. N.O. Cucurbitaceae. Columbia. South America. Tincture of the dried seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Breathlessness. Bronchial, asthma. Coryza. Emaciation. Headaches. Laryngitis. Nasal polyps. Pharyngitis Rhinitis. Sinusitis. Tachycardia.

HOMEOPATHIC - Luf-op. is an exotic plant which comes from Columbia and was introduced to Europe by W. Schwabe. The symptomatology was undertaken by him on eleven people (six men and five women), using the 5x, 3x, and 2x potencies. Each potency was used for one week.

Lassitude and physical fatigue. Frontal and occipital headache. Acute or chronic inflammation of the mucus membranes in the nasal cavities. Hypertrophy or atrophy of the nasal mucus membranes. Hypothyroid.

MIND - Lack of reaction with indifference and prostration.

Eyes - Musca volitantes.

Food - Extreme hunger with emaciation. Painful feeling of thirst and hunger, difficult to satisfy.

Head - Violent headaches going from the forehead towards the nape of the neck. Pain in the occipital region. Frontal pain with vertigo and musca volitantes.

Heart - Tachycardia.

Lungs - Breathlessness from the least effort. Bronchial asthma.

Modalities - Better in fresh air, worse in a room in dry air.

Mouth - Dryness of the tongue, back of the throat and pharynx. Burning sensation at the tip of the tongue.

Nose - Acute rhinitis and pharyngitis. Purulent sinusitis. Chronic atrophic rhinitis. Head colds with pale or yellow nasal secretion, especially in the morning. Dryness of the nasal mucus with sticky scab formations. Nasal polyps.

Rectum - Tendency to constipation.

Skin - Formation of small purulent, itching pimples on the face, lower lip and chin. Loses hair in abundance.

Stomach - Diffuse gastric pains. Empty feeling in the stomach.

RELATIONS - Compare: (1) Merc-i-r. - Coryza with hoarseness. Abundant discharge with post-nasal mucus, aggravated in the open air, ameliorated by heat. (2) Cinnb. - Pressing pains in the bones of the skull and nose with discharge of thick mucus and often nosebleed. (3) Hep. - Sour, fetid secretions with blocked nose

immediately on going out into the cold air. Ameliorated in a warm room.

REFERENCES - Julian.

***LUNA

(Moonlight)

PHARMACY - luna. Luna. Moonlight. Moon's rays. Sugar of milk is exposed on a glass plate to the moon's rays and stirred with a glass rod meanwhile. The sugar of milk so charged is dynamized in the usual way (Fincke). Higgins made a preparation by exposing pure water to the moon's rays for three or four hours in South America and then dynamizing the water so charged. **Historical dose:** All potencies.

CLINICAL - Acidity. Colic. Edema. **Epilepsy.** Female, disorders. Headaches. Heartburn. Inter-menstrual flow. Insomnia. Menses, **problems. Nightmares.** Ovary, pain. Scabies. **Sleep, disorders.** Sleepwalking. **Somnambulism.** Sycosis. **Worms.**

HOMEOPATHIC - Goullon contributed to the Rev. Hom. Beige, January, 1897, a notable article on "The Influence of the Moon on the

Human Organism," in which he mentioned, among other interesting facts, that sleepwalking is a lunar effect, that worm disorders are most troublesome at the full moon, and that goiter changes more or less with the moon. Epilepsy worse at full moon may need Luna (Sil.). Scabies and worm disorders, worse at full moon. Nervous affections, especially in subjects of sycosis, influenced by the moon.

Excessive edema of face, neck and hands with neuralgic pains in the swollen parts. Skin diseases. Sour belchings, especially if tasting of ingesta. Acrid yellow leucor- rhea through the day with backache. Pain in right ovary.

MIND - Mental faculties, especially ability to receive, retain and express ideas, are most powerfully affected by the full rays of the moon. **Worse from exposure to moonlight.** Worse from certain moon phases. Worse the day before the full moon. **Ailments from full moon.**

Confusion of mind. Difficult concentration. Absent-minded. Forgetful. Mistakes in spelling, talking. Mind not clear. **Spaced-out feeling.** Feeling **detached,** disconnected. Apathy, lack of motivation. Disinclined for mental or physical labor. **Somnambulism.**

Mood changeable, worse before and during menses. Sensitive, emotionally. Depressed and anxious. Dwells on past disagreeable occurrences (Nat-m.). Irritable and impatient, easily angered, worse before menses.

Abrupt. Anger, in outbursts. Temper tantrums. Resentment, indifferent towards husband or partner. Irritable towards own children. Weeping after anger. Irritability on being spoken to. Wants to be let alone.

Abdomen - Faint feeling in stomach on awaking. Sensation of great distention. Colic, commencing two inches above umbilicus and seeming to pass directly upward to stomach, causing desire to bend forward. Pain around umbilicus, better by belchings. Pain through liver and spleen, worse 3 p.m.

Back - Very severe pain in sacral region in evening.

Chest - After ascending stairs, a peculiar heating sensation, beginning at lower extremity of sternum and extending outwards. Attachment of diaphragm on each side to a point under each arm, at same time warm glow down arms to fingertips, most in left.

Eyes - Swollen eyes that burn and sting (Apis). Sharp stinging sensation, leaving a smarting. **Stinging in right eye.** Weakness of eyes and feeling of sand. Swelling of eyelids and profuse discharge of purulent matter with a painful smarting and profuse lachrymation without heat or change of color.

Face - Edema of face.

Female - Menstrual cramps with bearing down pains. Menses less free, strings of dark blood, colic pain above umbilicus better by eructation. **Menses flow heavier.** Menses returned two days after ceasing. Uterine hemorrhage. Bearing-down sensation. Sharp pain left side vagina, then grows suddenly sharper, again returning to vagina and passing through to rectum. Sharp pains fly from vagina through abdomen, ceasing in stomach-pit. Pain better by passing flatus from vagina. Cramp-like pains in pelvic region, as if uterus were being contracted by a strong electric current.

Food - No appetite, slight nausea. Desires something, does not know what. Immediately ejected cup of tea during headache, the tea tasted sour.

Head - Slight giddiness with slight bitter taste on left side of tongue with increased saliva. Sharp pain just above root of nose. Congestion of blood to head with sensation of great fullness. **Migraine headaches.** Pain in occiput, changing to lame feeling on retiring. **Headache before menses.** Woke with very severe headache. Headache better by magnetic passes. Severe frontal headache during menses.

Heart - Pulse rapid. Suffocative sensation around heart. On retching, peculiar feeling around heart as though it stopped beating, better by belchings, worse by lying down.

Kidneys - Urine profuse, clear and watery, at times darker.

Limbs - Swollen feeling. Slight rheumatic pains in shoulders, especially left. Sharp, quick pain in left cervical nerve, intermittent every few seconds. Great lameness in anterior tibial region from walking. After retiring, aching in bones of lower limbs with pain in lumbo-sacral region. Sensation as if tightly bound in right calf and in hypochondria. Pain like growing-pain above left knee, better walking. Sharp pain in left great toe.

Modalities - Better by cold application. Pains, better in open air, belchings and by passing flatus from vagina. **Worse before and after full moon, during increasing moon, exposure to moonlight.** Worse after sleep, from milk.

Mouth - Bitter taste on the left side of tongue with increased flow of saliva. Increased saliva, all day, on waking, with faint feeling in stomach, with stinging in right eye.

Nose - Sensation of a cold in head. Coryza, sneezing and pain in occiput. Discharge of yellowish-green mucus from nose. Sensation of heavy cold in head with lachrymation, at 4 p.m.

Rectum - Urgent desire for stool, immediately better by passing flatus.

Skin - Unbearable itching. Stinging, itching right side of body as if an insect was biting the parts, felt most on foot, leg and forearm. Eczema.

Sleep - Insomnia, worse moonlight. **Somnambulism. Nightmares after exposure to moonlight**, particularly in children. Dreams of murder, death. Wakes after frightful dreams. Symptoms worse on waking. Felt as if had not slept enough.

Stomach - Burning, worse after drinking milk. Flatulency with burning in stomach. Sour belchings, tasting of ingesta. Woke at midnight with severe heartburn and great distress in stomach, had to get out of bed.

Temperature - Woke 6 a.m. with severe chill, after which he had headache, felt sick and weak all day, at night had horrible dreams of death.

Throat - Some soreness in throat.

COMMENTS - Conditions affected by the moon, particularly epilepsy, migraine headaches, insomnia, emotional and hormonal changes, neuralgic pains, and swelling of the hands and face. Conditions worse during full moon (Calc., Sil., Arg-n.). Dreams and nightmares, particularly in children. Dreams of dying. Irritable, unclear mind.

Increased worm activity. Growing pains in children, better walking. Swollen eyes that burn and sting (Apis). Sensation of sand or grit in the eyes (Euphr.). Pain in the occiput. Menstrual cramps with bearing down pains. Symptoms better in open air and cool air. Worse from sleep, milk.

According to Menuret, skin diseases are frequently influenced by the moon. He noted a case of eczematous affection which increased with each waning moon and was at its maximum intensity at the new moon when it covered the whole face and chest and was accompanied by unbearable itching. Then there was gradual improvement and the face became smooth, but scarcely had the full moon passed when all began again.

Moritz Hoffmann observed a young girl (daughter of an epileptic mother) whose whole body became swollen at every new moon, the swelling disappearing as the moon waned.

Mead told of a child who was subject to convulsions at each waning moon. Gale remarked that with weakly persons' excitability is most pronounced at the new moon and the full moon.

Swan communicated a proving of Luna 1,000c. made on a female physician, Dr. S. J. W. The prover was menstruating at the time the proving was commenced, but was otherwise in good health. Repeated doses were taken for two days. The effects lasted four weeks. Swan cured, with Luna, a case of excessive edema of face, neck and hands with neuralgic pain in the swollen parts.

Goullon quoted a remarkable case of sleepwalking from the Cercle Medical. "A youth of fifteen in good health in other respects, had been withdrawn from his apprenticeship, on account of his nightly promenades on roofs. He was put in a private asylum. Although his room was oriented so that no actual moon-rays could reach it, the moon nevertheless exercised a potent influence upon him.

"As soon as it reaches the horizon he gets out of bed and carefully with closed eyes, moves towards a window, so high that he has to jump in order to reach and open it. As it is barricaded with an iron trellis he gets down and, crossing the corridor, goes to the outer door, above which is a window.

"With cat-like agility he climbs up to this, when he is seized by three warders, who take him back to his room, where, only after the moon has set, can he lie down and go to sleep. In the morning he remembers nothing. At full moon the symptoms are still more extraordinary."

RELATIONS - Compare: (1) Aeth., Mag-c. - worse from milk. (2) Worse at new moon: Alum., Am-c., Bufo, Calc., Caust., Clem., Cupr., Daph., Lyc., Sabal., Sep., Sil. (3) Worse at full moon: Alum., Calc., Cycl., Graph., Kali-n., Nat-c., Nat-m., Sabin., Sep., Sil., Spon., Sulph., Teucr. (4) Worse during **increasing moon**: Am., Clem. (5) Worse during waning moon - Dulc., Thuja.

***LUPULUS HUMULUS

(Hops)

PHARMACY - lup. *Lupulus humulus*. Hops. N. O. Cannabinaceae of the Urticaceae. Tincture of the seeded spikes. Trituration. Tincture of Lupuline, small resinous granules covering the scales. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcoholism. Delirium. Diuresis. Dyspepsia. Dysuria. Excitement. Faintness. Gonorrhea. Headaches. **Insomnia. Jaundice.** Nausea. Paralytic, weakness. **Sexual, weakness.** Vertigo. Vomiting.

HERBAL - The "hops pillow" as a remedy for sleeplessness is well known, and this sleep provoking effect passes into delirium and stupefaction.

HOMEOPATHIC - Lup. has had a somewhat extensive proving, to the symptoms of which have been added the effects of working with hops and of sleeping in rooms where hops were stored.

Giddiness and stupefaction. Drawing and twitching in almost every muscle. Nervous tremors, wakefulness and delirium of alcoholics. Unstrung condition of the nervous system attended with nausea, dizziness, headache following a night's debauch. **Infantile jaundice.** Urethral burning. **Slow pulse.**

MIND - Morbid vigilance. Highly excited. Confusion. Frequent starting from deep sleep with violent delirium from which he could only be aroused with great difficulty, immediately lapsing again into stupor. Delirium of alcoholics. Mental functions remained indolent several months.

Abdomen - Fermentation and dull pains in abdomen. Dull griping in lower abdomen with nausea.

Eyes - Pupils remained dilated for several months.

Female - Diminishes and allays sexual appetite.

Food - Appetite lost. Great thirst.

Head - Dull, heavy headache with dizziness.

Rush of blood to head and eyes. Heat in head and face with confusion and dull headache. Violent pulsating of temporal arteries. Drawing and twitching in every muscle.

Heart - Slow pulse.

Kidneys - Diuresis. Urine retarded, dark brown, clear. Burning in urethra during urination, not better by coffee.

Limbs - Great twitching of tendons. Paralytic weakness.

Lungs - Respiration is deep, almost stertorous.

Male - Diminishes and allays sexual appetite. Painful erections. Emissions, depending on **sexual weakness and after onanism.** Spermatorrhea.

Neck - Strong pulsation of carotids.

Perspiration - Perspiration profuse, clammy, greasy.

Rectum - Stool softer than usual with urging so great he could hardly reach the closet. Stool retarded.

Skin - Scarlatina-like eruption on face. Feels like insects crawling under skin, feels chapped, skin peels.

Sleep - **Drowsy** during the day. Sopor. **Insomnia.**

Stomach - Sensation of increased warmth in stomach. Nauseating eructations, tasting of hops. Nausea, vomiting.

Tongue - Tongue thickly coated, dry.

Vertigo - Vertigo, stupefaction.

COMMENTS - A child of twelve, who remained several days in a room where hops were being picked, experienced frequent starting up from deep sleep with violent delirium from which he could only be aroused with great difficulty, when he recognized the bystanders, but immediately fell backward into stupor.

It was months before he recovered. The effects which remained included dilated pupils, mental indolence, unsteady movements, and erythema.

Other symptoms are a turning sensation in stomach, fermenting in abdomen. Burning in urethra during urination. Nausea and vomiting. Faintness better in open air. Twitching of tendons.

RELATIONS - **Antidotes:** Coff., vinegar. **Compare:** (1) Urt-u., Cann-i., Cann-s., Nux- v., Op.

REFERENCES - Boericke. Clarke.

***LYCIUM BARBARUM

(Goji Berries)

PHARMACY - lyci-b. *Lycium barbarum*. Goji berries. Chinese wolfberry. English wolfberry. Matrimony vine. Chinese boxthorn. N. O. Solanaceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Arthritis. Cancer. Cough. Diabetes. Nosebleeds.

HERBAL - The term "Goji" is the common name given to the *Lycium barbarum* berry by the Tibetans. Goji usually refers to varieties of *Lycium* called in English wolfberry, matrimony vine, or Chinese boxthorn.

The berries flourish in the tranquil valleys that are naturally protected by the Himalayan Mountains, and have

been treasured for centuries by the Himalayan people.

Traditionally it has been used to treat inflammations, skin irritations, nosebleeds and aches and pains, and has also been used as a sedative. The fruit is the main source of medicinal extracts, although the leaves are also sometimes consumed as food.

In China, it is often used in combination with other botanicals to treat poor vision, anemia, and cough. In the tests, a polysaccharide isolated from Lycium has been shown to have anti-cancer effects. It also has some immune enhancing properties.

COMMENTS - An evergreen shrub that is often spiny and grows in temperate and subtropical regions, the two species most commonly used in folk medicine are Lycium chinense or Lycium barbarum, both in the nightshade (Solanaceae) family.

One legend recounts that during the Tang Dynasty (around 800 AD), a well had been dug beside a wall near a famous Buddhist temple that was covered with goji vines. Over the years, countless berries had fallen into the well.

Those who prayed there had the ruddy complexion of good health, and even at the age of eighty they had no white hair and had lost no teeth, simply because they drank the water from the well.

RELATIONS - Compare: (1) Crat., Sabal serr.

REFERENCES - Murphy.

***LYCOPERSICUM ESCULENTUM

(Tomato)

PHARMACY - lycpr. Lycopersicum esculentum. Tomato. Solanum lycopersicum. Love apple. N. O. Solanaceae. Tincture of ripe fruit. Tincture of fresh flowering plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Backache. Catarrh. Coryza. Deltoid rheumatism. Diabetes. Diarrhea. Eyes disorders. Gout. Headache. Leucorrhea. Lupus. Metrorrhagia. Obesity. Polyuria. Rheumatism. Throat sore.

HOMEOPATHIC - Clarke knew of one instance in which the slightest indulgence in tomatoes brings on an attack of gout. Cooper commended the use of tomatoes in cases of obesity. Cooper gave Lycpr. in a case of rodent ulcer and caused sharp pain and temporary spread of the disease.

Coryza, worse out of doors (All-c., better out of doors). Polyuria, with great thirst. Diabetes. Marked action on deltoid and pectoral muscles, pain is better lifting arm upward and outward. Pains leave after influenza. Right side principally affected, symptoms proceed from right to left.

MIND - Peevish about trifles. Very irritable, noises greatly annoy. Unusually mentally active for short periods, followed by longer periods of mental dullness. Weak memory, forgetful. Thoughts disappear, worse when leaning head against anything. Cannot keep mind fixed on work.

Abdomen - Great flatulency of abdomen. **Back** - Cannot get into a comfortable position. Backache in lumbar region, making them gloomy and depressed. Rheumatic pain near attachment of trapezius muscle to spine. Heavy dragging in right scapula.

Breasts - Sore and tender scirrhus breast.

Chest - Slight sticking beneath left side of sternum, without difficulty of respiration. Oppression in chest in lower lobe of right lung.

Eyes - Dull, heavy, ache. Sore and burning. Pupils minutely contracted. Twitching in left inner canthus. Eyes water on close work. Letters run together when reading. Keeps wiping eyes to see clearly. Light painful. Lids feel heavy and swollen.

Face - Face flushed, pale. Pressure in right or left zygoma.

Female - Profuse leucorrheal discharge. Too frequent menstruation, brought on by free use of canned tomatoes, the flow would return whenever this food was eaten for a few meals.

Head - Intense throbbing, bursting headache. Bursting pain in head, especially vertex and when coughing. Dull, heavy pain in occiput. Headache in the occiput, spreads all over the head and settles with great violence in temples, worse tobacco smoke.

Heart - Fine, stitching pains at base of heart. Lamé pain in region of heart. Pulse 100, full and flowing.

Kidneys - Increase of watery constituents of urine, not of total solids. Must rise at night to urinate. Constant debility when in open air, not at all in warm room.

Limbs - Intense aching, rheumatic pain in muscles of all limbs. Lamé, tired feeling in all limbs with great exhaustion. Intense aching pain in lower limbs. Sharp sticking pain along course of right crural nerve. Painful sticking behind articulation of left hip. Sharp pain in right deltoid and pectoral muscles, worse lifting arm upward and outward. Lameness of left wrist, hand and fingers, where it is painful even when not moving it.

Lungs - Coughs are deep, harsh, starting from irritation in lower chest. Explosive cough. Dry, hacking cough coming on at night and keeping him awake. Expectoration white and in lumps, early in morning.

Modalities - Better in warm room, from external heat. The headache in one instance was completely better by tobacco smoke. Worse by noise, motion.

Mouth - Itching and tickling in roof of mouth. Tongue coated thick, yellow, white, more in center. Foul breath, taste.

Nose - Stopped catarrh. Profuse watery coryza excoriating ale, drops down posterior sinuses, salty taste, markedly worse out of doors.

Skin - Erythematous lupus much relieved (Cooper).

Sleep - Unable to fall asleep in evening tosses about, every position uncomfortable. Very restless sleep. Frequent waking and tossing, limbs when pressed feel paralyzed. Confused, disagreeable dreams. Wakened by insignificant dreams.

Stomach - Thirst for large quantities of water. Violent belchings of gas with taste of food. Great flatulency between 10 a.m. and 11:30. Burning sensation in stomach towards evening and during evening.

Stool - Brownish, watery diarrhea, yellow, frothy, no urging, painless.

Temperature - Chilliness towards night, preceded by thirst for large quantities of water. Chilliness and sweat. Sweat on awaking confined to a strip about four inches wide along whole length of back. Temperature from 100.5° to 101 °F.

Throat - The throat slightly sore on swallowing. Mucus membrane of pharynx pale, tip of uvula and arches of pharynx red and inflamed. Burning raw feeling right side of throat, changing to left. Swelling of left tonsil. Constant desire to clear throat. Husky voice. Hoarseness with constant tickling in pit of throat. Hoarseness towards night.

Vertigo - Giddiness, with inclination to faint on attempting to walk.

COMMENTS - Gross made a proving of Ly- cpr., noting peevishness and loss of memory, sticking and pressing pains, a sense of paralysis, pressing and boring pains in head, and stopped catarrh. Some women cannot eat tomatoes without getting backache, leucorrhea or metrorrhagia.

In Gross's proving, the headache was worse in evening, she was obliged to rise in the night to urinate. The mind symptoms were worse and the headache better by leaning the head against something.

Dr. Herbert H. Roberts of Derby, Conn., published provings made by himself, two with the 3x and two with the 30x tinctures. "The original tincture was made from the thoroughly ripened fruit, great pains being taken to thoroughly macerate the seeds as well as the pulp." The rheumatic and congestive symptoms were mostly produced by the 3x, the nervous symptoms mostly by the 30x.

Roberts remarked that the natives of Mexico and California eat quantities of the ripe fruit to prevent rheumatism. The right deltoid was very markedly affected and should make Lycpr. a companion to Sang, in shoulder pains.

Headaches were intense and characteristic in some, great soreness remained after the pain had gone.

Dark-complexioned people seem to be suited to its action from two cases recorded by Roberts.

The first case concerned a widow, 50, dark complexion, large, stout, gray eyes. Sudden attack of grip. Very severe aching pains all over, up and down back, limbs, head. Beating, throbbing in head, beginning in occiput, spreading all over head, settling with great violence in temples.

Excruciating pain back of eyes and in balls as if they would burst with the pressure. Light causes pain. Delirium. Severe, deep, racking cough. Thirst for large quantities. Pupils contracted.

Lycpr. 3x every hour cleared away the fever and acute symptoms by the following morning and rapidly cured the remaining cough.

The second case was a man, 40, dark complexion, black hair and eyes, tall, thick-set. Severe bursting, throbbing pain beginning in occiput and settling with great force in temporal and frontal regions, eyes painful, worse from light, pupils contracted. Thirst for large quantities. Temperature 104° F. Pulse full flowing.

Lycpr. 3x every hour given in evening removed the headache before midnight. The next day, the right tonsil was swollen and inflamed, sore on swallowing, feeling of a lump there. Temperature 101°. He recovered rapidly.

RELATIONS - Antidoted by: Tobacco smoke. **Compare:** (1) Bell., Hyos., Dulc., Caps., Sol-t., Sol-n. (2) Ant-t. - weakness of cervical muscles. (3) In coryza, All-c. but All-c. has better open air, Lycpr. worse open air. (4) Contracted pupils. Op. (5) Deltoidrheumatism, Sang. (6) Diabetes. Uran-n. (7) Headache, sore throat, right side. Bell. (8) Headache worse on coughing, worse in open air, Caps.

REFERENCES - Boericke. Clarke. Phatak.

***LYCOPODIUM CLAVATUM

(Club Moss)

PHARMACY - lyc. Lycopodium clavatum. Club moss. Muscus terrestris repens. Pes ursinus. Wolfs claw.

Lycopodii pollen. N. O. Lycopodiaceae. Hilly pastures and heaths in Central and Northern Europe. Russian Asia and North America. Common in Great Britain, especially the North. Its medicinal properties are disclosed by trituration and succussion of the spores. Tincture of fresh plant. Etherial tincture of spores (ether dissolves the spore cases). **Historical dose:** All potencies.

CLINICAL - Abdomen, **weak. Acidity.** Albuminuria. **Aneurysm.** Angina pectoris. Aphasia. Asthma. Axilla, perspiration. **Belching.** Biliousness. Borborygmi. Bright's, disease. **Bloating.** Cachexia. Cancer. Cataract. Colic. **Colitis.** Constipation. Coms. Coughs. Cramps. Cystitis. Day-blindness. Debility. **Diabetes.** Diarrhea. Diphtheria. Dropsy. Dysentery. **Dyslexia.** Dysmenorrhea. Dyspepsia. Ear, eczema. Eczema. **Emaciation.** Epithelioma. Excoriation. Eye, inflammation. Face, eruptions. Feet, perspiring. Fibroma. **Flatulence. Food, allergies. Gallstones.** Glands, swelling. Goiter. Gout. Gravel. Hematuria. Hair, loss. Hands, chapped. Heartburn. Heart, diseases. **Hemorrhoids. Hepatitis. Hernia.** Hypochondriasis. **Hypoglycemia.** Hysteria. Impotence. **Indigestion.** Influenza. Intermittents. Intertrigo. Jaundice. Labor-pains, abnormal. Lip, cancer. **Liver, derangement.** Liver-spots. Locomotor, ataxia. Lumbago. Lungs disorders. **Malnutrition.** Menstruation, disorders. Metrorrhagia. Miscarriages. Nosebleeds. Nymphomania. Otorrhea. Panaritium. Paralysis. Parkinson's disease. Peritonitis. Phlegmasia, dolens. Plica polonica. Pneumonia. Polyps. **Pre-senility.** Proctalgia. Prostatitis. Pylorus, disorders. Quinsy. **Kidney colic. Kidney, disorders.** Rheumatism. **Sciatica.** Skin, cracks. Sleep, abnormal. Speech, disordered. **Stage-fright.** Strains. Sunstroke. Taste, abnormal. Throat, sore. Tongue, coated, cramps. Tuberculosis. Typhoid, fever. Urine, abnormal. Varicose, veins. Warts. Water brash. Whooping cough. Worms. Yawning.

HOMEOPATHIC - The Lycopodiums stand between the mosses and the ferns. Fossils show that in past eras they occupied an important place in the world's vegetation. This remedy is inert until the spores are crushed. The spores from which the potencies are made have been called "vegetable sulphur" (probably on account of their use for producing stage-lightning at theaters).

In the old school the function of Lyc. has dwindled into its use as an "inert" coating for pills and an "inert" powder dusting on excoriated surfaces. Earlier practitioners did not consider it by any means inert.

Lyc. ranks with Sulph. and Calc, in the central trio around which all the rest of the Materia Medica can be grouped. Teste puts Lyc. at the head of a group containing Nairn., Viol. trie, and Ant-c.

Lycopodium is adapted more especially to gradually developing ailments, functional power weakening with failures of the digestive powers, where the function of the liver is seriously disturbed. Deep seated, progressive chronic diseases. **Pre-senility.** Cancer. Erectile tumors. Boils, recurring periodically.

Malnutrition, due to **weakness of digestion.** Affinity for the urinary organs, throat, chest, and ovaries. Symptoms characteristically run from **right to left.** It acts especially on **right side** of body and are **worse from about 4 p.m. to 8 p.m.** Descending symptoms.

Primary action on digestive organs and adjoining glands, on liver and larger intestines rather than stomach. Aversion to bread, worse from eating bread, fermented foods and fermentable dough. Frequent and painful belchings. Sour belchings, vomiting, distention. Alternate diarrhea and constipation.

Pains come and go suddenly. Oversensitive to pain, patient is beside himself. Sense of internal paralysis. One side of the body hypertrophied at menopause. Atrophy of infants. The patient is thin, withered and **full of gas and bloating.**

Acidity, sour, taste, belchings. Dropsy, ascites in liver diseases. **Lithic acid diathesis.** Kidney affections, with **red sand in urine.** backache in kidney region, worse before

Lycopodium clavatum urination. **Stones, gallstones, gravel.**

Emaciation and debility from loss of fluids, in morning. Marked regulating influence upon the glandular (sebaceous) secretions. Hemorrhages, dark blood. Poor circulation, cold limbs. Lacks vital heat, intolerant of cold drinks, **craves everything warm.** Sensitive to noise and odors.

MIND - Failing brain-power (Anae., Bar-c., Kali-p.). **Weak memory,** confused thoughts. **Dyslexia.** Weakness of memory for names of letters. **Spells or writes wrong words** and syllables. Cannot read what he writes. Brain fog after influenza.

Concentration difficult during conversation. **Confusion in warm room, better walking in open air.** Confused thoughts. Confused about common words. Hears wrong words and syllables. Speech indistinct, stammers the last word. Lack of aptitude for finance and math.

Indecision. Timidity. **Loss of self confidence.** Loss of confidence in physician and remedies. **Poor self-esteem.** Anticipation. Averse to undertaking new things, yet goes through with ease.

Great anxiety, in pit of stomach. Anxiety, as if about to die. **Anxiety in house,** with company, during stormy weather, **while walking in open air.** Conscientious about trifles. Apt to worry about the future. Hurried when eating.

Panic attacks (Ars., Phos., Kali-ar., Med.). Constant fear of breaking down under stress, **fear of failure,**

public speaking, stagefright. Fear of men, strangers, **to be alone.** Fear of the dark, ghosts. Agoraphobia. Fear of being unable to reach his destination. Frightened of everything.

Melancholy. Resignation. Sadness in morning. Ill-humor and disposition to weep before menses. Extremely sensitive. Weeps all day, when thanked or meeting a friend. Sad, or cheerful, on hearing distant music. Excessively merry and laughs at simplest things, alternating with melancholy and low-spirited.

Awakes, irritable, angry, sad and anxious. Defiant, arbitrary. Headstrong and haughty when sick. **Domineering.**

Reproaches others. **Love for power.** Hateful. Miserly. Easily aroused to anger. Quarrelsome. Fault finding. Suspicious. Distrustful. Hates being watched when at work.

Misanthropic, flees even from his children. Religious aversion to opposite sex. Aversion to company, yet dreads solitude. Childish fantasies. Delusions that he has neglected his duty. Delusion of being in two places at the same time. Delusion hears music in evening that was heard in the day.

Baby cries all day, sleeps all night. Cranky. Kicks, screams and very cross, on awaking from short, restless naps. Indisposition to play in children. Child desires to be carried. Oversensitive to pain. Feels as if she would die from weakness, when lying in bed.

Ailments from domineering parents or siblings. Ailments from abuse, mortification, anger or vexation. Ailments from fright. **Looks older than he is.**

Abdomen - Bloated abdomen. Tympanitic distension with cold feet. Ascites. Brown spots on abdomen. **Food allergies.** Gastroenteritis from fright. Epigastric anxiety, pressure. Sensation as if a band about waist. Sensation of something moving up and down or as of a hard body rolling, when turning to the right side. Shooting pain across lower abdomen from right to left. Tension and pain in abdomen from incarcerated flatus. Hot pains flash across bowels. Bursting pain in abdomen, during stool. **Fermentation in intestines** like yeast. **Much noisy flatulence,** pressing out, worse lower abdomen. **Immediately after eating, abdomen is bloated and full.** Flatulence before and after stool. **Colic in babies** with gas and bloating, worse evening. **Diabetes.** Inactive intestinal tract. **Hernia, right side.** Colon cancer.

Back - Pain and stiffness in back. Bubbling sensation. Throbbing and pulsating in back. Rising of warmth along spine. Lumbago, worse slightest motion, worse sitting erect, better urinating. Tensive pain in nape. One side of the neck stiff and swollen. Emaciation about the neck. **Burning, as from hot coals** between the scapulae. Pain in the back and right

side from congestion of liver. Back as if broken during stool. Stitches in small of back. Darting in right cervical muscles from below upward. Swelling of cervical glands.

Bladder - Involuntary urination. Frequent urging to urinate, after taking cold, better riding in cars. Bearing down over bladder. Stitches in neck of bladder. Urging to urinate, must wait long before it will pass. Urine frequent and copious at night, scanty by day. Urine suppressed, retained.

Breasts - Stitches and burning pains in nipples, with discharge of blood and water. Hard burning nodosities in breasts with stitching, aching pains and soreness. Rawness of nipples, sore, fissured, bleed easily. Delayed menses with undeveloped breasts at puberty. Milk in breast without being pregnant. Child vomits blood after sucking bleeding nipples.

Causations - Ill effects of fear, fright, abuse, anger, anxiety, embarrassment. **Ailments from sugar, sweets,** tobacco chewing, wine. Ailments from fevers, overlifting, masturbation, riding in a carriage.

Chest - Tensive, constrictive, burning pain in chest. Feeling of tightness in chest with burning. Itching on chest. Tension as of a hoop on chest. Constriction from right side all around short ribs. Difficult respiration due to hydrothorax and hydropericardium. Stitches in left side with inflammation of lungs. Dilatation of air tubes. Tearing and tension under clavicles. Foul, viscid sweat in axilla like onions. Swelling of axillary glands. Axillary abscess. Hydrothorax. Boils. Brown yellow spots on chest.

Constitutions - Grauvogel's carbo-ni- trogenoid constitutions. Suited to persons of keen intellect, but feeblar muscular development, upper part of body wasted, lower semi-dropsical, lean and predisposed to lung and hepatic conditions, herpetic and scrofulous constitutions. Weak muscular power, lack vital heat, circulation poor, it seems to stand still with cold, numb limbs or numbness may appear in spots. Hypochondriacs subject to skin diseases, lithic acid diathesis, much red sediment in urine, urine itself transparent, sallow people with cold limbs, haughty disposition, when sick, mistrustful, low of comprehension, weak memory. Weak children with well-developed heads but puny, sickly bodies, irritable, nervous and unmanageable when sick after sleep cross, pushing every one away angrily. Old women and children. Persons of dry temperament and dark complexion. Undernourished states. Old persons or who become old early, where the skin shows yellowish spots, or to precocious weakly children.

Cough - Cough is deep, hollow. Tickling cough. Dry cough in puny boys with emaciation. Cough, worse eating and drinking cold things, worse going down hill. Loose cough in daytime and suffocative fits at night. Night

cough, tickling as from sulphur fumes.

Ears - Sensation as if hot blood rushed into ears. Itching in ear. Polyps. Thick, yellow, offensive discharge with deafness. Otorrhea and deafness with or without tinnitus. Otorrhea after scarlatina. External meatus excoriated by offensive discharge. Eczema, humid scurfs about and behind ears.

Eyes - Eyes sunken, blue rings. **Eyes feel cold, hot, seem too large.** Eyes painful as if bruised, and dazed by light. Stinging and smarting, worse evening, in light. **Photophobia.** Sparks before the eyes in the dark. Dilated pupils before menses. Cataract with suppressed **menses.** **Inflammatory affections of eyes.** Ophthalmia neonatorum during suppurative stage. Lachrymal fistula. **Nocturnal agglutination and lachrymation by day.** Ulceration and redness of lids. Smarting and burning of eyelids. Polyps on external canthi. Recurring styes. Styes on lids near internal canthus. Eyes half open during sleep.

Face - Freckles. Silly expression. Face withered, shriveled and emaciated. Yellowish, pale, gray with blue circles around the eyes. Grayish-yellow color of face with blue circles around eyes. Flushes of heat. Edema of face. Itching, scaly eruptions. Herpes on face and corner of mouth. Small, white, pedunculated warts

Lycopodium clavatum on chin. **Submaxillary glands swollen.** Tearing pain in bones of face. Drawing or lacerating pain in **lower jaw.** **Dropping of lower jaw, in typhoid fever** (Lach., Op.). Twitchings. Twists face and mouth.

Female - Delayed menses with undeveloped breasts at puberty. Depressed mood and indigestion before menses. Menses too late, with sadness. Menses protracted, too profuse. Menses partly black, partly bright red. Menses of clots and serum. Menses suppressed for months, from fright. Chronic suppression of menses from tuberculosis or cancer. **Dysmenorrhea, violent with fainting.** Labor-like pains during menses with fainting. Discharge of blood from genitals during stools. Leucorrhea, acrid, with burning in vagina. Leucorrhea, periodical, milky, worse before full moon. **Pains in right ovary, from right to left.** Ovarian tumors. Ovarian dropsy. Dropsy of uterus. Cramps in uterus after stool. Flatus from vagina. Vaginitis. Serous cysts in vagina. Vagina, dry, burning, worse during and after sex. **Aversion to sex.** Sex painful. Nymphomania. Fetus seems to be turning somersaults. Disposition to miscarriage, moles.

Food - Malnutrition. Excessive hunger, canine hunger. Hurried when eating. **Hypoglycemia,** headache when not eating regularly. Loss of appetite. Bulimia, with much bloating. **Diabetes.** Likes to take drink and food hot. **Desire for sweets,** delicacies, pastries, alcohol. Food tastes sour. **Food allergies, wheat. Worse from breads, fermented foods** and fermentable dough. Aggravated from alcohol, wine. **tobacco, flatulent food, cabbage, beans, oysters and onions.** **Aversion to sweets, bread, fermented foods,** soup, meat, coffee. Averse to boiled food, warm food, cold drinks or food.

Head-Right-sided headaches. Pain begins on one side goes to other where it is worse. Headaches over eyes in severe colds. **Headache with ravenous hunger, better eating.** Frontal headache after breakfast. **Headache, worse if not eating regularly,** lying down, stooping, better uncovering. Pulsating pain in occiput, at night, worse

when hot. Pain in temples as if screwed together, worse menses. Catarrhal headache, worse when discharge from nose is slacked up. Hydrocephalus. Meningitis, tubercular. Incipient paralysis of the brain. Shakes head without any apparent cause or involuntarily, slow first, then rapid. Deep furrows on forehead. Eczema, moist oozing behind ears. Dandruff. **Hair becomes gray early. Hair loss,** premature baldness after abdominal affections, childbirth.

Hearing - Humming and roaring with hardness of hearing, every noise causes peculiar echo in ear. Oversensitive hearing, to musical sounds and noise. Ringing, during stool. Singing noises as from boiling water. Noise is intolerable after distension of abdomen. Impaired or lost hearing, with otorrhea, with or without tinnitus. Deafness after scarlatina. Tearing pain in right or left meatus.

Heart - Aortic disease. **Aneurysm** (Bar-c.). Angina pectoris. Hypertrophy. **Hydropericardium.** Sensations as if circulation stood still. Pulsating tearing in region of heart. Ebullitions of blood. Accelerated pulse with cold face and feet. Pulse, fast, worse after eating, evening. Palpitations from overeating. Palpitations on turning over in bed at night. Cannot lie on left side.

Kidneys - Aching in kidney, worse before and better after urinating. Kidney colic in ureter (right) to bladder. Renal colic in ureter. Pain in back before urinating, ceases after flow, **slow in coming,** must strain. Retention. Hot urine. **Heavy red sediment.** Disposition to calculi. Hematuria. Urine bloody with paraplegia or sometimes with constipation. Child cries before urinating (Bor.). **Polyuria during the night.** Involuntary urination in fever or from fright during sex.

Limbs - Limbs go to sleep. Numbness, drawing and tearing in limbs. Twitching and jerking. **Cannot lie on painful side.** Rheumatism. **Stiffness of all joints.** Chronic gout with chalky deposits in joints. Pain in bones at night. Curvature and decay of bones. **Sciatica, worse right side.** Varicose veins on legs. Cramps in calves and toes at night in bed. Emaciation of one hand or

Lycopodium clavatum one leg. Painful callosities on soles, toes and fingers contracted. Pain in heel on treading as from a pebble. Profuse sweat of the feet. **One foot hot, the other cold.** Corns. Chilblains. Hands and feet numb. Heaviness of arms. Tearing in shoulder and elbow joints. Axillary abscess.

Liver - Weak liver and poor digestion. Atrophic, nutmeg liver. Sensitive, congested liver. Sore, pressive, bruised, in region of liver, on breathing, worse touch. Liver painful to pressure in spots. Liver complaints after mortification. **Chronic hepatitis.** Hepatitis with pneumonia. Hepatitis of children. **Jaundice with flatulence,** retarded stool, weariness and drowsiness. **Violent gallstone colic.** Dropsy, due to hepatic disease, after abuse of alcohol. Ascites from liver diseases.

Lungs - Dull aching all over lungs. Craves air but is chilled by it. **Shortness of breath.** Difficult breathing due to hydrothorax. Dyspnea, worse lying on back, during sleep. **Short, rattling breathing,** worse lying on back. Neglected or unresolved pneumonia with great dyspnea. Catarrh of the chest in infants, seems full of mucus rattling. Senile catarrh. Bronchocele on right side. Flying of ala nasi and presence of mucus rales. Expectations gray, thick, bloody, purulent, **salty.** Expectoration greenish-yellow, lumpy or foul expectoration. Abscess of the lungs, tuberculosis. Wheezing and asthma.

Male - Cutting pain in glans penis on urinating. Soreness between scrotum and thigh. Discharge of prostatic fluid without an erection. Chronic orchitis. Enlarged prostate. Tumor behind corona glandis. Condylomata. **Sexual desire too strong. Performance anxiety.** Premature seminal emission (Agn., Calad., Sel.). Exhausting pollutions. Falls asleep during sex. Sexual exhaustion, weakness. **Impotence.** No erectile power, penis small, cold, relaxed. Loss of sexual desire after gonorrhea or cystitis.

Modalities - **Better by motion,** belchings, urinating, after midnight. **Better from warm food and drink,** on getting cold, being uncovered, cold applications. **Worse**

right side, from right to left, from above downward. **Worse warm room,** hot air, bed, warm applications, except throat and stomach which are better from warm drinks. **Worse from pressure of clothes,** eating, **oysters,** milk, vegetables, **cabbage, beans,** bread, pastry. Worse wind, wet, stormy weather, 4 p.m. to 8 p.m., awakening. Worse before or from suppressed menses.

Mouth - Mouth hangs open. Sore lips. Bad odor from mouth. Dryness of mouth and tongue without thirst. Speech indistinct, stammers the last word. Saliva dries on palate and lips. **Dropping of lower jaw in typhoid fever** (Lach., Op.). Mouth waters. Gums bleed when touched or cleaning teeth. Taste too acute, sour, bitter, moldy. Blue lips. Ulcers on lips. Small tumors in mouth in various places.

Nose - Nasal troubles from childhood. **Nose stopped up,** snuffles, breathes through mouth, child starts from sleep rubbing the nose. **Fan like motion of alae nasi in brain,** lung and abdominal troubles. Feeling of dryness. Sore pimples on tip of nose. Crusts and elastic plugs (Kali-bi.). Ulcerated nostrils. Acrid ozaena. **Violent catarrh, with swelling of nose.** Catarrh of nose and frontal sinuses. Discharge yellow and thick. Thick yellow discharge, copious and fatty. Fluent coryza. Chronic coryza, blows nose often. Scanty excoriating, discharge. Obstruction of nose during influenza. Sense of smell very acute.

Perspiration - **Viscid and offensive perspiration.** Cold, sour sweats. Foul sweat, smelling like onions, of axillary, feet. Sweats from least exertion. Clammy sweats at night with coldness of face. Perspiration on chest and trunk, face, about scalp and temples.

Rectum - Sharp pains and cramps in rectum. Aching and pressure in rectum, worse at night. Itching and tension at anus. Chilliness in rectum before stools. Biting and burning pain in rectum during and after stool. Rawness, **great excoriations about anus,** bleed easily, itching and moist. **Hemorrhoids, aching, painful to touch** (Mur-ac.). Hemorrhoids, painful when

Lycopodium clavatum sitting, better hot bathing. Inactivity of bowels. Ineffectual urging from contraction of sphincters. Cramps in rectum and small of back, like labor pains. Feeling as if much remained unpassed after stools. Alternating diarrhea and constipation. Constipation, when away from home or traveling. Constipation of children, since puberty, since childbirth. Constipation or diarrhea during pregnancy. Diarrhea after suppression of skin eruptions.

Sensations - As if everything was turning around. As if brain vacillating to and fro. As if temples being screwed together. As if head would burst. As if head opened. Pain in head as if caused by wrong position. As if esophagus was being clutched and twisted. As if steam rising from stomach to head. As if something were moving up and down in stomach. As if stomach would fall down. As if suspensory ligament of liver would tear. As if drops of water were falling down. As if heart hung by a thread. Tension as from a cord in diaphragm. As if chest constricted with tight waistcoat. As if gimlets were running into spine. As if dogs with sharp teeth were gnawing her.

Skin - **Dry skin, shrunken, especially palms.** Skin becomes thick and indurated. Dropsy. Rawness in folds. Ulcerates. Ulcers fistulous. Fissured eruptions. Offensive secretions. Scabs do not separate. Abscesses beneath skin. Skin hot, burning, itching when warm. Eczema associated with urinary, gastric, hepatic disorders.

Chronic eczema. Psoriasis. Hives, worse warmth. Acne. Blood boils, remain blue. Varicose veins. Brown spots, freckles worse on left side of face and nose. Nevi, erectile tumors. Lice, itching violently.

Sleep - Drowsy during day. Irresistible drowsiness after eating. Child sleeps all day and cries all night. Starting up on falling asleep. Restless sleep. Laughs and weeps in sleep. Soporose sleep in typhoid and exanthematous fevers. Confused, anxious, vivid dreams. Horrid dreams, of sickness, of fatal accidents. Frightful dreams frequently awaking him. **Wakes at night feeling hungry.** On waking, the child starts, becomes cross kicks, scolds

or holds his mother. Awakes terrified. **Unrefreshed in morning.**

Stomach - Sensation as if fasting after meals, but without hunger. Pressure in stomach with difficult breathing. Churning sensation. Coldness in stomach. Wakes at night feeling hungry. Nausea in morning before eating, with salivation. Hunger, but quick satiety. **Eating ever so little creates fullness.** Gastralgia and chronic gastritis. **Great weakness of digestion with much bloating.** Dyspepsia due to farinaceous and fermentable food, cabbage, beans, onions. Derangement of stomach from sweets and pastry. Cramps in stomach from eating fruit. Constrictive pains. Burning pain. Gnawing pain in stomach, better drinking hot water. Stomach pains better rubbing abdomen. Rumbling of flatulence (Carb-v., Chin.). Hiccoughs. Sour eructations, belchings.

Belchings rise only to pharynx. Vomiting of dark greenish masses, after eating and drinking. Vomits, food and bile, coagulated blood, dark greenish masses after eating and drinking. Stomach cancer. Perforating ulcer.

Stools - Diarrhea from cold drinks, cold food, beer, milk, fruit, vegetables. **Stool hard, difficult, small incomplete.** Stools, first part is hard is difficult to expel, last part is soft or thin and gushing. **Stools pale, putrid, thin, brown.** Stools mixed with hard lumps, sand. Stools thin, yellow, or reddish yellow fluid. Stools shaggy, reddish mucus, green, stringy, odorless mucus. Discharge of blood during stool.

Teeth - Teeth yellow. Front teeth feel loose. Teeth excessively painful to touch. Sensations as if teeth too long. Grinding of teeth during heavy stupor, as when fully awake. **Toothache when chewing.** Toothache with swelling of cheek, better warm application, warm drinks. Toothache at night, keeps her awake at night. Swelling of gum above front teeth, with swelling of upper lip. Gumboils. Gums and soft palate covered with a lardaceous coating. Gums bleed when touched or cleaning teeth. Fistula dentalis.

Temperature - Chill between 3 p.m. and 4 p.m., followed by sweat. Icy coldness, feels as if lying on ice. One chill followed by another (Calc., Sil., Hep.). Body becomes cold during cough. Chill alternating with heat. Periodic recurrence of chill. Fever, continuous, remittent intermittent. **Fever and sweat every afternoon from 4 p.m. to 8 p.m.** Old. broken down cases of malaria. Typhoid fever. Febrile attacks during tuberculosis.

Throat - **Sore throat, better warm drinks, worse cold drinks, after sleep.** Stitching pain in throat. Throat feels cold. Dryness of throat without thirst. Inflammation of throat with sharp pain on swallowing and coughing, begins on right side. As if a hard body in esophagus. Sensation as if a ball rose up in throat. Chronic enlargement of the tonsils. Swelling and suppuration of tonsils. Tonsils covered with lardaceous ulcers.

Ulceration of tonsils, beginning on right side. Ulceration of vocal bands. Diphtheria, **deposits spread from right to left,** worse cold drinks. Tubercular laryngitis, especially when ulceration commences. Food and drink regurgitates through nose.

Tongue - Tongue dry, black, cracked, swollen. stiff and heavy. White coated tongue with a dry line down center. Dryness of tongue, without thirst. **Blisters on tongue.** Tongue burning and thick, as after much smoking. Tongue feels scalded and raw. **Vesicles on tip of tongue, ulcers on and under tongue.** Convulsions of tongue. Tongue oscillates to and fro, trembles.

Urine - Urine, scanty, cries before urinating, must strain. Urine, milky, turbid, pale and clear, burning hot. Heavy red sediment in urine, thick, purulent, nauseating smell. Hematuria from gravel or chronic catarrh.

Vertigo - Vertigo when looking at anything turning. Vertigo in morning on rising. Vertigo reels back and forth. Vertigo in hot room. Gets hot during vertigo, face reddens, eyes water and become dim.

Vision - Day-blindness (Both.). Black, floating spots before eyes. Hemipopia, sees only one-half of an object. Must wipe mucus

from eyes in order to see clearly. Letters run together or become indistinct while reading or writing, must vary distance of page. Impaired vision seems as if one was looking through fine lattice. Flickering and dim vision after a nap in afternoon. **Nightblindness.** In artificial light all objects tremble. Sees sparks in the dark.

COMMENTS - Lyc. was praised by Wedel, Lantilius, Gesner and others in cardialgia and flatulent colic of children and young girls, diseases of children, and nephritic colic and stones. Merat and de Lens spoke of its internal use in rheumatism, retention of urine, nephritis, epilepsy and pulmonary diseases. Diabetes, arthritis, hypoglycemia, depression, and dyslexia. Useful for early stage alcoholics.

Teste mentioned that it is recorded that a decoction of the plant caused vomiting. The use of the powder in intertrigo was not regarded as a physical one but as medicinal. In Poland it was used for powdering the hair in "plica polonica," a decoction being used internally and also externally at the same time.

Apprehensiveness. Anxiety about performance, particularly sexual. Fear of public speaking, failure, success, new situations, commitments and responsibility. Fear of being alone, of men, of his own shadow. Agoraphobia. Hypochondriacs. Panic attacks (Ars., Phos., Kali-ar., Med.). Susceptible to causes of fear that make a profound effect on bodily organs.

Profound sadness and inclination to weep. Poor confidence and low self-esteem. Forgetfulness. Peevish. Avaricious. Imperiousness. Miserliness. Overly concerned with image. Love of power. Dictatorial tendencies. Attracted to politics (Ign., Nairn., Calc., Lyc., Nux-v.), for the power and the stature, the ego, the class, society. Can be domineering, aggressive.

Headaches, worse from 4 p.m. to 8 p.m.. eating, warmth of bed, becoming heated during a walk, heat in general, mental exertion, better in open air, in cool place, by uncovering. Rush of blood to the head. Falling of hair with crusty scalp eruption.

Face is pale and yellow, deeply furrowed, looks elongated. Inflammation of eyes and lids. Ophthalmia, conjunctiva looks like red flesh. Sordes in teeth.

Facial neuralgias. Nodding and side to side movement of the head. Spasmodic movements of facial muscles, angles of mouth alternately drawn up and relaxed and spasmodic movements of tongue.

The tongue cannot be protruded, rolls from side to side like a pendulum. Cramp in the tongue when speaking, cutting off the end of every sentence. Rapid, fan-like movement of ala nasi occurring in cerebral, pulmonary and abdominal complaints, not synchronous with breathing.

Sciatica, cannot bear to lie on painful side it is so sensitive, especially if on right side. Paralysis and paralytic weakness of limbs, of brain. Heaviness of the arm. Contraction of the tendons, especially hamstrings. Right foot hot, left foot cold.

Cutting pains shooting from right to left in any part (opposite of Lach.). Burning pains better by heat, burning like hot coals between scapula. Burning stinging in breasts. Dryness of parts, of mucus membranes, of vagina, of skin, especially palms. Suppurative conditions, even gangrene.

Characteristic suddenness, sudden flashes of heat, lightning-like pains, sudden satiety. Pains and symptoms come and go suddenly (Bell.). Sensation as if a hand were in the body clutching the entrails (Bell.). Restlessness, better by motion (Rhus-t.).

Keynote worse from 4 p.m. to 8 p.m. In one case cured by Lyc. it was "bad from 4 p.m. to 6 p.m.. better at 8 p.m., gone at 9 p.m." Characteristic right to left movement. Better from uncovering, particularly headaches (opposite Sil.). Better from loosening garments. Better from warm drinks, worse from cold food and drinks. Desires fresh air (Puls.).

Excessive sensitiveness, worse touch and pressure. All soft parts are sensitive, gums, epigastrium, abdomen, right side of chest, eruption around anus. Cannot bear any strong smells. Cannot endure noise. In the evening she continues to hear the music she has heard during the day.

Deficiency of vital heat. Puerperal fever with sensation as though hot balls dropped from each breast through to back, rolling down back, along each leg and dropping off heels, this alternates with a sensation as if balls of ice followed same course. Phlegmasia dolens.

Respiratory disorders. Salt sputa, milky, greenish yellow, thick yellow mucus, pus. Dry burning catarrh of nose, larynx, throat, chest. "Dry teasing cough in emaciated boys." Cough provoked by irritation from deep breathing, stretching out throat and by empty swallowing. Cough worse on waking.

Affects the blood vessels from the heart to the capillaries. Nevus, aneurysm, disordered heart. Varicose veins. Weak digestive tract. Easy satiety. Sleepy after meals. Diabetes and hypoglycemia. Sinking sensation at epigastrium, worse in the night, waking up the patient or worse in afternoon. Cord-like tension across hypochondria. Great sensitiveness in liver region.

Borborygmi under left ribs in front. Sour stomach, sour taste, sour vomiting. Often thirsty, for small amounts, but drinking cold water causes nausea. Great weakness with the vomiting. Craves sugar and starch (Kali-c, Chin., Nat-c.). Aggravated by or averse to onions and garlic (Thu.). Worse from flatulence foods, cabbage, broccoli, and beans.

Kidney colic with stinging, tearing, digging pain in right ureter to bladder, as if some small calculus was tearing its way to the bladder. Aching in back, kidneys, before urination, better after urinating. Pale, whitish, cloudy mucus, urine often fetid.

Child cries before urinating, red sand is found in diaper.

Gas and bloating. Incarcerated flatulence, more in intestines than in stomach, painful with better by belchings. Flatulence pressing outward, on rectum and bladder, sensation as if something moving up and down in the bowels.

Pushing out in right inguinal ring. Right inguinal hernia, especially in children. Spasmodic constriction of rectum. For constipation where purgatives have been abused. Constipation of infants.

Extreme sadness and irritability before menses, ceasing with the flow. Menses are too early and too profuse. Ill-humor. Bearing-down pains and headache. Intolerance of tight clothing. Left ovarian pain, dull aching, worse on raising the limb or turning in bed. Nausea, varicose veins and excessive fetal movements during pregnancy. Unsatisfactory labor pains.

Impotence, from masturbation, sexual excess, or age. Desire is strong but the power is absent, penis small, cold, relaxed.

There was an involuntary proving of Lyc. from inhalation of the fumes in the course of a chemical experiment, Lyc. powder being added to a boiling mass. The writer (apparently a medical man) had at times, while engaged in the experiments, frightful headaches (occiput, vertex and through right eye).

S. A. Jones called attention to the irritability of Lyc. and noted the cure of a boy with typhoid with excessive tympanites when the case seemed almost hopeless. The guiding symptoms were "when awake exceedingly cross, irritable, scolding, screaming, behaving disagreeably," which was quite different from his usual nature. Lyc. 30c was given.

The "fan-like movement" of the ale nasi led Halbert to the cure of a case of nervous asthma. Mrs. S., 28, had periodic attacks of spasmodic asthma, always ushered in by unusual excitement and attended by peculiar mental depression. The attack for which Halbert saw her was induced by a violent fit of anger and persisted longer than usual. Extreme despondency and melancholy, would have nothing to do with her friends.

Constriction of throat like globus, but always induced by regurgitation of food. Excessive appetite easily satisfied. Fullness of abdomen with flatulence. Constipation, dry, hard stools. Dyspnea. Slight cough with chest constriction, better in open air. All symptoms worse 4 p.m. to 8 p.m. Lyc. 6x cured.

A patient of Clarke's took Lye. 30c and developed a "pain under sternum as if food lodged there and she could not breathe through it."

Loosvelt found that "half-open condition of the eyes during sleep" is a strong indication for Lyc. and led him to make cures in cases of bronchitis, pneumonia and typhoid when other remedies have failed.

Majumdar recorded the case of a boy, 14, who had general dropsy and anasarca consequent on the subsidence of an enlarged spleen under allopathic medication. There was afternoon fever (worse 4 to 8 p.m.), slight chilliness, but no thirst, difficult breathing on lying down, urine scanty and high colored, bowels constipated, heart's action weak but regular.

Apis caused the urine to be more free, but a troublesome diarrhea set in. Apoc. 6x removed the diarrhea, but had no effect on the dropsy. Lyc. 30c was then given purely on the symptoms and quickly cleared up the case.

H. Goullon cured a case of cystitis in a man, 55, subject to attacks of enteralgia. He was seized two days after such an attack with a severe cystitis with fever and palpitation of the heart. The calls to urinate were increased and he could hardly reach the vessel quick enough to prevent premature escape of the urine, so severe and sudden was the urging.

During, and sometimes after the passage, there was intense burning pain, "as if molten lead were flowing through the urethra." During the height of the pain he grasped his penis to obtain relief.

The urine, which was discharged in very scanty quantities, looked turbid, almost loamy, had a dirty brownish-red color and a peculiar odor of malt. Lyc. 12c was given, six drops in half a wine glassful of water, a teaspoonful every three hours. Cured in twenty-four hours.

Drysdale recorded the cure of a young woman whose hands were covered with warts. One 2 grains tablet of Lyc. 6c trituration was given at bedtime. The warts soon began to shrivel and in less than six weeks were all gone.

Clarke gave Miss E. Lyc. 30c for constipation. Soon after taking it she had pains in upper abdomen in all directions, urging to stool without ability to pass it, much flatus which could neither be got up nor down.

Lyc. 1,000c. was now given, a few globules dissolved in water, a teaspoonful at bedtime. All symptoms vanished. On rising, a second teaspoonful was taken and after this the bowels were well relieved.

On another occasion she took Lyc. 1,000c. in the evening and immediately felt her throat tight and uncomfortable, but this passed, and she went to bed. At 5 a.m. she woke with choking and had the greatest difficulty in getting her breath. She managed to reach a bottle of Bell. 3c and a dose of this relieved her at once.

A patient for whom Lyc. 5c had, to her great delight, reduced the gouty swellings about her finger joints. Now she could get rings on she had not been able to wear for years, but she was obliged to discontinue it on account of the distressing headaches it caused.

RELATIONS - Antidotes: Camph., Puls., Caust. **Compare:** (1) Alum. - Lyc. is the only vegetable that takes up aluminum (Allen). (2) Ant-c., Nat-m., Bry., Nux-v., (3) Both. - day- blindness, can scarcely see after sunrise, pain in right great toe. (4) Plumbg. - a Brazilian plant. Costive with red urine, pain in kidneys and joints and body generally, milky saliva, ulcerated mouth. (5) Kali-c., Nat-c., Calc-c., China, Sulph. **Complementary:** Lyc.

acts with special benefit after calc, and Sulph., lod., Graph, Lach., Chel., Hydr. follows Lyc. in indigestion.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***LYCOPUS VIRGINICUS

(Bugle-weed)

PHARMACY - lycps. Lycopus virginicus. Bugle-weed. Virginia horehound. N. O. Labiate. Shady and wet places in North America. Tincture of fresh plant in flower. Tincture of the whole plant by macerating one part by weight of the fresh plant in two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Aneurysm. Bright's disease. Cough. Diabetes. Exophthalmos, //eruptitis. Headache. Heart, diseases. Hemorrhoids. Malaria. Menorrhagia. Metrorrhagia. Pericarditis. Reptile, bites. Snakebites. Tarantula bites. Tuberculosis. Typho-malarial fever.

HOMEOPATHIC - According to Hale, Lycps. is mentioned by Rafinesque as "partaking of the properties of Digitalis, Sang., Cimic. and Spig." and as being "one of the mildest and best narcotics in existence."

Hale commended Lycps. as a substitute for Dig., having the advantage over it of being non-poisonous, as useful in hemoptysis and "wherever it is required to quell inordinate motions of the blood."

Briggs of Fort Lovell, related the cure of a patient of tarantula bite by application of a liquid made of Lycps. He said the Cherokee Indians allow themselves to be bitten by rattlesnakes, centipedes and tarantula, chewing as an antidote large quantities of lycopus and swallowing the juice.

H. W. Felter, an eclectic, is quoted as commending Lycps. in passive lung hemorrhage, wild, tumultuous beating of heart, which often precedes the lung hemorrhage, cough of tuberculosis. Lycps. does not disorder the stomach, he says, but acts a tonic and appetizer.

Morrisson made an extensive proving of Lycps. and developed unmistakable heart symptoms. Lowers the blood pressure, reduces the rate of the heart and increases the length of systole to a great degree (Adren.).

Diseases with tumultuous action of the heart and more or less pain. Feeble heart, with distress and weak pulse.

Cardiac irritability with depressed force, with or without organic disease. **Hemoptysis due to valvular heart disease.** Passive hemorrhages.

Pulmonary complaints associated with loose stools. Hemorrhoidal bleeding. Characteristic cough with hemoptysis associated with feeble heart action. Violent cough at night. Lying down causes cardiac depression and lying on right side aggravates constriction of thorax.

Pains shift generally right to left. Exophthalmic goiter. Beneficial in toxic goiter used in the pre-operative stage. History of suppressed discharges.

MIND - Increased mental and physical activity in evening. Nervous, hurried and tremulous. General wakefulness and morbid vigilance. Instability. Irritability, unless spoken to very softly.

Mind wanders from one thing to another. Slow comprehension. Slight dullness of intellect with headache. Stupor, as if intoxicated, during menses.

Abdomen - Tugging pain in spleen. Tenderness in left hypochondrium. Aching in inguinal canal, bearing down as from hernia. Flatulence and rumbling. Severe colic followed by profuse, forcible diarrhea.

Back - Severe aching down spine. Acute pain at seventh cervical vertebra. Slight rheumatoid pain in left supra-scapular muscles.

Bladder - Tenderness in bladder. Bladder feels distended when empty.

Causations - Suppressed hemorrhoidal flow.

Chest - Constriction across lower half of thorax. Pulmonary disease associated with looseness of bowels.

Ears - Burning in right ear.

Eyes - Protrusion, pressing outward, with tumultuous action of heart. Eyes feel weak, as if fatigued. Neuralgic pain in right supra orbital region. Supra-orbital pain with aching in testicles.

Female - Menorrhagia and metrorrhagia. Menses intermit for ten or twelve days. Vagina very hot, os uterus engorged and swollen. Puffing of parts on and around pubes and vulva, dilated condition of vagina.

Head - Frontal headache, worse frontal eminences, often succeeded by labored heart. Pressure in forehead, worse left portion. Noise and throbbing in head preventing sleep after suppressed hemorrhoids.

Heart - Precordial pain, constriction, tenderness. Rheumatoid, flying pains, associated with heart disease. Cyanosis. Heart's action is tumultuous and forcible. Pulse, weak, irregular intermittent, tremulous, rapid. Palpitation from nervous irritation with oppression around heart. Cardiac asthma (Sumb.). Rapid heart action of smokers.

Kidneys - Profuse flow of liquid, watery urine, especially when the heart is most irritable, also scanty urine. Urine is scanty, thick, muddy. Diabetes mellitus, great thirst and emaciation.

Limbs - Muscular rheumatoid pains. Rheumatoid pains in forearm and wrists with trembling of hands. Hands unsteady, writing difficult. Rheumatoid pains in knees, legs, thighs, wandering to back. Slight lameness, unsteady gait.

Lungs - Asthma. Wheezing. Breathing oppressed. **Cough with hemoptysis. Needing** small but frequent. Cough and irritation of lungs with irregular action of heart.

Male - Pain in testicles. Neuralgic pain in testicle with supra-orbital pain.

Modalities - Worse motion, exercise, walking, ascending. Worse at sunset, evening, morning, with aching down spine, better after rising.

Mouth - Toothache in lower molars.

Nose - Nosebleed. Sneezing and slight nasal catarrh.

Rectum - Constipation. Diarrhea in jaundice from weakened heart. Diarrhea with griping and rumbling. Bleeding from rectum. Hemorrhoids.

Skin - Prickings as if bitten by insects. Troublesome urticaria on left forearm and right leg, before retiring.

Sleep - Wakeful on retiring, though fatigued. Sleep restless, full of troublesome dreams.

Stomach - Circumscribed pain and compression in region of stomach. Indigestion with pain and distress in gastric region. Gastritis, enteritis. Nausea with faintness. Diarrhea, dysentery.

Throat - Rawness at back of right palate, extending to left. Burning in spot on soft palate, following headache.

Vertigo - Vertigo, tends to stagger to right.

COMMENTS - The association of Lycps. with Dig., Cimic. and Spig. particularly shows a very clear insight into the action of the remedy, which an experience of Clarke's seems to confirm.

Miss S., 25, came to him in October, 1899. About three years ago she had the first symptoms of exophthalmos, which was ascribed by her mother to a prescription of Macrin. in low potency, taken for pains in the eyes and continued for a long period.

The first symptoms were sore throat with ulcerations, then the goiter appeared and the heart became painful, its action intermittent with breathlessness and inability to take exertion.

After a course of Thyr. and later of Thuj. 30c (she had been vaccinated), Lycps. 12c was given and this took away all the heart pains. Attacks of influenza complicated the case and other remedies had to be given. The patient then did well under Spig. 30c, as far as the heart is concerned, though no impression was made on the goiter, which was small. The heart sounds were normal.

Characteristic shifting symptoms. Pains shift from heart to eyes, from head to heart, from heart to left wrist and right calf, and back to wrist and heart. Proell noted two of his cases in which there was a shift from rectum to heart and head.

Proell's two cases concerned suppression of hemorrhoidal flux. The patients were each 60 years of age, a man and a woman, both fair with light eyes, tall, very irritable with weak innervation of the heart without decided organic disease.

Both had, years before, hemorrhoidal flux which stopped suddenly. Both were hypochondriacal and had noise in their left ear.

This last symptom was the chief thing the man complained of, along with throbbing in the head preventing sleep.

Neither Cact., Kalm., nor Gels, helped radically. The night after taking Lycps. 1x, the man was a little better and in the forenoon bled from the rectum (about three table spoonfuls after defecation) with great general relief.

The woman had glycosuria, cataract of left eye and every third night was restless. Lycps. 1x, one drop in the evening. The following night she was excellent, and in the morning came an abundant bleeding from the rectum with great relief.

Morrison noted a case cured with Lycps. in which the sufferings were associated with the menstrual period, which was exactly regular but intermittent in flow. The first symptoms appeared within three or four hours of the onset of the flow and was a deep-seated pain with heat in occiput. Then followed a train of symptoms, among them nausea, and when the nausea came on the occipital pain was better.

Stanley Wilde cured a desperate case of pericarditis associated with bronchitis with Lycps. tincture, as well as a case of palpitation with darting pain in the heart in a young woman, following an attack of acute rheumatism two years before.

RELATIONS - Antidote to: Cimic. **Compare:** (1) Lam. - hemorrhoids, Oci. (2) Iber., Kalm., Spig., Crat., Cact., Dig., Hydr-ac., Laur., Prun., Spig. (heart). (3) Sang. (4) EphedraTeamster's Tea - in exophthalmic goiter, eyes feel pushed out with tumultuous action of heart. (5) Fuc., Spartein, Crat., Adren.

(Methylglycoxalidine)

PHARMACY - lysid. Lysidinum. Methylglycoxalidine. Ethylene-Ethenyl-diamine. Lysidin. Lysidinum occurs in red-white crystals. The solution is a thick pink colored liquid. Trituration. Solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Gout. Kidney stones. Oxaluria. Uric acid diathesis.

HOMEOPATHIC - Clifford Mitchel gave the 50 percent solution in ten-drop doses well diluted in aerated water, thrice daily in two cases of oxaluria. One case was in a young man, recent, and one in an old man, long standing. In the second case, the distressing lumbar pain was removed by a few doses though it had persisted for a number of days.

RELATIONS - Compare: (1) Nit-m-ac., Ox-ac., Sars., Urotrop.

***LYSSINUM

(Rabies Nosode)

PHARMACY-lyss. Lyssinum. Rabies nosode. Lyssin. Hydrophobinum. Trituration of sugar of milk saturated with the saliva of a rabid dog. Triturations might also be made of the cultured microorganisms. **Historical dose:** All potencies.

CLINICAL - Anxiety. Bubo. Clairvoyance. **Convulsions.** Corns, painful. Diarrhea. Dysentery. Esophagus, stricture. Fever. Hair, oily. Headaches. **Hydrophobia.** Hypersensitiveness. Hysteria. Insanity. Leucorrhea. Lys- sophobia. Mania. Nervousness. Neuralgias. Paralysis. Pregnancy, convulsions. **Rabies.** Respiratory, paralysis. Salivation. Sciatica. Sunstroke. Tetanus. Toothache. Ulcers. Uterus, prolapse. Vaginismus. Wounds.

HOMEOPATHIC - Hering, in 1833, was the first to prove and to suggest the employment of this nosode in medicine. Later, it became notorious from the experiments of Pasteur. The pathogenesis of Lyss, is made up partly of symptoms observed in rabid animals and human patients, but chiefly of symptoms developed in the provings.

The remedy has been extensively used in practice, not only in cases of hydrophobia, but in many disorders in which the keynote symptoms have been present. The effects of bites of non-rabid dogs have been removed by this nosode.

Dysentery with pain and tenesmus on hearing water running from a tap. Copious viscid saliva. Thirst with inability to swallow. Suffocating feelings. Sighing and sighing respiration.

Trembling or quivering sensation throughout the whole body.

Sensitiveness to breath of air, to bright objects, especially the surface of water, to sounds, and, most of all, to the sound of running water. **Convulsions brought on by dazzling light or sight of running water.** Thought of light or water is enough to bring on an aggravation or a convulsion.

Aching in bones. Bluish discoloration of wounds. Complaints from abnormal sexual desire. Senses become over-acute. Noticeable rapid speech and impatience. Irritable, violent temper. Cannot bear the heat of the sun. Symptoms are better from sweating.

A number of cures of hydrophobia have been reported from forced perspirations, especially from prolonged and repeated use of the Turkish bath. This is known as the Buisson treatment from Dr. Buisson who originated it.

MIND - Hyperactivity of the mind. **Hypersensitiveness of all senses.** Heightened awareness. **Empathetic to others pain.** Clairvoyance. Emotions and bad news aggravate. History of physical or sexual abuse. Feelings of isolation and of being ridiculed or tormented.

Anxiety, restlessness, with great prostration. Rapid speech. Roams about. **Anxiety from hearing church bells.** Indecision even in small matters. Thoughts of something terrible going to happen come into his mind against his will. **Fear something bad will happen.** Feels he cannot physically endure his fears much longer. Lysophobia, fear of insanity. Fear of driving, airplanes, injury, suffocation, choking, being bitten by dogs. Fear of being alone. Claustrophobia. Agoraphobia. **Hydrophobia.** Fear of mirrors in room. Fear during pregnancy. Strange notions and apprehensions during pregnancy.

Worse thinking of water, fluids, brings on convulsions. **Irritability on hearing or seeing water.** The sight of water is intolerable. **Wants water but can't drink it. Worse shining objects, mirrors.** Copper metal, if in his room, makes him restless and full of pains. **Never well since having a dog bite.**

Weary and incapable of mental exertion. Dullness and stupidity, at night restlessness. Depressed, as if something would happen. Felt as if she was going to die, as if she was going to sink away. Loss of consciousness.

Ill-humor. Irritable and critical. Impatient. Violent temper, impelled to do reckless things. **Rude, abusive, bites**

and strikes, bites or stabs himself. Growls. Cursing. Insane ideas enter his head. Thinks he is insulted, has suffered a wrong, that he is tormented. Anger followed by remorse.

Compulsive disorders. Ritualistic behavior. Excitement from hearing conversation. Can't bear to hear others sing, or eat apples. Does not hear or see persons around him. Doesn't answer questions. Clairvoyance.

Abdomen - Distension of abdomen, every evening. Rigidity of muscles of abdomen. Swelling of inguinal glands. **Soreness in whole of lower abdomen**. Pressing pain in right side, near last ribs with breathing in hypochondria after quick walking. **Throbbing pains**. Tearing pain from left hypochondriac region to right. Shooting pains in right side of abdomen. Drawing pain below navel. Colicky pain in abdomen.

Back - **Great weakness in back, as if it would split and fall apart**. Back extremely sore, as if beaten. Severe backache with numbness of hands. Shooting pains through small of back. **Weakness in back, during copious menses**. Considerable pain in lower part of back with soreness felt through to pubic region. **Stiffness in joints of back**. Hyperesthesia of skin along vertebral column. Pressing in neck and up back of head. Backaches with headaches. Pain in neck better bending head backwards. Stiff neck with shooting pains. Muscles of neck contract spasmodically. Sternocleidomastoid muscle on each side stands out like a thick cord.

Breasts - Both breasts swollen when waking in morning.

Causations - Ill effects of dog bites, rabies vaccinations.

Chest - Burning, surging through chest. Burning, stinging in left side of chest, with palpitations. Chest and abdomen feel expanded. Chest as if beaten, in evening. Rheumatic pains across chest when drawing in a breath. Weakness of chest. Lump in right axilla.

Ears - Ears feel stiff. Itching of ear. Itching in a small spot in upper part of both ears, better scratching. Sharp pains passing into in ears. Buzzing in right ear. Conversation in vicinity of patient may throw him into a most violent agitation. Hearing water poured out in next room makes him very irritable and nervous. Clairaudient.

Eyes - Eyes are wild, rolling, staring and livid. Dilatation of pupils. Eyes bloodshot. Eyes congested and painful. Itching heat in eyes. Burning of eyeballs. Stinging pain in left eye. Great weakness in eyes, without pain. Sensitive to light. Eyelids feel paralyzed on awaking. Pain in small in spot over right eye brow, worse writing.

Face - Face pale and yellowish. Bluish pimples on face. Heat and redness of face. Face sweats with sensation of heat with flushes. Countenance changes its aspect frequently. Quivering in face. Facial muscles become contorted. Spasms with froth before mouth. Gnawing and crawling sensation in zygoma. Lower jaw stiff and painful with inclination to yawn. Jawbones feel stiff, sore, aching in lower jaw.

Female - Menses frequent, protracted, dark, and at times fetid. **Menses with hemorrhoids**, pulsations in anus and weakness of back. Menses with prolapsed uterus. **Severe leucorrhea with pains in back** and lower part of bowels, sore vagina. Slimy leucorrhea, profuse, running down the legs. White discharge like leucorrhea, weakening. Uterine sensitiveness, conscious of womb (Helon.). **Uterus prolapsed**. Uterine displacements. Any change of position that would tilt or rotate os uterus would cause much pain. Sharp pain in uterus, shooting down to labia. Pain in left ovarian region. **Vagina sensitive, rendering sex painful** (Berb.). Since childbirth, more pain with sex and a dislike to it.

Food - Voracious appetite, swallowed wheat without chewing. Inability to take solid food or it is consumed with greatest difficulty. Excessive desire for salt. Craves chocolate. Strange notions, desires or cravings during pregnancy. **Wants water but can't drink it, aversion to water**. Warm drinks, such as milk, soups and wine, are more easily taken than water. Aversion to apples, fat food. Worse after mutton. Excessive sensibility to smell of tobacco.

Head - Headache from bite of dog, whether rabid or not, worse by noise of running water, bright light. Chronic headaches from mental emotion or exertion. Sharp pain above eyebrows. Boring pain in forehead. **Maddening outward pressing pain in forehead, sensation as if head would burst. Severe pressing in left side of head**. Headaches with general weariness. Headaches with salivation. Headaches alternating with hot flushes in face. Rush of blood to head, while lying down. Throws the head back when sneezing. Very sensitive scalp. Dry hair becomes oily.

Heart - **Heat and burning in heart**. Violent pain in heart, as if it would burst or had needles running into it. **Sharp pains in heart while walking**. Dull pain in heart all day. **Heart pains with sighing**. Feels beating of pulse through whole body. Heart palpitated violently and felt as if it was coming up into throat. Palpitations causes anxiety.

Kidneys - Dull pressure in region of left kidney. Flying pains in urinary organs, causes difficulty and heat in urination. Desire to urinate on seeing running water, cannot urinate unless he hears water run. **Urine too scanty and high-colored**. Urine dark, brownish, with whitish sediment. Profuse watery urine, in evening.

Limbs - All muscles feel bruised in morning. Drawing in back and limbs. Severe twitching in arms and legs, resembling chorea. Weight and heaviness of legs and shoulders. Weakness in arms. Cramp in arms. Left hip aches in bone. Along left sciatic nerve a dull pain. Weakness in legs

when going up stairs.

Lungs - Spasmodic contraction of respiratory muscles. **Difficult breathing and spasmodic sensation in trachea. Dyspnea with flatulency, cough and rattling in chest.** Breathing held for a time. Oppression in breathing. Breathing, gasping, irregular and quite rapid. Barking cough with gagging. Sighing, groaning respiration from cardiac pain. Frequent sighing and sobbing. Voice altered in its tone.

Male - Burning and itching on corona glandis. **Strong erections, without sexual excitement or thoughts.** Complaints from abnormal sexual desire. Painful erection of penis and frequent seminal emissions. Semen is discharged too late or not at all during sex. Pain in testicles after sex. Atrophy of testicles. Scrotum tightly drawn up. Hydrocele. Discharge of prostatic fluid, smelling salty and musty.

Modalities - Better gentle rubbing, bending backwards, steam or hot water bathing. **Worse glistening objects, dazzling or reflected light, mirrors. Worse from sight or sound of running water,** thinking of fluids, pouring water. Worse from heat of sun, wind, drafts. Worse stooping, riding in a carriage, mental exertion, bed news.

Mouth - Bitter taste in morning on awaking. Sore mouth, feels as if there were lumps in it. Feeling of coldness in mouth like essence of peppermint. Saliva tough, ropy, viscid, frothy. Constant spitting. Froths at mouth.

Speech impeded from spasms of throat. Feeling of general malaise.

Nose - Nose stiff. Nose feels bruised. Itching in nose all day. Sneezing from tickling in nasal cavity. Frequent sneezing, as if a coryza would begin and from every little dust. Coryza with tickling in roof of mouth. Fluid nasal discharge. Great sensibility to smell of tobacco. Strong odors may start spasms.

Rectum - Darting pain into anus causes contraction. Difficult passage of flatus as if anus resisted expulsion. Desire for stool on hearing or seeing running water. Tenesmus during and after stool. Straining to evacuate, causes violent pain in small of back and in rectum. Constipation, stools

Lyssinum very dark. Difficult stool, hemorrhoids protrude. Passage of bright red blood, with terrible burning and pricking in anus. Passes blood from anus during menses. **Diarrhea worse hearing running water.** Profuse, watery stools with pain in bowels, worse evening.

Skin - Biting, itching in various parts of body, worse by scratching. Itching as soon as beginning to get warm in bed. **Malignant ulcers from bite of a dog.** Bluish discoloration of bitten place (Lach.). Dark, livid-marks where inoculations were made. Pustules. Cancerous sores.

Sleep - Inclination to yawn and stretch, with stiffness of lower jaw. **Yawns frequently without sleepiness,** especially when listening to others. Insomnia, sleepless in spite of narcotics. Sleeplessness from excitement or despair. Starting in sleep. Dreams of dogs, of high places, of insane asylums, churches. On waking, is morose and inclined to be angry.

Stomach - Aching pain with coldness in stomach. Hiccough. **Gagging when he forcibly attempts to swallow water.** Nausea with giddiness, headache and pale face after diarrhea. Nausea and vomiting, after diarrhea. Nausea and vomiting of a foamy, mucus, dark-colored substance resembling coffee grounds. Vomiting of food or fluid while drinking. Vomiting at night in sleep.

Stool - Tenesmus during and after stool. Dysenteric stools with tenesmus, renewed as soon as he hears or sees water run. Diarrhea with much pain, followed by nausea as if she would have to vomit. Stools of bloody mucus. Involuntary stools.

Teeth - Grinding of teeth. Teeth as if on edge. Painful sensation of coldness shooting into teeth. Frequent shooting pains in teeth. Toothache during pregnancy. Drawing pains in gums. Aching in swollen gums.

Temperature - Paroxysms of intense coldness, with pain in spine. Chilly feeling. Chills mixed and followed by heat and cold sweat. Cannot bear heat of sun. Intermittent fever. Fever every evening commencing at dusk and lasting until bedtime. Fever during headache.

Throat - Sore pain, constant desire to swallow. **Difficult swallowing, gagging when swallowing water from spasms.** Burning and stinging pain when swallowing water. Slight redness of palate and throat with spasm of esophagus and difficult speech. Sensation as if uvula were too long. Cooling sensation in esophagus. Voice altered in tone tones much suppressed. Hoarse, rough, harsh and weak voice.

Tongue - **Tongue large, pale and flabby.** Tongue coated with foam, with thin layer of yellowish white fur, in center. Tongue dark red on sides. **Pricking sensation under tongue.** Cool feeling on tongue like after peppermint. Pain or tickling in root of tongue. Root of tongue as if swollen.

Vertigo - Vertigo as if something was drawing around in a circle. Vertigo as if she could not hold her head straight. Vertigo with inclination to fall to right when stooping. Vertigo with dim sight while walking and sitting. Vertigo with chill and intolerable snappish headache. Vertigo with nausea, cramps in abdomen. Violent vertigo during morning. Vertigo temporarily better by return of diarrhea.

Vision - Sees sparks. Something moves to and fro before eyes while sewing. Vanishing of sight. Impaired vision with dilatation of pupils. Couldn't read longer than a few minutes at a time, when she would see letters

double.

COMMENTS - Lyss, is a close analog of many of the animal poisons, especially Lach. Rabies (Bell., Stram., Canth.). It has been used as a prophylactic to prevent the development of rabies. Also, for the side effects of rabies shots.

For the effects of bites from non-rabid dogs, especially headaches. Bluish discoloration of wounds (Lach). Hydrophobia. Gagging, panic attacks at the sound or thought of water. Aggravated by shiny objects. Photophobia. Mania, delusions, hallucinations.

Hyperesthesia. Violent agitation and severe convulsions from air currents, approaching people, slightest touch, over hearing conversation. Convulsions from the thought of fluids, drinking, swallowing.

Convulsions from dazzling or reflected light from water or mirror (Stram.). Cannot bear heat of sun (Gels., Glon., Lach., Nat.).

Profuse salivation. Saliva tough, ropy, viscid, frothy in mouth and throat, with constant spitting (Hydr.). Sore throat, constant desire to swallow (Lac-c., Mer.). Difficulty in swallowing. Spasm of esophagus from swallowing liquids, gagging when swallowing water. Constant desire to urinate on seeing running water (Canth., Sulph.). Urine scanty, cloudy, contains sugar.

Prolapsed uterus, many cases of years standing have been cured. Leucorrhea, profuse, running down the legs (Alum., Syph., Tub.). Sensitiveness of vagina, rendering coition painful. Complaints resulting from abnormal sexual desire (from abstinence, Con.). Mental emotion or mortifying news always makes him worse (Gels.).

RELATIONS - Compare: (1) Canth., Bell., Hyos. Stram., Lach., Nat-m. (2) Xanth. - said to be specific for hydrophobia and is recommended for chronic cystitis in women.

REFERENCES - Allen. Boericke. Clarke. Murphy. Phatak.

***MACROTINUM

(Black Cohosh Resin)

PHARMACY - macrin. Macrocinum. Black cohosh resin. Macrotyn. Resinoid of Cimicifuga racemosa. N.O. Ranunculaceae. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Backache. Dysmenorrhea. Eye, disorders. Fears. Headaches. Irritable. Lumbago. Melancholy. Menses, disorders. Muscle, pain. Muscle, weakness. Neuralgic, pains. Rheumatism. Uterine, disorders.

HOMEOPATHIC - Muscular system exhausted after the least exertion. Muscular weakness. Excessive restlessness, better by moving about in spite of the weakness. Melancholic and irritable. Dullness of intellect. Symptoms generally improved by onset of menses. Symptoms of the mind, eyes and breasts are worse before menses and better as soon as flow sets in (Cimic., mental symptoms worse during menses). Backache, better after menses.

MIND - Great restlessness. Fear of impending danger or having an incurable disease. Melancholic, irritable, better when menses come on. Dullness of mind. Sits for a long time thoughtless, moving hands and feet, frequent sighing.

COMMENTS - C. A. Howell noted the case of a woman, 63, who after an interval of eleven years began again to menstruate at 60, slightly but regularly.

Symptoms appeared suddenly at the time the flow was due, but failed to come on, including intense pain at the occiput, worse at every throb of heart. Retraction of head and neck. Neuralgic pains in limbs. Pulse 96. temperature 99.

Howell gave her Macrin. 2x, every two hours. The pain was relieved in a few hours and the menses came on.

REFERENCES-Clarke.

***MAGNESIA CARBONICA

(Magnesium Carbonate)

PHARMACY - mag-c. Magnesia carbónica. Magnesium carbonate. **Trituration. Historical dose:** Trituration and all potencies.

CLINICAL - Acidity. Alcoholism. Antrum, disorders. Ascarides. **Belching.** Boils. Cataract. Catarrh. Constipation. **Colic.** Coma. Cornea, opacities. Cough. Deafness. Debility. **Diarrhea. Dyspepsia.** Emaciation. Epilepsy. Eyes, inflammation. **Heartburn.** Hernia. Hysteria. Indigestion. **Insomnia. Leucorrhea. Malnutrition. Marasmus.** Menopausal, disorders. Menorrhagia. Menstruation, delayed. Metrorrhagia. Nausea. Nervousness. Neuralgia. Neurasthenia. Pregnancy, disorders. **Prostration.** Regurgitation. Spasms. Spleen, pain. **Stomach, disorders.** Taste, disordered. Tinnitus. Toothache. Tumors. Unconsciousness. Uterine, disorders. Vomiting.

HOMEOPATHIC - Nervous irritations and sleeplessness (Gels., Cham., Ars.), nerve exhaustion. Nervous systems that demand a permanently soothing and sustaining influence. Nerve prostration.

Numbness and distention in various parts. Intense neuralgic pains. Spasms. Epileptic attacks, while walking or standing he frequently falls down suddenly with consciousness. **Sensitive to least touch**, noise or start. Effects of shock, blows, mental distress. Ailments from excess of care and worry with constipation and heaviness. Broken- down, **“worn-out”** women with uterine and menopausal disorders.

Dryness of mucus membranes, skin. Tendency to boils, especially in children. Enlarged glands. Affections of the antrum of Highmore.

Malnutrition. Emaciation. **Marasmus, children do not thrive** in spite of feeding and medicines. **Sour smell from the body** (Rob.), especially in children, with vomiting, regurgitation, stools etc. Catarrhal condition of stomach and bowels with marked acidity. Tendency to constipation after nervous strain.

Walking fatigues, causes involuntary urination, prickings in rectum, smarting leucorrhoea. Symptoms worse from cold winds or weather. Cannot bear hands covered, yet chilled by uncovering.

MIND - Mental exhaustion. Worse from mental exertion. Brain fog. Concentration difficult while writing. Absent-mindedness. Industrious, mania for work. Indolence, aversion to work.

Confusion of mind, as if intoxicated. Dazed feeling, packs and unpacks her clothes without consciousness of having done so. Automatic behavior. Aphasia. Slow learning to talk.

Trembling, anguish and fear as if some accident would happen, all day, better when going to bed. Anxious with perspiration all day. Anxiety on waking from frightful dreams. Anxiety about the future. Anticipation. Restlessness, nervousness in children.

Insecurity and fear with trembling and heat. Frightened easily. Fear of death, of misfortune, of robbers, of evil. **Fear something bad will happen**. Hypochondriasis. Least touch causes starting.

Moods changeable, variable. **Capriciousness with toothaches**. Sad mood with indisposition to talk. Morose, sulky, cross. Fretful, peevish. Ill-humor, in evening. Irritability during toothache. Censorious, critical. Abusive, insulting. Angry, violent. Discontented, disgust with everything.

Sensitive, oversensitive, mentally and physically. Startled, as from a fright. Shrieking, screaming, shouting in children, worse when touched (Cham.). Cannot bear to be looked at. Hysteria. **Weeping, tearful mood during pregnancy**.

Despair with the pains. Despair of recovery. Moaning, groaning during sleep. Forsaken feeling. Feels unloved. Homesickness, nostalgia. Desire to travel Alcoholism, dipsomania. Loquacity during drunkenness. Unconsciousness, coma.

Abdomen - Great heaviness in bloated abdomen. Rumbling, gurgling. Dragging pain towards pelvis. **Much flatus in bowels, with diarrhea**. Cutting about navel better

Magnesia carbónica passing flatus. **Very heavy**, contractive, pinching pain in right iliac region. **Colic better bending double**. Cutting, gripping, pressing colic, followed by thin green stools, which aggravates. **Colic followed by leucorrhoea**.

Back - Pain in back and small of back at night, as if broken. Violent bruised pain in back at night. Stiffness in neck. Tearing and pullings in nape of neck. Pain as if dislocated on raising arm. Shootings pain in loins. Sudden piercing in coccyx. Contusive pains in sacrum and back, at night.

Causations - Ailments from injuries, accidents. Ailments from emotional excitement, mental distress. Ailments from anger, fit of passion, vexation, fright or fear. Ailments from grief, sorrow, worry, care. Ailments from pregnancy. Ailments from dentition, cutting wisdom teeth. Poor nutrition, milk.

Chest - Oppression of chest, with sensation of constrictions. Constrictive pains in chest with dyspnea. Shooting pains in chest. Soreness in chest during motion.

Constitutions - Suited to ailing, worn out, nervous, flatulent and flabby persons, especially women, children, nurslings. Persons of lax tissue and sour smell. Hering noted it for “persons, especially children or irritable disposition, nervous temperament, lax tissue, sour smell.” Cooper indicated it for “worn-out women and dark-haired, sensitive people, spare and thin.”

Ears - Inflammation of the ears with external redness and sensation of great soreness. Numbness of outer ear. Feeling of distention of middle ear. Subdued tinnitus. Whizzing, buzzing, fluttering in right ear. Diminished hearing. Deafness, comes suddenly and varies, on taking cold, cutting wisdom tooth.

Eyes - Inflammation of eyes with redness, shooting pain. Sensation of burning and confused sight. Eyeballs sensitive to pressure. Eyeballs feel enlarged. Opacity of cornea. Cataract, lenticular. Dryness of eyes. Profuse lachrymation. Lids agglutinated in morning. Black motes before the eyes. Dimness of sight.

Face - Waxy pallor. Slovenly expression. Tension, as of white of an egg, dried on it. Tearing, digging, boring pain on one side, must move about. Swelling of malar bone with pulsating pain, worse exposure to cold wind, during rest and at night.

Female - Coryza and nasal stoppage before menses. **Sore throat before menses appear**. Menses preceded

by labor-like pains. Menses like thick dark molasses, tarry, viscid. **Menses too late and scanty**, with dragging pains. Menses flow only in sleep, more profuse at night (Am-m.). Falls down in a faint at each menses. Mucus leucorrhea, white acrid, preceded by colic, regularly after the menses. Smarting pain when walking or sitting, with leucorrhea.

Food - Nibbling appetite. **Aversion to vegetables**, green food, green fruit. **Craving for meat**, fruits, acids, vegetables, bread and butter. Milk is refused, passes undigested in nursing children. **Worse from milk**. Worse starchy food, potatoes, cabbages. Violent thirst for water, at night.

Head - Dullness of head from mental exertion. Brain heavy. Pulsation in forehead. Pressure, pain in forehead. Pain above margin of right orbit. Pain in the head, as if the hair were pulled, worse stooping. Sinking of occipital bone in marasmic children. Rush of blood to head when smoking. Hair falls out. Scalp is scaly, itching in wet weather.

Heart - Sharp pain from within outward in precordial region.

Kidneys - Involuntary urination while walking or rising from a seat. Frequent emission of urine, even at night. Sensation of burning and excoriation when urinating. Bladder and rectum become irritable. Urine, increased, pale, watery, or green. White sediment in urine.

Limbs - Heavy, tired and painful legs and feet. Swelling in bend of knee. Cannot put left foot on ground when walking. Tearing in shoulders as if dislocated. Right shoulder painful, cannot raise it (Sang.). Cannot bear hands covered, yet chilled by uncovering.

Liver - Hardness and sharp pains in liver region.

Lungs - Craves open air. **Tickling cough with salty, bloody expectoration**. Cough from tickling in the larynx, worse in evening till after midnight. Cramp-like cough at night. Expectoration of tubercles as big as a pea, very offensive in smell. Expectoration of blood.

Male - Inguinal and scrotal hernia. Discharge of prostatic fluid when passing flatus. Diminished sexual desire. Absence of erections. Frequent pollutions.

Modalities - **Better motion. Better walking in open air**. Better warm air. Cold water improves toothache for a short time, then aggravates. Worse rest, warmth of bed, uncovering. Worse every second day, every third week. **Worse cold, wind. Worse change of weather**. Worse drafts, night. Draft aggravates facial neuralgia. Pains are worse by rest insupportable, must get up and walk about.

Mouth - Bitter, sour taste. Dry, at night. Sticking pain in throat, hawking up fetid, pea-colored particles. Vesicular eruption, bloody saliva. Frequent, sudden stammering speech. Teeth feel too long. Toothache, especially during pregnancy, worse at night, cold and quiet, better cold drinks. Ailments from cutting wisdom teeth (Cher.).

Nose - Vesicular eruption in nose with pressive pain. Chronic affections of nose. Dry coryza, breathes through mouth. Coryza and nasal stoppage, before menses. Nosebleed in morning.

Perspiration - Sour, greasy perspiration, difficult to wash off. Sweat stains yellow. Sweats with thirst after 12 p.m. until morning.

Rectum - Constipation after mental shock or nervous strain. Frequent ineffectual urging, with small stools or only flatus. Piercing pain in rectum, as from needles. Sharp pain in anus and rectum, with difficult stool. Stool preceded by griping, colicky pain. **Sour stools with tenesmus** (Rheum.). **Stools, frothy, greenish like water like scum of frog pond**. Stools, li- enteric with gelatinous fatty masses, grass green or dry, hard, crumbling, white clay, putty like. Bloody mucus stools. Burning at anus after stool. **Milkpasses undigested** in nursing children. Worms.

Sensations - As if everything was turning around. As if hair was pulled. As if white of egg had dried on face. As if teeth too long. As if rectum pricked with needles. Back as if broken.

Skin - Hair and nails unhealthy. Earthy, sallow and parchment-like, emaciation. Sore, dry, sensitive to cold. Violent itching and great dryness of skin. Itching vesicles on hands and fingers. Large nodosities between the skin and the flesh with shooting pains. Nettle-rash with much swelling. Small painless, red tetters, which exfoliate. Spreading blisters. Small blood boils. Corroding vesicles.

Sleep - Frequent and violent yawning. Inclination to go to sleep during day. Sleeplessness from flatus, from cutting wisdom-teeth, exhaustion. **Many anxious dreams, with talking, cries, and starting from fright**. Dreams of fire, flood, robbers, quarrels. Dreams of money, pleasures, misfortunes. Dreams of dead persons. Awakes at 2 a.m. or 3 a.m. and cannot fall to sleep. Unrefreshing sleep, more tired in the morning than on retiring.

Stomach - Sensation of emptiness in stomach. Constrictive pain in stomach. Pains, as from ulceration. Sour eructations and heartburn after cabbage, potatoes, greasy food, or milk. Acidrisings. **Sour belching and vomiting of bitter water**. Eructations tasting of rotten eggs during pregnancy. Nausea and vertigo during a meal, followed by retching, and vomiting of bitter or salty serum. Nausea and sour vomiting during pregnancy,

during colic. Vomiting of undigested milk.

Temperature - Chilly in evening. Chilly, takes cold, before menses. Chill running down back. Chill, better outdoor exercise. Fever at night, with night sweats and aversion to uncovering. Fever with dread of exposure, restlessness, sweat on head, redness and burning.

Throat - Sore throat with shooting pain when speaking and swallowing. **Sore**

throat, worse before menses. Sticking pain in throat, worse talking and swallowing. Burning pain in throat and palate. Frequent rising of mucus in throat. Soft, fetid tubercles of color of peas are hawked up. Hawks up cheesy masses from throat.

Vertigo - Vertigo, worse when kneeling. Vertigo in evening with swooning. Continual giddiness, can hardly stand, with numbness of left arm. Vertigo, staggers in the street and fears to go out, lest people should strike against her.

COMMENTS - Cooper said that water containing magnesia, and that coming from magnesia limestone districts, is peculiarly soft feeling. It is often found that the physical characteristics of substances correspond with their dynamic influences, so there is reason for supposing that this softness has a soothing effect upon the nervous system when used in baths.

Mag-c. is to exhausted nerves what Chin, is to exhaustion from loss of fluids. Worn-out condition, often produced during pregnancy or menses as these are an additional tax on a woman's strength.

Characteristic sensitiveness, mental and bodily, sensitivity to touch, to cold air. The least touch causes starting. Sensitiveness passes into neuralgic pains of the highest intensity. Lightning-like neuralgia, worse on the left side, insupportable during repose, must get up and walk about.

Tired and painful feeling, especially the legs and feet, aching, restless. Head injuries from shock, blows, mental distress. Unrefreshing sleep, more tired on waking than on going to bed.

Periodic symptoms, every second day, every three weeks, "all symptoms worse every third week." Worse from touch and pressure, but pressure in abdomen is better during the menstrual flow. Pain is worse on the side lain on. Smoking aggravates the headache.

Spasmodic disorders of stomach and intestines. Sour taste, breath, belchings, vomiting. Incarcerated gas causing severe abdominal pains. Colic with gas and bloating, cutting and stabbing pains in the abdomen (Cham.),

with irritability. Diarrhea, green stools like the scum of a frog pond, jelly-like lumps, aphthae. Stool like chopped spinach, green flakes in stool (Cham.). Stool smells sour (Rheum.).

Puny and sickly children, who refuse their milk and get pain in the stomach if they take it. Food passes undigested in nursing children. Neonatal jaundice with gas, bloating and colic, light-colored stools and failure to thrive (Aeth.). Marasmus. Inordinate craving for meat in children of tubercular parentage, averse to vegetables.

Teething (Cham.), with colic. Cooper mentioned it as a possible remedy in pyorrhea alveolaris.

Menses preceded by labor-like pain, cutting colic, backache, weakness, chilliness. Menses late and scanty, flow only at night or when lying down, cease when walking. Flow acrid, dark, pitch-like, difficult to wash off. Vomiting and toothache during pregnancy.

Cooper gave the indication as a "worn-out women," that is, the state of nervousness induced by excess of cares and worries of life. Mag-c. 200c, repeated three or four times a day, has given untold relief to many a patient of this kind. When constipation and heaviness are present these will be removed at the same time.

Two cases of neuralgia, related by A. I. Harvey, are quoted in Amer. Hom. The first case is that of a carpenter, 50, who had a light complexion, spare. He had facial neuralgia for two years coming in attacks, lasting from three to seven days, at intervals of two or three weeks. Sharp pain, shooting from left side of face and head, worse at night, from pressure, from jar. Mag-c. cured promptly after the failure of Spig.

The second case was that of a blacksmith, 22, who had a light complexion, full figure. For several years he had attacks of facial neuralgia coming on after taking cold. Very severe pain in the left orbital region, shooting down into the eye and face and back to occipital region. Begins in morning, grows worse until noon, then subsides. No pain at night, rests well. Spig. and Kali-bi. failed. Mag-c., cured promptly.

RELATIONS - Antidoted by: Ars. and Cham, (neuralgia), Merc., Nux-v., Puls, and Rheum, (abdominal troubles). **It antidotes:** Acet- ac. **Compare:** (1) Cham., Rheum., Kreos., Aloe. (2) Cheir. - deafness, otorrhea, nose stopped up at night from **irritation of cutting wisdom-teeth.** (3) Mag-m., Mag-p., Aloe. (4) Ant-c. - headache from smoking. (5) Calc. and Rheum. - sour stools. Nux-v. - sour breath. (6) Cocc. and Sep. - worse from kneeling. (7) Ip. - nausea and grass-green stools. (8) Coloc. - griping pains with drawing up of legs, Coloc. has not the green slimy stools of Mag-c. (9) Cham. - neuralgia, better moving about, anxiety, restlessness, griping before stools, stools of Cham, more yellowish green like chopped eggs. (10) Calc. - sour stools, intolerance of milk, imperfect nourishment: Calc, has head-sweat, cold, damp feet, enlarged abdomen. (11)

Lyc., Nit-ac., Sil., Lac-c., Lac-ri. - intolerance of milk. **Compatible:** Caust., Phos., Puls., Sep., Sulph. **Complementary:** Cham. **Planets:** Jupiter, Saturn. **REFERENCES** - Boericke. Clarke. Murphy. Phatak.

***MAGNESIA FLUORIDE

(Magnesium Fluoride)

PHARMACY - mag-f. Magnesia fluoride. Magnesium fluoride. Remedy made from solution. Trituration.

Historical dose: Trituration and all potencies.

CLINICAL - Auto-toxins. Goiter. Chronic suppurations. Fatigue. Hyperthyroidism. Infections. Influenza. Metabolic complaints. Neuralgia. Post-infectious conditions. Sinusitis. Staphylococcus. Streptococcus. Thrombosis. Tonsillitis.

HOMEOPATHIC - There is no homeopathic proving for Mag-f., but Mezger established symptomatology based on clinical usage and the characteristics of magnesium and fluorine.

Localized infections from bacteria. Streptococcus, enterococcus, staphylococcus. Nasal and pharyngeal infections of the maxillary sinus of the nose and tonsils. Postinfection conditions following influenza, sinusitis, tonsillitis, with fatigue, asthenia, nervous irritability, lack of appetite, muscular and neuralgic pains, pains in the ligaments and tendons and joint pains.

Metabolic complaints of senescence with cholesterol disorders. Action on the liver, pancreas, digestive passage. Capillary and venous stasis. Venous thrombosis. Goiter. Thyroid problems with the tendency to hyperthyroidism. Mag-f. is useful after the failure of Sulph. and Hep.

Modalities - Better from movement, in fresh air. Worse at 3 a.m., in the early morning, from sleep, especially after lunch. Worse a few days before menses.

RELATIONS - Compare: (1) Sulph. - Autointoxication with fatigue. Itching eruption, alternating with other complaints, redness of the natural orifices, weakness at 11 a. m., sudden diarrhea. The need for fresh air. (2) Hep. - Tendency to suppuration. Hypersensitive, especially to the cold. Pain like that of a splinter. Skin unhealthy. Scrofulous lymphatic constitution. (3) Bar-c. - Hypertensive heart - vascular sclerosis. Glandular and ganglion hypertrophy. Cerebral slowness. (4) Stront. - Vascular and cerebral sclerosis. Pain in the bones. Muscular cramps. (5) Cresol. - Indifferent state with loquacity, tremors, trembling, paresis, oliguria, joint stiffness. Neuro-vascular sclerosis.

REFERENCES - Julian.

***MAGNESIA MURIATICA

(Magnesium Chloride)

PHARMACY - mag-m. Magnesia muriatica. Magnesium chloride. Magnesiachloride. Solution. Trituration.

Historical dose: Trituration, tincture and all potencies.

CLINICAL - Biliousness. Bladder, paresis. Cardialgia. Chronic, fatigue. **Cirrhosis.** Cold. Colic. **Constipation.** Coryza. Deafness. **Diarrhea.** Dysmenorrhea. Dyspepsia. Dyspnea. Fainting. **Fatigue. Flatulence.** Foot-sweat. Globus, hystericus. **Headaches.** Heart, disorders. Heartburn. Hemorrhoids. **Hepatitis.** Hernia. Homesickness. Hysteria. Influenza. Jaundice. Leucorrhea. **Liver, disorders. Metrorrhagia.** Milk, allergy. Nausea. **Nerve, disorders.** Nocturnal, emissions. Ozaena. **Palpitations.** Pregnancy, nausea. Rickets. Smell, disordered. Spleen, enlarged.

Stomach, disorders. Taste, disordered. Tinea, ciliaris. Urine, straining. Uterus, pain. Water brash. Whooping cough.

HOMEOPATHIC - While Mag-c. and Mag-s. are recognized old-school remedies, there is no mention of Mag-m. or Mag-p. in allopathic text-books. Mag-m. first appeared in Hahnemann's book Chronic Diseases. The general features of Mag-c. appears in many Mag-m. symptoms, notably those of nervous disturbance and hysteria.

Guernsey noted that Mag-m. is found in many mineral waters and in seawater. It has a very bitter taste and is decomposed by heat. Mag-m. is similar to Nat-m. and Aq-mar. in their relation to seaside effects.

Constipation, **"biliousness"** and generally disordered health, when conditions appear as soon as the patient goes to the seaside. **Ill effects of sea bathing.** Excessive weakness after a sea bath.

General action on the **liver and nerves**, uterus and rectum. Cirrhosis. **Chronic liver disorders** with tenderness and pain, extending to spine and epigastrium, worse after food. Constipation. Fainting, fits, dyspnea, nausea and trembling occur after dinner, better by belchings.

Spasmodic, hysterical complaints. Globus. Soreness and sensitiveness to noises. Pains are boring, spasmodic, contractive, crampy, darting. Burnings. Shocks through the body like electric shocks when wide awake. Perversions of taste or smell.

Especially adapted to diseases of women with a long history of indigestion and uterine disease. Children who cannot digest milk.

MIND - Difficult concentration. Confusion of mind. Mental exertion aggravates. Aversion to conversation, prefers solitude. Reserved. **Dislikes confrontations.**

Peevishness and chagrin. Obstinate, headstrong. Morose and sulky. Irritability, worse in morning. Moaning, groaning during sleep. Grief. **Homesickness. Nostalgia.** Forsaken feeling. Sadness and depression. Manic depression.

Capriciousness. Excited, unhappy, fitful, emotional. Restlessness, worse in evening. Uneasiness, nervous excitability with ten-

dency to weep readily. Weeping, tearful moods with liver disease. Feels on the verge of a nervous breakdown. Overwhelming anxiety. Anxiety and worrying at night. Anxiety during fever. Anxiousness in room, better in open air. Fears associated with liver disease. Fear of animals, spiders. Fear of robbers.

Abdomen - Cramps in abdomen. Distended abdomen with constipation. Flatulence with distension. **Great flatulence, often incarcerated, causing numerous pains.** Hysterical colic followed by leucorrhea. Colic, can't endure covering. Dragging sensation when lying on left side. Tearing, sharp pains in loins. Tingling, stinging in abdominal muscles.

Back - Bruised or burning pain in back after sex. Bruised pain in small of back and hips, during menses, better pressure. Cramps in back worse walking. Contractive, spasmodic pain in lumbar region. Sharp, tearing and burning pains in small of back. Throbbing below left scapula. Swelling of cervical glands.

Causations - Ill effects of sea bathing, especially weakness. Ailments from anger, vexation, sexual excesses.

Chest - Constrictive pain and tension in chest and scapulae. Congestion and soreness of chest, after sea bathing. Sudden heaviness of chest, with oppressed breathing, at dinner.

Constitutions - Suited to diseases of women, spasmodic and hysterical complaints complicated with uterine diseases. Women after suffering months or years from attacks of indigestion or biliousness. Puny, rickety children during dentition. Liver disorders in children who are puny and rickety and have eruptions about the eyes. Enlargement and congestion of liver. Men with disordered livers and sexual problems.

Cough - Cough, worse eating, fatty food, fruit. Spasmodic, dry cough at night, with tickling in throat, burning and sore chest. Spasmodic cough, worse rest, sitting, lying in bed, deep breathing, air of room, ascending steps, or speaking. Whooping cough.

Ears - Pulsations in ears. Itching of old herpes behind ears. Sensitive to noise. Deafness, as if something were lying before ear.

Eyes - Yellow sclera. Lachrymation and burning of the eyes when looking at anything in broad daylight. Nocturnal agglutination of eyelids. Tinea ciliaris with pimples on face.

Face - Pale, yellow. Eruptions on face, itching, burning vesicles. Pimples on the face and forehead itching worse night, warm room and before menses. Chapped lips. Blisters on lips. Prosopalgia. Facial neuralgia pains, dull, aching, worse damp weather, slightest draft, better pressure heat. Severe cramps in face.

Female - Menses, profuse, dark, lumpy like pitch, with cramps. Menses black, clotted, more copious when sitting than walking. Great excitement at every period. Dysmenorrhea, better by pressure on the back or lying on a hard pillow. Headache at menstrual period. **Gushes of leucorrhea, after abdominal colic.** Leucorrhea after exercise. Leucorrhea with stool. Leucorrhea followed by metrorrhagia. **Metrorrhagia, worse at night.** Uterine cramps, extending to thighs. Ovary enlarged and tender. Bearing down pain in right ovarian region. Pain in back and thighs. Labor pains interrupted by hysterical spasms. Tinea ciliaris, eruptions in face and forehead worse before menses.

Food - Appetite poor, bad taste in mouth. Ravenous hunger followed by nausea. Hunger but knows not for what. Inclination to nibble. Craves sweets, dainties. Better from lemons. Violent thirst. Worse from milk, salty food, fat food. **Cannot digest milk** (Nat-c.), especially children, causes pain in stomach and passes undigested during dentition.

Head - Bursting headache, worse motion, open air, better pressure and wrapping up warmly (Sil., Stront.). Sensitive to noise with headache. Squeezing pain in both temples in evening after lying down. **Beating in forehead when pressing upon it.** Tightness and pressure in forehead. Much sweating of head (Calc., Sil.). **Thirst, belching during headache.** Headache better lemons. As if boiling water on the side lain on. As if hair were pulled. Nodosities on occiput, tearing, painful to touch.

Heart - Sharp pain in heart, arresting breath. **Palpitations, worse while sitting, lying on left side, better by moving about** (Gels.). Pulse accelerated, with ebullitions while sitting. **Heart disorders with liver enlargement.**

Kidneys - Numbness of urethra. In the dark one cannot tell whether one is passing urine or not. Urine can only be passed by bearing down with the abdominal muscles, straining and pressure. Stricture after dilatation.

Urine passes in drops, some always seem to remain. Pale yellow urine, followed by burning in urethra.

Limbs - Rheumatic pains in limbs, better motion and pressure. Pain in back and hips, in arms and legs. Cramps in thighs, worse sitting. Thighs and calves tense, must move limbs. Ankles cold or nervous worse night. Cutting pain in heels. Feet sweaty. **Arms "go to sleep"** when waking in morning. Fingertips numb.

Liver - Jaundice. **Hepatitis**. Cirrhosis of the liver with a sluggish feeling. **Liver sore, enlarged with bloating of abdomen, yellow tongue**. Burning, tensive sticking in hepatic region. Pressing pain in liver, worse lying on right side. Hyperemia of liver with constipation. Liver affections with tendency to hemorrhage from various organs. Cramp in the gallbladder, better by eating. Pain from liver to spine or epigastrium, can only lie on back or affected side.

Lungs - Oppressed breathing, globus hystericus. Bloody sputum or congestion and soreness of chest after sea bathing. Purulent sputum, of fatty taste and offensive odor. Watery expectoration during day. Tough, yellowish mucus.

Male - Pain in testes and cords worse after sex. Itching on genitals and scrotum. Congenital hernia of scrotum. Scrotum relaxed and often covered with perspiration. Pain in testes and cords, worse after sex or after unrequited sexual excitement. Burning in back after sex. Frequent erections, early in morning, with burning in penis.

Modalities - Most symptoms, except headache, are better in cool, open air. **Better from hard pressure**. Better lying bent. Better hanging down affected part. Better gentle motion. Nausea and trembling better by belchings. **Worse from sea bathing. Worse lying on right side**. Worse touch, noise. Worse at night, mental exertion. Worse immediately after eating. Worse salt, milk. Fainting worse at meals.

Mouth - Mouth dry. without thirst. Loss of taste. Bitter, sour taste at night. Continued rising of white froth into the mouth. Blisters on lips. Gums swollen, bleed easily. Toothache, worse if food touches the tooth.

Nose - Red, swollen. Nostrils ulcerated. Sore and burning, in nostrils, worse deep breathing, sneezing or touch. Acrid, crusty ozaena. **Loss of smell and taste**, following catarrh. Sneezing with watery discharge. Discharge of yellow, fetid mucus. Coryza, with stoppage of nose, hoarseness. Nocturnal obstruction of nose, must breathe through the mouth. Cannot lie down.

Perspiration - Sweats on head or feet. Sweats from 12 p.m. until morning. Thirsty with sweats.

Rectum - **Diarrhea after milk**. Constipation of infants during dentition. Absence of desire for stools. Only passing small quantity. **Stools are knotty** like sheep's dung. gray. **Stools crumbling at verge of anus**. Painful smarting hemorrhoids. Tape-worms.

Sensations - As if some one was running after her. As if boiling water was on side of head. As if hair pulled. As if tongue burnt, mouth scalded. Stools as if burnt.

Skin - Formication all over the body. Sweat on head and feet. Blood boils. Abscess with yellow, thin, foul pus. Jaundice.

Sleep - Sleepiness during day with yawning and sluggishness. Anxiety and restlessness of the body as soon as she closes the eyes. Restless at night on account of heat and shock. Sleeplessness from spasms. Anxious dreams with talking and crying out during sleep. Dreams of robbers in the house, on awaking will not believe to the contrary until a search is made. **Sleep unrefreshing, tired in morning**.

Stomach - Coldness and weakness in stomach. Pressing pain in stomach, disappear while eating and reappear about an hour afterwards. **Throbbing pain in stomach**. Stomach pain as from ulceration, or from a bruise. Regurgitation while walking. Continued rising of white froth into mouth. Hiccough, during and after dinner, causes vomiting. Belchings like rotten eggs, like onions. Nausea and faintness, better eructations. Nausea in morning after rising, with salivation, faintness, weakness in stomach.

Temperature - Chill even near a stove, better open air. Chilliness, during and after loose stool, in morning. Sensitive to cold air, great disposition to take cold. Fever in evening, with aversion to uncovering.

Throat - Throat dry with hoarseness. As if a ball rising into the throat, better by eructation. Hawking of clammy, thick mucus, often mixed with blood.

Tongue - Tongue feels burnt, mouth feels scalded. Cracks in tongue with violent burning. Broad, yellow, scalloped tongue. Tongue large, flabby, white, tip and edges clean. Tongue coated white in early morning.

Vertigo - Vertigo during dinner, in morning on rising. Vertigo, better from open air.

COMMENTS - Liver conditions (Chel., Nat- s., Lyc., Ars., Nux-v., Phos.). Symptoms of liver deficiency or weakness. Liver disorders with enlargement and sensitiveness, worse from touch and lying on right side. Cirrhosis, with a sluggish feeling. Hepatitis with total exhaustion.

Liver rheumatism, arthritic symptoms associated with liver weakness. Severe chronic fatigue since hepatitis. Chronic neurasthenia (Sil., Phos.). Liver stasis, toxic feeling. Symptoms are worse in the morning, stiff, sore, achy, better with motion or as the day goes on (Rhus-t.).

Unrefreshed sleep. Generally sleeps on the left side, to avoid sleeping on the liver. Worse lying down, closing the eyes. Difficultly getting comfortable, desire to keep moving.

May constantly wake in the night. Miserable in the morning, feel irritable and sluggish. Bitter taste in the mouth on waking.

Sluggishness comes from the liver, not from the joints (as in Rhus-t.). Drag themselves around, as if hung-over (Gels.). Heavy feeling, as if all their weight and energy are in the legs. Difficulty concentrating. Better open air and motion.

Anxious, restless, always better by mental exertion. Aversion to work, apathetic (Gels.), but a desire to move and keep busy. Bitter. Bilious, irritable temperament, dissatisfied look on their face. Passive, will avoid confrontation, complaining to others. Suffers when they see people arguing.

Influenza and mononucleosis with aching, malaise, sluggish, wiped out feeling, but also stiff, desire to move and stretch (Rhus-t. and Gels.). Viral infections with a sluggish, toxic feeling.

Palpitations, worse when quiet, better moving about. Boring and spasmodic contractive pains, dragging down. Marked hysterical symptoms, spasms, fainting, globus. Hysterical headaches.

Burning and heat. Numbness and heaviness of the extremities, with weakness. Burning in soles in the evening, must put feet out of bed. Chilly, but with warm feet. Sweaty feet. Aggravated by salt, salty foods, air or sea bathing. Can get headaches, red lips, and cracked corners of the mouth from salt.

Sweat about the head. Ozaena. Redness, swelling and scaliness of nose. Yellow tongue, imprinted with teeth. Tongue is large, coated and indurated. Perversions of taste and smell.

Weak digestion, exhaustion. Nausea and belchings during or after dinner. Trembling and faint spells are better by belching. Better from a light diet, generally vegetables, and fruits, aggravated from heavy, fried, fatty foods and meat. Aggravated from milk.

Intestinal atony. Constipation, stools break off or crumble at the anus. Stool is knotty, conglomerate. Painful urging before stool, burning in anus after. Tape worms. Bladder atony, urine can only be passed by bearing down with abdominal muscles.

Bearing down in uterine region, uterine spasms. Menses black or pitch-like, accompanied by pains in back when walking, pains in thighs when sitting. Leucorrhea after every stool or following uterine spasms.

Clarke frequently restored the loss of taste and smell after influenza with Mag-m.

Teste, who placed Mag-m. in his Ferrum group, noted that Mag-m. and Mag-c. "have been used for the cure of cachexia occasioned by long and painful diseases."

He said he saw Mag-m. produce great improvement in a case of "hydrarthrosis of left knee with emaciation of left thigh, consequent on a wandering neuralgia, which after having commenced in the form of cystitis with (non-venereal) discharge from urethra, had successively invaded the shoulder, left elbow, eyes and lastly, knees, where it had become seated."

R. M. Skinner reported a case in which a farmer had been treated allopathically for three months for chills, which were checked, but the man did not feel well. Spleen was very large, sensitive, felt heavy when he walked or rode.

He sought advice for his constipation, went three or four days without a stool. His abdomen was distended and hard, especially in ileo-cecal region. Cold on the left side and a crawling feeling like a cold snake. Beating in umbilical region as if his heart beat there.

Skinner gave him Mag-m. 200c, one dose on the tongue. At 8 p.m., the bowels began to act and went on acting with the exception of one hour until 3 a.m. He complained the next morning that the medicine had "almost killed him," and he looked thin and tired. No further medicine was given and in ten days he had no complaint, the spleen was normal in size and without tenderness.

RELATIONS -Antidoted by: Cham., Camph., Ars., **Nux-v.Itantidotes:** Merc, (metrorrhagia). **Compare:** (1) Chel., Mag-c., Nat-m., Puls., Sep., Am-m. (2) Nast. (3) Hysteria, Mosch., Asaf., Valer., and Cast-eq. (4) Uterine spasms, Ign., Caust. and Sec. - both have continuous spasm. (5) Erections and burning in penis, Pic-ac., Nat-m. (6) Enlarged liver, worse

by touch and lying on right side, Merc. (7) Foot-sweat and head-sweat, Sil. is offensive., scrofulous and rickety children, headache better wrapping, Sil. (8) Congestion of liver, enlargement, feeling of weight and pressure, Ptel. is better lying right side. (9) Enlarged liver of children, Calc-ar. (10) Sensitiveness to noise. Ign., Nux-v., Ther. **Compatible:** Bell., Sulph., Nat-m., Puls., Sep.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***MAGNESIA PHOSPHORICA

(Magnesium Phosphate)

PHARMACY - mag-p. Magnesia phosphorica. Magnesium phosphate. Magnesia phosphate. Trituration.

Historical dose: Trituration and all potencies.

CLINICAL - Angina pectoris. Catheterism. Chorea. **Colic.** Convulsions. Cough. Cracks. **Cramps.** Dentition. **Dysmenorrhea. Facial neuralgia.** Goiter. Headaches. Hiccoughs. **Intercostal, neuralgia.** Locomotor, ataxia. Membranous, dysmenorrhea. Meningitis. **Menses, painful. Neuralgias. Pains. Paralysis.** Parkinson's disease. Rectum, prolapsed. School, headache. **Sciatica.** Stomach, cancer. **Spasms.** Tic douloureux. **Toothaches.** Twitching. Vaginismus. **Whooping cough. Writer's cramp.**

HOMEOPATHIC - Mag-p. is one of the most important of Schiessler's additions to the Materia Medica. It has had a very fine proving in the potencies, conducted by H. C. Allen. Schiessler's picture of the remedy is confirmed in every point by Allen's proving and by the clinical use of Mag-p. in the highest potencies. Moreover, there is a very strong family resemblance between these features and those of Mag-c. and Mag-m.

But **it is only right to say that Schiessler** arrived at them by a way of his own, which shows that there are other means besides provings of finding the keynote symptoms of remedies.

Schiessler stated that Mag-p. is contained in the blood corpuscles, muscles, brain, spinal marrow, nerves, teeth. Disturbance of its molecules results in **pains, cramps, and paralysis.**

Useful for cramps, convulsions, neuralgic pains and spasmodic effects, showing its influence on nerves and muscles.

Spasmodic effects. Cramping of muscles with radiating pains. The pains are shifting, better by rest, worse at night. Pains sometimes tense in paroxysms. **Neuralgic pains relieved by warmth.** Parts are tender to pressure and numb. Allen noted that the pains rapidly change place, that cramping is the most characteristic type of pain.

Hiccough, yawning, chorea and hand cramps. Nervous, tense, sudden violent paroxysms of neuralgic pains. Sharp, shooting like lightning pains, that suddenly changing places. Radiating, boring, constricting pains, extorting cries, causing restlessness and prostration. Twitchings. Tics. Palsy. Parkinson's disease. Goiter. Chorea better during sleep, worse at stool and emotions. Genet al symptoms are worse by motion, cold air, draft of air, cold wind, **cold washing, touch,** uncovering, lying on the back stretched out, when eating. Dread of touching the affected part, of moving.

MIND - Very forgetful. Indisposition to study, to mental work. Mental dullness and inability to think clearly. Learning is difficult.. Ailments from mental work. Drowsiness on every attempt to study.

Capriciousness. Irritability. Ailments from suppressed anger, vexation. Mental depression and anxiety. Discontented, dissatisfied. Sadness, despondency. Weeping, tearful mood, during convulsions. Sobbing, crying.

Oversensitive to pain, noise, excitement. Restlessness and nervousness. Anxiety, depressed vitality. Fear of others approaching. Fear of being touched, motion. Excitable during convulsions.

Anxiety from the pains. Despair with the pains. **Startled from the pains.** Screaming, shouting from pains, cramps in abdomen. Hypersensitive to pain (Cham., Mag-s.). Complaining. Lamenting about pain in affected parts. Always talking about the pains.

Talks to himself constantly. Sits in moody silence. **Carries things from one place to another and back again.** Delusions, that he is about to die. Delusions, that another person is in the room. Illusions of the senses.

Abdomen - Abdomen contracted. **Bloated, full sensation in abdomen,** must loosen clothing, walk about and constantly pass flatus. Severe, griping colic, at times shooting up towards stomach, better by hot applications.

Flatulent colic, forcing patient to bend double. Colic accompanied with belching of gas, which gives no relief. **Colic relieved by rubbing, warmth, pressure. Colic in babies** (Cham.). Cutting pain into thighs.

Back - Stiffness of neck and back. **Cramps in back.** One vertebra seems absent. Sore pain in neck and lower part of back. **Very sharp, shooting, boring, shifting and remittent pains in nape.** Aching pain in small of back. Dorsal spine, very painful and sensitive to touch.

Causations - Ailments from suppressed anger, vexation, mental work, study. Complaints of teething children (Cham.). Ill effects of overuse of muscles, standing in cold water, cold bathing, working in cold clay, catheterism.

Chest - Darting pains in chest, worse right side, which radiate from pain in bowels. **Intercostal neuralgia, must sit upright.** Oppression of chest, with desire to take deep breath, worse on first entering warm room, worse walking.

Constitutions - Hering thought it suited to young and very strong persons, teething children. Allen said that, though it is best adapted to emaciated persons, it acts promptly in stout, fleshy persons when well indicated. Suited to tired, languid, exhausted subjects.

Cough - Dry, tickling cough. Spasmodic cough, worse lying down, better cool air. Spasmodic cough during intervals of convulsions with contraction of fingers and staring, open eyes. **Spasmodic, whooping cough** (Dros., Cor-r.), better cool air.

Ears - Nervous otalgia, intermittent and spasmodic, better by heat. **Severe neuralgic pain, worse washing face and**

neck with cold water. Neuralgic pain worse behind right ear, worse by going into cold air.

Eyes - Eyes, hot, aching, tired. Increased lachrymation. Twitching of eyelids. Photophobia. Nystagmus, strabismus, spasmodic, ptosis, worse right side. Itching and heat in lower eyelid. Supraorbital pains, worse right side, relieved by the warmth.

Face - Cracks in corners of mouth. Face blue and swollen from violent spasmodic attacks of cough. Face distorted from pains and weakness. Lock-jaw, tetanus. Painful contraction of jaw joint with backward jerking.

Spasmodic twitching of facial muscles. Trigeminal neuralgia worse slightest touch. **Facial neuralgia**, worse when body gets cold from washing or standing in cold water, **better from warmth.** Neuralgia on opening mouth to eat or drink. Neuralgia on right side of face alternating with toothache, rushing about like lightning.

Female - Menstrual colic, pain precedes flow. **Menstrual cramps, better heat, bending over and by flow.** Menses too early, dark, stringy, fibrinous, tarry. Menses flowing at night leaving a stain. **Membranous dysmenorrhea.** Swelling of labia, at times extremely painful. Vaginismus. **Ovarian neuralgia, pain shooting and darting like lightning.** Puerperal convulsions. Spasmodic labor pains, with cramps in legs.

Food - Appetite remains good. Thirst for very cold drinks. Food doesn't taste right. Acids taste stronger than usual. Aversion to coffee. Craves sugar.

Head - Headaches after mental labor with chilliness, better warmth (Sil.). Headaches of students. Sensation as if contents were liquid, as if parts of brain were changing places, as if a cap on head. **Neuralgic or rheumatic pains, better external application of warmth.** As if an electric shock in the head extending to all parts of the body. Boring pain over right eye, spreading over whole right side of head. Supraorbital pain worse right side, better external heat.

Heart-Angina pectoris. Constricting pains around heart. Pulse irritable. Nervous spasmodic palpitations.

Kidneys - Bladder neuralgic pains after use of catheter. Spasm of bladder of neck of bladder, spasmodic retention, tenesmus with constant and painful urging. Cutting pain in bladder before urinating. Nocturnal bedwetting from nervous irritation.

Limbs - General muscular weakness. Violent pains in acute rheumatism of joints. Pains in lower limbs, alternating sides. Sciatica with tender feet. Twitchings. Parkinson's disease. Involuntary shaking of hands. Chorea. Tetanic spasms. **Spasmodic convulsions with stiffness of limbs, clenched fingers and thumbs drawn in. Cramps worse at night, in bed. Cramps from prolonged exertion.** Cramps after prolonged use of tools. Crampy contraction of fingers. Skin of fingers tight. **Writers ' and players ' cramps. Cramps in calves and feet.** Runner's cramps. Cramps in limbs during pregnancy.

Lungs - Spasmodic nervous asthma. Asthmatic oppression of chest. Oppressed breathing, with desire to take deep breath, worse on entering warm room, worse walking. Difficult breathing with intercostal neuralgia.

Modalities -Better by heat, warmth. Better hot water, bathing. **Better from pressure.** Better rubbing. **Better bending double.** Better standing up. **Worse from cold air.** Worse drafts. Worse uncovering. Worse cold water. Worse periodicity. **Worse night.** Worse exhaustion. Worse milk. Worse right side. Worse lying on right side. Worse touch.

Mouth - Bitter taste. Taste of bananas. Food does not taste right. **Swelling of tongue.** Tongue, clean with colic. Cracks in angles of lips. Painful contraction of jaw joint. Spasms without febrile symptoms. Spasmodic stammering.

Nose - Alternate stuffing and profuse gushing discharge. Discharge of a white, thin substance, worse from left nostril. Smarting and raw feeling in left nostril. Loss or perversion of sense of smell.

Rectum - Constipation in rheumatic subjects due to flatulence and indigestion. Constipation in infants. Torpid stool. Stool expelled with force. Dysentery with cramp-like pains, better by pressure or bending double. Dysentery with spasmodic retention of urine. **Watery diarrhea with vomiting and cramps in calves.** Stools loose, watery, with urging. Diarrhea ceases, spasms or other brain troubles set in. **Cutting, darting, lightning-like pains in hemorrhoids.** Itching and scratching feeling in anus.

Skin - Barber's itch. Herpetic eruptions with white scales. Rash on arms, legs and face, like insect bites. Rash red when scratched. Pricking sensation all over.

Sleep - Sleepy when attempting to study. Spasmodic yawning as if it would dislocate the jaw with tears. Sleepless on account of indigestion or toothache. **Insomnia from exhaustion. Wakes at night with leg and foot cramps.** Sleep disturbed by troublesome dreams. Drowsy in morning.

Stomach - Stomach cramps. Intense cutting, shooting, cramping pains in region of stomach. **Colic, better eructation. Colic in babies** (Cham.). Obstinate hiccough, causes long-lasting soreness. **Hiccough with retching day and night.** Burning pain, vomiting and hiccough, better hot drinks. Constant nausea. Persistent vomiting. Bilious vomiting, at times streaked with blood. Cancer of stomach.

Teeth - Toothache, better by heat and hot liquids. Toothache, worse eating or drinking, cold things. Teeth sensitive to touch or cold air. Severe pain in decayed or filled teeth. Neuralgic pain in a filled tooth. Ulceration of teeth with swelling of glands of face, throat and neck. **Complaints of teething children**, spasms during dentition without fever symptoms.

Temperature - Chilliness after dinner in evening. **Chills run up and down the back.** Chills with shivering, followed by a suffocating sensation.

Throat - Soreness and stiffness, especially right side, parts seem puffy with chilliness and aching all over. Spasmodic constriction of throat on attempting to swallow liquids. Sensation of choking, of a corn-husk lodged in upper part of throat. Voice harsh, larynx sore and raw. Nervous angina.

Vertigo - Vertigo on moving. Vertigo falls forward on closing eyes, better walking in open air.

Vision - Vision blurred. Dark spots before eyes on attempting to read. Colored lights before eyes. Sees rainbow colors. Double vision during headache.

COMMENTS - Acute or chronic cramps and spasms. Writer's or musician's cramps, Charley horses. Acute leg cramps in the elderly or in athletes. Lower leg cramps (Cupr., Calc-c.).

Paralysis, or cramping pains followed by paralysis. Cramps and spasms are better with heat, will often place a hot water bottle on the site (Cham, will want cold), better from pressure. Generally right sided (Coloc. is left sided).

Facial neuralgias (Kalm.) and sciatica, worse on the right side, better heat. Headache, better from applied heat. Chorea, respiratory spasms. Spasms of the glottis, whooping cough. Hiccoughs (Nux-v.).

Lockjaw, tetanus. For teething children or toothache, better drinking something warm or from warm applications. Useful for cracks at the corners of the lips. Allen's proving brought out canker sores in mouth, sore lips and cracked lips.

Stomach cramps. Abdominal cramps radiated from umbilical region, better by bending double, heat, sometimes with watery diarrhea. Colic in babies (Cham.), without irritability, better heat. Spasmodic retention of the urine. Inguinal hernia. Nondescript menstrual cramps. Labor pains.

Cramping, burning pain, better from heat (Ars.). Pains are shooting like lightning or boring, often combined with or alternating with a sense of constriction, at times wandering, better by warmth, pressure, worse by light touch.

Attacks of pain, often with great prostration or profuse sweat, leaving the patient "languid, tired, exhausted, unable to sit up."

More often called for in men than Mag-c, but the indication "worn-out women" applies to both. Disorders are often periodic.

Useful for complaints from standing in cold water, complaints of dentition, headaches of school children, professional neuroses, after effects of catheter.

Clarke cured a very severe attack of chorea in a girl of six with Mag-p. 6x. The spasms were general, but they affected the speech to such an extent that she could not make herself intelligible.

Rappaz of Montevideo cured with Mag-p. a young man, 17, of cerebral meningitis which began with violent pain and inflammation in his left eye with terrific pains in his head, delirium and intense fever. He was first treated allopathically, without success.

When Rappaz first saw him, he was hemiplegic with frequent and alarming convulsions, violent crying out, involuntary passage of feces and urine, dilated pupils, dropped jaw, escape of saliva, with difficult speech and comprehension. Under Mag-p. 6x in water, general improvement set in. Later the 12x was given and in two months he was well.

W. T. Ord cured Miss G., 48, of back pain extending down right sciatic nerve and up the back, following influenza with Mag-p. 3x, 5 grain doses.

Skinner has cured with Mag-p. a case of prolapsed of rectum with feeling as if rectum were torn, the symptoms being better by heat.

RELATIONS-Antidoted by: Bell., Gels., Lach. **Compare:** (1) Kali-p., Coloc., Sil., Zinc., Dios. (2) Cham. - vegetable analog, but Cham, has worse from heat. (3) Shifting pains, Puls., Lac-c. (4) Neuralgia recurring violently every night. (5) better warmth, Ars. (6) Dysmenorrhea, Caul., Cimic., Xan., Cact., Lil-t., Coloc. (7) Colic better bending double, Coloc. (8) better from hot drinks. Lyc. (9) Meteorism, Lyc., cracks on lips, Nat-m. (10) Headache from occiput to eye better warmth, Sil.

***MAGNESIA SULPHURICA

(Magnesium Sulphate)

PHARMACY - mag-s. Magnesia sulphurica. Magnesium sulphate. Epsom salts. Magnesia sulphate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Acidity. Acne. Allergies. Backache. Bedwetting. Boils. Constipation. Coughs, spasms. Diabetes. **Diarrhea.** Dropsy. Dysentery. Dysmenorrhea. Eczema. Epithelioma. Erysipelas. Eye, pain. **Female, disorders.** Gallbladder, pain. Gallstone, colic. Headache. Hernia. Intermenstrual, hemorrhage. Itching. **Leucorrhea.** Liver, complaints. Lumbago. Menorrhagia. Mental, problems. Migraines. Miliary, eruptions. Neuralgias. Pimples. **Scabies. Skin, disorders.** Tetany. **Thyroid, weakness.** Toothache. **Urinary, disorders. Warts.**

HOMEOPATHIC - The ancient reputation of Mag-s. as a "refrigerant cathartic" under the familiar name of "Epsom Salts," or "salts" par excellence, has overshadowed its homeopathic uses.

Recently old-school authorities have discovered in this "cathartic" a remedy for dysentery. It is the chief ingredient in many laxative mineral waters and popular saline aperient mixtures.

Mag-s. is of diagnostic and therapeutic value in gallstone colic. The physiological dosage from 2 to 4 teaspoonfuls in glass hot water taken at onset of a colicky attack may abort or stop the colic.

Epsom salts is one of the most active saline cathartics, operating with little pain or nausea, especially if pure. Its action causing a rush of fluid into the intestine, which by producing a distention of the bowel produces evacuation.

It causes little or no irritation in the intestine. In common with the other salines, it is the classical évacuant to be employed in connection with mercurials and anthelmintics and in cases of poisoning.

It usually acts within from one to two hours, more quickly if taken in hot water and in the morning before breakfast.

The ordinary dose as a mild laxative is a heaping teaspoonful, as a cathartic, two to four teaspoonfuls. The taste may be improved, if necessary, by the addition of a little lemon juice and sugar. Use on compresses saturated with solution.

Besides Mag-s. chief use as a saline cathartic, magnesium sulphate is used to a considerable extent externally in saturated solution as an antiphlogistic and anti-itching in erysipeles, poison ivy poisoning, cellulitis and other local inflammations.

Percy Wilde noted that the purgative action of Mag-s. is not a quality of the drug, but a quality of its physical state, which renders its absorption impossible. The properties inherent in the substance itself can only be discovered by potency.

The **skin, urinary and female symptoms** are most marked. Greenish urine with red sediment. Profuse dark intermittent menses. Thick leucorrhea as profuse as menses. As of a lump between shoulders. Back feels broken. Left arm and foot numb. Crawling in fingertips. Small pimples all over the body which itch violently. Warts, large, soft.

Mag-s. has a depressive condition with hypersensitivity. Dysthyroidism. Tendency to spasms in the hollow organs. Liver weakness. Intermittent discomfort with prolonged periods of relief.

MIND - Apprehensive. Anxious, as though about to be struck by misfortune. Prostration from anxiety. Foreboding anxiety, as if some accident would happen. Irritable with a fear of dying. Hypersensitive to pain (Cham., Mag-p.).

Depression. Melancholy and disposition to weep and restlessness. Bad-tempered with nervous tension. Tendency to fly into a passion, every thing is taken in bad part. Misunderstands everything. Errors of imagination. Sees people who are absent.

Abdomen - Sharp pains in left hypochondrium. Tension, hardness and fullness of abdomen after a meal. Violent shooting pains in whole abdomen, around the navel. Painful drawing in abdomen. Rumbling in abdomen with emission of flatulence. Itching of left inguinal region, not removed by scratching.

Back - Pains in the lumbar region. Lumbago. Violent pain in the small of the back, as if bruised and as before menstruation. Bruised and ulcerative pain between the shoulders with a feeling as of a lump as large as the fist, on which account she could not lie upon her back or side, relieved by rubbing.

Constitutions - Allergic, tubercular types with nervous hyper-excitability.

Ears - Noises, tinkling in ears. Shooting pains in ears.

Eyes - Burning in eyes. Shooting pains in eyes. Pains in eyes, as if protruding from orbits. Lachrymation with photophobia. Dimness of eyes with frequent drowsiness. Supra-orbital neuralgia, left side.

Face - Face discolored, gray. Earthy color of face. Tearing in bones of face. Dryness and burning in lips, in evening.

Female - Premenstrual nausea. Menses too early or late, scanty or heavy. Blood thick and black. Discomfort during menses. **Thick leucorrhea**, as profuse as the menses with weary pain in the small of the back and thighs, on moving about. Some blood from the vagina between the menses.

Food - Intense thirst, morning and evening. Want of appetite and repugnance to all food, even when thinking of it. Desire for fruits, green salad and refreshing dishes. Aversion to sausages, meat, fats and fatty foods.

Head - Headache with feeling of fullness in the head, blood in the head and a prickling, drawing, piercing sensation.

Heart - Pricking pain in the heart, ameliorated by sitting and resting and aggravated by heat. Palpitations and breathlessness from physical exercise. Wakes at night with palpitations, following sleep filled with nightmares.

Kidneys - Stream intermits and dribbles. The urine passed in the morning copious, bright yellow, soon becomes turbid and deposits a copious red sediment. The urine is greenish as passed is of a clear color and in a large quantity. Diabetes (Ph-ac., Lac-ac.). Stitches and burning in the orifice of the urethra after urinating.

Limbs - Sciatic pains, aggravated at night and during rest, ameliorated by walking. Chronic, non-inflammatory rheumatism of the hip. The left arm and foot fall asleep in bed in the morning after waking.

Liver - Pain in the liver region, especially on breathing. Painful sensitivity in the region of the gallbladder. Nightly attacks on the liver and gallbladder.

Lungs - Respiration panting after exercise. Laryngeal cough on waking, sometimes spasmodic and dry, sometimes with sputum. Dry and shaking cough after waking in morning, and which compels sitting up. Expectoration of sour mucus.

Male - Urethritis. Prostatitis. Frequent stinging about penis when sitting or walking. Erections without amorous fancies or sexual desire.

Modalities - Better from movement in the fresh air. Better from washing in cool water. Better from rubbing. Better walking. Worse morning. Worse on awaking. Worse from traveling on a train. Worse in a closed vehicle.

Mouth - Dryness and sweetish bitterness of the mouth, especially in the morning. Dryness of mouth with sensation of numbness. Roughness of tongue. Vesicles on edges of tongue with incisive pains. Toothache.

Nose - Congestive pain. Nasal discharge with painful ulceration inside the nose. Copious secretion of thick and yellow mucus in nose. Fluent coryza with loss of smell. Nosebleed, at night. Rough voice and frequent flow of water from nose.

Perspiration - Perspiration at night or in morning, accompanied by thirst. Hands moist from sweating.

Rectum - Neuralgia of rectum. Constipation. Feces at one time hard, at another soft. Liquid stools with tenesmus. Soft stools early after rising. Loose evacuations with violent thirst. Stools like diarrhea, grayish in color or constipation with gray stools covered with mucus. Diarrhea preceded by rumbling in abdomen. Diarrhea with diuresis. Diarrhea after eating pancakes. **Acid diarrhea of children.** Ejection of ascarides during every evacuation.

Skin - Generalized itching over the whole body, worse in bed. **Eczema and vesicular eczemas.** Miliary eruptions with burning and itching. Small pimples over the whole body, that itch violently. Boils. **Suppressed scabies** (Sulph.). Crawling in the tips of the fingers of the left hand, better on rubbing. **Warts.** Erysipelas. Dropsy. Acne on the back. Epithelioma.

Sleep - Extreme sleepiness in the daytime. Sleepy, early in evening. Sleeplessness at night, caused by violent pains in head, abdomen and loins. Wakes at 3 a. m. with difficulty in falling asleep again. Many dreams at night, sometimes disagreeable and anxious. Sleep with worrying, with palpitations.

Stomach - Frequent belchings, tasting like bad eggs. Regurgitation of fluid, preceded by a quivering in stomach. Disgust and nausea with accumulation of water in mouth. Vomiting, first of food, then of mucus.

Temperature - Chill from 9 a.m. to 10 a.m. Chilliness with thirst, early in morning after waking. Shaking chill with violent headache in evening, succeeded by thirst. Shuddering in back, heat in one part and chill in another. Cold feet all day, although otherwise he feels hot. Heat of head with coldness of rest of body. Alternation of heat and shuddering, redness and paleness of face.

Throat - Deep, hollow, bass voice. Sore throat on swallowing and pricking pains spreading to the ear. Sore throat, with shooting pains at night, worse by swallowing. Dryness and sensation of numbness in throat. Accumulation of mucus in throat.

Vertigo - Vertigo, heaviness and numbness of the whole head. Vertigo during menses.

COMMENTS - Poisonings from Mag-s. have occurred from overdoses, death apparently occurring from collapse. The provings of the salts produced many symptoms of utter prostration.

The provings bring out effects common to the other magnesia. Tearfulness, restless uneasiness, pains in facial bones, sensitive-

Magnesia sulphurica ness to touch, better by walking. The diuretic action of the drug with great thirst has led to its successful use in diabetes.

Diarrhea, accompanied with great thirst. Toothache, worse coming into a room out of cold air, worse by contact with food, whether cold or warm, better in bed. Chill, accompanied or followed by thirst. Shuddering in back from below upward.

According to Med. Press in Sept. 9, 1891, eight cases of new growth having all the outward characters of epithelioma were cured by Graves with teaspoonful doses of a solution of three drachms to the pint.

Warts are allied to epithelioma, and H. T. Webster cured many cases in children, giving as much of the salts as would lie on a dime three times a day. One boy was literally covered with warts, his face being much disfigured. One girl of 16 was cured of large warts on her hands.

F. H. Pritchard gave his experience with Mag-s. (1/2 grains in a teaspoonful of water) in summer diarrhea with vomiting of food, copious yellowish, slimy and stinking stools and later merely watery serum. The first sign of improvement was that the stools became bile-tinged after which they soon became of thicker consistency. The copious stools seemed to be the cardinal indication.

RELATIONS - It is claimed that the addition of a small amount of Mag-s. to the usual hypodermic of morphine increases the value of the hypodermic from 50 to 100%. **Compare:** (1) Mag-c., Mag-m., Mag-p. (2) In diabetes, Nat- s. (3) Sadness, weeping, foreboding anxiety, Cimic., Puls. (4) Stinging in fauces between acts of deglutition, Ign. (5) Belchings, Hep. (6) Apprehension, Lyc.

REFERENCES - Boericke. Clarke. Julian. Phatak.

*****MAGNETIS POLI AMBO**

(Magnet)

PHARMACY - m-ambo. (m-p-a.) Magnetis poli ambo. Magnet. Both poles of the magnet. Trituration of Sugar of Milk after exposure of the influence of the both poles of the magnet. Dilution of distilled water similarly exposed. **Historical dose:** All potencies.

CLINICAL - Colic. Coma. Constipation. Cough. Diarrhea. Dyspnea. Fainting. Flatulence. Headaches. Hemorrhage. Hemorrhoids. Orchitis. **Pains.** Paraphimosis. Prolapsed, anus. Rheumatism. Toothache. Ulcers. Vertigo. Wounds.

HOMEOPATHIC - General symptoms of the magnet produced by touching either magnetic pole indiscriminately while handling the magnet or by laying the whole of the magnetic surface upon the body.

Marked sensations of coldness. The eyeball feels cold, as if it were a lump of ice in the socket. Sensation as if the blood was rushing towards points. Burning sensation in the limbs and joints.

Burning lancinations across all parts of body in different directions. Pains as if broken in joints, when cartilages of two bones touch. Wrenching pain in the limbs.

Shooting and jerkings. Shuddering, which traverses the whole body. Shaking in the body with fright or shocks, which cause violent bending and straightening of the body, sometimes with the loss of consciousness.

Headaches as if a nail were driven in. Long-lasting swoons during which she feels her pains, but is not able to speak or move. Tendency of old wounds to bleed afresh.

MIND - Irresolution. Inadvertence. Hurried, heedless and forgetful. Busy precipitation. Absence of mind. Talks aloud to himself without being aware of it. Does things he doesn't intend to. Tendency to anger and rage.

Abdomen - Pressure and anxious fullness in abdomen, especially during mental exertion. Noisy, gas, grumbling and borborygmi in abdomen. Flatulent colic. Production of much flatus. Expulsion of flatulence with painful pressure.

Back - Jerking in the spine, as from something alive. Painful sensibility of the joint of the sacrum in morning in bed, when lying on side or by day, when **stooping**.

Wrenching pain in shoulder joint or pain as from the starting of a tendon in wrist.

Chest - Burning insupportable lancinations in muscles of chest.

Ears - Humming in ears. Diminution of hearing.

Eyes - Itching in eyes, especially the lids. Pupils dilated. Scintillation of white light, beyond the range of vision in the twilight. Sparks before the eyes.

Face - Perspiration on face without heat in morning. Jerking, tearing in upper jaw. Small pimples with pain like that of a wound, on lips. Violent burning lancination in muscles of face in evening. Swelling of lips with salivation in evening.

Female - Menses premature, profuse and of too long duration.

Food - Fetid breath. Metallic taste in mouth. Insipid taste of tobacco and beer. Many things have a moldy taste. Speedy satiety. Good appetite in evening.

Head - Headache from over-strained memory and reflection. Digging, stupefying headache, which is immediately dispersed by movements of flatus. Head pain, as if a nail were driven into the head, as if caused by a wound, especially after a fit of anger. Jerking, tearing in head, appearing at intervals. Rushing or buzzing noises in whole head. Pain, as of a bruise in head, on waking in morning.

Limbs - Drawing pains in joints and muscles of arms, often from head to fingers. Tearing, jerking in muscles of arms after remaining some time in the cold. Red spots in palms like vesicles. Attacks of cramp in calves of

legs and toes after waking in morning. Burning lancinations in heels and in corns on the feet.

Lungs - Paroxysms of dry cough at night. Spasmodic cough, especially after midnight, when awake or during reflection. Nocturnal dyspnea, excited by mucus in trachea, which is easily detached in morning.

Male - Burning sensation in region of spermatic vesicles, which excites sexual desire. Dullness of sexual feeling and aversion to sex. Erection without amorous thoughts. Retraction of prepuce behind the glans. Swelling of epididymis with pain during movement and when touched.

Modalities - Worse by motion and on waking. Toothache is worse from cold and on contact with anything cold. Touch aggravates pain in joints. Heat is better from uncovering.

Nose - Aberration of smell, a smoky or moldy scent is perceived.

Rectum - Constipation, as from contraction of rectum. Painless diarrhea with flatulence. Hemorrhoids, smarting pain in anus after evacuation with constriction in rectum. Blind hemorrhoids. Prolapsed rectum.

Skin - Tendency of old wounds to bleed afresh. Ulcers painful, like new wounds. Small furunculi. Small pustules with lancinating, drawing pain.

Sleep - Jerking of the body before going to sleep. Disturbed sleep with talking, snoring and continued tossing. Waking at 3 a.m. and falling into a drowsy lethargy towards sunrise. Lying on the back with the hand under the head, the legs wide apart and the mouth half open with snoring respiration. Amorous, lascivious dreams. After waking in morning, headache with pain, as of a fracture in all the joints, which forces constant change in position of limbs. .

Stomach - Stomachache with cramp towards upper part, agitation, which allows no rest whatever, heaviness of tongue, paleness of face and coldness of body. Abortive risings. Risings with smell and taste of horn scrapings. Sour regurgitation, when stooping.

Teeth - Pressive, jerking toothache in isolated shocks. Toothache after drinking anything cold or from contact with cold air. Toothache in carious teeth with swelling of gums.

Temperature - Dry heat with need to be uncovered, at night and in morning in bed.

Vertigo - Vertigo, especially in evening after lying down, as if about to fall or as from concussion in head. Vertigo with staggering, when walking, objects seem to waver before eyes.

COMMENTS - The effect of the magnet as a whole and of each pole separately was tested by Hahnemann, and the symptoms are mainly from his pathogenesis.

He said he did not expect "ordinary mechanical, materialistic and atomistic heads" to be able to regard diseases as "immaterial alternations of the vitality or pure dynamic derangements of our state of health and medicinal powers as merely virtual, almost spiritual, forces."

Hahnemann asked how they can reconcile with their materialistic notions the fact that "a single imponderable spark from a Leyden jar gives a shock to the strongest man and yet to ascertainable ponderable substance is communicated to his body?"

Clarke's experience with magnetism is confined to M-ambo. 2,000c, but that is sufficient to give him confidence in prescribing potencies of these remedies when their indications arise, particularly burning lancinations throughout the body, pains as if broken in joints, where cartilages of two bones touch, shootings and jerkings, disturbed sleep, headache as if a nail were driven in.

Hahnemann said the symptoms "occurred from various powerful magnets brought in contact with various sensitive individuals without distinction of the poles.

"They were observed in experiments conducted for half a year for the purpose of ascertaining the proper and most efficacious mode of stroking the steel with magnets in which a horse-shoe magnet, capable of lifting a weight of twelve pounds, was held in the hands, which were held in contact with both poles for an hour at a time." Additional symptoms came from Andry, Thouret, Unzer and De Harsu.

Hahnemann noted that "Although each of the poles presents something peculiar in its power of altering the human health, yet each of them seems, when applied twice of oftener to produce alternating actions which resemble those of the opposite pole."

For curative purposes, Hahnemann recommended a much milder application of the magnet. The popular use of magnetic rings for rheumatism is analogous to this. The method of attenuating media saturated with emanations from the magnet does not seem to have occurred to Hahnemann.

RELATIONS-Antidoted by: Ign., Electr., Galv., Zinc. (imposition of Zinc plate). **Compare:** (1) M-arct., M-aust., Ferr-ma., Mang-o. (2) Burnt smell in nose, Anae. (3) Prolapsed anus, Podo., Caust., Ign. (4) Bell., Lyc., Nux-v., Petr., Puls., Stram., Sabin., Teucr.

***MAGNETIS POLUS ARCTICUS

(North Pole of Magnet) **PHARMACY** - m-arct. Magnetis polus arcti- cus. North pole of the magnet. Potencies

of saccharum lactis or water charged with the influence of this pole. **Historical dose:** All potencies.

CLINICAL - Amenorrhea. Clairvoyance. Coma. Constipation. Cough. Flatulence. Headache. Heartburn. Hernia. Menses, suppressed. Nosebleed. Panaritium. Salivation. Sleep, disturbed. Sleepwalking. Toothache. Vertebra, cracking. Vertigo.

HOMEOPATHIC - The symptoms of Mag-arct. were obtained by applying it in the region of the 4th to 6th thoracic vertebra, at a distance of four or five finger's breadth from the body.

Over-excitement with trembling, uneasy restlessness in limbs and great nervous weakness. Great lassitude and painful weariness of the whole body with dejection, especially in morning and in open air, as during sultry weather.

Sharp shocks, throbbing, trembling, coldness and sensation as if the blood were driven toward parts. Drawing sensation in periosteum of all bones, as at commencement of intermittent fever. Cracking in cervical vertebrae. Marked affect in the teeth and jaws. Sensation of coldness with toothache. Increased flow of saliva. Swelling, heat and redness of one cheek. **Coldness of eyes as if a piece of ice lay in orbit.** Disturbed sleep, sleepwalking. Constipation, sopor, trembling. Abdominal flatulence.

MIND - Mildness, submission. Anxious hesitation and restlessness. Fickleness. Irresolution, followed by prompt execution after a resolution has been once formed. Indolence when seated, as if power of moving were lost.

Peevishness. **Sensitive to noises.** Weakness of memory. Tendency to make mistakes when writing. Loss of ideas. Loss of sense. Speaking loud while quite alone and engaged in business. Inclination to weep with shivering.

Abdomen - Inflation of abdomen. Shocks in abdomen, as if something in it were falling or blows proceeding from abdomen and passing upwards through chest, as far as the throat. Pressure and boring towards inguinal ring, as if preparatory to a rupture with relaxation of the inguinal ring. Production and incarceration of much flatus. Flatulent, pressive colic.

Back - Cracking in the cervical vertebra during movement. Pains in back, as if broken, on bending it backwards.

Ears - Murmuring in ears and internal heat, as from boiling water. Deafness, as if caused by a band over ears.

Eyes - Restless movements of eyes. Eyes prominent and fixed. Icy coldness of (weak) eye, as if a lump of ice lay in orbit instead of the eye. Lancinations, itching and jerking drawing in eyelids with lachrymation. Painful sensation of dryness in eyelids, on awaking in morning.

Face - Paleness in face. Tension in face. Painful squeezing in maxillary joint with sensation, while moving it, as if it were dislocated. Swelling of one cheek only. Trismus.

Female - Menses too feeble. Menses suppressed.

Food - Voracity in evening. Loss of taste. Acid taste in the mouth. Tobacco has a bitter taste.

Head - Headache is worse lifting or moving arm.

Kidneys - Increased secretion of urine. Deep-colored urine.

Limbs - Inflammation of back of hand with pulsative pain. Heaviness in arms, hands and fingers. Great lassitude in lower limbs, which feel as if they would break, when walking. Pains, as of a fracture in hip joints and lower limbs. Pain, as from excoriation in toes and corns on the feet.

Lungs - Dry, asthmatic, suffocating cough.

worse by walking in open air. Constant want to cough in evening, which is removed only by restraining the cough. Spasmodic, shaking cough in evening, on going to sleep, which hinders sleep. Spasmodic, suffocating cough towards midnight, produced by irritation in bronchia. Cough shaking the head and whole body and exciting heat until a general perspiration ensues with cessation of the cough.

Male - Excitement of sexual desire. Immoderate erections with frequent pollutions.

Modalities - Better from uncovering, worse on waking. Toothache, worse breathing through the mouth.

Mouth - At night, collection of saliva in mouth, so profuse that every time he wakes the pillow is quite wet. Itching in point of tongue, compels him to scratch it.

Nose - Aberration of smell, smell of rotten eggs, fresh plaster or dust. Nosebleed, preceded by pressive head pain in forehead. Redness and heat in point of nose, followed by red spots, hot and plainly circumscribed, on cheeks.

Rectum - Obstinate constriction of abdomen and constipation. Hard feces of a large size, difficult to evacuate often preceded by drawing, dysenteric pains in the hypogastrium.

Skin - Tingling and lancination itching in skin. Burning sensation or burning tearing in tetters. Panaritium.

Sleep - Violent, spasmodic yawning, with wrenching pain in maxillary joint. Strong disposition to sleep by day. Coma. Profound sleep at night during which the patient generally lies on the back. Tossing during sleep, with troublesome heat and urgent inclination to be uncovered without thirst. Waking in the evening after sleep, in consequence of a violent shock in the head and muscles of the neck. Many vivid dreams, sometimes

lascivious. Sings in her sleep, is wakened by it, falls asleep again, recommences to sing and again wakes up from it. Imperfect waking in morning (2 a.m.), with perfect inner consciousness, vivid memory, great concourse of ideas and reflections on some important subject.

Stomach - Frequent empty risings. Continued heartburn, especially after supper.

Teeth - Toothache in carious teeth, at intervals, as if they were being extracted. Pains in carious teeth with gums swollen and painful when touched, worse after a meal and by heat, better in open air and when walking. Toothache with red, hot, swollen cheeks. Toothache with shocks, which traverse the periosteum of the jaw or with drawing, pressive or else tearing, digging or burning sharp pains. Incisors set on edge, when breathing through the mouth. Numbness and insensibility of the gums, on the cessation of the toothache.

Temperature - Sensation of coldness or of coolness over whole body. Chilliness. Cool hands with cool perspiration upon them and over whole body. Cold sweat on hands and soles of feet. Shuddering, followed by transient heat and swelling of veins of hands. Sensation of heat over whole body with coldness of hands and lower limbs.

Vertigo - Vertigo, as from intoxication with staggering, when walking in open air and instability when standing.

COMMENTS - Swan reported a case cured by C. M. Conant in which Mrs. S., age 31, blonde, had pain in her left lower jaw as if out of joint, worse morning, on moving it. Sensation as if head of bone were squeezed and crowded into socket. Mag-arct. 1,000c cured.

One symptom of the proving, occurring in a half-waking state, suggests an approach to sleepwalking. He thinks out a "difficult subject in the best form in a foreign language," but when awake he cannot remember distinctly the subject.

Several provers complained of faintness. One had "sensation of dryness and lightness in the body with want of strength." Sensation as if scalp adhered to skull.

RELATIONS - Antidoted by: M-aust., Ign., Zinc. **Compare:** (1) M-ambo. M-aust. (2) Sensation as if teeth being pulled out, Ip. (3) Worse raising arm, Bar-c., Con., Cupr., Ferr. (4) One cheek red, Cham. (5) Coff., Cham.

REFERENCES - Clarke.

***MAGNETIS POLUS AUSTRALIS

(South Pole of Magnet)

PHARMACY - m-aust. Magnetis polus australis. South pole of the magnet. Potencies of alcohol saturated with emanations of the south pole. **Historical dose:** All potencies.

CLINICAL - Amblyopia. Borborygmi. Bulimia. Colds. Coryzas. Coughs. Dislocation, easy. Frostbite. Heart, palpitations. Hernia. **Ingrown, toenails.** Lachrymation. Levitation. Menorrhagia. **Pains.** Palpitations. **Toothaches.** Varicose, veins. Vertigo. Wisdom tooth.

HOMEOPATHIC - Hahnemann first noticed the symptoms that led to the use for ingrown toenails, including a sore pain on the inner side of the nail of the big toe when walking. As if the nail had grown into the flesh on the side, very painful on being slightly touched. The shoe presses on the toes and on the nail of the big toe when walking, as from corns.

The accurate response of M-aust. to these symptoms proved to Clarke the possibility of attenuating and so fixing this "energy" for use as an ordinary homeopathic remedy. Clarke cured so many cases of ingrown toenail with M-aust. 2,000c., that he invariably gave it in the first place when there were no symptoms plainly indicating another remedy.

Sharp, pulsative pains in roots of nails, as if about to suppurate. Easy dislocation of joints of foot, feet are painful when letting them hang down. Aching in patella, shooting in soles.

Drawings in fingers, feet and ankles. Pains with pinching or burning, lacerations in different parts of the body. Contusive pains in limbs and joints, as if the patient had been lying on flints.

Dryness of eyelids. Tendency of nose, ears, hands and feet to be frozen by a moderate degree of coldness. Liability to suffer from achill. Sudden lassitude when walking with anxiety and heat or sudden inclination to sleep. Lightness of whole body.

MIND - Mood is changeable, variable. Capriciousness. Abrupt. Irritability. Instability of ideas. Inconstancy. Irresolution, indecision.

Confused, wandering thoughts. Absentminded. Indifference, apathy. Indolence, aversion to work.

Anxiety with fear. Frightened easily. Fear of people, anthropophobia. Timidity. Aversion to anyone who comes near, even loved ones. Forsaken feeling. Weeping, tearful mood after anger, vexation. Guilt.

Morose and ill-humor, with aversion to conversation. Society is disagreeable, wants to be alone. Dislike to society and to laughing faces. Wants to say something hateful. Sulky. Ill-humor, peevish.

Asserts himself with vehemence and despises others. Anger at trifles. Anger with trembling. Harshness, rough.

Abusive, insulting. Quarrelsome, scolding. Reproaches others. Violence, vehemence. Wild, hasty, harsh, violent in word and deed. Passion and rage.

Dreams of animals, fire. Nightmares. Amorous disposition. Stupefaction, as if intoxicated. Crawling around like a animal. **Abdomen** - Noisy borborygmi and grumbling in abdomen.

Pressive, flatulent colic with pinchings and inflation of abdomen. Sensation, as if inguinal ring were dilated, preparatory to the rupture with painful sensibility of that part, when coughing.

Back - Pressive, burning pain in loins during repose and movement. Pain, as of a fracture or wrenching pain in joint of sacrum and lumbar vertebra.

Causations - Ailments from anger, vexation, emotional excitement.

Chest - Oppression of the chest, as if the respiration were tremulous and produced an impression of coolness. Drawing pressure in both sides of sternum with anguish of conscience, which allows no rest.

Eyes - Dryness and smarting in eyelids, especially when moving them, worse morning and evening. Lachrymation. Amblyopia.

Female - Menses premature and profuse. Metrorrhagia.

Head - Great rush of blood to brain early in morning in bed. Heaviness, tingling and digging in head. Shocks in head, sometimes with tearing.

Heart - Violent palpitations of the heart with great heat in cardiac region. Palpitation of the heart during which it seems that it is not the heart that palpitates.

Kidneys - Involuntary emission of urine from paralysis of bladder sphincter, especially at night. Frequent emission of urine at night. Very feeble stream of urine. Emission of urine, drop by drop with torpor of urethra.

Lungs - Coughs and coryzas with expectoration of greenish mucus and shortness of breath. Paroxysms of fetid cough at night, when sleeping. Want to take full, sighing inspirations, with involuntary deglutition.

Male - Strong disposition to emission. Emissions in a hemiplegia patient, paralysis worse after the emission. Impotence with sudden cessation of all enjoyment in the moment of greatest excitement. Pain in penis, as if some tissues were torn or plucked away. Painful retraction of testes at night. Swelling of testes with tearing shocks and sensation of contraction.

Modalities - Worse when walking in open air, sitting, hanging limb down.

Mouth - Metallic taste, at one time sweetish, at another acidulous, on and under the tongue. Accumulation of watery saliva in the mouth. Speech embarrassed, as by a swelling of the tongue.

Rectum - Stools, soft, loose, preceded by gripings. Evacuation of liquid feces with a sensation as if flatus were about to be discharged. Contractions and painful constriction in rectum and anus, which hinder the expulsion of wind.

Sleep - Urgent inclination to sleep, evening and morning. Closing the eyes without power to sleep. Sleeplessness with overexcitement before midnight. Confused, frightful dreams. Prolonged dreams on the same subject with fatigue. Dreams of incendiary fires. Lying on the back during the night. Slow, noisy, snoring expiration. Congestion in head in morning, which compels lying with head high.

Stomach - All kinds of food appear insipid. Extreme indifference to food, drink and tobacco-smoke. Bulimia at noon and

Magnetis polus australis evening, sometimes during the febrile shiverings. Aching in scrobiculus during mental exertion.

Teeth - Tearing, jerking toothache, worse by hot things.

Temperature - Excessive dread of open air, which penetrates to the very marrow of the bones, even when the weather is hot, with ill-humor and inclination to weep. Shuddering with cloudiness before eyes. Trembling and tossing of limbs without shivering, followed by heat in head and face.

Throat - Burning sensation in gullet.

Vertigo - Vertigo, as from intoxication with staggering gait.

COMMENTS - Ingrown toenails, toothache, insomnia, and arthritis. Pinching, squeezing sensations and bruised pains. Faintness, comes on when walking, worse when sitting. Great rush of blood to the brain early in the morning in bed.

Berridge reported the case of Miss X, who had for three weeks aching in the middle of front of left lower leg, where she had varicose veins for eight months, when standing or when the leg is hanging down. Aching pain is removed by placing it horizontally.

Frequent feeling of hot water running down the affected part, but only when leg is down, at times throbbing when leg hangs down. She was given M-aust. 100,000c, one dose. The hot-water feeling never returned and the pain ceased in two days.

RELATIONS - Antidoted by: M-arct., Ign., Zinc. **Compare:** (1) M-ambo., Galv., Electr. in fetid cough, Caps. (2) Rush of blood to head, Aster. (3) Toenails, Graph., Sil., Nit- ac., Thuj.

***MAGNOLIA GLAUCA

(Sweet Magnolia)

PHARMACY - magn-gl. Magnolia glauca. Sweet magnolia. Sweet bay. Beaver-tree. N. O. Magnoliaceae. Tincture of the flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Fainting. Gout.

HERBAL - The Treasury of Botany said "M. glauca is a low-growing, deciduous tree, called in America Swamp Sassafras from the nature of the locality in which it grows and from the resemblance in its properties to Laurus sassafras. It is also called Beavertree, because the root is eaten by beavers, which the animals also make use of the wood in constructing their nests."

HOMEOPATHIC - S.A. Jones and T. F. Allen observed the effects of the flowers on three persons. Symptoms included a sense of great oppression about his chest, and a strong tendency to fainting.

A woman had oppression of chest, could not expand the lungs with a feeling as if she had swallowed food without chewing and it distressed her stomach. In a doctor, it increased the pain of inflammatory gout and evidently increased the paroxysm of a pain which came on every afternoon.

REFERENCES - Allen. Clarke.

***MAGNOLIA GRANDIFLORA

PHARMACY - magn-gr. Magnolia grandiflora. Talauma mexicana. Magnolia yolotxochitl. N. O. Magnoliaceae. Mexico. Tincture of the flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Aneurysm. Angina pectoris. Constipation. Dyspnea. Endocarditis. Flatulence. Headaches. Heart, disorders. Inter-menstrual flow. Leucorrhea. Migraines. Nausea. Pains. Pericarditis. Rheumatism. **Stiffness.** Vertigo.

HOMEOPATHIC - Allen, in his Handbook, gives a full pathogenesis of Magn-gr. Rheumatism and heart lesions are prominent features in the symptomatology of this drug.

Alternating pains between spleen and heart. Erratic shifting of pains. Pains rapidly change their place or alternate. Rheumatic action, particularly manifested in the chest and heart. **Stiffness and soreness.** Bruised, constrictive and rheumatic pains in various parts, particularly the joints.

Patient tired and stiff. Tiredness impeding motion. Soreness when quiet. Marked action was developed in the female sexual sphere and an inter-menstrual flow was observed.

MIND - Confusion and dullness. Memory weak, lost. Repugnance to all occupation. Ill-humor with burning in hands. Sadness. Nervous, easily frightened. Uneasiness. Apprehensive, thinks she will die. Illusions and hallucinations of sight with sharp pains in eyes.

Abdomen - Rapid, pulsating pain with griping in intestines, extending to hypochondria, as from a blow. Burning in left side of abdomen, extending to chest. Contusive pain in liver and spleen, extending to the stomach. Flatulence. Lancinations in liver and spleen.

Back - Weight in neck with tiredness of spine. Stiffness, tiredness of neck and back. Contusive pain. Stitches in right side of back.

Chest - Oppression of chest with inability to expand the lungs. Constriction as from a band just beneath axilla. Tired feeling. Stiffness of sides of chest, as from exposure to a draft when over heated. Stitches in sides of chest, in right side.

Ears - Lancinations in left ear, traveling to shoulder. Sharp pain in ears, in morning, traveling to throat.

Eyes - Sharp pain in eyes, from sunlight, with nervousness and visions. Vision weak, blurred. Lids heavy, sensation in lids as after weeping.

Face - Lancinations in jaw joints. Pain in right side in joints, worse pressure, also impeding opening of mouth. Sharp pain going to ear.

Female - Before menses, pain in small of back, hypogastrium and thighs with headache, flushes of heat to face, nausea and chill. Menses delayed, pale and scanty of coagulated blood for two days, then normal, painful. Bloody flow in interval between menses. Thick white or yellow leucorrhea, with constipation, straining when urinating. Congestion of left ovary with pain extending to left thigh.

Food - Appetite lost after vertigo, with lassitude.

Head - Migraines. Congestive, throbbing headache with griping in abdomen, flushes of heat. Pain in temples on bending forward, especially left temple. Pain in occiput and upper dorsal region. Pain

Magnolia grandiflora in occiput as from a blow. Weight in occiput.

Heart - Endocarditis and pericarditis. Tendency to faint. Pulse weak and frequent. **Sensation as if heart had stopped beating.** Alternating pains between spleen and heart. Crampy pain in heart. Angina pectoris.

Stitches, which waking him frequently. Pain around heart accompanied by itching of the feet. Soreness after disappearance of pain.

Limbs - Stiffness and sharp erratic pains, worse in joints. Sprained pains in joints. Shooting in all limbs. Limbs tired, stiff. Stiffness of lower limbs. Sharp, erratic or rheumatic pains. Rheumatic pain in clavicles. Rheumatic pains in wrists. Numbness in left arm. Arms weak. **Feet itch.**

Lungs - Dyspnea. Suffocation, with desire for stretching and uneasiness in paroxysms, when walking fast, when lying on left side after a meal. Hoarseness. Dry cough during the day, better at night.

Kidneys - Straining on passing water.

Modalities - Better dry weather, motion. Better inter-menstrual flow (Ham., Bov., Bell., Elaps.). Worse damp air, in morning, lying on left side.

Mouth - Pain in mouth, better by tepid water.

Rectum - Constipation.

Skin - Itching feet, sometimes with uneasiness of legs.

Sleep - Yawning during the day with sleepiness. Sleepless early in morning. Extravagant dreams.

Stomach - Sensation as from hunger with acidity. Emptiness with general lassitude, vertigo and nausea. Nausea in morning on rising, better by breakfast. Nausea as from tobacco. Feeling of a large bolus of food which distressed the stomach.

Teeth - Shooting in teeth. Soreness of teeth, impeding mastication.

Temperature - Erratic chill. Chill in afternoon, then fever lasting into night. Heat with burning in throat and headache, flushing with sweat of hands, hands and feet, upper limbs.

Throat - Red fauces. Burning and dryness with pain in pit of stomach and often extending to abdomen, preventing sleep. Difficult swallowing saliva. Sensation of mucus with fruitless attempts to remove it. Constriction, worse right side, worse bending forward. Pain in throat on turning head, waking him frequently at night.

Vertigo - Vertigo in evening, better going to bed with an emptiness at stomach with flushing of face. Vertigo with dislike for physical labor. Vertigo beginning with blurring of sight. Vertigo as from seasickness, causing loss of appetite.

COMMENTS - Allen gave indications including rheumatic pain in clavicles. Crampy pain in heart, alternating with lancinations. Pain in heart with suffocative constriction of throat. Aortic aneurysm. Nausea with vertigo and angina pectoris.

Dry cough. Rheumatic pains in back, especially when alternating with similar pains in different parts. Muscular rheumatism of left arm.

RELATIONS - Compare: (1) Rhus-t., Dulc., Aur. (2) Magn-gl., Anis. (3) In rheumatism, Kali-bi., Kalm. (4) Inter-menstrual hemorrhage, Ham., Bov., Bell., Cham., Elaps.

REFERENCES - Allen. Boericke. Clarke.

***MALANDRINUM

(Grease of Horses)

PHARMACY - maland. Malandrinum. Grease of horses. Nosode of the disease in horses called "Grease." Trituration of Sugar of Milk saturated with the virus. Solution of the virus. **Historical dose:** All potencies.

CLINICAL - Acne. Boils. Eczema. Fistula. **Impetigo.** Knock-knee. Measles. Skin, unhealthy. **Smallpox.** Typhoid fever. **Vaccination, effects.**

HOMEOPATHIC - According to Jenner, the origin of cow-pox is infection of the udders of cows by contact with grass on which a 'horse infected with "Grease" has trodden. This assertion is to some extent confirmed by the experience of homeopaths, who have found in Maland, a very effectual protection against infection with smallpox and against vaccination. Straube made provings of the 30c potency.

Clarke cured with it cases of unhealthy, dry, rough skin remaining for years after vaccination in smallpox, measles and impetigo. Burnett cured with it a case of knock-knee in a child who was constantly handling his penis.

Maland, has been used on inferential grounds with great success in ill effects of vaccination. Efficacious in clearing of the remnants of cancerous deposits. Bone-like protuberances. Toes feel scalded and itch terribly.

MIND - Dullness of mind. Dizziness. Confusion and lassitude of the mental faculties with a dread of any mental exertion. A lack of concentration.

Abdomen - Pains around umbilicus.

Back - Pain along back, as if beaten.

Causations - Ill effects of vaccinations (Thuj., Sil.).

Ears - Profuse, purulent, greenish-yellow discharge, mixed with blood.

Eyes - Red stripes under eyes.

Face - Scab on upper lip, with stinging pain when torn off.

Female - Vagina closed with crusts, yellowish-greenish-brown in color.

Head - Aching in forehead. Frontal and occipital headache. Impetigo covering head from crown to neck and extending behind ears. Thick, greenish crusts with pale, reddish scabs, itching worse in evening.

Limbs - Sore pains in limbs and joints. Pains, especially in left tibia with petechia-like patches on anterior aspect of left leg from knee to ankle. Petechia on both thighs, worse left. Knock-kneed. Impetiginous crusts on extensor sides of forearms. Runaround on nails of hands and feet.

Male - Child constantly handles his penis. **Mouth** - Tongue is coated yellow with red streak down middle (typhoid). Tongue cracked and ulcerating down middle, swollen.

Skin - Smallpox. Measles, also as a preventive. Small, dusky red spots on legs, not disappearing on pressure. Petechial typhus. Impetigo covering back of head, extending over back to buttock and even into vagina, covering labia. Impetigo on extensors of forearms. Eczema. **Dry, scaly, itching, cracks of hands and feet in cold weather and from washing.** Boils. Malignant pustule. Bad effects of vaccination (dry, harsh skin).

Sleep - Dreams of troubles. Dreams of quarrels.

Stomach - Vomiting of bilious matter, nausea.

Stool - Dark, cadaverous-smelling stool. Yellowish, foul-smelling diarrhea.

COMMENTS - Burnett's indications are "Lower half of body, greasy skin and greasy eruption. Slow suppuration, never ending, as one heals another appears." Impetigo, ecthyma, fat, greasy-looking pustular eruptions are particularly acted on by this remedy.

A. L. Marcey related a striking experience with Maland. 30c. In the presence of a smallpox epidemic, he vaccinated himself, taking at the same time Maland. 30c night and morning. The vaccination did not take. It was twice repeated and still did not take, nor was smallpox contracted.

Called to vaccinate four children in a family whose parents were recovering from smallpox, he vaccinated all and gave Maland. 30c to three of them at the same time, the remaining child was the only one whose vaccination "took."

This was so severe that Maland, had to be given to modify its intensity, which it did effectively. The other three were re-vaccinated but none "took."

Of five children from six to seventeen years of age, only the eldest had been vaccinated and he had a good scar. All except the eldest were given Maland, and were vaccinated and none of the four "took." The eldest took smallpox. Maland, was then given and in a few days he was convalescent.

In another case of smallpox, Maland, was given and the disease only lasted a few days, the eruption drying up. In Straube's proving, the symptoms were worse in evening.

Burnett considers Maland, a very deeply acting remedy and one not to be repeated oftener than once a fortnight. Clears the remnants of cancerous deposits.

Heath cured with Maland. 30c fistula in a pony's neck, following strangles.

RELATIONS - Compare: (1) For the bad effects of vaccination, Vario., Vac., Thuj., Sabin., Ant-t., Apis, Sil. (2) In general, children handling genitals, Med. (but Maland. has deeper action). (3) In pustular eruptions, Hep., Merc. (4) Casteq., Hippoz., Hipp.

REFERENCES - Boericke. Clarke. Phatak.

***MALARIA CO. NOSODE

(Malaria Nosodes)

PHARMACY - malar-co. Malaria co. nosode. Combination of the nosodes from all four types of malaria. (Plasmodium falciparum, Plasmodium malariae, Plasmodium vivax, and Plasmodium ovale). **Historical dose:** All potencies.

CLINICAL - Ague. Bilious, fever. **Cachexia. Chills.** Diarrhea. Emaciation. Fatigue. Fever. Headaches. Intermittent fever. Liver, disorders. **Malaria.** Nausea. Spleen, disorders. **Sweats.** Vomiting.

HOMEOPATHIC - The first episode of symptoms usually occurs about 8 to 30 days after the mosquito bite. Headache, fatigue, and nausea. Hard, shaking chills with fever for 12 to 24 hours. Rapid breathing. Heavy sweating, accompanied by a drop in temperature.

Episodes may recur every 2 or 3 days until the disease is treated. Without treatment, the disease can continue for years. Generally worse in crowded or unsanitary living conditions. Hot, humid climates. Malaria is endemic in Latin America, Asia and Africa.

COMMENTS - Malaria is an infection caused by a single-cell parasite, which is transmitted by the bite of an anopheles mosquito. Malaria affects the blood cells, blood vessels, liver, central nervous system.

There are four types of malarial parasites, they are transferred from person to person by a mosquito bite. The mosquito becomes infected with malaria after biting a person with the disease. The organism multiply in the mosquito, then enter the bloodstream of the next person the mosquito bites.

Once in a person's bloodstream, the parasites travel to the liver, where they thrive and multiply rapidly. After several days, thousands re-enter the bloodstream and destroy red-blood cells. Some parasites remain in the liver, continue to multiply and are released again at intervals into the bloodstream.

REFERENCES Murphy.

***MALARIA OFFICINALIS

(Decomposed Vegetable Matter)

PHARMACY - malar. Malaria officinalis. Decomposed vegetable matter. **Historical dose:** All potencies.

CLINICAL - Ague. Bilious, fever. **Cachexia.** Camp fever. Colic. Constipation. Cramps. Diarrhea. Emaciation. Fever. Gout. Hay fever. Headaches. Liver, disorders. **Malaria.** Nausea. Neuralgias. Rheumatism. Spleen, disorders. Tuberculosis. Typhoid. Vomiting.

HOMEOPATHIC - Malar, is made from vegetable matter decomposed in water in glass jars for one two and three weeks.

Malarial cachexia. Malaria and rheumatism. Rheumatic paralysis and emaciation. General sense of weariness. Sense of weariness from a very short walk. A kind of simmering all through the body.

Spleen disorders. Functional hepatic diseases. Typhoid, semi-paralytic condition. Right arm gets numb and has to be rubbed. Cold limbs, poor appetite but food does not distress her.

Fearful headache, nausea, aversion to food, distress through hypochondriac region, first in the spleen, then liver and stomach and chills. Bilious colic, nausea, cramps, diarrhea and headache. Urine red, scanty. Bowels sluggish but stools natural. Menses regular, rather scanty.

Dull headaches, dizzy and drowsy at all times, worse mornings. Eyes weak, blurring, reading difficult. Laryngeal irritation with cough and secretion of bloody mucus. Slow pulse.

MIND - Feels stupid and sleepy. Very forgetful. Dizzy and drowsy (Gels.).

COMMENTS - Yingling cured a Kansas volunteer with Malar. The volunteer, 28, after a week in camp in rainy, chilly weather had

chill and fever, continuous nausea, vomiting bile, retching. Tongue white, thick coat. Mouth felt dry but was moist. Thirst for large quantities.

Symptoms were moderated by Ip. and later Bry., but not removed. Skin, eyes and face very yellow. Malar. 1 m. Was given and improvement set in; in a week was in better health than usual.

Mrs. S. A. H., 63, had shooting pains all over muscles, bones ache. Diarrhea in morning, stools thin, yellow, foul. Bitter taste, parched mouth tongue white. Stretching and gaping. Malar. 1000c. cured quickly.

RELATIONS - Malar, belongs to the same order of remedies as Pyrog. (product of decaying animal tissues). Bowen found the best antidotes to Malar.: Nux-v., Bry., Ars., Rhus-t., Eup-per. and Chin, gave negative results.

Compare: (1) Spleen, Cean. (2) Liver, Bry., Lyc., Chol., Chel. (3) Pain under right scapula, Chel. (4) Effect of damp and wetting, Lem-m., Dulc. (5) Half machine-gun cough, Cor-r., Cocc-c. (6) better after urinating, Lith., Ambr. (7) Intermitents, Ip., Cedr., Nat-m., Meny.

REFERENCES - Anshutz. Boericke.

***MALATHION

(Pesticide)

PHARMACY - malat. Malathion. Pesticide. Ovide. A pesticide and topical drug for lice, scabies. **Historical dose:** All potencies.

CLINICAL - Abdominal, cramps. Allergies. Aplastic, anemia. Asthma. Autoimmune, disorders. Birth, defects. Conjunctivitis. Convulsions. Diarrhea. Dyspnea. Eye, disorders. Immune, disorders. Impotency. Infertility. Intestinal, disorders. Kidney, failure. Learning disabilities. Leukemia. Miscarriages. Rash. Rheumatoid, arthritis. Stomach, cramps. Trembling. Twitching. Vertigo. Weakness.

HOMEOPATHIC - Malathion is an organophosphate parasympathomimetic which binds irreversibly to cholinesterase. Malathion is an insecticide of relatively high human toxicity. It weakens the immune system. Causes autoimmune disorders. Rheumatoid arthritis. Asthma and allergies. Leukemia. Aplastic anemia. Kidney failure.

Drowsiness. Unusual weakness. Slow heartbeat. Dizziness. Convulsions, seizures. Trembling. Clumsiness or unsteadiness. Difficult or labored breathing. Increased sweating. Increased watering of mouth or eyes.

Abdominal or stomach cramps. Diarrhea. Loss of bowel or bladder control. Intestinal disorders in children.

Birth defects. Infertility or miscarriages. Lower sperm count. Slower sperm movement.

Muscle twitching of eyelids, face, and neck. Pinpoint pupils. Redness, pain, swelling of eye, eyelid, inner lining of eyelid. Burning, dry or itching eyes. Conjunctivitis. Eye discharges, excessive tearing. Skin rash. Stinging or irritation of scalp.

MIND- Anxiety and restlessness. Hyperactivity. Attention deficit disorder. Learning disabilities in math, reading, etc. Language or speech delays. Mental retardation. Memory weakness, confusion. Depression. Irritability. Aggressive behavior.

COMMENTS - Malathion breaks down into malaoxon, which is 60 times more toxic than malathion. For this reason, if malathion is used or somehow enters an indoor environment, as it breaks down into malaoxon, it can seriously and chronically poison the occupants living or working in this environment.

Malathion present in untreated water is converted to malaoxon during the chlorination phase of water treatment, so malathion should not be used in waters that may be used as a source for drinking water, or any upstream waters.

REFERENCES - Murphy.

*****MANCINELLA VENENATA**

(Manganeel Apple)

PHARMACY - mane. Mancinella venenata. Manganeel apple. Hippomane mancinella. Manzanillo. N. O. Euphorbiaceae. Caribbean. Tincture of fruit, fiesh leaves and bark. **Historical dose:** All potencies.

CLINICAL - Asthma. **Blindness. Blisters.** Borborygmus. Chills. Cholera infantum. Colic. **Dermatitis.** Diphtheria. Erysipelas.

Erythema. Esophagus, stricture. **Eyes, disorders.** Fever. Fungoid, growths. Hair, loss. Headache. Herpes. Melancholy. Menopause. Nausea. Nerve, disorders. **Pemphigus.** Photophobia. Puberty. Scarletina. **Skin, disorders.** Sore throat. Stomatitis. Tongue, patched. Typhoid fever. **Vesicles.** Vomiting. Wounds.

HERBAL - The Treasury of Botany noted that "Mancinella is a species of the Euphorbiaceae and has all the virulent properties of the family in a high degree. It is one of the trees around which the upas legends have clustered. It is certain that the juice, which resembles pure white milk, does possess a considerable amount of acidity and that some persons suffer great pain from incautiously handling it.

"Perhaps its most dangerous property is that of causing **blindness**, if by chance the least drop of the milk or smoke of the burning wood, comes in contact with the eyes.

"Dr. Seeman states that at Veraguas some of the ship's carpenters were blinded for several days by the juice getting into their eyes while cutting down Manchineel trees, while he himself suffered from temporary loss of sight from merely gathering specimens. The same accident happened to a boat's crew from making a fire. Salt water is said to be an efficacious remedy."

HOMEOPATHIC - Marked skin symptoms. **Dermatitis** with excessive blistering, oozing of sticky serum, and formation of crusts. Acridity. Burning, smarting in various parts. Favors rapid healing of wounds. **Loss of vision. Pain in the thumb.**

Hering suggested it in mental depressed states at puberty and at menopause with an exalted sexuality.

MIND - Bashful and taciturn. Timid. Sympathetic. Weeps a great deal, especially when alone. Melancholy. Homesickness. Silent mood, sadness. Depression with sexual weakness.

Wandering thoughts. **Sudden vanishing of thoughts.** Forgets what she wishes to do next. Forgets her errands. Anger aggravates. Impatience during headache. Averse to work and answering questions.

Anxiety from becoming cold, during or after scarlatina, before menses.

Fear of becoming insane. Fear of evil spirits. Sometimes feels as light as if she could float or hover in the air. Delusions that he will be taken by the devil.

Abdomen - Rumbling in abdomen renewed by every motion and when taking a deep inspiration. Colic, worse cold drinks. Bowels sore and burn.

Back - Backache with nausea and tenesmus. Sharp pain in left scapula and left chest at intervals. Painful stiffness of small of back, neck, after sleep, could scarcely move neck.

Chest - Oppression of chest, better expectoration. Aching pain behind sternum. Severe pain in middle of sternum, worse pressure and breathing.

Ears - Ears feel as if closed. Redness and heat of ears.

Eyes - Lids, heavy and sore. Eyes smart or burn on closing them. Dull ache behind the eyes. Intense inflammation with loss of vision (for some days). Photophobia.

Face - Swollen, spotted. Herpes on lips.

Food - Craves cold water. Aversion to meat, bread, wine.

Head - Pain in vertex, worse lying. Heat in head, better from rest. Congestion of head before menses. Scalp

itches. Hair falls out after acute sickness.

Heart - Pressure in region of heart. Needle like stitches at heart. Palpitations in evening, on turning in bed, as from eating. Palpitations with weakness. Pulse weak, very large and soft.

Limbs - Pain in thumb. Icy coldness of hands and feet. Biting vesicles on soles, desquamation and dryness of soles.

Lungs - Rattling in left lung during breathing. Violent cough and painful stitches in trachea from slightest exertion. Cough, worse cold drinks, at night.

Modalities - **Worse from cold.** Worse cold drinks. Worse cold feet. Worse dampness. Worse touch. Worse puberty, menopause. Worse anger. Worse after eating.

Mouth - Feels peppery. Burning and pricking in the mouth, not better by cold water. Burning of fauces. Dysphagia from constriction of throat and esophagus. Copious, offensive saliva. Profuse foul yellow saliva. Taste of blood.

Nose - Illusions of smell of gunpowder, dung, etc. Pressure at root of nose.

Perspiration - Cold sweats. Acrid, sticky foot sweat.

Rectum - Sensation of fullness in rectum with hollow feeling in stomach. Sudden desire to go to stool in morning. Profuse diarrhea with colic, vertigo, much discharge of flatus. Greenish stools. Burning pain during diarrhea. Pulsation in anus. Discharge of fetid blood from hemorrhoids.

Sensations - Head feels as if bruised or as if it had been exposed to the sun. Head as if hollow, as if lying on something hard. Ears as if closed. Electric thrusts in upper part of throat. As if flames rising from stomach. As if stomach drew together in a lump and then suddenly opened. As if something alive in stomach.

Skin - Intense erythema. **Dermatitis with extensive blisters**, oozing of sticky serum and formation of crusts. Heavy, brown crusts and scabs. **Large blisters, as from scalds.** Fungoid growths. **Vesicles.** Erysipelas. **Pemphigus.**

Stomach - Swollen epigastrium. Continual choking sensation rising from stomach. Vomiting of food, followed by severe colic and profuse diarrhea. Vomiting of ingesta, followed by griping and copious stools. Repeated green vomit. Burning pains and black vomit. As of flame rising from stomach.

Temperature - Chills with icy cold hands and feet. Burning heat, with inclination to cover himself in bed. Flushes of heat. Fever with tingling in skin, with thirst.

Throat - Cutting pains, worse cold drinks. Diphtheria. Tonsils swollen. Choking sensation rises in the throat when speaking, preventing drinking though thirsty.

Vertigo - Vertigo, head feels light, empty, while walking about.

COMMENTS - Mane, was introduced into homeopathy by Bute, who proved it. It was also proved by Mure and Ackermann. Marked affects on the head, eyes, throat, abdomen and rectum. The symptoms induced included burning in all parts, vesication and ulceration of the skin and mucus membranes.

Symptoms worse from drinking cold water, especially cough. Better from heat when lying down, but headache is worse from the warmth of a stove and there is an inclination to uncover. Cough is worse at night.

Med. Cent, quoted the case of a woman who for several years was possessed with the fixed idea that she would become insane. She had become a wife and mother, but still the ideas possessed her. Happening to see in Puhlmann's Therapeutics that Mane, has "**fear of going crazy,**" she took Mane. 12c and was permanently cured.

RELATIONS - **Compare:** (1) Crot., Jatr., Canth., Anae.

REFERENCES - Boericke. Clarke. Phatak.

***MANDRAGORA OFFICINARUM

(Mandrake)

PHARMACY-mand.Mandragoraofficinarum. Mandrake. Atropa mandragora. Mandragora e radice. N. O. Solanaceae. Europe. Tincture of the whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergic dermatitis. Backache. Blepharitis. Blisters. Boils. Chorea. Colitis. Congestive headache. Conjunctivitis. **Constipation.** Coryza. Digestive, weakness. Epilepsy. Erysipelas. Exanthemata. **Eye, disorders.** Gallbladder infections. Gallstones. Gastritis. Gout. Herpes. Hiccoughs. Hypersensitive. Hypertension. Iritis. Itching. Keratitis. Leucorrhea. Liver, migraines. Lupus erythematosus. Motion sickness. Neuralgia. Night, sweats. Osteoporosis. Pancreatitis. Polyneuritis. Seasickness. Seborrhea. Shingles. Sterility. Styes. Ulcers. Uric, diathesis. Writer's cramp.

HERBAL - The mandrake does not derive its name from the shape of the human body which the root of the plant sometimes takes, but from the name by which it was known to the Greeks, Mandragora, and which signifies injurious to cattle. It was used by the ancient Egyptian physicians for many conditions.

The mandrake figures largely in legend and poetry. It is said to be the "insane root" spoken of by Macbeth and it is mentioned

by name in Antony and Cleopatra and in Romeo and Juliet. Mandrake must not be confounded with Podophyllum or Bryonia dioica, which are also sometimes called "Mandrake" in this country.

HOMEOPATHIC - Dufresne experimented with Mand. on himself and another by repeatedly smelling, at short intervals, the expressed juice of the plant, "*which has a nauseating odor like adder's flesh.*" W. B. Richardson also experimented with it.

There are two varieties of Mand., the vernal and the autumnal; Dufresne used the vernal. The symptoms were very similar to those of Belladonna, to which it is botanically closely related. Mand. is like a cooled or attenuated Bell.

Restless excitability and bodily weariness. Great desire for sleep. Striking tiredness, exhaustion, collapse. Depressive condition. Nervous, hypersensitive to noise and odors, ameliorated by urination. Exaggeration of sounds and enlarged vision.

Joint and muscular pains. The unpleasant symptoms go off at night in bed and are succeeded by a gentle perspiration. Lingering uneasiness and coldness after removal of other symptoms.

Congestive headache. Ocular complaints with mydriasis and dimming of the field of vision. Herpetic eruption on the face. **Constipation. Inactive bowels with white, hard stools.** Liver, gallbladder and stomach complaints. Gout. Uric diathesis.

MIND - Alternating between good moods, euphoria, and depression, discontented. Depressive psychosis. Restless excitability, hysterical. Very nervous and irritable, hypersensitive to noise, ameliorated by urination. Poor powers of concentration.

Abdomen - Repletion and heaviness in the upper abdomen with dyspnea and palpitations, ameliorated by moving and getting up, and by belching and expelling gas. Gastric, duodenal, pyloric ulcers. Diaphragmatic hernia.

Back - Backache. Severe pain in the right shoulder and left wrist, worse with movement. Pain in the scapula and right hand.

Blood - Arteriosclerosis. Hypoglycemia. High level of urea in the blood.

Chest - Angina pectoris. Constriction of the heart, as if the chest were clamped in a vice, ameliorated by heat in bed and by rest. Anginal pain, lasting for an hour with cold sweat on the forehead.

Constitutions - Allergic and psoric constitutions. Arthritic tendencies. Uric diathesis.

Ears - Exaggeration of sounds. Persistent buzzing. Early otosclerosis.

Eyes - Red inflamed, tired, heavy. Pupils dilated. Conjunctivitis. Blepharitis. Keratitis. Iritis. Retinal infections. Painful, irritated with photophobia. Enlarged and confused vision. Eye movements painful, worse when reading. Eye neuralgia with spots before the eyes, dazzled and troubled vision. Stinging, smarting pains in the eyelids, which are red, swollen and itching, worse on the left side. Styes.

Face - Sudden pallor of the face, feeling that the fingers are dead. Herpetic blisters, boils on the face. Face dirty, seborrhea of the face and nape of the neck, clothes become dirty.

Female - Menses either a few days too early or late. Blood thick, sticky, dark. Brown leucorrhea with lumbar ache and pains in the low abdomen, ameliorated in bed and by resting. Sterility. Post-menopausal osteoporosis.

Food - Feeling of hunger quickly disappears after eating a little. Desire for spicy, piquant dishes, meat, cheese and sweets. Desire for sweets, which are not tolerated. Aggravated by coffee and fats. Aversion to and intolerance of alcoholic drinks.

Head - Head feels numb. Heaviness and confusion of head. Sense of fullness in vessels of brain. Headache resulting from an empty stomach, ameliorated by eating. Morning headache following bad digestion, accompanied by bad mood. Pulsating headache, as if in a fog and the skull seems enlarged.

Heart - Heaviness on the heart with paresis in the left shoulder and arm. Cardiac pains aggravated in the morning, before a storm, by exertion or movement, ameliorated in bed, by resting and in the fresh air. Arterial hypertension.

Kidneys - Kidney stones. Extreme atony of the bladder despite urgent pressing feeling. Urination difficult, must force the last drops. Thick urinary stream. Urine copious, pale, milky from phosphate deposits, brown. Urine with a strong odor, accompanied by conjunctiva jaundice. Nightly bedwetting. Amelioration of anger after urination.

Limbs - Cramping pains in all the joints with feeling of heaviness and numbing. Sciatic pain, worse in the morning on rising and letting the leg hang loose, better with heat. Muscular pains in the hips, thighs, legs. Legs heavy, cold, walking is painful. Numbness, heaviness and coldness in the arms. Needle-like pain in the upper part of the right arm, spreading to the hand with feeling of numbness. Cramps in the hands, causing great

difficulty in writing.

Lungs - Slight cough with expectoration. Difficult breathing.

Male - Diminution of libido, aggravated after the proving. Sexual impotence. Prostatic adenoma.

Modalities - Better from discharges. Better menses, urine. Better after urination. Better from amelioration of anger. Better from heat. Better continuous movement, stretching backwards. Better resting in bed. Worse from the first movement. Worse dangling the legs, contact. Worse greasy food. Worse between 3 a.m. and 5 a.m. Worse changes in the weather, storms. Worse from the cold, except for head congestion which is better by the cold.

Mouth - Singular taste and sensation of acidity and dryness. Bad breath, which he notices himself. Lips, mouth, palate, dry and painful. Tonguedry, irritated, as if raw, as if scalded by hot water, benumbed. Tongue covered with a white coating. Aphthae on the tongue and inside of the cheeks. Ulceration of the gums and lips. Hemorrhaging of the gums. Inflammation of the roots of the teeth, painful to the touch.

Nose - Coryza. Irritation of the nasal mucus membranes with discharge and sneezing. Nasal crusts in the morning. Spasmodic rhinitis.

Rectum - Hemorrhaging recto-colitis. Spasmodic constipation. Bleeding hemorrhoids.

Skin - Skin itching. Allergic dermatitis. Erysipelas. Shingles. Lupus erythematosus. Burning pain on the skin, resulting from exanthemata and boils. Sticky sweating on the palms, forehead, and at the hairline. Nocturnal sweating with strong odor. Exhausting, cold sweating from the trunk, around midnight, followed by feeling of improvement.

Sleep - Desire for sleep. Insomnia between 3 a.m. and 5 a.m. Sleep disturbed by unpleasant or horrible dreams, by muscular pains. Despite good sleep, feels tired, as if he had taken a sleeping pill.

Stomach - Cramping pains in the stomach, ameliorated by eating, drinking and lying down. Stomach painful like a wound, sensitive to pressure and movement, stinging pain, better by bending double and by resting. Hiccough with salivation, eructation and nausea. Travel sickness. Vomiting during pregnancy.

Stool - Inaction of bowels with white, hard feces when bowels are induced to act.

Temperature - Shivering in afternoon. Coldness remains after other symptoms. Febrile flush and pain in the bladder. Sensation of fever, with shivering in the back and persistent, sub-febrile condition.

Throat - Hoarseness. Husky voice. Throat insensitive, as if anesthetized. Swallowing painful. Cryptic tonsillitis, purulent with sore throat. Intense dryness of the larynx with irritating cough. Glairy secretion from the larynx and throat. Chronic laryngitis.

Vertigo - Frontal congestive headache with vertigo, dizziness of the head and extreme tiredness.

COMMENTS - The effects of the provings were removed by free indulgence in wine, coffee, and cigars. With regular dieting, the symptoms lasted much longer and were removed by Nux-v., Camph. and Bell.

RELATIONS -Antidotes: Nux-v., Camph. and Bell. **Compare:** (1) Bell. - Hypersensitivity and hyper excitability of all the senses, pupils dilated and fixed, photophobia. Dryness of the pharynx, pulse full and bounding, menses too early, blood hot, abdomen distended. (2) Dios. - Violent abdominal colic, ameliorated by leaning backwards, genital excitability, pains in the back and the right sciatic region, dryness of the mouth and flatulence. (3) Sulph. - Irritation of skin and mucus membranes, hepatic and portal intoxication, plethora in arthritis, sclerosis, fat or thin types.

REFERENCES - Clarke. Julian.

***MANGANUM ACETICUM

(Manganese Acetate)

PHARMACY - mang. Manganum aceticum. Manganese acetate. Manganous acetate. Manganum carbonicum. Manganese carbonate. Triturations of the carbonate. Solutions of the acetate, according to Hahnemann. **Historical dose:** All potencies.

CLINICAL - Addison's disease. Albuminuria. Amenorrhea. Anemia. **Ankles, weak.** Arthritis. Asthenopia. Asthma. Bones, pain. Brain, concussion. **Cellulitis.** Coughs. Deafness. Dysmenorrhea. Ear, infection. Gallstones. **Growing, pains.** Gout. Headaches. Heel, pain. Hoarseness. Jaundice. Laryngitis. Lichen. Menopausal, flushings. Myopia. Nephritis. Palate, disorders. Paraplegia. **Parkinson's, disease.** Parotiditis. Periostitis. Pityriasis. Psoriasis. **Reflexes, exaggerated.** Rheumatism. Scabies. Tongue disorders. Tuberculosis. Wilson's disease. Yawning.

HOMEOPATHIC - Manganese was isolated in 1774 and was introduced into the Materia Medica by Hahnemann, who made provings of the acetate and carbonate. The symptoms of the two have not been kept separate.

Manganese is a metal having a remarkable affinity for and in some respects a close resemblance to iron, of which it is an extremely frequent associate. Its medicinal as well as its physical relationship with iron is very

close.

Symptoms of chronic manganese poisoning, according to Professor von Jaksch, were involuntary laughter, weeping and

walking backwards. **Exaggerated reflexes** and physical disturbances, evidenced by men making fun of each other's gait. Paraplegia progressive, wasting, feeble and staggering gait. Anemia with destruction of red blood corpuscles.

Affinity for the **inner ear**, larynx, trachea, periosteum of shinbone, joints, ankles and lower limbs. Pain extends to ear from other parts. Everything affects the ear. Yellowgreen lumpy or bloody discharges. Great accumulation of mucus. Asthmatic persons who **cannot lie on a feather pillow**.

Bones are very sensitive, Painful, deep soreness of the whole body, every part of the body feels sore when touched, ears, joints, skin. Weak joints. Chronic arthritis with infiltrated, glistening joints. **Growing pains**. Diagonal pains. **Wants to lie down in bed which improves all the troubles**.

Cellulitis, sub-acute stage, promotes suppuration and hastens regeneration. Suppuration of skin around joints. Necrosis and decay of bones. Malignant ulcers with blue border, following slight injury. Inflammation of bones or joints with nightly digging pains.

Progressive muscular atrophy. Motor paralysis, ascending paralysis. **Parkinson's disease**, paraplegia. Festinating, walks backwards.

Jaundice, nephritis with albuminuria. Fatty degeneration of liver. Gout. Typhoid fever, cases that are badly treated with prolonged convalescence.

Syphilitic and chlorotic patients with general anemia and paralytic symptoms. For speakers and singers. Valuable for boys and girls whose voices are changing.

MIND-Anxiety and fear. Anxiety as if something bad is going to happen, when moving in the room, better lying down. Fretful. Weak and nervous. Peevish. Irritability in morning, during music, while talking. Hatred of persons who had offended him.

Silent, reserved. Sad, weeping, silent. Depression, better sad music. Constant moaning or groaning. Confusion while sitting. Involuntary laughing and weeping, better open air. **Mental conditions are better when lying down**.

Abdomen - Pressing in stomach and abdomen while eating, worse cold food. Rumbling in abdomen, from cold food. Abdominal colic, better eating. As if intestines were loose and shaking when walking about. Pain and constriction at the navel. Cutting in umbilical region worse on taking deep breath. Flatulence.

Back - Tearing pain in whole spinal column, from above downward. Pain in small of back on bending backward. Stiffness of nape. Red, swollen streak on left side of neck.

Chest - Heat, beating in chest. Sharp pains in chest and sternum running up and down. Bruised pain in upper chest when stooping, better raising head.

Cough - Dry cough, incessant, from irritation about middle of sternum. Cough with aphonia. **Cough better lying down**, worse evening, damp weather, loud reading, laughing, walking, or deep inspiration. Inclination to cough in morning.

Ears - Everything affects the ears. **Pain extends to ear from other parts**. Swelling of the parotid glands in fevers. Sharp pains in the ears from talking, laughing, swallowing. Feel stopped, cracking on blowing nose. Whistling tinnitus. **Deafness in damp weather**. Blowing the nose helps deafness.

Eyes - Burning in eyes during day. Pupils much dilated or contracted. Field of vision contracted. Dim vision during day. Eyestrain, with aching and pressure. Agglutination of eyes in morning. Eyelids swollen and painful to touch.

Face - Pale, sickly. Stolidly mask-like. Ulcerated at corners of mouth. Twitching, jerking pain from lower jaw to temples worse laughing. Cramp pain in upper and lower jaw after eating. Swelling of parotid glands, in fevers.

Female - Amenorrhea. First menses delayed. Menses, early, scanty, pale in anemic patients. Discharge of blood between periods with pressing in genitals. **Flushes of heat at menopause**.

Food - Aversion to food from a feeling of satiety. Loss of appetite, in chlorosis. No thirst.

Head - Congestion to head, with throbbing, feels large and heavy, better open air. Frequent rush of blood to head, with thirst. Headache with stupefaction and confusion of senses while walking. Headaches worse, breathing, talking or laughing. Pains from above downwards, worse straining at stools, jarring, stepping. Sharp pains like needles, worse jarring or stepping. Cold feeling at a small spot on vertex.

Heart - Sudden shocks at heart and in left side of chest, from above downward. Palpitations of heart, strong, irregular, trembling. Pulse irregular, sometimes rapid, sometimes slow, but constantly weak and soft.

Kidneys - Darting in urethra on passing flatus. Cutting pain in middle of urethra between urination. Frequent desire to urinate during day. Urine profuse, sediment violet, earthy. Addison's disease.

Limbs - Muscular twitching. **Parkinson's disease**. Inflammation of bones and joints with nightly digging pains.

Bones very sensitive. **Every part of body feels sore when touched.** Shiny red swelling of joints. Periosteal inflammation. Burning spots about joints. Suppuration of skin around joints. **Knee pain** and itching. Intolerable pain in skin of lower limbs. Legs feel numb. Stiffness in muscles of legs. Cramps in calves. Rheumatism of feet. Ankles painful. Children are unable to walk because of ankles are weak. Peculiar slapping gait, -walks on metacarpo-phalangeal joint, walks backwards. **Tending to fall forward, walks stooping forward.** Cannot walk backwards without falling.

Liver - Chronic enlargement of liver. Jaundice.

Lungs - **Every cold becomes bronchitis** (Dulc.). Mucus difficult to loosen after long hawking. Difficult expectoration of lumps of tough mucus in evening. Scanty mucus. Lumpy, yellow, adhesive mucus. Greenish masses. Expectoration of yellowish greenish lumps, even with-

Manganum aceticum out coughing in morning. Bloody, reddish phlegm. Hemoptysis with stitching pains through right lung and dry cough. Asthmatic persons who **cannot lie on a feather pillow.**

Modalities - Better from open air, sad music, eating, swallowing, **lying down.** Better or worse by change of weather. Worse cold, wet weather, damp, touching with cold things, touch. Worse at night, speaking, laughing, motion, bending backwards. Lying on the feather bed aggravates asthma.

Mouth - Dry, parched lips, with shriveling of skin, without thirst. Clear vesicles on upper lip. Nodes on palate and tongue. Tongue sore and irritable with ulcers or warts. Flow of saliva, while speaking with colic, paralysis etc. Oily taste. Toothache, worse anything cold, worse sucking, pain going up in the ears.

Nose - Crampy pain at the root of the nose. Dry, obstructed. Obstruction of nose and fluent coryza alternately. Chronic catarrh with bleeding, worse in **cold damp weather.** Blowing is painful.

Rectum - Cramps in the anus while sitting, better lying down. Pain in rectum after dinner. Bowels are irregular, with constipation or diarrhea. Constipation with difficult, dry, knotty evacuations. Stool yellow, granular, with tenesmus and constriction of anus. Passes much flatus with stools.

Sensations - Head as if larger. Ears as if stopped. Throat as if excoriated. Trachea as if closed with a film. As if pit of stomach enlarged. As if bowels drawn together. As if tendons shortened.

Skin - Red, elevated spots. **Itching,** better scratching. Itching of diabetes. **Chronic eczema** with amenorrhea, worse during menses or menopause. Psoriasis and pityriasis. Dry hard ulcers. Burning around ulcers. Suppuration of skin around joints. Rough, cracked (flexures), bluish. Deep cracks in bends of elbows, knees.

Sleep - Languor and sleepiness. Much yawning. Sleepy very early in evening. Many vivid dreams which are well remembered.

Temperature - Shaking chills in evening, with shooting pains in head, without thirst. Chills with icy cold hands and feet. Sudden flushes of heat in face in chest and over the back. Burning over whole body, in evening when rising from bed.

Throat - **Chronic sore throat,** with cutting pain, as from excoriation, when not swallowing. Throat as if excoriated. Throat dry, scratching. Laryngitis. Larynx dry, rough, constricted. Tuberculosis of the larynx. Sharp pain in larynx when swallowing. Chronic disease of larynx, with Eustachian deafness. **Chronic hoarseness.** Hemming and hawking all the time and annoying everybody. Low, monotonous voice. Rough voice better smoking.

Vertigo - Vertigo when sitting or standing, nearly falling forward.

COMMENTS - F. H. Pritchard, in an article on Mang., cited the action of the metal, noting that the mucus membranes are congested and secretions are increased or decreased. A powerful cholagogue, it induces inflammation and fatty degeneration of the liver.

Destroys red corpuscles and causes anemia. Sensitive bones and periosteum, with periostitis. Paralysis and progressive muscular atrophy of the cerebrospinal system. Fissures, excoriation, and suppuration of the skin. Lippe noted the indication "Suppuration of skin round joints." Pritchard quoted observations of Grille that workmen in manganese mines do not get itch and those who come to the work with itch get cured of it. The manganese waters of Cransac cause "Ill-humor, weeping, despondency, sudden palpitation."

Guernsey noted that "The bones are very sensitive, red spots on the skin, which are elevated, owing to bone disorders. Ankles are particularly affected, children may have this trouble and be unable to walk. -

"Typhus fever when the parotid gland is swollen and the bones are very sensitive to touch, disorders of the internal ear, upper part of chest. Hoarse voice, drawing sensation of the muscles."

Laryngeal tuberculosis, tuberculosis. Cough better by lying down. Deep cough, worse in damp weather. Single nodes on the palate. Chlorosis, if gastric symptoms and loss of appetite predominate.

Skin will not heal, slight scratches ulcerate. Anemia. Menses too frequent and too scanty in anemic girls. Boring, pressing headaches, proceed from above downwards. Headache like a concussion at every step or movement.

Inflammation of bones and joints with insupportable nightly digging pains. Every part of the body feels

extremely sore when touched. Rheumatic patients cannot bear any weight on their heels. Rheumatic symptoms with dark, almost blue spots on skin.

Paralysis with inclination to run forward if he tried to walk. Paralysis which begins below, extending upward. Paraplegia. Paralysis from degeneration of anterior portion of cord.

Clarke has frequently verified the "cough better from lying down," and also this sensitiveness of the bones. Where these occur in connection with any other condition indicating Mang, it is sure to do good.

Clarke cured in an elderly woman a flat growth on the center of her palate with Mang. 30c. Bluish nodes on the skin, malignant ulcers with blue borders following slight injury.

Hansen cured with Mang. 6c a case of neuralgia of the tongue following the healing of a little ulcer on surface near left border after an application with lunar caustic. Shortly after the healing, the patient (a man, 60) had severe stinging burning at the left edge of his tongue and the inner side of his left cheek when touching the tongue.

In this state he came to Hansen after allopathic treatment. Several medicines were given without result, then Mang, was chosen and made a rapid and permanent cure.

A. W. Palmer reported a case of catarrhal deafness cured with Mang. 6c. Miss H., 38, had dull hearing, dry throat with hoarseness, itching in ears, loud rumbling, worse night, right ear, crackling on blowing nose, and deafness in damp weather. The last was the guiding symptom.

Cooper gave several ear-cases in which Mang, proved curative. The first concerned a nodule appearance of malleus handle, thickened irregularly, with history of bilious headaches and of previous discharges from the ears.

The ear drum membrane had a granular appearance. Purple glazed appearance of the malleus handles, which were thickened and very prominent, upper segment of membrane also purple and glazed.

The second concerned a case of chronic periostitis of the meatus and middle ear with otorrhea, left ear. Cooper also noted a case of otorrhea with earache, pain shot up from teeth to ear, the earache was worse after early dinner, up until 8 or 9 p.m. Pains extended to and concentrated in the ears from other parts.

The fourth case concerned sensitive ears, took cold and got a headache, history of gallstones and jaundice, sleepy and headache in afternoon, bitter taste in morning, lips glued together, whistling tinnitus worse in a cold, (explosions, Mag-carb., rasping, shrill tinnitus as well as cardiac tinnitus, pumping, Kali-i.).

The final case Cooper recorded was deafness in a woman, 36, which dated from when she was 14 from over-strain in singing, when she lost her voice and hearing for six months. Her left hearing returned, right remained deaf, worse after a cold or if over-excited or worried. Subject all life to bilious attacks which lasted twenty-four hours and left suddenly.

Head throbbed, couldn't put it down on a pillow. Headache came on in morning on awaking and reached a height at 3 or 4 p.m. and kept on until next morning. Bilious headaches went away and the hearing of right ear improved under Mang. 200c.

RELATIONS - Antidotes: Coff., Merc. **Compare:** (1) Mang-coll. - Boils and other staphylococcal infections. (2) Mang-m. - painful ankles, bone-pains. (3) Mang-s. - liver disorders, excess of bile, a powerful intestinal stimulant. (4) Arg-n., Rhus-t., Sulph.

***MANGANUM MURIATICUM

(Manganese Chloride)

PHARMACY - mang-m. Manganum muriaticum. Manganese chloride. Solution in water. **Historical dose:** All potencies.

CLINICAL - Ankles, painful. Ankles, weak. Belchings. Bone pains. Borborygmus. Constipation. Rheumatism.

HOMEOPATHIC - Mang-m. was proved by Lembke. The few symptoms obtained were manifested chiefly in the cranial bones, stomach, left shoulder, right knee and ankles. Violent pain in front part of left shoulder joint, worse by pressure and by any motion of arm. Violent drawing pain in inner side of the right knee.

Abdomen - Frequent rumbling.

Face - Pressive pain in right jaw joint.

Head - Boring in right cranial bones, tearing in right occipital bone.

Limbs - Pain in articulation of left thumb. Drawing pain with weary feeling in right thigh while sitting. Pressure in right knee extending into leg, a bruised sensation remains in ankles, afterwards same pain in left ankle. Pressure and drawing in ankle and ankle bones. Pressure in left foot.

Modalities - Stomach pains were worse by external pressure.

Rectum - Stool harder and scantier.

Stomach - Sour belchings of air. Pressure in stomach, worse by external pressure.

Vertigo - Vertigo and reeling when walking in open air, worse looking down, on descending or stooping.

REFERENCES Clarke.

*****MANGANUM OXYDATUM NATIVUM** (Manganese Oxydatum) **PHARMACY** - mang-o. Manganum oxydatum nativum. Manganese oxydatum. Pyrolusite. Native Black Oxide of Manganese. **Historical dose:** All potencies.

CLINICAL - Bulbar paralysis. Nervous disorders. Paralysis agitans. Parkinson's disease.

HOMEOPATHIC - Workers in Manganese binoxide are frequently affected with bulbar paralysis.

Mang-o. has some symptoms similar to Parkinson's disease, progressive lenticular degenerations and pseudo-sclerosis. Peculiar slapping gait. Muscular twitching, cramps in calves, stiff leg muscles.

Pain in tibia. Dysmenorrhea. Colic and diarrhea. Easily fatigued and heated, sleepy. Stolid, mask-like face. Low monotonous voice, **"economical speech."** Occasional uncontrollable laughter.

REFERENCES - Boericke.

*****MANGANUM SULPHURICUM**

(Manganese Sulphate)

PHARMACY - mang-s. Manganum sulphuricum. Manganese sulphate. Solution. **Historical dose:** All potencies.

CLINICAL - Bile, excess. Gastritis. Liver, disorders. Toothaches.

HOMEOPATHIC - Cooper said, "This Salt of Manganese deserves more attention than seems to be at present given to it. It has been proved to cause vomiting, paralysis without convulsions and inflammation of the stomach and small intestines. As well as of the liver, spleen and heart."

C. G. Gmelin, who experimented with it, recorded its property of causing such an extraordinary secretion of bile that nearly all the intestines were colored yellow by it and the large intestines had a wax-yellow color communicated to them.

According to Rutherford, Mang-s. is a powerful intestinal, but a feeble hepatic stimulant. Toothache in a bad tooth, on right side, upperjaw. Shooting, darting extending up the whole side of face and head. Painful parts tender to touch.

Ure found Mang-s. to act on man as a purgative and cholagogue in doses of one to two drachms in half a pint of water. It has, however, caused vomiting and sweating as well as purgation and is uncertain in its action from an allopathic point of view.

Mang-s. lx cured in one case of hepatic derangement where the stools were composed of large quantities of bile.

REFERENCES - Clarke.

*****MANGIFERA INDICA**

(Mango Tree)

PHARMACY - mangi. Mangifera indica. Mango tree. N. O. Anacardiaceae. India. **Historical dose:** Tincture and all potencies.

CLINICAL - Chilly. Colds. Coryza. Dyspnea. Hay fever. **Hemorrhages.** Itching. Nausea. Pains. Pharyngitis. Rhinitis. Sneezing. Varicose veins. Vomiting.

HOMEOPATHIC - One of the best general remedies for **passive hemorrhages**, uterine, kidney, gastric, pulmonary and intestinal. Mangi. has atonic conditions, poor circulation and relaxed muscles. Rhinitis, sneezing, pharyngitis, and other acute throat troubles, suffocative sensation as if throat would close.

Hemorrhages of all kinds. Varicose veins. Drowsiness. Relaxation of mucus membrane of digestive tract. Chronic intestinal irritation. Catarrhal and serous discharges. Aching of left side of body. Chilly. Sticky mucus discharges. Tendency to suppurations.

Pains in spots. Pains shifting suddenly, or coming and going suddenly. Hay fever with whitish, sticky and stringy discharge. Dyspnea, starting with coryza. Skin as if sunburnt, swollen.

MIND - Ailments from anger. Easily offended. Feels like striking the person irritating her. Involuntary, sighing. Weeps easily. Melancholy. Feels bored. Worse being alone. Wants to remain busy.

Abdomen - **Heaviness of abdomen after eating.**

Blood - Hemorrhage, venous blood with dark clots.

Face - Swelling of lips.

Female - Metrorrhagia, dark blood, painless, profuse.

Food - Better cold drinks. **Desires mango.**

Desires sour. Desire for sweets. Worse sour, spicy foods.

Limbs - Itching of palms of hands.

Modalities - Better vomiting. Better open air. Better sitting bent forward or erect. Better cold drinks. Better continued motion. Worse sour food. Worse morning. Worse beginning of motion. Worse exertion, climbing. Worse 1 a.m. to 2 a.m.

Worse change of weather. Worse air-conditioned room. Worse closed room. Worse stooping. Worse bending forward.

Nose - Colds. Rhinitis with sneezing.

Skin - Skin as if sunburned and swollen.

White spots intense itching. Itching of palms. Lobes of ears and lips swollen.

Stomach - **Hyperacidity**. Worse eructations.

Better drinking cold water. Burning behind sternum at 2 a.m. to 3 a.m. Nausea and vomiting in morning.

Throat - Pharyngitis and other acute throat troubles. Suffocative sensation as if throat would close.

RELATIONS - **Compare**: (1) Erig., Epil.

***MANTIS RELIGIOSA

(European Praying Mantis) ;

PHARMACY - mant-r. Mantis religiosa. European praying mantis. N. O. Mantidae. Tincmres. **Historical dose**: All potencies.

CLINICAL - Backache. Belching. Coryza. Flatulence. **Headaches**. Heartburn. Herpes. Lumbago. Toothaches. **Weariness**.

HOMEOPATHIC-Activity increased. Weariness with sleepiness. Lack of vital heat or heat sensation.

MIND - Hurry, haste. Anxiety alternating with cheerfulness. Anxiety about future. **Fear bad something will happen. Fear with heart complaints**. Delusions, that he is pursued. **Ailments from domination by others**.

Contented. Cheerfulness, gaiety, happiness. Elated. Euphoria. Egotistic. Cheerfulness alternating with sadness. Mood changeable, variable. Morose, sulky, cross, fretful, ill-humor, peevish. Indifference, apathy. Unfeeling, hard-hearted. Sadness, despondency, depression, melancholy.

Concentration difficult while studying, reading, talking, when thinking. Memory weakness. Forgetful for what he was about to do. Loss of memory. Makes mistakes in localities, talking, writing. Stupefaction, as if intoxicated.

Abdomen - Bloating. Flatulence.

Back - Backache in dorsal, lumbar region.

Lumbago. Stiffness, tension.

Breast - Itching in breast, nipples. Breast, nipple pain, stitching.

Dreams - Dreams lewd, lascivious, voluptuous, perverse. Dreams of anger, brutality, violence, mutilation, rape, war, escape. Dreams about children.

Ears - Noises in ears.

Eyes - Pain as from a foreign body. Burning, smarting, biting, pressing pain. Agglutinated inner canthi. Itching in inner canthi.

Face - Dryness, especially of the lips. Eruptions, pustules.

Female - Menses too late. Herpetic eruptions. Sexual desire diminished or increased.

Food - Desires juicy things. Aversion to alcoholic drinks, worse from coffee.

Head - Headache in the forehead. Headache, worse from changes of weather, **draft of air**. Headache during fever. Pain in spots. Dull, pressing, stitching pain.

Heart - Palpitations. Stitching pain in heart.

Limbs - **Weariness with heaviness of limbs**. Numbness, insensibility. Trembling. Weakness in the lower limbs, especially in the right knee.

Modalities - Better open air. **Worse draft of air**, or change of weather. Weariness better from lying.

Mouth - Dryness with thirstlessness, especially tongue. Sore, bruised gums on touch. Bleeding gums when brushing teeth. Scorbutic gums.

Neck - Pain in neck region. Stiffness, tension.

Nose - Coryza with fluent discharge. Watery discharge. Sneezing.

Rectum - Constipation.

Sleep - Falling asleep difficult or late. Bad sleep. Deep sleep. Position on right side, impossible to sleep on left side.

Skin - Itching.

Stomach - Heartburn. Acrid, sour belching. Pressing pain.

Teeth - Toothaches, pressing pain.

Throat - Rawness, roughness, scratching in throat. Sore, bruised pain. Throat pain during fever.

REFERENCES Gluck.

***MARRUBIUM ALBUM

(White Horehound)

PHARMACY - man. Marrubium album. White horehound. Marrubium vulgare. N. O. Labiatae. Tincture of the whole plant **Historical dose:** Infusions, tincture and all potencies.

CLINICAL - After, birth. Bites, snake. Bronchitis. Colds. Coughs. **Dyspepsia.** Fevers. Indigestion. Irregular, heartbeats. Itching. Liver, disorders. Lung, disorders. Malaria. Poisons. Rabies. Tetters. Throat, sore.

HERBAL - A valuable herbal remedy in coughs, colds and lung infections. Sold as "Horehound ale," a pleasant tasting beverage. An infusion of one ounce to one pint of boiling water, taken in hot wineglass doses as needed induces sweating. Horehound candies and cough drops are popular.

Marrubium is **a bitter digestive tonic, expectorant and diuretic herb.** It has a bitter, aromatic taste and odor. Culpepper used it to repel the afterbirth, as an antidote to poisons, snakebites and to help indurated livers. It calms the nervous heart. Irregular heartbeats. Reduces fevers. Malaria.

RELATIONS - Compare: (1) Black Horehound - Stimulant, anti-spasmodic and vermifuge. Dioscorides said, "The leaves beaten with salt and applied the wound, cure the bite of mad dogs."

REFERENCES Potter.

***MATTHIOLA GRAECA

(Stock Gilliflower)

PHARMACY - matth. Matthiola graeca. Stock gilliflower. N. O. Crucifère. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscesses. Cancer. Neuralgia.

HOMEOPATHIC - Cooper studied Matth., and considered a leading indication for it "**concentrated juices,**" which should be compared with the action of its relative cru- cifere, *Thlaspi.*, which has cured obstruction of bile duct from inspissated bile.

He cured with it abscesses in neck glands that had been discharging for twenty-five years, abscesses in hollow viscera, and one case of stomach cancer. Neuralgia of the left arm with numbness and paralysis.

COMMENTS - Cooper related a case which seems to indicate that morphine causes neuralgia and that Matth. antidotes morphine.

A man had neuralgia of his right arm from working in a damp house. Morphine was given. Then neuralgia of the left arm came on with numbness and paralysis. Lob. gave some relief. One dose of Matth. tincture completely cured. When the man came under Cooper's care, he was spending ten shillings a week on morphine.

RELATIONS - Compare: (1) Cheir., Thlaspi. and crucifère generally.

REFERENCES - Clarke. Cooper.

***MDMA

(Ecstasy)

PHARMACY - ecst. MDMA. Ecstasy (3,4 methylenedioxymethamphetamine). A synthetic psychoactive drug similar to methamphetamine and mescaline. **Historical dose:** All potencies.

CLINICAL - Anorexia. Chills. Chronic fatigue. Attention Deficit **Dehydration.** Disorder. Drug, abuse. **Empathy.** Exhaustion. **Fever.** Headache. Insomnia. Paranoid, states. Malaise. Manic depression. Migraine. Narcolepsy. Nausea. Nystagmus. **Restlessness.** Tachycardia.

HOMEOPATHIC - MDMA produces **intense activity**, physically, mentally, psychically. Restlessness, trembling. Exhaustion. Chronic fatigue. Chronic, influenza-like symptoms. Malaise. Analgesia.

Extreme sensitivity of the whole nervous system. Overstimulated mental states. All senses are enhanced, especially those of touch and sound. Heightened sense of balance and physical agility. **Oversensitivity to environmental influences.**

Tranquility. Reduces physical and emotional stress. Release of "body armor." It has been used clinically, with much success, with patients undergoing periods of great psychic change.

MDMA

MIND - Calmness. Pronounced feeling of personal well-being, at peace with the world. **Acceptance.** Deep

sense of forgiveness and unconditional love. **Feelings of bliss**, ecstasy, euphoria, fearlessness. **Empathy**. Emotional warmth. Ease of communication. Desire to touch and be touched. Introversion or extroversion. Easy release of psychological trauma and deeply buried emotions.

Mood swings. Clarity of mind. Excessive loquacity. Inappropriate bonding. Racing thoughts. Difficulty in holding concentration. Nervous irritability. **Restlessness**. Low-grade anxiety without obvious cause. Paranoia. Fear of insanity, of losing control. Sudden depression. Chronic depression. Lethargy.

Abdomen - Bloating of abdomen.

Causation - Overstimulation. Over-work.

Sexual abuse. Abuse of drugs, especially stimulants.

Chest - Warm full, sensation. Swelling.

Ears - Enhanced hearing. Sensitive to slightest sounds.

Eyes-Dilated pupils. Nystagmus. Increased clarity of vision. Colors look brighter, intense and painfully pleasurable.

Face - Flushed face. Tension in jaws.

Female - Dryness of vagina. Lack of clitoral response.

Food - Loss of appetite. Anorexia. **Extreme thirstlessness**. Intense thirst with dry mouth. Desire for cold, refreshing drinks, fruit juices.

Head - Headaches, pounding, explosive, occipital. Migraine.

Heart - Raised blood pressure. Tachycardia, fast, pounding heartbeats.

Limbs - Relaxation of muscular tension. Muscle cramping. Seizures. Tremors in upper and lower limbs, hands. Convulsive movements.

Male - Impotence with increased sensitivity. Orgasm impossible.

Modalities - Better fresh air, warmth, dancing. Better touch, stroking, massage. Worse alcohol. Worse sitting, standing still, overstimulation, suppression of emotions.

Mouth - Dryness of mouth. Continual desire to swallow. Intensely bitter taste. Enhanced sense of taste.

Perspiration - Copious, easy sweat.

Skin - **Sensitivity to touch**. Warm sensuality-

Sleep - Tired and drowsy but unable to sleep. Sleepless from excessive thoughts. Narcolepsy. Restless dreams, constantly changing.

Stomach - Nausea and cramping. Noisy eructations.

Teeth - Clenched jaws. Teeth grinding.

Temperature - Sudden chill, cannot get warm. Flu-like chills, alternating with flushes of heat. High fever.

Throat - Dry throat. Raw, scratching sensation. Constriction. Hoarseness, needs to keep clearing throat.

Vertigo - Dizziness on motion, with nausea.

COMMENTS - Ecstasy produces intensely pleasurable effects, including an enhanced sense of self-confidence and energy. Loss of inhibitions. Transfixion on sights and sounds. Feelings of closeness with others and a desire to touch others. Sense of peacefulness, acceptance and empathy.

Involuntary teeth clenching. Nausea, blurred vision, chills and sweating. Dehydration. Increases in heart rate and blood pressure. Seizures. Muscular breakdown. Kidney, liver and cardiovascular failure.

Sleep problems. Anxiety, depression. Memory loss or weakness. Disruption of serotonin levels, affecting mood, sense of pain, appetite, learning and memory.

RELATIONS - **Compare**: Agar., Anh. Hydrog., Nux-m., Salv-d., Sulph-ac., Tar-ent-h.

REFERENCES - Hammond. Murphy.

***MEDORRHINUM

(Gonorrhea Nosode)

PHARMACY - med. Medorrhinum. Gonorrhea nosode. Glinicum. Potencies of the bacteria. **Historical dose**: All potencies.

CLINICAL - **Abscess**. **Alcoholism**. Allergies. **Arthritis**. **Asthma**. Backache. **Bedwetting**. Bi-polar. **Boils**. **Catarrh**. Cellulitis. Clonic, **spasms**. **Collapse**. **Condylomatas**. Conjunctivitis. Coms. Coryza. **Cystitis**. Debility. Diabetes. Drug, abuse. Dysmenorrhea. Dyspnea. Epilepsy. Eyes, inflammation. Favus. Fibroids. Gleet. **Gonorrhea**. **Gonorrhea, suppressed**. Gonorrheal, rheumatism. Headaches. **Impotence**. Incontinence. **Infertility**. **Insomnia**. **Itching**. Joint, pain. Kidney, pain. **Leucorrhea**. Liver, abscess. Lumbago. **Manic depression**. Masturbation. Menstrual, colic. Metrorrhagia. **Mucus, discharges**. Nasal, congestion. Nephritis. Neuralgic pains. Ovaries, pains. Pains. Pelvic, problems. Polyps. Polyuria. Priapism. Psoriasis, palmaris. Ptosis. Rape, victims. **Rheumatism**. Sexual, abuse. **Sexual, excesses**. Schizophrenia. Sciatica. Shoulder, pains. **Sinusitis**. Stage-fright. Sterility. Stricture. **Sycosis**. Tenesmus. **Trembling**. Tuberculosis.

Urethritis. Vaginitis. Venereal, diseases. Urethritis. Urticaria. Warts.

HOMEOPATHIC - Medorrhinum, one of the most important of the nosodes, is prepared from gonorrheal discharge. The nosodes may be used according to their indication in exactly the same way as other homeopathic remedies and also for manifestations of the disease from which they are derived. At the same time, a knowledge of the origin of obscure disorders, especially if hereditary, will often give the clue to the remedy required.

Medorrhinum is a powerful, deep acting medicine indicated for **chronic ailments due to suppressed gonorrhea. History of gonorrhea**, often restores a gonorrheal discharge. Poor reaction to remedies due to gonorrhea history.

It affects the mind, nerves, and mucus membranes. Great disturbance and irritability of nervous system. Intolerable pains, tensive, nerves quiver and tingle. Intensity of all the sensations. **State of collapse and trembling all over.** Wants to be fanned all the time.

Arthritic, rheumatic pains. **Chronic rheumatism.** Diseases of the spinal cord, even organic lesions ending in paralysis. Loss of power in the joints, joints feel loose. Many different kinds of pain, stiffness, aching, soreness, edema of limbs, dropsy of serous sacs.

Disseminated sclerosis. Numbness, internal formication. Burning. Small, very sore aphthae, blisters. Enlargement of the lymphatic glands all over the body with heat and soreness. Tumors, cancer, scirrhus etc. with history of syphilis.

Profuse acrid discharges, causing itching. Fishy odors of the secretions. Nose dirty, tonsils enlarged, thick yellow mucus from nostrils, lips thickened from mouth breathing. **Chronic catarrhal conditions in children.** Chronic pelvic disorders of women. Offensive, sour odor of the body especially children and women, cannot wash. Dwarfed and stunted children.

MIND - Sensitive, nervous, restless. Everything startles her. **Hurried, anxious** and irritable. **Wild feeling in head.** Lack of self-control. Exhilaration at night. Cross through the day, merry at night.

Apprehensive, anticipates events. Anxiety if a time is set. Frighten, easily. **Panic attacks.** Stage-fright. Fears going insane (Calc., Mane.). **Fear in the dark and of someone behind her**, of being alone at night. Claustrophobia. Fear of animals. Fear of venereal diseases, cancer, misfortune, poverty.

Persistent ideas. Dwells on the past. Desperate. Sad, tearful and fearful. Melancholy with suicidal thoughts. Sad, dismal outlook, better after weeping. Cannot speak without weeping, tells it over and over again. **Cries when telling her story.** Great difficulty in stating her symptoms. **Despair, hopeless of recovery.** Suicidal thoughts, tendency.

Difficult concentration. **Weakness of memory.** Loses the thread of conversation. Forgets names, word, errands. Makes mistakes, reading, writings. Confusion of mind as to his identity.

Dread of saying wrong thing. Poor self confidence. **Shuns responsibilities.** Aversion to being touched. Stupor, as if intoxicated. **Mentally retarded, children.**

Alternating or erratic states. Severe mood changes. Happiness alternating with gloominess. Contrasting extremes in one person. **Manic depression.** Schizophrenia, paranoid. Abusive to others. **Impulsive**, abrupt, rude, mean, cruel. Irritability, impatience over trifles. Censorious, critical. Jealousy.

Morbid impulses. **Alcoholism and drug abuse.** Fastidious. **Bites nails.** Cursing, swearing. Dictatorial, domineering, dogmatic, despotic. Cruelty, brutality, inhumanity to animals. Sexual excesses. Wild, strong, **high sex drive.** Sexual perversions, **fantasies and masturbation.** Ailments from sexual abuse, rape.

Sensibility exalted. Sensitive to nature, animals, beauty, flowers. **Feels life unreal, everything seems unreal like a dream.** Things seem strange. **Time passes too slowly** (Cann-i., Arg-n.). Feels far off, as if things done today occurred a week ago. Sees faces peer at her from behind bed and furniture. Clairvoyance. Feeling of having committed the unpardonable sin and will be going to hell. Continually praying. Sensation of impending death.

Abdomen - Heaviness in lower abdomen.

Rests more comfortably lying on abdomen. Grasping pain in liver and spleen. Burning in epigastrium. **Agonizing pain in solar plexus**, applies his hands to stomach and to lumbar region. Left inguinal glands sensitive and slightly swollen. Grinding colic better bracing feet, lying on abdomen. Bilious colic with frequent vomiting and nausea. Flatulence with numbness.

Back - Spine sore and tender. Backache with burning heat in spine. Intense burning heat, commencing in neck and extending gradually down spine. Chills up and down back. Cutting, burning, crawling above left scapula. Drawing pain in cords of neck, causes desire to throw head back. Spasms of neck muscles, notably sterno-mastoid. Pain from left to right shoulder. **Lumbar vertebrae sensitive to touch.** Tenderness of spinal column when stretching. Pain in sacrum and coccyx. Lumbago from lifting.

Bladder - Cystitis with burning pains. **Urethritis**. Polyuria. Can't retain urine more than an hour. **Nocturnal bedwetting**. Incontinence of urine on getting cold. Painful tenesmus when urinating. Urine flows very slowly. Debility after prolonged or complete urination.

Breasts - Breasts sore and swollen between periods. Breast sensitive, cold, icy, the rest of the body warm. **Breasts and nipples sore and sensitive to touch**. Sore, oozing or icy nipples during menses. Soreness of nipples, a gummy secretion drying on orifice, when picked off, nipple bleeds freely.

Causations - **Ailments from suppressed gonorrhea**. Ailments from verbal, sexual abuse. Ailments from anticipation, foreboding, bad news, rudeness of others.

Chest - Chest as if painfully contracted, when coughing. Sharp, along right edge of sternum. Pain and soreness through chest and breasts. Chest sore to touch. As if a cavity in chest. Coldness in chest. Pain, heat and soreness through chest.

Constitutions - Sycotic, rheumatoid and hydrogenoid constitution.

Coughs - Dry, hacking cough with weak, sinking sensation under sternum. Incessant, dry cough at night. Deep and hollow cough. **Cough, better, lying on stomach**, worse from sweet things. Cough on entering warm room. Cough and retching, at night.

Ears - Opening of ear is sore and tight. Quick darting pains, in right ear. Pain passes up Eustachian tube. Aching in cartilage of ear. Aching or boring pain in left ear. Itching in left ear. Partial deafness, pulsation in ears. Hears voices. Frying and hissing noises in ears, mastoid.

Eyes - Eyeballs ache. Feels as if sticks in **eyes**. **Neuralgic pain in eyeballs**. Objects look double or small. Sees imaginary objects. **Feels as if she stared at everything**. Swelling under eyes. Lids irritated. Ptosis of lids. Upper lid hard as if it had cartilage. **Swelling of upper lids**. Eyelashes fall out.

Face - Freckles. Pallor. Grayish, greasy, greenish, yellow at the edges of hair. Flushes of heat in face and neck. Sweat on face. Blotches of red color. Acne, worse after menses. **Small boils** break out during menses. **Red spiderlets on face**. Risus sardonius. Rigidity of muscles of face. Lips thickened from mouth breathing. Stiffness in jaws and tongue. Swelling of submaxillary glands. Warts.

Female - Dysmenorrhea. Intense menstrual colic, better pressing feet against support. Menstrual colic with drawing up of knees. **Menses offensive**, profuse, dark, clotted. Menses stains difficult to wash out. Metrorrhagia. **Vaginitis**. Leucorrhea thick, acrid, excoriating, fishy odor. Intense itching, vagina better rubbing and by bathing with tepid water. **Urethritis**. Neuralgic pains. **Sensitive spot near os uterus**. Os uterus, ulcerated. Ovarian pain, worse left side. Pain from ovary to ovary. Drawing in ovaries, better pressure. **Infertility**, sterility. **Sycotic infertility**. Sycotic warts on genitals. **Gonorrhea, suppressed**. Passionate, wild, strong sex drive. Sexual **perversions, fantasies and masturbation**. Sexual excesses. Ailments from sexual abuse, rape.

Food - Ravenous hunger soon after eating. **Craving for ice**, salt, sweets, sour things, refreshing things, **green fruits, oranges**. **Desires fat, fish**, tobacco, ale. Craving for liquors, which she used to dislike. **Excessive thirst**, dreams of drinking water. Water tastes like perfume. Nausea after drinking water. Cough, worse sweet things.

Head - Head is heavy and drawn backward. **Sensation as if tight band across forehead, worse bending head forward**. Burning pain in brain, worse occiput. Weight and pressure in vertex. **Tensive pains in head as if she would go crazy**, can't read or use mind. Sharp pains, comes and goes suddenly, worse light and coughing. Severe pain in back of head. Dull, aching pains. Aching, in base of brain with swelling of cords of neck. Burning in brain. **Intense burning in cerebellum**. Headache over eyes and in temples, on waking, worse sunlight. Headache from jarring, exhaustion or hard work. Headache during menses. Hair dry, crispy. Itching of scalp, dandruff.

Heart - Sensation of cavity where heart ought to be. Oppression of heart with difficult breathing. Heart as if hot and large. Heart with bursting sensation. Soreness in heart. Fluttering about heart. Heart beats very fast. Palpitations after slight exertion.

Kidneys - Nephritis. Deathly feeling in kidneys. Creeping chills in region of right kidney. **Kidney colic** (Berb., Oci., Pareir.). When stooping can't rise again without **violent pain in region of kidneys**. Pain in kidney region, better by profuse urination, with craving for ice. Bubbling in kidney region. Urine flows very slowly. Urine watery, colorless, intensely yellow, covered with a thick greasy pellicle. Scalding, ammoniacal urine. Urine stains clothes a dirty brown. Urinates frequently at time of menses. Passes an enormous quantity of high colored, strong smelling urine in bed every night.

Limbs - **Stiffness** throughout body and limbs. Gouty concretions. **Rheumatism**. Edema of the limbs. Coldness of legs, hands, and forearms. Legs heavy, ache all night. **Legs, cannot keep them still** (Zinc.). Cramps in legs better stretching them. Ankles easily turn when walking. **Heels and balls of feet tender** (Thuj.), and itching, cannot walk on them, had to walk on knees. Edema of feet followed and better by diarrhea. **Soreness**

of soles. Burning of hands and feet wants them uncovered and fanned. Restless, better clutching hands. Finger joints enlarged, puffy. Fingertips cracked and burn. Bites nails. Nails depressed, as if they were bent.

Liver - Hepatitis. Abscess of liver. Violent, grasping pain in liver and spleen.

Lungs - Desire to breathe **deep. Air hunger, cannot exhale.** Dyspnea, cannot exhale (Samb.). Wakes gasping for breath. Much oppression of breathing. **Asthma, only better lying on abdomen and protruding tongue.** Asthma, sycotic infantile. Rattling, wheezing or whistling on coughing when lying on back or either side. Lungs feel stuffed up with cotton. Heat in lungs. Left lung very painful, feels drawn towards right side. Aching in left lung under scapula. As if left lung were collapsed and paralyzed, after talking. Darting pain through lung, causes startling. Painful shock at base of each lung on coughing. **Bronchial catarrh.** Ropy mucus, difficult to raise. Incipient tuberculosis.

Male - Urethritis. Whole urethra feels sore. Heaviness of prostate, painful. Prostate enlarged with frequent and painful urination. **Gonorrhea infection.** Gonorrheal flow thin, transparent, mixed with opaque, whitish mucus, stains linen yellow. **Gonorrhea, suppressed.** Gleet, persistent, yellow discharge. Heaviness in perineum. Sharp, cutting pains transversely across root of penis. **High sex drive.** Intense and frequent erections day and night. Amorous behavior. Sexual perversions, **fantasies and masturbation.** Sexual excesses. **Impotence.** Prostration after seminal emission. Nocturnal emissions, followed by great weakness. Ailments from sexual abuse, rape.

Modalities - Better at the seashore, damp weather (Caust.). Better being fanned, fresh air, at sunset. Better bending backward, stretching out, hard rubbing, **lying on abdomen.** Chronic rheumatism of joints is worse inland, better near sea. **Worse from damp, cold weather,** before storm, heat, covering, closed room, slight touch, after urinating. **Worse 3 a.m. to 4 a.m.,** during daytime, **from sunrise to sunset,** when thinking of ailments. Early morning aggravation. Salt-water bathing aggravates sore throat and colds in the head.

Mouth - Taste in mouth coppery, bad taste and foul breath in morning. Breath hot, feels so even when breathing through nose. Exhalation hot. Mouth feels burnt. Dryness of mouth. Water tastes like perfume. Copious salivation. Stringy mucus from mouth during sleep. Small very sore aphthae. Canker sores. Blisters on inner surface of the lips and cheeks.

Nose - Soreness and crawling in left nostril. Numbness. Burning pain in both nostrils when breathing through them. Coldness of tip. **Intense itching of the tip.** Obstruction at root of nose as if mucus membrane was hypertrophied. **Hay fever and allergies.** Coryza, better sea bathing, with loss of smell and taste. **Nasal catarrh** running down throat. Chronic nasal and pharyngeal catarrhs. **Chronic sinusitis. Thick yellow-green discharges.** Posterior nares obstructed. **Post-nasal discharge, thick yellow.** Snuffles in children. Nose dirty in children. Nosebleeds.

Perspiration - Great tendency to perspire on exertion. When asleep, day or night, no matter how short a time, profuse sweat on face and neck. Night-sweats and hectic fever. Sweat easy towards morning.

Rectum - Anus is red, moist. Fiery, red rash about anus in babies. **Intense itching of anus.** Painful lump sensation on posterior surface of sphincter. Heaviness in perineum. Sharp, needle-like pains in rectum. Sensation of prolapsus of rectum. **Dark fetid oozing moisture from anus of fish brine odor.** Profuse bloody discharges from rectum. Inertia of bowels, with ball-like stools. White diarrhea. Stools tenacious, claylike, sluggish, can't be forced out. Can pass stools only by leaning very far back, then shivering. Cholera infantum with opisthotonus. Diarrhea, and headache, from motion of cars.

Sensations - As if sticks in eyes, lids and inner canthi, as if cold wind blowing in eyes, as if upper lid had a cartilage in it. As if something crawling in ear and nose. As if a lump in stomach. As if tumor in right side of abdomen. As if left lung collapsed or paralyzed. As if an abscess between left pectoralis major and minor muscles. As if the blood was boiling hot in veins. As if all bones were out of joint.

Skin - Pricking sensation all over body. **Intense itching, sore, worse night and when thinking of it.** Continuous itching. Skin cold, but feels as if the blood is hot, **throws off covers.** Yellow skin. Yellow, copper colored spots, remaining after eruptions. Sycotic red nodes. Deep red

Medorrhinum

spots. Boils. Condylomatas and warts. Small, pedunculated warts. Tumors and growths.

Sleep - Dreads night to come. **Insomnia.** Sleepless from intolerable pains. Sleep prevented by aching in lower limbs. Spasmodic yawning, can't suppress it. **Sleeplessness, falls asleep towards morning.** Short sleep seems like a long one, which is better. Sleeps in knee-chest position. **Sleeps more comfortably lying on abdomen.** Can only sleep on back with hands over head. Asleep, but hears everything, answers questions as if she was awake. Dreams of drinking (Ars., Phos.), walking. Nightmares, of ghosts and dead people. Exhausting dreams. Wakes gasping for breath.

Stomach - Intense pain in stomach and upper abdomen, with sensation of tightness. Clawing pain in stomach worse drawing up knees. Cramps in stomach as from wind. Burning, trembling in pit. Throbbing in sides of

stomach. Agonizing pains in solar plexus. Ravenous hunger soon after eating. Sick or gnawing feeling, not better eating or drinking. Coppery taste and belchings of sulphuretted hydrogen. Nausea in morning, before eating, during pregnancy. Vomiting of thick mucus and black bile, without nausea.

Teeth - Pale gums. Teeth yellow, easily decay. Teeth serrated, soft, crumbling. Eyeteeth sore, feel soft. Teeth sensitive while chewing.

Temperature - Creeping chills running down back and all over body in a zigzag course. Shivering chills with boring pains in chest. Chills after urinating, great coldness and shivering. Chilliness when bladder is too full, better urination. Cold skin but blood feels hot. Burning heat with sweat, wants to uncover, but is chilled. Flushes of heat, alternating with chills. Great internal heat after dinner and after slight exertion, as if blood was boiling hot in veins. Flashes of heat in face and neck. Wants to be fanned all the time (Carb-v.).

Throat - Great dryness of throat with swollen glands. Throat sore and swollen.

Larynx feels sore as if ulcerated. Pains on swallowing. Swallowing of liquids and solids impossible. Choking. Spasm of glottis. ***Throat constantly filled with thick, gray or bloody mucus from posterior nares.*** Tenacious mucus in larynx. Sore throat and cold in head better salt water bathing. Hoarse while reading.

Tongue - Tongue coated brown and thick. Tongue white, with papillae showing through. Base of tongue white and foul. Tongue coated thickly in morning. Blistered tongue, canker sores. Skin peeling off in patches. Small, very sore aphthae. Bites tip of tongue in sleep.

Vertigo - Intense vertigo from sensation of tightening in head. Vertigo, worse in vertex and on stooping. Vertigo with sensation and fear of falling. Vertigo as if intoxicated, on waking. Walks zigzag.

Vision - Blurred vision. Objects look double or small. Many black, sometimes brown spots dancing over her book.

COMMENTS - An often prescribed poly crest remedy, especially if there is a history of a gonorrhea infection. Never well since suppressed gonorrhea. Symptoms are similar to Thuj. and Ars., but they work on different levels and can interrelate. Generally, Ars is a less serious Med., and where Med. is given for an acute, Thuj. would work for the chronic.

Confusion. Slow answering questions. Developmental problems. Difficulty concentrating. Restlessness. Hyperactivity, wildness. Temper tantrums and fits. Intense nervous sensibility, especially to touch of garment or a lock of hair by any one not en rapport. Sensibility is very exalted almost to clairvoyance.

Over excited. Starting at slightest sound. Spacey. Unpredictable, unstable, fitful and changeable. A disintegrated person, unharnessed. Lack of purpose or function in their life, concerned with fulfilling passions, particularly sexual passion.

Full of extremes. Can become obsessive, violent. Schizophrenia, manic-depression, depression with uncontrolled nature. Often violent, paranoid, can have persecution complexes.

Anticipation or panic attacks. Fear of losing control, about their mind not functioning correctly, of going insane (Cann-i., Calc-c.). Fear that something bad will happen, anticipates that something will go wrong, especially with their health. Think themselves incurable. Children can have severe nightmares and deep fears about monsters or people getting them. Delusion that someone is in their bedroom.

Exaggerated sexual development. Generally precocious children, may begin masturbating at an early age. Chronic masturbation. Preoccupation with sex, sexual fantasies.

History of sexual diseases such as vaginitis, bladder infections, herpes, gonorrhea. Often a history of promiscuity, history of gonorrhea. Attracted to the culture of sex, drugs, and wild behavior. Alcoholism. May be helpful for AIDS, stimulates the immune function and lessens recurring infections.

Tremor, spasms. State of collapse, with a desire to be fanned. The pains seem to tighten the whole body, especially the thighs. There is scarcely a spot on the body that is not full of pain. Acute arthritis with painful, swollen joints. Obstinate rheumatism. Sequela of acute rheumatism.

Insomnia from too much energy. Blood pressure or heart conditions. Chronic, recurring infections. Discharges, sensitivity. Conjunctivitis. Vaginitis, urethritis, uterine fibroids. Fishy odor to the vaginal discharge.

Multiple allergies, especially allergies with discharges since gonorrhea. Sore throats, earaches, sinus problems. Severe asthma. Great sensitiveness to draft of air, takes cold easily. Cough is better lying on face or stomach.

Generally worse motion, better rest. Worse stretching out, leaning head forward. Constipation is better leaning far back, can only pass stool so. Worse storms and damp weather. Better by the sea.

Worse from sunrise to sunset, always brighter in evening, worse in early morning hours (Syph. is worse from sunset to sunrise). Craves oranges and orange juice, particularly in children. Craves unripe fruit, alcohol and marijuana.

Craves tobacco (Staph, Thuj, Ars.), often as a nervous habit.

Many cases of stunted growth and arrested development in children are due to latent gonorrhea and syphilis.

On this hypothesis, Clarke cured extremely offensive body odors in children with Med.

Negerath of New York and Angus Macdonald in England have pointed out a causal connection between post-partum pelvic cellulitis and latent gonorrhea in the husband. Macdonald published several fatal cases.

The effects of the poison, constitutional or acute, may be taken as data for homeopathic prescriptions, but the virus also has had an extensive proving in the potencies and symptoms have been largely verified in practice. Burnett noted several cures with Med. 1,000c, including fits at every menstrual period, coming on in the early morning. Clonic spasms, the legs suddenly shoot up from the bed. Rheumatism of the right wrist.

Sycotic asthma, worse from 2 a.m. to 4 a.m. Psoriasis palmaris. Polyps having their origin in a chronic suppurating discharge. Albuminuria where the urine contains some mucus as well. Masturbation in children. Burnett regarded Med. as "a remedy of pus and catarrhs."

Clarke cured with Med. 200c a most aggravated case of constipation on learning that the patient was obliged to lean far back on the seat or he could not get rid of the stool. He was passing urine containing long white mucus shreds. He had gonorrhea many years before.

Deschere published a Med. case in which Miss S., 23, had chronic blepharitis since eleven. Her suffering was intense. Light, especially gaslight, was intolerable and this prevented her from going into society. She could not read in the evening, and in the morning the lids would be closed and she suffered much on getting them separated. There was much discharge.

Before coming under Deschere she had been under strict homeopathic treatment all the time. Deschere remembered treating her father for gonorrhea before his marriage

Medorrhinum

and he suspected the taint had reappeared in this form. Med. was given in high potency, single doses repeated as the effect of each wore off and she was entirely cured.

Skinner traced a case of favus to the same hereditary cause. It had resisted all the external applications that allopaths could devise and which had such an appalling odor that the patient, a little boy, had to be isolated from the family. It was cured with Med. 1,000c.

McLaren related in Hahn. Advoc. a case in which a young French Canadian of delicate constitution, after working in a factory all winter, began coughing in spring and running down in health. He returned home and came under McLaren's care in May.

The cough persisted and prostration increased in spite of carefully selected remedies and the patient took to his bed. It was then observed by McLaren that the cough and general condition was better from lying on the face. This, coupled with a knowledge of there being a syphilitic taint in the boy's parentage, suggested Med., which was given.

The next day a profuse gonorrheal discharge appeared and the cough and all the threatening symptoms promptly disappeared. Exposure to contagion had occurred several weeks before, but from lack of vitality the disease could not find its usual expression and was endangering the patient's life.

Ernest Nyssens quoted some important observations by old-school authorities on constitutional gonorrhea. Wertheim, in a case of gonorrheal cystitis, watched the entrance of the gonococcus into the blood stream. With the gonococcus taken from the blood of this patient he made cultures to the fifth generation.

A youth who had never had a venereal disease volunteered for inoculation with this. The sub-acute urethritis which resulted was so grave and in spite of all, became complicated so cruelly with cystitis, epididymitis, prostatitis, synovitis and pleuro-pneumonia, **that Wertheim asked** whether the gonococcus did not redouble its virulence by passing into the blood.

Jullien and Sibut witnessed a case in Saint Lazare Hospital in which Louisa M., 17, entered the hospital June 8th with urethrovaginitis and was treated with tampons of Ichtyol dissolved in glycerine (1 to 5).

The urethritis ran a normal course until July 6, when the patient complained of sufferings in the abdomen. She had them for the previous week, but had made no complaint until the pain became so acute that an injection of morphine was needed.

Rectal temperature 100.2. Tongue coated. Right side abdominal pain. In spite of rigid contraction of the rectal muscles there seemed to be a swelling deep down, but the observers were not certain it was not a swelling of the muscles themselves. Intestinal functions were normal, rectum empty.

An eruption of roseola spots appeared on the body, abdomen and chest, so exactly like those of typhoid that the possibility of this was discussed. There was also acute pain in muscle of right calf. This pain persisted the following day when the abdominal pains had disappeared.

July 9, the right knee was painful, swollen. At the same time, synovitis of left wrist, dorsal aspect. Temperature normal. July 10, very few and slight traces of the eruption. Right arm the seat of acute sharp pain, especially at the level of the deltoid "V," deep down near the bone at the insertion of the tendon, (probably a hygroma).

On examining the Achilles tendon, there was pain at the level of the left ankle, nothing to the right at the same

level, but the pain was, above all, acute along the inner border of the right tibia to five or six centimeters from the flat surface.

This part was edematous and painfully sensitive. Another painful spot in the abdomen was behind the right anterior superior iliac spine and beside the navel (probably muscular). The urethral discharge contained abundant bacilli beside only gonococci.

Treatment by daily injection of one centigram of Merc-c. was commenced. The next day there was sharp fever, coated tongue. *The abdominal pains were muscular. Trace of albumen in the urine.*

The next night there was delirium and nosebleed in the morning. This case went on to recover.

Another case, also in a girl of seventeen of tubercular history, complicated with syphilis, presented the same order of symptoms, along with the nosebleed, hemoptysis, albuminuria, endocarditis with suffocative attacks and violent palpitations, ending in permanent disablement.

These cases may be regarded as provings of Med. from the homeopathic standpoint. The rheumatic symptoms are of extreme intensity and Med. will cure many cases where the symptoms correspond. Following Burnett, there have been cures of many cases of dysmenorrhea using it.

Gilbert traced rickets to hereditary gonorrhea. In these cases, there are often glandular enlargements and the patient is better at seaside. In such cases he gave Med. When there was syphilitic paresis and the patient was better in the mountains, he gave Syph. In acute bowel troubles in rickety children he found Med. of great value. Thomas Wildes considered that favus, scald-head and ophthalmia tarsi simplex (margins scaly, scurfy, often angry red, falling of lashes) were due to suppressed gonorrhea in one or both parents. The red, angry condition of skin may extend from face or scalp, down neck and back to perineum and genitals.

A girl, 11, had been treated by many physicians with salves and ointments to the general impairment of her health. Her face was mottled with a profusion of red scurfy sores, eyelids involved and nearly denuded of lashes.

Hairy scalp was one diffuse mass of thick yellow scabs from beneath which oozed a highly offensive mixture of ichor and sebum. Passing down neck, back, perineum and involving genitals and pubes was a fiery red band as broad as the child's hand, oozing a pale yellow serum that caused the clothing to stick to the body.

Wildes told the mother he could cure the case, but it would certainly get worse the first three months. This was not objected to.

Med. 100,000c was given, one dose on the tongue. The external appearance grew rapidly worse, but appetite, sleep and general health steadily improved and in nine months she was completely well.

In another case, a child, 6, was, since infancy, horribly disfigured with tinea capitis. The scalp was a mass of dense scabs exuding fetid ichor, the only semblance of hair being a few distorted stumps ending in withered roots.

One dose cured in a few months and, when Wildes was writing, the patient was a healthy and extremely talented young lady and the possessor of a luxuriant head of chestnut hair.

Wildes thinks that suppression of favus, when derived from gonorrhea in the father, leads to hydrocephalus, capillary bronchitis, severe teething diarrhea, cholera infantum, etc. If derived from the grandfather, suppression leads to tuberculosis and lingering diseases. A fiery red rash develops about the anus in babies a few days old, constipation with hard, dry stools. "Baby's water scalds it terribly."

Wildes regarded the latent gonorrheal miasm as the true explanation of many of the disease manifestations included by Hahnemann under Psora. Burnett, in a way, confirmed this, as he traced gout to a sycotic origin.

Wildes regarded Med. too strong a remedy to give in acute cases whether of gonorrhea, rheumatism or scarlatina, on account of the intensity of the aggravation it is liable to cause, though single doses are often useful when there is a tendency to sinking in dangerous cases of cholera infantum.

Wildes traced to the same source vascular meningitis in infants and cerebrospinal meningitis. In the former, the efficacy of Med. is doubtful, but in the latter it is very efficacious after Cimic. has allayed the first acute symptoms. In the convalescent stage, Lyc. was his chief remedy.

Wildes quoted from old-school authorities the following conditions traceable to latent gonorrhea communicated from husband to wife: ovarian tumors, endometritis, oophoritis, metritis, parametritis, salpingitis, and even peritonitis.

RELATIONS - Antidoted by: Ip. (dry cough). **Compare:** (1) Thuja., Nat-s., Puls. (2) Pic-ac. - inability to walk right, priapism. (3) Camph. and Sec. - collapse, skin cold yet throws off all covering. (4) Verat. - collapse with cold sweat. (5) Syph. - reverse aggravation, sunset to sunrise. (6) as if in a dream, Ambr., Anae., Calc., Cann-i., Con., Cupr.. Rheum., Stram., Valer., Verat., Ziz. (7) better by leaning back, Lac-c. (8) Fish-brine odor, Sanie. (9) Breast-feeding - Galeg., Lact., Sulph., Zinc. **Compatible:** Sulph. (especially when stool drives out of bed).

***MEDUSA

(Common Jelly-fish)

PHARMACY - medus. Medusa. Common jelly-fish. *Areia aurita*. Sea-nettles. N. O. Radiata, class, Acalephe. Tincture of living animal taken in summer. **Historical dose:** All potencies.

CLINICAL - Breast-feeding, disorders. Desquamation. Edema. Leucorrhea. **Nettle, rash.** Urine, suppression. **Urticaria.** Vesicular, eruptions.

HOMEOPATHIC - The effects of encountering jelly-fish while bathing are well known and have been studied experimentally.

The effects of drinking two cupfuls of a decoction, warm, by a woman affected with stomach disease and leucorrhea was recorded. There was rapidly produced edema, anxiety and difficult speech. Secretion of urine, which had been suspended for days, returned.

Secretion of milk re-established in the woman's breasts three years after birth of her last child, she had twelve children and had not suckled any of them, having had no milk. Pricking heat and numbness of skin of face, arms, breasts and vesicular eruption, followed later by desquamation.

Whole face puffed and edematous, eyes, nose, ears, lips.

MIND - Extreme anxiety, difficult speech. Aversion to change. Do not like a lot of changes and prefer pleasant routine. Easily offended. Taciturn. Coldness, hatred of others who are enjoying life. Difficult sexual relations. Love of music and dance (Sep.).

Breasts - Action on milk glands. Lack of milk production in breasts.

Ears - Eczema of ear.

Eyes - Eyes puffed and edematous.

Face - Face, eyes, ears, nose are puffed and edematous.

Food - Very thin, doesn't like to eat very much. Craving for salt, fish. Intolerance of fish.

Kidneys - Retention of urine.

Modalities - Better from sleep, movement and food.

Skin - Numbness, burning, pricking heat. Pricking heat, numbness and burning of skin of face, arms, shoulders and breasts. Burning sensation very soon after contact. Burning more than itching. Vesicular eruption, especially on face, arms, shoulders and breasts. **Nettle rash** (Apis., Chlor., Dulc.). **Urticaria and vesicles.** Desquamation.

Sleep - Better after sleep. Need a lot of sleep otherwise they feel useless.

COMMENTS - Blackie wrote, "In looking at Medusa one must consider the two types of Sepia: [1] rather bright patients who go off at the deep end at the slightest provocation and are exceedingly irritable, and [2] rather stupid and tired out.

"Medusa is neither of these but fits somewhere in between. They can be silent and do not want to talk, they never finish their history in one go and do not want to answer questions. They always think of something else to add to their history."

RELATIONS - Compare: (1) Murx., Sep., Urt-u., Apis. (2) Pyrar., Physala-p. (urticaria), Hom. (3) Astac., Hom., Bomb-pr.

***MEL

(Honey)

PHARMACY - mel. Mel. Honey. **Historical dose:** Topically and internally taken as a food or medicine. All potencies.

CLINICAL - Allergies. Athlete's foot. Asthma. Bites. **Burns.** Cough. Cuts. Diarrhea. Eczema. Fungal, infections. Hiccups. **Mouth, ulcers.** Nausea. Psoriasis. Rash. **Skin, disorders.** Stings. Sore throat. Stomach, ulcers. Sunburn. Surgery, effects. Ulcers. Vomiting. Worms. **Wounds.**

HOMEOPATHIC - Honey is a by-product of bees concentrating plant nectars. The medicinal quality, taste, texture, color, aroma of honey differs according to the geographical area and the species of plants from which it has been collected. The characteristic flowery taste of raw honey comes from the pollen it contains.

It contains a variety of sugars and minerals and has been shown to be low in calories and useful as a sweetener for diabetics, people with heart disease or those who are overweight.

It was widely used in ancient Egypt as a food and as a remedy for many skin problems. Ancient Egyptians used honey as an application for emergencies including **burns, bites, stings, cuts, sores and ulcers.** Useful for many **acute and chronic skin disorders** including eczema and psoriasis.

To heal wounds and treat infections, most commonly used as an anti-microbial agent for dressing wounds, burns and skin ulcers. A natural antiseptic, tonic and cleanser, it also is known for its antioxidant, antibiotic and

antiviral capabilities.

Effective in the treatment of various **wounds and infections** because of its anti-microbial (antibacterial, antiviral and antifungal) properties. The use of honey reduces odors, reduces swelling, and reduces scarring, it also prevents the dressing from sticking to the healing wound. Postoperative wounds. Burns.

Modern research shows that honey blocks the growth of oral bacteria. Coats the throat and reduces throat irritation.

Effective when used in the treatment of gastric or peptic stomach ulcers. Allows the blood to circulate better and provide more oxygen to areas of the body such as the brain. Acts as a sedative and is very useful in bedwetting disorders. Itching of anus and worms. Allergies.

COMMENTS - Honey is used to cleanse wounds. It initiates growth of healthy granulation tissue. Helps in quick healing of deep wounds. Reduces the effects of poison. Honey is very good for the eyes and eyesight. Bronchial asthma, cough. Hiccoughs, nausea and vomiting. Urinary tract disorders, worm infestations, diarrhea.

RELATIONS - Compare: (1) Aloe-v., Calen., Mel-c-s. (2) Ric., castor oil, tea tree oil. (3) Urin.

REFERENCES - Murphy.

***MEL CUM SALE

(Honey with Salt)

PHARMACY - mel-c-s. Mel cum sale. Honey with salt. **Historical dose:** Tincture and all potencies.

CLINICAL-Allergies. Itching. Metritis. Uterus, prolapsed. Worms.

HOMEOPATHIC - Mel-c-s. has been used for prolapsed uterus and chronic metritis, when associated with subinvolution and inflammation of the cervix. Uterine displacements and in the commencement of metritis.

Soreness across the hypogastrium from ileum to ileum. Sensation as if bladder were too full. Pain from sacrum towards pubes. Pain as if in ureters.

COMMENTS - Dr. Farrington wrote, "Now there is a combination of honey with salt, known as Mel cum sale. This was for years a popular remedy in Germany for bladder troubles and for diseases peculiar to women.

"I have used this remedy in prolapsus uteri and even in chronic metritis, especially when associated with subinvolution and inflammation of the cervix. The special symptom which leads to the selection of the remedy is a feeling of soreness across the hypogastrium from ilium to ilium."

Dr. Jeanes used a preparation of honey with salt, in the third or sixth potency, for a feeling of soreness in the uterus. Keynote feeling of soreness in the hypogastric region extending from ilium to ilium, especially in uterine displacements and in the commencement of metritis.

REFERENCES - Boericke. Farrington.

***MELALEUCA ALTERNIFOLIA

(Tea Tree Oil)

PHARMACY-melal-o.Melaleucaalternifolia. Tea tree oil. New South Wales, Australia. (Do not store in plastic containers). The colorless to pale yellow oil. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. Athlete's foot. Arthritis. Boils. Cervicitis. Cold, sores. Colds. Corns. Cradle, cap. Cuts. Dermatitis. **Fungus.** Gangrene. Hemorrhoids. Herpes zoster. Insect bites. **Nail, fungus.** Poison oak or ivy. Pyorrhea. Scabies. Sore, throat. Sprains. Sunburn. Thrush. Tinea versicolor. Trichomonal, infections. Ulcers. Vaginitis. Warts. Yeast, infections.

HERBAL - The tea tree grows in the swampy areas of New South Wales, Australia. The oil contains terpenes and terpineol which gives it a nutmeg-like odor. It contains viridiflorene. Tea tree oil is has been used as an non-irritant anti-septic, fungicide and disinfectant of great repute.

When applied to pus filled infections, will clean and dissolve the pus without irritating the tissues. Dental treatment for pyorrhea and gingivitis. As a mouthwash or gargle for sore throats. In a vaporizer for congestions and colds. As a shampoo for head lice, ticks, scabies and cradle cap. Skin emollient. Creams for dry and cracked skin. Hand and body lotions.

HOMEOPATHIC - Skin fungus. **Fungus of fingernails or toenails.** Dermatitis. Poison oak or ivy. Tinea versicolor. Bad breath. Diabetic gangrene. Yeast infections and vaginitis. Sprains and muscle aches.

COMMENTS - Combine one part tea tree oil to ten parts olive oil (also almond or avocado oil). Add ten drops to an % oz. Votole of Sham

poo, to a bath, humidifier or vaporizer. Avoid eye contact.

RELATIONS - Compare: (1)Caj., Cajuputoil made from Melaleuca leucadendron, White Tea Tree. (2) Ric., castor oil use topically for many problems. Calen. (3) Echi., Plan.

REFERENCES - Olsen.

***MELASTOMA ACKERMANI

PHARMACY - mela. Melastomaackermani. **N.** O. Melastomaceae. Tincture of leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Chills. Colic. Diarrhea. Edema. Headache. Palpitations. Prostate, disorders. Prostration. Tenesmus. Vertigo.

HOMEOPATHIC - Mure described this plant and made a proving of the leaves. On the second day of the proving, the prover lost an inveterate diarrhea with colic. The most notable Mela, symptoms were a pain in the perineum and testicles and shuddering followed by heat without sweat. Prostration. Pains in perineum. Diarrhea. Prostatic disorders.

Abdomen - Borborygmi. Pain in the abdomen.

Chest - Pain in the sternal region, in the morning.

Ears - Roaring in the left ear.

Face - Pale face.

Head - Headache with sensitiveness of the scalp. Lancination and prickings at the vertex.

Heart - Palpitations of the heart.

Kidneys - Pricking in the urethra. Profuse light-colored and foaming urine. Urine more cloudy and less foaming. Urine deposits a white sediment. Red, odorless urine, with bloody clots. Fetid urine. Albuminuria.

Limbs - Edema of the legs. Pain in the loins. Weakness of the thighs.

Male - Hardness of the penis, without erection

Mouth - Looseness of the teeth. Digging pain in the teeth. White coated tongue. Copious flow of saliva. Bitter mouth.

Rectum - Pain at the perineum. Fearful pain and pulling from the perineum to the anus, when sitting, not ceasing in any position, lasting six hours. Lancinations in the perineum, urethra, and testicles. Heat and pricking at the anus. Tenesmus, with constriction of the sphincter. Inveterate diarrhea and colic.

Skin - Eruption on the lips, especially the upper. Itching and heat at night. Pricking over the feet, ankles, and wrists.

Sleep - Drowsiness in the daytime. **Stomach** - Sour stomach.

Temperature - Chills, followed by sweat. Violent chills for four hours, followed by heat without sweat. General heat. Internal heat.

Vertigo - Vertigo and dizziness.

REFERENCES - Allen. Clarke.

***MELATONIN

(Pineal Gland Hormone)

PHARMACY - melat. Melatonin. A pineal gland hormone. **Historical dose:** Tincture and all potencies.

CLINICAL - Amnesia. Breast, cancer. Cancer. Chronic, fatigue. Constipation. Depression. Drowsiness. Fatigue. Headaches. Hyperactivity. Infertility. **Insomnia. Jet lag.** Memory, **weakness. Night, terrors. Nightmares.** Night **watching. Seasonal Affected Disorder. Sleep, disorders. Sleep, loss.**

HOMEOPATHIC - Melatonin is a hormone made by the pineal gland. Melatonin has been used as a treatment for a number of conditions, including jet-lag, seasonal affective disorder (SAD), depression and cancer.

Jet-lag, the desynchronization of the biological clock, drastic changes in the sleep-wake cycle. **Night terrors.** Fatigue, early awakening or insomnia. Daytime drowsiness. Ailments from loss of sleep. Chronic fatigue.

Headache, fuzzy thinking, irritability. Dizziness. Mild depression. Low sex drive. Reduced immunity. Low blood pressure. Nausea. Vomiting. Abdominal cramps. Constipation.

Side effects from melatonin are not uncommon, even at doses that are significantly less than the recommended amount. When side effects from melatonin do occur, they may include an increase in blood pressure, fatigue, depression and problems with fertility.

MIND-Confusion. Dullness of mind. Memory weakness. Hyperactivity. Irritability. Depression. Seasonal Affected Disorder. Ailments from nursing loved ones.

Breasts - Breast cancer in women who sleep irregular hours, sleep with lights on, or work late hours, night shifts.

Causations - Sleep deprivation. Ailments from nursing loved ones.

Female - Infertility.

Head - Headaches.

Heart - High or low blood pressure. Stroke.

Modalities - *Worse loss of sleep. Worse working night shifts.* Worse irregular sleep patterns. Worse sleeping with lights on. Worse during winter.

Rectum - Constipation.

Sleep - Daytime drowsiness. *Insomnia.*

Severe sleep disorders. Sleep deprivation. *Altered sleep patterns.* Sleep with lights on or work late hours, night shifts. Vivid dreams. Nightmares.

Stomach - Nausea. Vomiting.

RELATIONS - *Compare:* Cocc., Care., Luna., Coff., Nux-v., Sep.

REFERENCES - Murphy.

***MELILOTUS OFFICINALIS

(Sweet Clover)

PHARMACY - meli. Melilotus officinalis. Sweet clover. Yellow clover. Melilotus alba. White and yellow varieties. N. O. Leguminosae. Papilionoideae. Tincture of whole fresh plant in flower. It would be well to include a specimen of both plants in the tincture. *Historical dose:* Tincture and all potencies.

CLINICAL - Blushing. *Congestion.* Coughs. *Debility.* Delusions. Dysmenorrhea. Epilepsy. Fears. Hemoptysis. Headaches. *Hemorrhages.* Insanity. Leucorrhea. *Neuralgia. Nosebleeds.* Ovaries, neuralgia. Pneumonia. Rheumatic pain. Shyness.

HOMEOPATHIC - Meli, was first proved by Bowen in 1851. A second proving was made by him fifteen years later. He used both the yellow and the white varieties.

H. C. Allen published a further proving of Meli, alba, using the entire plant. His proving entirely confirmed Bowen's and added many symptoms.

According to Allen the action of Meli, lasted about thirty days, the indolence and prostration being the first symptom to appear and the last to disappear. Congestions especially to the head, and profuse, bright red, hemorrhage which gives relief. *Engorgements of any part or organ.* Violent congestive and nervous headaches.

Pain and debility. Coldness, but also increase of temperature, tenderness and pain. Muscular system depressed. Spasms, eclampsia, convulsions. Epilepsy, from blow on head. Infantile spasms. Tired, bruised, ■ listless, sleepy, chilly. Feeling of rawness.

Dreams and emissions.

MIND - Irritable, impatient, discontented, faultfinding. Indolent. Unable to fix mind, stupid indifferent. Total inability to study, memory will not retain anything. Omits words and letters in writing.

Shyness and blushing. Attacks of weeping without much depression. Religious melancholy with intensely red face. Wants to kill himself or threatens to kill who approach. Furious, had to lock him in room. Loss of consciousness.

Panic and fear. Fear of talking loudly, she whispers. *Fear of danger. Fear of being arrested.* Wants to go home. Wants to run away and hide. Suspicious. Delusions, thinks everyone is looking at her, fears to talk loud.

Abdomen - Much distention, flatulent, worse during menses.

Back - Broken sensation in lumbo-sacral joint, on sitting and especially sitting upright. Constantly changes position to get relief, wants to strike the part or press it, better standing or walking.

Chest - Weight on chest causing difficult breathing, sensation of smothering, frequently examined clothes to see if they were not too tight.

Ears - Sensation of puffing of wind from ears. Each act of swallowing caused the wind to puff from both ears.

Eyes - Hot, heavy, blurred sight, wants to close them tightly for relief. As if they were too large. Eyes as if pressed outward. Eyelids very heavy. Vision dim, blurred, rubs eyes. Unable to focus. Floating bodies before eyes when studying.

Face - *Intensely red and flushed with throbbing carotids* and headache (Bell.). Very red before hemorrhages from nose, lungs, uterus. Face hot, flushed, all day, feverish.

Female - Leucorrhea, pain and soreness in back and pelvic region, excited by walking. *Menses scanty, intermittent,* with nausea and bearing down pains. Menses thin, watery, pale offensive. Dysmenorrhea. During menses, headache, bearing-down pain in pelvis. Recurring, sharp, darting pain in vagina and vulva at close of menses. Severe stitches or cutting pains through uterus. Ovarian neuralgia. Sticking pain in external parts.

Food - Ravenous about 10 a.m. with onset of frontal headache. Appetite capricious, especially in morning, impaired.

Head - Rushes of blood to head. *Fullness all over head. Violent, throbbing,* nervous and periodical headaches. *Congestive headaches.* Headaches are better nosebleed, menstrual flow, application of vinegar.

Sick headache, relieved by nosebleed or menstrual flow. Headache with retching, vomiting, black spots

before eyes. **Neuralgia** around and over right side of head and neck. Scalp sore and tender to touch. Headache alternating with backache.

Kidneys - Frequent and profuse urination. Urine profuse, watery and relieving the dull, congestive headache.

Limbs - Skin and limbs cold. Joints sore. Stiff and sore on rising, better by careful movement. Rheumatic pains in joints on approach of rain-storm or in rainy, changeable weather. Uneasy sensation in large joints. Numbness and aching in knee joints, right then left. Gnawing, throbbing in right knee joint, wants to stretch leg, but

does not relieve. Arms heavy, too much prostrated to lift them without effort.

Lungs - Smothering sensations, cannot get air enough, from rapid walking. Cough harsh, dry, spasmodic, horribly distressing. Cough from fullness of chest better by nosebleed. Hemoptysis, blood bright red.

Modalities - Better from bleeding, profuse urination, vinegar application. Worse rainy, changeable weather, approach of storm. Worse motion, walking, 4 p.m., menopause.

Nose - Profuse and frequent nosebleeds, bright red blood with general relief. Nosebleed with high fever and violent congestion of head and face. Stopped up, **dry**, must breathe through mouth. Excessive dryness of nose, obstructed. Dry, hard clinkers in nose.

Rectum - Difficult, painful, constipated. Severe shooting cutting in rectum while walking, better sitting down. Anus feels constricted, full, throbs. No desire until there is a large accumulation (Bry., Alum.). Very difficult, painful stool with constriction in rectum. **Discharge of stringy, glassy, milk-white mucus**. Heavy throbbing and fullness in rectum from internal hemorrhoids.

Skin - Dry skin. Tendency to bruise and bleed easily.

Sleep - Drowsy, sleepy, stupid. Alternate sleep and wakefulness through night. Awakes regularly a few minutes before 3 a.m. Insomnia, cannot sleep after 3 a.m. Head seemed too high (although he had no pillow). Sleep prevented by unpleasant thoughts coursing through brain. Unpleasant dreams, of bickering.

Stomach - Gastric discomfort, flatulence, fullness and other symptoms appear when constipated. Acid belchings all day, causing burning and smarting.

Temperature - Chilly 10 a.m., begins in back, loins or occiput, passing in waves up to vertex. Chilly 12 p.m. to 1 p.m. with sharp pains in cardiac region of stomach and much flatulence. Chilly all forenoon. Uncomfortably chilly, feet and hands colds.

Throat - Throat sore, left side, swallowing difficult, painful. Tickling in throat with cough.

Vertigo - Vertigo worse on moving.

COMMENTS - Characteristic engorgement. Blood engorgement. Tending to hemorrhages, profuse, bright red, which give relief. Intensely red or even purple face attending any disorder.

Headaches with blushing and nosebleed. Headaches better by lying down, profuse urination, application of vinegar. Headaches more often in hot weather, worse after exposure or getting feet wet, on approach of storm, in rainy, changeable weather. Sensation of waving in the brain.

Alternation of pains, from right temple to right knee, pains in head alternating with pains in back. Marked periodicity. Generally better sitting, worse from walking, but pain in sacral region is opposite. Symptoms appear in the forenoon and wear off during the day. Relieved by discharges.

Bowen used Meli, successfully in all kinds of congestive or nervous headaches, nasal and pulmonary hemorrhages, congestion of spinal cord, pleura, lungs, ovaries, menstrual colic, palpitation and nervousness, cramps in stomach, spasms, convulsions and for relieving brain-pressure and irritation in insanity. He always gave it in pellets medicated with the 1c dilution.

In different cases, Bowen removed symptoms including a desire to run away, to hide, insists that everyone is looking at them. Mania to escape and kill himself, with insomnia. Nervous and timid. Dares not talk loudly, whispers. Vicious, threatens to kill those who approach. Thinks there is a devil in his stomach contradicting all he says.

H. C. Allen relieved with Meli, a fear of danger, fear of being arrested in mental cases.

In a schoolboy, Clarke cured with Meli. 30c a very distressing recurrent headache, accompanied by an intensely red face while the pain was on and with the same potency. Clarke gave great relief in a case of melancholia in a young woman.

C. F. Barker recorded the case of Miss X, 19, tall, blonde, for several years had severe, nervous and congestive headaches. The attacks recurred two to four times a month and were so severe that they compelled her to keep to her bed twenty-four hours.

The pain, mostly in temples and forehead, was a congested, full sensation with flushed face, drowsy, stupid feeling and sometimes much nausea.

Trivial things seemed to provoke the attacks. Spectacles had been supplied by oculists and teeth freshly stopped by dentists, diet, rest from study and outdoor exercise had all failed to relieve. Meli. 4x was given and

she had only two attacks in six months and those very slight.

A writer in Hom. News tells of a Frenchman who came to him complaining of an incessant headache so bad that he thought he would die. A dose of Meli, was given on the spot and the doctor, thinking Nux-v. indicated, went into the next room to get it.

He returned in five minutes and found the patient on his hands and knees shaking his head. The doctor, thinking him crazy, asked what he was doing. He replied that the pain was entirely gone and he was only trying various attitudes and motions to make sure.

RELATIONS - Compare: (1) Meli-a., the white clover - has practically the same action. Hemorrhages, congestive headaches, engorged blood vessels. (2) spasms: Bell., Amyl, Glon. and Sang, in congestive headaches (but Bell, has worse lying down and worse from application of vinegar cloths). (3) In nosebleed after headache, Ant-c. (but with Ant-c. the nosebleed does not necessarily relieve). (4) Waving in brain, Cimic. (5) Rheumatic pains better moving, Rhus-t. (6) Hemoptysis, bright blood, Ip., Mill. (7) Discomfort from constipation, Op. (8) Congested head and nosebleed, Erig. (9) Red face with throbbing carotids, Bell. (10) Trif-r.

REFERENCES - Allen. Boericke. Bowen. Clarke. Phatak.

***MELISSA OFFICINALIS

(Lemon Balm)

PHARMACY - melis. Melissa officinalis. Lemon balm. Bee balm. Sweet balm. N. O. Labiatae. North Africa. Europe. Tincture from fresh leaves picked just before flowering. **Historical dose:** Tincture and all potencies.

CLINICAL - Colds. Depression. Headaches. Herpes. Indigestion. Influenza. Insomnia. Nerves.

HERBAL - Avicenna recommended Melissa as a heart tonic, to make the heart merry and to lift the spirit. The volatile oil has a sedative effects in small doses that is soothing to the nerves. Melissa oil is has been used in aromatherapy for anxiety, nervousness, depression, insomnia and tension headaches. Infusions of lemon balm after meals eases the digestion.

Melissa oil helps with all kinds of allergies. Cold sores and herpes. Hot infusions have been used for treating colds and flus by inducing sweating. Depression, headaches and indigestion. Headaches and restlessness.

REFERENCES - Potter.

***MELITAGRINUM

(Eczema Capitis Nosode)

PHARMACY - melit. Melitagrimum. Nosode of eczema capitis. **Historical dose:** All potencies.

CLINICAL - Crusta lactea. Eczema capitis.

HOMEOPATHIC - Dr. Skinner gave a brief account of this nosode introduced by him in Hom. World, xvii. 89. He prepared fluxional centesimal potencies from the lymph and blood of a case of eczema capitis.

Dr. Theobald treated cases with Melit. Very severe cases were cured with Melit. 100,000c potency, given in single doses at considerable intervals. In one case, there was an initial aggravation.

REFERENCES Clarke.

***MENISPERMUM CANADENSE

(Moonseed)

PHARMACY - menis. Menispermum canadense. Moonseed. Yellow parilla. N. O. Menispermaceae. Tincture of root. Trituration of Menispermimum. **Historical dose:** Tincture, trituration and all potencies.

CLINICAL - Backache. Dryness? **Headaches.** Itching. Spine, pain. Tongue, swelling.

HOMEOPATHIC - Menis, is botanically related to Cocc. and the backache recalls the spinal action of the latter, but the Cocc. vertigo and intoxication were not elicited. Very considerable doses were taken in the proving of Menis.

The most notable symptom was an intense headache combined with aching all down the back. Megrim, associated with restlessness and dreams. Yawning and stretching were also a marked and frequent concomitant of headache and backache.

Dryness, itching all over (Cocc.). Dry mouth and throat. Pain in spine. Legs sore as if bruised with pain in bones. The pains were like those caused by large doses of quinine and were better by Chin. Restless, troubled and confused dreams, sudden starting from sleep.

MIND - Laziness, absent minded. Low-spirited, but attends to business rapidly. Quicktempered.

Abdomen - Pain in umbilical region.

Back - Pain in whole length of back, with intense headache, yawning and stretching.

Eyes - Eyes feel dry and swollen during the night.

Face - Face hot. Pimples on face, bleed easily.

Head - Headaches. Sick headache, pain in forehead and temples, moving to occiput. **Pressure from within outward, with stretching, yawning** and pain down back.

Kidneys - Urine is high-colored and scanty, yellow, white thready clouds floating through.

Limbs - Pain in back, thighs, elbows, shoulders. Legs sore, as if bruised. Aching in thighs, elbows and shoulders in external muscles of thigh and upper arm, also under left scapula.

Lungs - Hurried respiration during the night. Morning expectoration less and of lighter color.

Modalities - Better walking in open air. Worse at night, warmth of bed.

Mouth - Tongue coated yellow, thicker at back with raised papilla, dry and parched, swollen, as if burnt. Much saliva. Mouth and throat dry during night.

Nose - Much sneezing. Discharge of nasal mucus, excoriating. Nostrils dry, especially the left, itch painfully, are sore.

Rectum - Tenesmus with regular stool.

Skin - Chilly. Skin cold and dry with some itching. Itching all over body, especially buttocks, worse warmth of bed.

Sleep - Yawning and stretching with backache and headache. Starting from sleep. Dreams of innumerable rats which creep under clothes, of cannonading. Sleeps late and heavy in morning, disinclined to rise.

Stomach - Appetite and thirst increased. Some nausea on waking.

Throat - Throat dry and parched without soreness.

RELATIONS - Antidoted by: Bry., Chin. **Compare:** (1) Cocc., Bry.

REFERENCES - Boericke. Clarke.

***MENTHA PIPERITA

(Peppermint)

PHARMACY - menth. Mentha piperita. Peppermint. N. O. Labiate. Brandy mint. Curled mint. Balm mint. Tincture of whole plant. Dilutions of the essence. Essential **oil. Historical dose:** Tincture and all potencies.

CLINICAL - Aphonia. **Colds. Coughs.** Dyspepsia. **Flatulence.** Headaches. Hoarseness. **Indigestion. Influenza.** Itching. **Stomach, pains.** Throat, sore. **Voice, weakness.**

HERBAL - Demeures gave it to singers a short time before singing and it greatly helped them to hold the voice.

HOMEOPATHIC - A remarkable proving of Menth. was made by Demeures, who took a single drop of the tincture, the effects of which lasted into the third month. After the proving, Demeures found that he could rise earlier than usual and yet feel bright and fresh, whereas before it he could not.

Marked action on respiratory organs and skin. Stimulates the cold perceiving nerves so just after taking it a current of air at the ordinary temperature seems cold. Herpes zoster.

Broncho-tracheal catarrh and diseases of the skin. **Dry cough**, excited by air entering larynx, exposure to cold, reading aloud, shocks of any kind. Irritation in the suprasternal fossa. Dry, spasmodic cough which is worse in cold weather, and following the influenza.

Stomach pain, flatulence, flatulent colic and hysteria, with nausea and vomiting. Deranged digestion. Vaginal pruritus.

MIND - Mental dullness, which follows early morning rising. Insensible. Confusion of mind. Eager for work, dispatches it quickly.

Back - Muscles around neck are painful to touch.

Ears - All day when walking, shooting from one ear to the other, as if abscesses were forming, worse left. When writing, sharp lancinations extend from left ear to left teeth.

Eyes - Flashes before eyes when writing.

Head - Headache with tension toward both ears, worse on rising, better returning to bed. Acute lancinations from ear to head, on stooping or turning head. Frontal headache from one temple to the other. Hair ceases to fall out.

Limbs - Sensation under right foot at extremity of metatarsus, as if shoe sole was too tight there.

Lungs - Frequent coughs and colds. Dry cough, excited by merely speaking, expectoration every morning of thick mucus like the core of a boil. Dry cough continues, not caused by titillation or mucus accumulations in the bronchi, but merely by the passage of air into the larynx. Cough excited from least feeling of cold, reading aloud, and smoke of all kinds.

Modalities - Better lying down in bed, while eating. Worse early rising, cold air, smoke. Worse stooping, turning head, reading aloud, writing.

Mouth - Very severe toothache in lower molars when chewing a bit of sugar.

Nose - Tip of nose sore to touch, swollen but not painful.

Skin - Every scratch becomes a sore. Pimples with much itching near left ear with heat in part. Frequent itching

behind right ear. Formication in arm and hand when writing.

Sleep - Sleep good, refreshing. Waking early.

Stomach - Indigestion. In evening, two hours after dinner, weight in stomach which seems to extend to ears.

Throat - Entire trachea from larynx to pit of throat painful to touch. Throat dry and painful on swallowing, as if a pin stuck crosswise in pharynx. Momentary lacerations in parotids, better during breakfast and dinner. Throat externally painfully sensitive to touch. Husky voice from reading aloud.

COMMENTS - A case of fatal poisoning with the essence is on record. The patient, a boy of six took between 1 and 2 ounces and died in two hours. When seen, he was insensible, eyes fixed, pupils were fixed, stertorous breathing, cold skin and the lips were livid.

Demeures said he cured with Menth. every case of influenza that came under his care in the winter of 1847-8. "It is to dry cough, however caused, what Arn. is to injuries and Aeon, to inflammatory complaints. It relieves even the cough of tuberculosis patients." A single globule of the 30c sufficed.

Gibson Miller related the case of a teacher, 43, who had a dry, spasmodic cough, worse in cold weather since whooping cough in boyhood. The inhalation of the smallest quantity of smoke, either of coal, wood or tobacco, at once induced a most distressing paroxysm.

Worse by the least breath of air or any fog. Scarcely any expectoration. Husky on attempting to sing.

Menth. 30c completely removed the cough and enabled him to sit in a room full of tobacco smoke and sing with clearness.

Hansen commended it in bilious colic with great accumulation of gas, severe pain of shingles and as an external remedy in itching of the vagina.

RELATIONS - Compare: (1) The labiates. (2) worse from smoke, Ign. (3) worse fog, Hyper.

(4) worse rising, better lying down, Bry. (5) worse from cold air, Rumx.

***MENTHA PULEGIUM

(English Pennyroyal)

PHARMACY - menth-pu. Mentha pulegium. English pennyroyal. European pennyroyal. N. O. Labiate. Tincture of plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Faintness. Headaches. Itching. Rheumatic, pains. Salivation, nocturnal.

HERBAL - Pennyroyal is a common herbal remedy used for menstrual disorders. It is a popular herb for the uterus and acts painlessly and without much irritation or forcing down. Cooper noted that it often causes faintness.

HOMEOPATHIC - Berridge's provings with the 40th potency were all made on men, so its properties in the female sexual sphere remain untested. His proving brought out an affinity for the right side of the head, right eye and left kidney, shoulder and hand.

Jerkings of whole body directly after waking. Rheumatic pains flying about, chiefly on the right side. Sensation as of blood circulating quicker than usual. The symptoms were all worse when thinking of them.

Abdomen - Severe cutting pains in left groin and side while sitting. Sharp pains in the right hypochondrium, sometimes in middle of sternal region.

Back - Bruised, stiff feeling in small spot, upper part of right scapula with aching and empty feeling in right side of head. Sharp, cutting pains in region of left kidney, shooting up left side to left chest, better getting up.

Chest - Woke on right side and as soon as he had turned to left, sharp cutting pain in right chest for two minutes.

Female - Popular for the uterus, acts painlessly and without much irritation or forcing down.

Head - Aching in bones of forehead and sides of head, worse right after sunset. Headache in right forehead, forcing tears from right eye. Headache in right temple with pressing behind eyes, first right then both, worse towards evening and in night. Empty feeling in right side of head. Itching all around base of skull and roots of hair.

Limbs - Pinching pain in bones of legs and arms, chiefly right, better by a night's rest. Two sudden successive jerks upward of left shoulder and upper arm while lying on left side. Unable to hold a jug with left hand when pouring out water, hand trembles.

Mouth - Flow of saliva from left (side lain on) corner of mouth in night, waking him.

Sleep - Veins swollen at night, troublesome dreams.

Temperature - General creeping chilliness over back and half-way down front of left thigh.

Throat - Stitches down left eustachian tube into left side of throat, better pressing under left ear.

Vertigo - Faintness.

RELATIONS - Compare: (1) Hedeo., Menth. (2) In worse by thinking of symptoms, Pip- m., Ox-ac.

REFERENCES-Clarke.

***MENTHA VIRIDIS

(Spearmint)

PHARMACY - menth-v. Mentha viridis. Spearmint. N. O. Labiate. Mackerel mint. Mentha spicata. Mentha crispa. Peamint. Yerba buena. Mint. Tincture of whole plant. Dilutions of the essence. Essential **oil. Historical dose:** Tincture and all potencies.

HERBAL - Spearmint is a simple but efficient diuretic and febrifuge. Stimulant, carminative, antispasmodic. Cases when

the urine is scanty and there is a frequent desire to urinate. Use the infusion freely. This herb is added to many compounds on account of its carminative properties and its pleasant taste.

COMMENTS - Parkinson commended a decoction of spearmint to wash the hands of children when suffering from scabs and blotches.

RELATIONS - Compare: (1) The labiates. (2) Menth-p., Menth.

REFERENCES - Blackwood. Potter.

***MENTHOLUM

(Menthol)

PHARMACY - menthol. Mentholum. Menthol. The stearopten from the essential oil of peppermint. **Historical dose:** Tincture and all potencies.

CLINICAL - Aponia. Asthma. Cardialgia. Catarrh. Colic. Coryza. Coughs. Eustachian catarrh. Headaches. Itching. Laryngitis. Migraine. Neuralgias. Pharyngitis. **Pruritus, vulvae.** Toothache. Vaginismus.

HERBAL - Menthol is anti-neuralgic, antispasmodic, sedative and a local anesthetic. Locally used for facial neuralgia and migraine. Cardialgia. Gastric and intestinal catarrh. Abdominal fermentation occurring in the stomach or intestines. Colicky pains and vomiting. Toothache. Pruritus vulvae. Vaginismus.

HOMEOPATHIC - Menthol, has proved curative in acute nasal catarrh, in acute Eustachian catarrh, pharyngitis, laryngitis and neuralgias. Affects the mucus membrane of the naso-pharynx and spinal nerve plexus. Neurotic pains and paresthesia. Itching, especially **pruritus vulvae.**

MIND - Mental confusion.

Abdomen - Intestinal catarrh. Abdominal fermentation occurring in the intestines. Colicky pains and vomiting.

Back - Muscular pain in cervical region. Soreness of lumbar muscles.

Chest - Cardialgia. Stabbing pains in the prœcordia, radiating over entire chest.

Ears - Eustachian tubes feel blocked and some deafness.

Eyes - Pain in eyeballs. Supra orbital pain over left eye.

Face - Neuralgia. Pain in face above zygoma with numbness.

Female - **Pruritus vulvae.** Vaginismus.

Head - Migraine. Headaches. Frontal headache, pain over frontal sinus, descends to eyeballs.

Lungs - Short, dry cough, worse smoking. Asthmatic breathing with congestive headache.

Mouth - Toothache.

Nose - Coryza with post-nasal dripping. Cold sensation in nose.

Stomach - Gastric catarrh. Fermentation occurring in the stomach. Colicky pains and vomiting.

Throat - Aponia. Laryngitis. Tickling in the fauces. Pharyngitis.

COMMENTS - Externally for itching, use a 1 percent solution or ointment.

RELATIONS - Compare: (1) Kali-bi., Spig.

REFERENCES - Boericke.

***MENYANTHES TRIFOLIATA

(Buckbean)

PHARMACY - meny. Menyanthes trifoliata. Buckbean. Bitterklee. Bog bean. N. O. Gen- tianacee. Tincture of whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Amaurosis. Chest, disorders. Chilly. **Cold.** Cramps. Diabetes. Dyspnea. Fidgets. Headache. Heart, pains. Intermittent, fever. Jerkings. Malaria. Paralysis. Tinnitus.

HERBAL - The Buck-bean, or "Bog-bean" as it is also called in Ireland and Lincolnshire, is a water plant and abounds in the fen districts, where it is in great local repute as a remedy for malaria.

HOMEOPATHIC - Hahnemann proved it and well defined its sphere of action. The major features of Meny. are chill, sensations and pains of tension and compression, and spasmodic jerkings and visible twitchings, worse during rest and may be associated with neuralgia.

Tensive and compressive pains. Tension in skin, as if it was several sizes too small and he was crowded into it.

Shooting pains and pinching in limbs and joints, in arthritic disorders.

Jerking pain in outer parts, also pinching pain in outer parts. Spasmodic jerking and visible twitchings with neuralgia. Jumpy, fidgety women with urinary troubles. Diabetes.

Great general debility, on walking often accompanied by shivering. **Icy coldness of single or affected parts**, nose, ears, fingers, knees, abdomen etc. Intermittent fever, coldness predominates, felt most acutely in abdomen and legs and tip of nose. Certain headaches.

MIND - Hurried. Anxiety and apprehension. Anxiety as if something evil were going to happen. Fear about the heart, driving him from place to place. Buffoonery and excessive gaiety.

Confusion, better open air. Dullness of mind. Indifference to everything, alternating with great joy. Aversion to amusement. Discontented with everything, with self. Dwells on past disagreeable occurrences. Taciturn and self-reflecting. Tearful sadness.

Abdomen - Distended and full, increased by smoking tobacco. Distention of abdomen by abundant flatus. Coldness, worse pressing upon it with hand. Pinchings in abdomen. Pain, as from excoriation in abdominal tissues.

Back - Rigidity and heaviness in muscles of neck, throat and nape. Extremely painful tearing between the scapula, extending downwards. Boring at scapula (left). Bruised pain in sacrum, worse stooping, walking.

Causations - Injuries to nerves (tooth broken in). Quinine.

Chest - Shooting compression on both sides of chest. Stitches in chest, worse during motion and when breathing. Aching in chest after dinner.

Ears - Tinnitus, when chewing. Tinkling in ears. Cracking in ear, when chewing. Shootings in ears. Feeling of coldness in ear. Discharge from ears (after exanthemata).

Eyes - Frequent spasmodic stiffness of eyelids. Pressing in eyes. Mist and flick-erings before eyes. Cloudiness of eyes, when reading.

Face - Redness and heat of face during sleep. Heat in face with coldness of feet. Visible twitching of the facial muscles, worse rest. Pain and cracking in the articulation of jaw when chewing.

Food - Ravenous hunger, passing away after eating a little. Troublesome confusion in head after a meal. Desire for meat. Aversion to bread and butter. No thirst at any time.

Head - Bursting headache, pain ascends from nape, better stooping, sitting bent. Heavy, pressing pain in vertex, **better hard pressure with hand**. Sensation as of weight in nape. Weight pressing on brain with every step on ascending. As if cold wind blowing on it.

Heart - Stitches in region of heart. Slightest exertion causes irregular action. Drawing pain in præcordia, worse after eating. Anxiety about, as if some evil was going to happen.

Kidneys - Frequent desire to urinate with scanty urine.

Limbs - Cramp-like pains in limbs. Cramps in posterior thighs worse sitting. Cramps from ankles to calf (right).

Legs jerk and twitch, worse lying down. Shocks and convulsive movements in thighs. Paralytic tearing and spasmodic drawings in arms, hands and fingers. **Icy coldness of hands and feet**.

Lungs - Stitch in anterior regions of larynx, impeding swallowing. Dyspnea. Spasmodic contraction of larynx with excitation to cough, when drawing breath.

Male - Increase of sexual desire without excitement or erection. Both testicles drawn up, right more than left. Spermatic cord painful to touch.

Modalities - Better hard pressure on affected part, laying on hand, stooping, motion, twilight. Worse light, noise, during rest, walking, ascending, jar.

Mouth - Sweetish bitterness in mouth. Sensation of paralysis on left side of palate, when yawning and coughing.

Nose - Cold. Tension in root of nose. Nauseous smell before nose like that of rotten eggs.

Perspiration - Perspiration in evening as soon as he lies down, continuing all night.

Rectum - Constipation. Hard feces with pinchings in the abdomen. Bleeding, hemorrhoids.

Skin - Feels tight.

Sleep - Agitated sleep with vivid dreams. Doesn't remembered dreams.

Stomach - Sensation of coldness extending up esophagus with great nausea, following pressure in stomach. Heat in stomach, followed by excessive hunger. Contractive cramps in stomach. Continual rumbling in stomach, as if it were empty. Frequent empty belchings.

Temperature - Predominance of cold. Icy coldness of hands and feet. Shivering with yawning. Chill, which is better by heat of stove and only remains in back. Intermittent fever with coldness in abdomen. Pulse slow during cold stage and accelerated during fever. Heat in evening, mostly on head with cold feet. Quartan

malaria.

Throat - Dryness of palate, stinging when swallowing. Dryness and roughness in throat, which impede swallowing of saliva, without thirst. When speaking hoarse and rough voice with obstruction of ears, as if something had been introduced into them.

COMMENTS - Teste, who also proved it, found it very similar to Dros. Both these drugs caused in him, as one of the first symptoms, obscuration of sight, a sort of white mist or vibrations, worse in open air or during a walk. This was so intense that he did not dare to cross a street.

The pains of Dros. and Meny. were the same in character, but those of Dros. were more intense. This analogy has not proved as close in other respects as Teste imagined it would.

"Jumps," "fidgets," and "urinary difficulties in women" are Burnett's leading indications. "

When sitting, the outstretched thigh and leg are four times spasmodically jerked up, but when standing or in drawing up the knees towards him, this is not perceptible."

Twitching in any part. Legs jerk and twitch, cannot rest when lying down. Stitches, numbness, tension. Tension sensation, as if the skin were several sizes too small. Cramp-like and paralyzing pains.

Severe pressure in the head. Pressing in vertex from above downwards, better during hard pressure with the hand, when ascending stairs, as of a heavy weight pressing on the head and brain at every step. Icy coldness of the hands and feet with the headache.

R. Farley reported the case of Miss D. W., long a sufferer from spinal irritation, had terrible attacks of bursting headache, a terrible tension in membranes of brain in paroxysms, which caused her to scream. Began in right side of nape, ascended to forehead and then spread over whole brain.

Terrible sensation of loneliness with the pain, begged her mother to stay with her. Worse from light, noise, jar, even if one walked lightly across the room. Better from sitting bent and by hard pressure on nape and vertex. Meny. 30c every ten minutes relieved immediately and completely removed everything in two hours.

RELATIONS - Antidoted by: Camph. **It antidotes:** Effects of quinine and Chin. **Compare:** (1) Caps.. Puls., Calc., Ph-ac., Sang. (2) worse ascending, Calc. (3) Headache better hard pressure, Verat. (4) Weight on vertex at every step, Cact., Glon., Lach. (5) Intermittent fever with cold limbs, Lach, (but Lach, has livid skin, great prostration and filiform pulse). (6) Icy cold feet and legs, Calc., Gels. (7) Bursting headache pushing skull open, Sil. (Sil. better warmth, Meny. better pressure). (8) Pressive headache, Puls., Par., Mag-m. (9) Fidgets, Psor., Caust., Zinc. (10) the gentians. **Compatible after:** Cupr., Lach., Lyc., Puls., Rhus-t., Verat.

REFERENCES - Boericke. Clarke. Phatak.

***MEPHITIS PUTORIUS

(Skunk Secretion)

PHARMACY - meph. Mephitis putorius. Skunk secretion. Mephitis mephitica. Mus- tela foetida. Mustelina. N. O. Mustelide. Alcoholic dilution of the liquid contained in the anal glands. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Blindness. **Choking.** Coldness. Convulsions. **Coughs.** Debility. Exhaustion. Eyes, disorders. Laryngismus. Otalgia. Rheumatic, pains. Spasms. Trembling. Vertigo. Vision, weak. **Whooping cough.**

HOMEOPATHIC - The dilutions of this medicine are prepared from the Equid contained in the anal glands of skunk. Meph. was proved by Hering in the 30c. Should be given in the lower dilutions.

Meph. produced a suffocative feeling and spasmodic cough. Cough so violent, seems as if each spell would terminate life. **Whooping cough.** Child must be raised up, gets blue in face, cannot exhale. Mucus rales through upper part of chest. Asthmatic attacks.

Spasmodic effects. Trembling and choking with exophthalmos. Convulsions. Sensation of paralysis during the pains. Rheumatic pains. Shifting pains with want to urinate. Fine vibrations causing great uneasiness. Internal agitation of whole body with sensation of uneasiness.

Nervous exhaustion. Debility after severe illness. Great dejection and lassitude during which the muscles are painful when touched or exercised. Indolence with desire to stretch and stretching. Wants to bathe in ice cold water.

MIND - Excitement with heat in head. Talkative. Can neither sleep nor work. Unfit for intellectual labor, caused by too lively an imagination. Full of fancies. Excessive loquacity, as from drinking too much. Disinclination to work with inclination to stretch. Dejection with painful muscles. Ill-humor about trifles or imaginary troubles.

Abdomen - Pains in hypochondria. Aching and movements in abdomen, as if caused by a chill. Pains in abdomen in evening.

Pains as from flatulency in left side. Aching in region of liver in with colic. Colic, as from diarrhea, but without evacuation.

Back - Pain and a sort of paralysis in back and in all limbs. Lancination in spine during motion. Pains in right side of neck. Tension in muscles of nape. Contusive pains in loins in morning.

Chest - Pains in chest when touching it. Chest pains when coughing and sneezing.

Cough - *Spasmodic coughs or whooping cough*. Cough, *violent suffocative, spasmodic, nervous, worse at night*, talking, loud reading, or drinking. Cough hollow, deep with rawness, hoarseness and pains through chest. Whooping or any kind of cough which is very violent, coming on spasmodically, and seeming as if each spell would terminate life. *Cough with vomiting after eating*. Loose cough, in morning, with some expectoration.

Ears - Otolgia. Itching heat, redness, blisters and erysipelas in the external part of the (right) ear. Tearing in the ears or in the jaw and teeth.

Eyes - Heat, burning and aching in eyes, morning and evening. As if fire in eyes. Conjunctiva red, eyes hot and painful. Injection of veins in sclerotica. Lancination in eyes like the pricking of needles. Pain from overexertion, blur, unable to distinguish letters. Inability to read fine print. Myopia. Nocturnal blindness.

Face - Bloated. Child gets blue in face and can't exhale with spasmodic cough.

Female - Burning leucorrhea. Excoriation of genital organs and swelling of labia majora. Soreness of genitals. Swelling of labia and uterus.

Food - Hunger, alternating with absence of appetite. Absence of appetite in morning and repugnance to tobacco-smoke. Painful weariness and desire to sleep after a meal. Desire for salted food.

Head - Violent pain in head as if a fullness were pressing upwards. Violent headache with sensation of fullness, as if caused by a weight or by pressure, especially in the occiput. Pain above eyes. Headache from motion of carriage.

Kidneys - Frequent want to make water, especially at night, with emission of clear urine. The urine becomes turbid in morning, and deposits a sediment in evening after an attack of fever.

Limbs - Drawing and rheumatic pains in thighs, hip and foot, but chiefly in leg. Contusive pains in knee. Rheumatic pains in arms with paralytic drawings, better by movement. Uneasiness in arm, as it were insensible. Trembling in arm on resting upon it. Jerking in hand.

Lungs - Dyspnea and cannot exhale. *False croup and cannot exhale*. Sudden contraction of glottis, when drinking or talking. Asthma, as if inhaling sulphur. Asthma, has to sit up in bed, worse ice water. Asthma of consumptives or alcoholics. Foul expectoration.

Male - Itching in scrotum. Heat in genital organs.

Modalities - Better from cold, icy, weather. Better bathing, sitting up, motion. Worse night, daybreak, morning, lying down, rest, touch, after menses, ice water.

Mouth - Metallic, coppery taste, as after eating onions. Foul breath. Painful jerks in root of teeth. Bloated face.

Nose - Dryness of the nose. Nosebleeds. Fluent coryza with pain, as from excoriation in the chest. Prolonged inclination to sneeze.

Rectum - Evacuations infrequent, but liquid. Diarrhea.

Skin - Pimples on thighs, forehead, face, neck and nates.

Sleep - Short nap, seems to refresh. Awakes at night with rush of blood to lower legs. Vivid dream of water, fire.

Stomach - Pressure in stomach, with colic. Belchings, better by discharge of flatus. Sensation of emptiness in stomach and nausea. Vomits food hours after eating.

Teeth - Drawing and tearing in teeth. Sudden shocks in roots of teeth. Pains in carious teeth, molars, in lower jaw.

Temperature - Coldness predominates. Less chilly in cold air, cold water is agreeable. Evening chilliness with desire to urinate. Increased heat in morning.

Mephitis putorius

Throat - Tendency to choke when drinking and speaking. *Food goes the wrong way*. Nausea with scraping in throat.

Vertigo - Violent vertigo, worse sitting, turning in bed. Vertigo on stooping suddenly, when moving the head, when seated.

COMMENTS - Rush of warmth to various parts. Enables patients to endure extreme cold, makes them less chilly in cold weather. Washing in ice water is pleasant. Awakens at night with congestion of legs. Legs uneasy, as if they would become insensible. Fidgety feet. Short sleep seems to refresh.

Choking while eating or drinking. Cough on reading aloud, while talking and after drinking, caused by choking. Lower ribs painful to touch or pressure, especially worse on coughing or sneezing.

Neidhard gave Meph. to "a young man affected with symptoms of tuberculosis," in whom it produced "a spasmodic cough with a crowing sound, lasting all night and returning several times."

This homeopathic aggravation suggested to Neidhard to use Meph. in whooping cough and his conclusion, quoted by Hering, notes that "If the facts collected since 1851, which are numerous, do not prove that Meph. will supersede all other remedies in whooping cough, it certainly may be considered a valuable specific. In order to ensure its full success, it should be exhibited in the lower dilutions from one to three, at least in severe cases."

Guernsey gave it as: "Whooping or any other kind of cough which is very violent, coming on spasmodically and seeming as though each spell would terminate life."

Farrington said the note of Meph. is nervous exhaustion. In whooping cough the catarrh is slight, whoop decided, worse at night and after lying down. Suffocative feeling, cannot exhale, vomits food sometimes hours after eating. Asthma of alcoholics of tuberculosis patients (after Dros.).

T. M. Stewart reported the case of a man, 47, who had a constant hacking cough coming on during conversation. For this the uvula was amputated.

When he recovered from the operation he had "Coughs after reading aloud or drinking any fluid, cough spasmodic, hollow, hoarse, worse at night and on lying down, loose in mornings." Amb., Cham., Kali-bi., Rumx., Phos., failed to relieve, Meph. 1,000c. cured promptly.

A. M. Cushing called attention to the possibilities of the remedy in weak sight and told of a friend of his who had a dose directly from the skunk injected into his eyes "It was as though fire had entered his eyes." For a time he was totally blind, but when his sight returned it was so keen that he could count the panes in a window said to be two miles distant.

In another case after getting the poison out of the eye, there was for weeks after a sensation on opening the lids as of breaking glass. On Farrington's advice it was antidoted by Crot-h.

RELATIONS -Antidoted by: Camph., but only temporarily. Crot-h. relieved eye symptoms. **Compare:** (1) **Dros.**, Cor-r., Stict. (2) Whooping cough, Cor-r. has smothering before the cough and great exhaustion after. (3) Dros. has frequent spells of barking cough, worse after twelve midnight, holds sides, vomits if cannot raise sputa. (4) Cough worse from reading or writing, Aur., Nux-v., Plat. (5) Rumx. - cough at night, worse 2 a.m., Stict. with splitting headache. Aur. - awakes at night with congestion to legs. (6) Short sleep seems to refresh, Fl-ac., Menth. (7) Night blindness, Bell. (8) Aversion to tobacco smoke, Ign. (9) Easy choking, Lach. (10) Fidgety feet, Tarent., Meny. .Zinc., Caust., Ars., Asaf., Asar., Cimic., Aur. (11) Loquacity, Agar., Lach. (12) Nervous symptoms generally, Cast-eq., Mosch. **Follows well:** Dros. (in cough of tuberculosis patients).

REFERENCES - Boericke. Clarke. Phatak.

***MERCURIALIS PERENNIS

(Dog Mercury)

PHARMACY - merl. Mercurialis perennis. Dog mercury. N. O. Euphorbiaceae. Tincture of whole fresh plant in flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Amblyopia. Amenorrhea. Asthenopia. Belching. Breast disorders. Colic. Coma. Conjunctivitis. Diarrhea. Dysmenorrhea. Epiphora. Flatulence. Menses, late. Numbness. Palpitations. Pannus. Ptosis. Rheumatic disorders. Spleen disorders. **Tension.** Tongue, paralysis. Trachoma. **Vertigo.**

HERBAL - Dog's mercury is a common plant with poisonous properties, on account of which it is avoided by cattle.

HOMEOPATHIC - Meri, was proved by Hesse. Like other Euphorbians it has exceedingly acrid properties and many of its symptoms resemble closely those of the more corrosive salts of mercury.

Meri, has disorders of the muscular tissues, stomach, intestines, and bladder. Great exhaustion and drowsiness. Feeling of emptiness and weariness in the whole body. Persistent pains in muscles on motion. Prevalence of burning symptoms, irritation of eyes and nose, tenesmus after stool. Tumor at ensiform appendix, very sensitive.

Tension. Pain as if a band tied tightly across the forehead. Dragging, especially dragging down in small of back with rectal pains in groins and thigh as if a hernia might appear. Amenorrhea. Scanty and delayed menses. Dysmenorrhea, accompanied with orgasm, pains and swelling of breasts.

MIND - Hurry in movements. Excited mood like intoxication. Morose, quarrelsome. Fretful, ill-humored. Fear of insanity. Indifference to everything. Indifference to external things. Difficulty in collecting his senses. Coma.

Abdomen - Abdominal pulsation. Violent twanging in left hypochondrium. Warmth, gnawing, and pressure in spleen, worse lying down. Gnawing from pit of stomach to gallbladder. Rumbling, movings and workings in abdomen, emission of much flatus.

Back - Flushes of heat in back. Aching in nape. Drawing tearing along right scapula, extending into upper arm. Tensive dragging and dragging tearing in small of back, with anal symptoms.

Causations - Blow on the head.

Chest - Sticking in left, throbbing in right chest. Pressure and painfulness on chest in forepart and in stomach with dyspnea.

Eyes - Pain, burning, forcing-out sensation in eyes. Watery eyes. Dilated pupils with great sensitiveness of eyes to light. Asthenopia, as of a cloud, veil or cobweb before sight. Eyelids feel heavy and dry, difficult to move them. Weakness of upper lids. Trembling and twitching of upper lids. Blinking of eyes.

Face - Feeling of coldness, tension in face and head. Great redness of cheeks. Lips dry and parched with increased thirst.

Female - Amenorrhea. Menses scanty and delayed. Menses shorter with abdominal cramp too late. Menses profuse, violent orgasm of blood, great anxiety so that she nearly fainted, oppressed breathing, heat over whole body, especially head and face, anxious sweat. Dysmenorrhea, accompanied with orgasm, pains and swelling of breasts.

Food - Increased thirst with dry lips and mouth. Great dryness in mouth while eating. After eating, biting, burning on tongue, nausea, vomiting.

Head - Head confused as if inflated. Tension and heaviness of head with sensation of heat. Burning on vertex. Aching in forehead better by cold and pressure. Shooting in left forehead and temple, worse coming indoors. Numbness of occiput and vertex after a blow on head. Scalp feels tense and numb, is moved with difficulty.

Heart - Orgasm in the heart region. Constriction. Whirling and rushing, throbbing in heart, stomach and upper abdomen. Palpitations with oppression, as if chest would be constricted after stooping.

Kidneys - Burning, prickling, crawling in urethra and prepuce, with crawling in anus and tearing and dragging in small of back. Frequent urging with burning, urination somewhat increased.

Limbs - Tired and weary. Weakness of arms and legs as if she would fall to left without vertigo. Tearing, stitching, burning and smarting pains in limbs, almost in the skin, especially of hands and feet. Jerking, sticking, drawing tearings throughout upper limbs. Pressive tearing pain in tibia. Jerking tearing in left patella. Painful ache in knees.

Liver - Pressure in liver region extending to spleen. Sticking pain in liver.

Lungs - Breath hot, almost burning, lips almost made sore by it. stertorous, difficult breathing, especially right side.

Male - Dragging in inguinal region, at times sticking pain, worse walking, at times extending down into spermatic cord, sometimes one, sometimes both.

Modalities - Better by cold. Touch aggravates. Headache worse indoors. Sunlight aggravates the eyes. Open air causes blinking.

Mouth - Dryness of mouth, difficult to move tongue, impedes chewing. Burning in mouth and tongue.

Nose - Crawling and burning of nose. Sensation of heat rising from stomach into nose. The breath from nose is cold. Conscious of having a nose, nostrils feel sore. Feels as if she had two noses.

Rectum - Dragging, pressing in rectum, with pressure and tension in small of back. Dragging, burning, crawling, itching, smarting in anus. Diarrhea with constant colic. Thin stools. Profuse, soft stool followed by some straining.

Sensations - Heaviness in head as if pressed on pillow with a weight.

Skin - Pimples on chin with biting, itching. Burning, itching, tearing on skin.

Sleep - Frequent yawning and weariness. Dizzy sleepiness. Sleep unrefreshing, full of dreams, of animals.

Stomach - Chilly feeling or burning in stomach. Belching relieves. Vomits food as soon as eaten. Tumor inside pit of stomach size of hen's egg, worse pressure, cannot bear clothing.

Temperature - Cold over the whole body with hot flush in face. Goosebumps on the cold right arm, extending over whole body. Chill on going to bed in evening. Heat with intense thirst, perspiration in morning.

Throat - Burning dryness in throat. Ulcers on palate, tonsils and back of pharynx.

Tongue - Tongue feels heavy and dry, numb, insensible, with loss of taste. Burning blisters on tongue, inside of lips and cheeks, forming very painful spreading ulcers. Tongue painful if it touches palate as if there were blisters on it.

Vertigo - Giddiness. **Vertigo by going downstairs.** Whirling vertigo. Vertigo as if intoxicated, following headache. Feeling as if body would fall towards left side, when sitting, standing or even lying.

COMMENTS - Cooper said, "Compared with other Euphorbians, it dries up the mucus surfaces, causing burning locally and a general drowsiness, while the other Euphorbians set up violent irritation and diarrhea from the first. Moreover, its action is not expended on the skin so soon as that of the others."

Remarkable dryness of the mouth and throat, even sugar refuses to melt in the mouth. Eating aggravates the dryness. The breath from the mouth is hot and dries the lips. Hot or cold breath in the nose. Conscious of having a nose, "she feels as if she has two noses."

Head confused as if inflated. Numbness of head and dullness of mind. Vertigo as if intoxicated. Vertigo by going downstairs. Rolling, throbbing, trembling and orgasm in all the veins. The liver and spleen are influenced, warmth in spleen. Tension in rectum and back.

RELATIONS - Antidoted by: Aeon., Bell. **Compare:** (1) Euph., Croto-t., Acai. (2) In worse descending stairs, Bor. (3) Straining after stool, Merc. (4) Dragging pains, Lil-t. (5) Numbness of head, Graph, (feels like wood). (6) Asaf., Caust., Kali-bi., Kreos., Lach., Led., Mag-m., Nat-m., Nat-ac., Nux-v., Nux-m., Rhod., Sulph., Thuj.

REFERENCES - Clarke.

***MERCURIUS ACETICUS

(Mercury Acetate)

PHARMACY - merc-acet. Mercurius aceticus. Mercury acetate. Subacetate of Mercury. Trituration. **Historical dose:** All potencies.

CLINICAL - Chancre. Eyes, disorders. Dyspnea. Dysuria. Fávus. Sternum, pressure. Syphilitic ulcer. Throat, sore. Tinea favosa. Ulcers.

HOMEOPATHIC - Hahnemann made a separate proving of Merc-a. which has furnished a few symptoms, not greatly differing from those of Merc. Hahnemann noted a symptom referring to the menses which came on at the new moon, four days before their proper time. The medicines whose action is influenced by the moon's phases are not numerous and thus worth remembering.

Congestion with stiffness, dryness and heat of parts affected. Lack of moisture. Throat dry, talking difficult. Throat lacerations, worse by coughing rather than by swallowing. Eyes inflamed, burn and itch.

Tinea capitis favosa, margin of ulcers painful. Chancre in urethra. Inflammation of the penis, worse cold water, better bathing with tepid water. Pressure in lower sternum and dyspnea on standing erect.

COMMENTS-Hansen said that burning in the urethra during urination and at other times has been confirmed in practice. He commended it in tinea favosa on a syphilitic base and for sharp pains in tabes syphilitica.

Donner of Stuttgart cured with Merc-a. a very painful syphilitic ulcer in the urethra.

RELATIONS - Compare: (1) Merc., Luna.

REFERENCES - Clarke. Hansen.

***MERCURIUS CORROSIVUS

(Corrosive Sublimate)

PHARMACY - merc-c. Mercurius corrosivus. Corrosive sublimate. Mercuric chloride. Mercurius sublimatus. Triturations. Solution. **Historical dose:** All potencies.

CLINICAL - **Albuminuria.** Aphthae. Appendicitis. **Bladder, disorders.** Bones, disorders. Bright's disease. **Burning, pains.** Cancrum oris. Chancres. **Cystitis.** Delirium. Dermatitis. Diarrhea. **Dysentery.** Eczema. Edema. Esophagus, stricture. Eye, disorders. Fevers. **Gonorrhea.** Gums, disorders. Intestinal, fever. Intestines, ulcerated. Intussusception. **Iritis.** Jaundice. **Kidney, disorders.** Labor, pains. Leucorrhea. Measles. Miscarriage. Mouth, disorders. Mumps. **Nephritis.** Neuralgias. Paralysis. Paraphimosis. Pemphigus. Perimetritis. Peritonitis. Phagedenic, ulcers. Photophobia. Prosopalgia. Puerperal, fever. Pyorrhea. Retinitis. Rigg's disease. Syphilis. Tabes, mesenterica. Taste, disordered. **Tenesmus.** Throat, inflamed. Tongue, disorders. **Ulcers. Urethritis.** Uvula, elongated.

HOMEOPATHIC - Merc-c. is a powerful disinfectant and has a greater rapidity of action than Merc., causing violent effects. The chief effect of the chlorine element in this salt appears to be to intensify the mercurial action. The burning of Merc-c. is more intense than other mercury salts.

Inflammation with swelling and feelings of constriction. Internal burning in the throat, stomach rectum, neck of bladder and kidneys. Constriction of throat, rectum, bladder. **Severe painful cystitis.** Bright's disease. **Albuminuria** in early pregnancy, (Phos.). Destroys the secreting portions of the kidneys.

Dysentery. Severe **tenesmus of the rectum**, which is incessant and is not relieved by the stool. Tenesmus often involves the bladder as well. Dysenteric straining is excessive, for this reason Merc-c. is more generally prescribed in dysentery than Merc.

Syphilis. Gonorrhea, in the second stage with continuous tenesmus. Phagedenic ulcers. Chancres spread with great rapidity. Discharges acrid, tears, nasal discharge.

Cracks on palms, soles, corners of mouth. Tibial pains. Lies on back with knees drawn up.

MIND - **Restlessness at night.** Anxious and restless, rocks back and forth. Anxiety during fever. **Anxiety during sleep after menses.** Fear arising from heart. Fear of misfortune. Anguish with pain in abdomen. Ill-humor. **Irritability in daytime.**

Absent-mindedness. Confusion of mind. Difficult thinking. Disturbed speech. Wandering thoughts while talking. Stupid. Imbecility. **Mind sluggish with torpid digestion.**

Coma vigil. Stupor. Stares at persons who talk to him and does not understand them. Delirium, springs up suddenly from bed and escapes. Shouting, brain cry.

Abdomen - Bloated, very painful to least touch. Bruised sensation, cecal region and transverse colon painful. Stitches in hepatic region. Pain in liver and right shoulder with frequent nausea and obstinate chronic constipation. Cutting colic, below navel. Painful flatulence. Appendicitis.

Back - Pott's disease, lies on back with knees drawn up. Cervical glands hard and swollen. Dorsal decubitus.

Bladder - **Severe, painful cystitis. Tenesmus of bladder.** Intense burning in urethra. Stabbing pain up urethra into bladder. **Urethritis.** Burning and painful urination. Dribbling of urine, worse sitting. **Albuminuria, during pregnancy,** from abuse of alcohol. Urethra bleeds after urinating.

Breasts - Glandular swellings about the nipples. Nipples crack and bleed, pain worse when nursing.

Chest - Constriction of the chest. Stitches through side of chest. Frequent stitches shoot through thorax. All glands about thorax swollen.

Ears - Violent pulsation in ears. Stitches in ears with inflammation. Fetid pus.

Eyes - **Burning, soreness of eyes.** Pain severe at night, burning, shooting, tearing. Pain behind eyeballs, as if forced out. **Iritis** normal or syphilitic. **Iris muddy in color, thick and neither contracts nor dilates.** Retinitis, albuminuria. Deep ulcers on

cornea. Acrid lachrymation. Ophthalmia neonatorum. Excessive photophobia. Objects appear smaller or double vision. **Eyelids edematous** red, excoriated.

Face - Red, puffy. Edematous swelling of the face. Yellow face. Face pale and anxious. Pale about mouth. Cracks in angles of the mouth. Lips, black, dark red, swollen, tender. Upper lip swollen and turned up. Jaws stiff. Necrosis of lower jaw. Darting pains along upper jaw, gums and roots of teeth. Swelling and tenderness of submaxillary glands. Facial neuralgia within the bones.

Female - Menses too early and too profuse. Burning heat and pain in genitals. **Vaginitis. Urethritis.** Mucus discharge as thin as water. Leucorrhea, pale yellow with sweetish nauseous smell. Fibroid tumors with profuse, muco-purulent, excoriating leucorrhea. Aching pain succeeding pressing or touching os uteri during sex.

Food - Attacks of violent hunger or no appetite. Great desire for cold food. Worse fat food. Unquenchable thirst, for cold drinks. Fluids return through nose.

Head - Heaviness of head. Frontal pain, congestion of head with burning in cheeks. Drawing pain in periosteum of skull. Pain in temples, worse looking sideways. Profuse sweat on forehead. Falling out of hair.

Heart - Tremulous undulating motion of heart, precordial anxiety. Pains in precordial region. Pulse rapid and intermittent, small, irregular. Palpitations during sleep.

Kidneys - Nephritis. Bleeding kidneys. Gonorrhea. Paraphimosis. Tenesmus of bladder, rectum. Frequent urine, pale, copious, dribbling, worse sitting. **Urine hot, burning,** scanty or suppressed. **Albuminous urine.** Urine bloody, **greenish discharge.** Urine brown, with brick dust sediment. Urine contains filaments, flecks or flesh-like pieces of mucus. Urine contains fibrin or fat globules. **Urine passed drop by drop.** Urethra bleeds after urinating. Sweats after urination.

Limbs - Paralysis of limbs, trembling. Pains wandering from joint to joint, compelling him to stay in bed. Rheumatic pain after suppression of gonorrhea. Coldness in limbs, look purple. Feet icy cold. Cramps in calves in dysentery. Exostoses, on shin, sternum, ribs. As if legs had gone to sleep. Deltoid feels relaxed.

Lungs - Very difficult breathing. Slow, interrupted breathing. Sighing with palpitations. Burning and stinging in trachea. Breathes as through a metallic tube. Breathes through pectoral muscles. Cutting pain in larynx. Cough with bloody expectoration. Greenish mucus, worse at night. Asthmatic coughs, worse talking.

Male - Penis and testes enormously swollen. Chronic balanitis. Paraphimosis. Chordee, worse sleep. Painful stinging in left testicle. Hard, phagedenic chancres. Greasy, fatty, offensive smelling discharge. **Gonorrhea,** discharge thick, greenish. **Urethritis.** Urethra orifice red, swollen, glans sore and hot. Violent erections during sleep.

Modalities - Better while at rest. Pain in hip joints better from motion. **Worse after urination and stool,** swallowing, acids, fat food. Worse from sex, motion. Worse night, cold, open air, autumn, hot days and cool nights. Dysentery and summer complaints from May to November.

Mouth - Salivation with salty taste. Metallic taste. Taste, astringent, salty, bitter. Discharge of albuminous mucus from mouth. Burning, scalding sensation in mouth. Aphthae, ulcers. Pyorrhea. Gums, purple, swollen, spongy with toothache. Teeth loose, nightly toothache. Necrosis of lower jaw.

Nose - Swollen, red nose. Rawness, smarting, burning and soreness of nostrils. Postnasal swelling, mucus membrane dry, red and covered with bloody mucus. Gluey nasal discharge. Stopped-up feeling with running of nose. Excessive coryza. Fluent, acrid coryza. Discharge excoriates upper lip. Ozaena with perforation of septum nasi (Kali-bi.). Frequent epistaxis.

Rectum - Violent burning in rectum. Burning in anus during stool. Continuous urging to stool and urine.

Dysentery, tenesmus, not better stool. Most extreme tenesmus, with scanty evacuations of mucus and blood. Constipation, tenacious feces. **Never get done feeling.** Sweats before and after stool. Hemorrhoidal colic with congestion of liver and abdominal venous stasis. Spasms of rectum during sex.

Perspiration - Perspiration after urinating. Sweats from every motion, partial worse forehead and lower parts, foul, at night. Profuse sweat surfaces cold. Perspiration after urinating. Perspiration before and after stool. Foul sweats. Perspiration at night. Offensive sweats, towards morning. Cold sweats, often only on forehead, also general with anxiety.

Skin - Cold. Burning, stinging heat in skin. Burning and redness of skin with formation of small vesicles. Ulcers, perforating, spreading, serpiginous. Scorbutic spots over whole body, mingled with itchlike eruptions. Herpes and boils. Severe eczema from sweating parts of body. Condylomata. Nails gray colored.

Sleep - Frequent yawning and stretching. Sleepless at night. Starting from sleep. Sleeplessness from vertigo or anxiety. Wakeful after 3 a.m. Violent hiccough during sleep. Disturbed by toothache with anxious sensation. Frightful dreams.

Stomach - Burning gnawing, darting pains in stomach. Cramps in stomach and vomiting after eating rye bread. Cramp in epigastrium, worse least touch. Epigastrium very sensitive. Distention and soreness of the pit of stomach. Gastritis. Regurgitation, astringent. Spasmodic constriction of esophagus and stomach on attempting to swallow a drop of water. Spasmodic and very painful retching. Incessant, green, bilious vomiting. Vomiting of tenacious mucus with blood.

Stools - **Stools, hot, bloody, slimy offensive**, with cutting pains and shreds of mucus membranes. Stools yellow, green, bilious. Stools pasty, dark green, blackish, offensive. Oozing of corrosive ichor from anus, excoriating external parts. Passes pure

blood or bloody water. Stools followed by slime and blood. Stools worse after midnight, worse autumn.

Teeth - Toothache at night. Teeth loose. Gums red and detached from teeth. Gums purple, swollen with toothache and spongy. Gums bleed easily. Pyorrhea,

Temperature - Chilly from slightest exposure, exertion. Chills when rising. Chilly after stools. Profuse perspiration, surfaces cold. Heat, fever when stooping and coldness when rising. Heat of skin causes great restlessness at night. Fever with anxiety. Fever often temporarily better drinking cold water. External heat with yellow skin.

Throat - **Burning, sore, red, painful swelling**, worse heat. Dark red color. Uvula, red, swollen, elongated.

Tonsils swollen, covered with ulcers. Glands about throat swollen. **Swallowing difficult and painful.** Spasmodic constriction of glottis, on attempting to swallow a drop of liquid. Pricking in throat as from needles.

Postnasal discharge with sharp pains to ears, worse pressure. Pain in larynx as cut with knife. Hoarseness quickly alternating with normal voice. Aphonia.

Tongue - Tongue coated and moist, with red edges. Tongue, patchy, swollen and inflamed. Papillae elevated, strawberrylike. Tongue very red, with blackish coat. Tongue covered with a grayish white crust. Tongue protruding from swollen lips. Tongue could not be protruded.

Vertigo - Vertigo with deafness when stooping. Vertigo with coldness, cold sweat.

COMMENTS - As with other ulcerating remedies, Merc-c. is a powerful antiseptic and disinfectant. Being much less irritating than carbolic acid, it took the place of the latter as the leading antiseptic. Before the proper degree of dilution had been ascertained many patients were poisoned by its external use.

In some of the poisoning cases, the bladder was found after death firmly contracted into a small hard lump. Keynote intense tenesmus of bladder with intense burning in urethra and discharge of mucus and blood with the urine or after it. Intussusception.

Tenesmus is worse or not relieved after the stool. Tenesmus with dysentery. Diarrhea with a "never-get-done feeling." Membranous threads in stool, blood, weakness, faintness, shuddering. Urine is albuminous, scanty, hot, bloody, may be retained or suppressed.

Gonorrhea. Greenish-yellow or bloody and watery discharge with violent burning, urging and painful erections, dark purplish swelling. Glans has a dark red or gangrenous appearance. Phimosis or paraphimosis.

Rapidly spreading chancres. Serpiginous ulcers, ulcers with ragged edges that will eat away half the penis in a few days. Skin disorders including syphilitic roseola, smallpox and condylomata.

Tibial pains, particularly when present in cases of enteric fever or after enteric fever, with symptoms of intestinal ulceration. Rheumatism and rheumatic fever (Merc.). Raging thirst for cold things. Desire for cold food and intolerance of hot things.

Sore throat characterized by the rapid spread of the infection and by the intensity of the burning pains. Constriction of the gullet, any attempt to swallow solids or liquids causes violent spasms and immediate ejection. Cutting pain, as from a knife in throat.

Thick and glue-like nasal catarrh, acrid excoriating. Tearing pains in bones and around eyes. Scrofulous,

syphilitic ophthalmias. Burning, agonizing pains with excessive photophobia, causing excoriation of cheeks. Clarke learned from Dr. McKechnie that long uvulas sometimes give rise to irritating coughs. If a low trituration of Merc-c. is applied to the uvula on a brush, it will in many cases immediately, and often permanently, relieve the trouble.

A patient of Clarke's who was treated under allopathic treatment with a solution of Merc-c. injected into his urethra for gonorrhea, not only suffered intensely in the urethra at the time, but for years afterwards had a painful spasm of the rectum every time he had sex.

Unna reported two cases of elderly women poisoned by sublimate lotion, lint and gauze after ablation of the breast. The dressings were removed on the second day in each case. The first symptoms were intense irritation of the skin and diffused redness of the part. The wounds failed to heal by first intention.

Widespread dermatitis followed and in the course of a few days a diffuse erythema spread over the whole body, creeping onwards like "water on blotting paper." Some fever, general malaise, nausea, restlessness.

In one case, the eruption lasted three weeks and changed its type, "scattered urticarial and erythematous itching spots on all parts of the body suggested that there was at that period a poisoning of the more central nervous system."

R. C. Markham recorded a cure with Merc- c. after the failure of Merc, in a case of dysentery. The symptoms were stool with bloody mucus, tenesmus after the stool, cutting colic below umbilicus, nausea, and perspiration before and after stool, most pronounced on lower part of body and thigh.

The symptoms of colic and perspiration were not found under Merc., but were under Merc-c. The patient felt better within ten minutes of receiving a dose of Merc-c. 1,000c.

RELATIONS - Antidote: Calc-s. is antidotal to bichloride poisoning. Use intravenous injection of 7 grains in 7 oz's. boiled water.

Compare: (1) Ars., Lach. (2) Leon., Mons. - an African plant belonging to the Germaniacee used for dysentery in material doses.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***MERCURIUS CYANATUS

(Mercury Cyanide)

PHARMACY - merc-cy. Mercurius cyanatus. Mercury cyanide. Bicyanide of Mercury. Solution. Trituration.

Historical dose: All potencies.

CLINICAL - Albuminuria. Anorexia. Aphthae. Bilious. Coldness. Cyanosis. Diarrhea. **Diphtheria.** Dysentery. Edema. Enteric fever. Hoarseness. **Hemorrhages.** Keratitis syphilitica. Nausea. Nephritis. Phlebitis. Pneumonia. **Prostration.** Salivation. Throat, sore. Twitching. Typhoid. **Ulcers.** Varicosis. Vomiting.

HOMEOPATHIC - Merc-cy. is a valuable remedy for toxemia of acute infections, diseases, especially diphtheria, when there is early rapid and extreme prostration with cyanosis, coldness and tremors. Its action is similar to that of toxins in infectious diseases.

Acute infections. Great and rapid prostration. Livid states from great struggling, where suffocation is imminent and paralysis of lung threatening, great sweat. Rapid local destruction. Syphilitic ulcers when a perforation is threatening. Putridity. **Hemorrhages of dark fluid blood.** Twitching and jerking of muscles.

Affects most prominently the mouth, throat and larynx. Typhoid pneumonia. Cyanosis, rapid respiration and heart action. **Malignant diphtheria with prostration.** Efficient prophylactic in diphtheria. Coldness and nausea. Nephritis. Albuminuria.

MIND - Great excitement, fits of passion. Fury. Talkativeness. Frequent spells of unconsciousness.

Abdomen - Painful, tender to pressure. **Back** - Constricting, between scapula.

Eyes - Eyes sunken, fixed. Injected and staring eyes, with barking cough at night.

Face - Face pale.

Food - Thought of food causes retching.

Anorexia. Solids are swallowed better than liquids, which escape through nose. Milk relieves in general. Excessive ill-humor, after eating a little too much.

Head - Atrocious headaches, worse night.

Heart - Weak.

Kidneys - Nephritis with great debility and chilliness. Suppression of urine. Amber colored urine, very painful, albuminous, scanty.

Limbs - Varicose veins with great tenderness of leg (left). Cold limbs.

Lungs - Cutting pain in larynx. Croupy cough, causes suffocation. Hoarseness, talking painful.

Modalities - Better milk. Worse from speaking. Worse swallowing. Worse after eating.

Mouth - Astringent taste. Fetor of breath. Free salivation. Aphthae on tongue and lips, with a thick, yellowish

white scab. Very painful, forming ulcers. **Ulcerations of mouth** with agray membrane. Pain and swelling of salivary glands. Edema of soft palate. Gums swollen and covered with a white, adherent layer, under which is found a violet border.

Nose - Profuse nosebleed, dark blood, several times a day.

Perspiration - Moisture, sweat with icy coldness of skin. Profuse, sticky sweat on upper half of body. Cold sweat on forehead and cheek.

Rectum - Redness around anus. Intolerable pain. Frequent diarrhea preceded by severe colic. Stools are offensive, green, slimy, bloody and black. Discharge of fetid liquid with gangrenous odor. Frequent hemorrhage. stools with tenesmus.

Skin - Moist and cold skin.

Stomach - Early and complete anorexia.

Incessant hiccough. Thought of food causes retching. Nausea. Bilious, bloody vomiting.

Throat - Intense redness of fauces. Feels raw and sore. Looks raw in spots, especially in public speakers. Hoarseness and talking is very painful. Swallowing very difficult, cutting pain on swallowing. Much thick grayish membrane in the throat. Mucus membranes broken down, ulcerated. **Necrotic destruction of soft parts of palate and fauces.** Septic diphtheria. Diphtheria of the larynx and nose (Kali-bi.). Tonsils enlarged. Dark blood from nose.

Tongue - Aphthae on tongue. Tongue pale with yellowish streak on base. Tongue swollen, edges red, tip dark red. Tongue dark red, almost black.

COMMENTS - When Dr. Alexander Villers was an infant, he had diphtheria. Known remedies had failed to arrest the disease. His father, Dr. Dominic von Villers, was in despair.

Taking counsel with his friend, Dr. Beck (of Monthly in Switzerland), the latter was struck with the likeness of the case to the effects of Merc-cy. in some poisoning cases, reports of which he had just been reading and he suggested the remedy.

A small quantity of the salt was procured and a potency was rapidly made and administered.

Improvement soon set in and recovered followed. Alexander Villers, saved by Merc-cy., lived to do brilliant work with the same remedy when practicing in St. Petersburg.

Merc-cy. has taken a sure place at the head of remedies for diphtheria, and as an efficient prophylactic in diphtheria cases. Villers had better results with the 30c than with any lower potency.

In the sensational New York poisoning case of February, 1899, Mr. Henry C. Barnett, the victim, was treated for diphtheria by his doctors before the cause of the illness was discovered.

Nash reported as particularly indicating it a chronic sore throat of public speakers with rawness in spots and abroken-down appearance, as if about to ulcerate and the feeling that "it hurts the patient to speak."

Diphtheria membrane in throat, mouth and at anus. Swallowing is impossible or causes severe cutting pains. Thought of food causes retching.

Beck noted the extreme feebleness, trembling, syncope. Profound prostration. Icy coldness, general coldness with nausea. Dark and persistent hemorrhage. Varicose veins with great tenderness on left leg. Cyanosis.

RELATIONS - Compare: (1) Arum-t., Caust., Hep., Kali-bi., Phyt., Echi., Lach., Gels.

REFERENCES - Boericke. Clarke. Phatak.

***MERCURIUS DULCIS

(Calomel)

PHARMACY - merc-d. Mercurius dulcis. Calomel. Mercurous chloride. Subchloride of mercury. Trituration.

Historical dose: All potencies.

CLINICAL - Aphthae. Blepharitis. Catarrh. Cirrhosis. Condylomata. Conjunctivitis. Constipation. Deafness. Diarrhea. Dysentery. **Ear, disorders. Eustachian, catarrh.** Gastro- malachia. **Glue ear.** Jaundice. Meningitis. Nausea. **Otitis media.** Peritonitis. Pharyngitis. Pleurisy. **Prostatitis. Swimmer's ear.** Throat, sore. Ulcers. Vomiting.

HOMEOPATHIC - Merc-d. is responsible for a large amount of the mercury treatments of the past and for some of the present. As a comparatively mild and slow-aching form of mercurial, it has none of the corrosive effects Merc-c., but it has all the power of the metal in it, and it has had its own share of disasters.

It was at one time almost the only recognized remedy for constipation and any affection that could be ascribed to the liver. Some homeopaths adopted a modification of this by prescribing Merc-d. lx in two-or three-grain doses as a direct purgative. As Merc-d. has caused both constipation and diarrhea, it is probable that the action is roughly homeopathic.

Keynote pallor, "pale as a corpse." A flabby, bloated appearance, ill nourished. Pale mucus membranes. Catarrhal inflammation of the ear. **Eustachian catarrh** and deafness (Kali-m.). **Glue ear. Swimmer's ear**

infection.

Diarrhea with soreness of anus. **Prostatitis.** Inflammation with peritonitis, meningitis, pleurisy. **Flabby, bloated** and turgid flaccidity. Indicated in remittent bilious fevers in peritonitis and meningitis. Biliary stasis. For scrofulous children who are liable to remittent bilious attacks. Pale, scrofulous children who have swelling of cervical and other glands.

MIND - Bilious temperament. Moody, gloomy and irritable. Nervous, restlessness and agitated. Apprehensive. Anxiety about health. Hypochondriasis. Fear of impending disease. Whimpering. Desire to be silent, taciturn.

Abdomen - Violent pain in abdomen, griping, tenderness. Bloated, hot, painful abdomen.

Back - Swelling of cervical glands.

Chest - Great oppression in chest and heart.

Constitutions - Pale, scrofulous children, who have swelling of cervical and other glands.

Ears - **Otitis media.** Scrofulous otitis. Ear troubles of scrofulous children. Sudden fluttering. Itching in external meatus. **Closure of eustachian tubes. Eustachian catarrh** (Kali-m.). Eardrum retracted, thickened and immovable. **Glue ear. Swimmer's ear infection.** Deafness, occasioned by a swelling, which compresses eustachian tube. Deafness from every cold of old age. Deafness of old age.

Eyes - **Irido-choroiditis.** Scrofulous ophthalmia. Ciliary blepharitis. Eyes, red, dry. Gummy secretion on edges of lids, later, smarting and indistinct vision. Closure of lachrymal duct. Rapid winking. Symptoms worse after exercise and when heated from exercise.

Face - Face flushed, pale as a corpse. Swelling of cheeks. Exfoliation of lower jaw and death.

Female - Broad, moist and burning condylomata around external genitals, perineum and anus of exceedingly offensive smell.

Head - Painful scalp. Heaviness across forehead. Falling off of hair.

Limbs - Rheumatic stiffness and catching pain in muscles of legs and knee joints. Cramps in calves at night. Trembling of hands and feet.

Male - Acute inflammation of prostate after suppressed gonorrhea. Burning, pressing pains. Stinging and itching just back of corona glandis. Intense dysuria, urine scanty.

Modalities - Better from cold drinks, worse from acids.

Mouth - Offensive breath, salivation, sore gums. Constant flow of dark, fetid, putrid saliva, very offensive. Ulceration of throat

with dysphagia. Granular pharyngitis. Aphthae on tongue. Tongue indented indurated, black. Ulcers in mouth, bleeding throughout night. Difficult to open mouth.

Nose - Blows lumps of mucus from nose. Dry, crusted nostrils. Sore right nostril. Violent nosebleed.

Rectum - Obstinate constipation. **Anus is sore and burning.** Condylomata around anus. Tenesmus, constant disposition to stool. Dysentery, small stools of **mucus and blood, covered with bile.** Diarrhea with vomiting.

Skin - **Flabby and ill nourished.** Swollen glands. Desquamation of skin, especially of hands and feet. Copper-colored eruptions. Phagedenic ulcers with white bases and painful and inflamed margins in mouth, palate, face, genital and other parts.

Stomach - No appetite. Urgent thirst. Weight and pain at epigastrium. Nausea and vomiting. Cyclic vomiting of infants (Cupr-ar., Iris.).

Stool - Dysentery, small stools of mucus and blood, covered with bile. Black stools with great epigastric oppression, sinking. **Stools scanty, bloody mucus, with bile, and constant desire,** without tenesmus. Stools coppery green, like chopped eggs. Dark green, watery stools, with griping. **Acrid, grass-green diarrhea** of infants, without tenesmus. Watery stools, colorless, or as if mixed with flocculent matter, or like washings of meat, occurring most often at night.

Teeth - Violent burning in teeth. Teeth become bare, shake and fall out. Gums swollen and bleeding when touched.

Temperature - Feverish heat, profuse nocturnal sweat, tearing pains in limbs, prostration of strength and trembling. Fever, sometimes hot, putrid.

Throat - Excessive ulceration of throat. Difficulty of swallowing.

COMMENTS - Blocked Eustachian tubes. Eustachian catarrh (Kali-m.) and deafness. Otitis media with closure of Eustachian tubes. Scrofulous inflammation in general, particularly of the eyes. Peritonitis. Soreness around the anus.

Hale noted its use in dropsies due to combined kidney and cardiac diseases, especially with jaundice. Cirrhosis of the liver, especially in the hypertrophic form.

Calomel in old-school practice rapidly resolved and cured a violent meningitis with wild delirium in a girl of five. In this case there was probably plastic exudation on the membranes. Inflammation with plastic exudation.

RELATIONS -Antidotedby: Hep. **Compare:** (1) Kali-m., Hydr. (2) In stringy stools, Sul- ac. (3) Catarrhal inflammation of middle ear, eustachian tube closed, deafness of old age, Kali-m.

REFERENCES - Boericke. Clarke. Murphy.

***MERCURIUS IODATUS FLAVUS

(Mercury Iodide)

PHARMACY - merc-i-f. Mercurius iodatus flavus. Mercury iodide. Mercurius protoio- datus. Green iodide of mercury. Trituration. **Historical dose:** All potencies.

CLINICAL - Blepharitis. **Breast, tumors.** Catarrh. Chancre. Crusta lactea. Diphtheria. Eyes, disorders. Goiter. Intra-ocular disorders. Leucorrhea. Ozaena. Pregnancy, vomiting. Scabies. Syphilis. **Throat, sore.** Tonsillitis. Toothache. Writer's cramp.

HOMEOPATHIC - Merc-i-f. has had a valuable proving that developed a distinct individuality based on the general Merc, characteristics. Some symptoms of Merc-i-f. are very similar to Lyc, and Lyc. relieved some of the symptoms of the proving. The right-to-left direction was manifested in the throat and chest symptoms, but, unlike those of Lyc., the throat symptoms were worse by warm drinks.

Merc-i-f. has a strong affinity for glands of the throat, lymphatic and breasts. Throat disorders with greatly swollen glands and a characteristic coating of tongue. **Sore throat, worse on the right side.** Much accumulation of tenacious mucus in the throat. Characteristic thick yellow coat at the base of the tongue, anterior part clean and red.

Chancre induration remains a long time. Cervical and parotid glands enormously swollen. Goiter. Swollen inguinal glands, large and hard. **Breasts tumors** with tendency to much warm perspiration and gastric disturbances.

Pains in the eyes and orbits. Farrington mentioned "corneal ulcers looking as if they had been chipped out by finger-nail." Deep bone pains especially at night. Syphilis.

MIND - Capricious. Mood is changeable, variable. Moody and depressed. Anxiety. Full of cares and worries. Fear in narrow places, claustrophobia. Fear of suffocation. Confusion in warm room, better walking in open air. Confusion of mind, worse on waking.

Indolence, aversion to work. Irritability during pain. Destructiveness, can scarcely resist temptation to throw lamp through window. Lively, merry, talkative. Elated. Loquacity.

Abdomen - Pain in abdomen with pain in heart. Hardness of abdomen, as from flatulence. Faint sick feeling in hypogastrium before stools. Burning at umbilicus as from a hot coal, worse when inspiring. Indolent buboes.

Back - Sharp pain in back. Neck stiff. Bruised feeling over entire scapular region. Throbbing pain between scapula.

Breasts - Breast tumors with knots in axilla, blueness of the part, warm perspiration and gastric disturbances.

Causations - Cold draft when perspiring. Cold, damp weather, spring.

Constitutions - *Suited to scrofulous and syphilitic patients, to mucus surfaces covered with squamous epithelium, to effects of drafts while perspiring.*

Ears - Sudden, sharp pain in ears, worse touch. Throbbing, boring pains from within outward, deep in left ear.

Eyes - Dark circles around the eyes. Keratitis, cornea looks scratched or chipped out by fingernail. Photophobia. Throbbing, aching pains at night. Pannus. Ptosis, alternating with dimness of sight of left eye. Granular lids. Swelling below right eye.

Face - Dull aching and soreness in bones of face. Stinging pain in left cheek.

Female - Yellow leucorrhea of very young girls. Copious, muco-purulent discharge from vagina.

Food - Appetite variable, worse sweets. Excessive thirst for cold water, sour drinks.

Head - Catarrh of frontal sinuses, with offensive discharge. Dull frontal headache with pain at the root of nose. Throbbing, bursting sensation in temples. Shooting or sharp pains in temple. Soreness and stiffness in occiput. Headache better when mind and body actively engaged. Head pain follows heart pain. Itching of scalp, worse at night.

Heart - Pains in heart, preceded by headache. Suffocation about heart with nausea and dizziness. Palpitations with dyspnea, worse lying on back. Feeling as if heart had jumped out of its place. Pulse weak, irregular and labored.

Kidneys - Urine, copious, dark red, scanty.

Limbs - Excessive tired feeling of all limbs. Heaviness of limbs with indolence and drowsiness. Knees numb. Laming pain in right arm worse writing. Pain in right forearm with pain in left hip.

Male - Hard chancres, painless, with enlarged inguinal glands, not disposed to suppuration. Dreams of urination followed by seminal emission of which he knew nothing.

Modalities - Better from open air. Tired feeling in all limbs better lying on right side. Worse cold and damp

weather, spring. Worse night, before 1 a.m., on waking, rest, lying on left side, warmth of bed, warm room. Worse raising up, touch, pressure, odors, warm drinks. Faint feeling worse at church.

Mouth - Bad taste in mouth. Coppery smell from mouth. Mouth, lips and tongue dry and sticky. Fine bright red eruption on roof of mouth. Stiffness of jaws, with inability to open mouth.

Nose - Mucus descends through posterior sinuses into the throat, causing hawking. Thick plugs of nasal secretion, with severe frontal headache. Chronic catarrh of posterior nares. Nostrils dilated with every inspiration. Shooting pain at root of nose, worse morning in waking.

Rectum - Diarrhea or discharge of fetid flatus, preceded by cutting, colicky pains. Frequent urging to stool. Black discharges with or without stools. Stools tough, almost like putty, with much straining. Stools thin, light-yellowish brown, frothy, soft, copious, dark.

Skin - Troublesome itching over whole body, worse at night. Persistent itching spots over whole body. Bright red, fine eruption on chest and abdomen. Flat warts.

Sleep - Sleeplessness without restlessness. Restless sleep from constant itching. Amorous dreams. Frightful dreams, nightmares. Dreams that he must urinate.

Stomach - Weak empty feeling in stomach. Burning at stomach with pain as from a blow. Sharp pain worse pressure. Cutting pain with nausea and inclination to vomit. Nausea at the sight or odor of food. Persistent nausea. Nausea with dizziness and suffocation about heart. Morning sickness.

Teeth - Desire to clench the teeth, jaw is stiff and tired from grinding, pain in teeth during sleep. Teeth sensitive, worse heat, cold and sweets. Teeth feel too long, cannot eat. Toothache after filling. Pyorrhea.

Throat - **Sore throat, goes from right to left.** Swelling begins on right side. Tonsillitis. Tonsils swollen, better cold drinks. When only the superficial part of the tonsils is involved. **Constant inclination to swallow.** Sensation of a lump. Small ulcers on posterior pharynx. Easily detached patches on inflamed pharynx and fauces, **worse on right tonsil**, much tenacious mucus. Cheesy exudates with offensive breath. Goiter with suffocation.

Tongue - Tongue coated moist filmy. **Tongue coated thickly, yellow at the base.** Tip and edges may be red and take imprint of teeth.

Vertigo - Faint or dizzy on rising from a chair or when reading.

Vision - Impaired vision with weakness of internal recti. Diplopia on holding eyes to left for some time. Distant objects look blurred. Black clouds float before eyes when lying on left side.

COMMENTS - Merc-i-f. a right-sided (Merc- i-r. is left-sided). Conditions can move from right to left. Characteristic concomitants including a heart pain immediately followed by a head pain, simultaneous pain in right forearm and left hip, and pain in heart with pain in abdomen.

Useful for abscessed tonsils, tonsillitis. Sore throats on one side with salivation and sweating (Merc-i-r.). Swollen glands and sores in the mouth (Phyt.). The teeth feel too long, worse by closing the jaws. Irresistible desire to clench the teeth. Jaw is stiff and muscles tired from clenching teeth in sleep.

Faint, sick feeling in hypogastrium. Nausea at the sight of food. Black stools. A cough worse by laughing. For conditions from the removal of mercury amalgams, particularly severe fatigue or recurring infections.

Kent mentioned the cure of "an ulcerated indurated lump in breast, as large as a goose's egg with knots in axilla, blueness of the part and no hope." Merc-i-f. 100c, given as often as the pains were severe, cured.

RELATIONS-Antidoted by: Hep., palpitations, Lyc. **Compare:** (1) Plb-i. - in breast tumors. (2) Right to left, Lyc. (Merc-i-r. to right). (3) Nausea in hypogastrium, Puls. (4) Black stools, Lept. (5) Cough worse laughing, Arg-n. (6) Pains all around orbit, Cinnb. (7) Worse warm drinks and empty swallowing, Lach. Thick yellow coating at base of tongue, Kali-bi. (Nat-p. golden yellow, Nat-s. dirty or greenish gray). (8) Worse lying left side, Phos., Am., Spig. - opposite Merc., which has worse lying right side. **Follows well:** Lach, (scarlatina).

***MERCURIUS IODATUS RUBER

(Mercury Bin-iodide)

PHARMACY - merc-i-r. Mercurius iodatus ruber. Mercury bin-iodide. Mercurius biniodatus. Trituration.

Historical dose: All potencies, third trituration.

CLINICAL - Adenitis. Antrum, pain. Asthma. Buboes. Chancres. Coryza. Diphtheria. Eczema. Eye, inflammation. Hemorrhoids. Laryngitis. Liver, syphilis. Malaria. Nose, polyps. Nose, diseased bones. Parotiditis. Postnasal catarrh. Quinsy. Rheumatism. Spleen, enlarged. Syphilis. Testicles, enlargement.

Throat, sore. Tonsillitis. Typhus fever.

HOMEOPATHIC - Merc-i-r. acts on cellular tissue. Affects the lymphatic glands, throat, but more on the **left side** (Merc-i-f., right side). Wandering rheumatic pains with weariness. Much hard glandular swelling. Chronic

suppurating buboes. Hard chancres. Old cases of syphilis in scrofulous patients.

Diphtheria and ulcerated sore throats, especially on left side with much glandular swelling. Early cases of cold, especially in children. Oppressed breathing.

Cases have been recorded in which small doses of Merc-i-r. 3x or 2x have cut short an attack of asthma or, if taken at bed-time, have prevented an expected attack from developing during the night.

MIND - Restlessness, nervousness. Better from occupation, diversion. Ill humor. Disposed to cry. Anxiety during sleep. Confusion of mind. Delirium during fever, scarlatina. Indifference, apathy.

Abdomen - Distended abdomen about navel, with pain on pressure. Heavy, painful feeling in region of liver, pancreas and spleen. Sudden cutting, in region of liver. Sore feeling all over bowels. Enlarged malarial spleens and livers. Inflammation of inguinal glands.

Back - Stiff neck. Cervical adenitis. Spine sore and painful.

Causations - Exposure to wet, weather changes.

Chest - Constriction across chest. Sharp cutting pain in chest. Sticking pain in muscles of ribs. Suppuration of axillary glands.

Ears - Itching in both ears. Pain in right ear. Increased earwax. **Closure of eustachian tube**, opens with a pop. Dull hearing, better evening. Deafness, better after becoming warm on walking.

Eyes - Inflammation with burning. Stream of hot, acrid tears, mixed with yellowish flakes of fibrinous material. Bright light irritates. Granular eyelids. Trachoma. Blepharitis marginalis. Old cases of pannus.

Face - Slimy, sticky lips on waking. Eczema on chin. Scabs on right side of face. Pain in jaws and temples.

Aching sore malar bones. Swelling of parotid glands.

Female - Profuse, acrid, green, yellowish leucorrhea. Stony hard fibroids.

Food - Desires food more salted.

Head - **Heat and pulsation in vertex, worse evening**. Painfully heavy occiput. Frontal region as if bound by the cord. Small pustules on head. Syphilitic tumors in brain.

Kidneys - Ulcers in bladder. Urethra indurated. Frequent desire, can't retain urine for a moment. Increased flow of urine. Urine red, thick and dark when passing.

Limbs - Wandering rheumatic pains, especially muscular. Pain from calf up to sacrum. Middle humerus as if about to break.

Lungs - Catching pain under right breast, oppressing breathing. Asthma. Cough from elongated uvula with sore throat. Small quantity of loose, whitish, slimy sputum, with cough. Profuse, yellow mucus. Hoarseness on getting a little wet.

Male - Sharp shooting, in end of penis through glans. Nocturnal emissions. Sensitiveness of right testicle and cord. Sarcocoele of testicles. Threatened gangrene of glans in paraphimosis. Stubborn suppurating buboes. Hard chancres.

Modalities - Open air ameliorates the head symptoms. Getting warm, walking ameliorates deafness. Worse empty

swallowing, swallowing food, after dinner. Worse touch, pressure, after sleep, afternoon and evening. Worse weather changes, cold air, cold washing, getting wet, washing floor.

Mouth - Profuse saliva. Scalded feeling on tongue. Tongue, wrinkled stiff at base, pains when moving. Aphthae. Gums swollen. Toothache. Lips slimy and sticky on waking. Lips stick together during headache. Glands swollen.

Nose - Coryza with right side of nose hot and swollen. Hawk mucus from posterior sinuses. Boggy mucus membrane of nose and throat, closure of Eustachian tube, opening with a pop. Turbinate bones swollen.

Perspiration - Copious, hot sweat. Night sweats.

Skin - **Syphilitic chancre and ulcers**.

Bubo. Hard papules. Pustules, with inflamed base, sore to touch. Freckles, liver spots. Lupus. Sarcocoele. Small fissures and cracks. Moist cracks on palms. Chilblains.

Sleep - Sleeplessness from pain in ulcerated throat. Restless sleep from 12 p.m. until morning, with constriction in diaphragm. Lascivious, frightful dreams. Dreams of swimming, traveling.

Stomach - Pain in pit on pressure. Sinking at stomach and pit, with general sick feeling. Loud and bitter belching. Nausea while passing diarrhetic stool.

Temperature - Intense shivering followed by fever. Chilly at bedtime. Chilliness, followed by flush over face. Flush of heat and feeling of being tickled.

Throat - **Fauces dark red**, swallowing painful. Diphtheria. **Sore throat, goes from left to right side**. Tonsils greatly swollen, **worse on left side**. Submaxillary glands painfully engorged. Parenchymatous tonsillitis. Cough with sore throat. Phlegm in nose and throat. Disposition to hawk with sensation of a lump in throat. Hawk much mucus from posterior sinuses. Laryngeal troubles with aphonia. Uvula elongated. **Stiffness of muscles**

of throat and neck.

Vertigo - Vertigo, things seem to reel around her. Vertigo during influenza.

COMMENTS-The liver, spleen and pancreas are affected and also the bladder and male sexual organs. Wandering rheumatism. Headaches, worse in open air. Eyes worse by bright light, psoric eye disorders. Right side of nose is inflamed. Troublesome dreams.

Will often abort peri-tonsillitis if given frequently. It acts well in old cases of syphilis, particularly in persons of lax tissue, scrofulous and those who have taken much mercury.

RELATIONS -Antidotedby: Hep. **Compare:** (1) In syphilitic eruptions, Bad., Carb-an., Nit-ac. (2) Ophthalmia, Jeql. (3) Wandering rheumatism, Kali-bi. (4) worse after sleep, left to right. Lach. (5) Dreams of water, Merc-i-f.. (6) In disorders of antrum, Mag-c., Merc-c. **Compatible after:** Bell.

***MERCURIUS NITROSUS

(Mercury Nitrate)

PHARMACY - merc-ns. Mercurius nitrosus. Mercury nitrate. Mercurius nitricus oxydu- latus. Liquor Hydrargyria. Nitratis acidus. Unguentum hydrargyria nitratis. Trituration. **Historical dose:** All potencies.

CLINICAL - Cachexia. Condylomata. Delirium. Eyes, disorders. Gonorrhea. Herpes. Impetigo. Leprosy. Malaria. Mucus, patches. Ophthalmia. Photophobia. Psoriasis. Ringworm. Stupor. Symptoms. Syphilis. Vegetations.

HOMEOPATHIC - The homeopathic authority for Merc-ns. is Hansen, who considered its special indication sticking pains and sticking itching. Hansen said Donner commended it in syphilis of the nerves and bones.

The symptoms are compiled from poisoning cases, including cachexia, tremors, frequent fainting, pains so intolerable he calls for a knife to kill himself. Coldness predominates, but there is the nitric acid flush of the face.

Merc-ns. has achieved a reputation as "a stimulating application" to indolent ulcers to the eyelids in ophthalmia and in a variety

of skin diseases such as herpes, ringworm, impetigo, leprosy, psoriasis, and rupia. Vegetations.

Eye disorders with burning, sticking pains, photophobia and epiphora. Mucus patches with sticking pains. Gonorrhea with frequent burning, sticking itch on corona glandis and in the sulcus coronarius.

MIND - Memory poor. Extreme anxiety. Delirious. Rolled on the ground with excessive pain and called for a knife to kill himself. Stupor approaching a narcotic state.

RELATIONS - Compare: (l) Merc-d. in stinging and itching behind corona glandis.

REFERENCES - Clarke. Hansen.

***MERCURIUS PRAECIPITATUS ALBUS

ALBUS

(White Precipitate of Mercury)

PHARMACY - merc-pr-a. Mercurius prae- cipitatus albus. White precipitate of mercury. Mercuric ammonium chloride. Trituration. **Historical dose:** All potencies.

CLINICAL - Blisters. Collapse. Dwarfism. Eczema, facial. Lachrymation. Nausea. Vesicles. Vomiting.

HOMEOPATHIC - The symptoms of Merc- pr-a. are taken entirely from poisonings. The most peculiar symptoms are a green tongue, bilious stools scalding anus. Slight subsultus. Collapse.

A child who was poisoned with 20 grains underwent a remarkable change one night. In the morning the child has changed to the appearance of an old man. During the night the child shrieked as from great pain.

Mossa related a case of chronic eczema of the face in an elderly man, a moistening eruption, worse in winter and from exposure to cold, vesicles on a reddened, swollen skin, dry into scales which exfoliate. Eyelids, especially the lower, edematous, the corners are reddened, lachrymation.

Ears involved, itching and burning on head preventing sleep. Merc-pr-a. 3 grains every third day was given. First the burning itching ceased. Then formation of blisters abated. Exfoliation continued a long time, but the skin finally became normal.

In another case, a girl, 2, had an eruption on face and large part of scalp, covered with thick yellow crust, matter exuding from cracks. Offensive odor, swollen cervical glands. Merc-pr-a. 3 grains once in three days cured in four weeks.

Abdomen - Pain in epigastrium, gradually spreading over whole abdomen. Great pain in abdomen, continuing after taking any, even liquid, food. Constant griping. Whole abdomen painful to pressure.

Face - Very flushed, greatly swollen.

Mouth - Tongue coated with thick greenish fur. Gums much swollen.

Perspiration - Cold, clammy skin, much congestion of cutaneous vessels. General perspiration.

Rectum - One copious stool with mucus shreds in some quantities, much dark blood. Numerous scanty stools with much blood. Almost pure bile causing great scalding of anus.

Sleep - Drowsy, semi-comatose.

Stomach - Urgent thirst. Much pain at stomach. Nausea and vomiting. Vomits deeply blood-stained fluid.

RELATIONS - Compare: (1) Dwarfish children, Bar-c., Care. Syph. (2) Eczema, Mez., Aethi-a.

REFERENCES - Boericke. Clarke.

***MERCURIUS PRAECIPITATUS RUBER

(Red Precipitate of Mercury)

PHARMACY - merc-pr-r. Mercurius praecipitatus ruber. Red precipitate of mercury. Red oxide of mercury. Mercuriooxydatus. Trituration. **Historical dose:** All potencies.

CLINICAL - Anus, burning. Barber's, itch. Blepharitis. Chancroid. Chemosis. Colic. Convulsions. Cramps. Diarrhea. Folliculitis. Gonorrhea. Mucus, patches. Otorrhea. Palpitations. Pemphigus, neonatorum. Phagedenic, ulcer. Salivation. Trembling. Ulcers.

HOMEOPATHIC - This intensely irritating mercurial was investigated by Hahnemann, all the usual mercurial symptoms were intensified.

Merc-pr-r. has produced suffocative attacks at night on lying down **at the point of falling asleep**. Patient is obliged to jump

up suddenly, which relieves. Convulsions. Spasmodic contraction of limbs. Cramps of internal organs and in legs. General trembling.

Gonorrhea, **urethra felt as a hard string**. Chancroid, phagedenic ulcer and bubo. Pemphigus, mucus patches. Eczema with cracks and fissures. Barber's itch. Blepharitis internally and externally. Leadiness in occiput with otorrhea.

MIND - Apprehension.

Abdomen - Abdomen distended and painful to contact. Occasional pain in left hypochondrium. Agonizing colic.

Eyes - Fierce intent look. Chemosis. Blepharitis.

Face - Dropsical condition of face. Remarkable redness of face and eyes. Cheeks and lips enormously swollen.

Heart - Violent palpitations that seemed as if it would burst the chest. Small, hard pulse.

Lungs - Larynx inflamed and swollen, even outside. Paroxysms of suffocation at night on lying down and while falling asleep, obliged to jump up suddenly, when it disappeared. Oppression of chest.

Mouth - Strong mercurial odor. Profuse salivation. Blood and saliva of the most fetid odor flowed constantly from mouth. Inside of mouth coated with a substance like decayed cheese. Mouth very sore, flakes of epithelium separate. Burning in mouth and throat, pains prevent sleep. Itching over whole mouth without salivation. Inflamed gums. Anterior portion of mucus membrane of cheeks, gums and under the tongue sloughed away and four teeth were lost in the process. As the parts healed the jaws became completely closed by contracting scars.

Rectum - Constant urging, gradually became worse and spread over whole intestinal canal, with constant sensation in anus as of a glowing hot iron moving up and down. Most excessive tenesmus with scanty discharge of blood with cutting and burning pains. Diarrhea excessively violent with violent cramps. Stools mainly blood involuntary, greenish and offensive.

Stomach - Unquenchable thirst. Pains in stomach and whole abdomen. Agonizing pain in stomach with burning heat and nausea. Nausea, vomiting. Vomiting, with cutting in abdomen, black blood, bloody mucus, followed by diarrhea.

Temperature - Cold, perspiring skin.

Throat - Throat inflamed. Burning like hot ashes on swallowing the powder.

Tongue - Tongue enormously swollen and protruding. Tongue was reduced and firmly adherent to floor of mouth and cheeks. Two holes in tongue.

COMMENTS - Hansen used Merc-pr-r. in practice and gave as indications gonorrhea when the urethra is felt as a hard string. Phagedenic ulcer and bubo. Indurated ulcer, deep with red, hard edges and especially when spreading. Syphilitic iritis when the pains have ceased. Pemphigus neonatorum and intertrigo syphilitica. Sensation "as of a hot iron in anus moving up and down."

Mucus patches on scrotum and by anus with or without fissures. Eczema, acute or chronic, much sero-purulent or purulent exudation, also externally (in ointment 1 to 40 of prepared lard). Tinea tonsurans, circinata and sycosis. Folliculitis.

RELATIONS - Compare: (1) Merc-pr-a.

*****MERCURIUS SOLUBLIS**

(Mercury Vivus)

PHARMACY - mere. Mercurius solublis hahnemanni. Mercurius vivus. Quicksilver. Argentum vivum. Mercurius oxydulatus niger. Hydrargyrum. Triturations. **Historical dose:** All potencies.

CLINICAL - Abscess. Anemia. **Aphthae.** Appendicitis. Balanitis. Bone, disorders. Brain inflammation. Breath offensive. Bronchitis. Bubo. Cancrum oris. Catarrh. Chancre. Chickpox. **Colds.** Condylomata. Congestion. **Coryza.** Coughs. **Dentition, abnormal** Deafness. Diarrhea. Dysentery. Dyspepsia. Ecthyma. **Ear, infections.** Eczema. Emaciation. Excoriation. Eyes, disorders. Fainting. Fevers. Fissures. **Glandular, swellings.** Gout. Gum-boil. **Gum, disorders.** Heart, disorders. Herpes. Hydrophobia. Jaundice. Joints, disorders. Leucorrhea. Liver, disorders. Lumbago. Mania. Measles. Melancholy. Meningitis. Mucous, patches. Mumps. Odors, offensive. Osteomalacia. **Otitis, media.** Ovaries, disorders. Pancreatitis. **Parotitis, Parotiditis. Peritonitis. Perspiration.** Phimosis. Pregnancy, disorders. Prostate, disorders. Purpura. Pyemia. Ranula. Rheumatism. Rickets. Rigg's, disease. **Salivation.** Scurvy. **Sinusitis.** Smallpox. **Sores.** Stomatitis. Suppurations. Surgical, fever. **Syphilis.** Taste, disordered. Teeth, disorders. **Throat, sore.** Tongue, affections. **Tongue, mapped. Toothache. Tremors.** Typhus fever. **Ulcers.** Vaccination. Vomiting.

HOMEOPATHIC - There was a fitness in naming this metal after the mutable planet Mercury. It provides us with weatherglasses and thermometers and likewise it turns those who are under its influence into weather-glasses and thermometers.

Hahnemann invented Mercurius solublis in his pre-homeopathic days in response to a general desire for a mercurial preparation which should be at once soluble and noncorrosive and it at once took its place in the pharmacy, a place it has never lost.

The method of developing the medicinal power of metallic mercury by graduated trituration was a later discovery, through there was a suggestion of it in the well-known Hydrargyrum cum creta.

Although Hahnemann proved Mercurius solublis, he recommended the use of triturations of the pure metal in practice as being the simplest mercurial preparation and more easily obtained and equally available with Merc. The potencies are prepared from soluble black oxide of mercury, originally prepared by Hahnemann from pure metallic mercury.

There is no difference between the symptoms of these preparations, but it seems that when Merc, solublis fails, when indicated, Merc, vivus acts. Hahnemann recommended Merc, vivus as a superior preparation for homeopathic prescribing in his preface to the proving. No pains have been taken to keep distinct Merc, solublis and Merc, vivus.

Merc, is Hahnemann's typical antisyphilitic remedy, as Sulph. is the typical anti-psoric and Thuj. the typical anti-sycotic.

Every organ and tissue of the body is more or less affected by this powerful drug.

It transforms healthy cells into decrepit, inflamed and necrotic wrecks, decomposes the blood, producing a profound anemia. Lesions, similar to those of syphilis. Hereditary syphilis manifestations. Often indicated in the **secondary stage of syphilis** when there is febrile anemia, rheumatoid pains and ulcerations. Ulcerations of the mucus membranes, especially of mouth and throat.

Lymphatic glands are enlarged, glandular activity increase, especially of salivary and mucus glands. Livid congestions. Destructive inflammations of bones, cellular tissues, and joints. Strictures after inflammation. Indurations. Rheumatism. Sycosis, scrofula, bullae.

Suppurations, tendency to formation of pus, which is thin, greenish, putrid, streaked with blood. **Breath, discharges smell foul. Secretions are watery,** thin, slimy, acrid, burning, foul or thick greenish-yellow. Yellowness of eyes, teeth, nasal discharges. Bilioussness, jaundice.

Tremors, convulsions. Tremblings, twitchings, disorderly motions of paralyzed parts. Cataleptic rigidity of the body. Parkinson's disease. Paraplegia. Contraction of joints. Burning, stinging pains. Painful exostoses. Softening of the bones.

Weakness with ebullitions and tremblings from least exertion. Exhausted and ready to sink down, worse after stools. Restless and sweaty, complaints increase with sweat and rest, and are associated with a great deal of weariness, prostration and trembling. Everything seems too short.

Redness. Swellings, edema, continued exudations. Parts are much swollen with raw, sore feeling. Profuse, oily perspiration does not relieve. Salt-lips, taste, expectoration etc. Stomatitis. Emaciation, marasmus.

A **human thermometer,** extreme sensitivity to heat and cold. **Worse from any change of temperature or weather.** Catches colds easily. **Hypersensitive to external impressions.** Unstable and variable in mental and physical behavior, tremulous, weak and sweaty.

MIND - *Changes their mind constantly.* Instability of ideas, which constantly drive away each other. **Irresolution.** Precocious. **Restlessness, is constantly changing from place to place, especially at night.** Uncontrollable desire to travel far away.

Heedless. Weak memory, forgets everything. Hurried speech. Stammering, nervous with tremors. Slow in answering questions. Continuous moaning and groaning. Great anguish.

Apprehensive. Mistrustful, suspicious. Thinks he is losing his reason. Anxiety, anguish, trembling and sweat. Senses impending evil. Thinks he will die. Fear with desire to escape. Fear of robbers. Involuntary weeping. Ailments from fright, leaving one in a state of great anxiety, worse at night.

Moral dejection, with great listlessness, discouragement. Weary of life. Loss of will **power. Poor self-confidence.** Disgust. Dread of labor. Indifference to everything, does not even care to eat. Indifference to loved ones. Homesickness. Cheerful alternating with want of sympathy.

Ill-humor, disposition to be angry and to fly into a passion. Complaining of relations and surroundings. Agitation with excessive internal torment, as if conscious of having committed some crime. Quarrelsome, mistrustful, and suspicious. Raving.

Delirium, mental derangement of alcoholics. Confusion, loses his way in well-known streets. Weakness of memory for time. Time passes slowly. Delusions that he is a criminal, that everyone is an enemy. Confusion and vertigo in morning on waking. Loss of consciousness and of speech.

Fury, with dread of liquids. Filthy in mind and body, does foolish, mischievous, disgusting actions. Inclination to catch passing strangers by the nose. Violent, horrid impulses, homicidal, suicidal. Suicidal thoughts during menses, better weeping. Desire to kill the person that contradicts her. Postpartum mania, wants to throw child on fire.

Abdomen - Pressive pain in abdomen, as from a stone. Boring pain in right groin. External abdomen cold to touch. Stabbing pain with chilliness. Colic from cold.

Violent colic, with cutting and stinging pains, better recumbent position. Flatulent distention with pain. Shaking sensation of bowels when walking. Bowels feel weak, holds them. Intestines feel bruised when lying on right side. Intestines as if they fall to side on which one is lying. Appendicitis, better lying on back. Catarrh of pancreatic duct. Inguinal glands, pain on heavy pressure. Swelling of inguinal glands on taking cold. Inguinal glands swollen or suppurating. Buboes. Herpes zoster.

Back - Bruised pain in small of back, especially when sitting. Stinging pain in small of back with sensation of weakness. Violent pain in spine, worse motion and pressure. Burning pain in back, worse emission. Shooting pain in sacrum on breathing. Pain in sacrum, as if one had been lying on too hard a couch. Pricking itching in sacrum when walking. Tearing pain in coccyx, better pressing on abdomen. Pain forward from right scapula. Neck stiff, cervical glands enlarged. Cervical glands swollen and inflamed, with shooting pains. Psoriasis on nape. Herpes zoster.

Bladder - Great soreness in region of bladder when touching it. Frequent urging with copious or scanty urine. Must hurry, otherwise can't retain urine. Frequent urination at night, even involuntary. Sudden irresistible urging to urinate, passing large quantities. Burning in urethra on beginning to urinate, after urination, even when not urinating. Intolerable burning in forepart of urethra when passing last few drops. Cutting, during urination. Burning and stinging, with hemorrhage from urethra. Greenish discharge from urethra.

Breasts - Breasts swollen, become hard with ulcerative pain during menses. Swelling of nipples. Breast cancer. Palliative in breast cancer. Breasts painful and full of milk at menses. Milk in breast instead of menses. Milk spoiled. Milk in breast of boys.

Causations - Ill effects of fright, suppressed gonorrhea, foot sweat.

Chest - Burning or constriction in chest, worse night. Pain below breasts through to scapula, worse sneezing or coughing.

Stitches from lower lobe of right lung to back. Feels as if everything in chest were dry. Sensations of bubbles or as of hot steam in chest. Sweating on chest with old people, from opium. Stabbing pain in left side under short ribs during every inspiration. Soreness from fauces to sternum. Cough with stitching pains in chest.

Constitutions - Suited to light-haired persons with lax skin and muscle, women and children. Scrofulous children. Merc, has relation to psora and sycosis as well as syphilis.

Cough - Whooping cough with nosebleed (Arn.). Cough causes pressing pains in head and chest. Cough in double bouts. Cough with hoarseness, salivation, vomiting, diarrhea. Cough with sensation as if head and chest would burst. Tickling cough before falling asleep. Dry cough at night, yellow-green sputum by day. Coughs only at night or only by day. Cough worse from tobacco smoke.

Ears - **Otitis media. Chronic ears infections.** Soreness and excoriation of inner ears. **Otorrhea, thick yellow discharge.** Fetid and bloody discharges. Watery discharge and hemorrhage from ears. Very offensive pus from ear, worse at night. **Swimmer's ear infection. Glue ear.** Red, hot swelling of external ear. **Pains, worse**

warmth of bed, at night. Sticking pains. Tearing and shooting pains. Pains extend to ear from teeth, throat etc. Sensation as if cold water running from the ear. Sensation of coldness in ears during pregnancy. Fungus excrescences. Polyps. Boils in external canal (Calc. pic.). Sounds vibrate in ears. Ringing and roaring. Whistling or running of trains. Deafness on becoming heated, better on swallowing and blowing nose.

Eyes - Conjunctivitis from taking cold. Scanty or profuse, **burning acrid discharge**. Iritis with hypopion. **Keratitis** of syphilitic origin with burning pain. Retinitis when worse by firelight and at night. Ophthalmia neonatorum. Arcus senilis. Optic nerve and eye disorders in those who work in foundries. Pupils dilated. Burning in eyes. Stitches in eyes. Cutting, stinging

or aching pains when exerting eyes. Eyes draw together. Lids, red, thick, swollen, scurfy and swollen. Agglutinated lids in morning. Lids spasmodically closed. Styes on upper lids. Twitching of lids. Photophobia, worse heat and glare of fire of foundry men. Eyes sensitive to extreme heat or cold.

Face - Pale, **earthy**, yellow, dirty looking. Puffy under eyes. Cheeks, swollen, red, hot. Syphilitic pustules on face. Mumps if suppuration threatens. Pimples on face. Corners of mouth ulcerated and painfully sore. Yellowish scabs around mouth. Swelling or cracking of upper lip. Lips, salty, dry, cracked in angles. Lips burn when touched. Swelling of cheeks during toothache. Aching in jaws. Spasms and immobility of jaws. Periostitis of jaw, progressing to necrosis. Masseter muscles contracted. Lockjaw from glandular swellings, with stinging pains. Aching in facial bones. Facial paralysis from cold. Trigeminal neuralgia from taking cold.

Female - Amenorrhea with congestions and ebullitions. Menses suppressed. Collapse and fainting at start of menses. Menses irregular, or every two weeks. Menses too late and scanty. Profuse menses with abdominal pains. Menses of short duration. Abscesses appear anywhere on body during menses and disappear after menses. Leucorrhea, thick, white with itching, worse urinating and washing with cold water. Leucorrhea excoriating, greenish and bloody. Leucorrhea in small girls, causing prostration. **Sensation of rawness** in parts. Genitals feel raw. **Vaginitis**. Itching of vulva. Burning, throbbing and itching of vagina. Swelling of labia. Pressure in genitals, obliging her to urinate often. **Stinging pain in ovaries** (Apis). Stitching, aching or boring pains in uterus. Prolapse of uterus with vagina, better from sex. Cancer of uterus and breasts. Bleeding excrescences on os uteri. Expels moles. Pregnant women with swelling of genitals. Edema, pruritus of vulva during pregnancy. Morning sickness with a profuse salivation. Tendency to miscarriage from uterine weakness. Infertility with too profuse menses.

Food - **Intense thirst for cold drink and beer**. Great thirst for ice water, though it aggravates cough. Much thirst day and night. Sweats when eating. Weak digestion with **continuous hunger**. Craving for lemons. Appetite only for bread and butter. Bread tastes sweet. Aversion to meat, coffee, butter, oily things, sweets, salt, strong cheese. Sweet things and milk disagree, though he craves them. Wine, spirituous liquors, coffee and cold drinks aggravate.

Head - **Catarrhal headaches**, much heat in head. Catarrhal affections of frontal and maxillary sinuses. Burning and pulsations in forehead. **Tension about scalp, as if bandaged**. One-sided, tearing pains. Headache with ear and toothache. Headache alternating with foot sweat. Headache caused by suppression of foot sweat. Headache with suicidal tendency. Child turns head from side to side and moans. External head painful to touch. Stinging, burning, fetid eruptions on scalp. Scalp tense, fetid, sour smelling, oily sweat on head. Itching of scalp day and night. Falling of hair from sides and temples. Exostosis with soreness. Anterior fontanel open. Cerebrospinal meningitis from suppressed otorrhea. Hydrocephalus, Cephalhematoma.

Heart - Aching pain at apex and base of heart. Awakes with cardiac tremor. Weakness in heart as if dying. Palpitations on slight exertion. Palpitations with cough and bloody sputum. Palpitations with fear, worse at night. Pulse irregular, quick, strong and intermittent or soft and trembling. Pulse frequent at night, slower by day. Pulse irregular, generally full and fast. Pulse with violent beating in arteries. Pulse imperceptible, with warmth of body.

Kidneys - Dysuria. Greenish discharge from urethra, burning in urethra on beginning to urinate. Frequent urging to urinate day and night with copious or scanty urine. Urinates more than drinks. Stream of urine very small. Urine causes itching. Urine dark, scanty, bloody, albuminous. Hematuria, painless. Burning after urination.

Limbs - Weakness and weariness in all limbs. Pains in limbs, worse night. Bone pains, deep or near the surface, worse at night, must get up and walk about. Bones as if broken, joints as if sprained. Involuntary jerking in limbs. Convulsions in limbs. **Trembling limbs, especially the hands. Parkinson's disease**. Paralysis agitans. Stiffness and immobility of limbs. Osteoarthritis. Rheumatism of joints, with swelling and sensation of coldness. Lacerating pains in joints. Tendency to complete destruction of joints. Abscess in joints. Edematous swelling of hands, feet and face during menses, or with anemia. Phlegmasia alba dolens. Sensation as if knees were larger. Fingers numb. Icy cold hands after emission. Cold heels. Cold, clammy

sweat on legs at night. Patient very sensitive to cold. Oily perspiration.

Liver - Liver enlarged, sore to touch, indurated. Jaundice from gallstones. Jaundice in newborn. Deficient bile secretion. Chronic atrophy of liver, with emaciation and desiccation of body.

Lungs - **Dyspnea, when coughing or sneezing.** Desire to take deep breath from anxious oppression. **Shortness of breath on going upstairs or walking quickly. Breathing** difficult, worse lying on left side, but cough worse lying on right side. Catarrh with chilliness, dread of air. Salty or bitter tenacious mucus. Easy expectoration. Yellow muco-purulent expectoration, with cough. Bloody expectoration on account of destroyed lung parenchyma. **Asthma, worse change of weather,** better tobacco smoke and cold air. Emphysema. Lungs as if heavy, in asthenic pneumonia. Pneumonia with cough and dyspnea. Pneumonia with jaundice. Suppuration of lungs after hemorrhages, or after pneumonia.

Male - Sweat on genitals with soreness between scrotum and thighs. Cold genitals. Swelling of lymphatic vessels along penis. Glans and prepuce inflamed and swollen, phimosis. Redness of meatus. Prepuce irritated, itches. Children or adults pull and scratch at the genitals from a kind of itching which makes them do so.

Orchitis (Clem., Ham.. Puls.). Testicles, swollen, hard with shiny, red scrotum. Dragging pain in testes and spermatic cords. Sensations of coldness in testicles. Gonorrhea. Gleet yellowish green and purulent. **Syphilis. Vesicles on forepart and sides of glans openis.** Vesicles and ulcers, soft chancre. Herpes preputialis. Condylomata. Lascivious excitement with painful nightly erections. Nocturnal emissions, stained with blood. Emissions followed by burning pain in back and icy cold hands. Sexual power decreased, total loss of sexual power.

Modalities - Better from moderate temperature, in morning. Better from sex, rest, scratching. **Worse drafts, taking cold.** touching anything cold, cloudy weather, damp, rainy weather, wet feet. **Worse changing weather and temperature, heat, sweating,** warmth of bed, warm days with damp, cool nights, Fall. **Worse at night, lying on right side,** bending forward, during and after urination, before stool.

Mouth - **Great thirst with moist mouth. Saliva increased,** flows during sleep. Saliva yellow, bloody, bad tasting offensive. Salivation, with nausea, waking her from sleep. **Sweetish taste. Metallic taste. Offensive, putrid odor from** mouth. Offensive breath during cough. Disagreeable, sweetish odor from mouth. Mucus membrane bluish-red and spongy. Sore pain on touch and from chewing. Itching palate. Ranula with salivation and sore gums. Confluent thrush. **Aphthae.** Stomatitis from chewing-gum. Painful ragged, swollen, bleeding gums. **Gums spongy,** recede, bleed easily. **Gumboils.** Speech difficult from trembling of tongue. Stammering. Loss of speech, replies by signs and grimaces.

Nose - **Sinusitis and colds. Colds** travel to eyes, ears or throat. **Coryza profuse, fluent.** Coryza, acrid discharge, but too thick to run down the lip, worse warm room. Coryza with sneezing, sore, **raw,** smarting sensation, worse damp weather. Copious discharge of corroding mucus. Yellow-green, fetid, pus-like discharge. Acrid nasal secretions having the odor of old cheese. **Nostrils are raw, ulcerated.** Frequent sneezing without coryza. **Sneezing in sunshine.** Pain and **swelling of nasal bones and decay with greenish fetid ulceration.** Nosebleed when coughing, blood hangs in dark coagulated strings. Nosebleed during sleep, at night.

Perspiration - General tendency to **easy perspiration, but patient is not relieved from it.** Excessive odorous viscid perspiration, worse night. Oily sweat. Sweat, oily, foul, sour or with strong sweetish penetrating odor, on head, on chest, stains indelibly yellow. Stiffening linen. Foul, sour perspiration or with strong sweetish penetrating odor. Sweats immediately on drinking something warm. **Profuse sweat without amelioration.** Perspires while walking, eating. Day and night sweats, though more at night. Falls asleep while perspiring. Perspires easily during sleep, sweats through bedclothes. **Profuse and very debilitating, at night.** Sweats with pains. **Clammy and cold sweats, driving out of bed** with thirst and palpitation or nausea. Sweats on head, chest. Shriveling fingers.

Rectum - Rectal tenesmus with tenesmus of bladder. Great pressure at stool, as if bowels would be forced out. Ineffectual urging to stool with protruding hemorrhoids, which are painfully sore. Rectal discharge accompanied by chilliness, sick stomach, cutting colic and tenesmus. Constipation. **Dysentery.** Purulent diarrhea with chill between and hot flushes during stool. Long continued diarrhea. Diarrhea in children. Severe pain in anus, during stool. Never-get-done feeling. Rawness, burning and itching of anus and adjacent parts, after stool. Prolapse anus after stool. Constriction in rectum, causes faintness, after stool. Weakness after stool. Hemorrhage from rectum after urination. Discharge of ascarides and lumbrici.

Sensations - Vibration in forehead. Head as if in a vice, as if growing large. Crackling in head as from metal plates. As if weight on forehead, as if weight hanging on to nose. As of sparks being emitted from eyes, as if a body underneath lids, as if feathers came from corners of eyes. As if a wedge driven in ear, as if ice in it, as if cold water running out of it.

As if teeth were loose, were fixed in a mass of pap. As if hot vapors rising into throat of worm rising into throat, must swallow it down of apple core sticking in throat. As if everything in chest was dry. As if breasts would ulcerate.

Skin - Constantly moist. Insensible skin. **Itching, worse from warmth of bed,** perspiration. Itching as from fleabites. Jaundice with itching on abdomen. Yellow skin, tender, excoriated like raw meat. Scurfy eruptions. Vesicular and pustular eruptions. Moist vesicles surrounded by dry scales, easily bleeding. Red spots covered with small vesicles. Pimples around the main eruption. Phagedenic blisters. Moist eczema. Crusta lactea. with yellowish-brown crusts, considerable suppuration. Herpes, burning when touched. Herpes zoster, burning pains. Measles, tardy development. Nettle-rash. Buboës. Boils and abscesses form at the time of menses. **Ulcers, bleeding with cutting pains and proud flesh.** Ulcers, irregular in shape, edges undefined. Desquamation. Erysipelas of newborn children of syphilitic or scrofulous nature. Exanthemata spreading from pit over abdomen and chest. Varicella, chickenpox, water blotches turn yellow and mature. Variola in stage of maturation.

Sleep - Excessive sleepiness day and night. Great sleepiness during day, not better long sleep. Sleeplessness from nervous excitability. Sleepless at night from ebullitions of blood to chest and head. Sleeplessness from pain or other troubles. **Profuse perspiration without relief during sleep,** with pains. Just after falling asleep, pains become more violent. Dreams of water, animals, thieves, misfortune.

Stomach - Stomach sensitive to touch. Feels constricted. Pit of stomach burns. Pressure in pit with deathly faintness. Heartburn all night. Heartburn during pregnancy. Frequent hiccoughs. Hiccough and regurgitation of water and food. Acrid, bitter, putrid or rancid eructations, worse at night.

Nausea when coughing. Water collects in mouth, causes nausea and vomiting of a bitter substance. Inclination to vomit while coughing. Nausea and vomiting during stool. Vomiting of bile and food. **Morning sickness with profuse salivation.**

Stools - Stools with pain and tenesmus. Never get done feeling. Stools, painful, scanty. **Greenish, bloody and slimy stools, worse at night.** Stools ashen white, gray, acrid, then tenesmus orchill. Mucus stools preceded by chilliness, and followed by tenesmus. Stools like stirred eggs, pea green, slimy. Stools watery and colorless, with greenish scum floating on surface of water. Stools acrid and excoriating, purulent. Stools undigested, sour smelling. Stools pitch-like, tenacious or crumbling. Stools small, knotty masses, small like sheep dung. Stools form a narrow ribbon.

Teeth - Grinding of teeth. **Looseness of teeth.** Teeth feel tender and elongated. Alveolar abscess, worse at night. Inflammation of roots of teeth, which ulcerate and fall out. Toothache worse heat and cold, at night. Toothache at night, followed by general chilliness, with swelling of gums and salivary glands. Teeth, decayed, hollow, black. Crown of teeth decay. **Gums spongy, recede, bleed easily.** Gumboils. Large ulcers on protruding gums. Swelling of gums every night. Shooting pains into face and ears, better rubbing cheek.

Temperature - Patient very sensitive to cold. Easily chilled or overheated. **Creeping chilliness,** worse in the evening and into night. Constant cold hands and feet. Sense of coldness with tremors. Chilly within abscesses. Debility, chilly and weakness. Cold, clammy sweat on legs at night. Chill alternating with flushes of heat in single parts. Heat and shuddering alternately. Easily chilled or overheated. Catarrhal, gastric, bilious fevers. Fever alternating with shuddering. Fever after midnight with violent thirst for cold drinks. Fever with aversion to uncover. Fever in bed, chill when out of bed.

Throat - Glands swell every time patient takes cold. Lymphatic glands of throat hard and large. **Sore throats and colds.**

Sore, raw, smarting, burning throat. Putrid sore throat. Burning in throat, as from hot vapor ascending. Painful dryness of throat, with mouth full of saliva. Constant desire to swallow. Quinsy with difficult swallowing after pus has formed. **Tonsillitis.** Whitish, smeary concretions upon tonsils. **Tonsils enlarged.** Ulcers on tonsils, on pharynx. Bluish-red swelling. Stitches into ear on swallowing, fluids return through nose. Sensation as if a foreign object or something hanging in throat. Uvula elongated, enlarged, greatly swollen. **Ulcers** and inflammation appearing at every change in weather. Hawks large lumps from throat. Complete loss of voice, from straining voice. Hoarse, rough voice, worse least current of air. Chronic hoarseness with tendency to sweat and profuse salivation. Aphonia from nervous paralysis.

Tongue - Tongue thickly coated in morning. Tongue heavy, thick, moist coating. Tongue, broad, flabby, yellow, **indented.** Gray patches on edges of tongue, dirty- yellow coat on upper surface. Needle pricks at tip. Pricking pain in tongue with swelling. **Furrow in upper surface of tongue lengthwise,** with pricking. Tongue feels as if burnt with ulcers. Ulcers behind the tongue. Severe pain on side of tongue from contact of teeth.

Urine - Urine flows in a thin stream or only drop by drop. Urine hot, acrid, dark, scanty, albuminous. Urine thick, white sediment as if flour had been stirred in. Urine yellowish, staining diaper, smells sour and pungent. Urine, flesh-like lumps of mucus, pus. Painless hematuria. Urine remaining on parts after urinating cause

intense itching, has to be washed off.

Vertigo - Vertigo, worse lying on back, as if on a swing. Vertigo after stooping. Vertigo with headache and nausea. Vertigo with momentary loss of vision, everything turns black. Can't stand erect or even sit up in bed for fear of falling.

Vision - Dim vision, with involuntary closing of eyes. Foggy vision. Black spots, flames, sparks before the eyes. Sees green colors. Constant flickering and floating black specks. Letters seem to move. Object as if small. Periodical loss of sight. Scotoma of right eye after a fall.

COMMENTS - To the symptoms of Hahnemann's pathogenesis of Merc, solublis are added observed effects of mercury in those engaged in working with the metal, patients taking mercury, and the effects on those applying mercurial inunctions to patients.

Many people have been severely affected by absorbing it through their hands. An electrician, who at one time was required to work with his hands frequently in a trough filled with quicksilver, thereafter could not bear the slightest shock of electricity, though before he could stand very strong ones.

There is no difference between these effects and the symptoms of the proving so far as the general characteristics are concerned, but in the finer characteristics there must be differences. The symptoms of the proving are in general more particularly characterized than the effects of Merc, vivus.

The symptoms of nosebleed and the more finely characterized throat symptoms were produced by Merc, solublis, as were the majority of the symptoms in the male and female sexual organs. Stitches on tonsils, stitches into ear on swallowing, something hot rises into throat. This is not to say that Merc, vivus will not answer equally well or even better for curing them.

Hahnemann's typical anti-syphilitic remedy. Affects the bones, glands and skin. Inflammation leads to induration, then to ulceration. Merc, corresponds accurately to the true Hunterian chancre.

Pronounced tremors, usually commence in the finger. Tremor of weakness and paralysis. B. Cooper noted that it may attack the heart and cause sudden death on the smallest effort. Great tendency to fainting. The tremors may become jerking and even convulsions. Parkinson's disease. Shaking and trembling with exertion.

Dissolves the living tissues by inducing emaciation. Offensive, rapidly decomposing ulcers. Ulcers, gray, ashy, lard or cheesy base, with burning or stinging pains. Obstinate varicose ulcers. Phagedenic ulcer that just gets bigger and spreads to other areas.

General decomposition.

Bone ulcers, pains are deep and boring, aching. Deteriorating bones. The bones soften so that they will bend. Bone pains at night in the legs. Wounds and sores that are slow to heal. Bruise easily. Injuries may open up, ulcerate and discharge.

Scurfy, syphilitic, and pustular eruptions. Eruptions worse by warmth, at night, by cold. Moist, oozing, offensive eczema. Shingles. Suppurative stage of smallpox. Itching, voluptuous itching. Soreness and sensitiveness. Stabbing pains and stitches, burning, boring, digging, stinging and dragging pains.

Tendency to the formation of pus. Bloody pus, pus forms in cavities or abscesses that burn and sting. Discharges are yellow-green in color. Discharges are acrid, excoriating, irritating, except for vaginal discharges. Abscesses, boils, and ulcers with pus or pus with discharges that are yellow, green and acrid.

Chronic discharges from the lungs, nose and vagina, and colon. Gonorrhea. Vaginitis with yellow, green discharge, acrid over the whole vaginal area. Burning, itching, stinging, very offensive, the glands in the inguinal area can sweat.

Enlargement of glands with pricking pains, inflammation, suppuration. Chronic swollen glands. History of infections. Weakness and exhaustion, shortness of breath. Emaciation, shaky and fragile (Gels., Sil.). Immune weakness, AIDS. Allergies.

Suppressed measles or scarlet fever, causing acute problem with the brain, rolling the head back and forth, with severe head sweats. Profuse sweat accompanies nearly all complaints. Sweat does not relieve, may aggravate. Chronic night sweats. Nightmares and palpitations, wake up sweating.

Chronic colds (Psor.). Mono. Sensitive to every draft and yet worse by warmth, the nasal secretion is acrid and the nose red and excoriated. Old, catarrhal smell in the nose, smarting and burning inside nostrils.

Aching, tearing and pressing out in the bones. Recurring otitis media with foul, green discharge that is acrid and offensive.

Tendency to eardrum rupture. Sharp, stabbing pain in the ear. Fetid ear discharge.

Excessive saliva, bad taste in the mouth. Metallic taste in the mouth. Mercurial odor, offensive, breath excessively fetid, sweat offensive, mawkish, sweetish. Throat dry and forepart of tongue moist. Characteristic flabby, coated, teeth-indented tongue, foul breath and intense thirst. Mapped, cracked tongue.

Sore and raw feeling in the back of the mouth. Sores in mouth and nose. Abscesses. Canker sores, bleeding gums. Ulcers, white patches like thrush. Acute boils (Hep., Sil.). Children who get sores in their mouth while breastfeeding. Acute sore throats with stinging, raw feeling.

Aphthous stomatitis, severe pyorrhea. Teething with swollen gums, drooling. Loose teeth, receding gums, pockets of pus (Nit-ac., Hep.). Useful for the affects of dental work, especially if abscessed. Periodontal disease. Jaws crack and pop a lot (Ign., Rhus-t., Caust.).

Congested, enlarged, inflamed liver. Stitches in the liver. Sensitiveness in the liver and inability to lie on right side. Hepatitis. Disordered stomach. Thirsty, even with a moist mouth. Craves bread and butter. Aversion to meat, wine, brandy, beer, coffee, greasy food, butter. Aggravated from milk, sweets, lying on the right side. Food allergies.

Recurring bladder infections where indicated remedies don't work. During stool there is tenesmus, or tenesmus and no stool. Just before stool a sick, painful, faint feeling comes on. Slimy stools, acrid, knotty, containing pus, viscid. Diarrhea with slime.

Dysentery with much straining, never- get-done feeling when there is no more to come. Extreme exhaustion after a stool. Not well since dysentery, with diarrhea, sweating and dehydration.

Affects the generative organs of both sexes. Stinging, cutting pains in the ovaries (Apis.), cutting pains from left to right in lower abdomen. Burning and stinging in the ovaries with ovarian cysts. Breast cancer with ulceration and foul discharges (Ars.). Milk in the breast of non-pregnant women (Puls.).

Characteristic sensitivity to temperature changes, worse from both heat and cold. Sensitivity to draft. Creeping chills, shivering, shaking, and shuddering. Drowsiness during the day, sleepless at night. Symptoms are worse at night, particularly the bone pains. Aggravated by odors, noise, lights, changes of weather, exertion, cold. Ameliorated by lying down.

Extreme restlessness, overreacts, hurried (Med.). The mind is as weak and tremulous as the body, everything is done hastily. Lack of organized response. Speech and mind are slow. Slow comprehension. Time seems to pass slowly. Imbecility. Inefficient (Iod.), workaholics.

Desire to travel or change jobs because of instability. Homesick. Dreams of traveling, floods, delusions of water. Atrophy and deterioration of the brain. Memory loss. Problems with communication, stuttering, especially in children who have earaches (Caust.). Imbecility and senility in the elderly.

Difficulty adjusting to their environment. Tend to be closed, over protective. Anxiety, discontent. Can get anxious and worried about their illness (Ars.). Laughing and weeping spells, break downs. Can be impulsive. Impulses to kill, run away, fears people are after them. Murderous. Suicidal.

Guernsey noted it for "dirty-nosed children." Also that "Merc, is rarely indicated in these troubles where there is no slime."

Kent noted that "Kali-i. is better for the same bursting in the face, running coryza and worse from heat and warmth of the bed." Kent noted that it is useful "whenever cold settles in the eye in gouty and rheumatic patients."

Guided chiefly by the indications profuse sweat with no relief and worse at night, Clarke cured many cases of rheumatic fever with Merc, vivus 12c without any other remedy.

Hirsch of Prague related some striking experiences with a preparation of Merc, vivus that he learned from an old allopath. Quicksilver is boiled in water for half an

Mercurius solublis hour, two teaspoonfuls being given every two hours.

Hirsch recorded cases of acute inflammation of the brain in which Bell, was indicated and in one of which Merc, had already been administered in vain.

Hirsch noted a case in which a black-haired girl, age 9, had a malignant scarlatina, which commenced six days before Hirsch (who came as consultant) saw the case. There were signs of brain inflammation that had set in on the third day.

Hirsch found her unconscious, sharply defined redness of cheeks, pulse 120, skin hot. Piercing screams were emitted from time to time, boring head in pillows, chewing motion of jaws, gnashing teeth.

Lips brown and dry, not much thirst, water not accepted readily, but milk seemed to be relished. Reddened patches here and there, especially along neck. Under the "decoction," which was given to the girl on Hirsch's suggestion, she slowly but steadily improved and in a week was convalescent.

RELATIONS - Antidote: Hep., Aur., Mez. **Compare:** (1) Bell. - very close analog, often complementary, commencing of abscess, difficult swallowing fluids, sharp pain through tonsils, pains come suddenly. (2) Hep. - chilliness, something sticking in fauces. (3) Meny. - coldness in ears. (4) Puls. - thick yellow nasal discharge, but that of Puls., is bland, otitis. (5) Nux-v. - coryza and sore throat, Nux-v. has scraped feeling, Merc, is always smarting, raw, or sore. Dysentery with Nux-v. tenesmus ceases after stool, with Merc, not, there is the never-

get-done feeling. (6) Aeon. - dysentery of hot days and cold nights. (7) Lept. - bilious troubles, horribly offensive stools, the griping of Lept. continues after stool but not tenesmus. (8) Ars. - Merc, worse by heat of, but better by rest in bed. Ars. better by heat of, but worse by rest in bed. (9) Ant-c. - dirty tongue, inflammation of eyes worse glare of fire or sunshine. (10) Kali-i. - stitching pains through lungs, Merc, right or left and shooting in different directions. (11) Bor. - sore mouth. (12) Cham. - diarrhea, dentition. (13) Syph. - syphilis, worse heat of stove or bed, worse night. (14) Apis - stinging pain, fetid breath, ovarian affections. (15) Psor. and Med. - foul body smell. (16) Mez. - decay of teeth, Merc, of crowns, Mez. of roots. (17) Chel. and Kali-c. - affect lower lobe right lung, stitches through to back. (18) Pic-ac. - boils in auditory meatus. **Complementary:** Bad.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***MERCURIUS SULPHOCYANATUS

(Pharaoh's Serpents)

PHARMACY - merc-s-cy. Mercurius sulpho- cyanatus. Pharaoh's serpents. Sulphocyanide of mercury.

Historical dose: All potencies.

CLINICAL - Diphtheria. Esophagus, stricture.

HOMEOPATHIC - The well-known scientific toy called "**Pharaoh's serpents**" is composed of the sulphocyanide of mercury. A boy ate one "**serpent**," and a man took one in water. The symptoms were observed and included general prostration for some days. Heat and constriction in esophagus with difficulty in swallowing and burning in epigastric region and nausea.

MIND - Excessive anxiety.

Face - Pallor, great weakness. Cold skin and frequent shivering.

Limbs - Pain in shoulder joint.

Lungs - Voice rough and hoarse. Tenacious expectoration.

Mouth - Constant salivation. Disgusting, metallic taste.

Pulse - Pulse intermitting every three beats.

Rectum - Bloody stools.

Stomach - Vomiting. Epigastrium painful to pressure.

Throat - Extreme redness of throat with white membrane on tonsils. Violent burning in fauces.

Vertigo - Vertigo on attempting to rise.

REFERENCES-Clarke.

***MERCURIUS SULPHURICUS

(Yellow Precipitate of Mercury) **PHARMACY** - merc-s. Mercurius sulphuricus.

Yellow precipitate of mercury. Hydrargyrum oxydatum sub-sulphuricum. Turpethum minerale. Turpeth mineral. Trituration. **Historical dose:** All potencies.

CLINICAL - Cardiac, pain. Debility. Diarrhea. Dropsy. **Dyspnea.** Dysuria. Edema. **Hydrothorax.** Rheumatic pains. Sneezing. Ulcers.

HOMEOPATHIC - There is some confusion about the identity of this drug in books. Turpeth is correctly given by Allen. Hering, who proved and introduced it, calls it Turpethum and Turpeth mineral.

The Pharmacopeia of the American Institute of Homeopathy describes the white sulphate, HgSO₄, under the heading Mercurius sulphuricus, but says it is mentioned in Allen's Encyclopedia, vol. 6., p. 325, whereas it is Turpeth, the yellow precipitate, which is there spoken.

Merc-s. has **intense dyspnea**, must sit up. Respiration rapid, short, burning in chest. Cardiac pain and weakness. **Hydrothorax** (Ars.). Debility with sleepiness. Rheumatic pains. Most pains feel as if a dull stick pressed on the parts and were moving in diverse curved lines, feels as if this pain were in the bones. Edema of legs.

Sneezing from direct rays of sun. Sore tip of tongue. Scanty, clear, scalding urine. Watery stools, burning in anus. Diarrhea early in the morning, stool bursts out in a hot stream of yellow matter. Intense evacuations like rice-water.

MIND - Morose. Low-spirited with chilliness and yawning. Di-humor after eating.

Abdomen - Coldness or burning in abdomen. Wakes at 1 a.m. with severe pains along duodenum to umbilical region. Soreness in inguinal glands.

Chest - Pain in right side of chest, extending to scapula, can scarcely breathe, worse from 4 p.m. to 5 p.m. Pain in chest prevents him from breathing. Pressure on chest. Burning in chest. Hydrothorax from liver or heart disorders.

Ears - Burning in ears and in face after a chill.

Eyes - Oppression over eyes. Eyes worse from sunlight.

Face - Pale, anxious countenance. Swelling of parotid gland.

Head - Fullness in head with occasional stitches. Soreness and heaviness through head, after breakfast and when walking about. Sensation of giddiness while standing after headache. Violent itching of hairy scalp.

Kidneys - Diminished secretion of urine, does not urinate frequently, but has constant pressure. Increased secretion of urine without a sediment. Urine dark, becoming turbid with a scum on it. Urine scanty and scalding, but clear.

Limbs - Numbness in left forearm and hand, later numbness in right hand. Hands icy cold with blue nails. Stiffness in arms. Pain in knees and lameness, especially when walking. Foot-sweat with soreness at ends of the nails. Ulcers on ankles.

Lungs - Dyspnea in children. Sensation of heat in larynx. Increased expectoration of mucus from larynx and trachea.

Male - Gonorrhea and syphilitic diseases with great congestions to the parts. Swelling of testicles. Involuntary emission and lascivious dreams.

Mouth - Mouth clammy and full of mucus in morning. Salivation. Burning, smarting, stinging pain on tip of tongue, left side in evening. Lips, gums, fauces, mouth and tongue swollen, look dry and black. Gums and palate dark bluish (black), ulcerated margins.

Nose - Sneezing in sunshine with fluent coryza. Swelling and soreness of tip of nose. Itching of nose.

Rectum - After drinking coffee, pain in abdomen as if diarrhea would set in. Sudden and violent pressing to stool while walking compelling him to stand still, with anxious perspiration. Stools forcibly gush out in a hot, burning stream of yellow water, followed by great debility, hiccough and belching. Violent purging, rice-water motions, some yellow. Stools soft and earlier in morning than usual.

After stools, sensation of fullness as from congestion to legs, especially feet, feel numb when standing.

Skin - Induration of the glands. Psoriasis, leprosy.

Sleep - Frequent yawning and great sleepiness in afternoon. Sleeplessness after midnight. Awakens with headache in morning.

Stomach - Pain, weight in stomach, tenderness. Stomach so irritated nothing would stay on it an instant. Violent yellow vomiting, diarrhea.

Temperature - Chilliness running up back with yawning and depression of spirit, followed by dull pain in forehead, burning in face and ears and slight fever. Chilliness, restlessness and heaviness in upper part of abdomen, frequent yawning and diminished secretion of urine, in afternoon.

Throat - Heat and sensation of constriction in throat. Burning in mouth and throat. Dryness of tongue and throat. Roughness in the throat and hoarseness.

Tongue - Tongue, greenish yellow down middle, heavily coated white. Tongue yellowish at root. Enlarged papilla stand up like red points with flat taste in mouth and a reduced pulse.

COMMENTS - Lippe is the chief clinical authority for Merc-s. He considered it as important as Ars. in dropsies of the chest. The symptoms on which it has been prescribed are clinical and have been well confirmed. Among them is "Pain in right chest extending to scapula, he can scarcely breathe, worse 4 p.m. to 5 p.m."

When Merc-s. acts well, said Lippe, "it produces a profuse watery diarrhea with great relief to the patient." It is particularly suited to hydrothorax depending on liver or heart disorders.

Other confirmed symptoms include soreness of tip of tongue. Edema of legs. Scanty and scalding urine, but clear. Worse in afternoon, 4 p.m. to 5 p.m. Better by profuse diarrhea (dyspnea). After diarrhea stools, there is numbness of legs.

RELATIONS - Compare: (1) Merc-acet. - cutting in urethra when last drop is flowing out. (2) Cinnb., Aethi-a. and other mercuries. (3) Hydrothorax, Ars. (4) Worse afternoon, Lyc. (5) Dropsy, Dig.

REFERENCES - Boericke. Clarke. Lippe. Phatak.

***MERCURIUS VIVUS

(See Mercurius Solublis Hahnemanni)

METHYLENUM COERULEUM

(Methylene blue)

PHARMACY -meth-b. methyl. Methylenum coeruleum. Methylene blue. Teleamethyl- thionine chloride. One of the aniline dyes. A diphenyl amine compound, also classed as an aniline color. Trituration. Solution.

Historical dose: All potencies.

CLINICAL - Albuminuria. Arthritis. Cancer. Chorea. Coma. **Cystitis**. Epilepsy. Epithelioma. **Gonorrhea**. Hemicrania. Kidneys, disorders. Malaria. Nephritis. **Neuralgias**. Neurasthenia. Pleurisy. Rheumatism. Spasms. Spinal irritation. Suppuration. Tremors. **Typhoid fever**.

HOMEOPATHIC - Methylene blue consists of small, indigo-colored, scaly crystals with a bronze-like tinge, that

are dark green in transverse fracture. Slightly soluble in water, forming a deep blue solution. It has been used in old-school practice in doses of about three grains in capsules or pills for rheumatism of joints and muscles and in rheumatoid arthritis.

The dyes are carcinogenic. Mose tig treated a man, 50, who suffered from cancer of the femur. Mosetig injected into the groin a 1 percent solution of "Trichlorate of Aniline," increasing the strength, until four grams were used at one injection. Almost an hour after the first injection the patient became dark blue, the next morning the discoloration was gone.

After the four-gram doses, poisoning symptoms appeared including unconsciousness, stertorous breathing, feeble pulse, the whole body becoming dark blue. Artificial breathing and stimulants brought the patient around in four hours. Smaller doses were

used after that. In eight weeks he went home, cured to follow his ordinary work. Methyl- violet 1 to 500 and 1 to 1,000 produced equally good results.

Methyl, is a remedy for neuralgia, neurasthenia. Malaria. **Typhoid fever**, delirium and fever.

Tendency to tremor, chorea and epilepsy. Later states of a stroke. Backache, sciatica. Gonorrheal rheumatism and cystitis. Pus infection.

Nephritis (acute parenchymatous), scarlatinal nephritis. Urine acquires a green color. Bladder irritation from its use is antidoted by a little nutmeg. Surgical kidney with large amount of pus in urine. Tympanites.

Cancerous ulcerations on the skin and mucus membrane and on internal organs such as uterus, lungs and the gastrointestinal tract. Hemorrhages are mostly bright red with few clots. Cough with blood-streaked expectoration and difficult breathing.

MIND - Neurasthenia. Unconsciousness.

Back - Backache with sciatica.

Bladder - Irritation of the bladder. Cystitis. Urine greenish. Gonorrhea.

Chest - Causes absorption of pleural effusion.

Head - Hemicrania. Habitual headache.

Limbs - Tremors. Spastic hysterical contractions.

Lungs - Stertorous breathing.

Skin - Turns the patient dark blue. Pus infection.

Temperature - Typhoid fever. Malarial fever. Fever from pus absorption.

COMMENTS - The kidneys have a distinct attraction for Methyl., as it appears in the urine within half an hour of the dose and, if the kidneys have their normal permeability, the whole is eliminated in thirty-six hours. If there is delay beyond this it indicates that the urea is not being perfectly eliminated and that a tendency to uremia exists. The aniline products have been used as remedies for malignant growths.

Mosetig of Moorhof published a case treated with Trichlorate of Aniline, "an aniline dye."

E. Thomson, stated that Methyl, in 1-5 grains doses, "with equal parts powdered nutmeg to prevent irritation of the bladder" (a useful item in view of the homeopathic employment) is valuable in habitual headache and hemicrania.

Cardamantes of Athens gave 10 to 12 grs. ten hours before an expected malarial attack. He said it is useful in combination with quinine or when quinine had failed. Immunity from malaria seems to follow its continued use. Apt to cause cystitis. A gentleman who suffered excruciating pains from calculus in the kidney, giving rise to pyelitis and cystitis, derived no benefit from any treatment until his doctor gave him Methyl, with occasional doses of eucalyptus.

L'Art Medical gave an account of the use of Methyl, injection in pleurisy with serous effusion. C. H. Lewis of New York, first drew off by aspiration 100 cubic centimeters of the liquid, dissolved in this one grain of Methyl, and reinjected it into the pleural cavity.

The patient soon began to pass greenish urine and then the exudation quickly disappeared, partly from the diuretic effect of Methyl., partly from its stimulating action on the pleura. A watery solution is not borne, causing pain and irritation of the pleura.

The most homeopathic experience is that of Halbert. Utilizing the affinity of Methyl, for nerve tissues and nerve cells, Halbert gave it in 3x trituration with success in neuralgias of neurasthenia, tremor in neurasthenia, spasticity of hysterical contraction, trophic disturbances, the result of nerveexhaustion, and spinal irritation.

Halbert confirmed its anti-malarial powers and commended it in typhoid as an intestinal anti-septic. An apparently hopeless case of typhoid was signally benefited by it, the tympanites disappearing as if by magic.

Wherever there is pus infection it is indicated and it has "made a record" with him in gonorrhea and cystitis.

***MEZEREUM

(Spurge Olive)

PHARMACY - mez. Mezereum. Spurge olive. Daphne mezereum. Chameleons germánica. Mezereon. N. O. Thymelaceae. Hilly woods over nearly whole of Europe and Russian Asia. Tincture of fresh bark gathered just before the plant flowers in February and March. **Historical dose:** All potencies.

CLINICAL - Abscesses. Anus prolapsed. Bones disorders. **Ciliary, neuralgia.** Coccyx, pain. Constipation. Contraction, tendons. Convulsions. Crusta lactea. Ear, affections. **Eczema. Eruptions.** Erythema. Exostoses. Eyes, disorders. Glands, enlarged. Gleet. Gonorrhea. Hematuria. Hernia. Herpes, zoster. Impetigo. **Itching.** Leucorrhea. Lice. Mercury, effects. **Neuralgias.** Osteoma. Periostitis. Pityriasis. **Pruritus, senilis.** Rheumatism. Scrofula. **Skin, disorders.** Syphilis. Teeth, affection. **Testicles, enlarged.** Tinea, capitis. Tinea, versicolor. Tongue, disorders. Twitch- ings. **Ulcers.** Vaccination.

HERBAL - The plant flowers in very early spring, even when snow is on the ground. Suited to complaints that come on in the earliest months of the year.

HOMEOPATHIC - Hahnemann recorded the history of a robust man who took mezereum bark for some ailment and continued it after the ailment disappeared. Soon, unbearable itching set in all over his body, and he could not sleep a moment. Thirty-six hours after discontinuing it, the itching was still increasing. A few grains of camphor removed it.

Mez. is the vegetable analog of Merc., it and Mez. antidote one another. The mind, skin, eyes, mucus membranes and bones are affected in much the same way by both. They have the same sensitiveness to damp, cold and warmth and the same nightly aggravations.

Mez. affects skin, bones, nerves and mucus membranes of the mouth and stomach. Affinity for skin symptoms and disorders of bones and neuralgias, especially about the teeth and face.

Bruised, weary feeling in joints with drawing and stiffness. **Pains of various kinds with chilliness and sensitiveness to cold air.** Sudden pains of various kinds followed by chilliness, numbness and soreness. Pains shoot upward and seem to draw the patient up out of bed.

Irritation, burning itching or burning smarting on the skin. Violent, burning, darting like fire in the muscles. Burning, darting sensation in the muscles, subsultus tendinum. Burning, boring pains in bones especially long bones, with neuralgia of the teeth and face or after shingles. Decay, exostosis of bones. Periostitis. Bones seem enlarged.

Internal burning with external violent itching in small areas or in single parts. Acid secretions, pus, leucorrhea, etc. Ulcers. Eruptions after vaccination. Cystic osteoma. Abscesses of fibrous parts or tendons. Body feels light. Twitchings in the eyelids, on the right side of the face etc. Convulsions better by tight grasping.

Affected parts become cold or emaciate. One sided symptoms, whole or partial. Excessive sensitiveness to air, even of a fan. As if a cool breeze blowing on the part. Affections go from above downward, from within outward, and from right to left. Worse from cold, damp, cold winds, sudden changes of weather, heat, and warm food.

Nash mentioned an exception to the worse by warmth modality. In a man whom he cured with Mez. of obstinate facial neuralgia, the pains were brought on or greatly worsened by eating, and the only relief the man could get was by holding the painful side close to a hot stove. Only radiated heat was of any use, hot cloths, wet or dry, gave no relief whatever.

MIND - Forgetful. **Vanishing of thoughts while speaking,** unable to repeat what has been learned by heart. Indifference to everything and everybody, looks through a window for hours without being conscious of objects around. Dullness of mind after sound sleep.

Apprehensive at the pit of the stomach when expecting some very unpleasant news or shock. **Irresolution.** Nervous, compelled to move and change positions. Aversion to talk, it seems to be hard work to utter a word. **Hypochondriac and despondent. Sadness about trifles,** when alone. Religious or financial melancholy. Despair of eternal salvation. Anger alternating with quick repentance. Vexed and angry at trifles. **Censorious.** Reproaches or quarrels with others. Irritability during headache.

Abdomen - Burning and heat in abdomen. Swelling of glands with large abdomen in children. Contraction of diaphragm. Pressure in inguinal ring. Dull or severe pain in region of spleen. Stitches in left hypochondrium. Flatulent colic with shivering and difficult respiration.

Back - Pain in muscles of back. Pain in neck and back, worse motion and at night intolerant of all touch. Violent itching rash on nape. Stiff pain in nape and muscles of sides, worse motion. Rheumatic pain in right scapula, in morning after rising. Shuddering over back and limbs, when itching is most severe. Coccyx painful after a fall.

Causations - Ill effects of suppressed eczema capitis, vaccination and mercury.

Chest - Stitches in chest. Sore pain in right axilla. Soreness and burning in bones of thorax. Constriction across

chest. Contraction of diaphragm. Painful tension in intercostal muscles. Chest feels too tight on stooping. Sensation as if ants were running over chest. Intercostal neuralgia following herpes zoster, worse at night and in warmth of bed. Red spots like fleabites on chest.

Constitutions - Suited to light-haired persons, phlegmatic temperament, irresolute. Gouty, rheumatic, syphilitic miasm.

Cough - Irritation in throat causes hacking cough. Dry tickling cough, into vomiting. Cough, worse eating, on taking a warm drink. Cough from beer. Must cough till food is vomited.

Ears - Thickening of tympanum. Ears feel too open, *as if tympanum was exposed to the cold air and it blew into the ear*. Chronic diffuse otitis. Oozing eruption behind ear. Itching behind ears, scratching causes small elevations, when scratched off the spots feel sore. Desire to bore fingers into ears. Deafness after suppression of head eruptions.

Eyes - Eyes feel strained. Dryness of the eyes, they feel too large. Pains radiate and shoot downward with *cold feeling and stiffness of bone*. Pain outward along the brows. Smarting pain in eyes, with lachrymation. Lachrymation with any pains. **Ciliary neuralgia after operations**, especially after removal of eyeball. Inclination to wink, jerking of eyelids. Obstinate twitching of muscles of left upper lid. Eczema of lids.

Face - Red. Facial muscles drawn tight. Face swollen, burning pains, confluent vesicles. Boils on face. Impetigo. Eruptions around the mouth with coryza. Cracks in corners of mouth. Scabs about mouth. Ulcers on upper lip. Lips swollen, dry, scaly externally, painful, sore and burning. Chin covered with elevated, white scabs. **Violent neuralgia about face and teeth**, running towards ear, at night, **worse eating**, better near hot stove. Neuralgic pains come and go quickly and leave part numb. Sudden pains, wakes from sleep. Left-sided prosopalgia. Twitching of muscles, right sided. Boring pains in bones of upper jaw. Violent itching of face and scalp.

Female - Menses scanty with face ache. Menses too frequent, too soon, too profuse. Leucorrhea like albumen, very corroding. Ulceration of vagina and cervix.

Food - Loss of appetite. Constant longing for food. Confusion after eating. Thirst during chill. Aversion to meat. Craving for bacon, ham, fat, coffee, wine. Desire for acid drinks. Beer tastes bitter and causes vomiting. Worse from wine. Itching temporarily better from wine and coffee.

Head - Violent headache on slightest touch, after vexation. Headache, worse from talking. Stupefying headache in right side. Numbness of one side of scalp or top of head. Pressing pains as if skull would split. Pains on slightest touch in temples and sides. Cranial bones painful. Boring pains in bones of occiput. Violent congestion to head during menopause. Affections of external head, scaly eruption, white scabs. Burning pain of scalp. Intolerable itching. **Eczema capitis**. Head covered with *thick, leathery crusts, under which pus collects*. Milk crusts. Exostosis. Sore boils. White scabs or scales. Hair falls in handfuls. Dandruff, white, dry.

Heart - Pulse full, hard, accelerated evenings. Pulse at times intermittent. Pulse frequent mornings, slow evenings.

Kidneys - Red flakes float on top of urine. Hematuria, hot, preceded by cramps in bladder. After urinating, a few drops of blood are passed. Biting, burning in forepart of urethra at the close of urination.

Limbs - Trembling of limbs. Limbs feel cold, as if shortened. Joints feel bruised and weary, as if they would give way. Pain in hip and knee. Aching, itching in knee. Legs and feet go to sleep. Hands and feet cold, nails blue. One hand hot. Paralysis of flexors of fingers, cannot hold anything. **Long bones inflamed** and swollen, decay, exostosis. Pain, worse night touch, damp weather (Merc., Syph.). Burning in tibia and long bones.

Lungs - Dyspnea, as if from adhesions or contraction of lungs. Desire to take a long breath. Snoring in children. Yellow, viscid, salty expectoration. Expectoration during day or tasting like an old catarrh.

Male - **Testicles enlarged**. Painless swelling of the penis and scrotum. Heat and swelling of penis. Itching glans penis. Fine, pricking, stitches in penis and tip of glans. Urethra sore. Violent sexual desire. Gonorrhea with hematuria, discharge of watery mucus.

Modalities - Better open air, wrapping up, eating. Facial pains better radiated heat of stove. Head pains better wrapping up head. Headache better stooping. **Worse at night**, evening until midnight, touch, motion. Worse warmth of bed, fire, warm food, cold, air, drafts, damp. Worse during menses, suppressions, vaccinations, mercury.

Mouth - Salivation. **Mouth waters**. Taste bitter, sour, beer tastes bitter, which is vomited. Breath smells like rotten cheese. Burning in mouth and throat, sometimes better eating. Ranula, worse talking and chewing, ejects a watery fluid. Dry, dark red mouth. Flat, whitish ulcers on inner side of lips and corners of mouth.

Nose - Sneezing, coryza. Frequent sneezing with pain of excoriation in chest. Visible twitching at the root of nose. Interior of nose excoriated. Post nasal adenoids.

Perspiration - During sleep, following chill. Skin drips with cold sweat.

Rectum - Itching in anus. Biting, sore pain in anus on walking. Constriction of anus, stitches and prolapse of rectum. Burning in rectum. Much painless straining. Painful tenesmus. Constipation with hepatic and uterine inertia. Constipation after confinement. Summer diarrhea of children. Diarrhea with small, white glistening particles. **Green discharges**. Constant passing of flatus, but in a short and interrupted manner.

Sensations - Head as if drunk, as if everything in the head would press asunder. As if skull would split, as if top of head gone, as if head bruised, as if head was in an ants' nest. Eyes as if too large, as if drawn back into head. Throat as if narrowing. As if food remained long time in stomach. Stools feel as if they would split anus. Limbs feel shortened. As if fire darting through muscles. Sensation of lightness of body. Bones are very sore and feel distended. Diseased parts wither.

Skin - Skin wrinkled and in folds. Eruptions ulcerate and form thick scabs under which purulent matter exudes (Chrys-ac.). **Eruptions, ooze, acrid, gluey moisture, form thick crusts, scabs with pus beneath** or chalky white. **Intolerable, itching**, worse by warm bath, worse in bed. As if millions of insects were crawling on him.

Crusty eruptions, white scabs, bleeding when touched. Skin cold on places where itching is most intense.

Pruritus senilis. Itching changes place on scratching, coldness after. Itching without eruption. Itch-like eruption, after vaccination, depriving child of sleep. **Eczema. Psoriasis. Herpes zoster with burning pain**. Liver spots on chest and arms become dark and desquamate. Ulcers itch and burn, surrounded by vesicles and shining, fiery-red areola. Deep, hard, painful ulcers worse touch and warmth. Old ulcers burn and sting. Ulcers form over bony protuberances. Desquamation over whole body. Scurf like fish scales on back, thighs, chest and scalp.

Sleep - Much yawning and stretching. Irresistible sleepiness during day. Sleepiness from debility. Sleeplessness from itching. Sleeplessness from cramps in calves. Sleep disturbed by violent pain in face. Nightmare at night, awakening after midnight.

Stomach - Chronic gastritis, burning, corroding pain. Constant, severe pain and pressure in stomach even after light foods. Induration of stomach. **Stomach ulcer** with much burning. **Burning and corroding pain** in stomach, better milk and eating. Constricting, pinching pain in stomach. Sensation of apprehension, fear, faintness and goneness at stomach as if something was going to happen. Sensation as if food remained for a long time undigested in stomach and caused pressure. Stomach pain culminates and ends with retching and vomiting of all food taken. Vomiting of chocolate colored substance with nausea. Vomit bitter, sour, slimy, oily or greasy. Water brash.

Stools - Stools preceded and followed by shivering. Stools, hard, large, as if they would split the anus. Stool soft, brown, sour, fermented, undigested, offensive.

Temperature - Chill of single parts as if dashed with cold water. Chill alternating with flushes of heat. General weakness. Great tendency to get remittent or typhoid fever. Ague.

Throat - Dark, red, burning, sore, worse winter. Burning in mouth and throat, sometimes better eating. Burning in pharynx and esophagus. Throat as if dry. Sensation as if posterior part of throat were full of mucus. Swallowing even of fluids difficult and painful, from severe burning and raw pain. Constriction of pharynx. Sensation of narrowing in throat. Nausea felt in throat, better eating.

Teeth - Teeth feel dull and elongated. Teeth feel cold. Teeth painful on biting on them and from cold air. Roughness from tartar on teeth. Roots of teeth decay. Rapid decay of hollow teeth. Toothache into temples, better with mouth open and from drawing in air. Toothache in gums from cold air. Toothache from congestion to head. Sensation as if tooth was being lifted out of socket.

Tongue - Burning in tongue with salivation. Tongue coated along one side only. Middle of the tongue fissured. Thick, white coating on tongue with large, red, elevated papillae.

Vertigo - Vertigo with contracted pupils, faintness. Vertigo and flickering before eyes, inclination to fall to left side.

COMMENTS - A case reported in Allen's Appendix recorded the history of a pale girl, 14, having been advised to use mezereum leaves to make her fat and rosy, went into the woods and used them freely on her cheeks and surrounding parts.

Burning soon set in, the whole face swelled enormously, especially the nose, eyelids and hairy scalp. Severe and painful sneezing, delirium, dull, unbearable, pressing pains in forehead, a nauseous dryness in throat and constant irritation to dry cough. The face soon showed the appearance of erysipelas bullosum, nostrils closed, she could only breathe through her mouth, febrile pulse, burning urine.

Oil and compresses were applied, and after the second day desquamation occurred in large areas. Health did not return. Debility followed, with loss of vitality, mental depression bordering on idiocy. Then typhoid fever, lasting fully for three months to which she finally succumbed.

Poisoning has also been observed from the effects of the berries, causing dryness and burning of throat and

stomach, intense thirst, a narcotic state, coma, and convulsions of eyes and upper limbs.

In a child of four, poisoned with the berries, the lips swelled, the tongue was furred and swollen, protruding, with difficult swallowing. The tongue remained quite raw when other symptoms had passed away.

Mez. is one of Hahnemann's anti-psoric remedies. Ulcers, with thick, yellowish, white scabs. Vesicles, itch and burn. Lint dressings stick to them and when they are torn away, bleeding occurs. Burning vesicles on the sides of the fingers and ulcers on finger joints.

Canker sores with a scab, pus (Rhus-t., Nat-m.). Herpes zoster, shingles itch and burn and form scabs. Herpes zoster, during the eruption and for the neuralgia remaining after, especially if the pains are burning. Vaccination eczemas. Psoriasis and eczema, itching, worse in bed and from touch. Intolerable itching, migratory itching. Skin is scabby looking, with an itch underneath the scab that aggravates. Pimples on ankles and backs of feet, horrid taste and clamminess of mouth in morning. Pimples better by hard scratching. Dry crust on the scalp and falling out of hair, accompanied with short sight.

Bone pains, particularly of the long bones. The least touch is intolerable. Affinity for the facial bones and teeth (Merc.). Decay attacks the roots or sides of the teeth, rather than the crowns (Merc.). Toothache is worse at night, from touch, even with the tongue. Better by holding the mouth open and drawing in air.

Neuralgia about the eyes, the pains radiate and shoot downward. Sensation in the eye as if a cold wind were blowing in it. Hypersensitiveness of the ear to air. Feeling as if air went through the ear to the throat.

Stitching, burning and itching in the rectum and anus. During stool, the rectum prolapsed and the sphincter closes upon the protruded part. Sluggish bowels. Constipation after confinement.

Constricting tendency in the throat, stomach and tendons. Enlarged testicles (Clem.). The leg is shortened with pain in the hip. Tension in muscles of the chest. Pain and stiffness in muscles of neck. Cramp-like contraction over chest and back and across front of chest.

Cooper noted that green discharges were particularly characteristic.

Carroll Dunham recorded a notable case of

deafness, due to suppressed psora. A youth, age 17, deaf since four and incapacitated thereby, secluded himself and brooded over his trouble. Membranes thickened.

At the age of three, he had an eruption of thick, whitish scabs, hard, almost horny, covering the whole scalp. There were fissures through which exuded on pressure a thick, yellowish pus, often very offensive. There was much itching and disposition to tear off the scabs with the fingernails, worse at night.

The allopathic treatment was vigorous, a tar cap was placed on the head and when firmly adherent to the scabs was violently torn off, scabs and all, leaving the whole scalp raw. This was painted with a saturated solution of Arg-n. The eruption did not reappear, but from that time the child was deaf. The eruption was the very counterpart of an eruption observed in a proving by Wehle.

Mez. 30c, three globules in a powder of sugar of milk, was given on February 3, March 1, and September 28, 1857 and January 26, 1858. Improvement set in slowly after the first dose, which was only repeated when the effect of each preceding dose seemed to be exhausted. Finally, the hearing was for all practical purposes completely restored.

The action of Mez. in catarrhal cases is illustrated in the case of Miss M. R., 39, a brunette, who had chronic catarrh. The left ear had long been deaf and the right had begun to fail. There were noises in the ears. Drum membranes retracted and scarred.

The naso-pharynx mucus membrane was granular and irritable. There was excessive sensitiveness to the air, even of a fan and occasionally a sensation as if air went through to the throat. A dose of Mez. given before each meal entirely relieved the symptoms.

T. S. Hoyne collected many cases illustrating the action of the remedy including a case of a woman treated by W. E. Payne. She had no rest when alone, wanted company. Ideas vanished while talking, could not repeat what had been learned by heart. Looked through the window for hours without being conscious of objects around.

Did not know what she was doing, forgot what she was about to utter, looked ill-humored pale, wretched, fallen away. Apprehensiveness at pit of stomach, as when expecting some very unpleasant intelligence. All symptoms relieved in a single night by Mez. 20c.

S. R. Geiser noted the case of a man, 28, who had a violent neuralgia, boring pain in left lower jaw bone, extending to temple and ear. Pain was worse at night, better from pressure. Mez. 3c relieved in two hours.

J. W. Vance recorded the history of H. G., stout, healthy-looking, left supra-orbital neuralgia recurring daily at 9 a.m. increasing until noon, declining until 4 p.m., when it entirely departed leaving no soreness behind. Pain caused flow of tears. Mez. 1c cured permanently after other remedies had failed.

Hempel noted the case of a toothache in the incisor of a woman. Tooth felt elongated, loose, excessively sensitive with sensation as if being raised out of its socket. Upper part of tooth was excessively painful. Mez.

200c cured in a few hours.

Oehme noted the case of Mrs. X., who had pain in her right eye tooth, daily increasing. Felt too long. Pains much worse by pressure on crown and outside root. Mez. 2c cured.

Oehme also recorded a case in which the fastenings of a hammock broke and a woman on it fell, striking her sacrum and coccyx on the stump of a tree. She suffered excruciating pain. Arn. was applied locally. In a few weeks she came home and the coccyx was still so tender she could not sit, only lie or stand. Arn. internally and externally for two weeks had no influence. Mez. 2c cured in five days.

Cooper noted the case of a woman, 48, who had rheumatism which came on ten years before in her hands from wearing wet gloves and extended later to arms and knees. She had stiffness on walking with loss of muscular power, worse in hot weather, "pins and needles" in fingers on elevating arms. Could not grasp things, sometimes one hand burned when the other was cold, menopausal flushings. Great relief from Mez. tincture. Cooper also noted that Daphne laureola, the British representative of the genus, cured scald-head when Mez. failed to work.

The symptoms in this case were worse by day, whereas Mez. has worse at night. The pains of D. laureola come on in the morning and affect the entire head or whole left side. Guai. pains are also worse by day and better by warmth.

H. B. Esmond cured with Mez. 3x a youth, 17, who had been afflicted with "salt rheum" as long as he could remember. It was absent in summer, but every autumn, as soon as cold weather came, his face, neck, hands and forearms would break out and continue sore until warm weather returned.

Mez. cured a girl, 18, getting thin with headache across forehead, temples and eyes, a throbbing with sickness of stomach and water brash, always worse by movement, bowels very confined, menses never appeared.

H. Noah Martin noted a patient that said "my stools are as hard as stone and as large as my arm. I feel as if they would split me open. They come in sections like mouthfuls and I become much exhausted and tremble with weakness. Every stool is immediately preceded by chills and followed by long stitches up rectum." Mez. 12c produced a natural stool in twelve hours.

RELATIONS - Antidotes: Kali-hp., Merc. **Compare:** (1) Merc., Phyt., Rhus-t., Guai., Syph.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***MICROMERIA DOUGLASII

(Yerba Buena)

PHARMACY - micr. Micromeria douglasii. Yerba buena. California. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Flatulence. Nausea.

HERBAL - A California mint-like plant acting on stomach and bowels. It is a pleasant beverage and febrifuge, blood purifier and tonic. Used as a tea for colic and to relieve flatulence. Nausea with pain in the stomach and bowels.

REFERENCES - Boericke.

***MILLEFOLIUM ACHILLEA

(Yarrow)

PHARMACY - mill. Millefolium achillea. Y arrow. Achillea millefolium. N. O. Composite. Asteraceae. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Ascites. Asthma. Bedwetting. Bleeding. **Blows. Bruises.** Cancer. Chlorosis. Colic. Dentition. Diarrhea. Dysmenorrhea. Epilepsy. Fistula lachrymalis. Hematemesis. Hematuria. **Hemoptysis. Hemorrhages.** Hypochondriasis. Hysteria. Infertility. **Injuries.** Leucorrhea. Lochia, profuse. Lochia, suppressed. Milk, absence. Nipples, sore. **Nosebleeds.** Puerperal convulsions. Puerperal fever. Rodent ulcers. Sycosis. Tetanus. **Trauma.** Tuberculosis. **Varicose, veins. Urine, bloody. Wounds.**

HERBAL - Yarrow was named Achillea by Linneus because the plant is mentioned in the Iliad as having been used by Achilles on the instruction of Chiron to heal the wounds of his soldiers.

Millefolium received its popular name, "nosebleed," because nosebleed comes on if the leaves are inserted into the nostrils. The other species of Achillea indigenous to Great Britain, Achillea ptarmic, is called "sneeze-wort" from its allergic properties.

HOMEOPATHIC - Mill, affects the **capillaries of lungs**, nose and uterus. Suited to all **wounds which bleed profusely**, sprains and over-lifting. Profuse, painless, bright, red, fluid hemorrhages. **Nosebleeds.** Hemoptysis. Oozing of blood from the edges of closed wounds from over exertion.

Spasms or convulsions especially after the suppression of hemorrhages, menses, lochia, milk etc. **Varicose veins in pregnancy.** Bruised soreness and congestions. **Sprains and over-lifting.** Bad effects from fall from

a height. Profuse mucus discharges. Piercing thrusts of pain. Incarcerated hernia. Smallpox with great pain in pit of stomach. **Continued high temperature.**

MIND - Forgetfulness. Loss of memory. Difficulty thinking and comprehending. Confusion and dullness in evening. Confusion after coffee, wine. Desires nothing.

Does not know what he is doing or wants to do. Aversion to mental work. Moaning, sighing and groaning of children.

Anxiety in chest, heart. Anxiety, excitement from pains. Anxiety better on rising from a seat. Very excited with pain in stomach. Sadness. Violent, irritable. Hysteria. Delusions, he has been poisoned. Hypochondriasis. Delirium. Knocking his head against wall.

Abdomen - Ascites. Abdomen distended. Pain in region of the liver. Congestions to portal system. Wind colic. Frequent emission of fetid flatulence. Colic during the menstruation. Violent colic with bloody diarrhea during pregnancy. Dysentery. Hemorrhage from bowels. Incarcerated hernia.

Back - Piercing, drawing pains, under left scapula. Fine piercing pains in left scapula, when standing.

Breasts - Sore nipples. Agalactorrhea. Suppressed secretion of milk.

Causations - Ill effects from operations for kidney stones, gallstones. **Bad effects from a fall or sprain,** injuries, over-lifting, over-exertion. Suppressed lochia, menses, milk.

Chest - Oppression of chest with bloody expectoration or palpitations. Bubbles in chest as if warm blood was ascending.

Constitutions - Suited to the aged, atonic, anemic women and children.

Ears - Darting pain in left ear. Sense of cool air passing through the ears. Noise in left ear causes starting with fright. Sensation of stoppage in ears, after dinner.

Eyes - Glistening, brilliant eyes. Piercing pain from eyes to root of nose. Sensation of too much blood in eyes. Lachrymation and discharges from eyes. Fistula lachrymalis. Agglutination of eyes in morning. Spots on eyes.

Face - Sensation of heat, as if blood was rising to head. Redness of face without internal heat. Tearing pain in face to temples.

Female - Menses early, profuse, protracted. Menses suppressed, with colicky pain in abdomen. **Convulsions and epilepsy from suppressed menses.** Leucorrhea

from atony of vaginal mucus membrane. Leucorrhea of children. Infertility with too profuse menstruation or tendency to miscarry. Cramps during pregnancy. **Painful varicose veins during pregnancy.** Uterine hemorrhages, bright red, fluid, after great exertion. **Hemorrhage after labor, abortion or miscarriage.** Prolonged bleeding during labor. Lochia too profuse. Suppressed lochia with violent fever. Curative of post-partum hemorrhage. Severe after-pains.

Food - Want of appetite. Sluggish appetite from stagnation in liver. Thirst during fever. Mouth dry, with thirst. Confusion after coffee, wine. Dullness after wine. Congestion to head from coffee. Symptoms worse coffee, better wine.

Head - Confused, dull headache, in evening, worse after coffee. Head seems full of blood. Fullness in head after siesta. Headache with twitching of eyelids and frontal muscles. **Piercing thrusts** of pain. Beats the head against the wall. Headache worse stooping. Throbbing in arteries of head and face.

Heart - Inflammation with tearing and piercing pains. Pains in heart with anxiety. Ebullitions from coughing blood. Violent palpitation with bloody sputum. Pulse accelerated and contracted.

Kidneys - Chilliness with pain in left kidney, followed by hematuria. Catarrh of bladder from atony. Stone in bladder with retention of urine. Pus-like discharge after surgery. **Urine bloody** (Senec.). Involuntary urination of children.

Limbs - **Bad effects from falls and sprains.** Convulsions, convulsive motion of all limbs and violent pain. Paralysis and contraction of limbs. Violent pains on a level with crest of left ilium. Pricking numbness. Left arm frequently feels as if going to sleep. Hot hands and feet. Right Achilles tendon pains as after a blow or sprain. **Painful varicose veins during pregnancy.** Painless or bleeding varices in pregnant women.

Lungs - Shortness of breath. Very difficult breathing, with tetanic spasms. Asthmatic affections. Inflammation of lungs. Exces

sive accumulation of mucus in bronchi. **Hemoptysis with incipient tuberculosis.** Hemoptysis after injury. Expectoration of bright red blood, without much coughing, sometimes in consequence of violent exertions. Cough with bloody sputum in suppressed menses or hemorrhoids. Lung disease with coughing blood.

Male - Wounds and injuries of penis. Swelling of the penis and testicles. Semen is not discharged during sex. Spermatorrhea. Gonorrhea, gleet. Syctic excrescences.

Modalities - Better from bleeding, re-establishment of discharges. Better during the day, from wine, violent exercise. Violent exercise improves vertigo. **Worse from violent exertion, injury,** exertion, lifting, stooping, doubling the body, lying down. Worse evening and night, coffee, hemoptysis, suppression of discharges.

Mouth - Tongue swollen and coated. Thirst, mouth dry. Putrid sore mouth. Gumboils. Rheumatic pain with diseased gums. Toothache from eating things. Useful given before tooth extraction.

Nose - **Nosebleed** (Erech.), with congestions to head and chest. Piercing pain from eyes to root of nose. Stuffed nose.

Perspiration - Profuse sweats. Colliquative perspirations.

Rectum - Fetid flatus. Diarrhea, preceded by rattling of fluids in abdomen. Mucus diarrhea. Bloody dysentery. Bloody diarrhea during pregnancy. Hemorrhages from bowels after much exertion. Bleeding hemorrhoids. Pains from blind hemorrhoids. Profuse flow of blood from condylomata. Ascarides.

Sensations - As if he had forgotten something. As if all blood ascended to head. Right side of head as if screwed together. As if too much blood in eyes. As if cold air passing out of ear. As of a liquid moving from stomach to intestines. Pain as from a blow or sprain.

Skin - **Bruises and bleeding from wounds.** Wounds after operation for stone in the bladder. Painless varicose veins of pregnant women. Exanthemata and delirium. Suppressed itch, causing fever. Fistulous ulcers. Gangrenous ulcers. Ulceration of internal organs. Cancerous ulcers. Condylomata.

Sleep - Violent yawning without being tired. Goes to sleep late and does not feel refreshed in morning.

Stomach - Stomachache. Painful gnawing and digging in stomach as from hunger. Burning pain in stomach, extending to chest. Sensation of fullness in stomach. Pressure like a plug in stomach. Cramps in stomach with sensation as of a liquid flowing in intestines to anus. Eructations. Hiccough. Vomiting when coughing. Nausea with vertigo. Hematemesis.

Teeth - Toothache from eating things. Gumboil. Ulcers on gums. Rheumatic pain with diseased gums.

Temperature - Chilliness with pain in left kidney. Heat in hands and feet. Fever heat with thirst. Continuous high fever. Fever from suppressed itch or suppressed lochia. Hectic fever with hemoptysis. Malignant fever with tetanus. Intermittent fever. Quartan, tertian, irregular fever.

Throat - Rough feeling in throat. Rough voice. Elongation of palate. Uvula relaxed. Ulceration of throat, pain in left side when swallowing. Dull piercing pain, right then left. Throat catarrh.

Vertigo - Vertigo when moving slowly. Vertigo, falls to right side and backward. Vertigo with nausea when stooping, not when lying down. Violent exercise improves vertigo.

Vision - Vision nebulous with contortions of facial muscles. Clear, bright vision. Foggy vision, not near eyes, but at a distance.

COMMENTS - Hemorrhages and wounds (Am.). Anti-convulsive. Convulsions occur, although not exclusively, as a result of suppressed hemorrhages, particularly the menses, or other discharges or secretions.

Trauma (Am., Ham., and Phos.), with profuse bleeding. Hemorrhage with bright, red blood, florid hemorrhage. Tubercular hemorrhage. Bleeding hemorrhoids, bloody urine or stool. Useful for reabsorbing blood clots. Useful after surgeries (Phos.).

Copious mucus discharges, especially due to atony. Pronounced relation to pregnancy and the puerperal state. Useful for varicose veins during pregnancy. Uterine tonic, particularly for profuse menses.

C. W. related an interesting case in which a man had severe diarrhea, with profuse dark, chocolate-colored stools, verging on black and slightly tinged with blood. A club doctor had failed to relieve, but an old woman cured the man with "yarrow tea."

C. W. had a collie dog that, when excited, would pull up grass or weeds and swallow them. When it happened to swallow Mill., this invariably caused a rattling of fluid in the bowels, followed by dark chocolate diarrhea, changing to black, very offensive, finally blood-tinged.

This lasted a day or two. It was found that Ars-i. 3x in solution was a complete antidote. Given every ten minutes, as soon as rattling came on, it effectually stopped it. The dog also had fissured pads. Ars-i. did nothing for these, but Ars. 30c cured.

RELATIONS - Ant-t. relieves the vertigo to Mill., Ars-i. the diarrhea. **Antidotes:** Ars-i., Amm-m. **Compare:** (1) Composite group generally, Am., Bell-p., Calen. (2) Fic-v., Pakur. - hemorrhage from bowels and lungs. (3) Acai., Helix. - in hemoptysis, diseases of chest, tuberculosis. (4) Erech. - nosebleed and hemoptysis. (5) Senec. - hematuria. (6) Ham. and Ip. - hemorrhages. (7) Mill, red, clotted, Plat, dark, clotted. (8) Bry., Ust. and Ham. - hematemesis. (9) Aeon. - hemorrhages, profuse flow of bright red blood. (10) Aeon., anxiety, Mills., absence of anxiety. **Incompatible:** Coffee causes head congestion.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***MIMOSA HUMILIS

(Sensitive Plant)

PHARMACY- mim-h. Mimosa humilis. Sensitive plant. N. O. Leguminose. Mimosoideae. Tincture of leaves.

Historical dose: Tincture and all potencies.

CLINICAL - Ankle swelling. Borborygmi. Colic. Conjunctivitis. Coryza. Flatulence. Goosebumps. Numbness. Rheumatism. Sneezing. Trembling. Twitching.

HERBAL - Mimosa humilis is one of the remedies introduced and proved by Mure. The “**sensitive plant**” of the hothouses is M. púdica, but the leaves of M. humilis, said Mure, “close at the least contact.”

HOMEOPATHIC - The most notable Mim-h. symptoms were lancinations in the back and limbs **and swelling and redness of left ankle** with tension and lancination. Smarting pain in legs with paralysis of knee. Stiffness of bends of knees. Pressure in nape and right temple. Prostration.

MIND - Indolent with indifference (Ph-ac.). **Abdomen** - Borborygmi. Flatulent colic. **Back** - Violent lancinations in back.

Ears - Whizzing in ears.

Eyes - Inflammation of eyes of left eye. Itching. Vision dim, halo around candle.

Head - Sensation of heat in head, as if enlarged.

Limbs - Lancinations in legs and hands, now in arm, now in leg. Swelling of left ankle with redness, tension and lancination. Trembling of legs. Twitching of arm, extending to chest. Numbness of arm and right hand, ceasing on movement. Inflammatory swelling of left hand.

Lungs - Dry cough in morning. Difficult breathing.

Male - Inflammatory swelling of scrotum. **Mouth** - Bleeding of gums. Salivation. **Nose** - Sneezing and coryza.

Rectum - Diarrhea. Frequent stools, colic.

Skin - Pimples and pimply excrescences about legs and arms. Goosebumps.

Sleep - Yawning. Drowsy in evening with frequent waking at night.

Stomach - Stomach aches and pains.

REFERENCES - Clarke.

***MIMOSA PUDICA

PHARMACY - mim-p. Mimosa púdica. N. O. Leguminosae. Mimosoideae. Brazil and India. Tincture is prepared from the root and the flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. Backache. Blepharitis. Colic. Conjunctivitis. Coryza. Cough. Diarrhea. Enterocolitis. Fistulae. Headache.

Hemorrhoids. Hydrocele. Hypersensitivity. Influenza. Otitis. Pains. Photophobia. Salivation. Scorpion, bites. Sinusitis.

HERBAL - Mimosa Púdica is ligneous with regular flowers in clusters with reduced corolla, meristenuous androecium and albuminous seeds. It is a tropical plant originating from Brazil and in the warm parts of India. The root contains 10% tannin, and its common usage suggests that it is an aphrodisiac.

HOMEOPATHIC - The homeopathic proving is the work of Sankaran (Mumbai), who experimented with it on six young provers, for three weeks, using the potencies 3x and 6x in 1968-69.

Sensitiveness and headache above the eyes, aggravated by movement, ameliorated by closing the eyes. Irritation of the conjunctiva and nasal mucus membranes. Pains in the shoulders. Diarrhea with abdominal colic and irritating stools. Feeling that the body is too big.

MIND - General irritability. Annoyed by the thought of taking medicine. Easily angered, it takes a long time to forgive. Sensitivity, impression that the body is too large.

Abdomen - Pain in the epigastric region, worse when coughing.

Back - Backache. Dorsal pain. Sharp pain in both shoulders.

Chest - Thoracic pain, especially around the lower part of the large pectoral muscle. Better by a hot bath and by abduction movement of the arm, worse fresh air.

Constitutions - Allergic and psoric constitutions. Tubercular, nervous types, predominantly phosphoric.

Ears - Sudden, acute stinging pain, especially in the right ear. Pain coming in the evening, lasting through the night. Pain worse when lying on the right side with pressure and draft of air. Pain ameliorated by lightly covering the ear. Buzzing in the ears. Hears less well against a noisy background.

Eyes - Burning in the eyes, worse from a draft of air. Blepharitis. Conjunctivitis. Photophobia with headaches, aggravated by the sun. Vision slightly blurred. Eyelids secrete a yellowish pus, which forms in the corner of the corner of the eye.

Eyelids stuck together in the morning on waking.

Head - Headache above the eyes, especially at the left eyebrow. Headache aggravated by straining the eyes, or by quarreling. Headache, worse from movement, ameliorated by closing the eyes or by a tight bandage.

Lungs - Dry cough.

Male - Increase of sexual desire.

Modalities - Better by friction, tight bandage, hot bath. Worse from a draft, movement, bright light.

Mouth - Abundant ptialism throughout the body. Nocturnal salivation when lying on the right side. Loss of sense of taste.

Nose - Irritation of the nasal mucus membranes. Coryza. Constant discharge of a watery secretion.

Rectum - Irritating stools with abdominal colic. Stools frequent, as often as ten times a day. Better after evacuation. Ameliorated by rubbing the abdomen.

Throat - Pain and tickling in the throat, ameliorated by a hot drink, aggravated by speaking and by coughing.

COMMENTS - Mim-p. has been used as a decoction of the root (1:10), to be prescribed for gravel and all urinary complaints. The infusion of the leaves has been used as a blood cleanser. Powder of the leaves and root is for fistulae and hemorrhoids. The juice can be used as an application for insect and scorpion bites, hemorrhoids and fistulae. A paste made from the leaves is an effective application for hydrocele. The leaves can be used in the bath for cases of lumbar and hip pains.

RELATIONS - Compare: (1) Euphr. - Inflammation of the nose and eyes. Aggravated by light and air, ameliorated in darkness when lying down. (2) Sabad. - Senses: irritation of the mucus membranes in the nose and the throat. Ameliorated by hot drinks. (3) Psor. - Periodic migraines, worse from the slightest draft, hypersensitive to the cold, sudden nocturnal diarrhea with a fetid odor.

REFERENCES - Julian.

***MIMULUS

(Bach Flower Essence)

PHARMACY - mimul-b. Mimulus. Mimulus guttatus. Flowers are picked, placed in a bowl of water and left to the sun's action for several hours. The water imbued with healing power is then prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Mimulus belongs to Bach's group **"For Those who have Fear" along** with the remedies of Rck-r-b., Cher-p-b., Asp-b. and Rd-ch-b. Anxiety disorders and phobias when there are concrete objects, persons, or situations of fear (Rck-r-b.).

Nervousness, lowered stamina and decrease in vitality. Dread with internal agony or a slumping of vitality. Hypochondriacal. Obsessive anxieties, intensifying minor symptoms. Excessive self-observation. Fear of being rejected.

Frequent loose bowels and intestinal griping pains during acute states of anxiety. Chronic diarrhea. Heart neurosis, with duodenal ulcers in the passive-dependent patient, emotional diarrhea, urticaria and atopic dermatitis.

Useful during physical rehabilitation after accidents or surgery, or during sickness or old-age infirmities, when every move frightens and small pains intimidate.

MIND - Constant fear. Dreaded things, persons, or events are seen as a hurdle, or as a dangerous deterrence. Shyness and nervousness. Desire to hide shyness.

Anticipatory fears. Chronic phobias. Fixations or obsessions. Fear of death, accidents, poverty, loneliness, misfortunes. Hypochondriasis (Chic-b., Heath-b.) and excessive self-observation (Cer-b., Lar-b.).

REFERENCES Bach.

***MITCHELLA REPENS

(Partridge Berry)

PHARMACY - mit. Mitchellarepens. Partridge berry. Partridge-beans. N. O. Rubiaceae. Tincture of whole plant.

Historical dose: Tincture and all potencies.

CLINICAL - Amenorrhea. Belchings. Bladder, irritation. Catarrh. Constipation. Depression. Dysmenorrhea. Dysuria. Hemorrhages. Kidneys, pain. Menorrhagia. Menses delayed. Metritis. Uterine, hemorrhage.

HERBAL - Mitchellia is a small, trailing evergreen bearing a scarlet bean and is common throughout the United States. It belongs to the same order as Chin., Coff. and Ip. and shows its affinity with these in its power over hemorrhages.

Indian women drink a decoction of it before confinements to make labor safe and easy. Herbalists use a concentrated decoction as an application to sore nipple.

HOMEOPATHIC - Duncan induced pains and burning in the kidneys in his proving and Hale, who observed the effect on a woman, recorded some characteristic symptoms in the urinary and uterine sphere.

Congestion of the uterus with bladder irritation. Irritation at neck of bladder with urging to urinate (Eup-pur., Apis.). Engorged uterus, hemorrhage, bright with dysuria. Lassitude. All muscles feel sore. Whole digestive

tract feels cold, transverse colon tender to pressure.

MIND - Inability to concentrate mind. Depression, followed by buoyant spirits.

Abdomen - Gripping. Distention with flatus.

Rumbling.

Back - Aching pains running down back. Dull pain between shoulders in kidney region.

Bladder - Uneasiness in neck of bladder, urging to urinate, burning, 11 a.m. Catarrh of bladder. Urethra and neck of bladder swollen and irritated, especially in females).

Ears - Burning in left pinna. Dull aching in right ear.

Eyes - Eyes dull and heavy.

Female - Amenorrhea. Menses delayed. Menorrhagia. Dysmenorrhea and uterine hemorrhage, blood bright red. Uterus irritated, severe pain in it. Cervix engorged, dark red, swollen. False pains in last month of pregnancy. Slow, feeble ineffective labor pains.

Food - Appetite impaired.

Head - Severe frontal headache on waking. Burning in vertex. Throbbing in occiput. Scalp sensitive to touch.

Heart - Burning pains, uneasy feeling as if its action was being interfered with. Beats irregular.

Kidneys - Heat in kidneys with dull pain. Dysuria, accompanying the uterine complaints. Increased quantity of urine, acid. Urine high-colored, white sediment.

Limbs - Aching and burning sensation in right upper limbs. Walk unsteady, inclines to fall to right. Aching in lower limbs in knee joint.

Lungs - Much mucus in bronchi. Dry, backing cough in morning. Breathing difficult, 11 a.m.

Male - Pain, drawing in right testicle. **Mouth** - Burring and prickling on tongue. **Rectum** - Tenesmus, urging. Constipation, feces small, thin, difficult.

Sleep - Yawning, drowsy. Woke in a fright, frightful dreams.

Stomach - Burning in stomach extending whole length of esophagus. Acid belchings.

Temperature - Chill over whole body with flushes of heat, very sensitive to cold air.

Throat - Fauces dry. Pharynx feels constricted, impeding swallowing. Tonsils enlarged, painless, especially the left. Some enlargement of left submaxillary gland.

RELATIONS - Compare: (1) Chim., Senec., Uva., Ger., Goss. (2) In congested cervix associated with irritation of neck of bladder, Sep. - Mitch has no general resemblance to Sep., (3) Eup-pur. - bladder irritation in women. (4) Hydre. has in addition heat and itching in vagina. (5) Apis, Vesp. - has ulcer around os. (6) Caul., Chim., Cimic., Helon., Puls., Senec.

REFERENCES - Boericke. Clarke.

***MOMORDICA BALSAMICA

(Balsam Apple)

PHARMACY - mom-b. Momordica balsamica. Balsam apple. Momordica balsamina. N.O. Cucurbitaceae. Momordica. Tincture of fresh ripe fruit. **Historical dose:** Tincture and all potencies, externally used as a liniment and poultice for bums, chapped hands, etc.

CLINICAL - Colic. Dropsy. Dysmenorrhea. Flatus. Leucorrhea. Menorrhagia.

HOMEOPATHIC - Mom-b. was introduced by Dr. Mercer, whose wife made the proving with twenty-four drops of the tincture, producing some very well characterized symptoms.

Gripping and colic (Coloc. and Elat.). Accumulation of flatus in splenic flexure of colon. Dropsy. Severe pains in back and hypogastrium with painful and excessive menses. Sensation as if the whole contents of the head had greatly diminished in weight.

Abdomen - Rumbling, gripping, colicky pains, starting from back, spreading over abdomen.

Eyes - Mist before eyes.

Female - Painful and profuse menses, laborlike pains, followed by gushes of blood, pain at small of back coming towards front of pelvis.

Vertigo - Dizzy, contents of head feel lighter.

COMMENTS - Farrington gave as a keynote "distention and rumbling in splenic flexure of colon," which he compared with the effects of Lyc.

RELATIONS - Compare: (1) Mom-ch., Lyc.

REFERENCES - Boericke. Clarke.

***MOMORDICA CHARANTIA

PHARMACY - mom-ch. Momordica charanda. Indian variety. N. O. Cucurbitaceae. Momordica. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - This remedy has more severe symptoms than Mom-b. Mom-ch. has gallbladder symptoms. The intestines full of yellow watery fluid, **discharged explosively**, cramps, thirst and prostration.

RELATIONS - Compare: (1) Similar to Crot- t., Elat.

REFERENCES - Boericke.

***MONOSODIUM GLUTAMATE

(MSG)

PHARMACY - mono-s-g. Monosodium glutamate. MSG. Sodium salt of glutamic acid.

CLINICAL - Allergies. Anaphylactic, shock. Asthma. Cramps. Flushings. Headaches. Hives. Insomnia. Migraine. Nausea. Numbness. Palpitations. Rash.

HOMEOPATHIC - MSG is made by either a bacterial fermenting process, protein hydrolysis (a breaking of protein into its constituent amino acids), or by synthesis. When a product is 99% pure MSG, the product is called "monosodium glutamate" by the FDA and must be labeled as such. However, when a hydrolyzed protein contains less than 99% MSG, the FDA does not require that the MSG be identified.

Many food products manufacturers advertise "No MSG" on their food packages, but MSG may be disguised as "hydrolyzed vegetable protein," "glutamic acid," "enzyme modified," "natural flavor," "yeast extract," "maltodextrin," or "autolyzed yeast."

There have been reports of allergies and/or sensitivities to MSG, sometimes attributed to the free glutamic acid component. It has been blamed for causing a wide variety of physical symptoms including migraines, nausea, stomach cramps, bloating, irritable bowel syndrome. Extreme dryness of the mouth, mouth lesions. Hives or rash.

Numbness to the tongue and face, burning sensation in the neck, facial pressure or tightness. Drowsiness, insomnia, anxiety, panic attacks, mental confusion. Asthma, runny nose, sneezing. Flushing, heart palpitations, and anaphylactic shock. "Chinese restaurant syndrome" is often used as an example of the symptoms purported to be caused by MSG.

MSG has been shown to cause lesions on the brain, especially in children. These lesions cause cognitive, endocrinological and emotional abnormalities.

Monosodium glutamate

In children, excess glutamate affects the growth cones on neurons. Growth cones are vital in laying down chemical pathways in the brain to enable the brain to operate effectively. MSG could affect human children's cognitive skills and cause learning difficulties.

REFERENCES - Murphy.

***MONOTROPA UNIFLORA

(Indian Pipe)

PHARMACY - mono. Monotropa uniflora. Indian pipe. Ghost flower. Corpse plant. Convulsion weed. Fit root. N. O. Monotropaceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Bunions. Colds. Convulsions. Epilepsy. Eye, disorders. Eye, inflammation. Fainting. Fevers. Gonorrhea. Sores. Toothache. Ulcers. Warts.

HERBAL - The plant was used by some North American Indian tribes to treat eye problems, the stem was bruised and the clear fluid of the stems applied to the eyes. An infusion of the root is antispasmodic, hypnotic, nervine, sedative, tonic.

The flowers have been chewed in order to bring relief from toothache. Water extracts of the plant are bactericidal. The crushed plant has been rubbed on bunions and warts in order to destroy them. A poultice of the plant has been applied to sores that are difficult to heal.

The juice of the plant used alone or combined with water helps ophthalmic inflammation, ulcers, gonorrhea, and inflammation and ulceration of the bladder. The juice from the stems has also been used to treat nervous irritability, including fits and spasms.

It is a good remedy for spasms, fainting spells and various nervous conditions. It has been given to children who suffer from fits, epilepsy and convulsions.

Because of the salicylic acid, the base of aspirin, Monotropa uniflora is considered a pain reliever. It has been suggested in the past as a possible aspirin or opium substitute.

An infusion of the leaves has been used to treat colds and fevers.

Monotropa uniflora

An infusion has been used for sore, tired swollen eyes. A tea is made from equal parts juice of Indian pipe and fennel seed.

The infusion of Indian pipe to douche to help ease vaginal irritations. Safety is undetermined and it is possibly

toxic at high doses as it contains several glycosides.

REFERENCES - Murphy.

*****MORBILLINUM**

(Measles Nosode)

PHARMACY - morbill. Morbillinum. Measles nosode. **Historical dose:** All potencies.

CLINICAL - Adenitis. Catarrh. Conjunctivitis. Coryza. Coughs. Ear, disorders. Erythematous, lupus. Exanthema. Eye, disorders. Lachrymation. Laryngitis. **Measles.** Optic neuritis. Otitis. Photophobia. Rash. Skin, disorders. Splenomegaly. Spontaneous, abortion. Tachycardia.

HOMEOPATHIC - The well-known symptoms which characterize an attack of measles may all be taken as guides for its homeopathic use. Its chief use has been as a prophylactic against infection and to clear up after-effects of an attack.

Morbillinum is extremely useful for cases of debility, weak eyes, blepharitis, conjunctivitis, etc., left after severe measles. Treated in fever hospitals, children who simply will not put on weight, are anemic, weary, and often with some bronchitis, morbillinum will help to remove all these symptoms, prevent lung complications and help them to assimilate their food well and to put on weight rapidly.

Affinity for the mucus passages, eyes, ears and the respiratory mucus membranes. Diffused bronchial rales. Nasal voice, rough cough, lachrymation. Fevers, nasal and eye catarrh.

Koplik spots. Macular exanthema, begin- ing on the face and behind the ears. Fine scaly desquamation. Aggravation of a first infection of measles. Troubles of the perception. General convulsions. Grumbling children.

Mind - Mental dullness, sluggishness. Difficulty of thinking and comprehending. Moaning, groaning in children.

Fear of the sea.

Abdomen - Abdominal pain, localized at the appendix region. Acute mesenteric adenitis. Splenomegaly. Swollen lymph glands.

Ears - Acute otitis.

Eyes - Optic neuritis. Lachrymation. Photophobia.

Female - Spontaneous abortion.

Heart - Tachycardia.

Lungs - Cough. Paroxysmal respiratory dyspnea. Purulent pleurisy.

Mouth - Koplik spots. Small white patches, surrounded by a red areola, slightly raised seen on the internal walls of the cheeks and on the mucosa of the gums.

Nose - Flapping of the nasal wings, snoring. Catarrh of the nose.

Skin - Rosy maculae, round and oval, of different shapes separated by healthy skin disappearing by pressure. Papulous eruption. Miliary, confluent, scarlatina-like eruptions. Ecchymotic spots.

Throat - Hypertrophy of the superficial glands of the neck. Throat red, irritated. Striduous laryngitis.

COMMENTS - This nosode was prepared by Gross, a contemporary of Hering. Gross used to soak some globules in the blood of the patient suffering from measles, dynamised and used via olfaction.

According to another version, Gross gave some natural globules to the patient suffering from measles, who kept them in his hands firmly closed, and afterwards Gross made dilutions from these globules.

Clarke would prescribe a dose of the Mor- bill. 30c 2 or 3 times daily as a prophylactic given to those who are or may be exposed to infection. For an attack of the disease, he found nothing better than Morbill. 30c, eight or ten globules in six ounces of water, a dessert spoonful every two hours.

Clarke noted that the effect of this is heightened by alternately giving Bell. 30c in the same way. These two medicines will be sufficient to carry through any uncomplicated case and in his experience do even

Morbillinum better than Puls.

Dr. D. Sheppard case: Baby Jean, aged 13 months, who had done well on repeated doses of Silica, so that she weighed 22 lb. and had 7 teeth without any disturbance, developed measles at the beginning of June, 1941. When seen again on June 19th, she was not her usual bright self, very quiet and miserable, had lost about a pound in weight.

Morbillinum 100 given at once. The next week she was extremely lively and happy as always, and had gained 6 oz. Morbillinum was repeated weekly until July 10th, when she weighed 22 lb. 3 oz., a gain of nearly 20 oz. in three weeks, plus the eruption of another tooth and four more nearly through; always cheerful and bright now.

Dr. D. Sheppard writes: "Let me repeat once more: remember the measles serum, Morbillinum, in potency during the convalescence period after measles. There will be no need to send the child to the seaside or give innumerable doses of the nauseating cod - liver oil and malt mixture. This treatment is much simpler, less

costly and more efficacious.”

“And if in an older child or even an adult you find that the individual had one or more attacks of measles, and has not been doing too well since, interpose a dose or two of Morbillinum 30 or higher, and then go back to the other constitutional remedies as may be necessary; and you will be surprised how quickly various states of ill-health will clear up.”

RELATIONS - Compare: (1) Puls., Hep., Merc., Sulph. **Complementary:** Bell.

REFERENCES - Clarke. Julian.

***MORGAN BACILLUS

(Bowel Nosode)

PHARMACY-morg.Morganbacillus.Morgan pure. Proteus morgani. A bowel nosode. **Historical dose:** All potencies.

CLINICAL - Alopecia. Anal, fissures. Arthritis. **Asthma. Bartholinitis.** Boils. **Bronchitis.** Callosities. **Catarrh.** Chilblains. Cholecystitis. **Congestions.** Conjunctivitis. Constipation. **Cystitis.** Dysmenorrhea. Eczema. Edema. Emphysema. **Fibrositis.** Flatus. Foot sweat. Gallbladder, disorders. Growing, pains. Headaches. Hemorrhoids. Herpes zoster. Hiatal, hernia. High blood pressure. Hot, flashes. Insomnia. **Jaundice.** Laryngitis. **Leucorrhea.** Liver, disorders. Lumbago. Meniere's disease. Menopause. Menorrhagia. Metrorrhagia. Migraines. Neuritis. Nodules. Numbness. Osteoporosis. **Otorrhea.** Pes, planus. Pharyngitis. **Phlebitis.** Pneumonia. Rheumatic fever. Rheumatic, pains. Salivation. Styes. Thrombosis. Thyroid, enlarged. Tonsillitis. Tracheitis. Ulcers. **Varicose veins.**

HOMEOPATHIC - There are two sub-types of the nosode Morgan Pure, which is closest to Sulph. and particularly good in skin conditions, and Morgan Gaertner, which is like Lyc. and is helpful in cholecystitis, adrenal colic. It is often useful in hiatal hernia and diverticular disease.

Keynote **congestion.** Broncho-pneumonia, where the indicated remedy fails to act even in the acute state or to clear up a residual infection. Selective on skin and liver in headaches with flushed face, aggravation from heat and raised blood pressure.

Congestion of the stomach lining and the liver with dirty mouth, indigestion, and bilious vomiting. Gallbladder conditions, constipation and hemorrhoids.

Pelvic congestion and dysmenorrhea. Hot flashes during menopause. Circulatory disturbances of the limbs, blueness, chilblains, varicose veins, edema and hot feet, etc. Congestion around the joints in arthritis. History of rheumatic fever.

Hyperemia of the surface circulation (Sulph.), deep internal venous stasis (Ham.,

Graph., Petr, and Psor.). Skin ailments with heat and itching. Eczema, red raw with exudate, itching and bleeding.

Giving the nosode in 30c potency, followed by Sulph. in 3x or 6x tablets twice daily, can help the acute itching in bad eczema or dermatitis.

MIND - Tense, active. Excitable. Introspective and anxious. Apprehensive about state of health, fear of impending disease. Agoraphobia. Fears crowds but often shows mental anxiety if left alone. Fear of the unknown, of the dark, that something bad will happen. Claustrophobia.

Irritable with a tendency to depression. Weeping, tearful mood. Sadness, despondency. Idiocy. Suicidal disposition. Mental depression often with suicidal tendency by jumping.

Abdomen - Epigastric pain or discomfort. Tenderness in epigastrium. Pain right and left hypochondrium. Pain right and left iliac fossae. Flatus. Redness and moisture at umbilicus, bad odor.

Back - Lumbago, acute or chronic. Arthritis spine, sacro-iliac joints. Pain generally better moving, worse on beginning to move, heat.

Blood - High blood pressure. **Varicose veins. Varicose ulcer.** Cerebral thrombosis. **Phlebitis.** Sluggish circulation. Easy bruising. Tendency to hemorrhoids.

Chest - Pleurodynia. **Fibrositis of chest wall. Angina.** Pain since shingles.

Constitutions - Red, coarse, blotchy appearance. Introspective, anxious about their health.

Ears - Otorrhea. Boils on meatus. Noises in ears. Meniere's disease. **Catarrhal deafness.**

Eyes - Conjunctivitis. Iritis, keratitis. Tarsal cysts. Styes. **Lids granular.** Spots before eyes.

Face - Acne rosacea. Eczema on chin and forehead, in ear passages. **Cracks and eruption behind ears.**

Eruption pustular, weeping, scalding and very itchy. Eruption on margins of scalp, pustular, itchy and scaling. Erysipelas. Hot, red, dry and fissured.

Female-Pruritus vulvae and vagina. Boils vulva. Menorrhagia and metrorrhagia. Fibroids of uterus.

Leucorrhea, corrosive, offensive, brown, green, yellow. Urethral caruncle. **Bartholinitis.** Pain on sexual intercourse.

Food - *Desires fats, sweets, eggs and butter.* Worse from fats and eggs, or avoids fats and eggs.

Head - Congestive headache with flushed face. Frontal, occipital headache, on vertex. Migraines. Weekly sick headache. Headaches worse from hot atmosphere, thunderstorm weather, excitement, traveling in bus or train. Scalp sensitive. Hair falling out. Complete alopecia.

Kidneys - *Cystitis* with frequency and pain. Urine of strong smell, corrosive, containing sugar.

Limbs - Osteoporosis. Rheumatic shoulders. Neuritis arms. Numbness and tingling arms. Rheumatoid arthritis of wrists, thumb. Hands puffy, stiff and grip poor. Nodules on fingers. ***Finger joints swollen and painful.*** Fingers stiff in morning. Lack of power in legs. Tingling legs. Growing pains in legs. Knee joints are large and stiff. Pain in soles, heels. Thick skin soles of feet with ***cracked heels***. Pes planus. Feet too hot, offensive foot sweat. Chilblains.

Liver - Pain in liver and gallbladder. ***Gallstones.*** Congestion of liver. Attacks of jaundice. ***Bilious attacks*** with severe headache, relieved by vomiting large quantities of bile-stained mucus.

Lungs - Suffocative attacks. Shortness of breath. Morning cough, dry tickling cough, loose or sticky. Emphysema. ***Asthma.*** Congestion of nasal and bronchial membrane, especially in children, bronchi and lobar pneumonia. Infantile asthma. ***Bronchitis, each winter.*** History of pneumonia or bronchopneumonia and never well since.

Mouth - Salivation. Bad taste in the mouth, taste deficient or lost. Mouth and lips dry, lips stiff in the morning. Angles of mouth cracked, lips very red. Ulcers. Jaw bones ache. Periostitis jaw.

Neck - Adenitis neck. Fibrositis neck and shoulders.

Nose - Catarrh. ***Post-nasal catarrh.*** Sinus and antrum infection. Dry mucus membrane. Cracks angle nose. Sense of smell lost. Nosebleeds.

Perspiration - Profuse in axilla.

Rectum - Constipation. Bowel motion without help, loose, urgent in the morning. Bowel motion immediately after food. Stool may be pasty, foul and contain blood and mucus. Hemorrhoids, bleeding itching or painful. Itching of anus. Anal fissures.

Skin - *Eruptions dry, cracked, fissured, weepy, itchy* and burning. Tremendous thickening and congestions of skin with deep cracks. Itching eruption, worse from heat. Raw, red eczema, exuding freely with itch and heat, bleeding from scratching. Callosities. Herpes zoster. Skin sensitive to sun, prickly heat. Cannot wear wool next to skin.

Sleep - Insomnia, light and restless.

Stomach - Burning in throat and stomach. Pain and acid, worse with food. Duodenal and peptic ulcer. Bilious attacks. Water brash, heartburn. Sour, acid, bitter, mouthfuls. Belching and heartburn. Nausea, vomiting, hematemesis.

Throat - Throat dry and burning. Throat parched, raw and granular. Apple core sensation, easy choking. Pharyngitis, laryngitis, tracheitis. Recurring tonsillitis, cheesy pieces come out. Thyroid enlarged.

Tongue - Burning in tongue. Tongue raw and dry, coated, slimy, swollen. Tongue stiff in the morning. Warts on tongue. Pain in the root of tongue.

Vertigo - Vertigo from high blood pressure.

COMMENTS - Congestion of gastric mucosa and liver. Heartburn. Dirty tongue, bitter taste in mouth in the morning with accumulation of mucus causing gagging as soon as rises from bed.

Appetite absent in the morning but, by 11 a.m., a sinking feeling relieved by eating. Recurrent bouts of indigestion, with vomiting of mucus and occasionally blood without ulceration. History of bilious attacks, especially occurring at menopause.

A history of repeated attacks of congestion of the lungs or bronchi pneumonia in children is indicative for the use of the nosode Morg. or one of the subtypes: Morgan-Pure or Morgan-Gaertner.

Dr. Sargunar, who used this nosode in 5300 cases, reported that Morg. relieved the attacks of bronchial asthma as quickly as Adren. Chest infection where the indicated remedy fails to act or in cleaning up residual infection after a bronchi pneumonia, especially in cases following Sulph. or Nat-s.

Dr. William B. Griggs said that he used Morg. from 200c to the 100,000c in cases of asthmatic children where Nat-s., Ars. and various asthmatic remedies failed completely.

Dr. Griggs said, "Morgan Bacillus has been one of my most successful remedies in eczema of young children. You take the moist type of eczema where the child scratches and has the exudate on its face and bleeds. Clarke has seen Morgan clear that up after failure of Graph., Psor. and Med."

RELATIONS - Miasmatic relation: Morgan has deep range of action covering the field of a number of anti-psoric remedies. ***Compare:*** (1) Sulph., Calc. and Lyc. and also many carbonates.

REFERENCES - Bach. Paterson.

*****MORGAN GAERTNER**

(Bowel Nosode)

PHARMACY - morg-g. Morgan gaertner. A bowel nosode. **Historical dose:** All potencies.

CLINICAL - Alopecia aerata. Anal fissure. Anal pruritus. Angina pectoris. Asthma. Bedwetting. Bladder pain. Blepharitis. Catarrhal, rhinitis. Chalazions. Constipation. Dysmenorrhea. Dyspnea. Eczema. Furuncles. Gallbladder, pain. Hemorrhoids. Herpes. Intercostal neuralgia. Kidney, stones. Leucorrhea. Mastoiditis. Myocarditis. Nasal polyps. Nephritis. Nosebleeds. Otitis. Palpitations. Pleurodynia. Polyuria. Psoriasis. Pustules. Pyelo-nephritis. Rectal, prolapsed. Rheumatic, pains. Sinusitis.

Styes. Urticaria. Vomiting. Warts.

HOMEOPATHIC - Pale, impatient, claustro-

phobic persons. Subjects with fine brown hair. Polyarticular rheumatic pains of upper extremities specially of the right side. Vesiculous, squamous, papulo-squamous eruptions. Pyelo-vesical burning congestion. Dysmenorrhea.

MIND - Impatient. Tense, with strong reaction. Full of apprehensions, gets excited in company. Chews nails. Irritable. Jealousy. Claustrophobia. Nocturnal fears cries out in sleep. Manic depressive psychoses.

Abdomen - Gallbladder painful. Intestinal lethargy. Flatulent dyspepsia. Flatulence of the left and right hypochondrial region.

Back - Cervical rigidity.

Breasts - Warts on the breasts, nipples.

Chest - Intercostal neuralgia. Thoracic pain. Angina pectoris. Constriction in the chest, painful irradiation to the left hand. Sensation of coldness in the chest.

Ears - Otitis. Mastoiditis. Furuncles in the auditive conduit. Buzzing in the ears.

Eyes - Chronic inflammation of the eyelids. Blepharitis. Styes. Chalazions. Ulcer of the cornea. Vitral opacity.

Face - Facial neuralgia, dominating left side. Sudden edema of the face. Herpetiform eruption on the left side of the face.

Female - Irritation at the approach of menstruation. Painful menses. Dysmenorrhea. Thick, brown, corrosive, bad smelling leucorrhea. Vulvar pruritus.

Food - Desire for sweets, salted things, fatty foods, eggs, meat. Sometimes aversion to fat, eggs, meat.

Heart - Myocarditis. Precordial uneasiness. Angina pectoris. Nocturnal palpitations, wakes up the patient. Palpitations, better by eructations, better by emission of gas, better by movement.

Kidneys - Pain in the kidney region. Nephritis. Pyelo-nephritis. Pyelo-vesical pain, congestion. Kidney stones. Bladder pain with frequent urination. Polyuria. Burning urine. Bedwetting.

Limbs - Nocturnal pains of the arms. Rheumatoid pains in shoulders, arms, elbows, wrists, deltoid muscles (right).

Painful swelling of the thumbs. Knees, numb and painful. Excessive heat of the feet at night.

Lungs - Dyspnea. Shortness of breath. Pleurodynia. Asthma. Tickling cough morning and evening, while walking up, while lying down.

Modalities - Better by movement, passing flatus, eructation. Worse in company, after meals, before menses, at night, heat, of bed, right side.

Mouth - Bad mouth, bitter taste. Thick saliva. Tongue burning, as if pricked by needles. Inflamed gums, pyorrhea. Cracks in corner of lips.

Nose - Sinusitis. Hypersecretion of nasal fossa and of maxillary sinus. Crusty coryza with ulceration in the nose. Catarrhal rhinitis. Nasal polyps. Nasal herpes. Nosebleed.

Rectum - Constipation. Hard, dry stools with mucus. Spontaneous expulsion of mucus through rectum even when the patient is not constipated. Rectal prolapsed. Anal fissure. Anal pruritus. Painful hemorrhoids, bleeding, pruriginous.

Skin - Skin sensitive. Sudden edema of the face. Herpetiform eruption on the left side of the face. Psoriasis. Eczema. Urticaria. Pustulous eruption on face, on brows, knees. Skin, oozing, crusty, desquamating with fissures. Giant urticaria on arms. Warts on hands, big flat or lacerated. Erythematous squamous eruptions in round plaques on elbows, knees, integument, sacral region, nails and heels. Herpetic eruption on soles. Alopecia aerata. Loss of hairs in bunches.

Stomach - Fullness of the epigastrium without eating. Noisy eructations with bad smell. Vomiting of foods after meals, afternoon or night.

Throat - Inflammatory congestion of tonsils. Edema of the uvula. Sensation of burning in the base of the throat as if from acid.

RELATIONS - Compare: Lyc., Puls., Sil., Kali-bi., Nat-m., Nux-v., Sulph., Sep., Graph., Calc.

REFERENCES - Julian. Paterson.

***MORPHINUM ACETICUM

(Morphine)

PHARMACY - morph. Morphinum aceticum. Morphine. Opi um alkaloid. Morphinum muri- aticum. Morphinum sulphuricum. Morphia. N. O. Papaveraceae. Trituration. Solutions. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Amenorrhea. **Bradycardia.** Chorea. Colic. **Coma.** Constipation. Convulsions. **Delirium.** Delirium tremens. Delusions. **Depression.** Diabetes. **Drug, addictions. Drug, overdose.** Electric shock. Eyes, disorders. Headache. Herpes zoster. Hysteria. Impotency. Infertility. **Itching.** Jaws, clenched. Lightning-stroke. **Nausea.** Neuralgias. **Neuritis. Numbness. Pains.** Palpitations. **Paralysis. Ptosis. Shock.** Sleep, disordered. Strabismus, divergent. **Strangury. Tachycardia.** Trismus. **Timpanitis. Uremia.** Urticaria. Vertigo. Vision, illusions. **Vomiting.**

HOMEOPATHIC - Morphine is the alkaloid of opium, which contains the most characteristic properties of the drug. The alkaloid, the acetate, the muriate and the sulphate have all been used as painkillers and sleep inducers.

Morphine bears a similar relation to opium as atropine is to belladonna, that is, it represents its nervous side. It is less stimulating, less convulsive and more decidedly hypnotic. Constipates less and affects contractility of the bladder more. It is less diaphoretic and more itching.

Restlessness, hyperesthesia, trembling, twitching, jerking, convulsions. Violent and sudden neuralgic pains and sudden fainting. **Multiple neuritis.** Neuralgias after herpes zoster (Mez.). **Extremely susceptible to pain.** Pain causes twitching and jerking of limbs. Sore feeling all over. **Bed feels too hard.**

MIND - Mental exhaustion. Incapable of thinking or fixing mind. Concentration difficult. Memory weakness. **Forgetfulness, hunting for words while speaking.** Makes mistakes in writing. Makes gestures. **Indifference, apathy.**

Great anxiety, thought she was going to die. Anxious, restless, ran about the room.

Ailments from fright or fear. Frightened easily. **Shock induced by terror.** Terror, cried out in great alarm. Suspicious, mistrustful.

Emotions very easily excited. Hysteria. Excitable during childbirth. Flow of ideas rapid and pleasant, but without control of the will. Lies, never speaks the truth, does not know what she is saying.

Ill-humor. Irritable, wants to be alone. Censorious, critical. Fault-finding. Anger at trifles. Intolerant of contradiction. Deceitful, sly. Want of moral feelings.

Delirium, melancholic in character. Delirium during fever, sleep. Delirium, springs up suddenly from bed and escapes. Howling. Delusions, sees faces, hears voices, perceives various odors. Sensation of death. Delirium tremens. **Drug addictions, overdose.**

Profound depression. Sad, melancholy, despair. Despair with the pains. Could not describe symptoms because tears and sobs. Suicidal disposition. Stupor, as if intoxicated. **Dream-like state.** Confusion of mind. Unconsciousness, coma. Uremic coma.

Abdomen - Distended. Acute pain in abdomen and along spinal column. **Tympanitis.** Pain in umbilical region. Colic better turning on back in morning.

Back - Great pain in back. Pain extending along spine. Pain and twitchings all down spine. Aching across lumbo-sacral region, cannot walk erect (Cimic.). Weakness of the loins. Stiff-neck.

Causations - Ailments from fright or fear. Drug addiction, overdose. Electric shock, lightning-stroke. Thunderstorms. Ailments from apoplexy, stroke.

Chest - Chest tight. Pain in middle of sternum. Ill with an indescribable sensation, worse than any pain, behind lower half of sternum. Neuralgia after herpes zoster (Mez.).

Constitutions - Nervous constitutions.

Ears - Left ear throbs painfully, better heat.

Severe pain in left ear with pain at side of left eye all day. **Seems to hear circulation all over body.** Ringing, surfing, roaring, tinnitus.

Eyes - Itching of eyes. Pupils unequally

Morphinum aceticum contracted. **Paresis of recti internal.** Staring, injected, diverging strabismus. **Look unsteady.** Double vision with disturbed accommodation. Sight blurred, obscured by fogs. Delusion of vision on closing eyes. Eyes feel too small for sockets. Eyeballs protrude. Bluish, drooping eyelids. **Ptosis.** Nystagmus.

Face - Heavy, confused, wild, haggard expression. Intensely flushed face, puffed, livid, cyanotic. **Dusky red or pale face, lips tongue, mouth or throat.** Trismus, teeth clenched.

Female - Amenorrhea. Menses too profuse, and too early. Infertility. Sexual desire at first increased, afterwards abrogated.

Food - Loss of appetite. **Aversion to meat**, pastry. **Thirst**, burning.

Head - Head dull, heavy as lead, hot. Bursting pain, head drawn back. Brain feels tense as though wound up tightly. Headache with drowsiness. Congestions of head, palpitations of heart, starts in fright if approached, touch causes cramp and twitchings.

Heart - Cardiac muscular tissue is intact, even if severely exhausted. Violent throbbing in heart and carotids.

Alternation of tachycardia and bradycardia. Palpitations. Pulse small, weak, dicrotic.

Kidneys - Suppression of stool and urine. Paresis of bladder. Prostate enlarged. **Strangury. Uremia**, acute and chronic. **Slow and difficult urination**. Urine is turbid and slimy. Albuminuria. Diabetes.

Limbs - Tremors, twitchings, contractions, stiffness of limbs. **Numbness**. Cramps in several muscles. Violent pain in joints. Staggering gait. Legs swollen. Wandering, sharp pains in legs and feet. Stiffness and pain in arms after sleep. Icy coldness of left sole as if standing on oil-cloth.

Lungs - Faint and struggling for breath. Breathing is stertorous, difficult, slow. **Diaphragmatic paralysis**, hiccough, dyspnea, paroxysmal, on first falling asleep (Lach., Grind.). Cheyne-Stokes respiration. Dry, hard, **teasing**, exhausting cough, worse at night. Strangling cough with viscid mucus sputum, thin, scanty, but sounds loose and abundant.

Male - Pain in right spermatic cord (Ox- ac.). Impotency. The sexual excitement, voluptuous sensations and erections are incomplete or do not occur. Diminished desire.

Modalities - Better by coffee. Worse by eating, vinegar. Worse after sleep, in morning, slightest movement, especially of the head.

Mouth - **Very dry mouth**, with thirst, nausea, bitter, sticky vomiting. Discharge of watery saliva from mouth. Palate scarlet. Speech is hasty, stammering, embarrassed and feeble.

Nose - Sneezing in paroxysms, coryza. Tickling in nose and larynx as before a sneeze. **Intense itching**, tingling, numb feeling on end of nose, rubs it constantly.

Perspiration - Profuse sweat. Cold, clammy sweat. Viscid, colliquative sweat.

Rectum - Stool retained. Constipation for a long time. Constipation, stools large, dry, knotty with tendency to bruise and fissure. Diarrhea watery, brown or black with horrible tenesmus.

Sensations - Tight sensations in head, as if skull too small for the brain. As if brain wound up. Something shot to head like lightning the instant the injection took place. Sight as if obscured by a fog. Ticking of nose and tip of nose. Tongue as if thick. Teeth as if clenched. As if worms in legs.

Skin - Skin lost its elasticity. Skin deathly pale. **Livid, purple spots**. Eruption like herpes zoster, but without pain. **Itching is constant**, violent, all over, nose, neck, loins, inside thighs. Urticaria appearing at the menopause.

Sleep - Heaviness, drowsiness. Sleepy, but cannot sleep. Sleepless, restless sleep with frequent startings. Yawning, **drowsy**, prolonged, deep sleep. Muttering in sleep. Dreams are pleasant, frightful. Half waking, half stupid condition. Aggravation after sleep (Lach.).

Stomach - Pain in stomach, worse by eating. Constriction, pressure, cramps. Colic, crawling in stomach. Belchings, violent, with much acid mucus. **Nausea incessant and deathly**, faintness, constant

Morphinum aceticum retching. **Nausea and vomiting on rising up**. Nausea with drowsiness. Vomiting of green matter, sour, bright green fluid, bitter, greenish water.

Temperature - Icy coldness. Chills and rigors. Burning heat, profuse sweat. Heat, burning, itching, cheeks hot and flushed.

Throat - Dry and constricted. Burning back of fauces. Hoarseness. Pharynx paralyzed, swallowing almost impossible, better hot drinks, worse solids. Jugular veins swollen, carotid arteries pulsating.

Tongue - Tongue is dry, brown, red tip and margins. Tongue violet in middle, at times trembles on putting in out.

Vertigo - Vertigo from the **least movement of the head**. Giddiness and drowsiness, everything turns around.

COMMENTS - Extreme susceptibility to pain. Cannot describe symptoms for tears and sobs. Neuralgia where the pains are so violent as to threaten convulsions, pain causing twitching or jerking of limbs. Nervous spasms brought on by lightning-strike, worse by any exposure to heat, better by cold.

Tremblings, twitching, jerking and convulsions, even tetanus. Marked clenching of the jaws. Restlessness and hyperesthesia. Restlessness of legs, wants them held, feels as if worms in them.

Heavy and hot head. Intense drowsiness. Deep sleep, but also sleeplessness and restless sleep with starting up. Half sleeping state, "a half-waking, half-stupid state, but with perfect ability to think of different things, though at the same time he was busy with confused fantasies, limbs stiff."

Green vomit is a constant effect. Nausea during pregnancy (Lac-d., Ip.). Sudden fainting. Useful for the after effects of morphine, or morphine withdrawal.

Both the muriate and the sulphate are able to cure symptoms produced by Morph. In Clarke's experience, the

acetate has produced much more violent gastric symptoms than the muriate, but not different in kind.

Rufus Thurston recorded a short but very important proving of Morph, on a patient who took a grain for sleeplessness.

Among the symptoms he emphasized "vertigo from least movement of the head."

Not long after, Skinner had a case of vertigo with the tendency to fall forward and become unconscious. Symptoms were worse from movement of any kind, especially of the head, and by eating and drinking. Morph-m. 500c cured the case.

Boger cured with Morph-s. 100,000c the case of Miss M., 22, who was dark and spare. She had a headache with the sensation of being wound up tight. Sleepiness and numbness of lower limbs. Intense vertigo on least motion of head.

Thurston also had a case with the "woundup" headache. That case also had sudden faintness.

That same symptom was produced by one-eighth of a grain of the sulphate in a case reported by E. V. Ross. Spells of feeling faint came on suddenly with great anxiety, as though he was going to die. Visual delusions on closing eyes, "sees a man standing at foot of bed. The room seems full of white and colored babies."

RELATIONS - Compare: Apom., Herin., Op., Nux-v.

***MOSCHUS MOSCHIFEROUS

(Deer Musk)

PHARMACY - mosch. Moschus moschiferous. Deer musk. Musk. N. O. Mammalia. Ruminantia. Trituration of inspissated secretion contained in preputial follicles. **Historical dose:** All potencies.

CLINICAL - Alcoholism. Angina pectoris. **Awkwardness.** Backache. Catalepsy. Choking. **Coldness.** Coma. Convulsions. **Coughs.** Croup. Deafness. Diabetes. Dysmenorrhea. Dyspnea. Epilepsy. **Fainting.** Flatulence. Globus, hystericus. Headache. Heart, failure. Herpes. **Hiccoughs.** Hypochondriasis. **Hysteria.** Impotence. Laryngismus. Lungs, paralysis. Nymphomania. Palpitations. Pregnancy, complaints. Rage. Somnambulism. Stings. Twitching. Typhoid. Vertigo. Whooping cough.

HOMEOPATHIC - Musk is a well-known perfume, which can produce fainting in some by smelling it. Useful for all complaints that have easy fainting as a chief indication. Faints easily, faints dead away from the least excitement. Faints while eating, during menses, from heart disease. Scolds and rages until she falls unconscious.

Hysteria and nervous paroxysms. **Faintingfits** and convulsions, catalepsy. Globus hystericus ending in unconsciousness. Spasmodic, nervous effects with a feeling of coldness. Twitching, choking. Epilepsy with shuddering as from a rigor or chilliness.

Much nervous trembling and frequent fainting. Nervous, shuddering, laughter, hiccough etc. Tension in muscles, skin, mind. Great flatulence. Parts laid on feel dislocated or sprained. Buzzing, squeezing, plug like sensation.

Aggravation by cold, great sensitiveness to air. **Coldness** in general or of single parts. As of a cool wind blowing on part. Wants to uncover. Poor reaction, diseases do not follow the normal course. Complains without knowing what ails him. Imaginary diseases.

MIND - Absent-mindedness. Sudden loss of memory. Confusion of mind. Mental activity with weakness, so that everything falls from the hands. **Awkwardness.** Hurried, tremulous. Talks to himself and gesticulates. Frightened easily. Anxiety with palpitations. Fear of noises, going crazy, something bad will happen. Fear of dying, suffocation. Afraid to lie down, as they might die. Talks of death. **Imaginary sufferings.** Sexual hypochondriasis. Nymphomania.

Censorious, critical. Abusive, insulting. Violent anger. Desire to break things. Deceitful, sly. Aversion to being asked questions. Talks excitedly, raves, scolds, until mouth becomes dry, lips blue, eyes staring and she falls unconscious. ¹

Hysteria. Uncontrollable laughter. Weeping, tearful mood alternating with laughter. One feels as if being rapidly turned around. Delirium during convulsions. **Sensitive to odors, to musk.** Somnambulism. Coma vigil. Alcoholism, dipsomania.

Ailments from domination by others.

Abdomen - Greatly distended. Tension in abdomen as if clothes were too tight. Incarceration of flatus.

Back - Backache. Tension in back, before menses.

Causations - Chills. Ailments from anticipation, deceived ambition, reproaches, domination by others.

Chest - Chest oppressed, hysterical spasms of the chest. Tightness of chest is obliged to take a deeper breath.

Constitutions - Suited to spoiled, sensitive natures and hysterical women and men. Girls who are selfish, obstinate, self-willed and pampered, they resort to all kinds of cunning to have their whims gratified.

Ears - Sounds as from report of a cannon. Rushing, fleeting sound. Nervous deafness.

Eyes - Turned upwards, fixed and glistening.

Face - One cheek red but cold, other pale and hot. Lips blue. Chewing motion of the lower jaw.

Female - Menses too early, too profuse, with disposition to faint (Nux-m., Verat.). Dysmenorrhea with fainting. Drawing and pushing in the direction of the genitals, sensation as if menses appear. Sexual desire with intolerable titillation in parts.

Food - Desire for black coffee, beer and brandy, stimulants. Aversion to food, everything tastes flat. Faints while eating.

Head - Compressive pain over root of nose. Pressure on top of head. Headache with coldness, fainting, involuntary stools, and polyuria. Shivering in scalp. Scalp sensitive.

Heart - Trembling around heart. Weak pulse and fainting. Anxious palpitation with fear of death. Hysterical palpitations.

Kidneys - Diabetes. Copious, watery urine. Urine normal during day, but dark red, offensive at night.

Limbs - Painful, restless. Limbs, tense, feel too short. Coldness in tibia. One hand hot and pale, the other cold and red.

Lungs - Sudden nervous suffocation, wants to take deep breath, worse from becoming cold, better after belching. **Difficult**

respiration, chest oppressed. Spasm of glottis. Impending paralysis of lungs. Asthma with intense anxiety, fear and smothering sensation. Hysterical asthma. Globus hystericus. **Cough ceases, and mucus cannot be expectorated.** Cough with pain under left breast.

Male - Sexual desire increased with insupportable tickling in the parts and tensive pain in penis. Involuntary emissions without erections. Erection with desire to urinate. Nausea and vomiting after sex. Impotence with diabetes (Coca.). Premature senility.

Modalities - Better in open air. Better rubbing. Better smell of musk. Worse cold, open air, which is felt very cold. **Worse from excitement.** Worse suppressions. Worse after and during a meal. Worse menses. Worse from pressure. Worse motion, must lie down and lie still, but worse on side lain on. Vomiting worse after sex.

Nose - Bleeding with spasmodic jerking of muscles.

Rectum - Stools of sweetish odor. Stools are passed involuntarily in sleep.

Sensations - As if falling from a height. As if being turned about so rapidly he perceived the current of air produced by the motion. As if cold air blowing on him. As if cold, wet poultices on head. Headache as if from a heavy weight. As if larynx closed on breath.

Sleep - Sleepy by day, sleepless at night, awakes frequently. Somnambulism.

Stomach - Distended. Faints when eating. **Spasmodic, nervous hiccough** (Hydr-ac., Sul-ac., Ign., Caj.). Violent belchings. Nausea, on seeing or thought of food. Anxiety in chest with stomach symptoms.

Temperature - Sensitive to cold air, which makes him shudder. Skin cold. Burning heat with restlessness. Sweat smelling like musk.

Throat - Sudden constriction of larynx and trachea.

Vertigo - Vertigo with fainting, as if falling from a height, worse stooping, better rising. Vertigo on least motion.

COMMENTS - Tendency to faint often. Fainting spells (Am-c.). Spasms and twitches. Spasm of chest of heart, general convulsions. Laryngeal spasm. Subsultus tendinum of fever. Tension in muscles in skin, in mind. Tension in back before menses, tension in limbs, they feel too short. Pressure outward in heart.

Characteristic coldness in general, or it may affect single parts. Coldness with pallor. Sensation as if cool wind blowing on parts. Coldness in tibia. Hysteria, laughing and crying fits. Sexual desire is much excited in both sexes, even in the aged. Diabetes with impotence, with excessive thirst.

H. N. G. noted that it is useful "in nervous or spasmodic complaints where the patient feels very cold: in epileptic fits where there is rigor or chilliness or shuddering as though the patient was very cold."

RELATIONS - Antidotes: Camph., Coff. **Compare:** (1) Nux-m., Asaf., Valer., Sumb., Ign., Cast-eq. **Planets:** Moon. **Compatible:** Ambr.

REFERENCES - Boericke. Clarke. Mur- phy.

***MUCUNA URENS

(Horse-Eye)

PHARMACY - muc-u. Mucuna urens. Horseeye. N. O. Leguminosae. Papilionoideae. Venezuela. The pulverized bean is macerated five times its weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Hemorrhoidal discharges. Hemorrhoids.

HERBAL - In Ne w, Old and Forgotten Remedies is a letter by Delgado Palacios of Venezuela, pointing out that the name Dolichos, given to Cowhage of Cow-itch in homeopathic literature is not in accordance with

botanical terminology.

Cowhage is really a Mucuna, Mucuna and Dolichos being separate genera of the Leguminose. Allen gave Linneus as the authority for the name Dolichos pruriens. There is no pathogenesis.

HOMEOPATHIC - Muc-u. is used for hemorrhoids and problems arising from

the hemorrhoidal diathesis. The keynote symptom is burning. There may or may not be bleeding. Affections of liver, uterus, bladder and the testicles, when accompanied by hemorrhoids.

COMMENTS - Palacios said modern botanists consider Cowhage identical to Muc-u., but he does not name his plant M. pruriens, an alternative name of Cowhage. He said, further, that M. urens is a "special plant which grows in the calid regions of Venezuela," and that the beans are "very difficult to obtain."

Palacios used the pulverized bean for making his tincture. He gave one drop daily of the tincture and sometimes made an ointment of it as well. He placed more reliance in it than in Ham. and Aesc. In Dol. the entire pod is used, the stinging hairs being the most important part of it.

REFERENCES - Clarke.

***MUREX PURPUREA

(Purple Fish)

PHARMACY - murx. Murex purpurea. Purple fish. Murex purpureus. N. O. Gasteropoda. Trituration of desiccated juice. Trituration or tincture of fresh juice. The fresh preparation is to be preferred, though the dried is the usual one. **Historical dose:** All potencies.

CLINICAL - Breasts, pains. Cervix, disorders. Diabetes. Dysmenorrhea. Endometritis. Leu- corrhoea. Menopausal sufferings. Menorrhagia. Metrorrhagia. Miscarriage. **Nymphomania**. Pregnancy disorders. Uterus, disorders. Uterus, prolapse.

HOMEOPATHIC - Petroz first proved Murx., which like Sep. produces the chief intensity of its action in the female generative sphere. They are chiefly distinguished in that Murx. produces frantic sexual desire and tends to have excessive hemorrhage with large clots, Sep. having in general a scanty flow.

Murx. is for sensitive, nervous, lively, affectionate women. Those who are very tired, weak and run down, must lie down, which aggravates. Walking is difficult, all the joints are weak during pregnancy. Pains are diagonal, ovary to opposite breast. Menopausal sufferings.

MIND - Great depression of spirits, a sort of deep hypochondriacal state. Great sadness, anxiety, and dread. Imagines herself sick. Seemed to her she was hopelessly ill. Impatient. Memory weak, cannot find correct words to express himself.

Conscious of uterus. Anxious, apprehensive, better leucorrhoea. Sadness before menses.

Unconsciousness before menses. Wants to die, from intense abdominal pain during menses.

Nymphomania from suppressed menses. Nymphomania during metrorrhagia.

Abdomen - Painful weariness of loins. As if a weight in hypogastrium.

Back - Lumbago, sometimes burning and with pain like excoriation. On extending the body, pain in hips and lumbar region. Pains in pelvic region. Sensation as if bones of pelvis getting loose.

Breasts - Benign tumors in breasts. Pain in breasts during menstrual period. **Pain from right side of womb to right or left breast.**

Chest - Wheezing in chest. Pain in chest, as if it had been bruised. Sharp and burning pains below false ribs on left side. Sensation as of a snake creeping over entire region of short ribs.

Constitutions - Suited to the melancholic or sanguine, lymphatic temperament. Especially adapted to nervous, lively, affectionate women. Menopausal sufferings.

Ears - Cramp-like squeezing behind ears. Noise in ears with aggravation of heaviness of head.

Face - Burning sensation of one cheek, right in evening, left in morning.

Female - Conscious of a womb (Helon.). Pulsation in neck of womb. Feeling of protrusion. Prolapsed, enlargement of uterus with pelvic tenesmus and sharp pains. **Must keep legs tightly crossed.** Sore pain in uterus. Feeling as if something was pressing on a sore spot in the pelvis, worse sitting. Least contact of parts causes **violent sexual excitement. Desire easily excited, nymphomania. Menses** irregular, profuse, frequent, large clots. Dysmenorrhea and chronic endometritis. Leucorrhoea green or bloody, alternate with mental

symptoms and aching in sacrum.

Food - Hunger, sometimes in morning only and unfelt during a meal. Awful hunger and emptiness, even after a meal.

Head - Squeezing at the back of head, better putting hand on it or by throwing head backwards.

Heart - Palpitations of heart and throbbing of arteries.

Kidneys - Constant urging (Kreos.). Slight discharge of blood while urinating. Urine frequent at night, smells

like valerian.

Lungs - Cough in morning while fasting, dry, hard with oppression of chest.

Modalities - Better before menses, pressure support, putting head back, eating. Worse in sun, exertion, least touch, sitting, lying down, night, after sleep.

Nose - Distressing coldness of the nose all day.

Rectum - Pressure in anus like painful lacerations. Sensation of heavy weight pressing on rectum. Swelling of hemorrhoids. Difficult evacuations, constipation. During stool, bloody leucorrhea, discharge of pure blood by vulva.

Skin - Dry, as if about to crack. Hives.

Sleep - Urgent inclination to sleep. Drowsiness, sometimes with sadness. Sleep interrupted by pains. Distressing dreams. Awakening with fright.

Stomach - Sinking, all-gone sensation in stomach (Sep.). Hungry, must eat. Violent hunger even after eating.

Throat - Voice changed, hoarse.

COMMENTS - Consciousness of the womb, sore pain in uterus. Cutting pains confined to the cervix and os. Sensation of dryness and constriction in the womb. Feeling of bearing down and prolapse (Sep.).

General sensitiveness to touch. Feeling as if something were pressing on a sore spot in the pelvis. Pains are frequently diagonal and shoot from ovary to opposite breast. Must lie down from weakness, but lying down aggravates all symptoms.

The least contact with the parts causes violent sexual excitement. Cervix is sensitive to the examining finger. The slightest touch causes bleeding of excoriation on cervix. Cauliflower excrescences.

***Hungry, sinking, all-gone sensation (Sep.). Diabetes. Excessive secretion of urine and frequent necessity to rise at night to urinate. Great depression of spirits, a sort of deep hypochondriacal state, better when leucorrhea is worse and vice versa.

RELATIONS - Compare: (1) Plat., Lil-t., Sep. the latter lacks sexual weakness of Murx. (2) Uterine congestion, cervix affected, Sep. is passive, Murx. feels disgust and despair at her sexual desires. (3) Shooting pains in uterus, prolapse, melancholy, Aur. has induration. (4) Nocturnal polyuria, Kreos. (5) Sexual weakness, Lil-t., Plat. Orig. (6) Dragging down, Bell. (7) Prolapsed uterus, Sec., Plat., Bell., Lil-t., Nux-v., Nux-m., Podo., Puls., Sep. (8) Consciousness of womb, Helon., Lyss. (9) Menopausal, Lach., Sep., Sulph. (10) Better throwing the head back, Seneg.

REFERENCES - Boericke. Clarke. Phatak.

***MURIATICUM ACIDUM

(Hydrochloric Acid)

PHARMACY - mur-ac. Muriaticum acidum. Hydrochloric acid. Muriatic acid. First dilutions with distilled water.

Historical dose: Tincture and all potencies.

CLINICAL - Achilles tendon, disorders. **Acidity.** Alcoholism. Aphthae. Ascites. Anus, prolapse. Backache. **Bedsore.** Belching. Carbuncles. Chilblains. Chorea. Cirrhosis. Deafness. Delirium. Diarrhea. Diphtheria. Drug addiction. Dysentery. Feet, pains. Fevers. Flatulence. Hemiplegia. Hemorrhages. **Hemorrhoids.** Hernia. Impotence. **Intestinal, fever.** Measles. Mercurial, ulceration. Morphinism. Mouth, ulcers. Muscular, exhaustion. **Nosebleeds.** Palpitations. **Prostration. Septic fever.** Scarletina. Scurvy. **Soreness.** Stomach, disorders. **Stomach ulcers.** Tongue, disorders. **Typhoid, fever. Typhus. Ulcers.** Varicose veins. Vomiting. Whooping cough.

HOMEOPATHIC - The alchemist's name of hydrochloric acid is the "Spirit of Salt," which describes at once its nature and origin. It is a colorless gas with a pungent, suffocating odor and acid taste, manufactured from salt (Nat-m.) by the action of sulphuric acid. It is freely soluble in water and the saturated solution contains 43 percent of the hydrochloric gas.

Mur-ac. is a constituent of the gastric fluids and must therefore be considered as allied to the sarcodes and proximate principles of the tissues, e.g., Choi. Teste, who helped define the powers, groups it with Agn. and Hyos. He considered its action to correspond perfectly to a typical case of typhus.

Mur-ac has an affinity for blood, producing **septic conditions** similar to that found in low fevers with high temperatures and great prostration. Scorbutic states. Muscular exhaustion. Paresis of muscles, including the heart, bladder, tongue, and, in particular, the mouth and anus.

Burnings and tearing pains. Dropsical swelling. Decomposition of fluids. Violent hemorrhages. Pulse rapid and feeble. Pulsations in single parts. **Soreness of the body causing restlessness.** Frequently changes position, but soon grows weak and very debilitated. Wants to lie down, slides down in bed, eyes fall shut, lower jaw drops.

Mucus membranes of the mouth and digestive tract are dry, bleeding, cracked and deeply ulcerated. Bloody mucus membranes. Bluish tongue, hemorrhoids, ulcers. Involuntary discharges. Involuntary stools while passing urine. Itching of anus and scrotum, not better by scratching.

MIND - Irritable and peevish, fretful. Sad and taciturn. Introverted. **Suffers in silence.** Loquacity. **Muttering. Loud moaning.** Conscientious about trifles. Obstinate, headstrong. Great restlessness. Indifference, apathy to pleasure. Discontented in open air. Delirium with fever, sleeplessness. Weary of life. Absorbed in thought during menses. Anxiety during fever. Anxiety about future. Want of self confidence. Cowardice.

Memory weakness. Absent-mindedness. Confusion of mind. Irresolution, indecision. Thoughts intrude and crowd upon each other while at work. Stupor, as if intoxicated. Ailments from anger. Morphinism. Drug addiction. Alcoholism, dipsomania.

Abdomen - Fullness and distention in abdomen from small quantity of food. Pressing pain and tension in hypochondria. Liver enlarged, sore. Ascites from cirrhosis of liver. Cramp in abdomen, with griping in

***umbilical region. Empty sensation in abdomen, after stool, in morning. Rumbling. Flatulence with distension. Hernia.

Back - Backache. Aching pain in back, as from having been having bent double for a long time or from a strain. Shootings in shoulder blades. Furunculi in back.

Chest - Deep respiration with groans. Oppression across chest. Tensive pain in sternum. Incisive shocks in chest. Sharp pains in chest.

Constitutions - Suited to persons of black hair and dark eyes.

Ears - Cuffing from mastoid to nape. Tingling, creeping, cold pain running up to vertex. Distant voice, talking causes headache. Deafness.

Eyes - Eyes close on sitting from exhaustion. Vertical hemiopia.

Face - Dark or glowing red face with cold hands, but no thirst. Lips sore, cracked and scabby. Lower jaw fallen. Pimples and freckles. Freckles due to exposure to sun.

Female - Leucorrhea with backache. Leu- corrhea during menses, soreness of anus. Menses appear too soon. Ulcer in genitals. Pricking in vagina. Genitals very sensitive, cannot bear least touch.

Food - At times, ravenous appetite and constant desire to drink. Cannot bear sight or thought of meat.

Head - Occipital pains, leaden heaviness, worse looking intently at any object. Pain as if brain were crushed. Periodical pain over left eye with numbness down right arm and aphasia. Sound of voice is intolerable. Hair as if standing on head.

Heart - Shootings in region of heart. Shock in heart at night. Large full and soft pulse. **Pulse, drops every third beat.** Pulse rapid. **Pulse feeble and small.** Palpitations felt in face.

Kidneys - Atony of bladder, must wait a long time, before urine will pass or has to press so hard that anus protrudes. Cannot urinate without having bowels move at same time. Urine, red, violet, milky, copious, night and day, escapes from passing wind.

Limbs - Heavy, painful and weak. Tottering gait. Staggering when walking from weakness of thighs and knees. Pain in achilles tendon. Red, swollen burning fingers and toes. Eczema of dorsum of hands. Cramps in the ball of thumb (right) when writing, goes off when moving it. Forearms heavy.

Liver - Liver enlarged, sore. Ascites from cirrhosis of liver.

Modalities - Better from motion. Better warmth. Better uncovering during fever. Better lying on left side. Better after drinking. Worse from touch. Worse human voice. Worse walking, sitting. Worse before midnight. Worse rest. Worse after sleep. Worse cold, drinks, bathing. Worse damp weather. Worse sun. Diarrhea worse after eating.

Mouth - Dry. Fetid breath. Everything tastes sweet. Beer tastes like honey. Tongue, pale, bluish, swollen, dry, leathery, shrunk or burnt looking. Tongue, heavy, stiff, hinders talking, paralyzed. Hard lumps in tongue. Deep ulcers on tongue. Cancer of tongue, epithelioma, edges bluish-red (Carb-ac.). Aphthous mouth. Gums are swollen, bleeding, ulcerating. **Sordes on teeth.** Teeth, worse acids and sweets. Lips, burn, heavy, bloated. Glands swollen.

Nose - Nose stopped up. Coryza thin, acrid, excoriating, with itching, tickling and sneezing. Stinging pain in sore nostrils. **Nosebleed** with much sneezing. Dark and putrid blood from nose.

Perspiration - Cold sweats, on feet, evening in bed. Sweats during first sleep, until 12 p.m., worse head and back. Sweats at night and in morning. Aggravated when sweating, wants to uncover.

Rectum - Smarting and burning in anus. Anal itching and prolapsed anus while urinating. Involuntary stools or prolapse of rectum, on urinating or passing flatus. **Stools very difficult, as from inactivity of bowels.** Diarrhea with much flatus. Diarrhea with intolerable anal itching, not better scratching. Dysentery, blood and

slime separated. Stools too thin, but round. Stools greenish in typhoid. Burning in anus after stool. Anus sore during

menses. Hemorrhoids bluish, hot with violent stitches. Very sore hemorrhoids, better heat. Hemorrhoids protruding like a bunch of grapes. **Hemorrhoids most sensitive to all touch**, even sheet of toilet paper is painful. **Hemorrhoids during pregnancy.**

Sensations - Hair, as if drawn upwards, as if standing on end. Brain as if loose, beaten or torn to pieces, brain clasped by a hand and bruised and torn. Occiput as if filled with lead. Deadness and numbness in forehead, in fingers. Mouth as if glued up with mucus. As if some obstruction must be pulled out of throat. Burning as if under skin of coccyx. As if place was jammed in Achilles tendon.

Skin - Papular and vesicular eruptions with great itching (Rhus-t.). Eczema on back of hands. Scarlet fever, livid with petechia, scanty eruption. **Bedsore**s. Carbuncles. Foul-smelling ulcers on lower limbs. Ulcers throb on walking.

Sleep - Great drowsiness during day, which disappears with exercise. Sleeplessness before midnight. Before midnight, continued snoring, groaning tossing, talking and tendency to slide downwards in bed. Anxious dreams. Frequent and early waking, caused by a coldness that is felt in bed.

Stomach - Achlorhydria. Lack of stomach acids and fermentation of food. **Stomach will neither tolerate nor digest food.** Sensation of emptiness in stomach and esophagus, not better eating. Weak feeling in stomach from 10 a.m. until evening. Acid reflux. Bitter, putrid eructations. **Stomach ulcers.** Burning pains. Vomiting with belching, coughing. Gulping up of contents of stomach into esophagus, sometimes going down again.

Temperature - Cold in bed in early morning. Cold limbs. Intense burning heat with aversion to covers. Heat without thirst. **Typhoid types of fever, septic fevers.**

Throat - Dry with burning in chest. Edematous, dark, raw. Ulcers and false membrane. Uvula swollen. Involuntary swallowing. Attempt to swallow produces spasms and choking.

Vertigo - **Vertigo, worse lying on right side.**

Vertigo, occiput heavy as if filled with lead. Vertigo worse moving eyes, slightly. Vertigo lying on right side or on back.

COMMENTS - Mur-ac. is a powerful antidote to Merc, (as is Nit-ac.), and it meets conditions caused by Merc, as well as similar conditions. Like other disinfectants, it causes as well as remedies rapid decomposition of tissues and dynamically cures low, putrid conditions met with in disease. Characteristic muscular prostration from blood poisoning progressing to paralysis, finally of brain or heart.

Teste gave common features of the group in which he classified Mur-ac as a stupefying headache, obscuration of sight and optical illusions, whizzing noises in the ears and hardness of hearing, nosebleed and loss of smell. Rough, cracked lips and foul breath, scurvy of mouth, paralysis of tongue, loss of taste. Distended, sensitive abdomen, pricking, bruised pain in abdominal walls.

Mucus membranes are very dry, bleeding, cracked and ulcerated. Burning, particularly burning eruptions on lips. Ulcers. Eruptions and hemorrhoids. Varicose veins. Black pocks. Blind boils, frothy when touched. The skin is sensitive to the sun, eczema solare and freckles.

Low, febrile states. Puerperal, diphtheria, exanthematous, and typhoid fevers. Fever with stinging heat, frequent, small intermittent pulse, earthy or livid skin. Stitches about the heart. Excited sexual desires. Impotence. Hahnemann noted a tendency "to slide down to the foot of the bed."

Offensive, sour, acrid excretions. Offensive breath and body smell. Deafness, otitis and glandular swellings about the ears. Sordes on teeth. Shrunken and paralyzed tongue, parched. Throat pains. Hoarseness, spasmodic cough.

Serous, fetid diarrhea, not very painful. Involuntary stool. Paralysis of bladder. Prolapse of rectum, while straining to pass water. Involuntary or difficult urination. There is straining and dribbling, and the straining can cause a prolapsed rectum or involuntary stool.

Hemorrhoids like a bunch of grapes that look purple and burn when touched.

Cooper cured the case of a man, 52, whose sister had died of cancer, who had a hard, deep, warty ulcer, size of a small bean on under surface of tongue, on the left side, with much surrounding hardness and little discharge. Swollen tongue made his speech thick. It was ulcerated, especially on the right side that was hard with swelling. This was followed by a lupoid ulcer on the corresponding side of nose, and had been going on ten months.

RELATIONS - Antidoted by: Carbonates of alkalis and earths in poisoning cases, to small doses: Camph., Bry. Teste said the surest antidote is Ip. **It antidotes:** Merc., Op. It cures the muscular weakness following the excessive use of opium (Hering). **Compare:** (1) Ph-ac., Ars., Bapt. (2) In typhoid state Bry. has worse motion. (3) Rhus-t. - restlessness, better by motion, Rhus-t. has less debility. (4) Ph-ac. has less prostration is apathetic indifferent. (5) Mur-ac. taciturn. (6) Apis has blisters on tongue and it catches teeth when attempt is made to

protrude it. (7) Ars. has scanty evacuations. (8) Bapt. has besotted look tongue red on edges. (9) Bell, more active, hyperemia. (10) Kaliperm. - throat symptoms, edematous uvula. **Follows well after:** Bry., Rhus-t., Merc.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***MUSCA DOMESTICA

(House Fly)

PHARMACY - musc-d. Musca domestica. House fly. **Historical dose:** All potencies.

CLINICAL - Arthritis. Awkwardness. Backache. Boils. Catarrh. Delusions. Dysmenorrhea. Eczema. Headache. Herpes. High, fever. Masturbation. Memory, weak. Mumps. Rashes. Rheumatism. Salivation. Stupefaction. Styes. Toothaches. **Weakness.**

HOMEOPATHIC - Lassitude. Heaviness, sensation externally and internally. Heaviness, internally, alternating with lightness. Lack of vital heat. Heat alternates with a chill. Sensation of paralysis. Weakness, with restlessness. Worse during a storm.

MIND - Fastidious. Conscientious, about trifles. Restlessness with pain. Restlessness, driving from place to place. Desire for exercise and physical activity. Industrious. Elation. Extravagance. Irresolution. Impatience, with children. Easily angered. Cursing.

Anxiety, with congestion, when alone. Fear of abandonment, sensation of isolation. Anxiety about health. Anxiety about time. Fear of accident, sexual assault, men. Aversion to company, to certain people.

Memory, weakness. Forgetfulness, feels as if he had forgotten something. Confusion of mind. Rapid thoughts. Confounds objects and ideas. Awkwardness. Mistakes in talking, words, localities, names. Confusion of mind, identity. Stupefaction, as if intoxicated. Indolence.

Causeless crying. Tendency to weep. Sadness, before menses. Pities herself. Self loathing. Despair, hopeless. Dwells on past disagreeable circumstances. Reproaches others. Desires sympathy. Worries for others. Forsaken. Suicidal thoughts.

Delusion, that he died, and is alive again. That body and mind are separated. That he is being watched. That fingers are scratching his body. Everything is dirty, foul. Visions of dead animals. Sees maggots, vermin, insects.

Abdomen - Dull, knotting pain, sharp over bowel.

Back - Backache. Dull, throbbing pain. Pain in nape, neck. Neck pulling to left. Tension in neck, shoulders. Pain in coccyx. Sensation of gap in mid-back. As if back were separated.

Breasts - Pain and swelling in breasts, before menses. Pain in nipples, in men.

Chest - Radiating pain, gas in center of chest. Aching pain, constriction.

Dreams - Dreams of sexual violence, abortion, sick babies, dying from cholera.

Ears - Cutting, aching pain. Oozing eruption on the earlobe. Sensitive to high pitched noise. Ringing noises.

Eyes - Dryness. Discharge in right eye. Stye, in right eye. Eyelid opens and shuts involuntarily.

Face - Eruptions, painful to touch, on forehead, eyebrows, over left eye. Herpetic eruption on lower lip, corners of mouth. Inflammation of parotid gland.

Female - Painful menses, dysmenorrhea. Menses, profuse, brown discharge, spotting, intermittent. Pain in lower vaginal region. Sharp pain in cervix, in left ovary. Herpetic eruptions. Boils on labia. Sexual desire increased. Masturbation.

Food - Aversion to water. Desires chocolate, cheese. Desires bacon. Desires vinegar, sour food. Desires coffee. Desires beer in the morning. Worse from cheese.

Head - Headache, frontal pressure. Pressure in temples, worse lying down. Dull aching in occiput. Dull, gripping like too much caffeine. Throbbing head and above eyes. Head pain before menses. Dry, flaking, scalp.

Kidney - Musty smelling urine.

Limbs - Insensibility, limbs. Stiffness of limbs. Joint pain. Numbness in arms on waking. Aching pain, in upper limbs, shoulders, upper arms, at night. Pinching, throbbing pain in wrist. Awkwardness, lower limbs, hands. Throbbing pain in hip. Cracking pain in groin, worse walking. Lancinating pain in knee. Cold, numb feet. Soreness in feet, soles.

Lungs - Greenish yellow expectoration. Shortness of breath.

Male - Pinching pain in testes. Sexual desire increased. Penis, flaccid. Impotency.

Modalities - Worse lying down. Worse from cheese.

Mouth - Profuse saliva, in gushes. Frothy mucus on waking. Salivation with mumps. Taste of lemons in mouth. Breath, fetid odor. Bleeding, spongy gums. Lower gum line feels thin and stings. Chancre sore on tongue, lip. Lip, split, cracked.

Nose - Obstruction. Catarrh. Acute sense of smell. Odors, imagined and real, fruit, peaches, sulphur.

Perspiration - Night sweats.

Rectum - Constipation, must strain. Urging absent. Incomplete, unsatisfactory bowel movements. Excessive flatulence, smelly. Stools are dry, pasty, soft, light brown, loose.

Sensations - Heaviness sensation. Alternating heaviness with lightness sensation. Paralytic sensation.

Skin - Greasy skin. Herpetic eruptions. Boils on right upper back. Flat, pink, scaly rash on chest. Eruption in cervical area. Red rash above left axilla, after bathing. Eczema on hand. Raised red bumps on upper thigh.

Sleep - Snoring during nap. Overwhelming desire to sleep. Sleeping early. Sleeps in fetal position, right side. Deep, soporific sleep. Recurring vivid dreams, of houses, fire, water, falling into water. Deep, unrefreshing sleep. Restless. Waking groggy, late.

Stomach - Appetite wanting for dinner. Upset stomach, worse drinking cold water. Sharp pain, with belching, gas. Sour eructations. Spikes or flashes of nausea.

Teeth - Toothache while eating chocolate. Pain in right lower teeth.

Throat - Sore throat, with tickling in the ears, worse tea. Mucus stuck in throat.

Vertigo - Light-headed. Drifts or falls, to the left, worse in morning.

Vision - Difficulty focusing. Blurry when reading. As if a bug was flying in peripheral sight.

REFERENCES - Sonz, Stewart.

***MUSA SAPIENTUM

(Banana)

PHARMACY - musa. Musa sapientum. Banana. N. O. Palmaceae. Araceae. Tincture of the dried flowers.

Historical dose: Tincture and all potencies.

CLINICAL-Anemia. Blood pressure. Brain, fatigue. Bronchitis. Constipation. Cystitis. Depression. Dyspnea. Hangovers. Headache. Heartburn. Hemorrhoids. Morning, sickness. Mosquito, bites. Overweight. Pre-menstrual syndrome. Seasonal Affective Disorder. Strokes. Tobacco, smoking. Ulcers. Warts.

HERBAL - C. Campbell commended bananas baked in their skins as an ideal food or even a "cure" for brain workers, nervous persons and the anemic. A syrup made with the juice of bananas extracted by heat is commended as a remedy in chronic bronchitis with insufficient expectoration and marked dyspnea.

Clarke had a case of profusely bleeding hemorrhoids, which had resisted every kind of treatment, showed improvement and an ultimate cure.

HOMEOPATHIC - Jenner proved the tincture of banana flowers, producing costiveness and a sensation of fullness about the anus in a person of regular habits. He cured a bad case of bleeding hemorrhoids with it. Musa also produced pain in the bladder and passage of mucus with urine.

MIND - Brain fatigue. Depression.

Abdomen - Rumbling in stomach and bowels with expulsion of flatus.

Head - Dull, heavy, frontal headache.

Kidneys - Discharge of large quantities of mucus with the urine, with dull, aching pain in bladder region.

Mouth - Dry, rough and extremely astringent taste and feeling in mouth, tongue, and fauces, but afterwards an increase of saliva.

Rectum - Constipation with feeling of fullness about anus.

COMMENTS - Bananas contain three natural sugars, sucrose, fructose and glucose, combined with fiber. They also contain tryptophan, a protein that is converted into serotonin. Vitamin B6, which regulates blood glucose levels and affect mood. High in iron, bananas can stimulate the production of hemoglobin. They also contain potassium and are natural antacids.

Can be useful for depression, seasonal affective disorder and stress. Anemia. High blood pressure, strokes. Premenstrual syndrome. Morning sickness. Hangovers. Constipation. Heartburn, ulcers. Neutralizes over-acidity and reduces irritation by coating the lining of the stomach.

REFERENCES - Clarke. Murphy.

***MUSCARINUM

(Muscarine)

PHARMACY - muscin. Muscarinum. Muscarine. Muscarine is the alkaloid of Agaricus muscarius. **Historical dose:** All potencies.

CLINICAL - Lachrymation. Perspiration. Salivation.

HOMEOPATHIC - Muscin. increases the lachrymal, salivary, hepatic secretions etc., but diminishes kidney secretions. **Salivation, lachrymation and excessive perspiration.**

REFERENCES - Boericke.

***MUSTARD

(Bach Flower Essence)

PHARMACY - must-b. Mustard. Sinapis arvensis. The flower heads are picked above any seed pods and boiled for half an hour. The water is strained and prepared as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Must-b. belongs to Bach's group "**Lack of Interest in Present Circumstances**," along with Clem-b., Honey-b., Wld-r-b., Oliv-b., Wh-ch-b., and Ch-bd-b. Affects of head injury, nerve damage or misalignment of the skull plates along fissures. Dampened consciousness (Hom-b., Scler-b., Wld-o-b.). Depression and gloom. Lowered vitality, lethargy. Chronic fatigue and appetite disturbances (Chic-b, Crb-a-b.). Solace found in eating and constipation (Chic-b., Will-b.), resulting in weight loss or gain. Sleep disturbances (Pine-b., Wh-ch-b.). Disinterest in physical recreation and general decline in healthful interests and habits (see Wld-o-b.).

MIND - Depression and gloom, with sensation of a weight or downward pull, better in the sun. Desires light. Sadness, regret, weepy. Introverted. Absent-minded, disinterested in present circumstances. Lack of appeal for

life. Boredom, sense of meaningless. Morose and ill-tempered. Sense of desolation, loneliness. Self-pity. Withdrawal and joylessness in retardation (Horn-b., Wld-o-b.).

REFERENCES - Bach.

***MUTABILE BACILLUS

(Bowel Nosode)

PHARMACY - mut. Mutabile bacillus. Bacillus coli. A bowel nosode. **Historical dose:** All potencies.

CLINICAL - Asthma. Cystitis. Eruptions. Malnutrition.

HOMEOPATHIC - Mutabile bacillus is so named because it mutates almost as soon as it is sub-cultured from a non-lactose to a lactose fermenter, and is of interest mainly from a bacteriological point of view as it is an intermediary form between the B. Coli and the true non-lactose fermenting type.

This nosode is likely to be of value in treatment where there is alternation of symptoms. Associated with Puls. Skin eruptions alternate with asthmatic symptoms (Calad.). Skin has a sallow color. Cystitis. Malnutrition.

RELATIONS - Compare: (1) Puls., Calad.

REFERENCES - Bach. Paterson.

***MYGALE LASIODORA

(Black Cuban Spider)

PHARMACY - mygal. Mygale lasiodora. Black Cuban spider. Bird spider. Mygale avicularia. Aranea avicularia. N. O. Arachnida. Latin America. Tincture of whole spider. **Historical dose:** All potencies.

CLINICAL - Chill. Chordee. **Chorea.** Convulsions. Dyspnea. Fever. Gonorrhea. Nausea. Palpitations. Syphilis. **Trembling.** Twitching.

HOMEOPATHIC - The pathogenic data of Mygale consist of a proving by a young woman and the effect of a bite on a man. In the latter case, inflammation ensued which spread along the lymphatics, violet and afterwards green discoloration, chill followed by fever, dry mouth and great thirst, trembling, dyspnea, despondency and fear of death.

The prover developed sadness, dry mouth, nausea with great palpitation, trembling, dim sight and great general weakness increased flow of urine, hot, scalding with stinging in urethra. This last symptom led to the successful use of Mygal. in gonorrhea, chordee and syphilis.

The "**trembling**" observed in the man suggests its use in nervous cases, but the sphere of Mygal. in chorea has been developed from the clinical side. In the cases cured with it, twitching and contractions of facial muscles have been very prominent, convulsive movements of head to right side, twitching of one side of body, mostly right. The twitchings may be so violent as to prevent walking.

Chorea, especially of the upper parts. Constant motion of whole body. Convulsive, uncontrollable movements of arms and legs. Twitchings and contraction of facial muscles and head, which is jerked to the right side. Limbs are quiet during sleep, movements worse in morning.

Unsteady gait, limbs drag while walking. Mouth and eyes open in rapid succession. Words are jerked out in the effort to talk. Nausea with palpitations and dim vision. Intense red streaks along lymphatics. Sexual symptoms, violent erections, chordee. Weakness, nervousness, fear.

MIND - Sad, despondent with anxious expression. Fear of death. Delirious, talking about his business, restless

all night.

Back - Pain in back, extending around to front.

Ears - Acute aching in right ear.

Eyes - Nausea with dimness of sight, weakness, palpitation.

Face - ***Twitching of facial muscles.*** Mouth and eyes open in rapid succession. ***Hot and flushed.***

Food - Excessive thirst. Aversion to food, no appetite. Better after eating.

Head - Head jerked to one side.

Heart - Strong palpitations, with nausea, dimness of sight and general weakness. Pulse frequent.

*****Limbs** - ***Constant motion of whole body.*** Twitching of limbs. Tremulous. ***Convulsive, uncontrollable movements of arms and legs.*** Restless hands. Limbs drag while walking. Unsteady gait. Intense redness in streaks, following course of lymphatics.

Lungs - Difficult breathing. Words jerked out when effort is made to talk.

Male - Violent erections. Chordee (Kali- br., Camph.). Protracted gonorrhea. Syphilis.

Modalities - Better during sleep. Worse in morning, eating. Legs in constant motion, worse sitting.

Mouth - Tongue dry and parched, put out with difficulty. Grating of teeth at night.

Sleep - Restless all night, with ridiculous dreams.

Stomach - Nausea with strong palpitations, dim sight.

Temperature - Severe chill lasting thirty minutes, then fever with excessive thirst and trembling of limbs.

Urine - Urine is increased, stinging in urethra, burning hot, scalding.

RELATIONS - ***Compare:*** (1) Agar., Tarent., Cupr., Ziz. (2) in chorea, Agar., Cimic., Ign., Stram., Ziz. Tarent., Ant-c.

REFERENCES - Boericke. Clarke.

***MYOSOTIS SYMPHYTIFOLIA

(Forget-me-not)

PHARMACY - myos-s. Myosotis symphytifolia. Forget-me-not. Black-root. N. O. Boraginaceae. Marshy places in Indiana. Tincture of fresh plant. ***Historical dose:*** Tincture and all potencies.

CLINICAL - Bronchitis, chronic. Bronchorrhea. Coughs. Emaciation. Lung disorders. ***Night-sweats.*** Tuberculosis. Vomiting.

HERBAL - Hale collected some clinical experiences with Myosotis symphytifolia, which differs from Myosotis palustris in having large symphytum-like leaves, showing it to have a strong affinity for the respiratory organs.

HOMEOPATHIC - Myos-s. affects the left lower lung. Chronic bronchitis and tuberculosis. Bronchorrhea. Cough with profuse muco-purulent expectoration, gagging and vomiting during cough, worse during or after eating. Pain in left lung (lower), painful while coughing and sensitive to percussion. Copious expectoration, emaciation, ***night-sweats.*** Profuse sweat day and night.

RELATIONS - ***Compare:*** (1) Symph., Stann. - lung disease.

REFERENCES - Boericke. Clarke.

***MYRICA CERIFERA

(Bayberry)

PHARMACY - myric. Myrica cerifera. Bayberry. Wax myrtle. Candleberry. N. O. Myricaceae. Tincture of fresh bark of root. ***Historical dose:*** Tincture and all potencies.

CLINICAL - Achilles tendon, pain. Cancer. Catarrh. Conjunctivitis. Diphtheria. Headaches. Heart disorders. ***Insomnia. Jaundice.*** Leucorrhea. Liver disorders. Pharynx, disorders. Stomatitis. Throat, sore, Urticaria.

HERBAL - According to Hale, though Myrica was known to old herbalists, it was Samuel Thomson, of lobelia fame, who established its reputation. Thomson had a crude pathology of his own which served him to some extent.

Myrica formed the chief ingredient in Thomson's once famous "Composition powder." One of his ideas was that the digestive tract was liable to become fouled with a copious mucus lining. This he called "canker" and he stated of Myrica that it "has the power of disengaging the thick, viscid secretions of the mucus membrane of the stomach."

HOMEOPATHIC - The provings of Myric. confirmed Thomson's observation, that it produced a characteristic abundant, offensive secretion of tenacious mucus in the throat, difficult to detach. Liver disorders with ***jaundice*** and mucus membranes. Combined liver and heart disorders. Persistent ***insomnia.***

MIND - ***Gloomy, despondent*** and dejected. ***Irritable,*** indifferent. Cannot concentrate mind on any subject. Dull and drowsy state. Exhilaration, then excitement or depression, preventing sleep, with restlessness.

*****Abdomen** - Dull pain in the liver with pain under either scapulae. Fullness and burning in gallbladder. Fullness in the stomach and abdomen. Flatus is passed continuously while walking.

Back - Pain under scapulae with liver complaints.

Eyes - Yellow sclerotica. Very red eyelids.

Face - Yellow, jaundiced. Itching and stinging. Creeping sensation.

Female - Acrid, fetid, thick, yellow, long lasting leucorrhea.

Food - Desire for sour things. Strong desire for acids. Imagines he cannot eat, the taste is so foul. Loss of appetite, loathing of food.

Head - Pain and stiffness in nape of neck. Headache with drowsiness, yellow sclerotica, aching in eyeballs. Pressure in vertex and forehead. **Dull, heavy aching in temples and forehead on waking in the morning.** Scalp feels tight.

Heart - Pulse, slow, feeble, irregular **Kidneys** - Dark, frothy, scanty, high-colored, biliary urine.

Limbs - Pain under shoulder blades and back of neck, in all muscles, in hollow of right foot. Staggering gait.

Liver - Liver disorders with heart complaints, with urticaria with jaundice. **Jaundice** of infants. Liver cancer, with bronze-yellow skin.

Modalities - Better from open air, eating, breakfast. Worse from warmth of bed, after sleep, morning, after breakfast, motion.

Mouth - Dry, water relieves only partially. **Tenacious, thick, nauseous mucus** in mouth and throat. Taste bitter and nauseous with offensive breath. Tongue, thick yellowish, dark, furred. Tender, spongy and bleeding gums (Merc.).

Rectum - Urging to stools but passes only great amount of flatus. Constant discharge of flatus when walking. Stools, foul, pasty, of gray color. Loose, light-colored stool, ash-colored and destitute of bile. Adhesive mucus in stools.

Skin - Yellow and itching. **Jaundice.** Creeping sensation, as of insects.

Sleep - Drowsiness. **Insomnia.** Disturbed, bad dreams and frequent waking.

Stomach - Complete loss of appetite, but with a feeling of fullness in the stomach after a hearty meal. Weak, sinking feeling in the epigastrium, approaching nausea increased after eating, relieved by rapid walking.

Throat - Constricted and rough feeling with a constant desire to swallow. Diphtheria. Stringy mucus, detached with difficulty. **COMMENTS** - Long-lasting, profuse catarrhal discharges, offensive, tenacious and difficult to detach. Leucorrhea, bronchorrhea intestinal catarrh, pharyngeal catarrh, stomatitis. Nasal obstruction, post-nasal catarrh which often accompanies disordered liver.

Drowsiness, despondency. Weakness. Muscular soreness, aching in limbs. Sharp pains about the heart with increased, audible pulsations, but slow pulse, worse lying on left side (Dig.). Pains in left chest and under scapula (especially left) and pain in middle lobe of right lung.

Aching pain in liver, fullness. Jaundice. Itching of jaundice. Dull, heavy headache, worse in morning. Dirty, yellow tongue. Yellowish white of eyes. Dirty, lids abnormally red. Ash-colored stools.

Douglass noted the case of Miss O., 18, who complained of itching and stinging on face, neck, right forearm and leg. Sensation as if insects crawling on face, must brush them away. Skin yellowish tongue, thickly coated yellow. Felt sick all over and rather irritable. Myric. 6x every two hours improved at once and cured in ten days. Hale said it rivals Guai. as a local application in diphtheria. Burnett used Myric. with excellent effect with jaundice, given in material doses. It has generally been given in the lower potencies.

RELATIONS - Antidote: Dig. - jaundice. **Compare:** (1) Ptel., Com., Chel., Lept., Fago.

(2) in tenacious secretions, Kali-bi., Hydr. (3) Jaundice, light-colored stools, slow pulse, Dig. (Dig. has pulse irregular as well as slow, the tongue of Dig. has not the thick, tenacious coat of Myric.). (4) Liver, Berb., Chel., Chim., Podo., Hep., Merc., Choi., Hydr. (5) Urticaria

and liverdisorder, Astac. (6) Sore all over, Arn., Bapt. (7) Leucorrhea, Hydr. (8) Pain through left chest to scapula, Ther., Anis., Pix.

REFERENCES - Boericke. Clarke. Phatak.

***MYRISTICA SEBIFERA

(Brazilian Ucuba)

PHARMACY - myris. Myristica sebifera. Brazilian ucuba. N. O. Myristicaceae. Brazil. Trituration of red, acrid, very poisonous gum obtained by incising bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscesses. Arthritis. Boils. Carbuncles. Elephantiasis arabum. Erysipelas. Fistulas. Headache.

Injuries. Joints, disorders. **Panaritium.** Parotiditis. **Suppurations.** Traumatic, infections. Ulcers. **Whitlow.** Wounds.

HOMEOPATHIC - Mure proved and introduced Myris., which belongs to the same order as the nutmeg tree, Nux-m. In the proving there was **“pain in the fingernails with swelling of the phalanges.”** This, apparently, led to its use in **whitlow** in which many successes have been reported, including some from Chancerele Pere. Spanish homeopaths used Myris. extensively. Olive of Gros reported cures of scrofulous osteitis, callous ulcers, and phlegmonous erysipelas.

Works as an antiseptic. Inflammation of skin, cellular tissue and periosteum. Hastens suppuration and shortens its duration. Traumatic infections. **Panaritium**. Parotiditis. Fistulas. Carbuncles. Phlegmonous inflammations. Inflammation of middle ear, suppurative stage. Coppery taste and burning in the throat. Tongue is white and cracked. Fistula in ano. Hands are stiff, as if from squeezing something a long time.

MIND - Heedless and careless. Indifference, apathy to business affairs. Stupefaction, as if intoxicated. Concentration is difficult. Persistent thoughts. Vexed by a song which keeps running in his head. **Excitable, alternating with chilliness**. Dreams of neglected business, quarrels, strife. Startled during sleep.

Abdomen - Sensation as if a foreign body, as large as a walnut, has lodged in left inguinal region, all forenoon.

Back - Pinching, right side of neck.

Chest - Hard pressure during night on both sides of chest, not affecting breathing.

Ears - Inflammation of middle ear, tympanum, myringitis. Suppuration of middle ear, tympanum. Abscess of external meatus. Ringing noises.

Eyes - Redness of eyes and eyelids.

Face - Very red face.

Food - Thirst.

Head - Head heavy. Pain with pressure outwards. Headache in frontal eminence, at noon, better in open air.

Kidneys - Less frequent urination, scanty although he drinks much. Urine reddish yellow.

Limbs - Hands stiff as if from squeezing something for long time. Pain in left hand. Pain in hands worse when they touch each other. Formication on left thumb joint. Pain in fingernails with swelling of phalanges. Pinching pain in right calf.

Mouth - Tongue white and cracked. Whole mouth with tonsils and upper pharynx painful and sensitive to contact, every mouthful seems to wound the parts when chewed or swallowed. Taste bitter of copper, which excites spitting of blood. Palate insensible with loss of taste.

Rectum - Stools mixed with yellow mucus.

Skin - Malignant pustules. Abscesses. Carbuncles. Two pimples on left cheek, quickly disappearing.

Sleep - Cannot get to sleep. Restless sleep with unconnected dreams, about business, disputes, houses being built commencing with top stories. Violent starting in sleep.

Throat - Burning at bottom of throat. Constriction at isthmus of pharynx, pain increases progressively. Difficulty in swallowing saliva.

Urine - Red color.

Vertigo - Dizziness in morning. Vertigo, right to left on waking in morning. Vertigo, swaying toward left.

COMMENTS - Myris. is useful for abscesses from splinters and foreign objects, especially splinters under the nails causing infection, pus and pain (Sil.). Suppuration of the joints. Kippax, according to Hansen, noted that it is the principal remedy in elephantiasis arabum.

Cartier noted two cases in which he used Myris. The first was a young girl who had had her leg in a splint for inflammation of the knee and doughy swelling of the entire limb for three months. Cartier came to the conclusion that there was pus in the joint.

Myris. 3c, five drops three times a day, was given for three months.

Five months later, the swelling and inflammation were all gone, walking gave no pain, but the joint was ankylosed.

The second case was an old man, 87, who was seized with sudden arthritis of the shoulder with intense fever. Cartier was sent for and found the shoulder quite full of pus with a particularly painful spot on the scapula, at a point where the bone was said by one authority to be attacked.

Myris. 3c, five drops three times a day, was given. In ten days there was no longer suppuration, the size of the joint has become normal and the tender spot was gone.

RELATIONS - Compare: (1) Sil., Nux-m., Calc-s., Sulph., Pyrog.

***MYRRH

(Gum Myrrh)

PHARMACY - myrrh. Myrrh. Gum myrrh. Commiphora myrrha. Commiphora molmol. Balsamodendron myrrha. N. O. Burseraceae. Middle East and Africa. Tincture from bush or small tree. **Historical dose:** Tincture

and all potencies, third potency.

CLINICAL - **Abscess.** Amenorrhea. Anemia. Asthma. Bronchitis. Colds. Constipation. Coughs. Debility. Dyspepsia. Flatus. Gastritis. **Gum, diseases.** **Mouth, disorders.** Pharyngitis. **Pyorrhea.** Sores. Stomach, disorders. Throat, sore. Thrush. Tonsillitis. Ulcers.

Myrrh

HERBAL - The Myrrh plant is a shrub or small tree. Myrrh is highly prized for its bitter, cleansing perfume. The aromatic pale yellow, gum resin seeps out from fissures in the bark. It was part of the embalming mixtures of the ancient Egyptians.

It is a stimulant, tonic and antiseptic. The tincture is used for sore throats, ulcers and thrush. Mouthwash for infected gums or ulcerated tongue. The dry, powdered resin is often added to tooth formulas.

Myrrh is an excellent antiseptic, a slow and mild stimulant, possessed of moderate astringency, and acting as a stimulating tonic. Its use occasions an agreeable sense of warmth in the stomach, large quantities causing decided gastric excitement. It slowly increases the fullness and force of the pulse, and exerts a well-marked influence on the capillary circulation.

It diminishes mucus discharges, leaves a sense of warmth in the respiratory passages, arrests decomposition, and removes foul odors from sores. It is also a very good styptic in passive hemorrhages. Emmenagogue properties have been attributed to it.

HOMEOPATHIC - Large doses of Myrrh quicken the pulse, raise the temperature, cause gastric burning, great sweating, and prostration, vomiting and purgation may follow. Myrrh is a remedy for enfeebled states with excessive mucus discharges.

Muscular debility. Respiratory weakness with difficult expectoration. Tonsillitis with large and infected glands. Chronic gastritis and dyspepsia. Gas and frequent mucus stools.

Female - Dragging and weight sensation in the female pelvis. Leucorrhea. Suppressed menses in anemic young girls.

Mouth - Pale tongue. Salivation. Abscesses.

Sores in the mouth. Inflamed and sore gums. **Pyorrhea.** Spongy and bleeding gums.

Throat - Sore throats. Pharyngitis. Infected and enlarged tonsils. Abscessed glands.

COMMENTS - As a local application in degenerate ulcers, it is of great value. Especially in phagedaenic, malignant and fetid sores. Carbuncles, malignant scarlatina, putrid sore throat and diphtheria. After an indolent bubo has been opened. In all such local cases it may be used in powder, tincture, or watery solution. It is a favorite appliance in aphthous sores, and bleeding or spongy gums.

REFERENCES-Clarke.

*****MYRTUS CHEKAN**

PHARMACY - myrt-ch. Myrtus chekan. Eugenia chekan. N. O. Myrtaceae. South America. **Historical dose:** Tincture and all potencies.

HERBAL - The constituents and properties of chekan correspond with those which generally characterize the family myrtaceae. To this family belong cloves, allspice, eucalyptus and jambul, all possessing, in the part used, stores of aromatic oil to which, at least, in great part, is due their valuable properties.

Dessauer considers it to possess tonic, expectorant, diuretic and antiseptic properties; he states that he has used it with great success in bronchitis, vesical catarrh and other affections of the mucous membrane, also that digestion is improved.

HOMEOPATHIC - Dr. Dessauer, physician-in-chief to the German hospitals in Valparaiso, and Dr. Murrell, of London, both were instrumental in introducing this remedy to the profession. Dr. Dessauer first had his attention called to the plant by the successful self-treatment by one of his patients in a case of purulent bronchitis. He then tried the chekan on members of his own family with equal success.

Myrt-ch. has chronic bronchitis with dense, yellowish sputum, difficult to detach. Copious expectoration keeps patient distressed and coughing. Dr. John B. Garrison writes: "Myrtus chekan, should prove a valuable remedy in bronchial catarrh.

The chief indications for its use are severe paroxysmal cough with dense yellow expectoration, which is difficult to 'bring up.' * Sometimes the secretion is so abundant

Myrtus chekan that it rattles in the deeper bronchial tubes, but, owing to its tenacious character, only small amounts are expectorated. Shortness of breath is also a marked feature, but the cough is the more important of the two symptoms.

This remedy is not a 'cure-all' for all forms of bronchitis, but only in those cases which present, at least, the symptoms, 'thick, yellow, sticky sputum, difficult to expectorate.' Good results may be anticipated from its use. In all elderly people who suffer from weakened power in expectoration and inability to thoroughly clear the

bronchial tubes, Myrtus chekan is most reliable.”

COMMENTS - Chekan has done its best work in cases of chronic bronchitis associated with emphysema, particularly in elderly persons suffering from ‘winter cough. ‘ As an example of this reference is made to Murrell's report of fifteen cases of chronic bronchitis which were treated at the Royal Hospital for Diseases of the Chest, London. All of the patients, with one exception, were men. The age of the woman was 51 years; the ages of the men ranged from 36 to 58 years. They were all bad cases, many of them of many years' duration.

Most of them had been attended at the hospital for some considerable time, and, almost without exception, they had in former years undergone much medical treatment without much benefit. Their occupations exposed them to cold, wet and draught, and in some cases they had the additional disadvantage of working in a dusty atmosphere.

They complained chiefly of a paroxysmal cough with thin, yellow expectoration, and much shortness of breath on exertion. On physical examination of the chest emphysema was detected, with, or without, a little bronchus of the bases behind. They were, in fact, ordinary cases of winter cough.

REFERENCES - Boericke.

***MYRTUS COMMUNIS

(Myrtle)

PHARMACY - myrt-c. Myrtus communis. Myrtle. Closely allied to Granatum, the pomegranate tree. N. O. Myrtaceae. Tincture of fresh shoots and leaves. Tincture of fresh flowering shoots and leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Bronchitis. Catarrhal, fevers. Chest, pain. Coryza. Coughs. Cystitis. Hemoptysis. Pyelitis. Syphilis. Tuberculosis.

HERBAL - The leaves contain Myrtol and an active antiseptic.

HOMEOPATHIC - Myrt-c. is an unproved remedy, the symptoms are entirely clinical, of which Hering gives an account.

Powerful action on the left lung, especially the upper part (Ox-ac., lower). Chest pains, as found in tuberculosis patients. Incipient tuberculosis. Nerve sedative and stimulant to mucus membranes, bronchitis, cystitis and pyelitis.

Breasts - *Stitching pain in left breast, running through to scapula* (Anis., Ther., Pix.).

Chest - Acute pressing pain in chest. Pain in upper part of left chest, through to shoulder, worse taking a deep breath and making a strong motion. Stitching in left apex straight through to scapula, worse breathing, yawning, coughing. Burning in left chest with throbbing, aching, tickling. Hepatization of lungs. Tuberculosis from maltreated syphilis. Cough with tightness. Hemoptysis.

Lungs - Dry, hollow cough from tickling in upper anterior lobes of lungs, worse morning, better evening, great lassitude in afternoon. Cough, coryza and catarrhal fever setting in with every atmospheric change.

Modalities - Worse from changes of atmosphere.

Nose - Coryza with cough.

Temperature - Catarrhal fevers with pain in elbow and knee joints, with dry, hollow cough, caused by tickling in upper and front part of lungs, especially in morning, better evening, accompanied by lassitude

Myrtus communis in afternoon.

Throat - Dryness in throat, pains in throat and chest with expectoration of blood.

COMMENTS - Dr. John B. Garrison writes: “Myrtus communis, the common myrtle, was though highly of by Hering, who made clinical tests with it, and found it to be useful in pain in the upper left lung, going right through, from front to back, under the left scapula.

‘Great lassitude in the afternoon’ he considered a very important symptom.”

Pain in upper left lung going right through from the front to the left scapula. The pain is mostly stitching, but may be throbbing, aching or burning. It is worse in morning, better evening, worse by breathing, yawning, coughing.

Cough is dry, hollow, excited by tickling in upper anterior lobes. Hemoptysis, Tuberculosis, lung syphilis, hepatization. Cough and tickling in afternoon is better in evening. Every atmospheric change causes cough, coryza and catarrhal fever.

Hering cured catarrhal fever with tickling cough worse morning and better evening with great lassitude in afternoon.

RELATIONS - **Compare:** (1) Myrt-ch. (2) pains through left chest to scapula, Ther., Anis., Pix., Sulph. (3) pain through lower lobe of left lung, Ox-ac. (4) Phos., Bry.

REFERENCES - Boericke. Clarke.

***NABALUS SERPENTARIA

(White Lettuce)

PHARMACY - nabal. Nabalus serpentaria. White lettuce. Prenanthes serpentaria. Rattlesnake root. N. O. Composite, suborder Chico- racee. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Constipation. Diarrhea. Dysentery. Dyspepsia. Emaciation. Headaches. Leucorrhea. Ophthalmia.

HERBAL - Nabalus is a Native American plant used in domestic practice for diarrhea and dysentery.

HOMEOPATHIC - There is only one proving with 1c and 3c dilutions by a married woman, age 19. The symptoms somewhat resemble those of its botanical relative, Lact-s., especially in constipation and somnolence. Susceptibility to magnetic contact and to the personal aura of others.

Pain in the abdomen and rectum, with emaciation. Dyspepsia with acid burning eructation. **Craving for acid food.** Constipation and chronic diarrhea (Lact.), worse after eating, at nights and toward morning.

Leucorrhea with throbbing in uterus. Heaviness, as if blood vessels filled with lead, body heavy, she leans about. Dull pains in joints and numbness on waking. Irritability of temper and occipital pain, worse in the evening. Ophthalmia.

MIND - Continued melancholy. Depression followed by unusual buoyancy. Irritability of temper and occipital pain.

Eyes - Great and lasting irritation of eyelids and margins, the margins sting and smart and are slightly swollen. Sight weak.

Female - Sharp throbbing in uterus. Menses delayed. White, jelly-like discharge from vagina with weakness.

Food - Appetite and thirst diminished. **Craving for acid food**, lemons.

Head - Deep-seated frontal pains behind right eyeball and over eye. Occipital pains with stiffness in neck, worse evenings. Headache with irritability and irritation of eyes, throat and skin. Topsy sensation.

Kidneys - Sharp, transient pain in right kidney. Diminished urine.

Nose - Right nostril sore. Smell and taste slightly impaired.

Rectum - Constipation, only three stools in twelve days, hard, painful, followed by prostration.

Skin - Subcutaneous glands irritated and swollen, especially behind right ear and in neck. Prickling as from suppressed perspiration, general itching.

Sleep - Somnolence. Sleep prolonged, afterwards lighter and more broken.

Stomach - Burning belchings.

Temperature - Chilliness, not better by heat of fire. No febrile reaction except occasional flushes over head and face.

Throat - Throat sore, tickling and scraping (left), worse lying down and swallowing saliva, then both eyes, worse left.

RELATIONS - Compare: Lact-s.

REFERENCES - Clarke.

***NAJA TRIPUDIANS

(Cobra Venom)

PHARMACY - naja. Naja tripudians. Cobra venom. Cobra di capello. N. O. Elapide. India. The hooded snake of Hindustan. Tincture of the fresh venom. Trituration of saturated with fresh venom. **Historical dose:** All potencies.

CLINICAL - Angina pectoris. Asthma. Collapse. Dysmenorrhea. Edema. Esophagus, stricture. Hay fever. Headache. **Heart disorders.** Ovaries disorders. Plague. Sepsis. Spinal irritation. Throat, sore.

HOMEOPATHIC - P. C. Majumdar noted that cobra poison had been used by Indian practitioners from ancient times in many nervous and blood diseases. Naja, is not a hemorrhagic or septic medicine like Lach, and Crot-h.

Naja, produces a typical bulbar paralysis. Causes no hemorrhage but only edema, hence the victims of this reptile frequently bear very little sign of external injury, the only indication is often a small scratch or puncture. The tissue lying beneath the wound is colored dark purple and a large quantity of viscid, blood-like fluid collects in the

vicinity of the wound. The first symptom is an intense burning pain at the bite. There is an interval, usually an hour, before other symptoms develop, after which they develop rapidly.

A feeling of intoxication is produced, followed by a loss of power over the limbs. Loss of speech, swallowing and the control over the movement of the lips. Saliva is ejected in large quantities. The respiration gradually becomes slower and slower and at length ceases. Victim remains conscious throughout.

The action of Naja, settles around the **heart, hypertrophy and valvular diseases**. Affects medulla and cerebellum, respiration, throat, ovary. Diseases primarily depending upon degeneration of motor cells. Sepsis. **Nervous, excited and tremulous with heart disorders, ojen reflex**. Marked surging of blood upwards. Heart is enlarged. Affections of heart with paucity of symptoms. **Organs seem to be drawn together**. Constrictions in chest, throat. Concomitant with the heart symptoms are pain in forehead and temples. Collapse. Swooning fits.

Feeling of intoxication. Loss of power over limbs and sphincters, unable to speak. Marked dyspnea, inability to lie on left side. Insensible right side. Left sided symptoms. Very susceptible to cold. Sensation of wasting away. Burnings as of hot irons. Screwed up sensation.

MIND - Absent-mindedness. Very forgetful. Stupid and confused feeling. Irresolution, indecision. Wandering of the mind. **Brooding, over imaginary troubles and disease**. Blurred speech. Insensible and speechless. Aphasia. Aversion to talking. Affected easily by wine or alcoholic drinks.

Nervous, excited and tremulous. Want of self confidence. Anxiety from pain in heart region. Forebodings. Hypochondria. **Fear of death**, disease, being incurable, **rain**, accidents, misfortune. Dreads to be left alone. **Feels anguish for others**. Anguish from pain in abdomen.

Melancholy. Sorrow felt in the heart. Depressed, as if everything were done wrong and could not be rectified. Depressed with distress

about sexual organs, better in evening. Despair with the pains. Loathing of life. Suicidal disposition (Aur.). Ailments from grief.

Insanity. Antagonism with self. Confusion as to his identity. Sensation of duality. Delirium during fevers, with meningitis, typhus, typhoid fever. Sees images, phantoms. Delusion that he is a failure, that he has neglected his duty, that he is being injured. Consciousness almost lost. Comatose.

Abdomen - Aching in loins. Cutting, twisting, griping pains. Much flatulence with rumbling and colicky pains. Flatulence during day, at night with pain. Frequent cutting in umbilical region and small of back in afternoon, then profuse and sudden leucorrhea.

Back - Rheumatic pains in neck and back. Cutting, aching in nape. Tired feeling in thoracic vertebra all day with burning and exhaustion. Shooting from inner and upper angle of left scapula to front of chest. Pain between the shoulders as if in spine afterwards involving scapula in morning on waking, worse moving arms. Dragging sensation in spine between shoulders. Acute pain in small of back, gnawing pain.

Breasts - Milk decreased, next day returned freely, afterwards scanty. Occasional pain at top of both breasts.

Causations - Ailments from anticipation, grief, sorrow.

Chest - Constriction in chest, in evening. Oppressive weight on chest, as if a hot iron had been run in. Uneasiness and dull, heavy pain in chest. **Sharp pains, worse on deep inspiration**. Ribs feel broken. Heavy pain over lower half of right chest with stabbing on deep inspiration, cannot cough for the stabbing, worse lying left side, better lying on affected side. Tenderness over sternum and in throat.

Cough - Irritating, dry cough. Cough from sticky mucus and saliva. Cough with tightness and fullness in larynx. Cardiac cough. Dry, hacking cough with blood-spitting. Hoarseness, short, hoarse cough.

Ears - Burning heat of ear. Otalgia. Chronic otorrhea, black discharges, smells like herring brine. Noises in ears. Whizzing in

left ear with insipid, almost nauseous taste in mouth. Noise as of a mill, waking him in morning. Illusions of hearing.

Eyes - Fixed and staring, wide open and insensible to light. Pupils dilated. Loss of vision. Hot pains at back of eyeballs. Ptosis of both lids. Heaviness in eyelids. Lids swollen in morning.

Female - Pain in left groin, especially in post-operative cases, **seems to be drawn to heart**. Neuralgia of left ovary. Crampy pains in left ovary. **Aching in left ovary with pains in heart**, come on a week before menses, grow worse until menses appear, then easier until next month.

Food - Loss of appetite. Thirsty. Craving for stimulants, which aggravate.

Head - Pain in forehead and temples with heart symptoms. **Pain in left temple and in left orbital region**, extending to occiput with nausea and vomiting. Severe throbbing and aching in temples. Constriction across forehead. **Severe headache with intense depression**. Headache supervening on cessation of menses. Neuralgic headache extending backwards from orbital region. Shooting up occiput. Vertex sensitive to cold. Aching in vertex with cold feet. **Feeling as of a blow from behind on head and neck**. Sensation as if brain was loose. Entire head feels hollow. Confusion and dullness in head in morning. Sensitiveness of scalp. Hair falls off the vertex

Heart - Acute and chronic septic endocarditis . Damaged heart after infectious diseases. Hypertrophy, weakness. **Valvular heart disorders. Heart lesions** (Spong., Laur.). **Low bloodpressure** (Elaps., Vip.). Visible palpitations. Palpitations prevent speech because of choking. Chronic nervous palpitations, worse after

preaching. Threatened paralysis of heart, body cold. Sharp pain in region of heart. Angina pains extending to nape of neck, left shoulder and arm with anxiety and fear of death. Heart symptoms with pain in forehead and temples. Dragging and anxiety in præcordia. Feeling of weight on heart. **Irregular in force.** Pulse slow, irregular, weak, tremulous.

Kidneys - Uneasiness and pressure in bladder. Urine of deep straw color. Urine deposits red sediment, mixed with mucus, loaded with gravel and mucus.

Limbs - Sudden loss of strength in limbs. Rheumatic pains in limbs. Drawing, lacerating, worse motion. Cramps in shoulders, nape or thighs. Aching in ankles, lower part of thighs, wrists and shoulder joints, on waking. Violent racking in marrow of thighs. Numb left arm. Puffy or sweating hands and feet with cough. Acute pain under the left thumb nail running up the arm.

Lungs - Labored and difficult breathing. Gasping for breath. Puffing breathing. Breathing very slow, shallow and scarcely perceptible. Suffocative spells after sleeping. (Lach.). Dry or empty feeling in left lung. Asthmatic constriction of chest, cannot expand lungs, followed by mucus expectoration. Asthma preceded by coryza, worse lying, better sitting up. Cardiac asthma. Expectoration of whitish viscid mucus in morning on waking. Spitting of blood, which had no tendency to coagulate.

Male - Stinging, somewhat burning pain along right side of penis, immediately under skin, at night in bed and in morning after rising. Increased sexual desire. Desire on going to bed with frequent waking, vivid imaginations. Nocturnal emissions. Involuntary emissions, then prostration and distress. Peculiar distress, great desire, but no physical power, with depression.

Modalities - Great relief of pain and breathing by lying on right side. **Better from walking or riding in open air**, sneezing, smoking. Worse from stimulants, alcohol, cold air, drafts, riding in carriage, touch, pressure of clothes. **Worse lying on left side**, after sleep, after menses. Headache worse at 3 p.m.

Mouth - Great dryness of the mouth. Wide open, flow of saliva. Foaming at mouth. Taste insipid, bitter, sour, metallic. Tongue cold, coated thick yellow, white, dry, no thirst. Ulcers on frenum. Loss of speech.

Nose - Hay fever with dry larynx. Hay asthma. Flow of water from nose, then intense sneezing which betters the breathing.

Rectum - Urging always sudden, whether followed by diarrhea or not. Sudden urging, then small, bilious stool. Constipation, feeling of a large stool which when voided was small. Diarrhea with pain in abdomen, profuse, sudden, slimy, white or green, bilious. Heat in anal region with itching, smarting at anus.

Sensations - **Screwed-up sensations** and crampy pains. As if head screwed together. As if heart and ovary were drawn up together. Pains in temple and ovarian regions. Pain from heart to scapula. Sensation as if a hair in larynx. Pain as from needles in tonsil. The left side is predominantly affected.

Skin - Itching scars. Creeping, itching and tingling sensation in skin. Skin swollen, mottled and of dark purple, livid color. Gangrene. Small, white itching blisters on inflamed base, on neck, nose and body in afternoon. Large pimples on inflamed base. Pimple on upper lip, on left ala nasi, on tip of nose, sore in consequence, painful on brow. Boil-like swelling on back of middle phalanx of right little finger. Painful chilblains on feet.

Sleep - Yawning, great sleepiness. Dozing and moaning. Sleepiness in evening and weakness. Deep, profound, comatose with stertorous breathing. Restless, disturbed sleep. Long and vivid dreams, little recollection of the subjects, affairs of the day recalled with additions and new plans for the morrow. Dreams of murders, suicides, fires, etc.

Stomach - Uneasy, disagreeable feeling in stomach, as from indigestion, pressure as from stones after a meal. Acidity in stomach. Heartburn, belchings tasting like barley water or hot and foul. Nausea with faint feeling, vomiting.

Temperature - Body cold and collapsed. Limbs very cold, icy coldness of feet. **Very sensitive to cold.** General sweat, cold, clammy. Free perspiration. Flushes of heat in face at different times of day, worse left side. Head hot and full of blood and much

sweat in palms. Feels very uncomfortable, hot and feverish. Heat, but he refused water, heat with prostration with discomfort, dry lips and tender, hot mouth.

Throat - Roughness and scraping in throat. Soreness and pricking in left side of throat. Dryness and constriction of throat and fauces. Dark red color of the fauces. Redness of left side in morning with pain on swallowing. Irritation and tickling in larynx and trachea. Stricture of esophagus, swallowing difficult or impossible. Grasping at throat with sense of choking. As a lump in throat. Much mucus in throat. Shooting in left tonsil.

Vertigo - Vertigo, lasting a short time, followed by **astounding pain** in right side of head.

COMMENTS - Naja, was introduced into homeopathy by Russell and Stokes, who made the first provings along with some forty other provers including Gillow, Pope and Drysdale. Provings were made with low potencies.

Majumdar had no success with Naja, until he obtained fresh venom from snake charmers and made potencies. Previously the Naja, used by Indian homeopaths had been re-imported into India from England in the form of potencies.

Deane, in his experience in the plague epidemic of 1899-1900, found Naja, prepared from the fresh venom more efficacious than Lach.

Naja, has an affinity for the medulla oblongata and cerebellum. Heart failure and distress. Weak valves with regurgitations, stenosis, prolapse. Acute and chronic endocarditis. Heart damage after infectious diseases.

Low blood pressure. Fluttering palpitation sensations outside the chest. Depression and weakness about the heart. Inability to speak with choking, nervous chronic palpitations. Pulse is slow, irregular.

Severe pains in left temple, cardiac and ovarian region. Diphtheria with impending paralysis of heart. Sensation of weight, of a hot iron, on the chest. Sensation as if heart and ovary were drawn together.

Pains about heart extending to nape of neck, left shoulder and arm with anxiety and fear of death.

Neuralgic pain in head, preceded or followed by nausea or vomiting. Severe throbbing in left orbital region drawing back to occiput, from over-eating, mental or physical exertion. Headache after cessation of menses.

Dull, heavy constriction in forehead on waking.

Characteristic grasping at the throat with choking sensations. Esophageal spasms. Worse at night, patient wakes gasping, surface blue. Worse by lying on left side. Useful for snake bites (Lach.).

According to Hering, nervous phenomena predominate in Naja, over other serpent poisons. It acts primarily upon the nervous system, especially on respiratory nerves, pneumogastric and glossopharyngeal.

Majumdar related the case of a young woman suffering from a heart affection who had oppression of the chest amounting almost to suffocation, feeble, irregular, almost imperceptible pulse, anemic appearance, inability to speak.

One dose of Naja, was given, followed four hours later by a second. These sufficed for the cure. The next day, when the doctor called, his patient addressed him in a loud voice, "Doctor, you gave me a poison last night." When asked to explain, she said that after the first dose she "felt awful heat in her system."

Majumdar saved a number of apparently hopeless cases of cholera with Naja, in the collapse stage with lack of pulse and difficulty of breathing.

In a case cured by Russell there was dragging and anxiety in the præcordia occurring in great grief.

Andrew M. Neatby related a cure with Naja. 6c that had nervous palpitations and faintness, frequent sensation of swelling, of "choking" in the throat, with dyspnea and occasionally of anesthesia down the right side.

Mahlon Preston cured himself with Naja. 30c of asthma with difficult breathing, worse lying down, better sitting up. He cured many

cases of hay fever and autumnal catarrh that had a flow of water from the nose for a few minutes, then intense sneezing, which relieved the breathing. After recurring for a few days, there is dryness in the lungs with great difficulty of breathing, worse on lying down.

Bunn cured the case of Miss S., 22, who had dysmenorrhea since her menses were established. Dilatation, galvanism., etc., had been tried in vain. She had shooting pain in the region of the left ovary and faintness. Hypogastrium revealed nothing abnormal except sensitiveness of the ovarian region.

Extreme restlessness with the pain. During the menses the pains suddenly became very severe. The flow stopped when the pain was at its worst and returned the next day with relief from pain. Naja. 30c was given and the next period passed absolutely free from discomfort.

RELATIONS - Antidoted by: Ammonia, stimulants (effects of bite), tobacco (to potencies). **Compare:** (1) Snake venoms. (2) Bung-f.- this venom produces a condition like an acute polioencephalitis and myelitis. (3) Lach., Crot-h., Spig., Spong. (4) Depression and suicidal tendency, Aur. (5) Ulcer of frenum lingue, Nat-c. Agar. (6) Headache from before backwards, Anae., Bry., Nux-v. (7) from behind forwards, Gels., Lac-c., Sang., Sil., Spig. (8) Diphtheria. Arum-t. (9) Heart, Ars., Cact., Iber., Lach., Spig., Dig. (10) Collapse, Carb-v., Camph.. Tab. (11) Mouth wide open tongue cold, Camph. (12) Loss of speech, Dulc., Gels., Caust., Hy., Laur. (13) Dark red, color of fauces. Ail., Bapt., Phyt.

***NAPHTHALINUM

(Tar Camphor)

PHARMACY - naphthin. Naphthalinum. Tar camphor. Naphthalene. Achemical compound from coal tar. Trituration. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Amblyopia. Asthma. Bronchitis. Cataract. Diarrhea. Eczema. Flatulence. Gleet. Gonorrhea. Hay asthma. Psoriasis. Retina, detached. Tuberculosis.

Typhoid fever. Whooping cough. Worms.

HOMEOPATHIC - Naphthalene is a hydrocarbon obtained by distillation from coal tar. It consists of colorless, transparent, lustrous scales or, when crystallized, of rhombic tables or prisms.

Naphtin. is an unproved remedy, though it has been used in old-school practice as an intestinal antiseptic and vermifuge, as an expectorant, as a remedy for eczema and psoriasis, and as an antiseptic application to wounds.

Naphtin. is for the expulsion of thread worms after the bowels have been freely opened by a cathartic, given in doses of grains 1/4 to grains 1/2 four times a day for two days. The dose should not be given after a meal and all fats and oils should be abstained from during the treatment, which may be repeated once or twice after leaving a week's interval.

Affinity for the eyes. Detachment of the retina, deposits an exudation in the retina. Opacity of cornea, cataract, amblyopia. Long and continued attacks of coughing, unable to get a breath, sometimes so violent as to cause perspiration. Whooping cough.

Abdomen - Incarcerated flatus in the transverse colon causing cardiac distress.

Eyes - Eyes inflamed, painful, bloodshot, in hay fever. Cataract. Amblyopia. Detached retina. Shiny bodies in vitreous. White patches on retina of oxalate, sulphate and carbonate of calcium.

Face - Lips and face cyanotic. Face pale, yellow. Twitching of facial muscles.

Food - Loss of appetite.

Head - Headache with fever, drowsiness and loss of appetite.

Head - Saliva flows from the mouth.

Kidneys - Sudden, violent desire to urinate, urethra meatus red and swollen, prepuce edematous. Urine is dark brown, becoming black after standing, albuminous. Incontinence of urine. Gonorrhea. Gleet.

Lungs - Breathing is labored and irregular, asthmatic. Cough in violent, incessant paroxysms almost arresting breath, compelling the patient to hold his head for the pain. Cough with blue or purple face. Expectoration free, thick, tenacious, almost

absent. Night cough preventing sleep. **Male** - Edema of prepuce.

Nose - Coryza, thin, excoriating discharge, much sneezing. Hay fever. Attacks of sneezing. Irritation of nose. Rubs his nose to remove the irritation.

Rectum - Incontinence of urine and feces.

Thin, offensive diarrhea of tuberculosis. **Skin** - Eczema. Psoriasis.

Sleep - Very great drowsiness lasting some days.

Temperature - Sudden onset of a fever, with headache and loss of appetite. Temperature reduced in typhoid.

COMMENTS - Some cases of Naphtin. poisoning have been reported. Evers recorded chronic illness, loss of appetite, headache and eczema over both legs as due to Naphtin. which was used as a moth powder and sprinkled on bedding.

In another case, a boy, 12, came home one evening apparently drunk, semi-conscious, staggering, unable to answer questions. He had eaten two candies which were really mothdestroyers, each tablet containing two grams of pure naphthalin. An emetic was promptly administered and the next day the boy was still drowsy but quite conscious. The drowsiness lasted four days.

Attacks of sneezing from nasal irritation, frequently attempting to remove the irritation by rubbing his nose. In two hours incoordination had increased. Twitching of facial muscles. Saliva flowed freely from the mouth.

Lippincott was the first to use Naphtin. in cases of hay fever, having heard that hay fever sufferers who went into factories where Naphtha was much used were always cured. His experience of its value was speedily confirmed by other observers. Naphtin. 1x and 2x were used in the first trials.

W. Louis Hartmann of Syracuse is the chief homeopathic authority for this remedy. His leading indications for it are acute coryza with fluent excoriating discharge and much sneezing. Paroxysms of coughing, following each other in rapid succession so that the patient is unable to take his breath (as in asthma and whooping cough). He found it more often indicated than any other drug in whooping cough.

The spasmodic action and the cyanosis of the drug are good indications here, though it is not necessary to wait until the child is blue before prescribing Naphtin. Followed well by Dros.

In a case of tuberculosis of the left lung, Naphtin. removed an inability to sleep for cough. Exhausting night-sweats and offensive, thin diarrhea during the day.

In three cases in which Naphtin. had been applied to wounds there was sudden onset of fever, headache, loss of appetite. In one of them, there was temporary mania with incontinence of urine and feces. In two of them, albuminuria. All symptoms rapidly disappeared when Naphtin. was discontinued.

J. Meredith cured with the Naphtin. 6x incarcerated flatus in transverse colon causing cardiac distress.

Hartmann used the 1x trituration, having been disappointed with higher potencies.

RELATIONS - Compare: (1) Salol., Carb- ac., Anil., Methyl-b. and coal-tar products generally. (2) In coughs,

Dros. which follows Naphtin. well. (3) Coc-c., Arn., Bell., Cor-r. Ip. (4) In tuberculosis, Petr., Basil. In eye affections, Choi. (5) In gonorrhea, Thuj., Petros., Salol. (6) In hay fever, Psor., Sabad., Ars., All- c., Kali-i. (7) In worms. Cina, Teucr.

***NARCISSUS POETICUS

(Daffodil)

PHARMACY - narc-po. Narcissus poeticus. Daffodil. N. O. Amaryllidaceae. Tincture of unexpended blossom-buds, stem, leaf and flower. The young buds, stems and leaves are macerated in two times their weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Bronchitis. Coryza. Cough. Diarrhea. Whooping cough.

HERBAL - The name of the plant, Narcissus, is not from that of the fabled youth who fell in love with his own image reflected in the water, but is from the Greek Narkao, "**tobenumb**," on account of the narcotic properties of the drug. The classic Asphodel and the Narcissus are the

Narcissus poeticus same, from which it may be seen that the plant dates back as far as man's records go.

Dr. Charge's work, *Maladies de la Respiration*, quoted the great Laennec as an authority in regards Narcissus. Fernie, in his excellent *Herbal simples*, also said "An extract of the bulbs applied to open wounds has produced staggering numbness of the whole nervous system and paralysis of the heart. Socrates called this plant the 'Chaplet of the Infernal Gods,' because of its narcotic effects."

He also noted that a decoction of the dried flowers is emetic and when sweetened will, as an emetic, serve most usefully for relieving the congestive bronchial catarrh of children.

On the other hand, the alkaloid from the bulbs after flowering produces copious salivation, increases cutaneous secretion, contracts the pupil of the eye, produces slight relaxation of the pulse and slight faintness and nausea. Daffodil bulbs contain an alkaloid the action of which, according to authorities, varies as to whether the alkaloid is extracted from the flowering bulb or from the bulb after flowering.

The National Dispensatory noted that "The emetic action of Narcissus has been used to break up intermittent fever and relieve bronchial catarrh with congestion or obstruction of the air tubes. Like Ipecacuanha, it has also been prescribed in dysentery, especially of the epidemic form. Its influence upon the nervous system is attested by the vogue it has enjoyed in hysteria, chorea, whooping cough and even epilepsy."

HOMEOPATHIC - The concluding paragraph in Fernie's section on the Narcissus states: "The medicinal influence of the daffodil on the nervous system has led to giving its flowers and its bulb for hysterical states and even epilepsy with benefit."

Narc-po. is peculiarly homeopathic to long-continued coughs, especially of nervous origin. Bronchitis. Convulsive stage of whooping cough. Coryza, frontal headache. Faintness and drowsiness. Symptoms of nausea followed by violent vomiting and diarrhea.

Eyes - Running at eyes. Pupils contracted at first, dilated later.

Head - Frontal headache.

Heart - Pulse increased.

Mouth - Increased flow of saliva. Free salivation of very ropy saliva.

Nose - Severe coryza.

Rectum - Diarrhea with severe aching below left free ribs. Stools are watery, relaxed, loose, some solid.

Skin - Erythema of a papular, vesicular and pustular types, aggravation in wet weather.

Stomach - Sinking, sick sensation. Rumbling. Heartburn. Hiccough. Vomiting.

Temperature - Hand which was quite wet with perspiration became dry in twelve minutes.

Throat - Dryness in throat.

COMMENTS - A patient of Clarke's once had a very severe cough set up by daffodils used in some profusion as a decoration of a dinner table.

A fatal case of poisoning from eating the flowers is on record. A salad of onions in which were mixed some bulbs of *Narcissus poeticus*, caused burning, copious stools with dreadful griping, obtuse senses, fainting, cold hands, and cold sweat. Symptoms were not distinguishable from the usual effects of Colch. and similar to those of Narc-ps.

J. Meredith made a conserve of flowers, buds and stems by mashing them with six to ten times their weight of sugar in a Wedgwood mortar with a wooden pestle. Counting this as 1x, he made sugar potencies to 4x, and with these he cured a case of bronchitis with continuous cough which had resisted many of the standard remedies.

In Ringer's experiments, the bulb preparation produced the greater number of effects including salivation, sinking, vomiting and diarrhea. The flower preparation acted on the head and eyes and dried up a profuse

perspiration of the hands.

RELATIONS - Compare: (1) All-c., Colch., Lil-t. Narc-ps.

REFERENCES - Anshutz. Boericke. Clarke.

***NARCOTINUM

(Opium Alkaloid)

PHARMACY - narcot. Narcotinum. Opium alkaloid. Noscapinum pura. Papaveraceae. Trituration. **Historical dose:** All potencies.

CLINICAL - Bladder, paralysis. Vertigo.

HOMEOPATHIC - Narcot. has been rather extensively proved, but very few distinctive symptoms were elicited. The most notable were dry, clammy mouth, thick indistinct speech and paralysis of bladder. The vertigo symptoms were like those of Morph., and the general symptoms those of Op. and its other alkaloids.

REFERENCES-Clarke.

***NASTURTIIUM AQUATICUM (Water-cress)

PHARMACY - nast. Nasturtium aquaticum. Water-cress. Nasturtium officinale. Roripa nasturtium. Roripa aquaticum. N. O. Crucif- erae. Tincture of the whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Cirrhosis. Hysteria. Neurasthenia. **Tobacco, poisoning.**

HERBAL - Nasturtium is useful in scorbutic disorders and constipation, related to strictures of urinary apparatus. Supposed to be an aphrodisiac.

HOMEOPATHIC - Nast, is antidotal to **tobacco poisoning**. Sedative in neurotic affections, neurasthenia, hysteria. Cirrhosis of liver and dropsy.

REFERENCES - Clarke.

***NATRUM ARSENICUM

(Sodium Arsenate)

PHARMACY - nat-ar. Natrum arsenicum. Sodium arsenate. Atoxyl. Hydric di-sodic arsenate. Solution. Trituration. **Historical dose:** All potencies.

CLINICAL - Anemia. **Asthma.** Blepharitis. Conjunctivitis. Coryza. Cough. Diphtheria. Edema. Emaciation. Esophagus, constriction. Eyes, inflammation. Granular, eyelids. Hemoptysis. Interscapular pain. **Leukemia. Miner's asthma.** Nose, disorders. Pityriasis rubra. Post-nasal catarrh. Testicles, neuralgia. Tuberculosis.

HOMEOPATHIC - Nat-ar. has been very extensively proved, notably by Imbert Goubeyre. The principal clinical use of Nat-ar. has been in diphtheria, when it presents with a dark purple throat, great swelling, much prostration, and not much pain.

Useful in disorders of the eyes and nose. Generally irritating effects. **Miner's asthma from coal dust.** Lungs feel as if smoke had been inhaled. Racking cough with profuse greenish expectoration. Oppression of chest and about the heart. Nasal catarrh with headache, pain at root of nose, dry and painful eyes. Bronchitis of children, chronic.

Feels tired all over. Psoriasis (Ars., Thy.). **Leukemia** (Ars.). Emaciation. Edema. As if the thyroid gland were compressed by a thumb and finger. Cartier noted that it facilitates the termination of a cold and conserves strength and appetite.

MIND - Mental dullness, listless. Concentration difficult while studying, reading. Forgetfulness. Imbecility. Timidity. Depressed, as if something bad impending. Lamenting, bemoaning, wailing. Hysteria. Ailments from anger, vexation. Quarrelsomeness, scolding. Reproaches himself and others.

Conscientious about trifles. Fastidious. **Nervous restlessness at night.** Anxiety with palpitations. **Anxiety about the future. Frightened easily.** Fear of impending disease, that something bad will happen, of evil. Fear of people, in a crowd, anthropophobia. Aversion to company. **Suspicious.**

Abdomen - Pain from abdomen at times, shifting through bowels, better by passage of flatus or stool. Gas forms rapidly, better when bowels move, colic from flatus and before stool. Pain in groin.

Back - Pain and soreness in back. Neck stiff and sore. Soreness at lower cervical vertebra down to joints of scapula and under both scapula. Severe pain between scapula, better moving forward, worse from inspiration. Pain in lumbar region.

Chest - Oppression of chest and about heart, worse exertion and full inspiration. Roughness and irritation in bronchi mornings, with slight cough. Eruption on chest, dark brown scaly spots on a red base, no itching.

Coughs - Teasing, dry cough, during day. **Dry cough, with feeling of tightness and oppression in chest.** Dry, hacking cough, from an uneasy feeling and soreness beneath ribs, worse any exertion. Racking cough with profuse, greenish expectoration. Hemoptysis.

Ears - Ears feels heavy and drooped.

Eyes - Catarrhal conjunctivitis and blepharitis marginalis. Dry, painful, burning, stinging. Eyes feel weak, soon tire. Stiffness of eyeballs, feel too large. Smarting and lachrymation on going into open air. Agglutination in morning. Tendency of lids to close, cannot open them as wide as usual. Edema of orbital region. Supraorbital pain.

Face - Feels puffed, bloated. Swollen face. Hot and flushed. Malar bone feels large, as if swollen. Masseter muscles stiff, painful to move jaw. Eruptions around mouth. Corners of mouth fissured.

Female - Menses protracted, scanty. Leucorrhea, thick, offensive, yellow.

Head - Heat and fullness in head. Floating sensation on turning head quickly. Aching pain in frontal region, root of nose, and over orbits. Boring pain in temples. Headache, worse pressure. **Headache from tobacco smoke.** Periodical headaches, worse noise.

Heart - Oppression about heart on least exertion. Can feel heartbeat through chest distinctly. Sounds heard through nearly ev-

***ery part of chest. Pulse irregular, variable in volume. Pulse slower than usual.

Kidneys - Dull, aching pain in kidneys, with profuse urine. Sore feeling in region of bladder, worse urinating. Urine copious, frequent, clear. Urine contains some epithelial scales, casts and fat globules.

Limbs - Neuralgic pain, recurring frequently. Pain in anterior crural nerves. Pains erratic, worse in joints and on left side. Feels tired all over. Joints stiff. Knee joints crack. Aching in arms, worse in shoulder.

Lungs - **Oppression of chest and about heart** and also larynx. Pneumonia and tuberculosis. Lungs feel as if smoke had been inhaled. Asthma, worse dust and smoke. **Miner's asthma** produced by inhalation of coal dust.

Male - Dull, cutting pain along inguinal ligament, followed by sickening sensation in left testicle as from a blow, testicle very sensitive while pain lasts.

Modalities - **Worse on moving, jarring**, least exertion, pressure, during the day.

Nose - **Feels stopped up, pain at root. Nasal catarrh, with pain at root of nose.** Coryza, worse open air, fluent alternating with dry. Watery discharge, drops into throat. Post-nasal dropping of thick, bland, yellowish mucus.

Crusts in nose. Dry crusts, on removal, leave mucus membrane raw. Smell defective or lost.

Perspiration - Surface cool, covered with cold, clammy sweat.

Rectum - Diarrhea, alternating with constipation. Stool thin, dark, soft, followed by burning at anus. Yellowish, watery, copious, painless, hurries out of bed in morning. Diarrhea worse at night. Diarrhea from milk.

Sensations - Some of the peculiar symptoms are wavering, floating sensation on turning head. Eyeballs feel stiff, feel too large for lids to close over. Scratching beneath lids on rolling eyeballs. Pain at root of nose. Feeling of lump in throat of blow on testicle, as if smoke inhaled into lungs. Feeling as if the body were compressed by thumb and finger.

Skin - Squamous eruption, scales thin, white, and when removed leave skin slightly reddened. Scales cause itching, worse getting warm from exercise.

Sleep - Drowsy, heavy sleep. Restless sleep, when aroused awakes nervously as from a fright.

Stomach - Stomach tender. Sensation of fullness. Sinking sensation, with dull feeling in supraorbital and frontal region. Hematemesis. Belching and sour eructations.

Throat - **Dark, purplish, swollen, edematous.** red and glassy. Roughness causes hemming, with spasmodic cough. Hawking of tough, gelatinous, greyish yellow mucus from throat and posterior nares. Dark slate-colored, scanty mucus in larynx, detached with difficulty. Elongation of uvula. Sensation as if thyroid were compressed by a thumb and finger.

Tongue - Tongue coated yellow, deep red, corrugated, anterior part fissured. Tongue large, moist, fissured, flabby.

Vertigo - Floating sensation on turning head quickly.

Vision - Vision weakened, objects blur when he looks at them for a short time, eyes sensitive to light.

COMMENTS - Leukemia (Ars., Nat-m.), especially in children. Pain between scapula, better bending forward. Headache, worse from heat. Restlessness, thirst, chilliness with a hot head (Ars.). Nasal obstruction and chilliness, worse at night.

Sensitive to cold air. Itching is worse when heated, by exercise. Warm things cause burning in stomach, cold drinks aggravate nausea. Wind causes conjunctivitis. Right side of head, left testicle and left leg are most affected.

RELATIONS - **Compare:** (1) Ars., Kali-c. - edema about eyes and face. (2) Apis - diphtheria with sac-like swelling of uvula, but Apis has much pain, Nat-a. has not. (3) Arum-t. - diphtheria, Arum-t. has less swelling and more pain. (4) Kali-bi. - tenacious mucus. (5) Nat-m. - throat. (6) Lyc. - stopped catarrh.

REFERENCES - Boericke. Clarke. Murphy.

***NATRUM CACODYLICUM

(Sodium Cacodylate)

PHARMACY - nat-cac. Natrum cacodylicum. Sodium cacodylate. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Dermatitis. Neuritis. Paralysis. Tuberculosis. Wrist-drop.

HOMEOPATHIC - This acid (and more particularly its sodium salt) has been used on the recommendation of Armand Gautier, Professor of Chemistry at the Faculty of Medicine of Paris, as a "cure" for tuberculosis. The non-poisonous nature of this salt enables the patients to take it in large doses, but it is not always harmless. Cacodyl, which signifies evil-smelling, is like Cyanogen, a compound radical. It was first obtained by Bunsen in 1873 as di-cacodyl. It is a clear liquid that refracts light strongly, heavier than water, of insupportably offensive smell, its vapor being highly poisonous.

Cacodylic acid is a crystalline arsenic compound, soluble in water, odorless and, though containing 54.4 percent of metallic arsenic, not an active poison.

Useful for malignant diseases and growths. Tuberculosis. Foul breath and mouth with bad odor. Dry dermatitis of the skin of abdomen.

COMMENTS - Murrell gave Nat-cac. in pills of one grain, three times a day, to a young woman, 21. Poisoning symptoms set in suddenly after the eleventh dose, including constant vomiting, tongue like a piece of raw beef, inflamed conjunctive, eyelids edematous. Breath of gangrenous odor, peripheral neuritis, wrist-drop, paralysis of left leg. The odor was noticed on second day, the other symptoms came suddenly.

REFERENCES - Clarke.

***NATRUM CARBONICUM

(Sodium Carbonate)

PHARMACY - nat-c. Natrum carbonicum. Sodium carbonate. The common "Soda" of the shops, purified, not the Bicarbonate of Soda. Trituration. Solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Acidity. Albuminuria. Anemia. Anidrosis. **Ankles, weak.** Backache. **Belching.** Bums. Candida. Chills. Colic. Constipation. Cornea, ulcers. Coms. Coryza. Coughs. Deafness. **Debility.** **Diarrhea.** Dysmenorrhea. **Dyspepsia.** Eczema. Elephantiasis. Emaciation. Fever. **Flatulence.** **Food, allergies.** Glands, disorders. Goiter. Hands, chapped. **Headaches.** Heartburn. Heat, flushes. **Heatstroke.** Heels, blisters. Herpes. Hiccough. Hoarseness. Hypochondriasis. Hysteria. Ichthyosis. **Indigestion.** Infertility. Keratitis. **Leucorrhea.** Lipping. **Malassimilation.** Malnutrition. **Milk, allergies.** Moles. Nausea. Nose, eruptions. Nose, swollen. Nose-bleed. Ozaena. Palpitations. Photophobia. Post-nasal, catarrh. Presbyopia. Priapism. Rheumatism. Ringworm. School, headaches. Scrofula. Stammering. Sterility. **Sunstroke.** Throat, mucus. Toothache. Ulcers. Vertigo. Vomiting. Warts. Waterbrash.

HOMEOPATHIC - Nat-c. was proved by Hahnemann and is one of the anti-psoric remedies. All the natmms stimulate cellular activity and increase oxidation and metabolism. It had been used in old-school practice as an external application in solution to bums and eczema, and as a douche in nasal or vaginal catarrh.

The common practice of taking sodium bicarbonate for indigestion and heartburn is founded on a true relationship (though Nat-c. is the carbonate and not the bicarbonate), but the indiscriminate and excessive use of it only intensifies the trouble.

Nat-c. forms the alkaline basis in most soaps, excess alkali almost burns off the superficial layers of the epidermis and leaves the skin dry and cracked. The provings confirm this irritating action. Nat-c. is particularly useful for chapped hands and faces, rough, dry skin, eczema, herpes, warts and scrofulous conditions of the skin.

Swelling and induration of glands. Exhaustion. Emaciation, anemia. Milky, watery skin. **Very weak ankles.** Puffiness. Relaxation, easy dislocation. Twitching in the muscles and limbs. Contraction of muscles, tendons. Pains cause tremors, cold sweat, anxiety etc.

Irritation of the mucus membranes. Irritation, vesicles, ulcers and catarrh in the digestive tract from the mouth to anus. Keratitis and ulceration of the cornea. The nose is swollen and ulcerated with a thick yellow or green offensive discharge. Thick, yellow, putrid leucorrhea (Sep.).

Oversensitive to open air, music, noise and dietetic errors. Worse from any physical or mental exertion, strain, from the least effort, from sun and gaslight. **Debility from heat of summer,** every spell of warm weather causes headache. **Chronic effects of sunstroke.** **Headache from sun** or working under lights.

Children when asleep, jump, cry, grasp the mother. Startled, nervous children. **Children cannot tolerate milk** but thrive better on cereals.

MIND - Mental weakness. Weak memory. Difficulty thinking or concentrating. Slow comprehension. Mental work is impossible. Transposes words. Spacey. Stupefaction in morning on waking. Impatience while reading. Restlessness better mental labor. Conscientious about trifles. **Sympathetic. Mild and kind.** Pathologically cheerful. Tendency to sacrifice for others. Refined sensibility. Dislikes intruding on people, bothering people (Staph., Sil.). Selective friendships, air of detachment.

Elusive nature. Strong sense of integrity. Humane, empathetic. Very self-conscious. Closed, controlled emotions. Avoidance of stress. Meditative. Difficulty dealing with suffering and pain in the world.

Profound sadness, depression and melancholy. Constantly occupied with sad thoughts, though there is also the opposite, great gaiety and talkative. Philosophical about grief, resigned. Internal sorrow, melancholy. **Suffers grief with dignity.** Unassimilated emotions. **Sadness from errors of diet.** Thoughts of suicide, overwhelmed with suffering.

Cross, irritable. **Irritability during fever.** Aversion to society, even that of their own family or spouse. **Sensitive to the presence of certain persons.** Indifferent. Anxious and fearful. Anxiety, trembling and sweat during pains. Delusions of being deserted, forsaken.

Very sensitive to noise, cold, change of weather. Worse thunderstorms, electric changes in the atmosphere. **Very nervous during thunderstorm, hides in cellar.** Anxious and restless during thunderstorms. Desires to be magnetized.

Starting from noise. Sensitive to music (Ambr.). Music causes tendency to suicide, sadness, religious insanity. **Playing on piano** causes anxiety and trembling. Sensitive to sensual impressions.

Abdomen - Gripping colic just after a meal. Abdominal colic somewhat better eating. **Indigestion, gas and bloating.** Accumulation, incarceration, and painful movements of flatus in abdomen. Flatus changes places, abdomen bloated here and there. **Hard, bloated, swollen abdomen.** Epigastrium painful to touch and talking. Colic with retraction of naval and hardness of skin. Colic somewhat better eating and warmth. Pressure in lower abdomen, as if everything in abdomen would fall out. **Violent sharp pain** in right hypochondriac region, followed by gripping in lower abdomen. Swelling of glands of groin and axilla. Itch-like eruption on lower part of abdomen.

Back - Backache, violent pain in lumbar region after walking. Burning pain and distress along spine. Tingling in back. Cervical glands swollen. Cracking in cervical vertebrae, when moving the neck. Boring pain at tip of left scapula. Coldness between scapulae. Stiffness and drawing between scapulae. Pustules on lumbar region.

Causations - Sun, gaslight, heat, changes in temperature. Ill effects of sunstroke (chronic). Suppression of sweat. Cold

drink when over-heated. Extreme sensitivity to electrical changes, like thunderstorms. Over-study, strains, grief. Errors in diet, milk.

Chest - Chilliness in one side of chest. Pressing, sharp pains in chest. Burning soreness in right mid chest.

Constitutions - Suited to light-haired people and persons of leuco-phlegmatic constitution with aversion to open air and mental or physical exercise.

Ears - Dryness and heat. Sharp stitching pain in ears. As if something moved in ear on swallowing. As if a bubble bursting in ears. Oversensitive hearing. **Sensitive to noise, music.** Stopped sensation. Deafness with recurring earache, with amenorrhea. Loss of hearing of right ear, sounds seem to come from left side when they really come from right. Hardness of hearing and roaring in left ear, worse before menses.

Eyes - Burning pain in eyes, worse reading and writing, with dryness. Shooting pain from within outward. Needle-like stitches in both eyes, after dinner. Ulcers on cornea, with shooting pains. Dim eyes, has to wipe them constantly. **Photophobia.** Lachrymation during forenoon. Agglutination of eyes in morning. Eyes close involuntary. Heaviness of upper lids. Lids swollen. Inflammation of eyelids with photophobia.

Face - Pale, withered, bloated face. Pale face, with dark streaks under eyes. Blue rings around eyes, swollen lids. **Freckles, yellow spots, pimples.** Yellow blotches on forehead and upper lip. Burning crack in lower lip. Lips swollen, particularly upper lip. Swelling of both cheeks, with glowing redness. Swelling of submaxillary glands. Pains in bones of face, with chronic nasopharyngeal catarrh.

Female - Soreness. Deficient menses in adult females. Menses too early, late, scanty, like meat-washings (Nit-ac.). Menses with pain in lumbar region and abdomen. Dysmenorrhea. Leucorrheal discharge, offensive, irritating. **Leucor-rhea thick, yellow, ropy.** Leucorrhea better after urination. Profuse leucorrhea, after frequent attacks of colic. Induration of

cervix. **Bearing down sensation** (Sep., Murx). Motion, as if fetus in uterus. Sterility. Infertility from non-retention of semen. Promotes conception. Labor pains weak, or with anguish, sweat and desire to be rubbed. Prevents false conception. Expels moles.

Food - Hungry at 5 a.m. Greedy, always nibbling. **Very weak digestion.** Food tastes bitter. **Food allergies. Oversensitive to errors in diet.** Craving for sweets. Must drink in order to swallow solids. Aversion to milk.

Worse from milk, causes flatulence, diarrhea. **Children who can't tolerate milk** but thrive better on cereals. Drowsiness after meals. Heartburn after fats. Diarrhea from starch. Indigestion is worse from vegetables and starchy foods. Ill effects of drinking cold water when overheated.

Head - Head pains out through eyes, head bent backwards. Stupefying pain in forehead, with nausea, eructations and dimness of sight. Headache alternating with digestive troubles. Headaches from slightest mental exertion. **Headaches from exposure to sunlight** (Glon.), gaslight. Dullness of head when at rest or when in sun. **Headaches in hot weather**. Head feels too large. Pulsating, in vertex every morning. Almost painless boil on occiput. Falling out of hair.

Heart - Painful cracking in region of heart. Palpitations from noise, on going upstairs, when attention is directed to something, when lying on left side. Palpitations, a general accompaniment of indigestion. Pulse excited at night, with ebullitions.

Kidneys - Pressure in region of bladder. Burning in urethra during and after urination. Frequent need to urinate, with copious or scanty discharge. Bright or dark yellow urine. Urine smells like horse's urine, from vegetable or milk diet. Involuntary urination at night.

Limbs - Great weakness of limbs, especially in morning. Locomotor ataxia, fulgurating pains better eating. Heaviness of legs and feet with tension in them. Unsteady walk, small obstruction on pavement causes him to fall, or falls without apparent cause.

Hollow of the knee is painful on motion. Popliteal, painful on motion. Legs are icy cold up to knees. **Weak ankles**. Cramps from ankles to toes. **Easy dislocation and spraining of ankles**. **Foot bends under** (Caust.). **Old sprains**. Heel and Achilles tendon affected. Tender soles, needlelike pain, burning while walking. Soles of feet raw and sore. Burning wrists and ankles. Jerking of hand on going to sleep. Contractions of fingers. Folds of fingers and toes sore. Chapped hands. Vesicles on tips of all fingers and toes.

Lungs - Dyspnea and shortness of breathing, from tension of chest. Short cough with rattling in chest. Cough with rawness in chest, worse morning. Cough, dry, tickling, worse at 9 to 11 a.m. Cough with coldness of left side of breast. Violent and dry cough on passing from cold to hot temperature. Cough with rumbling, incarcerated flatus. Loose, hollow cough, with salty, purulent, greenish sputum. Bloody expectoration.

Male - Straining and tenesmus, with voluptuous sensation in genitals. Glans penis becomes sore easily. Inflammation, swelling and easy excoriation of prepuce and glans penis. Prostatic affections, discharge of prostatic fluid at stool and when urinating. Bruised pain in testicles. Heaviness and drawing in testicles. Soreness between scrotum and thighs. Increased sexual desire with priapism and painful pollutions. Incomplete sex, erection weak, emissions speedy. Nightly emissions. Sweats after sex.

Modalities - Better from eating, sweating. Better wiping with hand. Better boring into nose or ears with fingers. Better rubbing, motion, pressure. Aversion to cold air. **Worse from heat of sun**. Worse drafts, damp weather. Worse getting wet, change of weather. Worse extremes of temperature. Worse before a storm or during a storm. Worse drinking cold water, cold drinks when over heated. Worse from vegetable diet, starchy food. **Worse milk, dietetic errors. Worse from music, noise**. Worse mental or bodily exertion. Worse at 5 a.m. Worse alternate days. Worse the full moon. Worse sun exposure.

Mouth - Constant dryness of mouth and lips, which she was constantly obliged to lick. Saliva increased. Bitter taste in the mouth, food tastes bitter. Taste perverted, too sensitive. Taste sour, metallic. Redness and soreness of mouth, with flat, painful blisters. Vesicles and smooth ulcers in mouth with burning, mouth open. Sensitiveness of lower teeth. Toothache, in lower jaw. worse eating fruits, sweets, better smoking. Nightly pressing toothache with swelling of lower lip and of gums.

Nose - Swollen or peeling. Pimples and puffiness. Red nose with white pimples on it. Many troubles of external nose (Caust.). Humid herpetic eruptions and ulcers on nose, around mouth and on lips. Ulceration high up in nostrils. Nosebleed. Stoppage at night. **Catarrh, post-nasal catarrh**. Catarrh, foul, thick, yellow or green discharge. **Hawking mucus from throat**, worse slight draft. Constant coryza, obstruction of nose. Coryza, worse least draft, alternate days. Coryza, with burning in eyes. **Bad odor of nasal secretions**. Musty smelling discharge. Violent sneezing. Squeaking sensation at root of nose.

Perspiration - Profuse sweat from the least physical exertion. Perspiration while eating, in morning. Patient breaks into a cold sweat. Burning sweat on forehead where hat presses. Anxious sweat during pain, with dreams. Perspiration all over, during fever. Night sweat alternating with dryness of skin. Perspiration in morning.

Rectum - Sudden call to stool without result. Emission of much sour-smelling or fetid flatus. Stools escape with haste and noise. Constipation, insufficient stool, with tenesmus. Constipation alternating with soft and liquid stools. Gushing diarrhea, preceded by cutting pain in upper abdomen. Discharge of tinea during evacuation. Diarrhea with cutting **pain**. **Diarrhea from starches, milk**, taking cold. Burning and cutting pain

in anus and rectum during stool. Burning pain in rectum after stool. Lancinations in perineum. Itching and tingling in anus.

Sensations - As if head too large, as if forehead would burst, as if head would be drawn back. As if ears were closed up, as of a bubble bursting in ear. As if tip of tongue were cracked. Dryness of mouth as if caused by heat of breath. As if veins of right leg were bruised. Blisters on points of toes as if scalded. Motion as from a fetus in uterus.

Skin - Dry, rough, milky, watery. Inclination to perspire easily or dry, rough, cracked skin. Full veins. Formication. Itching as from fleas over whole body. Pustular eruptions. Blisters on small joints, tips of toes or fingers. Red vesicles filled with fluid. Vesicles with shooting pains and itching. Vesicular eruption in patches and circles. Yellow rings like remains of herpes. Herpetic eruptions, sometimes suppurating. Ulcers, burning, pricking and pulsating. Ulcers, pus corroding, acrid, putrid and yellow. Ulcers, with swelling and inflamed redness. Warts, ulcerate, sensitive to touch. Elephantiasis.

Sleep - Drowsy during day after meals. Falls asleep late at night. Sleeps with mouth open. Jerking and shocks during sleep. Restless sleep with ebullitions, palpitations and nightmares. Pleasant, amorous dreams. Anxious, frightful dreams. Dreams of traveling, floods, quarrels, robbers, devils, thieves, death. Wakes too early in the morning. Sleepiness in morning.

Stomach - Stomach feels swollen and sensitive. Heaviness and pressure in stomach. **Weak digestion**, worse from slightest errors in diet. **Dyspepsia relieved by soda biscuits. Old dyspeptics, always belching, have sour stomach and rheumatism.** Gastric pains, better eating. **Indigestion.** Cramp in stomach, pressing, drawing, cutting pain. Depressed after eating. Bitter taste. Acidity. Waterbrash. Heartburn after fats. **Sour eructations.** Frequent hiccough. Nausea and retching, with pain and soreness in stomach. Violent retching in morning, without actual vomiting. Vomiting of bile, bitter. **Food allergies.** Ill effects of drinking cold water when overheated.

Stool - Stools, black, hard, smooth, crumbly. Watery stool. **Yellow substance like pulp of orange** in stool in menopausal women. Discharge of ball of mucus like peas. Stool spotted with blood, discharge of blood during stool.

Temperature - Sudden chilliness. Chill, without thirst. Shivering fits induced by over fatigue and anxiety. Chill with cold hands and hot cheeks, or the reverse. Cold hands and feet, with hot forehead. Coldness of lower limbs. Heat with great debility and sleep. Heat with perspiration over whole body. Febrile shuddering, with cold hands and hot cheeks. Heat flushes, with aversion to uncovering.

Throat - Hoarseness with coryza, chilliness and scraping, painful cough. Throat painful when yawning and swallowing. Must drink to swallow solids from roughness, dryness of esophagus and throat. Hawks much mucus from the throat. Taste of blood, pus in throat. Glandular swellings in throat. Resistant swelling of middle lobe of thyroid gland. Hard goiter, with pressing pain.

Tongue - Tongue coated, dry. Burning about tip of tongue, as if it was cracked. Pimples on tip of tongue, which burns as if full of cracks. Affections of under-surface of tongue. Tongue heavy, immovable, with difficult speech. Stammering on account of heaviness of tongue.

Vertigo - Vertigo from wine, mental exertion, exposure to sun, better from exercise in open air.

Vision - Dim vision, has to wipe eyes constantly. Can't read small print. Sensation as if feathers before eyes. Flashes and streaks of light before closed eyes at night. Dazzling flashes or stars before eyes, on waking. Black spots before eyes when writing.

COMMENTS - Sensitive digestion (Nat-s.). Chronic dyspepsia, stomachaches. Very weak digestion, burning, gas and bloating. Belching, ulcers, and indigestion. Heartburn with acid regurgitations and esophageal problems.

Malassimilation, food allergies. Difficulty swallowing foods. Emaciation, anemia, and bloating. May get bloated from starchy foods. Ill effects of drinking cold water. Worse from milk, especially in children (Aeth.), causing diarrhea. Worse from wine.

Stomach problems will often alternate with headaches. Depression and irritability is worse after a meal, the aggravation diminishing as digestion advances, "as the food passes through the duodenum."

Characteristic blue ring around the eyes of children with allergies. Ptosis of the eyelids. Photophobia. Chronic nasal congestion.

Women can have a "discharge of mucus after an embrace" causing infertility. Candida. Bearing down pain, dragging feeling in the stomach (Sep.). Worse after sex, exhaustion. Emotional detachment.

Symptoms of hysteria. Contractions of muscles and tendons, relaxation of tissues. Twitching in muscles and limbs. Paralysis of the left leg. Conditions resulting from malabsorption. Swelling and induration of glands. Bone problems, curved spine. Stooping forward. Ankle joints are weak and burn.

Stitches go from within out. Right upper and left lower are particularly effected. Great debility from any exertion,

unsteady walk, any little obstruction on pavement causes falling, or he falls without any apparent cause. Aversion to exercise. Symptoms are worse from mental or bodily exertion.

Generally chilly. Worse extremes of temperature. Sensitivity to changes in atmosphere. Worse before a storm or during a storm. Restless before a storm or with a storm. May get migraine headaches or stomach problems before a storm. Conditions resulting from exposure in the sun. Heat exhaustion. Headache from mental exertion, sun exposure.

Sensitivity to music, worse from loud music. Sensitive to particular things, not a general sensitivity (as is Phos.), certain foods, people, sounds, light conditions. Pet peeves. Aggravations cause headaches, stomachaches, heartburn, indigestion, depression. Aware of limitations and sensitivities.

RELATIONS - Antidoted by: Ars., Camph.. **It antidotes:** Chin. **Compare:** (1) Sodium bicarbonate - in vomiting of pregnancy with acetonuria. (2) Nat-s. is preferable for yeastlike vomiting, with pallid, dirty, livid tongue. (3) Nat-m. - hypochondriasis. That of Nat-c. keeps pace with indigestion, that of Nat-m. with degree of constipation, head and face better uncovering, leucorrhea. (4) Caust., Nat-cac. (5) Sep. - Indifferent to family, melancholy, apprehensive, worse by music, backache worse by sitting, bearing down, boring through from tip of left scapula. (6) Pic-ac. - priapism, towards morning, emission and no desire. (7) Nux-v. - hypochondriasis, morning retching, Nux-v., of pregnancy, or after debauch. (8) Phos., Rhod., Sil., Petr., worse from thunder storm. (9) Lyc. - better uncovering, ulcer on heel. Lyc. on instep, right upper, left lower. (10) Debility from heat of summer, Ant-c. (11) Headache from sun or gaslight, Glon., Lach. (12) Bearing down as if everything would come out. Sep., Agar., Lil-t., Murx. (13) Easily sprained ankles, Stront., Led. **Complementary:** Sep., Kali salts. **Compatible:** Calc., Nux-v., Puls., Sep., Sul.

***NATRUM FLUORATUM

(Sodium Fluoride)

PHARMACY - nat-f. Natrum fluoratum. Sodium fluoride. Triturations from the salts. **Historical dose:** All potencies.

CLINICAL - Constipation. Cramps. Diarrhea. Muscle, pains. Mydriasis. Proteinuria. Stomachache. Tetany. Writer's cramp.

HOMEOPATHIC - Nat-f., molecular weight 42, appears in the form of colorless crystals, cubic or tetragonal in shape. The triturations were prepared from the salt. The work was completed in 1956 by Gutman New York, on twenty-one provers. The proving lasted fifty days using a 6c in tablet form.

Due to the fluorine, the action of the remedy is myoneurotrophic. Sudden muscular contracture. Sudden muscular pains, coming and going in the muscles and joints. Pains while resting or from lack of distraction, reduced by pressure. Pains in the region of the left scapula.

MIND - Agitation and depression. State of stupor. Loss of ability to speak.

Abdomen - Gastric and intestinal cramps.

Back - Muscular, cramping, sudden pains. Pain in the shoulders.

Eyes - Mydriasis. Cramping pains in the eyelids.

Food - Lack of appetite.

Heart - Weak heart. Irregular pulse, rapid, weak, jumping.

Kidneys - Oliguria. Urine retention. Proteinuria.

Limbs - Sudden pains, coming and going in the muscles and joints. Hardening of the bones. Cramps in the calves and cyanosed, bluish coloring of the legs.

Modalities - Better from pressure, distraction. Worse from resting.

Mouth - Pain in the mouth with salty or soapy-tasting saliva.

Rectum - Constipation or diarrhea with expulsion of wind.

Skin - Itching of the skin without eruption. Itching eruption in the left axilla. Passing eruption on the legs. Copious, cold perspiration.

Stomach - Cramping pain in the stomach. Digestive heaviness and discomfort, nausea. Stomachache, painful hungry feeling, not eased by nourishment. Blood- streaked vomit.

RELATIONS - Compare: (1) Cupr. - Violent intermittent, cramping pains of the eyelids, stomach, calves and feet, aggravated by the cold.

REFERENCES-Julian.

***NATRUM HYPOCHLOROSUM

(Labarraque's Solution)

PHARMACY - nat-hchls. Natrum hypochlo- rosum. Labarraque's solution. Natrum chlo- ratum. Liquor soda

chlorate. It comes from hypochlorite of soda or potassium-chloride water. Potencies of the solution. **Historical dose:** All potencies. Fifteen to twenty drops of Labarraque's solution in water.

CLINICAL - Albuminuria. Allergies. Anaphylaxis. **Ankles, weak.** Aphonia. Backache. Breast pain. Bronchitis. Chlorosis. Cough.

Natrum hypochlorosum Diarrhea. Dyspnea. **Eczema.** Edema. Emaciation. Fainting. Flatus. Globus. Gravel. Headache. Hematuria. Hemorrhoids. Hysteria. Kidney stones. Leucocytosis. Leucorrhea. Liver, disorders. Metrorrhagia. Nephritis. Nosebleed. Ovaries disorders. Priapism. Proctitis. Scurvy. Smarting eruptions. Subinvolution. Tongue, shriveled, swollen. Toothache. Uterus, water-logged. Vertigo. Vomiting.

HOMEOPATHIC - Nat-hcls., the well-known disinfecting fluid, is one of Cooper's additions to the *Materia Medica*. His proving brought out some very characteristic features, although there is a close general resemblance to Nat-m. The chlorine radical determines irritation of the skin and mucus membranes, the sodium induces extreme sensitivity to humidity.

The indications are not the result of a Homeopathic proving, but the result of the information given by the toxicology and the clinical usage of the remedy.

Nat-hcls. affects profoundly the entire organism and causes rapid emaciation, fainting, weakness with a flabbiness most pronounced along the mucus tracts with a diffused hydrogenoid condition and a tendency to leucocytosis.

Eczema and itching, more particularly localized on the upper limbs and the face. Anaphylaxis caused by cutaneous intolerance of a product. Chronic catarrhal diseases of the middle ear. Phlegmatic. Congested and atonic states of the uterus and its ligaments with hepatic disorders. Both hands swollen in morning. Depressed, faint.

Abdomen - Swelling low in abdomen going up to chest and causing dyspnea, worse after eating with much flatus. Bloated, tight feeling across upper abdomen.

Back - Much pain across small of back, worse morning on rising.

Constitutions - Phlegmatic, flabby, debilitated constitutions.

Coughs - Cough with aphonia.

Ears - Pain under right ear when swallowing with much tenderness and swelling up side of head.

Eyes - Eyes red, weeping, eyelids puffy, red and itching. Amelioration by cold compresses.

Face - Edema of the face.

Female - Violent metrorrhagia. Leucorrhea and backache. Womb is feels heavy, sodden with tendency to prolapse. Feeling as if the uterus were pushed up on sitting down (Ferr-i.). Feels as if it opened and shut. Passive, bearing-down pains from heavy condition of uterus. Subinvolution. Itching of the vulva, perineum, and anus.

Head - Headaches. Swimming feeling, as if top of head would float off.

Kidneys - Much pain across small of back. Diffuse nephritis. Dark urine with albumen and casts.

Limbs - Extreme **weakness in ankles** and knees. Hands swollen every morning.

Lungs - Pulmonary edema, capillary bronchitis. Dyspnea, aggravated by the coughing. Dry, irritating, painful cough in fits and then frothy, pink sputum. Cough with aphonia.

Modalities - Better after stool, from cold applications. Worse from eating or drinking, drinking least drop of cold water, warm drinks. Worse by washing, damp, warmth, lying on either side. Worse before each menstrual period, before stool.

Mouth - Putrid taste. Furred tongue, large, flabby indented. Flat ulcer on tongue far back towards root. Sore, irritable spots along sides of tongue and throat. Gums sore, tongue swollen, aphthous ulceration. Stomatitis, aphthosis.

Nose - Nosebleed, clots of blood.

Rectum - Anal and rectal burning, burning diarrhea. Proctitis. Hemorrhoids, anal fissure.

Skin - Generalized or localized itching, better by scratching. Recurring erythema with appearance of vesicles filled with a whitish, oozing liquid. Weeping eczema. Dry eczema in nursing children.

Sleep - Drowsiness after meals. Drowsy by day, wakeful by night. Cannot sit down without falling asleep. Disinclined to rise in morning. Child looks ghastly, as if dead, when asleep, his sleep is quiet.

Stomach - Drowsy after meals. Burning in epigastrium, with acrid vomiting, hematemesis.

Throat - Throat red and sore, with difficult swallowing. Burning in the pharynx with redness, choking cough.

Vertigo - Vertigo with aching across forehead. Swimming feeling, as if top of head would float off.

COMMENTS - Drowsiness, cannot sit down without falling asleep. A weight seems to fall from pit of chest to pit of abdomen with aching, dull sensation on vertex. Vertigo causing falling. Paralyzed feeling in brain. Sensation as if top of skull were about to float off, as though cranial bones were being crossed over each other. Swelling, neuralgic pains and suppuration about jaws. Tongue swollen or shriveled at sides. Swelling low down

in abdomen, going up to chest and causing dyspnea. Swelling of both hands in morning on waking. Gatherings on fingers. Swelling on both hands in morning on waking. Pain in hip joint reflected from ovary.

Dr. Robert Cooper's grand characteristic indication for Nat-hchls. is a water-logged uterus. The womb is sodden, heavy, low down in pel vis, bearing down in pel vis with tendency to prolapse.

The state of subinvolution after confinement corresponds very closely to this and Clarke frequently saw Nat-hchls. do good work in such cases.

RELATIONS -Antidotedby: Puls. - rheumatic and myalgic symptoms, Guai., also, probably. the antidotes to Nat-m. **Compare:** (1) Aur-m. Nat-m., Calc., Sep., (2) Helio. - has uterine displacement with active bearing-down sensation and loss of voice, membranous dysmenorrhea. (3) Nat-c., Nat-m., Kali-chl., Chlor. (4) In uterine bearing down. Helio., Sep. (5) Womb feels as if it opened and shut Sep. has clutching and relaxing. (6) Feels as if uterus were pushed up when ever she sits down. Ferr-i. (7) Uterine engorgement and induration, Aur-m-n. (8) Bloated feeling after meals, worse by warm drinks, Lyc. (9) Easily overpowered with heat, Sep., Nat-m., Nat-c. **Complementary:** Sep.

REFERENCES - Boericke. Clarke.

***NATRUM IODATUM

(Sodium Iodide)

PHARMACY - nat-i. Natrum iodatum. Sodium iodide. **Historical dose:** All potencies.

CLINICAL - **Angina pectoris.** Arteriosclerosis. Catarrh. Dyspnea. Endocarditis. Heart, disorders. Rheumatism. Vertigo.

HOMEOPATHIC - Nat-i. has various symptoms, such as **angina pectoris** and vertigo. Dyspnea become less marked after continued use. Chronic catarrhal affections, arteriosclerosis and rheumatism. Incipient rheumatic endocarditis. Chronic bronchitis and tertiary syphilis.

Nat-i. will be found to give most excellent results where there is organic disease of the heart, associated with the angina pectoris. There is an oppression in the region of the heart that is attended with a fear of death and a feeling as if something dreadful was about to happen. Angina pectoris and dyspnea.

REFERENCES - Blackwood. Boericke.

***NATRUM LACTICUM

(Sodium Lactate)

PHARMACY - nat-1. Natrum lacticum. Sodium lactate. Solution. **Historical dose:** All potencies.

CLINICAL - Fatigue. Gout. Rheumatism. Vomiting.

HOMEOPATHIC - Allen collected a few observation on the effects of large doses. Skinner removed with it in potencies gouty or rheumatic concretions, "**chalk stones**" in fingers. Gout, rheumatism. Rheumatic pains. Abnormal sense of fatigue, yawning and sleepiness.

Food - Unusual hunger and thirst.

Limbs - Great weakness of lower limbs after great physical exertion.

Sleep - Yawning and sleepiness. Sleep more prolonged and sounder.

Stomach - Vomiting from very large doses.

RELATIONS - Compare: (1) I he lacs, Lac-ac. (2) In "chalk stones," Lyc., Calc.

REFERENCES - Clarke.

***NATRUM MURIATICUM

(Sodium Chloride)

PHARMACY nat-m. Natrum muriaticum. Sodiumchloride. Common Rock Salt. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Acne. Addison's disease. **Allergies.** Alopecia. Amenorrhea. Anemia. Anorexia nervosa. Aphthae. **Asthenopia.** Asthma. Atrophy. **Autism.** Backache. Bee, stings. Blepharitis. Brain-fag. **Canker, sores.** Cataract. Catarrh. Chlorosis. Chorea. **Cold, sores. Colds.** Colic. **Constipation.** Convulsions. **Coryza.** Coughs. Cracks, skin. Deafness. Debility. **Depression.** Diabetes. Diarrhea. Disparunia. Dropsy. Dysmenorrhea. Dyspepsia. Eczema. Edema. Emaciation. Epilepsy. Erysipelas. Eye, disorders. **Eyestrain.** **Fever, blisters.** Gleet. Glossopharyngeal, paralysis. Goiter. Gonorrhea. Gout. **Grief.** Hair, loss. **Hay fever.** **Headaches.** **Heart, disorders.** Hemipopia. Hemorrhages. Hernia. **Herpes.** Hiccough. Hodgkin's disease. **Housemaid's knee.** Hydremia. Hydroa. Hydrocele. **Hypertension.** Hyperthyroidism. Impetigo. **Impotency.** **Infertility.** Intermittent fevers. Jaundice. Lachrymation. Leucocythemia. Leucocytosis. **Leucorrhea.** Lice. Lips, sores. Lungs, edema. **Malaria.** Menstruation, disorders. **Migraines.** Mouth, sores. Multiple sclerosis. Mumps. Nettle rash. Neuralgia. Nosebleeds. Orchitis. **Otitis.** Otorrhea. **Palpitations.** Paralysis. Phimosis.

Photophobia. Psoriasis. Ptosis. Ranula. Ringworm. Self-abuse. **Sinusitis.** Skin, unhealthy. Sleepwalking. Sneezing. **Sore throat.** Speech, embarrassed. Spermatorrhea. Spinal, irritation. Spleen, enlarged. Sterility. Stomatitis. Strabismus. Styes. **Sunstroke.** Taste, disordered. Tongue, blistered. **Toothache.** Tri-facial-nerve, paralysis. Ulcers. Uterine, cramps. Varicose veins. **Vaginismus.** Vertigo. Vesicles. Warts. **Whooping cough.** Worms. Yawning.

HOMEOPATHIC - Nat-m. is one of the remedies Schussler adopted from homeopathy. His indications are, for the most part, identical with Hahnemann's. In old-school practice, Nat-m. was used chiefly in solution as a douche or spray in nasal and other catarrhs, and in the mixture of "Brandy and Salt," in which large quantities of salt are given for pulmonary hemorrhages.

Affects the emotions, heart, kidney, and spleen. Suited to thin patients who are thirsty, poorly nourished on account of digestive disturbances. Craves salt. The skin, may be corrosive (salt-rheum). Clear vesicles on skin or conjunctiva. Lachrymation. Salty taste in the mouth. Salivation, toothache with salivation. Constipation. Lack of mucus. Catarrh of stomach with vomiting of mucus. Water brash. Watery, mucus diarrhea.

Tendency to catch colds, coryzas or **hay fever.** **Dry mucus membranes.** Mucus membranes and skin may be dry or may produce thick, white or clear, watery, acrid discharges. Dryness of mouth, throat, rectum, vagina etc. Disturbances of the digestive tract and skin.

Emaciation, most notable in the neck. Emaciation from malaria. Anemia. Hyperthyroidism. Goiter. Addison's disease. Diabetes. Gouty or rheumatic gout. Chlorosis. Bloating. Hydremia. Leucocytosis. Intermittent fever. Contraction of muscles and tendons. Twitching in muscles. Frequent starts in upper part of body. Chorea, jumping after fright. Neuralgic pains with tears. Numbness of one side, parts lain on with paralysis. Fingers, parts seem too short. Constrictive sensation throughout the body. Trembling of the whole body from smoking tobacco.

Great weakness and weariness. **Weakness** felt in the morning in bed. Easy exhaustion. Tired, sleepy. Inclination to weep. Oversensitive to all sorts of influences. **Coldness.** Cold limbs, cold sensation along the spine. Likes to be covered but does not relieve. Children talk late, are cross, irritable, cry from slightest cause.

MIND - Reserved and introverted. Depression, with spells of irritableness and crossness. **Severe depression and feelings of isolation.** Depression after death of loved ones, divorce, broken relationships, broken hearts. **Acute and chronic grief.** Suicidal after grief. Emotionally shut down and closed off since grief. Dwells on past unpleasant memories. **Holds grudges for years.** Offended easily. Revengeful. **Cannot cry in front of others.** Company distresses. **Consolation aggravates.** Thinks he is pitied for his misfortunes and weeps. Laughter with **tears.** **Ailments from grief, disappointed love,** fright, anger.

Mental behavior and physical symptoms are hopeless or awkward in nature. Chronic affects of **grief, disappointed love,** fright, anger. **Depressed and introverted.** Dwells on past unpleasant memories. Cannot cry or express grief. Averse to consolation. Depression or paralysis from hurt emotions. **Young girls fall in love with married men.**

Very sensitive, romantic, sentimental, intellectual. Sympathetic. Fear of hurting others emotionally. Need for unconditional love. Inability to receive and give affection. **Sulking, sighing** (Ign.). Despair about future.

Afraid of close relationships, feels too vulnerable and shy. Poor confidence in relationships. Difficulty trusting, believing in people. Difficulty communicating emotions. **Tendency to fall in love with unattainable people, particularly married people** .Lovesick with one of her own sex.

Appears to bid for sympathy, yet angry when consoled. Cannot cry or urinate in public. Aversion to presence of strangers during urination. Aversion to men in women. **Aversion to sex.** Low sex drive. Lack of enjoyment during sex. **Sadness before menses.** Sadness in pregnancy.

Inclination to weep and be excited. **Cries from music.** Weeps bitterly, involuntary, whenever alone. Tears with laughter. Hysterical laughter, laughs at serious things. Child irritable and cross when spoken to, crying from slightest cause. Excitement followed by melancholy. Hypochondriasis and hysteria with constipation.

Hurriedness with anxiety and fluttering at heart. Anxiety and fear. **Fear of intimacy, rejection, betrayal,** of losing control, of relationships. Fear of being ridiculed, embarrassed, being late. Claustrophobia. Fear of robbers, the dark, heights. Fear of insects, especially bumblebees, spiders. Fear of insanity.

Alternating mental conditions. Irritable, gets into a passion about trifles. Abrupt. Absent minded. Extremely forgetful. Scattered thoughts. Mistakes in speaking, what he doesn't intend to. Awkward speech. Awkward, hasty, drops things from nervous weakness. Shy and timid. Mental retardation. **Children late learning to talk and walk.** Autism.

Abdomen - Anxiety in abdomen. Cutting pain in abdomen. Much pain and soreness in left hypochondrium. Pressure in upper abdomen. Pain in abdominal ring on coughing. Epigastric pulsation. Epigastrium swollen and painful. Tightness of skin across abdomen from hip to hip, must loosen clothes. Tension groins. Rigidity

of the left side. Sudden distention. Abdomen swollen, rumbling and incarceration of flatus. Great fermentation, loud gurgling. Colic with nausea, better flatus. Bilious colic. Burning in intestines. Abdominal viscera loose and dragging as if when walking. Jaundice with drowsiness. Yellowish discharge from navel.

Back - Backache with desire for firm support (Rhus-t., Sep.). Backache is better lying on back, on something hard or from pressure. Can stoop readily, but hurts to straighten. Bruised pain, early in morning, worse coughing and after sex. **Spine oversensitive to touch or pressure.** Sensitiveness between vertebrae. Spinal irritation from grief, anger, sexual excesses, etc. Paralytic feeling in lumbar region. Violent pulsations in lumbar region. Sacral region as if beaten. Painful stiffness of neck. Cervical glands enlarged, sore when coughing. Impetigo or itching tetter on margin of hair at nape.

Breasts - Breasts emaciate. Stitches beneath nipples. Lossofhaireduring breast-feeding. Child refuses breast, from sore mouth.

Causations - Ill effects of ***grief, guilt, betrayal, disappointment.*** Fright, fit of passion. Loss of fluids, masturbation. Injury to head. Silver salts, eating salt. Sunlight.

Chest - Sore pain or bruised feeling in chest. Oppression of chest. Sensation as if constricted or if lungs were too tight, with

burning hands, while at work. Sensation and pain in chest as from tension. Sharp pains all over chest, on deep inspiration and when coughing. Tearing, sharp pain, from left upper region of chest to shoulder joint, after suppressed facial neuralgia. Single stitches along sternum. Pain like a cutting cramp through left chest to scapula. Severe pain in right side.

Constitutions - Suited to sensitive, anemic, chlorotic people with catarrhal troubles. Cachectic persons, old people, teething children. Tuberculous, scrofulous, dropsical, emaciated persons.

Cough - Spasmodic, suffocative cough at night in bed. ***Whooping cough with flows of tears with cough.*** Dry cough with rattling in chest. Cough with hawking of mucus. Cough from tickling in the pit of stomach, with asthma, or with stitches in liver and spurting of urine (Caust., Squil.). Cough with palpitations. Cough with bursting pain in head. Sticking in liver while coughing. Cough in the morning, evening after lying down in bed. Cough worse in winter. Chronic cough of tuberculous subjects.

Ears - Chronic catarrhal otitis with acrid discharges. Purulent discharge from ears. Catarrh of tympanic cavity and eustachian tube, non-suppurating. Throbbing and beating in ears, ears red from congestion, otorrhea. Swelling and heat of outer ear. Itching behind ears. Painful cracking in the ear when che wing.

Noises, buzzing, humming, ringing, and roaring. Roaring and buzzing in ears and head, with inability to work, read or think. Difficult hearing. Deafness from swelling of tympanic cavity. Deafness with watery conditions of tongue.

Eyes - Sensation as if eyes were filled with salt. Burning pain in eyes. Eyes itch and burn, must wipe them and pull at lashes. ***Photophobia, worse bright light, sunlight.*** Lachrymation with redness, burning, acrid from affected side from sneezing, coughing, laughing etc. Eyes appear wet with tears. ***Tears stream down face on coughing*** (Euphr.). Stricture of lachrymal duct with suppuration. Cataract incipient.

Ptosis on lying down. Blepharitis with marked photophobia and spasmodic closure of lids. Divergent strabismus, coming on from fatigue, more marked in hot weather and worse in winter. ***Asthenopia*** due to the insufficiency of internal recti muscles. ***Muscles weak and stiff. Eyestrain.*** Eyes give out in reading and writing. Cannot read by artificial light. ***Pain in eyes when looking down.*** Feel bruised with ***headache in school children.*** Eyes feel drawn together. Protruding eyes, due to goiter. Styes. Lids swollen. Eyelids heavy.

Face - Dry skin. Oily, shiny skin, as if greased. Earthy complexion. Acne. Pimples on face. Eruptions and ulcers on chin. ***Fever blisters and cold sores. Herpes about the lips.*** Lips and corners of mouth dry, ulcerated, and cracked. Lips tingle, feel numb. ***Crack in the middle of the lower lip.*** Swollen upper lip. Throbbing in lower jaw, worse biting, heat and cold. Down on the face in hysteria, passes away as the patient improves. Falling out of whiskers and beard. Prosopalgia. Neuralgia. Cheekbones as if bruised, when chewing. Mumps with profuse flow of saliva. Submaxillary glands swollen.

Female - Delayed first menses. Amenorrhea. ***Suppressed menses from grief,*** from putting feet in cold water. Menses irregular, usually profuse. Hot during menses. Menses painful from getting feet wet. Dysmenorrhea with convulsions. Menses preceded and followed by headache. Sore burning in vagina before menses. White leucorrhea turns green gradually. ***Leucorrhea acrid, watery.*** Debilitating, white, thick leucorrhea, instead of menses. ***Genital herpes, eruptions worse from stress, emotional upsets.*** Uterine cramps with burning and cutting in groins. Ineffectual labor-pains. Prolapse of uterus with aching in lumbar region. Bearing down pains, worse in morning (Sep.), with aching in lumbar region. Burning and soreness of vagina after urinating. Dryness and soreness of vagina, with itching. Burning, smarting in vagina during ***sex. Aversion to sex,*** which is painful from dryness of vagina. ***Low sex***

drive since grief. Sterility, with too early and too profuse ***menses. Infertility.*** Labor progresses slowly, pains

feeble, seemingly from sad feelings and forebodings. Loss of hair in childbed or during period of lactation.

Food-Hungry, yet loses weight (lod.), with depression. Anorexia nervosa. Hunger without relish. Hunger without appetite during pregnancy. Unquenchable thirst. Thirsty, drinks large quantity of water. **Craving for salt and salty foods**, especially during pregnancy. Eats more salt since a grief. Desires sour things, lemons. Desires bitter things, beer. Desires chocolate, farinaceous food, oysters, fish, milk. **Averse to anything slimy like oysters, fats.** Averse to meat, coffee, tobacco. Averse to bread, acidic foods. Aversion to rich food, chicken, salt, milk. Worse from bread, fat. Worse salt, acid food. **Bad effects from eating salt and salty foods.**

Head - Migraine headaches, bursting, maddening, heavy. **Blinding headache.** Aches as if a thousand little hammers were knocking on the brain, throbs. Headaches over eyes, on vertex, with partial numbness or disturbed vision. Headaches from eyestrain. **Headaches from sunrise to sunset.** Headaches during, before or after menses. Burning on vertex during menses. Headaches on coughing. **Headaches from sunlight.** Sunstroke. **Headaches with photophobia.** Pains, aggravated by motion, even of eyes, worse frowning, reading. **Anemic headaches of schoolgirls**, nervous, discouraged, broken down. Headaches are better sleep, pressure on eyes, lying with head high, and sitting still. Headaches worse on waking. Headaches with constipation. **Headaches from grief.** Nodding motions of the head. Rush of blood to head. Throbbing and heat in head, with red face, nausea and vomiting. Hemispheralgia with sour vomiting and eructations. Falling out of hair. Chronic effects after injury to head. White scurf on scalp, dandruff, alternating with catarrh and loss of smell.

Heart - Tachycardia. Fluttering of the heart with a weak, faint feeling, worse lying down. Chronic forms of valvular disease, with weak, faint feeling, must lie down. **Hypertrophy of heart. Palpitations**, shaking the body or alternating with beating in head. Palpitations, anxious, worse exertion, emotions, lying on left side. Palpitations before menses. Palpitations on falling asleep and on awaking. Palpitations with sensation of weakness, exhaustion and heaviness. **Heart feels weak and vulnerable, worse after grief.** Sensation of coldness or emptiness about heart. Heart and chest feel constricted. Painful stitches in region of heart, after reading aloud. **High blood pressure from excess salt eating.** Fluttering, palpitating, intermittent every third beat, worse lying down. Pulse, full and slow, weak and rapid.

Kidneys - Difficulty urinating in the presence of others. Has to wait a long time for it to pass if others are present (Hep., Mur-ac.). Must wait before the urine will start. Polyuria, thirst for large quantities of water. Frequent or sudden desire to urinate, can't retain urine, copious flow. Urination every hour at night. Tension and heat in renal region. Clear urine with red sediment. Hematuria. Urine dark, like coffee. Milky urine after menses. Involuntary urination on coughing, laughing, sneezing, walking, sitting. **Pain just after urinating** (Sars.).

Limbs - Multiple sclerosis. Paralysis after grief, intermittent fevers. Convulsive jerking of the limbs on falling asleep. Every motion accelerates the circulation. Cracking in joints on motion. Urticaria about joints. **Coldness of legs** with congestion to head, chest and stomach. Hamstrings seem short, painful, drawing in (Caust.). Arms and legs, but especially knees, feel weak. **Housemaid's knee.** Ankles weak and turn easily. Soreness of toes or between toes. **Numbness and tingling** in fingers and lower limbs. Buttocks emaciated in infants. **Children do not learn to walk or late learning to walk.** Icy coldness of hands and feet. **Palms hot and perspiring.**

ing. Hangnails. Dryness and cracking about fingernails. Hands tremble when writing.

Lungs - Acute edema of lungs. Attacks of suffocation. Difficult breathing after menses. Sighing from emotional states. Shortness of breath, especially on going upstairs (Calc.). Breathing better from exertion of arms, and better in open air. Lungs feel raw and sore from continual coughing. Spasmodic cough, face blue. Pneumonia, with much rattling, mucus clear, serous and frothy, coughed up with difficulty. Pleuritis when serous exudation has taken place. Respiratory catarrh after suppressed sweats. Yellow or blood- streaked mucus, in morning. White, salty mucus. Bloody expectoration, with cough. Profuse, frothy or watery expectoration, with asthma. Expectoration in clots, most in morning.

Male - Genital organs smell strongly and badly. Violent itching on and under scrotum. Itching and crawling sensation at corona glandis. Scrotum relaxed, flabby. Edema of scrotum. Hydrocele. Phimosis. Loss of hair from pubes. Genital herpes, eruptions worse from stress, emotional upsets. Gonorrhea, when chronic, discharge usually clear, sometimes yellowish, cutting in urethra after urinating. Suppressed gonorrhea. Aching in testes, orchitis, after suppression of gonorrhea or mumps. **Discharge of thin fluid from urethra, causes itching and burning.** Loss of prostatic fluid during stool. Emission of prostatic fluid without erection when thinking of sexual things. Erections in morning, without sexual excitement. Emission, even after sex. **Impotency, with retarded emission.** Sexual desire with physical weakness. Backache, weak legs and depression after sex. Weakness, even paralysis after sexual **excess. Aversion to sex, since grief.**

Modalities - Better from open air, deep breathing. Better cool bathing, sweating. Better talking long. Better from tight clothing, rubbing, rest. Better lying on right side, sitting up. Better before breakfast, going without regular meals. **Worse from**

sunlight, heat of sun. Worse summer, seashore. Worse dampness. Worse talking, reading, writing. Worse exertion of the eyes, mental exertion. **Worse from strong emotions, consolation, sympathy.** Worse puberty, sex. Worse alternated days after menses. Worse the moon. Worse from 9 a.m. to 11 a.m. Worse noise, music. Worse touch, pressure. Worse chronic sprains. Worse quinine, bread, fat, sour foods.

Mouth - Breath, hot offensive. Bitter taste. **Loss of taste and smell.** Salivation with thrush, obstinate. Saliva, profuse, watery, salty, bloody. Constant spitting. Salivation in morning. Sense of dryness of mouth. Vesicles and ulcers in mouth and on tongue, smart and burn when touched by food. Blood-blisters on inside of upper lip. Scorbutic gums. Dental fistula. Epulis or small tumor on the gums. **Numbness, tingling of lips and mouth.** Aphthae in mouth, on gums and cheeks, with great burning and impeded speech. **Canker sores, herpes, fever blisters.** Eruptions around mouth and vesicles like pearls on lips. **Dry and chapped lips.** Lips and corners of mouth dry, ulcerated and cracked. **Deep crack in middle of lower lip.**

Nose - Allergies and colds. **Colds begin with sneezing. Hay fever, watery discharge from eyes and nose.** Alternate fluent and dry coryza. **Fluent coryza,** lasting from one to three days, then changing into stoppage of nose, making breathing difficult. **Discharge thin and watery like raw egg white.** Violent sneezing. Sneezing early in the morning. **Sinusitis.** Frontal sinus inflammation. Internal soreness of nose. Dryness. Exfoliation of skin on dorsum of nose. Little ulcers in nose. **Fever blisters** on wings of nose and on lips. One side numb. Burning pain in nasal bones. Nosebleeds, on stooping or when coughing, at night. **Loss of smell and taste.**

Perspiration - Sweats on every exertion. **Sweats while eating,** on face. Sweats at edge of hair. Sweats on nose, face while eating. Sweats in axilla and on soles of feet. Sweats with aversion to uncover. Scanty sweats. Much better during sweat. Sweats relieving headache and other pains, though it weakens. Sour sweat, weakening. Profuse, and offensive sweats, at night.

Rectum - Ineffectual urging. Constipation from inactivity, grief. **Constipation on alternate days,** alternating with diarrhea. Chronic, painless, watery diarrhea, in the morning. Diarrhea preceded by pinching pain in abdomen. Diarrhea on moving about. Diarrhea after menses. Diarrhea from abuse of opium. Constriction of rectum. Stools tear the anus or cause burning. Burning, tearing, itching about anus after stool. Stinging pain in hemorrhoids and soreness at anus after stool. **Anus contracted torn, bleeding.** Ripping up sensation in anus after stool. Anal fissures with bleeding and smarting. Soreness at and around anus when walking. **Herpes about anus.** Disposition to get worms. Seat worms.

Sensations - As if head too heavy and would fall forward. As if some displacement in head had taken place, as if cold wind blowing though head. As though forehead would burst on coughing, as if head in a vice, pain like a rope around head drawing tighter and tighter, as if nail driven in left side of head. As if foreign body in eyes, as if eye being torn open. As if eyeballs too large. As if a small worm squirming in nose. As if hair on tongue.

Skin - Dry and chapped skin. Greasy, oily skin, especially on hairy parts. Herpetic eruptions, worse flexures. **Fever blisters, coldsores.** Vesicles, with watery contents, burst and leave a thin scurf. Pemphigus, blisters starting up on burning spots, with clear, watery contents. Small boils, blood boils. Eruption like ringworm, with itching, worse warmth. Hives, itching and burning after exertion. Nettle-rash over whole body, large red blotches, with violent itching. Itching, better from sweating. Eczema, dry, raw, red, and inflamed, worse eating salt, at seashore. Herpes zoster. Crusty, dry eruptions in **bends of limbs, margin of scalp.** Dry eruptions behind ears (Caust., Graph.). Urticaria. Corns. Comedones. Fungus hematodes. **Insect bites, stings of bees, mosquitoes.** Painful scars, redness of old scars. **Sunburns easily.** Affects hair follicles. Alopecia. Warts on palms of hands.

Sleep - Sleepy in forenoon. Sleepiness during day, with frequent yawning. Sleepy, but can't sleep at night, and in morning feels unrefreshed. **Sleeplessness after gnawing grief, from depressing events, dwelling on past events.** An idea clings to mind, preventing sleep. Prostration from loss of sleep. Twitching and electric shocks through whole body on falling asleep. Nervous jerking during sleep. Starts and talks in sleep. **Sobs during sleep.** Sleepwalking, rises and sits about room. Dreams during siesta. Vivid dreams like a living reality. **Dreams about grief, past events.** Dreams about work, which she is busy with a long time after waking. Dreams of burning thirst. Dreams of robbers, waking from fright, thought there were robbers in house. Very anxious dreams with weeping in sleep. Awakes feeling weak and unrefreshed.

Stomach - Anxiety in stomach rises into head. Feels better on an empty stomach. **Great weakness in stomach, comes in spells.** Faint, weak, gone sensation in stomach during pregnancy. Heartburn during pregnancy. Heartburn with palpitations. Violent hiccough. Burning pain and belchings after eating. Sweetish eructations in morning, before or during menses. Throbbing in pit. Sticking sensation in cardiac orifice.

Pressure as from a stone in stomach, with nausea. Vomiting of white, slimy mucus. Vomiting first of food, then bile. Continuous nausea with thirst and profuse water brash. **Morning sickness with vomiting of frothy, watery phlegm.**

Stools - Hard, difficult and painful stool, followed by liquid stool. Involuntary stools. Irregular stools, sometimes two or three a day, then constipation. Stools, dry, hard, crumbling (Am-m., Mag-m.), or coated with glassy mucus. Stools, black, watery, corrosive. Green, bloody, watery or brownish stools, mostly during day. Stools transparent, glassy, slimy. Stools like white of an egg. Stools without feces.

Teeth - Dentition with dribbling of saliva. Teeth sensitive to air or touch, pain worse on chewing. **Toothache with lachrymation or salivation.** Drawing, tearing pains, extending to ears and throat. Toothache after eating and at night. Toothache worse drawing in air, touch, pressure, after chewing. Toothache before menses, beginning of menses. Scorbutic gums. Spongy and bleeding easily. Epulis or small tumor on gums. Dental fistula. Cheek swollen.

Temperature - Coldness of the body. Morning chill with thirst, between 9 a.m. and 11 a.m. Chilly, but worse in sun. Chills beginning in feet or lumbar region. Chills predominates, mostly internal, hands and feet cold. Chills with yawning, chattering of teeth. Chill alternating with fever, at various times of day, without sweat. Heat, violent thirst increases with fever. Intermittent fever. Malaria. Hydremia in chronic malarial states with weakness, constipation, loss of appetite. **Fever blisters.** Sunstroke.

Throat - Dry, sore spot in the throat, tickles and causes cough etc. Soreness and feeling of dryness in larynx and trachea. Sore throat with sensation as if she has to swallow over a lump. As if a plug in throat. Sensation of a splinter sticking in throat. **Tobacco smoker's sore throat.** Uvula hangs to one side. Sore throat, with transparent mucus covering tonsils. **Throat glistens.** Hawks much mucus, bitter, salty. Only fluids can be swallowed. Solids reach a certain point and then are violently ejected. Food goes down the wrong way in post diphtheria paralysis. Swelling of cervical **glands.** **Hypertrophy of tonsils.** Exophthalmic goiter. Goiter with chronic sore throat. Hoarseness in morning. Weakness of organs of speech. Voice weak, faint, exhausting from talking. Bad effects of long speaking.

Tongue - Sense of dryness on tongue. **Tongue mapped** (Ars., Rhus-t., Tarax.). **Numbness, tingling of tongue.** Tongue broad, pale, puffy, with pasty coat. Frothy coating on tongue with bubbles on side. Tongue, beaded or striped along edges. Burning at tip of tongue. Aphthae on tongue. Herpes on tongue from seabathing. Tongue, heavy, difficult speech. Sensation of a hair on the tongue.

Vertigo - Vertigo, as if falling, worse standing near a window. Vertigo on closing eyes, better lying with head high. **Vertigo during pregnancy.** **Veñigo** from straining eyes or close study. Vertigo with jerking in head, with tendency to fall forward or to left. Vertigo in morning on rising. Vertigo after stool.

Vision - Eyes give out on reading or writing. Frequent obscuration of vision, when stooping, walking, reading, writing. Amaurosis, from debilitating weakness. Weakness of vision after debilitating illness. Diplopia or vertical hemiopia. Hemiopia, followed by headache. Retinal images are retained too long. Vision blurred, wavering. Letters run together. Sees sparks, fiery, zigzag appearance around all objects. Sparks, black spots. Dim vision, as if looking through gauze or feathers. Objects seem covered with a thin veil. Dark veil passes before eyes.

COMMENTS - Can antidote the effects of the crude salt, allows patients to cut down intake. Antidotes the effects of Arg-n. Scrofulous ophthalmia which has been treated locally in vain with Arg-n., sore throats that have been cauterized, the effects local and remote of uterine injections of Arg-n. or cauterizing of the os uterus. Symptoms are worse at the seaside or cannot stay by the sea. Constipation at seaside. Can also be better at seaside. Great desire for open air and washing in cold water. Sensitivity to the sun.

Fluttering palpitations with faint feeling, worse lying down. Characteristic sense of coldness at the heart of præcordia, with trembling of the heart. In one case of hypertrophy with degeneration of most of the valves, the patient told Clarke that nothing gave her so much relief as Nat-m.

Periodic, intermittent fevers. Chilliness predominates. Chill from 10 to 11 a.m. with thirst, drinks after a meal, fever blisters around mouth. Fever with violent headache, great thirst, nausea, vomiting, blueness, faint, averse to uncover. Fever may come on

without chill 10 to 11 a.m. Fevers and chills from malaria (Ars.). Antidotes quinine.

Headaches from over study. Headache with partial blindness. Throbbing, beating as with little hammers, pain as if the head would burst. The throbbing headache has its analog in palpitation of the heart. Headache much worse by coughing. Migraines, worse during the day and better at night. Worse from the sun or light.

Lambert recorded several cases of headache associated with errors of refraction and consequent eyestrain cured with Nat-m. 30c. The headache was noticed on walking. In one case it was like a cloud over the brain with intense depression and lasted ten years. It disappeared before the vision was corrected.

Indicated in some cases of multiple sclerosis and lupus. Psoriasis. Hydroa. Eczema on hair margins, especially at back of head. Warts on palms of hands. Corns. Painful scars. Greasy skin, an excess of sebaceous secretion. Disorders due to loss of fluids. Copious lachrymation. Burnett noted the characteristic "flow of tears with cough" in whooping cough.

Schussler noted the specific relation to catarrh. Excessively fluent coryza with much sneezing, sore nose, especially the left wing. Tendency to loss of smell and taste. Allergies.

Dry skin and lips. The lower lip has a crack down the middle. Cold sores on lips and nose. Herpes infection. Cold sores, canker sores, fever blisters and genital herpes that are worse from emotional stress or fatigue.

Mapped tongue with red islands, or a clean, shining tongue with froth along each side. Sensation as if there is a hair on the tongue. Numbness and stiffness of one side, heavy, embarrassing speech. The tongue is blistered, sticks to roof of mouth. Dryness of mouth and throat.

Sinking sensation. Hypoglycemia. Great hunger with no appetite. Eats heartily, ravenous appetite, but emaciates, especially about the neck. Feels better when stomach is empty. Strong aversion to fats and slimy foods. Craves chocolate, sweets, fish.

Craves salt. One patient, who said she could "eat the brine out of a mackerel kit," was cured with a single dose of Nat-m.

Unquenchable thirst. After eating there are empty belchings, nausea, acidity, sleepiness, heartburn, palpitation, epigastric pressure and heat radiating up to chest. Indigestion. Violent hiccup. Nausea. Vomiting. Constipation and diarrhea. Constipation often associated with anemia, chilliness, cold feet and chills down the back.

Women can have an aversion to sex, an aversion to men. Delayed first menses. Menses may be early and profuse or scanty and delayed. Bearing down pain (Sep.). Leucorrhea, with backache that is better pressure of from lying down on something hard. Characteristic dryness of the vagina with painful sex. Morning sickness during pregnancy. Infertility or amenorrhea from grief.

Useful for children who are late in talking. Autism. Learning or speech disabilities.

RELATIONS - Antidoted by: Smelling Nit- s-d., Phos. - especially abuse of salt in food. Ars. - bad effects of sea-bathing. Nux-v. will relieve headache after Nat-m. **Antidote to:** Arg-n. - abuse of, as cautery. Quinine - in diseases continue intermittent and patients suffer from headache, constipation, disturbed sleep. Apis - bee stings. **Compare:** (1) Bry., Apis, Ign., Sep., Thu., Graph., Alum. (2) Bor., Nat-c., Nat-h., Kali-chl. (3) In mapped tongue, Ars., Rhus-t., Kali-bi., Tarax., Ran-s. (acidity). (4) Hypochondriasis with indigestion, Nat-s. (5) Lachrymose. Puls. - better consolation. (6) schoolgirls' headache. Calc., Calc-p. (7) Headache coming and going with sun, Spig., Gels., Glon., Sang. (8) Headache with partial blindness, Kali-bi., Iris-v. (9) Half sight, Aur., Lith., Lyc., Titan. (9) Headache with cough. Caps., Bry., (Sulph. occiput, Nat-m. forehead). (10) Ravenous yet wastes, Iod. (11) Ringworm, Sep., Bar-c. Tell. (12) Paralyzed by emotion, Gels., Staph. (13) Intermittents, chill beginning in small of back, Eup-per., Rhus-t. - chill begins in one leg, or thigh, or between shoulders. Gels. - runs up spine. (14) Sadness during menses, Lyc., Nit-ac., Sep. (15) Laughs at serious things, Anae., Phos., Lyc., Plat. (16) Aq-mar. **Complementary:** Apis, Sep., Caps.

Nat-m. is the chronic of Ign., Bry., Apis and Caps. **Compatible:** Before - Sep., Thu., after - Ign., Kali-m., Kah-p., Con., Nat-s., Calc-p., Ferr-p.

***NATRUM NITRICUM

(Sodium Nitrate)

PHARMACY - nat-n. Natrum nitricum. Sodium nitrate. Cubic nitre. Chili saltpetre. Trituration. Solution.

Historical dose: All potencies.

CLINICAL - Anemia. Asthma. Belching. Constipation. Croup. Distention. Exhaustion. Exophthalmic goiter. Flatulence. Headaches. Hematuria. Hemoglobinuria. Hemoptysis. **Hemorrhages.** Hydremia. **Influenza.** Laryngitis. **Nosebleeds.** Pneumonia. Purpura hemorrhagica. Otagia. Otitis. Rheumatism. Tracheitis. Variola. Weakness.

HOMEOPATHIC - According to Hansen, Nat-n. was called Rademacher's Aconite; he used it in inflammations of all kinds, especially laryngitis, tracheitis, croup, and acute pneumonia. Acute rheumatism and heart affections. Exophthalmic goiter. Purpura, hemorrhages inflammations of the eye.

Inflammations and hemorrhages. Hemorrhages from the mucus membranes, particularly the nasal tissues.

Influenza. Pressing-inward pains in temple and forehead, in malar bones.

Anemia and hydremia. Exhaustion, must rest frequently when walking. Drowsiness. Pains of tabes. Heat spreading left to right. Heat in left ear, coldness in right. Coldness streaming through upperpart of body. Coldness of left foot.

Asthma with urine supersaturated with solids. Flatulent troubles with weight in lower abdomen. Painful retraction of abdominal muscles. Painful constipation.

MIND - Great ill-humor. Mental indolence. Indisposed to mental and bodily exertion.

Abdomen - Abdominal muscles painfully contracted towards the spine. Distended.

Constitutions - Uric acid diathesis.

Ears - Otalgia.

Head - Dull pain. Pressing inward pain. Inward pressing in malar bones. **Nosebleeds**. Headaches.

Heart - Pain in region of heart. Pulse slower and softer.

Modalities - Worse by deep inspiration. Worse exertion, ascending stairs. Worse sitting bent over.

Rectum - Difficult stool, feels as if more remained to pass.

Stomach - Sour risings. Aversions to coffee. Flatulence with pressure in pit of stomach and pain in chest, worse motion, better eructation.

RELATIONS - Compare: (1) Kali-n. (2) Abdomen mostly contracted, constipation, Plb.

REFERENCES - Boericke. Clarke. Rademacher.

***NATRUM NITROSUM

(Sodium Nitrite)

PHARMACY - nat-ns. Natrum nitrosum. Sodium nitrite. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Angina pectoris. Collapse. Cyanosis. Diarrhea. Fainting. Gastro-enteritis. Roseola. Strokes.

HOMEOPATHIC - Ringer and Murrell gave ten grains of Nat-ns., dissolved in one ounce of water to fourteen men and four women. It was given in five grain doses to twelve men and four women.

In almost all it produced alarming symptoms of the apoplectic attack. The concomitance of fainting with other disorders may prove a keynote. Copious liquid stools at night with faintness. Better lying down, worse motion.

COMMENTS - Collischorm related two cases of accidental poisoning with Nat-ns. The first patient was affected with diarrhea and fainting, heavily coated tongue, bitter belchings, and an eruption like syphilitic roseola on the chest. Traces of albumen in urine. During the night, copious alvine discharges with faintness.

The following day, there was intense cyanosis. Urine dark yellow, containing copious urates. The next day, he took 2.5 grain, cyanosis diminished and the measly eruption spread all over the body except the face.

The second patient had the cyanosis, diarrhea and faintings in an aggravated form so that collapse threatened. Strong coffee and omission of the drug removed the symptoms.

RELATIONS - Antidoted by: Coffee. **Compare:** (1) Amyl-n., Glon. (2) worse by motion, Bry.

REFERENCES - Clarke.

***NATRUM PHOSPHORICUM

(Sodium Phosphate)

PHARMACY - nat-p. Natrum phosphoricum. Sodium phosphate. Hydric disodic phosphate. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - **Acidity**. Allergies. Arthritis. Belching. **Blisters**. Boils. Colic. Conjunctivitis. **Cystitis**. **Diabetes**. **Diarrhea**. Dyspepsia. **Dysphagia**. Enteralgia. Erysipelas. **Flatulence**. Glands, swelling. Goiter. Gonorrhea. Gout. **Heartburn**. **Hives**. Indigestion. Infertility. Intertrigo. **Jaundice**. Leucocytosis. **Leucorrhea**. **Marasmus**. Morning sickness. Morphine addiction. Oxaluria. **Peptic ulcer**. Post-nasal catarrh. Rheumatism. Scrofula. Sighing. Stomach pain. Thread, worms. Tuberculosis. Urticaria. **Vaginitis**. Vertigo. Vomiting. **Worms**.

HOMEOPATHIC - Schussler, who introduced it, noted that Nat-p. is contained in the blood-corpuscles, in the cells of the muscles, of the nerves, and of the brain, as well as in the intercellular fluids. Nat-p. breaks down lactic acid into carbonic acid and water. It then binds to the carbonic acid, allowing it to be exhaled and exchanged for oxygen.

Affinity for diseases caused by an **excess of lactic acid**. In oxaluria, Nat-p. 1 x four times daily prevents formation of stones, keeps the oxalate of lime in solution. Ailments with **excess of acidity**.

Affects duodenum, bile ducts, mesenteric glands and genitals. Leucocytosis. Bladder infections, vaginitis and gout. Oxaluria.

Diabetes. **Jaundice**. Swelling of lymphatic glands.

Sourness, belchings, vomiting, stomach, stools, leucorrhea, expectoration, sweats. Flatulence with sour risings. **Yellow, creamy coating at the back of the roof of mouth and tongue**. Inflammation of the throat with sensation of a lump.

Debility. Nervousness, tired feeling. Cracking in joints. Pricking sensation. Tightness of muscles and tendons.

Trembling and palpitation from thunderstorms. Ill effects of mental exertion or sexual vices, or both.

Marasmus of bottle-fed babies. Infants who have been fed to excess with milk and sugar. **Worms.** Colic with symptoms of worms.

MIND - Mental weakness. **Confusion from mental exertion.** Nervous, forgetful, after sexual excesses. **Easily frightened.** Fear that something would happen, especially at night. **Starting from noise.** Imagines that he hears footsteps in the next room. Imagines that pieces of furniture are people.

Sensitive and offended easily. Irritability before breakfast. Vexed at trifles. Sighing (Ign.). Grief with a craving for cold drinks. Sadness from music, from masturbation. Indifferent to everything. **Indifference to loved ones.** Sits still for a long time.

Abdomen - Fullness in abdomen, worse standing or eating a little. Gastro-duodenal catarrh. **Noisy flatulence.** While at stool, sensation as if a marble dropped down descending colon.

Back - Heavy dragging in the back. Rheumatic arthritis. **Synovial crepitation.** Swelling of glands of neck extending to chest. Weakness after sex.

Causations - Acids, citrus fruits, alcohol, milk, sugar. Fat or bitter foods. Thunderstorms.

Chest - Chest feels empty after eating, or pain through chest after dinner. Pain in chest, worse deep breathing and pressure. Burning deep in chest, worse right side. Sudden feeling of fullness. Weight above ensiform cartilage with empty feeling.

Constitutions - Acid diathesis.

Ears - One ear red, hot, itching, scratches until it bleeds, with gastric disorders

Natrum phosphoricum and acidity. As if water falling in from a height.

Eyes - One pupil dilated. Whites of eyes are dirty yellow. Discharge **of golden-yellow, creamy matter** from the eyes. Eyes weak, worse gaslight. Squinting with worms.

Face - Paleness of bluish, florid appearance of face. Pale or red on alternate sides. Face burns. Itching about mouth.

Female - Menses too early, pale, thin, watery. During menses, feet icy cold during day, bum at night in bed.

Leucorrhea, sour, **creamy**, honey-colored, or acid and watery. Sour-smelling discharges from uterus. Infertility with acid secretions from vagina. Morning sickness with sour vomiting.

Food - Canine hunger with gone feeling in stomach. Desires strong tasting things, eggs, fried fish, beer, which ameliorate. Aversion to bread and butter. **Worse acids, citrus fruits.** Worse alcohol, milk, sugar. Worse fat or bitter foods.

Head - Feels dull in the morning, full feeling and throbbing. Cutting pain in temples (right) while studying. Pressure and heat on top of head as if it would open.

Heart - Heart pains alternating with rheumatic pains. Heart pains are better when big toe pains. Anxious palpitations after a thunderstorm. Trembling about heart, worse going upstairs, after menses. Feeling as if a bubble started from heart was forced through arteries.

Kidneys - Frequent urination. Must wait for urine to start. Bladder semi-paralyzed, flow soon stops and requires straining. Increased urine, pale, scanty, dark. Urine too acid. Burning during urination. Diabetes, hepatic form. Urging to urinate, burning and itching at meatus after sex.

Limbs - Aching in wrists and finger joints. Cramps in hands while writing. Rheumatism, particularly of the knee joint. Legs give way while walking. Feet icy cold during day, bum at night. Synovial crepitation. Trembling of limbs after sex.

Liver - Jaundice. Sclerosis of liver and hepatic form of diabetes especially when there is a succession of boils.

Lungs - Difficult respiration. Constant cough and hawking, pain in chest in mammary region. Cough, worse sitting. Cough from drinking water, from tickling in throat.

Male - Emissions without dreams, with **weakness in back and trembling in limbs.** Desire without erection. Thin, watery semen, smells like stale urine. Itching of scrotum, prepuce. Gonorrhea.

Modalities - Better from cold. Worse from sugar, milk. Worse bitter or fatty foods. **Worse acids, citrus fruits.** Worse from sex. Worse walking upstairs. Worse mental exertion, gaslight. Worse thunderstorms.

Mouth - Canker sores of lip and cheeks, worse acid foods. Pricking, numbness of whole mouth. **Blisters on tip of tongue** with stinging in evening. Thin, moist coating on the tongue. **Yellow creamy coating at the base of tongue**, on tonsils or roof of mouth. Sensation as of a hair on tongue. Teeth grinding in children.

Nose - Offensive odor. Naso-pharyngeal catarrh. Thick, yellow offensive mucus. Itching of nose. Prickling with lachrymation. Child picks nose.

Rectum - Urging to stool and urination after sex (men). Afraid to pass flatus lest the stool escape. **Greenish diarrhea.** Stools hacked. Itching at anus. Round or thread worms.

Skin - Yellow. Smooth, red, shining. Erysipelas. **Hives.** Itching in various parts, **especially of ankles.** Feet icy cold in daytime, burn at night. Swelling of lymphatic glands.

Sleep - Cannot get to sleep feels so hot, thoughts crowd in mind. Very drowsy, falls asleep while sitting. Sleepy in the forenoon, but sleepless before midnight. Anxious, amorous dreams, of dead people.

Stomach - Emptiness in stomach and abdomen, even in chest, worse after eating. Heaviness and pressure in epigastrium. **Peptic ulcer. Heartburn, acidity, water brash.** Acid dyspepsia. **Sour belchings.** Belchings after eating. Spits mouthfuls of food. **Vomiting of sour,** cheesy masses. Attacks of gastralgia and enteralgia, with

Natrum phosphoricum vomiting of fluid sour as vinegar. Morning sickness, with sour vomiting.

Temperature - Feet icy cold in day, burn at night. Chilly during menses, mostly on chest, followed by hot flushes around body. Flashes of heat and sweat. Exceedingly sour-smelling sweats. Intermittent fever with vomiting of sour masses.

Throat - Hoarseness. **Dysphagia.** Thick, yellow, creamy membrane over tonsils and soft palate. As of a lump, preventing speech. Swallowing difficult. Goiter with feeling of pressure.

Vertigo - Vertigo from stomach problems. Dizzy, as if he would fall, objects turn around on rising or moving.

COMMENTS - Nat-p. was proved under Farrington's direction. Charles Mohr, who was one of the provers, related the effect it had on him and the use he made of it. After being under the influence of the drug for some time, without knowing what it was, he had much itching at the ankle joints with an eczematous eruption. Headache, some nausea, vision problems, one pupil dilated. Fear, especially at night, that something would happen. The symptoms had to be antidoted with Sep.

Two years after, Mohr had a patient with visual disturbance and headache. When symptoms were at their worst, the patient had a sense of fear, worse at night, and an eruption about the ankles that began with itching, Nat-p. 6x cured promptly.

Acid diathesis. Gout. Spasms with acidity. Sour belchings, vomiting of sour, cheesy masses, yellowish-green. Heartburn and indigestion. Stomachaches with burning and acidic indigestion, particularly in children. Colic. Candida symptoms, diarrhea, sores in the mouth after eating acidic foods. Low blood sugar causes frequent urination or diarrhea. Atony of bladder. Kidney infections or achiness in the kidneys. Hacked diarrheas. Diarrhea since antibiotics (Nit-ac.). Allergies to sugar and milk.

Recurring cases of worms in children with nasal irritation and itching of the anus. The back of the tongue is coated creamy yellow. Sensation of a hair on the tongue. Tightness of muscles and tendons.

Seminal emissions. Vaginitis, cystitis. Creamy, yellow discharge. Itching of the vulva and labia after sweets and acids. Herpes outbreaks from eating sugar, acids or alcohol.

Symptoms are worse walking, especially up stairs, worse from sex. during thunderstorms. The warmth of bed causes itching at anus from worms. Worse pains, causes trembling and palpitations. When big toe pains, heart pains are better. Periodic action. Sighing (Ign.). Grief with a craving for cold drinks.

M. J. Luys successfully overcame the morphine habit by subcutaneous injections of Nat-p. with glycerine and water.

RELATIONS - Compare: (1) Acidity and scrofula, Calc., Rheum. Gout, Benz-ac., Guai., Lyc., Urt-u., Sulph. (2) Gastric catarrh. Calc., Carb-v., Kali-c., Nux-v., Rob., Carb-ac. (3) Speech impeded, Nat-m. (4) Hair sensation. Nat-m., Kali-bi., Sil. (5) Worse from sex. Kali-c., Caust. (6) Worms, Abrot.Cina, Teucr. (7) Drinking water causes cough, Sil., Caust. bettercough. (8) Emissions causing weak back and knees, Nat-m. (9) Nat-lac. - rheumatism and gout, gouty concretions, rheumatism with diabetes. (10) Nat-ns. - angina pectoris. Cyanosis, fainting, copious liquid stools at night, throbbing and fullness, faintness, nervous pain in head, nausea, belchings, blue lips. (11) Nat-sil-f. - a cancerremedy, tumors, bone affection, decay, lupus, ethmoiditis. Must be used carefully. (12) Nat-sel. - chronic laryngitis and laryngeal tuberculosis, hoarseness of singers, expectorate small lumps of mucus with frequent clearing of throat. (13) Nat-sulo. - diarrhea with yeasty stools.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***NATRUM SALICYLICUM

(Sodium Salicylate)

PHARMACY - nat-sal. Natrum salicylicum. Sodium salicylate. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Abscess. Amblyopia. **Arthritis.** Boils. Debility. Depression. Diarrhea. Dyspnea. Ears, noises. Edema. Fever. Fibrositis. Head, noises. **Headaches. Influenza.** Iritis. **Joint, pain. Meniere's disease.** Nosebleed. Periostitis. **Prostration. Rheumatism.** Stammering. Strabismus divergens. **Tinnitus.** Tonsillitis. Unconsciousness. Vertigo. Vomiting.

HOMEOPATHIC - The introduction of Sali- cyclic acid and Nat-sal. into general practice as remedies in rheumatism which led to much overdosing. Affinity for the joints. Affects the head, ear, throat, kidneys, liver and metabolism. Increases the quantity of bile.

Vertigo when objects seem to move to the right, worse on rising from lying. Giddiness, worse on rising from lying. Marked effect upon the internal ear with vertigo, deafness, noises in the ears with loss of bone conduction. **Meniere's disease**. Intense tinnitus aurium with deafness.

Hemorrhages, especially nosebleed. Follicular tonsillitis. **Prostration after influenza**. Temperature subnormal with slow pulse. Lassitude, drowsiness, listlessness, tremor. Periosteal rheumatism. **Pains of gout and rheumatism** in the joints.

MIND - Severe mental prostration, worse since influenza. Weariness and depression. Listlessness. Apathetic. Highly nervous dread. Perfectly rational periods, alternate with manifestations of insanity of a somber character. Incipient dementia.

Abdomen - Inguinal glands swollen, sensitive.

Chest - Dyspnea, breathing noisy, shallow, panting, irregular pulse. Complete loss of voice.

Ears - Auditory vertigo. Giddiness, deafness, noises in ears. **Tinnitus** of a low tone. Deafness.

Eyes - Pupils dilated, very slightly sensitive to light marked divergent strabismus. Eyes have a peculiar sparkle. Retinal hemorrhage. Iritis due to trauma. Amblyopia. Does not see distant objects, mydriasis.

Face - Anxious expression, red face. Left face red, both eyelids, upper lip edematous. Burning pains on skin of forehead.

Food - Great thirst. Appetite lost.

Head - Severe headache as though head would burst. Dull headaches and confusion. Fibrositis of the scalp.

Limbs - Axillary abscess. Strong itching on back of right hand. Feet swollen, soles tender, veins of dorsa much congested.

Lungs - Dyspnea with great heat. Breathing so noisy it was heard in street, gasps for air. Breathing is shallow. Panting respiration, like that of a hunting-dog.

Mouth - Speech hoarse, indistinct, stammering, some words she cannot pronounce. Dryness in mouth and throat with great thirst.

Pulse - Pulse stronger, arterial pressure increased. Pulse irregular, small, weak, compressible.

Rectum - Diarrhea, great thirst.

Skin - Tingling and itching. Edema and urticaria, red in circumscribed patches. Pemphigoid eruption.

Stomach - Vomiting, unconsciousness.

Temperature - Wild delirium, with great heat, dyspnea. High fever with intense thirst. Fever and rash come only with disappearance of rheumatic pains.

Vertigo - Vertigo, giddiness, worse raising head or sitting up, better lying down. All objects seem to move to the right.

COMMENTS - Nat-sal. has been used freely in the manufacture of beer to prevent fermentation and this has caused poisoning symptoms, notably sweating and tenderness of the feet with dark colored and enlarged veins.

In some of the overdoses, high fever with delirium was produced. Divergent strabismus and stammering were marked pathogenic effects in one case. Irritation of inguinal glands, abscess in axilla.

Clarke gave Nat-sal. 3c to a patient recovering from influenza who had symptoms of vertigo with noises in the head, the patient was so much relieved by the medicine of her weakness and depression that she named the remedy her "tonic."

W. R. Rice published a case in which he gave a woman 10 grain doses of Nat-sal. every four hours. After the third dose "most alarming prostration, mental and bodily" set in. Pulse became weak and compressible and the temperature became subnormal. On stopping Nat-sal., the symptoms rapidly passed off.

Ebstein claimed for Nat-sal. in ordinary dosage a controlling power over glycosuria and R. T. Williamson confirmed this in some cases.

RELATIONS - Compare: (1) Gaul., Chin. (2) Lob-p. - drowsiness, dizzy headache between eyebrows, cannot keep eyes open tongue whitefeels paralyzed as also do the heart and lungs intense prostration of all vital forces, deadly chill without shivering, useful for the low, nervous prostration of influenza. (3) Pyrus-m., Crab apple tree - Labyr., vertigo (Cooper). (4) Salx-m., Salx-n., Sal-ac., Salol. (5) In Meniere's disease, Chin., Kali-i., Carb-s.

REFERENCES - Boericke. Clarke. Phatak.

***NATRUM SELENICUM

(Sodium Selenate)

PHARMACY - nat-sel. Natrum selenicum. Sodium selenate. Trituration. **Historical dose:** All potencies.

CLINICAL - Laryngitis. Tuberculosis.

HOMEOPATHIC - This is an unproved remedy, but it has a decided affinity for the larynx. According to Hansen,

its use in homeopathy was first suggested by Meyhoffer, who gave the indication in laryngeal tuberculosis. Expectoration of small lumps of bloody mucus with slight hoarseness. It is best suited to the early stage of the disease. Laryngeal tuberculosis. Chronic laryngitis.

REFERENCES - Clarke. Hansen.

***NATRUM SILICICUM

(Sodium Silicate)

PHARMACY - nat-sil. Natrum silicicum. Sodium silicate. Natrium silicatum. Trituration. **Historical dose:** All potencies.

CLINICAL - Abscess. Ankles, weak. Bone, diseases. Chilly. Diarrhea. Gout. Headaches. Hemophilia. Nasal, discharge. Osteomalacia. Tuberculosis.

HOMEOPATHIC - Nat-sil. is useful in hemophilia, pulmonary tubercle, chronic gout, osteomalacia and scrofulous diseases of bone. Marked lack of vital heat. Chilly. Marked lassitude and desire to lie down.

Headache from mental exertion. Headache worse evening, noise and uncovering the head, better pressure and warm application. Pain in occiput. Nasal discharge offensive, thick and purulent. Swelling of submaxillary glands.

Breathing deep, difficult and short. Dryness of mouth and throat. Sputum offensive and purulent, often with a salty taste. Cold feet. Weakness of ankles. Abscess, relieves the pain and hastens the flow of pus. Restrains progress of cancer of cervix.

Diarrhea from milk. Sweats on the least exertion. Aversion to open air. **Worse from exertion. Worse** motion, forenoon, evening and night. Better lying down, pressure, warm applications.

MIND - Weakness of mind and nerves. Can't stand mental exertion. Headache from mental exertion. Sadness and weeping during menses. Easily frightened and starting from noise. Anxious and vivid dreams.

REFERENCES - Clarke. Pulmann.

***NATRUM SILICOFLUORICUM

PHARMACY - nat-sil-f. Natrum silicofluoricum. Salufer. Solution. **Historical dose:** All potencies.

CLINICAL - Bone disorders. Bone caries. Ethmoiditis. Lupus. Tumors.

HOMEOPATHIC - Cooper is the chief authority for this remedy. Nat-sil-f. must be used carefully, as it has an extraordinary penetrating power. Particularly useful for bone disorders.

Cooper called it the medicinal **"bone scraper"** in cases of caries. With a lotion of three grains to a tumbler of water he healed a case of lupus. Cooper saw ethmoiditis set up by it. Burnett cured tumors with Nat-sil-f. given internally.

REFERENCES - Clarke. Cooper.

***NATRUM SULPHURICUM

(Sodium Sulphate)

PHARMACY - nat-s. Natrum sulphuricum. Sodium sulphate. Glauber's salt. Sal Mirabile. Soda vitriolata. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Abscess. Alcoholism. **Asthma.** Bedwetting. Biliousness. **Blindness.** Brain, injuries. Chills. Colic. Coma. **Concussions.** Condylomata. Conjunctivitis. **Convulsions.** **Cough.** Debility. **Depression.** Diabetes. Dropsy. Dyspepsia. **Epilepsy.** Fever. Fistula. **Flatulence.** Gallbladder, disorders. **Gonorrhea.** Gout. **Head, injuries.** **Headaches.** Heartburn. Heatstroke. **Hepatitis.** Hydremia. Influenza. Jaundice. Leucorrhea. Leukemia. **Liver, disorders.** Malaria. Meningitis. **Migraines.** Morning sickness. Nausea. Nephritis. Nosebleeds. Ophthalmia. Opisthotonos. Panaritium. Phlegmasia alba. **Photophobia.** Rheumatism. Sciatica. Scrofulous, glands. Sinusitis. Spinal, injuries. **Spinal, meningitis.** Spleen, disorders. **Suicidal.** Sunstroke. **Sycosis.** Tuberculosis. Typhlitis. Vertigo. Vomiting. Warts.

HOMEOPATHIC - Nat-s., named Sal Mirabile, was discovered by the alchemist Glauber in 1658. It has since been named after him, Sal Glauberi. Nat-s. was proved by Schreter, Hartlaub, Trinks and others.

Nat-s. was studied by Grauvogl, who found in it the typical remedy for his "hydrogenoid constitution," and it forms one of the tissue remedies of Schussler. It corresponds to Hahnemann's sycosis miasm. The indications from these studies are generally agreed upon by all, although homeopaths have the widest field.

Grauvogl described the hydrogenoid constitution as the state in which there is extreme sensitiveness to damp wetting,

bathing, watery foods and residence near fresh water, especially standing water. Periodicity is also another feature of this state. He considered this constitution as providing the soil for gonorrheal infection.

Schussler wrote, "The action of the Sodium sulphate is contrary to that of the Sodium chloride. Both indeed, have the faculty of attracting water, but the end is a contrary one, Nat-m. attracts the water destined to be put to use in the organism, but Nat-sulph. attracts the water formed during the retrogressive metamorphosis of the cells and secures its elimination from the organism."

Especially affects the occiput, liver, and pancreas. Head symptoms from **injuries to head**. Mental troubles arising from a fall or other injuries to head. **Epilepsy or depression after head injuries. Spinal meningitis**. Sudden violent effects in ailing patients. Pains worse from thinking of them.

Sycosis. Tendency to warts. Suppressed gonorrhea. Yellow, watery, secretions, stools, skin, vesicles etc. Thick yellow-green pus. Sour, bilious and lithemic. Fistulous abscesses. Dropsy. Chronic gout (Lyc.). Trembling. Fingers and toes affected.

Skin disorders return every spring. Worse in rainy weather, water in any form, cannot eat plants growing near water, or fish. **Feels every change from dry to wet**. Always feels best in warm, dry air.

MIND - Inability to think. Mental exertion aggravates. Industrious. Periodical attacks of mania. Sensitive and suspicious. Fear of crowds, evil. Fear from noise, from noise at night. **Mental troubles arising from injury to head. Mental effects of falls, blows**. Cheerful after stools. **Confusion better after stools**.

Depression, worse music or mellow light. Sadness sitting near a stained glass window. Moved to tears by music and soft light. Sadness in morning. Very irritable, ill-humored, worse morning. Dislikes to speak or to be spoken to. Weeping, better in open air.

Aversion to life, with photophobia. Estranged from her family, from his wife. **Suicidal impulses**, has to use self-control

to prevent shooting himself (Aur.). **Wants to commit suicide by shooting, or by hanging**.

Abdomen - Burning pain in abdomen and anus. Duodenal catarrh. Cramps at umbilicus. Cramps with flatulence, before breakfast, better eating. **Incarcerated flatulence**, painful, pushes here and there, right abdomen. Flatulency, wind colic in ascending colon, worse before breakfast. Colic better rubbing or kneading abdomen, lying on sides. Lead colic. Bruised pain with urging to stool. Abdominal flatulence after confinement. Tension in right hypochondrium as if it would burst. Inflammation of right groin, typhlitis. Tympanites in bilious fevers. Tuberculosis abdominalis.

Back - Violent pain in back of neck and at base of brain. Soreness up and down spine and neck. Piercing pain between scapulae. Sharp cutting pain in back spreading upwards like a fan. Bruised pain in lumbar region. Lumbar region pains if one attempts to retain the urine. Contusive pains in sacrum. Chronic swelling of cervical glands. Spinal meningitis. Opisthotonos. Itching when undressing.

Breasts - Nipples retracted (Sars.).

Chest - Chest feels all gone, empty. Oppression in chest. Pressure on chest, as of a heavy load. Soreness of chest when coughing, better pressure. **Pain through lower left chest**. Stitches in left side of chest. Swelling of ribs, near sternum. Spasmodic motions of muscles, worse left side. Swelling and induration of axillary glands. Furuncles near axilla. Foul axillary sweat.

Constitutions - Hydrogenoid constitutions where complaints are such as due to living in damp houses, basements, and cellars. Patients cannot eat even plants growing near water, or fish.

Cough - **Cough** with thick, ropy, greenish, copious expectoration. Cough with purulent sputum and pain about last ribs, left side. **Must hold chest when coughing**. Springs up in the bed the cough hurts so, holds painful side (Bry.). Loose cough from tickling in throat, better sitting. Dry cough with roughness in throat, worse morning after rising, worse night.

Ears - Heat in right ear, evening. Piercing, stitches, sticking pains in ears, worse in damp weather. Piercing pain in right ear inward. Lancinations in ears. Irritable mucus membrane of ears and nose. Pressing in ears as if tympanum was pressed out. Earache as if something was forcing its way out. Ringing, tinkling in ears, as of bells.

Eyes - Yellow conjunctiva. Conjunctivitis with granular lids, green pus, terrible photophobia. **Photophobia**, on waking in morning. **Sensitive to sunlight**. Crawling or burning in eyes. As if eyeballs were hot. Granular lids. Itching on edges of lids mornings. Heaviness of eyelids. Aching in eyes in evening, when reading by candlelight. **Blindness from head injury**. Dimness of sight from weakness of eyes. Confused sight. Sparks before eyes after blowing nose.

Face - Yellow complexion, pale, sickly. Itching of face. Tearing in face and in cheekbones. Vesicles and pimples on face. Pimples on chin that burn when touched. Vesicles on lower lip. Lips burn like pepper. Dryness on upper lip.

Female - Scanty menses, too late, with knotty stools. Acrid and profuse menses, with nosebleed. Burning in pharynx during menstruation. Leucorrhea acrid, corrosive, parts inflamed. Yellow-green leucorrhea following gonorrhea, with hoarseness. Leucorrhea with hoarseness. Herpetic vulvitis.

Food - Want of appetite and repugnance to food. Desire for ice and ice-cold water. Thirst at the start of fever only. Desire for salty fish, beer and cold drinks. Desire for or aversion to yogurt. Aversion to meat and bread. Starchy food, milk and potatoes disagree. Beer is distasteful. Vegetables, fruit, pastry, cold food or drink and farinaceous food causes diarrhea.

Head - Ill effects of falls and injuries to the head. Mental or physical troubles after injury. **Headaches since head injury.** Gnawing pain in occiput. Base of brain as if crushed in a vise. Boring in right temple, **Natrum sulphuricum** preceded by burning in stomach. Headaches, worse by noise, stooping, during menses, light, eating, better in dark room, vomiting. Salivation with headache. Head jerks to side (right). Brain feels loose when stooping. Bursting feeling on coughing. Pressure and heat in vertex during menses. Pulsating, from congestion of blood to head. **Spinal meningitis.** Head jerks to right side. Creeping in scalp of vertex. Scalp sensitive, combing hair painful.

Kidneys - Frequent urination. Polyuria. Diabetes. Urging to urinate, with piercing in both groins. Burning pain in urethra. Urine loaded with bile. Urine with sediment of a yellow color or like brick-dust. Scanty, dark urine, had to get up several times at night.

Limbs - Rheumatism, worse in damp, cold weather. Rheumatic pains with gastric symptoms. Gout. Pain in limbs, compels frequent change in position. Sciatica on rising from sitting or turning in bed, no relief in any position. Pain in hip joint worse rising or sitting down. Stiffness of knees, cracking of joints. Edema of feet. Throbbing, piercing in heels. Burning in soles. Vesicles on soles. Itching between toes. Trembling of hands on waking and also when writing. Twitching of hands and feet during sleep, more after midnight. Inflammation around root of nails. Hangnail. Swelling of axillary glands.

Liver - Sore and tender liver, worse deep breathing, stepping, jar. Liver sore to touch. Region of liver sensitive when walking in open air, stitching pain. As of a lump below liver. Irritable liver sometimes after excessive study or mental work. Jaundice after anger. **Hepatitis, icterus and vomiting of bile.** Gallbladder disorders. Clawing pain in gallbladder.

Lungs - Dyspnea during damp weather. Constant desire to take deep, long breath. **Humid asthma,** rattling in chest, at 4 a.m. and 5 a.m. **Asthma worse damp weather.** Asthma, with early morning diarrhea. **Asthma, sycotic in children.** Every fresh cold or any unusual exertion, brings on an attack of asthma. Attacks of hay asthma. Bronchial catarrh, with glairy

sputum, worse damp weather. Delayed resolution in pneumonia. Hemoptysis, in hydrogenoid constitutions. Copious expectoration, thick, ropy, greenish. Chest feels all gone with cough.

Male - Edema of prepuce and scrotum. Sweat on scrotum in evening. Itching of glans, of scrotum with burning after scratching. Violent itching of glans of penis or scrotum. Enlarged prostate, with pus and mucus in urine. Condylomata, soft, fleshy excrescences, greenish discharges. Warts. Chronic gonorrhea, thick, greenish discharge, little pain. Increased sexual desire. Voluptuous feeling during stool.

Modalities - Better from open air, warm, dry air. Better change of position, lying on back, pressure. Better after dinner, breakfast. **Worse from damp weather, dampness of cellars,** night air, late evenings, wind. Worse subdued light, music, lifting, lying long in one position, touch, pressure. Worse cold food and drinks, vegetables, fruits. **Worse from head injuries.**

Mouth - Offensive breath with malarial symptoms. **Bitter taste.** Taste unpleasant, slimy. Slimy, thick, tenacious, white mucus. Salivation during headache. Mouth as if rough and numb. Blisters on palate. Burning in mouth as from pepper. Burning of palate as if sore and raw during menses. Gums burn like fire.

Neck - Violent pains in back of neck and at **base of brain.** Stitches in nape of neck at night. Jerking, tearings and tension in muscles, on left side of neck.

Nose - Nose stopped up, great dryness and burning. Root of nose feels stopped up. **Nasal catarrh with thick, yellow discharge** and salty mucus. Coryza with obstruction of nose. Sneezing with fluent coryza. Yellowish-green nasal discharge becomes green on exposure to light. Watery discharge at night. Ethmoiditis. Nosebleed, before and during menses, stops and returns often.

Perspiration - Sweats without thirst. Sweats at night, in morning. Sweats on face, on scrotum.

Rectum - Bruised pain and urging to stool. Involuntary stools, when passing flatus. Rumbling, gurgling in bowels, then sudden noisy spluttering stools in the morning, can drive from bed. **Loose morning stools,** worse after spell of wet weather. **Great size of the fecal mass.** Diarrhea, yellow, watery stools. Foamy or yellow diarrhea, mixed with green slime. Burning pain in anus after stool. Itching of perineum and mons veneris. Itching of anus, as from worms. Knotty, wart-like eruption on anus and between thighs.

Sensations - As if forehead would burst, as if a screw being driven in, as if top of head would split. As if brain was loose and fell to left temple, as if brain crushed in a vice or something gnawing there. Creeping in scalp to vertex. Crawling in eyes. As if bells ringing in ears. As if tympanum was pressed out, as if something forcing its way out of ears. Lump or ball in throat. Weight on chest. Burning on top of head, right eye, edges of lids,

gums, palate, anus, abdomen, soles to knees.

Skin - Jaundiced skin, after anger. Chronic skin eruptions. Eczema, moist and oozing profusely. Erysipelas, smooth, red, shiny, tingling or painful swelling of skin. Wheals containing a yellow, watery, not glutinous secretion. **Watery, yellow blisters.** Yellow scales after breaking of vesicles. Sycotic excrescences, wart-like red lumps all over body. Itching pimples. Itching while undressing. Chafing of skin in children with bilious symptoms.

Sleep - Great sleepiness during day. Drowsiness in forenoon when reading or writing. Sleeplessness caused by great agitation. Jerking of limbs during sleep. Awakes from the pain of flatulence. Uneasy sleep with anxious and disagreeable dreams. Dreams of running water, of flying. Dreams of being insulted or fighting. Frequent waking from unpleasant, fantastic dreams.

Stomach - Stomach feels distended and heavy. Squeamishness in stomach before meals. Slow digestion. Acid dyspepsia with heartburn and flatulence. Water brash in evening. Frequent hiccough after eating bread and butter. Hiccough in evening. Nausea with pain in eyes. Sour vomit or regurgitation. Green bilious vomiting. Green, bilious vomit. Morning sickness, vomiting with bitter taste in mouth.

Teeth - Drawing pains in teeth. Throbbing toothache with restlessness, worse warm, but intolerable to hot drink. Tearing in carious teeth, on getting out of bed, at night. Toothache better by holding cold water in mouth. Gums burn like fire.

Temperature - Chills up back, with icy coldness, gooseflesh, shaking and chattering of teeth, with anguish and thirst. Cannot get warm even in bed. Internal chills with stretching and yawning. Sudden flashes of heat towards evening. Increased warmth of body, with restlessness. Fever with aversion to uncover. Foul axillary sweat, profuse at night. Perspiration in morning.

Throat - Dry throat. Sore throat. Tearing pain down throat. Burning in pharynx during menses. Impeded swallowing. Feeling of a lump on swallowing. Frequent constriction of throat. Inflammation, with profuse, tenacious mucus. Thick, yellow mucus drops from posterior sinuses. Hawking of salt mucus, worse morning. Tonsils and uvula inflamed and swollen. Ulcers on tonsils. Goiter.

Tongue - **Brown, bitter coating on tongue.** Dirty brown or greenish yellow, thick, pasty tongue, especially at base. Tongue covered with mucus, slimy taste in mouth. Burning blisters, vesicles on tongue. Tip of tongue feels burnt. Root of tongue coated a dirty greenish gray or greenish brown.

Vertigo - Vertigo, relieved by sweat on head. Vertigo after dinner, from gastric derangements. Vertigo at 6 p.m., followed by vomiting of sour mucus.

COMMENTS - Grauvogl and Schussler used Nat-s. in the lower trituration. It was Schtlessler's specific for epidemic influenza, but homeopaths need not confine themselves. When the correspondence is exact, the highest potencies will act better than the lower; when the likeness is more general, the lower will give the best results.

Headache, with drowsiness. Basal head

ache, as if the bones at the base of the brain were crushed, pressure on both sides or on right side of occiput. Sun headaches. Severe migraine, especially after a head injury or after grief. Nausea, vomiting, bursting and splitting migraines. Worse mental effort.

Spinal meningitis with violent, crushing pain in the occiput. Traumatic epilepsy from injury to the head. Blindness after head injury, cortical blindness. Personality change after head injury. Injuries to the spine, although more specifically for the head.

Mental troubles arising from injury to the head. Nervous exhaustion brought on by debilitating diseases. Chronic fatigue. Overly concerned with the future. Tend to project and plan a lot. Irritability, worse morning. The mind clears as the day goes on. Mental symptoms worse from music.

Sentimental. Worse from nursing loved ones, never been well since nursing a loved one. Overwhelming sense of being overburdened. Very independent. Angry, verbally violent. Resentment about life, regretful. Holds grudges.

Difficulty expressing emotions after a grief. Low spirits, even to suicidal impulse. Suicidal depression typified by a great conflict about whether to do it or not (Aurum has conflict over when they will do it). May act impulsively. Tendency to hanging or shooting themselves.

Postpartum depression, especially if the birth was traumatic (Sep. first). Feeling overwhelmed and overworked with new baby. Depression worse in the morning. Despair over recovery.

Hydremia, worse in humid weather, near the water and in moist, damp, underground dwellings. Ailments arise or are worse from dwelling in damp houses, from damp weather, damp soil, weather changing to damp, getting wet. Chest eruptions every spring. Warm-blooded, worse heat. Better from warm, dry weather, and being in the open air.

Asthma, particularly found in malarial districts. Humid asthma. Asthma after a cold. Attacks frequently occur in

the early morning hours. Skin symptoms during or after asthma. Asthma in children, with restless legs. Catarrhs with yellowish green or green secretions. Discharges are thick, green, yellow and painless (Med., pain and inflammation with the discharge). Bronchitis and coughs with a lot of mucus. Gonorrhea, sinusitis, and chronic urethritis.

Scrofulous ophthalmia. Granular lids. Photophobia (Nat-c., Nat-m.). Sensitivity in the eyes. Nosebleed before and during menses (not vicarious like Bry). Toothache is worse by warm things, intolerable by hot things, and better by holding cold water in the mouth.

Edema, edematous erysipelas. Vesicles on the skin containing yellowish water, moist herpes, ringworm, sycotic excrescences. Burning of the feet (Sulph.) and stiffness of the joints (Rhus-t.). Limbs feel bruised and weary, especially with migraines. Drowsy, weak, weary and heavy feeling.

Functional disturbances in the secretion of bile. Chills and fever, bilious fever, influenza, diabetes, bilious vomiting, bilious diarrhea. History of hepatitis. Gallstones with severe right-sided pain and cramps. Bad taste in the mouth in morning. Tongue is coated yellow or white.

Diarrhea in the morning (Sulph.), especially after eating fruits, pastries or ice cream. Diarrhea driving one out of bed. "Cheerfulness after loose stools." Craves yogurt. Likes dairy and cheese, but not as strong. Desires sweets, but aggravate. Worse from fruits or pastries.

Generally right-sided (Thuj., left sided). Hydrogenoid and sycotic miasm (Thuj.). Pain in the right colon, the right shoulder. Headaches over the right eye. Warts on the right foot and right hand (Thuj.).

H. C. Allen said that with the possible exception of Graph., no remedy has "such terrible sensitiveness to light." Hermann of Paris cured a young woman, a patient whose sleep was disturbed by dreams of fighting.

Leonard cured a case of violent asthma induced by unusual exertion with Nat-s. 200x.

W. J. Guernsey recorded a similar case.

Natrum sulphuricum Mrs. S., 36. had violent attacks of asthma, with greenish, purulent sputa, and a loose evacuation immediately after rising the last two days. Nat-s. 500c was given in water, every two hours. She was able to lie down the same night and all her symptoms rapidly cleared up.

Guernsey also had the case of Mrs. C., 42. who had been subject to attacks for years. Copious expectoration of greenish mucus. She was given Nat-s. in water every three hours. Improvement began after a few doses, expectoration became paler and less abundant. She felt better than she had for years previously.

Mahlon Preston cured many cases of threatened tuberculosis having "pains flying from the chest beginning with a dry cough."

Gregg gave the symptoms "all-gone, empty feeling in chest, a sense of weakness in chest, must hold chest with both hands when coughing for support to relieve the weakness." "Must hold chest because of pain and soreness, feels as if it would fly to pieces" (Bry., Phos.).

***NATRUM SULPHUROSUM

(Sodium Sulphite)

PHARMACY - nat-sulo. Natrum sulphuro- sum. Sodium sulphite. Sulphite of Sodium. Trituration. Solution.

Historical dose: All potencies.

HOMEOPATHIC - Clarence Bartlett related a case of chronic diarrhea in which "the stools were watery and looked very much like yeast." The patient had pain in right scapula as if bathed in hot water, was much debilitated, taking food provoked a stool. The face was whitish waxy, except the cheeks, which were a "light freckle color."

Farrington, on the indication "yeasty stools," suggested Nat-sulo. 3x, which cured after the failure of many other remedies.

REFERENCES Clarke.

***NECTRIANINUM

PHARMACY - nectrin. Nectrianinum. Nosode of tree cancer. Nectria ditissima. Dilution. Trituration of the parasite. **Historical dose:** All potencies.

CLINICAL - Cancer. Epithelioma. Hemorrhages. Neoplasm.

HOMEOPATHIC - Nectrianinum is a clear liquid of a yellowish-brown hue which was prepared by Bra and Chaussé. Two month old nectria cultures on grape broth were evaporated on a water bath until reduced to one-third of their original volume.

They were filtered through paper, and again through porcelain. The liquid was then taken to the autoclave at a temperature of 120 degrees centigrade. This assured that all spores are killed.

Observers said that Nectrin. caused "An arrest or diminution of hemorrhages. Suppression of fetid discharges. A tendency at times to epidermization of the neoplasm with a corresponding well-defined arrest in its evolution." The patients were worse when treatment was discontinued and better when it was resumed. In very advanced cancer, reaction may not occur.

RELATIONS - Compare: (1) Care., Cadm-s., Scirr.

REFERENCES-Clarke.

***NEON

PHARMACY - neon. Neon. **Historical dose:** All potencies.

CLINICAL - Asthma. Colds. Cough. Down's syndrome. Headache. Urticaria. **Yawning.**

HOMEOPATHIC-Down's syndrome. Headache, in temples, amel. hot bath. Eyes dry, tired, desire closing them. Heaviness and numbness of eyelids, as if they have been in chlorine. Hot face. Colds, much mucus, itching, blocked nose.

Sore throat, scraping, amel. water and tea, rasping, as if something stuck in it. Low voice, deep voice. Respiration asthmatic, cough agg. morning. Wart on first joint of right index finger. Urticaria.

Walking upright and gracefully. Worse right side. Weather, cold, as if freezing or very hot. Worse 5 p.m. Worse 5 a.m. Desires nothing. Desires oranges. Aversion to cold drinks, bread. **Yawning.** Worse from neon lights.

REFERENCES - Sherr.

***NEPENTHES DISTILLATORIA

PHARMACY - nep. Nepenthes distillatoria. Nepenthaceae family, related to the Aristolochiaceae. The mother tincture is prepared from the entire plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Diabetes insipidus. Dyspepsia. Endometriosis. Fatigue. Headaches. Hyperthyroidism. Menorrhagia. Migraines. Narcolepsy. Neurasthenia. Ovaritis. Torticollis. Ulcers. Vertigo.

HOMEOPATHIC - The Nep. symptomatology was established by Julian with a group of twenty-one people, five men and sixteen women, using the 15x, 6x, and 3x potencies and placebo in 1960-61.

Julian stated, "It is possible to confirm without being misleading, that is digestive and genital infections, for which we have described the clinical indication above, Nepenthe is a sure and faithful remedy of great value." Feeling of general, cerebral and physical tension. General fatigue with complete exhaustion around 3 p.m. Weariness and prostration, followed by a general improvement. Extreme tiredness with shivering.

Feverish, irritated, restless, hasty in actions. Over activity. General internal trembling, ameliorated by resting. Diminution of nervous tension. Pain in the 'nerves,' unfamiliar, new depressive sensation.

Painful sensitivity of the scalp. Dryness of the skin. Dyspepsia with dryness in the mouth, hunger-pangs, feeling of bruising in the epigastrium. Abdominal distention. Menstrual disorders with female frigidity. Hyperthyroidism.

MIND - Optimism, everything seems easier, less wasting. Hasty in actions. Irritation. Impatience, nerves jangle and feeling of anguish. Anguish, accompanied by sadness and depression. Neurosis from anguish. Depressive state with prostration, sadness and fatigue. Fatigue, prostration, sadness. Neurasthenia. Apathy. No desire to smoke. Narcolepsy. Hypochondria.

Abdomen - Dull aching in the liver. Feeling of a hard ball in epigastric region. Distention. Flatulent dyspepsia. Gastric and duodenal ulcers. Diaphragmatic hernia.

Back - Pains in the lumbar region when bending down. Lumbar area is fatigued. Chronic lumbar rheumatism. Torticollis.

Chest - Retro-sternal discomfort after meals.

Constitutions - Pre-senility. Carbo-flouric constitution. Thyroid conditions with cancerous tendency. Syphilitic poisoning.

Eyes - Pricking of eyelids. Conjunctivitis. **Female** - Hypogastric heaviness. Congestion of the pelvis. Feeling of swelling

of whole body 10 days before menses. Menses repeat after a period of amenorrhea lasting 6 months. Menses early by 5 days and copious. Secondary amenorrhea. Metrorrhagia and menorrhagia. Endometriosis. Stinging, needle-like, flashing pains around the right ovary in the morning. Left ovarian pain, spreading to the left kidney. Cystic ovaritis. Frigidity. Diminution of sexual desire. Infertility.

Food - Appetite wanting. Hunger with feeling of weakness. Hunger-pangs at 6 a.m. and around 11 a.m. Feeling of thirst. No desire to smoke.

Head - Migraines. Head heavy.

Heart - Feeling of a lump in the precordial region and in the arms, fairly violent, but not spreading and

disappearing gradually after half an hour, not aggravated by movement. Habitual hot flushes. Cardiac neurosis. Digestive cardiac pains.

Kidneys - Increased urinary excretion. Polyuria in the morning.

Limbs - Cramps in the left leg, soothed by bending the leg. Arthrosis of the hip. Pains in the left hip.

Lungs - Reflex cough, related to the thyroid area.

Modalities - Better in the fresh air. Worse at night. Worse towards the end of the day. Worse on the left side.

Mouth - Peculiar indefinable taste in the mouth. Insipid taste. Persistent taste of pimentos in the mouth. Taste like iron in the mouth during the morning. Burning flavor with feeling of dryness in the mouth. Dryness in the mouth, especially the pharynx with expulsion of mucus. Palate rough. Gingivitis.

Nose - Head cold. Atrophic rhinitis. Dryness of the nasal mucus membranes. Dry cough.

Rectum - Nausea. Heartburn. Stools easy, but can be painful to expel. Stools easy with bleeding hemorrhoids. Stools more difficult to expel.

Skin - Dryness of the skin and mucus membranes. Dry skin on the face with small eczematous eruptions. Ichthyosis. Pityriasis-type eczema. Herpes on the upper lip, on the right side. Rapid, clear regression of malleolar edema. Violent itching, situated at the fold of the left elbow. Labial herpes. Painful sensitivity of the scalp. Hair is more alive and is easier to arrange.

Sleep - Yawning, after eating, sleepiness. Sleep light and disturbed. Insomnia at first, then deep sleep. Wakes early.

Stomach - Gastric pains. Gastric dyspepsia. Swelling, heaviness in the stomach with the need to take deep breaths, ameliorated by alkalis, by walking in the open air. Feeling of bruising in the stomach. Stomach cancer.

Throat - Larynx, sensation of hardness, sensitive on palpation. Laryngitis.

Tongue - Glossitis. Tongue dry, thick. Feeling like parchment at the tip of the tongue and below the roof of the mouth. Tingling at the tip of the tongue. The median line of the tongue stands out from the tip to the root. Tobacco aggravates the tongue complaints.

RELATIONS - Compare: (1) Arg-n. - Phobic, asthenic conditions, irritation of the mucus membranes. Anxious agitation, weakness of the legs with trembling. Feeling of a splinter of wood lodged in the pharynx. (2) Merc-v. - Mental slowness, weakness and trembling at the slightest exertion. Fetid odor in the mouth with metallic taste, nocturnal sweating, diarrhea, copious menses and burning, itching leucorrhea.

REFERENCES - Julian.

***NEPETA CATARIA

(Catnip)

PHARMACY - nepet. (catar.) Nepeta cataria. Catnip. Catmint. Cataria nepeta. Catria vulgaris. N. O. Labiatae. Europe and North America. Tincture of the whole plant **Historical dose:** Tincture and all potencies.

CLINICAL - Abdominal, pain. Amenorrhea. Bronchitis. Catarrh. Colds. **Colic.** Coryza. Cramps. Diarrhea. Dysmenorrhea. Dyspepsia. Exanthemata. Fever. **Flatulence.** Headaches. Hiccoughs. Hyperactivity. Hysteria. Indigestion. Influenza. Menstrual, cramps. Nausea. Nightmares. Sleeplessness. Stomach, cramps. Vomiting.

HERBAL - Nepeta cataria is diaphoretic, tonic, antispasmodic, diuretic, refrigerant and carminative. As it produces free perspiration it is very useful in colds, etc.

C. D. Collins, M.D.. in the Electric Medical Journal, noted, "The infusion of the fresh plant certainly has something in it or about it that produces excellent results, and is soul satisfying when given to the crying baby. The infusion of the dried plant does not do so well.

"In fact, the tincture is preferable to the use of the dried article. Catnip relieves pain and produces sleep. We give it to the colicky baby. Its persistent crying and kicking and writhing soon ceases, and balmy sleep causes baby to forget its troubles.

"Catnip is not necessarily a baby remedy. many think of it only in this field. It is a woman's remedy, and produces just as certain and pleasant effects in nervous headache, nervous irritation, hysteria, amenorrhea, dysmenorrhea.

"It is an excellent remedy to bring about the relaxation necessary to the appearance of the exanthemata. In acute coryza or catarrh, bad colds, or la grippe, no remedy surpasses full doses, say ten to twenty drops, in hot water every hour or oftener."

The infusion of 1 oz to 1 part boiling water may be taken by adults in doses of 2 tablespoonfuls, by children in 2 or 3 teaspoonfuls frequently, to relieve pain and flatulence.

Ten to thirty drops of the tincture, added to five teaspoonfuls of hot, sweetened water, and given freely, constitutes a good treatment for colicky and fretful infants.

Culpeper stated, "The green herb, bruised and applied to the part for two or three hours, easeth the pain arising from piles. The juice also, being made up into an ointment, is effectual for the same purpose. Washing the

head with a decoction thereof taketh away scabs, and may be used to the like effect on other parts of the body.”

Some of the herbalists recommend the use of the herb against barrenness. Avoid catnip during pregnancy.

HOMEOPATHIC - Nepet. is a children's remedy for **colic and indigestion** (Cham, and Mag-p.). Colic and sleeplessness in babies (Cham.). Abdominal complaints, with pain, flexing of thighs, twisting of body, crying. **Fretful and irritable children from indigestion.** Nervous headache and hysteria. Nervous irritability and insomnia in adults.

COMMENTS - Catnip is so named because of the general fondness of cats for this plant. It is said that when the plant starts to wither cats will roll themselves in it and chew it. There is an old belief that it makes cats “frolicsome, amorous and full of battle.”

There is also an ancient belief that “if the root be chewed it will make the most quiet person fierce and quarrelsome.”

*** NEUROLAENA LOBATA

(Jackass Bitters)

PHARMACY - neuro-1. Neurolaena lobata. Jackass bitters. Golden bitters. Alligator's foot. Kayabim. N. O. Asteraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Amoebas. Candida. **Diabetes.** Giardiasis. Fungus. Hypoglycemia. Lice. Malaria. **Parasites.** Ringworm. Wounds

HERBAL - Neurolaena lobata is a member of the Asteraceae family and a common Central American plant. It has yellow flowers and bitter-tasting leaves which contain a potent anti-parasitic agent (sesquiterpene dialdehyde), that is active against amoebas, candida, giardiasis and intestinal parasites.

A tea made from the root is used to cleanse the blood, and a leaf tea is used to treat intestinal parasites, malaria, fungus and ringworm. It is also topically to bathe wounds to prevent infection, and to use as a hair wash for ridding the hair of head lice. Boiled and strained leaves have been used as an insecticide for house and garden plants.

There is some preliminary research that indicates N. lobata helps **regulate blood sugar levels**, which can ultimately help

Neurolaena lobata diabetics manage their condition. A subsequent animal study showed that a tincture of this plant lowered blood glucose levels in animals.

***NICCOLUM CARBONICUM

(Nickel Metal)

PHARMACY - nice. Niccolum carbonicum. Nickel metal. Niccolum metallicum. Nickel carbonate (Ni, At. Wt. 58.6). Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthenopia. Clavus. Coryza. Cough. Dysmenorrhea. Face, chapped. **Headaches.** Hoarseness. **Hiccough. Migraines.** Nasal, catarrh. Neck, cracking. Ophthalmia. Sneezing. Speech, impeded. Throat, sore. Tongue, stiff. Toothache. Vertigo. Vision, impaired. Whooping cough.

HOMEOPATHIC - Nickel is found associated with cobalt. It is said to have received its name, the devil, from miners who considered it “false ore” as they were mining for copper. Cobalt (Kobold) possibly has a similar derivation as nickel forms the chief ingredient in the alloy known as “German silver.”

Nickel was proved by Nenning and the pathogenesis contains some striking symptoms, many of which have been confirmed.

Sir James Y. Simpson used the sulphate of nickel in **“periodic headaches of a very severe character,”** and the provings show that the metal and the carbonate are equally appropriate in this connection.

Periodic nervous headaches with asthenopia, weak digestion, constipation of debilitated literary persons. Cracking in cervical vertebra on moving the head. Catarrh. Violent hiccough with thirst.

Hoarseness. “Must sit up and hold head with both hands with the cough.” The child must be held up when coughing or it will go into convulsions. Must sit up and hold the head with hands or has to put the arms on thighs when coughing, worse night.

Great debility in evening. Restlessness, worse at night, from agitation. Tearing and shooting in the limbs and other parts. Compelled to change position continually with vomiting and colic after suppressed menstruation. Dysmenorrhea.

MIND - Dullness of mind, does not comprehend the conversation and is unable to relate properly in conversation. Dislike to conversation. Taciturn, fretful. Low-spirited. **Disposition to contradict.** Vexed and very angry from least contradiction. **Irritability during headache.** Quarrelsome in evening.

Anxious moroseness and inquietude. Anxiety on moving as if sweat would break out. Fears something evil will happen. Trembling and fright with desire for solitude. Restlessness, after midnight. Confusion, as after intoxication, in morning.

Abdomen - Abdominal pains go from left to right. Violent stitches, as with knives in hypochondria. Pinching around navel. Painless rumbling in abdomen. Tension of abdomen and discharge of flatulence.

Back - Cracking in cervical vertebrae when moving the head. Pain in neck, as from a sprain. Stitches in small of back, in afternoons. Pain in the small of back during a soft stool.

Chest - Pressure and heaviness on chest. When coughing, dyspnea and pressure on chest. Stitches in chest when breathing. Shootings in chest, especially when laughing. Pain, as from excoriation in chest.

Constitutions - Hering said it is suited to literary people who suffer from periodical nervous headaches, weak, asthénopie, weak digestion, constipation, worse morning on awaking.

Ears - Stinging in ears. Shootings in ears. Sudden deafness with roaring and humming in ears, in evening.

Eyes - Heat and redness of eyes with pressing in them. Violent twitching in eyes, with lachrymation and difficulty of vision. Agglutination of eyes in morning. Vision very much impaired, especially in the evening. Objects appear too large.

Face - Skin of face chapped. Right side of face red and hot. Redness of face with burning and itching like erysipelas. Swelling of right side of face with sore throat. Painful sensitiveness and cramp

Niccolum carbonicum in maxillary joint, which hinders mouth from being easily opened. Twitching of upper lip. Itching tetters on cheeks. Eruption on lips.

Female - Menses premature, scanty and of too short duration. Menses late, scanty with great debility and burning in eyes. During menses, bloated abdomen, colic, pain in small of back, great debility, burning of eyes. Profuse leucorrhea, worse after menses, after urinating (Mag-m., Plat.), watery after urination.

Food - Farinaceous taste in mouth on rising in morning. Risings with taste of roasted meat. Aversion to meat. Want of appetite. Thirst in evening. Violent thirst day and night.

Head - Migraines, first on left side. Periodical headaches, every two weeks. Headache all day in forenoon with vomiting of bile. Pain on top as from a nail. Pressure on vertex in morning, worse until noon and in warm room. Stitches.

Kidneys - Increased secretion of urine, also at night. Burning at orifice of urethra during urination. Burning urine. After urination, discharge of thin leucorrhea.

Limbs - Headache feels heavy, tremble, feel bruised. Pain in shoulders as if sprained. Rheumatic pains in elbows, extending to hands in fingers. Heaviness in the hands and feet, better by motion. Feet feel heavy, tremble and are weak. Stitches in left heel.

Lungs - Hoarseness. Dry, hacking, regular cough with stitches in chest. **Obliged to sit up and hold head, must put arms on thighs.** Violent cough at night. Dry, scraping cough with sleeplessness. Cough from tickling in trachea. Expectoration of white mucus.

Male - Itching on a small spot of scrotum, scratching does not relieve. Erections, worse after dinner.

Modalities - Better in open air, evening, after eating. Cold helps pain in face. Coughing helps roughness of throat. Worse periodically, every two weeks, yearly, forenoon. Worse from motion, pressure, after midnight. Talking and yawning aggravates sore throat.

Mouth - Breath is offensive, of which he himself is not aware. Bitter taste in mouth in morning. Abundant accumulation of sweetish saliva in mouth. Stiffness of the tongue, it is difficult to talk.

Nose - **Violent sneezing.** Obstruction of nose, nose stopped up at night. Coryza, fluent during day and dry during night. Nasal catarrh with redness and swelling at tip of nose. Acute pain at root of nose, extending to vertex and through temples. Stinging, tearing and soreness at root of nose. Eruption on nose. Dryness of nose.

Rectum - Constipation, ineffectual urging to go to stool. Stool very hard and only discharged with great effort, has to press hard to discharge the stool. Diarrhea with yellow mucus, expulsion with great force and much flatulence. Diarrhea after drinking milk with tenesmus, preceded by cuttings or burning in anus. During stool, burning and stitches in rectum and anus. After stool, anal itching, burning and stitches.

Sensations - As if sweat would break out. As if brain were cut to pieces. As if she had not slept enough. As if a nail was sticking in head. As if neck sprained.

Skin - Itching over the whole body, but mostly on the neck, as from fleas, not better by scratching, but followed by small vesicles. Itching and pimples in small of back. Itching on shoulders, scratching does not relieve. Itching tetters.

Sleep - **Sleeplessness** from midnight until 4 a.m. Wakefulness. Frequent awakening at night from agitation.

Pain in swollen face wakens him at night, it is better by cold. Awakens after midnight with colic. Feels as if she had not slept sufficiently.

Stomach - *Gone, empty feeling in epigastrium without desire for food.* Acute stomach pains, extending to shoulder. Painful sensation of constriction of stomach. Fullness in stomach after eating. Thirst and **intense hiccough**, especially in evening. Bitter and sour belchings. Nausea. Diarrhea and tenesmus after milk.

Teeth - Swelling of gums. All teeth feel loose and elongated. Gnawing toothache in evening. Toothache with tearing in

ears toothache with tearing in right ear. Sour, fetid secretions ooze from decayed molar teeth.

Temperature - Chill is preceded or begins with yawning and sleepiness. Chill with chattering and shaking, followed by profuse general perspiration. Continuous chill with moist palms of hands. Heat with perspiration and thirst, followed by chill. Anxious heat with violent thirst. Fever, restlessness and vomiting at night. Morning sweat.

Throat - Hoarseness, every year at same time. Sore, right side with great tenderness, **Soreness to touch externally.** Sore throat, worse when speaking or yawning. Throat feels sore as if ulcerated on swallowing. Stitches in throat on swallowing. Spasmodic contractions and sensation of strangulation in throat. Roughness in throat better by coughing. Accumulation of thick mucus in throat with stinging pain. Swelling of tonsils on right side, as well as of face and neck, which are painful when touched.

Vertigo - Vertigo with nausea and desire to vomit. Vertigo with dizziness and staggering, as from weakness, worse on getting in up in the morning. Vertigo in the morning, when rising after stooping in evening.

COMMENTS - W. A. Clausen noted that, in the sore throat, the right side had exquisite tenderness, soreness to touch externally on affected side. Must sit up and hold the head with both hands when coughing, or has to put arms on thighs when coughing.

Mahony cured with Nice. 200c a middle- aged woman who had "loose hacking cough day and evening and at 9 a.m., has to put arms on thighs when coughing."

H. Moser cured cases when the pain was worse at 10 a.m. to 11 a.m. and could be so intense as to cause the patient to cry out, appeared first left side, could jump to right, disappeared in evening.

***NICCOLUM SULPHURICUM

(Nickel Sulphate)

PHARMACY - nicc-s. Niccolum sulphuricum. Nickel sulphate. **Trituration. Historical dose:** Trituration and all potencies.

CLINICAL - Headaches. **Hot flashes.** Menopause. Migraines. Neuralgia, periodic. Spinal, pains.

HOMEOPATHIC - Nicc-s. is for weak, asthénopie literary persons with weak digestion and constipation, who are worse in morning and suffer from periodic headaches and hoarseness.

Urine and saliva increased. Coppery taste in mouth. Periodic neuralgias of malarial origin. Menopausal disturbances.

MIND - Nervous, uneasy. Restlessness, cannot settle down to any occupation. Desire to recline, tired.

Back - Stiff, numb sensation, worse in neck.

Spine sore. Spinal pains, legs and arms heavy and weak, cannot lie on back.

Female - Dull aching in ovaries with sensation as if menses appear. **Hot flashes**, followed by perspiration on parts touching each other, when separated become dry.

Head - Periodic headaches, occipital pain, extending down to spine, worse lying on back, sore pain in eyes.

Limbs - Awakened in morning with burning soles.

COMMENTS - J. Y. Simpson cured with Nicc-s. periodical headaches of very severe character. Hale used with success the Nicc-s. 2x trituration in periodic neuralgias of malarial origin.

REFERENCES - Boericke. Clarke.

***NICOTIANA RUSTICA

(Tobacco)

PHARMACY - nicot-r. *Nicotiana rustica*. Tobacco. Nelson's horehound. N. O. Solanaceae. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdomen, pain. Absent-minded. Allergies. Asthma. Backache. Belching. Brain-fag. Bronchitis. Cancer. Canker, sores. Chills. Collapse. Convulsions. Coryza. Coughing. Delirium. Distension. **Dyspnea**. Emaciation. Epilepsy. Fainting. Flatulence. Hay fever. Headaches. Insomnia. Itching. Lachrymation. Lung disorders. **Nausea**. Palpitations. Photophobia. Rumbling. Salivation. **Seasickness**. Sinusitis. Spasms. Tetanus. **Tobacco, effects**. Ulcers. Unconsciousness. **Vertigo**. Vesicles. Vomiting. Weakness.

HERBAL - Tobacco refers to a genus of broad-leaved plants of the nightshade family indigenous to North and South America, or to the dried and cured leaves of such plants. Tobacco leaves are often smoked (see tobacco smoking) in the form of a cigar or cigarette, or in a smoking pipe, or in a water pipe or a hookah. This could damage the lungs and could also potentially cause lung disorders such as asthma. Tobacco is also chewed, "dipped" (placed between the cheek and gum), and sniffed into the nose as finely powdered snuff.

Nicotiana rustica is a very potent variety of tobacco. The high concentration of nicotine in its leaves makes it useful for creating organic pesticides. It is also used for religious purposes by South American shamans. Growing in the rainforest it contains up to twenty times more nicotine than common North American varieties such as *Nicotiana tabacum*.

HOMEOPATHIC - Richard Pitt conducted a recent proving of *Nicotiana rustica* which was written up in his book called Tobacco. Tobacco contains the nicotine, a powerful neurotoxin that is particularly harmful to insects. All means of consuming tobacco result in the absorption of nicotine in varying amounts into the user's bloodstream, and over time the development of tolerance and dependence.

Nicotine is the key alkaloid found in tobacco. Extremely addictive and poisonous, one or two drops of pure nicotine can be lethal. In some varieties of *Nicotiana rustica*, the nicotine content of the leaves can be as high as 20 percent.

Toxic effects of tobacco include perspiration, light-headedness, general weakness, tremors, convulsions and respiratory paralysis.

Interestingly, one of the keynote symptoms of *Tabacum* is a sinking feeling, usually associated with nausea. This was confirmed in the *Nicotiana rustica* proving, but the **feeling of sinking was also seen in its psychological sensations**, making it a theme of the remedy. The sinking was explained in different ways, from a falling from a high place into the earth, a falling through space, a general sinking feeling in the body. The sinking feeling was confirmed in the stomach and abdomen region.

The **vertigo** symptoms were confirmed and also elaborated on with *Nicotiana rustica*. This falling, sinking feeling was consistent throughout the remedy picture, and more modalities were confirmed than are currently found with *Tabacum*. Physically, there were strong vertigo symptoms, one prover experienced debilitating vertigo for over 4 weeks.

There were characteristic headache symptoms, often described as being neuralgic in nature, and also eye and face symptoms which were neuralgic in nature. In the ear and nose symptoms, there was a particular feeling of "openness", which could parallel some of the mental experiences, a sense of opening to other dimensions, or like the earth opening up, creating an abyss or chasm.

The nose also had some itching and tickling and a delusion of smelling smoke or a herb. The mouth had symptoms of tingling, and also a feeling of numbness, showing the alternating state of the remedy.

Deathly nausea is one of the well-known characteristics of *Tabacum*. The stomach and abdomen showed similarities to that of *tabacum*, with a sinking feeling, an emptiness and hollowness, along with the characteristic nausea. Along with the sinking feeling, there was a rising feeling, and feeling like a wave, revealing a similar state to the mental experiences of rising and sinking.

In the respiratory system, there were some cough symptoms, often of a tickling nature, worse by any cold, air or water and in the chest some sharp, stitching pains, similar to heart symptoms.

There were some characteristic symptoms in the back and limbs with aching, burning and stitching sensations. Also in the limbs, there were sensations of weakness, heaviness, fatigue, a sprained feeling, and jerking spasms. All the joints were affected, including the feet and hands. The shoulder and arm symptoms and general aching should be compared with *Lycopersicum* (tomato), another solanaceae remedy.

There were some interesting sleep symptoms, especially waking suddenly from sleep, as if from a jolt or a feeling of being half awake and asleep. There was extreme tiredness, even a feeling of complete collapse. Similar to *Tabacum*, there was an extreme feeling of chill, going through the whole body, including the bones. The coldness was felt both externally and internally.

In general, there was a feeling of weariness, heaviness and exhaustion and also the opposite, a feeling of energy circulating the body, a feeling as if to take off, to fly, along with an up and down feeling, a rocking

sensation and vibrations throughout the body, a nervous excitation and pulsating in the body. There was a desire for salty food, sweets and ice cream and an increased thirst. Faintness. Emaciation.

MIND - The mental image of the proving also revealed a heightened sense of awareness, clarity and lightness. Full of ideas. Anxiety from smoking tobacco. Mental excitement. Joy and cheerful feelings.

Increased mental dullness. Absentminded. Confusion of mind. Difficult concentration. Sadness. Depression about being away from loved ones. Hurried feelings. Nervousness and restless. Impulsive. Fear of heights. Fear of falling. Fear to go to sleep. Awkwardness. Aversion to exertion.

Delusion to be sinking. Delusion of being possessed. Mind and body are separated. Delusion of floating in air. Delusion that air is flowing through him. As if in a dream. Delusion of once being in an earthquake.

The clarity and light seemed psychedelic in nature and was connected to the feelings of being between sleep and waking. The connections between life and death were also seen in the dreams, with themes of birth and death and also dreams of the past. Both the dreams and waking state revealed a sense of being in between both states.

Abdomen - Coldness. Distension. Rumbling. Flatulence after eating. Flatulence from emotions. Fullness sensation. Itching. Abdomen pain, better from belching, passing flatus. Cramping pain in morning on waking. Cutting pain umbilicus region. Sinking sensation. Swelling of abdomen in morning on waking.

Back - Bubbling sensation in spine. Buzzing sensation in lumbar region. Backache. Neck, sore, aching pains. Back pain between the scapulae. Aching pain. Burning pain in spine. Sharp pains dorsal region. Lumbar spasms. Stiffness of back, neck.

Breasts - Aching pains. Burning pains above nipples. Nipple pains. Sharp pains in breasts, nipples.

Chest - Anxiety in chest. Chest pain. Constriction. Burning pains axilla.

Coughing - Asthmatic coughs. Dry cough. **Coughing with gagging.** Painful, irritable coughs. Tickling cough. Sudden coughs. Paroxysmal coughs. Violent coughs with jerking of body. Coughing from eating, cold drinks.

Ears - Fullness sensation. Redness. Itching. Heat sensation in left ear. Pulsation of eardrum. Ear pains, in morning, on waking. Burning, pressing pains. Crackling noises in ears. Sensitive hearing to high pitched noises.

Eyes - Itching of eyes. Dryness. Lachrymation. Eye pains. Burning pain. Stinging and stitching pains. Photophobia. Sensitive to sunlight, must close the eyes. Tired sensation, better from closing eyes. Eye tension and strain. Swelling.

Face - Eruptions. Red face, cheeks. Rash on

Nicotiana rustica chin, forehead, cheeks. Pimples, tingling, painful to touch. Numbness. Jaw pains. Pressing, stitching pains. Clenched, stiff jaws. Crunching noise when closing jaws.

Female - Menses bright red, copious. Menses, scanty. Itching of vagina. Increased sexual desire. Irregular menses, returns after having been ceased.

Food - Thirst. Desires ice cream, sweets and salt.

Head - Itching of head. Congestion. Constriction sensation. Heaviness sensation, in morning, on waking. Headache from tobacco smoke. Headache from strong odors. Dull pain in forehead and temples. Fullness sensation. Pressing, pulsating pains. Pain on sides of head. Tingling, vibrations, wavelike sensations. Sinus headache. Opening sensation in frontal sinuses, in the morning, on waking.

Heart - Anxiety in heart region, worse when thinking of it. Palpitations. Sensation of pulse reverberating throughout the body.

Limbs - Icy cold foot. Burning pains. Convulsion on side not lain on. Dryness of hands. Eruptions, red spots. Itching of hands and feet. Heaviness sensation of lower limbs while walking. Paralysis sensation. Sensation as if shoulder is dislocated. Stiffness of lower limbs. Tinglings. Pulsations in wrist and shoulders. Trembling and weakness. Sensation as if ankle is sprained.

Lungs - Catching respiration. Bronchitis. Shortness of breath. Expectoration difficult. Tingling. Sensation as if lungs are expanding.

Modalities - Better open air. **Worse in mornings, on waking.**

Mouth - Dryness of mouth, lips. Tingling of lips, mouth. Itching of the corners of mouth. Salivation. Vesicles, gums. Taste wanting. Canker sores. Ulcers.

Nose - Nasal congestion, obstruction. Allergies. Hay fever. Coryza. Nasal discharge clear, **watery or y Mow.**

Nasal discharge in morning on waking. Sinusitis. **Sensitive to odors** of flowers, food, mothballs, smoke. Burning in nostrils. Sneezing. Sensation of air flowing through bridge of nose.

Rectum - Constipation. Ineffectual urging and straining. Flatus. Inactivity of rectum. Soft stool. Dark stool. Hard stool.

Sensations - Pulsations. Rocking sensation and vibrations. **Wavelike sensation.** Sinking, emptiness,

sensation. **Hollow sensation.** Sensation of air flowing.

Skin - Cold skin. Eruptions, itching. Sensation of air flowing in and out of skin. Pimples. Stinging pain.

Sleep - Insomnia, protracted. Sleeplessness after waking. Wakes after midnight. Wakes 2:30 a.m. to 3:30 a.m. Wakes unrefreshed in the morning. Half awake while dreaming. Dreams of childbirth. Dreams of falling. Dreams of high places. Amorous dreams. Dreams of mortification, grief. Dreams of old friends, children. Dreams of animals, pets.

Stomach - Acidity. Burning pain. Cramping pain. Churning sensation. Indigestion. Belching, bending forward, agg. Stomach distension after eating. Flatus. Rumbling. **Nausea.** Nausea in morning. **Deathly nausea.** Nausea, better drinking. Nausea from smoking tobacco. Nausea, better urination. **Wavelike sensation.** Sinking, emptiness, sensation. **Hollow sensation** in stomach.

Temperature - Chilliness. Icy coldness of body. Bones cold. Chill, morning, forenoon. Chills beginning in the feet, moving upward. Fever alternating with chills. Cold feeling upper body.

Throat - Constriction. Dryness of throat. Itching. Sore throat, worse on swallowing. Burning pain. Sore throat on waking in morning. Scraping sensation, better cold drinks. Disposition to hawk. Swallowing difficult. Tickling in throat, better coughing. Larynx, cold sensation.

Tongue - Tingling of tongue. Sensation as if tongue is enlarged, swollen. Tongue numbness.

Vertigo - Vertigo with disorientation and weakness. **Vertigo as if in an earthquake.** Vertigo with nausea. Vertigo with wavelike sensations. Vertigo as if floating. Vertigo worse exertion, morning. Vertigo better from sitting. Vertigo on rising.

Vision - Blurred vision. Acute vision. Objects seem to approach then recede. Sensation that their vision was lost. Weakness of vision.

COMMENTS - Tobacco smoking carries significant risks including the potential to develop various cancers as well as strokes, and severe cardiovascular and respiratory diseases.

Significantly shorter life expectancies have been associated with tobacco smoking. Many jurisdictions have enacted smoking bans in an effort to minimize possible damage to public health caused by tobacco smoking. The substantially increased risk of developing cancer as a result of tobacco usage seems to be due to the plethora of nitro- samines and other carcinogenic compounds found in tobacco and its residue as a result of anaerobic heating, either due to smoking or to flue-curing or fire-curing.

The word death is interesting in relation to this substance. The above facts of the use of tobacco are testament to the toxicity of tobacco and its impact on societies throughout the world. It is the most widely used drug known to man, having spread originally from the Americas to the rest of the world. Nicotiana plants were frequently seen in cemeteries, reinforcing the connection between tobacco and the other world.

***NICOTINUM

(Nicotine)

PHARMACY - nicot. Nicotinum. Nicotine. An alkaloid from Nicotiana tabacum. N. O. Solanaceae. Solutions in distilled water or alcohol. **Historical dose:** All potencies.

CLINICAL - Aura of epilepsy. Brain-fag. Collapse. Delirium. **Dyspnea.** Epilepsy. Fainting. Headache. Lachrymation. Lung, disorders. Nausea. Seasickness. Spasms. Tetanus. **Tobacco, effects.** Unconsciousness. Vertigo. Vomiting. Weakness.

HOMEOPATHIC - Nicot. had a very heroic proving by Flak, Wochenfled, Wertheim, Schroff and Reil. Very violent tonic and clonic spasms were produced. Dullness of senses. Loss of consciousness.

Alternate tonic and clonic spasms, followed by general relaxation and trembling, nausea, cold sweat and speedy collapse. Coldness extends from fingertips and toes over trunk.

Jerking respiration. Breathing difficult and impeded, every respiratory effort consisting of a series of short jerks in quick succession. So weak could scarcely hold up head. Paroxysms of faintness beginning with a vanishing of senses and ending with loss of consciousness.

Great aversion to tobacco and tobacco smoking. One prover, a smoker was unable to smoke more than a few whiffs, the other, a non-smoker, could not approach any one who was smoking.

MIND - Excitement. Inability to think or fix attention on any subject. Delirium with frightful vision. Uneasiness. Brain-fag. Loss of consciousness.

Abdomen - Distended. Disagreeable sensation through whole intestinal canal.

Chest - Oppression, compelling deep breathing. Sensation of foreign body behind sternum.

Ears - Indistinct hearing, sensation as if ears filled with cotton.

Eyes - Pupils dilated. Indistinct vision with sensitiveness of eyes to light. Lachrymation. The eyelids feel too

heavy.

Face - Face pale, features drawn. Sensation of an aura in upper jaw.

Head - Dullness of head, heaviness, dizziness, stupefaction. Head drawn back with rigidity of muscles of neck and back.

Heart - Pulse and respiration very irregular, sometimes becoming very rapid, sometimes sinking. Constant sinking of pulse. Pulse increased in frequency in direct proportion to dose.

Kidneys - Urgent desire, urine copious, increased.

Limbs - Formication, beginning in fingertips, extending to the wrists and afterwards to elbows. Weakness of lower limbs, on

going up stairs,

Lungs - Breathing, very rapid and difficult.

Mouth - Increased saliva. Scraping, burning taste, especially low down in throat, causing hiccough and hawking. Sharp, burning sensation in tongue.

Nose - Expired air had odor of alcohol.

Rectum - Excessive desire for stool, better by emission of flatus and urine. Stool retarded.

Sensations - Great sensitiveness of eye to light, along with indistinct vision. Aura in upper jaw. As though a sharp brush had been drawn through esophagus to stomach,

Skin - Dryness of skin.

Sleep - Sleepy. Restless night, sleepless, hot and excited.

Stomach - Loss of appetite. Emptiness and faintness in stomach and intestines. Disagreeable sensation extending from stomach upwards and downwards. Hiccough. Eructation with some vomiting which relieves.

Temperature - Shaking chill. Limbs icy cold. Coldness beginning in fingertips and toes and extending to trunk. Cold sweat. Sensation of warmth commencing in stomach, rapidly extending over chest and to head and like a streaming into fingertips and toes, not followed by sweat.

Throat - Dryness and scraping in throat. Sensation as though a sharp brush drawn through esophagus to stomach. Sensation of dysphagia.

Vertigo - Vertigo and headache.

COMMENTS - Increasing clonic spasms, trembling limbs, extending over whole body, which violently shakes. Head drawn back, contraction of eyelids and masseter muscles, muscles of neck and back rigid, hissing respiration from spasm of laryngeal and bronchial muscles.

RELATIONS - Antidotes: See under Tab. **Compare:** (1) Tab., Dig., Lob., Absinth.

***NIGELLA SATIVA

(Black Cumin)

PHARMACY - nig-s. Nigella sativa. Black cumin. Common Fennel flower. Blessed seed. N. O. Ranunculaceae. Tincture from rectangular black seeds. **Historical dose:** Tincture and all potencies.

CLINICAL-Allergies. Amenorrhea. Asthma. Belching. Bites. Bronchitis. Colic. Coughs. Dysmenorrhea. Gallstones. Gout. Fevers. Flatulence. Hemorrhoids. Indigestion. Jaundice. Leucoderma. Paralysis. Parasites. Ringworm. Salivation. Whooping cough. Worms.

HERBAL - Nigella sativa is the fennel flower of the buttercup family. It is sometimes confused with the fennel plant (Foeniculum vulgare). It has blue flowers and black seeds, which have been used in Egyptian and Arabic medicine.

Avicenna maintained that it is an expectorant and tonic for low energy and apathy. Affects the digestive tract and the respiratory tract. It acts as a tonic for weak digestion, colic, gas and belching. Dry coughs, asthma, bronchitis and whooping cough. Leucoderma, skin allergies, periodic fevers, hemorrhoids.

A special oil is extracted from Nigella which was used in herbal formulas as a digestive tonic and stimulant. Undiluted Nigella oil causes irritation to the stomach and intestines, increases the flow of breast milk, stimulates the menstrual flow and causes excessive salivation. It helps prevent gout if added to the diet.

COMMENTS - Placing the powdered seeds in a cloth and inhaling them helps reduce the common cold. A decoction of the black seeds helps amenorrhea, dysmenorrhea, intestinal worms, fevers, paralysis and hemorrhoids.

Adding the seeds to the diet will help prevent gout. Drinking a tea made from the crushed seeds with honey can help dissolve gallstones and kidney stones. The tea also increases the flow of the breast milk, the menses and urine.

An ointment was used to stimulate the growth of the beard and helps prevent hair graying. Used externally for ringworm. Dog

bites and spider bites. The smoke of black seeds drives insects away.

RELATIONS - Compare: (1) Lyc.

REFERENCES - Al-Akili. Murphy.

***NITRI SPIRITUS DULCIS

(Sweet Spirits of Nitre)

PHARMACY - nit-s-d. Nitri spiritus dulcis. Sweet spirits of nitre. Aethylum nitrosum. Spiritus etheris nitrois. Nitrous ether. A mixture of alcohol, water and ethyl nitrite: it contains no "nitre" (Kali-nit.).

Düution.Historicaldose: Tincture and all potencies.

CLINICAL - Backache. Canker, sores. Chills. Colds. Colic. Constipation. Cough. Diarrhea. Dropsy. Dysentery. Dyspnea. Fever. Gallstones. Headaches. Mouth, sore. Nausea. Nephritis. Paralysis. Photophobia. Prosopalgia. **Salt, abuse.** Scarlet fever. Scurvy. Tibia, pains. **Typhoidfever.** Vertigo. **Vomiting.** Warts.

HOMEOPATHIC - Nit-s-d. was proved by Lembke. Poisonings give a perfect picture of the typhoid state. Hahnemann recommended it for hospital typhoid with apathy In fevers, Hahnemann advised that Nit-s-d. should be given a few drops dissolved in an ounce of water, a teaspoonful every three hours.

typhoidfevers with symptoms of cerebral paralysis. **Sensorial apathy** in low fevers when there is stupor, difficulty of arousing patient is met by this remedy. Great fatigue, a recumbent position can alone mitigate and tranquilize it. Excessive emaciation. Swelling of veins. Very sensitive to cold. Catching cold in stormy weather causes prosopalgia.

Ill effects of excessive salt intake (Phos.). **Sore mouth of salt eaters.** Salty taste. Dry skin, nausea, flatulence. Dropsy. Excellent diuretic. Acute nephritis following scarlet fever. Urine very scanty. Bloody diarrhea. Scurvy. Hands covered with warts.

It has been used as a remedy for incarcerated gallstones, given beaten up with an egg yolk and applied outwardly in the same form.

The symptoms of Nit-s-d. go from below upward, worse on passive motion, riding in carriage. Worse from cheese. Nit-s-d. has

been found to be an antidote to several medicines. It increases the action of Digitalis.

MIND - Excessive ill-humor. Irrascibility, passion and quarrelsome disposition with tendency to weep. Complete apathy, without desire for anything. **Lies indolently without sleeping or speaking.** Dislike to labor and conversation.

Delirious and incoherent in manner. **Hears and desires nothing, unconscious.** Dizzy as if intoxicated, when roused could answer questions, complained of headache and said he found it difficult to walk straight.

Abdomen - Shootings, cutting and burning pains in abdomen. Cutting in umbilical region. Stitches in left side below navel. Rumbling in abdomen. Colic. Incarcerated gallstones.

Back - Backache. Violent pressure in nape and cervical vertebra. Pressure and stitches in region of spine. Drawing in scapulae. Sensation as hot water creeping through back from below upward.

Causations - Salt, cheese. Stormy weather.

Chest - Painful constriction behind sternum. Pressure and stitches in chest. Stitching in skin of left axilla.

Eyes - Black spots and rings float before eyes. Pupils contracted. Pupils somewhat dilated, acting feebly. Stitches in eyes and lids, burning on margins. Twitching of eyelids.

Face - Prosopalgia with photophobia. Burning in cheeks. Very sensitive to cold. Boring in facial bones in angles of lower jaw. Twitching in middle of left upper lip. Chronic soreness in corners of mouth, patient eats much salt.

Food - Want of appetite. Worse after eating, from cheese. **Ill effects of excess salt** (Nat-m., Phos.).

Head - Confusion, fullness, heaviness in forehead. Violent boring pain in forehead. Drawing, tearing pain, pressure and heaviness in head. Boring or pressure in temple. Pressure, heaviness and heat in occiput. Stitches in vertex. Drawing pain on scalp.

Heart - Feeling of pressure in heart. Violent beating of heart.

Kidneys - Frequent desire. Increased urination, clear urine.

Limbs - Wandering pain in limbs. Pressure, boring and stitches in muscles and joints.

Lungs - Short, dry cough. Dyspnea. Shortness of breath and wheezing, while eating, before attack of prosopalgia. Inhalations intermit. Very rapid breathing by going only a short walk.

Male - Violent cutting pain in tip of urethra.

Modalities - Worse from mental disturbance. Worse when cold, during winter and spring, afternoon. Walking aggravates breathing and heat.

Mouth - Heat in mouth, sour taste. Salivation. Accumulation of water, mucus in mouth. Taste, salty on tip of tongue. Tongue dry. Cutting, burning and stitches in tongue. Tearing drawing pain in teeth. Canker sores after eating cheese.

Rectum - Bloody diarrhea after purging from salt. Bloody diarrhea after purpura, caused by excessive use of salt. Epidemic dysentery with lethargy. Marked constipation.

Perspiration - Inclination to perspire during fever.

Skin - Crawling in skin. Skin and tongue dry. Warts from having used too much salt. Shiverings and acute drawing pains in the bones.

Sleep - Lies in bed motionless.

Stomach - Empty eructations. Paroxysmal cutting deep in stomach, with flushes of heat and hot sweat. Contractive pain and aching in stomach with sensation of fullness, immediately after a meal, from eating too much salt. Continued nausea and loathing. After a meal, vomiting of sour matter and mucus, followed by headache. **Vomiting, followed by lassitude.** Vomiting and purging.

Temperature - Internal chills with cold hands. Creeping chills under skin. Typhoid fever with sensorial apathy and semi-paralysis of brain, wild, staring eyes. Adynamic fevers with nervous symptoms such as shootings, jerkings, etc.

Throat - Increased mucus, dryness in throat. Sensation of contraction in throat with pain. Stitches in larynx, constriction. Sensation as if a plug in gullet. Cramp from below upward in esophagus.

Vertigo - Vertigo with dullness. Vertigo while sitting, upper part of body sways to and fro.

RELATIONS - Antidoted by: Calc., Carb., v., Caust., Con., Kali-c., Nat-c., Nat-m., Kali-nit., Op., Sep. **Antidote to:** Nat-m. (crude or in potencies), Nat-c., Phyt. **Compare:** (1) Ph-ac., Lyc. - worse afternoon, fullness after meals. (2) Coloc. - worse from cheese. (3) Hell., Ph-ac. - typhoid, sensorial apathy, stupor, Ph-ac. has apathy more pronounced than Nit-s-d., Hell, most of all. **Incompatible with:** Dig., Ran-b.

REFERENCES - Boericke. Clarke.

***NITRICUM ACIDUM

(Nitric Acid)

PHARMACY - nit-ac. Nitricum acidum. Nitric acid. Aqua fortis. Solution. **Historical dose:** All potencies.

CLINICAL - Actinomycosis. Allergies. **Antibiotics. Anus, fissures.** Arthritis. Axilla, perspiration. Blisters. Bladder, catarrh. Breath, offensive. Bright's disease. Bronchitis. Bubo. **Cachexia.** Chancre. Chilblains. Choking, easy. Colds, easily taken. Condylomata. Constipation. Coms. Coughs. **Diarrhea.** Dysentery, Dyspepsia. Ear, disorders. Epilepsy. Esophagitis. Eyes, disorders. Feet, perspiring. Fistula. Freckles. Frostbite. Glandular, swellings. Gleet. Gonorrhea. Gums, sore. Hay fever. Hematuria. **Hemorrhages. Hemorrhoids** Hernia. Herpes. Herpes. Ingrown toenail. Iritis, syphilitic. Irritation. Jaundice. Jawjoint. Keloids. Leucorrhea. **Mastoiditis.** Menopause. Menses, profuse. Metrorrhagia. Mouth, sore. Mucous, patches, Muscae volitantes. Myopia. Nails, disorders. Ozaena. Palpitations. Paralysis. Perspiration, abnormal. Phimosis. Polyps. **Proctitis.** Prolapsed, anus. Prostate, suppuration. Ranula. Rectum. Rickets. **Ringworm.** Salivation. **Spinal, injury. Syphilis.** Taste, disordered. Tongue, ulceration. **Tuberculosis. Ulcers.** Vaginitis. Vertigo. **Warts.** Wens. Whooping cough.

HOMEOPATHIC - The Aqua Fortis of the alchemists. Used in old-schools practice as an escharotic for warts and warty tumors, for phagedenic ulcers, chancres, poisoned bites. Had been used internally in fevers to quench thirst in bronchitis and tuberculosis to diminish the excessive secretions in some cases of syphilis in phosphaturia. Brunton noted that it has been injected into the bladder in a dilute form to dissolve stones.

When strong nitric acid comes in contact with the skin it destroys the upper layers and turns them yellow, but as it coagulates their albumen it forms a barrier against its own further action, its action therein differing from that of Sulphuric acid.

When swallowed it acts as an irritant poison. When its fumes are inhaled, it may cause suffocating spasms of the glottis or intense bronchitis.

In the store of Mr. Harold Woolley, in Manchester, a two-gallon bottle of nitric acid fractured. Water was thrown upon the bottle and whiting placed about it to neutralize the fumes which issued from the fracture.

Mr. Woolley supervised the process and was in contact with the fumes for two hours. This happened in the afternoon. The next day, Mr. Woolley complained of being unwell and although medical aid was promptly summoned, he died at 5 o'clock in the afternoon. Death was attributed to rapid congestion and inflammation of the lungs in consequence of inhaling the fumes.

Nitric acid belongs almost equally to all three of Hahnemann's miasms: psora, syphilis and sycosis. It is one of the chief antidotes of Merc., and is useful in cases of syphilis that have been overdosed with Merc. As the nitric acid patient begins to improve, skin symptoms may appear for a time, a favorable indication.

Marked affinity for the **margins of the outlets** especially of the throat, anus and mouth. Orifices are red, swollen and cracked. Mucus membranes are dark, smooth. It affects glands, particularly the liver, prostate and salivary. Patients are greatly debilitated, trembling, shivery, sensitive and sore. Exces-

sive physical irritability.

Pains as from splinters. Sticking pains. Ulcerative grating. Pains as if flesh is torn from the bones. Slight pain affects him violently. Pains appear and disappear quickly (Bell.). Bones painfully sore.

All discharges are very offensive, especially urine, feces and perspiration. Discharges are **acrid**, thin, dirty or brown, they cause redness or destroy hair. Stubborn suppuration. Malignancy. Decay and exostoses of bones. Ozaena, foot or night sweats on parts lain on.

Hemorrhages, easy, bright or bloody water. Capillary bleeding after curettage. Blisters and ulcers in mouth tongue, genitals, bleed easily. Fissures with pain during stool, as if rectum were torn.

Cachexia, due to syphilis, scrofula intermittent fever with liver involvement and anemia, etc. Phagedena. Fistula. Syphilis. Gravel. Arthritis. Sycosis. Cancer. Convulsions, epileptiform, at night and going to bed. Frequent vertigo during the day.

Marked improvement of all symptoms while riding in a carriage. Sensitive to medicines given in high potency.

MIND - Mind is weak. Weakness of memory. Confusion. Indifference. Thoughts vanish after mental exertion. No disposition to work to perform any serious business. Mind easily affected, inclined to weep. Weeps from discontent of himself. Sensitive to noise, pain touchjar. Impetuous during daytime.

Anxiety from thinking about it. **Anxiety about health.** Fear of cholera, **death.** Easily frightened. **Anxiety from night watching, loss of sleep.** Anxiety during a thunderstorm. Anxiety on ascending steps. Restlessness after midnight.

Discontented, with everything, with himself. **Pessimism.** Sadness. Taciturn. Despondency. Hopeless despair. Refuses consolation on one's misfortune. Sadness before menses. Suicidal disposition with fear of death.

Sympathetic. **Holds grudges.** Constantly thinks about past troubles. **Unmoved by apologies.** Estranged from family. **Hatred of persons who had offended.** Inveterate

ill-will. Anger, over his mistakes. **Irritable, hateful, vindictive, headstrong.** Irritability when spoken to.

Excitability, peevishness, quarrelsome. **Violent anger.** Fits of rage and cursing. Trembling from anger while quarrelling. Profane, cursing.using vulgar language. Quarrelsome delirium, talks to spirits in other tongue. Delusions, thought he was about to die, yet is not physically ill.

Abdomen - As of a dry, hot cloth on abdomen. Colic relieved from tightening clothes. Inguinal hernia of children.

Back - Stitching pain in lumbar back when coughing. Pain in back at night, better lying on abdomen. Stitches in and between scapulae. Stiff neck.

Breasts - Hard nodes or atrophy of breasts.

Causations - Ill effects of loss of sleep from nursing the sick. Injury to spine. Antibiotics drugs, penicillin, mercury.

Chest - Congestion in the chest with palpitations and fear. Sensation as if bound by an iron band. Catching at every attempt to breathe. Stitches in sides of chest. Soreness at lower end of sternum. Offensive sweat in axillae at night.

Constitutions - Hydrogenoid constitution. Sycotic remedy. Persons who have chronic diseases and take cold easily, disposed to diarrhea. Acts best on the dark complex- ioned, middle age or older. Persons of dark, swarthy complexion with black hair and eyes, lean persons of rigid tissue. Brunette rather than blonde. Nervous temperament. Old people with great weakness.

Ears - **Very sensitive to noise** (Coff., Nux- v.). Cracking in ears when chewing. Decay of mastoid. One's speech echoes in ears. Deafness from enlarged and indurated tonsils after measles, better noise in trains or riding in a carriage. Swelling of glands behind and beneath ears. Cystic tumors on lobes of ears.

Eyes - **Sharp, sticking pains.** Gonorrheal ophthalmia, photophobia, constant lachrymation. Syphilitic iritis. Ulceration of cornea. Fistula lachrymalis. Double vision. Eyelashes, stiff, all point towards nose (right). Paralysis of upper eyelids.

Face - Yellow, sickly. Dark freckles. Pimples on face. Blood boils on chin. **Comedones.** Peeling of lips. Angles of lips raw, cracked or scabby. Corners of mouth raw, cracked or scabby. Stitches as from splinters in upper lip when touched. Submaxillary glands swollen and painful. Cracking in jaws when chewing.

Female - Menses early, profuse like muddy water with pain in back, hips and thighs. Leucorrhea, brown, flesh-colored, watery or stringy, stains yellow or leaves spots with black border. Bloody water from vagina or hemorrhages from overexertion. **Uterine hemorrhages** after childbirth or curetting. Vaginitis. Stitches through vagina. Voluptuous itching of vagina after sex. External parts sore with ulcers (Hep., Merc., Thuj.). Hair on genitals falls out (Nat-m., Zinc.).

Food - Appetite variable or absent. Great hunger with sweetish taste. Great thirst. Aversion to cheese, bread, sight and smell of meat. Dislikes meat, things sweetened with sugar, bread. Longing for indigestible things, chalk, earth. **Loves fat, herring and salt** (Sulph.). Craving for cheese, fish, carbonated drinks, sweets. Worse

milk and fatty food. Worse after eating. Bitter taste after eating.

Head - Head feels hot. **Sensation of a band around head.** Crushing head pains. Headaches from pressure of hat, full feeling, worse from street noises. **Painful tension** within head with nausea. Headaches as if head were in a vice. Piercing pain in temples. **Pulsating headache.** Violent throbbing, hammering pains. Headaches, worse motion and jar, better riding in a carriage. Skull sore. **Decay of mastoid bone.** Scalp sensitive. Puffy swelling on scalp. Moist scabby, itching eruption on scalp. Falling of hair from vertex.

Heart - Nervous palpitation caused by slightest mental excitement. Palpitations and anguish on going upstairs. Palpitation with heat, anxiety and trembling, during menses. Pulse rapid and small beats. Pulse intermits at fourth beat, irregular.

Kidneys - Infective nephritis. Contracted kidney. Cramps from kidney to bladder. Burning and stinging. Dyspepsia with excess of oxalic acid, uric acid and phosphates in urine and great mental depression. As of a hot tire in urethra. Painless retention or incontinence of urine. Stream thin, as from stricture. **Urine, smells strong as horse's or offensive.** Urine feels **cold** when it passes, alternately profuse and scanty. **Scanty, dark offensive urine.** Urine bloody and albuminous. Alternation of cloudy, phosphatic urine with profuse urinary secretion in old prostatic cases. Hematuria with shuddering along the spine.

Limbs - Offensive foot sweat, causing soreness of toes with sticking pain, chilblains on toes. Offensive sweat in axilla at night. Sweating of palms, hands, cold. Warts on back of hands. Finger joints swollen. Herpes between fingers. Blue nails. Nails, distorted, discolored, yellow, curved. In-grown nails with ulceration and a feeling of splinter, worse touch. White spots on nails. Tibia painfully sore. Pain in patella, impeding walking. Weak ankles, cracking when walking.

Liver - Jaundice, aching in liver.

Lungs - **Shortness of breath** on going up stairs (Sil., Calc.). Panting breathing when reading or stooping. Short breath from uterine displacements. Cough in sleep without waking. Cough shattering from a dry spot in larynx, with stitching pain in lumbar region, worse cold, winter. Empyema. Expectoration, muco-purulent, yellow, bitter offensive, smeary, accompanied with sweat. Hemoptysis. Cavertous tuberculosis.

Male - Itching, burning foreskin. Edema of prepuce. Phimosis. Strictures from gonorrhea or syphilis. Soreness and burning in glans and beneath prepuce. Ulcers, burn and sting, exude offensive matter. Red, scurfy spots on prepuce or on corona glandis. Phagedenic chancres.

Modalities - Better from gliding motion, riding in a carriage. Better steady pressure and mild weather. **Worse from touch jarring**, rattling, motion, mental exertion or shock, noise. **Worse cold air**, cold climate, dampness, evening and night, changing weather, **hot weather**, heat of bed. Worse mercury, loss of sleep.

Mouth - Putrid breath. Salivation. **Bloody saliva** with green coating on tongue. Sore palate. **Ulcers in soft palate with sharp, splinter-like pains.** Ranula. Bites

the tongue and cheek. Gums, swollen, ¹ sore, flabby. Gums bleeding inner side.

Margin of mouth covered with sores and blisters.

Nose - **Nosebleeds**, dark, clotted with chest affections, worse crying. Allergies, hay fever. Nasal diphtheria with watery and excoriating discharge. Frequent sneezing, without coryza during sleep. Coryza with shortness of breath. Coryza with sore and bleeding nostrils. Chronic nasal catarrh with yellow offensive, **corrosive** discharge. Ozaena. Green casts from nose every morning. Stitches, as of a splinter in nose. Cutting pain in the nose, decay of bones. Red, scurfy tip.

Perspiration - Sweats easily, then takes cold. Exhausting profuse sweats in morning. Sweats in axillae, on feet and hands (in spinal injuries). Night sweats on part lain on.

Rectum - Bowels constipated with fissures in rectum. Great straining, but little passes. Tearing pains during stools. Stools tear the anus, even though soft. Diarrhea, slimy and offensive. **Diarrhea from antibiotics drugs, penicillin.** After stools, irritable and exhausted. **Violent cutting pains after stools**, walks in agony (Rat.). Ulcerations after dysentery. Hemorrhages from bowels, profuse, bright. Hemorrhages from rectum after removal of hemorrhoids. **Hemorrhoids bleed easily.** Anus, itching, eczematous or oozes moisture. Burning in rectum after urination. Prolapsed anus.

Sensations - As if a mouse running up and down left side. **Pain as from splinters in eruption. As if splinters in great toe, in carbuncles, etc.** As if a band about or weight hanging to the part. As if head in a vice from ear to ear over vertex. As if someone were forcibly pressing head, head tightly bound, constricted by tape, contused. As if a gathering in left temple. As if warm water were flowing from and over eyes (first right, then left). As if teeth soft and spongy. As if abdomen would burst, as if a boiler working in bowels. As if a band around bones. As if dogs were gnawing flesh and bones and as if sinews were being pulled up. As if ball of great toe had been frozen.

Skin - Actinomycosis. Warts, large, jagged, bleed on touch or washing. Condylomata. **Ulcers bleed easily,**

sensitive. Ulcers with splinter-like pains. Ulcers zigzag, irregular edges, base looks like raw flesh. Stubborn suppuration. Burrowing pus. Exuberant granulations. Crusts form and fall. Black pores on face, papules worse on forehead. Coppery spots, on shinbones. Dry skin, eroded, cracked in every angle. Skin itches on undressing. Old scars become painful in cold weather.

Sleep - Sleepiness during day. Drowsy all day from debility with vertigo. Shocks on going to sleep. Pains come during sleep. Starts in fright on falling asleep. Frequent waking and inability to fall asleep again after a long time. Sleeplessness after 2 a.m. Sleeps badly latter part of night. Sobbing during sleep, with anxious dreams. Anxious, unrefreshing sleep with frightful dreams. Wakes too early in morning, or difficult waking.

Stomach - Dyspepsia with excess of oxalic acid, uric acid and phosphates in urine and great mental depression. **Dyspepsia from abuse of salt.** Esophagitis. Pain in cardiac orifice. Eructations sour, empty. Eructations during menses. **Indigestion and nausea.** Nausea with sour belchings, cannot take food. Nausea with occasional vomiting, better riding in a carriage. Bitter and sour vomiting with much eructation. Vomiting of tenacious or bloody mucus. Vomiting of mucus and food, from cough.

Teeth - Yellow teeth. Teeth feel elongated. Coldness in teeth. Teeth as if soft and spongy. As if teeth would fall out. Decay of teeth. Teeth become loose, gums soft and spongy. Toothache on taking anything cold or hot into mouth. Toothache and swelling of gums during menses. Pulsating, stinging in evening in bed and all night. Gums red and enlarged between teeth. Gums white, swollen. Itching on gums. Bleeding of gums.

Temperature - Icy coldness of soles. Chilly, continuous. Chills after lying down. Chills from least exposure. Chills in room or at fire. Chills in waves up each side of spine and over chest. Chills with aversion to heat. Chills with internal heat. Dry heat, at night, with violent thirst. Heat flushes with sweat on hands. Heat flushes of single parts, or over entire body. Dry heat, internal, at night, wants to uncover. Blood seems hot at night, causes sleeplessness.

Throat - Dryness and heat in throat. Sharp, stinging pains, with rawness as if sore and ulcerated. Throat pain goes into ears. **Sharp pains, as from splinters, on swallowing.** Difficult swallowing. Cutting in the larynx. Diphtheritic patches on tonsils and fauces. Uvula and tonsils edematous. **Tonsils, red, swollen, uneven with small ulcers.** Hypertrophy of tonsils, after angina. Hawks out mucus from posterior sinuses. White patches. Hoarseness. Aphonia with dry, hacking cough from tickling in larynx and pit of stomach.

Tongue - Tongue, clean, red with center furrow. Moist fissured or mapped tongue. Painful pimples on the sides of the tongue. Tongue sensitive, even to soft food, causes smarting.

Vertigo - Vertigo with obscuration of sight. Vertigo with nausea followed by eructations. Vertigo with weakness, must sit down. Vertigo with pulsation in head and pressure in middle of brain. Vertigo when raising head after stooping. Vertigo in evening, after lying down. Vertigo in morning on rising. Vertigo during menopause.

COMMENTS - Affinity for the mucocutaneous orifices and adjoining parts, particularly the intestines, throat, and mouth.

The mouth, especially in the angles, and anus are prominent seats of syphilitic action and also of the action of the other miasms, the condylomata and fissures of sycosis, the fissures, fistula, hemorrhoids and sore mouth of psora. Salivation, sores in the mouth, sore throats. Mouth symptoms are often confused with Merc. Characteristic offensive discharges, thin, excoriating. If purulent, they are a dirty yellowish green, not laudable pus. Ulcers on the skin and in the mouth. Ulcers have profuse exuberant granulations and bleed easily. Suppuration. Painful scars.

Characteristic sticking pain, as if from splinter, in any part of the body. Pain comes after touch or movement. Pains, even slight ones, affect him violently. Cramp-like pains, stinging, shooting, burning, pressure and soreness. Twitchings in various parts, frequent starts in upper part of body. Leftsided paralysis.

Sensitiveness to touch runs through the entire symptomatology including the symptoms of the mind. The head is sensitive to the slightest jar, to the rattle of wagons in the street, or even to the step of one walking across the floor, to the pressure of a hat, sensitive to combing and on part lain on.

Eruptions and ulcers bleed easily when touched. Eyes are sensitive to light. Sensitiveness of the head while out driving, stopping suddenly. The tongue is sensitive even to soft food. Chilly. Easily catches colds. Hyperallergic, multiple allergies.

Excessive physical irritability, hysteria. Anxiety (Ars.), obsession about their health. Fixed ideas that they have a disease. Extremely pessimistic. Negative attitude, irritable, complaining. Arrogant. Hateful and vindictive. Prostration, sick feeling, faints from least motion. Deafness, epilepsy, better riding in carriage. Emaciated. Ailments from nursing loved ones (Cocc., Caust., Nux-v.). Night watching (Caust., Cocc., Nux-v., Care., Phos.). Exhausting sweats towards morning, chilly. Profuse, fetid sweats on feet, hands or in axilla. Flashes of heat in hands and feet.

Sudden rush of blood to the chest. Hectic, frequent hemorrhages, bright, red, profuse. Hemorrhages occurring in cachectic women after confinement or abortion. Sharp stitches through right chest to scapula. Tuberculosis

when the chest walls are extremely sore to touch.

Great dyspnea, cannot talk for getting out of breath. Morning hoarseness. Tickling cough, seems to annoy all night, at times loose and rattling. Loud rales through chest, offensive sputa, bloody.

Strong smelling urine, very offensive. Typhus when pneumonia supervenes, also when the bowels hemorrhage. Stools are green, slimy offensive, may be purulent, exhausting. Slimy stools from excess of mucus passed with much straining.

Stools may be pale, pasty, sour, and offensive, especially in scrofulous children. The stool is putrid in children, may contain lumps of casein. Dysentery and colitis. Tendency to acute or chronic diarrhea. Diarrhea with every cold (Ars.). Diarrhea from diet, or since antibiotics.

Rawness and soreness of the anus with diarrhea. Pain after stools, whether loose or constipated. As if anus and rectum were torn and pierced, violent pains after stool lasting for hours. Anal fissures with bloody stools and mucus. Anal warts.

Burnett made a cure of actinomycosis with Nit-ac. 3x in a patient who had seen many London consultants and had doubtless taken much Kali-i. The localities in which the disease manifested itself, the region of the mouth and anus, gave Burnett his indication.

H. N. Coons recorded the case of an anemic woman who, four weeks after miscarriage, had constant pelvic hemorrhages, at times coming with a gush, a constant heavy feeling, much worse standing or walking. Nit-ac. 2x, 20 drops in three ounces of water, a teaspoonful every two hours, quickly arrested bleeding and cured.

W. M. James cured a case in which a girl had frequent attacks of petit mal, sometimes as many as fifty a day, between the periods. At the beginning of menses she had spasms so violent that they dislocated both humeri. Giving Nit-ac. 200c persistently gradually put an end to the attacks. The first few times after beginning treatment, there were spasms but no dislocation.

D. C. Perkins related the case of a woman who said she was very ill, but could only describe her illness by saying that she "felt

Nitricum acidum

like a pulp-mill." Nit-ac. has "borborygmus as if a boiler was working in the bowels," and proved to be the remedy.

Mohr gave Nit-ac. 3x to a man who suffered from liver cancer with bloody diarrhea, followed by constipation, and violent pains in the stomach and liver. He was unable to sleep or to take any food without much pain, vomiting. Nit-ac. removed the pain and relieved the constipation entirely, and the patient died without an hour's suffering from the time he received treatment.

J. H. Fulton cured M., 28. with one dose of Nit-ac. 200c. M. had bleeding hemorrhoids for eighteen months. He had frequent bloody and slimy stools, and bright red blood after stools ranging in quantity from a dessert spoonful to half a tea cupful. When the stools were hard there was much pain in passing them. Burning in the anus after stools.

RELATIONS - Antidoted by: Calc., Hep., Merc., Mez., Sulph. **It antidotes:** Calc., Dig., Merc. **Compare:** (1) Merc., Kali-c., Thuja., Hep., Calc. (2) Calad. (3) Ars. - morbid fear of cholera. (scrofulous ophthalmia). **Compatible after:** Calc., Nat-c., Puls., Sulph., Thuja., Carb-an. - bubo, Kali-c.- tuberculosis, etc., Aur. - abuse of Merc.. Mez. - secondary syphilis, Hep. - throat, etc. **Incompatible:** Lach.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

*****NITROGENIUM OXYGENATUM**

(Nitrous Oxide Gas)

PHARMACY - nitro-o. Nitrogenium oxygenatum. Nitrous oxide gas. Laughing gas. Solution. **Historical dose:** All potencies.

CLINICAL - Anesthesia. Bedwetting. Convulsions. Drowsiness. Epilepsy. Faintness. Headache. Hemoptysis. Hemorrhoids. Hysteria. Lungs, congestion. Muscular, weakness. Opisthotonos. Unconsciousness. Vertigo. Weakness.

HOMEOPATHIC - This well-known anesthetic was introduced by Sir Humphrey Davy. Nitrous oxide has given

rise to some pathological symptoms including epileptic convulsions during the anesthesia, pain in forehead where the aura commenced. Increased muscular rigor. Muscular weakness. Muscular pains in revived joints. Some of the symptoms were observed by Clarke on a girl of twelve who had congestion of the right lung setting in within a few hours of the anesthesia.

A man, 30, who had blisters around and inside his mouth on two occasions after being under gas was troubled with drowsiness for weeks after and had acne-like spots on his face.

Other symptoms are from the observation of Mr. Silk and from provings recorded by Allen. Silk observed that females were very much more liable to ill effects than males. One of his patients, an epileptic girl, otherwise healthy, when he removed the face-piece, struggled to get her hands up and afterwards described her feelings as "pain in the forehead where the aura commenced."

In a patient suffering from valvular disease of the heart there was a more than usual degree of lividity during anesthesia and a tendency to syncope afterwards.

In one epileptic patient a fit actually did occur. Rhythmic movement of the arms or legs is a common occurrence. Opisthotonos, most common in females, much struggling. One prover had his hemorrhoids cured as an incidental result of his experiments.

MIND - Unusual exaltation of the mind, most agreeable sensations and fancies. No command over himself. Mind extremely susceptible to suggestion. *Involuntary desire to laugh*. After the giddiness, rapid rush of thoughts afterwards unconsciousness. Mental torture beyond endurance.

Back - Tension in sides of neck in region of carotids. Drawing in neck, as though skin were contracted or cords shortened. Sensation of drawing in muscles, especially the lumbar muscles.

Chest - As if something which was obstructing the chest dropped down into stomach. Sharp pain in front of chest, worse lying on right side. Right chest congested and dull on percussion. Great pain at chest, cough with hemoptysis, better hot applications to chest.

Ears - On waking from unconsciousness, voices of others seemed to come from a great distance or to be in a whisper.

Eyes - Widely dilated pupils. Pupils first dilated, later contracted. Protruding eyeballs.

Face - Face swollen. Acne. Jaws firmly clenched. Blue lips, ears, face, afterwards face dusky. Face livid with unconsciousness.

Female - Erotic movements and sexual illusions. Bilious attacks in nursing woman, making the infant ill.

Fever - Fever every afternoon from 3 to 6 p.m. Face covered with perspiration after return of consciousness. Coldness of feet and legs to knee between the paroxysms of consciousness. Delirium in evening.

Head - On going into open air, vertigo and staggering to left. A kind of waving of the head. Aching in head and along spine as if they were asleep. Giddiness after palpitations. Numb feeling on head, spreading over body, before the paroxysms. Headache after return of consciousness.

Heart - Great lividity and tendency to faint. Palpitation of heart, afterwards felt and heard in head.

Kidneys - Involuntary urination.

Lungs - Breathing is quick, thick and stertorous. Suffocative feeling. Cough with hemoptysis. Cough early morning.

Mouth - Eruption of blisters around mouth inside. Point of tongue thrust between teeth. Mouth and head feel numb, as though asleep.

Rectum - Hemorrhoidal pains.

Sleep - Sleepy. Drowsiness continued for weeks after the gas. Screamed whenever she fell asleep.

Stomach - Pressure in epigastrium. Nausea and vomiting on return of consciousness, next day a bilious attack.

Throat - Weakness and feeling of constriction in throat, dysphagia.

RELATIONS -Antidotedby: Bell. **Compare:** (1) Nit-ac. (2) In congestion, Verat-v.

REFERENCES - Clarke.

***NITROMURIATIC ACIDUM

(Aqua Regia)

PHARMACY - nit-m-ac. Nitromuriatic acidum. Aqua regia. A mixture of chloro nitric acid, chloronitrous acid, chlorine and water. Prepared by mixing 18 parts of nitric acid with 82 parts of muriatic acid. Dilutions. **Historical dose:** All potencies.

CLINICAL - Anus, constricted. Bilious. Canker, sores. Catarrh. Cirrhosis. Constipation. Depression. Digestion, slow. Dysphagia. Gravel. Headache. Hepatitis. Mouth, sore. **Oxaluria**. Palpitations. Ptyalism. Salivation. Scurvy. Vertigo. Weakness.

HOMEOPATHIC - Aqua Regia, the royal water of the Alchemists, has been proved in the lower dilutions, in the 30c.

Some experiments were made by Dr. Scott, who acidulated his bath with the acid and sponged his body with acidulated water. Sponging and bathing had the same effect. Scott noticed that the symptoms were more marked as the proportion of muriatic acid was increased.

Salivation and sore mouth and throat with dysphagia were produced in Scott and the provers. Scott noticed that the salivation was intermittent. Weakness. Headache with drowsiness. Slow digestion. Pricking pains. Clinical reputation in **oxaluria** and gravel. Removes the distressing skin symptoms resembling psoriasis. Weak, physically and mentally depressed. Constricted anus. Gravel. Bilious conditions torpid liver, hepatitis and early cirrhosis of liver.

Hale noted that it is more adapted to liver torpor and gastric catarrh common in hot and damp climates and **aggravated by meat eating and alcohol.**

MIND - Nervous irritation and restlessness. Low spirits, depression.

Abdomen - On rising, sensation from left hypochondrium to rectum as of desire for stool. Slight colic in lower abdomen.

Back - Catching pain in back muscles while taking a cold bath.

Food - Aggravated by meat and alcohol.

Head - Headache and great sleepiness, worse 3 p.m. Sensation in temples as if brain distended. Sudden sticking ache in left temple while leaning to left side, preceded by twitching of anterior tissues of temporal muscle.

Heart - Palpitations. Fluttering at heart, while eating or moving.

Kidneys - Urging in penis and bladder, aching in hips, thighs and small of back, after a short delay some pale urine passed. Burning in urethra. **Oxaluria.** Cloudy.

Limbs - Heavy pain in loins. Sticking in various parts of limbs successively, while walking. Languid aching through hips and front of thighs and small of back.

Liver - Bilious conditions, torpid liver, hepatitis and early cirrhosis of liver. More adapted to liver torpor and gastric catarrh common in hot and damp climates. Sudden increase of secretion of bile.

Lungs - Inflammation of larynx and bronchi. Breathing easier than usual.

Modalities - Worse after eating and from exercise.

Mouth - Metallic taste (Cupr.). Ptyalism. Extreme salivation, could not spit it out fast enough. **Constant drooling at night** (Merc.). Salivation intermittent, no fetor. Pain in palate or mouth. Small superficial ulceration over inside of mouth and tongue, excoriation. Cankers. Large blister inside lower lip. Gums bleed easily.

Rectum - Sphincter constricted. Constipated with ineffectual urging. Constipation, desire for stool, but unable to pass anything owing to constriction of anal sphincter. Anus moist and sore. Loose, yellowish, pappy stool after breakfast.

Sleep - Sleepy with headache. Slept unusually well and felt better for it.

Stomach - **Salivation, worse at night.** Food takes longer to digest than usual. Sour belchings with empty hungry feeling in stomach, not relieved by eating. Evacuation of flatus and belchings.

Temperature - Chill passing upward, while sitting near stove. Mild fever. Perspiration increased, often to a great extent.

Throat - Pain on swallowing all down esophagus with burning there and in roof of mouth. Spasmodic, tremulous contractions in pharynx near levator palati muscles, while writing at a very low table.

Vertigo - Frontal headache with dizziness. Sensation on rising from bed as if brain was all in occiput, making it feel heavy.

REFERENCES - Boericke. Clarke. Phatak

*****NUPHAR LUTEUM** (Yellow Pond-lily)

PHARMACY - nuph. Nuphar luteum. Yellow pondlily. Nymphaealutea. N. O. Nymphaeaceae. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Cholera. Colitis. Diarrhea. Dyspepsia. Enterocolitis. Exhaustion. Headaches. Impotence. Psoriasis. Pityriasis, capitis. Rhus poisoning. Seminal emissions. Sexual weakness. Typhoid fever.

HOMEOPATHIC - Nuph. was proved by Pitet, and many of his symptoms have been clinically confirmed. Yellow diarrhea coming on in the early hours of the morning, with great exhaustion. Typhoid fever.

Produces nervous weakness with marked symptoms in the sexual sphere. Sexual weakness and pollutions. Pityriasis capitis very much aggravated, with much itching and falling out of the hair.

MIND - Impatient of slightest contradiction. Excessive moral sensibility. Sympathetic. Acute pain in witnessing sufferings of animals.

Abdomen - Colitis. Enterocolitis. Colicky pains all around waist, worse 5 a.m. to 7 a.m.

Back - Dull pain in left lower lumbar region. Sensitive in kidney region. When walking, painful stitch to flank, better from pressure.

Chest - Pain behind sternum, when running, as though subjacent organs violently shaken.

Eyes - Sparks filled field of vision, converging from circumference to center, when standing.

Head - Heaviness of head. Bruised shaking in brain. Dull pains in front part of base of brain on level of orbits. Lancination in right and left anterior lobes of brain. Headaches attending depressed states of generative organs.

Limbs - Weakness and loss of power in limbs, worse evening.

Male - Pain in testicles and penis. Spermatorrhea. Weakening nocturnal omissions while convalescing from typhoid. Impotency with involuntary emissions during stool, when urinating. Complete absence of sexual desire, parts relaxed, penis retracted.

Modalities - Diarrhea worse 4 a.m. to 6 a.m., worse after the least excess of any kind. Weakness and itching worse evening. Walking causes painful shocks in hams and pain in flank, better by pressure. Worse the day after sex.

Mouth - Sweetish taste. Tongue white, mouth pasty.

Rectum - Stitches as from needles in rectum, above. Smarting and burning at anus after every stool. Much exhaustion with stools, sense of exhaustion in epigastric region.

Skin - Violent itching. Red blotches, regular in outline, ovoid or circular, prominent and covered with little silvery white scales. As eruption disappeared, scales ceased to be reproduced and the skin at place of each blotch became pale red or yellowish.

Stomach - Painful sensation of weariness in stomach. Exhaustion in epigastrium. Digestion slow, wind colic with liquid, sour-smelling stools.

Stool - Diarrhea during typhoid. Soft stools preceded by some colic for several days or painless diarrhea. Yellow diarrhea, worse in the morning. Stools liquid, yellow, fetid.

Urine - Urine deposits copious reddish sand, hard, adheres to the vessel.

COMMENTS - A marked feature of the proving was the excessive depression of the male generative system. Nuph. has done good work in analogous conditions and headaches associated therewith.

RELATIONS - Compare: (1) in sexual weakness, Agn., Kali-br., Lyc., Sei., Yohim., Nym. (2) In diarrhea: Chel., Gamb., Sulph., (3) Early morning diarrhea: Sulph., Nat-s., Rumx., Podo. (4) Sexual debility, Gels., Con., Dig., Nat-m., Chin.

REFERENCES - Boericke. Clarke.

***NUX MOSCHATA

(Nutmeg)

PHARMACY - nux-m. Nux moschata. Nutmeg. Myristicafragrans. Myristica officinalis. Myristica moschata. N. O. Myristicaceae. Tincture of powdered seeds deprived of the Mace. A fresh nut and fresh plant tincture should be prepared and tested. **Historical dose:** All potencies.

CLINICAL - Acne. Asthma. Backache. Belch- ings. Brain, softening. Catalepsy. Chilblains. Clairaudience. Clairvoyance. Colic. Convulsion. Cough. Debility. **Drowsiness.** **Dryness.** Dysmenorrhea. **Dyspepsia.** Eyes, disorders. **Fainting.** **Fevers.** **Flatus.** Freckles. Frostbite. Gastralgia. Hemorrhage. Headaches. Head, movements. Hemorrhages. Hiccoughs. Hoarseness. **Hysteria.** Intermittent fever. Locomotor ataxia. Lumbago. Mania. Marasmus. Menopausal disorders. Menorrhagia. Metrorrhagia. Miscarriage. **Narcolepsy.** Pelvis, congestion. Perspiration, bloody, hysterical. Pregnancy, complaints. Ptosis. Puerperal convulsions. Kidney colic. Rheumatism. **Sleep, overpowering.** Speech, defective. Stammering. Strangury. Strokes. Toothache. Turpentine, effects. Typhoid, hemorrhage. Uterus, prolapse. Vertigo. Worms.

HERBAL - Nux-m. is one of the many examples of poisonous and medicinal substances commonly used as food. The use of nutmeg as a condiment doubtless originated because Nux-

Nux moschata m. is specifically related to weak digestion.

Ground nutmeg is popularly used in conditions of excessive flatulence and when the smallest excess in eating or drinking sets up indigestion. Used for diarrhea and boils. Nutmeg has a reputation for putting off the menstrual period or else for bringing it on.

Using nutmeg for these purposes has led to many cases of poisoning, supplying a large number of the homeopathic symptoms.

HOMEOPATHIC - There is a characteristic **"irregularity"** in the remedy. It produces states of exaltation resembling hysteria, as well as the mesmeric state with exalted senses and consciousness of double personality. Profoundly disturbs the sensorium, mind and nerves.

Characteristic **drowsiness**, conditions accompanied by drowsiness, especially if there is also chilliness,

coldness **or thirstlessness**. General inclination to become unconscious during acute attacks.

Marked tendency to **fainting fits** with heart failure, worse at stools, at menses, with slight pain, from sight of blood, while standing (when dressing). Epilepsy with consciousness. Paralysis with spasms and trembling of tongue, eyelids, esophagus. Catalepsy. Automatism. Mania. Hysteria. Mental depression from grief.

Feels as if drunk, staggers on trying to walk. Cold limbs. Humming, buzzing, funny feeling in body. Hard parts feel soft. Fleeting pains. Parts lain on feel sore. Heaviness of eyes tongue etc. Sensation as of a hard lump in stomach, liver, throat. Puffiness.

Extreme dryness of the mucus membranes and skin. Female organs are affected. Bearing-down pain, dark blood. Dark hemorrhages. Uterine prolapse and displacements. Useful for threatened miscarriage. Affinity for pregnancy, labor, and the puerperal state.

Disturbed digestion. Indicanuria. Spasms of children with diarrhea. Marasmus of children. Useful to scrawny, delicate, hysterical women who have small breasts and who laugh or cry by turns. Clairvoyant.

MIND - Confused mind and impaired memory. Memory weakness, loss associated with dryness in the brain (Alum., Anae., doesn't have dry skin). Senile dementia (Alum.), Alzheimer's disease. Entire loss of memory of his past life.

Thoughts suddenly vanish while talking, reading or writing. Weak memory with headache. **Uses wrong words during headaches**. Slow ideation. Slow learning to talk. Ailments from overtaxing mental powers.

Changeable moods, laughing and crying. Fickle and wavering in his undertakings. Listless, **indifferent**. **Dreamy and bewildered, as in a dream**. Does things automatically, does not recollect what she has done.

Staggering state, helpless as if drunk. Unconsciousness, after mental excitement, worse just before menses. Stupor during menses. **Confusion during pregnancy**. Ailments from disappointed love. Depression with grief.

Strange feelings with irresistible drowsiness. Fears to go to sleep. **Starting, as if electric shocks though body during sleep; wakening her. Starting on recovering consciousness**. Fright causes trembling of heart, fear and sadness. Aware of danger, but no apprehension.

Mental disturbances. Hysteria and mania. Hysterical fainting. Loss of emotional control. Mania with odd speeches and ridiculous gestures. Incoherence. Talks loudly to herself. Answers irrelevantly. Mockery. Everything seems ludicrous. Laughing, in open air, before menses. Loud talking and bewildered manner, with pelvic congestion. Jest.

Clairvoyant states. **Sense of duality**, thinks she has two heads, seems to be two persons (Plat.). Sense of impending dissolution. Surrounding seems changed, does not know the well-known streets. Short time seems very long. Objects seem changed or grow larger. Sense of levitation.

Abdomen - Enormously distended. As of a board across the hypogastrium. Paralytic weakness of the intestines. Abdominal colic from cold drinks. Colic immediately after eating. Flatulent colic. Navel is sore, even ulcerated, festering.

Back - Neck so weak, head drops forward on chest. Pain in back, moves to sacrum or lumbar region. Pain along spine. Lumbago. Backache and neuralgia of sacrum and coccyx worse riding in a carriage. As if a piece of wood stretched across sacrum, worse before menses.

Breasts - Nipples retracted. Breasts too small.

Causations - Ill effects of fright, mental exertion, suppressed eruptions, suppressed menses. Bathing. Over-eating, milk, bad beer, alcohol.

Chest - Oppression of chest, generally coming from epigastrium. Fullness and distressing sensation of a load on chest. Burning in chest, peculiar dead feeling and swelling. Stitches in chest, tightness, spitting of blood.

Constitutions - Suited to children, women and pregnant women. Persons with cool, dry skin, who do not easily perspire. Weakness of old age. Dyspepsia of old people. Constitutions with stiff, straight hair rather than crisp and curly. Delicate constitutions. Hydrogenoid constitution.

Cough - Dry cough, with sudden loss of breath. Cough with great soreness in larynx or chest. Cough excited by scratching in throat, crawling in upper part of trachea. Cough from getting overheated, getting warm in bed. Cough during pregnancy.

Ears - Pain in Eustachian tube as from a foreign body. Tearing or sharp pains in ears. Sharp pain in left ear, worse moving jaw. Oversensitive hearing, distant sounds increased. Buzzing and ringing in ears, as if stopped up.

Eyes - Eyes seem dry, which impedes the movement of the eyelids. Pterygium over cornea. Mydriasis. Blindness, then fainting. Motes before eyes. Objects look larger or too small, very distant, oblique, too close together, vanish, or are red.

Face - Deathly pale, worse in damp air. **Sleepy, stupid, debauched look**. Foolish, childish expression, diabolic grin. Distorted face during headache. Blue rings around eyes. Cheeks sometimes red and hot.

Eruptions spreading from face to neck. Pustules with broad red borders on

Nux moschata chin. Chapped lips. Lips, swollen, stick together, retracted. Jaws as if paralyzed, cannot close them.

Female - Suppressed menses with persistent fainting attacks and sleepiness (Kali-c.). Menses scanty or suppressed from fright, debility, getting cold, overexertion. **Variableness of menses, irregularity in time and quantity.** Menses too long, dark, thick. During menses great pressure in back from within outward. Leucorrhea, muddy, bloody. Leucorrhoea replaces menses. Continuous and obstinate flooding. Flatus from vagina. Pain of uterus from pessary. Prolapse of uterus and vagina. Uterine hemorrhage. Sterility. Puerperal convulsions. **Threatened abortion, in hysterical females disposed to fainting.** Deficient labor pains. Labor pains weak, irregular. Uterus remains uncontracted after delivery.

Food - Hunger or loss of appetite after a few mouthfuls. **Thirstlessness.** Loathing when eating or thinking of food. Food tastes like sawdust. Craving for highly seasoned food. Worse cold food, milk, **alcohol, wine.** Brandy has a kind of electrifying effect from roof of mouth downward in a straight line to feet.

Head - Head feels full. As if head expanding with **sleepiness.** Cerebral congestion. Brain feels loose, striking the sides, on motion. Painless pulsating in head, in small spot. Cracking sensation in head. Convulsive movements of the head, could not talk or swallow. Head drops forward while sitting. Raising head from pillow causes deathly sickness. Headaches, bursting in temples. **Headaches better hard pressure.** Headaches from eating a little too much. Headache from wine. Headache of alcoholics.

Heart - Trembling, fluttering, as from fright, fear, or sadness. Palpitations, better walking about, drinking warm water. Sensation as if something grasped the heart. As if beating in a vacuum. Pulse intermits at long interval, exciting fear of death. Pulse, weak, irregular. Pulse frequent, trembling, accelerated after wine.

Kidneys - Renal colic. Pain from stone in bladder or gravel. Dysuria from exertion of body. Dysuria with dysmenorrhea or from uterine complaints. Dysuria after eating, from beer or wine. Tenesmus of bladder. Urging at night, with scanty emission. Frequent urination, sometimes involuntary. Burning, cutting in urethra, during urination. Urine smells like violets.

Limbs - Fatigue on slight exertion. Hysterical paralysis. Limbs as if floating in the air. Rheumatism, drawing, wandering pains, worse cold, damp air, wet clothes, better from warmth, dry clothes. Rheumatism from getting feet wet, from exposure to drafts. Pain in right hip to knee, worse motion, especially going up stairs. Feels as if treading on hard peas when walking. Feet cold with appearance of menses. Soles always moist. Dry palms.

Lungs - Paroxysms of suffocation. Dyspnea with feeling of weight in chest. Dyspnea, with upward pressure, during pregnancy. Oppressed breathing. Difficult breathing from fullness in stomach. Loss of breath when standing in water. Hysterical asthma, difficult inhalation. Wheezing, snoring, rattling in chest. **Hysterical cough,** worse when getting warm in bed. Cough when getting warm in bed.

Modalities - Better from moist heat, warm room, dry weather. Worse from exertion, motion, shaking head, jarring, lying on painful side, bruises. Worse from mental exertion, **shock, emotions, excitement. Worse menstruation,** pregnancy. **Worse from alcohol.** Worse damp, wind, drafts, fog, cold bath, cold feet. Worse changes of season, summer, hot weather, overheating.

Mouth - Chalky taste in morning, when fasting. Thick saliva like cotton (Berb.). **Dry mouth without thirst, worse sleep.** Tongue numb, paralyzed, speech difficult. Tongue adheres to the roof of the mouth. Teeth seem pulled, loose. Teeth painful while eating. Toothache of pregnant women, better warmth.

Nose - Dry nose, stopped up, must breathe through mouth. Catarrh worse cold, damp weather. Nosebleed of dark blood.

Oversensitive sense of smell, followed by loss of smell.

Perspiration - Sweat is red, bloody or absent. **Lack of perspiration.** Sweats with aversion to be uncovered.

Rectum - Inactive rectum. Constipation in women who are disposed to faint or who bolt their food. Difficult stool during pregnancy. Hard alternating with soft stools. **Stool is soft and yet is unable to expel it,** even with long straining (Alum.). Summer diarrhea from cold drinks. Epidemic diarrhea in autumn, with want of appetite, but frequent thirst. Diarrhea during dentition, pregnancy, from boiled milk. Stool, soft, putrid, bright yellow and lenteric, worse at night. Slimy stools with slimy taste in mouth. Sharp pain in anus during stool. **Faintness during or after stool.** Acrid feeling in rectum and anus during and after stool. Passing fetid flatus. Protruding hemorrhoids. Worm affections in children.

Sensations - Forehead as if pushed out, as if brain struck against side of head or loose. Objects appear much too large. As if drunk. Pain as of a rough body in Eustachian tube. Pricking as of electric sparks on cheek. As if wind incarcerated in stomach, as if a piece of bacon were in throat. Limbs as if floating in the air. As if left shoulder contained lead. As if a string were tied around arms. As of a grasping hand in upper arm.

Skin - **Cold, dry skin.** Dryness of inner parts. Bluish spots on the skin. Skin sensitive to cold, damp air. Anasarca, dropsy of external parts. Freckles. Acne. Chilblains. Irregular red scaling patches on face and neck

during congestions, at time of menses. Ulcerations of skin. Complaints after suppressed eruptions.

Sleep - Narcolepsy. Attacks of sleepiness, with vertigo. **Great drowsiness** (Indol.). **Complaints cause sleepiness.** Great sleepiness with great inclination to laughter. Starting in sleep, but doesn't always awake. Starts with shocks as if electricity were passing through body. Dreams of falling from high place, of being pursued. Coma.

Stomach - Excessively bloated. Retrocession of gout to stomach. Eating a little too much causes headache. Digestion weak, all food turns to gas. **Flatulent dyspepsia.** Hiccoughs and craving for highly-seasoned food. Deathly sickness on raising head from pillow. Nausea when riding in a carriage. Nausea and vomiting, with sleepiness. Nausea and vomiting, from irritation of uterine pessary, during pregnancy.

Temperature - Chill with stupor, pale face. Chill begins in left hand (Carb-v.). Desire to sleep between chills, if left alone. Chill alternating with heat, without thirst.

Throat - Great dryness of throat, without thirst. Difficult swallowing from paralysis of muscles. Scraping in throat. Contraction on throat like strangulation. Globus hystericus. Hoarse voice when walking against the wind (Hep.)

Vertigo - Vertigo as if drunk, staggering. Vertigo when walking in open air. Vertigo with headache and nausea, with lightness and emptiness of head. Vertigo feels as if floating in air.

COMMENTS - Stonham reported a case in which a dark-haired young man ate two nutmegs one morning. In the afternoon, he was exhilarated, able to do more than usual, to argue on any subject. At dinner, his mouth was dry, he had great thirst, felt he could not drink enough to quench it.

After dinner, his head felt strange, as if in a dream, but he jointed a small musical party as he had intended. He seemed to be two people. His real, conscious self seemed to be watching his other self playing. He could not play well and had to stop. He seemed lost and when spoken to would come to himself with a start. He could hear distant sounds much more acutely than usual.

A woman who ate several nutmegs in an attempt to bring on a miscarriage hallucinated that she had two heads.

A. P. Williamson recorded one case of a woman who took grated nutmeg for diarrhea. After the second dose of half a nutmeg, her head felt queer and dizzy, then her head felt large.

She could not reply to questions, although her eyes were open and she seemed to understand.

Her pupils dilated, eyes starting, face pale, respiration was labored. She was semi-conscious and had to be shouted at, but relapsed into semi-consciousness. Pulse was at first small or rapid, but during the unconscious period it was irregular, fuller and weak.

When consciousness first returned, she kept her hands to her head "to prevent it falling off, was obliged to move her head with her hands, it being too large and heavy for her body." Her chest felt as if in a vice. For some days she was unable to use words properly, frequently obliged to stop in the middle of a sentence and change it entirely from not being able to use the appropriate words.

General exaltation of the senses. One hypersensitive patient given a single dose of Nux-m. 30c, said it seemed to put a coat of cotton wool over her. Clairvoyant state, answers questions accurately quite out of her sphere and on returning to consciousness knows nothing about it.

Pains as if bruised, sprained, wrenched. As if the bones smashed. As if electrified. Pressure, throbbing, drawing, burning. Parts lain on are sore. Puffiness, swellings, dropsy of outer parts. Buzzing sensation with numbness of hands and feet.

Spasms and convulsions. Jactitation of muscles, chorea. Locomotor ataxia excited by cold and wet. Jerks in inner parts, in muscles, recovers with a start. Paralysis with spasms and trembling of tongue, eyelids, and esophagus. Catalepsy.

Characteristic drowsiness (Op.), particularly if accompanied by chilliness and thirstlessness. Irresistible tendency to fall asleep, narcolepsy. For any disease with the concomitant overpowering sleep. Tendency to faint. Persons who easily faint from the sight of blood or from standing. Dark hemorrhages.

Dryness, either actual dryness or the sensation of it. Dry skin, lack of perspiration. Dryness of the mouth and tongue (Nat-m., Alum., Bry.), usually without thirst.

The tongue is so dry it adheres to the roof of the mouth. Eyes dry, too dry to close the lids. Neurotic patients who always awaken with a very dry mouth and tongue. Dryness during pregnancy.

Severe constipation, inactive bowels with dry skin. Constipation with drowsiness (Op.). Faintness during or after stool. Hemorrhage of typhus, fetid flatus. Protruding hemorrhoids. Incontinence of urine.

Diarrhea from milk. Eating a little too much causes a headache. Worse from alcohol. Drinking causes dry cough, colic. Drinking beer causes strangury. Brandy causes an electrifying effect.

Generally worse by cold and damp, better by warmth. Aggravated by wet weather. Cough when warm in bed, or worse in bed.

Clarke cured with Nux-m. 30c a very bad cause of indigestion with acne in a youth who had the symptom "the saliva seems thick like cotton."

P. P. Wells said that "in brain disorders of infants in the stupor with insensibility and unconquerable desire to sleep. Whether in idiopathic disorders of the brain or in those occurring during cholera infantum. Nux-m. is one of the most precious remedies in the Materia Medica."

J. White gave a striking instance of a Nux- m. headache, better by hard pressure, in a man convalescing from a severe gunshot wound to the head. He wanted the nurse to "bear her whole weight on it."

With the headache was rapid, anxious breathing, as if he could not get air enough and the "wind would be shut off." Nux-m. always relieved. The 3x was first given, then a higher potency.

RELATIONS - Antidoted by: Camph., Laur., Gels., Nux-v., Op., Zinc, Valer. **It antidotes:** Ars., Laur., Rhod., lead colic, turpentine, alcohol, bad yeasty beer. **Compare:** (1) 01- myr., oil of Nutmeg - as a remedy for boils, felons, poisonous ulcers, it has been used in the 2x potency. (2) Omi. (3) Myris. - Ulcerative tendency in all tissues. Inflammation, hastens suppuration, powerful anti-septic. Said to act more powerfully than Hep. and Sil. (4) Nux-v.,

Puls., Rhus-t., Ign., Asaf. **Compatible:** Lyc., Nux-v., Puls., Rhus-t., Stram., Ant-t.

***NUX VOMICA (Poison Nut)

PHARMACY - nux-v. Nux vomica. Poison nut. Strychnos nux vomica. N. O. Loganiaceae. Tincture and trituration of imported seeds. **Historical dose:** All potencies.

CLINICAL - Acne rosacea. Addictions. **Alcoholism.** Amaurosis. Amblyopia. Anger, effects. Asthma. Belching. **Biliousness.** Bladder, disorders. Bone, nodes. Brain, disorders. Breath, sour. Catarrh. Clavus. Colds. **Colic.** Constipation. Convulsions. Coughs. Cramp. Cystitis. Delirium. **Delirium tremens.** Diarrhea. **Drug, abuse.** **Drug addictions.** Dysentery. **Dyspepsia.** Epilepsy. Eye, affections. Gallstones, pain. Gastrodynia. **Gout.** **Hangovers.** **Headaches.** Heart, disorders. Heartburn. **Hemorrhoids.** Hepatitis. **Hernias.** Hydroceles. Hypochondriasis. Impotence. **Indigestion.** Intermittent fever. **Insomnia.** Intussusception. Jaundice. **Liver, disorders.** Locomotor ataxia. Lumbago. Masturbation. Migraines. Morning, sickness. Motion, sickness. Musca volitantes. Myelitis. **Nausea.** Night-blindness. Nightmares. Nymphomania. Paralysis. Paraphimosis. **Photophobia.** Pregnancy, affections. Pylorus, disease. Kidney, stones. Seasickness. Sexual, mania. Sexual, weakness. **Sleep, disorders.** Spermatorrhea. **Stomach, disorders.** Strabismus. Strokes. Taste, disordered. Tea, effects. Tenesmus. Tobacco, habit. Tongue, disorders. Trachea disorders. Umbilical, hernia. Urethra, spasm. Urination, frequent. Uterus, prolapse. Vagina, prolapse. Vertigo. **Vomiting.** Water brash. Worms. Yawning.

HOMEOPATHIC - Strychnos nux vomica is a moderate-sized tree, native to the Coromandel Coast and Cochin China. The fruit is like an orange in appearance and contains numerous seeds of flattened circular outline, about the size of a half penny, ash-gray in color, covered with fine silky hairs.

The seeds are intensely bitter owing to the presence of strychnia and brucea that exist together with certain peculiar acids, but the pulp is innocuous and is said to be eaten by birds. If nitric acid is added to the seeds a deep orange-yellow color is produced. The wood of the tree is very bitter.

Nux-v. is used in India in cases of intermittent fever and snakebites. The Treasury of Botany noted that a decoction of the leaves is used externally in rheumatism.

The difference in the character of Ign. and Nux-v. proves the wisdom of Hahnemann's simple methods of studying medicines. If there was nothing more than the chemistry of the drugs to go by Ign. and Nux-v might be used indifferently, but with the knowledge of their characteristic features, they are seldom even thought of in connection with the same case.

Nux-v. is useful to those who lead a sedentary life doing much mental work, or to those who remain under stress and strain of prolonged office work, business cares and worries. Generally thin, spare, quick, active, nervous and irritable.

Pre-eminently for men. Firm-tissued brunettes. Debauchees, much drugged patients. Useful for the ill effects of wine, women, rich food, tobacco and sedative drugs. Indulgences result in a thick head, dyspepsia and irritable temper.

Irritable nervous system, hypersensitive and over-impressionable. Digestive disturbances, portal congestion and hypochondriacal states. Dyspepsia. **Zealous fiery temperament.** Easily chilled, avoids open air.

Lightning-like pains. Neuralgia, prodromal. Internal scrapy sensation or rawness in throat, larynx. Bruised soreness of abdomen, brain etc. Reflexes increased.

Twisting and jerks. Convulsions. Spasms, tetanic with consciousness, worse by slightest touch, but better by grasping tightly or when elbow was stretched. Tense, contracted feeling. Fainting. Trembling. Paralysis from

a stroke in high livers, partial with vertigo and nausea, with sticking pains.

Hemorrhages. Varicose veins without tortuosity, black hard cords from standing or from sedentary habits. Reversed peristalsis. **Biliousness**. Fainting after stools. Epilepsy during stool. Vomiting after labor pains.

MIND - Overactive mind. **Very irritable**, sensitive to all impressions. **Cannot bear noises, odors, light**, touch, music. Sensitive to singing. Every harmless word offends, every little noise frightens, anxious and beside himself. Cannot stand pain, so mad, he cries.

Loses connection of ideas, thinks she will lose her reason. **Concentration difficult while calculating**. Easily makes mistakes. Confusion of mind after vexation. Stupefaction worse in sun. Wants to be quiet, desires repose and tranquility. Despondency alternating with buoyancy. Averse to work. Time passes too slowly.

Headstrong, self-willed. Zealous, fiery **temperament**. **Angry and impatient**. Offended easily. Obstinate resists wishes of others. Can't bear conversation or reading. Quarrelsome if disturbed. Quarrels, reproaches, scolds, insults, from jealousy.

Angry when consoled. Faultfinding. Reproaches others. Can't endure slightest contradiction. **Impatient when spoken to, gets angry and violent without any provocation**. Spiteful. Cursing. Ugly, malicious. Violent and abusive. Disposition to slander.

Nervous and excitable. **Workaholics**. Anxiety about business affairs. **Ambitious and competitive**. Obsessive and compulsive behavior. **Fastidious**. Anxiety in morning on waking. Melancholy. Pessimistic. Sullen. Nagging.

Alcoholism. **Delirium tremens**. **Drug addictions**. Frightened easily, wakes in fright from least noise. Frightfully apprehensive about getting married. Fears poverty. Hypochondriasis. Even the least ailment affects them. Talks about one's condition. Fear of knives, lest she should kill herself or others. Suicidal, homicidal impulses.

Abdomen - Contraction of abdominal muscles. **Bruised soreness of abdominal walls** (Apis., Sulph.). **Weakness of abdominal ring region**. Bowels gripe here and there. **Sore bowels, worse coughing and stepping**. As of a hand about waist, clothes oppress it. Forcing in lower abdomen towards genitals. Intussusception, crampy, remittent pain in bowels. Gastroduodenal catarrh. Sense of goneness in the groins. **Loud rumbling and gurgling in abdomen, in morning**. **Incarcerated flatus**. Flatulent distention with spasmodic colic. Colic with upward pressure, causing short breath and desire for stool. Colic with cold hands and feet. Colic of brandy and coffee drinkers. **Colic in nursing infants** from stimulating food eaten by the mother (Cham.). Colic from suppressed hemorrhoidal flow, from uncovering. Strangulated hernia (Op.). Umbilical hernia of infants from constipation or crying.

Back - **Sudden sharp pains in back when turning, with dull pain while sitting**. Spinal irritation with sudden loss of power in legs. Lateral spinal sclerosis. Spinal anemia. Myelitis and early stages of locomotor ataxia. Crawling sensation along spine. Burning in spine, worse 3 a.m. to 4 a.m. Acute lumbago. **Lumbar region feels bruised and lame**. Lumbar ache, as if breaking, must sit up in order to turn in bed. Sacral region as if lame after childbirth. Bruised pain below scapulae. Sharp pains between scapulae. Cervical-brachial neuralgia, painfully stiff neck, pains down shoulder (right), worse touch. Drawing pain in muscles of neck. Torticollis from cold or nervous shock, fright.

Bladder - Catarrhal cystitis. Cystitis after suppression of menses or hemorrhoidal flow. Pressure on bladder before urinating. Itching burning in region of neck of bladder in morning in bed. **Irritable bladder from spasmodic sphincter**. Ineffectual urging, spasmodic and strangury. **Paralysis of bladder**. Spasms of bladder from undue use of stimulants. Spasms of bladder, especially if caused by sexual excesses. Burning and tearing pain in neck of bladder, itching in urethra, during urination. Frequent scanty urination when becoming warm from working, can't empty bladder. Involuntary urination when laughing, coughing, sneezing. Nocturnal and diurnal bedwetting. Vesical calculi. **Breasts** - Nipples, sore, white spot in center.

Tensive pain when nursing. Nipples painful during suckling with little or no soreness or rawness. Painless gathering of milk in breast from not nursing the child.

Causations - Ill effects of alcohol, drugs, spices, stimulants, sexual excess.

Chest - Spasmodic constriction. Chest as if drawn together, at night in bed. Tightness across chest during coryza or chill. Intercostal neuralgia, worse lying on painful side. Spasms of chest from vapors of copper or arsenic. Itching and scraping under middle of sternum, causes cough. Sensation as if something were torn loose in chest during cough.

Constitutions - Very particular, zealous persons inclined to get angry and excited or of a spiteful, malicious disposition. Ardent persons or disposed to anger, spite or deception, always irritable or impatient. Nervous, melancholic people, with indigestion, venous constitution with tendency to hemorrhoids. Thin, irritable, choleric persons with dark hair, who make great mental exertion or lead a sedentary life. Bilious temperament. Vigorous persons of tense tissue, ardent and irascible temperament disposition. Persons addicted to wine, coffee or

pepper and condiments, who lead a sedentary life with much mental exertion. Debauches, thin, irritable, venous.

Cough - Cough of nervous or gastric origin. Cough at night, preventing sleep. Dry cough, after midnight, violent in morning before rising. Dry cough with rattling of mucus. Cough after motion or mental effort. Cough with sensation as if something torn loose in the chest. Tight, dry, hacking cough, at times with bloody expectoration. **Cough brings on bursting headache** and bruised pain in epigastric region. Cough with sensation as if something were torn loose in chest. Cough with vomiting or bleeding from nose or mouth. Cough after yawning. Desire to eat during cough.

Ears - Auditory canal dry and sensitive. External meatus dry and sensitive. Itching in ear through the Eustachian tube.

Sharp pain, when swallowing. Otalgia, worse in bed. Hyperesthesia of auditory **nerves, loud sounds are painful and danger him**. Ringing, roaring and hissing in ears. Strong reverberation of sounds in ear.

Eyes - Bloodshot eyes. Lower eyeballs yellow. Eye affections with liver disease. Burning and smarting pain as from salt, with lachrymation. Sensation of hot water in eye. Burning pain when looking at a light. **Photophobia, much worse in morning**. Loss of vision due to alcohol and tobacco. **Twitching and blinking**. Orbital twitching radiating towards the occiput. Paresis of ocular muscles. Optic neuritis. **Optic nerve atrophy from habitual use of tobacco or intoxicants**. Strabismus. Trachoma and follicular conjunctivitis. Conjunctivitis in spring. Smarting, dry sensation in inner canthi. Lachrymation from affected side. Exudation of blood from eyes.

Face - Red, turgid or yellowish. Face yellow with a red flush. Yellow around mouth and nose. **Twitching and spasmodic distortion**. Distortion of face. Trigeminal neuralgia with numbness of face. Submaxillary glands swollen. Erysipelas. Itching pimples on chin. Acne from eating cheese, from excessive use of liquors. Infra-orbital neuralgia with swelling of cheek intermittent, better when lying in bed. Drawing and stiffness in masseter muscles. Drawing tearing, in jaws. Jaws snap shut, stiff. Lower jaw hangs down. Left angle of the mouth drops. Child passes hand constantly over face (brain disease).

Female - Menses interrupted and beginning again. **Menses irregular. Menses too early**, too long, prolonged. **Menses with black blood** with fainting spells. **Dysmenorrhea** with pain in sacrum and constant urging to stool. **Prolapse of uterus** from straining or lifting. Cramping, in uterine region, causing her to double up and cry, must stay in bed. Contractive uterine spasms with discharge of clots. **Metrorrhagia with sensation as if bowels wanted to move**. Metrorrhagia at menopause. Metrorrhagia from high living. Irritation and inflammation of ovaries, caused by

rich living, highly seasoned food, stimulating drinks. Uterine fibroid. Leucorrhea, fetid, staining yellow. Itching and tingling of vulva, causes masturbation. Sexual desire too strong with burning in vulva. Soreness across pubes. Threatened miscarriage. Profuse bleeding after miscarriage. Inefficient, weak labor pains. Retained placenta. Scanty, offensive lochia.

Food - Hunger, yet aversion to food. Ravenous appetite after drinking beer. **Craving stimulants**, coffee, tobacco, drugs. **Craves alcohol, beer, brandy. Craves pungent, bitter things and tonics**. Craves meat, milk, gravy and spicy food. **Loves fats** and tolerates them well (Puls., opposite.). Aversion to bread, coffee, tobacco, meat. Bread has a bitter taste. Worse cold food, cold water. **Worse from coffee. Worse alcohol, liquor, beer, wine**. Worse over eating, condiments, stimulants, narcotics, drugs. Worse coffee, tobacco, purgatives. Intoxicated feeling, worse tobacco, alcohol, coffee. Artificial food disagrees and causes vomiting and purging. Coffee, milk, beer, water, don't taste right. Thirst during chill, thirstless during heat.

Head - Migraines. Headache in occiput or over eyes. Frontal headache with desire to press the head against something. Bruised sensation of the brain. Pressing pain on vertex, as if a nail driven in. Pressive and throbbing, at vertex from fixed attention of mind. **Headache in the sunshine** (Glon., Nat-c.). **Toxic headaches from drugs, alcohol**. Headache after drugging. **Hangover headaches with irritability**. Headache from constipation. Congestive headache, associated with hemorrhoids. Head feels distended and sore after a debauch. Supraorbital neuralgia with great restlessness. Scalp sensitive to slight touch.

Heart - Angina pectoris, patient lies on knee with body leaning backwards, worse at night. Angina pectoris with loss of appetite and accumulation of gas in bowels. **Angina pectoris from using coffee, tobacco or alcohol to excess**. Heart feels tired. Distension, aching pains and anguish in region of heart and hypochondria. Dilatation of heart with nervous palpitations. Palpitations after stimulants, after eating, after wine, from mental emotions. Palpitations on lying down. Pulse rapid and irregular, at times intermitting.

Kidneys - Pressure, burning and heat in region of kidneys, in nephritis. Nephritis from abuse of liquors. Severe sharp pains in region of left kidney, worse rising from seat and motion. Kidney colic (right), extending to genitals and legs with dribbling urine. Spasmodic strangury, after beer. **Painful ineffectual urging to urinate**. Frequent calls, urinates little and often. Tenacious mucus passes with the urine, without pain. Urine pale, later thick, whitish, purulent, reddish, with brick-dust sediment. Hematuria from suppressed hemorrhoidal flow or menses

(Ip., Ter.). Urine dribbles in old men with enlarged prostate or gonorrhea.

Limbs - Chorea. **Convulsions from abuse of alcohol.** Progressive locomotor ataxia from alcoholism. **Cramps and spasms of limbs.** Cramps in calves and soles. Paresis of arms with shocks. Automatic motions of hand towards mouth. Partial paralysis from overexertion of getting soaked (Rhus-t.). Crawling and formication in paralyzed parts. Legs numb, feel paralyzed. **Sudden loss of power of arms and legs in the morning.** Aching, drawing or bruised pains in limbs, worse motion and at night. Limbs heavy as lead. Rheumatism attacking mostly muscles of trunk and large joints. Legs stiff. Knee joints as if dry, cracking during motion. Drags his feet while walking, legs tremble, unsteady gait. Shooting from toes to thighs, worse after stool. Heat of hands, feet, yet they must be covered. Arms go to sleep, numb, stiff feeling. Varicose veins attributable to high living.

Liver - Great soreness and tenderness in region of liver, with pain in right shoulder. Liver sore, enlarged, sticking pain. Sharp pain in region of liver, worse from contact or motion. Pressure and stinging pains. **Weak liver from bad diet, meat, fats, spices, alcohol, etc.** Gallstone colic. Throbbing pain as from hepatic abscess. **Hepatitis from bad food or water.** Jaundice from anger. Jaundice from habitual use of alcohol. Cirrhosis from alcohol abuse. Enlarged liver of alcoholics. **Toxic liver from drugs, chemicals and alcohol.**

Lungs - **Shallow and oppressed breathing.** Awakened every night by **intolerable sense of suffocation.** Dyspnea in morning and evening. Loud, snoring, during sleep. Difficult breathing, from accumulation of gas. Dyspnea during pregnancy. Asthma from disordered stomach. **Asthma with fullness in stomach,** worse in mornings or after eating. Asthma with feeling as if clothing were too tight, better belching. Asthma from spasmodic constriction. Yellow, grey, cold mucus. Sour or sweetish expectoration. Bright red blood. Hemoptysis from anger, suppressed hemorrhoidal flow. Pneumonia with catarrhal irritation. Pneumonia, after suppression of hemorrhoidal flow, when hepatization occurs, from becoming chilled. Pneumonia of the elderly, also of children. Pneumonia in sick people compelled to lie upon back.

Male - Drawing pain in testicles and spermatic cords. Testes hard and retracted. Constricting pain in testes. Orchitis (Ham., Puls.). Sharp pain in testes. Heat in testicles. Hydrocele. Chronic prostatitis. Increase of smegma. Gonorrhea, thin discharge, with burning on urinating and frequent urging to stool. Spermatorrhea with dreams, backache, burning in spine, weakness and irritability. High sex drive. Cannot be in female society without having emission. **Premature ejaculation.** Bad effects of onanism, sexual excess. Emissions from high living. **Impotency.** Penis becomes relaxed during sex.

Modalities - Better from a nap, if allowed to finish it in evening. Better moist air, damp, wet weather (Caust.). **Better from free discharges.** Better strong pressure, wrapping head, lying on sides, resting, frequent stretching. Better hot drinks, milk, fats. **Worse from overeating, coffee, condiments, liquor, stimulants.** Worse from high living, debauched, sedentary habits. **Worse narcotics, drugs tobacco, purgatives.** Worse anger, mental exertion, vexation, mental shock, wounded honor, disappointment of ambitions. **Worse cold, open air,** dry air, drafts, wind. **Worse disturbed sleep, early morning.** Worse noise, music, odors, after eating, yawning. **Worse pressure of clothes** at waist, touch, **uncovering.**

Mouth - Dry mouth. Foul, sour breath. Offensive breath in morning. **Sour, bitter, bad taste in morning.** Internal mouth, tongue and palate slimy, and feel raw and sore. Small aphthous ulcers in mouth and throat. **Bloody saliva** runs out at night. Itching of palate, Eustachian tube. Gums, swollen, white and bleeding. Teeth chatter. Toothache, worse cold, better warm drinks. Jaws contracted. Articulation and speech difficult.

Nose - **Stuffy colds, snuffles** after exposure to dry, cold atmosphere, worse in warm room. Snuffles in a newborn. **Stuffed up at night and outdoors** or alternates between nostrils. Sudden fluent coryza after rising. Coryza, fluent in daytime, worse warm room, better open air. Coryza with lachrymation. Acrid discharge, but **with stuffed-up feeling.** Violent sneezing, abortive, from intense crawling in nostrils (left). Bloody mucus in nose. Nosebleeds in morning (Bry.). Nosebleeds during sleep, from suppressed flow of hemorrhoids, from coughing. Oversensitive to strong odors, even fainting. Smell before nose like old cheese, burning sulphur. Nose looks sharp and pointed. Picking at nose, worms.

Perspiration - Sour perspiration, on one side of body. Rather light sweat. Cold, clammy sweat on face. Odor of sweat, musty straw. Sweats during sleep, disappears on waking. Sweats after midnight and in morning.

Rectum - Constriction of rectum. **Constant uneasiness in rectum. Irregular,** peristaltic action. **Constipation with frequent ineffectual urging or passing but small quantities at each attempt.** Urging to stool felt throughout abdomen. Constipation, the harder he strains the harder it is to pass stool. **Feeling as if part of stool remained.** Sharp pain in rectum after stool. Frequent small evacuations. **Dysentery, stools relieve pains for a time.** Alternate constipation and diarrhea after abuse of purgatives. Diarrhea after a debauch, worse morning. Diarrhea after night watching, after overexertion of mind, after anger, after ginger or brandy. Diarrhea with jaundice (Dig.). **Itching, blind hemorrhoids** with ineffectual urging to stool. Burning pain in hemorrhoids, intolerable to least touch. Hemorrhoids very painful after drastic drugs. Hemorrhoids during

pregnancy or after childbirth. Dragging pain at anus when not at stool. Prolapsed rectum.

Sensations - As if something heavy fell into head. As if his head were immensely larger than his body. As if pressing a nail into brain into vertex, as if skull pressed asunder. Chest as if drawn together, as if something torn loose in chest. As if blood would be jerked out of veins. Navel as if drawn in. As if hernia would occur, as if everything in region of umbilicus were being shattered and torn. As of a band above knees, around body.

Skin - Pale or yellowish color of skin. Jaundice. Blue mottled skin. Skin red and blotchy. Skin as if numb. Ecchymosis, blue spots. Goose bumps. Eruptions with burning, pricking, itching. Burning, pricking like fleabites. Miliary and pimpled eruptions. White miliary eruption. Acne. Furunculi. Urticaria with gastric derangement. Ulcers with elevated margins of a pale red color. Chilblains, burning itching. Tendency to boils. Abscesses.

Sleep - **Better after a nap**, unless aroused. Yawning. Drowsy after meals and in early evening.

Sleeplessness from abuse of coffee, wine, liquor, opium or tobacco. Sleepless from rush of ideas.

Sleeplessness from mental strain. Awakens in fright from least noise, as if someone were in room. Awakens at 3 a.m., lies awake for hours, with a rush of thoughts. **Cannot sleep after 3 a.m. until towards morning.** Weeping and talking during sleep. Amorous dreams. Dreams about exerting the mind. Anxious dreams. Dreams full

of bustle and hurry, anxious. Dreams of being pursued by animals, dogs and cats. Dreams of quarrelling, of mutilations, of fatal accidents. Nightmare after a heavy supper or alcoholic beverages. Wakes feeling wretchedly.

Stomach - **Weight and pain in stomach**, worse eating. Severe pain in stomach from injury, worse least food. Ravenous hunger, especially about a day before an attack of dyspepsia. **Region of stomach very sensitive to pressure** (Bry., Ars.). **Indigestion from alcohol.** Disordered stomach from debauchery, from high living, from drugs, from sedentary habits. Indigestion, after business anxiety, from sedentary habits, night watching. Dyspepsia from drinking strong coffee. Cramps in stomach in morning and after eating. **Sour taste and nausea in the morning.** Food lies like a heavy knot in stomach. Epigastrium bloated with pressure as of a stone several hours after eating. **Hiccough from overeating**, from cold or hot drinks. Flatulence and heartburn. Sour, bitter belchings. Difficult belching of gas. **Nausea and vomiting every morning**, with depression of spirits. **Nausea and vomiting with much retching.** Nausea, better if he can vomit. Wants to vomit, but cannot. Vomiting of sour mucus, oily, greasy or black substances. Vomiting of greenish matter, undigested food, blood. Vomiting of bile with thirst, after anger. **Motion sickness from riding in cars or seasickness.**

Stool - **Stool is incomplete and unsatisfactory.** First part of stool soft, last part hard. **Scanty stool with much urging.** Black, dark or brown stool. Hard and knotty stool, consisting of little balls. Stool often mixed with mucus and blood. Black, hard stool, often streaked with blood.

Teeth - Teeth seem too long. Sensation as if tooth were wrenched out. Tearing pain in teeth and jaws, worse cold drinks, better warmth. Stinging pain in decayed teeth. Pain in hollow tooth. Sharp pain in teeth on drawing in air or just after eating. Toothache, worse mental exertion, when reading or thinking. Toothache worse from exercise, better external warmth. Toothache with swollen face. Chattering of teeth. Gums swollen, white, and bleeding. Gumboils, which seem about to burst.

Temperature - Chilliness alternating with heat. Cold stage predominates. Chills with backache on slightest motion. Chills on being uncovered, **must be covered** in every stage of fever. Chill with thirst, and heat without thirst. Fever with internal chilliness. Fever with anxiety and restlessness. **Body burning hot**, especially the face, yet **cannot move or uncover without feeling chilly.** Warm on uppermost side, on lying down. Dry heat of the body. Paroxysms in morning. Excessive rigor with **blueness of fingernails.** Aching in limbs and back, and gastric symptoms.

Throat - Sensation of **roughness**, tightness and tension. **Stitches into ear.** Pharynx constricted. Acute catarrhal laryngitis. Spasmodic constriction of larynx with suffocating spells. **Tickling** in throat after waking in morning. Sore rawness in throat. Catarrhal hoarseness with scraping in throat. Tenacious mucus in upper part of trachea. Putrid taste in throat on coughing. Dark gray patches on right tonsil. Small ulcers in the throat, pain worse during empty swallowing. Diphtheria. Elongation and swelling of uvula.

Tongue - First half of tongue clean, posterior covered with deep fur, white, yellow, cracked edges. Tongue black and dark red, cracked on edges. Tongue red, sore and yellow at base. Needle-like stitches at edges of tongue. Painful vesicles on tongue. Tongue seems heavy when talking.

Vertigo - Vertigo in morning, on empty stomach, after dinner. **Intoxicated feeling, worse morning, mental exertion, tobacco, alcohol, coffee, open air.** Vertigo, brain and other objects turn in circle. Vertigo with black spell. **Vertigo with momentary loss of consciousness.** Dizzy and faint in a crowd or where many lights are burning. Vertigo from night watching and mental overexertion. Vertigo from opium, smell of flowers, gas, etheric

oils, etc.

Vision - Weakened power of accommodation from overexerting eyes. Diplopia

from muscular asthenopia. Diplopia from paralytic strabismus. **Blurred vision from overeating.** Dim vision, can see better on cloudy day. Obscuration of vision in morning. **Printed matter is seen with difficulty.** Sees flashes from external canthi towards pupils, like a circle of fire, before headache. Sees streaks like lightning. Glittering appearance just outside of distinct field of vision. Floating black and grey points.

COMMENTS - Clarke stated, under Brucea antidysenterica, how the bark of the tree was imported into Europe in mistake for Angustura. The tree from which the ignatia "beans" are obtained is unknown, but it is not doubted to be a strychnos, the seeds actually contain a larger proportion of strychnia than those of Nux-v.

In poisoning cases, the most marked feature is the spasms and convulsions which cause death by arresting the respiratory movements. The general effect of the spasms was to cause opisthotonos and throwing the head back. In some, the body was spasmodically drawn sideways.

Tetanus, differing from traumatic or idiopathic tetanus in that the spasms of the former are less continuous, do not invariably begin with the muscles of the jaws, but preferably in the lower limbs and are not accompanied by rise of temperature.

Characteristic spasms. Spasms affect all the muscles, including the esophagus, stomach, intestines, uterus, bladder, rectum. Intestinal spasms after eating unripe fruit. Tetanic seizures with a drawn facial expression.

Respiratory spasms. Asthmatic states. Asthma, coryza from drafts or air conditioning. A dry, persistent fatiguing cough that causes headache as if the skull would split. Cough, worse at night, after midnight. Clarke cured with Nux-v. many cases of bronchitis with copious moist rales and expectoration. Acute flus. Flu with muscle aches, toxic feeling. Gastric flus with cramps, spasms, irritability and nausea.

High blood pressures, heart attacks, often from severe exhaustion. Hepatitis, cirrhosis of the liver with irritability.

Kidney conditions, liver weakness. Crave fats (Nit-ac.), sweets, salt, spicy foods, coffee, tobacco, stimulants. Desires alcoholic drinks, but they aggravate.

Pressure two or three hours after eating (Nux-m. and Kali-bi., have it immediately after). Severe cramps and spasms in the stomach and colon. Severe peristalsis. Colitis, ulcers, gas and bloating with irritability, depression, and frustration. Colic with alternating diarrhea with mucus in the stool and constipation with severe cramps and spasms.

Irritability of the bladder and rectum. Constant urging and desire, very little passed. Tenesmus. Incontinence of urine or feces. Constipation with ineffectual urge. Alternate constipation and diarrhea. Sudden diarrhea, drives the patient out of bed. Involuntary diarrhea, can come on after a meal. Straining ceases as soon as the stool passes. Improvement for a short time after a stool.

Portal stasis. Prolapse of rectum with constipation. Lack of bowel tone. Itching and burning hemorrhoids (Sulph.), worse from alcohol. Hernias in infants, or from lifting things. Incipient hernia. Inguinal and umbilical hernias. Clarke saw a case of strangulated hernia resolved by Nux-v. while preparations for an operation were in progress.

Tendency to faint after diarrhea stools or after vomiting. Fainting from odors in a warm room after eating, after every labor pain. Epilepsy attacks during stool. Headaches with nondescript achiness, irritability, often associated with dietary errors.

Hemorrhage. Metrorrhagia, menorrhagia. Uterine bearing down and prolapse, cramps at menstrual periods and pressure on bladder and rectum. Menses too early and profuse, dark flow, faints easily, irregular, cease flowing at nighttime. Cramping pains, cause nausea and fainting, twisting, moving about in abdomen, soreness across pubes, cramps in bladder.

Nash gave a characteristic of the menses of Nux-v., "Menses a few days before the time and rather too copious or keeping on several days longer with complaints at the onset which remain until it is over."

Menses return at full moon.

Pregnancy with irritability, hiccough, morning sickness, varicose veins, hemorrhoids. False labor pains. Irritability with labor pains (Cham.), with nausea or indigestion or vomiting (Sep.). Labor pains are violent and causes fainting. Lochia scanty offensive. Nipples sore, with a white spot in center. Tensive pains when nursing. Strong sexual desire in both sexes, even the slightest provocation excites sexual passion. May be impotent from overuse of drugs or excessive sexual activity.

Keynote over sensitiveness. Morbid sensitiveness. Severe irritability. Languor, great nervous debility (as from sexual or other excesses). Over stimulation, particularly in sedentary people. Trembling, excitement with trembling. Locomotor ataxia. Hemiplegia. Paralysis, after a stroke, parts cold, numb, emaciated.

Sleeplessness, from excitement, anger or resentment. Wakes at 3 a.m. and lies awake for hours. Falls asleep when it is time to rise and feels heavy and unrefreshed. Sleep is unattainable except from a stimulant.

Symptoms are better after undisturbed sleep, worse when sleep is disturbed.

Chilliness. Cannot get warm in bed at night. Coldness of the whole body with blue hands and skin. Cold, moist hands with cold tip of nose. Repugnance to cold or cold air. Chilly on least movement, from being uncovered, must be covered in every stage of fever, chill, heat or sweat.

H. C. Allen noted that in the fever there is great heat, whole body burning hot, face red and hot, yet patient cannot move or uncover without being chilly.

Boenninghausen's keynote is "Feels worse in morning, soon after walking, also after mental exertion after eating and in cold air." Worse cold, dry weather. Worse from music.

General toxicity, usually from addictions to drugs, stimulants, and strong foods. Bilious affects, ailments due to high living. Alcoholism. Rage when drunk. Drug withdrawal (with Aven.). Hangovers (Ran-b., Coff.). Toxic drugged feeling, particularly in the morning.

Ambitious personality, impatient, irritable. Craves stimulants. Very competitive from a young age, aggressive. Hyper or over active children, but purposeful (unlike Med.). Robust, energetic, passion behind a quick intellect. Often from an early sibling comparison (Lyc.).

Career and work oriented, can be workaholics. Not sentimental. Stress and tension lead to over sensitivity, weakness. Anxious, overreact, never satisfied. Fear of failure, of not being successful. Worry. Suicidal depression. Homicidal, suicidal impulse, insanity.

RELATIONS - Antidoted by: Wine, coffee, Aeon., Bell., Camph., Cham., Cocc., Op., Pal., Plat., Stram., Thuj. (ineffectual desire to pass water). **It antidotes:** Narcotic, drastic and vegetable remedies. Bad effects of anomalies on foods, e.g., ginger, nutmeg, pepper and so-called "**hot**" medicines, alcohol, Merc. (tremors), Mez. (neuralgia), ether, Thuj. (urination). **Compare:** (1) In tetanus, Piero., Verin., Thebin., Cic., Hy-ac., Bell., Aeon., Phys., Phyt., Cur., Camph. (2) Cerebrospinal affections, Pic-ac. (3) Fainting in nervous women, Ign., Nux-m., Mosch. (4) Gastric troubles, Bism., Ars., Kreos., Lyc., Puls., Carb-v. (Carb., v. often follows Nux- v. in ill effects of debauchery). (5) Asthma, Zing., Carb-v., Lyc., Nat-s. (6) Paralysis of sphincters, Sep., Bell., Sulph. (6) Bad temper before and during menses, Cham., Mag-m., Sep. (Lyc., before menses). (7) Wakes 3 a.m. and cannot get to sleep, Kali-c., Ars., Calc., Sep. (8) Night watching effects, sensitiveness, effects of noise, traveling by land or sea, umbilical hernia, Cocc. (9) Fear of losing senses, Calc., Lyc., Sulph. (10) Desire to kill love ones, Hep., Ars. (11) Fainting or faints after every evacuation, Dig., Nux-m. (12) Hemorrhoids, Aesc., Ham. (13) Leucorrhea staining yellow, Agn., Carb-an., Chel. (14) Impotence from abuse, Agn., Calc., Sulph. (15) Stricture of rectum, Nat-m., Op. **Compatible after:** Carb-v., Ars., Ip., Mag-m., Phos., Sep., Sulph. **Compatible before:** Bry., Puls., Sulph. **Incompatible:** Zinc.

***NYCTANTHES ARBOR TRISTIS

(Sad Tree)

PHARMACY - nyct. Nyctanthes arbor tristis. Sad tree. Arbortristis. Paghala tree. Sephalika. Harsinghar. Night-Jasmine of India. N. O. Jasminaceae. Verbenaceae. Forests of Central India. Tincture of fresh leaves, collected March to April. **Historical dose:** Tincture and all potencies.

CLINICAL - Chills. Constipation. Fevers, bilious. Fevers, remittent. Rheumatism. Sciatica. Vomiting.

HERBAL - Nyctanthes is a small tree of the Jasmine family, having brilliant, highly fragrant flowers, white and yellow, which do not expand until evening and which fall off about sunrise. During the day the tree loses all its brightness and hence is called "The Sad Tree." "Nyctanthes" means "Night-flowering."

S. C. Ghose gave an account of the medicinal properties of this plant. He used it extensively in cases of bilious and remittent fevers, rheumatism and sciatica and the constipation of children.

Nyctanthes is "a bitter tonic and expectorant and a mild purgative." In the fever there is thirst before and during chills, and bitter vomiting at close of chill. Not much sweat.

HOMEOPATHIC - Ghose, who made a short proving of it, compared Nyct. with Eup-per. Bilious and obstinate remittent fevers, sciatica, rheumatism. Constipation of children.

MIND - Anxious and restless. Depression.

Food - Insatiable thirst, before and during chill and fever.

Head - Dull headache.

Kidneys - High-colored urine.

Liver - Tenderness of liver. Stitches in liver region, which is very sensitive to touch.

Mouth - Tongue coated.

Rectum - Constipation. Profuse, bilious stool with nausea.

Stomach - Burning sensation, better cold application. Constant nausea may or may not be present. Bilious

vomiting occurs every time he takes a drink.

Temperature - Thirst, before and during chill and heat. Bitter vomiting at close of chill. Sweat not generally marked.

COMMENTS - Dr. Sarat Chandra Ghose of Calcutta, India recorded his observations of clinical experiences and provings made about the years 1898-1903.

The first case noted a woman at the house of Babu I. C. Chakrabarti, B. A., Head Master. Town School, Midnapore, was suffering from a complicated attack of intermittent fever. No medicine could give her any relief. In another case, a boy, aged 7, was suffering from intermittent fever for some time. The fever came on every evening at 7 p.m. Violent thirst during chill and fever. Bilious vomiting. Constipated bowels. Ghose prescribed Nyct. tincture in five drop doses thrice daily. The boy was cured within three days.

The third case, a woman, aged 68, was suffering from remittent fever for ten days. Ghose took her under treatment on the eleventh day.

The son of Babu Sarada Kanta Chatterjee was suffering from a malignant type of ague with great constipation. He was treated by some allopaths and native Kabirajes for nearly five months, but no perceptible improvement was wrought by the administration of their remedies. He was eventually placed under Ghose's treatment.

The son of Mr. M. M. Ray. Deputy Magistrate and Collector of Midnapore, was suffering from remittent fever, associated with bilious symptoms for five days. On the sixth day the boy was placed under Ghose's treatment.

The son of Mr. G. C. Dutt, Deputy Magistrate of Midnapore, was suffering from an attack of intermittent fever for some time. The fever came on every morning at about 7 a.m. Violent thirst was present during all the stages. Bilious vomiting came on in the hot stage. Constipated bowels. Ghose prescribed Nyct. tincture in three-drops doses. The boy was all right within three days.

Nyct. proved an excellent remedy for the symptoms and Ghose treated nearly 120

Nyctanthes arbor tristis cases with this medicine alone and an overwhelming majority of them were cured.

*****NYMPHAEA ODORATA**

(Sweet Water Lily)

PHARMACY - nym. Nymphaea odorata. Sweet waterlily. N. O. Nymphaeaceae. Tincture of the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Back, pain. Bronchorrhea. Coryza. Diarrhea. Leucorrhea. Throat, sore. Ulcers.

HERBAL - Hale mentioned this emblem of purity and its traditional reputation as a dissipater of venereal desires. Like Nuph., it has early morning looseness of bowels.

HOMEOPATHIC - Nymph, has early morning diarrhea, and backache. Acrid leucorrhea. Offensive ulcers. Bronchorrhea. Ulcerative sore throat.

REFERENCES - Boericke. Clarke.

*****NYSTATIN**

(Antibiotic Drug)

PHARMACY - nyst. Nystatin. Antibiotic drug. **Historical dose:** All potencies.

CLINICAL-Acne. Blisters. Dermatitis. Hair, disorders. **Skin, disorders.** Stretch marks.

HOMEOPATHIC - Blistering, burning, dryness of skin. Eruptions resembling acne. Excessive discoloring of the skin. Skin irritation, itching, peeling, prickly heat. Reddish purple lines on skin. Secondary infections.

Severe inflammation of the skin. Softening of the skin. Stretch marks, stretching or thinning of the skin. Excessive hair growth, especially on the face. Hair loss, especially on the scalp. Inflammation around the mouth. Inflammation of hair follicles.

REFERENCES - Murphy.

*****OAK**

(Bach Flower Essence)

PHARMACY - oak-b. Oak. Quercus robur. Red female flowers are gathered and put in a bowl of sunlit water for several hours. The water is strained and prepared as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - The remedy Oak-b. belongs to Bach's group **of Despondency and Despair**, along with Crb-a-b., Will-b, Star- b-b., Sw-ch-b., Elm-b., Pine-b. and Lar-b. States of stoic perseverance and willpower in the face of hardship.

Mental/emotional and physical weariness. Over-work and strength of will may lead to physical strain and undue stress. Older people may become bent from over-exertion and one-sided activity.

Great determination to not succumb to invalidity. Avoids necessary rest and restful recreation, even though both may be of vital need. Psychosomatic diseases from the continued rule of willpower over the need for healthful diversion and renewal (Cent-b.).

MIND - Self-discipline, seriousness of intention. Tendency to over-work. Loyalty. Focused on completing tasks. Perseverance in duties, even though strength and vitality may be failing. Unceasing disappointments or lack of rewards despite efforts made will increase resolve to struggle on with great strength of will and ever renewed hope. Inner weariness and lack of motivation.

*****OCIMUM CANUM**

(Brazilian Alfavaca)

PHARMACY - *oci. Ocimum canum. Brazilian alfavaca. Hoary basil. Ocimum incanescens. Ocimum fluminense. N. O. Labiate. Portuguese. Tincture of fresh leaves. **Historical dose:** Tincture and all potencies.*

CLINICAL - Albuminuria. Allergies. Arthritis. Belching. Breasts, painful. Bubo. Diarrhea. Edema. Gravel, urinary. Headaches. Herpes. Hiccoughs. **Kidney, diseases. Kidney, pain. Kidney, stones.** Nausea. Pyelonephritis. Salpingitis. Urine, abnormal. Vagina, prolapse. Vulvitis.

HERBAL - All the members of the *Ocimum* genus are aromatic. The Sweet or Common Basil, *Ocimum basilicum*, is one of the best known. Mure reported that it is used in Brazil as a specific for diseases of the kidneys, bladder and urethra.

P. C. Majumdar added that *Ocimum sanctum* is the sacred tulsi of India and that the Kabirajes use it in diseases of the liver and bilious remittent fevers.

HOMEOPATHIC - *Oci.* is useful in diseases of kidneys, uterus, bladder and urethra. **Kidney pain with violent vomiting** every fifteen minutes. Wrings one's hands and moans and cries all the time. Kidney colic, especially on the right side. Pronounced symptoms of **kidney stones**.

Uric acid diathesis. Red sand in the urine. Red urine with brick-dust sediment after the attack. The urine may be saffron color or thick, purulent with an intolerable smell of musk.

Febrile condition, shivering, sweating and with congestive headache. Vomiting, cries tossing about and wringing hands. Arthritis. Allergies.

Pain in the left testicle. Prolapsed vagina. Vulvarcongestion. Breast congestion. Swelling of inguinal glands and breasts. Excessive sensitiveness of the breasts and pain on nursing.

MIND - Difficulty concentrating. Confused state. Anxiety.

Abdomen - Abdomen distended, painful on the right side during menses. Glands in the groin swollen. Edema on the right side of the testes or labia.

Breasts - Constrictive tension in the breasts. Breasts feel full and tense, itching. Neuralgic pains in the breast. Nipples painful and sensitive to the touch. Congestive pains in the breasts as after nursing. Puerperal mastitis.

Chest - Chest painful on right side. Dry cough in the evening and early morning. Copious sputum.

Constitutions - Allergic constitutions. Psoric constitutions. Neuro-arthritic temperament.

Ears - Boil on the meatus of the right ear. Noise heard painfully in the ears.

Eyes - Blurred vision.

Female - Menses late, short or abundant. Whitish-yellow leucorrhea. Vulvitis. Vulva swollen, darting pain in labia majora. Vaginal prolapse. Salpingitis.

Food - Lack of appetite. Desire for cold drinks during fever.

Head - Stinging pain in the head. Pain in the head, as if a nail were being driven in, ameliorated by pressure. Pulsating, throbbing headache. Headaches followed by shivering.

Kidneys - Pyelonephritis. Cramps in kidneys. **Kidney colic on the right side** with vomiting ever quarter of an hour with calling out. Restlessness and groaning. Pronounced symptoms of **kidney stones**, especially of right side. Stones in the bladder. Tenesmus of the bladder. **Sore pain in ureters.** Burning pain in the urethra during urination. Urine abundant, burning.

Male - Pain in the testes. Tenderness, heat and swelling of the left testicle. Increase, then diminution of sexual desire. Absence of erection.

Modalities - Better in a room, in rainy, humid weather. Worse in the morning, from cold, right side.

Mouth - Lips dry, face red. Tongue furred, yellow, yellowish-white with a brown spot in the center. Toothache on the right, ameliorated by pressing the teeth together.

Nose - Nasal congestion.

Rectum - Constipation with dry, hard, evil-smelling, yellow or greenish stools. Diarrhea several times a day.

Skin - Herpes. Eczematous eruptions. **Stomach** - Belching, hiccoughs. Nausea.

Temperature - Shivers, fever and lack of thirst. Profuse sweating with strong odor. Fever of the tertian or quartan type.

Urine - High acidity, formation of spike crystals of uric acid. **Brick-dust red or yellow sediment.** Red sand in saffron colored urine. **Urine foul-smelling with odor of musk.** Turbid, thick, purulent, bloody urine. Urinary complaints with proteinuria. Scanty urine, which aggravates.

Vertigo - Vertigo on rising and on sitting down.

COMMENTS - Majumdar related the case of a medical man, 45. Majumdar was sent for at 4 a.m. one morning and found the patient in great agony, pain in upper part of region of right kidney, extending downwards and forwards to pubes.

Constant vomiting, bilious, acid tossing about without any relief. After Calc., Lyc., Sep., Sars. and Berb. had been given in vain, Oci. 3x gave immediate relief and no other remedy was required.

Majumdar also noted the case of a man, 50, with excruciating pain in his left kidney, for which he had received opium under allopathic treatment without relief. Majumdar saw the patient on the sixth day of the attack. The suffering was extreme, vomiting of bile, constant nausea, bowels constipated.

Oci. 3x, one drop every three hours, speedily gave relief, and two days later two small uric acid stones were passed. There was no recurrence.

Clarke published two cases. The first concerned a man, 27, who was seized with violent pains of a leaden character in the right side of the abdomen, every three or four weeks. The pains commenced in morning, lasted twelve to fifteen hours. For four hours from commencement of attack the pain steadily increased, culminating in vomiting, first of sour fluid, then slime, then

a fluid like coffee.

After the vomiting there was some relief of pain. Urine contained no sediment. The attacks had lasted seven years. At first they began in the evening. There was a history of epilepsy in the family, and as a child the patient had three fits.

Oci. 200c, one dose, was given and there were no more attacks for about two years. On their recurrence Oci. failed to control them, but Dios, tincture succeeded.

In the second case, a woman, 24, had severe pain in her right flank shooting around to her back. Frequent urination, sometimes depositing clots. Terebe. 3c gave some relief, but it was not permanent. Oci. 200c, a few globules in water, a teaspoonful every two days, rapidly relieved the symptoms and cleared up the case.

RELATIONS - Compare: (1) In kidney colic, Berb., Dios., Coloc., Calc., Lyc. (2) Berb., Hedeo., Lyc., Urt-u. (3) Pareir., Coloc., Tab. (4) In painful breasts, Lac-c., Bor. (5) Crot-h., Phel. (6) Prolapsed vagina, Staph. **Followed well by:** Dios.

***OCIMUM SANCTUM

(Holy Basil)

PHARMACY-oci-s. Ocimum sanctum. Holy Basil. Tulsi. N. O. Labiate. Brazil. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphthae. Asthma. Bites. Bronchitis. Broncho-pneumonia. Catarrh. Colds. Constipation. Cough. Delirium. Diarrhea. Headache. Hiccoughs. Influenza. Intermittent fevers. Leucorrhea. Memory, weak. Ophthalmia. Ozaena. Pneumonia. Ringworm. Ulcers. **Urethritis.**

HERBAL - Ayurvedic physicians like Cha- raka, Harita, Chakradatta, Bangasena, and others have found Ocimum sanctum very efficacious in cough, cold, catarrh, nose affections, ozaena, scorpion bites, remittent and intermittent fevers and constipation.

The medicated oil is used as drops, in the ears in earache and purulent discharges, and into the nose in ozaena. The leaves, with lime juice, are rubbed over ringworm. The seeds are mucilaginous and used as a diuretic in scanty urine and cough. The leaves are expectorant, and given, sweetened with honey, in chronic cough, especially in children.

The expressed juice of the herb has traditionally been administered to children who are attacked with catarrh, cough with fever and constipation, with very gratifying and beneficial results.

HOMEOPATHIC - Ocimum canum is a species of this shrub which grows abundantly in Brazil. Dr. Mure, who proved and introduced it, noted that it is largely used in Brazil "**as a specific for diseases of the kidneys, bladder, and urethra.**" He gave a short list of nineteen symptoms which are partly clinical and partly pathogenetic.

Dr. Mure's experience was several times verified by several noted homeopaths. Drs. Pramada Prasanna Biswas of Pabna, Bengal, N. Sinha and N. C. Ghosh have made provings of this drug.

MIND - Memory weak. **Forgetfulness.** Mistakes in talking. Difficulty concentrating. Prostration and drowsiness. Patient falls asleep while answering questions. Child is peevish and cries, does not like to lie in bed. Irregular delirium, disturbed.

Abdomen - Abdomen distended. Heaviness in abdomen. Gripping pain in the abdomen. Pain is felt over the region of liver and spleen. Pain in the right iliac region. Hepatic pain. Gurgling sound can be felt on pressure.

Chest - Pains are felt on both sides of the chest, worse while coughing or sneezing. Pleuritic pains in the chest. Pain is felt in the middle of sternum. Patient cannot lie quiet in bed.

Ears - Watery secretion from the ear. Offensive pus from the ears. Ears painful due to nasal catarrh. Hot flushes come out from the ears. Noises in the ears, loud sound appears to be very painful. Shortness of hearing.

Eyes - Eyes red. Pain in the eyes, lachrymation, eye complaints due to nasal catarrh. Ophthalmia. Foggy vision. Mist before eyes, especially when fixing them on something.

Face - Face red or pale with reddish hue. Flushed and hot.

Female - Menses too late. Metrorrhagia. Leucorrhea alternating with bloody discharge. Leucorrhea offensive, profuse, white, yellow. Metritis after childbirth. Profuse bloody discharges after delivery. Lochia offensive, profuse, fetid, lasts for a long period. Sexual desire diminished or increased.

Head - Headache as from a nail. Heavy, throbbing pain as if thousand nails were being driven into it, relieved by pressure. Giddiness of head, worse while walking, likes to keep quiet, relieved by wrapping up the head. Heat on the vertex, relieved by pouring cold water on the head or by fanning.

Kidneys - Kidney colic. **Urethritis.** Desire to urinate off and on. Burning in the urethra while urinating. Yellow like saffron, urine. Discharge of mucus with urine. Involuntary urination of the children.

Limbs - Aching pains, better from pressure.

Lungs - Asthmatic attack, wheezing and rattling sound felt in the chest. Asthma better from bending head forward, rocking. Asthma of infants and children. Croupy cough. Hacking cough, profuse expectoration.

Male - Troublesome erections. Sexual desire increased or decreased. Impotency.

Mouth - Lips bright red. Lips dry and black as if burnt. Watery salivation or spitting from the mouth. Putrid and bitter taste in mouth. Ulcer, aphthae in mouth. Ulcer in mouth and tongue of children. The tongue is bright red or its edges and sides are red and the middle portion is deeply coated. **Toothache, better pressing the gums together,** warmth, pressure.

Nose - Nasal obstruction. Nasal catarrh associated with frequent sneezing, white or yellow secretions. Coryza. Watery discharge from the nose. Nostrils ulcerated. Nosebleeds.

Perspiration - Offensive sweats.

Rectum - Constipation. Incomplete stools. **Diarrhea with high fever.** Diarrhea during rainy season and autumn. Stools liquid, copious, watery, very offensive. Yellowish or greenish liquid stools. Mucus or bloody or streaked with blood. Involuntary stools during high fever.

Skin - Skin disease.

Stomach - Want of appetite. **Thirstlessness during chill.** Eructations, Hiccough.

Temperature - Chills and fever. Influenza. Remittent and intermittent fevers. Biliary, continued fever. Quartan fever, tertian fevers. Typhus, typhoid fever.

Throat - Pain in the throat while walking or during cough. Pain and difficulty in swallowing. Redness, ulceration of throat. Glairy phlegm. Enlargement of tonsils. Hoarseness. Voice gets changed.

Vertigo - Vertigo on rising.

COMMENTS - Oci-s. has an assured place in the treatment of influenza and in common nasal catarrh. Remittent fever associated with cough, cold or diarrhea, pneumonia, broncho-pneumonia, bronchitis and asthma.

Typhoid fever or fever associated with delirium, comatose condition, prostration, and falls into slumber or drowsiness while answering questions (Bapt.). Fever in influenza, associated with cough, acute pains in the body, bone pains, soreness of the muscles, and terrible headache (Eup-per.).

Fevers associated with cough, cold and diarrhea, especially in children. Fevers prevalent in rainy season, winter or spring. Intermittent fever. Fever with thirst or absence of thirst.

Fever comes on in the afternoon with extreme chilliness, with shivering. Chilliness, even when exposed to the sun. Hands and the feet become cold and do not become warm easily. Numbness and tingling in hands and feet.

Extreme heat and flushes of heat felt over the face and eyes during hot stage. Burning sensation in the palms of hands and soles of feet, relieved by cold breeze or placing cold water on the head.

Sweat with heat. Heat, sweat, and chilliness may appear alternately. Sweat, delirium, drowsiness or comatose

condition.

Remittent fevers of children, fever during dentition period, diarrhea and worm affections (Cina.). Wormcomplaints of children, fretful and peevish, start from sleep, and do not allow the physician to examine them. The children become awfully peevish, always cry, become quiet while they are being carried (Cham.).

Aching pains, in the feet and legs. Pains are felt all over the body. Offensive and filthy odor. Putrefaction. Contagious and infectious diseases caused by bacteria or bacilli.

Terrible headache. Headache due to congestion, common cold, influenza or fever. Headache relieved by application of cold water on the head or by fanning the head. Better from keeping quiet or wrapping the head with a cloth, worse while walking or by motion.

Face is flushed and hot. lips are red and parched, eyes are drowsy. Pain in the throat, felt while swallowing, coughing or sneezing. Redness inside the throat, both tonsils are enlarged.

Offensive smell comes out of the mouth, offensive salivation. Tongue is red or reddish and shining at the edges with yellow or brown coating in the middle (Bapt.). Aphthae. Putrid ulcer in the mouth and teeth. Toothache, with terrible pains, worse at night, from touch or cold.

Eyes congested, red, with lachrymation, especially in cases of the common cold. Watery discharges and sticky discharges. Ophthalmia, ophthalmia neonatorum. Earache and purulent discharges from the ear. Shortness of hearing.

Difficult respiration. Asthma, the patient cannot lie on the back. Bends forward and supports the head with the hands, the elbows resting on the knees or leans forward and puts the head on the hands lain flat on such support (Aral., Lob., Blatta.). Asthma of children.

Gastric and intestinal catarrh, with inflammation of the intestinal mucous membrane, fever and diarrhea. Pain in the region of liver and spleen. Abdomen distended, distension does not abate in spite of stools passed.

After gurgling in the stomach, copious watery and offensive stools appear. Diarrhea with fever and cold, cough, pneumonia, broncho-pneumonia and bronchitis. Involuntary stools.

Irregular, long lasting menses. Leucorrhea. Uterine complications after delivery. Terribly offensive lochia, of unnatural color, long lasting. Discharge mixed with mucus, is pus-like and like washing of fish.

Ocimum sanctum is supposed to drive away mosquitoes; it may prevent malarial fevers if cultivated near a house.

REFERENCES Ghose.

***OENANTHE CROCAT

(Water Dropwort)

PHARMACY - oena. Oenanthe crocata. Water dropwort. Hemlock drop-wort. N. O. Umbel- liferae. Marshy places. Tincture of fresh root at time of flowering. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Amenorrhea. Breast, pain. Coma. **Convulsions.** Cough. Delirium tremens. Diaphragm, spasm. **Epilepsy.** Esophagus, stricture. Gastroenteritis. **Hysterical, epilepsy.** Ichthyosis. Insanity. Leprosy. **Menstrual, convulsions.** Nausea. Priapism. Puerperal, convulsions. Sciatica. Speech, lost. **Status, epilepticus.** Stomatitis. Strokes. Tetanus. Tongue, swollen. Tongue, ulcerated. Tympanites. Vertigo. Vomiting.

HOMEOPATHIC - Oenanthe crocata is one of the most poisonous of the Umbelliferae, and many accidents have occurred from the use of the root in mistake for parsnips and of the leaves in salads and soups. These have furnished many of the symptoms of the pathogenesis.

Epileptic convulsions, worse during menstruation and pregnancy. Epilepsy, utters a loud cry before falling backward. **Status epilepticus.** Face swollen, convulsive twitching of facial muscles, foaming at mouth, lockjaw. Cold as if dead during convulsions, noise in throat as if being choked. Burning heat. Numbness. Legs stretches straight out.

Skin affections, especially leprosy and ichthyosis. Rosy red blotches on face and chest, arms, abdomen. Profuse, offensive sweat. Burning in throat and stomach, nausea and vomiting. Obstinate vomiting for days, not relieved by anything.

MIND - Epileptic condition at periods when menses are due, in amenorrhea. Epileptic insanity. Coma after convulsions. Sudden and complete loss of consciousness. Insanity, hallucinations. Delirium tremens. Furious delirium. Tendency to cry over little things. Averse to be questioned.

Abdomen - Great tenderness, slightest touch on any part of abdomen causes great pain. Distended with colic pains. Gastroenteritis with violent pain and vomiting. Tympanites with the convulsions.

Back - Pain along spinal column. Intense action of dorsal and lumbar muscles, opisthotonos.

Breasts - Swollen breasts. Pain in breast. Nipples painful to least contact.

Causations - Menstrual disturbances. Injuries.

Chest - Pain in right side under the ribs. Chest firmly fixed. Pleuritic exudation. Lungs hyperemic, hepatized in spots.

Eyes - Sunken, full and projecting, inflamed. Redness. Pupils first contracted, then dilated. Eyes turned upward and inward, firmly fixed. Vision disturbed, obscured.

Face - Countenance livid, rose-colored spots on face. Lips blue. Eyes fixed, pupils dilated. **Rapid, convulsive twitching of facial muscles.** Trismus, foaming at mouth, locked jaws. Risus sardonicus.

Food - Total loss of appetite with debility. Thirst, craves cold drinks, evening. Cannot bear to drink anything hot.

Head - Hyperemia of brain, extravasation and serous exudation. Pains all over head, dizzy. Headache and giddiness. Violent pain in head. Apoplectic conditions. Suddenly falls down backward. Hair fell off.

Heart - Pain in region of heart. Pulse is small, feeble, irregular and scarcely perceptible, accelerated before the fit.

Kidneys - Painful urination. Urine copious, dark, turbid, reddish, with thick yellow sediment.

Limbs - Numbness and feebleness of limbs. Pain along crural and sciatic nerves, commencing in back. Cold hands and feet. Numbness of hand and foot. Cramps in calves. Arms flexed at elbow in a right angle. Hands clenched during tetanus. Convulsions, opisthotonos.

Lungs - Spasms of the diaphragm. Heavy, spasmodic, stertorous breathing. Tickling cough with rattling in the lower part of the chest. Cough, worse at night, excited by tickling at top of throat. Rattling in the chest, sputa thick, heavy, white and yellow. Thick, frothy expectoration, reddish, bloody, white.

Male - Priapism.

Modalities - Worse from water, injury, sexual and menstrual disturbances. Pressure aggravates pain in throat, but ameliorates deep pain in thorax. Swallowing causes soreness of throat.

Mouth - Mouth dry and parched. Foaming at mouth, bloody mucus. Excoriation inflammation, blisters. Convulsive movement of teeth. Loss of speech.

Nose - Nosebleeds.

Rectum - Involuntary stool, diarrhea.

Sensations - As if a bug creeping under the skin about the waist, worse touch of clothes.

Skin - Rose colored rash on face, chest, arms and abdomen. Loss of nails and hair.

Sleep - Much yawning. Drowsy. In a deep sleep, snoring loudly and moaning. Roused with difficulty.

Stomach - Tender stomach. Burning heat in stomach. Esophagitis. Distressing hiccough. Nausea, better if vomiting occurs. Vomitus is clear water liquid, blood. Vomiting and diarrhea.

Temperature - Extreme coldness, loss of animal heat. Deadly cold and pale. Face and limbs cold and blue. Burning heat that mounted to head. Slight fever with pain at pit of stomach. Profuse, offensive sweat, accompanies symptoms.

Throat - Burning and constriction in larynx. Pharyngitis. Violent constriction and burning in the throat. Pressure on throat gives pain, sore when swallowing. Power of swallowing lost.

Tongue - Tongue sore, swollen and protruded. Tongue slightly furred, raw at tip, ulcerated at edges. Tongue clean, moist, trembling. Tongue half bitten through.

Vertigo - Vertigo with falling. Vertigo with nausea, vomiting, syncope and convulsions.

COMMENTS - Oena. is a valuable convulsive remedy, useful in epileptiform, puerperal and uremia convulsions. Hormonal epilepsy, since or during pregnancy, in childbirth, abortion, miscarriage, menstrual period, amenorrhea, and menopause. Epileptic symptoms since birth control pills. Epilepsy after vaccinations. Epilepsy after errors in diet.

Severe, violent epileptic attacks. Sudden attacks (Bell.). Grand mal, petit mal, and particularly status epilepticus attacks. Risus sardonicus, a fixed smile. Feeling of dread and anxiety before attacks. Can hear bells ringing before. Followed by deep sleep or coma. Vomiting after epilepsy.

Vertigo during the menstrual period. Toxemia during pregnancy with convulsions and protein in the urine. All symptoms are worse from water and drinking.

D. A. Baldwin of Englewood, N. J., entirely controlled the convulsions in a young man of 16 with Oena. Dr. Ord reported a case of petit mal cured with Oena. 3x. In a South American homeopathic journal a Dr. Rappaz reported the cure of a case of three years' standing with increasing seizures with the remedy in doses ranging from the 6c to 12c.

Henderson reported the cure of an epilepsy case of 9 years standing, where the patient was almost idiotic, the convulsions were relieved and the mental condition was greatly relieved and improved. In two other cases equally satisfactory results were had.

S. H. Talcott, in the report of the Middletown Asylum. 1893, noted that Oena. possesses a marked power in epilepsy. He stated that it makes the attacks less frequent, less violent and improves the mental state of the patient. Talcott prescribed it in the tincture, 1 to 6 drops daily.

F. H. Fisk reported the cure of a case that had lasted two years with the tincture. This patient was having 6 to 10 attacks daily during the last month before Fisk took the case.

Dr. Garrison of Easton, Penn, reported a case of reflex uterine of hystero-epilepsy in which the Oena. 2x acted promptly. J. S. Cooper of Chillicothe, Ohio, reported the cure of a case of 25 years standing with Oena. 4x.

J. Ritchie Horner reported that the Oena. 3x greatly modified the attacks in a woman who had the disease over 20 years and who, for the two months previous, had a convulsion daily.

W. A. Dunn reported a cure of a young woman of 16 who had been epileptic for 7 years, having as many as 4 or 5 attacks during a night. The remedy caused these attacks to disappear entirely. The girl commenced menstruating at age 12, so the establishment of the menses had nothing to do with the cure.

Charles A. Wilson of San Antonio, Texas, reported a number of cases cured with Oean. 3x, and the same potency greatly lessened the number of seizures in others. Dr. Purdon of the University of Dublin, related a case of epilepsy cured with this remedy in 1 to 6 drop doses several times a day.

F. E. Howard, in a case that had 3 or 4 attacks a week, gave 5 drops of the tincture every two hours, which caused violent pains in the head, but complete recovery followed on reducing the dose.

McClellan of New Jersey told of a case of his in which a young woman, 19, of a very healthy family, who had never menstruated and had become almost idiotic in consequence. At the periods when the menses should have come on there were epileptiform seizures of minor intensity. The state of mind was such that after taking the best advice in Paris and the States without avail, the patient was about to be put away.

Oean. was given and the next period passed without any epileptic symptoms. But there was no sign of the flow. Bell, was given and at the next period, the flow came on and the patient's mind was entirely restored.

J. S. Cooper related the case of a clergyman in attendance on one of the Federal generals at the battle of Gettysburg, who was wounded in the forehead by a fragment of shell, taken prisoner and kept in prison twenty months.

On his release he was quite a wreck and soon began to have light epileptic seizures, which gradually got worse. When seen by J. S. Cooper, twenty-five years later, he was having four or five fits a day, could write his name and at time would take to his heels and run four or five miles into the country before he could be caught.

Oean. 4c, five drops every four hours, was prescribed. After the first dose he had a very bad fit. The dose was then diminished. He began to improve and in less than a year was in perfect health. Oean., was not taken continuously, but when he "felt nervous" he would take a few doses.

F. H. Fish cured a girl, 16, sanguine, well grown, who at eight began to have fits of absentmindedness at irregular intervals. At 12, menstruation commenced; at 14, epileptic seizures occurred, having no relation to the menstrual periods. The fits were so severe that sixty to one hundred grains of potassium bromide were required to keep them under control.

Oean. tincture was given, five drops in six ounces of water, a teaspoonful every three hours, and later less often. She had not another spasm, lost her absentmindedness and became cheerful and active.

W. K. Fowler reported a case of a teamster, 60, who had gotten into a fight nineteen years before from which he had three ribs broken and was struck in stomach with the butt of a gun.

Two weeks later, he had pneumonia on the injured side, and after that, epileptic seizures. Before the attacks he had a pain in the stomach going through to the spine and pain in the second cervical vertebra. Attacks were induced by worry and by becoming very tired. He had severe attacks when the day's work was finished.

Oean. was given on discs, four discs every three hours for a month. After this there was only one slight attack after a hard day's

work during the four months he was under observation.

Several cured cases of epilepsy have been reported in which Oena. alternated with Sil. or some other drug, but they need not be given as it was unclear which remedy cured.

***OENOTHERA BIENNIS

(Large Evening Primrose)

PHARMACY - oeno. Oenothera biennis. Large evening primrose. Tree primrose. N. O. Onagraceae. North America. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Cholera infantum. Diarrhea. Hydrocephalous. Nervous exhaustion. Paralysis.

HOMEOPATHIC - T. Riker Nuted recorded a proving on a woman who took Oeno. twice, the first, a teaspoonful, the second, 30 drops of the liquid extract for the relief of a wearisome feeling of mental and physical oppression. On each occasion, notably the first, distinct poisoning symptoms were developed.

General paralysis of mental and bodily forces, with copious and easy evacuations of bowels and bladder, followed by relief of the general symptoms. General numbness, general warm sweat with urgent desire to urinate, better after evacuation of bowels and bladder. Effortless diarrhea.

Farrington gave the indication exhausting, watery diarrhea without effort with nervous exhaustion, even incipient hydrocephalous. Hurd cured a man, 65, who had "severe pains in his stomach after meals for over two years" with 25 drop doses of the tincture.

RELATIONS - Compare: (1) In diarrhea, Ip., Gnaph., Nuphar. (2) In better from copious urination, Ign., Gels. (3) In better after stool, Bry., Colch., Coloc., Crot., Oxyt., Rhus-t., Spig., Sulph. (4) Paralytic symptoms, Gels.

***OLEANDER

(Rose Laurel)

PHARMACY - Olnd. Oleander. Rose laurel. Nerium oleander. N. O. Apocynaceae. South Europe, North Africa, West Asia. Thrives best in moist ground. Tincture of the leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Brain, disorders. Eczema. Fainting. Headaches. Hyperesthesia. Lienteria. Memory, weakened. Numbness. Nursing, disorders. Palpitations. Paralysis. Perichondritis. Rheumatism. Scalp, eruptions. Spasms. Spine, disorders. Strabismus. Tongue, coated. Vertigo.

HERBAL - In the Cap de Verde Islands, the petals of oleander blossoms are used with dried orange-peel in all kinds of fevers to promote perspiration and drive out the rash.

HOMEOPATHIC - Olnd., which is one of the remedies proved by Hahnemann, has been recognized as a powerful poison from antiquity. In animals poisoned by it. the heart becomes paralyzed, first the auricles, then the entire heart.

Goullon referred to poisoning cases in which "anguish inflammation of the stomach, diarrhea, swoons," and even death had occurred. "Palpitations of the heart, anxiety insomnia and unconsciousness," were observed by Petrus de Alvano, and Morgagni noted "vomiting, thirst, slumbering, speechlessness and death." Goullon also quoted instances of suffering from exhalations of the flowers and even from the plants when not in flower. Marked action on the skin, heart and nervous system. Paralytic conditions with cramp like contractions of upper limbs. Hemiplegia. Paralytic rigidity. Paresis after infantile paralysis.

General crampings. Numbness. Sopor. Weakness with trembling in nursing women. Sense of vibrations. Difficult articulation, or unable to speak. Emptiness in stomach and chest after eating, better brandy. Involuntary discharges.

MIND - Memory weak, slow perception. Morose. Peevish. Sadness with lack of confidence and power. Melancholy with obstinate constipation.

Abdomen - Borborygmus with profuse, fetid flatus. Gnawing around navel.

Chest - Oppression as from a weight, asthmatic when lying down. Obtuse stitches in chest.

Eyes - **Sensation as if eyes were drawn back into the head.** Lachrymation, when reading. Double vision. Can see objects only when looking at them sideways.

Face - Pale, sunken, with blue rings around eyes (Ph-ac.). Numb upper lip. Lowerjaw trembles when yawning.

Female - Tremors after nursing, so weak she can scarcely walk across the room.

Food - Desires cold water. Aversion to cheese.

Head - Numb feeling. Dull, unable to think. Indolence. Pain in brain, as if head would burst. Headache better by looking crossways, sideways or squinting. **Corrosive itching on forehead and edge of hair,** worse heat.

Eruption on scalp. Humid, fetid spots **behind ears** (Graph., Petr.) and occiput, with red, rough, herpetic spots in front.

Heart - **Palpitations** with weakness and empty feeling in chest, better brandy. Pains on stooping.

Kidneys - Involuntary urination.

Limbs - Limbs stiff and cold. Crampy contraction of upper limbs in paralysis. Stiffness of joints. **Weakness of lower limbs.** Painless paralysis. Paralysis of legs and feet. Trembling knees when standing. Edema. Swelling, burning stiffness of fingers. Veins on hands swollen. Constant cold feet.

Lungs - Dyspnea.

Modalities - Better from looking sideways, brandy. Squinting helps headache. Worse in open air, draft, undressing after nursing. Worse rubbing, scratching, friction of clothes. Worse rest, looking sideways. Rising up aggravates headache, vertigo. Stooping causes pain over heart.

Mouth - Toothache only when masticating. Tongue numb. Loss of speech.

Rectum - Ineffectual urging. Burning pain in anus. **Passes food undigested** in the morning. **Stools, pass when emitting flatus**, thin involuntary.

Sensations - Peculiar sensations suggestive of paralysis. Numb or painless paralyzed feeling as if inner parts were distended. Buzzing and humming. Pulsations in outer parts. Gnawing, itching, biting or pungent pain after scratching. Numbness of skin or itching numbness.

Skin - **Very sensitive skin**, slightest friction causes soreness and chapping. Nocturnal burning. **Violent itching eruption, bleeding, oozing**, want of perspiration. Itching, especially of scalp, which is sensitive. Itching, scurfy pimples, herpes, sensitive and numb. Eruptions with itching, biting as of lice. Skin numb.

Sleep - Sopor. Yawning with trembling of lower jaw.

Stomach - **Canine hunger with hurried eating** without appetite. Thirst. Empty feeling even after eating, better brandy. Extreme debility of digestive power. Throbbing in pit. Empty belching. Vomiting of food, greenish water.

Temperature - Heat from mental exertion.

Throat - As if a cool wind blowing on throat (left).

Vertigo - Vertigo for a long time before paralysis. Vertigo, worse looking fixedly at an object or looking down, turning to either side in bed with diplopia.

COMMENTS - A young man, 18, fell sick, had attacks of vertigo, suffered from great weakness of the muscles, headache better in evening, worse every morning after waking, which was a difficult process.

He had a pale face, white-coated tongue, slow pulse. On leaving for change of air he soon got quite well, but ill again as soon as he returned. Some oleanders in his bedroom were then suspected by his doctor, and on their removal all the trouble vanished.

The doctor recalled that when he was a student he had some oleanders before his windows and in autumn, when the nights were cold, he took them into his bedroom. On waking in the morning, he had a heavy head and sensation of weariness, could only leave his bed by great exertion.

As soon as he put his foot to the ground, he was seized with vertigo and reeled. Having traced this to the oleanders, he purposely repeated the experiment, always with the same result.

Weak memory and slow perception. Pres-sive and stupefying headache. Pressure as if a hundredweight were pressing brain forward and as if everything would come out at forehead. Headaches better by looking cross-eyed or looking sideways.

Cloudiness of vision, worse by looking sideways. Momentary loss of sight. Eyes distorted. Strabismus.

Functional paralysis. The left side is most affected, violent contraction of muscles, worse left side. Numbness of upper and lower limbs.

Digestion is paralyzed, the food passes completely undigested. Gastro-enteritis. Involuntary evacuation of feces and urine. Infants soil their diapers every time they pass flatus. "Trembling after nursing" in nursing women.

The skin is very sensitive and easily chafed and chapped. Olean, is in the front rank of remedies affecting the scalp, more particularly the back part of the scalp or commencing there.

Clarke confirmed the symptoms "desquamation of the epidermis of the scalp," and "violent gnawing itching on the scalp, as from lice after scratching, a smarting as if scratched raw."

Cooper reported a case of a schoolboy whose head was very sore and irritable, covered with crusts, sore to the touch. Glands in his neck were swollen and sore to the touch. Olean, was given, two drops in a powder at bedtime on November 14th.

On November 27th an aggravation was reported and the eruption had spread from the head to the back. From this time rapid improvement set in. Cooper noted that a single dose of the tincture may give the best possible results in such cases.

RELATIONS - Antidoted by: Camph. - acute effects, Sulph. - the chronic effects. **Compare:** (1) Con., Nat-m., Rhus-t., Caust., Lath. (2) Oleander contains Oleandrin and also Nerein which is said to be closely related, if not identical with Digitalin. (3) In irritability, Staph., Hyos., Nux-v. (4) In fits of passion followed by quickrepentance, Croc. (5) disorders of nursing women, Carb-an. (7) In lenteria, Ferr., Ars. has diarrhea from chilling stomach indigestion of cold things, stool yellow with stool great pain, burning, worse after midnight, great thirst. (8) Arg-n. - bowels act as soon as patient drinks. (9) Chin. - watery stool containing undigested food, very debilitating, stools may escape involuntarily after a meal, caused or worse by eating fruits. (10) Apis, Phos. and Ph-ac. - wide-open anus. **Compatible:** Con., Lyc., Nat-m., Puls., Rhus-t., Sep., Spig.

***OLEUM ANIMALE

(Dippel's Animal Oil)

PHARMACY - ol-an. Oleum animale. Dippel's animal oil. Aethereum dippeli. Oleum cornu cervi. Bone-

naphtha. Dilutions in alcohol. This volatile oil is prepared by Dippel first by distillation of stags' horn. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Breast, disorders. Cancer. Colds. Constipation. Coryza. Facial, paralysis. Faint. Gonorrhea. Headaches. Migraines. Neurasthenia. Polyuria. Prostate disorders. Spermatic cord, neuralgia. Testes, neuralgia. Testes, retraction.

HOMEOPATHIC - Ol-an. is an oil obtained from the preparation of bone-black and further distilled and rectified for medicinal use. It was discovered in 1711 by Johann Conrad Dippel, the alchemist, who was the discoverer of Prussian blue.

Dippel obtained it in the first instance by a distillation of stags' horns, the deciduous horns of the stag partaking more of the nature of bone than the permanent horns of cattle. This led to the name Oleum cornu cervi, with which the Ol-an. is at present prepared is considered identical.

Sircar noted that though it is not the panacea which Dippel imagined it to be when he discovered it, Ol-an. is a very powerful medicinal substance and since it has been well proved by Nenning, Schreter and Trinks, it has a definite place in the Homeopathic Materia Medica.

Grimmer indicated it in cases of breast cancer with burning or sticking and pressure radiating in all directions, relieved by rubbing and in the open air. A uterine tumor cured with several doses of Ol-an. 1000c potency given at long intervals shows its relationship to new growths.

Pain in spots. Stitches, burning pains, as with red hot needles. **“Pulled upward”** and **“from behind forward”** pains in malar bones, testicles, breasts. Flesh feels torn from bones. Affected part feels sore. Symptoms appear here and there or in single parts.

Affects the nerves, especially pneumogastric nerve, digestive organs. Neurasthenia. Migraine, neuralgia of spermatic cord. Tremulous weakness of hands, knees, feet etc. Shuffling gait.

Icy coldness from tips of teeth in throat, stomach etc. Chilliness (and coryza) are worse in a warm room and better in open air. Sensation as if stomach were full of churning water. Urinous odor with belchings, leucorrhea etc.

MIND - Ill-tempered. Nervous irritability. Sad introverted, absorbed in self, speaks in whispers. Indolent, inclined to sit, taciturn. Vanishing thoughts. Faintness from gastric origin.

Abdomen - Flatulence and rumbling.

Bruised pain in abdomen after stool.

Back - Cracking in cervical vertebrae on raising the head. Aching in right scapula, better pressure. Sprained feeling in sacrum. Unsteady gait.

Breasts - **Stitches in breast** from **behind forward**.

Causations - Ill effects of suppressions, especially of foot sweat.

Chest - Stitches at clavicle. Chest feels constricted. Oppression.

Eyes - Smarting in eyes, misty vision. Lachrymation when eating. Short-sighted. Glistening bodies before the eyes. Twitching of lids (Agar.). A skin seems to overhang the eyes.

Face - Cramp-like pains. Feels drawn. White of an egg seems dried on lips. **Twitching of lips**. Malar bone feels pulled upward. Swelling beneath right lower jaw. **Toothache, better from pressing teeth together**.

Female - Stitches in breast from behind forwards. Sore breasts before menses, outward stitches in nipples in scirrhus. **Menses, early, scanty**, black flow. Urinous leucorrhea.

Food - Drinking cold water causes pressure in stomach, worse from hot drinks. Desires bread. Worse eating (sweat, lachrymation, headache). Especially worse after dinner.

Head - Migraine with polyuria. Pain in spots. Tearing pain with sadness and irritability, worse after dinner, relieved by rubbing. Itching, burning vesicles, better friction. Malar bones feel pulled forcibly upward.

Heart - Anxious palpitations. Pulse slow.

Kidneys - **Polyuria**. Frequent and urgent want to urinate with tenesmus and scanty emission. Small stream of urine. Profuse, pale urine of fish brine odor, worse hysteria, migraine. Greenish urine. Itching in urethra.

Limbs - Sprained feeling in small of back. Cracking of vertebrae on raising head (Aloe, Nat-c., Thuja). Rheumatic pain in shoulders. Restlessness. Fish-brine odor of sweat of heels.

Lungs - Asthma from suppressed footsweat.

Male - Desire increased, ejaculation too soon. Pain along spermatic cord to testicles. **Testicles feel seized and pulled forcibly upward**, worse right. **Pressure in the perineum**. Prostate hypertrophy. Seminal losses, on straining at stool.

Modalities - Better from rubbing, pressure. Better stretching, changing position. Better in open air. Better eructation. Worse from cold. Worse in warm room, hot drinks. Worse eating. Worse suppressions, noise. Worse from 2 p.m. to 9 p.m. Worse before, during and commencement of menses.

Mouth - Bites cheek while eating (Caust.). Snow-white cottony saliva. Greasy feeling in mouth. Tongue sore as if scalded. Toothache, better pressing teeth together with sensation of coldness coming out from tips.

Nose - Watery, excoriating discharge, worse in open air.

Rectum - Ineffectual urging to stool, with burning in anus.

Sensations - Sensation in scalp as if skin had been cut and reunited. As if blood were rushing to head to occiput on entering a warm room. As if red-hot needles in chest. As if testicles were seized and pulled forcibly upward. As if thumb (and toe) would ulcerate.

Skin - Excoriation in bends of joints.

Stomach - *Sensations as if water were in stomach*, of coldness, constriction, and burning, better belchings. Urinous belchings. Water brash, better chewing tobacco.

Temperature - Alternate chill and heat. Cold, foul foot-sweat, fishy smell on heels.

Throat - Sore, dry, constricted, empty swallowing difficult, though food and drink pass easily. As if cold air penetrates the throat. Acrid vapor or raw streak in throat, worse cough. Hawks out gluey, brown lumps.

Vertigo - Vertigo from gastric origin, better bending head backwards.

COMMENTS - Dippel's Animal Oil is "a colorless or slightly yellow, thin, oily liquid with a penetrating but not disagreeable odor and an acrid, burning taste, which changes to a cool and bitter one. It darkens and thickens on exposure to air and light and is extremely volatile. A drop on paper evaporates without leaving a greasy stain." Its composition is extremely complex, but it may be regarded as belonging to the group of volatile carbons.

Burning pains and burning sensations in almost all parts, stitching pains, "stitches as with red-hot needles" (Kali-c., other carbons). Stitches and pressure in all directions, particularly from behind forward.

Cramp-like pains indifferent parts. Sensation of part being pulled upward. The left side is predominantly affected, when direction is noted it is from before backward and from behind upward. Cracking in vertebra of neck on raising head.

Twitching of lips and swelling beneath right lower jaw. Malar bone feels as if pulled forcibly upward. Greasy feeling in mouth and accumulation of quantities of saliva white as snow. Relaxation of buccal mucus membrane, patient cannot avoid biting cheek when he eats.

Sensation as of white of egg dried on lips. Soreness of tongue as if scalded. Sensation as if cold air penetrated throat although the air is warm, better eating and drinking, worse empty swallowing. Desire for soft-boiled eggs or for bread, with aversion to meat. Sensation as if water were in stomach, as if a lump of ice there. Belchings taste like urine and burn.

Both testicles are drawn up and very painful. "Stitches from behind forward in breasts, pressure from both sides of the back extends forward." Menses too early and too scanty.

Clarke gave great relief in a case of cancer of right breast in which the patient complained of pains darting forward out of the nipple.

Dr. Leggett related the case of a very stout Dutch woman, 56, who had been under constitutional treatment for uterine tumor, engorged liver and cerebral congestion. She fancied the tumor had increased to the size it was years ago. She had the sensation as if water rushing back and forth in stomach. She had been walking, standing and shopping and had eaten many sweets.

Of the remedies having "stomach as if full of water," Ol-an. was chosen as more similar to the case than Mill, or Phell. and was given in 1000c potency, a single dose. A month later she was better in every way and a second dose brought still further improvement.

A case of long-standing neuralgia of the spermatic cord was cured. There were excruciating attacks three or four times every year, pains as if testicles were seized by a hand and pulled very severely. Ol-an. 18c gave almost instant and permanent relief.

Dever cured a toothache in an extremely irritable patient, pain better by pressing the teeth together. The provings had "stitches in right upper molar removed by pressure after dinner."

The cure of a case of migraine is quoted in H. M., July, 1895. Zwingenberg, after failing with Sang., gave Ol-an. 2x, five drops in warm water, morning and evening to a woman who always suffered from migraine the day after a party, at which she usually wore a heavy diadem on her head.

Polyuria of clear urine accompanied the migraine and suggested the remedy. This accompaniment may indicate Ol-an. in any nervous disorder. Zwingenberg also cured a case of nervous asthma following repelled foot-sweat.

RELATIONS-Antidotedby: Camph., Nux-v., Op. **Compare:** (1) Puls., Ars., Sil., Sep. (2) in headache with concomitant polyuria, Ign., Gels. (3) Twitching eyelids, Agar. (4) Gastric symptoms after drinking cold water, Ars., Phos., Carb-v. (5) Pains in testicles, Puls. (6) worse by noise, Graph, better by noise. (7) better by rubbing, Phos., Nat-c., Carb-ac., Canth. (8) Coryza worse in open air, All-c. (9) Numb head, Graph. Cracking in nape

on moving head, Nice. (10) Dried white of egg sensation, Alum., Bar-c., Mag-c., Ph-ac., Sul-ac. (11) better eating and drinking, worse empty swallowing, Lach. (12) Belchings taste like urine, Agn., smell like old urine. (13) Sad. despondent, Puls. - unlike Puls., bad tempered. **Follows well:** Bry. **Followed well by:** Sep.

***OLEUM JECORIS ASELLI

(Cod-liver Oil)

PHARMACY - ol-j. Oleum jecoris aselli. Cod liver oil. Oleum jecoris morrhue. Oil obtained from the livers of Gadus morrhua and some other allied fishes. N. O. Gadide. Tincture. Trituration. **Historical dose:** Tincture and all potencies.

CLINICAL - Addison's, disease. Alopecia. Amenorrhea. Anemia. Asthma. Bones, disorders. Bright's, disease. Cold, abscess. Constipation. Coryza. Coughs. Diarrhea. **Dwatfishness. Emaciation.** Fever. Fistula. Goiter. Hair, abnormal. Headaches. **Indigestion.** Intermittent, fever. Joints, stiffness. **Liver, diseases.** Lumbago. **Malnutrition. Marasmus.** Palpitations. Pneumonia. Rheumatism. Ringworm. Sacrum pains. Sciatica. Scrofulous ophthalmia. Sleeplessness. Spinal irritation. Tuberculosis. Vision disorders.

HOMEOPATHIC - The number of people who "cannot take cod-liver oil" is very great, which means that Ol-j. is a pathogenic as well as a curative agent.

Neidhard proved it and elicited some very definite symptoms and to these have been added curative and pathogenic effects observed on patients. The oil contains a large number of proximate principles of great complexity to which its specific medicinal properties are due.

Decided pains in the liver and liver region with great soreness were noted in Neidhard's provings and these symptoms give one of the keynote of the remedy as **soreness**. Not only the liver, but the throat, chest, abdomen, kidneys, ovaries, joints and back are all sore. The spine is sore as in spinal irritation.

Sore pains. Burning in spots. Rheumatic disorders. **Pains in liver region.** Yellow discharges. Scrofulous diseases. **Faulty nutrition.** Emaciation. Anemia, weakness. Deficiency of vital heat. Always taking cold. Lassitude. Hot hands and head. Frontal headaches, over right eye, bursting after coughing. Palpitations of the heart, with cough, short breath.

The nutrition of the skin is improved and the medicinal properties of the oil are absorbed without any tax being put on the organs of digestion. Burnett said that olive oil and almond oil acts as well.

Atrophy of infants, emaciation with hot handle and head, restless and feverish at night. **Emaciated, dwarfish**, chilly babies and children, a nightly rubbing with cod liver oil soon revolutionizes their condition. Children who cannot tolerate milk.

Abdomen - Soreness and heaviness in the region of liver, worse exercise.

Back - Chilly or fluttering from sacrum up back to occiput.

Causations - Malnutrition.

Chest - Sharp, stitching pains. Burning spots. **Soreness through chest.** Coughing causes soreness of chest, headache.

Face - Growth of short, thick hair on chin and upper lip in women.

Female - Establishes menses. Yellow leucor- rhea with weak back.

Food - Children who cannot take milk.

Heart - Palpitations, accompany other symptoms.

Limbs - Chronic rheumatism with rigid muscles and tendons. Aching in elbows and knees, in **sacrum. Burning in palms.** Palms hot toward evening.

Lungs - Dry, hacking, tickling cough, especially at night. Cough with palpitation. Soreness or stitches in chest. Yellow sputum. Hemoptysis (Acai., Mill.). Early tuberculosis. Whooping cough in miserable, scrofulous children. Dahlke indicated giving give drop doses increasing daily, one drop up to twelve, then descend in the same way for whooping cough.

Modalities - Worse from milk. Worse from exposure to cold, draft of air. Worse living in cold. Worse damp localities. Worse touch, motion. Worse raising arm, bending side inwards. Worse stooping, walking. Worse riding, falling. Laughing aggravates cough. Lying down causes oppressed feeling.

Mouth - Tongue yellow. Fetid breath.

Skin - Yellowness. Cold abscesses. Milk crusts. Ringworm (local application).

Temperature - Constantly chilly towards evening. **Hectic fever.** Night-sweats.

Throat - Hoarseness.

COMMENTS - Ol-j. is a liver remedy, an ally of Choi., confirmed by the provings. Burnett noted that cod liver oil is a nutrient and affects the chest, liver, pancreas and tendons. Internally, a nutrient and a hepatic and

pancreatic remedy.

Burnett showed that ringworm generally has its constitutional basis in a tuberculosis miasm. In recent ringworm, the application of the plain oil at bedtime is at once the most innocent and most effectual of known local measures. Before the application, the part should be washed well with soft soap.

"Dry, hacking cough, night-cough, cough with tough expectoration, yellow or white, soreness of chest, especially on coughing, sharp stitches here and there, through chest, burning through to back, burning in spots."

Tuberculosis, in the beginning stages. Scrofulous diathesis. Cough is worse from exposure to cold, worse in damp weather. Cough relieved by onset of fever.

Marked fever symptom, both hectic and intermittent. "Fever worse towards evening with burning in palms." Chilly, sensitive to drafts, feels as if continually taking cold. Chills running down the back. Feet constantly cold. Sensitive to chill and damp. Thirst before and during the chill.

Affection of the spleen. Yellow discharges, particularly expectoration, coating of the tongue, yellow mucus from sore throat.

Increases the menstrual flow, and restores it when in abeyance. Abnormal growth of hair on the face of a woman. Yellow leucorrhea. Passage of mucus from urethra with burning during stool.

RELATIONS - Antidoted by: Iris v. (chill with sick stomach and diarrhea). **Compare:** (1) Choi., Tub., Phos., lod. (2) One liter of Ol. Jecoris contains 0.4 gram of iodine. (3) Gad., Cod, - frequent breathing with flapping of ala nasi, rush of blood to chest, pain in lungs and cough, dry heat in palms. (4) Fei. and sarcodes generally. (5) In tuberculosis, ringworm, emaciation, Bac., Phos. (6) Emaciation and ravenous appetite, lod. (7) Intolerance of milk, Aeth., Calc., Lac-v., Mag-c. (8) Pains in head with cough, Caps., Bry., Nat-m. (9) Chilly, effects of damp localities, Nat-sulph., Aran.

(10) Heavy eyelids, Gels., Op.

***OLEUM OLEA EUROPEA

(Olive Oil)

PHARMACY - ol-o-e. Oleum olea europea. Olive oil. N. O. Oleaceae. **Historical dose:** Tincture, oil and all potencies.

CLINICAL - Constipation. Dehydration. Heart, disease. Malnutrition. Skin, disorders.

HERBAL - Olive oil is obtained from the fruit of the olive tree, now common to the shores of the Mediterranean. It is used in cooking, cosmetics, soaps and as a fuel for traditional oil lamps.

Olive oil is pleasant and bland, very nutritious, and mildly laxative. It is regarded as a healthful dietary oil because of its high content of monounsaturated fat (mainly oleic acid) and polyphenols.

Very well tolerated by the stomach. Its protective function has a beneficial effect on ulcers and gastritis. Activates the secretion of bile and pancreatic hormones, lowering the incidence of gallstone formation.

For infants it is especially serviceable as a cathartic, being easily taken and of mild action. Suitable for adults in irritated or inflamed conditions of the bowel or stomach, and may be given after acrid poisons. As a laxative enema, one to two fluid ounces should be taken, two teaspoonfuls or less for a child one year old.

Externally, it is a lubricant and is valuable for shielding irritated surfaces, relax contracted tendons, and promote healing. Olive oil massage is helpful in preventing dehydration from fever. Daily breast massage with the oil is helpful in preventing breast cancer and tumors. Olive oil foot massages are good for relaxation and will promote sleep.

Olive oil is often the basis in which to incorporate other medicaments, or is compounded with dense fatty or resinous substances to give them pliancy in the formation of ointments, cerates, or plasters.

RELATIONS - Compare: Alf., Mel., Aloe-v., Calen., castor oil.

REFERENCES - Murphy.

***OLEUM SANTALI

(Sandalwood Oil)

PHARMACY - ol-sant. Oleum santali. Sandalwood oil. Oleum santalum. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Bronchitis. Colds. Colic. Coughs. Cystitis. Diarrhea. **Gonorrhea. Kidney, pain.** Laryngitis. Nausea. Skin, dry. Sore throats. Wrinkles. Wounds.

HERBAL - Ol-sant. is a stimulating, disinfectant expectorant and antispasmodic. Antiseptic, anti-inflammatory, and a mild pain reliever. Acne, wounds, dry skin and wrinkles.

Two or three drops on sugar will frequently relieve the hacking cough, when only little sputum is expectorated.

Bronchitis when the cough is dry and hacking. Coughs, sore throats and laryngitis.

Affects the urinary and sexual spheres. **Gonorrhea**, discharge is thick and yellow. Swelling of the prepuce, painful erections. Urine is passed slowly and causes burning and smarting of the urethra. Gonorrhea where the prostate gland is implicated and there is pain deep in the perineum.

Nausea, diarrhea and colic. Aids in digestion, relaxes the muscles of the digestive tract. Stimulates the production of urine, restores hormonal balance.

MIND - Aggression and irritability. Stress, anxiety, nervous tension and depression. Difficult concentration.

Bladder - Chronic cystitis. Frequent, burning, smarting, swelling and redness of meatus. Sensation of a ball pressing against the urethra, worse standing.

Kidneys - **Aching in kidney region**. Gleet with profuse, thick discharge. Stream small and slow.

Lungs - Bronchitis when the cough is dry and hacking.

Male - **Gonorrhea**. Thick, yellowish, muco-purulent discharge. Deep pain in perineum. Swelling of the prepuce. Painful erections.

RELATIONS - **Compare:** Cann-s., Buchu, Cop.

REFERENCES - Boericke. Blackwood. Clarke.

***OLIVE

(Bach Flower Essence)

PHARMACY - oliv-b. Olive. *Olea europea*. The flowering clusters are placed in sunlit water for several hours. The remedy is prepared from the strained water. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Olive, together with the remedies Clem-b., Honey-b., Wld-r-b., Wh-ch-b., Must-b. and Ch-bd-b., belongs to Bach's group **Lack of Interest in Present Circumstances**.

States of exhaustion in mind/emotions, body and spirit. Weariness and exhaustion. Emotional weariness. Sadness, depression, discouragement. Sense of meaninglessness and apathy with exhaustion.

MIND - Weary. Intense exhaustion. Cannot complete tasks. Absent-minded, disinterested, lethargic. Especially after prolonged sickness or for those in social service.

REFERENCES - Bach.

***ONISCUS ASELLUS

(Wood-louse)

PHARMACY - onis. Oniscus asellus. Wood louse. Oniscus armadillo. Armadillo officinalis. Sow-bug. Sow-louse. Cellar-worm. Millipedes. N. O. Isopoda, class Crustacea of the Articulate. Tincture of whole animal.

Historical dose: Tincture and all potencies.

CLINICAL-Asthma. Bladder, disorders. CoZfr. Epilepsy. Hemoptysis. Rectum, disorders. Strangury. **Tenesmus**. Toothache.

HOMEOPATHIC - In Germany, Onis. has a popular reputation as a remedy for epilepsy. Hering proved a tincture and Wolf recorded the effect of swallowing three cellar-worms in a glass of brandy before an attack of fever. This experience provided the most characteristic symptoms of the remedy, showing it to be related to Canth., Apis and their cognates.

The symptoms of Hering's proving showed pains in the head, over the eyes and down the nose. Constriction of gullet and stomach. Hawking up of blood-streaked mucus. Burning in anus. Many erections with disinclination to work (Canth.). Frequent yawning and desire to stretch.

Asthmatic conditions with bronchial catarrh. Pale face, wild expression, constant vomiting. Very severe colic with meteorism and tension of abdomen. Tenesmus of bladder and rectum. Cutting burning in urethra. Dropsy.

Abdomen - Distended, **meteorism, very severe colic**. Very severe colic with meteorism and tension of abdomen.

Bladder - Cutting burning in urethra. **Tenesmus of bladder and rectum** with absence of stool and urine.

Face - Pale face, wild expression.

Head - Boring pain behind right ear in the mastoid bone (Caps.). Violent pulsation of arteries (Poth., Glon.). Painful pressure above the root of nose.

Kidneys - Cutting, burning in urethra.

Lungs - Hawking up of blood-streaked mucus. Asthmatic conditions with bronchial catarrh.

Male - Many erections with disinclination to work (Canth.).

Rectum - Burning in anus. **Tenesmus of rectum** with absence of stool and urine.

Stomach - Persistent pressure in cardiac orifice. Constant vomiting.

RELATIONS - Compare: (1) Poth., Canth., Glon.

REFERENCES - Boericke. Clarke.

***ONONIS SPINOSA

(Rest-harrow)

PHARMACY - onon. Ononis spinosa. Rest-harrow. Ononis arvensis. Cammock. N. O. Leguminosae. Papilionoideae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Epilepsy. Headaches. Nephritis. Nosebleeds.

HERBAL - The Treasury of Botany notes that ononis arvensis is indigenous to Britain, growing on barren pastures and on the borders of ill-cultivated fields. It owes its name, "Rest-harrow," to its tough underground roots, which cause stoppages to harrow and plough.

In some parts it is called "Cammock," and the country people, having the idea that it communicates its nauseous, goat-like odor to cheese made from the milk of cows who have eaten it, call the cheese so tainted "Cammocky."

HOMEOPATHIC - Nosebleed three or four times in one day, worse when washing his face. Hansen gave "chronic nephritis" as having been cured by Onon.

COMMENTS - Cooper recorded the case of a brick field laborer, 45, who at 13 was prostrated for a week, apparently with sunstroke, something seemed to catch the back of his head. At 25, had similar attacks. In March, 1900, he began to have daily attacks.

An aura seemed to spread over his head from the occiput, he made frightful grimaces, but did not scream out, became unconscious, turned deathlike and blue in face and fell down.

After the attacks he had a violent headache, giddiness and wakeful nights. Onon. tincture in single doses at rare intervals produced improvement at once and cured in nine months.

REFERENCES Clarke.

***ONOPORDON ACANTHIUM

(Cotton Thistle)

PHARMACY-onop. Onopordon acanthium. Cotton thistle. Scotch thistle. N.O. Compositae.

CLINICAL - Chilliness. Headache. Heart, disorders.

HOMEOPATHIC - Constriction in left side of chest. Sensation as of a stone in the chest. Characteristic heart rhythm disorders. Excessive depressive tendency. Headache better change of weather, to warm and dry weather. Stuffed sensation in ears and nose. Pain in right maxillary sinus.

Increased sensory perceptions. Chilliness. Sensitiveness to cold and to drafts of air. Worse cold, damp weather. Better warmth and rest. Pains in back and limbs, better motion, and worse sitting and after sleep. Sensation of cold and the dryness of the mucous membranes of nose and throat. Dryness of mouth, lips. Better eating. Desire for sweets. Swelling and redness of the part of the abdomen where a belt is worn. Cold feeling in lower abdomen during scanty menses. As if icicles in rectum.

MIND - Difficult concentration. Sensitiveness to external impressions. Euphoria, alternating with sadness.

Food - Desires sweets.

Head - Headache better change of weather to warm and dry weather.

Heart - Dull pain in region of heart, extending to left arm.

Limbs - Fleeting pains in small joints. Limbs heavy like lead. While walking, feet turn frequently.

Modalities - Better warmth and rest. Better eating. Worse cold, damp weather.

Nose - Smell more acute.

REFERENCES - Murphy.

***ONOSMODIUM VIRGINIANUM

(False Cromwell)

PHARMACY - onos. Onosmodium virginianum. False cromwell. Lithospermum virginicum. N. O. Boraginaceae. Tincture of entire fresh plant including root. **Historical dose:** Tincture and all potencies.

CLINICAL - Amblyopia. Aphasia. Bladder, irritation. Breasts, disorders. Colic. Colorblindness. Debility. Diarrhea. Diplopia. **Eye, disorders. Eyestrain. Headaches.** Locomotor ataxia. Meniere's disease. **Migraines.** Neurasthenia. Nose, dryness. Paralysis. Pregnancy, sickness. Presbyopia. Seminal emissions. **Sexual, weakness.** Spine, congestion. Throat, sore. Tinnitus. Urethra, irritation. Uterus, prolapse.

HOMEOPATHIC - Onos, is a member of an American branch of the borage family closely resembling the British Onosma. Its common name is False Cromwell, the real Cromwell being another borage, Lithospermum.

It was proved in material doses by W. E. Green of Arkansas. The most remarkable feature of the proving was the want of power of concentration or coordination produced by the drug. This appears in an inability to concentrate thought, to focus eyes, to coordinate muscles, or to judge the height of impediments on stepping. General prostration, weariness. Acts and feels as if born tired. Seems to tread on cotton. Staggering. Vertigo, numbness with muscular prostration. Neuralgic pains. Aching, soreness and stiffness of muscles after a pain. Marked association of head and eye symptoms with muscular tiredness and weariness. Disturbance in the sense of proportion. **Migraine headaches.** Onos, has probably cured more cases **of headache associated with eye-strain** (Ruta), than any other remedy since it was proved.

Headaches from sexual weakness. Diminution of sexual desire in both sexes, similar to **sexual neurasthenia**. Depressed or lost sexual life in women.

MIND - Loss of concentration and coordination. Confused mind, slow thinking. Irresolution. Aphasia. Forgetful, loss of memory. Fear of falling on going up or down stairs.

Abdomen - Distended feeling, better removing clothing, with griping and grumbling. Colic is better bending backward.

Back - Tired feeling in lower part of the back. Pain in dorsal and lumbar regions. Numbness and tingling in feet and legs.

Breasts - Sore, aching in breasts, feel swollen and sore. Nipples itch.

Causations - Eyestrain. Sexual excess.

Ears - Fullness in ears. Hearing impaired, ringing as from quinine.

Eyes - Eyes heavy and dull. **Eyestrain, strained feeling in eyes**, worse using eyes. Muscular asthenopia. **Ocular muscles tense.** Internal eye muscles paretic. **Pain in eyeballs** between orbit and ball, extending to left temple. Eye symptoms with ovarian symptoms.

Female - **Sexual desire completely loss.** Feels as if menses would appear. Menses too early and too prolonged. Leucorrhea, acrid, yellow offensive, profuse, running down the legs. Severe uterine pains, bearing down pains, old pains return. Soreness in uterine region. Pains alternate between ovaries. Soreness of ovaries with rectum.

Food - Craving for ice water and cold drinks, wants to drink often. Distaste for water. Appetite and thirst diminished. Appetite increased. Hunger after siesta, nervous, all day.

Head - **Migraine headache from eyestrain** or sexual weakness. Dull, heavy, dizzy, pressing upward in occiput. Occipital headache as if screwed, worse eyestrain and lying down. Occipital-frontal pain in morning on waking, **Chiefly on the left side.** Pain up and down from occiput (left) to shoulder worse exertion. Pain in temples and mastoid (Caps.).

Heart - Pain in heart causing fear of death. Pain in region of apex. Oppression of heart. Depressed feeling in heart, as if it would stop beating. Pulse rapid, irregular and weak, and slow. With every third or fourth beat the diastole is prolonged.

Kidneys - Pain in prostatic urethra before and after urination. Seldom any desire to urinate. Urination frequent, scanty. Urine is high-colored, very acid, aromatic, of balsamic odor and heavily loaded with urea.

Limbs - Great muscular weakness and weariness. Pain in back. Pain in left scapular region. **Tired and numb** feeling in legs, popliteal spaces and below knees. **Staggering gait.** Sidewalk seems too high.

Lungs - Hacking cough with sticky, white sputum, better drinking cold water.

Male - Burning in urethra with itching. Sexual excitement. Constant, severe erections. Speedy emissions.

Psychological impotence. Loss of sexual desire. Deficient erections.

Modalities - Better from cold drinks, eating, undressing. Better lying on back, rest, sleep. **Worse eyestrain**, sprains, jarring, motion, tight clothing. Worse sexual excess, darkness, warm, humid air.

Mouth - Dryness of mouth, and of lips, without thirst, better cold water, with scanty saliva. Clammy, sticky, feeling in mouth. Bitter taste.

Nose - Dryness of nose, with feeling as from taking cold. Pain in nasal bones. Stuffed feeling or discharge in posterior sinuses. Sneezing in morning, left side of nose and left eye seem affected.

Rectum - Stools with tenesmus, yellow, mushy, hurrying him out of bed in morning. Stool is shining, bloody and stringy.

Skin - Formication in calves.

Sleep - Sleeplessness. Sleep is uneasy and interrupted, restless and waking early. Many, varied dreams.

Temperature - As if would have a chill every day about twelve or one o' clock. Hushed feeling over body. No perspiration in very warm weather.

Throat - Severe dryness and tightness, all symptoms are better by cold drinks and eating. Raw, scraping. Laryngeal cough, better from drinking cold water, with expectoration of whitish, sticky phlegm. Husky voice.

Vertigo - Vertigo, numbness and muscular prostration. Vertigo with headache, worse lying on left side, raising

the hands above the head.

Vision - Vision blurred, optic disc hyperemic and retinal vessels enlarged. Misjudges distances. Color blindness for red and green.

COMMENTS - Vertigo and sensations of numbness and general muscular prostration. Neuralgic pains, dull, heavy aching, affecting the cervical and spinal nerves, pelvic organs, eyes, occiput and sacrum. These are the chief centers of pain along with the throat, bowels, breasts, heart and limbs. The left side of the body is more affected than the right.

Characteristic paralyzing effects on the internal eye muscles. "Feeling of tension in the eyes, as from straining them to read small print," and "desires to have things far off to look at them." The eyeball aches, aggravated by reading small print. Glaucoma. Blurred or double vision. Eyestrain headaches (Ruta.).

Marked "soreness and stiffness." In the occiput there is pressure upward and the pains may go from the eye backward. Gluey expectoration with laryngeal cough. Catarrh of the Eustachian tube (Kali-m., Merc-d.). Meniere's disease.

Characteristic dryness of the nose, mouth and throat. Ameliorated by a great thirst for cold water. Strictures of the urethra where there's painful urination and there are adhesions or blockages in the urethra.

Great loss of sexual desire. Fibroids. History of enlarging breasts when given in tincture (Sabad.). Equalizes the size of unequal breasts.

E. S. Norton published several illustrative cases including the case of Miss C., 23, who suffered three years from a headache. Pain especially in occiput, which felt "sore and stiff," often extending down spine, which was somewhat sensitive to touch.

There was a dull, aching pain on the left side of head, with occasional darting pain through the eyes. Aching in eyes, stiff, strained feeling in them if she read a lot, worse on the left. Headache worse in the morning with some dizziness. The patient had some astigmatism that was corrected with glasses and Onos, lx at once relieved all the symptoms.

Norton also noted the case of Mrs. D., who had excessive myopia and a severe headache with a constant dull, stupid ache in right occiput and right eye, worse when tired, from coughing or from any sudden motion. There was a little vertigo and a strained feeling in right eye. Onos. 3x cured.

Norton suggested that neurasthenia and neurasthenic headache may be met with Onos, when connected with strains of other kinds besides eye strains. He pointed to the case of Mrs. B., who was deaf for nine years.

For four years she had a constant roaring, hissing noise in both ears with constant dull, pressing pain in occiput, worse in the evening. She had some pain in the ear and sharp shooting pain in front of auricle, with slight vertigo. Chronic catarrh of both middle ears, membranes thickened. Onos, lx immediately relieved all the pains, though it did not alter the hearing or noises.

H. F. Ivens cured a case of headache of ten years duration, with the modality worse in the dark. The pain was in the left temple and over the left eye, not worse by noises, light or use of eyes, but worse in the dark and on lying down. Pellets of Onos, tincture were given every twelve hours.

W. A. Yingling found that the depressing action of Onos, extends to the generative sphere, desire being abolished in both men and women. He quoted S. A. Jones as suggesting that this is the primary action of the drug, thereby distinguishing it from Pic-ac. in which excitement precedes debility.

Onos, will correspond to the developed consequences of sexual abuse and Pic-ac. to the initial step of sexual debility manifested in weakness. Yingling many times verified "complete loss of desire" as a leading indication. Yingling had an interesting experience in the case of a woman to whom he gave Onos, for dryness of the nose and throat.

Not only did it cure this, but it also restored the breasts, which were diminutive and almost absent to their normal size. Yingling's results were from the tincture, and not marked from 30c.

W. J. Guernsey greatly relieved with Onos, a man, 38, who suffered from seminal emissions, the result of masturbation. The pains were better by undressing and lying on the back.

Green published some very striking cases with some pathogenic symptoms as well as cures, and also gives an interesting comparative experience with potencies.

RELATIONS - Compare: (1) Nat-m., Lil-t, Gels., Ruta. (2) Myos., Helio., Symph. (3) In uterine misplacement, Helio., Helon., Lil- t., Sep.. Nat-m., etc. (4) Disorder of vision, Lil-t. - astigmatism, Pic-ac. - myopia, Nat-s. - Myopia. (5) Ocular headache, Gels, more right, Onos, more left, Lil-t., Spig., Bapt. (6) Eyestrain - Ruta.

***OPERCULINA TURPETHUM

(Nishope)

PHARMACY - oper. Operculina turpethum. Nishope. N. O. Convolvulaceae. **Historical dose:** All potencies.

HOMEOPATHIC - Fevers. Delirium associated with restlessness, loquacity. Tendency to escape from bed, ravings, pains cause fainting.

Bubonic plague. Lymphatic glands are enlarged and indurated. Boils and slowly suppurating abscesses. Hemorrhoids. Cholera morbus. Watery diarrhea, profuse with sinking sensation.

REFERENCES - Boericke.

*****OPIUM**

(Poppy)

PHARMACY - op. Opium. Poppy. Papaver officinale. Papaversomniferum. Thebaicum. N. O. Papaveraceae. Opium is the gummy exudation of the unripe capsule of the poppy, contains morphine. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - After-pains. Bladder, paralysis. Brain disorders. Cancer. Catalepsy. Chilblains. Colic. **Coma.** Constipation. Delirium. **Delirium, tremens.** Diabetes mellitus. Dreams. Dysmenorrhea. Epilepsy. **Fear, effects.** Fetus, movements. Hernia. Hystero-epilepsy. Ileus. Intestines, obstruction. Laborpains, abnormal. Lead, colic. Marasmus. Measles. Melancholia. Meningitis. Opisthotonos. **Paralysis.** Puerperal convulsions. **Shock.** Sighing. **Sleep, abnormal.** Snoring. Starting. **Strokes.** Sunstroke. **Trauma.** Tympanitis. Uremia. Urine, suppression. Uterus, inertia. Veins, fullness. Whooping cough.

HOMEOPATHIC - Opium is one of the most complicated substances in the Materia Medica. Opium contains about eighteen alkaloids of which the apomorphine, morphine, heroin and codeine are well known. Brunton noted that besides mucilage, albumen, fat, sugar and salts of ammonia, calcium and magnesia, it contains "seventeen or eighteen alkaloids and two neutral substances, as well as a meconic acid."

Opium played a very prominent part in old-school therapeutics due to its painkilling properties, often with the end result of addiction. The pathogenesis is made up of provings, clinical observations and, in large part, the effects observed in opium-smokers and in those poisoned with massive doses.

The effects of a poisonous dose of opium are scarcely to be distinguished from a fully developed attack of a stroke. There is absolute unconsciousness, complete muscular relaxation, pupils are contracted to a pinpoint aperture, turgid, bloated. Very red or bluish face, stertorous breathing, pulse slow and full. Death takes place by asphyxia, the heart continuing to beat after breathing has ceased.

Smaller doses produce a deep sleep, pleasant, fantastic or frightful dreams, and delirium like delirium tremens. On waking there is a severe headache, nausea, furred tongue, and a loss of appetite.

Want of susceptibility to remedies even though indicated. Insensibility of the nerves, **painlessness**, depression, drowsy stupor, torpidity and general sluggishness of function and lack of vital reaction, a kind of negative state. All complaints are characterized by a **stupor**.

Lessens voluntary movements and contracts the pupils. Painless paralysis of brain, tongue, bowels etc. Depresses higher intellectual powers, lessens the self-control and power of concentration, judgment. Stimulates the imagination. Useful for diseases that originate from fright. Idiocy from masturbation.

Tremors, twitchings, jerking during sleep. Convulsions, worse heat of room or bath. Epilepsy in sleep, from the approach of strangers (children), from fright, worse glare of light, from anger, insult. Throws limbs or stretches arms at right angle to the body, stupor between spasms.

Strokes. Venous, passive congestion. Faints every fifteen minutes. Stupid sleep, accompanies all complaints during spasms, violent chill etc. Complaints **are painless** and are accompanied by **heavy, deep sleep, and stertorous breathing**. Sensation of bodily well-being, great happiness. Painless ulcers. Suppuration.

Checks all secretions except that of the skin. **Sweaty skin.** Hot sweat, hand. Complaints appear with sweat. Reappearance and aggravation from becoming heated. Bed seems hot, hunts a cold place. Internal dryness. Dropsical swelling of the whole body. Dark, mahogany-brown face.

MIND - **Apoplectic (stroke) state. Coma from drug overdose, fright, stroke or injury. Loss of consciousness.** Dreamy. Sluggish. Dull. Stupid. No will power. **Placid.** Wants nothing, says nothing ails him. Unable to understand or appreciate his sufferings. Indifferent to pain or pleasure. Nervous, irritable, tendency to start.

Frightful fancies, visions of mice, scorpions. **Fears after fright**, which remains. **Delirium tremens** with terror. Delirious talking with wide-open eyes. Exaltation of the mind, vivid imaginations. Gaiety. Talkative. Rash. Bold, increased courage. Tendency to lie. Deceptive, vision, taste touch, perversion of all senses. Imagines parts of his body are very large. Thinks he is not at home. Carphology.

Abdomen - Hard, bloated, tympanitic. As if a weight in the abdomen. **Lead colic.** Colic with urging to stool and discharge of hard feces. Intestinal spasms, child cries day and night. Incarcerated umbilical or inguinal hernia. Difficult emission of flatus. Bowels feel completely obstructed. Paralytic atony of bowels after laparotomy.

Back - Pulsating arteries and swollen veins on neck. Opisthotonos.

Causations - Ill effects of fear, fright, anger, shame, rape, sudden joy. Charcoal fumes, alcohol, lead, drug overdose, sun.

Chest - Heat in chest, burning about heart. Tension and constriction in chest. Compression of diaphragm. Aching in chest with shootings in sides.

Constitutions - Suited to persons of light hair, lax muscles and want of bodily irritability. Children and the elderly. Persons insensitive to well-chosen remedies. Alcoholics.

Ears - Acuteness of hearing, clocks striking at a great distance keep her awake. Tinnitus like sea roaring. Buzzing, tinkling in ears.

Eyes - Red, bulging eyes. Staring, glassy. **Pupils fixed**, contracted, dilated, **nonreactive to light**. Embolism of central artery of retina. Visual hallucinations. Cloudiness of sight. Sensation as if eyeballs were too large, or of dust in eyes. Quivering of eyes and lids. Eyes half open and are turned upwards. Eyelids hanging, as if paralyzed. Ptosis (Gels., Caust.). Swelling of lower lids.

Face - Red, **bloated, swollen, dark suffused, hot**. Looks intoxicated, besotted (Bapt., Lach.). Distorted. Trembling, spasmodic facial twitching, especially corners of mouth. Veins of face distended. Lips swollen, protruding. **Lower jaw hangs down**. Lockjaw. Old look after cholera infantum.

Female - Dysmenorrhea, forcing her to bend double with urging to stool. **Suppressed menses from fright**. Prolapse from fright. Softness of uterus. Horrible labor-like pains in uterus. Hiccough during pregnancy. Lively or violent fetal motion. **Threatened miscarriage** from fright with sopor. Puerperal convulsions, drowsiness or coma between paroxysms. Convulsions from stoppage of labor pains. Suppression of lochia from fright.

Food - Hungry, but no desire to eat. Attacks of bulimia with want of appetite and repugnance to all food. Slowness and weakness of digestion. Burning thirst, especially for beer.

Head - Heavy occiput. Pain in back of head, great weight there (Gels.). Bursting feeling. Head hot with hot sweat. Paralysis of brain. Confusion in head. Dull, heavy, stupid. Complete insensibility, no mental grasp for anything.

Heart - Weakness. Burning about the heart. Pain in heart with great anxiety, trembling, sleeplessness, talkative delirium. **Palpitations after stressful events**, fright, grief, sorrow, etc. Full, slow pulse.

Kidneys - Kidney colic, pain radiates to bladder and testicles. Loss of power or sensibility of bladder. Paralytic atony of bladder after laparotomy. **Retained or involuntary urination after a fright**. Retention of urine in nursing children from spasms of neck of bladder. Slow to start, feeble stream.

Limbs - Trembling of the limbs after fright. **Twitching of limbs**. Jerks as if flexors were overacting. Convulsions, worse from glare of light, coldness of limbs. One or other arm moves convulsively to and fro. Shuffling and trembling gait. Feels as if lower limbs were severed and belong to someone else. Numbness, weakness. Painless paralysis (Olean.). Veins of hands distended.

Lungs - **Stertorous breathing**. Difficult, intermittent, deep. Hoarse. Sighing. **Deep snoring with rattling**, unequal breathing. Breathing stops on going to sleep, must be shaken to start it again (Grind.). Cough, tickling with blue face or profuse sweat on whole body, better drinking water. Cough with dyspnea and blue face with bloody expectoration. Hemoptysis. Yawning after cough.

Male - Increased sexual desire with frequent erections and pollutions. Diminished sexual desire and impotence. Spasmodic stricture from drinking poorly fermented liquor and in alcoholics.

Modalities - Better from cold, uncovering, constant walking. Worse heat, **sunstroke**. Worse odors, stimulants, **alcohol, suppressed discharges** and receding eruptions. **Worse emotions, fear**, anxiety, reproaches, shame joy. Worse during and after sleep (Apis, Lach.).

Mouth - Dry. Intense thirst. Copious salivation. Bloody froth. Hemoptysis. Ulcers in mouth and on tongue. Difficult speech and swallowing. Blubbery of lips. Looseness of teeth.

Nose - Loss of smell.

Pulse - Pulse is full, slow, quick, hard, irregular, imperceptible.

Rectum - **Involuntary stools after fright**, black offensive, frothy. Obstinate constipation, no desire to go to stool. **Round, hard, black balls**. Feces protrude and recede (Thuja., Sil.). Spasmodic retention of feces in small intestines, from ileus. Violent pain in rectum as if pressed asunder. Bloody mucus oozes from open anus.

Sensations - As if from smoke on the brain. As if flying or hovering in air. As if drunk. As if eyes too large for orbits, as if sand or dust in eyes. As if eyelids paralyzed. As of a band around chest. As if something was forced through a narrow space in abdomen. Rolling, as of a hard body in right hypochondrium. As if intestines would be cut to pieces, as of a stone in abdomen. As though anus closed. As if lower limbs severed from body.

Skin - Dry. Rough and dirty. Whole body looks red. Skin blush with blue spots. **Hot perspiration over whole**

body, except lower limbs. Constant desire to uncover. Dropsical swelling of whole body. General itching. Crawling here and there. Erythema, scarlatina-like eruptions. Painless indolent ulcers. Desquamation of epidermis. Chilblains.

Sleep - Great drowsiness (Gels., Nux- m.). Falls into a heavy, deep sleep. **Profound coma**. Suffocates on falling asleep (Grind.). Sleepy, but cannot go to sleep. **Sleeplessness** from acuteness of hearing, distant noises keep him awake. Bed feels so hot cannot lie on it. Picking at bedclothes. Dreams of cats, dogs, black forms. Pleasant, fantastic, amorous dreams. Coma vigil.

Stomach - Painful sensitiveness and inflation of stomach and epigastrium. Heaviness and pressure in stomach. Incarcerated hernia. Nausea with vomiting and retching. Retching from emotions. Vomiting with colic and convulsions. Vomiting of blood or of greenish matter. Vomiting in peritonitis of fecal matter, of urine.

Temperature - General low temperature with inclination to stupor. Hot, sweaty and drowsy with cold limbs. Heat extending over body. **Hot perspiration**. Sweats without relief. **Pulse full and slow**. Fever characterized by stupor, **snoring respiration**, twitching of limbs intense thirst and sleepiness.

Throat - Dryness of throat. Inability to swallow. On swallowing food either goes the wrong way or returns through the nose. Bitter or sour taste in throat. Aphonia from fright. Voice weak with inability to speak loudly without great exertion.

Tongue - Tongue purple, white, black. Tongue protrudes to right side, dry. Paralysis of tongue and difficult speech.

Vertigo - Vertigo after fright. **Lightness of the head in the elderly** from injuries to head.

COMMENTS - Complaints brought on by fear, fright, anger, shame, shock. Ailments from excessive joy (Aeon., Coff.). Also from alcohol, lead, charcoal fumes. For fright where the image reoccurs. Fright leading to an excited state, hypersensitive, sleepless.

Mentals similar to those of drug addicts. May lie and steal, lack of conscience. Pathologically courageous people. State of confusion or delirium. May go in and out of a stupor. Time seems to move too slowly. Frightened terror (Aeon.). Fear of being murdered, of impending death.

Visions and nightmares, wakes in a panic. Visions of fire and ghosts. Visions of great beauty and misery, similar to manic-depression. Astral visions. Exhilaration. Ecstasy (Aeon., Phos.).

Shock, total painlessness (Arn., Resc-b.), improbable lack of pain. More rarely, shock with unbearable headaches. Deception in their symptoms and behavior, their senses can be deceptive. State of desirelessness. Stupor. Pinpoint, frozen pupils, irregular pupils.

Polarizing narcosis. In crude doses it causes insensibility, numbness. Total relaxation, calmness, tranquility. Can also cause hypersensitivity, insomnia, heightened senses. Sensitivity to light and noises (Coff.). Hyperacute hearing (Lach.).

Grimmer noted that "this is a remedy of many phases and opposite extremes and alternating states, and of symptoms such as diarrhea with burning pains and violent tenesmus, and involuntary stools. Or there may be an inveterate constipation, often ending in complete bowel obstruction and paralysis of the bowels, cancers and gangrenous ulcerations are most often painless."

Hahnemann described a "deathly paleness, coldness of the limbs and whole body, cold perspiration, timorous anxiety, trembling and despair, mucus stools, transient vomiting and short cough and very rarely certain kinds of pain." He noted that it was a rare and transient effect in excitable subjects, occurring as a reflection of the secondary state.

Keynote abnormal painlessness, but there are also acute pains. Hahnemann recorded one example, "horrible labor-like pains in uterus, which compelled her to bend the abdomen double with anxious, almost ineffectual urging to stool."

Characteristic drowsiness. Inertia, torpor. Absence of sensation, absence of reaction. Great stupor, painlessness, complains of nothing, wants nothing. "Want of susceptibility, trembling." Lack of vital reaction. Exalted sensitiveness and timidity, sensitiveness to fright and other emotions. Sleepy but cannot sleep, sleepless with acuteness of hearing disturbed by sounds ordinarily not heard at all. Nervous and irritable, tendency to start. Twitching, trembling of head, hands and arms.

Spasms in children at the approach of strangers, from nursing after the mother has had a fright, from crying, eyes half open and upturned. Screaming before and during a spasm. Tetanus, the spasms are ushered in with a loud shriek.

Epileptic attacks occur during sleep. Epilepsy after a fright. Deep sleep after attacks. Deep, rapid breathing, stertorous breathing while sleeping. Children sleep deeply and snore, as if in a coma. Coma, near death-like states (Carb-v., Ant-t.). Coma from uremia, kidney failure. Comatose-like states with high fevers.

Fever, the skin is hot and damp. Secretions are generally checked except that of the skin. Sweat is a characteristic concomitant. "Very hot, sweltering perspiration." Guernsey noted that the "patient may not feel

cold all day, but may have only a little chill and at night, when in bed, complain that the sheets feel so very hot."

T. F. Allen remarked that the Op. fever may be closely allied to that of Aeon, because the Ranunculaceae are not far removed from the Papaveraceae. May have a high temperature without a distinct inflammatory process. Intense thirst and great sleepiness, without the anguish, fear and restlessness of the Aeon, fever.

Fever is similar to Gels., but with thirst. May be periodic, intermittent or remittent. Happy with a high fever. Brain damage from high fevers, lack of oxygen or drugs, particularly in children (Hell.).

Delirium with great loquacity, visions of animals starting out of various parts of the room. Feels well in delirium. Delirium tremens, very little drink is sufficient to bring on an attack. The bed feels too hot. Better cool, fresh air, worse warmth (Apis.).

Besotted face, dusky, mottled (Bapt.). Can be bloated, purplish with dark blue color. Emaciation, wrinkled skin, sunken eyes. Dry skin. Wasting infants who look aged, jerking and twisting of the body. Constant expression of fright.

Pinpoint pupils, unequal, fixed. Glassy eyed children, especially with an arched back and high fever. Childhood meningitis, arched backs, high fever, may have convulsions. Dreamy, sleepy state in meningitis (Gels.).

Stroke with dizziness and paralysis (Arn., Plb.). Deep red face. Strokes with labored breathing, a dusky, dark color on the face, fixed pupils. Stroke, with insensibility and partial or complete paralysis, resulting from charcoal vapor, inhaling gas, alcohol, fright, the fear still remaining. After a stroke, dropped jaw, paralyzed bowels, and dry skin. Multiple sclerosis with paralysis.

Paralysis of sphincters. Severe constipation (Plb.), painless, after a shock or fright. Impacted bowels, particularly in babies. Complete constipation with no desire for stool (Alum.). Lack of sensation, cannot strain. Retention of urine due to lack of sensation. Constipation with round stool, hard, black balls that look like sheep dung.

Involuntary and unconscious passage of urine and feces. Reversed peristalsis and fecal vomiting. Ileus and strangulated hernia. Inertia of the intestines results in constipation of the bladder, retention of the uterus, suspension of the menses.

Threatened abortion or miscarriage from fear. Uterine inertia during labor. Excessive fetal movements. Birth trauma. Asphyxia of the newborn (Aeon.), the child is unaware. Puerperal convulsions.

Drug overdoses. Stupor and slurred speech from overdose (Gels.). Nausea or constipation from drugs. Antidotes the effects of morphine (Nux-v.). Side effects of chemotherapy (Ip.). Antidote for lead poisoning, especially where there is constipation, colic, cramps in the colon.

J. P. Willard repeatedly gave permanent relief in cases of suffering with Op. 2x without producing any narcotic effect.

J. B. S. King noticed that in seven opium eaters, there was marked arching of the back, especially of the upper part of the back. In as many morphine takers he had not met with a single case of arched back.

Villers cured with Op. 200c a case of hystero-epilepsy in which the attack was preceded by a sensation of swelling of body. Veins protruded, face bluish red. Complete unconsciousness.

In one of the worst cases of painful menstruation Clarke ever treated, Op. 30c gave greater and more lasting relief than any other remedy. In one patient he gave Op. 30c for constipation. With the onset of the next period, Op. caused a "sharp pain which caused vomiting and a desire to sit doubled up and keep warm."

C. N. Payne related the case of a little girl, aged two, who had never slept properly since birth. She went to sleep at the usual time and slept until 10p.m., when she woke moaning, crying and tossing about. Seemed frightened, almost fell asleep again but woke with a start. She screamed and kept one arm and one leg in motion after waking. Seemed sleepy but could not sleep. Usually napped during the day.

Nux-v., Bell., Cham, were given in succession in vain. It then transpired that before the baby was twelve hours old it had four different medicines put into its stomach. One of them was paregoric, and had been given since, as well as a "quieting medicine."

During the early months the baby had colic with constipation, stools in dark, hard, round balls. Clearly, it was a proving of opium. Op. 200c was given. The first night she slept much better, rapid improvement and cure followed.

RELATIONS - Antidoted by: Strong coffee, Atropine, Kali-perm, solution, oxygen inhalations, Camph., Bell., Ip., Nux-v., Chronic opium poisoning. Ip., Nux-v., Passi., Aven, is useful to counteract opium, morphine or heroin habit. **Antidote to:** Bell., Dig., Lach., Merc., Nux-v., Stry., Plb., Stram., Ant-t. **Compare:**

(1) The alkaloids, Apom., Cod., Morph., Chel., Sang. (2) Apis, Bell., Gels., Nux-m. (3) Morphine - an extreme susceptibility to all pain, twitching, tympanites, much itching, (4) Codeine - dry, teasing incessant cough, twitching of muscles, especially those of eyelids. (5) Esch. - California Poppy - a harmless soporific. (6) Stroke of alcoholics, Bar-c. (7) Lack of vital reaction, Psor. (8) Spasms after fright - Hyos., from anger, Cham., Nux-v.,

Effects of fright, the fear still remaining. Aeon., Hyos. (9) Diarrhea from fright. Gels., Puls., Verat. (10) Effects of sudden joy, Coff. (11) Violent movements of fetus, Arn., Sil., Thuj., Sulph., Croc. (12) Uterine inertia, Morph., Chloral., Sec. **Followed well by:** Aeon., Bell., Bry., Hyos., Nux-v., Nux-m., Ant-t.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***OPUNTIA VULGARIS

(Prickly Pear)

PHARMACY - Opun-v. Opuntia vulgaris. Prickly pear. Cactus opuntia. Opuntia alba spina. Opuntia itálica. Opuntia pumila. N. O. Cactaceae. Opuntiae. Tincture of flowers. Tincture of the juice, stems and leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Enteroptosis. Nausea. Priapism. Spleen, pains.

HOMEOPATHIC - Two kinds of "Prickly pear" have been proved, Opun. vulg. and Opun. alba spina. Burdick took one or two deep inhalations of the tincture of the flowers of the former. J. Fitch, who proved many of the Cactaceae took ten drops of the tincture of the second potency.

Opun-v. has a sick feeling in the lower third of the abdomen. **Feels as if bowels were settled down in lower abdomen.** Diarrhea with nausea. Enteroptosis with loose and frequent evacuations.

COMMENTS - The bulk of the symptoms of the proving are Fitch's, but the most peculiar symptom (which has also been verified) is Burdick's, "Nausea extending from stomach down into bowels with sensation as if diarrhea would set in." Also "feeling as if bowels had settled down into lower abdomen." Fitch had actual diarrhea. All the urinary and genital symptoms were his except "bloody urine," which is an effect of Opun-v., but not Burdick's. Coldness was observed by both provers. The peculiar mental symptoms recalling the swearing tendency of Anae., are Fitch's. Sticking and pricking pains predominate, also numbness and tension.

RELATIONS - Compare: (1) Chap. - which Mexican physicians laud as a specific in chronic diarrhea. (2) Ric. - diarrhea, dysentery, obstinate chronic diarrhea. (3) Cact., Cer-b., Anh. (4) In nausea and sinking-down sensation in stomach and abdomen. Ip. (5) Blasphemy, Anae.

REFERENCES - Boericke. Clarke.

***ORCHITINUM

(Testes extract)

PHARMACY - orch. Orchitinum. Testicular extract. Sperminum. A sarcode. Trituration. **Historical dose:** Tincture and all potencies.

CLINICAL - Debility. Hot flashes. Impotency. Menopause. Senility. Sexual, weakness.

HOMEOPATHIC - The use of a testicular extract in cases of senile decay and nervous breakdown was first proposed by Brown- Sequard, and formed one of the examples by which he illustrated his doctrine of "inner secretions."

He maintained that the various glands of the organism had, in addition to their obvious secretion or excretion, an additional secretion which was not obvious, but which materially contributed to the welfare of the organism. The doctrine is now generally accepted and the use of the sarcodes in general is based upon it. Homeopathy can use these remedies in both ways.

Orch. has been used with success in the triturations in menopausal sufferings and in old-school practice in the sequelae of ovariectomy in cases of debility, sexual weakness and premature senile decay.

COMMENTS - Generally a remedy for men. Impotency (Sei.) and sexual debility. Weakness in the testes, particularly before puberty. Hot flashes. Senility.

REFERENCES - Clarke. Murphy.

***OREODAPHNE CALIFORNICA

(California Laurel)

PHARMACY - oreo. Oreodaphne californica. Califomialeurel. Mountain laurel. Spice-bush. Balm of Heaven. N. O. Lauraceae. Tincture of the leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Backache. Colic. Diarrhea. Headaches. Meningitis. Vertigo.

HOMEOPATHIC - Oreodaphne is a tree which grows to a hundred feet in height. When bruised, it emits a strong, spicy odor which may cause sneezing.

J. Murray Moore proved on himself and friends a tincture of the leaves and produced well-marked fronto-occipital headache, worse by movement, better by rest. The symptoms were more violent when the tincture was smelled than when taken internally.

Neuralgic headaches, cervical-occipital pain, cerebro-spinal meningitis. "Dull ache in occipital and cervical regions, extending down to scapula, great heaviness of the head with a constant desire to move the head,

which, however, gives no relief." Atonic diarrhea and intestinal colic.

Back - Constant, dull ache in **cervical and occipital region**, extending to scapula down spine.

Eyes - Drooping eyelids. Eyelids heavy, **Head** - Head heavy, twitching. Intense aching with **pressure at inner angle of either orbit**. Headaches, worse light, noise, better closing eyes and perfect quiet. Pains, worse left side, extending through brain and across scalp to the base of the occiput. Pain extending to ears.

Rectum - Atonic diarrhea.

Vertigo - Dizziness, worse on stooping or moving.

REFERENCES - Boericke. Clarke.

***ORGANOPHOSPHATE

PHARMACY - org-p. Organophosphate. **Historical dose:** All potencies.

CLINICAL - **Allergies**. Ataxia. **Chronic fatigue**. Chemical, sensitivity. Colic. Coma. Convulsions. Cramps. Dementia. Dystonia. Food, allergies. Heart disease. Incoordination. Multiple sclerosis. **Muscle weakness**. Nausea. Neuropathy. Palpitations. Paralysis. Parkinson's disease. Osteoporosis. Twitching. Vertigo. Vomiting. **Weakness**.

HOMEOPATHIC - Organophosphate compounds are a diverse group of chemicals used in both domestic and industrial settings. Examples include insecticides (malathion, parathion, diazinon, fenthion, dichlorvos, chlorpyrifos), nerve gases (soman, sarin, tabun, VX), ophthalmic agents (echothio-phate, isofluorophate), and antihelmintics (trichlorfon). Herbicides (tribufos [DEF], merphos) are tricresyl phosphate-containing industrial chemicals.

Severe anxiety. Restlessness. Confusion. Impairment of concentration and memory. Confusion, irritability, lethargy. Tearfulness. Depression, with suicidal tendencies. Hallucinations. Psychosis.

Muscular contractions. Ataxia. Seizures. Convulsions. Dysarthria, tremors. Polyneuropathy. Paralysis. Insomnia. Cancer. Coma.

Respiratory distress. Bronchospasm and laryngeal spasm, can lead to airway obstruction. Weakness and paralysis of respiratory muscles. Chest pain. Cerebral ischemia.

Chronic fatigue syndrome. Malaise. General sick feeling. Severe, debilitating fatigue which is physical and mental. Loss of muscular strength. Muscle aching, flitting from one group of muscles or joints to another. Degeneration of handwriting. Episodic blurred vision.

Immune weakness, tendency to acquire infections and difficulty getting rid of infections, autoimmunity. Multiple chemical sensitivity. Drug intolerance (such as alcohol, antidepressants). Food intolerances. Birth defects.

MIND - Poor short term memory. Unable to learn new things. Poor concentration, Speech difficulty with poor word finding. Irritability and aggression. Severe anxiety. Nervousness and apprehension. Impairment of concentration and memory.

Destabilization of mood. Mood swings. Increased tearfulness. Depression and psychosis. Impulsive suicidal thoughts. Dementia. Rage. Hallucinations.

Abdomen - Abdominal pain and bloating. Colic. Irritable bowel syndrome.

Chest - Chest pain.

Eyes - Optic neuropathy. Retinal degeneration. Myopia, and miosis. Pupils dilated. Excess lachrymation. Blurred vision.

Female -

Food - Loss of appetite. Hypoglycemia or hyperglycemia. **Food allergies**.

Head - Headache. Cerebral ischemia.

Heart - Heart disease. Cardiac arrhythmias. Palpitations. Bradycardia. Hypotension, hypertension.

Kidneys - Frequent urination. Urinary incontinence.

Limbs - **Muscle weakness**. Muscle aching. Muscle twitching or cramps. Clumsiness. Incoordination. Dystonia, cogwheel rigidity. Paralysis. Osteoporosis.

Lungs - Shortness of breath. Pulmonary edema.

Modalities - Worse from diesel fumes, perfumes, cigarette smoke, alcohol.

Mouth - Salivation.

Nose - Allergies. **Acute sense of smell**. **Perspiration** - Increased sweating.

Rectum - Bowel incontinence. Diarrhea and constipation.

Skin - Numb patches.

Sleep - Sleep disturbance. Insomnia.

Stomach - Nausea and vomiting.

Temperature - Hypothermia. Heat flushes.

Vertigo - Vertigo, with poor balance and dizzy spells.

RELATIONS - Compare: Mal., Phos., Ph- ac., Phys.

REFERENCES - Murphy.

*****ORIGANUM MAJORANA**

(Sweet Marjoram)

PHARMACY - orig. Origanum majorana. Sweet marjoram. N. O. Labiate. Tincture of whole fresh plant. The whole plant, without the root, gathered when in flower, is macerated in two times its weight of alcohol.

Historical dose: Tincture and all potencies.

CLINICAL - Breasts, disorders. Headaches. Hysteria. Leucorrhea. **Masturbation.** Nipples, **irritation. Nymphomania.** Restlessness. Seminal, emissions. **Sexual, mania.**

HERBAL - The "Wild Marjoram" of this country is Origanum vulgare, grows on limestone or chalky soil and yields an oil called Oil of Thyme.

HOMEOPATHIC - Orig., the "Sweet Marjoram" which is used for seasoning in cookery, was proved by Dr. Cessoles, on himself and two young women. The symptoms of the proving showed a distinct relation to the sexual organs, which clinical experience verified and expanded.

Orig. strongly affects the **female sexual organs.** Acts on the nervous system generally and is effective in masturbation and excessively aroused sexual impulses. Increases the desire for sex.

Sexual excitement driving her to masturbation. Lascivious ideas, impulses, dreams. Affections of the breasts (Bufo.). Great physical prostration. Desire for active exercise **impelling her to run.**

MIND-Lascivious ideas, impulses and dreams, with sexual irritation. Great sexual excitement driving her to masturbation. Eroticmania with inclination to commit suicide.

Sadness the whole day, followed by lively mood and excessive joyfulness. Thoughts of marriage, which dispel sadness. Fearful, silent, sad, discontented, despairing and weary of life. Irritable. Uneasiness. Restless with great anxiety and full of ideas. Need for active exercise of running in open air. Impulses to run.

Abdomen - Violent pain in abdomen wakes her from sleep at night.

Back - Pains beneath the scapula.

Breasts - Swelling and itching of nipples and pains in breast.

Female - Great sexual irritation, deep moroseness, believes herself lost or despised. Great sexual excitement driving her to onanism, daily indulgence. Nearly idiotic from masturbation. **Sexual mania,** powerful lascivious impulses. Sexual mania with inclination to suicide in a young girls. Hysteria. Sexual irritation with leucorrhea and irritation of pudenda. **"Flatulence of uterus."** Infertility.

Food - Loss of appetite. Excessive thirst at night

Head - Headache in temples. Heat of head, as heat increased, head was involuntarily turned from side to side.

Kidneys - Frequent desire to urinate, waking him from sleep as many as four times in one night.

Limbs - Cramp in sole of right foot, in left leg, in fingers and shoulders. Pains in right hand. Rheumatic pains in right foot frequently recurring and disappearing. Pains in the toes.

Male - Nocturnal emissions.

Nose - Tickling and sensation of constriction in tip of nose. Nosebleeds.

Skin - Pale red spots on legs, thighs and abdomen. Painful red pimples on outer portion of both legs.

Sleep - Frequent waking from sleep in fright, with trembling. Vivid, anxious, lascivious, exciting dreams.

Stomach - Hiccough.

Temperature - Heat of head, as the heat, as the heat increased the head was involuntarily turned from side to side.

Vertigo - Vertigo on lying down in evening.

COMMENTS - A treatise on the "Sexual Passion," by Dr. Gallavardin, Lyons, France, reported that a clergyman of Mississippi, the founder of an orphan asylum, discovered that Origanum majorana, or common marjoram, in a certain sense may be considered as a specific against sexual passion. It proved effective in masturbation and excessively aroused impulses.

Gallavardin used it in the 4c dilution as he has not found the higher potencies effective. He dissolved five or six globules of this dilution in four teaspoonfuls of fresh water and the young masturbator takes of this every two days, a quarter of an hour before the meal, one teaspoonful.

If the cure is not accomplished eight days after this solution is used up, the same dose is repeated in the same way.

When desired, this remedy can be used according to Gallavardin without the knowledge of the patient, by pouring a teaspoonful into the soup, milk or chocolate. The effect frequently appears very rapidly, but sometimes it does not appear.

Clarke verified the power of Orig. in morbid sexual excitement in both sexes.

The sexual symptoms were developed chiefly in the female provers and included sadness followed by joyfulness and thoughts of marriage. Lascivious dreams. Increased desire for sex. Swelling and itching of nipples and pains in breasts.

"Impulse to run." "Heat of head, as the heat increased the head was involuntarily turned from side to side."

Symptoms were worse evening on lying down (vertigo) and worse at night (excessive thirst).

RELATIONS - Compare: (1) Ferul. - in violent sexual excitement in women, icy coldness in occiput. (2) Plat., Valer., Canth., Hyos. (3) In masturbation in girls, Grat. (4) In masturbation, desire to run, heat to head and movements of head, disorders of breasts, Bufo. (5) In impulse to run, lod. (6) Canth., Cann-i., Coll., Hedeo., Helon., Plat., Valer.

***ORIGANUM VULGARE

(Wild Oregano)

PHARMACY - orig-v. Origanum vulgare. Wild oregano. Wild marjorum. Greek oregano. N. O. Lamiaceae.

Historical dose: Tincture and all potencies.

CLINICAL - Acne. Arthritis. Asthma. Athlete's foot. Bad, breath. Bed-sores. Bites. Boils. Bronchitis. Bruises. Burns. Bursitis. Candida. Canker, sores. Cellulitis. Cold, sores. **Colds.** Coughs. Cystitis. Dandruff. Diaper rash. Diarrhea. Ear, infections. Eczema. Fleas. Food, poisoning. Frostbite. Fungus. Giariasis. Gum, disease. Headaches. Hepatitis. Hives. Impetigo. Leg, cramps. Lice. Nail, fungus. Peptic, ulcer. Pneumonia. Poison, ivy. Poison, oak. Psoriasis. Prostate, disorders. Radiation, burns. Ringworm. Rosacea. Scabies. Shingles. Sinusitis. Sore, throat. Thrush. Toothache^ Tuberculosis. Varicose, veins. Vertigo. Warts. Wounds.

HERBAL - Oregano grows wild in the mountains of the Mediterranean region. The name is derived from a Greek word meaning "joy of the mountains."

It was used by Greek physicians for trauma, wounds, headaches, lung disorders and venomous bites and was the traditional cure for hemlock poisoning. Over the centuries it gained widespread use for lung conditions, asthma, pneumonia, bronchitis, sinusitis, allergies, and cough.

Britain's Gerard, in his 17th century manuscript, explained the use of oregano as a top remedy for **head colds**. The 19th Century eclectic physicians used oregano as a general tonic and a promoter of menstruation (which is why it should not be used during pregnancy).

REFERENCES - Murphy.

***ORNITHOGALUM UMBELLATUM

(Star of Bethlehem)

PHARMACY - omi. Ornithogalum umbellatum. Star of Bethlehem. N. O. Liliaceae. Hyacinthaceae. A plant of which there are many varieties, nearly allied to garlic, Allium sativum. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - **Cancer.** Constipation. Depression. **Flatulence.** Gastric, ulcer. Prostration. Restlessness. **Stonuch, cancer.** Stomach, ulcers. **Vomiting.**

HOMEOPATHIC - Orni. is to be considered in chronic gastric and other abdominal indurations, like cancer of intestinal tract, especially of stomach and cecum.

Pains in stomach with sickness, vomiting two or three times a day. Swollen feeling across lower chest.

Flatulence. Heartburn and rising of food. Gastric ulcer and cancer. Painful contraction in the pylorus with duodenal distention. Feels **as if a bag of water turns** when she turns over in bed.

Complete prostration. Cold before the pains. Feels a pressure in every nerve of the body, sometimes in one part or another with pain across chest, sometimes after food or at night and sometimes on an empty stomach. Restlessness on account of creepy feeling in feet, cannot sit still, cannot read without walking about. Painful sinking across pit of chest and a feeling of sickness that kept her awake the greater part of the night. Writhing in agony, unable to keep anything long on stomach, better by warm food, worse by cold drinks.

MIND - Hateful. Depression and desire for suicide.

Abdomen - Hardness and distention of abdomen, with frequent belching of mouthfuls of offensive flatus. Wind rolling in balls from side to side. Obligated to loosen clothing.

Limbs - Legs and feet go to sleep on sitting. Legs and feet swollen, preventing walking. Legs swollen, great red streaks and patches coursing along them. Right leg felt bruised and sore, later, angry and

Ornithogalum umbellatum red. Creepy feeling in legs keeps him awake at night.

Mouth - Tongue red, coated towards back. Nasty taste in morning.

Rectum - Constipation. Diarrhea, which ameliorates.

Sleep - Great difficulty in going to sleep because of acreepy feeling in limbs. Sleep disturbed by pains. Waking

in perspiration at night. Wandering dreams.

Stomach - Loss of appetite. Painful sinking across epigastrium. Agonizing feeling in chest and stomach, starting from pylorus with flatus that rolls in balls from one side to the other. **Pains increased when food passes pyloric outlet.** Frequent belching of offensive flatus. Phlegm retchings and loss of weight. **Vomiting of coffee-ground looking matter.** Gastric ulceration with hemorrhage.

COMMENTS - For stomach cancer (Hydr., Cad-s.), stomach ulcers, or a history of ulcers followed by stomach cancer. Stomach cancer after a vaccination. The abdomen is distended and hardened. Writhing in agony from stomach pain. Keynote belching. Emaciation (Hydr.). Used in the Bach Flower system for shock.

In his "Cancer and Cancer Symptoms" Dr. Cooper published several cases of cancer helped by Orni. Cooper particularly insisted on his method being followed: a dose of a single drop being allowed to act until all trace of its action has disappeared.

Cooper noted the case of a man named George, 40, who suffered from stomach cancer. His father had died of a stomach ulcer at 73. He was sent to the cancer hospital in London. They began to operate, but abandoned the operation because of overwhelming numbers of adhesions.

Cooper first saw him July 22, 1898. The patient was writhing in agony on his bed, unable to keep anything down. He was better by some warm foods, worse by cold drinks. The pains were worse at night.

Cooper gave one drop of Orni. tincture on July 23 at 6:00, this was followed by an aggravation of great pains and the patient was frantic until 3:00 a.m. At 1:00 p.m. the next day he had a bowel movement.

Then he developed flatulence and pain, and was given Carb-v. 3x as an acute, which cured those symptoms. Three days later, Cooper saw the patient and the pain that was in his stomach had begun spreading out to the rest of his body.

A second dose of Orni. was given on the evening of July 28. Immediately after taking that dose, he vomited a black, jelly-like substance that greatly relieved the pains and generally improved his energy and appetite. From that time on there was steady progress.

On August 29th, the patient reported that he was getting some pain in the lower abdomen. He had difficulty getting to sleep and he had started getting creeping sensations in his legs.

He repeated a dose on September 9. On September 18, he reported that he was sleeping better, there was more pain in the legs, but it was not so bad, and there were slight pains in the stomach. His appetite and energy were improved. On September 23, his right leg felt bruised and began to swell. He started choking on food. He was given another dose.

Some flatulence returned. In a few days, the man came to Cooper's office in a great fright. Both his legs were swollen with red streaks. Believing these were to do with the rapid elimination of the cancer. Dr. Cooper thought he was being too aggressive in the case, so he gave no medicine. The man was astonished.

The legs became swollen and inflamed, then returned to normal. In July 1901, Cooper visited his patient to find him in good health without any signs of cancer or pain.

In the same volume, Cooper reproduced from H. W. (April, 1898) cases of ulceration of the stomach in elderly women cured with the same remedy.

Miss J., 50, was a thin, drawn-featured woman. Her sister died of stomach cancer. She had vomited blood fifteen years ago and had been subject to gastric pains since. Pains in stomach with sickness. Vomited two or three times a day. Felt a pressure in every nerve of body, sometimes in one part, sometimes in another, with pain across

Ornithogalum umbellatum the chest. Pain at night, or after food and sometimes on an empty stomach.

She had a great deal of wind and sometimes a swollen feeling across the lower chest. Occasional heartburn with rising of food. Nasty canker taste in the morning. Could not sleep from the pains, had wandering dreams. Bowels were confined.

Orni. tincture was given, one dose, on November 6. On November 13, the patient was seen again. Symptoms had moderated, vomiting ceased. A new symptom appeared, "wakes in perspiration at night." That diminished by November 27. Pains better, "gets cold before the pains." No heartburn, still a nasty taste and confined bowel. The dose was repeated.

The day after this dose, the bowels loosened with general relief. This went on, increasing under more doses of the remedy, until the patient regained almost perfect health and was quite changed in appearance.

Mrs. K., 62, had been seized with profuse vomiting of blood eighteen months before. Since then she lived on slops and Quaker oats. Lately, she spat up clots. Whenever she turns in bed she "feels as if a bag of water turns also." Feet and legs swollen, unable to walk with ease. A brother is said to have died of cancer.

On January 12, 1898, one dose of Orni. in tincture was given. On January 23, she was so much better that she could hardly believe the effect. The oppression of the stomach was gone. The "fluid sack" that rolled about in her seemed to go down and she felt nothing of it. She felt cheery and light. On February 10, there was a

threatened return of the symptoms, but another dose permanently removed them.

Cooper added the account of how he was led to think of Orni. in cancer. "My acquaintance with it in cancer cases was due to the very distinctive disturbance it produced in a woman very sensitive to all alliaceous flavoring substances in food. The dose was taken at midday and the same evening distention of the stomach and duodenum came on.

"Also frequent belching of mouthfuls of offensive flatus obliging her to loosen her clothes. This was accompanied by the most hateful depression of spirits and desire for suicide. A feeling of complete prostration and painful sinking across the pit of the chest. A feeling of sickness that kept her awake the greater part of the night and that did not pass off for several days.

"The subject of this disturbance was about fifty-four years of age of quite a sanguine temperament inclined to the enfeebled digestion and with a history of pleuritic seizures and a possible tubercular tendency, but otherwise not subject to any settled form of disease. Since the medicinal thrill above recorded, her general strength, digestion and capacity for the enjoyment of life have manifestly improved.

"The Orni. in those sensitive to it goes at once to the pylorus, causes painful spasmodic contraction of it and distends the duodenum with flatus, its pains being invariably increased when the food attempts to pass the pyloric outlet of the stomach."

Clarke had several opportunities to confirm Cooper's observations on the action of Orni. for cancer the stomach, including the case of Mr. W., 44, who came to him in August, 1899. Both parents had died of cancer. He had a weak stomach for two or three years and was wasting. He had to get up in the night to vomit, bringing up green and yellow liquid.

He had much flatus, "swells up in balls of wind." His abdomen was large and hard, with a rather large spleen. Venous zigzag. Stools were loose, watery, slate-colored. Urine was scanty, dark. He had been vaccinated three or four times.

He made good progress under Thuja. 30c once a week, the vomiting ceased and he began to put on flesh. He developed an offensive body odor, which disappeared under Sulph. 30c, but on October 13, symptoms were **rather worse. He had some distention**, wind did not pass freely. Rumbling before stool. Balls of wind rolled about, but not as badly as at first. Frothy, acid vomiting, which relieved.

Clarke then gave Orni. tincture, one dose, repeated three weeks later with manifest improvement in the symptoms. His body was much less hard and distended. Sleep and appetite were good, cessation of vomiting and gain of three pounds in weight. When he returned, the symptoms were different and another remedy was required and then he considered himself cured.

RELATIONS - Compare: (1) All-s., in flatulent indigestion. (2) Abies-n., Cham., Chin., Carb-v., Lyc.

REFERENCES - Boericke. Clarke. Murphy.

***OSCILLOCOCCINUM

PHARMACY - oscilloc. Oscillococcinum. Lysate from Oscillococcus. **Virus. Historical dose:** All potencies.

CLINICAL - Aches. Anxiety. Bronchitis. Conjunctivitis. Ear pain. **Epidemic, influenza.** Fears. **Headaches. Influenza.** Gastro-intestinal disorders. Mastoiditis. Otitis. Rhinitis. Sinusitis. Varicose ulcer.

HOMEOPATHIC - In the year 1925, Joseph Roy is believed to have observed in some conditions of a culture the existence of a germ animated by an oscillating movement. He named the nosode Oscillococcinum because of this fact. These researches helped him to describe a remedy of which the clinical experiments in the infections of influenza were carried out in particular by Paul Chavanon.

Oscilloc. was developed by Boiron Laboratory in France. Pierre Schmidt said Oscilloc. is for "influenza at the beginning as a preventive, as well as during convalescence"

Influenza of all types, especially in the earlier stages. **Epidemic influenza.** Bursting headaches and muscle aching. Gastro-intestinal troubles with the influenza. **Beginning of influenza**, rhinitis and otitis. Tendency to get influenza.

Given early it is very efficacious. To obtain good results in a case which begins and to cut short the manifestations of influenza, it is necessary to use one dose of Oscillococcinum 200c every 2 to 3 hours or repeat only if necessary.

Anxiety, paleness, chill. Sensitiveness to barometric weather changes. Tuberculous patients sensitive to cold. Asthenia, hyperthermia. Eye and nasal catarrh. Bronchial congestion. Painful congestion of the ear drum. Schmidt noted it for "Mastoiditis, at the beginning of a disease which does not develop."

MIND - Subjects with fixed ideas, obsessions. Obstinate. Agony, anxious without any motive. A busy body. Maniac, cannot bear disorder. Fear of dirt, of being polluted. Has the need to wash his hands very often and is afraid of giving his hand to others for the fear of pollution, contagion.

Abdomen - Abdominal cramping pains followed by fetid diarrhea. Pains in the appendix region.

Ears - Pains sometimes as if from needles in one or both ears. Tympanum red and swollen. Mastoiditis. Diminution of hearing acuity.

Eyes - Yellow conjunctiva. Conjunctivitis of influenza. Eye catarrh.

Face - Pain in the frontal and maxillary region.

Food - Can digest neither milk nor eggs.

Head - Bursting headaches. Headache with considerable throbbing.

Kidneys - Turbid urine, less abundant, deep color. Painful urination.

Lungs - Muco-purulent expectoration with humid cough.

Modalities - Better by heat, rest. Worse by milk, eggs.

Mouth - Tongue white.

Nose - Nasal voice. Nasal catarrh. Stuffed nose, nasal obstruction, sneezing. Serous discharge from the nose, then mucopurulent.

Rectum - Constipation.

Skin - Varicose type of ulcers of the legs.

Stomach - Swelling of the stomach. Putrid regurgitations. Vomiting of water or food.

Temperature - Bruised sensation, chill, hyperthermia.

Throat - Aphonia, dry painful cough.

RELATIONS - Eup-per. is to be associated with it. **Compare:** (1)Eup-per., Gels., Pyrog..Bapt., Ars., Infla. (2)

Gaulphimia glauca - Hyperse-

cretion of the nasal and ocular mucous, sneezing, hypersensitivity to change of weather. (3) Gelinsoga

purviflora - Morning headache, makes mistakes when writing numbers and letters, stuffed nose, augmentation

of diuresis, joint pains, lassitude, feels as if bruised. (4) Gink. . Pale face, drawn traits, numbness and chill.

Laryngeal irritation with cough, frontal and left supra - órbita pain. (4) Luf-op. - Frontal-occipital headache,

acute or chronic inflammation of the mucus membrane of the nasal fossa, lassitude and bodily fatigue.

REFERENCES - Julian.

***OSMIUM METALLICUM

(Osmium Metal)

PHARMACY - osm. Osmium metallicum. Osmium metal. Osmium tetroxide. The element (At. Wt. 190.3).

Trituration of the precipitated metal. Osmium acidum. Dilutions with absolutely pure water. **Historical dose:**

Trituration and all potencies.

CLINICAL - Asthma. Bronchitis. Colds. Coryza. Cough, spasmodic. Eczema. Erections. **Glaucoma.**

Headache. Hernia. Herpes iris. Larynx, pain. Penis, sores. Pollutions. Postnasal bleeding. Post-nasal, growths.

Spermatic cords, pains. Sternum, pain. Syphilis. Syphilitic eruptions. Testicles, pains. Tongue, sore. Trachea,

pain.

HOMEOPATHIC - Osmium is a metal of the platinum group in association with which it is always found. It is the heaviest of them all and the most refractory, having never been fused. It derives its name from the pungent odor of the fumes of osmic acid, which are evolved in the process of separating platinum from its ore.

The odor of Osmium closely resembles that of chlorine, as also do its irritating effect on the respiration mucus membrane. The odor imparted to the secretions is various, it makes the urine smell like violets, the belchings like radishes, the axillary sweat like garlic.

Triturations of the pure metal have been proved. The symptoms of the metal and of the acid are taken together.

Osm. affects the respiratory tract, especially the trachea. Irritation and catarrh of respiratory organs. **Pain in trachea.**

Pains go up and down. Crawling on back and shoulders. Increases and gives odor to local perspiration.

Albuminuria. Eczema. Causes **adhesion of the nail fold.**

MIND - Morose, irritable, impatient. Weeping mood, screaming with cough. Weak, gives up. Consciousness of mental weakness, misplaces words. Thoughts of accidents having happened to others. Disinclination for work.

Abdomen - Distention of stomach and abdomen in evening, with difficult passage of flatus. Rumbings. Pain in groins, on coughing the pain extended into testicles. Weakness in groins towards spermatic cords. Pressure on inguinal rings. Constriction in epigastrium before dinner.

Back - Crawling on back and shoulders. Pressive pain in back and loins. Pain in sacral region. Peculiar pain extending from scapula to sacral region, worse motion and cough.

Chest - Oppression, better deep inspiration. Tightness. Dryness in chest. Sticking near left lower rib. Pain beneath sternum on coughing, extending to sides of chest. Sternum is sore, painful to touch, independent of cough. Shooting up and down in sternum. Wandering pneumonia.

Ears - Earache evenings, first right then left ear. Perforations with irritation of meatus. Itching in the ears,

profuse nasal catarrh. Tingling and pain in right ear. Ringing in right ear. Deafness, ears pain when nose is blown, mouth open, sleep noisy.

Eyes - Increase in intra-ocular tension, dim sight, photophobia. Conjunctivitis. **Glaucoma** with iridescent vision. **Green colors surround candlelight**. Greenish or rainbow colors around the light. Violent supra and infra-orbital neuralgia, violent pains and lachrymation.

Food - Aversion to cocoa, coffee and tobacco, disgust at their odor.

Head - Feels as if a band around head. Dull, heavy headache. Violent headache above and under the eyes. Sharp bewildering pain in center of forehead. Aching in base of brain and jaws at night. Pain in vertex and occiput, worse throwing head backward. Falling off of hair (Kali-c., Fl-ac.).

Heart - Anxious palpitations. Pulse rapid.

Kidneys - Bright's disease. Diminution or suppression of the urinary secretions. Urine is albuminous, strong-scented, smelling of violets. Urine is high-colored, full of bile, dark brown and scanty. Deposits bright-red sediment.

Limbs - Heaviness and weariness of limbs, worse knees. Twitching of fingers with spasmodic cough. Fold of skin remains attached to growing nail. Axillary sweat smells like garlic.

Lungs - Sensitive air passages. Dread of breathing, sore pain when air enters lungs. Moist rales on breathing and in larynx. Convulsive cough, feels as though membrane were torn from larynx. Noisy, **dry, hard, cough** in violent short bursts, coming from low down, shaking the whole body. Spasmodic cough, sounds as if coughing in an empty tube with torn loose feeling and sticky sputum. Twitching of fingers with spasmodic cough.

Male - Steady aching in glans penis. Violent pain on the point of penis and prepuce. Pain in testes and spermatic cord. Pain in testicles, preventing sleep. Erections every morning, earlier and harder.

Modalities - Open air helps the smarting in eyes. Worse coughing, talking, riding, touch. Worse in evening. Cough worse until midnight. Open air aggravates coryza, cough.

Mouth - Aching in jaws, pain in muscles of mastication. Mouth sticky and pasty. Copious salivation. Taste of blood, metallic, cigars cannot be smoked, because they provoke cough and worse the rawness in larynx, taste blunted.

Nose - Nose and larynx sensitive to air. Full feeling in nose. Coryza, fluent with a feeling of stoppage. Snuffling. Small lumps of phlegm from posterior sinuses.

Rectum - Constipated. Stool hard, then soft, mushy, frequent. Bilious stools with burning at anus. Burning in anus during and after stool. Tendency to hemorrhoids.

Sensations - As of a band around head. As if he had swallowed broken stones. Cough as if caused by resonance of contiguous parts. As if insects crawling on back and shoulders. Legs and feet as if too full.

Skin - Irritated skin. Eczema. Itching pimples. Bromidrosis, sweat in axilla smelling of garlic, worse evening and night. Fold remains attached to growing nail.

Sleep - Sleepless. Restless sleep, with painful dreams. Sleepiness is overpowering. Sleep heavy, interrupted by nightmare. Dreams of fire, confused, but not frightful. Dreams of activity and of serious events. Dreams not remembered.

Stomach - Feels full of broken stones or lumps. Qualmishness and extreme discomfort with dull pain and heaviness in pit of stomach. Belchings smelling like radishes. Nausea in morning. Vomiting of watery mucus of the odor and taste of the acid. Chronic vomiting, with pressure in stomach.

Temperature - Shivering, worse back. Fever, with difficult respiration, fever, with hot and dry skin. Sweat in axilla, smelling of garlic, worse evening and night.

Throat - Acute laryngitis, cough and expectoration of tough, stringy mucus. Talking causes pain in the larynx. Hoarseness, sore sternum.

Tongue - Tongue coated, red stripe in middle, fissured, one spot denuded. Tongue edges rough and covered with pimples. Tongue sensitive to touch when eating and drinking. Bad taste to coffee.

COMMENTS - The respiratory tract is irritated and pained from beginning to end. The nostrils and larynx are sensitive to cold air. Pain in larynx, trachea and in and under sternum on coughing. Talking causes pain in larynx.

Cough convulsive in paroxysms, hollow sounding as if one coughed into an empty tube, caused by irritation in larynx or low down in chest. Violent headaches, affecting the base of the brain.

Skin irritation, irritating eruptions, eczematous and herpetic. In the provings, the erections were severe almost to priapism and the ejaculations were longer-lasting and more copious than normal.

A woman, 62 to whom Clarke once gave Osm. 2x for a spasmodic cough with pain in the head had a severe aggravation, the headache taking this form: "Sharp pain in center of forehead going through to back, better by hard pressure on forehead." She discontinued Osm. and in two or three days that pain went away, leaving only

an ordinary headache. The cough was not relieved.

S. Norton suggested that Osm. may be a remedy in many cases of glaucoma.

Cooper had a case of a girl of 14 with postnasal growths who improved rapidly under Osm., 3x, but was seized with exhaustion, then under Hydr-ac., got quite well.

In one of Blackley's cases, a child born during the time that his father was under the influence of Osm. developed eczema, though none of the previously born children were eczematous. The kidneys were affected in another of Blackley's cases, incipient nephritis being set up.

M. Boger cured a case in which there was pain in both directions, "Stitching pain upward in left spermatic cord. Creeping sensation downwards in left spermatic cord. Weakness in calves, they give out while walking." Shootings in the sternum are up and down.

In another case of a man, 44, syphilitic was cured of "dull, steady pain in hypo- gastrum, sore to pressure. Steady aching in glans penis."

RELATIONS - Antidoted by: Sulfuretted hydrogen, Phos-ac., Sil. - swollen gums. Hep. and Psor. - pain in larynx, Bell, and Merc. - laryngeal catarrh. **Compare:** (1) Arg-n., Sei., Mang. (2) Irid., Tell., Thal., Plat., Pall. (3) In eyes and lungs, Chlor., Brom. (4) Skin of nails, Fl-ac. (5) Itch, Sulph. (6) Coryza, cough with pain in larynx, All-c. but it has better in open air. ***OSTEO-ARTHRITIC-NOSODE

PHARMACY - o-a-n. Osteo-arthritis-nosode. Made from the synovial liquid of arthritic joints. **Historical dose:** All potencies.

CLINICAL - Arthritis. Joint, pains. Osteoarthritis. Rheumatism.

HOMEOPATHIC - A proving of the Osteo- arthritic-nosode of hip was read in the 18th All India Homeopathic conference at Madras on 10 Oct., 1970. The O-A-N. that originated from Dr. Foubister, comes from the knee of a patient suffering from an osteo-arthritic affection, and the other stock from the hip of a similar case.

State of stupor, indifference to others. Extreme weakness with somnolence in the afternoon and profound sleep. Weakness, worse in the morning when waking up. Great desire for sleep, with deep sleep at night.

MIND - Apathy. State of indifference. Nonchalance. Idleness, no desire to work. Indecision, needs relaxing. Irritability, worse towards evening.

Eyes - Styes of upper eyelid of the left eye.

Kidneys - Highly colored urine and less abundant, worse at noon.

Limbs - Pain in the right shoulder. Temporary redness and swelling of the right shoulder. Redness and swelling of the right forearm and right wrist. Muscular pain of the right hip. Pain of the Achilles tendon. Pain aggravated by the first movement, ameliorated by continued movement.

Male - Increase of sexual desire in men. Furuncle on the scrotum.

Modalities - Aggravation by the first movement, at night. Better by prolonged movement. Worse right side.

Skin - Furuncles.

RELATIONS - Compare: (1) Calc., Calc-p.

REFERENCES - Julian.

***OSTRYA VIRGINIANA

(Ironwood)

PHARMACY - ost. Ostrya virginiana. Ironwood. Hop-hornbeam. Lever-wood. N. O. Cupulifere. Betulaceae. Tincture of heart wood. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Headache, dull. Head, numb. Intermittent fever. Liver disorders. Lumbago. Malaria. **Nausea.**

HOMEOPATHIC - Ost. is sometimes regarded as a variety of the common Hornbeam naturalized in America, though native to southern Europe. The chief difference between them is that Ost. vulg. has pendulous catkins, and Ost. virg., upright. The wood is exceedingly hard and heavy.

The preparations of which the provings by Burt and others were made were from the wood. Marked action on the liver with the usual dull headache and pain in back and shoulders, cutting, sinking pains in abdomen. Nervous, languid, weak, uneasy. Very nervous with dull headache.

Increased appetite, hunger wakes the patient at 4 a.m. Sinking at the epigastrium. Sickening pains. Black stools. Bilious conditions and intermittent fever. Anemia from malaria.

Abdomen - Dull pains in right lobe of liver with sour belchings. Retraction of umbilicus. Rumbling, flatus, pain waking him in night.

Back - Back so painful, can hardly turn in bed, cannot sit up (better from Macro., Bry., Nux-v). Dull pain in

whole dorsal region, extending to left hypochondrium. Constant lumbar and sacral pain, worse stooping or walking.

Ears - Drawing pain deep in left ear.

Face - Moist freckles in face, head and hands.

Food - Appetite greatly increased, woke with hunger at 4 a.m. Loss of appetite.

Head - Dull headache with numb, prickly feeling in head, face and hands, worse head. Dull, frontal headache with nausea. Right side headache, morning.

Limbs - Aching, dull pains in arms and legs. Fine drawing rheumatic pains in left fingers, morning. Drawing pains in right ankle.

Modalities - Worse moving, walking, stooping. Worse 6 a.m., 4 a.m., 3 p.m.

Mouth - **Tongue yellow, coated at the root.** Taste is coppery, slimy, sweet, slimy, bitter, rough. Boring and sharp pain in right lower molars.

Rectum - Rectum feels sore, protruded feeling after stool.

Stomach - Sour stomach. Nausea and distress after riding in cold air. Burning distress in epigastrium. Hard sickening pains in epigastric and umbilical region, awaking him at night. Sinking in epigastrium. **Frequent nausea** with dull, frontal headache. Sickening pains.

Stool - Loose stools, bilious with tenesmus and straining, loose without tenesmus. Tenesmus followed by diarrhea stool. Mushy stool with burning at anus and tenesmus. Black stools, dry lumps.

COMMENTS - Allen mentioned **"Tongue coated yellow at root.** Loss of appetite for breakfast and dinner. Frequent nausea with the dull frontal headache."

RELATIONS - **Antidoted by:** Macro., Bry., Nux-v. (lumbago). **Compare:** (1) Waking in night hungry, Ign., Lyc. (2) Black stools, Lept.

REFERENCES - Boericke. Clarke.

***OVARY GLAND

(Oophorinum)

PHARMACY-ov. ovar. Ovary gland. Oophorinum. Ovininum. Ovarian extract. A sarcode. Trituration of expressed juice of ovary gland of sheep or cow. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne, rosacea. Hormonal, imbalance. **Hot flushings.** Infantile, genitalis. Infertility. **Menopause.** Menstrual, disorders. Nervousness. Oophorectomy. Ovaries, disorders. Ovaries, cysts. Ovaries, tumors. Prurigo. Seborrhea. Sexual, weakness.

HOMEOPATHIC - Ov. has been used with much success in cases of suffering following excision of the ovaries (Sep.) and for the

menopausal sufferings of women. Clarke had good results with it in such cases in the lower triturations.

Ov. has been suggested as a remedy in ovarian cysts. **Menopausal disturbances** in general. Cutaneous disorders and acne rosacea. Prurigo.

Female - Menses are frequent, too early. Menses are clotted, coagulated, copious. Menses of short duration. Infertility. Hot flashes. Menopause. Infantile genitalis.

COMMENTS - Characteristic amelioration from the menses, all symptoms better during menses (Lach., Zinc.). Generally associated with ovarian conditions, often after removal of ovaries (Staph., Phos.). Ovarian cysts (Thuj., Sil.), when nothing else works. Useful for menopausal symptoms, particularly hot flashes (Sep., Puls., Thuj.).

Severe hormonal acne (Sep., Puls., Thuj.). Spacey. Indecision, difficulty deciding who they are, about changing careers, about health.

E. Saalfeld, in view of Landau's observations on the effect of Ov. on the nervous sufferings of women at menopause, gave Ov. to women suffering from acne rosacea and other skin disorders of menopause.

A woman, 20, after a double oophorectomy, had lichen-like eczema. This was relieved by Ov. as well as the accompanying nervous symptoms and adiposity.

Saalfeld also obtained good results in some non-menopausal cases, including acne and seborrhea in chlorotic women. He had a case of prurigo that had lasted from childhood in a woman of 26. In this case, the itching was better for a short time after the period.

RELATIONS - **Compare:** (1) Orchitinum, Testicular extract - after ovariectomy, sexual weakness, senile decay.

REFERENCES - Boericke. Clarke. Murphy.

***OVI GALLINAE PELLICULA

(Egg-shell Membrane)

PHARMACY - ovi-g-p. Ovi gallinae pellicula. Egg shell membrane. Membrane of the shell of a hen's egg. The

fresh membrane is triturated in 95% alcohol, allowed to digest several days and then potentized (Swan).

Historical dose: Trituration and all potencies.

CLINICAL - Amenorrhea. Backache. Catarrh. Coryza. Debility. Heart, oppression. Hip, pain. Leucorrhea. Menstruation, irregular. Ovaries, pains. Post-nasal catarrh. Pruritus vulvae. Throat, sore. Uterus, displacements, retroverted. Vertebra, pain. Vulva, soreness.

HOMEOPATHIC - Historically, egg shells were used powdered, fresh, or roasted, in the treatment of oxyuris vermicularis. Swan prepared the membrane. As an ovarian product, it might be expected that all parts of the egg should have an action on the ovaries, and that eggs would have a stimulating effect on the sexual functions. The provings confirmed this relation.

Sudden onset and ceasing. Sudden pains. Bearing-down sensation. Pushing and rushing feeling in womb, as if blood might rush out in torrents. Sensation as if something turned over inside.

Debility. Heat in sacrum, the rest of the body being cool. Pain in heart and left ovary. Backache and pain in left hip. Intolerance of bands on wrists, arms, waist, etc. Jerkings on going to sleep and in sleep.

Causations - Over-exertion. Strain.

Modalities - Dyspnea better bending backward, jarring or beating breast. Worse by movement, reaching, lifting arms, descending stairs, over-exerting. Worse pressure and touch, pressure of clothing, at full moon. Worse before, during and after menses, though some symptoms were better when flow appeared.

COMMENTS - This preparation was made by Swan. He noted that it has an ancient reputation for "immoderate flux of the menses" (Calc.) and for nocturnal bedwetting.

The first prover was a young woman, a patient of J. C. Boardman, who was known to be unable to bear any extra exertion, but the details of this were not known until after she had taken the first dose of the Ovi-g-p. 100,000c sent by Swan.

Some years before, she had felt something "give way" in the groin while shoveling snow, bringing on a left ovarian pain, extending down the left limb. The trouble was suddenly removed after the dose. The sensitiveness to exertion never returned, though the dose created much disturbance of the generative functions before it had finished its action.

The symptoms of a second prover, a married woman who took the Ovi-g-p. 30c, confirmed the symptoms experienced by the first. This prover had also hemorrhage from the rectum, incontinence of urine while sneezing or coughing, and post-nasal catarrh.

Yingling contributed the case of H. E., 42, blonde, who had a dull, hard, heavy aching in region of heart, generally about apex, extending at times to left ovarian region.

Occasionally a cutting which extended to base of heart and prevented breathing, after the cutting a sensation as if something went "thud," after which pain seemed to recommence at apex. At times, heavy aching in base of heart, which made breathing very difficult. Only bending backward alleviated respiration.

Ovi-g-p. (a preparation of Fincke's) was given, one dose, dry on the tongue. In a very few minutes the pain was all gone. "Feels splendidly since taking the remedy." Without knowing what it was, said she had "a taste of fresh eggs in the mouth since taking the powder."

RELATIONS - Compare: (1) Calc., Naja. (2) Ova tosta - Tosta preparata, Roastedegg-shells. Calc-o-t. - has leucorrhea and backache. A feeling as if the spine were broken and wired or tied together with a string. Pain of cancer. Warts. (3) Egg vaccine for asthma. Much interest is shown in Dr. Fritz Talbot's method to cure one form of asthma in children by the use of egg vaccine. Asthma due to susceptibility of the protein substance in eggs can be cured by immunizing against egg poisons by repeated doses of egg white. After the skin has been cleansed with soap and alcohol the egg-white is rubbed into a slight scratch.

REFERENCES - Boericke. Clarke.

***OXALICUM ACIDUM

(Oxalic Acid)

PHARMACY - ox-ac. Oxalicum acidum. Oxalic acid. Sorrel acid. Hydrogen oxalate. Trituration. Tincture.

Historical dose: All potencies.

CLINICAL - **Allergies.** Angina, pectoris. **Aphonia.** **Backaches.** Bedwetting. Chest, disorders. Cholera, infantum. Convulsion. Deltoid, rheumatism. **Dyspnea.** Eyes, disorders. Gastrodynia. Gout. Gravel. Hernias. **Hives.** Indigestion. **Kidney, stones.** Meningitis. Myelitis. Nails, blue. **Neuralgias.** **Neurasthenia.** Nose, disorders. Numbness. **Oxaluria.** **Pains, severe.** Paralysis. Pregnancy, sickness. Side, pain. Spasms. **Spernuitic cord, pain.** Stomach, disorders. Tetanus. Testes, pains. Tongue, disorders. Tuberculosis. Urine, abnormal. Voice, altered.

HOMEOPATHIC - Although certain oxalates are constant constituents of vegetable food and of the human body, the acid itself is a violent poison when taken internally, producing gastro-enteritis, motor paralysis,

collapse, stupor and death.

If Op. is the painless remedy, Ox-ac. may be considered its antithesis. It causes the **most excruciating pains** beyond description, which are all worse when the patient thinks of them.

Thinking of pains and conditions will bring them on when they are not actually present. Symptoms are worse by touch (small spots on head), slightest touch causes excruciating pain. Worse motion **and thinking of pains**.

Neuralgias. Excruciating pains like lightning in streaks, burning in spots. **Violent pains in spots** (Kali-bi.).

Rheumatism of left side. Periodical disorders. **Periodical remissions**.

Neurasthenia. Weak, cold, livid and numb all over, worse lower limbs. Influences the spinal cord and produces motor

Oxalicum acidum

paralysis. Paralysis of the left side from spinal meningitis.

Spasmodic symptoms of throat and chest. **Angina pectoris, sharp, sharp pain in left lung coming on suddenly**, depriving of breath. Tuberculosis. **Severe back and kidney pains. Kidney stones**.

After eating pains at navel, colic, rumbling in abdomen, urging to stool, weakness. Pain in stomach, better from eating. Gnawing in stomach better from soup. **Cannot eat strawberries, severe allergies**. Sugar, coffee and wine disagree. Worse from shaving.

MIND - Exhilarated, quicker thought and action. Nervous and sleepless. **Symptoms worse by thinking of them**, thinking of the conditions will bring them on when they are not actually present.

Abdomen - Stitching pains in the liver, better deep breathing. Burning in small spots in abdomen. Pain in upper part of abdomen after eating, with much flatulence. Chronic inflammation of bowels. Colic about the navel or involuntary muddy brown stools better lying. Flatus passes with difficulty. Fainting and vomiting during stool.

Back - Numb pricking in back. **Backaches**, feels numb. Back feels too weak to hold the body. Cold creeps up spine.

Chest - Chest fixed. Sharp pain through lower region of left lung, extending down to epigastrium. Left lung painful.

Eyes - Severe pain in eyes, feel expanded. **Hyperesthesia of retina**. Small, and especially linear objects, appear larger and more distant than they are. Sight vanishes with the nosebleed.

Face - Pale, cold, livid. Feeling of heat.

Food - **Cannot eat strawberries, severe allergies**. Sugar, coffee and wine disagree.

Head - Headache, before and during stool. Band like sensation about the head, as of a screw behind each ear, better after stool. Sense of heat. Numb pricking in occiput. Sore tender spot on scalp.

Heart - Precordial pains which dart to the left shoulder. **Angina pectoris, sharp, sharp pain in left lung coming on suddenly**, depriving of breath. Palpitations and dyspnea in organic heart disease. worse when thinking of it. Palpitations worse lying down. Pulse feeble. Beats of heart intermit when thinking of it. Aortic insufficiency. Fluttering in heart. Heart symptoms alternate with aphonia.

Kidneys - **Severe kidney pains. Kidney stones**. Must urinate when thinking of it. Frequent and copious urination. Oxaluria. Burning in urethra and pain in glans when urinating.

Limbs - Multiple sclerosis. Myelitis. Muscular prostration. Numb, tingling. Numbness extends from shoulders to fingertips. Lower limbs blue, cold insensible. Weak trembling, hands and feet. Hands cold as if dead. Drawing and **sharp pains** shooting down limbs. Pains start from spine and extend through limbs. Sharp pains in various parts, jerking pains. Wrist painful, as if sprained (Ulm.). Pain in fleshy part of thumb (right).

Liver - Stitches in liver.

Lungs - Spasmodic breathing with constriction of larynx and chest. **Dyspnea, short, jerking inspirations**. Burning sensation from throat down. **Left lung painful. Hoarseness**. Paralysis of the tensors of vocal cord. **Aphonia**.

Male - Seminal vesiculitis. **Neuralgic pains in spermatic cord**, worse from slightest motion. Testes, throb or feel crushed. Testicles feel contused and heavy.

Modalities - Better after stools. Change of position helps pain in back. **Worse thinking of symptoms**. Worse from light, mental exertion, motion, **left side**, slightest touch, shaving, cold. **Worse from strawberries**, sour fruits, grapes. Worse evening, night and early morning. Worse from being aroused about 3 a.m. with gastric and abdominal pain. Lying down causes swimming sensation.

Mouth - Sour taste. Belchings, with difficult swallowing.

Rectum - Diarrhea from coffee.

Sensations - Sensation as if all blood had left the brain. As if blood in head was coursing upward and outward. As from a screw behind each ear. Hypogastrium as if bound. Back as if broken or bruised. Wrist as if sprained.

Hands as if dead. Jerking pains

like short stitches, confined to small spots, lasting only a few seconds. Sensation as from chafing during shaving.

Skin - Sensitive, soreness, smarting, worse shaving. Mottled, marbled in circular patches. Perspires easily.

Stomach - Emptiness with gnawing, compelling one to eat. Burning pain goes upwards, worse slightest touch, sugar. **Cannot eat strawberries.** Violent pain in epigastrium, discharge of flatus relieves. Gastralgia, heartburn, sensation of coldness below epigastrium. Bitter and sour eructation, worse at night.

Throat - Hoarseness with cardiac derangements. Voice altered. Low voice. Nervous aphonia (Coca, Hydrac.). Aphonia from paralysis of vocal cords.

Vertigo - Confusion and vertigo. Vertigo, swimming sensation on lying down, while looking out of window.

COMMENTS - Ox-ac., the chief constituent of Sorrel (Rumx-a.) and Wood Sorrel (Oxal.), exists in plants that are ordinarily deemed anti-scorbutic and are remarkable for the grateful acidity of their herbage.

Ox-ac. is said to enter largely into the inspissated juice of the Clover (Trif-p.) which formed Thomson's "Cancer plaster," and which is strongly escharotic.

Inspissated solutions of sorrel have been used successfully as local applications for epithelioma and with a solution of Ox-ac. and of Tannic acid, applied locally. With a solution of 5 grains to 3 ounces of water. Cooper removed troublesome small nevi in infants upon the face and elsewhere, using it for weeks or even months. Cooper removed a large patch of erythematous lupus on the cheek. From this it would appear, taking into account that Ox-ac. produces wart-like growths, it may have a beneficial influence, locally and probably internally as well, upon epithelial proliferations of the cuticle.

In an interesting study of Ox-ac., J. W. Ellis cited a fatal case of poisoning recorded by Boericke through exposure of the hands to a saturated solution used for chemical purposes.

The symptoms were intense pains in head, hyperesthesia, especially to light. Spasms of pain down limbs, along throat muscles and through spermatic cord. Sensitive spots on spine.

Excruciating pain in lower back and loss of power in the lower limbs shows an unmistakable action on the spinal cord and its meninges. These symptoms are better seen in less severe cases of poisoning. In animals poisoned with Ox-ac. the first symptom is stiffness of hind limbs. .

Farrington summed up the indications of Ox-ac. in spinal affections, including weak loins, hips, legs, numb back, numb limbs. Limbs blue and cold, weak and numb, worse going up stairs. Limbs stiff, paroxysm of dyspnea (as in spinal meningitis). Pains in small spots, especially linear spots. Pains worse when thinking of them. Erections with dullness in occiput. Left-side rheumatism.

Sharp shooting pain in left lung and heart, extending down to epigastrium. In afternoon, stitches several times in left lung. Sharp, sharp pain in lower lobe of left lung, coming on so suddenly that it deprives him of breath for a few seconds. Sore sticking in chest extending back to between scapula.

Pleurisy, pneumonia, tuberculosis. The heart may be paralyzed, becomes flaccid or distended with blood. Angina pectoris. Coldness of surface, numbness. Mottled skin, blue nails. Generally left sided.

Sugar aggravates the stomach pain. Wine causes headache. Oxaluria, with backache, numbness. Frequent ineffectual urging to stool, preceded by a sick, distressing feeling from navel downwards, worse when thinking of it, worse from drinking coffee. Faintness and vomiting during stool. Pain in back better after stool.

John Moore reported the case of a sea captain who suffered from indigestion. Two years before Moore saw him he had to undergo an operation for strangulated hernia. Ever since he had been subject to pain in region of navel coming on two hours after eating, accompanied by much flatulence and bitter and sour belchings.

Pain worse in night, arousing the patient 3 a.m. and keeping him awake. Burning sensation from throat downwards to the region of the pain. The patient had always had a weak digestion and had met with many severe accidents at sea.

He was given Ox-ac. 3c, two drops, an hour after meals. He was a little better the first night and after that slept the night through and said he had not had so much comfort for years.

Bedwetting has been cured with Ox-ac. 6c in a blonde boy of six. The guiding symptom was "Sharp shooting pain in left chest, close to sternum and parallel to it."

c. Walker told Clarke of a case of his in which the patient, an elderly, gouty man, was suddenly seized with congestion of spinal meninges with great coldness, blueness and numbness with complete prostration of strength. Ox-ac. 6c rapidly cured.

A patient of Clarke who used Ox-ac. in his work suffered from "Rheumatism of left side. Starting on falling asleep. When actually at work, acidity."

W. M. Butler gave great relief with Ox-ac. 3c. in a case of paraplegia, affecting first the right then the left leg of a year's duration in an American woman, mother of four children.

In a few weeks the motor symptoms were better than the sensory. Sensation to heat and cold was restored,

general tactile sensibility was improved. Some control was gained over bladder and rectum.

Hale cured a case of palpitation with action of heart irregular in force and rhythm, alternating with aphonia with Ox-ac. 6c. It was a favorite remedy with S. A. Jones in cardiac trouble, occurring in highly "nervous" patients. Ellis suggested that Ox-ac. corresponds to many cases of neurasthenia.

RELATIONS - Antidoted by: Carbonates of lime and magnesia. Lime water, antidote to poisoning of Ox-ac. Compare; (1) Ars., Colch., Arg-n., Pic-ac. (2) Cice., Chickpea - Lithiasis, jaundice, liver affections, diuretic. (3) Scol. - terrible pains in back and loins, extending down limbs, return periodically, commencing in head to toes. Angina pectoris. Inflammation, pain and gangrene. Pustules and abscesses. (4) Caes. - Pain in lumbar region and testicle. Headache, darting through temples. Diarrhea and colic. Languor. (5) Kali-ox. (6) In cholera infantum, Ars., Ip., Verat. (7) In gastralgia, Colch. (8) In spinal disease, Pic-ac., Arg-m., Ph-ac. (9) Induration of testicles. Puls. (10) Headache worse from wine, Zinc.

***OXALIS ACETOSELLA

(Wood Sorrel)

PHARMACY - oxal. Oxalis acetosella. Wood sorrel. N. O. Geraniaceae. Great Britain. **Historical dose:** Tincture and all potencies.

HERBAL - Diuretic, refrigerant. Reputed of value in febrile diseases, urinary affections, catarrh, and hemorrhages. The herb may be infused with water or boiled in milk and administered freely, although excess should be guarded against.

Joseph Miller said, "The juice, when clarified is a fine red color and makes a very agreeable syrup."

RELATIONS - Compare: Ox-ac. Rumx-a.

REFERENCES - Potter.

***OXYDENDRON ARBOREUM

(Sorrel-tree)

PHARMACY - oxyd. Oxydendron arboreum. Sorrel-tree. Sour-wood. Elk-tree. Andromeda arborea. N. O. Ericaceae, tribe Andromedee. Rich woods of the Alleghenies. Tincture of leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Ascites. Bladder stones. Dropsy. Prostatic enlargement.

HOMEOPATHIC - Oxyd. is the only species of its genus. It is an unproved remedy for dropsy, ascites and anasarca. Deranged portal circulation. Prostatic enlargement. Suppressed urine. Bladder stones. Irritation of neck of bladder.

COMMENTS - M. E. Douglass treated Mrs. H. for general dropsy, ascites and anasarca, which dated from an attack of measles treated with ice-drinks and ice-applications seven months before.

When Douglass saw her, the urine was nearly suppressed, but contained very little albumen. Great difficulty of breathing even when sitting, lying down impossible. Had to sit in one chair with feet in another. Menses suppressed.

After the failure of Apoc. and several carefully chosen medicines, the legs having burst in several places, Douglass was about to tap the abdomen, but before doing so put Oxyd. 3x in a tumbler of water and gave three teaspoonfuls every three hours.

In forty eight hours the breathing was better and urine increased. Oxyd. was continued (with the exception of three days during which Rhus-t. was given to combat erysipelas which had set in on left leg).

On the tenth day, the patient lay down on the bed and slept for three hours. Appetite increased, and in two months she was quite free from dropsy and felt perfectly well though much emaciated.

RELATIONS - Compare: (1) Ceref. - dropsy, Bright's disease, cystitis.

REFERENCES - Boericke. Clarke. Phatak.

***OXYGENIUM

(Oxygen)

PHARMACY - oxyg. Oxygenium. Oxygen. Ozonum. Nascent Oxygen. Oxygen including ozone, which is nascent oxygen. Oxygen (At. Wt. 16). Dilutions of distilled water charged with the gas. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Cancer. Canker, sores. Coryza. Cough. Diabetes. Influenza. Morphine, poisoning. Mouth, sores. Strychnine, poisoning. Whooping cough.

HOMEOPATHIC - Oxyg. is said to liberate oxygen in nascent state in the tissues when it is taken internally, diluted with five or six parts of water. Undiluted, its taste is disagreeably metallic, though it can be used as a

gargle without inconvenience. Diluted, it has no taste at all.

When taken as directed in doses of a tablespoonful with six of water it sometimes causes relaxation of the bowels followed by constipation.

Clarke said it set up all the symptoms of a common cold. Clarke found it of great value as an anti-septic lotion and application, and as a gargle in cases of sore throat. It has been known to stop the irritation of a raw throat, when ushering in a cold, from going further either up or down.

In cases of gonorrhea. Oxyg. renders the urine anti-septic, supplying an anti-septic lotion from within without interfering with the action of a specific homeopathic remedy.

Clarke gave it in a number of cases of cancer, and obtained favorable temporary results in some. Inhalations of oxygen have palliated some late cases of cancer, producing profuse discharges from the ulcerating mass of tumor with reduction of its growth, but no cure followed and death supervened.

Abdomen - Great flatulence, passing large quantities at stool.

Back - Excessive pains in whole sacral region, apparently in articulations, especially a sensation of tiredness all through pelvic viscera, even in perineum.

Causations - Morphine. Strychnine.

Chest - Bursting sensation in chest. Suffocating feeling in chest, tendency to breathe slowly. Tightness under sternum, worse bringing shoulders forward.

Eyes - Lancinating, paroxysmal pain in right eyeball, a little to left of pupil. Occasional rush of pain, filling whole right eyeball and extending into right temple, which then became hot. Tingling of conjunctive and skin of face.

Face - Tingling of skin of face. Rawness in throat.

Head - Dull frontal headache, worse in spot over left eye. Headache in outer half of right eyebrow, pain still in frontal region. Pain in left temple, which feels cold to touch. Continued sweat on scalp.

Limbs - Thighs and legs as if overworked, excessively fatigued. Eruption of pimples in the fold of right side of buttocks, near anus, becoming very sore and seemingly like blisters, as skin rubbed off it was left very sore. Itching of skin of metacarpal end of first phalanx of left index finger, no redness of eruption.

Lungs - Irritation of respiratory tract as when recovering from attack of influenza. Violent irritating cough and sneezing, followed by rawness in throat and air passages. Hoarseness and hard, shaking, tearing cough from tickling under sternum in night, worse lying either side, better lying on back with profuse, lumpy, tasteless whitish sputa. The sputa occasionally yellow, purulent. Dry, hacking cough, 2 to 5 a.m. Cough causes hawking, blowing nose, and a bursting sensation in chest.

Male - Fine stinging rash on right side of scrotum, lasting one day.

Mouth - Canker sores in mouth and cheeks.

Nose - Much indurated mucus in nose, necessitating frequent picking in morning, blowing out of lumps, generally tough, opaque, whitish yellow. Sneezes with the cough.

Perspiration - Sweat all over and headache between eyes. Sweat on scalp and slight moisture over body.

Rectum - Flatus seems to accumulate in rectum, causes desire for stool and fears to pass flatus lest stool should also pass.

Skin - Tingling of skin of face and conjunctive.

Throat - Rawness in throat. Irritation of fauces and glottis. Slight hoarseness, dryness of throat towards evening dryness increased around rim of glottis, at midnight woke with choking, burning dryness of glottis and upper larynx, no thirst. Aphonia with difficulty of controlling voice.

COMMENTS - Oxyg. is not chemically distinguishable from hydrogen peroxide, but it has none of the disagreeable features of that substance; it does not bleach articles it may touch or cause effervescence.

A cure of diabetes with large doses of Oxyg. is on record and many cases of whooping cough have been cured with inhalations of ozone. Dilute Oxydol is a useful preparation as a mouth wash in canker sores.

D. T. Playfair cured a desperate cases of morphine poisoning (30 grains Morph, had been taken) in a young woman of 37 with inhalation of oxygen kept up for ten hours. All the usual antidotes had been given before without avail. The patient was entirely well in twenty-four hours.

In one case, an elderly working class woman had a large fungating cancer of the left breast. Oxyg. was given internally and applied externally. It caused excessive discharge with corresponding reduction of the tumor.

After several weeks the patient's legs suddenly swelled, rapidly increasing, and she sank, the tumor had at least three-quarters disappeared. The effect of the Oxyg. was probably to liberate the disease elements too rapidly for the organism to eliminate them, as Dr. Cooper suggested in his account of Orni.

Oxyg. 1,000c cured a case of cough from dryness in upper larynx and constant tickling in throat-pit. Hard, shaking cough causing soreness in epigastric region. Expectoration with every cough, thick, lumpy, tasteless. Oxyg. 100,000c cured a cough excited by tickling in throat and causing soreness of chest, 2 to 3 a.m., better lying on back. In another case, Oxyg. 100,000c cured a case in which the patient was passing quantities of

uric acid like ruby sand.

RELATIONS - Antidote to: Morphine and strychnine poisoning. Antidotes, Camph. **Compare:** Ozone. Chr-ac., Kali-bi., Kali-chl., Kali-perm., Osm., and oxidizing agents generally, Chlor., Electr.

REFERENCES - Clarke. Grimmer. Mur- Phy.

***OXYTROPIS LAMBERTI

(Loco-weed)

PHARMACY - oxyt. Oxytropis lamberti. Locoweed. Oxytropis campestris. Rattle-weed. Astragalus campestris. N. O. Leguminose. Papilionoideae. Tincture of fresh plant without the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Amblyopia. Apathy. Belch- ings. Bladder, irritability. Coughs. Delirium. **Depression.** Fevers. Impotence. Locomotor ataxia. Mania. Ovary, pain. Paralysis. Rheumatism. Spermatic cord. Sphincters, relaxation. **Staggering, gait.** Testicles, pain. Vertigo.

HOMEOPATHIC - The "Crazy-weed" or "Loco-weed" is of Spanish origin and has been variously identified by Gray as Astragalus legum, by others as Astragalus mollisimus, and by W. S. Gee, who made the proving, as Oxytropis Lamberti.

In Gee's proving, the tincture and potencies from 1x to 30x were used. A number of mind and brain symptoms were produced including despondency, forgetfulness, a feeling as if consciousness would be lost, fullness in the head and instability standing. There were pains both in testes and ovaries, and one male prover, naturally passionate, became impotent.

W. D. Gentry in June. 1895, sent Boericke & Tafel specimens of Oxyt. and as this firm is extremely careful about the botany of the plants they make their tinctures from, Gentry made these remarks concerning the plants he sent:

"My attention was first called to this plant last winter during January. Soon after my arrival on the territory, as it was almost the only green thing showing itself above the snow. Which covered the ground at that time for two or three days.

"Some cattle had been eating the weed and as I approached them they tried to move away, but in spite of their efforts they backed towards me and in their efforts to escape made some ludicrous maneuvers. I observed them closely for more than an hour and was reminded most forcibly by their actions of the symptoms of locomotor ataxia."

Gentry's observation of loco-disease in winter bears out what is said by other writers, namely, that it is only in winter, when food is scanty, that animals can be induced to commence eating the weed and then they cannot leave off.

Gentry made provings of the tincture of the whole plant and seeds on three persons. Two provers had "symptoms worse when thinking of them." They had "pleasant intoxicated feelings."

Both Gentry's and Gee's provers had well- marked pains in the eyes and disturbance of vision and Gentry's had "numb, pithy or woody feeling about and on the spine," and "loss of power to control movements of limbs." Marked action on the nervous system producing uncertain, staggering or backward gait. Staggering gait. Reflexes lost. Trembling, sensation of emptiness. Vertigo. Congestion of spine and paralysis. Pains come and go quickly. Sphincters relaxed. Urging to urinate when thinking of it. **Great mental depression.**

MIND -All symptoms worse when thinking of them (Ox-ac.). Stimulation of mind, pleasant, intoxicated feeling (Gent.). Mono-maniac tendency. Cannot think or concentrate his thoughts. Very forgetful of familiar words and names. Indifference to all interests. **Depression.** Feeling as if he would lose consciousness. Disinclination to talk or study. Desires to be alone.

Abdomen - Full feeling in abdomen, causing short breathing after lying down in bed. Sharp, sharp pains all through abdomen. Sharp pain, running from right to left across bowels. Slight griping pain in region of umbilicus. Tenderness in epigastric region.

Back - Pain and stiffness of muscles of back of neck. Numb, pithy or woody feeling about and in the spine (Gent.).

Chest - A warm tingling sensation over left chest, just under skin. Oppression in lungs at 9 p.m.

Ears - Roaring sound in ears.

Eyes - Sight obscured, pupils contracted, do not respond to light. Paralysis of nerves and muscles of eyes.

Female - Pain in left ovary like something grasping or holding tightly.

Food - Loss of appetite. Appetite gradually increasing. Symptoms worse after eating, better after an hour.

Head - Full, warm feeling about head. Feeling of intoxication with loss of vision. Pain in maxillary bones and masseter muscles. Pressure on head, better after sleep.

Kidneys - Pain in kidneys, worse in right, with some tenderness (Berb.). Awoke with a heavy pain in kidneys.

Urging to urinate when thinking of it. **Profuse flow of urine.**

Limbs - Pain along ulnar nerve. Pains come and go quickly, but muscles remain sore and stiff. Numb feeling about spine. **Staggering gait.** Patellar tendon reflex lost. Loss of coordination.

Lungs - Short and quick breathing from the full feeling in abdomen. Hard breathing, as though lungs and bronchials were closing. Short cough with tightness across chest. A dry cough, from any little exercise.

Male - No desire or ability. Pain in testicles and along spermatic cord and down thighs.

Modalities - Better after sleep, on side lain on. Pains better when moving about, better in cool air. Worse thinking of symptoms, every other day. Worse immediately after eating, better an hour after.

Mouth - Mouth very dry, especially in morning. Metallic taste in mouth. Gumboil on left lower jaw, profuse saliva. Pain in left lower jaw.

Nose - Frequent, violent sneezing with fluent coryza. Fluent coryza, somewhat bloody. Nose very dry, scabs form in it. Nose feels as if sunburned, red and shining, especially on ale. Feeling of pressure over bridge of nose.

Rectum - Sphincter seems relaxed. Looseness of bowels. Stools slip from anus like **lumps of jelly**, mushy.

Sleep - Twitching of muscles on falling asleep. Wakes often. Restless, dreams of quarrel. Dreamed of spiders, bugs, of swimming in water. Dreams of a pleasant or lascivious nature. On rising feels sad, weary, despondent.

Stomach - Belchings with colicky pains. Belchings, as after taking soda-water with colicky pains. Stomach cold during the chill.

Temperature - Chill lasted until 2 p-m., then disappeared. As chill passes off a smarting in throat and a feeling as though lungs and bronchials would close up, making breathing very difficult. No thirst in either stage.

Throat - Throat dry and sore. Slight inflammation of pharynx, a "husky" feeling. Slight accumulation of mucus in larynx, hard to cough it up.

COMMENTS - The botanical articles in the Century Dictionary noted that Loco-weed is "any one of the several Leguminous plants producing the loco-disease in animals. Among them are Astragalus mollissimus and A. Hornii with several other species of the genus and Oxytropis Lamberti."

Henry's Botany reported that the foliage of "Oxytropis Lamberti is said to be injurious to cattle," so Dr. Gee was quite justified in taking this plant for the proving. The Astragali are very closely related to the Oxyt.

RELATIONS - Compare: (1) Astrag., Lath., Ox-ac., Bar-c. Loco plantisrich in Baryta. Lol. (2) Lath., Astra-me., Phys. and other Legumi- nose. (3) In symptoms worse when thinking of them, Ox-ac. (better, Camph.). (4) Pain in cord and tests, Ox-ac. (5) Pains right to left, Lyc. (6) better moving about, Rhus-t.

***OZONUM

(Ozone)

PHARMACY - ozone. Ozonum. Ozone. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphonia. Backaches. Belching. Cancer. Heartburn. Hoarseness. Keloids. Nausea. Night-sweats. Photophobia. Sinusitis. Vertigo. Vitiligo. Vomiting.

HOMEOPATHIC - The name ozone derives from the Greek, which means "to smell," "to spread an odor."

Back - Backache in lumbar region. Lancinating and cutting pains.

Eyes - Tired eyes. Burning and twitching. Photophobia.

Nose - Sinusitis. Thick nasal discharges. Sensitive to smell.

Perspiration - Night-sweats.

Skin - Dry skin. Darker coloration of different parts of skin. Vitiligo. Itching. Scars that itch. Keloids.

Sleep - Falling asleep difficult despite tiredness, with tension. Sleep unrefreshing, troubled, wakes up often, tosses and turns. Frequent yawning and tired eyes, better after nap.

Stomach - Heartburn. Sour belching. Nausea and vomiting.

Throat - Dry throat in heated rooms, better fresh air with open window. Feeling as if a lump of mucus in throat, worse swallowing. Tries to get the lump out by coughing and clearing my throat, but this doesn't help. Shriill voice. Hoarseness. Husky voice when singing. Aphonia.

Vertigo - Vertigo, tottering, staggering on rising from crouching, with nausea. Sensation of falling, worse bending down, better lying down.

RELATIONS - Compare: (1) Oxyg., Carb-v.

REFERENCES - Murphy. Schadde.

***PAEONIA OFFICINALIS

(Peony)

PHARMACY - paeon. Paeonia officinalis. Peony. N. O. Ranunculaceae. Tincture of the fresh root dug in spring;

in autumn the root is said to be inert. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. Anal, disorders. Bedsores. Breast, ulcerations. Ciliary, neuralgia. Coccyx, ulcer. Colic. **Fissure. Fistula.** Headaches. **Hemorrhoids.** Nausea. **Nightmares.** Perineum, ulcer. Sternum, pain. **Ulcers.** Varicose, veins. Vertigo. Vomiting.

HERBAL - Paeon, belongs to the great order of Ranunculaceae, which includes the aconites, acteas and hellebores.

HOMEOPATHIC - Chronic ulcers on lower parts of body, leg, foot toes, also breast, rectum. Skin is very sensitive, ulcerations from pressure of tight boots, bed sores etc. Shooting or splinter like pains. Rolls on floor from pain.

Congestion. Rush of blood to head. face. chest, burning heat and redness of eyes and face, burning, itching and swelling of anus, heat in throat in skin. Varicose veins. Anal varicose veins. Anal disorders such as **fissure, fistula, abscess and hemorrhoids.** Biting, itching, swelling, burning. Intolerable during and after stool. Oozing of moisture.

Both Dioscorides and Pliny cured **nightmares** with Paeon., the former with the seeds, the latter with the root. The dreams experienced by the provers were of a terrifying nature.

MIND - Ill-humor. Depression with irritability. Much affected by bad news. Excitement. Nervous. Apprehension in evening with anxiety. Anxious, afraid to talk with any one. Delirium.

Abdomen - Gripping pain. Pinching in muscles. Cutting in umbilical region. Sensitiveness, worse along transverse colon and epigastric region. Crawling in abdomen. Colic with diarrhea, transversely across upper abdomen. Borborygmi.

Back - Sticking in last cervical vertebra. Pinching or gripping. Boring in left scapula, better motion. Ulcers over sacrum, bedsores.

Breasts - Ulcer on lower part of left breast, consequent on abscess.

Chest - Heat in chest. Dull shooting from chest to back through the heart. Sticking pain in left chest. Cutting in left side when sitting bent over. Sharp pain in ribs above hepatic region in morning.

Ears - Jerking in cartilages. Sticking outward in right ear. Pinching behind right ear. One ear cold, the other hot. Itching in concha. Ringing, roaring in ears.

Eyes - Eyes red and watery. Dry and smarting, not easy to open. Burning, itching and dryness of eyes and lids. Conjunctivitis with lachrymation and contracted pupils. Inflammation of left ball with pain as if a grain of sand were under upper lid. Sticking in right upper lid towards inner canthus.

Face - Face red and puffy. Burning heat in face. Crawling in upper lip.

Female - External genitals swollen and painful.

Food - Appetite lost. Thirst.

Head - Rush of blood to head and face. Pain and confusion of head. Dullness, heaviness, vertigo and feeling of heat in head. Gnawing headache. Boring outward in right temple. Pain in occiput and in nape. Heaviness in occiput.

Heart - Pain beneath the heart as from anxiety. Dull shooting from front to back through heart. Pulse contracted.

Kidneys - Frequent and copious urination, disturbing sleep at night. Constriction in region of neck of bladder, so that urine passed only in droplets. Burning and scanty urine.

Limbs - Pain in wrist and fingers, knees and toes. Cramp in ulna at wrist. Weakness of legs, inhibiting walking. Jerking and tearing in limbs, then numbness. Weary pain in ankles when sitting. Pain in corns.

Modalities - Drinking water helps vertigo with nausea. Worse from touch or pressure, motion. Worse coming into warm room, night, **during stool.**

Mouth - Tongue red.

Nose - Stoppage of nose, in evening in morning in bed with dryness. Crawling in tip of nose.

Rectum - Diarrhea with burning and internal chilliness. Sudden, pasty diarrhea with faintness in abdomen. Excruciating pain at anus, continues long after stools, must rise and walk about. Biting, **itching in anus**, orifice swollen. Burning in anus, then internal chilliness. **Ulceration of anus and perineum, purple, covered with crusts.** Painful ulcer, oozing offensive moisture on perineum. **Analfissures. Analfistula. Hemorrhoids**, large and ulcerated.

Skin - Sensitive, painful. Sensitive ulcers on lower part of body. **Ulcers** from pressure, bedsores. Painful ulcer, oozing offensive moisture on perineum, near anus. Ulcers below coccyx, around sacrum, varicose veins. Itching, burning, as from nettles.

Sleep - Sleepiness all afternoon. Sleep is restless. Sleep unrefreshing, disturbed by many dreams. **Terrifying dreams, nightmares**, of the death of relatives.

Stomach - Anxious aching in epigastrium. Periodical sticking upward from middle of epigastric region. Burning

in epigastric region at night. Nausea. Vomiting and painful diarrhea.

Temperature - Shivering. Coldness of limbs with (burning) heat in face, back and chest. Rush of blood to head and face with sweat. Hot skin. Heat at night, disturbing sleep.

Throat - Biting posteriorly in palate in evening. Swallowing difficult. Scraping in throat. Sensation as if an acrid, burning vapor ascended throat. Heat extending to pharynx in throat and esophagus, worse hawking. Hawking caused by tenacious mucus in throat.

Vertigo - Vertigo when moving. Vertigo on every motion in a warm room. Vertigo with constant reeling and staggering.

COMMENTS - "Small ulcers on perineum near anus that constantly oozes very offensive moisture, painful for eight days." This symptom has been expanded by clinical observation, principally Ozanam's, into ulceration in general, ulcers from pressure, as bedsores and from ill-fitting boots.

"Sensation of splinter sticking in skin of right great toe when touched and violent pain as from pressure in left little toe." Ulcers are the seat of severe shooting pains. Tissues sensitive to pressure and injury, sensitive mind (Hell.).

"Gripping pain in the abdomen, preceded and especially followed, by anxiety, trembling of legs and arms as though he were frightened, he became apprehensive if any one spoke to him and unpleasant news affected him exceedingly."

Fainting with diarrhea, stools are followed by intense chilliness, occurring generally a few hours after he felt the worst. Bad pain in anus compelling him to walk the floor all night or to roll on the floor. Symptoms worse by motion, walking. The right side is more affected than the left.

RELATIONS - Antidoted by: Aloe., Rat. **Compare:** (1) Glech. - rectal symptom. (2) Harn., Sil., Aesc. (3) Rat. - great constriction of anus, stools forced with great effort. (4) in varicose veins, Ham. (5) In splinter sensation, anal fissures and abscess in ulcer, Nit-ac. (6) In splinter sensation and ulcers, Arg-n., Hep. (7) In ulcers, Hell., Hell-v., Sil. (8) In ulcers about the toes, M-aust. (9) In diarrhea, Sulph. (10) In effects of bad news, Gels.

REFERENCES - Boericke. Clarke. Phatak.

***PALLADIUM METALLICUM

(Palladium Metal)

PHARMACY-pall.Palladiummetallicum.Pal- ladiummetal. (Pd, At. Wt. 1065). Trituration. **Historical dose:** Tincture and all potencies.

CLINICAL - Constipation. Egotism. Eyelids, blisters. Flatulency. Headaches. Hysteria. Leucorrhea. Oophoritis. **Ovaries, disorders. Ovarian, tumors.** Sciatica. Sexual weakness. **Tumors.** Uterus, disorders. **Uterine, prolapse.** Warts.

HOMEOPATHIC - Palladium, one of the rare metals, was first separated from native platinum by Wollaston in 1803 and was named after the planet Pallas, which had been discovered just before that time by Olbers. The metal is closely associated with platinum and gold.

Hering, who made the first provings in 1850, said that platinum and palladium, both proved in dust form, showed such similarity in their effects that the question arose whether corresponding differences might be found. Subsequent clinical experience has done much to distinguish between these two remedies.

F. Aguilar noted that Pall, is indicated in gynecological conditions where the disease had its inception in the right ovary, the uterine prolapse and retroversion, sub-acute pelvic peritonitis and concomitant symptoms being secondary.

Pall, affects the ovaries, especially the right, the uterus and the mind. **Disorders of the right ovary**, attended with pains that are better from pressure. Chronic oophoritis.

Bruised soreness. Stitches, rheumatic pains, suddenly changing and often lasting but a short time. Pains fleeting, transient. Every step causes pain in groin. Motor weakness, averse to exercise. Undressing causes itching all over body.

MIND - Love of approbation. Seeks the good opinion of others and attaches great importance to them. Desires flattery. Haughty. Pride, easily offended. **Wounded pride** and fancied neglect. Effected profoundly by slight offenses, real or imaginary.

Irresolution in morning. Irritability, takes everything in bad part. Irritability and impatience from headache. Very impertinent. Tries to appear as amiable as possible, but is obstinate. Anger with trembling. Inclined to use violent language. Curses and swears (Anae.).

Weeping mood. **Keeps up brightly when in company**, much exhausted afterwards and pains aggravated. Excitement in company. Conversation aggravates. Desire for company, worse when alone.

Averse to mental exertion. Apprehension that something horrible will happen. Depressing news aggravates all symptoms. Ailments from bad news. Feels as if she were going crazy. Time passes too slowly. **Delusion that**

he is neglected, that she is not appreciated, that he has been insulted. Delusion had grown taller while walking. **Abdomen** - Soreness of abdomen, swelling in right groin. Hollowness in groins. Shooting pain from navel into breasts or pelvis, better after stools. Intestines feel strangulated. Sensation as if intestines were bitten off. Flatulency. Abdomen feels sore after menses. Pain in abdomen worse coughing and sneezing.

Back - Tired feeling in small of back. Frequent, painful spasm in muscles of right side of neck, especially morning. Painful drawing in neck, shoulders and down left arm. Pain in back and hips with coldness of limbs.

Breasts - Sharp, stitching pain in right breast near nipple, worse from deep inspiration.

Causations - Ailments from bad news.

Chest - Stitches in right side of chest, through to the back. Worse from taking a long breath, better when walking in the open air.

Eyes - Blue half-circles under eyes. Dryness and itching of eyes in evening, which is not better by rubbing. Sensation of dryness on the edges of the lids. Small watery blisters on edges of lower lids. Dull, heavy pain in and behind left eye. Pain around left eye, extending beyond right eyebrow. Pain in right eye, temple and ear. Pustule under right eyelids, worse touch.

Face - Sallow complexion, blue. Soreness and painfulness of the right corner of the mouth. Pain in right and left lower jaw. Itching pimples on the face, the nose, behind the ears, in facial hair. Slower growth of facial hair.

Female - Menses come on at full moon. Menstrual discharge while nursing. Glairy, yellow leucorrhea before and after menses. **Pain and swelling in region of right ovary. Ovarian tumors.** Ovarian pains, better pressure. **Uterine prolapse with retroversion.** Cutting pains in uterus, relieved after stool. Sub-acute pelvic peritonitis with the right-sided pain and backache, menorrhagia. Pelvis leaden heavy, worse standing. Shooting or burning pain in pelvis. Bearing-down pains, relieved by rubbing. Soreness and shooting pain from navel to breast.

Food - No desire for beer. Headache at dinner and after coffee.

Head - Headache, causing irritability and impatience. Headache, better fixing attention on it. Morning headache with weakness in back. **Pain across top of head from ear to ear**, worse after an evening's entertainment with irritability and sour belchings. Temporo-parietal neuralgia with pain in shoulder. Sensation as if head were swung from behind forward, as if brain were being shaken. Itching on sides of head.

Heart - Pain in region of heart. Heart pain with paralysis of left arm. Pressing deep in the left side of the chest periodical, as if in the heart.

Kidneys - Cutting pain in bladder, better stool. Pressure in bladder, as if very full, but little urine is passed. Dark urine with brick-dust sediment or coloring the vessel red. Muddy (not dark) urine, urine like water mixed with blood.

Limbs - Fleeting neuralgic pains in various parts of the body. Sciatica. Rheumatic pain in right shoulder, in right hip. Heavy and tired limbs. Tired feeling in small of back. Darting pains from toes to hips. Itching.

Lungs - Stitches in chest on taking a deep breath. Frequent hawking of small solid lumps that he must swallow. When ex

pectorating, sensation as if something were pushed into head. Abdominal pain is worse coughing and sneezing.

Male - Single stitches in urethra, extending down to corona glandis. Sensation as if testicles were bruised with pain in abdomen. In evening and at night no proper erection could be obtained.

Modalities - Better from diversion, touch, pressure, rubbing, after sleep, rest and stools. Sciatica, and colic are better from warmth (hot cloths). Worse from lively emotions, chagrin, social excitement, social functions. Worse standing, exertion.

Mouth - Tongue red in the middle (morning). Burning sensation on surface of tongue near tip. Tough mucus in mouth, slimy taste. Sensation as if upper incisors projecting. Left upper and outer incisor sensitive and feels like a foreign body.

Nose - Burning in nose with coryza, in evening. Painful pustule on point of nose, bleeds long after being squeezed. Blood' pustule on right cheek, near wing of nose. Abdominal pain worse when sneezing or coughing.

Rectum - Constipation, stools are hard, frequently whitish like chalk. Dull pains in rectum, as from too long retained stool without urging. Frequent soft stool. Diarrhea with very little pain, night and day.

Sensations - As if he had grown taller. As if she could not touch anything. As if head were swung from behind forward. As if brain were being shaken. As if neck becoming stiff. As if bladder was filled. As if uterus would prolapse. As if parts of groins would tear. As if testicles were bruised. As if heads of femurs were forced out of their sockets and expanded. As if hand shattered.

Skin - Itching all over after undressing. Itching and crawling as from fleas on different spots, back, arms, abdomen, thighs, ankles. Redness of knuckles, warts on knuckles.

Sleep - Great sleepiness in afternoon (3 p.m.) and early evening. Wakeful until 2 a.m. Starting in afternoon

sleep. Dreams every night of buildings, wide stairs, many rooms. Symptoms better by sleep.

Stomach - Nausea. Tasteless belchings, which do not relieve.

Temperature - Chilliness with cold hands and feet, with colic. Coldness of the limbs with pain in the back.

Throat - Tough mucus in throat, slimy taste. Glairy mucus from throat. Frequent hawking of small solid lumps, which he must swallow. Tickling (or sticking) as if a crumb of bread had lodged in throat. Sensation when swallowing as if something hanging near hyoid bone. Dryness in throat and on tongue without thirst.

Vertigo - Reels on coming into a room from exhaustion.

COMMENTS - Right-sided ovarian tumors (Thuj. for the left side). Uterine and ovarian disorders. Bearing down feeling, achiness. Uterine prolapse. "Headache across top of head from one ear to the other." Hering noted that the pains are fleeting, transient and hard to describe. Pressure relieves pains.

"Love of approbation." Easily hurt from slights, real or imaginary. "Wounded pride and fancied neglect." Depressed, weep easily (Puls.). Irritability, leading to violent expressions. Can curse and swear (Anae.). Better in society and worse after the party or entertainment.

Skinner cured a young woman who had excessive pain in the right ovary during the menses with Pall. The only relief she could get was by inducing her sister to sit on that region. This "better by pressure" distinguishes the pain of Pall, from the similar ovarian of Plat.

RELATIONS - Antidoted by: Chin, (diarrhea), Glon. and Bell, (headache). **Compare:** (1) Irid., Osm., Plat. (2) Right ovary, Apis, Graph.. Podo., Plat. (3) Left ovary, Arg-m. - feeling as if left ovary growing enormously large. Lach. - worse pressure. Lil-t., Cimic., Sulph. (4) Tired backache, Helon. (5) Hysteria introverted state of mind, Tarent. (6) Crumb in throat, Hep. (7) Pain in spleen, Cean. (Pall, at menses). **Complementary:** Arg-n., Helon., Lil-t., Apis. Plat.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***PALOONDO

(Gobernadora)

PHARMACY - palo. Paloondo. Gobernadora. Zy gophyllum tridentatum. Larrea mexicana. Creosote-bush. N. O. Zygophyllaceae. Northern Mexico, California and Texas. The tincture is prepared from the leaves and young branches. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. Anorexia. Bone, disorders. Colds. Influenza. Migraines. Nausea. Neuralgia. Osteoporosis. Rheumatism. Sinusitis.

HERBAL - Paloondo is a Mexican plant already familiar to the Aztecs. It grows in the dry territories of Northern Mexico, in California and in Texas. Dr. Willmar Schwabe introduced it into Europe.

Paloondo has been used for different illnesses affecting the locomotor system, especially for arthritic and rheumatic afflictions.

HOMEOPATHIC - Schutt proved the remedy in 1960 on two groups of pro vers, producing few symptoms of rheumatism. A clinical proving was first undertaken using 3x and 4x, for cases of muscle pain and polyarthritis with favorable results.

Palo, has allergic complaints, sneezing, face puffy on waking. Nasal allergic syndrome. Neurotic pains. At times, the pains are accompanied by vertigo. The pains are aggravated in the evening, on waking and after mental exertion. Nerve and rheumatic pains in the lower limbs and vertebral column. Growth dystrophy of the bones and cartilages. Bone dislocations, fractures and inflammations.

MIND - Irritable, extreme sensitivity to noise. Tired, stunned. Depressive or euphoric condition with excitability. Bad-tempered, but more often, euphoric to the point of hyperexcitability.

Female - Menses early and painful.

Food - Anorexia.

Head - Acute pains in the head. Drawing pains coming from the occiput and spreading across the top of the head to the eyes. Occipital neuritis.

Heart - Heartbeat irregular with extra systole.

Limbs - Feeling of lead weight in the legs. Sensation of cracking. Pricking sensation in the limbs. On waking, pains in the limbs and the back, better by moving. Iliac and sacral pain, worse by being seated or lying down, ameliorated by walking.

Modalities - Better from walking. Worse in the evening, after mental exertion, on waking.

Rectum - Foul smelling, constipation or diarrhea.

Skin - Redness with sensation of heat. Dryness of the skin with itching. Dry eczema.

Sleep - Dreams lively, especially in people who do not usually dream at all. Anguished dreams.

Stomach - Distention. Nausea, especially in morning. Cramping abdominal pains.

Temperature - All the pro vers experienced a febrile influenza-type condition. Shivering. as at the onset of

influenza.

RELATIONS - Compare: (1) Rhus-t. - Generalized stiffness with physical and cerebral restlessness. (2) Eup-per. - Generalized stiffness and sensation of cracking with pains between the bones. (3) Asar. (4) Ther. - Intolerance of the slightest noise.

REFERENCES - Julian. .

***PANCREATINUM

(Pancreas Extract)

PHARMACY - pancreat. Pancreatinum. Pancreas extract. Pancreatic glands of ox or sheep. Sarcod. Trituration. **Historical dose:** All potencies.

CLINICAL-Diabetes. Diarrhea. **Gout.** Hypoglycemia. Mumps. Pancreas, disease.

HOMEOPATHIC - Pancreat. has been used with success in conditions due to disease or faulty action of the pancreas on the analogy of thyroid and the other sarcodes. Pancreat. is a combination of several digestive enzymes.

Pancreas disease. Pancreatic diabetes. Hypoglycemia. **Atonic dyspepsia**, due to impaired secretion or defective composition of the digestive enzymes secreted. **Dyspepsia, when the power of digesting fatty and starchy food is deficient.** Acid dyspepsia, resulting from abnormal digestion of food.

Intestinal indigestion, pain an hour or more after eating. Indigestion of fats and starches. Indigestion of children who are fed chiefly upon milk and sweets, and starches. Lienteric diarrhea. Mumps.

COMMENTS - Burnett noted that Pancreat. is often of great service in gout.

RELATIONS - Compare: (1) In action on pancreas and salivary glands, Iris, Nux-v., Puls., Merc., Iod., Jab., Piloc.

REFERENCES - Boericke. Clarke.

***PANDANUS CONOIDEUS LAM

(Buah Merah)

PHARMACY - pand-c. Pandanus conoideus lam. Buah merah. Red fruit. Blood fruit. **Historical dose:** Tincture and all potencies.

CLINICAL - AIDS. Asthma. Baldness. Bone, cancer. Brain, cancer. Breast, cancer. Cachexia. Cancer. Cirrhosis. Cough. Cysts. Dengue fever. Diabetes mellitus. Fatigue. Gout. Heart, disease. Hepatitis. Hypertension. **ifpimune, problems.** Leukemia. Lymph, cancer. Osteoporosis. Parkinson's disease. Rheumatism. Sinusitis. Stamina. Stroke. Toxoplasmosis. Tumors. Uterine, cancer.

HERBAL - Buah Merah is grown only at the eastern portion of the Indonesian Islands, Papua, (east of Borneo and Bali). It is reported to be an effective tonic for the blood and immune system. The active substances are high in antioxidant and antiviral effects, proven to support the body's natural defenses in illness.

Useful to assist the healing process of multifarious diseases including cancer and tumors. Leukemia. Lymph, bone cancer, brain, liver, breast, uterine, and ovarian cancer, cysts. Lung spots in infants. Hypertension. Heart disease. Lung weakness. Stroke. Parkinson's disease. Epilepsy. Rheumatism and osteoporosis. Hepatitis and cirrhosis. Diabetes mellitus. Eye irritation, blindness. Sinusitis. Lack of stamina, emaciation. HIV, AIDS. Dengue fever. Toxoplasmosis. Baldness.

COMMENTS - People who took Buah merah were found to have much less incidences of HIV/AIDS, hepatitis, cancer, heart and hypertension diseases.

REFERENCES - Buttner. Murphy.

***PAPAYA VULGARIS

(Papaya Tree)

PHARMACY -papay. Papaya vulgaris. Carica Papaya. Papaw. N. O. Cucurbitaceae. A tincture is made of the milky juice of the green fruit of the "Papaw." **Historical dose:** Tincture and all potencies.

CLINICAL - Colds. Constipation. Cough. Dyspepsia. Eczema. Epithelioma. Headache. Itching. Nausea. Neuralgia. Numbness. Pimples. Toothache. Tumors. Vertigo. Warts.

HERBAL - The ripe fruit is refreshing and palatable, it is sometimes used as a sauce, the seeds are very similar to capers, it is sometimes preserved in sugar or boiled like turnips. The juice is used to remove freckles and is also a strong vermifuge. The leaves are used as a substitute for soap.

Papain is the dried, white, powdered, unripe juice of Papaw, a ferment, and strongly suggests pepsin in odor, taste and appearance. When the unripe fruit is pierced with a knife, a milky juice exudes which is collected in a basin and allowed to coagulate. This is dried in the sun and contains a proteolytic enzyme which acts as a neutral or alkaline solution, and is given for impaired digestion.

It is said to dissolve the fibrinous membrane in croup and diphtheria when a solution over the pharynx painted every five minutes. When injected into the circulation in large doses, it paralyses the heart. Glossal fissures and ulcerations, and particularly syphilitic ulcerations of the throat, mouth and tongue, are asserted to have yielded to alkaline solutions of papain.

Applied to the skin, it renders it softer and smoother, and appears to destroy the projections formed at certain points by a greater thickening of the epidermis. Hardened tissues, produces by irritation, etc. Warts, corns, chronic forms of scaly eczema. Cutaneous tubercles, epithelioma. Injected into indolent glandular tumors to promote their absorption.

It is not caustic or astringent, but has the virtue of dissolving muscular and connective tissue. The seeds possess an identical property, and will probably be found preferable for administration. It is likewise said to cause the destruction and expulsion of the tapeworm.

Catarrh of the stomach. Atonic and fermentative dyspepsia, with painful acid eructations, flatulence, and constipation. Digestive failure accompanying continued fevers. Stimulates the stomach in the beginning of convalescence, and in some cases increases the appetite and promotes absorption of the digested pabulum.

HOMEOPATHIC - Muscular debility. Languor and drowsiness. Dull feeling in morning on rising. Pains worse towards evening, better by rubbing. Loses flesh. Catches colds easily when riding, during menses. Nervous before and during menses.

MIND - Impatient. Unusually active, can study longer without weariness, likes to read. Unable to think quickly. Stupid, confused feeling. Could hardly trust herself to do anything during menses for fear of making mistakes. Forgetful. Listless, lacking in ambition. Wants to be alone. Dislikes to be talked to or to answer.

Back - Sore pain in point under left scapula.

Bruised pain in left side. Pain in region of kidney region, of left kidney, running around ilium.

Bladder - Tearing in bladder, with desire to urinate. Frequent desire to urinate. Irresistible desire at sound of running water, even in horse's throat when drinking. Straining with the first urinary effort in morning, with burning as if an obstruction were being overcome, which being removed, the urine passes easily. Burning in urethra during and after urination, with continuous desire. Urine increased, scanty. Less sediment than formerly.

Ears - Itching behind left ear.

Eyes - Prickling in eyes. Pain in eyeballs. Dry feeling in eyeballs. Inflammation of right lid, feeling as if a foreign substance were in it, preventing much reading by artificial light. Vision not as good as usual.

Face - Neuralgia on left side of face. **Female** - Itching on mons veneris. **Food** - Appetite diminished in morning. Thirst, but inability to drink cold water on account of toothache. Drinks much water.

Head - Headache towards evening. Headache after eating popcorn and candy. Headache worse bright light, warm air and motion, better cold air, rubbing, sleep. Pain involving eyeball, passing backward to occiput and nape, drawing head backward. Frontal pain. Piercing pain traveling like lightning from right side of head to right side of foot. Bruised feeling in left side. Soreness of parietal region with throbbing. Dullness. Fullness in evening. Itching greater, but dandruff less than usual.

Heart - Shooting pain in heart. Pulse slow and weak. Pulse 100, temperature 102.

Limbs - Numbness, prickling and sleepiness. Limbs go to sleep easily. Numbness, better walking. Trembling of lower limbs, with weakness of them. Prickling in lower limbs, but not in foot, with tingling. Right leg went to sleep when writing. Pain on ball of right foot under little toe, with swelling and with heat extending to toes. Itching on right ankle on going to bed. Itching forearms and anterior part of thighs, with diffused redness, worse warmth of bed. Rheumatic pain in left shoulder, left arm helpless. Numbness of right hand and fingers while asleep, especially little finger. Numbness of right ring finger, worse on outer side.

Lungs - Cough keeping him awake at night. Violent, sudden, spasmodic cough with easy expectoration and soreness of left lung. Shooting in lungs and around heart. Pain in left lung. Deep pain in upper lobe

Papaya vulgaris of left lung. Pain from left chest to left thigh and knee. Heavy pain, in left lung, extending through to back and becoming stabbing. Lungs feel tired and hot.

Male - Pain running from perineum to middle of penis as if a rough, jagged body forced its way out. Pain in left testicle, waking him at night. Instinct abnormally aroused. Erections towards morning. Erections, but no emissions, not long-lasting and not due to sexual thoughts. Emissions without lascivious dreams. Flaccid and lifeless. Functions depressed.

Mouth - Toothache in lower molars, with soreness, worse cold water. Tongue dry at night. Food tastes flat.

Nose - Nose stopped, worse left side. Thick discharge from nose watery, colorless, bland coryza.

Rectum - Irregular bowel movements. Constipation. First part large and hard, breaking into balls, later part mushy, with wind. Soft stool.

Skin - Itching all over body. Red, itching elevations, worse evening and warmth to bed, better scratching.

Itching eruption over right eye. Eruption in groins, bends of knees and right elbow, extending along flexor surface, and on right forearm and abdomen. Pimples on face and body. Red, sore, elevated points, like acne, on thighs. Pinkish erysipelatous swelling on dorsum of left great toe, with itching, better scratching or rubbing. Eruption like nettle-rash after scratching.

Sleep - Yawning and stretching. Drowsy, but cannot sleep. Disturbed, frequent waking. Heavy sleep. Horrible, vivid dreams, of shipwreck, drowning, being shot, fire.

Stomach - Faint for want of food, but food distresses stomach. Pain around waist. Tasteless eructations. Nausea after dinner.

Temperature - Chilly at night, in open air. Cold hands and feet, forefingers, with deadness, stoppage of circulation.

Throat - Pain in larynx. Hoarse in evening.

Vertigo - Vertigo and throbbing frontal headache with nausea.

COMMENTS - Psoric conditions, particularly when caused by suppression of an itch.

Digestive disorders causing great pain when food is taken. Digestive disorders of pregnancy, stimulating appropriation and assimilation, particularly when the digestion is seriously interfered with during the last three months of pregnancy.

***PARAFFINUM

(Purified Paraffin)

PHARMACY - paraf. Paraffinum. Purified paraffin. Obtained by distillation of wood peat bituminous coal petroleum and others. Trituration. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdomen, swelling. Breasts, disorders. **Constipation.** Diaphragmitis. Indigestion. Leucorrhea. Menorrhagia. Musca, volitantes. Spinal, pain. Spleen, pain. Umbilicus, pain. Uterus, disorders. Vertebrae, disorders. Vision, disorders.

HOMEOPATHIC - Paraffin as a generic term includes all those substances which have no affinity for sulphuric acid and cannot be destroyed by it, including petroleum.

Specifically, Paraffin is a tasteless, inodorous, fatty matter, which resists the action of acids and alkalis, obtained by the dry distillation of wood, peat, bituminous coal, petroleum, etc. In the distillation of petroleum, naphthalin is the first substance that comes off, paraffin the next.

The homeopaths of Rome found it serviceable in uterine and other troubles, particularly constipation.

Pains in the groins, stabbing in mons veneris, cutting pain from one iliac crest to the other. Leucorrhea, pruritus vulvae and other disturbances of the female generative system with pains. Uterine disorders.

Knife-like pains. Pains extend from one part to another and alternate. Pain in stomach alternates with pain in throat and spine. Aversion to tobacco, smoking causes pain in stomach. Stomach pain with palpitations. Constipation.

Abdomen - Pain in lower abdomen, extending to genitals, rectum and coccyx, better sitting.

Back - Pains in spine, extending into lumbar vertebra. Pains in spine as if it had been injured, as bad during rest as when in motion. Back pains are worse by bending. Drawing and stinging between the shoulders. Pains as if from fatigue in both loins.

Breasts - The nipple is painful on touching them, as if sore inside.

Chest - Chest pains as if compressed. Stinging in chest. Diaphragm, as if it was inflamed.

Ears - Roaring in right ear like rumbling of a mill wheel, afternoon. Gurgling in left ear like beating of pulse. Ringing in both ear, morning. Stinging and twisting in left ear.

Eyes - Vision dim, with black specks. Sensation as if there were fat on the eyes. Lids red.

Face - Itching in face as from urticaria, smooth red spots appear.

Female - Menses too late, black, abundant. Milky leucorrhea. Nipples pain when touched, as if sore inside. Stabbing pain in mons veneris. Very hot urine with burning pains in vulva.

Head - Left side of head and face suffer most, pains stinging and twisting. Pain as if a nail were driven in left side of vertex. Twisting in left ear.

Heart - Pulse weak, thready, increased in frequency.

Limbs - Pain in spine extending to inguinal region and in both loins, when ascending the stairs. Feeling of electric shocks in all joints. Wrenching pain in calves, extending into toes in joints. Feet swollen with tearing in ankles and soles.

Modalities - Better after sleep, rest. Better by supporting the part. The pains are worse bending over. Worse standing or walking (soon bring back the symptoms).

Mouth - Tearing, twisting pain in teeth down to lower jaw. Full of saliva, feels sticky, bitter taste.

Nose - Odor of cordials in nose. Nose moist, frequent desire to blow it, but without sneezing. Nosebleed, dark red.

Rectum - Frequent desire for stool. Chronic constipation with hemorrhoids and continual urging to stool without result. **Obstinate constipation in children** (Alum., Nyct.).

Skin - Frost bite. Burns, even of third degree with sloughing and sepsis; wash with sterile water and dry and spray with paraffin and cover with thin layer of cotton.

Sleep - Continued yawning, although the joints of the jaw are painful. Frequent gaping with great somnolence. Cannot keep awake and goes to sleep in her chair, her feet go to sleep. Sensual, lascivious dreams.

Stomach - Hungry all the time. Pain across stomach. Pain in stomach alternates with pain in throat and spine, extends to chest with belching. Fixed pain in left hypochondrium, as if parts were being twisted. Stomach pains with palpitations.

Teeth - Tearing in teeth. Stabbing pain in . one of the left lower molars. Twisting in teeth with stinging in ear. Twisting pain in left lower teeth and left temple, sleep impossible.

Temperature - Chill, heat, and sweat, frequently alternating. Chill, followed by dry heat with thirst, which is soon followed by sweat. Face and hands hot and red, hot sweat on upper part of body, especially forehead.

Throat - Dryness of throat, fauces as if dried up, but without thirst. Sense of suffocation in pharynx.

COMMENTS - Knife-like stabs, twisting, wrenching pains, stinging and twisting, electric pains. Pains extend from one part to another and alternate. Pain in the stomach alternates with pains in throat and spine.

Clarke recorded the case of Mrs. W., 37, mother of three children, who suffered since her last confinement, five years before, with bearing-down pains, excessive menses, and leucorrhea. Constant and violent indigestion with morning retching or vomiting.

Pain in back, shoulders and abdomen after, any food, however light. The pains, which "double her up" were worse on standing. Much thirst. Constipation with hemorrhoids. Constant desire to pass water.

After Murx., and *Alstonia constricta* had given some relief, the indigestion returned in full force. A few globules of Paraf. 30c were dissolved in water and a teaspoonful taken every two or three hours.

In a few days, all symptoms of indigestion were gone and did not return. Other symptoms were ameliorated. The menses, instead of recurring too soon, were delayed much beyond the normal time.

Paraf. also has a remarkable action in joints with nodules. Cooper saw swollen joints lessen considerably from its use as a liniment.

RELATIONS - Compare: (1) Napht., Petr., Eupi. (2) Desire to walk fast, Buff., Iod. (3) Uterine symptoms, Sep., Murx., Nat-m., Nat-s. (4) Intolerance of tight clothing, Lach.

REFERENCES - Boericke. Clarke.

***PARAQUAT

(Nitrogen Herbicide)

PHARMACY - paraq. Paraquat. Nitrogen herbicide (1,1'-dimethyl-4,4'-bipyridinium). **Historical dose:** All potencies.

CLINICAL - Abdominal pain. Coma. Convulsions. Diarrhea. Dyspnea. Eye, problems. Incoordination. Kidney, failure. Liver, problems. Lung, problems. Lung, scarring. **Nail, problems.** Nausea. Pulmonary, edema. Respiratory, **failure.** **Skin, problems.** Tachycardia. Vomiting.

HOMEOPATHIC - Paraquat is a quaternary nitrogen herbicide widely used for broadleaf weed control. It is a quick-acting, nonselective compound, that destroys green plant tissue on contact and by translocation within the plant. It is also used as a crop desiccant and defoliant, and as an aquatic herbicide.

Paraquat affects the lungs, heart, liver, kidneys, cornea, adrenal glands, skin, and digestive system. It causes skin and eye irritation and also has caused skin sensitization. Paraquat splashed in the eye can irritate, burn, and cause corneal damage and scarring of the eyes.

Direct contact with paraquat solutions or aerosol mists may cause skin burns, dermatitis, and damage to fingernails. After prolonged skin exposure, workers get damaged fingernails as indicated by discoloration, nail deformities, or loss of nails.

Effects due to high acute exposure to paraquat may include excitability and lung congestion, which in some cases leads to convulsions, incoordination, and death by respiratory failure.

If swallowed, burning of the mouth and throat often occurs, followed by gastrointestinal tract irritation, resulting in abdominal pain, loss of appetite, nausea, vomiting, and diarrhea. After a person ingests a large amount of paraquat, he or she is likely to immediately have pain and swelling of the mouth and throat.

The next signs of illness following ingestion are gastrointestinal symptoms, such as nausea, vomiting, abdominal pain, and diarrhea (which may become bloody). Severe gastrointestinal symptoms may result in dehydration, electrolyte abnormalities (not enough sodium and potassium in the body), and low blood pressure.

Ingestion of small to medium amounts of paraquat may lead to development of liver, kidney or heart failure, or lung scarring, within several days to several weeks. Ingestion of large amounts leads to pulmonary edema, lung scarring, respiratory failure, leading to possible death, heart injury, increased heart rate, confusion, seizures, or coma, within a few hours to a few days.

Other toxic effects include thirst, shortness of breath, rapid heart rate, kidney failure, lung sores, and liver damage. Some symptoms may not occur until days after exposure. Persons with lung problems may be at increased risk from exposure. Many cases of illness and/or death have been reported in humans.

REFERENCES - Murphy.

*****PARATHYROIDINUM**

(Parathyroid Hormone)

PHARMACY - parathyr. Parathyroidinum. Parathyroid hormone. Sarcod. **Historical dose:** All potencies.

CLINICAL - Arthritis. **Bone, disorders. Calcium, deposits.** Chilblains. Emaciation. Fibrocystic, osteitis. Hematuria. Kidney, stones. **Multiple, myeloma. Muscular, hypotonia.** Myasthenia. Osteogenesis, imperfecta. **Osteoporosis. Paget's disease.** Pancreatitis. Polyuria. Rheumatism. Tabes. Varicose, ulcer.

HOMEOPATHIC - Parathyroid secretion plays an important part in phosphorus and in the regulation of calcium in the blood. The hypercalcémie parathyroid hormone was first isolated in 1925 by Hansen. It increases the level of calcium in the blood, reduces the level of calcium in the urine and increases the amount of phosphorus in the urine.

General weakness. Asthenia. Fatigue. Depression. Pallor. Emaciation. Tabes. Dry skin, eczema. Hair loss. Grave's disease. Hypersensitivity. Nervous irritability. Hypomania.

Paralysis agitans. Puerperal convulsions and epilepsy. Tetany, when there is a disturbance of the calcium metabolism and it is associated with muscular irritation and hyperexcitability. Chronic rheumatism. Pains in the thorax, lumbar region and lower limbs.

Arthritis of the wrists, ankles, knees, hips. **Demineralization of the bones. Osteoporosis.** Diffuse pain in the bones, especially in the long bones. Paresis of the limbs. Walking painful, difficult, dragging. Myasthenia gravis. Muscular hypotonia. Paget's disease.

Belated gastric attacks. Polyuria. Hematuria. Increased level of calcium and reduction of phosphorus in the blood, increased alkaline phosphate liberating enzymes. Great calcium loss.

MIND - Depression. Mental confusion. Agitation. Hypomania.

Abdomen - Slow digestion, eructation of gas. Chronic pancreatitis. Gastric and duodenal ulcer.

Back - Weakness and curved spine. Strong pain in the lumbar region, spreading towards the bladder and thigh, tenesmus of the bladder with occasional vomiting.

Blood - Increase in the level of calcium in the blood. Reduction in the level of phosphorus in the blood. Increase in the alkaline phosphate-liberating enzymes.

Constitutions - Syphilitic condition in a phospho-fluoric type.

Eyes - Scleritis.

Face - Pale face.

Female - Dysmenorrhea and rare menses. Uterine fibromyoma.

Food - Anorexia, loss of appetite.

Heart - Palpitations and tachycardia. Infarction of the myocardium. Precordial pains. Inflammation of the coronary arteries.

Kidneys - Increase in the level of calcium in the urine with or without an increase of calcium in the blood. Calcium deposits in the kidney parenchyma. Calcium kidney stones. Polyuria and hematuria. Disorder of glomerular clearance and urea clearance.

Limbs - Diffuse pains in the bones, especially the long bones, aggravated by standing and walking. Deformity of the fingers. Bones sensitive to pressure.¹ Paget's disease. **Demineralization of the bones.** Painful post-traumatic osteoporosis. **Osteoporosis.** Osteogenesis imperfecta. Fibrocystic osteitis. Painful non-inflammatory lesion of the bones. Chilblains.

Mouth - Caries and arthritis of the tooth sockets.

Rectum - Atonic constipation or frequent stools, abundant, whitish and fetid.

Skin - Strumous edema of the legs. Varicose ulcer.

Stomach - Gastric acidity. Painful aftermeals gastric attack. Stomach and duodenal ulcers. Vomiting of blood. Sickness of pregnancy.

COMMENTS - Experimental results have indicated the existence of a parathyroid secretion whose action diminishes the level of calcium in the blood. It was the clinical syndrome of the primitive hyperparathyroid hormone which drew Fouché's attention to establishing a homeopathic symptomatology-

Primary hyperparathyroidism is explained by an osseous syndrome whose clinical manifestation is expressed by pain in the bones, aggravated by standing or walking and also expressed by spontaneous fractures, swelling in the bones and bone deformities.

In radiology, one can observe abnormal transparency of the skeleton, the cortex of the long bones is decalcified, the medullary canal is enlarged and these signs are especially present in the hands and jaws. Cavities can also be seen, again, primarily in the hands and jaws, as well as tumors, which enlarge the bones by pushing back the periosteum.

The extra-osseous syndrome occurs in 40% of the cases. It is characterized by its effects on the urinary organs, polyuria, kidney stones and nephrocalcinosis. Effects on the digestive system with anorexia, post-prandial epigastric pains and constipation. Gastric atony and ulcers in the low duodenum.

Effects on the heart muscles with palpitations, tachycardia and shortening of the Q. T. interval on the electrocardiogram. Effects on the muscles with asthenia and muscular hypotonia. Psychological effects with depressive tendency and mental confusion.

The syndrome is characterized by an increase of calcium and reduction of phosphorus in the blood, as well as an increase of phosphates in the urine and an increase of the alkaline phosphate-liberating enzymes. Fouche noticed that the removal of the parathyroid gland improved the condition of patients with chronic ankylosing rheumatism, but only temporarily.

Secondary hyperparathyroidism can occur as a defense reaction by the organism, which aims to maintain the normal level of calcium in the blood.

The level can become reduced as a result of a diminution in the calcium deposits in the bone or disorders of alimentary deposits or because of absorption complaints.

It can also be reduced from destruction of the skeleton following osseous carcinoma or myelomas, or from kidney infections, kidney malfunctioning, glomerulonephritis, tubular nephritis, idiopathic increase in the level of calcium in the urine.

RELATIONS - Compare: (1) Calc., Calc-p., Calc-f. (2) Syph. - Nightly linear pains in the bones, loss of memory, especially of proper nouns, obsessions. (3) Astra-e. - Confused state, paretic weakness of the limbs. (4) Mez. - Periosteal pains at night, worse in cold, damp weather.

REFERENCES - Blackwood. Julian.

***PAREIRA BRAVA

(Virgin Vine)

PHARMACY - pareir. Pareira brava. Virgin vine. Cessampelos pareira. Velvet leaf. Chondrodendron tomentosum. N. O. Meni- spermacae. Tincture of fresh root. Tincture of dried root. **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder, catarrh. Calculus. **Dysuria.** Gonorrhea. Kidney, disorders. Leucor- rhea. Prostate, enlargement. Kidney, colic. Urethritis. Urine, slimy.

HERBAL - Pareira is a climbing plant, a native of the West Indies, Central America and India. The root has a traditional use in diseases of the bladder and urinary organs.

HOMEOPATHIC - Pareir. affects the genitourinary organs and the left side. It is useful in kidney colic, prostatic disorders and catarrh of bladder. Cartilaginous induration of mucus membranes of the urethra and bladder. Sensation as if bladder were distended with pain.

Kidney colic, enlarged prostate with retention of urine and catarrh of the bladder. **Dysuria.** Constant urging to urinate, violent pain in the glans penis and **down the thighs** during efforts of urination, must get on knees and hands pressing head firmly to the floor to urinate. Urine contains thick, stringy, white

Pareira brava mucus or red sand.

Back - Excruciating pains in the left lumbar region, pain radiates from left kidney to groin, following course of ureter.

Bladder - Feeling of the bladder being distended. Almost cartilaginous induration of mucus membrane of bladder. Itching along urethra. Can emit urine only when he goes on his knees, pressing head firmly against the floor.

Kidneys - Bruised pains in region of kidneys. **Constant urging, great straining,** pain down thighs during efforts to urinate. **Dysuria. Painful urination** since confinement cannot urinate in any position except on hands and knees. Dribbling after urination (Sel.). Urethritis with prostatic trouble.

Limbs - Dropsical swelling of feet and legs.

Lungs - Viscous matter lodged in and obstructing bronchi.

Male - Urethritis with prostatic disorders. Enlargement of prostate glands with retention of urine, pains extending down thighs. Severe pain when urinating and discharge of mucus from urethra. **Violent pain in**

glans penis. Gonorrhea.

Urine - Urine smells strongly of ammonia and contains a large quantity of viscid, thick, white mucus. Black, bloody, foaming urine, depositing a brick-dust sediment of uric acid, deep red and mucus urine.

COMMENTS - A short proving by C. M. Fox of Denver, Colorado, brought out some characteristic symptoms which have been clinically confirmed.

Violent pains with strangury, must go on "all-fours and press head against floor to pass water at all. Urethritis with severe pain when passing water and discharge of mucus from urethra. Pains down thighs and even to feet when attempting to pass water. Violent pain in glans penis" with the straining.

Fox related two cases of prostatic enlargement with dysuria in which Par. gave complete relief. The first concerned a man, 68, who had an old prostatic affection, constant urging with entire inability.

Feet and legs much swollen, had to be put in a warm bath before catheter could be passed. Only on hands and knees with forehead pressed on the floor, could he pass a few drops of scalding urine.

Pareir. lx gave rapid relief. Swelling disappeared from legs and he was able to resume his business and continue at it for years.

Fox's second case recorded a man with an enlarged prostate with retention, severe attacks two or three times a year, when he would have to have the urine drawn off for a week or two.

After using Pareir., the catheter was not required more than twice in two years. When he felt the symptoms coming on, a few drops of Pareir. would relieve him at once. Many other remedies had been used in vain before Pareir. was prescribed.

RELATIONS - Compare: (1) Pariet. (2) Chim. - chronic catarrhal congestion following cystitis, acute prostatitis, feeling of a ball in perineum when sitting. (3) Fab. - dysuria, post-gonorrheal complications, gravel, bladder catarrh. (4) Uva., Hydrang., Berb., Oci., Hedeo. (5) Cocc. (6) Spasm and burning in bladder, ropy urine, Chim., Uva. (7) Prostatic affections, Hydrang., Sabal. (8) Kidney colic, Oci., Berb. (9) Dysuria - Berb. has pain in back extending to hips, Pareir. has pain extending to thighs and even toes. Berb. urine lacks the ammoniacal smell of Pareir. (10) Dribbling urine after urination, Sei.

***PARIETARIA OFFICINALIS

(Pellitory-of-the-Wall)

PHARMACY-pariet. *Parietaria officinalis*. Pellitory-of-the-wall. N. O. Urticaceae. Tincture of fresh plant.

Historical dose: Tincture and all potencies.

CLINICAL - Kidney stones. Nightmares.

HOMEOPATHIC - Pariet. belongs to the nettles, it grows on old walls and its ashes contain a lot of nitre (Kali-n.). Cooper used it with success in a case of kidney stones, and in one case it produced nightmare, the patient dreaming of being buried alive in the midst of ruins.

RELATIONS - Compare: (1) Urt-u., Kali-n.

REFERENCES - Boericke. Clarke.

***PARIS QUADRIFOLIA

(One Berry)

PHARMACY - par. *Paris quadrifolia*. One berry. True Love. Herb Paris. N. O. Trilliaceae. Sometimes considered a sub-order of Smilacaceae or of Liliaceae. Europe. Moist, shady woods in Great Britain. Tincture of whole plant when in fruit. **Historical dose:** Tincture and all potencies.

CLINICAL - Acidity. After-pains. Brachial neuralgia. Ciliary neuralgia. Ciliary paralysis. Digestion, weak. Gonorrhea. Headache. Hic- **cough. Hoarseness.** Hysteria. Mania. Neuralgia. Panaritium. Paralysis. Saliva, sour. Spine, affection. Touch, sense, disordered.

HERBAL - The Treasury of Botany said of Paris that the leaves and stems were "formerly used in medicine, the juice of the berry, though considered poisonous, has been employed in curing inflammation of the eyes." Paris betrays its relation to the lilies and arums in the symptoms of irritation which it causes in mucus membranes and the skin with burning sensations and cramps.

HOMEOPATHIC - The provings made by Hahnemann, Stapf and others, brought out a very marked and characteristic action on the eyes and developed some of the keynote symptoms of the drug.

Affects the head, spine, eyes and one side. Sensation of expansion and consequent tension. Sensation of heaviness, numbness, parts feel too big or drawn together. Whole body painful especially when touched. Broken feeling of joints.

Generally a left side remedy, but it has coldness of the right side, while the left side is normal or hot. Catarrhal complaints, stuffed feeling at root of nose. Disorder of sense of touch, objects feel rough. The scalp is very

sensitive to touch. Pressure on a sore spot on head causes cries.

Mucus secretions are green and tenacious. The eyes give out of fetid, ulcer-like smell. Great sensitiveness to offensive odors, also imaginary bad smells, milk and bread smell like putrid meat. Diarrhea stool smells like putrid meat. **"Hunger soon after a meal,"** the **"sinking"** of the anti-psorics, hellebores, and veratrums.

MIND - Loquacious mania. **Garrulous**, prattling, vivacious. Inclination to treat others with rudeness and contempt. Silly conduct. Feels too large. Imaginary foul smells.

Abdomen - Tensive pain throughout abdomen. Hard pressure in abdomen. Rumbling and rolling in abdomen, cutting, griping pains. Incisive drawing and boring in one side of abdomen.

Back - Weight and weariness in nape of neck. Violent pain on both sides of neck extending down to fingers worse mental exertion. Stitches in coccyx on sitting.

Causations - Ill effects of injury, suppressions.

Chest - Shootings in chest and sides of chest. Aching in the right side of chest.

Ears - Pain as if the ears were pressed out or forced apart by a wedge, worse swallowing.

Eyes - Eyes feel too large and heavy for their sockets. **Sensation of a string through eyeballs**, drawing them tightly backward to the middle of the brain. Eyes as if they were projected. Expanded, as though eyelids did not cover. Affections of the eyebrows.

Face - Neuralgia, hot stitches in left malar bone, which is very sore. Seems drawn into root of nose. Inflammation of the antrum, where eye symptoms coexist.

Female - Premature menses. Increased sexual desire. Intense after-pains. Suppressed lochia with ineffectual urging to stool.

Food - Voracious appetite. Hunger very soon after a meal.

Head - Chronic headaches. Headache worse by thinking. **Headaches as from pulling a string from eyes to occiput**. Occipital headache with a feeling of weight. Head feels very large, expanded. Numb feeling on left side of head. Head feels as if distended and the scalp too tight. Sensation as if scalp were contracted and bones scraped. Soreness of top of head, scalp sensitive, cannot brush hair.

Limbs - Numbness of upper limbs. **Sense of weight and weariness in nape of neck** and across shoulders. Neuralgia, beginning in left intercostal region and extending into left arm. Neuralgia of coccyx, pulsating, sticking, when sitting. Joints feel broken, swollen or dislocated at every motion. Arm becomes stiff, fingers clenched. **Fingers feel numb**. Everything feels rough.

Lungs - Stuffed condition and fullness at root of nose. Periodical, **painless hoarseness**. Cough as from vapor of sulphur in trachea. Constant hawking, on account of viscid, green mucus in larynx and trachea.

Modalities - Better from rest, pressure, belching. Worse touch, hiccough, eating. Worse from thinking of problems, mental exertion, thinking, eyestrain. Smoking tobacco causes headache.

Mouth - Tongue feels too large. **Tongue dry when awaking**. Coated white **without thirst** with bitter or diminished taste.

Nose - Imaginary foul smells. Bread, fish, and milk smell putrid.

Rectum - Frequent but scanty evacuations of the consistency of pap. Loose, fetid evacuations, which smell like putrid flesh.

Sensations - Sensation of expansion and consequent tension. As if scalp were contracted and bones scraped sores. Heavy load on nape. As if a thread were drawn tightly through eye to middle of head. Ear as if forced apart by a wedge, as if pressed out or torn out, as if a burning heat was rushing out of ears. Tongue feels too large. Ball in throat. Throat constricted. Stone in stomach. As if internal parts contracted. Fingers as if asleep, dead. All joints as if broken, swollen or dislocated at every motion.

Skin - Painfully sensitive.

Stomach - Heavy as from a stone, better by eructation. Weak digestion. Red curved streak above navel.

Temperature - Unilateral coldness or heat. Heat descending the back from the neck.

Throat - Burning, when eating and drinking. As of a ball in the throat. Hawks up tough, green mucus. Periodical painless hoarseness.

Vertigo - Vertigo on reading aloud.

COMMENTS - Par. is one of the drugs which are credited with producing garrulity, vivacity, with love of prattling, like tea.

B. Nath Banerjee recorded a case of loquacious insanity cured with Par. 3c. Mrs. B., 45, suddenly become loquacious and insane. After a month of Kavirajee treatment without benefit she came under his care, October 3, 1893.

A year before, the last of her five children, a grown-up son, died and she could not be consoled and gradually became morose and dull. She ceased to menstruate in February, 1893, but had no uterine troubles or any other illness previous to the present. Loquacity, but not continuous. Every three or four days, if interfered with,

maniacal attacks lasting about half an hour. At times foolish behavior.

With difficulty Banerjee obtained the following symptoms from the patient: vertigo and whenever she thinks of her lost son, severe headache, the vertex being sensitive to touch. When telling these symptoms, suddenly her looks became wandering and her eyes appeared as if protruding from their sockets.

She could not relish her food because everything, especially fish, smelt putrid. Whole body painful, especially when touched. She complained of a ball lodging in the throat and giving her trouble with burning. Acidity and badly smelling diarrhea. A peculiar feeling of coldness of right side of the body while the left side was hot.

All symptoms worse in evening and on motion. Ign. 30c and later 200c, was given without any effect. Par. acted promptly, and on the third day the patient assured the doctor that she was quite well. The remedy was not repeated and the cure held.

Clarke cured with Par. a "numb feeling of left side of head." Numbness affects the upper limbs. The left arm is paralyzed, and it feels stiff with fingers contracted.

"Numbness and prickling in lefthand" was removed in a case of spinal affection.

"Fingers often feel as if asleep, objects seem rough to touch." Disorder of the sense of touch, with great sensitiveness of the surface. Hot stitches in left malar bones. Acidity, sour saliva.

RELATIONS - Antidoted by: Coff. **Compare:** (1) Past., Sil., Calc., Nux-v, Rhus-t. (2) In spinal headache rising from nape, Sil. (3) Wild look in eyes. Bell. (4) As if eyes drawn back by thread, Croto-t. (5) Eyeballs feel too large. Sil. (6) Garrulity, Lach., Meph., Stram., Cimic., right, Agar. (7) Laryngeal affections, Arg-n. (Par. has expectoration noticed mostly in morning and it is green and tenacious). (8) String-like pain, All-c. (9) Heart, Lil-t., Conv. (10) Panaritium, Bor-ac. (11) Imaginary foul smells, Anae. (12) worse from motion, Bry. **Compatible:** Calc., Led., Lyc., Nux-v., Phos., Rhus-t., Sep., Sulph. **Incompatible:** Ferr-p.

***PARONICHIA ILLECEBRUM

PHARMACY - paro-i. Paronichia illecebrum. Tiangius pepetla. Alternanthera sessilis. Sanguinaria of Cuba. Illebraceae or Paronychiaceae family. Cuba. The tincture is prepared from the whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Angio-hematic typhus. Appendicitis. Blepharitis. Bronchial pneumonia. Cancer. Conjunctivitis. Encephalitis. Endometritis. High fever. Infectious diseases. Mastoiditis. Menorrhagia. Metrorrhagia. Pleurisy. Pneumonia. Rhinitis. Septicemia. Sinusitis. Typhoid fever. Typhus.

HERBAL - This plant is a very close relation to the Caryophyllaceae, which gives the saponarias to the Materia Medica. Paronichia illecebrum is a grass whose trailing stem has branches, oblong pale green leaves and capitate flowers.

HOMEOPATHIC - The proving was established by Manuel M. De Legarreta. Paro-i. has fever, dry, oppressive heat and symptoms of catarrh. The patient wants to uncover himself all the time. When lying on his side, he can no longer move, feels weary, weak and sleepy.

Acute congestion of the nerves, lungs and blood vessels. Feeling of emptiness in the brain and doubling of personality. High fever. Encephalitis in eruptive juvenile diseases. Involuntary passing of stools and urine. Poisoning of the nursing child.

MIND - Calm, tranquil state of mind. Sleepy and in a semi-awake state. Nervous weakness. Doubling of personality. Feeling that there are two different people inside him, who contradict each other and argue about their illness (Anae.).

Abdomen - Rumbling in the right iliac cavity. Gas difficult to expel. Acute inflammation of the gallbladder and biliary passages. Sub-phrenic abscess. Chronic appendicitis.

Chest - Chest painful. Dyspnea with intercostal pains. Shooting pains in the left intercostal region. Thoracic pains when changing position.

Ears - Outer ear hot and painful. Auditory canal dry. Discharge of a hot, excoriating serum from the left ear, forming crusts which, when scratched, bleed easily. Acute congestive otitis. Suppurating inflammation of the ear-drum (Sil.). Mastoiditis. Hears well.

Eyes - Eyes look sad. Eyes bloodshot, red, tearful. Conjunctivitis. Blepharitis. Eyelids heavy, burning with need to refresh them.

Female - Hemorrhaging endometritis. Menorrhagia or metrorrhagia during the menopause with violent headaches. Uterine cancer.

Food - Thirsty for water, which is vomited as soon as it is absorbed. Thirsty for ice-cold water with stomach, as if burning.

Head - Acute pain in the temples, as if compressed by an iron helmet. Scalp very painful, cannot tolerate combing. If he moves his head, he hears a rush of water.

Heart - Pulse violent, full and bounding, resounds in the ear and is annoying. Myocarditis. Pericarditis.

Kidneys - Acute glomerulonephritis. Involuntary urination. Urine dark, but copious. Hematuria. Dysuria with tenesmus, with involuntary passing of stools.

Lungs - Painful cough with great difficulty

in expectorating and desire to vomit. Bronchial crepitant rales, abundant expectoration, sputum frothy, rusty or blood-streaked. Pleurisy. Bronchial pneumonia. Pneumonia. Abscess on the lung. Pulmonary gangrene.

Male - Prostatic congestion with tenesmus and burning during urination. Prostatic adenoma.

Modalities - Worse from movement or the slightest effort. Worse left side, but not exclusively.

Mouth - Tongue pasty, covered with a yellow-white coating. Mouth dry, tongue coated, rough. Breath fetid, putrid, nauseating. Taste of copper in the mouth. Saliva thick and dark yellow. Teeth covered with thick, yellow tartar. Cracks at the corners of the lips. Lips chapped.

Nose - Ozaena. Rhinitis. Sinusitis. Nostrils blocked by crusts. Light nosebleeds. Loss of sense of smell.

Rectum - Involuntary intestinal evacuation and fetid odor. Diarrhea with greenish stools, smelling of sour milk. Perianal burning with anal excoriation and anal trickling. Rectal hemorrhaging.

Skin - Petechial exanthema on the backs of the hands. Rheumatoid purpura. Hyperglobulinémie purpura. Infectious purpura. Pressure sores. Copious sweating, especially from the groin and armpits. Sweating with excoriation of the skin which forms wounds.

Sleep - Sleepy and in a semi-awake state.

Stomach - Acute gastritis. Acridity, bringing up of air and food. Nausea.

Temperature - Temperature between 39.5°C and 41 °C. Copious sweating, smelling of curdled milk.

RELATIONS - Compare: (1) Anae. - Clouded mental state, feels as if he had two opposed wills, headaches, nausea, vomiting, amelioration by eating. (2) Bapt. - Prostration with putrid odor of all discharges. Feeling of painful cracking in the muscles. Putrid smell of breath. Diarrhea is fetid, sometimes involuntary. (3) Anthr. - Septic infections, burning pains, prostration, bleeding from the orifices or black blood, which decomposes rapidly. (4) Ars. - Prostration, agitation, anxiety about

death. Burning pains, with burning diarrhea, peri-anal excoriation, oppression, palpitations, worse between midnight and 3 a.m.

REFERENCES-Julian.

***PAROTIDINUM

(Mumps Nosode)

PHARMACY - parot. Parotidinum. Mumps nosode. Nosodes. **Historical dose:** All potencies.

CLINICAL - Cholera. Cryptorchism. Eustachian, catarrh. Fibroma. Giand, disorders. Lymphangioma. Meningitis. **Mumps.** Myoma. Orchitis. Otalgia. Parotitis. Salivation. Sterility. Stomatitis. Tonsillitis. Tumors.

HOMEOPATHIC - This nosode is prepared from inactivated mumps viruses, which belong to the paramyxovirus group and can cause mumps. Parot, has been used as a prophylactic against infection by mumps.

The well-known complications which sometimes occur with mumps, cerebral inflammation and orchitis, suggest its possible use in these conditions.

The main indications are painful swellings of the parotid gland, fever, otalgia, difficulty hearing, and sometimes pancreatic involvement. Pancreatic affections. Diseases of the oral mucosa such as stomatitis, tonsillitis. Eustachian catarrh and hearing problems of catarrhal origin.

Cryptorchism, benign or malignant tumors of the testes. Fibroma, myoma, lymphangioma, adenomatoid tumors. Teratoma and dermoid cysts.

COMMENTS - Mumps is to be distinguished from the parotitis which is seen in scarlet fever, cholera and other infectious diseases, and also from the secondary parotitis, arising from throat infections and diseases of the oral mucosa.

Parot, is generally given in the 30c two or three times a day to those exposed to the infection. In cases of mumps, it may be given every four hours, either by itself or alternated with other indicated remedies.

RELATIONS - Compare: (1) Merc., Jab., Piloc.

***PARTHENIUM HYSTEROPHORUS

(Bitter-broom)

PHARMACY - parth. Parthenium hysterophorus. Bitter-broom. Congress grass. Escoba amargo. N. O. Composite, Synanthreaeae, tribe Heliantheae. The dry plant is macerated in five parts by weight of alcohol.

Trituration of solution of the alkaloid Parthenia. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Cheyne-Stokes breathing. Debility. Dyspepsia. Ear disorders. Fainting. Fevers. Headaches. Liver, pain. Milk increased. Miscarriage. Neuralgia, periodic. Salivation. Spleen, disorders. Toothache. Vision, disordered.

HOMEOPATHIC - ACuban remedy for fevers, especially malarial. An alkaloid, Parthenia, was isolated by C. J. Ulrice of Havana; and Dr. J. '.. Duenas published experiments with this on humans and animals.

In the proving, the pains were sudden, congestive, out-pushing. Pains in the head and ears. Singing and fullness in the ears. Heaviness and dullness of head. Tendency to vertigo. Malaise, apathy, lassitude. Stupor, desire to be quiet. Indifference.

Profuse and very fluid salivation. Sensation of heat and weight in the stomach. Increased appetite, or refusal of food. Gastric intolerance, nausea and vomiting. Increased flow of milk. Amenorrhea and general debility. Cheyne- Stokes breathing. After-effects of quinine. Antidotal action to quinine.

MIND - Feels dull and stupid. Difficult to fix attention. Malaise, apathy, lassitude. Indifference.

Abdomen - Spleen disorders. Spleen painful to pressure, pain in right side, worse in some parts than in others, with shiverings. Severe pains in the left hypochondrium with tertian fever. Loud rumbling in bowels, about navel. Slight colicky pains at navel. Colic deep in pelvis, pains run down backs of thighs to knees.

Breasts - Great increase of milk in breasts of nursing women.

Ears - Sharp pain in ears. Stabbing pain in left ear. Dullness and aching in ears, coming suddenly. Stitching at lobe of left ear, deep in and above external auditory meatus. Tinnitus, ringing in ears, worse left.

Eyes - Eyes heavy, drowsy. Aching in eyeballs. Aching over eyes, wants to close them. Disordered vision. Must look intently to see the words, when writing the letters seem pale and eye ache.

Face - Seems as if bloods would burst through face. Bursting pain in right malar bone. Aching pains run up from above left eye-tooth to eye and over face, occurs by starts and stops.

Female - Given to pregnant women for fevers, it has caused miscarriages and premature deliveries. In a case of subacute tuberculosis, it restored the menses, which had been absent since the illness commenced.

Head - Headaches, extending to nose, pain in frontal eminence. Stitching pain in left temple of short duration. Aching pain at left supra-orbital foramen. Pain at root of nose, feels swollen. Heaviness and dullness of head. Full feeling in vertex, pressing from within.

Heart - Excited heartbeat. Progressive slowness of pulse, followed by syncope, cardiac paralysis and death. Pulse slow, soft compressible.

Kidneys - Kidneys enlarged and congested. Increased urine.

Limbs - Pains run from pelvis down backs of thighs to knees. Marked diminution of reflex in hips and extinction of voluntary movements.

Lungs - Slow, irregular, breathing. Cheyne- Stokes.

Modalities - Better after rising and walking about. Worse after sleep, from sudden motion.

Mouth - Tingling in tip of tongue. Profuse, very fluid salivation.

Nose - Pain at root of nose, in nose, in bones of nose, worse left. Stuffed feeling at root of nose, as with dry coryza. Nose feels swollen and tender to touch. Aching in bridge of nose (worse left side) and of upper left molars. Aching at end of nose, which feels full of blood.

Rectum - Stabbing pain runs up rectum after passing flatus. No desire at usual time, 10:30 p.m., mushy stool.

Sleep - Restless night, wakes at 3 and 4 a.m., then dozes and dreams until 7:30. Increased stupor, desire to be quiet.

Stomach - Emptiness sensation in epigastrium, hunger. Heat and weight in stomach. Irrepressible, tasteless belchings. Belch- ings tasting of the drug.

Teeth - **Teeth feel on edge**, too long. Aching in teeth. Upper teeth, pricking pains in sockets. Sharp aching twinges in upper molars. Upper incisors tender at sockets when biting.

Temperature - Rise and fall of temperature, shivering, diminished perspiration.

Vertigo - Vertigo, while sitting with heat of face and blurred vision.

COMMENTS - Dr. B. H. B. Sleight proved increasing doses of the tincture and, later on, of 6x, which reproduced most of the symptoms of the first proving.

Fornias reported the case of his niece, 5, living in Havana, who had been suffering from a continued fever with periodical midday exacerbations, which later on assumed an intermittent form. She had been saturated with quinine and complained at the time of malaise, lassitude, headache, gastric intolerance, etc.

Dr. Govantes prescribed an extract of Parth., three doses a day, each the size of a pea. In four or five days she was free from fever and made a quick recovery.

Dr. Ramirez Tovar reported several cures by Parth. The first was a woman living in the lower part of the city, where the rain left channels of infection, who had daily attacks of intermittent, more intense each day.

One grain of the alkaloid was divided into six powders, one every hour after the attack. No further attacks. The patient was nursing at the time and she noticed a marked increase of milk in the breasts. Half a grain divided into five doses completed the cure.

In the second case, a tailor, 30, moved to a lower part of the city and contracted tertian intermittent, the fourth seizure being attended with much pain in the left hypochondrium. One grain in five doses cured, though the conditions were unchanged. (The removal of this left hypochondriac pain is important in connection with Burnett's experience with Helia.)

The third case was a girl, 6, lymphatic, who lived near the harbor, ill for seventeen days with malaise, loss of appetite, sleepiness and fever. She had quinine internally and externally, and was wasting visibly. The alkaloid, aided by a tonic wine prepared from the extract of the plant, cured

In his fourth case, Tovar noted a man, 45 of delicate constitution, poorly nourished, straw-yellow face, yellow sclerotics, enlarged liver and spleen, spleen painful to pressure. He had a fever in Panama, had taken quinine, complained of a pain in right side, which commenced 1 p.m. with shiverings, disappeared in two hours and returned at precisely the same hour the next day.

Five doses of ten centigrams each removed the pain. About six weeks later there was a relapse, the pain this time being located in the stomach. One grain in five doses, one dose every two hours, removed the pain, but it returned the third day. The same treatment then removed it permanently.

The fifth case concerned a young woman, 18, who had periodical facial neuralgia, cured by the same treatment.

RELATIONS - It antidotes quinine. **Compare:** (1) In spleen affections, Helia., Cean. (2) In malaise and periodic neuralgia, Malar. Off., Chin., Cedr.

REFERENCES - Anshutz. Boericke. Clarke.

***PASSIFLORA INCARNATA

(Passion Flower)

PHARMACY -passi. Passiflora incarnata. Passion flower. N. O. Passifloraceae of the Violai alliance. Tincture of fresh or dried leaves gathered in May. Fluid hydro-alcoholic extract. Powdered inspissated juice. **Historical dose:** Tincture and all potencies.

CLINICAL - Addictions. **Alcoholism. Asthma.** Burns. Chancre. Cholera infantum. Convulsions. Delirium. **Delirium tremens.** Dentition. Diarrhea. Drug addictions. Dysmenorrhea. Epilepsy. Erysipelas. Exophthalmos. Headaches. Hemorrhoids. Hysteria. **Insomnia.** Levitation. **Morphine, habit.** Nerve, disorders. Nervousness. Neuralgia. Opisthotonos. Puerperal, convulsions. Sciatica. **Sleeplessness.** Spasms. **Tetanus.** Ulcers. Whooping cough.

HERBAL - Passion flower is a climbing plant, leaves cordate, ovate and palmately three lobed. The plant bears solitary, large, and very beautiful flowers, white with a purple center. The edible fruit is a large berry.

Passion flower is a safe and Used as a herbal remedy in nervous, irritative, and neuralgic pains with debility, harmless soporific herb that will allay irritation of the brain and central nervous system. It is a nerve sedative, narcotic, antispasmodic.

Used in derangements of the nervous system such as insomnia, chorea, convulsions and headache. Nervous headache. Hysteria spasms. Convulsions, especially in those of childhood when it should be given in large doses before the approach of the convulsion.

Insomnia from exhaustion and excitement. Wakefulness of infants and elderly people. Produces a restful sleep, the patient awakens refreshed. Hypnotic. Should not be given in insomnia with flushed face and determination of blood to the head.

HOMEOPATHIC - Passi. has not been proved. Hale introduced it to homeopathy, citing a paper by Phares in the New Remedies. Its curative action appears to be a direct kind.

Quieting effect on the nervous system, hence an efficient nervine and anti-spasmodic remedy. Excitement with spasms. Hysteria, puerperal convulsions. Convulsions in children with neuralgia. Convulsions of children during teething.

Tetanic convulsions affecting mainly the muscles of the trunk, with predominant opisthotonos. Violent **tetanus**, with opisthotonos, trismus, and convulsions. Tetanus infantum. Neuralgias, internal and of the limbs.

Worm fever, teething and spasms. **Insomnia of infants and the aged.** Sleeplessness, with great restlessness and suicidal mania. Restlessness of fevers. Nervous disorders.

General atonic condition. Mentally worried and over-worked persons.

Asthma. Whooping cough. Painful diarrhea. Cholera infantum with restlessness. Tedious labor pains when the patient becomes nervous and excitable. Delirium tremens. **Alcoholism.** Abuse of narcotics. Drug addictions. **Breaks off morphine habit** (Aven.).

MIND - Mentally worried and over-worked. ***Insomnia of infants and the aged.*** Sleeplessness, with great restlessness and suicidal mania. Nervous and excitable. Restlessness. Hysteria. Acute mania. Excitement and spasms. Neurosis of children. Alcoholism. Delirium tremens. Drug addictions. Abuse of narcotics. ***Breaks off morphine habit*** (Aven.).

Back - Pain in coccyx.

Eyes - Sensation that the eyes are being pushed out.

Female - Painful menses, dysmenorrhea.

Head - Violent ache as if top of head would come off. Top of head seemed to lift off.

Limbs - Sensation that her heels are up in the air.

Lungs - Nocturnal cough.

Rectum - Severe attack of hemorrhoids. Irritable hemorrhoids.

Skin - Chancre. Erysipelas.

Sleep - Restless and wakeful, resulting from exhaustion. Insomnia with tendency to convulsions. ***Insomnia in screaming children***, of infants, the aged, the mentally worried and overworked. ***Sleeplessness in alcoholics.*** Sleeplessness with delirium.

Stomach - Leaden, dead feeling after or between meals, flatulence and sour belchings.

COMMENTS - Phares learned its action from W. B. Lindsay, who used it with extraordinary success in tetanus of the newborn. Lindsay commended an aqueous extract of the root as an application for chancre, erysipelas, irritable hemorrhoids and new burns.

Phares confirmed the efficacy of Passi. in erysipelas, ulcers, neuralgia and tetanus. He cited the case of an old woman who was seized with convulsions of a tetanic nature as well as the case of his horse, cured by himself and his son, J. H. Phares.

One of his own horses was seized with tetanus and all hope of saving him was given up, when Phares gathered some Passi. stems, leaves and flowers. They were pounded, moistened with water, expressed ten or twelve ounces and poured it down the animal's throat through a tube introduced at the side of his mouth. Though not expected to live half an hour, the horse was found grazing the next morning.

J. W. Covert reported the case of Mrs. X., 28, who had epileptic convulsions for years from one to twenty fits in a week. The aura was a tight feeling in the chest. By homeopathic treatment, Covert succeeded in diminishing the frequency of the attacks, but they would invariably return at the menstrual period.

Passi. tincture 6 drops, six times a day, was given. The next period passed without a convulsion, but the patient had a violent headache as if the top of the head would come off. This was rapidly controlled by Glon. 6c. The three following period passed without any attack.

Farrington considered Passi. suited especially to tetanus of hot countries and referred to two cures by Archibald Bayne of Barbados with the tincture and lx. It has also been used in convulsions of children and other complaints of dentition, and even in epilepsy.

E. S. Prindle related a case of delirium tremens. A German, driver of a beer wagon, was laid up with a broken arm when he was seized with delirium tremens of a most ferocious type, which the usual remedies entirely failed to control.

Passi. succuss was then given, two drachms every half-hour. After the third dose the patient quieted down and slept three hours. On waking, he again began to rave, but not as badly as before. Another teaspoonful of Passi. put him to sleep and the next morning he was quite sane and allowed his arm to be reset.

G. C. Buchanan observed some curious effects in a patient, Mrs. V., to whom he gave teaspoonful doses for neuralgia, sleeplessness and nervousness.

"Her eyes seemed to push out of her head and lie on the quilt, her heels seemed to be up in air top of her head seemed to lift off."

To the observer, the eyes seemed to protrude. Later a severe attack of hemorrhoids developed. The dose was reduced to halfteaspoonfuls, which produced sleep and caused no ill effects.

RELATIONS - Compare: (1) Valer., Cypr. (2) In tetanus and epilepsy, Oena., Nux-v. (2) Heels seem to go up, Ph-ac.

***PASTINACA SATIVA

(Parsnip)

PHARMACY - past. Pastinaca sativa. Parsnip. Pastinaca urens. N. O. Umbelliferae. Tincture of roots of second year. ***Historical dose:*** Tincture and all potencies.

HERBAL - Roots used as a food, cooked in water, as broth, or as salad, for tuberculosis patients and kidney stones.

HOMEOPATHIC - After the first year, the root is very poisonous and some cases of poisoning have been observed. A state of perfect “*delirium tremens*” was observed in several persons, illusions of vision, catching at imaginary objects, fighting with one another. Loquacity. Intolerance of milk. A peculiar effect was produced on the stomach, the irritability was depressed and emetics would not act.

RELATIONS - Compare: (1) Aeth., Ziz.

REFERENCES - Boericke. Clarke.

***PEARL

(Oyster Pearl)

PHARMACY - pear. Pearl. Oyster Pearl. Aragonite, about 82-86%; conchiolin, 10-14%; and water. 2%. Pearls are calcified objects made by oysters and are usually pale white or cream colored, though darker blue, gray, and even black variations exist. Layers of aragonite, known as nacre, are secreted around the irritant and gradually build up to form the solid **pearl**. **Historical dose:** Tincture and all potencies.

CLINICAL - Arthritis. Breasts, disorders. Coughs. Headaches. Hypertension. Infertility. Tuberculosis.

HOMEOPATHIC - Soothing influence. Enhances curative powers. Promotes body fluids and the blood, nourishing the body tissues and the nerves.

Said to lessen stress and related maladies (hypertension, headaches, and exhaustion), which may help prevent heart attacks and strokes. Pearls supposedly aid in digestion and may reduce the chance of developing ulcers. Strengthens the female reproductive system, improves fertility, and calms the emotions.

A good pearl (not pierced) triturated in rose or kewra water, made into paste, dried and taken orally, is very beneficial for diseases caused by calcium deficiency. The ashes provide relief to body heat, are good for the eyes. Cures tuberculosis, chronic fevers, cough, breathing problems, palpitations, high blood pressure, heart ailments, exhaustion and weaknesses.

MIND - Pearl increases emotional stability, mental strength, friendliness and contentment. Weakness or afflictions are shown by anxiety, mental and emotional swings, worry, isolation or the inability to cope with relationships and people.

COMMENTS -The Arabs called pearls “tears of the gods,” and said they were formed by drops of rain falling into oyster shells. The Chinese, regard pearls as the hidden soul of the oyster. “Margarithe,” another name for this gem, means “child of light.” It has become a symbol of purity and virtue.

Pearls were essential toiletry articles, used to clean face and teeth. Applying the oyster shell containing a pearl to the affected area was said to heal leprosy and other skin diseases.

The gem was considered beneficial for easing indigestion, curing hemorrhoids, and counteracting poison. Taken in milk, they were used to cure ulcers. Nursing women took pearl concoctions to make their milk healthy and plentiful. 6 grains in water sweetened with manna (ash tree sap) was said to ward off the plague. Burnt pearl powder drunk in water stopped hemorrhages; inhaled, it cured headache. Oil of pearls was believed to fortify the nerves. A pearl tonic can be made to increase vitality, relieve eye strain, and soothe burning urination; place several small pearls in water overnight and drink the water following day. The tonic is a natural antacid and anti-inflammatory.

RELATIONS - Compare: (1) Calc., Luna, Arg-n.

REFERENCES - Murphy.

***PECTEN JACOBÆUS

(Scallop)

PHARMACY - pect. Pectenjacobaeus. Scallop. N. O. Pectinide. Trituration or tincture of whole animal. **Historical dose:** All potencies.

CLINICAL -Asthma, humid. Coryza. Cough. Dyspnea.

HOMEOPATHIC - Swan learned from a gentleman that every time he entered a room where scallops were being opened he had such a severe attack of asthma that he had to leave or suffocate. Swan potentized the scallop and used the preparation with success in similar cases.

Asthma preceded by coryza, sneezing and burning in throat and chest. Attack ends with copious expectoration of tough, stringy, frothy mucus, worse at night. **Humid asthma.** Quick and labored breathing. Constriction of chest, especially right side. Pulse very quick and wiry. Fullness of the head. Cough worse after 6 p.m., at night.

COMMENTS - T. Franklin Smith reported a case of humid asthma, with quick, labored breathing, cannot lie flat or on left side. Constriction of chest, especially right side. Cured quickly and permanently with Pect. 1,000c and 100,000c potencies.

REFERENCES - Boericke. Clarke.

***PEDICULUS CAPITIS

(Head Lice)

PHARMACY - ped. Pediculus capitis. Head lice. Head louse. N. O. Hemiptera. Tincture of the insects. Pediculus belongs to the same class of remedies as Cimx. and Trom. **Historical dose:** All potencies.

CLINICAL - Children, diseases. Colic. Diarrhea. Edema. Ganglion, foot. Hair, loss. Irritation. Lice. Psora, hereditary. Skin, disorders. Stammering.

HOMEOPATHIC - Ped. was proved by Mure, who said that he thought that nature pointed to the louse as a specific for hereditary psora, which was strengthened by the fact that Psor. develops pediculosis in healthy persons. He added that he found Ped. to be one of the most useful agents in diseases of children.

Five people took part in the proving, but no particulars were given as to the doses they took. All developed symptoms, including eagerness and aptitude for study and work. One prover, a stammerer, had unusual fluency of words.

Constriction of pharynx. Jerks and starts in evening when sitting or lying. Miliary eruptions, itching and formication almost all over. Symptoms were worse by contact, in evening, after eating, standing, stooping, or walking.

RELATIONS -Antidotedby: Chin, (anasarca). **Compare:** (1) Colic and diarrhea after eating, Trom. (2) Skin, Psor., Sulph.

REFERENCES - Clarke.

***PEGANUM HARMALA

(Syrian Rue)

PHARMACY - peg-h. Peganum harmala. Syrian rue. African rue. N. O. Zygophylaceae. Russia. Tincture of the seeds. **Historicaldose:** Tincture and all potencies.

CLINICAL - Acne, vulgaris. **Alcoholism.** Amenorrhea. Asthma. Baldness. Breast, disease. Colic. Delusions. Diabetes. Endometriosis. Epilepsy. Fever. Hemorrhoids. Hirsutism. Hysteria. Lice. Malaria. Menstrual, problems. Myoma, uterus. Neuralgia. Parkinson's disease. Rheumatism. Sexual, disorders. Stomach, disorders. Syphilis. Tapeworms. Urinary, disorders. Uterus, prolapse. Worms.

HERBAL - The seeds of this Middle-Eastern shrub have a long history of medical and psychoactive use. Widely known and used in its native areas, the seeds yield a dye ("Turkish" or "Syrian" red) long used in "Persian" carpets. The seeds and roots contain b-carboline alkaloids, mostly harmine, as well as harmaline, harmalol, etc.

Egyptian studies found the extract to be markedly fungicidal and bactericidal, mostly due to harmine. It is reported to be used as an incense and spice, and as an abortifacient, narcotic, aphrodisiac, stimulant, sedative, emmenagogue, emetic, vermifuge, or soporific.

Consumption of the seed in quantity induces a sense of euphoria and releases inhibitions. It has been used in the past as a "truth drug." The seed has also been used as an anthelmintic in order to rid the body of tapeworms.

Harmine, which is being used in research into mental disease, encephalitis and inflammation of the brain. Small quantities stimulate the brain and are said to be therapeutic, but in excess, harmine depresses the central nervous system. A crude preparation of the seed is more effective than an extract because of the presence of related indoles.

The seed is used externally in the treatment of hemorrhoids and baldness. The oil obtained from the seed is said to be aphrodisiac, and to have galactagogue, ophthalmic, soporific and vermifuge properties.

The root has been used as a parasiticide in order to kill body lice, and used internally in the treatment of rheumatism and nervous conditions. A decoction of the leaves is used in the treatment of rheumatism.

This remedy should be used with caution, and preferably under the guidance of a qualified practitioner, since excessive doses cause vomiting and hallucinations.

HOMEOPATHIC - Peg-h. has been reported to be used in India for syphilis, fever in North Africa, and elsewhere for fever, hysteria, malaria, neuralgia, parkinsonism, prolapse of the womb, rheumatism, colic, asthma, and eye complaints.

The fruit and seed are digestive, diuretic, hallucinogenic, narcotic and uterine stimulants. They are taken internally in the treatment of stomach complaints, urinary and sexual disorders, epilepsy, menstrual problems, mental and nervous illnesses.

MIND - Excitement. Euphoria. Indifference. Sadness. Ailments from grief. **Irritability. Anger.** Desire to curse, fight, to strike others, to break things, to kill, to die. Hatred of close relatives, parents.

Delusion of belonging to the opposite sex. Confusion as to their sexual identity. **Delusion ofbeing surrounded by vampires.** Delusion that he is a vampire. Delusion that he follows or belongs to the devil. **Delusion that**

he has been cursed by the evil eye.

Abdomen - Pain in right hypochondria.

Sharp, cutting pains.

Face - Acne vulgaris. Pimples on chin.

Female - Amenorrhea. Suppression of menses. Sexual desire decreased or increased.

Food - **Desires alcohol**, drugs, smoking.

Head - Occiput pain, worse lying down, moving the head.

Limbs - Convulsions. Cramps, twitching.

Male - Sexual desire increased.

Mouth - Swelling of gums.

Nose - Pimples. Red blister on surface of top.

Rectum - Constipation. Painless diarrhea. **Skin** - Acne vulgaris. Pimples. Red blisters.

Sleep - Insomnia. Sleepiness. Nightmares. Dreams of talking with the devil, of vampires, or murder, **of death of his relatives**, of talking with dead relatives. Dreams that he is a woman.

Stomach - Sharp, cutting pains. Nausea.

REFERENCES - Timofeeva. Tiraspolski.

*****PELARGONIUM RENIFORME**

PHARMACY -pelarg. Pelargonium reniforme. Rabassum Dutch. Umckaloabo. N. O. Ge- raniaceae. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

HERBAL - Pelarg. is a Kafir remedy for dysentery. The root is cut up finely or bruised, and then boiled in milk for a considerable time. Many British soldiers were cured of dysentery with it in the Boer War.

Pelarg. was also used for purging in horses. When a horse was attacked during a journey the root (which is very thick) was wrapped up and tied to the bit. The juice mingled with the saliva and was swallowed.

REFERENCES - Clarke.

*****PENICILLINUM**

(Penicillin)

PHARMACY - penic. Penicillinum. Penicillin. The antibiotic drug. The sodium salt of Benzyl-penicillin of Penicillin G is used. Crystalline powder, white, odorless, soluble in water with a slightly bitter taste. **Historical dose:** All potencies.

CLINICAL - **Allergies.** Angina. Asthenia. Asthma. Boils. Chills. Chronic, fatigue. Colds. Colitis. Collagen, diseases. Conjunctivitis. Constipation. Coryza. **Diarrhea.** Ecchymosis. Eczema. Fever. Headache. Lumbago. Neuralgia. Proctitis. Reticular, endotheliosis. Toothache. Tubercular, conditions. Sinusitis. Styes. Sycosis. Vaginitis. Vertigo.

HOMEOPATHIC - The antibiotic penicillin has been used homeopathically to antidote the affects of penicillin when it has been over prescribed to patients.

Indicated in those who have never been well since taking this drug. Chronic fatigue syndrome. Nervous trembling. Limbs cold with paresthesia. Intermittent neuralgic pains. Asthenia, shivering, sub-febrile condition. Fever continues for a very long time, worse in the evening. Hot or cold perspiration with a stale odor. Changeable sycotic condition with boils, skin diseases, warts and muco purulent weeping. Ecchymosis. Recurring angina. Chronic diarrhea.

MIND - Increased cerebral activity, quickly followed by considerable asthenia. Mental cloudiness. Everything seems sad. Indisposition to talk. Feels very lax and tired. Fidgety.

Abdomen - Epigastric and peri-umbilical cramping pains with flatulence.

Back - Lumbago, worse morning, better motion. Rheumatic pains in the muscles and small of the back. Aching in side of neck. Painful swelling in glands of the neck below the ear.

Chest - Pain in right side of chest wall.

Ears - Buzzing in the ears. Boil or eczema in the auditory canal.

Eyes - Tearful. Conjunctivitis with eyelids stuck together and puffy in the morning, especially the lower lid. Eczema on the lids. Styes, which appear slowly. Neuralgia above and behind the right eye.

Female - Menses late and scanty. Yellow or white leucorrhea, non-irritating.

Food - Great thirst. Desires sweets.

Head - Head heavy with nausea, worse on movement, better when lying down and resting and by eating. Sharp pain in forehead over the left side. Pain in the occipital region and just below, worse on awakening and in the evening. Right frontal headache with sinusitis.

Heart - Pain in the precordial region, worse on waking. Extra systole, rapid, irregular pulse.

Kidneys - Bilateral kidney pains, spreading towards the lumbar and sacral regions. Urine scanty, albuminous, edema. Deposit of lithates in the urine.

Limbs - Shooting, wandering pains in various parts of upper and lower extremities, worse night. Lightning pains, aggravated by movement, accompanied by prickling beneath the skin. Intermittent pains in the legs. Numbness of hands, arms, and legs in bed at night. Violent cramp in right leg at night. Joint pains with muscular edema, aggravated by movement. Pain on ball of right shoulder worse night, and light motion. Pain in right shoulder and interior of right upper arm and forearm. Pain left shoulder and arm. Aching in fingers and finger tips.

Lungs - Dry, raucous cough, sometimes fitful, making the patient bend double, better by resting. Thick, yellow or whitish- yellow sputum. Sternal and supra-sternal pains. Asthmatic dyspnea at 4 a.m.

Modalities - Better by rest, pressure, warmth, dry sunny weather. Worse from cold and damp, movement, 4 a.m. The pains are worse at night and in damp, stormy weather.

Mouth - Dryness of mouth. Mucus membranes of the mouth red with whitish spots and slight bleeding from the gums. Root of tongue yellowish-brown and imprint of the teeth stays marked on the tongue.

Nose - Coryza with thick, yellow, trailing discharge. Yellow mucus discharges. Right frontal sinusitis.

Perspiration - Sour smelling sweat.

Rectum - Constipation with empty urging. Chronic diarrhea. **Loose stools.** Stabbing pain up rectum. Proctitis.

Skin - Changeable sycotic condition with boils, skin diseases, warts and muco-puru- lent weeping. Boils, especially on the face, with edema. Eczema, oozing out a pale liquid. Herpes-type eruption on the face. Weeping, macerated impetigo mycosis of the epidermis. Warts. Acne.

Sleep - Heavy or light sleep, waking in the early morning, at 4 a.m., accompanied by feeling of discomfort.

Teeth - Teeth feel too long. Incisors feel on edge. Teeth painful, especially the upper right incisors and canines, spreading towards the right maxilla. Toothache, aching, upper right side, changing from place to place, worse hot or cold drinks.

Temperature - Chilliness, feeling of icy- coldness in different parts of the body, especially the thorax and loins. Sub febrile condition with slight rise in temperature in the evening, which does not go above 38°C.

Vertigo - Vertigo, aggravated by movement with nausea. Dizzy, worse towards evening.

RELATIONS - Compare: (1) Bry. - Joint pains, aggravated by movement, edema. (2) Nat-s. - clammy, puffy, hydrogenoid type, aggravated by humidity. (3) Thuja. - clammy, sycotic type with dirty, warty skin. (4) Ars. - aggravation from midnight to 3 a.m., chilly, diarrhea, anxious, restless. (5) Puls. - mucopurulent, catarrhal condition, moody, yearning for consolation.

***PENTHORUM SEDOIDES

(Virginia Stonecrop)

PHARMACY - pen. Penthorum sedoides. Virginia stonecrop. N. O. Crassulaceae. Pentho- raceae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphonia. Coryza. Diarrhea. Headache. Hemorrhoids. Hoarseness. **Postnasal catarrh.** Sacrum, pain. Sinusitis. Varicocele.

HOMEOPATHIC - Hale said Pen. is reputed to be curative in catarrh and in diarrhea. A scalded sensation in the tongue is one of the symptoms. A sense of levitation was also produced. The symptoms proceed from above downward.

Chronic disorders of mucus membranes with irritability. Chronic post-nasal catarrh, chronic pharyngitis, mucus membrane purple and relaxed. Coryza with rawness and wet feeling in nose. Hypersecretion of mucus membranes.

Posterior sinuses feel moist and raw, nose and ears feel full. Throat feels raw. Aphonia, hoarseness, relaxed vocal cords. Trouble in pharyngeal vault and Eustachian tube. Itching of anus and burning in rectum. General malaise, headache, weakness of limbs inability to attend to business.

MIND - Dull, discouraged and despondent. Mind is dull, study impossible. Inability to attend to business.

Abdomen - A clawing, uneasy sensation about umbilicus, which gradually passed to lower bowel. Twitching in muscles of abdomen. Parietes of abdomen felt thickened. Borborygmus.

Back - Aching through basilar region from back to front. Aching in sacrum and sacroiliac joint. Heat in sacrum with headache.

Ears - Ringing and singing in both ears.

Eyes - Inner, upper tarsal borders itch and burn. Full sensation in supra-orbital region. On closing eyes, felt like floating, vertigo.

Food - Appetite increased.

Head - Dull, heavy headache with heat and soreness in sacrum. Catarrhal aching in forehead. Weight in sinciput. Itching of hairy scalp.

Kidneys - Dull aching in kidneys. Bladder sore to pressure. Urine increased, alkaline, burning along urethra when urinating.

Limbs - Arm numb. Hand felt swollen. Trembling feeling of legs for several days with soreness of knees.

Lungs - In morning a cough from deep in chest with soreness throughout chest.

Male - Sexual orgasm. Weakness, almost satyriasis, followed by long-continued depression, approaching impotence. Varicocele.

Mouth - Prickling, burning sensation on tongue as though scalded. Increased flow of saliva (bloody).

Nose - **Constant wet feeling in nose**, which no amount of blowing will relieve. Discharge thick, pus-like, streaked with blood. Posterior sinuses feel raw as if denuded of epithelium. **Post-nasal catarrh** of puberty.

Rectum - Constipation, an atonic condition of bowels and rectum. After being constipated, semi-fluid evacuation next morning. Burning in rectum at stool, continuing after. Itching of anus, hemorrhoids with aching in sacrum and sacroiliac joint. Crawling in lower rectum as though a worm tried to escape.

Stomach - Disgust and nausea. Forcible eructation and ejection of small quantities of odorless flatus.

COMMENTS - Pen. was proved by Dr. D. B. Morrow (twice), Dr. Scudder and a young man, who all took substantial doses. The majority of the symptoms are Morrow's, including the catarrhal symptoms, which have been verified in practice.

"A peculiar wet feeling in sinuses as though a violent coryza would set in," but it did not, the secretion became thickened and pus-like but not increased.

The same "wet feeling" was experienced at the same time in trachea and bronchi, which passed from above down as if coryza would set in, followed by a slight feeling of constriction in the chest, which also passed from above down.

The next day the nose felt stuffed. The third day the first symptoms were repeated and the discharge became thick, pus-like and streaked with blood and there was an odor in the nose as if from an open sore.

Scudder had "fullness in nose and ears." Morrow experienced itching at anus, hemorrhoids and pains and sensations in rectum, sacrum and sacroiliac joints, his first proving cured "heat and soreness in sacrum with a dull, heavy headache."

Morrow reported two cures, the first, Miss P., 17, blonde, had severe cough of several weeks' duration. Worse by talking or singing. Frothy, greenish sputa. Puls., and Phos. failed, Pen. soon cured.

The second concerned a decrepit old woman, 75, suffered from eczema for twelve years. Previous winter cured of asthma (probably from suppressed eczema) with Sulph. 100,000c. Now parietic right side, for which Phos. was given.

But Phos. did not relieve a loose, continual, rattling cough, caused by tickling at bifurcation of bronchi with raising much thick, frothy, greenish sputa. Pen. pellets quickly cured.

RELATIONS - Compare: (1) Pen. often follows Puls., Sang., Hydr. (2) Sedum acre.. Hydrang.

(3) In scalded sensation on tongue and in catarrh, Sang. (4) Catarrh, Puls. (5) Levitation. Cann-i., Cocc., Ph-ac., Stict., Sulph., Thuj. (6) Jerking of limbs, Meny., Psor.

(4)

***PEPSINUM

(Pepsin)

PHARMACY - pep. Pepsinum. Pepsin. Digestive enzyme from the mucus membrane of the stomach of pigs sheep or cow. **Historical dose:** All potencies, first to thirtieth potency.

HOMEOPATHIC - Imperfect digestion with pain in gastric region. Diarrhea due to indigestion. Marasmus of children who are fed on artificial foods. Diabetes. Gout. Diseases of pancreas.

REFERENCES - Boericke.

***PERSEA AMERICANA

(Avocado)

PHARMACY - pers. Persea americana. Avocado. Alligator pear. N. O. Lauraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Arthritis. Coughs. Diarrhea. Emaciation. Gout. Hair, loss. Impotence. Infertility. Malnutrition. Skin, disorders. Worms. Wounds. Wrinkles.

HERBAL-Throughout the Aztec empire, avocado was used as both a food and medicine. All parts of the tree was used for medicinal purposes. Native Guatemalans have long used the avocado to stimulate hair growth, repel worms, and treat diarrhea.

The fruit is highly nutritious, containing calcium, phosphorus, iron, and vitamins. Avocado is rich in potassium

and vitamins B6 and E, which can help in relieving stress and sexual problems, such as infertility and impotence.

Although many believe that avocados are fattening, they contain a high amount of mono-unsaturated fats, particularly oleic acid, making it a powerful antioxidant food. The oleic acid offers protection against heart disease, strokes, and cancer. There is some evidence to suggest the fruit can help lower cholesterol.

The fats are also easily digestible and contain anti-fungal and antibacterial actions that, when pureed, make an excellent food for invalids, convalescents and sick children. In some parts of Africa, the fruit pulp is used as a baby food.

Externally, the fruit soothes the skin, helps heal wounds, and stimulates hair growth. Avocado oil nourishes and softens rough, dry, or flaking skin. Stimulates the production of collagen, helping reduce the appearance of wrinkles.

Avocado leaves have anti-tussive properties and increase biliary secretions. The leaves and bark are used to treat diarrhea, gas, and bloating, as well as to relieve coughs, liver obstructions, and clearing out uric acid. They can also stimulate menstruation and induce abortion.

The rind can expel worms. The seed is rich in tannins, and used as a cloth dye or to treat diarrhea. The oil has been used to help reduce gout pain. A decoction reduces arthritis pains.

REFERENCES - Murphy.

***PERTUSSINUM

(Whooping Cough Nosode)

PHARMACY - per. Pertussinum. Whooping cough nosode. Pertussin. Coqueluchinum. **Historical dose:** All potencies.

CLINICAL-Anorexia. Asthenia. Bronchitis. Chemosis. **Choking.** Convulsions. **Coughs.** Cyanosis. Mastoiditis. Myelitis. Nosebleed. Paralysis. Polyneuritis. Tachycardia. Vomiting. **Whooping cough.**

HOMEOPATHIC - Per. is taken from the glairy and stringy mucus containing the virus of whooping cough. Introduced by Clarke for the treatment of whooping cough and other spasmodic coughs.

In Clarke's experience, it agrees well with all other whooping cough remedies and when their specific indications appear he gave them in alternation or alone. Per. is an unproved remedy, except in the sense that every case of the disease is a proving. Can be used a preventive in **whooping cough** or to treat the disease.

Spasmodic coughing attacks. Dry cough, spasmodic of different intensity, comes suddenly. Repeated coughing fits which end in vomiting. Increasing jerking cough with cyanosis, with a phase of apnea followed by the taking of respiration. Predisposition to tuberculosis.

Asthenia. Convulsions. Muscular jerks. Neuro-motor deficit. Polyneuritis. Paresis. Paralysis. Myelitis. Hemorrhage from the meninges. Anorexia. Sleepy and in a state of confusion. Troubles of conscience.

MIND - Psycho-motor or sensorial troubles. State of confusion. Restlessness. Troubles of conscience. Cries, tears.

Chest - Stinging pain in or on the chest with cough.

Ears - Mastoiditis.

Eyes - Chemosis. Tears. Coryza with hacking cough.

Face - Intense flushing with cough.

Heart - Cyanosis, sweats, weakness. Tachycardia.

Lungs - Bronchitis. Dyspnea with cough. **Whooping cough.** Strangling sensation with cough on waking.

Spasmodic choking cough. Spasmodic cough with intense flushing of face. Hacking cough with coryza.

Deep-sounding croupy cough. **Coughing in frequently repeated attacks.** Cough provoked by intense tickling in throat, fauces or trachea. Sobbing or sighing at end of cough.

Modalities - Worse by laughing, emotion, effort, rest or nervous shock.

Mouth - Itching of the palate on lying down at night. Ulceration of the tongue.

Nose - Nosebleed.

Stomach - Vomiting or nausea at end of cough.

Throat - Laryngo-spasms. Spasm of the glottis. Intense tickling in throat causing cough.

COMMENTS - Clarke gave the 30c every four hours in all cases of whooping cough, suspected or defined, as a matter of routine, and as a rule it quickly assumed control of the case and did all that was necessary.

Dr. Sheppard wrote about giving Per. for whooping cough prophylaxis. "Pertussin 30c acts well as a protective against whooping cough. 364 cases were given daily doses of pertussin for two weeks after contact.

"Many of these cases were seen in the day nurseries under my care and not one of these children developed the disease. As two of the nurseries took in children from two weeks old, it was most essential that they should not be exposed to the infection, and it was gratifying to find that Pertussin was a means of preventing the

spread of the disease.

"In another private school, a child came back after the holidays with a fully developed whooping cough, in spite of carrying a doctor's certificate as being free from any infectious disease. All the twelve children in her class were infected.

"The headmistress, on my advice, gave Pertussin 30 four doses hourly, and the children had the mildest attack of whooping cough she had ever seen. She was grateful to Homoeopathy, and to the nosode Pertussin for turning so serious a disease into a mild one."

RELATIONS - Compare: (1) Dros., Bell., Cor-r., Cupr., Napht., Meph., Passi., Coc-c., Mang-p.

REFERENCES - Boericke. Clarke. Julian.

***PESTINUM

(Plague Nosode)

PHARMACY - pest. Pestinum. Plague nosode. Plaguinum. Trituration of the micro-organism. **Historical dose:** All potencies.

CLINICAL - Bubo. Plague. Typhus.

HOMEOPATHIC - The prophylaxis and treatment of plague with injections of a more or less modified virus of plague by old-school practitioners affords evidence that the nosode of plague is available, like other nosodes, for the treatment of cases of the disease from which it is derived.

REFERENCES - Clarke.

***PETIVERIA TETRANDRA

PHARMACY - peti. Petiveria tetrandra. Erva de pipi. N. O. Phytolaccaceae. Trituration of fresh root. **Historical dose:** Trituration and all potencies.

CLINICAL - Conjunctivitis. Paralysis. Paraplegia.

HERBAL - Allen said that P. tetrandra is probably identical with the Mexican and West Indian species, P. alliacea.

Mure's figure corresponds to this and he said the roots, which are branching and fibrous, "**smell strongly of garlic.**"

P. alliacea, according to the Treasury of Botany is called "Guinea-hen Weed" in West Indies and "Raiz de Guiñe" in Brazil. In Brazil it is put into warm baths to restore motion to paralyzed limbs. Mure did not mention these names or this use, but his proving brought out some strongly confirmative symptoms.

HOMEOPATHIC - Mure's proving showed some strongly confirmative symptoms in numbness and paralytic sensations, weariness and weight of eyelids. Cold saliva internal coldness, coldness inside bones were experienced.

Modalities - Worse by movement, bending backwards, during and after dinner. Worse in the morning, on waking and on rising, after breakfast.

RELATIONS - Compare: (1) Phyt. (2) Rhus-t. - In paralysis. (3) Cist. - Cold saliva.

REFERENCES Clarke.

***PETROLEUM OLEUM

(Crude Rock-oil)

PHARMACY - petr. Petroleum. Crude rock oil. Oleum petrae album. Kerosene. Coal oil. Trituration and tincture of the rectified oil. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Allergies. Addison's disease. Albuminuria. Anemia. Angina pectoris. Anus, fissure. Bedsores. Breath, offensive. Bums. Chilblains. Chlorosis. Constipation. Cracks in skin. Deafness. Diarrhea. Dysmenorrhea. Dyspepsia. Ear disorders. **Eczema.** Face, rough. Facial paralysis. Feet, painful. Fester, tendency. Fistula. Frostbite. Gastric ulcer. Gonorrhea. Hands, chapped. Headache. Hemorrhoids. **Herpes.** Herpes. Irritation. Jaw, dislocated. **Motion, sickness.** Myopia. Nose, sore. Otorrhea. Perspiration strong. Pregnancy. Presbyopia. Prostatitis. **Psoriasis.** Rheumatism. **Seasickness.** **Skin disorders.** Sprains. Syphilis. Tabes mesenterica. Tinnitus. Toothache. Urethra, stricture. Varicose veins. **Vertigo.** Vomiting. Warts.

HOMEOPATHIC - Petrolatum (vaseline) consists of hydrocarbons of the paraffin series, obtained from residues after distillation of lighter oils from crude petroleum, or deposited from crude petroleum on standing. Petroleum is made by agitating the liquid commercial petroleum with sulphuric acid and then rectifying the portion which this acid does not act upon. It is "a light oily fluid, colorless or of a pale straw color and strong characteristic naphthalic smell. Dropped on white paper it evaporates completely, leaving no greasy stain."

Petr. was proved by Hahnemann and is one of his leading anti-psorics, closely related to Graph. It is suited to long lasting, deep-seated, wasting diseases, lingering gastric and intestinal troubles with or without ulceration.

In Clarke's experience, no remedy corresponds to more cases of chlorosis in young girls, with or without ulceration of the stomach.

The disorders met with in petroleum extractors and refiners are diseases of the skin and subcutaneous tissue, depressed nutrition, anemia, dyspepsia, nerve troubles, irritability insomnia, respiratory disorders. In addition to these is a kind of intoxication.

Petr, chiefly acts on the skin, especially folds, scalp, face and genitals, sweat and oil glands. Cracked skin. Unhealthy granulations after severe burns. Discharges are thick, purulent, yellowish green.

Car, train or seasickness. Ailments from riding in cars, carriages or ships. **Long-lasting complaints** follow mental states- fright, vexation, etc. Ailments are **worse during the winter**. Dread of open air with shivering when exposed to it.

Great weakness, fainting, tremor, twitching of limbs, catalepsy tonic spasms, left-sided paralysis. Tremulous weakness. Wooden feeling. Bristled soreness, worse in joints. Internal itching. Coldness in spots, in abdomen, in heart, after scratching.

Dryness in ear, nose, etc. Catarrhal condition of the mucus membranes, of stomach and bowels. Lingering gastric and lung troubles, chronic diarrhea.

Strumous diathesis, especially the dark type, who suffer from catarrhal conditions of the mucus membranes, gastric acidity and cutaneous eruptions.

Enlarged glands. Emaciation, especially of chest. Feels sick internally. Hemorrhages, blood light red, worse lifting or riding. Dropsy. Burnings.

MIND - Mental weakness and forgetfulness, with deep-seated disease. Very forgetful, disinclined to think. Loss of memory. Irrresolution. Confusion while walking in open air.

Presence of strangers aggravates. Anxiety in a crowd. Worries but does not know why. Anxiety and apprehension about his family. Anxiety with fear. **Fear**, long lasting. Anxiety increases until he becomes inconsolable.

Feeling of helplessness. **Low-spirited with dimness of sight**. Sadness during menses, with weeping. Melancholy. **Feels that death is near and must hurry to settle affairs**.

Irritable, easily offended, vexed at everything. Excited, irritable after sex with inclination to be angry and to scold. Cursing. Intolerant of contradiction. Anger with fright. Quarrelsome in morning.

Sense of duality, thinks he is double of someone else lying alongside or one limb is double. **Delusion there are two babies in the bed**. Delusion that she has a third leg which would not remain quiet.

Abdomen - Inflated abdomen. Sensation of coldness inside. Pinching colic, better bending double. Navel ulcerated in infants.

Back - Neck, stiff and painful, cracks when moved. Weakness in small of back. Pain in spine and all over the body with sciatica. Coccyx painful on sitting. Pain in sacrum, worse standing erect. Sharp pains shooting up dorsal spine into occiput, in confinement.

Breasts - Itching and mealy coating of nipple.

Causations - Ailments from riding in cars, carriages or ships (Nit-ac has deafness). Vexation. Ill effects of sprains or suppressed eruptions. Cabbage.

Chest - Oppression of chest, worse cold air.

Constitutions - Suited to persons with light hair and skin. For lean, slender persons.

Ears - Ears sore to touch. Dryness in ears. Eczema in and behind ears with intense itching. Moist spots behind the ears. Fissures in meatus. Discharge of pus and blood from the ears. Itching deep in ears in Eustachian tubes. Chronic Eustachian catarrh. Dry catarrh with deafness and noises. Ringing and cracking in ears. Diminished hearing. Deafness with noises in ears in the elderly. Noise from several people talking is unbearable.

Eyes - Inflamed tarsi. Fistula lachrymalis (of recent origin). Blenorrhea of lachrymal sac. **Marginal blepharitis**. Canthi fissured. Skin around eyes dry and scurfy. Loss of eyelashes. Dim sight, far-sighted, cannot read fine print without glasses.

Face - Dry, as if covered with albumin. Pale or yellow, hot after eating. Easy dislocation of jaw.

Female - Dry, obstinate eruptions. Genitals sore and moist. Aversion to sex. Before menses, throbbing in head (Kreos.). Menstrual flow causes itching. Leucorrhea, profuse, albuminous (Alum., Calc-p.), with lascivious dreams. Prolapsed uterus from constant diarrhea.

Food - Hunger, causing nausea, wakes at night. Hunger immediately after stool. Desire for dainties, aversion to meat, fats, cooked or hot foods. Worse eating cabbage. Thirst for beer.

Head - Headache, worse shaking, while coughing, must hold temples for relief. Occiput, aching, heavy (Op.). Head feels numb as if made of wood. Scalp, sore to touch, followed by numbness. Sensitive scalp, **as if a cold breeze blowing on it. Moist eruption on scalp**, worse back and ears. **Falling of the hair**.

Heart - Cold feeling about heart (Carb-an., Nat-m.). Fainting with ebullitions, heat and palpitations.

Kidneys - Cystitis, urethritis. Stricture from chronic urethritis. Acute sudden urging, if not attended to immediately, will cause severe pain. Involuntary urine on rising.

Bedwetting at night. Dribbling of urine after urination.

Limbs - Limbs go to sleep. Chronic sprains. Cracking in joints. Joints stiff, particularly knees. Scalding sensation in knee. Stitches, blisters, cracks in heels. **Fingertips rough, cracked, fissured every winter.** Ragged, chapped hands and fingers, bleeding in housemaids. Psoriasis of the palms. Offensive sweat in axilla.

Lungs - Dry cough at night, coming deep from chest, waking the patient (in young girls and boys). Cough at night or worse at night. Shatters the head, better pressing. Cough produces headache.

Male - Sweaty genitals. Herpetic eruption on perineum. Itching in urethra. Prostate inflamed and swollen.

Modalities - Better warm air, dry weather, lying with head high. **Worse from motion of cars, trains, carriage, boat. Worse from dampness,** cold weather, **winter,** changing weather, before and during a thunderstorm. Worse from mental states, vexation, sex, touch. Worse eating, cabbage.

Mouth - Dry. Offensive smell like garlic. Ulcers on the inner cheek, painful when closing the teeth. Soreness, while chewing. Tongue, white in center, dark streak along edges.

Nose - Dry. Tip of nose itches. **Nostrils ulcerated, cracked, burn.** Ozaena with scabs and muco-purulent discharge. Nosebleed.

Rectum -Diarrhea, watery, gushing. Diarrhea or dysentery during the day, worse cabbage, then empty feeling. **Itching of anus** after stools. Hemorrhoids and fissures of anus with great itching. Herpes on perineum.

Sensations - Brain as if wrapped in a fog. As if everything in head were alive. As if head made of wood or as if bruised. As if a cold breeze were blowing on head. As if head would burst. Veil before eyes, sand in eyes. Jaw as if distended. As if something were tearing off from pit of stomach. As if a cold stone at heart. Upper and lower limbs as if stiff without joints. Splinter in heel.

Skin - Eczema with cracks in skin, worse in winter. **Psoriasis,** especially of hands. **Deep cracks** in skin folds, nipples, fingertips. **Cracks bleed easily,** worse in winter. **Dirty, hard, rough, thickened** like parchment. Skin gets raw, festers or **won't heal,** worse in folds. Slight injuries suppurate (Hep.). **Thick, greenish crusts, burning and itching, redness, bleeding.** Itching at night. Itching orifices with burning. Herpes. Chilblains, moist, itch, burn and turn purple. Brown spots. Bedsores. Skin is extremely sensitive, all clothing is painful.

Sleep - Restless with frightful dreams.

Stomach - Feeling of emptiness. Stomach pain when stomach is empty, relieved by constant eating (Anae., Sep.). Ravenous hunger. Must rise at night and eat (Psor.). Smells of garlic. Distention. Heartburn, hot, sharp, sour eructation. Pungent, acrid belchings. **Nausea** with accumulation of water in mouth. Vomits bitter green substance. **Seasickness and motion sickness.** Nausea during pregnancy, must stoop.

Temperature - Chilly with dry mouth. Chilliness, followed by sweat. Flushes of heat, particularly of the face and head, worse at night. Flushes of heat all over in frequent attacks during day. Palms and soles hot. Perspiration, foul on feet and axilla. Sweat in spots.

Throat - Dry. Hoarseness (Carb-v, Caust., Phos.). Foul mucus in throat, hawks out in the morning. Croup and laryngeal diphtheria.

Vertigo - **Vertigo on rising,** felt in occiput. Vertigo, as if intoxicated or as if seasick. Vertigo like that produced by swinging motion.

COMMENTS - Kent suggested Petr, for low conditions in which there is an inability to throw out eruptions on the skin or conditions in which an eruption has disappeared without improvement in health. Mucus membranes have catarrh. Ozaena, intestinal catarrh. Soreness and cracks about mucocutaneous orifices.

Severe irritability of the skin. Affinity for the scalp, behind the ears, skin folds, scrotum, and genitals.

Eczema (Sil., Graph.), especially of the hands and toes. Psoriasis (Nat-m., Graph.). Severely chapped skin. Chapped, rough hands.

Induration with cracks. Deep cracks that bleed. Painful cracks of the heels of palms of the hands. Fissures that ooze clear or yellow fluid. Skin feels tight, like wrapped leather. Thickened skin, hard, splitting.

Fingertips crack and bleed. Nails split and turn dark. Cracked nostrils. A slight wound or injury can suppurate easily. History of suppressed eruptions with unhealthy looking skin that doesn't heal well.

Marked burning sensations. Feet and palms burn (Sulph.). Severe itching, will scratch until the skin is raw and bleeding (Sulph.). Itching without eruptions. Feet feel frozen, tingling, numbness. Diabetic neuropathies (Agar.). Stinging and red. Very sensitive to clothing.

Scalp eruptions, moist and sensitive to touch. Athletes foot (Thuj., Sil., Graph., Psor., Sanie.), with offensive foot sweats, deep cracks between the toes, burning and itching of the skin. Offensive, smelly feet (Sil.).

Genital heipes (Nat-m., Rhus-t., Apis.). Vesicles with yellow fluid. Crusty appearance. Vesicles with yellow thick crusts that become moist, ulcerating, rawness. Sores pop, leaving a painful ulcer. Groin is itching and

red. Groin eczema, fungal infections.

Chilblains. Frostbite (Agar., Zinc.). Intermittent claudication, painful cramps and spasms, burning in hands and feet from poor circulation. Pain on touching something cold.

Skin symptoms are worse in winter. This modality gave Nash the key to several cases of eczema, chapped hands, chilblains and one case of chronic diarrhea, as soon as he discovered that the patient had eczema of the hands in winter. Petr. 200c was given.

A man, a patient of Clarke's who suffered from inveterate eczema and who had formerly been employed in a factory where much petroleum was used, noticed that his eczema was much better while working with petroleum.

He told Clarke that the vapor had the singular effect of making some of the workmen insane, causing desire to kill, hallucinations, they will see things not actually visible, for instance, "they will see the rails in a station when a train is on them."

"Falling out of the hair." Cooper clarified that Petr, "probably acts on the sebaceous rather than the sudoriferous secretions of the skin and its local action is on parts where the sebum is abundant."

Vertigo and heaviness, often associated with nausea and bilious vomiting. Useful for motion sickness or seasickness (Tab.,Cocc.). Carsickness, feels as if intoxicated. Faint and weak. Pale, cold, cold sweat, sinking nausea. Worse motion, better fresh air and cold water on face, closing eyes.

Headache in the occiput region with sickness. Heaviness like lead, pressure, sticking, pulsating, worse on shaking head or any jar. Pain travels from occiput to eyes and is associated with temporary loss of sight and fainting. Blocked Eustachian tubes and itching in the ears (Kali-m., Cham.). Dizziness, ringing in the ears.

"Oppression of the chest, worse in cold air." Cough coming from deep down in the chest and frequently waking the patient up at night, usually in children. Thick, purulent and yellowish green discharges.

Kent remarked on the awful ravenous hunger. Empty feeling, gnawing hunger, must eat small amounts. Hunger immediately after a stool in diarrhea, nervous affections, spinal disease, etc.

Irritability of the mind. Excitable, angry at trifles. Characteristic illusion that there is another person or another baby in bed has led to cures in cases of typhoid and puerperal fever with Petr.

RELATIONS - Antidoted by: Cocc., Nux-v., Phos. **Antidote to:** Nit-ac., Lead poisoning - one of the best remedies. **Compare:** (1) Carb-v, Graph., Sulph., Phos. **Complementary:** before Sep. **Compatible:** Bry., Calc., Lyc., Nit-ac., Nux-v., Puls., Sep., Sil., Sulph.

REFERENCES - Boericke. Clarke. Kent. Murphy. Phatak.

***PETROSELINUM SATIVUM

(Parsley)

PHARMACY - petros. Petroselinum sativum. Parsley. Carum petroselinum. Apium petroselinum. N. O. Umbelliferae. Tincture of whole fresh plant when coming into bloom. **Historical dose:** Tincture and all potencies.

CLINICAL - Blindness. Catheter, fever. Chills. **Cystitis**. Dyspepsia. **Dysuria**. Fevers. Flatulence. Gleet. **Gonorrhea**. **Gravel**. **Hemorrhoids** . Intermittent fever. Night-blindness. **Polyuria**. Priapism. Prostate, enlargement. Urethritis. Urinary, difficulties. Urticaria.

HERBAL - Parsley tea is a recognized domestic remedy for gonorrhea. Parsley eaten after meals, with or without salad oil, is reputed to act as a solvent on uric acid if there is a tendency to its formation in the urine. Fresh butter and parsley applied warm is an old remedy for bruises.

Cooper noted that an infusion is given to all children recovering from scarlatina by the matron of a suburban infectious hospital. An old gleet has been known to disappear from parsley infusion, and an Edinburgh surgeon used to give it in all nephritic and bladder diseases that were chronic. Parsley is said to be poisonous to ferrets.

HOMEOPATHIC - Hahnemann noted the usefulness of Petros, as gonorrheal remedy when there is a frequent desire to urinate. Affinity for the genito-urinary sphere. The leading indication is **sudden urging to urinate** and drawing, tingling, crawling or itching in navicular fossa. During urination, burning and tingling from perineum through whole urethra. After urination, cutting and biting in fossa navicularis. Very **painful urination** causing him to shiver, dance around the room in agony.

Gonorrhea with a milky or yellow discharge. **Dysuria** with prostatic enlargement. Urinary difficulties of babies. **Hemorrhoids with much itching**.

Back - Jerking or bubbling sensation in muscles of back and arms.

Ears - Shrill singing in ears like a bell ringing out of tune, which affects the whole organism.

Eyes - Blindness at night with swelling of eyes.

Food - Thirsty and hungry, yet as soon as they begin to eat or drink they lose all desire.

Kidneys - *Tingling*, lancinating, pressure and drawing in urethra. Burning, tingling from perineum throughout whole urethra. ***Dysuria and polyuria***. Frequent and almost fruitless desire to urinate, every half-hour. ***Sudden urging to urinate***, voluptuous tickling in fossa navicularis. Child suddenly seized with desire to urinate, if not gratified immediately, jumps up and down with pain. Urethritis. ***Gonorrhea with intense biting, itching, deep in urethra***. Milky fluid, albuminous yellow discharge from urethra. Orifice of urethra agglutinated with mucus. **Male** - Priapism, without curvature of penis. Urethritis. Pollutions, profuse emission toward morning. **Rectum** - Whitish evacuations like clay, chronic diarrhea. ***Hemorrhoids with much itching***. Burning at anus. **Skin** - Urticaria.

Sleep - Sleep late, with many anxious dreams.

Stomach - Twitching, jerking pains in epigastrium. Flatulent belchings, colic, nausea and vomiting.

Temperature - Ague, especially quotidian, marked periodicity, regular stages. Acute fevers from defective assimilation or perverted innervation, accompanied by flatulent dyspepsia. Intermittent fevers with abdominal disorders. Fevers with traumatic or chronic inflammation of urethra or even stricture.

COMMENTS - Petros, was proved by Bethmann. He obtained only thirty-six symptoms, all in the genito-urinary sphere, but these were very characteristic and have given the remedy a definite place in homeopathic medicine, especially in gonorrhea and gleet.

Farrington said Petros, is a great "baby medicine" for urinary difficulties. Hering collected symptoms from other observers. It has cured many cases of intermittent fever and traumatic or other urethral fevers.

Acute cystitis, urethritis. Burning and tingling in the urethra. Irresistible desire to urinate, frequent urination. Children will scream and yell with the urge to urinate, anticipating the pain. Bladder infections in children. Gonorrhea. Trauma to the urethra from catheters.

Clarke confirmed its efficiency in gonorrhea and gleet, giving ten-drop doses of the tincture. In a case of dysuria from prostatic enlargement there was frequent urging to urinate every half to three-quarters of an hour with burning pains in bladder and urethra.

Petros. 4x, three drops every hour took away all the pains and relieved the tenesmus in a few days. The prostate gland itself was not influenced.

RELATIONS - Compare: (1) In gonorrhea with sudden and frequent urging, Cann-s., Canth., Merc. (2) Screams before urinating from irritation of mucus membrane, Aeon., Caust., Bor. (3) Sars., Lyc. and Benz-ac. have screaming before urinating when due to gravel. (4) Gonorrhea, strangury, frequent urging to urinate, white stools, Dig. (5) Dig. has slow pulse often puffed prepuce, Sulph. indurated prepuce. (6) Cystitis, Con. - has intermittent urination, Petros, has inflammation that has traveled back, sudden, irresistible desire. (7) Bubbling in back, urinary disorders, Berb. (8) Uric acid tendency intermittent fevers, Urt-u.

***PHALLUS IMPUDICUS

(Stinkhorn Fungus)

PHARMACY - phal. Phallus impudicus. Stinkhorn fungus. N. O. Fungi. Tincture or infusion of whole fungus.

Historical dose: Tincture and all potencies.

CLINICAL - Gastro-enteralgia. Sweat, viscid. Vertigo. Vomiting.

HOMEOPATHIC - Kalieniczensko took five or six teaspoonfuls of an infusion of Phal. in twenty-four hours and observed the effects, which included vertigo, dullness, vision disordered, gastro-enteric disturbance and viscid sweat.

There is a general resemblance to the effect of Agar.

REFERENCES - Clarke.

***PHASEOLUS NANUS

(Dwarf-bean)

PHARMACY - phase. Phaseolus nanus. Dwarfbean. Phaseolus vulgaris. Kidney-bean. N. O. Leguminosae. Papilionoideae. Trituration of the dried bean. Decoction of dried beans and pods. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. Breast, tumors. Diabetes. **Dropsy**. Hematuria. Headache. **Heart, disorders**. Hernia. Hydrothorax. Impotency. **Palpitations**. Pericarditis. Pleurisy. Prostate, diseases. Wounds, punctured.

HERBAL - Clarke included under Phaseolus both Phaseolus nanus and Phaseolus vulgaris. The New Eng. Med. Gaz. published a translation of a pamphlet by Dr. Heinrich Ramm on the uses of "**Bean tea**."

A woman whom Ramm had treated in vain for mitral valve disease with liver and kidney complications and dropsy, presented herself one day apparently cured by drinking "Bean tea."

This led Ramm to try it in other cases and he found that kidney and cardiac dropsies were speedily relieved,

urine largely increased in quantity and in cases of albuminuria, where the albumen quickly disappeared.

HOMEOPATHIC - Some effects of eating mildewed beans in a child were recorded by W. Dale. A. M. Cushing and Demeures both proved *Phaseolus nanus*, but Cushing only published the symptoms observed on the heart.

Demeures, in his proving, experience severe headache from fullness in the brain. Breathing slow, pulse slow or extinct. "Irregular, weak pulse and heart failure." Soreness to touch in eyeballs, right rib, epigastrium, and right humerus. Diabetes.

Cooper noted that the inside of the pod rubbed on warts is said to cure them. A decoction of the shells has been used as a drink for diabetes, but can cause severe headaches.

Ramm noted it for dropsical effusion into pleural cavity, pericardium and peritoneum. Chronic disorders of the urinary tract from kidneys to urethra, pyelitis, bladder catarrh, gravel, stones, uric acid.

Ramm considered Phase, an important remedy in gout and diabetes. He used a decoction of the whole dried ripe pod "of the taller variety," *Phaseolus vulgaris*.

MIND - Could only be roused by speaking loudly. Frightened by irregular action of heart. Feeling that she would die with palpitations. **Abdomen** - Pressure on abdomen gave pain, child shrank from it and drew up legs. Dropsy. Pain like hernia in right inguinal ring, lasting all day.

Chest - Breathing slow and sighing. Sick feeling about heart with weak pulse. Pulse rapid. **Palpitations**. Right ribs sore. Dropsical effusion into pleura or pericardium.

Eyes - Pupils dilated, insensible to light. Eyeballs (especially right) painful to touch as from a blow. Scalding pain in right orbit. Very smart itching in inner canthi. Pain over right orbit worse from mental exertion.

Face - Features expressed suffering.

Head - Aches chiefly in forehead or orbits from fullness of brain, worse any movement or mental exertion.

Heart - **Fearful palpitations** and feeling that death is approaching.

Kidneys - Diabetic urine. Bloody urine. Uric acid gravel.

Limbs - Pain to touch in extremity of head, of right humerus.

Lungs - Breathing slow and sighing.

Male - Complete impotence. Prostate enlargement.

Modalities - Headache was worse by movement of the head or any mental exertion, reading or writing. Pressure aggravates.

Stomach - Pain in epigastrium when touched, especially in region of pylorus. Severe, dull pain in epigastrium, vomiting.

Temperature - Cold perspiration.

COMMENTS - Cushing's proving recorded disturbance of the nervous system, genital organs, impotence, stomach, bowels and kidneys and this symptom, which brought the proving to an abrupt close:

"I suddenly felt a curious sensation in the region of the heart. It was so sudden and strange I immediately felt my pulse and found it very irregular and feeble, so much so I think I was frightened, at least, I did not take any more of the medicine."

Cushing used this in his case of a female doctor, 30, married, no children, never ill except with children's diseases, had much mental trouble two years before and had done much cycling. Since then her heart had given trouble. About five times in a minute the heart would give one hard, unpleasant throb, then omit one beat. During the night it was much worse and prevented sleep. Phase. 10c was given.

Thirty-six hours later the heart would beat a hundred beats without varying and improvement continued, but the patient had to give up the remedy on account of the headache it caused, "as if something were pressing hard against each temple", much worse after each dose of the medicine. The patient was never subject to headaches.

He had another case, in which a man, 45, had dropsy, heart and other complications. Bean pod decoction enabled him to lie down on a couch and markedly diminished the dropsy.

A clergyman, 69, many years invalid on account of heart disease after unusual exertion was greatly exhausted and became entirely pulseless and so remained four days in spite of treatment until Phase. 9x was given. In a few hours pulse returned. In thirty-six hours it was regular and strong and so remained until his death, which occurred two weeks later.

In another case, Cushing observed a woman, 50, weak, tired, badly acting heart for some years. Phase. 9x was given and in forty-eight hours "her heart wheeled into line all right and remains so."

Another woman, 87, heart acted badly, every third beat omitted. After taking Phase, two days pulse quite right. A nurse, 50, "had fearful time with her heart palpitating and feeling as if she should die," Phase. 15x cured. The patient "never took anything in her life that did her so much good."

In a confinement case, with primipara, urine loaded with albumen, frightful convulsions, forceps delivery. Two

hours later the heart failed and no stimulants would start it.

Phase. 9x was given and in ten minutes the heart was all right. Twice in the night the dose had to be repeated, but that was all. The albumen rapidly disappeared and a quick recovery was made.

S. R. Stone reported the case of Mr. T., 69, whom he found semi-conscious, yet suffering severely, having been seized with distress in heart region, respiration labored, pulse 51. He had attacks previously, but lighter and the pulse in them had always been slow.

Phase. 6x was given, at first every halfhour, then every hour. The next day the patient was nearly well and said he "could feel every dose working."

RELATIONS - Compare: (1) The Legumi- nosae. (2) In heart, Dig., Crat., Spig., Lach., Thyr., (3) Punctured wounds, Hyper., Led. (4) Diabetes, Syzyg., Nat-s., Uran-n.

***PHELLANDRIUM AQUATICUM

(Water Dropwort)

PHARMACY - phel. Phellandrium aquaticum. Water dropwort. Oenanthe phellandrium. Fine-leaved water-hemlock. Horse-bane. N. O. Umbelliferae. **Historical dose:** Tincture and all potencies.

CLINICAL - Bronchitis. Emphysema. Tuberculosis.

HOMEOPATHIC - Phel. acts on lungs and nerves. The respiratory symptoms are most important and have been frequently verified clinically.

Catarrhal conditions of the respiratory tract. Bronchitis and emphysema. **Offensive expectoration and cough in tuberculosis.** Hemoptysis. Tuberculosis, affecting gener-

Phellandrium aquaticum ally the middle lobes.

Everything tastes sweet. Hectic and colliquative diarrhea. As if all the blood vessels were in vibratory motion. Feeling of tiredness while walking.

MIND - Peevish arrogance.

Breasts - Pain in nipples. **Pain in milk ducts**, intolerable between nursing.

Eyes - Only half open and look as if one has been crying for a week. Burning in eyes. Lachrymation. Ciliary neuralgia, worse any attempt to use eyes. Intolerance of light.

Face - Livid red in the evening.

Head - Headache involving nerves going to eye. Clang like striking on metal in brain, waking him. **Weight on vertex, aching and burning in temples and above eyes.** Crushing feeling in vertex.

Lungs - Expectoration, horribly offensive (like bedbugs), loose, profuse, smeary, causing dyspnea. Cough compels him to sit up. Sticking pain through from left border of right breasts to between shoulders. Pains going backwards through chest.

Modalities - Better while nursing. Worse air, cold, open. Worse from using eyes.

Sleep - So sleepy, would fall asleep while standing at work.

Stomach - Everything tastes sweet. Desires sour things, milk or beer. Aversion to water. Belchings smelling of bed bugs.

Vertigo - Vertigo, dizzy when lying down.

COMMENTS - This remedy, proved by Nen- ning, has a few striking symptoms, although it is rarely used and very little known. Generally right-sided.

Continuous cough for hours in the morning accompanied by dyspnea and prostration. Coarse rales, compelling the patient to remain in a sitting posture. Bronchitis and tuberculosis. Last stage of tuberculosis when a cavity has formed in the lungs and there is edema of the limbs. Diarrhea, difficult respiration and profuse sweat.

Affinity for the female breasts, specially the right one. The nipples pain each time the child is put to the breast. The pain shoots inward and backward to the shoulder and to the sacrum.

Intolerable pain in the right breast along the course of the lactiferous tubes immediately after nursing, causing physical and mental distress, loss of strength, and hysterical weeping. Removes abnormal sleepiness in women after childbirth.

Usher reported a cure with Phel. in a woman, who would go off to sleep standing over her wash-tub.

REFERENCES - Boericke. Clarke.

***PHENACETINUM

PHARMACY - phenac. Phenacetinum. Para- acetphenatidine. Derivate of anilinum. **Historical dose:** All potencies.

CLINICAL - Cyanosis. Face, eruptions. Fevers. Headache. Perspiration, excessive. Typhoid fever. Uremia.

HOMEOPATHIC - Phenac, belongs to the Aniline group and was introduced into old- school practice as a

remedy in febrile states and neuralgias.

Clarke added a symptom observed on a young woman who had taken Phenac, for headaches. She had a circumscribed rash on both cheeks which came out red, lasted four days and then peeled and as soon as it was clear the process was repeated.

Clarke tried many remedies with varying success, but it finally disappeared under Alum. 30c, one powder at bedtime.

REFERENCES - Boericke. Clarke.

***PHENOBARBITALUM

(Phenobarbital)

PHARMACY - phenob. Phenobarbitalum. Phenobarbital. Gardenalum. Allopathic drug. **Historical dose:** All potencies.

CLINICAL - Acetonemia. Allergies. Asthma. **Convulsions.** Coryza. Digestive, disorders. Eczema. Edema. **Epilepsy.** Erythema. Food, allergies. Headaches. Liver, deficiency. Phenobarbital, poisoning. Urticaria. Vesicles.

HOMEOPATHIC - Phenobarbital is derived from phenylethylmalonylurea or gardenal.

Chronic poisoning from phenobarbital and the other barbiturates, especially in cases of digestive or skin intolerance. Eczema,

especially weeping eczema. Food, allergies. Digestive complaints from intolerance to foods (fish, Crustacea, cream). Physical and psychological depression, tiredness and sleepiness.

Liver deficiency. Alternation of classical allergic phenomena including asthma, eczema, and spasmodic coryza. Nasal and pharyngeal itching. In the child, prurigo coexists or alternates with acetonemia.

Urticaria, either in patches, confluent or isolated. Vesicles dry or weeping when scratched with a syrupy liquid, which is usually cloudy. Itching edema. Itching and often vesicular erythema.

MIND - Mental depression alternating with hyper-excitability. Hypersensitive. Acrimonious. Memory weak.

Abdomen - Abdominal heaviness. Intestinal sluggishness. Chronic or occasional hepatic deficiency.

Blood - Acetonemia in the child.

Constitutions - Phospho-fluoric or flouric, normal or with hypo-laxity with irregular teeth and marked clinical manifestations.

Eyes - Eyes tearful, eyelids heavy, puffy, itching. Sight tires easily, especially after prolonged reading.

Face - Edema of the face. Impression of peripheral congestion of the face and hands.

Female - Menses ameliorate the complaints.

Food - Food, allergies. Worse from eating fish, Crustacea or cream.

Head - Headaches with heaviness in the head, at any time.

Modalities - Better from diet, rest, calm and menses. Worse from rest, heat, heat of the bed, at night, from air. Worse from eating fish, Crustacea or cream. Worse from being contradicted.

Mouth - Bitter taste in mouth.

Nose - Nasal and pharyngeal itching.

Skin - Hot feeling in the fine areas of skin. Itching with stinging and burning, changed little by heat or cold, attended by excessive scratching to the point of smarting and discharge. Urticaria. Erythema, more or less intense, locality varies. Scarlet fever

type erythema. Vesicular eczema, usually oozing with syrupy or oily liquid.

Sleep - Easily tired, sleepy during the day, needs sleep.

Stomach - Nausea in the morning. Epigastric discomfort.

COMMENTS - The proving was carried out by Vannier on four people, using potencies from 30c to 1c, two doses a day, for one week, decreasing the doses from potency to potency, over a period of ninety weeks. All the symptoms appeared with 4c, also with 3c, 2c and 1c.

RELATIONS - Compare: (1) Urt-u. - Urticaria appears, especially after too much shell-fish and often is more marked on knees and elbows. (2) Apis - Rosy edema, burning and red of the eyelids. Always improved by the cold. With phenobarbital, it is somewhat whiter and unaffected by the cold. (3) Kali-c. - Swelling of the inner corner of the upper eyelids. He wants to be alone. (4) Bell. - Erythema without edema, general symptoms more violent with intense redness, but no real itching. (5) Rhus- t. - Edema with herpetic vesicular eruptions, burning discharge from the eyelids. Need for movement and cold very marked. (6) Ran- b. - Blisters and itching, but no edema. (7) Sulph. - Pruriginous redness with or without blisters with or without edema and frequent alternation with other allergic complaints or complaints caused by self-intoxication.

REFERENCES-Julian.

***PHLORIZINUM

PHARMACY - phlor. Phlorizinum. Phlorizin. A substance discovered in the fresh bark of the apple, pear, cherry and Plb. solution. Trituration. **Historical dose:** All potencies.

CLINICAL - Diabetes. Glycosuria. Herpes. Intermittent fever.

HOMEOPATHIC - Phlor. exists in fine, silky, four-sided, colorless needles, soluble in water. It has a bitter and slightly astringent taste and has been used in old-school practice as a remedy for intermittent fever.

While being administered for this it has produced glycosuria. This observation led to its successful use by homeopaths in cases of diabetes.

Successes with the 3x and 6c have been reported.

A patient to whom it was given by Burnett accused him of having given him a preparation of apples. The man discovered it because it produced herpes along the dorsum of the penis, an effect which invariably occurred whenever he ventured to eat apples.

V. Mering produced glycosuria in dogs with Phlor., but if Syzyg. was given simultaneously with Phlor., no glycosuria appeared.

REFERENCES Clarke.

***PHOSPHORICUM ACIDUM

(Phosphoric Acid)

PHARMACY - ph-ac. Phosphoricum acidum. Phosphoric acid. Dilution. The dilute acid forms the homeopathic lx. The first solution is made of glacial phosphoric acid. **Historical dose:** Tincture and all potencies.

CLINICAL - Amblyopia. Anemia. **Apathetic.** Asthma. Bedwetting. Boils. Brain-fag. Breastfeeding, disorders. Bronchitis, capillary. Chancre. Chilblains. Cholera. Coccyx, pain. Condylomata. Coms. **Coughs. Debility. Diabetes. Diarrhea.** Dyspepsia. **Eclampsia. Emaciation.** Emissions. Enteric fever. **Fatigue, chronic.** Feet, sore. Flatulence. Ganglion. Gout. Gravel. **Grief. Hair, loss.** Headache, school children. Hectic. Herpes. Hip joint disease. **Homesickness.** Impotence. Levitation. Lien-teria. Locomotor, ataxia. **Love, disappointed.** Masturbation. Menopausal flushes. **Mental, weakness.** Navel, pains. **Neurasthenia.** Nymphomania. Osteomyelitis. Perspiration, profuse. Phosphaturia. Physometra. Pimples. Polyuria. Pregnancy, nausea. Psoas abscess. Purpura. Rheumatism. Rickets. Sciatica. Scurvy. **Self-abuse. Spermatorrhea.** Spinal decay. Sycosis. Syphilis. Tetters. Typhus fever. Ulcers. Urine, phosphates. Uterus, prolapsed. Varicose veins. Vertigo. Warts. **Weakness.** Wens. Worms.

HOMEOPATHIC - Ph-ac. is less poisonous than Phos. Proved by Hahnemann, there is a marked action on the emotional and sensorial faculties, a drowsy, depressed, apathetic state is produced, such as is met with in typhoid fevers. Ph-ac. affects the mind, especially its emotional side. It influences sensory nerves, the sexual system and bones. The debility commonly found in acids is very marked in this remedy, producing a nervous exhaustion.

Conditions from a weakened immune system caused by **acute disease, sexual excesses, grief, loss of vital fluids. Weakness and debility** with free secretion, profuse urination, loss of fluids, sweatings etc. except with diarrhea. Heartburn, flatulence. Diarrhea, diabetes, rickets and periosteal inflammation.

Characteristic stupor on which the patient is easily aroused, then is fully conscious. Indifference. The mind is confused, thoughts cannot be connected, thinking makes him dizzy. Neurasthenia.

Hemorrhages with dark blood. Hemorrhages in typhoid. Formation of abscesses after fever. Decay. External parts become black, senile gangrene. Bone diseases. Osteitis. Gnawing pain in bones. Neurosis in stump after amputation, better from deep breathing.

Loose joints. Bruised soreness like growing pains. **Cancer pain.** Pains go to part lain on. Sense of pressure, as of causing weight in forehead in sternum in vertex in eyes, navel, breasts etc. Formication, at root of hair, along the spine, limbs. Coldness of parts. Sensitive to light, sound and odors, which takes away her breath. Particularly suitable for young people who grow rapidly and who are mentally or physically overtaxed.

MIND - Mental debility, followed by physical. Difficult comprehension. Slowness of mind and special senses. Impaired memory (Anae.). Prostrated and stupefied with **grief, effects of disappointed love. Homesickness.** Brain fag. Cannot collect his thoughts or find the right word. Forgetfulness of old people. Vanishing of thoughts on reading. Reflects long, then answers correctly, but slowly.

Mild, yielding disposition. **Apathetic. Indifferent to everything.** Listless and dullness. Answers reluctantly and slowly, or short and incorrectly. Aversion to talking. Wants to be left alone. **Wants nothing and Phosphoricum acidum cares for nothing.** Indifferent to those things that used to interest her the most.

Mental ailments with drowsiness, night sweats toward morning, emaciation. Silent ill-humor. Sadness only while walking, the longer he walks the worse he gets. Sadness from masturbation. Effects of **grief and mental shock.** Ailments from disappointed love, with silent grief.

Anxiety and doubt concerning recovery. Despair. Hopelessness. Dread of future, broods over one's condition. Discouraged in open air. **Pining with emaciation. Homesickness** with inclination to weep. Hysteria at menopause. Hysterical affections of young women, with excessive sensibility and irritability. Wildness from vexation. Mild delirium, easily aroused. Delirium with great stupefaction. Unconscious after strong emotions.

Abdomen - Aching in umbilical region.

Enlarged spleen (Cean.). Coldness. Distention and fermentation in bowels. Loud rumbling. Offensive, garlicky flatus.

Back - Pain in back and limbs, as if beaten. Lumbar region heavy, increases pain in legs. Boring pain between scapulae. Paralytic weakness along spine. Formication or burning along spine. Spondylitis of cervical vertebrae. Fine stitches in coccyx and sternum. Boils on buttock.

Breasts - Sharp pressure in left breast. Milk scanty, health deteriorated from nursing. Infants vomit milk constantly.

Causations - Ill effects of bad news, disappointed love, grief, chagrin, shock. Separation from home. Loss of fluids, sexual excesses. Over-lifting, over-study. Injuries, operations.

Chest - Takes cold from drafts on chest.

Chest troubles after brain-fag. Pressure or twisting behind the sternum, rendering breathing difficult. **Weak feeling in chest from talking** (Stann.). Dry cough from tickling in chest. Salty expectoration.

Constitutions - Suited to persons of originally strong constitution weakened by loss of fluids, excesses, violent, acute diseases, chagrin or a long succession of moral emotions. Children and young people who have grown too rapidly, tall,

slender and slim with pains in back and limbs as if beaten, growing pains. Persons of mild disposition.

Ears - Earache after blowing the nose. Shrill sound in ears on blowing the nose. Intolerance of noise, especially music, which causes stitches, even while singing himself. Illusions of hearing, hears bell pealing. Every sound re-echoes loudly in the ear. Roaring with difficult hearing. Nervous deafness after typhoid-like fevers.

Eyes - **Blue rings around eyes.** Lusterless, glassy, staring, sunken, dull appearance. Yellow spots on conjunctiva. Pupils dilated. Eyeballs feel large. **Pain as if eyeballs were forcibly pressed together and into head.** Optic nerves seem torpid. Photophobia, averse to sunlight. Sees colors as if a rainbow. Loss of vision from masturbation. Lids inflamed and cold.

Face - Pale, earthy, sickly. Tense as if egg white had dried on it. Sensation of coldness of one side of face. Acne from onanism. Hairs of beard fall out.

Female - Menses too early and profuse, with pain in liver. Itching, yellow leucorrhea after menses. Uterus bloated, as if filled with wind. Dysuria during pregnancy.

Food - Loss of appetite. Craves juicy things. Thirst for cold milk, **sodas, carbonated drinks**, mineral water, ice water. Sour food and drinks disagree.

Head - Crushing weight on vertex, pain as if temples were crushed, worse shaking or **noise. Pressure on top.** Dull headache after sex, from eyestrain (**Na.t-m.**). **School girl's headache** from over use of eyes (Ruta). Hair thins, turns gray early, falls out. Hair loss after grief or loss of fluids.

Heart - Irregular, intermittent pulse. Palpitations after grief, after masturbation, in children and young persons who grow too fast.

Kidneys - Burning in kidney region. **Diabetes. Frequent urination at night.** Bedwetting during first sleep. Urination preceded by anxiety and followed by burning. Urine is profuse, watery, **milky**. Phosphaturia. Whey-like urine shortly before menses.

Limbs - Weak. **Great debility.** Pains at night **as if bones were scraped.** Tearing pains in joints, bones and periosteum. Numbness along radial nerve. Stumbles easily and makes missteps. Formication in limbs. Burning below the waist. Cramps in upper arms and wrists. Heavy forearms. Wens on hands between metacarpal bones. Itching, between fingers or in folds of joints.

Liver - Liver, seems to be too heavy, painful during menses.

Lungs - Spasmodic tickling cough. Salty expectoration.

Male - Sexual power deficient. Weak, relaxed genitals during sex, preventing emission (Nux-v.). Weakness and pollutions after sex. Nightly emissions with lascivious dreams. Seminal vesiculitis (Ox-ac.). Prostatorrhea, even when passing a soft stool. Tender and swollen testes. Edema of prepuce and swollen glans penis. Sycotic excrescences (Thuj.). Herpes. Eczema of scrotum.

Modalities - Better from warmth, after short sleep, stool. **Worse from loss of vital fluids**, sexual excess, fatigue, surgery, convalescence from fevers. **Worse from emotions, grief, chagrin, mental shock**, homesickness, unhappy love. Worse chronic fright (Care.). Worse from being talked to, talking, sitting, standing, lifting. Worse cold drafts, music.

Mouth - Lips dry, cracked. Mouth dry. Taste of rotten eggs. Tongue swollen, dry with viscid, frothy mucus, slimy. Red streak in middle of tongue. Bleeding, swollen gums, retract from teeth. Painful nodosities on the gums. Teeth become yellow and feel dull. Teeth feel cold. At night, bites tongue involuntarily.

Nose - Bleeding. Nose swollen with red patches or pimples on tip of nose. **Itching**. Bores fingers into nose.

Rectum - Stools involuntary, escape with flatus. **Profuse, painless, dirty white, watery or lenteric stools**, odorless, with **little debility**. Diarrhea in weakly, delicate children with rickets.

Sensations - As if intoxicated, as if head would burst. As if weight in head, as if brain crushed. Bones as if scraped with a

knife. As if eyeballs too large. As if egg white had dried on face. As if lower jaw were going to break. Nausea as if in soft palate in throat. Heavy load in stomach. Uterus as if filled with wind. Tickling in chest as with a feather, as with down in larynx. Red-hot coal on arm and shoulder. As if ants crawling over body. As if feet going up.

Skin - Clammy, wrinkled. Pimples, acne, blood boils. Burning red rash. Tendency to abscess after fevers. Painless ulcers with stinking pus. Formication in various parts. **Falling out of the hair** (Nat-m., Sei.).

Sleep - Weakness is better from short sleep. **Sleepy by day**, hot and wakeful at night. Deep sleep, but when aroused, fully conscious, during fevers. Lascivious dreams with emissions.

Stomach - **Symptoms following sour food and drink**. Pressure as from a weight, with sleepiness after eating (Fei.). Acidity. Sour risings. Nausea.

Temperature - Low types of fever with dull comprehension and stupor. Sluggish, painless fevers. Fever with sweat. **Profuse sweat** during night and morning. Chilliness. Cold parts, one side of face, abdomen.

Throat - Dry palate. Hoarseness. Hawks up tough mucus.

Vertigo - **Vertigo toward evening**, when standing or walking. Vertigo, as if floating in the air, while lying in bed with ringing in the ears and glassy eyes.

COMMENTS - Convalescent remedy. Chronic fatigue since a debilitating acute. Heavy limbs, droopy eyelids, drained feeling, chills and fever (Gels.). Mononucleosis and flu with extreme weakness. Draining, debilitating chronic illness. Emaciation with dark circles around their eyes, sunken faces and apathy. Spacey and empty eyes.

Chronic fatigue with weight loss, especially after grief, emotional loss, loss of fluids, or fevers. Debilitated and tired since grief (Gels., Sil.). Grief, leading to falling of hair, premature senility and depression. The hair may turn gray or fall out in patches.

Homesickness (Caps.), with weight loss, insomnia, and pining. Chronic mental exertion or worry. Lack of emotions (Aur., Sep.). Apathetic (Gels.). Aversion to loved ones (Sep.), with weakness. Feels indifferent about future. Listless. Decreased mental function. Lack of direction, empty (Ign.). Blank mind, spacey, cannot concentrate.

May have a history of excessive sexual activity and loss of sexual fluids. Chronic seminal discharge, prostatorrhea. Weakness and apathy from masturbation or excessive sexual activity (Sei., Agn.). Effects of chronic masturbation. Severe impotence with a history of masturbation or too much sex. Lack of sexual desire or function. Used in some countries as a tonic for sexual debility. May have a history of drug use.

Vertigo with the sensation as if the feet were rising until he stood on his head. This symptom occurred in a patient of Skinner's suffering from smallpox. The disease had been cut short by Vario., when the patient, a woman, complained that her feet were rising to the ceiling and begged her nurses to keep them down. Ph-ac. speedily put her straight.

Illusions of the senses as well as of the sensorium, bells are heard, ciphers, sparks, etc., are seen. Exalted sensitiveness to light, sound and odors, "odors take away his breath."

Becher, one of Hahnemann's provers, noted that his right pupil became widely dilated while the left remained normal. The more he strained the eye, the wider the pupil became until the iris had almost disappeared.

Great weakness, better by short sleep (Phos.). Legs tremble when walking, limbs are difficult to control. "Weak feeling in chest from talking, coughing or sitting too long, better by walking." Hoarseness and nasal voice. Dyspnea, capillary bronchitis.

Cough, as if a feather tickling from middle of chest to larynx, low down in chest. The cough is worse in evening, after lying down. Muco-purulent, salty, bloody, offensive expectoration. Cough causes headache, nausea and vomiting of food, spurting of urine. Every draft of air causes fresh cold.

Dry mouth and throat. Involuntary biting of tongue in sleep. Thirsty for ice cold drinks, bubbly drinks and mineral waters, fresh fruit juice with ice, sparkling fruit juices. Diabetes, when there is a history of sexual excess or of severe mental or emotional over-strain. Emaciation with diabetes.

Copious discharges appear in the sweat and urine. Polyuria. White, milky urine and also white stools. The urine may be clear as it is passed, but turns milky at once and is very offensive. Bedwetting, the child passes

a great quantity of urine.

Excessive flatulence. Distention and passing of flatus in large quantities, sometimes with the odor of garlic. Weakened sphincters, involuntary escape of feces and urine, especially on coughing or movement.

Keynote "persistent, painless, watery diarrhea often containing undigested particles of food and which does not debilitate." Diarrhea in children who are emaciated and dehydrated. Weight loss from severe diarrhea. Children feel better when they're having diarrhea (Calc., better constipated).

Bloating of the uterus with gas. Menses are excessive and premature. Debility from breast-feeding. Dark, profuse, passive hemorrhages.

H. Maandblad offered the case of a married woman, 36, mother of eight children, who had for some time been so melancholy and depressed as to be unable to fulfill her household duties. There was no discoverable mental cause, though her condition had been made worse by a sudden death in the family.

The beginning of the illness was apparently a weakness of the stomach, small appetite, always pain and distention after eating, the food seemed to lie long in the stomach undigested. Ph-ac. 6x, ten drops three times a day, soon restored the patient.

RELATIONS - Antidoted by: Camph., Coff., Staph. **Compare:** (1) Care., Chin., Nux-v., Mur-ac., Pic-ac., Lac-ac., Phos. (2) Oeno., Evening primrose - effortless diarrhea with nervous exhaustion. Incipient hydrocephaloid. Whooping cough and spasmodic asthma. (3) Nect. - watery diarrhea, dry tongue, colic, bluish ring around sunken eyes, restless sleep. **Compatible:** Chin., before or after in colliquative sweats, diarrhea and debility after Nux-v. in fainting after a meal after Rhus-t. in typhoid. **Followed well by:** Ars., Bell., Caust., Lyc., Nux-v., Puls., Sep., Sulph., Calc-p., Ferr-p., Kali-p., Nat-p.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***PHOSPHORUS

PHARMACY-phos. Phosphorus. The element (P., At. Wt. 30.96). Saturated solution in absolute alcohol. Trituration of red amorphous Phosphorus. **Historical dose:** All potencies.

CLINICAL - Alopecia areata. Amaurosis. Amblyopia. Anemia, pernicious. Anus, fissure. Arteries, disease. Asthma. Bone, diseases. Brain, disorders. Breast, abscess. Breastfeeding, disorders. **Bronchitis.** Bruises. Cancer. Catalepsy. Cataracts. Catarrh intestinal, nasal. Chilblains. Chlorosis. Chorea. Ciliary neuralgia. Coccyx, pain. **Colds.** Constipation. Corpulency. **Coughs.** Croup. Dandruff. **Diabetes.** Diarrhea. Dropsy. Epilepsy. Esophagus, pain. Exophthalmos. Exostosis. Eye disorders. Fainting. **Fatty, degeneration.** Fistula. Flatulence. Fungus hematodes. Gastric, fevers. Gastritis. Glaucoma. Gleet. Gums, ulceration. Hemoglobinuria. Hemoptysis. **Hemorrhages.** Headaches. Heart, degeneration. **Hepatitis.** Hydrocele. Hydrocephalus. **Hypoglycemia.** Hysteria. Impotence. Infertility. Injuries. Intussusception. Jaundice. Keratitis. Laryngitis. **Lightning, effects.** **Liver, disorders.** Locomotorataxia. **Lung, disorders.** Marasmus. Menorrhagia. Menstruation, disorders. Morphinism. Musca volitantes. Muscular, atrophy. Nevus. Nails, disorders. Neuralgias. **Nightmares.** **Nosebleeds.** Osteomalacia. Osteomyelitis. Osteoporosis. Pancreas, **disorders.** **Paralysis.** Periostitis. Petit mal. Plague. **Pneumonia.** Polyps. Pregnancy, vomiting. Proctitis. Pruritus, ani. Psoriasis. Puerperal, convulsion. **Purpura, hemorrhagia.** Pylorus, thickened. **Retinitis.** Rheumatism, paralytic. **Rickets.** **Scurvy.** Sexual mania. Shiverings. Sleep, disorders. Sleepwalking. Spine, curvature. Spleen disorders. Sprains. Stammering. Syphilis. Syringomyelia. **Throat, sore.** Tobacco, effects. Trachea, tickling. **Tuberculosis.** Tumors, cancerous. Typhus fever. Ulcers. Urethra, stricture. Vaccinosis. Variola. Voice, loss. Whitlow. **Wounds.** Yellow fever.

HOMEOPATHIC - Phosphorus was discovered in 1673 by Brandt, an alchemist of Hamburg, and shortly afterwards by Kunkel in Saxony. According to Teste, attempts were made to use it in medicine immediately after discovery. Kunkel made it into his "luminous pills," and Kramer claimed to have cured with it diarrhea, epilepsy and malignant fevers.

Teste offered a list of old-school cures, which included continuous, bilious and intermittent fevers, general edema, measles, two cases of pneumonia of the left lung with ataxic symptoms, chronic rheumatism of the legs, strokes, hydrocephalus, periodic headaches, catalepsy, epilepsy, and chronic lead poisoning.

Hahnemann's provings have been added to by later provings, by numerous cases of poisoning and by the effects on workers in match factories, most notably, necrosis of the lower jaw.

The vapor given off by unignited phosphorus is phosphorus oxide. The jaw affection, called "the phossy-jaw" by the workers, is accompanied by profound adynamia and frequently ends in death.

The form of the disease differs according to whether the upper or lower jaw is attacked. In the former case, it generally pursues a chronic and mild course, ending in exfoliation, scars and cure. In the latter, the necrosis may be either acute or chronic, but is always severe and the patients usually die of "tuberculosis" fever.

Phos. irritates, inflames and degenerates the mucus membranes. It inflames the serous membranes, the spinal

cord and nerves. It causes paralysis and destroys bone, especially in the lower jaw and tibia. It disorganizes the blood, causing fatty degeneration of blood vessels and every tissue and organ of the body. It gives rise to hemorrhages and hematogenous jaundice.

Phos. produces a picture of destructive metabolism. It causes yellow atrophy of the liver and sub-acute hepatitis.

Ill effects of iodine and excessive use of salt. Great sensitivity to external impressions to light, sound, odors touch, electrical changes, thunderstorms. **Human barometer** (Merc.). Great susceptibility to external impressions, light, sound, odor touch, electrical changes, etc.

Insidious onset, gradually increasing debility, ending in severe or rapid disease. Sudden symptoms, sudden prostration, faints, sweats, shooting pains, etc. Sudden prostration from a profound shock. The left side is more affected than the right, the venous more than the arterial system.

Polycythemia. Blood extravasations. Hemophilia. **Hemorrhages**, recurrent, vicarious, small wounds bleed much. Blood streaked discharges. Purpura hemorrhagica. Easily bleeding polyps. Healed wounds break out again and bleed. Pyemia. Jaundice, as a concomitant, hematogenous.

Internal, itching, tickling, throbbings here and there. Numbness. Burnings. Jerking, localized, subsultus. Joints, stiff with little pain, sprains, easily dislocated, weak spells in joints, worse exertion. Pain or soreness in spots. Decay of the bones, spine, upper jaw. Hard swelling here and there. Osteomyelitis. Bone fragility (Calc-p.). Exostoses. **Fatty degenerations**. Lipoma. Cancer. Erectile tumors. Tertiary syphilis, skin lesions and nervous debility.

Muscular pseudo-hypertrophy, neuritis. General paralysis of the insane with mania of grandeur, in a stroke. Duchenne's **pseudo- hypertrophic paralysis** in locomotor ataxia and other paralyzes. Ataxia and adynamia. Uncertain, involuntary acts. Spasms on the paralyzed side. Epilepsy with consciousness. Petit mal.

Symptoms due to heart and lung disorders. Inflammation of the respiratory system. Recurrent effects colds, croups etc. (Ferr-p.). **Tightness in chest**, cough etc. Emptiness or heaviness in the chest, stomach etc.

Craves ice cold drinks and food.

Acidosis (Nat-p.). Cirrhosis. **Scurvy**. Emaciation. Flabby muscles. Totters while walking.

Ailments from losses of fluids, over-work of brain, sexual excesses and abuse. **Worse lying on left side.**

MEND - Mentally and emotionally sensitive. **Over-sensitive to external impressions**, noise, odors and lights. **Excitable, impressionable**. Quickly prostrated by unpleasant impressions. Great tendency to be startled from noises. Can't endure sound of piano, from great weakness of head. Sensitive to bad news, horror **stones**. **Sympathetic to others**. Sensitive to others pain and sufferings. Nervous and restless in crowds.

Anxious, restless, fidgety, can't sit still or stand for a moment, better while standing. Anxiety for others, about friends at home. **Anxiety, when lying on left side, during thunderstorm**. Anxiety as if he had committed murder.

Frightened easily, better weeping. Fear arising from stomach. Fear of being alone, of death when alone. Fear at twilight, **of the dark**, of ghosts, monsters, of imaginary things. **Fear of thunderstorms. Fear something bad will happen**, when thinking of disagreeable things. Fear about future, of insanity.

Timid and irresolute. Lacks willpower to undertake anything. Loss of memory. Brain feels tired. **Spacey can't keep mind on any subject**. Stupor, is aroused with difficulty and immediately relapses. Apathy is unwilling to talk and answers slowly. Indifferent even towards her own children (Sep.). Retarded development of speech in children.

Melancholy, disinclined to work, study, converse. Sadness during headache. Sadness in darkness. Great lowness of spirits. Depression arising from belief that he has an incurable disease of heart. Weary of life. Prostration of mind from trifles.

Suicidal disposition, better weeping. Weeps before menses. Weeping during palpitations. **Wants sympathy**. Better from company and consolation. Weeping alternating with attacks of involuntary laughter. Laughs at serious things. Laughing when sad.

Irritable and spacey when misses a meal. Offended and hurt easily. Easily angered and vehement, beside himself with anger and suffers physically from it. Rage when aroused. Hypocrisy.

Insanity with exaggerated idea of one's own importance. Monomania in chronic alcoholism. **Clairvoyant**. Ecstasy. **Desires to be magnetized**. Confusion, better washing face. Paralysis of the insane.

Amorous, will uncover his body and expose his genitals. Sexual thoughts intrude and crowd upon each other. Shamelessness. Accuses herself of obscene actions of which she had not been guilty.

Delirium, loquacious, with difficult respiration. Delirium that he was in several pieces and could not collect them. Fearfulness, as if something were creeping out of every corner. Imagines he sees faces grinning at him from the corners of the room. Destroys everything, spits at nurse, kisses those who comes near her.

Abdomen - Feels cold (Caps.). Abdomen distended and painful to touch. Rubs abdomen for relief. Sharp,

cutting pains. **Very weak, empty, gone sensation** felt in whole abdominal cavity. Weakness in abdomen, before menses. Sore spot in pit of stomach. Pressure above epigastrium. Painful pulsation in right hypochondrium. Varicose veins all over abdomen. Boils. Large, yellow spots on abdomen. **Pancreatic disease and diabetes.** Pancreatic disease with fatty stools. Loud borborygmi. Incarcerated flatus. Flatulent colic, worse hot drinks. Frequent pinching pain in bowels as if diarrhea were about to come on. Inguinal hernia with relaxed abdomen.

Back - Back pains as if broken, impeding all motion, especially during menses. Weak spine. Spinal irritation, worse heat. Burning in spots along spine. Spondylar- throace. Weakness and paralytic feeling at junction of lumbar and sacral vertebrae. Spinous processes of dorsal vertebrae painful on pressure. Stiff neck. Lipoma on neck with hectic fever. Cramps, burning, between scapula. **Heat between the shoulder blades.** Pain forward from left scapula. Burning spot in lumbar region, better rubbing. Stitching pain from coccyx up the spine to occiput, worse during stool. Coccyx pain as if ulcerated. Sacrum pain as if broken, on coughing. Pain in sacrum after confinement.

Bladder - Tension over region of bladder. Bladderis full without urging. Burning and twitching in urethra, with frequent desire to urinate. Frequent urination at night, with scanty discharge. Involuntary urination in children who grow too rapidly.

Breasts - Stitching pain in breasts. Left infra-mammary pains. Nipples, hot and sore. Enlargement of mammary gland. **Suppuration of breasts,** burning, offensive watery discharge. Fistulous tracks after breast abscess. Breast cancer with sharp lancinating pains or bleeding easily. Amenorrhea with milk in breast. Increased secretion of milk, with great debility. Metrorrhagia in nursing women.

Causations - Ill effects of anger, fear, grief, worry. Ill effects of exposure to drenching rains, washing clothes, having hair cut. Tobacco. Iodine. Excessive use of salt or sugar. Electrocution.

Chest - Sharp stitches in chest, **breathing quickened, oppressed.** Stitches in left upper chest, rattling worse cold drinks. Full, heavy chest, pains into throat, right arm, or alternating sides. **Oppression, as if a great weight on chest.** Great pressure on middle of sternum, impossible to lie on back. **Tightness across chest.** Burning pains. **Heat in the chest.** Intense heat behind sternum. Dry, hot feeling in chest with cough, dry, then loose. Yellow spots on chest. Swelling of axillary glands. Violent itching in right axilla. Boils in left axilla.

Constitutions - Suited to tall, slender persons of sanguine temperament, fair skin, blonde or red hair, quick, lively perceptions and sensitive nature. Young people who grow too rapidly and are inclined to stoop, chlorotic, anemic. Persons of waxy, translucent skin, half anemic, half jaundiced. Tall, slender, narrow-chested, tubercular patients, delicate eyelashes, soft hair. Tall, slim, dark-haired persons, especially women, disposed to stoop. Nervous, weak persons who like to be magnetized. Hemorrhagic patients, slight wounds bleed profusely.

Cough - Cough with burning dryness in throat. Dry cough, with pain in head as if it would burst. Dry cough, waking from sleep. Hollow cough, mostly in morning in bed, also at night, prevents falling asleep. Cough in morning after rising with expectoration of transparent mucus. Cough from tickling in throat, worse **cold air,** reading, laughing, **talking** from going from warm room into cold air. Cough before thunderstorm. Nervous cough, provoked by strong odors. Whole body trembles during cough. Must sit up when coughing.

Ears - Otitis media. Mastoiditis (Caps.). Polyps in the ear. Tickling and itching in ears. As if foreign bodies were lodged. Something seems constantly in front of ears. Echoes and reverberations of sounds, especially music (Caust.). Ringing noises, with palpitations. Roaring, from rush of blood. Constant buzzing. **Hearing difficult,** especially human voice. Dull hearing after typhoid.

Eyes - Glaucoma. Cataract (Calc-f.). Vitreous opacities. **Atrophy of optic nerve.** Degenerative changes in retina. Thrombosis of retinal vessels. **Retinal bleeding.** Choroiditis. Yellow eyes. Frequent itching in eyes. Sensation of sand in left eye, better rubbing. Burning in eyes, with profuse lachrymation in wind. Photophobia. Aversion to light. Symptoms after an iridectomy. Eyes turned outwards. Eyeballs feel large, stiff. Fatigue of eyes and head even without much use of eyes. Paresis of extrinsic muscles. Edema of lids and about eyes. Pain in orbital bones. Hollow, with blue rings around eyes.

Face - Pale, sickly complexion, blue rings under eyes. Puffiness under eyes. Color of face very changeable. Hippocratic countenance. Skin as if too tight. Skin burns on shaving. Burning heat and redness of one or both cheeks. Lips, blue, dry, cracked, sooty, scabby. Crack in middle of lower lip. Ulcerated corners of mouth. Facial neuralgia. Prosopalgia, worse opening mouth. Mouth drawn to left. Tearing pain in facial bones. **Swelling and necrosis of lower jaw** (Amph., Hecla.).

Female - Chlorosis. Amenorrhea with vicarious menstruation, with blood spitting, bleeding from the anus or hematuria, or with milk in breast. Before menses, bearing down pains, nymphomania, weeping. Menses too early and scanty, not profuse. Menses too late but very copious. **Menses last too long.** Leucorrhea, profuse, smarting, corrosive instead of menses. Milky leucorrhea early in morning, when walking. Slight hemorrhage

from uterus between periods. Frequent and profuse or short uterine bleeding in between the periods in nursing women. Metritis. Uterine polyps. Condylomata. Cauliflower cancers bleeding profusely. Cancer of the uterus with metrorrhagia. Edema of labia. Phlebitis. Aversion to sex. Vagina numb during sex in spite of sexual excitement. Violent sexual desire during pregnancy and breast-feeding. Infertility from excessive voluptuousness or with profuse or too late menses. Labor pains distressing, ineffectual.

Food - **Ravenous hunger during fever**, nightly, before the attack of sickness. Hunger soon after eating. Hypoglycemia, low blood sugar. Loss of appetite alternating with bulimia. Headache from fasting. **Craving for cold, iced drinks**. Craves ice during chill. **Craving for ice cream**, cold milk, carbonated drinks, refreshing things. **Desires salt**, acids, spicy foods. **Desires chocolate**, candies, cheese, cucumbers, chicken, fish, wine. **Aversion to warm drinks, warmfood**. Aversion to coffee, tea, boiled milk, puddings, sweets. Aversion to fruit, garlic, onions, tomatoes, meat, salt fish, beer. **Bad effects of eating too much salt**. Unable to drink water during pregnancy, the sight of water makes her vomit, has to close her eyes when taking a bath.

Head - Headaches, heavy, over one eye, with hunger. Sick headache, with pulsations and burning. Headaches with weakness and strained feeling of eyes. Pains preceded by dimness of sight. **Headaches with increased sensitiveness to odors**. Headaches before thunderstorm. Chronic congestion of head. **Heat comes up from Phosphorus spine**. Burning pains in temples. Shooting pains from one temple to other. Pulsating, pressing, boring and burning, in one or the other temple. Stupefying headache, in vertex. Vertex throbs, hot after grief. Chronic meningitis. Neuralgia, parts must be kept warm. Burning pains. Brain-fatigue with **coldness of occiput**. Softening of the brain with formication, numbness of limbs. Tendency to atrophy of brain in old age. Periostitis of skull. Feels as if pulled by hair. Skin of forehead feels too tight. Clammy sweat on head. Copious dandruff. Itching of scalp. Falling of hair in large bunches, in spots.

Heart - Anxiety about heart with nausea and peculiar sensation of hunger, somewhat better eating. Pressure in middle of sternum and about heart. Pains go into right arm. Congestion of blood to heart, excited by sensual impressions. Dilatation of the heart from fatty degeneration or endocarditis. Endocarditis or myocarditis during course of acute inflammatory rheumatism or during pneumonia. **Palpitations with anxiety while lying on left side**. Palpitations from least excitement. Palpitations during menses. Palpitations with numbness, stiffness and coldness of left arm. Weak heart, pulse rapid, small **and soft**. Blowing sounds in heart. Feeling of warmth in heart.

Kidneys - Fatty or amyloid degeneration of kidneys. Dull pain in renal region. Burning pain in kidneys, can't lie on back. Bright's disease. Nephritis with hydrops and diarrhea. Hematuria in acute nephritis (Canth.). Hematuria with jaundice. Periodical albuminuria.

Limbs - Limbs heavy as lead. Tingling and formication in limbs, better rubbing. Muscular rheumatism. Weakness and trembling from every exertion, can scarcely hold anything with his hands. **Joints suddenly give way**. Ascending sensory and motor paralysis from ends of fingers and toes. Post-diphtheria paralysis with formication of hands and feet. Hands and arms cold during diarrhea. **Arms and hands become numb**. Stitches in elbow and shoulder joints. Tearing left shoulder at night. Paralyzing stitches in hips, then up back. Pains in tibias, periostitis. Ankles, as if to break, easy dislocation. Burning of feet. Icy cold feet. Toes cramp. Suppressed foot sweat. Cold feet and hands during menses. Can lie only on right side.

Liver - **Acute and chronic hepatitis**. Congested liver. Acute yellow atrophy of liver. Fatty degeneration of liver (Carb-tcl., Ars., Chlor.). Cirrhosis. Jaundice with pneumonia or brain disease. Jaundice during pregnancy. Jaundice from nervous excitement, malignant, hematogenous. Liver weakness and sensitivity. Disordered liver in men from tropical climates.

Lungs - Oppressive breathing, worse least motion. Tight suffocative breathing, worse cough. Congestion of lungs. Bronchitis. **Pneumonia** of left lower lung, with oppression, **worse lying on left side**. Pleuro-pneumonia. Lobular pneumonia. Threatened paralysis of lungs at an early stage of pneumonia in old people. Whole **body trembles** with cough. Hard, dry, tight, racking cough. **Sputa rusty, blood-colored or purulent**. Repeated hemoptysis (Acai.). Easy sputum, frothy, rusty bluish, salty, sour, sweetish or cold. Nervous coughs provoked by strong odors, entrance of a stranger, worse in the presence of strangers, worse lying upon left side. Asthma after cough. Congestive asthma, worse lying on back or on falling asleep. **Tuberculosis** in tall, rapidly-growing young people (Calc-p.). Pulmonary edema. Typhoid pneumonia, with sensitiveness and gurgling in ileocaecal region and diarrhea.

Male - Constant discharge of thin, slimy, colorless fluid from urethra. Discharge of prostatic fluid during hard stool. Ulcers on prepuce. Testes sore, swollen, painful. Hydrocele after gonorrheal orchitis, with sexual weakness. **Irresistible desire**, but impotent. Erections feeble or none at all. Erection ineffectual during sex. Impotence from or preceded by overexcitement of sexual organs. Premature ejaculation. Involuntary emissions with lascivious dreams. Lascivious, strips himself, sexual mania.

Modalities - Better in dark, sleep, lying on right side, sitting. Better rubbing, massage, magnetism. Better

eating, cold food, washing with cold water, cold, open air. Worse from the change of weather, windy, cold, **thunderstorms, lightning**. Worse putting hands in cold water, getting wet in hot weather. **Worse twilight, evening**, light. Worse from warm food or drink, salt. **Worse lying on left side** or painful side, on back. Worse from touch, physical exertion, ascending stairs, shaving, odors. Worse mental exertion, emotions, talking, puberty, sexual excess, loss of fluids.

Mouth - Much watery saliva. Salty or sweetish salivation. Taste bitter of rotten eggs in morning. Sour taste after milk, bitter, sweetish, when coughing. Aphthous patches on roof of mouth and tongue. Itching of palate. Abscess of hard palate. Gums bleed easily, sore behind central incisors. **Persistent bleeding after tooth extraction**. Mouth drawn to the left. Speech difficult, stutters. Sore mouth from nursing.

Nose - Nose swollen, red, shiny, painful to touch. Ulcers in the nose. Decay. Periostitis of nasal bones. Nervous fanlike motions of alae nasi (Lyc.). **Polyyps, bleeding easily** (Calc., Sang.). Nosebleed instead of menses. **Nosebleeds in children, youths**. Nosebleed, then pneumonia with cough during stool. Chronic catarrh with **hemorrhages**, handkerchief is always bloody. Acute coryza, with dull headache. Coryza, alternately fluent and dry, on alternate sides. Sneezing, worse odors, smoke with dyspnea, causes pain in the throat. Sneezing and coryza on putting hands in water. Nose obstructed in morning. **Oversensitivesmell** (Carb-ac., Nux-v.). Faints from smell of flowers. Foul imaginary odors (Aur.). Loss of smell and taste.

Perspiration - Cold, clammy sweats. Profuse sweat at night during sleep. Profuse sweat in morning. Early morning, sticky sweats, without relief. Perspires on slight exertion. Sweat smells of sulphur. Exhausting sweats. Perspires on head and hands, frequently alternating with coldness. Mostly sweats on head, hands and feet, with increased urine. Perspires only on forepart of body.

Rectum - Urging for stool, on lying on left side. Stool difficult to expel. Stricture of rectum, stools flattened. **Great weakness after stool**. Dysentery. **Exhausting diarrhea**. Dianhea during pregnancy or confinement. Morning diarrhea of old people. Alternating diarrhea and constipation in old people. Nervous, involuntary stool after fright. Anus open, prolapsed. Painful cramps in rectum. Needlelike stitches in rectum. Tearing in anus, better warm cloth. Fissure of anus. Burning in rectum. Discharge of blood from rectum during stool. Bleeding hemorrhoids. Hemorrhoids burn like fire. Polyyps with proctitis.

Sensations - As if about to die. As if immersed in hot water. As if chair were rising. As if he had been lying at night with head too low. As if everything had stopped in head. As if eyes would be pressed out or pressed down by weight about them. As if painful nodes under scalp. Anxiety as if below left breast. As if great weight lying on middle of sternum. Back as if broken. As if quicksilver moved up and down spinal cord. Coccyx as if ulcerated. Soles as if he had walked too much. Feet as if asleep. Ankles as if sprained.

Skin - Anesthesia of skin. Burning in skin with restlessness. **Scurvy**. Jaundice. Pete- **chia. Purpura hemorrhagia**. Ecchymosis. **Wounds bleed very much, even if small**. Wounds which appear to have healed break out again and bleed. Little ulcer outside of large ones. Ulcers bleed during menses. Thin foul, bloody pus. Brownish or blood red spots. Red streaks after scratching. Psoriasis on knees, elbows, legs and eyebrows. Blood-boils. Fatty cysts. Fungus hematodes and excrescences. Chilblains. Skin burns on shaving.

Sleep - Great drowsiness, especially after meals. **Short naps ameliorates**, frequently waking. Sleepiness during coryza. Sleepy by day, sleepless before midnight. Sleepless, cannot close the eyes from internal heat. Difficulty falling asleep on account of excitement. Sleeplessness in elderly people. **Vivid dreams** of fire, of hemorrhage, of biting animals. Dreams of restless

Phosphorus work and business which he could not finish. Lascivious dreams. Sleepwalking. Goes to sleep late and awakens weak. Feels in the morning as if he had not slept enough. Coma vigil.

Stomach - Tremors, fluttering or something rolling over in stomach. Sore spot in pit. Stomach cold as if frozen. Empty, hollow feeling in stomach, as if hanging down, worse emotions. Gnawing pain. Pain in stomach, better cold drinks. Burning in stomach, worse eating. Burning in esophagus. Gastritis with heartburn. Water brash. Hiccough. Sour taste and sour belchings after every meal. Bitter, tasteless eructations. Nausea on putting hands in warm water. Constant nausea with confusion of head. Regurgitates ingesta. **Throws up food by the mouthfuls**. Water is thrown up **as soon as it gets warm in the stomach**. Vomiting of bile, blood, coffee grounds. **Post-operative vomiting, after chloroform**. Stomach ulcer.

Stool - **Very fetid stools and flatus**. Long, narrow, hard stool, like a dog's. **White**, hard stools. Green mucus with grains like sago. Stools hot, sour-smelling, corrosive. Painless stool, copious, gray, bluish, watery, pouring out. Stools scanty, semi-fluid. Stools green, yellow, watery, with flakes of mucus and clots of blood. Discharge of blood from rectum, during stool.

Teeth - Numb teeth. Rapid decay of teeth. Tearing and shooting pains in teeth, worse open air and warm food. Toothache in morning when shewing. Toothache from washing clothes, from having hands in cold or warm water. **Persistent bleeding after tooth extraction**. Inflammation of gums and gumboils in lower jaw. Gums sore behind central incisors. Boring pain sometimes passing into numbness, worse cold, heat and chewing,

with soreness and swelling of gums. Swollen and easily bleeding gums. Gums ulcerated. Irregular formation of teeth of lower jaw of scrofulous children with mesenteric disease.

Temperature - Chilly every evening in warm room. Cold knees at night. Craves ice water during the chill. Chill alternating with heat, at night. Chill descends, heat ascends (up back). Burning heat, up back. Internal heat, with sensation of hot water in stomach. Flushes all over, beginning in hands. Profuse perspiration. Hectic fever with small, quick pulse, viscid night sweats. Fever in warm room, heat down back. Fever with anxiety, burning in face and hands, flushed cheeks. Painless fevers. Fever on falling asleep. Fever at night, without thirst. Stupid delirium.

Throat - Dryness in pharynx and fauces. Dry, glistening. Rawness, roughness and scraping in throat, worse toward evening. **Tendency to get sore throats that go into the lungs. Larynx very painful**, sore, painful on speaking. Feeling of rawness in larynx from passage of inspired air. Larynx feels as if lined with fur. Violent tickling in larynx while speaking. Burning in esophagus. Stricture of esophagus. Tonsils and uvula swollen. Uvula elongated. As of cotton or something hanging in throat. Pain in throat on coughing. Sweetish taste while coughing. Low, hoarse voice, worse morning and evening. Hoarseness, worse evenings. Can't talk on account of pain in larynx. Croupy voice, followed by bronchitis. Sudden aphonia. Aphonia, worse evenings, with rawness.

Tongue - **Tongue dry, smooth**, red or white, not thickly coated. Tongue coated white, yellow, grey, with brown center. Tongue coated only in middle. Tongue dry in middle, cracked, parched or glossy, with stinging in tip. Burning pain on tongue. Tip of tongue somewhat swollen, with enlargement of its papillae and feeling as if it had been burnt.

Urine - Constant discharge of thin, slimy, colorless fluid from urethra. **Diabetes, sugar in urine**. Turbid urine, brown, with red sediment. Profuse pale, watery urine, then weakness. Urine acid, smelling offensive. Urine turbid, whitish, like curdled milk, with brick-dust sediment and variegated cuticle on surface. Pellicle on urine. Albuminuria, periodical. Sediment white, sandy or flocculent, albuminous, containing fatty casts. **Urinate pure blood**.

Vertigo - Vertigo with faintness, nausea and headache. Vertigo, floating sensation, on **Phosphorus** waking. **Vertigo after rising** (Bry.), with weakness of legs. **Vertigo on exertion of vision**. Vertigo, worse looking up or down. Vertigo from smell of flowers, gas, ethereal oils, turpentine, with fainting. Vertigo of the elderly.

Vision - Narrow field of vision. Partial loss of vision from abuse of tobacco, sexual excess, lightning. Diplopia. Amaurosis from sexual excess. Misty vision, with attacks of vanishing of sight. Retinal trouble with the lights and hallucination of vision. Colors before eyes followed by migraine. **Green halo about the candlelight** (Osm.). Muscae volitantes. Black points seem to float before the eyes. **Letters appear red**. Patient sees better by shading eyes with hand. Sensation as if everything were covered with a mist or veil or something pulled tightly over eyes. **Blindness after lightning-stroke**.

COMMENTS - Profoundly affects the nutrition and function of all tissues, notably the hardest (bone) and the softest (nerve and blood). Causes irritation, weakness, exaltation of all the senses, and later a typhoid state and fatty degeneration.

Pareira observed in phosphorus workers "a peculiar sallow, bloated complexion with dull expression of eye and gastric derangement," when there was no affection of the jaws. Wagner found Phos. symptoms long before local disease appeared, e.g., cardialgia, anorexia, eructation of gas smelling of Phos., also dizziness, faintness and cachectic appearance.

The first symptoms in the jaws are tearing pains, the teeth being sound, swelling and suppuration of the gums and lessening of the teeth follow, and the bone becomes denuded. Langenbeck objects to the term "necrosis," stating that it is a periostitis in which bony deposit occurs, enclosing the jaws more or less as in a sheath. There is no exfoliation. This osteo-periostitis may arise from rheumatism.

Painful burns and burning sensations. "Glowing sensation throughout the epigastrium and chest." "A flame seemed passing through me." "Warming sensation right side of heart and below left clavicle. This heat spread to apex of left scapula and to acromion, when it left the heart." "From 11 a. m. until 4 p.m. remarkable numb feeling in left leg from knee to toes, sometimes sensation as if hot blood flowed into it."

Burning pains with inflammation. Burning between the scapula, burning in spots along the spine, feeling of intense heat running up the back. Flashes of heat beginning in hands and spreading to face. Burning palms, cannot bear to have the hands covered.

Nervous or hectic fever. Low delirium, muttering, stupid or violent or there may be a state of ecstasy or odd ideas. In intermittents when there is heat at night beginning in the stomach, faint and hungry in night, heat in hands.

Chilliness towards evening, icy coldness of hands, knees and feet, even in bed. Sweat is anxious, profuse,

exhausting on slightest exertion, profuse at night, cold and clammy, smelling of sulphur or of garlic.

Fibrillary twitching of individual bundles of tissues in muscles. Numbness and formication in paralyzed limbs. Spasms on paralyzed side. Uncertain gait, neuralgic pain and fuzzy feeling of the feet. Locomotor ataxia. Epilepsy from masturbation. Petit mal, epilepsy with consciousness.

Sudden prostration from shock or malignant types of disease, either acute or chronic. Overly sensitive, impressionable. Excitable condition, exaltation of mental faculties, and the condition that follows over-exertion. Overextended feeling. Tendency to overreact in situations.

Sense of immediacy, living in the present. Anxiety. Lack of focus, spaciness. Can have a lack of direction. Fears of death, solitude, darkness, thunderstorms. Better from company, extroverted. Sympathetic, tends to nurse others.

Sensitive to effects of storms, especially thunderstorms. Headache with a thunderstorm. Blindness from lightning stroke. Sleep relieves most symptoms. Refreshed from naps. Exertion, physical or mental, aggravates complaints. Better from open air, warm wraps.

Heart palpitations and irregularities of the heart. Palpitations aggravated by lying on the left side. Peripheral numbness, circulatory problems, Raynaud's disease. Stroke. Transient ischemic attacks. Panic attacks associated with blood sugar and the heart.

Pulmonary hemorrhage and congestion. Nosebleeds, hemophiliacs. Hemorrhagic diathesis. Small wounds bleed profusely. Bright red blood. Blood-streaked discharges. Blood-streaked or rusty sputa, tasting salty. Acute pernicious anemia and bone cancer. Cancers that bleed profusely and persistently, bright-colored blood. Tendency to bruising.

Ulcers, bleed easily at the slightest touch. Open cancers or fungus hematodes. "Large ulcers surrounded by smaller ones." Ulcers affecting the nails. Ulcers, psoriasis, lichen, eczema, blood boils, purpura. Eruptions. Exanthema with pustules like smallpox.

Inflammation and eruptions around joints, particularly the hip and knee. Fistulae with callous edges from glands. The left side of the lower jaw is more affected than the right. Decay and exostoses of spine (Calc-f.). Rheumatism with great stiffness of the joints, more stiffness than pain. Paralytic rheumatism from exposure to rain. Stiffness of old people. A drawing, tearing, tight feeling, in the girdle, pain of spinal affections, tightness of skin of face and forehead.

"Splitting headache caused by cough." Headache and other sufferings from grief. Hot vertex after grief. Shocks in occiput, coldness in cerebellum, congestion of brain seeming to rise from spine into head. Neuralgic pain. Impending paralysis. Attacks induced by mental exertion, worry, washing clothes and are worse by music, noises, strong odors.

Cataract and glaucoma. Pustule on cornea. Burning pains. Retinal hemorrhage. Retinitis albuminuria from suppressed menses. Halo around candle. Colors appear black before the eyes. Sees green. Letters appear red while reading. As if a gray veil is over everything. Blindness after typhoid, sexual excess, loss of fluids, or lightning. Twitching of eyelids. Suffocative pains in upper part of chest with constriction of larynx and engorgement of lungs. Bronchial catarrh. Cough causes tearing pain under sternum as if something was being torn loose. Mucus rales, panting and labored breathing. Emphysema. Asthma after the cough.

Pneumonias. Indicated when the morbid action becomes localized in the right lung, particularly the lower lobe. Hard, dry cough, rusty sputa, worse at twilight and until midnight. Worse lying on left side, better lying on right side.

Tendency to colds and sore throats. Tuberculosis florida. "Stomach" or "liver" cough. Cough comes on after eating and starts from a tickling in pit of stomach. Cough worse when strangers enter the room, or from strong odors.

Sinking, faint feeling in the abdominal cavity, head, chest and stomach. Violent tearing pains in esophagus, chest, stomach. Bloating of abdomen, distended, sore, sensitive to touch. Hemorrhages from all orifices. Stomach ulceration with severe burning pains, hemorrhage, and persistent vomiting.

Tenderness of the liver. Disorganization of the liver and blood with jaundice, hemorrhages. Hepatitis. Acute fatty degeneration of the liver and fatty degeneration of pancreas with gastric symptoms and oily stools. Fatty and amyloid degeneration of the kidneys. Degeneration with engorgement of the lungs, particularly the right lung.

Hunger with great weakness and faintness. Hungry soon after a meal, hungry during the night. Hypoglycemia. Ice cream ameliorates the gastric pains. Desires cold milk, which agrees. Wants to suck ice (Med.). Longing for acids and spicy things, desires salt things (Nat-m.). Antidotes the effects from excess of salt in diet.

Desire for cold foods and preference for cold meat, may be vomited as soon as it becomes warm. Burning thirst for cold water, which relieves, but as soon as it becomes warm in the stomach it is vomited.

Regurgitation of ingesta in mouthfuls. The sight of water causes vomiting during pregnancy. Nausea on putting

hands into

Phosphorus warm water. Sneezing and coryza from putting hands in water. Vomiting and diarrhea. Typhoid. Diabetes. Diabetic peripheral neuropathies.

Rectal, bladder, and uterine tenesmus. Stool voided with great difficulty and straining. Stools are long, tough and hard, like a dog's. Stools offensive, involuntary, the anus appearing to remain open. Bloody stool, blood-streaked stool, stool like shreddy membranes.

Diarrhea as soon as anything enters the rectum. Profuse diarrhea pouring away as from a hydrant. Watery diarrhea with sago-like particles. Painless, involuntary stool during cholera, in the morning, of old people. Burning in the anus, notably stitches shooting up rectum. Hemorrhoids.

Menses are profuse and long lasting. Vicarious menstruation in the form of hemoptysis, nosebleed or hematuria. Leu-orrhea which causes blisters. Left ovarian pain (Thuj., Coloc.).

Burning, shooting, and cramping pains in the breasts. Breast abscess and fistula. Erysipelatous appearance, red streaks starting from opening, thin, ichorous discharge. Morning sickness with nausea and burning. Aversion to sex. Nymphomania.

Frequent erections in men and sexual thoughts entirely beyond the patient's control. Strong sexual desire, constant wish for sex. Erections in spite of efforts to control passion in young men. Impotence from over-indulgence or from celibacy.

A man, 48 inhaled the vapor of burning Phos. Among his symptoms was a sensation as if something twitched under his skin or was creeping between skin and flesh. Twitching of single bundles of tissues at different times like playing on a piano. Tongue often refused to move when speaking so that he stammered.

E. R. Heath had some decidedly "phosphorescent" symptoms. Darting, cutting pains, causing much distress, starting from different points and flashing over the whole abdomen. He imagined an aurora borealis and seemed to distinctly hear voices shouting "Beautiful, oh ! was not that splendid?" as the pains became more severe and lasting.

He sprang from the bed and tried to collect his thoughts, had numbness all over with sensation of myriads of needles slightly pricking him. Throat dry and parched, a flame seemed to pass through him. Feet seemed glued to the floor.

With great difficulty he reached the vessel and as soon as the bowels began to act the pains changed to cramps. Stools were like scrapings of intestines. They were almost constant, with tenesmus, for over two hours. He lay down in bed after, weak, sore, and almost helpless.

Clarke reported a case of spinal decay with paralytic symptoms in a woman aged 67. She had a history of a strained back thirty-five years before, and of lumbago and sciatica five years before he saw her. Pains in the scapula and chest, she could not walk unless supported about the waist. She was cured with Phos. 1,000c, the curvature remained, although the decay and paralysis were removed. The Phos. caused dryness of her mouth, lips and throat.

W. A. Nicholas reported the case of T. B., 51, whom he saw after a four months' illness. The case began with congestion of the brain on the sudden death of his wife and was followed by bronchitis. During all this time he was heavily drugged. A rather long walk brought on a severe attack of angina pectoris. Bell, 1x gave much relief. Nicholas noticed the patient at times put his hand to the back of his neck. Phos. 1c relieved entirely.

Hansen cured a case of purpura in a girl of 10. The disease began with loss of appetite and pains in the stomach, but as soon as the purpura spots appeared, the pains ceased and the appetite returned. The inner thighs were affected. Phos. 2c cured.

Walker cured with Phos. 6c a large exostosis of the femur which had been pronounced as osteosarcoma by old-school authorities.

In a case of rheumatism in an old woman who had a waxy pallor. Cooper gave Phos. and set free all the joints. Dr. Mills related a typical case of thunderstorm effect. Mrs. F., tall, thin, dark of mild and gentle disposition, was seen by the doctor during a thunderstorm. He found

her sitting on the stairs, trembling, cold, and bathed in cold, clammy sweat, full of nervous dread and almost beside herself. One dose of Phos. 100,000c cured. Some weeks later she witnessed a storm with complete unconcern.

RELATIONS - Antidote to: Phos. poisoning: Turpentine with which it forms an insoluble mass. Kali-perm.

Compare: (1) Tub. follows Phos. well and complements its action. (2) Phos-h. - crumbling of teeth, hyperesthesia, locomotor ataxia. (3) Amph. - right jaw swollen and painful. (4) Thymol - typical sexual neurasthenia, irritable stomach, aching throughout lumbar region, worse mental and physical exertion. (5) Calc., Chin., Ant-t., Sep., Lyc., Sulph. (6) For pneumonia. Pneu. Pneumonia and paralytic phenomena, pleuritic pain and pain in ilio-cecal region (Cartier). **Complementary:** Ars., All-c., Lyc., Sil., Nux- v. Phos. antidotes the nausea and vomiting of chloroform and ether. Sanguis. 30c - Leech - persistent hemorrhages, effects of use

of leeches. Phos-pchl. - great soreness of mucus membrane of eyes and nose, throat and chest sore.

Incompatible: Caust.

***PHOSPHORUS HYDROGENATUS

(Phosphoretted Hydrogen)

PHARMACY - phos-h. Phosphorus hydroge- nams. Phosphoretted hydrogen. Phosphine. Solution. **Historical dose:** All potencies.

CLINICAL - Amblyopia. Anus, weak. Diarrhea. Hyperesthesia. Locomotor ataxia. Paralysis. Stammering. Teeth, crumbling.

HOMEOPATHIC - Breunar related the effects of inhaling this gas, given off in the preparation of **"hypophosphites."** **Ahe** symptoms began to appear after three months including vision disturbances, diarrhea, paralysis and a complete state of locomotor ataxia, worse on closing eyes.

The teeth crumbled without pain. Speech and swallowing were difficult. Diarrhea, accompanied by weakness of the anus.

RELATIONS- Electricity antidoted the effects. **Compare:** (1) Locomotor ataxia, Arg-n., Alum., Helo. (2) Vision defects, Benz-d., Carb-s.

REFERENCES - Clarke.

***PHOSPHORUS MURIATICUS

(Phosphorus Pentachloride)

PHARMACY - phos-pchl. Phosphorus muri- aticus. Phosphorus pentachloride. Solution. **Historical dose:** All potencies.

CLINICAL - Asthma. Coryza, Ophthalmia.

HOMEOPATHIC - J. Meredith recorded the effects observed on a science student from grinding up this salt and inhaling the fumes. The main symptoms were eye soreness, coryza, sore throat and chest with difficult breathing. The symptoms lasted fourteen days from the exposure and were cured by Bell. 3x internally and a one percent iodine lotion locally as a compress.

***PHYSALIA PHYSALIS

(Portuguese Man-of-war)

PHARMACY - physala-p. Physalia physalis. Portuguese man-of-war. Physalia pelágica. N. O. Physophoridae. Hydrozoa. Radiata. **Historical dose:** All potencies.

CLINICAL - Blisters. Hives. Nettle, rash. Numbness. Stings. Urticaria.

HOMEOPATHIC - **G.** Bennett was stung by the animal on his second and ring fingers. The sensation was as if stung by a nettle, succeeded in a few minutes by violent aching, affecting the finger joints and spreading up the arm, involving the elbow joint.

The pain spread to the shoulder joint and pectoral muscles causing oppression of breathing. After half an hour the symptoms began to abate, leaving a numbness of the limb and a blister at the spot which was stung. The pain was aggravated by application of water, worse by motion and worse when joints became affected.

RELATIONS - **Compare:** (1) Apis, Medus., Urt-u.

***PHYSOSTIGMA VENENOSUM

(Calabar Bean)

PHARMACY - phys. Physostigma venenosum. Calabar bean. Ordeal-bean. Esere. N. O. Leguminosae. Papilionoideae. Trituration of the bean. **Historical dose:** All potencies.

CLINICAL - **Astigmatism.** Backache. Bathing, effects. Blepharospasm. Chorea. Ciliary spasm. Constipation. Coccyx, pain. Dentition. Diarrhea. Dyspepsia. Epilepsy. **Eyes, disorders.** Glaucoma. Headaches. Heart, **disorders.** **Hemiplegia.** Hemorrhoids. Herpes. Hiccough. Hysteria. Iris, prolapsed. Leucor- rhea. Locomotorataxia. Meningeal, irritation. Menopausal. Muscular atrophy. **Myopia.** Navel, inflammation. Palpitations. Paralysis. Paraplegia. Parkinson's disease. Polymyelitis. Prostration. Sleeplessness. **Spinal, irritation.** Spinal sclerosis. Stiff neck. T remors. **Tetanus.** Throat, sore, fish-bone sensation. Water, effects. Wounds.

HERBAL - Calabar is the type of a genus of Leguminosae of the tribe Phaseoleae. It has flowers very like Phaseolus except that its bearded style is terminated by a great oblique hood, covering the blunt stigma. It is

this hood that distinguishes the genus and gives it its name. It is a great twining climber and has purplish flowers.

Physostigma is the "ordeal-bean" of old. The seeds are very poisonous and are used by the Calabari to determine guilt and innocence. When ingested, the person either vomits or dies, if they die they are considered guilty, if they vomit, they are innocent.

Observed cases showed twitchings, especially in the back, and death in thirty minutes. In poisoning cases, the most notable feature was complete muscular prostration.

A group of children in Liverpool ate beans that they found among the sweepings of a ship from Africa. Forty-six were admitted to a hospital with loss of muscular power, prostration, feeble, slow pulse.

Cold, perspiring skin, cold limbs, vomiting in nearly all cases, diarrhea in one-third of them. At first there was colic, but later on remarkable freedom from pain.

Pupils contracted in many, in one they contracted during sleep, dilated when aroused.

Only one (a tubercular boy) succumbed. He staggered as he walked, then fell, kicking and rolling as if in pain, but afterwards became quiet, much purged, pulse hardly perceptible, skin cold, face livid, quite conscious and able to swallow water.

Directly after drinking he died without a struggle, some froth issuing from nose and mouth. After death the blood was found to be fluid, the heart distended with it and its muscular substance very flaccid.

HOMEOPATHIC - Physostigma and its active principle, eserine, form a valuable addition to the Materia Medica. Stimulates heart, raises blood pressure and increases peristalsis. Causes contraction of the pupil and of the ciliary muscles. Induces a condition of near-sightedness. Eserine is used locally to produce contraction of pupil.

Spinal irritation, loss of motility, prostration with very sensitive vertebrae. Depresses the motor and reflex activity of the cord and causes loss of sensibility to pain, muscular weakness. This is followed by complete paralysis, although muscular contractility is not impaired. Meningeal irritation with rigidity of muscles. Paralysis and tremors. Chorea.

Fluttering tremors in the muscles, they do not respond to the will, or draw into knots, even the intestines are seen twisted in knots. Fibrillary tremors. Ataxic gait, shooting pains down the limbs. **Tetanus**. Trismus. Tremors. Polymyelitis anterior. Progressive muscular paralysis. General paralysis of the insane.

Horror of cold water, drinks or bathing. Cold water feels too cold. Shuddering worse every draft. Floating sensation. Darting pain here and there. Flushes of heat, worse palms. Pain, beginning at any hour, continues to 12 o'clock following, either noon or midnight.

MIND - The mind is active even during sleep. Nothing was right. Too many things in the room, continually counting them. Paralytic state of mind and body from grief.

Abdomen - Navel, sore, bloated, red. Hy-pogastrium sore, bloated worse standing. Gripe in right hypochondrium. Groins pain alternately. Colicky pains, worse diarrhea, better extending legs.

Back - Sensitive spine. Cramp-like stitches up and down the spine. Drawing on turning head. Creeping numbness from occiput down spine. Chilly, creeping sensations up back. Dull pain in back. Backache in kidney region. Back very weak, unable to stand erect.

Breasts - Stitches in left breast, unable to draw in breath.

Causations - Ill effects of emotions, grief. Injuries, falls, blows, and bathing.

Chest - Stitches in the chest. Stitches under inferior angles of scapulae during expiration. Heavy weight at chest. Twitches across pectoral muscles.

Ears - Sharp, shooting pains in the ears. Sudden pain from throat to middle ear, worse eructation. Pain in the ear when writing. Painful pressure on tympani. Crawling in left ear. Sensitive to every sound. Hissing, buzzing, ringing in the ears. Fullness. Stopped feeling. Partial deafness.

Eyes - Bloodshot eyes with burning. Muscae volitantes, flashes of light. Glaucoma, especially after injury.

Contraction of pupils. Vision tiembhng. Increasing myopia. Accommodation affected, **astigmatism**. Night-blindness, photophobia. Profuse lachrymation. Exophthalmus. **Spasm of ciliary muscle with irritability after using eyes.** Post-diphtheria paralysis of eye and accommodation muscles. Twitching of eye muscles. Pain over orbits, cannot bear to raise eyelids. Eyelids tense, cannot close or open them.

Face - Face pale, flushings of the face, heat. Lips numb, licks them. Lockjaw. Neuralgic pain in right side of face. Spastic conditions of the face muscles. Sensation of cramps or spasms in face.

Female - Pain as if menses were coming on. Menses are irregular with palpitations. Leucorrhea worse during the day, when exercising. Sighing, worse when leucorrhea is worse. Metrorrhagia. Rigid muscles. Numbness of womb with pain in back.

Food - Hunger but can find nothing to satisfy it. Food has a flat taste. No appetite, disgust for food, tobacco and coffee, and especially for cold drinks.

Head - Headache unbearable, worse at night. Constant pain on vertex. Pain over orbits. **Headache, cannot bear to raise eyelids.** Pain from forehead down nose. As of a band about the head, as of a tight cap on head. Heartbeats felt in head on lying down. Cerebro-spinal meningitis, general tetanic rigidity. Brain, falls to side when on, wavering in. Tremors in head.

Heart - Fatty degeneration of heart (Phos., Cupr-acet.). **Fluttering of heart felt in throat.** Heartbeats distinctly perceptible in chest and head. Feeble pulse. Palpitations, spasmodic action with feeling of pulsation through the whole body.

Kidneys - Bruised, sore feeling in region of kidneys. Bladder feels distended. Frequent desire to urinate, often ineffectual. Urine is yellow, high colored, strong-smelling, clear, muddy, pale and copious.

Limbs - Limbs feel weary, as after great fatigue. Sudden jerking of limbs on going to sleep. Tetanic convulsions. Locomotor ataxia. Numbness in paralyzed parts, crampy pains in limbs. Pain in deltoid (right) better violent motion. **Pain in right popliteal space.** Burning and tingling in spine. Hands and feet numb. Flushes of heat in palms. Offensive odor from hands.

Lungs - Labored, sighing respiration, yawning. Cannot fill left lung as inspiration causes dull pain at left apex, better by pressure. Cough from tickling in throat. Slight constant inclination to cough from filling lungs.

Male - Frequent erections with but slight desire. Emissions without dreams or excitement. Strong-smelling sweat about genitals.

Modalities - Better in cool open air, exerting the will. Better closing eyes, sleep, warmth to feet, lying on right side, lying on abdomen or with head low. Hiccough better by sleep. Worse lying on left side,

Physostigma venenosum on waking, in church. Worse motion, stepping, descending, misstep, jar, falls, blows. Worse pressure, bathing, heat and cold, cold water, cold bath, change of temperature at 4 p.m. (Lyc.).

Mouth - Bad taste in mouth. Profuse salivation, thick, leathery saliva. **Tongue feels sore on tip.** Tongue feels oily, scalded, swollen in chorea. Feeling of loose skin on roof of mouth. Teeth feel rough. Dentition stressful in nervous children.

Neck - Pain at base of brain. Inclination to stretch out neck. Stiffness in neck. Rheumatic pains in left neck.

Nose - Fluent coryza, burning and tingling of nostrils, nose stuffed and hot. Fever blisters around nostrils. Small boil inside right nostril. Nosebleed while at supper. Smarting at end of nose. Twitching of muscles of nose. Tension in skin of nose and forehead.

Perspiration - Easy sweat with excitement. Copious, cold sweat in drops over whole body. Strong-smelling sweat around genitals.

Sleep - Irresistible desire to sleep, soporific sleep. Restless sleep with dreams. During sleep, mind so active was unaware he had been asleep.

Stools - Copious stools, soft, thin, watery. Yellowish stools, bilious, part natural, part black like tar. Stools lumpy, mixed with watery discharge, dark and offensive.

Rectum - Constipation from atony. Tenesmus and burning with diarrhea. Stools are irregular and loose. Sphincter swollen and rigid, evacuation painful. Anus sore and inclined to protrude. Severe hemorrhoids, following childbirth.

Sensations - Sensations of contraction and tension. Wavering in brain. As if she will lose her mind. Tongue as if burnt, swollen and paralyzed. As if a ball were coming up throat. As if stomach were full. Weak feeling in stomach. Back as if paralyzed. Lower limbs as if asleep.

Sleep - Attacks of overpowering sleepiness with feeling as if to lose consciousness.

Stomach - Great pain immediately after eating. Sensitive to pressure in epigastric region. Pain extends into chest and down arms. Gastralgia, chronic constipation. Hiccough with short break, better from sleep.

Temperature - Cold, clammy skin. Hands and feet cold. Every movement and draft causes shuddering. Creeping, chilly sensation in back. Heat in head and face, flushed and hot. Dry burning in hands. Perspires very easily.

Throat - Tonsils enlarged, swollen. Elongated uvula. Feeling as if a ball came up throat. Strong heartbeats felt in throat.

Vertigo - Vertigo, stumbles on ascending or descending steps. Vertigo with constrictive feeling of head.

COMMENTS - According to Brunton, the tetanus properties of the bean belong to the alkaloid calabarine. The paralysis, to eserine, or as it is now called, physostigmine.

In cases of poisoning, people experience a speedy general paralysis. Death occurs from failure of respiration, although the heart may be poisoned both directly and through its nerves.

The paralysis is seated in the spinal cord. The muscles are affected by fluttering tremors. Involuntary muscles are excited to active movements and expulsive efforts. The intestines are often twisted up in knots. All the secretions are somewhat increased.

Many provings have been made with Phys., among which a proving made by Christison on himself is

remarkable. Simpson and Douglas MacLagan were sent for to attend to him in his collapsed state. Simpson could only compare it to the state produced by severe flooding, though Christison's only sensation was one of "extreme but not unpleasant faintness." MacLagan thought it a lot like aconite poisoning. Christison could not get his will into his muscles except by a tremendous effort.

Warmth to Christison's feet and a mustard plaster to his whole abdomen gave great relief and he was then able to turn on his left side, but only remained there a very short time on account of the tumultuous action of the heart it caused.

He became drowsy and slept, but his mind was so active in sleep that on awaking he did not know that he had slept. The tumultuous

Physostigma venenosum action of the heart continued on waking, but strong coffee quickly restored the whole condition and made the heart regular.

Indigestion was observed by Christison and many other provers, "as if large pieces of food had been suddenly swallowed." It began under the upper sternum, descending and increasing in intensity until it reached the epigastrium.

Belchings then occurred and a reversal of direction followed, the sensation ending where it began. With other provers, there was a sensation of weight and hardness. Christison also experienced giddiness and dimness of vision.

Phys., and its alkaloid eserine, are best known in old school practice for its action on the eye, especially of contracting the pupil. The effects are more definite when the drug (tincture, extract or solution of alkaloid) is applied to the eye directly, but one myopic prover had his myopia much diminished.

Dudgeon related the case of A. E., 26, struck by the cork of a soda-water bottle on the inferior and outer part of the left eyeball. Intense burning pain and effusion into the eyeball followed.

Under Arn., prescribed by Mr. Engall, the effusion disappeared and later the pain and inflammation subsided under Aeon, and Merc-c. The pupil was now egg-shaped, the long diameter perpendicular, smaller end downwards, vision extremely myopic.

Bell, dilated the pupil, but it had no effect on the vision. Engall sent the patient to Dudgeon, who found the pupil was sluggish and a book had to be held within four inches of the eye to be read. Phys. 3x, every three hours, was given.

After the first dose, objects could be seen at a considerable distance and the next day sight was nearly as good as ever. Dudgeon believed that the lens was tilted by the blow and that Phys, restored the over-stretched or paralyzed portion of the ciliary muscle.

Woodyatt stated that Phys, produced corneal astigmatism in a young woman who found any attempt at close work caused redness of tarsal edges and a hot, sandy feeling in conjunctiva. Lil-t. 30c cured.

For ocular tension, especially when glaucoma has been the result of injury. Eye injuries (Calen., Hyper.). Conjunctivitis with sharp, shooting pains. Pinpoint pupils (Op.). Paralysis of certain eye muscles.

Astigmatism. Double vision, severe blurry vision, worse in the right eye. Holes in the field of vision. The eye feels full of fluid. Eye problems associated with extreme insomnia. Muscae volitantes.

Paralysis and tremors predominate, but also cramps, twitchings, stiffness and tension. Tetanus. Paralysis and numbness is more apparent on the left side, especially in left arm. Nervous disease with extreme tremors or trembling. Paralysis of the spinal cord and respiratory failure. Parkinson's. Guillain-Barre syndrome.

Muscular prostration. Polio, diaphragm paralysis (Con.). Labored respiration. Paralysis with an inability to get the will into the muscles. Paralytic state of mind and body from grief.

Ataxic gait, shooting pains down limbs. Locomotor ataxia. Spinal, sacral and coccygeal pains, with numbness of the womb. One prover noted a feeling of levitation on stepping.

Dread of cold water, aversion to bathing. Weakness on change of weather and on cold, bracing days. Sleeplessness.

Nash cured with Phys. 12c and 30c persistent sleeplessness in a patient who had been in an insane asylum and feared she would have to go again. Her symptoms were "If we chanced to get a nap she awoke suddenly as if in a fright and felt no better from what she had slept."

H. L. Chase, another prover, had a "very severe pain in the right popliteal space," and he afterwards cured a patient who came to him with pain in the same region two years later.

***PHYTOLACCA DECANDRA

(Poke Root)

PHARMACY - phyt. Phytolacca decandra. Poke root. Poke weed. Virginian Poke. Pole-root. Red ink plant.

Garget weed. N. **O.** Phytolaccaceae. Tincture of fresh root dug in winter. Tincture of the ripe berries. Tincture of fresh leaves. Solution of the resinous extract, Phytolaccin. **Historical dose:** Tincture and all potencies.

CLINICAL - Adenitis. Albuminuria. Angina pectoris. Anus, fissure. Asthma. Barber's itch. **Boils.** Bone, diseases. **Breasts, disorders. Breast-feeding. Breasts, tumors. Cancer.** Cholera. Ciliary, neuralgia. Colic. Conjunctivitis. Constipation. Cough. Dentition, difficult. Diarrhea. Diphtheria. Diplopia. Dysentery. Dysmenorrhea. Ears, disorders. Erythema nodosum. Eustachian tubes disorders. Galactorrhea. **Gland, disorders. Glands, enlarged.** Glossitis. Gonorrhea. Gout. Headaches. Hearing, disorders. Heart, disorders. Hepatitis. Hemorrhoids. Impotence. Influenza. Laryngismus. Leucorrhea. Lichen. Liver, disorders. Lumbago. Lupus. **Mastitis.** Mercury, effects. Miscarriage, threatened. Mouth, ulcerated. **Mumps.** Nephritis. Neuralgia. **Nipples, painful** Nursing, painful. Obesity. Orchitis. Ozaena. Paralysis, diphtheria. Parotiditis. Prostate, disorders. Rectum, cancer. Respiration, abnormal. **Rheumatism.** Ringworm. Rodent, ulcer. Salivation. Scabies. Scar. Sciatica. Sewer-gas poisoning. Spinal, irritation. Spleen, pain. Stiff-neck. Syphilis. Tetanus. Throat, sore. Tinea capitis. **Tonsillitis.** Toothaches. **Tumors.** Ulcers. Uterus disorders. **Venereal buboes.** Warts. Wens.

HERBAL - Phytolacca is a branching herbaceous plant with a thick, perennial root, sometimes larger than a man's leg in diameter. The plant is common throughout North America, the Azores, North Africa and China. It grows in damp places.

The young shoots, though extremely acrid, are rendered harmless by boiling and are eaten like asparagus in the United States. The berries have a popular repute as a remedy for cancer and rheumatism.

The berries of Phytolacca octandra are used in Mexico and the West Indies as a soap.

According to Raffinesque, the ash of the plant is 45 percent caustic potash, and the plant contains an acid, phytolactic acid, which is closely allied to malic acid. Phytolacca has been used as an escharotic in cancers, ulcers, etc.

HOMEOPATHIC - Phyt. is pre-eminently a **glandular and rheumatic remedy**. It powerfully affects the fibrous and osseous tissues, and the sheathes and fascias of muscles. Hence it becomes an admirable remedy in rheumatic affections.

It has a special affinity for the muscles of the shoulders and arms. Acts on the muscles of the neck and back, tendons and joints, periosteum, throat, digestive tract and the right side.

General soreness over the whole body, the patient moans and groans every time he moves. Lameness, soreness and a bruised feeling are felt all over the body. It combines with the pain, intense prostration and great exhaustion.

Rheumatic pain, tendency to affect the outer aspect of limbs. **Sudden achiness.** Pains come and go suddenly, change places. **Sore, hard aching pains.** The pain occurs in such quick succession that it renders the leg powerless numb and heavy. Each movement elicits groans. Spreading pains.

Rheumatism after tonsillitis. Lassitude with rheumatism, makes him lie down every now and then. Sciatica and hip joint disease, with pain shooting from sacrum down the outer aspect of thighs to knees and toes. Syphilitic bone pains, chronic rheumatism.

Glandular swellings with heat and inflammation, particularly **breasts and tonsils.** Hard and painful nodes. Acts on scar tissue. Hastens suppuration. Pus is watery, fetid, ichorous. Discharges are shreddy, stringy, stools, menses etc.

Affinity for the breasts and glands of women, which are prone to become cancerous in those of a cancer constitution.

Breast cancer, as well as cancers of the uterus and rectum. **Mastitis, breast disorders** . Pressure with hand ameliorates pain in breasts. Great sensitivity in breasts.

Sore throat, quinsy and diphtheria. **Sore throats, right-sided,** relieved by swallowing cold drinks, worse from warm drinks and empty swallowing. Enlarged and painful cervical glands accompany the inflamed sore throats. Bluish-red parts, throat glands. Burning pains in cancerous ulcerations and in inflamed throats.

Restlessness and prostration. Tetanus, general muscular rigidity, alternate spasms and relaxation of muscles. Opisthotonos. Decrease of weight. Obesity. Retarded dentition.

MIND - Irritable and nervous. Restlessness. Indisposition to mental exertion. Disgust for business. Feels faint on rising. Stupor with vertigo and dimness of vision. Refuses food in spite of continuous insistence. Irresistible compulsion to clench the teeth.

Melancholy, gloom, indifference to life. Depression of spirits with headache. Weeping at night during menses. Great fear, sure she will die. Predicts death, with mastitis. Desires death in morning on waking.

Confusion while sitting, better open air. Delirium. Loss of personal delicacy, complete shamelessness and indifference to exposure of her person. Oversensitiveness to pain. Cannot endure pain, it is intolerable. Unconsciousness from pain.

Abdomen - Great rumbling in abdomen and pain in umbilicus. Heavy aching pain in the hypochondrium, worse lying on affected side. Sore spot in right hypochondrium. Soreness and pain in right hypochondrium during pregnancy. Rheumatism of abdominal muscles. Bruised feeling through the epigastrium and abdomen. Colic at navel, with burning griping pains. Bearing down pains. Intense vomiting and purging with griping pains and cramps in abdomen. Ulceration of mucus membrane of upper part of digestive tract.

Back - Pains streaking up and down the spine. Back stiff, especially in morning on rising and during damp weather. Aching pain in lumbar and sacral region. Shooting pain in sacrum. Weakness and dull pain in region of kidneys. Hardness of glands in right side of neck. Neck stiff in morning on waking. Pale red spots on neck and arms. Both scapulae ache continually.

Breasts - **Heavy, stony, hard swollen or tender breasts.** Severe stinging pains, throughout breasts, with oozing out of milk, better pressure with hands. **Swollen breast.** Irritable breasts, before and during menses. Tender and sore breasts, before and during menses. **Mastitis**, with breasts hard and very sensitive. Mastitis from taking cold. Mastitis during pregnancy. Galactorrhea (Calc.), causes great exhaustion. When child nurses, **pain goes from nipple all over body.** Milk thick, scanty and unhealthy, dries up too soon. Breast hard as a stone, after weaning. Cracks and small ulcers about nipples. Nipples, cracked, very sensitive inverted. Tumors or hard nodes of the breasts with enlarged axillary glands. Breast is hard, painful and of purple hue. **Breast cancer**, with shooting, lancinating pains, great exhaustion and prostration. Breast abscess. Bloody, watery discharge from breasts. Affection of old scars in breasts.

Causations - Emotions, grief, injuries, blows, bathing, and exposure to cold, damp weather.

Chest - Aching pains in chest, through mid-sternum with cough. Rheumatism of lower intercostals, from exposure to cold and dampness. Tenderness and lameness of muscles of chest, as if bruised. Swelling of axillary glands.

Constitutions - Suited to rheumatic or syphilitic subjects, sensitive to damp weather. Cancer constitution.

Ears - Shooting pains in both the ears, worse swallowing. Obstruction in left Eustachian tube. Irritation in one Eustachian tube. Increased sense of hearing with pain in forehead.

Eyes - Dull aching in eyes, worse motion, light or exercise. Orbital cellulitis. **Burning, smarting, tingling in eyes.** Feeling of sand under lids. **Profuse hot lachrymation.** Fistula lachrymalis (Fl-ac.). Lids agglutinated and edematous. Lids as if on

fire. Tarsal edges feel hot. Photophobia. Green vision. Eyeballs ache on reading and writing. Diplopia. Motion of one eye only, independent of the other.

Face - Face very pale, hippocratic. Yellowish, sickly. Blotches in face, worse evening, after washing and eating. Blueness around eyes. Chin drawn closely to sternum. Glands swollen at the angle of jaw. Jaws ache, as in mumps. Aching malar bones. **Mumps.** Tension and pressure in parotid gland.

Female - Amenorrhea, with ovarian irritation or disease. Menses too copious and frequent, followed by leucorrhea. Menses with salivation and lachrymation. Dysmenorrhea in barren women with erosion of cervix membranous. Leucorrhea, thick, tenacious and irritating. Leucorrhea profuse, thick, tenacious. Ovarian neuralgia of right side. Ovaritis with rheumatic complications. **Venereal buboes.** Swollen nabothian cysts. Glandular swellings and abscesses. Suppression of lochia.

Food - Intense thirst. Hunger, soon after eating. Loss of appetite. Can't swallow any hot food or drinks (Lach.), causes choking. Diarrhea after lemonade. Vomiting of food and milk, in teething children.

Glands - Swelling and induration of glands. Swollen glands and burning pains, worse at night. Glands swollen at the angle of jaw. Glandular abscesses. **Venereal buboes.** Hardness of glands in right side of neck. Swelling of axillary glands.

Head - Pain from frontal region backwards. Pressure in temples and over eyes. Brain feels sore, head as if beaten. Violent headache, with stupid expression of face and enlarged pupils. Headache with vertigo and dim vision. Nausea and headache better eating, but returns soon with vomiting. Rheumatism of scalp, pains come on every time it rains. Cold sweat on forehead. Scaly eruption on scalp. Tinea capitis.

Heart - Feeling as if heart leaped into throat (Podo.). Pains in region of heart, worse walking. Shock of pain in cardiac region alternating with pain in right arm. Fatty heart. Small, irregular pulse with great excitement in cardiac region.

Kidneys - Dull and sore pains in kidneys. Pains in kidney region, with scanty, suppressed urine. **Hard aching pain in kidney** with scanty urine. Nephritis. Urine coffee-colored. Dark red urine, chalky sediment. Urine stains the clothes yellow. Albuminuria after diphtheria, scarlatina. Copious nocturnal urination.

Limbs - Rheumatic pains, worse in morning. Syphilitic sciatica. **Pains fly like electric shocks**, shooting, lancinating, shifting rapidly (Puls., Kali-bi.). **Wandering pains** passing from one joint and place to another, with swelling and redness. **Muscular soreness all over.** Shooting pain in right shoulder with stiffness and inability to raise arm. Painful, hard, shiny swelling of finger joints. Pain in hips and thighs on change of weather. Sharp

cutting, drawing pains in the hip, legs drawn up, cannot touch floor. Pain in legs, patient dreads to get up. **Aching of heels**, relieved by elevating feet. Feet puffed, pain in ankles and feet. Neuralgia in toes. Cold hands and feet.

Liver - Chronic hepatitis (Chin., Phos.), with enlargement and induration of liver.

Lungs - Difficult breathing. Pains and suffocating feeling in throat and lungs. Panting breathing. Hoarseness. Paroxysmal cough and very profuse and exhausting expectoration of thick starch-like mucus. Dry hacking, tickling cough, worse at night (Menth., Bell.). Cough with burning in trachea. Cough as soon as he lies down. Cough with pain in chest and side. Croupy cough, with burning in larynx and trachea, worse at night and in cold, damp weather. Chronic cough, generally hard and dry. Thick, tough expectoration. Thick expectoration, starch-like mucus, profuse and exhausting. Copious, yellow mucus.

Male - **Shooting along perineum to penis**. Painful induration of the testicles. Orchitis, acute and chronic, with suppuration and fistulous ulcer. Spermatic cord sore. Gonorrhea and gleet. **Venereal buboes**. Ulcers on genitals. Impotency.

Modalities - Better warmth, dry weather. Better from lying on abdomen or left side, lying on stomach, rest. Rubbing

Phytolacca decandra ameliorates pain in hip. Pressure on trachea facilitates expectoration. Sensitive to electric changes. **Worse exposure to damp, cold weather, rain, cold night**, changes of weather, washing, heat. **Worse movement**, raising up, stepping down from high step, right side, from touch, during menses. Worse from swallowing, particularly hot drinks. Pressure aggravates pain in joints and ulcers. Riding aggravates nose and breathing.

Mouth - Dry sensation in mouth, from cough. Metallic taste in mouth. Much stringy saliva. Profuse saliva, sometimes yellowish, often thick, ropy, tenacious. Bleeding from mouth. Very painful small ulcers on side of cheek, cannot chew on that side. Jaws firmly set, chin drawn down on sternum. Ulcers on lips. Upper lip excoriated. Lower lip drawn down. Lips everted and firm.

Nose - Coryza with lachrymation and photophobia. Acrid coryza. **Coryza, flow of mucus from one nostril and from posteriorsinuses**. Thin watery discharge from nose. Feels congested and heavy. Pain at root of nose, with stoppage. Obstruction of nose while riding. Mucus hangs down in strings from posterior nares, hawked with difficulty. Cancerous affection of nose, lupus.

Rectum - Continuous urging to stools, even in sleep. Constipation of the aged and those with weak heart. Diarrhea after lemonade. Dysentery, passage only of mucus and blood or like scraping from the intestines. Stools thin, dark brown. Bloody discharges with heat in rectum. Bleeding from rectum. Bleeding hemorrhoids. Fissures of anus. Cancer of rectum.

Sensations - Brain as if bruised. Right side of head as if pressed firmly. As if sand in eyes. As if eyes too large. As if lids granulated. As if tarsal edges raw. As if lids on fire. As if lump in throat. As if apple core in throat. Throat so full it felt choked. Pharynx feels like a cavern, chest as if it were a big empty cask. Body as if bruised, pounded all over. As if joint were being chopped with an ax.

Skin - Dry, harsh, shriveled. Skin becomes dry, shrunken, pale. Itching. Papular and pustular lesions. Erythematous blotches, irregular, slightly raised, pale red, ending in dark red or purple spots. **Disposition to boils** and carbuncles, with swollen glands and burning pains, worse at night. Painful boils on back and behind ears. Squamous eruptions. Syphilitic eruptions. Swelling and induration of glands. Scarletina-like rash. Warts and moles. Lipoma. Corns. Barber's itch. Lipoma. Pityriasis. Ringworm. Ulcer, chronic, surrounded by boils. Cancerous ulcers.

Sleep - Frequent yawning and drowsiness. Restlessness at night. Pains drive him out of bed. On awaking, feels wretched.

Stomach - Hunger soon after eating. Heat in stomach. Stomach cramps and coldness. Pain in region of pylorus. Pains, worse deep breathing. Nausea, eructations of flatus and sour fluids, with severe pain in umbilical region. Easy vomiting without nausea. **Violent vomiting with retching, desires death to relieve vomiting**. Vomiting of clotted blood and mucus. Vomiting and diarrhea, with griping pains and cramps in abdomen.

Teeth - Difficult dentition, better biting on something hard. Teething children with **irresistible desire to bite the teeth together**. Teeth and jaws clenched. Teeth feel sore and elongated. Inflamed gums and teeth, with mercurial ptialism.

Temperature - Chills at night and every morning. Cold hands and feet. High fever, alternating with chilliness and great prostration. **Mastitis. Mumps.**

Throat - Aphonia. **Dark red or bluish red**. Much pain at root of tongue, soft palate and tonsils swollen. Sensation of a lump in throat (Bell., Lach.). **Throat feels rough, narrow, hot**. Ulcerated sore throat and diphtheria, **throat feels very hot, pain at root of tongue extending to ear**. Pseudo-membranous exudation,

grayish- white, thick, tenacious yellowish mucus. **Shooting pain into ears on swallowing. Cannot swallow anything hot** (Lach.). Tension and pressure in parotid gland. **Tonsils swollen**, especially right, dark-**Phytolacca decandra** red appearance. **Tonsillitis with fauces swollen** with burning pain, cannot swallow even water. Uvula large, dropsical. Follicular pharyngitis.

Tongue - Tongue thickly coated, yellow at **base, fiery red at tip**. Tongue mapped, indented, fissured, with yellow patch down center. Tongue feels rough and scalded, burnt on back of tongue. Pains at root. Tongue protruded.

Vertigo - Vertigo on rising, feels faint. Vertigo, staggering with danger of falling. Vertigo with dim vision.

COMMENTS - Closely related to Merc, and Kali-i., especially in syphilitic rheumatism. General action of tissue absorption, especially new growths. Tumors and indurations of the glands. Muscles, joints, bones, brain and spinal cord, as well as the special senses, were all more or less disordered.

In cases of poisoning, the most common symptoms were vomiting, diarrhea, frontal headache and a sore throat. Irritation of the eyes, nose and throat, a severe headache and diarrhea have occurred after inhaling the dust of the powdered dried root, or from the odor of the fresh root when it is sliced.

Phyt. has caused convulsive symptoms, vomiting and vomiting of worms when given to animals. Wild pigeons and other birds that eat the berries acquire a red color and lose fat. This observation has led to the use of a tincture of Phyt. berries as an anti-fat remedy, and successful results have been reported.

Hale tells us that among American dairymen the root is used to regulate any abnormality in cows' milk, whether it is scanty, thick, watery, curdy, or containing blood or pus. Its chief repute is for caked udders.

One boy, who drank two or three drachms of a tincture of the root, developed complete tetanus in which his limbs were stiff, hands firmly shut, feet extended toes flexed, lower lids drawn down, teeth clenched, lips everted and firm, general opisthotonos. Respiration was difficult, rales were heard all over the room.

For an hour muscular rigidity increased with convulsive action of muscles of face and neck, chin drawn close on sternum.

This condition lasted five or ten minutes, followed by perfect relaxation and return in twenty minutes more with the same violence.

After cold-water infusion, cupping, and mustard plasters, the boy slept about twenty-five minutes. On waking he had some twitchings, especially of lower limbs, pain in back of head and stomach. The next day he was quite recovered.

A boy, 8, who ate a quantity of the berries, was found in great agony, complaining that his stomach was "inched together." He had nausea, violent vomiting, his throat was sore and dry, fauces dark red, tonsils swollen.

After his vomiting ceased, purging set in, stools dark brown and thin, severe pain in stomach on pressure, extorting a cry. Later he had burning griping in umbilical region, dim vision, tongue coated white, and spasmodic jerkings in his arms and legs.

In a woman, 45, who took Phyt. as a "blood purifier," a general rash in appearance not unlike the rash of secondary syphilis was set up.

A family of four was poisoned by eating the root with their food by mistake. They had a dread of movement. Seemed stupid, fell asleep after a paroxysm of cramping pain had ceased. Pain in the forehead, worse after eating.

Vomited clotted blood and slime. Copious discharge of blood and mucus that looked like scrapings of the intestines. Involuntary stools from straining, which occurred even in sleep.

In the mother of the family, who was seven months pregnant, it nearly produced miscarriage. The uterus could be felt contracting under the hand, and there was involuntary straining and hemorrhage from the vagina. Intense griping pain in small of back and cramps in legs coming and going suddenly. Coldness and withered appearance of limbs, the whole body cold.

Phyt., used externally, produces good results in cases of ulceration. Clarke found *that a gargle of a few drops of the tincture* in a tumbler of water was useful in many throat cases.

Hundall successfully used a preparation of the leaves as an external application for cancerous growths in dogs. An ointment prepared with a strong tincture of the leave, as well as the juice of the leaves, has been used for malignant ulcers in humans.

A case of cancer of the rectum was cured with Phyt. 3x. Nash removed many breast tumors by giving a single dose of Phyt. 100,000c during the wane of the moon. The tincture may take away nondescript lumps in the breast when there are few symptoms.

Breast cancer, especially with axillary involvement, especially right sided. Breast cancer that suppurates with horrible burning pains in the breasts. Advanced cases of cancer or tumors. Hard nodules with a bluish appearance and enlarged axillary glands. Scirrhus tumors, hard like cement (Con.). Scars of the breast, cicatrix (Graph., Sil.).

Sharp pain from the breast. Breast neuralgias, painful nerve irritation. Swollen glands, indurated (Brom.). Paget's disease of the breast. Breast induration and abscesses in nursing women.

Mastitis with a hot, painful, congested and sensitive breast, worse cold and damp. Breasts are hard and lumpy, heavy with mastitis (Bry.). Cracks and fissures in the nipples. Blocked ducts in the breast. Problems with nursing, if the milk dries up, bad milk, thick or lumpy milk. Painful, sore nipples in nursing women. Pain radiates all over the body when the child is put to the breast.

Rheumatic swellings are hard, tender and intensely hot. Arthritis, particularly of the shoulder (Rhus-t.), the joints swell before a storm or when damp. Worse at night, change of weather. Wandering pains, migratory arthritis.

Sciatica with sharp, cutting pains in the hip and down the thigh. Stiff neck. Generally swollen, stiff and sore, worse on the right side. Electric shocks, sharp pain in the joints with the stiffness (Ruta.). Very restless, but worse from motion. The tendons feel too short (Ruta.).

When pain in intestines disappears, pain in limbs comes on. Pain leaves heart and appears in right arm. Pains in head and chest go from before backward.

Pains run down spine from nape, from sacrum down outer aspect of thighs to toes. The outer aspects of the limbs are chiefly affected.

Frontal headaches, pressive, involving the eyes, worse right side. Headache associated with increased sense of hearing. Apathetic, gloomy. Restless with a fear of dying (Ars.). Generally self-centered (Ars.). Nervous irritability.

Disorders of dentition. Teething, better pressure. Teething with bad breath and sores in the mouth. Irresistible inclination to bite the teeth or gums together. Toothache with digging in pain, shooting pain. Sensation as if the teeth are too long. Jaw problems, with or without swollen glands. The tongue feels burnt and rough, may be blistered, with a red tip (Rhus-t.).

Influenza with general body ache, back pain and wandering joint pains. Swollen, tender glands with throat symptoms. Stiffness. Bone ache. Fevers with pain and vertigo (Gels.). Apathetic, internal shivering (Gels.). Feels sore and bruised (Bapt., Eup., Arn.). Delirium.

Diphtheria (Lac-c.). Sore throat, strep throat, tonsillitis. Burning in the throat with a stiff neck (Rhus-t.), worse from warmth. Dry, raw, rough sore throats. Throat appears dark and purplish. Very swollen and tender glands, particularly on right side of the throat. Great pain at root of tongue when swallowing, pains shooting from throat into ears on swallowing, worse on right side.

Hot feeling as if a red-hot ball in throat, burning worse by hot drinks. As if a red-hot iron in the throat (Kali-c., in the rectum; Alum., in the spine). Throat feels plugged (Caust.). Dark redness of fauces. White or gray patches on the tonsils, with offensive breath. Tonsils may appear ulcerated, with crypts. Tenacious, thick mucus in the throat, especially in the morning. Burning of the tongue. Ulcers of the mouth.

The Eclectics gave the expressed juice of the berries in "spasmodic or membranous croup or diphtheria." Clarke used Phyt. 30c for the so-called "diphtheria sore throat."

With the throat symptoms there are generally headache, backache, wandering rheumatic pains and fever. Nash relieved chronic follicular pharyngitis in public speakers when there was much burning, as if a hot substance in throat.

Rapid and profound prostration. Diphtheriaparalysis. Faint and dizzy when standing. Soreness of the muscles. Restlessness, but he fears to move because motion worse the pains. Stiff neck, especially right side.

Angina. Sense of constriction in the chest. Radiating pains down the right arm (Lil-t.). Heart palpitations followed by severe aching down the right arm. Sensation of the heart beating in the throat.

The right side is most affected. Many symptoms were experienced in the liver and the spleen. Liver pains were worse lying on right (painful) side. The spleen pain was better lying on left (painful) side. Hepatitis with an enlarged, indurated liver.

Sensation in the stomach as if something is being pinched with violent vomiting attacks and pains in the pit of the stomach. Colic during teething, clenching their teeth with severe stomach or abdominal cramps, diarrhea. One characteristic pain, noted in a case of constipation, is a shooting pain from anus to lower part of rectum, along perineum to middle of penis.

"Gurgling sensation in the prostate gland, repeatedly in the afternoon," was noted by one prover along with pains in spermatic cords. Suspension of sexual appetite with relaxation of the genitals. Syphilis, with bone pains, ulcers on the genitals and sore throats, worse at night.

Discharges are tough, stringy, difficult to detach. Generally offensive and acrid. Clinkers. Shreddy discharge in certain forms of intestinal catarrh and dysmenorrhea. Hemorrhagic and hemorrhoidal, acting strongly on rectum and anus, curing tenesmus, bloody discharges and heat.

Psoriasis, ringworm and barber's itch. Chronic eczematous eruptions of the face. Old scars that never heal,

and when the weather changes the scars flare up and become painful (Graph.).

RELATIONS-Antidotes: Milk and salt, Bell., Mez. **Compare:** (1) Tincture of Phyt. berry - sore throats and in the treatment of obesity. (2) Bry., Rhus-t., Kali-hp., Merc., Sang., Arum-t. **Inimical:** Merc.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***PICRICUM ACIDUM

(Picric Acid)

PHARMACY - pic-ac. Picricum acidum. Picric acid. Picronitricum acidum. Trinitrophenolum. Carbazotic acid. Tri-nitro-carbolic acid. Trituration. Solution in rectified spirit. **Historical dose:** All potencies.

CLINICAL - Acne. Anemia. Backaches. Bedwetting. **Boils.** Brain, pain. **Brain-fag. Burns.** Cachexia. Cancer. Condylomata. Conjunctivitis. Deafness. **Debility.** Dementia. Diabetes. **Ears, boils.** Emissions. Erythema. Hands, sweat. **Headaches.** Hemiplegia. Hemoglobinuria. Jaundice. Leucorrhea. Leukocythemia. Liver, congestion. Locomotor. ataxia. Masturbation. **Memory, weakness.** Myelitis. **Neurasthenia.** Nosebleeds. Otitis. Ovary, pain. Paralysis. Paraplegia. Pernicious, anemia. **Priapism.** Pruritus, vulvae. Sexual, mania. Spinal, exhaustion. Spinal, irritation. Spinal, sclerosis. Styes. Sycosis. **Uremia.** Urine, bloody. Writer's cramp.

HOMEOPATHIC - Pic-ac. was discovered by Hausman in 1788. It is formed by the action of nitric acid on carbolic acid, salicin, silk and many other substances. Pic-ac. and its compounds are among the most powerful explosives known, lydlite being an example.

Picric acid crystallizes in bright yellow needles or scales of very bitter taste, sparingly soluble in water. The yellow color is imparted to the eyes and skins of patients who take it in the crude, and it not only produces a semblance of jaundice, but actually disorganizes the liver if pushed.

Acts upon the brain, spinal cord, lumbar region, occiput, kidneys and sexual organs. Weakness, heavy, tired feeling in body and mind. It causes degeneration of the spinal cord with paralysis. It acts upon the generative organs probably through the lumbar centers of the spinal cord.

Occipital and bursting headaches (Glon.). The headache, frontal or occipital is worse on any attempt to use the mind and it may extend down the spine. Headache extending from the top of the spine up over the head to the eyes.

Neurasthenia (Ox-ac.). **Worn out persons, mentally and physically.** Cachexia. Progressive, pernicious anemia. Prostration, weakness and pain of back. Muscular debility. Heavy tired feeling. Numbness. Formication. Pins and needle sensation in limbs. Burning in many parts, along spine in legs.

Sallow complexion. **Uremia** with complete anuria. Brain-fatigue and sexual excitement. Degeneration of the spinal cord with paralysis. Myelitis with spasms and prostration. Acute ascending paralysis. Typist's or writer's palsy.

Therly of Paris accidentally discovered in Pic-ac. solution a remedy for burns. He twice dropped burning matter on his hands while working with a Pic-ac. disinfectant and was astonished at the absence of pain or injury.

From that date Pic-ac. became his principal remedy for burns and though others have complained that it caused violent pains, Therly has only once in some thousands of cases had to abandon its use on that account.

A one percent solution applied on lint is the best application for burns until granulations begin to form.

MIND - Anxiety. **Dread of failure at examination.** Mental weakness after prolonged strain and anxiety.

Memory, weakness. Forgetfulness. **Mental exertion aggravates.** Mental prostration after reading a little, worse after writing a little. Inability to collect thoughts or to study. **Brain-fag.** Inability to exert the mind, talk or think. Lack of willpower, disinclined to work.

Aversion to talking or movement, during headache. Sits still and listless, does not take interest in surroundings.

Cerebral softening. Dementia with prostration, sits still and listens. In women, although enjoying the society of men, idea of marriage unendurable. Lascivious thoughts in presence of any woman. Lewdness.

Delusion that parts of body enlarged. As if stairs or ground coming up to meet him.

Abdomen - Fullness of the abdomen. Sharp pain in left side of umbilicus. Shooting, wandering pain. Crawling, stinging. Rumbling in small intestines with colic. Crampy pain and flatus. Emission of flatus during the day in evening.

Back - Burning along spine. Painful boils on nape of neck. Backache with languor, patient is unable to sit straight and burning along spine, worse study. Keeps legs wide apart when standing. Aching, tired legs. Writer's cramps or palsy. Back seems as if bandaged, also limbs. Anesthesia of legs as if one has on elastic stockings. Legs weak, heavy like lead, lifts with difficulty.

Chest - Tightness of chest, as if encircled by a band. Numbness in lower part of sternum.

Constitutions - Suited to dark complex- ioned persons with a dirty appearance from bile pigments, anemic and cachectic persons. Worn-out person, overtaxed mentally and bodily.

Ears - Boils within ears and back of neck. **Painful boils** in meatus. Puffy and burning sensation in ears.

Buzzing and hissing in ears. Noises in ears with vertigo and headache at the base of brain. Chronic deafness. **Eyes** - Pupils dilated. Eyes yellow. Catarrhal conjunctivitis with copious, thick yellow discharge. Lachrymation. Styes with a sore pain.

Female - Pain in left ovary and leucorrhea before menstruation. Extreme exhaustion at menstrual periods. Pruritus vulvae.

Food - Appetite increased, then lost for breakfast. Aversion to food, at noon. Great thirst with bitter taste, unquenchable. Thirst for cold water.

Head - **Headaches, relieved by bandaging tightly.** Headache, worse mental exertion, better nosebleed. Headache, worse with sexual excitement and violent erections. Headache during daytime better in sleep. Headache of businessmen, teachers and students from grief and other depressing emotions. **Brain-fag.** **Occipital pain,** worse slightest mental exertion. Heavy

Picricum acidum occiput, down spine and lower limbs.

Kidneys - Inflammation of kidneys with profound weakness, dark, bloody, scanty urine. Dribbling urine. Albuminuria. Ammoniacal. Urine contains much indican, granular cylinders and fatty degenerated epithelium. Uremia with **complete anuria.** Diabetes. Nightly urging.

Limbs - **Great weakness, tired, heavy feeling all over body, especially limbs. Worse exertion.** Acute ascending paralysis. Feet cold. Cannot get warm.

Liver - Liver full of fat granules. Sticking through hepatic region, worse in muscles. Tendency to jaundice. Jaundice with itching.

Male - Enlargement of the prostate gland. Hard erections with pain in testicles up spermatic cord. **Priapism,** penis distended. Lascivious thoughts in presence of any woman. Extreme prostration from frequent seminal emissions. Impotency with tendency to boils and carbuncles.

Modalities - Better from cold air, cold water, sun. Better tight pressure, bandaging, rest. Worse least exertion, especially mental, fatigue, study, mental shock. Worse after sleep, seminal losses. Worse wet weather, hot weather.

Mouth - Bitter taste with thirst. White, frothy saliva hang in strings to the floor.

Nose - Boil in left nostril. Stinging on right side of nose. Acne. Nose full of mucus, can breathe only through mouth, better open air.

Rectum - Diarrhea from mental exertion. Stools thin, yellow, oily. Burning in rectum while passing stools.

Sensations - As if sand or sticks in eyes. As if throat would split. As of a lump back of thyroid cartilage. As if chest encircled in a tight band. As if legs enclosed in elastic stockings. Pricking as from needles in legs. As if stairs or ground coming up to meet him. As of ants crawling over surface.

Skin - Jaundice. Small, painful, sore boils, especially on neck.

Sleep - Sleepy during day and sleepless during night. Sleepiness. Sleep sound but unrefreshing.

Stomach - Vomits suddenly, without warning. Vomit bright yellow, bitter.

Throat - Redness of throat with raw, scraped, stiff and hot feeling. Soreness back of and above soft palate with debility. Dry and husky.

Vertigo - Vertigo and noises in ear.

COMMENTS - Grimmer said this remedy's sphere of action centers in the brain, spinal cord and the bloodstream. It produce in the provings a marked cachexia and pernicious anemia and these conditions in the sick have many times been cured.

In some experiments by Parisel, symptoms were observed including buzzing and whistling in ears, sparks, whirling around of objects, heaviness of head alternately with sense of emptiness. Copious, oily-looking, yellowish stool with amelioration of cerebral symptoms.

Pulse slow, small, very feeble. Great weakness, compelling to lie down, limbs hardly able to stir themselves, no anxiety, profound calm. Vivid coloration of sclerotics and tissues, urine colored blood-red. These were effects of 0.5 grains doses. Slow poisoning set up an intermittent fever of quotidian type and "anorexia, thirst often sweat, cancerous tint about skin, tendency to cachexia."

These observations give the chief features of the remedy's action: fatigue, mental and bodily, symptoms worse by least exertion, fatigue going into actual paralysis, brain fatigue, nerve fatigue, at the same time absence of anxiety indifference. The right upper part of the body is more affected than the left, the left leg more than the right.

Cachectic tint to skin, suggestion of malignancy, skin merging into a jaundice as the disease advances. Cachexia and cancerous tints. "Tired-out, washed-out feeling must give in." Jaundice, with itching. Small, painful furuncles, particularly in the auditory meatus. Fig warts. Erythema and itching of abdomen and feet.

Heat and congestion of the head, with nosebleeds. Heaviness of head alternates with emptiness. Frequent severe headache. Pain in eyes, worse from lamp light, strong light, moving the eye. Spinal congestion. Colds.

Chilliness predominates.

Amorous fancies. Lascivious thoughts in the presence of any women. Great sexual desire with emissions. Terrible erections, disturbing sleep. Long-continued erections at night with emissions, followed by more erections and lewd dreams, priapism day and night. Priapism, penis distended almost to bursting. Gonorrhea. Burning during and after urination.

Exhaustion and complete prostration of mind and body from sexual excesses, mental and physical fatigue. Over-excitement of sexual system is associated with spinal or cerebral disorders in either sex.

A. C. Blackwood detailed the uses of Pic-ac. for burns of the first and second degree. He used a saturated solution diluted with one quart of water. The clothing was removed and the burnt surface cleansed with the solution and absorbent cotton. Blisters were opened but he carefully preserved the epithelial covering.

If extensive, the whole surface might be bathed with the solution and strips of sterilized gauze soaked and applied to entirely cover it, a layer of absorbent cotton held with a light bandage over all.

After three or four days the dressing was removed carefully after thorough moistening, as it adhered closely. The second dressing was applied as at first and allowed to remain a week. The staining of the hands and linen caused by the dressing can be removed by boric acid.

Blackwood found it painless, anodyne, antiseptic, preventing inflammation, suppuration and septic poisoning. It coagulates the albuminous exudation and healing takes place under the coagulum.

Gaucher removed acute vesicular eczema by the same treatment. He noted that the skin and kidneys are intimately related and Pic-ac. has a powerful action on the latter. Among other disorders, it has cured diabetes. Kent said Pic-ac. cures fig-warts and gonorrhea, he was led to infer its relation by its power over pernicious anemia, which he had often traced to a gonorrheal base.

In a case of spinal irritation, Clarke relieved with Pic-ac. 30c a pain which shot up from the spine into the head. The pains referable to the spinal cord are strongly marked. Any attempt to study causes burning along spine with great weakness of back and legs, soreness of muscles and joints.

Halbert reported a case illustrating the power of Pic-ac. over the effects of fatigue in professional neuroses. A stenographer and typewriter, after using her right index finger continuously for six years, noticed weakness of her thumb and index.

Then, she noticed the inability to hold a pen or pencil. Next there was difficulty in striking correctly the keys of the typewriter and some wrist-drop. The finger, when Halbert first saw her, was quite rigid and straight, showing extreme spasticity.

Massage, electricity, etc., had failed to give any relief. Pic-ac. 3x six times daily cured the case and made great improvement in the patient's general health.

Halbert reported the case of Mrs., C., 49, who had "nervous prostration" since the shock of the loss of a child three years before. Wasting with great appetite. Intense thirst and copious urination, especially at night.

Great perspiration and some jaundice. Heart flabby, mitral bruit, Dyspnea, emaciation, anemia, exhaustion. Urine 1040, 7 1/2 percent of sugar and some albumen. Pic-ac. 6x six times daily was given, rapid and continuous improvement followed.

Nash cured an old man who have been failing for a year with Pic-ac. 6c trituration. The man complained of heaviness in the occiput, inability to exert the mind, talk or think and general "played-out" feeling. Nash had feared brain softening.

Evans found it curative in girls and young women who, under the strain of many studies, show signs of breaking down. They lose appetite, sleep lightly and lie awake, exhaustion after the day's studies, fatigued even from a short walk, twitchings of muscles when asleep or awake, hysterical state, loss of will power, constant headache, irregular menses. Such patients are usually given iron, which does little or no good.

RELATIONS - Compare: (1) Ox-ac., Gels., Phos., Sil., Arg-n. (2) Zinc-pic. - facial palsy and Parkinson's disease. (3) Ferr-pic. - buzzing in ears, deafness, chronic gout, nosebleed, prostatic troubles. (4) Calc-pic. - boils in and around ears.

REFERENCES - Boericke. Clarke. Phatak.

***Picrotoxinum

(Picrotoxin)

PHARMACY - picro. Picrotoxinum. Picrotoxin. Alkaloid obtained from the fruit of *Cocculus indicus*. Menispermaceae. Trituration. **Historical dose:** All potencies.

CLINICAL - Dysentery. Dyspepsia. Hernia. Locomotor ataxia. Night-sweats. Urine, excess.

HOMEOPATHIC - Falk noted that *Cocc.* is used to stupefy fishes and when Picro. is added to water in which fishes are swimming "they make winding and boring movements of the body. Alternating with quiet swimming, open their mouths and gill caverns frequently, fall on their side and rapidly die of asphyxia."

J. H. Henry proved Picro. on himself. The symptoms were so severe that he was alarmed and took Op. and Camph. to antidote them.

Nausea with tendency to faint, violent intestinal pain and purging, dysenteric diarrhea and excessive secretion of urine, cramps and paralytic sensations were experienced. The symptom which gave the most concern was the pain in the bowels and sensation as if the bowels would protrude at left inguinal ring.

COMMENTS - Brunton said the local application of Picro. as an ointment to the head for tinea capitis and to destroy lice has been followed by convulsions and death.

Hansen mentioned that it has been given at bedtime to relieve the night-sweats of tuberculosis. With Pictx-ac 3x, Dorr cured in a few weeks a case of advanced locomotor ataxia with amaurotic amblyopia.

RELATIONS - Compare: (1) Cocc. (2) In tetaniform convulsions, Nux-v. with Piero, respiration is accelerated more from spasm of glottis than of respiration and there is less susceptibility to slight touch, more chorea symptoms.

REFERENCES - Clarke.

***PILOCARPINUM

(Pilocarpine)

PHARMACY - piloc. Pilocarpinum hydro- chloricum. Pilocarpine. Jaborandi alkaloid. Pilocarpinum muriaticum nitricum purum. Rutaceae. Solution in distilled water. Trituration. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Alopecia. Convulsions, uremia, Deafness. Exhaustion. **Eye, disorders.** Faintness. **Hair, loss.** Meniere's **disease.** **Mumps.** Myopia. Paralysis. **Perspiration, excessive.** Pregnancy, nausea. Salivation. **Tinnitus.** Vertigo, aural.

HOMEOPATHIC - Piloc. is one of the most characteristic of several alkaloids which have been isolated from jaborandi (Pilocarpus pin- natus). It has been used like Jab. to produce and cure profuse sweating, and by oculists to produce contraction of the pupil, which it does whether it is injected subcutaneously or applied directly to the eye. It has also an action on the ear.

The hair as well as the skin is affected by Piloc., which is an ingredient in many "hair restorers." Schmitz of Cologne treated two bald men with injections of Piloc. mur. to produce absorption of inflammatory residue within the eye.

In both a secondary effect occurred, the growth of young downy hairs on the bald parts of the scalp. One, age 60 in four months and his head covered "partly with gray and partly with black hairs" of considerable growth, so as to entirely obliterate his previous baldness. Piloc. has also been known to turn white hair black.

In a case of lead paralysis, it produced profuse salivation and sweat with sensation of great coldness and excessive tremors of limbs. Salivation and sweating speedily occur.

Dilatation of blood vessels, temporal artery becomes a thick, pulsating cord, veins of forehead stand out blue. Exhaustion (after the perspiration) during which most of the patients fell asleep. Faintness.

Ears - Aural vertigo. Tinnitus of left ear. Deafness with tinnitus. Labyrinthine deafness, worse when tired. Increased secretion of wax.

Eyes - Profuse lachrymation. Pupils contracted to pin-head. Sight for distance improved.

Face - Forehead and face red, veins stand out. Perspiration begins on face.

Female - Menses two days early.

Food - Intense thirst following the sweating.

Head - Throbbing in temples with acceleration of pulse. Turns white hair black.

Heart - Weakness of the heart. Pulse accelerated, blood pressure diminished. After the perspiration the pulse sinks to normal.

Lungs - Increased bronchial mucus, much cough and expectoration. Constantly taking cold and in fear of bronchitis.

Mouth - Saliva thick, stringy, exceedingly tenacious. Sudden salivation, maximum reached in fifteen minutes, continues two hours, one and a half pints of thin saliva being secreted in that time.

Nose - Nasal secretion increased.

Rectum - Urging to stool.

Skin - Irritable skin.

Sleep - Patients fall asleep under its influence.

Stomach - Nausea, only occurring when salivation is complete (does not go on to vomiting as that of Jab. does). Nausea and retching.

Temperature - Sensation of coldness and shaking chill without fall of temperature. Increase of temperature with feeling of intense cold. Sweat profuse, may lose Vom tow to tow powvts tu fet sw catwg. After sweat, thirst, feeling of relief and sense of increased vigor.

COMMENTS - G. P. Field gave it with good effect in labyrinthine deafness, tinnitus and auditory nerve vertigo. The cases least amenable to its influence were those in which the hearing was better in a noise as of a train, etc. and those in which the hearing is worse after a cold. Subjects of syphilis, hereditary or acquired and patients who are more deaf when tired, are the most suitable.

Wood went to see a woman three months pregnant. She was a picture of distress and despair. For eight weeks she had saturated from six to ten handkerchiefs daily with tenacious saliva. Nausea and vomiting were constant, emaciation extreme. Nausea worse by slightest movement.

Alternate redness and paleness of face, flushes of heat and perspiration. Urine scanty, high colored, depositing much uric acid. Very chilly, obstinate constipation. Piloc. was given, a teaspoonful every two hours.

The next day Wood found his patient sitting up, cheerful and free from nausea and salivation. The improvement, with some fluctuations, continued. Merc., Ip., Nit-ac., Kali-bi., Hydr., Cimic. had all previously failed.

A woman who had Piloc. injections complained to Cooper that thereafter she had been constantly catching colds and had fears of getting bronchitis. Her skin too, became irritable. Piloc. 3x is Burnett's chief remedy in mumps. He regarded it (and Jab.) as an organ remedy of the sweat glands, parotid and pancreas.

Frohling related a case showing the power of Piloc. over debilitating sweats left after acute diseases. With Merc. 12c he cured a case of rheumatic fever so far as the joint affection was concerned, but the sweats persisted and strength declined in spite of remedies until Piloc. was given, when the sweating stopped after the first dose.

RELATIONS-Antidoted by: Atro., Am-c. (sal volatile), brandy. **Compare:** (1) Jab., Myos., Esin., Phys. **Follows well:** Merc, (in sweating of rheumatic fever).

REFERENCES - Clarke.

***PIMENTA OFFICINALIS

(Allspice)

PHARMACY - pime. Pimenta officinalis. Allspice. Pimento. Eugenia pimenta. Eugenia acris. Myrtus pimenta. Jamaica Pepper. N. O. Myrtaceae. West Indies. Pimento consists of the dried berries. Tincture of the fruit.

Historical dose: Tincture and all potencies.

CLINICAL - Chills. Neuralgia.

HERBAL - "Allspice" is so named because its odor is said to resemble a combination of cinnamon, nutmeg and cloves. A tincture was proved by Becket, and developed one-sided neuralgias and disturbed sensations of heat and cold.

HOMEOPATHIC - Pime. has helped disturbances in the body's temperature and sensitivity. Parts of body burning hot, other cold. Peculiar cold sensation as if sponge filled with cold water passed here and there over the surface, succeeded by sensation of heat, as in the reaction after a cold bath. Very imperious desire to eat. Semi-lateral neuralgic lesions.

RELATIONS - Compare: (1) Eucal., Eug.

REFERENCES - Clarke.

***PIMPINELLA SAXIFRAGA

(Bibernell)

PHARMACY - pimp. Pimpinella saxifraga. Bibernell. Pimpinella alba. Burnt saxifraga. N. O. Umbelliferae. Saxifrage. Tincture of the fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Chilliness. Coms. Nosebleed. Fever. Headache. Lumbago. Stiff neck. Tinnitus.

HOMEOPATHIC - The majority of the symptoms were obtained by Shelling from chewing the fresh root. The rest were contributed by Berridge, who proved the lx on a man.

Marked chilliness, chilly in the back even in a warm room and much worse if a window was opened. Sensitive to drafts. Sensation of coldness in occiput as from a cutting wind behind.

Cold stream from hip and into right leg. the pains and sensations extended from one part to another, principally from above downward and from before backward (temples to nape, forehead to eyes, nape to shoulders) from within outward or alternated between different parts.

Rush of blood to head, followed by nosebleed, whizzing in head, roaring in ears. Sinking sensation in intestines. Weariness and falling asleep of parts rested on. Frequent yawning and desire to take a long breath, which was difficult. Great drowsiness.

Modalities - V ertigo and sweat worse morning. Heat and rush of blood to the head, worse afternoon. Weary pain in limbs worse from rest. Worse reading, writing, reflecting. Worse by chewing, standing, stooping, walking. Worse by opening window in warm room.

RELATIONS - Compare: (1) Rush of blood preceding nosebleed, Graph. (2) Occipital pains. Hell., Nat-s., Glon.

REFERENCES - Clarke.

***PINE

(Bach Flower Essence)

PHARMACY - pine-b. Pine. *Pinus sylvestris*. N. O. Pinaceae. Twigs with male and female flowers are picked and boiled for half an hour. The boiled water is strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Pine-b. belongs to Bach's group of **Despondency and Despair**, with the remedies of Crb-a-b., Oak-b., Will-b., Star-b. b., Sw-ch-b., Elm-b. and Lar-b.

States of guilt, regret and self-reproach. Obsessive-compulsive states and too much over-conscientiousness. The body may show signs of becoming burdened, depressive, or rigid, due to excessive introversion and self-blame. Deep-seated conflict and obsessive guilt. Gastric and duodenal ulcers, irritable colon, nervous breathing syndrome and insomnia (Must-b., Wh-ch-b.). Skin disorders with itching.

MIND - Introverted, subdued by the burdens of guilt and regret. Preoccupied or obsessed with guilt and self-reproach. Deep sense of unworthiness. Internal sense of failure. Overconscientiousness.

Feelings of shame, regret and self-blame at not having fulfilled one's high ideals. Despondency and despair. Unable to forgive self. May assume responsibility and blame for failure caused by others. Frustration, anger, rigidity and alienation from oneself and others.

Obsessive-compulsive, self-punitive and perfectionist or ritualistic behavior and thinking, as in obsessive-compulsive personality disorder (Crb-a-b., Rck-w-b., Verv-b.). Delusions and paranoid personality disorders. Fear of being punished or persecuted (Asp-b.).

REFERENCES - Bach.

***PINUS LAMBERTIANA

(Sugar Pine)

PHARMACY - pin-1. *Pinus lambertiana*. Sugar Pine. N. O. Coniferae. Pinaceae. North America. Trituration of inspissated sap. **Historical dose:** Trituration, all potencies.

CLINICAL - Abortion. Amenorrhea. Constipation.

HERBAL - The inspissated sap of *Pinus lambertiana* makes a sugary substance like manna. A small quantity from a bit the size of a pea to a teaspoonful, has a decided but gentle laxative action, and in larger quantities emphatically so.

HOMEOPATHIC - Pin-1, has also an action on the menstrual function, restoring menses when suppressed and producing abortion in pregnant women. It was used by Indian women to restore the menstrual flow and remove painful sensations resulting from the suppression. It has a gentle cathartic action.

RELATIONS - Compare: (1) Sabin., Juni., Pin-s. and other coniferae.

REFERENCES-Clarke.

***PINUS SYLVESTRIS

(Scotch Pine)

PHARMACY - pin-s. *Pinus sylvestris*. Scotch pine. Scotch fir. Red Norway. Riga Pine. Baltic Pine. N. O. Coniferae. Pinaceae. The typical pine of Europe. Tincture of leaves and young twigs. **Historical dose:** Tincture and all potencies.

CLINICAL - **Ankles, weak.** Anus, itching. Bronchitis. Constipation. Diarrhea. Dysuria. Emaciation, lower limbs. Glands, swollen» Gout. **Headaches.** Hemorrhoids. Joints, stiff. Kidneys, pains. Liver, enlargement. Lumbrici. Palpitations. Rheumatism. Scrofula. **Squint.** Tinnitus. Urine increased, strong. Vertigo. Walking, late. Worms.

HERBAL - Pine baths may also be made by adding *Oleum pinus sylvestris* to an ordinary bath in the proportion of one minim to the gallon. These baths have a reputation in the treatment of rheumatism, gout, paralysis, scrofula and skin diseases.

HOMEOPATHIC - Pin-s. was proved by Demeures in the tincture, and Patzack observed the effect of bathing in an infusion of the leaves.

Rheumatic, bronchial and urticaria symptoms. Rheumatic, gouty and paralytic pains in limbs, bones and joints. Stiffness. Glandular swellings. Enlarged and painful liver and spleen. Sensitiveness to touch. Scalp sensitive. Chest walls sensitive with a feeling of thinness, as if they would give way at a touch.

Chilliness alternating with flushing, the face is alternately red and pale. Itching in general. Emaciation of lower limbs. **Weak ankles.** Late walking in scrofulous and rickety children.

Bronchial mucus was increased. The kidneys were stimulated, burning on urination, flow increased, urine strong. Itching of the nose and discharge of round worms was noted. The menstrual function was deranged.

MIND - Anxiety. Despondency. Mind dull, unable to think, caused by any exertion. Wants to do many things, undertakes all and finishes none.

Abdomen - Distention of hypochondrium with pressive and burning pains. Enlargement of liver. Pressure and fullness in liver and spleen. Colic with incarcerated flatus. Pain in inguinal glands with swelling.

Back - Drawing and stiffness in nape extending into occiput. Pressive, tensive drawing pain between shoulders and small of back, motion difficult.

Chest - Oppression. Anterior portion of chest painful to touch. Burning in sides of chest. In middle of sternum sensation - as if a cupping-glass had been applied inside.

Ears - Sticking in ears. Roaring in ears.

Eyes - Eyes inflamed. Margins of lids red. Vision dim, veiled. Squint.

Face - Face alternately pale and red. Tearing in face.

Female - Menses, earlier, delayed. Menses, usually scanty, became more profuse.

Food - Appetite at first decreased, afterwards increased.

Head - Dullness, fullness, heaviness of head. Tearing in temples. Pressive headache. Headache worse by any movement of eyes. Scalp sensitive.

Heart - Palpitations.

Kidneys - Violent boring-burning pains in kidneys, extending along ureters. Burning pains when urinating. Spasms of bladder. Urination is difficult. Very greatly increased secretion of urine. Urine of strong odor.

Limbs - Stiffness, gouty pain in all joints, especially finger joints. Cramps in calves.

Lungs - Hoarseness. Breath tight, especially when walking. Increased bronchial mucus. Short, dry cough. Expectoration greater when coughing.

Modalities - Worse by exertion, walking, touch. Worse in morning, evening.

Mouth - Pain in teeth with heat of face and pain in head. Dry mouth with increased thirst.

Nose - Violent nosebleed several days in succession. Mucus discharge from nose. Sensation of coryza. Itching of nose.

Rectum - Constipation. Stool thin, pasty with colic and great excitement, bilious. Bloody, slimy, hemorrhoidal discharge. Troublesome itching at anus. Discharge of round worms.

Skin - Nettle-rash. Itching all over, especially about joints and on abdomen. Nose itches.

Sleep - Great sleepiness, especially forenoon with restless sleep in evening. Sleepless. Dreams which seem when remembered like real occurrences.

Stomach - Pressure in pit of stomach after eating with great distention.

Temperature - Chilliness, especially towards evening, alternating with flushes of heat. Perspiration general, easy.

Throat - Uneasiness in throat as if something in the way. Painful swelling of submaxillary glands.

Vertigo - Vertigo, even to falling down.

COMMENTS - In a patient of Cooper's, Pin-s. caused a "headache worse by any movement of the eyes" and it cured a case of squint.

Hansen gave "emaciation of lower limbs" and "weak ankles in children" as indications for it and mentioned that the tinctures may be used externally, while the potencies are given internally.

RELATIONS - Compare: (1) Pin-1. - constipation, amenorrhea, miscarriage. Pinus lambr. - tina sap is a decided cathartic. Delayed and painful menstruation. (2) Abies-c., Abies-n. (3) Tereb., Sabin., Jun., Thu., Aloe., Pix. (4) Strong urine, Benz-ac. (5) Red margin of eyes, Sulph., Bac.

REFERENCES - Boericke. Clarke.

***PIPER AUGUSTIFOLIA

(Matico)

PHARMACY-pip-a.(mati.).Piper augustifolia. Matico. Artanthe. N. O. Piperaceae. Tincture of the leaves.

Historical dose: Topically a hemostatic. Tincture and all potencies.

HOMEOPATHIC - Pip-a. is an aromatic, stimulant and urinary tonic. Has been used in gonorrhea, hemorrhage from lungs, catarrhal condition of genitor-urinary organs and gastro-intestinal tract. Chronic mucus discharges, such as leucorrhea, gleet and catarrh. Difficult, dry, deep, winter cough. Hemorrhages. Locally used for cuts, wounds and indolent ulcers.

REFERENCES - Boericke.

***PIPER METHYSTICUM

(Kava-kava)

PHARMACY - pip-m. Piper methysticum. Kava-kava. Kawa. Macropiper methysticum. N. O. Piperaceae. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Anus, prolapsed. **Arthritis deformans.** Brachialgia. Brain-fag. Catalepsy. **Chordee.** Colic. Cystitis. Dysuria. Eczema. Emaciation. Gonorrhea. Headache. Ichthyosis. **Insomnia.** Intoxication. **Leprosy.** Liver, disorders. Neuralgias. Neurasthenia. Orchitis. Paraplegia. Prostate, disorders. Rheumatism. Skin, disorders. Toothaches. Urethritis. Uric acid, excess.

HERBAL - Piper methysticum furnishes the root called Kava in Polynesia. The natives use it as astimulant, either chewing the root or drinking a beverage made of it before undertaking any important business or religious rites.

Kava causes exaltation of the mind, lively and inclined to work. Faculties sharpened, capable of working more without fatigue or brain-fag. From increased doses, there is intoxication of a sorrowful, silent and sleepy character, different from that produced by alcohol.

Excessive indulgence in it produces a skin disease like leprosy, called Tahiti Arevareva. Lutz described the disease as observed amongst natives of the Sandwich Islands,

"The skin, par marked ichthyosis, associated with a certain degree of atrophy, such as is observed in senile skin. There is an absence of inflammatory symptoms."

HOMEOPATHIC - Kava-Kava is an intoxicant which produces liveliness and inclination to do more work without fatigue. Silent and drowsy intoxication, with incoherent dreams, loss of muscular power.

Nervous system strung up to its highest tension. Trembling. Uneasiness and weakness during day with timidity and apprehension. Weakness in morning, better rising and moving around. Want of tone and life in all functions towards night.

Dizziness and vertigo, better on closing eyes. Full forehead, **"solid with pain,"** shifting to occiput and cervical spine, where it became a compression, extending as a constricting sensation to stomach and chest. Marked and persistent sensation of enlargement of head.

All the symptoms, especially pains are temporarily better by diverting attention, changing position or topic.

Arthritis deformans. Emaciation and decrepitude. Colic with flatulence. Urinary and skin symptoms have been verified.

MIND - Mental symptoms, excitement or depression, and the headache, better by diversion of mind.

Amelioration of pains by diverting the attention. Restless desire to change position. Intoxication with fantastic ideas and desire to skip about, although he cannot for a moment hold himself on his legs.

Exaltation of mind. Very sensitive. Mental tension. Lively and inclined to work. Faculties sharpened, capable of working more without fatigue or brain-fag. Lazy and drowsy. Want of vigor, timid, apprehensive.

Back - Pain in back only felt on pressure.

Soreness about second dorsal vertebra.

Chest - Constriction of chest and stomach, extending from base of brain. Heaviness behind upper part of sternum, as from wind that cannot be belched out.

Ears - Singular pressure in lobules of pinna of left ear.

Eyes - Conjunctivae red. Pain along right optic nerve when reading. Pain deep in left eye as if ball would be pressed out. Dizzy blindness when dressing

Face - Pressure outward in face at 7 p.m.

Food - Appetite is formidable, but not able to eat much.

Head - Brain tired in morning on waking, better getting on feet. Heaviness of head. Feeling as though the head were enlarged even to bursting. Headache with pressure in upper part of orbits with sleepiness.

Kidneys - **Chordee.** Cystitis. Burning in urethra during urination, gonorrhea and gleet. Urine increased, scanty in morning. Urine nearly neutral, hot and over-acid at night.

Limbs - Numbness of the lower limbs. Weakness, as if unable to stand. Heaviness of legs when walking. Sticking in left knee at 4 p.m. when walking. Pain in right arm. Numbness of right elbow. Pain in right wrist, worse writing. Weakness of left hand. Hands feel paralyzed. Pain in the thumb joint.

Male - Shooting in penis. Pain in right testicle. Erection in afternoon, at night after an emission. Emission early in morning without dreams. Amorousness.

Modalities - Better moving, open air. Better by turning mind to another topic, changing position. Vertigo better closing eyes. Worse reading and thinking. Worse in open air, motion, walking. Going down stairs causes symptoms to rush up. Sour belchings worse before meals. Burning in urethra worse urinating.

Mouth - Burning in whole mouth followed by numbness. Dryness of mouth on waking from afternoon nap with

sweat (on a hot day). Salivation. Taste is nauseous, sweet, then piquant and sharp, pappy, everything tasteless, lost to food, but ravenous haste in eating. Taste and relish to food not as usual, at noon, but appetite usually good.

Rectum - Urging all day, every evening. Continuous desire, next day forced a large stool, which caused prolapsed anus. Constipation, hard, large, light-colored. Stool difficult, large, soft. Pain after first stool. Burning in rectum.

Skin - Dryness, especially where it is thick, as on hands and feet with scales, cracks and ulcers. Ichthyosis.

Leprosy. Scaly. Fall of scales leaves **white spots**, which often ulcerate.

Sleep - Difficult falling asleep. Sleepless. Sleepiness at 10 p.m., soon afterwards irresistible liveliness and wakefulness. Restless sleep last part of night. Stupid sleep. Heavy sleep with disturbing but unremembered dreams. Dreams are curious, nonsensical, wild, amorous of traveling by rail, active, vivid, last part of night of a fire, heard the engines and firemen.

Stomach - Warmth in stomach. Crampy pain, better pressure against edge of table. Sour belchings, worse an hour before meals.

Teeth - Teeth deep yellow. Teeth sensitive to cold water, cold air, brushing,

Tongue - Tongue feels as if covered with velvet or fur at night. Burning on tongue.

Vertigo - From 5 to 9 p.m. very dizzy, swimming sensation and faintness. Vertigo in morning in bed with frontal pressure.

COMMENTS - W. N. Griswold proved the third and second dilutions and developed a large number of nervous, mental and brain symptoms, among which are some which have proved to be keynotes. The mental symptoms of Pip-m. or the "Intoxicating Pepper" are the most interesting feature of the drug's action.

Feeling of buoyancy, as if every nerve was strung up to the highest pitch, feels he can work without fatigue, quickly followed by a feeling of tired brain and over-sensitiveness to all external impression.

Griswold cured a case having burning in chest, better by diverting mind, and three cases having "Agonizing pain with tossing, twisting and writhing, patient driven irresistibly to change position, which generally gives little or no better." These cures were with the 1x or tinctures.

Skinner gave fractional doses of tincture in water to a highly excitable young girl. She had severe toothache and earache and had worn out her family by the incessant day and night attendance she required.

The pains were dragging, heavy, worse at night in bed and after or when eating,

forgets all about her pains if amused with anything, but directly she is tired of it she exclaims 'Oh. my tooth or ear!' "

She had "Agonizing pain with tossing, twisting and writhing, irresistibly driven to change position." The patient slept well that night the first time for a fortnight and had no more pain. The remaining swelling was removed by Puls. 200c.

Skinner also reported the case of Miss R., 20, who had a toothache in a decayed molar, better if attention is diverted by anything, is diverted by anything sufficiently exciting. When pain is at all violent she has no rest in any position, must keep continually changing it. Pip-m. 500c (F. C.) was given and there was relief very soon after the first dose. A few doses completely removed the pain.

Farrington said convulsions simulating catalepsy are produced. Cerna, as a result of his investigations, found Pip-m. a general and local anesthetic. It diminishes reflex action by its action on the cord and kills by paralyzing respiration.

Cerna illustrated its relationship to Cub. by citing cases of gonorrhea, acute and chronic cystitis, gleet, prostaticorrhea, vaginitis, cured with it.

RELATIONS-Antidoted by: Puls, and Rhus-t. (partially). **Compare:** (1) Cub., Pip-n., Mati. (2) Is better by diverting mind, Ox-ac. (3) better by motion, Rhus-t. (4) Feeling of buoyancy, Coff. (but with Coff. the reverse condition of brain-fatigue does not quickly follow).

(5) Neurasthenia, Pic-ac., Arg-n., Aven. (6) Unbearable pains, Coff., Aeon., Cham. (7) Chaul. (8) Bix.

REFERENCES - Boericke. Clarke. Phatak

***PIPER NIGRUM

(Black Pepper)

PHARMACY - pip-n. Piper nigrum. Black pepper. N. O. Piperaceae. Trituration or tincture of dried fruits, peppercorns. **Historical dose:** Tincture and all potencies.

CLINICAL - Anus, fissure. Bleorrhagia. Breasts, swelling, eruption. Constipation. Cough. **Diarrhea**. Dysuria. Flatulence. Headache. Hemorrhoids. Menses, irregular, scanty. Milk, excessive flow. Neuralgia. Obesity. Priapism. Speech, difficult. Teeth, decay. Tongue, eruption, heavy. Toothache. Tympanites. Uterus, cramps. **Worms**.

HERBAL - The Treasury of Botany noted that the peppers are tropical climbing shrubs. *Pip. nigrum*, yields the pepper of commerce. When ripe, the fruit is red. Black pepper is gathered before it is fully ripe and spread on mats in the sun, when it loses its red color and becomes black and shriveled. White pepper is the same fruit freed from its outer skin by maceration in water and subsequent rubbing.

HOMEOPATHIC - The symptoms of the *Pip- n.* proving are Houat's. The only additional symptom is one recorded by Berridge as having occurred in a woman on two occasions from taking a large quantity of pepper: "Feeling as if temples and malar bones were pressed in, worse on left side." Sensation of burning and pressure everywhere.

Clarke can confirm the full, heavy headache of Houat's provings by personal experience. He gets the headache whenever he takes food highly peppered and he knows of others who do the same.

MIND - Sad, apprehensive. Unable to concentrate, starts at any noise. Hot-headed, irascible and often gay. Amorousness with hypochondriasis. Fear of being poisoned.

Abdomen - Disposition of abdomen to obesity. Abdomen swollen, hard, burning. Inflammation of intestines with great thirst. Tympanites. Borborygmi. Colic and cramps, sensation as if intestines would burst. Flatulence.

Back - Burning in loins and kidneys with contractive movements.

Breasts - Great flow of milk.

Chest - Dyspnea, cough with pain in chest in spots, feels as if spitting blood.

Ears - Crusty ulcers in concha of ears.

Eyes - Bursting aching in eyeballs. Eyes inflamed and burning. Lachrymation and photophobia. Lids ulcerated and bleared. Dim sight and vertigo with headache, nausea and vomiting.

Face - Red burning face. Lips dry and cracked.

Female - Menses difficult, retarded, capricious, irregular. Menses with colic and black blood. Ovaries and uterus congested with pricking and sharp pains. Burning and distending pains in uterus.

Food - Desire for coarse and extravagant food. Constant, unquenchable thirst.

Head - Heavy headache, as if temples were pressed in, pressure in nasal and facial bones.

Heart - Palpitations, cardiac pain, slow, intermittent pulse.

Kidneys - Bladder feels full, swollen, frequent inclination without success. Burning in bladder and urethra. Difficult urination. Priapism.

Male - Inflammation and swelling of penis with priapism and burning pains. Burning, pricking, excoriating pains in glans.

Modalities - Worse from change of temperature, damp weather, evening. Worse by motion.

Mouth - Burning dryness of mouth and throat. Heat and dryness of palate and tongue, as if burned.

Limbs - Inflammation and swelling of joints.

Lungs - Dyspnea and attacks of suffocation. Severe coughing, especially in evening and when going to sleep. Cough is violent, occasionally spitting of blood, croupy, hollow.

Nose - Nose itches, sneezing, nosebleed.

Rectum - Inflammation of rectum, anus swollen and burning. **Diarrhea.** Fear to go to stool on account of the difficulty and pain. Fissures in the anus. Long-lasting constipation, then involuntary, thin stools. **Worms.** Large flowing hemorrhoids.

Sensations - Burning sensation. Pressure in nasal bones in temples and facial bones. Sensation of a foreign, round body rising to stomach. Contraction of uterus and sensation as if something about to enter it.

Skin - Large pustules on face, leaving scars. Very tender skin. Itching, by scratching, heat and motion. Eczema on lips. Crusty ulcers in ears.

Sleep - Irresistible drowsiness. Lethargic sleep. Nightmares. Wakens at night without being able to sleep again.

Stomach - Full feeling. Gastric discomfort. Sensation of heat and dryness in stomach. Cramps and drawing in stomach. Vomiting with great exertion, it seemed as if stomach itself would be vomited.

Teeth - Tooth decays. Violent toothache, worse in warmth and evening.

Temperature - Dryness and coldness of skin, heat with biting dryness. Heat in forehead with heaviness of head and vertigo. Cold sweat with great heat through whole body. Sweat which seems to corrode the skin.

Throat - Sore, feels raw, burns. Burning pain in tonsils. Constant accumulation of mucus in throat and expectoration. Paralysis of muscles of throat, can cry but not articulate intelligibly.

Tongue - Eruption of little vesicles on margin of tongue. Painful, heavy tongue, impeded speech. Whitish coating on middle of tongue.

RELATIONS - Compare: (1) *Piper-m.* (2) *Cub.*, also mental, genito-urinary, skin and general symptoms.

REFERENCES - Boericke. Clarke.

***PIPERAZINUM

(Piperazidine)

PHARMACY - pipe. Piperazinum. Piperazidine. Diethylen-diamine. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Glaucoma. Gout. Lead paralysis. Kidney, colic.

HOMEOPATHIC - Pipe, is a synthetic product which was intended to replace Spermin and was named Dispermine. It was found, however

to be a different body both in chemical and physiological properties.

It occurs in well-defined, colorless, acicular crystals (Helbing) or in lustrous tables (J. Gordon), is deliquescent and mostly soluble in water.

It readily unites with uric acid, forming a very soluble compound (urate of piperazine). When taken by the mouth it is not entirely oxidized, as part is discoverable unchanged in the urine.

John Gordon experimented with Pipe, and found that a 1 percent solution in normal urine at body temperature dissolved to a large extent a fragment of uric acid calculus and converted undissolved portions to a granular and pulpy condition. The amount of urea is increased in the urine of those taking it.

J. R. Hamilton of Hawick reported success in treating kidney colic with Pipe, and Walter of Odessa, cleared up two cases of glaucoma, giving one grain daily in carbonated water, all the symptoms disappearing within three weeks.

According to Cooper, a patient, after a teaspoonful dose of an effervescing preparation of Pipe., complained that he was seized with a bad attack of acute gout, that was quite unexpected.

Helbing said it has been used with success in mental diseases and in a case of lead paralysis with "very remarkable results."

RELATIONS - Compare: Phlor., Hydrang., Urt-u.

REFERENCES - Clarke.

***PISCIDIA ERYTHRINA

(Jamaica Dog-wood)

PHARMACY - pise. Piscidia erythrina. Jamaica dogwood. White dogwood. N. O. Leguminosae. Papilionoideae. Tincture of root bark obtained when the plant is in flower, before leaf. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Bronchitis. Coughs. **Fever. Insomnia.** Neuralgias. Pains. Spasm. Sweat, profuse. **Teeth, decay. Toothaches.** Tuberculosis.

HERBAL - This small tree has unequally pinnate leaves and entire, oval leaflets. The flowers are in lateral clusters, and appear in profusion before the leaves. The bark of the tree is very astringent, and acts as a narcotic poison. When Pise, is chewed, there is an unpleasant acrimony in mouth like that of Mez.

Locally the tincture is used **for toothaches in decayed teeth**. Piscidia is sedative, hypnotic and narcotic. A good nerve sedative and pain killer. The pounded leaves and young branches of Piscidia and some allied species are used like cocculus, for poisoning fish hence the name Piscidia (Piscis-caedere).

HOMEOPATHIC - Excessive restlessness and insomnia. **Insomnia due to pain, worry** or nervous excitement, it usually produces a quiet, deep sleep. Dysmenorrhea pains. Pains of irregular menstruation, regulates the flow. Neuralgias, ovarian or uterine. Neuralgic and spasmodic affections. Tetanus.

Toothaches in decayed teeth. Spasmodic coughs, especially cough of phthisis. Bronchial catarrhs, bronchitis. Asthma, nervous cough.

Fevers with a violent sensation of heat generally increasing in intensity, the sensation of burning gradually extended to the surface and a profuse diaphoresis burst out from every pore.

COMMENTS - The experiment recorded in Allen is by W. Hamilton, who took a drachm of the Pise, tincture in water for toothache and went off to sleep with great suddenness. Profound sleep, he remained motionless the whole night, when he awoke, twelve hours later, he was still holding the glass and uncorked vial from which he had taken the dose.

When he returned to consciousness, he was free from every pain or ache and without any of the unpleasant sensations which invariably succeed an overdose of opium.

RELATIONS - Compare: Coff. and Op.

REFERENCES - Allen. Boericke. Clarke.

***PITUITARIA GLANDULA

(Pituitary Gland)

PHARMACY - pitu-gl. Pituitaria glándula. Pituitary gland. Hypophysis. The tincture comes from the gland.

Sarcode. Prepared by maceration in a mixture of water and alcoholglycerine from the whole pituitary gland.

Historical dose: All potencies.

CLINICAL - Amenorrhea. Angina pectoris. Anuria. Asthma. Backache. Bedwetting. Blood, clots. Breast, disorders. Cardiac, neurosis. Colitis. Coryza. **Delayed, growth.** Dyspnea. Enterocolitis. Hair, loss. Headache. Hypertension. Incontinence. Nephritis. Pharyngitis. Prostatitis. Recto-colitis. Septicemia. Stroke. Tachycardia. Tonsillitis. Valvular disease. Vertigo. Vitiligo.

HOMEOPATHIC - The proving was established by the Hering Proving Committee in 1935 on five provers, using the potency 12x.

George Fuller noted that Pitu-gl. exercises a superior control over the growth and development of the sexual organs, stimulates muscular activity and overcomes uterine inertia. Uterine inertia in second stage of labor where os is fully dilated.

Affects the female glands. Painful menses with disturbed cycle. Cervical pains. A vasoconstrictor and parturient, used chiefly for its action on the uterus either to aid in childbirth or to check bleeding after delivery. Cerebral hemorrhage. It will check hemorrhage and aid absorption of clots. High blood pressure. Chronic nephritis, prostatitis. Bedwetting. Incontinence when the patient loses a few drops.

The action of this remedy has a clear antispasmodic tendency, especially affecting the vessels in the head. Vertigo, difficult mental concentration, confusion and fullness deep in frontal region. Congestive headaches. Pigmentation disorders and loss of hair.

MIND - Mental weakness. Difficult concentration. Nocturnal anxiety and anguish. Anxiety, aggravated at nightfall. Weeping, the patient cries involuntarily and even without noticing.

Obsessive ideas linked to the uro-genital area; fear of impotence, of passing urine. Obsession of ideas, especially of depressive, or of erotic, of impotence.

Abdomen - Enterocolitis. Recto-colitis.

Spasmodic colon infection. Inflammation of the gallbladder.

Back - Pains in the nape of the neck, spreading to the occiput and shoulders. Neck ache. Backache.

Breasts - Breasts hypertrophy or atrophy. Amenorrhea with breast atrophy.

Chest - Growth of hair on chest.

Constitutions - Phosphoric, flouric types, tubercular poisoning or syphilitic, with obsessions or depressive complaints.

Ears - Earache. Buzzing. Deafness in the left ear.

Eyes - Mydriasis. Pupils very dilated. Weeping, the patient cries involuntarily and even without noticing. Styes, especially on the left. Conjunctivitis. Blepharitis.

Female - Amenorrhea with breast atrophy. Menses late, cycle longer than 30 days. Menses scanty. Menses with pain during the day. Menses very painful, especially the day before and the day after the start. Dysmenorrhea. Uterine pains from muscular contraction. Painful uterine contractions during childbirth. Difficult childbirth.

Food - Desires cold drinks.

Head - Congestive headache. Pulsating, throbbing headaches, related to hypertension. Headaches, starting at the occiput and spreading towards the base, cervical column and shoulders. Headaches, aggravated by heat, confined space, at the end of the day. Alopecia of the scalp, which is very dry.

Heart - Feeling of heaviness in the precordial region, aggravated by the slightest movement. The patient can "feel his heart." Sensation of heart constriction, aggravated by the slightest exertion. Arterial hypertension with the feeling of pounding arteries in the temples and carotid arteries. Coronary arthritis. Angina pectoris. Valvular disease. Cardiac neurosis. Arrhythmia. Tachycardia. Hypertension. Septicemia.

Kidneys - Nephritis. Anuria. Incontinence of urine, worse in the evening. Incontinence of urine in women with fibromatous uterus, the patient loses a few drops of urine on rising. Presence of albumin in the urine.

Lungs - Asthma. Asthmatic dyspnea, accompanied by intestinal and rectal spasms. Dyspnea from anguish. Dyspnea with abundant, watery, salty-tasting sputum, sensation of constriction in the thoracic cage. Laryngitis. Tracheitis and bronchitis.

Modalities - Better from fresh air, open air. Worse from the heat, in a closed room, at the end of the day.

Mouth - Excessive salivation. Saliva tastes salty.

Nose - Coryza.

Rectum - Rectal tenesmus, the patient wants to pass stools, but cannot. Diarrhea with painful intestinal spasms. Hemorrhaging recto-colitis. Proctitis.

Skin - Skin cold, discolored or strongly pigmented. Alternating white and dark patches. Vitiligo. Skin is swollen, edematous, itching. Eruptions of urticaria type. Skin very dry, scaly.

Stomach - Nausea and post-prandial distention, worse after the evening meal.

Throat - Tonsillitis. Pharyngitis.

Vertigo - Vertigo when not moving body or head.

RELATIONS - Compare: (1) Ign. - Cortical and visceral rhythm disorders, characterized by mobility instability and paradoxical, contradictory state of symptoms. (2) Syph. - Changing moods, forgets proper nouns, obsessions, all aggravated at night. (3) Thuja. - Fixed ideas, sad, varicosities in the nostrils, skin sticky.

REFERENCES - Boericke.

***PITUITARIA GLAND ANTERIOR

(Anterior lobe of Pituitary Gland)

PHARMACY - pitu-a. Pituitaria glándula anterior. Anterior lobe of pituitary gland. Hypophysinum anterioris. Adenohypophysis. Remedy made from the pituitary glands of sheep. Sarcod. **Historical dose:** All potencies.

CLINICAL - Acne. Backache. Breast, nodules. **Constipation.** Coryza. Dermatitis. Diarrhea. Dyspnea. Headache. Hemorrhoids. **Hormonal, disorders.** Insomnia. Nausea. Obesity. Ovarian, pain. Photophobia. **Premenstrual syndrome.** Sinusitis. Tonsillitis. Vertigo. Vitiligo. Vomiting. Warts.

HOMEOPATHIC - The homeopathic indications are based upon 5 years of clinical observations by Dr. David Flores Toledo of Mexico, who named the remedy Hypo- physinum anterioris.

He wrote, in The Journal of the American Institute of Homeopathy, September, 1987, "Hypophysinum anterioris may well become one of the great polychrests. but it needs a careful proving. Numerous cases of acne, obesity, one of sterility, headaches related to menses, asthma, hemorrhoids, breast nodules, fungal infections of the nails, recurrent tonsillitis, vitiligo, and warts have been resolved with this medicine."

Hormonal, disorders. Sexual desire diminished, enjoyment absent (Sep.). Premenstrual syndrome. Hushes of heat in young girls. Weakness and cold perspiration on rising. Obesity. Allergy, metal dermatitis (Morg-g.).

Worse before menses, headache, coryza, pallor of face, nausea, vomiting, distended abdomen, yellow leucorrhea, pain in ovaries, pain in uterus, difficult respiration, painful swollen breasts, low backache, sleeplessness. Better after menses (Zinc-p.).

MIND - Aversion to everything, to friends, husband. Dislike of oneself. Easily depressed and avoids her friends. Fear to be alone. Anticipatory diarrhea before a date or engagement (Arg-n.).

Emotionally, worse before menses, fearfulness, irritability, sadness. Discouraged during menses. Causeless weeping. Weeping at trifles. Desire to weep, but finds it difficult. Ailments from disappointed love. Sexual desire diminished, enjoyment absent (Sep.).

Irritability before and during menses. Irritability at trifles. Anger during ovulation. Anger in morning on waking. Anger from

Pituitaria glándula anterior contradiction.

Desire to strike. Screaming and crying from anger.

Abdomen - Distension, causing to bend double. Rumbling after eating, after milk. Flatulence, all food seems to turn to gas. Flatulence from fruit, vegetables. Pain after eating, after milk. Pain before and during menses.

Back - Acne, on back and cervical region. Low backache before menses. Pain in sacral region, coccyx, during menses.

Bladder - Involuntary urination when rising from a seat.

Breasts - Painful, swollen breasts before menses. Painful nodules in breasts.

Chest - Palpitations while lying on back. Eruptions, confluent acne. Perspiration in axilla during menses.

Eyes - Redness of eyes. Photophobia. Nausea preceded or attended by visual disturbances.

Face - Brown spots on face. Pale discoloration about eyes (Ptel.). Sensation as if face were burnt. Acne before menses. Acne on forehead during menses. Cold perspiration on face before or at beginning of menses.

Female - Hormonal disorders. Premenstrual syndrome. **Worse before menses,** headache, coryza, pallor of face, nausea, vomiting, distended abdomen, yellow leucorrhea, pain in ovaries, pain in uterus, difficult respiration, painful swollen breasts, low backache, sleeplessness. Pain in ovaries before menses, worse stepping. Menses brown at onset, clotted. Menses coagulated during first day and last days. Menses irregular, protracted with clots. Lack of vital heat during menses. Offensive leucorrhea like fish brine. Metrorrhagia between menses. Sexual desire diminished, enjoyment absent (Sep.). Sterility.

Food - Diminished appetite during menses (Mag-c.). Thirst for large quantities. Craving for cakes, sweets and chocolate. Desires fried potatoes, fruit, solid food. Indigestion from eggs. Worse from milk, seafood, fruit, vegetables. Worse from fats and rich food (Puls.).

Head - Headache before or at beginning of menses. Headache in temples at beginning of menses. Headache worse light, noise, sun, warm room. Headache due to contact lenses. Perspiration on scalp at night.

Limbs - Discoloration, white, depigmented burning spots on upper limbs, worse sun. Itching eruptions on upper limbs, worse summer. Nails do not grow (Ant-c.). Swelling of thighs before menses.

Lungs - Asthmatic respiration in morning on waking. Asthma after anger. Asthma better copious expectoration. Asthma sudden attacks, from change of weather. Difficult respiration and headache. Difficult respiration before menses (Zinc.).

Mouth - Mapped tongue (Tarax.). Bad taste in mouth before menses.

Nose - Susceptible to sinusitis and obstruction to nose. Obstruction in evening, alternates with pain in root of nose. Discharge watery with sneezing (Cob-n.). Pain as if nose were extremely dry. Nosebleed during sleep.

Perspiration - Perspiration of hands and feet during menses. Weakness and cold perspiration on rising.

Rectum - Hemorrhoids. **Constipation**. Bowel movement every two or three days. Stool large, dry and hard. Stool like sheep dung. Anticipatory diarrhea before a date or engagement. Diarrhea from seafood, milk and milk products.

Skin - Eruptions, confluent acne. Moist eruptions. Brown spots. Discoloration, itching white spots worse menses. Vitiligo. Warts pedunculated, soft and small.

Stomach - Empty feeling in stomach without hunger. Nausea preceded or attended by visual disturbances. Nausea on looking at or smell of fatty food. Nausea better after eating. Pains better after eating a little, eructations, worse rich food (Puls.).

Throat - Susceptible to tonsillitis. Sore throat. Voice, hoarseness in hot weather. Hoarseness from talking.

Vertigo - Vertigo with tendency to fall, worse before and during menses. Vertigo with trembling. Vertigo as if intoxicated. Vertigo worse entering dark room from a lighter place, lying on back, moving head, rising from stooping, better when sitting. Perception of colors (pink, red, yellow, green).

RELATIONS - Compare: Sep., Puls., Calc., Nat-m.

REFERENCES - Toledo.

***PITUITARIA GLAND POSTERIOR

(Posterior lobe of Pituitary Gland)

PHARMACY - pitu-p. Pituitaria glándula posterior. Posterior lobe of pituitary gland. Hypophysis posterium. Pituitarum poste- rium. Neurohypophysis. Sarcod. From the pituitary glands of sheep. **Historical dose:** All potencies.

CLINICAL - Angina, pectoris. Arterial, spasms. Diabetes, insipidus. Diarrhea. Eclampsia. Edema. Heart, attacks. Hemorrhage. Hypertension. Lactation. Moles. Salivation. Urticaria. Uterine, atony.

HOMEOPATHIC - The posterior lobe of pituitary gland releases the oxytocin and antidiuretic hormones. Removal or injury to the posterior lobe will lead to the symptoms of diabetes insipidus. It acts upon the parasympathetic center in the hypothalamus. Rate of secretion is controlled from the hypothalamic nuclei.

Antidiuretic hormone, or vasopressin, promotes the reabsorption of water in the kidneys. It raises the blood pressure and plays a role in the water balance. Also affects the production of breast milk.

It constricts the arteries of the abdominal organs, therefore it is used to stop hemorrhage involving abdominal blood vessels. It may produce cerebral or coronary arterial spasms in large doses.

Oxytocin causes uterine contractions at term. Allopaths used it for the induction or stimulation of the labor. It has been given to relieve painful breast engorgement. Promotes breast milk release during lactation. Also for postpartum hemorrhage and uterine atony.

Its action is controlled in pregnancy by progesterone, which diminishes its action, and estrogen, which increases it.

An enzyme in the blood plasma of pregnant women appears to mediate this control.

Mind, anxiety, Head, pain. Dropsy. Basal metabolism rate increased. Blood pressure elevated. Blood sugar increased, Bloodvessels constricted. Pulse, slow. Weakness. **Abdomen** - Distention.

Bladder - Frequent or diminished urination.

Breast - Milk increased.

Chest - Bronchi constriction.

Ears - Noises in ears.

Eyes - Dilated pupils. Lachrymation. Vision loss.

Face - Dark discoloration, during pregnancy.

Female - Contracted uterus. Eclampsia. Weak labor pains.

Head - Headache in occiput, extending downwards. Hair falling out.

Kidney - Suppression of urine.

Lungs - Respiration difficult.

Mouth - Salivation.

Perspiration - Profuse perspiration.

Rectum - Diarrhea.

Skin - Dry and red. Dark discoloration.

Coldness of skin. Moles. Urticaria. Angioneurotic edema.

Stomach - Nausea.

Urine - Copious urine, with albumin, sugar, increased levels of chloride, potassium and sodium.

COMMENTS - On the basis of these observations, Ghose made use of this sarcode in its 30th potency in anginal attacks with coronary spasms.

Ghose's first case was that of a middle aged man of 45, suffering from diabetes for two years. He developed mild anginal attacks after slight exertion and an occasional sense of heaviness in the precordium.

His cardiograph showed coronary disorder and was advised perfect rest. Blood pressure was more or less normal, pulse was 72 bpm. He was apparently a well-built man and was on a restricted diet for a long time due to diabetes.

Pitu-p. 30, three times a week, brought great relief of the precordial pain and heaviness; within a fortnight he could walk about in plain ground without any discomfort.

Ghose also used it in a case of old man, 70, with dyspepsia who used to get severe attacks of pain in the heart when walking, and particularly when getting up at night to attend calls for urination.

He was relieved with the very first dose of Pitu-p. 30 and could move about freely without any discomfort and could also attend to his nature's calls at night without feeling any pain.

In a third case. Ghose treated an old man, 65, suffering from coronary thrombosis for about a year and a half. He had W. R. 10/10 which was treated homeopathically.

He was living without any heart symptom for any other trouble for about a year, when suddenly he felt agonizing pain in the heart at 11 o'clock at night, with severe dyspnea and moist sounds all over the chest. All these symptoms pointed to edema of lungs. Pulse was soft and slow. Blood pressure was rather low.

Pitu-p. 30, repeated every half an hour, relieved the pain completely and made the dyspnea tolerable. A sanguinous expectoration followed for which he was given one dose of Merc-s. 200 and later on a few doses of Thyr. 200 which stopped the dyspnea completely.

RELATIONS - Compare: Pitu-a., Bell., Nat-m., Phos., Sec., Thyr.

***PIX LIQUIDA

(Pine-tar)

PHARMACY - pix. Pix liquida. Pine tar. Liquid tar. N. O. Coniferae. Pinaceae. A product of dry distillation of various coniferous woods. Tincture. **Historical dose:** All potencies.

CLINICAL - Acne. Alopecia. Ardor urine. Bedwetting. Bronchitis. **Chest, pain.** Desquamation. Diarrhea. Eczema. Eruptions. Hair, loss. Hands, eruptions. **Itching.** Psoriasis. **Stomach, pain.** Tuberculosis. **Vomiting.**

HOMEOPATHIC - In old-school practice, tar is known as a "stimulant expectorant" in chronic bronchitis and tuberculosis, and a stimulant to the skin in psoriasis and scaly eczema.

Tar and its constituents act on various mucus membranes.

Cough. Bronchial irritation after influenza (Kreos., Kali-bi.). Tuberculosis and chronic bronchitis. Pain at the third left costal cartilage, where it joins the rib, pain of the left bronchus, with an offensive muco-purulent expectoration the indications for Pix are complete.

Scaly eruptions. Much itching. Alopecia (Fl-ac.). **Constant vomiting of black fluid with pain in stomach.**

Abdomen - Excessive pain in bowels and loins.

Chest - Suppuration of left lung with pain at third rib. **Pain at a spot about the third left costal cartilage,** where it joins the rib. Rales through the lungs and chest.

Kidneys - Ardor urine. Dark-colored urine.

Lungs - Chronic bronchitis. Cough chronic, worse night, expectoration purulent, fever at night. **Muco-purulent sputum,** offensive odor and taste.

Rectum - Dark-colored stools.

Skin - Acute eczema. Acne. Desquamation. Skin cracked, **itches intolerably,** bleeds on scratching, with sleeplessness. **Eruptions on back of hands.**

COMMENTS - Buckley recorded severe constitutional effects following the local application of preparations of tar in skin disorders, including a high fever, black vomit, black stools, dark-colored urine, acute eczema, and acne.

In the Hom. News., Raynaud noted a case of chronic bronchitis in a merchant, 55. The cough was worse nights, breath short, copious expectoration, some fever and nightsweats. He had been ill three years and was growing worse.

Raynaud prescribed wood tar, a teaspoonful four times a day after meals and at bedtime, which cleared up most of the symptoms.

Pix. often cures the bedwetting of children.

RELATIONS - Compare: (1) Terebe., Pin-s., Kreos., Eupi., Petr. (2) In chest pains, Anis, has pain at third right costal cartilage, occasionally also left, Myric., Ther. (3) Desquamation, Chin-s. (4) Ter., Carb-ac.

***PLACENTA HUMANA

(Human Placenta)

PHARMACY - plac. Placenta humana. Human placenta. Sarcod. **Historical dose:** All potencies.

CLINICAL - Abdominal, pain. Backache. Belching. Constipation. Depression. Diarrhea. Earache. Eyestrain. **Flatulence. Headaches.** Night-sweats. **Nightmares.** Nosebleeds. Palpitations. Photophobia. Sciatica. Styes. Toothache. Vertigo.

HOMEOPATHIC - Loss of energy. Weariness. Weakness and trembling. Restlessness, worse on waking. Poor co-ordination with extreme tiredness. Lack of vital heat, sensation of coolness. Averse to warm stuffy rooms. Worse on right side.

MIND - Apathetic and emotionless. No emotions, very little reaction to things going on. Calmness, almost to the point of no reaction. Completely passive. Confused, dazed and distant. Confusion of identity. **Feel isolated, lonely, vulnerable and weepy.**

Weak memory, forgetful. Concentration difficult with an inability for mental work. Sadness, depressed and despondent. Nostalgia with flashbacks to past events. Feeling unappreciated, cross and sorry for self.

Irritability and anxiety. Anxiety, as if forgotten something important. Nervous anxiety about being on time. Anxiety about family, finances, work, the future. Anxiety about health and heart disease. Ailments from bad news.

Fear, as if something would go wrong. Fear of failure. Fear of closed places, sensation of claustrophobia, fear of crowds. Fear of rats. Sexual thoughts increased.

Abdomen - Bloated and uncomfortable after eating. **Bloated and tender.** Lower abdomen sore and bloated, better from sitting with legs wide apart. **Abdominal**

pain associated with distension. Rumbling. Painful **flatulence**, with abdominal tension. Flatulence with short, cramping, twisting pains making one double up. Shooting pain right to left, as if in labor when the head is low, better for lying on abdomen. As if needed to pass stool. Stabbing pain to right of groin.

Arms - Heavy weight sensation in arms with numbness. Lancinating pain in right elbow.

Back - Lower backache. Back pain, worse from sitting and relieved when lying down, worse during menses. Cervical and lumbar spine stiff. Right sided pains. Dull ache behind and between shoulder blades with twitching muscles. Sensation of inflammation in back.

Bladder - Pain during urination. Offensive, strong smelling urine.

Breasts - Breasts swollen and tender, before period. Nipples sensitive and tingling, as if milk coming in. Left nipple itchy with hard cheesy discharge. Shooting pains in right breast going through to back. Stitching pain, left breast.

Breathing - Difficulty breathing, like old asthma. Accelerated breathing. Breathless on talking. Difficult breathing on walking up the hill. Hyperventilation.

Chest - Constriction. Tight, suffocative feeling in chest, worse from emotions. Sensation of tight band around chest, worse at night, extending into throat. Chest feels tight and wheezy. Sensation of a lump in chest, extending to throat and back, worse swallowing, and pressure, better movement. Chest raw with a feeling of warmth. Eruptions on the chest.

Cough - Dry cough with nasal discharge.

Ears - Earache, hot, painful, itchy. Aching, throbbing ear pain. Popping of ears with crusty discharge. Ears feel hot inside with a low pitched hum and bloody discharge. Fleeting, sharp pains in right ear. As if ears had been in the wind. Sensitive to vibrations.

Eyes - Heavy and aching. Soreness. Stabbing pain, better sleep. As if eyes strained. Must keep blinking. Hard to open eyes. Puffy on waking. Dark eyelids as if punched, worse right. Swelling of the eyelids. Styes. Photophobia during the day.

Face - Anxiety felt in face with a mild ache in cheekbones. Pain in right cheekbone. Aching. Dry, sore patch right side of nose, dry and flaky. Worse left side, after exposure to wind and rain. Left temple, dry skin erupted, lumpy. Numb patch. Tingly, numb sensation, below left eye. Right side of face numb. Red spots on the face.

Feet - Cold feet. Numbness, loss of sensation in feet. Pins and needles in feet.

Female - Menses delayed. Period heavy. Menstrual pain in back and abdomen. Cramps in uterus. Uterus

aching and uncomfortable. Dragging period pains, better warmth and pressure. Painless period. Blood bright red. Shooting pain in ovaries and fallopian tubes (left side morning, right side evening) during ovulation, with increased mucus. Right ovarian pain during ovulation. Streaks of blood at ovulation. Herpetic eruptions and cysts on the labia. Itching. Less vaginal discharge than normal. Small amount of dark purple, sticky mucus. **Libido, strong. High sexual energy.** Urge to have sex and reproduce. Strong feeling of pregnancy, as if baby moving around in belly and sensation of breasts filling up with milk. Sexual when premenstrual.

Food - Lack of thirst. Appetite changeable. Appetite lost but better for eating. **Appetite decreased.** Reduced appetite, increased after 6 p.m. When eats, feels sick. Easy satiety with difficulty eating. Snacks rather than a meal. Snacking with weight loss. Obsession for the amount of food eaten. Increased appetite. Appetite increased for breakfast and then reduced with weight loss. **Desires spicy food,** curry, delicate hot foods. **Desires sweets and chocolate.** Intolerant to milk. Thirst increased for cold drinks, beer, carbonated drinks and tea. Strong aversion to nuts. Strong disinterest in vegetables.

Hands - Itchy, flaky, dry, cracking and sore. Heels of palms of both hands hot, itchy, burning. Fingers as if numb with cold. Pins and needles sensations. Right hand stiff and slightly painful, especially fingers.

Head - Headache, worse in the forehead, as if the head were in a vise. Headaches, worse noise, and on right side. Dull, pressing head pain. Tightness. Pain in right temple. Bursting, stabbing pains. Sensation of coldness on vertex. Head cold, body hot, better if head is wrapped. Hair greasy.

Hearing - Ears with pulsating blood flow. Noise, as if under water, with distortion of hearing. Sounds distinct, more able to hear high pitched sounds. Sensitive hearing, particularly to the noise of children. Averse to loud noises. Competing, conflicting noises irritates.

Heart - Sensation of heart on right side. Heart rushing. Accelerated heartbeat. Heart racing and palpitations on going to sleep. Palpitations and breathlessness, feeling unable to breathe. Panic and palpitations with a sensation as if heart would be crushed on sitting.

Hips - Muscular stiffness in left hip. Aching pain in bed.

Knees - Stiff knees, worse in one position too long, worse rising.

Legs - Shaking, weak legs. Legs heavy and uncoordinated. Pain in back of left thigh. Achy legs with pins and needles in right leg. Muscle spasm in right leg muscles with twitching and jerking. Numbness in right calf.

Limbs - Sciatica. Trembling of limbs, worse sitting. Coldness and itching of the extremities. Burning pain in the legs.

Lungs - Tightness of lungs in waves. Cough, worse deep breathing. Tickly cough, high pitched with a sensation of hollowness in right lung. Slightly throaty, croupy cough when chest feels tight. Expectoration thick, stringy and green.

Mouth - Tingling of the lips. Lips, redness and swelling, peeling and dry. Ulcerated lips with yellow crusts and scabs, burning, cracking, sensitive to hot food and bleeding. Worse from eating, talking. Lips sensations, tingling, pins and needles. Crack in top lip. Vesicles on the lips and aphthae in the mouth, on the tongue. Sore lumps on roof of mouth with numbness. Gum ulceration, gums as though hardened after a burn. Gums sore, not bleeding.

Neck - Neck feels knotted. Stiffness. Achy and sore, neck aches in waves.

Nose - Sneezing. Clear, watery discharge from right nostril. Clear catarrh. Copious discharge. Right nostril runny, with clear discharge, while left nostril is blocked. Discharge that drips down the back of the throat. Thick and green discharge. Lots of green, yellow, sticky mucus, worse at 3 p.m. Nosebleed on washing face. Pain on bridge of nose, left nostril sore inside, as if scratched. Sensitive smell, worse perfume, people, body odor, car fumes and dogs.

Perspiration - Night sweats.

Rectum - Sharp shooting pains, worse sitting, as if sword up inside. Sudden urging for stool. Constipated, better from standing to pass stool. Constipation alternating with diarrhea. **Soft and watery stools,** alternating with hard and dry stools. Diarrhea is gushing, watery, urgent, loud and explosive with abdominal pain. Bowel movements increased to three a day. Burning and sensation of heat during and after stools.

Shoulder - Lancinating pain in right shoulder. Pain at base of left shoulder blade, worse breathing deeply. Right shoulder blade aches.

Skin - Dry skin. Itching with and without eruptions. Painful warts. Wounds slow to heal.

Sleep - Disturbed and difficult to get to sleep. Deep sleep. Offensive perspiration during sleep. Vivid dreams, **nightmares,** frightful and anxious dreams. Dreams of falling, of being pursued, of being raped, of dead people. Waking after midnight. Restlessness, worse on waking.

Speech - Voice croaky, hoarse. Loss of speech.

Stomach - Nervous trapped energy in stomach. Stomach cramps, worse eating, at night. Cramping pain. Pain top of stomach, connected to back. Burning stomach pain extending upward into the esophagus. Gas and

acidity in stomach, worse wine. Heartburn associated with nausea. Belching. Deep, long, loud belching. A lot of wind. Hiccoughs on and off throughout day. Nausea on eating. Nausea, pill tasted bitter. Nausea with sudden vomiting around midnight.

Stool - Large painful, dry stool. Loose and windy. Loose, fast stool, smelling of onions or garlic, 8 a.m. and 9 a.m.

Taste - Mouth dry, with a bad taste, and breath smells. Dry, metallic taste on front of tongue. Foul taste. As if soaking up chemicals, smells and pollution. As if been licking metal.

Teeth - Teeth sensitive. Feel loose, difficult to bite. Bottom right side molar section loose, fell out. Toothaches. Gums receding.

Throat - Hoarseness. Throat dry and tickly. **Sore throat**, dryness and rawness, worse on swallowing. Sore throat with numbness, particularly on left side, worse morning, 3 p.m. Sore throat, on waking, better hot and cold drinks. Sore, swollen and hot, better cold food. Sensitive to pressure. Stinging throat pain extending down to the esophagus. Stinging from smoking. Pressing, choking sensation in throat, worse right side with a need to clear it. **Need to clear mucus from the throat**. Mucus in back of throat. Loose phlegm at back of throat, coughs to clear it, worse 10 p.m.

Tongue - Tongue is slightly red, but not sore, with ulcer under the right side. Tongue yellow and furry, big and rough sensation.

Vertigo - Light headed. Vertigo on motion of head, worse sitting, worse on closing eyes and lying down. Vertigo with fear of brain tumor.

Vision - Blurred vision. Lack of focus, has to keep blinking. Fuzzy, as if drunk. Heightened vision, more sensitive.

RELATIONS - Compare: Care., Lyc., Puls., Sep.

REFERENCES - Biggs. Gwillim.

*****PLANTAGO MAJOR**

(Plantain)

PHARMACY - plan. Plantago major. Plantain. Ribwort. N. O. Plantaginaceae. Plan, must not to be confounded with Musa, sometimes called "Plantain," which belongs to a different class. Tincture of whole fresh plant. Tincture of the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Ague. **Bedwetting**. Bites. Breast inflammation. Burns. Ciliary neuralgia. Chilblains. Depression. Diabetes. Diarrhea. Dysentery. Earache. Ears inflammation. Emissions. Erysipelas. Erythema. Frostbite. **Gumboils. Hemorrhoids.** Herpes. **Injuries.** Impotency. Insomnia. Mastitis. Neuralgias. Otorrhea. Polyuria. **Pyorrhea.** Rhus poisoning. **Snakebites.** Spleen, pain. **Tetanus.** Tobacco, habit. **Toothaches.** Urination, delayed. Urticaria. Vaccinations. Worms. **Wounds.**

HERBAL - Plantago has a reputation in herbal medicine from remote antiquity, including for use in intermittent fevers. In 1558 the Herbal of Dodoens commended the juice of leaves or roots for "**toothache and bleeding of gums.**" External use in toothache in hollow teeth, otorrhea, itching and poison oak. Incised wounds.

John Parkinson, in his Theater of Plants (1640), said that "the root taken fresh out of the ground, washed and gently scraped with a knife, then put into the ear, cures the toothache like a charm."

Reutlinger noted that in Switzerland the leaf tissues were frayed out and put into the ear for the same purpose. If they relieve the pain they "turn black" and have to be removed, if there is no relief the leaves remain green. Hale summed up the ancient and modern history of Plantago Maj., the weed that furnishes food for cage-birds. In herbal practice, it is constantly resorted to as an application in all disorders of the skin with irritation, pain and heat, the bruised leaves being applied to the part.

HOMEOPATHIC - Hale noted that erysipelas, rhus poisoning, erythema, burns, inflammation of the glands, bruises, incised wounds, animal bites, chilblains, and frostbite had all been relieved by its use.

Plan, has a considerable clinical reputation in the treatment of earache, **toothache and bedwetting**. Pyorrhea alveolaris. Gums bleed easily. Sharp pain in the eyes, reflex from decayed teeth or inflammation of middle ear. Eyeball is very tender to touch.

Affects the nerves, causing neuralgia of ears, teeth, face, of shingles. Pains are sharp, shifting, play between ear and teeth. Can be applied locally for neuralgia. Inflammation of the breasts. Soreness. Sensation as of a foreign body between ears in the groins, etc. Inflamed and painful hemorrhoids.

MIND - Great mental prostration, worse by mental exertion, which causes rapid breathing and anxiety. Mind inactive with dullness. Confusion of thought. Irritable, morose, impatient. Restless mood with dull, stupid feeling in brain. Despondency. Depression and insomnia of chronic nicotinism. Disgust for tobacco in chewers and smokers.

Abdomen - Gone sensation. Severe pains in the hypochondrium. Violent griping in upper abdomen. Bowels

seem cold. Distention with passage of fetid flatus. Colic, flatulent, better by eating.

Back - Cold sweat on sacrum. Pain in sacrum. Throbbing, pulsative pain between scapulae. Neck stiff and sore. Stiffness of sternocleidomastoid mastoid.

Breasts - Inflammation the breasts. Erysipelas of breasts. Mastitis. Neuralgia of nipples.

Causations - Ill effects of bites, bruises, burns, cuts, punctured wounds, snakebites, stings.

Chest - Oppression, worse reading or talking. Sharp stitches. Orgasms of blood. Muscular drawing.

Ears - Sticking pain in ears. Otalgia with toothache. Neuralgic earache, **pain goes from one ear to the other**. Pain in right ear with pains in teeth and face. Pains sharp, twinging. As of a foreign body between ears. Hearing acute, noise painful. Loud noises go through body. Ringing in ears.

Eyes - Sharp pains in the eyes, reflex from decayed teeth. Dull, heavy ache in left eye. Eyes red, dim, inflamed, sore. Aching deep in orbit. Lids sore, swollen. As of a hair before eye.

Face - Neuralgia of left side of face, pains shooting and tearing, extending from jaw to ear. Violent bruised, aching pain, right face. Pain radiating to temples and lower jaw. Drawing in right malar bone. Lips livid, dark, sickly, rough. Dry, scaly eruption on lower lip. Eruption on forehead.

Food - Appetite poor. Thirst. Causes disgust for tobacco in chewers.

Head - Dull headache. Headache with toothache. Sense of something lying in the head, through one ear to the other. As if brain turned over. Itching of scalp.

Heart - Heat in præcordia when walking in open air. Violent palpitations on ascending stairs. Pulse strong, full, intermittent.

Kidneys - Tenderness over region of kidneys on pressure. Irritable bladder with frequent urination. Urethra tingling with unpleasant itching in meatus. Delayed, dribbling urine. Frequent passage of large quantity of pale urine, worse night, with thirst. Diabetes. Profuse flow of urine. **Nocturnal bedwetting** from laxity of sphincter (Rhus-a., Caust., Bell.).

Limbs - Disposition to stretch. Stinging, dull pains here and there. Numbness and trembling legs. Great pain and stiffness in left leg and knee, worse stooping. Hard, white, flattened, papules on inside of thighs.

Lungs - Hoarseness. Cough in cold air. Panting breathing, inclined to sigh.

Male - Sexual debility. Unconscious emission in sleep.

Modalities - Better from sleep. Colic is better by eating. Worse at night, heat of room, heat and cold, cold air, sharp wind. Worse contact, motion, mental exertion.

Mouth - Profuse flow of saliva. Saliva flows with pains. Dirty taste. Breath putrid. Tongue coated white, with dirty, putrid, clammy taste. Food tasteless. **Gumboils**. Gums bleed easily. Aphthae in children. Swelling of cheeks.

Nose - Red papules around nose. Sensation at bridge as if nasal bones being pressed together. Frequent sneezing, with sudden attacks of profuse, watery, bland coryza. Sudden discharge of yellow colored water from the nose.

Rectum - Wants to defecate, goes often, but cannot. Chronic diarrhea. Stools are brown, frothy, watery, fermented, pa- pescent, excoriating. Cholera infantum. Dysentery. Worms. Painful hemorrhoids, bloody, can hardly stand (used locally).

Skin - Sensitive skin. Burns. Violent itching, worse night. Burning, pricking, stinging pains. Burning after rubbing where scratched. Redness, swelling, and vesicles on hands and face. Papules which exude yellowish humor and form a crust. Erythema. Urticaria, chilblains (Agar., Tam.). **Rhus poisoning** (external use).

Sleep - Excessive and continued yawning. Insomnia from abdominal trouble. Grinding teeth during sleep. Sleep restless, disturbed by dreams. Gloomy dreams exciting tears.

Stomach - Belchings, frequent, empty, tasting like sulphur, of carbonic acid gas. Nausea with drowsiness or faint, tremulous feeling. Sinking sensation. Heaviness of stomach as from a stone, even after a light meal.

Teeth - Teeth feel too long. Teeth are sensitive and sore to touch. Rapid tooth decay. **Toothache in decayed teeth** or shooting up left side of face. Toothache, better while eating. Toothache with reflex neuralgia of eyelids. Sharp stabbing pains. Grinds teeth at night

Temperature - Chilliness with erratic pains. Chilliness on moving about, cold hands in a warm room. Chill without thirst, with goose bumps. Coldness of body with shivering. Heat with thirst, and great excitability, mental agony, restlessness. Sweat is cold over lumbar and the sacral region, heat of room unbearable, producing perspiration.

Throat - Dry, parched throat. Scraping in throat. Profuse secretion of thick sticky, mucus with much hawking. Soreness and swelling of submaxillary glands on both sides.

COMMENTS - The tincture has been extensively proved by F. Humphreys (who wrote a monograph upon it), Heath and others. Neuralgic pains of teeth, ears and face were especially pronounced. Shingles, neuralgia. Great surface sensitiveness. Tearing, boring, bruised pains. Pains come suddenly and are apt to be erratic.

Unendurable pains. The left side is most affected. Snake bites, bee stings, animal bites. Burns. Frostbite. Loud noises go through body. Sudden discharge of yellowish or saffron-colored water from the nose.

Toothaches, especially in cavities (Hyp. tincture, Hecla.). "Toothache with earache," particularly if with salivation. Toothache with boring and digging pains. A deep aching in hollow or rotten teeth. Neuralgic pains shooting up the face, from the tooth area. Gumboils. Grinds teeth at night (Cina., Tub.).

Produces disgust for tobacco in chewers and cures neuralgia resulting from tobacco. Foul breath. Sinking and weight in stomach. Offensive flatulence. Darting up and down the urethra. Bedwetting in children. Lax sphincters. Very copious urine, with thirst. Diabetes. Diarrhea, dysentery. Worms. Painful hemorrhoids.

Clarke used it with success in numberless cases of toothache and earache. It has given relief in the painful neuralgia of shingles and in pleurodynia.

F. P. Stiles related three cases of its use. Mrs. S., 39, had terrible neuralgic pain in the right side of her face, shooting into temporal, superior, maxillary and orbital regions for 10 days. Plan, was applied locally to the gums, temple and cheek removed the pain in a few minutes. Some days later a slight return was promptly relieved in the same way.

Mr. R. had neuralgia in left superior maxillary and lower orbital region of long standing. Promptly relieved in the same way.

Mrs. N. had neuralgia of the right upper jaw, unbearable pain, radiating to ear, temple and cheek. A tooth had been extracted without relief. Plan, removed all the pain.

There is a case of one man who allowed himself to be bitten by a rattlesnake. He cured himself by frequently drinking the juice.

*****PLATANUS OCCIDENTALIS**

(Sycamore Buttonwood)

PHARMACY - platan. Platanus occidentalis. Sycamore buttonwood. Platanus acerifolia. Platanus vulgaris. London plane tree. N. O. Platanaceae of the Urtica alliance. Tincture of young shoots. **Historical dose**: Tincture and all potencies.

CLINICAL - Cataract. Ichthyosis. **Tarsal tumors**.

HERBAL - Burnett named the remedy Plat, occidentalis, but his tincture was made from Platanus acerifolia. It sheds its bark annually, which was the signature of its skin action.

HOMEOPATHIC - The tincture, applied topically, has been used for **tarsal tumors**, both acute and old, neglected cases. It restored to practically normal conditions areas where destruction of tissue occurred and scar tissue caused marked deformity. Ichthyosis. Must be used for some time; acts best in children.

COMMENTS - Burnett recorded a case of ichthyosis in an elderly woman in which Platan, caused considerable improvement in the condition of the skin.

Another case of Burnett's was that of a girl, 5 1/2, "of the coal-black variety of the strumous, her forehead low and projecting," who was blind from double cataract due to the shock of a fall in the first instance, the lenses having gradually silted up.

In this case Platan, was given, five drops night and morning, for a number of months, "with very evident improvement in the nutrition of the child's lenses."

REFERENCES - Boericke. Burnett. Clarke.

*****PLATINUM METALLICUM**

(Platina Metal)

PHARMACY - plat. Platinum metallicum. Platina metal. The element (Pt. At. Wt. 195.08) Trituration. **Historical dose**: All potencies.

CLINICAL - Amenorrhea. Chlorosis. **Colic. Constipation**. Convulsions. Delusions. Dentition. Depression. Dysmenorrhea. Fears. Gout. Hemorrhage. Hemorrhoids. Hysteria. Insanity. Lead, poisoning. **Masturbation**. Melancholia. Menorrhagia. Menses, suppressed. **Multiple personalities**. Neuralgias. Neurasthenia. **Numbness. Nymphomania**. Ovarian, disorders. **Painter's colic**. Pruritus, vulvae. Rape. Rheumatism. **Sexual, abuse. Sexual, mania**. Spasms. Tapeworms. Uterus, disorders. **Vaginismus**. Vaginitis. Vertigo. Yawning, spasmodic.

HOMEOPATHIC - The original name of platinum was "Platina," a Spanish word meaning "like silver." The metal was introduced into Europe from South America in the middle of the eighteenth century. It is always found in association with other metals, chiefly rhodium, osmium, iridium, and palladium.

Hahnemann was the first to think of it as a medicine and his proving in the Chronic Diseases is the basis of the knowledge of its action.

Strong tendency to paralysis, anesthesia, localized **numbness and coldness** are shown. Hysterical spasms, pains increase and decrease gradually (Stann.). Tremulousness. **Alternation of mental and physical symptoms**, as physical symptoms disappear mental symptoms appear and vice versa. Oversensitive mind, emotions and nerves.

Plat, is pre-eminently a woman's remedy. Many and various symptoms reflex from ovaries and uterus or sexual organs. Sticky discharges, tears, stools, menses, etc. Catalepsy during menses.

Hemorrhages with black clots with fluid. Irregular spasms, congestion of blood.

Violent cramping, squeezing, thrusting or numbing pains, then spasms. Hysterical spasms. Spasms alternate with dyspnea. Tonic and clonic spasms with laughter. Violent shocks, as from pain. Contortions of limbs. Epilepsy, catalepsy.

Painful tremors. Pains increase and decrease gradually. Bandaged feeling. Sensation of pricking. Localized, coldness of single parts, eyes, ears etc. or numbness of scalp, face, coccyx, calves etc.

MIND - **Alternate mental and physical symptoms**. Physical symptoms disappear as mental symptoms develop. Mental troubles better at twilight. Mental troubles with suppressed menses.

Changing moods. Cheerfulness alternating with depression. Weeps and laughs alternately. Whistles, sings, dances. Laughs at wrong time. Irritability alternating with tenderness. Irritable about trifling things.

Morose and discontented mood, worse being spoken to. **Sadness better open air**. Sits in a corner, broods and says nothing. Bad humor, yet weeps. Inconsolable weeping, worse when spoken to. Weeps with pains.

Unkind, abrupt and quarrelsome. **Contempt for others**. Faultfinding. Proud and erotic. Self-exaltation. Feels tall and stately. Haughty, looks with disdain upon everyone and everything. **Arrogant. Wounded pride**.

Absent-minded and forgetful. Any serious thought is terrifying. Weary of everything. Alone, deserted feeling. Indifference while in company. Past events trouble her. Everything seems changed or different. **Feels she does not belong to her own family**. Thinks she has no place in the world. Forsaken, deserted feeling. Feels everything seems changed. Disordered sense of proportion, **objects seem smaller**, strange, frightful.

Anxiety when speaking in company. Sensation of dread and horrors. Fears of death. Fear of imaginary forms, ghosts. Thinks her husband will never return, something will happen to him. Screams for help.

Impulse to kill her own child, her husband. Aversion to children.

Delusion of superiority. Delusions she is alone in the world. Delusions she is not appreciated. Delusions she is disgraced. Delusions everyone is an enemy. **Delusion that all persons are devils**.

Mental symptoms alternating with sexual symptoms. Sexual excitement brings on mental symptoms. Religious affections alternating with sexual excitement. Inclination to embrace everybody. Perverted sexual desire. Unchaste talk. Hysteria before menses. **Nymphomania**, worse during menses. Sexual mania.

Abdomen - Pressing and bearing down in abdomen, extending into pelvis. Constriction. Pinchings in umbilical region. Pain in umbilical region extending through into the back, turns and twists in all possible positions. Fermentation, much flatulence. Flatulent soreness towards hypogastrium. **Colic from lead poisoning**.

Back - Pains in back and small of back as if broken, after a walk. Bruised backache, worse pressure, worse on bending backwards. Contusive pain in loins and in back. Sensation of numbness in coccyx, as after a blow. Weakness and sensation of tensive numbness in nape of neck. Rigidity of nape of neck.

Causations - Ill effects of fright, vexation, bereavement, fit of passion. Ill effects of sexual excess, prolonged hemorrhages and masturbation.

Chest - Sensation of weakness. Anxious oppression of chest with sensation of heat, which ascends from epigastrium. Pain in chest, as if a weight were pressing upon it with desire to take a full inspiration. Tension, pressure and shootings in sides of chest, which do not permit lying down on either side. Aching and dull blows in the chest. Increasing to a certain intensity and gradually diminishing in same way. Dull lancinations in sides of chest during an inspiration.

Constitutions - Suited to women with dark hair, thin, sanguine, bilious with too frequent and too profuse menses, sexual organs exceedingly sensitive. Hysterical and hemorrhoidal patients.

Ears - Cramp-like twinges. Shocks in ears. Sensation of numbness and of coldness in ears, extending to cheeks and lips. Gnawing tingling in ears. Roaring, whizzing and ringing in ears. Dull thundering, rumbling in ears.

Eyes - Eyes feel cold. Cramp-like pain in orbits. Aching in eyes with sleep. Pain in eyes after fatiguing the sight by looking attentively at an object. **Objects look smaller than they are**. Quivering and sparkling before sight.

Confused sight, as if directed through a veil, often with painless twitchings around the eye. Twitching of the eyelids (Agar.).

Face - Distortion of muscles of face. Grimaces. **Coldness, creeping and numbness** in whole right side of face. Facial pain with numb feeling in malar bones, as if the parts were between screws. Pain at root of nose, as if squeezed in a vise. Pains increase and decrease gradually (Stann.). Boring, cramps in the jaws. Lockjaw. Smarting and sharp vesicles on lips. **Numbness of lips**, dry and cracked.

Female - **Painfully sensitive genitals** with itching, tickling or crawling. Tingling internally and externally (Kalibr.). Pruritus vulvae with voluptuous angling. **Excessive sexual desire** that leads to masturbation. **Nymphomania**, worse in puerperal state. Sexual mania. Frequent sensation as if menses would appear. Menses with chilliness, sensitive genitals. Menses too early, too profuse. **Menses dark, clotted**, with spasms and painful bearing-down. Dysmenorrhea with shrieks and jerks. Amenorrhea in emigrants. Leucorrhea like white of an egg. **Vaginismus from excessive sensitiveness of sexual organs, sex is impossible** (Staph.). Prolapse of uterus. Induration, uterine cancer. Fibroids. Ovaries sensitive and burn. Infertility from ovaritis or excessive sexual excitement.

Food - **Ravenous hunger**, persistent nausea with anxiety and weakness. Hasty eating, eats everything around her or detests it. Loss of appetite after first mouthful. Repugnance to food from sadness. Worse from fasting.

Head - Constriction about forehead and right temples. **Cramp-like, squeezing pain**. Tensive confusion in forehead, as if head were compressed in a vice. Tense, pressing pain, confined to a small spot. Pain in sides of head, as if caused by a plug. Tense scalp. Constrictive headache, as if a tape were tightly drawn around it with sensation of numbness in brain. **Numbness with headache**. Attack of headache with nausea and vomiting. Headache with leucorrhea. Headache commences on waking. As of water in forehead.

Heart - Burning and sticking low down by heart. A dull pressure in region of apex of heart. Anxious palpitation of heart.

Kidneys - Slow but frequent emission of urine. Red urine with a white cloud, or turbid and deposits a red sediment.

Limbs - Limbs feel weary, numb, paralyzed. Tingling restlessness, sensation of weakness and trembling in limbs. Paralytic weakness. Attack of spasmodic rigidity in limbs. Cramp-like jerking and drawing pains in limbs and joints. Cramp in calves. Tightness of thighs, as if too tightly wrapped. Distorted fingers. Numbness of little finger or fingers.

Lungs - Inclination to draw a long breath, prevented by a sensation of weakness in chest. Shortness of breath with a constrictive oppression of chest. Short, difficult and anxious respiration. Short, nervous, dry cough with palpitations and dyspnea. Walking against wind causes sudden arrest of breathing.

Male - Ill effects of masturbation before puberty. Perverted sexual desires. Unnatural **increase of sexual desire** with frequent erections, especially at night (with amorous dream). Sex, short duration with little enjoyment. Flow of prostatic fluid. Burning pain and gnawing in scrotum. **Voluptuous tickling, itching with excessive sexual desire**. Voluptuous crawling in genital organs and abdomen with anxious oppression and palpitations, then painless pressure downwards in genitals with sticking in scrotum and exhaustion.

Modalities - Better from walking in open air, sunshine, stretching and motion. Obligated to stretch, which ameliorates. **Worse from emotions**, chagrin, nerve exhaustion. Worse sex, during menses. Worse touch, pressure, sitting, standing and bending backwards. Worse evening and night, in a warm room.

Mouth - Mouth feels cold. Sensation as if palate or uvula were elongated. As if tongue were scalded. Sweet taste on tip of the tongue. Numb pain in left lower teeth. Cramp-like drawing in teeth. Toothache with pulsative and digging pain. Fissures in gums.

Nose - Cramp-like pain with sensation of numbness in nose and at root of nose. Ineffectual want to sneeze and tingling in nose. Dry coryza often semi-lateral. Corrosive sensation on nose, as of something acrid.

Rectum - Constipation after lead poisoning, sometimes very obstinate. Constipation of pregnancy. **Constipation of travelers**, who are constantly changing food and water. Frequent want of stool, retarded, feces scanty, evacuated with difficulty in pieces. Stool seems to stick to anus and rectum like putty. Crawling, itching anus in evening. Voluptuous crawling in rectum. Violent and dull lacerations in rectum.

Sensations - As if her senses would vanish. As if everything about her were very small. As if she were constantly growing longer and longer. As if she did not belong to her own family. As if head were enlarged. As if parts of malar bones were between screws. As if throat constricted, palate elongated tongue scalded. As if abdomen, chest, nape, limbs, thigh, great toe, tightly wrapped or constricted. Back and small of back as if broken. Crawling, tingling, numb sensations.

Skin - Tingling, gnawing with pain as of excoriation and itching or burning, pricking and shooting pain on various parts of skin, which provokes scratching. Ulcers,

on fingers and toes.

Sleep - Convulsive and spasmodic yawning, especially in afternoon. Great disposition to sleep in evening. Sleeps with legs far apart. Sleeps on back with knees drawn up and spread apart, wants to uncover entirely. Waking at night with frightful dreams, want of consciousness or with anxious, sad and distressing thoughts. Anxious dreams of wars and bloodshed. Lascivious dreams. Prolonged sleep in morning.

Stool - Stool as if burnt. Stools hard, black passed in small portions with great straining, Stools adhere to rectum like soft clay. **Sticky stool.** Tinea and ascarides are discharged from rectum. Worms.

Stomach - Aching, pressure in stomach, especially after a meal. **Sensation of constriction** in pit of stomach, extending into abdomen. Fermentations in epigastric region. Ineffectual effort to belch. Empty, noisy belchings. Continued nausea with lassitude, trembling and anxiety.

Temperature - Pulse small, feeble, frequently tremulous. Constant shivering and shuddering over whole body, especially in open air. Chilliness predominates with low spirits, which ceases during heat. Heat with sensation of burning in face without any visible change in color of face. Flushes of heat interrupted by chilliness. Gradually increasing and decreasing heat. Perspiration only during sleep, ceasing as soon as one awakens.

Throat - Cramp-like drawing in throat like a constriction. Scraping and accumulation of phlegm in throat. Hawking up of phlegm. Aphonia.

Vertigo - Transient attacks of vertigo in evening with loss of consciousness. Vertigo on sitting down or ascending stairs. Vertigo as if torn and pulled with threads.

COMMENTS - Plat, has a lost sense of proportion in both ocular and mental vision. Objects look small or the patient thinks they are small. Distortions of distance and size (Cann.).

Pride and hauteur, the patient (generally a woman) looks down on everything and everybody. Delusion of grandeur.

Megalomania (Cann., Hyos.), but seen as arrogance, not insanity. Arrogant, proud, particularly after grief, fright, rape or sexual abuse. Deep hatred for men.

Alternating between one mental state and another. Changing moods, sad and gay, laughs and cries by turns. Laughs immoderately, but in the wrong place, laughs at serious things. Homicidal. Manic depression. Multiple personality disorders (Anae.). Identity crisis, they forget who they are.

Jahr cured with Plat, a woman who had an inspiration to kill her child.

Jule Gaudy recorded the case of a woman who was tormented with an almost irresistible impulse to kill her husband, whom she loved passionately and with whom she was perfectly happy. The sight of a knife had an irresistible fascination for her and she was often obliged to leave the table to free herself from the impulse.

A few months before, she had lost a child a short time after confinement, which had been followed by profuse and persistent hemorrhage. Recovering from this she became restless, irritable and her whole existence was ruled by this terrible impulse. Plat. 6x and 30x relieved and finally cured her.

Kent recorded the case of a middle-aged woman, the mother of several grown-up daughters, who complained of a fear in the absence of her husband, that he would never return, that he would die or be run over. She wept all the time he was away.

Kent discovered that she had been treated for uterine displacement and was then wearing a pessary. This was removed. Menstrual flow was copious, black, clotted. The external genitals were so sensitive that the usual napkin was intolerable. Plat, cured the whole case including the displacement.

Nash cured a case of insanity of some duration with Plat., being led to the remedy by an alternation of the mental symptoms with a pain the whole length of the spine.

Keynote occurrence of cramps, cramping pains and spasms, developing into convulsions. Cramping pains causes numbness and tingling in the parts affected. Pains as if nipped, squeezed in a vice and these pains increase gradually to a climax and then, as gradually, decline.

Cramping tendency, antidotal to lead poisoning. Tenesmus. Constipation, stools are tenacious and sticky, adhere to the rectum and anus like putty or they may be hard as if burnt. Constipation comes on while traveling, in emigrants, during pregnancy.

Spasms alternate between convulsions and opisthotonos, full consciousness. Spasms alternate with dyspnea. Spasmodic yawning. Pains go from right to left. The right side is somewhat more affected than the left. The symptoms are periodic and paroxysmal, as well as alternating.

Severe, painful menstrual cramps. Catalepsy during menstruation. With the menses, uterine spasms, convulsions. Convulsions of puerperal state. Excessive itching in uterus, pruritus vulvae. Vaginismus. Severe stitches in right ovary. Ovarian tumors.

Generally centers in and radiates from the sexual organs, male and female. The sensitiveness of the external genitals is often so great as to make sex impossible (Staph., Cact.). Digital examining of such a patient causes great pain. Prostate problems (Pall.).

Masturbation before puberty and also to the effects of masturbation. Premature and excessive development of sexual instinct and organs, before puberty. Severe vaginal irritation that leads to vaginal discharge and masturbation in young girls (Med.).

Excessive desire, especially in virgins. Nymphomania, worse in puerperal state. Characteristic tendency to uncover completely in sleep. It was one of Gallavardin's remedies for the impulse to pederasty and sodomy.

RELATIONS - Antidote: Puls. Plat, antidotes the bad effects of lead. **Antidoted by:** Puls., Teste, who classes Plat. with Thuja., Brom., and Cast., says Colch. is the best antidote to all four. **Compare:** (1) Rhodi., Stann., Valer., Sep. (2) Plat-m. (3) Sed-ac - sexual irritability, relieves irritation of nerve centers and gives rest. (4) Self-pride, Pall., Plat, egotistical, despises others, Pall, easily wounded, attaches importance to others, Lyc. - imperious. (5) Spasms, emacia-

tion from pre-puberty masturbation, Staph. (6) Uterine affections, nymphomania, Aur., Sep. (the nymphomania of Plat, is more intense. Plat, is intermediate between Aur. and Sep. in weariness of life, the uterine cramps of Plat, are followed by numbness, those of Sep. are a clutching as if suddenly seized then suddenly relaxed. (7) Hysteria indurated ulcers, Tarent. (8) Sees ghosts spirits and demons, Hyos., Kali-br. (9) Shamelessness, uncovers, Phos., Hyos. - sees things larger. Plat, smaller. (10) Thinks death near and fears it, Aeon., Ars. (11) Dark, stringy hemorrhage, Cham., Croc, has sensation of something alive. **Complementary:** Plat, and Pall, both affect right ovary, but Pall, has better from pressure. **Compatible:** Bell., Ign., Lyc., Puls., Rhus-t., Sep., Verat.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***PLATINUM MURIATICUM

(Platina Chloride)

PHARMACY - plat-m. Platinum muriaticum. Platina chloride. **Historical dose:** All potencies.

CLINICAL - Acne. Bone, disorders. Cancer. Caries. Condylomata. Gonorrhea. Fever. Headaches. Laryngismus. Syphilis.

HOMEOPATHIC - Plat-m. was experimented with by Hofer of Pau, who applied a saturated solution locally and administered solutions internally.

There is only a fragmentary proving, the mental symptom "**thinks she has been poisoned**" might be helpful as a guide in certain cases. The local application produced acute irritation of the skin and glans penis with an eruption on the latter like commencing chancre.

Decay and caries of the nasal and tarsus bones. Syphilitic caries and syphilitic rheumatism. Laryngismus. Stricture of esophagus and cancer of the stomach. Canker, condylomata. Acne. Mercury abuse. Chronic gonorrhea.

Involuntary movement of tissues of muscles of nape, back and limbs for several hours. Fever, headaches, constricting sensations and fibrillary twitchings were induced by internal doses.

Plat-m. has achieved beneficial results after Kali-i. failed to cure in syphilitic affection, violent occipital headaches, dysphagia and syphilitic throat and bone affections, decay of bones of feet.

MIND - **Thinks she has been poisoned** (Ars., Lach.).

Head - Some headache with slight acidity of stomach. Severe headache, especially in occiput with fever.

Kidneys - Acute inflammation of urethra, pain on urinating, slight dysuria.

Male - Violent itching on glans and prepuce with sensation of warmth. Eruption about glans penis, somewhat livid, raised, size of pin head, looks like commencing syphilitic sore, but disappears in twelve hours.

Mouth - Metallic taste.

Skin - Discolored yellow. Skin becoming covered with rosy red eruption that disappears after a few minutes from local application.

Stomach - Acidity of stomach with headache. Warmth and heaviness in epigastrium. Nausea and vomiting.

Temperature - Slight shuddering, pulse accelerated, warmth in epigastrium.

Throat - Violent constriction of larynx, so that speech and swallowing were impeded.

REFERENCES - Boericke. Clarke.

***PLATINUM MUR. NATRONATUM

(Sodium Chloroplatinate)

PHARMACY - plat-m-n. Platinum muriaticum natronatum. Sodium chloroplatinate. Solution. **Historical dose:** All potencies.

CLINICAL - Eructation. Flatus. Nausea. Polyuria. Salivation. Vomiting.

HOMEOPATHIC - Hofer experimented with Plat-m-n. on the same man who took Plat-mur. The chief additional symptom was decided increased secretion of urine and saliva.

Slight headache. Feeling of warmth and heaviness in stomach. Rumbling in abdomen. Transient colic. Emission of flatus. Eructation of gas. Nausea and inclination to vomit.

REFERENCES - Clarke.

***PLECTRANTHUS FRUTICOSUS

PHARMACY - plect. *Plectranthus fruticosus*. N. O. Labiatae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdomen, coldness. Cholera. Cramps. Dentition. Diarrhea. Dysphagia. Fever. Intermittent, fever. Lumbrici. Neuralgia. Rheumatism. Shoulder, pains. Spastic, paralysis. Stiff neck. Sweat, local. Throat, sore. Toothache. Wrists, pains.

HOMEOPATHIC - Plect. was proved by the Austrian Provers' Association. Severe symptoms were induced in the head, throat, intestines and rectum, limbs and joints. Hansen mentioned spastic paralysis as having been remedied by it.

Toothaches with swelling of face and difficulty of opening mouth. "Pain near right jaw joint as if a tooth were coming through" suggests a use for the remedy in difficult cutting of wisdom teeth.

Burning sensation throughout the digestive tract. Coldness of abdomen, better in open air. Pressure on rectum and bladder. Discharge of white mucus from anus, causing scratching. Whites of eyes yellow, worse left. Sweat of right foot, left foot dry of right foot and both hands and no other part of scalp.

Pains and other symptoms come and go suddenly. Exhaustion, bruised sensation, general discomfort. Cramps and paralytic pains in joints. Pains of many kinds in right shoulder. Pains about the navel. Affects the right side more than the left.

Modalities - Better by application of ice, belchings. Burning in mouth worse from all food and drink. Chewing causes pain in temples. Worse by motion, moving head, turning body, swallowing. Worse while urinating, better after urinating. Worse by warmth of stove. Pressure in stomach, pain in umbilical region, worse after eating.

Sensations - Cool sensation followed by burning at root of tongue and palate. As if a morsel stuck in the throat after swallowing. Pressure as from a heavy weight in stomach. As through air were piercing

Plectranthus fruticosus the marrow of the bones.

RELATIONS - Compare: (1) Urinary symptoms, Oci. (2) Black stools, Lept. (3) Stitches in chest, Kali-c. (4) Pains come and go suddenly, Lyc., Bell. (5) Crumb in throat, Hep., Nit-ac., Arg-n.

***PLUMBAGO LITTORALIS

PHARMACY - plumbg. *Plumbago littoralis*. *Plumbago scandens*. Bay of Rio Janeiro. N. O. Plumbaginaceae. Tincture of leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Blisters. Eyes, inflammation. Fever. Kidneys, pain. Saliva, milky. **Ulcerations.** Vertigo.

HERBAL - Mure says Plumbg. is a creeper inhabiting the shores in the bay of Rio de Janeiro. Many of the plants of this genus are acrid and caustic in the highest degree.

The Treasury of Botany noted that the root of *Plumbago scandens*, the Herbe du Diable of San Domingo, is a blistering agent when fresh, so also is that of *Plumbago rosea*. The beggars employ *Plumbago europea* to raise ulcers on their body to excite pity, and used internally it is said to be as good an emetic as ipecac.

HOMEOPATHIC - Mure proved Plumbg. The most peculiar symptoms were profuse, milky saliva. **Ulceration of commissures of lips**, which is an evidence of its acidity. Costiveness with red urine. Pain in humerus on lifting anything. Hot arms with cold hands. Vertigo after eating. **Aversion to everything.**

RELATIONS - Compare: (1) Costiveness with red urine, Lyc. (2) The Plumbaginaceae are allied to the Primulaceae. (3) Plantaginaceae - the root of *Plumbago eu.* is used dried as ; remedy for toothache.

REFERENCES Clarke.

***PLUMBUM ACETICUM

(Lead Acetate)

PHARMACY - plb-acet. *Plumbum aceticum*. Lead acetate. Trituration. **Historical dose:** All potencies.

HOMEOPATHIC - Care must be used, as sufficient lead can be absorbed to produce lead poisoning, one to two drams of the *Liquor plumbi sub-acetatis* to the ounce of water. Also in pruritus pudendi, equal parts of the *Liquor plumbi* and glycerin.

Plb-acet. has painful cramps in paralyzed limbs, severe pain and muscular cramps in gastric ulcer, locally, as a non-homeopathic application in moist eczema and to dry up secretions from mucus surfaces.

REFERENCES - Boericke.

***PLUMBUM CHROMICUM

(Lead Chromate)

PHARMACY-plb-chr. Plumbumchromicum. Lead chromate. Chrome yellow. Trituration. **Historical dose:** All potencies.

CLINICAL - Colic. Convulsions. Cramps. Diarrhea. Dysphagia. Erythema. Paralysis. Screaming. Tenesmus.

HOMEOPATHIC - Several cases of poisoning by Plb-chr. have been observed. The symptoms present the cardinal features of lead poisoning. Cramps. Convulsions with terrible pains. Pupils enormously dilated. The face was red and hot and there was heat of the body generally.

Erythematous redness of chest and abdomen. Retracted abdomen. **Violent diarrhea of yellow color.** Yellow stools with constipation. The symptoms were worse towards evening. Better by drinking warm milk.

REFERENCES - Clarke.

***PLUMBUM IODATUM

(Lead Iodide)

PHARMACY - plb-i. Plumbum iodatum. Lead iodide. Plumbic iodide. **Historical dose:** All potencies.

CLINICAL-Arteriosclerosis. Breast infections, indurations. Paralysis. Pellagra.

HOMEOPATHIC - Plb-i. has been used empirically in various forms of paralysis, sclerotic degenerations, especially of spinal cord. Atrophies, arteriosclerosis, pellagra.

Associated with very dry skin. Indurations of great hardness. **Indurations of breasts**, especially when a tendency to become inflamed appears, sore and painful. Sharp pains of **tabes**.

REFERENCES Clarke.

***PLUMBUM METALLICUM

(Lead Metal)

PHARMACY - plb. Plumbum metallicum. Lead metal. The element (Pb. At. Wt. 206.39). Plumbum aceticum. Lead acetate. Sugar of Lead. Plumbum carbonicum. Lead carbonate. Pure White Lead. Trituration. **Historical dose:** All potencies.

CLINICAL - Amaurosis. Anus, prolapsed. **Anemia.** Anesthesia. Aneurysm. Anidrosis. Appendicitis. Arteriosclerosis. Asthma. **Atrophy.** Bone, tumors. Brain, disorders. Bright's disease. **Colic.** Coma. **Constipation.** Convulsions. **Cramps.** Cystitis. Depression. Diplopia. Dropsy. Dysuria. **Emaciation.** Epilepsy. Epulis. Esophagus, stricture. Eyes disorders. Ganglion. **Glaucoma.** Gout. Hemoptysis. Headaches. Hemorrhoids. Hernia, strangulated. Hyperesthesia. Hypertension. Hypopion. Ichthyosis. Intermittent fever. Intestines, obstruction. Intussusception. Jaundice. Jaw, tumor. Kidneys, disorders. **Lead, poisoning.** Liver disorders. Lockjaw. Locomotor ataxia. **Marasmus.** Metrorrhagia. Multiple sclerosis. Myelitis. **Nephritis.** Neuritis. Numbness. **Painter's colic.** **Paralysis.** **Parkinson's disease.** **Penchondritis.** **Progressive muscular atrophy.** Rectal pain. Sciatica. **Spasms.** **Spine, diseases.** Spleen, disorders. Stricture. **Strokes.** Tabes mesenterica. Tobacco habit. Tongue, paralysis. Typhlitis. Umbilicus, disorders. Uric acid. **Vaginismus.** Varicose veins. **Wristdrop.**

HOMEOPATHIC - Plb., the Saturn of the Alchemists, has been proved by Hartlaub, Trinks, Hering and Nenning. To those symptoms have been added those of numberless cases of poisoning among workers with lead and painters, symptoms from drinking lead contaminated waters, from the use of lead in cosmetics, and from cases of suicide.

Teste noted that metallic lead was seldom used in old school practice as it was considered inert, but Boerhaave gave it internally, reduced to an impalpable powder, for leucor-rhea, dysentery, syphilis and gout.

The salts of lead, in the form of plaster and "Foulard water," have been largely used as external applications in skin diseases, vaginal and urethral injections. Injury has frequently resulted, especially from repelled eruptions.

Among painters and lead manufacturers, the best-known symptoms are **colic and wrist drop.** Kidney irritation with albuminuria, ending in granular degeneration with attendant heart hypertrophy, optic neuritis and blindness.

There is an excess of uric acid in the blood of persons under the influence of lead and actual gouty deposits and gouty attacks have been observed. In one case of lead poisoning, there was an enlargement of the knees and contraction of the lower limbs, completely crippling the patient.

Useful for general sclerotic conditions. It affects the muscles, nerves, spinal cord, abdomen, navel, kidneys, blood vessels and blood. Particularly affects the blood, alimentary and nervous systems.

Lead paralysis is chiefly of extensors, forearm or upper limb from center to periphery with partial anesthesia

or excessive hyperesthesia, preceded by pain. Localized neuralgic pains, neuritis.

Progressive muscular atrophy. Infantile paralysis. Locomotor ataxia. Bulbar paralysis. Peripheral disorders.

Paralysis of single parts, wrist drop, flaccid with hyperesthesia, worse touch. Tremors, followed by paralysis. Attacks of the neural axons and the anterior horns. Multiple sclerosis, posterior spinal sclerosis. Contractions and boring pain. Retraction, sense of a string pulling back or in. Constrictive sensation in internal organs.

Violent contractions.

Convulsive trembling and jerking of the limbs. Convulsions, chronic epilepsy with marked aura with hemorrhages. Boring, cramps. Lightning pains that extort cries. Small aneurysms all over the body. Dropsical swelling. Arthralgia.

Symptoms appear slowly, insidiously, progressively, often with violent side effects of very changeable and incoherent character, coming in single parts, etc. Anesthesia is as marked as excessive hyperesthesia. Exaggerates her condition. Perception slow, comprehension is difficult. Delirium, coma and convulsions.

Hematosiis is interfered with, rapid reduction in number of red corpuscles, causing pallor jaundice, and anemia.

Hypertension and arteriosclerosis. **Gout.** Acute nephritis with amaurosis and cerebral symptoms.

Impulse to stretch with abdominal distress. Retraction of abdomen, anus, testes, navel etc. Excessive and rapid emaciation. Emaciation of limbs with plump body, of paralyzed parts, of single parts after neuralgias.

Marasmus of infants in apparently hopeless cases, abdomen large and hard and constipation extreme.

MIND - Mental exhaustion from physical labor. Confusion of mind while standing. Weakness or loss of memory (Anae., Bar-c.). Deficiency of ideas. Increasing slowness and apathy. Slow perception. Stupid, imbecile. Timid, restless and anxious. Unable to find proper word while talking. Amnesia aphasia.

Mental depression. Quiet and melancholy. Gloom alternating with excitement. Censorious. Taciturn. Aversion to company. Timidity about appearing in public. Restlessness at night, wants to go from one bed to another. Anxiety with restlessness and yawning. Hysteria, only while being watched. Screams from time to time. Fright without cause. Frantic, bites, strikes. Fears of poisoning, **of being assassinated.** Thinks every one about her is a murderer. Delusion of dead persons. Paretic dementia.

Feigns sickness or exaggerates her condition. Inclined to cheat and deceive. Plays antics. Foolish behavior. Cursing. **Wild delirium with distorted face.**

Delirium, nocturnal, alternating with colic or pain in the limbs. Delirium from hearing music. Delirium after epilepsy. Disposition to suicide or do himself some bodily injury. Time passes too slowly.

Abdomen - Colic, accompanies many symptoms. Colic alternates with delirium and pain in atrophied limbs. Obstructed flatus with intense colic. Abdominal wall feels **drawn by a string to spine. Navel feels retracted.** Abdomen is drawn into uneven lumps. Radiating abdominal pains to all parts of the body. Hernia, navel. Intussusception, strangulated hernia. Boring or as if forced through a narrow place. Pain causes desire to stretch.

Back - Spinal cord sclerosis. Lightning-like pains, temporarily better by pressure.

Breasts - Stitches and burning pains in breasts (Apis, Con., Carb-an., **SiV**). **Induration of breasts.** Breasts become momentarily harder or smaller with colic.

Causations - Ill effects of repelled eruptions. Sexual excess. Lead, cadmium or aluminum poisoning.

Chest - Oppression of chest, appearing periodically. Pressure on chest, especially when breathing deeply or laughing. Shootings in chest and sides, sometimes with obstructed respiration. Apices of lungs affected. Small red papules on chest, desquamation.

Constitutions - Particularly adapted to adults, males more than females, particularly to persons of a dry, bilious constitution with somewhat jaundiced, irascible, hypochondriac or disposed to religious monomania.

Ears - Tinnitus (Chin., Nat-sal., Carb-s.). Hears music with frightful delirium. Occasional sudden deafness.

Eyes - Pupils contracted. Yellow or deep bluish red sclerotics. Optic neuritis, central scotoma. Intra-ocular, suppurative inflammation. **Glaucoma** from spinal disorders. Sudden loss of sight after fainting. Paralysis of upper lid. Profuse hot lachrymation.

Face - Yellow, corpse-like, cheeks sunken. Skin, greasy, shiny. **Pale and emaciated.** Swelling of face, one side. Twitching of side of face (right). Tremor of naso-labial muscles.

Female - Vaginismus with emaciation and constipation. Vulva and the vagina hypersensitive. Ovarian pain, better stretching legs. Menorrhagia with sensation of string pulling from abdomen to back. Cannot pass urine in pregnancy from lack of sensation or paralysis. Tendency to abortion from undeveloped uterus. Feeling of lack of room for fetus in uterus.

Head - Headache, as if a ball was rising from the throat into the head. Delirium alternating with colic. Hair very dry, falls from beard.

Heart - Cardiac weakness. Pulse soft and small, dicrotic. Pulse wiry, slow sinks even to 40. Painful constriction of peripheral arteries.

Kidneys - Chronic interstitial nephritis with great pain in abdomen. Contracted kidney. Paralysis of bladder,

difficult urination or retention, suppression. Frequent ineffectual tenesmus. Scanty urine. Urine profuse, but flows slowly, drop by drop. Albuminous, low specific gravity. Diabetes mellitus. Uremia.

Limbs -Paralysis of lower limbs. Paralysis of *single muscles*. Pain *in atrophied limbs*, alternating with colic. Sciatica and muscular atrophy. Lightning like pains better by pressure. Stinging and tearing in limbs, also twitching and tingling, numbness, pain or tremor. Weakness and painful lameness of arms and hands. Extension is difficult. Paralysis from overexertion of the extensor muscles in piano players (Cur.). Arms shaky when attempting to use them. **Wrist drop.** Paralysis of lower limbs after childbirth. Pains in muscles of thighs, *come in paroxysms*. Cramps in calves. **Loss of patellar reflex.** Hands and feet cold. Feet swollen. As if feet were made of wood. **Pain in right big toe, very** sensitive to touch.

Male - Testicles drawn up, feel constricted. Frequent pollutions. **Loss of sexual power.**

Modalities - Bending back ameliorates pressure in stomach, pain in epigastrium, pain in back. Bending double ameliorates colic. Better by hard pressure, rubbing, physical exertion, stretching limbs. Better at rest, lying down. Worse from motion, grasping smooth objects, touch. Worse mental exertion, company. Worse at night, open air, clear weather, foggy weather. Damp weather causes profuse salivation. Swelling in abdomen and cough are worse lying on right side.

Mouth - Sweet taste. Sticky saliva, blue. Yellow inside the mouth. Aphthae, fetid ulcers. Gums swollen, pale. Hard tubercles on gums. **Distinct blue lines along margins of gums.** Tongue tremulous, red on margin. Cannot put it out, seems paralyzed. Loud motion of lower jaw and frightful grinding of teeth.

Nose - Coldness of the nose. Erysipelatous inflammation of nose. Obstruction of nose. Accumulation of tenacious mucus in nostrils. Fluent coryza with discharge of serous mucus. Fetid smell in nose. Loss of smell with epilepsy.

Rectum - Anus feels drawn up or painfully contracted. Neuralgia of rectum. Prolapsed anus with paralysis. Constipation. Stools, **hard, lumpy, black with urging and spasm of anus.** Stools, granular, hard black balls like sheep dung, passed with an urging cramp in anus. Obstructed evacuation from impaction of feces (Plat.). Stubborn constipation or colics of infants.

Sensations - As if everything were weighed down. As if something were working at top of head with a sense of screwing from throat into brain. As if a wheat hull in throat. As if abdomen and back were too close together, abdomen drawn to spine with a string. Bowels as if twisted, constricted, distended with gas. As if abscess forming near umbilicus. Anal sphincter as if drawn in. As if a bag not quite filled with fluid lay in bowels. As if fluid rolled from one side to other of abdomen. As if thighs pierced with needles. As if feet made of wood.

Skin - Oversensitive to open air. Dry, wrinkled, shriveled and drawn over the bones. Jaundice. Yellow, dark-brown liver spots. Bluish, red spots. Dilated veins of forearms and legs. Small wounds easily inflamed and suppurate. Dry, burning ulcers. Bed sores. Blisters, corns, bunions. Gangrene.

Sleep - Falls asleep while speaking, talking during sleep. Nocturnal sleeplessness with abdominal spasms. Jerks during sleep. Odd position during sleep. Must stretch in every direction. Many dreams, sometimes lascivious with erections. Coma and lethargy, sometimes with dizziness.

Stomach - Contraction in esophagus and stomach, pressure and tightness. **Gastralgia**, better hard pressure, bending backwards. Foul or fecal belchings. Periodical or persistent vomiting of food. Vomiting of brown-black liquid or of green mucus. Vomiting of fecal matter with colic and constipation.

Temperature - Coldness from exertion. General cold sweat during stools. Feet cold, only when walking.

Throat - Solids cannot be swallowed. Dysphagia, fluids can be swallowed. Paralysis of gullet with inability to swallow. Globus hystericus. Stricture of esophagus from spasms.

Vertigo - Fainting in a room full of people or on going from one room to another.

COMMENTS - Tunzelmann reported a number of cases of acute poisoning from drinking water containing lead.

In one such case, a cook was ill for three weeks. Unable to retain any food in the stomach, constant nausea and, even when no food was taken, frequent vomiting of greenish watery fluid, worse at night.

Skin was yellowish, conjunctiva decidedly yellow. Tongue was furred, coated at back, very yellow, horrible taste, fetor of breath, bowels confined. Extreme debility. Hydr. 3c gave great relief, but three months later the hands became paralyzed, which led to the testing of the drinking water and the discovery of lead.

A boy, age 12, had bronchial catarrh with a loose cough and consolidation of left apex. As soon as the poisoned water was stopped, he rapidly recovered.

An elder brother had hemoptysis, and coughed up half a pint of blood. Nothing was found wrong with the lungs beyond a slight feebleness of respiration at the apices. Three months later, after a day's rowing, the hematemesis returned with a nosebleed. Now distinct dullness was found at right apex. Rapid recovery followed stopping the water.

Women who work with lead frequently abort. Women who do not work with lead but whose husbands do, abort

in even greater proportion. Children born under these conditions are frequently idiotic or epileptic.

Characteristic retraction and sense of retraction. Sensation of or actual drawing in of abdominal wall, were drawn back by a string to the spine. The cheeks are retracted, sunken. Excessive and rapid emaciation. Emaciation of certain parts (Caust.). Anemia. Memory loss.

Progressive muscular atrophy. Parkinson's disease. Paralysis of single muscles. Paralyzed parts lose flesh. Progressive locomotor ataxia. Stroke, with spastic paralysis. Epilepsy preceded by vertigo, sometimes sighing, followed by a stupid feeling.

Cramps, spasms, convulsions, paralyzes, tremors. Clonic or tonic convulsive movements of limbs from cerebral sclerosis or tumor. Cramps in the fingers. Wrist drop, weak wrist from overuse. Lead palsy.

Spasm of bladder or esophagus. Violent colic. Strangulated hernia. Colon spasms. Painful impacted bowels (Alum, and Op. are painless). Vaginismus, spasm of uterus and expulsion of its contents. Useful for vaginismus resulting in paralytic symptoms. Sensation as if there was not room enough for fetus.

Anesthesia and hyperesthesia. Restlessness, lassitude, faintness. Sensation in abdomen at night that causes patient to stretch violently for hours, must stretch in every direction. Assumes strange positions in bed at night. Pains are wandering or radiating, vague, paroxysmal. Ailments develop slowly and can intermit for a time. Alternations are common, delirium with colic, diarrhea and constipation jerks of flexors and extensors, paralysis and colic. Right side is most affected, symptoms go from left to right (throat). Symptoms worse 8 a.m. to 9 a.m. Frohling related the case of N., a farmer, 46, who was taken ill in November 1893 with attacks of colic with vomiting and extreme constipation, action only obtained by large enemata. Had been constipated in former years, but without illness. Op. had given only temporary relief.

After December 1893, vomiting was rare, but colic increased in intensity up to February 1894, when Frohling saw him first and found him wasted to a skeleton, abdomen drawn in, appetite bad, feeling ill.
