Over-sensitivity to noise and external impressions. Biliousness, bilious complaints. Septic boils, abscesses, and carbuncles. Burning pains all over the body, better cold applications. Profuse urination.

Giddiness. Dysentery with white and bloody stools. Headache from excessive exposure under sun's rays. Chronic fever associated with burning of eyes, face and other parts of body. Dropsy, jaundice, flatulence. Hemorrhage from the stomach. Blood poisoning.

MIND - Moroseness. Fretfulness. Disinclination to do any work. Gloomy disposition. Could not remember all events, memory partially gone.

Abdomen - Full of flatulence. Abdomen distended.

Eyes - Burning of eyes.

Face - Redness of face with burning.

Food - Loss of appetite.

Head - Headache from excessive exposure under sun's rays.

Kidneys - Passage of copious quantity of urine at a time, clear urine, exhaustion and weakness after urination.

Glycosuria. Presence of sugar in urine.

Modalities - Better by cold or cold applications. Worse after urination.

Mouth - Excessive dryness of mouth with great thirst for large quantities of water at a time, worse after urination. Lips dry and parched.

Rectum - Greenish, mucus stools mixed or tinged with blood. Pain before and during stool. White and bloody stools.

Sensations - Burning sensation exists all over the body, ameliorated by anything cold or cold applications.

Skin - Sickly, yellow skin was marked.

Throat - Dryness of throat.

Vertigo - Giddiness, worse after urination. **COMMENTS** - Dr. Ghose reports the following case: Babu Satish Roy fell a victim of diabetes mellitus and suffered from this disease for two years.

November 12, 1928. Ghose was called in to see the patient this day in the morning. The following symptoms were present: Gloomy, morose and fretful. Lost weight steadily.

Passed large quantities of urine every now and then which exhausted him greatly. Urine was examined and the tests show that there was sugar in the urine, quantity being 20 grains per ounce. Great thirst was present. Burning sensation was present all over the body. Dryness of mouth and throat was present. Ghose prescribed *Cephalandra indica* 1x to be taken thrice daily.

Now 18, 1928. He saw the patient again this morning, and heard from him that he was faring much better than before. Passed urine not so often as before, burning sensation and thirst were considerably less than before; cheerfulness returned and he was feeling stronger than before.

Prescribed the same medicine in the same potency twice daily. Asked him to get his urine examined again.

Nov. 28, 1928. Ghose saw him this morning, The urine examination report indicated that sugar had lessened, quantity being 4

grains per ounce. Burning sensation and thirst practically disappeared. The same prescription was repeated.

Dec. 10, 1928. The report of urine examination indicated that there was no sugar in the urine. In other respects the patient was all right. Ghose advised him to take occasional doses of *Cephalandra indica* in 3x potency.

The patient made an eventful recovery and no sugar could be found in his urine later on.

***CERATO

(Bach Flower Essence)

PHARMACY - cer-b. Cerato. *Ceratostigma willomottiana*. Fresh flowers are put in a bowl of water and allowed to sit in the sun for several hours. The water imbued with healing power is used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Cerato belongs to ***Bach's group of for those who suffer Uncertainty***, along with Scler-b., Gent-b., Gors-b., Horn-b. and Wld-o-b. Lack of assertiveness may exist, the person is rather retreating and allows others to lead. In regard to uncertain, unsteady gait or posture, especially if caused by reluctance and inhibition, Cer-b. will give physical assurance. In diseases of the immune system, when it does not know how to achieve health, Cer-b. may aid in reviving inner strength and help the organism decide on a strategy of defense.

Internal agony, preoccupation with oneself, hampering self-observation and shyness are common (Mimul-b., Lar-b.). Speech problems arising from inner uncertainty. Useful during language development when inner certainty needs to be improved.

Further, it could assist in developmental disorders by helping the mind gain in certainty and enhancing learning potential (Ch-bd-b.). In other distortions of expres-

sion of personality, fixed ideas and irrational anxieties, inappropriate laughing and immature behavior.

In mental illness, this remedy can be of service in gender identity disorders, anxiety disorders, delusions, elimination disorders and sexual disorders (Cher-p-b. for the last two), or whenever there is an underlying uncertainty of consciousness expression.

MIND - Lack of self-esteem and easily stimulated feelings of inferiority. One is impressed by others' decisive demeanor, wants to measure up, wishes for recognition and approval by others. Continued doubting, uncertainty and lack of decisiveness and self-assurance.

Relies heavily on the advice of others, often admiring their decisive move through life and feeling less adequate themselves. Overly impressed with outward shows and trends, people in charge of themselves and the

situation, while they feel hampered within, often blaming themselves for this uncomfortable state.

Mistrust in one's capacity to judge correctly and make the appropriate decision. Dependent personality disorder, addresses the excessive dependence on the approval and advice of others (Cent-b.).

Anxiety disorders. Delusions. For those lost in their own reality.

REFERENCES Bach.

***CEREUS BONPLANDII

PHARMACY - cere-b. Cereus bonplandii. A variety of Cactus grandifloras. N. O. Cactaceae. Tincture of stems. The fresh green stems are pounded to a pulp and macerated in two parts by weight of alcohol.

Historical dose: Tincture and all potencies.

CLINICAL - **Eczema.** Emaciation. Eyes, neuralgia. **Heart, disorders.** Insanity. Kidney, disorders. Neuralgia.

HOMEOPATHIC - Cereus bonplandii is a variety of Cactus grandifloras. The principal symptoms of Cere-b. are in connection with the heart (Cact.).

Cere-b. was proved by John H. Fitch in substantial doses. The prover lost 7.5 pounds in weight. He felt weighed down by an

incubus. When mental symptoms subsided, bodily symptoms increased and vice versa. Could not bear contact of clothes, felt better on undressing.

Fitch who regarded Cere-b. as an **“anti- psoric of remarkable power”** cured with it a case of eczema of both hands extending up to elbows. Deposits in urine. Dropsy of cardiac and kidney origin. Left intercostal neuralgia. Anterior crural neuralgia.

Fitch cured two cases of insanity, one in a young woman, gloomy, restless inclined to curse, swear and throw things at persons, if resisted. The other case was in a married woman who had spiritual delusions that she had committed the unpardonable sin, etc. This came on originally after confinement.

Marked symptoms included a desire to be at work, doing something useful. Pains through globe of eyes and orbit. Pain through heart in left great pectoral muscle, left side of chest. Expanding sensation in chest followed by sudden collapse. The effect on the nervous system passed off in four or five days.

Pains have a tendency to spread to other parts. Most appear on left side. **“Itching in right popliteal space”** lasted eight or nine years after the proving. “Itching with roughness of the skin like eczema above left knee anteriorly.” “Itching with eruption like herpes below left scapula remained permanent.”

MIND - Gloomy and restless. Great desire to work and to be doing something useful. Inclination to curse and swear (Anae., Nit- ac.). Inclination to throw things (Staph.) at persons if resisted. Loathing of life before menses. Delusion is under a powerful influence. Mistakes in time. Praying.

Chest - Pain in chest through heart with pain running toward spleen. Pain in left pectoral muscle and cartilages of left lower ribs. Difficult, sighing respiration, as from some compression of chest.

Head - Occipital headache and pain through the globe of the eyes and orbits (Cedr., Onos.). Pain across the brain from left to right. Pain along right malar bone running to temple.

Heart - Convulsive pains at the heart, feels as if transfixed. Hypertrophy of heart. Sensation of a great weight on heart and pricking pain.

Limbs - Pain in neck, back, shoulders, down arms, hands and fingers. Pain in knees and joints of lower limbs.

Modalities - Better undressing. Worse at night. Worse from pressure of clothing.

Skin - Itching of skin (Dolich., Sulph.).

COMMENTS - Symptoms from the proving including a miserable feeling on retiring. Throws himself on bed without undressing. Great yawning fit. Feels not pleasant. Feels half sick. Very dull in the morning. Feels very badly, has an ill-defined bad feeling in the evening and at night. Easily chilled in a room, better on disrobing for bed.

Alternations of symptoms of mind and bodily pains. When pains of the body are noticed, symptoms affecting the mind are suspended. The most prominent symptoms are the catarrhal and gastric ones, while those affecting the chest, heart, eyes, brain and nerves are more slowly developed and are the ones that persist.

Remarkable anti-psoric. Some skin symptoms developed by it persisted off and on for year. Itching of the right popliteal space. Itching with roughness of the skin like eczema, above the left knee anteriorly. Itching with an eruption resembling herpes zoster below the left scapula. Sleeplessness.

The provings point in the direction of kidney troubles and deposits in the urine. Dropsy of heart and kidney origin. Intercostal neuralgia, worse on left side. Anterior crural neuralgia. Rheumatism. Eczema of both hands, extending to elbows. Albuminuria with great edema.

RELATIONS - **Compare:** (1) Cact., Spig., Kalm. (2) Cere-s. - very irritable with tendency to swear, wild anger and low morals. Disturbance in speech in writing leaves off the last syllable. Paralyzed feeling. Pains in heart and dwindling of sexual organs. Emissions, followed by pain in testicles.

REFERENCES - Anshutz. Boericke. Clarke

***CEREUS SERPENTINUS

PHARMACY - cere-s. Cereus seipentinus. N. O. Cactaceae. Tincture of stems. **Historical dose:** Tincture and all potencies.

CLINICAL - Anger, fits. Bedwetting. Heart, pains. Impotency. Nosebleed.

HOMEOPATHIC - J. H. Fitch proved Cer-s., as well as Cere-b. Kunze also proved Cere-s. The heart was less prominently affected by Cere-s. than by the other cacti, but pains in head and a paralyzed feeling were experienced.

Paralyzed feeling. Pains in heart. A voluptuous feeling, dwindling of sexual organs. Impotency. Emissions, followed by pain in testicles. Worse on exposure to cold, to which there is great sensitiveness.

MIND - Prominent mental irritations. Very irritable with tendency to swear. Wild anger and low morals. Disturbance in speech, leaves off the last syllable. Mistakes in writing.

RELATIONS - Compare: (1) Cact., Cere-b., Con. (2) Psor. - sensitiveness to cold. (3) Anae. - inclined to swear.

REFERENCES - Boericke. Clarke.

***CERIUM OXALICUM

(Cerium Oxalate)

PHARMACY - cer-ox. Cerium oxalicum. Cerium oxalate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Cough, reflex, Dysmenorrhea. **Morning, sickness.** Seasickness. Vomiting.

HOMEOPATHIC - Originally introduced by Sir James Simpson as a remedy for the morning sickness of pregnancy and chronic cases of vomiting, which he supposed to be due to some eruption on the mucus membrane of the stomach, Cer-ox., has fairly maintained its reputation.

Hale found it of most use in cases of vomiting of half-digested food. It was mostly been given in lower triturations by homeopaths and in five to ten grain doses by allopaths. In the latter doses, it has produced decidedly narcotic effect in two cases.

Spasmodic coughs of nervous or reflex origin. Whooping cough with vomiting and hemorrhage. Spasmodic reflex vomiting. Seasickness. **Morning sickness. Vomiting of pregnancy** and of half-digested food. Dysmenorrhea in fleshy and robust women, scanty flow, pain coming before or at commencement with feeling of tenesmus, better when the flow is established (Lach.).

RELATIONS - Compare: (1) Ingluvin - made from gizzard of a fowl. Vomiting of pregnancy, gastric neurasthenia. Infantile vomiting and diarrhea. 3 x trituration. (2) Amyg., Lac-ac., Ip.

REFERENCES - Boericke. Clarke.

***CERVUS CAMPESTRIS

(Brazilian Deer)

PHARMACY - cerv. Cervus campestris. Brazilian deer. Cervus brasiliensis. Triturations of the hide covered with hair. **Historical dose:** Trituration and all potencies.

CLINICAL - Sciatica. Taste, altered. Tongue, painful.

HOMEOPATHIC - Mure proved this substance. One symptom appears to be peculiar: "Taste of doughy bread in the mouth." **Abdomen** - Pricking in navel when lying.

Needle-like pain intermitting in right groin in direction of joint after walking.

Eyes - Sensitive to light, especially sunlight. **Face** - Face mottled.

Limbs - Numbness of arm on which he lies of hand and legs. Frequent pain, now in left buttock now in thigh.

Mouth - Taste of doughy bread. Coppery taste with heat in throat when taking the drug.

Sleep - Drowsiness and yawning.

RELATIONS - Compare: (1) Carb-an.

REFERENCES - Boericke. Clarke.

***CESIUM MURIATICUM

(Cesium Chloride)

PHARMACY - ces-mur. Cesium muriaticum. Cesium chloride. Triturations. **Historical dose:** All potencies.

CLINICAL - Backaches. Cancer, pains. Colic. Diarrhea. Headaches. Languor.

HOMEOPATHIC - Cesium has pain in the lumbar region and testicles. Headaches with a darting pain through the temples. Cancer, pains. Diarrhea and colic. Languor.

RELATIONS - Compare: (1) Ars., Hydr-s.

REFERENCES - Boericke.

***CETRARIA ISLANDICA

(Iceland Moss)

PHARMACY-cetr. Cetraria isl ndica. Iceland moss. Lichen islandicus. N. O. Lichenes. Iceland. Decoction and tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Atrophy. Catarrh. Diarrhea. Emaciation. Lungs, weak. Scrofulous. Scurvy. Tuberculosis. Ulcers. Weakness.

HERBAL - The well-known Iceland Moss, growing in large quantities in Alaska, recommended to the Old School since 1674 by Olaf Borrichins, Hiaren and others. Cetr. has been used in decoction and as a food and has been found curative empirically. It is used as a decoction and boiled with milk as an expectorant and nutrient in bronchorrhea, catarrh, etc.

HOMEOPATHIC - Indications include a bitter, slimy taste, full and satisfied feeling after eating a little, and habitual vomiting. Weak lungs. Frequent catarrhs. Tickling and spasmodic feeling in windpipe on waking. Copious expectoration. Fetid taste and smell causing nausea.

All kinds of bloody expectoration. Emaciated people. Chronic diarrhea with bloody expectoration. Chronic diarrhea of tuberculosis patients. Scrofulous emaciation. Atrophy, depending on suppurative processes.

RELATIONS - Compare: (1) Stict., lod.

REFERENCES - Boericke.

***CHAMOMILLA VULGARIS

(German Chamomile)

PHARMACY - cham. Chamomilla vulgaris. German chamomile. Chamomilla matricaria. Matricaria chamomilla. N. O. Composite. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Acidity. Anger. Asthma. Belch- ings. Blepharitis. Blepharospasm. Catarrh. Coffee, habit. **Coffee, abuse. Colic.** Convulsions. Coughs. Cramps. Croup. **Dentition.** Diarrhea. **Dysmenorrhea.** Dyspepsia. **Ear-aches.** Eye, disorders. Erysipelas. Excitement. Excoriation. Fainting. Fevers. **Flatulence.** Gout. Headaches. Hernia. Hysterical. Influenza. Jaundice. Lienteria. **Labor, disorders,** after-pains. Mastitis. **Menstruation, disordered.** Menstrual, cramps. Miliary, eruption. Milk-fever. Miscarriage. Mumps. Neuralgias. Ophthalmia. **Otitis, media. Pains, severe.** Parotiditis. Perichondritis. Peritonitis. Rheumatism. Salivation. Sciatic, pain. **Screaming.** Sensitiveness. Spasms. Speech disorders. **Toothache.** Ulcers. Uterus, diseases. Whooping cough.

HERBAL - "Chamomile tea" has removed the night-sweats of tuberculosis.

HOMEOPATHIC - Cham, is particularly suited to diseases of children, pregnant women and nurses. Especially of frequent employment in diseases of children, where peevishness, restlessness and colic give the needful indications. Mental and physical symptoms appear in paroxysms, **irritability,** restlessness, **colic,** cough etc. Cham, is for highly emotional, **temperamental and oversensitive** persons. The senses are too acute. Sensitive, **irritable.** Cannot bear to be looked at. Cannot be civil to doctor. Impatient. Peevish. **Very cross, cannot be appeased.** Frantic irritability and snappish. Hard to please.

Hypersensitive to pain (Nux-v.), intolerance of pain, agony with pain. Pain out of proportion with problem. **Pains unendurable,** associated with numbness. **Pain is intolerable,** becomes mad with pain or magnifies her pains and prostrated with pain.

Tosses about. Cries out from pain or walks the floor. Worse thinking of their pain. **Demands instant relief from suffering,** would rather die than suffer. Wandering pains (Puls.). Hot sweat with pains, thirsty.

Ill-humor, anger with rage, violence and heat. **Bad temper and irritable** (Nux-v. is malicious). **Ill effects of anger. Colic,** diarrhea, jaundice, twitching and convulsions after anger. Biliousness preceded by anger.

Repeated spasms of face, arms, legs etc. Cramps with bilious vomiting of muscles. Convulsion during dentition. During convulsions body becomes stiff, eyes roll about, face becomes wry, thumbs turn inwards.

Teething pains. Toothache when entering a warm room or from drinking anything warm. Fetor of breath and of discharges in general. Gastralgia, food eaten lies like a load on stomach, hypochondria distended. Tongue yellowish white. Bitter taste. Colic, better by drinking coffee. Hypersensitive **from abuse of coffee** and narcotics. Thirsty, hot.

Otitis media with severe ear pains. Very **sensitive to the wind, can cause earaches** with fever and anger. Worse drafts and wind, fear of the wind. Stopped up colds with dripping of hot water from nose. Night-sweats. Hot sweat on head. **One cheek red, the other pale.** Face sweats after eating or drinking.

Child cries and must be carried about to be quieted. Relieved by being carried fast, walking while carrying.

Worse from 9 p.m. to midnight. Worse stuffy rooms, warm (Puls.). Worse excitement (Coff.). Thirsty for cold drinks. Nightmares.

MIND - Irritable, fussy, whining and moaning. Capricious. Child wants many things which he then refuses. **Discontented and dissatisfied, demanding.** They do not know what they want. **Children want to be carried and held.** Child can only be quieted when carried about and petted constantly.

Extremely sensitive to every type of pain, always complaining. **Sensitive to music, noise.** Aversion to talking. Can't bear anyone near him. **Violent from the pains.** Aversion to being touched. Kicks when carried and becomes stiff. **Oversensitive after coffee.**

Despair with the pains.

Obstinate. Fretful, peevish, a frenzy of irritability and sensitivity. Fussy (Nux-v.). Ugly behavior, **cross and uncivil, quarrelsome.** Spiteful, snappish. Whining restlessness. Fidgety, hyper. Hasty, hurried. Abrupt. Sensitive to reprimands. Sensitive nerves.

Complaints from anger and vexation. Anger can bring out Cham, state (Staph., Coloc.). Mistrust. Faint after intense emotions or intense pain. Averse to being spoken to, touched, or being looked at. Omits words while writing and speaking.

Excitement and confusion. Fear of wind. Anxiety with ineffectual urging to urinate, without much urine in bladder. Impatience, everything goes too slowly. Impatient, intolerant of being interrupted. **Weeping during sleep.** Cross and sleepless. Restlessness, driving out of bed.

Melancholia, with constant moaning and muttering to herself, walks all the time with downcast eyes. Women become suddenly **capricious, quarrelsome, obstinate,** before menses. No consideration for feelings of others and will enter into a dispute or quarrel with them regardless.

Peevishness about everything, with dyspnea. Dwells on past disagreeable occurrences. Moaning on account of a very trifling offence, which has happened a long time ago. Indifference to pleasure. **Irritability when spoken to during menses.** Tries to get away from her friends if they seek to comfort her. Dissatisfaction with everything she undertakes. Irresolution. Thoughts of dying.

Abdomen - Distended abdomen. **Spells of colic** from time to time. **Flatulent colic** after anger, with red cheeks and hot perspiration. Pain from side to side or going upward after anger. **Colic in infants, children. Colic during dentition.** Gripping in region of navel and pain in small of back. Cutting pains, wind colic, worse night, urinating, better warm applications. As if bowels were knotted and abdomen empty. Acute duodenitis.

Back - Insupportable pain in loins and hips. Lumbago. Stiffness of neck muscles. Severe pains in loins and hips, opposite

Chamomilla vulgaris to that on which patient is lying.

Breasts - Breasts sore, nipples inflamed and very tender. Infants' breasts tender. Cramps, when child nurses. Milk is spoiled, baby won't suck.

Causations - Ill effects of bad temper. **Abuse of coffee** or narcotics. **Dentition.**

Constitutions - Suited to diseases of pregnant women, nurses and little children. Irritable, colicky babies, teething problems, earaches. Hypersensitive to pain. Arthritic diathesis. Neuralgic or gouty rheumatic diathesis.

Ears - **Sensitive to cold wind** or noise about ears. **Earache with soreness, swelling and heat, driving patient frantic.** Earache, sticking, better warmth. Stitching pain. **Otitis media with fever and pain.** Ears feel stopped up. **Ears sensitive to touch and painful.** Ringing after hemorrhages. Roaring in the ears as of rushing water. Music is insupportable. As if hot water was running out. Hear voices of absent persons, at night.

Eyes - Lids smart. Yellow conjunctiva. Spasmodic closing of lids. Bloody water from the eyes of newborn babies.

Face - Swelling or **redness of the cheek.** Red cheeks and hot sweat during colic. **One cheek red and hot, other pale and cold.** Face pale, sunken, distorted by pain. Neuralgia of the face with hot sweat about the head, pain extending into ear. Jerking of tongue and facial muscles. Jaws feel tired. Stitches in jaw extending to inner ear and teeth. Sweats after eating or drinking.

Female - Irregular labor-like pains, going up and down inner thighs, with profuse discharge of clotted, dark blood. **Intolerable labor pains, sends the doctors and nurse away,** then calls again. Lochia too profuse and bloody or suppressed. Puerperal convulsions after anger. Distressing after pains. Menorrhagia with black clots, profuse with coldness of limbs and much thirst. **Menstrual cramps with a lot of pain and irritability.** Dysmenorrhea from anger or emotions. Membranous dysmenorrhea, specially at puberty. Yellow, and acrid leucorrhea. Oozing of dark, foul blood with occasional gush of bright, red blood.

Head - Throbbing headache in one half of the brain, inclination to bend head backwards. As if hair stood on end with **shivering. Headaches, worse from coffee.** Hot, clammy sweat on forehead and scalp during sleep, wetting the hair. Headache of delicate, over-fatigued women. Headache, better when mind is engaged, worse morning and 9 p.m.

Kidneys - Urine hot and yellowish. Stitches in urethra.

Limbs - Numbness and stiffness of hands, when grasping objects. Palms dry. Violent rheumatic pains drive him out of bed at night, compelled to walk about. Burning of soles at night (Sulph.). Feet as if paralyzed, cannot step on them, at night. Feel as if she is walking on the ends of bones of her legs. Cramps in calves. Ankles give way in the afternoon.

Liver - Hepatic colic.

Lungs - Spells of dry tickling cough. Hoarseness, hawking, rawness of larynx. Asthma from anger, worse dry weather, better bending head back. Irritable, dry, tickling cough, suffocative tightness of chest with bitter expectoration in daytime. Rattling of mucus in child's chest. Anger provokes a cough in children. Whooping cough, suffocating, then vomits. Cough worse 9 p.m. to 12 p.m. during sleep, does not wake up the child.

Modalities - **Better from being carried.** Better warm wet weather. Better heat. Better sweating. Better cold applications. Walking improves backache and rheumatic pains. **Worse from anger.** Worse touch, being looked at. Worse lying in bed. Worse covering. Worse belchings. **Worse during dentition. Worse from coffee.** Worse narcotics, alcohol, and stimulants. Worse noise, music. Worse heat, warm food. **Worse at night.** Worse cold air, damp air. **Worse from cold, wind.** Great dread of wind.

Mouth - Toothache, worse after warm drinks, coffee, at night. **Worse during dentition.** Toothache worse during pregnancy. Toothache drives to distraction. Teeth feel elongated. **Distress of teething children** (Calc-p., Ter.). Jerking in tongue. Thick.

white, yellow fur on tongue. Nightly salivation of sweetish taste. Painful wisdom teeth. Bitter taste. Bad. sour breath.

Nose - Extremely sensitive to all smells. Crawling in nose, until eyes water. Hot coryza, with obstruction of nose, inability to sleep. Skin wrinkled.

Rectum - Diarrhea during dentition, from cold, or anger. Stools, hot, green, watery, fetid, slimy with colic. Stools, **sour, slimy, hacked.** Stools, **yellow-green or lienteric.** Stools, smelling like bad eggs. **Stools are grass green** (Mag-c.). Stools, like chopped white and yellow mucus like chopped eggs and spinach. Anus swollen and pouting. Hemorrhoids with painful fissures.

Skin - Rash of infants and of nursing mothers. Jaundice after anger. Burning, smarting in ulcers, at night. Skin unhealthy, every injury suppurates.

Sleep - Drowsy, but cannot sleep. **Sleeplessness due to pain, teething, colic, earinfections.** Sleepless from abuse of stimulants, coffee, narcotics. Moaning, weeping and wailing during sleep. Anxious, frightened dreams with half-open eyes. Pain disturbs sleep. Sleeps with thighs separated.

Stomach - Belchings like bad eggs, foul. Acid rising, regurgitation of food. **Colic in infants, children.** Pressive pains, as from a stone (Bry., Abies-n.). Violent retching before vomiting. Severe, bitter, bilious vomiting with griping. Vomiting after morphine. Sweats after eating or drinking. Thirst, for cold water, sour drinks. Aversion to coffee, warm drinks. Nausea after coffee. Tongue yellow, tastes bitter.

Temperature - Chilly, yet gets easily overheated, hence takes cold. Coldness of one part with heat of another, worse uncovering. Alternate chill and heat. Feverish from suppressed discharges. Sweat on head. Thirst during fever.

Throat - Inability to swallow solid food when lying. Parotid and submaxillary glands swollen. Constriction and pain as from a plug.

COMMENTS - Kent differentiated Cham, from Puls, by noting that you want to hug Puls., and spank Cham. For any childhood disease with Cham, picture.

Teste remarked on this that Cham, antidotes not only Coff., but also Caust. and most of the members of the Caust. group. Cham, may be a remedy in croup or croupy cough, if mental symptoms and time conditions correspond.

Earaches, teething and colic. Wisdom teeth in adults. Toothache worse drinking something warm, at night. Ear infections, ear is hypersensitive to the least touch. Fevers. Whooping cough. Dry, hacking cough.

Unbearable pains, drive to despair, the patient insists that the doctor shall cure them at once. Prostrating debility as soon as the pains begin. Hypersensitive with great irritability and crossness.

Sleeplessness due to teething, colic, ear infections. Insomnia of children, start in sleep, twitching of hands and face, hot sweat of head and face, one cheek red. Puts feet out of bed, soles burn. Aggravation from heat, worse by warm food. Nocturnal salivation.

Rheumatism compelling to get up and walk about, thirsty, hot, almost beside himself. Muscles of face and hands twitch. Intertrigo of children. Inflammation of the parotid glands. Infantile jaundice, neonatal jaundice, with sleeplessness, crying and screaming since birth.

Diarrhea is hot, slimy, watery, yellowbrown or yellowish-green stool like chopped egg. Stools are grass green (Mag-c.). Diarrhea with colic. Offensive, excoriation around anus. Wind colic. Worse belching of wind.

Threatened miscarriage caused by anger. The pain of labor or at menses is centered in the womb, bearing down, painful contractions, unbearable, they extend down thighs and are felt in the back. Leucorrhoea is acrid, watery, corrosive, smarting. Menorrhagia dark clots, fetid, temper always worse before and during flow.

Guernsey noted that "there is in Chamomilla a little thread of symptoms and nearly always found running through it. This is a spiteful, sudden or uncivil irritability." In spite of its obvious analogies with Puls. Ip., Aeon, and Con., it has marked and exclusive characteristics of its own.

"It increases the general nervous sensibility and stimulates the cerebral functions: a property that seems to give rise secondarily to the various organic alterations that Cham, is capable of producing and for which it has so often been given with success."

Hahnemann said, "It appears to diminish in a great degree, the excessive sensitiveness to pain and the violent derangements which pain occasions in the moral condition of the patient. This is the reason why it appeases a multitude of sufferings to which coffee drinkers and persons who have been treated with narcotic palliatives are subject. And this is likewise the reason why it ought not to be given to those who bear pain patiently and with resignation. I mention this rule here, for it is of very great importance."

W. H. Baker (Rochester) recorded such a case. A chubby boy, light hair, blue eyes has a croupy cough. Aeon, and Spong, at first controlled it, but afterwards failed.

The cough became a loose, rattling, suffocating cough, the mucus came up in the throat and nearly suffocated him. Paroxysms at midnight. During the day he was hoarse, ever impatient, nothing seemed to suit him. Cham. 100,000c cured, improvement setting in within two hours.

Dr. Anderson of Dover, Delaware, related the case of a man who had to change three to five times every night due to excessive sweating. A cup of weak chamomile tea was ordered every night. The second night there was slight diminution, the third he only had to change twice, the fourth once and after that there was no more trouble.

The plant in this case was probably Anthémis cotula, or wild chamomile of the U.S. Dr. Anderson learned its use from "an old woman." But the sweats of Cham, are also very marked.

Nash mentioned a characteristic in the association of numbness or alternation of it with pains. He related the case of a man who had very painful rheumatism of left shoulder and who got no better from the usual remedies, but was speedily cured by Cham., the indication being "Numbness with the pains." Nash differentiated the restlessness of Aeon., Ars. from that of Cham, by

the absence in the case of the last of fear of death. The Cham, patient "would rather die than suffer so."

RELATIONS - Cham, antidotes: Coffee, and the narcotics. Especially opium as it corresponds to its secondary effects, useful in nerve storms when morphine is discontinued. **Antidotes: Camph., Nux-v., Puls. It is antidoted by: Aeon.,** Alum., Borax, Camph., Cocc., Coff., Coloc., Coni., Ign., Nux-v., and especially Puls. Puls, and Cham, antidote one another and precede or follow each other well. **Compare:** (1) Cina, Calc-p., Aeon., Puls., Coff., Bell., Staph., Ign., Cypr., Anthémis. (2) in dentition, Bell., Borax, Calc., Terebe. (3) in oversensitiveness, Aeon., Coff., Hep., Hyos., Ign. (4) toothache, Merc. Merc. has hard, pale swelling of face, Cham, red and hot), sour breath. (5) in coffee drinkers, Nux-v. Cham, has bad temper during menses, Nux-v. has malicious temper. (6) toothache worse in bed at night: worse from warmth, Sulph., Merc., Puls. (7) indignation and its effects, Coloc., Staph., Nux-v. (8) Bry., aversion to be looked at, Ant-c., Chin., Stram. (9) better by moving about, Rhus-t., Ferr., Verat. has maddening pains compelling to walk about, but there is none of the feverishness and excitement of Cham. (10) Rubus villosus, Blackberry - diarrhea of infancy, stools watery and clay colored. **Complementary:** Bell, in diseases of children, Cham, acts more on nerves of abdomen, Bell, more on cranial nerves.

***CHAPARRO AMARGOSO

(Goat-bush)

PHARMACY - chap. Chaparro amargoso. Goatbush. Chaparro bush. Bishirandi amargoso. Castila nicholsoni. Castella texana. N. O. Simarubaceae. Fluid extract from bark of stem. A small, thorny bush, three to five feet high with a small, saffron-colored flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Dysentery.

HERBAL - Dr. M. J. Bleim of San Antonio, Texas, communicated to the North American Journal of Homeopathy of March, 1899, an article in praise of this Mexican plant. Chaparro is prized by Mexican doctors as a tonic and anti-periodic. Chronic diarrhea. Dysentery.

Chaparro amargoso Stools with little pain, but with much mucus. Tenderness over liver.

COMMENTS - Dr. Bleim reported three cases he cured with Chap. The first, Mr. A. of New Orleans, was eighteen months ill with dysentery and was sent to Dr. Bleim under suspicion of tuberculosis.

Before seeing the doctor, he met a stockman who said he could cure him, having been himself cured with the remedy after a like experience. Chap, was the remedy, a teaspoonful of the extract three times a day. After three doses there was considerable improvement. He took no more medicine and had no further trouble. A boy, age 12, had been treated for several months by Dr. Bleim with indifferent results. Chap, was given, half a teaspoonful three times a day. In forty-eight hours the discharge ceased and the bowels became normal. The third case was an acute case that had improved rapidly under Merc-c. and colon-douches, but came to a standstill at a certain point: three or four stools a day, more or less pain, no appetite, very weak. Chap, was ordered, at a teaspoonful dose three times a day. There was immediate general improvement, in forty-eight hours the bowels were normal, and within a few weeks strength was entirely restored. Dr. R. T. Knox of Gonzales, noted his own case. He had dysentery for three years. Nothing gave more than temporary relief. Discharge after discharge of quantities of bloody matter, accompanied with much pain. Ravenously hungry all the time in a land of plenty. Under the advice of a farmer he was persuaded to drink freely of a tea made of the shrub before each meal. The infusion had the appearance of sparkling beer and was intensely bitter. In three days there was great improvement. In two weeks the bowels were under control, stools consistent, partly molded, sleep good. Recovery was perfect.

*****CHAULMOOGRA** (Taraktogenos) **PHARMACY** - chaul. Chaulmoogra. Taraktogenos. Gynocardia odorata. Hydnocarpus kurzii. Oleum chaulmoograe, hydnocarpi. Tincture of the seeds. **Historical dose:** Tincture and all potencies.

HERBAL - The Chaulmoogra oil and its derivatives are to a certain extent effective in the treatment of **leprosy**, especially in early cases.

REFERENCES - Boericke.

*****CHEIRANTHUS CHEIRI**

(Common Wallflower)

PHARMACY - cheir. Cheiranthus cheiri. Common wallflower. N. O. Cruciferae. A tincture is used made from a single dark-flowered plant. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Deafness. Wisdom-teeth.

HOMEOPATHIC - Our knowledge of the medicinal use of Cheir. is due to Dr. Cooper. He considered as a keynote of the remedy, **"Nose stopped at night from irritation of cutting wisdom teeth."** Cutting wisdom teeth.

COMMENTS - The cases Cooper cured with it included the case of a young man, who had deafness and otorrhea on his left side while cutting three wisdom teeth.

Cured by two doses of the tincture given at six weeks intervals.

Cooper's second case concerned a girl, 22, who became deaf after measles, cutting wisdom teeth. She was greatly improved. His third case concerned a girl, 20, who was used to taking purgative pills. She had pain in her lower back, jaundiced appearance, bilious feeling, sickness of stomach. Cheir. removed the symptoms at once.

Anshutz said "No proving of this remedy has come under my notice, yet I considered the following case worth reporting:

T. T., age twenty, a clerk, admission date 30th April. 1892, never heard well on the left side, but particularly deaf the last month and deafness increases: watch, hearing contact only. History of much earache in childhood, left ear discharge does run out. Wisdom teeth, left upper and right, lower and upper, breaking through.

"Gave Cheiranthus cheiri. 28th May, hears very much better in left ear. No medicine. 11th June, continues improving gradually in left ear. 25th June, continues to hear voices very fairly on the left side, but no improvement since last time. Gave Cheiranthus cheiri. 25th July, restoration of improving condition."

RELATIONS - Compare: (1) Armor., Sin-a., Brass., Raph. (2) wisdom teeth - Mag-c., Ferr-pic.

*****CHELIDONIUM MAJUS**

(Greater Celandine)

PHARMACY - chel. Chelidonium majus. Greater celandine. N. O. Papaveraceae. Cheli- doniae. Tincture of entire fresh plant, at time of flowering. **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Arthritis. Backaches. **Bilious**. Bronchitis. Cancer. Chest, disorders. Chorea. Colic. Constipation. Coughs. Diabetes mellitus. Diarrhea. Dyspepsia. Eczema. **Gallbladder,pains**. Gallstones. **Gonorrhea**. **Headaches**. Hemoptysis. Hemor- **rhoids**. **Hepatitis**. **Hydrocele**. Hypoglycemia. Indigestion. Influenza. Intercostal, neuralgia. **Jaundice**. Lachrymal, fistula. Laryngismus. Leucorrhea. **Liver, disorders**. **Liver, pains**. Lung disorders. Morning, sickness. Nausea. Neonatal, jaundice. Nephritis. Neuralgias. Nosebleed. Pleurodynia. **Pneumonia**. Rheumatism. Scald-head. Stiff-neck. Taste, altered, Tumors. Vertigo. Vomiting. Warts. Whooping, cough. Worms. Yawning.

HERBAL - Chelidonium is a poppy and therefore allied to Op. and Sang, with which it has many features in common. Closely allied to Lyc., when Lyc. seems indicated but fails to act, Chel. should be considered.

The juice of Chel. causes vesication when applied to the skin. The juice is yellow, like bile. Probably based on the "signature" of the bile-like juice, it was recommended as a remedy for jaundice by Galen and Dioscorides. Given on the broad ground of organ-therapy in tinctures, material or semi-material doses, it has achieved notable results in cases of **liver disease**. An extract used locally in cancer cases has gained a reputation in the old school.

Chelidonium works very well in tincture for a weak liver with low blood sugar, morning fatigue, and a craving for sweets (also Card-m.).

HOMEOPATHIC - Chelidonium acts upon the liver, spleen, kidneys, portal system, right side of abdomen and right lower lung. Predominantly a **right sided remedy** (Sang., Lyc.), with right infrascapular pain and the action on the liver. Also an action on the cecum, right ovary and on the base of the right lung.

A major **liver remedy**, covering many of the direct reflex symptoms of diseased conditions of that organ. Keynote a continued, bruised, **sharp, aching pain at the inferior angle of the right scapula**. Jaundice. **Yellowness and bilious** disturbances. Bilious complications during pregnancy, lung disorders. Paralytic drawing and lameness in single parts.

Neuralgia over the right eye and in right malar bone. Headaches over the right eye, **"bilious headaches,"** with a bad taste in the mouth and a yellow tongue, irritable, may vomit bile. Arthritis associated with liver problems.

Great lethargy and indisposition to make any effort. Horror of motion. Feels tired on little exertion. **Serous effusions**. **Hydrocele**. Stitching pains. Heavy, stiff, sore, paralyzed, dislocated or broken feeling. Numbness. Ailments brought on or renewed by change of weather.

MIND - Despondent. Restless, hence agile. Anxiety as if she had committed a crime. Sudden anxiety, with strong palpitations. Fear of going crazy. Fear he has ruined his health. Fear of her condition being observed. Delusions that he has an incurable disease. Restlessness, constantly moves from place to place.

Bilious temperament. Forceful, very obstinate. **Cross, and irritable**. Domineering and sceptical, not impressed by authority. **Irritable, upset easily**. Desires to beat children. Vexed about every trifle and violent attacks of passionate outbursts of temper. Loses control, when she gets out of bed, couldn't explain why.

Feels like crying with ill humor or without any reason. Thinks she must die. Sudden excitement with confusion of intellect at night. Talked incoherently during fit of anxiety. Inclination to weep. Weeping when carried.

Confusion at night on waking. Stupid feeling on looking intently. Aversion to mental exertion or conversation. Great absence of mind, forgets what she wants to do or has done. Imagines she can't think and will lose her reason. Forgetful of shaving or dressing. Unconsciousness, better rubbing soles of feet.

Abdomen - Sensation of fullness. Abdominal pains better wine. Rumbling followed by diarrhea. Fatty liver with icterus. Epigastric region tender. Constriction across abdomen, as if by a string. Distention. Ascites with yellow palms. Burning pain in bowels. Sensation as if an animal wriggling in epigastrium. Navel drawn in during colic. **Severe pain around umbilical region**. Painful pressure over umbilicus. Numbness in muscles of hepatic region. Pinching and cutting pains in bowels, with rumbling and gurgling. Pain and rumbling in cecal region. Pot-belly, with worms. Swelling and ulceration of inguinal glands.

Back - Aching soreness in all vertebrae, worse motion and pressure on spinous processes. Burning pain in back. **Fixed pain under inner and lower angle of the right scapula**, which may extend into chest and stomach, causing nausea or vomiting. **Pain beneath right scapula, worse inspiration and motion of right arm**. Pain from neck to temple (right). Pressing pain in vertebrae, worse bending backwards and forwards. Occiput heavy with pain in right side of back. Pain in nape. Stiffness in back between shoulders. Stiff neck, head drawn to left. As if a string around the neck. Cervico-brachial neuralgia. Pain at lower angle of left scapula. Shivering running down back.

Bladder - Frequent urging. Catarrh of bladder, with sexual excitation. Discharge of pus from urethra. Strangury, lasting all day, with scanty urination. Dragging pain in bladder, with spasmodic trembling pains in inguinal region. Stabbing pain in region of bladder. Cutting pain in urethra on urinating and continuing after

urinating. Burning pain in urethra on urinating.

Chest - Skin yellow on throat and chest. Pain in right side of chest and shoulder with difficult respiration. Constriction of chest. Oppression on inspiration after dinner. As if a tight girdle around chest, hindering breathing. Deep seated pain or nail sensation, deep in right chest. Pain in lower right ribs, worse bending towards left side. Stitches under left clavicle and in region of right breast. Pains in right side of chest and shoulder, with difficult respiration. Intercostal neuralgia.

Constitutions - Bilious constitutions.

Cough - Short, exhausting. Violent cough with pain behind sternum, at night. Cough with constant tickling in larynx. Cough with painful contraction of abdomen. Racking cough as in tuberculosis, with copious mucus expectoration. Cough, as from dust with much rattling, but little expectoration or it flies from mouth. Whooping cough, spasmodic cough, loose, rattling, expectoration difficult.

Ears - Coldness or burning of ears. One ear cold, the other warm. Itching in right concha. Hearing lost, during cough. Deafness with liver disorders. Neuralgic pains in and around ears. Long-continued stitch in right external ear, passing off gradually. Sticking in ears. Sensation in both the ears, as if wind were rushing out or something crawling out. Loss of hearing during cough. Ears feel stopped. Loud distant roaring. Sounds as from a distant storm of wind. Humming. Ringing in left ear while walking.

Eyes - Aching in eyeballs, worse moving eyes. **Dirty yellow color of whites.** Burning and shooting pain in eyes. Burning in lids. Soreness of eyes, worse looking up. Tears

Chelidonium majus fairly gush out. Orbits as if bruised on moving eyes. Orbital neuralgia of right eye with profuse lachrymation, pupils contracted, relieved by pressure. Lachrymation, when looking intently, with pain in eyes or from tickling in larynx. Mucus in eyes. Could not open eyes with prosopalgia. Agglutination of lids in morning. Thick, yellow mucus discharge from eyes. Fistula lachrymalis. Hordeolum. Photophobia. Lens uniformly grey.

Face - Dark red or sallow, sunken. Face red and swollen. Dry lips. Lips burning, dry, chapped, scabby. **Yellow face, worse nose and cheeks.** Itching of whole face and forehead. Wilted skin. Right cheekbone feels as if swollen with tearing pain. Flushes of heat. Nodular eruptions. Violent tearing pains. Acne. Red pimples on different parts of face. Inflamed pimples on chin and cheeks. Itching herpes, mostly on chin. Facial erysipelas. Lower jaw drops.

Female - Menses, too late and too profuse. Menses too long duration. Irregular menses, with profuse flow. Acrid leucorrhea. Leucorrhea, white, stains linen yellow. Burning in vagina, recurs at the same hour during day. Longing for unusual articles of food during pregnancy. Breast milk diminished.

Food - Loss of appetite, with disgust and nausea. Loss of appetite, with great emaciation. Nausea, better drinking milk. Itching better eating. Aversion to meat, coffee. Aversion to cheese, spinach. **Generally better after eating.** Hypoglycemia. **Generally better from hot drinks.** Desire for very hot drinks. Desire cheese, strange things during pregnancy. **Prefers hot food and drink.** Fond of vinegar or sour wine. Craves milk, piquant or hot food and drinks. Bitter taste when not eating or drinking. Cold drinks disagree. Thirstlessness.

Head - **Headache better after eating.** Headache extends backwards. Occiput feels heavy as lead, icy coldness of occiput from nape of neck. **Nausea and bilious vomiting with sick headaches.** Heavy, lethargic, drowsiness, very marked with general numbness. **Right-sided headaches**

down behind ears and shoulder blade. Neuralgia over right eye, right cheekbone and right ear with excessive lachrymation, preceded by pain in liver. Pressing headache. Pressure in brain, with burning over eyebrows. Outward pressing, in forehead. Cranium feels too small. Congestion to cerebellum. Falling out of hair. Scalp on crown painful. Severe itching on occiput. **Heart** - Angina pectoris. Violent palpitation with tightness in chest. Periodic palpitations. Lancinating pain in heart. Stitches in cardiac region, must breathe short, followed by strong palpitations and anxiety. Periodic palpitations. Beating of heart so strong that clothing is lifted from chest. Pulse slow, small and quick. Pulse full and hard.

Kidneys - Kidneys are sensitive to pressure, even of clothing. Spasmodic pain in right kidney and liver. Violent paroxysms of pain in kidneys, with intense headache, vertigo and syncope. Violent pain in direction of ureters, preceding passing of turbid urine. Urine copious. Profuse, foaming, yellow urine, dark turbid, like beer (Chen-a.). Urine stains the diaper dark yellow. Urine yellow as gold. Urine smells acid or ammoniacal. Urine has a resinous odour. Diabetes mellitus. Urine red, cloudy, with chalky sediment.

Limbs - Whole flesh sore to touch. Limbs feel paralyzed. Heavy feeling in lower limbs. Rheumatic pain in hips and thighs. Paresis of lower limbs with rigidity of muscles. Burning and stiffness in right knee, worse moving. Intolerable pains in heels, as if pinched by too narrow a shoe, worse right. Ankles stiff. Feels paralyzed. **One foot cold, other hot.** Pain in arms, shoulders, hands, fingertips. Icy coldness of fingertips, wrists sore, tearing in metacarpal bones. Edematous swelling of limbs. Edema around ankles and feet. Wandering pains in joints.

Liver - **Liver pains going backward.** Pains fixed at angle of right scapula. Liver enlarged, tender.

Hypoglycemia. **Jaundice due to hepatic and gallbladder obstruction.** Jaundice, sometimes with clear urine, tongue white, stools dark, offensive urine.

Gallbladder colic. Gallstones (Berb.). Pressive pain in region of liver. Dull throbbing pain in region of liver.

Lungs - Nightly attacks of asthma with sense of constriction in chest. Dyspnea, worse urinating. Very quick and short inspirations. Pressive pain on deep inspiration. Hemoptysis. Copious, mucus, in morning. Respiratory symptoms with liver symptoms. Bronchial pneumonia. **Bilious pneumonia.** Blood-streaked phlegm, or brownish-bloody sputum. **Right sided pneumonia.** Small lumps of mucus fly from mouth when coughing. In left lung soreness like a wound, by deep breathing, coughing and sneezing.

Male - Acne on genitals. Eczema rubrum on scrotum. Frequent erections, even during day. Pain in glans. Itching, creeping on scrotum and glans. Drawing pains in spermatic cords, testicles. **Hydrocele.** Redness, heat and swelling of scrotum. Painful swelling of right testicle. Gonorrhea and secondary syphilis, with ulcerated buboes.

Modalities - **Better after dinner, eating.**

Better lying on abdomen. Better pressure. Better bending backward. Better hot bath. **Better hot food.** Better milk. Worse from motion. Worse looking up. Worse cough. Worse touch. **Worse right side.** Worse change of weather. Worse northeast wind. Worse 4 a.m. and 4 p.m. Worse very early in morning.

Mouth - Burning pain in mouth. Mucus in mouth and tough mucus saliva. Salivation with nausea, giddiness. Bitter, pasty taste. Bad odor from mouth. Taste acid, insipid, metallic. Bitter water collects in mouth. Mucus flies from mouth when coughing. Oozing of blood from mucus membranes of mouth.

Nose - Flapping of ala nasi (Lyc.). Red. Obstruction with liver complaints. Tip of nose swollen and red. Dryness. Delusions of smell. Soreness of nostrils and flow of water from nose, with eruption like measles. Fluent coryza with sneezing. Thick blood in mucus in morning when blowing nose. Itching of nose and tip of nose.

Perspiration - Sweaty with aversion to uncover and without relief. Sweat during sleep, after midnight, from slight exertion. Sweats from slight exertion. Awakes in morning perspiring, after many unremembered dreams. Watery, sour-smelling sweat. Copious sweat, in evening.

Rectum - Constipation. Alternation of diarrhea and constipation. Chronic diarrhea with liver affection. Diarrhea without pain, without urging. Crawling and itching in rectum. Burning and itching of anus (Rat., Sulph.). Burning and cutting pain in rectum. Frequent discharge of flatus. Fermentation and sluggish bowels. Sensation as if anus were contracted, alternating with itching, during stool. Round worms.

Skin - Burning pain like nettles, preceding an eruption like measles. Dry heat of skin, itches, yellow. Wilted, wrinkled skin. Skin cool and dry. Skin cool and rough. Sallow, cold, **clammy. Jaundice. Yellow-grey color of skin.** Neonatal jaundice (Phos., Cham., Chin.). Itching as in jaundice. Painful red pimples and pustules. Itching, better eating. Old, spreading, offensive ulcers. Sallow, cold, clammy. Veins swollen. Red, ring-shaped, confluent spots, skin seems mottled. Scabs, exuding moisture and scaling off.

Sleep - Lethargic. **Drowsy and chilly.** Sleepiness without being able to sleep. Falls asleep while speaking. **Vnrefresh- ing sleep.** Frequent yawning, drowsy and sleepy during day. Can't sleep because of numbness and coldness of limbs. Sleeplessness during headache. Wakes up repeatedly, feels wretchedly. Dreams of bodies, corpses and funerals. Confused dreams. Vivid dreams about business matters, causes unrefreshing sleep. Unremembered dreams.

Stomach - Eructations, tasting like juniper berries. Constant eructation of wind. Heartburn with eructations. Anxiety and oppression at stomach. Pain through stomach to back and right shoulder blade. Pressure in pit on stooping. Gastric pains, gnawing scraping better eating. **Nausea, vomiting, better very hot water.** Nausea and vomiting, with feeling of heat in stom-

Chelidonium majus ach, spreading over whole body. **Nausea and bilious vomiting with sick headaches.** Nausea and vomiting in pregnancy. Sensations of heat or coldness in stomach. As if a plug in stomach. Qualmishness better belching. Vomiting of tough, acid or greenish mucus.

Stool - Fluid feces, often escape unexpectedly. Stools, hard, round balls like sheep's dung. Stools bright yellow, pasty, claycolored. Stools float in water. Stools like rice-water, tinged yellow. Deficiency of biliary coloring matter in stools. Yellow watery stool containing flakes of mucus.

Teeth - Gums pale and bleed easily. Drawing or tearing pains, better warmth, worse at night in bed. Drawing pain in upper incisors. Drawing pain, through middle incisors of lowerjaw. Toothache, chiefly in whole left cheek, worse at night. Pressure or transient pain in teeth.

Temperature - General lack of vital heat, coldness of limbs. Chill and coldness of whole body. Chilliness, with cold feet, in morning on waking. Yawning and shivering before attack of neuralgia. Violent fit of shivering daily. Fluctuating temperature. High fever. Burning heat spreads from hands over the body.

Throat - Hoarseness in afternoon. Choking during bilious eructations. Choking, worse breathing, as from hasty swallowing or as if too large a morsel had been swallowed. Spasm of glottis on expiration, with cough. Pressure

or heat in trachea. Pressure in larynx as if air could not pass through. Severe tickling in larynx. Irritation to cough in trachea. Shooting and burning pain in throat and larynx. Pricking pain in larynx, rendering loud speaking impossible. Left sided goiter. Tonsils ache. Shooting in tonsils. Venereal ulcers in throat.

Tongue - Tongue pale, moist, whitish. Tongue dried up, brown, cracked. **Tongue yellow with imprint of teeth, large and flabby (Merc., Hydr.).** Narrow, pointed tongue. Tongue red on edges and tip. Tongue red and sore, with raised papillae.

Vertigo - Vertigo with liver disturbance. Vertigo with inclination to fall forward. Vertigo, felt in vertex, worse closing eyes with bilious vomiting and pain in liver. Vertigo, worse rising from bed or sitting. Vertigo on closing eyes, as if turning in a circle. Vertigo with shivering over upper part of body.

Vision - Blackish-grey specks before eyes. Misty appearance. Amaurosis from rheumatic troubles, also after suppression of ringworm. Muscae volitantes. Dazzling spots. Blinding spot, lachrymation when looking at it. Dim vision. Diplopia. Sparks, during headache. Flickering, brilliant specks. Candlelight seems very small. Blackness, with sensation of fainting. When reading or writing, letters run together and seem blurred.

COMMENTS - Chelidonium is a major liver remedy and is also a venous medicine. According to Rademacher, Chel. acts on the center of the liver. Neonatal jaundice remedy (Phos., Cham., Chin.). Yellow tongue, yellow skin, yellow eyes. Hepatitis (Phos.). Yellowness of the skin, ulceration.

Prominent paralytic symptoms. Chills or creeps accompany the headache or the jaundice. Constipation with clay-colored stools or diarrhea with bright yellow stools. Nausea during pregnancy with desire for food, better by drinking milk. Desire for hot food and drinks, only water almost boiling will stay on stomach. "Aversion to cheese" in many gastric conditions. Eating ameliorates.

Desire to lie down after a meal. Great debility and drowsiness after eating and on waking. Aversion to move, feels tired on least exertion. Sleepiness and yawning (Op.). Better hot baths. Worse 4:00 pm or 4:00 am (Lyc.). The dirty yellow complexion produced by Chel. along with other signs of cachexia, strongly suggests cancer. The action of Sang., its relative, in breast cancer is well known. Additionally, Op., in addition to its narcotic influence, is believed by Snow to have a retarding effect on cancerous growth.

Pneumonia with bilious symptoms. Fanlike movement of alae nasi in chest disorders (Lyc.). Numerous cases of pneumonia of right lung have been cured when associated with hepatic derangement, distressing pain under right scapula. Hepatization of upper half of right lung.

Bry. is very similar to Chel. in pneumonia but the pains go continually to the back in Chel. and esp. to the right scapula. Rattling in lungs, worse changing position after waking. Frequently useful in bronchitis of children, with dusky red face, oppressed breathing.

Strong action in the respiratory sphere. Characteristic cough is caused by a sensation of "dust" in the air passages.

St. Clair Smith related a case of a young woman, who had for several weeks a dry, racking, fatiguing cough night and day, worse at night, no expectoration and no pain. She looked completely worn out. The cough was excited by a sensation as if throat and larynx were full of dust.

Chel. 3c, a powder every two hours, was given. She only took three when the "dust" left the throat, and with it the cough, and never returned.

Carleton Smith cured a "Dry cough through day with pain and stitches right side, severe hoarseness 5 p.m., voice scarcely audible."

C. M. Foss recorded a typical Chel. case simulating cancer. A man, 45, had catarrh of the nose and, at the same time of the stomach. He had been told he had stomach cancer. Tenderness over stomach with sinking, gone feeling, at times reaching a state of painful anguish. Sickness at stomach. All symptoms better by eating. Chel. 6x cured at once.

Teste, who proved Chel., placed it at the head of a group which includes Caps, and Viol-o. He mentioned the analogy between the juice of Chel. and the juice of Garcinia morella, and Gamb. Both are bright yellow and change to orange and brown on drying. Some authorities have recommended Chel. juice as a substitute for Gamb. as a hydragogue cathartic. Its ancient external uses ranged from an application in eye disorders to chronic ulcers and warts.

In Teste's proving he emphasized a dull and heavy, deep-seated pain in whole right side of chest and right shoulder, at 1:30 p.m., without cough, but with embarrassed respirations.

This pain, which is at times accompanied by dull beatings in the chest, does not allow him to draw a long breath, it is not perceptibly aggravated by the motions of the arm. The pain is particularly felt in the axilla and under the shoulder blade.

A sort of numbness of the muscles in the region of the liver and in the right side of the neck, face and head. Apprehension of threatening pneumonia. Great anxiety. Constant desire to stir and change one's position. "Extremely profuse emission of a whitish and foaming urine." "2 p.m.: drowsiness which is so marked, even in

the open air, that she is near falling asleep while walking, lasts half an hour."

A large field in rheumatic disorders. Edema, heat, tenderness and stiffness are the leading indications. A baby girl had rheumatism of both ankles for a week, when it settled in the right one, which became greatly swollen, very tender, painful and hot. Constipated for two months previously, whitish stools. Chel. improved in twelve hours and cured entirely in a week.

In another case of acute rheumatism of feet and ankles, supervening on a slow, remittent fever, Chel. cured after the failure of Rhus-t. and Bry. The patient was a girl of six. Both ankles were affected, feet much swollen and extended. The slightest movement or touch extorted screams. The only relief was constant bathing with hot water.

W. A. Burr cured a case of right sciatic rheumatism of ten years' history in a very corpulent woman, age 55. In her case, there were aggravations coming on in the afternoon and evening of each day and lasting into the middle of the night.

During the paroxysms, the outer ankle' and lower leg became cyanotic, swelling around ankle, constriction above, great sensitiveness to touch and motion. Very nervous during the spells. Great external sensitiveness, aversion to touch and worse from it.

RELATIONS - Antidoted by: Aeon., Cham., acids, wine and coffee, Camph. It is antidote to: Bry. **Compare:** (1) In pain below angle of scapula, Jug-c., Chenop. - Lower than angle and nearer spine), Ran-b. (edge of left, through to chest, Lob-c. - inside edge right scapula, Ang. - Cutting from just beneath right scapula to breast, near nipple. (2) Nux-v., Sulph., Bry., Lyc., Op., Podo., Sang., Ars. (3) Chel. - Spasm of smooth muscle everywhere intestinal colic, uterine colic, bronchial spasm, tachycardia. (4) Boldoa fragrans. (5) Elemuy Gauterusa - Stone in kidneys and bladder, grain doses of powdered bark in water or 5 drops of tincture. Pellagra. (6) Ip., Led., Sulph. (7) Kah-c. -pneumonia in later stages, copious exudation into lungs, rattling with cough, worse 2-3 a.m. (8) Colch. -nausea with desire for food. (9) Aeon., Ars., Bell., Calc., Caps., Chin., Gamb., Graph., Ign., Nit-ac., Nux-v., Phos., Podo., Puls., Rhus, Sep., Spig., Sulph., Viol-o. **Complementary:** Bry. is adose analog in many symptoms—yellow tongue, swelling of liver. Ars., Ip., Lyc., Sulph. often completes its work.

REFERENCES - Boericke. Clarke. Phatak.

***CHELONE GLABRA

(Snake-head)

PHARMACY - chelo. Chelone glabra. Snakehead. Balmony. Turtle-head. N. O. Scrofularia- ceae. Tincture of the whole plant **Historical dose:** Tincture and all potencies.

CLINICAL - Cachexia. Debility. Dumb-ague. Dyspepsia. Jaundice. Liver, disorders. Malaise. Quinine. Worms.

HERBAL - Chelo, has been used by old-school practitioners andherbalists as aliver and worm remedy. Burnett used it as an organ-remedy in liver disorders.

HOMEOPATHIC - Burnett's indications are "pain or soreness of the left lobe of the liver and extending downwards." Chelo, acts in a line between the hilus of the liver and the fundus of the uterus.

Liver disorders with pain or soreness of the left lobe of the liver, extending downwards. Soreness of external parts, as if skin were off, debility. Dyspepsia with hepatic torpor. Jaundice. **Round and thread worms.** Dumb ague. Malaise, following intermittents.

COMMENTS - According to some observers it antidotes the quinine cachexia and is a remedy for "dumb-ague," i.e., ill-defined paroxysms of aching and fever following severe malarial fevers. "Soreness of external parts, as if the skin were off, especially about elbow," has been confirmed as an indication. Hale noted "debility from loss of tone of digestive organs or liver or from exhausting diseases." One to five-drop doses of the tincture have been given.

RELATIONS - Compare: (1) Chin., Chenop., Cina, Helon., Hydr. (2) Card-m. - left lobe of liver. (3) Scrofularias, Grat., Dig., Tab., Scroph-n.

***CHENOPODIUM ANTHELMINTICUM

(Jerusalem Oak)

PHARMACY - chen-a. Chenopodium anthelminticum. Jerusalem oak. Chenopodium ambrosioides. Wormseed. N. O. Chenopo- diacae. North America. Central America. Tincture of fresh plant. Solution of seed oil. **Historical dose:** Tincture and all potencies. Oil of Chen-a. for hookworm.

CLINICAL - Aphasia. Asthma. Cerebral deafness. Convulsions. **Deafness.** Dropsy. **Ear, disorders.** Epilepsy. Headaches. Hemicrania. Hemiplegia. Hookworm. Leucorrhea. Meniere's, disease. Menses, suppressed. Otitis, media. Paralysis. Roundworm. Scapula, pain. Strokes. **Tinnitus.** Tonsillitis. Vertigo. Worms.

HERBAL - Oil of Chenopodium has been used for hookworm and roundworm.

HOMEOPATHIC - Several cases of poisoning have been reported in which all the symptoms of a stroke and the consequent right hemiplegia with aphasia were reproduced. Stertorous breathing with the very peculiar rattle as of a ball rolling loose in the trachea. Heavy breathing with flapping of cheeks.

Vanishing of sight and roaring in ears with (right) hemicrania. Roaring in ears as of cannons going off, ringing, deafness. Meniere's disease. Affections of auditory nerves (Nat-sal.). **Serous or bloody effusions in the labyrinth.** Chronic otitis media. Buzzing noises. Absent or deficient bone conduction. A consciousness of the ear.

Hearing better for shrill, high-pitched sounds than for low ones. **Deafness progressive for human voice** but great sensitiveness to sound as of a passing vehicle or to distant sounds. Aural vertigo. **Sudden vertigo.**

Characteristic dull pain below the angle of right scapula and nearer the spine than the similar pain of Chel. Chenopodii glauci aphidis has a similar pain below angle of left scapula.

Paralysis with spasms of forearms and hand in flexion contraction of limbs. Right sided convulsion and paralysis. Staggering gait. Pains through heart, under right scapula and in right shoulder.

Sub-acute and chronic enlargement of tonsils in pale, scrofulous children. Caseous deposits with painful inflammation of tonsils. Rough, furry feeling in throat. Stertorous breathing (Op.). Fever after a fright. Jaundiced. Urine, profuse, foamy, yellow, burning. Menses suppressed, leucorrhea instead.

MIND - Constantly repeats an action. Weeping mood. Insensible, convulsed, foaming at mouth. Loss of memory of attack after it is over. Weeping mood, suppressed menses. Forgetful of words while speaking. Uses wrong words. Aphasia.

Back - Intense pain between angle of right shoulder blade near spine and through the chest. Pain beneath point of right scapula, with giddiness in forehead, ringing in ears and pale face.

Chest - Pains through heart, under right scapula and in right shoulder. Pain throughout right chest, beginning at attachment of 6th rib to its cartilage and extending to front of right scapula.

Ears - Torpor of auditory nerve. Hearing is better for the high-pitched sounds. Comparative deafness to sound of voice, but great sensitiveness to sound as of passing vehicles and also a shrinking from low tones. Buzzing in ears. Roaring in ears as of cannons, deafness. Tinnitus synchronous with heartbeats.

Eyes - Impaired movement of right eyeball, loss of sensitiveness. Vanishing of sight.

Face - Flapping cheeks with stertorous breathing.

Female - Menses is suppressed, has leucorrhea instead, with rough, furry feeling in throat.

Head - Pain in whole right side of head, with roaring in ears, dim sight or complete loss of vision. Dull, pressive pain in vertex extending through head.

Kidneys - Slight pain in region of kidneys. Involuntary urination. Copious, yellow, foaming urine with acrid sensation in urethra. Yellowish sediment (Chel.).

Limbs - Hemiplegia with contraction of limbs. Frequent twitching and stiffness of right limbs. Paralysis and spasm of right forearm and hand in flexion.

Lungs - Stertorous breathing with flapping cheeks. Dyspnea, peculiar rattle as of a ball rolling loose in trachea. Respiration embarrassed by a quantity of yellow frothy material which was constantly regurgitated.

Skin - Jaundice.

Stomach - Perversion of taste. Disagreeable belchings, nausea. Constant, profuse regurgitation of yellow, frothy material smelling of worm-seed.

Throat - Enlargement of the tonsils. Chronically enlarged tonsils, caseous deposits. Furry feeling in throat.

Vertigo - Aural vertigo. Vertigo with transient vanishing of sight.

COMMENTS - Complete aphasia in a patient who took 1 1/2 oz. of worm-seed oil and 30 drops of turpentine. Five days from taking the dose he died in profound coma with high temperature.

"Whatever he did he would keep repeating. When the doctor entered he arose and shook him heartily by the hand, and then sat down. In about a minute he arose, solemnly came forward and again shook hands. This he repeated twenty times in as many minutes. He then went through the performance of washing his hands in an empty basin and repeated this many times."

In poisoning cases, there was hemiplegia with contractions of limbs and certain epileptic seizures. When given as a vermifuge it frequently produces progressive and long-lasting deafness.

The peculiar deafness corresponds nearly to the "cerebral deafness" described by Cooper in which the watch-hearing is good while the voice-hearing is bad or absent.

Linnell cured with it two cases in which there was deafness to voice-hearing but sensitiveness to other sounds. In one case there was implication of left labyrinth with slight chronic otitis media of both ears, deafness in the left ear several years, no tinnitus, consciousness of the ear, sensitive to musical sounds, deaf for watch and

voice, hearing diminished.

Linnell also cured a roaring tinnitus synchronous with heart. Sensitiveness to cold. Hearing better for high-pitched than low-pitched sounds.

Allen reported three cases of poisoning in which there was insensibility, convulsions, and foaming at the mouth. All remembrance of taking the poison was lost upon recovery.

Deep, heavy, stertorous breathing accompanied by a very peculiar rattle, as if there were a ball rolling loose in the trachea. Any attempt to swallow threatened instant suffocation. Pulse small, weak, frequent and feeble. Eyes insensible to light or external objects. Convulsive movements of right half of body. Limbs cold.

In one case, a patient took 1.5 oz. of worm-seed oil and 30 drops of turpentine. It produced disagreeable belchings and nausea. Staggering like a drunken man. Deafness to the sound of the voice, but exquisite sensitiveness to the sound of passing vehicles, they sounded like cannons in his ears, also annoying buzzing.

In smoking, he would scarcely light his cigar before he would lay it down again and take a fresh one, arguing perversion of taste. By afternoon the mantelpiece was strewn with cigars only partly used.

No disposition to engage in conversation. Aphasia, he clearly wanted his attendant to get or do something but could not make him understand. The attendant wrote, "Don't understand," showed it to him and gave him, paper and pencil. After great efforts he wrote distinctly words with no meaning.

The voice and hearing became progressively worse but he heard the tea-bell three stories below, promptly and to the astonishment of the family, got up and walked deliberately into the dining-room. He did not seem to know his accustomed seat and sat in the wrong place.

During the afternoon became completely aphasic. Finding himself unable to express his ideas, this seemed to amuse him much and he laughed heartily. Whatever he did he would keep repeating.

When the doctor entered he arose and shook him heartily by the hand and then sat down. In about a minute he arose, solemnly came forward and again shook hands. This he repeated twenty times in as many minutes.

He then went through the performance of washing his hands in an empty basin and repeated this many times. Sitting at tea, he ate with apparent relish, taking singly tea and bread. While grasping a piece of bread, there was a distinct spasm of right forearm and hand, fingers firmly clenched, hand forcibly flexed on forearm.

Assisted to his room, his walk was entirely natural, when put to bed showed some resistance, striking at the doctor. He at once commenced to groan, tossed from side to side of the bed, suggesting abdominal distress. Soon became unconscious, right arm paralyzed, dragging helplessly.

The next day, continued impairment of *motion and sensation right side, right eyeball* insensitive to touch. During the third day, there was frequent twitching and stiffness of the right limbs, culminating in a one-side convulsion during the early morning of the fourth day. At noon on the third day, copious involuntary urination in bed.

This continued to the end, except when drawn off. In the afternoon, heavy breathing and the flapping cheeks of a stroke

appeared. Constant regurgitation of yellow frothy material from mouth, smelling of worm-seed, as also did the perspiration. This material was at times so profuse as to embarrass respiration.

During one of the attacks of dyspnea and while in drenching sweat, which suggested dissolution, he was gently turned in bed, immediately a general convulsion set in, markedly opisthotonic, lasting ten minutes, despite the use of chloroform. By this time jaundice appeared, having been only noticed the day before.

***CHENOPODIUM VULVARIA

(Stinking Goosefoot)

PHARMACY - chen-v. *Chenopodium vulvaria*. Stinking goosefoot. Stinkender Gânsefuss. *Chenopodium olidum*. N. O. *Chenopodiaceae*. Europe. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Bedwetting. Constipation. Scapula, pain under. Spleen, pain.

HOMEOPATHIC - Chen-v. has an odor of decaying fish and contains Trimethylamine. It constantly gives off ammonia. Chen-v. seemed to affect the left side more than the right in provings.

Pain in middle of back on right side of spinal column (Chen-a.), increasing gradually to a pressing wedge-like pain, beneath right scapula, worse when sitting. Pain spine of left scapula.

Pressure on the left side of the head. Restlessness caused by pricking pains. Constipation with external hemorrhoids. Nocturnal cold saliva, cooling sensation in abdomen. **Modalities** - Sitting aggravates the pain in back, better by bending backwards. Walking aggravates sharp pains in spleen and pain in right knee.

RELATIONS - Compare: (1) Am-c., Trimeth., Chen-a., Aphis.

***CHERRY PLUM

(Bach Flower Essence)

PHARMACY - cher-p-b. Cherry plum. *Prunus cerasifera*. Twigs of flowers are picked and boiled for half an hour. The boiled water is strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - The remedy Cherry Plum belongs to the group **For Those who have Fear**, as classified by Bach. Further remedies in this group are Rck-r-b., Mimul-b., Asp-b., and Rd-ch-b. Cher-p-b. can help people suffering from diseases of the nervous system to find added peace in mind and body (Rck-r-b.). Extreme nervousness with a threatened nervous breakdown (Rck-r-b., Verv-b.). Nervous twitches, grimaces, and gestures are common in severe cases. The body expresses the mental struggle taking place within.

The remedy is of service in tic disorders, elimination disorders and sexual disorders (Cer-b.). Mounting tension can release suddenly in unpredictable outbursts of violence. Physical concomitant symptoms related to speech problems.

Phobias of all kind (Mimul-b, Rck-r-b.). Fear of sudden physical or mental failure, as in stammering, or in diseases such as epilepsy or repeated fainting. Fear of losing control over one's faculties, one feels helpless in the face of overwhelming stress.

Severe pain, when one feels almost unable to bear the strain and torture, when the mind is at the verge of breaking down. During drug rehabilitation, physical and emotional cravings can be reduced. In some cases, unbearable pain can lead to homicide or suicide.

MIND - The mind is over-strained and out of balance, after prolonged mental effort leading to failing nerve power and exhaustion. Delu-

Cherry plum sions and psychotic states when the boundaries of consciousness are disintegrating and the mind becomes subjected to unconscious and primordial forces.

Nervousness, shyness and stage fright. Great anguish and distress, with intense fear of losing control. Fear that all balance will be lost and the impulsive, unwanted thoughts will win. Thrill or excitement from doing forbidden things.

Problems in regard to impulses (Imp-b., Holly-b, Verv-b.). Obsessive-compulsive, perfectionist or ritualistic behavior, with the intention to avoid succumbing to the dreaded impulses. Impulses dictating to carry out certain acts, dangerous to oneself or others, or socially unfit. Crimes and suicides.

REFERENCES - Bach.

***CHESTNUT BUD

(Bach Flower Essence)

PHARMACY - ch-bd-b. Chestnut bud. *Aesculus hippocastanum*. The young twigs with shoots are boiled for half an hour, the water is strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Chestnut Bud, with Clem- b., Honey-b., Wld-r-b., Oliv-b. and Wh-ch-b., belongs to Bach's group of **Not Sufficient Interest in Present Circumstances**. These remedies help those not fully engaged in the here and now. Impulsive physical conduct and some degree of hyperactivity or restlessness can be concomitant physical features. One may bring the self and others in danger through recklessness, or disregard important physical needs.

Developmental problems, attention deficit and hyperactivity disorder and disruptive behaviors. Ch-bd-b. helps the mind to settle into restful concentration and retain the learning material. Personality disorders marked by a refusal to change and acquire empathy for others, such as in antisocial, criminal and personality disorders (Vine-b.).

MIND - Restless and impulsive, easily distracted. Absent-minded, not set on learning in the factual and moral sense. Jumps from topic to topic, goes superficially through a text, rushes ahead impatiently. Learned material is not contained very well, although capacity for memory is usually present. Inappropriate laughing or gliding over reprimands. Do not learn readily from their experiences, are often heedless or careless.

Easily carried by positive as well as negative emotions. Unreasonable, easily swayed, naive. Emotionally unstable, impulsive. Defiant and somewhat lacking in integrity or depth. People not willing to obey laws and adjust to a normal socialization process.

REFERENCES Bach.

***CHICORY

(Bach Flower Essence)

PHARMACY - chic-b. Chicory. Cichorium intybus. The flowers are picked, floated in a bowl of water and let sit in the sun for several hours. The strained water is used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Chicory belongs to the group of **Over-care for Others' Welfare**, as classified by Bach. The other remedies in this group are Rck-w-b., Beech-b., Vine-b., Verv-b. This group deals with mental, emotional imbalances in regard to caring for or controlling others. The inactive Chic-b. type may show an unspoken need to be loved. (Scler-b.).

Self-pity, prone to pout or look hurt and withdrawn. Overly controlling and service- oriented, while suppressing hostile emotions and demanding attention when sick. Self-protective with an anxious attempt to hold in emotions. Ulcer patients, if prone to tyrannical outbursts, yet falling ill whenever affection is withdrawn.

Anorexia, vomiting, nausea, bulimia and over-eating, in an effort to draw attention and love. Bronchial asthma, with difficulty

in expiring, can rest on emotional hurt and self-pity. Diseases of soft tissue, rheumatism and rheumatoid arthritis of a psychosomatic origin. Hypochondriasis, pain disorders. Chronic constipation.

MIND - Bent on taking care of others according to one's own design or idea, may be interpreted as being too forceful or unnecessary. Self-pity, a sense of not being appreciated for one's efforts.

Fairly rigid opinions and ways of working with others. Conviction that one's perceptions and opinions are correct and one assumes the right to enforce them on others. Tendency to be overly careful with details, one's daily duties and cleanliness. Possessiveness of people, as well as of goods.

Preoccupation with pain without physical findings. Personality disorders, based on attention seeking within the sexual sphere. Feigning sickness in order to gain attention (Ch-bd-b., Heath-b.). Eating disorders (Crb- a-b.. Must-b.). Hysterical neurosis, when the body expresses through illness the unvoiced need for attention and love.

Need to be the center of attention and be appreciated. Self-pity, sullenness and pouting, if affectionate attention is not offered. Annoyance and persisted self-pity if consoled, as if to arouse even more sympathy in the other. Manipulation, power play, pretense, threat, possessiveness, or feigning of sickness in order to convey that they feel hurt, offended, or overlooked. May reject being consoled, which increases their self-pity and may create further alienation in others.

***CHIMAPHILA MACULATA

(Spotted Wintergreen)

PHARMACY-chim-m. Chimaphilamaculata. Spotted wintergreen. N. O. Pyrolae, a tribe of the Ericaceae. Tincture of root and leaves. Tincture of fresh plant in flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Diarrhea. Headache. Sore, throat. Tongue, stiffness. Toothaches. Worm-fever.

HOMEOPATHIC - Chim-m. has been proved independently of Chim. Some symptoms of Chim-rot. are included. Intense gnawing hunger. Burning fever, blood feels heated. The throat and tonsils are strongly affected. Headache, worse on lying down. Feels better in warm room.

Constitutions - Suited to mild, amiable, refined, sensitive intellectual persons.

RELATIONS - Compare: (1) Puls., Chim.

REFERENCES - Clarke.

***CHIMAPHILA UMBELLATA

(Pipsissewa)

PHARMACY - chim. Chimaphila umbellata. Pipsissewa. Groundholly.Prince's spine.Pyrola umbellata. N. O. Pyrolae, a tribe of the Ericaceae. Europe. Asia. North America.Tincture of root and leaves or of fresh plant in flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. **Bladder, disorders. Breast, disorders. Breast, tumors.** Breast-feeding, disorders. **Cancer.** Cataract. **Cystitis.** Diabetes. Dropsies. Eczema. Fevers. Glands, enlarged. Gleet. Gonorrhea. Herpes. Intermittent, fever. Jaundice. **Kidneys, disorders.** Leucorrhea. Liver, disorders. Nephritis. Proctitis. **Prostate, enlargement.** Prostatitis. Pterygium. Ringworm. Scrofula. **Skin, affections.** Stricture. Syphilis. Toothaches. Tumors. Ulcers, malignant. Urinary disorders. Whitlow.

HERBAL - Chim. is a medicine used by many North American Indians for gravel and urinary disorders. It has also been used as a vulnerary.

Among the herbalists it is used as an **alternative in skin affections**, e.g., acne, herpes, eczema in enlarged lymphatic glands in joint rheumatism. It is said by them to act mainly as an eliminative through the bowels and kidneys. They use it in cases of chyliferous urine, cystitis, strangury, smarting, burning pains on urination, turbid urine and frequent urination and diabetes.

HOMEOPATHIC - Chim. acts principally on the kidneys and bladder, producing gravel in kidneys and acute and chronic catarrh in the bladder (cystitis). **Scanty urine loaded with ropy, muco-purulent sediment.** Calculus.

Hepatic and kidney dropsies.

Passive kidney, uterine and intestinal hemorrhages. Leucorrhea. Gonorrhea. Chim. also acts on the prostate and liver. **Prostatic enlargement.** Prostatic irritation. Catarrhal states with mucus, pus and blood, offensive or not.

Affects lymphatic and mesenteric glands and female breasts. Plethoric young women with dysuria. Women with large breasts. Chronic alcoholics. Incipient and progressive cataracts.

Abdomen - Aching pain below right hypochondrium while writing. Organic disease of the liver with ascites. Ascites. Scrofulous mesenteric gland.

Back - Sensation in region of kidneys, as if something were fluttering within.

Breasts - Suppression of milk. Rapid atrophy of breasts. Scirrhus tumors. Painful tumor of breasts, not ulcerated, with undue secretion of milk. Painful breast tumor in young unmarried women. Women with very large breasts and tumor in the breast gland with sharp pain through it.

Constitutions - Suited to cachectic, scrofulous individuals and broken-down constitutions. Abdominal and kidney dropsies in broken-down constitutions and intemperate subjects. Women with large breasts or plethoric women with dysuria.

Eyes - Halo around the light. Stabbing pain in the left eye with lachrymation.

Face - Flushing of cheeks with some general heat and quickened pulse.

Female - Labia inflamed, swollen. Pain in vagina. Hot flashes. Prolapsed uterus or vagina. Leucorrhea.

Head - Pain in left frontal protuberance. Halo about the light. Itching of eyelids. Stabbing pain in the left eye with lachrymation. Tinea capitis.

Kidneys - Acute inflammation of the urinary tract. **Nephritis.** Suppressed urine in infants. Urging to urinate. Urine turbid offensive, containing ropy or bloody mucus and depositing a copious sediment. Burning and scalding during urination and straining afterwards. Must strain before flow comes. Scanty urine. Fluttering in region of kidney. **Cystitis.** Bladder tenesmus, worse sitting, better walking. Cannot pass urine without standing with feet apart and body inclined forwards. Clots of blood pass with urine. Sugar in urine.

Limbs - Feeling of a band above left knee. Acute rheumatism of shoulder. Pain in right arm, about upper half of biceps and shoulder joint. Fistulous ulcer on right forearm, with stinging and crawling. Paronychia.

Male - Acute prostatitis with retention and dysuria and feeling of a ball in perineum, as if sitting on a ball (Cann-i.). Gonorrhea and prostatitis. Smarting in urethra from neck of bladder to meatus, excessive itching. Gonorrhea, gleet, syphilis, prostaticorrhea. Loss of prostatic fluid. Prostatic enlargement and irritation. Atrophy of testicles.

Modalities - Better from walking. Worse in damp weather, washing in cold water, sitting on cold stones or pavements, beginning urination, and on left side.

Mouth - Jaws feel stiff, cannot close mouth at night, sleeps with the mouth open. Vesicular ulcers in mouth.

Rectum - Sticking pain in left side rectum. deep in. Inclination to stool, either ineffectual or attended with great pain. Bloody mucus stools. Gripping after stool. Diarrhea. Obstinate constipation, with hemorrhoids. Worms.

Skin - Scrofulous ulcers. Glandular enlargements. Redness, vesication or desquamation. Eruption of dark red spots without sensation. Malignant ulcers. Scarlet fever.

Teeth - Toothache, as if being gently pulled, worse after eating or from exertion, better by cold water.

Temperature - Hectic fever and night sweats. Flushing of cheeks with general heat.

Throat - Palate sore, very sensitive to warm drink or food. Rawness of upper and back part of palate.

Tongue - Tongue smarting, sore. Full of vesicles, great thirst and desire to cool the tongue. Tongue is furred, more towards root, no appetite.

COMMENTS-Chim. has been proved by Jean

G. Bute and H. P. Gatchell. It causes flushing of cheeks with some general heat and accelerated pulse. Increase of appetite. Worse in cold damp weather, after washing in cold water, from sitting on a cold, wet stone.

Acute rheumatism of shoulder. Edema of arms (right). Inward trembling without mental disturbance.

Cannot close jaws at night jaws feel stiff, sleeps with mouth open. Toothache worse after eating and from exertion, better by cold water. Palate sore, very sensitive to warm drink or food, rawness of upper and back part of palate.

Inflammation of liver with ascites, abdominal and kidney dropsies. Enlarged mesenteric glands. Gallstone colic. Particularly indicated for kidney and liver problems in conjunction (Berb., Lyc.). Constant pain in region of kidneys, as if something fluttering in kidney region, first one side, then the other.

Obstinate constipation and hemorrhoids. Deep-seated shooting pain in the left side of anus. "Sensation of swelling in perineum on sitting, as if a ball was pressing against it."

Pressing fullness in region of bladder. Bladder tenesmus, strangury. Constant desire to urinate, must rise several times in the night. Great quantities of thick, ropy mucus in urine. Blood in urine. Smarting pain, painful irritation from neck of bladder, whole length of urethra to meatus.

Prostatic disorders. Loss of prostatic fluid. Bruised pain in testicle, with stricture. Leucorrhea. Rapid atrophy of breasts or tumors.

In homeopathic practice, Coburn reported the cures in several cases. The first concerned a case of stricture in a man, 30. He had dysuria, severe pain, scalding and burning. At times urine voided in a large gush, at others in thready stream and towards the end, drained off drop by drop. Merc-c. and Canth. had temporarily relieved.

Coburn also noted a case of prostatitis after sitting on cold stone. There was pain and a sensation as if he had bruised one of the testicles.

The third case Coburn recorded concerned a case of breast cancer in a 21 year old patient. Tumor in left breast, hard, movable, sharp pains at site. For four months, under Arn., Ars., Cic., Thuja., the tumor increased, skin became contracted, nipple drawn in. In eight months, it broke out into an irregular ulceration with lacerated edges, fetid discharge. Axillary glands swollen.

Chim. 1c in 10 drops doses, every four hours was given and the same locally applied. The pains diminished. Swelling decreased, and in six months the patient was well.

RELATIONS - Compare: (1) Chim-m. - intense gnawing hunger, burning fever, sensation of swelling in arm pits. (2) Uva., Ledum, Epigaea. (3) Apoc. - dropsy, Agnus - gonorrhea, breast-feeding, Con., Coff. - toothache better by cold water. (4) Rhod., Kahn., Uva., Sabal. (5) In pterygium Calc., Zinc. Ball in perineum, Cann-i.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CHINA BOLIVIANA

PHARMACY - chin-b. China boliviana. Cinchona boliviana. A variety of Cinchona calisaya growing further north. N. O. Rubiaceae. Tincture of bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphthae. Corns. Coryza. Flatulence. Mouth, ulcerated. Pneumonia. Wry-neck.

HOMEOPATHIC - China boliviana has the main features of Chin, off., but some are peculiar and deserve separate mention. Chin-b. was proved by Modiedo.

Chin-b. has ulceration of commissures of mouth. Cough with dagger-like pains in base of right lung. Rigidity of nape of neck. Hands red hot or cold and sticky. Sticky sweat about the anus. Flatulence. Disturbed and dream-filled sleep. Sensitiveness to touch.

MIND - Gloom alternating with serenity. Alternation of bad and good humor. Fits of rage, blasphemes. Cowardice.

Abdomen - Pain in both hypochondria and under ribs on waking in the morning. Pain in splenic region.

Back - Nape of neck rigid, cannot turn head to right, any sudden movement causes a snap or crack. Wry-neck. Pain in left shoulder, left buttock and also in right hip bone on sitting up in bed.

Ears - Detonation as of a cannon in right ear. Ringing, humming, whistling sounds.

Eyes - Violent pains like a stab in left eyes, followed by itching and tears.

Face - Aphthae on inner surface of lips, ulceration of commissures.

Food - Hunger or lack of appetite, repugnance to meat. After eating, feels a weight in stomach. Cold, sneezing, sleepy and desire to sleep in evening.

Head - Headache in morning on awaking, leaves during the day or lasts all day and leaves during sleep.

Limbs - Legs and feet icy cold, as if blown on by wintry wind. Painful corns.

Lungs - Cough with pain in right lung, as from a dagger buried there, at times makes breathing laborious, burning in eyes, limbs cold. Unbearable pain in right lung, extends to region of liver, sensitive to touch.

Male - Pollutions exceedingly weakening. Excoriation on inner and lower part of prepuce. Gleet and ulceration of prepuce.

Mouth - Mouth bitter in morning on waking. **Nose** - Much sneezing on awaking with smell of fresh pus. Sensation of incipient cold with tight feeling and pain in throat. Violent cold in head. Mucus

from posterior sinuses.

Rectum - Biting in anus as from worms, excoriated sensation. Viscous sweat on anus.

Sleep - Dreams of the sea, of fishes, swimming, bathing. Dreams of journeys by land and sea, Dreams of vomiting of worms.

Stomach - Much gas rises from stomach. **Throat** - Constriction and burning in throat.

Vertigo - Vertigo as after a drunken fit, voracious appetite.

REFERENCES - Clarke.

***CHINA OFFICINALIS

(Peruvian Bark)

PHARMACY - chin. China officinalis. Peruvian bark. China regia. Kina-Kina. Cinchona calisaya. Cinchona rubra. Cinchona succirubra. N. O. Rubiaceae. Central and South America. Tincture of the dried bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscesses. Albuminuria. Alcoholism. Amaurosis. Amblyopia. Anasarca. **Anemia.** Aphthae. Asthma. Back, weakness. **Bedwetting.** Biliary, attack. **Blood, loss.** Breast-feeding, disorders. **Cachexia.** Candida. Catarrhal, disorders. **Chills.** Chorea. **Cirrhosis.** Colic. Colitis. Coma, Constipation. Coughs. **Debility. Dehydration. Delirium. Dermatitis.** Diabetes. **Diarrhea.** Digestive, disorders. Dropsy. Dyspepsia. **Dysentery.** Dysmenorrhea. Ears, deafness. Ears, noises. **Edema.** Emaciation. Emissions. Empyema. Epilepsy. Erysipelas. Eye, disorders. Facial, neuralgia. **Fainting.** Fatigue. **Fermentation. Fevers. Flatulence. Food, poisoning. Gallstone, colic. Gallstones.** Gangrene. Headaches. Hectic, fever. **Hematuria. Hemorrhages.** Hemorrhoids. **Hepatitis.** Hip, joint, disease. Ichthyosis, **Impotency. Indigestion.** Infertility. Influenza. **Insomnia. Intermittent, fever. Jaundice.** Labor, pains. Leucorrhea. Lienteria. **Liver, diseases. Malaria.** Masturbation. Meniere's disease. Menstruation. Mercury, poisoning. Muscae, volitantes. Nausea. Neuralgia. **Night blindness.** Ovaritis. Paralysis. **Parasites.** Pemphigus. **Pneumonia.** Peritonitis. Perspiration. Pleurisy. Psoriasis. Pylorus. Rheumatism. **Sleep, disorders.** Spermatorrhea. **Spleen, disorders. Stomach, disorders.** Strokes. Suffocation, fits. Taste, disordered. Tea, effects. Thirst. Tinnitus. Tobacco, habit. Traumatic, fever. **Traveler's diarrhea.** Tropical, fever. Tuberculosis. **Tympanitis.** Ulcers. Varicose, veins. Vertigo. Vomiting. **Weakness. Worms.**

HERBAL - Kina is the Peruvian name for "**bark,**" and "**Kina-Kina**" is the "**Bark of barks.**" The story of its introduction into European medical practice is one of the romances of the Healing Art, as the story of its frightful abuse is one of its many tragedies.

The tincture of Chin., Cinchona rubra, is useful in removing the craving for alcohol in alcoholics who wish to reform. Ten to thirty drops two or three times a day is the usual dose for this. Where the general symptoms correspond, the potencies would probably do better.

HOMEOPATHIC - Cinchona bark was to Hahnemann what the falling was to Newton and the swinging lamp to Galileo. Dissatisfied with the explanations of the action of Bark in curing ague that were current in his time, Hahnemann took the powdered Bark himself, being in health and behold, a malaria attack ensued.

A repetition of the experiment produced the same result. Further experiments revealed that action of Bark which is the opposite of "**tonic,**" positively debilitating in fact, already referred to.

China affects the blood, making it thinner and impoverished. It weakens the heart and impairs the **circulation,** producing congestion and **hemorrhages,** anemia, relaxation and collapse. Gallbladder disorders. Gallstones. Worse since gallbladder surgery.

Debility due to **profuse, exhausting discharges, loss of vital fluids,** excessive suppuration, diarrhea, hemorrhages etc. Dropsy after loss of fluids, hemorrhages. **Blood loss with weakness.** Inflammation of bleeding organ after hemorrhages. Convulsions during the hemorrhages. **Profuse hemorrhages,** with loss of sight, faintness and **ringing in ears.**

Weak digestion, fermentation, gas and diarrhea. **Gas and bloating of the abdomen.** Post-operative **gas pains,** no relief from passing it. Gout. Chronic suppurative pyelitis.

Traveler's diarrhea or tropical diseases. Hepatitis and severe diarrheas. **Food poisonings,** worse from bad water or fruit, from eating bad fruit, unripe fruit, bad meat, decomposing meat (Ars.).

Marked periodicity. **Intermittent periodicity** is very marked in fever and neuralgias. The patient becomes very weak, oversensitive and nervous, everything upsets him, light, noise, odors, drafts, pain etc.

bursting pain. Neuralgia. Wounds become black and gangrenous. Psoas abscess. Epilepsy, chorea, paralysis from loss of fluids.

Keynote gas and bloating, diarrhea, indigestion, irritability. Very sensitive to touch and pressure, especially around the abdomen. Intestinal candida. **Fermentation in the bowels.** Failure to thrive, malabsorption in babies (Aeth., Mag-c.). Emaciation, especially of children. Anemia. Hard swelling. Rheumatism. Sepsis.

MIND - Apathetic, indifferent, disobedient, taciturn, despondent. Lack of self-confidence. Dislike of all mental and physical work. Reluctant to speak. Unable to think. Slow flow of ideas, can't arrange his thoughts. Mental exhaustion (Sil.). Makes mistakes in speech or writing.

Mind constantly changing from one thing to another. Ideas crowd in mind, prevent sleep. **Abundant ideas and clearness of mind in evening.** Full of plans and projects, in evening and at night and reflects upon their execution. **Insomnia from fantasies,** builds air castles. Loss of control over mind.

Anxiety in morning on waking. Excessively anxious about trifles. Inconsolable anxiety. **Oversensitive to noise.** Fearful and apprehensive. Fear of dogs and other animals, at night. Excessive vividness of mind and imagination during headache.

Sudden crying and tossing about, when cheerful. **Excitement after hearing horrible things.** Dwells on past disagreeable occurrences at night. Cheerfulness alternating with gloom. Weeping about a fancied need.

Discontented mood. Disobedient, stubborn. **Irritable, sensitive and very touchy.** Irritability, even if looked at. Irritability after sex. Contempt for everything. Peevish, ill-humored, easily angered. Ill humor, worse hugging and caressing. **Reproaches others.** Disposition to hurt other people's feelings. Aversion to be looked at.

Delirium from the loss of fluids. Sees faces and objects on closing eyes. Indifference, sad, no desire to live. Fixed ideas, that he is unhappy, persecuted by enemies. Runs about. Desire for suicide but lacks courage. "Intolerable anxiety about 8 p.m. and 2 a.m..

springs out of bed and wishes to take his own life, but does not go near the window or take a knife (Alum.) with heat of the body without thirst."

Abdomen - Liver and spleen swollen and enlarged. **Tympanitic abdomen.** Abdomen distended, wants to belch, eructations afford no relief. Flatulent bloating, better motion. **Muchflatulentcolic,** better bending double.

Dysentery with dehydration and weakness. Abdominal colic with hunger. Colic better bending double. Colic with shivering. Colitis. Constrictive pains from incarcerated flatulence. **Post-operative gas pains,** no relief from passing it. **Fermentation in intestines from eating fruit.** Heat in abdomen as if hot water running down. Pain from rectum to genitals. Pain in right hypochondrium. Internal coldness of stomach and abdomen. Gastro-duodenal catarrh. **Parasites, worms.** Swelling, inflammation, induration of spleen. Strangulated hernia.

Back - Pressure as of a stone between scapulae. Inter-scapular spine painful. Sharp pains across kidneys, worse movement, at night. Knife-like pains around the back. Heavy pressure on sacrum. Backache as from sitting bent for long time. **Intolerable pain in lumbar region.** Lumbago, worse slight motion. Spinal affections with diminished sexual desire. Sweat on back and neck from least motion. Sharp pains in spine and shoulders.

Causations - Ill effects of **dehydration, loss of vital fluids.** Masturbation. **Blood loss.** Ill effects of vexation, anger, cold, mercury, onanism, and suppressed coryza. **Food poisoning.** Ill effects of eating fish, fruit, bad meat or fish, impure water, milk, tea, beer, beer, sour wine, or alcohol.

Chest - Painful, sore chest with soreness between scapulae, cannot bear percussion or auscultation. Pressing, stinging pains in chest and trachea. Pressive drawing pains, across lower portion of chest while sitting, causes anxiety, disappearing while standing and walking. Oppression in chest as if from a lump. Sides of chest feel as if beaten. Sticking pain in small spot below last right ribs, worse slightest pressure or walking. Boils on chest.

Constitutions - Suited to persons of thin, dry, bilious constitutions. Leuco-phlegmatic persons with a disposition to dropsical disorders, catarrhs or diarrhea, to disorders of women.

Cough - Asthmatic cough, at 3 a.m., followed by frothy, badly tasting expectoration. **Violent, hacking cough after every meal.** Paroxysms, after eating or laughing, worse evening, night. Spasmodic coughs from irritation of larynx. Spasmodic coughs as from fumes of sulphur, at night and in mornings. Spasmodic coughs with bilious vomit. Cough causes cutting pain in lower abdomen, expectoration difficult, black. Cough with pain in larynx and sternum. Cough with pain throughout whole cavity of chest. Dry cough, with taste of blood. Cough during or after measles. Coughs worse talking, lying with head low or on left side. Cough worse lightly touching larynx. Coughs from draft of air, loss of fluids. Cough from laughing. Cough after eating, drinking.

Ears - External ear, sensitive to touch. Lobules red and swollen. Stitches in ears. Tearing pain worse least touch. Foul, purulent, bloody discharge. Hemorrhage from ears after prolonged suppuration. Hemorrhage from ear, offensive, bloody, purulent discharge. **Tinnitus, then vertigo.** Humming, roaring, or tickling. Meniere's disease. **ringing in ears with headache.** Ringing in ears with debility. Noises in ears, with faintness, great weakness, trembling debility, aftermenses. Hardness of hearing. **Hearing sensitive to noise.**

Eyes - Inflammation and itching of eyes and eyelids in persons debilitated by loss of vital fluids. Blue color around eyes. Hollow eyes. Yellowish sclerotica. Iritis from loss of blood after confinement. Night blindness, due to anemic retina. Amaurosis, scalding lachrymation. Lachrymation, with crawling pain in eyes. Photophobia, eyes sensitive to bright light. Distortion of eyeballs. **Pressure in eyes as from drowsiness.**

Pressive, burning pains in eyes, much heat, redness of eyes. Eyes painful on reading and writing. Eyes smart as from salt. Motion of eyes painful. Stitching as from sand. Eyes as if filled with smoke. Sensation of foreign body in eye, with inflammation and heat, worse evening. Pupils dilated or contracted. Involuntary closing of eyelids from mere weakness. Intermittent ciliary neuralgia. Ulcers in course of pannus, with much pain in morning. Ulceration of cornea.

Face - Sallow, pale complexion. Red, hot face, with cold hands. Earthy, sickly, pale, hippocratic, bluish around the eyes. Lips, dry, black and shriveled. Lips deep blue. Bloated face. Swelling of veins. Face hot, when entering room from open air. **Face flushed after hemorrhage, sexual excess or loss of vital fluids.** Facial neuralgia. Faceache nervous or rheumatic. Prosopalgia worse touch or motion. Needle-like pains, in left face, left chest and left hand. Violent tearing, burning pains in face. Submaxillary glands swollen. Erysipelas of face and hairy portion of scalp.

Female - Dysmenorrhea. Menstrual colic. **Menses dark, profuse.** Profuse menses with anemia and pain. Menses too early. **Menses clotted with abdominal distention.** Suppression of menses from chagrin. Metrorrhagia, blood dark with fainting, convulsions. Painful heaviness in pelvis. Painful induration in the vagina. Dropsy of ovaries, uterus. Ovaritis from sexual excess. Ovaritis from hemorrhage. Leucorrhea, instead or before menses with spasmodic uterine contraction. Bloody leucorrhea, seems to take the place of the usual menstrual discharge. Leucorrhea with painful bearing down to vulva and anus. Discharge of bloody serum, alternating with pus. Congestion to uterus, fullness, pressing and heaviness, worse walking. Uterine spasms. **Uterine hemorrhage, with ringing in ears, fainting.** Desire too strong in lying-in women. Labor pains cease from hemorrhage. **Anemia, exhaustion, blood loss since childbirth.** Promotes expulsion of moles. Long-lasting lochia sometimes fetid, cheesy or purulent.

Food - Voracious appetite in emaciated children. Hunger and yet want of appetite, only while eating some appetite and natural taste for food return. Quick satiety. Anorexia, feels satiated all the time. Complete loss of appetite in people suffering from malaria. Aversion to all food. Aversion to food or canine hunger, during fever. **Aversion to hot food, fats and rich food, fruit, meat.** Aversion to bread, butter, coffee. Aversion to beer, coffee, milk. Craving, for dainties, sour or sweet things. Desires various things without knowing what, especially children. **Desires highly seasoned food,** sour fruit, fruit, Desires wine, salt, coffee. Desires sour, cooling things, roasted coffee. **Food poisoning from bad meat, impure water.** Ill effects of tea. Milk disagrees. Bitter or sour eructations after milk, heartburn after milk. Diarrhea from fruit, milk, beer. **Food tastes bitter, even water.** Food tastes too salty. Fruit, tea causes flatulence. Warm drinks impede digestion. Thirst for cold water, worsens diarrhea. Thirst during abdominal colic. Thirst during apyrexia, before chill. Thirstlessness or thirst for cold drink only, during fever.

Head - Bursting, throbbing pain with throbbing of carotids. **Intense throbbing of head and carotids.** Congestion of blood to head during menses. As if skull would burst. Sensation as if brain were swashing to and fro, causing pain. Bruised pain in brain, worse temples. **Congestive headaches.** Head heavy. Dullness and confusion of head. Spasmodic headache in vertex. **Headaches after hemorrhage.** Headaches, worse in open air, current of air, sun, by contact, stepping. Headaches, better by hard pressure, rubbing, warm room, moving head up and down. Nosebleed relieves headaches. Sharp pains from temple to temple. **Headaches from suppressed coryza.** Burning in forehead with sweat on it. Supraorbital neuralgia. Sweats when walking in open air. Sore, sensitive scalp, worse touching or combing hair.

Heart - Movement excites palpitations. Irregular, with weak, rapid beats followed by strong heartbeats. Suffocative attacks, syncope, anemia and dropsy. As if blood

China officinalis flowed warm from the heart. Melancholy feeling about heart, with desire to take a deep breath. Pulse small, hard, rapid and irregular. Palpitations with distension of veins. Strong, violent palpitations with feeble pulse and cold skin. Pulse more quiet after meals.

Kidneys - Sharp pains across kidneys, worse movement and at night. Burning at meatus, worse rubbing of clothes. Urine turbid, dark, scanty. Pinkish sediment. Hematuria. **Bedwetting of weakly children.** Pressure in bladder follows frequent and ineffectual efforts to urinate. Frequent urination with pressure in bladder. Urine turbid, dark, scanty. Urine pale, becoming cloudy or depositing a dingy, yellow, loose sediment. Scanty, greenish-yellow, brickdust sediment. Albuminuria. Diabetes.

Limbs - Great debility, trembling with numbness of limbs. Pain in marrow. Decay of bones with profuse sweat. Sensation as of a string around limb. **Pains in limbs and joints.** Paralytic stiffness in all joints on rising after sleeping. **Pain as if sprained, worse slight touch,** hard pressure relieves. Averse to exercise, sensitive to touch. Weariness of joints, worse mornings and when sitting. Joints as if bruised, worse rest, better motion. Joints swollen, very sensitive with dread of open air. Twitching in knees. As if heavy load on shoulders. Spasmodic stretching of arms with clenched fingers. Hands tremble while writing. As of a band about legs or arms. **Cold hands and feet.** One hand is icy cold other is warm. Emaciation of hands and feet. Swelling of

veins of the hands. Nails blue.

Liver - Liver and spleen swollen and enlarged. **Gallstone colic. Gallstones.** Obstruction in gallbladder with colic, periodic recurrence, yellow skin and conjunctiva, constipation. **Worse since gallbladder removed.** Jaundice after leucorrhea, masturbation, sexual excess, diarrhea. **Hepatitis with exhaustion.** Swelling and induration of liver. Periodical liver symptoms. **Cirrhosis and edema.** Liver weakness due to alcohol or poordiet. Pain in hepatic region, as from subcutaneous ulceration, very sensitive to touch.

Lungs - Asthma, worse damp weather, autumn or after depletion. Wheezing, whistling inspiration, crowing, rattling, oppressed and painful breathing. Asphyxia of newborn, after great loss of blood by the mother. Dyspnea, sharp pain in left lung. Cannot breathe with head low. **Suffocative catarrh, rattling in lungs.** Puffy, rattling, breathing. Every motion excites palpitation and takes his breath. Inclination to take a deep breath. Wants to be fanned but not too hard, for it takes her breath. Rattling in lungs, loud sounds through nose.

Pneumonia after hemorrhages or with bilious symptoms. Pneumonia, and other lung affections, symptoms being worse every other day. Pleurisy in persons who have lost much blood. Pleuro-pneumonia with profuse exudation, prostration, emaciation and pallor during confinement. Suppurative tuberculosis. Tuberculosis in alcoholics. Hemoptysis. Hemorrhage from lungs. Asphyxia of newborn due to great blood loss by the mother.

Male - Swelling of testes and spermatic cord, after gonorrhea. Orchitis. Swelling of epididymis. Tearing pain in left testis and left side of prepuce. Cramplike, contractive pain in testes, evenings. **Frequent emissions, followed by great weakness.** Impotence from overindulgence. **Lost of vital fluids.** Morbid sexual desire with lascivious fancies. Sexual desire with craving for dainties.

Modalities - Better from hard pressure. Better bending double. Better open air. Better warmth. Better loose clothes. Worse from jar. **Worse slightest touch.** Worse bending over. Worse during and after stool. **Worse loss of vital fluids.** Worse noise. Worse cold, winds, drafts, open air. Worse mental exertion. **Worse after eating.** Worse fruits, fish, milk. **Worse impure water, spoiled meat.** Worse tea, smoking. Worse at night, midnight. Worse increase of moon. Worse every other day, every fourteen days, every three months. Worse periodically. Worse from 1 a.m. to 10 a.m. Worse 12 p.m. or 1 p.m. Worse from 8 a.m. to 2 or 3 p.m. Worse in autumn, summer.

Mouth - Dryness of mouth. **Food, water tastes bitter,** acute, or too salty, even water. Bitter taste in mouth for a while after eating. Gums swollen. Putrid taste in morning. Painful sensitive swelling of uvula. Salivation day and night, years after mercury.

Nose - Ill effects from suppressed coryza, headache. Checked catarrh causes headache. Pressive pain in root of nose. Hay fever, watery coryza with pain in temples. **Violent, dry sneezing.** Sneezing, water discharge, coryza. **Smell too acute.** Sensitive to odor of flowers, cooking and tobacco. Cold sweat about nose. Nose, hot, red. Easily bleeding from nose, especially on rising. Nosebleed with paleness of face, fainting. Nosebleed with congestion of blood to head.

Perspiration - Debilitating night sweats. **Debilitating sweats from weakness, depletions.** Profuse sweats, caused by every little exertion. Profuse sweat during sleep, or on being covered up. **Drenching sweats, at night,** worse least motion. Greasy or oily sweat on side lain on. Cold and clammy sweat with hemorrhages. Copious sweat, exhausting, at night. Suppressed sweat. **Debilitating sweats from malaria, fevers.** Sweats after waking at 3 a.m., with thirst. Sweats on face and hands. Sweats on side lain on. Sweats after meals.

Rectum - Involuntary stools. **Traveler's diarrhea.** Difficult stools even when soft (Alum., Plat.). **Diarrhea and dehydration.** Diarrhea after weaning in children. **Chronic diarrhea** in children, who become drowsy, pupils dilated, body becomes cold especially chin and nose, with rapid respiration. **Dysentery with dehydration and weakness.** Constipation, large accumulation of feces. Sharp pain in rectum during stool. Accumulation of much flatus, which will pass neither up nor down. Bleeding hemorrhoids, burning and itching. Mucus discharge from rectum. Tingling in anus. Worm troubles, worse at night, fullness in abdomen, with heartburn and waterbrash.

Skin - Skin dry, flaccid. Waxy pale or yellow skin. Jaundice. Yellow color. Itching, bleeding after scratching. Cold and blue skin. **Extreme sensitiveness to touch, but hard pressure relieves.** One hand ice cold, the other warm. **Coldness, with much sweat.** Anasarca (Ars., Apis). **Dermatitis,** erysipelas. Indurated glands, scrofulous ulcers and decay. Psoriasis and ichthyosis. Pemphigus. Humid gangrene. Ulcers flat, shallow, copious discharge.

Sleep - Drowsiness. Overpowering sleepiness during day, when sitting and after eating. Heavy, snoring sleep, especially in children. Snoring, blowing expiration moaning, whining, during sleep. Protracted sleeplessness. **Sleeplessness from an overactive mind.** Sleeplessness from hunger. Sleeplessness from pressive pain in head. Waking from pains, noise and when feet get cold. Unrefreshing or constant stupor. Wakens early. **Unrefreshed sleep, wakes confused.** Dreamy kind of reverie as soon as he falls asleep. Anxious, or frightful

dreams with confused consciousness on waking, so that the dream cannot be rid of and fear of dream remains. **Stomach - Flatulence.** Flatulence in stomach for a long time after a meal, as if he had just eaten. Bloated stomach. Fermentation after eating **fruits. Indigestion. Digestion, weak and slow.** Cold feeling in stomach. Pulsations and rumbling in epigastrium. Stomach sore, as if ulcerated. **Gastric disorders from eating fish, tea, sour wine, new beer, impure water, fruit, milk.** Weight after eating small quantity of food. Spasmodic pain in stomach. **Belching of bitter fluid.** Eructations, taste of food. **Regurgitation of food,** gives no relief, worse eating fruit. Pulsations and rumbling in pit. **Hiccoughs.** Hematemesis. Darting pain crosswise in hypogastric region. **Frequent vomiting of undigested food.** Vomiting worse at night. Sour vomiting of water, mucus and food. Vomiting of food, in debilitated persons.

Stools - Involuntary stools. Very weakening stools, with much flatulence. Stools loose, brownish, painless with a feeling

China officinalis of debility. Stools, worse at night, after meals. Stools, very weakening with much flatulence. **Stools with undigested food.** Stools, frothy, yellow, dark, foul, watery. **Stools bloody, painless.** Stools, worse during hot weather. Stools, worse from **fruit,** milk, or beer. White stools with dark urine. Stool loose and green in children, with great flatulence.

Teeth - Teeth loose and painful only when chewing. Black coating of teeth covered with dark sordes. Painful numbness in decayed teeth. Gums swollen. Toothache, better by pressing teeth firmly together and warmth. Toothache during sweat. Toothache while infant sucks the breast. Toothache with sweat. Pressure as if blood were forced into teeth. Throbbing pain, better external warmth.

Temperature - Chills on alternate days. Chill, then thirst, then fever, then thirst. Chill generally in forenoon. Chill alternating with fever, in afternoon. Chill begins in the breast. **Internal chills, violent, with icy cold hands and feet, and congestion of blood to head.** Chills with headache, congestion of head, paleness of face, pain in liver. Can't get warm in evening in bed. Influenza with debility. **Malaria.** Stages of chill, heat and sweat well marked. **Intermittent fever.** Typhoid and gastric fever. **Periodic fever and chills.** Fever returns every week. Hectic fever. **Tropical fevers.** Sepsis. Red hot face, with cold hands with cold body. General heat with distended veins. Fever with dryness of mouth and lips.

Throat - Difficult swallowing, as from contraction of esophagus. Enlarged tonsils. Throat feels rough, scraped, producing a sore sensation on swallowing. Gangrene of throat. Larynx and trachea as if sore. Hoarse, rough voice. Deep, husky voice when talking or singing. Sensation as if something adhering to larynx.

Tongue - Burning stitches on tongue. Cracked, black or yellow coated tongue. Burning as from pepper on tip of tongue, followed by salivation. Tongue, thick, dirty coated. Painful swelling posteriorly on side of tongue. Tongue parched or raw

as if burnt. Tongue dotted here and there with yellowish vesicles, some of them broken and looking sore.

Vertigo - Vertigo, falls backwards. Dizzy when walking. Vertigo on waking at night. Vertigo can't sit upright. Head inclined to sink backward, worse motion and walking, better lying. Vertigo on waking at night. **Vertigo from anemia.** Vertigo on raising head. **Vertigo after loss of vital fluids.** Vertigo on rising as if he would fall backward. Vertigo in occiput, when sitting. Vertigo with heat in head, worse when lying.

Vision - Shortsightedness after typhus, with diarrhea. Letters run together and look like black spots on a white ground. Vision better in morning. Sudden blindness with violent pain in occiput extending into eyes. **Night blindness in anemic retina.** Amaurosis, scalding lachrymation. Transient blindness, with flickering before eyes. Focal distance of eyes unequal for near and far points. Amblyopia in alcoholics. Amblyopia after masturbation, surging of blood to head. Black specks, bright dazzling illusions. Weakness of vision and neuralgia above eye. Dimness and weakness of vision, can only distinguish outlines of distant objects. Letters pale, surrounded by white borders. Flame of candle seems to be of a dazzling sulphur color. Sees spots.

COMMENTS - Teste wrote, "According to Humboldt about 500,000 pounds of this bark are annually exported to Europe for the purpose of being converted into sulphate of quinine." Well could Teste add the exclamation. "Poor patients !" As with almost every other good thing that comes into its hands, allopathy has contrived to do an infinity of harm with quinine to make up for the good.

Ip. (as well as Gali, and Mit.) belongs to the same natural order of plants as Chin., and the relation of the two to intermittent fever, hemorrhages and gastro-enteric disturbances is very similar.

Coff. also belongs to the Rubiaceae and is nearly allied in many of its nervous symptoms to Chin.

The tincture is anti-septic, destroying ameboid motion and retarding tissue change. It weakens the heart and impairs the circulation. Chin, helps with congestions and hemorrhages, anemia and complete relaxation and collapse.

The result of suppression is thus sketched by Hahnemann's master-hand: "True, he (the patient) can no longer complain that the paroxysms of his original disease occurs any more on regular days and at regular hours, but behold his earthy complexion, his bloated countenance, his languishing looks !

"Behold how difficult it is for him to breathe, see his hard and distended abdomen the swelling of the hypochondria, see how his stomach is oppressed and pained by everything he eats, how his appetite is diminished, how his taste is altered, how loose his bowels are and how unnatural and contrary to what they should be, how his sleep is restless, unrefreshing and full of dreams.

"Behold him weak, out of humor and prostrated, his sensibility morbidly excited, his intellectual faculties weakened, how much more does he suffer than when he was a prey to his fever !

"The number of patients who have been consigned to an early grave by quinine probably falls short only of the number that mercury can claim. When first introduced it was (as chloral and hundreds of other poisons have been since) declared on the highest authority to be incapable of harm "in whatever dose it may be taken."

Debility caused by an excessive drain of animal fluids, such as loss of blood, excessive suppuration, loss of semen, and after prolonged strain of overwork, mental or bodily. A "pumped-out" condition, and the sensitive, irritable state of mind that accompanies such.

Never well since blood loss, surgery, loss of fluids, especially if the liver, the colon, or the digestive tract has shut down or been weakened since the blood loss.

Hemorrhages occur from every orifice of the body. Rectal bleeding, nosebleeds, menstrual blood, birthing.

Perspiration, dehydration from high fevers, from heat stroke. Loss of fluids from diarrhea, a history of dysentery or parasites with exhausting, debilitating diarrhea. Weakness from breast-feeding.

Terrible irritability, always worse at night. Sense of unhappiness. Believes he is pursued by enemies in business.

Intermittent fever from marsh miasm, tertian or quartan in type.

Chill and heat without thirst, thirst occurring either before or after chill. Chill followed by long-lasting heat, generally with desire to uncover, face fiery red, often delirium, profuse and debilitating, followed by sweat.

In the apyrexial period, the face is a sallow, dingy yellow, the spleen is enlarged and painful, the appetite is totally lost, or else there is canine hunger, the feet swell and as soon as the patient closes his eyes for sleep he sees figures.

Typhoid and gastric fever. Hectic fever. Lung conditions which are attended with hectic. Suppuration of the lungs, especially in alcoholics. Weakening night-sweats. Prostration, chilly, wants to be wrapped up but cannot bear the fire.

Periodicity in fever and in neuralgias. Characteristic worse every other day. Neuralgia is generally infra-orbital. Weak eyes and ringing in ears, such as follow depletion. Loss of sight, deafness, ringing in the ears. Humming, throbbing in ears. The nose, ears and chin are cold, complexion sallow, dingy, yellow.

Headache, congestive, throbbing like many hammers hammering on temples, ringing in the ears, worse from drought of air, open air, slightest contact, better by hard pressure. Scalp sensitive.

Asthma, wheezing, suffocative catarrh and paralysis of lungs in old people. Respiration labored, loud and stertorous with puffing, blowing out of cheeks on each expiration.

Rheumatism, characterized by soft swelling, pale red, very tender to touch. Great sensitiveness to touch. Flesh sore to touch. Even a current of air blowing on the part causes great pain (Plb.).

Cannot get wide awake, head remains confused and stupid. Cannot get rid of dreams, even after waking the impression continues. Saliva found on the pillow in the morning.

Thick, dirty yellow coating on tongue, bitter taste on waking. Aphthae of weakly people. Thirst for cold water. Everything tastes bitter, even water (everything except water, Aeon.).

Canine hunger, especially at night. Hunger after meals with feeling of emptiness. If a meal is late, he is sure to suffer from it. Total loss of appetite. Craves spicy (Nux- v.) and wine.

Full feeling after the least food, but belching only better temporarily. After eating, a lump under mid-sternum. Stomach so weak it cannot tolerate any food at all. Very sour stomach. Slow digestion. Diarrhea after fruit. Dyspepsia after loss of fluids. Nausea, worse on sitting up. Stomach sore to touch.

Very flatulent. Guernsey described it as an uncomfortable distention of abdomen with a wish to belch up or a sensation as if the abdomen were packed full, not in the least better by eructation.

Gastric troubles of children who are always wanting dainties, irritable on waking, bad taste, white tongue. Tympany coming on early in a case. Spleen aching, sore. Liver swollen, sensitive. Feeling of subcutaneous ulceration.

Gallstone colic, duodenal, catarrh, jaundice. Fermentation in bowels, frothy, sour diarrhea. Yellow, watery, undigested diarrhea, with much flatus and no pain. Diarrhea of dark inky fluid, stools frequent at night, only after food during the day. Useful in cases where purgatives have been abused (Nux-v.).

Excessive seminal losses. Menorrhagia, metrorrhagia, post-partum hemorrhage. Leucorrhea before period, painful pressure towards groins and anus, fetid or bloody leucorrhea before period with contractions in inner parts.

Koch and others have attributed the hematuria of African intermittents to quinine.

Hering said Chin, is useful after abuse of chamomile tea when hemorrhage from uterus results.

Nash cured a case of acute rheumatism with Chin, on the modality "worse every other day."

E. Carleton related the cure of a case of spasm of the glottis in a middle-aged man. Sudden attacks. 3 a.m., suffocation seemed imminent. At length with one tremendous effort, while sitting bent forward, a little air would be forced into the lungs in spite of the epiglottis with a noise audible at a distance. After each succeeding expiration the inspiration would become less difficult. Chin. 200c cured.

A. Villers cured with Chin. 30c a girl, 20, who, after a chill, had a pain in her right hip worse by **every** movement and which she could only describe as being like the pain in the legs which occurred before the menses.

She was pale and had much hard nursing work. The menses were scanty and she was weak. Three days after taking Chin., the pain was gone after having persisted for five months.

Clarke removed with Chin, the dropsy and relieved all the other symptoms of a case of cirrhosis of the liver in a hard drinker. He remained at his work for many months, but in the end, his old habits proved too much for him and he died from an acute illness following a cold.

RELATIONS - Antidoted by: Ferr., Ars., Nairn., Carb-v., Aran., Eup-per., Ip., Merc., Nux- v., Puls., Rhus, Sep., Sulph., Verat. **Antidote to:** Ars., Calc., Cham., Coff., Ferr., Hell., Iod., Merc., Sulph., Verat. Is useful in bad effects of tea-drinking and after abuse of chamomile tea, with uterine hemorrhage. **Compare:** (1) Are. - prostration without pain, black stools. (2) Carb-v. - flatulence, diarrhea, great weakness, Chin, stool is caused by every attempt to eat and drink. (3) Coloc. - beer intoxicates easily. (4) Cedr., Caps., Cupr-ac. - black, thin stools. (5) Psor. - rapid exhaustion following acute diseases, Psor. has despair of recovery. (6) Puls. - bitter taste, worse eating at night. (7) Meniere's disease, Sal-ac. (8) Ph-ac. - li- entery, seminal emissions, diarrhea, but this

China officinalis does not exhaust with Ph-ac. (9) worse from brandy - Are., Carb-v., Nux-v. (10) diarrhea immediately after eating - Are., Aloe., Lyc., Podo., Staph., Trom. (11) hepatitis with great tenderness - Phos., Aeon., Are., Lyc. (12) Cephalanthus - intermittent fever, sore throat, rheumatic symptoms, vivid dreams. (14) Are., Cedr., Nat-s. **Complementary:** Ferr., Calc-p. **Incompatible:** after Dig., Sei.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CHININUM ARSENICOSUM

(Quinine Arsenite)

PHARMACY - chin-ar. Chininum arsenicosum. Quinine arsenite. Trituration or solution. **Historical dose:** All potencies.

CLINICAL - Angina pectoris. Anorexia. **Asthma.** Bright's disease. Chills. Coryza. Diarrhea. **Diphtheria.** **Dyspnea.** Epilepsy. Fever. Gastralgia. Headache. Hectic fever. Hemicrania. Hyperacidity. **Intermittent, fever.** Keratitis. **Malaria.** Nausea. Neuralgias. Ophthalmia. Palpitations. **Prostration.** Rheumatism. Scarletina. Sleeplessness. Sorethroat, malignant. Spinal, irritation. Syphilis. Tobacco, effects. Tuberculosis. Vertigo. Vomiting. **Weakness.**

HOMEOPATHIC - This is one of the salts of Chin, that combines the Chin, physical symptoms and Ars. mental symptoms. The Arsenite of Quinine combines many of the properties of its components, but having been proved, it can be treated as a separate medicine. Useful in diphtheria with great prostration, especially cases that are prolonged, and in malarial affections, neuralgia, etc.

Weariness and prostration, useful as a general tonic, often with very marked beneficial and prompt effect. Continuous fever with oscillating temperature. Profuse, exhaustive sweat, at night.

Stomach pain, pressure in solar plexus with tender spine just at back of it. **Hyperacidity** alternating with decrease of acidity. Anorexia. Eggs and fish produce diarrhea. Nausea and vomiting, followed by sleep. Sleeplessness due to nervous causes.

Periodic asthmatic attacks with great prostration. **Shortness of breath on ascend-**

ing. Palpitations. Sensation as if heart had stopped. Icy skin. Coldness of hands and feet, knees and limbs.

The periodicity is intensified and this is especially noted in the neuralgias. An irritable mood precedes the headache, which is worse by mental and bodily exercise.

MIND - **Great anxiety** and nightly delirium. Anxiety, with unquenchable thirst, must sit up bent forward, if possible at open window. Fears at night. Fear of evil. Fear of ghosts. Child sits up when lamenting. **Prostration and disinclination for mental work.** Believes he can't long endure such utter prostration. **Weakness and weariness.** Desire to sit or lie in one place and not be disturbed.

Great irritability. Irritability precedes headache. Censorious with friends. **Depressed spirits, wishes to be quiet and let alone.** Thinking of complaints aggravates, chills brought on by thinking of them. Mental dullness with inclination to vomit. Memory impaired. Hemicrania from fright.

Abdomen - Pain in epigastrium, as from foul stomach. Pain as from flatus wedged into flexure of colon. Pressure in solar plexus. Aching around navel and in ilium. **Colic from incarcerated flatus**. Severe colicky pains in evening, better by pressure. Soreness, in a small spot, below and to right of umbilicus. Distension and rumbling in abdomen. Left hypochondriac region enlarged. Abdomen bloated, in intermittent fever.

Back - Pain in muscles between left shoulder and neck, as if sprained, on rising from sleep, 4 p.m. Back feels weak as after a long journey.

Causations - Ill effects of tobacco. Fright. Eggs and fish produce diarrhea.

Chest - Severe stitching pains in chest, later in præcordia, worse on inspiration. Tightening sensation in mediastinum, in front at left of breastbone. Intercostal neuralgia. Aching in intercostal muscles, right side. Peculiar pain, dull with pressure, as if caused by flatulence, coming and going rapidly. Chest as if hollow or full. Paralysis of respiratory muscles on left side.

Ears - Ringing in ears like bells, with congestion towards head. Noise in ears and dullness of hearing.

Eyes - Flickering with pain and lachrymation. Keratitis. Intense photophobia and spasms of orbital muscles, gushing of hot tears. Scrofulous ophthalmia, worse after midnight.

Face - Pale, sallow and bloated face, intermittent fever. Trembling of facial muscles, especially orbicularis palpebrum. Swelling of submaxillary and parotid glands, in diphtheria. Dull pain in left temporal region at articulation of lower jaw. Face pale, sallow bloated. Blueness of lips, in tuberculosis.

Food - Anorexia. Appetite gone. Ravenous appetite. Aversion to meat. Desire for sweets. Indigestion from unripe fruit. Eggs or fish cause painless diarrhea at once. Gastralgia from ill-baked bread. Diarrhea after eating. Violent thirst for cold water, yet it disturbs. No thirst with fever. Aversion to cold water, during rheumatic headache. Water tastes bitter.

Head - Headache, worse mental and physical exertion. Tired feeling. Head feels too full. Throbbing. Dull, heavy headache, frontal and occipital. Darting pains running up into head. Bruised feeling all over head after fever and sleep. Hemicrania from fright, physical and mental exertion. Periodical headache in occiput, from noise or excitement. Neuralgic headache, in right temple and above eye. Furuncles and abscesses which relieve head.

Heart - **Cardiac dyspnea**, circulatory weakness after acute infections, early myocardial degeneration. Short of breath on ascending, cardiac dyspnea. Palpitations. Sensation as if heart stopped. Suffocative attacks, occurring in periodical paroxysms. Must have open air. **Circulatory weakness** after acute infections, early myocardial degeneration. Trembling of heart, palpitations, on leaning against back. Pulse small, very frequent. Pulse irregular. Pulse can't be felt on left side.

Kidneys - Frequent, tiresome urging. Spasmodic retention of urine, better application of hot cloths to chest. Urine scanty or increased.

Limbs - Weak limbs. **Coldness of limbs**. Tearing pains. Pain in left wrist, stiffness of left arm. Pain of fatigue in right wrist. Burning pain as in periosteum of left elbow. Annoying feeling of fatigue in right shoulder. Sore, tired aching in joints, bones and muscles. Tearing pains. Coldness of hands and feet, knees and limbs. Limbs icy cold, tuberculosis.

Lungs - Periodic asthma attacks, with great prostration. **Asthmatic breathing on ascending**. Dyspnea on ascending. **Suffocative attacks** beginning in morning and lasting till noon. Must sit bent forward and, if possible, at an open window during attack of suffocation, worse any other position. Breathing unsatisfactory, wants more air than can take into his lungs. Respiration very free, as if thorax were hollow. Bronchial catarrh with periodical fever, worse at night. Cough with little expectoration. Slight cough, at long intervals, seems to come from full feeling in chest. Dyspnea with anxiety, in tuberculosis.

Male - Peculiar burning ache about bladder sphincter and throughout urethra.

Modalities - Better by motion (vertigo). Better by eating (gastralgia). Better yawning. Better pressure. Better bending forwards. Better open air. Better sitting up. Worse rest, morning, forenoon. Worse when stomach is empty. Worse looking up. Worse motion. Worse on ascending.

Mouth - Burning canker spot on inside of left upper lip. **Fetid breath, in diphtheria and scarlatina**. Tongue thickly furred. Yellow, slimy coating on tongue. Dryness in roof of mouth, gnawing and nausea. Sweetish taste after clearing throat and coughing. Metallic bitter taste in mouth. Tongue black, sore and swollen. Tongue coated thick and brown, diphtheria. Soreness and redness of tip of tongue.

Nose - Profuse coryza, better erect position and out of doors. Post-nasal catarrh, worse left side. Copious nosebleed. Fluent coryza, profuse limpid and watery discharge. Nose stopped up with a purulent and bloody substance, diphtheria. Corners of nose excoriated, diphtheria. Yellow

Chinum arsenicosum discharge. Left nostril fills up when lying on that side. Nose clearer when in an erect posture and in open air.

Perspiration - Cold, clammy sweat. No sweat after fever, but weak, broken-up feeling in morning and no appetite for breakfast. Cold, clammy sweat, all over. Cold sweat after epileptic attack.

Rectum - **Burning in anus after stool.** Violent urging to stool. Diarrhea, in the morning, hardly had time to dress. Bad-smelling flatus. Diarrhea at night and after eating. Diarrhea from malaria. Stools thin, watery, offensive, with pain in bowels. Stool pappy, watery, fetid. Stool thin, brown, painless. Stool with mucus and blood, preceded and followed by tenesmus. Brown, liquid jelly-like lumps.

Skin - Goose bumps, especially of lower extremities. Dry skin, pallor of skin, with rapid exhaustion. Periodical furuncles and abscesses. Burning, erysipelatous redness and violent itching, worse by warmth, better by cold.

Sleep - Sleeplessness due to nervous causes. Deep sleep after suffocative attacks. Goes to sleep after tea and sleeps heavily all night. Sleep frequently interrupted. **Restless sleep.** Restless until 3 a.m., constantly changing position, particularly as soon as pillow becomes warm. Awakes from sleep exhausted and bathed in sweat after attack of dyspnea. Nervous restlessness, anxious dreams. Night full of visions, heavy sleep till morning.

Stomach - Burning, sore feeling in stomach, worse motion, going up stairs, better expanding chest.

Hyperacidity (Rob., Arg-n.). Alternation of hyperacidity and decrease of acid. Sour bitter eructations.

Regurgitation of food. Hiccough and belching, followed by urging to stool. Empty sensation. Nausea with waning strength, especially of lower limbs. Nausea and vomiting followed by sleep. Sensation from stomach through entire intestinal canal as if diarrhea would set in. Nausea and vomiting, followed by sleep, with hemicrania.

Temperature - General chill and cold. **Chill comes in waves** in evening, with

Chinum arsenicosum restlessness, gooseflesh, worse moving hands and feet to a cool place in bed, also on motion, and by thinking of it. After the feverish cough in the chill, no reaction of warmth. Heat with nausea.

Continuous fever with weakness. After chill, fever toward midnight, pulse full and strong, with inclination to throw off covers.

Throat - Throat feels sore and raw, worse coughing and sneezing. Constant hacking and clearing of throat. Malignant angina during scarlatina, with paleness of skin, and exhaustion. Hoarseness, with diphtheria.

Diphtheria with great fetor oris, submaxillary glands swollen and painful. Tonsils covered with a grey exudation. Swallowing of liquids very difficult.

Vertigo - Sudden attacks of vertigo. Vertigo is worse looking up.

COMMENTS - Bonino, who gave it a prolonged proving, found the chief effects were manifested on the stomach, solar plexus, ligaments and skin. According to him, it corresponds to tobacco intoxication and its effects, indigestion from unripe fruits, and stomach pain from coarse food or ill-baked bread.

Marked weakness, prostration and disinclination for mental exertion. Effects of severe and depressing influences on the mind to convalescence from long-lasting sickness. Slow circulation, relaxed limbs.

Chronic rheumatism of the joints without swelling. Tertiary syphilis of periosteum. Colic from incarcerated flatus. Intermittent fever with predominating chills. Little thirst and continuous almost convulsive yawning.

RELATIONS - **Compare:** (1) Chin., also Ferr- citric. in nephritis with great anemia, acid dyspepsia in chlorosis. (2) Chin-m. - in severe neuralgic pains around eyes with chills, exaggerated sensitiveness to alcohol and tobacco, prostration and restlessness. (3) Enothera - effortless diarrhea with nervous exhaustion incipient hydrocephaloid. (4) Macrozamia spiralis - extreme debility after illness, collapse.

REFERENCES - Boericke. Clarke. Murphy.

***CHININUM MURIATICUM

(Quinine Muriate)

PHARMACY-chin-m. Chininum muriaticum. Quinine muriate. Trituration or solution. **Historical dose:** All potencies.

CLINICAL - Alcoholism. Eyes, neuralgia. Gastritis. Headaches. Intermittents. Iritis. Keratitis. Neuralgia. Pannus. Scleritis. Tobacco, effects. Trachoma.

HOMEOPATHIC - Chin-m. resembles Chin-ar. very closely. An excellent proving by old-school authorities was published in Virchow's Archives.

Chin-m. has been used for eye affections, especially when accompanied by severe intermitting neuralgic pains in and around the eyes. Eye affections with chills. Lachrymation. Photophobia. Ulceration of cornea of malarial origin.

Intermittent fever following bronchopneumonia, shaking chill 5 a.m. accompanied by fatiguing cough, rattling in bronchi without expectoration.

In one prover it caused an exaggerated sensitiveness to alcohol and tobacco. Two glasses of beer make him tipsy. Prostration and weakness are marked in all provers and accompany the headaches and other symptoms.

Feeling of enlargement in eyeballs in tongue, head symptoms are better after a walk.

RELATIONS - Antidoted by: Ferr-o-r. **Compare:** (1) Chin-s., Chin-a. (2) Nat-m. - headaches.

REFERENCES - Clarke.

***CHININUM SALICYLICUM

(Quinine Salicylate)

PHARMACY-chin-sal.Chininumsalicylicum. Quinine salicylate. Trituration or solution. **Historical dose:** All potencies.

CLINICAL - Ear, disorders. Deafness. Hearing, impaired. **Meniere's disease.** Tinnitus.

HOMEOPATHIC - Cozzolino stated "Of all the preparations of Quinine the Salicylate is the most injurious to the structures of the internal ear and, therefore in all likelihood, the most powerful homeopathic curative."

REFERENCES - Clarke.

***CHININUM SULPHURICUM

(Quinine Sulphate)

PHARMACY - chin-s. Chininum sulphuricum. Quinine sulphate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Angina pectoris. Anorexia. Asthma. **Black-water, fever.** Brow, ague. **Cachexia.** Cancerous, ulcers. Cholera. Concussion. Deafness. Delirium. Diarrhea. Dropsy. Dysentery. Dysmenorrhea. **Ear, disorders.** Gangrenous, suppurations. Gravel. Headaches. Hearing, impaired. Hematuria. Hemorrhages. Hemorrhoids. Intermittent, fever. **Malaria. Meniere's disease. Nephritis.** Neuralgia. Noises, in head. Parotiditis. Pruritus vulva. Puerperal, convulsions. Pyemia. Rectum, prolapsed. Remittent, fever. **Rheumatism.** Scarlatina. Spinal, irritation. Spleen, enlarged. **Tinnitus.** Typhus, fever. Urticaria. Varicose, veins. Variola.

HOMEOPATHIC - Chin-s. closely resembles Chin, in its effects, but as it has been proved separately and as observations of the effects of over-dosing have supplied many additional symptoms, there is plenty of guidance in the selection of one in preference to the other.

In old-school practice, the Sulphate of Quinine has almost entirely taken the place of the crude bark as a remedy. A dose of Chin-s. in high potency sometimes arouses suppressed malaria and brings back the paroxysm. Aside from its undoubted influence over malaria, it is indicated whenever there is a marked periodicity and spinal sensitiveness.

Chin-s. acts on the nerves causing great sensitiveness to external influences. Perin odical neuralgia (Cedr.).

Tinnitus. Violent ringing, buzzing and roaring in ears. Deafness. Tinkling in the ears. **Meniere's disease.** Buzzing, especially in left ear, sometimes occasioning deafness on that side. Hardness of hearing, sometimes with violent headache.

Rapid decrease of red blood cells and reduction of hemoglobin with tendency to leucocytosis. Thready vessels. Weak and nervous, little exertion causes palpitations. Inability to remain standing. Falling in street. Wants to lie down.

Deathly sick and faint, felt as if she would sink through bed.

Acute Joint rheumatism. Gout. Itching and congested conditions of the rectum. Symptoms of **chronic interstitial nephritis.** Retro-bulbar neuritis with sudden loss of sight. Hiccough.

MIND - Memory weak, thoughts not clear. Indolence on waking in morning. Indolence with lassitude. Indifference, stupid expression, vacant stare, aversion to answering questions. Discouragement, inclination to cry. Slowness of reflection. Lost power of naming objects. Speechless.

Despair. Melancholy. Morose, depression and ill-humor. Anxiety with fear. **Anxiety about future.** Nervous. Fits of anxiety. **Fear of impending evil.** Great anguish. **Fear of misfortune. Loud sobbing and weeping.** Buoyancy, excited state, later despondency. Clearness of mind, abundant ideas, at night. Making many plans in evening.

Semiconsciousness, partly insensible to pain. Decrease of imaginative faculty with inability to remain standing. **Delirium during fever.** Delirium with great restlessness, followed by stupor in morning. **Delirium with humming in ears.** Delirium with screaming and jumping out of bed. Delirium all night while lying quietly on back. Delirium as if from intoxication.

Abdomen - Distension of abdomen, with much rumbling and discharge of flatus. Flatulent colic of an intermittent type. Movement in the abdomen and emission of wind, after a meal, with violent risings. **Pain in region of liver and spleen on bending, taking a deep breath, or coughing.** Violent cutting, colicky pains in region of transverse colon, after eating. Pains in liver shortly before going to bed. Dull pain in region of spleen, disappearing on pressure. **Painful enlargement of spleen after intermittent fever. StiuAies'vn** spleen.

Back - Periodical pains in back. **Periodical cervical neuralgia**. Cervical, dorsal spine aches or very tender with oppression of breath. Spine, great sensitiveness of the dorsal vertebrae, pain on pressure. **Spine painful on pressure in all stages of fever paroxysm**. Last cervical sensitive. Pain extends to head and neck.

Blood - An immediate and rapid decrease in red blood cells and reduction in hemoglobin with increase in elimination of chlorides. Tendency to polynucleated leucocytosis.

Chest - Oppression of chest, can scarcely breathe from weakness. Pain across the chest. **Painful sense of pressure and weight on chest**. Pressure on the left side of the chest. Intercostal neuralgia.

Ears - **Meniere's disease**. Noises in ears, worse during a chill. **Noises in ears, worse during vertigo**. Violent ringing, buzzing and roaring in ears. Tinkling in the ears. **Tinnitus**. Deafness. Deafness from concussion of brain. **Hardness of hearing**, sometimes with violent headache. Buzzing, especially in left ear, sometimes occasioning deafness on that side.

Eyes - Dryness of eyes. Eyes staring and lustreless. Eyes close from weariness. Conjunctiva injected. Lachrymation and conjunctivitis. Squint on alternating days (children). Sensibility of the eyes with lachrymation. Extreme photophobia. Violent stitching, throbbing pains. Orbital neuralgia. Pupils dilated or contracted. Twitching of eyelids. Lids red and swollen. Disc and retina very anemic.

Face - Flushed face. Redness of the face. Heat of the face. Pale anxious face. Earthcolored face. Dull and stupid expression. Complexion yellow. Sickly look, air of suffering with sunken eyes. Neuralgia under eye. **Neuralgia pains return with great regularity, better by pressure**. Brow ague. Bluish-colored lips. Eruption on the upper lip.

Female - Passive metrorrhagia, with diminished irritability. Violent uterine contractions sufficient to produce miscarriage. Labor pains appearing like tonic spasms. Labor pains with convulsive twitches, unconsciousness after childbirth. Violent uterine neuralgia, returning at same hour every afternoon, worse after confinement.

Food - Want of appetite, for many days. Anorexia. Indifference for food and drink. Hungry at night. Bulimia, sometimes at night. Hunger with faintness, as from fasting. Excessive repugnance to all food. Disagreeable taste of food. Bread appears bitter. Thirst, mostly only during sweat. Thirst during chill and apyrexia.

Head - Confusion feeling in head. **Intermittent neuralgia at regular hours**. Dull headache with debility or numbness. Violent headache, throbbing, pressive, or tearing pains in forehead and temples. Violent throbbing, with vertigo and heat in face and prostration. **Beating, throbbing in vertex**. Pain in forehead and temples, increasing gradually at noon, of malarial origin, with vertigo and pulsation, worse left side. Head as if enlarged. Sensitiveness and tightness of scalp. Soreness of roots of hair.

Heart - Precordial anxiety. Palpitations. Palpitation from slight exertion. Angina pectoris with marasmus. Heart weak and feeble, with prostration. Pulse full and large. Pulse weak, trembling, scarcely perceptible.

Kidneys - Burning in urethra during urination. Small amount of urea and phosphoric acid with excess or uric acid and abundance of chlorides. Excessive flow. Albuminuria. Deposit of straw yellow, granular or brick red sediment. Diminution of urine. Frothy urine. Sediment yellowish-white of a strong odor. Brick-dust sediment. Gravel. Profuse hemorrhage. Urine, bloody, turbid, slimy, clay-colored, greasy sediment. Hematuria and hemoglobinuria.

Limbs - **Acute joint rheumatism**. Joints very sensitive. Heaviness and aching in all limbs and joints. Paralysis of the limbs. Weakness, trembling of the limbs. Cracking of the shoulder joint. Tearings in the legs. Painful sensitiveness in the malleoli. Edematous swelling of the feet.

Lungs - Increased breathing. Slow, irregular breathing. [11] Dyspnea and anxiety with intercostal pain. Accelerated breathing, with abnormal rising and falling of thorax. Tickling at bifurcation of trachea. Irritation in the throat. Violent cough during the day. Dry, loose cough. Cough caused by a small, painful spot in the throat. On coughing, expectoration of gelatinous mucus. Hemorrhage from lungs with diarrhea, fever, cold sweat and prostration.

Male - Suppression or diminution of sexual desire. Forcing pain in the direction of the groins.

Modalities - Better from yawning. Better pressure. Better bending forwards. **Worse from exact periodicity** (Cedr.). Worse 10 a.m. to 11 a.m. Worse touch, cold. Motion causes chilliness. Stooping causes giddiness.

Mouth - Aphthae in weakly persons. Dryness with heat, thirst. Sensation of constriction in the mouth. Great paleness of the buccal cavity. Erosion of the gums. Accumulation of mucus in the mouth. Saliva increased. Nocturnal angina. Taste pasty, flat or bitter. Speech disturbed or difficult.

Nose - Frequent bleeding at the nose. Severe nosebleed in young people. Frequent sneezing.

Perspiration - Profuse sweat, worse but exhausts. Sweats with thirst. Sweats profuse, even while quiet. **Sweats improves all symptoms but headache, which is aggravated**. Sweats coming on gradually after heat. Sweats on least motion. Sweats in mornings in bed. Profuse, exhausting sweats with nightly diarrhea. Profuse sweat on back and neck, during sleep.

Rectum - Obstinate constipation. Constipation or soft stools, followed by weakness. Dysentery. Diarrhea. Evacuations exhale a gangrenous odor. Stools are white and pap- like. Stools hard, insufficient, indolent, sometimes in small fragments. Nightly diarrhea. Urgent inclination to evacuate. Involuntary stools. Many stools during the day. Hemorrhoids.

Skin - Itching, erythema. Jaundice. Vesication, pustules, purpura. Skin is flaccid or

Chininum sulphuricum sensitive to the touch. Shrivelled skin. Petechiae. Urticaria. Red rash over whole body with severe stinging, followed by desquamation. Sudamina and red spots. Gangrenous inflammations. Formation of a thick scurf.

Sleep - Frequent yawning. Drowsiness during the day. Sleep profound and unrefreshing. Agitated, with debilitating sweats, tossings. Insomnia from fever and chills. Sleeplessness from overstimulation of nervous system. Extravagant dreams.

Stomach - Dyspepsia or heartburn, with nausea, loathing of food, eructations, bitter taste, vomiting of bile. Heartburn or burning in stomach and esophagus, and feeling of constriction and pulling sensation. Cramp in the stomach. Fullness in the stomach, and tension of the abdomen. Risings after a meal. Bitter hiccough and retching. Nausea with risings. Nausea, with inclination to vomit. Vomiting during an intermittent fever. Pressure, heat in the stomach.

Temperature-Malaria. Anticipating chills. Subnormal temperature. Painful swelling of veins during a chill. Shivering even in a warm room. Chill daily at 3 p.m. Clear apy- rexia. **Delirium during fever.** Increasing fever and prostration with profuse night sweats. Thirst in all stages. Anguish with fever and chills. **Stages of chill, fever and sweat well marked and distinct.** Tertian or quartan fever with trembling of limbs, pain in spleen, spine sensitive, face pale, thirst, lips blue, ringing in ears. Typhus with great prostration.

Throat - Pains in the throat. Burning in the throat. Tickling in the larynx. Scraping in the throat. Sensation of dryness in the pit of the throat. Feeling as though a foreign body were lodged there.

Tongue - Bitter taste with clean tongue. Tongue white. Tongue thick yellow fur. Tongue yellow at root. Tongue white or yellow in centre, pale at margin. Dryness of tongue.

Vertigo-Vertigo with tinnitus. Vertigo with twitching of the eyelids, and throbbing headache. Vertigo on stooping. **Whirling, as if the head were falling backwards.**

As if intoxicated with buzzing in the ear and giddiness. Falling in street, inability to remain standing.

Vision - Can see objects only when looking sideways. Transient amaurosis. Amaurosis. Sparks before the eyes. Sight dimmed as by a fog with dryness of the eyes. Black spots. Obscuration of the sight, when looking at an object.

COMMENTS - Chin-s. is even more powerful as an anti-septic than Chin., and it is probable that it is in virtue of its property of antagonizing the malarial poison that it suppresses intermittent fever when it does not cure. It only cures when the fever corresponds to its own type. "Black-water fever" has been developed by Chin-s. in intermittents.

Koch deserves much credit for showing that the worst features of African fevers are due to over-dosing with Quinine and not to the disease.

When a fever is "suppressed" there is generally an unholy alliance between disease-force and drug-force, which is expended on some part of the organism, resulting at times in lifelong ill-health. The "Quinine cachexia" is well-known, including a sallow complexion, emaciation, deafness and ringing in the ears, enlarged spleen, disposition to shiver and great debility.

Extremely well marked intermittents, the attacks returning at the same hour each day. The onset may anticipate. Great sensitiveness to external influences. Sleeplessness and over-stimulation of nervous system. Skin flaccid and sensitive to touch. Red rash over whole body with severe stinging, followed by desquamation. Twitching of left eyelid, worse in the evening. Aphthae in weakly people. Tartar on teeth.

Debilitating discharges. Weak and nervous, a little exercise causes sweat from least exertion. Head gradually breaks into sweat when perfectly quiet. Headache extending from occiput to forehead. Whirling in the head like a mill-wheel.

Hunger at night. Prolapsed rectum, especially in children. Hematuria and hemoglobinuria. Arrhythmia. Palpitations.

Pain fit/ness and **swelling of varicose veins** during a chill. Julius E. Schmitt cured a case on this last indication.

E. W. Sawyer related this instructive history. He learned from his cook that her brother (age 16), could not take a particle of quinine without causing a profuse flow of blood with the urine, sometimes within half an hour. Trástaí followed every time his doctors had tried to break his ague with quinine.

A year later a farmer's wife, age 60, came to Dr. Sawyer to be treated for bloody urine unattended with pain or uneasiness. She attributed it to strain from walking two miles on a slippery road. She had been for months

under Hygienic treatment without benefit and was alarmingly weak from loss of blood. Rhus-t. 200c, Ham. lx. Erig. lx, Chin. lx, Ferr-m. 2x were given in succession in vain.

At last, calling to mind the case of the youth, he gave Chin-s. in 1/16 grains doses three times a day and a prompt cure was effected.

Tyrrell had a patient in whom in any potency it caused her to become "deathly sick and faint, thought she would die, could not raise her head, felt she would sink through the bed." Sinking sensation.

Sac-alb. produced in her the same symptoms and she accused the doctor of having given her quinine (Ars. has "sinking sensation, as if bed had gone from under her and she had alighted on the floor." Bell., Dulc., Rhus-t., Lach., have "sinking through the bed.").

RELATIONS - Antidotes: Parthenum, Nairn., Lach., Am., Puls. **Compare:** (1) Chin., Chin-sal. - deafness, tinnitus and Meniere's disease. (2) Ars., Eupat., Methyl blue. (3) Camph-br. is said to intensify the action of Quinine and render it more permanent. (4) Baja, an East Indian drug, said to be almost infallible in intermittent fever, quartan type, pulsating headache injected eyes, flushed face. Liver and spleen enlarged. Edema. (5) Also Pambotano, a Mexican remedy for intermittent and tropical fevers.

REFERENCES - Boericke. Clarke. Murphy.

***CHIONANTHUS VIRGINICA

(Fringe-tree)

PHARMACY - chion. Chionanthus virginica. Fringe-tree bark. Chionanthus americana. N. O. Oleaceae. The bark, which is the part employed, contains Saponin. **Tincture. Historical dose:** Tincture and all potencies.

CLINICAL - Cholecystitis. Constipation. Debility. **Diabetes.** Emaciation. **Gallstone, colic. Gallstones.** Headaches. Jaundice. **Liver, diseases.** Malaria. **Migraines.** Neurasthenia. Nursing women, complaints. Pancreatic, disease.

HERBAL - Chionanthus is useful for neurasthenia, periodical, sick, menstrual or bilious headaches. It has a powerful action on the Ever and on the head. Taken for several weeks, in drop doses, will often break up the sick headache habit. Pain in the forehead, chiefly over eyes. Eyeballs very painful with pressure over root of nose.

HOMEOPATHIC - Chion. acts powerfully on the liver and is indicated in hypertrophy, obstructed liver in malaria districts. **Enlarged liver,** constipation, clay-colored stool with jaundice and high-colored urine. Liver region sore. Liver derangement. **Gallstones** (Berb., Cholest., Calc.). Chronic jaundice. **Jaundice,** recurring every summer. Jaundice with arrest of menses.

Enlarged spleen (Cean.). **Diabetes mel- litus.** Paroxysmal, abdominal pain. Bruise, soreness is felt in various organs, liver, eyeballs etc. Pains ascend upwards from forehead, stomach etc. Sensation of contraction of stomach as if something alive moving in it with uneasy sensation in liver and spleen. Rheumatic pains in left ankle and tarsal bone.

MIND - Listless, apathetic. Feels worn out. No desire to do anything. Wants to be let alone. Hypochondriacal, inclined to look on the dark side.

Abdomen - Abdominal pains somewhat better by lying on stomach and abdomen. Cutting and twisting pains all through the abdomen. Sore abdomen, enlarged with jaundice and constipation. Gripping at navel. Aching in umbilical region, grip-

Chionanthus virginica ing. Feels as if a string were tied in a "**slip-knot**" around intestines which was suddenly drawn tight and then gradually loosened. Pancreatic disease. Weakness in hypogastrium. Passage of offensive flatus. **Back** - Sore, weak, bruised feeling all over small of back. Small of back exceedingly weak. Pain from seventh to tenth dorsal vertebra, on waking.

Constitutions - Suited to the bilious temperaments.

Eyes - Eyeballs feel bruised and sore. Yellow conjunctiva. Whites of eyes have a yellowish cast all over. Blood vessels of sclerotic very much enlarged.

Face - Face has a yellowish appearance. Perspiration on face during fever, while asleep.

Food - Complete loss of appetite. Tried to eat, but food nauseated. Eating and drinking relieved empty, weak feeling in stomach to some extent.

Head - Severe bilious, sick headaches, worse stooping, motion, jarring. Dull frontal headache, over root of nose, over eyes, through temples. Feels sore and bruised. Heavy, dull feeling in forehead. Forehead very hot and dry. Perspiration on head during fever, while asleep.

Kidneys - Bile and sugar in urine. Large amount of high specific gravity, frequent urination. Urine very dark, orange-yellow color, thick, black, syrupy.

Limbs - Cold sweat on the back of hands during stool. Rheumatic pain in left ankle and tarsal bones. Rheumatic pain in articulations of left thumb. Sore, aching, tired feeling in lower limbs.

Liver - Hypertrophy of liver. Hepatic region tender. Cholecystitis. Bilious colic. Gallstones. Obstruction of liver in malaria districts. Enormous liver, constipation, stools clay-colored, skin very yellow. Soreness in region of liver. Chronic cases of jaundice. Jaundice recurring every summer. Jaundice with arrest of menses.

Lungs - Astringent expectoration.

Modalities - Better from lying on abdomen. Worse from jarring. Worse motion. Worse cold.

Mouth - Tongue heavily coated. Tongue, broad with thick greenish yellow fur, feels drawn up. Dry sensation not relieved by water, also profuse saliva.

Nose - Pressing at the root of nose or squeezing on bridge. Drawing or pressing at root of nose during headache.

Rectum - Constipation. Diarrhea. **Claycolored stool**, tarry, also soft, yellow and pasty. Stool copious, watery, dark brown. Stools undigested and showing an absence of bile. Stools terribly offensive, like carrion. Emission of flatus during stool. Hot, scalding sensation in anus during stool. Cold sweat on forehead and back of hand during stool.

Skin - Marked moisture of skin. Yellow, sallow, greenish, itching. Chronic jaundice, recurring every summer, caused by drinking too much cider.

Sleep - Could not go to sleep before midnight. Nervous and restless after going to bed. Feels very badly and sick all over on waking in the morning. Sleepy during the day, could hardly keep awake. Perspiration on head and face during sleep.

Stomach - Belching, nausea, and vomiting. Great nausea and retching with desire for stool. Bitter, sour, hot, bilious, ropy, gushing vomiting, sets the teeth on edge. Vomiting with colic and cold sweat on forehead and back of hands. Nausea and vomiting of pregnancy.

Temperature - Cold sweat on back of hands. Chill at noon. Chilly sensations darting through body from front to back. Aching in back or limbs before and during fever. Wants to be covered during chill and fever. No thirst during chill or fever. Headache and backache during fever, eyeballs very sore.

COMMENTS - A proving of Chion. was made by Dr. John Z. Lawshe and was communicated with additions to the Southern Journal of Homeopathy by H. C. Morrow.

One observer, who gave Chion. to a nursing woman who had liver disorder with jaundiced tint, noticed that while rapid improvement of the liver symptoms occurred, at the same time the milk disappeared and the menses returned.

The medicine was stopped and Sabal. given and the milk returned. Six weeks later Chion. was again given and identically the same result took place." Jaundice with arrest of menses" should be a strong indication.

Sherbino cured a case of neurasthenia in a clergyman who had complained of perspiration all summer. Weakness in arms and legs. Prostrated after preaching, mind ran on sermon and kept him awake. Stupid, drowsy all the time, appetite poor, all food gave distress.

RELATIONS - Compare: (1) Bry., Card-m., Cean., Chin., Euon., Chel., Lept., Merc., Podo. (2) In bilious vomiting, Bry., Eup-per., Iris. (3) Nux-v., in green frothy stools, Elat., Grat., Kali-bi., Mag-c., Iris., Merc. (4) in weakness, bruised and sore feelings, Arn., Bapt., Bry., Eup-per., Gels., Nux-v., Rhus-t. in headache, Bell., Bry., Caps., Gels., Nux-v. (5) sensation of something alive. Croc., Thuj.

REFERENCES - Boericke. Clarke. Phatak.

***CHLORALUM HYDRATUM

(Chloral Hydrate)

PHARMACY - chlol. Chloralum hydratum. Choral hydrate. This gas is proved in the form of Chlorine water. Solution, trituration. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Anemia. Angina pectoris. Asthma. Bedsores. Bedwetting. Bronchitis. Chorea. Conjunctivitis. Coughs. Dermatitis. Dropsy. Dysmenorrhea. **Dyspnea.** Emaciation. Erysipelas. Eye, disorders. Hay, fever. Hemorrhagic, diathesis. Heart, disorders. Hydrophobia. Keratitis. Labor, abnormal. Laryngitis. Laryngismus, stridulous. Leucorrhea. Night-terrors. Palpitations. Paralysis. Ptosis. Puerperal, convulsions. Purpura. Spasms. Strokes. Urticaria.

HOMEOPATHIC - Chloralum hydratum was used in physiological doses is a powerful hypnotic and cardiac depressant. Introduced as hypnotic, Chlol. soon showed that it possessed wide powers of disturbing the organism and many people (including the late Professor Tyndall) were fatally poisoned by overdosing.

A person under the influence of Chlol. hears voices, sees visions of arches, etc.,

when in the dark or when the eyes are shut. Emotional excitability, hallucinations. Night-terrors in children.

Marked effect on the skin, producing rashes, erythema, ecchymosis, purpura etc. These symptoms have been used homeopathically with much success, especially in the treatment of allergic hives.

Marked action on respiratory organs. The brain, eyes, urinary and sexual organs and skin are most affected.

Inflamed and ulcerated mucus membranes. Muscular prostration. Spasms of the glottis. Marked sensation of constriction. Patients rapidly emaciate.

MIND - Fears insanity or losing senses. Forgets names and persons. Night-terrors.

Constitution - Hemorrhagic diathesis.

Ears - Hears voices.

Eyes - Protruding eyes, blood-shot and watery. Conjunctivitis, burning in eye and lids, eyeball feels too large, everything looks white. Circles of light, black spots. Illusions of sight where eyes are closed or at night. Dim vision.

Face - Swollen with protruding eyes.

Head - Morning headache, worse in forehead, also in occiput, on motion, better in open air. Passive cerebral hyperemia. Feeling as if hot band were drawn from temple to temple.

Lungs - **Sudden dyspnea** from spasms of the vocal cords, with protruding eyes, blue face, cold sweat. Extreme dyspnea with sensation of weight and constriction of chest. **Inspiration free but cannot exhale.** Asthma or hay fever with sleeplessness. As if air were forced into upper chest.

Modalities - Wants fanning, open air. Better from open air. Better motion. Worse from expiration. Worse evening, night, after midnight. Worse lying down. Worse after hot drinks. Worse stimulants. Worse eating.

Mouth - Putrid odor from mouth. Putrid aphthae. Tongue, dry, black.

Nose - Smoky or sooty. Coryza, acrid with headache, suddenly running in drops with lachrymation.

Skin - Red blotches like measles. Intense itching. Urticaria, worse spirituous liquors, hot drinks. Erythema aggravated by alcoholic drinks, with palpitation, causes pain in tendons and extensors. Surface of body stone-cold. Wheals come on from a chill, better warmth. Purpura (Phos., Crot-h.).

Skin - Sensitive, dry, yellow, shriveled.

Sleep - Insomnia, hallucinations, horrid dreams. Somnolence.

Temperature - Easy sweat.

Throat - Choking sensation inability to swallow. Laryngitis. Laryngismus stridulous. Aching tickling or whistling in throat pit.

COMMENTS - W. S. Gee cured with it a terrific headache of several days' duration. Dull, heavy aching in forehead, coming on each morning 8 a.m., worse sudden motion, lying down, better in open air.

The 6c gave great relief, though it aggravated at first, the aggravation occurring ten minutes after each dose. One dose of the 25x cured permanently.

The brain is congested, hard, full, pressing pains in head. Eyes injected, the eyeballs feel too large, lids swollen, heavy, can hardly lift them. Asthma and wheezing respirations, probably due to an urticaria condition of the lung tissue.

Insomnia due to over-fatigue. Snoring in sleep. When lying on back inspiration was through the nose, while expiration was blown from the lips as in a stroke.

The heart's action is increased with oppression. Palpitation, hypertrophy. Paralysis of heart. Heart dilated or weakened with peculiar fullness and lightness of chest and sense of emptiness in stomach. Marked sense of sinking and oppression at the pit of the stomach, and shows a profound action on the solar plexus.

RELATIONS-Antidotedby: Am-c., Atro., Dig. (heart), Mosch., Electricity. **Compare:** (1) Bell, and Op. in stertorous breathing and puffing out cheeks, Gels., Nux-v. (2) in urticaria, Astac. Bell., Chlf., Chin., Op., Apis. (3) Veronal - a dangerous drug made by the action of alcohol upon urea and contains the same radical that alcohol does. Makes a man just as drunk as pure alcohol. Staggers, cannot stand up. (Varney.) Confluent, reddish spots, dermatitis, itching of glans and prepuce, circumscribed dermatitis patch on first metacarpal phalangeal joint. (4) Luminal - sleeplessness with skin symptoms, migraine headaches and lethargy like epidemic encephalitis. (Royal).

***CHLORAMPHENICOLUM

PHARMACY - chloram. Chloramphenicol. Chloromycetinum. Antibiotic drug. Originally from cultures of streptomyces venezuelae. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Anorexia. Aplastic, anemia. Cholera. Delirium. Glossitis. Hallucinations. Nausea. Stomatitis. Typhoid, fever. Vomiting. Weakness.

HOMEOPATHIC - Extracted initially from bacterial cultures of the streptomyces venezuelae, chloramphenicol, or Chloromycetin, is obtained today by synthetic methods. Digestive absorption is good and rapid. The intestinal concentration of the antibiotic is active, causing a change in the intestinal flora, which is common to the wide spectrum antibiotics (tetracyclines).

Toxicology. Gray's syndrome can be seen in the new-born and nursing child, characterized by vomiting,

meteorism, cyanosis and irregular respirations, terminating in death by the collapse of the vasomotor system. This syndrome can also be observed in children and adults.

Serious disturbances of the bone-marrow in adults, ending in aplastic anemia, hypoplastic anemia, reduction of the amount of blood platelets, reduction of granulous leukocytes, or consumption, occurring as long as 1 to 3 months after treatment.

The symptomatology was established by O. A. Julian, **referring to the toxicology** of chloramphenicol, and resulting in a homeopathic proving from January to March 1970 with the participation of six provers, including three women. The potencies used were 30c, 7c, 3x and a placebo.

Pronounced asthenia or weakness. Discouragement in the morning. Pallor. Euphoria. Anorexia, nausea, vomiting. Intestinal spasms with diarrhea. Aversion to sugar and sweets. Pains at different levels of the vertebral column and pelvis. Vesicular, papular, muscular erythema. Considerable axillary sweating.

MIND - Delirium. Mental confusion. Hallucinations. Agitation with the need to move a great deal. Apathy, extreme muscular weakness, depression. Feels sad, despairing, but the condition improves on rising.

Abdomen - Enterocolitis of the mucus membranes. Typhoid fever. Spasmodic infections of the colon. Infantile cholera. European cholera. Catarrhal icterus.

Back - Pain in the back and between the shoulder blades. Lumbar and sacroiliac pains on the right. Pain on the left side of the back. Pain in the lumbar region in sharp bouts. Iliac and lumbar pains lasting a fortnight.

Blood - Aplastic anemia, degeneration of the reticular system, of leukocytes, of blood platelets. Prolonged bleeding. Irreducible blood-clot.

Ears - Disorders of the cochlea.

Eyes - Paresis of accommodation, ciliary muscle. Optic neuritis.

Female - Vulvovaginitis.

Food - Aversion to sugar and sweets. Anorexia. Morbid hunger, causing pain in the morning. Thirst for large quantities of liquid, especially beer.

Head - Recurring headache.

Heart - Vascular hypertrophy with bouts of arterial tension. Pulse accelerated. Tachycardia not altered by changing position.

Kidneys - Dysuria. Frequent urination. Hematuria. Colicky pain in the left kidney.

Limbs - Muscular weakness. Polyneuritic pains. Pain in the patella. Chronic degenerative rheumatism. Dry arthritis of the knee. Progressive **polyarthritis**.

Lungs - Dyspnea without cause. Wheezing, not altered by changing position.

Modalities - Laterality predominantly right-sided. Better from pressure by the hands. Better holding the head high. Worse after meals.

Mouth - Mouth foul-smelling. Dull, bitter taste. Dryness of the mouth, with bad breath. Tongue black, hairy. Glossitis. Inflammation of the lips. Bleeding gums. Stomatitis.

Nose - Nosebleed.

Rectum - Constipation, vomiting. Cholera-type syndrome. Diarrhea. Colic and diarrhea, following the ingestion of sweet pies. Urgency, with tenesmus. Stools thin, dark, scanty. Stool soft with nauseating fetid odor. Anal burning. Inflammation of the anus and rectum.

Skin - Ecchymosis and petechial purpura. Vesicular, papular, muscular erythema. Rash like scarlet fever. Allergic syndrome with fever and edema. Considerable axillary sweating. Hair seems to grow darker. Hardened erythema. Urticaria.

Sleep - Extreme sleepiness after meals. Waking at night from 2 a.m. to 5 a.m. with a throbbing headache.

Stomach - Hematemesis.

Temperature - Hypothermia. State of collapse with cyanosis.

Throat - Redness with difficulty in swallowing.

Vertigo - Prolonged bouts of vertigo.

COMMENTS - Extreme sleepiness around 5 o'clock in the afternoon. In bed, at night, discomfort throughout the body. Restless, must move, gets out of bed, because he feels too hot, forced to uncover himself and walk. Heat or impression of heat over all parts of the body, compelling him to move.

RELATIONS - Compare: (1) Ars. - Prostration, agitation, fear of death, burning pains. Cadaverous smell of secretions. (2) Verat. - State of collapse with icy sensation over whole body: face pale, bluish, cold sweating. Cramping abdominal pains with diarrhea. (3) Rhus-t. - Aching and stiffness, agitation, need to change position, pain in the lumbar and sacral regions with stiffness, aching limbs, burning, stinging vesicular eruption.

REFERENCES - Julian.

***CHLOROFORMUM

(Chloroform)

PHARMACY - chl. Chloroformum. Chloroform. Methylene trichloride. Solution. **Historical dose:** Tincture and all potencies.

CLINICAL - Arachnitis. Asphyxia. Colic. Convulsions. Delirium, tremens. Flatulence. Gallstones. Muscae, volitantes. Bladder, paralysis. Puerperal, convulsions. Sick, headache. Smell, lost. Taste, lost. Tetanus. Typhus. Vertigo.

HOMEOPATHIC - Chloroform is the well-known anesthetic, the general effects of which in arresting sensation need no description. Unlike ether and nitrous oxide, which must be administered without air, chloroform vapor must have an abundance of air inhaled with it or asphyxia results.

Its most noteworthy effect is the complete relaxation of all the voluntary muscles of the body. It may cause death by paralyzing the respiration or the heart. Its use is contraindicated where there is brain softening, fatty heart, alcoholism or albuminuria.

General anesthetic and anti-spasmodic. Complete muscular relaxation. Weak and quick pulse, shallow or stertorous breathing. Convulsions, nephritic or biliary colic, gastralgia. Great weakness, especially on right side. Limbs very tired from knees down.

Much perspiration all over face and chest. Drowsy and dizzy. Dry lips and throat, dry tickling cough at night. Flatulence, food regurgitates. Sore and bruised feeling in stomach. Catching pain around heart. Sharp pain in right chest when he takes long breath, shortness of breath on exertion.

MIND - Delirium where excitement and violence predominate. Wild excitement, followed by complete insensibility. Sings comical songs, could scarcely be persuaded to leave the piano. Obscene language used under its influence in two proverbs. Desire to kill.

Ears - Roaring in ears like boiling water.

Eyes - Conjunctiva insensible. Pupils dilated insensible to light. Eyes turned up. Sight gradually went out and returned gradually. Small black points, large black or gray spots, float a few inches before the eye, follow the motion of the eye. Bright

and dark points, sparks, flashes of light, bright streaks.

Face - Face as if intoxicated, flushed, livid. **Head** - Severe, bursting headache in forehead. Headache, with dizziness, roaring in the ears, excessive nausea and vomiting. Head drawn down upon the shoulders, eyes opened and closed rapidly, pupils contracted and rapid convulsive movements of face and muscles of limbs.

Heart - Constantly increasing retardation and weakening of action of heart and arteries.

Kidneys - Paralysis of sphincter of bladder after childbirth.

Lungs - Stertorous breathing.

Mouth - Teeth smooth, as after acids (fourth day). Soapy taste. Taste lost.

Nose - Complete loss of smell (lasted two months).

Stomach - Burning in stomach, alternating with chilliness. Much acidity and great distention of stomach and bowels with gas. Abdomen tense, rumbling. Belchings. Nervous hiccough. Nausea and vomiting. Seasickness or morning sickness.

Throat - Burning in throat, scraping. Violent scraping and coldness in fauces on inspiration.

Vertigo - Vertigo, rising from spine into occiput. Whirling in head as if he would fall forward. As if ground waving on closing eyes.

COMMENTS - Marcy cured with it a case of arachnitis ending in convulsions. It is especially indicated in delirium where excitement and violence predominate, desire to kill. Paralysis of voluntary and involuntary muscles and special senses.

Chloroform will dissolve gallstones and cases have been treated by the injection of Chloroform into the gallbladder. Symptoms were obtained by Dr. D. Macfarlan with the 6c potency.

RELATIONS - Antidoted by: Phosphorus is the remedy to give for narcosis of chloroform. Amyl-n, Ip., Brandy, Ice in rectum. **It antidotes:** Strychnine. **Compare:** (1) Chloralum., Phos. (2) Ether - post-operative bronchitis. (3) Spiritus Aetheris Compositus, Hoffman's Anodyne - Flatulence, angina pectoris.

REFERENCES - Boericke. Clarke. Phatak.

***CHLORPROMAZINUM

(Chlorpromazine)

PHARMACY - chlorpr. Chlorpromazinum. Chlorpromazine. Marketed under the name Largactil. **Historical dose:** All potencies.

CLINICAL - Allergies. Aplastic anemia. Botulism. Chorea. Cushing's disease. Diabetes insipidus. Diabetes mellitus. Diphtheria. Encephalitis. Epilepsy. Genetic disorders. Hallucinations. Hypertension. Multiple sclerosis. Obesity. Parkinson's disease. Septicemia. Skin disorders.

HOMEOPATHIC - Chlorpromazine's properties are characterized by an action which is anti-spasmodic, anti-convulsive, hypnotic and sedative. Recent pharmacological research indicates that even in extremely weak doses, chlorpromazine induces abnormal changes in the form of the bacteria sometimes associated with increased pathogenic power, which alters cellular permeability and stunts the growth of the bacteria or kills them.

Clinically, chlorpromazine is used as an anti-emetic sedative and as a potentializer of the activity of several medicating agents (general anesthetic, hypnotics, analgesics). In psychiatry, Largactil is prescribed for cases of acute psychosis, maniacal excitability and for insomnia.

A proving was carried out from December 1963 to January 1964 by sixteen members of the "Association of Homeopathic Doctors," in Matunga, Bombay, under the direction of Dr. N. P. Pai. The potency was 30c. A toxicological summary was made by O. A. Julian, which concerned the toxic consequences of chlorpromazine treatment.

General slowing down of pace of life. Mobility in the face reduced, has a leaden look, tends to be silent. General feeling of failing with depression. Tubercular tendencies or recurrence of old lesions. Allergic, tubercular conditions with syphilitic complication. Hallucinations, disturbed sleep.

Hepatic, gastric intestinal complaints. Diabetes mellitus. Hypertension. Genetic disorders in both sexes. Virilism. Vesicu-

lar, bullous eruptions and pigmentation disorders. Skin disorders and abnormal hair growth. Obesity, predominantly of the lower regions of the body.

MIND - Irritability or apathy. Absent-minded, difficulty in concentrating. Amnesia, lasting only a short time. Loss of memory, gaps in the memory. Melancholy. Premonition of bad news. Extreme anguish at 10 a.m. Thoughts are automatic. Pre-senile insanity with cerebral atrophy. Hallucinations. Personality disorders and behavioral complaints in children.

Abdomen - Intestinal atony and colic.

Flatulence. Painful pressure in the epigastric region.

Back - Rheumatism of the vertebrae. Lumbago. Stiff pains in the lumbar region.

Blood - Aplastic anemia. Diminution of blood platelets. Septicemia. Agranulocytosis with Vincent's angina of the mouth and toxic infectious conditions.

Breasts - Excessive milk. Gynecomastia. **Chest** - Oppression and burning in the chest.

Pain behind the sternum.

Constitutions - Allergic, tubercular conditions with syphilitic complexion and complaints of the thalamus.

Eyes - Burning of the eyelids aggravated at the end of the day. Spasms of the ciliary muscles. Brownish discoloration of the conjunctiva. Pigmentary accumulation of the cornea. Conjunctivitis. Blepharitis. Cataract. Intestinal keratitis. Visual hallucinations.

Face - Neuralgia of trigeminal nerve. Facial paralysis. Lips dry, grazed, scabby, cracked.

Female - Considerable leucorrhea like egg-white. Amenorrhea. Painful menses. Cervicitis. Vaginitis, trichomonas, mycotic. Cystic inflammation of the ovary. Vomiting during pregnancy. Stretchmarks. Sexual precocity. Diminution of sexual desire.

Food - Hypoglycemic condition, weakness, sweating, hunger-pangs, faintness.

Head - Epidemic encephalitis. Frontal and occipital headache, aggravated at the end of the day.

Heart - Hypotension. Rhythm disorders. Aneurysm of the aorta.

Kidneys - Dysuria. Polyuria. Urine redbrick color, like blood. Atony of the bladder. Enuresis in the adults.

Limbs - Muscular pains in the arms and calves. Phlebitis. Varicosity of the lower limbs. Post-diphtheria paralysis.

Liver - Viral hepatitis. Liver enlarged and sensitive. Infectious epidemic jaundice. Gallstones. Cirrhosis.

Lungs - Emphysema. Asthma. Cardiac dyspnea. Pneumothorax.

Male - Dysuria. Feeling of swollen prostate. Inflammation of the prostate gland. Adenoma of the prostate. Clear diminution of sexual desire. Impotence.

Modalities - Aggravation of most of the symptoms at the end of the day.

Mouth - Breath fetid. Mouth dry. Paresis of one side of the tongue. Tongue dry, thick, cracked. Pityriasis of the tongue. Thrush. Aphthous stomatitis and glossitis. Pruritus and sensitivity of the gums. Bleeding gingivitis. Pain in the upper molars.

Nerves - Parkinson's disease. Multiple sclerosis. Clonic muscular contractions. Convulsive epileptiform fits. Chorea with irregular jerking. Trembling, hypertony, stiffness. Catatonic with total immobility. Paresis of the cranial nerves.

Nose - Nose blocked. Rhinitis.

Rectum - Stubborn constipation.

Skin - Vesicular, bullous eruptions. Pigmentation disorders. Photo-sensitivity to sunlight with erythema and edema of the face and hands. Violent discoloration of the skin. Dermatitis caused by sensitivity to light. Acne. Eczema. Herpes zoster. Chickenpox. Pemphigus. Dermatitis. Melanosis. Wheals.

Sleep - Sleepy. Insomnia between 1 a.m. and 3 a.m., with dreams of animals. Nightmares. Confused dreams. Wakes tired, with sleepiness in the morning.

Stomach - Burning pain in the stomach. Anorexia and nausea in the morning. Stomach and duodenal ulcers. Stomachache, in the form of stiffness. Impression that there is a stone lying on the stomach.

Temperature - Feverishness, with feeling of coldness. Feet cold and the cold creeps as far as the thighs. Hypothermia or localized hyperthermia.

Throat - Dysphagia with feeling of a lump in the throat.

RELATIONS - Compare: (1) Anhal. - Cortical, thalamic, visceral hyperesthesia. Audio-visual hallucinations. Schizophrenic condition. Loss of libido. (2) Cic. - Cataleptic state. Convulsions and muscular spasms. Pustular eruptions on the face and hands. (3) Phos. - Inability to think. Insomnia before midnight and vertigo on waking. Nightly hunger and vomiting, empty stomach. Constipation or diarrhea. Tendency to hemorrhage. Icteric condition. (4) Syph. - Premature aging, loss of memory, sadness, aggravation at night. Fear of madness and obsessions (needs to wash hands all the time). Desire for alcohol. Hardening of the spermatic cord and of the uterus. (5) Tub. - Hypochondriac. Bad-tempered. Headache with feeling of constriction as of an iron band, oppression, irritating cough. Thick sputum. Anorexia. Aversion to meat. Gastric cramps. Tenesmus of the bladder. Pains and bruising of the limbs. Itching eczema. Perspiration, straining the underclothes yellow.

REFERENCES - Julian.

***CHLORUM AQUA

(Chlorine Water)

PHARMACY - chlor. Chlorum aqua. Chlorine water. Chlorine gas in water. Chlorine, the element. Solution. Chlorine water, when full strength is required, must be freshly prepared. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphthae. Asthma. Catarrh. Chlorosis. Colds. Convulsions. Coughs. Croup. Dentition. Diphtheria. Gastritis. Hemoptysis. Impotence. Laryngismus. Pleurisy. Sore throat. Tuberculosis. Typhus. Ulcers.

HOMEOPATHIC - Chlorum has been proved in the form of "**Chlorine water**," and has been tested clinically. Marked effect on the respiratory organs, producing spasm of the glottis as the chief symptom of the drug. Asthma to relieve the spasm of glottis. Useful externally and internally in gangrene.

Spasms and convulsions. Laryngeal spasm is especially pronounced, the chief difficulty is in exhaling, can draw in the air well enough. Coryza and catarrh.

Convulsive attacks on cutting eye-teeth. Mouth inflamed, ulcerated. Rapid emaciation. Acute rheumatic pains.

MIND - Irritability, inclined to anger. Marked loss of memory, especially for names. Apprehension. Fear of becoming crazy. Fear of poverty. Inclined to anger. Want of selfconfidence. Effects of excitement. Quiet delirium, alternating with greatest restlessness and desire to run away. Coma, fainting with cold, viscous sweats.

Eyes - Running of tears, worse in open air. Suddenly numerous, fantastic images appeared before the eyes, disappearing with lightning-like rapidity.

Face - Face swollen with protruding eyes. Face pale, often greenish. Heightened color.

Head - Painful aching in vertex and down left side, with inclination to lie down. Warm sweat breaks out on forehead while coughing.

Heart - Increased action of the heart.

Lungs - Constriction with suffocation. Inspiration free with obstructed expiration (Meph.). Sudden dyspnea from spasm of the vocal cords with staring protruding eyes, blue face, cold sweat, pulse small. Spasm of the glottis. Irritation of epiglottis, larynx and bronchials. Coryza with sudden gushes of sharp, corroding fluid, making nose sore inside. Prolonged, loud, whistling rales. Loss of voice from damp air. Sooty, smoky nostrils, livid face.

Male - Sudden impotence and aversion to sexual intercourse.

Modalities - Chest affections better from open air, causes running of tears. Spasm of glottis worse from midnight to 7 a.m. Nasal complaints worse lying down. Inclination to lie down with headache. Restless, worse walking up and down. Sitting with sun shining on back causes shuddering. Damp air causes loss of voice.

Mouth - Mouth dry. Putrid odor from mouth. Very acid saliva. Aphthae. Tongue black, as if burnt.

Nose - Nose dry, smoky or sooty. Corrosive feeling in corners of nose. Violent sneezing, in the morning. Sudden running in drops of sharp corroding fluid with tears

in eyes, dry tongue, palate and fauces. Coryza with headache. Thin coryza, soon changing to yellow, copious

mucus. Loss of smell.

Stomach - Acid stomach and other gastric troubles (in workmen exposed to chlorine fumes and who eat chalk for it). Desire to vomit when coughing, without nausea.

Stool - Diarrhea in the morning, with dry mouth, after the eruption appears with typhus. Bright blood stools. Hemorrhage in typhus, blood black, coagulated or thin, smelling like carrion.

Teeth - Sensation as if teeth were too full, as if injured by acids. Black teeth.

Temperature - Chilliness and crawls, 10 a.m. to 2 p.m. Burning, dry heat with anxiety and raving. Genial glow all over with night-sweat. Cold sweat. Viscous sweat. Typhus.

Throat - Dry, sore from uvula to bronchi. Choking sensation, inability to swallow. **COMMENTS** - Excessive sensitiveness of skin.

Nettle rash with fever. Cutis anserina. Skin dry, yellow, shriveled. Malignant pustule and carbuncle. Typhoid state. Fears he will go crazy, that he won't be able to make a living. Cannot remember names of people he sees, or if he sees the names, cannot remember the person.

E. Z. Bacon recorded two cases of chlorine poisoning. The first case was in a boy of 5, who, after passing through diphtheria to apparent complete recovery, was suddenly seized with symptoms of croup. Loss of voice, crowing inspiration, prolonged expiration incessant dry cough, great restlessness, high fever, and profuse perspiration.

The symptoms were worse lying on a lounge by the fire, better when lying in his mother's lap and still more relieved by being carried about. During the previous illness, Platt's chlorides had been placed in the room as a disinfectant and it occurred to the doctor that chlorine vapor is much heavier than air. He himself lay down, and in a few minutes felt the irritating vapor and began to cough and hack. This soon passed away on sitting up.

The removal of the chlorides has a remarkable effect on the child, cough and respiration were greatly relieved. But the relief came too late, as the cause was not discovered for several days during which time the patient had become steadily weaker, and he died the same afternoon.

The other case was that of an old woman who suffered from chronic bronchitis and on January 2, 1892, developed an attack of laryngitis. In three days she was well, but in the two subsequent weeks, on exactly the same day, a fresh attack occurred. As the doctor soon discovered, his patient went to the back room, where chlorides were kept, every Monday to wash a few things she did not care to send to the laundry.

The chlorides were banished, and though the washing was continued, there were no more attacks of laryngitis. Dr. Bacon added, that since giving up the use of disinfectants, other than plenty of fresh air, he has never had laryngeal complications in scarlatina or diphtheria, though his neighbors have had plenty.

Whitman recommended chlorine water as a efficient palliative in a fit of asthma. He began with 10 drops, then in five minutes 20 more, and then in another five minutes, half a teaspoonful in a little water. It greatly facilitates expectoration.

In typhus fever, Goullon recommended chlorine water, five drops every two or three hours until the tongue is dry. Clarke had excellent results from the 12c and 30c in nasal catarrh and in breathlessness remaining after acute bronchitis.

RELATIONS - It is antidote to: Hydrocyanic acid and Sulfuretted hydrogen. Albumen. **Compare:** (1) Meph. - inability to exhale, closely resembles Bromine and Iodine. (2) Nat-m. - sore mouth and other chlorides. (3) Lyc. - impotence. (4) Plb-a. - blood-spitting and pleurisy. **Follows well:** Phos.

REFERENCES - Boericke. Clarke. Phatak.

***CHOCOLATE

(Cocoa)

PHARMACY - choc. Chocolate. Cocoa. Theobroma cocoa. Theobroma cacao. N. O. Sterculiaceae. Tribe, Buettnerieae. Tropical America. Trituration of the seeds. **Historical dose:** Trituration and all potencies.

CLINICAL - Anxiety. Fears. Poor memory.

HOMEOPATHIC - "Theobroma" is Greek for "Food of the Gods." Mayan Indian legend has it that the cocoa tree was a gift from the gods. The Mayas believed the drink made from the cocoa seeds would nourish them after death. The Aztecs believed cocoa would relieve their fatigue and stimulate their mental and psychic abilities.

The Spanish invaders were surprised to find that the cocoa beans were valued more than any other substance, even more than gold. The Aztecs used a chocolate drink as a base in many of their medicinal formulas. The Aztec nobility used the chocolate drink flavored with vanilla and spices as a pleasurable drink.

The main ingredients of chocolate are caffeine, phenyl ethylamine, theobromine and theophylline. Feeding with waste chocolate led to fatal poisoning in calves. The animals showed excitement, stared about in all

directions, walked with exaggerated strides and had convulsions. One calf died, possibly from heart failure. Sherr wrote "My 22 month old male Tibetan Terrier ate a large bar of Bourneville chocolate. He became extremely hyperactive, panting, restless, couldn't stay still in one place, ran up and down stairs. He came up and licked me, went away, came back, went outside, came inside and two hours after eating the chocolate, he gave a large moan, wail and died instantly, outside in the sun from a heart attack."

Scalp warm and itchy. Back of neck itchy. Under axilla itchy. Skin dry and rough. Skin burns easily. Gums bleeding while cleaning teeth. Catarrhal congestion in head. Catarrhal deafness ameliorated when ears pop. Ache in big toe joints.

Mind rushing and jumping from one thing to another. Irritability. Startled by sudden noises. Unease and discomfort with men. Anxiety before meeting people. Poor memory. Vivid and prolonged dreams. Dreams of fire. Desire for chocolate and ice cream.

MIND - Moods changeable. Emotional highs and lows, Very depressed. Activity alternating with lethargy. Slow mind, has to think before answering questions. Weepy during menses, took everything to heart. More sensitive to music. Selfish, impatient and intolerant. Irritable. Sarcastic, mocking people, aggressive in a joking way. Humorless, intolerant, almost cruel.

Anxiety that something would happen. Feels open and vulnerable. Fear of accidents, cars, being attacked. Fear of dogs. Fear of something happening. Paranoid. Anxiety about health. Apprehensive. Nervous thinks someone would notice.

Feels panicky about work things to do. Difficult concentration. Forgetful, absent minded. Reading is impossible. Aversion to writing. Mistakes in writing. Mind is repeating the same things over and over. Jumping from subject to subject while speaking. Nervous and stuttering.

Grief and despair. Lost interest in loved ones, feels totally indifferent. Self-conscious, anxious and vulnerable as if being watched. Feels rejected and oversensitive. Hid away from the world, feels life would fall apart. Felt isolated. Unsociable, averse company and conversation. Desire to be alone in the evening.

Abdomen - Bloated abdomen with belching, flatus and nausea, worse after supper. Rumbling and gas in the abdomen. Loud rumbling in abdomen while lying. Woke with pain from gas in upper abdomen. Pain dull, becoming sharper. Aching lower pelvic region when sitting. Sharp pain in liver.

Back - Shivers up spine with chill in evening. Strong itching at middle of spine, shoulder blade. Prickly feeling on the back of the neck. Stabbing pain in back, between spine and left shoulder. Tightness around thoracic vertebrae. Back pains.

Stiff feeling with painful neck, while sleeping on back. Feels very vulnerable in the base of the spine. Spine and back feel uncomfortable with a deep restlessness, uneasiness and irritability. Sensation that back is larger and wider.

Breasts - Breasts feel fuller. Desire to rub breasts. Stitching pains, sensation as if fine threads were being drawn through breasts. Painful breasts before menstrual period.

Chest - Feeling of a powerful explosion inside chest, taking breath away, as if diaphragm went into a spasm. Pain in chest with belching. Chest heavy, aches inside. Tenderness in sternum and lower ribs. Tightness in xiphoid. Left clavicle has itch and pain. Whole upper left quadrant of chest has some tight dull pain. Pain under the ribs. Stitching pains at base of right lung. Stabbing pain in back between spine and left shoulder, worse inhalation. Tingling in chest, creeping down from spine. Cold feeling in the lungs. Cough hurts chest and head. Catarrhal feeling behind the sternum.

Coughs - Cough from throat, from deep in center of chest by xiphoid of sternum. Painful cough, chest worse movement. Cough with nausea and a sensation of mucus behind the sternum. Sudden attack of a retching and gagging cough. Loose cough with thick, pale green mucus, from trachea and lungs. Dry coughs, in evening, after swallowing. Spasms of hard dry cough on going to bed, better cold water. Lying in bed coughing. Wakes coughing at 4 a.m.

Dreams - Dreamless sleep. Dreams are not remembered. Dreams are fragmented, confused, obscure. Dreams of familiar people, friends. Dream of selling fruit and vegetables in the market. Dreaming flying and jumping, being on a boat journey, falling from a window. Dreams of babies bathing, the babies were like helpless little animals, almost dead. Dreams of pain in the right ovarian/pelvic region. Vivid dream of worms.

Ears - Feeling of fullness, buzzing or fuzziness in both ears, worse left. Tingling sensation left ear, worse loud music. Ears feel blocked. Ears popped and buzzed while eating. Dullness of hearing until ears popped. Flushed and hot ears. Left ear burning and red. Ears burning, extending occasionally to mastoids. Sensitive feeling in ears. Intense pain behind right ear. Pulsations in ear and neck. Hearing more acute, especially for deeper tones which have more resonance.

Eyes - Right eye sticky and closed. Eyes tired and smarting, desire to clench lids together. Eyes inflamed with flushed face. Tension in the eyeballs. Eyes feel heavy, with dryness and pressure at the back of the eyes.

Eyelids feel wider and higher. Eyes painful and feel swollen. Eyes ache, sensitive to pressure. Deep pain overright eye. Bruised feeling over right eye. Right eye felt lower than left eye. Eyes sore and stinging, better pressing lids with fingers. Heavy feeling over eyes. Pupils dilated during headache. Looking down when walking, ground seems further away. Dark specks falling down in profusion while reading. Tired feeling in artificial light. Photophobia.

Face - Skin of face dry, chapped, very thin, blotchy and wrinkly. Face flushed and hot, red after supper. Red and livid spot on left cheek. Skin on cheekbones tingles and burns. Twitching under right eye. Deep ache in left jaw, extending to ear. Numbness around lips extending to nostrils. Rash around mouth, worse left side. Lips dry and cracked. Cold sore on lips.

Female - Menses lighter then usual, then becoming very heavy. Menses heavier and longer than usual. No desire for sex. Sexual desire increased.

Food - Appetite improved. Wakes up feeling hungry. Lack of appetite and thirst. Averse food. Aversion to sweets, to usual tea. Desires hot drinks, but aggravates. Desire for hot, black currant juice, orange juice, soda water, cold water, refreshing things. Desires sweet food, sauerkraut, and fruit, especially citrus. Desire to eat red things, red peppers, red fruit, red grapes, beetroot soup.

Head - Sensation of congestion in head.

Sensation of tightness around head. Sensation of forehead protruding. Head feels big, worse right side. Head is heavy. Dull sensation between vertex and occiput on mid-line. Top of head feels sensitive, better after eating. Sutures feels more pointed, like the top of a roof. Sensation as if something loose in head, as if a string connected uvula to sinuses. Sensation as if a cold spot went through head. Frontal headache. Sharp pain at top of forehead. Headache like a band around head. Throbbing pain over left eye. Headache feels like rod pushing my head apart from inside. Pounding inside head. Headache behind eyes and throbbing pain around temples. Pressure over eyes, better lying down. Headache, worse coughing, better holding head. Headache with earache. Awake from severe headache. Vomiting with migraines. Dry, very large, flaky dandruff. Hair is very dry and lifeless.

Heart - Tightness in back of heart. As if back of heart pushing against back. Feeling of heart bulging through ribs, better when lying on left side. As if heart is beating more towards the back and sides between the scapulae. Feels heart banging and bulging through the ribs. Doesn't feel the heart at all. In the night, the heart stops beating.

Larynx - Sudden loss of voice during cold. Voice slides up and down the scale, high pitched to low and husky, breaks, almost lost. Lack of control over voice.

Limbs - Aching in joints. Wandering pain in hands and feet, in muscles, joints and small bones. Clumsy, drops things, bumps into things. Hands less capable of doing fine movements, such as writing. Wrists feel weaker and flatter. Aching muscles of arms, in bed. Sharp, deep pain in the legs, on the inside of the malleolus. Tightness in thigh muscle. Sharp, shooting, momentary pain up inside of right gluteal muscle. Feet feel like blocks of ice, so cold, bones are painful. Toes are like ice. Deep ache in joints of both big toes. Legs felt powerless and like heavy rubber. When legs are moved there is a time lapse between the thought and the action.

Lungs - More air going in with less effort, breaths much slower and further apart. On breathing in, chest felt tight. Breathing from lower down in the lungs. During cough, expectoration of very clear mucus mixed with saliva. Thick, pale green mucus on coughing from deep in chest. Cough of green sticky chunks.

Mouth - Dry mouth. Bad taste in mouth with thirst. Taste of nicotine in mouth, like an old ashtray. Tea tasted of nothing, just hot water. Tea or orange juice tasteless. Hollow feeling in mouth. Tenderness in left rear palate of mouth when touched with tongue. Salivation increased. Salivation when lying down, with heartburn. Ulcers on inside of mouth and cheeks and at corners of lips. Chewing lips.

Neck - Tension in the shoulders extending to the base of the neck, in the spine where dorsal and cervical regions meet. Back of neck stiff and tight. The muscles on either side of the cervical vertebrae feel as if they are being laced up tight together. Intense tension, bends the neck back, leads to a sensation as if the back of the head is horribly elongated.

Nose - Nose feels smaller or longer and face feels sharper. Nose is cold, wet and dripping. Nose blocked with thick mucus in warm indoors. Nose stuffy and runny. Awakes with runny nose, phlegm in throat. Clear discharge with itching at end of nostrils. Constant desire to blow nose. Green or yellow mucus, with small amount blood. Clear, white, bubbly discharge in evening. Sneezing, followed by coryza. Nosebleed. Pimple inside upper right nostril. Acute sense of smell, especially to flowers.

Perspiration - Perspiration increased. Woke in night feeling hot and sweaty. Sweet smell of perspiration at night. Restless and hot, sweat all night. Relieved by beginning to sweat.

Rectum - Profuse, watery, very smelly diarrhea, with a lot of rumbling. Explosive diarrhea with flatus. Light

brown stools, worse as day went on. Stool difficult to pass, yet not very hard. Sour smelling flatus. Offensive flatus in the evening. Rectum sore.

Skin - Dry skin, itching. Itching scapulae, shins, forearms, pelvis and forehead. Scratching until it bled. Small, dry pimples. Lips very dry. Hands feel coarser and more leathery. Skin feels numb, less sensitive to touch. Feels crawly and "sensitive" to touch of clothes.

Sleep - Yawning a lot. Overcome with sleepiness. Deep sleep. Sleeps poorly, restless, waking often. Sleeps on back. Wakes with painful and stiff neck, needs to change positions. When on side, pain went away. Wakes at 2 to 3 a.m., feeling hot and sweaty, at 5 a.m. very alert and alive. Very tired on waking. Sleepiness during menses.

Stomach - Sensation of weakness in stomach and wooziness in the head with general weakness. Stomach feels aggravated and full. Dull pain like indigestion. Pain comes in waves and with big belches. Belching in evenings, followed by acid taste in mouth. Intense, frequent bouts of heartburn while sitting. Heartburn while smoking cigarettes and from hot drinks, but not from hot food. Heartburn worse 2 to 4 p.m. Feeling queasy after a cup of tea. Nausea with bad taste in mouth. Nausea and vomiting at midnight with migraines.

Stool - Stool hard and in very small pieces. Stool soft and less dry. Very loose, frequent stool, verging on diarrhea. Watery stools, smelly, light brown.

Teeth - Aching pain gums and around roots of teeth. Toothache in right upper canine tooth.

Temperature - Tired, as if a cold or flu would come on. Wakes with flue or cold symptoms. Tendency to take colds. Uncoordinated, feel heavy and slow (Gels.). Fever and chills, all night. Alternates between being chilled, feverish and sweating. Face hot, body chilled. Chilled easily. Shaking and trembling, teeth chatter when in bed. Restless and hot, sweat all night, desire to sleep in cold part of house.

Throat - Terrible dry feeling in throat on waking. Awakes with runny nose,

Chocolate phlegm in throat. Mucus plug in throat, coughs to dislodge it. Constant desire to clear throat because of a plug of mucus behind sternum. Hawking beige mucus from posterior sinuses. Raw and sore throat, peppery feeling, especially high in the fauces. Soreness and tenderness in throat and glands both sides. Dark red throat, internal, worse left side. Tingling in throat. Desire not to swallow, but very hungry. Difficult swallowing with sore left throat.

Tongue - Small, white, raised spots on tongue. Small, red spots on base of tongue. Tongue coated yellow brown at back, as if smoked many cigarettes. Whitish-yellow tongue. Tongue looks as if it is painted a beige color.

Vertigo - Faint buzzing all over head. Blurred, fuzzy feeling comes over head in waves, pleasant and relaxing. Thick and fuzzy head, like a hangover. Not quite with it, like looking through a cloud. Felt dizzy on rising, with nausea after drinking tea.

RELATIONS - Compare: (1) Cacao.

***CHOLESTERINUM (Cholesterine)

PHARMACY - chol. Cholesterinum. Cholesterine. Gallstones. Trituration of gallstones. From the epithelium lining of gallbladder and the larger ducts. Sarcod. **Historical dose:** Trituration and all potencies.

CLINICAL - Cancer. Cirrhosis. Eyes, opacities. Fibroids. **Gallstone, colic. Gallstones.** Insomnia. Jaundice. **Liver, diseases.** Tumors.

HOMEOPATHIC - Cholesterinum crystallizes in leaflets with a mother-of-pearl luster and a fatty feel. It is soluble in alcohol and ether. It occurs in the blood and brain, yolk of eggs, seeds and buds of plants, but most abundantly in the bile and gallstones.

Dr. Wilhelm Ameke of Berlin first mentioned this remedy. Dr. Burnett, at Ameke's suggestion, used the lower potencies with *more or less success for several years*, a description of which Burnett gives in his Diseases of the Liver.

Choi, was introduced by Swan. He appeared to have taken his hint from Burnett's work and potentized the remedy, using a gallstone for his preparations.

Swan affirmed, after much experience, that it is almost a specific **for gallstone colic**. It relieves the distress at once and this after failure with Nux-v., Chin., Card-m., Podo, and other apparently well-selected remedies. Ameke recommended Choi, as a remedy in cancer of the liver. Choi, is the physiological opponent of Lee., both seem to play some unknown part in the growth of tumors. Benign tumors, uterine fibroids. Gallstones. Chronic jaundice. **Obstinate hepatic engorgements.** Opacities of the vitreous. Insomnia.

MIND - Irritable. Delirium. Moody.

Abdomen - Burning pain in side, on walking holds his hand on side.

Back - Itching of coccyx.

Eyes - Vitreous opacities of eyes.

Face - Discolored bluish.

Female - Tumors, benign, fibroids.

Limbs - Leg cramps.

Liver - Hepatic engorgements. **Gallstones and gallstone colic.** Jaundice. Liver cancer. Liver diseases.

Modalities - Worse from touch or jar. Worse lying on side. Worse bending or sudden motion.

Skin - Red, coppery spots after the desquamation.

COMMENTS - Potentized cholesterol gallstones. Gallstones and gallstone colic. Liver cancer, palliates dying liver cancer patients.

Yingling reported some cures of gallstone colic and other diseases of the liver in the Medical Advance, August, 1908 and noted that "In gallstone colic, the patient suffers so severely that it is almost impossible to obtain symptoms. In such a case, when one cannot give a well-selected remedy, give Cholesterinum and thus far it has never failed.

"It can be used instead of Morphine in cases where the symptoms cannot be obtained for the proper selection of a remedy.

It is very improbable that a person suffering from gallstone colic will wait very long for the physician to study the case."

Ameke claimed to have derived great advantages from its use in cases diagnosed as cancer of the liver, or in such obstinate engorgements that malignancy was suspected.

Clarke cured a case in the last stage of liver disease. He had been given up by his medical attendant, who ordered him to make his will without delay.

Burnett claimed to have twice cured cancer of the liver with it and "in hepatic engorgements that by reason of their intractable and slow yielding to well-selected remedies make one think of cancer."

In such conditions, where the diagnosis is in doubt, especially if the patient has been subjected to repeated attacks of biliary colic, Choi., he claimed is very satisfactory and at times its action even striking. It has been used with success in the removal of opacities of the vitreous.

Burnett used the 3x or the 3c trituration and substantial doses. He commended it in "obstinate hepatic engorgements, which by reason of their obstinacy make one think interrogatively of cancer."

Also in "cases in which there appears to be a semi-malignant affection involving the left lobe of the liver and what lies between it and the pylorus and the pancreas." In such cases Burnett gave alternately Choi. 3x and Iodoform 3x.

RELATIONS - Compare: (1) Taurocholate of Soda.

REFERENCES - Boericke. Clarke. Murphy.

***CHROMICUM ACIDUM

(Chromic Acid)

PHARMACY - chr-ac. Chromicum acidum. Chromic acid. Chromium sesquioxide. Anhydrous solution or Chromic oxide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Angina pectoris. Brain, inflammation. Coughs. Diarrhea. Eyes, disorders. Gangrene. Gout. Hemorrhoids. Lumbago. Lupus. Ranula. Rheumatism. Stiff, neck. Syphilis. Throat, sore. Toothaches. Trismus. Tuberculosis, laryngeal. Ulcers. Warts.

HOMEOPATHIC - Chromic acid is a powerful antiseptic which has been used for disinfecting purposes to arrest fetid discharge and correct fetid odors. Offensive discharge. **"Foul smelling, bloody lochia."**

Inflammation and destruction of epithelium and mucus membranes, a false membrane, gangrene. On the skin it has been used to destroy warts. Cutting pains in eyes. Cough, hard, sometimes deep, swallows sputa. Vomits breakfast. Diphtheria. Post-nasal tumors. Epithelioma of the tongue. **Symptoms come and go suddenly** and return periodically.

Limbs - Uneasiness in limbs. Pain in shoulder blades and back of neck. Pain in knees and balls of feet. Drawing pain in soles while walking.

Modalities - Worse least draft of air. Worse cold water. Worse at night and early in morning. Worse 2 a.m. to 6 a.m. Pain worse on left side.

Nose - Ulcer and scabs in nose. Offensive smell. Corrosive pain. Ozaena (Aur.).

Rectum - Frequent, copious water, with nausea and vertigo. Hemorrhoids internal and bleeding. Weakness in small of back.

Throat - Diphtheria, sore throat. Tough mucus with inclination to swallow it, worse causing hawking. Post-nasal tumors.

COMMENTS - Suddenness of many of the symptoms. Symptoms appear and disappear suddenly and return

periodically. Disagreeable pricking and itching here and there with uneasiness in limbs. Pains suddenly shifting to various parts of trunk, on waking.

On turning to right side, pain in left side goes off. Sensation of a vacuum at heart of emptiness in chest.

Well-marked rheumatic symptoms. Clarke frequently obtained good results in rheumatic cases with both preparations.

RELATIONS - Antidotes: Daph. has cured the rheumatic pains. Merc-c. in small doses has counteracted the general effects in workmen. The restlessness and relief from motion suggest Rhus-t. **Compare:** (1) Kali-bi., Rhus-t. (2) Chromium sulphate in locomotor ataxia, goiter, serve us as a remedy in cases of hypertrophy. Herpes preputialis. Wry neck. Also exophthalmia inhibits the vagus, relieving tachycardia. Acts like a nerve tonic where there is lack of nervous tone. Fibroid tumors. Infantile paralysis. Dose for adults, 3 to 5 grains after meals and at bedtime.

REFERENCES - Boericke. Clarke.

***CHROMIUM KALI SULPHURATUM

(Chromic Sulphate)

PHARMACY - chrom-k-s. Chromium kali sulphuratum. Chromic sulphate. Chrome alum potassic. **Historical dose:** Trituration and all potencies.

CLINICAL - Catarrh. Hay asthma. Hay fever. **HOMEOPATHIC** - Chrom-k-s. was introduced into homeopathic practice some years ago by Dr. Mersch of Brussels. Clarke used it on Dr. Mersch's indications in the 6x trituration and downwards. It sometimes succeeds in the 3x, and even the 1x, when higher numbers fail. There is no proving, but it can be used on general indications for coughs and catarrhs which its constituents will readily suggest. Valuable for hay fever.

RELATIONS - Compare: (1) All-c, Psor., Sabad., Naph., Sang. Kali-bi.

REFERENCES - Clarke.

***CHROMIUM METALLICUM

(Chromium Metal)

PHARMACY - chrom. Chromium metallicum. Chromium metal. **Historical dose:** All potencies.

CLINICAL - **Anemia.** Arteriosclerosis. Cancer. Coma. Cystic fibrosis. Delirium. Diabetes. Diarrhea. Ear, infections. Epithelioma. Flatus. Headache. Heart, diseases. Hyper-cholesterolemia. Kidney, diseases. Meningitis. **Mucus, secretions.** Nausea. Pancreas, diseases. Paralysis. Ranula. Rheumatic, pains. Sciatica. Sinusitis. Stomach, complaints. Vertigo. Vomiting.

HOMEOPATHIC-Discharges thick, tough, stringy, sticky, green and yellow. Pains changing place or in one spot. Boring, scraping pains. Cancer. Paralysis. Collapse, coma. Ear infections. Sinusitis. Heart diseases. Arteriosclerosis.

Anemia. Pain under the heart. Hypercholesterolemia. Stomach complaints. Vomiting blue or green. Affections of pancreas. Diabetes. Cystic fibrosis. Diarrhea, green or bluish. Flatus. Affections of kidneys. Blood and albumin in urine. Sciatica. Itching.

Suddenness. "Symptoms appear and disappear suddenly and return periodically." [Clarke]

Wandering pains. "Disagreeable pricking and itching here and there, with uneasiness in limbs, so that he was obliged to get up from sitting or lying and walk about." [Hering]

"The rheumatic pains shift suddenly from one part to another. This type of pains are felt in the eyes, when they are sudden, and momentary in both eyes." [Blackwood]

Mucus secretions increased, tough, stringy. At night sensation as if eyes were enlarged. Fetid, musty smell in posterior nares, chiefly perceived during expiration.

"Sensation during the eating of the food, which tastes well and natural, as if the exhaled air smelt putrid, almost causing nausea. He smells several times of the food, thinking that the stench might proceed from that." [Allen]

MIND - Weakness of memory, how to make several letters. Restlessness during pain. Restlessness in morning, better rising. Restlessness in morning before rising.

Delirium in meningitis cerebrospinalis or encephalitis. Scolding in meningitis. Delusion of being heavy. Comes across as a closed personality.

Have difficulty in expressing themselves. When answering, always considering whether they are revealing bad things about themselves.

Abdomen - Rumbling in morning, better emission of flatus. Rumbling in morning on waking.

Back - Pain in dorsal region, at inner angle of left scapula. Aching pain in lumbar region in morning in bed (Chr-o.).

Ears - Sensation of water in right ear, appearing and disappearing suddenly.

Eyes - Sensation of enlargement at night. Cutting pain in evening.

Face - Heat at 10 p.m.

Female - Offensive, fetid lochia.

Food - Worse cold drinks. Worse tea.

Head - Headache. Fullness at night, with peculiar sensation of lightness at the heart.

Heart - Sensation of emptiness at region of heart.

Lungs - Like fine twine threads.

Modalities - Better motion. Worse morning. Worse 5 a.m. to 9 a.m. Worse cold. Worse least draft of air. Worse cold water. Worse night and early morning. Worse 2 a.m. to 6 a.m.

Mouth - Epithelioma of tongue. Putrid odor while eating. Prickling of tongue. Ranula, periodic. Metallic taste during dinner.

Nose - Tumor, posterior nares.

Rectum - Sudden urging for stool. Diarrhea, green or bluish. Watery, stool.

Skin - Wounds, bites of rabid dogs.

Sleep - Waking with heart symptoms. Dreams of riding horses through a stream. Dreams of being poisoned. Dreams of urinating. Dreams that he had an attack of strangury, which the next morning proved to be the fact, he did not get over it for two hours. Dreams of crossing a stream of water on horseback, and water froze.

Stomach - Nausea better walking. Transient nausea when stomach is empty. Vomiting, breakfast.

Teeth - Pain extending to ear, extending to forehead.

Throat - Constant disposition to swallow from thick mucus.

Vertigo - Vertigo with inclination to fall to the right side. Vertigo while walking.

REFERENCES - Allen. Blackwood.

***CHRYSANthemum

(Ox-eye Daisy)

PHARMACY - chrysan. Chrysanthemum leucanthemum. Ox-eye daisy. Leucanthemum vulgare. Compositae. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - Chrysan. has a specific action on sudoriparous glands. Quiets nervous system (Cypr.). Right-sided tearing pain in bones of jaw and temple. Pain in teeth and gums, worse touch, better warmth. Irritable and tearful. **Insomnia and night sweats.** Colliquative sweating and hyperesthesia of nervous system. Material doses of the tincture have been used in the past.

REFERENCES - Boericke.

***CHRYsarobinum

(Goa Powder)

PHARMACY - chrysar. Chrysarobinum. Goa powder. Andira araroba. N. O. Papilionoideae. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Blepharitis. Conjunctivitis. Herpes. Itching. Keratitis. Photophobia. Psoriasis. Ringworm.

HOMEOPATHIC - Chrysar. has been used successfully in skin diseases especially in **ringworm, psoriasis**, herpes, and acne rosacea. Vesicular or squamous lesions, associated with foul smelling discharge and crust formation, tend to become confluent and to give the appearance of a single crust covering the entire area.

Violent itching of thighs, legs and **ears**. Dry, scaly eruption, especially around eyes and ears. Scabs with pus underneath (Mez.).

Ears - Eczema behind ears. Filthy, scabby condition with tendency to form thick crust. Whole ear and surrounding tissue appears to be one scab.

Eyes - Optical hyperesthesia. Intense photophobia. Blepharitis, conjunctivitis, keratitis.

COMMENTS - It contains chrysophan, which is rapidly oxidized into chrysophanic acid. This is also contained in Rheum and Senn. Acts as a powerful irritant of the skin.

RELATIONS - **Compare:** (1) Rhubarb and Senn.

REFERENCES - Boericke.

***CHRYsophanicum Acidum

(Chrysophanic acid)

PHARMACY - chrys-ac. Chrysophanicum acidum. Chrysophanic acid. An organic acid obtained from rhubarb and some lichens. **Historical dose:** Tincture and all potencies.

CLINICAL - Blepharitis. Conjunctivitis. Ophthalmia. Psoriasis. Ringworm.

HOMEOPATHIC - Chrys-ac. is a constituent of **"Goa powder."** Tried as a local application in the form of

ointment in bad cases of psoriasis on one limb, Chrys-ac. has caused the disappearance of the eruption on the other limb as well, showing a constitutional action.

A. B. Norton used it successfully internally and externally in blepharitis, conjunctivitis and keratitis, the phlyctenular variety, also in eczema behind ears.

G. C. McDermott confirmed this. Used locally (grains 4 to grains 8 with Vaseline), internally, or both, it is a magnificent remedy in eye and ear cases where a filthy, scabby condition exists with a tendency to form thick crusts.

Cases in which the whole ear and surrounding tissue appeared to be one great scab from the center of which oozed the pus which came from a suppurative otitis media cleared up in two or three weeks under internal and external use of Chrys-ac. Also cases where a similar condition of eyelids and skin of face obtained. Clarke often saw a ringworm disappear rapidly from a few applications of the ointment.

It has been used with some success in the lower triturations internally for psoriasis, ringworm and other skin affections, also as a local application in ringworm.

COMMENTS - It is a powerful irritant of the skin and mucus membranes. Given internally in crude form it has caused nausea, vomiting and purging.

E. W. Beebe of Milwaukee related the effect on a friend, troubled with blepharitis, who applied to his eyelid a one-in-ten ointment made with Vaseline. The effect was immediate.

Marked conjunctiva inflammation of globe and eyelid, contraction of pupils, intense photophobia, the least ray of light producing great pain increased by a throbbing sensation synchronous with the pulse. This was accompanied with phosphorescent flashes of light.

On forcing eyes to look at objects, retinal impressions remained some time after closing them. Swelling of lids and irritation of skin around. After lasting a week there was marked improvement and a second, milder application completed the cure.

Beebe regarded the condition set up as one of "Retinal asthenopia." Graafe called it "optical hyperesthesia."

RELATIONS - Compare: Physostigma and Pilocarpine are its analogs.

REFERENCES - Boericke. Clarke.

***CICHORIUM INTYBUS

(Chicory)

PHARMACY - cich. Cichorium intybus. Chicory. Endive. N. O. Composite. Tincture or trituration of dried root.

Historical dose: Tincture and all potencies.

CLINICAL - Amblyopia. Constipation. Fatigue. Headaches.

HERBAL - Chicory is the well-known salad, the root of which is used for mixing with coffee. When taken in infusion like coffee, it acts as a gentle aperient. A chicory-roaster observed that he "could not read at night, not from any external irritation of the eyes, but from a feeling of deadness in them."

HOMEOPATHIC - Chicory has been proved and symptoms have been observed including a general heaviness and headaches. Weight at stomach and great indisposition to bodily and mental exertion. Want of energy. Bowels relaxed.

RELATIONS - Compare: Chicory, a Bach Flower Essence.

REFERENCES Clarke.

***CICUTA MACULATA

(Spotted Cowbane)

PHARMACY - cic-m. Cicuta maculata. Spotted cowbane. Beaver poison. N. O. Umbelliferae. Tincture of root gathered in summer. **Historical dose:** Tincture and all potencies.

CLINICAL - Coma. Convulsions. Epilepsy. Tetanus.

HOMEOPATHIC - The effects of the Cic- m. are very similar to those of the Cic. The most prominent symptoms include falls unconscious, tetanic or clonic convulsions, and body covered with sweat. Consider in epilepsy and tetanus.

RELATIONS - Compare: (1) Cicuta virosa. **REFERENCES** - Clarke.

***CICUTA VIROSA

(Water Hemlock)

PHARMACY - cic. Cicuta virosa. Water hemlock. Cowbane. N. O. Umbelliferae. Tincture of fresh root gathered at time of flowering. **Historical dose:** All potencies.

CLINICAL - Bladder, paralysis. Cancer. Catalepsy. **Cerebrospinal, meningitis.** Coccyx, pain. Colic. **Concussions. Convulsions.** Delirium. Delusions. Diarrhea. Eczema. **Epilepsy.** Epithelioma. Esophagus,

stricture. Eyes, inflammation. Face, eruptions. Fever. Hallucinations. Headaches. **Head, injuries. Hemorrhage. Hiccoughs.** Hysteria. Impetigo. Injuries. Mania. **Meningitis.** Myelitis. Nightmares. Numbness. **Opisthotonos.** Paralysis. Psoriasis. Puerperal, convulsions. Screaming. Snow-blindness. Spasms. **Strabismus.** Stuttering. **Suppressed, eruptions. Tetanus.** Trismus. Twitching. Vomiting. Worms.

HOMEOPATHIC - Cicutia virosa is one of the most active of the poisonous umbelliferae. Chiefly acts on the brain, medulla oblongata, nervous system, the gastro-intestinal tract, and the skin. The action producing spasmodic affections including hiccough, trismus, **tetanus and convulsions,** and locked jaws.

Violent general action with frightful distortions. **Bending of the head, neck and spine backwards.** Strange desires. Moaning and howling. Does absurd things. Sensation of internal chill. Dilated pupils. Shocks from head down body. Face bluish. Froths at mouth. Bites the tongue.

Violent spasmodic effects. Great agitation. **Frightful contortions.** Epilepsy. Gesticulations, odd motions. **"Jerking of the left arm all day."** Tremor when touched. Trembling palpitations. Spasms of diaphragm, hiccough of gullet.

Spasms move downwards with terrific violence with sudden shocks through body or head. **"Head turned or twisted to one side"** in convulsions. Convulsions followed by sudden rigidity, shrieks, then jerks and violent distortions, then prolonged unconsciousness.

Utter prostration follows the convulsive attacks. **Opisthotonos** and frightful **facial distortions.** Bloody foam from the mouth. **Muscles become rigid.** Catalepsy. Tearing, jerking in coccyx. Spasms are renewed by touch, by noise, loud talking.

. **Falls and the effects of concussions.** Convergent strabismus from fall or blow. **Concussion of brain.** Cerebro-spinal meningitis. Sleeps and weeps on being aroused, distorts facial muscles and stares vacantly. Troubles arising from shaving. Marked action on the skin. Hungry immediately after a meal.

MIND - Dullness after injuries of head. **Anxiety about future.** Excitement and apprehension about future. Excessively affected by sad stories. **Horrible things, sad stories affect her profoundly.** Sad when seeing others happy. Worse from fright (Op., Ig.). Fright can cause epilepsy.

Suspicious. Mistrustful, shuns **men. Aversion to presence of strangers.** Despises others. **Aversion to company.** Desires to be alone during menses. **Contemptuous.** Melancholy with indifference. Sadness after concussion of brain.

Does not remember what has happened, does not recognize anybody but answers well. Feels as if he was in a strange place. Everything appears strange and terrible. **Avoids the sight of people.** Confounds present with the past, feels like a child. Memory blank, for hours or days. Thinking of complaints helps.

Falls to ground and rolls about with or without convulsions. **Moaning, howling and weeping.** Epilepsy with moaning and whining. Stupor between convulsions. **Shrieking before convulsions.** Delirium with gestures. Mania with dancing, laughing and ridiculous gestures. Sings, dances, shouts. Violent. Impulsive. Rash behavior. Childish behavior. Hallucinations and convulsions after typhoid.

Abdomen - Distended and painful. Rumbling in abdomen. Flatulence with anxiety and crossness. **Colic with convulsions with vomiting.** Heat and burning in abdomen. Sudden, sharp, pains from navel extending to neck of bladder. Tearing pain deep in abdomen.

Observed: Flatulence with anxiety and crossness. Rumbling in abdomen. Distended and painful. Chronic painful hernia. **Back** - Spasms and cramps in muscles of neck. The head drawn backwards. Opisthotonos. **Back bent backward like an arch.** Muscles of neck contract and become hard as wood. Weakness in muscles of back after standing only a short time. Jerking, tearing in coccyx, especially during menses. Right scapula as if bruised. Neuralgia at nape with dull occipital headache.

Causations - Bad effects from falls, blows and concussions. Tetanus. Splinters in flesh.

Chest - Chest feels tight, can hardly breathe. Heat or cold sensation in chest. Tonic spasm in pectoral muscles. Sensations as if something the size of a fist was lodged in chest and throat. Lower end of sternum as if sore or bruised, when walking.

Constitutions - Suited to nervous elderly people and children.

Ears - Ears hot or cold. Earache caused by filling teeth with gold. **Hemorrhage from ears.** Sore behind ear as after a blow. Suppurating, burning eruption on and about ears. Oversensitiveness of hearing. Difficult hearing. Doesn't hear well unless one speaks loudly to her, and she pays attention. Sudden detonation, especially on swallowing. Roaring noises in ears.

Eyes - Pupils dilated in concussion of the brain, contracted in spasms. **Strabismus,** periodic, spasmodic after a fall or blow. Eyelids twitch. Spasmodic disorders of eyes. Eyes roll, jerk and stare. Stares persistently at objects. Objects recede, approach and seem double, black. Letters go up and down or disappear, when reading. Effects of exposure to snow.

Face - Ashy paleness of face, during convulsions. Flushed face, with headache and restless sleep. Red or

pale face and drawn, sweaty. **Face is distorted horrible or ridiculously.** Trismus, disposition to grind teeth. Lockjaw. **Twitching of facial muscles.** Faceache caused by filling teeth with gold. Pustules which run together forming thick, yellow scabs on face and head. Dark red pimples on face. Epithelioma of lips. Painful ulcers on lips.

Female - Spasmodic states when menses do not appear. Coccyx painful during menses. Puerperal convulsions. Eclampsia during childbirth. Convulsions during pregnancy, delivery.

Food - Inability to distinguish between edible and inedible. Stomachache, sleepiness, feel satisfied immediately after eating. Great hunger soon after a meal. **Craves coal, chalk and many other strange articles.** Longing for wine. Thirst, extreme, with convulsions.

Head - Headache on waking in morning. **Convulsions from concussion of brain.** Sudden, violent shocks through head. **Head turned or twisted to one side.** Congestion of head with vomiting and purging. Head retracted, spine rigid.

Neck muscles are contracted. Headache alternating with pain in abdomen. Head symptoms relieved by emission of flatus. **Cerebrospinal meningitis.** One-sided headache, stupefying, as from a rush of blood, better sitting erect. **Cerebral diseases following suppressed eruptions.** Sudden, violent shocks through head. Jerks the head. Thick, yellow scabs on head. Sweat during sleep.

Heart - Trembling palpitations of the heart. Feels as if the heart stopped beating with faint feeling. Heart's action weak. Rapid pulse. Pulse weak, slow, at times imperceptible.

Kidneys - Involuntary urination in old men. Urine is passed with great force. Stricture of urethra after inflammation, gonorrhea. Paralysis of bladder with great anxiety about it. Passes large quantities of urine or else none at all.

Limbs - Curved limbs which cannot be straightened, nor straight ones bent. Jerking and twitching in the arms and fingers. Jerking in left arm all day. **Cramps and spasms.** Trembling of left leg. Feet turned inward and toes turned upwards in spasms, while walking. Swings feet in half circle while walking. Forearms and legs as if bruised. Complete powerlessness of limbs after sudden jerks. Great weakness in arms and legs, after slight exertion. **Rigid limbs.** Trembling in upper and lower limbs. Cold limbs.

Lungs - Oppressed, can scarcely breathe, may arise from tonic spasm of pectoral muscles. Snoring. Interrupted, in spells. Want of breath the whole day. Difficult, chest feels too tight. Suspended, at times gasping.

Male - Testes drawn up towards external abdominal rings. Sharp pains in fossa navicularis, with nightly emissions. Sore, drawing pains in urethra, as far as glans, obliging one to urinate. Pollutions without lascivious dreams.

Modalities - Better from thinking of pain. Better warmth. **Worse from concussions. Worse from injury to brain and spine.** Worse turning the head. Worse from cold, drafts. Worse tobacco smoke. Worse jar.

Worse noise. Worse slightest touch. Worse dentition. Worse suppressed eruptions. Worse from worms. Worse from splinters in flesh. Worse turning the head.

Mouth - Foam in and around mouth. Swelling of the tongue, speech difficult. Bites the tongue. Grinding of the teeth with lockjaw. Water brash, saliva flows from mouth with heat all over. Thirst, burning pressure. White, painful, burning ulcers on edges of tongue, painful to touch. Tongue coated, dry. Speech difficult. **Stuttering.** Couldn't speak from having no control over movements of tongue and mouth. Speechlessness from wounded esophagus. Speechlessness in cerebrospinal meningitis.

Nose - Slight touch causes it to bleed. Frequent sneezing without coryza. Nostrils seem stopped. Nostrils ulcerated, with yellow, purulent discharge from nose.

Perspiration - Sweats at night and in morning. Sweats on abdomen. Profuse sweats at night, without being able to sleep.

Rectum - Diarrhea in morning with irresistible desire to urinate. Itching in rectum with burning pain after rubbing. Diarrheic stool followed by constipation. Prolapsed rectum. Frequent liquid stools. Cholera when purging ceases, and congestion to brain and chest. Desire to urinate after stool. Stools thin, slimy. Stools expelled suddenly, sudden urging. Scarcely able to retain stool.

Skin - Eczema, no itching, exudation forms into **aljarl, lemon-colored crust.** Pustules coalesce into thick, yellow massive scabs, worse head and face. **Suppressed eruption causes brain disease.** Elevated eruptions, as large as peas. Barber's, baker's itch. Red vesicles on right scapula, painful to touch. Burning, itching of skin over whole body. Impetigo, honeycomb-like crusts, which fall off and leave a bright red smooth surface.

Sleep - Complete sleeplessness in hysterical spasms. Frequent waking, with sweat all over, from which he feels refreshed. Bites the tongue in sleep. Starting during sleep. Deep sleep. Dreams vivid, but not remembered. Vivid dreams about events

of previous **day. Nightmares after movies and sad stories.** Nightmares of people being mutilated, attacked,

tortured.

Stomach - Burning heat in stomach. **Hiccoughs**. Loud hiccough with crying, alternating with thoracic spasms. Indigestion, with insensibility, frothing at mouth. Vomiting of bile or blood on stooping, on rising in pregnancy. Throbbing in pit of the stomach with distention. Pains with vomiting, painful distension of abdomen and spasm of pectoral muscles. Vomiting during convulsions. Vomit yellow, like mucus. Vomiting during headache.

Teeth - Toothache caused by filling teeth with gold. Grinding of teeth with pressing of jaws together like lockjaw.

Temperature - Chilliness, constant desire to be near a warm stove. Chill starts in chest and runs down legs and into arms with staring look. Cold internally and externally. Typhoid fever. Nervous fever, characterized by great stupidity. Worm fevers in children, with colic and convulsions.

Throat - Effects of swallowing sharp fish bones. Dry. Feels as if grown together. Spasms of esophagus, cannot swallow from injury of fish bone etc. Stricture of esophagus. Strangling on attempting to swallow. Danger of suffocation from swallowing sharp pieces of bone. Choking on attempting to examine the throat. Constriction of esophagus from intestinal irritation. Constriction with spasmodic contraction of muscles of neck, almost like tetanus.

Vertigo - Vertigo with stomach pain and muscular spasms. Objects move from side to side or approach and recede. Vertigo with desire to hold on to something when standing still. Vertigo with reeling, falling to the ground. Vertigo on stooping. Vertigo after injuries to head. Vertigo on rising from bed.

Vision - Momentary loss of vision. Frequent vanishing of sight. Letters disappear or go up and down. Colors of rainbow around letters. Letters seem to turn when reading. Objects appear black. Objects vacillate. Diplopia. Iris-like circles around candle.

Can scarcely see in sunlight.

COMMENTS - Characteristic twitching and spasmodic jerks. **"Bending the head back"**- wrd."Useful for residue from a trauma that included convulsions, or if current treatment masks residue symptoms.

Convulsions, epilepsy, severe neck and spinal trauma, head injuries. Keynote **arching of the back**. Epilepsy, spasms, trauma cases, or spinal diseases with severe back spasms.

Contortions of the body. The body takes on strange postures and contortions of the limbs. Chorea (Caust.), involuntary contractions, jerking, and rigidity of the limbs. Mania, dancing, singing, grotesque postures (Hyos.). Moans and howls with great agitation, makes gesticulations, odd motions, head turned or twisted to one side. Cataleptic after contortions, no recall of the attack, tranquil feeling (Op.). Utter prostration after the convulsions. Drug overdoses with convulsions, paralysis, respiratory failure, twitching and jerking of the limbs.

Cerebrospinal meningitis, the opisthotonos being the leading indication. Meningitis, where the neck goes back, eyes are glassy and body is twitching and jerking with spasms and a high fever (Bell, without the flushed face).

Delirium in meningitis, pupils are fixed and staring.

Tetanus (Hyper., Led.), with violent spasms and severe lockjaw. Usually later stages of clinical tetanus. Head injuries that cause visual disturbances, twitchings of the eyes, double vision. Lazy eye, strabismus.

Eclampsia, toxemia. Convulsions during pregnancy. Convulsions due to uremia, too much uric acid in the blood or kidney failure. Strange desires, such as to eat coal.

Marked action on the skin, including the eruption of pustules which run together with yellowish honey-colored scabs, especially about mouth and matting the whiskers. Epithelioma, growths covered with honeycolored scabs.

Nash cured eczema capitis in a young woman with Cic. Her whole scalp was covered as with a solid cap.

Grimmer used it for cancers of the skin, epithelioma, convulsive violence as in cerebrospinal meningitis. Also in opisthotonos, strabismus, violent spasmodic jerks, paralysis, especially of the bladder, stricture of the esophagus.

Teste mentioned the case of a woman of 58 who ceased to menstruate at 30 in consequence of a fright, and who was of "robust constitution, irritable, nervous and excessively fanciful and odd." She had a chronic swelling of the left ovary. Cic. had a remarkably quieting effect for several weeks, and during that time the swelling diminished considerably. The patient had to leave Paris, so the treatment could not be followed up.

Dr. H. Von Musits treated a case of acute meningitis in J. N. R., 43, male, married, a user of alcohol and tobacco, bookkeeper.

After the intense summer heat, symptoms developed including convulsions, distortion of limbs, head turned backward. Trismus. Froth from mouth. Biting of the tongue. Oppression of breathing. Entire loss of consciousness and of power of swallowing. Convulsions, followed by complete exhaustion. Stupor. Swelling of face. Inability to move the tongue. The whole body seems to be of enormous size.

The patient had three convulsions during twenty-four hours, followed by the swelling of the tongue and body. Extreme trembling of the hands. Articulation difficult.

Next day, profuse watery diarrhea stools, worse by any noise, sudden entrance of any person into the room

or loud talking. Better by rest and in a dark room. Several times previously he had symptoms of nervous exhaustion. His brother, a physician, died the previous spring from paresis in consequence of excessive use of alcohol and drugging.

After two doses of Cic. 200c there were no more convulsions and the patient was perfectly cured in two weeks. There was no relapse.

Banerjee recorded the case of "A lad, aged five years, had an attack of cholera three days before my visit. Had been treated by a homeopath from beginning of attack.

The patient was suffering from convulsions, when I first saw him on the fourth day. The convulsive fits were very severe since the third day of the attack of cholera.

"The symptoms were: eyes half turned, head drawn toward the left side and the hands and feet of the same side were contracted. He was given Bell., Hyos., Cina and Bryonia without effect. Cicuta virosa was then given. The first dose mitigated the severity of the fits, the second dose put the child to sleep and thus he was saved from imminent death."

RELATIONS - Antidoted by: Am., Op., for massive doses tobacco. Antidote to: Opium. **Compare:** (1) Cicuta maculata. (2) Con., En- anth., Stry., Bell. (3) Con., Aeth., Oena. Croc., Hyper. - spinal concussion, Hyos. - twitchings. Hell, Hydr-ac. - body thrown back, cramps in neck. (4) Nux-v. and Stry. - tetanus, but with Nux-v. there is not the utter prostration and great oppression of breathing of Cie., Nux-v. is less epileptiform and has more excitability. **Compatible after:** Lach after Ars. and Con. (Cancer of lip), Cupr. (Aphasia in chorea).

REFERENCES - Boericke. Clarke. Grimmer. Murphy. Phatak.

***CIMEX LECTULARIUS

(Bedbug)

PHARMACY - cimx. Cimex lectularius. Bedbug. Acanthia lectularia. N. O. Hemiptera. Tincture or trituration.

Historical dose: All potencies.

CLINICAL - Chill. Colic. Constipation. Contractures. Cough. Fever. **Hamstrings.** Headaches. Hemorrhoids. Intermittent, fever. Liver, pain. Muscle, contractions. Seminal, emissions. Skin, disorders. **Tendons, disorders.** Yawning.

HOMEOPATHIC - Cimex is an ancient remedy for intermittent fever. Nash recorded the following cure by Dr. Brewster of Syracuse. After driving a fractious horse that tried to run away over a very rough road, a man was so bruised and sprained about the buttocks and legs that he was confined to the house for a long time.

It settled finally into what appeared likely to be permanent contraction of the lower limbs. No remedy relieved until Dr. Brewster remembered a case of intermittent fever that he had cured twenty years before, being guided by this symptom. Cimex 600c (Jenichen) promptly cured.

Characteristic weariness and **inclination to stretch**. The flexors are most affected, pains in all joints **as if tendons were contracted and too short**, every motion or stretching of arms or legs causes tightening pain in them. **Hamstrings feel too short** (Am-m.). Sensation of retraction of arm tendons. The whole right side is especially affected.

MIND - Anxiety, after chill. Clenching of hands with violent rage at beginning of chill. Sensation as if he could creep into himself and on that account could not sufficiently crouch together. His own sweat is disgusting to him. **Abdomen** - Pain in the liver, as if it had been strained by bending the right side inward, the spot is painful when touching it or coughing. Colic, followed by emissions of flatulence or liquid stools.

Back - Pain in the small of the back, extending over the abdomen with distention of the abdomen, worse when sitting. Weariness in loins, must sit down.

Chest - Chest feels oppressed during chill. After chill, heaviness in chest, anxiety.

Female - Shooting pain from vagina up towards left ovary.

Head - Confusion of head as if headache would ensue. Pain like needle stitches in vertex with cough. Pain under right frontal bone. Violent headache, caused by drinking. Great rage, vehement at beginning of chilly stage. Would like to tear everything to pieces. Sweating on head, nose and chest.

Heart - Pulse feeble, intermitting.

Kidneys - Urine brown with a deposit of sediment (during the fever, when he drinks).

Limbs - **Hamstrings feel too short, knees flexed**, attempting to stretch them causes pain in thighs. **Pains in all joints, as if tendons were too short**, especially knee joints. Knees feel cold, as from a cold wind. Pain in right shoulder and the anterior muscles of the chest, extending through the whole arm down to the nails, the fingers

feel as if they had gone to sleep.

Lungs - Dry cough with gagging, as if he would vomit with perspiration. Breathing oppressed after chill.

Modalities - Worse motion. Worse stretching or extending the part. Worse in morning. Worse from drinking.

Weariness compels to lie down. Pain in small of back worse sitting. Sweat on nose during rest in morning.

Mouth - Tongue coated white. Swollen feeling of the tongue. Feeling as if burnt on the tongue in the region of the palate and the upper anterior gums.

Nose - Annoying dryness of nostrils. Fluent coryza with pressure in frontal sinuses. Constant sneezing in forenoon. Sweat on nose, morning during rest.

Rectum - Constipation, feces dry, hard, and in small balls (Op., Plum., Thuj.). Rectal ulcer.

Sleep - Great drowsiness, falls asleep when sitting in the morning. Irresistible sleepiness during chill. Frequent yawning with cold feeling on skin.

Stomach - Sour belchings.

Stool - Stools hard, in small balls. After the discharge of a small piece of white stool, the rectum closes firmly. Stools with hemorrhoidal sufferings.

Temperature - Chilliness of whole body, worse lying down. Thirst during apyrexia, but little during chilly stage, still less during hot stage and none during sweating. Before the cold stage, thirst, heaviness in the lower limbs. At the beginning of the chill, clenching of the hands and violent rage. The perspiration after the hot stage is accompanied by hunger. Perspiration mostly on the head and chest. Musty offensive sweat. During the intermittent fever, constipation, stools dry.

Throat - Dryness, causing him to drink all day. Esophagus becomes constricted during the hot stage.

COMMENTS - Tertian and quartan intermittents. Musty smelling sweats. Night-sweats. Heat with gagging, esophagus feels constricted. Before chill, thirst and heaviness in legs, less thirst with chill, still less with dry heat, none with sweat.

Chill commences with clenching of hands and violent raging. Pains in all joints as if tendons contracted during chill. Sensation as of a cold wind blowing on knees. After the chill, thirst, but drinking causes violent headache, tickling in larynx causing dry, continuous cough. Gagging and belching at end of cough.

Urging to stool. Hard stool, in small balls. Discharges of a small piece of white stool, then rectum closes firmly. Stools with hemorrhoidal sufferings. Incontinence of urine. Hot urine, brown or red sediment.

Urticarious eruption. Irresistible sleepiness. Frequent yawning. Frequent erections in morning, seminal emissions.

A. W. K. Choudhury related a case of intermittent (quotidian) cured with Cimex 30c, the chief indications being: "Chill slight, thirst some days, none other days, shiverings, passed water twice during chill, chill worse by lying down increase of cough if he drinks water during chill."

RELATIONS - Compare: (1) Nat-m. - headache lessens in the sweating stage. (2) Ars. - headache remains or increases in the sweating stage. (3) Bell. - throbbing of the head in intermittents. (4) Ars. and Bry. - gagging at end of cough.

REFERENCES - Boericke. Clarke.

***CIMICIFUGA RACEMOSA

(Black Cohosh)

PHARMACY - cimic. Cimicifuga racemosa. Black cohosh. Actea racemosa. Macrotys racemosa. Actea monogynia. Cimicifuga serpentaria. Black snakeroot. Botroflus serpentaria. N. O. Ranunculaceae. North America. Tincture of the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Abortion, tendency. Angina, pectoris. Appetite, disordered. **Back, pains.** Breast, disorders. Cerebrospinal, meningitis. Chest, pains. Chorea. Colic. **Cramps.** Delirium, tremens. Diaphragm. Dyspepsia. Epilepsy. Faintness. Fevers. Gout. Headaches. Heart, disorders. **Hot, flashes.** Hysteria. **Labor, pains.** Lumbago. Melancholy. Meningitis. **Menopause. Menstruation, disorders.** Miscarriage. Muscle, pain. Neuralgia. Ovaries, disorders.

Perichondritis. Pleurodynia. Pregnancy, disorders. **Puerperal, fever.** Puerperal, mania. **Rheumatism.** Sciatica, pains. Sleeplessness. Spinal irritation. Stiff-neck. Tinnitus. Tremors. **Uterus, disorders.** Vomiting.

HOMEOPATHIC - Wide action upon the cerebrospinal and muscular system, as well as upon the uterus and ovaries. The generative organs in the female are particularly affected. Uterine and ovarian pains are very marked. Infra-breast pains. Tenderness of the uterine region. **Pain across pelvis from hip to hip.** Left ovarian pains.

Leucorrhea with feeling of weight in uterus. Painful and irregular menses. Menses with backache, nervousness, irregular in time and amount, more flow, more pain. Labor-like pains. **Displaced labor pains to hips, thighs or back.**

Pains are violent, aching, shooting, wander here and there. Compressive pains. Pains like electric shocks, with cries, faints etc.

Pains go upwards or side to side, up the neck, about the throat from ovary to ovary. Belly of the muscles feel

bruised, sore, heavy aching. **Muscular and crampy pains**, primarily of neurotic origin, occurring in nearly every part of the body. Sore and tender along the tract of pain.

Trembling, twitching in various organs or of part lain on. Alternating clonic and tonic spasms. Nervous shuddering. Spasms of cerebro-spinal fever. Chorea, at puberty with delayed menses, cardiac. Hysterical and epileptic convulsions at the time of menses.

Agitation. General sick feeling with exhaustion. Many of the symptoms are irregular, changeful or they alternate in groups, alternation of physical and mental effects. Alternate mental and rheumatic symptoms. Symptoms referable to the pelvic organs prominent.

Lumbago. Muscle pain. Useful in rheumatic, nervous subjects with ovarian irritation, uterine cramps and heavy limbs. Children during dentition. Influenza. Cold air seems to penetrate the system, very sensitive to it. Headache is better in open air, worse in warm room. Migraine.

MIND - Melancholy. Depression with low spirits and exhaustion. **Gloom and dejection, as if there was a black cloud over everything.** Forebodings of death, insanity, impending evil etc. Fear of death. Fear of riding in a closed carriage. Fear that those in house will kill him. Fear of rats. **Thinks she is going crazy.** Vision of rats, mice, various colors and forms.

Nervous, fidgety, excitable and jerky. Incessant talking, changing from one subject to another, as in delirium tremens (Lach.). Desire to wander from place to place. Hysteria. Mania, before menses. Mania, alcoholic, tries to injure himself. Puerperal mania, following disappearance of neuralgias.

Weak will. Indifferent. Suspicious. Oversensitive, especially for pain. **Hypochondriasis.** Sits and mopes in great sadness, when questioned breaks into tears. Mental symptoms are better by diarrhea or menses, worse after rheumatism.

Abdomen - Colic better bending double and after stools. Sharp pains across hy- pogastrium.

Back - Rheumatic pains in muscles of back and neck. **Stiffness and contraction in neck and back.** Stiff neck, sensitive, worse pain or pressure, causes nausea and retching. Neck aches, throws the head back. Pain in the angle of left scapula. Spine very sensitive, especially upper part. Pain in lumbar and sacral region, down thighs and through hips. Crick in back.

Breasts - Burning in breasts. Infra-breast pains, worse left side. Presses breasts as though in pain.

Causations - Ill effects of anxiety, fright, disappointed love, overexertion, business failures, or childbirth.

Chest - Intercostal rheumatism. Sharp stitches in left chest, motion exhorting cries. Left-sided infra-breast pain. Pleurodynia.

Constitutions - Suited to the menopausal period, to nervous persons, to children during dentition, diarrhea. Nervousness from anxiety or overexertion. Rheumatic persons. Plump, delicate, sensitive, nervous, chilly women who complain of aching pain in back, neck, here and there.

Many of the complaints are dependent upon uterine or ovarian irritation.

Ears - Tinnitus. Sensitive to least noise with spasmodic labor pains. Violent noises in ear with deafness.

Eyes - Eyes feel big, wild look. Asthenopia associated with pelvic trouble. Deep-seated throbbing and **shooting pains** in eyes. **Intense aching in eyeballs** or behind them, better pressure, worse slightest motion. Pain from eyes to vertex. Ciliary neuralgia. As if a needle were run into the eyeballs, worse closing eyes. Photophobia from artificial light. Sees red flashes with dark borders.

Face - Pale, hot. Wild, fearful expression. Neuralgia affecting malar bones, better night, reappears the next day. Facial blemishes in young women. Forehead feels cold.

Female - Menses are profuse, dark, coagulated, scanty with backache, nervousness, irregular in time and amount, more flow, more pain. Menses suppressed from emotions, cold. Hysterical or epileptic spasms at the time of menses. Great debility between menses. Amenorrhea. Leucorrhea with a sensation of weight in the uterus. **Pain across pelvis from hip to hip.** Ovarian neuralgia, pain across pelvis from ovary to ovary or goes upwards or downwards along the thighs. Uterine atony. Mania. Slow labor pains with nervous shivers.

Puerperal fever. After-pains with great sensitiveness and **intolerance to pain.** worse in groins. Lochia suppressed by cold or emotions.

Food - No thirst, slight feeling of hunger in stomach, rumbling in abdomen. **Great thirst.** Appetite variable. No appetite for dinner, wants to drink cold water, little at a time suffices.

Head - Waving or wild sensation in brain. Head retracted (meningitis). **Opening and shutting** sensation in brain. Brain feels too large. Shooting, throbbing pains, headache after mental worry, over-study or from reflex uterine disease, better open air. **Pressing outward pain.** Feeling as of a blow or as if a bolt has been driven from occiput to vertex up to the eyes (left).

Heart - Heart's action ceases suddenly, impending suffocation. Sore, as if swollen or enlarged. Pulse weak, irregular, trembling, drops every third or fourth beat. Tremulous action. Numbness of left arm. feels as if bound to side. Needle-like pains at heart. Angina pectoris, pain spreads all over the chest to the back and down the

left arm which feels numb and as if bound to the side. Cardiac neuralgia in childbirth.

Kidneys - Profuse clear urine, causing weakness, with yellow sand. Nervous urination.

Limbs - Alternation of rheumatic and mental symptoms. Uneasy and restless feeling in the limbs. Chorea movements, accompanied by rheumatism. Rheumatism affecting the belly of muscles, especially large muscles. Aching in limbs and **muscular soreness**. Jerking of limbs. Numbness of limbs. Cramps. Left arm feels as if bound to the side, constant irregular motion of left arm (chorea). Hands tremble while writing. Cold sweat on hands and feet. Soles itching. Cramps in calves. Stiffness and contracted Achilles tendon. Trembling of legs, can scarcely walk.

Lungs - Tickling, short, dry, constant cough worse at night, speaking. Cough when secretion is scanty-spasmodic, dry, with muscular soreness and nervous irritation. Nervous cough.

Modalities-Better from warm wraps. Better open air. Better continued motion. Better pressure. Better grasping things. Better rest, and eating. Worse from damp, cold air. Worse change of weather. Worse heat and cold, draft. Worse alcohol, especially wine. Worse from motion. Worse sitting. Worse puberty. Worse during menses, labor, menopause. Worse emotions. Worse in the morning, and at night (malar neuralgia better at night). Pains in arms and Achilles tendon worse as evening approaches.

Mouth - Saliva thick. Coppery taste. Hawks up viscid coppery tasting mucus. Thick mucus on teeth. Cannot speak a word though she tries. Tongue and mouth feel warm. Tongue pointed and trembling, swollen.

Nose - Sensitive to cold air, every inhalation seems to bring the cold air in contact with the brain.

Rectum - Frequent thin, dark offensive stools. Alternate diarrhea and constipation. Morning diarrhea of children.

Sensations - As of lifting up of skull, as if top of head would fly off, as of a bolt through from base of skull to vertex. Inspired air seems to penetrate skull and into brain, causing a cold sensation. Intense pain in and around the eyes (lancinating), worse moving head or eyes.

Skin - Locally and internally for ivy poisoning.

Sleep - Sleeplessness. Sleeps with arms overhead or yawning. Comatose, as if drunk. Brain irritation of children during dentition.

Stomach - Sinking in the epigastrium (Sep., Sulph.). **Gnawing pain** .Nausea and vomiting from pressure on spine and cervical region, pregnancy, alcohol. Vomits green substance, groans, raves and presses the head with both the hands for relief. Belch- ings with nausea, vomiting and headache.

Throat - Burning. Thyroid aches before menses.

COMMENTS - Frontal, vertical or occipital headache, accompanied by great pain in the eyeballs, better pressure, worse slightest motion. Headache with a feeling as if going crazy. Headaches reflected from pelvic organs. Depression as if a black cloud has settled over them.

Rheumatism affecting the vertebral joints and especially in the neck. Cerebrospinal meningitis, head and neck retracted. Clarke found a pain at the nape of the neck very characteristic.

Sciatica with sharp, shooting pains down the limbs with back spasms. Hip and lum- . bosacral problems that affect uterus and other organs (Aesc.). Back spasms from injury to the spine (Mag-p.). Arthritis that came on with menopause, large joints (small joints, Caul.).

Pains in the joints and limbs. Pains like electric shocks, here and there, sharp in various parts, chest and uterine pains shoot

Cimicifuga racemosa from side to side. A general bruised feeling all over as if sore, worse by touch.

Malar neuralgia, ceasing at night. Bad taste and breath. Coated tongue, sticky saliva, viscid mucus in throat. Disordered digestion. Marked sinking at epigastrium.

Dry, teasing cough, worse at night and from every attempt to speak. Sharp pains in the heart and chest. Pains down left arm, which is numb (Aeon., Puls., Rhus-t.), as if bound to the side. Palpitation from the least motion. Heartbeat ceases suddenly.

Premenstrual syndrome with cramps. Backache with painful menses, muscle spasms in the back with the period. Pain in the hip with menstrual cramps, hip can lock up. Symptoms worse during the period. Depression with menses. Menopausal depression.

Painful prolapse of the uterus with cramps, spasms, backaches and hip aches, because pelvis is out of alignment (Sep. has prolapse due to weakness and lack of tone).

Labor pains felt in the back or thighs. Muscle contractions in their thighs with labor pains, or they feel as if their back will break (Kali-c., Cham.). Puerperal mania. According to Lippe a characteristic indication is: "The recently delivered uterus becomes actually jammed in the pelvis with great pain."

Cimic. should be given in daily doses in low lx potency two months before term, when indicated. It ensures living births in women who have previously borne only dead children without any discoverable cause. If given before the term, it renders labor easier, cures sickness of pregnancy, and prevents the after pains.

In cases of tinnitus aurium it has proved curative in old-school practice in 15 to 30 drops of the tincture, whether due to direct or reflex irritation.

Clarke greatly relieved an inveterate case of epilepsy in which the aura was a "waving sensation in the brain," which is a leading symptom of the remedy.

A patient who was taking 6-drop doses of the tincture complained of a feeling as if his heart had stopped.

RELATIONS - Compare: (1) Rham-cal. - muscular pains, lumbago, pleurodynia, acute rheumatism. (2) Derris pinnata - neuralgic headaches of rheumatic origin. (3) Aristolochia milhom. - pain in achilles tendon, diabetes. Caul., Puls., Lil-t., Agar. (4) Macrotin - especially for lumbago.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CINA MARITIMA

(Wormseed)

PHARMACY - ciña. Cina maritima. Wormseed. Cinaartemisia. Artemisia maritima. Artemisia cintra. Semen cine. Flores cine. Tartarian southernwood. N. O. Composite. Tincture. Cina is the source of the alkaloid Santonin. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdomen, distended. Anemia. **Anal, itching.** Asthenopia. Asthma. **Bedwetting.** Bronchitis. Borborygmi. Cachexia. **Chorea. Colic.** Constipation. Convulsions. **Coughs. Dentition.** Diarrhea. Emaciation. Eyes, disorders. **Grinding, teeth.** Headaches. Hiccough. Hydrocephaloid. Hypoglycemia. Indigestion. Intermittent, fever. Itching. Leucorrhea. Malassimilation. Nausea. Neuralgia. Nosebleed. Paraplegia. **Parasites. Pinworms.** Remittent, fever. **Roundworms.** Scarlatina. **Spasms.** Strabismus. **Threadworms. Twitch- ings.** Urine, milky. Vision, disorders. Vomiting. **Whooping cough. Worms.**

HERBAL - This remedy is a preparation of Artemisia cintra, Tartarian southernwood or wormseed. The Artemisiae held a prominent place among the drugs of the ancient physicians from Hippocrates to Serapion. They were recommended as febrifuge, stomachic and anthelmintic.

Cina is the source of the alkaloid Santonin which has a very strong anti-helminthic action. Cina is a powerful remedy for the elimination of round worms.

HOMEOPATHIC - Cina is preeminently a **worm remedy**, as it causes all the symptoms which characterize worm infestation, both mental, nervous and bodily. It corresponds more to the effects of lumbrici than to those of other worms.

Reflex symptoms from abdominal irritation. **Extreme sensitiveness of mind and body** : offended by the slightest thing, peevish and obstinate, aversion to be caressed. Child cannot bear to have hair combed or brushed.

Irritation of the nose, causing constant desire to rub, prick or press into it. **Grinding teeth during sleep.** Restless sleep, tossing all about the bed. Child lies on belly or on hands and knees during sleep. **Nocturnal bedwetting**, urine white, turbid, at times fetid.

Over-sensitiveness of skin, cannot endure to be approached touched or pressed upon. Whole body is painfully sore to motion and touch, bruised soreness. Hair is sensitive to touch.

Touch induces or aggravates spasms. **Twitching, spasms.** Convulsions with screams and violent jerking of the hands and feet. Convulsions with consciousness. Chorea. Unilateral. Children throw arms from side to side during spasms. Paraplegia with unnatural hunger.

Variable appetite. **Greater the hunger, greater the emaciation.** Scrofulous. **Sour smell of body** especially children. Children during dentition.

Pain comes in shocks. Jumps suddenly as though he felt pain. Trembling with shivering, when yawning. Complaints concomitant to yawning, which comes on whenever someone yawns.

MIND - Extreme ill-humor and naughtiness in children. Wants to be carried, but carrying gives no relief. Wants to be rocked. Irritability better rocking fast. **Very touchy**, irritable, petulant and dissatisfied. **Child is very cross**, does not want to be touched or carried. Ward Zopease. Desires many things, but rejects everything offered. Nervous.

Child can't be quieted. **Irritability of temper.** Irritability during dentition. Violent screaming attacks at night. Child lying on the back and striking and kicking with hands and feet. **Screaming, striking and biting.** Nothing pleases them for any length of time. Crying out as if in delirium.

Morose in daytime. Indisposition to play, in children. Convulsions in children when they are scolded or punished.

Dislike of strangers (Bar-c.). **Indifference to caresses.** Worse if being looked at (Ant-t.). Unreal feeling of having done something wrong, abnormal consciousness. Unconscious with frothing at mouth.

Sensitive, nervous women who get pain in head and eyes from sewing (Ruta). Irritability during menses. Earnest and sensitive, offended at the slightest joke. Fear of evil while walking in open air, in evening. Throws

things away. Causeless weeping.

Starting from sleep. Complaining on waking. Frightened easily on waking. Hallucinations of sight, smell and taste. As if frightened, jumps out of bed, sees imaginary objects, screams, trembles, talks hurriedly, anxious in evening and before midnight. **Abdomen** - Bloated and hard abdomen.

Abdomen as if empty. **Twisting pain about the navel**, better pressure (Spig.). Pressing outward in belly. Pain on pressing upon navel. **Colic with cutting, pinching pains from worms**. Unpleasant, warm feeling. Pinching or cramplike pressure transversely across epigastric region after a meal.

Back - Drawing, tearing pains down along whole spine. Tearing, jerking pain in middle of spine. Paralytic feeling in nape. Bruised pain in lumbar region, not worse motion. Lancinating pain in upper part of spinal column extending to right scapula.

Causations - Ill effects of parasites, worms. **Chest** - Sternum as if lying too close to back. Cramplike, contracted sensation. Constriction of right side, with difficult breathing. Chest as if pressed together from both sides. As if chest was full of mucus. Sharp pain in left side. Burning and soreness in chest. Two dull piercing pains in quick succession near sternum.

Constitutions - Generally hungry, cross, ugly and wants to be rocked. Children who are big, fat, rosy and scrofulous, they stiffen out, when looked at, during cough or when they become cross.

Cough - Gaggling cough in the morning. **Whooping cough**. Violent cough recurring paroxysms, as of down in throat. Cough ends in spasm. Cough so violent

as to bring tears and sternum pains, feels as if something had been torn off. Child is afraid to speak or move for fear of bringing on paroxysm of coughing. Periodic cough, returning spring and fall. Swallows after coughing. After coughing, moaning, anxious, gasps for air and turns pale.

Ears - Cramplike jerking in external ear, like earache. Digging and scratching in ears. Dull stitches below mastoid process. Hearing impaired.

Eyes - Dark rings around the eyes. Dilated pupils. Photophobia. **Pulsation of ciliary muscle**. Eyestrain, especially when presbyopia sets in. Strabismus from abdominal irritation, from worms. Eyebrows twitch when staring at any object. Drooping and heaviness of lids. Fatigue of eyes from **sewing**. **Eyestrain with headache**. Pain in eyes when reading or staring. Sensations as if sand had got into eyes, worse when reading. Lachrymation during cough. Spots on cornea. Itching of inner canthus.

Face - Face alternately pale and cold, or red and hot. Face puffy. **Bluish white** about the mouth. **Pale with dark rings around eyes**. Pale with sickly look during cough. Pale streak down centre of face. Cold perspiration. Grinds teeth during sleep. **Chorea movements of face** and hands. Tearing pain, in malar bones, worse touch and pressure. One cheek red, the other pale. Twitching of muscles about eyes and face, with disordered stomach and bowels.

Female - Child refuses breast. Aversion to mother's milk. Uterine hemorrhage before puberty. Menses too early and profuse. Labor-like pains frequently recurring, as if menses would appear. Labor-like pains during pregnancy. Spasmodic yawning in amenorrhea.

Food - **Hunger voracious after eating**. Gets hungry soon after a meal with feeling of emptiness. Indigestion. **Canine hunger**. **Hunger during or before intermittent fever**. Aversion to mother's milk. Bread tastes bitter. Desires many and different things. Craving for sweets, bread. Refuses ordinary food and desires dainties. **Eats alot but doesn't gain weight**. Malassimilation. Children are hungry, the greater the hunger the greater the emaciation. Hypoglycemia. Thirst for cold drinks. Difficult swallowing of liquids.

Head - Headache, alternating with pain in abdomen, relieved by stooping (Mez.). Headache from straining eyes. Headache from sewing. Pain in head when reading or staring. Headache, before and after epileptic attack. Turning the head from one side to other. Child leans his head sideways all the time. Women must let hair down during headache. **Children cannot tolerate to have their hair combed**. Anemic headache, better stooping, worse mental exertion. Weak, hollow, empty sensation in head with inclination to vomit. Stupefying headache. Meningeal irritability, from worms.

Heart - Trembling beating of heart. Anguish about heart when working in open air. Pulse fast, 136 beats. Pulse intermitting every seventeenth beat. Pulse small, but hard and accelerated.

Kidneys - Urine, turbid, **white, milky**. Urine, turns milky on standing. Involuntary at night. **Bedwetting**, worse every full moon. Frequent urging with passage of much urine, all day. **Involuntary urination**. Urine becomes turbid immediately.

Limbs - Child throws arms from side to side. Stretches out feet spasmodically, especially children. **Twitching and jerking distortion** of limbs, trembling. **Sudden inward jerking offingers of right hand**. Left foot in constant spasmodic motion. Sudden paraplegia, with unnatural hunger. Paralyzed shocks, patient will jump suddenly, as though in pain. Nocturnal convulsions. Sensation of constriction around loins. Loins fatigued, as if he had stood a long time.

Lungs - Capillary bronchitis in children and loss of breath. Rattling in lungs and throat with excessive nervous irritability. Suffocative attacks. Expectoration difficult. **Gurgling from throat to stomach after coughing.** Catching and painful breathing. Short, interrupted breathing. Short breaths, with omission of some inspirations. Breathing as from spasms in chest. Very short breath, as if he had much mucus in chest, without being obliged to cough. Difficult, loud breathing. Short breaths, moaning, with open mouth. Loud whistling whoop in trachea while inspiring, not audible on expiration. Inhalation broken into two.

Male - Bad effects on masturbation, weakness of sight. Itching of genitals.

Modalities - Better from lying on abdomen. Better wiping eyes. Better motion, shaking head. Better from rocking. **Worse from worms.** Worse vexation. Worse being looked at. Worse staring. Worse yawning. **Worse during sleep.** Worse external pressure. **Worse from touch.** Worse open air, cold air, cold water. Worse sun, summer. **Worse full moon.** Worse at night. Worse before midnight child wakes up frightened. Worse yawning.

Mouth - Sensitiveness of teeth to cold air and to cold drinks. **Grinds teeth at night during sleep.** Chews and swallows in sleep. Much frothy saliva with rattling mucus on chest. Foul breath. Bitter taste before chill. Dryness and rawness of mouth, palate. Clean tongue. Whitish sore place on margin of tongue, very painful to touch. Tongue coated brownish-yellow.

Nose - Itching of nose all the time. **Picks and bores at nose,** until it bleeds. Wants to rub nose and pick at it. **Child picks its nose and cries out in sleep.** Sneezing with whooping cough. Nostrils drawn in. Violent sneezing with stitches in temples. Slimy discharge from nose. Bleeding from nose and mouth, with burning in nose. Nosebleed, dark blood, with pain in forehead. Stoppage of nose in evening.

Perspiration - Cold sweat on forehead, nose and hands. **Sour smell of body** especially children. After the sweat or before the chill, vomiting of food, with canine hunger at the same time.

Rectum - **Worms** (Naph., Sabad., Nat- p.). **Itching of anus. Roundworms or threadworms.** Stools white, watery. Involuntary stools. Stools reddish mucus. Stools greenish slimy. Constipation. Stool r. ther hard and black. White mucus like

MIND - Excitable nervous and sleepless. Talks rapidly and easily angered.

Abdomen - Sore throbbing in spleen. Mesenteric tuberculosis.

Chest - Veins stand out like whip-cord. **Ears** - Frying or sizzling in ears.

Heart - Angina pectoris.

Limbs - Habitually cold limbs.

Lungs - Acute pain in chest. Tuberculosis cough. Bleeding from the lungs. Asthma. Bronchitis.

Modalities - Worse from vital losses. Worse cold wind.

Rectum - Diarrhea of tuberculosis.

Skin - Exhausting night sweat (Merc.). Acne with pustules all over the body.

Sleep - Starts in sleep.

Stomach - Ravenous hunger, worse two hours after meals better when stomach is full. Loss of appetite.

COMMENTS - Has cured attacks of pain occurring two hours after meals, relieved by a cup of milk or light food.

With the first trituration, Nash cured a boy of eight who had several abscesses in and around the knee joint. The tibia was ulcerated and the ragged edge of the bone protruded through the surface. There was emaciation, loss of appetite and he was as pale as a corpse. The appetite returned at once in great force.

***CINERARIA MARITIMA

(Dusty Miller)

PHARMACY-cine. Cineraria marítima. Dusty miller. Senecio cineraria. N. 0. Composite. Corybiferae. Tincture or succus of the fresh plant, growing wild, gathered just before the flower-buds open. **Historical dose:** Tincture and all potencies.

CLINICAL - **Cataract.** Corneal, opacity. Eye, injuries.

HERBAL - This is an unproved drug, but it has been used with a good deal of success in cases of **cataract** as an external application. The method adopted is to instill one drop four or five times a day into the affected eye, for several months.

HOMEOPATHIC - Most effective in traumatic eye cases. **Traumatic cataract and corneal opacities,** as well as senile cataract. No reports of cures by internal use of the remedy alone, but in some cases it was given internally as well as used externally. Generally, the patients have received specific homeopathic treatment internally at the same time.

RELATIONS - Compare: (1) In cataract, Calc-f. Phos., Platanus, Cann-i., Caust., Naph., Led., Nat-m., Sil.
REFERENCES - Boericke. Clarke. Phatak.

*****CINNABARIS**

(Red Mercuric Sulphide)

PHARMACY - cinnb. Cinnabaris. Red mercuric sulphide. Mercuric sulphide. Mercurius sulphuratus ruber. Hydrargyrum sulphuratum rubrum. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. Bubo. Catarrh. Chancre. Cystitis. Dysentery. **Eye, infections.** Gleet. Gonorrhea. Gout. Leucorrhea. Nose, sensitive. Priapism. Rheumatism. Sciatica. Scrofula. Sleep, abnormal. Sycosis. Syphilis. Tapeworm. **Ulcers. Warts.**

HOMEOPATHIC - Cinnb. corresponds to sycosis as well as to syphilis and to combinations of the two. Warts on the prepuce (Thuj.), especially for fan-shaped warts. General nervous, uneasy sensation. Weariness, languor. Tired and prostrated, worse before eating, better when riding in the open air.

General sensitiveness to touch, bones of skull, scalp, roots of hair, bridge of nose, warts bleed when touched. Sensation on bridge of nose as if touched with metallic substance. Uneasy creeping and pressing sensation about nasal bones as from wearing spectacles when not used to them. Headache with nosebleed.

Frequent jerkings and pullings. Certain forms of ciliary neuralgia and ulceration upon a syphilitic base. Cold and chilly in warm room. Symptoms intermit in severity.

MIND - Indolence and indisposition to mental labor. Forgetful. Fretful, easily provoked. Sleepless during night. Sensation of fullness in the head from mental application. Desire to be alone.

Abdomen - Flashes of heat confined to the abdomen with great flatulence, worse in the forenoon.

Back - Pain in back part of neck when head is thrown back, extending to occiput. Wrenching pains in the vertebrae of the neck. The muscles of the neck seem as if contracted. Tearing in the side of the back. Aching in the small of the back, as if bruised. Pain all over the back down to the loins.

Chest - Chest oppressed, feels contracted, relieved by stretching. Pain running over the ensiform cartilage from the seventh rib on the right side diagonally through the chest. Pulsating and shooting pains in the chest, especially when walking.

Constitutions - Anti-sycotic and antisymphilitic.

Ears - Roaring in the ears with swelling of the face, after eating. Scurfy eruption in right external ear. Itching in right ear.

Eyes - Redness of whole eye. Eye infections.

Lids granulated, canthi and lids red. Severe shooting pain in bones of orbit, especially running from inner to outer canthus in the bone. **Pains from lachrymal duct around eye to temple** from inner canthus across brows to ear.

Face - Heat and swelling, mostly about the eyes.

Female - Leucorrhea, discharge with a feeling of pressure in vagina.

Head - Congestion to head, face purple red. Congestion of blood to the head, worse after eating. Violent and frightful attack of headaches, better by compression of the head. Intense headache, he cannot raise his head from the pillow, relieved by external pressure. Dull pain in the forehead, which is cold, relieved by heat. Shooting pain in the left side of the head. Painful sensitiveness of the cranium and of the hair on being touched. Stupefying buzzing in the head.

Heart - Heart flutters, then rushes of blood to the head.

Kidneys - Frequent and increasing emission of watery urine, also during the night. Pain, as if from a sore in the urethra, when urinating, this pain wakes him up at night.

Limbs - Sensation of lameness in all the limbs. Pulling and shuddering in the arms and legs. Pain in long bones when barometer lowers. Cold knees or joints. Left leg feels shorter than the right, while walking. Cramp in calves after walking. Pain in Achilles tendon and os calcis when walking. Nodes on shin bones. Pain in forearm from elbow down, including hands.

Lungs - Dyspnea with heat. Cough from tickling in the throat. Dry cough in single shocks, when lying down, better by sitting up. Hoarseness in the evening.

Male - Jerking in penis during sleep. Foul acrid sweat between scrotum and thighs. **Warts on prepuce**, fan-shaped and bleed easily. Small red pimples on glans. Itching of corona glandis. Redness and swelling of prepuce, testicles enlarged, buboes, angry looking chancres. Syphilis, squamous and vesicular. Old hard chancres.

Modalities - Better from rest. Better open air. Better sunshine. Better after dinner. Worse from light. Worse summer. Worse dampness. Worse walking. Worse night. Worse touch. Worse lying on right side, feels as if

contents of body were being dragged over to that side. Sweat worse at noon. Headache worse after sleep.

Mouth - Dry mouth and throat, wakes from

sleep, must rinse the mouth Both corners of the mouth are chapped. Tongue coated white with a putrid, bitter taste in the morning. Burning, constrictive sensation in the palate. Salivation and increased flow of urine.

Nose - Nasal catarrh. Hawks stringy mucus from throat or lumpy mucus drops from the posterior sinuses. Discharge from the nose is acrid, foul, burning, watery or dark lumps. Coryza with lumps of dirty, yellow mucus are discharged from the posterior sinuses. Violent, fluent, burning coryza. Itching of the nose, with bleeding after blowing it. Pain about root, extending into bones on each side (Aur.).

Rectum - Formication in the anus, as from a large worm. Little pimples around the anus with burning and itching. Bloody dysentery. Tenesmus. Evacuations, soft and frequent. Thin, white stools. Green mucus diarrhea, which stains the skin about anus and scrotum a copper color.

Sleep - Sleepiness in the daytime and sleeplessness at night, unconquerable desire to sleep after dinner, early in the evening. Restlessness and sleeplessness at night from a constant flow of ideas changing from one thing to another. Restless sleep with vivid dreams and much talking. Nightmares after midnight.

Skin - Red eruptions. Violent itching and pricking. Honeycombed ulcers. **Very fiery-red looking ulcers.** Condyloma, easily bleeding. Buboec. Nodes on the shin bones. Sweat on nose.

Stomach - Soreness in the stomach, with dizziness and lightness in the head and tightness in the temples. Nausea, alleviated by belchings. Nausea with water brash, in the evening.

Temperature - Pulse slower in the forepart of the day, accelerated in the evening. Coldness and chilliness in the warm room. Heat of the body during the whole night. Profuse perspiration between the thighs. Perspiration most at noon.

Throat - Stringy mucus passed through posterior sinuses into throat. Dryness of mouth and throat, must rinse the mouth. Fiery-looking ulcers in mouth and throat.

Vertigo - Giddiness in the morning after rising, when stooping with nausea.

COMMENTS - The skin is much affected. Redness predominates (the color of the drug). Red spots. Heat, redness and swelling of face, especially about eyes. Eruption on posterior cervical region, on inner and lower part of thigh with itching.

Warts, pimples, pustules, ulcers, violent itching and pricking, especially about joints. Glands enlarged. The back of the neck is affected. Pain extending to occiput when head is thrown back. Pain right side of neck on turning head. Muscles seem contracted.

Leucorrhea, discharge causes a pressure in the vagina. Jerking in penis, occurring during sleep. Tearing stitches in glans. Burning, stinging, itching of corona glandis. Frequent hemorrhages, nosebleed, bleeding hemorrhoids.

Dysenteric symptoms. Obstinate constipation, stools hard and too large. Protrusion of anus during stool. Formication as from a large worm. Little pimples around anus with burning and itching.

Berridge reported this symptom cured: "Left leg feels shorter than right while walking."

. Guernsey said "We are led to use this for very red and very fiery-looking ulcers, which may occur in the throat or on any other part of the body. Ulcers in the mouth, on the legs, particularly if there be nodes on the shin-bones. In very angry looking chancres." **RELATIONS - Antidoted by:** Hep., Nit-ac., Opium and Sulphur.

Compare: (1) Hep., Camph. (red spots), Lach., Merc., Nit-ac. (2) Thuj. - Cinnb. is better than Thuj in warts on prepuce. (3) Sep. - warts on margin of prepuce, Ant-t. - warts at back of glans. (4) Seneg. has better bending head backward, Clem, has headache worse from same, Clem, also has vertigo on lifting head up or moving head, Cinnb. has pain in back of neck when head is thrown back.

REFERENCES - Boericke. Clarke. Phatak.

***CINNAMONUM CEYLANICUM

(Cinnamon Tree)

PHARMACY - cinnam. Cinnamomum ceylanicum. Cinnamon tree. Cinnamomum zeylanicum. Cinnamomum cassia. N. O. Lauraceae. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Ascites. Decay. Cancer. Chilliness. Constipation. Diarrhea. Exhaustion. Forgetfulness. **Hemorrhages.** Headaches. Hoarseness. **Hysteria.** Leucorrhea. **Menorrhagia. Metrorrhagia. Nausea. Post-partum, hemorrhage.** Vomiting.

HERBAL - Cinnam. has been used in large doses by the old school in cases of uterine cancer and some success has been claimed for it. Cancer where pain and fetor are present.

For cancer, use a strong decoction, one-half pint a day. Oil of cinnamon in water solution is the best local disinfectant. 3-4 drops in two quarts of water as a douche, wherever a germicide and disinfectant is needed. Three drops on sugar for hiccough.

HOMEOPATHIC - A leading feature of Cinnamon is hemorrhage, and has had abundant clinical verification.

Hemorrhage is bright red and clear, worse by any physical exertion. Nosebleeds.

Hemorrhage during the pregnancy, **threatening miscarriage**. A strain in loins or false step brings on a profuse flow of bright blood. **Post-partum hemorrhage**. Hemorrhages from bowels, hemoptysis, etc.

Great weakness as after loss of fluids. Hysterical attacks, going off with belchings with nausea or vomiting. Talking causes hysterical attacks. Feeble patients with languid circulation. Gastric disturbances. Flatulency and diarrhea. Pains in bones and muscles.

Symptoms are worse while riding, exertion, talking, afternoon, and evening up to midnight.

MIND - Forgetfulness. Anxiety. Child screams and weeps until midnight. Delusion left side of body is diminished, smaller. **Hysteria**. Great stupor in hysteria. Hysteria when nothing brings on the attacks more surely than talking.

Abdomen - Much flatulence with colic and pain in uterus. Metastasis of gout to stomach and intestines.

Chest - Pain in chest. Anxiety and oppression in precordial region, causing constriction of chest.

Constitutions - Lymphatic, feeble, cachectic women with lax tissues and languid circulation. A women advanced in years, hysterical convulsions.

Ears - Heat around left ear.

Eyes - Pain from left eye up to vertex in a line along the middle. Itching of the eyes. Improves weakness of vision.

Face - Whole face turned red.

Female -Menses early, profuse, prolonged, bright red. Menorrhagia, with itching at nose, bright red blood, worse after false step or strain. Bearing-down sensation. Uterine hemorrhages caused by overlifting. Repeated small hemorrhages during pregnancy and puerperal state. Metrorrhagia. Sleepy. Fingers seem swollen. No desire for anything. Worse on any exertion, lifting, straining, over-stretching arms, false step.

Food - Canine hunger with nausea and debility when passing the meal hour. Want of appetite with diarrhea and acidity of stomach.

Heart - Great cardiac anxiety and loss of pulse with attacks. Heart weakness. Strengthens the heart. Hysteria.

Kidneys - Retention of urine.

Liver - Obstructions or induration of liver. **Lungs** - Oppressed breathing, with vertigo and weakness.

Male - Excessive irritability of sexual organs, causes erections. Impotence, sensation of weakness in legs.

Mouth - Toothache. Offensive taste in mouth. Ptyalism, particularly with pain in back.

Nose - Frequent attacks of nosebleed. Tough mucus from nose.

Sleep - Profound sleep with attacks.

Stomach - Tonic effect on stomach. Pressure and cramps in stomach. Hiccough yjyfh diarrhea, want of appetite and acidity

Cinnamomum ceylanicum of stomach. Belching with colic. Nausea while riding with gagging and vomiting of mucus. Nausea and retching every day at same hour for four days. Chronic vomiting. Paroxysms subside as soon as vomiting sets in. Vomiting of pregnancy. **Stool** - Long continued constipation, stool in hard balls. Diarrhea, worse after drinking with acidity. Hemorrhage from bowels, bright red and clear blood, occurring especially after any physical exertion.

Temperature - Chilliness with trembling of limbs. Great fever in evening. Transient heat with sweat. Nervous and typhoid fevers with great impairment of digestion, vomiting, diarrhea and exhaustion.

Throat - Sore throat. Hoarseness with cough. Clears the voice when muffled by secretions, scatters the phlegm and is useful for tickling in larynx.

Vertigo - Vertigo with weakness and oppression of breathing. Fainting.

COMMENTS - Particularly useful for hemorrhage. Uterine hemorrhage, bleeding fibroids, any emergency hemorrhage. Profuse diarrhea. Can be used easily as a home remedy, either in potency or as a tea in an emergency.

Boericke said "a profuse flow of bright blood." One case documented a woman who had a uterine hemorrhage after childbirth and she craved cinnamon, Cinnam. helped.

RELATIONS - Antidoted by: Aeon. **It antidotes:** Opium. **Compare:** (1) Ip., Phos., Sil., Trill.

***CIPRO

(Ciprofloxacin)

PHARMACY - cipro. Cipro. Ciprofloxacin. Cipro is a fluorinated quinolone, belonging to a class of fluorinated antibiotics. **Historical dose:** All potencies.

CLINICAL - Abdominal pain. Acid, reflux. Acidosis. Allergies. Anemia. Anginapecto- ris. Agranulocytosis.

Anthrax. Ataxia. Blisters. Blood, clots. Convulsions. Diarrhea. Diplopia. Dyspnea. Edema. Headaches. Heart, disorders. **Heartburn**. Hematuria.

Hepatitis. **Hives**. Hyperpigmentation. Insomnia. Itching. Jaundice. Liver, disorders. Kidney, disorders. Kidney, stones. Musculoskeletal, disorders. Nausea. Nephritis. Nightmares. Nosebleed. Palpitations. **Rhabdomyolysis**. **Sun, allergy**. Sunburns. Swelling. **Tendon, rupture**. Tendonitis. Thrush. Tinnitus. Tremors. Vaginitis. Vertigo. Vomiting. Weakness.

HOMEOPATHIC - Cipro is a very toxic antibiotic drug used for the treatment of anthrax and other infections. As many as 20% of people taking Cipro have reported severe side effects. The most common side-effects reported are gastrointestinal in nature such as nausea, diarrhea, vomiting, and abdominal pain.

Ciprofloxacin administration results in elevated serum fluoride levels. Cipro can cause musculo-skeletal disorders such as rhabdomyolysis. **Tendonitis and tendon rupture**. Achilles tendon rupture was shown to even after withdrawal of the drug.

Other fluoroquinolones are now withdrawn from the market because they had caused **severe liver and kidney damage** and even deaths. Fatal liver failure associated with ciprofloxacin has been reported. Ciprofloxacin has been implicated in several cases of acute kidney failure and dysfunction. Respiratory distress is a side-effect of ciprofloxacin.

Photosensitivity can result when light interacts with chemical agents in the skin and eyes. This process can produce undesirable clinical consequences, such as phototoxicity, **exaggerated sunburn, sun allergy or sun-carcinogenicity**. People receiving Patients taking Cipro are warned not to expose themselves to direct sunlight. Rashes develop on the areas exposed.

This medication may stimulate the central nervous system, which may lead to tremors, restlessness, light-headedness, confusion, depression, and hallucinations. Other central nervous system reactions include nervousness, agitation, insomnia, anxiety, nightmares, and paranoia.

Cipro can cause increased pressure within the brain. Convulsions have been reported in people receiving the drug. Seizures. Slug

gishness. Tingling sensation. Vague feeling of illness. Weakness.

Swelling of the face, lips, neck, eyes, or hands. Agranulocytosis, potentially fatal condition where the white blood cell count goes extremely low. Blood and albumin in the urine, elevated serum potassium, glucose, and albumin. Elevation of triglycerides and cholesterol.

MIND - Abnormal dread or fear. Anxiety. Nervousness. **Agitation and restlessness**. Mental confusion. Depersonalization. Loss of sense of identity. Depression. Irritability. Delirium. Hallucinations. Manic attacks. Paranoia. Toxic psychosis.

Abdomen - Bleeding in the intestines.

Flatus. Intestinal inflammation. Intestinal perforation. Swelling of the pancreas.

Back - Back pain. Neck pain.

Blood - Acidosis. Anemia. Agranulocytosis.

Swelling of the blood vessels or lymph system.

Ears - Hearing loss. Ringing in the ears.

Eyes - Eye pain. Yellow eyes. Involuntary eye movement. Blurred vision. Double vision. Decreased vision. Change in color perception. Sensitivity to light.

Face - Swelling of the face.

Female - Vaginal inflammation.

Food - Lack of appetite. Loss of appetite.

Head - Headache. **Light-headedness**. Blood clot to the brain.

Heart - Angina pectoris. Cardiopulmonary arrest. Irregular heartbeat. Palpitations. Pounding heartbeat. High blood pressure. Heart attack. Heart flutters.

Kidneys - Inability to urinate. **Kidney damage**. Large volumes of urine. Kidney failure. Urinary retention. Urethral bleeding. Acidosis. Nephritis. Increased urinary output. Kidney stones. Dark urine. Blood in urine.

Limbs - Achiness. Joint stiffness. Joint pain. Gout flare-up. Convulsions. Ataxia, lack of muscle coordination. Tendon, rupture. Achilles tendon rupture. Tendonitis.

Liver - **Hepatitis**. **Liver damage**. Jaundice.

Liver failure.

Lungs - Dyspnea. Respiratory distress. Labored breathing. Blood clots in the lungs. Coughing up blood. Difficult breathing.

Bronchial spasms.

Male - Burning in penis. Prostatitis.

Mouth - Mouth sores. Bad taste in mouth. Thrush. Oral fungal infection.

Nose - Nosebleed. Loss of sense of smell.

Rectum - Diarrhea. Constipation. Pale or dark stools.

Skin - Blistering of skin. Burning sensations. Severe allergic reaction. **Skin hypersensitivity**. Cuticle candidiasis (yeast). Skin peeling. Itching. **Hives**. Redness. Red bumps on skin. **Skin sensitivity to sunlight**. Sunburns. Hyperpigmentation. Unusual darkening of the skin. Yellow skin.

Sleep - Drowsiness. Inability to fall or stay asleep. Insomnia. Nightmares.

Stomach - Acid, reflux. **Heartburn**. Indigestion. Bleeding in the stomach. Hiccoughs. Nausea and vomiting.

Temperature - Chills. Fever. Heat flushing. **Throat** - Difficulty in swallowing. Swelling of the throat. Speech difficulties.

Vertigo - Dizziness. Light-headedness. Fainting.

RELATIONS - Compare: Calc-f., Fl-ac.

REFERENCES - Murphy.

***CISTUS CANADENSIS

(Rock Rose)

PHARMACY - cist. Cistus canadensis. Rock rose. Helianthemum canadense. Ice-plant. Frost-weed. N. O. Cistaceae. Tincture of whole flowering plant. **Historical dose:** Tincture and all potencies. Locally as a wash to arrest fetid discharges.

CLINICAL - Bone disorders. Breast, cancer. **Cancer**. Diarrhea. Erysipelas. **Glandular swellings**. Herpes zoster. Hip joint disease. Hospital gangrene. Leucorrhea. Lupus. Mastitis. Ophthalmia. Panaritium. Parotiditis. Pharyngitis. **Pyorrhea**. Scorbutus. Scrofula. Sore, throat. Ulcers.

HOMEOPATHIC - Cistus is a very ancient remedy for scrofulous disorders, in scorbutic states, and for gangrenous ulcerations. The provings and homeopathic uses confirm its suitability in these respects and bring out clearer indications.

Affects the glands, especially of nasopharynx, neck and breasts (left). **Malignant disease of the glands of the neck**. Indurated glandular swelling of the neck and throat. Suppuration of the glands of the neck. Breast cancer, hardness of the breasts.

Cancer of the lower lip. Scorbutic, swollen gums separating from the teeth, gums bleed easily, putrid, disgusting. Cold tongue. Decay of the lower jaw. Desire for acid food and fruits. Saliva in throat. Belchings in stomach.

Affinity for the naso-pharynx, aborts colds that center in posterior nose. Sniffing. Mucus discharges are thick, yellow, foul, leave a painful rawness. Worse sweating, discharges. Scrofulous ophthalmia.

Herpetic eruptions, scorbutic states, chronic swellings and gangrenous ulcerations. Poisoned wounds, bites, phagadenic ulcers. Suppurations. Lupus. Internal and external itching. Burnings. Formication through the whole body with anxious, difficult breathing. Indurations. Callosities with cracks.

Extreme sensitivity to cold. Sensation of coldness in various parts. Inhaled air feels cool. Cold breath.

Grimmer said "This patient is extremely sensitive to cold and all complaints become worse after exposure to cold." All mental excitement aggravates.

MIND - Fear. Bad effects from vexation. All mental excitement aggravates (stitches in throat, cough).

Abdomen - Stitches in left hypochondrium.

Cool feeling in abdomen. Pain in groin coming from back.

Back - Hard, swollen glands in the neck. Neck is studded with tumors. Burning, bruised pain in the coccyx, preventing sitting, touch.

Breasts - Induration of breasts, sensitive to cold air. Mastitis. Breast cancer.

Causations - Bad effects from anger, vexation.

Chest - Coldness in chest. Chest feels raw after expectoration. Trachea feels narrow. Hemorrhage from lungs.

Constitutions - Suited to scrofulous subjects who are very sensitive to cold air.

Ears - Watery discharge, fetid pus, after eruptive diseases. Discharge of water and bad-smelling pus. Tetter on and around ears, extending to external meatus. Inner swelling of ears with discharge.

Eyes - Feeling as if something passing around the eye. Weight above eyes. Scrofulous inflammation. Canthi cracked. Stitches in eyes.

Face - Decay of the lower jaw with suppurating glands on neck. Swelling of parotid glands. Open, bleeding, cancer on lower lip. Lips cracked. Tip of nose painful. Itching, burning and crusts, on zygoma. Vesicular erysipelas. Lupus.

Female - Sensitive to cold air. Bad smelling leucorrhea. Cancer.

Food - Desire for acid food and fruits, cheese, pungent things.

Head - Head drawn to one side by swelling in the neck. Forehead cold, and sensation of coolness inside

forehead, in a very warm room. Pressive pain at root of nose with headache. Headache from missed meals, better eating.

Limbs - Sprained pain in wrist. Cold feet. Cracked finger tips, sensitive to cold. Workmen develop hard place on their hands with cracks. Tetters on hands. Syphilitic ulcers on lower limbs with hard swelling around. White swelling.

Lungs - Asthmatic after lying down. Larynx and trachea feel cool on inhaling cold air. Trachea feels narrow and breathing becomes difficult, preceded by formication. Expectoration of quantities of glairy, tenacious mucus, on lying down. Chest feels raw after expectoration.

Male - Itching on scrotum.

Modalities - Better from eating. Better swallowing. Better expectoration. Great sensitiveness to touch. Worse from touch. Worse slightest exposure to cold air. Worse drafts. Worse cold water. Worse evening, night, morning. Worse mental exertion. Worse excitement. Worse touch. Worse motion. Diarrhea worse from drinking coffee.

Mouth - Scorbutic, receding gums, easily bleeding, putrid. **Pyorrhea** (Merc-c., Caust., Staph., Kreos.). **Mouth feels cold.**

putrid, impure breath. Tongue feels cold. **Hurts to protrude the tongue.** Breath cool. Saliva cold.

Nose - Cold feeling or burning in nose. Tip painful. Eczema of the nose. As of a lump in naso-pharynx. Pressing pain at the root of the nose with headache. Chronic nasal catarrh, frequent violent sneezing.

Rectum - Chronic dysentery. Stool, thin, yellow, urgent, worse in morning. Diarrhea from coffee and fruit, with goiter and nausea. Chronic diarrhea in wet weather in scrawny scrofulous children.

Skin - General itching which prevents sleep. Itching, crawling all over without eruptions. Small, painful pimples. Skin of hands hard, thick, dry, fissured, deep cracks. Itching of swollen hands and arms. Mercurio-syphilitic ulcers. Hemicrania. Lupus. **Glands inflamed and indurated.**

Sleep - Very restless at night. Sleepless from coldness or dryness in throat. Night sweats.

Stomach - **Cool feeling** in stomach before and after eating. Empty and cool belching. Frequent nausea with diarrhea. Diarrhea after drinking coffee.

Temperature - Chilliness, followed by heat with trembling. Heat with thirst, causing to drink frequently. Sweats easily. Night sweats.

Throat - Soft, spongy feeling, itching in the throat. Heat and itching in throat. Small, dry spot in throat, must sip water frequently. **Throat, very dry** and becomes **sore on inhaling least cold air.** Breath, tongue, and throat feel cold. Uvula and tonsils swollen. Glands swollen and suppurating. Goiter with frequent diarrhea. Head drawn to one side by swellings in neck. Pains when coughing. Hawking of mucus.

COMMENTS - "Sensitive to cold air" and feelings of coldness. Cold feelings in larynx, in abdomen. "Inhaling the slightest cold air causes sore-throat, which he has not when inhaling in a warm room."

Indurated glandular swelling of the neck and throat. Trembling with the fever. Sensation as if ants were running through the whole body (in evening with anxious,

difficult breathing). Prominent stitches. Characteristic soft or spongy feeling.

Clarke cured with Cist, a case of sore throat that had lasted for years under allopathic treatment with local swabbings. There was an accumulation of thick yellow, leathery phlegm that had to be cleared away by a local means. The patient complained of a "spongy" feeling in the throat and the led him to the remedy.

RELATIONS-Antidoted by: Rhus-t., Camph. and Sep. **Compare:** (1) Con., Calc., Arg-n., Bell., (2) Carb-v. - cold breath. (3) Sulph. - morning diarrhea. **Compatible:** Magnesium - the plant grows on a magnesium soil.

***CITRICUM ACIDUM

(Citric Acid)

PHARMACY - cit-ac. Citricum acidum. Citric acid. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - All forms of **dropsy** and swellings are benefited with Citric acid and lemon juice, tablespoonful every 3 to 4 hours. **Scurvy.** Chronic rheumatism and hemorrhages. Pain from tongue cancer.

RELATIONS - **Compare:** (1) Citrus limon, Citrus vulgaris.

REFERENCES - Boericke.

***CITRUS DECUMANA (Grape-fruit)

PHARMACY - cit-d. Citrus decumana. Grape-fruit. Citrus paradisi. Shaddock. N. O. Rutaceae. Expressed juice.

Historical dose: Tincture and all potencies.

HOMEOPATHIC - Citrus decumana has tinnitus, **head noises** and ringing in ears. Sensation of pressure in the temporal region.

RELATIONS - Compare: (1) Citrus limon, Citrus vulgaris.

REFERENCES - Boericke.

***CITRUS LIMONUM

(Lemon)

PHARMACY - cit-1. Citrus limonum. Lemon. Citrus medica. N. O. Rutaceae. Expressed juice. **Historical dose:** Tincture and all potencies.

CLINICAL - Cancer. Colic. Constipation. Convulsions. Diarrhea. Dropsy. Dysentery. Dyspnea. Eruptions. Faintness. Headaches. Hemorrhages. Herpes. Rheumatism. Scurvy. Splenitis. Sunstroke.

HERBAL - Lemon juice and citric acid are traditional remedies for and preventives of sea-scurvy. It can be used as a local application (in one part of citric acid to eight of water).

HOMEOPATHIC - That their action is homeopathic has been proved by the occurrence of scurvy from the excessive use of the acid when taken for other purposes.

Cit-1. has a powerful effect on the circulation and on the blood itself. Faintness, a weak pulse, hemorrhages and swellings. Excessive menstruation.

Inflammation and painful enlargement of the spleen, dyspnea. Stiffness in the joints, particularly in the fingers, bruised feeling, particularly in the feet. Herpetic eruptions. Cancer pains. Sore throats. Daily headache.

RELATIONS - Antidoted by: Aeon., Asarum, Datura, Euphorbia, Hep., Sepia. **It antidotes:** Aeon., Euphorb., Stram., snakebites and all animal poisons. It increases the curative effects of Bell. **Compare:** (1) It should be compared with Acetic acid and the **"bruised pain in the joints" recalls** the action of its congener, Ruta, Bell., Lach. (2) As an antidote against Stram. It has been employed with great success, the juice of the fruit being administered by the teaspoonful.

REFERENCES - Boericke. Clarke.

***CITRUS VULGARIS

(Bitter Orange)

PHARMACY - cit-v. Citrus vulgaris. Bitter orange. Aurantium amara. Aurantii cortex. N. O. Rutaceae. Tincture of Seville orange peel. **Historical dose:** Tincture and all potencies.

CLINICAL - Choking, sensation. Faintness. Headache. Metrorrhagia. Neuralgia. Palpitations. Pleurodynia. Scarlatina. Throat, rising in.

HERBAL - The tincture of the orange peel is used as a pleasant bitter tonic in old-school practice. On sensitive individuals, oranges in any form produce pathogenic effects. Boiled dried orange peel excites the intestine in a manner similar to other forms of cellulose or agar.

There is an increased flow of bile which continues for hours. It unites both a cholagogue action with a mechanical stimulus to peristalsis. An orange eaten before breakfast is said to destroy the craving for alcohol in alcoholics.

HOMEOPATHIC - One patient could never eat an orange without experiencing a fearful taste at the back of the nose and throat. This lasted many days and caused choking sensations and faintness.

For diseases of the elderly with coldness and chilliness. Neuralgias and skin symptoms. Facial neuralgias, mostly right-sided. Itching, redness and swelling of hands. Headache with nausea, vomiting and vertigo.

Frequent and irresistible yawning. Disturbed sleep. Great excitement, quick motions. Pains in kidneys and bladder. Too copious menses. Pleurodynia. Palpitations. Thoracic oppression.

Face - Neuralgia of face, shooting, gnawing pains, in temples, especially right side.

Head - Right sided headache.

Skin - Itching, general or more often only in upper limbs, with redness and swelling of hands. Eruption and other symptoms like scarlatina.

Teeth - Constant toothache. Teeth become decayed, wear off.

Throat - Something seems to rise in throat and choke. Fearful taste at back of nose and throat, lasting for days and causing choking sensation and faintness.

RELATIONS - Compare: (1) Ruta, Angustura.

(2) Citrus limonum. (3) Citric acid. (4) Citrus decumana.

REFERENCES - Boericke. Clarke.

***CLEMATIS

(Bach Flower Essence)

PHARMACY - clem-b. Clematis. Clematis vitalba. Flowers are picked with the stalk, placed in a bowl of water and allowed to sit in the sun for several hours. The water is strained and used as medicine. **Historical dose:**

Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - This remedy belongs to the group of **Not Sufficient Interest in Present Circumstances**, as classified by Bach. The additional remedies of this group are Honey- b., Wld-r-b., Oliv-b., Wh-ch-b., Must-b. and Ch-bd-b.. This group of remedies helps those not fully engaged in the here and now. Shocked by sudden noise and startles easily when touched. Sleepiness, drowsiness, fainting and vertigo. In some comatose states, Clem-b. may restore consciousness. The body may seem as if not "inhabited," as the mind draws to future dream castles or removes due to exhaustion or emotional hardship. Out-of-body experiences.

MIND - Hazy reality. Passive. Tendency to suddenly lose touch and become drowsy or sleepy. Lightheaded or vacant feeling. Lack of concentration. Prevalent absent-mindedness, interrupted by spurts of interest. Delusions with ecstatic content (Verv-b.), pleasant visions and reveries. Set on dreams of future fulfillment, rather than seeing the present as promising and trying to find happiness therein. States from daydreaming about future happiness, fatigue, strenuous or saddening daily routines. Hopeful. Happy when dreaming, reality seems harsh, void of meaning, lonely or sad.

REFERENCES - Bach.

***CLEMATIS ERECTA

(Virgin's Bower)

PHARMACY - clem. Clematis erecta. Virgin's bower. Upright virgin's bower. Flammula jovis. N. O. Ranunculaceae. Europe. Tincture of leaves and stems. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Arthritic, nodosities. Blepharitis. Cancer. Conjunctivitis. **Eyes, disorders.** Face, pimples. **Gonorrhea.** Headaches. Homesickness. Nausea. Orchitis. Rheumatism. Skin, rashes. **Testicles, infections.** **Toothache.** Urethra, stricture.

HOMEOPATHIC - Clematis, like other Ranunculi, is a direct irritant of the skin producing inflammation and vesication. In the provings, the external head (left), eyes, teeth (left), skin, urinary and male sexual organs show the greatest number of symptoms.

Acts especially on the skin, mucus membranes of eyes and urethra, **glands**, breasts, ovaries and genito-urinary organs, especially the testicles. Glands become **very hard and painfully** swollen. Herpes, stricture of the urethra, cancer of the breast and testes. **Inflammation of eyes**, worse left, smarting, burning, stitches, redness, lachrymation, photophobia. Sensation as if fire were streaming from eyes.

Neuralgic pains in various parts. Pains relieved by perspiration. Burning, itching, stinging, crawling. Muscles flaccid or twitch. Distant pulsation in whole body. Vibrating sensation through the body after lying down. Strictures. Emaciation. **Great sleepiness.** Great debility from 3 p.m. to 5 p.m. Aversion to be washed.

MIND - **Confused feeling, better in open air.** Peevish, dissatisfied without any cause. Melancholy, preoccupied with sad thoughts. General sadness and dread of misfortune. Sadness better after eating. Cheerful alternating with sadness, followed by irritability and prostration.

Homesick (Caps.). Ailments from homesickness. Memory weak. Indifference. Aversion to talking. Indolence in morning, better evening. Aversion to reading, desires to be read to. Irritable, taciturn, doesn't want to go out. Low sex drive. Fear of being alone, but disinclined to meet even agreeable company. Sleepy, dreamy.

Abdomen - Pain from abdomen to chest, worse breathing and during urination. Swelling of inguinal glands with jerking pains, with scirrhus or suppressed gonorrhea, rheumatism of joints.

Back - Itching pustules around the neck, with excoriation after scratching. Humid tetters from the nape of the neck to the occiput. Eruption of pustules in the lumbar region.

Breasts - Breast and uterine cancer. Swelling and induration of breasts. Glandular induration and tumors of breast. Breast cancer with stitches in shoulders and uterus. Shooting pain in breast, worse urinating. Full, heavy, sensitive breasts.

Causations - Homesickness.

Constitutions - Suited to light-haired people with torpid, cachectic conditions, swellings and indurations of the glandular system. Syphilitic taint. Scrofulous, rheumatic, gonorrheal and syphilitic patients.

Ears - Burning pain in exterior of the ear. Tinkling, ringing in the ear.

Eyes - Complaints from bright sunlight. Chronic conjunctivitis. Pustular conjunctivitis with tinea capitis, eyes inflamed and protruding. Chronic blepharitis with sore and swollen meibomian glands. Iritis with great **sensitiveness to cold.** Heat in eyes, **sensitive to air**, must close them. Burning, as if fire were streaming out and smarting, worse closing eyes. Lachrymation. Flickering before eyes.

Face - White blisters on face and nose, as if sunburned. Pain in right side of face to eye, ear and temple, better holding cold water in the mouth. Swelling of the submaxillary glands with hard tubercles, throbbing, aggravated

on being touched. Lip cancer.

Female - Menses too early. Swelling and induration of the mammary glands. Breast and uterine cancer.

Food - Weakness, nausea and sleepiness after eating. Prolonged satiety, though the food continues pleasant to the taste. Increased thirst, with desire for ice. Aversion to beer. Nausea on smoking tobacco, with weakness of the legs.

Head - **Confused feeling, better in open air.** Hammering and strokes in the head. Boring pain in temples. Headaches, worse bending head backward. Head feels full and heavy, hanging down. Eruption on occiput at base of hair, moist, pustular sensitive. Itching on the hairy scalp.

Heart - Sharp stitches at heart, from within outwards.

Kidneys - Urethra feels constricted, like a large whip-cord painful on pressure. Stricture of urethra. Frequent, scanty urination, burning at orifice. Burning in urethra during urination. **Urine stops and starts**, emitted drop by drop. Must strain to pass a few drops, then full stream follows. Inability to pass all the urine, dribbling after urinating. Last drops of urine cause violent burning. Tingling in urethra lasting some time after urinating. Pain along the spermatic cord, worse at night.

Limbs - Arthritic nodosities in the joints of the fingers. Axillary glands swollen. Weakness in limbs after eating or with nausea on smoking tobacco. Scaly tetters in the thigh.

Lungs - Breathing impaired, worse ascending the hill or walking over uneven road. Barking, dry cough with stitches in chest. Expectoration of bloody saliva.

Male - Orchitis. Testes hang heavy or retracted. **Testicles indurated with bruised feeling.** Swelling of right half of the scrotum. Ilio-scrotal neuralgia. Swelling of the spermatic cord with burning and soreness, extending to abdomen. Violent erections with stitches in urethra. Burning in penis during seminal discharge during sex. Aversion for sex.

Modalities - Better from sweating. Better open air. **Worse from gonorrhea.** Worse touch. Worse motion. Worse moist poul

tices. Worse from heat of bed. Worse night. Worse cold washing or air, cold water. Worse during increasing and new moon, better during the waning moon. Monthly aggravations. Headache and toothache are worse lying down in evening.

Mouth - Breath offensive to others. Dryness of the tongue in the morning. Dull shootings and piercings in the root of the tongue. Small blisters on the tongue and in the throat, which soon become ulcers.

Skin - **Glands** hot, painful, **swollen**, worse inguinal glands. Vesicles, pustules. Red, burning, scaly, scabby. Corroding eruptions, ending in flat eating ulcers with thick crusts and eczema worse occiput and lower legs. Varicose ulcers. Herpes zoster. Itches terribly, worse washing in cold water, worse face and hands and **scalp around occiput.**

Sleep - Sleepiness. Restless, dreamy sleep with vibratory sensation throughout the body.

Stomach - Disagreeable sensation of coldness in the stomach. Weakness in all the limbs after eating with pulsation in arteries. Nausea on smoking tobacco with weakness of legs.

Teeth - Toothache, **worse at night and from tobacco**, temporarily worse from heat of bed. Toothache in a decayed molar tooth, much better by cold water. Shooting pains or successive pullings in the teeth. Sensation as if the decayed tooth were too long. The least contact is exceedingly painful.

Temperature - Pulse accelerated. Quartan fever, characterized by shuddering, followed by sweat. Sweat on waking, and sensitiveness of the skin, which the patient cannot bear to be uncovered. Dry heat, with sensation of general heat.

Throat - Heat and burning in the mouth and throat. Sensation of roughness in the throat.

Vertigo - Giddiness if he lifts his head up, or when moving the head.

COMMENTS - Clematis was used by Stoerck before Hahnemann's time in cancerous and other foul ulcers, inveterate skin eruptions, syphilis and rheumatism.

Affections of the urethra, penis in general, prepuce in particular. May have to wait a long time before he can urinate with intense pain along fore part of urethra. Flow of urine by fits and starts. Mucus in the urine, but not pus. Beginning of inflammatory stricture. Stricture of the urethra

Swelling of inguinal glands. Painful inflamed, swollen testicles. Great affinity for the testes. Useful for cases of undescended testicles, painful, partially descended testicles, and hydroceles where the scrotum swells with fluid (Con., Spong.). Indurated testicles. Testicular cancer. Gonorrhea that goes to the testes. Herpes. Breast cancer.

Generally a right-sided remedy. Great debility, twitching of muscles, vibrating sensation through body. Giddiness when lifting up head or when moving head.

Useful for poison ivy and poison oak. Vesicles and weeping of yellow, acrid fluid on body (Rhus-t.). Fluid stings, worse bathing. Impetigo, fluid seeping from beneath the scabs.

RELATIONS - It is antidoted by: Bry. (Toothache, urinary symptoms), Camph. **Antidote to:** Merc. **Compare:** (1) Clematis vitalba - varicose and other ulcers. (2) Sil., Staph., Petr., Oleand., Canth., Phos. acid. (3) Ars. - skin, Clem., has more redness is worse from washing, has moist, alternating with dry scabs. (4) Puls. - gonorrheal orchitis, testicle tender and hard as a stone. (5) Bell., Bry., Calc., Canth., Con., Caust., Dulc. (syphilitic ulcerations), Graph., Merc. (iritis sensitive to cold), Petr. (impetigo on neck and occiput). (6) Sars. - syphilitic ulcers. (7) In "aversion to be washed," compare Ant-c., Hep., Phos., Sep., Spig., Sulph. (8) In bending head back, Cinnb., Cobalt, has worse bending head forward. **Compatible:** Sil.

***COBALTUM METALLICUM

(Cobalt Metal)

PHARMACY - cob. Cobaltum metallicum. Cobalt metal (Co. At. Wt. 58.6). Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Backaches. Constipation. Eye, disorders. Fatigue. Gonorrhea. Hemorrhages. Headaches. Impotency. Liver, disorders. Lumbago. Masturbation, effects. Neurasthenia. Sexual, disorders.

HOMEOPATHIC - Cobaltum is useful for neurasthenic states of spinal origin with sexual disturbances. Affects the spine, lumbar region, genitals, kidneys and bones. Fatigue, agitation and bone pains, worse in morning. Aching in bones. Soreness.

Characteristic **very severe backache**, worse sitting, better rising up, walking or lying down. Backache with seminal emissions. Discharges frothy. Sourness of taste, stomach, foot, sweat etc. Fatigue.

MIND - Great exhilaration of spirits, vivacity and rapid flow of thoughts. All mental excitement increases suffering. Constant interchange of mental moods. Sense of guilt. Thinks too little of himself. Delusion he is a criminal and others know it. Confusion from motion. Reproaches himself. Desire for mental work.

Abdomen - Empty feeling at navel. Yellow spots on abdomen. Sharp pains in the region of spleen, worse taking deep breath.

Back - Backache in lumbar region and weak legs. **Pain in back and sacrum, worse while sitting, better** walking or lying. Weakness in legs and backache after emissions. Aching pain in lumbar, worse sex, sitting, better on rising, walking or lying down with weak knees, cannot straighten up. Pain along the spine and from the sacrum down through the legs into the feet.

Eyes - Photophobia in spring. Darting pain in the eyes on coming into sunshine. Spring catarrh.

Face - Disposition to keep jaws tightly closed.

Head - Headache, worse stooping, jarring. Sensation as if the brain went up and down, on stepping. Headache, worse bending head **forward**. Itching of hairy scalp and beard.

Kidneys - Smarting at the meatus at the end of urination. Albuminuria. Urine has a strong pungent smell.

Limbs - Trembling of limbs especially legs, aching when sitting. Flushes of heat along legs. Shooting into thighs from liver. Sudden weakness in left hip, worse walking. **Weak knees.** Tingling, pricking in feet. Foot sweat, mostly between the toes, smelling sour. Aching in wrist joints.

Liver - Shooting pains in the region of the liver. Shooting from liver region down into the thighs.

Lungs - Cough with copious, frothy, sweetish white mucus with lumps in it.

Male - Pain in end of urethra, greenish discharge, brown spots on genitals and abdomen. Pain in right testicle, better urinating. Discharge of semen without erections. Frequent nocturnal emissions with lewd dreams, headache and backache. Impotency. Yellow-brown spots on genitals.

Modalities - Better from hawking mucus. Better continued motion. Better walking. Worse from sexual losses. Worse lying down. Worse rising from sitting. Worse sitting. Worse morning. Worse heat of bed or sun. Cold air causes lachrymation and aggravates pain in teeth. Warmth of bed causes itching all over. Jarring aggravates headache.

Mouth - Teeth feel too long. Tongue coated white (Ant-c.), with cracks across the middle. Sour taste.

Rectum - Desire for stool, while walking, worse on standing, followed by diarrhea. Constant dropping of blood from the anus, no blood from the stools.

Skin - Pimples about buttocks, chin, hairy scalp. Itching all over when getting warm in bed.

Sleep - Wakeful, can do with less sleep. Drowsy and can hardly get enough sleep. Unrefreshing. **Disturbed by lewd dreams.**

Stomach - Sour or bitter water rises up with pain in stomach.

Vertigo - Vertigo with feeling as if head grows large, worse stools.

COMMENTS - Frequent nocturnal emissions with lewd dreams, with partial or no erections. Impotence. Drowsiness, unrefreshing sleep. Headache worse bending head forward. Pimples on the head and elsewhere, itching of the skin when warm in bed at night.

Smarting and darting pains in eyes. Lachrymation in open air. Pain in hollow tooth, which feels too long and is sensitive to touch. Tongue thickly coated white, cracks across middle. No appetite for supper. Urine has strong pungent smell.

RELATIONS - Compare: (1) Cann-i., Sep., Sei. (2) Zinc. - in pain in back worse sitting. (3) Agn. - impotency, Nux-v. (4) effects of masturbation. Sei., Titan., Thallium. (5) Nitrate of Cobalt is a perfect antidote to Cyanide of Potassium, the two forming an insoluble compound.

REFERENCES - Boericke. Clarke. Phatak.

***COBALTUM NITRICUM

(Cobalt Nitrate)

PHARMACY - cob-n. Cobaltum nitricum. Cobalt nitrate. A chemically pure product. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL-Amenorrhea. Anemia. Arthritis. Blood, tumors. Chlorosis. Conjunctivitis. Deafness. Emaciation. Encephalitis. Fatigue. Fibroids. Hemiplegia. Infertility. Meningitis. Metrorrhagia. Miscarriage. Neuritis. Orchitis. Paralysis. Paraplegia. Pericarditis. Pleurodynia. Sterility. Syphilis.

HOMEOPATHIC - Cobalt has been known since ancient times and it was introduced for use in the manufacture of blue china, Dutch delftware, Moutier and Gien's crockery and Sèvres porcelain. A great deal of research is carried out on it in industry and agriculture, including experiments concerning the toxicity of cobalt and its salts.

In 1899, Pettini and Messina, by administering cobalt chloride in the food of dogs, cats and rabbits, noticed an increase in the level of hemoglobin.

More recently, Polonowski, Sutter and Briska, showed an increase of red corpuscles due to cobalt. Canjolle pointed to the complaints of pulmonary ventilation with a fall in arterial tension. According to Zarone, this hypotension is linked to a toxic attack on the myocardium.

In occupational medicine, Desoille, Merklen and Cotteril reported cases of poisoning of workers in which the clinical symptoms noted respiratory complaints and an increase in the level of red corpuscles.

A lack of fertility and miscarriage due to bleeding under the placenta. Emaciation, bluish-red coloring of the muscles and viscera, serous effusion. The thyroid gland is the location for pseudo-carcinomatous changes.

The homeopathic proving was re-evaluated by G. Maring in 1955 with fifteen provers, seven men and eight women. He used the 3x, 6x, 12x, and 30x potencies.

Symptoms included general fatigue in the morning, immediately on waking, lasting through the day with the feeling of being sleepy and heavy. General lassitude. Face pale, discolored. Frontal headache, vertigo. Nervous.

General emaciation. Irregular appetite, diarrhea. Better during the afternoon. Trembling hands. Loss of libido. Heaviness of the limbs. Pains in the bones. Pleurodynia on the left side. Cardiac pain. Metrorrhagia.

Syphilitic hemiplegia and paraplegia. Syphilitic radicular neuritis. Tabes. Diffuse meningitis and encephalitis or general paralysis. Spasmodic dorsal tabes. Thyroid problems. Every morbid manifestation developing either from hereditary or acquired syphilis. Hardening processes.

MIND - Anxiety. Excitability and over-activity, followed by inhibition and general depression. Depressive state with difficulty in concentrating as a result of a persistent headache. Sullen. Sadness on waking. Memory poor on first waking.

Abdomen - Chronic enteritis. Intestinal rumbling, ameliorated by belchings. Pressing abdominal pains, low, spreading towards the back.

Back - Vertebral growth dystrophy in children. Dorsal pain accompanied by a sensation of heat and headaches.

Blood - Chlorosis, anemia in young girls. Biermer's anemia. Increase of red blood corpuscles, hemoglobin. Acceleration of the sedimentation rate.

Chest - Pain on the left side of the chest, aggravated by respiration.

Ears - Noise like roaring in the ears. Deafness. Edema of the ear.

Eyes - Purulent conjunctivitis. Interstitial keratitis. Iritis. Inflammation of the choroid and retina. Eyelids heavy, swollen. Sensation of sand in the eyes. Boring pain around the left eye. Sensation of a veil over the eyes, when writing. Vision complaints, cannot focus for close work.

Female - Metrorrhagia. Secondary amenorrhea. Kraurosis of the vulva. Stenosis and atresia of the neck of the uterus. Hemorrhagic metritis. Uterine fibroids. Sclero-cystic inflammation of the ovary. Recurring miscarriage. Sterility. Frigidity. Lack of libido. .,

Food - Appetite diminished.. Desire for fried potatoes and fluids.

Head - Frontal pressing headache with feeling of the skull sunken above the eyes. Itching of the scalp. Head

numb, as though tied by a band. Sensation of heat in the head with icy cold feet.

Heart - Palpitations with sensation of rolling below the ribs. Pericardial effusion. Shivering in the evening, exhausting fever and nightly perspiration. Cyanosis of the limbs of the hands and feet. Pericarditis. Aortitis (syphilitic). Arteritis (syphilitic).

Kidneys - Pain in the kidneys. Bladder sensitive with urging and involuntary urination. Urine dark, odor of garlic.

Limbs - Arthritis. Charcot's joints. Pseudo- tabes from arthritis of the vertebral joints. Legs heavy, painful, especially in the morning. Limping with numbness of the legs as after walking or from exercise. Feet icy cold.

Lungs - Cortical pleurisy.

Male - Sexual asthenia. Impotence. Absence of spermatozoa in the semen. Orchitis and syphilitic orchioepididymitis. Blood tumors.

Modalities - Better in the afternoon and evening. Better from eructation. Worse in the morning, on rising.

Mouth - Vesicles around the lips. Mouth and throat dry. Need to clear the throat. Difficult swallowing. Sensation of swelling and inflammation of the gums. Pain in the gums and around the sockets of absent teeth.

Nose - Snuffling with frequent sneezing and tickling feeling in the nose. Purulent coryza. Sudden nosebleeds.

Rectum - Diarrhea in the morning with tenesmus. Stools soft, yellow and copious or hard in balls.

Skin - Vesicular eruption, palms of the hands. Urticarial eruptions, aggravated after midnight. Skin discolored. Skin has cancerous tendency. Dryness of the palms. Sudamina. Vitiligo.

Sleep - Sleep deep, but unrefreshing. Troubled dreams of falling from a height or obscene or unpleasant. Wakes tired with the need for more sleep.

Stomach - Nausea in the morning with eructation and headache. Sensation of acidity and emptiness in the stomach after eating. Gastric pains.

Vertigo - Vertigo rising, cannot stand up, aggravated by moving the head.

RELATIONS - Compare: (1) Ferr. - Congestive headache, paleness of mucus membranes, pains in the bones, amenorrhea with vicarious hemorrhage, nosebleeds, or hemoptysis. (2) Merc. - Slow thinking with bad memory for names. Weakness with trembling hands. Alveolar pyorrhea. Menses profuse with blood and large clots. Nightly pains in the bones. (3) Syph. - Memory complaints and difficulty in concentrating. Nightly lightning pains in the bones. Hardening of the genital organs. Frequent need to wash the hands.

REFERENCES - Julian.

***COCA ERYTHROXYLON

(Coca leaves)

PHARMACY - coca. Cocaerythroxyton. Coca leaves. Erythroxyton coca. N. O. Linee, suborder Erythroxyton. Tincture of leaves. Solution or trituration of the alkaloid, Cocaine. The alkaloid Cocaine is the well-known local anesthetic. **Historical dose:** All potencies.

CLINICAL - Altitude sickness. Angina pectoris. Aphonia. **Asthma.** Bedwetting. Chorea. Colic. Constipation. Cough. Deafness. Debility. Delirium tremens. Diabetes. Diplopia. Dysentery. Dyspepsia. Dyspnea. Emaciation. Emphysema. Fainting. Fever. Flatulence. **Headaches.** Heart, disease. Hemorrhoids. **Hoarseness. Insomnia.** Marasmus. Migraine. **Mountain sickness.** Neuritis. Nervousness. **Nosebleed. Numbness.** Nymphomania. **Palpitations.** Photophobia. Rheumatism. Satyriasis. Scrofula. **Scurvy. Sleeplessness.** Tinnitus. Trembling. Tuberculosis. Vertigo. Voice, weakness.

HERBAL - The Divine Plant of the Incas, Coca, has been used for centuries by natives of Western South America as an intoxicant and also as a remedy for "veta," the condition induced in persons on coming to live in highlands that is characterized by faintness, throbbing heart and head, and dysentery. Coca is like tea and coffee in arresting tissue-change and enabling those who take it to undergo unusual fatigues.

HOMEOPATHIC - Complaints related to mountain climbing. **Altitude, mountain sickness.** Palpitations, dyspnea, anxiety and insomnia. Dizziness, dyspnea and exhaustion on going to high altitudes, mountain climbing, airplane flying etc.

Exhaustion of the brain and nervous system from physical and mental strain. Muscle exhaustion. Ringing in the ears, deafness and also fever (Chin.). Tooth decay. **Voice loss.** Nocturnal bedwetting. Emphysema (Queb.). Characteristic **sensation as if a worm or small foreign bodies were under the skin**, moving away when touched.

Cocaine poisoning causes a sensation **as if small foreign bodies were under the skin**, generally like grains of sand or else as of a worm under the skin.

It is known as Magnan's Symptom, after the neurologist who first described it. His description is "a sensation as if foreign bodies were under the skin, generally small round substances like grains of sand."

Korkasoff reported a case of multiple neuritis in which this symptom was present. The patient was a woman

who was being treated for a uterine affection by means of vaginal tampons containing cocaine. A discontinuance of these caused the disappearance of the symptom.

MIND - Lively mood, inclination for mental work. **Clearness of mind at night.** Hurry in movements. Timidity. Bashful, ill at ease in society. Craves solitude, obscurity and darkness. Irritability on waking in morning. Confusion of mind. Personal appearance neglected. Deceitful. Sense of right and wrong abolished. Melancholy from nervous exhaustion. Mental prostration alternating with exhilaration. Mental depression and drowsiness. Muddled feeling in brain. Want of will power. Forsaken feeling. Loss of energy. Unpleasant feeling about himself. Slow in finding words to express oneself.

Loquacious excitement with blissful visions. **Great mental excitement.** Exhilaration, before menses. Wonderful visions. Hallucinations of hearing. Very changeable mood. Pleasant fancies. Loquacious excitement with blissful visions. Sense of impending death. **Overpowered by indescribable anxiety.** Nervousness and nightly restlessness of children during dentition. Fear of falling when walking.

Abdomen - Tympanitic distention of abdomen. Pressure and tension in hypochondria after meals. Violent pains with bloated distention. Colic. Passage of much flatulence. Violent bellyache, better frequent discharges of inodorous flatus.

Causations - **Ascending, high altitudes.**

Chest - Sudden attack of cramp in chest, became cold and unable to continue the ascent. Intense oppression in chest. Rush of blood to chest with slight headache. **Heaviness and oppression of chest.** Pain under clavicles, worse under left. Transient, shooting, in chest, between third and

sixth ribs, worse during deep inspiration. **Constitutions** - Suited to old people. Short-breathed people, weakly, nervous, fat, plethoric people. Children with marasmus.

Ears - Tinnitus. **Noises in ears.** Ringing, buzzing, and humming in ears with fever. Acute and painful hearing.

Eyes - Pressure and pain in eyes. Aching pain behind eyes causing feeling as if squinting inwards. Diplopia. Intolerance of light with dilated pupils. White, dark and fiery spots before the eyes. Flickering before the eyes. Dark cloud before eyes. Indistinct vision soon followed by headache and nausea. Pupils dilated with great photophobia. Heaviness of lids.

Female - Menses flow in gushes, awakening her from sound sleep. Nymphomania during menses and after childbirth.

Food - Retards hunger and thirst. Very little need of nourishment, even during heavy work and remarkable vigor. Great satiety for a long time. No appetite except for sweets. Aversion to solid food. Desires stimulants. Craving for alcohol and tobacco. Ailments from salt food. Can't eat salty food. Great thirst. Bad effects of stimulants, alcohol and tobacco.

Head - Fainting fit from climbing mountains. **Headaches of high altitudes.** Headache with vertigo, preceded by flashes of light. Shocks coming from occiput with vertigo. Like a band across forehead. Migraine, worse coughing, better eating, sunset. Pressive pain in occiput. Sensation as if brain was muddled. Fullness and pressive pain in forehead. Occiput painful and tender to touch, worse coughing. Occipital headache with chilliness. Violent headache, just over eyes with low ringing in ears.

Heart - **Angina pectoris from climbing mountains or over-exertion.** Violent and audible palpitations with flushing. **Violent palpitations from overexertion.** Rapid pulse with violent sweating. Pulse extremely slow and intermittent, loses one beat in four. **Palpitations with weak heart and dyspnea.** Pulse weak and accelerated, increased arterial tension. Throbbing of heart against ribs audible. Exhaustion of heart with irregular action.

Kidneys - Bine stitches in female urethra before urinating. Frequent desire, with increase, flow. Film on urine. Urine smells like sweat. Yellowish red flocculent deposits, oily scum on surface. Nocturnal bedwetting. Pains in perineum at end of urination. Decrease of solids in urine. Urine turbid on standing and covered with a light pellicle.

Limbs - Weakness of limbs. Feeling of internal cold with numbness of hands and feet. Crawling, numbness of arms. When walking, takes involuntary quick steps, head inclined forward with vertigo. Rheumatism, coming from slightest cold.

Lungs - Oppressed breathing at night. **Altitudes sickness.** Rapid breathing. **Want of breath, worse ascending, high altitudes.** Cough from cold air or fast walking. **Short of breath,** especially in aged athletes. Dyspnea of those who use tobacco or whiskey to excess. Emphysema. **Asthma, spasmodic variety.** Senile asthma. Obstructed breathing and heaviness in chest oblige him to walk slowly. **Incessant dyspnea,** with desire to take a deep breath. Hawking of small, transparent pieces of mucus. Expectoration of small limps like boiled starch, after rising in morning. Hemoptysis. Upper portion of both lungs as if constricted, during whole day.

Male - Diabetes with impotency (Ph-ac.). Sensation as if penis were absent. Emissions. Spermatorrhea and

partial impotence. Nervous prostration from sexual excess. Satyriasis. Weakness, seminal emissions with voluptuous dreams.

Modalities - Better from wine. Better after dinner. Better lying on face. Better quick motion. Better open air. Better after sunset. Worse from cold air. **Worse ascending, high altitudes. Worse climbing mountains.** Worse mental or physical exertion. Worse walking. Worse sitting. Worse salty food.

Mouth - Mouth dry, especially on waking. Peppery sensation in the mouth. Tongue furred. Tooth decay. Lips blue, swollen, chapped. Lips and gums pale. Dryness

Coca erythroxylon of lips and mouth. Ulceration at corners of mouth. Taste salty, slimy, bitter. Taste lost in morning. Fetid breath.

Nose - Sense of smell greatly diminished. **Nosebleed from high altitudes.** Nosebleed passing from right to left. Sneezing, and running of clear water from nose. Heat and irritation in nostrils.

Rectum - Dysentery of high altitudes. Sphincters relaxed. Flatus from bowels, smells like burnt gunpowder. Constipation from inactivity of rectum, stools dry, like walnuts. Hemorrhoids, painful on walking or sitting. Urging to stool, followed by natural evacuation. Constipation. Constant desire to stool after gonorrhea.

Skin - Itching and prickling under the skin. **Like a worm or insects crawling under the skin**, moving away when touched. Scarlatina-like rash over body. Increased heat of skin.

Sleep - Nervousness with nightly restlessness during teething. **Chronic sleeplessness.** Inclination to sleep, but can find no rest. Great drowsiness. Awakens with a shock in brain. Can find no rest anywhere, but sleepy. Awakes with a shock in brain when lying on back.

Stomach - Empty feeling or full feeling in stomach. Incarcerated flatus, rises with noise and violence, as if it would split the esophagus. Dyspepsia, especially in hypochondriacs. Hiccough after supper. Active digestion. Frequent eructations. Weak and difficult digestion.

Temperature - Sense of flushing, especially up the back with palpitations. Chilliness and headache in afternoon. At night, heat and sleeplessness, with throbbing in arteries. Night sweats. Flushes of heat on the back and burning in abdomen. Extreme weariness accompanies the fever.

Throat - Hoarseness, worse after talking. Voice loss. Weak vocal cords. Uvula feels swollen, swallowing difficult. Dryness early in morning. Tuberculosis of larynx. Belchings, rise with noise and violence, as if it would split the esophagus. Tickling in fauces and pharynx. Hawking of small, transparent lumps of mucus, chiefly in morning.

Vertigo - Fainting fit from climbing mountains. Vertigo and fainting after exertion. Vertigo with shocks coming from occiput. Vertigo with involuntary quick stepping when walking.

COMMENTS - Dr. J. W. Springthorpe described a variety of this symptoms experienced by himself and recorded in a paper entitled "The Confessions of the Cocainist." He called it "Hunting the Cocaine bug." "You imagine," he says, "that in your skin are worms or similar things, moving along.

"If you touch them with wool and especially with absorbent wool, they run away and disappear, only to peep cautiously out of some corner to see if there is any danger. These worms are projected only on the Cocainist's own person or clothing. He sees them on his linen in his skin, creeping along his penholder, but not on other, people or things and not on clothes brought clean from the laundry."

Cooper cured a case of chronic rheumatism in an aged woman who had this symptom with the fraction of a grain of cocaine given in single doses at long intervals.

In a case reported in Lancet, June, 1886, a man who had a 4 percent solution of cocaine applied to a tooth swallowed twenty to thirty drops of the solution. Half an hour after, he was seized with a feeling of faintness and giddiness followed by an attack of palpitation with a sense of flushing, especially up the back.

There was a marked diminution of smell, great difficulty in producing vomiting, a scarlatina-like rash over the body, especially about the neck, dimness of vision, relaxation of sphincters and weakness of limbs. The mind remained clear, but the pulse was fast, weak and intermittent.

A striking case was recorded in the British Medical Journal of December 13, 1890. At a meeting of the Paris Academie de Medecine on December 2nd, M. Hallopeau presented a communication after distinguishing two forms of cocaine poisoning: the acute in which the symptoms are produced immediately after a dose and speedily pass off, and the chronic in which they are due to the prolonged use of the drug.

He then related a case that in his opinion showed that the poisonous effects, while coming on acutely, might last for a considerable time. On March 7, 1890, a man had about eight milligrams of hydrochlorate of cocaine injected into his gum as a preliminary to the extraction of a tooth. Toxic symptoms at once supervened.

There was intense precordial oppression with thready pulse and extreme excitement and loquacity. The patient walked about the room, hitting out at random with his fists and crying out that he was dying. In ten minutes he became quiet and the tooth was extracted after which he was able to walk home, but arrived there in a state of extreme prostration.

Then ensued a train of nervous symptoms, such as continual headache, intractable sleeplessness, a bad taste in the mouth with attacks of excitement accompanied by giddiness, faintness, and a sense of impending death. All brain work was impossible, the patient could not do the simplest sum in arithmetic and was in a state of profound depression. A sense of formication and numbness in the hands and forearms was almost incessant. This condition lasted four months. It was two months after the injection before the least improvement was observed, and then progress towards recovery was very slow.

M. Hallopeau thought the symptoms indicated a poisonous action of cocaine on the nervous centers and especially the brain. As it is impossible to suppose that so small a quantity of the drug should have remained in the circulation, he was driven to conclude either that it was stored up in the cells of certain nervous centers or that it produced in them persistent lesions.

Among other effects observed from its use in dentistry are "mental depression and drowsiness and intense oppression in chest, dilatation of pupils, acceleration of pulse and breathing and mental excitement."

W. J. Guernsey quoted in H. P., November, 1888 from Med. Register, August 11, 1888, the experience of J. E. Shadle, who applied pledgets of a 4 percent solution of cocaine to the nasal cavities of a man of 35, preparatory to operation.

On each occasion he complained of a "cold, gone, relaxed feeling about the external genitals and a sensation as if he penis were absent. Towards the end of treatment he noticed a permanent weakness of the sexual organs and finally seminal losses and impotence set in and continued until the Cocaine was entirely withheld."

R. K. Ghosh noted experiences with Coca (which he finds in drop doses act better in such cases than in the potencies) in palpitation and dyspnea on ascending, when arising from nervous causes, especially in complaints from self-abuse generally.

After the invigorating effects of cocaine have passed off, including the sense of lightness and ability to climb a mountain without fatigue, or when the intoxication has been carried to a further degree, there is a sense of heaviness, numbness and drowsiness with a disinclination to move.

Extreme weariness, especially weakness of the legs. Extreme affects from altitude sickness. Fatigue. Characteristic headache, headaches of high altitudes. Tight headache, as if a rubber band were stretched across the forehead.

After affects from altitude sickness (Carb- V., Sil., Calc.). Can be used prophylactically if there's a history of altitude sickness or lung weakness. Asthma aggravated by altitude. Effects of cold, cough from cold air, rheumatism from slightest cold.

Excessive secretion of urine with or without sugar. Nocturnal bedwetting. General affect of relaxing the sphincters. Sensation as if the esophagus would be rent by force of rising flatus. Nymphomania after childbirth during menses, from irritation of eczema or other disorders of the vulva in satyriasis.

RELATIONS-Antidotedby: Gundlach discovered the best antidote to be Gels. **Compare:** (1) Ars., Guar., Cypr., Cham. (2) Arn., Calc., Ars. - effects of climbing. (3) Stram. likes company and light, Coca likes solitude and darkness. (4) Scutel., Valer., Cann-i., Thea, Coffea, Tab.

***COCAINUM HYDROCHLORICUM

(Cocaine)

PHARMACY-cocain. Cocainum hydrochloricum. Cocaine. An Alkaloid from coca leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Altitude sickness. Angina, pectoris. Asthma. Chorea. Constipation, chronic. Cough. Deafness. Debility. Deliriumtremens. Dyspnea. Fever. Glaucoma. Heart, disease. **Hemorrhages.** Hemorrhoids. **Mountain sickness.** Parkinson's disease. Paralysis. Rheumatism. Scrofula. Scurvy. Trembling. Voice, weakness.

HOMEOPATHIC - The symptoms of Coca, and Cocain. are mostly similar. Besides the great usefulness of cocaine as a local anesthetic, it has specific homeopathic uses, though the symptoms are mainly clinical. **Sensation as if smallforeign bodies or worms were under the skin.** Chorea. Parkinson's disease. Delirium tremens. Alcoholic or senile trembling. Glaucoma. Paralysis.

MIND - Cerebral activity. Talkative. Insomnia. **Irrational jealousy. Moral sense blunted.** Constant desire to do something great to **undertake vast feats of strength. Sees and feels bugs and worms.** Frightful persecutory hallucinations. Hallucinations of hearing. Thinks he hears unpleasant talk about himself. Personal appearance neglected.

Eyes - Glaucoma, increased tension, decreased corneal sensibility. Eyes staring, expressionless.

Head - Throbbing and bursting sensation. **Pupils dilated.** Hearing greatly increased. Roaring and noises in head.

Nerves - Parkinson's disease, chorea, alcoholic tremors and senile trembling. Local sensory paralysis. Formication and numbness in hands and forearms.

Sensations - As if a small foreign body or a worm under the skin, seeing and feeling of bugs on his own person and on his clothes and as if parts of the body were absent (more pronounced in Cocain. than Coca.).

Sleep - Restless, cannot sleep for hours after retiring.

Stomach - Loss of appetite for solid food, *likes sweets. Hemorrhages* from bowels, stomach.

Temperature - Coldness with intense pallor. **Throat** - Dry, burning, tickling, constricted, paralysis of muscles of deglutition. Speech difficult.

RELATIONS - Antidote to disagreeable effects occasionally resulting from injection of cocaine into skin or gums, drop doses of nitro-glycer. 1% sol. **Compare:** (1) Coca. (2) Stovain - an analgesic, a vaso-motor dilator.

REFERENCES - Boericke.

***COCCINELLA SEPTEMPUNCTATA

(Lady Bug)

PHARMACY - cocci-s. Coccinella septem- punctata. Lady bug. Coccinella. Ladybird. Sun-chafer. N. O. Coleóptera. Tincture of freshly crushed beetles. **Historical dose:** All potencies.

CLINICAL - Dyspnea. Face, neuralgia. Headache. Heartburn. Hiccoughs. Hydrophobia. **Neuralgia.** Tic douloureux. **Toothaches.**

HOMEOPATHIC - Neuralgias in teeth, gums, mouth. Uvula feels too long. Awakened by profuse accumulation of saliva, vomits and complains of sore throat. Hydrophobia (Canth.). Worse by any bright object.

Back - Pain in region of kidneys and loins.

Eyes - Cannot open eyes during paroxysm.

Face - Rush of blood to face. Cheeks red, especially right. Face ache. Pressure and heaviness, especially over right eye.

Food - Appetite lost.

Head - Dull headache, as from an enlargement of the brain towards the occiput. Tearing and shooting pains. Pain in forehead over right eye, sensitive to touch from superior molars to forehead. Aching in temples and occiput. Periodical attacks of frontal neuralgia. Pain worse from any bright object, better sleep.

Heart - Subdued, **intermittent pulse**, with remission of pain in face. Contracted pulse, during toothache.

Limbs - Icy cold limbs during neuralgia.

Lungs - Dyspnea. Oppressed breathing with disappearance of pain in face.

Modalities - Worse by any bright object.

Mouth - Cold sensation in teeth and mouth (Cist.). Tobacco aggravates the tongue severely. Swollen gums.

Sleep - Nocturnal attacks of pain entirely preventing sleep, but could not sleep even when pain did not appear. Pain ends in a general heat and sleep of two or three hours, from which he wakes without any pain.

Stomach - Hiccough and burning in stomach.

Teeth - Chronic pain extending from superior molars to forehead. **Throbbing toothache.** Sensation of coldness in all the teeth. Painful sensation in back teeth as if they were hollow and air were forced into them. Pulsative jerking in back teeth.

Throat - Sensation in the throat as though the uvula was too long (Nux-v., when the uvula is bluish and inflamed).

Vertigo - Vertigo after cessation of toothache.

COMMENTS - Most of the symptoms appear in the teeth and nerves of the face and mouth. Neuralgia, worse at night, accompanied by icy cold limbs and cold, moist skin, the right side is most affected. Pains extend from one part to another and may jump from side to side.

Attacks recur periodically, often of brief duration but quickly recurring. Attacks are generally worse at night, but may be entirely absent in the night. Returning every eight, ten, twelve, fourteen or twenty days.

RELATIONS - Compare: (1) Canth., Mang. (2) in tic douloureux, Spig., Thuj.

REFERENCES - Boericke. Clarke.

***COCCULUS INDICUS

(Indian Cockle)

PHARMACY - cocc. Coccus indicus. Indian cockle. Anamirta cocculus. Menispermum cocculus. N. O. Menispermaceae. A tincture is prepared from the powdered seeds, which contain a crystallizable principle picrotox- ine, a powerful poison. **Historical dose:** All potencies.

CLINICAL - Amenorrhea. Anger, ill effects. Anorexia. Asthma. Bones, disorders. Bulimia. Cerebro-spinal, meningitis. Chills. Choking. Chorea. Colic. Convulsions. Coryza. Cough. **Cramps. Debility.** Dysmenorrhea.

Dyspnea. Faintness. **Fatigue, chronic.** Fevers. **Grief.** Hangovers. Headaches. Hemorrhoids. Hernia. Hiccoughs. Influenza. Intermittent, fever. **Insomnia. Jet, lag.** Knee, weakness. Memory, weakness. Meniere's disease. Meningitis. Mental, excitement. Menstrual, problems. Menstruation, painful. Mononucleosis. Morning sickness. **Motion sickness. Muscles, weak. Nausea. Night-watching.** Numbness. **Nursing, others.** Overexertion. Palpitations. Paralysis. **Paralytic, pain.** Parotiditis. Rheumatism. **Seasickness. Sleep, deprivation. Sleep, loss.** Somnolence. **Spasms.** Spinal, irritation. **Sympathetic.** Tympany. Ulcers. **Vertigo. Vomiting.**

HERBAL - Coccus has been used from ancient times as a poison for stupefying fish and making them easy to catch. It produces great disturbance of the sensorium and the symptoms of intoxication in human beings. Commonly used as an adulteration of beer to heighten its intoxicating properties. A decoction of coccus is a domestic remedy used locally for destroying head or body lice.

HOMEOPATHIC - Paralysis of face tongue, pharynx, paraplegia with numbness and tingling. Numbness. **Sensation of hollowness or emptiness,** head, chest, abdomen. As if single parts had gone to sleep. Too weak to hold up head, stand or even speak. Feels too weak to talk loud.

Symptoms are worse riding in a cars, airplanes, trains or on shipboard, hence its use in **motion sickness, seasickness.** Sleep loss and fatigue from travels.

Vertigo and dizziness with nausea and vomiting. Ailments from **loss of sleep or nursing of loved ones.** Speech difficult at beginning of attacks of vertigo, afterwards, difficulty in reading and thinking.

Alternating symptoms. Unilateral disorders. Sensitive to cold. Falls down to ground unconscious. Senses acute. Slowness in moving, answering, wants plenty of time to do everything. Adenitis with cold, hard glandular swellings. Valuable remedy in hernias, both umbilical and inguinal, is particularly indicated when abdominal muscles are weak and it seems as if a hernia would easily take place.

Shuddering. **Painful contracture** of limbs and trunk, tetanus. Tremors of head, lower jaw from excitement, exertion, pain. Intentional tremors. Twitching of isolated groups of muscles. Spasms, through the body like electric shocks. Cramps in muscles, in masseters, in abdomen, dysmenorrhea in the heart. Convulsions from non-appearance or suddenly checked menses.

MIND - Mind benumbed with vertigo, nausea. **Mental fatigue from sleep deprivation.** Heavy and stupid feelings. **Ailments from loss of sleep.** Spacey. Dazed. **Night-watching.** Things seem unreal. Slowness of comprehension, must read a passage over several times in order to understand it. Memories are bad or blank out at times. Memory lost. Distracted easily forgets what he has just thought. When her mind is turned away from herself her sufferings are forgotten.

Generally very sympathetic to others. **Ailments from the nursing of loved ones.** Thoughts fixed on one unpleasant subject. **Profound grief and sadness.** Sadness as if from insult. Depression. Despair feels as if incurable. Mild, indolent and despondent in the face of difficulties.

Sits as if absorbed in deep and sad thoughts and observes nothing about her. Indulges in sad reveries. Dwells on past disagreeable occurrences. Answers slowly reflects long. Tearful chagrin about least trifle. Weeping spells, especially if they can't function and do the things they want to.

Coccus indicus

Mental confusion after drinking and eating. Very anxious about health of others, but little concerned as to his own health. **Sudden great anxiety.** Anxiety before menses. Anxiety from night-watching. Anxiety during sleep. Mind is worse from suppressed menses. Weeping during menses.

Fear of not getting proper amount of sleep. Fear of death. Fears the unknown, danger. Especially fear surrounding health and illness of others. Fear of ghosts and specters. Excitement after hearing horrible things. Frighten easily from noises. Fear of sudden noises.

Oversensitive to everything. Very sensitive to fear, anger, grief and all mental disturbances. Sensitive moods, everything worries and offends. Startles very easily. Easily offended, cannot bear contradiction. Sentimental. Sensitive to noise and touch. **Intolerance of noise.** Intolerance of any disturbing influence. Sensitive to insults, slights and disappointment.

Capricious. Vacillatory, doesn't accomplish anything at her work. Excessive irritability, excited by loud talking or least increase of temperature. **Anger from any interruptions.** Anger from contradiction. Enlargement of liver after anger. Starting, with trembling all over body, from slight noise or slight unexpected touch.

Irresistible inclination to sing. Absorbed in reveries. Sensitive to all external impressions. Speaks hastily. Talkative, witty, joking, dancing, gesticulating. Sees something alive on walls, floor, chair etc. **Time passes too quickly.** Alcoholics, reeling, roaring, quarrelsome, singing. Loud cries of despair and irritation, alternating with stupefaction of brain. Feeling as after committing a wicked deed, with desire to escape.

Abdomen - Bloated with intestinal gas.

Great rumbling in bowels. Colic, flatus, twisting pain with faintness and salivation. Flatulent colic in pregnancy.

Cramps in epigastrium with difficulty in breathing. Cramps deep in abdomen, instead of menses. **Abdominal muscles weak**, as if a hernia would take place. Inguinal hernia is apt to protrude and become incarcerated. Umbilical hernia, with obstinate

constipation. **Pain in abdominal ring**, as if something were forced through. Pains in region of spleen. **As if full of sharp stones**, on every movement. Emptiness and sensation of hollowness in abdomen. Sensation as if bowels would fall out. Hypochondria as if beaten. Ulcerative colitis.

Back - Drawing, lacerating or boring pains. Pressure in scapula and nape. **Pain in shoulder and arms as if bruised**. Stiffness on moving shoulders. Stiffness in cervical muscles, with great weakness. **Paralytic pain in small of the back**. Paralysis from lumbar region downward. Spinal weakness in lumbar region, worse walking. Weak neck, cannot hold up head. Trembling in back. Cracking or stiffness of vertebrae.

Breasts - Shivering over breasts.

Causations - Ill effects of anger, fright, grief, anxiety, disappointment. **Sleep loss. Nursing loved ones. Ill effects of nightwatching**. Overstrain mental and physical, traveling. **Motion sickness**. Noise. Hot or cold air. Sun. Tea-drinking.

Chest - Sensation of emptiness or of cramps in chest. Audible rumbling in chest (left side), as from emptiness, worse walking. Hysterical cramps in chest with sighing and moaning. Cramping, in chest during menstrual period. Pressure under ribs, better belching. Fine stitches in various parts of chest. Contractive tension of right side of chest, taking away the breath. Oppression in chest, better after vomiting of green mucus.

Constitutions - Suited to light haired, timid, nervous, persons, bookworms, unmarried, childless women. Sensitive, romantic girls. Light-haired females, especially during pregnancy, causing much nausea and backache.

Cough - Cough from choking in throat. Fatiguing, from oppression of chest. Cough worse indulging disposition to cough. Spasmodic cough, in anemic and hysterical women. Cough from choking in throat.

Ears - Sensitive to hearing, dreads sudden noise. Feel closed (right). Noises as from rushing water. Hardness of hearing. Pain

as if ears torn out of head with headache. Meniere's disease, ringing in the ears, oozy and loss of balance. Roaring or ringing in ears.

Eyes - Pain as if eyes torn out of head, during headache. Eyes open and immovable. Eyes dull and glassy. Eyes closed with the balls constantly rolling about in spasms. Protruding eyes. Jerking of eyelids. Pressure as from dust in eyes. Eyelids inflame⁴. Dryness of lids. Eyelids feel as if paralyzed. Bruised pain in eyes, with inability to open lids at night. Sharp or shooting pains in eyes from within outward. Pupils, contracted or dilated.

Face - Bloated, distorted and cold to touch. Blue margins around eyes. Flushed hot face and head during vertigo or unconsciousness. Countenance devoid of any signs of mental activity. Heat in face, and redness of cheeks, even in a cold room. Earthy countenance, with painful expression. Paralysis of facial nerve of one sided. Lines of face deepened, it seems drawn. **Cramp-like pain in masseter muscle, worse opening the mouth**. Prosopalgia in afternoon with wide radiations of pain. Tearing pains. Swelling of parotid glands. Swelling and induration of submaxillary glands.

Female - Amenorrhea causes mental alienation. Sudden cessation of menses. Menses, too early, profuse. Menses too often. Menses gushes out in stream when rising on feet on tiptoe. Menses clotted, with spasmodic colic. Cutting, cramping pain in region of uterus and ovaries, on appearance of menses. **Weak during menstruation, scarcely able to stand**. Dysmenorrhea with profuse dark menses. As if uterus were distended, during dysmenorrhea. Dysmenorrhea followed by hemorrhoids. Clutching in uterus. Purulent, gushing leucorrhea between menses or in place of menses. **Leucorrhea very weakening**, can scarcely speak. Leucorrhea gushing, when squatting and stooping during pregnancy with frequent urging to urinate. Discharge of bloody mucus from uterus during pregnancy. Hour-glass contraction of uterus with terrible pain in lumbar region. Labor pains spasmodic and irregular.

Food - All symptoms and affections, worse eating or drinking. Loss of appetite. Loathing of food and drink. Disgust for smell of food (Colch.). **Nausea when merely looking at the food, at the thought or smell of food**. Aversion to beer, acids, sour things. **Aversion to food**. Aversion to drink, tobacco. Desire for cold drinks, but eating or drinking anything cold causes tearing in limbs. Desires beer. Worse from coffee. Thirst, without desire to drink. **Confusion and vertigo after drinking, eating**. Will eat nothing but bread and water, at other times eats ravenously. Bulimia. Food tastes as if salted too little, tobacco tastes bitter. Thirstless.

Head - Congestion of blood to head, with mental derangement. **Sick headache from carriage riding**, cannot lie on back part of head. **Pain in occiput** and nape worse lying on it, better bending backwards, worse coffee. Migrain headaches. Headaches unable to bear least light, noise causes nausea and vomiting. Headaches from working in sun. Headache as if skull would burst. Headache returning at each menstrual period. Sensation of emptiness or hollowness in head. Opening and shutting sensation, especially in occiput. Dullness and

confusion of head, worse reading. Heavy head. Convulsive trembling of head from weakness of muscles of neck. Cramps in left temporal muscles. Trembling of the head. Throbbing in forehead. Tossing of head and incessant trembling of hands.

Heart - Palpitations, worse quick motion, mental excitement, with vertigo and faintness. Endocarditis. Nervous palpitations. Palpitations after rheumatism. During an attack of palpitation has vertigo and sensation as if about to faint. Pulse small, hard and frequent. Pulse often imperceptible, weak. Pulse seldom hard and somewhat accelerated. Feels pulse beat through whole body during heat, at times palpitation.

Kidneys - Frequent desire to urinate with small discharge in pregnant women. Watery urine. Tensive, aching pain in orifice of

urethra, between acts of urination. Itching and stinging near fossa navicularis. Involuntary urination during epileptic attack. Diuresis, during prosopalgia.

Limbs - Limbs go to sleep. Lower limbs are very weak, numb and unsteady. Lameness, worse by bending. Paraplegia. One-sided paralysis, worse after sleep. **Painful stiffness in all joints.** Acute rheumatism, pain springing from joint to joint, with redness, swelling and stiffness. Limbs straightened out, painful when flexed or vice versa. **Trembling and pain in limbs.** Clumsy gait. Edema of feet with paralysis of lower limbs. **Knees crack on motion.** Humerus feels broken. Soles numb, while sitting. Involuntary motion of right arm and right leg, better during sleep. Alternation of pain between arms. Pain in shoulder and arms as if bruised. Hands, numb or hot and cold alternately become numb on grasping objects, trembles while eating. Hands and feet become cold after change of position. **Violent spasms of arm and legs.** Takes hold of things awkwardly and drops them. Bones feel as if they were broken.

Liver - Liver more painful after anger, worse least jar. Enlargement of liver after anger. Sharp pains in liver region. Pressive pain in hepatic region worse coughing and bending over.

Lungs - Dyspnea as from constriction of trachea, as if irritated by smoke. Choking constriction in upper part of esophagus, oppressing breathing and inducing cough. Hysterical asthma. Dyspnea, oppressing breathing and inducing cough. Shortness of breath, on account of tension in abdomen. Quick, anxious and oppressed breathing. Slow, heavy and laborious breathing. Panting. Dyspnea from pain in bowels during diarrhetic stool, in amenorrhea.

Male - Drawing, sore pain in testes when touched. Genitals sensitive with desire for sex. Sexual desire increased alternating with decreased. Seminal emissions at night. Itching of scrotum.

Modalities - Better from sitting. Better lying quiet, on side. Better in a warm room. Worse eating or drinking. **Worse**

from motion of trains, boat, cars. Worse from motion. Worse exertion. Worse rising from bed. Worse bending over or stooping. Worse kneeling, walking. Worse swimming. Worse swallowing saliva. **Worse from loss of sleep.** Worse from touch, pressure. Worse jar, pain. Worse emotions, anxiety. **Worse from nursing others.** Worse at menses. Worse eating. Worse noise. Worse sun, cold, open air. Worse evening, night. Worse midnight and 1 a.m. Worse warmth of bed.

Mouth - Dryness and burning of mouth and throat. Dryness of mouth at night, without thirst. **Metallic taste with loss of appetite.** Coppery, metallic, sour taste after coughing. Taste, sour, offensive. Taste like sulphur, putrid, nauseous. Food tastes as if salted too little, tobacco tastes bitter. Tremor of lower jaw and chattering of teeth, when attempting to speak. Foamy phlegm from mouth. Salivation during nausea and vertigo. Thick saliva. Corner of mouth, wing of nose and tip of tongue distorted. Lips parched and dry. Corners of mouth sore.

Nose - Swelling of the nose. Coryza, with ulcerated nostrils. Very acute sense of smell. Worse from strong odors. Sense of smell weak. Ulcerated nostrils. Discharge from nose bloody, pus-like.

Perspiration - Sweat from slight exertion, on affected part. Cold sweat now of one, now of the other hand. Cold sweat only on face. Sweat stands out in drops on face, is now cold and then again hot. Exhausting sweat over whole body. Sweat in morning, principally on chest. Sweat from pain in bowels. Sweat during diarrhetic stool.

Rectum - Burning pain in rectum with soft, loose stool, sometimes yellow. Diarrhea brought on by riding in cars or carriage. Diarrhea is better lying on sides. Diarrhea with bilious vomiting. Constipation, with ineffectual urging to stool on account of lack of peristaltic motion. Bleeding hemorrhoids. Prolapsed rectum after stool. After stool, violent tenesmus, even unto fainting. Contraction of rectum, during too early menses.

Skin - Skin feels soft, is white and moist. Paleness of skin, wretched color. Itching of skin from warmth. Burning and itching as from nettles. Great itching, especially in the evening, worse undressing, in a featherbed. Ulcers very sensitive to touch. Red pimples, like grains of millet. Miliary eruptions or red spots, worse undressing. Induration, cold swelling of the glands, with stinging pains. Red irregular spots on chest and behind ears. Pimples filling with pus, and then drying up and disappearing.

Sleep - **Loss of sleep,** complaints from night-watching, nursing. **Slightest loss of sleep aggravates.** Coma

vigil. **Insomnia.** Sleepless from mental or physical exhaustion. Constant drowsiness, after loss of sleep, night-watching, nursing. **Sleep deprivation.** Spasmodic yawning with hiccup. **Sleepless from nursing of others.** Sleeplessness from business thoughts, from anxiety and restlessness. Anxious frightful dreams. Sleep frequently interrupted by waking and starting. Sleep unrefreshing. Maniacal sleeplessness. Dreams are anxious, frightful.

Stomach - Esophagus is dry, burning. Putrid eructations. Gastralgia from suppression of menses. Violent cramp in stomach, griping, squeezing, lacerating sensation. Cramps in stomach with flatulence and much saliva. **Motion sickness.** Seasickness. Sensation of hunger or emptiness, even to fainting. **Nausea and vomiting from riding in cars, boats or looking at boat in motion.** Nausea with faintness and vomiting, worse on becoming cold or taking cold. Nausea, rising to head or felt in head. Retching. **Vomiting of sour bitter.** Bad odor, of vomit, with profuse flow of saliva. Vomiting with headache, pain in bowels. Vomiting on taking cold, with syncope. Vomiting from cerebral tumors. Vomiting from loud talk. Cramp in stomach during and after meal. Hiccup and spasmodic yawning. Chronic dyspepsia from prolonged study. Morning sickness.

Stool - Small, frequent stools with flatus. Foul-smelling stool, during colic. Hard stool every other day, expelled with great difficulty. Watery stools, none in night, but comes on directly after rising from bed. Simultaneous with vomiting, sudden, thin, black, slimy, very fetid stool. Disposition to stool, but peristaltic motion in upper intestines is wanting. Thin, whitish-yellow watery stool. Fetid or hot flatus, emission of hot flatus before stool.

Teeth - Teeth feel chilly. Teeth as if long and loose. Pain in teeth, better when biting with empty mouth. Toothache in hollow tooth, pains only when chewing, even soft food. Toothache in upper incisors. Toothache with headache and ringing in ears. Drawing pain in dental nerves. Fine drawing pain in borders of teeth.

Temperature - Chills alternating with fever. Chills in evening and shivering. **Chilliness with perspiration and heat of skin.** Chills with flatulent colic, nausea, vertigo, coldness of lower limbs and heat of head. Chills with great disgust at even smell of food. Internal chill with great trembling of head. Upward and downward shaking chills. Chills running down back, in evening. **Nervous form of low fever from fits of anger.** Dry heat, the whole night through. Flushes of heat, with burning heat of cheeks and cold feet. Heat in head, chilliness in body. Burning heat and redness of cheeks. ;

Throat - Constriction in throat, with difficult breathing and inclination to cough. Paralysis of the muscles preventing swallowing. Tickling in throat with lachrymation. Tightness in larynx. Voice whimpering and tremulous. Speech difficult, during vertigo. Sensation of constriction. Pressive pain in tonsils, worse when swallowing saliva than when swallowing food.

Tongue - Bitter taste at root of tongue. Complaints of dryness of tongue, which is moist and clean. Dry, rough tongue. Dry tongue, with whitish-yellow coat, without thirst. Tongue coated white and dry upon edges. Pains at base of tongue when stretching tongue out. Tongue, as if paralyzed, speech difficult or hasty, pains at the base when protruded. Root of tongue as if swollen.

Vertigo - Vertigo, nausea when riding or sitting up. **Seasickness and motion sickness** (Tab.). Vertigo and dizziness, with nausea and vomiting. **Vertigo when riding in a car or train.** Vertigo on sitting up. **Vertigo worse watching moving surroundings.** Vertigo with palpitations, worse in morning, raising head, felt in forehead. **Vertigo from loss of sleep.** Constant sensation as if about to faint. Vertigo as if intoxicated.

Vision - Dim vision with black spots before eyes. Dark spots before eyes, though objects appear clearly. While reading, can only see left half of line of writing. Black spots seen after reading.

COMMENTS - Chiefly affects the right hypochondrium (especially liver), inner hypogastrium, inner forehead, back, upper arm and the bones of the arm. Irritable weakness. Slowness and numbness over their body (Calc., Alum.).

Vertigo and dizziness, with nausea and vomiting. Attacks of vertigo with confusion as if they are lost. Nauseated with whirling sensation. Sensation as if drunk because everything spins (Con., when turning in bed). Seasickness and motion sickness (Tab.). Motion sickness brought on by trying to read while riding in a car or train, or from looking out the window at things going by, from seeing a moving object. Jet lag.

Nerve exhaustion, weakness. Too tired to sleep. Chronic fatigue since loss of sleep or stress. Twilight sleepers, chronic insomnia with no recollection of sleeping, although they sleep for small amounts. Wake unrefreshed. excited nervous system (Coff.), worse coffee. All symptoms worse from loss of sleep. Conditions caused by loss of sleep and night-watching. May be used prophylactically to prevent conditions arising from loss of sleep. Stinging pains, stitches, constriction in the hands, a pithy feeling. Sensitive to touch. The least jar is unbearable. Keynote empty, hollow feeling in the body, lungs, stomach, legs. Hollow weakness. Sensation of hollowness or emptiness in the head or other parts. Sense of lightness of the body. Opening and shutting sensation, especially in the occiput. Sinking feeling.

Paralytic pains or pains as of dislocation. Paralytic weakness, lax muscles. Weakness of neck muscles with heaviness of head. Migratory numbness. Sensation as if single parts have gone to sleep. Neurological problems, locomotor ataxia, incoordination, stumbling, lack of control, and the knees tend to give out. Immovability of parts affected. Ataxia, staggering gait. Paralytic rigidity. Limbs become very painful to flex, but they often continuously bend them to obtain relief. Rigid limbs, chorea, involuntary motions (Caust.). Cramp, spasm, etc., coupled with electric-like shooting pain. Faintness from the pain. Joint rheumatism, ulcers, neuralgic disorders of bones.

Esophageal spasms. In the elderly, spasms can cause food to get stuck, inability to swallow (Caust.). Sensation of worms crawling in the stomach, pinches and scrapes in the stomach (Coloc.). Inguinal hernias (Nux-v., Lyc.). Hemorrhoids during menses. Metallic, bitter taste in the mouth. Desires beer. Drunkenness and hangovers (Nux-v.).

Meniere's disease, ringing in the ears, oozy and loss of balance. Poor vision with weak eye muscles. Dimness of eyesight. Severe occipital headache, sense that head opens and closes. Flu or mononucleosis with loss of sleep.

Morning sickness, when they can't stand the sight, thought and smell of food, especially when they are in the car (Colch.). Amenorrhea, may have vaginal discharge instead of period. Symptoms may be worse with menses.

Cocc. cured a case of delirium at onset of menses during first and second days, the patient said, "I always see something alive, on wall, floor, chairs or anywhere, always rolling and will roll on me."

A case of "spasmodic, flatulent colic, about midnight, flatus passed without relief," recurring several nights, was cured by Cocc. 3x. Lippe cured a case of enlargement of the liver after childbirth, the indication being "the liver was more painful after anger."

RELATIONS -Antidotes: Coff., Nux-v. **Compare:** (1) Picrotoxin - alkaloid of Coccus - epilepsy, attacks in the morning on leaving horizontal position, hernia, locomotor ataxia, night-sweats. (2) Symphoricarpos - morning sickness. (3) Petr., Calad., Puls., Ign.

***COCCUS CACTI

(Cochineal)

PHARMACY - coc-c. Coccus cacti. Cochineal. Dactylopius coccus. N. O. Hemiptera. An insect infesting cactus plants. The tincture is prepared from the dried bodies of the female insects. They also constitute a well-known dye. **Historical dose:** Trituration and all potencies.

CLINICAL - Anasarca. Anuria. Ascites. Asthma. Backache. Dysuria. Catarrh. **Coughs.** Gonorrhea. Gravel. Hemorrhages. Heart, disorders. Impotence. Irritation, nerves. Labia. inflammation. Menorrhagia. Nephritis. Spasms. Tinnitus. Tuberculosis. Uric acid, diathesis. **Vomiting. Whooping, cough.**

HOMEOPATHIC - Coccus Cacti has sometimes been confounded with the Coccinella septempunctata, both are insects known as "Cochenille" in French.

Coc-c. causes a catarrhal condition and irritation of the throat, respiratory and genito-urinary organs. Affects the mucus membranes. Spasmodic morning cough. **Whooping cough attacks end with vomiting of tough mucus.** Regular paroxysms or violent tickling, **hacking cough** ending in vomiting or raising **much clear ropy mucus**, hanging from mouth.

General lassitude. The least exertion causes lassitude and tendency to perspire or cough, worse during exercise. Pain in occiput is worse mental exertion. Intolerable internal itchings, burning like pepper. Pulsation in different organs. Sensation as of a fluid forcing its way during pain. Spasms.

Spasmodic pains in kidneys with visceral tenesmus. Catarrhal conditions of the bladder. Anuria. Ascites. **Anasarca. Discharges are stringy**, including hemorrhages, which are apt to be in large, black clots. Rising up

causes hemorrhage with passage of large clots from uterus. Periodic symptoms.

MIND - Confusion, better open air. Apprehensive, irritable, fretful. Anxiety after eating. Anxiety from irregular action of heart. Lively, talkative mood. Excitement after beer. Delusions of being enlarged. Sadness, early morning on waking. Sadness afternoon 2 p.m. to 3 p.m.

Abdomen - Excruciating pain from left iliac region, extending to the groins half way down the thighs, as if fluid were forcing its way there.

Back - Coldness in back.

Constitutions - Uric acid, gouty, rheumatic diathesis.

Cough - Cough from rawness in air-passages. Short paroxysms, followed by easy expectoration of globules of mucus. Suffocative cough, worse first waking, with tough, white mucus, which strangles. **Whooping cough**

attacks end with vomiting of tough mucus. Spasmodic cough in morning, worse 6 a.m. or 7 a.m. Spasmodic cough on first rising. **Regular attacks of violent, tickling, racking coughs ending in vomiting or raising much clear ropy mucus.** Periodical coughs, slowly increasing then gradually decreasing in its intensity, better cold air or cold drinks. Cough worse warm room. Violent cough, caused by brushing teeth, by rinsing mouth, by trying to clear throat of viscid mucus. Coughs of alcoholics.

Ears - Cracking in ears, when swallowing.

Eyes - Sensation as of a foreign body between the upper lid and the eyeball.

Face - Crawling sensation. Becomes purple, red worse coughing.

Female - Menses too early, profuse, **black** and thick, **dark clots** with dysuria. Large clots escape from the vagina when passing urine, when quiet or when rising up. Intermittent menses, flow only in the evening or at night. **Inflamed labia.** Vulva sensitive, worse when urinating.

Head - Throbbing pain with sensation as if fluid were forcing its way. Suboccipital soreness, worse after sleep and exertion. Headache, worse from lying on back, better with the head high. Dull pain over right eye in morning. **Sensation of a foreign body between upper lid and eyeball.** Distress from cinders in eye.

Heart - Sensation as if everything were pressed toward the heart.

Kidneys - Region of kidneys painful to pressure. Constant urging to urinate, better after passing blood clots from the vagina in females. Sticking pain along ureters. Lancinating, violent pain from kidneys to bladder with dysuria. **Urine, brick-red sediment, urinary stones, hematuria, urates** and uric acid. Deep-colored, thick urine. Nephritis. Nephritic colic.

Limbs - Sensation as if a fine splinter were under the fingernails.

Lungs - Fauces very sensitive. Walking against wind takes breath away. Shortness of breath. Chronic bronchitis complicated with gravel, large quantities of albuminous, tenacious mucus, are expectorated. Constant hawking from enlarged uvula, coryza with inflamed fauces.

Male - Pulsation in glans.

Modalities - Better from washing in cold water. Better cold drinks. Better walking. Worse left side. Worse after sleep. Worse touch, pressure of clothing. Worse slightest exertion. Worse periodically, from heat, cold exposure, lying down, night and early morning, awakening, brushing teeth, irritation of throat, rinsing mouth. Cough worse on waking.

Mouth - Tip of tongue burns like pepper. Sweetish, metallic taste. Salivation, constant desire to spit. Loud speaking or brushing of teeth causes cough.

Nose - Burning as of pepper in nostrils. Accumulation of thick viscid mucus in naso-pharynx.

Sensations - As if a ball or stone lying in stomach. Raging pain as though a fluid were injected into a small blood vessel. As if something ascending towards stomach. As of mucus ascending and descending trachea, as of a plug of mucus moving in chest. As if head would split.

Stomach - Irritation of throat, hawking, brushing of the teeth causes retching and vomiting. Thirst, drinks water often and

in large quantities. _ . _----- **Temperature** - Burning, as of pepper. **Throat** - Sensation as of a thread hanging

down the back of the throat. Sensation as if uvula is elongated. **Tickling in larynx.** Any irritation in throat causes cough, retching and vomiting. Constricted throat or as of a plug lodged in it. Profuse postnasal discharge. Accumulation of much viscid mucus, hawking it, excites cough, retching and vomiting.

COMMENTS - Coc-c. acts especially on mucus membranes, kidneys (Canth.), and in causing hemorrhages in disturbing the heart (Cact.). Hemorrhages are apt to be in large black clots, especially hemorrhages from kidneys and uterus.

Sensation as if a hair or crumb were lodged behind the larynx and as if a thread were hanging down the back of the throat causing a cough. "Cough, worse in morning, the child awakens and is immediately seized with a paroxysm of coughing ending in vomiting clear, ropy mucus hanging in long string from the mouth."

Rapid, spasmodic coughs in periodic attacks. Constant irritating cough. Sense of dry spot or tickle. Hoarseness. Fatigue of vocal organs. Violent tickling in larynx. Stitching and ulcerating pains below clavicles, especially left. Whooping cough (Dros., Cupr.), bronchitis.

Lancinating, stitching and pricking sensations. Itching, sticking and biting in various parts of the skin, red spots and itching pimples. Sharp pains and itching of glans penis, symptoms of the passage of small stones.

General sensitiveness to touch and pressure, rinsing mouth or brushing teeth causes cough and vomiting. Most symptoms worse from warmth, cough worse entering warm room, throat worse by warmth of bed. Tickling in trachea and cough better open air. Teeth very sensitive to cold. Catarrh worse on slightest exposure. Catarrh from autumn until warm weather.

Berridge cured with Coc-c. a case of gonorrhea, guided by the symptom "excruciating pain in left iliac region extending to groin and halfway down thigh, as if a fluid were forcing its way there."

Kunkel recorded the case of a man, 75. who suffered from nocturnal bedwetting up to the age of seven. When almost 20 he frequently passed large quantities of uric acid and at the same time he began to have symptoms of chronic catarrh of the colon, frequent scanty stools, much mucus, cross humor, itching anus, threatening of hemorrhoids but no bleeding.

Insomnia soon followed. Coc-c. 2c and 3c was given without benefit. Aqua calcis did some good, but not much. In three successive years he was sent to Carlsbad with good results to the intestinal catarrh, the sleeplessness was untouched.

Gradually all kinds of arthritic symptoms developed, especially in knees. There was occasionally a considerable flow of urine and the more copious it was the better the patient slept and the less pain in the joints. The same relief followed an attack of diarrhea.

Four weeks at Assmanhausen caused the excretion of large quantities of uric acid one year, but had no effect the next and the knee got worse. Wiesbaden helped one year but not the next.

Half a tumbler of Kronenquelle water drunk every morning helped the knee and enabled him to walk better than he had for a long time. In three or four years, the excretions of uric acid had ceased and the patient's state grew worse, insomnia recurred, diarrhea became much more frequent.

A fortnight previous to such attack, the patient noticed he had great aversion to butcher's meat. Coc-c. 30c morning and evening was given. Gradually sleep returned. There was almost daily excretion of uric acid, sometimes in the form of large shot, the diarrhea ceased and the patient went about his work with pleasure.

RELATIONS - Compare: (1) Canth., Cact., Oci., Sars. (2) apices of lungs sore, tenacious mucus, Kali-bi. (3) Many Cactus symptoms, like the pricking and sticking pains, heart disturbances, reappear in the pathogenesis of this Cactus-fed insect.

***COCHLEARIA ARMORACIA

(Horse Radish)

PHARMACY - coch. Cochlearia armoracia. Horse radish. Armoracia sativa. Armoracia rusticana. N. O. Crucifer. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Aphonia. Asthma. **Backache .Cataract. Colic.** Cornea, spots. Coryza. Eruptions. Eyes, disorders. **Flatulence.** Gonorrhea. Gravel. Headaches. Impotency. Leucorrhea. Lungs, edema. Rheumatism. Scurvy. Strangury. Toothache. Ulcers. Urinary, disorders.

HERBAL - Cochlearia and Cochlearia officinalis (Coch-o), are old-world anti-scorbutics, and the homeopathic provings have confirmed the old experience. Coch, has the anti-scorbutic properties of the other Cruciferae and is specially efficacious in scurvy from eating salt. The essential oil is said to be identical with that of Sinapis. Coch, is useful as a condiment in enfeebled states of the stomach. Raises the vital forces. An infusion of the root in cider, for dropsy, causes copious diuresis. Locally cures dandruff. Used as a gargle in scorbutic gums and sore throat. Hoarseness and in relaxed conditions of the fauces.

HOMEOPATHIC - Affects the mucus membranes. Frontal bone and sinus, antrum and salivary glands are specifically affected by this remedy. Mucus stools. Bloated sensation. Gonorrhea. Leucorrhea. Asthma and tuberculosis.

The peculiar symptoms are in connection with the teeth. Some violent abdominal pains were experienced. **Colic with backache.** Wandering chronic rheumatism. Tearing pains from the belly through to back, down the back and settling in sacrum.

MIND - Anxiety, driven to despair by pain. Difficult thinking in evening. Irresolution. Melancholy alternating with merriness. Worse from nervous excitement. Worse from vexation.

Abdomen - Spasms through to back and loins. Borborygmi in morning. Crampy, tensive pain above epigastrium apparently in diaphragm, better by bending forward.

Back - Pain in back as from **incarcerated flatulence** from abdomen through to back and down into sacrum.

Causations - Checked foot sweat. Nervous excitement. Cold.

Chest - Chest painful to touch.

Eyes - Traumatic inflammation of eyes and cataract. Lachrymation. Swelling of eyes. **Sore and scrofulous.** Spots on cornea. Copious running from eyes. Obscuration of sight for some minutes. Styas. Rheumatic ophthalmia.

Face - Twitching of left corner of mouth, 4 a.m. Soreness of upper lip.

Female - Stringy black blood passes from the vagina when urinating, also during the night. Menses every ten or fifteen days. Menses suppressed with chlorosis. Leucorrhea. Since menopause, cramp in stomach.

Food - Unnatural craving for food with profuse, painless diarrhea.

Head - Pressing, boring pain as if frontal bone would fall out. Violent headache with vomiting. Headache, now one side now the other, worse opening the eyes (wide), but not on reading or motion. Violent headache with nausea, worse sitting up. Aching, boring pains in head, as if brain bursting. Impaired hearing.

Kidneys - Burning and cutting at glans penis before, during, and after urination. Frequent urination. Increased desire and increased secretion. Urination difficult, causing burning, tenderness and inflammation of urethra as in first stage of gonorrhea. Strangury. Gravel. Albuminuria. Uneasiness in region of kidneys.

Limbs - Twitching in limbs. Towards morning, pain in all joints when lying still, worse lying on side, better on motion and when getting up. Suppressed foot sweat.

Lungs - Promotes expectoration and relieves cough, increases activity of respiratory organs. Dry, hacking, laryngeal cough, also after influenza cough, dry or loose, worse lying down. Coryza with hoarseness. Mucus asthma and tuberculosis. Edema of lungs. Throat feels rough and hoarse. Aphonia with blood-spitting, oppressed breathing.

Male - Burning or cutting at glans before, during or after urination. Gonorrhea. Impotence.

Modalities - Bending forward better. Touch or slight pressure aggravates many symptoms. Worse evening and night.

Mouth - Paralysis of tongue. Biting sensation on tongue. Tongue furred white. Very offensive odor from mouth and lungs.

Rectum - Tenesmus all night until morning, sometimes discharging a little blood. Profuse painless diarrhea with craving for food. Diarrhea after great nervous excitement. Mucus stools. Involuntary passage of mucus from anus. Itching and burning at anus.

Sleep - Very refreshing, awoke with clearer mind than usual.

Stomach - Belching and cramps. Belchings of sulphurous odor like garlic. Bilious regurgitations. Pain towards back, worse pressure on dorsal vertebrae. Colic with backache. **Violent cramp from stomach through both sides around to back.** Gripping around navel. Cramp in stomach, pain drives to despair.

Teeth - Dull sensation in teeth, as if they were soft and became bent and moved in their sockets on chewing. Scurvy of salt-eaters. Dental fistula.

Throat - Dryness of pharynx, larynx and posterior sinuses. Scraping in throat with nausea. Hawking thick, viscid mucus.

RELATIONS - Compare: (1) The Cruciferae generally. (2) Can th., Caps., Rhus-t, Sin-n. (2) Arg-n. - diarrhea from nervous excitement.

REFERENCES - Boericke. Clarke.

***COCOS NUCIFERA

(Coconut Oil)

PHARMACY - coco-n. Cocos nucifera. Coconut. N. O. Palmae. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. Asthma. Baldness. Bronchitis. Bruises. Bums. Colds. Colitis. Constipation. Coughs. Dermatitis. Diarrhea. Dropsy. Dysmenorrhea. Dysentery. Earache. Eczema. Fever. Gingivitis. Gonorrhea. Influenza. Jaundice. Kidney, stones. Lice.

Malnutrition. Measles. Nausea. Parasites. Rash. Scabies. Scurvy. **Skin, disorders.** Sore throat. **Stomach, disorders.** Swelling. Syphilis. Toothache. Tuberculosis. Tumors. Typhoid. Ulcers. Weakness. Worms. Wounds.

HERBAL - Early Spanish explorers called it coco, which means "monkey face" because the three indentations (eyes) on the hairy nut resembles the head and face of a monkey. Nucifera means "nut-bearing."

Coconut oil is of special interest because it possesses healing properties far beyond that of any other dietary oil and is extensively used in traditional medicine among Asian and Pacific populations. Pacific islanders consider coconut oil to be the cure for all illness.

Coconut oil does not form harmful byproducts when heated to normal cooking temperature like other vegetable oils do. It has no harmful or discomforting side effects. It is non-toxic to humans.

Root - In Java, a concoction from the root is used to treat dysentery.

Leaves - In India, the hairs on the lower surface of the leaves are used to stop bleeding.

Bark - In Ghana, the bark is used as an antiseptic, to clean the teeth and the ashes are used to treat scabies.

Milk - In Mexico, the milk is considered to be diuretic and is used to combat intestinal worms.

Oil - The Tahitians use the oil of coconut with perfumed flowers to apply to their hair. It is also used to heal wounds and sprains.

Husk - It is also said in Tahiti that for skull fractures, the husk was used to cover the head and it would fit nicely and hold the head injury in place until complete healing had occurred. This way the patient was protected

against any further shock to his head.

MIND - Feeling trapped. Feeling like she is losing her freedom.

Abdomen - Feel bloated.

Breast - Breast soreness. Feels like a pin being pushed through breast. Stabbing, burning pain.

Chest - Tightness of chest. Burning stabbing pain in the intercostal area.

Food - Malnutrition. Craving for sweet foods. Weakness.

Lungs - Gasping for air. Need for fresh air.

Modalities - Worse in cold weather. Worse after vaccinations. Worse after antibiotics.

Rectum - Severe constipation. Diarrhea, explosive. Yellow stools.

Skin - Skin very soft. Dermatitis. Eczema.

Jaundice. Rash. Wounds. Skin of fingers sore, burning and cracked.

Stomach - Nausea. Ulcers.

Throat - Dry throat. Feel like something is stuck in the throat, like a piece of shredded coconut. Croaky voice.

Vertigo - Dizziness before meal time. Vertigo in the morning, on waking. Vertigo after eating. Vertigo feeling of swaying, feels like going to fall. Vertigo feel drunk.

Vertigo with no sense of balance, has to hold on. Vertigo, with nausea.

COMMENTS - Nutritional studies show that coconut and coconut oil, in one form or another, may provide a wide range of health benefits.

Kills bacteria that cause ulcers, throat infections, urinary tract infections, gum disease and cavities, pneumonia, and gon- onhea. Kills fungi and yeasts that cause candidiasis, ringworm, athlete's foot, thrush, diaper rash, and other infections. Expels or kills tapeworms, lice, giardia, and other parasites.

Provides a nutritional source of quick energy. Boosts energy and endurance, enhancing physical and athletic performance. Helps relieve symptoms associated with chronic fatigue syndrome.

Improves digestion and absorption of other nutrients including vitamins, minerals, and amino acids. Reduces problems associated with malabsorption syndrome and cystic fibrosis. Improves calcium and magnesium absorption and supports the development of strong bones and teeth. Helps protect against osteoporosis.

Supports thyroid function. Promotes loss of excess weight by increasing metabolic rate. Is utilized by the body to produce energy in preference to being stored as body fat like

other dietary fats. Helps prevent obesity and overweight problems.

Improves insulin secretion and utilization of blood glucose. Relieves stress on pancreas and enzyme systems of the body. Reduces symptoms associated with pancreatitis. Helps relieve symptoms and reduce health risks associated with diabetes. Helps protect against kidney disease and bladder infections. Dissolves kidney stones. Helps prevent liver disease.

Helps relieve symptoms associated with gallbladder disease. Relieves symptoms associated with Crohn's disease, ulcerative colitis, and stomach ulcers. Improves digestion and bowel function. Relieves pain and irritation caused by hemorrhoids.

Reduces inflammation. Supports tissue healing and repair. Supports and aids immune system function. Functions as a protective antioxidant. Helps to protect the body from harmful free radicals that promote premature aging and degenerative disease. Does not deplete the body's antioxidant reserves like other oils do.

Helps protect the body from breast, colon, and other cancers. Relieves symptoms associated with benign prostatic hyperplasia (prostate enlargement). Reduces epileptic seizures. Helps prevent periodontal disease and tooth decay.

Applied topically helps to form a chemical barrier on the skin to ward off infection. Reduces symptoms associated with psoriasis, eczema, and dermatitis. Supports the natural chemical balance of the skin. Softens skin and helps relieve dryness and flaking. Prevents wrinkles, sagging skin, and age spots.

Promotes healthy looking hair and complexion. Provides protection from damaging effects of ultraviolet radiation from the sun. Helps control dandruff.

RELATIONS - Compare: (1) Aloe vera. Calen.

REFERENCES - Murphy.

***CODEINUM

(Codeine)

PHARMACY - cod. Codeinum. Codeine. Codeine purum. Codeine phosphoricum. Codeine sulphuricum. Alkaloid from Opium. Papaveraceae. **Historical dose:** Trituration and all potencies.

CLINICAL - Blepharospasm. Chorea. Constipation. **Cough.** Diabetes. Eczema. Numbness. **Pruritus.** Restlessness. Spasms. Stomach pain. Twitchings. Vomiting, pregnancy.

HOMEOPATHIC - Codeine possesses many of the properties of opium, from which it is derived, but it is sufficiently distinctive to entitle it to a separate description. Cod. seems to possess in great degree the exhilarating properties some persons experience when taking opium, though it is not without strong soporific effects as well.

Disorders of sensation, notably troublesome itching. Marked sensitiveness of surface. **Itching** with feeling of warmth, numbness and prickling. Characteristic "Itching with warmth. Itching and heat of face and head. A sensation of agreeable warmth."

Trembling of whole body. Chorea. Involuntary twitching of muscles of arms and lower limbs. Convulsive twitchings of muscles and limbs and especially of orbital muscles, are very marked. Twitchings prevent sleep at night. Numbness and prickling.

Extreme restlessness. Symptoms are periodic, paroxysmal, at times sudden. Diabetes.

MIND - Great exhilaration of spirits. Depression with desire to sleep, frightful dreams and dull headache on awaking. Increased or diminished power of fixing attention or applying mind. Confusion of the mind. Depression with dull headache. Inability to apply mind. Lascivious thoughts. Bewildered on waking.

Back - Neuralgic pains from occiput to back of neck. Convulsions in muscles of back. Sharp pains extending from stomach and chest through to back, between shoulders, worse on right side.

Bladder - Semi-paralysis of bladder. Quantity of urine increased. Sugar in urine.

Causations - Fatigue and excessive mental excitement causes headache.

Eyes - Involuntary twitching of eyelid (Agar.), sometimes better by rubbing. Pupils contracted. Sudden failure of vision. On blowing nose sparks before eyes.

Food - Great thirst with desire for bitter substances.

Head - Pain from occiput to back of neck. Skin of face and scalp sore after neuralgia. Dull headache in morning, gradually diminishes towards noon, when it disappears. Headache with dry lips and constant desire to moisten them. Headache from fatigue and excessive mental excitement.

Heart - Uneasy feeling about heart. Fluttering and oppression, with great desire to walk in open air. Violent pulsations of heart and carotids. Painful pulsation when attempting to study or write.

Limbs - Paralytic weakness in arms and legs. Spasmodic twitches in arms and legs. Numbness of hands and feet, prickling and numb sensation in various parts of the body.

Lungs - Dry cough worse at night. Tickling in larynx and coughing. **Short and irritating cough**, worse at night. Copious, purulent expectoration. Night cough of tuberculosis. Troublesome cough with copious mucus and sometimes purulent, expectoration with nervous excitability.

Male - Sexual excitement during the night, leading to pollutions.

Modalities - Worse by motion and better by rest. Headaches are worse in morning. Restlessness and cough worse at night.

Mouth - Mouth dry. Unable to articulate. **Nose** - Mucus discharge with irritation of the Schneiderian membrane. Entire loss of smell for several days.

Rectum - Constipation with tenderness of bowels, especially transverse and descending colon, with some flatulence.

Skin - Itchy, dry and prickling. Eczematous eruption with troublesome itching. Itching with feeling of warmth.

Sleep - Sleepy and drowsy. Cough disturbing sleep. Twitchings in sleep. Frightful dreams.

Stomach - Spasmodic pain at pit of stomach. Belchings. Empty belchings with acute pains in stomach. Nausea and vomiting, sometimes preceded by an agreeable glow at epigastrium. Violent spasmodic pain at pit of stomach (solar plexus).

Throat - Strong pulsations in both carotids. Tickling sensation in throat in afternoons and evenings.

Vertigo - Dizziness on blowing nose. When closing eyes objects appear to turnaround.

RELATIONS - Compare: (1) Agar., Hyos., Am-be. (2) Op. in sickness, pains in stomach and region of solar plexus, constipation, sexual excitement. (3) Agar. - twitching of eyelids. (4) Ars. - pains in legs, nightly restlessness. (5) Hyos. - twitching of eyelids after reading. (6) Lach. - sensitiveness of surface. (7) Rhus-t., Sulph., Sul-ac. - trembling. (8) Culex - vertigo on blowing nose.

REFERENCES - Boericke. Clarke.

***COFFEA CRUDA

(Unroasted Coffee)

PHARMACY - coff. Coffea erada. Unroasted coffee. Coffea arabica. N. O. Rubiacie. Tincture from raw berries. Tincture of dried seeds. **Historical dose:** Trituration and all potencies.

CLINICAL - After-pains. Anxiety. Asthma. Chills. **Colic.** Convulsions. Delirium tremens. Dentitions. Diarrhea. Ear, neuralgia. Ecstasy. **Excitement.** Fainting. Fever. Flatulence. Fright. **Headaches.** Heart, disorders.

Hernia. **Hyperactivity**. Hypertension. Hyperesthesia. Hysteria. **Insomnia**. **Labor, pains**. Leucorrhea. Metrorrhagia. Neuralgias. Nymphomania. Over-sensitiveness. Pain, severe. Palpitations. Prosopalgia. Sciatica. Shocks. **Sleeplessness**. Strokes. **Toothaches**. **Unconsciousness**. Vertigo. Vomiting.

HERBAL - The effects of Coffea cruda have to be considered separately from those of Coffea tosta, since the roasting converts much of the caffeine into caffeine or methylamine, which gives coffee its aroma. But the effects are very similar.

HOMEOPATHIC - The provings of Coff. were made with the raw berries. Coff. belongs to the same family as Chin, and Ip., and like these remedies has many symptoms like intermittent fever. It has been noticed that coffee-drinkers with malaria are more difficult to cure than those who do not drink coffee.

Over excitable and over sensitive nerves, special senses become **over acute**. **Hyperactivity of mind and body**. Sudden emotions, especially joy and pleasurable surprise, can produce dangerous symptoms.

Severe insomnia. Great nervous agitation and restlessness. Hysteria, screaming weeping. Convulsions of teething children with grinding of the teeth and coldness of the limbs. Convulsions from excessive playing or laughing in weakly children.

Skin hypersensitive. Touch, noise, odors, pain become intolerable. Neuralgia in various parts, always with great nervous excitability. **Intolerance of pain, driving to despair**. Nervous palpitations.

Stimulates the functional activity of all organs increasing the nervous and vascular activity. Sensation of warmth.

Coffee drinking is likely to increased production of uric acid, causing irritation of kidneys, muscle and joint pains, and should be curtailed or careful watching in the elderly as they are more susceptible to the stimulating action of coffee or tea.

Clarke noted that although it is believed that coffee antidotes almost all homeopathic medicines, it is doubtful whether it could do so, especially when remedies are given in high potency. Experience shows that correctly selected homeopathic remedies act in spite of taking coffee.

MIND - **Clearness of mind** in evening, at night. Unusual activity of mind and body. Full of ideas, quick to act. Easy comprehension, irritability, excited, senses acute. Sentimental. Faints easily. **Fright from sudden pleasant surprise**. Complaints from fright. Ailments from disappointed love. Ailments from excessive laughing and playing. Trembles.

Clinging to persons or furniture. Confusion during paroxysm of pain. **Tossing about**

Coffea cruda in anguish (Aeon.). Throws things about. **Pains seem intolerable, driving to despair with weeping**. Fear of death during labor or after-pains. **Fear of death from pains**. Fear of danger on falling asleep. Fear of fresh air. Pangs of conscience. Weeps, laments and tosses about, over trifles.

Immoderate activity and vigour. Increased feeling of energy and health. Ecstasy. Buoyancy. Great loquacity, brain feels clear and is active, he feels strong enough to do anything. Hasty eating and drinking. Hurried in movements. Memory becomes very acute. **Memory active until midnight**. Wakeful, full of ideas. Lively fancies, full of plans for the future. Theorizing. Weeping from delight.

Capriciousness. Cry and laugh easily. Now joyous now gloomy. Mental and physical exhaustion. Delirium tremens, with trembling of hands. Thinks that he is not at home, restlessness. Annoyed by voices. Resents sympathy. Weeping during headache, during menses.

All senses more acute, reads fine print easier. Hearing, smell, taste and touch acute. Excitement as if hurried.

Sensitive to noises, even if anyone walks across the floor. Fear of least noise. Impressionable to pleasurable impressions. **Unconsciousness, fainting after strong emotions**. Unconsciousness during childbirth.

Abdomen - Flatulence. Intolerance of tight clothing. Clothes are oppressive. **Abdominal pains with despair**. **Tension of** epigastric region, with sensitivity to touch. **Colic, which seems to be unendurable**. Pains as if abdomen would burst. Pressure in abdomen as from incarcerated flatus. Distended abdomen, extreme emaciation. Incarcerated hernia.

Back - Small of back as if lame, while sitting or standing.

Breasts - Agalactia. **Emaciation of breasts**.

Breast cysts from coffee drinking.

Causations - Effects of sudden emotion, especially pleasurable ones. Ill effects of fear, fright, disappointed love, over fatigue, excessive laughing, long journey. Wine. Slight passive movements are perceived as enormous, children at times

cannot bear to be carried about.

Chest - Sharp pains in sides during cough.

Constitutions - Complaints during infancy and dentition. Suited to tall, lean, and stooping persons with dark complexions. Sanguine choleric temperament.

Cough - Short, dry cough of measles in nervous, delicate children. Short, dry, hacking, constant, [5] as from

constriction of larynx. [4] Cough and sleeplessness after measles. Feels exhausted after coughing. [5] Irritable, nervous, at night, with anxiety and sleeplessness. [11] Irritation to cough, with coryza, worse open air. Single, sudden shocks, quickly following each other. From irritation in throat, phlegm in back part of throat. When falling asleep or soon after. Dry, hacking, like whooping cough, with this difference, that the spasms are principally experienced during inspirations, not during expirations.

Ears - Sensitive hearing. Noise is painful, even footsteps. **Sensitive to noise, music, voices.** Hearing acute, overhears distant sounds. Hardness of hearing with buzzing as of a swarm of bees. Noises and singing in ears, with nervous people. Crackling noise in head, synchronous with pulse, worse mornings and in open air, better indoors.

Eyes - Burning in eyes and throbbing in temples, during sick headache. Eyes half open during sleep, with convulsive motion of eyes when awake. Eyes reddish and shining. Pupils dilated. Bright eyes. Can read fine print more distinctly. Power of vision increased, esp. in open air. Scintillations. Dim vision during cough.

Face - Shining red face with much fever. Flushed face during sick headache. Transitory flushes in face. One cheek hot and red, with constant shuddering. Dry heat with red cheeks. **Acting, sharp, radiating pains.** Prosopalgia extending to molar teeth, ears, forehead and scalp. Sweat on face with internal chilliness.

Female - Menses too early and long lasting. Profuse menses with excessive sensitiveness of organs and voluptuous itching. Dysmenorrhea, large clots of blackblood,

with extreme sensitiveness of genitals. Toothache during menses. Bearing down in genitals with frequent urination. Metrorrhagia. Severe after pains or labor pains with fear of death. Voluptuous itching in the vulva.

Hypersensitive vulva and vagina. Vagina and vulva are too sensitive to rub or scratch, aversion to sex. Leucorrhea like mucus, or milky, worse while urinating. Severe after-pains or labor pains, with fear of death. Labor-pains ceasing, with loquacity. Irregular, ineffectual labor-pains. Puerperal fever from mental excitement. Nymphomania.

Food - Diminished appetite. Hasty eating and drinking. Excessive hunger. Aversion to coffee. Bad effects from wine and liquor. **Bad effects from drinking too much wine.** Thirst increased, esp. at night. **Worse from drinking too much coffee.** Thirst during sweat. Headache from eating too much.

Head - Headaches from mental overexertion, thinking or talking. Sensation as if brain were torn to pieces. **As if a nail were driven into the head.** Sensation as if brain is shattered or crushed. **Headaches worse motion, noise, music or light.** Tight pain, worse from noise, smell, narcotics. Head feels too small. Feels and hears a cracking in vertex. **Coffee and caffeine headaches** (Cham.). Temples throbbing with burning in eyes. **Pains driving to despair,** patient runs wildly about room. Rush of blood to head, after exhausting joy. Threatening apoplexy. Hyperemia of brain after abuse of Bell.

Heart - Violent irregular palpitations, especially after excessive joy or surprise. Nervous palpitation with trembling of limbs, worse sun, heat. Hypertension. Sudden rise of blood pressure and urinary suppression. Pulse full and frequent. Pulse intermitting. Pulse more frequent, but less vigorous, even small and weak.

Kidneys - Suppression of urine. Frequent, profuse urination of colorless urine. Pressure on bladder. Urine passes off drop by drop.

Limbs - Trembling of hands, cannot hold the pen. Twitching of limbs. Crural neuralgia, worse motion afternoon and night, better by pressure. Pain in limbs, worse noise. Coldness of limbs, hands and feet. Sciatica, worse motion, afternoon and night with restlessness and sleeplessness at night.

Lungs - Short, dry cough of measles in nervous, delicate children. Asthmatic attacks in morning, wants to move continually. Short inspiration, chest heaves visibly. Suffocative fits.

Male - Hypersensitiveness of sexual organs. Scrotum relaxed. Hot, itching genitals. **Emissions at night, followed by great languor and irritability of temper.** Greatly excited sexual desire, with dry heat of body.

Modalities - Better warmth. Better from lying down, sleep. Better cold drinks. Better holding ice in mouth. **Worse excessive excitement. Worse strong emotions, joy.** Worse mental exertion. Worse overeating. Worse alcohol, wine, narcotics. **Worse from strong odors, noise.** Worse open air. Worse cold, wind. **Worse from touch,** would like to rub the part but it is too sensitive. Worse at night, sleeps until 3 a.m. Warm drinks aggravate toothache.

Mouth - Excessive dryness of mouth at night. Hot breath. Taste more acute. Delicate taste. Taste sweetish. Loss of taste. Salivation during pregnancy. Hasty eating and drinking.

Nose - **Acute, sensitive smell.** Nosebleed with heaviness of head and ill humor during straining at stool.

Perspiration - Cold, clammy sweat, over whole body, but chiefly on palms of hands. Slight sweat, mostly in face.

Rectum - Constant alternations of constipation and diarrhea. Constipation and hemorrhoids. Constipation in sick headache. Diarrhea, watery, painless all day. Diarrhea in housewives from too much care about domestic affairs. Diarrhea during dentition, after the use of chamomile tea. Hemorrhoidal conditions. Spasmodic

contraction of sphincter, with burning and itching in anus. Fetid flatus. Liquid, fecal, offensive stools, from sudden joy or taking cold in open air.

Sensations - As if head too small, as if something hard pressing on surface of brain, as if head would burst and fly to pieces if she moved. As if intestines were being cut. As if body would burst. Tight pains and sensations. Sensation of warmth.

Skin - Skin very sensitive, eruptions become extremely irritable. Painfully sensitive. Itching, scratches until it bleeds. Itching of eruption changes into burning. Measly spots on the skin, with dry heat. Purple miliary eruptions all over. Scarlet fever, may aid in bringing out the eruption in cases of extreme wakefulness and nervous excitement. Scarlet rash with overwhelming pains and lamenting. Varicella, smallpox. Dryness of skin, but not in febrile diseases. Stinging and smarting on skin.

Sleep - Restless sleep, frequent, sudden starting and waking. **Nervous sleeplessness. Insomnia.** Sleeplessness, before or after midnight, from nursing the sick. Sleeps until 3 a.m., after which only dozing.

Sleeplessness from excessive use of coffee. Wakes with a start, sleep disturbed by dreams. **Sleepless, on account of mental activity, flow of ideas.** Disturbed sleep from itching of anus. Sleeplessness after pleasurable excitement. **Sleepless with nervous excitability.** Sleepless so long as any noise or light continues, at night. Sleeplessness after acute diseases. Long and vivid dreams. Pleasant dreams, even merry.

Stomach - Intolerance of tight clothing. Bilious vomiting and restlessness at commencement of variola. Gastric derangements of infants. **Anguish and pressure in stomach pit.** Burning in stomach during vertigo. Stomach feels over loaded during colic. Burning, sour eructations. Hiccoughs. Eructation like rotten eggs. Violent spasmodic eructations, with rising of the ingesta. Continual nausea during headache. Constant inclination to vomit, felt in throat. Vomiting of mucus during violent attacks of megrim.

Teeth - Dentition of anemic, sensitive children. Convulsive grinding of teeth. Toothache during menses.

Toothache,

Coffea cruda

better holding ice water in mouth, worse as it warms. Severe toothache, **intolerant of the pain** with restlessness, anxiety and weeping.

Temperature - Chilliness worse every movement. Internal chills with external heat of face and body. Chills with heat of head and sweat of face. Chills running down back. Running all through limbs. Shivering, from least exposure to cold air. Chills without thirst. Traumatic fever. Even with mild fever patient is very nervous and sensitive. Ague, paroxysms every fourth day, two well days intervening. Intermittent fever. Feverish with pain and always ready to weep.

Throat - Sore throat, worse cold air. Sore throat, parts very sensitive. Swelling and painfulness of throat, worse swallowing. Pain as from a plug with constant desire to swallow. Uvula too long, swollen. Larynx as if covered with dry mucus. Trachea as if raw. Roughness and hoarseness in larynx, in morning on waking. Spasm of glottis, starts from sleep with short inhalation or gasping.

Vertigo - Dizziness and confusion in the head. Vertigo with blackness before eyes. Vertigo when stooping. Vertigo during cough. Vertigo with whirling sensation in head, occasionally a general faint feeling, worse thinking. Vertigo with burning in stomach. Vertigo during sick headache, worse change of position or from moderate outdoor exercise.

COMMENTS - Teste grouped Coff. with Caust. He remarked that potentized Coff. prevents or neutralizes in many persons the effects of roasted coffee. Teste noted that this quasi-isopathic action is by no means confined to Coff., potentizations of many other drugs being antidotal to secondary effects of the crude substances.

Hahnemann described the migraine of coffee-drinkers thus: "It comes in the morning after waking increasing little by little. The pain becomes intolerable and sometimes burning integument of head very sensitive and painful on slightest touch. Body and mind excessively sensitive. Patients look exhausted, retire to dark places, close their

Coffea cruda eyes to avoid light of day, remain seated in an armchair or stretched on a bed.

"The least noise or motion excites the pain. They avoid talking, being talked to or hearing others talk. The body is colder than usual though no chills are experienced, the hands and feet are especially cold.

"They loathe everything, especially food and drink, on account of a continual sickness at the stomach. If the attack is very violent a vomiting of mucus takes place, which, however, does not relieve the headache. There are no alvine discharges. This kind of megrim scarcely ever leaves before evening.

"If the paroxysm is less violent, a little strong coffee which was the first cause of such a headache will produce a temporary palliation of the pain, but the disposition to relapse becomes so much greater.

The attacks come irregularly, every fortnight or every few weeks without any apparent cause and quite suddenly, so much so that the patient often does not feel a single unpleasant symptom the evening preceding

the attack. Such a headache has never been seen by me except in real coffee-drinkers.”

More recently. Dr. Gilles de la Tourette (Lancet, July 20, 1895) has described the effects of coffee. In his opinion they are very frequently mistaken for the effects of alcohol.

“Morning vomiting of glairy mucus, pain in the pit of the stomach, thickly-coated tongue, loss of appetite. The disgust excited by even the idea of solid food is such that these patients eat nothing else but bread soaked in their poison—coffee. There supervene then nausea, vomiting and painful acid belchings.”

The effects of coffee are less deep than those of alcohol and quickly disappear when the habit is discontinued. Characteristic exaltation of the senses and sensibility in general (Aeon.). Sight is improved, fine print can be read easily, hearing is more acute and noises are intolerable and are accompanied with fear of death. The mental activities are exalted. Great sensitiveness to touch or contact.

Nervous energy, anxious, wide awake, and hypersensitive to all light and noise, any stimulus. Ailments due to over-excitement (Arg-n., Phos.), pleasant surprises, joy. Happy excitement. Very sensitive to the cold and the wind.

Over excitement from severe pain, hypersensitive to the pain. Frets over the pain. Cannot stand the pain, pain out of proportion. Pain leads to sleeplessness and over excitability. An emergency remedy for amputation pain and severe nerve pain with burning.

Tendency to be intellectual, very quick minded, clear thinkers with brilliant memories, but can't turn their sensitivity off, an increased nervous system. Voracious mental appetite (Sulph.). Hyperactivity.

Severe insomnia from an overactive mind. Sleep is disturbed by terrifying dreams. Slowed pulse. Headaches (Cham, for coffee headache). One-sided headaches with the sensation as if a nail was being pounded in (Ign., Thuja, Anae., Nux-v.), usually right over the eye. Sense of lightness of movement, the head feels light, full of vigor.

Ringing in the ears or a roaring sensation in the head. For teething and toothache. Tendency to colic. Diarrhea in housewives who have much care and trouble in managing their households. Labor pains.

RELATIONS - Antidotes: Nux-v., Coff., Tab. Strong black coffee, drunk as hot as possible is indispensable as an antidote in a large number of poisons, especially narcotics. Hot coffee by rectum in cases of extreme collapse. **Compare:** (1) Coff-t. (2) Cypr. - ecstasy. (3) Bry. and Cham. - toothache better by cold. (4) Aeon. - predicts hour of death. Coca, Codeine. **Complementary: Aeon. Incompatible:** Camph., Cocc.

***COFFEA TOSTA

(Roasted Coffee Berries)

PHARMACY - coff-t. Coffea tosta. Roasted coffee berries. N. O. Rubiaceae. Infusion of the well-roasted berries.

Historical dose: Tritura- tion and all potencies.

CLINICAL - Antidote, poisons. Chills. Cholera. Delirium tremens. Diarrhea. Fainting. Fever. **Headaches.** Heart, disorders. Hemorrhoids. Hyperesthesia. **Insomnia. Labor, pains.** Migraine. Nervousness. Neuritis. **Pains.** Palpitations. Seminal, emissions. **Toothaches.** Urinary, disorders. Vertigo. Vomiting.

HERBAL - The roasting of coffee develops certain vitamin-like substances. Pigeons which had developed “**deficiency**” neuritis and paralysis on diet of polished rice lost their disabilities on the addition of 8 cc to a 5% infusion of coffee to their food. Unroasted coffee was useless.

HOMEOPATHIC - The symptoms of Coff-t. have been principally obtained from sensitive persons on whom strong coffee has acted injuriously and the clinical uses have been mainly based on these. But there is a definite and extensive proving of Coff-t. given in Allen. While it is often given in the form of black coffee, it is also available for use in the potencies.

Coff-t. is serviceable against both cold and heat. Beneficial to persons who live in the open air. Toothache, better by cold (Coff.), “**cold water better intense pain in sound teeth of right lowerjaw.**” Clarke has several times cured a toothache like this with Coff. 30c.

Heart disorders with troublesome palpitations from heart-irritability and in general nervous excitement. Tense arteries. Periodic headaches in hysterical women. Nervous and gastric headaches.

Vomiting on least exertion. Diarrhea from overwork and too much care. Gout and rheumatism with tendency to form chalkstone. **Labor pains are intolerable.** Useful in confinements to relieve the excess of suffering which some women experience.

Body and mind excessively sensitive. Looks exhausted, retires to lonely and dark places and closes eyes in order to avoid light. Least noise or motion excites pains. Avoids talking or being talked to or hearing others talk. Body colder than usual, although no chills are experienced. Hands and feet very cold.

MIND - Increased intellectual activity and perception of sounds, motion. Great excitement. Full of apprehension of terrible things happening. Depression and despair. Thinks she will die during labor. Begs that some one

might end her life. Strange feeling in her head with palpitations, trembling and chilliness. Doesn't know where she is. Delirium tremens.

Abdomen - Cramplike drawing pains in umbilical region with severe pains in lumbar region. Pains in abdomen during labor.

Ears - Ringing and noises as if falling rain, during vertigo.

Eyes - Shining bright eyes during labor. Sees dazzling colors, principally blue and yellow, before eyes.

Face - Pale face during vertigo with fainting. Face hot and deeply flushed, during labor. Excruciating facial neuralgia from decayed teeth.

Female - **Very severe labor pains.** Patient becoming greatly excited, constant tossing about with violent movements of limbs, she complains of the severity of pains and is sure she will die. After rupture of bag of waters, very severe pains in lumbar region.

Food - Loathes all food and drinks on account of continual nausea.

Head - Nervous and gastric headaches. **Periodical headaches of hysterical women.** Migraine coming on in morning shortly after awaking. Pains increasing little by little. Pains become intolerable. Burning pains. **Coffee and caffeine headaches** (Cham.). Scalp sensitive, hurts when touched ever so slightly. Headaches come on irregularly, without premonitory symptoms. If headache attack is very violent, vomiting of mucus, which doesn't diminish the pain. Headaches worse least noise or motion.

Heart - **Palpitations from irritable heart.** Small and frequent pulse, during labor. Arteries tense.

Kidneys - Assists the passage of gravel and small urinary calculi, and impedes their further formation in bladder. Catarrh of bladder, especially of old debauchees. Diabetes mellitus.

Limbs - Gout and rheumatism, where there is a disposition to the formation of chalk- stones in joints. Pains in left shoulder-joint. Trembling of hands. Iliac pains. Pains in left foot and joint of big toe.

Lungs - Spasmodic asthma. Asthma thy- micum. Whooping cough.

Male - Seminal emission at 3 a.m. Seminal emission with voluptuous itching, followed by chill and cold, clammy sweat.

Modalities - Worse least noise. Worse light. Worse motion.

Rectum - Diarrhea from overwork or too much worry. Obstinate diarrhea of elderly people occurring after an attack of cholera. Chronic diarrhea. Hemorrhoidal complaints.

Sleep - Nervous and restless sleep. Obstinate sleeplessness. **Insomnia from overactivity of the mind.** Sleepless from sensitivity to noise, light.

Stomach - Tight feeling in stomach after eating. Cramp of stomach. Vomits without least exertion. Epidemic cholera, particularly against the weakening vomiting and tormenting thirst, and it was useful in subduing the premonitory symptoms.

Teeth - Intense pain in sound teeth of right lower jaw nearly driving him crazy. No application relieves except cold water in mouth. Toothache returns as water becomes warm. Premature decay of teeth in children.

Temperature - Feels chilly, without being cold, and trembles. Intermittent fever. Continued fever with disposition to diarrhea. Inflammatory fever in children with excitability, starting and twitching in sleep, restlessness and crying.

Vertigo - Vertigo comes in attacks. Vertigo with obscured vision, unable to distinguish surrounding objects. Vertigo with ringing

in ears and noise as of falling rain. Vertigo, suddenly falls to the ground insensible. Vertigo with palpitation of heart. Vertigo with easy vomiting and paleness of face during paroxysms.

COMMENTS - Its value is well known as an allopathic antidote to opium and its derivatives in poisonous doses. Additionally, it counteracts the effects of Nux-v., Bell., Coloc., Valer., Cic., Cham., Phos, Ph-ac., lead. Salts of Antimony, narcotic mushrooms, poisonous sumac, tobacco, bitter almonds, and prussic acid.

On account of its extensive antidotal properties coffee has largely been condemned by homeopathic practitioners, but it should be remembered that it does not antidote all remedies.

RELATIONS - **Antidoted by:** Caps., Cham., Coff. Crud., Nux-v. **Compare:** (1) Coff. crud.. Caffeine. (2) Cham., Nux-v., Valer.,

REFERENCES - Clarke. Murphy.

***COLCHICINUM

(Colchicine)

PHARMACY - colchin. Colchicinum. Colchicine. Alkaloid of Colchicum autumnale. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Arthritis. Convulsive, jerking. Diarrhea. Exhaustion. Fevers. Gout. Intestinal, catarrh. Pleurisy.

Prostration. Rheumatic, fever. **Rheumatism**. Sleeplessness. Spasms.

HOMEOPATHIC - This colchine alkaloid has been proved and the symptoms are sufficiently distinctive. The symptoms point strongly to its use in that form of intestinal catarrh characterized by the appearance of shreddy membranes.

Arthritis deformans in early stages. **Intense pain of rheumatism**. Rheumatic fever, gout. **Convulsive jerkings of right hand**. Endocarditis and pericarditis. Pleurisy. Very great exhaustion increasing to feverish excitement.

Abdomen - Distention and sensitiveness. Frequent rumbling.

Eyes - Pupils widely dilated.

Face - Tearing pains in face.

Kidneys - Urine turbid, depositing a copious white sediment.

Limbs - Convulsive jerkings of right hand.

Mouth - Increased secretion of saliva.

Pulse - Pulse during the first two hours sank about eleven beats.

Rectum - Urging, causing him to leave the bed. Copious pasty evacuation. Stools with tenesmus and consisting of a thin fluid with numerous flakes looking like cooked egg white in pieces from two to four inches long. Stools thin, yellowish green, slimy, accompanied by pain. Liquid stools.

Sleep - Awakened from sleep soon after midnight by uneasy dreams. Somnolency and collapse.

Stomach - Pains and sensitiveness in epigastrium. On rising from bed, at night, nausea suddenly increased and was followed by vomiting of undigested food, and afterwards of a bitter greenish fluid. Vomiting early in the morning. Vomiting of blood for nine or ten days.

Temperature - Chill about noon on first day, followed by violent heat lasting several hours with increased thirst, very rapid pulse, confusion of the head, uneasiness and sleeplessness.

RELATIONS - Compare: (1) Ars., Caust., Colch.

REFERENCES - Boericke. Clarke.

***COLCHICUM AUTUMNALE

(Meadow Saffron)

PHARMACY - colch. Colchicum autumnale. Meadow saffron. N. O. Melanthaceae of the Liliaceae. Colchicaceae. Tincture of the bulb dug in spring. The flowers of the plant appear in autumn, the leaves not until the following spring. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Appendicitis. **Arthritis**. Ascites. Asiatic, cholera. Asthma. Backache. Bright's disease. Cataracts. Cholera. **Colic**. Colitis. Coryza. Coughs. Cramps. Debility. Dehydration. Delirium. Diabetes. **Diarrhea**. Dropsy. Dyspnea. **Dysentery**. Eye, disorders. Feet, painful. **Flatulence**. **Gout**. Headache. Heart, disorders. Hydrothorax. Ileus. Intermittent, fever. Intestinal, catarrh.

Iritis. **Joint, pains**. Lumbago. Memory weak. **Morning sickness**. Muscle, pains. **Nausea**. Nephritis. Night-watching. Nosebleed. Pericarditis. Pleurodynia. Proctalgia. Prostatitis. **Prostration**. Rectum, prolapsed. **Rheumatism**. **Smell, acute**. Sneezing. Stiff-neck. Styes. **Suppressed sweat**. Tongue, sensation lost. Torticollis. Typhlitis. Typhoid, fever. **Uric acid diathesis**. Urticaria. Vertigo. **Vomiting**.

HOMEOPATHIC - Colchicum is best known as a remedy for **gout and rheumatism**. It markedly affects muscles, fibrous tissue, serous membranes, and joints, especially the small ones.

Colch. relieves gouty paroxysms. Red, hot and swollen parts. Tearing pain, worse in the evening, at night, and from touch. Stubbing the toes hurts exceedingly.

Many joints are affected at the same time. Small, rapidly shifting areas of severe pain, but little swelling. Pains are tearing, digging, drawing. Tingling, crawling. Stitching, jerking, drawing pains in muscles, periosteum and joints. Pains worse from mental exertion, emotions, slightest touch and vibrations.

There is the irritability and aversion to touch so common in gout, pain in small joints and especially the great toes. Affects the periosteum and synovial membranes of joints.

The stomach is acutely disordered, nausea and vomiting. **Nausea at thought, sight or smell of food, especially of cooking**. Dysentery. **Uric acid diathesis**, pale yellow sediment like fine flour. Urine black as ink. Urine loaded with albumen and casts.

Extreme relaxation of the muscular system, the head falls forward on the chest or falls back when the patient is raised from the pillow, arms fall helpless by the side. **Great prostration, internal coldness**.

Tendency to collapse. Moist collapse, due to dehydration, as after repeated vomiting or purging. Cardiac and arthritic disorders. Dropsy. Hydropericardium, hydrothorax, ascites, hydrometra. The patient must rest and lie down. Cannot lie on left side.

Effects of night-watching and over study.

Shocks as from electricity through one half

of body. Bad effects from suppressed sweat. Dreams of mice.

MIND - Mind befogged, but answers correctly. Intellect beclouded, though he gives correct answers. Mind generally distracted. Can read, but cannot understand a short sentence. Memory weak. Weakness of memory from fatigue. Deficiency of ideas. Disorders in comprehension and association of ideas. Lacks words to express ideas. When writing, forgets syllables and entire words. Confounds objects.

Very irritable with the pains (Cham.). Pains worse mental exertion or by emotions. Intolerant of pain, his suffering seem unendurable . **Depressed, irritable and sensitive.** Peevish, nothing satisfies him. Discontented, not satisfied with anything. Misdeeds of others make him quite beside himself.

Extreme impressions such as bright light, strong odors, contact aggravate him. **Sensitive to all external impressions.** Hatred of odors. Frequent starting and trembling are felt through body.

Delirium during headache. Starting during sleep. Delusions, sees mice, hears noises. Vision heightened, but intellectual faculties dulled. Carphologia. Sardonic laughing. Indifference, doesn't complain unless questioned, then says nothing of his condition. Absence of apprehension, no fear of death. **Abdomen** - Mucus colitis, after dysentery.

Pain in transverse colon. **Distention of abdomen.** Distended cecum and ascending colon. Fullness and continuous rumbling. Borborygmi. **Colicky pains.** Colic, worse eating, after flatulent food, with great distension, better bending double. **Icy coldness of abdomen with colic.** Ascites with fold over the pubic region. Surface of abdomen hotter than rest of body and extremely sensitive to touch. Pulsation in abdomen. Pain over liver. Tearing pain about sigmoid flexure of colon, worse pressure and at night. Gripping pains.

Back - Backache, better rest and pressure. Lumbago. Aching in lumbar and lumbosacral region. Ache better pressure and rest. Tension in neck muscles felt even on swallowing. Violent pain in region of kidneys, better lying on back only. Dull pain across loins. Spot on sacrum feels sore and bruised as if ulcerated, very sensitive to touch. Stinging and tension between scapulae. Torticollis.

Breasts - Breast full, skin hot, pulse strong. Tearing, lancinating pain, deep in right breast, extending to back. Nipples dark, brownish-red, protruding. Nipples, unbearable pain on slightest touch by child.

Causations - Bad effects of grief, nightwatching, over study. Misbehavior of others. Getting wet. **Suppressed sweat.** Complaints from getting overheated.

Chest - Violent cutting pains, interrupting breathing. Stinging and tearing pains in muscles of chest. Chest as if squeezed by a tight band. Tensive feeling in chest. Sharp pain in chest on inspiration and coughing. Lacerating, tearing pain in chest. Lancinating pain, as with a knife, in right side of chest. Dull stitches in posterior part of thorax during expiration. Pleurodynia from catching cold or from living in damp dwellings. Serous effusion in chest with rheumatic and gouty persons. Hydrothorax, with marked dyspnea and edema of limbs. Spitting blood after chest injuries. Rheumatism of pectoral muscles.

Constitutions - Complaints of old people, asthmatic people. It corresponds to the **gouty constitution.** Leucophlegmatic and melancholic, venous constitutions, uric acid diathesis.

Cough - Frequent, short, dry cough from tickling in larynx. Cough at night, compelling him to sit up, excited by scraping in chest, with much expectoration. Cough at night, with involuntary spurting of urine. Slight cough with coryza.

Ears - Itching, crawling in ears. Dryness of ears. Ears feel stopped up with roaring. Tingling of ears as after being frosted. Sharp, shooting, below right tragus. Earache with lacerating pains. Earache with discharge. Hearing very acute.

Eyes - Eyes sunken, staring, hollow, congested, protruding. Diffused inflammation and congestion. Pain in and around the eyeball extending to occiput. Eyes half open. Visible contraction in lower lid. Acrid tears, worse in open air. Violent tearing pain in eyes. Edges of lids red and burning. Soft cataract. Kerato-iritis, with pus in anterior chamber of eye. Rheumatic iritis with great soreness of eyeballs. Stye on left lower lids. Ulceration of meibomian glands. Pupils unequal, left pupil contracted.

Face - Edematous swelling, cheeks red, hot, sweaty. Edema of lids and face. Pinched, sunken as in collapse. Sickly, sad, suffering expression. Pain in facial muscles, moving about. Tingling and edematous swelling, cheeks red, hot, sweaty. Pain behind angle of right lower jaw. **Very irritable with the pains** (Cham.). Tingling in face as after being frozen. Cheeks, lips and eyelids purple. Risus sardonicus. Blotchy papular rash on face.

Female - Menses too early and scanty. Itching of genitals. Sensation of swelling in vulva and clitoris. Coldness of thighs after menses. Feverish restlessness in last month of pregnancy. **Intense boring or tensive pain in ovary,** must bend double, with great restlessness. Dropsy of uterus from suppression of menses. Hemorrhage of uterus. **Morning sickness** with sensitivity to the smell of food (Sep.). Puerperal fever.

Food - **Gags from mere mention of food.** Craving for various things but averse to them when smelling them. **Loathes the smell or sight of food,** better lying quietly. Nausea and anxiety from smell of cooking, or from

fat food. **Nausea from odor of fat meat, eggs, fish.** Eggs disagree cause derangement of stomach. Tastelessness of food. Thirst for effervescent, aerated waters, alcoholic beverages. No thirst.

Head - Difficulty in moving head. Creeping in forehead and over head. Pressive headache, better supper, warmth, lying quiet. Headache chiefly frontal and temporal, but also occipital and in nape of neck, worse afternoon and evening. Aching in occiput, worse mental effort. Neuralgic, tearing pain in scalp in small spots. Headache over left eye, worse open air. Hemisrania, either of right or left side, changing about.

Very violent headache, coming in evening and lasting until morning. Hot forehead. Forehead covered with cold sweat. Great falling off of hair.

Heart - Cardiac dyspnea. Heart disease, following rheumatism. Anxiety in region of heart. **Violent palpitations with oppression of chest.** Pressure and oppression in the region of the heart, better walking. Cutting or stinging at heart, weak heart. Trembling in precordial region, with sticking pains. Sound of heart becomes weaker, pulse of low tension. **Heart disease and rheumatism.** Hydropericardium. Pericarditis, with severe pain, oppression and dyspnea. Effusion into pericardium. Weak heart. Pulse not felt. Pulse is thready, imperceptible.

Kidneys - Kidney failure with high uric acid. **Uremia.** Burning in urinary passages before urination. More urging, more discharge of urine. Diabetes. **Nephritis with extreme pain** in region of kidneys. Burning in urethra, as if urine were very warm. Tickling burning in urethra and discharge of a few drops, after urination. Raw pain, in urethra during urination.

Limbs - Limbs, lame, weak, tingling, cold. **Arthritic pain, patient screams with pain on touching a joint.** Joints stiff and hot, shifting rheumatism, pains worse at night. Rheumatic pain in joints of fingers, toes, wrists and ankles. **Painful gout in big toe, cannot bear to have it touched or moved.** Pain worse in evening and warm weather. Tearing in limbs during warm weather, stinging during cold. Sharp pain down left arm. Pins and needles in hands and wrists, fingertips numb. **Tingling in finger-nails.** Finger joints distorted, fingers flexed but in constant motion. Knees knock together, can hardly walk. Buttocks hot. Right plantar reflex abolished. Edematous swelling and coldness of legs and feet. Bloating of hands and feet with dysentery. Rheumatism in spring.

Lungs - Chest seems squeezed by a hand. Night cough with involuntary spurting of urine. **Great dyspnea.** Cardiac dyspnea. Dyspnea with palpitations of heart from 11 a.m. to 3 a.m. **Lies in bed gasping for breath,** with pericarditis. Difficult breathing, better bending forward. Accelerated and audible breathing. Slow, irregular breathing. Asthmatic breathing with moist sound. Asthma with hydrothorax or hydropericardium. Asthma with dropsy of lower limbs. Hurried breathing with groans. Rapid and short, quick breathing.

Male - Edema of scrotum. Tearing in glands and left spermatic cord. Itching at prepuce and orifice of urethra. Chordee after gonorrhea.

Modalities - Better from warmth. Better rest. Better doubling up. Better sitting. Better stooping. Better after stools. Better lying quietly. Better open air. Oppression and colic better bending forward. **Worse from motion** (Bry.). Can't lie on left side. Worse touch, vibrations. Worse stubbing toes. Worse bodily or mental exertion. Worse from stretching. Worse checked sweat. Worse vomiting. Worse loss of sleep. **Worse from smell of food.** Worse at night, evening. Worse sundown to sunrise. Worse from changing weather. **Worse cold, autumn.** Symptoms generally **worse cold damp, worse getting wet, bathing, living in damp dwellings,** changes to damp weather. Worse from rising up in bed.

Mouth - Sensation of warmth and dryness in mouth. Cracked lips. Thick, brownish coating on lips, teeth and tongue. Taste, flat, bitter. Flow of saliva with a sense of dryness. Mouth hangs open. Heat in the mouth with thirst. Profuse salivation with dryness of throat. Affection of salivary glands in Bright's disease. Cold breath. Loss of speech. Inflammation and redness of palate and fauces.

Nose - Nostrils dry and black. **Smell morbidly acute. Odors of eggs, meat nauseate even to fainting.** Strong odors make him quite beside himself. **Smell so acute that he smells odors others can't smell.** Obstinate coryza, discharge thin, tenacious, never watery. Sore pain in septum. Nosebleed, evenings. Sneezing, with crawling sensation in nose.

Perspiration - Copious, cold sweat, without relief. Copious sour sweat suddenly coming and going with rheumatism. Sweat

cold on face. Sour sweat, nightly. Clammy sweat on whole surface, with low temperature of skin, in acute rheumatism. Acid reaction of sweat and urine. Suppressed sweat.

Rectum - Mucus colitis after dysentery. **Autumn dysentery,** when days are warm and nights are cold. Hemorrhage from bowels in autumnal, cold, damp weather. Very offensive flatus, in evening. Diarrhea, then gouty effects. Ineffectual pressing, feels feces in rectum, but cannot expel them. Pain, as if anus were torn open with prolapse. **Agonizing pains remain long after stool.** Spasmodic constriction of sphincter, followed by urging to stool. Unsatisfactory urging to stool, better passing flatus. Tingling, itching, burning and tearing in

anus. Protrusion of rectum. Obstinate constipation in ileus.

Skin - Skin dry, sweat suppressed or profuse. Blotchy papular rash on face. Pink spots on back, chest and abdomen. Urticaria. Stitches in skin. Tingling here and there, as after being frozen. Skin dry and pale, swollen, parts cold and glistening. Dryness of skin. Itching as in nettle-rash, unchanged by scratching. Erysipelas, smooth. Purple efflorescence on face, neck, and upper anterior part of thorax, inside of thighs, scrotum and groins in patches.

Sleep - Falls asleep while reading. Lies prostrate on back. **Sleeplessness from restlessness of limbs.** At night, disturbed sleep or driven away by pains. Irresistible sleepiness, drowsiness, when not in too much pain. Drowsiness during day. Starting, jerking in sleep. Frightful dreams, awakening from sleep.

Stomach - Gastric affections before and during an attack of rheumatism. Burning pains. Eructations, with burning in stomach. **Icy coldness of stomach with colic.** Pain in stomach and flatulence. Dry mouth, tongue burns, gums and teeth pain. Profuse salivary secretion. Gouty gastralgia. Gastralgia from sudden suppressed sweat. Stomach as if full and swollen, as if he had eaten too much. **Nausea and retching.** Nausea and inclination to vomit, caused by swallowing saliva. **Nausea from odor of**

fat meat, eggs, fish. Vomiting of mucus, bile and food, worse any motion. Vomiting of the water he drank. Vomiting and purging of rice-water stools, with thirst. Vomiting first food, then fluid.

Stools - **Changeable stools,** greenish, reddish, excoriating, slightly sour smelling, copious, frequent, watery or bilious. Stools are painful, scanty, transparent, jelly-like mucus. **Bloody stools.** Stools scanty, discharged only by hard straining, even if soft, with pain in lumbar region. **Stools contain white shreddy particles in large quantities.** Stools frequently orange-yellow, slimy with bright-yellow flakes. Scanty stool with tenesmus, salivation and copious urination. Stools pass insensibly, involuntary. Feces mixed with light blue matter. Profuse watery stools in hot, damp weather.

Teeth - Gums and teeth painful. Teeth very sensitive when pressing them together. Grinding of teeth. Teeth feel too long. Tearing pain in roots of teeth and gums. Toothache, worse cold and immediately after warm things. Toothache, worse at night.

Temperature - Chilliness and coldness running through all limbs down back. Shuddering and creeping chills in isolated parts. Chills even near warm stove, intermingled with short flushes of heat. Cold sensation of head and limbs, in acute rheumatism. Dry heat at night with excessive thirst. Dry heat of whole body, constantly increasing and palpitations, thirst. Body hot, limbs cold. Intermittent, fever.

Throat - Much greenish, thin mucus in the throat, comes involuntarily in the mouth. Voice hoarse, or deeper than usual. Hoarseness in morning, with roughness of throat. Itching in larynx and trachea. Throat as if dry. Constriction of esophagus. Tickling as if coryza were setting in, inducing cough and clearing throat. Tonsils inflamed and swollen, spots covered with pus, swallowing difficult. Heat in pharynx and whole length of esophagus.

Tongue - Glossitis. Tongue burns. Tongue, bright red, heavy, stiff and numb, protruded with difficulty. **Brown tongue.**

Loss of sensibility in tongue. Tongue cold. Tearing, burning and sticking pain in tongue. Tongue coated white.

Urine - Urine, hot, highly colored, watery, black sediment. Albuminuria. Profuse secretion of urine. Urine of sour smell and acid reaction. **Dark, scanty or suppressed urine.** Pale yellow, greenish urine. Urine turbid, leaves an orange-colored ring in vessel. Bloody, brown, black, inky urine. Whitish sediment in urine.

Vertigo - Vertigo while sitting, after walking. Vertigo on rising.

Vision - Spots before eyes. Variations in visual acuity. Dim vision after reading. Lost vision, for a minute or two on getting out of bed.

COMMENTS - Coldness in the abdomen, stomach, and limbs. Profuse cold sweat, marked chills with or without periodicity. Burning in the cavities, especially the abdomen. Sensation of icy coldness or burning in stomach. Bloated abdomen.

Diarrhea. Cholera. Dysentery with bloody stools and mucus. Autumn dysentery. Spring rheumatism. Dysentery and rheumatism are exceedingly painful. Stools have jelly-like mucus, membranous shreds. Rice-water stool, with hippocratic face, coldness, cramps, prostration. Stool accompanied by violent tenesmus. Protrusion of rectum.

Affinity for the kidneys. Kidney failure with high uric acid. Effective for gout and joint conditions. In gouty diabetes, the uric acid reappears as the sugar disappears. Rheumatism can appear on disappearance of uric acid from urine.

Arthritis in the small joints. Stiffness that's better with motion (Rhus-t.). Arthritis, worse motion (Nux-v., Bry.). Conditions worse in the autumn, damp weather and change of weather (Dulc., Rhus-t., Nat-s.). Cold and chilly, dampness penetrates. Ailments from getting wet and chilled, changes to damp weather.

Oppression and anxiety in the heart, better by walking. Stitches about heart and loss of consciousness.

Pericarditis on the disappearance of symptoms from limbs.

All functions, mental and bodily, are slow. Nutrition and digestion are at a stand and

Colchicum autumnale yet the patient does not emaciate rapidly.

Great prostration, debility from loss of sleep, the prostration of typhoid fever and typhoid states. Extreme disinclination to move, worse from motion. Convulsions, cramps and restlessness. Pains are very acute and unendurable.

Very sensitive and irritable. Cannot endure strong smells. Smell of food nauseates. Morning sickness with sensitive to the smell of food (Sep.).

Nash recorded a striking cure by Colch. 200c. The patient was an old woman who was vomiting blood and passing as many as sixteen bloody stools in the day. The doors of the room had to be most carefully kept closed to prevent any smell of cooking reaching her as that immediately provoked nausea.

Guernsey noted that "after evacuation, as in dysenteric, there is generally relief but in typhus fever, sometimes a terrific spasmodic pain of the anal sphincter comes on after stool. This may occur in diarrhea."

The rice-water stool, hippocratic face, coldness, cramps, and prostration, led Salzer to use it for certain epidemics of Asiatic cholera.

J. R. Simson of Tonawanda, N. Y., cured a very bad case of typhoid presenting symptoms including "his left pupil was contracted so as to be almost imperceptible, while the right was dilated to the full extent." This is peculiar to Colch. and no remedy relieved the patient until he received this.

B. Simmons called attention to the powerlessness of the affected parts, especially when occurring in leuco-phlegmatic subjects and when there is edematous swelling of the parts.

He cured a woman, 36, mother of two children, of leuco-phlegmatic temperament. who complained of rheumatism of the hands, which were swollen, joints stiff and powerless, pain as if bruised, the arms being affected but in less degree. "She was unable to brush her own hair, not so much from the pain as from the extreme weakness and powerlessness of **the parts affected.** "

T. F. Allen gave "**Tingling in finger-nails**" as characteristic of Colch., no other remedy has it as strong.

RELATIONS - Antidotes: Thuja., Camph., Cocc., Nux-v., Puls. **Compare:** (1) Col- chicinum - intestinal catarrh and shreddy membranes, convulsive jerking of right hand, rheumatic fever, gout, endo and pericarditis, pleurisy, arthritis deformans in early stages intense pain of rheumatism 3x trituration. (2) Carb-v., Am., Lil-t., Ars., Cocc., Kali-c., Verat.

***COLIBACILLINUM

(Escherichia coli)

PHARMACY - coli. Colibacillinum. Escherichia coli. **Historical dose:** All potencies

CLINICAL - Anorexia. Backaches. Bradycardia. Chills. Colitis. Constipation. **Cystitis. Dehydration. Diarrhea.** Dysentery. Epididymitis. Fever. Flatulence. **Food poisoning. Gastroenteritis.** Headaches. Hematuria. Hepatitis. Hypotension. Indigestion. Insomnia. Leucorrhea. Menorrhea. Metritis. **Nausea.** Nephritis. Prostatitis. Puerperal fever. Rheumatism. Salpingitis. Septic fever. **Traveller's diarrhea.** Typhoid fever. Vaginitis. **Vomiting.** Weakness. Worms.

HOMEOPATHIC - The bacteria species, E. coli, occurs normally in the intestines of man and other vertebrates. It is widely distributed in nature, and is a frequent cause of **food poisoning and infections** of the urogenital tract and of diarrhea in infants.

In babies and young children, **profuse weakening diarrhea** with hypothermia, bradycardia, **dehydration.**

Hypotension, tendency to weakness, even collapse. Paleness, anxiety, vertigo, sweats, sound of the heart become muffled, and lowering of the blood pressure.

General fatigue and depression which goes on aggravating with digestive and urinary troubles. Progressive asthenia. **Mental and physical weakness.** Permanent worn out condition.

MIND - Mental weakness. **Great timidity.** Irresolution and lack of self-confidence. Always hesitating, cannot decide on any

thing. Constant mental confusion because of the loss of memory. Forgets proper names. Loss of memory. Amnesia of recent events. Weakness of memory with great difficulty to find out the right word. Uses very often one word for another.

Depressive melancholia. **Sadness and weariness.** Obsessional neurosis. Confused deliriums. Schizophrenic states, loss of contact with his environment and with his own reality. Catatonic condition with somnolence and dreams.

Abdomen - Bloating after eating. Slow intestinal transit. Flatulence, intestinal spasms. **Gastroenteritis.**

Heaviness and drawing in the intestines. Rumbling. Expulsion of putrid gas. Spasmodic colitis.

Back - Backaches. Lumbar pains.

Eyes - Swelling of the upper eyelids, sometimes left, sometimes right.

Female - Salpingitis, metritis, vaginitis. Vaginitis with burning pains. Leucorrhea. Heaviness of the lower abdomen with ovarian pains. Menorrhea. Yellow leucorrhea, slightly irritating. Sexual relation becomes difficult, with vulvo-vaginal burning sensation.

Food - Capricious appetite or anorexia. **Food poisoning.** Worse dairy products, milk. Worse eggs. Worse from eating undercooked meat, fish.

Head - Empty feeling in the head. Frontal and suborbital headache, worse by humid coldness. Headaches after contrariety and strong emotions.

Heart - Bradycardia. Hypotension. Sound of the heart become muffled.

Kidneys - Nephritis. Heat and burning after urination. Cystitis. Painful sensation in the region of kidney. Frequent urination of little quantity. Painful urination with the sensation of burning at the end of the flow. Sensation as if he must go again to pass urine immediately after urination. Urine smells bad. Hematuria. Aggravation of urinary troubles in cold humid weather.

Limbs - Polyarticular pains. Swelling of small joints of legs and hands. Rheumatism. Chronic degenerative rheumatism.

Liver - Hepatitis. Enlarged sensitive liver. Gall bladder, painful.

Male - Erection and ejaculation sometimes painful, with the sensation of burning in the urethra after sex. Cystitis, prostatitis. Relapsing epididymitis.

Modalities - Better by heat. Better warmth. Worse by cold. Worse humid cold. Worse by the sea. Worse after rest. Worse milk. Worse slightest mental or physical exertion. Worse cold, damp weather.

Rectum - **Infants with diarrhea and dehydration.** Diarrhea. **Profuse weakening diarrhea.** Constipation. **Traveller's diarrhea.** Alternating diarrhea and constipation. **Bloody, foul smelling stools.** Worms.

Sleep - Deep and heavy sleep. Insomnia.

Stomach - **Nausea and vomiting** after eating spoiled foods. Very slow digestion with the sensation of the stomach remaining heavy for a long time.

Temperature - Chilly, specially after eating. Nocturnal chill. Sensation of intense coldness with chill immediately after meals. **Fever with great weakness.** Typhoid fever. Septic fever. Puerperal fever.

Tongue - Tongue, coated yellowish-white. Tongue with a red clear stripe down the center. White tongue.

RELATIONS - **Compare:** (1) Pyrog., Chin., Ars., Lyc., Sepia, Psor., Med., Thuj. (2) Bowel nosodes. (3) Thymol., Folliculum. Cynodon dactylon.

*****COLLINSONIA CANADENSIS**

(Stone-Root)

PHARMACY - coll. *Collinsonia canadensis*. Stone-root. Horse balm. Richweed. N. O. Labiate. Tincture of fresh root. Trituration. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Atony. **Catarrh.** Colic. **Constipation.** **Cough.** Diarrhea. Dropsy. Dysentery. Dysmenorrhea. Dyspepsia. Hemorrhages. Heart, **disorders.** **Hemorrhoids.** Hoarseness. Labor. Pregnancy, disorders. Proctitis. Pruritus, vulvae. Rheumatism.

HERBAL - *Collinsonia* is native to North America. It has a very tough, hard, knotted root. As a domestic remedy, it is known for

chronic catarrhal conditions, especially of the stomach, bowels and bladder. Also of the nose, pharynx and larynx and in tubular and capillary bronchitis.

HOMEOPATHIC - Congestion in pelvic organs, especially anus, rectum and uterus, resulting in **hemorrhoids and constipation**, especially in females. **Constipation of children from intestinal atony.** It is said to be of special value when given before operations, for rectal diseases.

Sense of weight and constriction. Venous engorgement. Depressed arterial tension, general atony of muscular fiber. **Chronic nasal, gastric and pharyngeal catarrh**, due to portal obstruction. Pruritus in pregnancy with hemorrhoids.

Irritation of cardiac nerves, palpitation, faintness, oppression. Dropsy from cardiac disease. Heart disorders that alternate with suppressed bleeding hemorrhoids. Sensitiveness about the heart, fullness, oppressed breathing, faintness.

MIND - Gloomy. Sullen. Excitable. Irresolution.

Abdomen - Distended abdomen. Colic with flatulence and nausea. Heavy, digging ache in pelvis. Sharp, cutting pain in hypogastric region. Severe pain in lower part of abdomen. Congestion of portal system and of

pelvic viscera. Flatulent rumbling in stomach and bowels.

Chest - Chest pains alternating with hemorrhoids. Fullness and oppression of chest.

Face - Yellow discoloration around the eyes.

Female - Genitals considerably swollen and inflamed. Amenorrhea from pelvic congestion. Dysmenorrhea, swelling and dark redness of genitals, pain on sitting down. Membranous dysmenorrhea. Terrible dysmenorrhea, with hemorrhoids, diarrhea and loss of appetite. Cold feeling in thighs after menses. Sensation of swelling of labia and of clitoris. Lancinating pain in ovaries, worse right side. Prolapsed uterus, hemorrhoids during pregnancy. Leucorrhea with pruritus. Itching of vulva with hemorrhoids during pregnancy.

Food - Loss of appetite. Excessive appetite with spasms of stomach and flatulence. Loss of appetite with dysmenorrhea.

Head - Dull, frontal headache with constipation or hemorrhoids. Headache from suppressed hemorrhoidal discharge. Headache with frequent flying pains in legs, tearing in knees.

Heart - Palpitations, rapid but weak. Dropsy after heart symptoms are relieved, hemorrhoids or menses return. Palpitations in patients subject to hemorrhoids and indigestion. Rapid pulse. Heart's action rapid, regular or irregular, slightest motion or excitement aggravates. Valvular heart disease, following a severe and prolonged attack of acute rheumatism.

Kidneys - Chronic nephritis and cystitis. Catarrh of bladder. Urine increased.

Limbs - Sensation as if limbs were enlarged. Lower limbs seem not to belong to him. Tearing pain in arms, hands and legs. Cold feeling in thighs after menses. Tearing pain in both knees, extending down inside of legs to feet, while sitting.

Liver - Dull pain in liver region. Portal vein congestion.

Lungs - Difficult breathing and faintness. Severe attacks of dyspnea with great weakness. Oppression, faintness and dyspnea (Acon-f.). **Cough from excessive use of voice.** Harassing, dry cough. Chest pains alternate with hemorrhoids. Spitting of blood after suppression of hemorrhoids. Dark, tough coagula, enveloped in viscid mucus. Hemorrhage from lungs.

Male - Varicocele with rectal symptoms. Spermatorrhea kept up by hemorrhoids and constipation.

Modalities - Better from heat. Better morning. Worse during hemorrhoids or from suppressed hemorrhoids. Worse from the slightest emotion. Worse excitement. Worse during pregnancy. Worse at night. Worse from cold.

Mouth - Tongue yellow with bitter taste (Coloc., Bry.).

Nose - Chronic catarrh. Sinus congestion.

Rectum - Sensation as if rectum is **full of sharp sticks**. Chronic hemorrhoids, alternating with heart, chest or rheumatic

Collinsonia canadensis symptoms. **Painful bleeding hemorrhoids.** Vascular engorgement of rectum. **Sense of constriction.** Rectum, aches, burns. Rectum seems dry and full of sand, with cardiac pain. **Most obstinate constipation** with protruding hemorrhoids. Constipation during pregnancy with dysmenorrhea, following labor. **Alternate constipation and diarrhea** and great flatulence. Prolapsed anus. **Itching of anus** (Teucr., Rat.). Dysentery with tenesmus.

Sensations - Constriction and feeling of enlargement in various parts and organs of the body, limbs, vulva, clitoris etc.

Sleep - Disposition to sleep during day. Sleep disturbed by hypogastric pains.

Stomach - Constant heaviness in stomach. Cramplike pains in stomach with nausea. Sharp, cutting pains in stomach, every five minutes while sitting. Nausea with obstinate constipation, during pregnancy. Vomiting with pain and heat in stomach.

Stools - Sluggish stool with distended abdomen. Chronic diarrhea of children. Diarrhea after delivery. Acrid diarrhea. Light colored stools, lumpy with hard straining, mucus or black stools. Dry feces.

Temperature - Flushes of heat with oppressive breathing, with hemorrhoids.

Throat- Hoarseness. **Speaker's sore throat**, sharp pain in larynx.

Vertigo - Vertigo with gastric and hemorrhoidal troubles. Periodical spells of faintness.

COMMENTS - It has been proved twice, first by Burt and later by Dowla. The former took the tincture, the latter the powder. Both experienced headache, the former in connection with abdominal and rectal disturbance. The latter with flushing, sensation of heat, numbness, feeling of enlargement. The legs felt light, as if he could run like a deer.

Nux-v. relieved the sensations, the symptoms passing off from above downwards. In Dr. Burt's case, the symptoms generally passed from above downwards.

The greatest number of Dr. Burt's symptoms were experienced in the bowels and rectum, including pains in umbilicus and hypogastrium, constipation with hard light

stools, great straining, faintness, stools of mucus and blood.

These symptoms suggested the use of the remedy in cases of hemorrhoids, where it has proved most efficacious. Hemorrhoids during the menses. Prolapse of the rectum with hemorrhoids. It reduces complications when given before operations on rectal disease.

It is, according to Hammond, "a stimulant, a most valuable tonic, a positive diuretic and mild laxative." Hammond commended it in the palpitations of the menopause. Irritation of cardiac nerves, palpitation, faintness, oppression.

F. S. Smith mentioned that it has adomes- tic reputation in rheumatism. He recorded a case (sub-acute) in a woodsman of 30. It began in the foot and ankle and traveled over nearly every joint in the body. A few drops of Coll, tincture was mixed in a tumbler of water and a teaspoonful given every two hours. Rapid cure resulted. Dewey mentioned that it cured a case in which there was severe constrictive pain about the heart in a man who habitually passed blood by stool, the heart symptoms coming on when the bleeding ceased and disappearing when it was re-established. Coll, cured both.

Nash cured cases of the most obstinate constipation with Coll. In one there was severe colic, which had recurred for several years, the concomitant symptoms being great flatulence and hemorrhoidal troubles.

He differentiated between Aesc. and Coll., in that Aesc. has a sense of fullness in the rectum, which Coll, does not. and Aesc. hemorrhoids do not bleed as a rule, while those of Coll, bleed persistently.

Aesc. has pain, soreness and aching in the back. Coll, has more persistently constipation with colic on account of it. Aesc. may have constipation or may not. Coll, has shown marked power of disturbing the circulation and causing hemorrhages and also of disturbing cutaneous sensation.

Symptoms are worse in the evening and night, better in the morning. Worse by slightest emotion or excitement. Inveterate cases of dyspepsia with a weight in epigastrium and hemorrhoids. Neuralgia and rheumatic pains were experienced by the provers in many parts: upper jaw, arms, hands, knees, joints. Sensitiveness about the heart, fullness, oppressed breathing, faintness. Heart disorders alternate with suppressed bleeding hemorrhoids.

RELATIONS - Antidote: Nux-v. **Compare:** (1) Aesc.. Aloes, Ham., Lycopus, Negundo, Sulph., Nux-v.

***COLOCYNTHINUM

PHARMACY -colocin. Colocynthinum. N. O. Cucurbitaceae. Colocin. is an active glucoside of Citrullus colocynthis. Dilutions in alcohol. **Historical dose:** All potencies.

CLINICAL - Colic. Cough. Debility. Diarrhea. Feet, burning in. Genitals, congestion, pain. Headaches. Neuralgia. Spinal pains. Traveling, effects.

HOMEOPATHIC - Having had a separate proving, Colocynthinum must be considered apart from Coloc., from which it is derived, although the symptoms of the two bear a close resemblance.

Prominent neuralgic symptoms. Stitches and sensations of heat are found in many parts. Pulsation in the pit of the stomach, with prickling stitches on back in neighborhood of middle thoracic vertebrae.

Diarrhea and colic, better bending forward. Congestion to male genital organs and pain in them. Burning pains in soles of the feet.

Modalities - Better by bending over, black coffee. Worse by motion, better by rest, herein appears the relationship of the glucoside to Bry., the botanical relative of Coloc. Worse evening. Worse riding in cars.

REFERENCES Clarke.

***COLOCYNTHIS

(Bitter Cucumber)

PHARMACY - coloc. Colocynthis. Bitter cucumber. Cucumis colocynthis. Citrullus colocynthis. Bitterapple. N. O. Cucurbitaceae. Turkey. Tincture of pulp of fruit. **Historical dose:** All potencies.

CLINICAL - Cataract. Ciliary, neuralgia. **Colic.** Colitis. Coxalgia. **Cramps.** Delirium. Diabetes. Diarrhea. Dysentery. **Dysmenorrhea.** Gallbladder, colic. Glaucoma. Headaches. Hoarseness. Humiliation. Kidney, colic. Lead, poisoning. **Menstrual, pains. Nausea. Neuralgias. Ovarian, cysts.** Ovary, disorders. Pains, **severe.** Phimosi. Peritonitis. Rheumatism. **Sciatica.** Toothaches. Tumor. Uterus, pains. Vaginal, pains. Vomiting.

HOMEOPATHIC - Colocynth was used as a drastic purgative in allopathic practice. Coloc. should be compared to Bry. as they both have the same general features.

Pain in muscles, nerves and joints, gastroenteric disturbance and the same condition in regard to rheumatic joints, worse by movement. Great irritability and ailments from mental emotion, though the latter feature is more marked in Coloc.

Coloc. is useful in acute disorders of digestive tract and intestines. It develops most of its symptoms in the abdomen and head, causing intense neuralgias. **Neuralgic pains are cutting**, pinching, clamping, gnawing or boring. Neuralgic pains followed by numbness, **better by pressure**. Long-lasting action on large nerves, especially **tri-facial, sciatic and spinal nerves**.

Agonizing pain in abdomen. Colic causing patient to bend double. Cries out from pains, wriggles for relief, or must bend him double. **Sudden, atrocious, crampings, tearing pains** which make the patient **twist and turn**. The patient will press something hard against the abdomen.

Sensations of cutting, twisting, grinding, contracting and bruised pains. **Pains as if clamped with iron bands**. Pains are accompanied by nausea and diuresis and the patient vomits from intensity of pain. Faints with pain and with coldness. Rheumatic pain

Colocynthis in the limbs is better by discharge of flatus.

Cramps and twitching and shortening of muscles. Constrictions and contractions. Formication in affected part. Bladder cramps or spasms following operations on orifices (Hyper.). Urine odor of perspiration (Berb., Nit-ac.). Prostration, as if all his strength was failing.

Especially suitable for **irritable persons easily angered** and ill effects there from. Women with painful, profuse menstruation and of sedentary habits.

MIND-Anger with indignation (Staph., Cham., Bry., Nw-v.). **Extremely irritable**. Impatient. Anger, easily vexed during pain. Humiliation caused by offense. **Ailments after anger, with silent grief**. Children are worse when reprimanded (Cham.). Easily offended, aggravated when questioned (Bry.).

Morose, becomes offended at everything. **Greatly affected by the misfortunes of others**. Want of religious feeling. Wants to be alone, even friends irritate. Offended at everything. **Screams with pain**, wants to walk about. Restlessness before menses. Restlessness, anguish, agony, suppressed rage.

Depressed and joyless. Disposition to weep and cry. Complaining bitterly day and night. Walks about room in great agony from headache. Delirium alternating with sopor, with constant desire to escape, eyes half closed. Disinclined to talk, to answer. Becomes angry when questioned. Confusion from beer, wine.

Abdomen - Agonizing cutting pain causing patient to bend over double and pressing on the abdomen. Violent, cutting, gripping, grasping, clutching pains. **Radiating, colicky pains**. Cutting pain in abdomen after anger. Colic with cramps in calves. Cutting pains in bowels at navel. **Colic pains, come in waves, better doubling up, hard pressure**. Pains are worse least food or drink, except coffee and tobacco smoking. **Colic from drinking while overheated**. Pressure improves the pain in abdomen in acute stage but when pain remains for a long time, parts become tender and pressure aggravates the pain. **Intestines feel squeezed between stones**. Intestines feel as if bruised. Flatulent colic.

Colic with cramps in calves. During colic, infant lies on abdomen and screams when he is slightly moved.

Back - Pain under right scapula, better pressure. Lumbar ache, better pressure. Bruised pain in lumbar region. As of a heavy weight in lumbar-dorsal region, better lying on left side. Cramp like pains in the hips, better lying on the affected side. Neck stiff, worse moving head. Muscles of nape as if stiff when moving head.

Bladder - Tenesmus of bladder. Bladder catarrh, discharge like fresh white of egg, **viscid** (Ph-ac.). **Pains on urinating over whole abdomen**. Burning along urethra during stools. Itching at orifice. Bladder spasms after operation on the orifices. Sudden violent pressure upon bladder, which was full, passed off suddenly on emission of flatus. Retention of urine.

Breasts - Painful nodes in breasts. Sharp pains.

Causations - Ill effects of anger indignation, chagrin, grief, catching cold, or excessive venery.

Chest - Oppression of chest. Pain in intercostal muscles. Stitching, in right or left side of chest. Swelling and suppuration of axillary glands.

Constitutions - Suited to easily angered, irritable persons with tendency to corpulence. For women of sedentary habits with copious menstruation. To blondes, persons of choleric temperament and those liable to cramps and colic from fruit, lead poisoning or excessive venery.

Ears - **Sounds re-echo in ears**. Crawling, itching, stitching, aching, better by putting finger into ear. Roaring and throbbing, especially in left ear.

Eyes - Pain and twitching in eyelids. Burning eyelids. Severe burning, sticking and cutting pains. Pains sharp, boring, **better from pressure**. Violent pain in eyeballs which precede the development of glaucoma. Sensation as if eye would fall out on stooping. Gouty disorders of eyes. Smarting in eyes, with pain in eyeballs. Great itching in right eyeball, must rub. Discharge of acrid fluid. Bluish-white ring around cornea, in rheumatic form of iritis.

Redness and lachrymation. Dimness of vision. Region around eye very sensitive to touch, during headache. Conjunctivitis, with tendency to ulceration.

Face - **Face distorted from pains**. Cheeks cold. Tearing, shooting and swelling of face, left side great

soreness, relieved by pressure (Chin.). Prosopalgia with eye symptoms. **Neuralgia with chilliness.** Pain anywhere is reflected on the face. Sensation as if left side of face were being torn from right side. Deathly color of face, during colicky pains in bowels. Face red and purple. Pimples on face.

Female - Amenorrhea and chronic diarrhea. Suppression of menses or lochia from indignation. Menses copious in women with sedentary habits. Menses increased and too frequent. Dysmenorrhea, worse eating and drinking. Bearing-down cramps, causing her to bend double (Sep.). Metritis from indignation. **Boring pain in ovary. Must bend over double with great pain and restlessness.** Uterus prolapsed. Clutching pain in ovarian region. Ovarian tumors, cysts. Ovaritis. Round, small cystic tumors in ovaries or broad ligaments. **Ovarian cysts** with pain better flexing thigh on pelvis. Wants abdomen supported by pressure. Puerperal fever brought on by indignation or grief because of unkind treatment. Swelling of labia with dragging pain and heat in vagina. Yellow, thick, offensive leucorrhea between menses.

Food - Appetite variable, mostly poor. Canine hunger. Food and drink taste bitter. Aversion to food. **Coffee helps the colic, headache.** Desires for bread and beer. Potatoes and starchy food disagree. Potatoes causes bellyache. Confusion from beer, after wine. Constipation from cheese. Very thirsty. Drinks much, without thirst.

Head - Head hot, red face, glistening eyes. Dullness of head and giddiness at beginning of colic. Lateral cutting pains with nausea, vomiting. **Headache better coffee.** Pains, better pressure and heat. Burning pains, digging, rending and tearing. Headache with nausea and **vomiting. Headache with soreness of scalp.** Roots of hair painful. Head pains worse stooping. Headache

worse lying on back and moving eyelids. Heaviness in forehead with stupefaction. Pressure in both temples.

Heart - Strong throbbing in all blood vessels. Heart feels pushed up by a distended stomach. Stitches in cardiac region. Pulse generally hard, full, accelerated. Pulse small and weak.

Kidneys - Kidney colic with diuresis. Fetid, small quantities of urine with frequent urging. Diabetes.

Limbs - Rheumatic pains in limbs and joints, after catching cold. **Contraction of muscles.** Cramps in muscles during sex. All the limbs are drawn together. Stiffness of joints and shortening of tendons. **Cramp-like pain in hip,** lies on affected side, pain from hip to knee. Heaviness of limbs during headache. Spontaneous luxation of the hip joints. Sciatic pain, left side, drawing, tearing. **Sciatic pain, better pressure and heat,** worse gentle touch. Pain in right deltoid. Pain down right thigh, muscles and tendons feel too short, numbness with pains (Gnaph.). Icy coldness of hands and feet. Cold hands with warm feet. Knees feel stiff, cold. Pain in left knee joint. Feet cold with colic.

Liver - Gallbladder, colic.

Lungs - Short cough when smoking tobacco. Difficulty breathing during menses, ovarian tumor. Asthmatic attacks at night with slow, difficult breathing, which provokes cough. Anxious and oppressed, sensation as if about to smother. Tickling cough frequently during night. Dry cough from tickling in throat.

Male - Sensation as if everything were flowing towards genitals from both sides of the abdomen, causing seminal emission. Pain and swelling of testicles and spermatic cord. Retraction of testicles and priapism, with retention of urine. Paraphimosis. Retraction of prepuce behind glans during sleep. Strong sexual desire with erections. Impotency.

Modalities - Better coffee, smoking. Warmth ameliorates most pains. Better lying with head bent forward. Better lying on abdomen. **Better bending double.** Better rest, motion. **Better hard pressure, warmth.** Better after stool or flatus. Worse from emotions, chagrin. **Worse anger, vexation and indignation.** Worse from lying on painless side. Worse before and after urination. Worse drafts, taking cold. Worse at 4 p.m. Worse lying in bed, evening and night. Worse eating, drinking.

Mouth - **Persistent bitter taste.** Teeth feel too long. Offensive smell from mouth from decayed teeth. Bitter taste of food and drink. Offensive or metallic taste. Stinging in velum palati. Burning on the tip of the tongue. Tongue rough, as from sand. As if tongue had been scalded. Burning on anterior surface of tongue.

Nose - Throbbing, burrowing pains from left side of nose to glabella. Nose stopped up. Purulent nasal discharge. Fluent coryza, worse open air, better indoors. Sense of smell impaired during headache.

Perspiration - Sweats at night. Cold sweat. Sweat smelling like urine. Sweat causes itching of skin. Sweats mainly on head and limbs. Profuse, warm sweat on forehead and neck.

Rectum - Constipation, hard stools, as if passing stones. Diarrhea from pain, from anger, with indignation. Ineffectual urging to stool, followed by sudden stool. **Burning pain in anus,** after green, yellowish, slimy, watery discharges, streaked with pure blood. Slippery bubbles escape from anus. Pricking at anus, with constant discharge of mucus. Painful swollen hemorrhoids. Musty odor.

Skin - Itching, prickling, crawling, formication. Desquamation over whole body. Dryness and heat of skin. Smarting, itching, followed by perspiration. Itching, burning ulcers. Carbuncles, with continuous burning pain. Boils on neck and face. Corns. Herpes on face. Itch-like eruptions.

Sleep - Sleepless and restless, with pains after anger. Yawning and sleepiness. Sleeps badly, often wakes

tired and irritable. Dreams disturb sleep. Vivid, anxious, voluptuous dreams.

Stomach - Burning pain in stomach. **Violent cutting, tearing pains.** Feeling in stomach as if something would not yield, drawing pain. **Cramps in stomach** at night, better eructations. Sensation of fullness in epigastric region. Pain in stomach with toothache or headache. **Sharp pains before menses**, with extreme nausea and vomiting. Nausea, with greenish vomiting. Retching and bending body forward. Vomiting and diarrhea from anger, with indignation. Vomiting of food without nausea. Vomits from pain. Vomiting of bitter water.

Stool - Chronic watery diarrhea, worse in the morning. Bloody diarrhea with violent pain in bowels. **Jelly-like stools.** Stools frothy, watery, shreddy, yellow. **Dysenteric stool renewed each time by the least food or drink.** Stools sour or gelatinous. Stools with flatulence and pain. Stools, sourish, with flatulence and pain.

Teeth - Teeth feel too long. As if nerves were compressed or stretched. Neuralgic pains, on one side, recurring daily. Drawing pain. Throbbing, first in one, then in another tooth.

Temperature - Coldness of hands and soles, rest of the body warm. Chill and shivering with pains. Cold sweat at night, smelling like urine. Feeling of coldness in whole body. Internal chill with external heat. Chill proceeding from abdomen. Chill during headache. Chill with inclination to perspire. Partial coldness and partial heat of skin. Bilious fever with cardialgia, spasmodic colic, diarrheic stool.

Throat - Cramps in gullet, with empty belchings and palpitation of the heart. Throat as if constricted, with empty eructations and palpitation of heart. Dryness, rawness, roughness or scraping in throat. Sensation of constriction of larynx, better open air. Frequent tickling and irritation in larynx induces cough at night.

Urine - Urine, gelatinous, sticky, stringy. Tough mucus sediment in urine which can be drawn out into strings. Urine milky white. Urine coagulates on standing. Red hard crystals adhering to the vessels. Urine like brown beer, becoming turbid as soon as cold, depositing copious sediment.

Vertigo - Vertigo when quickly turning head. **Vertigo when turning head to the left.** Vertigo with nausea. Vertigo with slight delirium and deafness. Vertigo from stimulants.

COMMENTS - Guernsey wrote 'The strongest characteristic calling for the use of this remedy is an agonizing pain in the abdomen causing the patient to bend over double. Relief is obtained by motion, such as twisting, turning and wriggling around and the motion is kept up steadily while the pain lasts.

The pain is worse by eating or drinking the least amount. This pain may occur alone or in the dysentery, cholera, etc. The doubling over the patient is the chief characteristic."

The patient bends double or presses something hard against the abdomen, leans over chairs, the table or bedposts to get relief. The characteristic griping, forcing the patient to bend double, may be accompanied by cramps in other parts, with or without stool. If a stool occurs it gives immediate relief (Nux-v. the opposite), worse any attempt to eat or drink.

Griping, cutting, tearing and spasmodic pains in the body, burning pains, pulsations through the body, sensation as of hard stones or potatoes in the body. Pains accompanied by stiffness and retarded motion of the affected parts, especially the hip joints. Pains affecting joints are worse from motion.

Sciatica. Arthritis and gouty headaches with ophthalmia. Facial neuralgia with pains extending to eye. Neuralgic pains are better by rest.

Cramps occur in the legs, uterus and ovaries. A sensation as if clamped with iron bands is very characteristic in coxalgia and dysmenorrhea. Dragging in uterus and vagina. Suppressed lochia from indignation.

Diabetes with milky, gelatinous or colloid urine. Perspiration may smell like urine. Bitter taste in mouth, strong aversion to food. Worse raw fruits or something cold on a hot day (Bell-p., Ruta.). Worse tobacco, better coffee. Easily intoxicated by any stimulants.

Diarrhea from grief, indignation, or chagrin. Severe, painful dysentery. As if hard stones are rubbing the intestines, or hot knives stabbing the intestines. Vomiting yellow, bitter fluid. Tension of the bowels as they are forced inward right below the navel, forcing the person to bend double.

Babies with colic may have severe pain radiating from the umbilicus. According to Nash, Mag-p. comes nearest to it in colic and neuralgic disorders. Cham, is also very close, both having colic from disturbing emotions, but the Cham, child does not double up, they toss about.

The Staph, patient is likely to have black or decayed teeth and sore eyelids and there is a chronic tendency to colic. Verat. has colic better bending double, but it has also cold sweat. Dioscorea has wind colic, but is better by stretching out. The Stann. child wants to be carried with the abdomen on the mother's shoulder.

Chilly, sensitive to cold and damp, cold winds. Better heat. Affections of the left side generally. 4 p.m. aggravation (Lyc., Hell., Caust.). One prover experienced that "at 4 p.m. the colic came on, six days in succession."

RELATIONS -Antidotedby: Camph., Caust., Cham., Coff., Op., Staph. Large doses are counteracted by tepid milk, infusion of galls, Camph., and Op.**Antidotes:** Caust., Magnes. Also Coloc. is the best antidote to lead poisoning. (Royal). **Compare:** (1) Lobelia erinus - violent cork-screw-like pains in abdomen. (2) Dipodium punctatum - writhing, twisting like a dying snake. Intractable insomnia. (3) Dios., Cham., Cocc., Merc, Plum., Mag-p. (4) Merc. - dysentery with much tenesmus). (5) Bry. -nearest analog. (6) Elat.,Cucúrbita pepo. (7) Dios. - griping, tearing, cutting, spasmodic pains in body, but better stretching body and motion. (8) Caust. - joint rheumatism, follows Coloc. in colic. (9) Canth., Cham., Chel., Chin, (beer intoxicates easily), Cocc., Gamb., Lyc., Merc., Nux-v. (10) Plb. - inclination to assume strange attitudes in bed. (11) Staph. - anger with vexation, abdominal pains, neuralgia—they follow one another well. (12) From emotions. Cham., Bty., Gels., Ph-ac. Ign.

Compatible: Staph., Cham., Caust.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***COLOSTRUM

PHARMACY - colos. Colostrum. The human milk first secreted after childbirth. Solution. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Dentition. Diarrhea. Emaciation. Fever. Nausea. Vomiting.

HOMEOPATHIC - The symptoms of Colostrum are purely clinical. Its use in diarrhea was probably suggested by the purgative effect of Colos. on the infant.

Colicky pains in hypogastrium. Green, watery, yellow, watery, mucus, bilious stools. Profuse, sour-smelling, excoriating stools.

Great nervous irritability or listlessness. Fever. Pale face. Tongue coated white or yellow. Vomiting of souror bittersubstances. Loss of appetite. Emaciation. The whole body smells sour.

Abdomen - Colicky pains in the hypogastrium during stool.

Face - Pale face.

Food - Loss of appetite.

Modalities - Worse in nursing infants during dentition. **Worse during stool.**

Mouth - Tongue coated white or yellow.

Perspiration - The whole body smells sour.

Rectum - Aggravation of the diarrhea in nursing infants. Diarrhea during dentition.

Stomach - Nausea. Vomiting of sour or bitter substances.

Stools - Green, watery stools. Yellow stools.

Watery stools. Mucus stools. Bilious stools. Profuse stools. Sour-smelling stools. Excoriating stools.

REFERENCES-Clarke.

***COMOCLADIA DENTATA

(Guao)

PHARMACY - com. Comocladia dentata. Guao. N. O. Anacardiaceae. Cuba. Tincture of leaves and bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Antrum of Highmore, disorders. Breasts, disorders. Ciliary, neuralgia. Ears, disorders. Eczema. Erysipelas. Eyes, disorders. Glaucoma. Herpes, zoster. Leprosy. Neuralgia. Skin, malignant inflammations. Toothaches. Ulcers.

HOMEOPATHIC - Comocladia shows its affinity with the Rhus family by the virulence of its effects on the skin, the slightest contact, and at times even walking in the neighborhood of the growing tree, being sufficient to cause violent inflammation. Both are irritant poisons.

The trunk and branches of the tree contain a milky fluid, turning black on exposure to sunlight, discoloring the skin, linen, etc. Compare with Anacardium. The plant causes tormenting itching, swelling, redness, vesication, ulceration.

Important eye and skin symptoms. Malignant skin inflammation with enormous swelling or edema of left leg and foot. Deep ulcers with hard edges. Skin red all over. Recurrent eczema. Leprosy.

Throbbing pains, worse by heat. Sacroiliac and abdominal pain. Wandering rheumatic pains. Pain in joints and ankles.

Burning, itching of the eyes, which feel too large. Right eye very painful, feels large, protruded than left. Ciliary neuralgia. Burning itching of the nose with violent sneezing. Affections of antrum. Pain under the left breast or nipple extending to left scapula, when coughing.

Abdomen - Severe flatulent pain in abdomen preceding and during a diarrhea stool, followed by a feeling of weakness and perspiration on face and neck.

Back - On moving head, sense of fullness, rigidity and lameness of muscles of neck. Rheumatic pains and

stitches in back, stitches leave a burning.

Breasts - Sharp pain in left breast, about one

inch above nipple, leaves a burning sensation. Sloughing ulcer on right breast.

Chest - Pain from right side of chest down arm to fingers. Cough with pain under left breast, going through to left scapula.

Ears - Heat and fullness in right ear. Left ear cracked and desquamating a substance like powered starch.

Eyes - Glaucoma, sense of fullness, **eyeball feels too large**. Ciliary neuralgia with eyes feeling large and protruded, **worse right eye**. Eyes are **worse near warm stove**, feels as if pressed outward. Sees only glimmer of light with left eye. Motion of the eyes aggravates.

Face - Swollen, with projecting eyes.

Limbs - Sharp pains through right shoulder to scapula. Painful burning on arms. Crampy sensation in muscles of right upper arm. Drawing, cramping in fingers. Vesicular eruption on arms and hands. Herpes on legs.

Lungs - Spasmodic, dry cough at night. Soreness in left lung. Cannot draw a long breath on account of sharp pain at center of thorax on left side.

Male - Intense itching on lower part of penis, also on inner side of prepuce. Continued tingling, itching of scrotum during night.

Modalities - Better from open air. Better motion, scratching. Better pressure. Worse from touch. Worse warmth. Worse rest. Worse at night (Rhus-t.). Rheumatic pains are better by motion and worse by rest (Rhus-t.). Heat aggravates and open air ameliorates most of the symptoms (opposite Rhus-t.).

Mouth - Mouth dry. Tongue coated dirty yellow. Sensation as if a tooth were being drawn out of its socket. Pain in teeth better by pressure. When toothache stops, head feels large. Gums of lower jaw inflamed.

Skin - Itches, red and pimples. **Redness** all over like a scarlatina. Red stripes on skin (Euph.). Erysipelas. Pustular eczema of the trunk and limbs. Deep ulcers with hard edges. Leprosy.

Sleep - Dreamy, refreshing sleep with pleasant dreams, almost clairvoyant.

COMMENTS - Peculiar eye symptoms, including a pain in the right eye, the sensation as if it were larger and more protruded than the left. Throbbing pains as if the eyeballs are bulging or would burst. Glaucoma (Jab.). Ciliary neuralgia, eye pains. Eye symptoms are worse warm rooms, heat, even that of the sun.

Cough with pain under the left breast going through to the left scapula. Sacroiliac pain (Aesc.).

Hale quoted from Navarro about cures of ulcers "Sloughing ulcer of right breast. An indolent ulcer, in the lower third of right leg, deep, discharging bloody fetid pus. Inflammation of left leg and foot with enormous swelling and fever."

RELATIONS - Compare: (1) Rhus-t., Anae., Euphor.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CONCHIOLINUM

(Mother of Pearl)

PHARMACY - conch. Conchiolinum. Mother of pearl. Mater perlarum. Triturations. ZZistori- **cal dose:** Trituration and all potencies.

CLINICAL - Bone, disorders. Fever. Lung, disorders. Osteitis. Pyemia.

HOMEOPATHIC - Conch, has a wide range of action in disorders of bones, especially when the growing ends are affected. Calc-p. and Calc, are its nearest analogs.

Observations made on workers in mother- of-pearl factories showed that inhalation of the dust produces catarrh of the respiratory organs and, later on inflammation of the ends of bones. This begins in the diaphyses, but may spread to the epiphyses. It attacks young subjects.

First there is a more or less intense pain in the bone, comes suddenly, at first continuous, later intermittent. Soon after the appearance of the pain there is fever, thirst, loss of appetite, sleeplessness, dark-colored urine with sediment.

Then swelling occurs, developing on one or the other end of a diaphysis, never in the middle of it nor in the epiphysis. The swell-

ing has a clear, sharp margin.

Swelling is very painful to the slightest touch, at first soft, elastic and slightly fluctuating. It may become as hard as a bone. Suppuration may occur. The bones that have been affected are lower jaw, scapula, humerus, radius, ulna, tibia, fibula, tarsal and metatarsal bones.

COMMENTS - Clarke cured with Conch. 3c a delicate boy who at three different times had had pain in his left knee. The left inner condyle was swollen and tender. The cure was rapid and the general health much improved at the same time.

REFERENCES - Clarke.

***CONIUM MACULATUM

(Poison Hemlock)

PHARMACY - con. Conium maculatura. Poison hemlock. N. O. Umbelliferae. Conium. Tincture of fresh plant in flower. **Historical dose:** All potencies.

CLINICAL - Abstinence. Asthma. Arteriosclerosis. Belching. Bladder, disorders. **Breast, cancer.** Bronchitis. **Bruises. Debility. Cancer.** Cataract. **Cervicitis.** Chorea. Coughs. Cysts. Depression. Diphtheria, paralysis. Dysmenorrhea. Emaciation. Erysipelas. Eye, disorders. Galactorrhea. **Heartburn.** Herpes. Hypochondriasis. **Indurations.** Infertility. **Injuries.** Jaundice. Liver, disorders. Melancholia. Menstruation, disorders. **Multiple, sclerosis. Muscular, weakness. Nerve, disorders.** Neuritis. Numbness. Ovaries, disorders. **Paralysis.** Peritonitis. Photophobia. Pregnancy, disorders. **Prostate, cancer.** Ptosis. Scrofula. Spermatorrhea. Stomach, disorders. Testicle, disorders. Tetters. **Trembling.** Trismus. Tuberculosis. **Tumors.** Ulcers. Uterine, cancer. Vertigo. Vision, disorders. **Weakness.**

HOMEOPATHIC - An ancient remedy, rendered classical by Plato's graphic description of this poison given to the Greek philosopher Socrates to cause his death. The ascending paralysis it produces, ending in respiration failure, shows the ultimate tendency of many symptoms produced in the provings.

Con. has difficult gait, trembling, sudden loss of strength while walking, painful stiffness of legs, urinary troubles, weakened memory,

sexual debility, etc. Affects the nerves and muscles, causing incoordination and paralysis, uncertain gait, difficult speech. **Patient becomes gradually weak.** Irregular, action, and development of symptoms.

Progressive debility. Great debility in the morning in bed. General feeling as if bruised by blows. **Weakness of body and mind. Trembling** of all the limbs, with palpitations. Suddenly sick and weak with numbness. Paroxysms of hysteria and hypochondriasis from sexual abstinence or sexual excess. Hysterical convulsions. Faints at stool.

Glands, especially breasts and ovaries, are affected with engorgement and **stony indurations.** Alters glandular structure to scrofulous and cancerous conditions. Sensation as of a lump in brain, in epigastrium. Tearing, stabbing pains. New growths. Cancerous diathesis.

Ascending symptoms, paralysis after diphtheria. Arteriosclerosis. Decay of sternum. Insomnia of multiple neuritis. Easily intoxicated (Zinc.). Sensation as of a hoop or band or something tight around the part. Desire for warmth, especially that of sun. Great liability to take cold. Night and morning sweat with offensive odor and smarting in skin or offensive odor without sweat.

Often found in old age, a time of debility, weakness, languor, local congestions and sluggishness. Useful in old age or for those persons who become old early. Troubles at the change of life, old maids, bachelors. For youths who suffer from ill effects of masturbation. Tumor growth invites it. Tonic after influenza.

MIND - Slow, impaired comprehension. Difficulty in understanding what is read. Difficulty concentrating. Cannot think after using eyes. Poor memory, symptoms similar to Alzheimer's disease. Numb sensation. Inability to sustain mental effort, tired sensation in brain, imbecility. Senility, weakness.

Timid. Indifferent. **Depression.** Grief, especially from loss of personal property (Aur.). Grief after death of a loved one, after a prolonged illness. Consolation aggravates (Nat-m.). Sad, dissatisfied with herself and surroundings. As if great guilt weighed upon him.

Excitement causes mental depression. Feel as if they were to cry and swallow and choke as from a lump in the throat. Tired of life. Discouraged. Broken down feeling. Trifles seem important. Cares very little for things. No inclination for business or study. Makes useless purchases, wastes or ruins them. Sensation of unreality, as if in a dream.

Insanity, periodical or alternating. Superstitious. Worse when idle. Averse to society, yet fears being alone, especially during menses. Ill effects of **repressed sexual desire.**

While walking on the road wants to grab and abuse somebody. Likes to wear his best clothes. Thinks that animals are jumping on his bed.

Abdomen - Abdomen hard and distended. Distention, worse after taking milk. Cutting pain before passing flatus. Trembling of whole abdomen. Tremulous weakness, palpitation of heart after every stool. Hypogastric pain goes down legs. Sensitive, bruised, swollen, knife-like pains. Painful tightness.

Back - Spinal injuries. Ill effects of bruises and shocks to spine. Coccydynia. Dull aching in lumbar and sacral region. Pain between shoulders. Drawing pain in the lumbar vertebrae worse standing. Coccyx pain. Neck cold. Enlargement of neck. Pediculated tumor at the center of back. Small, flat wart like growths on buttocks.

Breasts - **Breasts enlarge and become painful** before and during menses (Calc., Lac-c.), worse at every step. Wants to press breast hard with hand. **Breast cancer with hard tumor. Tumors after injury.** Breasts

lax and shrunken with or without sexual desire. **Hard tumors** in breasts with stitches or piercing pain. **Stitches in breasts and in nipples**, on taking deep breath or walking. Too much milk before menses.

Causations - The effects of blows, contusions or falls. Effects of bruises and shocks to spine. Over straining, over work, over study. Grief. Sexual excess, sexual abstinence.

Chest - Sharp pain from sternum to spine. Decay of the sternum. Tightness of chest better by coughing. The clothes lie like a weight on chest and shoulders.

Constitutions - Corresponds to elderly persons, old, feeble men, old maids and bachelors. Persons of strong, sedentary habit more than to lively. Persons who are easily intoxicated with stimulants (Zinc.). Slender persons and children. Scrofulous constitutions, cancers and glandular enlargements. Cancerous diathesis.

Ears - Accumulation of ear wax like paper pulp or blood. Red, hard wax, causing hardness of hearing. Ears feel stopped on blowing nose. Oversensitive to noise. Parotid gland swollen and hard.

Eyes - Paralysis of ocular muscles (Caust.). Feel crossed. Lids, heavy, droop worse outside. Ptosis of eyelids. Conjunctivitis and keratitis. **Photophobia and excessive lachrymation** without inflammation or from slightest abrasion or ulceration of the eye. Burning in eyes. Sweats on closing eyes. Corneal pustules. Cataract after eye injury. Diplopia. Myopia. Dim-sighted, worse artificial light. Vision colored, red. As if fringe falling over eyes. Black spots before eyes with vertigo. Vision becomes more blurred when vexed.

Face - Moist and spreading herpes on face. Cancer of the lip from pressure of pipe. Sub-maxillary glands are swollen and hard.

Female - Menses, irregular, too late, scanty. Dysmenorrhea with drawing down thighs. Rash before menses. Small, red, burning pimples appear with scanty menses and disappear after menses. Itching around pudenda or deep in vagina. Leucorrhea, white, acrid, preceded by griping in abdomen *after urination*. **Cervicitis, Induration of os and cervix**. Ovaritis. Ovary enlarged, indurated. Cutting pain in ovaries and uterus. Prolapse of uterus from straining at a hard stool. Ill effects of **repressed sexual desire** or suppressed menses or from excessive indulgence. Motion of child painful during pregnancy.

Food - Craving for salt, coffee and sour things. Aversion to bread. Amelioration from eating and aggravation a few hours after meals.

Head - Stupefying headache, with nausea and vomiting of mucus with a feeling as of foreign body under the skull. Temples compressed, worse after meals. Sensation as of a lump in right half of brain. Sick headaches with inability to urinate. Pain in head from sinciput to occiput, better stooping and moving the head. Bruised, semi-lateral pains. Dull occipital pain on rising in morning. Sensation of fullness, bursting in brain during headache. One side numb and cold. Hot spots on head.

Heart - Palpitations, worse exertion, drinking, at stools, etc. Pulse unequal, irregular.

Kidneys - Difficulty in passing urine in the beginning even when standing, then it flows freely. Interrupted urination, **urine stops and starts**, better standing. Dribbling in old men (Cop.). Urine feels very hot. Interrupted discharge (Clem.). Cutting and burning after urination.

Limbs - Shoulders feel bruised, clothes lie like a weight on them. Axillary glands enlarged. **Axillary glands pain with numb feeling down arm**. Hands, weary, heavy, trembling, unsteady. **Perspiration of hands**. Nails yellow. Fingers and toes numb. Heels, as if bone would push through them. Shooting in heels. **Putting feet on chair relieves pain**. Cracking in knee joint. **Muscular weakness**, especially of lower limbs. Can walk straight and steadily with eyes closed, but staggers, becomes giddy, is nauseated when walking with open eyes.

Liver - Severe aching in and around the liver. Chronic jaundice and pain in right hypochondrium.

Lungs - Shortness of breath on taking the least exercise, oppressed breathing, constriction of chest, pains in chest. Constant tormenting cough from dry spot in the larynx or tickling in chest and throat pit, worse when lying down, laughing, talking and during pregnancy, has to sit up. Cough seems to come from abdomen. Cough on

taking deep breath. Loose coughs without expectoration, has to swallow what he coughs up.

Male - Ill effects of **suppressed sexual desires**. Desire increased, power decreased. Sexual desire without erection. Sexual nervousness with feeble erection. Erections imperfect and of too short duration. **Impotence**. Seminal discharge, provoked by mere presence of a woman or contact. Cutting in urethra while semen passes. Sexual nervousness, dejection after sex. **Prostatitis**. Dribbling of prostatic fluid, worse stools, emotions, etc. **Prostate cancer**. Testicles hard and enlarged. Itching in prepuce.

Modalities - Better while fasting. Better from letting limbs hang down. Better walking bent. Better sitting down. Better stooping. Better walking. Better motion. Better pressure. Better sun. Better dark. **Worse from seeing moving objects**. Worse sexual abuse or excess. **Worse from celibacy**. Worse before and during menses. Worse old age. **Worse alcohol**. Worse pressure of tight clothing. Worse raising arms. Worse standing. Worse lying down with head low. **Worse turning in bed**. Worse jar. Worse after exertion. Worse bodily or mental

injury. Worse at night. Worse cold, taking cold. Worse snowy air. Worse spring. Worse dry, hot air.

Mouth - Toothache, worse cold food, but not cold drinks. Tongue cancer. Sour saliva. Soreness about the root of tongue. Distortion of tongue and mouth. Speech difficult from paralysis of tongue.

Nose - Polyps. Bleeds easily, becomes sore. Picks nose constantly. Frequent sneezing. Obstinate obstruction of nose. Acute smell.

Rectum - Ineffective urging to stool. Involuntary stools while sleeping. Constipation on alternate days. Burning or coldness in rectum during stool. Cold flatus, stool. **Tremulous weakness after every stool** (Verat., Ars., Arg-n.).

Sensations - Sensation as if a hoop, band or something tight was around the parts. Deficiency of irritability of the body, the body has very little sensation. Darting from within outwards, tension in inner parts, also in outer parts, pricking in the bones.

Skin - Greenish, like an old bruise. Yellow skin with papular eruption, yellow fingernails. Red spots turning yellow or green. **Glands enlarged and indurated**, also mesenteric. Flying stitches through the glands. Tumors, piercing pains, worse at night. Induration after contusions. Foul, eczematous eruptions. Chronic ulcers with fetid discharge. Gangrenous ulcers. Urticaria from violent bodily exertion. Anesthesia or inactivity of the skin. Night and morning sweat with offensive odor and smarting in skin.

Sleep - **Sweat as soon as one sleeps**, even when closing eyes. Drowsiness by day. Sleeps after midnight. Inclination to sleep in the evening, with falling down of the eyelids. Disturbed and unrefreshing sleep. Starting of the limbs during sleep. Anxious and frightful dreams, of disease, mutilation, death, danger, and quarrels. Nightmares.

Stomach - **Attacks of sick feeling**. Painful spasms of the stomach. Distention of stomach after taking milk. Better from eating, aggravation a few hours after meals. **Acrid heartburn** and acid belchings, **worse on going to bed**. Acidity and burning, painful spot the level of the sternum. Cancerous ulcers. Terrible nausea. Vomiting of coffee grounds, chocolate colored lumps or clear sour water. Nausea and vomiting during pregnancy. Heartburn in pregnant women where an excessive heartburn comes on, when going to bed at night.

Temperature - Coldness of nape, of calf, etc. Hot flushes or sweat, on dropping to sleep or when closing the eyes. Sweat, under the eyes, on chin, cold on nape and palms offensive causing smarting of skin.

Throat - As if a round body were ascending from stomach (globus). Food goes down the wrong way and stops. Paresis of esophagus. Constant inclination to swallow as from a lump in the throat worse walking in open air. Tonsils enlarged.

Vertigo - **Vertigo, when lying down and when turning over in bed**, when turning **headsidewise** or turning eyes, worse shaking head, slight noise or conversation of others, especially towards the left.

COMMENTS - Hahnemann noted that it is exceedingly difficult to distinguish between the primary and secondary effects of Con. He thought that the primary action is one of "rigidity, condensation and constriction of the tissues with swelling of the glands and diminution of the senses."

Teste concurred, adding that the action is primarily inflammatory and that this accounts for its suitability for "persons of a lively, quick, sanguine disposition with a marked development of the glandular system." It is characteristically adapted to painful glandular affections, "principally such as result from a strain or blow, but the precise cause of which may have escaped our recollection."

Teste placed Con. at the head of the analogs of Aeon. Con. is to the glands and capillary system what Aeon, is to the heart and arterial system. In many cases Con. may be regarded as the "Aconite of chronic diseases." The other Aeon, analogs, according to him, are Cham., Seneg., Canth. and Ph-ac.

Scirrhus tumors, ulcerating and otherwise. Chronic or sub-acute inflammation with bloody engorgement of the parenchyma, induration, and even subsequent ulceration of the tissues.

Induration and inflammations of the breast and nipples. Useful for treating indurated, precancerous tissues. Breast cancer with a history of trauma to the breast. Hard lumps in breast, induration, can be painless. Breast can shrivel, atrophy (lod.). Effects of hurts to the breast by falls or blows.

Pains in breast before menses, worse by every step. Scanty menses, especially in old maids. Checked lochia. Indurated cervix, cervical cancer. Prostate and testicular cancer.

Sexual conditions including hypertrophy or atrophy of glands, excess of function or abrogation. Unsatisfied sexual desire, ailments from suppressed sex drive. Hysteria and hypochondriasis from abstinence from sexual intercourse.

Pronounced constipation or diarrhea. Weakness, tremulousness and palpitation after every evacuation. Faintness after stool. Burning or coldness in the rectum. Flatulent tendency (Ammc., Asaf.). Pancreatic cancer (Calc-ar., Phos.).

Photophobia, ptosis. Red vision. Sweat on closing the eyes. Eye symptoms are worse night and early morning.

Accumulation of earwax. Hot spots on the head. Erysipelas, pain piercing to brain.

Numbness and deadness of limbs. Stabbing pains. Weak-spells, faintness, sudden loss of strength while walking. Ascending paralysis. Multiple sclerosis.

Vertigo, particularly in the elderly, worse on turning in bed or sudden turns from side to side. Symptoms worse when idle.

Grimmer noted its usefulness in breast cancer after bruises or injuries. Sterck used Con. and made some notable cures of scirrhus tumors, ulcerating and otherwise.

A. H. Birdsall reported a case of contusion of the testicle. He found the patient writhing in agony, the pain complained of being "sharp, cutting, running up spermatic cord to lower part of back and also through scrotum to root of penis." Con. 200c relieved in five minutes and at the end of twenty minutes the pain was gone.

Clarke used the remedy with success in many cases of weakness from masturbation in men and youths. "Emission on the slightest stimulus, such as merely being in the society of a woman."

Goodno cured a girl of 25 of severe dysmenorrhea with scanty, almost arrested flow, which had existed since the periods commenced. She also had nosebleed, cough and stitches through the left lung at times. Two years previously, after unusual excitement, she had bearing-down pains, prolapse and ante-version.

The dysmenorrhea pains were relieved by Sepia and other remedies, but the prolapse increased with bearing-down as though the womb would be forced from the vulva, worse standing and walking, before and during menses. Intermittent flow of urine. Cutting pain after urination.

Obstinate constipation of long standing. Stool (once in seven days) large, hard, followed by tremulous weakness, she must lie down. Dull pain below left breast. Prompt relief and speedy cure were effected by Con. 1,000c.

Proell mentioned excellent results with Con. 10c in strangury and ischuria, when the urine cannot be discharged from nervousness or swelling of the prostate (Nat-s. 5c trituration was effective where the bladder could not be entirely emptied.).

Sircar recorded a striking case of a patient who had severe diarrhea, for which he was about to give Sulph., when he asked if the stools were hot. "On the contrary, they are cold," replied the patient. Sircar found "cold flatulence" under Con. and gave it on analogy with brilliant effect.

Guernsey wrote "This remedy is characterized by a great dizziness, brought on when lying down and moving the head ever so slightly or even the eyes—all the contents of the room appear to whirl around, patient wishes to keep the head perfectly still. In urinating the water flows at first in a full stream, then stops, flows again, again stops."

Nash thought "turning the head sideways" is the most characteristic form of the modality "worse by moving the head." Some give it as "lying down in bed and turning over," but he regards the "lying down" as the least important part. Nash cured a patient who had all the symptoms of locomotor ataxia and who could not, when walking, turn the head the least bit sideways without staggering or falling.

A case of lumbago was cured with Con. in six days after seven months' suffering. Symptoms include an inability to turn over in bed without being dizzy, worse ascending, by exercise. Feeling of ball pressing into back over left hip. Pain shooting down left leg, ending in a spot that felt as though pricked by a bunch of hot needles. Yellow nails.

Nash mentioned the characteristic "Sweats day or night, as soon as one sleeps or even on closing the eyes." This enabled Lippe to cure a man of 80 of hemiplegia.

R. C. Markham cured with Con. 1,000c. an obstinate cough, dry, hard, frequent with

Conium maculatum asthmatic wheezing or fine rattling in chest on deep breathing, worse slightest exposure to cold air, getting into cold bed or out of a warm one or even putting arms out was sufficient to bring on severe coughing.

The guiding symptom which appeared last and led to the remedy was a pain in the apex of the left lung with soreness in a small spot midway between neck and shoulder just back of the clavicle. The pain, cutting and stitch-like, ran downward and inward toward the sternum.

RELATIONS - Compare: (1) Bar-c., Hydr., Iod., Kali-p., Hyos., Cur. (2) Scirr. a cancer nosode - cancerous diathesis, enlarged glands, cancer of breast, worms.

REFERENCES - Boericke. Clarke. Grimmer. Phatak.

***CONVALLARIA MAJALIS

(Lily of the Valley)

PHARMACY - conv. *Convallaria majalis*. Lily of the Valley. N. O. Liliaceae. Convallariaceae. **Historical dose:** Tincture and all potencies.

CLINICAL - **Anasarca.** Angina pectoris. Aneurysm. Diarrhea. **Dyspnea.** Endocarditis. **Heart, disorders.**

Herpes. Morning, sickness. Orthopnea. Pruritus, vulvae. Tobacco, heart. Venous, stasis. Vomiting.

HERBAL - Convallaria is a popular remedy in Russia for heart disorders and it has been introduced into old-school medicine principally as a heart remedy. It compares closely in its action with Lil-t.

Conv. also resembles its other botanical relatives, Aloe., All-c. and All-s. It is strongly purgative and causes morning vomiting. The symptoms from its proving show that its nearest analog is Lilium tigrinum.

HOMEOPATHIC - Increases energy of heart's action, renders it more regular. It is of use when the ventricles are over distended and dilatation begins, and when there is an absence of compensatory hypertrophy and venous stasis is marked.

Dyspnea, dropsy, aneurysm tendency. **Anasarca**. Sensation as if heart ceased beating, then starting very suddenly. Tobacco heart. Soreness of uterine region with palpitation of heart. Movement in abdomen as from a fist of a child.

MIND - Dull intellect, can hardly think. Mind wanders from subject when reading. Irritable, when asked a question. Depression. Grieves easily. Hysterical manifestations.

Abdomen - Sensitive. Colicky pains. Gurgling and pain on taking deep breath. Clothes feel too tight. Movement in abdomen like fist of a child.

Back - Pain and aching in lumbar region.

Face - Hydroa in nose and lips, raw and sore. Nosebleed. Sees imaginary gray spot about three inches square.

Female - **Great soreness in uterine region with sympathetic palpitations of heart.** Pain in sacro-iliac joints, running down leg. Itching of urinary meatus and vaginal orifice.

Head - Dull headache, worse ascending, hawking. Scalp sensitive.

Heart - Heart disorders. Extremely rapid and irregular pulse. Feeling as if heartbeat throughout the chest.

Sensation as if heart ceased beating, then starting very suddenly. Palpitation from the least exertion. Endocarditis with orthopnea. Angina pectoris. Tobacco heart, especially when due to cigarettes.

Kidneys - Aching in bladder, feels distended. Frequent, offensive urination, scanty urine. Dropsy, anuric tendency.

Limbs - Aching of legs and big toe. Trembling of hands. Aching in wrists and ankles.

Lungs - Pulmonary congestion. Orthopnea. **Dyspnea** while walking. Hot feeling in throat.

Modalities - Better in open air. Worse from lying on back. Worse in warm room (All-c.).

Mouth - Grating of teeth in the morning. Coppery taste. Tongue feels sore and scalded, broad and thick with heavy, dirty coating.

Temperature - Chilly in back and down spine, followed by fever, little sweat. Thirst and headache during chill. Dyspnea during fever.

Throat - Raw feeling in back of throat when inspiring.

COMMENTS - Nash used it in the 30c with very satisfactory results in women complaining of great soreness in uterine region with sympathetic palpitation of the heart. He also removed cardiac dropsy when this uterine soreness was present.

Berridge credited it with this symptom: "Movement in the abdomen as from the fist of a child," like Sulph., Thuja., and Croc. In the case of Conv., the symptom occurs when lying on the back. Sleepiness accompanies many symptoms.

RELATIONS - **Compare:** (1) Dig., Crat., Lil-t. (2) Adonis - feeble heart action due only to functional disturbance.

REFERENCES - Boericke. Clarke. Phatak.

***CONVOLVULUS ARVENSIS

(Bind-weed)

PHARMACY - convo-a. Convolvulus arvensis. Bind-weed. N. O. Convolvulaceae. Tincture of whole flowering plant. Tincture of root. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - Very few experiments have been made with this plant, and in those the resinoid of the root and pure Convolvulin were used.

The few symptoms recorded are all in the gastro-intestinal sphere. Eructation after eating. Colic and diarrhea, liquid stool. Stools are soft, semi-fluid evacuation, preceded by flatulence and violent colic. Stools with pain.

REFERENCES - Boericke. Clarke.

***CONVOLVULUS DUARTINUS

(Morning Glory)

PHARMACY - convo-d. Convolvulus duar- tinus. Morning glory. Ipomoea bona. N. O. Convolvulaceae. Tincture of flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Constipation. Eye, inflammation. Headaches. Numbness. Rheumatism. Vertigo.

HOMEOPATHIC - Convo-d.was proved under Mure. Recorded symptoms include reveries in the daytime, dreams of dead persons, and ni.mbness in limbs. Symptoms are worse in

Convolvulus duartinus

morning and better after cold bath.

MIND - Moral weakness. Reveries in the daytime.

Abdomen - Pain in abdomen with internal heat. Violent colic with drawings.

Eyes - Inflammation of the left eye.

Head - Burning in frontal region, ceasing after a cold bath. Pain in frontal region with heat at root of nose. Pain in left temple (corresponding to inflamed left eye).

Kidneys - Red urine. Yellow sediment in urine.

Limbs - Numbness of arms, worse when hanging down. Pains in left shoulder in left wrist. Numbness of right index and middle fingers. Sharp pain in right knee. Pain fore part of left leg for four days. Deep-seated pain in calves.

Sleep - Drowsiness in daytime. Dreams about quarreling, about dead persons, falling out of his front teeth, of flying along a lighted street, appearance of a ghost. Wakes with a start.

Stool - Constipation.

Throat - Heat and dryness at anterior and upper part of esophagus.

Teeth - Toothache. Swelling of gums. Tongue feels swollen.

Vertigo - Vertigo with faintness.

REFERENCES - Clarke.

*****COPAIVA**

(Balsam of Copaiva)

PHARMACY-cop. Copaiva.Balsamofcopaiva. Balsamumcopaivae. Copaiferaofficinalis. Copaifera reticulata. N. O. Leguminosae. Caesalpinioideae. Tincture of the balsam. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Anus, itching. **Bladder, catarrh.** Blenorrhagia. **Bronchitis.** Catarrh. **Colitis.** Coughs. Cystitis. Dysentery. Dysuria. Fistula. Gastritis. Gonorrhea. Headaches. Hemorrhoids. **Hives.** Measles. Nosebleeds. Prostatitis. Pruritus. Roseola. Urethritis. Urticaria. Vulva, inflammation.

HERBAL - Copaiva is an old world remedy for gonorrhea and it has been used for other blennorrhagic conditions. It has been proved

Copaiva and observations have also been made on patients who have overdosed with the remedy.

A. P. Bowie verified the indication "In old persons, (men) who from cold or other causes cannot urinate or where there is frequent desire and only a few drops pass with much straining. Frequently with a mucus discharge from the bowels with much rumbling and rolling in the bowels."

Bowie gave 5-drop doses of the first dilution. He also recommended an ointment of 10 drops of the balsam in vaseline, "to relieve the burning and itching at the anus caused by hemorrhoids."

HOMEOPATHIC - The chief action is on the genito-urinary organs and rectum. Irritation accompanying thickening of bladder. Burning at neck of bladder and in urethra, discharge milky, corrosive, meatus tumid and inflamed.

Affects the mucus membranes of the respiratory organs and the skin, producing a well-marked nettle-rash.

Chronic bronchitis, with profuse, greenish-gray, disgusting-smelling sputa. Colds and catarrhs. Excessive discharge. Foul, **blenor- rhea,** bronchorrhea, suppuration.

MIND - Weeps on hearing a piano.

Bladder - Catarrh of bladder. Dysuria. Retention with pain in bladder, anus and rectum. Burning pressure, painful urination by drops. Constant desire to urinate. Urine acrid, scanty, bloody, odor of violets. Greenish, turbid color, peculiar pungent odor. Swelling of orifice. Urethra feels wide open. Suppuration, ascends urinary tract. Purulent or acrid milky gonorrhea.

Constitutions - Suited to the irritable bladder of elderly women.

Ears - Excessive sensitiveness to sharp sounds.

Face - Acne, disfiguring the face. Face red, flushed.

Female - Itching of vulva and anus with bloody purulent discharge. Profuse, strong-smelling menstrual discharge with pains radiating to hip bones, with nausea.

Food - Tastes too salty.

Head - Flushes of blood to the head and face. Scalp sensitive. Excessive sensitive-ness, pain in occiput. Occipital headache, better gentle hand pressure. Dull, frontal headache, passes to occiput and back again with throbbing. Worse right side and motion.

Lungs - Bronchial catarrh with profuse, greenish, offensive discharge. Bronchiectasis. Tickling in larynx, trachea and bronchials. Painful cough with heat and oppression of chest. Burning in lungs. Cough with profuse, gray, purulent, greenish, offensive sputum. Foul bloody expectoration.

Male - Prostatitis. Testicles sensitive and swollen. Blenorrhagia. Pulsations in penis.

Modalities - Worse from morning. Worse taking cold.

Mouth - Teeth cold.

Nose - Rawness and soreness of nostrils with stopped-up feeling, dryness of posterior sinuses. **Burning and dryness**, crusts on turbinated bones. Profuse, thick, fetid discharge from nasal passages, running down throat at night. Marked catarrhal condition in upper respiratory tract. Nosebleed, lasting several days in small boys.

Rectum - **Mucus colitis**. Stools covered with mucus with colic and chilliness. Burning and itching of anus, caused by hemorrhoids.

Skin - **Hives** with fever and constipation. Roseola. Erysipelatous inflammation, around the abdomen. Bullous eruptions. Circumscribed, lenticular patches with itching, mottled appearance. Chronic urticaria in children.

Stomach - Food seems too salty. Gastric troubles during menstruation or following urticaria. Gas and intestinal flatulence, urging to stool and difficult passage with pain.

Throat - Chronic catarrh of the throat.

RELATIONS - **Antidote:** Bell., Merc. **Compare:** (1) Santalum - aching in kidneys. (2) Cann-i., Canth., Barosma, Cub., Apis, Vespa, Erig., Senecio, Sepia.

REFERENCES - Boericke. Clarke. Phatak.

***CORALLIUM RUBRUM

(Red Coral)

PHARMACY - cor-r. Corallium rubrum. Red coral. Gorgonio nobilis. N. O. Gorgoniaceae. Trituration.

Historical dose: Trituration and all potencies.

CLINICAL - Asthma. Catarrh. Chancre. Constipation. Colds. Coryza. **Coughs**. Eruptions. Glands, inflamed. Headaches. Hoarseness. Hysteria. Measles. Nosebleed. **Post-nasal, catarrh**. Psoriasis. Purpura. Sore, throat. Syphilis. **Whooping cough**.

HOMEOPATHIC - Red coral, the product of a coralligene zoophyte, contains calcium carbonate and iron oxide (the origin of its color), gelatin and other elements. In medical alchemy, red coral was considered to have "**strengthening tonic properties**," and to be astringent, sudorific, diuretic and absorbent.

Cor-r. affects the mucus membranes, especially of respiratory organs. The provings of coral develop much coryza, nosebleed and even ulceration within the nostrils.

Eruptions, which are for the most part of its own color, coral-red. Red spots on the palms of the hands, at first coral, then darker, and finally coppery. Coral-red chancres.

Whooping and spasmodic coughs, especially when the attack comes on with a **very rapid coughs** and the attacks follow so closely as to almost run into each other. **Violent coughing attacks**. Coughs often preceded by sensation of smothering, followed by exhaustion. **Coughs with expectoration of blood**. Congestion of face, purple colored face, after dinner.

Ulcerations in the respiratory organs with a stringy discharge. Feeling as if cold air were streaming through skull and air-passages. Too cold when uncovered and too hot when covered, better by artificial heat.

MIND - Peevish, inclined to scold and swear at his pains. Irrascibility and ill-humor. Wine has a natural taste, but immediately stupefies him.

Delusion, feels as if newly born in the world and overwhelmed with wonder at the novelty of his surroundings. Stupefaction after wine. Confusion after beer. Confusion from spirituous liquors. Fear of suffering.

Back - Stiffness in nape of neck. Pain as if the small of the back were broken. Pressing pain in scapulae during cough. Neck stiff.

Chest - Sensation as if cold air were streaming through air-passages in morning on deep inspiration, with provocation to cough. Difficult hawking of bronchial mucus. Pain in sternum during cough.

Cough - **Dry, spasmodic, suffocative cough**. Very rapid cough. Short, barking cough. Nervous cough. **Reverberating machine-gun like cough**. Continuous hysterical cough. Violent spasmodic cough. Coughs begins with gasping for breath. **Almost continuous paroxysms of violent spasmodic cough**. Cough as soon as he eats. Coughs with a purple face, followed by vomiting of stringy mucus and exhaustion. Cough with bleeding from mouth and nose. **Cough followed by vomiting of stringy mucus and by exhaustion**.

Isolated cough at regular intervals throughout the day. Feels suffocated and greatly exhausted after whooping cough. Whooping cough when attacks comes on with a very rapid cough, and attacks follow so closely as to almost run into each other. Coughs and coughs until patient falls back as limber as a rag.

Eyes - Hot and painful eyes, bathed in tears on closing. Sensation of compression in the orbit. Pain, as from

excoriation in the eyes. Eye pain, violently worse during every motion. Sensation of burning in the eyes. Burning of eyes from candlelight. Pressure as from sand in reddened eyes - in evening. Enlarged pupils in whooping cough. Extremely sensitive drawing pain in left orbit.

Face - Grows purple and black with coughing. Heat in the face, worse on bending head forward, by stooping. Pain, as from *dislocation in the maxillary joint*. Left zygoma painful, as if bruised, worse touch. Left articulation of lower jaw as if sprained, when moving jaw. Painful swelling of left submaxillary gland worse swallowing or bending head forward.

Food - No appetite. **Violent thirst**. Insipidity of food. Food tastes like sawdust. Bread, farinaceous foods tastes like straw. Sweetish taste of beer. **Craves salty foods and acids**. Intoxication after drinking very little wine.

Head - Hot cheeks and forehead with cold feet, after dinner. Confusion in the head, feels empty, hollow, very large. **Congestion of blood to head on stooping**. Violent pain as if parietal bones were forced apart, worse stooping. Headache with severe pain in back of the eyeballs, worse inhaling cold air. **Pressing pain in forehead**. Pain aggravated by breathing cold air through nose. Head feels large, empty, hollow. As if cold air were blowing through, when head is moved quietly or shaken. As if forehead were flattened. Meningeal inflammation threatening in yellow fever.

Heart - Pulse full and hard. Quick pulse; in whooping cough.

Kidneys - Loam or clay-colored urine, with similar sediment. Burning urine.

Limbs - Great lassitude in all limbs after a short walk in evening. Smooth spots of a deep-red color. Pressive pain in the shoulder blades, aggravated by coughing. Pain in the wrists, as if he had been writing much and rapidly. Pain in the knees, tibia and tarsal joint, as if he had walked a great deal. Red, itching, miliary eruption rough, feeling like a grater to the touch, on both elbows.

Lungs - Crowing during inspiration. Asthma. Smothering sensation before paroxysms of cough. **Air passages feel cold on deep inspiration** (Cist.). Hawking of profuse mucus. Difficult, oppressed breathing. **Profuse secretion of mucus dropping through posterior sinuses**. Feels suffocated and greatly exhausted after whooping cough. Cold expectoration.

Male - Balanitis. Ulcers on glans and inner prepuce with yellow ichor. Very red flat ulcers, on glans and under surface of prepuce. **Ulcers very sensitive to touch**. Emissions and weakened sexual power. Swelling of prepuce. Margin of prepuce feels sore when linen touches it. **Frenum painful, as if pricked by needles**. Profuse

sweat on genitals. **Involuntary seminal emissions during sleep**.

Modalities - Better - covering. Worse from inhaling air. Worse open air. Worse changing from a warm to cold room. Worse eating. Worse towards morning. Worse stooping. Worse after dinner. Worse touch. Worse uncovering.

Mouth - Food tastes like sawdust. Bread tastes like straw. Beer tastes sweet. Pain in articulation of left lower jaw. **White coated tongue in whooping cough**. Lips cracked and painful. Lips chapped, painful and swollen.

Nose - Great dryness of mucus membrane of nose and throat. Nosebleed at night. Bleeding from one nostril at a time. Bleeding of the nose from one nostril at a time. Nose stopped up and ulcerated. **Post-nasal catarrh**. Fluent coryza. **Profuse secretion of mucus dropping through posterior sinuses**. Violent fluent catarrh of odorless mucus. Dry coryza, nose stopped up and ulcerated. Smells odors of smoke, onions, etc. Inspired air feels cold (Cist.). Painful ulcer in nostrils.

Perspiration - Profuse sweat on genitals. **Rectum - Constipation, followed by copious papaceous stool**. Profuse discharge of mucus from anus at night.

Skin - Psoriasis of palms and soles. Coral-colored, then dark red spots, changing to copper-colored spots. Red, flat ulcers. Psoriasis smooth, copper-colored spots.

Sleep - Yawning, violent, frequent and in rapid succession. Great sleepiness, falls asleep while standing. Sleeps with head under covers. If he uncovers himself, he feels too cold, and when covered, feels too hot. Can't sleep before midnight, tosses about. Starts as soon as she falls asleep, from a frightened dream.

Stomach - Nausea, with dryness of the tongue and violent headache, worse when sitting up. Vomiting of quantities of tough, ropy, stringy mucus. Vomiting with loose cough.

Teeth - Every tooth on the left side **feels as if set on edge**. As if the teeth were too close to one another or as if a tenacious body were lodged between them.

Temperature - Chill, but skin of usual warmth. Chill with headache and violent thirst. Chill better by external heat. Febrile shivering, with burning thirst. Dry heat internally and externally, with full and hard pulse. Dry heat without thirst, and not followed by perspiration. Hot parts feel cold when uncovered.

Throat - Great dryness of fauces. Throat very sensitive, **especially to cold air**, causes coughing. Great dryness of the palate, fauces and throat. Constant hawking, from the accumulation of mucus in the posterior sinuses. Sensation of excoriation on swallowing. Laryngismus stridulus resembling whooping cough. Hawking

of profuse mucus. Left submaxillary glands swollen and painful, worse swallowing or bending head forward.

COMMENTS - Cor-r. corresponds to a combination of syphilis and psora. Cough like whooping cough. Cough in machine-gun paroxysms. Crowing inspiration, sensation as if inspired air was icy cold. May cough up blood. Useful for chronic bronchitis. Smothering sensation before cough, after, great exhaustion. Change of air causes coughing.

Sensation of emptiness or hollowness in the head. Head feels very large. Sensation as if forehead were flattened. Feels cold when uncovered and too hot when covered. Very sensitive to cold air and drafts. Much drowsiness, many symptoms appear during sleep.

J. N. Lowe cured with Cor-r. an infant, a year old, suffering from laryngismus stridulus, the indications being worse during sleep and after waking. Lach., given first, failed to relieve.

Guernsey's indication is "Whooping cough or any other kind of cough when the attack comes on with a very rapid cough and the attacks follow so closely as to almost run into each other." Found most effective in the nervous "machine-gun" cough where the patient gives an isolated cough at regular intervals through the day. Nash found it the most useful of all remedies in post-nasal catarrh. Guernsey's other indication is "red. flat ulcers on the glans and

inner surface of the prepuce with secretion of a quantity of yellow ichor."

RELATIONS - Compare: (1) Bell., Dros., Meph., Caust. **Complementary:** Sulph.

***CORALLORHIZA

(Crawley Root)

PHARMACY - corh. Corallorhiza odontorhiza. Crawley root. N. O. Orchidaceae. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - Intensely nervous and restless, burning of palms and soles, no thirst, chill or perspiration. Can bear only slightest covering. Hectic fever, coming on 9 a.m. to 10 a.m., and lasting until midnight.

REFERENCES - Boericke.

***CORDYCEPS

(Caterpillar Fungus)

PHARMACY - cordy. Cordyceps. Caterpillar fungus. Cordyceps ophioglossoides. Deer fungus. Club-head fungus. A Tibetan mushroom. **Historical dose:** Tincture and all potencies.

CLINICAL - Altitude sickness. Alzheimer's disease. Anemia. Asthma. Bronchitis. **Chronic, fatigue.** Drug, withdrawal Dyspnea. Emaciation. Emphysema. Exhaustion. Hepatitis. Impotence. Lung, cancer. Lymphoma. Mental, weakness. Metrorrhagia. **Mountain, sickness.** Nerve, weakness. Senility. Sexual, weakness. **Shortness of breath.** Tuberculosis.

HERBAL - Cordyceps is used for a wide range of conditions including fatigue, sexual dysfunction, coughs. It is an adaptogen or immune stimulant. Over a thousand years ago, Tibetan herdsman in the Himalayas observed their yaks became vitalized after eating this fungus. Cordyceps is an energy and stamina booster. Cordyceps is a renown star of the Chinese tonic herbal system, and is an extremely effective and powerful health enhancing agent, equal to Ginseng and Reishi. This rare and precious fungus is considered to be an tonic of the highest stature.

Cordyceps is used to strengthen the body and mind at a constitutional level. It is thought to be able to increase the "vital force for all activities." It restores the energy reserves consumed by excessive exertion, adaption to stress or aging. It is said to build sexual and physical power, mental energy, the immune system and is universally believed in Asia to prolong life.

Cordyceps is considered in Asia to be a powerful tonic for athletes. It greatly improves performance and muscle building capability. It can be used to strengthen respiratory power in those who require extra energy in order to perform physical work, labor, sports or exercise.

Cordyceps is also **a major lung tonic.** It can be used by those who suffer from lung weakness. It is especially beneficial to those who suffer chronic lung problems with cough, wheezing or shortness of breath.

Cordyceps is highly regarded in China as a tonic for those who are recovering from an illness or an operation, or after giving birth. In these cases, the Cordyceps helps the patient recover their physical power, to improve their appetite, and to protect the body from infection.

It is used for backache due to injury, fatigue, stress or simple aging. Long term use of Cordyceps helps to strengthen the skeletal structure, and specifically benefits the lower back region, the knees and ankles.

HOMEOPATHIC - Mental and physical exhaustion due to over work. Nerve weakness. **Chronic fatigue.** Mountain sickness. **Shortness of breath.** Lack of strength and endurance.

Weak stamina. It increases athletic and general performance, especially in long distance races. Alzheimer's disease. Antidotes opium and narcotic withdrawal symptoms (Aven.).

Back - Backache due to injury, fatigue, stress or simple aging. Lumbar weakness.

Female - Metrorrhagia, abnormal menstruation. Sexual frigidity and infertility. Loss of sexual drive.

Food - **Increased appetite.**

Cordyceps

General - Tiredness. Chronic fatigue syndrome. Debility. Immune weakness. Anemia. Hypercholesterolemia. Lymphoma.

Heart - Arrhythmias. Weakness of heart. **Liver** - Chronic obstructive hepatic diseases.

Prevention of liver and spleen atrophy.

Lungs - **Difficult breathing, worse exertion.** Constricted bronchials. Asthma. Persistent cough. Shortness of breath. Mountain sickness. Emphysema. Lung cancer. Tuberculosis.

Male - Sexual hypofunction. Loss of sexual drive. Impotence. Seminal emissions with aching of loins and knees.

Nerves - Sedative and hypnotic action, tranquilizer.

Skin - Fungus infections.

COMMENTS - Cordyceps is one of the primary herbal substances used daily as an anti-aging agent and for the purposes of rejuvenation.

Cordyceps as a sexual tonic is considered to have a profound long range strengthening capacity. It is commonly used for impotence, sexual debility, frigidity and infertility. Sexual debility.

Cordyceps helps the body resist a wide range of pathogenic bacteria, fungi and viruses. It is used in Asia to help treat fungus and yeast infections. Intensive research is being conducted in China and Japan relating to Cordyceps and treating certain varieties of cancer.

REFERENCES - Murphy.

*****CORIARIA RUSCIFOLIA**

(Toot Berry)

PHARMACY - cori-r. Coriaria ruscifolia. Toot berry. Tupa-kihi or Tutu. New Zealand. N. O. Coriariaceae. Tincture or trituration of the berries. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Delirium tremens. Mania. Memory, lost. Vomiting.

HOMEOPATHIC - A prover who ate 1 1/2 grains of the resin experienced a disagreeable, irritating sensation in throat, extending to the stomach with pain across region of stomach, accompanied by nausea (in five min.). In a quarter of an hour, vomiting came on, continuing more or less for two hours. Very unpleasant sensations continued for two hours more when, after great flushing of the face with all but intolerable heat, the effects passed away.

Coriaria produces intoxication very like that of alcohol. Great muscular activity as in acute mania, requiring several persons to hold a person when under the influence of the drug. Complete loss of memory, after coming out of the acute stage of the poisoning.

REFERENCES Clarke.

*****CORNUS ALTERNIFOLIA**

(Swamp Walnut)

PHARMACY - com-a. Cornus alternifolia. Swamp walnut. Alternate-leaved cornel. N. O. Comaceae. North America. Decoction or tincture of leaves. **Historical dose:** Tincture and all potencies.

CLINICAL-Eczema. Emaciation. Eruptions. Fever. Insomnia. Intermittent fever. **Skin, cracked.**

HERBAL - F. H. Lutze communicated to Hom. Recorder, a Long Island farmer's cure for eczema using a decoction of the leaves of this tree. His method was to give a wine glassful three times a day for three days. Then, for the next three days, apply it locally or wash the part with it, then administer it internally for another three days and so on. He cured, with this method, all his cases in eighteen days. This was the first acquaintance Lutze had with the remedy.

HOMEOPATHIC - Later on he made a proving on himself and another, eliciting symptoms of fever, restlessness and insomnia. Disturbed sleep. Weak and tired. Cold feeling in chest, as if full of ice. Skin eruptions with emaciation. Eczema, **skin cracked.**

Modalities - Symptoms better after walking in open air. Better after supper.

RELATIONS - **Compare:** (1) In the skin effects it compares more closely with Cornus circinata. (2) In fever with drowsiness and gastro-enteric disturbance it is practically identical with the other Cornels. All three have **Cornus alternifolia** greatly disturbed sleep. **REFERENCES** - Clarke.

***CORNUS CIRCINATA

(Round-leaved Dogwood)

PHARMACY - corn. Cornus circinata. Roundleaved dogwood. Green osier. N. O.Comaceae. Infusion of tincture of fresh bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphthae. Bilious, headache. Coryza. Diarrhea. Dysentery. Eczema. Hepatitis. Intermittent, fever. Jaundice. Liver, derangement. Mucus membranes, ulcers. Pruritus vulvae. Urticaria.

HERBAL - A popular remedy for aphthous and ulcerated conditions of the mucus membranes. Hale said he had seen it cure chronic ulceration of the mouth and throat, which had recurred for many years. A remedy for old malaria.

HOMEOPATHIC - Corn, has had an extensive proving. The fever symptoms are identical with those of Cornus f.

Liver derangement with aching eyeballs. Chronic malaria, hepatitis, jaundice. Pain in pit of stomach with distended abdomen. Dark, foul stools with burning in anus. Diarrhea, dark bilious offensive with sallow complexion.

Vesicular eruption associated with liver disease or aphthous stomatitis. Vesicular eczema of face of infants with nursing sore mouth. Sleepy before chill, with heat after meals. Disturbed sleep. Weakness in morning. Weak and depressed.

MIND - Forgetful. Unable to concentrate attention. Indolence with loss of mental and physical energy. Mind confused on rising in the morning. Indifferent, with drowsiness. Depression and petulance.

Abdomen - Chronic hepatitis and bilious derangement. Borborygmus. Distention, better after loose stool. Gripping in umbilical region, worse during stool. Constant working in bowels as if all in motion.

Back - Drawing pains at nape of neck. Dull pains in back. Sore pains in lumbar region, worse bending forward.

Chest - Choking sensation in upper part of thorax. Soreness of chest. Stitches, bruised feeling, in chest and back. Dragging down on each side of chest. Intermittent shooting pains in chest and abdomen. Rheumatic or neuralgic pains. Fine, scarlet rash on chest with itching.

Ears - Ringing in ears.

Eyes - Eyes sunken, hollow, as after a debauch, dark circles under them. Conjunctiva tinged yellow. Soreness of eyeballs, aching pains through them. Eyeballs and lids heavy. Herpes of lids.

Face - Heat and burning in face, without redness. Countenance yellow, or pale, sallow, and sunken, indicating suffering and debility.

Female - Leucorrhea. Pruritus.

Food - Thirst for cold drinks, desire for sour drinks.

Head - Dullness and weight in head, especially temples, better by coffee. Heaviness of head, with nausea. Aching and throbbing pain over left eyebrow. Dull pains over eyeballs, unusual pulsation extending to back of head. Pulsating headache in temples.

Heart - Perceptible pulsations in chest. Palpitations of heart. Circulation accelerated.

Kidneys - Frequent desire to pass water. Urine scanty and high-colored.

Male - Increased desire, but lack of power. Frequent strong and persistent erections during the night. Pruritus.

Modalities - Better by coffee. Worse from taking cold. Worse summer heat. Worse at night. Worse on waking. Worse motion of any kind.

Mouth - Ulceration of tongue, gums and mouth. Aphthae. Burning in mouth, throat and stomach.

Limbs - Weakness of limbs. Legs weak and tremulous, particularly when ascending. Pain in right hip while lying in bed. Itching on legs and thighs, burning sensation in feet. Coldness of hands and feet after a loose stool. Burning and itching sensation in hands and arms.

Lungs - Frequent inclination to expand chest by taking a long breath. Cough with sharp stitches in chest. Dry, spasmodic cough, or tedious, chronic cough, with mucus expectoration.

Nose - Prickling in nose and nasal bones. Coryza early in morning.

Rectum - Burning in anus. Dysentery and diarrhea with inactivity of liver. Loose, dark stool, immediately after dinner. Ulceration of rectum. Dark, bilious offensive diarrhea with sallow complexion. Diarrhea with excessive debility and nervous irritability. Urgency to stool, early in morning in bed.

Sleep - Drowsiness with entire loss of mental and physical energy, heavy feeling in head, depression of spirits. Sleep unrefreshing and disturbed by unpleasant dreams. Tendency to perspire.

Stomach - Acid heartburn, painful and slow digestion. Sense of faintness and emptiness in stomach and bowels. Distention, burning, oppression. Pulsating pain in stomach. Belchings. Gaggling as if to vomit in morning. Nausea, with confused and heavy pain in head. Nausea with bitter taste and aversion to all kinds of food.

Skin - Yellow or earthy appearance of skin. Itching, burning or prickling sensations, worse by scratching or rubbing. Eczema, pruritus and similar disorders of external genitals. Vesicular eczema of face in infants with nursing sore mouth.

Temperature - Chilliness with nausea, dull pain in head, debility, and languor. Chilly sensation, followed by transient flushing. Flushes of heat and coldness in alternation, followed by cold perspiration. Transient flushes of heat pervading whole body, with shooting pains through brain. General clammy sweat, with headache, nausea, pain in back, lassitude, and confusion of ideas.

RELATIONS - Compare: (1) *Cornus alternifolia*.

REFERENCES - Boericke. Clarke. Phatak.

***CORNUS FLORIDA

(Dogwood)

PHARMACY - corn-f. *Cornus florida*. Dogwood. N. O. Comaceae. Tincture of fresh bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Chills. Dyspepsia. Headache. Heartburn. Intermittent fever. Malaria. Neuralgia. Pneumonia.

HOMEOPATHIC - Hale commended Com-f. in obstinate intermittents where quinine had been abused and where there was sleepiness for days before chill, a sluggish flow of ideas, and a dull, heavy headache.

Intermittent fever with drowsiness. Feels cold, but is warm to touch. Great exhaustion in intervals. General clammy sweat. Chill is preceded by drowsiness, heat is associated with drowsiness. Headache after quinine. Hale also commended it in old cases of dyspepsia where the chief symptom is acid heartburn. Chronic malaria indigestion and distressing acid heartburn.

Paroxysms attended with nausea, vomiting and sometimes with watery or bilious diarrhea. Chills, with cold, clammy skin. Violent headache with throbbing, stupor, confusion of intellect and vomiting.

General debility from loss of fluids and night sweats. Neuralgic pains in arms, chest and trunk. Sensation as if broken in two. Pneumonia, with stitches in the chest.

RELATIONS - Compare: (1) Other Cornels. (2) Eup-per., Nux-v., Chin., Kali-c., Abies-n., Abies-c.

REFERENCES - Boericke. Clarke. Hale.

***CORTISONE

PHARMACY - cortiso. Cortisone. Cortisone is used in an acetate form and is prepared today by synthesis. It is a cortico-suprarenal hormone, belonging to the group of 11 steroids or 11-oxycorticosteroid hormones. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne. Addison's disease. Allergic, rhinitis. Amenorrhea. Cataract. Conjunctivitis. Constipation. Cushing's syndrome. Depression. Dyspepsia. Edema. Goiter. Hay fever. Heatstroke. Hypertension. Hypothyroidism. Lupus, erythematosis. Memory weak. **Moon-faced.** Muscular atrophy. Obesity. Ophthalmic, migraine. Osteoporosis. Osteo-necrosis. Psoriasis. Styes. Sunstroke. Ulcers. Virilism.

HOMEOPATHIC - The Corticoids are a group of synthetic bodies whose action is analogous to that of Cortisone, but with greater power at equal weight and theoretically with greater tolerance.

All corticoids can have side effects including the perforation of gastric and duodenal ulcers, gastric and duodenal hemorrhaging, psychological complaints, virilism, acne, osteoporosis, diminution of resistance to infections and to tuberculosis, amenorrhea and Cushing's syndrome.

Prednisone and prednisolone cause less retention of water and salt and less potassium reduction in the blood than cortisone, but on the other hand, can be the cause of myopathy.

The homeopathic proving of cortisone was carried out during May and June 1963 by W. L. Templeton on eight provers and five controls, using the potencies 6c, 12c and 30c, prepared by A. Nelson and Co. Ltd.

Symptoms included a general lack of reaction and decrease of the organic reactional capacity. Slowness of the body and of the mind with irritability. Bradycardia torpor.

Rhythmic disorders of glands, especially the pituitary, adrenal, pancreas. Dysthyroidism with tendency to hypothyroidism. Inhibition of secretion of ACTH. Goiter. Hypercorticism, moon-faced. Virilism.

Polydipsia. Morbid hunger. Tendency to obesity with retention of water. Acrid dyspepsia, which can lead to gastric ulcers. Vomiting.

Headache. Intra-cranial hypertension. Right frontal and orbital pain, aggravated by the heat in a room, by pressure and in the afternoon. Impaired vision. Dryness of nasal and pharyngeal mucus membranes with coughing and dry, sticky eyes. Vertigo. Convulsions, the back of the eye reveals papillary edema.

Skin discolored, vesicular eruption, dryness and cracking of the skin on the face and

hands with exfoliation of the nail beds. Face round, puffy, **moon-faced.** Legs swollen with edema. Sacroiliac pain, as if the back were about to break.

MIND - Unstable mood, alternating between euphoria, melancholy and excitement. Excitability with increased activity. Action calms him. Fatigue with weariness. Loss of willpower.

Heavy, confused, irritable, impatient. Memory weak, mental effort arduous, aggravating the general condition. Difficulty in concentrating. Melancholic state. Thoughts of death. Depressive conditions.

Abdomen - Hepatic deficiency. Spasmodic entero-colitis.

Back - Dorsal pain, under the ribs on the left side, spreading to the anterior sacroiliac, ameliorated by movement and pressure, as if broken, aggravated in a sitting position, by bending down and in the morning. Pain between the bones.

Blood - Increased production of the thrombocyte. Erythroid hyperplasia. Polymorphism of the leukocytes.

Chest - Skin of the thorax discolored. Red rash on the lower part of the sternum.

Constitutions - Psoric and allergic constitutions. Slow, irritable subjects with a dull mind. Suitable especially, but not exclusively, for carbonic type and for Bernard's fat Sulphur types. Subjects fleshy with round face, sad, weeping for no reason.

Ears - Ringing in the ears.

Eyes - Tension behind the eyeballs. Eyeballs painful, dry, edges of the eyelids agglutinated. Inflammation of the inner canthus. Allergic conjunctivitis. Styes. Cataract. Accommodation difficult. Foggy vision.

Face - Acne of the face, shoulders, and back.

Female - Amenorrhea in young girls. Menses copious, blood thick. Pelvic congestion. Heaviness in the lower abdomen. Sensation of repletion in the stomach, ameliorated by menstrual flow and by walking. Vulvar eczema.

Food - Insatiable appetite, has butterflies if he does not eat. Milk and fats provoke nausea.

Head - Headache, as from a band around the head. Pulsating headache around the right eye, the vertex and the left side of the occiput. Sensation of frontal and occipital rending. Pain stronger around the right eye and forehead. Pain aggravated by pressure, heat, movement, sun. Ameliorated in the open air.

Heart - Arterial hypertension. Purpura. Ecchymosis.

Kidneys - Nephrotic syndrome. Frequent, pressing urination. Urination at night, oliguria. Edema.

Limbs - Osteoporosis. Painful post-traumatic osteoporosis. Osteo-necrosis of the hip in particular. Painful joints. Muscular atrophy of the quadriceps of the lower limbs. Legs restless, not ameliorated by movement in bed. Drawing pain behind the knees. Pain in the loin, worse when seated or lying down. Sacroiliac pain, as if it were about to break. Vesicular eruption on the backs of the hands, itching with round marks, worse with the heat. Dryness and irritation of the back of the hands.

Lungs - Dyspnea, aggravated in a warm room. Heaviness behind the sternum, respiration difficult. Short of breath, from nervous irritation, from warming himself and when in a hot room. Respiratory allergies, hay fever. Bronchitis with much sputum. Gray, gelatinous sputum. Laryngeal cough with sneezing in the morning. Cough aggravated by laughing, becoming excited, by walking, by physical fatigue, worse by undressing and by shaving.

Male - Diminution of sexual desire.

Modalities - Better from menstrual flow. Better walking. Better in the evening. Worse in the morning. Worse from external heat. Worse immobility. Worse scratching. Worse coughing. Worse pressure. Worse predominantly on the left side.

Mouth - Dryness of the mouth, especially in the morning. Dryness of the throat and pharynx, worse with swallowing, ameliorated by eating warm honey. Uvula red.

Nose - Allergic rhinitis. Hay fever. Sneezing, worse in the morning, better by washing.

Rectum - Diarrhea on rising in the morning, after breakfast, after a meal. Constipation and incomplete evacuation of hard stools in balls.

Skin - Eczema with puffiness of the face. Round, raised marks, slightly hard, on the hands, ankle, cheek and left side of the neck. Itching rash on the legs, feet and hands. Red rash at the nail beds and on the backs of the fingers. Rash worse with heat. Red streaks on the skin, streaked with weals. Face and hands rough, chapping. Slow healing of wounds. Increased growth of hair in the usual places.

Sleep - Sleep light. Agitated, easily disturbed, cannot sleep. Does not refresh, wakes tired.

Stomach - Amelioration by empty swallowing, aggravated in the morning and by hot drinks. Gastric ulcer.

Urine - Loss of potassium, calcium, phosphorus. Diminution of ascorbic acid. Retention of chloride and sodium. Increase of creatinine, cholesterol, uric acid. Glycosuria. Proteinuria. Tubular casts in the urine.

Vertigo - Vertigo, aggravated in a warm room.

COMMENTS - Its fundamental properties are promotion of the formation of glycogen, diminution of the use of glucide by the tissues, negation of the nitrogen balance, elevation of urinary elimination of uric acid of creatine (without any change in the level of creatinine in the urine) and of potassium, sodium retention, varying action

on the urinary elimination of phosphorous and calcium.

Degeneration of the lymphoid organs with lymphocytopenia. Increase of globulins in the plasma and inhibition of conjunctival inflammatory reactions. Inhibits the production of ACTH and produces atrophy of the suprarenal cortex. It gives the impression of well being and euphoria, but there is the possibility of maniacal or depressive psychological complaints.

RELATIONS - Compare: (1) Ars., Sep., Sulph. - Impatient, quarrelsome, has grandiose ideas, pain and burning eruptions. (2) Psor. - Sad, periodic migraines, anxious, scabby, weeping eruptions, weakness of the back and limbs as if dislocated. (3) Puls. - changing, variable, weeps at the slightest trifle, alternation of smiles and tears. Erratic pains, dry cough, congestion of the veins.

REFERENCES - Julian.

***CORYDALIS CAVA

(Fumaria cava)

PHARMACY - cory-c. Corydalis cava. Fumaria cava. N. O. Papaveraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Dyspnea. Headaches. Palpitations. Rheumatic pains. Stomach pain.

HERBAL - Catharral and inflammatory affections of mucous membranes with burning pains. Furunculosis.

MIND - Anxiety and dyspnea. Sadness without cause. Indifference.

Food - Desire for sour and pungent. Voracious appetite, waking at night from hunger. Aversion to wine.

Head - Right-sided headache. Pain in forehead, temple, occiput. Pressing or shooting pain. Headaches, worse motion. Headaches, better open air. Heat of head.

Heart - Palpitations, paroxysmal, worse lying on left side. Palpitations, worse ascending, worse 3 a.m.

Limbs - Rheumatic pains, especially in hands and fingers, worse motion, better warmth.

Lungs - Anxiety and dyspnea. Dyspnea, anxiety, palpitations, cold sweat on forehead.

Modalities - Worse rest. Worse warmth.

Nose - Obstruction of nose. Yellowish mucus discharge.

Stomach - Pressing pain in stomach. Stomach pain, worse after eating, coffee, bending double. Pressing pain, better stretching. Nausea, retching and diarrhea. Epigastrium sensitive to pressure.

Throat - Swollen sensation in throat when, lying down. Sensation as if thyroid were enlarged.

Vertigo - Vertigo, as if ground gave way.

Vertigo worse closing eyes.

REFERENCES - Murphy.

***CORYDALIS FORMOSA

(Wild Turkey Pea)

PHARMACY - cory. Corydalis formosa. Wild turkey pea. Dicentra canadensis. Stagger weed. N. O. Fumariaceae. Papaveraceae. Tincture of bulbous root gathered when plant is in flower. Trituration of the dried root. Triturations of Co- rydalin. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Cachexia. Cancer. Gastric, catarrh. Scrofula. Syphilis. Ulceration. Ulcers.

HERBAL - Hale commended Corydalis in scrofulous discrasia, obstinate skin diseases, and cachexia of intermittents with enlargement of the liver and spleen.

In massive doses it has cured, according to herbal authorities, "A derangement of the stomach, attended with profuse morbid secretion of mucus, there being always a coated tongue with fetor of the breath and loss of appetite and digestion."

Cory, is therefore indicated, as Hale remarked, in gastric catarrh, being an analog in this respect of Hydr. It has not been used in the potencies, a usual dose has been ten drops of the tincture four times a day.

HOMEOPATHIC - It is an unproved remedy, but clinical experience has revealed a specific relation of the manifestation of syphilis, including Hunterian chancre, syphilitic nodes, falling of the hair, and syphilitic ulcerations of scalp. Dry, scaly scabs on the faces of old people. Swollen lymphatic glands.

Pronounced cancer cachexia. Gum- mata and night-pains. Chronic diseases with atony. Tongue clean, broad and full. Tissues flabby, doughy, cold. Gastric catarrh (Hydr.) Syphilitic and non-syphilitic ulcerations of fauces. Ulcers of mouth and fauces.

RELATIONS - Compare: (1) Nit-ac., Kali-i., Fl-ac.

REFERENCES - Boericke. Clarke. Hale.

***COTO

(Coto Bark)

PHARMACY - coto. Coto. Coto bark. N. O. Lauraceae. Bolivia. A bark of Nectandra coto. Tincture. Trituration of the alkaloid Cotoin. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Diarrhea. Tubercular, diarrhea.

HERBAL - The bark has been used in medicine as adiarrrhea remedy, probably from aboriginal tradition. Hansen says it is especially valuable in "chronic tubercular, watery diarrhea, very copious stools and exhausting." Only drop doses of the tincture have been used.

REFERENCES - Clarke. Hansen.

***COTYLEDON UMBILICUS

(Pennywort)

PHARMACY - cot. Cotyledon umbilicus. Pennywort. Navelwort. Kidneywort. Umbilicus pendulinus. Le Nombri de Venus. N. O. Crassulaceae. House-leek-family. Tincture of the plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Epilepsy. Headache. Heart, disorders. Hysteria. Sciatica. Sinuses. Spleen, disorders. Rheumatism.

HOMEOPATHIC - Cotyledon has had a considerable proving. Cooper considered it a cancer remedy. He cured with it sinuses in buttock. A patient to whom he gave it for polyps said it made him stagger as if drunk. Marked action on the heart, oppression of the chest, and fullness in the throat. Oppressed breathing, disturbed heart. Catarrh of larynx and trachea. Well-marked pains through the breast to scapula. Pains in the region of the spleen.

Rheumatic symptoms. Sciatica. Hysterical joint. Numb aching in muscular and fibrous tissue. Weak, faint feeling.

Stitching, pricking, jerking pains are predominant sensations.

A feeling as if some part of the body, like a foot or the head, were absent. The senses of sight and hearing are dulled. A yellow patch follows the eyesight. Disagreeable surging in ears, ears feel stuffed.

Pressing vertex headache. Epilepsy.

MIND - Lost and confused feeling. Could not articulate for some time on awaking. **Feeling as if a part of the body were absent.** Ailments from suppressed emotion.

Abdomen - Long stitching in left hypochondrium. Dull pains in left hypochondrium. Dull pushing in region of spleen recurring at intervals.

Back - Pain through to scapula from region of left breast. Pain at angles of scapulae.

Breasts - Pain under left nipple and aching in right breast.

Chest - Full, bursting feeling, as if from obstruction at heart.

Head - Headache, causing desire for open air, which ameliorates. Dull headache with cold feet. Dull, heavy, stupefying pain in forehead and vertex, shifting suddenly between them.

Heart - Heat about heart. Uneasiness. Clawing, dragging pain on riding, better by compressing side.

Kidneys - Calls to urinate frequent. Increased flow of clear urine.

Limbs - Aching in back and thighs. Aching in all joints. Skin sensitive, rubbing of trousers causes an acute sting. Aching in left thigh followed by numbness. Stinging pain under left gluteus maximus in region of sciatic nerve. Legs and arms feel heavy and sore. Between attacks of headache, gnawing, rheumatic pain in right shoulder. Aching, bruised pain in wrists. Aching, tingling in hands, especially at night, preventing sleep, tingling down arm when the nerve is struck.

Lungs - Oppressed breathing. Tickling in larynx with dry cough. Shooting in all directions in chest, particularly under right scapula and left nipple during evening. Stitches below both nipples.

Modalities - Worse morning and evening.

Rectum - Bowels freely opened, later, constipation.

Stomach - Pain at epigastrium through to shoulder, with nausea. On swallowing, the morsel seems to pass and press against some swelling in cardiac region.

Throat - Constant choking in throat, feeling as if he would burst into tears. Back of throat feels as if covered with thick mucus.

RELATIONS - Compare: (1) Ambr., Asaf., Hepat., Ign., Lach., Sedum acre.

REFERENCES - Boericke. Clarke.

***CRAB APPLE

(Bach Flower Essence)

PHARMACY - crb-a-b. Crab apple. Malus pumila. Pyrus malus. Small twigs with whole clusters of flowers are

boiled for half an hour. The water is strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - The remedy Crab Apple, together with Oak-b., Will-b., Star-b-b., Sw- ch-b., Elm-b., Pine-b., and Lar-b., belongs to the group of **For Despondency or Despair**, as classified by Bach. States of severity. Burdening condition, without sufficient power or possibility to grow above.

Unclean skin, acne. Accumulated wastes in the blood stream. Cleansing of digestive tract. Long-lasting viral infections. Chronic poisoning due to environmental hazards. Helps draw out impurities from a wound, if applied to the bandage.

Chronic diarrhea. Feelings of disgust or repulsion. Strong repulsion toward the food consumed with the urge to vomit. Vomiting, nausea and emaciation (Chic-b., Must-b.). Anorexia and bulimia, tendency to obsess with weight problems.

MIND - Self-centered. Concentrates on the unclean, shameful, bothering and burdensome. Obsessive preoccupation with beauty flaws or states of sickness considered unclean and unbecoming. Fear of contamination, by germs or unclean surroundings.

Obsessive-compulsive disorder with deep shame (Cher-p-b., Pine-b.). Shame about appearance or inner guilt and uncleanness. Regrets sinful or shameful behavior. Feels soiled or dirty after abuse or molestation.

Intense craving or desire to be cleansed and purified. Feels helpless in regard to the problem. Unable to shake off or overcome the condition. Minor problems assume disproportionate importance. Despair.

REFERENCES Bach.

***CRATAEGUS OXYACANTHA

(Hawthorn Berries)

PHARMACY - crat. Crataegus oxyacantha. Hawthorn berries. Crataegus monogyna. Crataegus laevigata. N. O. Rosacea. The fresh berries are pounded to a pulp and macerated in two times their weight of alcohol. Tincture of the ripe fruit. **Historical dose:** Tincture and all potencies, fluid extract or tincture, one to fifteen drops.

CLINICAL - Anasarca. Anemia. Aneurysm. Angina pectoris. **Arteriosclerosis. Dropsy. Dyspnea.** Dyspepsia. **Dyspnea.** Edema. **Heart, disorders.** Heart, failure. Heart, hypertrophy. **Heart, weakness.** Hemorrhages. **High blood pressure.** Insomnia. Myocarditis. Nausea. Weakness.

HERBAL-Crat is a great **positive heart tonic**. It has produced some heart symptoms and doubtless has a homeopathic relation, but it is not a heart-poison like digitalis and has no cumulative action. In tonic, it works very slowly, may palliate long term.

For recovery from heart attacks. Increases heart strength. Congestive heart failure, heart weakness, enlarged heart. Chronic heart disease with extreme weakness. Heart-failure threatened from slightest exertion. **Irregularity of heart.**

HOMEOPATHIC - Produces giddiness. Shortness of breath with a slow pulse. Weak, rapid, and lowered pulse. Slow and irregular pulse. Air hunger. **High blood pressure**, also useful for low blood pressure.

Very feeble and irregular heart action. Weakness in the valves, regurgitation, valve prolapse. Dyspnea and dropsy, from failure of heart-power whether from valvular affection or from anemia. Hypertrophy, dilation, nervous palpitation, arrhythmia. Insomnia. Aortic anemia, edema, cutaneous chilliness. Myocarditis. General anasarca.

Arteriosclerosis, said to have a solvent power upon crustaceous and **calcareous deposits in arteries**. Cardio-hemorrhagic or lithemic cases. Dyspepsia and nervous prostration with heart failure. Heart problems after rheumatism. Alcoholic heart. A sedative in cross, irritable patients with cardiac symptoms.

Oppression of the chest. Pain under the collarbone, chest pain in general. Stitching pain. Nervous with pain in back of head and neck. Weakness, exhaustion. Sudden weakness. Cold limbs. Pallor. Nervous palpitations. Collapse from typhoid. Hemorrhages from bowels.

MIND - Irritable, cross and melancholic. Apprehensive, despondent. Despair, feels weak and fragile. Mental dullness. Makes mistakes. Confused feeling, followed by a feeling of quiet and calmness mentally.

Anxiety with palpitations. Hurried feeling with rapid action of heart. Very nervous and irritable, with pain in back of head and neck. Irritable, cross and despondent.

Morose and sulky. Ailments from grief. Despair about recovery. Irritability with heart disease. Cross, ill-humor, peevish. Sadness, depression.

Chest - Painful sensation of pressure in left side of chest below the clavicle.

Eyes - Conjunctival irritation, with nasal discharge.

Head - Very nervous and irritable with pain in back of head and neck.

Heart - Circulatory weakness. Angina pectoris. Anxiety with palpitations. Palpitations, tumultuous, violent, vehement. Heart muscles seem flabby, worn out. **Heart weakness** with oppression, stitches and insomnia. Fatty degeneration. **Hypertrophy of heart**. Aortic disease. Aneurysm of the aorta. Aortitis. **Cardiac dropsy**. Cardiac dyspnea. Pain in region of heart, **under left clavicle**, and under left scapula. **Heart dilated, first sound weak**. Incompetent valves. Valvular murmurs. Valvular incompetence. Myocarditis. Pericarditis. Sustains the heart in infectious diseases. Neurosis cordis. Fatty degeneration of heart.

Kidneys - **Diabetes**, especially in children. Urine diminished. Urine contains traces of albumen and an excess of phosphates.

Limbs - Limbs cold and edematous. Coldness of fingers. Blueness of limbs. Swelling of lower limbs. Swelling of feet.

Lungs - Cough with an albuminous expectoration. **Extreme dyspnea on least exertion** without much increase of pulse.

Nose - Nasal discharges.

Perspiration - Excessive sweat. Palms sweaty. Perspiration of limbs.

Pulse - Pulse accelerated. **Pulse irregular, feeble, intermittent**.

Modalities - Better fresh air. Better quiet and rest. Worse in warm room. **Worse least exertion**. Worse at night. Worse from rheumatic affections.

Skin - Skin eruptions. Burning, smarting eruptions on back of neck, axillae and chin, worse heat and sweating, better washing. Excessive perspiration. Fingers and toes blue. Coldness of skin. Blueness of fingers and toes, worse exertion or excitement. Great pallor of skin, with rush of blood to head.

Sleep - Insomnia of heart patients. Sleeplessness in aortic disease.

Stomach - Nausea. Dyspepsia and nervous prostration with heart failure.

Temperature - Cutaneous chilliness. Blueness of fingers and toes, all aggravated by exertion or excitement. Chilliness in heart disease.

Vertigo - Faintness and collapse.

COMMENTS - Crat. was introduced into medicine as a heart remedy by Dr. Greene of Ennis, Ireland, and it has been used empirically with much success in cases of heart failure. It has usually been given in drop doses of the tincture.

Dr. Green had a reputation for the cure of heart disease that caused patients to flock to him from all parts of the United Kingdom. He cured the majority of them and amassed considerable wealth by means of his secret medicine. Contrary to the code, he, though a physician in good standing, refused to reveal the remedy to his professional brethren.

After his death, his daughter, a Mrs. Graham, revealed that the remedy her father had used so successfully was *Crataegus oxyacantha*.

Halbert in Clinique, March, 1899, recorded the case of "Mr. S., a young man sixteen years of age, had worked hard at manual labor since his twelfth year to support a widowed mother. He had in fact, done a man's work before his physical maturity would permit it. For some time he has shown signs of cardiac hypertrophy and had been cautioned by physicians to take good care as to his heart.

"About a year ago during some gymnastic extreme in the nature of sport, he was suddenly admonished that something had 'given way,' and for relief was obliged to take to his bed. When I first saw him he was obliged to lie down, respiration was labored and irregular and the heart's action was greatly exaggerated and erratic.

"There was decided precordial bulging, the apex beat was considerably displaced, downward and to the left and the whole cardiac dullness was greatly extended, the impulse was heaving in character with considerable mitral systolic blowing and the corresponding diastolic intensification, there were also signs of considerable pulmonary engorgement and some pain in the chest region.

"The patient was put into a warm bath for twenty minutes and then carefully returned to bed. Aconite 3x was administered every half-hour and continued hourly for a day or two afterward until he was somewhat relieved.

"Crataegus, five-drop doses of the tincture, was then administered five times daily for a long time. The effects of this remedy were most remarkable, the cardiac irritation gradually lessened, the area of dullness decreased and the rhythm improved, at the same time all the general symptoms improved rapidly.

"He has now been using the remedy for several months and the result is most satisfactory. I have every reason to expect a cure of the extreme symptoms and believe the heart will be reduced to a safe hypertrophy, will virtually be a cure."

A girl of twelve had a sudden collapse in

Crataegus oxyacantha the third week of typhoid. Crat. five drops, every two hours was given on the indications of great pallor with irregular breathing, cold limbs, pulse 120, very weak and irregular. Strychnia,

Dig. and Cact. had failed to give more than temporary relief. Under Crat. she rallied at once.

T. C. Duncan gave complete relief in a case of angina pectoris, the pain being above and to the left of the stomach. Strong pulse and forcible indications of hypertrophy were found. A very tender spot on the left side of the spine. Crat. removed at the same time "a hurried feeling" and the anxious expression on her face.

Dr. Duncan produced a "hurried feeling" in himself when proving Crat., which he attributed to the rapid action of the stimulated heart.

Anshutz reported that Dr. Jennings procured for himself some of the remedy and his experience with it explains Dr. Green's national reputation.

Dr. Jennings wrote of the case of a Mr. B., aged seventy-three years. "I found him gasping for breath when I entered the room with a pulse-rate of 158 and very feeble, great edema of lower limbs and abdomen.

"A more desperate case could hardly be found. I gave him fifteen drops of Crataegus in half a wineglass of water. In fifteen minutes the pulse beat was 126 and stronger and breathing was not so labored. In twenty-five minutes pulse beat 110 and the force was still increasing, breathing much easier.

"He now got ten drops in same quantity of water and in one hour from the time I entered the house he was, for the first time in ten days, able to lie horizontally. I made an examination of the heart and found mitral regurgitation from valvular deficiency with great enlargement." For the edema, he prescribed Hydrargyrum cum creta, Squill and Digitalis.

"He received ten drops four times a day of the Crataegus and was permitted to use some light beer to which he had become accustomed at meal time. He made a rapid and apparently full recovery until in three months, he felt as well as any man of his age in Chicago.

"He occasionally, particularly in the change of weather takes some of the Crataegus which, he says, quickly stops shortness of breath or pain in the heart. His father and 'a brother died of heart disease."

In another case, a woman "was suffering from a compensatory enlargement of the heart from mitral insufficiency," was taken with dyspnea when Dr. Jennings was called and was nearly dead.

Under Crataegus, and some other indicated remedies, she made an excellent recovery. "In a letter from her, three months afterward, she said she was feeling well, but that she would not feel fully secure without some of the Crataegus."

"The forty other cases ran courses somewhat similar...all having been apparently cured. Yet I am not satisfied beyond a doubt, that any of those patients were completely cured except those whose troubles of the heart were functional. And it is possible and even probable that in weather of a heavy atmosphere or when it is surcharged with electricity or if the patient be subjected • to great excitement or sudden or violent commotion or exercise he may suffer again therewith.

"Cardiac impulse after a few days' use of the Crataegus is greatly strengthened and yields that low soft tone so characteristic of the first sound, as shown by the cardiograph. The entire central nervous system seems to be influenced favorably by its use, the appetite increases and assimilation and nutrition improve.

"Also a sense of quietude and well-being rests on the patient and he who before its use was cross, melancholic and irritable after a few days of its use shows marked signs of improvement in his mental state.

"I doubt if it is indicated in fatty enlargement. The dose which I have found to be the most available is from ten to fifteen drops after meals or food. If taken before it may in very susceptible patients, cause nausea. I find also that after its use for a month it may be well to discontinue for a week or two, when it should be renewed for another month or so.

"Usually three months seem to be the proper time for actual treatment and after that only at such times as a warning pain of the heart or dyspnea may point out."

Dr. T. C. Duncan contributed the case of Mrs. A., a printer, who "came to me complaining of some pain in the side as if it would take her life. She did not have it all the time, only at times, usually the last of the week, when tired.

"I prescribed Bryonia, then Belladonna without prompt relief. One Saturday she came with a severe attack, locating the pain with her right hand above and to the left of the stomach. The pulse was strong and forcible.

"On careful examination I found the heart beat below normal indicating hypertrophy. I examined the spine and to the left of the vertebra about two inches I found a very tender spot (spinal hyperemia). She told me that when a girl she had several attacks and that her own family physician gave her a remedy that relieved her at once.

"She had tried several physicians, among them an allopath, who gave hypodermic injections of morphine without relief. Hot applications sometimes relieved. I now recognized that I had a case of angina pectoris and that her early attacks were due, I thought to carrying her heavy brother. Now the attacks come when she becomes tired holding her composing stick, at the same time she became very much flurried, so much so that she had stop work because she was confused.

"I now gave her a prescription for Cactus, but told her I would like to try first a new remedy, giving her Crataegus, saturating some disks with tincture. I directed her to take two disks every hour until relieved and then less often. If not relieved to take the Cactus.

"She returned in a week reporting that she was relieved after the first dose of Crataegus. More, that hurried, flurried feeling had not troubled her this week. Her face has a parchment skin and the expression of anxiety so significant of heart disease was certainly relieved. I have not seen her since."

The proving of this remedy produced a flurried feeling due, to the rapid action of the stimulated heart. A nervous female medical student who also proved it had "an unusual rush of blood to the head with confused feeling," followed later by "a feeling of quiet and calmness mentally."

RELATIONS - Compare: (1) Aven., Heliant., Alfa., (2) Stroph., Dig., Iber., Naja, Cact.

REFERENCES - Anshutz. Boericke. Clarke. Murphy. Phatak.

***CRESYLOLUM

(Cresol)

PHARMACY - cresol. Cresylolum. Cresol. The cresols are phenols (ortho, meta, para) derived from toluene. They are extracted from tar, coal-tar, wood-tar. They are also prepared synthetically. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Allergies. Anemia. Anorexia. Atherosclerosis. Emaciation. Maniac, depression. Muscular, atrophy. Paralysis. Premature, senility. Schizophrenia.

HOMEOPATHIC - The word "cresol" is derived from "creosote" and the suffix "-ol," which means phenol. The cresols are powerful antiseptics, soluble in soap, but their use is restricted, owing to their strong odor. They are used, however, as primary material in the manufacture of bakelites, they form cresolins.

The homeopathic proving was established by O. A. Julian in 1958 on five provers, three men. two women and a dog, as well as by the study of cases of chronic poisoning. The potencies 5c, 7c and 9c were used.

Sclerosis of the cerebral, nervous and vascular systems. Muscular atrophy, especially of the small muscles in the hands. Paresis or atrophic paralysis of the lower limbs. Quivering beneath the skin of the entire body. Pigmentation disorders, melanosis. Papular erythema.

Hypertensive kidney sclerosis. Allergic conditions from a cancerous evolution. Anemia with thrombocytopenia and leucopenia. Asthenia, anorexia and emaciation.

MIND - Schizophrenia with euphoria and

volubility. Manic depressive psychosis. Euphoria, with abundant gesticulation, can lead to ecstasy. Loquacious mood. Schizophrenia in children.

Anguish in the evening. Indifference. Distracted, gives the impression of being deep in thought. Unhappy visions. Hears bells. Irritable. Often repeats himself, trembling of upper limbs.

COMMENTS - A long-standing experiment and numerous clinical observations by O. A. Julian and several of his colleagues allow the confirmation that Cresol, is a very valuable remedy, especially with regard to neuro-psychological, cardiovascular and cutaneous infections.

It is almost a homeopathic phenobarbital in cases of epilepsy. It's particularly effective in a large number of epileptic cases if one is the first doctor to see the patient. If, on the other hand, allopathic treatment has already been prescribed, it is essential to know how to combine homeopathic remedies with a slow and progressive reduction of the previously prescribed classical remedies.

Clinical observation, plus electro-encephalogram readings are used to direct this reduction of the allopathic dosage. By contrast, the number of Cresol, drops of 7c can be increased, which results in a better sedation of cortical irritability.

RELATIONS - Compare: (1) Arg-m. - Subject thin, sad, agitated and loquacious. Loss of memory, parietic state of lower limbs with trembling. (2) Plb. - Rapid emaciation, cortical and somatic weakness, gradual paralysis of the limbs. Abdomen hard retracted. (3) Caust. - Mental failing, melancholic, critical, parietic weakness.

REFERENCES-Julian.

***CROCUS SATIVUM

(Saffron)

PHARMACY - croc. Crocus sativus. Saffron. N. O. Iridaceae. Tincture of dried stigmas. Tincture of the fresh young shoots. **Historical dose:** Tincture and all potencies.

CLINICAL - Abortion, threatened. After- pains. Anger. Asthenopia. Blepharospasm. Brain, congestion. Chorea. **Constipation.**

Dysmenorrhea. Fainting. Gastric disorders. Hemoptysis. **Hemorrhages.** Headaches. Heart disorders.

Hysteria. Lachrymation. Leucorrhea. Mania. Menorrhagia. Menstruation, heavy. Metrorrhagia. Miscarriage. Nosebleeds. Ophthalmia. Pregnancy, disorders. Surgery, after effects. Tumors. Ulceration. **Uterine, hemorrhage.** Wounds.

HOMEOPATHIC - Characteristic **hemorrhage** from various parts when the **blood is black, stringy, clotting**, forming itself into long black strings hanging from the bleeding orifice. Viscid blood, dark. Clotting. Tumors. Lipoma. Encephaloma.

Symptoms rapidly change sides or mental and physical symptoms alternate. Rapid alternation of mental conditions. Jerking or spasmodic contraction of single sets of muscles. Chorea and hysteria. Chorea every seven days with hilarity, singing and dancing.

Sensation as if something alive were moving internally in abdomen, chest etc. with nausea, faintness and shivering or jumping about various parts. Drowsiness, better by literary occupation. Prostration, weariness, fainting with nosebleed, metrorrhagia.

MIND - Mind very much distracted. Forgetful. Impressionable, affectionate and moody. Loss of ideas on attempting to write anything down. Childish behavior. Confusion, better open air. Industrious. Irritability, takes everything in bad part. Mistakes in time, confounds present with past. Uneasy, anxious, sorrowful mood.

Happy and affectionate, then angry. **Changeable disposition.** Rapidly changing or alternating mental disposition, opposite to each other. Anger with violence, rapidly followed by abject repentance.

Remorse, repents quickly. Laughter quickly followed by tears. Cheerful at night. Cheerful, alternating with sadness, violence.

Hysterical laughter, laughing mania. Involuntary laughter and weeping, worse music. Jestings. Loquacious. Vivid recollection from music heard (Lyc.). Singing in sleep. Sings on hearing a single note sung. Jumping, dancing, laughing, whistling, wants to kiss everybody.

Delusion he is unfit for business.

Abdomen - Abdomen swollen, feeling of something heavy. **Sensation as if something living were jumping about** in the stomach and abdomen (left side) (Thuja.).

Back - Sudden feeling of coldness in back, as if cold water were thrown over him, with icy-cold limbs.

Breasts - Jumping pain in left breast, as if drawn towards the back, as if jumping alive in right breast. Jerking pain in interior of left breast, as if drawn toward back by means of thread (Crot-t.).

Causations - Effects of blows.

Constitutions - Suited to women and hysterical men.

Ears - Noises in ears with hardness of hearing, worse stooping.

Eyes - Dry. burning, **as after weeping.** Asthenopia with extreme photophobia. Pupils enlarged and react slowly. Threatened glaucoma, embolism of central retinal artery. Ciliary neuralgia, pain from eyes to top of head. Lachrymation when reading. Must wipe eyes as if mucus or water were in them. Sensation as if she had been looking through too sharp spectacles. **Feels as if smoke in eyes. Sensation as if cold air was rushing through eye** (Fl-ac., Syph.). Electric sparks or jumping spots before eyes. Twitching of the upper eyelid. Lids heavy.

Face - Hot, red, or alternating with paleness.

Female - Menses dark, viscid, too frequent and copious, **black and slimy.** Urging of blood to genitals. Uterine hemorrhage, **clots with long strings**, worse from least movement, worse during full or new moon. Threatened miscarriage, especially when hemorrhage is **dark and stringy.** False pregnancy. Movements of fetus are violent and painful.

Food - Great thirst for cold drinks.

Head - Throbbing, pulsating headache at menopausal period, during menses, or instead of menses, better pressure.

Heart - Sensation of heat ascending to the heart impeding breathing, better yawning.

Dull stitches in the left chest. Anxious palpitation, worse ascending stairs.

Limbs - Spasmodic contractions and twitchings of single set of muscles. Chorea and hysteria with great alteration of feeling. Upper limbs fall asleep. Weakness in knees and legs. Cracking in hip joint and knees, worse stooping. Pain in ankles and soles. Cold as ice with metrorrhagia, nosebleed.

Lungs - Heaviness in chest, must take deep breath. Dry cough, better laying the hand on the pit of the stomach. Wheezy cough with frothy expectoration, containing threads like fine twine, worse lying down. Expectoration stringy like thread.

Male - Excitement of sexual desire.

Modalities - Better after breakfast. Better in open air. Better yawning, desire to take a long breath. Worse from motion. Worse lying down. Worse reading. Worse looking fixedly at an object. Worse from puberty. Worse

pregnancy. Worse fasting. Worse during new and full moon. Worse hot weather. Worse heat, warm room. Worse in morning.

Mouth - Unusual warmth in mouth. Sour taste. Foul, offensive, sickly breath.

Nose - Nosebleed, **strings of dark blood** hanging down the nose, with faintness and cold sweat on forehead. Nosebleed at puberty of young girls »

Rectum - **Obstinate constipation** due to portal stagnation. Constipation in infants. Stools contain dark stringy blood. Crawling and stitches in anus. Useful after operations for hemorrhoids.

Skin - Prickling and crawling. Scarlet redness or spots on the skin. Old scars open and suppurate. Lipoma. Encephaloma. Disperses tumors.

Sleep - Deep sleep. Sings in sleep.

Stomach - Gastric troubles, bloatedness, belchings, vomiting etc.

Temperature - Flushes of internal heat with prickling and crawling in skin. Sweat only on the lower half of the body. Continuous, foul smelling sweat, worse debility, hemorrhages after childbirth.

Throat - Feeling as if uvula were elongated, during and when not swallowing

Crocus sativus

in hysteria. Feeling of nausea in throat and chest.

COMMENTS - Cooper and Culpepper agreed in thinking that Croc, is very similar to Calen, in its action. It is a vulnerary and corresponds to the effects of blows (deafness, tumors, etc.).

Dark hemorrhage. Uterine hemorrhage of dark, black, stringy blood, often associated with miscarriages or cancer of the uterus (Sec.). Painful suppuration of bruised parts, old scars re-open and suppurate.

Lipoma and encephaloma of scalp. Used externally to scatter indolent tumors and ecchymosis. Tumor with ulceration and characteristic bleeding. A warm sensation ascending to the heart, impeding breathing, better by yawning.

Tingling, crawling, pricking and itching occur in the skin. Scarlet redness of the whole body or scarlet spots on the skin. A domestic remedy for bringing out measles eruptions.

Stitches, shocks, throbbings, broad thrusts. Cuttings and jerkings. Twitchings of single sets of muscles (chorea). Sensitive to music, involuntarily joins in on hearing anyone sing.

Croc, has been successfully given to pregnant women who have complained of violent fetal movements, as well as in cases of imaginary pregnancy.

Clarke once cured a young artist who had become subject to violent outbursts of rage. He would take up a knife to throw at his mother, with whom he lived, and almost immediately after would be abjectly repentant. The household was on the point of being broken up when the trouble was completely removed by Croc.

On one occasion in a hospital, Clarke happened to see a young girl who was desperately ill with heart failure and valvular disease in a fit of hysterical laughter. This made him think of Croc.

The only definite sensation she complained of in the heart region was a "jumping" sensation. Croc. 30c was given and very soon she was able to lie down flat (after having been propped up for weeks) and from that time she made a rapid recovery.

Cooper gave single doses of the tincture in a case of malignant disease of the side following extirpation of a cancerous kidney. The result was an arrest of progress after an initial aggravation and complete relief of pain.

The patient was a woman, who had formerly had hemorrhages with dark clots during her periods and feeling of weight towards womb. She had also the sensation of something moving in the abdomen.

Teste cited from Murray the case of several children "who were seized with an extraordinary laughing mania from having, smelled of leather bottles that had contained essence of saffron."

RELATIONS-Antidote: Op., Bell. **Compare:** (1) Ip., Trill., Plat., Chin., Phos., Ust., Sabin.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

*****CROTALUS CASCABELLA**

(Brazilian Rattle-snake)

PHARMACY - crot-c. Crotalus cascavella. Brazilian rattle-snake. Crotalus durissus. N. O. Crotalide. Middle and South America. Trituration of the venom with Saccharum lactis. **Historical dose:** All potencies.

CLINICAL - Goiter. Hallucinations. Headache. Mania. Metrorrhagia. Nosebleed. Paralysis. Poliomyelitis. Uterus, pains.

HOMEOPATHIC - The poison of Cascavella is as deadly as that of the other Crotalide and the general symptoms are like those of the other members of the group, but the mental symptoms are more pronounced and peculiar. The proving was done by Mure, with additional effects reported by Higgins.

Crot-c. has frequent sharp pains, worse by cold washing. Symptoms are worse at night. Pains in bones.

Paralysis of articulation. Embarrassed, stertorous breathing and semiconsciousness. Hallucinations, a magnetic state is induced, with a cutting sensation all around the eyeball. Thoughts and dreams of death. Headache after sleep (Lach.).

MIND - Restlessness worse drinking. Answers monosyllabic, "no" to all questions.

Clairvoyance. Fear at night. **Fear of being alone.** Fear that someone is behind him. **Thoughts of death when alone.** Hurried. Loquacity. Moaning during sleep. Starting during sleep. •

Delusions that the eyes were falling out. Delusions hears footsteps behind him. Fancies he hears groans. Sees spectres, ghosts, spirits. Death appears as a gigantic black skeleton. Hears voices that he must follow. Insanity alternating with metrorrhagia.

RELATIONS - Compare: (1) Crot-h., Lach., Naja, Vip.

REFERENCES - Clarke.

***CROTALUS HORRIDUS

(Timber Rattlesnake)

PHARMACY - crot-h. Crotalus horridus. Timber rattlesnake. N. O. Crotalide. North America. Trituration of sugar of milk saturated with the venom. Solution of the venom in glycerin. **Historical dose:** All potencies.

CLINICAL-Abscesses. Amblyopia. Appendicitis. BiHous, fever. Blindness. Boils. **Bubonic plague.** Cancer. Carbuncles. Chancre. **Ciliary neuralgias.** **Cirrhosis.** Convulsions. Delirium tremens. Dementia. Diphtheria. Dysmenorrhea. Dyspepsia. Ears, discharges. Ebola. Ecchymosis. **Edema.** Epilepsy. Eyes, disorders. Erysipelas. Face, distortion. Hematuria. Hepatitis. **Hemorrhages.** Heart, disorders. Herpes. Hydrophobia. Intestinal, hemorrhage. **Jaundice.** Keratitis. **Liver, disorders.** Lungs, disorders. Malaria. Mania. Mastitis. Measles. Melancholy. Meningitis. Milk-leg. Ovaries, disorders. Ozaena. Palpitations. **Paralysis.** Peritonitis. Phlebitis. **Plague.** Psoriasis, palms. **Purpura, hemorrhagica.** Pyemia. Remittent, fever. Rheumatism. Scarletina. Senile, dementia **Septic, blood.** Sleeplessness. Smallpox. Stings. **Strokes.** Sunstroke. Syphilis. Tetanus. Tongue, inflammation. Tongue, cancer. Typhlitis. Ulcers. Urticaria. Vaccination, effects. Varicose, veins. V aricocele. Vomiting, bilious. White-leg. Whooping cough. **Yellow, fever.**

HOMEOPATHIC - Crotalus horridus, the rattlesnake venom, affects the blood, heart and liver. It produces profound nervous shock with deathly sickness, trembling and

prostration. Easily tired by slight exertion. Profound nutritional action, nutritional troubles in old age.

Low septic states. General disorganization of the blood, hemorrhages and jaundice. **Hemorrhages from every part of the body.** Hemorrhages are slow, oozing dark thin blood, not clots. Hemorrhages from all the orifices and surfaces, especially from the pharynx. Hemorrhages from the pores of the skin. Bloody pus, sweat. Tissues rapidly decompose producing putrid and **malignant conditions.** Dark or bluish parts. **Septic conditions** in the tonsils, goiter, ulcers, abscesses, blood boils. Moldy odors of secretions. Fetor of evacuations and discharges. Tendency to carbuncles. Pete- chiae. Neuralgia as a sequel to sepsis.

Gangrene. Malignant scarlatina, **yellow fever.** **Bubonic plague.** Cholera. Stroke victims with bloody eyes. Chronic biliousness. Metastasis of erysipelas to brain. Menopausal conditions.

Fainting. Easily tired by slight exertion. Paralysis, post-diphtheria of the insane. Progressive muscular atrophy. Convulsions, epilepsy with trembling of the limbs, foaming at the mouth, violent cries, delirium. In epilepsy, the average rate is far greater than in normal conditions. Sleeps into his symptoms.

Pains alternate rapidly with each other and frequently recur, also appear and disappear suddenly after lasting some time (except headache). General burning. Swelling of whole body. Edema in general or of affected part. More **right-sided** in its action. Great periodicity.

MIND - Clouded perception, impaired memory. Timid. Aversion to hisfamily. Weak memory, cannot express himself correctly. Loss of memory, for words and figures. Mistakes in writing. Connected thoughts difficult. Senile dementia incipient, forgets figures, names and places or suspicious about his friends.

Weeping mood, agony, despair. Melancholy. Sadness during headache. Readily moved to tears. Weeping, tearful mood, while reading. Marked indifference.

Thoughts dwell on death continually. Fears of evil. Sensitive to certain persons.

Nervous agitation, anxious, pale, with cold sweat. Irritable, cross. Impatient. Irritable, cross, infuriated by least annoyance. Suspicion and snappishness, or quiet indifference. Plaintive speech. Intense restlessness, twitching and nervous agitation.

Loquacious with desire to escape. Delusions of cerebral decay. Feels as if surrounded by foes or hideous animals. Delirium, with wide open eyes. Delirium, muttering, mumbles, jumbles and stumbles over his words. Delusions awakes struggling with imaginary foes. Delirium tremens with constant drowsiness, but with inability to sleep. Mania in zymotic diseases and when connected with puerperal or ovario-uterine disease. Insanity with coldness of skin. **Abdomen** - Burning pain in abdomen. Swollen, hot, tender. Inguinal glands enlarged.

Bubo. Intestinal hemorrhage. Violent pain in left side near last ribs as if in diaphragm. Heat and tenderness of abdomen, can scarcely bear clothes on. Coldness in the stomach or abdomen as from a piece of ice. Violent pains in colon. Violent pain in region of appendix. Appendix feels large. Peritonitis. Typhlitis.

Back - Tearing pains from right shoulder to neck, worse on moving arm. Pain on top of shoulder and in ascending aorta. Aching in right kidney and in stomach. Drawing, tensive pain from right shoulder along neck, as from a tense tendon, worse pressure and moving arm. Softening of spinal cord. Carbuncles, boils, pustules, pimples or bed sores.

Breasts - Inflamed breasts.

Causations - Ill effects of fright, alcohol, sun. lightning, foul water, insect stings, noxious effluvia, or vaccinations.

Chest - Excessive oppression of chest. Burning in chest with heat in forehead. Stitches in right chest near sternum. Oppression in old people. Hydrothorax in fever and ague. Left axillary glands swollen and tender.

Constitutions - Broken-down constitutions. Chronic bilious, menopausal or albuminuric conditions. Hemorrhagic diathesis. Septic toxemic or even miasmatic disease.

Cough - Cough from external pressure on larynx. Cough as if from salt or pepper. Cough on awaking from sleep. Cough with stitch in left side. Dry cough on speaking, worse in dry or cold air. Nervous cough. Whooping cough, with blueness or pallor which is long in passing off. Cough with bloody sputum of moldy odor. Cough from tickling in throat. Cough with stitch in left side and bloody expectoration.

Ears - Otorrhea after scarlatina, offensive and bloody, with deafness. Otorrhea, result of alcoholism. Blood oozes from ears. Feeling of stoppage in right ear. Full sensation in ears. Erysipelas of external ear. Deafness, illusions of hearing. Auditory vertigo. Sensitive to noises.

Eyes - Dry and burning sensation. Yellow color of eyes. Burning, red with lachrymation. **Ciliary neuralgia**, tearing, boring pain, as if a cut had been made around eyes. **Retinal hemorrhages**. Bleeding eyes after strokes. Blood exudes from eyes. **For absorption of eye hemorrhages** into the vitreous. Photophobia, worse during menses. Very sensitive to light, especially **lamp light**. Ptosis. Keratitis. Exophthalmic goitre.

Face - **Sallow**. Dark, besotted face. Face yellow, death like pallor. Distorted on waking. Lips, swollen, stiff and numb. Lockjaw. Acne of masturbators. Small blisters around eyes. Eruption around mouth. Frequently recurring erysipelas of face. Face swollen and red during delirium tremens and fever. Swelling of submaxillary and parotid glands.

Female - Uterine hemorrhage with faintness at stomach. Sensation as if the uterus would drop out. Prolonged menses. Dysmenorrhea with pain in hypogastrium, down the thighs with aching in the region of the heart. Painful drawing in uterine ligaments. Puerperal fever. Offensive lochia. Phlegmasia alba dolens, worse touch. Alcoholics with delayed menses. Ovarian neuralgia. Ovarian abscess. Vicarious menses. **Menopausal flushings, sweat**. Fungoid cancer of uterus. Cauliflower excrescences. **Miscarriage during course of septic or zymotic disease**. Miscarriage from other blood-poisoning causes.

Food - Hunger with trembling, weakness, and occipital headache. Aversion to meat. Craves pork. Desires stimulants, sugar. **Diseases caused by abuse of alcohol**. Unquenchable burning thirst.

Head - Dull, heavy occipital pain, on right side and right eye. **Pain in occiput, as of a blow**. Headache in waves from spine. **Severe pain at the center of forehead**. Headache with pain in heart, on lying on left side. **Sick headache with vertigo**. Headache worse jarring, must walk on tiptoe. Dull headache before attack of uremic coma. Bilious headache every few days. Throbbing headache with nausea before menses. Meningitis. Violent itching of scalp, eruptions, pustules. Falling off of hair, as a result of toxemia. Soreness in back of head on pressure.

Heart - Aching in region of heart. Weak, trembles, action feeble. Heart beats rapidly, but feebly. Trembling feeling of heart. Heart tender when lying on left side. Much pain in heart, through left shoulder and down left arm. Palpitations with sore pain in and about heart. Palpitations as if heart tumbled about. Palpitation during menses. Pulse rapid and weak, scarcely perceptible. Pulse feeble and quick, then slow. Pulse fluttering, frequent. Pulse small, quick, threadlike. Pulse wavy, or slow.

Kidneys - Nephritis. Inflamed kidney. Suppression or painful retention of urine. Urine scanty, dark and red with blood. Nephritis albuminosa in pregnancy. Albuminuria in course of typhoid, diphtheria. Albuminous, dark, scanty (Merc-c.). Dark, bloody urine, green-yellow. Casts. Hematuria with bronchitis. Hematuria with bladder or prostate cancer. Hemorrhage from kidney after scarlet fever. Hemorrhage from urethra. Urine copious and light colored. Yellow or reddish-yellow urine, from much bile.

Limbs - Phlebitis, varicose veins and varicocele. **Right-sided paralysis**. Paralysis of left hand and leg. Arms and legs become numb, first one and then the other.

Lower limbs go to sleep easily. Cannot keep legs still. Pain in top of shoulders. Hands tremble, swollen. Hands feel dead when sewing. Heaviness as if bones were made of heavy wood. Bruised pain in joints and bones. Numb pain as after cramp, in anterior of fingers and in toes. Right-sided paralysis. Limbs inflamed, swollen and gangrenous. Contraction of flexors. Gonorrheal rheumatism. Cannot keep legs still.

Liver - Jaundice, malignant with hemorrhage. Stitches in region of liver on drawing a long breath, worse by pressure. Aching in liver, vomiting, coldness. Pain in region of liver and top of shoulders.

Lungs - Asthma with cardiac disease. Asthma, with great debility and prostration, blue, puffy countenance, cold sweat. Anxious, labored breathing. Oppression in old people. Tickling from a dry spot in larynx. Difficult breathing, as if lungs would not expand. Embarrassed breathing with constriction of throat. Quick, labored breathing with weak pulse and nervous agitation. Bronchiectasis, putrid bronchitis, chronic bronchorrhea. Edema or gangrene of lungs. Pneumonia with tendency to gangrene or haemorrhage.

Male- Prostate cancer, painful (Con.). Sexual instinct increased with entire relaxations of penis. Sharp cutting in glans.

Modalities - Better from rest, motion, light. Head and stomach symptoms better from open air. Worse in morning, on waking or wakes the patient up in the night. Worse right side. Worse lying. Worse falling asleep. Worse jar. Worse exertion. **Worse from alcohol.** Worse open. air. Worse damp, wet. Worse evening and morning. Worse in spring. Worse changing to warm weather. Worse yearly. Cold air aggravates the throat and respiratory symptoms. Dry air aggravates cough.

Mouth - Complete loss of taste. Fills up with saliva. Saliva bloody, frothy. Salivation at night. Stiff palate. Cannot speak on account of sensation of constriction around tongue and throat. Fetid breath. Putrid, sore mouth. Moldy smell of breath.

Nose - Nosebleed especially during diphtheria or other septic diseases. **Nosebleed, blood black and stringy.** Ozaena after exanthemata or syphilis. Nosebleed with flushes of face, vertigo or fainting. Bloody discharge. Tip of nose swollen and cold. Tip of nose, blue and red.

Perspiration - Bloody sweat. Sudden attacks of cold sweat. Colored sweat.

Rectum - Constipation with headache. Shuddering with diarrhea, aphonia. Diarrhea with nausea, thirst and anxiety. Diarrhea from septic matter in food or drink. Dysentery, septic. Hemorrhoids in pregnant women, and with menstrual irregularities. Hemorrhoids connected with heart disease or liver disease. Rectal hemorrhage, blood dark, fluid, non-coagulable. Rectal hemorrhage when of hepatic, splenic or cardiac origin. Bleeding from anus when standing and walking. Violent purging, with disagreeable sensation through whole body and nauseous taste. Perineal abscess.

Sensations - As from a blow on occiput. As if tongue and all around throat were tied up. As of a plug in throat to be swallowed, of choking. As if the heart turned over like a tumbler pigeon.

Skin - Skin cold and dry. Skin dry, stiff, like thin parchment. **Lymphangitis and septicemia**, from dissecting wounds. Skin, cold and dry. Yellow color of the whole body. Jaundice. **Purpura hemorrhagica.** Great sensitiveness of skin of **right half** of body. Sore sensation relieved by pressure. Pustular eruptions. Blood boils, carbuncles, felons. **Hemorrhages from every part of body.** Chilblains, felons. Boils, carbuncles and eruptions are surrounded by purplish, mottled skin and edema. Anthrax. Vesication. Dissecting wounds. **Edema** about the affected part. Petechial spots. Old scars break open again. Old ulcers. Bloody sweat. Post-vaccination eruptions. Stings of insects. Gangrene with diarrhea. Pemphigus.

Sleep - Drowsy, but cannot sleep. **Sleeplessness from nervous and mental distress.** Sleepless from nervous agitation. Starting in sleep. Smothering sensation when awaking. Symptoms worse after sleep. Dreams of dead persons. Travelling dreams. Dreams of quarrels. Horrible dreams. Yawning.

Stomach - Atonic dyspepsia. Trembling, fluttering below the epigastrium. Heartburn. Intolerance of clothing about epigastrium. Faintness and sinking at stomach. Ulceration of the stomach. Gastritis in chronic alcoholism. **Cancer of stomach** with vomiting of bloody, slimy mucus. Constriction of pylorus. Nausea on movement. Unable to retain anything. Violent vomiting of food. Constant nausea and vomiting every month after menstruation. Cannot lie on right side without vomiting dark-green matter. Black or coffee-grounds vomiting. Bilious vomiting. Vomiting of blood. Ulceration of stomach. **Vomiting on least exertion.**

Stool - White stools. Stools, black, dark green, thin, offensive, like coffee-grounds. Stools followed by debility. Liquid stools, with colic. Involuntary stool.

Teeth - Gums white. Bleeding of gums. Gums swollen, painful, borders reddened. Grinding of teeth during sleep.

Temperature - Chill alternating with heat. Severe chills. Malignant fevers of a **hemorrhagic or putrescent character.** Low bilious remittents. Plague fever. Black water fever. Yellow fever. Cerebrospinal meningitis (Cic., Cup-a.). High fever. Bloody sweat, cold sweats. Pyemia. Hectic fever with burns, compound fractures,

lacerated wounds, dissection wounds, cellulitis, erysipelas, stings of insects.

Throat - Dry, swollen, dark red with thirst. Spasm of esophagus, cannot swallow any solid substance. Gangrenous with much swelling. Tickling from a dry spot in larynx. Tight constriction of throat. Hoarseness, with weak, rough voice. Sore throat. Fauces sensitive to dry or cold air. Quinsy with much venous congestion. Tonsils bulge and are tender. Laryngismus stridulus. Edema glottidis. Paralytic aphonia. Ulceration from necrosis of cartilages of larynx. Acute laryngitis from burns. Laryngitis from stings of insects.

Tongue - Glossitis. Tongue numb and stiff. Tongue, yellow, enormously swollen, protruded to the right. Tongue red and small, but feels swollen. Tongue fiery red, dry in center, smooth and polished. Cancer of tongue with hemorrhage. Tongue very foul, with red tip. Tongue swollen to nearly twice the normal size. Edema of tongue after sting of insects.

Vertigo - Vertigo with pale face. Auditory vertigo. Menière's disease. Vertigo with faintness, weakness and trembling. Fainting on assuming upright position. Dizziness and fainting with occipital headache. Anemic vertigo, better resting head. Vertigo from fright. Vertigo with dilated pupils. Vertigo from lightning or sunstroke.

Vision - Amblyopia from hemorrhage, debility and exhaustion. Amblyopia from grief or from over use of vision. Diplopia. Illusions, blue colors. Dim vision for distant objects. Dim vision when reading. Lost vision with lethargy and coldness. Momentary disappearance of vision with profuse lachrymation. Muscae volitantes and various colored flames. Weak vision after an attack of keratitis or kerato-iritis.

COMMENTS - Crot-h. produces profound nervous shock and prostration with trembling, mental alienation and disorganization of the fluids and tissues. Bleeding from all orifices and surfaces. Hemorrhagic diathesis caused by previous low states of system, by zymotic or septic poisoning, by abuse of alcohol, etc.

Low, typhoid states with oppressed nervous system and degraded blood-supply. Neuralgia occurring as a sequel of septic toxemic or even miasmatic disease or chronic bilious, menopausal or albuminuric conditions. Broken-down constitutions. Sleepy, but cannot sleep. Grinds teeth.

Predominantly a right-side medicine (Lach, is left). Acts strongly on the liver and corresponds to jaundice and yellow fever. Used as a prophylactic against yellow fever. For this inoculation with diluted virus has been practiced.

The cobra poison (Naja.) coagulates blood into long strings. Crotalus poison is acid, the Viper neutral. The Rotton-snake ("Birri") causes more sloughing than any other.

Hering wrote that Crot-h. is preferable in fluid hemorrhages, with yellow skin, hence in yellow fever with black vomit, and nosebleed of diphtheria. Naja, has more nervous phenomena. Lach, has cold, clammy skin, rather than cold and dry, hemorrhage with charred-straw sediment, and more markedly ailments of the left side. Elaps is preferable in otorrhea and in disorders of the right lung.

Hayward observed that sloughing is a strong indication for Crot-h. and the cure with this remedy of his own daughter of scarlatina maligna with gangrenous-looking sore-throat was a dramatic outcome of his researches. Symptoms of Crotalus Durissus as well as Crotalus Horridus are included in the pathogenesis.

A case of rattlesnake bite and its isopathic cure, related by Dr. J. S. M. Chaffee in Hom. News, Sept., 1892, gives a good general idea of the action of the venom.

"I was called to see James Wright, aged 54 years, who, while binding wheat, was bitten on third finger of right hand by a rattlesnake. I found him bleeding from the bitten finger and from eyes, nose, ears, mouth, rectum and urethra, pulse 110, small, wiry, respiration 40, temperature 105, haggard expression, whole body bathed in hot perspiration, delirium.

"This patient had the regular routine treatment of whisky, quinine and carbonate ammonia for ninety-six hours, when the attendants withdrew and pronounced the case beyond the reach of medical aid. A marked characteristic symptom was a moldy smell of breath with scarlet red tongue and difficult swallowing. Great sensitiveness of skin of right half of body, so much so that the slightest touch would produce twitching of muscles of that side.

"I prescribed Crot-h. 30c trituration, 30 grains in four ounces of water, a teaspoonful every hour, until my return visit, twenty- four hours later, when I found marked improvement.

Temperature normal, pulse full, soft and regular, delirium gone, saliva and urine slightly tinged with blood, appetite returning, he having asked for food for the first time since the accident. The medicine was continued for two more days, when recovery was practically complete."

RELATIONS-Antidote: Lach., Alcohol. Radiant heat. Camphor. **Compare:** (1) Both., Naja - more nervous phenomena. (2) Lach. - more markedly worse on left side. (3) Elaps - preferable in otorrhea and disorders of right lung. (4) Crotalus cascavella - poliomyelitis.

REFERENCES - Boericke. Clarke. Phatak.

***CROTON TIGLIUM

(Croton Oil Seeds)

PHARMACY - croto-t. Croton tiglium. Croton oil seeds. Tiglium officinale. N. O. Euphor- biacae. Tincture of the oil from the seeds. **Historical dose:** All potencies.

CLINICAL - Blisters. Cholera, infantum. Colic. Diarrhea. Eczema. Eruptions. Herpes, zoster. Neuralgias. Ophthalmia. Otorrhea. **Poison ivy.** Pustules. **Rashes. Rhus, poisoning. Skin, disorders.** Vesicles.

HOMEOPATHIC - Croton Tiglium was used as a powerful purgative and irritant of the skin in ordinary practice, therefore causing watery discharges.

Croto-t. has a strong affinity for skin, face and external genitals. It is one of the **antidotes to rhus poisoning**, as is evident from its wide and intense action upon the skin and mucus surface, causing irritation and inflammation with formation of vesicles and mucus discharges.

Croto-t. is a valuable remedy in diarrhea, summer complaints and **skin disorders**. Skin symptoms alternating with internal symptoms, diarrhea etc. Many symptoms spread from below upwards.

Peculiar feeling as if parts were drawn backwards, eyes, nipples, etc. Skin feels hide-bound, tight all over.

Burning in the esophagus. Marked eye symptoms include purulent ophthalmia, ulceration and hypopion.

Croton tiglium

Affects the mucus membranes of the intestines. Colic before stool, constant urging, worse from eating, drinking, and every movement. Stool is yellowish or yellowish green. Characteristic sudden evacuation in one gush, like a shot, followed by great prostration.

MIND - Morose, dissatisfied. Cannot think outside himself. Feels all spent up. Feeling of anxiety, as though some personal misfortune would befall him. Not disposed to work.

Abdomen - Pressure on the navel causes pain in the rectum or urging for stool. Colic, better hot milk.

Breasts - Nodes in breasts with pain from nipple to scapula. Breast hard, swollen. Inflamed breasts. Nipples very sore to touch. **Pain from nipple to back** when child nurses.

Chest - **Drawing-pain through the left chest into the back.**

Constitutions - Psoric and allergic constitutions.

Ears - Otorrhea, with great itching.

Eyes - Purulent ophthalmia, red and raw appearance. Pustules on cornea with eruptions around eyes. Granular lids, pustules of cornea. **Eyes feel drawn backward. Tensive pain above right orbit.**

Face - Pustular eruptions on the face. As though insects were creeping.

Female - Intense itching of genitals, better by gentle rubbing.

Head - Pressing pain in forehead, especially orbits. Weight of hat causes headache.

Kidneys - Night urine, foaming, dark orange colored, turbid on standing, greasy particles floating on top. Day urine is pale with white sediment.

Limbs - Neck and shoulders painful.

Lungs - Asthma with cough, as soon as he touches the pillow, must sit up. Could not expand the lungs. Feels as though he could not inhale deeply enough. Sensitive to deep breathing.

Male - Eczema of scrotum. Vesicular eruptions on scrotum and penis. Left testes retracted, right pendent.

Modalities - Better after sleep. Better gentle rubbing. Many symptoms are worse at night. Worse least food or drink. Worse

Croton tiglium during summer. Worse night, morning. Worse receding eruptions. Worse washing. Worse touch, pressure. Worse motion, and when sitting or crouching. Dizziness and faintness are worse in open air. Drinking cold water while heated causes complete loss of voice. Colic worse hot milk. Diarrhea is worse in summer.

Mouth - Neuralgia of the tongue. Burning in esophagus.

Rectum - Swashing sensation in intestines. Pain in the anus as if a plug were forcing outwards. Constant urging to stool, followed by sudden evacuations. Copious, watery stools with much urging, **then profuse sudden gushing stools of yellow water.** Diarrhea worse drinking the least quantity or while eating, followed by prostration. Summer diarrhea. Cholera infantum.

Sensations - As if the skin were hide-bound. Mentally hide-bound, can't think outside of himself. As of a string pulling from one part to another, from eyeball to back of head, from nipple to back, with pain in nipple when the child nurses. Cutting, sticking, stinging, stitching pains and burning stitches. Writhing in transverse colon. As if a plug were forcing outwards at anus.

Skin - **Rhus poisoning, poison ivy and oak.** Eczema. Herpes zoster, stinging, smarting pains of the eruption. Vesicular erysipelas. Confluent, oozing, vesicles. Pustular eruptions, clustered blisters, which burst and form crusts, especially on **face and genitals** with fearful itching, followed by painful burning. **Intense itching, but scratching is painful.** Violently itching, burning, red skin, sore if scratched, better gentle rubbing. **Feels hide-bound.**

Stomach - Excessive nausea with vanishing of sight.

Vertigo - Vertigo, worse drinking.

COMMENTS - On the skin, Croto-t. produces erythema, erysipelas, eczema, and herpes pustules. Large, copper-colored spots almost like liver-spots. Small, red blotches that are not very apparent in thighs, abdomen and genitals, all accompanied with intolerable itching. Useful to antidote poison ivy and poison oak, particularly on the face and groin. Croto-t. antidotes Rhus-t. and the antidote to Croto-t. is Ant-t. Guernsey gave the skin indications as "in any skin disease which itches very much, but the patient cannot bear to scratch very hard as it hurts, a very slight scratch, a mere rub suffices to allay the itching. Erysipelas that itches exceedingly." He also gives "otorrhea when there is much itching."

Teste, who was among the first to use Croto-t. homeopathically, gave a very interesting account of it. He quoted Trousseau and Pidoux as saying that it often happens that eruptions are developed on parts not touched by the remedy in those who have been engaged in making Croto-t. ointments on patients.

The face and the scrotum especially have been thus attacked. The itching which it causes, according to Teste, is at first more tingling than burning (the contrary taking place with Rhus-t.). The itching changes to burning (like Rhus-t.).

Teste recorded the case of a delicate, cachectic, psoric girl of four who had suffered for two years without interruption from a fetid discharge from the nose, less in winter, more in summer. Before this, she had a vesicular eruption on chest and neck, which disappeared by itself, followed in three or four days by the discharge.

After the failure of Sulph., Merc., Calc., on the indication of the previous eruption. Teste gave Croto-t., and in less than a fortnight the disease lost three-fourths of its intensity, although it was in mid-summer. Six months completed the cure, the only other remedies given during the time were Lob. and Kreos.

A second case from Teste records a man of forty, very fleshy, who for fifteen years had been subject to attacks of gout returning every spring, except on two occasions when a most fatiguing and obstinate rash appeared instead.

This consisted of an intense redness of the whole body, accompanied with a burning itching, especially in the hollow of the hands, at the chest, and behind the ears.

These parts were the seat of a yellowish, plastic exudation, emanating from a multitude of small vesicles in close contact with each other. They were only distinctly perceived in places where they were less numerous and where a greater degree of resistance on the part of the epidermis imparted to them a certain persistence. Each time this eruption broke out, it lasted three months in spite of purgatives and the baths of Bareges and Aix les Bains. When Teste saw the patient, he had neither gout nor eczema, but dry, racking, almost convulsive and unceasing cough.

Skin was rather hot, there was thirst, a little headache, heat in the chest, no dyspnea. Sometimes, especially in the evening, but only for a few days, he showed a tendency to syncope.

At the end of three weeks, having received no benefit from Teste's treatment, the patient took of his own accord three tablespoonfuls of the "Syrup of White Poppy," at bedtime. The cough ceased entirely for some hours and then returned in its old intensity.

But during the intermission the malady had come out on the skin, and at daybreak the patient found himself covered from head to foot with his old horrible eczema. He was almost unrecognizable and in a state of the deepest anxiety and despair. He expected three or four months of it.

Teste then gave Croto-t. The itching disappeared the same day. Within five or six days there remained not a trace of either cough or eruption. As the patient left Paris, Teste was not able to follow the case in subsequent years.

Conrad Wesselheft cured a case of proctalgia in a woman of thirty with Croto-t. 3x. The attacks came on after stool, lasting half a day and preventing her from fulfilling her duties as a teacher. There were no hemorrhoids, only sensitiveness of rectum to touch.

He was led to the remedy by having previously had another patient who suffered from a similar pain after using Croton pills. Pain in the rectum came on with extreme intensity after straining at stool and the patient (also a woman) was in agony for three hours afterwards with frequent tenesmus.

The pills were stopped and Nux-v. given, and she was well in a week.

RELATIONS - Antidote: Ant-t. **Compare:** (1) Rhus-t., Anagallis, Anae., Sepia. (2) Momordica charantia - has marked drastic properties, producing colic, nausea, vomiting, cholera-like symptoms, abdomen seems full of fluid discharged explosively, thin, watery, yellow. Great thirst.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CUBEBA OFFICINALIS

(Cubebs)

PHARMACY - cub. *Cubeba officinalis*. Cubebs. *Pipercubeba*. N. O. *Piperaceae*. Tincture of dried unripe fruit.

Historical dose: Tincture and all potencies.

CLINICAL - Albuminuria. Aphthae. Bedwetting. Catarrh. Croup. Cystitis. Diarrhea. Dysentery. Gleet. Gonorrhea. Hernia. Leucorrhea. Orchitis. Prostatitis. Rheumatism. Roseola. **Urethritis**. Urticaria.

HOMEOPATHIC - *Cubeba* is an old-world remedy for gonorrhea and gleet. It affects the mucous membrane of the nose, air passages, intestines, and the uro-genital tract. It acts well in persons of bilious temperament with tendency to constipation.

Burning, rawness is felt in the throat in stomach, abdomen, rectum, urethra, fossa navicularis. Catarrh. Discharges are thick, acrid, yellow, pus like, green, offensive after violent inflammation. Frequent urination of a nervous origin. Leucorrhea in young girls. **MIND** - Weakness of intellect. Frequent absence of mind. Loss of memory. Is unable to accomplish anything. Waking reveries. All his ideas are confused and wandering. Cannot find words to express himself. Exaltation of temper and mental faculties. Starting from noises. Uneasiness, anxiety, can't remain in bed.

Madness, with sorts of beastly extravagances. Impatient, irritable, a mere trifle provokes him. Furious insanity, with wickedness. Breaks everything within his reach, out of sheer malice. Mania, desire to strike and to kill. Impulse to swear at people. Im-

Cubeba officinalis pulse to strike them and spit in their faces, even to bite them.

Proneness to debauchery and every species of excess. Shamelessly indecent in thoughts, words, and gestures, especially towards evening. Delirium. Lascivious words and thoughts, with violent priapism. Lewd talk. Incoherent speech during sleep.

Paroxysms of foolish gaiety, with great loquacity, or silent weeping, towards evening. Want of decision and will-power. Fits of dejection, apathy, insensibility. Indifferent to everything.

Regards himself as more of an invalid than he really is. Delusion he is unfortunate. Disturbed about his health and social position. Paroxysms of anxiety, suffocation and fainting. Excessive nervous excitement; he is very easily frightened.

Abdomen - Distended and very sensitive. Burning in stomach and abdomen. Burning and pressure about navel. Cutting pain in hypogastrium before stools. Sensation of weight, pressure and pain.

Constitutions - Suitable to persons of bilious constitution with tendency to constipation.

Cough - Cough seems to tear bronchi. Cough in bronchitis. Incessant cough, bronchial. Barking and croupy cough with feeling as of a foreign body in larynx. During and after cough cold sweat upon breast and back, burning in abdomen. Cough with coryza and hoarseness.

Ears - Obstinate otorrhea. Offensive discharge.

Eyes - Rheumatic or gonorrheal ophthalmia. Fullness in eyes, turgid and watery.

Face - Fullness of face or red and pale by turns. Lips puffed, dry and shining. Twist of mouth to one side.

Female - Urethritis. Vaginitis, chronic with profuse discharge. Acrid leucorrhea in young girls. Leucorrhea, profuse, acrid, offensive, yellow or green, with pruritus. Leucorrhea with erythema at inner surface of thighs. Menses too soon, often preceded and followed by leucorrhea. Menses scanty, and consisting mostly of leucorrhea.

Food - Increased appetite. Craving for oranges, onions, almonds and nuts. Desires delicacies, acid fruits. Desires brandy, spirits, fresh bread. Mucus diarrhea worse fruit, acids. Unquenchable thirst with feeling of dryness of mouth and burning in throat.

Head - Veins of the forehead and temples are distended. Contractive and pressive pains with drowsiness, but without sleep. Deep-seated pains. The hair becomes white. Falling off the hair, especially in the evening. Pustules on the scalp, forming scabs like those of small-pox. Intolerable itching of the head, with burning ulcers.

Kidneys - Burning and itching in fossa navicularis. Hematuria. Cystitis. **Urethritis with much mucus**, especially in women. Cramp, cutting, burning in urethra after urination, with constriction. Stringy gonorrhea. Sensation as if bladder still contained water. Last drops of urine passed with pain. Urine frothy. Urine copious, dark. Urine, odor of violets. Nocturnal enuresis.

Limbs - Sensation of heat in palms and soles. Numbness of fingers and toes. Wrists stiff and thicker about joints. Acute, deep-seated pains.

Lungs - Dyspnea. Catarrh of nose and throat with fetid odor and expectoration. Mucus trickles from posterior sinuses. Rawness of throat and hoarseness. False membrane in larynx, danger of suffocation. Hurried and noisy breathing. Impeded breathing with crepitant rales. Dyspnea and sense of suffocation.

Male - Pale, copious, slimy discharge from urethra after use of alcohol. Prostatitis with thick yellow discharge. Pressure and heaviness in penis. Sexual excitement. Gonorrhea with profuse discharge and scalding pain during urination. Pale, copious, slimy discharge, causing soiled linen to become stiff. Thick, yellowish-green

discharge with frequent obstruction of urethra.

Modalities - Better from getting up and walking about. Worse from night, in bed.

Mouth - Aphthae of lips and gums. On attempting to smile or speak his mouth seems to twist to one side. Mouth as if dry, though moistened with an oily saliva, great thirst. Tongue furred and moist or very white.

Nose - Post-nasal catarrh. Mucus trickles from nose into throat with rawness of throat and hoarseness. Nasal catarrh, with fetid odor and catarrh of throat. Nasal catarrh with greenish-yellow expectoration.

Rectum - Constipation with hemorrhoids and tenderness of perineum. Burning and itching of anus. Relief of pains after stool. Loud flatus during stool. Long-continued tenesmus. Gelatinous stools of transparent mucus mixed with whitish, shining particles like rice, worse night, in bed, better getting up and walking about. Diarrhea with rumbling and cutting in abdomen and burning in rectum. Stools cold.

Skin - Eruption all over body like urticaria. Roseolous papules without fever or itching. Intense itching. Skin diseases with kidney affections. Skin diseases with catarrh of bladder and urethra.

Stomach - Burning in stomach and abdomen. Uneasiness, heat at pit with fever. Sour eructations. Nausea and vomiting.

Throat - Swallows saliva constantly to relieve burning and dryness of the throat. Catarrh.

Vertigo - Frequent giddiness, so that he is afraid of falling.

COMMENTS - Burning in throat with dryness, constant need to swallow saliva. Burning in stomach, abdomen, rectum, urethra and fossa navicularis. Prickling in soles of feet. Sensation of downward weight and pressure in region of femoral ring, worse on walking, riding or lifting.

Stools and colic are worse at night in bed, better getting up and walking about. Urine foaming. Albuminous, bloody. Acrid leucorrhea in children. Skin diseases with kidney disorders.

Nash defined its place in gonorrhea as "After the inflammatory stage is passed under the usual remedies for that stage, if there still remains burning in the urethra after urination and the discharge remains thick, yellow or pus-like (with Puls, the discharge is bland with Merc, all symptoms are Worse at night). Thin (gleety) discharge does not correspond to any of the three."

RELATIONS - Cop. with which it is compatible. **Compare:** (1) Cucúrbitas. (2) Cop.. Santa. (3) Pipermethyst. Pi per nigrum and Matico. Caps, Canth. (4) irritable bladder in females. Terebe., Cann-s. (5) Iod. - membranous croup.

***CUCURBITA CITRULLUS

(Watermelon Seeds)

PHARMACY - cuc-c. Cucúrbita citrullus. Watermelon seeds. N. O. Cucurbitaceae. Cucúrbita. **Historical dose:** Tincture and all potencies.

CLINICAL - Backache. Coryza. Diuresis. Dysuria. Rheumatism. Sneezing. Sinusitis.

HERBAL - Infusion of watermelon seeds for painful urination with a sense of constriction and backache.

HOMEOPATHIC - All those with hy- drogenoid constitution and suffering from rheumatic problems were found to be affected most. Tendency to suppuration. Tendency to catching cold. Internal heat but external coldness. Increased perspiration.

MIND - Irritable, on the slightest provocation or controversy. Irritable, esp. with children. Violent anger. Wants to fight, but lacks the physical strength, so cannot. Depressed feeling in the morning. Desires death.

Abdomen - Fullness, bloated feeling. Pain in abdomen worse milk, worse coffee. Pain in left side of abdomen. Abdomen pain, worse pressure. Abdomen pain, better lying on right side, passing flatus, warmth.

Face - Swelling of face in morning. Swelling of left cheek in morning.

Food - Increased appetite. Must eat, cannot remain hungry which she could before. Hungry at night and also in the morning. Appetite increased after stools. Aversion to sweets. Desire for sweets decreased. Desires cold drinks. Desires ice cream, spicy food. Worse coffee, milk. Better

Cucúrbita citrullus warm drinks.

Headache - Left-sided headache. Bursting pain. Heaviness. Headaches worse after 4 p.m., evening. Headaches worse pressure, motion of head. Headaches worse sun, reading, lying down. Headaches better warm bath, open air, rest, night, sitting.

Modalities - Worse left side. Worse Sun. Worse travelling.

Mouth - Salivation increased. Stringy saliva.

Nose - Sneezing. Coryza. Watery, acrid discharge, followed by sticky, greenish discharge. Sinusitis maxillaris.

Perspiration - Profuse perspiration at the nape of neck at night.

Rectum - Sudden urging for stool in early morning, worse 3 a.m. to 6 a.m.

Sleep - Drowsiness. Increased sleep with drowsiness.

Stomach - Retching of stringy mucus.

Throat - Sore throat, with pain in spots mainly left side, worse Empty swallowing.

Vertigo - Faint feeling and vertigo. **RELATIONS - Compare:** Equisetum. **REFERENCES** - Boericke.

***CUCURBITA PEPO

(Pumpkin Seeds)

PHARMACY - cuc-p. Cucúrbita pepo. Pumpkin seeds. Cucumis macrocarpus. N. O. Cucurbitaceae. Cucúrbita. Tincture of fresh plant. **Historical dose:** Tincture and all potencies. **Historical dose:** Tincture and all potencies, two ounces of seed, yielding one of pulp. May be mixed with cream and taken like porridge.

CLINICAL - Gonorrhea. Morning, sickness. Nausea. Roundworm. Seasickness. **Tapeworm.** Urinary, disorders. Vomiting. **Worms.**

HERBAL - Cucúrbita pepo is of service in strangury and urinary affections, also in gastritis, enteritis, and febrile diseases. A tincture of the vines and of the seeds has been prescribed with alleged benefit in vomiting of pregnancy. It also has cured vomiting of food and salivation in non-pregnant women. Intense nausea immediately after eating.

Cucúrbita pepo

Vomiting during pregnancy. Seasickness.

One of the most efficient and least harmful of vermifuges, which may be given safely to children. An infusion of the seeds has also been found effectual in removing tapeworm. After a few hours, a purgative, like castor oil, may be administered to aid in the expulsion of the worm. This is also effectual in removing the roundworm.

HOMEOPATHIC - Hansen mentioned that missionaries found the n.other tincture of great use in seasickness and vomiting during pregnancy. Bonino recorded that Cuc-p. 3c cured salivation and vomiting in a woman in whom the menses were absent and who was erroneously supposed to be pregnant.

Grist recorded a case in which a woman, four months pregnant, vomited almost from conception and for six weeks had not retained a meal. "I am almost starved to death," she said, was pale, haggard, tongue clean. Soon after eating or drinking anything she became intensely nauseated.

The doctor got a fresh pumpkin stem, cut it into thin slices and covered them with alcohol. At the end of half an hour he poured off a little and made a 1x dilution and directed half a drachm to be put in half a tea cupful of water, a teaspoonful every two hours. There was no further vomiting.

Dr. Grist's indication was "**Intense nausea immediately after eating.**"

COMMENTS - For treatment, the seeds should be scalded, the softened outer skins peeled off as the green, inner pulp is used. Use two ounces of the seeds, yielding an ounce of pulp, for each patient. The pulp should be rubbed in a mortar or some other vessel to make a smooth mass.

The seed- may be mixed with milk or cream, and sweetened and taken like porridge. It should be taken in the morning after a twelve to sixteen hour fast, and be followed in two hours by a castor-oil purge.

The infusion may be drunk freely. The expressed oil of the pumpkin seeds, in doses of 6 to 12 drops, several times a day, is said to be a most certain and efficient diuretic, giving quick relief in scalding of urine, spasmodic affections of the urinary

Cucúrbita pepo passages, and has cured gonorrhea.

Half a fluid ounce of oil of pumpkin seeds, taken upon a fasting stomach, repeated in 2 hours, and in another 2 hours followed by a dose of castor oil containing 1/2 fluid ounce of the pumpkin-seed oil. has been effectual in removing tapeworm.

Hale's method of using this remedy was to have the patient eat only a little of the lightest food all day, taking no supper and, on going to bed, to eat one ounce of the peeled seeds, bruised with milk or cream.

In the morning on waking, he had them take a tablespoonful of castor oil, mixed with half a teaspoonful of pure sulfuric ether. No breakfast was taken, only a cup of tea or coffee. In two or three hours the oil would operate, expelling the worm.

RELATIONS - Compare: (1) Filix, Cina, Cuprum oxid. nig., Spig.

REFERENCES - Boericke. Clarke.

***CULEX MUSCA

(Mosquito)

PHARMACY - culx. Culex musca. Mosquito. N. O. Culicide. Insecta. Tincture. **Historical dose:** All potencies.

CLINICAL - Cramps. **Edema.** Flatus. Vertigo.

HOMEOPATHIC - Kent wrote "When this remedy is needed your patient will present to you a picture of something on fire, he burns like something he would like to mention and perhaps does mention the place, the itching and burning are present every where in this remedy, he mbs and scratches wherever the eruptions

appears."

Edematous swelling. Sensation as of cold air blowing through a hole in clothes on the chest or back. Strange feeling of having been poisoned. Menses stain indelibly. Generally a right-sided remedy.

Sharp, stinging pains all over the body like needles, lightning-like. Pain, itching, burning, worse in a warm room and better in the open air. Pains darting here and there, aggravated by light pressure and ameliorated by hard pressure. Gripping pain down over hips, then into the womb.

Vertigo on blowing the nose. Tired and weak. Can scarcely move, cannot walk straight, with soreness and aching all over the body. Nervous, finds it impossible to keep still, almost constant motion of the hands and feet (Zinc.).

MINI) - Busy scratching to relieve the itching, and walking to relieve the restlessness, any interruption makes him impatient and ready to quarrel. Anxiety and fear of death. Poor memory and a disinclination for all work.

Abdomen - Cramps in the abdomen during stool, with rumbling and the passing of much offensive flatus. Colicky pains come on about 10 a.m. and last from one to three hours. Blotches on the abdomen the size of a twenty-five cent piece. Itching, burning, with little pimples on the blotches.

Back - Dull pain in the right side in the region of the kidney, extending up the back to the occiput.

Chest - Cutting pains in the right pectoral muscles. Right side of the neck is swollen.

Ears - Swelling of the parotid glands and soreness on pressure, pain as if he were going to have mumps. Sharp pains in both ears followed by sticky, watery discharge.

Eyes - Inflamed eyeballs. Stye-like ulceration. Rending pains in the eyeballs, could not keep his eyes open, yet it pained to keep them shut. Eyes feel tired. Feeling of fullness in the right eye, extending to the parotid gland, to the sub-lingual, and finally involves the right side of the face and head. Margins of the lids are sore and crusted over. Inflammation of the lids, worse in the morning with a discharge of sticky fluid.

Face - Swollen sub-maxillary gland, tender on pressure. Eruption on the face and between the eyes, contains a colorless fluid, with swelling and puffiness under the eyes. Heat and redness of the right side of the face, with a sore bruised feeling.

Female - Menses, too soon, with a profuse dark clotted flow. Violent pains in the uterus, compelling her to go to bed. Itching and burning in vagina, so intense that she feels as if she could tear it to pieces, can return at intervals for years.

Food - Ravenous appetite, feels faint if supper is late. Especially hungry and faint in the morning, cannot wait for breakfast to be prepared.

Head - Dull, frontal headache, begins on waking at 5 a.m. and passes away after lying awake for a while. Headache, worse from the least motion. Headache followed by intense vertigo in the afternoon, located in a spot over the right eye. Head pains go from the cerebellum to the forehead or right temple. Boring pains in the temples, several times a day. Pain comes and goes across the forehead just above the eyes. Rending pain in back of the eyeballs. Itching and stinging of the scalp.

Limbs - Hands and fingers are hot and burning, as if frozen with severe pain. As if he must tear the flesh for relief while the back of the hands felt cold and benumbed. Right hand is cold, left hand is warm. Lower limbs feel heavy and restless. Feet are tired all day. Soles tender while walking. Intense itching on the tops of the feet.

Lungs - Oppression and anxiety in the chest. Apex of the right lung sore, aggravated by deep breathing or raising the right arm. Deep sighing breathing, with constant desire for a deep breath. Constant desire to sneeze and cough. On rising, hawking and coughing dark green scabs and strings of tough mucus tinged with dark blood. Cough caused by burning in the chest. Whistling, strangling, choking cough, with red face and water running from the eyes. Dry hacking cough with the feeling as if he would vomit. Small amount of yellowish white expectoration.

Male - Burning of the glans penis. Strong smelling discharge from the glans. Itching of the scrotum from swollen, burning spots, like bee stings. Rubbing aggravates itching, stinging, and burning.

Mouth - Dryness and burning. Constant wetting of the lips. Saliva leaves the lips sticky. Whitish saliva, leaves a bad taste in the mouth in the morning. Sickish taste as if he had been drinking warm mineral water. Periodical attacks of salivation, at night the pillow is wet and the daytime the saliva accumulates and causes continued swallowing (Merc.). Foul breath, seemed as if he could smell it himself.

Nose - Itching, stinging and tickling. Rubs and scratches because his nose itches inside and out, but rubbing increased burning. Shining redness on top of nose. Nose is swollen. Eruptions contain a clear colorless fluid. Nosebleed, morning and night on blowing the nose. Head feels stuffed. Ineffectual desire to sneeze. Watery discharge with bloody scabs on the inside, dry or moist and bloody. Copious discharge, greenish or light-colored.

Rectum - Usual desire for morning stool is absent. Stool is scanty, lumpy and expelled with effort. First part of the stool is hard and scratches the anus, followed by a soft stool. After stool, sensation that he has not finished so he sits and strains until blood comes (Merc.). Itching and burning of the anus, scalding hot and raw as from a bite.

Skin - Tormented by itching, burning, heat. Must scratch to relieve the constant itching, but aggravates. No comfort in or out of bed.

Sleep - Restless, unrefreshing sleep, much tossing about. Dreams of quarrels, fights and of the dead. Heat of the bed causes him to waken frequently, must rise early in the morning to move around for relief.

Stomach - Thirst for cold water which causes burning in the stomach with urging to stool, followed by loose, dark brown, offensive stool, much tenesmus lasting several days and gradually subsiding into painless diarrhea. Sickening pains and belching of much offensive gas. Nausea, day and night from even the thought of food. Nausea with gagging and retching and inability to vomit.

Stomach - Increased appetite. Undigested food sours in the stomach.

Temperature - Hot flushes as if a chill would follow, followed by warm, sticky, strong smelling perspiration.

Throat - Burning and dryness of the throat. Soreness in throat and in the posterior sinuses on swallowing solids or fluids. The right side of the throat is always sore.

Hoarseness, could scarcely speak a word, in the morning.

Tongue - Tongue is coated white, dry, swollen. thick on waking. Edge of the tongue is covered with a double row of small, painful vesicles. Tongue numb, with ulceration at the tip following scarlet fever.

COMMENTS - Culex was proved by Kent, but the only verification Clarke found was of the symptom "vertigo every time he blows his nose."

W. P. Wesselheft cured a man, 40, stout, thick-set, light brunette, who had swelling on upper jaw over first right tricuspid. Slight redness of cheek. Abscess threatened with paroxysmal throbbing, dull pain better by warm applications. This came on after exposure to wet weather.

Merc, and Rhus-t. did no good. The patient then said that whenever he blew his nose he had vertigo with a sense of fullness in the ears. Culx. promptly relieved the pain and in forty-eight hours the swelling had gone.

RELATIONS - Compare: Apis.

REFERENCES - Clarke. Kent.

***CUNDURANGO

(Condor Plant)

PHARMACY - cund. Cundurango. Condor plant. Condurango. Gonolobus cundurango. Marsdenia cundurango. N. O. Asclepiadaceae. Ecuador. South America. Tincture and trituration of the dried bark of the stem. **Historical dose:** Tincture and all potencies.

CLINICAL - Anus, cracks. Breast, tumors. **Cancer. Cracks.** Eczema. Epithelioma. Fistula. Headaches. Locomotor, ataxia. Lupus. Rodent, ulcer. Smallpox. Stomach, cancer. Stomach, disorders. Syphilis. Tumors.

Ulcers. Varicose, ulcers.

HOMEOPATHIC - The Condor plant was first introduced into medicine as a **cancer remedy** by Dr. Bliss of Washington. Cundurango belongs to the Milk-weed family and is thus related to Asclepias Syriaca and Tuberosa and also to Calotropis.

Cancer, especially for those originating in epithelial structures. Scirrhus cancers. Cancer of the breasts with retraction of the

Cundurango nipples and sharp pains emanating from the tumor over the whole breast. Jagged ulcers of the tongue. Tumors, strictures of the esophagus.

Cancer of the stomach with constant burning and vomiting, food seems to stick behind the sternum. Allays the stomach pain accompanying cancer of stomach. Stimulates the digestive functions and thus improves the general health. Modifies secretions of digestive glands. Chronic stomach catarrh.

Cutting, stinging, burning, tingling, constrictive and piercing pains. Cracks at muco-cutaneous orifices and warty excrescences. **Painful cracks in corner of mouth.** Blotches. Eczema, pimples, pustules. Indolent ulcers. Varicose ulcers. Lupus. Syphilitic affections.

The active principle (Condurangin) produces locomotor ataxia. This remedy is worth trying when other seemingly indicated remedies fail to effect the disease.

MIND - Depressed, miserable. Irritable.

Abdomen - Pain in right hypochondrium.

Back - Dull, heavy, continuing pain in left scapula.

Breasts - Tumor of breast on either side. Cracked, painful, suppurating nipples. Retraction of the nipples. Hard, painful swellings around nipple, ranging in size from pigeon's to hen's egg. Axillary glands swollen,

emaciation.

Chest - Cancer-like ulcers on false ribs, as large as hand.

Constitutions - Cancerous diathesis. Broken-down constitution. In Burnett's opinion, it is anti-psoric.

Eyes - Flat epithelioma on lower eyelid. Appearance of objects before eyes.

Face - **Deep crack in corner in corner of mouth**, warty growths occupying edges. Ulcer on chin, right side perforating to gums.

Head - Severe dull headache all day. **Violent pain in left temple**, cutting in left temple and through ball of left eye. Sensation as if forehead were broad and high, as if left half were bigger than right. Left half feels heavy, right half feels clear.

Cundurango

Heart - Constrictive pain. Sharp, distinct pain in heart on rising in morning, followed by passage of flatus.

Kidneys - Incontinence of urine. Urine scanty, high-colored, loaded with phosphates.

Limbs - Soreness all over body like rheumatism, worse through left shoulder and under left scapula (burning). Cracks on hips and in bends of knees.

Mouth - Slight pain in left half of tongue. Small, painful pustule on right side of tip of tongue, on upper surface towards edge. Cracks at angles of mouth. Tongue cancer.

Nose - Much glairy mucus from nose, alternating with unusual dryness. Stiffness in nose. Pressive full feeling in bridge. Flat epithelioma left side of nose. Nasal sound to voice.

Rectum - Constipation. Cracks at anus, terrible pains when bowels are moved.

Skin - Fissures form about the muco-cutaneous outlets. Epithelioma of lips or anus. Ulcerative stage of carcinoma when fissures form. Some small congenital warty excrescences enlarge and look fresh. Blotches, pimples and boils.

Stomach - Anorexia. Painful disorders of the stomach, ulceration. Stomach cancer. Vomiting of food with indurations and constant burning pain. Stricture of esophagus with burning pains behind sternum, where food seems to stick.

Throat - Aching in throat, extending to stomach with great burning in stomach. Persistent sore throat, with burning, aching and a husky feeling which causes a dry, hacking cough.

Vertigo - Great dizziness on stooping, or turning head.

COMMENTS - Burnett, who proved it and whose symptoms were of a severe nature, observed that it produced "a painful crack in the right corner of the mouth." These cracks were produced in several patients who were taking the drug and Burnett cured similar cracks with it. He regarded them as a keynote indication and has cured patients of tumors, some undoubtedly cancerous, who had that symptom as a concomitant.

Cundurango

Clotar Muller cured with Cund. several cases of old, obstinate, foul-smelling, ichorous ulcers. Carcinoma of the lips, an unclean and sinus ulcer.

Dudgeon recorded a cure with Cund. first dilution of an undoubted case of cancer of left breast in a woman of sixty-nine. The nipple was so retracted as to be invisible.

A hard tumor the size of an egg on the outer side of the nipple was the center of sharp pains radiating from it, the whole breast was very tender to touch. The tumor increased steadily under Hydr. and Phyt. and was only checked temporarily by Con. Under Cund., it entirely disappeared.

Burnett considered it to have a strong affinity for the tongue. He cured a jagged ulcer of the tongue (doubtful whether cancerous or syphilitic), where the tongue and lips were red.

One prover had a slight creeping pain along the periosteum of the right humerus and Clarke observed "a creeping sensation up the back and headache in right temple" in a patient taking it in the 1x tincture.

An old-school authority, Dr. Guyvenot, credits Condurango with causing a "veritable locomotor ataxia." It appears late and he thinks it is due to the formation of some toxic substance by the splitting up of the alkaloid in the organism.

RELATIONS - Compare: (1) Aster. Con., Hydr., Ars.

*****CUPHEA VISCOSISSIMA**

(Flux-weed)

PHARMACY - cuph. Cuphea viscosissima. Flux-weed. Lythrum petiolatum. Waxweed. Red pennyroyal. N. O. Lythraceae. Decoction or tincture of fresh plants collected in July or August. **Historical dose:** Tincture and all potencies.

CLINICAL - Acidity. **Cholera infantum**. Diarrhea. Dysentery. Fever. Sleeplessness. Tenesmus. Vomiting.

HERBAL - Cuphea viscosissima is a popular remedy in some parts of the U.S. for summer diarrhea and

dysentery, as one of its names,

Cuphea viscosissima "**Flux weed**," would imply. The entire plant has a clammy, sticky feel. It contains a large percentage of tannic acid and seems to possess decidedly tonic properties, as children rally rapidly under its use.

HOMEOPATHIC - Vomiting of undigested food. **Cholera infantum**, much acidity. Frequent green, watery, acid stools. Tenesmus and great pain. Obstinate constipation. High fever, restlessness and sleeplessness.

COMMENTS - Cuphea viscosissima was first introduced to homeopathic practice by Dr. A. Roth of Frederick, Maryland, who was induced to try it in his practice by a female patient. His experience was confirmed by S. G. A. Brown.

Dr. Roth gave from 5 to 10-drop doses, according to age. He considered it to have "tonic" properties. Roth found it to be highly successful in two chief forms, but useless in diarrhea from cold.

The first form consists of cases arising from acidity of milk or food. There is vomiting of undigested food or curdled milk with frequent green, watery, acid stools, varying in number from five to thirty a day. Children are fretful and feverish, can retain nothing on stomach, food seems to pass right through the child.

In the second form, stools are decidedly dysenteric, small frequent, bloody with tenesmus and great pain, high fever, restlessness and sleeplessness.

Brown said "If you have a child that is fretful and feverish, vomits curdled milk from a hyperacidity of the stomach, has frequent green, watery, acid stools or even if the stools are dysenteric with great tenesmus and colic, high fever and restlessness, give Cuphea."

RELATIONS - Compare: (1) Aeth. (2) Coto Bark - intestinal catarrh, chronic, copious, exhausting diarrhea and dysentery, colliquitine sweats of tuberculosis and chronic diarrhea. (3) Typha latifolia, Cat-tail flag - diarrhea, dysentery, summer complaint of children. Tincture and first potency.

***CUPRESSUS AUSTRALIS

PHARMACY - cupre-au. Cupressus australis. N. O. Coniferae. Tincture of fruit and leaves. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - Cupre-au. has had a proving, which, though not extensive, is sufficient to show the analog of its action with that of Thuja. Sharp, piercing and pricking pains are prominent. General feeling of warmth. Headaches. Rheumatism. Gonorrhea.

RELATIONS - Compare: (1) Abies-n., Sabin., Thuja.

REFERENCES - Clarke.

***CUPRESSUS LAWSONIANA

PHARMACY -cupre-1. Cupressus lawsoniana. N. O. Coniferae. Tincture of berries and leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Keloids. Lipoma. Tumors. Warts.

HOMEOPATHIC - Cupre-1. has been proved in a fragmentary way by Burnett, who had to relinquish the proving on account of the "terrible pains it caused in the stomach."

Burnett concluded from his experience that the action of Cupre-1. is like that of Thuja. He successfully used it as a variant of that remedy and of Sabin, in the cure of tumors like cocks-comb growth in the mouth, lipoma of the thigh, and keloids.

REFERENCES - Clarke.

***CUPRUM ACETICUM

(Copper Acetate) '

PHARMACY - cupr-acet. Cuprum aceticum. Copper acetate. Verdigris. Solutions. **Historical dose:** Trituration and all potencies.

CLINICAL - Angina pectoris. Brain disorders. Brow ague. Cerebrospinal meningitis. Cholera. Chorea. Croup. Diarrhea. Eruptions. Erysipelas. Hallucinations. Hydrocephalus. **Labor, pains.** Leprosy. Mania. Measles. Paralyzes. Psoriasis. Scarletina. Smallpox. Strabismus. Stroke. Tapeworm. Uremia. Vertigo. Whooping cough.

HOMEOPATHIC - Burnett cured with Cupr-acet. a case of left-sided brow ague of many years' standing. He used Rademacher's Tincture of Copper. The pain was described as boring, screwing and was spoken of by the patient as "awful."

Burnett was unable to say whether the cure was strictly homeopathic or whether the Cuprum acted on the basis of the Paracelsus's Universalis, of which it is one.

Cupr-acet. produces the leading features of Cupr., including cramps, griping pains, spasms, paralytic disorders

and convulsions. Attacks come on suddenly and periodically. **Protracted labor.**

Facial neuralgia in cheekbone, upper jaw and behind the ear better by chewing, pressure and hot applications. Chorea, periodical with melancholy and dread of society. In epilepsy, aura begins in the knee and ascends to hypogastrium.

Chronic psoriasis and leprous-like eruption over whole body in spots of various sizes without itching. It corresponds to the results of repelled eruptions. Hay fever with burning excoriation. Paroxysmal cough with tough, tenacious mucus and fear of suffocation. **Constitutions** - Suited to the carbo-nitrog- enous constitution.

Face - Collapsed, hippocratic. Facial neuralgia in cheekbone, upper jaw and behind right ear. Better by chewing, pressure and external warmth.

Head - Neuralgia with heaviness of head, burning, stinging and stitching in temples and forehead. Violent throbbing and sharp pains in forehead. Left-sided brow ache. Brain seems void. Inclined to gape and cry. Loses consciousness, **headreels when in large room**. Constant protrusion and retraction of tongue (Lach.).

Lungs - Spasmodic constriction of the chest. Violent spasmodic cough. Short, difficult respiration. Dyspnea. Attacks of angina pectoris coming on when excited.

Modalities - Better chewing. Better pressure. Better night. Better lying on affected side and warmth. Worse from heat. Worse motion. Worse emotions. Worse touch.

Skin - Leprous-like eruption over whole body in spots of various sizes, without itching.

Stomach - Violent spasmodic pains in stomach and abdomen. Vomiting. Violent tenesmus. Slimy brown diarrhea. Cholera.

Vertigo - Head reels when in a high-ceilinged room.

COMMENTS - A man, 50, was cured with Cupr-acet. 5c trituration, of a tonic spasm of the toes of the right foot, very painful, lasting for hours, brought on by friction, standing on cold floors, etc. There was no traceable cause and no other derangement of health. Complete cure in five days after months of previous suffering.

Petroz recommended its use in smallpox and verified his induction in practice. As pointed out by General Phelps, the "Crimson Cross Ointment" which was used successfully by Fielden in the Gloucester epidemic of smallpox owes its virtue to the Cupr-acet. which it contains.

In epilepsy, the aura begins in the knees and ascends to hypogastrium, when patient becomes insensible. The symptoms are worse by heat and motion. The patient frequently changes posture.

RELATIONS - Acts similarly to Cupr. but is more violent in action. In poisoning cases it is **Antidoted by**: sugar or white of egg, given freely. Homeopathic antidotes: Bell., Chin., Con., Cic., Dulc., Hep., Ip., Merc., Nux-v.

Compare: (1) Calc., Gels, -overworked brain. (2) Cic. and Solanaceae - mental symptoms. (3) Zinc. - hydrocephalus and convulsions from suppressed exanthems.

REFERENCES - Boericke. Clarke. Phatak.

***CUPRUM ARSENICOSUM

(Copper Arsenite)

PHARMACY - cupr-ar. Cuprum arsenicosum. Copper arsenite. Scheeles green. Trituration. **Historical dose**: Trituration and all potencies.

CLINICAL - Boils. Carbuncles. Cholera. Cholerine. Chorea. **Convulsions. Cramps.** Diabetes. Diarrhea. Gangrene. Gastro-enteritis. Enteralgia. Headaches. **Nephritis.** Neuralgic pains. Paralysis, left sided. Ulcers. **Uremia.** Uterine, neuralgia. Vomiting.

Cuprum arsenicosum HOMEOPATHIC - Cupr-ar. combines the characters of its two metallic components. J. N. Majumdar noted the great characteristic of Cupr-ar. in choleraic conditions after B. L. Bhaduri pointed it out to him. Majumdar noted "icy-coldness of the whole body with cramps and an obstinate hiccough."

Various intestinal affections. Cholera morbus and infantum. Rice water stools. Entero-colitis, diarrhea and dysentery. Gastro-intestinal disturbances of influenza or typhoid. Inflammation of the digestive tract with violent colic, vomiting, diarrhea and uremia, with obstinate hiccough and icy cold body.

Deficient kidney action. Urine of garlicky odor. **Uremic convulsions**, headache, vertigo and unconscious conditions resulting from brain edema. Uremic convulsions preceded by gastro-intestinal symptoms. **Nephritis of pregnancy.**

Awful distress in epigastric region, burning along esophagus and in urethra. Numbness, creeping, itching and chilly sensations. Intense neuralgic pains in abdomen. Visceral neuralgia, sharp shooting abdominal pains.

Painful neuroses, enteroptosis. **Violent cramps** in chest, fingers, calves toes etc. Delirium and tremor cordis. **Leg cramps**, better pressing foot on the floor. Numb paralyzed feeling in the legs. Trembling of the whole body when attempting to walk. Chorea after fright.

Bronchial asthma and with emphysema. Chlorosis. Weak heart. Purulent endocarditis (Royal). Cold, clammy

intermittent sweat. **Abdomen** - Gastro-enteritis. Violent abdominal pain. Rumbling and sharp, cutting pain.

Back - Persistent lameness. Pain in lumbar region, lower left shoulder blade, chest tight.

Heart - Cardiac rhythm and force altered due to defective elimination.

Kidneys - Diabetes. Kidney inefficiency and uremia. **Garlic odor of urine.** Urine of high specific gravity increased, acetones and diacetic acid.

Limbs - Cramps in calves of legs, worse after midnight, only relieved by getting out of bed and standing. Gangrene ulcers. **Male** - Perspiration of scrotum is constantly damp and moist. Boils on scrotum. Purulent discharge of a **white color** from urethra, tingling and burning in urethra. Pain in prostate, pains in penis.

Modalities - Better rest and worse motion, but stiffness of back and tingling of hands are better from motion. Damp weather causes neuralgia of abdomen.

Mouth - Tongue thickly coated, dirty brown, white, metallic taste, thirst. Dry mouth.

Rectum - Rice water stools. Cholera infantum, cholera (Verat., Camph.). Rumbling and sharp, cutting pain. Dark liquid stools. Diarrhea in tuberculosis.

Skin - Icy cold sweat and skin even when dry. Cold, clammy perspiration of an intermittent nature. Acne, pustules on face and in the genital region, ulcers look like chancre. Gangrene, carbuncles.

COMMENTS - Salzer showed that "cold, clammy perspiration of intermittent nature" is unique and characteristic. He found it most valuable in the collapse stage of cholera, where intermittent cold, clammy sweat was noted. The skin is very sensitive to touch and pressure worse all symptoms. Weakness and restlessness. Periodicity in the symptoms.

RELATIONS - Compare: (1) Ars. and Cupr. preparations (2) Aeon., Cimic. - angina pectoris, numbness of left side of body, paresis of left arm. (3) Merc-c. - diarrhea and tenesmus. (3) Iris-v.

REFERENCES - Boericke. Clarke. Phatak.

***CUPRUM METALLICUM

(Copper Metal)

PHARMACY - cupr. Cuprum metallicum. Copper metal, (Cu, At. Wt. 6). Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - After-pains. Angina pectoris. Asthma. Asthma miller. Bronchitis. Cardialgia. Catarrh. Chlorosis. **Cholera. Chorea. Convulsions. Colic. Coughs. Cramps.** Croup. Cyanosis. Dentition. Dyspnea. Emissions. **Epilepsy.** Eruptions. Erysipelas. Fainting. Gout. Hematemesis. Herpes. Hyperesthesia. Hysteria. **Larynx, spasms.** Mania. Measles. Meningitis. Neuralgias. Palpitations. Paralysis.

Pneumonia. Psoriasis. Ringworm. Sleeplessness. **Spasms.** Spinal irritation. Tapeworms. Ulcers. **Whooping cough.** Worms. Yellow fever.

HOMEOPATHIC - Metallic copper is one of the most important remedies where the diseased conditions "appear" on account of the non-appearance or suppressions of eruptions and the discharges.

Skin eruptions and foot-sweat. Effects of suppression of eruptions, exanthems and foot-sweat, whether these effects are internal pains or spasms or oppression of the brain and mental disturbance.

Affects the nerves of the cerebro-spinal axis and muscles, causing **spasmodic effects, convulsions and cramps of violent form. Cramps in toes, fingers, calves** where the muscles are knotted, better stretching. Cramps beginning in fingers and toes, violent, contractive and intermitting pain.

Cramps may occur in the chest (angina pectoris), behind the sternum. Cramps in the limbs in elderly people, particularly leg cramps (Calc., Mag-p., acutely). Cramps before sex, preventing sex, in the calves, soles and feet.

Spasms with blue face and clenched thumbs. Jerking during sleep. Restless tossing all night. Stupor with jerking of muscles. Paralysis of isolated muscles. **Chorea from fright**, periodical. Chorea from suppressed eruptions.

Convulsions of children during dentition, children lie on abdomen and jerk the buttock up. **Convulsions are tonic or clonic.** With convulsions, the eyes roll upward, out, or inward (Aeth.).

Convulsions start in the knees, toes, or fingers and radiate over the whole body with piercing ties. Twisting of the head to one side. Trismus followed by headache. Spasmodic laughter. Shivering. Deathly exhaustion with cold perspiration.

Epilepsy, at night, during menses. Violent epilepsy, legs may shoot out and lock in spasm. Epilepsy after suppressed eruptions, especially on the head (Zinc). Epilepsy after fright.

In epilepsy, aura begins at knees, ascends to hypogastrium, then unconsciousness, foaming and falling. The patient falls with a shriek, passes urine and feces. Headache follows after spasms or a group of symptoms. Followed by the appearance as if the patient were dead or in a state of ecstasy.

Pains like knife-thrusts, worse on least motion, that take away the breath. Patient thinks that he must die if they last. The thrusts go through to the back from the umbilicus. Pains worse touch and motion. Pressive pains, as from a blow being broken, racking darts through the whole body.

Cholera (Verat., Camph.). Gushing watery stools, with blue, cold extremities and jerking and cramping. **Tape-worms**. Complaints from scarlet fever, including excessive vomiting, stupor, and convulsions. Nausea. Meningitis. Chlorosis.

Hypersensitive, every drug overacts without curing. Easy relapses. Symptoms disposed to appear periodically and in groups. Complaints begin in left side (Lach.).

MIND - Nervous. Uneasy. Fixed ideas, malicious and morose. Sullen, tricky, alternating yielding and head-strong. Imitates, mimics. Speaks in a whisper because of pain. Uses words not intended. Sense of losing consciousness.

Attacks of rage, wants to bite the bystanders. Mania, bites, beats, tears the things. Delirium, cold sweat. Piercing shrieks. Weeps violently. Convulsive laughter. Fearful. Confusion, afraid of everybody who approaches him. Loquacious, then melancholy with fear of death. Fear of society, shuns everybody. **Abdomen** - Tense, hot and tender to touch. Neuralgia of abdominal viscera. Spasmodic movements of abdominal muscles. **Frightful colic** with contraction of the abdomen. Better pressure, worse raising arms. Intussusception, with fecal vomiting.

Back - Paralysis of all the muscles up to the neck. Sensation of heaviness in the axillary glands. Swelling of the glands of the neck. Hyperesthesia of spinal column. Backache top of sacrum.

Causations - Ailments from emotions, anger, fright, suppressions, loss of sleep, mentally and bodily over-work. Chorea from fright. Getting wet causes epileptic attacks.

Chest - **Spasm and constriction** of chest. Painful constriction of the chest (lower). Loud rattling in chest. Round balls moving to and fro under the ribs, better tight clothing and lying quiet.

Constitutions - Suited to fair-haired people. Carbo-nitrogenoid constitution. Women who have borne many children (after-pains).

Eyes - Aching over eyes. Fixed, staring, sunken, glistening, turned upwards. Eyeballs rotate quickly behind closed lids or roll from side to side. Bruised pain in the orbits, worse moving the eyes. Lids spasmodically closed, twitching of lids (left). Photophobia.

Face - Distorted, **pale bluish**, livid, sunken, pinched. Icy cold. Lips blue. Chewing motion of the lower jaw. Lockjaw. **Contraction of jaws** with foam at mouth.

Female - Menses too late, protracted. Menses absent due to suppression of foot sweat. Violent cramps in abdomen extending into the chest before or during menses, or from suppressions of the menses, or from suppressed foot sweats (Sil.). Convulsions before menses. Puerperal convulsions with open mouth and opisthotonos. **After-pains**. especially in women who had borne many children. Ebullition of blood, and palpitations. Chlorosis.

Food - Desire for **cold drinks**, which ameliorate. Milk causes belching. Food tastes sweetish, or metallic, acid, or salt, watery. Desire for cold food in preference to hot.

Head - Meningitis, cannot hold head erect or bores into the pillow. Pulls her hair. Shakes the head from side to side. Strange tingling, crawling in the vertex (suppressed menses). Headache after epilepsy. Sensation as if water were poured over the head with headache. Empty feeling with pain. Purple, red swelling of head with convulsions. Bruised pain in brain and eyes on turning them.

Heart - Palpitations, precordial anxiety and pain. Palpitations before menses. Fatty degeneration (Phos.). Angina pectoris with asthmatic symptoms and cramps. Slow pulse or hard, full and quick.

Kidneys - Suppression of urine in cholera, uremia. Urgent desire to urinate with scanty emission. Frequent emission of fetid, viscid urine. Passes clear, watery urine during or after spasms. Burning shootings in the urethra, during and subsequent to the emission of urine. Bedwetting.

Limbs - **Cramps in calves, soles**, and palms. Jerking, twitching of muscles in hands and feet. Clonic spasms, beginning in fingers and toes. **Clenching of thumbs in palms**. Joints contracted. Great weariness of limbs. Knees double up involuntary when walking, bringing him down. Ankles painfully heavy. Ankylosis of shoulder joint. Coldness of hands. Epilepsy, aura begins in knees, feel as if broken.

Liver - Cirrhosis of liver.

Lungs - Dyspnea with epigastric uneasiness. Dyspnea, cannot bear anything near the mouth, worse coughing, laughing, bending backwards, before the menses. Hoarseness, worse breathing cold air. Cough in violent paroxysms, coughs herself out of breath, **better cold drinks**, worse deep breathing, bending backwards with cramps, lachrymation. Cough has a gurgling sound. Suffocative attacks, worse 3 a.m. (Am-c.). Trembling after coughing. Whooping cough, better swallowing water with vomiting, spasms and purple face. Asthma, hiccough before, alternating with spasmodic vomiting. Angina with asthmatic symptoms and cramps.

Male - Cramps in calves prevents sex. especially in old or nervous young men.

Modalities - Better during perspiration. **Better drinking cold water.** Better being mesmerized. Better laying hand on affected part. Better pressure over heart. Headache better wrapping head. Worse from emotions, anger, fright. Worse loss of sleep. Worse suppression. Worse bodily and mental over work. Worse from motion. Worse raising arms. Worse touch. Worse pressure. Worse before menses.

Worse evening and night. Worse cold air, cold wind. Worse hot weather. Worse at new moon.

Mouth - **Strong metallic, slimy taste** with flow of saliva. Froth from mouth. Grinds the teeth. Food tastes like clear water. Stammering speech, loss of speech. Paralysis of tongue. Firmly closed or open with tongue darting in and out like a snake in convulsions.

Nose - Stoppage of the nose. Sensation of violent congestion of blood to nose (Meli.). Violent, fluent coryza.

Rectum - Cholera with cramps in abdomen and calves. Cholera, summer diarrhea in children. Diarrhea, profuse, spurting out of green water. Black, painful, bloody with tenesmus and weakness. Constipation with great heat of body. Round, tapeworms or threadworms.

Skin - **Bluish**, marbled skin. Suppressed or undeveloped eruptions. Severe itching without eruptions. Chronic psoriasis. Ulcers, itching spots and pimples at the folds of joints. Yellow scaly eruptions (bend of elbow). Leprosy.

Sleep - Lethargic sleep. Profound sleep, with shocks in the body and starting in the limbs. Constant rumbling in abdomen during sleep.

Stomach - Painful crampy pressure in epigastrium, worse touch and movement. Lies on stomach and jerks the buttocks up (colic, convulsions). **Whendrinking, the fluid descends with gurgling sound** (Laur.). As if something bitter were in stomach. Hiccough, before vomiting, convulsions, spasms or asthma. Pronounced nausea. Periodical attacks of vomiting. Vomiting, violent tormenting with agonizing colic, diarrhea, shrieks or convulsions, **better cold drinks.** Vomits always on waking up in morning, on least motion.

Temperature - Chilly. Icy coldness of skin. Sweat, cold, clammy, at night, sour smelling after convulsions.

Throat - Swelling of the glands of the neck. **Spasms of throat.** Unable to talk on account of spasms of throat. Dryness of the throat, with thirst. Inflammation of the pharynx. Audible sound of drinking (gurgling), while swallowing it. Intermittent aphonia in professional singers.

Vertigo - Giddiness accompanies many ailments, head falls forward on chest. Vertigo with internal tremors, head sinks forwards on the chest, better stool, lying down, worse looking up.

COMMENTS - Metallic copper is an anti-psoric remedy, working from within outwards. It is one of the most important remedies that relieve states arising from the "striking inward" of diseases or the failure of eruptions or discharge to appear. Suppressed discharges that lead to spasms and convulsions.

Relieve internal spasms which renders it appropriate to the collapse stage of cholera (Sulph.). Apophylactic either when worn next the skin or when taken internally.

Maliciousness and a desire to injure. Screaming with cerebral or mental symptoms. Loquaciousness. Violent head pains that are worse over the left eye. Brain seems paralyzed. Over-sensitiveness of the skin, especially in the region of the stomach and fourth and fifth dorsal vertebrae.

Cramps, spasms, twitches, and convulsions. Twitches of little muscles spread into the major muscles and can ultimately go into a convulsion. Face will turn blue, fingers and toes cramp, thumb will go into the hand and lock. Back arches, neck goes back. Drawing in the fingers. Sudden and severe flexion and extension of the limbs.

Cramps and convulsions in meningitis, cholera, whooping cough and spasmodic asthma. Spasms of the stomach that lead to nausea and vomiting. Severe spasms after a vexation or a fright (Op.). Vomiting, hiccoughs and spasms better by drinking cold water.

Whooping cough. Violent, spasmodic coughing, worse cold air (Rumx.). Wheezing and spasm. Spasmodic breathing with rattling in the chest. Asthma with bluish lips and spasms and constriction of the chest. Constriction pains with stress of asthma (Cact.). Constriction below the xiphoid process. Feels as if stuck with the knife from the xiphoid to the back.

Cramps at puberty, better bathing in

Cuprum metallicum cold water. Convulsions during menses. Dysmenorrhea associated with cramps in the fingers, severe cramps and spasms in the uterus. Labor pains are so severe they start convulsing. Or they feel the labor pains and their hands and feet start cramping up or spasms outside the uterus. Sudden blindness during labor.

Senile gangrene with the toes and fingers due to poor circulation, with cramps and spasms in the fingers and toes (Ars., Sec., Agar.). Chlorosis from abuse of iron.

J. C. McLaren noted "Cramps or spasms beginning in hands and feet, extending to belly."

Guernsey said that "a slimy metallic taste in the mouth" is one of the strongest indications for Cupr. (Rhus-t.).

Paralysis of the tongue, stammering (Caust., Merc.). Grinds teeth at night. Thirst for cold drinks and ameliorated by cold drinks. Worse inhaling cold air.

Mackechnie made a brilliant cure of psoriasis in a young girl with Cupr. The leading features of its symptomatology are cramps, convulsions, violent spasms, coming on from disappearance of pains, discharges, eruptions, mental derangement. Patient screams with suppression of menses. Tonic spasms of thumbs. Eyeballs turn up. Opisthotonos. Tonic and clonic spasms.

Convulsions during pregnancy. Puerperal convulsions which begin in the fingers or toes and spread all over the body. Can also have a great restlessness between the attacks, either filling up the entire interval or only a part of the time.

Mossa regarded Cupr. as one of the remedies for the effects of fright, and relates the case of a girl who after a fright was affected by involuntary motions of left arm and leg developing into pronounced general chorea. Cupr. brought about slow but decided recovery.

Another girl, 12, who had recovered from whooping cough got a kind of chorea from repeated frights on seeing an epileptic. To the muscular movements was added silly behavior including a heavy tongue, slow speech and unwieldy gait. Frightened at night. Greediness in eating and drinking.

Ign., Stram., Sulph., did little good. She became ill-natured. Cupr. every four days cured completely in three months.

Mackechnie reported the case of a boy who became epileptic after being locked up in school. Very great improvement followed the administration of Cupr.

Schwencke cured a case of epilepsy of forty years' standing with Cupr. 6c after Bell, and Hyos. had done little good. The patient was a man aged 45. The fits began suddenly towards morning with chewing motion of lower jaw, gnashing of teeth, becomes upright and rigid in bed, shrieks, limbs convulsed. After giving way to violent anger, attacks become more severe, arms and legs were thrown outwards and trunk arched upward.

Cupr. was given. For a time the attacks continued, but gradually improvement set in and in less than three months they ceased altogether. The "anger" in this case and the "ill-humor" in Mossa's are noteworthy as maliciousness is an indication for Cupr.

In a second case cured by Schwencke, that of a man, 38, epileptic seven years, a pressive headache preceded the attacks, ascending from nape to forehead, then there was profuse salivation, head turned to left, eyes closed tongue in active motion in open mouth, trunk arched upward, slight spasms of right arm outward. After the attack, there was a dullness in the head and a feeling in the body as if beaten.

Cupr. first removed the fits and then the dullness of the head.

RELATIONS -Antidotes: Bell., Hep., Camph. Copper is found in Dulc., Staph., Con. and some other plants. Also in the king-crab, Limulus. **Compare:** (1) Cupr-s. Cupr-cyan. - meningitis basilaris. (2) Cholas terrapina-cramps in calves and feet, rheumatism with cramp-like pains, Plb.. Nux-v, Verat.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CUPRUM OXYDATUM NIGRUM

PHARMACY - cupr-o. Cuprum oxydatum nigrum. **Historical dose:** Trituration and all potencies.

CLINICAL - Hookworms. Parasites. Tapeworms. Trichinosis.

HOMEOPATHIC - Cuprum oxydatum nigrum has cured all kinds of worms including **hookworm**, tapeworms and trichinosis according to Zopfy's 60 years' experience.

RELATIONS - Compare: (1) Filix, Cina, Spig. Carbon tetrachlor.

REFERENCES - Boericke.

***CUPRUM SULPHURICUM

(Copper Sulphate)

PHARMACY - cupr-s. Cuprum sulphuricum. Copper sulphate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Alopecia. Conjunctivitis. Diarrhea. Dysentery. Eyes, granular lids. Scabies. Syphilis. Trachoma.

HOMEOPATHIC - Sulphate of Copper is a well-known emetic and caustic. It is a well-known application in allopathic practice for stimulating flabby granulations and it has cured itching eruptions and manifestations of syphilis. Pains better rest.

Cupr-s. causes forcible vomiting and much nausea. **Burning at vertex.** Paleness of face or jaundiced appearance, pale skin generally. Tongue and lips bluish. Granular eyelids. Catarrhal and purulent conjunctivitis. Incessant, spasmodic cough, worse at night. Diarrhea. Enlarged liver.

J. D. Tyrrell mentioned the case of a woman who could not use Cupr-s. for "stamping" fancy work because it "made her face hurt and swell so she could scarcely see and her lips became everted, turned inside out, she

said." **RELATIONS - Antidotedby:** Milk, eggs, pure yellow prussiate of potash. **Compare:** (1) Kali- bi. - cough and Merc.

REFERENCES Clarke.

***CURARE

(Arrow Poison)

PHARMACY - cur. Curare woorari. Arrow- poison. Curara. Woorara. Woorali. Hoorali. Oorari. N. O. Loganiaceae. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Cancer. **Catalepsy.** Cirrhosis. Corns. Coughs. Debility. Diabetes. Dysmenorrhea. **Dyspnea.** Ear, disorders. Eczema. Emphysema. Epilepsy. Facial, paralysis. Faintness. Headache. Leprosy. Liver, spots. Locomotor, ataxia. Nervous, debility. Neuralgias. Otitis. Ozaena. **Paralysis.** Ptosis. Rabies. **Reflexes, weak.** Scrofula, disorders. Tetanus. Tuberculosis. Ulcerations. Uterus, disorders. Vaginitis. Whooping cough.

HOMEOPATHIC - An arrow poison used by South American Indians, Curare affects the muscles and brain. It is a muscular poison, causing paralysis of muscles without impairing the sensations and consciousness. Muscular paralysis without impairing any sensation or consciousness. It causes death by paralysis of the respiratory muscles. **Reflex action is diminished or abolished.** In many ways, its action is opposite that of Nux-v.

Paralysis, facial, mouth, threatening respiration. Catalepsy. Trismus. Nervous debility. Sensation as if the brain were full of fluid. As of a heavy weight hung to the limbs. Weakness, heaviness, numbness, numbness with tingling. Piercing, sharp pains. Throbbing pains.

Debility of the aged (Bar-c.) and from loss of fluids. Glycosuria with motor paralysis. Diabetes mellitus. Decreases the output of adrenalin. Vomiting of bile in cirrhosis of liver. Fetid discharges. Leprosy. Many symptoms appear on right side.

MIND - Indecision, no longer wishes to think or act for herself. Inability to think or study, forgetful, stupid, sleepy, indolent. Excited, hurried feeling. Depressed, desire to be alone. **Abdomen** - Weary ache from throat to left hip. Neuralgic pain in hypogastrium with pressure in vagina. Pain in groin low down with heaviness in limbs while walking. Bowels feel sore and bruised.

Back - Tired pain up and down spine. Stiffness in neck, head drawn back. Stiffness of muscles or right neck and shoulder. Dull, tired ache in shoulders and across back, numb. Chills running up back and all over body.

Chest - Sore to pressure or touch.

Constitutions - Suited to scrofulous children, producing scrofulous eruptions on skin, eczema, especially of face and behind ears, and yellow brown liver-spots.

Ears - Otitis interna, driving crazy. Noises, unbearable earache. Purulent discharge. Swelling of lobes of ear. Sharp pains start from ears, extending down to legs.

Eyes - Sharp, stitching pains over right eye. Ptosis of right side. Heavy eyes, lids can hardly be kept open. Eyes haggard, sunken. Feel as if full of sticks. Red, hot, sensitive to light. Black spots before vision, especially worse from reading.

Face - Facial and mouth paralysis. Paralysis of muscles of expression. Aching right side of face. Tongue and mouth drawn. Red face.

Female - Menses too early. During menses, colic, headache and kidney pain. Dysmenorrhea. Leucorrhea, thick, purulent offensive, in clots. Bearing-down, dragging, tired, in all pelvic organs. Vaginitis. Gripping in right ovary. Ulcerations of os uteri, scirrhus. Aversion to sex.

Food - Thirst and great hunger with fever. Sudden hunger almost to faintness. Better after first mouthful of food. Aversion to bread. Great thirst especially evening and night. Craves acids.

Head - Head drawn backward. Rush of blood to head. Brain feels full of fluid. Head confused, great weight in vertex. Head beats like a hammer, with vomiting of bile. Nervous headache. Sharp pains all over head. Falling out of hair.

Heart - Precordial pain, anguish with palpitations and stinging pains in heart.

Kidneys - Digging, crampy pain in kidneys, dry mouth, great thirst. Urine copious, urgent, bladder feels distended. Clear and frequent urine. Sugar in urine, great emaciation (acute diabetes).

Limbs - Paralysis of limbs, burning with

heat and chills. Aching in all the limbs and body. Numbness and tingling. Debility, paralysis. Catalepsy. Reflexes lessened or abolished. **Arms weak, heavy.** Cannot lift the fingers. Weakness of hands and fingers in pianists. Legs tremble, give way in walking. Favors development of corns.

Lungs - Severe pains in lungs, especially left. Shortness of breath. **Threatened paralysis of the respiration** on falling asleep. **Very distressing dyspnea.** Dyspnea, stitching pains right side. Dyspnea, worse ascending. Short, dry, hacking cough, provokes vomiting, followed by fainting. Dry cough with soreness of chest walls.

Cough, worse breathing cold air, laughing, moving, eating. Cough troublesome in morning.

Modalities - Worse from motion. Worse walking. Worse ascending, 2 a.m. and 2 p.m. to 3 p.m. Worse from dampness. Worse cold weather, cold wind. Worse change of weather.

Mouth - Mouth dry. Tongue and mouth drawn to right. Tongue coated. On waking, tongue yellowish at base, papillae raised, light pink anteriorly, yellow-white, bitter or bloody taste.

Nose - Nasal catarrh. Ozaena, fetid lumps of pus. Tubercles on nose.

Rectum - Extreme watery diarrhea. Diarrhea with constant urging, fetid, thin mush-like feces. Excessive pain in hemorrhoids.

Skin - Leprosy. Dirty-looking skin. Itching, with hunger. Eczema. Liver-spots. Boils. Tubercles on nose. Blood oozes through.

Sleep - Drowsy, cannot keep awake. Nights restless, always desiring to put feet out of bed, especially towards morning.

Stomach - Empty, gone feeling in stomach. Sharp pain in pit of stomach, followed by nausea. Shooting in stomach. Heartburn, pain and distention after eating ever so little. Chill after eating. Nausea in morning after eating. Vomits green bile all night. Frequent and annoying hiccoughs.

Temperature - Chill, creeping up back without thirst. Body blue, and yet fever. Heat worse at night and in open air. Sweat

with every exertion. Sweat, cold and bloody, especially at nights.

Throat - Burning heat in throat with sensation of distention.

Vertigo - Instant giddiness, falling in swoon while standing or walking. Dizzy when looking at near objects or at water.

COMMENTS - Causes death by paralysis of the respiratory muscles. Reflex action is diminished or abolished (opp. Nux-v.). Catalepsy, immobility with fixed gaze on waking. Indicated by debility short of paralysis, the debility of the aged and nervous, and debility from the loss of fluids.

Fetid odor of secretions and discharges. It favors the formation of corns. Its relation to hydrophobia and tetanus is probably antipathic. Used allopathically in tetanus treatments.

A cure of a pseudo-hypertrophic paralysis by the 200c was recorded. Two cases of diabetes in middle-aged men have been cured by Burkhardt with Cur. 4c. Diabetes mellitus.

Grimmer noted that it is useful for cancer with weakness and a tendency to faint, extreme debility, difficult breathing, vertigo with fainting. States of catalepsy, worse by exercise, walking, etc., worse in dampness. Cold air, cold weather, worse 2 a.m. and 2 p.m. to 3 p.m.

RELATIONS - Antidote to: Strychnia and to the poison of rabies. In cases of poisoning artificial respiration must be resorted to. Bromine and Chlorine antidote its effects. If the poisoning is due to a punctured wound, rubbing in tobacco or salt will neutralize it. **Compare:** (1) Cystisin - motor paralysis. (2) Con., Caust., Crot-h., Nux-v. (3) Aran. - fever worse in damp weather. (4) Ferr. - hammering pains in head. (5) Crot-h. - blows in region of cerebellum. (6) In yellow-brown spots on skin, Sep., Lyc., Nux-v., Sulph. **Compatible:** After Arn. (paralysis from injury) after Bell, (paralysis after nosebleed). **Follows well:** in debility of the aged: Bar-c.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CURCUMA LONGA

(Turmeric)

PHARMACY - cure. Curcuma longa. Turmeric. Curcuma rotunda. Southern Asia. N. O. Zingiberaceae. Rhizome. **Historical dose:** Tincture and all potencies.

CLINICAL - Atherosclerosis. Cancer. Gastritis. Indigestion. Liver, problems. Osteoarthritis. Parasites. Skin, diseases. Stomach, disorders. Uveitis. Worms. Wounds.

HERBAL - Turmeric (Curcuma longa), a flowering plant in the ginger family, is widely used as a food coloring and is one of the principal ingredients in curry powder. Turmeric is fragrant and has a bitter, somewhat sharp taste.

The aboveground and underground roots, or rhizomes, are used in medicinal and food preparations. These are generally boiled and then dried, turning into the familiar yellow powder. Curcumin from turmeric, as well as other substances in this herb, have antioxidant properties.

Turmeric has long been used in both Ayurvedic and Chinese medicine as an antiinflammatory, to treat digestive disorders and liver problems, and for the treatment of skin diseases and wound healing.

Curcumin has been shown, to stimulate the production of bile and to facilitate the emptying of the gallbladder. It has also demonstrated a protective effect on the liver, anti-tumor action, and ability to reduce inflammation and fight certain infections.

Turmeric is for a variety of digestive disorders. Curcumin, for example, one of the active ingredients in turmeric,

induces the flow of bile, which helps break down fats. Stomach upset, gas, abdominal cramps.

Extracts of turmeric root can reduced secretion of acid from the stomach and protected against injuries such as inflammation along the stomach (gastritis) or intestinal walls and ulcers from certain medications, stress, or alcohol.

Because of its ability to reduce inflammation, turmeric may help relieve the symptoms of osteoarthritis. Early studies suggest that turmeric may prove helpful in preventing

the build up of atherosclerosis (blockage of arteries that can eventually cause a heart attack or stroke) in one of two ways.

Turmeric may also prevent platelet build up along the walls of an injured blood vessel. Platelets collecting at the site of a damaged blood vessel cause blood clots to form and blockage of the artery as well.

Curcumin has potential in the treatment of various forms of cancer, including prostate, breast, skin, and colon. Roundworms and Intestinal worms. Turmeric, may reduce the destructive activity of parasites or roundworms. Turmeric's volatile oil functions as an external antibiotic, preventing bacterial infection in wounds. Turmeric applied to wounds hastens the healing process.

Inflammation of the uvea, and the retina. The uvea contains many of the blood vessels that nourish the eye. Inflammation of this area, therefore, can affect the cornea, the retina, the sclera, and other important parts of the eye.

***CYCLAMEN EUROPAEUM

(Sow-Bread)

PHARMACY - cycl. Cyclamen europaeum. Sow-bread. N. O. Primulaceae. Tincture of the root gathered in spring. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Bone, pain. Chlorosis. Coryza. Diplopia. Dyspepsia. Enteralgia. Eye, disorders. Headaches. Heel. pain. **Hiccoughs.** Menstruation, disorders. Menopause. Pregnancy. Prostatitis. Rheumatism. **Sleepiness.** Strabismus. Thirstless. Urethritis. Vertigo. Weaning, complaints. Writer's spasm.

HOMEOPATHIC - Cyclamen has a traditional reputation as a remedy for disorders of the uterus and appendages. Later provings affirmed this reputation. Large doses produce violent purging and vomiting, disturbed digestion with very salty saliva.

Cycl. is in many ways similar to Puls., from which it differs mainly in having no relief from open air and in hot having thirstless- ness as so frequent an accompaniment of other conditions.

Anemic and chlorotic conditions. Affections of uterus. Gastro-intestinal and genitourinary tracts affected inducing secondary anemia and various reflexes. Cough, at night while asleep without waking, especially in children (Cham., Nit-ac.). **Sleepiness, morose and lassitude.**

MIND - Dull, sleepy and morose. Depression, with weeping desire to be alone. Silent weeping. Grieves, sadness as if he had committed a bad act or not done his duty. Self-reproaches. Terrors of conscience. Tearful and broods over imaginary grief.

Ajoyous feeling alternating with irritability. Hallucinations as if two persons were lying in her bed. The room seems too small. Thinks she is alone and persecuted.

Abdomen - Fullness and pressure. Uneasiness in the abdomen with nausea. Painful on the slightest touch. Sudden attacks of griping, with pinching. Borborygmi in the abdomen, immediately after a meal. Running in bowels as if something alive.

Back - Excoriation in the nape of the neck. Aching, with paralytic weakness, or traction in the nape of the neck and in the neck. Dull stitches in the region of the kidney, worse when drawing a long breath.

Breasts - Air seems to stream from the nipples. Milk in virgin breast or nonpregnant women. Swelling of breast with milky secretion after menses.

Causations - Ill effects of inward grief and terror of conscience.

Constitutions - Suited to the blonde leuco-phlegmatic subjects with chlorotic conditions, disinclined for labor and easily fatigued. Special senses enfeebled or their functions suspended.

Ears - Itching in the ears with increased wax. Drawing in the ears. Diminution of hearing, as if the ears were stopped.

Eyes - Disturbance of vision, associated with gastric disturbances. Dim vision with headache, worse on waking with spots before eyes. Diplopia. **Flickering of various colors.** Hemipopia. **Sees countless stars.** Fluttering, glittering or black spots. Squint, especially connected with menstrual irregularities. Convergent squint after convulsions, left eye drawn inwards. **Face** - Pale, anemic. Upper lip, as if numb or indurated.

Female - Menses changeable, **profuse, black,** membranous, **clotted too early, with labor-like pains** from

back to pubes. The flow is less when moving about. Dysmenorrhea. Menstrual irregularities with megrim and blindness or fiery spots before eyes. Suppression of menses after excessive dancing or being over heated. Leucorrhoea with retarded or scanty menses. **Hiccough during pregnancy.** Post-partum hemorrhage with colicky bearing-down pains with relief after gush of blood.

Food - Desire for lemonade, sardines, inedible things. Aversion to bread, butter, fat, beer. Disgust for meat, especially pork. Loss of appetite after taking beef tea or a cup of tea. No thirst all day.

Head - Prolonged migraine. One-sided headache. Headaches in morning with **flickering before eyes**, better cold water. Pain in left temple. Brain as if wrapped up in a cloth. As if brain wobbled about while walking, menses absent or scanty. Frequent sneezing with itching in ears.

Heart - Pressure on the heart, as from congestion of blood. Sensible palpitations of the heart, stitches in the region of the heart. Frequent palpitations from suppressed menses.

Kidneys - Frequent desire to urinate with abundant emission of whitish urine. Shootings in the urethra, followed by a sudden discharge of a dark red urine. Urine profuse, watery and frequent.

Limbs - Pains in parts where bones lie near the surface. Pains in periosteum. Shooting pains in the loins. Weakness of knees. **Burning, sore heels**, better walking, worse sitting, standing. Chilblains. Cramp-like slow contractions of the right thumb and index finger, they have to be extended by force. Writer's spasms.

Lungs - Scraping and dryness in the pharynx, causing a suffocative cough. Coughing without waking.

Male - Prepuce and corona glandis feel sore after slight rubbing. Stitches and pressure in prostate with urging to stool and urination.

Modalities - Better from moistening diseased parts, bathing. Better rubbing parts. Better moving about, walking. Better warm room. Better during menstrual flow. Better weeping. Better lemonade. Worse cold, cold water. Worse open air. Worse night, evenings. Worse eating at night. Worse standing. Worse sitting, rest. Worse fats. Menstrual flow worse sitting. Worse drawing shoulders forward or backward.

Mouth - Taste lost or salty, which is communicated to all food. Saliva salty. Tongue loaded with a white coating. Fine stitches on the surface of the tongue. Burning on the tip of the tongue. Dryness of the lips, without thirst.

Nose - Fluent coryza, with sneezing. Sneezing with itching in the ear. Loss of smell.

Rectum - Drawing pressure in the anus. **Pain about anus and perineum**, as if a spot were suppurating, when walking or sitting. Pressure in the rectum. Discharge of blood from the rectum. Evacuations hard and frequent. Diarrhea after every cup of coffee.

Skin - Gnawing itching in several parts of the skin. Itching, in the evening in bed. Acne in young women. Pruritus better scratching and appearance of menses, worse at night in bed.

Sleep - Great inclination to lie down, and to sleep. Nightmares when falling to sleep. Unrefreshing sleep, with terrible, frightful, lascivious dreams.

Stomach - Satiety after a few mouthfuls, loathing and nausea from the least food afterwards. Nausea felt in throat. **Salty taste**, hiccough-like eructation, worse fat food. Hiccough, worse pregnancy, with yawning. Vomiting of pregnancy.

Temperature - Attacks of chilliness in the morning or evening. During the evening, chill and great sensitiveness to cold air or to being uncovered. Chilly all over, not better by covers. Febrile shivering and

cold, followed by heat. Offensive sweat. **Throat** - When reading aloud the voice is weak. The tonsils and palate are shriveled and white. Dryness in the throat. Burning and scraping in throat. Sensation of painful constriction in the throat. Nausea in throat.

Vertigo - Vertigo, objects turn in circles or look pale, worse open air, better in a room and sitting.

COMMENTS - Debility, torpidity of mind and body. Dullness of senses. Flickering before the eyes, squint, especially in connection with menstrual irregularities or fevers. After convulsions, convergent squint, lefteye drawn inwards. Amblyopia, diplopia, hemiopia.

Digestive disturbances. Saliva has a salty taste, which is communicated to all food eaten. After eating but little, satiety, aversion to food with nausea in palate and thirst. Aversion to bread, butter, meat, fat, beer and ordinary food. Craving for lemonade, sardines, inedible things. Frequent vomiting in morning.

Prostatic troubles with stitches and pressure, urging to stool and urination. Menstruation too early, with some relief of melancholy mood and heaviness of feet. Scanty or suppressed menstruation with headache and vertigo. During pregnancy, hiccough, loathing and nausea in mouth and throat, complaints after weaning.

Pressing, drawing or tearing pains at parts where bones lie near surface. Chilliness. Itching leaving a numb sensation. Chilblains, itching and pricking, worse at night in bed.

Eidherr of Vienna gave the best account of this remedy. He noted the more copious menstruation, more frequent, too early, with severe abdominal pains. Accompanied with labor-like pains, flow is excessive, black and lumpy. Commencement of menses after protracted cessation.

Eidherr's clinical experience illustrates in a remarkable way Cycl.'s sphere of action. In one instance a higher

potency of the same remedy antidoted this effect. He found the remedy especially suited to blonde leucophlegmatic subjects.

The "Sleepiness, morose and lassitude." and also the vertigo noted by Hahnemann, are prominent in many of Eidherr's cases.

J. K., 24, blonde, pale delicate skin, pale lips and gums, had menstruated normally until 22, when she got wet at a picnic just as menstruation was starting. It stopped at once and did not reappear until ten months later after vigorous use of all kinds of domestic remedies.

The periods were then accompanied by terrible abdominal, labor-like pains, lasting eleven hours. Menses recurred every two or four months, always with the pains, starting from sacrum, extending along both sides of abdomen to pelvis.

They were periodical, every one, two or five minutes during which time there was no flow, the blood appearing after these attacks was somewhat watery.

Other symptoms included slightly edematous eyelids, pressing pain in the forehead and vertigo frequently changing into syncope. Chilliness of the whole body. Disturbed, unrefreshing sleep interspersed with terrible dreams. Continued loathing for meat. Longing for salt fish. Frequent vomiting in morning. After partial relief from Puls., Cycl. made a complete cure.

The ocular symptoms which developed were remarkable. The vertigo and headache were untouched by Puls., but quickly subsided under Cycl. 15x.

On their disappearance she saw fiery flames dancing before her eyes, on awakening at night and in the morning she saw everything double. And she had the hallucination as if two persons lay in her bed and that the body of the other overlapped hers by half.

Cycl. was discontinued and in two days her sight was normal.

Anna F., 20, blonde, menstruated since her tenth year. In her seventeenth year she suffered from chlorosis, ever since, menstruation was regular, but lasting only one or two days in a moderate degree. Troubled at other times by vertigo and pressing pain in forehead and temples, which attacks were ameliorated by foot baths with ashes.

Appetite poor, little thirst, stool regular, sleeps too long, always sleepy, dejected mood, morose. All movements, as well as speech, were languid, palpitation. Puls. made no change, Cycl. 3x quickly improved the headache, vertigo and spirits. After three days, sight became obscured and there was glimmering before eyes.

A case of hemicrania was cured with Cycl. Theresa F., 37., had menstruated sparingly and irregularly (often at two or three months' intervals). For four years suffered from violent headache affecting right side of head and face, coming every 8-14 days, spells lasting 12-36 hours.

During menstruation, the attacks were extra severe. Patient was emaciated, skin, gums and lips pale. Right eye closed owing to cramps in eyelids. When forcibly opened, a stream of hot tears gushed out, otherwise the eye was normal.

Under Cycl. 3c the symptoms diminished, but there appeared "glittering sparks before the eyes" and these remained after all symptoms of headache had gone. Cycl. was given persistently, the periods became regular and rather copious, and the headaches entirely ceased.

Another case (in a wet-nurse who had just weaned her baby) presented unceasing, violent, stitching pain in temporal region extending to vertex. Throbbing temporal arteries. Bell. diminished the pain, but vertigo came on.

Under Cycl. 3x, the headache and vertigo disappeared altogether, but the patient complained of her sight having become so weak that she did not dare to walk alone. This passed off when the medicine was discontinued and her headache did not recur.

Cycl. cured aboy of violent squinting. Six months before, he had a fall from a table, convulsion followed and after the second attack the squinting came on. Am. was given and the convulsions did not recur, but the squinting remained. Cycl. 15x was given and after a few weeks the squint entirely disappeared.

Wurmb cured a case of squint in a coachman with Cycl.

RELATIONS - Antidoted by: Camph., Coff., Puls. The modalities of Cycl. are in general opposite to those of Puls., the menstrual flow of Cycl. is more profuse while at rest with Puls, the opposite is the case. **Compare:** (1) Puls., Ign., Ambr. (2) Ferr. and Chin, resemble it in chlorosis. (3) Crocus and Thuj. in sensation of something alive in abdomen. (4) Am-m. - menses worse at night. (5) Iris-v. and Kali-bi. (migraine with scintillations, headache worse as sight returns, Kali-bi. (6) Coc-c. - leucorrhea worse sitting better walking, Cycl. menses worse sitting better walking. (7) Rhus-t. (enter- algia). Gels, and Seneg. (diplopia), Am. (falls), Bar-c., Calc., Canth. (chilly and fever), Cocc. (8) In speedy satiety. Lyc., Nux-v., Sep. (9) In prostatitis and urethritis, Lith-c., Dig., Sei., Caust., Lyc., Apis in squint. Alum., sudden vanishing of sight with menses, Sep., Puls. (Puls, scanty,

Cycl. profuse and dark). (10) nausea in throat, Sep. Berb.. pain in heels on standing. Desire for lemonade. Bell., Sabin.

*****CYNODON DACTYLON**

(Doorba)

PHARMACY - cyn-d. Cynodon dactylon. Doorba. Grantha doorba bhargavi. N. O. Graminaceae. A grass from India. Tincture of the whole fresh plant **Historical dose:** Tincture and all potencies.

CLINICAL-Amenorrhea. Anasarca. Cholera. Conjunctivitis. Diarrhea, summer. Dysentery. Flatulence. Headaches. Hematuria. Scabies. Ulcerative, colitis.

HERBAL - The Cynodon dactylon grows throughout India, and is used in some of the religious ceremonies of the country. Popularly known as doorba, the Sanskrit name for this plant is grantha doorba bhargavi. It is an elegant perennial plant that flowers throughout the whole year.

The freshly extracted juice of the grass is useful for hematuria, vomiting and as an application for conjunctivitis. A decoction of the plant is used as a diuretic and can be useful for dropsy and anasarca. Chakradatta mentioned it as being an excellent remedy for scabies and amenorrhea.

HOMEOPATHIC - Jugal Kishore carried out a homeopathic proving on three provers, two men and one woman. The potencies used were the mother tincture, 6x and 200c. The stock of Cyn-d. was supplied by the Hahnemann Publishing Co. of Calcutta.

General weakness, more marked in the hands, with difficulty in writing. General lassitude, laziness, aversion to work. The least physical effort causes pain all over. Mental work causes frontal headaches. Aversion to noise, but desires jolly company.

Elective action on the gastro-intestinal passages and urinary system. Flatulence and abdominal cramps. Stools irritating with acrid odor and noisy expulsion. Urgent need to stool. Urethral pain after urination.

Pain in the upper or lower limbs, ameliorated by a tight bandage or by walking. Heat in the soles of the feet with the need to take the feet out from beneath the covers.

MIND - Irritable, quarrelsome, flies into a rage. Angry without cause. Aversion to noise and does not want to be spoken to. Desire jolly company.

Abdomen - Flatulence and abdominal distention after 4 p.m. Cramping abdominal pains, with an urge to go to stool. Pain in the right hypochondrium, which disappears after resting. Heaviness around the umbilicus. Impression of a ball below and around the umbilicus.

Eyes - Conjunctivitis. Conjunctiva are painfully sensitive. Swelling of the upper right eyelid, worse in the morning. Eyelids stuck together in the morning. Pain in the eyes in morning after a bath or washing the face.

Food - Loss of appetite, which returns on eating.

Head - Forehead hot and heavy. Pain on the right side of the head and in very localized areas of the body. Headache after mental exertion or anger.

Kidneys - Involuntary urination while sneezing. Frequent and copious urination. Urethral pain after urination with feeling of not having finished.

Limbs - Sudden, shooting pain in the back of the left forearm Feeling of great weakness in the forearms and hands. Aggravation

from typewriting. Pain in the upper part of the body, especially in the back. Pain and restlessness in the legs when lying down at night, better by rising from the bed or by tight bandaging. Sensation of heat in the soles of the feet, desire to put the feet outside the covers.

Modalities - Better from heat, eating. Worse in the afternoon, evening. Worse from physical or mental exertion. Worse predominantly on the right side.

Mouth - Increased salivation with insipid taste. Loss of sense of taste. Dryness of the palate, cannot take sour or spicy food, better by taking something cold. Red patch on the palate and small red granules in the pharynx.

Rectum - Urgent need to go to stool when rising with a feeling of colic. Urgent need to go to stool continues during the day. Stools hard, difficult to evacuate. Stools semi-solid, then soft with irritating mucus. Stools, irritating, yellow and soft. Offensive, acrid stools with noisy expulsion. Much gas passed with stools.

Sleep - Sleepiness after meals. Heavy sleep. Sleep disturbed by pains in the legs.

Stomach - Sensation of heaviness in the stomach after lunch.

Temperature - Feverish, needs to cover himself. Sensation of heat in tips of toes.

RELATIONS - Compare: (1) Podo. - Diarrhea in the morning, fetid stools, expelled in a rush, tenesmus general weakness, rumbling and feeling of emptiness in the abdomen. (2) Verat. - Copious diarrhea, abdominal colic, extreme weakness with cold sweating. (3) Aloe - Abdominal distention, hot stomach, heavy with expulsion of burning irritating gases. Diarrhea after resting, urgent need to go to stool. Involuntary passing of stools when

urinating or when expelling wind.

***CYPRIPEDIUM PUBESCENS

(Yellow Lady's Slipper)

PHARMACY - cypr. *Cypripedium pubescens*. Yellow lady's slipper. N. O. Orchidaceae. Tincture and infusions of fresh root gathered in autumn. **Historical dose:** Tincture and all potencies.

CLINICAL - **Brain, disorders.** Chorea. Con- **vulsions.** **Debility.** Delirium, tremens. Ecstasy. Epilepsy. **Insomnia.** Mental, despondency. Nervous, debility. **Nervousness.** Neuralgias. Post-influenzal, debility. Rhus, poisoning. **Sleeplessness.** Spermatorrhea. Styes.

HERBAL - Lady's slipper has great repute as a "**nervine**" among eclectics and in domestic practice. It ranks with Scut. and Valer. Hale noted a strong infusion causes exhilaration followed by calmness and is much resorted to by women whose nerves are shattered by long illness or excessive indulgence in greentea or coffee.

HOMEOPATHIC - Indicated in the brainhyperesthesia of children who wake in the night lively and full of play. Epilepsy from reflex irritation. Trembling and twitching of limbs. Nervousness in children from teething and intestinal troubles. Debility after gout. The skin symptoms correspond to those of Rhus-t. poisoning, for which it has been found an efficient antidote.

MIND - Sleeplessness and agitation. Irrascibility. Throws emotional fits. Hysterical symptoms. Ecstasy, preliminary to incipient brain disorder. Indifference.

Constitutions - Suited to nervous disorders from mental over-excitement or reflex nervous excitement. Nervous weakness after influenza.

Eyes - Stye on right lower lid.

Female - Amenorrhea with hysteria. Great nervous debility and despondency. Irritable vagina, hysterical symptoms, sleeplessness and agitation.

Head - Child cries out at night, is wakeful and begins to laugh and play. Brain hypersensitivity in young children often the result of over stimulation of brain. **Hydrocephaloid** symptoms, result of long, exhausting diarrhea, sleeplessness.

Headaches of elderly people and during menopausal.

Male - Spermatorrhea with great nervous prostration and dejection of spirits.

Sleep - Sleeplessness with desire to talk. A constant crowding of pleasant ideas with restlessness of body. Ecstasy, children awaken in night from sleep "**wide-awake,**" unnaturally playful, with no desire to go to sleep again.

Vertigo - Vertigo followed by heaviness and dragging of left foot.

RELATIONS - **Antidote to:** Rhus poisoning. **Compare:** (1) Aven., Kali-br., Scut., Valer., Ign. (2) Skin relations: Grind., Anae. (3) Ambra. Coca, Guar., Thea, Zinc. (4) In ecstasy, Coffea.

REFERENCES - Boericke. Clarke.

***CYSTISUS LABURNUM

(Laburnum Anagyroides)

PHARMACY - cyt-1. *Cystisus laburnum*. Laburnum anagyroides. *Cystisus aubour*. N. O. Leguminosae. Tincture or trituration of seeds. Tincture of fresh bark. The tincture is prepared from the essences of the flowers and young leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdominal typhus. Angina, pectoris. Convulsions. Cramps. Cyanosis. Diarrhea. Dyspepsia. Eyes, disorders. Heart, anomalies. Heat-stroke. Hydrocephalus. Hypertension. Influenza. Meningitis. Migraines. Morning sickness. Motion sickness. Nausea. Raynaud's disease. Spasms. Sunstroke. Thyroid disorders. Typhoid. Vertigo. Vomiting, pregnancy. Writer's cramp.

HOMEOPATHIC - The proving was done by Joseph Schier in 1900-1901 on sixteen pro vers using the low potencies and the mother tincture. J. Mezger made a clinical re-proving with it.

Cystisus Laburnum, or wild laburnum, is a member of the leguminosae family. *Cystisus Aubour* is a shrub or small tree, growing naturally or cultivated as an ornamental plant with trifoliate leaves. It has pale, yellow flowers which hang in clusters with long pods and which are hairy when yellow.

All parts of this well-known ornamental tree are poisonous, especially the flowers and seeds, owing to the presence of cytisin. This oxygenated, unsaturated alkaloid is toxic to the glands, which it first arouses and then paralyzes. It causes convulsions and can lead to death by asphyxia. The toxicity of cytisin is allied to that of nicotine.

Knowledge of it is derived chiefly from the accidental poisoning of children who have eaten the pea-like seeds

and pods.

A typical case can be seen in that of W. G., et. 10, who ate eight to ten seeds. Five or ten minutes later, began to sweat, but soon became cold and shivering, skin pale, pulse scarcely perceptible, general collapse.

Pupils dilated. Drowsy and giddy, without pain. Emetics and brandy were given, but after an hour of this there was no improvement. An enema of hot, strong coffee was then given, the patient was wrapped in blankets and hot bottles applied. The collapse then gradually passed off.

Cyt-1. acts on the central and sympathetic nervous system causing cramping spasmodic conditions. Hyperesthesia of the peripheral nerves. Cerebral shock. Epidemic cerebral and spinal meningitis. Migraine. Nausea, pallor, cold sweating. Vertigo. Face pale. Dryness of the mouth tongue and throat. Sunstroke. Heatstroke. Travel sickness (air, sea and car).

MIND - Intense uneasiness, anguish. Depressive and irritable condition. Maniacal depressive conditions. Oppression. Insomnia. Sleepiness to the point of being in a stupor. Comatose condition.

Abdomen - Chronic gastro-duodenitis.

Spasmodic colon afflictions. Mesenteric irritation.

Back - Muscular cramps. Drawing pains starting at the nape of the neck, spreading towards the occiput.

Chest - Angina pectoris. Feeling of tightness in the chest.

Eyes - Pupils dilated.

Female - Dysmenorrhea. Menopausal complaints. Copious leucorrhea.

Head - Neuralgic pains in the head of a migraine type. Pulsating headaches. Pressing frontal pain. Pricking pain in

the left temple.

Heart - Hypertensive attack with state of collapse, pale, livid face and cold sweating. Palpitations with accelerated pulse. Arterial pulsation in all limbs. Rhythmic anomalies. Raynaud's disease.

Limbs - Weakness and numbness of the limbs. Sensation of breaking in all the limbs. Stiffness and drawing pains in the limbs. Muscular cramps.

Lungs - Respiration rapid at first, then slower and difficult. Wheezing respiration. Whooping cough.

Male - Strong erections.

Modalities - Better after passing wind, after going to stool. Worse from the cold. Worse in the afternoon, evening. Worse predominantly on the left side.

Mouth - Dryness of mouth, tongue and back of throat. Burning, mouth and pharynx.

Nose - Nosebleeds.

Rectum - Diarrhea with painful abdominal colic, intestinal rumbling and anal tenesmus. Cholera-type diarrhea.

Skin - Skin cold, cold sweating. Cyanosis. Pruritus. Vésicules around the cheek.

Sleep - Insomnia with delirium. Worrying dreams.

Stomach - Gastric heaviness, burning pains in the stomach. Acrid dyspepsia. Nausea with vertigo and vomiting.

Temperature - Discomfort, accompanied by a feeling of coldness.

Throat - Feeling of constriction in the throat. Tickling sensation in the throat with the need to clear it.

Vertigo - Vertigo and absent feeling. Constant vertigo, even while lying, if she attempted to sit upright, she immediately fell back again.

COMMENTS - In one case of poisoning by Cyt-1., the head was hot and rigidly thrown back. Muscular twitchings about the face. Convulsions, insensibility, drowsiness and mental indifference.

Two boys who were poisoned by the root of an old tree had very strange waving motions of the arms and convulsive drawing up of the legs, first one leg then the other. Pupils equally dilated.

A boy who ate the green twigs of Cyt-1. was seized with vomiting, pain in the stomach and collapse, there was no diarrhea but tenesmus and erections. After a few hours he passed 300 grams of grass-green urine, after which he felt better. Soon after passing, the urine assumed a natural color.

RELATIONS - Antidoted by: Coffee and stimulants, hot and cold douches to chest. **Compare:** (1) Nux-v. (2) Gels. - better by copious urination. (3) Tab. - Prostration, nausea, vomiting, general coldness and cold sweating, vertigo and pallor. (4) Verat. - State of discomfort, collapse, coldness of the limbs, cyanosis, prostration, vomiting, cold sweating and tiring diarrhea. (5) Bapt. - Intense nervous depression, extreme agitation, impression that the body is double, sensation of breaking in the bones, putrid breath, fetid diarrhea.

REFERENCES - Clarke. Julian.

*****DAMIANA APHRODISIACA**

(Turnera Aphrodisiaca)

PHARMACY - dam. Damiana aphrodisiaca. Tumeraaphrodisiaca. N. O. Turneraceae. Tincture of fresh plant.

Tincture of dried leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. **Chronic, fatigue.** Dysmenorrhea. Gonorrhea. Headaches. Infertility. **Impotence. Incontinence.** Leucorrhea. Migraines. Prostate, disorders. **Sexual, weakness.** Spinal, injury. Spermatorrhea. Syphilis. Urinary, disorders.

HERBAL - Damiana is the local name of the herb *Tumera aphrodisiaca*. It has long been a domestic medicine in Mexico, where it is used to **"invigorate the system."**

Indians discovered that a decoction of it was a great invigorator after wearisome journeys and dispels fatigue. They also found in it a remedy for the inability to exercise the reproductive functions in both sexes.

Back - Spinal injury.

Bladder - Urinary disorders. **Incontinence.**

Female - Dysmenorrhea. Amenorrhea. Leucorrhea. Sexual weakness. Infertility.

Head - Headaches, migraines.

Male - Prostate disorders. Spermatorrhea. Gonorrhea. Syphilis. **Impotence.** Sexual weakness.

COMMENTS - Hale collected a great deal of experience concerning this remedy from old-school sources, showing its power over the genito-urinary system.

Douglass reported three cases of incontinence of urine, including the case of a man, age 63, who had dribbling of urine day and night for four years. He was given Dam. 2x in water, four times a day, and was cured in two months.

History of curing cases of severe migraines. One or two doses given within an hour would cause the headache to cease and induced sleep, from which the patient woke free from headache and with good appetite.

Spinal injury from a fall. Sexual excess. Syphilis or gonorrhea. Amenorrhea, dysmenorrhea and leucorrhea.

RELATIONS - Compare: (1) Impotence, injuries, over-exertion, fatigue, Bell-p., Arn., Agn. (2) Prostatic affections, Sabal., Solid. (3) Migraines, Bry., Epipheg.

REFERENCES - Clarke. Murphy.

***DAPHNE INDICA

(Spurge Laurel)

PHARMACY - daph. *Daphne indica*. Spurge laurel. *Daphne odora*. Sweet-scented spurge laurel. N. O. Thymelaceae. Tincture of fresh bark. **Historical dose:** Tincture and all potencies, esp. the first to sixth potencies.

CLINICAL - Amaurosis. Amblyopia. Constipation. Coughs. Exhaustion. Eyes disorders. Exostosis. Fever. Gastralgia. Gonorrheal rheumatism. Gout. Halitosis. Leprosy. Mer- curio-syphilis. Prostatorrhea. Rheumatism. Splenitis. Sleeplessness. Syphilis. **Tobacco, craving.** Toothache.

HOMEOPATHIC - *Daphne indica* was proved by G. Bute. It, like its relative *Daph. mezereon*, produces disorders of the muscles, bones and skin, hence its relation to syphilis and the anti- syphilitic remedies *Aur.*, *Merc.*, and *Staph.* Clammy skin. Red rash in spots on legs in evening. Itching. *Daph. oleoides* is credited by Hering with relieving leprosy.

Daph. acts on the tissues, muscles, bones and skin. **Fetid breath**, urine, sweat. Erratic and electric-like pains. Sudden, lightning jerks in different parts of the body. Exostoses with stitching, pressing or dull pain, worse at night. Bruised pain. Exhaustion. Parts of the body feel separated (Bapt.).

Burning in stomach. Gastric symptoms, worse from alcohol. For the **craving for tobacco** (Calad.). Prostate discharges, worse from tobacco.

MIND - Despondent and sad. Mental dejection. Timidity. Exhaustion. Absent-minded. Indecisive, walks about room and can't make up his mind to anything.

Agitated. Irritability. Over-excitement and trembling, during the pains.

Any effort at thinking causes pain or soreness in brain. Fearful and trembling, from pain about heart.

Abdomen - Colic with chilliness. Pain in the abdomen, with shiverings. Contraction of the abdomen. Shootings and pains in the region of the spleen. Arthritic pains which pass rapidly from the limbs to the abdomen. Trembling in abdominal muscles.

Back - Pain in the nape of the neck with headache. Screwing pain from the ear to the shoulder. Sensation as though the cervical glands were much swollen. Sharp pain beneath left scapula. Burning itching in the back. Painful pulling along the spinal marrow, worse by stooping.

Ears - Burning about ears and on vertex with constant inclination to yawn. Buzzing, roaring in ears. Roaring and humming.

Eyes - Scraping in the eyes. Violent pains in the eyeballs, in the evening, with great nervous excitement. Painful sensation as if the eyes were pushed outwards from the head. Sensation around the eyes and eyelids

with dryness and heaviness of eyelids. **Contraction of the pupils.** Eyes inflamed, weak, dull, as it were swimming in tears.

Face - Heat and burning sensation in the cheeks, around the ears, and in the vertex, sometimes with constant inclination to yawn. Sensation of swelling. Stiffness and tension in the temporo-maxillary joint, with burning, smarting in the skin.

Food - Loss of appetite, moderate thirst. Craving to smoke tobacco. Gouty pains ■worse aicohof.

Head - Headache, provoked by all kinds of intellectual labor. **Bursting pain on rising in bed.** Heat in head, especially in vertex. Feels as if skull would burst. **Sensation as if head were separated from body.** Soft nodular swellings on bones about vertex, pain worse at night and touch. Itching on scalp. Painful pulsation in temples with soreness when touched.

Heart - Palpitations and starting of the heart, with inability to remain lying on the left side. Acute pains in the region of the heart, with discouragement and trembling.

Kidneys - **Frequent and abundant emission of urine.** Pain, as from excoriation in the urethra, when urinating. Urine fetid, turbid, thick, yellowish like rotten eggs. **Reddish sediment, which adheres to the side of the vessel.** Frequent bedwetting at night.

Limbs - Shooting pains, shift rapidly, worse cold air. Pains shift upwards towards the abdomen and heart. Bone-ache, piercing pains in the bones and acute shooting pains in the fingers. Excessive itching on the arms and hands. Rheumatic pains in thighs and knees. Buttocks cold. Right toe swollen, painful.

Lungs - Cough, fatigues and hinders sleep. Thin, slimy, copious, and bloody expectoration. Cough, with vomiting, and yellowish frothy expectoration, mixed sometimes with streaks of blood. Suffocative feeling with throat complaints. **Yellow, often frothy, blood-streaked expectoration.** Copious, thin, slimy mucus. Suffocating fits at night.

Male - Toothache with erections, after sex. Sweating of scrotum. Discharge of prostatic fluid, after making water. Prostatic discharge worse smoking.

Modalities - Worse from cold air. Worse touch, pressure. Worse evening in bed. Worse at night. Worse waning moon. Cold air aggravates wandering gout. Lying down aggravates gouty pains, backache. Pains are worse from warmth of bed. Stooping or bending aggravates pains in spinal cord. Walking aggravates rheumatic pains in thighs. Gastric symptoms worse akohoL Pains worse warmth of bed-

Mouth - Dryness of mouth as if burnt, after sleep. **Tongue coated on one side only** (Rhus-t.). Fetor of the tongue. Dryness of the tongue after sleep, as if it had been burned. Saliva, hot. Foul smelling breath. Salivation, with toothache.

Nose - Nose scurfy, with some heat.

Perspiration - Clammy, offensive sweat, with a putrid smell. Viscid sweat over the whole body.

Rectum - Stools scanty, bloody at end.

Constipation.

Sleep - Inclination to sleep with inability to accomplish it. Sleeplessness from aching in bones. Starting on falling to sleep, with fright, with chilliness, shivering, clamminess and viscid sweat. Agitated, unrefreshing sleep. Nightmares. Dreams of black cats. Dreams of fire.

Skin - Clammy skin. Red rash in spots on legs, in evening.

Stomach - **Burning in stomach and sensation of soreness after each meal.** Pressure in stomach after drinking. Sensation of fullness and ebullition in the precordial region. Aching in the stomach after drinking. **Heartburn and sour vomiting.** Frequent cramps in the stomach. After each meal, burning pain and sensation of excoriation in the stomach, with frequent risings of flatus, the pains extend to left hypochondrium and to the back. Nausea and vomiting after breakfast.

Teeth - Pulsation in the teeth and gums. Acute drawing pains in all the teeth. Toothache, with and without salivation. Toothache with fits of shivering, or disposition to perspire. Toothache with erections, after sex.

Temperature - Chilliness with stretching and yawning. Fever, similar to typhus, with excessive shivering, followed by continued heat, and complete loss of appetite. Fever with gastric and nervous suffering.

Throat - Soreness in left side of throat on pressure. Inflammation of throat and suppuration of tonsils. Feeble voice.

Vision - Floating black spots. Weak sight, with confusion of the letters when reading. While reading, the letters fade and appear as a black line. Diplopia.

COMMENTS - Tongue coated on one side only (Rhus-t.). Foul-smelling tongue. Ptyalism with hot saliva. Fetidity is a marked feature of breath, urine, sweat. Sensation that parts of the body are separated from one another.

Sudden pains, wander suddenly from limbs. Pain shoots into the region of the heart or abdomen. Sudden stitch in region of spleen. Ball of right great toe swollen and very painful. Cold feeling on buttocks.

Daphne indica

RELATIONS-Antidoted by: Bry., Dig., Rhus- t., Sil., Sep., Zinc. **Antidote to:** Chr-ac.. Merc. **Compare:** (1) Fl-ac., Aur., Mez., Staph. (2) Thuja. - effects of suppressed gonorrhea. (3) Benz-ac. - fetid urine, Puls., Chin., (4) Taxus - erratic pains, Verat. - lightning pains, Bapt. - limbs seem scattered about the bed, Ars. - body seems divided at waist. (5) Dirca belongs to the same family.

*****DATURA ARBOREA**

PHARMACY - dat-a. *Datura arborea*. Brug- mansiasuaveolens. Brugmansiacandida. N. O. Solanaceae. Tincture of the **dossiers**. **Historical dose:** All potencies.

CLINICAL - Brain, disorders. Clairvoyance. Confusion. Spinal, irritation. Vertigo.

HOMEOPATHIC - According to Froriep, the juice instilled into the eye causes amaurosis. The odor of the flowers, left in a room for two days, caused many remarkable symptoms including spasms.

While cutting and handling the flowers, there was depletion of the nervous circulation in the medulla oblongata. Cerebellum and a spinal irritation.

Sensation as if forehead were expanded. Headache. Heartburn. Burning sensation around cardiac end of stomach, extending to esophagus, with sense of constriction. Heat and fullness over liver region.

MIND - Confusion of ideas with nervous irritation. Can't concentrate thoughts. Floating sensation as if ideas were floating outside of brain. Brain floats in thousands of problems and grand ideas.

Strange feeling of pleasant and easy comfort, as if he scarcely touched earth with his feet and had to gather ideas from afar. Sensation as if they were floating in the clouds. Involved in a most beautiful atmosphere, bright and calm as the sunlight at noon.

RELATIONS - Compare: (1) Stram.

*****DATURA FEROX**

(Chinese *Datura*)

PHARMACY - dat-f. *Datura ferox*. Chinese *datura*. N. O. Solanaceae. Trituration of seeds. Tincture of unripe fruit. **Historical dose:** All potencies.

CLINICAL - Delirium. Mania.

HOMEOPATHIC - Poisoning with this drug causes raving madness.

A girl who ate half an unripe fruit was completely out of her mind in a quarter of an hour, dizzy. Sleepy, slept with eyes open. If disturbed, she sprang up raving and uttered unintelligible words, if one sang she began to dance in the Favanese fashion.

This symptom may prove a keynote in certain cases of mental alienation. Dryness of the mouth was also noted in this case, as with Bell, and other Solanaceae.

REFERENCES-Clarke.

*****DATURA METEL**

(Indian *Datura*)

PHARMACY - dat-m. *Datura metel*. Indian *datura*. N. O. Solanaceae. Trituration of seeds. **Historical dose:** All potencies.

CLINICAL - Convulsions. Delirium. Epilepsy. Eye disorders. Mania. Timidity.

HOMEOPATHIC - Dat-m. causes a sleepy condition and later delirium and spasms. The soporose state may be absent. Delirium may be vociferous or merely garrulous. Patient usually manifests excessive timidity. Picks at real or imaginary objects. Performs ridiculous antics.

Several movements appear due to perverted vision and inability to judge distances. After the delirium, patient remembers nothing of what has occurred. Extreme dilatation of pupils. Flickering before eyes with sensitiveness to light. Pulse and temperature undergo extremes of exaltation and depression.

RELATIONS - Compare: (1) Other Solanaceae.

*****DEOXYRIBONUCLEIC ACIDUM**

(DNA)

PHARMACY - des-ac. Deoxyribonucleic acidum. DNA. **Historical dose:** All potencies.

CLINICAL - Allergies. Amnesia. Cancer. Down's Syndrome. **Emaciation.** Epilepsy. Fatigue. Hypersensitivity. Hyperthyroidism. Insomnia. Manic, depression. Neuralgia. Neurosis. Premature senility.

HOMEOPATHIC - The proving of DNA. following the method indicated by Hahnemann, was conducted from 1970 to 1972 by O. A. Julian. Thirty people took part in this proving, four of whom were women, and all were doctors. Using the single blind method, the 30c, 7c, and 3x potencies were used, along with a placebo. The symptoms of that proving were incorporated with indications given by some Belgian homeopathic authors, who carried out some clinical research using potencies of DNA.

Symptoms include a sense of general well being, more so in the morning. Difficulty in assembling thoughts, poor powers of concentration. Does not want to be idle, need to work. Difficulty working, but better when body fatigue wears off. General hypersensitivity, with asthenia. Tendency to hyperthyroidism.

MIND - Hot-tempered, nervous disposition. Bad-tempered. Extremely irritable, with general feeling of discomfort in the morning. General feeling of uneasiness. Personality disorders, periods of dual personality. Narcissistic neurosis. Neurosis from anguish. Manic depression psychosis.

General amnesia. Lack of willpower. Physical and psychological slowness, backwardness. Impossible for him to work, cannot concentrate. Mental slowness from the after effects of poliomyelitis. Down's syndrome.

Abdomen - Pain in the epigastrium. Distention, not eased by food. Flatulence and rumbling. Disorders of the liver, pancreas. Biliary sycosis.

Back - Pain in the left shoulder, in the acromion and the clavicular joints. Torticollis. Arthrosis of the neck and back. Intercostal neuralgia.

Blood - Peripheral circulatory complaints: hands cold during the day, hot in the evening. Leucopenia. Hemorrhage. Nightly acroparesthesia.

Constitutions - Psoric and allergic constitutions. Cancerous condition.

Eyes - Persistent bilateral conjunctivitis. Asthenopia. Extreme ocular fatigue, difficulty in seeing things in the distance clearly. Myopia. Bright spots before the eyes, which disappear when closed, appearing around 10:30 a.m., and last for an hour.

Female - Anal and vulvar pruritus.

food-Increases the appetite. Hungerpangs between meals. Anorexia.

Head - Neuritis and neuralgia of the brain. Headache and nausea after drinking a little wine. Pulsating headache over the whole head. Headache concomitant with need to go to stool, which does not provide relief. Ophthalmic migraine.

Kidneys - Painful urination. Urinates, especially about half an hour after meals. Irregular diuresis, sometimes copious, with yellow urine, sometimes copious and pale. Oliguria.

Limbs - White spot on the left index finger. Arm very painful, aggravated by pressure. Nightly recurring cramps in the calves. Osteomyelitis. Fractures repair slowly. Peri-arthritis of the scapula and humerus. Arthrosis of hips and shoulders. Patches of sclerosis.

Male - Sexual mania. Diminution of libido. Hypertrophy of the prostate. Eczema of the scrotum.

Modalities - Better from rest. Better lying in the dark. Better laterality left side. Worse from movement.

Mouth - White coating over the whole tongue reaching even the edges, not removed easily by brushing. Burning sensation in mouth mucus membranes, with sensitive gums. Gingivitis. Angina. Gums bleed when brushing the teeth.

Nose - Frontal sinusitis.

Rectum - Tendency to constipation, with dry, dark stools. Tendency to diarrhea after meals, with flatulence. Anal eczema, with burning and oozing.

Skin - Burns. Psoriasis. Eczema. Marginal and eczematous rash, with burning and oozing. Reappearance of an eczematous dermatitis. Inflammatory folliculitis of the thighs. Alopecia. Seborrhea.

Sleep - Twilight sleep. In the evening, irresistible desire to sleep, once in bed, no longer wants to sleep. Insomnia. Disturbed sleep. Sleepwalking. Erotic dreams at the end of the night. Dreams of dead bodies.

Stomach - Acid dyspepsia. Burning in the stomach and esophagus. Chilliness after meals, with a cold feeling between the shoulders and feeling of heat on the face, disappearing with movement.

Throat - Laryngitis. Splinter-like feeling in the throat in the morning on waking. Raw feeling in the throat. Feeling of a foreign body, especially on the left side, ameliorated by cold water and by swallowing.

RELATIONS - Compare: (1) Plat., Nep., Arg-n.

REFERENCES-Julian.

***DERRIS PINNATA

PHARMACY - der. Derris pinnata. N. O. Leguminosae. Papilionoideae. China. Tincture of plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Blepharospasm. Diarrhea. Dysentery. Eyes, inflammation. Locomotorataxia. Mania. Ozaena. Smell, affected. Tic douloureux.

HOMEOPATHIC - Dr. X. Roussel is the authority for this plant. Peculiar symptoms include "He walks as if stepping on down," Painful and convulsive tic douloureux .Electric shocks and cramps. Exalted sense of smell. "He perceives celestial odors," also "intolerable smells after frequent sneezing." Heat helps toothache. Viscid urine and viscid saliva. Many symptoms, including diarrhea, come on at night. Worse from touch.

Derris pinnata

MIND - Delusion that he is seasick. Fear of falling on turning head. Censorious with dearest friends. He is afraid of killing some one with a knife. Singing alternating with weeping.

RELATIONS - Compare: (1) Anae. - sense of smell. (2) Stict. - levitation. (3) Ign. - ball in throat, hysteria.

REFERENCES Clarke.

*****DESMODIUM GANGETICUM**

PHARMACY - desm-g. Desmodium gange- ticum. N. O. Leguminosae. India. Tincture of plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Catarrhal. Cough. Dropsy. Fever. Headache. Heat, flushes. Intermittent, fever. Meningitis. Neuralgia. Pleurodynia. Rheumatism. Typhoid, fever. Ulcers. Vomiting. Wry-neck.

HERBAL - It is a small tree growing in the forest and is found throughout the plains of India, also the lower Himalayan regions.

The Hindu physicians have highly extolled it as an alternative, tonic, and bitter remedy. They have found it efficacious in vomiting, fevers, dropsy, ulcers, cough, respiratory troubles and affections due to worms.

It is a bitter tonic and febrifuge. It is also digestive and anti-catarrhal. It is one of the principal ingredients of Dashamula, an ayurvedic decoction of reputation successfully used in many diseases, namely typhoid fever, cough, asthma, pleurodynia.

HOMEOPATHIC - Desmodium gangeticum can safely be used in typhoid fever and cere- bro-spinal meningitis when the patient feels pain all over the body, there is sleepiness, or comatose sleep, headache is present, and there is feeling as if the head is bound up with a tape or rope.

In intermittent or remittent fevers of children it can be used when there are sleepiness or drowsiness and pains over the body. In this respect it bears a close resemblance to Gelsemium and in place of which it may be given. It may be employed in remittent and typhoid fevers and cerebro-spinal meningitis associated with pains over the whole body, specially over the spine, headache and sleepiness with a feeling as if a tape lay around the head.

The fever comes on in the morning generally at 7 a.m. There is slight chilliness, lasting for 2 or 3 hours. From the onset burning sensation is felt over the face and eyes and in the hands and feet. Flushes of heat come out of the face.

There is remission of fever with perspiration over forehead and back part of the hands and in feet. The fever indicating this drug is quotidian in character, regularly returning daily. The pains all over the body and headache and other symptoms may also be present.

The above are the characteristic symptoms in which Desmodium gangeticum will be found an excellent remedy in intermittent fevers. It is also a valuable remedy for wry-neck.

COMMENTS - The late Dr. Aghore Ch. Bhaduri. with his three pupils made a proving of this drug. The result of the proving is given below.

He felt pains all over the body. Nervous pain, specially in the legs and neck. Burning sensation was felt in the hands and feet. Sleepiness.

Pains like rheumatism and neuralgia were felt in hands, feet, legs and the rest of the body. Could not sit straight on account of spinal pain. Burning sensation was felt in the eyes, face hands and feet and flushes of heat ignited from the face.

Neuralgic pain was felt in the stomach. Pain was felt in knee joint. Headache associated with a sensation as if all sides of the head are bound up with a tape. The above were the symptoms which were noticed by Dr. Bhaduri during the course of the proving.

RELATIONS - Compare: In burning sensations, it can be compared with Azadirachta, Kalmegha, Rohitaka, Sulphur, etc.

REFERENCES Ghose.

*****DICHAPETALUM THUNBERGH**

PHARMACY - dicta. Dichapetalum thunbergh. Dichapetalaceae or Chailletiaceae family. The flower inhabits tropical the regions. Tincture of leaves and bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Arthrosis. Cellulitis. Duodenal, ulcer. Eczema. Hernia. Joint, pain. Lichen planus. Migraines.

Neuralgias. Rhinitis. Sinusitis. Tonsillitis. Vertigo.

HERBAL - Dicha, is a dicotyledonous family with super-ovarized dialypetals, growing as trees or shrubs with simple alternate leaves, flowers in clusters or corymbs. The fruit is a drupe with a pendant seed, which has no albumen.

HOMEOPATHIC - Dicha, was brought to Europe by Dr. Willmar-Schwabe of Germany. The symptomatology was established by G. Mating on a group of four women and three men. all doctors. Using adouble blind method, the 3x, 4x, 6x, 15x, and 30x potencies were used, along with a placebo.

General fatigue of the body, despite a state of euphoria when working. Sudden lack of energy with fatigue and a feeling of hunger, ameliorated by food and alcohol. Sullen mood. Inner trembling. Snuffles. Sensation of trembling inside the entire body.

Stiffness at the nape of the neck, back, loins and sacrum. Occipital headaches. Migraines. Vertigo, buzzing in the ears, visual and psychosomatic complaints. Radicular neuritis. Chronic infection of the mucus membranes. Cervical and brachial neuralgia. Lichen planus.

MIND - Sullen moods. Mental fatigue. Disinterested, must make an effort to work.

Abdomen - Rumbling and pinching feeling in the abdomen, ameliorated by eating and expelling wind. Passage through intestines accelerated with more frequent stools. Duodenal ulcer. Diaphragmatic hernia.

Back - Pain between the shoulders. Pain in the right shoulder, spreading towards the neck. Dorsal pain and stiffness like ankylosis. Severe pain and stiffness in the lumbar region, when seated or when walking. Pain in the lumbar region with drawing

pains around the thighs. Drawing pains in the sacrum, ameliorated by urinating or expelling wind, worse when standing. Cellulitis of the nape of the neck.

Chest - A retro-sternal pain, worse when swallowing.

Female - Premature, too frequent menses. Amelioration of rheumatic pains at the beginning of menses.

Food - Low blood sugar. Fatigue is ameliorated by food and alcohol.

Head - Migraines. Occipital headaches. Pounding headache on all sides of the head, better by rest and fresh air. Diffuse, dull head pain with numbness of the head. Pain and stiffness at the nape of the neck.

Heart - Pain in the precordial region with palpitations, followed by ascending hot flushes. Cardiac anguish with feeling of uneasiness and difficulty in falling asleep.

Limbs - Fatigue and rheumatic pains in the limbs. Joint pain. Arthrosis. Legs feel like rubber. Heaviness in the calves.

Modalities - Better from fresh air. Better resting. Better eating. Better from menses. Worse on right side. Worse from standing. Worse walking.

Mouth - Dryness, formication and tension at the lips. Quick, short, drawing pains in the teeth of the lower jaw.

Nose - Itching of the nose and face. Feeling of having a cold with blocked nose. Painful drawing sensation at the root of the nose, especially when the eyes converge to read. Sinusitis. Rhinitis.

Rectum - Bleeding hemorrhoids.

Skin - Deep eczematic fissure on the palm of the hand, stretching along the 'lifeline,' with scaly eruption at the edges. Herpestype eruptions, which itch, on the inner side of the left ankle with burning and scratching. Lichen-type eczema, in cement workers and bakers. Lichen planus.

Temperature - Shivering and sensation of cold, even when in a warm room. Rising heat, as if about to have a fever.

Throat - Tonsillitis. Painful pulling on the right tonsil. Feeling of a grating lump in the throat. Fit of laryngeal coughing. Aphonia, ameliorated after speaking for a long time. Swallowing painful on the right side of the throat. Dysphagia.

RELATIONS - Compare: (1) Rhus-t. - Aching, stiffness, ameliorated by prolonged movement, vesicular eruptions, burning and itching. (2) Tub. - Joint pains with stiffness, dragging, worse on waking and after meals. (3) Zinc - Occipital pain with heavy feeling on the vertex or the root of the nose. Nose blocked, burning pains in the back, fidgety feet.

REFERENCES-Julian.

***DICTAMNUS ALBUS

(Fraxinella)

PHARMACY - diet. Dictamnus albus. Fraxinella. Dictamnus fraxinella. N. O. Rutaceae. Tincture of whole plant.

Historical dose: Tincture and all potencies.

CLINICAL - Constipation. Flatulence. Leucor- rhea. Metrorrhagia.

HOMEOPATHIC - Dictamnus acts on the female organs. Increased secretions. Early menses, of black clots, preceded by blindness. Profuse, corrosive leucorrhea with tenesmus. Bearing down with bilious vomiting,

worse standing. Cramps from anterior thighs into the uterus before the menses.

Sensation of milk flowing into breasts. Increased flow of urine. Frequent emission of copious, offensive flatus.

Sensation of a lump rising in the throat. Worse from standing. Sleepwalking. Dreams of piecing bodies of her children together.

REFERENCES - Clarke.

***DIGITALINUM

PHARMACY - digin. Digitalinum. Active principle, glucoside of *Digitalis purpurea*. N. O. Scrophulariaceae. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthma. Diarrhea. Emissions. Exophthalmus. Fainting. Heart disorders. Palpitations. Spermatorrhea. Vertigo. Vision, hallucinations.

HOMEOPATHIC - Digin. is a poison of great activity. It produces a profound effect on muscular tissue, both voluntary and involuntary, more especially on the heart. Irregular and intermittent action.

Digin. causes profound prostration, even to inability to move a muscle. The heart is slowed or else its action is made rapid and feeble. **Sensation as if the heart stood still.** Paralytic weakness, numbness, tremulousness of the limbs. Cold, clammy surface. Goose-flesh.

A sinking, faint sensation at the epigastrium. Shivering. Diarrhea, the stools are not characteristically white as are those of the plant. Nausea and vomiting of egg yolk matter. Drinking causes nausea and vomiting. Symptoms are better after dinner.

Sensitiveness of eyes to light and nose to odors. Disorders of vision and hearing. Confusion of the head, better walking in open air. Chilliness and fever worse in afternoon and evening. Heart pains are worse lying on left side. Pains in trunk worse during rest. Many symptoms appear on waking in the morning.

COMMENTS - According to Hale, Digin. is indicated in cases of "overburdened heart where it is constantly laboring."

Digin. cured the case of Mrs. X, who had for over a year swelling of right hand and fingers, which she thought to be rheumatic. Digitalis has the symptoms, "swelling of right hand and fingers," and this would have been given, but only Digin. was at hand. It was given in 4x potency. After the second dose the swelling began to subside, and in two or three days was completely gone.

One prover noted "frontal headache, dazzlings, loss of appetite, sinking at epigastrium with intestinal flatulence, borborisms, eructation. Slight abdominal pains, urine abundant, great fatigue, painful heat in evening but no thirst."

For a whole day pressure in supra orbital region towards frontal sinus and when walking a feeling as if the ground gave way under his feet. Sexual weakness is shown in "Deep sleep in which an emission occurs without waking him." "Sexual power diminished or quite abolished temporarily."

RELATIONS - Compare: (1) Dam., Dig., Con., Grat., Tab., Gels., Sec.

REFERENCES-Clarke.

***DIGITALIS PURPUREA

(Foxglove)

PHARMACY - dig. Digitalis purpurea. Foxglove. N. O. Scrophulariaceae. Tincture from the leaves of the second year of the **plant**. **Historical dose:** Tincture and all potencies.

CLINICAL - Amaurosis. **Angina pectoris**. Aphthae. Ascites. Asthma. **Balanitis**. Bright's disease. Cataract. Collapse. Congestive heart failure. Coryza. **Cyanosis**. Cystitis. Delirium tremens. Diplopia. Dropsy. **Dyspnea**. Emphysema. **Faintness**. Fevers. Gonorrhea. Headache. **Heart, disorders. Heart, weakness**. Hepatitis. **Hot, flushes**. Hydrocele. Hydrocephalus. Hydrothorax. Impotence. Jaundice. **Liver, disorders**. Lungs, congestion. Melancholy. Memory, lost. Meningitis. **Mitral valve, disease. Nausea**. Nephritis. **Neuralgias**. Noises, in head. Pericarditis. Phimosis. Pleurisy. Pneumonia. **Prostate, enlarged**. Prostration. Pulmonary, edema. **Pulse, slow**. Ptyalism. Spermatorrhea. Stomatitis. Toothache. Uremia. **Urethritis**. Urinary, disorders. Vertigo. Vision, disorders. Vomiting. **Weakness**.

HOMEOPATHIC - Digitalis is a **heart remedy**, but also affects the liver, lungs, stomach and genito-urinary organs. Dig. should be considered in all diseases where the heart is chiefly involved with abnormally **slow, irregular or intermittent pulse**, along with indefinite and causeless symptoms.

Weakness and dilation of the myocardium. Indicated in failure of compensation. Auricular flutter and **fibrillation**, especially when subsequent to rheumatic fever. Useful for people with side effects from the digitalis drug.

Symptoms of organic heart disease, such as great weakness and sinking of strength, faintness, coldness of skin and irregular respiration, cardiac irritability. Faint, as if dying. **Bluish** appearance of face. **Cardiac**

muscular failure when systole is present. Stimulates the heart's muscles, increases force of systole, increases length.

Heart blockage with a very slow pulse. The **pulse is weak, irregular intermittent, abnormally slow** and dropsy of external

Digitalis purpurea and internal parts. Slow pulse in recumbent posture, but irregular and dicrotic on sitting up. Irregular pulse. Pulse can be slow or it can be intermittent. Slow pulse with menopause, puberty, or after sexual abuse.

Congestive heart failure, especially in elderly people with dizziness and ringing in the ears. Tightness of the chest and weak heart. Constriction of the chest (Cact.). Weary feeling and their limbs feel heavy (Gels., Con.). Fluttering of the heart (Nat-m.). High blood pressure, with kidney involvement or prostate problems.

Sense of suffocation, a fear of suffocation relating to a weak heart. Sinking feeling in the stomach with heart palpitations. **Faintness**. Sensation as if he would die if he moves during the palpitations. **Great weakness**, can hardly talk, sinking of strength. Collapse. Prostration from slight exertion.

As of an electric shock going through the body. **Cyanosis**. Must walk about, with precordial anxiety, with urging to urinate. Dropsy with suppression of urine. Jaundice from induration and **hypertrophy of the liver**. Jaundice with heart disease. Tongue is blue and clean, thick and flabby. Eye troubles after tobacco.

MIND - Great anxiety, as from troubled conscience. Reproaches himself. **Great guilt, better weeping**. Anxious, low-spirited and tearful. Extreme anxiety related to the heart. **Anxious about the future**. Excitement, stammers when talking to strangers. Excitement at night.

Suspicious. Fearful. **Fear of suffocation at night**. Fear of insanity. Fear from music. Fear of death while walking. Feels as if he would fly to pieces. Every emotional shock strikes in epigastrium. Fear arising from stomach. Hurried, abrupt speech.

Deep sighing and grief with heart problems (Ign., Calc-p.). Arrhythmias and palpitations that are worse since grief (Nat- m). Despair. Despondent. **Sadness from unhappy love**. Sadness, great depression, with sleeplessness. **Weeping improves symptoms**. Weeping from music. A broken heart with the sensation that the heart will fly to pieces.

Melancholy, dull lethargic **with slow pulse**. Excessive desire to be alone. Tries to escape if others force themselves on her. Stammers when talking to strangers. Converses with absent people. Unsympathetic.

Dullness of senses. Thinking difficult. Weak memory. Forgets everything immediately. Insane obstinacy and disobedience, with desire to escape. **Suspicious**. Irritability after sex. Lascivious thoughts in old men with enlarged prostate.

Abdomen - Ascites. Severe abdominal pains. Pain in left side apparently in descending colon and under false ribs. **Tenderness of epigastrium**. Pulsation in the abdominal aorta and epigastric constriction. After a meal, pressure and inflation of the abdomen and of the stomach. Sensation as if intestines were twisted. Gripping pain. Incarcerated hernia. Bowel symptoms alternating with chest symptoms.

Back - Stiffness and tension of the muscles of the neck and of the nape of the neck. Drawing pains in the back and in the loins, as after a chill. Bruise-like pains in the loins on blowing the nose. Tearing, sharp, aching and cutting pains, in neck. Lacerating, and sharp pains in lumbar region.

Bladder - Cystitis, after passing a few drops the desire to urinate is increased and the patient walks about in great distress. **Urethritis**, phimosis, strangury. Full feeling after urination. Urine, suppressed. **Sharp cutting or throbbing pain** at neck of bladder. Difficult urination. **Pain, as if a straw was being thrust back and forth**, worse at night. Constriction and burning, as if urethra was too small. Dragging in bladder as if distended, not better frequent urination. Contractive pain in bladder, during urination. Urine more easily retained in recumbent position. After urination pressure in bladder and burning in urethra.

Breasts - Shuddering at the breasts.

Causations - Ill effects of high living, sexual abuse or excessive alcohol intake.

Chest - **Angiria pectoris**. Great weakness in chest, can't bear to talk. **Suffocative painful constriction of chest**, as if internal parts were grown together. Creeping all

Digitalis purpurea over skin. Smarting in the chest. Tension in the chest with necessity to breathe deeply. Contractive, pressing pain in the chest, when sitting with the body bent. Sensation of soreness. Congestion in the chest. Raw, sore feeling in chest, with cough. Trembling in chest.

Constitutions - Nervous lymphatic constitutions. Children with very pale complexions, light hair, scrofulous.

Cough - Dry cough, on deep inspiration. Cough followed by great prostration. Cough after eating, with vomiting of food. Cough causes pain in shoulders and arms or sore, raw feeling in the chest. Cough from suppressed menses. Hemoptysis with weak heart or from chronic bronchitis, before menses. Hollow, deep, spasmodic cough, excited by roughness and scratching in palate and in trachea.

Ears - Otalgia with contractive pains in the ears. Swelling of the parotids and behind the ear. Veins distended

on ears. Single stitches behind the ears. Hissing before the ears like boiling water, with hardness of hearing. **Eyes** - Yellowish, red eyes. Both the eyes turned to left. Burning in eyes and stitches darting through them. Lachrymation, worse in bright light or cold air. Veins distended on eyes. Blueness of eyelids. Swelling of lower lid. Mydriasis. Lid margins red, swollen. Agglutinated lids in morning. Catarrhal inflammation of eye. Meibomian glands inflamed. Chronic conjunctivitis. Detachment of retina. Cataract. Painless obscuration of lens. Irregular pupils. Pupils dilated and insensible.

Face - Paleness of the face. **Cyanosis**. Blue color of the lips and eyelids. Bluish swelling of the lips. Dryness of the lips. Eruptions on the lips. Eruptions with gnawing itching in the cheeks and in the chin. Cramp-like and drawing pains in the cheekbones. Distended veins. Pores of the face black and suppurating.

Female - Menses scanty and too late. Labor-like pains in abdomen and back before menses. Menorrhagia. Uterine hemorrhage. Dropsy of uterus. Bleeding from lungs instead of menses. Menopausal period, sudden flushes of heat followed by great debility, least motion causes palpitations. Leucorrhea. Lascivious state of fancy day and night. Nymphomania.

Food - Want of appetite, sometimes even with a clean tongue. Smell of food causes violent nausea and gagging. **Desire for bitter things**. Desire for beer. Bread tastes bitter. Continuous thirst with dry lips. Thirst for acid, sour, cold drinks. Cough worse cold drinks. Worse after meals. Worse cold food or drinks, alcohol. Worse after drinking. Worse from spirituous liquors. After cold water or ice cream, sharp pain in forehead extending to nose.

Head - Face bluish. Dullness of head as from intoxication, with increased mental activity. Heaviness of head with sensation as if it would fall backward. **Brain feels fatigued and weak, from weak action of heart**. Confusion, fullness and noises in head. Crashes, cracking in head, on dropping to sleep. Bores head in the pillow. Pulls the hair. Violent, lancinating pains, in vertex and occiput. Spastic hemicrania. **Throbbing, in forehead**. Sharp, shooting pains in forehead, after drinking cold water or eating ice cream. Pressure in forehead when exerting mind or thinking of it. Sharp pains in temples, evening and night.

Heart - Sinking feeling at heart. **Sudden sensation as if heart stood still**. Sensation as if heart would cease beating if he moves, must hold the breath and keep still (opposite of Gels.). Precordial anxiety, with sensation of weakness in forearm. Audible throbbing of heart. Metallic sounding heart-beat. The least movement causes violent palpitations. Palpitations with depression from grief. **Angina pectoris**. Attacks of angina, worse raising arms with tingling in arm and fingers. **Constant pain or anguish in region of heart**. Frequent sharp pains in heart. **Irregular heartbeat especially with mitral valve disease**. Cardiac failure following fevers. Heart tired after sprains. Hypertrophy with dilatation. **Cardiac failure following fevers**. Cardiac dropsy. Pericarditis, copious serous exudation. Rheumatism of heart with irregular pulse. **Pulse weak and quickened by least movement**. Pulse small, weak and excessively slow, irregular, intermitting. **Very slow pulse**. Especially slow when at rest, every other beat intermits, but accelerated by the slightest movement. Thready pulse.

Kidneys - Nephritis after scarlatina. Uremia. Contracted kidneys. Profuse and frequent emission of clear pale urine. Frequent urination at night. Continued urging, urine in drops, dark, hot, burning. Suppressed urine. Ammoniacal and turbid urine. Brick-dust sediment. Urine thick, turbid, yellowish-brown, blackish, acrid. Diminished secretion alternating with copious secretion of watery urine.

Limbs - Rheumatic pain in joints. Swelling of the feet. **Sensation as if a red-hot wire suddenly darted through legs**. Stinging pains in muscles of upper and lower limbs. Piercing pains in joints. Shining, white swelling of joints. Muscular debility. Numbness, heaviness or paralytic weakness, worse left arm. Fingers become numb easily and frequently. Coldness of hands and feet. One hand hot, the other cold. Nails blue. Fingers swell at night.

Liver - **Enlarged, sore, painful liver**. Soreness over region of liver, with jaundice. **Liver, hard and painful**. Jaundice from induration. **Hypertrophy of the liver**. Jaundice with heart disease.

Lungs - Cardiac asthma. Slow, asthmatic attack early in morning. Great weakness in the lungs. Lungs feel compressed. **Dyspnea, constant desire to breathe deeply**. Breathing irregular, difficult. **Deep sighing**. Breathing slow, worse talking, walking, drinking cold things. **Cannot bear to talk** (Stan.). **Suffocates when he drops to sleep**, fear of suffocation at night. **Can only breathe in gasps**, each one seeming as if it would be the last. Chronic bronchitis, passive congestion of the lungs, giving bloody sputum due to failing myocardium. Expectoration, sweetish like boiled starch, mixed with bloody mucus. Yellow, jellylike mucus, difficult expectoration. Cannot expectorate without vomiting. Moist rales, yet cough dry. Senile pneumonia. Emphysema with heart disease. Edema of lungs. Hydrothorax.

Male - Dropsical swelling of genitals (Sulph.). **Prostate enlarged, in elderly men**. Hydrocele (left), scrotum looks like a bladder filled with water. Testicles swollen. Bruise-like pain in testes with swelling. Contusive pain in right testicle. **Balanitis with edema of prepuce**. Gonorrhea (Med.). Profuse, thick, yellow-white gonorrheal

discharge. As if something were running out in urethra after emission. Irritation of sexual organs, with painful erections, night and day. Desire strongly excited, frequent erections and pollutions. Atonic nightly emissions after sex. Spermatorrhea. Pollutions always with lewd dreams and subsequent pains in penis. Early morning erections. Sexual desire without ability.

Modalities - Better when stomach is empty. **Better from weeping.** Better lying flat on back. Better sitting erect. Better rest. Better in open air, cool air. Worse from lying on left side. Worse sitting erect. Worse being raised up in bed. Worse touch, pressure. Worse motion. Worse exertion. Worse sexual abuse or excess. Worse from food. Worse smell of food. Worse cold food or drinks, alcohol. Worse after meals. Worse music. Worse from cold air, cold weather. Worse changes of weather. Worse heat. Worse night. Worse waking in the morning.

Mouth - Soreness of mouth, gums and tongue. Aphthae. Stomatitis. Bitter taste. Taste flat, clammy, slimy. Sweet taste, with constant salivation. Copious salivation. Salivation after smoking tobacco. Scraped feeling in mouth. Severe toothache in a hollow tooth.

Nose - Coryza with hoarseness. Pain at the root of the nose, after vomiting. Nosebleeds.

Perspiration - Cold, clammy sweat. Copious sweat at night. Perspiration after the chill, no heat intervening. Sweats on upper part of body, on face. Sweats during cough. Covered with copious perspiration, without relief of heart symptoms. Cold sweat, on body, warm on palms of hands.

Rectum - Evacuation forcible. Constipation. **White, chalk-like, ashy, pasty stool.** Diarrhea during jaundice. Watery diarrhea. Stool mixed with mucus. Frequent, distressing and exceedingly offensive stools. Stools, perfectly flat and shaped like a boat. Renewed desire and urging in rectum after stool.

Sensations - As if the heart would stand still if he moved, must hold the breath and keep still (Gels, has "must keep moving or the heart would stop"). As if heart had torn itself loose and were swaying to and fro by a thin thread. As if the lungs were constricted and tied up in bundles. As if the stomach would sink into abdomen. As if something were running out of urethra, as of a weight attached to stomach, as if the internal parts were grown together. As if the brain were loose, as if something fell forward in the head on stooping, as if the brain were made of fine glass and shattered at a blow.

Skin - Dry, arid heat of skin. Paleness of the skin. Cyanosis. Bluish skin particularly at the eyelids, lips tongue and nails. Blue distended veins. Cold skin. Dropsy. Elastic white swelling of whole body. **Itching and jaundiced.** Gnawing itching increasing to intolerable burning pricking. Corrosive itching. Erythema, deep red, worse on back like measles. Measly eruptions on back. Sebaceous follicles ulcerate. Skin painful to touch. Desquamation of the skin.

Sleep - Lethargy. Continuous sleepiness. Drowsy in the day. Unrefreshing, agitated sleep. Somnolency interrupted by fits of convulsive vomiting. Uneasy sleep at night on account of constant desire to urinate. Frequent waking, as from anxiety. Nightmares. **Starts from sleep** in alarm that he is falling from a height in a dream. Dreams of falling from a height or into water. Dreams with jerking and electriclike sensations through the body.

Stomach - Discomfort in stomach, even after a small quantity of food, or from mere sight or smell. Burning in stomach and into esophagus. **Faintness, great weakness in stomach.** Extreme anxiety in pit causing frequent deep sighs. Epi-

gastric region tender. **Neuralgic pain in stomach.** Stomach burning, extending to esophagus. Gulping up of an acrid or tasteless fluid. **Deathly nausea, with faint sinking in stomach.** Persistent nausea and vomiting with clean tongue (Ip.). **Excessive nausea, not better vomiting.** Nausea before and after urination. The mere sight or smell of food excites nausea. Nausea early on rising, with thirst. **Faintness** and vomiting from motion. Nausea and vomiting of pregnancy. Vomits easily, on taking anything into stomach. Vomiting, with extremely feeble and irregular pulse. Vomiting of bile, mucus.

Temperature - Chills alternating with heat. Coldness in the hands and in the feet with cold perspiration. Chilliness and shivering of the whole body. Chills with head and redness of the face. Internal chills with external heat. Chilliness before stool. Frequent and sudden flushes of heat, followed by nervous weakness, at menopausal period. **Sudden hot flushes, with palpitation from least motion.** Heat of body with cold sweat of face. During cough. General violent heat, with swollen veins and rapid pulse. Fever with profuse sweat. Heat of one hand and coldness of the other.

Throat - Scraped feeling in throat. Stinging in throat between acts of swallowing. Choking when he tries to swallow. Spasm of glottis with diarrhea and thirst. Edema of larynx. Frequent painless hoarseness. Hoarseness in early morning.

Tongue - Blue tongue and lips. Tongue blue, thick, flabby. Tongue clean with nausea and vomiting. Veins distended on tongue. Tongue pale. Tongue coated white.

Vertigo - Constant dizziness with ringing in ears. Vertigo, when walking or riding. Vertigo with trembling.

Vertigo on rising from sitting, with very slow pulse. Vertigo from cardiac or hepatic disorders. Vertigo with anxiety and faintness. Vertigo as if faintness would occur.

Vision - Diplopia. Dim vision. Dark bodies like flies, before eyes. **Change in acuteness of perception of shades of green.** Objects appear green and yellow. Sees

Digitalis purpurea hairs before his eyes. Loss of vision and many symptoms with anemia of retina and optic nerve. Hemipopia, as if upper part of field of vision were covered by a dark cloud. Optical illusions in bright or prismatic colors.

COMMENTS - Slow, weak, irregular and intermittent pulse. Acute cyanosis (Carb-v.). Palpitations, with hot flashes. Prostration from slight exertion. Restlessness with a great nervous weakness. Lassitude, mental and bodily. Faintness. Convulsions with retraction of head, syncope and collapse. History of helping reduce or control aneurysm. Vertigo, dizziness as if intoxicated.

Pneumonia and pleurisy. Senile pneumonia. Asthmatic sufferings as from hydrothorax. Respiration is painfully restricted at night, when lying down or in the day, when walking or seated. In the morning, suffocating constriction of the chest, forcing the patient to rise up in the bed.

Delirium tremens in high livers, stomach and liver diseases with the mental state of the drug. Enlarged, sore, and painful liver. Deathly sinking in the epigastrium. Every shock, like bad news, strikes her in the epigastrium. Portal engorgement. White, pasty stools. Constant irritation or urge to urinate. Urine can be dark brown. Dribbling of the urine.

Nausea and vomiting, worse from smell of food, not better by vomiting. Violent nausea with clean tongue. The food eaten comes up by mouthfuls, cannot expectorate without vomiting. Terrible pain at root of nose after vomiting. Thirst for water.

Enlarged prostate in elderly men, with lascivious thoughts. Prostate enlargement and weaknesses with concomitant heart disease. Impotence. History of gonorrhea. Yellow-white urethral discharge. People with a history of excess, particularly sex and alcohol, with weakened heart or liver.

Discharged blood coagulates slowly or not at all. Distended veins in eyes, ears, lips and tongue. Blue skin. Absence of fever.

Teste classed Dig. with Bry. and Ign. He noted that there is an "anxious and concentrated sadness with sleeplessness at night.

owing to pains at the heart: for instance from unhappy love, especially in women of brown complexions, firm and obstinate dispositions. In such cases far preferable to Ignatia."

Ross regarded the indications as being: "dry cough with mucus rales and no expectoration or only "prune juice" expectoration, cyanosis, cold limbs, feeble intermittent pulse, deathly nausea or gone sensation at epigastrium."

Malcolm Macfarlan reported Dig. having produced severe urethritis, phimosis and strangury. He cured with it many cases of gonorrhea.

Ballard cured a man of headache and dizziness, originating probably in gonorrhea suppressed several years before. He complained of feeling bad about the head after drinking and this keynote symptom was elicited: "after drinking cold water the pain would seat itself in the forehead and extend down the nose."

RELATIONS - Antidotes: Camph., China. **Compare:** (1) Crat. - a true heart tonic. (2) Adon., Kalm., Spig., Liatris, Serum ang. (3) Nerium odorum - resembles in heart effects Digitalis, but also has an action like Stry. on spinal cord. Spasms appear more in upper part of body. Palpitations, weak heart will be strengthened by it. Lock-jaw. (4) Digitoxinum. Nit-s-dulc. increases action of Dig. (5) Conval- laria - heart disease with vertigo and digestive disturbances. **Compatible:** Bell., Bry., Cham., Lyc., Nux-v. **Incompatible:** China.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***DIGITOXINUM

(Digitoxin)

PHARMACY -digox. Digitoxinum. Digitoxin. "Crystallized digitaline" of Nativelle. Neither a glucoside, nor an alkaloid. N. O. Scrophu- lariaeae. Trituration. **Historical dose:** All potencies.

CLINICAL - Faintness. Phlegmon. Suppuration. Vision disordered. Vomiting.

HOMEOPATHIC - Digitoxinum is made from Digitalis dissolved in chloroform. The most active principle of Digitalis, Digox. has yellow vision, phlegmonous inflammation going on to suppuration, and very marked and distressing nausea, **aggravated by champagne and aerated waters.** Faintness, rapid loss of power. Prostration, limbs refuse their service, cannot rise from bed without assistance.

Chest - Oppression and anxiety in chest.

Heartbeat and intermissions plainly felt.

Eyes - Weak sight. Features of friends seemed to swim and become indistinct. Objects in room run together

without any outlines, can only distinguish some very dark or bright, or large or small images in the field of vision. All objects, especially bright ones, seem in a slightly yellow light.

Face - Paleness and collapsed appearance of face.

Food - Aversion to food.

Limbs - Prostration. Limbs refuse their service, cannot rise from bed without assistance. Phlegmonous inflammation going on to suppuration.

Pulse - Slow, intermittent pulse. Pulse at first normal and regular, then markedly slow, intermittent, dicrotic and then tri-rotic. Pulse easily excited by the slightest excitement or physical exertion.

Sleep - No rest on account of distressing nausea and weakness. Restless sleep with partial sleep, interrupted by confused, anxious and frightful dreams.

Stomach - Faint feelings, nausea and discomfort. Carbonated waters and ordinary drinking water aggravated the nausea. Violent vomiting, bilious-colored masses of mucus, preceded, accompanied and followed by retchings.

Vertigo - Faintness, rapid loss of power. Slight vertigo with nausea and faintness.

COMMENTS - Digitox. was proved by Kopfe, who took a single dose of 2 mg. at 10 a. m. It began to take effect in an hour, producing faintness, nausea and slight vertigo, which increased until he was obliged to hurry home at 1 o'clock to avoid vomiting in the street. He was too weak to walk and had to take a carriage. He went to bed immediately and remained in bed three days and part of the fourth. The pulse had remained regular and at the usual rate. 80 to 84, but at 2 o'clock was 58 and intermitting.

Constant excessive nausea preventing sleep. Vomiting dark greenish masses of mucus gave instant relief, which only lasted a short time. Then, the pulse went down to 42 intermitting after every two beats, the heartbeats and intermission being plainly felt in the chest. The limbs refused service in spite of the greatest exertion of will power.

Sight became weak, faces of friends were indistinguishable and he knew them only by their voices. Objects ran together without outlines, so that he could only distinguish some very dark or bright, or large or small images in the field of vision. All objects, especially bright ones, seemed in a slightly yellow light.

Yellow vision was persistent, lasting eight days. The nausea continued and was aggravated by drinking champagne, aerated waters and ordinary water. The second night was very restless with partial sleep interrupted four times in an hour by confused, anxious dreams and frightful fantasies. In the evening of the third day he was able with effort to eat a little and did not vomit.

On the fourth day he was up a little and felt better, was able to eat a little meat and drink as much water as he wished. On the fifth day he was able to walk out a little, leaning on the arm of another. During the three succeeding days the symptoms gradually disappeared. With sound sleep and extraordinary appetite, physical strength and normal vision returned.

In some experiments made on dogs, it was noted that subcutaneous injections were invariably followed with phlegmonous inflammation proceeding to suppuration.

RELATIONS - Compare: (1) Dig. - worse from drinking' is marked in both. (2) Digitalinum. Cina and Santonine in yellow vision.

REFERENCES - Clarke.

***DIOSCOREA VILLOSA

(Wild Yam)

PHARMACY - dios. Dioscorea villosa. Wild yam. Dioscorein. N. O. Dioscoreaceae. **Parts:** Tincture of fresh root or trituration of resinoid, Dioscorein. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdomen, pains. Acne. Angina pectoris. Biliousness. Chorea. Colds. **Colic, pains.** Constipation. Coughs. Cramps. Diarrhea. Dysentery. Dysmenorrhea. Dyspepsia. Dyspnea. Enteralgia. Felons. Flatulence.

Gallstone, colic. Gallbladder, disorders. Headaches. Hemorrhoids. Knee, pain. Leg, pain. Liver, disorders. Lumbago. Mental, disorders. **Menstrual, cramps. Neuralgias.** Paronychia. Parotiditis. Pregnancy, heartburn.

Kidney stone. Kidney colic. Rheumatism. Sciatica. Spinal irritation. Spleen, pains. Smell, disordered. Spermatorrhea. Stomach, pain. Tea, effects. Toothache. Whitlow.

HOMEOPATHIC - Burt, who made a proving of this remedy, said "The grand sphere for the use of Dioscoreais among colic of the intestines and stomach, where the celiac and umbilical plexuses are in a state of great hyperesthesia, the pain and spasm being unbearable."

Dios, resembles Coloc. in colicky pains, but is better by stretching out and by moving about, while Coloc. is better bending double and worse by motion. **Colic pain, better from bending backwards. Gallstone colic. Kidney colic.**

Pains are remittent and paroxysmal. **Pains are unbearable, sharp, cutting, twisting, griping, grinding,** that

dart about or radiate to distant parts. Pains suddenly cease in one part, then start in another part. Nervous shuddering from pain.

Pain in the bowels, spasmodic, twisting, writhing, drawing, lancinating, pulsating, burning. Pains radiate upwards and downwards. Frequent sharp, darting pains from one part to another. Pains spread, especially from abdomen to distant parts.

Flatulence after meals in stomach or bowels. Violent colic from fasting, some excess in eating, or some dietary error, as eating old cheese or uncooked fruit, pastry, etc., especially if they are great tea drinkers.

Acts on the nerves, abdominal, sciatic and on spinal cord. Chorea with seminal emissions. Painful disorders of abdominal or pelvic viscera. Persons of feeble digestive powers, tea-drinkers with much flatulence. Useful for whitlow.

MIND - Cross, nervous and easily troubled. Depressed after seminal emissions. Uses wrong words, opposite, putting right for left or vice versa. Calls things by wrong names.

Conversation aggravates. Fear in a crowd. Fear of people. Aversion to women. Restlessness better walking. Feels tired, yet still keeps walking around room.

Abdomen - Colic, pains radiate from abdomen to back, chest, arms. **Colic, worse bending forwards** and while lying. **Colic, better bending backwards**, walking about. Twisting and sharp, cutting pains in bowels. Excessive flatulent colic, after excess in eating, errors in diet, or in tea drinkers. Flatulent distension after meals in persons of weak digestion. Rumbling with emission of much flatus. Side pains. **Pains suddenly shift to different parts, appear in remote localities, as fingers and toes.** Pains in a small spot. Gripping, cutting in hypogastric region with intermittent cutting in stomach and small intestines. Bowels sore and tender on pressure. Abdomen tympanitic and very sensitive to pressure. Pressure causes rumbling.

Back - Lameness in back, in morning. Lameness worse stooping. Dull pain in back of neck, stiff. **Severe backache.** Sharp pains in the back. Spinal cord feels bruised all the way up and down. Spinal hyperesthesia. Itching over right scapula. Drawing pains in sacrum, sacroiliac joint.

Breasts - Pain in region of nipples.

Causations - Ill effects of excessive eating, tea drinking, fasting. Masturbation. Errors in diet.

Chest - Angina pectoris with labored breathing and feeble action of the heart. Chest pains radiate to both the arms. **Pain along sternum and extending into arms.** Tight feeling all along sternum. Chest doesn't seem to expand on breathing. Burning behind top of sternum.

Constitutions - Suited to persons of feeble digestive powers, old or young.

Cough - Hacking cough from irritation and tickling low down in throat. Cough with pain in epigastrium. Cough with dull pain in temples, brownish-yellow tongue, weak knees.

Ears - Dull, pressing pains in front of both ears. Both ears feel suddenly stopped up, and are sore to touch. Sharp pain in front and behind the ears. Pains in ears, worse blowing nose or coughing. Itching in internal ears, worse right. Nausea felt in ears. Small balls of wax fall out. Buzzing noise in head. Ringing, buzzing, during headache.

Eyes - Eyes weak, sore and smarting. Sharp pain from right eye to occiput. As if a round ball or stick in the eyes. Hot air steaming out of them. Lachrymation, hot tears, smarting, wants to keep lids closed. Eyelids stiff in morning. Agglutination of the lids mornings.

Face - Full, grinding, drawing, digging or sharp, darting pains at angle of left lower jaw. Spasmodic closing of jaws, biting tongue when neither eating nor drinking. Lips dry, commissures sore. Little pimples with black heads. Corners of mouth sore. Soreness and sharp aching pain in both parotid glands.

Female - **Violent dysmenorrhea, pains radiate from the uterus.** Dysmenorrhea, spasmodic uterine colic, pains suddenly fly to distant parts. False labor pains. After-pains. Cramps in fingers and toes alternating with uterine pains. Pregnancy with severe pain with cramps in fingers and toes, alternating with false labor pains.

Food - Disgust for food, with flat, clammy, bitter or sweet taste. Flatulence after meals. Very sleepy after dinner. Thirst during pain in bowels. After eating, nausea and faintness. Colic, after excess in eating, errors in diet, or in tea drinkers.

Head - Dull pain in both the temples. Temples as if squeezed in a vice, better pressure but worse afterwards. Sharp pain in temples. Head feels as if tied with a band. Sensation as if head were crushed down. Digging, cutting pain in the temples

in occiput, over eyes. Buzzing in head. Confused, full head. Fullness in head speedily followed by spasmodic pains in abdomen.

Heart - Angina pectoris, pain back of sternum into arms, labored breathing. **Feeble action of heart.** Pain through chest and tightness across, especially with flatulence. Sharp pain in region of heart, arrests breathing, worse lying left side. Pulse intermitting.

Kidneys - Kidney colic, pain extending to testicles and the limbs. **Writhing with crampy pains with passing of kidney stone.** Spasmodic stricture of urethra with pain about navel, better by pressure, pressure on rectum, paroxysmal colic. Constant desire to pass urine.

Limbs - Aching and stiffness in joints. **Cold limbs during colic.** Sciatic pain (right) shoot down the thighs with burning or numbness worse motion, sitting up, better standing on toes, lying still. Limbs feel weak, especially knees, after seminal emission. Hamstring seems too short (Cimx.). **Cramps in flexors of fingers and toes.** Numbness of left hand. Pain in left shoulder. Grinding in elbows. Panaritium, early stage, pain, pricking, sharp, agonizing. Paronychia. **Felons** in beginning, when pricking is first felt.

Liver - **Sharp pains from liver, shooting upward to right nipple. Gallbladder colic,** pain extending to the chest, back and arms. **Gallbladder colic worse bending forward, better bending backwards.**

Lungs - Tight feeling all along sternum. Chest does not seem to expand on breathing. Short-winded. Dyspnea from slight exertion. Hacking cough from irritation and tickling low down in the throat. Cough, with pain in region of umbilicus and temples, brown tongue, weak knees. Dull, aching or sharp, cutting pains in both lungs from front to back or vice versa. Sharp cutting pain from left axilla to nipple and down side deep in lung.

Male - **Relaxation and coldness of organs.** Pains shoot into testicles from region of kidneys. **Strong smelling sweat** on scrotum and pubes. Pain and spasm of

spermatic cord. Erections lasting all night. Diminished sexual desire. Emission of semen during sleep. Seminal emission without erection, then weakness, especially in the knees. Constant excitement of genitals.

Modalities - **Better from stretching out.** Better standing erect. **Better bending back.** Better motion, hard pressure. Better open air. Worse from tea. Worse eating. Worse night. **Worse lying down.** Worse evening. **Worse bending forwards.** Worse seminal emissions.

Mouth - Mouth dry and bitter in morning. Bitter, bad taste. Dry mouth, but full of sticky mucus, no thirst. Saliva runs out while asleep. Soreness of gums and roof of mouth. Spasmodic closure of the jaw.

Nose - Soreness of nostrils. Irritation of nasal passages with much sneezing. Nose stopped up, dry. Discharge of bright red blood from left nostril. Watery discharge. Any bad smell remains in the nose for a long time. Offensive, bad smell in nose as if bilious.

Perspiration - Sweats easily when chilly. Sweat, cold, clammy or of strong odor, on genitals. Sweats from least exertion. Cold, clammy sweat, all over, in angina pectoris.

Rectum - Burning at anus, after loose morning stool. Burning in rectum during stool. Frequent, urgent, hurried desire for stool. Loose stools with much straining. Constipation. Diarrhea, worse in morning, driving out of bed, followed by exhaustion and weakness. Yellowish diarrhea, followed by exhaustion, as if flatus and feces were hot. Very offensive flatulence. **Alternate constipation and relaxation during pregnancy.** Stools do not relieve the pain in abdomen. Darting from anus to liver. Itching in rectum. Hemorrhoids with darting pains to liver. Hemorrhoids look like bunches of grapes or red cherries, protrude after stool with pain in anus. Involuntary discharge of slimy mucus from anus. Stools slimy, dark-colored, bilious, very offensive, light mushy. Black, hard, dry, lumpy stool.

Sensations - As if top of head was lifted off. As if temples were in a vice. As if head tied with a band (also neck). As if sticks, etc. in eyes, as if hot air streamed out of them. As if tongue burnt. As if a stone were in stomach. In a small spot in abdomen sensation as if drawn forcibly upward and backward to spine.

Skin - Itching and burning of various parts. Little pimples with black heads. Panaritium, early when pains are sharp and agonizing or when pricking is felt. Brittle nails.

Sleep - Sleeplessness from too intent thinking. Restless after 2 a. m., must move, yet it hurts, he is so sore. First sleep late, wakes early. Many symptoms are worse after sleep, bitter mouth, pains in bowels, hard beating of heart. Aroused suddenly with slow, but hard beating of heart. Vivid dreams. Dreams of women. Dreams all night. Dreams with seminal emissions.

Stomach - Dyspepsia of a flatulent character, resulting from tea, after excess in eating, errors in diet. Belching of large quantities of offensive gas, sour, bitter gas. Heartburn. Burning in the stomach. Burning, aching pains in stomach during pregnancy. Heartburn in pregnant women. **Violent, colicky pains, causing desire to bend double, which makes him worse, must walk erect.** Painful cramps in stomach. **Hiccoughs.** Neuralgia of stomach. Faint, uneasy feeling at stomach. **Sinking at the pit** of the stomach. Sensation as if a stone in stomach. Sharp cramping pain in the pit of the stomach, then belching, hiccough and passing flatus, better standing erect. Gastrodynia. Nausea. Vomiting, heartburn and gastralgia during menses. Vomiting and purging.

Teeth - Pains in front teeth. Sharp aching pain in an upper right molar. Toothache, as if the bare nerve was touched. Soreness of gums. Gums on inner side of front upper teeth swollen.

Temperature - Chills with bitter mouth. Chills with aching bones, backache. Chills pains in lungs, sore throat, etc. Chills commences over left scapula, spreading over back. Chills running down back. Chill on

rising. Chills, couldn't get warm.

Throat - Irritation, burning and smarting in throat and fauces. Fauces rough, dry, frequent inclination to swallow, but it causes nausea and shudderings. Belching gas, but throat so dry it prevents the escape of gas. Constricted feeling as from something tight about neck, makes breathing difficult. Itching in left tonsil. Sharp pain in tonsil up to ear. Left tonsil smarts and itches, with inclination to cough. Constant desire to swallow, but it causes nausea and irritated feeling in throat, left side.

Tongue - Heavy brown coating on the tongue, in mornings, no thirst. Sides of tongue sore as if burnt. Bites the tongue, when not eating or drinking. Tip of tongue sore and brown, worse morning.

Vertigo - Vertigo and dizziness, goes to right while walking. Vertigo inclined to fall backward. Faintness, worse sitting up in bed. Vertigo with numbness, worse lying down. Vertigo from onanism. Vertigo with heat in head, with sharp pains in forehead extending to ears.

COMMENTS - Hale considered as a characteristic: "A constant pain, aggravated at regular intervals by paroxysms of intense suffering." Any kind of colic or neuralgia with these characteristics may indicate Dios., which stands in the highest rank among stomach and abdominal remedies with important actions in many other spheres.

Great faintness at stomach. Morning diarrhea. Pains worse at meals, better moving about, cannot sit still. Seminal emissions (passive) with weakness of knees.

According to Cushing's proving, the primary effect of Dios., was to cause strongsmelling perspiration of the genitals, constant excitement with strong and frequent erections day and night, amorous dreams with emissions. Afterwards came relaxed genitals, absence of desire and emissions without erections.

In the female sphere it has frequently cured dysmenorrhea, uterine colic and after-pains, also gastric disorders during pregnancy and the menses.

J. B. Bell pointed out how closely the throat symptoms of Dios., resemble the initial stage of a cold when it has attacked the fauces and before it has spread to the nose or chest.

RELATIONS - Antidotes: Cham., Camph. Tamus belongs to the same N. O. Verat. relieved pain in right temple. **Compare:** (1) Coloc. - differs in modalities. (2) Bism., Bry. (3) Nux-v. - stomach, Cham., Coloc., Ip., Kali- bi., Podo., Rhus-t., Rum., Stann., Sulph., (4) Aesc., Aloe., Coll., Nux-v. (hemorrhoids), Sars. (urinary symptoms). (5) Calc., Cann-i. Gels., Calad., Agn., Nux-v. Phos. (sexual organs), Cimic., Aesc., Aloe., Bry., Nux-v. (headache), Sil. (whitlow). Verat., (6) Caps. - pain in ears on coughing.

***DIOSMA LINCARIS

(Buku)

PHARMACY - diosm. Diosma linearis. Buku. N. O. Rutaceae. Buku from Cape of Good Hope. **Historical dose:** Tincture and all potencies.

CLINICAL - Cirrhosis. Diarrhea. Fright. **Gastro-enteritis.** Headache. Hematuria. **Hepatitis. Hysteria. Insomnia.** Liver, atrophy. Nausea. Night sweats. Splenitis. **Stomach, pain.** Vertigo.

HOMEOPATHIC - Diosm. has been used in convulsive or epileptiform attacks and **hysteria.** Cerebral disorders with dullness or stupefaction. Mental disorders in nervous or ascetic individuals, particularly where there is constant fear of death or erotic or maniacal attacks.

Stomach pain. Gastro-enteritis. Splenitis (**Cean.**). **Hepatitis, cirrhosis** or liver atrophy. Hematuria with ovarian or uterine lesions. Sudden fright with trembling and weakness of the legs (La Rota).

COMMENTS - Somnolence, nervous insomnia, night sweats. Violent vertigo. Erratic pains with bad humor, desire to weep or fear of sickness. Headache, chiefly frontal, radiating to the occiput.

Eyes brilliant with lachrymation or itching. Stupefaction with hardness of hearing or noises from aural pressure. Earthy face

Diosma linearis with disseminated rosaceous eruption.

Crampy pains on ingesting food. Nausea, fetid breath with sensation of emptiness. **Sensation of meteorism with stinging pains in the spleen.** Painful sensation in the abdomen with pubic pressure, the pressure of clothing becomes insupportable with emission of high-colored, bloody urine. Frequent yellow diarrhea, worse at night.

Sensation of heat or of cold in the hands with convulsive movements of the fingers. Weakness of the legs, aggravated by sitting down. Menses abundant, anticipating, sometimes metrorrhagic in type.

Emaciation. **Epilepsy.** Fevers. **Flaccid, paralysis.** Hemolytic, anemia. Hives. Hyperactivity. Hypoglycemia. Infantile, spasms. Influenza. Insomnia. Learning, disabilities. Meningitis, viral. Nasal, congestion. Otitis, media. **Respiratory, distress.** **Spasms.** Speech, disorders. Thrombocytopenia. **Tremors.** Tumors. **Vaccination, reactions.**

HOMEOPATHIC - In addition to the DPT, this vaccine contains formaldehyde, a mercury derivative and aluminum phosphate, and was incubated in animal entrails. Can attack and damage the immune and nervous systems.

DPT vaccinations have been linked to sudden infant death syndrome, brain damage, autism, blindness, epilepsy and death. Learning disabilities and hyperactivity in children. Fevers, febrile convulsions, seizures, and diarrheas. Tendency to colds, flus, earaches, sore throats, etc.

Terrible screams, rigid body with head bent back, eyes open. High pitched, inconsolable crying. Cri encéphalique, thin high-pitched eerie wailing.

Persistent crying, continues for hours or days. Brief periods of sleep interrupted by long bouts of screaming.

Insomnia and emaciation. Profound prostration. Anorexia and weight loss. Hemolytic anemia, yellow skin, colorless lips. Respiratory distress, asthma, coughs, etc.

Brain damage, comas, seizures and blindness. Dyslexia. Visual perception problems, auditory processing deficit, fine motor delay, and an attention span deficit. Learning disabilities. Cerebral palsy. Viral meningitis.

MIND - Brain damaged children. Learning disabilities. Autism. Dyslexia, visual perception problems, auditory processing deficit. Hyperactivity, restless. Explosive, out of control emotions. Unable to sit still for more than a few minutes, cries easily without warning. Screaming temper tantrums. Cri encéphalique.

Timid, nervous trembling fearful child. Passive, in a daze as if sleepwalking. Doesn't want to be held, rocked or fed. Screaming as if afraid of being dropped. Runs around the house and hid as if was frightened to death. Sudden fear while playing, with desire to be held. A great feeling of anxiety and doom. Hallucinations. Periods of unconsciousness. Coma.

Back - Arches back when crying, especially if being held.

Blood - Hypoglycemia. Hemolytic anemia. Thrombocytopenia.

Causations - Vaccinations. **Reactions to the DPT vaccine.**

Constitutions - Delicate and sensitive children with a weak, damaged or undeveloped immune system.

Ears - Chronic ear infections. Auditory processing deficit. Deafness.

Eyes - Eye twitching. Visual perception problems. Hallucinations. Blindness.

Food - Anorexia and chronic weight loss. Pushes the food away. Hypoglycemia. Allergies to milk.

Head - Head bent back with a rigid body. Viral meningitis.

Limbs - Loss of muscle control. Spasms of lower limbs. **Flaccid paralysis.** Hemiplegia. Hemiparesis. Paresis.

Diphtheria, pertussis, tetanus Lungs - Respiratory distress. Pneumonia.

Bronchial asthma. Dyspnea. Spasmodic coughs day and night. Prolonged coughing attacks. Croupy hard cough with vomiting, must sit up. The coughs are like whooping cough.

Modalities - Worse at night. Worse during sleep. **Worse after vaccinations.**

Mouth - Speech disorders.

Nose - Nasal congestion. Allergies, worse spring and fall. Constant runny nose, clear discharge. Nosebleed.

Rectum - Chronic diarrhea, yellow, curdy, strange smelling, offensive, and curdled. Dark green, almost black diarrhea, with clumps of mucus. Violent, explosive gas every few minutes.

Skin - Local reaction to injection, pain, redness. Hives. Red. purple, hot, swollen, walnut-size lump. Induration. Abscess. Swelling of face hands and feet.

Sleep - Excessive sleepiness. Deep stuporous sleep, unable to be awakened. Brief periods of sleep interrupted by long bouts of high pitched screaming.

Stomach - Projectile vomiting. Anorexia and chronic weight loss.

Temperature - Fever occurring rapidly. Fever with hallucinations, convulsions.

Throat - Sore throat.

COMMENTS - Harris Coulter recorded some reactions to DPT vaccines in his book **A Shot In Die Dark**: "Child collapses with white or ashen skin, and death-like unconsciousness. She'd turn blue and didn't appear to be breathing. She'd start breathing on being shaken with white skin and blue or purple blue around the mouth going to death. Nonresponsive, limp, flaccid, with screaming eyes rolled back in his head.

"Sitting, staring ahead with eyes dilated and mouth open, her lips were blue and her body stiff. The right side of her body would tremble and she'd occasionally make sucking sounds. Brief 'generalized bending' or 'jack knife' spasms with sudden forward dropping of the head with adduction and flexion of the arms.

"After a short period of staring, dropping head to chest and falling asleep with eyes open, progressed to staring and sudden violent jerking of upper body forward. Her hands would go straight up in the air, her feet would go straight out, she would clench her fists and hold her breath for 2 to 3 seconds, and then cry a high shrill cry." "Tremor of intensity" in the hands and feet. "Opens eyes and mouth and utters a brief shout shortly after falling asleep" with or without fever. "Generally tonic-clonic, resistant to routine anticonvulsant therapy, and with poor intellectual prognosis." Difficult or impossible to control with medication. Chronic seizures, grand mal, petit mal and localized.

RELATIONS - To antidote the bad effects of DPT shots consider one of the following: Acute reactions - Ledum, Apis, Hyper., Bell., Cic., DPT in potency. Chronic reactions - Sil., Thuja., DPT in potency. **Compare:** (1) Diphtherinum., Pertussin. (2) Silica, Thuja. (3) Cham., Bell., Mosch., Nat-m., Apis, Cicuta, Cupr., Zinc.

***DIPHTHERINUM

(Diphtheria Nosode)

PHARMACY -diph. Diphtherinum. Diphtheria nosode. Trituration of diphtheric membrane. Dilutions of diphtheria toxin. **Historical dose:** All potencies.

CLINICAL - Anorexia. **Bronchitis. Colds.** Croup. **Diphtheria. Diphtheria, paralysis.** Emaciation. Myelitis. Nosebleed. **Paralysis.** Polyneuritis. Prostration. **Sore, throat.** Tachycardia. **Tonsillitis. Vaccination, effects.**

HOMEOPATHIC-Diphtherinum is useful as a prophylactic in diphtheria, post-diphtheria complications like **paralysis**, or when the **diphtheria vaccination** was used. Adapted to scrofulous individuals and patients prone to catarrhal disorders of respiratory organs.

Diphtheria, laryngeal diphtheria. **Postdiphtheria paralysis.** Painless diphtheria, symptoms almost or entirely objective. Patient too weak, apathetic or too prostrated to complain. Sopor or stupor, but easily aroused when spoken to (Bapt., Sulph.). Relapsing diphtheria.

Diphtherinum

Patients with weak or exhausted vitality, hence are extremely susceptible to the virus, when the attack from the onset tends to malignancy (Lac-c., Merc-cy.). Glands swollen, tongue red and swollen, breath and discharge very offensive. Diphtheria membrane is thick, dark. Nosebleed, profound prostration. Swallows without pain, but fluids are vomited or returned by the nose.

Tendency to colds and bronchitis, palpitations. **Severe sore throats, and inflamed tonsils.** Catarrhal disorders of the respiratory passage. Offensive discharges. Internal trembling. Emaciation and chilliness. Jerking in single muscles. Drawing in muscles, then sudden snap. Carphology.

MIND - Prostrated, yet restless without any pain. Wants to be held. Sees imaginary objects. Carphology. Sopor, stupor, but easily aroused when spoken to.

Abdomen - Pain in the epigastric region.

Constitutions - Adapted to strumous diathesis, scrofulous, psoric or tubercular persons, prone to catarrhal disorders of throat and respiratory mucus membranes.

Eyes - Troubles of accommodation. Short sight. Sees visions.

Face - Pale. Flushed, center of cheeks purple.

Food - Anorexia.

Head - Moisture at the margin of hair.

Heart - Paleness with palpitations. Tachycardia. Hypotension, adynamia.

Limbs - Polyneuritis. Paralysis. **Postdiphtheria paralysis.** Paresis of the lower limbs. Sensitive motor nerves of the lower limbs.

Lungs - Dyspnea. **Bronchitis. Colds.** Croup. Harsh cough, voice lost. Persistent, humid cough with bad smelling, fetid expectorations. Difficulty to expectorate, worse at night, especially in children and old persons.

Modalities - Better from heat. Better in bed. Better cold. Better drinking milk in sips. Worse from lying down. Worse movement.

Mouth - Moist, red and swollen tongue, with red tip or dark red spot. Red papillae.

Nose - Mucus coryza. Yellow thick nasal discharge. Bad smelling, nasal crusts with fetid secretion. Reflux of liquids by the nose or while vomiting. Nosebleeds. Fanning of the alae nasi with snoring.

Rectum - Constipation.

Skin - Dry, hot palms, feel withered. Dry skin.

Sleep - Talks in sleep with open eyes. **Stomach** - Faintness, better sips of milk.

Temperature - Low temperature, chilliness with palpitations, hypotension. Chilly, then hot. Subfebrile state.

Throat - **Painless diphtheria.** Relapsing diphtheria. **Obstinate tonsillitis.** Throat is red, swollen, dark. Big

tonsils with false membranes. Thick, gray membrane, on tonsil (left). Swallows without pain, but fluids are vomited or returned through the nose. Wants cold air down the throat or craves cold drinks.

COMMENTS - The potencies of this nosode are prepared either from the diphtheria bacteria or membrane s from an affected patient. It was first made from the membrane from a case of malignant diphtheria, triturated with milk sugar to the 6c, then potentized by Swan.

Diphtherinum has cured of diphtheria and post-diphtheria disorders to its credit. These potencies have been very effective not only in malignant diphtheria but in many cases of post-diphtheria paralysis and nervous disorders following the use of anti-toxin.

Clarke wrote that, in diphtheria, the malignancy is present from the start. The well-known features of diphtheria must be the guide to the use of this nosode. He noted that it will, most likely, be found useful in the paralysis of diphtheria and other similar spinal affections.

O. A. Julian described his own research and clinical experiences as a practicing doctor in his village between 1935 and 1939 where he had to treat cases of diphtheria.

The indications he gave are chiefly clinical, including a fluctuating temperature, very little pain, membrane in vertical folds on posterior wall of throat. When the membrane first appeared, it spread forward as far as the border of the tonsils and began to fade and disappear first from the center of posterior pharynx.

Diphtheria (Apis., Lac-c.). Ailments from the diphtheria vaccination, especially extreme exhaustion or weakness. Can be used prophylactically during an epidemic, for someone who has been exposed to diphtheria. Can be useful in severe sore throats, strep throat.

Dark red swelling of tonsil and palatine arches. Parotid and cervical glands greatly swollen. Offensive breath and discharges from throat, nose and mouth. Tongue swollen, very red, with little coating. Diphtheria membrane is thick, dark gray or brownish black. Swallows without pain, but fluids are vomited or returned by the nose.

Temperature low or subnormal, pulse weak and rapid. Limbs cold with marked debility. Patient lies in a semi-stupid condition, eyes dull, besotted (Apis., Bapt.). Nosebleeds or profound prostration from very onset of attack (Ail., Apis., Carb-ac.), collapse almost at very beginning (Crot., Merc-cy.). Pulse weak but rapid, vital reaction very low.

RELATIONS - Compare: (1) Diphtherotoxin - chronic bronchitis with rales. Cartier suggests it in the vago-paralytic forms of Bronchitis of the aged or in toxic bronchitis after grip. (2) DPT vaccine.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

*****DIRCA PALUSTRIS** (Leatherwood) **PHARMACY** - dire. Dirca palustris. Leatherwood. Moosewood. Wicopy. N. O. Thymela- ceae. Tincture of inner bark of branches. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Constipation. Cough. Debility. Diarrhea. Dyspepsia. Eyes, disorders. Flatulence. Headaches. Heart, disorders. Neuralgia. Rheumatism.

HERBAL - Dirca palustris belongs to the same family as Daphne Indica and Mezereum and is the only American member of the family. Dirca has symptoms showing its relationship to the other two, but it has not been used extensively in practice.

HOMEOPATHIC - Dire, is a gastro-intestinal irritant inducing salivation, vomiting and purgation. Cerebral hyperemia, neuralgic pains with depression, palpitations and dyspnea.

MIND - Time seemed to pass slowly. Absentminded.

Abdomen - Burning below umbilicus. Lancinations in the left hypochondrium with tympanites. Dull ache low down in pelvis, bearing down, not better by sitting or lying. Rumbling in bowels. Burning and uncomfortable sensation in bowels. Colic better bending forward and better by stool, but smarting in anus remains.

Back - Heavy pain across back and through loins in region of kidneys.

Bladder - Pain and soreness in region of bladder.

Eyes - Eyes sore and painful to touch. Photophobia on waking, continuing all day, especially from gaslight. Lids heavy. Sensation as if brows corrugated and as if brain were also drawn down.

Face - Face red, full and bloated in morning.

Female - Uterus seems too low and as if it would prolapse during stool. Menses two days too early, less copious and prolonged than usual.

Food - No thirst.

Head - Pains all through the head, extending down into spine. Headache in temples extending inwards, better by hard pressure. Headache, throbbing and beating, worse by coughing or moving. Scalp feels dry and tight.

Heart - Excitability of heart's action from least motion. Palpitations on going up slight elevation. Pulse suddenly becomes weak and irregular.

Limbs - Dull, neuralgic pain in both shoulders, cannot keep them still. Neuralgic pains in legs. Muscles of

thighs sore and stiff.

Lungs - Sharp pain in right thorax running down into abdomen and up into left shoulder. Great dyspnea from exertion, from walking up a slight elevation. Cough, worse morning, raising offensive, sweetish-tasting mucus.

Modalities - Colic better by bending forward, headache better by pressure. Pains in the bowels are better by stool. Motion aggravates most symptoms, walking aggravates vertigo and pain in bowels.

Mouth - Tongue coated smoothly and evenly white, dirty. Sour taste.

Rectum - Throbbing, stitching pains in anus. Soreness and smarting, worse after stool. Tenesmus and straining. Constipation, urgent desire, but passes only frothy mucus. Dry, sticky feces. Diarrhea stools, sudden, gushing, watery, thin, yellowish fecal.

Sleep - Sleepy, but unable to sleep. Dreams of dead bodies.

Stomach - Empty belchings. Uneasy feeling as if a lump or weight in stomach.

Throat - Stinging pains in larynx from without inwards, very sharp pricking pain and sensation of suffocation. Throat red, raw, acrid feeling, hurts to swallow food or liquids.

Vertigo - Vertigo on walking, seems as if he would fall to left.

COMMENTS - Vital depression, neuralgic pains in the head, trunk and limbs, many of the pains proceeding from without inward. Oppression and pains in the chest. Excitability of the heart's action from the slightest motion.

Disordered digestion. Weight at the stomach. Moist, white coated tongue. Sweetish expectoration. Rumbling of flatulence, colic better by bending forward, diarrhea and tenesmus, later constipation. Hot and restless at night, cannot sleep, dreams of dead bodies.

RELATIONS - Compare: (1) Cann-i. - time passes slowly. (2) Ant-c. - tongue, Lyc. - constipation and flatulence. (3) Bry., Puls., Abies-n. - weight at stomach. (4) Stann. - sweet expectoration.

REFERENCES Clarke.

***DOLICHOS PRURIENS

(Cowhage)

PHARMACY - dol. Dolichos pruriens. Cowhage. Mucuna pruriens. Cow-itch. N. O. Leguminosae. Papilionoideae. Trituration or tincture of whole pod. **Historical dose:** Tincture and all potencies.

CLINICAL - Bedwetting. **Bloated, abdomen.** Colic. **Constipation.** Cough. Dentition. **Gums.pain.Hemorrhoids.** Hepatitis. Herpes, zoster. Hodgkin's disease. **Itching.** Jaundice. Jaw, pain. Neuralgias. **Pruritus. Senile, pruritus. Sore, throat.** Worms.

HOMEOPATHIC - General **intense itching without eruption**, worse by scratching. Itching of the skin without the appearance of a rash or swelling. Itching is better from cold water, but it burns the skin and causes trembling. **Senile pruritus.** Itching excessively at night.

Neuralgia following herpes zoster. Exalted nervous sensibility, as in dentition. Gums intensely sensitive, seem to itch. Pain in the throat on right side below angle of jaw as if a splinter were embedded vertically in it. Yellow spots all over. Jaundice. Hemorrhoidal diathesis. A right-sided medicine with pronounced liver and skin symptoms.

Abdomen - Bloated, swollen abdomen with constipation. Colic from getting feet wet. Pain in abdomen in right lumbar region. Bruised pain below umbilicus. Bruised pain left inguinal region. Pains in spleen with gravel.

Back - Pain over right carotid artery, as if a splinter was sticking there. Pain in muscles on right side of neck. Pain under left scapula continuing until herpes zoster breaks out.

Chest - Pains through the apices of both lungs. Eruption on left axilla, spreading in rings forward to sternum and back to spine with much burning and smarting. Herpes zoster.

Constitutions - Psoric and allergic constitutions.

Ears - Sudden dart of pain in right ear, later in left.

Eyes - Eyes yellow. Pain in right eye. Eruption on margin of eyelids.

Face - Face yellow. Circumscribed redness of one cheek. Swelling of face, especially of lips. Prickling, itching of face. Pain in right maxilla.

Kidneys - Bedwetting with gravel. Small stones pass away. Ischuria with or without gravel.

Limbs - Dry, tettery eruptions on arms and legs, resembling herpes zoster. Aching pain in right arm and shoulder. Pain on the top of right shoulder. Aching soreness in last phalanx of right middle finger. Pain at root of nail of right index finger.

Liver - Hepatitis. Jaundice. Swelling of liver, pain goes through from left lobe. Liver problems with itching.

Lungs - Coughs on lying down at night, with wheezing and dyspnea.

Male - Impotence.

Modalities - Worse at night. Worse scratching. Worse right side. Warmth aggravates itching at night. Cold

water burns on the itching skin. Colic from getting feet wet.

Mouth - Strong taste of blood in mouth with cough. Gums irritated, wants them continually rubbed, dentition. Pain in gums prevents sleep. Soreness and tenderness of gums, even in teething children. Dull aching in a carious tooth, right side.

Pregnancy - Intolerable itching all over body in pregnant women, worse at night, preventing sleep, worse from scratching, no perceptible eruption on the skin.

Rectum - **Constipation with intense itching.** Constipation with liver complaint, during teething or pregnancy. White stools. Tenesmus with looseness of bowels. Pain in anus with stool. **Hemorrhoids** with burning sensation. Worms, threadworms.

Skin - Violent itching all over body without any visible eruption, swelling or rash, worse across shoulders, about elbows and knees, and hairy parts. Itching excessively at night. Skin burns at night in bed. Herpes zoster. Jaundice, skin yellow in spots or all over.

Sleep - Burning in skin is intolerable at night in bed. Sleepless.

Stomach - Noisy movement of flatus in stomach. Flatulent eructation. Vomits bile.

Throat - **Pain in throat**, worse swallowing, below right angle of jaw, **as if splinter were imbedded vertically.** Pain in right throat, a subdued, contraction sensation, went to left side. Sudden sensation of a choking lump in throat. Slight fullness just behind posterior palatine arch. Roughness of throat.

COMMENTS - Dry skin with severe itching without eruption, can scratch until they bleed (Alum.). Scratching increases the itching. Violent itching that prevents the person from sleeping at night. Restless. Severe idiopathic pruritus. Senile pruritus, yellow spots on the skin. Shingles, and pain after shingles (Mez., Rhus-t.). Herpes zoster.

Itching with jaundice, hepatitis, liver involvement. Hepatitis. Jaundice. Gas and bloating (Lyc.), rumbling in the abdomen. Constipation, hemorrhoids. Worms. Ailments from a food allergy that aggravated the liver. Hodgkin's disease. Worse tight clothing (Lyc., Chin.), at night, in the heat of the bed. Generally a right sided remedy. Kraft recorded a striking cure with Dol.

1,200c of a woman who had symptoms of jaundice, white stools and desperate itching, preventing sleep at night. There was in addition, enormous distention of abdomen with continuous rattling of gas, intolerance of anything tight around neck or body intense restlessness, unable to sit still a minute.

RELATIONS - Aconite antidotes it, and in "cases of dentition with fever Aconite should be given before Dolichos to prevent convulsions" (Hering). Dolichos follows Rhus-t. in herpes. **Compare:** (1) Rhus-t. cured herpes zoster after failure of Rhus-t. (2) Fago., Bell, -dentition. (3) Arg-n., Hep., Nit-ac. - throat. (4) Cann-i. - time passes slowly. Ant-c. - tongue. (5) Lyc. -constipation and flatulence. (6) Bry., Puls., Abies-n. - weight at stomach. (7) Stann. - sweet expectoration.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***DORYPHORA DECEMLINEATA

(Colorado Potato-bug)

PHARMACY - dor. Doryphora decemlineata. Colorado potato-bug. Leptinotarsa decemlineata. Colorado Beetle. N. O. Coleóptera. Insecta. Tincture prepared by covering the crushed live beetles with alcohol.

Historical dose: Tincture and all potencies.

CLINICAL - Backache. Delirium. Diarrhea. Diphtheria. Dysentery. Erysipelas. Fevers. Gastric disorders. Gleet. Gonorrhea. **Kidneys, disorders.** Myxedema. Parotiditis. Spleen, pain. Typhoid. Ulcerations. Urethritis.

HOMEOPATHIC - Doryphora in its general effects bears a strong resemblance to Cantharis. An extensive proving has been made and to this have been added the effects of poisoning from handling the insects and from inhaling the vapor when they have been burned or scalded.

Two children inhaled vapor from a kettle in which some beetles had been placed, one died and the other recovered after a serious illness resembling typhoid fever. Local application causes ulceration.

The blood will not coagulate, blood globules disorganized, enormous swelling of the whole body, swelling of the feet with burning, elastic swelling of whole body which will not pit on pressure (suggesting its applicability in myxedema).

Acts on the urinary organs. **Burning sensations.** Burning and inflammation of glans penis. Burning in mouth, throat, gullet, stomach, abdomen, rectum and urinary passages (Canth.), strangury with urethritis and itching. Urethritis in children from local irritation. Gonorrhea and gleet.

Swelling of body. A feeling of weight or heaviness. Great trembling in limbs. Fainting, weakness, prostration, collapse. Weakness, worse by talking (Stan.). Prostration after typhoid and diphtheria have been cured.

MIND - Irritability. Bad temper. Delirium, talkative. Stupor with muttering and loud rumbling in bowels.

Abdomen - Abdomen feels heavy, sore and tender, burning. Pain in spleen. Pain in bowels, worse by eating

and drinking and by deep inspiration. Rumbling in bowels (with stupor).

Back - Pain in lumbar region.

Chest - Soreness and oppression of chest with sore throat.

Eyes - Eyes red, sore, protruding, pupils much dilated, sight much impaired.

Face - Face bloated and red, giving appearance of a confirmed drunkard.

Food - Loss of appetite, great thirst. Craving for something sour, symptoms worse by smoking.

Kidneys - Difficult urination. Retention of urine. Dysuria with burning, stinging pain. Urethritis. Urethra inflamed with excruciating pain when urinating. Pain in back and loins. Gonorrhea.

Limbs - Severe trembling in limbs, especially right arm and leg.

Male - Itching and burning of glans penis, which is swollen and bluish red. Urethra inflamed with severe pain, especially when urinating.

Modalities - Better in open air. Worse from smoking. Worse warm room. Worse motion. Worse pressure aggravates (pain in kidneys).

Mouth - Violent heat in mouth. Dark brown coating on tongue. Offensive taste. Parotiditis.

Rectum - Morning diarrhea with pain in abdomen and burning in rectum. Bloody, slimy stools. Heaviness, intense pain in rectum.

Skin - An abraded surface on the wrist of one engaged in picking the bugs became painful, a deep sloughing ulcer developed and the bones were laid bare.

Sleep - Sleepless until 12 a.m., then restless sleep with terrifying dreams. Tossing about all night. While sleeping, wild dreams, screams as if in great distress.

Stomach - Nausea and vomiting. Vomits dark, grumous acrid matter of dirty brown fluid with diarrhea.

Temperature - Skin alternately cold, clammy and hot with fever. Coldness of hands and feet. High fever during night,

restless and sleepless. Violent fever 8 a.m. to 2 p.m.

Throat - Dry feeling in throat with desire to swallow. Throat raw and constricted. Burning in throat and down esophagus with stomachache and cough.

RELATIONS - The local effect *is antidoted by*: earth, other antidotes are: vinegar and other vegetable acids, Stram. **Compare**: (1) Agar., Ail., Apis, Canth., Crot-h., Lach. (2) The Solanaceae. generally, as the beetle partakes of the properties of the plants it infests. (3) In non-coagulation of the blood, Hirudo.

REFERENCES - Boericke. Clarke.

***DROSELA ROTUNDIFOLIA

(Round-leaved Sundew)

PHARMACY - dros. Drosera rotundifolia. Round-leaved sundew. Drosera longifolia. N. O. Droseraceae. Tincture of active fresh plant. **Historical dose**: Tincture and all potencies.

CLINICAL - Amblyopia. Anxiety. **Asthma. Bronchitis.** Catarrhs. Colic. **Coughs.** Coxal- gias. Delusions. Epilepsy. Fears. Hemorrhage. Headaches. **Hoarseness. Laryngitis.** Measles. Nausea. Sciatica. **Tuberculosis.** Vomiting. **Whooping, cough.**

HOMEOPATHIC - Teste, who placed Drosera in his Zincum group of medicines, mentioned that it grows in damp prairies, along the border of marshes and is avoided by animals. Barrich stated that when eaten by sheep it gives them a fatal cough.

Hahnemann noted Dros. was the principal remedy for **whooping cough**. It was recommended by German physicians of the eighteenth century as a panacea for hoarseness, chest disorders and even for tuberculosis. Markedly affects the respiratory organs. Spasmodic, catarrhal and hemorrhagic effects. **Spasmodic cough resembling whooping cough.** Whooping cough, spasmodic cough of tuberculosis. Frequent spells of barking cough, worse evening and after midnight, where the patient holds his side. Every effort to raise a little phlegm ends in retching and vomiting, vomits if he cannot get up phlegm.

Spasmodic and constricting pains in the abdomen, larynx, throat, chest, and hypochondria. Crawling in larynx. Feeling as if a soft substance were lodged in larynx, as a feather. Difficulty swallowing solids. Voice fails.

Hemorrhages of bright red blood from nose and mouth (bloody saliva). Hemorrhages with vomit, stool, or expectoration. Bleeding, burning ulcers, cutting pains. Prickling, burning, itching eruptions, worse undressing, better scratching. Lancinations in brain. Convulsions. Epileptic attacks with rigidity, after, twitching limbs, hemoptysis and sleep.

Sticking sharp pains. Gnawing, stinging pains in joints and long bones. Pains about hip joints. Sciatica with "pressing pains, worse from pressure from stooping from lying on painful part, better after rising from bed." Stitches from left loin into penis, itching stitches in glans.

MIND - Self-willed, obstinate, insists upon carrying out his plans. Pertinacity in executing resolutions. Very

irritable. Easily angered, a trifle makes him besides himself. Impatience. Restlessness. Extremely uneasy. Can't concentrate on one subject, must change, changes to something else.

Anxiety when alone. Anxiety with flushes of heat. Anxiety respecting the future. Anxiety in evenings. Dread of the night. Fear of ghosts. Fears being alone, but suspicious of friends. Great mistrust.

Depressed mood, with gloomy forebodings. Homesickness. Discouraged. Sadness when alone in daytime. Delusions of persecution. Imagines he was being deceived by spiteful, envious people. Inclination to drown oneself. Anxiety in evening, as if it would impel him to commit suicide by drowning.

Abdomen - Colic after taking acids, sour foods. Anxious feeling in hypochondria. Pains in the hypochondria, on coughing and on being touched. Must press on pain with the hand when he coughs.

Back - Stiffness at the nape of the neck with pains during movement. Bruise-like pains in the back, particularly early in the morning. Itching stitch in coccyx when sitting. Nape painful to touch. Neck stiff and painful on motion.

Chest - Pains, like a subcutaneous ulceration in the sternum, on pressing upon chest. **Pains in the chest on coughing** and on sneezing, has to press his chest with the hand (Bry.). Stitches below axilla. **Sharp pains in chest when sneezing or coughing**. Constriction of chest, worse talking, singing. Oppression of the chest, as if something stopped the voice on coughing or speaking, or as if the breath could not be expelled. **Tightness of the chest on coughing**. Black pores on chest and shoulder.

Constitutions - Tubercular constitution.

Coughs - Coughs takes breath away. **Whooping cough**. Spasmodic, dry irritative cough. **Attacks follow each other very rapidly**, can scarcely breathe. Cough very deep and hoarse, worse after midnight. **Deep barking or choking coughs**. Cough and chokes, worse singing, talking. **Periodical fits of rapid coughing**. Harassing and titillating cough in children, not during the day, but commencing as soon as the head touches the pillow at night. **Prolonged and incessant coughs**. Cough with violent tickling in larynx arouses one from sleep. Hemoptysis after convulsions. Yellow sputum, with bleeding from nose and mouth. Coughs followed by retching, vomiting.

Ears - Shootings and squeezing in the ears, especially on swallowing. Right internal ear as if painfully pressed together. Sharp pain in ears. Hardness of hearing with buzzing, roaring, humming and drumming in the ears.

Eyes - Eyes very dry. Prominent from coughing, during measles, in convulsions. Shooting in the eyes towards the outside, especially on stooping. Severe sharp pains, from within outward, in eyes. Presbyopia and weakness of the eyes. Photophobia. Suspension of the sight or confusion and paleness of the letters while reading. As if gauze before the eyes. Dazzling by candlelight and daylight. Contraction of the pupils. Pupils first contracted, later dilated.

Face - Cold sweat on forehead. Pale with hollow cheeks and sunken eyes. **Coldness of left half of face** with stinging pains and **dry heat of right half**. Faceache worse pressure and touch. Burning and pricking sensation in the skin of the cheeks, below the eyes. **Face hot and red with cold hands**. Pressure in the cheekbones towards the outside, aggravated by pressure and contact. Lips cracked and constantly dry. Small pustules here and there on face with fine stitching sensation, worse when touched. Black pores in the chin.

Female - Delay of first menses. Menses too late. Menses too scanty. Dark blood. Suppressed or retarded menses. Leucorrhea with labor-like pains, spasmodic pains in the abdomen.

Food - Food seems tasteless. Bitter taste of food, especially of bread. Bitter taste of all food during pregnancy. Aversion to pork. Aversion to acids and sour foods. Thirst in the morning. Worse acids and sour foods. Worse after fatty food. Worse tobacco smoke.

Head - Pressive pains in the head, especially in the forehead and cheekbones, sometimes with nausea and dizziness. Painful perplexity of the head, as after loud speaking. Pressing headache with stupefaction and nausea. Headache worse when stooping, better from motion and cold air. Beating and hammering in the forehead. Brain painfully affected by stepping. Pains, as if excoriation in the scalp. Smarting, burning pain in scalp. Corrosive itching on scalp. Itching, gnawing on forepart of scalp, better rubbing.

Kidneys - Frequent, profuse urination. Frequent urging with scanty emission, often drop by drop. Emission of urine at night. Brownish urine of a strong smell. Watery, inodorous urine with fetid stool of white mucus. Urine dark and of strong smell.

Limbs - All limbs feel lame. Bed feels too hard. Limbs feel as if beaten. **Pain in the long bones**. Pain in humerus at night only. Paralytic pains in the coxo-femoral joint and thighs. Laming pain in right hip joint and thigh with pain in ankle, must limp when walking. Stiffness in joints

Drosera rotundifolia of feet. Fingers contract spasmodically with rigidity when grasping anything. Writer's cramp.

Lungs - **Asthma when talking**. Asthma with contraction of the throat at every word uttered. Severe dyspnea threatening suffocation. Dyspnea with blueness of face and lips. Dyspnea with cold sweat on forehead.

Dyspnea with vomiting of tough mucus. Oppressed breathing, as if holding back the breath. **Yellow expectoration with bleeding from nose and mouth, retching.** Bitter, or offensive expectoration. Salty expectoration. Bloody and purulent. Black clotted or bright red frothy blood.

Male - Itching stitches in glans.

Modalities - Better from pressure. Better open air. Better motion. Better sitting up in bed. Better remaining quiet. Worse towards evening. Worse after midnight. Worse on lying down. Worse getting warm in bed, warmth. Worse drinking, cold food. Worse sour things, acids. Worse vomiting. Worse laughing, talking, singing. Worse stooping. Worse after measles. Worse during rest. Worse weeping.

Mouth - Putrid taste. Offensive breath during cough. Bleeding of the mouth. Bloody saliva. Profuse flow of watery saliva. Small round painless swelling in middle of tongue. Shooting pains in teeth from hot drinks. Fine prickings on dorsum of tongue. Stitching, smarting, in right side and tip of tongue. Loss of taste. Ulceration of velum palate. Ulcers on tongue. Whitish ulcer on tip of tongue.

Nose - Profuse fluent coryza, in morning. Constant dryness of the nose. Black pores on the nose. Nosebleed, in the evening. Bleeding from coughing, stooping, on blowing the nose. Painful sneezing. Fluent coryza with sneezing. Sensitive to sour smells.

Perspiration - Warm perspiration at night. Copious sweat all over body. Sweats with cough bringing on violent retching. Cold sweat, on forehead, face, abdomen and feet. Warm sweat, at night. Sweats after midnight and in morning hours. Perspires immediately on waking from sleep.

Rectum - Frequent evacuations of bloody mucus, with cutting pains after the stool in the abdomen and small of the back. Outward pressing in rectum, independent of stool. Frequent stool with colic. Stools, soft fluid. Stools, white, slimy and stinking. Stools, with watery, odorless urine. Discharge of bloody mucus.

Skin - Eruption with painful soreness or stinging. Violent itching, while undressing. Itching better by rubbing or wiping with hand. Prickling, stinging, itching, gnawing in skin. Skin readily peels off when scratching. Measles. Black pores on chest and shoulder. Bleeding, burning ulcers.

Sleep - Sleepless, feels too wakeful. Sleep at noon and in the evening at sunset. Snoring during sleep and when lying on the back. Frequent starts with fright during sleep. Frequent waking with perspiration. Great weariness on waking. Vivid dreams. Anxious dreams. Dreams, over the wrong-doings of others. Dreams of thirst and drinking, awakes, is thirsty and must drink.

Stomach - Shootings and beatings in the pit of the stomach. Clawing sensation in the pit of the stomach. Difficulty in swallowing solid foods. Water brash. Bitter belching. Frequent hiccough. Nausea after fatty foods. Nausea at night or before dinner. Nausea with stupefying pressure in forehead. Vomiting at night and after dinner. Vomiting of blood. Vomiting of bile in the morning. Vomiting of slimy matter and of food during the cough.

Temperature - Too cold, even in bed. Chilliness during the day, heat during the night. Shivers when at rest, better moving. Fever with headache and convulsive cough. **Fever with whooping cough.** Measles. Intermittent fever with nausea and inclination to vomit and other gastric sufferings, or with sore throat. Hot face and cold hands with shivering. Thirst in the morning during the hot stage of the fever and not during the cold stage.

Throat - **Clergyman's sore throat** with rough, scraping, dry sensation deep in the fauces. **Hoarseness**, laryngitis. **Deep**,

hoarse voice. Voice, hollow, toneless, cracked, requires exertion to speak. Difficulty swallowing solid food, as from contraction of the throat. Stinging in throat when swallowing. Sensation in the throat, as if crumbs of bread had been stopped in it. Sensation as if a feather in larynx. Hawking of yellowish or greenish mucus. Ulceration of soft palate. Laryngeal tuberculosis with rapid emaciation.

Vertigo - Vertigo when walking in open air. Vertigo with inclination to fall to the **left side.**

Vision - Farsighted. Weakness of eyes when looking carefully at small things. Quivering before eyes. Dazzling, worse light, daylight or candlelight. Light or glare of fire dazzles before eyes. When reading, letters run together. Frequent vanishing of sight, when reading. Letters look pale and blurred.

COMMENTS - A strong history of use in whooping cough. Spasmodic coughing at night ending in vomiting or nosebleeds. Choking, suffocating cough. Coughing spasms, worse lying down. Patients hold their chest when coughing (Bry.). Hoarseness. Worse after sleep, lying down, and stuffy rooms, better open air.

Indications in the premonitory stage by pallor, weakness, anemia. Pallor of larynx, dry cough. Loss of appetite, emaciation.

Chronic bronchitis, especially in the elderly. Difficulty swallowing during bronchitis or whooping cough, especially solids. Spasmodic croup (Aeon., Spong., Hep.). Redness and swelling of mucus membrane covering and between the arytenoid cartilages. Speaker's sore throat (Rhus-t., Arg., Arg-n.).

Raises the resistance against tuberculosis, useful for tuberculosis of the lungs, larynx and bones in the joints.

Laryngeal tuberculosis. Tuberculosis with vomiting of food from coughing, with gastric irritation and profuse expectoration. Tubercular glands. Tuberculosis with swollen glands, spasmodic coughing, and coughing up blood.

Dr. Serrand of Paris maintained that Dros. has an important place in the prophylaxis of tubercle.

He noted that sheep eating Drosera leaves acquire a nocturnal cough and die, and that the pleura of cats to which Drosera had been administered were found studded with tubercles. He commended it in cases of declared tuberculosis as well. He gave it in the low potencies.

Buchmann of Alvensleben agreed with Hahnemann that Dros. in high potency should not be often repeated. Buchmann had a bronchial catarrh which used to attack him every spring and fall, characterized by a violent tickling cough, which almost drove him to distraction at night.

Buchmann cured himself with Dros. lx. and tincture. A single dose as soon as the tickling in the larynx commenced sufficed to allay it at once and allowed him to rest and it was only repeated when the tickling returned.

RELATIONS - Antidoted by: Camph. **Compare:** (1) Bell., Cor-r., Cupr., Hyos., Ip., Samb., Meph., Op., Coc-c. (2) In inability to expectorate, Caust., Sep., Arn., Kali-c. (3) Teste considers Meny. the closest analog. (4) Fluoroform, 2 per cent, watery solution, 2 to 4 drops after paroxysms, considered specific for whooping cough. (5) Ouabain from leaves of Carissa schimperi, an arrow poison - respiratory spasm, whooping cough is cut short in first stage and reduced in frequency of attacks and hastens convalescence. (6) Chel., Corail., Cupr., Cast., Arg-n., Meny. **Complementary:** Nux-v. **Compatible:** Calc., Puls., Verat., Gnaph.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***DUBOISINUM

PHARMACY -dubin. Duboisinum. Corkwood tree alkaloid. Duboisiamy oporoides. Duboisia hopwoodii. N. O. Solanaceae. Queensland. Tincture and solution of alkaloid prepared from extract of the leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Delirium. Drowsiness. Eye, disorders. Locomotor, ataxia. Mouth, dryness. Paralysis. Presbyopia. Pupils, dilated. Throat, dryness. Vertigo. Vision, disorders.

HOMEOPATHIC - Duboisia belongs to the same order as belladonna, and its alkaloid, sulphate of duboisia, has been used as a substitute of atropine. Its application to the eye has caused marked constitutional symptoms of fever, delirium, stupor and dry mouth.

Characteristic dryness of mucus membranes. Cool feeling in the eyes. Feeling of largeness in eyes, tongue. Inability to stand with the eyes shut, locomotor ataxia. Sensation as if stepping on empty space.

COMMENTS - Dubin, has been proved. A symptom which may prove a keynote is "a red spot floating in the field of vision." Guided by this, C. H. Helfrich cured a case of hyperemia of optic nerve with Dubin. 3c.

RELATIONS - Antidoted by: coffee, lemon juice. **Compare:** (1) Bell., Atro., Dulc., Stram. (2) Anhal. - colored vision.

REFERENCES - Boericke. Clarke.

***DUBOISIA MYOPOROIDES

(Corkwood Tree)

PHARMACY - dubo-m. Duboisia myopo-roides. Corkwood tree. Corkwood elm. N. O. Solanaceae. Queensland. Tincture from the leaves. **Historical dose:** Tincture and all potencies.

CLINICAL-Conjunctivitis. Delirium. Drowsiness. Exophthalmic goiter. Eyes, dilated pupils. Locomotor, ataxia. Mouth, dryness. **Mydriasis.** Paralysis. Pharyngitis. Presbyopia. Scarlet, fever. Throat, dryness. Vertigo. Vision, disorders.

HOMEOPATHIC - Duboisia acts chiefly on the nervous system, eyes, upper respiratory tract. Recommended in pharyngitis with black, stringy mucus. Palliative for exophthalmic goiter. Dilated pupil. **Red spot floats in the field of vision.** On the eye it acts more promptly than Atropine, much stronger as a mydriatic.

Dry mouth. Checked perspiration. Scarlet fever. Headache and drowsiness. **Vertigo with pale face,** not gastric in origin. Sensation as if stepping on empty space. Locomotor ataxia.

MIND - Memory impaired. Absent-minded. Incoherent. **Silly and nonsensical.**

Eyes - Acute and chronic **conjunctivitis.** Hyperemia of retina. Fundus red, blood vessels full and tortuous. Paralysis or weakness of accommodation. **Mydriasis.** Pupils dilated with dim vision. **Pain over eye,** between it and brow.

Head - Impossible to stand with eyes shut, tendency to fall backwards.

Limbs - Trembling, numbness and weakness. Loss of power in limbs, staggers, feels as if he stepped on empty space.

Lungs - Larynx dry, hoarse voice, difficult phonation. Dry cough with oppressed breathing.

Vertigo - **Vertigo with pale face**, not gastric in origin.

RELATIONS -Antidotes: Morphine, Pilocarp. It antagonizes Muscarine. Hystero-epilepsy. Motor restlessness of insane. It has been used as a substitute for atropine. **Compare:** (1) Bell., Stram., Hyos.

REFERENCES - Boericke.

***DULCAMARA

(Woody Nightshade)

PHARMACY - dulc. Dulcamara. Woody nightshade. Bitter-sweet. Solanum dulcamara. N. O. Solanaceae. Not to be confounded with "Deadly Nightshade," Belladonna, nor with "Climbing Bitter-sweet," Celastrus. Dulcamara tincture prepared from fresh green stems and leaves, gathered just before flowering. **Historical dose:** Tincture and all potencies.

CLINICAL - Adenitis. Anasarca. Aphonia. Bladder, disorders. Blepharophthalmia. **Catarrh.** Cholera. **Colds.** Crusta, lactea. Diarrhea. Dropsy. Dysentery. Emaciation. Exostoses. Fevers. **Glands, swollen.** Hemorrhages. **Hay fever.** Headaches. Hemorrhages. Hemorrhoids. **Herpes.** Influenza. Irritation. Lichen. Lumbago. Measles. Meningitis. **Mononucleosis.** Muscle, pain. Myelitis. Nettle-rash. Neuralgias. Ophthalmia. Paralyzes. Pemphigus. **Rheumatism.** Scarlatina. Scrofula. Stammering. **Sore, throat. Stiff-neck.** Tibia, pains. Tongue, disorders. Tonsillitis. Tumor. Typhoid. Urination, difficult. **Urticaria. Warts.** Whooping cough.

HOMEOPATHIC - The leading indication for Dulcamara is found in its modality, **worse from cold and damp.** Effects of lying on damp ground (e.g., paralysis), conditions which are worse in cold, damp weather or from changes from hot to cold weather.

Effects of damp weather, colds after exposure to wet, especially diarrhea. Results from sitting on cold, damp ground. Hot days and cold nights toward the close of summer. Patients living or working in damp, cold basements (Nat-s.).

Rheumatic troubles induced by damp cold are aggravated by every cold change, somewhat relieved by moving about. Stiffness, numbness, aching and soreness of muscles on every exposure to cold especially of back and loins.

Tearing pains. Dropsy, anasarca. Onesided spasms with speechlessness. Paralysis of single parts, vocal cords, tongue, etc. Paralyzed parts icy cold. Congestive headache with neuralgia and dry nose.

Adenitis, glands, swollen and indurated. Enlarged glands. Exostoses. Hemorrhages, blood watery or bright red. Eruptions on hands, arms or face around the menstrual period. Gripping in bowels around the umbilicus in testes.

MIND - Mental confusion, cannot concentrate. Difficult speech, cannot find the right word. Dullness and painful stupefaction of head. Dullness of senses. Rejects the things asked for. Haughty. Domineering, strong-minded and possessive. Scolds without being angry. Quarrelsome without anger.

Depression. Easily becomes delirious with pain. Restless and impatient. Weeping after hallucinations. Delusions as if bed were sinking. Sees spectres on waking. Impatience in morning. Irritability during daytime. Starting on falling asleep. Throws things away in morning.

Abdomen - Dropsy of abdomen. Eruptions or pain about the navel. **Cutting pain at navel** followed by painful, green, slimy stools. Colic from cold. Cold feeling in bowels. Cutting pain about navel, followed by painful, green, slimy stools. Swelling of inguinal glands (Merc.).

Back - Heat and burning in back. **Pain in small of back**, as after long stooping. **Backache, worse damp cold weather.** Lumbar region and sacrum feel cold. Spinal meningitis during scarlatina or measles, eruption doesn't develop. Myelitis after taking cold during menses. Hyperemia of spinal cord. **Rheumatic affections of spinal cord.** Swelling of glands of neck. Stiffness and lameness across neck and shoulders after getting cold and wet. Stiff neck.

Bladder - Cystitis. Catarrh of bladder from taking cold. Bladder wall thickened. **Must urinate when getting chilled.** Frequent urination. Strangury, painful urination. Retention of urine from cold or cold drinks. Involuntary urination from paralysis of bladder. Ischuria from wading with bare feet in cold water. Strangury, painful urination.

Breasts - Breasts, engorged and sore, delicate, sensitive to cold. Sore nipples after weaning. Breasts, swollen with absent menses or leucorrhoea. Herpes on breasts in nursing women. Breasts, engorged, hard, sore, with amenorrhoea or leucorrhoea. Eruptions on skin after weaning. Suppressed milk from taking cold.

Causations - Damp with cold, wading, washing. Injuries. Checked eruptions or perspiration. Complaints of workers in ice factory. People who are exposed to a constant change of temperature, air conditioning.

Chest - Great oppression of the chest, especially when breathing. Pain in left chest as if lung moved in waves. Dull shooting, as from blows in and upon the sides of the chest. Sharp pains, here and there in chest. Small

pimples on chest and abdomen.

Constitutions - Suited to phlegmatic, torpid, scrofulous patients, who are restless and irritable and who take cold on damp changes.

Coughs - Coughs in infants and elderly people. Whooping cough with excessive secretion of mucus. Panting cough, like whooping cough, worse each deep inspiration. **Cough after physical exertion.**

Hoarse, spasmodic cough. **Loose, rattling cough, worse cold, wet weather.** Dry, teasing, winter coughs. Cough, caused by tickling in the back of throat in prolonged fits with much loose easy expectoration. Must cough a long time to expel phlegm. Copious mucus with loose cough. Barking cough, after a deep breath.

Ears - Child very susceptible to earache. Stitching earache with nausea, whole night, preventing sleep. Buzzing in ears. Swelling of parotids after measles. Middle-ear catarrh (Merc-d., Kali-m.). Earache with nausea. Impaired hearing with humming in ears and dull pain.

Eyes - Every time he takes cold it settles in eyes. Aching pain when reading. Aching with dimness of sight. Ophthalmia neonatorum. Chemosis of conjunctiva. Ophthalmia from catching cold. Hay fever with profuse, watery discharge, worse in open air. Thick, yellow discharge, granular lids. Twitching of eyelids in cold air. Jerking in muscles of eyes. Paralysis of upper lid. Pupils much dilated. Idiopathic iritis after exposure in damp weather. Threatened amaurosis in scrofulous children. Dim vision. Sees as through a gauze. Sees sparks.

Face - Face bloated. Faceache and asthma, after disappearance of tetters in face. Facial neuralgia, **worse from the slightest exposure to cold.** Tearing in cheek extending to ear orbit and jaw, **preceded by coldness of parts and attended by canine hunger.** Twitching of lips in cold air. Humid eruptions on cheeks and face generally. Thick, brown, yellow crusts on face. Swelling of parotids after measles. Pimples and little ulcers around mouth. Warts. **Herpes about lips.** Cold sores on lips (Nat-m.).

Female - Rash appears on the skin before menses. Menses watery. Menses delayed and too short. Dysmenorrhea with blotches all over. Menses, milk, suppressed by cold or dampness. Suppression of menses from cold or dampness. Herpetic eruptions on vulva, worse every cold change of weather, or by exposure in cold, damp situations. Lochia suppressed by cold or damp. Threatened miscarriage induced by exposure in a damp, cold place. Pruritus with heat and sexual desire.

Food - Hunger without appetite. Hunger after fever. Aversion to food. Aversion to coffee. Great thirst for cold drinks.

Head - Congestion to head with buzzing in ears. Headache, relieved by conversation. Headache with great uneasiness, depressed spirits. Occiput feels large, cold. Occipital pain ascending from nape of neck. Back part of head chilled, heavy, aching during cold weather. Sensation as if a board were pressing against the forehead. Sensation as if hair stood on end. **Tinea capitis**, crusta lactea and dandruff, worse change of weather. **Scald head**, thick brown crusts, bleeding when scratched, causing hair to fall out. **Ringworm of scalp.**

Heart - Palpitations at night. Pulse hard, small and tense, worse at night. Pulse soft, full, slow, bounding. Pulse slower than beat of heart. Pulse frequent at night, slow during day. Pulse collapsed.

Kidneys - Burning in meatus while urinating. Must urinate when getting chilled. **Nephritis from cold.** Ischuria from wading with bare feet in cold water. Pain in region of kidneys, with dropsy and albumen in urine. Urine increases with every little cold. Cloudy, slimy or foul urine. Urine with thick, **mucus**, purulent sediment. Urine offensive, turbid when passed, and excoriating the skin.

Limbs - Rheumatic symptoms alternating with diarrhea or acute eruptions. **Rheumatism after exposure to wet.** Paralyzed limbs. **Feet icy cold.** Cold feeling in bones. Sudden swelling of body and puffiness of limbs. Swelling of calf of leg. Pain in shinbones. Exostosis on arms after suppressed scabies. Trembling of arm (right) with urinary difficulty. Perspiration on palms of hands. Warts on hands and fingers.

Lungs - Asthma with dyspnea. Asthma with faceache after disappearance of tetters in face. Oppressed breathing from a cold. Dyspnea with accumulation of mucus. Impending paralysis of lungs. Copious mucus. Easy expectoration of taste

less mucus, often streaked with blood. Rheumatic pleuritis and pleuro-pneumonia, with tough, difficult, discoloured sputa. Hydrothorax, worse wet weather. Bronchitis with offensive smelling night sweat. Tuberculosis, worse in changes from warm to cold. Tuberculosis, sputum tough, green.

Male - Enlarged testes with griping pain. Impotence. Herpes. Eruptions, brown, dry, humid or furfuraceous. Eruptions, red, pale red. Eruptions with a red areola. Eruptions, round, scaly and small. Eruptions, suppurating, yellow.

Modalities - Better lying on side. Better moving the affected part. Better external warmth. Better dry weather. **Worse from being chilled while hot**, Worse hot days and cold nights. Worse sudden changes of temperature. **Worse cold wet, damp, rainy weather.** Worse cellars. Worse getting wet. Worse using water. Worse autumn, night. **Worse from damp ground.** Worse cold drinks, ice cream. Worse cold to feet, Worse suppressed

discharges. Worse eruptions or sweat. Worse beds, and rest. Worse getting feet cold. Worse injuries. Worse before storms.

Mouth - Mouth and tongue dry. Distorted, drawn to one side. Bitter taste. Saliva, tenacious. Saliva, ropy with toothache. Cold sores on lips. Putrid sore mouth with salivation and swollen cervical glands. Mucus membrane of mouth greatly swollen and very red. Holds cold water constantly in mouth, as pain and heat is better thereby. Scurvy from cold.

Nose - *Hayfever, profuse, watery discharge.* worse open air. Hay fever, sensitive to newly mown grass. Hay fever in August. Discharge suppressed from least contact with cold air. Complete stoppage of nose. **Nose stuffs up when there is a cold rain.** Wants nose kept warm, least cold air stops the nose. Aching pain. Thick, yellow mucus, bloody crusts. **Severe coryza with hot, dry skin, limbs cold, stiff, numb and painful; general offensive sweat.** Dry or profuse coryza. Coryza of the newborn. **Summer colds with diarrhea.** Nosebleed in place of menses. Nosebleed blood bright red, and hot, with pressure above nose.

Perspiration - Foul sweat. Sweats with skin diseases. Sweats with copious limpid urine. Sweats at night, over whole body, often offensive. Offensive sweat, night and morning. Sweats in axilla and palms. Suppressed sweat. Conditions arising from sudden cooling of body whilst sweating.

Rectum - Itching of rectum. Burning in anus after stool. Biting pain in rectum as from salt. Constipation and painful strangury. Cutting pain at navel followed by painful, green, slimy stools. Profuse thin stools in morning. Diarrhea of green, sour, watery. Diarrhea slimy, bloody, **mucus**, worse at night. Diarrhea especially in the summer. Diarrhea when the weather suddenly becomes cold. **Diarrhea from damp, cold weather.** Diarrhea from repelled eruptions. Diarrhea after suppression of eczema. Watery, slimy, lienteric stool after eating. Green, watery, slimy, bloody, mucus stools. Sour, watery stools, worse at night, summer, damp cold weather. Yellow diarrhea, alternating with greenish.

Sensations - As of a board pressing against forehead, as if head were enlarged, as if hair stood on end. As if fire were darting out of eyes. As if worms were crawling up and down in abdomen, biting in rectum as from salt. As if lung moved in waves. As if arms were of wood, as of needles over whole body. Crawling, tickling itching of various parts, tip of tongue.

Skin - *Pruritus, worse in cold, wet weather.* Herpes zoster, pemphigus. Eruptions, scaly, thick, crusty, moist, bleeding or herpetic, worse before menses. Humid eruptions on face, genitals, hands etc. **Urticaria**, red spots, brought on by exposure or sour stomach. Nettle-rash over whole body with violent itching. Thick, brown-yellow crusts, bleeding when scratched. Sensitive bleeding ulcers. Little boils. **Warts**, large, smooth, on face and palmar surface of hands. Small furuncles on places hurt. Eczema, rash of infants. Red spots, as from fleabites. **Ringworm in the hair in children.** Anasarca. Impetigo, little boil-like eruptions that spread.

Skin callous.

Sleep - Uneasy, restless sleep, with confused dreams, frequent sweat, tossing from side to side. During sleep mouth open, snoring. Falling asleep in evening, starting as if frightened. Sleep worse after 3 a.m. Fearfully confused dreams.

Stomach - Indigestion with chilliness from every cold change of weather. Belchings with shuddering. Heartburn. Nausea with desire for stool. Vomiting of white, tenacious mucus. Shivering, chilliness while vomiting. Vomiting of mucus after cold drinks. Vomiting of greenish, yellow, slimy substances.

Teeth - Teeth thickly coated with tenacious, foul mucus. Teeth deeply imprinting cheeks and edges of tongue. Toothache from cold with diarrhea. Toothache with confusion in head, profuse salivation. Teeth feel blunt, or numb. Receding, spongy gums with salivation.

Temperature - Chill alternating with heat. Icy coldness with pains. Coldness in different parts, icy of paralyzed parts. Chill starts in the back, not better by warmth, worse evening. Chill with urging in stool and urination. Chilliness with thirst. Dry, burning heat all over.

Throat - Adenitis. Pressure as if uvula were too long. **Tonsillitis from every change of weather.** Much mucus in fauces. Rough, hoarse voice. Continual hawking up of very tough saliva, with much rawness in fauces. Constant titillation in larynx, with desire to cough. Trachea full of mucus, tough, greenish sputum with moderate cough. Swelling and indurated glands from cold.

Tongue - Tongue, swollen, hindering speech, paralyzed inarticulate or difficult speech. Dry, rough tongue, rough scraping in throat after taking cold in damp weather. Itching, crawling on tip of tongue. Tongue and jaw become lame if cold air or water chills him.

Vertigo - Vertigo on waking in morning. Giddy and dizzy. Vertigo with trembling and weakness. Momentary vertigo, when walking, with darkness before eyes.

COMMENTS - Sensitiveness to cold and damp runs through the Solanaceae. and is marked in Bell, and Caps., but it is supreme in Dulc. This feature among others renders them all good antidotes to Merc.

Bar-c. is the complement of Dulc. in "worse from cold weather, especially in scrofulous children." Every cold settles in the eyes, throat or affects the bladder, respiration or bowels.

In poisoning cases, Dulc. produces hard, griping pains in the bowels, unconsciousness, tetanic spasms, trismus, loud, rattling breathing, and death. One-sided spasms. Convulsions beginning in the face. Trembling, especially of the right arm.

Paralysis, of the tongue, lungs, and heart (pneumogastric paralysis). Paralysis of the bladder. Rheumatic paralyzes. Paralyzed part feels icy cold. "Paralysis of vocal cords (aphonia) from sleeping over a damp cellar." Scrofulous-looking eruptions. Moist or dry, red, tettery eruptions, especially on the face. Furfuraceous, herpetic. Urticaria. Small furuncles appear on places hurt by concussion. Skin callous. Warts, fleshy or large, smooth. Painless ulcers. Skin eruptions are sensitive to touch, pressure better.

Dropsical disorders. Catarrhal troubles. Dry mucus membranes. Offensive sweat, effects of sudden cooling while sweating. Results of suppressed eruptions.

Diarrhea, vomiting with the stool. Bladder infections. Mucous-like sediment in the urine. Mucopurulent urine is often associated with general one-sided sensitiveness, especially of the abdomen.

Dulc. 30c cured in two doses a rash like mosquito-stings appearing every month before the menses, worse when warm, compelled to sit where it is cold.

Clarke gave Dulc. 30c with complete relief to the pain in a case of sarcoma of the bones at the base of the skull in which there were stabbing pains in the front of the head and partial paralysis of the tongue. It was the latter symptom that determined the choice of the remedy.

McLaren cured with a single dose the following case, which was the result of a wetting. Facial paralysis, following neuralgia, the eye having remained unclosed for eight months. Red rash with itching worse in damp weather. After a slight aggravation improvement began in two weeks and continued steadily.

RELATIONS -Antidoted by: Camph., Cupr., Ip., Kali-c., Merc. Follows well: Bry., Calc., Lyc., Rhus-t., Sep., V. erat. **Compare:** (1) Aeon., Ars., Cham., Hell., Nit-ac., Puls., Staph., Sulph. (2) In faintness during stool, Crot-t., Verat. (3) Effects of cold, moist winds, Ars., Calc., Nux-v. m. (cold dry, winds, Aeon., Bry.). (4) Effects of exposure to wet and better by motion, Rhus-t. Rheumatic paralysis, Rhus-t., Caust. Hasty speech and actions, Hep., Bell., Lach., Sulph. Paralysis of lungs, Solanum. (5) Pimpinello - Bibernell - respiratory mucus membrane sensitive to drafts, pain and coldness in occiput and nape. Whole body weak, heavy head and drowsiness, lumbago and stiff neck, pain from nape to shoulder, chilliness. (6) Rhus-t., Cimic., Calc., Puls., Bry., Nat-s.

Complementary: Baryta c. **Incompatible:** Bell., Lach.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***DYSENTERY BACILLUS

PHARMACY - dys-co. Dysentery bacillus. Dysentery co. Bacillus dysenteriae. Shigella dysenteriae. A Bowel nosode. **Historical dose:** All potencies.

CLINICAL - Anemia. **Anxiety.** Arthritis. Backache. Blepharitis, **Bruises. Colitis. Diarrhea.** Duodenal, ulcer. Dysmenorrhea. **Colitis. Fears.** Fibrositis. Flatus. **Headaches. Heartburn. Indigestion. Migraines.** Nausea. Osteoporosis. Otorrhea. Pharyngitis. Pleurodynia. Rheumatism. Spondylitis. Styes. Tachycardia. Thyrotoxicosis. Tonsillitis. Ulcers. **Vomiting.**

HOMEOPATHIC - This is the nosode prepared from Bacillus dysenteriae. Dys-co. affects every tissue of the body and is suitable for many slow and insidious chronic states. Dys-co., patients are typically the Arg-n. type. Fearful and phobic, abdominal symptoms due to apprehension. **"Anticipatory" nervous** tension. Inhibition and insecurity. Mental aberrations and nervous symptoms precede and are associated with myocardial and circulatory disease.

Least excitement exhausts and aggravates symptoms. "Anxiety and excitement felt in the epigastrium," "nausea from excitement" and "diarrhea from excitement." Excitement, anxiety or any agitation causes palpitations, flushing, perspiration, breathlessness and even pain in the heart region.

Involuntary movements, tics or twitching (like chorea). Instability of the capillary circulation, causing blushing, frontal headaches from excitement. Dry skin, scaly, with circinate lesions.

Dilation of stomach. Spasm in the pylorus. Retention of digested contents. **Indigestion pain** with distention and discomfort. **Heartburn.** Cyclical vomiting in children. Diarrhea or indigestion from eating sweets and fat, which they are fond of.

MIND - High strung and very sensitive to all impressions. Tense and nervous. **Easily excited and flustered.** Forgetful, especially after interruptions. Full of worries about little **things. Anticipating fear of difficulties** that might arise (Arg-n.). **Full of fears.** Claustrophobia. Shy, lacks confidence.

Abdomen - Distention and flatus. **Colitis.**

Pain and tenderness over gallbladder.

Back - Fibrositis, rheumatism of neck and shoulders. Backache. Spondylitis.

Chest - Pleurodynia. Pain in chest on exertion. Tightness in lower ribs.

Constitutions - Tense facial expression, not fearful but alert and ready to react. Anxious, restless, fidgety, timid and uneasy among strangers, easily upset by criticism.

Ears - Otorrhea. Sudden swelling of ears, blue, red, thin, scalding.

Eyes - Blepharitis, styes. Conjunctivitis with photophobia. Twitching of eyelids. Sensation of floating bodies, woolly spots before eyes. Yellow color vision.

Face - Both children and adults show a marked anemia, watery, bluish pallor with puffiness of eyelids and cheeks.

Veins frequently dilated and bluish lips that are apt to get dry and cracked. Neuralgia, supra and infra orbital. Twitching of muscles of face.

Female - Menses irregular. Dysmenorrhea. Throbbing pelvis and perineum. Infantile masturbation.

Food - **Fond of sweets, salt, milk and fat.**

Head - Headache, frontal, over the eyes or in vertex, brought on by excitement. **Blinding headaches** with looseness of bowel. **Migraines**, more headache than vomiting. Headaches often occur at regular time periods of 7 to 14 day cycles. Fuzzy head. Scalp is painful to comb. Dry, scaly painful spots.

Heart - Tachycardia, palpitations, extra systoles. Palpitations before important events. Anticipatory discomfort in the cardiac area. Heart rate is fast and may be irregular.

Limbs - Osteoporosis. Arthritis and periostitis. Pain in knees, ankles.

Lungs - Shortness of breath. Bronchial catarrh. Pertussis-like cough. Blood stained sputum.

Modalities - Worse from 3 a.m. to 6 a.m. Patients feel the cold, chilly and want warmth, yet are easily heated up by the exertion and warm room. Feels cold, chilly and rapidly perspire from excitement and mental exertion. Nausea and faintness in warm room, relieved by open air. Desires air and space.

Mouth - Bad taste. Tongue raw and burning. Lips are dry and cracked. Rheumatism of jaw.

Nose - **Hay fever.** Vasomotor rhinorrhea. **Frequent coryza.** Pain at the root of nose.

Rectum - Constipation and diarrhea. Weak expulsion of hard knotted stool with mucus. Loose morning diarrhea, stools forcibly expelled and acrid, burning. **Looseness**, frequent motions 5 or 6 per day. Diarrhea on excitement or worry. Throbbing rectum with sense of block or cork. Hemorrhoids and anal fissures. Hemorrhoids come down when walking.

Sleep - Insomnia, from crowding of thoughts, excitement, and palpitations. Sudden shocks through the body on falling to sleep, awakening with fear, palpitation and breathlessness. Wakes at 2 or 3 a.m. with pain and discomfort in epigastrium.

Stomach - **Pain, worse from eating**, better lying down. Ptosis stomach, dilation, splashing. Emptiness between meals and sometimes nausea in the morning on awakening relieved by eating. Sinking emptiness during day with relief from rest and food. **Chronic indigestion.** Eructation, heartburn, some hours after food. Acrid vomiting burning up throat, bilious vomiting. Thirst and desire for cold drink, but worse afterwards. Mental strain reacts on stomach and aggravates the stomach stasis.

Throat - Enlarged thyroid. Recurrent tonsillitis. Pharyngitis. Dry throat.

Urine - Urge to urination in tram or train. **COMMENTS** - Selective action on cardiac muscles. Cardiac disorder. Function disturbance of heart action, associated with nerve tension. Affects the venous circulation. Walls of veins get thin and veins dilated. Varicose veins. "Bruises very early and bleeds easily." Stasis of abdominal circulation.

Tendency to blush, with pallor. Flabbiness. Limbs, cold, bluish and perspiring. Rheumatism. "Growing pains," associated with valvular heart disease. Weak reaction.

Hypotonic stomach. Delayed digestion with pain, relieved by eating. Duodenal ulcer, with nervous tension felt in stomach and heart area (Prot., has unperceived tension). Ulcers (Lyc., Nux-v.).

Dry skin. Ribbed brittle nails, dandruff and dry brittle hair. Cracked fingertips. The cracks and fissures are deeper with an indurated base. Eruptions are dry and sluggish, come out slowly. Tendency to scale and crust, gummy discharge (Graph.).

Herpes on face, neck, chest. Blisters between fingers. Scaly eruptions on flexures. Dermatitis of hands and palms, dry, cracked and painful. Flat warts on hands. Psoriasis. Urticaria attacks.

Brain fatigue. Little power of concentration. "Loses train of ideas from interruption." "Forgets what he was going to say." "Forgets what she went for." Lack of initiative, easily deflected.

Hypersensitive, expressed as shyness or timidity. Unsociable. Aversion to meeting strangers. Tense around strangers, alert. Fear of being alone. "I desire to be left to myself, but have a fear of being alone."

Mental uneasiness, physical restlessness, fidgets, chorea movements of facial muscles or limbs. Nervous tension, constant, triggered by anticipation. Impatience, hurry. Restless, desire to go from place to place (Tub.).

Depression, from tiredness, constant tension. Anxiety. "Feels miserable from the fear that she can not accomplish what she was to do." Desire to be left alone, and indulge in tears. Consolation aggravates the weeping and brings out irritability.

Burdened with over conscientiousness. Easily upset by criticism. Fear, in train, tram, bus and church, afraid in theater, lift office etc. Fear of the future, dark, thunder and storms.

RELATIONS - Compare: (1) There is close relationship between Dys-co., Arg-n. and Ars. (2) It is also related to Kalm., Nux-v. and Lycopodium also follow it well in gastric disorders. (3) Proteus.

***ECHINACEA ANGUSTIFOLIA

(Purple Cone-flower)

PHARMACY - echi. Echinacea angustifolia. Purple cone-flower. Echinacea rudbeckia. N. O. Composite, allied to Rudbeckia. (Echinacea angustifolia, is the western species not to be confounded with Echinacea purpurea, or Black Sampson, the eastern species.) Tincture of whole fresh plant. The whole plant including the root is pounded to a pulp and macerated in two parts by weight of alcohol. **Historical dose:** Tincture and all potencies. Locally, as a cleansing and antiseptic wash.

CLINICAL - Abscess. **Aphthae. Appendicitis.** Auto-infection. Bites'. **Blood, disorders. Blood, poisoning. Boils.** Canker sores. Carbuncles. Colds. Cramps. Diarrhea. Diphtheria. Enteric, fever. **Erysipelas.** Fevers. **Gangrene.** Goiter. Gonorrhea. Hemorrhoids. Hepatitis. **Impetigo. Immune, disorders.** Influenza. Leucorrhea. **Lymphangitis.** Meningitis. Ozaena. **Poisoned, wounds.** Post-partum infections. Pustules. Pyemia. Rheumatism. Rhus, poisoning. Scarletina. **Septicemia. Snake, bites.** Sore, throats. Struma. Syphilis. Tonsillitis. Typhoid, fever. Ulcers. **Vaccinations, effects. Wounds.**

HERBAL - Echi. is a blood and immune tonic. This well-known drug came to notice as "Meyers's Blood Purifier," the proprietor did not know the name of the drug used and sent a whole plant to Professors King and Lloyd of Cincinnati, who identified it as Echinacea angustifolia.

Echi. has long been used by herbalists in typhoid conditions, diphtheria, malignant scarlatina, carbuncles and boils. Also as a septic remedy in snake, animal or insect bites.

Dr. H. W. Felled noted in the Eclectic Medical Journal, that "if any single statement were to be made concerning the virtues of Echinacea it would read something like this: 'A corrector of the depravation of the body fluids' and even this does not sufficiently cover the ground."

Antiseptic, anti-fermentative and antizymotic. Tissue alterations as are exhibited in boils, carbuncles, abscesses or cellular glandular inflammations. Locally useful for cleansing and as an antiseptic wash for wounds (Calen.).

Potency is not well proven, so it is used primarily in tincture to stimulate the immune system. Homeopaths have generally followed the herbalists in using substantial doses of the tincture (5 to 40 drops), adjusted to the particulars of the case.

HOMEOPATHIC-Bloodpoisoning or weak blood. Septicemia from a cut or wound, or after surgery (Pyrog.). Acute auto-infection, **septic conditions, bites of poisonous animals, lymphangitis.** Tendency to malignancy in acute and sub-acute disorders. **Gangrene** (Rhus-t., Ars.).

Snakebites, insect bites and stings. **Venomous infection.** Lymphatic inflammation, after crushing injuries. Foul discharges with emaciation and great debility. Cerebrospinal meningitis. Post-partum infections. Infections at the site of a vaccination.

Ear infections. Fetid ozaena. Recurring strep throat. Beneficial in some cases of leucorrhea with bright yellow discharge, as from a suppurating surface.

Boils, do not suppurate. Carbuncles, bluish-red color and intense pain. **Erysipelas** and foul ulcers. Goiter with exophthalmic symptoms. Pustules. Hemorrhoids. Diarrhea in typhoid. Gonorrhea.

Asthenia, adynamia. Weak and tired, aching in muscles. Weakness felt more in stomach, bowels, heart, in knees, with vertigo. Useful in the last stages of cancer to ease pain (Ars.).

MIND - Prostration of mind. Slowness in every action, speech, pace. Confused, cannot exert mind. Depressed or cross. **Brain fog and vertigo.** Very nervous could not study. **Aversion to thinking.** Does not wish to think or **study. Dullness from headache,** with cross, irritable feelings. Becomes angry when corrected, does not wish to be contradicted.

Abdomen - Abdomen tender, sensitive and tympanitic. Pain in right hypochondrium. **Appendicitis.** Pain about umbilicus, better

by bending double. **Cramping pain better passing flatus.** Sharp, cutting, pains coming and going suddenly. Full feeling with borborygmus.

Back - Chills up the back. Pain in back of neck. Dull pain in small of back over kidneys. Pain in lumbar region,

worse from stooping.

Chest - Pain as of a lump in chest and under sternum. Sharp, burning pain in sternum. Pain in pectoral muscles, diaphragm, right lung. Full feeling in upper part of lungs. Sore feeling.

Constitutions - Broken-down and weak constitutions.

Ears - Shooting pain in right ear.

Eyes - Brows twitch. Feel hot on closing them. Lachrymation from cold air. Sharp pains in eyes and temples. Pains back of right eye. Eyes pain on looking at an object and will fill with tears, better by closing them. Eyes ache when reading. Sleepy sensation in eyes, but cannot sleep.

Face - Bluish. Face flushed. Red flushes from pain in head. **Pale face with headache**, vomiting. Fine eruptions on forehead and cheeks. Neuralgic pain in left upper branch of fifth nerve. Numbness of lips.

Female - Discharges suppressed. Mucus from vagina in evening. Excoriating leucorrhea. **Puerperal septicemia**. Pain in right iliac region, which seems deep, lasting but a short time.

Food - Loss of appetite. Nausea, could not eat. **Desire cold drinks**. Desire for cold water.

Head - Headaches with a peculiar, periodical flushing of the face, dizziness and profound prostration.

Enlarged sensation in brain. Sharp pain deep in brain, seems too large. **Fullness in temples**. Pain in temples on motion. Pulsating headache. Throbbing through the temples. Hot burning forehead. **Dullness in head** with cross, irritable feeling. Pain in forehead on sneezing (Nat-m.). Headache over eyes with sneezing.

Heart - Anxiety about the heart. Increasing but variable pulse. Rapid beating of heart. Slight pain over heart. Stitching pain in left chest (apex of heart). **Tongue, lips and**

Echinacea angustifolia fauces tingle with sense of fear about heart (Aeon.). Accelerated full pulse.

Kidneys - Desire for frequent urination. Involuntary urination. Albuminous, scanty, dark urine. Urine increased, pale and copious. Sense of heat while passing urine. Pain and burning on urination.

Limbs - Rheumatic pain after tonsillitis. **Aching in limbs** and general lassitude, weakness. Pain between shoulders, which extends to axilla and down the arms. Sharp pain in left elbow. Pain in wrists and fingers. Pain in right thumb. Cold hands and feet. Hands are alternately numb or restless, on awakening. Chilliness in right leg. Left hip and knee pains. Pain in right leg.

Liver - Hepatitis. As if a load in back part of liver.

Lungs - Pain as of a lump under the sternum. Burning under the left scapula.

Male - Seminal emissions. Soreness, pain in perineum. Perineum seems stretched. Pain in right spermatic cord. Testicles drawn up and sore. Pain in meatus while urinating.

Modalities - Better from lying down. Better rest. Pains come and go suddenly and are better by bending double. Worse after physical or mental exertion. Worse injury, operations. Worse cold air. Worse evening. Worse after eating.

Mouth - Biting, tingling on lips. Corners of mouth and lips crack. Canker sores. Aphthae. Gums recede and bleed easily. Dry sensation in back part of mouth. Metallic taste. Bad taste in the mouth in the morning. Burning, peppery taste when taking remedy. Promotes the flow of saliva.

Nose - Stuffiness of nostrils with mucus in sinuses and pharynx. Foul smelling discharge, membranous formations protruding. Post-nasal catarrh with ulceration and fetor. Nose feels stuffed up. Right nostril raw, bleeding. Nostrils sore.

Perspiration - Sweat chiefly on upper part of body. Sweats on forehead.

Rectum - Gripping pains followed by passing offensive flatus or a loose yellowish stool, producing great exhaustion. Diarrhea following pain in stomach, going through bowels. Blood flows after stools.

Skin - Dry skin. Intense itching and burning of skin on neck. **Blackness of external parts**. Little papules on skin with redness, feeling like nettles. Small red pimples on neck and face. Recurring boils. Carbuncles. Irritations from insect bites and poisonous plants. **Dissecting wounds**. Lymphatics enlarged. Gangrene. Old tibial ulcers.

Sleep - Drowsy, could not read, with yawning. **Sleepiness with confusion and weakness**. Sleep disturbed, wakes often. **Sleepiness after eating**. Dreams about difficulties, laborious or quarrelsome, about exciting things, about dead relations.

Stomach - Sense of something large and hard in stomach. Dull pain in stomach. Distension, eructations do not relieve (Chin.). Pain in stomach, going down through bowels, followed by diarrhea. Nausea with chilliness, better lying down. Sour, bloody vomit like coffee grounds. Nausea with eructation of gas. Sour belching, burning the throat, or tasteless. Heartburn.

Teeth - Teeth sensitive to draft of air. Darting pains in the teeth, worse on right side. Neuralgic pains in superior and inferior maxilla. Dull aching of the teeth.

Temperature - Irregular, chills, rise of temperature and sweat. **Chilliness with nausea**. Cold flashes all over

back. Chill in left occiput. Temperature raised a degree with flushed face and fullness of head. **Malarial fever.**

Throat - Sore throat, worse left side. Ulcerated sore throat. Mucus in throat with raw sensation. Constant clearing of mucus from throat. Frothy mucus, hawked from throat. Tonsillitis. Tonsils purple or black, gray exudation extending to posterior sinuses and air-passages. Irritation of larynx. Voice husky.

Tongue - Tongue dry and swollen, sores, dirty brownish. White coating of tongue with red edges. **Tongue, lips and fauces tingle** with sense of fear about heart (Aeon.). Slight burning of tongue. Tongue, numb, with a peppery taste.

Vertigo - Vertigo with weakness, dizziness

Echinacea angustifolia and profound prostration. Vertigo when changing position of head.

COMMENTS - J. C. Fahnestock extensively proved the remedy, and additional symptoms were contributed by T. C. Duncan. With one exception the provers were males.

The first symptom noticed was a biting, tingling sensation on the tongue, lips and fauces (Aeon.), with a sense of fear and pain about the heart. Febrile symptoms, full head, flushed face and accelerated pulse followed.

Languor was experienced by many provers, and neuralgic, sharp, darting, shifting pains. Marked drowsiness. Catarrh of the digestive and respiratory tracts. Gripping pains, offensive flatulence and loose, yellowish stool.

In two provers there was found a diminution of red blood corpuscles after the proving. Chilliness (coldness of right leg) and sensitiveness to cold, worse from exposure to cold air.

A remarkable case of vaccination poisoning is recorded in a man, 45, cured mainly by Echi. in 20-drop doses. The symptoms included an ebbing vitality. He became so weak he could not sit up, his hair fell out, and an eruption of psoriasis appeared on his limbs that extended to his body.

The disease advanced rapidly, the nails fell off. Left iritis supervened and then keratitis of the right eye. Under Kali-i. and phosphoalbumen as a food, the hair ceased to fall out, but other symptoms became rapidly worse. Echi. was now given, and slowly the disease was arrested, then gradual improvement and an ultimate cure ensued. The report does not mention if the patient recovered sight in the left eye.

RELATIONS - Compare: (1) Cench. Both. Ars., Lach., Bapt., Rhus-t., Cistus, Hepar. (2) the vulnerary Composites, Arn., Calen., and Bell-p. (3) The closest analog is Bapt. (4) In snakebites it compares with Lobelia purpurea-scens. (5) in boils with Anthr. (6) Head feels enlarged, Arg-n., Bapt., Bov., Glon., Nux-v. Mosch., Nux-v. (7) Cases of Rhus-poisoning have been cured with Echin. a.

***ECHINACEA PURPUREA

(Black Sampson)

PHARMACY - echi-p. Echinacea purpurea. Black Sampson. N. O. Composite. Eastern States of America. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Boils. Carbuncles. Diphtheria. Fatigue. **Furuncles.** Impetigo. Putrid fevers. Pyemia. Scarlatina. Septicemia. Suppuration. Vaccination, effects. Wounds.

HERBAL - Echinacea purpurea is a popular remedy in the eastern states because it has been used in place of Echi. Echi-p. has probably a very similar action and the root causes the same pungent sensation on lips and tongue as the tincture of Echi.

HOMEOPATHIC - Echi-p. treats changes in the blood, simulating typhoid, pyemia, diphtheria, scarlatina, septicemia, and the effects of vaccination (Thuja.). Tendency to suppuration. Offensive discharges (Arn., Bapt.). Biting, tingling sensations.

Listless feeling, worse evening. High fever and flushed face (Bapt., Bell.). Marked chilliness. The black root has been taken as a **“signature”** of the remedy in cases of low fevers where a black tongue was observed.

MIND - Mental confusion. Tired, drowsy. **Fever -** High fever, with fatigue. Typhoid fever. Low fevers where a black tongue was observed.

Modalities - Better from rest in bed. Better pressure. Better bending double. Worse in the evening. Worse stooping.

Skin - Infected wounds. Lacerated wounds. Impetigo. Dry skin. Boils, carbuncles and **furuncles.**

COMMENTS - George Royal wrote of his experiences with Echi-p. He used it for **furuncles** with a dry skin. Small boils (“catboils”), very sensitive and seemed to come in crops, more about the neck and shoulders. Carbuncles with profuse sanguino-purulent discharge, marked large sloughing, coming in crops mostly about the neck, sometimes on perineum.

Royal would usually give such patients

Echinacea purpurea five drops of the 1st every three hours and apply a hot solution of 1 part of the tincture to 9 of water; changing the application often. He noted that it could be used in a similar manner to treat bruised or lacerated wounds.

It cured a case of a strumous, young bricklayer whose hand and fingers were to be amputated because of symptoms of sepsis (i. e., enlargement of the glands under the arms and temperature).

Echinacea 1c internally and tincture locally checked the sepsis and saved the fingers. In this case the skin and muscles were brought as nearly as possible to normal position and the Echinacea applied and changed every hour for 48 hours.

Royal used it successfully, only once, for suppurative appendicitis, i.e., after pus had formed and evacuated into the intestines. Merc, and Hepar had both failed to heal but Echinacea 1c, five drops every night and morning for three weeks, cured.

Used with success in recurring attacks of chronic inflammation about the cecum, and in a few cases of typhoid when the tired feeling was the ranking symptom.

RELATIONS - Compare: Echi., Bapt., Pyrogen.

REFERENCES - Clarke. Royal.

***ELAEIS GUINEENSIS

(Palm Oil)

PHARMACY - elae. Elaeis guineensis. Palm oil. Aouara. Avoira. N. O. Palmaceae. Triturations of the fruit.

Historical dose: Trituration and all potencies.

CLINICAL - Diarrhea. Elephantiasis, arabum. Gastric, disorders. Headaches. Leprosy. Scleroderma. Sight, defective. Skin, disorders. Sore, throat.

HOMEOPATHIC - Elae. was proved by Mure. Notable symptoms of leprosy and of scleroderma appear in the provings including anesthesia, and swelling and hardening of the skin.

Aching, lancinations, burning, bruised and throbbing pains. Sensation as if a peg stuck in false ribs. Swelling of parts.

The greatest number of symptoms appeared on the lower limbs and skin.

MIND - Merry mood. Disobedient.

Abdomen - Colic after a cold drink. Pain with bruised sensation in abdomen.

Chest - Pain in middle of chest as if pricked by needles. Lancinations every five minutes in right chest.

Eyes - Swelling of eyes. Unable to look steadily at an object. Sight weak, confused vision by candlelight. He makes letters much too large.

Kidneys - White urine.

Limbs - Staggering gait. Weakness of legs. Swelling of right leg. Throbbing in calves. Hammering in tibia, nape of neck and right foot. Soreness of soles of feet when walking and when touched. Swelling of left arm. Beating in left arm. Insensibility of head to heat, but an hour after he feels it badly.

Lungs - Breathing embarrassed. Pricking in larynx on breathing. Cough with lancination in sides.

Modalities - Better from rest. Worse from cold drinks. Colic worse from descending stairs. Lancinations worse from deep breathing.

Mouth - Burning in tongue, has to stop eating. Bad odor from mouth.

Neck - Constrictive pains around neck as if from tight string. Throbbing in nape.

Rectum - Frequent diarrhea. Black stools. **Skin** - Skin seems thicker. Swelling, roughness and itching of skin on left leg. Small vesicles appear on swollen right leg and left arm and on other parts without swelling. Itching all over, preventing sleep.

Stomach - Foul belchings. Vomiting of a cake immediately after eating it.

Throat - Lancinations in throat when swallowing, stinging when swallowing saliva.

RELATIONS - Compare: (1) Anae., Rhus-t. **REFERENCES** - Clarke.

***ELAPS CORALLINUS

(Brazilian Coral snake)

PHARMACY - elaps. Elaps corallinus. Brazilian coral snake. Micrurus frontalis. Micrurus corallinus. N. O. Elapidae. Poison pressed from the venom-sac of the living snake and triturated with sugar of milk. **Historical dose:** All potencies.

CLINICAL - Acidity. Amaurosis. Axilla, itching. **Black, discharges.** Cancer. Deafness. Ear disorders. Ear, **wm.Hemorrhages.** Headache. Hemiplegia. Knee, pain in. Metrorrhagia. **Nasal, catarrh.** Naso-pharyngitis. Nosebleed. Ozaena. **Paralysis.** Pneumonia. Throat, ulcerated. Tuberculosis.

HOMEOPATHIC - Like other snake poisons, the poison of the coral snake disorganizes the blood, producing **black discharges**, especially hemorrhages. Characteristic pre-eminent blackness of its discharges and hemorrhages. Sensation as if all the blood were collected in head. Black earwax.

Adynamic sepsis. Spasms, then paralysis. Oscillatory movements. **Right-sided paralysis.** The right side feels

weak insensible or even paralyzed. Must have oscillatory motion. Sensation of **internal coldness**. Twisting sensation. As of a heavy load or weight on the affected part.

Sudden pain in stomach. **Cold feeling in stomach**. Acidity of stomach with faint feeling. Spasm of esophagus, pharynx constricted, food and liquids suddenly arrested and then fall heavily into stomach. Spasms followed by paresis.

Cold things disagree. Fruit and cold drinks lie like ice on stomach and cause a cold feeling in chest. Desire for sweetened buttermilk. Nausea and vomiting. The prostrating diarrhea of tuberculosis.

Ear, nose and throat symptoms. Sudden deafness at night with roaring and cracking in ear. Mucus membranes wrinkled. Dreams of dead people. Shuddering from least contradiction, with pricking.

MIND - Depressed. Absorbed, buried in thoughts in daytime. Absent minded. Angry about one's self, does not wish to be spoken to. Desire to strike. Shuddering from least contradiction. Can speak, but cannot understand speech. Imagines he hears someone talking.

Fear as if something horrible might happen. **Fear of the rain**. Never feels happy in wet weather. Fear of having a stroke. **Fear of getting a fatal disease**. Fear being left alone. Fear causes chattering of the teeth and trembling.

Aversion to company. Avoids the sight of people, wants to get into the country away from people. Desire to travel. **Hysteria before menses**. Taciturn during menses. Playful. Delusion he is being beaten. Delusion he is falling forward. Delusion of being injured.

Abdomen - Colic with urging to stool. Bowels feel twisted together in a knot. Painful pressure in right side of liver. Lancinating pain from both groins to symphysis pubis.

Back - Stiffness in the right side of neck. Lancinations in left side of neck. Lancinations in the whole Spinal marrow from occiput to sacrum. Pressure between the shoulders. Coldness in back. Pain in the back with chilliness, cold feet and strangury.

Chest - Oppression of chest on going upstairs. Feeling of a heavy load on chest. **Coldness in chest after drinking**. Itching eruption in axilla. Rush of blood to chest in morning. **Sharp pain and soreness to touch across chest**. Soreness from right to left axilla

Constitutions - Rheumatic constitutions.

Ears - Crusty eruption on ear. Earwax. **black** and hard with difficult hearing. Offensive, serous **greenish** discharge. Intolerable itching in ear. Otorrhea. **Watery, yellow or yellow-green discharge with deafness**. Sudden attack of nightly deafness with roaring and crackling in ears. Cracking in ears on swallowing. **Buzzing noise**. Illusions of hearing.

Eyes - Eyes red and inflamed. Watery eyes. Eyes look glassy. Sty on left eye, with lancinating pain. Bloated around the eyes

Elaps corallinus in the morning. Burning and dryness in both eyes on waking. Burning in lids. **Eyeballs feel sticky under lids**. Violent itching in left eye. Aversion to light, desire to close eyes.

Face - Bloated around eyes in morning. Red spots on face. Red blotches on bloated face. Dull, yellowish color. Crusty eruption on cheek. Redness and swelling of right cheek. Swelling of face.

Female - Itching of vulva and vagina. Dysmenorrhea with a flow of black blood. Discharge of black blood between menses. Sensation as if something burst in the womb, then continuous stream of dark colored blood, better when urinating. Itching of vulva and vagina. Weight at uterus and vagina after an hysterical attack.

Food - Canine hunger, yet unable to eat. Acidity after every mouthful. Aversion to meat. Aversion to bananas. Desire for ice. Desires milk, whipping-cream. Desire for sweetened buttermilk. Desires sweets. Desires salads. **Cold drinks and fruit feel like ice in stomach, and cause coldness in chest**. Worse fruits. Thirst during fever.

Head - Congestion of blood to head on stooping. Violent headache, extending from **forehead to occiput**. Headache pain in one eye, then the other. Fullness in head. Rushes of blood to the head. **Pain in occiput, worse mental exertion**. Weight and pain in forehead. Lancinating pain, left then right side. **Severe sharp pain in forehead, with heaviness of head**. Stinging pain with sleeplessness.

Heart - Sensation of laceration in region of heart. Palpitations with anxiety and trembling of hands.

Kidneys - Urine red. **Discharge of mucus from urethra**. Red urine with cloudy sediment. Thick urine with red sediment. Suppression of urine. Strangury.

Limbs - Soreness of limbs worse at night. Arms weak. Arms and hands swollen bluish. Pricking under the nails. Skin peeling off on palms and finger tips. Vesicular eruptions on feet. Icy cold feet. Knee joints feel sprained.

Lungs - Air hunger. Pneumonia. Each inspiration causes a crackling sound in lungs. **Cough with terrible pain through lungs**. Hemoptysis. Hemorrhage from lungs, black as ink and watery. **Sharp pain in apex of lungs**, better walking. Stitches in apex of right lung. Sharp pain in left side of chest, worse breathing. Lungs

feel forcibly separated. Worse right lung and expectoration of black blood.

Modalities - Better from rest. Better lying on abdomen. Walking relieves nosebleed, pain in abdomen and chest. **Worse cold drinks, food, air.** Worse drafts, wind. Worse night. **Worse wet weather.** Worse dampness. **Worse approach of storms.** Worse exertion. Worse touch. Worse warmth of bed. **Cold things disagree.**

Nose - Coryza from least draft of air. White and watery nasal discharge. Mucus membrane wrinkled. **Chronic nasal catarrh with fetid odor and greenish crusts.** Ozaena with a yellowish-green discharge. Nostrils plugged up with dry mucus. **Nosebleeds, black like ink** after a blow. Sudden, profuse nosebleed while walking. Pain at root of nose. Pains from nose to ears on swallowing. Eruptions about nose. Sneezing at night.

Perspiration - Sweats on forehead and neck. Profuse sweat. Cold perspiration all over.

Rectum - Constipation. Constriction of sphincter after bloody stools. Cholera. Diarrhea, copious liquid stools, watery, frothy. Diarrhea of an olive green color. Stools of black, frothy blood. Prolapsed anus. Formication at anus as from worms.

Skin - **Skin hot, dry.** Glands and skin of axilla affected. Itching with tetter, eruptions. Yellow spots on hands and fingers. Small blisters, on limbs. Fingertips peel off. Red pimples on fingertips. Little pimples, followed by desquamation. Typhoid when ulcers have eaten into tissues and black blood is discharged.

Sleep - Drowsy all day, no sleep at night. Sleeplessness from sharp headache. Bites hand during sleep. Dreams of business. Dreams of dead people.

Stomach - **Stomach feels cold.** Sensation as if food turned like corkscrew on swallowing. Burning in stomach. Acidity after every mouthful. Sinking, faint feeling in stomach. **Pain in stomach better lying on abdomen.** Paralysis of esophagus. Sensation of a sponge in esophagus. Spasmodic contractions of esophagus and pharynx, food and liquids are suddenly arrested and then fall heavily into the stomach. Sour eructations. Vomiting followed by diarrhea. Vomiting of mucus. Vomiting of green bile.

Temperature - Terrible coldness after drinking, as if ice water were rising and falling through left lung. **Feels cold, cold things disagree.** Shivering after cold drinks. Coldness in back. Shaking chill, felt internally as if in bones. Dry heat and burning redness of face. Skin hot, dry, but complains of feeling cold. Fever with thirst. Heat alternating with chill. Heat flushes, in evening.

Throat - Tonsils swollen. Sides of throat sore to touch. **Red blotches in throat.** Painful, difficult swallowing of solids and liquids. Pressure pain in throat. Thick, very offensive, dry, greenish-yellow crusts upon the posterior pharyngeal wall and extremely foul breath. Ulceration of throat, worse left side.

Vertigo - Fainting caused by stooping. Vertigo with tendency to fall forward. Faints with vomiting or on stooping.

Vision - Letters run together when reading. Veil before eyes. Large red fiery spots before eyes. Red bar before eyes when opening them. Dirty red spot before eyes. Black rings before eyes (left).

COMMENTS - Rumbling in ears as of thunder. Sensation in brain as if shaken. Sensation as if food turned like a corkscrew on swallowing, as if intestines were twisted by a cord and strung together in a knot. Fluids roll audibly into stomach.

Marked pains in the lungs (especially right). Sensation within chest and at sternum as if pleura were pulled off and the lungs violently drawn apart. Sensation as if a heavy load, iron bar or weight on parts. Marked periodicity. Affects the glands and skin of axilla. Clarke cured with Elaps. 200c a very old- standing case of irritating rash in axilla, (right) with recurrent suppuration of axillary glands.

E. V. Moffatt found Elaps 6c almost a specific in chronic naso-pharyngeal catarrh with greenish crusts and subjective disagreeable odor.

RELATIONS - Antidoted by: Radiated heat, Alcohol, Ars. **Compare: (1)** Dr. Higgins used the gallbladder of the coral snake, *Fei Elapidis Corallini*. (2) Ars., Carb-v., Crot-h., Lach., Mur- ac., Nit-ac., Rhus-t. (3) red spot before sight, Dub., (4) effects of cold, wet weather, Dulc. (5) Eucal. rostrata - offensive dark discharge from right ear. (6) Crot-h., Alum., Carb-v., Ars., Lach.

***ELATERIUM OFFICINARUM

(Squirting Cucumber)

PHARMACY - elat. *Elaterium officinarum*. Squirting cucumber. *Ecballium elaterium*. *Momordica elaterium*. N. O. Cucurbitaceae. Tincture of unripe fruit. Trituration of *Elat- erinum*. **Historical dose:** Trituration and all potencies.

CLINICAL - Abscesses. **Beriberi** Bilious, fever. Bladder, disorders. Boils. **Cholera.** Colic. **Cramps.** **Diarrhea.** Dropsy. Dysentery. Erysipelas. Intermittent, fever. Jaundice. Liver, disorders. Measles. Nettle rash. Neuralgias. Rheumatism. Sciatica. Scurvy. **Vomiting. Yawning.**

HOMEOPATHIC - Characteristic explosion, as how the ripe fruit scatters its seeds. Profuse watery stools,

coming out with a gush. Violent vomiting and purging with copious forceful watery, olive green, bilious or frothy evacuations.

Dull, olive-green discharges and frothy stools. **Cholera**, cholera and infantile diarrhea. Jaundice of newborns, with bilious stools, urine staining the diaper.

Causes tissues to drain of their watery contents. Used in the absorption of dropsical fluids, minute doses will often affect this. Promotes the opening of abscesses and boils.

Elaterium officinarum Urticaria, better rubbing.

Chilliness with much yawning and stretching. Gaping and yawning, with fever before the chill or before the chill of cholera. Yawning throughout the chill. For the effects of damp weather or standing on damp ground, worse by damp. Irresistible desire to wander from home to home.

MIND - Depression of spirits. Fear of some approaching disaster. Mental disorders coming on as a consequence of suppressed malaria. Desire to leave home. Irresistible desire to wander from home at night.

Abdomen - Abdomen retracted. Feeling of stricture or oppression at the epigastrium. Dull pain in the epigastrium. Dull pain in the right of hypochondrium. Cutting, griping pains in the bowels. Rumbling of flatus in the course of the cecum and colon.

Back - Pains in the left sterno-mastoideus muscle, near its insertion into the sternum. Pains under the right shoulder blade. Sticking pains in the lumbar region. Aching pain in the region of the left kidney.

Causations - Effects of damp weather.

Chest - Sharp pains at the lower part of the sternum, passing through to the spine.

Ears - Sticking pain near the rim of the cartilage of left ear.

Eyes - Sticking, as of a splinter, in the inner canthus of left eye.

Food - Loss of appetite.

Head - Confusion of the head, followed by headache. Violent headache with sensation of constriction of the temples and forehead. Dull pain, pain in the temples.

Kidneys - Increased flow of limpid urine.

Limbs - Arthritic nodules. Pain in limbs, darting into fingers and toes. Pain extends down limbs, pain in hip joints with diarrhea. Shooting, also dull aching pains in the course of left sciatic nerve to the instep and toes. Sharp pains in fingers and thumbs, knees, toes and instep. Gouty pain in great toes.

Modalities - Worse from damp weather. Worse standing on damp ground.

Mouth - Tongue coated with a dirty-brown fur. Bitter taste in the mouth, with salivation. Unpleasant smell to the breath.

Nose - Nosebleed.

Rectum - Bleeding hemorrhoids. Soreness of the anus. Discharges from the bowels of frothy water, coming out with a gush. Stools are **watery, copious, forceful. Squirting diarrhea**, frothy, dull, olive green with cutting in abdomen.

Sensations - As if a splinter in left eye. As if posterior sinuses and upper part of esophagus were enlarged.

Skin - Dropsical. Orange-colored skin. Smarts, stings and burns. Urticaria from suppressed intermittent.

Sleep - Incessant gaping. Much yawning and stretching.

Stomach - Pain in the pit of the stomach. Griping pains in bowels. Belching of gas. Nausea and vomiting with great weakness. Vomiting a dark brown fluid mixed with food.

Temperature - Chill comes on with much **yawning and stretching**, lasting all through chill. Chills and fever with spurting diarrhea. Perspiration relieves all the symptoms. If the intermittent fever is suppressed, urticaria break out all over the body.

Throat - Pain in the back of the throat, as if scalded. Scraping in the throat. A feeling as if the choana and upper part of the esophagus were enlarged.

COMMENTS - According to Cooper, Beriberi has been greatly helped by Elat. Used with good effect in scurvy where gushing diarrhea is a marked symptom.

RELATIONS - Compare: (1) Crot-t., Gamb.

(2) Bry. and Coloc. (sciatica)., Verat. (neuralgia), Colch., Crot-t., Verat. - choleraic affections, Sec. - olive green diarrhea., Canth. - dysenteric diarrhea with painful urination.

(3) Apis, Hep., Ign., Rhus-t. - urticaria during intermittent fever.

REFERENCES - Boericke. Clarke. Phatak.

***ELECTRICITAS

(Electricity)

PHARMACY - electr. Electricitas. Electricity. Potencies are made from sugar of milk saturated with the current.

Historical dose: Tincture and all potencies.

CLINICAL - Chorea. Headaches. Hysteria. Paralysis. Rheumatism.

HOMEOPATHIC - While Caspari is the authority for the symptoms caused by electricity, the powerful effect exercised on some by the approach of a thunderstorm and the influence of an electric current is well known. In those who have been electrified, there is shaking of the whole body, commencing in the maxillary bones, tingling in the parts electrified, and violent burning. Effects of atmospheric electricity and static electricity. Dreads approach of thunderstorms.

General relaxation, sometimes with moral depression and headache. Anxiety, nervous tremors, restlessness, palpitations. Relaxation of the nerves and muscles. Lassitude and stiffness of the limbs. Heaviness of limbs, swelling of parts. Heat in the whole body.

Loss of the weight of the body, weakness of the parts shaken. Dragging sensations in all the limbs, as far as the ends of the fingers and toes, nocturnal shootings in parts that are paralyzed. St. Vitus' dance. Epileptic fits hastened and aggravated.

MIND - Intense nervous anxiety. Nervous tremors. Restlessness, anxiety and anguish. ***Fear on the approach of a thunderstorm.*** Anxiety, restlessness with palpitations and headaches. Internal anguish. Violent agitation. Timidity. Sighs and screams through nervous fear. Weeps in paroxysms.

General depression after a meal. Depression and weariness, sometimes with giddiness or drowsiness. Ill-humor. Furor. Errors in the perception of time. Loss of memory. Involuntary laughter. Insensibility, foolish actions. Loss of consciousness.

Abdomen - Spasmodic tension and contraction in the abdomen. Aching in the abdomen. Colic. Cutting pains, on the approach of a storm, or with diarrhea. Darting pains from left to right side. Shivering in the abdomen or else burning, sometimes with tension. Inflation of the abdomen, borborygmi in the abdomen, sometimes with fermentation.

Back - Difficulty in moving the neck. Tingling in a muscle shortened by suppuration. Tingling in the vertebral column. Darting pains in an enlarged gland of the neck. Furunculi on the back and nape of the neck. Drawing pains across the shoulder blades, as by a thread. Burning in the shoulder.

Chest - Constriction of the chest. Pains in the chest, sensation of coldness in the left side. Chest and shoulders feel like marble.

Ears - Pains in the ear. Drawing pains from the jaws to the ears. Lancinations in right ear, proceeding from the neck. Pulsations in the ear. Redness and heat of the ear. Swelling of the interior of the ear. Suppuration and a small pustule in the auditory duct. Vesicles full of acrid serum behind the ear. Augmented secretion of wax. Murmuring, sometimes with a sensation as if a flock of wool were before the ears.

Eyes - Haggard eyes. Wandering and haggard looks. Gnawing sensation in left eye or violent drawing pains, extending to forehead. Sensation as if the eyes were much sunken. Sensation as if something were passing out of the eye. Aching in the eyes, as from dryness. Redness of conjunctiva. Inflammation of the eyes. Swelling of edges of eyelids, at the external angle. Lachrymation, especially of right eye. Contraction of pupils, which were abnormally dilated.

Face - Bright red. Expression of terror. Increase of sweat on the face. Swelling of the face. Violent drawing pain above left eyebrow. Contraction of the muscles of the face, especially of the mouth. Scabby eruption on the face, on the arms and over the body. Eruption about the mouth and on the chin. Large blisters on the cheeks. Lips cracked, the upper lip puffed out.

Female - Copious menses, sometimes with pressure in the rectum. Black and thick blood of the menses. Appearance of the menses (in the electric bath).

Food - Increased appetite, great inclination to eat between meals. Thirst during febrile shivering.

Head - Pains in the head, sometimes drawing. Bruise-like pain in occiput. Crushing pressure in forehead, as from a stone. Shootings in right side of head or from vertex to the temple and right side of forehead. Tearings in the occiput from the nape of the neck to the forehead. Painful cramps in the head. Violent pulsations (beatings), or else heat throughout the head. Disagreeable shaking, most frequently from behind.

Heart - Palpitations, especially at the approach of a storm. Palpitations with fever, headache, or with restlessness and vivid redness of the face. Disposition to fall in syncope. Painful and rapid, sharp pain proceeding from the heart across the chest.

Kidneys - Sensations as though the bladder were going to burst. Augmented secretion of urine. Very frequent emission of urine. Involuntary emission of urine. Orangeyellow urine in the morning; during the day, like water in which meat has been washed. Urine thick, deep-colored, red like blood, abundantly charged with mucus. White sediment. Discharge of blood with the urine. Leucorrhea, at first serous, afterwards thick in pieces of the size of a hazelnut.

Limbs - Grievous pains in the limbs, pains in old wounds or in enfeebled bodies from a change of temperature.

Stiffness of the limbs. Paralysis, especially of the inferior limbs. Trembling of the limbs, chiefly of those which have been shaken, general trembling. Springing up of the tendons. Convulsions of the limbs.

Lungs - Respiration accelerated. Feeble and faint respiration. Respiration arrested. Dyspnea. Oppression of the chest. Asthma, with palpitations and disposition to syncope. Cough, with much tickling in throat, or pressure in forehead from within outwards. Short, irritable cough. Spitting of blood. Rough larynx.

Mouth - Great dryness of the mouth. Augmented secretion of saliva, foam at the mouth. Increased excoriation, painful, in the interior of right cheek. On the palate, vesicles with desquamation of the epidermis. Dumbness, inability to utter a sound.

Nose - Tingling or outward pressure in the nose. Sneezing. Augmented secretion of nasal mucus. Discharge, on blowing the nose of a liquid like milk, aggravation of preexisting coryza. Nosebleed. Loss of smell.

Perspiration - Increased perspiration. Excessive nocturnal sweat, in gouty persons without mitigation, with anxiety during a storm.

Rectum - Fruitless inclination. The stools are at first facilitated and afterwards restricted. Tenesmus and cutting pains. Violent pressure in the rectum during the stools. Burning in the anus. Hemorrhoidal flux.

Skin - Itching or tingling over the whole body. Eruption of small nodosities on the spots touched by electrical sparks, eruption like miliary or measles, white vesicles, itch-like eruption at the joints of carbuncles, which proceed to suppuration. The skin becomes black, wheals on the skin. Violent pains and swelling of one of the feet which had been frozen twelve years before.

Sleep - Great drowsiness. Yawning and stretching, sometimes with shuddering over the whole body. Profound sleep. Sleeplessness, with tossing, for long periods. Confused and disquieting dreams.

Stomach - Fullness of the stomach after eating the least thing. Loathing. Abundant saliva. Sour taste. Heartburn. Nausea, after a meal. Retching and vomiting with inflammation of throat and cough. Vomiting of blood.

Stool - Diarrhea, with colic, or at the approach of a storm. Diarrhea with retraction of the testicles, constriction in anus with dry stools after diarrhea. Frequent stools, liquid, hot, black, yellow and fetid.

Teeth - Tearing pains in upper teeth, proceeding from the head. Drawings in the gums, proceeding from right ear. Quick, darting pain, as of subcutaneous ulceration, in places once occupied by molar teeth. Quick growth of the teeth in children.

Throat - Constant tickling in the throat. Pressure on swallowing. Difficult deglutition. Inflammation of the gullet.

Tongue - Sensitiveness of the tongue, at the point, which is also red. Papillae very prominent. Dry tongue, charged with a yellow coating. Swelling, thickness of the tongue. Vesicles on the tongue with excoriation pain.

Vertigo - Giddiness, especially on stooping. Confusion of head. Syncope and tendency to fall down.

Vision - Clouded vision. Objects all appear yellow to the sight. Everything appears pale. A dark room appears to be illuminated. Little black spots before right eye. Blindness. Sight improved (curative symptom).

COMMENTS - Dr. Seward related a number of cases in which the injudicious use of electric baths brought on tuberculosis. In another case, the chest and arms became stiff and paralyzed. A young married woman, who had general and local (uterine) electric treatment, complained after it of feeling very heavy, as if she weighed a ton.

One patient after a bath, said his chest and shoulders "felt like marble." He became tubercular and died. The paralysis caused by electricity was in several cases quickly relieved by Morph-acet., both in the solution and in the potencies.

RELATIONS - Antidoted by: Morph-acet. Electr. antidotes Merc. **Compare:** (1) Phos. is the best antidote to the effects of storms. (2) Rhod. is worse before a storm. (3) Galvanismus and Magnetismus.

REFERENCES - Clarke.

***ELM

(Bach Flower Essence)

PHARMACY - elm-b. Elm. *Ulmus procera*. Boil twigs and blossoms for half an hour, strain the water and use as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Elm belongs to Bach's group of **Despondency and Despair**, along with Crb-a-b., Oak-b., Will-b., Star-b-b., Sw-ch-b., Pine-b. and Lar-b. The group deals with states of oppressive, burdening hardship. Tendency to exhaustion in mind, emotions and body. Listlessness and lethargy. Unresolved, overwhelming conflicts or over work leading to the formation of chronic diseases (Wh-ch-b.).

MIND - High expectations for self. Strong sense of duty. Difficulty planning. Overwhelmed by duty. Feeling of being lost in details, lack of progress. Anxiety over future challenges or duties. Dread, anxiety, intimidation.

Internal exhaustion, feelings of inadequacy. Disillusionment and despair. Sadness over unrealistic goals.

REFERENCES - Bach.

*****EMBELIA RIBES**

(Krimighna)

PHARMACY - emb. Embelia ribes. Krimighna. N. O. Myrsineae. The medicine was prepared from the seeds.

Historical dose: All potencies.

CLINICAL-Constipation. Diarrhea. Dyspepsia. Flatulence. Indigestion. Rheumatism. Worms.

HERBAL - The pulp is purgative. The fresh juice is cooling, diuretic and laxative. The fruit is carminative, anthelmintic, alternative and stimulant. It is employed in habitual constipation of children and in acute capillary bronchitis. As a carminative the fruit is given dyspepsia and flatulence. As an alternative in skin diseases and rheumatism. If taken

for a long time, it is found to turn the urine acid and red. (R. N. Khory : Materia Medica of India, Vol. II, p. 426.). Charaka states that it is a grand medicine to kill worms. It is also called Krimighna which literally means killer of worms. Su- shruta says it is good for piles and worms. If it be regularly used in special seasons it will increase longevity.

The seeds of this plant are used as an anthelmintic. Powdered seeds in doses of one to two drams are administered with sugar or honey in an empty stomach to expel tape worms. (R. N. Chopra: Indigenous Drugs of India, p. 577.)

Clinically it is very useful in diseases of children associated with or proceeding from worms. It is a grand medicine in diarrhea, dyspepsia and flatulence owing to worms.

If Nux vomica, cina, santonine and other remedies for worms be ineffective, Embelia ribes will be found to be a sovereign remedy in those complaints. In this new remedy, the urine becomes pungent and blood colored and this is one of the characteristic symptoms for the administration of this remedy.

Other symptoms are fretfulness, moroseness and irritability of the patient. Grinding of the teeth. Patient always picks his nose. Tongue is dry, nausea exists. The abdomen gets distended. Stools are undigested. Urine is blood colored and pungent. Patient shrieks during sleep. Itching in the rectum, itching in the nose, and worms come out with the stool.

HOMEOPATHIC - Name of the Prover - Babu sris Chandra Ghose, age 28, of robust physique and of excellent health.

MIND - Became morose. The prover became fretful and irritable.

Nose - Itching sensation was felt in both the nostrils.

Rectum - Itching sensation was felt in the rectum. Large number of worms came out of the rectum and was expelled with the stool. Passed three undigested stools in quick succession. Worms were expelled with the stools.

Stomach - There was distension of the stomach.

Urine - Urine became red colored and strong smelling.

COMMENTS - Case 1 - The son of Babu sris Ch. Roy, B. A., was suffering from remittent fever continued with unabated fury for six days without any remission.

I was called in to treat the son, aged 6 years, on the 6th March. 1931. I continued to treat the boy with Gelsemium and Bryonia for four days, but unfortunately no improvement took place.

10th March - I went to see the boy this morning and gathered the following symptoms:

The patient was morose and fretful. Patient always picked his nose. Tongue was dry. There was terrible nausea. Abdomen was greatly distended. Passed undigested stools. Urine red colored and pungent. The boy was found to shriek out during sleep. Fever in the morning it was found to be 101° and it generally rose up to 103° in the evening.

I gave Cina 20 and 200 for two days on account of the predominance of worm symptoms. Cina did no good.

At last I gave him Embelia ribes 1 x thrice on the 12th March. It acted very nicely to bring down the temperature to 99° in the morning next day.

13th March - At 11 a.m. temperature rose, but again fell down to 99° at 4 a.m. on that day and complete remission took place at eleven PM

14th March - There was no fever. Urine was clear, fretfulness was gone, there was no distension of abdomen, no loose stools passed and the patient was cured within 3 days. All along these days he took 2 doses of the new remedy. And since that time the patient did not suffer from worm troubles any more.

Case 2 - The daughter of Babu Ram Ratan Chatterjee, B. L., aged 4 years, suffered off and on from worm troubles. Ordinary homeopathic remedies were given by a homeopath, but there was no perceptible improvement. I was sent for on the 2nd November, 1932.

I marked the following symptoms: The child was ill-humored and restless. There was great hunger soon after a meal. Could not be quieted by any persuasion. The patient always bored her finger into the nose. The abdomen was distended. Always disturbed sleep. Loose stool with undigested particles of food. Grinding of teeth. Blood colored urine.

As the above were clear-cut symptoms of the presence of worms in the system, I prescribed *Embelia ribes* 1x twice daily. After using this remedy for a fortnight, the patient was perfectly cured.

I prescribed this new drug in 1 x potency in several cases suffering from worm troubles and I am glad to say that all of those patients were radically cured.

REFERENCES - Ghose.

***EMERALD

(Gemstone)

PHARMACY -emer. Emerald. Gemstone. Triturations. **Historical dose:** All potencies.

CLINICAL - Allergies. Alzheimer's, disease. Amenorrhea. Asthma. Cancer. Cataract. Chronic, fatigue. Dyslexia. Endometriosis. Epilepsy. Fainting. Glaucoma. Grief. Hemorrhages. Nursing, others. Senility. Stammering. Sycosis. Tinnitus. Trauma. Weakness.

HOMEOPATHIC - Useful for conditions of exhaustion and debility due to an overtaxed nervous system. Alzheimer's disease, senility. Epilepsy. After strokes and brain injuries. Encourages regeneration of nervous tissue.

Desire to sleep, to give up the struggle, for "all the problems to go away." Useful in desperate cases when the patient seems to be giving up. Feeling of being "not in the body," when the body has been so injured that it is no longer a wholly viable vehicle.

Chronic fatigue. Post traumatic stress, with disorientated. Weeps, especially at night, when alone. More cheerful during the day. Inhibition and lack of confidence. Allergy to peanuts.

MIND - Arrogance and haughtiness. Negative, bitter thoughts. Frustration. Resentment and bitterness from the past. Inability to forgive. Envy and jealousy. Hatred for those who have done well or better. Great negativity. Wakes with vengeful feelings.

Easily manipulated, or becomes manipulative. Addictive personalities, do not see the threat of their addiction, particularly in relationships. Fosters the strength to face deep issues that otherwise would lie buried.

Grief after sustained traumas or sadness. Rekindles imagination and intuition after emotional distress. Distracted and hard to concentrate. Calms the mind and improves memory.

Fearful accepting their fate. Indecisive and changeable. Mistakes and misinterprets meanings. Poor moral judgment. Encourages the id over the ego.

Back - Pain in the spine, especially after injuries. Tightness of the shoulders and cervical vertebrae. Lumbar and sacral areas are painful, worse menstrual problems.

Ears - Tinnitus comes and goes. Hardness of hearing.

Eyes - Glaucoma and cataract. Watering eyes when sneezing and laughing. Long or short sight becomes exaggerated.

Female - Uterine problems after grief or trauma. Endometriosis. Hemorrhages. Amenorrhea. Cancer of the uterus or the ovaries. History of frequent miscarriages. Useful for anxiety, weakness and debility during pregnancy. Useful for reducing the side effects upon ending hormone treatment.

Food - Poor assimilation of food.

Head - Headaches at night, worse left side. Light headed and dizzy. Stroke, affecting the left side of head and body.

Intestines - Bowel cancer, especially if it is secondary to cancer of the generative organs or from suppressed sycosis (i.e. polyps or warts).

Kidney - Kidney pains, worse right.

Limbs - Legs and feet very cold, but upper part and hands can be hot. Feels draft on the lower half of the body. Stiffness of the joints, especially hands and wrists.

Lungs - Difficulty breathing, worse night. Pressure on the chest, mediastinal region. Left side of chest most affected. Shallow breathing. Useful as a support or intercurrent remedy in asthma.

Heart - Sluggish circulation with cold extremities, especially the feet and lower legs, worse night. Can become too hot in the daytime.

Nose - Frequent need to blow nose, but little mucous.

Skin - Dryness of complaints, hot, burning itching (Apis.). Recurrent abscesses.

Stomach - Throat, esophagus and stomach all feel connected in discomfort (Ign., Nux-v.). Indigestion with painful trapped wind in the chest. Nausea, comes in waves. Better from limes and bitter fruit. Allergy to peanuts.

Unable to lose weight in spite of dieting.

Throat - Dryness of throat and mouth. Sensations of constriction and of lump in the throat. Allergies that cause swelling of the throat. Throat cancer.

COMMENTS - Syctic, syphilitic and tubercular. Useful in treating pathology (Cars.), especially for cancer of internal organs (given 30c or higher once a week). Cleanses the lymph system. Improves circulation. Useful to support the action of heart remedies (Carb-v., Ars., Phos., and the snake poisons). Angina, where indicated remedies do not work. For drainage in cancer and blood problems (in the x potencies).

x Radiation exposure. For emotional distress after general anesthetics. Mood or temperature swings.

Relates to the heart chakra. Encourages verbal expression of what would otherwise not be expressed due to grief (Nat-m., Aur., Lach., Caust.). Useful for deep grief. Works well when given repetition.

REFERENCES - Murphy.

***EMETINUM

(Emetine)

PHARMACY - emetin. Emetinum. Emetine. It is the principal alkaloid of Ipecac. In physiological doses must be carefully watched. **Historical dose:** Trituration and all potencies.

CLINICAL - **Amebiasis**. Colic. Diarrhea. Dysentery. Hematemesis. Hemorrhages. Pneumonia. Psoriasis. Pyorrhea.

HOMEOPATHIC - Emetin. is a powerful amebicide, but is not a bactericide. Specific for **amebiasis**. Useful for the treatment of amebic dysentery. Diarrhea with colic pains and nausea.

May produce hepatization of lungs, rapid heart action, and lobarpneumonia. Tendency to fall forward. Pyorrhea. Psoriasis.

RELATIONS - **Compare:** (1) In hematemesis and other hemorrhages, compare Gelin., which has a marked effect on the coagulability of the blood. Hypodermically or if by mouth, a 10 per cent, jelly, about 4 oz., three times a day.

REFERENCES - Boericke.

***EOSINUM

(Eosin)

PHARMACY-eos. Eosinum. Eosin. **dose:** Trituration and all potencies.

CLINICAL - Arthritis. Cancer. Vertigo.

HOMEOPATHIC - Proved in potencies by Dr.

B C. Woodbury. Eosin is a remedy for cancer. Polyarthritis. Peculiar sensation of being very tall with tendency to vertigo.

Burning in various parts on skin. Shifting location after scratching, which relieves. **Burning** under fingernails and toenails, on soles. **Itching** and redness of kneecaps. **Redness** of palms. Redness, burning and **numbness** of tongue.

REFERENCES - Boericke. Woodbury.

***EPHEDRA VULGARIS

(Ma Huang)

PHARMACY - ephe. Ephedra vulgaris. Ma huang. Ephedra distachya. N. O. Gnetaceae. Ephedraceae. Tincture of branches and flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Exophthalmic goiter. Headaches.

HOMEOPATHIC - Ephedra has been proved in Russia by Dr. B. H. Mouravow. Ephedra produced symptoms when twenty drops of a strong alcoholic extract were taken five times a day, fifteen drops four times a day were taken without apparent effect.

General weakness from early morning, great fatigue. Extreme apathy. Asthma. Stiff-neck and backward pulling of whole body on turning the head. Starting of the eyes from the orbits as if pushed out.

To Mouravow, these symptoms suggested exophthalmic goiter. He also considered that the remedy acted on the ganglions of the sympathetic nerve and caused congestion of the spinal cord.

MIND - Extreme apathy and fatigue.

Abdomen - Dull pain in region of spleen (Cean.).

Back - Stiffness of neck with exophthalmos. Stiffness of neck and backward pulling of all the body on turning head, with a dull pain in region of spleen.

Eyes - Heavy eyes. Pain in the eye. Starting from their orbits, as if pushed out.

Head - Violent headache, nausea, general weakness, with a slow pulse. Left side hemicrania with numbness

of entire left arm.

Heart - Abatement of the pulse, increases rapidity of action of heart. Strong heartbeat with weakening of pulse, respiration is accelerated.

Kidneys - Retention of the urine (fourth day).

Limbs - Heaviness in all the limbs, in evening. Numbness of entire left arm with left-side hemicrania.

Sleep - Longing for sleep.

RELATIONS - Compare: (1) Ferr., Iod., Lycopus v., Spong., (2) Thyroid. - exophthalmos.

REFERENCES Clarke.

***EPIGEA REPENS

(Gravel Weed)

PHARMACY - epig. Epigea repens. Gravel weed. Trailing arbutus. N. O. Ericaceae. Tincture of fresh leaves. The fresh leaves are pounded to a pulp and macerated in two parts by weight of **alcohol**, **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder, disorders. **Cystitis**. Dysuria. **Gravel**. Kidney, stones. Pyelitis. Stones, urinary. Strangury. **Uric acid**.

HERBAL - Epigea has long had a reputation in urinary difficulties and even in calculous disorders. The common appellation of "gravel root" shows that the popular belief points in the direction of its use.

Hale mentioned Epig. as having been a popular remedy in kidney stones throughout the United States ever since the settlement. It has been successful in removing dysuria and strangury as well as urinary tenesmus.

HOMEOPATHIC - Chronic cystitis with **dysuria**. Pyelitis with incontinence of urine. **Mucus, pus and uric acid deposit**, gravel, kidney stones. Fine sand in urine of a **brown color**. Burning in neck of bladder while urinating. Tenesmus after urination. Croaking noise and rumbling in bowels.

COMMENTS - Hale gave ten drops of the tincture six times a day to a patient who had a bloody muco-purulent sediment in the urine with intense dysuria. A copious deposit of fine brown sand was observed and all symptoms were relieved.

RELATIONS - Compare: (1) Mitch., Chim., Cann-i., Calc. ren., Urt-u., Uric acid. (2) Uva, Lyc. Pareira. (3) Epigea contains Arbutin, Formic acid. (4) Arbutus, Uva ursi.

REFERENCES - Anshutz. Clarke. Hale.

***EPILOBIUM PALUSTRE

(Willow Herb)

PHARMACY-epil. Epilobium palustre. Willow herb. Epilobium linears. N. O. Onagraceae. Tincture of fresh rhizome. **Historical dose:** Tincture and all potencies.

CLINICAL - Dysphagia. Fever. Larynx, disorders. Ptyalism. Throat, sore.

HOMEOPATHIC - A boy poisoned with the flowers of Epil. hirsutum had strong epileptiform convulsions in rapid succession. Epil. was proved by Dr. J. S. Wright using a tincture of the root.

Headache. Red face. Ptyalism, chokes on saliva. Feeling of throat filling up, could not swallow water. Larynx sore to pressure, swollen on outside, with hard lumps on both sides of larynx. Cannot swallow liquids, can fly out of nose. Loose stools, red urine.

Hard chill beginning at 11 a.m., lasting an hour. High fever, with aching all over and severe headache, lasting through the night, could not sleep. Fever and headache passed off, but returns in the afternoon and evening more severely, lasting all night. Dull and sleepy, but could not sleep.

REFERENCES - Allen. Clarke.

***EPIPHEGUS VIRGINIANA

(Beech-drop)

PHARMACY - epip. Epiphegus virginiana. Beech-drop. Epiphegus americana. Cancer root. Orobanch virginiana. N. O. Orobanchaceae. Tincture of whole fresh plant in full flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Cancer. Diarrhea. Gonorrhea. **Headaches**. Neurasthenia. Palpitations. Salivation. **Subinvolution, uterus**.

HOMEOPATHIC - Epip. is a remedy for sick, neurasthenic and **nervous headaches**, especially in women, brought on or made worse by exertion, nervous strain, etc.

Headaches with pressive pain, as if fingertips were pressing into the temples inwards or compressive pain going backwards, worse until 4 p.m., then better with spitting of viscid saliva and nausea.

Neurasthenia. Languid feeling. Drowsy after meals. Tongue coated yellow, bitter taste. Loose stools. **Subinvolution of the uterus** with painful menstruation and congestion.

MIND - Confusion of mind, makes wrong letters or words in writing. Fears death from heart palpitations, injury to her health from the drug.

Causations - Physical or nervous overstrain. Any unusual exertion or excitement, as going on a visit or doing a day's shopping.

Eyes - Smarting. Could not read because the words seemed to be blurred.

Female - **Subinvolution of uterus**, with painful menses and congestion.

Head - **Nervous headaches. Pain, worse left side.** Pressing pain in temples from **without inwards**. Headaches from nervous strain caused by mental or physical exhaustion, **preceded by hunger**. Sick headache coming on when deviating from ordinary pursuits, weekly sickheadaches. **Viscid salivation**, constant inclination to spit.

Heart - Palpitations, causing weakness. **Limbs** - Pain in left shoulder, left knee.

Modalities - Better from sleep. Worse from fatigue. Worse nervous strain. Worse eyestrain. Worse working in open air. Worse rising up in bed.

Mouth - Tongue coated yellow, bitter taste. Saliva viscid, almost constant desire to spit. Sticky viscid, bitter taste in mouth.

Rectum - Loose stools. Stool passed with difficulty, though feces soft.

Stomach - Nausea.

Teeth - Tartar on teeth.

COMMENTS - Grimmer noted skin cancers, palpitations with weakness, and a constant desire to spit viscid saliva. Severe headache brought on by exertion, relieved by a good sleep. Symptoms travel right to left.

RELATIONS - **Compare:** (1) Iris, Meh., Sang. (2) Fagus - beech-nuts - headache and salivation, swelling on mouth, dread of water. (3) It is allied to the Scrofulariaceae. (4) Phos. - in better from sleep, Lach., Sulph. and Nat-m. have the opposite, worse from sleep in the most marked degree.

REFERENCES - Boericke. Clarke. Grimmer.

***EPIPHYSTERINUM

PHARMACY - epih. Epiphysterinum. Epiphysterin. A nosode. **Historical dose:** All potencies.

CLINICAL - Fibroids. Menorrhagia. Tumors. Uterine, hemorrhage.

HOMEOPATHIC - One of Dr. Burnett's no- sodes, he used it in cases of hemorrhage in a patient suffering from a fibrous tumor, possibly with malignant elements.

COMMENTS - Clarke found Epih. of great value in controlling uterine hemorrhage, whether connected with fibrous growth or not. He used it in the 30c and higher potencies, giving one or two doses weekly.

RELATIONS - **Compare:** (1) The cancer nosodes. Care. (2) in the fibroid tumors and uterine hemorrhages, like Thlaspi., Fraxin., Hydr. and its alkaloids.

REFERENCES - Boericke. Clarke. Phatak.

***EQUISETUM HYEMALE

(Horse-tail)

PHARMACY - equis. Equisetum hyemale. Horse-tail. Scouring-rush. N. O. Equisetaceae. A rush growing in damp soil in Europe and America. Tincture of fresh plant chopped and pounded to a pulp. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. **Bedwetting.** Bladder, disorders. **Cystitis.** Diabetes. Dropsy. Dysuria. Gleet. Gonorrhea. Gravel. Hematuria. Involuntary, urination. **Kidney, disorders. Kidney, weakness.** Paralysis. **Polyuria.** Urinary, retention.

HERBAL - Equisetum contains silica in an appreciable quantity. Horsetail tea is widely known as a **kidney and bladder tonic**. It is a natural and soothing diuretic used for polyuria and urinary retention.

Teaspoonful doses of the decoction or the tincture in hot water is found useful to allay irritability of the urinary tract, kidney stones, dysuria, pleuritis effusion and dropsy.

HOMEOPATHIC - Affinity for the urinary organs. **Pain in the kidneys** (especially right), in the bladder and urinary passages. Irritation of the bladder and kidneys.

Urinary retention and dysuria, especially in women during pregnancy and after confinement. **Constant desire to urinate** and **passes large quantities of clear, lightcolored urine** without relief.

Cystitis. Severe, dull pain that does not lessen after urination. Aching, full, tender bladder, not better after urinating. Pain in bladder as from distention. Pricking, burning, cutting pain in urethra while urinating.

Dribbling urine in old women with involuntary stool. Much mucus in urine. Bedwetting (Lyc., Nat-m., Sil.. Sep.).

Nocturnal bedwetting of children without causes except habit. Bedwetting when he dreams, he always sees a crowd of people. Pain in sacroiliac joints.

MIND - Very irritable and easily fatigued.

Abdomen - Distended feeling. Sharp pains on either side of hypogastrium, extending to middle line. Dull, heavy pains in either side of lower abdomen and bladder with frequent desire to urinate, not better by urinating. Severe pain in lower abdomen with passage of fetid flatus.

Back - Pains in back, especially while sitting, better lying on back and walking. Right lumbar region painful. Heavy sensation like a lump in right lumbar region. Severe rheumatic pains in region of sacral-lumbar joint and through left hip joint extending down outer side of left leg, ending in front three inches above knee.

Bladder - **Frequent, profuse urination of clear, watery urine.** Urgent desire to urinate with prickling, biting, itching, and soreness of meatus from contact and pressure, worse scratching. **Retention of urine after childbirth.** Retention and dysuria during pregnancy. Prickling in urethra a short distance back from meatus. Severe, dull pain in bladder. **Feeling of fullness in bladder, not relieved by urinating.** Profuse urination with burning in urethra and sharp pain at root of penis. **Sharp, burning,** cutting pain in urethra while urinating. Involuntary urination during daytime. Bedwetting, nocturnal and diurnal. **Bedwetting in children** with dreams or nightmares when passing urine. **Obliged to rise several times at night to urinate.** Incontinence in old women, with involuntary stools.

Breasts - Sharp stitch in left breast, one inch to left and over nipple.

Ears - Dull, transient pain and stiff feeling behind left mastoid. Confused feeling in ears. Confusion of sounds, confused noises, fearful rumbling.

Eyes - Severe pain in roof of right orbit. Sharp pain in outer angle of right eye.

Face - Face flushed, feeling of heat. **Disposed to frown.** As if blood pressed into face. Heat and burning without redness.

Head - Severe headache with intense pain in upper part of eyes or roof of orbit. Headache with heat of face without redness. Constrictive feeling across forehead. Sticking and darting pains, changing locality. Constriction of whole scalp, as if drawn tightly over whole skull. Feeling of skin continuing to contract, continual desire to wrinkle up forehead.

Heart - Sharp pain in region of heart, worse by inspiration.

Kidneys - Nephritis. Diabetes insipidus. **Weak and sensitive kidneys from abuse of diuretics.** Slight pain in right kidney, then in left, extending down left side of sacrum. **Frequent urination at night.** Deep pain in region of right kidney, extending to lower abdomen with urgent desire to urinate. Polyuria associated with diabetes. Frequent urging, with **severe pain at the close of urination.**

Limbs - Pain in upper part of shoulders and in region of vertebra prominence, worse by least motion or contact. Pain in right shoulder to middle of upper arm. Pain in left shoulder with shivering and great heat of head. Pain in right hip joint and near knee joint. Knees very weak on least exertion. Dull, heavy pain under left patella. On awakening, sharp pain inner side of left knee, better after moving about a short time.

Male - Violent erections in the afternoon. Soreness of testicles and cords, worse left.

Modalities - Better in afternoon. Better lying down. Better continued motion. Worse right side. Worse movement. Worse touch. Worse pressure. Worse contact. Worse sitting down. Worse at close of urination.

Rectum - Smarting in anus during and after stool. Stool with aching in anus and feeling as if rectum would protrude. Feeling as if some feces still remained. Sticking-like pains in anus (Ila. m.). Stool with great flatulence.

Sleep - Very sleepy, heavy eyelids. Sleep disturbed by tiresome dreams. Dreams of many persons, places and things. **Dreams of crowds of people.** Nightmare when passing urine.

Stomach - Excessive hunger, appetite greatly increased.

Temperature - Creeping chills beginning below and creeping up back.

Throat - Sharp sticking in throat.

Urine - Copious amounts of watery urine. Urine flows only drop by drop. **Profuse urination of clear, watery urine.** Passes large quantities of clear, light-colored urine without relief. Albuminuria. Urine cloudy. Great excess of mucus on standing.

COMMENTS - Equis, is a deep anti-sycotic. Pain in the kidneys, especially the right. Pain in the bladder and urinary passages, as from distention. Retention and dysuria, especially in women during pregnancy and after confinement.

Severe cystitis. Acute bladder infections, especially when passing large amounts of pale urine. Polyuria. Frequent urination or lack of urination. Paralysis of the bladder, urinary retention (Aeon., Apis., Caust.).

Constant desire to urinate, passes large quantities of clear, light-colored urine without relief. Severe, dull pain that does not lessen after urination, irritation of the bladder, especially in women. Burning pain at the end of urination (Sars.).

Diabetes with frequent urination. General paralysis with loss of control over bladder and rectum. Multiple sclerosis cases with incontinence of the urine. For the side effects of strong diuretics.

Loss of hair, and weak nails. Mending broken bones, can help retain calcium and prevent osteoporosis. Hot flashes. The tincture is a natural diuretic and tonic for weak kidneys, and is also good for hemorrhoids.

Farrington noted the bedwetting with frequent painful urging to urinate, causing the patient to rise at night. According to Grimmer, this remedy cured a case of uterine cancer.

RELATIONS - Compare: (1) Sars., Apis, Berb., Hydrang., Ferr-p., Linaria, Chim. (2) Cann-i., Puls., (3) Canth. comes closest, there is less bleeding, tenesmus, scalding and fibrinous flakes than with Canth., but more mucus.

***ERECOTHITES HIERACIFOLIA

(Fireweed)

PHARMACY - erech. Erechthites hieracifolia. Fireweed. Senecio hieracifolia. Erechthites praealta. N. O. Composite. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Eczema. Gonorrhea. **Hemorrhages.** Herpes. Metrorrhagia. Nausea. Nosebleeds. Psoriasis. Orchitis. **Rhus poisoning.** Ulcers.

HERBAL - Erechthites belongs to the composite and closely allied to erigeron and the groundsel family (Senec.). **"Fireweed"** is so called because it grows abundantly in clearings which have been burnt out.

According to Hale, **"Oil of Fireweed"** is also extracted from erigeron and is said by alchemists to be similar to turpentine. All three cause active and passive hemorrhages, the former being the primary and the latter the secondary action.

HOMEOPATHIC - Erech. is indicated in hemorrhages of bright red blood from nose, mouth, bowels, kidneys, uterus and especially the **lungs. Hemorrhage from any part**, always attended by excitement of the circulation. Passive hemorrhages of dark fluid blood. Nosebleed of bright blood.

Metrorrhagia. Flashes of heat that suddenly give way to coldness. Scanty urine, edema of the limbs. Useful as a local application in skin affections, herpes, eczema, psoriasis and indolent ulcers. Increased appetite. Increased feeling of strength and desire for exercise.

Hale commended it in gonorrhea and orchitis.

Back - Stitches in middle of back. Aching across small of back.

Female - Premature and profuse menses. Metrorrhagia.

Head - Giddiness with nausea. Dull frontal headache. Throbbing of temporal arteries with flushes of heat running across the back from one shoulder to the other. The sensation of heat suddenly gives way to that of coldness.

Kidneys - Increased flow of urine. Slight burning at meatus during urination.

Limbs - Cold feeling in back of legs. Legs feel stiff and painful.

Male - Prolonged erections with dreams of nudity, towards morning. Orchitis from suppressed discharge. Gonorrhea with scanty discharges and great pain.

Rectum - Gripping followed by three copious discharges of semi-solid, yellow fecal matter.

Skin - **Symptoms like rhus poisoning.** **Sleep** - Dreams of nudity and shame.

Stomach - Enormous appetite. Feeling in stomach as if it would be dissolved after drinking cold water. Belchings and heartburn after eating warm bread and coffee (cured).

Throat - Sore throat.

RELATIONS - Compare: (1) Rhus-t. Senec., Erigeron, Ham. Mill., Calc., Canth., Terebe., Puls., Clem.

REFERENCES - Boericke. Clarke.

***ERGOTINUM

PHARMACY - ergot. Ergotinum. Ergotin. Alkaloids of Secale comutum. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Alopecia. Anal, incontinence. Bedwetting. Dysmenorrhea. Faintness. Gangrene. Heart, paralysis. Hemorrhages. Menorrhagia. Migraines. Miscarriage. Neurological, disorders. **Pre-menstrual, migraines.** Sphincters, paralysis. Urticaria.

HOMEOPATHIC - Ergotinum is the total extract of the ergot Claviceps Purpurea. The ergot is the intermediary stage through which this mushroom passes in order to complete its development. Claviceps Purpurea, otherwise known as Secale Comutum, is widely used in homeopathic medicine, with its own indications.

This Ascomycetes Pyrenomycetes is a parasite on the ears of rye, as well as on other grain such as wheat or

oats, and on other plants such as Cypetaceae and palm trees.

The toxicity of ergot has been known for a long time, manifested by the medieval epidemics of Saint Anthony's Fire due to the consumption of contaminated flour. Its oxytocic and abortive powers are also well known.

The insoluble polypeptide alkaloids are stimulants of smooth tissues, especially uterine and vascular. Affects the sympathetic system, counteracts the effects of adrenalin. Ergotinine, the extract of ergot of rye, is used in allopathic medicine, as a constrictor of blood vessels to encourage hemostasis, as in uterine and pulmonary hemorrhages.

Ergot, acts by causing contraction of the arterioles and its effect is produced most promptly when it is administered by subcutaneous injection. Its homeopathic use are in the main identical with those of Sec., but Ergot, will sometimes succeed when Sec. fails.

Ergot, is primarily a female remedy, functional complaints of the female genitalia. **Pre-menstrual migraines.** Menstrual complaints. Vulvar itching.

General ill-defined discomforts, head feeling empty, misty vision, noise in the ears, vertigo, nausea, occasional vomiting.

Nervous system disturbed, anxiety, faintness. Nerve attacks with sudden strokes, abrupt clouding of consciousness, both psychological and physical. For cases with a loss of consciousness.

Certain forms of alopecia or allergy. Urticaria. Bedwetting in both sexes with no anatomical lesion or any urinary infection, with an increase in the level of neurosis from anguish.

MIND - Anxious, hyper-emotional state. Instability of the character. Slowing down of mental processes. Chronic mental depression. Depressive state, particularly before menstruation. **Sadness and weeping before menses.** Loss of consciousness.

Breasts - Premenstrual swelling of the breasts and abdomen.

Ears - Buzzing, intermittent deafness.

Eyes - Visual complaints such as mistiness, cloudy vision, luminous spots before the eyes. Black patches, black or glinting spots across the field of vision.

Female-Pre-menstrual syndrome. Painful menstruation with no clinically discernible lesion. Dysmenorrhea with red, non-clotting blood. Menorrhagia in young virgins from the beginning of menses in the young woman. Vulvo-vaginal itching, congestion, redness, dryness of the mucus membranes. Hyper functioning of the pituitary and ovaries.

Head - Migraines. Habitual headaches. **Premenstrual migraines.** Diffuse alopecia. Round patches of alopecia.

Skin - Alopecia-type areas. Urticaria. Pruritus. Edema.

Sleep - Insomnia, especially in women.

Vertigo - Attacks of faintness.

COMMENTS - "Wide-open anus sensation" (Sec., Phos.). Koeck of Munich recorded a case of a patient who suffered from diarrhea since the Franco-German war and latterly had lost all power of retention. The rectum had lost all sensation, so that the patient had no warning and was never clean.

Old school treatment had failed to relieve him. He was about to be pensioned by his employers and had thoughts of suicide. Sec. 3x ameliorated slightly, the 2x had the same result.

"Remembering Kafka's advice to use the alkaloid when the indicated drug did not seem to act, he prescribed Ergotin 2x." After taking this for four days the patient regained control.

Demange recorded the case of a young woman suffering from typhoid fever and threatened with heart paralysis. Stimulating injections of ether and of rum and frictions completely failed to rally her.

Cyanosis increased rapidly and threatened the trunk. Fainting spells occurred in rapid succession, pulse filiform. Ergot, was then injected and the pulse rose and the symptoms of collapse disappeared. Most of the symptoms of this patient may be found under Sec.

RELATIONS - Compare: (1) Sec. - Dysmenorrhea with blood clotting and black blood. (2) Folliculinum - Pre-menstrual syndrome with swelling, headaches, hypermenorrhea. (3) Thy. - Depressive condition, anxious with hyperthyroid tendency, trembling and pigmentation, especially of the eyelids. (4) Ign. - Nervous, paradoxical instability, anguish with feeling of constriction in the throat and the epigastrium. (5) Lil-t. - Complaints in the uterus and ovarian region, heaviness of the lower abdomen.

REFERENCES - Boericke. Clarke. Julian.

***ERIGERON CANADENSIS

(Fleabane)

PHARMACY -erig. Erigeron canadensis. Fleabane. Leptilon canadense. N. O. Compositae. Canada. Tincture from the fresh plant when in bloom. **Historical dose:** Tincture and all potencies.

CLINICAL - Black, eye. Bruises. Coughs. **Dysentery**. Dysuria. Gleet. Gonorrhea. Hematocele. **Hemorrhages**. Hemorrhoids. Injuries. **Leucorrhea**. Metrorrhagia. Miscarriage. Placenta, previa. Proctalgia. Spermatorrhea. **Tympanites**. Uterus, weak. Wounds.

HERBAL - Native Americans used Erigeron as an application to wounds. It compares as a vulnerary with Arn. Erig. is chiefly known as a remedy for hemorrhages and congestions in all parts of the body. Bright red hemorrhages.

HOMEOPATHIC - Erig. has been proved by Burt and others. Wilmot Moore gave it with success in three cases of placenta previa. He gave the 1x trituration (of what part of the plant is not mentioned) on the tongue.

Hemorrhagic remedy, especially when hemorrhages are **profuse, bright red**, gushing. Persistent hemorrhage from the bladder. Uterine hemorrhage with painful urination. Pain in left ovary and hip. Chronic gonorrhea with burning urination, continual dribbling. Gleet.

Burning congestions. Hard aching. Sensation as if something had lodged in upper part of esophagus.

Dysentery with soreness and burning in the bladder. **Tympanites**. Prominent pains in umbilical region. Feeling as if anus had been torn. Urination is painful or suppressed, sharp stinging pains in region of left kidney.

MIND - Great despondency. Excessive fatigue in morning, all day with great depression. No ambition to move in afternoon and evening. Sadness with feeling of great languor. Weeping during urination.

Abdomen - Abdomen distended. Frequent distress in umbilicus with hard, aching distress in whole dorsal region. Frequent dull pain in umbilical region, can be severe, cutting, with a feeling in anus as if it had been torn.

Back - Dull, aching distress in whole dorsal region. Dull pains in lumbar and sacral regions. Severe sticking, stabbing pain in region of left kidney, passing to right kidney.

Bladder - Frequent desire. Dysuria of teething children. Urination painful or suppressed. Crying when urinating. Urine profuse, with strong odor. External parts (female) inflamed or irritated with considerable mucus discharge.

Ears - Loud singing in right ear.

Eyes - Smarting, burning, in afternoon or evening. Ecchymosis around from below. Slight agglutination of lids in morning.

Face - Congested, red face.

Female - Miscarriage, because of exertion.

Pregnant women with a weak uterus. Bloody discharge on slight exertion. Metrorrhagia with violent irritation of rectum and bladder and prolapse uterus. Metrorrhagia after miscarriage with diarrhea or dysentery after least motion. Uterine hemorrhage, bright-red flow (Phos.). **Bloody lochia returns after least motion**, comes in gushes, between periods. Bleeding hemorrhoids, nosebleed instead of menses (Bry.) **Leucorrhea with urinary irritation**, profuse.

Head - Congestion of the head, red face, nosebleed, febrile action. Awakened with dull headache, with aching distress in all the large joints. Dull frontal headache with smarting in eyes.

Heart - Palpitations.

Kidneys - Persistent hemorrhage from the bladder. Bladder, rectal tenesmus with metrorrhagia. Aching in bladder. Retention of urine. Dysuria during dentition, crying when urinating.

Limbs - Aching dullness in all the joints and limbs. Hard aching in all the limbs.

Lungs - Cough, bloody expectoration. Incipient tuberculosis.

Male - Sticky sweat on genitals. Gonorrhea and gleet. Blue, black spots on genitals. Pain in right lumbar region passing down to testicle.

Modalities - Worse from exertion. Worse rest. Worse left side. Worse rainy weather. Every movement aggravates flow, causes bloody lochia to return.

Mouth - Bad taste in mouth.

Nose - Nosebleed of bright red blood. Increased secretion of mucus all forenoon. Nosebleed.

Rectum - Hemorrhages from the bowels. Burning in the bowels and rectum, hard lumps of feces mixed with the discharges. Hemorrhoids, bleeding with a hard, lumpy stools, burning in the margin of anus, it feels as **if torn. Rheumatic pains in** abdominal muscles. Stools small, streaked with blood. Mushy stools.

Skin - Ecchymosis. Slightly elevated, sharply defined vesicles on skin.

Stomach - Sharp cutting pains in epigastric region every few minutes followed by dull pains. Burning in stomach and abdomen. Belchings of air. Violent retching and burning in the stomach. Vomit or stool of pure blood.

Throat - Increased secretion of mucus in nostrils all forenoon. Feeling of roughness of pharynx. Sensation as if something had lodged in the upper part of the esophagus that caused frequent inclination to swallow.

RELATIONS - Compare: (1) Ip., Phos., Ham., Arn., Canth., Cop., Sabin. (2) Terebinthina similar. (3) It is related to Senec., Erech.

REFERENCES - Boericke. Clarke. Phatak.

***ERIODICTYON CALIFORNICUM

(Yerba Santa)

PHARMACY-erio. Eriodictyon californicum. Yerba santa. Eriodyction glutinosum. N. O. Hydrophyllaceae. Tincture of whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Bronchitis. Catarrh. Coryza. **Coughs.** Influenza. Nausea. Nightsweats. Tuberculosis. Wheezing.

IERBAL - Yerba Santa, the holy plant, is a popular expectorant remedy in Mexico and California. Allen said "Eriodyction has a strong terebinthine taste and abounds in a resinous matter which sometimes exudes so copiously that in drying, the specimens stick firmly together and to the paper."

IOMEOPATHIC - Erio. is a remedy for asthmatic and bronchial disorders. Asthmatic breathing with accumulation of mucus, relieved when the mucus is cleared. Coryza and catarrh. **Coughs after influenza.** Whooping cough. Furthers absorption of effusion in pleural cavity.

Tubercular conditions, especially bronchial tuberculosis. Tuberculosis as the result of frequent bronchial catarrhs. Impaired digestion, poor appetite, intolerance of food. Wasting, night-sweats.

Ears - Pain in ears. Sharp, shooting pain in right ear, at intervals or on suddenly changing position of head to right or left, changing to just below external ear.

Head - Pressure outwards, worse occiput. Aching at base of cranium, 8 a.m. Sensation of pressure outwards on all sides of head, greatest at cerebellum upwards. Intense, dull, heavy pain in back of head and over eyes. Burning in occiput, heavy pain as if occiput was being pressed out.

Lungs - Asthma, coryza and **mucus secretions.** Wheezing. Chronic bronchitis, bronchial tuberculosis with profuse, easily raised bronchial secretion, giving relief. Wheezing voice, at 5 p.m. Dull pain in right lung, front.

Male - Sore, dragging, tender feeling in testicles, worse left, could not bear any pressure, better gentle support. Dreaded to move because of its tenderness. Slight fluttering at intervals at bottom of testicles.

Modalities - Worse in afternoon. Nausea, worse on running. Symptoms come at intervals or on any sudden changes of position.

Mouth - Foul mouth in morning. Burning in fauces.

Nose - Coryza with dizziness and sneezing. Yellowish-green catarrh.

Stomach - Great appetite. Nausea. Deathly sickness, worse by running.

Temperature - Slight fever, cheeks flushed and burning.

Throat - Burning sensation in fauces and throat.

Vertigo - Dizziness and a sense of intoxication.

COMMENTS-G. M. Payne's proving brought out marked preference for the right lung. Foul mouth in the morning on rising. J. Perry Seward gave it with great success in two cases of cough remaining after influenza.

RELATIONS - Compare: (1) Grind., Aral., Eucal., Ip. (2) Balsam of Peru, Pix liquida, Stann. (3) afternoon aggravation. Lyc., Grind., Phos., Hep., Rumex, Caust., Dros.

REFERENCES - Boericke. Clarke.

***ERODIUM CICUTARIUM

(Hemlock Stork's Bill)

PHARMACY - erod. Erodium cicutarium. Hemlock Stork'sbill. N. O. Geraniaceae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies. Decoction of half ounce of the herb to six ounces of water.

CLINICAL - Hemorrhages. Menorrhagia. Metrorrhagia. Uterine, polyps.

HOMEOPATHIC - Erodium is a popular hemostatic remedy in Russia, and is especially used for metrorrhagia and menorrhagia. Uterine hemorrhage with polyps. Has controlled hemorrhage after Sec. failed.

Komorowitch cured with it numbers of cases in which Ergot. and Hydr. had failed, including a case of cervical polyps. After three day's use of the decoction, the polyps were found lying free in the vagina.

RELATIONS - Compare: (1) Ger.

REFERENCES - Boericke. Clarke.

***ERYNGIUM AQUATICUM

(Button Snake-root)

PHARMACY - ery-a. Eryngium aquaticum. Button snake-root. N. O. Umbelliferae. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Anus, prolapse. Conjunctivitis. Constipation. Cough. Diarrhea. Dropsy. Gleet. Gonorrhea. Hemorrhoids. **Influenza**. Laryngitis. Leucorrhea. Kidney, colic. Prostate, weakness. Scleritis. Sexual, weakness. Strabismus. Spermatorrhea. Urine incontinence. Wounds.

HERBAL - Eryngium is a remedy for urinary disorders. The English Eryngo, the E. Maritimum, is noted as an aphrodisiac and is very similar in appearance to the Eryngium aquaticum.

HOMEOPATHIC - Acts on the mucus membranes, producing **thick yellow mucus discharges** from eyes, ears, nose, mouth, bowels, urethra and vagina. Cough with a sense of constriction. Hemorrhages from stomach and bowels. Influenza.

It is a vulnerary, antidoting the effect of blows. Headaches, expanding sensation in forehead, dull, dragging pain in occiput, neck and shoulders. **Seminal and prostate weakness**. For spermatorrhea properly so called or emission of semen without erections. Strangury with nervous weakness. Sweat smells like urine, in evening.

MIND - Thoughts are confused. Very sober and depressed in spirits. Very dull at night. Not able to think steadily on any subject. Cannot concentrate on any subject, the effort causes heavy full, pain if persisted at.

Abdomen - Severe colicky or cramping pains in small intestines. Severe pain in left groin and testicle.

Back - When headache is less severe, it is worse in neck and shoulders. Weakness and heavy dragging pain in lumbar region.

Chest - Oppression of chest, feeling of fullness, inability to take a full breath.

Ears - Bruised tearing pain, as if ears being torn off. Inflammation of Eustachian tube, left ear swollen in and out, tender to pressure, constant aching, bleeding readily, thick white, bloody, foul-smelling pus. Continued singing and ringing with creaking sound in left ear.

Eyes - Purulent inflammation of left eye, sticking discharge causing gumming of lids, conjunctiva granular and rough. Muscles of eyes feel stiff, pain on moving them quickly. Burning, sensitive to light. Effects of exposure to strong light, squinting, scleritis, watery or purulent discharges.

Female - Leucorrhea.

Head - Sharp, shooting pain over left eye, when sitting in stooping posture leaves eye, passes into neck and along muscles of shoulder and beneath scapula. Shooting in coronary region and in right side of face from eyes to teeth in morning. Dull, dragging pain in occiput, neck and shoulders, when less severe in head is worse in shoulder. Scalp sore, combing hair causes pain (Cina.).

Kidneys - Congestion of kidneys with dull pain in back, running down the ureters and limbs. Pain behind pubes. **Kidney pain, colic** (Berb., Pareir., Calc.). Spasmodic stricture. Tenesmus of bladder and urethra. Difficult and frequent urination. Must urinate every five minutes, urine dropping away all the time and burning like fire. Stinging, burning pain in urethra, behind glans during urination. Irritable bladder from enlarged prostate gland or from pressure of uterus.

Lungs - Oppression of chest, feeling of fullness inability to take a long breath. Short, hacking cough. Cough with sensation of constriction in throat. Smarting in throat and larynx.

Male - Discharge of prostatic fluid from slight causes. Desire suppressed, then excited with lewd dreams and pollutions. Seminal emissions without erections, with lassitude (Dios., Phos-ac). Emissions without erections, day and night, followed by great lassitude after injury to testicles. Gonorrhea with painful erections. Gleet.

Modalities - Better from heat. Worse from motion, mental exertion. Bending head forward aggravates head symptoms. Turning eyes causes pain in them. Most symptoms occur on left side and extend or move from part to part.

Mouth - Thick, tenacious, disagreeable mucus in mouth.

Nose - Profuse, thick, yellow mucus discharge.

Rectum - Constipation. Tenesmus at stool, with a sensation of cutting as they pass through anus. Stools dark leaden color, dry and very hard. Mucus diarrhea of children. Hemorrhoids and prolapsed anus.

Stomach - Partial anorexia. Hollowness or emptiness in stomach with heavy, dragging pain. Nausea, followed by acrid belchings. Spitting of bright arterial blood, mixed with black clots, with burning in epigastrium after a blow on the stomach. Burning in stomach or esophagus after taking the drug.

Throat - Chronic laryngitis. Smarting, raw pain along left side of throat, dry tongue. Intense redness, slight swelling without pain, profuse secretion of thick whitish mucus.

Vertigo - Vertigo with an expanding sensation in frontal region above eyes, worse stooping, causing dimness of sight.

COMMENTS - Ery-a. has two remarkable cures, reported by Dr. Parks. In the first, a married man injured his testicles by jumping upon a horse, this was followed by discharge of what was considered semen for fifteen years during which time he was treated by allopaths and homeopaths.

The emissions were without erections, day or night, and followed by great lassitude. Dr. Parks tried a number of the usual remedies without permanent benefit. He then gave a half grain dose, three times a day of the third

decimal trituration of the “Eryngium aquaticum.” In five days the emissions were entirely suppressed and did not return.

The second case concerned a married man who was not conscious of having sustained any injury, who was troubled for eight to ten years with emissions at night with erections. The semen also passed by day with urine. The loss of semen was followed by great lassitude and depression, continuing from twelve to forty-eight hours. There was also partial impotence. He had been treated allopathically.

Dr. Parks gave him Ph-ac. for two weeks without material benefit. He then the Ery-a., as above with the same excellent and prompt result.

J. Whitfield cured three cases of kidney colic with stones (two left side, the other not stated) with Ery-a.

Hale found it useful in epidemic influenza when there was raw, smarting burning in throat and larynx, with constant irritating cough and expectoration of yellow mucus. Loss of energy and nervous weakness.

W. K. Leonard reported the following case of a young Methodist minister, apparently healthy, who was just over his twelfth attack of kidney colic.

The attacks had recurred at intervals of two to four weeks and lasted from one to three days. They were so weakening as to keep him incapacitated in the intervals.

He had old-school treatment including morphine and quinine, without benefit. The attacks were accompanied with severe nervous chills and it was for these that the quinine had been prescribed. Ery-a. tincture, five drops three times a day, put an end to the trouble.

RELATIONS - Compare: (1) Con., Cann-i., Dios., Oci., Clem.

REFERENCES - Boericke. Clarke.

***ERYNGIUM MARITIMUM

(Sea Holly)

PHARMACY - ery-m. Eryngium maritimum. Sea holly. N. O. Umbelliferae. Tincture of whole plant including root. **Historical dose:** Tincture and all potencies.

CLINICAL - Cough. Debility. Fever. Herpes. Sexual weakness. Skin eruption.

HERBAL - The maritime Eryngium is a beautiful plant growing on sand-hills by the sea with holly-like leaves of a pale blue color with metallic luster, in general appearance much more resembling a thistle than an Umbelliferae.

HOMEOPATHIC - Ery-m. was proved by one pro ver only, E. B. Ivatts, but the symptoms showed considerable resemblance to those of Ery-a.

Pains in the eyes, groins, larynx, nape of neck, sinking at epigastrium and weakness of the male sexual organs appear in both. Ery-m. has its symptoms more prominently on the right side. Circulation deadened or as if stagnated, but great determination of blood to surface.

MIND - Light and unusually cheerful. On awaking in the morning feeling so merry commences to sing in bed (usually heavy and drowsy).

Abdomen - All viscera seemed prostrated and as heavy as lead. Dull, continuous pain in bowels. Pain in one spot in right groin.

Back - Pain at nape, compelling the support of head on hand or against something. Occasional shooting pains under left scapula.

Eyes - Pain at back of right eye, left eye feeling weak. Inclination to close eyes to shut out moving objects.

Fever - Chills commencing at nape, going down shoulders and back. Chills predominate, little fever heat

Limbs - Veins of hands at back appear contracted and depressed so as to be hardly visible, though generally full and prominent. Sore pain in muscles inside right thigh just above knee.

Lungs - Occasional darting pains through lungs to back. Occasional stomach cough during the day, sending a spasmodic pain to the head.

Male - Insensibility of corona glandis. Absence of desire (secondary action), power of erection quite gone.

Skin - Patch of eruption half the size of palm of hand came out in cluster where pain had been the day previous like fine pin-heads, points feeling rough to fingers, died away next day leaving red areola.

Stomach - Loss of appetite. Sinking feeling at pit of stomach.

Throat - Voice low, larynx feels weak. Great dryness of throat, larynx and lips.

Urine - Increased flow of urine, very red, thick on standing.

RELATIONS - Compare: (1) Phel., Con. and other Umbelliferae.

REFERENCES - Boericke. Clarke.

***ERYTHRINUS

(Red Mullet Fish)

PHARMACY - eryth. Erythrinus. Red mullet fish. N. O. Erythrinae. South America. Tincture of the whole fish.

Historical dose: Tincture and all potencies.

CLINICAL - Pityriasis rubra. Syphilis.

HOMEOPATHIC - Dr. Burnett is the authority for this medicine. He based his use of it on an account of its effects on some sailors who ate the fish and came out with a peculiar red rash which became chronic and which the doctors took for a form of syphilis.

COMMENTS - Burnett cured with it a case of pityriasis rubra appearing in a large patch on the chest, and benefited other cases. He believed this form of skin affection to be a manifestation of syphilis in the second generation, the father of the patient he cured having had syphilis.

RELATIONS - Aur-m. is the complementary remedy.

REFERENCES Clarke.

***ESCHSCHOLTZIA CALIFORNICA

(California Poppy)

PHARMACY - esch. Eschscholtzia californica. California poppy. N. O. Papaveraceae. Tincture of the whole plant **Historical dose:** Tincture and all potencies.

CLINICAL - Insomnia. Paralysis.

HERBAL - A harmless soporific herbal remedy (Aven.), experiments showed it to act like morphine. It has been used as a nerve sedative to help induce a peaceful sleep.

Esch, causes general weakness torpor, accelerated respiration, complete paralysis of the limbs. Slowing of the circulation. Nervous and restless. Insomnia due to anxiety and worry.

REFERENCES - Boericke.

***ESERINUM PHYSOSTIGMINUM

(Eserine)

PHARMACY - esin. Eserinum physostigminum. Eserine. Physostigmine. The alkaloid of Physostigma venenosum, Calabar Bean. Trituration or solution. **Historical dose:** Trituration and all potencies.

CLINICAL - **Astigmatism.** Blepharospasm. Ciliary, spasm. Glaucoma. Headaches. Heart, weakness. Pupil, contracted. Salivation. Sweat, excessive. Vision, blurred. Vomiting.

HOMEOPATHIC - Eserine, the alkaloid of physostigma, is best known as used by oculists to procure contraction of the pupils in glaucoma. Esin, contracts the pupils dilated by atropine, but not those by Gels. It slows the action of the heart and increases arterial tension.

Ciliary spasm and spasmodic **astigmatism** due to irregular action of ciliary muscles. Blepharospasms with **pupils contracted.**

Twitching of lids, soreness of eyeballs. **Blurred vision after using eyes.** Pains around eyes and head.

Eyes - Contraction of pupils. Spasm of accommodation. Ciliary spasm. Blepharospasm. Pain and irritation of eyes on continued reading. Used locally to contract the pupil.

Face - Pale color.

Head - Violent headache with repeated vomiting.

Heart - Signs of cardiac weakness increased, after repeated vomiting. Pulse small and thready.

Mouth - Saliva, first increased, later arrested.

Perspiration - Face and upper part of the body covered with profuse perspiration.

Stomach - Vomited profusely, with headache. Repeated vomiting with signs of cardiac weakness.

COMMENTS - A remark of Mittendorf that "spasm of the accommodation is also produced artificially by Eserine," led R. B. Leach to prescribe successfully the 6x trituration in cases of ciliary spasm and of astigmatism due to irregular action of the ciliary muscles. Esin, has also produced blepharospasm.

A solution of one grain to the drachm (mixed in mistake for a grain to the ounce) was instilled into the eye of a woman of 60 suffering from cataract. Sweating and lachrymation followed and, as these passed off in a quarter of an hour "clonic spasm of the eyelids" set in, "the upper lid falling down on the lower every few seconds."

Spasmodic feeling in lips and the same sensation under jaw of left side followed. Feeling of tremor and spasm without retinal movement, followed in an hour. Pupils contracted to small point.

RELATIONS - **Compare:** (1) Phys., Jab., Opium.

***ESTROGEN

PHARMACY - estro. Estrogen. A female hormone. **Historical dose:** All potencies.

CLINICAL - Allergic reaction. Amenorrhea. Blood, clots. Breast cancer. Breast, disorders. Candida.

Depression. Dizziness. Dryness. Fibroid. Fluid retention. Gallbladder, disease. Gynecomastia. Hair loss. Heart, disease. Hemorrhage. Hepatitis. High blood pressure. Hot, flashes. Migraine. Menopause. Nausea. Pancreatitis. PMS. Rash. Strokes. Tumors. Twitching. Weight, loss. Vaginitis. Vomiting.

HOMEOPATHIC - More common side effects may include: Back pain, headache. Skin redness and irritation at the site of the patch.

Less common or rare side effects may include: Abdominal cramps, bloating. Breakthrough bleeding. Breast enlargement. Breast tenderness. Change in cervical secretions, Change in menstrual flow. Change in sex drive. Change in weight. Darkening of skin.

Dizziness. Fluid retention. Growth of benign fibroid tumors in the uterus. Intolerance to contact lenses. Migraine. Nausea. Rash. Severe allergic reaction. Vaginal bleeding.

Other side effects reported with estradiol include: Abnormal withdrawal bleeding. Certain cancers. Cardiovascular disease. Excessive growth of hair. Gallbladder disease. Hair loss. High blood pressure. Reddened skin. Twitching. Vaginal yeast infection

Menopausal symptoms. Atrophic vaginitis. Dizziness. Mild headaches. Myocardial infarction. Pulmonary embolism. Thrombophlebitis.

MIND - Depression.

Abdomen - Pancreatitis. Abdominal cramping or bloating. Abdominal pain, tenderness, or swelling.

Breasts - Breast pain. Breast tenderness. Breast enlargement. Breast tumors. Breast lumps. Discharge from breast.

Chest - Pain in your chest or calves.

Eyes - Vision changes. Yellowing of the eyes.

Female - Amenorrhea. **Breakthrough bleeding.** Heavier vaginal bleeding between regular menses.

Menopausal symptoms. Menorrhagia, prolonged or heavier menses. **Vaginal dryness.** Spotting, lighter vaginal bleeding between regular menses. Endometrial atrophy. **Libido decreased.** Abnormal bleeding of the vagina.

Food - Anorexia. Loss of appetite.

Head - Migraine headaches. Severe headache, dizziness, or faintness.

Limbs - Peripheral edema. Weakness or numbness of an arm or leg. Thrombophlebitis.

Liver - Gallbladder obstruction. Hepatitis.

Lungs - Sudden shortness of breath. Coughing up blood. Pulmonary embolism.

Male - Gynecomastia. Libido decreased.

Rectum - Diarrhea.

Skin - **Dryness of skin.** Skin irritation, redness, or rash. Darkening of skin. Yellowing of skin.

Stomach - Nausea. Vomiting.

Temperature - Hot flushes and sweats.

Throat - Difficulty with speech.

RELATIONS - **Compare:** (1) Sep., Foil., Lach., Puls.

***EUCALYPTUS GLOBULUS

(Blue Gum-tree)

PHARMACY - eucal. Eucalyptus globulus. Blue gum-tree. Fever-tree. N. O. Myrtaceae. Tincture of fresh leaves. Essential oil, Eucalyptol. **Historical dose:** Tincture and all potencies.

CLINICAL - Aneurysm. Aortitis. **Asthma.** Bladder, disorders. Bronchitis. Cachexia. **Coryza.** Diarrhea. **Dysentery.** Dyspepsia. Dysuria. Fistulae. Gonorrhea. **Gout.** **Influenza** Intermittent, fever. Kidney, disease. Migraines. **Nephritis.** Ophthalmia. Quinine, cachexia. Rheumatism. Spleen, affection. Strychnine, poisoning. Syphilis. Toxemia. Tumors. **Typhoid.** Urethra, stricture. Urethral, caruncle. Varicose, ulcers. Worms.

HERBAL - Eucalyptus, the gum-tree, is a native of Australia. It was transplanted to marshy districts in mild climates on account of its capability of absorbing water and its alleged power of destroying malarial poisons. Eucal. became well-known during the influenza epidemic as a prophylactic and disinfectant. Eucalyptus is a powerful antiseptic and disinfectant.

Merrel noted that the volatile oil possesses in common with other terpenes, the property of converting water in the presence of air and sunlight into hydrogen peroxide or to convert oxygen into ozone.

Used locally in catarrhal affections, especially when of a suppurating or putrid nature. Enlarged, ulcerated tonsils and inflamed throat. Use the tincture locally as a gargle.

HOMEOPATHIC - Eucal. affects the mucus membranes, producing profuse acrid and foul catarrhal discharges, with aching, stiffness and weariness, as from taking cold. Marked effects on catarrhal processes,

malaria and intestinal disturbances.

Relapsing or intermittent fevers. **Typhoid fever.** Malaria. Useful in convalescence from intermittents. Odorous sweat. **Influenza** (Gels.), said to be a preventive for influenza. Coryza, headache of a dull, congestive character, sore throat.

Hemorrhages internally and locally (Ham.). Exhausted with toxemia and hemorrhage. Sticking, jerking pains at night. Remarkable bodily exhaustion, no desire for any motion, unable to do any real mental work, study, etc. Rheumatism.

Atonic dyspepsia, gastric and intestinal catarrh. Indigestion with excessive development of fetid gas and fever. Slow digestion. A gastro-intestinal irritant with pain in stomach and upper intestines several hours after eating. Diuresis and increase of urea.

MIND- Mental exhilaration. Exhilaration with feeling of buoyancy and increased strength. Desire for exercise, to move about. Intoxication followed by mental depression and exhaustion. Dull and drowsy.

Abdomen - Gastrointestinal derangements with sleeplessness and restlessness. Burning in epigastrium and umbilical regions. As if a weight in bowels. Sharp aching in the hypogastrium, worse after dinner. Flatulent distention. Spleen hard and contracted.

Breasts - Swellings in different parts of body, one below nipple in right side, size of filbert with stabbing, darting pains.

Ears - Tinnitus. Ringing in ears.

Eyes - Eyes hot, burning, smarting. Eyes smart and burn. Catarrhal ophthalmia. Eyelids heavy. Gonorrheal ophthalmia. Dim vision.

Face - Flushed, congested face.

Female - Acrid, fetid leucorrhea. Ulcer around orifice of urethra. Vascular tumors of urethra.

Food - Increased appetite, tormenting thirst.

Head - Cerebral congestion with much excitement. Dull and congestive headache. Migraine. Sick headache. Nervous headache, and other pains in head, not exactly periodical. Headache in anemic persons. Eucal. relieves the pain and causes sleep.

Heart - Painful palpitation. Strong beating of abdominal aorta. Aneurysms pressing on vagus nerve. Sudden flushing of face with much flatulence, in women at menopause.

Kidneys - Suppurative inflammation of kidneys. **A cute nephritis**, complications from influenza. **Urethral caruncle.** Bladder feels loss of expulsive force. **Catarrh of bladder.** Spasmodic stricture, gonorrhea. Burning and tenesmus. Diuresis. Hematuria. Urine contains pus and is deficient in urea. Urine has the odor of violets.

Limbs - Rheumatic pains, worse at night, walking or carrying anything. Stiff, weary **sensation. Pricking sensation, followed by painful aching.** Nodular swellings over metacarpal and metatarsal joints.

Lungs - **Asthma with great dyspnea and palpitations.** Breathing is quickened. Cardiac asthma. Moist asthma. **Bronchial asthma. Bronchitis in elderly, feeble persons.** Bronchorrhea (Bals-p.). Fetid form of bronchitis, bronchial dilatation and emphysema. Irritative cough. **Coughs of influenza.** Profuse expectoration of offensive muco-pus. Expectoration is white, thick with frothy mucus. Whooping cough in rickety children.

Male - Increased sexual appetite. Subacute and chronic gonorrhea. Recent chancres.

Modalities - Worse periodically. Worse night.

Mouth - Aphthae. Mouth burns. Mouth feels full. Relaxed aphthous condition. Excessive secretion of saliva. Slightly burning taste extending into throat and esophagus with thirst. Tongue pasty.

Nose - **Coryza**, sore throat. **Stuffed-up sensation**. Thin, watery coryza, nose does not stop running. **Chronic catarrhal, purulent and fetid discharge.** Ethmoid and frontal sinus involved. Tension across the nose, tightness across the bridge.

Rectum - **Dysentery** with rectal heat, tenesmus, hemorrhage. Typhoid diarrhea. Aching pains in bowels with feeling of impending diarrhea. **Acute diarrhea.** Chronic diarrhea, mucus and bloody. Stools thin, watery, preceded by sharp pains. Feter of stools and flatus. Condition of mucus membrane favoring worms.

Sensations - Burning pains and sensations predominate, but also pricking, stabbing, and sharp aching.

Skin - Glandular enlargements and nodular swelling over joints. Foul and indolent ulcers. Herpetic eruptions.

Stomach - Hot, burning sensation in stomach. Strong smelling, burning eructations. **Slow difficult and painful digestion** with much fetid gas. Pain in epigastrium and upper abdomen ameliorated by food. Beating and emptiness with pulsation in epigastric arteries. Throbbing in stomach. Fullness, pressure and weight in stomach. Malignant disease of stomach with vomiting of blood and sour fluid. Cancer. Nausea and vomiting with chill.

Temperature - Chill, then nausea and vomiting. Fever with aching. Continued and typhoid fevers. Scarlet fever.

Throat - Aphthous condition of throat with burning. Burns, feels full. Excessive secretions of saliva. Constant sensation of phlegm in throat. Enlarged, ulcerated tonsils and inflamed throat.

Vertigo - Vertigo during all stages of intermittent fever.

COMMENTS - Vascular conditions including a distinct beating in stomach region, accompanying a sense of emptiness, one prover referred this to the abdominal aorta. Vascular tumors of the female urethra. Glandular enlargements and nodular swellings over joints.

Marked periodicity. Most pains occur at night. It has an intoxicating effect and produces a desire for exercise. Discharges show a tendency to foulness, high temperature, accelerated but not strong pulse. Largely used for bronchitis and bronchial asthma.

It cured a tumor, the size of a filbert with stabbing pains below left nipple.

C. E. Fischer cured many cases of dysentery with it.

Dr. Arthur Dalzell related two striking cases of bronchial asthma promptly relieved with five-drop doses of Oil of Eucalyptus given in a tablespoonful of water. The dose was given last thing at night. It also relieved the dyspnea in a case of mitral insufficiency.

RELATIONS - Compare: (1) Eucalyptus teretifolia - coris - menstrual cough and prostration. (2) Eucalyptol - depresses temperature of healthy body more than Quinine, acts on kidneys like Ter., Anae., Hydr., Kali-s. Eucalyptus neutralizes ill effects of Stry. (3) Angophora, Red Gum - dysentery, pains, tenesmus, better lying flat on face, obstinate constipation. Eucalyptus rostrata, Kino.

REFERENCES - Boericke. Clarke.

***EUGENIA JAMBOSA

(Rose-apple)

PHARMACY - eug. Eugenia jambosa. Rose-apple. Jambosa vulgaris. Eugenia vulgaris. Malabar, Plum-tree. N. O. Myrtaceae. A tree native to the tropics, never without flower or fruit. Tincture of fresh seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne rosacea. Catarrhal, fever. Catarrhs. **Comedones.** Constipation. Coryza. Cough. **Cramps.** Diarrhea. Diplopia. Hernia. Hiccough. Impotence. Influenza. Nausea. Otitis. Pimples. Throat, sore.

HOMEOPATHIC - Eug. like Eucal., produces a state of intoxication similar to alcohol. Talkative, but indolent. Excitement soon changing to depression. Characteristic **better after urination, becomes** more cheerful, exhilarated, but passing into gloominess again soon after. **Nausea, better from smoking.**

Acne rosacea. Acne, simple and indurated. **Comedones.** The pimples are painful for some distance around. Sufferings occur especially in the evening and at night. An old wound from a thrust became painful again. Rheumatic pain wanders from place to place with catarrh.

MIND - Quite talkative but indolent. Prefers to do nothing but smoke all day. Remarkably changed, mentally, after urination. Sadness better urination, but soon everything became gloomy again.

Constant desire to sit alone and reflect. Everything seems wrong. Nothing seems right. Restlessness, constantly changing positions. Forgets all his business. Delusion, all things seem beautiful after urination.

Abdomen - Flatulence, rumbling in bowels.

Colic, with labor-like pains, pressing downward, much urging to stool and to urinate. Burning pain in abdomen. Drawing about navel. Inguinal hernia from a fall.

Back - Burning, itching in a small spot on back, worse after scratching. Sticking pains in back. Pain in small of back and in calves. Aching in sacrum and knees.

Ears - Catarrhal otitis.

Eyes - Eyes look sleepy and drunken. Burning pain, in the afternoon. Suddenly biting in the eyes as from pepper. Needle-like stitches in inner canthus right eye. **Hot lachrymation.** Lachrymation with burning and gnawing pains. Whirling before right eye.

Face - Pimples on the face with painful sensibility of their circumferences.

Food - Appetite increased. Great thirst. Great desire to smoke tobacco (Calad., Daph.). Agreeable taste, of tobacco, of food and drink when smoking.

Head - Headache as if a board were lying on right side. Dullness and slight sticking pain. Pressive, pinching pain, in small spot deep in forehead. Pressive pinching pain, on vertex. Neuralgia in left forehead over eye. Headache in evening nausea, vomiting. Nocturnal headache, with burning in eyes, great thirst and much urination.

Kidneys - Burning during urination. Frequent urination at night. Shuddering or sudden increase of brightness and of light before the eyes after urinating. Deep colored urine.

Limbs - Nightly cramps in soles of feet (Calc., Cupr., Mag-p.). Fissures between toes. Skin recedes from the nails, forming pus. Cramp-like and paralytic pains in the tibia and in the heels. Hot hands.

Lungs - Catarrh with much mucus and rheumatic pains. Rattling in lungs. Moist cough without yellowish, bloody expectoration in the evening and at night.

Male - Impotence. Emission of semen too slow or entirely wanting during sex. Perspiration and thirst after sex.

Mouth - Abundant accumulation of frothy and viscid saliva in the mouth, especially before a meal and when talking.

Nose - Mucus goes from nose into throat. **Perspiration** - Sweats when walking. **Rectum** - Cramp or pinching pains in rectum. Constipation. Urging to stool and colic. Tenesmus, urging to stool. Loose evacuation, followed by vomiting. **Hemorrhoids bleed copiously for days with great relief of mind and body.** Scanty evacuation of stool, the consistence of pap and sandy, spurting and fetid. Very scanty, pasty, gritty stool. **Scanty, hard stool after much pressing,** followed by spasmodic closure of anus. Offensive, sputtering stool, without much urging.

Sensations - Headache as if a heavy board were lying on right side. As of cramp in orifice of stomach, as if a ten-pound weight were hanging on rectum and as if everything below would fall out.

Skin - Acne rosacea. Acne, simple and indurated. **Comedones.** Desquamation and suppuration of the skin around the nail of the thumb. Skin cracks about toes.

Sleep - Profound sleep. Stupefying sleep, even at noon with confused dreams. Yawning while walking in open air. Difficult waking.

Stomach - Heartburn at night. Cramp in orifice of stomach, causing nausea. Contractive, pinching sensation deep in stomach. Sensation as of cramp in orifice of stomach, which results in nausea. Nausea rising up from end of esophagus.

Temperature - Shiverings run over him after urination. Coldness, as if the body were naked. Perspiration in the morning with burning thirst. Hot hands. Fever, heat before midnight with little thirst and much sweat.

Throat - At night, violent thirst from dryness low down in throat, so that he did not feel the drink, which also did not better the dryness. Pain in small spot in region of left corner of hyoid bone. Inflamed throat (in catarrhal fever).

Vertigo - Whirling in head while sitting. Vertigo after rising from lying down. Vertigo caused by rush of blood to head. Dizzy and nauseated, in evening.

COMMENTS - Effects the eyes and vision. Darkness and double vision, on looking intently double vision disappears. Whirling before right eye as if it would become dark. Whirling in the head while sitting, houses at a distance seem to turn bottom upwards.

Inflamed eyes. As though fire came out of eyes and tears ran out in streams in evening and night. Worse by sun, causes eyes to fill with water. Burning worse by closing eyes, prevents sleeping at night. Burning not better from cold water.

Pain in small of back and calves. Aching in sacrum and knees. Sticking pain in back as if something were sticking in spine, better by bending back. Rheumatic pain wanders from place to place with catarrh.

An old wound from a thrust became painful again. Skin disease, worse during menses. Open air causes much exhaustion, yawning while walking in morning.

RELATIONS-Antidotedby: Coffee, by smoking tobacco. **Compare:** (1) Myrtus chekan - chronic bronchitis. (2) Ant-t., Berb-a. (3) Eucal. a myrtaceous tree in catarrhal conditions, Laur. and drugs containing Hydrocyanic acid, Puls. - fugitive rheumatic pains.

REFERENCES - Boericke. Clarke.

***EUONYMINUM

PHARMACY - euonin. Euonyminum. A concentrated extract, so-called active principle from the bark of Euonymus Americana, E. atropurpurea and other American species of Euonymus. Celastraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Bright's disease. Cholera. Diarrhea. Dropsy. Dysentery. Gallstones. Indigestion. Liver, disorders. Nausea.

HOMEOPATHIC - Euonyminum is largely used by herbalists in cases of constipation, indigestion, and torpid liver. It has not been proved, but Hale quoted the following account of its effects, which do not seem to differ much from Euon.

"In very large doses, it proves a drastic cathartic, its operation being attended with a death-like nausea, excessive tormina and cold sweats. The dejections from the bowels are profuse, violent and accompanied by much flatus."

COMMENTS - Lutze recorded a case of albuminuria of pregnancy with dropsy cured with the 1 x, and also a case of albuminuria and dropsy in a young man of seventeen. This patient had eczema and was cured by Lutze with Ars. 200c. Later he got a chill from standing in the water fishing. He suffered from malaise and

finally dropsy developed.

Euonyminum

After a week of treatment, he was indifferent, drowsy, sleeping most of the day and night, sometimes with heavy breathing. Anasarca general, chiefly in face and limbs. Pulse full, slow, 50 to 60.

Occasionally dull frontal or occipital headache, face sallow, sclerotics yellow, temperature 102 to 103. Urine scanty, 1,017 (later 1,009), containing large quantities of albumen, epithelial casts and granular debris, no bile or chlorides. Stool grayish. He had no pains or subjective symptoms.

There were all the evidences of a fully- developed case of acute Bright's disease. He was given Euonymus lx, 2 grains in half a tumbler of water, a spoonful every hour. In three days there was evident improvement. The treatment was continued for a month, when he was nearly well, the cure being completed with Puls., Calc., Sulph. at long intervals.

REFERENCES - Boericke. Clarke.

*****EUONYMUS ATROPURPUREA**

(Burning Bush)

PHARMACY - euon-a. Euonymus atropurpurea. Burning bush. Wahoo. N. O. Celastra- ceae. Tincture of fresh bark and root. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Bilious fever. Biliousness. Cholera morbus. Constipation. Diarrhea. Gallstones. Gout. Heart, weakness. Headaches. Hemorrhoids. Levitation. Liver disorders. Rheumatism. Vertigo.

HOMEOPATHIC - Euon-a., like Euonin. and Euon., is a favorite liver remedy among herbalists. It has not been proved, but clinical experience shows that its action is very like that of its botanical relatives.

Migraines. Headache, mental disturbances and much distress in hepatic and kidney region. Bilious headache, coated tongue, bad taste, constipation.

Passive congestion and torpor of liver. Chronic catarrhal disorders of stomach and intestines. Profuse stools, varying or of several colors. Albuminuria. Chronic rheumatism and gout. Weak heart.

MIND - Mental confusion. Loss of memory,

Euonymus atropurpurea unable to recall familiar names. Despondent, irritable.

Abdomen - Flatus and pain. Pain about umbilical region, navel.

Back - Crawling in back. Dull pain between shoulders and about kidney and splenic region, pain in lumbar region better lying down.

Constitutions - Brunettes more easily affected.

Head - Bilious headaches, pressure over brows, compressing eyes. Heavy frontal headache. Sore, tired feeling, bruised feeling of scalp. Pain over right eye extending back through the head.

Kidneys - Urine scanty, high-colored. Acidity increased. Urine poured out rapidly.

Limbs - Aching in all joints, especially ankles. Feet feel swollen and tired.

Liver - Liver engorged. Gallstones.

Modalities - Better from cool air. Better pressure. Worse from eating. Worse evening.

Mouth - Dry, pasty taste.

Rectum - Anus very sore and burning. Constipation with hemorrhoids and severe backache. Diarrhea, stools variable and profuse, bloody.

Stomach - Thirsty. Feels full and uncomfortable.

Vertigo - Vertigo, obscure vision and gastric derangement, associated with albuminuria. Vertigo in forehead, as if drawn up and pitched forward.

COMMENTS - A woman who tasted the juice of the bark related her experience to Hale: "I felt immediately a sick weakening feeling all through the nervous system, dull, heavy pain through upper portion of head together with enlarged blurred feeling. I seemed so drawn up from the floor, that it seemed difficult to place my foot down when walking with sufficient firmness to stand up, a tipping over sensation when sitting and walking."

She also had a deathly sickness at her stomach with perspiration and heat in her face, in alternation with chills in the back and back part of the arms. Some of the symptoms returned the next day, but were dissipated by vinegar, which must be looked upon as its antidote.

RELATIONS - **Compare:** (1) Euonymus Euro- poea. Spindle-tree - liver disorders, biliousness, lumbago, gastric derangements with albuminuria. (2) Cutting pains in malar bones tongue, penis up to bladder, Podo. (3) Am-pic., Chel., Euonymin lx trituration, albuminuria.

REFERENCES - Boericke. Clarke. Phatak.

*****EUONYMUS EUROPAEA**

(Spindle-tree)

PHARMACY - euon. Euonymus europaea. Spindle-tree. N. O. Celastraceae. Trituration of dried seeds. Tincture of fresh **seeds**. **Historical dose:** Trimration and all potencies.

CLINICAL-Albuminuria. Backaches.BiZioMS. Cholera. Collapse. Constipation. Convulsions. Diarrhea. Gallstones. Gastric, derangements. Headaches. Hemorrhoids. **Liver, disorders**. Lumbago. Pusmles. Vertigo. **HERBAL** - The Celastraceae, to which Euonymus belongs, are closely related to the Rhamnaceae which include the well-known purgative Cascara sagrada.

HOMEOPATHIC - Euon. has been used successfully in cases of engorgement of the liver, **biliousness**, headache, coated tongue, bad taste, and constipation. Passive constipation with hemorrhoids or severe pain in back like lumbago.

Diarrhea, profuse stool, variable in color. Gastric derangements with albuminuria, headache, weakness, vertigo and obscuration of sight. Liver disorders, biliousness, lumbago.

COMMENTS - Allen recalls the effects ofEuon- yminum in a case of poisoning with the seeds. "A man, forty-three took eighteen seeds one morning and as many the following evening. He was seized with frightful abdominal pain and profuse diarrhea, eventually bloody.

"He was not seen until the evening, when he was in a state of profound collapse with involuntary evacuations of blood and mucus. On lifting him up tetanic convulsions were induced which immediately preceded death." In its proving, cutting, sticking and drawing pains predominated. The left side is more affected than the right. Cutting pains in the

malar bones in the tongue. Cutting in the penis extends up to the bladder.

Pains compel lying down and are then relieved or reappear in other parts. Violent shivering chill over whole body. Pains in chest, head and abdomen, worse after eating. Tingling in the skin which provokes scratching, followed by a burning sensation. Eruption of small dry pustules.

RELATIONS - Compare: (1) Podo., Rham., Iris. Euon. atrop.

REFERENCES - Boericke. Clarke. Phatak.

***EUPATORIUM AROMATICUM

(White Snake-root)

PHARMACY - eup-a. Eupatorium aromaticum. White snake-root. Eupatorium urticifolium. Deer-wort. Pool-root. N. O. Composite. Found in low woods from Massachusetts to Louisiana. Flowers are white and aromatic. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Ague. Aphthae. Chorea. Gravel. Hysteria. Neurasthenia. **Sore, nipples**. Stomatitis. Vomiting.

HERBAL - Eupatorium aromaticum, when chewed, produces in the mouth a warm, aromatic, pungent sensation and is regarded as a "warm, stimulating tonic."

Hale quoted herbal authorities as commending this plant in "aphthous stomatitis" in women and children. Also for burning in the stomach with "nursing sore mouth," before and after confinement. Locally it is useful as a mouthwash.

Eup-a. is a "nervine," like Scutellaria and Cypripedium for "restlessness and morbid watchfulness, morbid irritability of the nervous system, tremors, chorea and hysteria." Like Eup-pur., it has been used for gravel. The Native Americans used it as a cure for ague.

HOMEOPATHIC - Eup-a. is doubly indicated where nervous weakness and aphthous disease are combined. Nervous weakness, restlessness and morbid watchfulness.

Hysteria and chorea. Low fevers with extreme restlessness. Aphthous disease. **Sore nipples**. Sore mouth in infants.

Vomiting of bile, pain in stomach, headache and fever.

COMMENTS - In a case of sore mouth in a man, 57, recorded by P. S. Duff, Eup-a. caused soon "a general aggravation like a cold or catarrh, annoyed by pain in left shoulder, posterior scapular region, pulse 94 unnatural, tight in left bronchia, felt ill, dull and oppressed."

RELATIONS - Compare: (1) Lapsana communis - useful in sore nipples andhemorrhoids. (2) Hyos., Passi., Hydrin-mur.

REFERENCES - Boericke. Clarke. Phatak.

***EUPATORIUM PERFOLIATUM

(Bone-set)

PHARMACY - eup-per. Eupatorium perfolia- tum. Bone-set. Thoroughwort. N. O. Composite. Tincture of whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anus, herpes. Back. pain. Bilious, **fevet.Bones,pains**. Cachexia. **Chills**. Cough. **Dengue, fever**. Diarrhea. Fractures. **Fever**. Gout. Headaches. **Hiccoughs. Hoarseness**. Indigestion. **Influenza**. Intermittent,

fever. Jaundice. Liver, pain. **Malaria**. Measles. Mouth, cracks. Nausea. Ophthalmia. Relapsing, fever. Remittent fever. Rheumatism. Ringworm. Spotted fever. Syphilitic pains. Thirst. Vomiting. Wounds.

HERBAL - Eupatorium perfoliatum is an herbal remedy recommended by Dioscorides for ill-conditioned ulcers, dysentery, stings of reptiles, chronic fevers and obstructed livers.

It is known as "Boneset" from the prompt manner in which it relieves pain in limbs and muscles that accompanies some forms of febrile disease like malaria and influenza. Eup-per. is a boon in miasmatic districts, along rivers and marshes. Clarke found Eupper. most useful in **epidemic influenza**.

HOMEOPATHIC - Characteristic **violent aching, bone-breaking pains**. Bone pains, general soreness and fevers. **Distressing bone pains** and muscle pains, with **malarial fevers and influenza**. Dengue fever. Colds. Conditions where there is a great deal of bone pain. Muscles of chest, back and limbs feel bruised, sore aching. Inability to lie on the left side. Sluggishness of all organs and functions. Weakness.

Acts upon the gastro-hepatic organs and bronchial mucus membrane. Bilious effects. Restless, chilly and nauseated. Cachexia from old chronic, bilious intermittents. Useful in old broken down constitutions of inebriate. Marked periodicity (Ars., Chin., Cedr.), changing periodicity, chill in the morning one day, in the evening the next.

MIND - Feels at night as if going out of his mind. Anxiety, despondency. Very restless, cannot keep still, though wishes to. Sadness during heat. Moaning during chill. Moans with aching pains.

Abdomen - Abdomen distension and tympanitic. Avoids tight clothing. Colicky pains in upper abdomen with headache and other pains. Cramps. Gripping pain worse after stool, with tenesmus. Tightness in left hypochondrium.

Back - Backache before and during chill. Chill spreads from back. Pain in back of neck and between the shoulders. Intense backache. Pain as if beaten, pain ascends. **Aching pain in back**. Beating pain in nape and occiput, better after rising. Trembling in back during fever. Weakness in small of back. Deep-seated pains in loins, with soreness from motion. Trembling in back during fever.

Breasts - Aching, under left breast, can't lie on left side. Pain through right nipple, when breathing.

Causations - Ill effects of the ice-house.

Chest - Great oppression of chest. Raw, hot, sore chest and bronchi. Muscles of chest are sore, worse from inspiration. Soreness in chest, can't twist when standing, sitting or lying. Pain and soreness behind sternum.

Constitutions - Worn-out constitutions from inebriety.

Cough - **Hoarseness and cough with soreness in chest**, must support it. Cough after eruptive stage of measles. Cough preceding or following measles. **Cough with influenza**. Chronic, loose cough, chest sore, worse at night. **Cough better getting on hands and knees**. Cough lying on back. Loose cough, at night. **Cough from laryngeal tickling**. Cough with soreness and heat in bronchi, flushed face, tearful eyes. Hectic cough from suppressed intermittent fever. Cough worse from 2 a.m. to 4 a.m.

Ears - Buzzing in ears with heat on vertex. Could hear everything while seemingly in profound sleep, but couldn't speak.

Eyes - Eyes glistened. Yellow eyes. Painful soreness of eyeballs, lids. Sore aching eyeballs with headache. Great aversion to light. Intense, darting pain through eyes, as from needles. Increased lachrymation, during cough. Redness of margins of lids. Glutinous secretion from meibomian glands.

Face - Sudden, severe contraction of muscles of right cheek. Yellow face. Sallow, sickly in intermittent fever. Pale face, during catarrhs. Flushed face during cough or fever.

Female - Itching of the mons veneries. Herpes on thighs.

Food - Canine hunger during or before ague. Anorexia of alcoholics. Food has no taste. Thirst for cold water, before and during chill. Great thirst for cold water, but after drinking shuddering and vomiting of bile. Craving for ice cream. Desire for acid drinks.

Head - Head pains alternating with gouty pains. **Occipital pain after lying down with sense of weight**. Headache with soreness internally. Throbbing, sore pain. Sensation as of a metal cap on head. Top and back of head with **painful. Headaches with soreness of eyeballs**. Headaches better by vomiting of bile, by conversation. Sick headaches every third and seventh day. **Headaches with influenza**. Lifts head with hands during headache. Headache and nausea every other morning, when awaking. Violent headache, comes on before the chill and lasts through all the stages, worse during the sweat.

Heart - Pressure as if heart is in too small a space. Pain, soreness in cardiac region, worse by least motion or turning body around.

Kidneys - Dark-colored, clear urine. Watery urine, during intermittents. Urine profuse, pale, with gout. Urine alternately profuse and scanty. Dark-brown, scanty urine, depositing a whitish, clay-like sediment.

Limbs - **Boneaches with influenza**. Swellings of limbs with the debility. **Aching in bones with soreness of flesh**. Painful gouty nodes, associated with headache. **Bone aches with fever and chills**. Gouty soreness

and inflamed nodosities of joints, associated with headache. Dropsy of legs, feet and ankles. **Aching in arms and wrists.** Bruised pain in calves. Swelling of left great toe.

Liver - Liver problems on the use of alcoholic drinks. **Soreness and sharp pains** in region of liver on moving or coughing.

Lungs - Dyspnea, must lie with head and shoulders high. Difficulty of breathing, with perspiration, anxious countenance, sleeplessness. Sharp pain through right lung on deep inspiration, at night, disturbed breathing frightens him.

Male - Itching of the groin. Herpes on scrotum and thighs.

Modalities - Better by conversation. Better by getting on hands and knees. **Better vomiting bile.** Better lying on face. Better sweating. **Worse from cold air.** Worse night. **Worse periodically.** Worse every third or fourth day. Worse lying on part. Worse morning. **Worse at 7 a.m. to 9 a.m.** Worse coughing. Worse motion. Worse smell or sight of food.

Mouth - Taste bitter. Breath smells moldy, sourish. Paleness of the mucus membrane of the mouth. Cracks in corners of mouth. Soreness of the corners of the mouth. Tongue yellow, covered with white fur.

Nose - Coryza with sneezing, with aching in the bones. Sneezing with influenza. Nose very dry and stopped up.

Perspiration - Coldness during night sweats. **Sweat, relieves all the symptoms except the headache.** Sweat scanty. Skin bathed in sweat. Sweats at night, with chilliness. Sweats from moving or uncovering. Profuse sweat at night in old cases of intermittent fever. Copious sweats, in rheumatism.

Rectum - Cramps. Constipated with sore liver. Stools, frequent, whitish, green, watery. Constipation with catarrh. Purging stools with smarting and heat in anus. Morning diarrhea.

Skin - Jaundice. **Skin pale and sensitive during fever.** Eruptions develop late, especially in measles. Ringworm. Herpetic eruptions.

Sleep - Stretching and yawning, before chill. Sleepiness with difficult breathing. Has to lie with head high. Headache on awaking.

Stomach - Tight clothing is oppressive. **Hiccoughs.** Indigestion from alcohol of old people. Great thirst for cold water, but after drinking shuddering and vomiting of bile. Distressing pain in the stomach not better until all is vomited. Indigestion consequent on the use of alcoholic drinks. Nausea from smell or sight of food. Nausea, vomiting of bile at close of chill or hot stage, throbbing headache. **Vomits water or food that has been taken.** Vomiting and purging of bile of green liquid several quarts at a time. Vomiting preceded by thirst.

Temperature - **Chill preceded by thirst, with great soreness and aching of bones.** Pain all over, in the bones as if broken, before the chill. Chill between 7 a.m. and 9 a.m. At the conclusion of the chill, vomiting of bile or after every draft. Thirst continues during the chill and heat. **Influenza with weak pulse, prostration, bones sore.** Influenza in inebriates and with old people. Great weakness and prostration during the fever. Burning heat. Intermittent fever paroxysm generally commences in the morning.

Throat - Hoarseness, worse morning. Hoarseness and cough, with soreness in chest; must support it. Soreness in trachea and bronchia. Fauces sore, dryness of throat. Throat dry, at times becomes hoarse and loses her voice.

Vertigo - Vertigo, sensation of falling to left, worse lying on right side, better vomiting. Early in morning whirling around in brain as if he had been whirled in cool stream: repeated after a short cessation.

COMMENTS - Characteristic soreness, painful aching in the bones. Bruised feeling, especially in old injuries. Useful for residual bone pain, after the flu. Aching in limbs, throughout the body. Parietal protuberances, sore with pain.

Pains come and go quickly (Bell., Coloc., Mag-p.). Pain and extreme tenderness of left glutei muscles. Aching in the right scapula (similar to Chel., Phos., Gels.). A right-sided remedy, difficult to lie on the left side (Phos.). Swelling of the limbs.

Headaches with internal soreness. Migraine headaches, severe pain at the base of the brain. Congestive headache (Bell.). Headache with nausea and vomiting. Sleepiness and yawning. Dizzy with a tendency to fall to the left.

Influenza, periodic flus (Bry., Ip., Nux-v., Ars.). Winter colds, with sneezing in the back of the head. Bursting, severe headaches and a thirst for cold water (Bry., Oscilloc. has the headache and bone pains). Eyeballs are sore and achy. Dizziness (Gels.). Runny nose (All-c.). High fever, alternates with chills.

High fever with bone ache (Merc., Aur.). Bilious fevers. Edema with intermittent fever or malaria. Yellow fever. History of malaria. Periodic attacks of fever, colds, infection. High fever with increased aching, followed by scanty or profuse sweat. All pains better with sweat except headaches, which are worse. Headache is better rising up. Prostration.

Chilliness predominates, wants to be covered, better in the house, worse in open air. Chills with a shudder down the back. Chills begin in the small of the back with aching in the limbs as though every bone in the body were being broken. Difficulty getting comfortable because of a bruised feeling, restless (Ars.).

Prominent catarrhal symptoms. Sore throat, hoarseness in the morning.

Hoarseness with aching soreness of the trachea. Hoarse, rough, dry, hacking cough with scraping in bronchia. Desire for something cold to relieve the throat.

Sternal pains, especially when coughing. Bruised feeling with cough, desire to hold the chest (Bry.). Cough with extreme soreness down trachea. Painful cough. Nocturnal, loose cough. Cough better by getting on hands and knees, kneeling with face towards pillow, worse lying on back.

W. P. Defriez reported a case in which, every winter for several years, the patient had been annoyed by a dry, hacking cough with paroxysms lasting some time, only relieved by getting on hands and knees. Eup-per. cured. Cough arising from irritation of the liver. Bilious vomiting and diarrhea, bilious sick headaches. Liver pain, soreness, may desire to rub the liver which is enlarged and tender. Hepatitis. Jaundice, clay-colored, white stools. Bile in the urine, mahogany colored urine. Gout.

Bitter, bile taste in the mouth. Intense thirst, but drinking cold water causes shuddering and vomiting of bile. Eating causes violent, distressing pains which are relieved only by vomiting. Can be disgusted by food, nausea from smelling food (Colch.).

RELATIONS - Compare: (1) Bry., Sep., Nairn., Chel. (2) Nyctanthes arbor-tristis - bilious fever insatiable thirst, bitter vomiting at close of chill, also constipation of children.

***EUPATORIUM PURPUREUM

(Gravel Root)

PHARMACY - eup-pur. Eupatorium purpureum. Gravel root. Queen of the meadow. Joe Pye weed. Trumpet weed. N. O. Composite. Tincture of the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Bedwetting. **Bladder, irritable.** Chills. **Cystitis. Diabetes, insipidus.** Dropsy. Dyspnea. Dysuria. Enlarged, prostate. Fever. Gravel. Headache. Hematuria. Homesickness. Hysteria. Impotence. Indigestion. Infertility. Intermittent fever. Leucorrhea. Miscarriages. Kidney colic. Metritis. Nausea. Rheumatism. Sciatica. Stones. Strangury. Throat, sore. Urine, retention. Vomiting.

HERBAL - The common name, "gravel root," indicates the traditional use of the drug and in the hands of the eclectics it has well in cases of irritable bladder, diabetes insipidus, incontinence of urine, and kidney stones. Hale mentioned that impotency has been cured in the male and infertility and uterine atony in the female. It is similar in action to Cimic. and Helon. here.

HOMEOPATHIC - Eup-pur. was well proved by a Mrs. Dresser; she experienced a feeling of homesickness even when living in her own house. Distressing dyspnea from dropsy.

Kidney dropsy. Albuminuria, diabetes, strangury, **irritable bladder.** Cystitis in pregnant women from riding over rough roads. Enlarged prostate. Impotency and infertility.

Bone pains, nausea and vomiting accompany fever. Sweat is slight. Restless tossing, moaning, unable to lie down. General soreness (Eup-pur.). Chills and pains run upwards, beginning in the back, with shaking and comparatively little coldness.

MIND - Homesick, even though at home and among family. Sighing. Depressed and sleepy. Hysterical, low-spirited state. Great fear of sickness. Talkative, exclamations.

Stupid, dull mind. Delusions of sight and hearing. Delusion that heels were crowding through boots. Delusion so marked that she felt compelled to look and see if it was really the case.

Abdomen - Pain and soreness of abdomen, much worse left side. Hypogastric region swollen and hot. Rumbling, rolling and twisting pain in bowels. Severe colic after voiding urine.

Back - Weight and heaviness in back and Joins. Cutting pain in neck running from left shoulder to occiput. Between shoulder-blades chilly feeling. Pains running upward from sacrum into kidneys from left side of back and hip. Distressing pain in lumbar region before chill.

Bladder - **Cystitis** in pregnant women on riding on rough roads. **Bladder irritability in women.** Strangury. Burning in bladder and urethra on urinating. Constant desire, even after frequent urination, the bladder feels full. Soreness and pain in bladder. **Smarting and burning pain very intense in bladder and urethra.** Cutting, aching pain in bladder, with constant desire to urinate.

Chest - Grating sensation in chest at every deep inspiration.

Cough - Hacking cough in evening. Cough with soreness and heat in bronchia. Dry, hacking cough in spells. Cough before attack of intermittent fever. Cough continuing throughout paroxysm.

Ears - Ears feel full. Illusions of hearing. Crackling, worse on swallowing.

Eyes - Staring. Red and swollen, with headache. Lachrymation.

Face - Face flushed. Lips blue.

Female - Profuse leucorrhea, caused by exhaustion and chronic metritis. Numbness, worse in groin. External genitals, vulva feels as though wet. Quick jerking pain in left ovary. Tense, cutting pain above left ovary. Sterility from ovarian atony. **Threatened miscarriages.** Habitual miscarriage at third or fourth month. Inefficient labor-pains.

Food - No appetite. Loss of appetite during fever, desire to eat immediately after. Desire for warm drinks. Desires lemonade. Desires cold drinks during chill. Thirst during chill and heat. Thirst before chill, none during. Thirst with dropsy. Longing for hot drinks.

Head - Sick headache beginning in morning, worse afternoon and evening, worse in cold air. Left sided headache with vertigo, as if falling to the left side. Pain from left shoulder to occiput.

Heart - Violent palpitations. Fluttering in heart and throat. Pulse accelerated and full.

Kidneys - **Nephritis, with severe pain in back, after taking cold.** Chronic nephritis. Deep, dull pain in kidneys. Cutting pains. **Diabetes insipidus.** Dysuria. Insufficient flow, milky. Urine smells sweet. Urinary

Eupatorium purpureum stream smaller. Hematuria. Incontinence of urine, in children. Frequent effort with passage of but a few drops of urine. Weak, tired and faint after urinary symptoms. Kidney and bladder stones.

Limbs - Tired, weak, uneasiness in limbs with numbness and gnawing pains. Rheumatic pains shifting from place to place, always from below upward. Soreness of bones, aching of limbs as if bones were broken. Pains come and go suddenly, very restless, but not better by motion. Pains in arms and legs before chill, limbs cold during fever. Neuralgia of right shoulder or right knee, passing over to left.

Lungs - Dyspnea with dropsy. Sighing every few minutes. Strong desire to inflate the lungs, which she continued to do from time to time without noticing particularly that she was doing so.

Male - Impotency from exhaustion or abuse.

Modalities - Worse from motion. Worse left side. Changing position ever so little causes chilliness down back. Sensation as if falling to left side (Eup-per.).

Mouth - Tongue furred, brown along center. Tongue, prickling and stinging in tip, on back. Numbness of tongue. Saliva abundant.

Nose - Coryza. Hoarseness. Hacking cough, in evening. Cough with soreness and heat in bronchi.

Perspiration - Sweats about forehead. Sweats on upper portion of body.

Rectum - Bilious diarrhea. Pressure and weight on rectum. Feeling as if bowels must be moved immediately, without being able to do so. Bowels loose, during ague.

Sleep - Yawning, gaping and sighing. Sleepy and depressed. Sleep restless and mind disturbed, frightful dreams.

Skin - Skin hot and dry with fever, hot to touch in face.

Stomach - Wants lemonade or cold drinks during chill. Much wind in stomach, belchings almost constant. Nausea at smell or sight of food or cooking. Great nausea but no vomiting, with chill. Vomiting with fever with sick headache. Gripping, crampy pain.

Temperature - **No thirst** during chill, but much frontal ache. **Chill commences in back.** Violent shaking with comparatively little coldness. Fever with protracted bone pains, nausea and vomiting, followed by slight sweat, mostly about forehead and head.

Throat - Choking fullness, must swallow often. Burning, as if had swallowed some hot substance, most at back of throat, worse swallowing. Pain left side of throat, causing pain on swallowing, before chill. Fluttering in throat pit.

Vertigo - Light headed, dizzy, as if flying round and round. Vertigo as if falling towards left side. Vertigo worse morning. Vertigo with illusions of sight and hearing.

RELATIONS - Compare: (1) Senec., Cann-s., Helon., Ph-ac, Triticum, Epigea. (2) Apoc. - dropsy., Apis., Cann-s., Canth., Cop., For., Hydre., Mit., Senec., (3) Vespa- kidney symptoms. (4) Caps.. Ph-ac. in homesickness. (5) Eup-per., Colch. - nausea at smell of food.

REFERENCES - Boericke. Clarke. Phatak.

***EUPHORBIA AMYGDALOIDES

(Wood Spurge)

PHARMACY - euph-a. Euphorbia amygdaloides. Wood spurge. Euphorbia sylvatica. N. O. Euphorbiaceae. Middle and Southern Europe. Tincture of plant./fivtorica/ **dose:** All potencies.

CLINICAL - Antrum, pain. Anus, spasms, prolapse. Debility. Diarrhea. Dysentery. Hemorrhoids. Skin,

eruptions. Smell, illusion. Spleen disorders. Throat, soreness.

HOMEOPATHIC - Produces irritation and burning sensations of the intestinal tract with vomiting and diarrhea. Dark brown, watery, mucus stools, sometimes mixed with solid feces. Sometimes offensive with blood, mostly in afternoon. Diarrhea, stools difficult with painful anal spasm.

If stool lasts two or three days there is prolapse returning very gradually, if replaced within half an hour the bowel generally prolapses again. If the diarrhea lasts longer, external hemorrhoids appear, not returning with the prolapse.

Rheumatic pains come on when heated. Malaise, tired weak feeling during and after walking. Restlessness all night, turning about half awake and half asleep. Pain in antrum. Sense of taste blunted. Cold water relieves burning in back of throat (Caps., burning worse from cold water). Skin disorders. Symptoms go from right to left.

Abdomen - Tightness, stitch in region of spleen. Sensation as if a long worm writhing in region of transverse colon or duodenum. Throbbing in groins.

Liver - Severe stitches in liver, when walking up a hill.

Lungs - Heat in chest, radiating from stomach. Feeling as if lungs remained partly inflated. Hoarseness.

Modalities - Better after eating. Worse evening. Worse from walking.

Rectum - Feeling or action of the liver, followed by griping and passing of offensive flatus. Offensive diarrhea, followed by slight prolapse rendering sitting uneasy, going off gradually. Stool difficult from painful spasm of anus, continued after the evacuation.

Sensations - Illusion of smell, "**odor of mice.**" Seething sensation in the head and thigh.

Stool - Dark brown, watery, mucus stool, sometimes mixed with solid feces, sometimes offensive. Feces small, lumpy, slimy with prolapse, though there had been no straining. Diarrhea returns at lengthened intervals.

Stomach - Nausea, worse moving about indoors, better sitting still, from supper.

REFERENCES - Clarke.

***EUPHORBIA COROLLATA

(Large Flowering Spurge)

PHARMACY - euph-c. Euphorbia corollata. Large flowering spurge. N. O. Euphorbiaceae. North America. Tincture and triturations of the root. **Historical dose:** All potencies.

CLINICAL - Cholera. Cholera, infantum. Cholerine. Dehydration. Diarrhea. Gastritis. Nausea. Seasickness. Vomiting.

HOMEOPATHIC - Euph-c. is a diaphoretic, expectorant and cathartic of the old school. It produces gastro-enteric disturbances like other Euphorbias, but with peculiarities especially in the sequence and character of the vomit.

Deadly nausea, sudden and powerful vomiting of food in stomach. Vomits large quantities of water mixed with mucus, then of clear fluid like rice-water. Copious watery evacuations of the bowels.

Gastro-enteric disturbances with great anxiety, deadly prostration and cold sweat. Attacks recur after short intermissions. Dehydration. Feeling of clawing in stomach, cold sweat (Verat.).

COMMENTS -Grimmerremarked "Euphorbia tends to particularly affect the gastrointestinal tract, copious vomiting, rice water stools, cold sweat, prostration, wants to die, intermittent attacks."

REFERENCES - Clarke. Grimmer.

***EUPHORBIA CYPARISSIAS

(Cypress spurge)

PHARMACY-euph-cy. Euphorbiacyparissias. Cypress spurge. N. O. Euphorbiaceae. Europe, North Africa. Tincture of fresh plant. **Historical dose:** All potencies.

CLINICAL - Erysipelas. Miliaria. Vesicles.

HOMEOPATHIC - The effects of Euph-cy. have been observed on persons pulling the plants and getting the juice on hands and face. Acts as an intense irritant of the skin and produces a feeling of chilliness.

REFERENCES - Clarke.

***EUPHORBIA HETERODOXA

(Alveloz)

PHARMACY - euph-he. Euphorbia heterodoxa. Alveloz. N. O. Euphorbiaceae. A soft resin insoluble in alcohol or water. Trituration. **Historical dose:** All potencies.

HOMEOPATHIC - The resin has been used allopathically as an external application in cases of cancer and has produced the most terrible pains. Euph-he. has been found to alleviate the **burning pains of cancer** in

homeopathic potencies.

RELATIONS - Compare: (1) Euphorbium.

REFERENCES - Clarke.

*****EUPHORBIA HYPERICIFOLIA**

(Large Spotted Spurge)

PHARMACY - euph-hy. Euphorbia hypericifolia. Large spotted spurge. N. O. Euphorbiaceae. Tincture of whole plant. **Historical dose:** All potencies.

CLINICAL - Constipation. Headaches.

HOMEOPATHIC - Dr. True took the infusion and tincture of Euph-hy. and obtained symptoms from both. Symptoms include headache in fore part of head, pain centering at crown with heat above the eyes and fullness and oppression at epigastrium, followed by languor and drowsiness. Constipation.

REFERENCES - Clarke.

*****EUPHORBIA IPECACUANHAE**

(Ipecacuan Spurge)

PHARMACY - euph-ip. Euphorbia ipecacuanha. Ipecacuan spurge. N. O. Euphorbiaceae. Trituration of the powdered root. **Historical dose:** All potencies.

HOMEOPATHIC - Euph-ip. is a more active emetic than Ip. Long-continued vomiting with a sense of heat, vertigo, indistinct vision and prostration. Gastritis.

REFERENCES - Clarke. Grimmer.

*****EUPHORBIA LATHYRIS**

(Caper Spurge)

PHARMACY - euph-1. Euphorbia lathyris. Caper spurge. N. O. Euphorbiaceae. A tincture of the whole plant is made. **Historical dose:** All potencies.

CLINICAL - Cholera. Diarrhea. Dysentery.

HOMEOPATHIC - The fresh, milky juice is exceedingly acrid when applied to the skin and the fruit is highly purgative and poisonous. The juice causes redness, itching, pimples, sometimes gangrene.

Poisoning from the seeds produces symptoms including retching, vomiting, and bloody stools with brilliant eyes, flushed face. The abdomen is drawn inward.

The whole body is stiff and icy cold. Uneasiness. The symptoms point to its use in erysipelas, poison oak, etc. Rheumatic pains during rest. Paralytic weakness in joints.

MIND - Delirium and hallucinations. Stupor, coma.

Eyes - Almost closed from **edema of eyelids**.

Face - At first ruddy glow on cheeks, afterwards death-like pallor. Cold perspiration in beads on forehead. Red, puffed face and in spots suppurating. Erythema, beginning on face, gradually extending into the hair parts and then spreading over whole body. Glossy eruption, rough edematous with burning and smarting, aggravated by touch and cold air, ameliorated by close room and sweet-oil applications. Bran-like desquamation. Stinging, smarting and burning of face when touched. Sensation of cobwebs.

Heart - Weak and fluttering.

Kidneys - Copious flow of urine.

Lungs - Labored breathing. Cold breath, musty odor. Cough, first hacking, as from inhalation of sulphur, later on, regular paroxysms like whooping cough. Cough ending in diarrhea and vomiting, with sleepiness between each paroxysm.

Male - Inflammation of scrotum, resulting in deep acrid ulcers with intense itching and burning, worse touching the parts, or from washing.

Modalities - Better close room. Better sweet-oil application. Worse touch. Worse cold air.

Mouth - Tongue coated, slimy, acrid taste. Breath cold, musty odor.

Nose - End of nose very much inflamed externally. **Very sensitive and edematous** mucus membranes with ulceration.

Pulse - 120 beats, full, bounding, somewhat irregular.

Rectum - Drastic purgation from large doses, mild laxative condition from smaller doses, followed several weeks afterwards by obstinate constipation. Stools of white, transparent, gelatinous mucus, later mingled with blood.

Skin - Erythema, beginning on uncovered parts and face, and spreading over whole body, glossy, rough, edematous with burning and smarting. Fine bran-like desquamation following in the wake

of the erythema. Eruption rough, scaly, smarting and burning, when scratched forms deep, ragged ulcers. Ulcerated skin remains red.

Sleep - Restlessness at night. Sleep disturbed, anxious dreams.

Stomach - Nausea and vomiting of copious, clear water intermingled with white, gelatinous lumps.

Temperature - Body bathed in profuse perspiration, standing out like beads on forehead. Cold, clammy perspiration on forehead. Temperature increased.

RELATIONS - Antidoted by: Rhus-t. - skin symptoms. Verat. - vomiting, purging, cough and coma.

REFERENCES Clarke.

***EUPHORBIA PEPLUS

(Petty Spurge)

PHARMACY - euph-pe. Euphorbia peplus. Petty spurge. N. O. Euphorbiaceae. Effect of juice and local application of leaves. **Historical dose:** All potencies.

CLINICAL - Ecthyma. Erysipelas. Sore, throat.

HOMEOPATHIC - The application of the juice and leaves sets up intense and painful inflammation, erysipelatous, phlegmonous, pustular with intense burning pain.

COMMENTS - In one of the cases observed, the juice of the stem was applied to an inflamed gum. In another, a boy applied the leaves as a poultice to a black eye.

Burnett produced a sore throat in himself by chewing the herb. He cured with the 3x a case of simple sore throat with swelling and painful swallowing.

REFERENCES Clarke.

***EUPHORBIA PILULIFERA

PHARMACY - euph-pi. Euphorbia pilulifera. Euphorbia hirta. N. O. Euphorbiaceae. Tincture. **Historical dose:** All potencies.

CLINICAL - Asthma. Bronchitis. Dyspnea. Gonorrhea. Hay fever. Leucorrhea. Sunstroke. Traumatism. Urethritis.

HOMEOPATHIC - In the Medical Press of May 3, 1893, Dr. George Foy gave an account of this medicine. Gray, in 1817, mentioned it as a remedy for syphilis and for venomous bites.

In gonorrhea, when there are intense pains at each urination, burning pains which oblige the patient to sit down or to keep quiet, and violent desire to pass water (Cann-s., Canth.). Humid asthma with prostration and restlessness. Hemorrhages caused by sunstroke or traumatism.

None of the irritant effects common to most of the Euphorbias were produced, but there was a powerful action on the heart. First, an alarmingly quick pulse, and then a sudden chill.

Cardiac dyspnea, hay fever and bronchitis. Urethritis with intense pain on urinating and much urging. Acrid leucorrhea, worse least movement. It has been used by the old-school practitioners in asthma, hay asthma and bronchitis, chiefly in considerable doses.

COMMENTS - In the Universal Homeopathic Annual, Dr. Cartier gave this account: "Euphorbia pilulifera has given excellent results in cases of acrid leucorrhea, aggravated by the least motion, especially useful for pale, delicate and sensitive women" (Facaranda).

REFERENCES Clarke.

***EUPHORBIA POLYCARPA

(Golondrina)

PHARMACY - euph-po. Euphorbia poly carpa. Golondrina. Euphorbiagolondrina. N. O. Euphorbiaceae.

Historical dose: All potencies.

CLINICAL - Snakebites.

HOMEOPATHIC - An antidote to snake poison, its use also renders the body immune to the influence of the snake venom and thus acts as a prophylactic.

RELATIONS - Compare: (1) Cedrón., The Euphorbias. (2) Euphorbia prostata - Used by Indians as an infallible remedy against bites of poisonous insects and snakes, especially the rattle-snake. (3) Plumeria celinus Tincture internally and locally every 15 minutes for snake poisoning, (Dr. Correa). (4) Micania guacho, a Brazilian snake cure. (5) Selaginella - Macerate in milk, locally and internally for bites of snakes and spiders. Iodine, tincture for rattle snake bites externally and one drop doses every 10 minutes. (6) Gymnema sylvestre will abolish the taste of bitter things, sense of taste altered, powdered root for snakebite, (7) Sisyrinchium - Ten to fifteen drop doses of tincture for rattlesnake bites.

REFERENCES - Boericke. Clarke.

***EUPHORBIIUM OFFICINARUM

(Gum Euphorbium)

PHARMACY-euph. Euphorbium officinarum. Gum euphorbium. Euphorbia resinifera. The resinous exudation or juice of Euphorbia resinifera exported from Morocco. Euphorbia resinifera is a cactus-like plant of the Euphorbiaceae. N. O. Euphorbiaceae. **Historical dose:** All potencies.

CLINICAL - Blisters. Bone, disease. Cancer. **Cancer, pains.** Cataract. Coccyx, pain. Coughs. Crusta, lactea. Diplopia. **Erysipelas.** Eyes, inflammation. **Gangrene.** Hay fever. Headache. Heartburn. Influenza. Peritonitis. Sciatica. Syphilis. Teeth, disorders. Toothaches. Ulcers. Vision, disorders. Warts. Writer's cramp.

HOMEOPATHIC - Euph. is an irritant to the skin and mucus membranes, causing much secretion with a sense of dryness. **Terrible burning pains, as if a live coal were on or in the part.** Burning pain in bones. Burning pain in internal parts. **Burning pains of cancer.**

Pains in limbs and paralytic weakness in joints. Rheumatic pains of a tearing, pressing, and stinging character, but only during rest.

Slow inflammations. Blisters. Gangrene of old persons. Everything appears larger than it really is. Convulsions with loss of consciousness. Congestion of blood to head.

MIND - Acute mania with symptoms of violent cerebral congestion. Melancholy. Anxiety and apprehension. Starting at night while lying awake in bed. Wants to be by himself and in silence. Quiet, reflective mood. Inclination to work.

Temporary attacks of madness. Delusion he sees the same man walking after him that he sees walking before him. Insists upon saying his prayers at the tail of his horse. Everything seems larger than it really is. **Abdomen** - Excessive colic and tympanites.

Spasmodic, flatulent colic. **Burning like fire in abdomen and stomach.** Gripping through whole intestinal canal, followed by thin stool, with burning itching about rectum. Much rumbling, followed by emission of flatus. Anxious sore aching in lower abdomen. Sunken. Feels hollow.

Back - Coccyx sensitive to touch. Pain in coccyx, worse on rising from sitting, worse after stool. Feeling of pressure in muscles of back. Sensation in lumbar region or joints, as if paralyzed.

Chest - Burning and sharp pains in left side of chest, during rest, better motion. Stitch-like pressure upon sternum while sitting and standing. Warm feeling in chest, as if hot food had been swallowed. As if left lobe of lung was adhering. Heaviness in pectoral muscles, when turning body to right side.

Ears - Ringing in ears, also when sneezing. Roaring at night. Buzzing in right ear, can't sleep at night.

Eyes - Pale-red inflammation of eyelids with nightly agglutination. Swelling of lids. Heaviness of upper lids. Biting in eyes, with lachrymation. Great dryness in eyes with profuse discharge. Eyes inflamed and agglutinated in morning. Intolerance of light. Chronic ophthalmia. Eyelids itch severely, are wet and agglutinated. Purulent discharge.

Face - Red swelling of cheeks. Burning in cheek, worse left. Eyes inflamed and agglutinated in morning. **Erysipelas.** Yellow blisters.

Food - Great hunger. Thirst for cold drinks.

Head - Stupefying frontal headache. Constrictive headache in occiput. Violent, pressive headache. **Erysipelas of head and face, with digging, boring and gnawing pains.** Sore pain as if beaten, in occiput, worse morning. **Bruised pain in head,** in occiput and forehead.

Heart - Irregular, hurried pulse.

Limbs - Paralytic pains. Hip-joint as if sprained. Pain in hip joint and coccyx. Paralytic tightness in shoulder joint, mornings, from moving arm. Cramp in muscles of right hand when writing. Paralytic pain in wrist on moving it. Great weakness of legs. Cold sweat on legs in morning. Burning, at night in bones of hip and thigh. Numbness of feet when sitting. Sciatica.

Lungs - Breathing oppressed as if chest were not wide enough. Violent, fluent coryza with burning and cough. Spasmodic, dry cough, day and night with asthma. Constant cough with stitches from pit of stomach to sides of chest. Croup, dry, hollow, cough. Warm feeling in chest, as if hot food had been swallowed.

Modalities - Better from application of oil. Better cold application. Better motion. **Worse from sitting.** Worse rest. Worse beginning of motion. Worse mercury. Worse touch.

Mouth - Dryness of mouth without thirst. Mouth feels coated with rancid grease. Profuse saliva. Saliva tastes salty. Mouth feels coated with rancid grease. Flat taste in mouth, after breakfast. White coated tongue. Much tenacious mucus in mouth, after midday sleep. Salivation preceded by shivering. Teeth as if screwed together, brittle, crumbling, decay.

Nose - Nasal itching with mucus secretions from naso-pharynx. Much abortive sneezing. Coryza with swelling. Acrid ozaena. Violent, fluent coryza, with burning and cough. Coryza with watery discharge from eyes and

nose.

Rectum - Burning, sore, around anus. Constipation from inactivity of bowels, hard stool, difficult to pass. Gripping pain followed by thin stool. Violent burning itching of rectum. Profuse diarrhea and vomiting. Diarrhea with tenesmus, burn-

ing at anus and soreness in abdomen. Stools like glue, painful and flatulent, preceded by itching of rectum. Stool first thin, then knotty. Stools fermented, profuse, clay.

Skin - Erysipelatous inflammation, especially of the cheek. Biting, stinging, red, swollen. **Vesicular erysipelas**. Pustules, vesicles filled with yellow lymph or liquid. Carbuncle. Old, torpid, indolent ulcers with biting, sharp pain. **Gangrene** (Echi., Sec.). Ulcerating carcinoma and epithelioma of the skin. As if thin cord lay under skin.

Sleep - Sleepiness during day. Sleeplessness with tremulous tossing about before midnight, roaring in ears, unable to close eyes. Sudden starting up as from an electric shock at night, while lying awake in bed. Anxious, vivid dreams at night, causing him to cry out, whereupon he awakes.

Stomach - Burning like fire in stomach and abdomen. **Inflammation of stomach**. Eructations. Frequent hiccough. **Erysipelatous gastritis**. Profuse empty eructations. As if stomach were hanging loose. Nausea with shuddering. Vomiting with diarrhea. Waterbrash.

Temperature - Chilliness and shivering over whole body, in morning. Chilliness while walking in open air. Shivering over back with glowing cheeks and cold hands. Constant chilliness with constant sweat. Coldness of body with internal burning heat. Great heat. Fever with aversion to be dressed, clothing feels too heavy. Heat only on head. High fever.

Throat - Burning as from hot coal in throat with pain and anxiety. Scraping and rawness in throat. Burning in throat and stomach as if flame were rushing out. Burning pains with pain and anxiety.

Vertigo - Violent vertigo, when standing. Vertigo walking in open air.

Vision - Diplopia. Dim or feeble vision. Cataract. Lens milk white. Sees better on a dark day.

RELATIONS - Antidoted by: Camph., Op., large quantities of lemon juice. **It antidotes:** Ars., Nux-v. v.

Compare: (1) Euphorbia marginata, Snow on the mountain - Honey from the flowers is poisonous, detected by the hot, acrid taste. The milky juice produces skin symptoms like Rhus-t. (2) Psoralea - A Columbian plant - pains of cancer, ulcers. Leucorrhea fetid. Pruritus. Uterine tumors. (3) Crot-t., Jat. (4) Colch., Elat., Ant-t., Verat. (5) Euphorbiaceous plants Acai., Crot-t., Jat., Mancin., Mercurialis., Ricinus, Yucca fil. **It follows:** Graph., Lach., Puls., Sep., Sulph.

***EUPHRASIA OFFICINALIS

(Eyebright)

PHARMACY - euphr. Euphrasia officinalis. Eyebright. N. O. Scrofulariaceae. Tincture of whole plant.

Historical dose: Tincture and all potencies.

CLINICAL - Allergies. Anus, prolapse. Blepharitis. Cataract. Colds. Colic. Condylomata. **Conjunctivitis**. Coryza. Cough. **Eye, disorders.** Glandular swellings. Granular, **eyelids. Hayfever.** Influenza. **itis. Lachrymation.** Lips, stiffness. **Measles.** Nasal, catarrh. Nose, cancer. Parotiditis. Phlyctenule. Pimples. Ptosis. Prostate gland, disorders. Scrofula. Staphyloma. Sycosis.

HERBAL - The common name of "eyebright" gives the indication for the use of this remedy. According to Grauvogl, the plant has a "signature of a black spot in the corolla which looks like the eye's pupil."

HOMEOPATHIC - Produces inflammation of the conjunctiva membranes and profuse lachrymation. It affects the mucus membranes of the **eyes**, nose and chest, producing acute catarrh with free, acrid, watery secretions. Irritation extends to the skin around the eye and nose, disorders of the external nose.

Allergies and hay fever. Tears are acrid, nasal discharge is bland, worse in the evening. Sensation **as if sand in the eyes**. Acrid pus. Catarrh in the chest, producing hoarseness and cough with profuse expectoration. Hawking up of offensive mucus, may cause vomiting.

Cough after the disappearance of hemorrhoids. Colic, hemorrhoids and condylomata at anus. Drowsiness without being able to sleep, frequent waking in the night as from fright. Symptoms are better in open air.

Frequent yawning when walking in the open air.

MIND - Taciturn and repugnant to conversation. Aversion to answering. Disinclined to talk. Hypochondriacal mood, takes no interest in his surroundings. Indolence. Melancholy.

Abstraction of the mind. Weakness of memory. Confusion better cold bath, better washing face. Inclination to sit. Starting from sleep.

Abdomen - Frequent colic. Pinchings in abdomen by short fits. Pressive squeezing and burning across abdomen. Colic, alternately with disorders of eyes.

Back - Cramp-like, pressive pains in back. Swelling of cervical glands.

Chest - Pressive pain beneath sternum. Transient sticking here and there in chest. Sharp pains under the sternum during an inspiration.

Cough - Cough with easy expectoration, in daytime only, better lying down, better at night. Cough caused by irritation in larynx. Cough with profuse expectoration of mucus. Cough from smoke of wood. Cough after disappearance of hemorrhoids. Cough can be suppressed by a sip of water. Cough after influenza. Whooping cough only in daytime, with profuse lachrymation.

Ears - Otolgia with piercing pains in the region of the tympanum. Earache. Impaired, during catarrhal fever. Ringing in ear.

Eyes - Hay fever with watery eyes. **Catarrhal conjunctivitis**, discharge of acrid matter. **Eyes water all the time**. Conjunctivitis with measles. Conjunctivitis instead of the menses. **Acrid lachrymation, bland coryza** (All-c., opposite). Thick, acrid, yellow discharge from the eyes (Merc.). **Profuse hot or acrid tears**, worse open air, lying or coughing. **Sensation as if sand in the eyes**. Little blister on cornea. Sticky mucus on cornea, must wink to remove it. Frequent inclination to blink. Photophobia with spasms of the lids. Sharp pains in eyeballs from bright light. Ptosis (Gels., Caust.). **Burning and swelling of the lids**. Burning, sharp pains in eyes. Pressive, cutting pains in the eyes. Pain in the eye, alternating with pain in abdomen. Pressure in eyes. Chronic sore eyes. Rheumatic iritis. Cataract with watery eyes. Opacities of cornea after injury.

Face - Redness of the face. Rash on face, itching in warmth, becoming red and burning when moistened. Miliary eruption on the face with sensation of burning and redness, on wetting the face. Stiffness of left cheek, tongue. Upper lip stiff as if made of wood. Shootings in the lower jaw and chin.

Female - **Menses late, painful, flow lasts only an hour or day**. Menses scanty, and short. **Amenorrhea with ophthalmia** and ulcer on right side of the nose. Stitching pains and itching when walking in open air. Condylomata.

Food - Better from coffee. Nausea and bitterness after smoking. Cough better eating. Tickling in trachea worse tobacco smoke.

Head - Headaches with coryza. Pressive headache with photophobia and heat, chiefly in the forehead. Sensation as if the head would burst. **Catarrhal headache** with profuse discharge from eyes and nose. Shootings pain in the temples and in the forehead. Pulsations of head. Beating in the head, perceptible on the outside. Dullness of head with pressure on vertex. Sharp pains in brain.

Kidneys - Frequent and copious emission of clear urine. Nocturnal irritability of bladder. Dribbling urine. Urine too often and copious.

Limbs - Numbness in the arms and hands. Cramp-like pressive pains in the hands and the fingers. Fits of (painless) swelling in the joints of the hand or of the fingers on moving them. Cramp pain in the metacarpus. Torpor of the fingers. Shootings in the legs during repose. Stitches in the hip and knee joints when walking. Tension, as from contraction of the tendons, Achilles tendon, on walking. Cracking in the outer ankle of left foot, when stepping.

Lungs - Difficulty of breathing, shortness of breath, even when seated. Cough with suspension of respiration. Cough with much, easy expectoration in day, less on lying down, at night. Frequent yawning when walking in open air. Cough in the morning with copious expectoration of mucus and fluent coryza. Whooping cough only in day with profuse lachrymation.

Male - Spasmodic retraction of genitals with pressure above the pubic bone. Retraction and tingling of the testes. **Prostatitis**. Nocturnal irritability of bladder, dribbling urine. Lancination and voluptuous itching in the glans and in the prepuce. Condylomata and sycotic growths, itching, stinging with sore and burning pain when touched.

Modalities - **Better from open air**. Better winking. Better wiping eyes. Better dark. Better in bed or getting out of bed. Better from coffee. **Worse wind**. Worse south winds. Worse warmth. **Worse from sunlight**. Worse room, indoor. Worse evening. Worse after sleep. Lying down aggravates coryza, better cough. Cold air and wind causes lachrymation. Walking in open air causes yawning.

Mouth - Paralytic stiffness of the tongue and of the cheeks, making speech difficult. Stammering and frequent interruptions in the speech. Sensation of clucking, which mounts into the throat. Shooting pains in lower teeth. Copious bleeding of gums. Nausea and bitterness in the mouth after smoking.

Nose - **Hay fever and allergies**. Profuse bland, fluent coryza, with scalding tears and aversion to light. **Profuse, blandfluent coryza**. Fluent coryza by day, obstruction of the nose at night. Violent irritation to sneeze, without cold or apparent cause. Excoriation and painful sensibility of the nostrils. Nosebleeds. Purulent pimples on the ale nasi. Small red spots, like pimples, on upper right side of nose. Eruption on wings of nose. Flat cancer on the right side of the nose.

Perspiration - Copious nocturnal sweat. Sweats, mostly on chest, at night during sleep. Sweat often has a strong odor.

Very offensive sweat and most copious on front of chest.

Rectum - Constipation. Hard and scanty evacuations. Dysentery. Prolapse anus. Pressure in anus while sitting with hemorrhoids. Old flat condylomata at anus with severe burning, worse at night. Daily stool, but it is hard and scanty.

Sensations - As if dust or sand in eyes, as if a hair hung over eyes. As if upper lip were made of wood, stiffness of left cheek and tongue.

Skin - First stage of measles, eye symptoms marked. In measles with watery eyes and fluent coryza it is sometimes the best remedy. Condylomata, itching when walking, burning when touched. Touching skin produces aggravation. Consequences of blows, bruises and contusions. Fine eruption around eyes and on nose. Warts.

Sleep - Usually worse after sleep. Yawning when walking in open air. Sleepy during the day. Frequent waking (as from fright) at and after 3 a.m., lasting until 6 a.m., when he falls in a stupor from which he awakens with many complaints. Frightful dreams with frequent waking and starting with fright. Dreams of fire, lightning, flames, etc.

Stomach - Hiccough. Risings with taste of food. Nausea and bitterness after smoking. Vomiting from hawking mucus.

Temperature - Chilly and cold. Chill in the forenoon. Descending fever. Attacks of heat during day. Fever with redness of face and cold hands.

Throat - Gagging when clearing throat in morning. Catarrhal hoarseness, mornings. Irritation of larynx impelling him to cough, followed by tensive pressure beneath sternum.

Vertigo - Vertigo with heaviness of head. Vertigo with tendency to fall.

Vision - Dim vision hysterical. Everything seems enveloped in a mist and to move. Blurred vision, better wiping. Dim vision, as through a veil, in evening. Dim vision by candlelight, the light seems to vary. Light of candle seems to be dark and to flicker, during headache. Obscuration of vision for distant objects, while walking in open air.

COMMENTS - Great affinity for the eyes. Nonspecific organ remedy for the eyes. Good for concomitant symptoms relating to the eyes, particularly tearing or watery eyes, unrelated to current condition. Great value as an eye-lotion, can remove corneal opacities.

Allergy infections where the eyes are prominently involved, where the eye swells and waters. Watery, runny eyes, the whites of the eyes are red. Copious tearing, hot, acrid tears that irritate the skin. Eyes smart.

Conjunctivitis (Arg-n., Puls.). Conjunctivitis with measles, eye problems since measles. Pink eye, with yellow discharge, better walking around slowly (Puls.). Acute bacterial infections. Sensation that sand or gravel is under the eyelid, constant irritation or itchiness.

For dry eyes or blocked ducts. Migraine headaches with eye symptoms. Whooping cough with lachrymation. Photophobia. Colds, hay fever. Sneezing attacks. Coryza worse lying down, at night and in the open air. Worse windy weather. Chilly.

Hering noted a cure of "flat cancer on right side of nose."

Ames of Rockland, Ohio, recorded the case of an old man of 79 to whom he gave Euphr. 3x for lachrymation and sneezing. It relieved him of those symptoms in addition to prostatic trouble he had for some years, which compelled him to rise frequently in the night to urinate. This led Ames to give Euphr. in other cases of prostatic trouble with good results.

***EUPIONUM

(Wood tar)

PHARMACY - eupi. Eupionum. Wood tar. On distilling wood tar of the rubber tree a volatile oil is obtained which separates into a lighter and heavier oil, the heavier oil is Kreosote, the lighter is Eupion. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Cough. **Cramps.** Dreams. Glandular swellings. Groin, pains. Hemorrhages. **Headache.** **Leucorrhea.** Menorrhagia. Neuralgia. Nosebleed. Night-sweats. Ovarian, pain. Pruritus. Toothache. Tuberculosis. Tumors. **Uterine, displacements.** Vicarious, menstruation.

HOMEOPATHIC - Eupionum is a lighter volatile oil obtained from distillation of wood tar. It was proved by

Wahle in Rome, who also proved paraffin. The effects of Eupi. bear a close resemblance to those of Kreos., but are by no means identical with them.

Eupi. has a large number of symptoms centered in the female sexual organs. **Uterine displacements.** Pain in back, followed by a bland leucorrhea. Menses too early and copious, thin flow.

Sacrum pains as if broken, backache extends to pelvis, better leaning against anything for support or bending backwards. Cramps in calves at night. **Intense sweat from slightest exertion.** A sense in the feet as if walking on needles. Sensation as if whole body were made of jelly. Disgusting dreams.

MIND - Cheerful, joyous disposition. Irritable, angers easily. Frightened on waking. Great weakness of memory.

Abdomen - Stitches when walking in left anterior crest of ilium. Squeezing, pressing pain in left groin when quiet. Pains better passing flatus. Contracting pain and twisting better by bending over, day before menstruation. Cutting pains during menstruation, when the pains cease discharge is always copious, blood red and very thin.

Back - Sacrum pains as if broken. Pressive heaviness in lumbar vertebrae. Severe backache, must lean against something

for support. Pains extend into pelvis. Backache alternating with leucorrhea. Backache during menses.

Breasts - Breasts increase in size with pres- sive pains in them, as if something painful were drawn through them, with oppression. Stitches under right breast.

Chest - Heaviness, oppression, stitches and tickling in chest. Stitches and pressure in sternum.

Ears - Pressing in ears as if the wind was blown forcibly into them for a long time, the external parts being equally affected. Shooting and tearing in left ear, extending to external temporal region.

Eyes - Eyes weak, as if she had cried. Pressure above eyes as if the globes would be pushed out. Burning, pressive pains in eye, copious lachrymation. Lachrymation worse in fresh air, better in room. Everything appears pale, as if a thin veil were before eyes.

Face - Hard nodule, the size of a pea, on lower portion of inner side of right cheek. Upper lip fissured and painful, as if raw. Lips and throat always dry, yet without thirst. Lips painful as if sore.

Female - Menses too early and copious, irritable. During menses, irritable and disinclined to talk, burning and stitches in chest and heart. **Gushing leucorrhea**, yellow, staining. Leucorrhea with severe backache after menses, when pain in the back ceases, leucorrhea gushes out. Sore pain between labia during urination. Pruritus pudendi, labia swollen. **Burning in right ovary.** Chronic tubal disease. Uterine flexions. Uterine displacements.

Head - Heat at vertex, stitches from vertex down limbs into abdomen and genitals. Sore painful spots on head. Painful pulsation in forehead.

Heart - Palpitations with slow pulse, believes her heart must be heard some distance away. Severe palpitations before menses, ceasing when the flow begins.

Kidneys - Frequent inclination, scanty discharge, worse when standing than sitting. Copious urine, lemon color, chestnut brown before menses. Hot urine passed without pain.

Limbs - **Cramps in the calves**, worse at night. Paralytic, dislocation pain in right knee. Stitches in either knee. Tearing in limbs and restlessness in legs preventing sleep. Dislocation pains in joints of right hand. Heads of bones of fingers feel too large. Hands go to sleep easily.

Lungs - Crawling in upper bronchi causing dry cough. Rough, scraping, metallic, dry cough. Hard, suffocating, dry cough with stitches in chest, returning every winter. Cough better by warm drinks, by sitting up on bed with breaking out of perspiration.

Modalities - Bending forward ameliorates pain in abdomen. Bending backwards ameliorates backache. Rest ameliorates headache and pains in abdomen, aggravates other symptoms. Coughing and sneezing aggravates pains in abdomen. Cough returning every winter. Hot drink aggravates toothache. Worse morning and night. Worse blowing the nose.

Mouth - Whole tongue red, covered with raised pimples like herring roe. Tip of tongue dry, back covered with thin, dirty white coating. Anterior part of tongue rough like a grater. Insensible feeling in mouth, as if scalded by fat. Pappy and sticky in mouth, early in morning. Sour, putrid taste after eating.

Nose - Sneezing, each time he blows his nose the sneezing reappears. Sneezing with fluent coryza in morning. Left nostril cracked, bleeding. Bleeding, blood thin and fluid, when blowing nose. Menstrual flow intermits with nosebleed. Soreness in upper nose on drawing air through nostrils in evening.

Rectum - Itching after stool. Ineffectual inclination and straining. Tenesmus, better when blood is passed, this weakens her. Constipation, stool every three or four days with great straining and prolapsed uterus. Hard, dry stools with great straining. Dark blood in painless stools.

Sensations - As if dislocation of joints. As if muscles torn from bones, as if skin and muscles were too short.

Soles of feet numb as if walking on needles, sticking in heels.

Skin - Nodule on left forearm. Itching, biting in skin, in genitals, penetrating whole body, worse night, better during motion.

Sleep - Yawning with chilliness and shivering. Sleepiness towards noon. Dreams of disgusting things, of naked persons, anxious dreams of her child falling into the water. Frightful dreams, the same dream repeated, that she is pursued, or falling into an abyss. Wakes bathed in perspiration.

Stomach - Region of stomach feels internally sore and distended, pains under both short ribs. Bloating and sensation of fullness of stomach with internal chilliness in evening. Belchings tasting of food. Vomiting of food. Vomit emanating from lower abdomen, dark green, tasteless mucus.

Teeth - The teeth stick together when the jaws are closed. Teeth painful as if loose, gums swollen, scorbutic, worse by hot soup. Toothache-like numbness in carious molars, coming on immediately on lying down, better on rising and moving about. Sensation as if gums swollen and teeth would drop out. Gums swollen. Painful jerking-tearing in gums.

Temperature - Chilliness, with headache, stitching, better by warm drink. Dry heat towards noon. Foul smelling sweat on least exertion, when eating, all night. Copious night-sweat towards morning.

Throat - Sensation below larynx as if something was sticking there, with a short, dry, hacking cough. In morning, much white bad-tasting mucus in throat, expectorated after slight paroxysms of coughing. Sensation of mucus in throat without being able to expectorate. Sensation of dryness of uvula.

Vertigo - Everything turns around on sitting up in bed.

COMMENTS - Menstruation is too early and too copious, thin and fluid flow. Cutting in abdomen ceases when flow comes on. Nosebleed, when menstrual flow intermits. Yellow leucorrhea after menses, staining yellow.

Eupionum

Leucorrhea with severe backache, has to lean against something to give relief, when the backache ceases the discharge gushes out.

Palpitation with slow pulse. Painless pulsation in the head. Pulsations all over body while sitting quietly. Sticking pains in head and other parts. Cramps in the calves when accompanying uterine or chest complaints.

Weak eyes and obscured vision. Pressing in ears as if wind were blown in with force and for a long time. Teeth stick together when jaws are closed in morning sensation as if teeth were embedded in some soft matter. Tongue covered with raised nodules. Pain in inguinal region.

Nodules appear on inner side of right cheek, left side of neck and left forearm. Painful glandular swellings in groins. Spasmodic, periodic pain an inch up rectum. Bloody stool.

Headache and chilliness. Coldness of whole right side of the body. Colliquative perspiration. Perspires from least exertion, when eating, all night (with tuberculosis). Wobbling sensation in upper part of body, everything becomes dark to her. Great irritability.

RELATIONS - Graph, antidoted the effects on eyelids. **Compare:** (1) Kreos. and the Carbons. (2) Lach. - pain ceases when discharges appear.

*****EYSENHARDTIA POLYSTACIA**

(Ortega)

PHARMACY - eys. Eyesenhardtia polystacia. Ortega. Eyesenhardtia adenostylis. N. O. Anonaceae family. Central America, western Texas. Tincture of the hardwood of the trunk. **Historical dose:** Tincture and all potencies.

CLINICAL - Cystitis. Headaches. Kidney, colic. Kidney, diseases. Neuralgias.

HERBAL - A small tree, belonging to the Anonaceae family, found in Guatemala and West Texas. Central American natives used it for kidney diseases.

HOMEOPATHIC - The symptomatology was established by Egee in 1932, on seven provers, using the 6x potency. Slow and difficult concentration. Sleepiness in the afternoon and evening. Neuralgia of the forehead and eyes. Dull aching in the head, localized especially on the forehead and above the eyes. Eyelids heavy. Throat dry. Burning pain in the thighs. Cystitis. Urination frequent, late and scanty. Kidney colic. Worse between 4 p.m. and 6 p.m. Worse in the evening.

REFERENCES - Julian.

*****FABIANA IMBRICATA**

(Pichi Pichi)

PHARMACY - fab. Fabiana imbricala. Pichi pichi. N. O. Solanaceae. A South American shrub cultivated in Southern California. Tincture of the juice. Fluid extract. **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder, weakness. Cystitis. Dysuria. Gallstones. Gonorrhea. Jaundice. Kidney, stones. Liver, disorders. Prostate, disease. **Prostatitis**. Uric acid, diathesis.

HOMEOPATHIC - *Fabiana imbricata* has been used as a terebrinthine diuretic. It has tonic and chologogue properties, and is used in the treatment of nasal catarrh, jaundice, dyspepsia. Albert Schneider noted that it increases the secretion of bile.

Liver disorders. Gallstones. Uric acid diathesis, cystitis, **prostatitis**, and dysuria. Bladder tenesmus and burning after urination. Excoriating urine and kidney stones. Bladder catarrh with suppurative prostatic conditions. Gonorrhea. Post-gonorrheal urinary conditions.

REFERENCES - Boericke. Clarke.

***FAGOPYRUM ESCULENTUM

(Buckwheat)

PHARMACY-fago. *Fagopyrum esculentum*. Buckwheat. *Polygonum fagopyrum*. N. O. Polygonaceae. Tincture of the whole mature plant. The fresh mature plant is pounded to a pulp and macerated in two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Arteries, throbbing. Belching. Depression. Diarrhea. Eczema. Eyes, disorders. Genitals, sweat. Granular, eyelids. Hands, sweat. Headache. Heart, disorders. Heartburn. Intertrigo. **Itching. Leucorrhea.** Liver, disorders. Mumps. Nausea. Nose, crusts. Ophthalmia. Palpitations. Pruritus, pudendi. **Pruritus, vulvae.** Rheumatism. Skin, eruptions. Styes. Taste, altered. Throat, sore.

HOMEOPATHIC - *Fagopyrum*, commonly known as buckwheat, acts upon the skin and the digestive organs. It has had an extensive proving. Though there is little clinical experience with this herbal remedy on record, some features are sufficiently well marked to justify their being classed as characteristics.

Itching, felt in different parts of the body, eyes, posterior sinuses, anus, deep in hands, legs etc. Intense an **itching of the arms and legs**, becoming worse toward evening. Senile itching, **pruritus**.

Itching erythema. Blotches like fleabites, sometimes all over the body, sore to the touch and are multiplied by scratching. Persistent eruptions. Large blind boils.

The **itching of the face** is especially marked about the roots of the whiskers. Persistent itching of the hands which is "**deep in**," being supposed to be the result of irritation of the coats of the arteries.

Offensive excretions. Fluent coryza. Postnasal catarrh, dry crusts, granular appearance of posterior sinuses with itching. Pain in streaks. Visible pulsation of the carotids and other arteries.

MIND - Depressed and irritable. Irritable, cross. Exceedingly happy. Inability to fix attention, study or to remember what has been read. Aversion to being spoken to. Confusion of mind better after eating. Restlessness during mental labor, when attempting to study.

Abdomen - Abdomen distended with flatulence, worse by pressure of clothes. Soreness in hypogastrium.

Back - Stiffness and bruised feeling in the muscles of the neck with sensation as if nape would not support the head.

Breasts - Breast less painful than usual before period.

Chest - Heavy feeling, bruised pains and stitches in chest. Twinges of pain up and down left breast, outer side. Sharp, stitch-like needle prick in right breast on inspiration. After retiring, severe sticking through breast from nipple backward, better by pressure.

Constitutions - Weak constitutions.

Ears - Itching in and around ears. Heat, itching and neuralgic pains in external ears. Itching along Eustachian tubes.

Eyes - Eyes swollen, red, hot, itching, as if sand in eyes. **Itching** and smarting, swelling, heat and soreness. Itching in the margins. Aching deep in eyeballs. As if eyeballs were pushed out. Lachrymation, worse by reading. Pain along lachrymal duct. Meibomian glands of left lower lid inflamed.

Face - Face flushed. Soreness of left malar bone, also of temporal region. Lips dry and cracked, vertical crack on upper lip.

Female - Itching, better by cold water. **Pruritus vulvae with yellow leucorrhea**, worse rest. Leucorrhea staining yellow. Burning in right ovary. Pains in right ovary, on walking in afternoon.

Head - Itching in and around eyes and ears. Pains deep in head with **upward pressure**. Headaches with a tired neck, better bending backwards. Head hot, better bending backward with tired neck. Occipital headache. Bursting pains. Cerebral hyperemia.

Heart - Pain around heart, better lying on back, extending to left shoulder and arm. Palpitations with oppression. Pulse irregular intermittent, rapid. Light feeling in chest. **Throbbing in all arteries** after retiring.

Kidneys - Stitching pains in region of right kidney. Cutting in urethra. Difficulty in voiding last drops of urine, several drops pass after he thinks he has finished.

Limbs - Stiffness and bruised sensation in the muscles of the neck, with sensation as if nape of neck could not support head. Pain in shoulder with pain along fingers. ***Itching in arms and legs***, worse towards evening. Itching deep in hands. Streaking pains in arms and legs. Feet numb and pricking.

Liver - Pain in region of liver on stooping. Bruised, sore feeling at 10 a.m., worse lying on right side. Sharp sticking through liver from the back.

Lungs - Touching the neck occasions a cough with a smarting sensation extending to the ear and throat, under lobe of right

ear. Breath very offensive.

Male - Profuse offensive sweat of genital organs.

Modalities - Better coffee. Better cold water. Better cold applications. Better cold air. Better sitting still. Better in a warm room. Better pressure and motion. Worse in the afternoon. Worse from sunlight. Worse walking. Worse in bright sunlight. Worse from motion. Worse deep inspiration. Worse stooping. Worse ascending. Worse writing. Worse scratching. Worse riding in cars. Worse lying on right side. Worse after retiring.

Mouth - Soreness of teeth on closing them, worse by cold water. Gums sore and bleed easily. Swelling in roof of mouth. Bad taste in mouth in morning. Taste of ingesta after dinner, with belchings.

Neck - Parotid and submaxillary glands swollen, sore and painful. Stiffness of neck and soreness of all neck muscles. Neck tired, as if unable to support head. Dull pain in back of neck, at base of occiput, better bending head backwards.

Nose - Itching in posterior sinuses. Postnasal catarrh. Fluent coryza with sneezing, followed by dryness and crust formation. Nose red and sore externally. Septum deeply cracked.

Rectum - Itching in anus. Burning in rectum after stool, creeping, urging, tenesmus. Diarrhea with tenesmus, stools watery or pappy with flatulence, very offensive.

Skin - Eczema. Erythema. Intertrigo. Blind boils. Skin hot, swollen. ***Severe itching, better by bathing in cold water***, worse scratching, and touch. ***Itching of hands, deep within. Itching*** of knees, elbows and hairy portions. ***Senile pruritus***. Sore, red blotches. Vesicular, pustular and phlegmonous dermatitis.

Sleep - Constant desire to yawn and stretch, 5 to 6 p.m. Restless night, wakes 5 a.m. and sleeps again, many dreams.

Stomach - Bruised, sore feeling in stomach. Uneasy, empty feeling in stomach. Belchings of ***scalding, hot***, acid, watery substance, better coffee. Drooling. Persistent nausea, better eating.

Temperature - Chills along back in afternoon. Cold, clammy sweat at night, very profuse. Sweat of hands, though cold. Hands and feet alternately hot and cold. Soles of feet moist, disagreeable odor in axilla. Face, head and hands burn in afternoon. Heat and restlessness after retiring.

Throat - Soreness and a feeling of excoriation deep down pharynx. Uvula elongated, tonsils swollen. Thick mucus collects in throat on rising. Badly-smelling cheesy mass coughed up. Feeling as if a lump in esophagus, painful on swallowing. Throbbing of carotids.

COMMENTS - Berridge recorded two cases in which Fago, was of service. The first case concerned a dull, bruised pain in top of left shoulder, rather posteriorly, extending up neck, worse on moving the part, appearing on waking, going off after breakfast and returning later in the day.

Constipation. Nausea a little before 11 a.m., afterwards dull pain in left temple and a feeling of heat all over. After aggravating the pain in the shoulder, Fago, removed the symptoms.

In the second case. Fago, permanently removed, after a week's aggravation, sinking in the stomach about 6 p.m. or 7 p.m., and temporarily removed a chronic diarrhea about 6 p.m. or 7 a.m. The diarrhea was later increased and was met by Lach.

Hale mentioned that there was a popular belief that indulgence in buckwheat cakes is a prolific cause of skin eruptions. He found it curative in cases of eczema, erythema and intertrigo.

Deep-seated and persistent effects upon the head. Vertigo, confusion. Severe pres- sive or bursting pain in many parts of head with upward pressure. Pain in forehead, back of eyes, through temporal region on either side. Congestive headaches (Bell., Glon., Nux-v., Sep.).

Itching, smarting, swelling, heat and soreness in the eyes. Soreness in the ears. Erysipelas, frostbite (Agar.). Swollen, red, inflamed and sore nose. Fluent coryza with sneezing, followed by fullness, dryness and the formation of crusts. Burning, sore-

Fagopyrum esculentum ness and persistent pain from even gentle pressure.

The face is pale or unevenly flushed with dark semicircles below the eyes. Swollen, hot and dry, as though severely sunburned, with cracked and sore lips. The mouth feels dry and hot and yet saliva is not wanting. Soreness and swelling of roof of mouth. Tongue is red and fissured along its edges. Bad taste in the morning (Puls.).

Soreness with pain in throat, just back of the isthmus of the fauces. Feeling of excoriation and soreness

extending deep down in the pharynx. Elongated uvula, swollen and red tonsils. Sensation of rawness in the throat (Phyt.). Scarlet redness of the neck below the mastoid process. Throbbing of the carotids. Neck feels tired, the head heavy. Parotid glands are swollen and painful.

Persistent morning nausea, vomiting of pregnancy. Appetite improved by eating (opposite of Lyc., Nux-m.). Empty or "all-gone" feeling at the stomach (Sep.). Fullness and pain in the abdomen, but no rumbling. Frequent discharges of flatus. The region of the liver is painful, tender, worse from pressure, compelling the patient to lie on the left side. Stools are pappy or watery, profuse, offensive, followed by tenesmus.

Scalding urine, pain extends from testicles to abdomen. Profuse, offensive smelling perspiration on the male genital organ. Bruised or burning pain in the right ovary, particularly when walking. Pruritus with slight yellow leucorrhea, more when at rest than when exercising.

Persistent, heavy, pulsating pain in chest, worse from deep inspiration. Dull pains around the heart, with oppression and occasional sharp pains passing through the heart. Pressure with the hand increases the oppression. Increased pulse, extremely variable.

Stiffness and soreness of all the muscles of the neck, with pain and a feeling as if the neck would hardly support the head. Dull pains in small of back with stitching pains in the region of the kidneys. Pains with occasional sharp stitches extend from the arms to muscles of both sides of chest.

Dull, aching, rheumatic pains in the shoulder. Stinging and burning pains extend the whole length of fingers, aggravated by motion. Streaking pains pass through arms and legs with sharp pains extending to feet. Pains extend from hips to small of back, frequently run down to the feet.

Sleepiness in the evening, stretching and yawning. Easily wakened when the mind is diverted, but soon falls again into sleepiness. Sleep is disturbed by troublesome dreams and frequent waking.

RELATIONS - Compare: (1) Dolichos, Bov., Psor., Sulph., Urtica. (2) Rhus-t. - better by motion. Senega - better bending head back. (3) Lyc. - hours of aggravation 3 to 6 p.m. (4) Puls., Polygonum. (5) Coffee relieves stomach symptoms.

REFERENCES - Anshutz. Clarke.

***FAGUS SILVATICA

(Beechnut)

PHARMACY - fagu. Fagus silvática. Beechnut. Fagus farfara. N. O. Cupuliferae. Fagaceae. Tincture or trituration of the nuts. The beechnuts are pounded to a pulp and macerated in five parts by weight of alcohol.

Historical dose: Tincture and all potencies.

CLINICAL - Convulsions. Epilepsy. Headaches. Hydrophobia. Rabies. Vertigo.

HOMEOPATHIC - Knowledge of this remedy is derived from the ill effects of eating the nuts, among which are dread of liquids and salivation, suggesting its use in hydrophobia or rabies. John Bauhin said that the nuts would disorder the head like dandelion; hogs grow stupid and drowsy by feeding on them. Ray and Mangetus agree.

Trembling, convulsions with periodic spasms, stiffness and coldness have been observed, pointing to nerve irritation. Swelling of the mouth and headache were noted in one case. In some instances, death has resulted from the effects of the nuts.

COMMENTS - Dr. E. Berridge contributed a case in which "a boy aged 13 had eaten four days ago a large quantity of beech nuts. I found him in great pain, languid and terrified. Also, with apprehensions of present death.

Pulse very unequal, sometimes extremely quick, sometimes languid and intermittent, skin burning violently, mouth flowing with froth and saliva.

"Intolerable thirst, entreating for drink, but so soon as any liquid was brought he seemed to shudder with equal horror, as if he had been eating unripe grapes. Soon after eating the nuts he had been seized with torpor, gloominess and dread of liquids. He had not been bitten by any rabid animal.

"Next day, early in the morning, he was the same, but seemed to talk more in his wildness and perturbation of mind and his mouth flowed with foam more abundantly, the urine he had voided by night was red and fiery, depositing a copious turbid white sediment, resembling an emulsion of beech nuts, subsiding as deep as the breadth of the finger at the bottom of the vessel.

"A few hours before he died he vomited a porraceous bile after which he died quietly."

RELATIONS - Compare: (1) Epiphegus in headache and salivation, Epiphegus which grows on the beech and partakes of its properties. (2) Rabies - Bell., Lyssin.

REFERENCES - Anshutz.

***FEL TAURI

(Ox bile)

PHARMACY - fel. Fei tauri. Ox bile. Ox gall. Bilis bovina. Bilinum. N. O. Ruminantia. Impissated gall triturated with sugar of milk or lower dilutions may be made with water. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Catarrh. Cirrhosis. Constipation. Diabetes. Diarrhea. Flatus. Gallstones. Headaches. Indigestion. Jaundice. Rheumatism.

HOMEOPATHIC - Ox gall is a remedy of very ancient use. It is used in the old school mostly as a purgative, for preventing putrefactive changes in the intestines, and for increasing peristalsis. It was proved by Buchner. Disordered digestion, diarrhea, constipation. Chronic gastric and intestinal catarrh. Much flatus, ascites. Diabetes. Obstruction of the gall ducts. Gallstones. Jaundice.

Cirrhosis of liver. Increases the duodenal secretion, emulsifies fats and increases the action of the intestines. Liquefies bile and acts as a purgative and chologogue.

Nape of neck pains. Pains in joints and cramps. Headache. **Tendency to sleep after eating.**

MIND - Peevish, irritable mood. Greatly inclined to all kinds of business, unpleasant impression did not affect him.

Abdomen - Violent peristaltic movements. Rumbings and motions in abdomen.

Back - Tension in nape.

Chest - Anxiety in chest. Constriction, on waking at 3 a.m. cannot sleep again for tightness of breath and cannot remain lying, it seems as though something in throat prevented free passage of the air, better by deep inspiration and sitting upright.

Food - Increased thirst.

Head - Confusion. Violent headache in morning, on pressure upon right temple, extending to occiput and nape of neck.

Kidneys - Urging. Offensive urine.

Limbs - Some tearings in left shoulder joint, extending up to nape of neck. Cramp in right toe.

Male - Scrotum itching, moist.

Rectum - Stool with urging and sensation of warmth in anus. Stool thin, pasty, followed by pressing, although with crumbling feces.

Stomach - Gurgling in stomach and epigastric region. Odorless and tasteless belchings.

Sleep - Tendency to sleep after eating. Sound sleep in morning with some perspiration.

RELATIONS - Compare: (1) Merc-d. (2) Choi. in gallstones. (3) Calcul-b. - triturate Gallstones up to 10 to 12x.

REFERENCES - Boericke. Clarke.

***FELDSPAR

PHARMACY -feld. Feldspar. Mineral varieties, containing alumina, silica and oxygen. **Historical dose:** All potencies.

CLINICAL - Arteriosclerosis. Fainting. Otosclerosis. Weakness.

HOMEOPATHIC - It is a silicate compound containing potassium, sodium and aluminium. Kaolin is a disintegrated feldspar which has lost its potassium and sodium but has retained the silicate of aluminium. It is not similar to feldspar in its use.

The chemical composition suggests a use in arteriosclerosis and those illnesses showing sclerosis and fibrosis of the tissue.

COMMENTS - Two cases of otosclerosis were cured clinically, both occurring in patients forty-one years old. Both were nervous, disposed to tremble, and complained of weakness.

One said he felt if he had been struck on the head and was about to faint. He had sensations of heat on hands and feet. His head pained on moving.

Both cases recovered after many weeks of treatment. These symptoms are common to silica and the kalis, hence, the weakness is characteristic of Feld.

A woman age 38, had had varicose veins for many years. Her skin injured easily. Under Feld, she was freed of the pains in the legs. The tendency of the skin to injure disappeared at the start of treatment, the varicose veins remained.

A woman age 48, was given Feld, for retinal hemorrhages five months after the attack. At times she showed glycosuria and was very nervous. After two months treatment, the nervousness and eye affects improved fifty percent, and she experienced a feeling of general well being.

A woman age 53, received Feld, for fainting spells resulting from an arteriosclerotic heart. She suffered from incipient arcus seniles; by resting in bed she regained normalcy, at least concerning her domestic work.

A man age 70, with an arteriosclerotic kidney, suffered from hematuria. Under Feld, he was on his feet again

as an ambulatory patient.

A woman age 84, with marked arteriosclerosis, cardiac decompensation and edema received Feld, and a decoction of Apoc. The dropsy disappeared.

Several weeks later the dropsy returned, gangrene of the foot developed, and she died.

A man age 70, with severe dropsy of both feet, received Feld, and Apoc. He recovered in two months. We can only guess what the future holds in store for him.

A woman age 50, with high arterial pressure, spells of weakness, and nervous exhaustion, received Feld, in a series of doses. Her complaints disappeared. Chronic cases improve slowly, quick results should not be expected in these cases.

RELATIONS - Compare: (1) Sil., Calc-f., Calc.

REFERENCES - Thompson.

***FERRUM ACETICUM

(Iron Acetate)

PHARMACY - ferr-acet. Ferrum aceticum. Iron acetate. **Historical dose:** All potencies.

CLINICAL - Asthma. Cough. Hemoptysis. Nosebleeds. Tuberculosis. **Varicose, veins.** Vomiting.

HOMEOPATHIC - Especially adapted to thin, pale, weak children who grow rapidly and are easily exhausted. Alkaline urine in acute diseases. **Varicose veins of the feet.** Pain in right deltoid.

Copious expectoration of greenish pus, asthma. Tuberculosis, constant cough, vomiting of food after eating, hemoptysis. Nosebleeds. Worse sitting still, or lying down.

REFERENCES - Boericke.

***FERRUM ARSENICOSUM

(Iron Arseniate)

PHARMACY - ferr-ar. Ferrum arsenicosum. Iron arseniate. Tri-ferric diarsenate. Trituration. **Historical dose:** All potencies.

CLINICAL - Albuminuria. **Anemia.** Bright's disease. Chilly. Chlorosis. Constipation. Debility. Diarrhea. Eczema. Headache. Impetigo. Leucorrhea. Liver, enlargement. Psoriasis. Spleen, enlargement.

HOMEOPATHIC - Hale was the first to use Ferr-ar., giving the 2x with a promptly curative result to an anemic girl who had been given iron and arsenic separately, under old-school treatment, in vain.

P. C. Majumdar put Ferr-ar. to excellent use in cases of enlarged liver and spleen with fever. When there is no fever Ferr-i. is better.

Enlarged liver and spleen with high fever of a continued type. During fever the face is flushed and sweaty, but during the intermission the face is pale. No thirst during any stage of the fever, heat intense and prolonged with slight burning of the whole body, emaciation and debility.

Undigested stool. Constipation, sometimes, colliquative diarrhea, the stools consisting of undigested matter and mucus. Albuminuria. Skin dry. Eczema, psoriasis, impetigo. Simple and pernicious anemia and chlorosis. Disinclination to work, even to leave his bed.

MINDS - Conscientious about trifles. **Restlessness at night**, driving out of bed. **Sensitive to noise.** Fear in a crowd. Fear of evil. Fear of people. Tossing about in bed.

COMMENTS - Majumdar reported two cases. The first, concerning a robust, healthy man, 25, who went into a malaria district of Bengal and had his first attack of fever. He was given large doses of quinine, which suppressed the paroxysms for a time, but they continually recurred.

After four years he returned home a changed man: pale, jaundiced, emaciated, abdomen filled with enlarged and indurated liver and spleen, slightly tender to pressure. His organs left no room for food. Obstinate constipation. High fever generally appearing in afternoon, no chill or thirst, but copious sweat without much relief to fever.

Ferr-ar. 6c, twice daily, made an improvement in three days. It was continued for a month and a half with occasional stoppages and in six months he was completely restored to health.

The second case concerned a boy, 15, who suffered from fever and enlarged spleen. The liver was not enlarged.

Voracious appetite, but no digestion, undigested diarrhea stools. Continued fever, 102 to 104, burning of body. Some thirst. Great emaciation.

Ferr-ar. 6c was given night and morning. He was cured perfectly in a year.

RELATIONS - Compare: (1) Ferr-i., Ferr., Ars., Calc-a., Chin.

REFERENCES - Clarke.

***FERRUM BROMATUM

(Iron Bromide)

PHARMACY - ferr-br. Femim bromatum. Iron bromide. Trituration. Solution. **Historical dose:** All potencies.

CLINICAL - Anemia. Diarrhea. Headaches. Leucorrhea. Numbness. Spermatorrhea. Uterus, prolapsed.

HOMEOPATHIC - Dr. Sarah N. Smith of New York proved Ferr-br., using the sixth dilution, made by Boericke and Tafel. Ferr-br. Produced, in this order, were very distinct symptoms in the head and eyes, dry mouth and nose, relieved by coryza, a feeling that she might die, diarrhea, burning in urethra when urinating, sticky, excoriating leucorrhea, and weight and discomfort in uterus.

The symptoms that made the most impression on the prover were the **“dead, numbness”** feeling of the scalp, the unconscious moaning after stool and the sticky, excoriating leucorrhea. Heaviness and discomfort in the uterus was so severe that she declined to continue the proving as it interfered with her work.

COMMENTS - Hale mentioned this remedy as having been highly commended in cases of spermatorrhea with anemia, debility and depression.

RELATIONS - Compare: (1) Heavy eyes. Con., Caust., Gels. (2) Smarting while urinating, Cann-s. - has burning while urinating and after.

REFERENCES - Clarke.

***FERRUM CYANATUM

(Iron Cyanide)

PHARMACY - ferr-cy. Ferrum cyanatum. Iron cyanide. **Historical dose:** All potencies.

CLINICAL - Cardialgia. Chorea. Constipation. **Epilepsy.** Flatulence. Nausea.

HOMEOPATHIC - Neuroses with irritable weakness. Hypersensitiveness, especially of a periodical character. Chorea. **Epilepsy.** Cardialgia with nausea and flatulence. Constipation, alternating with diarrhea.

REFERENCES - Boericke.

***FERRUM IODATUM

(Iron Iodide)

PHARMACY - ferr-i. Ferrum iodatum. Iron iodide. Trituration of freshly prepared crystals. Solution. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Alcohol, effects. Amenorrhea. **Anemia.** Boils. Breast, tumors. Bronchorrhea. Cancer. Catarrh. Coryza. Debility. Diabetes. Dyspepsia. Exophthalmic, goiter. Eyes, scrofulous. **Glands, enlargement.** gonorrhea. Heartburn. Impetigo. Kidneys, disorders. Leucorrhea. Liver, enlarged. Nephritis. Pneumonia. Scoliosis. Scrofula. Spleen, enlarged. Tuberculosis. **Uterus, prolapsed.** Writer's cramp.

HOMEOPATHIC - Ferrum iodatum has been independently proved, and corresponds more particularly to scrofulous affection, glandular enlargement and tumors.

Grimmer used Ferr-i. for breast tumors, cancer, exophthalmic goiter inflammation and enlargement of glands, symptoms and conditions based on the tubercular diathesis. Berridge removed with Fen-i. “Morning catarrh, hot and restless in bed, sweet smell of urine.”

“Food seems to push up to throat as if it has not been swallowed,” somewhat like the Ferr. symptom “as if something rolled into *ihroal and closed il like a valve.*” *“Sharpor* cutting pains in the eyes, ears and root of nose to occiput. Sensation as if lying in a cramped position.

Anemia. Body emaciated. Debility following drain upon vital forces. Impetigo of the cheek. Crops of boils. Acute nephritis following eruptive diseases. Exophthalmic goiter following suppression of menses. **Uterine displacements.** Breast tumors, cancer and conditions based on the tubercular diathesis.

MIND - Dullness of mind and confusion in head worse when reading aloud. Anxiety. Aversion to company. Conscientious about trifles.

Confusion worse putting hat on. Confusion while reading. Confusion after smoking. Confusion while writing.

Abdomen - Abdomen bloated after food or drink. Fullness, even after a little food, stuffed feeling, as if she could not lean forward. Abdomen swollen. As if a cord were drawn connecting the navel and anus.

Back - Small of back as if broken. Pain as if lying in a cramped position. Neck sore when touched or on moving. Dull pain in back. Stiffness on getting up from bed, better during day.

Chest - Oppression of chest with inclination to lie on back. Pressure beneath sternum.

Constitutions - Suited to scrofulous or mercurial diathesis to subjects of relaxed tissue (tuberculosis in the third stage, bronchorrhea, pneumonia).

Cough - Hemoptysis. Short, hacking cough with yellowish-white, thick expectoration.

Ears - Roaring in ears.

Eyes - **Eyes shut on account of pain.** Lids swollen, discharging copious quantities of pus when forcibly

opened. Exophthalmic goiter, after menses suppressed. Burning in eyelids. **Photophobia**. Trachoma. Bright objects floating before eyes, like sparks of fire, after breakfast.

Face - Red, chlorotic look. Itching of right cheek, reddening when rubbed. **Submaxillary and cervical glands swollen and hard**. Vesicles, when rubbed, become raw.

Female - Amenorrhea. Menses is absent with exophthalmic goiter. Menses suppressed or scanty. Constant bearing down. When sitting, **a feeling as if something pressed upward in vagina**. Retroversion and prolapse of uterus. Prolapsed uterus, difficult to retain the urine. Itching and soreness of vulva and vagina. Leucorrhea like boiled starch.

Food - No appetite. Craving for sardines or salty fish. Great thirst.

Head - Headache with a confused sensation. Headache with feeling of heaviness and pressure. Sharp pain from below eye up through head to vertex. Cutting pain from bridge of nose to occiput. Headache on going to bed. Throbbing pain in head on right side and forehead. Headache worse smoking.

Heart - Palpitations at night. Heartbeats seems to go into stomach, and cause a nervous, trembling feeling. Bloodvessels throb all over, even when quiet. Violent beating of heart on rising or when turning in bed.

Kidneys - Difficulty in retaining urine. Incontinence in anemic children. **Crawling sensation in urethra and rectum**. Sensation as if urine were stopped at fossa navicularis. Urine, sweet smelling. Urine, dark colored. Urine, depositing thick white sediment.

Limbs - Weak, trembling feeling in limbs on using hands and on walking. Paralyzed and bruised feeling in all limbs, with great aversion to moving about.

Lungs - Bronchorrhea. Chronic pneumonia. Shortness of breath, obliged to take a deep breath. Greenish, purulent, containing small, cheesy particles. Grayish-white, rather tenacious mucus drawn out in threads.

Male - Nocturnal emissions with violent pain and burning in urethra. Inability to urinate. Tenesmus of neck of bladder. Prickling itching in urethra, with frequent urging to urinate, but scanty flow. Gonorrhea.

Modalities - Better from open air. Worse from motion. Worse touch. Worse warmth. Worse at night and in the morning.

Mouth - Salivation. Sudden bleeding of gums. Offensive taste. Metallic, bitter taste. Flat, insipid taste. Taste of peppermint. Dryness of mouth and throat. Mucus membrane of mouth bright red or dotted with red.

Nose - Nose dry, stopped up. Blowing nose gives no relief. Coryza. Scrofulous swelling of nose, with ulcers and crusts inside. Discharge of mucus from nose, trachea, and larynx. Discharge all day, with stuffed-up feeling at night. Discharge thick, yellow or green.

Perspiration - Sweat at night is cold and copious, and comes from the least exertion.

Rectum - Crawling in rectum. Constriction in rectum and anus. Sensation as if worms were in it. Small, hard stool, with sticking pain. Constipation then loose stools, preceded by griping pain.

Sensations - As if anus were compressed. As if worms were in anus. As if something twisted around about in a circle, as if a cord were drawn connecting navel and anus, as if a screw were boring in anus.

Skin - Pale skin. Eczema. Lichen. Shortlasting skin eruptions. Eruptions like urticaria.

Sleep - Frequent starting in sleep and waking with feeling as if paralyzed. Restless sleep with frequent waking. Dreams of long past events. Dreams of thieves. Dreams of fighting with them.

Stomach - Dyspepsia with nausea and headache. Impaired digestion. Food seems to push up in the throat, as if it had not been swallowed. Violent eructations. Sour and bitter risings. Stomach full of gas.

Throat - Sore pain, as if of a splinter, shooting in different directions. Hoarse. Violent scraping and tickling in throat and nose. Frequent rattling of mucus in throat.

Tongue - Burning on tongue. Tongue coated thickly yellow.

Vertigo - Dizziness worse moving.

COMMENTS - P. C. Majumdar used Ferr-i. with success in cases of enlarged liver and spleen when unaccompanied by fever. When fever is present Ferr-ars. is the better remedy.

"Feels as if she has eaten too much, a

sort of upward pressure. Stuffed feeling in abdomen as if she could not lean forward, costiveness," especially in cases of enlarged spleen. "Sweet-smelling urine."

RELATIONS - Compare: (1) Alum. - anemia, leucorrhea, prolapse uterus. Alum. - swollen vagina, prolapse uterus. (2) Caul. - prolapse uterus and leucorrhea from atony, fitful, crampy pains. (3) Melon. - pruritus, prolapse, leucorrhea. albuminuria. (4) Hydr. - debility and atony, tenacious, profuse leucorrhea, palpitations. (5) Graph. - chlorosis, leucorrhea profuse, hot, watery. (6) Iod. - red face, irritability, corroding leucorrhea, emaciation marked. (7) Kali-bi. - has stringy, albuminous leucorrhea, stringy expectoration. (8) Thyr. - palpitations, exophthalmic goiter. (9) Ferr-br. - leucorrhea, prolapsed uterus. (10) Ferr-a. - enlarged liver and spleen.

REFERENCES - Boericke. Clarke. Phatak.

***FERRUM MAGNETICUM

Magnetic Ferric Oxide)

PHARMACY - ferr-ma. Ferrum magneticum. Magnetic ferric oxide. Loadstone. Iron ses- quioxide. A black oxide of iron. **Historical dose:** All potencies. /

CLINICAL - Amaurosis. Diarrhea. Flatus. Ganglions. Paralysis. Rheumatism. Vision, disorders. Warts. Weakness. Whitlow.

HOMEOPATHIC - Caspari is the authority for Ferr-ma. Teste, who put Ferr-ma. in the Arnica group along with Led., Crot-t., Rhus- t. and Spig., had some experience with it. Indicated for the sycotic constitution. Small warts on hands.

Ferr-ma. produces paralytic weaknesses like the other iron preparations, of which this; is the most peculiar: after perspiring during a moderate walk, weakness and lassitude, which seem to proceed from the abdomen. Difficulty of movement and relaxation of muscles.

Prickings, lancinations, tingling and itching in different parts. Pains and itchings, some of which reappear at intervals of four weeks. Pain in nape of neck. Trembling in the legs and arms. Excessive lassitude. Fatigue on taking the slightest exercise.

Worse during a meal, flatulency, grumbings, movements in abdomen with urgent diarrhea after a meal (Ferr.). Abdominal sufferings are felt more on the left side. Very abundant and frequent emission of fetid wind.

MIND - Indecision and long reflection before undertaking anything. Indolence, slowness of movement. Air of importance and self-sufficiency. Irrascibility.

Abdomen - Movements and grumbling in abdomen. Loose evacuations with much flatulency, especially left side, with pullings in legs. Abundant and frequent emission of fetid flatus.

Chest - Tearing and lancination in the left side of the chest, when breathing. Sensation of emptiness in the chest.

Ears - Tingling in the ears. Itching, wringing and cold lancinations in the auditory duct. Pullings in the ears and the pharynx when swallowing.

Eyes - Pricking itching in the canthi. Painful sensibility of the lachrymal sac with profuse lachrymation. Pressive pain on the eyelid, which impedes the sight. Swelling of the lower lid, which makes the eye appear smaller. Darkness before the right eye, causing it to wink.

Face - Face dejected with general heat, followed by redness of the face. Itching and tingling in the face and on the lips. Eruptions on the forehead in the eyebrows, at the root of the nose, on the cheeks, the lips and the chin.

Head - Pulsative headache, by fits. Circumscribed headache in the morning, generally on right side. Headache on stooping, on moving the arms, and on going up stairs. Itching in the scalp. Small, painful eruption on the scalp. Falling off of the hair.

Kidneys - Urine red and copious, which becomes the color of clay after having stood some time.

Limbs - Cramp-like, paralytic pullings or jerking pullings in the forearms and hands. Paralytic pulling in the right arm. Pain, as from dislocation in the wrist. Dryness and tension in the hands. Small warts on the back of the hands and on the wrist. Whitlow. Acute lancination in the

knee. Ganglion of the foot. Tingling and pricking in the heels. Starting in the soles of the feet. Painful little toe.

Lungs - Frequent hawking of mucus. Dry cough after dinner, proceeding from an irritation in the trachea, as if one had swallowed dust.

Male - Itching and lancination in the scrotum and in the extremity of the glans. Increased sexual desire, with and without erection, or absence of all sexual desire, yet without importance.

Mouth - Accumulation of water and saliva in the mouth. Itching sensation in the posterior part of the palate.

Neck - In the morning, pain in the nape of the neck, as if from having lain in an inconvenient position.

Nose - Sneezing, with stoppage of one nostril and catarrh.

Rectum - Urgent want to evacuate with expulsion of flatus only. Small, liquid evacuation when expelling flatus. Itching and shooting in the anus. Tingling and itching in the rectum.

Skin - Itching and tingling in different parts, especially in the evening, mitigated by scratching, but appearing in other parts. Red spots, sometimes of a bright red or bluish red. some disappear on being pressed. Small warts on the hands.

Sleep - Violent and noisy yawnings with accumulation of water in the mouth. Drowsiness with prompt sleep on lying do wn or even when seated. Absurd dreams at night. Dreams immediately after lying down, waking with a start, coldness causing trembling. Inclination to remain in bed in the morning. After rising, weakness in the knees.

Stomach - Flatulence during a meal, afterwards fatigue and burning pain in epigastrium, especially on

breathing. Nausea. Abortive risings.

Teeth - Bleeding of the gums, when slightly pressed upon. Painful sensibility of the teeth during mastication.

Temperature - Shivering and cold in the side opposite to that on which the patient has laid Heat, as if a catarrh were developing its. If with lassitude and downcast eyes.

Internal heat with perspiration and slow pulse after washing the body. The pulse is slow and small. Perspiration on the slightest exercise. Sweat in the morning on the body and on the occiput. Sweat of an acid smell, as in measles.

Throat - Bitter and rancid taste in the pharynx, on hawking. Sensation as if mucus were adhering to the uvula. Lancinations in the throat. Pressure in the esophagus, as if too much had been swallowed at one time.

COMMENTS - Ferr-ma. relieved, after Spig. failed, in an old man suffering from chronic rheumatism of the nape of the neck with irritable disposition.

Cured a case of compound capsular cataract in a gouty patient. A third patient had rheumatism of both thighs, coming on after violent exercise. This patient was treated in two attacks. In the first attack he received Arn. first and then Ferr-ma. In the second, Ferr-ma. was given at once and the effect was speedy and marked.

Teste noted the case of a patient who had a very unpleasant experience with the medicine. He suffered from a mercurial neurosis and was very sensitive to medicines. Teste was led to give the medicine due to a painful contraction of the posterior cervical muscles, against which no remedy he had tried had produced any effect. Teste gave Ferr-ma., four globules in a tumbler of water, two tablespoonfuls every day. The first tablespoonful, taken in the morning, seemed to produce a sensible improvement. A quarter of an hour after the second dose, taken at 4 p.m., the sight became dim, a halo of fire, red and violet, was seen first in front of the right eye, and afterwards in front of the left eye.

Soon after, this halo, which formed a circular zigzag-shaped line, became narrower and narrower. Finally produced such a complete blindness, that the patient assured Teste he was unable to distinguish night from daylight. This lasted one hour and did not pass off entirely until after a meal.

Much more distressing phenomena followed towards 8 p.m. The pain in the nape, which first was seated on the left side, passed

Ferrum magneticum to the right invading the whole extent of the trapezoid muscle, where it became literally frightful.

"For two days and nights the patient, who was a brave and strong man and whom I had seen bear the most painful surgical operations without uttering a sound, suffered to such an extent that he uttered heart-rending cries."

Camph., Puls, and Bry failed to relieve, the first rather aggravated. Rhus-t. effected some relief. But it did not prevent the recurrence, for eight days in succession of the visual phenomena, though with less intensity than the first time, at irregular intervals, generally 6 or 7 a.m. and sometimes even at night in perfect darkness.

RELATIONS - Compare: (1) Ferr., Elect., Galv., Magn. arct., Magn. aust.

REFERENCES - Boericke. Clarke.

***FERRUM METALLICUM

(Iron Metal)

PHARMACY - ferr. Ferrum metallicum. Iron metal (Fe, At. Wt. 56). Includes symptoms of the acetate and the carbonate. Triturations of the pure metal and of the carbonate, solution of the acetate. **Historical dose:** All potencies.

CLINICAL - **Anemia.** Aphonia. Asthma. Biliousness. **Blood, disorders. Blood, loss. Bruises.** Cachexia. Catalepsy. Chlorosis. Chorea. **Constipation.** Cough. Cramps, **Debility.** Diarrhea. Bedwetting. Fever, intermittent. Goiter, exophthalmic. Gonorrhea. **Hemorrhages.** Heart, disorders. Hectic, fever. Hydrocephalus. **Iron, poisoning.** Jaundice. Kidneys, disorders. Lienteria. **Morning, sickness.** Menstruation. **disorders. Miscarriages.** Nausea. Neuralgia. Paralysis, viscera. Pregnancy, disorders. Rectum, prolapsed. Rectum, weak. **Rheumatism.** Shoulder, pains. Spasms. Syphilis. Toothache. Tuberculosis. Urinary, incontinence. Varicose, veins. Vertigo. Vomiting. **Weakness.**

HOMEOPATHIC - Ferr. is one of the prominent constituents of the animal body, present in considerable quantity in the blood. It is present in many articles of daily food and, when given in excess, its first effect is to increase the amount of iron in the blood.

Ferr. is adapted to young, weakly persons, anemic and chlorotic with pseudo-plethora. **Over-sensitive,** weakness, but looks strong. Delicate girls, constipated, with low spirits. Red-faced old men.

Iron poisoning, symptoms including nausea and vomiting, varicose veins (Sep.), easy bruising, nosebleeds of pale blood, swelling of the limbs, anemia, and sensitivity to smell. Bad effects of iron pills, particularly during pregnancy.

Anemia with weakness. Anemia in those subject to irregular distributions of blood, particularly the young. Flushed cheeks, pallor of lips and mucus membranes, fatigue and breathlessness, and any motion will set up the symptoms. Useful in anemia of cancer and syphilis as a secondary remedy.

Hemorrhages, bright blood or with small clots. Veins dilate during neuralgia, menses or fever. Irregular distribution of blood. Congestions, surgings of blood and pulsations. Orgasms of blood to face, chest, head and lungs. Flushes easily, worse after any active effort. Chlorosis, worse in winter. Hemorrhagic tuberculosis, but it may aggravate.

Dropsy or paralysis after loss of vital fluids, hemorrhages. Rapid emaciation. Cachexia. Pressure, on chest, stomach etc. Cold limbs, muscles relaxed and flabby. Catalepsy. Red parts become pale. Cracking in joints. Softening of bones. Nightly pains that compel motion of part.

Ferr. stimulates the appetite, augment the heart's beats and the bodily vigor. Dryness of mouth, vagina. Exophthalmic goiter from suppressed menses. Spleen, digestion and left deltoid are also affected.

MIND - Mind confused. Can't collect his thoughts. Confusion better washing face. Brain-fag. Always in the right. Proud and haughty. Excitement after menses.

Sensitive, excitable. **Slight noises unbearable.** Irritability from noise. Oversensitive to pain. **Ailments from anger.** Irritable mind and body. Excited from slightest opposition. Anger from contradiction. Intolerant of contradiction.

Changeable mood. Nervous, hysterical. Great alternations of mood, excessively lively, then sad and melancholic. Weeps and laughs immoderately.

Restlessness, must walk about slowly. Anxiety from slight causes. Anxiety as after committing a crime. Fear of having a stroke. Great anxiety about family. **Restlessness, driving out of bed,** wants to go from one bed to another.

Despondent after menses. Desire for solitude. Aversion to friends. Sadness better exertion. Conversation aggravates. **Occupation relieves.** Great indifference. Not inclined to talk or study, from nervous restlessness. Constant thoughts of death. **Abdomen** - Colic with watery diarrhea.

Rumbling in bowels. Flatulent colic at night. Bowels feel sore to touch. Hard, distended, sore, bruised when walking. Soreness of abdominal walls. **Soreness all over abdomen, better warmth.** Sharp pain in abdomen. Sensation as if bowels were bruised, or weakened by cathartics. Shooting pain in left hypochondrium. Cramp-like in region of spleen.

Back - Neck and shoulder painful. **Rheumatism of the neck and shoulder.** Neck sore and stiff. Lumbago all night, goes off on rising. Lumbago, better slow walking. Stitch-like jerks in small of back when walking. Pain between scapula.

Blood - Blood diseases, with exhaustion. **Anemia with exhaustion.** Anemia with pregnancy. Chlorosis. Hemorrhages. Ailments from blood loss. **Bleeding, pale or watery blood and weakness** (Chin., Phos.). Weak blood. Hemophilia. Throbbing pains, the blood vessels all over the body throb violently. Hemorrhages from over-fullness of blood vessels. Hemorrhages from vasomotor paralysis, Hemorrhages from delicacy of the blood vessels themselves.

Chest - Anxiety in chest. **Chest oppressed, breathing difficult.** Constriction of chest, worse walking. Flying stitches in the chest. Feeling of dryness in chest. Surging of blood to chest. Rush of blood to chest and head, with cold hands and feet. Pressure under sternum, with catarrh and cough. Sharp pain in chest when coughing. Burning pain in sternum after coughing.

Constitutions - Sanguine temperament. Adapted to young, anemic, pseudo-plethoric persons, who though looking strong are so weak that they are unable even to speak or walk, want to lie down.

Coughs - Cough dry, spasmodic. **Dry, tickling cough, worse moving, better lying down.** Cough with pain in the occiput. Breath fails at end of coughing fit. Cough, worse abuse of tea, quinine, brandy. **Cough after loss of fluids.** Tickling cough in trachea, worse moving, better lying down. **Cough from tobacco smoke.** Cough after eating. Cough, must sit up to raise sputum. **Hemoptysis** (Mill.). Dry, tickling cough with blood spitting. Spasmodic whooping cough at once better eating a small quantity of food.

Ears - Sharp pain in ears in morning. Ulcerative pain of outer ear. Fetid discharge from left ear. Oversensitive to noise. Noises in ears better leaning the head on table. Ringing in the ears, worse before menses. Ringing in right ear. Singing, humming.

Eyes - Eyes cloudy, watery, dull with blue rings around them. Eyes red with burning pain. Swelling and redness of the eyelids. Puffy eyelids. Pain over eyes (left). Exophthalmic goiter after suppression of menses. Photophobia. Weakness of eyes with lachrymation. Pupils contracted. Suppurating sty on upper lid.

Face - False plethora. Face feels as if bloated. **Blushes easily.** Pale face and **flushes red from least pain, emotions or exertion.** Florid. Lips pale. Face pale with red spots on each cheek. Neuralgia after cold washing and overheating. **Red parts become white, bloodless and puffy.** Blue rings around eyes, which are dul I

and lustreless. Distended veins. Easy **flushing of face, after drinking wine**. Face fiery red during vomiting.

Female - Women who are weak, delicate, chlorotic, yet have a fiery-red face. Amenorrhea. **Suppression of menses with extremenervousness**. Menses, pale, watery. Passive flow, dark, clotted. Menses too early, too profuse and protracted. **During menses, must keep perfectly still, least**

Ferrum metallicum movement greatly worse flow. Menses with labor-like pains. Menses remit a day or two and then return. Dysmenorrhea with scanty discharge of pale blood with violent colic. Sticking, shooting pains in uterus. Discharge of long pieces of mucus from uterus. Uterine hemorrhage with labor-like pain in abdomen and small of back. Leucorrhea, milky, acrid, watery, at puberty. Leucorrhea resembling watery milk, smarting and corroding when first appearing, not afterward. Itching of vulva. Sensitive vagina. **Vagina too dry, pain as if raw**. Swellings and indurations in vagina. Vagina insensible during sex. Prolapse of vagina. Promotes expulsion of moles. Sexual desire diminished. Sterility. **Tendency to miscarriage**. Uterine hemorrhage with threatened premature labour, at end of eight month. **Morning sickness, constipation, nausea, worse from iron pills**. Eruption on genitals or inflamed. Ascarides in vulva. Gonorrhea.

Food - Appetite good and bad alternately. **Voracious appetite**. Loss of appetite. All food tastes bitter. Unquenchable thirst or thirstlessness. Aversion to eating and drinking during headache. Aversion to meat, children accustomed to meat suddenly become disgusted with it. Aversion to beer. Aversion to sour things, sour fruits. Aversion to accustomed tobacco. Desire for raw tomatoes. Desire for sweets. Desire for bread and butter. **Worse from eggs**. Worse abuse of tea, quinine, brandy. Worse tobacco smoke. **Intolerance of eggs**. Worse tomatoes. Worse hot things. Worse fat food. Worse drinking milk. Worse sourfruit. Worse after drinking beer. Bread tastes dry and bitter. Wine agrees, if not acid. Meat and acids, sour fruit, as well as beer, causes nausea.

Head - Head hot, feet cold. **Rush of blood to head with flushes of heat in face**. Congestion of head with pale face. Headache after menses, with hot head and cold feet. **Hammering, pulsating, congestive headache**, pain extends to teeth with cold limbs. Severe, frontal headache with cold feet. **Pain in back of head** with roaring in neck. Sudden pain over left eye. Stinging headache. **Long continued headache, often lasting 2 to 3 days**. Headache during coryza. Feeling of an iron band around head, better external pressure, with red face. Writing causes headache to reappear. Scalp and hair painful to touch. Must take down the hair. Falling out of hair. Hydrocephalus with open fontanels and great anemia.

Heart - Anemic murmurs. Hypertrophy of heart. Fatty degeneration of heart. Endocarditis with chlorotic symptoms. Sense of oppression. Throbbing in all blood vessels. **Heart suddenly bleeds into the blood vessels** and as suddenly draws a reflux, leaving pallor of surface. **Palpitations, worse least motion, better walking slowly**. Palpitations with fear, has to move about, can neither sit nor stand. Palpitations of masturbators after loss of fluids. Constrictive pain in region of heart. **Pulse full, but soft and yielding**. Pulse increased by exertion. **Pulse small and weak**.

Kidneys - Chronic nephritis. Albuminuria. Diabetes. Kidney pain with desire to urinate. Involuntary urination, especially during the day, when standing, from sudden movement, walking in children. Copious urination with nervousness. Tickling in urethra extending to bladder. Chronic catarrh of bladder and gleet. Burning in urethra during urination, as if urine were hot. Urine hot with menorrhagia. Urine clear as water, in anemia.

Limbs - **Dropsy after loss of vital fluids**. Swollen hands and feet. Sudden cramps or tearing pains in the limbs. **Restlessness in limbs**. Contraction of limbs. Cracking in joints. Pain in hip joint, tibia, soles and heel. Heels pain, worse lying on back. **Rheumatism of the shoulder. Rheumatism of the left deltoid muscle**. Tearing pains in deltoid, worse at night, driving him out of bed, and motion diminishes the pain. Difficulty raising the arm. **Deltoid muscle soreness and pain**. Irresistible desire to bend the arm with intense pain. Hands tremble when writing, better when writing fast.

Liver - Tightness and fullness in region of liver. Liver enlarged. **Neonataljaudice in child from mother taking iron pills during pregnancy**. Liver sensitive to pressure.

Lungs - Asthma worse after 12 p.m., must sit up, worse sitting still, better walking slowly about. Catarrhal asthma every morning from 10 a.m. to 11a.m. **Dyspnea better walking slowly and talking**. Dyspnea after midnight, also when sitting up. **Suffocative fits in evening in bed**. Slowly increasing dyspnea, in pneumonia. Shortness of breath from tension in abdomen. Difficult inspiration, as from heaviness of chest. Neglected pleuro-pneumonia, absorbs exudation. **Hemoptysis** (Mill.). Spitting of blood in tuberculosis. Spitting of blood, of masturbators. Pneumonia.

Male - Nightly emissions, with backache after over-exertion. Impotency. Increased sexual desire. Erections night and day, Sterility, low sperm count. Discharge of mucus from urethra after a cold. Gleet, copious, painless, milky.

Modalities - Better in summer. Better solitude. **Better moving about slowly**. Better from gentle motion. Better

slight bleeding (Puls.). Better from leaning head on something. Better after rising. **Worse at night, midnight.** Worse heat. Worse cold. Worse while sitting still. Worse after cold washing. Worse overheating. Worse from sudden motion. Worse raising arms. **Worse loss of vital fluids.** Worse eating, drinking. **Worse from emotions, anger.** Worse violent exertion. Worse while sweating. Worse during menses. Worse noise. Worse conversation.

Mouth - Breath hot. Dry mouth in morning. Canker sores. Mouth dry, food seems too dry, all solid food tastes dry and insipid. Sweet or bitter taste. Earthy, pasty taste, like rotten eggs. Taste of blood. Toothache from tea. Toothache better icy cold water. **Pain in teeth, relieved by icy-cold water.** Numb, pithy feeling of tongue, as if burned. Burnt sensation on back and middle portion of tongue. Tongue coated white.

Nose - Nostrils dilated during expiration. **Nosebleed in anemic patients** .Nosebleed alternating with hemoptysis. **Nosebleed in anemic children, with changing of color of face.** Nosebleed in mornings when stooping. Clots of blood constantly accumulate in nose, during coryza. Mucus membranes relaxed, boggy, anemic, pale. Dripping of fluid from posterior nares or frontal sinuses, with headache. Bloody, purulent, greenish, slimy, acrid discharges. Scabs come out of nose or are coughed up every few weeks.

Perspiration - Profuse, debilitating sweats. Profuse sweats at every motion. Anxious, cold sweat, during cramps of different parts. Cold sweat during convulsions. Clammy, yellow, cold, acrid sweats. Worse while sweating. Sweats often confined to lower part of body. Sweats preceded by headache. Nausea during sweat. Sweats lessened while speaking. Fetid sweats on going to sleep. Sweat at night of a very strong odor.

Rectum - Chronic constipation with easily flushed head and face, cold hands and feet. **Constipation from taking iron pills.** Constipation during pregnancy. Contractive pain in rectum. Cramping, in rectum, after stool. **Prolapsed rectum in children.** Hemorrhoids, copious bleeding or ichorous oozing. Hemorrhoids with itching and gnawing, tearing pains. **Itching of anus due to ascarides or worms in children.** Evacuation of mucus, with worms. Attempts to eat bring on diarrhea. Diarrhea, painless, worse while eating. **Summer diarrhea of children with emaciation.** Nightly, gushing and spluttering of undigested food, alternating with constipation, worse if nervous or tired. **Diarrhea during pregnancy.** Frequent diarrhea, stools watery, with or without tenesmus. Rice-water discharges. Stools, hard difficult, followed by backache or cramps in rectum, prolapsed rectum. Acrid, watery diarrhea, excoriating anus.

Skin - Pale skin. Flushes easily. Skin pits on pressure. Skin withered, flabby. Dry skin in pneumonia. Jaundice. Yellow-brown spots, sore to touch. Black or dark violet spots. Burning, with pain as if excoriated when touched. Scarletina during desquamation. Skin peels off on shoulders and left hand. Ulcers pale, edematous. Warts on fingers and backs of hands.

Sleep - Falls asleep from debility, while sewing, sitting and studying. **Must lie on back at night.** Sleepy at night with inability to sleep. Sleeplessness. Child doesn't sleep because of itching from worms. **Restless sleep at night. Anxious tossing in bed.** Sleep disturbed by dreams; much weariness in morning. Vivid dreams. Nightmares. Confused, unpleasant dreams. Dreams of being engaged in war. Dreams of falling into water.

Stomach - Stomach won't tolerate any food, causes distention and pressure. Heat and burning in stomach. **Spits up food by the mouthful** (Phos.). Belchings of food. Bitter eructations after fat food. Flatulent dyspepsia. Cramp-like pain in stomach. Hemorrhage from stomach. Nausea during headache. **Nausea and vomiting after eating.** Vomits after eggs. Easy vomiting without nausea. **Vomiting after midnight.** Vomiting during pregnancy. Vomiting in morning after breakfast. Vomiting of everything eaten without being digested. Vomiting of food after exertion.

Temperature - Chill with red face and thirst. General coldness of limbs, head and face hot. Chilly every evening. Frequent short attacks of chilly shivering. **Chill at 4 a.m.** Chills with great thirst, preceded and succeeded by headache. Chills with trembling all over. Heat with distended veins. Heat in palms and soles. **Heat flushes over body** as if sweat would break out. Hectic fever. Sensation of heat all over body, which is cold to touch. **Heat with very red face** and inclination to uncover. Fever abating when moving about. Intermittent fever.

Throat - Sore throat with burning pains. Burning in larynx and trachea after talking. Sensation as if a lump (left side), worse swallowing empty .Asif something rolling in the throat and closing it like a valve. Sensation as if something was in larynx, which he wished to remove by hawking or coughing. Aching, pressing pain in throat while swallowing. **Hoarseness, with sense of roughness in larynx.** Voice changeable. Complete aphonia, causes much anxiety. Speaking causes general weakness. Exophthalmic goiter.

Vertigo - Vertigo on suddenly rising. Vertigo as if balancing to and fro. Vertigo on seeing flowing water. Vertigo on crossing a bridge over water. Vertigo during headache. Vertigo during headache. Vertigo with nausea, prostration, lethargy. Vertigo with disposition to fall forward. Vertigo on descending. Giddy as if drunk, when walking.

Vision - Letters run together when reading or writing. At night can see in the dark, hysteria. Darkness before eyes, giddy. Darkness before eyes in evening, with aching pains and slight nosebleed. Attacks of blindness.

COMMENTS - Hahnemann described the effects of iron on persons who habitually drink chalybeate waters: "In such localities there are few persons who can resist the noxious influence of the continued use of such waters and remain quite well, each being affected according to his peculiar nature."

"There we find more than anywhere else chronic disorders of great gravity and peculiar character, even when the regimen is otherwise faultless.

"Weakness, almost amounting to paralysis of the whole body and of single parts. Some kinds of violent limb pains. Abdominal disorders of various sorts, vomiting of food by day or by night. Tuberculosis. Tubercular pulmonary ailments often with blood spitting, deficient vital warmth.

"Suppression of the menses, miscarriages, impotence, in both sexes infertility. Jaundice and many other rare cachexias are common occurrences."

Blood diseases, especially if with exhaustion. Anemia, hemophilia. Hemorrhages from over-fullness of blood vessels, from vasomotor paralysis, or from delicacy of the vessels themselves. Throbbing pains, the blood vessels all over the body throb violently.

Bleeding, pale or watery blood, (Phos.) and weakness (Chin.). Uterine hemorrhage. Weakness and tiredness since hemorrhage (Chin.). Irregular distribution of blood in chlorotics.

Abnormally pale mucus membranes. Bruises easily, nosebleeds. Palpitations, worse least exertion, excitement. Face flushes. Varicose veins. Legs swell and bruise easily. Hands and feet swell.

Anemia, chronic fatigue since blood loss, chemotherapy or radiation. Lack of stamina. Menses that cause anemia and weakness. Paralytic weakness. Restlessness. Tremor. Rheumatic symptoms, especially of left shoulder and deltoid.

Neuralgia, brought on by washing in cold water, especially after being over-heated. Hammering headache, pain worse after midnight. Pain in os on lying down. Feeling of dryness in vagina.

Gastralgia, heavy pressure in the region of the stomach. Walls of abdomen are sore. A feeling as if something rolled into the throat and closed it like a valve. Frequent spells of nausea, periodic vomiting. Intolerance of eggs.

Marked cramps. Irritability of the bowels causing diarrhea while eating. Diarrhea coming on when the patient beings to eat. Constipation. Irritability of the bladder, causing incontinence of urine when standing. The liver and spleen are affected. Neonatal jaundice. Good for over-dosing from quinine.

Kunkel noted the case of a patient about forty-five, who had repeated attacks of joint rheumatism. Kunkel cured the case based on the symptom "intolerance to eggs" after he had been dosed for three weeks with salicylate of soda by allopaths.

RELATIONS-Antidotes: Ars., Hep. **Compare:** (1) All Ferrums. (2) Rumex - similar in respiratory and digestive sphere and contains organic iron. (3) Graph., Mang., Cupr. **Complementary:** Chin., Alum., Ham.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***FERRUM MURIATICUM

(Iron Chloride)

PHARMACY - ferr-m. Ferrum muriaticum. Iron chloride. Sesquichloratum. Ferrous chloride. Ferrous dichloride. Tincture consisting of 25 parts of crystals to 225 parts of alcohol. **Historical dose:** All potencies.

CLINICAL - Anemia. Anorexia. Cramps. **Diarrhea.** Diphtheria. Erysipelas. Hemoptysis. Insomnia. **Afolaría.** Nephritis. Pyelitis. **Shoulder, pain.** Spleen, enlarged. Vertigo.

HOMEOPATHIC - This remedy has been employed in enlargement of the spleen due to **malaria.** There is great pain in the left hypochondrium which is worse at night. The face is pale and anemic. Vertigo, anorexia, sleeplessness and a sensation of coldness alternating with heat and lasting for several hours

It is also of service in **chronic diarrhea**, with loss of appetite, pain and tenesmus. The passages consist of blood and membranous shreds.

Phlegmonous erysipelas. **Pain in right shoulder**, right elbow. Marked tendency to cramps. Round red spots on cheeks. Hemoptysis of dark, blood clot.

Suppressed menstruation. Chronic interstitialnephritis. Pyelitis. Bright crystals in urine. Copiousurinationatpuberty. Diphtheria. Very dark and watery stools. Painful sexual intercourse. Tendency to seminal emissions.

COMMENTS - Useful for anemia, given in the 3x after meals. Forchronic interstitial nephritis, 1 to 5 drops of the tincture, 3 times daily.

RELATIONS - **Compare:** Cean., Ferr.

REFERENCES - Blackwood. Boericke.

***FERRUM PERNITRICUM

(Iron Pernitrate)

PHARMACY - ferr-fern. Ferrum pernitri- cum. Iron pernitrate. Dilutions of the Ferri Pernitris Liquor of B. P.

Historical dose: All potencies.

CLINICAL - Diarrhea. Eyes, affection. Glands, disorders. Lienteria.

HOMEOPATHIC - Ferr-fern. has been used by old school practitioners with good effect for diarrhea. Diarrhea of tuberculosis. Diarrhea in feeble and nervous female or in scrofulous children with enlarged glands and obstinate ophthalmia.

COMMENTS - Cooper, who gave much attention to the iron preparations, gave as a characteristic, "Cough with florid complexion." In cases presenting marked features of Ferr. and Nit-ac., Ferr-fern. should be helpful.

REFERENCES - Clarke.

***FERRUM PHOSPHORICUM

(Iron Phosphate)

PHARMACY - ferr-p. Ferrum phosphoricum. Iron phosphate. Ferric phosphate. Ferroso- ferric phosphate. White phosphate of iron (Schilssler's). This is said to be a true ferric phosphate as contrasted with the ordinary phosphate of iron, which is a ferrous-hydric phosphate. **Historical dose:** All potencies.

CLINICAL-Anemia. Anus, prolapse. **Bedwetting.** Bladder, paralysis. Bronchitis. Bright's disease. Bruises. Chills. Colic. **Colds.** Conjunctivitis. Contusions. Coryza. **Coughs.** Croup. Cystitis. **Debility.** Delirium tremens. Diabetes. Diarrhea. Dyspepsia. Dysentery. Ear, disorders. Erysipelas. **Fevers.** Frostbite. Gastritis. Gonorrhea. Hematemesis. **Hemoptysis. Hemorrhages.** Heart, palpitations. Hyperemia. Inflammation. Influenza. Injuries. **Iron, poisoning. Fevers.** Kidneys, weak. Mastoiditis. Measles. Mumps. Nevus. Neuralgias. **Nosebleeds.** Otitis, media. Pleurisy. Pneumonia. Raynaud's disease. Rheumatism. Sprains. Styes. Tarsal, cysts. **Throat, sore.** Tuberculosis. Urinary, incontinence. Veins, varicose. Vomiting. **Weakness.** Whooping cough. Wounds. **HOMEOPATHIC** - Knowledge of Ferr-p. comes from Schilssler's work and the clinical experience of those who have used it on his indications. It has also been proved by Dr. John Moffat.

Early stages of febrile conditions, it stands midway between the activity of Aeon, and Belk, and the sluggishness and torpidity of Gels. Marked prostration, face more active than Gels. The superficial redness never assumes the dusky hue of Gels. Pulse soft and flowing, no anxious restlessness of Aeon.

Typically not full blooded and robust, but nervous, sensitive, anemic with false plethora and easy flushing (Ferr.). Pale, anemic subjects with violent local congestions.

Anemia. Hemorrhages and disorders of the veins. Passive congestions and hemorrhages due to hyperemia. Bright hemorrhages from any orifice. **Increases hemoglobin.** Discharges are blood streaked or like meat-water. Fresh wounds, pains, contusions, and sprains.

Inflammation, induration, and enlargement of blood vessels. **First stage of all inflammatory disorders.** Inflammation of the soft parts. Acute inflammatory rheumatism, especially of the right shoulder (Ferr-m.). Rheumatic paralysis. Bruised soreness on the chest, shoulders, muscles.

Emaciation. Great prostration, can hardly move about. Great physical and mental lassitude, indisposed to physical exertion. Nervousness. Burning rawness. Generally right-sided.

Takes cold easily. Susceptibility to chest troubles. Bronchitis of young children. Acute exacerbation of tuberculosis.

MIND - Anger and apathy. Keeps quiet. Averse to company. Fear of going into a crowd. Very talkative, hilarious and excited. Transient mania from cerebral irritation. Indifferent to pleasurable things.

Abdomen - First stage of peritonitis. Distended intolerance of clothes. Colic before stool. Pain in abdomen with watery diarrhea. Abdominal hernia in persons otherwise robust. Inflamed and incarcerated hernia.

Back - Crick in neck and back. Stiff neck.

Blood - Anemia. Blood disorders. Hemorrhages. Chlorosis. **Iron poisoning.** Hematochromatosis. Hyperemia, congestion of blood. Hemorrhages, uterine hemorrhages, nosebleeds. Bright red blood (Phos.).

Ailments from loss of blood, debility. Ailments from blood transfusions (Ferr., Chin.).

Causations - Ill effects of checked sweat, blood loss, mechanical injuries.

Chest - Chest heavy, sore or congested. Pleurisy, stitching pain worse coughing and deep breathing.

Constitutions - Suited to nervous, sensitive, anemic persons. **Sanguine constitutions.** To the leucophlegmatic temperament to young persons with varicose veins. The inflammatory, febrile, emaciating, wasting tuberculosis. Corresponds to Grauvogl's oxygenoid constitution.

Cough - Short, painful, tickling cough. Hard, dry cough, with sore chest. Cough worse at night, with much

rattling of mucus in chest. Hacking, tormenting, spasmodic cough, worse morning and evening. Cough worse going into open air. **Paroxysmal cough, mostly at night or during day when asleep.** Whooping cough with retching and vomiting. Tormenting cough, when bending head forward or touching larynx.

Ears - First stage of otitis. Ear canal inflamed, red, and swollen. **Acute otitis media** (Bell.). Throbbing pains. Eardrum red and bulging. Otitis media, with muco-purulent discharge. Eustachian tubes inflamed. Catarrhal affection of eustachian tube and ear. **Prevents suppuration.** Mastoid process swollen and sore. Noises, tinnitus worse lying. Deafness from colds, worse during menses. Sensitive to noise. Roaring or buzzing from rush of blood to head.

Eyes - Acute conjunctivitis without suppuration or discharge of mucus. **Traumatic conjunctivitis** (Aeon.). Measles with conjunctivitis and photophobia. Red. inflamed with burning sensation. Feeling of a tiny particle in upper eyelid. Feeling as of sand under lids. Ophthalmia, first stage, marked redness with great pain, and without mucus or pus. Encysted tumors of the eyelids. Eyes suffused, cannot see on stooping. Eyes inflamed during dentition. Hyperemia of optic disc and retina with blurred vision. Styne on lower lid.

Face - Paleness alternating with redness. Florid complexion. Face earthy, pale, sallow. Heat and redness of face during pain. Flushed, cheeks sore and hot. Hot cheeks during toothache. **Facial neuralgia, with stinging, pressing or throbbing pains, worse shaking head, stooping and all motion.** Facial neuralgia, better cold applications. Painful red swelling of parotids.

Female - Menses, with bearing-down sensation and headache. Menses every three weeks. Dysmenorrhea, with sacral pain, headache. Dysmenorrhea, frequent urging to urinate, pain in left ovary. Dysmenorrhea with vomiting and indigestion. Bearing down pain in uterus. Constant dull pain in either ovarian region. Vagina sensitive, can't bear examination. Vaginismus, pain during sex. Vagina dry and hot.

Food - Loss of appetite. Chills while eating at table. Aversion to meat and milk. Desire for stimulants. Desire for sour things. Better drinking tea. Worse by eating. Worse meat, herring, cake. Worse tea and coffee.

Head - Rush of blood to head. Soreness to touch, cold, noisejar. Headache, shooting, aching from vertex down over the sides of the head with earache, better nosebleed, cold application. **Headache with stinging, pressing or throbbing pains, worse shaking head, stooping and all motion.** Throbbing headache with sensitive scalp. **Headache better cold applications.** Head often feels as if pushed forward while walking with vertigo. Empty sensation in the head during menses. **Vertex sensitive to cold air, noise and anyjar.** Congestion to head with epilepsy. Blind headache. Headache during pregnancy. Ill effects of heat of sun.

Heart - First stage of cardiac diseases. Palpitations from congestion. Pulse rapid. **Short, quick, full, soft.** Flowing pulse.

Kidneys - Frequent desire to urinate. **Diurnal bedwetting,** better lying down. Incontinence. Urine spurts with every cough. Polyuria. Urinates after every drink. Irritation at neck of bladder. Urine retained in children during fever.

Limbs - Fractures at beginning of injury to soft parts, adjacent parts red, hot and painful. **Acute rheumatism.** Rheumatism attacking one joint after another, worse slightest motion. **Rheumatic pain in shoulder,** pains extend to chest and wrist. Jerking in limbs. Sore, bruised pain in shoulders, extending to chest and wrist. **Sprains of the elbows.** Wrists ache with loss of power to grasp. Hands swollen and painful. Fingers contracted by acute articular rheumatism. Palms hot, in children. Whitlow. Varicose veins.

Lungs - First stage of all inflammatory affections. Acute bronchial catarrh affecting larger and smaller bronchi. **Bronchitis of young children.** Congestions of lungs. Croup. Short, painful, tickling and hacking, tormenting, spasmodic cough, worse morning and evening. Hard, dry cough with sore chest. Pneumonia, the first stage. **Hemoptysis of pure blood,** in pneumonia, after concussion or fall (Mill.). Hemoptysis after concussion or fall. Pleurisy, sharp pain, right side, worse coughing and deep breathing.

Male - Seminal emissions. Inflammatory stage of gonorrhea.

Modalities - Better cold applications. Better bleeding. Better lying down. Better from rest. Better from gentle motion. Worse at night. Worse 4 a.m. to 6 a.m. Worse cold air. Worse open air. Worse checked sweat. Worse right side. Worse touch. Worse jar. Worse motion. Worse noise. Worse cold drinks and sour food. Worse meat, herring, coffee, and cake. Worse right side.

Mouth - Mouth hot, fauces red inflamed. Toothache, better cold. Ranula in vascular. Tongue swollen and dark red. Inflammation of tongue, fauces and tonsils. Redness, pain without exudation.

Nose - Predisposition to colds and sore throats. Acute coryza and sore throat. **First stage of colds, influenza.** Nosebleed in children. Nosebleed with blood-spitting. **Nosebleeds,** bright red blood (Phos.). Controls soreness and bleeding after operations. Watery discharge with colds.

Perspiration - Night sweats of anemia or tuberculosis. Copious night sweats, does not relieve pains of rheumatism. Sweats driving out of bed. Sweats between 4 a.m. and 6 a.m. Sweats with increase of pains.

Rectum - Diarrhea worse midnight till morning. Habitual constipation. Constipation caused by atony of

muscular fibres of intestines. **First stage of dysentery with much blood in discharges.** Hemorrhoids with obstinate constipation. Hemorrhoids with catarrh of stomach and bowels. Summer diarrhea with red face and soft pulse. Chronic diarrhea. Disposition to prolapse rectum. Stools of yellow water. Stools watery, bloody, undigested.

Skin - Pale, flushed skin. **Bleeds easily.** Bruises easily. Acne. Measles with conjunctivitis and photophobia. Measles in beginning. Acne. **Capillary congestion with burning of skin,** worse violent exertion or warm room. Erysipelas with intense fever and inflammatory symptoms.

Sleep - Restless and sleepless. Drowsiness. Restless sleep followed by great depression in morning. Night sweats of anemia or tuberculosis. Sleepless from severity of pains. Anxious dreams.

Stomach - Dyspepsia. **Sour belchings.** Chill while eating. Catarrh of stomach and bowels. Pain in stomach worse after eating. Acute and chronic gastralgia worse eating and pressure on stomach. Gastralgia with vomiting of food. Sudden attacks of deathly nausea. Persistent vomiting of food in morning, before eating.

Vomiting of undigested food. Vomiting green matter. Vomiting of bright red blood. Vomiting during pains.

Teeth - Toothache better cold. Toothache always appearing after eating food. Toothache worse warm drinks, better cold drinks. Congestive or inflammatory toothache. Decayed teeth. Complaints during dentition. Dentition with fever.

Temperature - Chill with desire to stretch, at 1 p.m. First stage of catarrhal **antiinflammatory fevers. Fevers of unknown origin.** Continued infectious fevers. Intermittent fevers. Fever and sore throat. Pneumonia fever. Hemorrhagic fevers. Measles fever. Heat with sweaty hands.

Throat - **Predisposition to colds and sore throats.** Sore throat with colds, pain worse empty swallowing. Fauces red, inflamed. Ulcerated sore throat. **Tonsils**

Ferrum phosphoricum red and swollen. Inflamed eustachian tubes. First stage of diphtheria. **Hoarseness from overstraining voice.** Laryngitis with hoarseness of singers. Laryngitis with fauces inflamed and red. **Sore throat of singers.** Ranula in vascular, sanguine constitutions. **Much mucus in throat and rattling in chest.** After operations on throat and nose to control bleeding and relieve soreness. Feeling of nausea in throat. Croup.

Vertigo - Vertigo with rush of blood to head. **Fainting from the sight of blood.** Vertigo from anemia, weakness. Vertigo with constant feeling as if head were being suddenly pushed forward, with danger of falling. Great dizziness, everything swims around him, muscles seemed so weak he could hardly move about. Vertigo caused by congestion to various parts of brain or head.

COMMENTS - Hematochromotosis. Hyperemia, congestion of blood. Hemorrhages, uterine hemorrhages, nosebleeds. Tendency to bleed. Bright red blood (Phos.), thicker than Ferr. Ailments from loss of blood, debility. Ailments from blood transfusions (Ferr., Chin.). Fainting from the sight of blood or from weakness. Coughing up of blood, in pneumonia cases. Vomiting blood. Blood in the stool, bleeding hemorrhoids, blood in the urine, with no symptoms. Fainting spells, weak with circulatory problems. Great emaciation. Fevers of unknown origin. Early stage of acute diseases. Nonspecific convalescent remedy. Nonspecific inflammation.

Nondescript sore throats and colds. Flus. Bronchitis with a short, painful cough. Acute coryza (Ars., Aeon., All-c.). Earaches, with redness. Otitis media with throbbing (Bell.). Mastoiditis (Caps., Bell.), with inflammation as the only symptom. Eye infections, bloodshot and red eyes with no other symptoms. Conjunctivitis (Euph.).

Red face that feels cool, flushed but weak. Face goes red when child is picked up. Teething in children with a fever and a hot, red face (Bell.). Toothaches or inflammation of gums. Toothache, better cold (Mag-p. better heat).

Acute arthritis, hands swollen and red. Neck stiff from being out in the cold. Cold hands and feet. Chilly. Sensitive to open or cold air. Results of checked perspiration on a warm summer day (peritonitis). Pains go from below upward. Thirsty for ice cold drinks. Desires sour things.

Similar to Phos., where Ferr. is more similar to Puls.

In Schiessler's therapy Ferr-p. takes the place filled by Aeon., Bell., Gels., Verat-v., Arn. and other remedies which correspond to disturbed states of circulation, irritation and relaxation of tissue.

Schiessler noted "The pains which correspond to iron are increased by motion, but relieved by cold in the muscle-cells iron is found in the form of a phosphate, we should therefore in therapeutics use Ferrum phosphoricum."

Nimier and Parenteau cured several cases of right-supra-orbital neuralgia with morning aggravation with Ferr-p. 6x. The morning aggravation appeared to be the distinctive indication.

Nash said the hemorrhages are bright red, but occur not in the plethoric subjects of Aeon., but rather in pale, anemic subjects liable to sudden local congestions.

Cooper cured with Ferr-p. a case of tuberculosis in a patient "of the transparent-skin type, the hemoglobin

shining through.”

According to Cooper, Ferr-p. antidoted “violent dysuria, night and day,” caused by Stront-br. “Painless irritability of tissue” is Cooper's keynote, as exemplified in diurnal bedwetting.

Halbert cured a case of Raynaud's disease of the fingers and toes in which amputation seemed inevitable. He effected a complete cure with Ferr-p. 6x trituration.

Ferr-p. can be used as a nutritional supplement for anemia in the 6x potency. Schiessler generally used the 12x trituration.

RELATIONS - Compare: (1) Oxygenoid constitution. (2) Aeon., Chin., Ars, Graph., Petr.

(3) Ferrum pyrophosph. - congestion of brain and headache following great loss of blood, tarsal cysts. (4) Gels. - more flowing pulse. Caust. and Puls. - cough with spurting of urine.

(5) Kali-m. - croup, pneumonia, palpitations, typhus, Kali-p. - colic, threatened gangrene. (6) Calc-s. - hip joint disease, Calc-p. - chlorosis, hemorrhoids, Calc-f. - hemorrhoids, Nat-s. - diabetes, Ant-t. - capillary bronchitis.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***FERRUM PICRICUM

(Iron Picrate)

PHARMACY - ferr-pic. Ferrum picricum. Iron picrate. Trituration. Tincture. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Bilious, disorders. Corns. Deafness. Dyspepsia. Ears, diseases. Fatigue. Gout. Headache. Indigestion. Jaundice. **Liver, disorders.** Lupoid, warts. Lupus. **Nosebleeds.** Polyuria. **Prostate, enlarged.** Rheumatic, arthritis. Rodent, ulcer. Tinnitus. **Vasculitis.** Voice, loss. **Warts.**

HOMEOPATHIC - Ferrum picricum is considered a great remedy to complete the action of other medicines. Indicated by the functional failure of an organ under exertion.

This is an unproved medicine, but Dr. Cooper gave the leading indications for its use and these are so clear that it has taken a definite position in the Materia Medica.

Ferr-pic. is a liver medicine and is particularly suited to persons with dark hair and eyes and bilious-looking patients. A dirty appearance about the joints indicates it, the stain due to bile pigments.

Senile hypertrophy of the prostate gland, with frequent urination at night, with full feeling and pressure in rectum. Smarting at neck of the bladder and penis. Meatus dry. Retention of urine.

Warts and epithelial growths, corns with yellowish discoloration. **Nosebleeds.** Chronic deafness and tinnitus due to gout. Pseudo-leukemia. Failed voice after public speaking.

MIND - Prostration of mind. Irritable and sensitive.

Back - Pain in right side of neck and down right arm.

Causations - Overwork, exertion. Fatigue, overpowering effects of fatigue.

Constitutions - Suited to dark-haired, plethoric people.

Ears - Tinnitus. Humming in ears as from telegraph wires. Crackling in ears and low-pitched voice. Vascular deafness. Deafness before menses. Dental neuralgia, radiating towards ears and eyes.

Face - Lupoid wart on face.

Food - Loss of appetite. Indigestion.

Head - Headache after meals, especially in bilious, dark-haired persons. Bilious headaches. Giddiness with disturbance of cerebral circulation, pain in occiput, and inability to walk.

Kidneys - Frequent urination at night with full feeling. Retention of urine. **Smarting at neck of bladder and penis** (Baros.). Pain along entire urethra.

Limbs - Chronic gout. Dirty appearance about joints. Pain in right side of neck and down right arm. Locomotor ataxia, ocular stage. Hands covered with warts.

Liver - Liver and bilious disorders. Jaundice. Liver weakness. Liver sensitive, some jaundice.

Male - Prostate gland enlarged. **Modalities** - Worse from fatigue.

Mouth - Dental neuralgia, radiating towards ears and eyes. Furred tongue.

Rectum - Pressure in the rectum. Constipation.

Skin - Warts, multiple, pedunculated. Sensation as if a wart were growing on thumb. Corns. Jaundice. Dirty looking skin about joints.

Sleep - Restless sleep with unpleasant (often erotic) dreams.

Stomach - Dyspepsia.

COMMENTS - Acts best in plethoric people with sensitive livers. Burnett cured with it rheumatic arthritis in a dark-haired subject.

Effects of fatigue (Pic-ac.), unusual fatigue. Cooper described it as the failure of an organ under exertion which would not ordinarily strain it, e.g., failure of the voice in public speakers.

Noises in the ears. Nervous deafness, “diffused vasculitis.”

Dr. Cooper was led to give Ferr-pic. in cases of warts by a symptom produced in a patient to whom he was giving it for deafness, "sensation as if a wart were growing on the thumb."

Cooper observed that warts, especially old pedunculated warts, frequently accompany chronic deafness. He considered it especially indicated for multiple warts on the hand, and noted a case of lupoid warts cured by it. P. C. Majumdar cured a student suffering from anemia and malarious fever off and on for a year. The student had impaired hearing of both ears, buzzing, hissing, and vertigo. Indigestion, headache and tired feeling after bodily or mental exertion. Majumdar considered Ferr-pic. suited to the results of malarious fever, sexual excesses and blood loss.

It has a specific action in the prostate gland. Puller cured with it a case of albuminuria. Dudley Wright confirmed Cooper's observation that it will frequently control senile prostate hypertrophy.

Dr. Mende considers Ferr-pic. almost specific in nosebleed.

Ferr-pic. is apt to aggravate if given too low.

RELATIONS - Compare: (1) Pic-ac., Nit-ac., Thuja. Am-pic., Calc-pic. (2) the Ferrum preparations. (3) Buchu, Sulph.

REFERENCES - Boericke. Clarke. Cooper. Phatak.

***FERRUM SULPHURICUM

(Iron Sulphate)

PHARMACY - ferr-s. Ferrum sulphuricum. Iron sulphate. Ferrous sulphate. Iron vitriol. Green vitriol. Copperas. Trituration of the pure crystals. **Historical dose:** All potencies.

CLINICAL - Aphthae. Bulimia. Cardialgia. Chorea. Constipation. Diarrhea. Eczema. Gallbladder, pain. Gastritis. Gonorrhea. Hemorrhages. Headache. Helminthiasis. Menorrhagia. Nettle rash. Scrofula. Spasms. Toothache.

HOMEOPATHIC - Ferr-s. has the leading features of the other Ferrums, but many of the Sulphur characters appear, especially in the modalities. There is worse from warmth or warm room, better from cold air, ice, or fresh air.

Acidity and belchings of food in particles (Sulph.). Watery and painless stools. Sensation of fermentation or purring in stomach. Pain in gallbladder. Toothache. Basedow's disease.

Passive hemorrhages. Pallor or flushing. Sensation as if all the blood were rushing into head and face. Menorrhagia. Pressing, throbbing between periods with rush of blood to head.

Muscular pains or contractions. Weakness. Local atony, disposition to congestions. Nettle rash, aphthae, eczema with sluggish liver. Feeling of general heat and disposition to sweat with sensation in skin of back as if he wore a stout woolen shirt.

COMMENTS - This remedy has been employed in diarrhea when the stools are watery, reddish-brown. Stools, odorless and painless. There is great pallor of the skin, emaciation, anemia. Edema of the lower limbs. Affects the blood-vessels and heart. Anemic murmurs.

Also in menorrhagia, when the flow is of long duration and is profuse. There is a pressing, throbbing between the periods, with ringing in the ears and a sensation as though the blood were rushing to the face. Face is scarlet red. The bowels are constipated, and there is loss of appetite.

RELATIONS - Compare: (1) Phos. - regurgitation of food in particles. (2) Cina - worms. (3) Bapt. - pain in region of gallbladder. (4) Ferr., Meh.

REFERENCES - Boericke. Clarke.

***FERRUM TARTARICUM

(Iron Tartrate)

PHARMACY - ferr-t. Ferrum tartaricum. Iron tartrate. **Historical dose:** All potencies.

HOMEOPATHIC - Ferr-t. has heart pain, heat sensation at cardiac orifice of stomach.

REFERENCES - Boericke.

***FERRUM VALERIANICUM

(Iron Valerianate)

PHARMACY - ferr-val. Ferrum valerianicum. Iron valerianate. A dark brick-red, amorphous powder. Triturations, and dilutions. **Historical dose:** All potencies.

HOMEOPATHIC - This remedy is indicated in cases of **hysteria, chorea and nervous disorders.**

Also indicated in those suffering from **chlorosis and anemia.** Insomnia, nervousness and anemia. Sleeplessness from anxiety and worry.

RELATIONS - Compare: Valer., Ign.

REFERENCES - Blackwood.

***FERULA GLAUCA

(Bounafa)

PHARMACY - ferul. Ferula glauca. Bounafa. Ferula neapolitana. N. O. Umbelliferae. Tincture of plant.

Historical dose: Tincture and all potencies.

HOMEOPATHIC - Ferul. has been proved. Heat and burning are produced in parts and sensations of coldness in others. Prominent stiffness and constriction. Aphthae. Cough, worse in damp or cold weather. Slow digestion. Diarrhea. Hemorrhoids. Nymphomania, pruritus vulvae. Violent sexual excitement in women.

RELATIONS - Compare: (1) Other Umbelliferae, tongue as if burnt, Sang.

REFERENCES - Boericke. Clarke. Phatak.

***FICUS INDICA

(Banyan Tree)

PHARMACY - fic-i. Ficus indica. Banyan tree. Vata. N. O. Moraceae. India. Tincture of the bark. Tincture of the hanging roots and buds.

CLINICAL-Colic. Diabetes. Diarrhea. Dyspepsia. **Dysentery.** Enteroptosis. Gonorrhea. Hematuria. **Hemorrhages.** Hemorrhoids. Leucorrhea. Nausea.

HOMEOPATHIC -The banyan tree is planted throughout India. It grows to a height of about a hundred feet and is a common roadside tree.

Ficus Indica has being used successfully in all kinds of **hemorrhages**. Pure red blood. It possesses greater anti-hemorrhagic properties than Ficus religiosa.

Hemorrhage from the throat or mouth. Dysentery and piles mixed with blood. Hemorrhage before evacuations. Acute or chronic bloody dysentery associated with great urging, colic and tenesmus (Merc-c.).

Diarrhea, with nausea. **Feels as if bowels were settled down in lower abdomen.** Enteroptosis with loose and frequent evacuations. Sick feeling in lower third of abdomen.

Copious hemorrhages during menses. Bloody leucorrhea. Nervous weakness due to seminal discharge. Gonorrhea and diabetes associated with burning sensation during urination and in hematuria.

COMMENTS - Proving by Dr. O. N. Banerjee, Calcutta, India, in the Homoeopathic Recorder, July, 1891.

Dr. O. N. Banerjee wrote "In June, 1888, while visiting a patient in the country I saw in the garden a large tree of the variety known as Ficus Indica. As the tree is considered sacred I regarded it and its branches, which were laden with ripe, yellow fruit, with the greatest interest, and plucking one of the fruits, ate it upon an empty stomach.

"To my great astonishment there occurred one hour thereafter an unusual frequent desire to urinate, I did not relish my breakfast, there was loss of appetite and sour belching; in the afternoon the urine became phosphatic and I suffered from headache ; in the evening I felt an itching of the thighs, heaviness of the head, dullness of the mind, and a burning heat over the body; there was but a scanty discharge of urine during the day.

"After gathering a large quantity of fruit I returned to Calcutta and made an alcoholic tincture thereof. This was distributed among nine provers and two drops of the mother tincture were taken every morning before breakfast for eight days.

"As a remedy it has been used successfully in every case presenting the following conditions: Frequent, at times unsatisfactory discharge of amber-colored or phosphatic urine with discharge of seminal fluid. Headache, heaviness of the head. Itching of the limbs. Thirst. Dyspepsia. Ill humor. Irregular stool. Disturbed sleep."

RELATIONS - Compare: (1) Merc, cor., Chin., Phos.

REFERENCES - Boericke. Ghose.

***FICUS RELIGIOSA

(Ashwathya)

PHARMACY - lie. Ficus religiosa. Ashwathya. Bo-tree. Pakur. N. O. Moraceae. India. Tincture of juice of fresh leaves mixed with equal parts of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - **Bloody, discharges.** Dysentery. Hematemesis. **Hemorrhages.** Hemorrhoids. Menorrhagia. Nosebleed. Typhoid. Vomiting.

HOMEOPATHIC - Dr. Sarat Chandra Ghose of Midnapore made the first proving and thereby discovered its power to cause and cure **hemorrhages** of many kinds. Ghose related some striking cases cured with the remedy in cases of dysentery, hematemesis, hemorrhage of typhoid, bleeding hemorrhoids and nosebleed.

General hemorrhages. Vomiting of a bright red blood. Hemoptysis. Menorrhagia. Profuse discharge of bright red blood, bearingdown pains in lower abdomen. Bloody urine. Very weak and restless. Headache, burning at

the top of the head. Sight dim.

MIND - Quiet and disinclined to move. Sad and melancholic.

Abdomen - Bearing-down pains in lower part of abdomen.

Eyes - Sight dim.

Face - Face became yellow.

Female - Menorrhagia, bright red blood, bearing-down pains in lower abdomen.

Head - Burning at vertex, vertigo and slight headache.

Kidneys - Frequent desire to urinate. Urine contains much blood.

Lungs - Difficult breathing, cough with vomiting of blood, pulse very weak.

Nose - Nosebleed.

Rectum - Dysentery with menorrhagia. Dysentery, bright red blood.

Stomach - Pain and sick feeling in stomach. Nausea, vomiting of bright red blood.

COMMENTS - Dr. Ghose participated in his own proving, along with his wife and a dog. The dog, which was perfectly strong and healthy, received 40 drops of the tincture one morning. No result followed that day and the dose was repeated the next morning.

The animal commenced and continued to vomit blood of a bright red color. It kept very quiet and was unwilling to move. After three doses of five drops of the tincture given in quick succession, the vomiting ceased. The same treatment (minute doses of the remedy) was effectual in arresting the effects of the drug throughout the provings.

Mrs. Ghose took the tincture in 20-drop doses repeatedly throughout two days. On the third day dysentery and menorrhagia set in simultaneously. The blood was bright red.

Other symptoms included a headache, very weak and restless, sight dim, burning at the top of the head. The face became yellowish, breathing difficult. She became sad and melancholic. With the profuse discharge of bright red blood there were bearing-down pains in the lower abdomen.

Dr. Ghose took 40 drops in one dose. The result was a frequent desire to pass water, which gradually became bloody, containing much blood. Inclination to cough, causing him to spit blood. Slight headache, giddiness and nausea. Sight dim. Very weak and restless. The tincture was taken three drops every two hours, and after the third dose the symptoms vanished.

RELATIONS - Compare: (1) Acalypha, Ip., Am., Mill., Phos., Hirudo, Cact., Ferr. Thlaspi.

REFERENCES - Boericke. Clarke.

***FILIX MAS

(Male Fern)

PHARMACY - fil. Filix mas. Male fern. Aspidium filix-mas. N. O. Filices. Dryopteridaceae. Tincture of fresh root or fresh root grated. Maceration of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Abdomen, bloated. Abortion. Blindness. Infertility. Miscarriage. **Tapeworm.** Worms.

HERBAL - The male fern has been recognized as a vermifuge from the time of Galen. For worm symptoms, especially with constipation. Dioscorides credits it with the power of causing infertility and abortion.

HOMEOPATHIC - A fragmentary proving in Allen's Appendix records a case in which 15 to 20 drops of the tincture given three times a day to a woman suffering from bloated abdomen with more or less pain caused diminution of the bloating. Also, severe prolapse of vagina. Pain and tenesmus of bladder with copious and frequent emission of urine, with intense pain.

Filix was then discontinued and Chim. relieved the symptoms. They did not return afterwards, except after much walking or standing.

The leading symptoms include a pale face with blue rings around the eyes, and blindness from atrophy of the optic nerve. **Torpid inflammations of lymphatic glands.** Pulmonary tuberculosis in young patients, no fever with limited, ulcerated lesions. Gnawing, boring pains in abdomen, worse after sweet things. **Tapeworms.** Soporific conditions.

Abdomen - Bloated. Gnawing and boring in bowels, worse eating sweet things. Great pain in abdomen with diarrhea and constant vomiting. **Worm colic** with itching of nose, pale face, blue rings around eyes. Painless hiccough.

Eyes - Blindness, monocular amblyopia. Blindness, first mydriasis and amaurosis with normal fundus, eight days later, atrophy of optic nerve. Immobility of pupil.

Face - Pale face, blue rings around eyes. **Female** - Menstruation stimulated. Prolapse of vagina with pains and tenesmus of bladder and copious frequent emission of urine with internal pains. Abortion. Sterility.

Limbs - Numbness of right wrist.

Nose - Itching of nose.

Rectum - Violent vomiting and diarrhea. Ineffectual urging to stool. Pappy stools. Worm symptoms with constipation. Worm colic.

Sleep - Soporific condition. Restless and sleepless at night.

Stomach - Nausea. Sick after taking food. **Temperature** - Violent rigor, fever, great pain in abdomen with diarrhea and constant vomiting.

COMMENTS - C. S. Spencer recorded this effect from taking capsules each containing ten minims of the oil of male fem for tapeworm:

"A feeling of nausea, abdomen became painfully distended with colicky pains. Menses returned after only one week's absence and continued profusely for three weeks. Very sick after taking her food. The worm was got rid of and the capsules stopped when these symptoms passed away."

Hering said the best time to give the drug for expulsion of tapeworm is in the summer when the fresh root can be obtained. If an ounce of the grated root is given in the forenoon, usually the tapeworm comes away in the afternoon.

Teste used it successfully in a case of violent dyspnea without cough, with stitches in region of heart and obscure symptoms of pericarditis. The patient was a young woman of lymphatico-nervous temperament and was much weakened by long sickness.

RELATIONS - Compare: (1) *Aspidium alba-manticum*. Panna - 3 doses, 2 grams each, all in half hour, fasting in a glass of milk. Tasteless and will remove tapeworm. (2) *Ciña*, *Gran.*, *Kousso*.

REFERENCES - Boericke. Clarke.

*****FLAVUS BACILLUS**

PHARMACY-flav. *Flavus bacillus*. *Neisseria pharyngis* Hava. *Neisseriaceae*. *Micrococcales*. A non-pathogenic bacterium found in the upper respiratory passages but was also found in cerebrospinal fluid during meningitis.

Historical dose: All potencies.

CLINICAL - Arthritis. Arthrosis. Brachial, neuralgia. Coughs. Dysmenorrhea. Dysphagia. Dyspnea. Endometriosis. **Headaches**. Intoxication. Otitis. Palpitations. Premenstrual syndrome. Rhinitis. Sciatica. Sinusitis. Thyroid, problems.

HOMEOPATHIC - *Flavus* is a bacterium called *Neisseria Pharyngis Flava*, belonging to the *Neisseria* family of the *Micrococcales* order. These microbes are in the shape of shells arranged in pairs like coffee beans. They are Gram-positive. *Neisseria Flava* is an aerobic saprophyte found in the upper respiratory passages.

Flavus is not considered to be pathogenic. Nevertheless, it was isolated from the cerebrospinal fluid of several children suffering from meningitis. It owes its name to the formation of a yellow pigment in the middle of the culture colony.

Flav. shows signs of irritation in the eyes, nose and pharynx which can lead to spasmodic rhinitis. Sensation of a lump in the throat. Feeling like feathers in the throat (*Kali-bi.*). Feeling of gravel in the larynx after speaking for a long time. Thyroid problems.

Headaches. **Peri-orbital headaches**, localized on the right side (*Sang.*). Pain at the level of the frontal and maxillary sinuses. Discharge from the eyes and nose. Tendency to colds, coughs and expectorates. Slight localized trembling, particularly in the fingers. Intoxication.

MIND - Low morale, exaggerates difficulties. Sensitive to others' emotions and being contradicted.

Back - Arthrosis of the cervical column with cracking. Neck pains. Cervical-brachial neuralgia. Pain in the back, spreading to both arms.

Constitutions - Psoric, sycotic and tubercular constitutions.

Ears - Frequent attacks of otitis, recurring. Pain in the right ear.

Eyes - Peri-orbital headache, localized on the right side. Eyes red in the evening, when tired. Eye fatigue. Eyes swollen in the morning, on waking, eyelids heavy. Conjunctivitis.

Female - Menses irregular, too early, of varying quantities with pale blood. Menses too frequent. Menses late with premenstrual syndrome. Loss of blood at ovulation. Dysmenorrhea. Endometriosis. Hot flushes, worse at night.

Food - Complaints aggravated by wine (*Zinc*, *Nux-v.*).

Head - Peri-orbital headaches, localized on the right side (*Sang.*).

Heart - Palpitations at night with feeling of fever, worse after drinking wine.

Limbs - Arthrosis, rheumatic arthritis. Sciatica. Pain in the joints with cracking situated at the knees, wrists, shoulders and fingers. Pain in the left hip, left arm. Slight localized trembling, particularly in the fingers.

Lungs - Dyspnea, worse at night, worse around 2 a.m., with waking and suffocation. Coughing in the morning for 1 hour, on waking.

Modalities - Better in the autumn. Better spring. Better from hot baths. Worse from cold. Worse heat. Worse at night. Worse in the morning. Worse on the left side. Worse after drinking wine.

Mouth - Arthritis of the jaw with loose teeth.

Nose - Nose dry with dry scabs. Nasal discharge of greenish pus (Kali-bi.). Sinusitis. Sneezes easily. Spasmodic coryza. Nasal congestion at night, one nostril becomes blocked. Bleeding from the nose in the morning on waking.

Skin - Perspiration from the palms. Dry eczema of the palms. Ecchymosis occurring regularly from the slightest shock.

Stomach - Digestion bad. Digestive complaints after moist food. Frequent nausea after meals.

Throat - Red, sore throat. Sore throat after having had wet feet. Throat dry with slight discomfort at night. Throat inflamed. Frequent loss of voice. Dysphagia. Tickling sensation in the right side of the larynx. Dry cough, aggravated in the morning. Feeling that the hard palate is touching the tongue.

RELATIONS - Compare: (1) Kali-bi. - Coryza and sinusitis with sensation of blocked nose and tickling in the nostrils. Thick yellow or greenish discharge, viscous or running, forming greenish elastic lumps, sticky, which leave the mucus membranes raw and burning. (2) Zinc - Also shows aggravation from wine, but the depressive condition is infinitely more accentuated. General weakness. Cannot keep his legs still.

REFERENCES - Julian.

***FLOR DE PIEDRA

PHARMACY - flor-p. Flor de piedra. Lopho- phytum leandri. Balanophoraceae. South America. Tincture of whole dried plant **Historical dose:** Tincture and all potencies.

CLINICAL - Cholecystitis. Colic. Colitis. Diabetes. Dysthyroidism. Emaciation, Epilepsy. Exophthalmus. Goiter. Headache. Hyperthyroidism. Hypothyroidism. Rickets. Vertigo.

HERBAL - Flor de Piedra grows in the tropical forests of Argentina, Paraguay and Brazil. This plant is used by the natives for stomach and liver disturbances. In Pio Carrera's book on Brazilian phototherapy, rickets and epilepsy are also indicated.

HOMEOPATHIC - W. Schwabe brought back the plant from Brazil. In collaboration with others, he carried out a proving on sixteen provers (10 women and 6 men), using the 6x, 4x, 3x, and 2x potencies, on February 21. 1964.

J. R. Reside undertook another proving in 1966-67. Finally, Juliette Fourmon undertook an extremely thorough clinical proving.

Emaciation from the pituitary or the thyroid gland. Neuro-endocrine complaints. Congestion of the thyroid with vago-sym- pathetic disharmony. Pituitary diabetes. Cardiac complication of hyperthyroidism.

Pain in the heart and liver. General nausea. Distention and spasmodic diarrhea.

Constriction of the neck. Feeling of tightness around the neck. Headache, vertigo. Sudden tiredness, especially in the morning.

MIND - Increase in general activity. Mentally alert, clear-headed. Bright, then slow. Confused, lacking focus. Depressed.

Abdomen - Wakes at 2 a.m. with abdominal pains, ameliorated by going to stool. Heavy, full feeling and abdominal distention. Pressure in the right iliac region. Cannot bear the pressure of underclothes.

Back - Pain in the right shoulder on lifting the right arm.

Blood - Disorders of the basal metabolism. Hypo-cholesterolemia.

Chest - Right subcostal pain. Feeling of oppression in the thorax, rather more to the right than the left side. Thoracic pain, worse by movement and deep respiration.

Constitutions - Suited to tubercular, nervous, phosphoric or phospho-fluoric types.

Ears - Pruritus of the auditory canal.

Eyes - Eyes bloodshot. Stye on the lower right eyelid. Orbital pain of a pressing type, when reading. Diminution in visual activity.

Female - Menses infrequent, abundant, but late by five days. Greenish vaginal discharge.

Food - Extreme thirst.

Head - Left frontal or temporal headache, ameliorated in the open air, increased in the evening. Headaches, as though the brain would burst with visual disturbances and zigzags at the edge of the field of vision.

Heart - Palpitations.

Kidneys - Abundant urine.

Limbs - Painful drawing and pricking feeling in the left arm, elbow and hand, with formication in the left hand. Drawing pain in the right thigh down to the calf and heel. Sharp, cutting pain in the left knee, worse when

walking. Heaviness in the legs. Right foot slightly edematous and sensitive to pressure. Feet cold.

Lungs - Irritating, dry, hacking cough.

Modalities - Better from open air, Better heat. Worse in the evening. Worse from exertion.

Mouth - Mouth dry with difficulty in swallowing. Ulcers in the mouth and on the lips and tongue. Heartburn. Diminution in sense of taste.

Nose - Dryness in the nose. Fits of sneezing.

Rectum - Tendency to diarrhea with grayish or pale yellow stools.

Skin - Generalized pruritus, but particularly the ears, scalp, arms and face, abdomen and anal region. Marks on the thighs and lower limbs. Perspiration.

Sleep - Sleep disturbed. Fiery, hot feeling in bed.

Stomach - Acrid dyspepsia. Nausea and epigastric discomfort.

Temperature - Profuse sweating and hot flushes.

Throat - Throat dry, empty swallowing to clear the throat. Feeling of a lump in the back of the throat. Stabbing pain in the throat, worse during the morning.

Vertigo - Vertigo and tendency to fall to the left.

COMMENTS - Freiwald reported favorable results in thyroid infections, using the potencies 3x and 6x and in infections of the liver and bladder, using 4x and 6x. Juliette Fourmon reported some clinical successes in goiter cases, hyperthyroidism, and in a case of bilateral degenerative labyrinthitis.

M. Tetau made a general review of thyroid disorders and their homeopathic and biotherapeutic treatment, noting the value of *Lophophytum Leandri*.

RELATIONS - Compare: (1) *Iodum* - Anxious, cannot stay still, emaciation, hoarseness, diarrhea. Precordial anxiety with palpitation at the slightest exertion. (2) *Hedera Helix*. (3) *Nat-m.* - Emaciation of the upper part of the body, headache, dryness of the mouth and fissure on the middle of the lower lip. Abnormal desire for salt. (4) *Tuberculinum* - Asthenia, emaciation, erratic pains, constant need to move, diarrhea in the morning, sweating at the least physical or mental effort.

REFERENCES-Julian.

*****FLUORICUM ACIDUM**

(Fluoric Acid)

PHARMACY - fl-ac. Fluoricum acidum. Fluoric acid. Hydrofluoric acid. Made by distilling pure fluorspar (Calcium fluoride) in a state of fine powder with sulphuric acid. Solution. **Historical dose:** All potencies.

CLINICAL - Abscess. Alcoholism. Alopecia. **Bedsore. Birthmarks. Bone disorders.** Brain, **atrophy. Coccyx.pain. Dental, fistula. Dropsy.Edema.** Exostosis. Eyes, disorders. Felon. Fistula. **Fluoride, poisoning.** Gleet. **Goiter.** Gonorrhea. Hair, loss. Headaches. Hemorrhoids. Hydrocele. Keloids. Liver, induration. Locomotor ataxia. Nevi. Nose, inflammation. Nymphomania. Otorrhea. Peritonitis. Perspiration. Pityriasis. Satyriasis. Scars. Spleen, pains. Strokes. Suppuration. Syphilis. **Teeth, decayed.** Toothaches. Tongue, ulceration. **Ulcers.** Varicocele. **Varicose, ulcers. Varicose, veins.** Veins, diseased. Whitlow.

HOMEOPATHIC - Fl-ac. acts on the lower tissues of the body much like Sil., which it follows and precedes well, although their modalities differ, Fl-ac. is better from cold applications. Useful after the abuse of Sil.

Slow, deeply destructive effects. Decay **of long bones, ulcerations, bedsore, varicose veins.** Necrosis of the bones, favors the expulsion of the necrosed part. Acts especially upon lower tissues.

Teeth are deficient in enamel, black, rough, unsightly-looking. Early **decay of teeth.** Calcareous degeneration. Nails grow rapidly. Felon. Nevus, flat.

Edema. Tissues are puffy indurated and fistulous. Dropsy with numbness or without. Old scars, scars become redder and itch. Red blotches on body which tend to desquamate. Small red spots here and there, worse by warmth, better in cool place. Discharges are thin, foul, acrid or salty, causing itching.

Increased sensitiveness of vision and hearing. **Glabella region bloated.** Numbness of the part not lain on in brain diseases, spinal disorders. **Goiter.** Affinity for rectal, dental and lachrymal fistulas. Suffering if the call for evacuation is not immediately attended to.

Old cases of nightly fevers, coming on periodically. Always feels too hot, wants to bathe in cold water. Patient is compelled to move about energetically.

Hob-nailed liver of the alcoholics. Complaints of old age or the prematurely aged with weak, distended blood vessels. Especially adapted to chronic diseases with syphilitic and mercurial history. Secondary syphilis.

MIND - Absent-mindedness. Forgetful in evening, better morning. Great loss of memory. Forgets almost everything. Forgets dates. Mistakes right for left.

Opinionated, strong-minded. **Domineering behavior.** Irritability, sends the nurse home. **Abuses and reproaches others.** Irritability with absent persons. Sensitive to noise. Conversation aggravates.

Depression of mind. **Aversion to his own family.** Aversion to those loved best (Sep.). Sits silently, does not utter a single word, nor answers anyone when questioned. Inability to realize responsibility. **Shuns responsibilities.** Indifference to business affairs. Indifference to loved ones, to relations.

Anxious ideas. Apprehensive, causes sweat, better morning than evening. Fear of having a stroke. Sensation as if danger menaced him, but without fear.

Impulse to walk fast, necessity to be always on the move. Becomes interested and converses pleasantly with strangers. Buoyancy of mind. Mentally elated and excited. Fears nothing and is self-satisfied. Cheerful during menses. Cheerful when walking in open air.

Delusion, marriage must be broken. Thinks he must drive children out of the house, must dissolve marriage. Thinks he must get rid of servants. Stands on the street looking at women as they pass by, so great is his lust. Nymphomania.

Abdomen - Ascites from hepatic disorders.

Induration, enlargement and portal congestion. Flatus and belchings. Sensation of emptiness at the region of navel with a desire to draw a deep breath, better bandaging. Burning, pinching, about navel.

Back - Pain in third cervical vertebra. Coccyx pain worse motion and exercise. Bruised, in sacrum. Aching in sacrum and lumbar region, better stretching and bending backwards, esp. by pressure. Stiffness of nape. Lameness in back, hips and legs.

Breasts - Nipples sore, cracked, itching. Itching on left breast.

Chest - Oppression in chest, difficult breathing, great dyspnea, better bending backwards. Hydrothorax. Upper part of chest seems most affected. Scaly eruption on chest and arms. Itching under ribs left side.

Constitutions - Suited to complaints of old age or the prematurely aged. Suited to the weakly constitutions, sallow skin, emaciation. Pale, miserable, cachectic, flabby and broken down patients. **Dropsy of limbs** in old, feeble constitutions.

Ears - Intolerable itching in ears. Itching momentarily better scratching, but followed by burning. Profuse otorrhea. Otitis externa. Great sensitiveness in morning to little noises. Difficulty in hearing human voices, with numbness of bones around ear. Deafness, better bending head back. Singing, ringing.

Eyes - Burning in eyes. Increased lachrymation. Chronic inflammation of lachrymal sac, worse cold air. Lachrymal fistula, worse cold air. Violent itching of inner canthus. As if sand in eyes. As if something in the eyes, that could not be rubbed off, must wink. **Sensation as of a cold wind** blowing through the eyes. Left eye smaller than right.

Face - Heat in face, wants to wash it in cold water. Pale. Exostoses of bones of face. Heat in face, wants to wash it in cold water. Crusta lactea, dry, scaly, itches very much. Suppurating tubercles in skin of forehead and face. Sweats on face. Right lower jaw swollen.

Female - Menses, blood thick and coagulated. Menses too early, copious, frequent, too long. Feels distressed if the flow is slightly delayed. Metrorrhagia with difficulty of breathing. Copious and excoriating leucorrhea, itching. Acrid leucorrhea.

causes itching. Ulceration of uterus and os. Nymphomania.

Food - Hungry. Averse to coffee. Desire for pungent, spicy, highly seasoned food. Desire for fancy dishes. Craves refreshing drinks. Craving for cold things. Craves cold water. Warm drinks produce diarrhea. Desire for wine. Worse from sweet things. Worse from coffee.

Head - Atrophy of brain. Stunning headache, better urinating. Pressure on sides of head from within outward. Compressing pain in temples. Pressure in occiput. Pain along the sutures. Numb sensation in forehead. Puffy glabella. Congestion of blood to head during pregnancy. Decay of ossicles and mastoid with copious discharge, worse warmth (Sil.). Decay of skull bones. **Exostosis.** Decay of skin. Itching of head. Brittle hair. New hair dry and breaks off. Falling out of hair after fevers. Alopecia areata. Baldness. Scaly eruptions on head.

Heart - Sore pain in heart. Pulse somewhat accelerated, only during exercise. Small, frequent pulse.

Kidneys - Involuntary urination at night. Increases urine in dropsy, with great relief. Burning in urethra during and after urination. Upward drawing in the urethra. Whitish or purple colored sediment. Urine pungent and fetid. Urine alkaline. Urine, scanty, dark.

Limbs - **Dropsy of limbs** in old feeble constitutions. Limbs go to sleep. Osteitis. Decay and necrosis, especially of long bones. Constant redness of the hands, especially the palms. Hot, sweaty palms. Inflammation of joints of fingers. Feeling of hair on back of fingers. Soreness between toes. Nails distorted. Nails crumble. Nails grow rapidly. Felon. As of a splinter under the nail. Nails corrugated lengthwise. Corns are sore. Necrotic bones. Ulcer over tibia.

Liver - Ascites from hepatic disorders. Degeneration of liver in consequence of alcoholism. Soreness over liver. Hepatic disorders with ascites.

Lungs - Difficulty of breathing with, or alternating with, metrorrhagia. Great dyspnea, better bending backwards. Wheezing. Difficult breathing, in afternoon and evening. Great dyspnea, has to be propped up in bed.

Male - Burning in urethra. Oily pungent smelling sweat on genitals. Dropsical swelling on penis. Gleety discharge at night, staining linen yellow. Varicocele. **Swollen scrotum**. Violent erections at night. Increased sexual desire in old men. Overwhelming sexual desire, keeping him awake at night. Enjoyment excessive. Gonorrhea. Sensation of fullness in spermatic cords. Sudden loss of sexual power. Impotence. Yellow drop from urethra in morning.

Modalities - Better cold. Bending open air. **Better cool bathing**. Better walking. Better rapid motion. Better bending head back. Better short sleep. Better sitting. Better eating. **Worse heat of room**. Worse night. Worse morning. **Worse warmth**. Worse warm drinks. Worse alcohol, red wine. Worse sour foods. Worse rest. Worse rising. Worse coffee. Worse standing.

Mouth - Mouth coated with mucus in morning. Painful ulcer in right angle of jaw. Affects teeth and bones of upper jaw. Increased flow of saliva, with sneezing. Viscid, tasteless saliva in mouth. Syphilitic ulceration of mouth, which is very sensitive to cold.

Nose - Red, swollen, inflamed nose. Fluent coryza during sleep. Sneezing with salivation. Chronic nasal catarrh with ulceration of the septum. **Sudden copious watery discharge from eyes, nose and mouth**. Nose obstructed and dull heavy pain in forehead. Itching on right side of nose. Cold water causes coryza. Posterior nares feel expanded, during a walk.

Perspiration - Profuse and sour, offensive perspiration. Feels as if hot vapor were emitted from all the **pores**. **Acrid, eroding sweat, excites itching**. Sweat on diseased part. Sweats on hands and feet. One-sided sweat (left). Sweats in afternoon. Sweats during exercise. Sweat relieves. Excessive sweat on feet. Sweat promotes excoriation

Fluoricum acidum and bedsores.

Rectum - Flatus and eructations with constriction of anus. Constipation. Itching and burning at anus. Bilious diarrhea with aversion to coffee. Diarrhea worse on alternate days. Warm drinks and salmon produce diarrhea. Itching in perineum. Very loose, bright yellow stools, with much mucus, preceded by considerable griping. Stools frequent and hard. Stools pappy, yellowish brown, fetid, with tenesmus and prolapsed anus.

Sensations - Sensation as of a cold wind blowing under lids, even in warm room, as of air passing down from shoulder joint to fingers. Numbness of limbs even when not lain on. Increased ability to exercise his muscles without fatigue. Less affected by excessive heat in summer or cold in winter.

Skin - Dry, harsh, itching or cracked skin. Burning pains on small spots of skin. **Itching, especially of the orifices**. Itching in spots, worse warmth. Itching of scars. Keloids. Scars, surrounded by pimples, become red around the edges. Bedsores, worse warmth. **Varicose veins**. Atony of capillary and venous system. Tissues bloated. Nevus or birthmarks on children. Nails grow rapidly. **Ulcers, red edges and vesicles**. Ulcers on ankles. Syphilitic tubercles. Syphilitic rupia. Periosteal abscess. Hard, dry warts. Frequent small boils, carbuncles.

Sleep - Sudden sleepiness. Drowsy and sleepy in early evening. Sleeplessness without inclination to sleep. A short sleep suffices and refreshes him. Sleep disturbed by accumulation of mucus in fauces. Sensation as if sleeping on side not lain on. Sleeplessness in evening from crowding of thoughts. Dreams towards morning. Dreams of fire. Dreams with amaurosis.

Stomach - Frequent eructations and discharge of flatulence. Sour eructations. Stale eructations. Burning, pinching pain in stomach, before stool. Heaviness and weight in stomach. Heat in stomach before meals. Gnawing hunger, is always eating which temporarily relieves. Sour or stale belchings. Bilious vomiting on slightest errors in diet. Stomach symptoms, better tight clothes.

Teeth - Affects teeth and bones of upper jaw. Great sensitiveness of teeth. Late dentition. **Teeth, decay rapidly, worse at roots**. Thin enamel. Teeth feel warm, heavy, rough. **Dental fistula with bloody, salty discharge**. Acrid, foul taster from roots of teeth. Teeth coated with mucus in morning. Wisdom teeth come late. Toothache worse cold drinks. Toothache better until water becomes warm in mouth.

Temperature - Nightly fevers coming on periodically. Ebullitions of heat with pain in bones. Feels as if burning vapor were emitted from pores. General heat with nausea, with inclination to uncover. Face constantly hot, wants to bathe it continually in cold water.

Throat - Excessive pain, when swallowing or talking. **Sore throat, worse inspiring cold air**. Throat sensitive to cold, slightest exposure resulting in sore throat, with increase of pain and impeded swallowing. **Constriction in throat, with difficult swallowing**. Hawking of phlegm, mixed with blood. Red blotches, over palate and sides of cheek, bleeding easily. **Throat intensely red and much swollen, with fetid breath, nasal voice**. Goitre. Trachea sore and raw. Weak voice. Dryness in larynx and trachea. Itching in larynx, causes hawking

and swallowing. Soreness and increased irritability in larynx with impeded respiration and wheezing. Syphilitic ulceration of throat.

Tongue - Tongue, fissured in all directions, painful when talking. Ulcer on and under tongue. Tongue as if stiff, with restricted mobility. Tongue vivid red at tip and edges. Tongue coated yellow in centre. Tongue whitish and dry. Numbness and tingling of tongue. Pricking sensation of tongue.

Vertigo - Vertigo with nausea, must sit down. Feeling as if in an earthquake.

Vision - Amaurosis. Dark spot before eye, worse reading. Flashes like lightning. Red photopsia. due to retinal excitement.

COMMENTS - Severe bone diseases and ulcers, where the bones decompose instead of healing. Necrosis of the bones, bone abscesses. Bone pains (Merc., Calc-f.). For syphilis, when it causes ulcers and goes to the bones.

Tendency to form ulcers on the skin and in the mouth that do not heal well, particularly in the elderly. Ulcers can have a red edge. Bedsores. Keloids that ulcerate or don't heal well (Sil.).

Varicose veins that swell and ulcerate with severe burning pain, worse heat (Sec., Lach.). Varicose veins with itching, swelling and burning pains. Varicose veins or ulcers aggravated after each childbirth.

Hot blooded. Worse heat. Better from cold washing and walking in the open air (opposite Sil.). Constant desire to walk in the open air, and does not fatigue. Hungry. Symptoms seem to move from below upward.

For children with weak tooth enamel (Sil., Calc-f.), or whose teeth erupt rotten and abscessed (Kreo., Calc-f.). Generally a woman's remedy. Hate between spouses.

Guernsey noted that it tends to affect the right ear, the left teeth, left hypochondrium, left side of the abdomen, right side and nape of the neck, and the right side of the back.

McLachlan added that the left hand is affected rather than the right, and the pus tends to point on the dorsum of the finger. T. F. Allen noted its use for whitlow.

RELATIONS - Compare: (1) Thiosin. - action on scar tissues, adhesions, strictures, tumors. Calc-f., Sil. (2) Coca - fatigue, Coffea - toothache. (3) Cit-ac. and Sep. - aversion to one's family. (4) Ox-ac. - diarrhea worse from coffee. (5) Rhus-t. and Ruta - Coccyx, pain. (6) Sil. - fistula, onychia, bone diseases. Coccyx, pain. (7) Brom., Iod., Spong, and Kali-c. - goiter. (8) Staph. - teeth. **Complementary:** Sil. **Compatible:** after Ars. in ascites from gin-drinker's liver after Kali-c. in hip disease after Ph-ac. in diabetes. **Followed well by:** Sulph., Nit-ac.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***FLUORIDE

PHARMACY - fluor. Fluoride. **Historical dose:** All potencies.

CLINICAL - Bone, disorders. Cancer. Collagen, diseases. Constipation. Decayed, teeth. Faintness. Miscarriages. Nausea. Skin, rash. Stomach cramps. Rash. **Teeth, disorders.** Ulcers. Vomiting. Weight loss. Wrinkles.

HOMEOPATHIC - In a number of small villages in Sicily, Turkey and India there is naturally occurring fluoride in the water ranging from 0.7 to 5.4 ppm. Here the villagers and their livestock are chronically ill, while neighboring villages with no fluoride have no such illnesses. Premature aging is the overall effect.

Children have brown decaying teeth; young adults often have none. Young men are bent over and crippled with pain in their joints and hips. Their skin is wrinkled and they look 60 at age 30 to 40.

There is premature hardening of the arteries. Loss of appetite and sex drive by age 30. The rate of stillborn miscarriages by 4 months is extremely high.

Fluoride damages enzymes which results in a wide range of chronic diseases. Fluoride causes breakdown of collagen. It also leads to irregular formation of collagen which serves as a major structural component of skin, ligaments, tendons, muscles, cartilage, bones and teeth.

Female - Miscarriages.

Limbs - Bone, disorders. Tremors. Aching bones. Stiffness.

Rectum - Constipation.

Skin - Skin rash. Wrinkled, skin. Ulcers.

Stomach - Stomach cramps. Nausea. Bloody vomit.

Teeth - Deformed teeth. Decayed teeth. Brown or black discoloration of the teeth.

Vertigo - Faintness.

RELATIONS - Compare: (1) Fl-ac., Calc-f.

REFERENCES - Murphy.

***FOENICULUM SATIVUM

(Fennel)

PHARMACY - foen. *Foeniculum sativum*. Fennel. *Foeniculum vulgare*. N. O. Umbel- liferae. Tincture of seed.

Historical dose: Tincture and all potencies.

CLINICAL -

HERBAL -The fruit (seeds) are quite fragrant, and are among the most relaxing and least pungent of all the aromatics. They are eminently carminative, and quite diffusive; and are usually better received by the stomach than are cummin or dill seeds, being also more relaxing than these, but more stimulating than anise seed. Their principal use is in combination with senna, rhubarb, juglans, rhamnus, and other cathartics. The oil may be made into essence.

From a very early period of medical history, fennel seed has been credited with the power of increasing the secretion of milk, (galactagogue.) Its use for this purpose is most extensive in Germany; but leading physicians of many countries ascribe to it excellent power in this direction. The infusion of the seed may be used without limitation.

Huefeland employed it in the following combination: Fennel seeds, one drachm; sweet orange-peel, half a drachm; carbonate of magnesia, three drachms; sugar, two drachms. Mix the powders, and give a teaspoonful three times a day. This preparation is greatly extolled through Germany. Others have given formulas combining the fennel with anise seed, parsley root, licorice root, etc., and using an infusion freely.

HOMEOPATHIC

The whole plant has an aromatic odor and taste, owing to a volatile oil by which it is pervaded. It is cultivated largely in Italy and Sicily for the sake of the shoots, which are eaten raw, or in salad, or boiled as pot-herbs.

The odor of fennel-seed is fragrant, its taste warm, sweet and agreeably aromatic. It is among our most grateful aromatics, and in this country much employed in the *old school as a carminative and as corrigent* of other less pleasant medicines, especially senna and rhubarb. In infants it is employed as a tea, or injection, to produce the expulsion of flatus.

In most of the ancient books on the practice of medicine we find it in common use as a modifier and corrective of cathartic infusions, to prevent griping, and to obviate flatulence. As far back as Hippocrates can its employment be traced.

Pressure in the left upper jawbone, which soon ceases. Pungent pain in the right elbow joint, it recurs often during several days. Diarrhea. Increased secretion of urine. Excites the vascular system and the respiratory organs.

REFERENCES - Murphy.

*****FOLLICULINUM**

(Ovarian Follicle)

PHARMACY - foil. *Folliculinum*. Ovarian follicle. Oestron. Estrone. Hormone secreted by the ovaries. Trituration. **Historical dose:** All potencies.

CLINICAL - Acne. Alopecia. Amenorrhea. Backache. Cystitis. Headaches. Leucorrhea. Mastitis. Metrorrhagia. Migraines. Palpitations. **Premenstrual, syndrome.** Seborrhea. Tachycardia. Vaginal, pruritus.

HOMEOPATHIC - A female remedy, affecting primarily the female hormonal system. Foil, in a homeopathic dilution could be indicated in premenstrual syndrome, as well as for all the functional symptoms present in a patient.

Premenstrual syndrome. Weight gain without excessive eating, worse before menses or during ovulation. Premenstrual migraines. Congestive headaches, either with redness of the face or the opposite with pallor, but still with the sensation of chilliness at the limbs.

Frequent ecchymosis, bruises very easily. Acne on the face and seborrhea of the nostrils. Hypersensitive to heat, noise and contact.

Foil, in low potencies of 3x and 4c is an arouser to be given in cases of amenorrhea and insufficient menstruation. In 7c, it is a regulator.

In 9c, it is a restrainer and a dose should be given either towards the tenth day of the cycle, when the pains predominate on the 14th day or 5 days before the beginning of menstruation, when the discomforts are predominant before the arrival of menses.

MIND - Alternation of excitability and depression, worse before menses. Irritable and sensitive before the menses. Extreme instability with anguish, worse at nightfall. Sexual hyper-excitability. Fixed ideas of a sexual nature.

Abdomen - Abdominal meteorism, worse three or four days before menses. Liver swollen, soft and hypertrophic.

Back - Lumbar pains, worse during ovulation. Backache before menses.

Bladder - Recurring cystitis in women.

Breasts - Breasts enormous, swollen, cannot bear being constricted or touched. The pain is ameliorated or disappears with menses. Congestive mastitis.

Eyes - Swelling with edema of the conjunctiva tissue.

Face - Acne on the face and seborrhea of the nostrils.

Female - Congestion, uterine, and premenstrual pains. Vaginal, vulvar pruritus, worse before menses. Menses prolonged, blood bright red with clotting. Menses painful for the first few days. Leucorrhea. Yellow or brownish discharge, sometimes blood streaked, between menses, especially during ovulation. Small losses of blood during ovulation. Uterus is fibrous with metrorrhagia.

Head - Alopecia in women.

Heart - Tachycardia. Palpitations with faintness. Sensation of constriction around the heart with feeling of a bar in the precordial region, spreading to the left arm.

Lungs - Need for fresh air, takes large breaths of air and sighs deeply. Fitful cough, worse when in company, with sensation of constriction around the heart.

Modalities - Better after the third day of menses. Better with movement. Better fresh air. Worse before menses. Worse during ovulation. Worse from heat and resting.

Nose - Coryza with headache and profuse discharge. Hay fever.

Rectum - Feeling of heaviness in the rectum. Chronic constipation, sometimes alternation of constipation and diarrhea.

Skin - Dry eczema, worse during ovulation, before menses. Dry eruption of the fingers with splitting and chapping of the skin.

Stomach - Indigestion. Nausea with vomiting. Premenstrual pain in the right hypochondrium.

Throat - Swallowing of liquids very painful. Cannot bear pressure on the pharynx.

RELATIONS - Compare: (1) The closest remedy is Lach. Like this remedy, it has: Alternating excitability and depression, extreme sensitivity to contact, amelioration by menstrual flow. But, unlike Lachesis, we do not find: Laterality or aggravation from sleep, but, on the contrary, aggravation during ovulation. (2) Sepia, Lac-c., Puls., Kali-c.

REFERENCES - Julian.

***FORMALINUM

(Formaldehyde)

PHARMACY - formal. Formalinum. Formaldehyde. Formaldehydum solutum. Aqueous solution (35 percent) of Formaldehyde gas. **Historical dose:** All potencies.

CLINICAL - Anuria. Albuminuria. Catarrhal, disorders. Chills. **Dyspnea.** Eczema. **Forgetfulness. Laryngismus, stridulus.** Ptyalism. Tuberculosis. **Vertigo. Whooping cough.**

HOMEOPATHIC - Formalinum is a powerful disinfectant and deodorant, as well as a potent poison. Prevents growth and kills almost any pathogenic microorganism. It seems to have the peculiar property of eating into malignant tumors, leaving the surrounding healthy tissue uncharred and unchanged.

MIND - Anxiety. **Forgetfulness.** Dullness of mind. Unconsciousness.

Head - Coryza, eyes water.

Kidneys - Anuria, albuminous urine. **Lungs - Dyspnea. Whooping cough.**

Mouth - Ptyalism, thick saliva. Loss of taste.

Rectum - Intense urging to stool, watery stools.

Skin - Puckers skin like leather, wrinkles, scales off. Eczema in neighborhood of wound. Damp sweat most marked on right upper extremity.

Stomach - Food feels as if it were a ball in stomach. Burning in mouth and stomach.

Temperature - Chills in forenoon, followed by long fever. Bones ache during whole paroxysm. During fever forgets where he was.

Throat - Laryngismus stridulus.

Vertigo - Severe vertigo.

COMMENTS - A plug of cotton wool soaked in a 20 percent solution of formaldehyde and applied for a few hours, will produce a necrotic slough, which must be scraped away before the next application, otherwise it hardens.

Formal., in hot water as vapor, is a most valuable therapeutic agent in whooping cough, tuberculosis and in catarrhal disorders of the upper air-passages.

RELATIONS - Antidote: Ammonia water. **Compare:** (1) Ammonium formaldehyde, known commercially as

Cystogen. Dose, five to seven grains two to four times daily, dissolved in hot water after meals. Prevents the decomposition of urine in the bladder, kidneys and ureters. Turbid urine rendered clear and non-irritating, phosphatic deposits dissolved and growth of pyogenic bacteria arrested. (2) Also, Urotropin - A diuretic and solvent of uric acid concretions, relieves cystitis associated with putrefaction. Three grains well diluted. When administered it invariably appears in the cerebro-spinal fluid and therefore advised in threatened meningeal infection.

- Boericke.

FORMICA RUFA

(Red Ants)

PHARMACY - form. Formica rufa. Red ants. Myrmexine. Contains formic acid. N. O. Hymenoptera. Tincture from crushed live ants. Contains formic acid. **Historical dose:** Tincture and all potencies.

CLINICAL-Arthritis. Brain disorders. Bruises. Chorea. Cough, **Diarrhea.** Dislocations. Dropsies. Eyes disorders. Facial, paralysis. Foot-sweat, checked. Gout. Hair, loss. Headaches. Nodes. Over-lifting, complaints from. Paralysis. **Polyps. Rheumatism.** Spinal, disorders. Spleen, pain. Stroke. Tapeworm. Throat, sore. Vision, disorders.

HOMEOPATHIC - Formica rufa causes many rheumatic and gouty pains. Pains appear suddenly and dart from place to place: left, then right, then left. Pains are worse from motion, better pressure.

Arthritis with sudden rheumatic or gouty pains. Chronic gout and stiffness in joints. Acute outbursts of gouty poisons, especially when assuming the neuralgic forms. The spinal cord is affected, paralyzes and spasms occurring. It affects the liver, kidneys and right side.

Influence on the formation of polyps. Tuberculosis. Carcinoma, cancer. Apoplectic diseases. Lupus. Chronic nephritis. Atrophy of wounds. Takes cold easily. Clammy skin, disagreeable sweat during night, sweat without relief. Chorea from checked foot sweat. Complaints from over lifting.

MIND - Indisposed, morose. Fearful, apprehensive. Exhilarated after pain. Remarkable and unexpected activity of the mind during the day with absence of usual dullness and sleepiness. Forgetful in the evening.

Abdomen - Flatulence. Drawing pain around navel before stools. Dull pain in region of spleen. Hardening of mesenteric glands.

Back - Soreness in neck and up into head. Severe pain in left side of neck while chewing. Severe pain across sacrum and dorsum of each hand. Affection of spinal cord.

Breasts - Violent penetrating pain in region of right nipple. Lack of milk in nursing women.

Causations - Complaints from over-lifting. Checked foot-sweat. Wounds. Great liability to take cold, consequences of cold and wet. cold bathing, damp weather.

Chests - Pleuritic pains.

Coughs - Cough tedious and long-lasting, worse at night and worse motion. Cough with aching in forehead and constrictive pain in chest. Cough, mostly at night. Violent attacks of cough with vomiting, day and night.

Ears - Ringing and buzzing. Deafness. Cracking in left ear with headache. Polyps.

External sensitiveness of right ear and temple. Parts around ear feel swollen.

Eyes - Pain in the eyes on waking, better washing. Rheumatic iritis. Rheumatic ophthalmia. Macule and ulcers on cornea. Dim sight. Flickering before eyes. Pterygium. Spasmodic twitching of upper eyelid.

Face - Entire left side of face and cheek feel as if paralyzed.

Female - Menses scanty and pale with bearing-down pain in back. Menses appear eight days too soon. Ovarian cysts containing water or blood.

Head - Brain feels too heavy and large. As if bubbles bursting in forehead. Headache with cracking in left ear. Headache better after combing hair. Vertigo.

Heart - Uneasy pain in region of heart. Fluttering palpitations.

Kidneys - Paralysis of bladder. Quantity of urine increased, urates. Urine like saffron, bright yellow, no sediment, passed frequently. Bloody, albuminous urine with much urging.

Limbs - Rheumatic pains, stiff and contracted joints. **Rheumatism comes on with suddenness and restlessness.** Muscles feel strained and torn from their attachment. Stiffness and contraction of joints. Hard nodes around joints in and out. **Weakness of lower limbs.** Paraplegia. Pain in hips. Itching in armpits in morning. Hands numb.

Lungs - Nervous asthma. Hoarseness with dry, sore throat, with aching in forehead and constrictive pain in chest, pleuritic pains.

Male - Seminal emissions, weakness. Long- lasting erections after urinating in morning. Scanty ejaculation with incomplete erection. **"Slothful to venery."**

Modalities - Better warmth. **Better pressure.** Better rubbing. Better combing hair. Better after midnight. Worse motion. Worse sitting. Worse dampness. Worse cold washing. Worse cold. Worse before snowstorms.

Mouth - Water tastes sweetish.

Neck - Pain in neck when chewing, especially on closing jaws.

Nose - **Nasal polyps**. Coryza and stopped up feeling.

Rectum - Constriction in the anus. Drawing pain **around navel** before stool. Pain in bowels before stool with shuddering chilliness. In the morning, difficult passages of small quantities of flatus, afterwards diarrhea-like urging in the rectum. Light, foaming stools.

Skin - **Red, itching and burning**. Nettlerash. Hives in flat plaques. Nodes around joints. Wounds that atrophy. Profuse sweat without relief.

Sleep - Could get to sleep if she could get the right position. All night dry throat, woke her out of sleep. Disagreeable sweat during night, awoke with clammy skin. Wakes early and feels she has had sufficient sleep. On awaking, headache, vomiting with headache, pain in eyes, stitches in ears.

Stomach - Constant pressure at the cardiac end of the stomach, with burning pain. Pains shifts from stomach to vertex. Gas cannot be passed. Nausea with headache and vomiting of a yellowish bitter mucus.

Temperature - Profuse sweat without relief.

Throat - Sore throat in morning with much mucus, worse left side. Hoarseness with sore throat. Pain in neck when hawking or gargling.

Vertigo - Vertigo, all things seem to move to and fro, reeling of body. Pain in left supra-orbital region when going to bed with dizziness, blackness before eyes, better by sitting down.

COMMENTS - Sensation as if brain too heavy and large. Sensation as if a bubble burst in forehead. Hering noted its use "in all kinds of apoplectic diseases. It strengthens the brain." Cooper gave the 3x with success in cases of weakness of the lower limbs.

J. W. Thomson reported the case of a man, aged 84, who had severe neuralgic pains between posterior of right ear and center of occiput. He apparently recovered, but returned eighteen months later with a steady, sore and burning pain in the same region, swollen and tender around, but especially behind right ear.

He could only sleep in one comfortable position, which he could not describe, but only knew when he found it and he must be covered up warmly behind right ear and between that and occiput and neck. All on the right side. Better from taking right hand and rubbing gently behind right ear. Sweat afforded no relief, the whole head seemed to sympathize with the distress. He had dribbling of urine.

Form, was given, six doses, one before each meal. On the second day towards evening, he felt worse, and on the third day there were twinges and spasms of severe pain in addition to the sore pain that he had experienced before. These gradually got better and on the fourth day even the soreness was much better.

The main thing, however, was that he felt mentally better, said his mind and head felt stronger and from feeling depressed he had become cheerful and life did not seem the burden it had for some time past.

RELATIONS - **Compare**: (1) Formic acid, Ars., Bry. (2) Dulc. - Rheumatism. (3) Urt-u. - nettle-rash, gout, rheumatism. (4) Frag-v. - lack of breast secretion. (5) Trom. - Diarrhea.

(6) Caps. - Burning pains worse by cold water. **Compatible**: after Cham.

REFERENCES - Boericke. Clarke. Phatak.

***FORMICICUM ACIDUM

(Formic Acid)

PHARMACY - form-ac. Formicicum acidum. Formic acid. **Historical dose**: Tincture and all potencies.

CLINICAL - Arthritis. Catarrh. Gout. Polyps. **Tremors**. Varicose veins. **Vision, weak**.

HOMEOPATHIC - Form-ac. is known to the homeopathic Materia Medica only in the preparation of Formica rufa, a tincture made of ants that contain the acid. Apis and other insects contain formic acid, as well as Urtica urens and many other plants.

Form-ac. in small doses increases muscular strength and resistance to fatigue. Feels stronger and more fit in ordinary walking.

Chronic muscular pains and soreness.

Tremors. Gout and joint rheumatism, which appear suddenly. Pains usually worse on right side, motion and better from pressure.

Chronic arthritis following an attack of acute rheumatic fever. Chronic arthritis in connection with gouty diathesis. Marked diuretic effect, greater elimination of products of disassimilation, particularly urea. **Failing vision**.

Hering gave as an indication for Form-ac.: "Burning pain, burning from washing, renewed burning from cold washing."

In prescribing it for varicose veins, polyps, catarrh, Clarke ordered an ounce or two of a solution of formic acid

to the proportion of one part of the acid to eleven of distilled water. Of this, one teaspoonful is taken in a tablespoonful of water after food once or twice daily.

COMMENTS - Mr. R. Wallace Ellison of Richmond, sent three letters to Anshutz concerning his experiences with formic acid.

"About two years and nine months ago I added to my daily diet from one to two grains of Formic Acid with the result that it has produced the following results in my body: Polyps and fibrous matter absorbed from my nose. Nose tongue, lips and some other parts greatly reduced in thickness.

"Chronic catarrh of nose, throat and intestines practically cured. Stiff joints throughout the whole body have become loose. Short sight diminished by fifty percent. Eyes have changed in color from light slate gray to a darker shade.

"Varicose veins in left leg and others at base of neck now of no consequence. Facial and bodily appearance so altered that even my mother is puzzled and I can meet and converse with people who formerly knew me very intimately without my identity being discovered.

"I have also tried its effects upon a sickly and scabby pony and found it quickly restored the animal to health as well as giving it a beautiful, healthy crop of hair. Anyone who cares can produce this result in the case of an old pony. I hasten to add what I would have mentioned before, that the quantity taken during the last two years was not much over 1 grains daily.

"I found that 2 grs. daily was too much for regular use, though it served the purpose. If my theory be correct, perhaps 1 grains daily would be the proper thing and best to be taken in the form of honey, raw juice of sugar cane, etc.

"When I first commenced I used to drink about a pint of water with it, but now I just put the teaspoonful of acid into a very small quantity of water and drink it. It has a pleasant, 'fruity' sort of taste. I add a little citric acid and sugar to it and I believe this improves the effect.

"Chronic arthritis of traumatic nature can be cured by formic acid. In the latter case Formic acid 6x showed quicker and better results than 12x or 30x which are indicated in the previous cases. In general the disappearance of the stiffness of the joint is the first sign of improvement. Then the pain and swelling cease gradually in 1-6 months time."

In the Homeopathic World of April, 1902, Dr. Dudgeon gave an account of the work of Dr. Edward Krull of Gustrow, who was led to think of formic acid as a remedy from its constant occurrence in the internal organs and soft parts of the body.

He found it constantly present in the sweat of healthy persons, but very much diminished in or entirely absent from the sweat of persons affected with tuberculosis. He thought to supply the defect in tubercular subjects by introducing it into the system in material doses.

He found no benefit when he gave considerable doses by the mouth, so he used hypodermic injections of the watery solution. After two years of experiments he found to his surprise that the more dilute his injections were, the more powerful the effects and he ended by giving injections of a dilution which corresponds to our 3c or 4c and waiting five or six months before repeating the injection.

Dudgeon noted "He treated in this way with success external and internal tuberculosis, chronic nephritis and malignant tumors.

It was necessary for the success of the treatment that the nutrition of the body should be well maintained. In cachectic states the treatment is not indicated. It will be remembered that Hering mentions the case of an anemic woman who died from the effects of an ant-vapor bath.

"The general effects which were observed in all the cases treated by Krull's method were: Immediate increase of nutrition, the appetite improved, the weight increased, all this without any material change in the diet.

"In all the patients during the first months, sometimes every two or three days, sometimes at an interval of weeks, there occurred slight transient attacks of pain in the abdomen, on the right and left of the umbilicus, sometimes accompanied by urging to stool.

"If several copious fecal evacuations occurred, this had no bad effect on the patient, they seemed to have a critical character. After the injection the menses came on earlier and were more copious, all diseased organs and parts showed greater activity.

"In the first and second stages of tuberculosis cure is the rule. In the third stage the treatment only does harm, rapidly diminishing the strength.

"The action is most remarkable in lupus. During the first days after the injection the effected part commences to grow vividly red, rises up somewhat and discharges moderately and is the seat of shooting pains occasionally. Curative action usually begins in the third week.

"In carcinoma of the breast and stomach, the tumor first increases in size and becomes very sensitive and the skin over it feels warmer. The shorter the term the tumor has existed and the stronger the constitution, the

sooner does reaction occur and the consequent cure of the disease.”

In the concluding words of Dudgeon’s article, “Tuberculosis, chronic nephritis and carcinoma are not diseases in which we can claim a great amount of success. So where other remedies fail or cannot be discovered we may take Solomon’s advice and ‘Go to the ant!’”

RELATIONS - Compare: Formica rufa., Apis., Urtica urens.

REFERENCES - Anshutz. Boericke. Clarke.

***FRAGARIA VESCA

(Wood-Strawberry)

PHARMACY - frag. Fragaria vesca. Woodstrawberry. N. O. Rosacea. Tincture of the ripe fruit. Infusion of the root. **Historical dose:** Tincture and all potencies.

CLINICAL-Anasarca. Bilioussness. Chilblains. Convulsions. Erysipelas. Faintness. Gonorrhea. Sprue. Strokes. Tapeworm. Tongue, strawberry, swollen. Urticaria. Weaning.

HERBAL - An infusion of the root diminishes the size of the breasts and dries up the milk, useful in women who wish to wean their children.

In ancient medicine, Fragaria vesca was used in decoctions of leaves, roots or fruit, ripe or unripe, or combinations of these. Fragaria vesca is commended by W. Salmon as a wash for sore-mouth, as a hemostatic arresting the menses and stopping “**bloody-flux,**” swelling of the spleen, many forms of skin eruption and for “**clearing the complexion.**”

HOMEOPATHIC The allergic effects from those who are sensitive to strawberries have been utilized in homeopathy. The well-known “**strawberry tongue**” is an indication for its use. Dr. Burnett gave it as “**pip-py tongue.**” Faintness, suffocation like a stroke, convulsions and death have resulted, general anasarca and especially swollen tongue. Profuse viscid sweat.

Lippe mentioned “Tapeworm. Pain in chilblains in hot weather.” In two instances Clarke noted the indulgence in strawberries to revive symptoms of gonorrhea in men who thought themselves cured. A number of cases of sprue or pilosis have been cured by a diet of strawberries ad libitum.

RELATIONS - Compare: (1) Hydr-ac., Apis, Ars. Crat.

REFERENCES - Boericke. Clarke. Phatak.

***FRANCISCAEA UNIFLORA

(Brazilian Manaca Root)

PHARMACY - franc. Franciscaea uniflora. Brazilian manaca root. Brunfelsia hopeana. Manaca. N. O. Scrophulariaceae. Allied to Brunfelsia. Tincture of fresh root. An alkaloid, Franciscein, is also used. **Historical dose:** Tincture and all potencies.

CLINICAL - Headaches. Pericarditis. Rheumatism. Syphilis. Vomiting.

HERBAL - Franciscaea uniflora is a Brazilian remedy of great local repute as an anti-syphilitic and anti-rheumatic.

HOMEOPATHIC - It is called “**vegetable mercury.**” In large doses it is a poison, causing violent purgation and emesis. Many cases of acute, sub-acute and chronic cases of rheumatism have been reported cured with the tincture, also pericarditis complicating rheumatism.

Hansen noted characteristic symptoms including an intense headache like a band around the head, and lancinating, sticking pain in occiput, neck and spine. Terrible aching all over with great heat, followed by profuse sweat, which relieves all symptoms.

Chronic stiffness of the muscles. Gonorrheal rheumatism. Syphilis and rheumatism, great heat over body, much aching, better sweat. Pericarditis with rheumatism. Rheumatic pains in feet and lower part of legs.

***FRANKINCENSE

(Olibanum)

PHARMACY - Frankincense. Olibanum. Frankincense is an aromatic gum resin obtained from the trees: Boswellia thurifera, Boswellia sacra, Boswellia carterii. N. O. Burseraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Anxiety. **Arthritis.** Asthma. **Bronchitis. Coughs.** Dysentery. Fevers. Fungal, infections. Joint, pain. Laryngitis. Leprosy. Scars. **Skin, disorders.** Stretch marks. Tumors. Ulcers. Vomiting. Wounds.

HERBAL - Frankincense remedies appear in the Syriac Book of Medicine, ancient Arabic texts, and in Ayurveda and Chinese medical writings. Greek and Roman physicians used Frankincense in the treatment of a great variety of diseases. It is stimulant, but seldom used now internally, though formerly was in great repute.

Pliny mentions it as an antidote to hemlock.

The famous eleventh-century Arabian physician, Avicenna, recommended its cooling effects as a remedy for infections and illnesses that increase the body's temperature. Avicenna used it for tumors, ulcers, vomiting, dysentery and fevers. In China it is used for leprosy.

Recently, the Frankincense boswellic acids that are a part of the resin it produces have shown some promise as a treatment for asthma and various inflammatory conditions. The inhalation of steam laden with the volatile portion of the drug is said to relieve bronchitis and laryngitis.

The essential oil of Frankincense has been used for anxiety, stress, asthma, bronchitis, severe coughing, scars and stretch marks. This oil is rejuvenating to the skin, treating acne, bacterial and fungal infections, and to treat wounds and scars.

Thus, it is used in cosmetics, soaps, and perfumes. The anti-inflammatory properties of frankincense very effective as a treatment for joint pain and arthritis.

COMMENTS - Frankincense is used in incense and perfumes. Its principal use now is in the manufacture of incense and pastilles. It is used in plasters and might be substituted for Balsam of Peru or Balsam of Tolu.

It is also a natural insecticide and was used ' in ancient Egypt to fumigate wheat silos and repel wheat moths. In Arabia, the smoke of burning frankincense resin is used to repel mosquitoes and sand flies.

Researchers have found that burning frankincense indoors improves the acoustic properties of the room. In ancient Egypt the resin was a key ingredient for embalming the dead.

RELATIONS - Compare: Myrrh, Camphor.

REFERENCES - Murphy.

***FRANZENSBAD AQUA

(Franzens-quelle)

PHARMACY - franz. Franzensbad aqua. Franzens-quelle. Salz-quelle. Wiesen-quelle. The alkaline-saline springs of Franzensbad, near Eger in Bohemia. **Historical dose:** Tincture and all potencies.

CLINICAL - Chlorosis. Constipation. Debility. Diarrhea. Dyspepsia. Nervous, derangement.

HOMEOPATHIC - The waters of each of the three springs, Franzens-quelle, Salz-quelle and Wiesen-quelle, have been proved by Dr. Watzke. Sodium sulphate is by far the most predominant ingredient in each, the chloride and carbonate of soda coming next. The waters are also highly charged with carbonic acid gas.

The Franzensbad waters are resorted to for their tonic effect, especially in chronic derangement of the digestion, obstinate constipation and inertia of the lower bowel. Anemia following passive hemorrhage. Chlorosis and nervous disturbances caused by debility.

Great physical or mental weakness. Increased sensitiveness to the cold. General sensitiveness of the surface. Contractive sensations. Contractive pain in whole forehead, sensation of contraction of skin of forehead between eyebrows. Many symptoms of disordered stomach and bowels occurred and some peculiar symptoms in the penis and generative organs.

RELATIONS - Compare: Nat-s., Kali-i. - diffused sensitiveness.

REFERENCES - Boericke. Clarke. Phatak.

***FRAXINUS AMERICANA

(White Ash)

PHARMACY - frax. Fraxinus americana. White ash. N. O. Oleaceae. Tincture of the bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Cramps. Depression. Dysmenorrhea. Eczema. Fever, sores. **Fibroids.** Hot, flashes. Leucorrhea. **Menopause. Uterus, disorders.** Uterus, prolapse. Uterus, tumors.

HOMEOPATHIC - Frax. had a fragmentary proving, but the chief clinical authority for its use is Dr. Burnett, who regarded it as a uterine tonic in all heavy states of the uterus with prolapse, bearing-down and relaxed ligaments. Burnett called it "the medicinal pessary." Clarke repeatedly verified these indications.

It is an organ remedy of the first rank. A **uterine tonic**, especially useful for nervous females. **Uterine tumors, especially fibroids with bearing-down sensations.** Uterine displacements. Enlargement of the uterus. Subinvolution and prolapse. Fever sores on lips. Cramps in feet. Cold creeping and hot flashes. Infantile eczema.

MIND - Depression with nervous restlessness and anxiety. Must talk.

Abdomen - Heavy bearing-down pain, extending to the thighs or falling out sensation with fibroids. Tenderness in left inguinal region.

Female - Profuse menses. Dysmenorrhea. Profuse leucorrhea. Watery, non-irritating leucorrhea. **Uterus is enlarged, heavy and prolapsed.** Uterine tumors. Subinvolution. Sensitive left ovary. **Fibroids** with bearing-

down sensation, cramping in feet, worse in afternoon and night.

Head - Hot spot or dryness on vertex. Headache, with vertigo, followed by fever. Throbbing pain in back of head and neck.

Kidneys - Urine scanty and brown. **Limbs** - Cramps in feet after midnight. **Lungs** - Pain through the lungs.

Modalities - Worse injury, sprains. Worse lifting.

Mouth - Fever sores on the lips.

Rectum - Bowels constipated.

Skin - Infantile eczema.

Sleep - Wakefulness the first part of the night. Dreamed that two rough men came into house, awoke breathing quick, with a fearful feeling.

Temperature - Fevers. Cold creeping and hot flushes.

COMMENTS - Burnett writes: "A maiden lady, forty-three years of age, came under my observation on January 19th, 1892, telling me of her painful nerves and flushes that have troubled her ever since she changed. She gets gouty swellings of the feet, and has leucorrhea. Is much given to sleeping draughts. The womb is somewhat large, the pain in the feet considerable, depriving her of sleep."

"On condition that she abjures sleeping draughts once and for all, I undertake her case. This is an invariable condition with me, as it is quite impossible to really cure people who take hypnotics."

"I gave Fraxinus Americanus tincture. Ten drops in water at bedtime. March 3rd. Has done her much good, womb is lighter, and she is better able to do her work. She sleeps now quite well without any sedative, a sure proof that the neurasthenia was here primarily a womb ailment."

RELATIONS - Compare: (1) Sep., Lil-t., Sec. (2) Epiphegus, Nat-hyperchlor., Hydr. (3) Galega - Goat's Rue.

REFERENCES - Boericke. Clarke.

***FRAXINUS EXCELSIOR

(European Ash)

PHARMACY - frax-e. Fraxinus excelsior. European ash. Common ash. N. O. Oleaceae. Tincture of the leaves. The fresh leaves are pounded to a pulp and macerated with two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Arthritis. Gout. Joint, disorders. Rheumatism.

HERBAL - Ash leaves were highly recommended by the medical alchemist Dr. Rademacher and were extensively used in Germany on his suggestion. In the Union Medical for Nov. 27, 1852, two French physicians, Drs. Pouget and Peyraud, detailed several cases of gout and rheumatism cured by an infusion of ash-leaves in boiling water. Dr. Peyraud himself was one of those relieved.

A commercial traveler, who had been gouty for twenty years and had saturated himself with the syrup of Boubee and other

vaunted specifics, consulted Dr. Pouget. At this time he was almost constant prisoner in his room successive attacks. After eleven days' use of the infusion he was able to walk two kilometers (one and a quarter miles), in fifteen days he resumed his journeys and was able to travel without suffering from Bordeaux to Quimper.

Acute and chronic painful gout and rheumatism. Joint rheumatism in numerous instances.

COMMENTS - Anshutz recorded the case of Dr. Peyraud. In 1842, Peyraud had his first attack of gout, which was severe and lasted for twenty-five days. During the three following years the attacks increased in frequency and severity.

Having derived little benefit from the remedial means that he had resorted to, he listened to the suggestion of one of his patients, an inhabitant of the department of Dordogne in France, who advised him to try an infusion of ash leaves. Informing Peyraud, at the same time, that his forefathers had been cured by this prescription and that many of the country people got rid of "their pains" by employing it.

Dr. Peyraud took the infusion of ash leaves and from 1845 to 1849 had no fit of gout. He then had an attack, which yielded in five days to the infusion of ash leaves, used under the observation of Dr. Pouget.

Dr. Pouget recalled that when he was a physician at Soreze in 1824, the peasants of that place had spoken to him of the great power which an infusion of ash leaves had in driving away pains. He afterwards discovered that it had been used forty years ago as a gout specific by the peasants of Auvergne.

RELATIONS - Compare: (1) Colch., Rhus-t.

REFERENCES - Anshutz. Clarke.

***FUCHSINUM

PHARMACY - fuch. Fuchsinum. Rosanilin hydrochloride. A coloring substance used in adulteration of wine, magenta. Onagraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Gum, disease. Kidney, disorders. Nephritis. Salivation.

HOMEOPATHIC - Fuchsinum produces redness of ears, deep red discoloration of mouth, swollen gums with burning and tendency to salivation. Deep red urine, albuminous and light red. Cortical nephritis with albuminuria. Profuse diarrhea with abdominal pains. Cortical substances of kidneys degenerated.

REFERENCES - Boericke.

***FUCUS VESICULOSUS

(Bladder-wrack)

PHARMACY - lue. Fucus vesiculosus. Bladderwrack. Sea-wrack. Sea-kelp. Kelp-ware. N. O. Algae. Phaeophyceae. Rich in iodine. Tincture and trituration of the dried plant. The fresh alga gathered in May or June are pounded to a pulp and macerated in two parts by weight of alcohol. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Constipation. Dyspepsia. Flatulence. **Goiter.** Obesity. Thyroid, enlargement.

HERBAL - In the American Eclectic Dispensatory, John King stated "Fucus vesiculosus, sea wrack or bladder-wrack, has a peculiar odor and a nauseous saline taste. The charcoal of this plant has long had the reputation of the deobstruent and been given in goiter and scrofulous swelling.

"The dose is a teaspoonful of the tincture twice or three times daily in a well-developed case. Half a teaspoonful twice a day will answer in recent cases. Smaller doses seem not to produce any effect. The medicine is very unpleasant to the taste, but causes no disturbance after it has been taken. It ought to be taken, each dose in a few ounces of water and preferably between meals."

HOMEOPATHIC - Fuc. is a tissue remedy of great power and must be compared with lod., of which it contains a large proportion.

Digestion is improved and flatulence diminished. Obstinate constipation, forehead feels as if compressed by an iron ring.

Very weak and restless. Thyroid enlargement in obese subjects. **Obesity and nontoxic goiter**, also exophthalmic. Goiter has been cured with it in teaspoonful doses of the tincture given two or three times a day.

Abdomen - Flatulency diminished and then

disappears. Bearing-down pains in lower part of abdomen.

Eyes - Sight dim.

Face - Face became yellow.

Female - Menorrhagia, bright red blood, bearing-down pains in lower abdomen.

Head - Intolerable headache, forehead felt as if compressed by an iron ring. Headache with hemorrhages. Burning at vertex. Nausea, vertigo, and slight headache.

Kidneys - Frequent desire to urinate. Urine contains much blood.

Lungs - Difficult breathing. Sense of suffocation, especially during menses. Inclination to cough, causing him to spit blood.

Nose - Nosebleed.

Rectum - Obstinate, chronic constipation. Dysentery, blood bright red. Dysentery with menorrhagia.

Stomach - Vomiting of bright red blood. **COMMENTS** - Anshutz wrote "The following letter, by Dr. J. Herbert Knapp to the Homeopathic Recorder, was published in 1896: 'After treating many cases of exophthalmic goiter, I have come to the conclusion that I have found a specific for that disease in Fucus vesiculosus, (sea-wrack). I might record one case.

" 'Mrs. Mary B., age 24 years, German, came into my clinic at the Brooklyn E. D. Homeopathic Dispensary to be treated for swelling of the neck of several years duration. I gave her the tincture of Fucus ves., thirty drops three times a day. The treatment began December 1, 1895 and patient was discharged cured, on October 2, 1896. Would be pleased to hear from any others who have had any experience with Fucus vesiculosus.'

"So far as I now remember, this is the only hint I ever receive which led me to try in goiter. At the same time, I do not feel sure of this. I had met in some medical journal

a statement respecting the relation of this drug to goiter, which fact led me to look it up in the 'Eclectic Dispensatory.' But if so, I cannot recall the authority.

"At all events, I was led to try the remedy in a pronounced case of goiter with such good results that I have never since given any other remedy for that disease either in the exophthalmic or in the uncomplicated form.

"What is more, I have never known it to fail to cure when the patient was under thirty years of age. After that time of life or about that period, it seems to be no longer efficacious.

"I have now used it on more than twenty-four cases with the same unvarying result and never with any other result—that is, no unpleasant consequences have ever accompanied or followed its use.

"I published this fact in the medical investigator after I had used it in a few cases and again announced it in the

Chicago Homeopathic Medical Society still later and again have frequently repeated it with growing confidence and of greater numbers of cases in medical societies in colleges and in private conversation with physicians. "And yet the fact is so utterly unknown that your journal published Dr. Knapp's inquiry respecting it, which shows how easily a good thing may be forgotten. Also how readily a genuine specific may be superseded by a host of abortive procedures right under the eyes of the profession. It is most probable that more real good remedies have been forgotten or cast aside in medicine.

"Respecting this *Fucus vesiculosus* and its use in goiter, I would like to add a few words. The drug is of variable quality. If one specimen fails to give satisfaction it ought to be discarded and another tried. The pharmacist must be importuned to make special efforts to give us an article that is not inert, but contains all the activity that belongs to the drug.

"Time is required for effecting a cure. This varies according to the age and size of the goiter. Three months may suffice for a small goiter of one year's growth. Six months may be required for one twice as large and of longer standing. A year and a half is the longest period during which I have had to continue the medicine. But during all that time the goiter was manifestly diminishing."

RELATIONS - Compare: (1) Phyt., Thy., Bad., Iod.

REFERENCES - Anshutz. Boericke.

***FULIGO LIGNI

(Soot)

PHARMACY-fuli. *Fuligo ligni*. **Soot. Historical dose:** Trituration and all potencies.

CLINICAL - Cancer. Eczema. Metrorrhagia. Pruritus, vulvae. Tetters. Ulcers. Uterine, hemorrhage.

HOMEOPATHIC - *Fuligo ligni* acts on the glandular system, and mucus membranes. Chronic irritations of mucus membranes of mouth. Obstinate ulcers, epidermis, tetters, eczema.

Cancer, especially of the scrotum. Chimney sweeper's cancer. Epithelial cancers. Cancer of womb with metrorrhagia. Uterine hemorrhage. Pruritus vulvae. Sadness. Thoughts of suicide.

RELATIONS - Compare: (1) Kreos.

REFERENCES Boericke.

***FUMARIA OFFICINALIS

(Fumitory)

PHARMACY - fum. *Fumaria officinalis*. Fumitory. Earth smoke. The mother tincture is prepared from the whole fresh plant in flower of *Fumaria officinalis*. N. O. Papaveraceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Backache. **Bloating.** Constipation. **Cramps.** Diarrhea. **Flatus.** Gallbladder, disorders. Headache. Jaundice. Leucorrhea. Liver, disorders. Migraine. Nausea. Sinus, congestion. Sneezing.

HERBAL - The *Fumaria* plant contains an alkaloid, fumarine, that brings about hy- posthenia and, when applied externally, as with other Papaveraceae, has an anesthetic effect.

It also has a regulating effect on a disturbed gallbladder function.

In herbal medicine, therefore, it is prescribed for jaundice and bilious migraines.

The high content of potassium salts means that the herb also has diuretic, sweat-inducing and laxative characteristics.

"Physicians and writers from Dioscorides to Chaucer, and from the fourteenth century to Cullen and to modern times value its purifying power. French and German physicians still prefer it to most other medicines as a purifier of the blood. Sometimes the dried leaves are smoked in the manner of tobacco, for disorders of the head. A decoction makes a curative lotion for milk-crust on the scalp of an infant." (Grieve).

HOMEOPATHIC - The main indications are blood cleansing and detoxification. Disturbances in liver function. Tuberculosis.

Sensation of heaviness in body. **Tired and fatigued, weary.** Chilliness and "goose bumps."

Tightening sensation in forehead. Pain behind the eyes, better pressure. Congestion of sinuses. Sneezing. Heaviness of eyes, difficult to keep them open. Tight sensation in throat.

Fluctuations in appetite, sometimes increased, sometimes decreased. Desire for sweets and chocolates. Thirsty for small sips. **Abdomen bloated with gas.** Cramping pain. Sweet odor to the stools. Stools long and thin.

MIND - Alternating mood, high and low energy. Nervous, better company. Frantic feeling, with agitation of the mind, worse night. Fear of the future. Fear of heart attack.

Frustrated. Negative thoughts. Sadness, feels like crying. Aversion to company. Desire to curse. Delusion of earthquake.

Confusion and great difficulty concentrating. Spaced out feeling. Delusion she is standing outside of

herself and watches life. Sense of shame about sexual identity.

Abdomen - Gas and bloating. Sulphur odor to flatus. **Cramping pains.** Sharp pains in the abdomen, particularly in the solar plexus.

Back - Backache. Lower back pain. Eruptions, red bumps. Stiffness unrelieved

Fumaria officinalis with exercise. Tension in cervical region, worse right side. Cervical pain radiating to temples. Sharp pain in right flank.

Chest - Sharp pain in left side of chest.

Eyes - Heaviness of eyes, cannot keep them open. Stinging pain in the eyes. Swelling of eyes.

Female - Menses, delayed. Cramps and heavy flow with the onset of menses. White leucorrhea. Clear or white vaginal discharge.

Food - Fluctuations in appetite, sometimes increased, sometimes decreased. Desires sweets and chocolate. Thirsty for small sips.

Head - Headache, better pressure. Headache behind eyes. Tightening in forehead. Head pain extending to the neck then radiating to the temples.

Kidneys - Increased frequency of urination. Urine, strong odor.

Limbs - Pain in right shoulder and arm. Sensation of pins and needles in upper limbs. Cramping pain in the elbow.

Male - Nocturnal seminal emissions.

Modalities - Worse many things. Worse light, sunlight particularly. Worse lying down. Worse at 4 p.m.

Mouth - Sore pain in tip of tongue. Metallic taste in mouth.

Nose - Congestion in the sinuses. Sneezing.

Rectum - Constipation and diarrhea. Diarrhea, gushing like water. Flatus smelling like sulphur. **Loose stools.** Increased urge for bowel movements. Increased bowel movements, 3 to 4 times per day. **Long and thin stools.** Stools, odor sweet. Sticky stools.

Skin - Dry, scaly skin. Skin is sore to touch.

Sleep - Sleeping for longer periods of time. Waking unrefreshed. **Vivid dreams.** Dreams of fighting, violence. Dreams of dead bodies. Sexual dreams.

Stomach - Nausea.

Throat - Scratchy and sore throat. **Tightness in throat.**

RELATIONS - Compare: (1) Kreos.

REFERENCES - Riley. Schwabe.

***GADUS MORRHUA

(Cod Fish)

PHARMACY - gad. Gadus morrhua. Cod fish. N. O. Gadide. Trituration of first cervical vertebra of the fish.

Historical dose: Trituration and all potencies.

CLINICAL - Asthma. Bladder, disorders. Bone disorders. Coughs. Hands, hot. Tuberculosis.

HOMEOPATHIC - Knowledge of this remedy comes mostly from Petroz. Like Ol-j., Jac., Gadus has a powerful action on the respiratory apparatus.

Frequent breathing with flapping of alae nasi. (Lyc.). Rush of blood to chest. Pain in lungs and cough. Dry heat in palms of hands. Affects bones.

MIND - Hopelessness and desire for death are prominent.

RELATIONS - Compare: (1) Ol-j., Calc., Calc-p., Conch.

REFERENCES-Clarke.

***GAERTNER BACILLUS

(Bowel Nosode)

PHARMACY - gaert. Gaertner bacillus. Bacillus gaertner. Salmonella enteritidis. A bowel nosode of Bach.

Historical dose: All potencies.

CLINICAL-Acidosis. Celiac, disease. Blisters. Cachexia. Colitis. Dentition. Emaciation. Eye, disorders. Fibrositis. Gastro-enteritis. **Growth, disorders.** Hypersensitive. Indigestion. **Ketosis. Malnutrition.** Marasmus. **Neurasthenia.** Otorrhea. Smallpox. Urticaria. Tabes mesenterica. Threadworms. Urticaria. **Vomiting.** Worms.

HOMEOPATHIC - This organism was first isolated from a case of food poisoning and, when identified by Gaertner, was given the title B. Enteritidis, the bacillus of the intestine.

The keynote is nutrition, and this nosode might suitably be named "the children nosode." Clinically useful for the nutritional disorders common to children.

For children fed on artificial food who have poor digestion.

Affects the digestive tract. Inability to digest fat, **celiac disease, ketosis intestinal infantilism. Malnutrition**, either from lack of adequate diet or failure to metabolize, e.g. in steatorrhea, celiac disease or following gastric operations and in some cases of colitis.

Indicated by marked emaciation, marasmus, especially in children, the elderly, or with malignant disease. **Growth disorders.** Poorly nourished bodies and poor muscular development, but with active minds. Restless, lack of attention. Hypersensitive to physical or psychological impressions. Fear of the dark and of being alone. Urticaria.

MIND - Hypersensitive to all impressions. Restless. Mental uneasiness. Pessimistic, lack of confidence. Fear of heights, of the dark and of being alone.

Abdomen - Chronic gastro-enteritis, tabes mesenterica.

Back - Severe pain in hip and back.

Chest - Bronchial colds. Nocturnal coughs.

Constitutions - Fair hair, blue eyes, freckles.

Pale, thin. Long, black eyelashes.

Ears - Otorrhea, worse when teething.

Eyes - White sclerotics. Styes.

Female - Profuse, offensive leucorrhea.

Pruritus vulvae.

Food - Desires oatmeal, cheese, eggs, milk, pudding, sugar and sweets. Averse to bread, butter, butcher meat, and fish.

Kidneys - Blood and mucus with urine.

Burning in urethra.

Limbs - Fibrositis. Sciatica. Shoulder rheumatism, worse at night. Rheumatism hands and feet. Chilblains on hands in winter. Bites nails. Pes planus. Soles of feet covered with blisters, itch and are worse at night.

Male - Hydrocele.

Mouth - Herpes. Dry, scaly eruption.

Salivation. Deep fissures in tongue. Teeth black.

Nose - Polyps. Catarrh.

Rectum - **Constipation.** Blood and mucus in stool. **Diarrhea offensive**, attacks every few weeks. Itching of anus. Worms, threadworms (Cina).

Skin - Urticaria, heat spots. Circinate eruption on sternum. Eruption on back, head and neck. Boils on arms and legs. Perspiration, worse at night.

Sleep - Desires light in room. Desires company, especially mother. Late in falling to sleep. Sleep walking. Restless sleep, night terrors.

Stomach - Pain in stomach. Dilated stomach. **Vomits everything**, worse after sweets. Headache and vomiting. **Acidosis attacks.**

COMMENTS - Ghosh noted "Gaertner in 30c potency may be used in extensive suppuration with intestinal disorders in small-pox."

E. Paterson thought that Gaert. may help in teething troubles where Cham, fails. Defective digestion of fat as of Puls, has a worthy trial of this remedy. "In all varieties of neurasthenia, I know of no single remedy to compare with the Gaertner nosode."

Wheeler noted: "For cases of children who get a discharging ear every time they cut a tooth, give one dose of Gaertner 30, followed the next day by the dose of Silica 30c and repeat the Gaertner as soon as there is any sign of a further out break of this ear discharge."

Griggs indicated that "it is helpful to make a comparison and to remember the Dys-co. child whose nervous tension expressed itself by an uneasiness of the muscular system. Although fidgety and uneasy, the shyness of his temperament would prevent him from leaving his chair while you are taking the preliminary notes in your consulting room.

"The Gaertner child has mental uneasiness. He must know the reason for everything you do and for what purpose you use this or that article lying on you desk or somewhere in the room. Furthermore, he will proceed to make close inspection of it, but you will notice that his attention is not held long on any subject."

RELATIONS - Compare: (1) The remedies most closely associated with this nosode are Dys-co., Phos., Sil. and Merc.

REFERENCES - Bach. Boericke. Paterson.

*****GALANTHUS NIVALIS**

(Snowdrop)

PHARMACY - gala. Galanthus nivalis. Snowdrop. N. O. **Amaryllidaceae**. **Historical dose:** Tincture and all potencies.

CLINICAL - Faintness. Heart, disorders. Mitral, insufficiency. Murmurs. **Myocarditis**. Sore, throat.

HOMEOPATHIC - Proving by Dr. A Whiting. Therapeutically decided benefit in cases of mitral regurgitation with broken down compensation. Faintness and sinking sensations.

Myocarditis with some degree of mitral insufficiency. Systolic murmur at apex. Heart weak with sensation of collapse, as if she must fall. Pulse very irregular, rapid and uneven, violent palpitations. Sore dry throat with dull headache. Half conscious and worried feeling during sleep.

REFERENCES - Boericke.

***GALEGA OFFICINALIS

(Goat's Rue)

PHARMACY - galeg. Galega officinalis. Goat's rue. N. O. Leguminosae. Papilionoideae. Aqueous extract, infusion or tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Backaches. Breastfeeding. Breast, disorders. Debility. Kidney, pain. Malnutrition.

HERBAL - Galega, as its name implies, has an ancient reputation as a milk-gland stimulant. The Galega are nearly related to Glycyrrhiza, the source of licorice.

Increases the quantity and quality of the milk in nursing women, it also improves the appetite. An excellent tonic in cases of anemia and impaired nutrition. Backache and debility.

Dorretta gave Galeg., in liquid extract of the leaves, for a common form of backache, which he located in the kidney though it is unaccompanied by any sign of kidney disease.

Carron de la Carriere tested its action on the milk glands of nursing women. He found it rapidly increased the quantity and quality of the milk and increased the woman's appetite.

RELATIONS - Compare: (1) Agn-c., Calc, in kidney pain, Sant.

REFERENCES - Clarke.

***GALIUM APARINE

(Cleavers)

PHARMACY - gali. Galium aparine. Cleavers. Goose grass. N. O. Galiaceae, considered by some a sub-order of Rubiaceae. Tincture and infusion of fresh plant. Extract. Poultices. **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder, irritability. Calculus. Cancer. Cystitis. Dysuria. Gravel. Kidney, stones. Psoriasis. Tumors. Ulcers.

HERBAL - Galium has had no proving, but it is a popular remedy for cancer given internally and used externally, and also for scrofulous swellings and ulcers. It is further used as a diuretic and as a solvent for gravel and stone.

HOMEOPATHIC - Gali, acts on the urinary organs as a diuretic. Dysuria and cystitis. Gravel and kidney stones. Dropsy.

Gali, has clinical confirmation of its use in cancerous ulcers and tumors. Suspends or modifies cancerous action. Favors healthy granulations on ulcerated surfaces. Inveterate skin disorders and scurvy.

COMMENTS - Grimmer said this remedy cured a case of nodulated tumor of the tongue diagnosed to be cancer. A case of psoriasis of the left hand was also reported cured. Substantial doses were given in each case, and in the later poultices of the herb were used as well.

REFERENCES - Boericke. Clarke.

***GALLICUM ACIDUM

(Gallic Acid)

PHARMACY - gall-ac. Gallicum acidum. Gallic acid. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthma. Constipation. Debility. Delirium. **Heartburn**. Hematuria. Hemophilia. Hemorrhages. Kidneys, pain. **Pulmonary, hemorrhage. Tuberculosis**. Urticaria.

HOMEOPATHIC - Gallic acid is the well-known astringent, derivative of tannic acid, obtained from galls or oak-apples. It is used in old-school practice as a local application to arrest hemorrhages and in popular practice to check excessive menstruation.

A case is recorded in which the application of an ointment containing gallic acid or the insertion of a tannin suppository for hemorrhoids caused an attack resembling hay asthma with an eruption of urticaria. The experience was repeated several times before the cause was discovered.

This is sufficient to show that Gall-ac. is homeopathic to pulmonary cases in which it has been largely used by the old school as well as the new. Pulmonary hemorrhage, excessive expectoration, and the nightsweats of tuberculosis.

Tuberculosis. Weakness with irritability. Excessive dryness of mouth and throat. Sense of contraction of anus. Jerking of limbs. Itching of skin.

MIND - Wild delirium at night, very restless, jumps out of bed, sweats. Rude, abuses every one. Cursing. Strange speech. Jealousy. Afraid to be alone.

Eyes - Photophobia with burning of lids. **Head** - Pain in back of head and neck.

Kidneys - Kidneys painful. Distress along ureters into bladder. Dull heavy pain in bladder, directly over pubis. Urine loaded with thick, cream-colored mucus. Hematuria.

Lungs - Pain in lungs. **Pulmonary hemorrhage.** Excessive expectoration. Much mucus in throat in the morning, dry at night.

Nose - Thick, stringy discharge from nose.

Rectum - Copious stool, anus feels constricted. Chronic mucus discharges. Faint feeling after stool.

Throat - Much mucus in throat in morning. Dry throat at night.

COMMENTS-Marcy, of New York, recorded the case of a young woman who had a cavity in the left lung with purulent expectoration, night-sweats, evening fever, pulse 130. Under the prolonged use of Gall-ac. lx she recovered her normal health except that the left lung remained dull and she had great shortness of breath on the slightest exertion. Her flesh, strength and general appearance were as when she was in perfect health. Bayles said Gall-ac. rapidly checks secretions, give general tone to the stomach, increases appetite, and removes constipation. **Heartburn.** Hematuria. Hemophilia. Passive hemorrhages when pulse is feeble and capillaries relaxed, cold skin.

RELATIONS-Compare: (1) Querc., Tann-ac., Bac., Ars-i., (2) Phos. relieved pain in right lung. (3) Ars., lod.

***GALPHIMIA GLAUCA

PHARMACY - galph. Galphimia glauca. N. O. Malpighiaceae family. Mexico. The tincture is prepared from the dried leaves and flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. Dermatitis. Eczema. Edema. Gastritis. Hay fever. Herpes. Hypersensitivity. Mycosis. Neurodermatitis. Sneezing. Sudamina. Urticaria.

HERBAL - Galphimia glauca is a wild plant, belonging to the Malpighiaceae family and growing in Mexico.

HOMEOPATHIC - There is no existing Homeopathic proving but it was used in clinical experimentation by a group of German doctors from 1964 to 1966, using the 3x, 4x, 6x, and 12x potencies, for a variety of allergic infections.

Allergic vasomotor afflictions of the nose. Hay fever. Sneezing. Bronchial asthma. Allergies with hay fever, asthma, sensitive skin. Skin allergies. Urticaria, herpetic dermatitis. Allergic eczema, mycotic eczema.

Recurring herpes of the lips or genitalia. Hypersecretion from the nasal and ocular mucus membranes. Edema of the eyelids. Vesicular, papular eruptions. Sudamina. Neurodermatitis. Shooting pains in the stomach. Gastritis or gastric complaints. Hypersensitivity to weather changes.

RELATIONS - Compare: (1) Ars., Psor., Nat-m.

REFERENCES - Julian.

***GALVANISMUS

(Galvanism)

PHARMACY - galv. Galvanismus. Galvanism. Potencies are made by triturating sugar of milk which has been subjected to the influence of either electric pole. **Historical dose:** All potencies.

CLINICAL - Asthma. Brain-fag. Diarrhea. Epilepsy. Fevers. Headache. Hemorrhoids, Hydrocephalus. Paralysis. Rheumatism. Salivation. Tetanus. Tongue disorders. Toothache. Vision, illusions.

HOMEOPATHIC - Farrington noted a "benumbed feeling at the back of the head in brain-fag, the positive pole being applied to the cervical region, the negative to the vertex."

Muscular contractions, shuddering, shivering. Burning or cold-water sensation on skin. Disorders of sight and hearing, with confusion of the head and headache. Putrid smell before nose. Many sensations appear in the tongue. Salivation. Copious menses.

RELATIONS - Compare: (1) Kali-br., Gels., Electr., M-arct., M-aust.

REFERENCES Clarke.

***GAMBOGIA MORELLA

(Gummi Gutti)

PHARMACY - gamb. Gambogia morella. Gummi gutti. Garcinia morella. Gamboge. N. O. Guttifere. China. Tincture of the resinous gum obtained from the tree. **Historical dose:** Tincture and all potencies.

CLINICAL - Anus disorders. Backache. Blows, effects. Burning, pains. Coccyx, pain. Colic. **Diarrhea.** Dysentery. Eyes, inflammation. Flatulence. **Food, poisoning.** Lienteria. Rheumatic, pains. **Sneezing.** Sore, pains. Throat, sore. Typhlitis. Vomiting.

HOMEOPATHIC - Affects the stomach and bowels, chiefly known as a remedy for a diarrhea similar to Croton.

Burning in anus after stool, anus sore and excoriated. **Profuse watery diarrhea**, particularly with elderly people. Stool preceded by excessive cutting about navel. Stool is expelled all at once after considerable urging and is followed by a feeling of great relief. Stools are yellow, green, bloody, lenteric.

Frightful vomiting and purging with fainting. Burning in the liver. Pain in small of back, as if bruised or sprained. Pain in sacrum, resulting from a blow. Gnawing pains in the coccyx. Burning pains. General soreness. Rheumatic symptoms. Periodic symptoms.

MIND - Irritable in morning on waking. Despondency, sadness. Cheerful and talkative. Feeling of ease, great lightness of all his motions.

Abdomen - Gurgling in abdomen, as of fluid running from a bottle. Rushing sounds in abdomen as from motions of air. Tenderness in epigastrium. Pain and distention of abdomen from flatulence after stool.

Rumbling and rolling. Ileo-cecal region sensitive to pressure. Pinching pain in abdomen immediately after eating.

Back - Pain in coccyx. Small of back as if bruised or sprained. Gnawing pain in coccyx. Pain and itching between scapula. Cutting pain across top of sacrum and in left hip. Cutting pain in muscles just above sacroiliac symphysis on left side.

Chest - Congestion of blood to chest. Chest, sore and raw. Pressure and weight in chest. Pressure pain in middle of chest. Sharp pains in sternum. Sharp pains going from both sides of chest towards each other.

Cough - Dry, with hoarseness and hawking of mucus. Severe cough, at night, compelling him to sit up, with easy expectoration of mucus. Cough better sitting up.

Ears - Ringing in left ear all the time. Lancination pain in ears.

Eyes - Burning in eyes. Itching and burning in eyes. Itching of eyelids, he rubs them.

Eyelids stick together with sneezing. Eyes as if sticky and dry. Nightly agglutination of lids, burning in morning. Violent burning of eyes with photophobia. Smarting of eyes with lachrymation. Very severe pain in eyeballs.

Face - Swelling of face. Swelling of eyelids, nose and lips. Upper lip swollen. Itching, smarting on right cheek, chin and upper lip.

Female - Menses too early and too profuse. Menses long-lasting. Congestion to sexual organs. Leucorrhea.

Food - Aversion to food. Violent thirst in evening. Appetite good, but a little food satisfies. Thirst after dinner. Thirst during chill. Great thirst, in chronic diarrhea. Worse after drinking ale.

Head - Gastric headaches. Head hot, face red, during attacks of diarrhea. Heat rises to head, with sweat. Heavy sensation with inertia and drowsiness. Sensation of great coldness in left temple as from a wet cloth. Vertex as if bruised, in forenoon, better open air. Oppressive pain with heaviness in forehead. Compressive pain. Pain in coronal suture.

Kidneys - Sharp pain in left kidney. Infrequent urination. Increased secretion of urine. Urine smells like onions. Urine diminished in dropsy.

Limbs - Stinging and numb feeling in ball of right thumb. Tearing pain in shoulders. Sharp pain, in upper limbs. Itching blisters on both hands, at first pale, afterwards red. Severe aching deep in hip, and severe cutting pain about trochanter major. Aching pain in knees. Cramp in calf with contraction of toes. Heaviness and languor of feet.

Liver - Burning in liver.

Lungs - Expectoration of blood.

Male - Gleety discharge agglutinating orifice of urethra.

Modalities - Better by motion. Better in open air. Better after stools. Better sitting up. Worse evening and at night. Worse motion. Worse in open air. Worse after stools. Most symptoms come on while sitting, and go off during motion in open air.

Mouth - Aphthae. Deep ulcers in mouth, inner side of lips and cheeks. Bitter taste in mouth. Feeling of coldness at the edge of teeth. Burning vesicles on inner side of lips. Dryness of mouth. Clammy, adhesive state of mouth.

fióse-Violent chronic sneezing, in daytime only. Smarting as if a sore pimple existed immediately below right

nostril. Dryness of right nostril. Much mucus in nose, smelling like pus. Tendency to hemorrhages from nose and lungs.

Perspiration - Sweats all over, at night. Sweats on awaking at 4 a.m. Cold sweats on limbs, during stool.

Rectum - Burning and heat in anus during stool. **Tenesmus after stool with burning in anus.** Pinching, gurgling in bowels, then sudden yellow or green. Diarrhea alternating with constipation. Hard, insufficient stool, with strong urging. Dysentery, with retained stool, with pain in sacral region. Frequent emission of flatulence.

Thin stools coming out in prolonged gushes with burning at anus. **Diarrhea with sudden and forcible ejection of bilious stools.** Diarrhea after drinking ale. Profuse, watery diarrhea in hot weather, particularly old people. Yellow and green diarrheic stool, mixed with mucus. Stools of dark green mucus, offensive, corrosive. Infantile diarrhea.

Skin - Violent itching in various parts of body, burning after scratching, worse evening and night. After scratching, burning and ulcerative pain, with swelling and redness of parts, worse evening and night.

Biting as of ants over whole body, worse ¹ evening and night. Itching on various parts of surface pleasantly better gentle friction. Itching and formication here and there all night. Pemphigus.

Sleep - Sleepiness, great inclination to sleep. Sleeplessness from weight on chest. Anxious, vexatious dreams. Dreams with broken sleep.

Stomach - Frequent violent empty eructations. Gulping up of sour water. Gnawing pain in stomach. Emptiness in stomach and abdomen. Great irritability of the stomach. Pain in the stomach after food. Acute darting, stitching pain in stomach. Nausea, inclination to vomit with accumulation of saliva in mouth. Frightful vomiting and purging, with fainting. Ulcerative pain in stomach, better after eating. Vomiting and purging with fainting.

Temperature - Violent chill, beginning in back. Chill with empty eructations. Internal and external coldness from 7 p.m. to 8 p.m. Violent shaking chill at 7 p.m., beginning in back. Sudden shaking chill at night, waking him from sleep, and suddenly disappearing. Chill with chattering of teeth and violent thirst. Increased heat with anxiety.

Throat - Swollen sensation. Violent stitches in right side of throat. Pain as from soreness in throat. Rawness and burning in throat, causes constant hawking. Sore, in throat. Scratching sensation in larynx. Tickling in larynx and trachea from epiglottis to pit of throat.

Tongue - Burning, smarting and dryness of tongue and throat. Burning of anterior half or only tip of tongue, which feels hard. Raw, rough feeling in fauces and at root of tongue.

Vertigo - Vertigo during rest or motion. Vertigo in morning. Vertigo on rising. Confusion of head with feeling of reeling or motion from side to side.

COMMENTS - Gamb. painted on the chest in lung tuberculosis was considered by Abrams a specific. Also incipient diarrhea cases were symptomatically cured in several weeks.

RELATIONS - Antidoted by: Camph., Coff., Coloc., Kali-c., Op. **Compare:** (1) Crot-t., Aloes, Podo., Puls. - cough better sitting up, better open air. (2) Apoc. - stool expelled all one, but Gamb. has cutting before and better after stool. (3) Crot-t. has stool in one gush, but Gamb. is not worse from least food or drink like Crot.

REFERENCES - Boericke. Clarke. Phatak.

***GASTEIN AQUA

(Gastein Springs)

PHARMACY - gast. Gastein aqua. Gastein springs. The hot springs of Wildbad Gasterin in Salzburg, Austria. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Callosities. Colds. Constipation. Debility. Diarrhea. Dysmenorrhea. Gout. Hemorrhoids. Paralysis. Rheumatism. Scars. Sexual, weakness. Stones. Strokes. Typhlitis. Varicose ulcers.

HOMEOPATHIC - The hot springs of Wildbad Gasterin in Salzburg, Austria, contain sodium sulphate predominantly, but also silicic acid, potassium sulphate and carbonate, lithium chloride, magnesium carbonate, ferrum carbonate, aluminium phosphate and traces of calcium fluoride, strontium, arsenicum, titanin acid, rubidium, cesium, also free carbonic acid. Lapis albus is a kind of gneiss found in the spring. It is a silicofluoride of calcium.

Constantin James described the effects of the baths as a "General unpleasant sensation. Instead of expanding (as would be expected in a warm bath) the skin is drawn up upon itself as if by a tight astringent. There is slight dyspnea, the abdominal walls draw together, the testicles rise to the inguinal rings.

"Soon an unusual warmth, accompanied by shocks and tremors, spreads throughout all the limbs. The pulse becomes hard and vibrating, the face becomes suffused, there is humming in the ears. It is now time to leave the bath to stay longer is attended with danger.

"Then after the seventh to the fourteenth bath the thermal influence tends to concentrate itself entirely on the

nervous system. Thus it seems to the patient that an increase of vitality spreads through his whole being, he feels more active than before, the longest walks cause hardly any fatigue and that is promptly repaired by sleep.

"Among individual symptoms noted are diminished secretions. Activity of all the veins, excitement of the circulation. Weakness and weariness with dragging sensation in the abdomen, as if it were too heavy. Exhaustion and inclination to sleep.

"Takes cold very easily, which was caused then cured. Pulsation in the body, especially in the arms with jumping in them. Contractive sensations predominate. Scar tissues and callosities are affected. Worse before a storm."

COMMENTS - The baths affect phlegmatic patients in an increase of force and tone, causing the disappearance of involuntary losses of semen. In irritable temperaments it will provoke erotic dreams and unwanted excitement, in such cases the waters are aphrodisiac.

Sensation of indescribable mental and physical comfort runs through all the tissues during the bath. Predominantly influences the sexual system.

RELATIONS - Compare: (1) Lap-a., Fl-ac. Sil., Canth., Phos.

***GAULTHERIA PROCUMBENS

(Wintergreen)

PHARMACY - gaul. Gaultheria procumbens. Wintergreen. N. O. Ericaceae. The oil contains methyl salicylate and is one of the sources of salicine. Tincture of fresh leaves, oil obtained from the leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Cystitis. Gastritis. Kidney, inflammation. **Neuralgias.** Pleurodynia. Rheumatism. **Sciatica.** Vomiting.

HERBAL - An evergreen trailing vine found in cool, damp woods. The oil contains methyl salicylate and is one of the sources of salicine.

HOMEOPATHIC - Several cases of poisoning with the oil have been recorded in which symptoms of acute gastritis appeared. Prolonged vomiting, set up afresh by the least thing taken, as a cup of water. Severe pain in epigastrium. Slow, laborious breathing.

Insensibility and hot skin. Inflammatory arthritis, rheumatism, **sciatica** and other neuralgias. Pleurodynia. Bladder and prostatic irritation. Kidney inflammation. Undue sexual excitement.

Abdomen - Very severe pain in epigastrium and inferior part of the hypochondria, greatly worse by pressure of finger.

Chest - Pleurodynia with pain in anterior mediastinum.

Ears - Marked dullness of hearing.

Food - Inordinate, uncontrollable appetite for food. Irritability of the stomach, everything, even cold water, is immediately rejected.

Head - Neuralgia of head and face.

Skin - Smarting and burning. Intense erythema, worse cold bathing, better olive oil and cool air blowing on part.

Stomach - Acute gastritis, severe pain in epigastrium. **Prolonged vomiting.** Uncontrollable appetite, with irritable stomach. Stomach pain from nervous depression.

Tongue - Tongue dry, smooth and slightly swollen. Speech rather indistinct from the swelling.

COMMENTS - B. F. Lang related his experience with material does in ciliary neuralgia, facial neuralgia, gastric, ovarian, uterine and menstrual neuralgias, sciatica and inflammatory rheumatism.

Anshutz wrote on the action of Gaultheria: "My attention was first called to its use about ten years ago southern Ohio, where I received most pleasing results in the treatment of inflammatory rheumatism. Afterwards to complaints in form of neuralgia."

"While I am not a champion of any specific, I want to say that this drug has given me the quickest and most satisfactory results of any remedy in the Materia Medica. If there is anything that a person wants relief from quick and now, it is from these excruciating pains."

"Often was I called to treat some obstinate cases of ciliary neuralgia or facial or in fact nearly every form of neuralgia and found my skill taxed to its utmost to bring out the balm. Did I find it in the homeopathic indicated remedy? I trust so, but not in any Materia Medica. I don't say but what I got some results from them, but I found it in this a "helper", it came to my relief immediately and to the great comfort of the patient."

"In severest cases of neuralgia of the head and face it would do its work quick and well.

Equally well has it served me in very severe cases of neuralgia of stomach and bowels, while for the past few

years it has done faithful work in ovarian and uterine neuralgia following or preceding difficult menstruation. I have many a dear friend today whose relief from suffering was found in this remedy. I am satisfied that it should be given a prominent place in our *Materia Medica*."

"Lest this article should become tedious, I will cite a few cases. Mr. A., traveling man from Chicago, a few years ago called on me for temporary relief of a severe case of ciliary neuralgia. He had suffered for many years with it, every spring especially and that he had consulted great numbers of physicians of Chicago, Milwaukee and Cincinnati. He said, "had taken bushels of drugs, both old and new school," with only temporary relief."

"So he expected nothing more, as he was told he must wear it out. I told him I thought I could give him relief. I furnished him one-half ounce of Gaultheria with directions to take, did not see him again for two years."

"When he came into my office one day and greeted me by saying I was the only man that could ever give him any permanent relief from his sufferings, that he never had any return after first day taking medicine."

"Miss B., dressmaker, came to me suffering terribly with facial neuralgia and greeted me similar to No. 1, that she expected nothing but temporary relief, as she had been afflicted for a long time. Gave her 2 drachms of oil of Wintergreen told her to take one dose immediately and another in two hours if the pain did not quiet down."

"She was careful to ask if it was an opiate, as she objected to that. I assured her it was not, saw her next day, said that pain disappeared and had not returned. I was acquainted with the lady for three and one-half years and she only had one return of the disease, which the same remedy relieved immediately. Many cases more could I cite in which it never has failed me."

"Another case: Mrs. G., 1 was called to relieve a severe case of neuralgia of stomach and bowels this last summer, who had been under the care of two of my worthy competitors. They had exhausted their pill case and for about three weeks the poor woman had suffered everything but death itself."

"After diagnosing the case I put her on this remedy and in two hours she was relieved. After two days was able to be about and cured shortly by no other remedy than it. I want to say you will find a true friend in this remedy in all forms of neuralgia and only give a few suggestions now, but if it should be necessary could give scores to prove its value. I mentioned in the beginning that it had been of great value in inflammatory rheumatism."

"A word as to the best way of giving the drug. I have found that the dose should never be less than five drops and if pain is severe fifteen drops repeated in half hour afterwards two hours apart. For adult it may be necessary to give twenty drops at first. It always should be dropped on sugar and taken."

"One suggestion: I would like to have it put in a tablet of about two to five drops pure oil, as I think it could be taken more satisfactorily. While the crude oil is very pleasant to take at first, yet, on account of its strong odor, will nauseate after awhile if not removed from room. I am confident that if you make this into a tablet and place it among your remedies you would have a weapon that you could place into the hands of doctors of untold value in these troubles."

RELATIONS - Compare: (1) Bry., Rhus-t., Salol., Nat-sal., Kalm., Led., Spirae. (2) Gaultheria contains Arbin., Sal-ac. (3) Methy-sal. - an artificial Gaultheria oil for rheumatism, especially when the salicylates cannot be used. Itching and epididymitis, locally. (4) after Canth. in bums.

REFERENCES - Anshutz. Clarke.

*****GELSEMIUM SEMPERVIRENS**

(Yellow Jasmine)

PHARMACY - gels. *Gelsemium sempervirens*. Yellow jasmine. *Gelsemium lucidum*. Yellow jessamine. *Gelsemium nitidum*. *Bignonia sempervirens*. N. O. Loganiaceae. Tincture of the bark of the root. **Historical**

dose: All potencies.

CLINICAL - Amaurosis. **Anxiety**. Aphonia. Astigmatism. **Bad, news**. Biliary fever. Brain, disorders. **Chills**. Choroiditis. **Chronic, fatigue**. **Colds**. Coma. Constipation. Convulsions, Deafness. **Debility**. Dengue, fever. Diarrhea. Diphtheria. **Diplopia**. **Drug, overdose**. Dupuytren's contraction. Dysentery. Dysmenorrhea. **Emotional, shock**. Epilepsy. Esophagus, stricture. Eyes, disorders. **Fatigue**. **Fevers**. **Fright**. Gonorrhea. Hay fever. Headaches. Heat, effects. Heart, disorders. Hysteria **Influenza**. Intermittent, fever. Jaundice. Labor, pains. Liver, disorders. Locomotor, ataxia. Measles. Meningitis. Menstruation, disorders. Metrorrhagia. Multiple sclerosis. Muscle pain. **Muscular, weakness**. Neuralgias. Nystagmus. **Paralysis**. Parkinson's disease. Paraplegia. Pregnancy, toxemia. **Ptoxis**. Puerperal, convulsions. Remittent, fever. Retina, disorders. Rheumatism. Salpingitis. Sexual, excesses. Sleep, disordered. Spasms. Sun, headaches. Sunstroke. Teething. Tic douloureux. Tobacco, effects. Tongue, disorders. Toothache. **Tremors**. Uterus, disorders. **Vertigo**. **Viral infections**. Voice, loss. **Weakness**. Writers' cramp.

HOMEOPATHIC - First introduced by Hale, *Gelsemium* belongs to the same order of plants as *Nux-v.* and *Cur.*, and ranks among the vegetable polycrests. Like its botanical relatives. Gels, is a great paralyzer. Mental

and bodily paresis. Sluggish mind. Relaxed muscular system, limbs feel so heavy he can hardly move them. Functional **paralysis** of all descriptions, of various groups of muscles. Various degrees of **motor paralysis**. Ptosis in the eye muscles and diplopia. Loss of the ability to swallow. Diarrhea from depressing emotions or bad news. Post-diphtheria paralysis.

Muscular weakness, lack of muscular coordination. In muscles, especially in the limbs, it causes overpowering **aching, tiredness, heaviness, weakness and soreness**. General prostration and complete relaxation.

Dizziness, drowsiness and trembling. Tremors or twitchings of single muscles, face, chin tongue etc. Hysterical convulsions. Chorea of pregnancy. Parkinson's disease. Body feels light in nervous, hysterical subjects.

Mental prostration, **anxiety**. Lassitude (Mur-ac.), but the patient does not express it. Slow pulse, tired feeling.

Apathetic and dull. Circulation becomes sluggish, causing arterial or venous congestion with sense of fullness and heaviness in different organs.

Coma and strokes. Alternate pelvic organ symptoms with head symptoms. Debility after seminal discharges, great prostration from irritability of seminal vesicles. Catarrh of mucus membranes with watery discharges.

Influenza with malaise. Never well since influenza. Measles. Pellagra.

Wants to lie down quietly, half reclined, wants to be held. Children have a fear of falling, they can grab the nurse or crib (Bor.).

General depression from heat of sun. Cold and dampness brings on many complaints. Effects of bad news, anger, grief when accompanied by trembling and fatigue. **Drug overdose**. Nervous disorders from tobacco.

MIND - Mental dullness, dizzy, drowsy and droopy. Dazed mind. Answers slowly. Weak, tired, delicate, timid. Desire to be quiet, to be left alone. **Apathy, regarding their illness**. Mental exertion cause a sense of helplessness and weakness.

Mental exhaustion. Dullness, languor, listless. Incapacity to think or fix the attention. Vacant feeling on attempting to concentrate. Stupefaction during vertigo. Vanishing of thoughts on mental exertion.

Great depression with confusion of mind and exhaustion. Depression of spirits. **Desire for be alone**. Apathy and indolence. Indifference to business affairs. Inability to attend to anything requiring thought.

Wants to be quiet. Irritability, doesn't wish to be spoken to. Nervous, irritable, easily angered.

Excitable, easy to anger, especially in children and adolescents. Bad **effects from fright, fear, bad news. Fear of falling, especially in** children (Bor.). **Fear of doctors and dentists. Stage fright**. Emotional excitement, fear, etc., lead to bodily ailments. Effects of grief, cannot cry, broods over her loss.

Ailments from anticipation. **Nervous dread of appearing in public**. Fear of upcoming ordeals. Dread of ordeals, pain. **Lack of courage**. Anticipation of any unusual ordeal, preparing for church, theatre, or to meet an engagement, brings on diarrhea. **Fear of going to doctor or dentist**.

Anxiety about present and future. Anxiety about health. Anxiety during thunderstorm. Apprehensive feeling at approach of thunderstorm. Overpowering fear, with fatigue, exhaustion and drowsiness. Fear from traumatic shock.

Fear of losing self-control. Fear that unless on the move the heart will cease beating. Fear of falling. Child starts and grasps the nurse, and screams as if afraid of falling (Bor.). Fear of death. Fear of pain. Fear of injury.

Confusion, acts as if crazy. Delirious on falling to sleep. Delirium with incoherent talk. Sensation of intoxication during diarrhea. Acute mania after melancholy. Absolute lack of fear. High places aggravates. Impulse to jump from a height, from window. Cataleptic immobility with dilated pupils, closed eyes but conscious.

Abdomen - Rumbling in abdomen with discharge of wind above and below. **Acute catarrhal enteritis during damp weather**. Gnawing pain in the transverse colon. Sudden spasmodic pains in upper part of abdomen, compelling him to cry, leaving a sensation of contraction. **Soreness in abdominal walls**. Tenderness in right iliac region during typhus. Periodic colic with diarrhea, yellow discharges. Neuralgia of intestines periodic, malarial. Intestinal obstructions. Strangulated hernia.

Back - Backache with occipital pains. Backache day before appearance of menses. Complete relaxation of the whole

muscular system. **Chilliness up and the down back**. Languor, muscles feel bruised. Every exertion causes **fatigue. Dull aches, heavy pains, up and down in spine, better walking**. Pain in muscles of back, hips and lower limbs, mostly deep-seated. Dull aching in lumbar and sacral region, passing upward. Pains under scapula. Pain in neck, especially upper sternocleidomastoid muscles. Lameness and stiffness of neck. Neck feels bruised, unable to hold the head. Spinal congestion, with incipient aphasia. Paralytic condition of lumbar and sacral muscles.

Bladder - Partial paralysis of bladder, intermittent flow (Clem.). Bladder paralysis following diphtheria. Bladder

paralysis in elderly people. **Retention of urine.** Dysuria. Frequent urging, with scanty emission and tenesmus of bladder. **Incontinence from excitement.** Incontinence from paralysis of sphincter. Constant dribbling of urine, but not a drop flows on making the greatest effort. Alternate dysuria and bedwetting. **Bedwetting in nervous children at night.** Bladder spasm in women, often combined with uterine spasms. Bladder spasm in men, with colic. Bladder distended up to navel.

Causations - Ill effects of fright, depressing emotions, anger, bad news, unpleasant surprise, traumatic shock. Sun, heat, warm or cold damp weather. Alcohol, drugs. Masturbation.

Chest - Oppression about chest. Heaviness in middle of chest. As if a lump behind the chest. Burning in chest, when coughing. Periodical pain in pectoral muscles. Constrictive pain around lower part of chest. Stitches in chest from above downward.

Constitutions - Suited to children and young people, to persons of a nervous, weak, hysterical temperament. Suitable to irritable, sensitive, excitable people.

Cough - Dry cough, with sore chest and fluent coryza. Cough from tickling in eustachian tube. Cough from tickling or roughness of fauces. Croupy cough in measles. Convulsive, spasmodic cough. Spasmodic cough in hysterical women. Irritative cough without expectoration.

Coughs a good deal during the night.

Ears - Catarrhal inflammation, at beginning of head cold and closure of eustachian tube. Ear pain while swallowing. **Earache from cold.** Earache and sore throat. Neuralgic otalgia. Great sensitiveness to all sounds. Impaired hearing from cold. Sudden loss of hearing for a short time, rushing and roaring in ears. Catarrhal deafness with pain from throat into middle ear. Deafness and loss of speech from quinine.

Eyes - Dullness, sleepy look of eyes. Eyes, red sore aching, suffused. Eyes red and watery. **Heavy, drooping eyelids.** Ptosis, can hardly open eyes. Ptosis due to congestion of brain, exhaustion. **Orbital neuralgia with contraction and twitching of muscles.** Bruised pain back of orbits. Disturbed eye muscular apparatus. **Serous inflammations.** Eyeballs sore when moving them. Eyeballs oscillate laterally when using them. Deep inflammations with haziness of vitreous. Photophobia worse sun or gaslight. Asthenopia. Glaucoma. Blepharitis and conjunctival hyperemia. Descemetitis. Retinitis. Detached retina from injury or myopia. Serous choroiditis. One pupil dilated, the other contracted. Yellow color of eyes.

Face - Face looks fatigued, droopy. **Hot, heavy, flushed, besotted-looking** (Bapt., Op.). Dusky hue of face with vertigo and dim vision. Neuralgia of face. Facial muscles contracted, especially around the mouth. Trigeminal neuralgia after exposure on a cold damp day. Chin quivers. Lower jaw dropped, wags sideways. Shooting pains in jaws. Facial paralysis. Erythema of face and neck. Sore, acute, red pimples on face.

Female - Menses retarded, pain extends to back and hips. **Dysmenorrhea with scanty flow.** Dysmenorrhea preceded by sick headache, vomiting, bearing down in abdomen. Menorrhagia, almost continuous flow, without any pain. Suppressed menses with nosebleeds. Epileptiform convulsions at menstrual period or from suppressed menses (Oean.). Uterus heavy sore, feels as if squeezed (Cham., Nux-v., Ust.). Cramps in abdomen and legs during pregnancy. Threatened miscarriage from sudden depressing emotions. False laborpains, pains pass **trpback. Inefficient labor pains or none at all.** Labor pains go up, backward or down the thighs. Nervous chills during first stage of labor. **Rigidity of os during labor** (Bell.). As if a wave from uterus to throat with choking feeling, impedes labor. Severe after-pains. Twitching of muscles of the whole body with drowsiness, before puerperal convulsions. Deep yellow leucorrhea with aching across lower part of the back. White leucorrhea, with fullness in uterine region. White leucorrhea with aching across lower part of back. Leucorrhea in gushes, day and night. Leucorrhea with constipation. Sex difficult from contraction of the vaginal muscles. Vaginismus.

Food - Low appetite and thirst. **Thirstless-ness with trembling.** Thirst with sweat, but not with fever. Difficult swallowing of warm food. Vertigo worse smoking. Sleeplessness from smoking. Headache worse wine. Eye symptoms worse wine.

Head - **Dull headache with influenza.** Headache coming on suddenly, with dimness of sight or diplopia.

Sensation as if a band around head with occipital headache. **Dull, heavy ache with heaviness of eyelids.** Bruised sensation. Sick headache. Headache worse mental exertion, heat of sun, lying with head low.

Nervous headaches from emotional excitement. Headache better pressure and lying with head high. Wants to have head raised on pillow. **Pain in temple, extending into ear** and nose, chin. Headache with muscular soreness of neck and shoulders. Headache preceded by blindness. **Headache better profuse urination.** Headache with faintness. Hemicrania preceded by great sensitiveness to noise. **Occipital headaches.** Delirious on falling asleep. Meningitis, congestive stage, pain at the back of head and dilated pupils. Fontanel pulsate strongly. Swollen feeling in head. Scalp sore to touch. Threatened or actual stroke, with stupor, coma and paralysis.

Heart - Feeble heart, slow heart's action with cold hands and feet. As if blood had ceased to circulate. **A**

feeling as if it were necessary to keep in motion or else heart's action would cease. Pain in heart on rising from seat. Palpitations and oppression of heart, worse when thinking of it. Hysterical palpitations. Sore pain in heart. Sharp pains in region of heart. Pulse soft, weak, full and flowing. Slow pulse (Dig., Kalm., Apoc.), greatly accelerated on motion. **Weak, slow pulse of old age.** Pulse slow, full, soft, compressible.

Kidneys - Pain in region of kidneys, as if produced by pressure of a blunt instrument. Kidney pain during fever. Constant urination, hysterical. Spasmodic affection of ureters from passage of calculi. **Urine profuse, clear, watery, with chilliness and trembling.** Urine much increased in quantity. Urine stream intermittent. Albuminuria.

Limbs - Fatigue of limbs after slight exercise. **Deep-seated, aching, in bones and joints.** Myalgia from overexertion. Loss of power of muscular control. **Excessive trembling and weakness of all the limbs.** Heavy sensation in lower limbs. Knees weak worse descending tottering gait, cannot direct his legs. **Muscleaches, chills and fatigue with influenza.** Hard aching in humerus (right). Feeling of partial luxation of patella when walking. **Numbness and weakness of limbs.** Wandering, rheumatic pains. Cramps in muscles of the forearm. Coldness of wrists and hands. Hot, dry, numb hands, especially palms. Wants hands in cool water. Neuralgic pains in limbs, after scarlatina. Professional neurosis. Writer's cramp.

Liver - Hepatitis with chronic fatigue. Passive congestion of liver with vertigo, dim sight and fullness of head. Gripping pain in gall bladder. Deficient secretion of bile. Jaundice with prostration and clay-colored stools.

Lungs - Heavy, labored breathing. Tiresome, slow breathing. Slow breathing with great prostration. Acute bronchitis. **Dyspnea and great chilliness. Respiration** quickened. Spasmodic disorders of lungs and diaphragm. Spasmodic asthma. Oppressed breathing with cold hands and feet. **Sudden sensation of suffocation.** Extreme restlessness from threatened suffocation, demands for fresh air. Sudden and severe attacks of dyspnea, with crowing noise, profuse sweat and dark flushed face. Scanty expectoration of mucus.

Male - Genitals cold, relaxed (Ph-ac.). Continually profuse warm sweat on scrotum. Dragging pain in testes. Gonorrhea, in first stage, discharge scanty, tendency to corrode, much heat, smarting at meatus. Whitish discharge in gonorrhea. Suppressed gonorrhea, with fever, rheumatism, orchitis. Excitable sexual desire. **Spermatorrhea without erections.** Spermatorrhea during stool. Too early ejaculation during sex. Sexual power exhausted, slightest caress causes an emission.

Modalities - **Better from profuse urination.** Better alcoholic drinks, stimulants. Better mental efforts. Better open air. Better sweating. Better shaking. Better bending forwards. Better continued motion. Better reclining. Better with head held high. Better in afternoon. **Worse emotions or excitement.** Worse surprise, anxiety. Worse shocks, ordeals. **Worse bad news.** Worse from tobacco smoking. Worse dentition. Worse motion. **Worse from anticipation.** Worse thinking of his ailments. Worse damp weather. **Worse humid weather, spring.** Worse fog. Worse before a thunderstorm. Worse heat of sun. Worse summer. Worse at 10 a.m. Worse periodically.

Mouth - Dryness of mouth, must swallow frequently. Putrid taste and breath. Bitter taste. Taste, clammy and feverish during the sweat. Saliva yellow as from blood. Muscles of mouth seem contracted. **Speech thick, as if drunk, he can hardly speak.** Sore mouth, with febrile and catarrhal states, intermittent or remittent type. Roof of mouth feels, as if swollen.

Nose - Disposition to catch colds and influenza, with every change of weather. Spring and summer colds. **Acute coryza with dull headache and fever.** Coryza with thin acrid watery discharge. Stuffed nose. **Coryza with influenza.** Sneezing, fullness at root of nose. **Sneezing, early morning.** Swelling of turbinates. Nosebleed with suppressed menses. Sensation as if hot water flowing from the nostrils. Hay fever. Watery, excoriating discharge. Nasal catarrh, with prostration, with sore throat. Nasal voice. Coryza in changeable weather. Itching and tickling in soft palate and naso-pharynx. Dryness of nose.

Perspiration - Sweats freely from slight exertion. Cold sweat. Sweat coming gradually and moderately, always relieves pains. Sometimes profuse, with languor and prostration. Sweats at night. Night sweats of tuberculosis. Most profuse sweat on genitals. Sticky sweat.

Rectum - Partial paralysis of rectum and sphincter. Paralysis of the anal sphincter. Prolapse rectum. Rectal pains after labor. Passage of flatus before stool. Diarrhea, painless in nervous persons. **Diarrhea after sudden emotions as grief, fright, bad news.** Diarrhea during dentition. Urging to stool caused by exciting news. Disposition to go to stool whenever anything startles her. **Diarrhea from anticipation of an unusual ordeal (Arg-n., Ph-ac.).** Painless or involuntary stools. Copious yellow stools. **Stools, cream colored.** Stool papescient, dark yellow. **Stools, tea-green.** Stools yellow, bilious, clay-colored.

Sensations - Lightness of head or body. As if the head were enlarged. As if there were a tape around the head. As if the skin were contracted in the middle of the forehead. As if a lump were in throat which could not be swallowed. As if a lump were in the esophagus. Load in stomach. As if stomach were quite gone. As if the

uterus were squeezed by a hand. As if he would die, as if the blood ceased to circulate, as if the heart would stop unless he kept moving. As if a knife were thrust through from occiput to forehead. As if eyes were jumping out of head.

Skin - Papular eruption, like measles. Itching of skin, without eruption, worse at night and from warmth. Hot dry, moist, yellow, itching, measles-like eruption. Erysipelas.

Measles, catarrhal symptoms, aids in bringing out eruption. Measles with cerebral symptoms. **Retrocedent measles, with livid spots.** Livid spots. Scarlet fever with stupor and flushed face. Erythema of face and neck. Pimples on forehead and neck. Pimples like small cutaneous indurations. Rubeola.

Sleep - Sleepless from nervous irritation (Coff.). **Insomnia from mental excitement**, uncontrollable thinking or tobacco. **Insomnia from exhaustion.** Sleepless from itching. Sleeplessness during dentition. Sleeplessness in delirium tremens. **Heavy, stupid sleep.** Cannot get fully to sleep. Restless sleep, worse toward morning. Starts on falling to sleep. **Drowsiness with influenza.** Delirious on falling asleep. Incoherent talking during half awake state. Sleepiness of students. Languor and drowsiness when trying to study. Sudden shrill cries on awaking in meningitis. Awakens from sleep with headache or colic. Yawning. Night terrors from nose being stopped up and dry. Unpleasant dreams after midnight. Sexual dreams with nocturnal emissions. Dreams followed next day by great languor and irritability. Dreams with pain at base of brain.

Stomach - Sour eructations. **Feeling of emptiness or weakness in the stomach.** Flatulence of stomach. Rumbling and dull pain. Cramps in stomach, worse riding or sitting erect. Hiccough, worse evening. Tenderness of stomach with vomiting.

Teeth - Toothache from a cold. **Toothache with nervous excitement.** Toothache with a weak and trembling condition. Toothache. purely nervous. Pains from teeth extend to temple. Pains come in paroxysms. Neuralgic pains and darts through jaws and face. Toothache with congestion of head and face. **Dentition, child frantic, awakens with sudden screams.** Gums swollen and tender. Child frantic at times, when gums are examined.

Temperature - Chills, without thirst, along spine. **Influenza with chills, muscular soreness, great prostration and headache.** Chill with aching and languor, mixed with heat or alternating with heat. **Chills Gelsemium sempervirens up and down back.** Wave-like chills, extending upward from sacrum to occiput. **Wants to be held, because he shakes so much.** Cold hands and feet. Coldness so severe as to be painful. **Nervous chills.** Nervous, shuddering, chills, preceded by visual disturbances. **Nervous chills during labor.** Heat and sweat stages, long and exhausting. **Fever with drowsiness.** Bilious remittent, malarial, typhoid, cerebrospinal fevers. **Fever and thirstlessness.** Measles, influenza and colds. **Fever with a stupor, dizziness, faintness, and weakness.** Fever with nervous restlessness. Fever with intense burning. **Wants to lie still and rest with influenza.**

Throat - Throat feels rough, burning. **Pain from throat to ear.** Swallowing causes pain in ear (Hep., Nux-v.). Difficult swallowing. Inability to swallow or speak. **Feeling of a painful lump in throat** that cannot be swallowed. Sore throat during menses. Tonsils swollen and very red. Tonsillitis from acute catarrh. Tonsillitis, shooting pain into ears. **Post-diphtheria paralysis.** Paralytic dysphagia, especially worse from warm food. **Spasms of glottis**, long crowing inspiration, sudden and forcible expiration. Dryness of throat with hoarseness. Hoarseness after depressing emotions. Hoarseness during menses. Burning pain in larynx and chest, when coughing. Larynx raw, as if ulcerated. Aphonia. **Loss of voice from fright.** Loss of voice, with dryness and burning in throat.

Tongue - Thick, yellow coating on tongue. **Tongue numb and trembles while protruding.** Edges of tongue red, centre white. Tongue inflamed in middle. Tongue brown, nearly clear. Tongue thick, coated, yellowish, paralysed.

Vertigo - Vertigo on rising, lightheaded, worse by sudden movement of the head and walking. **Dizziness and blurred vision.** Vertigo spreads from occiput, as if drunk with visual symptoms. Staggering as if intoxicated when trying to move, worse from smoking. Vertigo with loss of sight, chilliness, accelerated pulse, dullness of vision, double vision. Vertigo

Gelsemium sempervirens of child on being carried.

Vision - **Dim vision.** Dim vision during pregnancy. Blurring and discomfort in eyes even after accurately adjusted glasses. **Slow accommodation of vision.** Vision blurred, smoky (Cycl., Phos.). **Blurred vision with pain above eyes.** Obscured vision on stooping. Blind spells. Blindness with dilated pupils. **Double vision**, when looking sideways. Diplopia during headache. Diplopia during pregnancy. **Diplopia with multiple sclerosis.** Affections of vision before migraine. Pupils dilated and insensible to light. **Hysterical amblyopia.** Amaurosis after stroke. Amaurosis from masturbation. Astigmatism. Vision dim, can neither read nor write, words run together. Sees swimming black specks. Misty or glimmering appearance. Distant objects seem indistinct, when riding or walking.

COMMENTS - Overall fatigue with a sense of fright. Ailments due to bad news and fright (Op.), fright causes

weakness. Acute shock, shaking and trembling. Trembling with fear. Incontinence with fear. Fear of failure, acute fear or panic (Aeon.). Anticipatory anxiety.

Convalescence. Chronic fatigue ever since a viral infection (Ph-ac.), especially if the limbs feel heavy, exhaustion. Ailments from flu shots. For the elderly who become weak, frail, and lose confidence after infections.

Viral infections, particularly influenza, mono, meningitis, and hepatitis, with tiredness and weakness. Sore throats, worse swallowing. Coryza and hay fever with early morning sneezing and streaming colds. Catarrh generally occurs in warm, moist, relaxing weather.

Major influenza remedy. Influenza epidemics and for prevention. Dizzy drowsy, droopy and dumb. Slow onset of flu symptoms. Influenza infections with tiredness and weakness. Apathy and indifference during the flu. Wants to be alone and quiet when sick. Sore throats and colds. Fever without thirst. Muscle aches and weakness. Influenza with dull headaches. Never well since influenza, chronic fatigue. Worse since flu vaccinations.

Paralysis. Excessive weakness and trembling. Weakness and paralysis of the limbs, the limbs feel heavy, with trembling. Keynote tremors. Multiple sclerosis. Neuralgic problems. Epileptic attacks beginning with a throbbing headache.

Headaches with a heavy feeling, dizziness. Sensation of a band around their head. Throbbing headaches, particularly in the occiput and forehead. Nondescript headache with dullness. Headache begins in the occiput and spreads over the whole head, settling down over the eyes.

Migraine headaches with double vision, weakness, and nausea. Violent headache may occur if needing to urinate at night and not doing so. Headache with stiff neck, worse morning, better urinating, with irregular action of the eye muscles. Double vision, dimness of vision. Ptosis of the eyelids.

Vertigo. Dizziness from weakness, especially during viral infections, flus, and colds. Drowsy. Sense of dullness, apathy. Low stamina. Aversion to the least effort. Neurotic symptoms in cigar-makers, with impotence, palpitations. Drug overdose resulting in a stupor or coma.

Paralysis of the tongue, trembling of the tongue, particularly in typhoid cases. The tongue is thinly coated. Dry lips. Face is flushed (less than Bapt.). Itching of the skin, measles-like eruptions. Measles and eruptive disorders with drowsy state, suffused face, and convulsions.

Thirstlessness with low fevers. Cold extremities. Chills up and down the spine. Trembling and shaking, can be from extreme exhaustion. Euphoria followed by weakness. Generally a slow onset, with aches and pains, especially after exerting themselves.

Nervous diarrhea due to stress, worry and anxiety. Stools generally yellow, whether diarrhea or constipation. Nervous heartburn and colic. Hysterical dysphagia or aphonia after emotions.

Dysmenorrhea, epileptiform convulsions during menstrual period, rigid os in labor, chill, beginning in hands or feet and running up back. Aggravation before, during, and after menses.

Aversion to noise and light, desire to be left alone. Desires fresh air (Bry., Lyc., Ars.). Wants to lie down and rest. Wants to be held, that he may not shake. Must be covered in all stages of the paroxysm.

Worse thinking about their symptoms. Complaints from sudden changes of weather, particularly from hot or dry to damp air. Worse sunlight, heat of the sun, summer, damp weather, cold, damp atmosphere, fog. Great distress and apprehensive feeling at approach of a thunderstorm.

Symptoms may be better urinating. Better from stimulants, especially alcoholic. Cold drinks are vomited immediately, but warm or spirituous drinks can be swallowed. Pain at the back of the head is better from hot applications.

Motion aggravates most symptoms, but alleviates muscular heart pains. Rising from a seat causes pain in the heart. Heaviness of the head is better from shaking the head. Lifting the arms causes trembling of the hands. Playing the piano causes a tired sensation in the arms.

J. H. Nankivell drank two ounces of tincture of Gels, instead of a glass of sherry. He walked a few feet with assistance and in another minute his legs were paralyzed. He dragged himself to the bedside with his arms, but they were unable to help him to bed into which he had to be lifted.

As long as he lay quiet there was no trouble, but on the least exertion there were excessive tremors. Vomiting occurred during the next twenty-four hours. Temperature rose to 101.5° F. Heart's action very violent and intermittent.

All the muscles of the eyes were affected, but, of voluntary muscles, those of the right side suffered most. Prolonged conversation involved paralysis of upper lip. There was somnolence, absence of mental excitement and good appetite.

The effects passed away in the order of occurrence from below upwards, but after the arms had recovered, vision was not perfect for twenty-four hours.

A patient of Clarke once took a drachm of the tincture for a headache. On going out, he could not tell which side of the street he was on. He was near St. Paul's Cathedral and saw two cathedrals instead of one.

J. G. Blackley pointed out the suitability of Gels, to writer's cramp and professional paralyzes. Clarke relieved with it cases of Dupuytren's contraction.

Erskine White cured an infant born in convulsions three weeks after its mother had been terribly frightened by seeing her little brother nearly burnt to death.

The only guiding symptom was "the child's chin quivered incessantly." In thirty seconds after the dose the quivering ceased, in three minutes the convulsions were at an end.

White had to ride twelve miles over mountains to reach the patient after receiving the summons, so the convulsions must have lasted a considerable time.

RELATIONS -Antidotes: Atrop, Chin., Coff., Dig., Nux-m. Coff., Dig., Alcoholic stimulants relieve all complaints where Gels, is useful. In cases of poisoning, artificial respiration and faradization of respiratory muscles. Foy found Nitro-glycerine a perfect antidote in one case. Jephson antidoted his case with Strychnine.

It antidotes: Mag-p. It antagonizes: Atrop., Op. **Compare:** (1) Bell - labor, Caul., Caust. - complaints of women, Cocc., Con., Cur. - paralysis. (2) Ferr-p. - fever, Phos. - effect of thunderstorms. Ol-an., Verat. - headache. Bor. - sense of falling. (3) Bry. - typhoid, dreads movement. Gels, because he is so weak, Bry. because movement worse pains. (4) Hyper, worse from fog. Ign. - gastric disorders of cigar makers, Bapt., Ip., Aeon., Cimic., Mag-p. (5) Cux. - vertigo on blowing the nose with fullness of the ears. **Compatible:** Bap. (in typhoid influenza). Ip. (in dumb ague).

***GENISTA TINCTORIA

(Dyer's Weed)

PHARMACY - genist. Genista tinctoria. Dyer's weed. Dyer's greenweed. N. O. Leguminosae. Papilionoideae. Contains scopolamine. Tincture of whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Earache. Headache.

HOMEOPATHIC - Genista was proved by E. B. Cushing. It has been used for frontal headaches and vertigo, worse motion, better open air and eating. Dry throat. Awakes with waterbrash. Promotes diuresis in dropsical conditions. Urgent desire for stool, which is expelled suddenly.

Sharp, piercing pains in the head and ear. Brain feels loose. Sensitive feeling in brain, eye and throat. A peculiar eruption of dark, red, confluent spots. Itching eruption on elbows, knees and ankles.

Modalities - Better in the open air. Better cool rooms. Better by eating (headache). Worse from rising. Worse turning quickly. Worse shaking head. Worse walking.

RELATIONS - Compare: (1) Brain feels loose, Cic-v., Nat-s., Bar-c., Rhus-t.

REFERENCES-Clarke.

***GENTIAN

(Bach Flower Essence)

PHARMACY - gent-b. Gentian. Gentiana amarella. Flowers are picked, floated on to a bowl of water and left standing in the sun for several hours. The strained water is used as **medicine**. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Gent-b., together with Cer- b., Scler-b., Gors-b., Horn-b., and Wld-o-b., belongs to Bach's group of **For Those who Suffer Uncertainty**. Doubts and uncertainties over daily affairs. Doubtful and discouraged about the slow process of cure. Lack of physical stamina.

MIND - Easily discouraged. Weakened capacity for perseverance. Lack of courage, inner stamina and faith. Disheartened as soon as hindrances arise. Lack of centeredness, self assurance, willpower. Tendency to give up. Lack of interest. Tendency to exaggerate, especially small setbacks. Sadness or depression.

REFERENCES - Bach.

***GENTIANA CRUCIATA

(Cross-leaved Gentian)

PHARMACY - gent-c. Gentiana cruciata. Cross-leaved gentian. Kreutz-Enzian. N. O. Gentianaceae. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Belching. Diarrhea. Dyspepsia. Dysphagia. Hernia. Hoarseness. Stiff neck. Stomach, affection.

Throat, sore.

HERBAL - The Treasury of Botany stated "Gent, cruciata has been invested with imaginary virtues, because its leaves grow in the form of a cross, it has been recommended in hydrophobia."

HOMEOPATHIC - Gentiana cruciata's reputation as a remedy for hydrophobia is partly justified in the provings. It also has throat and stomach symptoms. Dysphagia, vertigo with headache, pressing inward sensation in eyes. Constricted of the throat, head and abdomen. Distention, fullness and tightness in abdomen. Creeping over body as from fleas.

MIND - Weeping mood with disinclination to talk. Very peculiar anxiety, acceleration and difficulty of breathing, swelling of the temporal veins and feeling of pressure in the temporal region. On reading, print seemed indistinct and as if covered with a veil.

Abdomen - Sensitive, griping, sore sensation in umbilical region, better sitting and lying, worse after dinner or smoking, standing, or walking, obliging him to bend forward, therewith umbilicus seemed to be drawn inward. Distention, fullness, tightness and constriction. Dragging in right inguinal region with feeling of protrusion, very sensitive.

Back - Drawing and jerking along right side of neck, extending to shoulder. Drawing in cervical muscles, extending to ears, worse by turning head, an uneasiness so that he could not remain long in one position. Tension in lumber region.

Eyes - Sensation as though eyes were lying deep in orbit, piercing inward sensation in right eye. Print indistinct, as if covered with a veil.

Female - Menstruation three days earlier than usual, during which there was a headache as if head too full with feeling of distention in the skull, better during rest and worse by motion, preventing sleep for a long time.

Food - Appetite increased or lost.

Head - Sensitiveness of whole head and brain after dinner, worse by violent motion of the head. Swelling of temporal veins and feeling of pressure in temporal region. Sudden stitch through left temple. Distressing tension and at times transient jerking in region of vertex, tension soon became a very acute constant pressure, worse by exerting eyes or constant thought.

Limbs - Distressing drawing in right shoulder lasting several minutes. Cramp-like pains in soles of feet.

Modalities - Better from drinking fresh water. Better warm soup. Better open air. Worse after eating.

Mouth - Two aphthous ulcers on margin of lower lip on either side of frenum. Increased flow of saliva.

Rectum - Movings about in intestines with slight headache, followed by copious pasty evacuation. Constant violent urging, followed by watery evacuations. Pasty diarrhea and stools without the usual itching in anus.

Stomach - Burning, fullness, pressure in stomach. Pressure in stomach as if a stone were in it with inclination to vomit. Sensation of pressing inward in pit of stomach. Acid belchings, watery vomiting. Great nausea with inclination to lie down. Vomiting with some difficulty, a small quantity of mucus of an acid odor intensely bitter, leaving a scraping and rawness in throat.

Throat - Frequent attacks of hoarseness and sensitiveness of the throat. Weak voice. Slight redness and distressing sensation of constriction within the throat, swallowing is very difficult. Rawness and scrapings, causing frequent hawking with constriction when swallowing. Intermittent, deep redness of fauces. Stitches in tonsils.

Vertigo - Confusion and whirling.

COMMENTS - The proving developed a number of striking symptoms in the throat and digestive tract. Movings about in stomach and abdomen. Pressure in the stomach as if a stone was in it with inclination to vomit.

All the symptoms of right inguinal hernia occurred in one prover. A peculiar sense of anxiety, faintness, uneasiness. One prover felt as if all the nerves were tense, so that walking was difficult. Creeping over the body as from fleas in the evening.

RELATIONS - Compare: (1) Gent-1., Lyc. - better from warm drink. (2) Bry., Puls. (3) Abies-n., - pressure in stomach as from a stone. (4) Kali-bi. - tenacious mucus in throat. (5) Gent-q. (6) Hydr., Nux-v. (7) Epip. - thick saliva.

REFERENCES - Boericke. Clarke.

***GENTIANA LUTEA

(Yellow Gentian)

PHARMACY -gent-1. Gentiana lútea. Yellow gentian. N. O. Gentianaceae. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Anorexia. Biliousness. Colic. Debility. Diarrhea. Dyspepsia. Fever. Gout. Headaches. Stomach, disorders. Throat, constriction.

HERBAL - The yellow gentian is the source of the well-known tonic of herbal practice; it may cause increased

the appetite in the healthy.

HOMEOPATHIC - Chief symptoms from the provings were in the alimentary sphere, including **ravenous hunger** as well as **a diminished appetite**. Marked stomach symptoms. Aching in the eyes and throat. Dry, thick saliva. Dry mouth, bitter or earthy taste, nausea, vomiting, colic. Diarrhea with yellow stools, rheumatic pains, sensations of constriction are marked and common. Febrile conditions.

MIND - Dull feeling of whole body. Morose mood, general dejection. Confusion while writing.

Abdomen - Inflation and tension of stomach and abdomen (Poth.). Colic, umbilical region sensitive to touch. Flatulence.

Back - Pain in the back and bowels, much worse by motion, better by sitting. Sensation of a cord or pressure and weight around the loins.

Chest - Oppression of the chest, fullness in the chest, sometimes with pressure and difficulty of respiration. Pressure on left side near the throat.

Eyes - Pressure in eyeballs. Frequent aching in the eyes. Redness of the conjunctiva. Obscuration of the sight for some moments, so that objects immediately before the eyes cannot be distinguished, could not see the person with whom he was talking for a few moments.

Head - Frontal headache, better eating and open air. Brain feels loose, head tender.

Limbs - Rheumatic tension and dragging in the right hand, with inflammatory redness of two articulations of the fingers, spasmodic symptoms and pain of the part during movement.

Modalities - Worse in the afternoon. Worse after eating. Worse on motion.

Mouth - Dryness of the month and throat, saliva thicker than usual. Intensely bitter, earthy taste. Swelling, fine sticking in throat, mostly in posterior portion of plate.

Nose - Irritation in nose, as in coryza, followed by a watery discharge.

Rectum - Urgent inflation to evacuate, sometimes sudden, with abundant stools, followed by painful sensitiveness of the abdomen, pressure on the anus while wanting to go to stool. Dragging towards anus with tenesmus. Sudden urging with copious evacuation.

Sleep - Yawning. Inclination to sleep without power to go to sleep. Uneasy sleep disturbed by abdominal symptoms and fever. Sleep impeded by colic, which obliges the patient to turn in bed, sometimes on one side and sometimes on the other.

Stomach - Acid risings, ravenous hunger, nausea, weight and aching in stomach.

Stool - Stool soft, yellow, preceded by colicky pains, which become so severe after the stool that they force the patient to bend double. Soft stools, immediately after rising. Bilious diarrhea in afternoon.

Temperature - Febrile shuddering, as from electric shocks, followed by lassitude, depression and tension in the limbs. Increase of natural heat in head, cheeks and whole body. Heat originating in the lumbar vertebrae. Pulse accelerated.

Throat - Frequent hawking of mucus, which is difficult to loose. Rawness, roughness of the throat. Hoarseness.

Vertigo - Vertigo is worse from rising or motion. Vertigo better in the open air.

RELATIONS - Compare: (1) Gent-q. (2) Gent.

1 ., Hydr., Nux-v., Epip. - thick saliva.

REFERENCES - Boericke. Clarke.

***GENTIANA QUINQUEFLORA

(Five-flowered Gentian)

PHARMACY - gent-q. Gentianaquinquefolia. Five-flowered gentian. Gall of the earth. N. O. Gentianaceae. Decoction of the herb. Tincture of fresh plant in flower September, October. **Historical dose:** Tincture and all potencies.

CLINICAL - Anorexia. Cholera infantum. Dyspepsia. Intermittent fever. Weakness.

HERBAL - Gent-q. is a pleasant bitter and appears, like the other Gentians, to be a positive tonic. It has a popular reputation in Ohio and other parts of the United States as an anti-periodic and tonic. Valuable tonic for old cases of dyspepsia and torpid liver.

Dr. Yelvington of Susquehanna, who said he learned its value from a tribe of Native Americans, said it has succeeded in obstinate intermittents where quinine and other anti-periodics had failed. He used the decoction of the herb, but a fluid extract or the saturated tincture is a better form for administration in fever.

Y elvington also used it in cases of infantile fever and cholera infantum. "As a tonic in enfeebled patients and in chronic diseases, it is a remedy par excellence, appearing to exert an action over organs of nutrition and assimilation, as well as being a stimulant to the excretory organs."

REFERENCES - Boericke. Clarke.

***GERANIUM MACULATUM

(Wild Cranesbill)

PHARMACY - ger. *Geranium maculatum*. Wild cranesbill. N. O. Geraniaceae. Tincture and triturations of root. Infusion of the plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Diplopia. Dysentery. Headaches. **Hemorrhages**. Leucorrhea. **Migraines**. Ptosis. Stool, ineffectual. Throat, sore. **Ulcers**. Vomiting.

HERBAL - *Geranium maculatum*. in the herbal tinctures and lower potencies, has been used successfully in cases of hemorrhage from various parts, nose, stomach and lungs. It has also been used for chronic diarrhea and leucorrhea.

Locally in ulcers, it will destroy the pyogenic membrane.

HOMEOPATHIC - Under the use of the drug, the blood in hemorrhages becomes darker, clots more easily and is much less in quantity. The root contains both tannic and gallic acids.

There are two fragmentary provings of Ger. one made with root preparations, one with infusion of the plant. The chief symptoms observed have been diplopia and other disorders of vision and a constant and ineffectual desire for stool.

Migraines, habitual sick headaches. **Profuse, hemorrhages**, pulmonary and from different organs. Vomiting of blood. **Ulceration of stomach. Atonic and foul ulcers**. Summer complaints.

Breasts - Sore nipples (Eup-a.).

Eyes - Ptosis and dilated pupils. Fullness in the eyes. Great difficulty in walking with eyes open, though he could walk with them closed.

Female - Menses too profuse. Post-partum hemorrhage.

Head - Giddiness with diplopia, better closing eyes. Sick headache. Slight pain in occiput, low down.

Mouth - Dry mouth. Tip of tongue dry and burning.

Rectum - Constant desire to go to stool with inability to pass anything for some time. Chronic diarrhea with offensive mucus. Constipation.

Stomach - Catarrhal gastritis with profuse secretion. **Lessens the vomiting in gastric ulcers**. Tendency to ulceration and passive hemorrhage.

Throat - Pharyngitis.

Vertigo - Vertigo with diplopia. Vertigo better closing eyes. Vertigo with blurred vision and constant ineffectual urging to stool.

RELATIONS - Compare: (1) Ger. - Constant hawking and spitting in elderly people. (2) Erod. - a popular hemostatic in Russia and especially used for metrorrhagia and menorrhagia. (3) Hydrin., Cinch.. Sabin. (4) Ham., Hydr., Hematoxylin., Rat., Fic., Erod.

REFERENCES - Boericke. Clarke.

***GERMANIUM METALLICUM

PHARMACY - germ. Germanium metal- licum. **Historical dose:** All potencies.

CLINICAL - Amyloidosis. Anemia. Arthritis. Bronchitis. Cancer. Diabetes. Headaches. Hypertension. Kidney, failure. Malaria. Palpitations. Paralysis. Pneumonia.

HOMEOPATHIC - Severe illnesses with dysfunction of nerves, liver, kidney. Démyélinisation of the nerves. Numbness. Ataxia, cerebellum. Chronic **fatigue. Extreme weakness, as if the vitalforce is leaving the body**. Feeling of heaviness, present throughout the pathogenesis.

MIND - Absent minded. Mentally slow and confused. Forgetful. Cannot adapt. Inept. Incapability. Makes mistakes in writing and speaking. Dyslexia. Difficulties with concentration, confusion. The answer is there but it can not come out.

Moody. Feels weak, dull, empty, flat. Indifferent. Everything appears unreal. Lack of romantic feelings. Hopeless. Feels helpless. **Guiltyfeelings**. Self reproach, hates himself. Disgusted with himself. Gloomy. Doomed feelings. Restlessness.

Fear of responsibilities. Fear of being criticized. Fear of being a total failure. Fear of being unmasked. Fear of falling. Fear of paralysis.

Irritable when having to answer questions. Feeling of isolation. Feels like a stranger

in society. Does not feel connected. Feels invaded, somebody has entered their territory. Feels trapped.

Emotions are strong but cannot come out or are kept under strict control. Suppressed anger or outburst of anger. **Holding anger inside, aggravates**. Such outbursts are very quickly forgotten with no feeling of remorse. Delusion, that he is a prisoner. Delusion that the world is shabby. Delusion that she estranged, isolated. Delusion, everything looks smaller or lower. Time going more slowly. Hearing voices. Delusions, hands don't belong to him.

Abdomen - Feels as if a lump in the solar plexus.

Back - Back spasms. Ache lower sacrum, left side, better stretching and deep pressure. Tension in neck as if nerve was trapped. Aching back of neck extending to right side of occiput, tender to touch, better massage. On waking, intense pain between last cervical and first thoracic vertebrae. Twinges of pain. Muscles feel sore on pressure. Sudden sharp pains appear and disappear quickly. Sharp pain on waking, like a sharp point in shoulder, worse turning head to right. Sharp pain, left scapula. Spasm, left lumbar region, extending to leg.

Bladder - Cutting, pressing pain in the right side of the bladder.

Blood - Hemolysis. **Anemia**. High blood pressure. Amyloidosis.

Breasts - Tenderness in breasts. Wart on right breast with cheesy discharge. Sharp pain in right nipple. Sharp pain in right breast pulling from inside to outside. Sharp pain in left lower breast while walking in the open air. Sensation in right breast as if something is trying to come out through the duct.

Chest - Constriction in chest on coughing with clear expectoration. Pain on left side when coughing. Twinge, both breasts, lateral. Aching pain in lateral side of left breast. Aching pain in right breast. Aching on inspiration, worse bending, moving forward, lifting arm. Cramping lateral side right breast. Sensation of a lump in chest on waking. Tightness in the chest in a small spot. Tickling behind sternum.

Cough - Cough in evening. Cough better hot drinks. Dry cough, with tickle in throat while lying in bed, worse cold water. Dry cough in pairs, with irritation in throat. Dry, racking cough better lying down, with no expectoration. Dry, tickling cough. Hard, dry cough waking from sleep at night. Hollow, barking cough in bed. Sharp, tickling, barking cough, worse evening, cold drinks, better warm drinks. Spasm across lower abdomen with cough.

Ears - Aching pain moved into ear with pressure in both ear drums. Cracking in the ears from yawning. Pain, throbbing behind the ears. Sharp pain in right ear. Tightness in ear drum. Noises in ear. Ringing noise. Low, whispering sounds. Humming vibrating sound in head. Sensitive to noises.

Eyes - Burning pain with lachrymation and discharge from nose. Dry, gritty eyes. Burning and itching of eyelids. Cold sensation of the eyes. Eyes cold and watery as if exposed to a cold draft. Stiffness with swelling upper eyelids and below eyebrows. Cannot open eyes properly.

Face - Whole face swollen. Rash then extends behind ears. Face more greasy than usual. Purulent eruptions. Pain on cheekbone and above gum like sinusitis. Submaxillary glands swollen and sore to touch.

Female - Menses early. Pain-free menses. Menses started with brown-black discharge followed by red blood. Menses with protracted heavy flow. Dark clotting flow. Bright heavy clots on rising. Tiredness with ovulation. Tiredness during and after period. Leucorrhea thick and yellow. Vaginal discharge offensive. Internal itching with slight yellow discharge turning slightly pink. Itching in vulva. Irresistible itching around vagina. Itching bump on clitoris. White discharge from bump on clitoris. Flatus from vagina. Intense, tearing, bearing down pains in vagina and anal before menses. Sharp pain like hot needles lower abdomen and ovaries. Cramp-like labor pains. Pain before the flow starts, pacing and restlessness. Bleeding very scanty but clotted. Sudden stabbing pain right ovary. Twinge of pain in left ovary. Soreness in opening of vagina, worse by touch. Sexual desire increased. Heightened sexual sensations.

Food - Appetite increased.

Head - Headache with sharp, stabbing pains. Headache, worse moving. Head feels loose inside. Headache over left eye better cold bathing on waking. Head congestion with catarrhal symptoms. Heaviness sensation, occiput. Pressing pain in temples. Dull pain between the temples. Crawling sensation, right side of head. Light-headed, better eating. Slight dizziness in head with throbbing pain in temples. Dandruff and itchy scalp.

Heart - Palpitations. Palpitations could start at any moment, as if with anxiety in the chest.

Kidneys - Sudden stabbing pain, right kidney while sitting. Kidney injuries. Kidney failure. Diabetes. Frequent urination. Frequent urging for small amounts. Feeling of heat while passing urine. Stabbing sudden pain right kidney while sitting. Aromatic odor of urine. Powerful stream. Copious urine. Very dark urine with reddish hue and very strong smell. Concentrated, urine, with acid quality.

Limbs - Paralysis. Legs trembling. Inflammation of joints. Cold hands. Cold, wet, clammy feet. Feet very sweaty, odorless. Warm sensation of arms. Incoordination. Hands very dry rough and papery, palms red. Blood blister on finger, sore to touch. Itchy eruptions on shins, better in hot water. Rash slightly raised and a bit itchy, extending down arms. Itchy eruptions on right shin after shower or bath. Pimples on right buttock and thigh. Pain, aching in right shoulder as if bone is sensitive. Pain, aching, left hand near bone. Sciatic pain, leg, right, while standing. Aching in thigh muscles in bed. Knee pains, when walking, worse descending. Dragging pain in knee. Tension in knees when sitting. Stiffness, and soreness calves. Cramping pain in the right big toe. Prickling sensation in arms and hands.

Liver - Liver injuries.

Lungs - Pneumonia. Bronchitis. Soreness with slight wheeze in bronchi. Slow, deep respiration. Out of breath on climbing one flight of stairs. Sighing. Restriction in lungs with coughing. Funny sensation on breathing. Once the air passed through the throat felt fluttering sensation in chest and bronchi. Can't breathe deeply, air can't get through properly.

Male - Coldness in the whole penis with formication in the prepuce. Desire for sex with strong erection which remained long after emission. No sexual interest. Desire absent. Shooting pain in right testicle. Intense sharp pain in the tip of the prepuce of very short duration. Emissions smelling of fish. Emissions profuse.

Mouth - Dry mouth. Metallic taste in mouth, better glass of water. Greenish-white coating on the tongue and inside of upper lip. Salivation increased. Pain aching in jaw as if chewing something. Tingling in the middle of lower lip.

Nose - Itching of nose, external and internal, better rubbing. Abundant sneezing during coryza. Sneezing with watery coryza. Sneezing with mucus on waking. Head congestion with catarrhal' symptoms. Nasal discharge clear and bland. Clear discharge following chest cough. Discharge thin watery pale and yellow. Nasal discharge salty.

Perspiration - Perspiration absent at night. Sweats during eating. Sweats with hot flushes. Perspiration from smelling soap.

Rectum - Itching of the anus. Constipation, difficult stool. Stools on alternate days. Stools alternating between hard and soft. Explosive flatulence. Flatulence offensive. Diarrhea and flatulence. Diarrhea with thirstlessness. Diarrhea, followed by increased energy. Intense pain in rectum from sexual excitement. Pressing tearing in rectum after stool, extending towards genitals. Sharp pain in rectum extends to ovaries, worse stool.

Skin - Rash on chest. Very fine itchy rash, behind ears, worse left side. Inflamed pimples on skin of back. Molluscum contagiosum. Eruption red, soft, tender. Right palm very dry and flaky. Skin feels as if an ant were rapidly crawling, then biting. Tingling. Itching on the right side of the chin. Biting, prickling and itching after bath or shower. Swelling, on waking. Eyes swollen virtually shut, rash and swelling now extending to right side of face with red blotches and terrible burning, worse water, worse scratching and rubbing. Skin very oily all over. Skin greasy, and sticky, better washing.

Sleep - Sleepy, must lie down and sleep. Waking 3.30 a.m. Wakes at 5 a.m. Couldn't sleep. Sleep interrupted by cold feeling in the stomach. Stays awake in spite of sleepiness because of pain in the head and eyes. Sleep interrupted by splattering sound inside head. Sleeping on right side impossible with aching in kidney. Yawning constantly with sleepiness. Yawning, paroxysmal. Yawning, which provokes crackling in the ears. Yawning throughout day. Dreams of being pursued. Dreams of accidents. Dreams of war. Dreams of being raped. Dreams of burglars. Dreams of invasion.

Stomach - Eructations while eating. Eructations very bitter and sour. Stomach feels cold, better warm drinks. Stomach feels bloated and full of air during and after eating. Tightness in the stomach. Heaviness and bubbling pain in stomach after eating. Sore pain if pressed. Nausea, wobbly queasy feeling worse after eating. Nausea after drinking beer. Nausea better lying down. Vomits suddenly with extra salivation. Vomiting in morning. Vomiting after alcohol.

Stools - Stool yellow, loose and offensive, alternating with hard stool. Stool scanty, dry dark brown, with mucus. Loose stools. Stools frequent. Stools, frequent.

Teeth - Sharp cutting pain in all gums. Pain in teeth from cold water. Sharp pain in teeth. Sudden nerve pains in teeth and gums.

Throat - Sore throats, with much mucus. Sore and prickling throat on waking. Rasping, grating feeling in trachea while coughing and sneezing. Sore throat started in top of pharynx, worse eating oranges. Difficulty speaking.

Vertigo - Vertigo on turning head. Vertigo on writing and studying. Vertigo on going to bed, as soon as head hit the pillow. Vertigo worse closing eyes and opening again. Dizziness after massage.

Vision - Black in front of eyes on rising up from lying in the evening.

RELATIONS - Compare: (1) Gallium., Ferr.

REFERENCES Sherr.

***GETTYSBURG AQUA

(Gettysburg Mineral Spring)

PHARMACY - get. Gettysburg aqua. Gettysburg mineral spring salt from Gettysburg, Pennsylvania, USA. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Bone, disorders. Hip, disease. **Ligaments, rigid.** Potts' disease. Scrofula. Ulcers.

HOMEOPATHIC - Magnesium sulphate is the predominant ingredient of Gettysburg aqua, but the water contains many salts of alkalis and earths with a number of metals. Contains lithium and silica, which it is similar

to. Gettysburg aqua is indicated in the decay of vertebrae or the hip, ulceration of joints, when the discharge excoriates. Scrofulous children.

Sub-acute and chronic rheumatism. Sensation of rigidity. **Ligaments rigid**. Worse stiffness of muscles on moving. Cannot remain long in one position. Stiffness of muscles on moving. Joints weak. Cannot lift things.

Pain not perceived when quiet. Pain in ligaments relieved by rest.

Stringy mucus from throat and posterior sinuses. Rawness. Neck muscles rigid. Subacute gouty state. White coated tongue. High colored urine with red sandy sediment.

Modalities - Better rest. Worse in the morning. **Worse from moving**, especially in lumbar region and joints of hips, shoulders and wrists.

RELATIONS - Compare: (1) Lyc., Phos. Rhus- t. (2) Puls., but modalities differ.

REFERENCES - Boericke. Clarke.

***GEUM RIVALE

(Water Aven)

PHARMACY - geum. Geum rivale. Water aven. N. O. Rosacea. Tincture of the plant in flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder disorders. Penis, pains. **HOMEOPATHIC** - Hering is the authority for this medicine. Disorders of bladder with pains in penis. Relaxed mucus membranes with excessive and depraved secretions. Worse eating, imperfect digestion and assimilation.

Tearing, jerking pains, which instantly unfit him for everything, seem to shoot from deep within the abdomen, below the umbilicus to the end of the urethra. They are like electric shocks, excessively severe and always occur twice in succession. As soon as he eats anything they return, then he is obliged to lie down.

REFERENCES Clarke.

***GINKGO BILOBA

(Maidenhair Tree)

PHARMACY - gink. Ginkgo biloba. Maidenhair tree. Galisburin adiantifolia. Ginkgo is a tree belonging to the Taxaceae family in the Conifer group. The tincture is prepared from the fresh leaves gathered in spring. **Historical dose:** Tincture and all potencies.

CLINICAL - Absent-minded. Asthma. Alzheimer's disease. Attention, weak. Brain, disorders. Concentration, poor. Dyslexia. Influenza. **Memory, weak**. Mental, weakness. Mumps. Laryngitis. Senility. Tonsillitis.

HERBAL - Ginkgo is indicated for the circulatory system and the brain. It is a well-known brain tonic that improves the cerebral blood flow and helps treat and prevent problems with memory, senility and mental dullness.

HOMEOPATHIC - The proving was carried out by E. A. Maury in 1933, with the mother tincture on seven provers (five men and two women), and with the 6th potency on two male provers.

Early stage of influenza. General numbness and shivering. Pain above the left orbital nerve. Burning pain in the pharynx

Ginkgo biloba and stomach. Urinary complaints. Vesicular, itching eruption.

MIND - Mental weakness. Exhausted. Sensation of mental fatigue (Sil.). Mental work is an effort to carry out. Poor concentration. Dullness of mind. **Absent-minded and forgetful**. Senility. Alzheimer's disease. Loss of memory and inability to solve mental tasks.

Nebulous condition with the impression of unreality. Irrational fears with rapid speech. Needs to criticize others and himself. Suppressed anger with desire to tear up something (Staph.).

Abdomen - Abdomen tense and swollen. Pain in the region of the bladder and loins. Colic, followed by diarrhea-like stools. Intestinal diseases caused by worms.

Back - Pains at the nape of the neck, at the tips of the scapulae.

Ears - Buzzing noises.

Eyes - Eyeballs painful, especially on looking up and to the right. Sensation of impaired vision with a veil in front of the eyes. Ophthalmic migraine.

Female - Premature menses. Premenstrual lumbar pains. Leucorrhea.

Head - Frontal headache. Heaviness in the frontal region. Orbital neuralgia. Pain above the left orbital nerve. Sweating on the nape of the neck. Vertigo.

Limbs - General cramps and writer's cramp. Clenching of the right hand with trembling. Legs feel like jelly, feet feel icy.

Lungs - Difficult expectoration of thick sputum. Dyspnea. Laryngitis. Laryngeal irritation with cough. Asthma.

Male - Urethral discharge of yellowish pus. Diminished sex drive.

Modalities - Better from the heat, rest. Worse from cold. Worse walking. Worse drinking. Worse looking up and to the right. Worse right side. Worse around 2 a.m. to 3 a.m.

Mouth - Dry. Tongue yellow towards the root. Swallowing difficult with scraping sensation in the pharynx.

Rectum - Diarrhea-like stools. Worms. Sensation of heat in the anus.

Skin - Transient smallpox-like eruption. Vesicular, burning, itching eruption. Eczema.

Sleep - Heavy sleep with nightmares, dreams of corpses. Insomnia between 2 a.m. and 3 a.m.

Stomach - Sensation of emptiness in the stomach. Heaviness and burning in the stomach. Dyspepsia.

Throat - Pharyngitis. Congestion of the parotid glands. Rising pain along the line of the lower maxilla. Prickling pains in the left tonsil with need to clear the throat regularly.

COMMENTS - Useful during the early stages of influenza. Pale face with drawn features. General numbness and shivering. Pain above the left orbital nerve. Burning pain in the pharynx and stomach. Urinary complaints. Vesicular, itching eruption. Irrational fear and volubility.

RELATIONS - Compare: (1) Rhus-t. - general aching with constant need to move. Vesicular, burning, itching eruptions. (2) Canth. - burning in the mucus membranes. Eruption of burning vesicles. Dysuria. (3) Com. - Right ciliary neuralgia.

REFERENCES - Boericke. Clarke. Murphy.

GINSENG

(Wild Ginseng)

PHARMACY - gins. Ginseng. Wild ginseng. Panax quinquefolia. Panax ginseng. Aralia quinquefolia. Schinseng. N. O. Araliaceae. Trituration and tincture of the root. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Appendicitis. Backache. Borbo- rygmi. Debility. Flatus. Headaches. **Hiccough. Lumbago.** Memory, weak. **Rheumatism.** Sciatica. Sexual excitement. Typhlitis.

HERBAL - The symptoms of the Chinese and the American Ginseng are taken together, as the two are probably identical. The root is forked like that of the mandrake. The name ginseng is said to signify "the resemblance of a man" or a man's thigh. The shape of the root might indicate an action on the pelvis and lower limbs.

HOMEOPATHIC - Lembke and others have proved it. It is an aromatic stimulant and removes feelings of fatigue, imparting a joyous sense of vigor and elasticity to the limbs, especially the upper limbs, and clearness of mind.

Malaise. Yawning. Drowsiness with headache. Feeling of extreme heat and intense coldness, longing to expose the body to cool air. Stimulates the secretory glands, especially salivary. Dry mouth, tongue and lips. Mouth and throat are sensitive to the ordinary air of room. **Hiccoughs.** Affects the respiratory organs.

Acts on the lower part of the spinal cord, **lumbago, sciatica and rheumatism.** Paralytic weakness. Skin symptoms, itching pimples on neck and chest. The right side of the body is most affected. Pain in right side of hypogastrium, extending into groin.

MIND - Mood quiet and contented with good courage. Calm, but impatient impulses. Disposition to weep. Anxious about the future. Fear of misfortunes. Fear of accidents. Thinking is difficult. Memory weak.

Abdomen - Tense, painful, rumbling. Pain in right side. Loud gurgling in ileo-cecal region. Dull borborygmi in the abdomen, tension and feeling of inflation, emission of wind, uneasiness and yawning. Peri-typhlitis.

Back - Stiffness in back. Coldness in back and spine. Pressure in dorsal vertebrae. Frequent cracking in upper cervical vertebrae on moving head. Heaviness and stiffness in nape. Drawings in neck muscles. Weight in nape of neck with contusive pain along back of sacrum. Pulsation in vessels of right side of neck. Painful lassitude along back with bruised feeling down to and in sacrum. Deep lacerations around loins, between the shoulder blades, extending to right shoulder.

Chest - Aching and oppression in the chest with great difficulty of respiration. Oppression of the chest with anxiety and lacerations in pit of stomach and lumbar region. Prostration of strength and lassitude in the limbs.

Eyes - Pressure on the eyes. Pupils alternately large and small. Unpleasant sensation of coldness on surface of eyeball. Great difficulty in opening the eyelids, which are heavy and painful, itching of the eyelids. Biting and itching in margins of

lids. Vision indistinct. Sensation of fatigue when exposed to the light. Objects appear double when looked at fixedly in reading, the characters become confused.

Face - Alternation of redness and paleness. Burning erythematous redness on right cheek, alae nasi, chin. Lips red, dry, rough, thick, cracked and bleeding, especially the lower lip. Drawing in jaws and bones of face.

Head - Head seems at times enlarged and to sway to one side. Pressure in longitudinal sinuses. Drawing pains. Painful sensitiveness of the head. One-sided head pain. Lacerations from right side of the forehead as far as the orbit with heaviness of the eyelids. Sudden shock in occiput, followed by pains, as of a bruise.

Heart - Severe pain, cutting, dagger-like lacerations and stitches in præcordia. Some violent beats while sitting and followed by sensation of floundering of heart with rapid, small indistinct pulse. Pulse very irregular.

Kidneys - Sticking and voluptuous twitching in navicular fossa. Pruritus and burning in urethra with frequent urging to urinate. Yellowish lemon-colored urine, depositing a red sediment.

Limbs - Skin feels tight, contracted. **Stiff, contracted joints.** Much cracking in joints on moving. Bruised pain in limbs alternating in different parts. Heaviness of lower limbs. Bruised pain in small of back and thighs, nightly digging in right lower limb to toes. Eruption on upper inner thighs. Hands feel swollen. Violent burning heat in fingertips.

Lungs - Short anxious respiration or slow and deep with exertion. Frequent deep inspiration and tightness of chest as if he could not get enough air, better while walking. Contractive pain across lower thorax. Dry cough in paroxysms. Voice rough and hoarse.

Male - Voluptuous tickling at end of urethra. Pressure in testicles. **Weakness of genital organs.** Sexual excitement. Nocturnal erections without pollutions. Painful erections while sitting at engrossing business. Rheumatic pains after frequent emissions.

Modalities - Better at dinner. Worse in open air. Worse night. Worse from talking. Worse bending, turning. Worse descending stairs. Worse sitting.

Mouth - Tongue red and smarting with thirst. Tongue white, dry with large glistening papilla. Green saliva. Swallowing of saliva, very difficult on account of dryness. Mouth, lips and teeth very dry, voice rough and scraping.

Rectum - Evacuation difficult. Sticking in rectum. Tenesmus and lacerations. Hard stool, which is not emitted without efforts, followed by burning in the anus. Thin stools preceded by short violent pain, extending from within the pelvis to the thighs, as though one must sink to the ground. Liquid stools in the evening, preceded by colic.

Skin - Itching pimples on the skin of the neck and of the chest. Itching below right foot.

Sleep - Much yawning and drowsiness. Vivid, lascivious dreams, of which the recollection remains. Awakens with difficulty or else with a start.

Stomach - Pressure on the stomach. Oppression and pressure of clothing intolerable. Painful drawings in the stomach, as from hunger. Swelling and pulsation of the stomach. Contractive pain in the stomach with anguish, difficulty of respiration. Drawing pains in the stomach and lacerations in right side, which stop respiration. Inclination to vomit.

Temperature - Coldness, numbness, trembling of hands, fingers white. Chilliness through the back extending into arms, into bones of back, cold hands, blue nails.

Throat - Tonsillitis (Bell.), in dark-complexioned people.

Vertigo - Vertigo, cloudiness, confusion, giddiness and heaviness of the head. Vertigo on going down winding stairs. Vertigo while standing, the ground seems to waver. Vertigo with gray spots before eyes. Vertigo with semi-lateral headache, occipital. Vertigo difficult opening of eyelids, objects appear double.

COMMENTS - Very valuable herb in China, the wild ginseng of Siberia is said to be the best. Natives along the Ussuri river use it boiled for headaches, colds, fevers, and stomach pains. In America, it is a domestic remedy for the after pains of labor.

J. H. Henry said it acts on the lower part of the spinal marrow. He noted that it is also useful for "bruised pains in small of back and thighs (on rising from bed). Great languor with paralytic, rheumatic pains in lower limbs. Arthritic swelling of the foot, which had been exerted a long time. Violent pain in big toe."

Henry also mentioned a "nightly digging in right lower limb from hip to big toe, cramp, pains from right hip to toes, lacerating, tearing in right tarsal joint." He considered it specific in lumbago, sciatica and chronic rheumatism that are accompanied by a frequent desire to urinate and sexual excitement.

RELATIONS - Compare: (1) Aral., Coca. (2) Hed. - depression and skin irritation antidoted by Gunpowder. (3) In "**Drowsiness with head-ache**" Bruce., Hera., Gels., Nat-s. (4) Nux-m. and Sulph. in dry lips, Bry.

REFERENCES - Boericke. Clarke. Murphy.

***GLONINUM

(Nitroglycerine)

PHARMACY - glon. Gloninum. Nitroglycerine. Spirits glycerinus nitrate. Dilutions with alcohol. **Historical dose:** All potencies.

CLINICAL-Angina pectoris. Aphasia. Brain, congestion. Bright's disease. Colic. Convulsions. Epilepsy. Fright. Goiter. **Headaches. Heart, disorders.** Hypertension. Mania. Meningitis. Menses, suppression. Migraines. Neuralgias. Nosebleeds. **Palpitations.** Paralysis. Rheumatism. Sciatica. Seasickness. Snow-headache.

Strokes. Sun-headaches. Sunstroke. Toothache. Trauma.

HOMEOPATHIC - Hering said that Sobrero discovered nitroglycerine in 1847, but none could be obtained for physiological experiment until Morris Davis, after long and laborious trials, and under Hering's own direction, succeeded in producing the substance in sufficient quantities for a proving.

Nitroglycerine is an explosive substance, therefore its action is quick and violent, a tempestuous remedy. The signature of this potent explosive may be said to be **“bursting”** and **“expansion.”**

The keynote action is the tendency to sudden congestion and violent irregularities of the circulation. **Sudden vascular congestion.** Surges of blood. **Violent pulsations, ebullitions** and irregular congestions. **Blood rushes upwards, to head and heart.** Small, wiry pulse, pallor, arterial spasm, anemia of brain.

Collapse, feeble heart, syncope, dicrotic pulse. Affinity for the arteries (Ham., for veins). Stimulates the heart and circulatory system, usually going to the head and chest producing violent pain. Throbbing and pulsation in the area. Quick and violent action.

Arterial tension, in chronic interstitial nephritis. Strokes. General pulsations throughout body, often with numbness. **Pulsating pains.** Pains that come long after injuries. Burning in small areas or in a single parts.

Congestive headaches, hyperemia of the brain from excess of heat or cold. **Bursting and expansion sensations.** Great vertigo on assuming an upright posture from rising up in bed, rising from a seat, etc. Heat in the head, throbbing headache. Violent convulsions, associated with cerebral congestion.

Extreme irritability, easily excited by the slightest opposition, ending in congestive head symptoms. Intercranial, menopausal disturbances or due to menstrual suppression. Convulsions, epileptiform from cerebral congestion or suppressed menses. Eclampsia.

Sciatica in atheromatous subjects with cold shriveled limb. Itching all over body, with later acne and furuncle formation. Old scars break out again. Clothing seems tight. Seasickness. Bulimia. Ailments from sunstroke or heat, can't bear heat about the head, the sun, the heat from a stove.

MIND - Confused, bewildered. **Mental confusion with dizziness.** Confusion on waking, at night, better open air. Conversation difficult, with confused ideas. Forgetful during headache. Worse mental exhaustion. Great lassitude, no inclination to work. Disinclined to speak.

Ailments from mental excitement, fright, fear, mechanical injuries and their later consequences. Desires death during headache. Suicidal, attempts to jump from window during headache.

Shock, sudden attacks of terror. **Fear from sensation of swelling of throat.** Apprehensive of approaching death. Fears she has been poisoned. Fear of having a stroke on waking. Shudders and weeps during intermissions of pain. Frantic with pain, attempts to run away or jump out of a window.

Very irritable. Dwells on past disagreeable occurrences, recalls old grievances. **Aversion to husband, dislikes her own children.**

Dare not go out into the street. Sits with head on hands and elbow on knees. Familiar places seemed strange after headache. Cannot recognize localities. Recognizes nobody. Loses senses, sinks down unconscious.

Delusion house is not in right place, while walking in street after headache. As if in a dream, doesn't know where he is. **Time passes too slowly.** Delusion distances are enlarged.

Insanity from long continued heat of sun. Exalted ideas, thinks she is God and everyone her inferior. Unusually bright and loquacious, with great flow of ideas. Desires room perfectly still, is worse noise. **Abdomen** - Rumbling in lower part of the abdomen, principally when lying on left side. Rumbling in hypogastrium. Gallstone colic. Colic, cutting pain principally below the navel, waking in the morning, before and after loose stools.

Back - Burning heat between the shoulder blades. Hot sensation down back, along the spine. Burning between scapula. Pain in the whole spinal column or heat and chilliness. Stiffness, tightness around the neck, clothing seems to be too tight. Neck feels weak and tired, cannot support the head.

Sensation of fullness, tension, pulsation. Stiffness of neck during headache.

Breasts - Throbbing pain begins in left breast, darts suddenly to head, worse motion.

Causations - Ill effects of sun, heat, bright snow, fear or fright, and jarring injuries.

Chest - Congestions to chest alternating with congestions to head. Oppression of the chest, alternating with headache. Heat, rising from chest to face and head. Chest feels screwed together. Constriction. Numbness moves upwards in chest and down left arm. Sweats on the chest.

Constitutions - Suited to florid, plethoric, sensitive women. Nervous, sanguine, readily affected persons.

Ears - Ears red. Sharp shooting pain behind ears. Throbbing, piercing from within outward in right ear, each beat of heart is heard in ears, full feeling. Ringing, singing or cracking in the ears. Deafness, paralysis of auditory nerve. Ears sensitive to jarring. Sensation of fullness in and around the ears. Mastoiditis. Menière's disease.

Eyes - Eyes sunken, dry. Red, lower eyeballs or lids. Eyes protrude, look wild, upturned or rolled outwards and upwards in convulsions. Sharp pain, soreness or pressure in eyeballs. Lids stick to ball. Photophobia.

Pupils dilated, eyes rolled upward and outward. Pupils contracted in sunstroke.

Face - Redness of face, which comes and goes. Flushed face alternating with pale. Flushed, hot face. Dusky face. Face bluish. Faceache with twitching of facial muscles. Pain at the root of the nose. Neuralgia of face with pulsating pains. Chin feels too long. Trigeminal neuralgia, left side of face. Periodical attacks of facial neuralgia. Lower lip feels swollen or numb. Jaws clenched in sunstroke. Pain in malar bones, ending in headache. Veins of temples swollen. Cold sweat on face during congestion to head. Sweat on face.

Female - Delayed menses. **Sudden cessation of menses with congestion to head and chest, with headache and fainting.** Menses scanty. Menses with lumbar pain. Headaches after profuse menses. Since menarche, congestion to head, with loss of consciousness. **Menopausal flushing.** During pregnancy, headache, congestions of blood to the head and chest. Eclampsia, unconscious, face bright-red, puffed, pulse full, hard, urine copious and albuminous.

Food - Loss of appetite. Abnormal hunger. Wants cold water, dry parched feeling. Increased desire to smoke. Alcoholic stimulants cause delirium, congestion, stupor, sleepiness and subsequent depression. Wine aggravates all symptoms.

Head - Rush of blood to head. Cerebral congestion. **Throbbing and bursting headache.** Sudden, violent congestion to head, throbbing felt with every pulse, at every step. As if blood were surging back and forth. **Waves of terrible, pounding pain.** Cracking, snapping, shocks, explosions or soreness deep in brain. **Head heavy, but cannot lay it on pillow.** Headache, before, during, after, or in place of menses. Headache with nausea. Shocks in head, synchronous with pulse. Headache better from sleep. Holds the head tightly. **Throbbing in temples, worse walking.** Veins of temples distended. Neuralgia of head and face. Head feels large, as if skull were too small for brain. **Headache with protrusion of eyeballs.** As if standing on the head with expanding and contracting sensation. Headache and pulse increase and diminish together. **Threatened strokes.** Meningitis. Cri encéphalique. Knocks head against wall, during frightful bursting headache. **Sun headache,** increases and decreases with the sun. **Sunstroke.** Effects of sunstroke, heat on head, as in type-setters and workers under gas and electric light. Headache from injury to spine.

Heart - Angina pectoris. Anxiety in précordia. Cardiac pain radiates to all parts. Heart pain, worse from wine. Sharp pain in heart on stooping. Laborious action. **Violent palpitations with throbbing carotids.** Palpitations with dyspnea with heat in face. Heart seems full, quivers. Boiling sensation in the region. Fluttering of heart. Pressure in heart as if it was being contracted. **High blood pressure and headaches.** Throbbing in the whole body to the fingertips. Purring noise at the region of the heart. **Any exertion brings on rush of blood to heart and fainting spells.** Cannot go uphill because of heart pain. Full, tense pulse. Venous pulse. Pulse rapid when walking. Pulse rapid during headache. Pulse rises and falls alternately. Pulse low and feeble in sunstroke.

Kidneys - Acute and chronic interstitial **nephritis with high bloodpressure.** Tubal nephritis with headache, brought on by walking in sun, numbness in arms and hands alternating with intense tingling. Profuse pale, albuminous urine, more frequent at night. Increased secretion of pale urine, has to rise frequently during the night. Urine high-colored, burning while passing. Red sediment and muddy, reddish-yellow slime.

Limbs - Itching all over, worse limbs. Drawing pain in all limbs. Limbs feel bloated. Weak and tremulous feeling in limbs. Numbness in left limbs. Sciatica better flexing legs on abdomen. Unsteady gait. Knees give way. Thighs and knees weak and knock together during headache. Pain in left biceps. Trembling hands. Fingers and toes spread apart during convulsions.

Lungs - Heavy, labored breathing. Desire to take a long, deep inspiration. Sighing. Numbness moves upwards in chest and down left arm. Oppression of chest alternating with headache. As if a load on chest. Frequent, expectoration of thick mucus.

Modalities - Better from open air. Better cold things, cold application. Better elevating head. Better lying still (opposite Bell.). Worse bending head backward. Worse stooping. Worse left side. **Worse motion, shakingjarring.** Worse stimulants, wine. Worse fruits, peaches. Worse gaslight. Worse cutting hair. Worse weight of hat. Worse suppressed menses. Worse lying down. Worse from 6 a.m. to noon. **Worse in sun.** Worse open fire. **Worse heat on head.** Worse becoming overheated. **Worse hot weather.** Worse from injury.

Mouth - Saliva increased, thick in a.m. Froth at mouth. Bitter taste with nausea. Aromatic, sweet, warm things, leave a fatty taste. Lower lip feels swollen. Throbbing pain in teeth, teeth feel elongated. Pulsating toothache. Itching of soft palate and throat. Hard palate sensitive as if swollen.

Nose - Nosebleeds on going out into the heat of the sun, face flushed, hot, red. Pain at root of nose. The headache extends into the nose. Sudden sneezing, fluent coryza.

Pains - Bursting, throbbing, pulsative, tearing, piercing, stabbing, gnawing. Sensation of fullness.

Perspiration - Perspiration, principally in the face, after sleeping. Perspiration on forehead. Profuse sweat, mostly on face and chest. Sweats principally on face, after sleeping. Sweats on hands. Perspiration relieves

the nausea. Sweats alternates with chilliness. Feeling as if sweat would break out all over. Cold sweat on face, during congestion to head.

Rectum - Constipation with itching, painful hemorrhoids, with pinching in abdomen before and after stool. Diarrhea, copious black, lumpy stools. Diarrhea with sudden stoppage of menses. Morning diarrhea with sharp burning with rumbling. Diarrhea evening and night after eating peaches. Stools, loose, scanty, with much rumbling. Diarrhoeic stools with rumbling and discharge of flatus. Frequent passage of flatus during stools, with a loud, sharp noise.

Sensations - Brain as if expanding, as if moving in waves, as if hanging with head downwards, as if something were pumped into vertex, as if everything were crowded out at forehead. Sensation as if warm water were running upwards from nape of neck. As if the neck were held by a hand. Sensation as if some one were pulling eyes from within outward. Noise in left ear as if it came from heart. As if heart would rise to throat. Sensation as if chin feels too long.

Skin - Itching all over, the limbs. Old scars break out again.

Sleep - Weakness as from loss of sleep. Yawning with the headache, congestion of blood to the head. Sleepiness early in the evening. Difficult to waken. Awakes with fear of having a stroke. Confused dreams. Dreams of homesickness. Dreams with tears.

Stomach - Gastralgia in anemic patients with feeble circulation. Faint, gnawing and empty feeling at pit of stomach. Stomach pain in anemic patients with feeble circulation. Horrible faint feeling at the pit of stomach with throbbing. Rumbling in hypogastrium, worse lying on left side. Nausea with faint feeling. Nausea and vomiting in brain congestions or during sunstroke. Spasmodic vomiting in hydrocephalus. Seasickness.

Teeth - Gums swollen and sensitive to touch. Teeth feel elongated. Throbbing pain in the teeth. Pulsating toothache with headache. Toothache from taking cold, after having been overheated. Stabbing pains in gums right side passing to left, worse from hot, better from cold applications. Toothache after hitting, in chewing a hard substance, a bad tooth. Teeth decay after mercury.

Temperature - Chill after getting heated, alternates with sweat, vomiting. Intermittent fever. Fever with hot sweat. Heat in face, ascending from pit of stomach to head. **Heat flushes.** General warmth, flushes of heat, waves of heat upward.

Throat - Throat feels full. Sensation as if the throat were swelling. As if string were tied around neck, which prevented blood from returning to head. Collar must be opened. Chokes and swells up under ear. The soft palate feels contracted and dry. Itching of the soft palate and throat. In the throat tickling, heat, soreness.

Tongue - Tongue is milk-white without coating. Tongue coated heavily at back. Tongue, heavy, cannot protrude straight. Tongue numb. Tongue as if burnt. Tongue prickling, smarting, and stinging. Tongue feels swollen and raw with spasmodic twitchings.

Vertigo - Vertigo on assuming upright position. **Vertigo with confusion.** Vertigo, worse from stooping or moving head.

Vertigo in open air. Vertigo with nausea. Vertigo with dim vision. Vertigo with black spots before eyes. Vertigo with headache. Vertigo with nausea. Vertigo in sunstroke. Vertigo after a head injury.

Vision - Dim vision during vertigo. Impaired vision during raging headache. Letters appear smaller. Sparks before eyes. Spells of blindness. Black spots, during headache, when turning quickly. Black specks, sparks, flashes, before eyes. Objects dance with every pulsation. Black floating spots on attempting to stoop.

COMMENTS - Guernsey recorded that Glon. is suited to troubles of the head in type-setters and in men who work under a gaslight steadily, so that the heat falls on the head.

Severe, painful palpitations and sudden rushes of blood to the head with a threatened stroke. Palpitations with trembling limbs. Heart attack (Aeon.). High blood pressure. Panic attacks when the blood rushes to the head, can get painful palpitations and a fear of having a heart attack. Cardiac neuralgia (angina pectoris) with radiating pains.

Vascular headache, with pounding, throbbing and a red face. Violent action of the heart, rush of blood to the head. Vascular headaches due to high blood pressure with flushed face, dilated pupils, palpitated heart. Bursting and throbbing headaches. Worse light touch to the head.

Sensation of waves in the blood with headache. Headaches ever since heat stroke or from exposure to the sun. Sense of constriction in the throat with headache, throbbing carotid arteries. Headaches after having hair cut (Bell.). Meningitis. Nausea and vomiting of cerebral origin.

Great sensitivity to the least motion. Will carry his head very carefully in order to avoid any motion (Bry.). The headache is in the whole head, worse with exposure to the sun, better with pressure.

Pains appear in occiput and at the base of the brain. Gnawing in occiput, sore pain, pressure, severe pain extending to the eyes and temples. Pains move from within outward, from front to back. Sensation of expanding in head and body.

Sensation as if something were moving in the nerves from the back of the neck upward to the head. The eyes may be fixed or protrude. Aversion to bright light, black spots before sight. Both hands and feet are cold. Flushes of heat rising from the chest to the head, then throbbing pain in head (Bell.). Heat stroke. For ailments from working under strong lights or the sun. Faint from hot place.

Neuralgias are accompanied with throbbing, often worse at night, preventing sleep. Supra-orbital neuralgia, pulsating, retinal congestion from exposure to strong light. Facial neuralgia, extending through head. Violent, stabbing, neuralgic pains, so violent as to make patient frantic, he wants to escape to jump out of window.

Menopausal disturbances. Hot flashes with pulsation, heat, severe palpitation with wave sensation resulting in headaches. Face is flushed or pale. Fainting, sudden unconsciousness, convulsions, especially during labor. Horrible apprehension, fear of being poisoned. Ailments from fear. Loss of a sense of location. Bad effects of having hair cut, of exposure to heat from the sun or fire. Ailments from too much riding or driving, seasickness. Sensitive to alcohol (Zinc). Cannot bear weight of hair, clothing seems too tight.

RELATIONS - Antidoted by: Aeon. Camph., Coff., Nux-v. **Compare:** (1) Op., Stram., Verat- v. (2) Amyl-n. (3) Cimic. - waving in brain. (4) Petr, and Crot-h. - loss of location. (5) Bell. - cephalic cry but not as marked in Bell., also Bell, has better bending head back and better covering head. (6) Glon. - better uncovered, Apis. (7) Hyos. - fears being poisoned. (8) Gels. - inclination to jump out of window. (9) Stram., Sang. - headache with the sun, ear sensitive to jar. (10) Nit-ac. and Bell. - sensitiveness to jar. (11) Meli. - headache with crimson face. (12) Lyc. and Phos. - burning between shoulders. (13) Dig. and Dios. - headache extending into nose. (14) Sec. - fingers spread apart.

***GLYCERINUM

(Glycerine)

PHARMACY - glyc. Glycerinum. Glycerine. **Historical dose:** Tincture and all potencies. Pure glycerine in teaspoonful doses, 3 times a day with lemon juice for pernicious anemia.

CLINICAL - Carbuncle. Diabetes. Influenza. Pneumonia. Pernicious anemia. Rheumatic pains. Weakness.

HOMEOPATHIC - Glycerine is a liquid obtained by the decomposition of vegetable or animal fats or fixed oils, containing not less than 95 percent of absolute glycerol, a triatomic alcohol existing in fats and fixed oils in combination with the fatty acids.

Dr. Wm. B. Griggs noted that potentized glycerine seems to act deeply and long, building up tissue, hence of great use in marasmus, mental and physical debility, diabetes, etc. It disturbs nutrition in its primary action and, secondarily, seems to improve the general state of nutrition. Builds tissue. Seems to affect most of the organs and tissues of the body.

General sense of exhaustion. Neurasthenia. Headache with a sense of fullness in the head and throbbing, aggravated by motion. Dullness of the mind, a sense of mental and physical weakness, restless sleep and dreaming, much physical languor, almost to a state of utter prostration.

Balances the general metabolism. Loss of appetite, constipation, profuse urination with traces of sugar. Gastro-intestinal disease. Senile debility. Acute catarrhal conditions of the mucus membrane of the naso-pharynx and nephritis in the aged. Influenza, pneumonia.

Chest - Chest seems full.

Female - Profuse, long-lasting flow, with bearing down heaviness in uterus.

Head - Feels full, throbs, especially occiput. Mentally confused. Severe headache two days before menstruation.

Kidneys - Profuse and frequent urination. Increased specific gravity and sugar. Diabetes.

Limbs - Rheumatic pains of remittent type. Feet painful and hot, feel enlarged.

Lungs - Hacking cough with sense of weakness. **Influenza pneumonia.**

Nose - Stopped up, sneezing, irritating coryza. Sensation of crawling on mucus membrane. Post-nasal dripping.

Stomach - Fermentation, burning in stomach and esophagus.

COMMENTS - Anshutz reported three cases. The first concerned a homeopathic physician in Philadelphia, aged 61 years. He was refused insurance on account of albumen casts and sugar in urine, and had been under his own care for months.

He developed a severe infection on his neck, six inches in diameter, a carbuncle was operated on by Dr. Herbert S. Leopold very successfully. He had extreme nervousness, profuse urination with a specific gravity of 1.030. Sugar, etc. in urine examined by a Philadelphia chemist, extreme debility, prostration, etc. Glyc. in 30c and 200c eliminated sugar and albumin in three months and the patient gained fifteen pounds.

The second case concerned Mr. S., baker, age 66 years. Diabetes for years, weakness, dyspnea, headache,

urine with sugar, acetone, great debility. No albumin or casts. He was placed on strict diet and given Sulph., Ph-ac., Uran-n., Ars., Syzyg. and potentized blood. Glyc. was then given with the result that the urine cleared up, a good appetite developed and after a period of two years sexual vigor returned.

Finally, the third case was C. H., a baby two years old. Drs. Yeager and Macfarlan assisted in the case. Influenza pneumonia. Profuse coryza and dyspnea. Consolidation in both lungs, weakness and debility after twelve days. Glyc. 200c was given and a complete recovery ensued with improvement at once.

RELATIONS - Compare: (1) Lac-ac., Lee. Gels., Calc.

***GLYCYRRHIZA GLABRA

(Licorice Root)

PHARMACY - glyc-g. Glycyrrhiza glabra. Licorice root. Liquiritia officinalis. Sweetwort. Europe and Asia. N. O. Leguminosae. Papilionoideae. **Historical dose:** Tincture and all potencies.

CLINICAL - Addison's disease. Allergies. Athlete's foot. Arthritis. Asthma. Baldness. Bronchitis. Bursitis. **Canker sores.** Catarrh. Chronic fatigue. **Colds. Coughs.** Dandruff. Dyspepsia. Eczema. Emphysema. Gastritis. Gingivitis. Gout. Fungal, infections. **Heartburn.** Herpes. Hoarseness. Indigestion. Influenza. Liver problems. Lyme disease. Menopause. **Mouth, ulcers. Peptic ulcers.** Prostate, enlargement. **Psoriasis.** Shingles. Stomach, ulcers. **Sore throat.** Tendonitis. Tooth, decay. Tuberculosis. **Ulcers.** Viral, infections. Yeast, infections.

HERBAL - Liquorice is one of the most commonly used herbs in herbal medicine and has a very long history of use, both as a medicine and also as a flavoring to disguise the unpleasant flavor of other medications.

Liquorice was known to the ancients as far back as the third century B. C. for its efficacy in the case of dry coughs. The Greeks, recommended it for the treatment of gastric and peptic ulcers. Later, Arab physicians used Licorice to relieve coughs and side effects associated with laxatives.

It is a very sweet, moist, soothing herb that detoxifies and protects the liver and is also powerfully anti-inflammatory, being used in conditions as varied as arthritis and mouth ulcers.

The root is alterative, antispasmodic, demulcent, diuretic, emollient, expectorant, laxative, moderately pectoral and tonic. The root has also been shown to have a hormonal effect similar to the ovarian hormones.

Liquorice root is much used in cough medicines and also in the treatment of catarrhal infections of the urinary tract. It is taken internally in the treatment of Addison's disease, asthma, bronchitis, coughs, peptic ulcer, arthritis, allergic complaints. Externally, the root is used in the treatment of psoriasis, herpes, eczema and shingles.

Liquorice root has an impressive list of well documented uses and is probably one of the most over-looked of all herbal remedies.

It is used for many ailments including asthma, athlete's foot, baldness, body odor, bursitis, canker sores. Chronic fatigue, depression. **Colds, coughs and influenza.** Dandruff. Emphysema. Gingivitis and tooth decay. Gout. Heartburn. Viral infections. Fungal infections. Ulcers. Liver problems, Lyme disease. Menopause. Psoriasis. Shingles. **Sore throats.** Tendonitis. Tuberculosis. Yeast infections. Prostate enlargement. Arthritis.

Other uses of the plant include the treatment of hormone imbalances and menopausal symptoms in women.

RELATIONS - Compare: Ulmus fuva, Melaleuca alternifolia.

***GNAPHALIUM POLYCEPHALUM

(Cud-weed)

PHARMACY - gnaph. Gnaphalium polycephalum. Cud-weed. Old balsam. Gnaphalium dioica. Gnaphalium uliginosum. Sweet-scented everlasting flower. N. O. Composite. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anterior crural neuralgia. **Chills.** Cholera. Cholera, infantum. Colic. Diarrhea. **Dysmenorrhea.** Gout. Lumbago. Neuralgia. Night-sweats. **Numbness.** Polyuria. Prostate gland. Rheumatism. **Sciatica.**

HOMEOPATHIC - Gnaph. has been used mainly in disorders of the **sciatic nerve**, but it also has an action on the abdominal organs, causing vomiting, colic and diarrhea, thus comparing with Coloc. in both spheres. Sciatica and lumbago with numbness alternating with the pain. **Intense sciatic pain** (Mag-p., Rhus-t., Coloc., Hyper.), alternating with or followed by numbness. Lumbago with numbness of part. Rheumatism. Anterior crural neuralgia.

Pain in joints as if they lacked oil. Pain worse lying down, motion, stepping, by sitting in a chair, better by flexing the limbs on abdomen (Colo.). Sticking pain and numbness. Sharp, shooting pains, or electric-like sensation down the backs of the legs.

Offensive diarrhea with colic, worse in the morning. Polyuria. Weight and heaviness in the pelvis.

Dysmenorrhea with scanty menses, very painful during the first day.

MIND - Very irritable for two or three days after the diarrhea.

Abdomen - Colic, pain in various parts of the abdomen. Cecum is sensitive. Borborygmi with emission of much flatus.

Back - Chronic backache in lumbar region, better resting on back. Lumbago with numbness in lower part of back and weight in pelvis.

Face - Intermittent pains of superior maxillary of both sides. Dull, heavy, bloated appearance. Neuralgic pain of an intermittent form in both upper maxillary bones.

Female - Dysmenorrhea with scanty and painful menses. Sensation of weight in pelvis. Sensation of fullness in pelvis.

Kidneys - Pains in kidneys with frequent slight pain in prostate gland. Sensation of pain and fullness in bladder, even when just emptied.

Limbs - Rheumatic pain in ankle joints and legs. **Intense pain along the sciatic nerve, numbness alternates with pain.** Feeling of weakness, as if incapable of raising the slightest weight. Rheumatic pains in elbows and shoulders. Frequent pains in calves and feet. Cramps in calves of legs and feet when in bed. Gouty pains in big toes. Gouty concretions. Anterior crural neuralgia (Staph.). Chronic muscular rheumatism of back and neck. Pain in joints as if they lacked oil. Better drawing limbs up, flexing thigh on abdomen.

Male - Irritation of prostate gland. Increased sexual passion.

Modalities - Better from flexing limbs. Better sitting in a chair. Worse from walking. Worse lying. Worse cold damp.

Mouth - Mouth feels parched and tastes badly. Flat, sweetish, sickening taste. Tongue covered with long white fur, better

by thorough washing with cold water.

Rectum - First stage of cholera infantum, vomiting and purging. Rumbling in bowels with stool before breakfast. Looseness of bowels with passage of pale-colored feces. Diarrhea discharge in morning and during day with irritable temper. Dark-colored, liquid offensive stool in morning afterwards pain in bowels all day, in children.

Stomach - Vomiting and purging like cholera morbus in the night and all next day. Flatus, windy belchings, nausea and hiccough.

Vertigo - Giddy, especially after rising from recumbent position.

COMMENTS - Cramps in calves and back of thighs, hamstrings. Sciatic pain in worse on lying down, by motion, by stepping, better when sitting in a chair, better drawing up the limb.

Diarrhea is watery and offensive, occurs in the morning and is repeated during the day. Rumbling in the bowels, colicky pains and the patient is cross and irritable. Urine is scanty. Appetite and taste are lost.

Dr. W. McGeorge recorded that Gnaph. has a reputation for colds, fevers and night-sweats. The last was caused in one of the provers. It cured one case of chills. The periodicity appears in the intermittent neuralgia of the upper jaws.

McGeorge noted a sense of "weight and fullness in the pelvis" for dysmenorrhea. Dysmenorrhea when the menses are scanty and very painful during the first day.

Sexual excitement in male provers, pain and irritation in the prostate gland. Headache better by washing in cold water. Fur on tongue removed by thorough washing with cold water.

McGeorge cured a very aggravated case of sciatica in a man, resulting from a strain. The left leg was cramped and drawn up, worse in cold and damp weather.

Dr. George Shelton recorded two cases. The first, a clergyman, 27, had sharp cutting pains, starting from inner side right thigh, just below Poupert's ligament, extending down course of anterior crural nerve to a

Gnaphakum polycephalum point about its lower third.

The pains were paroxysmal, came on when walking, occasionally when lying down. He had one or two attacks in the pulpit. In several instances the pain had extended down the right cord into the testicle and caused him to draw up the leg, flexing the thigh on the abdomen. This condition was also present in Dr. McGeorge's case. A few doses of Gnaph. 1c cured him completely.

The second case occurred in a widow, 68, who had severe pains in the outer side of her right thigh for six years, part of which she had been confined to bed. The pains were paroxysmal, cutting, tearing, extending down the course of the sciatic nerve.

Attacks were worse at night and more frequent, causing her to roll about the bed and cry out with the pain. All the resources of allopathy had been in vain. Rhus-t., Coloc., Sulph., gave no help. Bell, relieved slightly. Gnaph. 1c wrought gradual improvement, and in eight weeks the cure was complete.

Clarke had a case, cured with Gnaph. 30c., of a very gouty man, with the alternation of numbness with pain.

RELATIONS - Compare: (1) Xanth., Cham., Coloc., Ip., Merc., Puls., Lyc., Caul.

***GORSE

(Bach Flower Essence)

PHARMACY - gors-b. Gorse. Ulex euro- paeus. Flowers from the bush are placed in a bowl of water and allowed to stand in the sun for several hours. The strained water is used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - This remedy belongs to Bach's group **For Those who Suffer Uncertainty**, along with Cer-b., Scler-b., Gent-b., Hom-b. and Wld-o-b. For those suffering from doubt, hopelessness, uncertainty and lack of clarity of purpose in daily affairs.

Gorse

Will raise spirits in cases of true hopelessness, such as terminal illness. Lowered vitality and sinking of strength. Sense of resignation to a hopeless situation.

MIND - Deep-hopelessness (Aur.). Calm, with underlying sadness and a sense of misfortune and suffering. Denial and recurring disappointment. Negativity. Uncertainty about the future.

REFERENCES - Bach.

***GOSSYPIUM HERBACEUM

(Cotton Plant)

PHARMACY - goss. Gossypium herbaceum. Cotton plant. N. O. Malvaceae. Tincture of fresh inner root bark, chopped and pounded to a pulp. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Chills. Dysmenorrhea. Fibroids. Infertility. Labia, abscess. Miscarriage. Morning sickness. Nausea. Ovaries, pains. Pregnancy, vomiting. Retained, placenta. Tumor. Uterus, bearing down.

HERBAL - In herbal practice, Gossypium was used as a powerful emmenagogue.

HOMEOPATHIC - Goss, has been mainly used in affection of the female generative organs. It has been taken in the form of the extract stimulate the uterus and ovaries.

Nausea with flow of saliva and inclination to vomit in the morning, before breakfast with sensitive uterine region. Sensitive stomach with much gas. Vomits on motion or raising up. Morning sickness of pregnancy. Hyperemesis.

Menses, late, scanty, watery. Tardy menses, with sensation that the flow is about to start and yet does not. Bearing down pains in the uterus. 'Intermittent pains in the ovaries,' extending towards uterus. Sterility from uterine torpor. Sensitive womb. Subinvolution. Fibroids. Tumors in breast with swelling of axillary glands.

Pain in neck. Sympathetic symptoms of stomach, heart, bowels and nervous system arising from disturbance of uterine functions. Stinging, drawing, tearing and sometimes burning pains.

Pains extend from one place to another, jumping from one place to another. Move from above downward.

Abdomen - Sharp pain in right hypochondrium, lasting for a few minutes. Drawing pain from both hypochondriac regions extending to stomach.

Back - Pain in back. Pain in cervical region with tendency for head to draw backward, with nervousness. Backache, weight and dragging pain in pelvis.

Breasts - Tumor of the breast with swelling of axillary glands.

Constitution - Tall, anemic patients with nervous chills.

Eyes - Drawing pain over eyes with stinging pain in pupils.

Female - Labia swollen and itching. Suppressed menstruation. Menses too watery. Backache, weight and dragging in pelvis. **Intermittent pain in ovaries.** Uterine subinvolution and fibroids with gastric pain and debility. Retained placenta. Morning sickness with sensitive uterine region.

Food - Anorexia with uneasy, depressed feeling at scrobiculum cordis at time of menses.

Head - Pain in cervical region with tendency for head to draw backward with nervousness. Pain, first burning, then stinging, extending from both temporal bones to middle of frontal bone.

Kidneys - Frequent desire to urinate with burning pains.

Limbs - Heavy feeling in both hands, better hanging them down, worse in warmth of bed.

Modalities - Pains are generally worse by motion, better by rest.

Nose - Nostrils swollen and inflamed.

Sleep - Caused her to sleep a great part of the time.

Stomach - Nausea with accumulation of saliva in mouth inclination to vomit before breakfast. Rotating pain in

pit of stomach.

Temperature - General external chilliness, with internal heat.

Throat - Tonsils swollen, worse right side.

RELATIONS - Compare: (1) Action similar to Ergot when made from fresh green root. (2) Lil-t., Sabin., Cimic., Apis. Asar., Bell., Bry., Puls., Sec., Sep., Ust.

REFERENCES - Boericke. Clarke.

***GRANATUM POMEGRANATE

(Pomegranate)

PHARMACY - gran. Granatum pomegranate. Pomegranate. Púnica granatum. N. O. Grana- tee. Lythraceae. Homeopathic provings were made with a tincture or trituration of bark of root. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Ascarides. Emaciation. Gastralgia. Heart, weakness. Hernia. Jaw, cracking. Nausea. Tapeworm. Toothache. **Salivation. Vertigo. Worms.**

HERBAL - Pomegranate is a well-known vermifuge, especially used for the expulsion of tinea. For this a decoction of the rind of the fruit is used in the following manner: An alkaloid, Pelletierine, discovered by Bertrand Pelletier, is obtained from the rind of the fruit.

After a mild purge the previous night in the morning, 30 grams of Sulphate of Pelletierine is administered in a solution containing 50 grams of tannic acid. This is followed by a glass of water in ten minutes and a brisk purge in half an hour.

Granatum is used as a vermifuge for the expulsion of tapeworm. **Salivation** with nausea and vertigo. Spasm of the glottis.

HOMEOPATHIC - The provings bring out many symptoms of helminthiasis, including pale blue rings around eyes, and itching, crawling and tickling of the nose. Ravenous hunger, craving for sour or juicy things, fruit, coffee. Loss of appetite. Emaciation.

Swelling of navel. Nausea, fermenting in abdomen, griping, dragging in inguinal region as if hernia would protrude. Itching and tickling in anus frequently during the day. Discomfort. Great weariness and exhaustion, scarcely able to keep upright.

Trembling. Convulsive movements. Itching of the skin of various places, face and body, as if pimples would break out.

Biting and itching in palms of hands. Yawning. Great sensitiveness.

MIND - Great sensitiveness and impressibility. Fear, dread of work during headache. Confusion of mind after a carousal. Stupefaction and intellectual embarrassment. Hypochondriacal.

Dejection and discouragement. Quarrelsome humor. Melancholy, gloomy temper. Irritability and arrogance. Censorious. Reproaches others.

Abdomen - Pain in stomach and abdomen, **worse about umbilicus** (Cocc., Nux-m., Plum.). Ineffectual urging. Dragging in vaginal region, as if hernia would protrude. Swelling resembling umbilical hernia.

Back - Pain between shoulders, even clothing is oppressive. Pain around shoulders, as if heavy load had been carried.

Chest - Oppressed with sighing. Pain between shoulders, even clothing is oppressive.

Eyes - Sunken eyes, pupils dilated, weak sight.

Food - Ravenous hunger, craving for sour or juicy things, fruit, coffee. Loss of appetite. Great thirst for water.

Head - Feels empty. Stupefying pain and painful heaviness in the head, forehead. Pressure on the forehead and the occiput. Acute drawing pains chiefly on right side of head shooting in forehead.

Limbs - Pain around shoulders, as if heavy load had been carried. Pain in all finger joints. Tearing pain in knee joint. Convulsive movements.

Modalities - Better after dinner. Pain in abdomen is better after drinking cold water.

Rectum - Burning, itching in the anus, on the buttocks and perineum, scrotum and thighs. Diarrhea with frequent stools. Evacuation of fecal matter and mucus. Pressure in rectum afterwards. Burning heat in rectum. Prolapsed rectum during the stool. Shooting pains in anus and rectum.

Skin - Itching in the palms. Sensation as if pimples would break out. Jaundiced complexion.

Stomach - Constant hunger. Poor digestion. Loses flesh. Vomiting at night.

Vertigo - Vertigo very persistent. Vertigo during intellectual labor or in the morning on rising. Vertigo with obscuration of the eyes. Vertigo with nausea and aching in the stomach.

RELATIONS - Compare: (1) Pelletierine - one of its constituents - an anthelmintic, especially for tapeworm. (2) Cina, Kou. Ars., Iod., Teucr., Cue.

REFERENCES - Boericke. Clarke.

***GRAPHITES NATURALIS

(Black Lead)

PHARMACY - graph. Graphites naturalis. Black lead. Plumbago. Trituration of prepared from finest English drawing-pencils. A modification of carbon. **Historical dose:** Trituration and all potencies. Locally as a cerate in sore nipples.

CLINICAL - Acne. Amenorrhea. Anus, disorders. Blepharitis. Breasts, cancer. Breasts, indurated. Cancer. Catarrh. Chaps. Chlorosis. Colic. Constipation. Deafness. Dropsy. Dysmenorrhea. Ears, disorders. **Eczema. Erysipelas.** Eye, disorders. Face. Erythema. Feet, disorders. **Fissures. Gastro-intestinal disorders.** Glandular, swellings. Gleet. Gravel. Headaches. Hemorrhoid. Herpes. Hydrocele. **Indurations.** Influenza. Irritation. Lachrymal duct, inflamed. Leucorrhea. Lips, cracked. Liver, indurated. Menstruation, disorders. **Leucorrhea. Nails, disorders.** Noises, head. Nose, disorders. Nosebleeds. **Obesity.** Ovarian, tumors. **Palpitations.** Paralysis. Parotiditis. Pityriasis. Priapism. Pruritus, vagina. **Psoriasis.** Ptosis. Rectum, disorders. Rhus, poisoning. **Scars.** Scrofula. Seminal, emission. **Skin, disorders.** Smell, disorders. Stomach, cramps. Stomach, pain. Sycotic, diathesis. Syphilis. Trichinosis. Tumors. Ulcers. Urine, disordered. Uterus, cancer. Vaccination, effects. Wens. Whooping, cough. Worms.

HOMEOPATHIC - Graphites is a mineral carbon, related to Carb-an. and Carb-v. It contains a small percentage of iron, and so is also related to Ferr. Weinhold first thought of using this substance as a drug. He was led to it by seeing workmen in a mirror-factory use it as a local application for tetters. Ruggeri followed him, using it both internally and locally.

Tendency to produce **excoriations, cracks or fissures**, at muco-cutaneous junction of eyes, nostrils, mouth, anus, nipples, fingertips, folds of skin. Mucus membranes are cracked and fissured and have scanty secretions. Excoriations between toes.

Thickening and induration of skin, glands, tarsi, nail, scars. Thick crusts on the skin. Tendency to callosities. Aids the **absorption of scar tissue** (Thiosin.). **Cancerous diathesis in old scars.** Recrudescence of scars. Syphilitic and **constitutional** ulcers. Tendency to grow cystic tumors, wens. **Eradicates tendency to erysipelas.**

Watery hemorrhages. Dropsy. Edema. Paralysis or sensation of paralysis. Contractions of muscles. Cramps and burning in different places. Offensive discharges and secretions. Discharges are, thin, foul, scanty and acrid. Sweat stains are yellow, sour, offensive. Gushing leucorrhea. Swollen genitals.

Alternating digestive and skin symptoms. Gastro-intestinal disorders alternating with acne and erythema of face, herpetic lesions or scrofulous hypochondriasis. Sourness of taste, belchings, stools, urine, blood about teeth etc.

Frequently feels faint with partial loss of senses. **Sensitive to cold.** Cold aggravates bone pains, coryza and stomach. Emanation of suffering parts. Sensation of burning, numbness and deadness. Pains go to parts not lain on. General sense of uneasiness, tremulousness, which elicits groans. Sudden sinking of strength. Cancer of pylorus. Duodenal ulcer. Infiltrations. Weakness, then a relaxed condition, anemia, and chlorosis. Lymphatic glands are swollen. Take colds easily. Anemia with redness of face. Tendency to obesity.

MIND - Mentally sluggish, poor memory. Forgetful, makes mistakes in speaking and writing. Remembers all the events of youth, recent events are forgotten. Fatigue from scientific labor. Dread of work.

Fidgety while sitting at work. Energized from work, followed by apathy, anxiety. Very irritable and fretful.

Obstinate and moody. Miserable and unhappy. Impulse to groan. Insolent. Offended easily. **Periodic depressions.** Anxiety about spiritual welfare. Full of fear in morning.

Ailments from grief or fright. Sad, fearsome, irresolute, hesitates at trifles. Grief about slightest occurrences. Internal grief and despair. Despair over trifles. Thinks of nothing but death.

Weepingameliorates symptoms. Weeping alternating with irritability and laughter at trifles. Weeps without cause. **Weepingfrom music.** Weeping during menses.

Apprehensive, despondent. Fearofinsanity. **Fears are better after weeping.** Great tendency to start. **Anxiety in morning on waking.** Excitement at night. Intense restlessness, which drives him out of bed at night.

Anxiety better warmth. Restlessness better walking in open air.

Persistent thoughts, haunted by unpleasant subjects, better walking in open air. **Restlessness while working.** Dwells upon past disagreeable occurrences at night.

Slowness of purpose. Dullness in morning. Dullness after a siesta. **Inability to think from weakness in brain. Indolence,** better open air. Feels indifferent to everybody and everything, from exhaustion.

Absent-minded. Unable to decide. Timid. Child impudent, teasing, laughing at reprimands. **Anguish before menses.** Cataleptic conditions, consciousness but without the power to move or speak.

Abdomen - Abdomen distended, as from incarcerated flatus. **Cannot bear tight clothes around the waist.**

Flatulence. Very fetid gas preceded by colic. Pain of gas opposite the side on which he lies. Intestinal torpor. Pain as if intestines were torn. Nauseous feeling in abdomen. Cramp like pain in abdomen with deficient secretion of urine, at night. Inguinal region sensitive, swollen.

Back - Spinal pains. Pain in small of back with great weakness. Pain in the nape of neck and shoulders, worse looking up and stooping the head. Sacral pains with crawling. **Painless swollen glands on side of neck.** Numbness of sacrum, down the legs. Pain in the lumbar region as if vertebrae were broken.

Breasts - Induration of breasts and ovaries. Breasts swollen and hard. **Cracks in nipples.** Breast cancer from old scars, remaining after mammary abscess. Nipples, sore, cracked and blistered.

Causations - Ill effects of grief, fear, over lifting, surgery.

Chest - Constriction of chest, as if too narrow. Feels as if about to suffocate when falling asleep, jumps out of bed, takes hold of something and must eat something, worse after midnight. Cramps in the chest. Pain in middle of chest with cough, scraping and soreness.

Constitutions - Suited to persons who have a tendency to put on unhealthy fat. Fat, relaxed, chilly and costive. Defective animal heat from defective oxygenation, always cold indoors or out. Chlorotics. Affections of glands, skin and mucus membranes, especially at orifices. Syphilitic and "constitutional" ulcers.

Coughs - Dry cough, troublesome with sweat on face. Cough at night, caused by deep inspiration. Loose cough from tickling deep in chest. Cough with strangling, red face, watery eyes, straining all over. Fatiguing cough, before and during menses.

Ears - **Moisture and eruptions, fissures in and behind the ear.** Thin, white scaly membrane covering the eardrum. **Eczema behind the ears.** Briny otorrhea. As if hard body behind ear. **Cracks and fissures behind the ears.** Feel stuffed at full moon. As if air inside, as if filled with water. **Dryness of inner ear.** Snapping after every eructation. Hardness of hearing. **Hears better in noise.** Tinnitus. Hissing in the ears. Detonation in ear like report of gun. Cracking in ears when eating.

Eyes - Recurrent keratitis. Blepharitis. Ophthalmia with intolerance of artificial light. Hot tears. **Eyelids, red and swollen.** Dryness of the lids. **Eczema of lids, fissured.** Eyelids, heavy and falling. Cystic tumors on eyelids. Sore or cracked outer canthi. Ingrown lashes. Phlyctenae. Sight vanishes during menses. **Shuns daylight.** Photophobia. Letters appear double, when writing, seem together when reading.

Face-Flushes of heat in face. Pale, bloated, haggard, flushed. Feels as if cobwebs were on it. Acne before the menses. **Itching pimples, moist after scratching.** Moist eczema around the mouth, chin and nose. Erysipelas, burning and stinging. Lips cracked and sore. Formication on lips during menses. Painful nodules on the lower jaw. Barber's itch. Facial paralysis with distortion of muscles and difficult speech. Falling of hair from chin.

Female - Menses, too late. Menses scanty, pale, irregular, painful. **Sighing during menses.** Hoarseness, coryza, cough, morning sickness, sweats, swelling of feet or headache during menses. **Leucorrhea, pale, thin, profuse, white, excoriating in gushes** with weakness in back. Leucorrhea worse before and after menses. Leucorrhea in place of menses. **Acrid, excoriating leucorrhea in gushes day or night, before and after menses.** Swelling and hardness of ovary (left) worse after menses. Induration of ovaries, uterus and breasts. Pain in the uterus when reaching high with arms. Retro-version of uterus, heaviness in hypogastrium with cutting pain down thighs. Uterus feels as if coming out through vagina. Vagina, dry, hot or cold. Eczematous eruptions around the vulva. Great aversion to sex.

Food - Excessive hunger or no appetite, worse when hungry. Aversion to meat, fish. Aversion to cooked food, salt. Aversion to soup. Sweets nauseate. Better warm milk, worse cold drinks. Desires chicken, beer, sweets.

Worse sweets. Worse boiled meat. **Hot drinks disagree.**

Head - Rush of blood to head, with flushed face, nosebleed or distention and flatulence. **Burning on vertex, in a small spot.** Headache in morning on waking, mostly on one side with inclination to vomit. Headache with nausea during menses. Heavy weight or dull pressure at the occiput, as if head is drawn back. **Pain as if constricted in occiput,** which pains as if broken on looking up. Desolate, empty feeling in head. Rheumatic pains on one side of head, extending to teeth and neck. **Pressive pain or burning spot on vertex.** Sensation of cobweb on forehead. Skin of forehead as if drawn into folds. Brain feels numb. Humid, itching eruption on hairy scalp, emitting a fetid odor. **Much scaliness on head, causing distressing itching, becomes scurf,** which disappears on washing, and is then humid. Hair, matted, brittle or falling out of hair, worse vertex and sides. Milk crusts. Eczema capitis, scabs sore to touch. Bald spots. Herpes. Hair falls out, even on sides of head.

Heart - As if an electric shock from heart to neck. Strong pulsations in the whole body. Palpitations of heart with anxiety with nosebleeds. **Palpitations from least exertion.** Cold feeling in precordium. Pulse slows during day, fast in the morning

Kidneys - Burning between acts of urinating. Biting pain in urethra after urination. Stricture of urethra. Pain in sacrum or coccyx while urinating. Nocturnal bedwetting. Frequent urination at night. Dark brown urine. Urine, sour smelling, turbid, stream slender. Urine turbid, with white sediment. Sour smelling urine.

Limbs - Edema of legs. Paralyzed feeling in the limbs. Cannot stretch enough. Burnings, cramps, jerking. Arms and legs go to sleep. **Excoriation of thighs while walking.** Bunions worse fire heat, better pressure. Burning in soles and heels. Feet cold, wet. Acrid, foot sweat, chafes the toes. Stiffness and contraction of toes. Foul excoriating sweat, worse evening. Burning pressure beneath the armpit. Hands or feet either hot or cold. Pain in thumb joint as if sprained. **Nails, brittle and crumbling.** Nails deformed,

Graphites naturalis painful, sore, thick and crippled. **Nails, thick, rough ingrown.** Horny callosities on hands with cracks. Cracks and fissures in fingertips. Swelling of feet.

Lungs - Spasmodic asthma, suffocative attacks wake from sleep, must eat something. Dry, troublesome cough with sweat on face. Lachrymation, worse taking deep breath.

Male - Herpetic eruption on organs. Hydrocele. Sexual debility with increased desire. Priapism. Ejaculation too early or failing during sex. Cramps in calves during sex. Averse to sex, lack of sexual enjoyment. Impotence from excessive indulgence or masturbation.

Modalities - Better in the dark. Better from wrapping up. Better after walking. Better in open air. Better hot drinks, especially milk. Better eating. Better belchings. Better touch. Worse from cold. Worse drafts. Worse warmth of bed. Worse night. Worse wet feet. Worse light. Worse motion. Worse scratching. Worse suppression of eruptions or secretions. Worse during and after menses. Worse empty swallowing. Worse fats. Worse hot drinks.

Mouth - Angles of the mouth ulcerated. Taste, sour like rotten eggs. Rotten, sour, foul odor from mouth. Breath smells like urine. Salivation, at night. Dots of thick, white fur on tongue. Burning blisters on tongue. Teeth on edge. Blood from teeth, tastes sour. Easy bleeding and swelling of the gums.

Nose - Stuffed coryza. Coryza from cold. Colds at menses. Chronic catarrh. Sore on blowing it is painful internally. Discharge offensive especially during menses. Excoriated. **Scabs and fissures in the nostrils.** Painful internally. Eczema of nose. Sneezing on opening the eyes. Smell acute, cannot bear the smell of flowers. Dryness with loss of smell. Nosebleed with rush of blood to the head, worse before menses.

Perspiration - Profuse sweat at night. Profuse sweat during menses. Sweats often on front of body only. Offensive, sour sweat, stains yellow. Cold sweat. Entire inability to sweat. Sweats from slightest motion.

Rectum - Fissures of anus, cutting pain during stool, followed by constriction and aching for hours. Fissures bleed and ulcerate. Constipation, large, difficult, knotty stools united by mucus threads. Chronic diarrhea, brownish, liquid, undigested **offensive.** Stools, large, difficult, slimy coated or loose, brown, lenteric and very foul. Lump of stool, conjoined with threads of mucus, masses of mucus. Stools are slender, pasty. Diarrhea from slightest indiscretion in eating. Burning hemorrhoids, pain on sitting down or on taking a wide step. Anus and pudenda, smarting, itching, sore, on wiping anus, before menses. Prolapse of rectum. Varicose veins of the rectum. Tapeworms.

Sensations - As if skin of forehead was drawn into folds. As if a skin were before ear. As if a hard body as large as an egg were behind ear. As of a cobweb over the face. As of a lump in stomach with beating as of two hammers. As if intestines were torn, croaking as of a frog in abdomen. As if everything would be torn to pieces during menstruation.

Skin - Dry, rough skin, irritable. Skin breaks easily and exudes a gluey honey like moisture, worse in folds and slow to heal. **Unhealthy skin, every little injury suppurates.** Eruptions worse from heat. **Eczema.** Pimples and acne. Wandering or recurrent erysipelas. **Moist, crusty eruptions, oozing out a sticky exudation.** Phlegmonous erysipelas of face, burning and stinging pain. Rawness in bends of limbs, groins, neck, behind ears. Cracks in nipples, mouth, between toes, anus. **Old scars ulcerate.** Burning pain in old scars. Old scars with indurated base and margins with burning. **Wens.** Chronic poison oak. Psoriasis. Gouty nodosities. Swelling and induration of the glands. Ulcers discharging **a glutinous** fluid, thin and sticky.

Sleep - Excessively tired and sleepy. Sleepy during day. Sleeplessness until midnight. Constant talking during sleep. Nightly pains felt in sleep. Amazingly weary and sleepy. Does not feel fresh in the morning. Amorous dreams with emissions. Horrible

Graphites naturalis dreams. Dreams about fatal accidents.

Stomach - Gastralgia with burning pains radiating through abdomen. Sour or foul belchings. Frequent eructations, tasting of ingesta. Eructation of sour green water. Eructations while walking. Pressure in stomach.

Constrictive pain in stomach. Recurrent stomach pain with vomiting of food immediately after eating, stomach worse by cold. Burning in stomach, causing hunger, better from eating or hot drinks especially milk, lying down. Periodical gastralgia, with vomiting of food immediately after eating. Morning sickness during menses.

Nausea like faintness, prevents sleep. Nausea with spasm in throat. Nausea during headache. Nausea with sour vomiting. Vomiting of sour of food. Vomiting and purging and icy cold sweat with headache. Cancer of pylorus.

Temperature - Chill in the evening worse eating better open air and drinking water. Chill with coldness of whole body. Chill in morning in bed. Chill during menses. Wants covers in all stages of fever. Recurrent periodical fever. Fever with restlessness, unable to sleep, or remain in bed on account of it. Flushes of heat. Dry heat every evening and night. Burning heat in hands and soles and feet. Heat when riding in a carriage.

Throat - Chronic sore throat. Chronic hoarseness with skin disorders. Tonsils enlarged. Nodulated goiter.

Choking, on swallowing from goiter. As of a lump in throat worse empty swallowing, urging to swallow from constant spasms. As if food would not go down from spasms. Hoarseness as soon as he starts singing. Voice lacks control, better using it. Ulcerative pain in throat when swallowing.

Vertigo - Vertigo, worse looking upwards, reading or sewing. Vertigo with nausea and sour vomiting. Vertigo with hyperesthesia of eyes. Vertigo from overexertion of eyes. Vertigo from venous stagnation. Confusion and vertigo in morning on waking.

COMMENTS - Hahnemann was quick to perceive that Graph, was much more than a mere remedy for skin disorders, it proved to be a leading anti-psoric, similar to Sulph. Hahnemann's provings and observations defined its powers over skin disorders.

The skin of Graph, is rough, hard and dry. Eczematous and herpetic eruptions predominate. Poor healing of the skin, tendency to scarring, keloids. Impetigo, eczema. Psoriasis.

Cracks between fingers and toes (Petr.), behind the ears, in the bends of joints, folds of skin, around the lips and anus, and margin of the hair. Intertrigo, infection in the folds of the skin, can fester and form pus. Yellow, sticky, honey-like discharge underneath the scabs.

Pimples, acne. Wens. For the results of repelled eruptions of any kind. Fungal infections that deform the nails, tend to split. Brittle, crack and split down the middle. Pus and infection under the nails (Ant-c.).

The circulation is at first excited, then there is a loss of energy and consequent venous hyperemia. Irregularities in the distribution of the blood occur, leading to pallor of skin and mucus membranes.

Fainting readily occurs with great anxiety, motion is impaired and the tissues relaxed, but paralysis is not complete. Characteristic rush of blood to the head with a flushed face. Hemorrhages.

Strong affinity for the breasts. Cracked nipples (Petr., Sars.). Blocked milk ducts, abscess of the breast. For cancer, particularly of the breast, where the cancer occurs on the site of a scar, where the cancer regrows in the scar of a lumpectomy. Also if there is a history of cracked nipples and abscessed breasts.

Pain under left breast at menstrual period, often waking patient in the night. Scanty menses, with headache, skin-affection. Getting feet wet causes delayed menses. Hysterical melancholia with occipital headache. Profuse, gushing leucorrhea, excoriating.

Cracks along the labia. Moist itching excoriation around anus and fissures. Very low sex drive (Sep.). Uncontrollable sexual excitement with violent erections. Priapism. Impotence.

Clean tongue. Fishy taste in the morning, disappearing later in the day. Milk agrees, especially when hot. Roasted, but not boiled meat or potatoes. Diarrhea, thin offensive, partly digested stools. Constipation, stools coming in lumps coated with mucus and with mucus shreds. Anal fissures, can pass blood and painful stools. Weak, exhaustion of whole body. Spasms, contractions of muscles, twitching of eyelids. Cataleptic condition. Sensitiveness of internal parts, numbness in various parts, drawing pain in whole body. Bathing after measles causes paralysis of face. Attacks occur during summer and autumn. Suffering parts emaciated.

General obesity with a thick, white, profuse irritating discharge. Suffocative spells which arouse the patient from sleep, he must jump out of bed, worse after midnight (Lach., worse after sleep).

General condition is not sensitive (opposite of Hep.). Abnormally acute senses, cannot tolerate the smell of flowers. Music causes weeping. Sadness. Ears feel stuffed during the full moon. Hardness of hearing is better when riding in a carriage. Easy to over-lift.

Teste classed Graph, in the Puls, group with Sil., Calc., Hep. and Phos. It affects the nutrition in a peculiar way, it is a remedy for those persons who have a tendency to put on unhealthy fat or for those who begin to emaciate. Graph, is an anti-psoric.

Typically **"fat, chilly and costive."** Especially active in patients who are rather stout, of fair complexion with a tendency to skin disorders and constipation, with a delayed menstrual history.

Hufeland related the cure of a lady, 41, by the internal and external use of Graph, of an acne rosacea which had defied all other modes of treatment.

Kent and Grimmer noted cases of late stage breast cancer that they treated with high potencies. Graph, caused the tumors, and in one case the entire breast, to slough off and heal.

Nash recorded a case of a child who was relieved of an eczema capitis under old- school treatment, whereupon

entero-colitis set in and became so alarming that it was pronounced "tuberculosis of the bowels."

Nash found the child greatly emaciated with little or no appetite, very restless, passing "stools of brown fluid mixed with undigested substances and of an intolerably fetid odor." Graph. 6,000c cured promptly.

Goullon cured two notable cases of cramps in the stomach with "improvement of the cramps by eating."

Clarke cured two very severe cases of nosebleed in elderly people. In one case, there had been flushing of head and neck for many months previous to the attack, and flushing preceded and accompanied each occurrence of the bleeding.

In the other case, the patient said the precursory flush seemed to come up from his toes. He had his nostrils plugged without avail. Graph, in a high potency, cured promptly in both instances.

When giving Graph, internally in cases of anal eruption, the external use of an ointment made with a drachm of the 3x trituration to an ounce of Cetacean ointment is of great service.

Hirsh or Prague used Graph, locally in cases of disease of the nails with very good results.

RELATIONS-Antidoted by: Aeon., Ars. Nux- v. **Antidote to:** Ars-i., Rhus-t. **Compare:** (1) Petr., Lach., Carb-v., Carb-a., Caust., Nit-ac., Rhus-t. - erysipelas, left then right, Graph., right then left. Ant-c., Rat., Peon, Nit-ac., Sil. (2) In priapism. - Pic-ac. (3) In disorders of right ovary, Pall. (4) Aur, Puls., Lyc. Stram., Alum. (5) hears better in cars - Nit-ac. (6) Obesity, Calc-a. Trichiasis, Borax. Fat constitutions, Calc. (7) Sulph. has margins of lids reddened with Graph, they are paler than usual, Euphr. has thick, purulent discharge, Graph, has thin. (8) Graph, is achronic or overgrown Puls. - but

Puls, has Worse and Graph, has better from milk. (9) The associated constipation with mucus-covered stools and gastric flatulency should be taken into consideration and differentiate it from such remedies as Petr, and Lyc. **Complementary:** Arg-n. - follows well in gastric derangements, Caust., Hep., Lyc., Ars., Tub. **It follows:** Calc., Calc-f., Lyc., Puls., Sep., Sulph.

***GRATIOLA OFFICINALIS

(Hedge Hyssop)

PHARMACY-grat. Gratiola officinalis. Hedge hyssop. Herb of Grace. N. O. Scrophulariaceae. Grows in moist places. Tincture of fresh plant before flowering. **Historical dose:** Tincture and all potencies.

CLINICAL - Brain disorders. Cholera. Coccyx, pain. Colic. Constipation. Cramps, Diarrhea. Dropsy. Eye disorders. Gout. Headaches. Hemorrhoids. Hydrocephalus. Hysteria. Mania. Masturbation. Mesenteric glands. Nausea. Neuralgias. Nymphomania. Palpitations. Rheumatic pain. Stomach pains. Tetanus. Vision, disordered.

HERBAL - Gratiola, "the Herbof Grace," is one of the most important members of the great Scrophularian group, which includes Dig., Euphr., Tab., Scroph.. and should be carefully studied with these.

Cooper used it with great success in a case of gouty acidity with great constipation and in the constipation of cancer. He regards it as "the vegetable antacid." It is said to have formed the basis for a once famous nostrum for gout, "Eau Médicinale."

HOMEOPATHIC - Symptoms of a fully developed, rapid attack of Asiatic cholera are produced. A large proportion of the effects of Gratiola are expended on the gastro-intestinal tract. It is an inodorous plant of bitter taste and very poisonous, causing violent colic, bloody stools, enteritis, jaundice.

Affection of the solar plexus. Constant sinking but cannot eat, bitter taste. Cramps beginning at pit of stomach; pains radiating from stomach. Urine is diminished, reddish, turbid.

Diarrhea, yellowish, gushing, watery, as though rushing from a hydrant. Vomiting of yellowish fluid. Summer diarrhea from excessive drinking of water whether cold or hot. Soreness, burning or irritation of anus follows the stools.

Teste considered Grat, the Cham, of chronic diseases. Teste saw four cases of nymphomania in females to whom herb doctors had given injections of a decoction of freshly gathered Gratiola. Burnett considered it specific in female masturbation and nymphomania.

Especially useful in females, Nux-v.-like symptoms in females. Chronic catarrhal conditions, leucorrhea and gonorrhea. Obstinate ulcers.

Trembling in limbs, convulsions, cramps, excitement and disordered condition of the sexual powers. Paralytic pains and feeling of coldness especially in the abdomen. Cerebral disorders without fever. Nervous prostration. Neuralgia due to abuse of coffee.

MIND- Anxiety, gnawing, empty feeling, rolling about in epigastric region. Peevishness. **Confusion when lying down.** Ill humor, tired of life. **Mental troubles from overweening pride.** Answers, reflects long. Taciturn.

Great depression and disinclination to do anything. Weak will. Lack of perseverance. Ill-humor. Irresolution.

Violent anger from contradiction. **Delirium tremens.** Hysterical. Loquacity and gaiety. Delusion being

diminished, smaller. Absorbed in reveries. Nymphomania.

Apprehensive about the future. Fear of eating when hungry. Hypochondriasis and hysteria arising from abdominal troubles. **Abdomen** - Shooting pains in the abdomen.

Inflation of the abdomen. Rumbling with nausea, eructation and vertigo. Flatulent and pressive colic with nausea and disagreeable risings. Feeling of coldness in abdomen, lasting half an hour.

Back - Pain in coccyx after stool. Neck as if seized by hands.

Breasts - Darting pain in breasts. Shootings in right breast, worse on rising during menses.

Causations - Coffee causes neuralgia.

Chest - Heat in the chest, then the head and hands with redness of the face. Pressure on the chest. Shootings in the chest on breathing. Pimples on the chest, which burn after having been scratched.

Ears - Itching of ears.

Eyes - Eyes feel dry as if sand were in them. Dry, burning eyes. Itching about eyelashes.

Face - Burning heat and redness of the face. Sensation of tension in the face, it feels swollen. Swelling of upper lip. Tearing on one side of face. Painful crack in left side of chin. Tingling, burning in malar bones.

Female - Menses too profuse, premature and too long. Persistent leucorrhea. Tendency to masturbation.

Nymphomania. Irritable condition of sexual organs with congestions.

Food - Hunger after a meal with feeling of emptiness. Craves nothing but bread. Worse during and after eating, vertigo during and after a meal.

Head - **Rush of blood** with vanishing of sight. Sick headache. Tightness in forehead with wrinkles in skin. Sensation as if brain was contracting and head became smaller.

Heart - Palpitations after stools, with oppression of the chest. Pulse small, intermittent.

Kidneys - Burning in the urethra during and after urination. Diminished secretion of urine. Scanty and reddish urine, which becomes turbid on standing with cloudy sediment.

Limbs - Limb gives way with sciatic pain. Rheumatic pains in the shoulders, arms, fingers, particularly in elbow and wrist joint. Itching in the palm of the hand.

Lungs - Dry cough, excited by a sensation of roughness in the chest in the morning or at night. Nocturnal cough with pain as from excoriation in trachea, oppression of the chest and shivering.

Male - Painful rigidity of the penis after seminal emission, nightly. Stitches in left spermatic cord, ascending though the abdomen up to the chest. Drawing pain in glans.

Modalities - Better from open air. Better rest. Worse from eating. Worse drinking too much water. Worse hot or cold. Worse abuse of coffee. Worse dinner. Worse warm room. Worse summer. Worse motion.

Mouth - Accumulation of much saliva in the mouth. Mouth bitter or clammy. Fetid breath in the morning after waking. Tongue rough, covered with mucus. Sensation of cold in the teeth. Nocturnal tearing or piercing in the molars.

Nose - Frequent sneezing. Stoppage of the nose. Smarting, itching in left nostril. Pressure at upper part of nose.

Perspiration - Constant vaporous exhalation from body.

Rectum - **Diarrhea, green, frothy water**, followed by anal burning. Diarrhea, **forcibly evacuated without pain**. Summer diarrhea from drinking of excess of water. Rectum constricted. **Constipation** with gouty acidity. Hemorrhoids with hypochondriasis.

Sensations - As if brain contracted, as if head grew smaller, as if brain would fall forward. As if sand in eyes, as if throat contracted. As if a stone rolling from side to side in stomach.

Skin - Itching with burning after scratching. Running and corrosive eruptions, which resemble scabies. Small boils. Miliary pimples with yellow tips.

Sleep - Insomnia. Irresistible drowsiness with yawning and involuntary closure of eyes. Great sleepiness and lassitude after meals. Deep sleep, like stupor.

Stomach - Dyspepsia with much distention of the stomach. Emptiness after eating. Cramps and colic after supper and during night with swelling of abdomen and constipation. Dysphagia for liquids. As of a cold water or loose, heavy load in stomach.

Temperature - Tendency to chilliness. Chilliness in a warm room during sleep, after an evacuation, with the hair standing on end. Heat ascending to the face with redness and increased external warmth.

Throat - Pressure in throat, as from thick mucus. Accumulation of mucus in throat. Phlegm in throat with inability to throw it off. Pain in throat obliging one to swallow constantly. Stinging in throat. Tingling, roughness and scraping in throat.

Vertigo - Vertigo during and after meals, hunger and feeling of emptiness after meals.

Vision - Myopia. Shortsightedness with burning heat in face. All objects seem white, even green trees. Mist before eyes when reading or writing. Sudden vanishing of sight while writing or looking at light objects, better

closing eyes, but constantly returns.

COMMENTS - Two excellent cures with Grat, have been recorded by C. W. Sonnenschmidt. The first case, Mrs. C., 53, was attacked in June with diarrhea, yellow, watery, frothy stools gushing out with force. Severe cutting pains in abdomen, rumbling of flatulence. Occasional nausea and vomiting. Coloc. and Ip. failed to relieve. Then on close inquiry it was elicited that "a cold feeling in the abdomen" had been a feature throughout. Grat. off. 3c, cured promptly.

In the second case, a three-weeks' old infant was attacked with diarrhea and colic. There were two or three stools in quick succession and then an interval of an hour or two. Stools, green or yellow watery, frothy, expelled suddenly. Nausea and vomiting. Severe pain before stools, relieved afterwards, for a short time. Cham., Coloc., and Verat. failed, then Grat, rapidly cured. It also removed "redness around anus and on the side an abrasion of half an inch in extent, which caused some oozing of blood."

E. E. Case cured a woman, age 50, of hemorrhoids with Constipation, difficult stools. External hemorrhoids from any exertion and after stool. Biting, stinging tension in tumors. During stool, a sensation as if the rectal membrane was torn.

After stool, all the nerve of the pelvis seem in a high state of tension, the flesh on the perineum feels as if torn from the bone. Sleepless before midnight, peevish, melancholy. Grat. 200c cured.

The left side is more affected than the right. The head and eye symptoms are of the first importance. Rush of blood to head with vanishing of sight is a keynote. Heat ascending to face with redness and increased external warmth. A number of pains are experienced in the coccyx. Chilly, shuddering on entering a warm room. Constant vaporous emanations from body.

RELATIONS - Antidoted by: Caust., Bell., Euph., Nux-v. **It antidotes:** Iod. **Compare:** (1) Dig., Euph., Tab., Cham., Am-c., Nux- v. Apis, Bell., Hell., Cham., Nux-v., Elat., Podo. (2) Hunger after meals with feeling of emptiness, Lauro., Calc., Case., Chin., Cina, (3) Emptiness after stool, Petr. (4) Vanishing of sight and headache, Gels. (5) Dig., Tab., Euphr., Scroph.

***GRINDELIA ROBUSTA

(Rosin-wood)

PHARMACY - grin. Grindelia robusta. Rosinwood. Grindelia squarrosa. N. O. Composite. A tincture is made of the leaves and unexpanded flowers. Bundy's proving of G. squarrosa was made with a tincture of the dried plant. **Historical dose:** Tincture and all potencies. Tincture in 1 to 15 drop doses.

CLINICAL - Asthma. Bites. Blisters. Bronchitis. Burns. Cheyne-Stokes. Conjunctivitis. Emphysema. Erythema. Eyes, pains. Flea- bites. Glaucoma. Heart, disorders. Herpes, zoster. Hyperchlorhydria. Iritis. Itching. Liver, pain. **Lung, disorders.** Malaria. Nausea. Ophthalmia. Pruritus, vulvae. Pruritus, vagina. Rash. Rheumatism. **Rhus poisoning.** Roseola. Skin, disorders. Spleen, disorders. Stings. Ulcers.

HERBAL - The Grindelia are a genus of asteroid composites growing on the Pacific coast and inland on the mountains. The terminal heads of yellow flowers and the leaves are usually covered with a viscid balsamic secretion, after which they have been called "**gum plants.**"

There is practically no difference in the action between Grindelia robusta and Grindelia squarrosa, although G. squarrosa is credited with more spleen symptoms. Following Hering,

Grindelia robusta

Clarke did not think it necessary to separate the two Grindelias. Several species have been used in cases of asthma, bronchitis, rhus poisoning, and heart and skin disorders.

HOMEOPATHIC-Grindeliaproduces paresis of the pneumo-gastric nerve, interfering with respiration and producing profuse secretion in bronchial tubes. Dull pains and fullness in left hypochondrium, chronic malaria, gastric pains associated with spleen congestion.

Induces paralysis, beginning in the limbs. Its action is shown on the heart, first quickening, then retarding it. Raises the blood pressure. Acts on the cardio-pulmonary distribution of the pneumo gastric in dry catarrh (Ant-t. in muco-purulent).

Smothering after falling asleep or on awakening. Asthmatic conditions, chronic bronchitis. Bronchorrhea with tough, tenacious, whitish mucus. Asthma and emphysema with dilated heart. Rattling breathing. Cannot breathe when lying down.

Cheyne-Stokes respiration. Hyperchlorhydria when attended with asthmatic and other neurotic symptoms. Hyperemia of gastric mucus membrane with difficult respiration.

Nausea and retching of gastric ulcer. Sugar in urine. Cutting sore pain in the region of spleen extending to hips. Spleen enlarged. An effective antidote to Rhus-poisoning, locally and internally, also for burns, blisters, vaginal catarrh and herpes zoster.

MIND - Longing for sunshine, light and company.

Abdomen - Unbearable pain in region of liver and spleen, so severe he cannot lie still a moment. Cutting pain in region of spleen, extending to hips. Spleen enlarged (Cean.. Card-m.). Soreness like that of acute rheumatism.

Eyes - Conjunctiva injected. Pupils dilated. **Pain in eyeballs**, running back to brain, worse moving eyes. Purulent ophthalmia and iritis. Iritis, traumatic, or arising from cold or a metastasis of rheumatism. Pain in left eye and right knee joint like rheumatism.

Face - Face livid. Burning in chin.

Female - Pruritus of vagina and vulva, whether from leucorrhea, aphthae or of venous origin.

Head - Terrible fullness in head, as though he had taken ten or more grains of quinine.

Heart - Weak heart and respiration.

Limbs - Legs greatly swollen, especially about ankle-joint. Severe pain, can hardly get about. Large ulcers over tibia. Chronic ulceration of leg.

Lungs - Acts on the pulmonary circulation. Wheezing and oppression in bronchitis patients. **Bronchitis with heart disease**. Asthma with a profuse tenacious expectoration, which relieves. **Stops breathing when falling asleep, wakes with a start** and gasps for breath. Must sit up to breathe, **cannot breathe when lying down**. Whooping cough with profuse mucus secretion (Coc-c.). Rales are disseminated with foamy mucus, very difficult to detach. Sibilant rales. Cheyne-Stokes respiration. Bronchorrhea with tough, whitish, mucus expectoration. Tough, muco-purulent expectoration, after pneumonia or in chronic bronchitis.

Modalities - Sitting position in bed on account of difficult breathing. Worse from falling asleep. Worse motion. Worse in the dark.

Skin - Bites of insects, fleabites. Itching and burning. Rash-like roseola with severe burning and itching. Vesicular and papular eruptions. **Poison oak** (locally as a wash). Herpes zoster. Ulcers with swollen, purplish skin.

COMMENTS - In the clinical experiences recorded, it is *Grindelia robusta* that is chiefly mentioned, though sometimes it is not specified.

History of results for asthma and emphysema with a dilated heart. Good in tonic for asthma, particularly in cases with a great deal of previous medication (Lob.). Chronic bronchial asthma and spasmodic bronchial cough, with profuse, tenacious expectoration, which gives relief.

Cheyne-Stokes respiration. The breath stops when the patient goes to sleep and awakes with a start, gasping for breath. Irregular heart action and hay fever when associated with difficult breathing.

Sense of suffocation on falling asleep (Lach.). Symptoms are worse by movement, worse in the dark, worse on falling asleep. It removed aversion to darkness in one patient who wanted a light in the room all night.

One writer obtained excellent results from "*Grindelia*" in a number of cases of asthma and emphysema with dilated heart.

H. W. Foster reported the cure of a case of asthma with *G. robusta* that shows that Dr. Bundy's proving of *G. squarrosa* is good for both remedies. Dr. Foster's patient was awakened by asthmatic attacks, the room seeming too small. After getting quiet, just as he would commence to lose himself in sleep he would suddenly awaken again because he seemed to have forgotten to breathe. Grin. 30c relieved at once.

Gatchell recommended an external application of a lotion, one part *Grindelia robusta* in ten parts water, for itching and painful erythematous eruptions. It is also useful for bites and stings of insects. Used locally and internally as an antidote for *Rhus toxicodendron* skin rashes.

The only proving is by Dr. T. H. Bundy, who took a teaspoonful of a tincture of the dried plant of *G. squarrosa* and in half an hour followed it by another. The result was that he produced some intensely severe pains in head and eyes (left, then right), and symptoms in liver, spleen, nervous system and lungs. Altogether, he passed "the most terrible night of his life."

The proving is remarkable for the number of peculiar symptoms induced. First there was "fullness in head as after a heavy dose of quinine." Then, intense pain in the left eye and right knee joint exactly like acute rheumatism. The knee pain lasted only half an hour, and then the third teaspoonful was taken. The eye pain became agonizing, the pupil became widely dilated. It was two hours before the right eye became affected.

At this time, unbearable pain in whole of liver and spleen came on. It was so severe it was impossible to lie still. There was intense soreness of the region, like that of acute rheumatism.

The eye pains were in the eyeballs running directly back into the brain, worse by movement.

There was a kind of paralysis of the vagus nerve. On falling asleep, the respiratory movement would cease and would not be resumed until he woke up from the resulting suffocation.

RELATIONS -Antidotes: *Rhus-t.* **Compare:** (1) *Tart-emet.* *Erio.*, *Lach.*, *Sang.* (2) *Am-m.*, *Ant-t.*, *Kali-bi.* (3)

Lach. - worse from sleep, left then right. (4) Gels. - worse from sleep. Gels, has waking up feeling the heart has stopped, must keep moving to keep it going. Grind, feels respiration has stopped. (5) Stram. - fear of the dark. (6) Op., Lach., Carb-an. - fears to go to sleep. (2) Dyspnea on falling asleep: Am-c., Ant-t., Arum-t., Bad., Bry., Cadm-s., Carb-an., Carb-v., Graph., Lach., Nux-m., Op. (8) Ran-b. and both the Grindelias.

REFERENCES - Boericke. Clarke. Phatak.

***GUACO

(Climbing Hemp Weed)

PHARMACY - gua. Guaco. Climbing hemp weed. Mikaniaguaco. N. O. Composite. Tropical America. Tincture or decoction of leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - **Bulbar, paralysis.** Cancer. Cholera. Deafness. Diarrhea. **Dysentery.** Hydrophobia. Leucorrhea. Paralysis. Phosphaturia. Rheumatism. Spine, disorders. Strokes. **Syphilis.** Tongue, paralysis.

HERBAL - Mikania guaco is a climbing composite of tropical America. Guaco has a local reputation as a remedy for the bites of serpents, hydrophobia, cholera and cancer.

HOMEOPATHIC - Gua. acts on the nervous system and female **organs. Bulbar paralysis. Spinal irritation. Syphilis.** Cancer. Cholera. **Diarrhea and dysentery with aching in sacrum and loins.** Deafness. Tongue heavy and difficult to move. Beer drinkers threatened with strokes.

Abdomen - Pain and rumbling in bowels, followed by watery stools.

Back - Pain between scapulae, extending to forearm. Burning in nape of shoulders. **Pain along spine,** worse from bending.

Guaco

Weariness through hips and lumbar region.

Causations - Antidote to bites of scorpions and snakes (Golondrina).

Ears - Deafness.

Female - Copious, corroding, putrid, debilitating leucorrhea. Itching and smarting at night, as if fire were running out of parts.

Head - Headache, red face. Heaviness and difficulty in moving tongue.

Kidneys - Unusual flow of urine with excess phosphates. Pain over region of bladder and weight and weariness through hips and loins.

Limbs - Pain in deltoid, shoulders, elbows, arms and fingers. **Paralysis of lower limbs.** Legs heavy. Pain about hip joint. Pain in ankle-joints and soles.

Modalities - Worse from motion. Worse bending. Worse at night.

Mouth - Tongue heavy, difficult to move.

Throat - Larynx and trachea constricted, difficult deglutition.

COMMENTS - In the homeopathic provings, rice-water stools occurred along with difficult swallowing, as in hydrophobia. One proving also showed an action on the bladder and urinary organs, producing excess phosphates.

A woman who took a decoction for four months steadily was obliged to discontinue because it produced copious, corrosive, putrid leucorrhea, causing great debility, tanning the inside of the thighs and staining linen yellow. She felt as if fire was running out of her. Terrible itching and smarting.

Another prover had severe spinal and occipital pains, paresis of tongue and difficult deglutition. Burning and tearing in soles. Pain as if beaten. Pains extend to other parts, mostly from above downwards.

RELATIONS-Antidoted by: Kreos. and Sulph. (leucorrhea). **Compare:** (1) Ox-ac., Lathyr., Caust. Alum. (2) Bell. - menstrual flow feels hot. (3) Ph-ac. - Phosphaturia. (4) Leucorrhea staining yellow, Carb-an., Kreos., Nit-ac.

***GUAIAECUM OFFICINALE

(Lignum Vite Resin)

PHARMACY - guai. Guaiacum officinale. Lignum vite resin. Lignum sanctum resin. Gum guaiacum. N. O. Zygophyllaceae. The gum resin of a large tree growing in West Indies. Tincture of the gum resin. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. Amenorrhea. Aneurysm. Bones disorders. Bronchitis. Decay. Cholera, infantum. Constipation. Contraction. Cough. Diarrhea. Diphtheria. Dysmenorrhea. Earache. Emaciation. Fever. Gout. **Growing, pains.** Headache. Hernia. Membranous, dysmenorrhea. Mercury, effects. Neuralgia. Osteomalacia. Otitis. Ovaries inflammation. Pleurisy. Rheumatism. Sciatica. Stomach disorders. Syphilis. Throat, disorders. Tonsillitis. Toothaches. Torticollis. Tuberculosis. Vomiting.

HOMEOPATHIC - Guai., which is one of Hahnemann's anti-psorics, is best known as a remedy in govt and rheumatism and as a diuretic, but it has also taken a place in old-school therapeutics as a remedy for tuberculosis. Guai. was first recommended by Brinton in the Lancet in 1857 for quinsy, was given in full doses and produced a crisis of sweat and profuse urination.

Homeopathic provings developed and defined the sphere of its utility in these respects and many more. It acts on mucus membranes, muscles, fibrous tissue, joints and bones. Arthritic diathesis. Acute rheumatism. Gouty nodosities on joints. Nodes. Exostosis. **Growing pains**. Tonsillitis with rheumatism. Secondary syphilis.

Contraction of limbs, stiffness and immobility. Muscles and tendons are contracted, resulting in pain, rigidity and swelling of the joints, and deformity. Muscles and tendons seem too short or feel sore. Contractions between scapulae, palms etc., causing distortions and immobility.

Unclean odor from whole body. Promotes suppuration of abscesses. **Free foul, secretions**, expectoration, sweat, etc. Bones become spongy or suppurate. Burning heat in affected part. Sensitiveness and aggravation from local heat.

Gnawing or sticking pains in chest. Pains often end in stitch, especially head. Contractive pain between scapula. Violent pains in limbs after a cold. Feeling that he must yawn, stretch with uneasy feeling in the whole body.

Violent, spasmodic inflammatory disorders of windpipe and larynx with palpitation, preventing motion or calling for help, feels suffocating. Cough dry or with copious bloody or purulent expectoration of very offensive odor. Heat, swelling and blotchiness of face. Prosopalgia every day from 6 p.m. to 4 a.m. Toothache when biting jaws together.

Progressive emaciation. Desire for apples, which helps the gastric symptoms, and a general aversion to milk and food. "Violent hunger afternoon and evening," similar to the "sinking" sensations of Sulph. and the anti-psorics. Nausea from sensation of phlegm in throat.

Marked flatulence. "Every morning vomits a mass of watery phlegm with great exertion, followed by great exhaustion." Morning diarrhea with dry skin and chilliness. Cholera infantum, the face is like that of an old person. Constipation, dry, hard, crumbling and very offensive stool.

Continuous urging even after urination with profuse fetid urine. Stitches in neck of bladder after ineffectual pressure to urinate. Cutting while urinating.

General ill feeling, better yawning and stretching, worse from the least motion. Clothes feel damp. Perspiration on head on walking in open air. Chilly crawls over breasts. Chilliness in back. Cannot bear heat with pains in limbs. Marked periodicity. Stomach illness returns every summer. **MIND** - Indolent, obstinate, fretful. Disinclination to labor. Sad and depressed. Weak memory. Forgetful, thoughtless, staring. Forgetful of names. Slow to comprehend. Delusion everything seems narrow.

Strong desire to criticize and despise everything. Inclination to blame everybody and scold. Defiant. Disobedience. Shrieking during sleep. Weeping after nightmare.

Abdomen - Distention, flatulent. Intestinal fermentation. Sensation of constriction or stoppage in epigastrium, causing cough, dyspnea.

Back - Pain from head to neck. **Aching in nape. Stiffneck and sore shoulders**. Contractive pain between scapulae. Stitches between scapulae to occiput. One-sided stiffness of back from neck to sacrum.

Breasts - Cold crawling over breasts. Shuddering in breasts with goose bumps.

Chest - Pleuritic stitches. Chest pains in articulations of ribs, with shortness of breathing until expectoration sets in. Pain in the chest while riding in the open air, better pressure and walking, worse sitting and standing.

Ears - Aching in left ear.

Eyes - Exophthalmos. Pupils dilated. Eyeballs seem too big to be covered by the eyelids, or eyelids appear too short. Hard pimples around the eyes.

Face - Neuralgia of the left side of the face, daily from 6 p.m. to 4 a.m. Face like an old person.

Female - Ovaritis in the rheumatism, with irregular menstruation, dysmenorrhea and irritable bladder.

Food - Aversion to milk, to all food, could not eat anything. **Desire for apples** and other fruits, which relieve gastric symptoms.

Head - Gouty and rheumatic pain in head and face, extending to neck. Tearing pain in skull, worse cold, wet weather. **Pains often end in a stitch**, especially in head. Head feels swollen and blood vessels distended. Brain feels loose. Headache better walking and pressure, worse sitting and standing.

Kidneys - Continuous urging, even after urination. Sharp stitches during or after urination.

Limbs - Growing pains (Calc-p.). Arthritis deformans. Arthritic lancinations followed by contraction of limbs. Sciatica and lumbago. **Gouty tearing pains with contractions**. Immovable stiffness. Joints swollen, painful and intolerant of pressure, cannot bear heat. Stinging pain in the limbs. **Feeling of heat** in the affected limbs. Rheumatic pain in shoulders, arms and

hands. **Rheumatic pain in wrists.** Pricking in buttocks, as if sitting on needles. Hamstrings too short. Ankle pain extending up the leg, causing lameness.

Lungs - Feels suffocated. Recurrent pleurisy. Pleuritic stitches, worse deep breathing. Stitching in apex of (left) lung. Tuberculosis. Dry, tight cough. Fetid breath after coughing.

Male - Seminal emissions without dreams. Discharge from urethra.

Modalities - Better external pressure. Better apples. Better yawning and stretching. Better from cold locally.

Worse from heat. Worse cold, wet weather. Worse touch. Worse motion. Worse exertion. Worse rapid growth. Worse mercury. Worse puberty. Worse 6 p.m. to 4 a.m.

Mouth - Tongue furred.

Nose - Pains in bones of nose. Nose swollen. Fluent coryza.

Perspiration - Profuse sweat on single parts, face, etc. Sweats at night. Much sweat, especially on head and face. Sweats on walking in open air. Sweat is usually offensive.

Rectum - Cholera infantum, face like an old person, emaciation. Diarrhea.

Sleep - Yawns and stretches for relief of general ill feeling. Frequent waking from sleep, as if from falling.

Stomach - Thick, white fur on tongue. Constricted epigastric region. Burning in stomach. Vomits a mass of watery mucus, then exhaustion. Stomach disorders return in summer.

Temperature - Sweat profuse on single parts, face etc. Night sweats. Burning of body. Hot palms. Burning fever with hot face and dry cough. Fever with chill in the evening.

Throat - Dry, burning, swollen. Sharp stitches towards the ear on swallowing, cannot swallow without a drink.

Acute tonsillitis, painful to touch. Recurrent tonsillitis followed by rheumatism. Syphilitic sore throat. Rheumatic sore throat with weak throat muscles.

Vertigo - Vertigo on rising.

COMMENTS - Affected parts are very sensitive to touch, worse from heat. Offensive secretions. Rheumatism in syphilitic and mercurial patients. Growing pains in children.

Acute tonsillitis, simple or rheumatic. Syphilitic sore throat. "Burning in the throat." Erythematous or inflammatory angina with bright redness (Bell.). Edema (Apis.). Phlegmon with tendency to suppuration of tonsils (Bar-c., Apis.).

Burning sensations in mouth, throat and stomach. Stitches in chest going from front to back or from below upward in region of apex, worse from motion and deep inspiration. "Sharp pain about mid-day under right breast to shoulder."

Neuralgia of left side of head and face, extending to neck. Sharp stitches in brain. Sensation as if the brain were loose. External headache with sensation as if blood vessels were over-filled, extending to face and neck. Tearing pains in skull. Swelling and sensation of swelling in eyes and nose. Eyes feel protruded.

Ozanam gave it in the 1c, 2c and 3c dilutions and found that he got the curative effects without crisis, which was an unnecessary effect of the drug. Guai., said Ozanam, seems to combine the properties of Bell., Apis and Bar-c.

Houghton cured with Guai. 3x a case of gouty inflammation of the meatus of the ear and tympanum after failure with Ferr-p. Concomitant rheumatic lameness and soreness led him to Guai.

Verwey treated a woman, who for several years had a frequently recurring gouty inflammation of the knees. After Chin. 30c had failed to relieve, Guai. 30c was given without obvious benefit. Guai. 1c was then given, and after a few hours the swelling broke and the pains quickly subsided.

A short time after, the same patient accidentally injured the same knee. Under Guai. 1c the swelling soon broke and the pain was relieved, but an abscess formed at the same time on the upper thigh. The pain became unbearable and the patient's husband "begged for more of the drops that had twice before made the swelling break."

It was again given and in six hours the abscess evacuated. On two later occasions Dr. Verwey saw Guai. act in the same way on scrofulous and gouty abscesses. This is probably analogous to its action in quinsy.

RELATIONS-Antidoted by: *Nwi-v.* **Antidote to:** Caust., Rhus-t. **Compare:** (1) Merc., Caust., Rhus-t., Mez., Rhod. (2) Ph-ac. - growing pains. (3) Cimic. - pleurodynia and tuberculosis. (4) Bry. - chronic rheumatism when the joints are distorted, worse motion, pleurisy in second stage of tuberculosis. (5) Coloc. - contractions after rheumatism. (6) Caust. - Guai. is better than Caust., which it follows well, when either gout or rheumatism causes distortion of limbs. (7) Araceae - late tuberculosis, pleuritic pains left apex. (8) Kali-i., Phyt., Still.

Compatible: After Merc. - Rheumatism, gout and syphilis, after Sulph. in cholera infantum, after Caust. in torticollis. **Follows:** Sep.

***GUARANA

(Brazilian Coca)

PHARMACY - guar. Guaraña. Brazilian coca. Paullinia sorbilis. N. O. Sapindaceae. Alcoholic solution of dried paste made from seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcohol. Chlorosis. Cholera infantum. Coffee. Depression. Diarrhea. Eyelids, twitching. Headache. Insomnia. Neuralgia. Spasms. Urticaria. Tuberculosis.

HERBAL - Guaraña is a climbing shrub of Brazil, the seeds of which contain caffeine and are used by the natives for making a stimulating beverage.

HOMEOPATHIC - Guar, is used in conditions of nervous exhaustion, sick headache in those who have abused tea and coffee. Headache followed by vomiting and excited by any error in diet or depression of mind. Throbbing, congestive headache after excessive use of liquor.

Neuralgia. Persistent twitching of eyelids. Paralysis. Restlessness, nervousness, weariness. Reduced vital powers, with grief, depression of spirits, loss of appetite. Debility after prostrating diseases. Chlorosis. Diarrhea.

MIND - Intellectual excitement, mental hyperesthesia. Extravagant behavior. Grief, depression of spirits.

Bladder - Spasm of bladder.

Causations - Ill effects of alcohol or coffee.

Eyes - Persistent twitching of eyelids.

Head - Sick headache from excess of tea or coffee. Throbbing, congestive headache after excessive use of alcohol.

Rectum - Cholera infantum. Stools profuse, bloody, bright green, mucus, flakes intermixed, odorless. Diarrhea of tuberculosis.

Skin - Chloasma on temples and arms. Urticaria (Dulc., Apis, Chlcl.). Prurigo.

Sleep - Uncontrollable sleepiness and heaviness of head, with flushed face after eating.

RELATIONS - Compare: (1) Agar. - Twitching of eyelids. (2) Ign., Nux-v. (3) in sick headache, Coff., Coca., Thea.

REFERENCES - Boericke. Clarke.

***GUAREA TRICHOLOIDES

(Ballwood)

PHARMACY - guare. Guareatrichiloides. Ballwood. Redwood. N. O. Meliacee. Caribbean. Central America. Tincture and trituration of dried bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Bones disorders. **Chemosis.** Dysphagia. Eyes disorders. Hernia. Intermittent fever. Liver spots. Lupus. **Pterygium.** Ptosis. Strokes. Tongue disorders. Tonsils, swollen. Vertigo. Whooping cough.

HOMEOPATHIC - Petroz is the authority for this remedy, which produces a number of symptoms in the eyes. R. K. Ghosh cured a number of cases of chemosis and pterygium. He found a lotion of Guarea tincture of great assistance.

Lupus of an ochre-red color. Eye symptoms alternate with diminished hearing. A number of symptoms were experienced in the umbilicus and inguinal rings. Flow of blood between menses.

On the skin there were liver spots and an eruption with burning vesicles. Aromatic- smelling sweat. Sweat during or after eat

ing. Suppuration of glands. Steatoma, hot swelling, swelling of affected parts.

Sensation of constriction. Sudden shocks of whole body. Bruised pains. Pains in periosteum. In the head there is a sensation as if the brain were falling forward and a sensation as of a blow on the head leaving numbness and diminished thinking power.

MIND - Anxiety during fever. Irresolution. Loquacity. Indifference. Fear of losing reason.

Abdomen - Hardness at umbilicus. Abdomen distended with lancination in groins and inguinal ring. Bruised pain externally.

Chest - Sensation of hollowness and dilatation of chest.

Ears - Swelling of periosteum behind ears. Sensation in ears as of a peg of a worm, pushing-out feeling. Roaring in ears.

Eyes-Conjunctiva inflamed, swollen. Tearing pain in eyeballs, tension, forced-out feeling. Objects appear gray, upside down. Eye symptoms alternate with diminished hearing.

Face - Suppurating swellings on face. Swelling of upper lip.

Female - Fetid leucorrhea after menses. Flow of blood between menstrual periods. Itching of pudenda. Labor pains suppressed. Lochia is scanty.

Food - Canine hunger in evening, speedy satiety. Aversion to milk, fish and hot, greasy, cooked food.

Head - Sensation as if brain were falling forwards, as from a blow on head.

Limbs - Jactitation of limbs. Cracking in joints. Nightly pains in bones. Bruised pain in bones. Caries.

Lungs - Cough with sweat, pain and tightness of chest, larynx irritated. Cough dry barking, violent, deep-seated. Breathing, sobbing, difficult during chill. Respiratory symptoms worse from putting hand to throat.

Modalities - Better hot drinks. Better wrapping warmly. Acids and cold water aggravates. Bone pains worse at night.

Mouth - Mouth smells of cheese. Sweet taste, food tastes insipid.

Nose - Coryza with hardened secretion with heat. Nose stuffed, ineffectual desire to sneeze, constriction at root of nose.

Rectum - Constriction of anus and rectum. Urging to stool. Constipation.

Skin - Yellow spots on temples! Liver spots on arms. Eruptions behind ears. Herpes. Itching. Lupus of ochre-red color.

Sleep - Sleepy in open air. Dreams, anxious, melancholy, full of strife.

Stomach - Constriction in stomach, bruised. Sour belchings with tension and pressure at stomach. Inclination to vomit during fever. Vomiting, sour, green.

Temperature - Coldness followed by heat with sweat. Heat of upper part of body, coldness of bones. Sweat chiefly during and after eating. Sweat aromatic.

Throat - Tonsils swollen. Esophagus has raw pain, sensation of contraction and burning heat. Swallowing difficult.

Tongue - Tongue coated during the fever, grayish yellow, swollen, paralyzed, bleeding. Tongue feels cold and dry. Lancinations in tongue.

RELATIONS - Compare: (1) Bov. - flow of blood between menses. (2) Crot-h. - as if had a blow on the head. Anae. - peg in ear. Gels - vertigo, ptosis. Aza., Apis - chemosis, asthmamillari. Am. - injuries. Phos. - steatoma. Ign. - nerves. Merc, and Sil. - Bone-pains, suppuration.

REFERENCES - Boericke. Clarke.

***GUATTERIA GUAMERIA

(Elemuy)

PHARMACY - guar. Guatteria guameria. Elemuy. Yumel. N.O. Anonaceae family. Central and Southern America. Tincture from the dried bark of the plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Anorexia. Belching. Jaundice. **Gallbladder, disorders.** Gallstones. Hematuria. Hepatitis. Leucorrhea. **Liver, disorders.** Nausea. Palpitations. Pneumonia. Tachycardia.

HOMEOPATHIC - Described in 1790 by J. B. Guatteria and in 1906 by G. F. Gaumer. The symptomatology was established by Castro on seventeen adults of both sexes, using 3x and 6x, in 1944.

There are grounds for thinking that Guat. will take one of the first places among the homeotherapeutic remedies for liver conditions, alongside Chlorpr.

Guat. acts on the liver, gallbladder, kidneys and pancreas. Digestive complaints with liver and biliary manifestation. Predominantly on the right side, lungs, scapulae, shoulders, kidneys.

MIND - Irresolute, weak memory. Sad. Obsessive ideas.

Abdomen - Epigastric pain, spreading towards the right hypochondrium, right kidney and the base of the right lung. Abdominal distention, ameliorated by belching.

Constitutions - Allergic, psoric or sycotic constitutions.

Eyes - Conjunctival jaundice 'with photophobia, myosis and itching, ameliorated by rubbing.

Female - Excoriating, white leucorrheal discharge.

Food - Extreme thirst. Anorexia, nausea. Aggravated by hot foods, condiments and sweets.

Head - Occipital pain, aggravated in a warm room and by lying down. Frontal pulsating headache.

Heart - Palpitations and tachycardia, worse after eating.

Kidneys - Hematuria, urine thick with muddy deposits of calcium oxalate. Urinary density increased. Urinary urea diminished.

Limbs - Pain and joint aching, especially of the fingers, knees and shoulders, predominantly on the right, with stiffness.

Liver - Congestion of the liver. Liver deficiency. Jaundice from hepatitis or gallstones. Gallstones. Inflammation of the gallbladder.

Lungs - Lung infections on the right side, bronchitis. Viral pneumonia. Dry cough with blockage in the base of the right lung, linked with congestion of the liver, aggravated by lying on the right side. Painful cough, with palpitations and tachycardia, worse after eating.

Modalities - Better from rest. Better food, if administered in small, repeated quantities. Worse in a warm room. Worse movement. Worse on right side. Worse after meals.

Mouth - Tongue dirty, yellow, furred, especially at the root. Bad breath, mouth tastes bitter. Excessive, thick salivation.

Rectum - Diarrhea with cramping colic or constipation, followed by burning and tenesmus after stools passed. Stools bright green or bright yellow, hard or liquid, mucous, with a nauseating odor.

Skin - Skin dirty, especially on the face, discolored, pigmented with brown spots on the forehead and cheeks. Brownish stains on the arms and backs of the hands. Perspiration stains underwear yellow. Eruptions with itching, yellowness, aggravated by eating, ameliorated by prolonged rest. Vesicular tension disorders.

Stomach - Acrid dyspepsia. Bilious yellow and green vomiting, aggravated by hot food, movement. Burning in the esophagus and stomach, aggravated by condiments and sweets.

Vertigo - Vertigo with headaches, heavy head.

RELATIONS - Compare: (1) Chel. - Same side and located on the right, stools golden yellow. (2) Chin. - Extreme abdominal distentions, aggravation from loss of fluids, diarrhea. (3) Lyc. - Melancholy, irritable, dyspepsia, hepatic disorders, aggravated from 4 p.m. to 8 p.m. (4) Lac-c. - Perspiration stains the underwear yellow, symptoms move from right to left.

REFERENCES - Julian.

***GUNPOWDER

(Black Gunpowder)

PHARMACY - gunp. Gunpowder. Black gunpowder. Carbon-Sulphur-Kali-Nitricum. **Historical dose:** Trituration and all potencies.

CLINICAL - **Abscesses.** Acne. Bites. **Blood, poisoning.** Boils. Carbuncles. Cuts, poisoned. Dyspepsia. Eczema. Fistula. **Food, poisoning. Foot-rot.** Glands, disorders. **Gonorrhea.** Gunshot, wounds. **Herpes.** Herpes, zoster. **Infections.** Injuries. Ivy, poisoning. Leucoderma. Methane, poisoning. Ophthalmia. Osteomyelitis. Ptomaine, poisoning. Pyorrhea. **Septicemia.** Shingles. Syphilis. Tonsillitis. Toxicity. **Ulcers.** Vaccinosis. **Worms. Wounds.**

HOMEOPATHIC - Gunpowder was first published in the Homeopathic World, London in 1914 by Clarke. A combination remedy of carbon, sulphur and potassium nitrate. Useful for all kinds of blood poisoning, for septic wounds and ptomaine poisoning.

Strong history of use in wartime, particularly useful in World War I and II. Gunshot wounds, surgical septicemia, boils. Methane poisoning. Wartime ailments.

Blood disorders. **Blood poisoning** from pyorrhea alveolaris. Septic suppurations. Infected wounds. Wounds that refuse to heal. Abscessed bites, infections and wounds, antiseptic. Swollen and abscessed glands. Osteomyelitis.

Poisoning from bad food or water. Poisoning from meats that have been unsuccessfully tinned. Acute infections, boils, abscesses, carbuncles, and bites. Antidote to ivy and primula rash.

Antidoting the **ill effects of vaccinations.** Preventative for various kinds of inoculations. Gonorrhea and syphilis. Shingles of the face and eyes.

In some country districts a decoction of gunpowder is given to children for worms with much success.

Blood - Blood disorders. **Blood poisoning.**

Causations - Bites. **Blood poisoning.** Vaccinations. Wounds. Gonorrhea. Herpes zoster. **Worms.**

Glands - Swollen and inflamed. Swollen axillary glands. Abscessed glands.

Male - Gonorrhea and syphilis.

Mouth - Sores, boils. Gum abscesses. Pyorrhea.

Skin - Boils, abscesses, carbuncles and bites. Fistula. Infected wounds. Shingles.

COMMENTS - Dr. Clarke referred to the old fashioned gunpowder that was in use before the era of high explosives and smokeless powder. Black gunpowder is a mixture and not a chemical compound. It contains three remedies, two of them polycrests.

Gunpowder

Nitre with sulphur and charcoal forms gunpowder. A teaspoonful of this in hot water was a favorite remedy for gonorrhea among soldiers when black powder was used. In the lower triturations, gunpowder has cured ascarides in adults.

The London Police Force also knew it as a boil remedy. "Get six-penny worth of gunpowder from an oil store and take as much as would lie on a sixpence night and morning for four days and then leave it off for the same time and resume if necessary" is one such prescription.

Canon Roland Upcher noted that Norfolk shepherds rubbed gunpowder onto the sheep's wounds made during sheep-shearing, and took it to cure or prevent ill effects from handling sheep who suffered from "foot-rot."

Upcher published cases of skin eruption mistaken for scabies, actually caused by handling ivy. Cured with

Gunp. 3x.

Clarke experimented with Gunp. 2x and developed severe herpes facialis involving the right eyebrow and the right side of the nose.

Clarke confirmed the proving by curing shingles. He heard of a case of lumbrici cured with an infusion of Gunpowder by the patient.

A woman, who had a very sensitive skin, was bitten by a gnat on the foot, resulting in swelling inflammation and suppuration. There was a ring of inflammation around the bite, constantly spreading and detaching the epidermis as it spread. After the failure of several remedies, Gunpowder 3x rapidly cured.

A man had a bad cut with a knife on the left index finger. The wound refused to heal. An inflammatory ring stripped off the epidermis and spread more and more. Lachesis and other remedies failed to make any impression. Gunp. 3x rapidly cured.

Another woman was very severely poisoned by sewer-gas. There followed swelling of the right arm and axillary glands of the right side. Three months after the accident the right arm was almost fixed at the elbowjoint with swelling. **11 threatened suppuration**

Gunpowder above and below. The axillary glands were as large as a hen's egg.

Gunp. 3x gradually resolved the trouble and, though the cure was interrupted by an attack of measles, the motility of the arm was fully restored.

Canon Upcher found that occasional doses of Hep. highly increase its effects.

RELATIONS - Calen, externally is also complementary. **Compare:** Thuja, Sil., Bar-c. - septic tonsils.

REFERENCES - Boericke. Clarke. Murphy.

***GYMNEMA SYLVESTRE

PHARMACY - gymne. Gymnemasylvestre. N. O. Asclepiadaceae. Tincture of leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Hives. Snakebite. Taste, altered.

HERBAL - This plant, which grows in the Dec- can peninsula, Assam and some parts of Africa, is a woody climber with long, slender branches. The powdered root has a reputation among the natives as a remedy for snakebite.

HOMEOPATHIC - The leaves have a bitter, astringent and slightly acid taste. Immediately after chewing them, the sense of taste for sugar and for bitters were lost, the effect lasting some hours.

Sense of taste altered. Everything else could be tasted, for instance, the ginger in gingerbread, but not the sweet. Quinine tasted like chalk.

REFERENCES - Boericke. Clarke.

***GYMNOCLADUS CANADENSIS

(American Coffee-tree)

PHARMACY - gymn. Gymnocladus canadensis. American coffee-tree. Chicot. Gymno- cladus dioica. N. O. Leguminosae. Tincture of fresh pulp of the pods. **Historical dose:** Tincture and all potencies.

CLINICAL - Erysipelas. Fever. Headache. Spleen, pain in. Throat, sore. Tongue, blue. Toothache. Whitlow.

HOMEOPATHIC - Gymn. causes numbness and blueness, especially of the tongue. **Bluish-white coating of tongue.** Sore throat, dark livid redness of fauces.

"Erysipelatous swelling of face and head, hot face, it feels swollen is compelled to rub the eyes." Hives.

Headache, throbbing in forehead, temples and over eyes. Full, tight headache, with sensation as if the eyes were pushed forward. Burning in eyes. Full sensations and burning pains. Desire for heat and quiet.

C. T. Bingham cured a man of headache following influenza "a constant severe pain in front part of head, especially under eyebrows and upper part of nose."

It lasted over two weeks, never ceasing and at times intolerable. Bones of eye-sockets were sore to touch. Tongue was covered all over with bluish-white coat, did not enjoy food. Very weak. Gym. 2x cured.

Epidemic fevers of typhoid character have been cured by it.

MIND - Forgets everything. Slow grasp, cannot think, comprehend or study. Indifference to what happens around him.

Abdomen - Pain in left side as if spleen were swollen. Soreness and tenderness of abdomen. Stitches in bowels and umbilical region.

Bladder - Pressure on bladder. Frequent desire to urinate, urine passed in a small stream.

Chest - Pressure on chest and sternum.

Eyes - As if were pushed forward, wants to rub them. Pain under brows into the nose.

Face - Erysipelatous swelling. Crawling as of flies over the face.

Head - Tight feeling, as if bound.

Limbs - Violent pain in left forearm, in radius, as if bones were crushed and broken. Pulsation in left index finger, as if panaritium were forming.

Male - Itching of gland and prepuce.

Modalities - Better from rest. Better rubbing eyes. Better leaning against something. Worse from cold. Worse cold drinks. Worse drafts. Worse walking. Aversion to motion, easily fatigued.

Mouth - Great sensibility of teeth, especially to cold air. Toothache from slightest cold air or drink.

Lungs - Tickling with dry, hard, racking cough. Tickling in throat in morning causing cough, increasing through day.

Stomach - Hot, sour belchings. Burning spot in stomach.

Stool - Constipation with ineffectual desire. Aching fullness in rectum after stool.

Throat - Sore throat, dark livid redness of fauces and tonsils. Smarting in larynx. Sticking pain. Mucus in throat and hawking.

Tongue - *Bluish, white tongue.*

COMMENTS - Fever symptoms. Desire for heat, wants to be near the fire. Cold chills and pains in bowels. Perspiration in axillary regions and palms. Toothache from slightest cold air or drink. Violent pain in left forearm as if the bones were crushed.

RELATIONS - **Compare:** (1) Lachn., Lach., Ail., Rhus-t. (2) Nux-v., Agar. Aeth., Bell., Cic., Hyos., Sol-n., Stram.

REFERENCES - Boericke. Clarke.

***HAEMATOXYLON CAMPECHIANUM

(Logwood tree)

PHARMACY - haem. Haematoxylon campechianum. Logwood tree. N. O. Leguminosae. Caesalpinioideae. Central America. Tincture of the heart wood. **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Borborygmi. Colic. Diarrhea. Dysmenorrhea. Eyes, disorders. Headaches. Herpes zoster. Indigestion. Leucorrhea. Melancholy. Ptosis. Throat, sore.

HOMEOPATHIC - Logwood is a well-known dye of commerce. The tincture was proved by Jouve in 1939 and some very distinctive symptoms were produced including general uneasiness with anxiety arising from the stomach, and colic. Weak digestion accompanies and complicates most other conditions.

General sensitiveness. Painful sensibility of the limbs with lassitude. **Constriction** in many parts, culminating in the stomach and abdomen. Colic with chest symptoms like angina pectoris. **Sensation as if a bar lay across chest.** Chilliness predominates, but the symptoms are better in open air.

MIND - Ill humor, sadness, melancholy. Inclination to repose, desire to weep. Difficulty when reflecting and expressing one's ideas. Vexation. **Anxiety at night.** Anxiety arising from the stomach. Mistakes in speaking.

Abdomen - Tympanitic distention of the abdomen and rising of air. Tension and digging in the abdomen. Pain in the abdomen with yawning inclination to vomit and stretch. Borborygmi. Colic with painful sensibility of the abdomen to the touch, inflation. Colic and diarrhea in morning. After the colic, general cold with burning heat in the palms of the hands.

Back - Pain and chilliness between the shoulders.

Chest - **Sensation as if a bar lay transversely across chest** from region of heart to right side with acute pain in left upper portion

of chest. Constriction, extending from the chest to the epigastrium, with smarting and burning pain increased by the touch. Angina pectoris.

Ears - Violent pain in right ear, extending to throat.

Eyes - Redness of the conjunctiva. Redness of the eyes with blue margins. Eyes downcast and surrounded by a livid circle. Heaviness in the eyes. Heaviness of the eyelids, compels them to close. Painful pressure on the eyes with sensation of constriction. Sensation as if sand were introduced into the eyes. Pupils contracted and sight confused. Mist before the eyes, on reading, the letters vanish. Amelioration of the symptoms when in open air.

Face - Face pale, dejected and changed, discomposed. Pain in face.

Female - Colic, as if the menses were going to appear with slimy, whitish discharge from the vagina. **Weak feeling with painful bearing down sensation at menstrual period.** Pain in hypogastrium, attended with slimy, whitish leucorrhea.

Head - Head feels constricted, heavy, hot, painful. Constriction in the forehead and in the occiput with burning heat in the head. Headache at night, as from indigestion, with swelling of the stomach and abdomen, anxiety,

inclination to vomit, sour risings of food. Headache in the forehead with inclination to vomit on stooping. Pain in left forehead, spreading over face and affecting left teeth.

Heart - Con vulsi ve pain in heart region with oppression. Great soreness in the region of the heart with anguish, redoubled throbbing, small pulse, burning in the hands and shivering of the body. Palpitations of the heart with diminished perspiration of the feet.

Kidneys - Urine red, scanty and burning. **Limbs** - The limbs are painful and languid.

Pain in left shoulder, as if inflamed. Suppression of the habitual sweat of the feet.

Modalities - Worse at night. Worse on stooping. Worse pressure. Worse touch.

Rectum - Borborygmi. Colic and diarrhea in morning.

Skin - Dry skin. Herpes zoster.

Sleep - Irresistible drowsiness. Frequent yawning.

Stomach - Painful digging from abdomen to throat, causing pain in region of heart with oppression. Painful swelling in the stomach with pressure at the epigastrium and risings of flatus. Colic, tympanitis. Borborygmi and diarrhea. Inclination to vomit, sour risings of food.

Temperature - Chilliness predominates, shuddering, goose flesh.

Throat - Lower jaw with stinging in teeth and cheek. Throat feels contracted with burning pain during swallowing. Sore throat with difficult swallowing, inclination to swallow, salivation and smarting. Sensation of a-foreign substance in the throat with yawning and stretching.

Vertigo - Vertigo, so as to occasion falling and dullness of ideas.

COMMENTS - Sensation as if a bar lay transversely across from region of heart to right side with acute pain in left upper portion of chest. Haem. cured a case of herpes zoster with agonizing pain as if a bar lay across the chest, arresting the breathing.

RELATIONS - Antidoted by: Camph. **Compare:** (1) Cact. (2) in compressive pains, Cact., Lil-t., Coloc., Aur., Naja.

REFERENCES - Boericke. Clarke.

***HALCION

(Triazolam)

PHARMACY - hale. Halcion. Triazolam. An allopathic drug. **Historical dose:** All potencies.

CLINICAL - **Amnesia.** Apnea. Coma. Constipation. Convulsions. Delusions. Diarrhea. **Disorientation.** Dizziness. Fainting. Fatigue. Hangover. Headaches. Incontinence. Impaired, coordination. **Insomnia.** Nausea. Nervousness. Nightmares. Sleep, apnea. **Sleep, disorders.** Sleepwalking. Tinnitus. Vomiting.

HOMEOPATHIC - Halcion is a drug used for short-term treatment of insomnia. It is a member of the benzodiazepine class of drugs, many of which are used as tranquilizers.

It's homeopathic used can be surmised from the side effects of this medication.

Coordination problems. Dizziness, drowsiness. Nervousness. Changes in sexual drive. Chest pain. Congestion. Cramping pains. Dreaming and sleep abnormalities. Tendency to fall, stumble. Chronic fatigue. Impaired urination. Morning "hangover" effects. Tiredness and weakness.

MIND - Mental confusion. Perceptual problems. Loss of sense of reality. **Disorientation.** Anxiety and depression. Increased anxiety during the daytime. Inappropriate behavior. Irritability. Aggressiveness, agitation. Behavior problems. Restlessness.

Memory impairment, memory loss. **Traveler's amnesia** has been reported by patients who took Halcion to induce sleep while **traveling.** **Anterograde amnesia,** forgetting events after an injury. Nervousness. Sense of well-being, excitement. Hallucinations and delusions. Coma.

Back - Muscle spasms in the shoulders or neck.

Ears - Ringing in the ears.

Eyes - Visual disturbances. Yellowing of the whites of the eyes.

Female - Menstrual irregularities. Changes in sexual drive.

Food - Loss of appetite. Worse from alcohol.

Worse grapefruit juice.

Head - Headaches. Light-headedness.

Heart - Rapid heart rate.

Male - Changes in sexual drive.

Kidneys - Incontinence.

Limbs - Stiff awkward movements. Tingling or pins and needles.

Lungs - Shallow or difficult breathing.

Mouth - Dry mouth. Burning tongue. Inflammation of the tongue and mouth. Slurred or difficult speech. Taste

changes.

Rectum - Diarrhea. Constipation.

Skin - Skin inflammation. Itching. Yellowing of the skin.

Sleep - Sleep disturbances including insomnia, sleepwalking. Drowsiness during the daytime. Insomnia. Rebound insomnia in patients who have stopped taking the Halcion drug. Sleep apnea. Nightmares.

Stomach - Nausea and vomiting.

Vertigo - Fainting. Dizziness and impaired coordination.

COMMENTS - The drug Halcion has been associated with the following withdrawal symptoms: Convulsions, cramps, tremors, vomiting, sweating, feeling ill, perceptual problems, and insomnia.

Symptoms of the Halcion overdose may include: Apnea (temporary cessation of breathing), coma, confusion, excessive sleepiness, problems in coordination, seizures, shallow or difficult breathing, slurred speech

RELATIONS - Compare: (1) Cocc., Coff.

***HALL AQUA

(Salt Springs)

PHARMACY - hall. Hall aqua. Salt springs of Hall in upper Austria. Containing chlorides, iodides, bromides, carbonates of the alkalies, alkaline earths and iron. The main ingredient is chloride of sodium. Dilutions.

Historical dose: Tincture and all potencies.

CLINICAL - Anemia. Breast, disorders. Exophthalmus. Glands, enlarged. **Goiter.** Night-sweats. Weakness.

HOMEOPATHIC - The salt springs of Hall contains chlorides, iodides, bromides, carbonates of the alkalies and alkaline earths and iron, but by far the largest ingredient is chloride of sodium. Proving have been made of this water, many of them on patients suffering from goiter.

In the provings, many marked symptoms appeared in the breast glands. Great weakness and exhausting night-sweats were produced, and all the symptoms of cold in the head and chest.

A number of symptoms occurred after sleep and some of them woke the provers in the night. One prover had a sensation as if her stomach would fall out and as if her breasts would fall off. In many cases the pains were transient, acute and returned after a short interval.

RELATIONS - Compare: (1) Nat-m., Sil-mar. - stitches shooting out of nipple. (2) 01-an.

REFERENCES - Clarke.

***HALOPERIDOL

(Haldol)

PHARMACY - halo. Haloperidol. Haldol. An allopathic drug. Halo, is a butyrophenon used as an anti-psychotic.

Historical dose: All potencies.

CLINICAL - Allergies. Backache. Catatonia. Conjunctivitis. Dermatitis. Headaches. Heart, disorders. Hypotension. Impotency. Liver, disorders. Memory, weak. Nausea. Neurosis. Paresthesia. Parkinson's disease. Pseudo-bulbar, syndrome. Raynaud's syndrome. Sclerosis. Schizophrenia. Tachycardia. Vertigo.

HOMEOPATHIC - A butyrophenone drug used as an antipsychotic, also used in Huntington's chorea and Gilles de la Tourette's disease. The present symptomatology is the result of the examination of the toxicology record of the side effects of Haloperidol, and of a homeopathic proving.

The proving was done by O. A. Julian who used Haloperidol in 30c, 7c, 3x and placebo, with twenty-eight collaborators in 1974-75. Out of twenty-eight provers, there were six women, and most of the provers were also doctors or students of medicine.

Instability of the mind and body. Weariness, fidgets in the lower limbs, buzzing in the ears, dizzy feeling on rising. Constant need to move when in bed, resulting from sensation of formication in all the joints of the body. Physiological slowness.

Disturbances of synthetic processes of the mind. Sensation of constant stress. Dawdles. Mumbles. Sensation of unreality, of being outside self, particularly in morning. Loss of notion of time. Frequent forgetfulness of everyday tasks. Confused. Difficult concentration.

Desire to stay lying down and do nothing. Strong need to sleep. Talkative, especially in the evening after 9 p.m., with need to relate stories. Excited. Tendency to philosophical speculation.

Sensation of constricted throat, of chest being in a vice, respiration difficult, thorax painful. Tachycardia. Respiratory rhythm disorders. Excess salivation. Nausea in the

Haloperidol

morning. Desires salty foods. Empty urging and constipation. General sweating. Legs give way.

MIND - Extreme difficulty in concentrating and in intellectual thought. Forgetfulness and loss of sense of time.

Impression of being behind a cloud. Great waves of pessimism for no reason. Depression. Neurosis from anguish. Anxious, restless. Very talkative.

Depersonalization of the self. Impression of disintegration of personality, especially after 9 p.m. Catatonia with attitudes, gestures, words, all strange and stereotyped. Schizophrenia and schizophrenic conditions. Euphoric state in the evening. Feeling of living "outside of myself," and returns to himself a few hours later.

Abdomen - Rumbling and belching. Painful contractions of the abdominal muscles.

Back - Backache. Stiffness at the nape of the neck, trembling, shaky walk.

Bladder - Retention in the bladder. Dysuria. Urinary and fecal incontinence.

Constitutions - Allergic, cancerous conditions with psychopathic tendency.

Ears - Earache in the left ear.

Eyes - Conjunctivitis. Cataract. Vision misty. Deep, burning sensation in the eyes, rising to the surface with tingling in the eyelids, appearing slowly, gradually between 11 a.m. and noon.

Face - Face expressionless of fixed expression. Fixed gaze.

Female - Disturbed libido.

Food - Hypoglycemia. Desires salty foods, which relieve. Loss of appetite, especially at midday.

Head - Headache in the morning, localized at the frontal region.

Heart - Tachycardia. Faintness and syncope. Hypotension. Rapid pulse. Circulatory complaints, formication of the ankle, knee, wrist, elbow, scapular and humeral regions.

Limbs - Arthralgia. Muscle pain. Raynaud's syndrome. Pains in the bones, especially left metatarsal bone, wrists, elbows, and knees. Painful cramps in the afternoon in both thighs. Cramps in the calves. Pain in the right elbow with appearance of a few red spots. Pains in the wrists and right

Haloperidol

thumb. Hands hot, fingertips freezing.

Lungs - Asthmatic wheezing. Irregular respiration, either rapid and superficial or short inhalation following very slow exhalation followed by an arrest of pulmonary ventilation for a few seconds.

Male - Total impotence. Diminished or disturbed libido.

Modalities - Better from closing the eyes. Better hot water. Better walking in company. Better salty food. Worse in the morning.

Mouth - Excessive salivation. Bad breath in the morning and after each meal.

Perspiration - Profuse perspiration. Sweating from the hands, more intense between 1 p.m. and 3 p.m. Fairly intense sweating from the whole body. Hands and axilla extremely wet. Palms of hands very hot, despite the fingertips being frozen.

Rectum - Frequent desire to go to stool, then expelling nothing. Persistent constipation, slightly ameliorated by eating prunes. Spasmodic constipation. Fecal incontinence. Anal pruritus, lasting for four days.

Skin - Skin yellowish, blotchy, pink cheeks. **Abnormal hair growth.** Hyperhidrosis. Dermatitis in brown patches on the legs.

Sleep - Insomnia. Sleep disturbed. Fear of cancer-type dreams. Sleeps better on the stomach. Frequent desire to sleep. Rises with feeling of not having slept enough, even after a good night's sleep. Difficulty getting started in the morning. Sleepy during the day.

Stomach - Quickly satisfied. Acrid dyspepsia. Nausea, vomiting, digestive discomfort. Nausea in the morning or during the day.

Temperature - Fever and chilliness. Overheated.

Throat - Constricted throat.

Vertigo - Vertigo with stumbling gait. Dizzy sensation with visual fog, on rising.

COMMENTS - Difficult concentrating, feeling as if in a fog, as if dead. Headache in the morning. Short headaches localized in the frontal region. Headache behind the right eye, better by closing eyes, lasting only a few seconds.

Heaviness of the head, starting at the nape of the neck and spreading to the occiput and rising to the top of the head, ameliorated by lying down, closing the eyes and placing the hands over the eyes. Difficulty in moving, grimacing and protrusion of the tongue. Very severe spasms of the ocular rotatory muscles.

Muscular stiffness and contracture. Painful contractions of the abdominal, brachial and lumbar muscles. Fleeting torticollis when stretching. Constant restlessness of the lower limbs, cannot stay sitting or lying down. Extreme trembling, stumbling gait. Raynaud's syndrome.

Hysterical stitch. Paresthesia. Extreme sensitivity to touch. Symptoms better by stretching out the hands perpendicularly to the axis of the body and by bending the legs. Sleeps lying on stomach.

Tachycardia. Faintness and syncope. Hypotension. Rapid pulse. Circulatory complaints including formication of the ankle, knee, wrist, elbow, scapular and humeral regions. Proliferation of hair.

RELATIONS - Compare: (1) Phos. Lyc. Puls. Zinc. Med. Cocc. Hydrog. (2) Anh. - Hyperesthesia of the cortex, thalamus and organs, visual hallucinations, loss of contact with surroundings, accommodation difficult and perception disorders. (3) Chlorpr. - Melancholy, difficulty in concentrating, loss of memory, had to make great effort for intellectual work, trembles, hypertonia, stiffness. (4) Agar. - Vertigo in the morning, clumsy hand movements, frontal headache, spreading to the nose with pains as if pricked by icy needles, head moves constantly, spasmodic jerking in the limbs.

REFERENCES - Julian.

***HAMAMELIS VIRGINIANA

(Witch-hazel)

PHARMACY - ham. Hamamelis virginiana. Witch-hazel. Hamamelis macrophylla. Hamamelis dioica. N. O. Hamamelidaceae. A shrub growing in all parts of U. S. in damp woods or along streams, flowers in autumn, flowers yellow, the seeds ripen the year following. Tincture of fresh bark of twigs and root. A resinoid, Hamamelin is also prepared. **Historical dose:** Tincture and all potencies.

CLINICAL - Aching, pains. Ankles, weak. Black eye. **Bruises. Burns.** Cancer. Chilblains. Edema. Enteric, fever. Gastric, ulcers. Hematemesis. Hematocele. Hematuria. Hemoptysis. **Hemorrhages. Hemorrhoids.** Leucorrhea. Menstruation, disorders. Miscarriage, threatened. Nipples, sore. Noises, head. Nosebleeds. Orchitis. Ovaries, disorders. Ovaritis. **Phlebitis.** Phimosi. Phlegmasia alba dolens. Purpura. Rheumatism. Scurvy. Smallpox. **Sore, pains.** Tuberculosis. Ulcers. Uterus, disorders. Vaginismus. Varicocele. **Varicose, ulcers. Varicose, veins.** Wounds.

HERBAL - The deep red color of the tincture may be taken as **thesignature** of its therapeutic action. No remedy has a wider sphere of usefulness in cases of hemorrhage and disordered blood vessels.

It has also a decided relation to the effects of mechanical injuries including first-degree burns. As a local application it takes rank with Arn. and Calen, in the materia medica.

HOMEOPATHIC -The principle action of this remedy is on the veins especially of rectum, genitals, limbs and throat, producing **venous congestion, varicose veins, hemorrhoids and hemorrhages.**

Acts upon the coats of the veins causing relaxation with consequent engorgement. Passive venous hemorrhages from any part. **Phlebitis.** Veins, painful, varicose, sore, cutting, swollen inflamed. Painful, hard, knotty.

Hemorrhages cause great exhaustion, out of proportion to the amount of loss. Hemorrhages, capillary, dark, fluid, relieves or causes undue weakness.

Hemorrhoids with much bleeding and marked soreness of the part, the back feels as if it would break (Aesc. has little or no bleeding). Tense, bursting feeling in hemorrhoids, joints or lower limbs.

Bruised, soreness of the affected part from which blood flows, in blood vessels, abdomen etc. Great value in **open, painful wounds** with weakness from blood loss. Relieves the pain after surgery (Calen.), supercedes the use of morphine. Prickling, stinging pain in veins, muscles, skin.

MIND - Forgetful of words when talking. No desire to study or work. Averse to being spoken to. Irritable, gloomy, depressed, stupid. Feels unappreciated. Wants respect due to him. Hemorrhages with tranquil mind. Reverence for those around him. Anxiety at night. Sadness better evening. Depressed after emissions with regretful mind. Sadness from masturbation. Felt as if he was going out of his mind during headache over left eye. Thinks constantly of his ailment. Wandering thoughts while studying.

Abdomen - Burning in the epigastrium and umbilicus. Pain all around lower abdomen. Cramps in stomach and transverse colon two hours after a hearty dinner. Varicose veins of abdomen. Flatulence. Inguinal glands tender and enlarged.

Back - Sore pain down cervical vertebrae. Breaking backache. Painful scapulae. Severe pain in lumbar and hypogastric region, extending down legs. Rheumatism of scapula. Chilliness in back and hips, extending down legs.

Breasts - Sore nipples, bleeding.

Causations - Burns. Injuries.

Chest - Chest feels sore and constricted, worse by a long or deep breath. Stitches in lower part of lungs. Dull, aching pain constantly in muscles of left chest, worse using arms afternoon and evening.

Constitutions - Venous constitutions.

Coughs - Tickling, with taste of blood on awakening. Dry cough, severe stinging in the uvula, as if it would break. Hemoptysis, tickling cough with taste of blood. Dry, short, with sensation of dryness in throat. Cough from a varicose condition of throat.

Ears - Deafness in right ear, passes off by noon. Buzzing, ringing in ears. Bleeding at right ear, also nosebleed, which clears her head, relieving her.

Eyes - Traumatic effects. **Sore pain** in eyes, eyes painful under slight pressure. Painful weakness. **Black eye**. Iritis, conjunctivitis. Blood shot eyes. Hastens absorption of intra-ocular hemorrhage. Eyes feel forced out, better pressure of finger. Eyes inflamed, vessels greatly injected, caused by a foreign substance. Intense soreness after operations.

Face - Burning in right cheek. Muscles feel sore and stiff. Occasional shooting pains along right superior maxillary to malar bone. Lips are dry, sore, cracked.

Female - Vicarious menstruation. **Menses dark, profuse with soreness in abdomen**. Jolting brings on menses. Bleeding, midway between menstrual periods, only in daytime. Inter-menstrual pain. Leucor-rhea, bloody with soreness of vagina. Uterine hemorrhage, bearing-down pain in back. Ovarian congestion and neuralgia, feel very sore. Ovaritis after a blow or after abortion with soreness over the whole abdomen. Vagina very tender, sore. Vulva itches. Vaginismus. During pregnancy, legs become painful, can neither stand nor walk. Milk leg.

Food - Appetite good. No appetite for breakfast. Nausea from pork. Considerable thirst, better by small quantities of water. Very thirsty in afternoon and evening, throat dry. Averse to water, makes him sick to think of it.

Head - Feeling as of a bolt from temple to temple. Numbness over frontal bone. Hammering headache, over left eye, left temple, as if he would go out of his mind. Stupid feeling in head. Stupor, dullness, headache, crowding fullness in head and neck, also in forehead. Fullness of head, followed by a nosebleed. Bursting headache on waking. Headache after an emission.

Heart - Pulse accelerated, full. Palpitations. Pricking pain in region of heart and superficial veins of both arms.

Kidneys - Dull ache about kidneys. Hematuria with increased desire for urination. Hematuria, passive congestion of the kidneys, dull pain in kidney region. Dull ache about kidneys. Urine clear copious. Scanty high-colored urine. Irritation of the urethra, followed by a discharge and ardor urine.

Limbs - Great lassitude and weariness of the limbs and elsewhere. Tense, bursting feeling in limbs and joints. Very sore muscles and joints. Rheumatism with great soreness of the muscles. Tired feeling in arms and legs.

Phlebitis. Varicose veins. Varicose ulcers with bloody bases. Neuralgia of internal saphenous nerve. **Milk-leg, hemorrhoids and sore nipples after childbirth**.

Lungs - Smothering sensation when lying. Expectoration thick, yellowish or greenish gray, tasting putrid. Hemoptysis, tickling cough with taste of blood.

Male - Severe neuralgic pains in testicles. Pain running down the spermatic cords into the testes. Orchitis, intense soreness and swelling, worse touch. Testicles enlarged, hot and painful. Epididymitis. Varicocele. Hematocele. Emission at night without being aware of it. Profuse cold sweat on scrotum, capillary stasis.

Modalities - Worse from injuries. Worse bruises. Worse pressure. Worse jar, touch. Worse motion. Worse exertion. Worse warm, moist air. Worse open air. Worse humid, rainy weather. Worse cold. Worse during day (pains).

Mouth - Burns of tongue and lips, or feels burnt. Blisters on sides of tongue, canker spots near the tip. Tongue coated white. Bloody, metallic taste. Passive hemorrhage from gums after tooth extraction with soreness.

Nose - Over-sensitive sense of smell. Bad smell from the nose. Nose feels stopped up. Sneezing spells, watery, excoriating, burning discharge. **Nosebleeds**, flow passive, non-coagulable, with tightness at the bridge of the nose. Profuse nosebleed, idiopathic or vicarious. Nosebleeds with hemiplegia in old men. The nosebleed clears head and relieves.

Rectum - Anus feels sore and raw. Itching at the anus. Pulsation in rectum. **Hemorrhoids, bleeding profusely with soreness**. Costive, hard stools, coated with mucus. Large quantities of a tar-like blood in stools, particularly with typhoid or dysentery.

Perspiration - Sweats freely at night, after lying down.

Skin - Burns. Ecchymosis. Purpura. **Bruises**, traumatic inflammations (Arn.). Bluish chilblains. **Varicose veins and ulcers**, very sore. Varicose ulcers with bloody bases.

Sleep - Restlessness at night. Uneasy, restless morning sleep. Emissions of semen during sleep.

Stomach - Blisters on side. Pain and heaviness at the back of stomach. Throbbing and pain in stomach. Cramp in stomach after eating. Belchings after a meal, taste of the food. Nausea, headache in frontal bone on awaking. Nausea and inclination to vomit after a meal. Vomiting of black blood. Hematemesis, black blood.

Teeth - Sharp pain along the molar teeth, extending to the malar bone, also in temporal region. Teeth ache, can scarcely sleep, yet not decayed. Pains worse in warm room. Gums sore, painful, swollen, bleed easily, dark fluid. Passive venous hemorrhage after extraction of teeth.

Temperature - Cold creeps in the open air, chills run up the legs, head stopped up, dull pain over orbit. Chilliness over back and hips, extending down the limbs. Chilly on going to bed, dreading an attack of fever. Fever at night, hands hot, burning in the eyelids on closing them.

Throat - Hoarse on waking. Sore throat, worse right side, right tonsil more swollen, reddened, with distended veins. Sore throat in those predisposed to fullness of the veins, worse in warm, moist air. Mucous membrane distended and bluish, varicosis of throat. Stinging, breaking pain in uvula, while coughing. Hawks considerably.

Vertigo - Swimming sensation on rising. Vertigo when stooping. Nausea and vertigo with desire to lie down.

COMMENTS - Hering, who learned its properties from Mr. Pond of "Pond's Extract" fame (Pond was a patient of Hering's), made the first provings and introduced the remedy into homeopathy. He defines its position as being between Aeon, and Arn.

"Pond's Extract" is an aqueous distillate prepared from the leaves. A number of interesting superstitions are associated with the shrub, and shoots of it are used as "divining rods" for discovering water and metals.

It is tonic, astringent, sedative and hemostatic. Applied topically to varicose veins. May help relieve the pain from burns (Canth.). It has been used as a mouthwash with spongy, bleeding gums.

Hale gave a very full account of the remedy, noting that conditions likely to require Ham. include phlebitis and varicose veins, hemorrhoids, venous hemorrhages. The local application of Ham. to a sprained knee has been known to set up inflammation in the veins of the part and the provers who had varicose veins experienced increased sensitiveness and unusual sensations in them, a number were cured.

Passive hemorrhages (Chin.), with intense soreness. The part from which the flow of blood proceeds feels sore and bruised. Fullness, soreness, and a bruised feeling. Hemorrhages are mostly dark and may occur from any orifice.

Bruising and bleeding under the skin (Arn., Sul-ac.). Ecchymosis. Bruising from a puncture wound. Lack of ligament tone. Laxed ligaments, tendons, or tissues. Tired, aching, feeling in the back and lower limbs. Rheumatic symptoms with characteristic soreness.

Congestion, inflammation and bleeding of hemorrhoidal vessels, with marked action in the throat (Aesc.). Phlebitis and varicose veins with soreness. Varicose angina, where the veins of the pharynx are large and blue. Taste of blood in the mouth.

Headache, chiefly in the temples, throbbing, hammering, especially over left eye. Black eye (Symph., Led.). History of use in painful tumors, especially ulcerated malignant tumors where there is bruised, dark bluish or purplish color.

Pricking pain in the rectum, anal itching. Dysentery, when the amount of blood is unusually large, dark, small clots or patches through the mucus. Constipation. Hemorrhoids.

Metrorrhagia, menorrhagia, vicarious menstruation and hemorrhages between the period, particularly if it's dark red blood. Stagnant blood in the uterus. Ovulatory bleeding. Orchitis, ovarian disorders, phlebitis and varicose veins. Venous stasis (Bell-p., Sep.), particularly after childbirth. Ovarian disorders, orchitis, with soreness

Thirst. Toothache worse in warm room, from touch. Takes cold easily from every exposure, but especially to warm, moist air.

Dr. Ward noted a case in which he cured inter-menstrual pain. Allen mentioned in the provings an inter-menstrual flow and Dr. Ward observed that if his patient has had the flow, the soreness so distinctly felt might not have been realized.

Hughes gave Ham. to a young woman suffering from a daily nosebleed and throbbing headache. The first dose was followed by a flushing of the face and most distressing throbbing, aching and sense of fullness in the head.

The second dose brought back all the symptoms in the head and a feeling as if it would burst. Some days later, the 3x was given and again the dilatation of the cerebral vessels occurred, through the symptoms were not so severe.

The scapular pain bears on the experience of Dr. Koech, who cured with Ham. many cases of scapular rheumatism. He regarded it as a specific in disorders of the last five cervical nerves.

Bree said it will relieve the excessive thirst that most patients with heart troubles complain.

RELATIONS - Antidoted by: Arn., Camph., Chin., Puls. - toothache. **Compare:** (1) Arn., Calen, is better than either in hastening the absorption of intra-ocular hemorrhage. (2) Chlor., Sec., - purpura. (3) Fl-ac., Lach., Puls., Nux-v., Aesc, Nit-ac. - in varicose veins and hemorrhoids. (4) Spong., Puls. - orchitis. Ham. has more soreness. (5) Cimic. - abdominal sore-

ness after labor. Ham. is an excellent external application. (6) Bry - vicarious menstruation. (7) hemorrhage in typhoid, Nit-ac. light. Ham. dark. (8) Bell., Euphor., Rhus-t., Tereb., - as an application in burns of first degree. (9) Hirudo - hemorrhages. (10) in hemorrhoids: Fl-ac., Aloe, Mur-ac. (11) in varicose veins, Mangifera indica.

Complementary to: Ferrum in hemorrhages.

***HEATHER

(Bach Flower Essence)

PHARMACY - heath-b. Heather. *Calluna vulgaris*. The flowering stems are placed in a bowl of water and allowed to sit in the sun for several hours. The water is strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Heath-b., with Wat-v-b. and Imp-b., belongs to Bach's group **of Loneliness**. For suffering from inner loneliness as a result of being too centered within their own selves and losing the connection with others.

Overbearing and agitated. Sleep-like disorders (see Chic-b., Ch-bd-b.) or obsessively fixated ideas (Wh-ch-b.). Feigning or unconscious production of sickness, urge to talk about symptoms.

MIND- Self-centered. Worry over self. Feeling that one deserves sympathy and regard. Stuck on personal affairs. Attaches importance to experienced hardships and dilemmas.

Craves attention and sympathy. Attentiongetting behavior. Talkative over seemingly unimportant details, to get attention, feel special or show self-pity. Feigning sickness, hypochondriasis (Chic-b., Mimul-b.).

REFERENCES - Bach.

***HECLA LAVA

(Volcanic Ash)

PHARMACY -hecla. Hecla lava. Volcanic ash. Lava Heclae. Volcanic ash from Mount Hecla in Iceland. The finer ash falling in distant localities. The ash of this volcano contains silica, alumina, lime, magnesia with some oxide of iron. Trituration. **Historical dose:** Trituration and all potencies, lower triturations.

CLINICAL-Abscess, gums. Antrum of High- more, tumor. Arthritis deformans. Arthritic nodosities. Boils, gums. **Bone, deformities. Bones, disorders. Bones, spurs. Bone, tumors.** Breast, tumors. Dentition, difficult. **Exostoses.** Facial, neuralgia. Glands, disorders. Hallux vulgus. Hipjoint, arthritis. **Jaw, pain. Jaw, tumors.** Milk, deficient. Neuralgias. Nodosities. **Osteitis.** Osteomalacia. **Osteosarcoma.** Paget's disease. Periostitis. Rickets. Syphilis, bones. Teeth, decay. **Toothaches. Tumors.** Varicose, veins. Warts. White, swellings. Whitlow.

HOMEOPATHIC - When traveling in Iceland, Garth Wilkinson noticed that the sheep in the vicinity of Hecla had immense **bony growths on the jaws**. Another effect noticed was the drying up of the milk both in sheep and cows. The finer ash which fell on pastures at a distance was the most deleterious, the gross ash near the mountain was inert.

Wilkinson added that he used Hecla, with excellent effect in toothache, gum abscess, swellings about the jaws and in difficult dentition.

Hecla, affects mostly the bones of the head, **jaws, jawbones**, teeth and legs. **Osteosarcoma, exostosis and osteitis**, arrests development and prevents recurrence.

Clinical experience has shown the power of Hecla, to arrest many forms of bone disease including osteosarcoma, scrofulous and syphilitic osteitis and exostoses. Painful swellings, sensitive to touch, worse from touch and pressure.

Exostosis, gum abscess, **toothaches**, difficult teething. Nodosities, decay of bone, etc. Bone necrosis. Necrosis and sinus after mastoid operation. Facial neuralgia from decayed teeth and after extraction. Induration and infiltration of cervical glands, studding the neck like a row of pearls. **Tumors** in general. White swellings. Whitlow and gumboils. Syphilis. Predominantly affects the right side.

Mind - Irritability. Nervousness in the morning. Sensitive to criticisms. Outburst of violent anger and feeling of helplessness. Indignation. Suppression of anger. Ailments from shock.

Back - Induration and infiltration of the glands. Neck glands are enlarged and indurated, like a row of pearls

Bones - Necrosis and destruction of bone. Bone inflammation. **Bone spurs, tumors** or exostoses, especially of the head, jaws, leg. Benign bone cysts, tumors. Painful bone tumors or nodosities after injury. Exostoses of fingers. Tumors of the tibia with severe continuous pain. Osteomalacia, rickets. Osteitis, periostitis. Osteitis deformans. Osteosarcoma.

Breasts - Breast tumors or nodules. Diminished milk while nursing. Dried up, no breast milk.

Causations - Injury to bone.

Chest - Muscle pain, especially of intercostal muscles.

Ears - Caries of mastoid bone. Exostosis in external meatus of ear.

Face - **Facial neuralgia from decayed teeth** and after extraction. Polyps, commencing in Antrum of Highmore. Tumor, deforming face, forcing eyeball upward, obstructing nostrils, extending downward into the

mouth, impeding breathing and chewing, nosebleed, headache.

Head - Chronic headache, from dental or bone disease. Headache from injury of dental nerves. Tumors of the skull.

Jaws - **Abscess or enlargement of bone** remaining after a tooth extraction. Violent pain in upper jaw. **Enlargement of maxillary bone**, from injury to jaw. Painful to touch, **upper jaw, swelling** under right alae nasi sensitive. Right cuspid of upper jaw sensitive to slight pressure.

Limbs - Severe, continuous pain in lower limbs. Swollen and bulging thighs and legs. Varicose veins. Arthritic nodosities. Exostoses of tibia, severe continuous pain

incapacitating from work. Hip joint disease. Hallux vulgus. Deformity or nodules of the fingers, toes.

Modalities - Worse from touch. Worse pressure. Worse beginning of motion. Worse sitting, rest. Worse left side.

Mouth - Neuralgia from decayed tooth in cavity from which tooth has been extracted. Pain in wound, where tooth has been extracted. Abscess of gums. Difficult dentition in scrofulous and rickety children.

Neck - Swollen cervical glands, like a string of pearls.

Nose - Nasal polyps or tumors. Ulceration. Destructive, syphilitic ulceration of nasal bones.

Skin - Black warts. Actinomycosis. White swellings.

Teeth - **Toothaches**, especially of teeth that are very sensitive to pressure with swelling **about jaws. Dental abscess** with swelling, pus worse pressure on teeth. **Decay of teeth**. Pain or neuralgia after extraction. Chronic dental or jaw abscess. Chronic gingivitis. Fistula. Gumboil. Delayed or difficult dentition in malnourished children.

Vertigo - Vertigo everything goes up, down and sidewise.

COMMENTS - Affinity for bone deformities, bone spurs and tumors (Calc-f.), bone diseases. Calcium deposits in the joints that cause deformities, deforming or rheumatoid arthritis. Spinal curvatures. Hypertrophied bone. Bone cancer. Osgood-Schlatter.

Bone lesions, osteitis, periostitis, exostosis, tumor, often follow an injury to the bone. Painful and tender lesions. Enlarged and indurated cervical nodes, sometimes likened to "a string of pearls."

Decomposition and necrosis of the sinus and nasal bones, or for a history of damage or surgery in the area. Severe toothache, where the jawbone aches, boring and digging pains in the bone. Bony lesion after a dental abscess. Late state syphilis where the nasal bones deteriorate. Facial neuralgias after tooth extractions. Damage to the jawbone from dental surgery. Ulcerations of the bone.

Burnett noted "On July 3, 1880, a young lady, age 15, came under my observation with an exostosis on her right os caléis, somewhat smaller an a little flatter than half a walnut shell. It was at times painful.

"Patient was in other respects in good health and well nourished, but her teeth were not very sound. She goes blue in winter, and suffers also very badly from chilblains both on hands and feet, worse on hand.

"Hecla lava 2c given six grains three times a day. July 17th. The exostosis is decidedly smaller; it never pains now. September 25. The exostosis has entirely disappeared; the two heels being compared, no difference between them now can be discovered."

Burnett stated "I have cured several bony tumours of the jaws with the same remedy, and that very promptly: they were all of recent origin."

RELATIONS - Compare: (1) Calc-f., Calc., Merc., Phos., Sil. Still., Sulph., Kali-i., Symph., Ruta. (2) Conch. - diaphysis of bone affected, parts extremely sensitive to touch. (3) Amph. - great affinity for the jaw bones, worse by air and dampness. (4) Slag - great itching of parts.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***HEDEOMA PULEGIOIDES

(Pennyroyal)

PHARMACY - hedeo. Hedeoma pulegioides. Pennyroyal. American pennyroyal. N. O. Labiate. The British Pennyroyal is Mentha pulegium. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Dysmenorrhea. Gastritis. Flatulent, colic. Leucorrhea. Miscarriages. Nausea. Poison oak. Vertigo. Vomiting.

HERBAL - Hedeoma puleg. is also known as the common English Pennyroyal, the German Poley, the Arabic Alnam, and the ancient Greek Glachon. Hedeoma belongs to that large class of mints and common herbs that have been cast aside by the medical profession as worthless.

Hedeoma is one of the oldest remedies known, a common household herb long before the time of Hippocrates. Hippocrates and the ancient physicians used it as a tea for increasing the flow of urine, for kidney stones, and as a uterine stimulant. Popularly believed to be valuable for treating miscarriage in weak, cachectic women.

HOMEOPATHIC - Marked female symptoms, often associated with nervous disturbances. Bearing-down

pains, worse by any movement and accompanied by almost paralytic weakness of the legs.

Nervous symptoms, jerkings and twitchings. Weak, faint, better lying down, inability to sit up. Pains in abdomen, worse after eating or drinking, touch and pressure. Flatulent colic. **Pain along ureter.** Red sand in urine. Antidotes effects of poison oak (Grin.). **Abdomen** - Distended, sore and sensitive.

Flatulent colic.

Female - Leucorrhea with itching and burning. Ovaries congested and painful, bearing-down spasmodic contractions. Bearing-down pains with much backache, worse least movement.

Head - Dull, heavy feeling in morning. Sore pain, as from a cut. Weak, faint, better lying down.

Kidneys - Dragging pain from kidney to bladder. Dull burning pain over left kidney. Frequent urging, cutting pains. Pain along left ureter. Burning irritation at neck of bladder causing frequent, intense desire to urinate and inability to retain urine for more than a few minutes, better urinating.

Limbs - Pain, coldness and paretic conditions. Twitchings, jerkings, soreness. **Pain in thumb joint.** Achilles tendon painful, as if sprained and swollen, walking painful. ,

Stomach - Gastritis. **Everything taken into stomach causes pain.** Tongue coated thin white. Nausea.

COMMENTS - Anshutz wrote "Hedeoma contains three bodies peculiar to the plant, three different oils, also formic and acetic acid and likewise ischeptoic acid. There are on record seven cases of poisoning. Two provings have been made by my self. Several of the poisoning cases are very meagre and of little value.

"One teaspoonful of the oil, three drachms of the essence, seems to be almost a fatal dose in one case only was abortion produced and that from one ounce of the oil, followed by collapse and death.

"The leading symptoms of the cases of poisoning are briefly: Vertigo. Dimness of vision. Dilated pupils. Nausea and vomiting. Persistent severe bearing-down pains from the upper part of the sacrum and the region of the kidney to the uterus like true laborpains. Frequent painful, scanty, burning urination. Small, rapid pulse. Nervous weakness. Cold clammy limbs."

Dr. Toothaker reported a case in which the bearing-down labor-like pains and the scanty, painful urination lasted for many days and were very severe.

Clarke prescribed this remedy in two cases. In the first, a woman of gouty, rheumatic tendency, who had dragging burning pains in the left ureter going to the bladder and was passing quantities of "red sand." The pain lasted for ten days. Hedeo. 1c, on discs, was given, one disc every two hours. Complete relief was obtained after two doses.

The second case concerned a man of 60, very fond of champagne, who was bothered by constant burning irritation at the neck of the bladder, which caused frequent, intense desire to urinate and an inability to retain his urine for more than a few minutes. He always had marked relief on urinating. Urine retained in the bladder increased this irritation at the neck of the bladder and also caused an uneasy pain in the right testicle.

These symptoms had been more or less persistent for months and the attacks always lasted days at a time. Complete relief was obtained after one or two doses of Hedeo. 1c.

RELATIONS - Compare: (1) Menth., Sep., Lil-t. (2) Oci. - uric acid diathesis, pain in ureters. (3) Hed.

*****HEDERA HELIX**

(Common Ivy)

PHARMACY - hed. Hederá helix. Common ivy. Ground ivy. Glechoma hederacea. N. O. Araliaceae. Tincture of young shoots. Tincture of flowering **twigs.** **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Anxiety. Arterial sclerosis. Arthrosis deformans. **Cataract.** Cerebro-spinalis. Cirrhosis. Convulsions. Cough. Delirium. Diarrhea. Emphysema. Gallstones. Gastritis. Hay fever. Hemorrhoids. Herpes. Hydrocephalus. Insomnia. Leucorrhea. Menorrhagia. Myocarditis. Raynaud's syndrome. Rhinorrhea. Rickets. Sinusitis. Tachycardia. Whooping cough.

HERBAL - Hederá helix, or Ivy, is a shrub that grows all over Europe. It is a creeper, which fixes itself by clinging roots. The leaves are cadiform at the base and more separated in the higher parts of the plant.

The fruit is bluish-black in color, equal to a pea in size. Historically, the wood was used for coughs as an anti-spasmodic; the leaf was used internally as an emmenagogue and externally as a topical anti-neuralgic. The fruit was used for intoxication, digestive and nervous complaints, delirium, and convulsions. The mother tincture is used for coughs and is prepared from the flowering twigs.

HOMEOPATHIC-The symptomatology was established by Mezgerin 1932 on seventeen people, using the 1x, 6x, and 15x potencies, for a period of twelve weeks. Easily tired, ameliorated by fresh air or noticeable increase in physical ability.

Dr. Cooper's experience has shown it to have a relation to rickets and rickety conditions. Rhinorrhea cerebro-

spinalis. Hed. has been used for "clearing the sight" and Cooper said it has cured cases of cataract.

Joint pains and circulatory complaints, especially in the middle of the night. Cardiac palpitations. Acts on blood vessels, menorrhagia. Menses reduced, vesicular eruption on the face and body.

Swelling of the thyroid glands. Glándula sub-mentalis inflamed. Extreme anxiety with the feeling of constriction of the throat. Cough with laryngeal and tracheal irritation. Morbid hunger, gastric cramps. Diarrhea. Anus feels raw and sore. Hemorrhoids with rectal irritation and bleeding.

Delirium and convulsions. Chronic hydrocephalus, rhinorrhea, and cerebro-spinalis. General improvement in fresh air. but extreme sensibility to catching cold and to chills. Symptoms start on the left side and spread towards the right.

MIND - Constant state of unrest and worry. Anxiety, which grows all the more as he feels incapable of mastering it. Insomnia. Psychological symptoms improve in fresh air.

Abdomen - Pancreatitis.

Constitutions - Tubercular conditions, especially in phosphoric types.

Ears - Pain and buzzing.

Eyes - Feeling of sand in the eyelids. **Cataract.** Muscae volitantes.

Female - Premenstrual leucorrhea. Acrid, scorching discharge. Menses late, shorter and less copious. Infrequent menses. Feels better during menses. Amenorrhea in young girls. Pain in the Fallopian tubes and left ovary. Sclera-cystic ovaritis, especially on the left side. Genital tuberculosis.

Food - Lack of appetite or strong hunger pangs.

Head - Catarrhal inflammation of the frontal sinuses with headache. Headache, especially in the left side of the forehead and nape of the neck. Neuralgic pains in the head, ameliorated by fresh air.

Heart - Angina pectoris. Needle-like pains in the precordial region. Palpitations and anguish with swelling of the thyroid gland. Myocarditis. Arterial sclerosis. Rhythmic anomaly, accompanied by tachycardia. Thyrotoxic tachycardia. Extrasystole or paroxysmal tachycardia, in a young subject with a normal heart.

Kidneys - Frequent, abundant urination.

Limbs - Pain in the arms, legs, back and sacral region, sometimes ameliorated, sometimes aggravated by movement. Muscular rheumatism. Joint rheuma

tism. Tubercular inflammatory dislocating rheumatism. Arthrosis deformans. Nocturnal paresthesia pains in the arms. Raynaud's syndrome.

Liver - Inflammation of the gallbladder. Gallstones. Pain in the region of the gallbladder. Cirrhosis of the liver with cardiac decompensation.

Lungs - Irritated cough with grayish or yellow sputum. Whooping cough. Bronchial asthma in children. Emphysema.

Modalities - Better from fresh air. Better cold baths. Better in a room. Better movement. Better friction, massage. Better in the afternoon and evening. Worse in the middle of the night. Worse 3 a.m.

Mouth - Transparent vesicles on the lips and on inside of cheeks in a group, circumscribed by a red ring. Toothache from hot and cold. Dental neuralgia.

Nose - Hay fever. Acute and chronic rhinitis. Sinusitis (frontal, ethmoidal). Pharyngitis. Nasal discharge, worse in a warm room. Pain in the ethmoid and frontal sinuses. Chronic tracheitis, caused by a lesion in the nasal mucous membrane.

Rectum - Stools copious, either diarrhea or constipation.

Skin - Pruritus. Eruption of small pustules on the skin of the face and body. Prurigo. Urticaria. Labial and genital herpes.

Sleep - Wakes around 3 a.m., falls asleep again after eating a little.

Stomach - Pain on empty stomach, ameliorated by eating. Nausea, gastric heaviness, stomach cramps. Gastritis. Stomach and duodenal ulcers.

Temperature - Peripheral circulatory complaints. Feet and hands icy, red. Shivering and chilliness with bouts of perspiration and palpitations. Shivering and nausea in the evening until 4 a.m.

Throat - Chronic tracheitis. Pain around the tonsils and throat on swallowing. Hoarseness and inflammation of the larynx. Cough with a cold and inflammation of the pharynx, aggravated by heat and by speaking.

Vertigo - Vertigo on bending down and from rapid movement of the head.

COMMENTS - Cooper published case of a woman of twenty, who was cured of chronic hydrocephalus with a single dose. When she was brought to Cooper, the circumference of her head was 27.5 inches, rendering her an object of wonder and ridicule and reacting on her disposition and nervous state.

The condition had existed from childhood and was apparently growing much worse. There were two large edematous swellings on the nape of the neck, one on either side and immediately below the occiput, evidently the result of intra-hydrocephalic pressure.

One drop of Hed. tincture was placed on her tongue. The next morning, clear fluid began dripping from the nostrils, a "cerebrospinal rhinorrhea" in face.

This continued for three weeks, between twenty and thirty pocket-handkerchiefs were used in a day. Simultaneously the swellings began to diminish and had completely disappeared when the discharge ceased. Thirteen months later, when being measured for a hat, it was found that the size of the head was reduced to 25 inches and no longer occasioned remark.

When, later on, some symptoms of brain pressure seemed to threaten, a second dose of Hed. completely dispelled them. The disposition of the patient was completely changed from being nervous, unhappy and diffident, she became lively, cheerful and active.

RELATIONS - Compare: (1) Aral-r., Gins., Sil., Nat-m. (2) Iodum - is the remedy, whose symptomatology is very similar. Iodum shows more emaciation inflammation and hardening • of the lymphatic glands. Ovarian pain on the right and menses more abundant. (3) Calc- fl - Fear that his way of life will collapse. Pains aggravated by humid or cold weather. Menses copious. Hardening of the breasts, ovary or uterus. (4) Nat-m. - Depressed and sad, prefers solitude. Emaciation. Fissure in the middle of the lower lip. Chronic, periodic headaches with strong pulsating, as though the head would burst. Dryness of the mouth with extreme thirst.

REFERENCES - Clarke. Julian.

***HEDYSARUM ILDEFONSIANUM

(Brazilian Burdock)

PHARMACY - hedy. Hedysarum ildefonsianum. Brazilian burdock. Hedysarum desmodium. Barba de Roy. Carapicho. N. O. Leguminose. Papilionoideae. **Historical dose:** Tincture and all potencies.

CLINICAL - Gonorrhea. Ophthalmia. Penis, inflammation.

HERBAL - This plant is named by Mure, who gave an account of it in his book and described it as "The brownish ligneous stem of this plant is about three feet high, it is ramose, pubescent, especially above. Leaves alternate, pinnate, trifoliate, folioles oval and slightly tormentose, on a hairy, bi stipulate petiole.

"The flowers, which are small and seated on filiform unifloral peduncles, form loose, terminal spikes. Fruit oval, hairy, on bent peduncles and attaching itself very intimately to clothes and to hairy skin of animals.

"The chief effect of Hedysarum was inflammation of the penis and of the eyes, which should indicate it in some cases of gonorrheal ophthalmia."

REFERENCES-Clarke.

***HELIANTHUS ANNUUS

(Sunflower)

PHARMACY - helia. Helianthus annuus. Sunflower. N. O. Composite. Tincture of mature flower-heads. Tincture of ripe **seech.** **Historical dose:** Tincture and all potencies.

CLINICAL - Colds. Constipation. Coryza. Hemorrhoids. Intermittent fever. Nasal obstruction. Nausea. Nosebleeds. Spleen, disorders. Throat, sore. Urticaria. Vomiting. Wounds.

HOMEOPATHIC - Helia. is a spleen remedy (Cean.). Spleen disorders. Chronic cases of intermittent fever. Coryza, catarrh, nasal hemorrhage and thick scabs in nose. Rheumatic pain in left knee. Externally, used as a vulnerary like Arn. and Calen.

In the pro vers there were marked effects on stomach, with nausea and vomiting. Congestion and dryness of mouth and pharynx.

Dry mouth. Redness and heat of skin, worseexternal warmth. Black stools (Lept.), soft, with an emission of semen; stools become black, hard, occurring every other day. Hemorrhoids.

Abdomen - Spleen enlarged and painful.

Eyes - Slight redness on margin of left upper lid with smarting in inner canthus. Eyes suffused. Weakness of the eyes.

Face - Anxious, countenance. Face deeply flushed.

Food - Thirst, nausea.

Head - Headache.

Limbs - Rheumatic pain in left knee on descending stairs.

Lungs - Cough in forenoon with gelatinous expectoration streaked with blood. Breath rather difficult and hurried.

Modalities - Better after vomiting. Worse from external heat, especially the skin.

Mouth - Tongue and fauces very red and inclined to dryness. Unusually hot taste when eating. Difficulty in articulation. Sticking in upper back teeth.

Nose - Coryza, catarrh. Nosebleeds and thick scabs in nose.

Rectum - Hemorrhoids. Stools soft, black, hard, every other day, with emission of semen.

Skin - Skin generally of scarlet redness and very hot. Tingling of skin. Many urticarialike pimples. Groups of red pimples on inner side of knee with slight itching. Small red tetter to right of navel. Measles.

Stomach - Vomiting, increasing in severity-

Throat- Voice hoarse. Stiffness and dryness of the throat. Sensation of glowing in the throat and stomach. Severe burning in fauces, esophagus and epigastrium.

COMMENTS - Dr. Cessoles proved the expressed juice of the flowers, some observations have also been made on the effects of eating the seeds. In some parts of America the Native Americans use the seeds as an article of food.

Hansen said it equals Arn. and Calen., also yellow-flowered composites, as an application to wounds. Burnett regarded Helianthus as a great spleen remedy.

RELATIONS - Compare: (1) Lept. - black stools. (2) Arn., Calen., Hyper. - wounds. (3) Cean. - spleen.

REFERENCES - Boericke. Clarke.

***HELIOTROPINUM

(Heliotrope)

PHARMACY - fielio. Heliotropinum pe-ruvianum. Heliotrope. Cherry pie. **N. O.** Boraginaceae. Tincture of whole fresh plant when in flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Backaches. Clergyman's, throat. Dysmenorrhea. Headache. Hoarseness. Leu- corrhea. Sore, throat. Uterus, displacement.

HOMEOPATHIC - Helio, has been slightly proved. Cooper used this remedy clinically and considered hoarseness and **"thick voice"** a great indication. He cured clergyman's sore throat with it.

Helio, has an action in uterine displacement, leucorrhea, backache. There is a bearing down from heavy, waterlogged condition of the uterus. ,

Symptoms of pressure and tension were produced in many parts: pressure on the sternum impeding breathing, pressure on the head, on mons veneries, pain as if beaten in leg muscles.

Chest - Pressure and oppression of external parts of chest, without affecting breathing.

Eyes - Feeling of tension in left inner canthus extending down into nasal bone. As if a swelling were there. Eye seems drawn together and smaller.

Female - Membranous dysmenorrhea. Leucorrhea. Pressure on mons veneries only when sitting. Uterine displacements with backache, especially if subject to loss of voice.

Head - Headache in forehead like a pressure and drawing pressing pain, better walking in open air.

Limbs - Pain, as if beaten above ankle, extending up the muscles, even when sitting. Itching on tibia, with sensations as if there was an eruption.

Modalities - Head symptoms better on walking in the open air. Other symptoms were worse after resting. Worse on inspiration.

Stomach - Pressure in pit of stomach, worse on inspiration. Epigastric region is sore to touch, most violent after eating and in evening.

Throat - Voice thick, clergyman's sore throat.

COMMENTS - Cooper gave Helio, to a woman who had been advised by several surgeons to have various organs either braced up surgically or removed. She described the effect as having made her "feel just as if braced up" six hours after taking the dose.

Helio, is especially indicated if there is also a tendency to loss of voice. It has also cured membranous dysmenorrhea.

RELATIONS - Compare: (1) Bor. - membranous dysmenorrhea., (2) Symp. - bruised pain in leg.

REFERENCES - Clarke.

***HELIX TOSTA

(Toasted Snail)

PHARMACY-helix.Helixtosta.Toastedsnail. **N. O.** Helicide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Dyspnea. Hemoptysis. Hemorrhage. Hoarseness. Tuberculosis.

HOMEOPATHIC - Snails have a tradition for curing tuberculosis.

COMMENTS - W. H. Leonard reported two cases cured with Helix 100,000c. In the first, a man had frequent hemoptysis. Continuous hoarseness with a dry tickling cough, worse at night, preventing sleep. Dyspnea, worse from ascending stairs. He had already had all the usual remedies.

Helix 100,000c., three powders were given. There was no more hemorrhage. A few weeks later a return was

feared and a few more doses were given. Four months later the patient was greatly improved in health and remained well.

In the second case, a woman of tubercular diathesis developed the disease after confinement. Several well-indicated remedies

failed to check its progress. At length, hemorrhage set in.

Helix was given, as in the other case, with prompt effect. Hemorrhage ceased, cough and expectoration gradually improved, and in eight months the patient was well and remained so.

REFERENCES - Clarke.

***HELLEBORUS FOETIDUS

(Bears Foot)

PHARMACY - hell-f. Helleborus foetidus. Bears foot. N. O. Ranunculaceae. Tincture of the root. **Historical dose:** All potencies.

CLINICAL - Cholera. Hair, loss. Nails, brittle. Scarletina. Skin, peeling. Stiff-neck.

HOMEOPATHIC - The effects of Hell-f. have been observed on several persons. It is a violent narcotic-acrid poison and in fatal poisoning cases death has taken place in convulsions.

The vision is disordered, choleraic symptoms occur, skin, hair and nails exfoliate. "Profuse discharge from ulcerated surfaces." Anxiety, better after vomiting.

RELATIONS - Compare: (1) Verat. - copious liquid stools. (2) Hell., Hell-v., Colch.

REFERENCES - Clarke.

***HELLEBORUS NIGER

(Black Hellebore)

PHARMACY - hell. Helleborus niger. Black hellebore. Snow-rose. Christmas rose. N. O. Ranunculaceae. Central Europe. Tincture of dry powdered root. Juice of fresh root mixed with equal parts of alcohol. **Historical dose:** All potencies.

CLINICAL - Albuminuria. Amenorrhea. Apathy. Aphthae. Ascites. **Brain, disorders.** Cholera. **Coma. Concussions.** Convulsions. Cough. Cystitis. Depression. Diarrhea. Dropsical, swellings. Dullness. Epilepsy. Fevers. Headaches. Head injury. Hernia. Homesickness. Hydrocele. Hydrocephalus. Hydrothorax. Hysteria. Kidneys, congestion. Mania. Melancholy. **Meningitis. Night-blindness.** Post-partum, convulsions. Scarletina. Strokes. Stupor. Tetanus. Typhoid, fever. Ulcers. Uremia. Wounds.

HERBAL - "Black" hellebore receives its name from the external color of its root. It is commonly known as the Christmas Rose or black hellebore. Black hellebore was one of the drugs used to produce the "Helleborism of the ancients," a subject of Hahnemann's famous writings.

HOMEOPATHIC -Low states of vitality and serious diseases, when everything around the patient looks dark and dusky. Patient's face, lips, hands etc. become dark, nostrils sooty. Parts that are usually red can turn white. Feeble and delicate.

Sensorial depression. Senses become blunt and responses are sluggish, sees, hears, and tastes imperfectly. Mania of a melancholy type.

Muscles do not obey the will, can stagger, drops things etc. General **muscular weakness**, which may go on to complete paralysis, accompanied by dropsical effusions Convulsions and twitching of muscles, automatic acts, automatic motion of one arm and leg.

Epilepsy with consciousness, followed by deep sleep. Convulsions with extreme coldness in nursing children.

Noise arrests the paroxysms of convulsions. One side is paralyzed, the other keeps up automatic motions.

Sinking sensation. Gradual onset of the disease with progressive weakness. Lies on back with knees drawn up or with legs spread apart. State of effusion in hydrocephalus. Serous effusions. Characteristic aggravation from 4 p.m. to 8 p.m. (Lyc.).

MIND - Dull, stupid, slow perception. Slow in answering. Answers confusedly as if thinking of something else. Inattention. Sensorial apathy and constant thoughtless staring at one spot alternating with unintelligible muttering. Gloomy, dismal, despair.

Irritable, worse consolation, does not want to be disturbed. Aversion to company, better when alone.

Indifference to loved ones, relations. Indifference to pleasures. Indifférance to everything. Indifférance to sufferings. Envious seeing others happy.

Ailments from disappointed love. Homesickness. Worse or better from thinking of complaints.

Fixed ideas. Just sits and says nothing, does nothing. Hysterical mania from selfaccusation. Drops things when attention is diverted, as when being spoken to. Things look new and different. Melancholy during puberty. Sensitive to noise.

Involuntary sighing. Picks at lips and clothes, ends of fingers. His mind seems to have lost all control over his body. Stubborn silence. Would not eat or speak. Never expresses desire for anything. Idiocy after a stroke.

Complete unconsciousness. When aroused he talks about spirits and says he sees devils.

Fear of dying. Believes she is doing wrong. Thinks she is going to die on a certain day. Delusions, sees devils. Delusions sees images in the dark. Delusions pursued by enemies. Fancies at talking with dead people.

Abdomen - Distended. Swollen, painful to touch. Coldness in abdomen. Inflation of the epigastrium with pain of ulceration and impeded respiration. Ascites. Gripping, pinching colic with weakness. Gripping, pinching about navel, in the abdomen, followed by gelatinous stools. Rumbling and borborygmi in the abdomen, gurgling, as if bowels were full of water. Severe, hard pressure on middle of os pubis.

Back - Gnawing and obtuse lacerations of the spine. Pain, as from a bruise, between the shoulder blades. Neck rigid (meningitis). Stiffness and painful sensibility of the neck and the nape of the neck during movement. Swelling of the glands of the neck.

Bladder - Cystitis. Constant desire to urinate, causing spasms, passing very little. Urination suppressed. Child can't urinate. Bladder overdistended. Bladder becomes paralyzed and greatly distended during pregnancy. Uremia. Dropsy. Frequent urging, with scanty discharge. After great pressure he passes, with much pain, a few drops of blood.

Breasts - Pain under left nipple, pains all over her, forced her menses on, had to get up at night to pass water.

Causations - Ill effects of checked exanthemata, blows, disappointed love.

Chest - Constriction of the throat, nose and chest. Heat in the chest. Tension in region of left short ribs during cough. Sharp cutting pain in region of lower ribs across chest, from within outward, worse inspiration. Chest constricted, gasps for breath with open mouth, propped up in bed.

Coughs - Short, dry cough, worse at night, smoking or suddenly appears while smoking. Dry cough with gagging. Sudden cough, constant hacking.

Ears - Shootings in the ears, day and night with searching piercing. Roaring and ringing. Apparatus of hearing intact, yet hears nothing distinctly nor comprehends.

Eyes - Eyeballs red, glassy. Eyeballs turn upwards, squinting, vacant look. Contraction alternating with dilatation of pupil. Eyes wide open, sunken. Blue edges. Stupid staring or tired look. Night blindness. Photophobia without inflammation. Squinting of eyes with insensibility to light. Sensation as if eyelids were pressed down, difficult to open them. Lids sticky, dry. Loss of hair from eyebrows.

Face - Face flushes red and then becomes pale. Pale, sunken, edematous, red hot or cold. Wrinkled. Neuralgia on left side, parts so tender he cannot chew. Face distorted, yellowish. Constant chewing motion of the lower jaw, hangs open. Cold sweat on face, icy-cold.

Female - Suppression of the menses. Amenorrhea from disappointed love, from damp feet and getting wet through. Pains all over her body forces her menses on. Uterine dropsy with piercing pain in limbs. Puerperal convulsions, arrested by sudden noise.

Food - Anorexia, with brain complaints. Speedy satiety with repugnance as to rest of meal. Organs of taste in working order, yet finds not the proper taste in anything. Nausea, can't take food, though hungry. Aversion to vegetables, meat, sauerkraut. Thirst absent in most complaints or thirst

with disgust for drinks. Violent thirst and usually canine hunger during fever. Greedily swallows the cold water, then bites the spoon, while unconsciousness, with hydrocephalus. Children nurse greedily. **Head** - Concussion

of the brain from blow on the head (after Arn. has failed). **Rolls the head constantly with moaning.** Hydrocephalus. Dropsy of brain. **Bore into pillow.** Meningitis. Strikes the head. Forehead wrinkled in folds in brain disorders. Brain feels too large. Cold sweat. **Stupefying headache, worse stooping.** Headache ends in vomiting. Shooting pains, causing sudden screams. Dull pain in occiput with sensation of water swashing inside. Electric shock passes through brain before spasms. Heat deep within head. Pain in vertex as if a nail were driven in. Humid scurf on scalp. Hair falls off with pricking on scalp.

Heart - Palpitations. Heart's action weak. Anxiousness about heart which prevents him resting anywhere. Pulse, small, slow, soft, almost imperceptible. Slow, small, soft pulse, often slower than beating of heart. Pulse intermittent in hydrocephalus.

Kidneys - Congestion of kidneys with extensive effusion of serum in abdominal cavity and tissue of lower limbs. Nephritis causing dropsical symptoms. Uremia. Large quantity of pale, watery urine. Urine scanty, dark with floating, dark specks. **Coffee-ground sediment,** especially during pregnancy. Passes blood and slime, with burning and stinging.

Limbs - Limbs heavy and painful. Stretching of limbs. Edema of legs. Shiverings, alternating with shooting pains in the limbs. **Automatic motion of one arm and leg,** except when asleep. Thumb drawn into palm (Cupr.). Legs drawn up with every attempt to change the position. Contractive pain in the loins. Vesicular eruption between fingers and toes.

Lungs - Suffocating constriction in the lungs, throat and nose. Sighing respiration. Accelerated or deep and slow respiration. ***Gasps for breath but can't inhale.*** Hydrothorax (Merc., Sulph.). Breathes easier lying down.

Male - Hydrocele from suppressed eruption, on either side. Suppression of sexual desire with flaccidity of the genital parts.

Modalities - Better when mind is diverted. Better in warm air. Better by wrapping up. Breathing easier when lying down. Worse from cold air. Worse uncovering. Worse evening until morning. Worse 4 p.m. to 8 p.m. Worse from puberty. Worse dentition. Worse suppressions. Worse exertion. Worse motion. Worse touch. Worse stooping. Worse when thinking of ailment.

Mouth - Lips dry and cracked. Mouth dry, also palate, with cutting and scraping in palate on moving mouth to swallow. Meaningless picking of lips. ***Chewing motion.*** Greedily swallows cold water, though unconscious. Child nurses greedily with disgust for food. ***Horrible smell from mouth.*** Aphthous, lenteria. ***Falling of lower jaw.*** Ptyalism, with sore corners of mouth. Mouth, gums and tongue full of flat yellow ulcers, with elevated grey edges, or red, swollen edges. Salivation. Will take no food except drink. Eruption of blisters around mouth.

Nose - Dirty, dry nostrils. Nostrils, sooty, dilated. Nose pointed. Fluent coryza with confusion of head, as if bruised. Sneezing. Smell diminished. Rubs nose in hydrocephalus.

Perspiration - Nocturnal sweat towards the morning. Cold, clammy perspiration. Sweats temperature unchanged. Sticky sweat. Sweat relieves. Sweats less after sleep.

Rectum - Constipation alternating with mucous diarrhea. Feeling as if intestines had no power to evacuate feces, during soft stool. Diarrhea with pain in the abdomen and nausea. Diarrhea preceded by colic, which is better after every stool. Diarrhea during acute hydrocephalus, dentition or pregnancy. Stools, involuntary, loose, watery, like frog-spawn, of white jelly-like mucus. Watery and frequent evacuations. Burning, smarting, at anus, after stools. Hemorrhoids.

Skin - ***Pale, dropsical,*** itching. Anasarca. Angio-neurotic edema. Sudden, watery, swelling of skin. Livid spots on skin. Military eruptions. Falling off of hair and nails. General desquamation of the skin.

Sleep - Stuporous, cannot be fully aroused. Sleepiness with eyes half open and pupils turned upwards. Confused, anxious dreams, the remembrance of which is not retained. Tossing in the bed. Sleeps with shrieks and starts. Sudden screams in sleep. Muscles twitch during sleep. ***Cri encéphalique*** (Apis.).

Stomach - Heaviness, fullness of the stomach. Pit of stomach sunken. Burning and scraping in the stomach, which extends to esophagus during pregnancy. Nausea, sometimes with excessive hunger, rising up from pit of stomach. Nausea during pregnancy, before and during stool. Nausea and violent vomiting, with much heat in stomach. Vomiting of greenish-black substance with colic. Anorexia with brain complaints.

Teeth - Grinds the teeth. Toothache at night with shooting and tearing pains, worse by cold and heat.

Temperature - Coldness of the body, especially the limbs. Chill spreads from arms. Goose bumps. Chill with fever, sweat and aversion to uncover. Chilliness predominates during the day with heat of the face and drowsiness. Heat followed by chill with colic.

Throat - Bitter taste in the throat, worse by eating. Water rattles down throat. Scraping feeling on back of palate. Tiresome dryness on palate and cutting and scraping pain on moving the parts in swallowing. Aching, sore throat on swallowing, feels excoriated.

Tongue - Tongue, numb, trembling, covered with yellow ulcers. Tongue red and dry, white in morning. Pimples on tip. Bitter taste, worse eating.

Vertigo - Vertigo with nausea, watery vomit and loose bowels, worse stooping, better becoming erect.

Vision - Early stage of amaurosis. Nightblindness. Vision unimpaired, nevertheless sees imperfectly and doesn't regard the objects he sees.

COMMENTS - Hahnemann wrote "I conclude from various observations that one of the first effects of Black Hellebore is a kind of stupor, a dullness of the sensorium commune, a condition where with sight unimpaired, nothing is seen very fully and the patient does not pay any attention to anything.

"The hearing is perfectly sound, but nothing is heard distinctly. With perfectly constituted gustatory organs, everything seems to have lost its taste. Where the mind is often or always without ideas. Where the past is forgotten or little remembered. Where nothing gives one any pleasure. Where one's sleep is very light and a really sound, refreshing sleep is not to be had and where one desires to work without having the necessary strength or attention required for it."

Cooper, who studied the Hellebores very closely, noted that they produce the "sinking sensation" more intensely than any other drugs. The winter aconite (*Eranthis hyemalis*), a close ally of Hell., "acts on the solar plexus and works upwards, causing dyspnea."

Cooper quoted from *Flora Histórica* an interesting account of how French prisoners of war at Norman-cross were suffering from an epidemic of night-blindness (*nyctalopia*), when for lack of snuff they took to using

powdered black hellebore with the result that they were cured of their blindness in a few days.

Teste grouped Hell, in the Chamomilla class with Grat, and Viol-t., all of which cause "a joint derangement of the cerebral functions and even of the whole nervous system, a painful increase of the sentient action, followed by a considerable depression of the vital forces and a certain disorder of the mental faculties."

Impaired mental functioning. Functional shut-downs of various parts of the brain, particularly since fever, trauma, drug overdoses. Fluid buildup in the brain. Loss of memory.

Stupor or coma since head injury (Arn., Nat-s.). Hydrocephalus. Strokes followed by idiocy. Brain symptoms during dentition. May help for autism.

Lack of response to sensations, mumbling. Pupils are fixed and dilated, or fixed and contracted (Op.). Craves cold water. Mouth chews, bites, while unconscious. Constantly picks the lips or bedding while unconscious. Grinding teeth, the head bores into the pillow. Pulse is slow and feeble, the respiration is slow and the temperature low. Torpidity and apathy (Op.).

From a purely nervous derangement, it can go on to inflammatory states of the brain and its meninges. Keynote drowsiness, particularly in meningitis or fever. Effusion from the inflamed membranes. Dropsical conditions, post-scarlatina dropsy.

The forehead is wrinkled, there are automatic movements of one arm and leg, while the other is paralyzed. The head rolls from side of side with screams. Chewing motion of jaws. Greedy drinking of water.

Stupefying headaches, as though contents of head were bulging at forehead and eyes. Shocks pass through the brain like electricity. Boring and shaking in forehead and occiput, bruised pain, heat in brain. Pains in occiput and nape of neck.

In fever, sooty appearance of the nostrils, dry, yellow tongue with red edges, horribly offensive breath, drinks roll audibly into stomach. Pale, cold face. Pulse is faint, imperceptible. Fever is worse 4 to 8 p.m.

Suppressed urine in high fevers (Apis). Scanty or entirely suppressed urine, sometimes with sediment like coffee grounds. Urine symptoms in general conditions, will increase the flow. Vomiting and purging, the vomit is apt to be green and the stools jelly-like.

Hydrocele from suppressed eruptions. Ulcers with dropsical conditions (Cooper treated with Hell, and Hell-v. given internally). History of use as an application to drain the tissues of ulcers. Hell. fet. is noted for "profuse discharge from ulcerated surface."

Clarke frequently cured with Hell, a headache which the patient could only describe as a "stupid headache."

Teste cured with Hell. a case of epilepsy in a little girl five weeks old after the failure of Cham. Cham, was given to the nurse, Hell, directly to the patient.

History of a case of brain concussion resulting from a blow on the head (after Arn. failed). One pupil was larger than the other, the patient was drowsy, answered questions slowly, one leg dragged on walking.

RELATIONS-Antidote: Camph., Chin. **Compare:** (1) Threatening effusion. Tub., Apis, Zinc., Op., Chin., Cic., Iodof. (2) Hell-f. - Acts especially on spleen (Cean.), also rectum and sciatic nerve. Splenic pains extend to scapula, neck and head, worse left side and evening, chronic ague cake, hypertrophied uterus, glandular enlargements, hair and nails falling off, skin peeling.

REFERENCES - Boericke. Clarke. Murphy.

***HELLEBORUS ORIENTALIS

PHARMACY -hell-o. Helleborus orientalis. N. O. Ranunculaceae. Tincture of root. **Historical dose:** All potencies.

CLINICAL - Apathy. Diarrhea. Exhaustion. Indigestion. Salivation.

HOMEOPATHIC This was proved by V. Schroff on Lederer, and produced symptoms like those of the other Hellebores. Particular to Hell-o., there was accumulation of water in the mouth with a clean tongue. Bad taste with clean tongue. Prostration, exhaustion and disinclination to work, burning in stomach, diarrhea. Symptoms better from coffee.

REFERENCES Clarke.

***HELLEBORUS VIRIDIS

(Green Hellebore)

PHARMACY-hell-v. Helleborus viridis. Green hellebore. N. O. Ranunculaceae. Tincture of root of young shoots.

Historical dose: All potencies.

CLINICAL - Colic. Diarrhea. Epilepsy. Sore throat. Ulcers.

HOMEOPATHIC - Hell-v. was proved by Schroff. It produced roaring in the ears, itching in the nose and prickling of the tongue, diarrhea of liquid stools, a condition of sopor.

Cooper cured with it ulcers of the leg, near the ankle after the failure of Hell. Also a case of epilepsy in a child,

the concomitant symptoms being head sweats before the fit, diarrhea for four days, and sleepiness.

REFERENCES - Clarke.

***HELODERMA SUSPECTUM

(Gila Monster)

PHARMACY - helo. Heloderma suspectum. Gila monster. Heloderma horridus. N. O. Heloderma of the Lacertilia. Trituration of sugar of milk saturated with the venom. Solution of the venom in alcohol. **Historical dose:** All potencies, thirtieth potency.

CLINICAL - Brain, affected. Cerebrospinal meningitis. Coldness. Cyanosis. Depression. Headache. Heart failure. Locomotor ataxia. Melancholy. Neuralgia. Numbness. Paralysis. Paralysis agitans. Parkinson's disease.

HOMEOPATHIC - The first notice of the remedy is from Dr. Charles D. Belden, who supplied Boericke and Tafel with a living specimen and poison he obtained.

Heloderma is sluggish and slow of movement when kept in the dark, but may develop great activity when brought into the sunlight. The only vulnerable part seems to be at the junction of the head with the spine, a blow on which will kill it.

Belden noted that this animal does not bite frequently, but when it does it is understood that the result is abenumbing paralysis similar to Parkinson's disease or to locomotor ataxia. There is no tetanic phase, a condition almost reverse in objective symptoms to Hydrocy. acid or Strychnia.

Helo, is indicated in many forms of disease characterized by **great coldness**, "**an arctic**" coldness as the **intense icy coldness** is the most peculiar symptom of the poison. Cold waves from occiput to feet or ascending, as if frozen from within outwards.

Breath and tongue are cold, cold feeling in lungs and chest, coldness across scapula, burning in the spine. Cold, creeping ring around the body.

The eyeball becomes more prominent and the cornea shows opacities. Boyd noted that the exophthalmus is due to the pressure of the blood behind the eyeball.

Steps high and puts heel down hard, sensation as if walking on a sponge or as if with swollen feet. Turns to right when walking. Stitch pains going from left to right. Weak, giddy, making it difficult to stand. Unable to balance himself. Patient staggers while walking. Movement does not increase the pain. Throbbing all over body. Bone pains.

MIND - Melancholy with weeping. Depression. No inclination for exertion in any way. Passively indifferent. Forgetfulness. Difficulty in remembering the spelling of simple words. Unable to confine mind to any object. Startling easily with trembling, on slight noise. In spite of very severe symptoms, not alarmed.

Abdomen - Sensation of constriction about the whole abdomen. Throbbing, rumbling in bowels. Sharp, shooting, stitching pain in bowels, more on left side. Pain across pubic bones, extending down into left testicle.

Back - Stiff neck, aching in bones of neck. Painfulness of upper neck. Chill in back from base of brain downwards. Coldness across scapulae. Pain in back, pain in lumbar muscles awakening him. Burning along spine.

Chest - Cold feeling in lungs and in heart. Sharp stitch through right nipple to inside of the right arms.

Ears - Pressure behind left ear, pressure in ear from within outward. Copious flow of wax. Ears dry and scurfy. Ringing in ear like night-bell.

Eyes - Itching of eyelids, heavy, hard to keep open. Eyeballs become more prominent and the cornea shows opacities. Lachrymation.

Face - Cold, crawling feeling, from temple down right cheek, as if facial muscles were drawn tight over the bones. Stiffness of jaw. Dry lips. As if pricked with points of ice. Sensation of heat. Flushes of heat.

Female - Burning and dryness of the vagina.

Food - Dislikes sweet things, worse from taking them.

Head - Cold pressure within the skull. **Cold band around head.** Heat on vertex. Benumbed feeling all over head. Soreness and stiffness in occiput. Throbbing on vertex. Pain beginning in right ear, extending around back of head to left ear. Sensation as if head would fall to right side. As if scalp were drawn tight over skull. Bores head in pillow. Awakes suddenly with jerk in head.

Heart - Palpitations and dyspnea from slight exertion. Slow labored thumping of heart. Pressure at heart. Tingling, trembling, oppression and coldness around heart. Sticking pains, shooting from left to right. Stitches in heart. Soreness in heat, more under left nipple.

Kidneys - Aching, stitching in right kidney. Bladder irritable, frequent urging to pass urine. Tenderness in urethra with sensation of discharge. Urine not as free as usual, muddy. Intermittent flow. Urine is greenish-

yellow, fetid like decaying fruit. Burning in the urethra during and after urination.

Limbs - Stretching relieves pains in muscles and limbs. Numbness and trembling. Coldness. Numbness of the arms from the hands to the elbows. Cyanosis of hands. Tingling, creeping sensation on the legs as if from insects. Leg is insensible to an electric battery. Leg is wasting away, skin very dry and inelastic. Ankle turns easily when trying to walk. Sensation as if walking on sponge and as if feet were swollen. Staggering gait. Cock's gait. When walking, lifts feet higher than usual and puts down heel hard. Feet cold as ice or burn.

Lungs - Slight, hacking cough with pain in the left scapulae. Fullness in chest, requiring an effort to inflate the lungs. Oppressed for breath from least exertion.

Male - Cold penis and testicle with gluey discharge. Pain and enlargement of left testicle.

Modalities - Better from stretching. Better warmth. Worse when thinking of her ailments. Worse being cheered by company. Worse from cold. Worse exposure to cold air. Worse stormy weather. Worse lying in bed at night. Worse after sleep.

Mouth - Breath cold. Tongue dry and cracked in the morning. Tongue cold, tender and dry. Very thirsty. Swallowing difficult. Dryness of lips. Soreness.

Nerves - Startled easily. Tired feeling, very weak and nervous. Trembling, of left side, hands shaky, can be controlled with effort. Intense aching in bones and all parts of body.

Nose - Left nostril sore, ulcerated. Dry, itching scurfs in nostrils. Severe attack of sneezing. Fluent discharge.

Pulse - Full and jerky.

Rectum - Constipation from torpor of the rectum. Loose, copious stool, lumpy, mushy, preceded by stitches in abdomen, with considerable flatus. Stool soft, dark, difficult to expel. Hemorrhoids, swollen, itch and bleed. Itching of the anus.

Skin - Yellow skin. Itching, as from insects.

Sleep - Drowsiness, but inability to sleep. Restless sleep, awakens at 3 a.m. Awakened from sleep by jerking in head, trembling of limbs, pain in lumbar muscles.

Stomach - Empty belchings, especially before breakfast. Empty, gone sensation in the stomach. Acid burning in stomach.

Temperature - *Internal coldness*, as if frozen to death. *Temperature subnormal* (Camph.). *Cold spots*. Cold rings around body. *Arctic coldness*. Severe chill ran down back. Cold waves (Abies-c., Aeon.), ascend from feet or downward from base of brain. Hot flushes and burning in head and along spine.

Throat - Swallowing difficult. Dryness, parched sensation. Tingling. Soreness, tenderness to touch. Stinging, sore feeling in right tonsil.

Vertigo - Sensation as if would fall to right side.

COMMENTS - The Gila monster is a native of Arizona, New Mexico and Texas. It is smaller than the Mexican variety, called

Heloderma suspectum *Heloderma horridum*, the "Crust lizard" or the "Gila monster," which is generally regarded as harmless.

Belden described it as "an ugly, disagreeable-looking creature, the head long and blunt, eyes black and bead-like, tail half the length of the body, thick-set and club-like. The entire body cased in a thinly coated armor, marked curiously with yellow and black." Its skin is studded with nail or tu-bercle-like heads.

The venom is alkaline in reaction. A number of cases of bites are on record. A dog bitten in the nose "uttered fearful howls and when after great difficulty, he was released, had symptoms like 'blind staggers,' began turning around in a circle and died in twenty minutes."

A young miner bitten in the leg, though in robust health at the time, at once began to lose flesh, became melancholic and died in a few months like a person with rapid tuberculosis.

A Native American woman bitten in the leg survived, but the leg shriveled and she became a semi-idiot, though she lived over thirty years after. The writer of an article quoted by the Recorder from the New York Sun related her case, describing the effect as:

"Where the person survives an hour or two after the bite, the agony is described as awful to witness. The poison goes through the human system with rapidity and causes unspeakable pain and excruciating agony from head to foot.

Though paralyzed, every muscle, bone, sinew and nerve is keenly alive to intense pain. The sufferer's head seems as if it would split open. Very few persons bitten can speak after the first fifteen minutes, but unconsciousness seldom comes until a few minutes before death."

Belden noted its reputation of being fatal to drinkers and to affect non-drinkers less severely. This is borne out somewhat by the recovery of Mr. Vail of Tucson, a man of temperate habits, after a bite: and the death of a man bitten while drunk, after lingering several months.

This lingering nature of the poison is markedly different from snake poisons, which generally kill quickly, if at

all.

Mr. Vail said his suffering was intense, the pain proceeding from the wounded part to the head and back. Immediately after receiving the wound, which was on his index finger, both wrist and finger were tightly bandaged.

Two hours later, the wound was cleansed and dressed and the bandages reapplied. For three days those intense pains would shoot toward the head and spine on loosening the bandages in the least degree.

After three months the only perceptible result was a swollen tongue that seemed then unwilling to resume its proper size. The treatment he received was profuse sweating by administration of Jab.

This much was known when Dr. Robert Boocock made his proving. His first experience was with three or four drops of a solution of the 6x trituration, one drachm in four ounces of alcohol.

He was seized with an internal coldness from the heart as if being frozen to death internally and had no way of warming himself. "Coldness from within outward." The coldness of this remedy is more intense than that of any other. The prover called it "arctic coldness."

The coldness was at times followed by sensations of heat and burning. Dr. Boocock's observation of the cold sensations of Helo, was confirmed by a young clerk in the employment of Messrs. Boericke and Tafel, who took six doses of Helo. 6c out of bravado.

The second night he awoke and felt a cold sensation creeping down his body and legs and was in a very cold clammy sweat. This lasted all the rest of the night and he could get no more sleep. It began to pass off by morning, and he felt no more of it.

Helo, produced the constricting sensations of the serpent venoms as well as the numbness, darting pains and the sensitiveness to external pressure. Many of the symptoms came on in the night waking the prover from sleep (Lach, is "worse from sleep").

Tremors, spongy feeling of feet on walking. Pains in back and limbs. Belden recommended it for locomotor ataxia and Parkinson's disease (Merc., Rhus-t., Ars., Zinc), particularly with depression. Raynaud's disease. Polyneuritis, peripheral neuralgias. May be useful for hypothermia.

Dr. Boocock gave great relief with the medicine in a case of Parkinson's disease.

E. E. Case effected great improvement in a case of locomotor ataxia in an auburn-haired woman, 55. She had the classical symptoms of the complaint and "tingling, creeping sensations in legs as if from insects. She was worse lying in bed at night, worse from exposure from touch. Arms numb. Legs insensible to battery. Tongue dry and cracked. Swallowing difficult."

Under Helo. 900c and later, 45,000c after the appearance of an eruption, she recovered a fair degree of health and usefulness.

C. E. Johnson reported to Dr. Boocock the relief of a woman who had many of the symptoms of the proving (and had been pronounced incurable), complaining especially of the intense coldness. She received Helo. 200c and the coldness disappeared almost completely.

Boocock cured a case of "blue hands," remaining long after diphtheria paralysis and he restored two patients apparently moribund. In one case the breathing was slow, "tongue cold and slate-colored, breath cold."

The other case was that of a woman, 65. In the act of dressing, strength suddenly left her, mouth fell open tongue and breath cold and she was apparently dying and felt so. There was intense pain at the back of the head. Helo. 200c was given, as in the other case, and she made a good recovery.

Dr. Boocock compared the weakness he experienced in the proving to that of Gels., only Gels, did not dry up the mouth and secretions as Helo. did.

RELATIONS - Compare: (1) Lacer. - skin eruptions. Vesicles under tongue. Increased mental acumen. Difficult swallowing. Constant accumulation of saliva in the mouth. **Nausea**, violent pressure in stomach. Camph., Lach.

(2) Croto-h., Camph. - coldness. (3) Arg-n., Alum. - locomotor ataxia. (4) Ant-t. and Merc. - Parkinson's disease, Gels., Con., Lyss.

***HELONIAS DIOICA

(Unicorn-root)

PHARMACY - helon. Helonias dioica. Uni- com-root. Helonias lútea. False unicorn. Devil's Bit. Blazing Star. N. O. Melanthaceae. Tincture of the root. Triturations of the resinoid Helonin. **Historical dose:** Trimration, tincmre and all potencies.

CLINICAL - Albuminuria. Amenorrhea. Anemia. **Atony, uterus.** Backaches. Breast, disorders. Chlorosis. Cramps. Debility. Depression. Diabetes. Dysmenorrhea. Impotency. Kidney, pains. **Leucorrhea.** Lochia, prolonged. Menopausal, disorders. Menorrhagia. Metrorrhagia. Pruritus vulva. Rheumatism. Splenalgia.

Infertility. **Uterus, disorders.**

HERBAL - Helonias has been called a **uterine tonic**.

HOMEOPATHIC - Helonias has an extensive range of action, as its provings show, but it predominantly affects the uterus. One of the keynote indications for its use is a **"consciousness of the womb."** Relaxation of the uterine ligaments, misplacements and prolapse (Sep.). Exhaustion from the least mental or physical exertion. Emaciation or chronic fatigue since childbirth (Sep., Caul.), or multiple abortions or miscarriages. Tendency **toprolapse and other malposition of the womb**, from **uterine atony**. Uterine reflexes. Dropsy after uterine hemorrhage.

Toxemia of pregnancy with great fatigue. Premenstrual syndrome with fatigue, swollen breasts, and metrorrhagia. Suppressed menses. Congested kidneys, as if the monthly congestion, instead of venting itself through the uterine vessels, had extended to the kidneys.

Bearing down pain, and chronic vaginal infections since childbirth. Sensation of weakness, dragging in the sacrum and pelvis with great languor and **prostration**.

Tired backaches in females. Constant aching and tenderness over kidneys. Muscles, heavy, sore, aching, burning. Sleepless, with a worn out feeling. Diabetes mellitus and insipidus. Anemia.

MIND - Extreme depression, gloom. **Profound melancholia**. May have a preliminary feeling of wellness depression. Irritable, cannot endure the least contradiction. Finds faults with everyone. Conversation unpleasant, desires to be left alone. **Better when busy**. Patient must be doing something to engage mind.

Consciousness of the womb.

Abdomen - Burning in the lower third of abdomen. Pain in left side, as if in spleen, which feels as if distended, causing a dull ache. Colic-like pains in hypogastric region off and on all day. Motion and rumbling in abdomen, as if diarrhea would come on, cramps in the stomach.

Back - Pain and weight in back, tired and weak. Aching and burning across the lumbar region, **can trace outlines of kidneys by constant burning**. Boring pain in lumbar region, extending down legs. Aching between scapulae. Weakness, weight and dragging down in sacrum, down to buttocks. Great languor, better exercising.

Bladder - Frequent desire and urging. Involuntary discharge of urine after the bladder feels empty. Profuse urine, clear, **albuminous**, saccharine, phosphatic. Strangury. Burning, scalding when urinating. Diabetes mellitus and insipidus.

Breasts - Breasts swollen, nipples painful and tender, worse pressure of clothes.

Chest - Chest sensitive to the air. Aching, as if the front of chest had been compressed in a vice, as if squeezed.

Constitutions - Suited to nervous, run-down females, easily fatigued by any work, who complain of a tired backache, a tired feeling extending into the limbs. Some of this passes off after commencing to work.

Face - Pale, earthy. Sallow, having an expression of suffering.

Female - Conscious of womb. Uterus, **weak**. heavy, sore, tender, ulcerated or prolapsed or other malpositions. Weight and soreness in womb. Dragging in sacral region with prolapse, especially after a miscarriage. Backache after miscarriage (Kali-c.). Heavy dragging in pelvis. **Menses too frequent, too profuse**. Menses, suppressed, kidneys congested. Foul, lumpy or curdled leucorrhoea. Albuminuria during pregnancy. Debility attending menopause. Hemorrhage from atony of dark, foul blood. **Pruritus vulvae**. Parts hot, red, swollen, bum and itch terribly. Vulva, aphthous inflamed. Loss of sexual desire and power with or without sterility.

Food - Loss of appetite, food tasteless. Belchings, cramps. Fullness and painful congestion of the stomach. Bilious, sleepy during the day.

Head - Burning sensation on top. Heat or upward pressure in vertex, as if skull were too full. Headache, better mental exertion.

Heart - Palpitations.

Kidneys - Burning sensation at the kidneys. Constant aching, extreme tenderness of kidneys. Dull ache and heat in region of the kidneys instead of menses. Nephritis of pregnancy with obstinate vomiting.

Limbs - Severe pains in right hip joint, worse during motion. Sore pain in outer side of thighs. Sensation as if cool wind streamed up calves. Feet feel numb, when sitting.

Male - Sexual desire and power increased. Erections unusually strong and frequent. Impotence.

Modalities - Better if busy. Better from diversion. Better holding abdomen. Worse from fatigue. Worse pregnancy. Worse stooping. Worse motion. Worse touch, pressure of clothes. Worse pressure on breasts, nipples or kidneys.

Mouth - Salivation of pregnant women and teething children. Aphthae during pregnancy. Bitter taste in early a.m.

Rectum - Stool loose, yellow in the morning, lumps of feces in the evening.

Skin - Pale, earthy, sallow. Epidermis of the labia peels off thin, transparent exfoliation.

Sleep - Drowsy, heavy. Sleepy during the day.

Stomach - Cramp-like pain in the stomach. Burning in stomach, belchings. Irritable stomach with general dropsy.

Temperature - Feels hot when tired. Flushes of heat pass over him with every movement while in a room. Chills, seemingly radiating from solar plexus all over body, caused by motion of arms.

COMMENTS - Alternate sensations of heat and cold. Burning sensations, particularly at the epigastrium. Useful for menopausal temperature disturbances.

Irritation in mucous membranes, sore mouth, irritable stomach, burning and scalding when urinating, irritated vaginal mucous membrane.

Backache in the lumbar region, over the kidneys or in the sacrum. Pains are worse on commencing to work, better after working a little (Rhus-t.). Pain from the kidneys, especially the right. Generally scanty urine.

Marvin A. Custis reported a case. "Mrs. L, 28, has two children, both living. Has prolapse of uterus, ulceration of cervix, dark offensive leucorrhea. Her system is worn out and her expression one of great distress.

"Irritable, finds fault with every one and cannot bear contradiction. Restless, wants to move around, as she feels better when mind and body are employed.

"She had a severe backache and a sore and heavy feeling in the womb, she said she was always 'conscious of her womb.'

"Helon. 30c every three hours for two days, and then every night, was prescribed with a warm water injection night and morning. At the end of three weeks the leucorrhea had almost ceased, the womb was in the first position and she 'forgets that she has such an organ.'"

L. L. Danforth treated Mrs. W., who had intense pruritus, vulvar and vaginal, for several weeks. "She could tear the flesh out" it was so intense. There was vulvovaginitis, the labia and adjoining skin were red, swollen and covered with thin, white, curdy deposits.

Further examination showed a thin, albuminous leucorrhea pouring from a congested cervix, evidently the cause of the pruritus. The leucorrhea coagulated on the vagina, forming small curds covering the mucous membrane of vagina and vulva. Helon. tincture on tablets speedily relieved.

S. A. Jones found that Helon. turned an alkaline urine acid, and increased the amount of urea as well as the amount of urine secreted. Jones considered this the result of a condition of debility, venous paresis, the result of previous arterial tonic contraction.

RELATIONS - Compare: (1) Alet., Lil-t, Puls., Senec., Stann. (2) Agri. - painful kidneys, indigestion and menstrual difficulties, bron- chorrhea and catarrh of bladder. Cough with profuse expectoration attended with expulsion of urine. Tincture 1 to 10 drops.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***HEPAR SULPHURIS CALCAREUM

(Calcium Sulphide)

PHARMACY - hep. Hepar sulphuris calcareum. Calcium sulphide. Calcareum sulphuratum Hahnemanni. An impure Sulphide of Calcium prepared by burning in a crucible the white interior of oyster shells with pure flowers of sulphur. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Abscess. Amaurosis. Angina, pectoris. Asthma. Axilla, abscess. Beard, eruptions. Blepharitis. Bo/iv. Breast, disorders. Bronchitis. Bubo. Bums. **Carbuncle.** Decay. Chilblains. Chlorosis. **Colds.** Constipation. Cornea, ulceration. Cornea, opacity. **Coughs. Croup.** Diaphragmitis. Diarrhea. **Ear, infections.** Ears, polyps. Eczema. Emphysema. Erysipelas. Eyes, disorders. Glandular, swellings. Headaches. Hectic, fever. Hemoptysis. Hemorrhoids. Herpes. Hip joint disease. Hoarseness. Jaundice. Joints, disorders. Laryngitis. Leucorrhea. Lips, swollen. Liver, disorders. Lungs, disorders. Lupus. Marasmus. Menorrhagia. Mouth, sore. Nipples, sore. Ovaries, disorders. Pleurisy. Pneumonia. Pylorus, disorders. Quinsy. Rheumatism. Scarletina. Scrofula. **Skin, disorders.** Spinal, irritation. Syphilis.

Styes. Suppuration. Syphilis. Tenesmus. Throat, sore. Tuberculosis. Ulcers. Urticaria. Wens. Whitlow. Whooping, cough

HOMEOPATHIC - "**Liver of Sulphur**" is a name given by the old alchemists to several sulphur compounds whose color was supposed to resemble that of the liver. Before Hahnemann's time, Hep., Sulfuret of lime, was used as an external remedy for itch, rheumatism, gout, goiter and scrofulous swellings.

Hahnemann prepared Hep. with oyster shells instead of ordinary lime. As it is a chemical combination of Calc, and Sulph., it has some of the properties of both, but is very different from either and though it is useful to

compare them. Hep. must be studied as a separate entity.

Material doses were used in pellagra. The higher potencies may abort the suppuration, the lower promote it. If it is necessary to hasten it, give 2x. Hep.; 1x will often start secretions and profuse drainage in stuffy colds. In 1794, Hahnemann proposed to use it internally to arrest mercurial salivation. A few years later it was tried for asthma and pulmonary tuberculosis, with success.

It acts on the mucous membranes, causing croupy, **catarrhal** process with a tendency to hemorrhage and ulceration. **Tendency to suppuration.** Lesions spread by the formation of small papules around the side of the old lesions.

The catarrh may be in the throat, stomach, uterus, or urethra, and is characterized by **thick, yellow, acrid, ropy discharge**. Mucus in the stools, the urine, and is hawked up. Easy perspiration with mucus. Infected sinus with pus formation.

Great **sensitiveness to all impressions**. Hypersensitiveness. Chilliness. Sweating, but desire to pull blanket around him. **Feeling as if wind were blowing on some part. Splinter-like pains.** The side of the body on which he lies at night becomes gradually insufferably painful, he must turn. Craving for sour and strong things. Syphilis after gross medication. For the abuse of mercury.

MIND - Mental dullness. Forgetful. Weak memory. Depression. Dejected and sad. Remorse. Bitter crying. Dissatisfaction with one's self and others. Anguish in the evening and night with thoughts of suicide.

Delicate, **oversensitive to impressions**, people and places. Hypersensitive. Hasty speech and hasty drinking. Restlessness, desires a constant change. Hurried. Child does not laugh, and is not inclined to play or to amuse itself in any way. Children who lose their tempers and hit, kick and scream (Cham., Cina.).

Quarrelsome. **Extreme irritability, peevishness.** Abusive and vehement. Ferocious. **Slightest upset irritates him.** Everybody disturbs him. Bad tempered. Angry because of pain, at the least **trifle. Impulsive.** Impulse to do violence and to destroy, to start fires. Impulse to kill, to stab with a knife, especially if annoyed. Insanity and mania.

Abdomen - Distended, tense, chronic abdominal disorders. Pain in the groins as if sprained. Atrophy, cancer of liver.

Baek - Neuralgia of neck. Dull, dragging, heavy pain across lumbar region, uses arms to raise himself from a seat.

Breasts - Pain in right breast on sneezing. Breasts cancer. Retracted, sore nipples, cracked in nursing women.

Causations - Cold, dry winds. Injuries. Suppressed eruptions. Abuse of mercury.

Chest - Constriction and tightness, oppression. Anxiety and heat in chest. Burning, sharp, sore, pressing pains, worse motion. Weakness of the chest, preventing talking. Pleuritis. Empyema. Angina pectoris. Inflammation of diaphragm. Axilla abscessed, offensive perspiration. Boils, eczema, herpes, pimples.

Constitutions - Slow, torpid constitutions with lax tissue and light hair, great sensitiveness to slightest contact of ulcers, eruptions and affected parts. Suited to the psoric. scrofulous, diathesis. Debilitated subjects. Tendency to suppurations. Cross children. Torpid, lymphatic constitutions, persons with light hair and complexion, slow to act, muscles soft and flabby.

Cough - Loose cough, bloody or thick, yellow, tenacious sputum, raises much mucus. **Cough from exposure to cold, especially to dry, cold air, west or northwest winds.** Dry, hoarse, rattling cough. **Croupy, choking cough.** Croup with loose, rattling cough, worse in morning. Suffocative attacks, has to rise up and bend head backwards. Cough worse whenever any **part of the body gets cold or uncovered** or from eating anything cold. Loses voice and coughs when exposed to dry, cold wind. Cough troublesome when walking. Cough ameliorated by wrapping up, keeping warm.

Ears - **Otitis media, painful** (Cham.). Ears are **sensitive to touch, wind**. Discharge of fetid pus from the ears. Pustules in auditory canal and auricle. Scurfs on and behind the ears. Mastoiditis. Whizzing and throbbing in ears with hardness of hearing. Roaring. Deafness from Eustachian catarrh after scarlet fever.

Eyes - Purulent conjunctivitis with chemosis, profuse discharge, great sensitiveness to touch and air. Iritis with pus in anterior chamber. Ophthalmia, thick mucous discharge. **Corneal ulcers.** Eyes and lids red and inflamed. Pain in the eyes, as if pulled back into the head. Boring pain in upper bones of the orbits. Eyeballs sore to touch. **Hypopion.** Yellow. Photophobia. Vision obscured by reading, field reduced one-half. Bright circles before eyes. Objects appear red and too large.

Face - Yellowish, sunken complexion. Vesicular erysipelas with pricking in parts. Cancer on lips. Middle of lower lip cracked. Ulcers in corners of mouth. Shooting in jaw on opening mouth. Neuralgia of right side, extending in streak into temple, ear, ale and lip. Pains in bones of face, especially when being touched.

Female - Menorrhagia and metrorrhagia with fibroids. Menses late and scanty. Pruritus vulvae with profuse leucorrhea with sexual excitement. Thick, acrid, yellow, ropy leucorrhea. **Leucorrhea smells like old cheese** (Sanie.). Vagina sore during sex, bleeding after. Itching of pudenda and nipples, worse during menses.

Abscesses

of labia with great sensitiveness. Profuse perspiration at the menopause (Til., Jab.). Erosion of cervix. Removes the tendency to habitual adherent placenta. Hot, watery, discharge from uterus.

Food - Desire for acids, pickles, vinegar, sour food. Desires wine, fruit, spicy and strong-tasting food, warm drinks. Better from spicy foods. Aversion to fat food, butter, cheese, which aggravate. Worse from alcohol, brandy, whiskey, tea, sweets, cold food, drinks and ice.

Head - Boring pain in the right temple and in root of nose every morning. Eczema on forehead along the line of hair, worse after washing. Scalp sensitive and sore. Humid scald-head itching and burning. Cold sweat on head.

Heart - Anxiety in heart. Enlarged heart. Murmurs. Violent palpitations, with anxiety, worse after fright, eating. Palpitations from a slowly progressing weakness. Palpitations in the morning on waking. Angina pectoris. Stenocardia. Pericarditis. Gouty heart.

Kidneys - Bladder difficulties of elderly men (Phos., Sulph., Cop.). Voided slowly without force, drops vertically, weak bladder. Seems as if some urine always remained. Mucus, greasy pellicle on urine. Gleet discharge, thick, yellow. Putrid odor of urine.

Limbs - Finger joints swollen, tendency to easy dislocation. Nail of great toe painful on slight pressure.

Liver - Jaundice. Hepatitis, hepatic abscess. Stitching in region of liver when walking, coughing, breathing or touching it (Bry., Merc.). Cutting pain from liver to right scapula worse lying on back or right side.

Lungs - Bronchiectasis. Bronchitis of elderly, exhausted people. Emphysema. Pleuritis. Breathing difficult worse lying on left side. Anxious, wheezing, moist breathing. Asthma worse in dry cold air, better in damp.

Pneumonia in suppurative stage with fever. Lobar pneumonia. Chronic pneumonia, with profuse purulent expectoration. **Empyema.** Sputum varies from scanty to tenacious mucopurulent.

Hepar sulphuris calcareum First stage of pulmonary tuberculosis. Sputum pus-like, bloody tuberculous masses, or small balls, when crushed, emit a carrion-like odor. Paralysis of lungs.

Male - Obstinate gonorrhea "does not get well." Herpes, sensitive, bleed easily. Figwarts of offensive odor. Ulcers externally on prepuce similar to chancre (Nit-ac.). Suppurating inguinal glands. Humid soreness on genitals and between scrotum and thigh. Itching of glans, frenum and scrotum. Excitement and emission without amorous fancies.

Modalities - Better in damp weather. Better warmth, wrapping head up. Better pressure, after eating. Worse inhaling air. Worse cold air. dry winds. Worse slightest draft. Worse open air. Worse single parts of the body getting cold. Worse from touch. Worse motion. Worse washing. Worse slight bleeding. Worse blowing the nose. Worse on waking. Worse at night.

Mouth - Tongue, white, yellow, dirty, swollen, large, tabby, slimy, with imprints of teeth, feels as if scalded. Bitter taste. Aphthae. Ptyalism. Gums and mouth painful to touch and bleed readily. Bleeding painful cancerous growth on hard palate. Stomatitis of nursing mothers or weakly children.

Nose - **Hay fever.** Sinusitis after coryza. Sneezes every time he goes into a cold, dry wind with running from nose, later, thick offensive discharge. Stopped up every time he goes out into cold air. Ozaena. Offensive discharge, **smells like old cheese.** Post nasal dripping. Sore, bleeds, bloody crusts. Soreness of nostrils with catarrhal troubles. Air feels cold in nose.

Perspiration - Clammy, cold sweat. Constant offensive exhalation from the body. **Offensive sweats.** Sour, fetid, cheesy odors. **Profuse sweat,** sour, sticky, offensive, debilitating. Sweats day and night without relief, better from warmth, covers, worse from eating, exertion, uncovering. Night-sweats with tuberculosis. Perspiration with menopause

Rectum - Loss of power to expel even a soft stool. Clay-colored, **soft, sour,** white, undigested, **fetid** stools. Lumpy stools, coated or mixed with mucus. Raw smarting in the rectum during stools, remaining long afterwards. Obstinate constipation of pregnancy, after purgatives. Hemorrhoids, even slight bleeding exhausts.

Skin - **Unhealthy skin, every little injury suppurates** (Psor., Sil.). **Boils and abscesses.** Suppurating glands. **Chronic and recurring urticaria.** **Ulcers very sensitive to contact,** burning, stinging, easily bleeding. Cancerous ulcers. Atonic ulcers, following removal of tumors. Putrid ulcers, **surrounded by little pimples.** Ulcers with bloody suppuration, smelling like old cheese. **Papules, pimples** prone to suppurate and extend. Acne in youth, suppurate with prickly pain, bleeds easily. Cold-sores, **very sensitive.** Ringworm. Smallpox. Chapped skin with **deep cracks on hands and feet.** Great sensitiveness to slightest touch. Cannot bear to be uncovered, **wants to be wrapped up warmly.** Sticking or pricking in afflicted parts. Angio-neurotic edema.

Stomach - Stomach ulcers and cancer. Painful epigastric tumors with pulsations. Distention of stomach, compelling one to loosen the clothing. Burning in stomach. Heaviness and pressure in stomach after a slight meal. Gone feeling in stomach with loathing of food or as of a sharp lump in stomach. Weak digestion. Frequent

belchings without taste or smell. Apt to vomit all food, retaining only milk or water, mixed. Cannot eat bread or vegetables.

Temperature - Chilly in open air. **Chilly from slightest draft.** Chills and shiverings. Heat alternating with chill. Hectic fever. Dry, burning heat at night. Intermittent fever. Malaria. Typhoid, yellow fever. Catarrhal fever. Eruptive fever, measles, smallpox. Fever with teething.

Throat - Follicular pharyngitis. Hawks up yellow tenacious mucus. Quinsy with **impending suppuration.** Stitches in throat extending to the ear when swallowing. When swallowing, sensation as if a plug. Sensation of **a splinter in throat.** Hoarse-

Hepar sulphuris calcareumness with loss of voice.

Vertigo - Vertigo, with headache, nausea, with a tendency to fall. Vertigo in mornings. Worse on rising, when shaking the head, from motion.

COMMENTS - Guernsey noted the effects on the skin and touch, "any trouble occurring on the skin where there is a great sensitiveness to the slightest touch, patient can't bear to have even the clothes touch the part or have it touched in any way. Exanthema like nettle rash, sore to the slightest touch. Skin hard to heal, inflammation, sensitive soreness of skin."

Teste added that the sensitiveness is not confined to touch. There is excessive sensitiveness to the air, patient can't bear the least draft and if a hand accidentally gets outside the bedclothes it brings on an aggravation. Characteristic over-sensitiveness. Sensitivity to touch, to pain, can suffer intensely (Cham.). The slightest pain causes fainting. Sensitive to the stimulation of light, noise and odors. Desires constant change, can't adjust to find comfort.

Very chilly, particularly when sick. Very sensitive to drafts, even uncovering a hand or foot can bring on a coughing spasm (Rumx., Rhus-t.). Worse from air conditioning, better warmth and heat. Sensitiveness to cold, dry air (Aeon., Bry.).

Restlessness and anxiety (Ars.). Anxious about pain (Ign.), and worse pain, can overreact and become hysterical or violent (Nux-v., Cham.). Frenzy because of pain, impulsive. Very irritable, abusive. Can have an impulse to kill or throw someone in a fire or out the window. Can have a desire to set fires, desire to kill her child. Swears and curses, fears they may do something violent.

Painful, inflamed sores and wounds, slow to heal. Painful, hypersensitive boils (Bell., Tarent.), with sticking pains. Tendency to boils, painful eruptions, ulcers, abscesses and pus. Suppuration, inflammation and severe pain from foreign bodies under the skin or in eye (Sil.).

Sensation of foreign body under the skin or in the eye. Abscesses anywhere in the body, with sensitivity. Throbbing, stabbing

pains, splinter-like sensations. Splinters under the nail that abscess (Sil., Myris.). Sticking pains in the nails.

Itching, particularly in affects the bends of the elbows and popliteal spaces. Itching in connection with jaundice. Pruritus, especially when of mercurial origin. Inflammations, especially of respiratory organs, bowels and kidneys and the skin.

Colds and flus from exposure to drafts or cold dry winds (Kali-c.). Chronic sinusitis or bronchitis from exposure to cold winds, drafts or cold dry weather. Sinusitis with yellow, thick discharge (Puls.) with irritability. Coryza, nose swollen and sore to the touch, especially inside the ale. Boring at root of nose with catarrhal symptoms or headaches. Suffocative attacks in the respiratory organs. Asthma.

Whooping cough. Croup that's worse from dry cold (Aeon., Spong.). Yellow discharge. Dry, painful, hacking cough, as though a feather were in the throat. Loose cough with wheezing and rattling, as if mucus would come up but it does not. Choking cough. Cough, worse drafts, more often in the early morning (Aeon, in evening).

Inflammation of the throat. Painful, swollen tonsils. Abscessed tonsillitis. Discharge from the tonsils. Quinsy, with throbbing pains, where suppuration is imminent (Calc-s. after it breaks). Sore throats with pain on swallowing, as though a splinter or fish bone were caught in the throat. Sticking pains. Hoarseness.

Earaches in children, with night sweats that don't relieve (Merc.). Tearing and pressure as though it would burst. Pus. Side of face is sensitive, hypersensitive to noise. Sensitive to the least touch or draft (Caust.). Abscess in the ear with bloody, yellow, or pus-like discharge from the ear. Ear canal is very painful. Sticking pains in the ears. Eye disorders, likes to have eyes tightly covered.

Toothaches, especially if there is an abscess or boil. Very irritable because of the sharp, dental pain. Food or drink aggravates. Drinking water goes to the bone. Desires acids and sour things.

Semi-paralytic condition of the rectum and bladder (Alum.). Stools are passed with great difficulty even when clay-like and soft. Diarrhea with sour stools. Fetid stools with a sour body smell in children.

Impeded urination, obliged to wait before urine passes, then flows slowly for many days. Never able to finish urinating, seems as if some always remains in bladder. Urine drops vertically down. Acrid urine. Complaints

during urination and after.

Nocturnal emissions. Escape of prostatic fluid at any time and at stool. Affections of the sexual organs occurring on the right side. Vaginitis with thick, cheesy, fetid discharge. with a bad odor like rotten cheese (Kali-p., Kreos.).

Anti-psoric. Marked periodicity, every day, every four weeks (attack of paralysis). Every four months (scabby eruptions on head). Whitlows every winter. Bilious attacks in the spring and autumn.

In Hahnemann's article, "Medicine of Experience," he speaks of the itch-like eruptions caused by Hep. and its corrective properties in wool-workers' itch.

Guernsey noted that there is respiration with mucous rattle, expiration in the morning, none in the evening, cough with expectoration during the day, none in the night (in croup no expectoration at night but only in the daytime with the suffocative coughing spells, low, weak voice).

P. Foster distinguished between Hep., Calc-s. and Kali-s. in their action on tissues. Kali-s. acts on the epidermis, Hep. on lymphatic glandular system, skin and respiratory mucous membrane, Calc-s. acts much as Hep., only more deeply. Hep. acts on abscesses before they open, Calc-s. after.

Foster cured a woman with Calc-s. of "several large ulcers in the gluteal region 3 inches in diameter and 3/4 inches deep, exposing the bone." The pain ceased immediately and the cure was completed in two months.

The relation of Hepar to the suppuration process is very marked. It meets the hectic condition generally and the process locally.

Clarke once cured with Hep. 6c a case of axillary abscess with a large collection of pus. The whole was absorbed without breaking.

A case of pustular ophthalmia of the left eye was cured after Sulph. and Calc. had failed. It was better keeping the eye closely covered with some soft fabric, worse mornings, better as the day advanced. Pimples surrounded affected eye.

In a case of eczema pudendi in a young girl, 11, three months after puberty, the parts red and itching, Merc. was given and the whole body became covered with the rash. Hep. was then given and removed all symptoms immediately. "Sweats day and night without relief."

It antidotes the sensitiveness of Merc. to atmospheric conditions. In the old days of mercurialization, one of the chief things to be avoided by a patient under the "course" was exposure to chill.

RELATIONS - Antidoted by: Acet-ac., Bell., Cham., *S'ñ.* **It antidotes:** Metals and especially mercurial preparations, Nit-ac., Calc., Iod., Kali-i. **Compare:** (1) Croup - Aeon., Spong. (2) Sil., Calc-s., Calen., Sulph., Staph., Myris. (3) Hep. antidotes bad effects from mercury, iodine, potassium, (4) Cod-liver oil removes the weakening effects of ether. **Compatible with:** Aeon., Am., Bell., Lach., Merc., Nit-ac., Sil., Spon., Zinc.

Complementary to: Calen, in injuries.

***HEPATICA TRILOBA

(Liverwort)

PHARMACY - hepat. Hepática triloba. Liverwort. Hepática nobilis. Anemone hepática. N. O. Ranunculaceae. Tincture of full-grown leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Bronchitis. Catarrh. Dyspepsia. Hoarseness. Nosebleeds. Pneumonia. Throat, sore.

HERBAL - Hepática is an ancient remedy which received its name from a fancied resemblance of its leaves to the shape of the liver.

HOMEOPATHIC - Definite knowledge of Hepat. began with an experiment made by Dr. D. G. Kimball, who chewed the leaves every day for a chronic irritation of the throat and lungs.

Tickling irritation in the throat and sensation about epiglottis as of particles of food remaining. **Scraping and rough sensation.** Pharyngeal catarrh with profuse, serous sputa and hoarseness. Accumulation of viscid, tenacious phlegm with frequent hawking. Sputa sweet, profuse, creamy. Induces free and easy expectoration. Soreness at the nostrils.

Eyes - Eyes somewhat sensitive to light.

Itching and smarting eyes. Slightly agglutinated in morning.

Lungs - Some pain and constriction of right chest. Irritation of the fauces. Bronchitis with circumscribed pneumonia. Sputa bloody, purulent, profuse, yellow, creamy and exceedingly sweet. Free and easy expectoration.

Nose - Nosebleeds. Bloody mucus frequently blown from left nostril, for three or four days in succession. Soreness of end of nose at entrance of nostrils.

Stomach - Aids digestion.

Throat - Rough scraping, irritative and tickling sensation in throat and fauces. Pharyngeal catarrh with profuse

serous expectoration and hoarseness. Irritation of fauces, tickling, itching, scraping, almost constant, worse by eating or inhalation of dust.

COMMENTS - Hale experienced an attack of circumscribed pneumonia with bloody expectoration or else, profuse, yellow, creamy, exceedingly sweet. Some pain and constriction in right chest, tickling in fauces, worse by eating or from inhalation of dust. Hale chewed the dry leaves and in a few days was well.

Wegge of Copenhagen confirmed its value in pharyngeal catarrh with profuse serous sputa and hoarseness.

RELATIONS - Compare: (1) Stann., Cist., Caust., Hydr., Phos., Sang., Rumx., Lach., Kali-bi.

REFERENCES - Boericke. Clarke.

***HERACLEUM SPHONDYLIIUM

(Hogweed)

PHARMACY - hera. (bran.). Heracleum sphondylium. Hogweed. Branca ursina. Bears breech. N. O. Umbelliferae. Tincture of whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Debility. Diarrhea. Dyspepsia. Epilepsy. Gout. Headaches. Migraines. Seborrhoea, capitis. Skin, disorders. Spleen, pain. Vomiting.

HOMEOPATHIC - Hera, was found to exercise a pronounced action on the digestion, producing hunger with inability to eat, nausea, vomiting, colic, diarrhea and pain in the spleen. It also affected the sexual organs and the skin.

Headache with drowsiness, worse on moving in open air, better tying up the head with a cloth. Exhaustion indolence and weakness. Recommended as a spinal stimulant in epilepsy with flatulency, gouty and skin symptoms.

MIND - Hypochondriac troubles. Fretfulness and ill-humor, taciturn.

Abdomen - Abdominal and splenic pain. Throbbing and pain in the region of the spleen. Flatulence and colic, with nausea and offensive eructations. Sticking and griping colic, obliging him to bend up.

Chest - Oppression of the chest, with palpitation. Oppression of the chest and chilliness. Sharp pain in the chest on inspiration.

Eyes - Lachrymation and weakness of the eyes while reading.

Female - Transient sticking pain in the labia.

Food - Hungry but unable to eat. Hunger, with nausea, and dread of all food. Increased thirst.

Head - Migraines. Sick headaches. Headaches with drowsiness, worse moving in open air, better tying up head with cloth. **Much perspiration on head**, and violent itching. Seborrhoea capitis. Excessive oily secretion on the head.

Limbs - Gouty, tearing pains in the limbs. Sticking and burning in the feet.

Lungs - Dry, hacking cough, with feeling of soreness and transient stitches in the chest. Arrest of breathing on ascending a mountain.

Male - Drawings in the penis. Sharp pain in the glans penis. Emissions.

Mouth - Bitter taste in the mouth.

Nose - Frequent sneezing, with stitches in the region of the spleen.

Rectum - Slimy, offensive diarrhea. Stool delayed, with urging and pain in the anus.

Skin - Violent itching on the skin, and moist eruption, like the itch. Dry eruption on the chest, burning after scratching. Itching and biting on the scrotum.

Stomach - Pain with inclination to vomit. Bitter risings and taste. Sweet and bitter eructations, with gulping up of bitter fluid. Qualmish nausea, bitter, bilious vomiting, with pains in the stomach, and violent congestion of the head. Pressive in the stomach, with nausea and pressure in the pit of the stomach, after eating, as from a stone.

Temperature - Chilliness, with frequent yawning and inclination to sleep in afternoon.

Throat - Increased collection of mucus, crawling, rawness and scraping in the throat. Pressure in the throat, as from tenacious mucus.

Vertigo - Vertigo while reading and sitting.

RELATIONS - Compare: (1) Con., Abies-n. (2) Cean. in headache with drowsiness. (3) Bruc., Gins., Gels., Nat-s., Nux-m., Sulph.

REFERENCES - Allen. Boericke. Clarke. Murphy.

***HEROINUM

(Heroin)

PHARMACY - herin. Heroinum. Heroin. Diamorphine. Papaveraceae.

CLINICAL - Addictions. Amenorrhoea. Belching. Blisters. Coma. Constipation. Coryza. Cramps. Diarrhea.

Drug, addiction. Drug, overdose. Eczema. Emaciation. Euthanasia. Faintness. Headaches. Heartburn. Insomnia. Mania. Narcotic, abuse. Nausea. Numbness. Sinusitis. Stiffness. Tinnitus. Tobacco. Urticaria. Vertigo. Vomiting. Warts. Wounds.

HOMEOPATHIC - Addiction to drugs, allopathic medicines. Ailments from narcotics. Desire for narcotics. Physical euphoria. Drug overdose.

Lack of reaction, with weakness. Faintness. Weakness, accompanied by nausea. Weariness, in the afternoon. Sluggishness of the body. Emaciation. Sore, aching, bruised pain in joints, muscles. Stiffness. Wounds. Inflammation of sinuses. Pulse frequent. Coma.

Desire to be in the wind, near a warm stove. Trembling, externally with coldness, better warmth, eating. Aversion to smell of tobacco, sensitive to tobacco.

MIND - Confusion, difficult concentration. Weak memory. Dullness. Mentally absorbed. Abstraction of mind. Depersonalization. Awkward, drops things. Spaced-out feeling. Everything seems unreal. Apathy to external impressions. Activity alternating with lassitude. Indifference.

Mental shock. Ailments from embarrassment, wounded honor. Ailments from mortification. Drug addiction and alcoholism. Morphine abuse. Disposition to become a criminal.

Euphoria alternating with sadness. Contentment. Full of desires for unattainable things. Fearless in spite of danger. No sense of danger, reckless. Frightened easily. Anxiety, alternating with indifference. Anxiety about his family, when alone, about the future. Fear of losing control, that something bad will happen. Claustrophobia. Self-destructive. Insecure. Critical of oneself, feels underappreciated. Despair of life, of social position. Childish behavior. Forsaken feeling. Irresolution and indecision. Discontented. Restlessness. Antisocial behavior. Desire for solitude. Aversion to company, to answering questions. Unfeeling, hardhearted with his family. Dictatorial. Fastidious.

Abrupt, rough behavior. Impatience. Irritability when disturbed. Offended easily. Violent anger. Rage, fury with cursing. Anger from contradiction. Anger alternating with tranquility. Chaotic behavior. Knocking his head against wall and things. Mutilates his body.

Manic depression. Lascivious, lustful. Sexual mania. Religious affections, too occupied with religion. Feels doomed. Delusions that he is accused of committing a crime, betrayed. Delusions of being alone in the world. Thinks he is a criminal and others know it. Delusions of being double, of having two wills. Sees faces in the air around her. Imagines that he has been poisoned.

Abdomen - Distension, elongated. Cramping. griping, pressing, sore pain. Tension, pressure, better bending double. Sore pain in iliac region, worse pressure. Stitching pain in umbilicus, sides, especially on right. Restlessness, uneasiness. Eczema.

Back - Thoracic pain, between or under right scapulae. Tearing pain below left scapulae. Stiffness in lumbar region, pain, worse exertion, on right side.

Breasts - Sensitive breasts. Softness of breasts. Breast swelling and pain. Burning pain, under left breast.

Breathing - Respiration impeded, arrested, obstructed with anxiety. Respiration difficult if hurried.

Causations - Drug addiction. Alcoholism. Mental shock. Ailments from embarrassment, mortification, wounded honor.

Chest - Anxiety in chest. Internal coldness. Heat flushes. Constriction, extending to throat, on left side, with sighing, after sex. Burning pain under left breast. Cutting pain on coughing, on inspiration. Chest pain, during cough or fever, worse inspiration. Griping pain on left side. Pain lying on side, worse motion. Pain in sides, on motion. Stitching pain in sternum on waking. Axillary glands inflamed, especially right.

Coughs - Dry cough from tickling in larynx. Tickling cough, worse lying down. Cough on first lying down. Cough from talking, in the afternoon, 3 p.m.

Ears - Heat in right ear. Ear pain, on the left. Stopped sensation. Tinnitus. Noises in ear, humming, singing, especially on the right. Hearing impaired, as if from cotton in ear, in right ear. Acute hearing.

Eyes - Itching, lachrymation. Sore pain in left eye. Tired sensation. Photophobia. Pupils contracted to a pinpoint. Heavy eyelids, difficult to open.

Face - Urticaria. Red eruptions on cheeks, right. Herpes about upper lips. Painful lips, as if excoriated. Swollen lips. Tingling of lips, extending to nose. Sore, bruised pain, in lower jaws, lips. Corners of mouth cracked, especially left. Stitching pain, lower jaws. Heat flushes.

Female - Amenorrhea. Menses, too frequent, copious, dark, painless, scanty. Traces of menses between the periods. Ovarian pain during menses, at ovulation. Sore pain in ovaries, uterus. Sexual desire, increased, in morning in bed. Sexual desire, diminished, wanting. Orgasm, wanting.

Food - Appetite diminished. Ravenous appetite, accompanied by nausea, after eating, on waking, during perspiration. Thirst on waking. Desires cold water, wine, warmer hot drinks, coffee, soda water, carbonated

drinks, fruit juice. Desires canots, raw food, fruit, meat, bacon, pastry, sweets, spices, ginger. Desires alcohol, but aggravates, excessive hangover. Aversion to meat, dairy, chocolate, sweets, and tea.

Head - Congestion. Constriction, band or hoop sensation, from forehead, extending to neck. Sensation of contraction, fullness, heavy, light. Numbness in the forehead, extending to nose in the evening, or in the vertex. Pain, with nausea, when bending head forward, after sex. Pain better lying down, in the morning, rising from lying, worse from motion. Cutting pain in the temples, right side. Pinching pain. Pressing, like a cap, in the vertex, extending to forehead. Sore pain on vertex. Shaking, tingling, pulsating sensation, on vertex extending to ears. Headache, above left or right eye, behind the eyes, in temples, vertex extending to ear, eyes. Headache from riding in a carriage, from exposure to sun. Headache better from vomiting.

Heart - Conscious of heart's action. Cutting pain. Palpitations, extending to throat, in the morning after breakfast.

Larynx - Cold sensation. Constriction. Voice, croaking.

Limbs - Awkwardness. Weakness, especially in lower legs, in afternoon. Aching pain, in lower limbs, ankles, feet, heels, knees, and hips. Aching in the morning. Burning pain, in joints. Sensation of heaviness in the lower limbs. Hip pain when ascending stairs, knee pain on motion, while sitting, particularly the left. Shooting pain in leg, stitching pain in thigh. Twitching in the lower limbs, foot and thighs. Tingling in hands, legs, feet while standing, upper limbs. Sensation that legs will buckle. Lower limbs itch. Warts and heat on the feet, soles. Stiff ankles. Coldness on the hands and feet. Hands hot and dry, finger joints inflamed. Pains in first joints of fingers. Brittle fingernails, felon. Hands drop things. Pain in upper arm, in shoulder, followed by pain in right shoulder, better pressure.

Kidneys - Stitching pain in right kidney. **Male** - Sexual desire diminished, wanting, or increased.

Modalities - Better open air. Better after rain. Better hot bathing. Better after sex. Worse in afternoon.

Mouth - Burning pain, heat. Burning pain inside of lips. Painless ulcers, inside of lips. Cool, frothy, sour saliva. Itching, sore pain in palate. Biting cheek when talking or chewing. Spongy gums. Bleeding gums when cleaning them.

Neck - Stiffness in cervical region, when bending forward. Pain in neck region, extending to right scapulae. Pain and swelling in cervical glands.

Nose - Coldness, heaviness. Perspiration on nose. Sinus complaints. Catarrh. Obstruction or coryza in the morning. Sneezing after rising. Tip of nostrils itching, tingling. Burning, smarting pain in root of nose. Acute sense of smell.

Rectum - Constipation, ineffectual urging and straining. Insufficient bowel movements. Lack of peristaltic action. Painful urging. Diarrhea. Cutting pain, when sitting, extending to ovaries.

Sensations - Internal knotted sensation. Analgesia. Insensibility. Heaviness in the afternoon. External numbness. Tingling of affected parts.

Skin - Contraction, as if skin would burst. Itching blisters, eruptions, worse from soap. Eruptions from sun. Urticaria. Itching without eruptions. Stinging pain, as from needles and pins. Bitten, as if by an insect, like fleabites. Sensitiveness to touch. Warts. Radiant skin unnaturally.

Sleep - Sleepiness in afternoon, evening, while driving. Insomnia from anxiety, from coldness. Anxious, restless sleep. Disturbed sleep, from anxiety, by cough. Unrefreshing sleep. Heavy or light sleep. Prolonged sleep. Sleeps curled up. Frequent waking with anxiety. Waking after midnight from chill. Waking too early.

Stomach - Cramping, pressing pain, extending to abdomen, into chest. Sensation of a ball. Empty sensation, without hunger, during nausea. Fullness, after eating, with oppression of breathing. Belching. Heartburn. Nausea while riding in a carriage. Nausea before eating, better from eating. Easy, painless vomiting. Vomiting after eating, late at night. Hernia, hiatus.

Teeth - Chattering teeth. Sensitive, tender teeth, from brushing. Sore, bruised pain. Corroded sensation.

Temperature - Heat sensation, alternating with sensation of cold. Lack of vital heat. Chilly in general, especially in afternoon. Icy coldness of the body. Flushes of heat, with perspiration, in evenings, in room.

Throat - Choking. Narrow sensation. Constriction. Lump sensation. Pain on empty swallowing. Thick, yellow mucus, with constant disposition to swallow. Coated.

Sensation of mucus. Inflammation, right side. Aching pain, better from warmth. Sore pain in esophagus. Sore throat, better eating, warm drinks. Heat in throat, after cough, extending to stomach. Cold sensation in throat, esophagus. Dryness.

Tongue - Burning pain. Burnt sensation on sides of tongue. Pain on right side. Tongue yellow, white, heavily coated. Acute, metallic, sour taste. Loss of taste.

Urine - Pale color.

Vertigo - Vertigo accompanied by heaviness in head. Vertigo while lying, standing, on rising. Vertigo with nausea.

Vision - Blue colors before the eyes. Blue halo of fire. Rays. Swimming of objects. Vision foggy, better from closing eyes.

RELATIONS - Compare: (1) Nux-v. Anae. (2) Op. Cann-i. Hyos.

REFERENCES - Snowdon.

***HIPPOCAMPUS KUDA

(Yellow Seahorse)

PHARMACY - hippo-k. Hippocampus kuda. Yellow seahorse. Spotted Seahorse. **Historical dose:** All potencies.

CLINICAL - Claustrophobia. Headaches. Heartburn. Nausea. Numbness. Tinnitus.

HOMEOPATHIC - Hippocampus kuda is found along the eastern coast of India and in the waters surrounding all of Indonesia up into the Sea of Japan.

Alternating states. Desire to go outside, amelioration from open air. General fatigue and heaviness sensation. Oversensitive to noise, odors, and tastes.

MIND - Mood swings. Alternating emotions. Aversion to company, yet aversion to being alone. Feels trapped. Claustrophobia.

Back - Back pain, with heaviness in the back and neck. Stiffness in cervical region.

Ears - Roaring, ringing noises in the ear, vibrations. Ears feel clogged, as if filled with water, or as if under water (Kali-m.).

Food - Desires fruit, juicy things, particularly melons. Worse from salt, salty foods and coffee.

Head - One sided headaches.

Hearing - Muffled sounds. Hearing acute or impaired.

Limbs - Heavy, aching, tired, feeling in the extremities. Aching and cramping pains. Numbness.

Male - Sexual desire diminished.

Rectum - Involuntary stool, sudden urging to stool.

Sleep - Difficulty going to sleep. Light and very restless sleep, with lots of waking at night. Wakes earlier in the morning. Wakes unrefreshed. Daytime sleepiness. Strong desire or need to nap. Short naps ameliorate (Phos.).

Smell - Sensitive to strange or unpleasant odors.

Stomach - Nausea, comes in waves. As if seasick. Heartburn.

Vertigo - Light headed feeling.

RELATIONS - Compare: (1) Sep. Kali-m.

REFERENCES - Sonz. Stewart.

***HIPPOMANES

(Horse Meconium)

PHARMACY - hipp. Hippomanes. Horse meconium. A meconium deposit out of the amniotic fluid taken from the Colt. Trituration of the dried substance taken from the tongue of a newly-born filly. **Historical dose:** All potencies.

CLINICAL - Chills. Chorea. Headaches. Melancholy. Prostatitis. Rheumatism. Twitching. Wrist, paralysis.

HOMEOPATHIC - A famous aphrodisiac of the Greeks. Hering said it is soft, glutinous mucous substance of a urinous odor, which floats in the allantois fluid or is attached of the allantois membrane of the mare or cow, chiefly during the last months of pregnancy.

Melancholy. Weakness, restlessness. Chilliness, better from being covered. Violent pain in wrists. Paralysis of wrist, in morning. Weakness of hands and fingers so that nothing can be held.

Desire to lie down, but no relief on doing so. Headache, better lying on painful side, worse walking in sun.

Sensation as if the head would fall forward on walking. As if a plug in the throat. Icy coldness in stomach.

Sensation as if a swelling retarded the flow of the urine.

MIND - Melancholy, has no use for the world. Doesn't want to have anything to do with the world. Homesickness in evening. Fear from noise. Desire to travel. Restlessness, must move from place to place.

Aversion to being approached. Aversion to company. **Inclination to sit.** Sits in a corner. **Sits still.** Sits as if wrapped in deep sad thoughts and notices nothing. Averse to being spoken to. Wants to be let alone. **Chest** -

Sharp pains in left side of chest. **Eyes** - Sharp pains in eyes. Painfulness of eyes when moving them with headache. Light of the candle looks blue.

Face - Involuntary twitching of under lip. **Female** - Menstruation too early.

Food - Confusion better from coffee. Desire for acids. Aversion to sweet things.

Head - Pressive pain in temples. Violent headache, better when lying on painful side, worse when walking in

sun. Head feels so heavy that it falls forward if he raises himself. Sensation of lightness. Dry hair, falling off of hair.

Kidneys - Frequent discharge of watery urine. Urine discharge in a small stream with straining, feels as if a swelling retarded it, prostatitis. Drawing pain from anus through urethra.

Limbs - Chorea. Weakness in joints of feet, knee, soles, hands and fingers. Paralysis of wrists. Violent pain in wrist. **Sprained sensation in wrist.** Weakness after growing too fast. Heaviness in limbs.

Lungs - Barking cough during sleep.

Male - Sexual desire increased. Prostatitis.

Drawing pain in testicles.

Mouth - Bitter taste in mouth. Tongue coated white with red tip. Increased secretion of saliva with headache or sore throat.

Nose - Sensation of coldness when drawing the air in. Nosebleed in morning.

Rectum - Spasmodic contraction of anal sphincter. Hard stool in balls. Soft stool with vomiting, discharge of prostatic fluid after urination.

Skin - Itching as from flannel on skin, worse on chest and between shoulders.

Hippomanes

Stomach - Icy coldness in stomach. Nausea, in a draft of air. Sensation of emptiness in stomach and head. Nausea during headache.

Temperature - Chill, beginning in back, better being warmly covered in bed. Heat in evening with dull headache.

Throat - Larynx feels, raw, as if air were too cold. Tickling in throat when breathing. Painfulness of left tonsil. Sensation of plug in throat, left side.

RELATIONS - Antidoted by: Coffee. Caust. relieved the paralysis of wrist. **Compare:** (1) Caust. (2) Anae. - plug sensation.

*****HIPPOZAENINUM**

(Glanders Nosode)

PHARMACY - hippoz. Hippozaeninum. Glanders nosode. Glanderinum malleinum. Farcin. The nosode of glanders or farcy. Triturations of sugar of milk saturated with the virus. **Historical dose:** All potencies.

CLINICAL - Abscesses. Bedsores. Boils. Bronchitis. Cancer. Carbuncles. Decay. Catarrh, chronic. Cold, chronic. Diphtheria. Elephantiasis. Erysipelas. **Glanders.** Glands, inflamed. Hip-disease. Liver, enlarged. Lupus. Nasal, cartilages, ulceration. Edema. Ozaena. Parotiditis. Phlegmasia alba dolens. Phlegmon. Plague. Pustules. Putrid, fever. Pyemia. Scrofula. Smallpox. Syphilis. Tuberculosis. Ulcers. Whooping cough.

HOMEOPATHIC - Hippoz. is a powerful nosode introduced by Dr. Garth Wilkinson. The disease is called **"Glanders"** when the catarrhal symptoms are pronounced, **"Farcy,"** when these are not noticeable, the skin being chiefly affected with deposits in the lungs. Homeopathic preparations of both have been made.

In horses, glanders affects the lungs and the upper respiratory tract, causing coughs and disseminated ulcerations and deposits throughout the lungs. Mallein, a toxin prepared from glanders, was used in veterinary practice as a test injection for deciding whether a horse suspected of glanders actually has the disease or not.

Hippozaeninum

If the horse reacts it is concluded there is glanders.

In a number of cases in which animals reacted to the first injections, repetition of the test has failed to elicit reaction, thus suggesting that Mallein is curative as well as diagnostic.

The nosode has been used by homeopaths, at the suggestion of Wilkinson, on the phenomena of the disease as guides. It has been used in a large number of cases involving low forms of suppuration and catarrh. Malignant ulcerations and swellings, abscesses and enlarged glands and also in conditions similar in kind, but less in severity.

Weakness, fatigue, general discomfort. General prostration with considerable emaciation. Numerous ecchymoses in internal organs. Inflammation of lymphatic vessels and swelling of glands. Phlegmasia alba dolens. Pyemia, erysipelas. Chronic rhinitis, bloody secretion.

Symptoms suggesting tuberculosis, cancer, syphilis, etc. It promises useful service in the treatment of ozaena, scrofulous swellings.

Abdomen - Gastro-intestinal catarrh, indigestion, constipation in later stage, diarrhea. Spleen enlarged, filled with blood, softened and liquefied, of a grayish or dark color. Wedge-shaped abscess in spleen. Swollen inguinal glands.

Coughs - Cough and obstructed respiration, resulting from scar contraction of mucous membrane of nose and

larynx. Whooping cough. Severe cough with profuse expectoration.

Ears - Tinkling sounds in ears. Hoarse and deafness. Inflammation of parotid gland.

Eyes - Full of tears or slime. Pupils dilated with collapse. Papules on choroid coat of eye.

Face - Maxillary gland swollen, firmly attached to the maxilla, uneven, rugged, mostly painless, burning at times. Submaxillary and sublingual glands swollen and painful at times, abscesses are formed which open externally.

Female - Slimy discharge from vagina. Uterine phlebitis. Miscarriage.

Hippozaeninum

Food - Loss of appetite. Thirst excessive, especially with diarrhea.

Head - Fainting turns with headache. Inflammation of membranes of brain. Scattered abscesses in brain substance. Purulent collections between bones of skull and dura mater. Tubercles may appear in periosteum of skull in dura mater in plexus choroides. A diffused myelitis malleolus, attributable to infiltration. Bones of skull and face (frontal most) decayed. Hair loses its glisten.

Kidneys - Tubercles and abscesses in kidneys. Albumen in urine, also leucine and tyrosine.

Limbs - Obscure pain in limbs, mostly in muscles and joints. Swollen arm with sore finger. Phlegmonous and erysipelatous with pustules and ulcers. Hip-disease. Psoas and lumbar abscesses. Old. bad leg ulcers. Anasarca of lower limbs.

Liver - Enlarged liver, signs of fatty degeneration. Hepatitis with gangrenous and ulcerative inflammation of gall-ducts.

Lungs - Papules and ulcerations in frontal sinuses, pharynx, larynx and trachea. Bronchitis, especially in elderly persons, where suffocation from excessive secretion is imminent. Noisy breathing. Loud, snoring respiration before fatal termination, breath fetid. Tubercles, size of millet seed to a pea, of a gray, yellowish or reddish color. Tuberculosis, diminishes expectoration and recurring aggravations and checks liability to catarrhal disorders. Lung disease of cattle.

Male - Tubercles and abscesses of glans penis, testicles.

Mouth - Difficulty speaking. Tongue dry, thickly covered with a black, sooty deposit. Gums covered with a black, sooty deposit. Bleeding gums. Breath putrid. Ulcers in mouth. Buccal passages filled with tenacious lymph and mucus. Scrofulous swelling of left parotid gland in a child.

Nose - Cartilage exposed and decayed. Decay of nasal bones. Nose and mouth ulcerated. Swelling and redness of nose and adjacent parts, with severe pain. Discharge often one-sided, albuminous tough, viscous, discolored, gray, greenish. Bloody

Hippozaeninum and offensive, acrid, corroding discharge. Obstinate catarrh. Chronic ozaena.

Pulse - Frequent and small pulse, 110 to 120. Retarded pulse.

Rectum - Colliquative diarrhea with a general cachexia and exhaustion precede the fatal termination. Constipation.

Skin - Erysipelatous erythema. Malignant erysipelas, particularly if attended by large formations of pus and destruction of parts. Confluent smallpox. Abscesses, pustules and ulcers over all of body. Ulcers have no disposition to heal, livid appearance.

Sleep - Insomnia and great restlessness. Nocturnal delirium.

Temperature - Frequent chilliness. Chills and fever in cases of abscesses and ulcers. Skin becomes cool with collapse. Fever when a series of abscesses follow in rapid succession. Putrid fever. Plague. May be tried in scarlatina, where odor of breath is putrid, mouth filled with tenacious lymph and mucus tonsils greatly swollen.

Throat - Hoarseness. Swollen tonsils closing posterior channels. Ulcerations on velum of palate. Upon mucous membrane of pharynx ecchymoses, redness, swelling, eruptions and foul ulcers.

COMMENTS - Clarke used Hippoz. with excellent effects in cases of inveterate nasal catarrh and of glandular enlargement. The nasal affection may go on to ozaena, ulceration of nasal cartilages and bones.

Papules and ulcerations in frontal sinuses, pharynx, larynx and trachea. Hoarseness. Old cases of bronchitis, especially in old persons where suffocation from excessive secretion seemed imminent. Bronchial asthma. Whooping cough. Long-lasting coughs.

RELATIONS - Compare: (1) Bacil., Syph., Variol. (2) The serpent poisons. (3) Aur., Cadm-s., Kali-bi., Hep., Psor.

*****HIPPURICUM ACIDUM**

(Hippuric Acid)

PHARMACY - hip-ac. Hippuricum acidum. Hippuric acid. **Historical dose:** All potencies.

CLINICAL - Arthritic pains. Backaches. Blepharitis. Chemosis. Cirrhosis. Dacryocystitis. Diarrhea. Diphtheria.

Gastritis. Headaches. Jaundice. Laryngitis. Menorrhagia. Migraine. Pimples. Premenstrual syndrome. Vincent's angina.

HOMEOPATHIC - Hippuric acid is present in urine, very rarely as an amorphous and crystalline deposit. The proving was carried out in 1952-53 by Dr. W. B. Griggs on seven men and three women over a period of forty-five days using potencies ranging from 1x to 6x.

Its chief action is on the external tissues of the eyes and naso-pharynx, joint surfaces, liver and mucous membranes. Nasal secretion viscous, yellow evil-smelling. Inflammation of the throat with a dry cough, especially at night.

Pain in the liver with bouts of nausea and jaundiced complexion. Hyper-productivity of the ovarian follicles. Eruption of pimples on back, chest, legs. Severe headache on the right side, aggravated by heat and ameliorated in the open air.

General muscular soreness and tenderness. Muscular and joint pains in the shoulders, back, lower limbs. Right side is especially affected. Rheumatic and poisoned subjects. Allergic mesenchymatic with arthritic tendencies. Arthritic and tubercular conditions in elderly patients. Weak exhausted types.

MIND - Concealed anxiety. Irritability.

Abdomen - Pain and heaviness in the liver. Entero-colitis. Abscess beneath the diaphragm. Infectious epidemic jaundice. Cirrhosis. Acute cholecystitis.

Back - Lumbar aching, especially at the end of the day. Backache extending down hips.

Breasts - Breasts painful during menses.

Chest - Pain on the right side of the chest when coughing.

Ears - Buzzing in the ears.

Eyes - Eyelids inflamed and swollen, edema. Jaundiced, yellow conjunctiva. Painful inflammation, especially of the lower lid, on the right side. Dacryocystitis. Blepharitis. Chemosis. Visual complaints.

Female - Premenstrual syndrome. **Menstruation** prolonged yet scanty. Menstrual flow for three weeks with complete relief of muscular and joint pains. Menorrhagia. Hyper-productivity of the ovarian follicle.

Head - Dull, constant pain over right eye, worse in warm room. Dull aching, aggravated in warm room, ameliorated by fresh air. Occipital headaches, vertigo. Migraine.

Kidneys - Hot, pungent urine, smelling strongly.

Limbs - Pain in shoulders and limbs. Pain in middle of thigh posteriorly shooting down right leg. Sore, swollen joints. Tired, grating sensation in the joints.

Lungs - Cough dry, irregular, gasping, worse at the end of the day. Dry rightsided pleurisy.

Modalities - Better in the open air. Better with pressure. Worse in a warm room, heat. Worse with movement. Worse in late afternoon or at night.

Mouth - Offensive breath.

Nose - Sensation of a blocked nose. Swelling over lower ethmoid bone. Sinusitis. Secretion thick, viscous, yellow, evil-smelling. Acute rhinitis. Adenoids. Nasal polyps.

Rectum - Diarrhea with watery, fetid stools.

Skin - Itching, burning, tingling and shuddering sensations. Yellow coloring of the skin. Eruption of spots and pimples, on the back, chest and legs. Papules looking like goose flesh on chest. Erythema.

Stomach - Feeling of a lump in the pit of the stomach. Lump in pit of stomach. Soreness and pressure over liver. Acid rising. Acrid belching. Nausea, vomiting, hepatic pains, especially when pressure is applied.

Throat - Acute laryngitis. Dry throat. Pain and difficulty in swallowing. Sore, raw, dry. foul odor, gummy exudate, thickness and infiltration of tissues around throat. Eructation with a lump in the throat.

Exudation thick and membranous around the tonsils and the back of the throat. Gangrenous inflammation of throat.

RELATIONS - Compare: (1) Benzoic acid seems to be an analog. Benz-ac. - A uremic type with brown, strong urine, whitish, fetid diarrhea, joint pains especially in the big toe and Achilles' tendon. (2) Merc-cy. - Infectious, weak conditions. Diphtheria. Inflammation of the anus and rectum. Bad breath and cervical inflammation. (3) Guai. - Red, burning tonsillitis. Pleurodynia with a dry cough. Diarrhea resembling that of cholera. Joint pains. (4) Rhus-t. - Erythematous and vesicular rash. Muscular and joint pains, worse during rest, ameliorated by a change of position or by continued movement.

REFERENCES - Boericke. Clarke. Julian.

***HIRUDO MEDICINALIS

(Leech)

PHARMACY - hir. Hirudo medicinalis. Leech. Sanguisuga officinalis. N. O. Hirudinea. Tincture of the animal.

Historical dose: All potencies.

CLINICAL - Aerophagy. Alcoholism. Angina. Anal, bleeding. Aneurysms. Cervicitis. Colic. Conjunctivitis. Headaches. Hemiplegia. Hemoptysis. **Hemorrhages**. Hepatitis. Jaundice. Leucorrhea. Myelitis. Ovarian, cysts. Paraplegia. Thrombophlebitis.

HOMEOPATHIC - Burnett was the first to use Sanguisuga or Hirudo medicinalis as a homeopathic remedy for hemorrhages. Dangerous hemorrhages have frequently followed the application of leeches and it has been ascertained that the leech does not merely bite, it poisons the bitten part in such a way as to render the blood in it watery.

The symptomatology was established by members of the International Homeopathic League, following the Congress in Amsterdam in 1961-62. Members of the British, American and Chilean leagues participated in the proving. The group from London, whose report was made by Reside, was made up of eighteen people, nine men and nine women.

Hir. caused the provers to feel lively and energetic, then exhausted suddenly, shivers, felt depressed. Alternating well being and depression. Throbbing frontal or occipital headache. Progressive lacunar cerebral sclerosis. Syphilitic hemiplegia and paraplegia. Myelitis, tabes. Transverse, myelitis, preceded by intermittent claudication.

Tendency to bleed. Bleeds easily from all the orifices. Irregular heartbeat and congestion of the veins. Menses irregular and burning leucorrhea. Gastro-intestinal malfunctioning with nausea, vertigo, diarrhea or constipation (stools streaked with bright red blood).

MIND - Lively spirit, alert, animated with sense of well being. Condition alternates with lack of energy, sleepiness and tires easily. Depressed, sad, sluggish. Weary with a heavy head and difficulty in concentrating. Irritable, angry or tearful. Fear of falling backwards when looking up.

Abdomen - Severe abdominal distention.

Acute pain in the epigastric region and hypochondrium. Wakes at 2 a.m. from abdominal colic, worse after defecation. Colic with nausea and diarrhea around 10 a.m. Alcoholic hepatitis. Aerophagy, accumulation of air in the colon.

Blood - Hemorrhage. Jaundice caused by destruction of red corpuscles. Disease due to a change in the quality of blood platelets, prothrombin deficiency, thrombocyte dystrophy and capillary weakness. Skin and mucous purpura. Thrombophlebitis.

Chest - Angina pectoris.

Constitutions - Allergic and psoric constitutions. Phosphoric, syphilitic and neuro-biliary types. Hemophilic types.

Ears - Outer ear hot. Left ear red and burning. Boil in the auditory canal.

Eyes - Red, painful photophobia. Difficulty focusing. Nervous twitching of the lower eyelid. Conjunctivitis.

Face - Neuralgic pains on the left or right of the face.

Female - Left-sided ovarian pain like being stabbed. Brownish leucorrhea two days before menses. Menses, too early or late, heavy or light, painful or less painful than usual. Feeling in the pelvis as if menses would come on two weeks before due. Cervicitis. Endometriosis. Incoordination of the hypophysis, thalamus and ovary. Ovarian cysts. Pre-cancerous condition of the neck and body of the uterus.

Food - Thirst for cold drinks in large quantities. Indigestion from fatty foods with consequent anorexia.

Head - Hot, heavy head, with pulsations going from the occiput towards the forehead, with dizziness. Headache at the vertex, accompanied by nausea. Pulsating frontal and occipital headache, especially in the evening. Feeling as though the head were in a vice. Wakes during the night from a constrictive headache located around the occiput.

Heart - Extra systolic rhythm anomaly. Irregular heartbeats when lying down. Heart irregular with dull, diffuse pain in the precordial region when going to bed. Pain in the region of the heart when sitting, when bent forwards, ameliorated by sitting up straight. Rheumatic endocarditis. Aneurysm of the aorta. Syphilitic aortitis.

Limbs - Pain in the left arm. Sharp pain in the joints of the hands, elbows and shoulders. Transient pains in the legs. Hands and feet cold in a warm room. Swelling of the left ankle. Feet swollen and painful.

Lungs - Hemoptysis.

Modalities - Better from sitting. Better coughing. Worse after defecation. Worse left side, but not exclusively.

Mouth - Mouth painful with bleeding gums. Small ulcerous swelling on the uvula. Ulcerations on the soft palate, roof of the mouth and tongue.

Nose - Nosebleed, slight bleeding on wiping nose. Pimples and boils on the nose. Pustule on the left side of the nose. Swelling on the nose.

Rectum - Proctitis. Anal pruritus. Rectal pain after passing stool. Bright red blood seen in stools, caused by painful constipation. Bacillary or protozoic dysentery.

Skin - Spots on the nose and face with pustules and boils, small wounds. Rough patch on chin. Burning spot

on upper lip. Boils. Anthrax. Axillary adenitis of sweat glands. Sycosis of the beard.

Sleep - Sleep disturbed by disordered dreams or nightmares, thinks he is being followed.

Stomach - Nausea, flatulence, general weakness, worse in the morning. Alcoholic gastritis. Discomfort in the stomach after lunch with nausea and burning acidity and a tart taste. Nausea before eating with diarrhea. Vomiting around 4 a.m. Gastric and duodenal ulcer (hemorrhaging type).

Temperature - Cold shivers coming suddenly without apparent cause.

Throat - Swallowing painful. Throat painful with sensation of a ball stuck in it. Tonsils, neck glands swollen. Tonsillitis, glandular fever, infectious mononucleosis.

Vertigo - Vertigo after exertion or when sitting down. Fear of falling backwards when looking up.

COMMENTS - Burnett had a case of persistent bleeding from the rectum, the blood was watery and all the usual hemorrhagic remedies failed to arrest it. Burnett thought that Hir. might prove a similar remedy. He had a tincture made and attenuated, gave the 5c potency and cured the case.

To make Hir., macerate the end of leech's head for twenty minutes in a mixture of sand and a physiological serum. Centrifuge the liquid and a green liquid residue is obtained, which is dried after the addition of thymol. The substance obtained forms the stock for the preparation of the potencies. W. Schwabe of Stuttgart, who prepared this stock, called it -'Hirudin.'

RELATIONS - Compare: (1) Lat-m. (2) Naja - Weakness and cardiac complaints with coughing and choking. Left-sided ovarian pain. Sudden desire to commit suicide. (3) Crot-h. - Skin or cellullitic inflammations. Hemorrhaging of black, clot less blood. Infectious or adynamic conditions.

REFERENCES - Clarke. Julian.

***HISTAMINUM MURIATICUM

(Histamine)

PHARMACY-hist. Histaminum muriaticum. Histamine. Imidazoethylamine. Histamine hydrochloricum.

Historical dose: All potencies.

CLINICAL -Allergic, reactions. Angina pectoris. Arteritis. Asthenia. Asthma. Bee stings. Blepharitis. Bronchitis. Cancer. Cervicitis. Colitis. Conjunctivitis. Cystitis. Dysthyroid-ism. **Edema.** Emphysema. Gastric, duodenal ulcers. Headaches. **Hives.** Insomnia. **Itching.** Ovaritis. Pericarditis. **Pruritus.** Pyelonephritis. **Rashes.** Typhoid fever. **Urticaria.** Vertigo. Whooping cough.

HOMEOPATHIC - Histamine is a capillary vessel dilator, an arteriole vessel constrictor, and a hypertensive. It constricts the bronchi and stimulates the tissues of the intestine, the uterus, and the gastric and pancreatic salivary secretions. It is normally used in the form of histamine bi-chlorhydrate, which serves as the stock for homeopathic preparations.

The symptomatology was established in 1950 by J. Gringuaz of Buenos Aires, on thirty-nine provers, using the potencies 30c, 200c, 1000c, then 12c, 6c and 3c.

Hist. has general asthenia as after physical exertion. Feeling of constriction in different parts of the heart. Quivering and cramping contracture of the muscles. Irritable, susceptible, impatient, with need to walk up and down.

All symptoms of the skin and mucous membranes in allergic types. Dryness of the mucous membranes. Redness and burning sensation in circumscribed areas of the skin. Red, itching papules.

Burning, cramping, spasmodic pains in the joints and muscles. Headaches and vertigo with sensation of heat and burning on the head and face. Loss of sense of taste. Feeling that the teeth are loose.

Pruritus and burning in the nose, throat, ears and vagina. Burning pains in the scrotum and left ovary. Oliguria with burning and pain on urination. Burning epigastric and abdominal pains. Burning precordial pain. Burning thoracic pain, fitful coughing.

MIND - Sensitive to the slightest trifles. Impatient, restless with need to move from place to place aimlessly. Nervous when waiting. Quarrelsome. Slowness and difficulty in understanding. Cannot find correct words, forgets proper nouns.

Melancholic with anguish and reduction of mental faculties. Sad. prostration which disappears by forced walking. Pain and gastric constriction when receiving news or remembering a painful experience. Psychogenic allergy.

Abdomen - Acid dyspepsia. Gastric and duodenal ulcers. Painful contractions. Sensation of constriction at belt-level. Spasmodic enterocolitis. Hemorrhagic rectocolitis. Ulcerous membranous colitis. Typhoid fever and paratyphoid fever.

Chest - Stinging pains in various parts of the thorax. Thoracic pain, as if caused by contusion or crushing. Angina pectoris. Feeling of anguish in the chest, which necessitates deep breathing.

Constitutions - Allergic and psoric constitutions. Tubercular types with dys- thyroidism.

Ears - Pain in one or other of the ears, spreading to all the sense organs. Pain in the mastoid. Feeling of blocked ears with ringing and heaviness in the ears. Alternating sensation that the ear is blocked, then clear.

Eyes - Contracture and muscular twitching of the eyelids and around the eyes. Spasmodic closing of the eyelids. Allergic conjunctivitis. Blepharitis. Feeling of a foreign body in the eyes. Stinging pain, as if a nail were being driven into the eye, better from cold, aggravated by a draft. Edge of the eyelids red, edematous. Feeling of heat and pruritus at the edge of the eyelids. Yellowish secretion from the eyelids or dryness of the mucous membranes.

Face - Facial pains on one side of the face, spreading towards the upper and lower maxilla and the teeth. Unilateral heat on the face.

Female - Left-sided ovarian pain, spreading to the leg and left hypochondrium. Menses too early or late. Diminution in quantity of menstrual flow. Menses extremely foul-smelling. Leucorrhea with smell of "burnt" blood. Cystitis. Ovaritis and salpingitis. Cervicitis. Cervical cancer.

Head - Frontal pain, at the temples and nape of the neck, spreading towards the front and back of the head. Heavy, compressive headaches, better by cold, pressure and fresh air, aggravated by movement, bending the head, and sun. Sensation of tension of tightness at the scalp with pruritus. Sensation of heat and itching in localized places.

Heart - Precordial pain as if produced by a needle. Pericarditis. The heartbeat is irregular with an extra systole with compensatory intervals. Pain in the heart region with constrictive feeling, drawing, dull pains. Heart pain that alternates with or accompanies a toothache. Feeling of heart "caught up," and need to hold it with the hand. Heart feels too large. Feeling as if drops of icy water were flowing through the heart.

Kidneys - Cystitis. Pyelonephritis. Unbearable feeling of heat in the bladder, all the time, needs to urinate, but can only pass a few drops at a time. Urinary retention with urination only in drops, feeling of having to strain and accompanying the hemorrhoid congestion. Despair at inability to urinate. Urine burns like fire. Needle-like pain in the bladder towards the urethral canal.

Limbs - Arteritis of the lower limbs. Allergic rheumatism. Muscular and joint pains, burning, stinging, drawing, dull, crushing pains. Involuntary spasms and muscular contractions. Feeling of exhaustion, does not want to make the slightest movement. Formication, tickling, pruritus in the muscles. Feeling of heat, as if he had been burned. Sensation of an electric current across the arms. Sensation as if band were tied around the stomach and around the limbs.

Lungs - Lack of air, feeling of oppression, constriction in the chest. Coughing fits which almost choke him with tickling in the throat preventing speech. Persistent, dry, fitful cough, coming from the throat or the supra-sternal cavity. Yellowish, white-yellow, orgreenish-yellow sputum, tasting of cheese. Dilatation of the bronchi. Chronic bronchitis. Asthma. Emphysema. Whooping cough.

Male - Hydrocele. Epididymitis and orchitis. Prostatic adenoma. Burning, stinging, drawing pains. Pain travels from one side to the other. Pain moves in the scrotum with occipital headache.

Modalities - Better from pressure. Better fanning. Worse from heat. Worse movement. Worse nervous irritation, and deep breathing.

Mouth - Mouth dry. Loss of sense of taste. Wine smells of perfume. Salivary secretion sometimes profuse, sometimes dried-up. Heat and itching in the mouth. Dares not open mouth too wide, as a result of pains arising from the passing .of cold air. Accompanying dental and precordial pains.

Nose - Pruritus in the nose with feeling that the skin on the nose is shrinking. Feeling that nasal orifices are enlarged. Feeling of painful dryness in the nostrils. Inspiration difficult and painful in cold air. Nose blocked on one or both sides. Head cold with blocked nostril on one side and feeling of heat and prickling. Spasmodic rhinitis.

Rectum - Painful contractions, followed by diarrhea. Black stools with a nauseating odor. Tenesmus and feeling of not having finished, when expelling stools.

Skin - *Urticaria*. Red, itching papules, the size of a pea, all over the body, better scratching, worse bathing. Redness and heat on the skin of the face, as after a first degree burn. Sensation of heat and burning, hyperaesthesia. Formication and tickling with numbness on different areas of the skin. Lichen planus. Prurigo strophulus. Hair becomes dry. Alopecia, hair loss from the head and body.

Sleep - Insomnia until 2 to 3 a.m. Insomnia with abundance of ideas. Dreams of insects.

Stomach - Nausea when eating or thinking about eating. Stomach heavy, distended, as though it would burst. Stomachache, as if he had eaten indigestible food. Tense, anguishing pain, caused by a weak feeling in the pit of the stomach, worse when recalling unpleasant memories or receiving news. Sensation of fire in the stomach.

Teeth - Dull or drawing pains in the teeth and cavities of extracted teeth. Alveolar, dental pyorrhea. Teeth feel loose, dares not chew for fear of losing teeth.

Temperature - General chills, shivering, alternating with feeling of heat. Feeling of great heat with sweating and weakness.

Throat - Painful dryness of the pharynx, worse swallowing or heat, better from cold. Dry throat. Feeling of a lump or a foreign body in the throat. Feeling of pressure, constriction in the throat, as if tied by a band.

Vertigo - Vertigo, as if on a swing with nausea and misty vision.

RELATIONS - Compare: (1) Apis - Acute inflammations with rosy edema, prickling, burning pains, as if produced by red-hot needles. (2) Ars. - Anxiety, agitation. Burning pains. Cadaverous odor of the secretions. (3) Sec. - Tendency to hemorrhage. Burning pains and chilliness all over the body, putrid diarrhea, cramps, especially in the lower limbs, chilliness, pallor and burning pains at the limbs, worse in the cold.

***HOITZIA COCCINEA

(Colibri flower)

PHARMACY - hoit. Hoitzia coccinea. Colibri flower. Loeselia coccinea. N. O. Polimo- niaceae. Mexico. The tincture is obtained from the entire fresh plant. Tincture of the dried root. **Historical dose:** Tincture and all potencies.

CLINICAL- Aching. Blepharitis. Chickenpox. Conjunctivitis. Diphtheria. Encephalitis. Eye, disorders. Gastric, typhus. Hematuria. Iritis. Keratitis. Measles. Meningitis. Miliary, fever. Myocardia. Paratyphoid, fever. Pericarditis. Photophobia. Scarlet fever. Smallpox. Typhoid fever. Typhus. Vaccinations, effects. Valvulitis.

HERBAL - Hoitzia coccinea grows in the valley of Mexico. Its common name Colibri flower comes from the feeling on touching it. It seems to be covered with small thorns.

HOMEOPATHIC - Hoit. has high temperature from the start and increases in intensity. Stifling feeling of heat, general aching. Shivers at every movement. Red appearance, high and steady temperature. Acute infectious conditions.

Nervous and circulatory over-excitability. Uneasiness, fear, exaltation. Heavy sleep. Congestion of the head, eyes, stomach intestines and genital organs. Pains in the throat, neck and ears. Thirsty, anorexia, frequent and scanty urination.

Scarlet fever, anasarca-type and urticarial eruptions. Post-vaccination encephalitis. Anti-smallpox and anti-diphtheria. Encephalitis following measles, chickenpox. Serous meningitis in young subjects.

MIND - Fearful, anguished state of mind. Nervous excitability, groaning. Hallucinations. **Abdomen** - Pains in the epigastric and intestinal regions. Acute inflammation of the gallbladder and biliary passages. Acute enterocolitis. Crohn's disease, terminal ileitis. Abdominal muscles painful.

Chest - Constrictive oppression as after running a race. Sensation of tightness in the thorax, as if in a breast-plate.

Ears - Sensation of blocking in the auditory canal. Crackling noises with dryness of the ear. Acute congestive otitis.

Eyes - Bloodshot and burning, conjunctiva red. Blepharitis. Conjunctivitis. Iritis. Keratitis. Edges of eyelids red, edematous. Eyelids heavy, swollen, tend to close, half closed. Gaze is fixed and vague. Photophobia, weeping.

Face - Face red, swollen.

Female - Copious menstruation, which improves the general condition. Menses late by two to three months, then menorrhagia with intense bilateral ovarian pains. Profuse metrorrhagia with acute, burning pains, tearing pains, black blood with clotting and a putrid odor. Lochia, very copious. Burning and itching leucorrhea. Heat in the low abdomen, painful with feeling of a foreign body in the abdomen.

Food - Thirst for water, which repulses, followed by vomiting.

Head - Head heavy with sensation of fullness. Congestive beating in the temples with dizziness. Acute frontal headache, stupefying, soothed by holding the painful area tightly.

Heart - Strong and rapid heartbeats, resounding in the head and audible. Pericarditis. Myocardia. Valvulitis.

Kidneys - Urine red, frothy, blood-streaked. Pain and burning in the urethra. Tenesmus of the bladder. Slow difficult, painful urination, as a result of prostatic congestion.

Limbs - Acute joint rheumatism. Muscular rheumatism. Limbs are painful, aching. Ameliorated by lying in a curled-up position.

Lungs - Frequent, deep inhalation, provoking a slight cough. Frequent, short, persistent coughing. Sputum like eggwhite, foamy, profuse. Pneumonia. Bronchopneumonia.

Male - Prostatic adenoma.

Modalities - Better lying in a curled-up position. Worse from movement.

Mouth - Mouth dry, burning. Swollen gums and tongue. Saliva thick, sticky, difficult to spit. Breath fetid.

Nose - Nose swollen, painful. Vesicles and scabs on the edges of the nostrils. Nosebleed frequent, but lasts

only a short time. Maxillary and frontal sinusitis. Ethmoiditis.

Rectum - Stools hard, dry, round, burning, followed by dysentery-like pressing need to evacuate with tenesmus.

Skin - First and second degree burns. Erythema. Solar erythema (phlyctena). Scarlet fever-type and anasarca-type eruption with itching and burning. Urticaria eruptions on the feet, hands and face with a bluish complexion. Edema. Seborrheic alopecia. Anthrax.

Stomach - Acute pain in the stomach with vomiting of mucus and bile. Phlegmonic gastritis.

Temperature - Congestive fever, high, steady, even after appearance of eruption.

Throat - Throat red, swollen, burning.

COMMENTS - *Hoitzia* is a voracious plant belonging to the Polimoniaceae family. It grows up to 1 meter in height with a tap-root, gnarled with fine isolated rootlets, which in turn give out other smaller rootlets. It has a straight, cylindrical stem, "sub-ligneous," covered with small whitish hairs, alternated, oval, spear-shaped leaves and axillary flowers.

In herbal medicine, it is used as a sudorific remedy. The Mexican cowherds use it for fevers and eruptions in their cattle. The women use a decoction of the plant for washing their hair as it prevents hair from falling out. Twenty drops of the mother tincture in a half-liter of boiled water can be used as a compress for irritations of the scalp resulting from the use of hair dyes. The mother tincture is obtained from the entire fresh plant and it was Manuel De. Legarreta who established its homeopathic proving.

RELATIONS - Compare: (1) Bell. - Active congestion with nervous and vascular excitability. Dryness of the mucous membranes. Photophobia. Hyperthermia. (2) Euphr. - Irritating, excoriating weeping from the eyes. Non-irritating coryza. Amenorrhea. Frequent urination. (3) Ars. - Agitation with fear of death. Burning pains. Cadaverous odor of secretions. (4) Rhus-t. - Agitation of the body. Stiffness of the limbs. Skin red, swollen with vesicular, burning, itching eruptions.

***HOLLY

(Bach Flower Essence)

PHARMACY - holly-b. *Holly. Ilex aquifolium*. Flowering twigs are boiled for half an hour, the water strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - The remedy Holly-b. belongs to the group of **Oversensitivity to Influences and Ideas**, as classified by Bach. Additional remedies in this group are Agri- b., Cent-b. and Waln-b., all helping those suffering from vulnerability to disturbances from outside.

The Holly-b. state can be a state of exhaustion, frazzled nerves and over stimulation by environmental impact. Urge to "fight" oneself free of excessive noise and turmoil. Internal suffering and agony, stifled feeling.

Nervousness, physical irritability. Tension headaches or migraines after annoying experiences. Suppressed anger. Psychosomatic illness (Will-b.). Antisocial personality disorders (Ch-bd-b., Vine-b.). Disorders with aggressive or jealous features.

Prone to outbursts of anger, rage or violence which can also lead to injuries for oneself and others. Impulse control, when rage is not bridled (Ch-p-b., Imp-b., Verv-b.). Persecutory or paranoid delusions, heightened accusation and antagonism against the imagined threat of others (Beech-b, Will-b.).

MIND - Over sensitivity to minor occurrences. Irritable, easily annoyed. Prone to vexation. Strong emotions. Agitated, aggressive state. Overly suspicious, envious, jealous. Revengeful, angry, wounded pride. Perceives disturbances or other people as threats to peace and well-being. Urge to be free of the annoyance. even to the point of violence.

REFERENCES - Bach.

***HOMARUS GAMMARUS

(Lobster Digestive Fluid)

PHARMACY - horn. *Homarus gammarus*. Lobster digestive fluid. N. O. Crustacea. Triturations of sugar of milk saturated with the digesting fluid of the lobster, a thick, reddish offensive liquid contained in a sac situated at the back of the mouth. **Historical dose:** Tincture and all potencies, sixth potency.

CLINICAL - Back, pains. Bones, pains. Coryza. Diaphragm, pain. Dyspepsia. Eyes, disorders. Flatulence. Granular, throat. Headaches. Liver, pains. Edema. Paralysis, nervous. Pruritus. Sleep, disordered. Spleen, pains. Throat, sore. Wrist, pain.

HOMEOPATHIC - A. M. Cushing studied the affect of lobster poison, noting the specific affect eating lobster

has shown on specific occasions. Noting that persons have been known to die after eating lobster and then drinking milk, Cushing put a little of the poison into warm milk. In ten minutes it was a hard mass. Cushing found that milk aggravated his symptoms during the proving.

“Worse from milk.” Other prominent symptoms from his proving included a severe sore throat, dry, inflamed throat with large, granulated blood vessels. Throat burns with tough mucus.

Headaches, chiefly frontal and temporal pain, with soreness in eyes. Pain in stomach and abdomen, better after eating. Deranged digestion. Belching. Disturbed sleep, waking at night with flatulence.

Chilliness. Itching of the skin. Sharp and sudden pains, all day and after retiring. Back pains. Strange, dull feeling all over, not dizzy. Sick feeling, unable to move, but better moving. Nervous feeling, restlessness, but dread of moving. Sexual excitement.

MIND - Frightened feeling. Dullness of mind. Nervous, but with dread of moving.

Abdomen - Pain in diaphragm and hypochondria. Pain in liver and spleen.

Back - Aching just below diaphragm in center of right scapula, in morning, inside of scapula, worse right. Sharp pain at superior spinous process of left ilium. Sharp pain, transient, sudden in right side near kidney, forcing him to sit down.

Causations - Milk.

Chest - Sharp pain in back side of left lung. Burning distress at right of lower end of sternum in both sides, with difficult breathing.

Ears - Frequent stabbing through lower lobe of left ear, had to pinch it.

Eyes - Aching, smarting in eyes. Aching pain in left ball. Profuse lachrymation. Lids stuck together in the morning. Edema of lids.

Head - Headache in morning, sharp at times, mostly in temporal region, worse left. Dizziness.

Limbs - Grinding pain just above elbows. Pain in left wrist in afternoon. Pain in right thigh and leg. Knees weak and trembling, worse right, worse afternoon. Lameness pain in right knee. Left foot lame through toe joints at times.

Liver - Pain in lower part of liver. Sharp pain in region of left lobe of liver, worse drawing a long breath.

Lungs - Intense edema of throat rendering breathing almost impossible. Difficult breathing after retiring.

Male - Long-continued excitement every morning and in night.

Modalities - Better from motion. Better inhaling cold air. Better eating. Better passing wind. Weakness worse walking. Worse from drinking milk. Worse after sleep. Worse at night. Worse on drawing a long breath.

Mouth - Profuse salivation.

Nose - Stinging and burning in nasal passages extending to throat after rising. Sensation of mucus in left nostril. Nose stopped in morning. Discharge from the nose, watery from left nostril. Sneezing often.

Pulse - Pulse full, rolling.

Rectum - Frequent inclination to stool during the day. Alternate diarrhea and constipation, changing every three or four days. Large, long tenacious stool after much effort.

Skin - Sore pimple on left thigh, outside. Itching in various parts, frequently, day and night, before and after retiring, better scratching, but appearing in another place. Itching sudden, worse night, in limbs, frequent sudden darting, on various parts, worse legs.

Sleep - Restless at night. Sleepless. Woke early and could not go to sleep on account of pains all over, worse epigastric region, back, arms and legs.

Stomach - Belching tasteless wind in the morning. Pain in morning with occasional hot flashes. Sharp pain after a light breakfast. Burning in stomach.

Temperature - Chilliness all over with trembling. Feet cold and damp, afterwards burning.

Throat - Pain near left ear, sharp, sudden, transient. Burning in throat, right side and in esophagus, stomach and bowels. Edema of throat, can hardly breathe.

COMMENTS - During the proving, Cushing noted that he “Felt as though could not move, on moving no pain, felt better by moving.” On this indication with others, he cured a case with Hom. 4x.

The patient had headache, sore throat, loss of appetite and when she awoke in the morning felt as if she could not move at all. On receiving Hom., there was a speedy restoration of keen appetite, both for food and work and loss of headache and sore throat.

Another cured case had “No appetite, distress in stomach, restless sleep, very tired in morning.” A case of frequent “bilious spells” was also cured in a man who had Nux-v. and Dios, with only temporary relief.

L. H. Hallock related a personal experience in which, an hour after eating a small amount of lobster salad, general pruritus commenced, worse in lower limbs, especially the calves. The itching was of a biting, burning character, not better by rubbing or scratching, almost unendurable.

It lasted two hours in spite of bathing with hot and cold water, fresh and salt. No sooner had the itching abated than his lips, nose, eyes began to swell, until the eyes were closed and lips almost completely inverted.

Throat swollen and edematous so that it was almost impossible to breathe, profuse salivation.

Eight hours after the meal he had the appearance of a severe and protracted debauch. In twenty-four hours was as well as ever. Once subsequently he had a similar experience after eating lobster.

RELATIONS - Compare: (1) Sep., Murx., Aster., Astac. (2) in cold damp feet, Calc. (3) Lach. - worse after sleep. (4) Hydr., Phyt., Pic- ac. (5) Worse from milk. Calc., Chin., Con., Nit-ac.. Sulph., Mag-c., Aeth.

REFERENCES - Boericke. Clarke.

*****HOMERIA COLLINA**

(Cape Tulip)

PHARMACY - home. Hornería collina. Cape tulip. N. O. Iridaceae. Tincture of bulbs. **Historical dose:** Tincture and all potencies.

CLINICAL - Collapse. Constipation. Nausea. Vomiting.

HOMEOPATHIC - Hornería is a violent narcotic-acrid poison very like Colchicum in its effects. Collapse, almost insensible, cold limbs. Severe nausea and vomiting. Obstinate constipation. Pulse is irregular and the pupils are dilated.

In one case of toxic poisoning, a Malay woman with her three grandchildren, ages 12, 8 and 6, ate a small basinful of the bulbs with their supper (between 7 p.m. and 8 p.m.). About 1 a.m. the woman woke with severe nausea and vomiting and found the children similarly affected.

She tried to call for help, but found herself too weak to leave her bed and when, by five o'clock, assistance arrived the eldest girl was found moribund and expired almost immediately.

The boy of 8 died an hour later. The youngest child was found in collapse, almost insensible, cold limbs, pulse scarcely 50 and irregular, pupils much dilated. The grandmother's symptoms were similar, but lesser in degree, accompanied by constant efforts at vomiting. By using stimulants she and the child eventually recovered.

*****HONEYSUCKLE**

(Bach Flower Essence)

PHARMACY - honey-b. Honeysuckle. Lonisera caprifolium. The flowering heads are picked with a few leaves and boiled for half an hour. The water is strained and used as **medicine**. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Honeysuckle belongs to **Bach's group of Not Sufficient Interest in Present Circumstances**, along with the remedies Clem-b., Wld-r-b., Oliv-b., Wh-ch-b., Must-b., and Ch-bd-b. These remedies are for those not fully engaged in the here and now and consequently not living to the fullest. Dwells on the past. Homesickness, lost love, loss of beauty or position in life. Sentimental visions of the past. Delusions, visions, or voices of lost loved ones after unresolved trauma or severe grief (Star-b-b.). Lethargy, sleepiness and diminished vitality. Often occurs in the elderly.

MIND - Dwells on past memories, nostalgic. Sadness, with sense of loss. Longs to relive former happiness. Believes the happiness of the past cannot be repeated in the future. Hopeless and resigned to future.

REFERENCES - Bach.

*****HORNBEAM**

(Bach Flower Essence)

PHARMACY - horn-b. Hornbeam. Carpinus betulus. Collect twigs with both male and female flowers, the males are the catkins, whereas the females are smaller and actually look more like flowers and grow at the end of the twig. Boil for half an hour, strain the water and use as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Hornbeam, together with Cer-b., Scler-b., Gent-b, Gors-b. and Wld- o-b., belongs to Bach's group of **For Those who Suffer Uncertainty**. For those suffering from lack of certainty or strength of purpose in their daily affairs.

Lethargy in mind and body. Mild depression. Diminished concentration and easy fatigue after head injuries (Scler-b.. Must- b, Wld-o-b.). Useful for prolonged mental work, revitalizes clarity and concentration and gives perseverance. Developmental, learning disabilities and retardation (Ch- bd-b., Must-b., Wld-o-b.).

Brain dysfunction due to physical causation. Physical fatigue, with a devitalization of the body (Wld-o-b.).

Avoidance of work and procrastination due to fatigue. Work does not appeal, one feels lax in fiber.

MIND - Fatigued and listless, with bodily lethargy. Dullness, difficulty concentrating due to lack of energy. Lack of interest, boredom. Frustration, overwhelmed feeling. Irritable, occasional resentment and unkindness.

REFERENCES Bach.

***HUMAN GROWTH HORMONE

(H.G.H.)

PHARMACY - hgh. Human growth hormone. H.G.H. Sarcodine.

CLINICAL - Acromegaly. Bones, weak. **Carpal tunnel syndrome**. Cellulite. Constipation. Depression. Diabetes. Edema. Emaciation. Fatigue. **Gynecomastia**. Hair, loss. Impotency. Indigestion. Malnutrition. Menopause. Muscle, weakness. Osteoporosis. Pituitary, disorders. Sexual, weakness. Wrinkled, skin.

HOMEOPATHIC - Growth hormone is known to be critical for tissue repair, muscle growth, healing, brain function, physical and mental health, bone strength, energy and metabolism.

Organ health and integrity. Joint pains and fluid retention. Bone strength. Integrity of hair, nails, and skin. Tissue growth and repair, cell replacement, poor wound healing. Conversion of body fat to muscle mass. Enzyme production. Growth retardation. Premature aging. Energy level. Brain and sexual functions.

MIND - Forgetful, weak memory. Depression.

Bones - Weak bones. Osteoporosis.

Face - Wrinkled skin.

Female - Irregular menses. Menopause, hot flashes. Low sex drive.

Head - Hair loss.

Male - **Gynecomastia**. Sexual weakness, low sex drive. Impotency.

Limbs - Weak bones and muscles. Osteoporosis. Brittle nails. Joint pains. **Carpal tunnel syndrome**.

Rectum - Constipation.

Skin - Dryness. Brown spots. Wrinkled skin. Cellulite.

Sleep - Disturbed, unrefreshing sleep.

Stomach - Indigestion.

RELATIONS - **Compare:** (1) Pituitary gland. Thyroid.

REFERENCES - Murphy.

***HURA BRASILIENSIS

(Assaku)

PHARMACY - hura. Hurabrasiliensis. Assaku. N. O. Euphorbiaceae. Tincture of milky juice. **Historical dose:** Tincture and all potencies.

CLINICAL - Blindness. Hysteria. Leucorrhea. Leprosy. Sinuses disorders. Skin disorders. Spine, pains.

HOMEOPATHIC - The milky juice called Assaku by the Brazilians of Hura is as powerful as that of the better-known Euphorbians. Hura, has been used in leprosy when the skin feels as if it were hide bound.

Two of the pro vers had been affected with leprosy, but under homeopathic treatment they seemed to have recovered. During the proving, one of them had symptoms of compression of the spinal marrow with very great suffering.

Skin of forehead feels drawn tight. Tense vesicles. Stiff neck, pain in back. Throbbing in fingertips. Sensation of splinter under thumbnails. Itching, pimples on all projecting portions of bone, malar bones, etc.

MIND - Excited and oppressed as if by some misfortune. Causeless weeping followed by laughter. Laughing followed by chilliness. Laughing from every paroxysm of pain. Flow of sad thoughts. Imagines she will lose some one dear to her. Thinks he is about to lose a friend. Exaggerated conscientiousness. Irritable. Indisposed to work.

Fear of fever on going to bed. Weeping when singing. Biting hands, himself. Desire to break things. Forsaken feeling, Sensation of isolation. Impatience from pain. Mistakes in localities. Mistakes in time. Reproaches himself. Weeping in open air.

Delusions that she is alone in the world. Delusions that he is despised. Delusions has lost the affection of friends. Delusions his friends have lost all confidence in him. Delusions floating in air. Delusions that he is unfortunate. Delusions on falling asleep. **Abdomen** - Frightful colic with diarrhea and shivering. Throbbing in left side of abdomen. Twisting pain in left side with very painful, shooting, extorting cries. Stitch in ileo-cecal region, worse on movement.

Back - Stiff-neck, right side, least motion is painfully felt in nape. Dislocated and tearing pain in dorsal region, on sitting down. Severe pains in lumbar region, weakness. Excruciating pain in lumbo-sacral region, when

trying to lift a weight.

Breasts - Sensation of small ball under right breast. Sharp pain shifting from shoulder to left breast. Stitches, throbbing in breasts.

Chest - Lancinations in chest preventing deep breathing. Throbbings in chest. Nervous shivering all over chest. Suffocative sensation, especially when thinking of anything that has gone wrong.

Ears - Pain behind and in right ear. Stoppage in ears. Loud whizzing and whistling sound in ears.

Eyes - Prickling and burning in eyes, sensation as if sand in them. Eyelids red. Vision dim. Blindness. Sparks and zigzags before the sight when walking.

Face - Face weary-looking as after a debauch, rings around eyes. Face dull and dark-looking with paleness mottled with red. Face scarlet and bloated. Heat rising to face. Swellings on upper part of right cheek. Lips red. Small pimples inside lower lip.

Female - Pain in uterus as if compressed, as if a sharp instrument were thrust into it, followed by lancinations in vagina. Menses scanty, eight days too early, profuse with leucorrhea.

Food - Hunger, sometimes immediately after a meal.

Head - Rush of blood to the head. Heaviness, numbness of the head. Painful lancinations through head. Constriction in back of head. Skin of forehead feels drawn tight.

Heart - Constant pain at heart, sometimes very sharp, arresting breathing.

Kidneys - Acute pain in right kidney while walking, with great urging to urinate. Urine light green, clear, deposits a white sediment.

Limbs - Weariness of limbs. Lancinations, throbbing, rheumatic pains, numbness in upper and lower limbs. Dislocated pains in joints. Throbbing in fingertips. Heat in nails, sensation as if part of nail had been torn off. Pain as from splinter under thumbnail.

Lungs - Feeling of suffocation. Sighs and yawns much. Dryness of glottis causing cough. Considerable yellow, thick, frothy sputa. Expectoration rusty-colored, foul, bloody, like milk-chocolate.

Male - Intolerable erections. Amorous dreams with erections, lemon-colored semen. Weight in testicles when walking.

Mouth - Tongue white, pain at tip. Fleshy excrescence on inside of lips. Clammy mouth, foul smell. Taste of copper, blood, clammy, smoky.

Nose - Redness of (left) wing of nose. Constriction, throbbing at root of nose. Coryza, nosebleed. Sense of smell very acute.

Rectum - Constriction at anus. Frequent, ineffectual urging to stool. Diarrhea succeeded by great weakness of chest. Stools are liquid, painless, flowing constantly, offensive containing thread-worms. Constipation, hard, difficult stools.

Skin - Large pimples, itching, painful to touch on face. Cluster of pimples or vesicles on various parts. Red vesicular pimples, the vesicles break on pressure and water squirts out with great force. Small vesicular pimples with itching. Itching on forehead, eyelids, chin, beard, back, legs, sleep disturbed by it.

Sleep - Yawning and drowsiness. Nightly restlessness. Dreams of traveling, swimming, yellow water, corpses, or assassins.

Stomach - Great hunger with pain in stomach, satisfied immediately on eating. Qualmishness. Stomachache, as from hunger.

Teeth - Lancinations in teeth and gums, passing to ear. Pimples on gums.

Temperature - Feet and body constantly cold and damp. Heat and transient perspiration. Flushes of heat in face. Cold sweat on face and all over body.

Throat - Irritation of throat with dryness. Spitting of blood in morning.

Vertigo - Confusion. Dizziness.

COMMENTS - Mure's provings were made with single doses of the 5c potency. All the provers had symptoms of nervous excitement, twitching and irritability. The gastrointestinal irritation of the other Euphorbians was marked.

Farrington noted that the vesicles are so tense that when pricked they eject their contents. Sensation of a splinter under thumbnails. Eruptions tend to occur on the skin covering projecting portions of bone or the malar bones. He compared it with Canth.

A case of leprosy was reported cured with Assaku, which led to its extensive use in this disease, though Mure noted it had not cured any others.

RELATIONS - Antidoted by: Camph., Op. **Compare:** (1) Crot-t., Ric., Euphor., Hura-c.

(3) Calo. - Leprosy, livid and gangrenous tubercles, thickening of the skin. (3) Urin.

REFERENCES - Boericke. Clarke.

***HURA CREPITANS

(Monkey's Dinner-bell)

PHARMACY - hura-c. Hura crepitans. Monkey's dinner-bell. Sand-box. N. O. Euphorbiaceae. Tincture of seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Blindness. Burning, pains. Diarrhea. Headache. Sore, throat. Vomiting.

HERBAL - The Treasury of Botany only recognizes one species of Hura, H. crepitans. But Mure compared his Hura with H. crepitans and they are probably varieties of the same species as the properties of the milk are the same.

The rounded, hard-shelled fruits are about the size of an orange and have as many deep furrows as there are cells, each cell containing a single flattened seed.

When the fruit is ripe and exposed to a dry atmosphere, it bursts with great force, accompanied by a loud, sharp crack like the report of a pistol, for which reason it is often called the Monkey's Dinner-bell.

HOMEOPATHIC - The Hura-c. seeds are emetic, in a green state violently purgative, but when dry, according to Lunan, they lose this property.

An oil is extracted from them and sometimes used as a purgative, about twenty drops of it equal in action to a tablespoonful of castor oil.

A venomous milky juice is abundant in all parts of the plant and causes almost immediate blindness if applied to the eye.

The observed effects of Hura-c. were found from eating the seeds. Burning in throat, vomiting and purging, suffocation, headache, were the main symptoms complained.

RELATIONS - Antidoted by: Camph.. Op.

Compare: (1) Hur-br., Ric., Crot-t. (2) Caps. - burning in throat not better by water.

REFERENCES - Boericke. Clarke.

***HYDRANGAEA ARBORESCENS

(Seven-barks)

PHARMACY - hydrang. Hydrangea arbore - scens. Seven-barks. N. O. Hydrangeaceae or Saxifragaceae. Tincture of fresh leaves and young shoots. Fluid extract. **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder, catarrh. Bladder, stones. Cystitis. Diabetes. Dizziness. Gravel. Gout. **Kidney, colic. Kidney, stones.** Nephritis. Prostatic, disorders. **Prostate, enlarged.** Pyelitis. Rheumatism. Urinary, incontinence.

HERBAL - Like some other members of the Saxifragaceae, Hydrangea has a traditional reputation as a "**stone-breaking**" remedy as it was used in calculous diseases for many years.

Hansen noted that Hydrang. arrested the tendency to formation of calculus in the bladder and relieved distress from renal calculus, with soreness over the region of the kidneys and bloody urine.

HOMEOPATHIC - Hydrang. is a remedy for gravel, profuse deposit of white amorphous salts in urine. **Kidney stones, kidney colic, bloody urine.** It appears to act strongly on the neck of the bladder and on the ureters. Gout and rheumatism. Oppression of the chest. Pain in lumbar region. Dizziness.

Mind - Nervous and worried. Violent attacks of anger. Outbursts of anger due to pains.

Abdomen - Colic. Abdominal symptoms and enlarged prostate. **Sharp pain in loins**, especially left side.

Bladder - Bladder catarrh, stones. Urinary incontinence. Frequent urination. Spasmodic stricture. Cystitis. Burning in urethra and frequent desire, but hard to start. Stitching pain during urination.

Food - **Great thirst** with abdominal symptoms.

Male - Prostate hypertrophy. **Enlarged prostate** (Ferr-pic., Sabal.).

Kidneys - Pyelitis. Nephritis. Calculus in the ureter with prostate enlargement. **Kidney stones, kidney colic.** Sore kidneys. Pain in left kidney, ureter. Radiating pains (Berb.).

Urine - Profuse deposit of white amorphous salts. Gravel deposits. Yellow sand. **Bloody urine.** Heavy deposit of mucus.

COMMENTS - Dr. Nottingham of Lansing said that in physiological doses it produces giddiness, oppression of the chest and acts as a cathartic, diuretic, sialogogue and narcotic.

Nottingham used it with brilliant results in the case of Mr. B., 71, tall, slender, dark. He was exceedingly irritable and frequently subject to violent paroxysms of anger. For many years he had been accustomed to make the most reckless use of drugs and was always requesting his homeopathic doctor to give him "**something stronger.**"

For eight years he had suffered from bladder sphincter irritation with dribbling of urine, severe spasms of prostate, kidney catarrh, yellow sand in urine and even small stones. After persistent use of the best indicated remedies with no effect, the fluid extract of Hydrangea was given, a teaspoonful every three or four hours. The

symptoms disappeared in a very short time.

Cooper has also used this remedy (which, he says is the thirstiest plant known) with good effect in diabetes in cases presenting great thirst with abdominal symptoms and in enlarged prostate.

Hansen added that it is particularly useful for profuse deposits of white amorphous salts in the urine.

Hydrang. has arrested the tendency to formation of stones, relieves distress from kidney stones with soreness over region of kidneys and bloody urine.

RELATIONS - Compare: (1) Lyc., Chim., Berb., Pareir., Uva., Sabal., Oxyd., (2) Geum. (3) Polytr. - according to Dr. Cushing in tincture or infusion for enlarged prostate or prostatitis.

REFERENCES - Boericke. Clarke.

***HYDRASTINUM MURIATICUM

(Hydrastia Muriate)

PHARMACY - hydr-m. Hydrastinum muriaticum. Hydrastia muriate. An alkaloid of Hydrastis canadensis. Trituration of the crystals. **Historical dose:** Trituration and all potencies.

CLINICAL - Aphthae. Digestive, disorders. Fibroid, tumors. Hemorrhages. Metrorrhagia. Ozaena. Sore, throat. Stomach, dilatation. Ulcers.

HOMEOPATHIC - The alkaloids of Hydrastis have been largely used in the allopathic school for internal hemorrhage. Hydr-m. was found to be inconvenient by reason of its irritant properties. Its use in fibroid tumors was advocated by Dr. Burford and others in the homeopathic school.

Locally used in aphthous sore mouth, ulcers, ulcerated sore throat, ozaena, etc. Hydr-m. is a uterine hemostatic and also a vaso-constrictor. **Hemorrhages in dilatation of the stomach** and chronic digestive disorders. Metrorrhagia, especially from fibroid tumors.

COMMENTS - A case of central uterine fibroid tumor, about the size of a large orange, and pressing on the bladder, causing bladder symptoms, was quickly reduced in size with the disappearance of all symptoms by Hydr-m. 3x.

REFERENCES - Boericke. Clarke.

***HYDRASTIS CANADENSIS

(Golden Seal)

PHARMACY - hydr. Hydrastis canadensis. Golden seal. Orange-root. Yellow Puccoon. N. O. Ranunculaceae. Tincture of the fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcoholism. Asthma. Backaches. **Breast, cancer. Cachexia. Cancer.** Catarrh. Chancroids. **Colon, cancer.** Constipation. Coms. Dyspepsia. Eczema. Ears, disorders. **Emaciation.** Fainting. Fistula. Gastric, catarrh. **Goiter.** Gonorrhea. Hemorrhoids. Jaundice. **Leucorrhea. Liver, cancer.** Liver, disorders. Lumbago. **Lupus. Malnutrition.** Menorrhagia. Metrorrhagia. Mouth, sore. Nails, disorders. Nipples, sore. Nursing, women. Placenta, adherent. Post-nasal, catarrh. Pruritus, vul vae. **Rectal, cancer.** Rectum, disorders. Sciatica. Seborrhea. **Sinusitis.** Smallpox. **Stomach, cancer. Stomach, disorders.** Syphilis. Taste, disordered. Throat, deafness. Throat, sore. Tongue, disorders. Typhus. **Ulcers.** Uterus, disorders.

HERBAL - Hydrastis, the Golden Seal plant, is the only specimen of its genus among the Ranunculaceae. It grows in shady woods in rich soil and damp meadows. The fruit is like a raspberry and the plant is sometimes called ground raspberry in consequence. The root, from which the tincture is made, is really a perennial underground stem, thick, knotty and yellow.

The yellow color is very intense and has been used as a dye by Native Americans. The first mention of it in medical literature is by Rafinesque. Hale quoted him as saying that it is "tonic, ophthalmic, detergent," and that "it is said to enter into compound remedies for cancer, acting as a detergent tonic and the Cherokees are supposed to use it in that disease."

HOMEOPATHIC - Later experience agreed with this reputation and Hydr. won its chief fame through its use in cancer cases. Clarke thought it may fairly be said that more cases of cancer have been cured with Hydrastis than with any other single remedy. **Cancer and pre-cancerous states**, before ulceration with pain.

Shallow ulcers. Small wounds bleed and suppurate. Tendency to hemorrhage and ulcerations. Modifies the course **of smallpox** internally and topically. Garth Wilkinson noted the modification of smallpox, abolishing its distressing symptoms, shortening its course, lessening its danger and greatly mitigating its consequences.

Catarrh characterized by **thick, yellow, acrid, ropy discharge**. Mucus is found in the stools and in the urine. Hawks up mucus. Sense of raw burning. Poor digestion and obstinate constipation. Marked action on the liver.

Goiter of puberty and pregnancy. Clothing feels uncomfortable about groins. Lumbago.

Weak muscular power. Emaciation and prostration. Frequent fainting spells with profuse perspiration. Prominent cerebral effects, feels his wits sharpened, head cleared, facile expression.

MIND - Absent-mindedness, forgetful. Dullness of memory. Forgetful. Weakness of memory. Can't remember what he is reading or talking about. Disturbed by least noise. So nervous that to hear any one speak is unbearable. Averse to conversation.

Apathetic. Indifference to everything. Moody. High-spirited. Extreme restlessness. Cheerful on rising in morning. Nervous and sensitive.

Gloomy, taciturn and disagreeable. Hopelessness. Depression and gloom, sure of death and desires it. Discouragement incidental to long suffering and weakness. **Irritability after dinner.** Irritable, disposed to be spiteful. Malicious. Desire to strike. Moaning with occasional outcries from pain.

Abdomen - Burning pain in umbilical region with goneness, faintness in epigastrium. Gastro-duodenal catarrh.

Colon cancer. Flatulent colic with faintness. Loud rumbling with dull aching, worse moving. Abdominal walls painful on pressure, during flatulent colic. Cutting, colicky pains, better after passing flatus. Sharp pain in the cecal region. Sharp pain spleen region. Pains in the groin as if he had strained himself. Gripping pains with the stools. Groins as if sprained. Severe pain in bowels from getting feet wet during menses. Gurgling in ileocaecal region, with bloated abdomen. Intestinal catarrh, followed by ulceration.

Back - Dull, heavy, dragging pain and stiffness, particularly **across lumbar region, must use arms in raising himself from seat.** Neuralgia of neck. Muscles of neck feel sore. Tired aching across small of back and in limbs, knees ache, better by walking about. Chronic suppuration and swelling of cervical glands with great weakness. Debility and weakness in back and lower limbs better walking about. Excoriation in folds of skin of neck.

Breasts - **Cracked and sore nipples** of nursing women. Pain in breast (right) on sneezing. Pain in right breast and down arm. **Breast cancer,** pains like knives thrust into part. **Nipple retracted.** Hard, irregular tumor of left breast, glands in axilla enlarged and painful, cachectic appearance.

Chest - Chest raw, sore, burning. Pain from chest to left shoulder with numbness of arm, and palpitations. Thoracic or intercostal myalgia. Axillary glands tender and swollen. Excessive offensive sweat of axilla.

Constitutions - It produces atonic cachectic, degenerative conditions, hence suitable in old, easily tired, weak persons with great debility and emaciation. Emaciated, broken-down constitutions. Cancer and pre-cancerous states. Cancerous diathesis.

Coughs - Dry, harsh cough. **Loose cough, bloody or thick, yellow tenacious sputum.** Loose cough, raises much mucus. Dry, harsh, rattling cough from tickling in larynx. Catarrhal cough of long standing. Cough with febrile symptoms in evening and night. Cough with debility in children. Cough with rawness of larynx. Cough with tingling and smarting in throat.

Ears - Ears red, thickened and covered with scales. Pain in right ear. Otorrhea, thick mucus discharge (fetid). Fissures behind ears, where ears connect with head. Membrana tympani purplish and bulging. Perforation of eardrum. **Eustachian catarrh** with high-pitched voice. Roaring in the ears like machinery. Tinnitus from catarrh of inner ear. Deafness from eustachian catarrh. Deafness after scarlet fever. Throat deafness. Thick, offensive, irritating, catarrhal and purulent discharges from external auditory meatus.

Eyes - Chronic inflammation of eyes. Dark greenish-yellow conjunctiva. Yellow eyes. Opacity of the cornea. Ophthalmia with thick mucus discharge. Scrofulous ophthalmia, with or without ulceration. Profuse secretion of tears, smarting and burning of eyes and lids. Lids agglutinated. Lids greatly swollen and excoriated. Large painful sty on left lid. Blepharitis. Conjunctivitis without discharge. Conjunctivitis with sensation of dryness and scratching.

Face - Thin, yellow, sunken face. Expression weary, dull, skin pale, or yellow-white. Erysipelatous eruption following flushes of heat. Tenacious mucus hangs in shreds from mouth. Epithelioma of face, nose and lips. Aphthae on lips with swelling of tongue. Comedones.

Female - Endometritis. Profuse menses, flowing ten days or more. Menorrhagia and metrorrhagia with fibroids. Congestive dysmenorrhea. Leucorrhea, worse after menses (Bov., Calc.). **Thick, acrid, yellow, ropy leucorrhea.** Pruritus vulvae with profuse leucorrhea (Calc., Kreos., Sep.). Hot, watery, discharge from uterus. Fibroid tumors at menopause. Uterine hemorrhage. Uterine complaints better recumbent position. Removes the tendency to habitual adherent placenta. Erosion and excoriation of cervix. Inflammation of cervix, with heat and itching of vagina. Vagina sore during sex, bleeding afterwards.

Food - Poor appetite with constipation. **Irritability after dinner.** Indigestion from atony of the stomach, especially in elderly people. Bread or vegetables cause acidity, weakness, indigestion. **Worse by excessive use of alcohol.**

Head - **Frontal headache arising from catarrh.** Headache from gastric difficulties. **Sinusitis after coryza** (Kali-bi.). Neuralgia of the scalp and neck. Dull, pressing frontal pain, especially connected with constipation. **Hydrastis canadensis** tion. Eczema on forehead along the line of hair, worse after washing. Eczema of scalp with thick crusts.

Heart - Heavy beating of heart with dyspnea. Intermittent heartbeats. Heart agitated. Palpitations from a slowly progressing weakness. Palpitations with faintness. Palpitation; irregular, and at times laboured action of heart. Violent long-continued palpitation in morning. Pulse slow during the chill.

Kidneys - Dull aching in region of kidneys. **Gleety discharge, thick, yellow.** Mucus in urine. Difficult, painful urination. Suppression of urine. Incontinence. Catarrh of bladder, with thick, ropy mucous sediment in urine. Urine smells decomposed, putrid. Chronic cystitis. Symptoms of ulceration of bladder. Urine increased and of neutral reaction. High colored urine which deposits a cloudy sediment when standing. Constant desire to urinate.

Limbs - Rheumatic pains. Limbs tired, ache, feel weak, with coryza. Sharp, shifting pain, in right arm and leg, then left leg. Pain from right hip to knee while walking. Aching in sole of left foot, no relief from change of position. Irritable, indolent, atonic or scrofulous ulcers on the legs.

Liver - Cutting pain from liver to right scapula, worse lying on back or right side. Jaundice, with catarrh of stomach and duodenum. Jaundice from structural disease of liver. **Liver cancer.** Atrophy of liver. Torpor of the liver, with pale, scanty stools. Gallstones. Catarrhal inflammation of mucous lining of gall bladder and biliary ducts.

Lungs - Asthma and edema of lungs. Cancer of right lung. Laryngeal and bronchial catarrh, later stages. **Bronchitis in old, exhausted persons with thick, yellow, tenacious, stringy expectoration.** Breathing difficult, worse lying on left side. Frequent fainting spells with cold sweat all over. Feels suffocating when lying on left side. Tuberculosis with emptiness in stomach, emaciation, loss of appetite. Bloody, or thick, yellow, tenacious.

Male - Gonorrhea, in second stage, discharge thick and yellow. Gleet, debility, copious, painless discharge. Debility after spermatorrhea. Hydrocele. Dragging in right groin to testicle, then to left testicle, then to left groin. Long lasting gonorrhea, with great moral and physical depression.

Modalities - Better dry weather. Better warm covering. Better from pressure. Better rest. Worse from inhaling air. Worse cold air. Worse dry winds. Worse open air. Worse at night. Worse slight bleeding. Worse washing. Worse touch. Worse old age. Worse motion. Skin symptoms are worse from warmth, washing. Catarrhal symptoms are worse from harsh, dry winds, out of doors. Worse abuse of wine. Worse abuse of drugs.

Mouth - Aphthae. **Stomatitis during course of eruptive fevers.** Stomatitis of nursing mothers or weakly children. **Bitter taste.** Peppery, flat taste in mouth. Excessive secretion of thick, tenacious mucus. Bleeding, painful cancerous growth or tumor on hard palate. Aphthae on the lips. Cancer of lips. Epithelial cancer of lip. Bleeding painful cancerous growths on hard palate.

Nose - Burning pain in nose. **Thick, tenacious yellow-green mucus. Coryza watery, excoriating,** burning, smarting and rawness. Sneezing, with fullness over eyes. **Sinusitis after coryza** (Kali-bi.). Post-nasal dripping. Constant discharge of thick white mucus, sinus headache. **Thick, white or yellow, tenacious nasal discharge.** Secretions so profuse as to be removed in long tenacious shreds or pieces. Ozaena, with bloody, purulent discharge. Ozaena, with ulceration of septum. Blows nose all the time. Tickling, like a hair in right nostril. Air feels cold in nose. Nosebleed with burning rawness, followed by itching. Nosebleed before menses.

Perspiration - Profuse, offensive sweat on genitals. Profuse cold sweat all over. Sweats during frequent sudden attacks of fainty spells. Tendency to profuse perspiration and unhealthy skin (Hep.).

Rectum - Contraction and spasms. Constipation alternating with diarrhea. No desire for stool. **Obstinate constipation of pregnancy.** Constipation after purgatives. **Constipation with a sinking feeling in stomach.** Constipation from sluggish state of bowels. Raw smarting in the rectum during stools, remaining long afterwards. **Constipation with hemorrhoids.** Proctitis. Fistula of anus. Prolapsed, anus fissured. Fissures and excoriations of anus. Prolapse of rectum. Hemorrhoids, even slight bleeding exhausts. **Fetid flatus.** Noisy discharge of flatus. Exhaustion and fainting after stool. Ulceration of rectum, after bad cases of dysentery.

Skin - Jaundice, dark greenish-yellow color. Cancerous ulcers. Atonic ulcers, following removal of tumors. Lupus. Hot, dry skin, with fever. Burning heat and itching in skin. **Erysipelatous rash on face, neck, palms, joints of fingers and wrist, with maddening, burning heat, later skin exfoliates.** Nettle rash, hives, worse from scratching, worse at night. Scarlet raised nodular eruption. Infantile intertrigo. Eruptions like smallpox. **Smallpox, all stages, itching tingling of the eruption.** Smallpox with great redness, swelling and itching. Obstinate excoriations of skin. Yellowish looking vesicles, filled with a limpid fluid.

Sleep - Awakened by backache and dull pains in navel and hypogastric region. Restless sleep. Difficulty in awaking. Dreams wearisome.

Stomach - Belchings of sour fluid. Sore feeling in stomach more or less constant. Faintness at the stomach, sinking, gone feeling in stomach with loathing of food or as of a sharp lump in stomach. Atonic dyspepsia. Chronic gastritis. **Weak digestion with debility.** Acute, distressing cutting pains. Chronic gastric catarrh, ulceration. Painful epigastric tumors with pulsations. **Stomach ulcers with emaciation.** Marasmus. Ulcers

and cancer. **Stomach cancer with emaciation.** Regurgitation of food by mouthful, without nausea. Vomits all she eats, except milk and water mixed.

Stools - Feces in form of hard balls coated over with yellowish, tough mucus. Slimy, tenacious discharges with tenesmus. Stools hard and knotty, of a gray or brown color. Scanty stools alternating with discharge of membranous casts. Stool light colored, soft, acrid, greenish. Stool lumpy, covered with yellow mucus. Greenish stools.

Temperature - Chills at night. Chill morning or evening. Chilliness, especially in back or thighs, with aching, pulse slow. Heat in flushes. Great heat of whole body. Constant dull burning pains all the evening. Gastric, bilious or typhoid forms of fever, with gastric disturbances, jaundice and great debility following. Heat alternating with chill. Influenza in cold, weak, debilitated persons.

Throat - Throat dry, raw, sore, smarting. Throat as if excoriated, on swallowing. Scraping in larynx. Uvula sore and relaxed. **Hawking of yellow, thick mucus from posterior sinuses** (Kali-bi.). Follicular pharyngitis. Ulcers in the throat, especially after mercury. **Post-nasal dripping, waking from sleep.** Cancerous ulcers. Goiter of puberty and pregnancy. Roughness in throat in morning on waking. Smarting and tingling in throat. Sore throat from gastric derangement. Sore throat, with increased mucus, with burning and rawness.

Tongue - Tongue raw, with dark red appearance and raised papillae. **Tongue yellow, dirty.** Tongue white, swollen, large, flabby, slimy. Tongue coated with thick white fur. Tongue coated with a yellow stripe. **Tongue shows imprint of teeth** (Merc.). Ulceration of tongue, fissures toward the edges. Tongue as if burned or scalded, later a vesicle forms on the tip. Tongue cancer. Tongue and lips parched, red and dry.

Vertigo - Feeling as if intoxicated.

Vision - Lack of accommodative power of eyes. Asthenopia. Sparks and light spots on closing eyes.

COMMENTS - Grimmer noted that Hydr. has been proven highly effective in liver cancer. Even in advanced cases it has been of great assistance in the relief of pain, permitting the patient to retain consciousness **Hydrastis canadensis** to the end without the need of narcotics or analgesics.

Affinity for stomach, liver and colon cancer (Cadm.). Skin adheres to the tumor, mottled, bluish. Burning pains, knife-like pains at the site of tumors, especially rectal tumors. Colon cancer with severe constipation and lumpy mucus in the stools. Blood and yellow, stringy mucus in the stool with a knife-like cutting pain in the rectum every time they have a bowel movement.

Cancer at the emaciation stage, the last stages of cancer. Loss of appetite with severe constipation. Tonic can revive appetite (AIL). **Cachexia, emaciation** associated with chronic disease with yellowish tinge to the skin and sunken features. Weakness and faintness spells with sudden attacks of loss of energy and weakness. Cold sweats. Excessive sweat, especially of the armpits or genitals.

Offensive ulcers, chancroids, fissures. Ulcerations of the mucus membranes, especially the stomach. Malignant ulcers, with vomiting of ropy, sticky mucus. Useful in pre-cancerous stage, a period of undefined ill-health without any discernible new growth. Never well since cancer, emaciated and weak. Used in both potency and tincture for cancer treatment, commonly used as a supportive remedy in addition to primary treatment.

Yellow or white, tough and stringy catarrh of almost all mucous surfaces, nasal catarrh, pharyngeal, bronchial, gastric, duodenal intestinal, urethral (gonorrhea, gleet), vaginal.

Sinusitis with yellow, thick, stringy, lumpy mucus. Chronic lung disease, coughing up thick, yellow globs. Asthmatic states. Chronic dry, harsh, rattling coughs. Chronic weakness and obstruction.

Dull, heavy, sodden-looking facial expression, yellow-white in color. Large, flabby and slimy-looking tongue, bluish-white under the fur, which is yellow, slimy and sticky. Tongue is indented by the teeth.

Little appetite. Weak digestion of bread and vegetables. Sour, putrid belchings. Fullness and weight at stomach. Characteristic empty, aching "gone" feeling, worse after a meal. Jaundice and liver enlargement. Gallbladder attacks. Bitter taste in the mouth.

Bowel movements are either infrequent and constipated or frequent with loose, soft, light-colored stools. Torpor of the bowels, stools lumpy, covered with yellowish, tough mucus. Continual pain in the head and a bad taste in the mouth with constipation. Severe backache, wakes in the night, worse damp weather.

Hard, indurated cancer of the breast or cervix (Con.), with yellow, stringy mucus. Scirrhus of uterus or breasts. Breast abscesses, or abscessed glands. Sore mouth nursing-women, sore nipples. Vaginitis with yellow, stringy discharge. Metrorrhagia, leucorrhea. Pruritus vulva. Retained placentas.

Garth Wilkinson found it an excellent remedy for smallpox taken externally and topically. Eczema, drying into crusts and burning like fire, has been cured with an application of one part Hydr. tincture to nine parts of glycerine. The burning was removed.

Clarke once saw a woman, 60, who had been given Hydr., 5 drops of tincture in water three times a day. After a week she developed a scarlet rash, raised and nodular, exceedingly irritable, especially at night. It was on every part of the body except the face and was worse on her buttocks and elbows. It remained a week. At the

same time, the patient became very ill with sickness and general digestive disorder.

Weiss gave a woman, 31, who had adherent placenta in several confinements in succession, Hydr. 3x three drops daily from the fourth month during her last three pregnancies.

Each terminated without adherent placenta. Four other cases of habitual adherent placenta were successfully treated in the same way.

Clifton noted that the dyspepsia occurred frequently in tubercular families and in cases of actual tuberculosis, the loss of appetite and "goneness" being especially prominent. He found that the tincture and lower potencies worked best in dyspepsia, while the higher potencies were better in catarrh of nose and fauces.

RELATIONS - Antidote: Sulph. Useful after too much Chlorate of Potash for sore throat. **Compare:** (1) Hydr-m., Xanrhi., Kali-bi., Con., Ars-i., Phyt., Aster., Stann., Puls. (2) Gali. - cancer of the tongue. (3) Manz. - diarrhea, gonorrhea, gleet, leucorrhea, catarrhal conditions. (4) Hydrastine sulphate 1 x - hemorrhage of bowels in typhoid. (5) Marr. - a stimulant to mucous membranes, especially laryngeal and bronchial, chronic bronchitis, dyspepsia and hepatic disorders, colds and coughs.

***HYDRAZINUM SULPHURICUM

(Hydrazine Sulphate)

PHARMACY - hydr-s. Hydrazinum sulphuricum. Hydrazine sulphate. **Historical dose:** Tincture and all potencies.

CLINICAL - **Anorexia.** Arrhythmias. **Cachexia. Cancer. Emaciation.** Hodgkin's, disease. Hypoglycemia. Hypotension. **Liver, disorders.** Lymphoma. Melanoma. Nausea. Neuritis., Vumfiness. Tumors. Vertigo. Vomiting. **Weakness.** Weight, loss.

HOMEOPATHIC - Dr. Joseph Gold, in 1968, wrote a paper for the Oncology Journal called "A proposed treatment of cancer by inhibition of gluconeogenesis" in which he noted that Hydr-s., dramatically reverses **cachexia**, the wasting-away process that kills many cancer patients.

"This inexpensive chemical, with little or no side effects, also has a clinically documented anti-tumor action. It causes malignant tumors to stop growing, to reduce in size, and, in some cases, to disappear.

"A number of cancer patients diagnosed as terminal have experienced tumor stabilization and remission through hydrazine sulfate therapy. About half of all patients who take hydrazine sulfate experience weight gain, restored appetite, extended survival time, and a significant reduction in pain and suffering.

"Many patients report an increase in vigor and strength and the disappearance of symptoms of the disease, along with feelings of well-being and optimism.

"The common types of cancer most frequently reported to benefit from hydrazine sulfate therapy are recto-colon cancer, ovarian cancer, prostatic cancer, lung cancer, Hodgkin's disease and other lymphomas, thyroid cancer, melanoma, and breast cancer. Some rare types of cancer also benefit.

"Hydrazine sulfate is known to produce excitement, lethargy, convulsions, hypotension, arrhythmias, fatty changes in the liver, hypoglycemia and weight loss.

"Toxicity. If inappropriately high doses of hydrazine sulphate are taken, numbness, nausea, vomiting, drowsiness and nerve inflammation may occur. Side effects may include nausea, some pruritus, dizziness due to low blood sugar, or peripheral neuritis.

"The following toxic symptoms have been reported: nausea, vomiting, anorexia, abnormal sensations affecting both upper and lower limbs, impaired fine motor functions (writing), confusion, abnormal electromyograms. "

COMMENTS - In one case, a sixty-two-year-old woman with widely disseminated cancer of the cervix, in a very debilitated condition, was put on Hydr-s.

After one week, a secondary tumor the size of an orange had completely disappeared, much to the amazement of the woman's doctors, and her neck nodes had become markedly smaller.

After three weeks on the therapy, the patient had gained weight and was active and in good spirits. The woman was discharged from the hospital a short time later.

RELATIONS - Compare: (1) Cachexia - Alf., Cadm-s., Ars., Hydr.

REFERENCES - Gold. Murphy.

***HYDROBROMICUM ACIDUM

(Hydrobromic Acid)

PHARMACY - hydrobr-ac. Hydrobromicum acidum. Hydrobromic acid. **Historical dose:** All potencies.

CLINICAL - Tinnitus. Vertigo.

HOMEOPATHIC - Seems to have a specific effect on the inferior cervical ganglion increasing the action of the sympathetic nerves, promoting vaso-constriction. Relieves headache, tinnitus and vertigo, especially in vaso-

motor stomach disturbance.

Dry and puckering throat. Constriction in pharynx and chest. Waves of heat over face and neck. Pulsating tinnitus with great nervous irritability. Vertigo with palpitations, arms heavy, seemed as if parts did not belong to him.

REFERENCES - Boericke.

***HYDROCOTYLE ASIATICA

(Gotu Kola)

PHARMACY - hydre. Hydrocotyle asiatica. Gotu kola. Indian pennywort. Centella asiatica. N. O. Umbelliferae. India and South Africa. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne rosacea. Constipation. Elephantiasis, arabum. Favus. Gangrene, amputation. Gonorrhea. Gout. Ichthyosis. **Leprosy.** Leucorrhea. Liver, contraction. **Lupus.** Neuralgia orbitalis. Skin disorders. Syphilis. Uterus, follicular inflammation. Vagina, pruritus.

HERBAL - Hydre, has been long known as an Indian remedy. Gotu Kola is known as Indian Pennywort. It produces hypertrophy and induration of connective tissue. Curative in disorders that exhibit interstitial inflammation and cellular proliferation in any part. Hypertrophy and induration of connective tissue. Boileau was the first to use it as a remedy in leprosy.

HOMEOPATHIC - Hydre. has a considerable reputation in **leprosy and lupus**, when there is no ulceration. Elephantiasis. Excessive thickening of skin and marked exfoliation of skin.

Copper colored eruptions in various places.

Intolerable itching especially of soles, vagina. Very copious perspiration. Ulceration of the womb. Pains of cervical cancer. Difficulty in maintaining an upright posture.

MEND - Weak concentration. Forgetful. Poor memory. Indifference. Gloomy thoughts, inclination for solitude. Misanthropy. Gaiety, loquacity.

Abdomen - Borborygmi in different parts.

Flatus. Heat in hypogastrium. **Wind colic.** Rumbling in different parts. Violent contractions of intestines. Pain, every five minutes, worse transverse colon. Constriction. Sensation as if all the organs were in motion.

Back - Renewal of old rheumatic pains in left rhomboid, worse pressure. Bruised pain in loins. Obstruction in region of kidneys with heaviness. Swelling of cervical glands.

Chest - Pustules on chest.

Ears - Pain in left internal meatus. Throbbing in right ear, ringing in left with stoppage. Confused noise in left, blowing sound.

Eyes - Eyes look unsteady. Injection of palpebral conjunctiva. Pricking in eyes. Vision dim, dazzling. Tumours of eyelids. Epithelioma.

Face - Intoxicated expression. Intermittent pain in left cheekbone and about orbits. **Neuralgic affections of supra and infraorbital nerves.** Ulcer irregular and livid. Papular eruption. **Copper colored eruption on face.** Large tubercle on right alae nasi. Tubercles, as large as lentils, near root of nose at both sides and painless.

Female - Menses too early. **Profuse leucorrhea.** Pruritus of vagina. Shooting and itching in vagina. Vulva, vagina and cervix red. **Heat and redness of vagina and vulva.** Dull pain in ovarian region. Uterus feels heavy. Pain in whole uterus, left side. Severe labor-like pain in uterus and appendages. **Granular ulceration of womb.** Partly fungus, partly granular ulcer on upper lip of neck of uterus, with profuse leucorrhea.

Food - Loathing of food. Anorexia, then strong appetite. Aversion to tobacco smoking.

Head - Headache with general lassitude and prostration. Congestion of blood to the head, heaviness. Painful drawing in almost all cranial nerves. Neuralgic pain in external frontal nerve. Intense pain with some swelling in posterior part of skull. Occiput acutely sensitive to touch. Constriction of back part of skull and scalp. Tinea favosa.

Heart - Cardiac spasm. Stenosis of aorta. Constriction of heart with quiet and regular pulse or with a few separate beats in certain arteries or with hot flushes in different parts of the face. Irregular beating of heart. Pulse stronger and fuller.

Kidneys - Slight formication in kidney. Constriction of bladder. Inflammation, irritation of neck of bladder. Irritation of urethra. Frequent desire to urinate, urine increased. Urine becomes brown on cooling. Urine turbid without sediment.

Limbs - Bruised feeling in the muscles. Rheumatic disorders. Gout with very severe paroxysms. Contractions of forearms and legs. Irresistible inclination to stretch. Pain in all joints, muscles, worse left. Sensations as if hot water ran through marrow of bones. Yellowish spots on legs. **Insupportable itching of soles of feet.** Back of right foot was covered with small indurations, having a large thick crust.

Liver - Cirrhosis of liver. Pain in upper part of liver. Obstruction in hepatic region.

Lungs - Pricking in vicinity of glottis. Dryness of windpipe of ventricles of larynx. Oppression of chest, which suddenly ceases and then returns at longer or shorter intervals. Breath short. Speaking soon fatigues. Irritation of air-passages. Difficult expectoration of bronchial mucus.

Male - Drawing in spermatic cords, worse left. Feeling of weight in prostate gland. **Acute and secondary gonorrhea.** Suppressed gonorrhea. Scrotum relaxed. Indifference to intercourse. Impotence.

Mouth - Stomatitis aphthosa. Syphilitic patches in mouth. Whitish spots on left upper and under sides of tongue. Impediment in speech. Redness of velum palati with pain on swallowing, worse by food. Hyperemia of mucus membrane. Saliva increased. Insipid or bitter taste, unpleasant in morning.

Nose - Dry coryza. Stoppage of nose. Swelling of nose. Tickling, worse left nostril. Feeling as before bleeding. Bleeding. Lupus exedens of nose.

Perspiration - Profuse sweat.

Rectum - Weight in rectum. **Constipation.** Burning, itching in anus. Ineffectual desire for stool. Stools dry, dark, increased, easier.

Skin - Dry eruptions. Erysipelatous redness. **Pemphigus benignus.** Eczema. Copper-colored eruptions in various places. **Great thickening of epidermoid layer and exfoliation of scales.** Psoriasis on trunk and limbs, palms and soles. **Intolerable itching.** Syphilitic disorders. **Acne.** Leprosy. **Elephantiasis** (Ars.). Lupus non-exedens. Pustules. Circular spots with dry scaly edges. Yellowish spots. Pricking on different parts.

Sleep - Yawning and stretching. Sleepiness in the daytime. Heavy, dreamless sleep. Persistent dreaming.

Stomach - Anxiety in region of stomach. Belchings frequent, acid. Swelling of stomach. **Cramping pain in stomach, without nausea.** Contraction, cramp like pain. Sensation as if gases collected into a ball. Heat in stomach region spreading out like a bar. Nausea.

Temperature - Shivering in afternoon. Cold hands and feet with general condition resembling precursory stage of fever without alteration of pulse. Febrile movements. Heat of skin.

Throat - Voiceweak. Tonsils red. Esophagus is dry and rough. Burning and pricking in esophagus and pharynx. Disorder of constrictor muscles of pharynx.

Vertigo - Vertigo with torpor. Vertigo with congestion and heaviness.

COMMENTS - The skin and the female generative organs are the chief seats of the drug's action, though the liver, the nerves and the mucus membranes are also powerfully acted upon.

Skin disorders including acne, eczema, pemphigus, lupus, copper-colored eruptions, papular eruptions on face and intolerable itching in various places. Granular ulceration. Gouty and rheumatic disorders. Bruised feeling in all the muscles. Affections of the trigeminus nerve.

Aphthous and syphilitic stomatitis. Irritation of the neck of the bladder increased secretion of urine. Heat and itching in vagina. Weight in uterus. Weight in the **"male uterus,"** the prostate gland.

A patient who was taking Hydre, for eczema with advantage complained of persistent dreaming all the time he was asleep and an unpleasant mouth on waking in the morning.

Auduit cured the case of a girl, 20, weak and sickly-looking, who was troubled with glandular swellings since childhood, and for eight years had lupus exedens of nose. Her mother had a coppery eruption on her face.

On the right of her nose was a button the size of a sixpence covered with a thick crust covering yellow pus mixed with blood. Margins were irregular and livid. Five other buttons the size of lentils were near the root of the nose on both sides.

Hydre, was given in 6c, 3c, tincture and the 18c potencies in succession with intermissions and completely cured in five months.

RELATIONS - Compare: (1) Elaesis - South American Palm - scleroderma, elephantiasis, leprosy, skin thickened, itching and hardened. Anesthesia. (2) Hura, or Trychnos Gaultheriana - bites of serpents, ulcers and cutaneous disorders generally. Hoang-na. (3) Chaulmoogra oil, Hydr., Ars., Aur., Sep.

REFERENCES - Boericke. Clarke. Phatak.

***HYDROCYANICUM ACIDUM

(Prussic Acid)

PHARMACY - hydr-ac. Hydrocyanicum acidum. Prussic acid. Dilutions. **Historical dose:** All potencies.

CLINICAL - Angina pectoris. Anorexia. Asthma. Catalepsy. Cholera, asiatica. Colic. **Collapse.** Coma. **Convulsions.** Cyanosis. Delirium. Dyspepsia. Epilepsy. Hemiplegia. Hiccoughs. Labor, pains. Narcolepsy. Nausea. Paralysis. Stings. Stomach, catarrh. Strokes. Sun-stroke. Tetanus. Uremic, convulsions. Vomiting. Whooping cough.

HOMEOPATHIC - The pathogenesis of Hydr-ac. is mainly composed of symptoms observed in poisoning cases and those clinically verified, but it has also been proved by Joerg and his pupils.

Hydr-ac. is one of the deadliest and most rapidly acting of poisons. Hence its applicability in cases of critical

intensity, such as the collapse stage of cholera, when it supervenes on sudden cessation of all discharges, convulsions during severe attacks of illness.

Convulsions and paralysis are the leading keynotes of the medicine's action. In the convulsions, the body is stiffened and thrown back, cramp in nape of neck.

Paroxysmal breathingjaws set, foaming at mouth, face flushed, bluish tint. Lightning like jerks from head to feet.

Coldness is a strong feature with the remedy, marble coldness within and without. **Blue tinge of the skin** is also characteristic. Sudden effects, spasms, strokes. Collapse (Ars., Verat.), due to a pulmonary condition. Spasmodic constriction in larynx, feeling of suffocation, pain and tightness in chest, palpitation, pulse weak, irregular. Cyanosis.

Hysterical and epileptic convulsions. Epileptic attacks preceded by nausea and vomiting or water brash.

Sinking sensation at the epigastrium. Evacuations cease suddenly, sinks down unconscious. Cholera. Intestinal cramps and colics. Tetanus, narcolepsy. Prolonged faints. Catalepsy. Lack of reaction.

Hydrocyanicum acidum MIND - Concentration difficult. **Confusion, better open air.** Senses acute. Speech incoherent. Inability to think. Anxious feeling and fretfulness. She asks no questions and returns no answers.

Fear of imaginary troubles. Feat of death. Fear of house falling. Fear of horses, cars. Fear of crossing the street, even when the vehicle is at a considerable distance.

Gestures, involuntary motions of hands. Insanity from excessive excitement. Loud involuntary screams, just before the convulsions. **At times is forced to scream out suddenly, she knows not why.** Wild delirium. Laughing, loudly.

Frequently rises in bed, **gazes vacantly about for a minute**, then throws herself forcibly upon pillow, or flings herself from one side to the other. Seems to notice no person, unless they interfere with her plans. Unconscious.

Abdomen - Coldness of abdomen alternating with burning. Cold feeling in abdomen with sharp pains. Burning from navel to esophagus. **Enteralgia with distension of abdomen.** Region of navel sensitive to touch, and upon deep pressure a sensation as from a resistant body. Abdominal muscles firmly contracted and hard as a board. Yellow or brownish spots on abdomen.

Back - Muscles of the dorsal region are contracted.

Chest - Angina pectoris. Torturing pain in chest. Tightness in chest, sensation of suffocation. Brownish spots on chest and abdomen.

Cough - Dry, spasmodic, suffocative cough. Dry tickling cough at night. **Dry, tickling cough in consumptives.** Whooping cough with convulsions. Violent paroxysms, or frequent cough excited by a pricking sensation, which begins in larynx. Coughing with much rattling of mucus.

Ears - Roaring and deafness in ears.

Eyes - Distorted and half open eyes. Protrusion of eyes. Paralysis of lids. Eyes **turned towards right and upwards, followed by general spasms.** Eyeballs fixed. Pupils motionless or dilated. Dim vision gauze before eyes.

Face - Pale or bluish, looks old. Sallow and gray complexion. Lips pale or bluish. Jaws clenched in rigid spasm. Frightful contortion of muscles. Froths at mouth. Distorted, bloated and bluish face.

Food - Loss of appetite from nervous exhaustion, the result of overwork and anxiety. Anorexia. **Drinks rumble through throat and stomach.** Absence of thirst, with heat of whole body, or violent thirst. Can drink during epileptiform attacks, but can't eat.

Head - Headaches with blindness. Headaches with protruded, half open eyes. Violent stupefying headache. Confusion of head. **Intense cerebral congestion**, preceded by vertigo, weight and great pain in back of head. Brain feels on fire. **As if a cloud were going over his brain** in a case of sunstroke. Supra-orbital neuralgia with flushing on same side of face. **Sudden and desperate cases of cerebrospinal meningitis.** Violent pressure in occiput and forehead, worse right side.

Heart - Cardiac asthma. Angina pectoris with feeling of suffocation and torturing pains in chest. Angina pectoris, severe pain (Ox-ac., Spig.). **Clutches at the heart as if in distress.** Irregular, feeble beating of heart. Violent palpitations. Heart failure, compression at heart. Blood vessels distended, writhing in them. Occasionally utters a groan or a sigh, and **presses hand forcibly over region of heart**, as if suffering pain there. **Pulse, failing, weak, irregular.** Pulse unequal with occasional strong beats.

Kidneys - Retention of urine. **Uremia with diminished action of heart.** Copious emission of watery urine. Involuntary urination.

Limbs - Cold limbs. Hands icy cold. Languor and weakness of limbs. Loss of sensation in limbs, with stiffness of limbs. Paralysis first of lower, then of upper limbs. **Varicose ulcers.** Staggering and trembling.

Lungs -Asphyxia. Breathing slow, rattling, irregular, gasping. Noisy and agitated breathing. Asphyxia. Dry,

spasmodic, suffocative cough. **Asthma with choking,**

Hydrocyanicum acidum contraction of throat. Asthma, with with puffy face and feeble action of heart, or heart's action may be violent. Convulsions with whooping cough. **Paralysis of lungs** (Queb.). Arrest of breathing from stitches in larynx. Hurried and labored breathing, during severe spasms of all muscles, worse at night, on falling asleep. Feeling of suffocation during torturing pains in chest. Marked cyanosis, venously congested lung. Threatened pulmonary apoplexy.

Modalities - Worse from full moon. Worse suppressions. Worse storms. Indigestion, which is worse after eating. Headache is worse at night. Vertigo worse open air.

Mouth - Froth at mouth, forming large bubbles. Salivation. Loss of speech. Dry mouth. Distortion of corners of mouth. Pus, metallic, astringent taste. Taste acrid, sweet or fetid. Grinding of teeth during convulsions.

Nose - Dryness of nose. Discharge of greenish brown looking fetid pieces of hardened mucus, with stinging high up in nose. Enlarged, bluish wings of nose. Increased secretion of saliva.

Perspiration - Body covered with sweat. **Rectum** - Cholera. **Involuntary stools with hiccough and great prostration.** Involuntary stool in bed. Sudden cessation of all discharges. Last stage of Asiatic cholera, when diarrhea has ceased and vomiting has decreased, when there is anguish with pressure on chest, and the patient becomes cold, with gradual extinction of pulse.

Skin - Bluish eruptions. Bad cases of smallpox. Scarlet fever, the eruption is dark colored and soon becomes livid. Paleness with a bluish tinge. Dryness. Itching. Formication. Erythema.

Sleep - Drowsiness. Yawning with shivering. Coma vigil. Irresistible drowsiness. Lies like one dead. Lies with head fixed and thrown backwards, and legs fixed and rigid. Lies in an apparently unconscious state, limbs and jaws rigid, forearms fixed on arms, which are firmly pressed on side. Prolonged sleeplessness or very heavy sleep. Vivid incoherent dreams.

Stomach - Acidity and heartburn. **Stomach pain,** worse when stomach is empty. **Drinks, rumbles through throat and stomach.** Burning from navel to esophagus, chronic dyspepsia. **Great sinking at pit of stomach.** Pulsative pain in precordial region. Intense pain in stomach and intestines, with much flatulence. **Dyspepsia** from chronic inflammation of stomach and bowels. Vomiting of a black fluid.

Temperature - Icy coldness, especially hands. General coldness with heat in head. **Coldness within and without, like marble.** Frequent hot flushes at menopause. **Heat in bed with coldness of limbs.** Heat and sweat over whole body.

Throat - Noisy swallowing drink rumbles through throat and stomach. Spasms or paralysis of esophagus. Scraping sensation in throat, followed by secretion of mucus in bronchia. Swollen sensation. Burning and scraping. Tickling and scraping in larynx and bronchial tubes with expectoration of yellowish or whitish mucus.

Tongue - Tongue cold. Tongue paralyzed and protruded. Tongue coated white. Tongue feels cold and burns at tip. Tongue lame, stiff.

Vertigo - Vertigo with feeling of intoxication. Vertigo with frequent headaches, stupefaction and falling down. Sudden feeling as if everything about him moved slowly. Dizzy without reeling. Vertigo during headache. Cloudiness of senses, objects seem to move. Vertigo from insufficiency of arterial contraction.

COMMENTS - A. H. Croucher cured a boy, 3 1/2, of convulsions with Hydr-ac. The first attack occurred six months previously. His father's sister had died of epilepsy.

Before the fits came on he could walk well, but could not afterwards. The fits occurred at intervals of about three weeks when a succession of them occurred, each lasting about five minutes during two or three days. During the intervals between the fits he would generally scream.

In the morning on awaking, the patient cried out, then convulsions occurred, body and limbs convulsed, eyelids twitched but remained open, eyeballs turned up and to right. Seemed quite unconscious.

Hydr-ac. 2x, one drop three times a day increased afterwards to two drops and continued for a fortnight. No more convulsions, but three months later a rash developed all over him.

The characteristic blue tint of Hydr-ac. is apparent after death in some poisoning cases. Livid spots on limbs, nails violet. In one case there was a brilliant violent hue all over. The heat is greatly disturbed, blueness and coldness of surface. Marble coldness within and without.

It acts on the medulla and through the vagus nerve on heart and respiration. Irregular and gasping breathing. Dry tearing cough, worse at night. Cough in tuberculosis. The pulse is feeble, imperceptible. The patient clutches at the heart as if in distress. Profound prostration.

Persistent and tonic tetanic spasm, without any reflex excitability (unlike Nux-v.). Paralysis attacks first the lower, then the upper limbs. Acts powerfully on the muscles of face, jaws and back. Pronounced risus sardonicus. Lividity, frothing.

Disturbed digestion, worse after eating. Drinks roll audibly into the stomach. It cured a boy, 4, of a fever with

the symptom: "when swallowing a teaspoonful of liquid it sounds like water rolling into an empty barrel."

Headache, worse at night and vertigo, worse in the open air. In a case of sunstroke, Cash removed the symptom "Feels as if a cloud were going over his brain."

RELATIONS - Antidoted by: Camph., Coff., Ip., Nux-v., Op., Verat. **Compare:** (1) Camph. - cholera, coldness, Helod. - coldness. (2) Cic. - spinal cord, cramp in nape. (3) Con. - paralysis spreading from below upward. (4) Oena. - epilepsy. (5) Lauro. - dry tickling cough, Lauro, has also a cough with jelly-like sputa dotted with bloody points. (6) Lach., Tab. (asphyxia), Hell. (7) Solania - paralysis of lungs and heart. (8) Nux-v. - tetanus, but of different type.

***HYDROGEN

(The Element)

PHARMACY - hydrog. Hydrogen. The element. **Historical dose:** All potencies.

CLINICAL - Acidosis. Alkalosis. Aphthae. Backaches. Congenital deformities. Cystitis. Diarrhea. Fainting. Fistula. Headaches. Hemorrhoids. Insomnia. Nevi. Rash. Sprains. Stomach, pains. Ulcers. Weakness.

HOMEOPATHIC - Hydrogen was the first element to be formed. This primordial element begins Mendeleev's Periodic Table. It has a positively-charged proton as its nucleus and a negatively-charged electron-cloud around it.

Hydrogen was proved by Jeremy Sherr and his team of provers in England. They used modern hydrogen with its increased tritium content as it is now.

Symptoms included sudden manifestations. Sensation of heat on waking. Excessive weakness, fainting weakness, with nausea. Tremulous weakness. Headache with sensation of heat. Burning, cutting, stinging, stitching pains. Fever with thirst.

Aphthae and profuse saliva; dry mouth and throat. Desire and inclination to lie down. Lassitude after eating. Ulcers, fistula, nevi. Accidents and sprains. Symptoms on one side, better left side. Annual periodicity.

MIND - Difficult concentration. Mistakes in speaking, spelling, writing. Mistakes the left and right sides. Trouble explaining the mental state. Absent-minded in morning, evening. Confused. Disjointed and jumbled thoughts. Tendency to lose things, accident prone. Hurry, industrious. Interested in esoteric subjects. Averse to studying. Ailments during full moon. Ailments from quarrels. Causeless anger. Indisposed to talk when angry. Throws things away when angry. Feels grubby. Difficulty coping with stress.

Tendency to panic, nervous apprehension. Anxiety about money and fear of poverty. Desire to be alone. Aversion to being touched. Bites fingers. Ennui. Irresolution about what to do with life. Blames self. Confusion about identity, especially sexual.

Emotional confusion. Strong alternation of moods. Vulnerable, weepy. Love, lovesick, overflowing love for humanity. Sighing. Sympathetic. Everything seems ludicrous. Laughed at serious things. Loquacious. Talking to self. Singing. Suspicion, paranoia. Angry, irritable. Causeless anger, tendency to throw things, to not talk. Ailments from quarrels.

Depression, especially during full moon. Silent, morose, introverted. Self-pity. Insecurity. Thoughts of death. Thoughts of dead bodies. Suicidal tendency. Despair, hopelessness. Apathetic, bored. Resignation. Distant and detached, indifferent to loved ones, emotionally numb. Religious tendency. Near-death experiences.

Altered perception. Sense of unreality, of separation from the world, detached (Granit- m.). Spacey feeling. Sensation of universal consciousness and enlightenment.

Delusion body is enlarged. Delusion he is diminished, smaller than normal. Delusion he is dirty. Delusion he is despised. Delusion he is detached (Granit.). Delusion there is a division between himself and others. Delusion as if being pulled downward. Delusion has insects on back of head. Delusion that he is persecuted. Delusion fancied body was too small for soul or that it was separated from soul.

Abdomen - Sunken feeling. Achy pain in the right iliac in the late morning. Sharp pain, left lower abdomen, feels like movement of gas. Stabbing pain in right, lower abdomen, groin. Pain in the abdomen after stool, better bending double. Aversion to tight clothing around waist with nausea.

Back - Coldness in back. Sensation of dry, radiating heat at the sacrum through the night. Itching on back below scapula on coughing. Tiredness in back with aching. Weakness in back. Twinges of pain across back. Stabbing pains. Sharp neuralgic pain shooting from left shoulder near neck, like an electric shock. Aching and weakness in lower and mid-back. Aching pain in sacrum making him want to rock backwards and forwards. Lumbar pain, better hot bath. Aching pain, right lower inside angle of scapula. Deep, bruised

Hydrogen

pain between left scapula and vertebral column. **Back pain on motion.** Backache, better lying on the painful side. Tension of cervical region during headache.

Breasts - Breasts enlarged. Shooting pain in the right nipple.

Chest - Constriction on waking, with wheezing. ***Tickling in chest.*** Feeling of anxiety in chest. Hard pain in the chest like someone was squeezing it. ***Tickling behind sternum.*** Short, sharp pains lower end of sternum. Sensation of dryness.

Coughs - Coughs on waking. Cough worse in morning, better through the day and worse at night. Middle of the night, cough with catarrh at back of throat, better after a drink. Deep barking cough, with no expectoration, compelled by tickling in throat. Barking cough with lachrymation and nose running with clear fluid. Cough with wheezing, has to lean forward. Dry tickling cough from behind the sternum, aggravated by smoking and drinking. Cough from swollen sensation in throat. Cough relieves diarrhea, swallowing.

Dreams - Confused, unremembered dreams. Frightening dreams. Dreams of death. Dreams of dead people. Dreams of crimes. Dreams of murder. Dreams of suffering animals. Dreams of children. Dreams of being busy. Dreams of high places. Dreams of journey by car. Dreams of escape. Amorous dreams. Dreams of loved ones dying. Dreams of their children. Dreams that she was pregnant. Headache in the dream and woke up with a headache.

Ears - Blocked sensation in ears, worse swallowing. Eustachian tube blocked, like in an airplane. Aching in right ear, with a cold sensation as if blowing on it. Deep aching pain in right ear. Sharp inward stabbing pains in left ear, followed by ringing in ear. Sharp pain in left ear after waking. Left sided earache coming in waves. Pulsing in ears. Ringing noise, with headache. Very conscious of sounds and noises. Right ear feels cold. Ears felt rough and itchy. Formication sensation. Itching behind ears and in left external meatus on waking.

Eyes - Lachrymation, pain in nose. Stinging pain. Pain, as from sand. Bloodshot and watery. Watery eyes during cough, after yawning. Sensation as if grit in left eye at night. Prickly and tired. Eyes feel heavy. Green-yellow crust around left eye on waking. Blinking a lot. Left eye twitches. Desire to close eyes with headache. Swelling of upper eyelids. Bright red pustule on rim of right upper lid with sticking, pricking pain, worse by blinking. Sharp pain above left eye. Ecchymosis. Eyesight deteriorated. Photophobia.

Face - Face looks pale and drawn with black circles under eyes and chin down. Looks older. Flushed, hot face with red cheeks, weakness. Flushed face with headache after anger. Red spots on cheeks. Dry, scaly skin under chin. Very rough, chapped lips. Crack appeared in corner of mouth, left side. Skin flaking on waking. Pimples right side of chin. Aching facial bones with a cold. Twinge in jaw joint, worse motion and opening mouth. Aching, morning on waking, especially the teeth. Stiffness and pain right jaw. Left side tender and aches. Sensation of coldness. Numbness of lips. ***Numbness, tingling lips, worse on left,*** as if anesthetized. Tingling in left side. Growth of hair on upper lip.

Female - Menses, three days earlier. Menses up to two weeks late with slow onset of intermittent bleeding.

Menses, clotted, copious. Menses, intermittent, commence on waking. Black blood to begin with, later in the day it became more red with dark clots. Menses, heavier or lighter than usual, starts and stops with more clotting. Pain between ovaries, extending to just above the pubic bone. High sexual energy. Itching of genitalia, better scratching. Brown vaginal discharge.

Food - Appetite increased. Hungry as if nothing will fill the emptiness in stomach, better eating bread. Appetite diminished, with weight loss. Complete loss of appetite with weeping. ***Very thirsty for cold drinks.*** Thirstlessness during headache. ***Aversion to spices,*** highly seasoned food. Aversion to coffee, tea. Aversion to tobacco. Aversion to hot drinks and hot food. ***Craving***

for spicy foods. Desires cold drinks. Desires carbonated drinks. Desires pineapple, sweets, alcohol. Desires to smoke tobacco. Better from warm drinks. ***Nauseous after a cup of tea.*** Worse smell of garlic, causes nausea. Worse tea. Worse smell of vinegar.

Hands - Hands feel icy cold to touch. Cold sweat on palms with apprehension. Warm, glowing hands on waking. Fingers of left hand feel cold and numb. Fingernails swollen, hot, very sensitive to touch, suppurating yellow water or pus under the skin.

Head - Head feels hazy, unpleasant, too heavy for the neck. Band around the skull. Tenderness at the base of the skull. Dull ache in vertex and behind eyes. Attack like a stroke, worse moving head. Slight humming in head. Tingly sensation over head and face with vertigo. ***Formication, crawling like insects.*** Formication which moves about on the scalp. Sensation as if something is crawling on head, on the back of the head. Sweating on forehead. Profuse perspiration in bed at night, soaking the pillow. Hair sticky after washing.

Headaches - Headache better talking, better writing. Headache, worse sudden movement, reading, traveling in a car. Frontal headache. ***Aching deep in brain.*** Pain in small spot. ***Throbbing headache extending to root of nose.*** Constant piercing pain in the center of the skull. Skull bones aching. Headache with a feeling of a line across the top of the head from side to side. Pain in spots that can be covered by a finger. Burning, throbbing pain, left side of head and face. Sharp, piercing pains. Headache over right eyebrow. Headache all day before period, left side. Headache prevents work, better from a short nap.

Heart - Conscious of heartbeat. Feeling of anxiety. Single thump in the heart. Palpitations, pounding. Palpitations while lying on left side, with a sensation of buzzing as if nerves firing in the heart. Thudding palpitations, frightened him, thought he was having a heart attack. On climbing the stairs, three or four heavy beats of the heart with stiffness of the legs.

Kidneys - Bladder feels full, but little passes. After just one cup of tea at breakfast, urination three times in twenty minutes. Urinate frequently due to nerves. Woke at midnight to pass urinate. Bladder fuller than usual on waking. Urine escaped with cough. Urine smelled strong. Stinging, burning pain along the urethra at the end of and after urination.

Larynx - Voice deep, with roughness and lots of phlegm in the throat. Weak and rough voice. Voice lower as if getting a cold, as if something stuck at the bottom of larynx. Tickling between larynx and sternum with dryness.

Legs - Heaviness and restlessness of legs at night (Caust.). Legs feel weak, wobbly when walking. Calves feel heavy and tired. Stiffness of legs on climbing stairs. Tingling in legs, feet. Formication on the inside of the lower right leg. Hot thighs with cold feet. Lower legs feeling numb and cold as if dead. Coldness of right leg, right foot. Feet cold with hot flushes, while walking outside. Soles of feet felt numb when walking. Felt as though shoes too tight. Athlete's foot.

Limbs - Heaviness of legs at night (Caust.). **Heaviness of lower limbs as from fatigue.** Clumsy. Muscles in right buttock very sore. Pain in back of right knee. Aching in shin bones. Soreness and tenderness in soles of feet. Burning sensation of soles of the feet. Shooting pain in right heel. Throbbing pain in the big toe of right foot. Broken skin and redness between toes. Sharp neuralgic pain shooting from left shoulder like an electric shock. Splinterlike pain, right elbow. **Numbness and tingling in arms.** Aching shoulders and arms extending to fingers. Left arm aches. Pain in wrist after writing. Hands shaking while trying to write or after anger. Feeling cold, especially hands and lower legs. **Coldness of right leg, right foot.** Nails brittle. Piercing pain as if stuck with a piece of wood. Feels as if the skin is trying to burst out from swelling. **Restlessness of legs at night.** Cuts become slightly septic, tender to touch and swollen.

Hydrogen

Lungs - Breathing difficult on inhalation. **Sighing**, needing air. Wheezing on waking with itching in the back. Cough with difficult expectoration of very small amounts of thick, yellow mucus. Clear, white and bubbly expectoration hawked up from throat. Coughs, bringing up egg-white mucus, or a dark phlegm. Mucus difficult to cough up.

Male - Crack, split on the foreskin and a red rash on the end of the penis. Burning, aching sensation at the base of the penis on the left.

Modalities - Better open air. Worse becoming cold and tendency to take cold. Worse night. Worse sleep. Worse morning on waking. Worse daytime. Worse from 9 p.m. to 9 a.m.

Mouth - Bitter taste in mouth. Food tastes dry, like sawdust. Water tastes metallic. Sensation of dryness on mouth and lips. Dry mouth with thirst. Swelling mouth and lips. Small ulcer behind the teeth, bottom left side. Ulcer right side of lower jaw under lip. Gums bleeding. Salivation at night, with toothache. Metallic taste in mouth. Burning peppery sensation in the mouth, throat, extending into ears and nose, with watery eyes.

Neck - Stiffness in neck. Neck feels enlarged, numb. Feeling as if tendons in back of neck too short. Neck feels as if been struck a blow. Pain in right side, on swallowing cold liquids. Tension in neck with headache. Gland in neck on right side swollen, painful and hard to touch. Sensitive to cold, wanted a scarf. Red spots on left side.

Nose - Dryness in morning on waking. Sneezing on waking, during daytime. Coryza worse eating. Sneezing during daytime. Sneezing in cold air. Sneezing during chill. Sneezing and feeling cold, followed by a warm feeling. Sneezing with acrid, itchy sensation. Sneezing and thin coryza. Tingling in nose, as if about to sneeze. Sharp peppery sensation behind left nostril. Pain root of nose, with obstruction. Raw pain from constantly blowing the nose. Nose stuffy with clear, fluid coryza, worse eating. Nose running

Hydrogen white, clear fluid like a tap, while eating. Slight catarrh and much sneezing in the evening. Thick green mucus congestion in nose, difficult to swallow. Mucus streaked with blood on blowing the nose. Mucus of an egg-white consistency. Flakey yellow-green catarrh with bits of blood. Pale green crusts from nose. Itching inside nose. Tip and wings of nose throbbing during headache. Sensation of movement, "as though worms moving." Sensation of large bump at the end of the left nostril. Acute sense of smell.

Perspiration - Cold sweat with paranoid anxiety. Clammy sweat in bed at night during sleep, with fever feeling. Waking from frightening dream in a cold sweat. Perspiration with heat and odor on waking. Cold sweat on waking from nightmare. Perspiration during chills (Verat.).

Rectum - Diarrhea after headache. Sensation of a ball in the rectum. Feeling of fullness in rectum. Pain in rectum when sitting, as if forcing back a stool. Urging to stool absent all day. Urgent desire for stool in the

morning. Constipated, strains to pass a stool, with hard stool. Fast **expulsion** of diarrhea-like stool. Flatulence smelling of putrid eggs. Anus sore during and after stool. Bleeding hemorrhoids and fissures around anus. Moisture with fishy odor (Sanie.).

Skin - Herpetic eruptions. Sunburned mainly on the left side of the back, although the whole of him was in the sun.

Sleep - Sudden sleepiness. Unable to get to sleep. Couldn't sleep with irritability. Insomnia. Sleepless from thoughts at night. Sleep deep and refreshing. Wants to sleep propped up on pillow because of sore throat and stuffy head. Painful to move from one position to another. Restless at night. Waking several times in the night. Woke in the night with a terrible fright, shaky, about to scream. Very warm in bed at night on waking. Perspiration all over. Uncovers limbs to cool down. Waking early. Very sleepy in morning, needed frequent short naps during the day. Attacks of yawning. Sleepy at noon could not stop yawning, much better after lunch.

Stomach - Anxious, queasy feeling, with apprehension. Wobbly feeling in stomach, constant feeling of nausea, worse bending over, better breathing deeply and standing still. Stomach feels distended and bloated one hour before evening meal. Sensation of wind in stomach with belching. Retching after bending over. Retching after tea. Retching while preparing food. Retching from the thought or smell of food. Nausea in epigastrium and umbilical region. Nausea with weakness, headache, flushing and trembling. Nausea better movement, walking about, and eating. **Nausea from the smell of food**, garlic. Nausea coming on while lying in bed. Nausea in the morning on waking. Nausea on driving the car. Nausea worse bending forwards, better breathing deeply.

Stool - Diarrhea from fermentation, with sour, acrid, watery stools. Diarrhea after headache. **Forcible, sudden, gushing stool**. Spurting out with much flatus. Claycolored, pale, yellowish soft stool, in the morning. Stool slender, small and loose, long and soft. Small, hard stool which felt large. Small, lumpy stool. **Light-colored stool**. Stool with lots of mucus. Flatus with discharge of gray, white mucus. Fishy odor.

Teeth - Severe stabbing tooth pain throughout whole mouth. Pains unbearable. Pressing pain in lower incisors. Aching pain in teeth on right side, extending to right ear and top of right eye. Toothache on upper right side. Severe toothache, left lower side, with left sided earache, worse eating. Toothache at night. Woke with severe toothache, better drinking cold water.

Temperature - Shivery feeling. Chilly with the influenza. Chill followed by heat. Fever during the night with vivid nightmares, with perspiration. Felt hot internally and externally with red cheeks. Slight fever on waking.

Throat - Throat painful and dry, not better by drinking. Rawness of throat and roof of mouth. Right side of throat painful on swallowing. Sore throat with blocked nose, worse sneezing. Sore throat on

Hydrogen waking in morning, and inspiring cold air. Sore throat better warm drinks. Pain moved from the left to the right. Burning sensation on roof of mouth, at back of throat. Post-nasal catarrh, worse from swallowing.

Mucus drawn from posterior nares. Phlegm in throat. Sensation of mucus (Rhod.). Catarrhal feeling, back of throat. Sensation of a film over the throat, with difficulty in breathing. Throat feels furry with a furry taste. Sensation of a hair on the right side of the throat. Sensation of a lump in the throat. Tickle, deep in throat causing coughs. Frequent swallowing. Choked on a piece of food.

Tongue - Tongue white, more in center. Small white spot to the left of the middle of the tongue, feels sharp, worse touch and eating. Tongue feels numb and smooth. Numbness of tip of tongue. Spot on the right side of the tongue with sharp pain, worse moving tongue. Feels like tongue has been cut.

Vertigo - Dizzy on getting out of bed in morning. Lost balance slightly towards the right. Vertigo in waves, all day. Vertigo, worse on rising from sitting, moving head. Vertigo during headache. Nausea and vertigo.

Vision - Specks of light, black spots floating across the vision. Lights in front of eyes when jumping up quickly. After looking away from a picture on the wall, retained white image on the vision.

COMMENTS - Other remarks from the provers of Hydrog. include: Time sense seems warped. Time is different on this level, its moving very quickly. A lifetime is a very short space of time. Confused about what happened when and where, about what happened in the past. Problems assimilating the notion of time. Felt stuck in time. Relaxed attitude to work (curative). Concentration improved (curative). More efficient than usual. Ready to fill in odd spaces of time with odd jobs (curative). Felt alert and mentally active in the evening and night. Memory improved.

Have given up my normal planning and making lists. I used to organize all the time (curative).

Hydrogen

Confidence is improved before and during teaching (curative). Less procrastination than usual (curative). Less nervous with strangers (curative). Usual tendency to bite and tear thumbs much better (curative). Mood better in the evening more cheerful and positive.

Although feeling very tired, not feeling irritable or snappy as usually would when tired (curative). Felt emotionally 'stretched out', but calm. Irritations don't make me so cross. The 'stretchiness' absorbed the daily irritations, they didn't peak up enough to a point where I felt irritated and cross (curative).

Dreams were vivid. Revolting dreams. Dream of a girl at school who committed suicide. Dream of participating in a play about death. Dream of my dead grandmother in the afternoon. Several erotic dreams.

Difficult to pass stool. Usual diarrhea after headache oreating gone (curative). Expected diarrhea from anticipation and eating a full tea cake did not materialize (curative). Menses started again during the menopause after an absence of six months. Noticed mustache seemed less and hair was finer in a woman, observers agreed. Mustache in a woman (disappeared).

Scalp less dry, less dandruff, less itchy (curative). Spot on hairline at the base of the neck, very itchy. Sore pimple on the back of the head. Usual itching of scalp has been absent (curative). Usual flatulence is improved (curative).

Less stiffness and aching in the back on waking that usual (curative). Back much less strained on physical work than usual (curative).

***HYDROGEN PEROXIDUM

(Hydrogen Peroxide)

PHARMACY - hy dro-p. Hydrogen peroxidum. Hydrogen peroxide. Hydrogen dioxide.

CLINICAL - Abscesses. Diabetes. Diarrhea. Dyspepsia. Fever. Rheumatism. Tumors. Ulcers.

HOMEOPATHIC - Hydro-p. is a stimulant, antiseptic and disinfectant. Atonic dyspepsia. Low forms of fever. Chronic rheumatism. Scrofulous, syphilitic or non-specific ulcers. Scrofulous tumors.

Infants suffering from diarrhea were allowed to drink freely of cold water containing a few drops of the solution of hydrogen peroxide. This agent is used extensively in surgery as an antiseptic.

RELATIONS - Compare: Ozone.

REFERENCES - Murphy.

***HYDROPHIS CYANOCINCTUS

(Sea serpent)

PHARMACY -hydro-c. Hydrophis cyanocinctus. Sea serpent. Pacific Islands, Australia, India and China. The tincture is made from the venom of the sea serpent. **Historical dose:** Tincture and all potencies.

CLINICAL-Blepharitis. Cervicitis. Conjunctivitis. Depression. Earache. Enterocolitis. Headache. Polyneuritis. Poliomyelitis. Menorrhagia. Myopathy. Styes. Vaginitis.

HOMEOPATHIC - Hydrophis cyanocinctus is a venom of a sea serpent whose habitat is along the coasts of the Pacific islands, Australia, India and China.

J. R. Reside carried out a double blind homeopathic proving from January to June 1958, on ten provers, eight men and two women using the potencies 6c and 30c.

Hydro-c., from a toxicological point of view, attacks the peripheral nerves, giving a symptom table similar to that of poliomyelitis. Paresis, paralysis without sensory disorders. Stinging pains in the limbs and thorax. Dry throat.

MIND - Depressive, clouded mental state, weepy, especially during menopause. Disgust for life. State of euphoria, followed by a period of sadness with tears, ameliorated by consolation. Irritable. Lethargic, sleepy, lacks initiative. Forgetful and unable to concentrate. Anxiety with clairvoyance.

Abdomen - Enterocolitis. Rectocolitis.

Violent, sharp, stinging pains with feeling of tension along the colon, worse in the morning and on the left side.

Ears - Earache. Pains in the left earlobe. Deafness in the left ear.

Eyes - Conjunctivitis. Burning, especially on the left side. Troubled vision. Blepharitis. Pruritus of the eyelids. Eyelids heavy. Styes, especially on the left.

Female - Menses abundant. Menorrhagia. Blood-streaked vaginal discharge. Vaginitis. Cervicitis. Salpingo-ovaritis. Pre-neoplastic conditions.

Head - Headache with beating in the temples and sensation of a tight band. Headache with heavy head, worse on the left, at the front. Headache worse in the morning, from heat, better in fresh air. Pruritus of the scalp.

Heart - Pain in the precordial region, spreading to the left hemi-thorax, worse when lying flat. Feeling of dryness and burning in the thorax. Extra systole. Arrhythmia. Valvular disease. Coronary arthritis. Angina pectoris. Septicemia.

Limbs - Paretic and paralytic syndromes of the lower limbs. Painful paresthesia. Numbness, heavy feeling in the limbs. Stinging pains in the limbs and the left hip. Pain in the thumbs and arms, especially the left. Feet cold.

Lungs - Dyspnea. Tracheitis and bronchitis.

Modalities - Worse at night. Worse after nightmares. Worse on waking. Worse in the morning. Worse lying flat. Worse on the left side. Worse before menses. Worse from heat. Worse speaking.

Mouth - Dry, worse in the morning. Left maxillary pain, which prevents mastication. Toothache in the molars, on the left side.

Nose - Burning catarrh, ameliorated in the fresh air. Coryza.

Rectum - Constipation and acute pains after going to stool. Painful, swollen hemorrhoids. Anal pruritus.

Skin - Spots on the face and nape of the neck. Skin dry with chapped hands. Skin itching at different parts of the body.

Sleep - Sleep disturbed, woken by nightmares between 2.30 and 4.30 a.m. with feeling of anguish, heat and feels very ill. Wakes with a feeling of thoracic oppression. Calls out in his sleep. Worse at night and after nightmares.

Stomach - Nausea, thirsty for cold drinks. Epigastric pains and pain in the right hypochondrium, worse after meals.

Temperature - Profuse sweating without a temperature. Fever with shivering, inflammation of the throat.

Throat - Dry, burning. Tonsils sore. Tonsillitis. Pharyngitis. Hoarseness worse in the morning and after speaking. Laryngitis. Tickling cough and dryness in the larynx.

RELATIONS - Compare: (1) Lach. - worse after sleep and when lying down with localization on the left side and pain in the precordial region with constriction. (2) Lath. - paresis of the limbs.

REFERENCES - Julian.

***HYDROPHYLLUM VIRGINICUM

(Virginian Waterleaf)

PHARMACY - hydro-v. Hydrophyllum vir- ginicum. Virginian waterleaf. N. O. Hydro- phyllaceae. Tincture of fresh plant in flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Eyelids, swollen. Eyes, inflammation. Rhus, poisoning.

HERBAL - The Hydrophyllaceae are nearly allied to the Borages. They grow among moist, shady rocks and derive their name from the small quantity of water held in the cavity of each leaf in spring.

Hydro-v. should prove to be a good adjunct to Euphrasia. The older writers speak of it as an antidote to rhus poisoning. Eye inflammation.

HOMEOPATHIC - The only homeopathic experience on record is that of Dr. Hoyt of Indiana, recorded by Hale. Ten minutes after gathering a cluster of the blue flowers, Hoyt noticed his eyes began to water and burn with slight itching. By the time he reached home he was suffering severely, eyelids swollen, fiery red, some sensitiveness to light.

The symptoms continued through afternoon and evening and kept him awake some time. In the morning, the lids were agglutinated and eyes sensitive to light. The burning and smarting were less, but lachrymation remained and it was a week before the eyes were quite right.

Dr. Hoyt tested the remedy in one case of catarrhal inflammation of the eyes, which it cured.

REFERENCES - Clarke. Hale.

***HYOSCINUM BROMHYDRICUM

(Scopolamine hydrobromide)

PHARMACY - hyosin. Hyoscinum bromhy- dricum. Scopolamine hydrobromide. Crystalline alkaloid of Hyoscyamus, (C17 H23 NO3). Bromines. Hyosymous. Solanaceae. **Historical dose:** All potencies.

CLINICAL - Chorea. Insomnia. Mania. Nervous, exhaustion. Parkinson's disease. Shock. Tremors. Tuberculosis. Uremia.

HOMEOPATHIC - Hyosin. corresponds to the effects of strong poisons introduced into or generated within the body. It is similar in its effects to alcohol, both recent and remote.

Shock. Acute nervous exhaustion. Mania and chorea. Insomnia. Nervous agitation. Paralysis agitans. **Tremors of disseminated sclerosis.** Dry cough in tuberculosis. Uremia.

REFERENCES - Boericke. Clarke.

***HYOSCYAMUS NIGER

(Henbane)

PHARMACY - hyos. Hyoscyamus niger. Henbane. Stinking Roger. Hog-bean. Hyosymous. N. O. Solanaceae. Tincture of fresh plant. **Historical dose:** All potencies.

CLINICAL - **Alcoholism.** Alzheimer's disease. Amaurosis. Angina, pectoris. Bladder, paralysis. Bronchitis. Chorea. Coma, vigil. Convulsions. Coughs. **Delirium.** Delirium, tremens. Diarrhea. Dysmenorrhea. Eclampsia.

Enteric, fever. Epilepsy. Eyes, disorders. Fevers. Hemoptysis. Hemorrhages. Hiccough. **Hydrophobia**. Hypochondriasis. **Hysteria. Insanity**. Lochia, suppressed. **Mania**. Manic depression. Meningitis. **Mental, disorders**. Neuralgias. Night-blindness. Nosebleeds. **Nymphomania**. Paralysis. Parkinson's, disease. Parotiditis. Pneumonia. Puerperal, mania. Rage. Schizophrenia. **Senility**. Sexual, mania. Sleep, disordered. Stammering, speech. Syphilophobia. Tetanus. **Toothaches. Tympanites**. Urine, retention. Vision, disorders. **HERBAL** - Hyoscyamus, "Hog-bean," is nearly allied to Belladonna botanically, and in pathogenetic action the two drugs are much alike in their main features. Hyos. is found growing on old rubbish heaps, near ruins, on roadsides and sometimes by the seashore.

Hyos. is one of our best remedies in toothache, having well-defined symptoms. Hyos. is also an ancient domestic remedy for toothache, the application being peculiar. A penny is made hot in the fire and when taken out a pinch of Henbane seeds is dropped on it and fumes come away. A wineglass is inverted over it and this is soon filled with the fumes and applied to the mouth, when the fumes are inhaled.

The popular idea is that the fumes expel the "worms" of toothache, but, as Lauder Brunton showed, the supposed "worms" are the embryos of the seeds forcibly expelled on the rupture of the seed coats by the heat.

HOMEOPATHIC - Hyos. disturbs the mind, brain and nervous system profoundly, preventing functions. **Mania of a quarrelsome and obscene character**. Inclined to be unseemly and immodest in acts, gestures and expressions. Persists in undressing herself or uncovering genitals. Is jealous and afraid of being poisoned. Talkative.

Weakness **and nervous agitation**. Typhoid and other infections with **coma vigil. Tremulous weakness and twitching of tendons**. Subsultus tendinum. Non-inflammatory cerebral activity. **Toxic gastritis**.

Gestures, carphology, picks at bed clothes, with fingers. When lying on back, suddenly sits up and lies down again. Convulsions, trembling, jerks, twitchings, cramps are very marked features. Muscular twitchings, spasmodic affections, generally with delirium.

Active mania or convulsions, alternate with or ends in deep sopor. Motions of the arms are clutching or angular, throws arms about, misses what is reached for, totters while walking. Paralysis after spasms.

Epilepsy, vertigo before the attack. Falls suddenly to the ground with cries. Child sobs and cries without waking. Eclampsia. Chorea, local, twitchings of solitary muscles, squinting, stammering. Sensation as if walking on and through air.

MIND - Confused mind, as if intoxicated. **Alcoholism**, drug addictions. Bouts of drinking or intoxicated rages. Sings, recites poetry, talks, babbles, quarrels. Great hilarity, inclined to laugh at everything. Obscene gestures, exposes himself. Does foolish things, behaves like a mad person.

Muttering delirium. Low, speech with **constant carphologia, deep stupor**. Violent outbreaks of delirium with weakness. **Very suspicious, jealous**. Restless, jumps out of bed, wants to escape. **Hallucinations and delusions**. Rage with desire to strike, bite, fight insult, scold and to kill. Tendency to maniacal activity.

Erotic mania, exposes genitals. Exaggerated sexual behavior, especially touching and petting themselves constantly (Plat.). Entire loss of modesty. Fondles the genitals. **Nymphomania**, lascivious mania. Talkative, obscene. Sings amorous songs.

Senility. Alzheimer's disease with bizarre, ludicrous behavior. **Passive insanity**. Mental confusion. Picking at the air, the bedclothes.

Chewing the lips. Incessant talking to themselves. Talks with imaginary persons to dead ones. Imagines things are animals. Thinks he is in the wrong place but doesn't want to go home.

Fear with delirium. **Fears to eat or drink**, of being poisoned. Fears being alone, being bitten by wild animals, being pursued. Hydrophobia, anxiety on hearing running water. Syphilophobia.

Speechless from fright. Ailments from grief, disappointed love. Manic depression after grief. Unconsciousness, can barely be aroused. Involuntary passage of urine and feces. Coma.

Abdomen - Distention. Cutting pain in lower portion of abdomen. Colic, as if abdomen would burst, presses fists into sides. Colic with vomiting, belchings, hiccough and screaming. Colic better vomiting. Abdominal muscles seem strained or bruised. Red spots on abdomen. Umbilicus open, urine oozing through. Gastritis or peritonitis with hiccough. Tympanites.

Back - Pains in the back, especially the lumbar region, with swelling of the feet. Lancinations in the loins and shoulder blades. Stiff neck, contracted to one side. Stiffness of cervical muscles, with tension as if too short, on bending neck. Spinal meningitis, with convulsions, jerks of muscles. Pains after injury. Herpetic spots on nape. Abscesses on left side of neck.

Bladder - Involuntary urination. Bladder paralyzed. Prolapsed bladder and retention of urine. No urge to urinate (Caust.). Frequent, scanty, painful, nightly urination. Retention of urine after childbirth. Enuresis, in children with brain troubles. Prostate slightly enlarged.

Brain - Brain feels loose, fluctuating. Brain seems to shake about when walking and on stooping. Inflammation

of brain with unconsciousness, head is shaken to and fro. Stupor after concussion of the brain.

Breasts - Soreness in spots to left of nipple, alternating with stitches.

Causations - Ill effects of suppressed lochia or milk. Grief, unhappy love. Jealousy. Fright, disappointed love.

Chest - Spasms, forcing bending forward. Spasms of chest with shortness of breath, forcing him to bend forward. Tight feeling across chest, as from overexertion, running. Stitches in sides. Muscles of chest sore. Atelectasis pulmonum. Red spots on chest.

Chill - Whole body cold, with burning redness of face. Chills with cold limbs. Chill alternating with heat. General shivering, coldness, sudden chills. Chills from feet upwards, up back from small of back. Chills at night, can't get warm in bed.

Constitutions - Suited to nervous, irritable, excitable, sanguine, light-haired people.

Cough - **Dry, hacking spasmodic cough** from a dry spot in larynx at night. Paroxysmal coughs, short, rapid, frequent, shaking chest, abdomen, whole body, like whooping cough. Cough from itching in the throat, as if uvula were too long. Exhausting cough with sweat. Cough worse lying down, eating, drinking, talking, singing, better sitting up. Hemoptysis of bright red blood with spasms.

Ears - Deafness from paralysis of auditory nerve. Impaired hearing, as if stupefied, especially after apoplexy. Buzzing, singing, rushing noises.

Eyes - Pupils dilated, sparkling, fixed and insensible. Tearing pain in right eye, which waters. Shooting pain from eyes into nose and head. Eyes roll about in orbits. Quivering of eyeball. Strabismus. Eyelids open and close with a sudden force. Spasmodic closing of lids. Eyes open but does not pay attention. Constantly stares at surrounding objects. Diplopia, hemeralopia, myopia. Objects, seem red, large or with colored borders (yellow). Aversion to light.

Face - Red, hot and swollen face (Bell.). Flushed, dark red. Face cold and pale. Distorted face. Stupid expression. Dry lips. Muscles twitch, when protruding the tongue. Grimaces and **makes ridiculous gestures**. Lower jaw drops with muttering. Lockjaw with consciousness. Face dark colored and bloated after epileptic attack. Face becomes red during paroxysms of cough.

Female - Hysterical or epileptic spasms before menses. Irregular menses. Profuse flow of menses. Headache, nausea and profuse sweat during menses. Pale flow, with convulsions. Convulsive trembling of hands and feet during menses. Bedwetting during menses. Metrorrhagia. Hemorrhage. bright red blood. Colds that settled in the uterus and cause labor-like pains. **Excited sexual desire, nymphomania**. Lasciviousness, uncovers sexual parts. Convulsions during pregnancy. Milk and lochia suppressed. Spasms of pregnant women. Puerperal mania. Painless diarrhea in lying-in women.

Fever - High fever with delirium, stupor, sopor. Fever with cerebral symptoms. Burning heat all over, without external redness. Heat in face and head, on skin. Blood burns in veins. Throw bedclothes entirely off, not because they are too warm, but they will not remain covered.

Food - Loss of taste. Bulimia with violent thirst with inability to swallow. Thirst with drinking but little at a time. Aversion to water. **Fears to eat or drink** from fear of being poisoned. After a meal, headache intoxication, great anguish and sadness. After drinking, convulsions. Vomiting of food and drink.

Head - Aching, lightness and confusion of head. Rolls or shakes the head to and fro, when bending forward, in stupor, after concussion of the brain. Heaviness of head and violent pains, alternating with pains in nape of neck. Constrictive, stupefying pain in forehead. Pulsating headache. Violent pulsations, like waves, head shakes. Pressure in vertex, better heat.

Heart - Pressure, tightness and anxiety in precordial region. Violent stitch in precordial region. Oppression of heart with transient stitches. Sensation as if heart and chest were torn to pieces. Tearing, sticking in heart. Soreness, tightness of heart region. Heart's action violent, tremulous, irregular. Carotids beat violently. Inflammation of blood vessels. Chronic palpitations with anxiety, fear. Unable to move body without anxiety, apprehension of suffocation or swooning.

Kidneys - Nephritis with delirium. Frequent emission of urine as clear as water. Urine turbid, with mucopurulent sediment. Red, sandy sediment.

Larynx - Hysterical aphonia. Hoarseness, with dry and inflamed throat. Voice rough on account of mucus in larynx and trachea. Constriction of larynx during cough.

Limbs - Lancing pains in almost all joints, worse on motion. Great restlessness, every **muscle twitches**. Cold hands and feet. Will not be covered. **Picking at bedclothes**, plays with hands, reaches out for things. Spasms and convulsions. Alternate convulsions of upper and lower limbs. Cramps in calves and toes. Trembling of hands and feet. Fists clenched with retraction of thumbs during convulsions (Cupr.). Epileptic attacks ending in deep sleep. Child sobs and cries without waking.

Lungs - Pneumonia with cerebral symptoms, delirium, sopor. Slow, rattling breathing. Hemoptysis, bright red, mixed with clots. Salty mucus. Suffocating fits. Paroxysms of dyspnea at night on lying, must jump up.

Lossofbreath, panting. Difficult breathing, alternating with anxiety or oppression of chest. Suffocating spells and convulsions during labor.

Male - Impotence. Excessive sexual desire. Lasciviousness, **exposes his genitals**. Plays with genitals during fever. **Desire to expose himself, take clothes off**.

Modalities - Better from sitting up. Better motion. Better warmth. Better stooping. **Worse from emotions**. Worse jealousy. Worse fright. Worse unhappy love. **Worse from touch**. Worse cold, cold air. Worse evening and night. Worse before, commencing and during menstruation. Worse when lying down. Worse after eating.

Mouth - Foams at mouth. Offensive odor from mouth. Putrid or salt taste. Saliva, bloody with salty taste. Dryness of mouth, fauces and lips. Soreness of soft parts between gums and cheeks. Sordes on teeth, closes tightly. Mouth closed tightly. Lower jaw drops.

Neck - Tettery spots on the nape of the neck. Stiff, contracted to one side.

Nose - Dryness of nose. Cramp-like pressure at the root of the nose and the zygomata. Sudden jerks at root of the nose. Pressing pinching pain at root of nose and malar bones. Nostrils sooty, smoky. Nosebleed, bright red, with salivation. Colds from dry, cold air. Loss of smell and taste.

Perspiration - Warm or cold sweat. Sour and weakening perspiration. Violent sweats after thirst. Perspires during short naps. Clammy during sleep.

Pulse - Pulse is full, hard, strong, rapid intermitting. Pulse slow, small, scarcely perceptible.

Rectum - Rectal sphincter is weak causing great difficulty in retaining feces. Frequent desire for stool, with small discharges. Involuntary stools, worse mental excitement or during sleep. Involuntary stools during fevers. Diarrhea, colicky, pains, aggravated by mental excitement or during sleep. Loose stools. Stools involuntary, bloody, yellow, watery or although hard, worse mental excitement during sleep during fevers, while urinating. Diarrhea after childbirth. Constipation with epilepsy. Hemorrhoids bleed profusely.

Skin - Skin and muscles lax. Skin usually dry and hot. Pale, with delirium. Brittle skin, lack of sensation. Scarlet-like rash spreads over whole body, which becomes purplish. Scarletina with marked mental symptoms. Red rash. Miliary eruptions. Chickenpox with vesicles in crops. Large pustules in clusters. Large blood boils. Brown spots. Gangrenous spots. Pustules around ulcers. Ulcers bleed and become painful. Eruption of dry pimples. Anthrax. Suppressed eruptions with diarrhea.

Sleep - Sleeplessness all night, with restlessness, twitching and starting. **Starts out of sleep**, frightened. Sleeplessness after serious disease. Nervous wakefulness. Coma vigil. Sopor with convulsions. Epileptic attacks ending in deep sleep. Falls asleep while answering. Sits up and then goes to sleep again. Laughs during sleep. Child sobs and cries in sleep without waking. When sleeping, carphologia or smiling countenance or starts with fright. Profound, comatose sleep with convulsions and involuntary movements of the limbs. Sleeps days without interruption.

Speech - Stammering and stuttering. Low, muttering speech. Speech impaired, difficult and unintelligible. Speech loss from suppression of urination or fright.

Stomach - Burning in stomach. Cramps in stomach, better after vomiting, worse after irritating food. Bitter, empty belchings. Gastritis or peritonitis with hiccough. Hiccough from concussion of brain. Hiccough of nursing children. Retching and vomiting, of bloody mucus. Nausea, vomiting with vertigo, convulsions. He- matemesis, violent cramps, relieved by vomiting, epigastrium tender.

Temperature - Low fever with hot, pale skin. Warm sweat. Subsultus during fevers. Septic fevers. Slides down in bed.

Teeth - Children grind teeth during convulsions. Grinding of teeth, so that they become loose. Pressing of gums together during dentition. Teeth feel loose, too long, when chewing. **Toothaches**, after taking cold or in open air. Toothache, driving to despair. Violent pain in teeth with twitching of muscles of hands, face, etc. Tearing in teeth. Pain in gums after extraction of tooth. Teeth covered with sordes.

Throat - Spasmodic constriction of throat, inability to swallow liquids, better from solid and warm food. Difficult swallowing, as from constriction. **Elongation of uvula**. Fluids come out of the nose or go into larynx. Dread of liquids. Stinging dryness. Throat dry, burning, shooting, pricking pains.

Tongue - Tongue dry, red, cracked, stiff and immovable. Tongue clean, parched, looks like burnt leather. Tongue covered with blood. Tongue as if numb and lame. Tongue protruded with difficulty, can hardly draw it in. Tongue rattles in mouth. Tongue shaken to and fro, with a trembling movement. Bites the tongue while talking. Speech impaired.

Vertigo - Vertigo, before spasms, from smell of flowers, gas etc. Vertigo as if intoxicated. Vertigo, as if water swashing in head. Vertigo, worse walking, usually

Hyoscyamus niger with obscured vision.

Vision - Diplopia. Farsighted. Incipient amaurosis. Dim vision, as if veil were before eyes. Night blindness. Perversion of vision. Deceptive vision. Objects have colored borders. Objects appear smaller or larger. When

reading, the letters move about, from mydriasis. Momentary loss of sight.

COMMENTS - Low, muttering delirium (Bell, tends to be violent and furious). Fits of ungovernable rage (less sustained than Bell.). Face is pale or bluish (Bell, is red). Hyos. corresponds to a great variety of cases of melancholia than Bell., with the characteristic "suspicion," so frequently met with in cases of insanity (Lach.). One patient, a clever lawyer, suffered from a nervous breakdown and had to abandon his business entirely. He then had a kind of fit and became cold and senseless, his face working much. After that he fell asleep, and had another attack an hour and a half later.

After this he was suspicious and said that his wife was poisoning him. He took a single dose of Hyos. 1,000c, given in food or drink without his knowledge. It was repeated once a week. He began to improve and in a few months was restored to health, though some other medicines were given later on.

Characteristic twitching throughout the body. Clonic spasms, twitching of groups of muscles. Twitchings, subsultus tendinum and picking at the bedclothes. Chorea. Spasms with unconsciousness. Convulsions followed by coma and stupor. Convulsions in children from frights, worms. Epilepsy with erratic behavior and gestures before the attack.

Sensorium so clouded that if the patient is roused to answer he falls back into a stupor again. Sight is disordered, sees things too large or too near and grasps at them. Picks the bedclothes and mutters. Drowsy, but restless. Insomnia, patient lies awake for hours. Children twitch in sleep, cry out, tremble and awake frightened.

Dry and unwieldy tongue. Teeth covered with sordes. Pulmonary conditions.

Cough is worse on lying down, almost completely removed by sitting up, worse at night, worse after eating, drinking or talking. Cough from elongated uvula. Parotiditis with metastasis to brain.

Useful for influenza when it takes the typhoid form. Clarke rapidly cured a boy in whom influenza attacked the meninges of the brain with pains in the head, especially forehead, piercing to the brain.

RELATIONS -Antidotes: Bell., Camph., Stram. **Compare:** (1) Bell., Stram., Agar., Gels. (2) Hyosin. (3) Scopolia, the Japanese Belladonna, is chemically identical with Hyoscine. - Joyous delirium, licking of lips and smacking of mouth, sleepless, tries to get out of bed, sees cats, picks imaginary hairs, warms hands before imaginary fire, etc.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***HYPERICUM PERFORATUM

(St. John's Wort)

PHARMACY - hyper. Hypericum perforatum. St. John's-wort. N. O. Hypericaceae. Guttiferae. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - After-pains. Asthma. **Bites. Blood, poisonings.** Bone, fractures. Brachial, neuralgia. Breast, disorders. Brain, concussion. Bruises. Bunions. **Coccyx, injury.** Corns. **Depression.** Diarrhea. Fingernail, injuries. **Gunshots.** Headaches. Hemorrhoids, bleeding. Hypersensitiveness. Impotency. **Injuries.** Labor, effects. **Lacerations.** Meningitis. Mental, disorders. **Neuralgia. Neuritis.** Panaritium. Paralysis. **Punctures.** Rabies. Rheumatism. Scars. Sciatica. Spasms. **Spinal, concussion. Spinal, injections. Spinal, injury.** Stiff-neck. Surgery, effects. **Tailbone, pain. Tetanus.** Toenail, injuries. (Ulcerations. Vaccination, reactions. Whooping, cough. **Wounds.**

HERBAL - The leaves of various species of Hypericum are sprinkled with pellucid dots and black glands that contain an essential oil. These, which are most conspicuous in Hypericum perforatum, have evidently given the signature which has led to the chief use of the plant in medicine, that is for wounds or puncture of the tissues.

The leaves, moreover, are lance-shaped. **HOMEOPATHIC** - Hyper, has been used for general depression, especially nervous depression following wounds, effects of shock and fright. Nerves are severely sensitive. Excessive painfulness. **Injury to nerves,** especially fingers, toes, nails.

Puncture wounds. Wounds are more tender than appearance would indicate.

Penetrating wounds. **Infected wounds. Bites of animals and insects.** Gunshot wounds. Relieves pain after operations (Calen.). Neuralgia of the stump. **Crushed fingers, especially tips.**

Tetanus, lockjaw. Dental work, nerve pains. Neuritis, tingling, burning and numbness. Neuritis of head or chest in epigastrium inter-scapular spine, fingertips etc. Brachial neuralgia. **Tailbone pains from injury. Brain and spinal cord injuries. Spinal taps,** injections, severe pains. Spinal concussion. Whiplash.

Lacerations, with intolerable, violent, shooting and sharp pains. **Shooting pains from injured part.** Pain in old scars. Joints feel bruised. Pains extend towards the trunk or down sides with crawling and numbness.

Spasms after every injury. Shuddering. Jerks in the limbs. Convulsions after knocking the body against anything. Lies on back, jerking head backwards. Spasmodic asthmatic attacks with changes of weather or

before storms, better by copious expectoration. Constant drowsiness. Hemorrhoids.

MIND - Brain fag and neurasthenia. Weak memory. Forgets what she wanted to say. Mistakes in writing, omitting letters. **Mistakes in speaking**, using wrong words, saying right for left or vice versa. Irritable, inclined to speak sharply.

Depression. Melancholy. Seasonal Affective Disorder. Great nervous depression after shock. **Complaints from fright**. Mental effects of injury, fright and shock. Mental dullness after head injuries, surgical operations. Head injury (Nat-s.).

Mental excitement as after drinking tea. Mental symptoms before thunderstorm. Delirium. Talking nonsense. Sees spirits.

Feels lifted high in air or anxiety lest he fall from a height. Singing followed by weeping and loud screaming, with gasping for breath.

Abdomen - Bubbling at navel. Cutting pain in region of navel. Tympanitic distention, better after stool. Sticking pain in right hypochondrium. **Effects of surgery, laparotomy**. Pinching pains during menses. Colic. Pains after operation for incarcerated hernia. Awakes with distended abdomen, better stool.

Back - Radiating, shooting pains up spine and down limbs. **Coccyx injury from fall**. Coccyx pain radiating up spine and down limbs, inability to walk or stoop after. After a fall, slightest motion of arms or neck extorts cries. **Pressure over sacrum**. Aching pain and sensation of lameness in the small of the back. **Pinched nerves in back**. **Violent, sharp pain** and inability to walk or stoop. Sharp pains in the small of the back. **Spinal concussion**. **Painfully sensitive spine**. Spinal tenderness, with paroxysms of terrible pain, screaming if approached. Cervical vertebrae very sensitive to the touch. Pain in nape of neck. Pain in hips, small of back and coccyx after labor. Jerking and twitching of muscles. Lies on back jerking head backward.

Breasts - Scirrhus of breast from injury. Painful scar after mastectomy. Stitches from within outward, through left breast and sternum, worse from motion.

Causations - Ill effects of fright, shocks. Injections, punctures, bites, gunshot wounds, stab wounds. Lacerations, surgery. Dental work. Bruises. Worse after forceps delivery, as a complication of injury.

Chest - Anxiety in chest in forenoon with short breath. Sharp pains between or under breasts. Pressure and burning in the chest. Tightness in the chest, worse in foggy weather. Stinging in left chest, worse when moving. Cutting pain in upper right chest, then in lower left. Continual sharp pains from within outward, through left breast and sternum, worse motion.

Constitutions - Nervous constitutions.

Coughs - Frequent, dry, hacking cough. Spells of short barking cough. Coughs in meningitis. Hacking cough from irritation in throat, worse heat and cold air. Dry cough and prostration in morning. Whooping cough, worse 6 p.m. to 10 p.m.

Ears - Ears hot. Scurf on ear. Sticking through the right ear in evening. Itching in right meatus. Sensitiveness of hearing during menses. Shooting pain through ear.

Eyes - Disturbed look, stares at people. Eyes fixed. Sticking pain through (right) eye. Burning stinging in tarsi. Stye on left lower lid. Pains in eyes and ears. Pupils dilated.

Face - Expression of suffering. Hot and bloated in meningitis. Eczema of face, eruptions seem to be under the skin. Intense itching. Tension, tearing in cheek, in left zygoma. **Facial neuralgia and toothache**. Right side of face aches. Eruption around mouth and on right ear. Yellowish green scabs with cracking and moisture.

Female - Menses increased in quantity. Menses too late, headache, sickening pain in abdomen, sensitive to noises. Leucorrhea with delayed menses, palpitation, pressure in small of back, and heaviness in lower bowels. Leucorrhea in a child, milky, but corroding. Tension in region of uterus, as from a tight bandage. Afterpains violent in sacrum and hips, with severe headache. Afterpains after forceps delivery. Labor pains tardy. Scirrhus of breast caused by injury.

Food - Appetite increased morning and evening. Tastelessness of food. Thirst with feeling of heat in mouth. Great thirst. Desire for pickles. Desire for warm drinks in meningitis. Craving for wine. Smoking tobacco doesn't taste well.

Head - Head hot, with throbbing of carotids. Headache as if brain would be torn to pieces. Curling sensation on vertex. Tearing, sharp pains in the brain. **Head injury**. Headache and meningitis depending upon an injury to the nervous system. **Fractured skull, bone splinters**. Heaviness or formication in brain. Pulsation, heat and burning in the vertex. **Throbbing**

pains. Head feels as if touched by icy cold hand. Head feels larger, drawn to a point. Sensation as if the head became elongated. Brain feels loose. **Dull pain, on vertex**. Headache, extending into zygoma or cheek. Headache with sore eyes after a fall. Hair moist, rest of body burning hot. Falling of hair after injury.

Heart - Hard beating of heart. The heart feels as though it would fall down in the evening. Palpitations. Local congestions and capillary weakness with or without hemorrhages and nervous depression, following wounds.

Pulse quick, hard, accelerated.

Kidneys - Nightly urging to urinate with vertigo. Desire to urinate with violent tearing in the genital organs. Swelling and hardness of female urethra with burning soreness and sensitiveness. Retention of urine. Dribbling away of urine without being aware of it, after concussion of spine. Urine much diminished. Urine bloody, turbid. Urine of peculiar odor.

Limbs - Articular rheumatism. **Neuritis** with tingling, burning pain, numbness and flossy skin. **Amputation pains**. Traumatic neuralgia and neuritis. Compound fractures of hands and feet, with great laceration of soft parts. Aching in sciatic nerve (left) after prolonged sitting. Joints feel bruised. Hysterical joints. **Tetanus** (Phys., Kali-br.). Limbs as if they were numb. Limbs feel detached. Sharp pain in upper and lower limbs. **Violent pain and inability to walk or stoop after a fall on coccyx, tailbone**. Darting pain in shoulders. Pressure along ulnar side of arm. **Crawling in hands and feet**. Pain in toes and fingers, especially in tips. Cramp in calves. Panaritium. Tingling of feet when lying in bed.

Lungs - Asphyxia after a **fall**. **Asthma after injury of spine**. Spasmodic asthmatic attacks with changes of weather from clear to damp, or before storms. Asthma, worse in the foggy weather and better profuse expectoration. Hoarseness, scraping and roughness in larynx, upper part of pharynx and sinuses in foggy weather. Pneumonia in persons who have hemorrhoids.

Male - Tearing pain in genitals, with desire to urinate. Sexual functions excited.

Modalities - Better from lying on face. Better bending head back. Better rubbing. Better lying quietly. **Worse from injury**. Worse after forceps delivery. **Worse from punctures**. **Worse from bites, stings**. Worse concussion of spine or coccyx. Worse shock. **Worse from cuts, surgery**. Worse exertion. **Worse** *sear*. Worse motion. Worse change of weather. Worse fog. Worse cold damp weather. Worse in a closeroom. **Worse** *touch, pressure*. Worse before a storm. Worse at night.

Mouth - Dry, burning heat in mouth. Mouth and lips dry and burning. Insipid taste, of blood. Thirst with feeling of heat in mouth. Craving for wine with feeling of heat in mouth. Old ulcers or sores in mouth when very sensitive. Lips dry, feel hot.

Nose - Pain in bridge of nose on rising. Sore within nose, itching, continually picking it. Dryness of nose with sneezing of left nostril, with crusts in it. Smell very acute.

Perspiration - Moist hair on the head. Hyperhidrosis, sweating of scalp, worse morning after sleep.

Rectum - Burning, biting and feeling of dryness in rectum. Severe urging, dry, dull, pressing pain. Constipation, violent tenesmus with discharge of a hard little ball with nausea. Constipation with nausea. Diarrhea driving out of bed in morning. Summer diarrhea with eruptions on the skin. Summer diarrhea, slimy stools. **Hemorrhoids with pain, bleeding and tenderness**, use tincture externally and internally. Loose, bilious, yellow stools evening or morning.

Skin - **Stings of insects and insect bites**. Burns. **Punctures, stab wounds**. **Lacerated wounds** with much prostration from loss of blood. **Painful scars in tissues rich in nerves**. Old ulcers or sores in mouth when very sensitive. **Dog and animal bites**. Skin rough as if full of small knots. **Cat scratches**. Eczema of hands and face. Intense itching, eruption seems to be under the skin. **Pains from surgical cuts**. Great itching when undressing. Herpes zoster.

Smarting eruption like nettle-rash, on the hands. Falling of hair after injury. Pimples on forehead, throat, back, hips. Hard, dry, yellow crusts form on healing wounds or open sores. Foul, torpid and phagedenic ulcers. Tetters, beginning with sore places, and forming hard, yellow crusts, with violent itching.

Sleep - Constant drowsiness. Talks wildly in night after 4 a.m. while asleep, apprehensive, gasped for air. Spasmodic jerks in arms or legs on going to sleep, twitching. Wakes 4 a.m. with sense of levitation. Feels refreshed or weary on waking. Active, vivid, distressing dreams. Dreams of traveling. Laborious dreams.

Stomach - Belches while drinking water. Pressure at the stomach on eating but little. Feeling of lump in stomach (Abies-n., Bry.). Sticking pain in stomach. Eructations, tasteless, bitter, preventing sleep at night. Nausea, weakness every morning. Nausea, abdomen distended, cracking pains in bowels, awaking in the night. Nausea and inclination to vomit.

Teeth - **Nerve pains after dental work**. Toothache better lying on affected side quietly. **Injuries to dental nerves**. Pains after root canals. Teeth sensitive and painful after dental surgery.

Temperature - Shuddering over whole body with desire to urinate. Chill followed by heat, with sweat on hands and feet. Heat with delirium, wild, staring look. Hot head, throbbing of the carotids, bright-red, bloated face. Burning heat of the skin, great oppression and anguish.

Throat - Raw, sore feeling in throat, after sneezing. Sensation as of a worm moving in throat. Hot risings in esophagus after a fright or with anxious feeling. Hoarseness, scraping and roughness in larynx, upper part of pharynx and nares, in foggy weather.

Tongue - Tongue coated white or dirty yellow, at base, tip clean. Great soreness of tongue, from lacerated

wounds, with inability to speak, not from stiffness or swelling, but extreme soreness. Tongue, white at the back, tip clean. Tongue coated white, or yellow, with great thirst.

Vertigo - Confusion, vertigo and heaviness.

Vertigo at night, with urging to urinate.

Vertigo with loathing on waking. Vertigo with pain in temples. Vertigo with feeling of weakness and trembling of limbs.

COMMENTS - Müller, and others, proved Hyper., relating the drug to wounds, the consequences of wounds, tearing, rheumatic, shaking pains, and paralytic weakness. Crawling sensations in hands and feet, fuzzy feeling, sticking in them as from needles.

One of the provers had, on waking at 4 a.m., a feeling as though she were suspended and not lying in bed, at another time as though she were lying very heavy in bed. The former condition led to cures in effects of accidents attended with the sensation "as if being lifted high into the air and great anxiety lest she should fall from this height."

For **acute traumas. Puncture wounds, animal bites, lacerations** (Led.). Gunshot and stab wounds, cuts from glass. Spinal taps, vaccinations. Trauma from a pinched nerve with needle-like pains that shoot from the area.

Head and nerve injuries, spinal shock injuries. Tetanus. Specific for **tailbone injuries and whiplash**. Injuries to the spine that lead to epilepsy, paralysis or depression. Neuritis. Trauma from dental work (Arn.). Amputations, phantom pains.

Characteristic sharp, shooting, radiating pains, burning, tingling. Wounds are very sensitive to touch (Led. punctures are not particularly sensitive). Ulceration and sloughing of wounds. Hard, dry, yellow crusts form on healing wound. Exalted sense of pain, as well as hearing and smell.

Affinity for wounds of parts rich in nerves, particularly the brain, spine (spinal irritation from falls), coccyx, and finger-ends. Great nervous depression following shock or wounds. Old scars that flare up.

Bunions and corns when the pain is excruciating. Violent labor-pains and after-pains. Tympanitic distention of abdomen, cutting pains. Summer diarrhea with eruption. Palpitation and local congestions with or without hemorrhage.

Asthma, worse in foggy weather, attacks were better by copious expectoration. Whooping cough that is worse 6 to 10 p.m. Tightness of the chest, stinging that is worse on moving.

W. J. Guernsey related the case of a nine- year-old boy who was bitten by a pet rat on the first finger of his left hand. Nothing was observed at the time, but some time after, he became ill and his state was alarming when Dr. Guernsey was called.

The boy could talk with great difficulty, teeth firmly locked, conscious, neck so stiff the head could scarcely be moved. There was more tenderness about the wound than the appearance would indicate, hence Hyper, was preferred to Led.

It was given (8 p.m.) in the 500c, dissolved in water, at first every fifteen minutes, later every two hours. At 3 a.m. there was improvement, he fell asleep and the next morning was practically convalescent.

Gilchrist said Hyper. 3x, given at intervals of twenty minutes for twelve hours or longer, seems to control perfectly the pain following laparotomy.

Roehrig considered Hyper, externally and internally the nearest thing to a specific in bleeding hemorrhoids. He gave it to pneumonia patients who have hemorrhoids, it cured the pneumonia and prevented the arrest of the flux.

Usher confirmed this, "pain, bleeding and tenderness" were his indications. "It seems to suit the plethoric with great soreness." He used the 1x.

RELATIONS - Antidotes: Ars., Cham., Led. **Compare:** (1) Led. - puncture wounds and bites of animals. Plan. (2) Calen., Am., Staph., Plan., Ruta, Coff.

***HYPOTHALAMUS GLAND

PHARMACY - hypoth. Hypothalamus gland. The mother tincture is prepared from the hypothalamus of the ox.

Historical dose: All potencies.

CLINICAL - Amenorrhea. Anorexia. Anxiety. Asthma. Baldness. Bedwetting. Constipation. Dysmenorrhea. Dyspnea. Epilepsy. Flatulence. Hemorrhoids. Insomnia. Thyroid, disorders.

HOMEOPATHIC - Hypothalamus glands are made up of pure hypothalamic hormones, (vasopressin and oxytocin, combined with a transporting protein). These hormones are liberated in their active form, under such stimuli as pain and modifications in the blood biochemistry, as well as changes in the volume of the blood.

The posterior hypophysis is therefore subject to a direct nervous control. There are no neurosecretory tissues

going from the hypothalamus to the adenohypophysis, however, the blood irrigation of this gland is completely assured by the vessel gates which form in the median protuberance and which traverse the pituitary stem to flow into the sinusoid of the anterior hypophysis.

Neurons, notably those from the median protuberance, secrete substances which travel down from the neurons and accumulate at the end of the tissues. When the cells of the median protuberance are stimulated, these agents penetrate the vessel gates and the sinusoid and instigate the liberating of the anterior hypophyseal stimulants.

The usage of hypothalamus in homeopathy is clinical in nature; there is no homeopathic proving.

Clinical symptoms include physiological and nervous instability. Epileptic vertigo with almost complete loss of consciousness for a few minutes with extreme paleness of the face. Epileptiform convulsions, especially during puberty.

Occipital headaches, accompanied by an intense feeling of sadness, aggravated in the evening. Circulatory complaints with livid color of the lower limbs. Feeling that the heart has stopped and then started again, faster. Congested veins.

Malfunctioning of the thyroid with a fall in the basal metabolism. Disorders of the appetite and of the water metabolism. Water retention with obesity. Sensation of intense heat, as if sitting on a very hot furnace. Baldness during the menopause.

MIND - Depression, linked to psychological or physical stress. Likeable, extremely sensitive. Cries about trifles. Alternating smiles and tears. Easily discouraged. Sad, melancholic.

Mental fatigue, feeling that the brain is cluttered with ideas which are constantly changing. Anxiety, aggravated by darkness. Fear of falling asleep lest he should not wake again.

Lack of ability to make decisions, which can lead to loss of willpower. Sexual impulses take him by surprise, either morbid dread of the opposite sex or irresistible attraction. Morbid hunger-pangs, alternating with periods of anorexia.

Abdomen - Flatulence with extremely noisy rumbling, located principally on the right side of the abdomen.

Constitutions - Tubercular constitutions.

Female - Epileptiform complaints during puberty, especially in young girls. Menstrual cycle irregular, sometimes too short, sometimes too long. Menses copious, bleeding ameliorated by lying position. Menstrual blood very dark, congeals easily. Bloodclots. Amenorrhea after physical or psychological stress. White discharge, aggravated during ovulation.

Food - Appetite disorders. Mental anorexia. Cannot bear either raw or sweet foods.

Head - Occipital headaches, accompanied by an intense feeling of sadness, aggravated in the evening.

Heart - Circulatory complaints with livid color of the lower limbs and acrocyanosis of the limbs. Feeling that the heart has stopped and then started again, faster.

Kidneys - Complaints of the water metabolism with water retention and obesity. Tenesmus of the bladder. Burning during and after urination. Urinary incontinence when lying down, walking or coughing. Bedwetting in the young.

Limbs - Inflammation of the skin beneath the nails.

Lungs - Bronchial asthma. Heavy cough, causing shooting pains in the clavicles, sternum and occiput. Cough aggravated when lying down, ameliorated by standing up. Asthma occurring after end of menses. Dyspnea with oppression and shooting

Hypothalamus gland pains in the left arm, not aggravated by exertion.

Male - Sexual deviations. Drawing sensation, pains going from the knee towards the testicle, especially on the right side. Inflammation of epididymis, evolving into a chronic state.

Modalities - Aggravation from cold. Tendency to evening rise of temperature, occurring irregularly but may last for several months.

Mouth - Tongue covered with a whitish coating. Loss of taste.

Nose - Thick, irritating, yellowish coryza, better heat, worse cold.

Rectum - Stubborn constipation. Stool black, very difficult to expel in small, caked balls. Hemorrhoids, bleeding easily.

Skin - Papular and pustular skin diseases. Attacks of acne during puberty, large pimples, purplish in color with itching, aggravated by scratching. Small varicose veins, very noticeable, violet in color. Nails break and have white spots. Baldness in women with thinning of the hair at the hairline.

Sleep - Insomnia or sudden, irresistible need to sleep, usually lasting only a short while, but occurring several times in one day.

Stomach - Gastric pains two hours after eating.

Temperature - Tendency to evening rise of temperature, occurring irregularly but may last for several months.

Temperature fluctuations.

Vertigo - Epileptic vertigo with almost complete loss of consciousness for a few minutes with extreme paleness of the face.

RELATIONS - Compare: (1) The closest remedy is Puls., but unlike Puls., Hypoth. is aggravated by the cold, ameliorated by the heat. (2) Also note Bac. and Tub.

REFERENCES - Julian.

*****IBERIS AMARA**

(Bitter Candytuft)

PHARMACY - iber. Iberis amara. Bitter candytuft. Lepidium iberis. N. O. Crucifer. Tincture of seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Angina pectoris. Asthma. Bradycardia. Bronchitis. Debility. Dropsy. **Dyspnea.** Fatigue. **Heart, disorders. Heart, enlarged.** Heart, weakness. Liver, pain. Numbness. **Palpitations.** Rheumatic myocarditis. Tachycardia. Vertigo.

HERBAL - The genus was named by Dioscorides from Iberia, Spain, its supposed original habitat. Ancient authorities mentioned Iberis as useful in the treatment of hypertrophy of the heart. This led Hale to have the remedy proved. Hale considered Iberis's primary depressing action a transient one, the secondary, exciting action is more persistent.

HOMEOPATHIC - Iber. has a marked action on the heart and is useful in heart diseases. Sylvester observed that Iber. controlled the violence and sharp action of the heart and softened the pulse. Hale's provers confirmed this observation, the pulse being softened even during palpitations.

Controls vascular excitement in hypertrophy with thickening of the heart's walls. **Heart enlarged with thickening of the heart walls.** Infarction of the myocardium. Paroxysmal tachycardia. **Conscious of heart's action.** State of nervous excitement and fright.

Dull or stitching pains. "On turning on left side a sharp sticking pain is felt as if a needle were crosswise in the ventricles and pricked at each contraction." Sharp, stinging pains, through the chest. Pains down the left arm and numbness with an intermittent pulse.

Palpitations with vertigo and choking in the throat, worse slightest exertion, laughing, coughing. Palpitations and breathlessness on slightest exertion. Dyspnea and palpitations on going up the stairs (Calc.).

Darting pains through heart. Weakness of heart after influenza (Crat.). Cold hands and feet.

Numbness and tingling in left hand and arm. Feeling of lameness and soreness through whole body, as from a cold. Fullness and heat in head and neck, vertigo, nausea. Liver region full and painful. Choking sensation in the throat. White stool (Dig.). Desire for stimulants.

MIND - Nervous and irritable, especially on rising in the morning. Frightened, indefinable fear with trembling. Excited, cold sweat on face. Fear of taking too much medicine. Depression. Sad, down-hearted, oppressed with desire to sigh. Aware of heart's action.

B ad-tempered. Very irritable with dullness of mind and lack of memory. Inability to fix mind on any one thing. Diminution in intellectual capacity with poor powers of concentration. Trouble in remembering recent events, but can remember past events. **Abdomen** - Heaviness and pain in the hepatic region. Fullness with oppression in right hypochondriac region. Fullness and distention of bowels. Intestinal process accelerated with painful cramps, eased by the elimination of gas.

Back - Sensation of fullness in neck and head.

Chest - Fullness in chest with fullness and heat in head and neck and flushed face. Continued feeling of weight and anxiety in chest. Slight pain under sternum, at articulation of third rib. Fullness and constriction under sternum with sharp pain through chest.

Ears - Dullness of hearing and comprehension, labored breathing. Roaring in ears with heaviness of head, slight nausea and palpitation of heart.

Eyes - Red eyes with flushed face. Feeling in eyes as if being forced outward. Flashes before eyes with dull headache and palpitations of heart.

Face - Sick looking. Flushed hot face and red eyes with palpitations. Cold sweat on face, with fearfulness.

Food - Loss of appetite with feeling of indigestion. Desire for stimulants. Ameliorated by eating.

Head - Headache with nausea and loss of appetite. Dull headache, with vertigo and feverish chilliness. Sensation of heaviness and fullness in the head with buzzing in the ears. Congestion and headache, ameliorated by fresh air.

Heart - Conscious of heart's action. Heart's action weak and fluttering, with small weak pulse. **Pulse full, irregular intermittent.** Pulse has peculiar double beats, which seem to run into each other. Pulse full, soft and easily compressed. **Enlarged heart.** Dropsy with enlarged heart. Dilation of heart. Hypertrophy of heart.

Tachycardia. Palpitations with vertigo and choking in throat. **Violent palpitations induced by slightest exertion or by laughing or coughing.** Wakes with palpitations about 2 a.m. On turning on left side, stitching pain as of needles through ventricles felt at each systole. Darting pains through heart. Stabbing pain in heart with constriction in throat. Sharp pains in cardiac region. Sensation of weight and pressure with occasional sharp, stinging pains.

Kidneys - Frequent but scanty urination. Excessive evacuation of urine. Frequent presence of bile pigment in the urine.

Limbs - Cold feet and hands. Numbness and tingling in left hand and arm. Whole body sore, lame and trembling.

Lungs - Dyspnea and palpitations on going upstairs. **Heart dyspnea, shortness of breath.** Constant desire to draw breath without relief (Carb-v.). Respiration more frequent and labored. Pulmonary rattle with viscous, stringy sputum. Constant hawking of thick, stringy mucus until after a meal. Cough causes redness of face.

Modalities - Better by eating, belching, expelling gas, cold. Worse lying down, on left side, on turning in bed, motion, exertion, sitting still. Worse from heat, warm room, at night, morning, on rising.

Mouth - Dryness of the mouth with bitter or peppery taste.

Rectum - Pain in region of liver with large, clay-colored stool. Tenderness of bowels with thin, whitish stool.

Sleep - Sleep disturbed with aggravating dreams. Restless turning in bed with ludicrous dreams.

Stomach - Heavy and full sensation in the gastric region. After eating, sour belching, better hawking of stringy mucus. Nausea with cold, chilly feelings over body. Heartburn, nausea with belching, which eases the condition.

Temperature - Cold, chilly feeling with nausea. Feverish chilliness. Quickly passing febrile symptoms. Heat and fullness in neck and head with flushed face and cold feet and hands.

Throat - Dryness in the throat and larynx with feeling of constriction. Tickling in throat. Throat as if filled with dust. As if both tonsils were enlarged. Throat and trachea fills up with mucus. Constant hawking up of thick, viscid, stringy mucus better after a meal. Choking sensation in throat with fullness and heat, just above cricoid cartilage. Constrictive sensation in throat with stabbing pains in heart, dyspnea and palpitations.

Vertigo - Vertigo and pains around heart. **Vertigo, as if occiput were turning around.** Vertigo, eyes feel forced outwards. Vertigo on standing, ameliorated by lying down. Vertigo with dull pain and chilliness.

COMMENTS - Proctor related his own experience with this remedy. After an attack of influenza of moderate intensity in 1890, he suffered from cardiac weakness for over two years. Every waking moment was attended with cardiac distress.

On the least agitation the weakness developed into irregular palpitation with great anxiety. Worse from tobacco, which had to be discarded. Worse from wine, except port. After all the usual remedies had been taken in vain, he took Iber., one drop in a powder on the tongue, two or three times a day.

After about ten days the heart suddenly fell almost into its perfect, regular, unconscious beat and retired at once and finally from further observation. Proctor repeatedly gave Iber. since then in similar cases with the same success.

RELATIONS - Compare: (1) Aml-n., Lepi., Spig., Dig., Cact., Bell., Crat., Phase. (2) Spig. - Palpitations, violent contraction of the heart with oppression and anxiety. (3) Cact. - Sensation of constriction in the heart like a vice. Constriction of the head and chest. (4) Aur. - Palpitations with hot flushes, forcing the patient to remain seated with the body bent forwards.

REFERENCES - Boericke. Clarke. Julian.

***|CHTHYOLUM

PHARMACY - ichth. Ichthyolum. Ammonium ichthyol sulphonate. Solution. The most important of the salts are the ichthyosulphonic acids, prepared from a bituminous mineral of Tyrol, which is rich in fossilized remains of fish. A clear, reddish-brown viscid liquid. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne, rosacea. Alcoholism. Arthritis. **Boils.** Bronchiectasis. Bronchitis. Chilblains. Coryza. **Cough.** Eczema. Gonorrhea. Gout. Hay fever. **Hives. Nausea.** Neuralgias. Polyarthritis. Pruritus, vulvae. Psoriasis. Rheumatism. Scabies. Skin disorders. **Tuberculosis. Uric acid.** Urticaria.

HOMEOPATHIC - Ichthyolum is an unproved remedy which has been used in old-school therapeutics as an external application and internally in skin affections, rheumatism, scrofula, nephritis and gonorrhea.

Ichth. is a powerful antiseptic. It has achieved marked results as an external application to rheumatic joints. A solution of equal parts of Ichthyol and water is warmed and applied to the affected joint on calico and covered with heated cloths, outside of which is an impervious fabric to prevent evaporation.

Pure Ichthyol or an ointment of Lanoline and Ichthyol may be used instead with Lanoline making up 20 to 50 percent of the ointment. Externally, it is used as an ointment for chronic eczema, psoriasis, acne rosacea,

gouty joints, chilblains and scabies. Rectal suppositories for senile prostate. Its action on skin, mucus membranes and kidneys is prompt and useful.

It is strongly anti-parasitic, redness, pain and inflammation, and decreases tension. Polyarthritis. Chronic rheumatism. **Uric acid diathesis.** Gouty joints. Alcoholism, when nothing will stay on stomach.

Hay fever. **Chronic hives.** Excellent in winter coughs of old people. **Tuberculosis, helps nutrition.** Scarpa claimed to have used it with excellent effect in a large number of cases of tuberculosis.

MIND - Irritable and depressed. Forgetful, lack of concentration.

Abdomen - Gripping in umbilical and left hypogastric region.

Eyes - Burn, red, worse any change of temperature.

Face - Skin feels dry and itches. Acne on chin.

Female - Fullness in lower abdomen. Nausea at time of menses.

Food - **Increased appetite.**

Head - Dull aching, better cold, pressure.

Dull frontal and supra-orbital headache, worse moving eyes, cold air, better warmth.

Kidneys - Burning pain in meatus. Increased in quantity and frequency. Uric acid deposits.

Limbs - Lameness in right shoulder and right lower extremity.

Lungs - **Dry, teasing cough.** Bronchitis, especially of the aged. Bronchiectasis and tuberculosis.

Mouth - Disagreeable taste, burning sensation, very thirsty.

Nose - Bland coryza, stuffed feeling, feels sore inside. Irresistible desire to sneeze.

Rectum - Disposition to soft, shapeless stools. Early morning diarrhea.

Skin - Heat and irritation. **Itching.** Scaly and itching eczema. Psoriasis. **Hives.** Acne rosacea, erysipelas.

Crops of boils. Itching during pregnancy.

Stomach - **Nausea.**

Throat - Irritated, pain to ears, sore, dry with hawking and expectoration.

COMMENTS - Anshutz wrote: 'The principal action of Ichthyol in the following proving seems to have been on the mucus membranes of the nose and throat, on muscle tissue, producing rheumatic pain, on the skin and on the urine.

"The blood count was not conclusive, only two cases being tested and in one a diminution of red blood corpuscles before after taking the drug) was noted. No marked change in the number or character of the leucocytes and lymphocytes was noted.

"Most of the provers had increased appetite and after taking the drug for some time a marked feeling of well-being. Stool became free in some cases diarrhea and offensive.

"A languid, tired feeling with mental torpidity while actively taking the drug was usually followed by a feeling of improved, vigorous health when the drug was left off to be again repeated upon renewed administration of the remedy.

"The skin showed many interesting changes worthy of further proving, pruritus, acne and urticaria being produced. Rheumatic pains in different parts of the body were also noted.

"The urine showed valuable changes: Increased urination was noted in all cases with a change in color from the usual straw to a dark straw or reddish tint. The solids were increased, as were the sulphates.

"In many cases uric acid was deposited in the form of brick-dust or red sand, which microscopically proved to be the lozenge, plate and gravel form of uric acid crystals.

"Calcium oxalate crystals were also found in a few cases and in several instances the passage of the crystals produced a mild inflammation of the pelvis of the kidney (mild catarrhal pyelitis) which in the writer's case disappeared after six months, when the urine had again become normal.

"Therapeutically it would seem that in Ichthyol we have a potent remedy for the uric acid diathesis with its various manifestations and symptoms. Lithemia, as indicated by the urinary proving, should prove amenable to the drug if given in potency.

"Hay fever symptoms were also prominent in the proving of the drug and its application in this intractable affection is awaited with interest, local applications of Ichthyol having been used by a number of physicians in cases of hay fever with quite satisfactory results for some time.

"The lachrymation, coryza and the dry, teasing cough of measles seems also well pictured in some of the symptoms produced by this drug. Whooping cough tonsillitis and tiresome intractable cough of the aged suffering from bronchial disorders would also appear to offer a chance for trial with this remedy.

"It was prescribed it in several cases of gonorrhea with frequent urination and burning in the anterior urethra with some success. Some have seen the remedy act beneficially in dry, hacking coughs such as were developed by the provers.

"The 3x, 6x and 8x potency, especially the latter, were employed."

RELATIONS - Compare: (1) Hep., Calc., Sil., Sulph., Ars., Petr. (2) Ichth. belongs to the Petroleum class of remedies. (3) Carb-ac. (4) Caust. - lime-water compresses to allay inflammations. (5) Plantago - anodyne application.

REFERENCES - Boericke. Clarke. Phatak.

***ICTODES FOETIDA

(Skunk Cabbage)

PHARMACY - ictod. Ictodes foetida. Skunk cabbage. Skunk-weed. Dracontium foetidum. Pothos foetidus. Symplocarpus foetidus. **N. O.** Onoriaceae, Calliaceae orontoide, allied to Araceae. Tincture of whole fresh plant including root. The root loses its pungent taste and appears to be nearly inert a few weeks after it is gathered.

Historical dose: Tincture and all potencies.

CLINICAL - Amenorrhea. **Asthma.** Catarrh. Coughs. Dropsy. Dyspnea. Epilepsy. Headaches. Herpes. Hysteria. Nausea. Pertussis. Rheumatism. Scurvy. Ulcers. Vertigo. Vomiting. Whooping cough. Worms.

HERBAL - The smell from spathe and Ictod. flowers is pungent and very subtle. The seeds are said to afford more relief in asthmatic cases than the root, for they are remarkably active, pungent and exhale the odor of asafetida.

An acrid principle resides in the root, even when perfectly dry, producing an effect like that of the Arum and the Ranunculi. When chewed in the mouth, the root is slow in manifesting its peculiar taste, but after some moments a pricking sensation is felt, which soon amounts to a disagreeable smarting and continues for some time.

This acrimony is readily dissipated by heat and the decoction retains none of it. The distilled water is impregnated with it, if the process is carefully conducted, but loses it on standing a short time. To insure a tolerably uniform activity of this medicine, the root should be kept in dried slices and not reduced to powder until it is needed.

The bruised leaves are frequently applied to ulcers and recent wounds with good effect. They are also used as an external application in cutaneous disorders and the expressed juice has been successfully applied to different species of herpes. The leaves are also used to dress blisters with the view of promoting their discharge.

The Treasury of Botany explains the traditional uses of this plant in medicine: "The roots in cases of asthma, the leaves as an application to ulcers. The seeds are also considered to be anti-spasmodic and useful in coughs."

Skunk cabbage is not only a good antispasmodic in all cases where such are indicated, but it is also a powerful em- menagogue, antihelmintic and a valuable remedy in dropsy in spasms, rheumatism, palpitations, etc.

HOMEOPATHIC - Hering, and others, proved Ictod. and largely confirmed its popular reputation, and also its clinical relationship to the Arum family. Ictod. is a powerful anti-spasmodic, expectorant, vermifuge, menagogue, sudorific, etc.

Spasmodic asthma and coughs. **Asthmatic complaints worse by inhalation of dust** and relieved by stools. Burning sensations

from fauces down throat, enlarged glands of throat, swelling of nose and sneezing, spasmodic cough and skin disorders. Pertussis. Pain in throat while sneezing.

Hysterics. Epilepsy. Erratic and spasmodic pains. Dropsy. Chronic rheumatism. Headache in small spots with throbbing in temporal arteries. Red swelling across the nose. Tongue numb. Abdomen distended. Inclined to smoke, but it does not taste good.

Used in childbed to promote birth. Erratic and spasmodic pains with childbirth. Worms, the pulverized root should be administered in molasses for a sufficient length of time, following it up with a purgative. Scurvy.

MIND - Absence of mind. Inattention, enters sick-room without knocking, does not listen to patient. Irritable, cross. Impetuous, inclined to contradict.

Abdomen - Expansion and tension in abdomen. Pain in abdomen here and there in single spots. When walking, sensation as if the entrails were hanging loose and flabby without any pain.

Chest - Pain in chest and in axilla, seems to have a connection with burning in esophagus. Pressing pain in sternum.

Face - Swollen submaxillary glands.

Female - Amenorrhea.

Food - Inclined to smoke, but it does not taste good.

Head - Headache in single places, lasting a short while, then changing place. Dullness, pressing pain in temples, now more in one, then more in the other, with violent pulsation of arteries. Drawing in forehead in two lines from protuberances to glabella, where it draws outward as from a magnet.

Kidneys - Great urging, urine dark.

Limbs - Aching along right tibia.

Lungs - Spasmodic asthma, cough. Asthma, worse or caused by dust. Heaves in horses from dusty hay. Inclined to take a deep breath. Hollowness of chest with constriction in fauces and chest. Senile catarrh. Sudden anxiety with dyspnea and sweat, followed by stool, which relieves.

Male - Titillation, voluptuous but painful, around corona glandis.

Modalities - Better in open air. Motion aggravates. .

Mouth - Scurvy. Numbness of tongue, cannot touch teeth with it. Papilla elevated. Tongue red and sore on tip and edges.

Nose - The nose is swollen as far as the nasal bones extend, red like a saddle, sore to touch, worse left side. Cartilage cold and bloodless with red spots on cheeks and small pimples on left side of face. Violent sneezing with pains in palate, fauces and esophagus to stomach, hurting for a while after in cardiac end of stomach.

Skin - Herpes and skin affections.

Stomach - Nausea and vomiting. With every firm step, pain in pit of stomach as from something breaking loose.

Throat - Burning from fauces down through chest. Esophagus is painful on sneezing.

Vertigo - Vertigo and dimness of sight.

COMMENTS - Anshutz reported: "a young woman, about eighteen years of age, was harassed by severe convulsive and hysteric paroxysms, almost incessantly in so much that her friends estimated the number at seven hundred in the course of a few weeks, her abdomen was remarkably tumefied and tense and there was a bloatedness of the whole surface of her body and the slightest touch would occasion intolerable pain.

"At length her limbs became rigid and immovable and her jaw was so completely locked that she was unable to articulate and liquids could only be introduced through the vacuity of a lost tooth. She had been treated with a variety of antispasmodic and other medicines, by an experienced physician without relief. Having prepared a strong infusion of the dried root of skunk cabbage, Anshutz directed half a tea cupful to be given every few hours without any other medicine.

"The favorable effects of which were soon observable and by persisting in the use of it about ten days the muscular contractions were removed, the jaw was relaxed and her faculty of speech and swallowing with the use of all her limbs, were completely effected.

"Another young woman had the most distressing attacks of hysteria for several days without obtaining relief by the medicines prescribed. When the skunk cabbage infusion was so successfully directed that her fits were immediately arrested and in a few days a cure was completely effected.

"The brother of this patient was seized with violent convulsions of the whole body in consequence of a cut on his foot, the skunk cabbage was administered and he was speedily restored to perfect health.

"A woman was affected with violent spasmodic pains, twenty four hours after childbirth, six doses of skunk cabbage entirely removed her complaints. A number of cases catarrhal disorders of the old people in which a syrup prepared from the root in substance has alleviated and removed the complaint.

"In delicate stomachs it occasions vomiting even in a small quantity. In several cases of gastrodynia, where it was given with a view to its antispasmodic effect, it was ejected from the stomach more speedily than common cathartic medicines.

"In a dose of thirty grains to bring on not only vomiting, but headache, vertigo and temporary blindness. The root is a pungent antispasmodic in colics and griping of the bowels. Leaves when bruised relieve painful swellings, whitlows, etc.

"In chronic cough attended with a cold phlegmatic habit of body, the powdered root of this plant was employed with the most decided benefit. In an old man who has been for many years afflicted with a very troublesome cough and difficulty of breathing. In cases of chronic catarrhal and asthmatic disorders."

RELATIONS - Compare: (1) Arum t, Asaf., Meph.

***IGNATIA AMARA

(St. Ignatius Bean)

PHARMACY - ign. Ignatia amara. St. Ignatia's bean. Strychnos ignatia. Strychnos multiflora. Faba indica. N. O. Loganiaceae. Philippine Islands. The seeds of Ign. contain a larger proportion of strychnine than those of Nux vomica. Tincture of dried seeds. Tincture and trituration of the seeds. **Historical dose:** All potencies.

CLINICAL - Amenorrhea. Anger, effects. Anguish. Anorexia. Anus, disorders. Anxiety. Appetite, disordered.

Ascandes. Asthenopia. Back, weakness. Belching. Bulimia. Catalepsy. Chilblains. Chills. Chorea. Ciliary neuralgia. Clavus. **Colic.** Constipation. **Convulsions. Cramps.** Croup. Coughs. Debility. Dentition.

Depression. Diarrhea. Diphtheria. Disappointment. **Dysmenorrhea.** Dyspepsia. **Dyspnea.** **Epilepsy.** Esophagus, disorders. Fainting. Fever. Flatulence, obstructed. **Fright, effects.** Glands, enlarged. **Globus, hystericus.** **Grief.** Headaches. Heart, disorders. Hemorrhoids. Hiccoughs. Hydrocephalus. **Hysteria.** Hysterical-joint. **Insomnia.** Intermittent, fever. Lockjaw. Locomotor ataxia. Melancholy. Meningitis. Menopause. Metrorrhagia. Monomania. Nausea. Neuralgia. Nightmares. Nosebleed. Numbness. Ophthalmia. Opisthotonos. **Palpitations.** Paralysis. Plague. Premenstrual syndrome. Rectum, pain. Rectum, prolapsed. Rheumatic, fever. Sciatica. **Sensitiveness.** **Shock, emotional.** **Sighing.** Sinking. Sleep, disordered. **Spasms.** Spinal, irritation. Tenesmus. Throat, sore. **Tobacco, allergy.** **Tonsillitis.** Toothaches. **Tremors.** **Twitching.** Ulcers. Urine, abnormal. Vagina, spasm. Vertigo. Voice, lost. Vomiting. Yawning. Whooping cough. **Worms.** **Worry.**

HOMEOPATHIC - Ignatia seeds contain a larger proportion of strychnine than those of Nux vomica, yet there is a great difference between the characteristic features of the two drugs, pointing to the importance of considering the medicines apart from their "active" principles. Ign. has been called the "feminine" of the "masculine" Nux-v.

Ignatia is adapted to persons of nervous temperament, especially women of a sensi-

Ignatia amara tive, easily excited nature and mild disposition, who are quick to perceive and rapid in execution. Marked hypersensitivity of all the senses and a tendency to clonic spasms. **Effects of grief and worry. An emotional state of grief or frustration.** For emotional shock, conflict, disappointment, fright and grief.

Characteristic **changeable and erratic character** of its symptoms. It causes erratic, contradictory, paradoxical mental and physical effects, which change rapidly and are opposite each other. Alert, nervous, apprehensive, rigid, trembling patients who suffer acutely in mind or body. Worse by drinking coffee. **Cannot bear the smell of tobacco smoke.**

Violent spasmodic effects, with rigidity, twitching and tremors. Spasms with cries or involuntary laughter. Spasms alternating with oppressed breathing. Hysteria.

Convulsions of children during dentition after punishment after fear or fright, return at the same hour daily. Chorea after fright from grief worse after eating, better lying on back. Catalepsy with opisthotonos (Nairn. will follow in some chronic conditions). Paralysis after great mental emotions or night watching.

Pain in small, circumscribed spots (Ox-ac.), worse close attention. Pains change their locality, come gradually, abate suddenly or come and go suddenly. **Oversensitive to pain.** Nervous shuddering with pain.

Hiccoughs and hysterical vomiting. **Sensation of lump,** foreign body or sharp pressure. Globus. Symptoms pass after profuse urination. Preventative and curative for plague. Clavus.

MIND - Suppressed or deep grief with long- drawn sighs. Sobs in long drawn-out sighs. Anguish, shrieks for help. Melancholic, sad, tearful. **Sadness and sighing with empty feeling in pit of stomach.**

Ailments from grief, emotional shocks and disappointments. Ailments from hearing bad news, **from fright,** vexation with reserved displeasure, shame or embarrassments.

Disorders of the mind, particularly if actuated by grief, sadness, hopelessness, hysterical variableness, fantastic illusions.

Much unhappiness, cannot sleep, entirely absorbed in grief. Inward weeping. Broods, sometimes over imaginary troubles. Introspective. Narrating her symptoms aggravates. **Worse from consolation.** Desire to be alone, to smother grief. Full of suppressed grief, seems weighed down by it. Indifference. Aversion to every amusement.

Oversensitive and nervous. Intolerant of contradiction or reprimands. **Constantly frustrated.** Irritable. Everything irks her. **Quarrelsome.** Angry at self. Sense of neglected duty. **Internal conflicts.** Anger, followed by quiet grief or sorrow.

Capricious, changeable, **rapid alternation of moods. Highly emotional and moody. Oversensitive to pain. Joking and laughter changing to sadness and tears.** Uncontrollable emotions. Hysteria. Globus hystericus. Every little emotion disturbs.

Spasms and insanity after grief or fright. Epilepsy after grief or fright. Delights to bring on her fits and produce a scare or a scene. Rages and tears clothes, can scarcely be restrained. Looks about the bed as if to find something. Childish behavior. Monomania. Obsessive compulsive disorder. Bulimia. Anorexia.

Anxiety, as if something terrible had happened. Fearfulness, terror, alternating with irresolution and inertness. Fear of trifles, of things coming near, of robbers at night on waking. Fear of being hurt and disappointed. Fear he will never sleep again.

Mild, gentle, yielding, whimsical and introverted. **Idealistic, sentimental and romantic.** Sensitive, impressionable. Delicately conscientious. Faints, falls easily in love, with married men (Nat-m.). **Love sick,** homesick. Aversion to being alone. Jealousy from disappointed love. Inclined to be very secretive and passive. Fixed ideas. Perfectionist.

Delusion she is breaking her vow. Imagines her soul can't be saved and cries. Imagines that she might go crazy, with suppressed menses.

Believes herself married and pregnant. Hatred of men. Suicidal thoughts and desire to escape.

Mistakes in writing and talking and awkward motions. Incapacity for thought in evening. Very great weakness of memory. Forgets everything except dreams. Hurried in mental work. Sensitive to noise.

Abdomen -Abdominal spasms and cramps. Periodic cramp-like pains in the abdomen. Weak feeling in upper abdomen. Throbbing in abdomen (Aloe, Sang.). Twisting pain around navel. Colicky, griping pains in sides of abdomen. **Abdominal colic pains worse brandy, coffee and sweet things. Flatulent colic, especially at night.** Flatulence presses on the bladder. **Extreme flatulence with hysteria.** Rumbling in bowels. **Fullness and distension, causes inability to breathe.** Sensation as if the intestines were going to burst. Sensation of hardness and swelling in region of spleen. Sensation of protrusion in umbilical region. Anxious feeling rising from abdomen, after breakfast. Distension of abdomen after eating, during pregnancy.

Back - Convulsive bending backwards of the spine. Back is bent forward. **Back spasms and cramps.** Cutting, sharp pains from small of back. Backache during chill. Weak back with sciatica. **Twitching of muscles.** Aching pain in the glands of the neck. Stiffness of the nape of the neck. Pain in the os sacrum in the morning, when lying on the back. Violent sacral pains. Spinal disease with gressus gallinaceus.

Breasts - Sharp pains in nipples on deep inspiration. Milk diminished. Infantile colic after taking breast of mother or nurse, who suffers from grief.

Causations - Ill effects of disappointed love, grief, fright, worry, jealousy, old spinal injuries.

Chest - Sharp pain in left chest. Sharp pains in chest from flatulent colic. **Constriction of the chest.** Chest feels as if too small. Throbbing, aching in the chest. Shootings in the chest and in the sides, excited by flatulency. Oppression of chest, with severe choking sensation from stomach up into throat, better eructation.

Constitutions - Suited to sensitive, excitable, nervous temperament, women of a sensitive, easily excited nature, dark hair and skin, but mild disposition, quick to perceive, rapid to execute. Romantic, idealistic and overworked. Suitable to persons who had been starving either from want or other causes.

Coughs - Nervous cough and oppression frequently accompanying catarrhal affections in young people and women. Dry, hoarse cough. **Dry, hacking, spasmodic cough in quick successive shocks, shutting off the breath.** Hollow spasmodic cough, worse in the evening, little expectoration, leaving pain in trachea. Coughing increases the desire to cough. Cough, every time he stands still during a walk. Cough after warm drinks. Cough, as from dust or sulphur fumes. Cough as from feathers in pit of throat. Sleepy after each coughing spell. **Reflex coughs from more remote affections of womb, ovaries and with worms.** Whooping cough.

Ears - One ear red and hot. Tugging pain in ears. Obstinate itching in auditory canal. Intolerance of noise. Noise causes headache. Loud talking aggravates headaches. Roaring noises, better by music. Sound before ear, as from a strong wind. Hardness of hearing. Deafness, except for the human voice. Worry takes away hearing and intensifies the noises.

Eyes - Inflammation, redness of the eyes. Acrid tears in eyes, during day. Lachrymation with much mucus and burning in eyes during headache, especially in the brightness of the sun. Fixed look with dilated pupils. Photophobia, can't bear the glare of light. Sunlight causes headache (Nat-m.). Photophobia during menses. Ophthalmia of newborn infants. Herpes in cornea. **Asthenopia** with spasms of lids and neuralgic pain about eyes (Nat-m.). Ciliary neuralgia. Stabbing pain deep in eyes. Convulsive movements of the eyes, and of the eyelids. **Twitching of eyelids.** Swelling of upper lid. Eyelid turned upward. Eyelids seem dry. Sensation as if sand were under upper lids. Sensation of pressure and heaviness. Sensation

Ignatia amara as if eye would fall out, worse reading, sewing, etc.

Face - Face changes color when at rest. Flushing of face on emotions. Redness and heat of one cheek, red and pale alternately. Face clay-colored and sunken, with blue rings around eyes. Eruption on the face. Lips dry, cracked, and bleeding. Scabs on the commissure of the lips, and on the lips. Ulceration of the corners of the mouth. Perspiration on the face alone. Sweats on face while eating. Pains in the submaxillary glands. Swelling of the parotids, with shooting pain. **Twitching of muscles of face and lips.** Twitching of corners of mouth. Masseters stiff and hard. Facial muscles distort on attempting to speak. **Spasmodic clenching of the jaws.** Emotional trismus. Lockjaw. **Pain in the lower jaw, as if dislocated.** Prosopalgia due to presence of ascarides. Prosopalgia during pregnancy. Prosopalgia due to prolonged nursing.

Female - Suppressed menses from grief. Amenorrhea. Premenstrual syndrome. **Sighing before menses.** Constant burning heat in vagina, worse before menses. Menses, irregular, too early, too profuse, or scanty. Menstrual blood black, of putrid odor, in clots. Menses with great fatigue, spasmodic pains in stomach and abdomen. **Menstrual cramps.** Dysmenorrhea, with great pressure. Metrorrhagia from chamomile tea. **Uterine hemorrhages from grief or emotional excitement.** Cramp-like and compressive pains in the region of the uterus. Violent labor-like pains followed by purulent acrid leucorrhea. Bearingdown pains with leucorrhea.

Corrosive and purulent leucorrhea, preceded by contractive pressure in the uterus. Pruritus of young girls, with leucorrhea and ascarides. Chronic leucorrhea with sexual desire. Sexual frigidity. Intensely sore pain at entrance of vagina during sex, almost driving her frantic. Nausea, weakness, sinking in stomach, better eating, during pregnancy. **Threaten miscarriage after emotional upset, fright or grief.** Labor pains, spasms amounting almost to convulsions. Labor doesn't progress.

After pains with much sighing, sadness and despondency. Puerperal convulsions with vomiting.

Food - Loss of appetite before and during menses. Loss of appetite from deep grief. Food has a bitter, repulsive taste, or no taste. Refuses to eat. Averse to ordinary diet, longs for great variety of indigestible articles. Appetite for various things, but when offered appetite fails. Hunger and nausea at same time. Hunger after fever. **Aversion to fruit,,** warm food, meat, milk, alcohol, brandy, **tobacco.** Nausea from smoking, **repugnance to smelling tobacco smoke.** Craving for acid things, acid fruit, sour things, raw or indigestible things, cheese, bread, sweets, chocolate. Desires cold food, which is digested, warm food causes indigestion. Milk taken in the morning leaves an after-taste for a long time. Worse tea, coffee, brandy. Beer tastes bitter or putrid. Diarrhea from fruit.

Head - Periodic, weekly, fortnightly or monthly headaches. **Nervous headaches in hysterical women, suddenly appearing and disappearing.** Congestive headaches following anger or grief. **Headache, worse smoking or smelling tobacco.** Inclines head forward. Throws the head backwards from weight at occiput or during spasms. Headache alternating with backache. **Headache as if a nail were driven out through the side.** As if a needle were pushed through over right eye into brain. Headache, worse or better by stooping. Head feels hollow, heavy, worse stooping. Throbbing pains, with every beat of arteries, worse stooping. Severe throbbing in forehead and over eyes, worse light. **Headache from abuse of snuff, tobacco, smoking, alcohol, coffee.** Headache from close attention. Headache, as if bruised or beaten in morning on waking. Headache as if temples would be pressed out. Lancinating, boring pains deep in brain with nausea. Cramp-like pain over root of nose. Trembling and shaking of head. Hydrocephalus. Meningitis, cerebrospinalis with rapid alternation of symptoms. Loss of hair.

Heart - Anxious feeling in heart region. Uncertain, weak, weary sensation in heart, after excessive anxiety followed by sudden joy. **Constriction at heart, with anxiety and disposition to cry.** Palpitations at night, with shootings in the heart. **Palpitations while engaged in deep thought,** during menses, in morning in bed. Sticking in precordial region on expiration. Cardiac hyperesthesia. Pulse hard, full and frequent, with throbbing in blood vessels. Pulse variable, frequent in morning, slower during day and evening.

Kidneys - Sudden, irresistible desire to urinate. Continual urge to urinate after taking coffee. Constant urination after coughing. Urging to urinate with inability to pass urine. Involuntary emission of urine. Burning and smarting pain in urethra when urinating. Painful pressure, with scraping sensation in neck of bladder, worse walking. Itching in the fore part of the urethra. Frequent, profuse, watery urine (Ph-ac.). Urine clear, lemon-colored, turbid, scanty, dark and acid.

Limbs - **Cramps, twitching and spasms in the limbs.** Jerking in limbs. Painfulness of limbs on going to sleep. Tingling and sensation as if limbs had gone to sleep. Sciatica, worse in winter, better in summer. As if flesh was loose on bones from a blow. **Joints as if dislocated.** Lancinating, cutting pain in the shoulder joint, when bending the arm forward. Trembling of hands when writing. Warm sweat on the palms. Knees are involuntarily drawn upwards, when walking. Knees hot with cold nose. Cramps in calves. Pain in Achilles tendon and calf. Burning in heels on placing them near one another, when they come in contact they are cold to touch, worse at night. Heavy sensation in feet. Ulcerative pain in soles. Corns painful as if sore.

Lungs - **Dyspnea,** as from a load on chest. Catching respiration. **Takes deep breath,** for relief. **Much sighing.** Sighing and sobbing continue long after crying. Loses breath when running. Oppressed breathing, alternating with convulsions. Oppressed breathing, at night, worse after midnight. Snoring inspiration during sleep. Inspiration slow, expiration quick. Expectoration tasting and smelling like old catarrh. Difficult expectoration, in evening. Choking, spasms of glottis (Cupr.). Sleepy after coughing.

Male - Sweat on scrotum. Itching about genitals, in bed. Much itching in the penis, removed by scratching. Soreness and ulcerative pain, with itching at margin of prepuce. Pain in penis, during cough. Penis, contracted, becomes small. Lasciviousness and weakness of genital power, without erections. Absence of sexual desire. Sexual desire with impotence. Erections with painful uneasiness, and aching at the pubis. Erection before and during stool with emission of prostatic fluid.

Modalities - Better while eating, swallowing, sour things. Better change of position, lying on affected part, lying on back, pressure, deep breathing, near a warm stove, urination, being alone. **Worse shock, grief, worry, fright, chagrin, emotions, after losing persons or objects** that were very dear. Worse from open air, cold, external warmth, at the same hour and day, in the morning. Worse odors, after meals, liquids, **coffee,**

stimulants, tobacco smoke. Worse yawning, stooping, walking, standing, slight touch.

Mouth - Foam at the mouth. Putrid odor from mouth. **Sour taste.** Accumulation of acid saliva in the mouth. Constant flow of saliva prevents sleep. Mouth constantly full of white, frothy mucus. Constant spitting. **Spasmodic closing of the jaws.** Bites inside of cheeks when talking or chewing. Redness and inflammation of the mouth and of the palate. Sharp pains in palate, extending to the ear. Swelling of orifices of salivary glands. Inner surface of lower lip seems raw. Lips dry, cracked, bleeding.

Nose - Fluent coryza. Stoppage of one nostril, dry coryza, with dull headache, and excessive nervous excitement. Dry catarrh, with crawling and itching in nostrils, which are sore, sensitive or swollen. Nostrils excoriated and ulcerated, with swelling of the nose. Pain over the root

of the nose. Dryness of the nose. Cold, with hot knees. Sensitive to inspired air. Sneezing attacks. Nosebleed.

Perspiration - Sweat at times cold, but generally warm and somewhat sour-smelling. Sweat, worse on eating, often on a small spot on the face. Feeling as if sweat would break out, but does not. Warm sweat, on palms of hands. Slight sweat only on face. Sweats with fainting. Sweats in children during dentition.

Rectum - Constipation from taking cold. Constipation from riding in a carriage. Constipation with constant, ineffectual urging to stool. Diarrhea alternating with constipation. Diarrhea from fruit. Diarrhea from fright. Diarrhea from emotional excitement, grief. Painless diarrhea with rumbling of gas. Prolapse of rectum from moderate straining at stool. **Painful constriction of anus after stool.** Painless contractions of anus. Hemorrhoids, better sitting, worse coughing. Sharp pain in hemorrhoids during cough. Sharp pain from anus deep into rectum. Hemorrhage and pain, worse when stool is loose. **Pressure as if a sharp instrument from within outward.** Contraction of the anus. Spasmodic tension in rectum. Discharge of blood from the anus. Blotches at anus. Itching, crawling and tingling in the anus. Threadworms in rectum. Ascarides in the rectum.

Skin - Itching, nettle-rash. Nettle rash over the whole body with violent itching during fever. Itching on becoming warm in the open air. Great sensitiveness of the skin to a draft of air. Excoriation of the skin, especially around vagina and mouth. Fine pricking like flea bites. Ulcers, painless, discharge scanty. Ulcers, burning, generally worse slight touch, better hard pressure. Chilblains.

Sleep - Violent spasmodic yawning with running from eyes. Sleepy after coughing. **Insomnia from grief, worries.** Sleeplessness from anxious thoughts, depressing emotions, overstraining mind, **relationships or business cares.** Jerking of limbs on going to sleep. Very light sleep, hears everything that happens around him.

Frequent changing position at night in bed. Whimpering while sleeping. Children with hiccough, chewing motions of mouth during sleep. Sleepwalking from wounded pride, honor. Profound and comatose sleep with a stertorous breathing. Nightmares, over and over again. Dreams about grief, death of loved ones, broken relationships. Child awakes from sleep with piercing cries and trembles all over.

Stomach - Periodical attacks of cramps in the stomach, worse slightest contact. **Sinking feeling in stomach,** relieved by taking a deep breath. Gnawing, cutting pains in stomach. All-gone sensation in stomach. Feeling in stomach as from fasting, with physical exhaustion. Trembling in stomach. Catarrh of stomach from grief or worries. **Much flatulence.** Dyspepsia with great nervous prostration, caused by mental depression. Hiccough after emotions, from smoking. Hiccough with belchings empty or bitter after eating, drinking. Sour eructation. Hunger with nausea. Nausea with agitation and anguish. Nauseous feeling in pit during cough. Nausea while standing, better sitting down. Nausea or vomiting, better indigestible things. Vomiting of bile and mucus. Regurgitation of food, or of bitter serous matter.

Stool - Stools, whitish, yellowish white, slimy, thin, pasty. Stools, mucus, bloody mucus, mucus with colic, acrid. Stools large and soft, pass with difficulty.

Teeth - Looseness of the teeth. Toothache, as if the teeth were broken. Boring pain in front teeth. Soreness in all teeth. Toothache, towards the end of a meal, worse after its conclusion, worse after drinking coffee and smoking. Toothache from cold. Difficult dentition with convulsions.

Temperature - External chills with internal heat, or external heat with internal chill. Chill or heat of single parts only. Chill with thirst, not relieved by external heat. Chill with red face. Shaking chill. Chill during pains. Chills begins as soon as back is least uncovered. Chills proceeding from abdomen. Fever with itching, nettle-rash all over body. Fever with aversion to

uncover but no thirst. Febrile shivering, especially in the back and arms. Fever with thirst for cold water, and sometimes with nausea and vomiting. Fever with cold feet. Frequent heat flushes with sweat. Fever with fainting. Fever with coldness of feet and spasmodic twitching of limbs.

Throat - **Hysterical spasm of throat,** result of suppressed grief, can't swallow either liquids or solids. Spasm of glottis (Calc.). Tendency to choke. Choking sensation from stomach up to throat. Cramps in gullet. **Globus hystericus.** **Sensation as if a lump in throat,** that cannot be swallowed. Sore throat, as if there were a plug in it, when not swallowing. Sore throat, sharp pain when not swallowing, better eating something solid. Sharp

pain extending to ear, between acts of swallowing. Constrictive sensation in larynx and trachea. As if a foreign body were lying over larynx. Sore larynx. Laryngismus that can be heard all over the house. Crawling sensation in throat. Tonsillitis. Inflamed, hard swollen tonsils. Small ulcers on tonsils. **Follicular tonsillitis**. Whitish tough mucus in spots on tonsils, simulating diphtheria. Putrid throat, seldom painful. Hoarseness from cold. Whispering voice, can't speak loudly. Voice trembling. Submaxillary glands painful when moving the neck. Goiter.

Tongue - Tendency to bite the tongue, on one side, when chewing or speaking. Moist, white, flabby tongue, loaded with a white coating, shows marks of teeth. Anterior half of tongue as if numb. Tongue trembles when protruded.

Vertigo - Vertigo with sparks before the eyes, gastric symptoms and yawning. Vertigo, worse slightest motion of head, stooping. Vertigo as if swung to and fro in a swing or cradle.

Vision - Flashes of light from violent coughing. Sparks before the eyes. Flickering zigzags and serpentine white flickering at one side of field of vision. Dimness before one eye while reading, as if tears were in it, which is not the case. Amblyopia and asthenopia in females, due to onanism or ciliary neuralgia.

COMMENTS - Sudden shock and grief (Staph., Caust., more anger with the grief). **Hysteria from grief. Shock from frights (Op.), bad news, and from disappointment**. Since shock, sleepless, irritable, angry. Crying with the inability to control themselves, choking, spasmodic crying.

Alternate moods, contradictory behavior. **Conflicted emotions**. love/hate relationships (Staph., Nat-m.). Acute, unrequited love (Nat-m.). Generally idealistic and romantic, leading to disappointment and unfulfilled hopes. Perfectionist, obsessive, chronic or acute frustration. Dislikes consolation (Nat-m.). Characteristic sighing respiration. Sentimental.

Fear of being trapped, of being possessed, changed. Fear of being embarrassed, of losing control. Frigidity, due to desire for control, often cannot orgasm. Can shut down sex drive. Women may become masculinized, stoic, after disappoint in love.

Confident, but also low self esteem. Overly concerned with appearance. Hard on themselves in terms of weight, have an ideal body image and a drive for perfection. Anorexia, bulimia.

Hard, critical. Tendency to argue when hurt. Internal conflicts, particularly over sense of dependency. Complains of a communication problem in relationships. Reactive (Nat-m. is more introverted). Sense of irresolution.

Physical paradoxes, strange behavior. Ulcer and heartburn that is better hot, spicy foods. Sore throat, better swallowing solid foods. Painful, inflamed joints that are better pressure.

Neurological problems since grief or shock. Lump in the throat, tight feeling, empty feeling in the chest or the stomach since a grief. Neurological diseases after grief, especially choreas, spasms, or epilepsy. Convulsions, spasms from fright. Epilepsy from emotional conflict. Hysterical paralysis.

Cramps and spasms (Nux-v.). Spasms and convulsions, ending in long-drawn sighs. Nervous twitchings and convulsions. The child stiffens and bends backward. Halfunconscious state, thumbs clenched, face

Ignatia amara blue. Distortion of the facial muscles whenever the patient attempts to speak. Severe numbness down the legs. Back spasms.

Excessive pains rapidly alternate in character. Exaggerated and outlandish symptoms. Pains change their locality, come gradually and abate suddenly or come and go suddenly. Pains in small, circumscribed spots. Pressure as of a sharp instrument from within outward. Sensations of formication and numbness.

Headache as if a nail were driven out through the side of the head, better by lying on it. Headaches terminate with a profuse flow of urine. Migraines. Dentition. Toothache, worse after a meal, not so bad while eating.

Hoarse hacking, irritable and irritating cough. The longer the cough lasts, the more the irritation increases. Kent described it as "hack, hack-et-hack, ending in sobbing." Cough every time he stands still during a walk. Hollow, spasmodic cough as from sulphur fumes. Cough as from inspired feathery dust. Hysterical aphonia. Laryngismus stridulus, patient sits up in bed.

Knots in the stomach, colitis. Sour saliva and sour taste in mouth. Craves cheese, sweets and chocolate. Strong aggravation from tobacco, coffee. Sensitive to stimulants. Pronounced "goneness" or sinking at the stomach, often at night. Sensation as if the stomach were relaxed.

Regurgitation of food. Hiccough, worse by eating, smoking or emotional disturbances (especially in children). Empty retching better by eating. Vomiting at night. Hysterical vomiting.

Painful conditions of the anus and rectum, including hemorrhoids and prolapse. Especially when characterized by "sharp, stitching pains shooting up the rectum," or "constricting pain at anus worse after stool, better while sitting."

Dysmenorrhea, labor-like bearing-down in hypogastrium, better by pressure, lying down, change of position. Flow is black, putrid, clotted if profuse.

Sudden loss of function in any organ. Insomnia, with conflict. Tendency to chilliness. During intermittent fever, thirst occurs only during the chill stage.

Teste placed Ign. in his Ip. group as nausea and vomiting, reversed peristalsis, congestive headaches and engorgements resulting from vomiting, tenesmus, and intermittent fevers are the leading characteristics of the group.

Clarke once gave instant relief with Ign. 30c in the case of a woman who had just heard of her brother's death (not unexpected) and who complained of an intense pain in the head just over the root of the nose.

Dr. Nash related a case of puerperal convulsions in which this feature led to a cure.

Clarke astonished himself once by curing rapidly with Ign. a severe case of rheumatic fever, which had been making no progress under Bry.

B. Simmons explained the sciatica pains as "lancinating, cutting pains, beating, bursting pains, chilliness with thirst, flushes of heat, chiefly face without thirst." The limb is swollen and thigh knotty and she cannot get up or lie down without pain, generally left side.

RELATIONS - Antidoted by: Puls, (chief antidote), Arn., Camph., Cham., Cocc., Coff. **It antidotes:** Brandy, coffee, chamomile tea tobacco, Sei., Zinc. **Compare:** (1) Nat-m., Phos-ac. - grief, especially for chronic condition. (2) difficult swallowing of liquids, Bell., Caust., Cina, Hyos., Lach., Lyc., Phos. (3) Globus hystericus - Lach., Lyc., Plb. (4) Worry and its effects, Nux- v., Sulph. (5) Jealousy, Apis, Lach., Hyos. (6) Disappointed love, Nat-m., Ph-ac. (7) Zinc., Kali-p., Sep., Cimic. (8) Panacea arvensis - sensitiveness over gastric region with hunger but an aversion to food. (9) Croc. - irresistible fits of laughter, rapidly alternating mental states. (10) Lyc. - sinking sensation at night, preventing sleep, canine hunger at night, also Chin. (11) Sep. - sinking, gone sensation, with Ign. it is attended with sighing. (12) In functional paralysis from fatigue, emotions or worms, Stann., Cocc., Phos. (13) Hysteria, Cupr., Plat., Hyos., Asaf., Mosch., Valer., Nux-m. (14) Spasms in delicate women, Bell., Hyos. (15) Sudden effects of emotions, Staph., Op. (16) In uterine spasms, Cocc., Cham., Mag-m., Cimic. (17) Extreme sensitiveness to pain, Coff., Cham. **Compatible:** Ars., Bell., Calc., Chin., Lyc., Nux-v., Puls., Rhus-t., Sep., Sulph., Zinc. **Incompatible:** Coff., Tab., Nux-v.

***ILEX AQUIFOLIUM

(American Holly)

PHARMACY - Ilx-a. Ilex aquifolium. American holly. Ilex opaca. N. O. Aquifoliaceae. Tincture of fresh leaves, berries and young shoots. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Coughs. Diarrhea. Eye, disorders. Gout. Intermittent, fever. Jaundice. Pleurisy. Rheumatism. Spleen, pain. Staphyloma.

HERBAL - The best-known members of the Ilex genus are the common Holly and the Ilex Paraguayensis, or Paraguay tea, from which the drink called mate is made. The leaves of Ilex-aq. are reputed to be equal to cinchona in the treatment of intermittent fever.

Haller commended the juice of the leaves in jaundice, the berries are purgative and emetic. Hale quoted Rafinesque as saying, "The decoction and wine have been used for cough, pleurisy, colic, gout and rheumatism."

HOMEOPATHIC - Ilx-a. has been used in coughs, pleurisy, colic, gout and rheumatism. Infiltration of cornea, staphyloma, nightly burning in orbits, rheumatic inflammation of eye. Intermittent fever. Marked eye symptoms, spleen pain. All symptoms better in winter.

COMMENTS - Cooper cured spleen pain with it. His keynote indication for it is "**symptoms better in winter.**" He improved with it a bad case of chronic deafness having that peculiarity. A feeling of irritation in the urethra with constant dripping from orifice, probably from prostate, in a man about 50, disappeared after a drop of the tincture.

Cooper said the diarrhea of Ilx-a. is accompanied with mucus flux and he suggests that it may be useful in pilosis (sprue).

Hale quoted an article by Dr. Hendricks on the affect of Ilx-a. on the eye. With 5- drop doses of the lx, given four times a day. Dr. Hendricks cured several cases of "rheumatic inflammation of the eye with periostitis of the frontal bone, which often leads to staphylomatous degeneration of the cornea."

Hendricks noted the case of a girl, 17, who had been under the most renowned oculists since her fifth year. She had great infiltration of cornea, staphyloma, eyeball looked like a lump of flesh. Nightly burning pains in orbits. Ilx-a. cured completely in six days.

RELATIONS - Compare: (1) Ilx-p. Ilx-v. (2) Ilx-c- Excellent diuretic and substitute for tea.

***ILEX PARAGUARIENSIS

(Yerba Mate)

PHARMACY - Ilx-p. Ilex paraguariensis. Yerba mate. Ilex mate. **Historical dose:** Tincture and all potencies.
CLINICAL - Anorexia. Depression. Headaches. Heartburn. Hemisphasia. Kidney, colic. Neurasthenia. Sunstroke.

HERBAL - Yerba mate is said to be of use as a prophylactic against sunstroke, being a stimulant to the circulation as a diaphoresis and diuresis herb.

HOMEOPATHIC - Persistent epigastric pain, sense of dryness of mouth and pharynx. Anorexia, heartburn with nervous depression, neurasthenia. Somnolence, incapacity for work. Diminution of urinary secretion. Headaches and pruritus, itching. Kidney colic. Hemisphasia.

RELATIONS - Compare: (1) Ilx-a. Hx-v. (2) Hx- c- Excellent diuretic and substitute for tea.

REFERENCES - Boericke. Clarke.

***ILEX VOMITORIA

(Yaupon)

PHARMACY - ilx-v. Ilex vomitoria. Yaupon. N. O. Aquifoliaceae. **Historical dose:** Tincture and all potencies.

CLINICAL - Gout. Nephritis.

HOMEOPATHIC - Ilx-v. has emetic, tonic and digestive qualities, with no sleepless effects. Its active principle is said to act as a powerful diuretic employed in nephritis and gout.

REFERENCES - Boericke.

IMPATIENS

(Bach Flower Essence)

PHARMACY - imp-b. Impatiens. Impatiens glandulifera. Impatiens balsamina. The mauve flowers are picked and floated on to a bowl of water which is left in the sun for several hours. The water is strained and preserved as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Together with Heath-b. and Wat-v-b., this remedy belongs to the group of **Loneliness**, as classified by Bach. All three remedies bring healing to those suffering from inner loneliness mostly due to self-centered reasons.

Nervous tension and cardiovascular strain. High blood pressure, heart trouble. Internal agitation and impatience. Useful for increasing patience and forbearance. Sudden explosions of temper with possible violence. Threatened nervous breakdown.

MIND - Restlessness. Internal agitation. Frustrated, dissatisfied, irritable. Impatience, short of temper. Easily feels despair or feels overwhelmed. Sense of urgency. Feels driven to do one thing after another. Efficient. Self-centered. Problems with impulse control (Cher-p-b., Holly-b., Verv-b.).

REFERENCES - Bach.

***IMPERATORIA OSTRUTHIUM

PHARMACY - imp. Imperatoria ostruthium. Peucedanum ostruth. N. O. Umbelliferae. Tincture or infusion of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Skin, disorders. Stomach, disorders.

HOMEOPATHIC - Imperatoria, like Atha- manta, belongs to the genus Peucedanum. Kleemann observed the effects of the infusion of the root, a teaspoonful every two hours. A few symptoms were noted, including "diminished secretion of mucus in intestines and air passages."

RELATIONS - Compare: (1) Atha. and Umbelliferae.

REFERENCES - Boericke. Clarke.

***INDIGO TINCTORIA

PHARMACY - indg. Indigo tinctoria. An oxidation product from the juices of several plants, chiefly Indigo tinctoria. N. O. Leguminosae. Papilionoideae. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne. Amenorrhea. Anus, prolapse. **Belchings.** Brachial neuralgia. Constipation. Cough. Diarrhea. **Epilepsy.** Face, pimpleson. Headache. Hysteria. Kidney, colic. Melancholy. Neurasthenia. Nosebleed. Pinworms. **Sciatica.** Skin, disorders. Toothache. Urethra, stricture. Worms.

HERBAL - Indigo was introduced into medicine as a remedy for epilepsy. Pure powdered Indigo placed on the wound cures snake and spider poison (Kali-perm., Golondrina, Cedr.).

HOMEOPATHIC - It has been extensively proved by homeopaths and observations have also been made of its effects on epileptic patients who were receiving large doses from old-school practitioners.

Marked action on the nervous system. **Epilepsy**, when the attacks are preceded by a furious excitable disposition followed by melancholy, timidity and mildness. Undulating sensation in the brain with obscuration of vision or sensation as if the brain were frozen, before the attack.

Neurasthenia and hysteria. Excited mood and desire to be busy. Pain in the limbs worse after every meal.

Sciatica pain from middle of thighs to the knee. Stricture of esophagus, blue color (Cupr.).

Back - Sharp pain between the scapula. Sharp pain in the small of the back, going off after an evacuation.

Breasts - Shooting pains in and around the breasts. Stinging in the breasts, going off momentarily by rubbing. Burning in the breasts during the menses.

Chest - Rumbling and grumbling in the chest at every inspiration.

Ears - Pressure and roaring.

Eyes - Convulsive twitching and quivering of the eyelids, impeding the sight. Pressure in the eyeball. Inflammation of the meibomian glands on the lower lids.

Face - Tearing, piercing and gnawing pains in bones of the face and especially of lower jaw. Pricking in right malar bone. Pain in the submaxillary glands extending to the teeth. Congestion in the face with burning cheeks.

Female - Menstruation too early. Acts as an emmenagogue.

Head - Convulsions. Undulating sensation through whole head. Sensation of a band around forehead. Sensation as if brain were frozen. Hair feels pulled from vertex. Gloomy, cries at night.

Kidneys - Catarrh of bladder, kidney colic. Stricture of urethra. Frequent desire to urinate with burning in the fundus of the bladder. Urine turbid.

Limbs - Pain in limbs worse after every meal. Drawing in the muscles, in deltoid. Convulsive startings in the arms. Weakness of arms. Veins of the hands red, inflamed and tense. **Sciatica.** Aching, stinging, bruised pain in sciatic nerve. Tearing in the lower limbs, especially in the toes. Pain from middle of thigh to knee. Boring pain in knee joint, better walking.

Lungs - Violent, suffocating cough inducing vomiting, bleeding of the nose, in the evening, before and after lying down.

Male - Depressed sexual desire. Itching of the urethra, glans and scrotum.

Modalities - Better pressure, rubbing, motion, walking. Worse during rest and sitting, in afternoon, evening. Worse after eating and after evening meal. Warmth rushes to head on entering a warm room after walking in cold air.

Mouth - Sensation of burning on the tongue and in the bottom of the palate. Vesicles on the tip of the tongue. Metallic taste in tongue with contracted feeling in pharynx. Spitting of bloody saliva. Numbness of interior of mouth in the morning after waking.

Nerves - Excessive nervous irritation. Epilepsy, flashes of heat from abdomen to head, fit begins with dizziness. Aura from a painful spot between shoulders. Hysterical symptoms where pain predominates. Reflex spasms from worms.

Nose - Excessive sneezing and bleeding from nose. Nosebleed with vanishing of sight. Tearing and incisive pains in the bones and cartilages of the nose.

Rectum - Obstinate constipation, stool scanty, hard, retained. Diarrhea, stool liquid with flatulence and colic. Prolapsed anus after each stool. Falling of rectum. Dull sticking in rectum. Aroused at night with horrible itching at anus. Pinworms.

Skin - Face and whole body covered with pimples. Fine heat-rash, especially left side of face extending from forehead to throat. Boils on ribs and various parts. Itching in face and various parts of body, better by rubbing. Itching of skin with constipation.

Sleep - Sleepiness in the evening and disturbed sleep at night. Children aroused at night with horrible itching at anus. At night, anxious waking with a start. Anxious dreams. Nervous irritation. Predominance of cold. Sudden convulsions. Illusory sensations.

Stomach - Tingling pain in the pit of the stomach. Bloated stomach. Flushes of heat rising from stomach to head. **Belchings.** Empty risings. Retching and vomiting of watery fluid. Vomiting of glue-like mucus. Anorexia.

Teeth - Drawing, gnawing, tearing pains in teeth (right). Teeth as if being pulled out.

Temperature - Chilliness with cold hands and violent headache with constant desire to urinate, urine turbid. Great heat, particularly in the face with increased secretion of urine.

Vertigo - Vertigo with nausea. Vertigo with headache, better in evening and worse in open air.

COMMENTS - Neuralgic and nervous symptoms. Brachial and sciatic neuralgia, worse while sitting, better by moving about. Catarrhal cough, coming in long paroxysms in evening. Dry suffocative cough in evening and after going to bed. Cough with nosebleed.

Whitish, moist tongue. Sour or foul breath. A large but soft abdomen. Diarrhea of two or three stools in twenty-four hours like grayish paper, sour. Ascarides in rectum, even crawling out during sleep.

Epilepsy with great melancholy or a furious excitable disposition before the attacks and mild and timid after. Sudden attacks, apparently originating in the solar plexus from which flushes of heat arise to the head, induced by cold or fright.

Undulating sensation in the brain (which Clarke also observed in a case of epilepsy benefited by Cimic.), with obscured vision. Chilliness.

Nash noted the case of a hard-working man, over 70, who gradually became unable to work. Weak, stiffness all over, especially right side, arm and leg. Pain in right hip running down leg, worse beginning to move after resting. Could hardly turn over in bed.

Appetite poor, stomach distressed, four or five hours after eating, if he ate more than a very little. Pains in the limbs decidedly worse after every meal. Indg. cured promptly.

Teste tried Indg. in cases of epilepsy, but with little success, except in cases arising from the presence of worms. In cases of worm fever he used it with great effect. The patients were children from ten to twelve years old, lymphatic, apathetic, peevish, who ate a great deal.

Teste also used Indg. with success for semi-liquid diarrhea (three to four stools a day, coming on especially after exercise in a stout old man, frequently given to excess of eating). Chronic catarrh of the bladder. Stricture of urethra after old gonorrhea with Plb. and Sep.

RELATIONS - Antidoted by: Camph., Bry., Nux-v. **Compare:** (1) Cupr. (2) Sulph. - epilepsy, sinking sensation, hot flushes, worm fever. (3) Kali-br. - epilepsy, acne. (4) Cimic. - epilepsy with waving sensation in brain. (5) Rhus-t. - worse by rest, better by motion. (6) Ind., timid, sad, low-spirited, Bufo, vehement or excitable, Bufo - epilepsy. (7) Lyc. - worse in afternoon. (8) Ign. - sad introverted. (9) Bapt. and other Leguminose.

***INDIUM METALLICUM

(Indium Metal)

PHARMACY - ind. Indiummetallicum. Indium metal. At. Wt. 113.7. Trituration of the pure metal. **Historical dose:** Trituration and all potencies.

CLINICAL - Backaches. Chronic fatigue. Depression. Dyspepsia. Foot-sweats. Headaches. Megrim. Migraine. Nausea. Nosebleeds. Paralysis, sphincters. Pollutions. Sexual, perversion. Sore throat. Throat, ulceration. Uvula, enlarged, ulcerated.

HOMEOPATHIC - Indium received its name from the indigo blue line in the spectrum through which its presence was discovered in Zinc-blend. It is a rare metal, nearly like lead in appearance and softness.

Indium was proved under the direction of Bell, and the symptoms mark it out as allied in action to Sei. and Titan, in its general action. Affects the **male sexual sphere**. Diminished power and control, frequency of nocturnal emissions, sexual dreams of perversion. Sexual psychopathy. Seminal emissions.

Restlessness, compelling to move about. Headaches and migraines, with sleepiness and nausea. **Backaches.** Throat conditions, worse in evening, better by eating, drinking cold water. The urine is horribly offensive after standing a short while.

MIND - Depression. Sleepy and irritable with pain in the occipital region. State of indifference. Psychologically exhausted, cannot work. Sexual psychopathy.

Back - Backaches. Stiffness at the nape of the neck, neck and shoulders.

Chest - Burning pain behind the sternum. Pain in the left side of the thorax and towards the left axilla.

Constitutions - Tubercular types.

Ears - Painful pustules on the outer ear. Helix red and feels sharp, needle-like pains.

Eyes - Uncertain sight in the evening. People seem pale or yellow.

Face - Painful suppurating pimples. Corners of mouth cracked and sore (Cund.).

Female - Menses prolonged. Drawing pains in the low abdomen with marked irritability.

Head - Sudden violent or beating headaches, especially in the right occipital region. **Bursting pain in head when straining at stool.** Dull pains in temples and forehead with **nausea**, weakness, **sleepiness**. Pruritus of the scalp with internal head pains.

Kidneys - Horribly offensive smell of urine after standing a short time.

Limbs - Pains in the limbs, especially in left arm. Jerking in the legs. Muscular shuddering. Pain in the muscles, especially in the right ankle, then moving to the left ankle and spreading over the whole foot. Weakness of the legs, feels particularly tired after walking, becomes restless and needs to move again. Toes itch (Agar.).

Lungs - Must breathe deeply.

Male - Drawing pains along spermatic cord. Testicles tender. Testes soft, heavy. Increased sexual desire, nocturnal discharge followed by insufficient erection, premature ejaculation. Emissions too frequent. Diminished power.

Modalities - Better out of doors, in cold air, drinking or washing in cold water. Worse in a warm room, motion, early morning, 3 a.m. to 4 a.m., afternoon, 3 p.m. to 6 p.m. Faintness at 11 a.m.

Mouth - Pharyngeal muco-viscous secretions, sticky and yellow.

Nose - Violent attack of sneezing.

Rectum - Loses control of the anal sphincter when urinating. Headaches during difficult evacuation of the bowel.

Sleep - Hallucinatory dreams.

Stomach - Acrid dyspepsia. Nausea with headaches at breakfast. Weakness in the stomach around 11 a.m.

Throat - Uvula enlarged, ulcerated. Thick, tough mucus in back part of pharynx. Generally worse in evening.

COMMENTS - Depressed. Headaches, violent pain in the head when straining at stool.

Berridge reported the case of a boy, 10, who was constipated five or six years. Stool about once a week, dark and short, sometimes with blood, anus sore after stool. He had to strain much, seizing his thighs with his hands and straightening himself forcibly, the effort makes his face red and the head feels as if it would burst. Ind. in high potencies cured.

RELATIONS - Compare: (1) Sei., Titan. - male sexual organs. (2) Bell, (headache, menses). Aspar. - urine, Sang. - headache, rheumatism. (3) Phos., Nat-c., Sulph. and Zinc. - faintness, 11 a.m., (4) Ferr.- headache, ebullitions, lameness of shoulder muscles. (5) Bruc., Lach., Nux-m., Op.. Stann. and Stry. - Headache with sleepiness. Ind. has nausea as well as sleepiness. (6) In throat symptoms better from eating and drinking. Ind. resembles Esch., Benz-ac., Cist., Lach. (7) Mur-ac. - Adynamic types, red face, dry tongue, cannot urinate without evacuating the rectum. (8) Tub. - Constant need to move about, changing, erratic pains, has to make an effort to urinate during the stool.

REFERENCES - Boericke. Clarke. Julian.

***INDOLUM

(Indol)

PHARMACY - Indol. Indolum. Crystalline compound from Indigo or as a product of putrefaction of proteins.

Historical dose: Trituration and all potencies.

CLINICAL - Auto-intoxication. Constipation. Delusions. Dullness. Fatigue. Headaches. Nervous. **Sleepiness.**

HOMEOPATHIC - Indolum's primary action is to increase the elimination of Indican. Auto-intoxication. Persistent desire to sleep, dull, discontented mental state. Delusions. Nervousness, constant motion of fingers and feet. Intestinal putrefaction.

Food - Great thirst. Hungry sensation after full meal.

Head - Dull occipital and frontal headache in afternoon. Dull sensation over eyes. Eyeballs hot and hurt when moved. Pupils dilated with headache.

Limbs - Very tired and sore in lower limbs. Feet burn. Sore knee joints.

Sleep - Sleepiness. Continuous dreaming. **Rectum** - Constipation.

Stomach - Bloating feeling.

RELATIONS - Compare: (1) Skat.

REFERENCES - Boericke.

***INFLUENZINUM

(Influenza Nosode)

PHARMACY - influ. Influenzinum. Influenza nosode. The nosode of influenza virus of the Asian and common flu. **Historical dose:** All potencies.

CLINICAL - Aching, pain. Anorexia. Bronchitis. Bronchial, asthma. Bronchopneumonia. Cardiac neurosis. Catarrh. **Chills.** Chronic **Colds.** Conjunctivitis. Coryza. Depression. Diarrhea. Encephalitis. Enterocolitis. **Fatigue. Fever.** Hyperthermia. Hypotension. **Influenza.** Laryngitis. Meningitis. Mononucleosis. Otitis. Pharyngitis. Sinusitis. Sycosis. **Weakness.**

HOMEOPATHIC - With many practitioners, Influenzinum has taken the place of Baptisia as the routine remedy in epidemics.

It can be given in the 12c or 30c potency, either in the form of tincture, pills or ten pellets may be dissolved in six ounces of water. Of this a dessert spoonful may be given for a dose. It may be repeated every two hours. This will be found sufficient to control a large proportion of the cases.

Clarke directed his patients that when "**colds**" appear in their family, have those who are unaffected take Ars.

3c three times daily, and have the patients take Infl. 30c every hour or two.

This generally prevents the spread of the trouble and clears up the colds, whether they are influenza or not. Infl. has the ability to develop old troubles and thus it takes a variety of forms in different persons. It need not be expected to cure all cases unaided or indeed to be appropriate to every case.

Influenza. Influenza encephalitis. Enterocolitis of influenza. Diarrhea of influenza. Meningitis. Measles. Weakness and fatigue. General ill feeling with chill, headache, diffused pains. Neurotic, depressive persons. Stiffness. Tendency to hypotension. Hyperthermia. Sycosis. Anorexia.

MIND - Apathy and indifference. Mental dullness. Brain fatigue. **Post-influenza depressive neurosis.** Weak memory.

Abdomen - Gastro-intestinal pain.

Blood - Leucopenia with mononucleosis. **Ears** - Otitis with influenza.

Eyes - Eyes are heavy and sensitive to movements. Stiffness of eyes. Blepharitis. Conjunctivitis of influenza.

Head - Meningitis. Encephalitis with vomiting. Headache of influenza.

Heart - Hypotension. Cardiac neurosis. Weakness of the myocardia.

Limbs - Aches and pains. Rheumatism. Rheumatoid pains during humid and cold weather. Intermittent lameness. Venous stasis of lower limbs. Venous and arterial congestion of the lower limbs. Varicose veins and ulcers (Oscilloc.).

Lungs - Dry painful cough. Bronchial asthma. Bronchitis. Bronchopneumonia of influenza. Sub-acute edema of babies.

Nose - Acute or chronic coryza. Acute and chronic rhino-pharyngitis. Nasal congestion. Coryza of influenza. Sinusitis. Nasal polyps. Chronic atrophic rhinitis.

Rectum - Weakness of the anal sphincter. Weakening diarrhea.

Throat - Pharyngitis. Chronic laryngitis. Stridulous laryngitis of children. Nasal voice. Laryngitis of influenza.

RELATIONS - Compare: (1) Gels., Oscilloc.. (2) Mim-p. - inflammation of the eyes and nasal mucosa. Headache, worse by movement, better while closing eyes. Diarrhea with colic and irritating stools. (3) Galph. - Hypersensitiveness to change of weather, Hypersecretion of nasal and ocular mucous. (4) Luf-op.: fronto-occipital headache. Acute or chronic inflammation of the nasal mucosa. **Compatible with:** Gels., Cimic., Ars., Bell., Bry., Hep., Merc, and many others.

REFERENCES - Boericke. Clarke. Julian.

*****INONOTUS OBLIQUUS**

(Chaga Mushroom)

PHARMACY - inon. Inonotus obliquus. Chaga mushroom. **Historical dose:** All potencies.

CLINICAL - Asthma. Bronchitis. **Cancer.** Chronic fatigue. Diabetes. Hypertension. Influenza. Tuberculosis. Tumors.

HERBAL - Chaga mushroom is a black parasitic fungus produced on the living trunks of mature birch that resembles burnt charcoal. It causes the tree's death in 5-7 years, and in fact, Chaga mushroom is called "birch cancer" in Russia. The shape of the mushroom also resembles that of cancer in the human body. Since the 16th century, Chaga mushroom has been used as a remedy for cancer and diseases of the digestive system. This wood-rotting fungus has been used as a folk medicine in many East European countries including Russia, to treat gastritis, ulcers, tuberculosis (TB) of the bones, and cancer. The inner brown layer closest to the tree is the portion of the fungus most often used.

Medical research has shown Chaga to be effective as an anti-tumor agent. In 1958, scientific studies in Finland and Russia found this mushroom provided an epochal effect in uterine, liver, breast, and gastric cancer, and hypertension and diabetes.

Most often consumed in a hot tea mixture, Chaga has been used as a traditional folk medicine in Russia and Eastern Europe since at least the fifteenth centuries for a variety of diseases, including stomach pain, ulcers, asthma, bronchitis, liver problems, and even cancer.

Chaga is currently enjoying a resurgence as a possible treatment for a wide variety of diseases and health problems, including chronic fatigue syndrome, the flu, stomach problems, and even HIV and certain types of cancer.

Recent studies in the U.S., Russia, and other countries have shown Chaga to have anti-tumor benefits related to the mammary glands and female sex organs. Japanese research not only found similar antiviral activity, but also discovered that Chaga shows activity against HIV (protease inhibition).

COMMENTS - The Chinese Monk Shen Nong proclaimed Chaga as a superior class medicinal herb, for its diverse and complete homeopathic properties, in his work Shen Nong Ben Cao Jin; the first of the three ancient medical books that serve as the foundation of Traditional Chinese Medicine.

Since then, Traditional Chinese Medicine practitioners have applied Chaga as a remedy for viral diseases such as influenza, anti-inflammatory treatment of stomach ulcers, the arrest and reversal of tumor growth, balancing the endocrine system in the treatment of diabetes, anti-oxidant uses in detoxifying the body, and as a daily supplement for the overall balancing of the body's immune system and anti-aging properties increasing longevity of life.

Documented as early as 4600 years ago, ancient Asian folk medicine practitioners relied upon Chaga, a medicinal mushroom, to maintain a healthy life energy balance ("Chi"), preserve youth, promote longevity, and boost the body's immune system to fight viral, bacterial, fungal and parasitic maladies.

As a folk medicine, Chaga was ingested by the local people of the Siberian mountain regions in tea or powder form, inhaled from smoke, and applied to the skin for healing of injury or rash. Indigenous people from that area have been documented to live beyond 100 years of age.

***INSULINUM

(Insulin)

PHARMACY - insulin. Insulinum. Insulin. An aqueous solution of an active principle from the pancreas which affects the sugar metabolism. Triturations. **Historical dose:** All potencies.

CLINICAL - Abscesses. Acidosis. Acne. Bedsores. Boils. Cancer. Carbuncles. Dermatitis. **Diabetes.** Diarrhea. Dysentery. Eczema. Fatigue. Glycosuria. Gout. **Hepatitis.** Hypoglycemia. Insulin, effects. **Liver, enlarged.** Marasmus. Mastoiditis. Otitis. Otorrhea. Pancreas, disorders. Pneumonia. Polyuria. Septicemia. Typhoid. Ulcers. Varicose, ulcers. Weakness.

HOMEOPATHIC - This pancreatic hormone plays an important part in the process of sugar metabolism in the body. Its capacity to burn sugar into carbon dioxide and water, thereby helping the body with fat combustion, has made it very useful in the hands of the allopathic school saving patients from death in cases of diabetic acidosis.

If Insulin, is administered at suitable intervals in diabetes mellitus, the blood sugar is maintained at a normal level and the urine remains free of sugar. Restores the ability to oxidize carbohydrates and to store glycogen in the liver.

It was proved by Dr. William F. Baker, and Dr. S. K. Ghosh of Calcutta. Some use of Insulin, homeopathically has been made by Baker, showing its applicability in acne, carbuncles, and erythema with itching eczema.

Insulin is indicated for persistent cases of skin irritation, boils or varicose ulceration with polyuria. For gouty patients with glycosuria when skin manifestations are persistent, give three times daily after eating.

Dr. Ghose used it in potency for overdoses of insulin, followed by weakness, fatigue and tremulousness with profuse sweating. Patient is debilitated. Asthenia. Emaciation with loose bowels. Craving for sweets.

Chronic intestinal troubles with diarrhea and enlarged liver. Enlarged liver with chronic sepsis or chronic suppurative otitis.

Chronic diarrhea of children with enlarged liver and debility. Infantile liver without jaundice.

Abdomen - Duodenal ulcers. Chronic intestinal troubles with diarrhea and enlarged liver.

Blood - Hypoglycemia. Septicemia.

Constitutions - Broken down constitution from infectious or suppurative diseases.

Ears - Chronic suppurative otitis. Chronic otorrhea and mastoiditis.

Food - Desires sugar and sweets, but aggravated by them.

Liver - Hepatitis. Chronic functional derangement of liver. Enlarged liver associated with many complaints.

Modalities - Worse after typhoid or pneumonia.

Rectum - Chronic diarrhea. Prolonged greenish diarrhea continuing after an attack of dysentery.

Skin - Acute dermatitis with chronic diarrhea and liver trouble. Eczema, allergic eczema. Acne, erythema with itching eczema. Boils and abscesses. Ulcers and suppurative ailments with enlarged liver.

Tongue - Tongue is coated white.

COMMENTS - Dr. Ghose wrote: "But from the dynamic standpoint, it will be observed, that Insulin in potency has even greater utility where glycogenic balance of the liver is disturbed.

"In cases of hepatitis and hepatic enlargement where the liver is embarrassed by long continued toxic process, it has a very great scope. Thus in cases where liver is enlarged towards the end of acute infectious diseases, such as Typhoid, Pneumonia, etc., a few doses of Insulin 30 will restore normal balance and enhance the process of re-generation rapidly."

Chronic intestinal disorder, especially with looseness of bowels with enlarged liver. Chronic otorrhea and mastoiditis in emaciated children where the pus is thin, especially when combined with enlarged liver and chronic diarrhea or as aftereffects of acute infectious diseases.

Ulcers, boils, bed sores, hypopyon as aftereffects of acute infectious diseases with disordered liver. Eczema with chronic liver troubles. Allergic eczema. Suppuration of the scrofulous glands in the neck. General suppuration.

RELATIONS - Compare: (1) Calc-ar., Chin., Phos., Caps.

REFERENCES - Boericke. Ghose.

***INULA HELENIUM

(Scabwort)

PHARMACY - inul. Inulahelenium. Scabwort. Elecampane. N. O. Compositae. Tincture of fresh root dug in autumn of the second year. The juice of the root was proved. **Historical dose:** Tincture and all potencies.

CLINICAL - Backache. Bronchitis. **Cough.** Cramp. Diabetes. Dyspepsia. Dysmenorrhea. **Dry, cough.** Erysipelas. Leucorrhea. Rectum, pain in. Sciatica. Toothache.

HERBAL - Inula is a perennial plant with a stem from three to four feet high, large saw-toothed leaves tapering to a stalk, and large heads of yellow flowers.

The root has an aromatic camphor-like taste due to the presence of a crystalline substance called helenin, allied to the chemical constitution to kreosote. It also contains a quantity of starchy material, inulin, which differs from ordinary starch in being colored yellow by iodine.

The Treasury of Botany noted that elecampane was formerly much used as an aromatic tonic and as a stimulant of all the secreting organs, likewise in coughs, dyspepsia. A popular tradition credits it with the cure of facial erysipelas, and certain symptoms in the provings seem to confirm this.

HOMEOPATHIC - Fischer proved the root juice. Clinical experience added to and confirmed many of the traditional symptoms, including the old reputation of the remedy in coughs.

A pronounced effect was observed in the pelvic organs, pressing and dragging towards the rectum and genitals. **Bearingdown sensation in pelvic organs.** Affects the mucus membranes.

Marked **bronchial symptoms. Violent tickling in larynx, producing a dry cough,** worse lying down, worse at night, larynx

painful. **Dry cough** with constant tickling in throat-pit, difficult breathing and sensation as if hoarseness would occur. Sub-sternal pain. Diabetes.

MIND - Excessive anxiety and trembling of the whole body, chattering of teeth from cold, during menstruation.

Abdomen - Violent motion beneath right hypochondrium, as though something living were moving about. Sticking as with two pins to right of umbilicus. Sensation as if a knife between umbilicus and right groin. Stitches in left side of abdomen towards left groin.

Back - Pain through back and chest, on inspiration. Transient pain in right scapula. Violent backache during menstruation.

Chest - Stitches behind sternum and beneath left seventh and eighth ribs. Throbbing and jerking pain as from suppuration, in middle of chest.

Ears - Dull stitches in left ear, with transient sticking above right eyebrow in evening.

Eyes - Twitching in upper lids. Burning in left eyeball. Swimming before eyes and pressure in temples and forehead.

Face - Left side of face red and hot, a white spot near nose. Flushes of heat, left cheek glowing.

Female - Menses too early and painful. Itching of legs during menses, chattering of teeth from cold during menstruation. Chronic metritis. Moving about in abdomen, stitches in genitals, followed by yellowish leucorrhea. Labor-like pains, urging to stool, dragging in genitals with violent backache.

Head - Rush of blood to head with sleeplessness. Throbbing after eating, pressure in temples and forehead. Jerking, tearing pain in occiput. Headache in right side, afterward in left. Sticking headache in right side. Burning headache in left temple, in a spot as large as a silver dollar in evening.

Kidneys - Urging to urinate ten times in one hour, urine passes by drops. Urine smells of violets (Terebe.).

Limbs - Coldness, shaking in bed, cold, blue hands and nails. Pain in right shoulder and wrist. Tearing jerking in right arm. Upper arms as far as elbows fall asleep. Tearing in left palm, unable to double fingers. Pain in lower limbs, feet and ankles. Tensive drawing in hips. Sticking in right hip. Cramp in calves during sleep.

Lungs - Chronic bronchitis. Difficult breathing with dry cough, constant tickling in throat. Dry cough, worse at night and lying down, larynx painful. Teasing cough with much thick expectoration, with fatigue and weak digestion.

Modalities - Worse from motion, after eating, at night, lying down (except the uterine pain, which compels patient to remain lying).

Mouth - Dryness of mouth with scraping and tickling in throat, swallowing difficult. Pain in decayed teeth, worse

at night.

Nose - Stitches in right side of middle of nose. Sticking, crawling in root of nose, extending to eyebrows.

Rectum - Pressing, dragging towards rectum and genitals, as if substance would come out, occurring repeatedly.

Skin - Itching as from fleas, violent on legs during menses, with burning after scratching in bed.

Sleep - Sleep restless, starting and crying out. Dreams are lascivious, disgusting.

Stomach - Sticking pain in epigastric region. Twisting as of a ball in epigastric region, above umbilicus. Nausea in morning coming from stomach.

Throat - Violent tickling in larynx, producing dry cough. Palliative in tubercular laryngitis.

Vertigo - Vertigo on stooping. Confusion of head with nausea in evening.

COMMENTS - Headache and labor-like pains. Sensation as of something alive moving about internally, also twisting as of a ball in umbilical region, as if a substance would come out of rectum and genitals.

Sensation as though some one was poking him with a finger in various parts of the body, especially in diaphragm, so painful he awoke with clenched teeth. Numerous sticking pains as with pins or a knife. The majority of the symptoms occurred on the right side.

RELATIONS - Compare: (1) Croe., Ign. (2) Arum-d. - loose cough worse at night on lying down. (3) Sep. - forcing in genitals and rectum. (4) Croc. and Thuja. - sensation of something alive. (5) Tereb. - urine smelling of violets. (6) Ign. - cough worse lying down and in evening. (7) Sulph. Psor. - worse at night in bed.

REFERENCES - Boericke. Clarke.

*****IODOFORMUM**

(Iodoform)

PHARMACY - iodof. Iodoformum. Iodoform. Trituration. Solution. **Historical dose:** Triturations, tincture and all potencies, second trituration. Three grains on the back of the tongue will relieve attack of asthmatic breathing.

CLINICAL - Breast, pains. Chancre. **Cholera, infantum.** Coughs. Delirium. Diplopia. Diarrhea. Eczema. Enteric, fever. Eye, disorders. Headaches. Heart, disorders. Hydrocephalus. Locomotor, ataxia. Mania. **Meningitis.** Paralysis. **Tuberculosis.**

HOMEOPATHIC - Iodof. was proved by Underwood and Haines. The proving symptoms were supplemented with recorded effects observed on patients treated with it in old-school practice, as well as cases of fatal poisoning.

In some instances, the symptoms of acute meningitis have been produced. Based on this, W. J. Martin cured two cases of tubercular meningitis with Iodof. 2x. He put 4 grains in half a tumbler of water and gave a teaspoonful every two hours.

One case was that of a child, fourteen months old, the symptoms including sleeping too much, constant movement of the mouth as though chewing or sucking, boring head back and rolling it from side to side. Had been ill twelve days.

Violent convulsions followed, face distorted, eyes squinting, head retracted, neck and back stiffness. Automatic movement of one arm and leg. The child was expected to die that night, but Iodof. was given and improvement set in. Fever abated, and in one week all symptoms had passed away.

Tuberculous conditions, especially tubercular meningitis (Bac.). Chronic diarrhea, stools, greenish, watery, undigested with irritable temper, due to suspected tuberculosis. Sub-acute and chronic diarrhea of children.

Failed sight due to retro-bulbar neuritis, central scotoma, partial atrophy of the optic disc. Pupils dilated, contract unequally. Cannot stand or walk with eyes closed. Sleep interrupted by sighing and cries. Mesenteric glands enlarged.

MIND - Apathetic. Irritable. Weak-minded. Forgetful. Amnesia for recent events. Did not recognize persons. Nightly restlessness. Melancholia. Excitement. Anguish. Fear of death, bemoans her approaching death. Drowsiness developing into perfect coma.

Hallucinations of sight and hearing, delusions. Screams out, leaves her bed but falls down after walking a few steps. Talks nonsense. Excessive talkativeness. Sees double. Dresses himself in strange costumes. Imagined he had the best tenor voice in the world and proceeded to hire a large concert hall. **Abdomen** - Flatulent colic. Rumbling in abdomen. Scaphoid abdomen. Abdomen distended, mesenteric glands enlarged. Cutting in abdomen. Warmth in abdomen. Right inguinal region, sharp pain, cutting, with desire for stool, sore pain.

Back - Contraction of muscles of neck. Bruised sensation in nape. Spine sore, does not wish it touched. Pain along spine, along right side of dorsal vertebrae, in lumbar region, with weakness and straining. Sharp pain in angle of scapula.

Chest - Sore pain in apex of right lung. Feeling of a weight on chest. Pain in left breast like a hand grasping

at the base of the heart.

Ears - Sticking in right ear, sticking, then fullness. Ears feeling dry and feverish, and full. Neuralgic pains in left ear. Dull hearing.

Eyes - Pupils, dilated, contract unequally, react poorly. Eyes bloodshot and painful. Sensitive to light. Vision double. Failing sight due to retro-bulbar neuritis, central scotoma-partial atrophy of optic disc.

Face - Drawing, pressing pains in malar- bones, in zygomatic muscles, worse motion and bending forward. Stiffness of zygomatic muscles. Twitching of facial muscles. Aching in right lower jaw. Lips and throat dry, lips dry and stinging. **Head - Meningitis**. Sharp, neuralgic pain.

Head feels heavy, as if it could not be lifted from the pillow. Stitching in temples. Frontal pain, worse from descending stairs. Headache on waking. Itching of occiput.

Heart - Sticking through heart.

Kidneys - Urine very yellow, smelling like saffron. Albumen and casts in urine.

Limbs - Legs weak. Weakness of knees when going upstairs. Cannot stand and walk with eyes closed.

Lungs - Cough and wheezing on going to bed. Cough from the dryness of throat. Hemoptysis. Asthmatic breathing. Respiration irregular, deep inspirations alternating with apnea. Smothering sensation.

Modalities - Better by uncovering. Worse at night, warmth, touch, motion, riding in cars.

Mouth - Metallic taste. Sharp pain in upper teeth. Aching in teeth. Teeth feel sore and too long.

Perspiration - Sweats easily from motion. Sweats on head.

Rectum - Cholera infantum. Chronic diarrhea. **Stools greenish, watery, undigested**. Diarrhea with suspected tuberculosis. Stool delayed, with feeling as if anus were drawn up into rectum.

Skin - Red rash over loins, back of arms and elbows. Fine eruption of macules, papules and vesicles. Diffuse redness with edema. Horrible irritation all over body.

Sleep - Sleepiness. Very drowsy. Sleep interrupted by sighing and cries. Jerks and shocks in nerves when trying to sleep. Wakefulness. Restless sleep, full of dreams. Confused dreams, of accidents.

Stomach - Nausea, at times.

Temperature - Susceptible to hot weather. Heat at night, keeps laying off covers. Temperature may be elevated to 104 F° or more.

Throat - Aphonic disturbance of voice. Stitching in right side of throat. Dryness of throat, with bitter taste, dryness with rawness on swallowing.

Vertigo - Sudden giddiness. Confusion with nausea. Feeling as if he had been intoxicated. Vertigo on sitting up in bed.

COMMENTS - A boy of 10 had Iodoform thickly applied to a point on an amputated limb at which the stitches did not hold well. On the third day he was sleepy after a restless night with frequent sighing. The dressing was renewed and on the same day, not having eaten anything since the day before, he had several attacks of vomiting, bilious and easy.

All these symptoms increased during the next few days. The child was constipated and seemed to suffer from his head. Nights very restless, sleep interrupted by sighing and cries like those of meningitis. Drowsiness during the day. Pupils unequally contracted, reacted slowly to light. He was perfectly indifferent and did not recognize those about him.

Later, nightly agitation was replaced by tranquil delirium. Pulse rapid and small. On the sixth day the dressing was changed, on the seventh day the symptoms began to abate and disappeared after the ninth.

In one case of poisoning, a woman, 26 who had taken 42 grains of Iodoform in eighty days, suddenly after a hot bath felt very dizzy and weak in the legs, felt unable to knit and diplopia set in. Symptoms of mania followed, weakness, staggering on closing the eyes. For twelve days she was unable to walk alone.

In one case, that of a soldier who had Iodoform applied to his arm, a scarlatina-like rash appeared, spreading from arm over the body and ending in desquamation.

Scarlatina was actually diagnosed, but some doubt was raised and suspicion being thrown on the Iodoform, a piece of silver was placed in the mouth. Immediately a garlic taste was experienced, showing the presence of Iodoform, which other tests confirmed.

In cases of medicinal poisoning, the symptoms sometimes come speedily and sometimes only after a long period of medication. Symptoms set in with great suddenness and intensity. Symptoms are worse from heat and damp.

Depression. Marked drowsiness. Malaise, loss of strength and of appetite. Occasional vomiting. Moderate fever, rapid pulse. Eczema.

RELATIONS-Antidoted by: Hep., Sang. (skin). **Compare:** (1) Iod., Kali-i., Merc.

***IODUM PURUM

(Iodine)

PHARMACY - iod. Iodum purum. Iodine. At. Wt. 126.53. Anelement. Halogens. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Adenoids. Appetite, disordered. Arthritis, deformans. Atrophy. Brain, atrophy. Breast, disorders. Cancer. Cachexia. Chilblains. Chyluria. Constipation. Coryza. Cough. Croup. **Debility.** Diabetes. Diarrhea. **Emaciation.** Enteric, fever. Galactorrhea. **Gland, disorders. Goiter.** Headaches. Heart, disorders, hypertrophy. Hemorrhoids. Hiccough. Hydrocephalus. **Hyperactive.** Infertility. Iritis. Jaundice. Joints, disorders. Laryngitis. Leucorrhea. Liver, disorders. Lymphatic, swellings. **Malnutrition.** Melancholy. **Metabolism, disorders.** Myocarditis. Ovaries, disorders. Ozaena. **Plague. Pneumonia.** Prostate gland, enlarged. **Restlessness.** Rheumatic, gout. Rheumatism. Salivation. Scars. Seborrhea. Synovitis. Syphilis. Tabes mesenterica. Tachycardia. Throat, disorders. **Thyroid, disorders.** Tonsils, disorders. Tremors. Tuberculosis. Uterus, disorders. Voice, disorders. Vomiting. **Weight, loss.** Worms.

HOMEOPATHIC - Ioduretted solution of Kali-i. is said to expels tapeworms dead. Iodine tincture is an allopathic skin disinfectant. Locally, it is an effective and easily managed microbicide. Ideal agent to keep wounds clean and disinfected (Calen.). For gunshot wounds (Hyper.), and compound fractures. Bites of insects, reptiles, etc. Great absorption action, rapid and intense absorption. Useful as a paint in all kinds of swellings, particularly swollen glands. Given internally, the absorbents are stimulated to fresh activity; muscles, fat. tissues and glands waste away and general emaciation is the result. New growths and hyperplasia are affected before the normal tissues.

Especially affects all glandular structures, respiratory organs, and the circulatory system. **Glands,** thyroid, testes, mesenteric and mammary, first **swell, hard and heavy,** then dwindle, atrophy. **Goiter.** Facial paralysis or epilepsy from suppression of goiter. Atrophy or induration of testes, ovaries, uterus. **Plague. Adenoid vegetations.**

Rapid metabolism. Loses flesh, yet hungry and eating well (Abrot.). **Emaciation, weight loss** with good appetite, glandular atrophy. Hungry with much thirst. Better after eating. **Great debility, the slightest effort induces perspiration.**

Wasting diseases of scrofulous patients. Patients are generally exceedingly thin, dark complexioned. enlarged lymphatic glands, with a voracious appetite but remains thin. Tubercular type. **Feels always too hot,** craves cold air.

Capillary congestion followed by ecchy- mosis, edema, hemorrhages and nutritive disturbances. Abnormal vaso-constriction. Acute disorders of the respiratory organs. **Pneumonia,** rapid extension. Tuberculosis. Acute catarrh of all mucus membranes.

Arthritis deformans. Acts **prominently on the connective tissue. Acute exacerbation of chronic inflammations.** Trembling of limbs or body. Pancreatic diseases. Lead poisoning. Sluggish vital reaction. Chronicity.

MIND -Anxiety when quiet. Anxiety about the present, no reference to the future. Anxiety during cough. **Intolerably cross and restless.** excited, worse warm room. Hurried while walking. Feels better if busy. Inclined to move about, not permitting to sit or sleep, but motion aggravates and exhausts. Desire to travel. Forgetful. Constantly feels as if he had forgotten something, and doesn't know what. Fixed, immovable thoughts. Does not understand why he has done something. Tendency to do some strange things without any cause. **Impulsive behavior.** Sudden impulse to run and do violence, to himself or others, but worse motion, which exhausts. Impulse to kill somebody, himself.

Anxious and worried if he does not eat (Cina., Sulph.). Anxiety as if going crazy.

Anxiety better eating, when hungry, better walking in open air. Fear of people, of physicians, when anyone comes near. Apprehends an accident from every trifle. Fear of evil. Fear with overcarefulness.

Melancholy. Depression, dejected with tendency to weep. Suicidal tendency. Irritability, with sadness. Disappointed love. Aversion to company, to strangers. Shuns everyone. Can't bear to be looked at. Cheers up in open air. Heart palpitations when thinking of real or imaginary wrongs. Thinks he is well.

Abdomen - Swelling and distension, or emaciation and sinking in of abdomen. Cutting pain in abdomen. Trembling in abdomen. Incarcerated flatulence. Pancreatic disease. Region of spleen very painful. Enlarged spleen, with salivation. Liver and spleen sore and enlarged. Violent throbbing of aorta abdominalis. Mesenteric glands enlarged. Swelling of inguinal glands.

Back - Back pains like rheumatism. Sharp pain in small of back. Pain in sacrum and coccyx. Spinal complaints with gressus vaccinus. Large boil between scapulae, with gangrene of legs. Swelling and induration of cervical glands. Swelling of the neck when speaking, grows thick. Yellow spots on neck. Redness on neck and chest as if ecchylosed.

Breasts - Breasts hyperesthesia. **Dwindling of breasts.** Atrophy of breast glands. Breasts heavy, as if would fall. Nodosities in the skin of breasts with black points. Tumors in breast. Excessive flow of very thin, watery milk with great weakness and rapid emaciation. Suppression of milk with atrophy and relaxation of breasts.

Causations - Ill effects of nervous shock, disappointed love.

Chest - Burning, stinging tension in skin of chest. Sharp, quick, piercing pains. Tickling all over chest. Raw sensation in bronchi. Great weakness about chest. Difficult expansion of chest. Clavicular region, on right side, sunken. Pleuritic effusions. Swelling of axillary glands.

Constitutions - Suited to persons of dark

Iodum purum hair and complexion, dark, yellow, tawny skin. Over-grown boys with weak chest and aged persons.

Cough - Short, dry, irritating cough, worse at night, followed in morning by sweat. Dry cough in morning. Cough from tickling in larynx. Cough as from a feather in throat. Croupy cough with difficult respiration, wheezing. Wheezing, metallic cough. Cough from every effort to expand chest. Cough causing glowing heat in head and face. Suffocating cough can hardly get her breath. Can't lie down from cough, sits bent forward.

Ears - Sensitiveness to noise. Reverberations in head. Buzzing. Hearing first sensitive, then dull. Catarrhal deafness. **Eustachian deafness.** Chronic deafness with adhesions in the middle ear. Indolent ulcers of membrana tympani.

Eyes - Pain in eyes. Protrusion of eyes. Dark rings. Dirty yellowish color of sclera. Staring with wide open eyes. Pupil dilated. Constant motion of eyeballs. Convulsive movements and quivering of the eyes, of lower eyelids. Trembling of lids. Edematous swelling of lids. Eyelids seem to be retracted. **Acute dacryocystitis.** Acute inflammation of lachrymal duct. Smarting pain, as from excoriation. Violent, profuse lachrymation.

Face - Face pale, sometimes yellowish or greenish, alternating with red. Withered, brownish, sallow or dusky. Bluish lips. Coldness of face in fleshy children. Miserable look. Twitching of facial muscles. Facial paralysis after reduction of goiter. Swollen submaxillary glands. Suppurating ulcer on left cheek.

Female - Chronic amenorrhea. Sudden appearance of menses, very profuse and with severe abdominal pains. Great weakness during menses (Alum., Carban., Cocc.). Menses irregular. Menses, brown, renewed after every stool. Violent dysmenorrhea with very scanty discharge. Uterine hemorrhage. Metrorrhagia, with acute pain in breasts. Leucorrhea, acrid, eroding thighs and linen, worse during menses. Thin, yellow leucorrhoea in scrofulous women, with induration and

swelling of os uteri, and swelling of vagina. Leucorrhea alternating with cough. **Ovaritis with leucorrhea** (Apis., Bell., Lach.). Ovarian cysts. Dropsical swelling of ovaries with pressing down toward genitals. Great sensitiveness of right ovarian region during or after menses. **Wedge-like pain from ovary to uterus.** Miscarriage. Sterility from atrophy of ovaries and breasts. Cancerous degeneration at neck of uterus.

Food - Variable appetite. **Ravenous hunger with great thirst.** Loses flesh, yet hungry and eating well (Abrot.). Only feels well while eating in any diseased condition. Gets anxious or worried if he does not eat. Food doesn't nourish or strengthen. Desire for meat, spirituous liquors, acid things. Drinking cold milk helps constipation. Milk causes vomiting. Heartburn after indigestible food.

Head - Dull pressure in frontal sinuses, during coryza. Headache at root of nose and frontal sinus. Reverberations in head. **Throbbing in head** and all over body. Feeling of a tight band. **Rush of blood to head.** Headache so violent it almost makes him crazy. Chronic, congestive headache of elderly people (Phos.). Headache of elderly people, worse in warm air, fatigue, walking fast, riding in car. Brain as if stirred around with a spoon. Atrophy of brain. Apoplexy. Falling off of hair. Scald head.

Heart - Great precordial anxiety, obliging him to constantly change his position. Violent heart action. Feeling of vibration or purring over heart. Feels as if squeezed by an iron hand (Cact.), followed by great weakness and faintness. Myocarditis, painful compression around heart. Tachycardia. Pericarditis in complication with pneumonia. Mitral insufficiency. Dilatation of heart, after scarlatina. Palpitations, with faintness, worse least exertion, warm bath, better cold bath. Intermittent action of heart. Pulsation in large arterial trunks. Pulse rapid, small, weak, tumultuous, irregular, large, hard and accelerated.

Kidneys - Obstinate retention of **urine.** Stoppage of urine, or it flows, stops, and flows again. Stricture of urethra. Uremia. Urination frequent and copious. Incontinence in old people. Urine dark, thick, ammoniacal. Urine, dark, yellowgreen (Bov.), sediment like red pepper. Urine milky with variegated cuticle on its surface. Milky white fluid runs from urethra after stool.

Limbs - Trembling and weariness in limbs and debility. Pulsation in large arterial trunks. Chronic arthritic affections, stiff and enlarged joints. **Joints inflamed and painful.** Synovitis. **Rheumatic pain in joints.** Rheumatic pains, nightly pains in joints and bones. Constrictive sensations, white swellings. Gonorrheal rheumatism. Rheumatism of nape and upper limbs. Cold hands and feet. Subtulus tendinum of hands and feet. Back of hands, brown, as if swollen, painful when turning hand, not when closing fingers. Acrid sweat of

feet (Sil.). Edema of the feet. Painful corns.

Liver - Pains in region of liver with jaundice, emaciation. Hepatitis, with fever, dry tongue, restlessness, etc. Jaundice, eyes, skin, nails yellow. Cirrhosis of liver. Liver and spleen sore and enlarged.

Lungs - Asthma, breathes heavily when quiet. Hay asthma. Shortness of breath at least exertion or talking. Inspiration difficult. **Raw and tickling feeling provoking a dry cough.** Difficult expansion of chest, blood-streaked sputum internal dry heat, external coldness. Pleuritis effusion. **Pneumonia.** Right-sided pneumonia with high temperature. Hepatization spreads rapidly with persistent high temperature, absence of pain in spite of great involvement, worse warmth, craves cool air. **Croupy cough with difficult respiration, wheezy.** Croup in scrofulous children with dark hair and eyes. Dry, morning cough from tickling in larynx. **Cold extends downwards** from head to throat and bronchials. Cough is worse indoors in warm, wet weather and when lying on back. Large quantities of transparent mucus. Tough, sweetish, yellow, tasteless mucus. Frequently blood-streaked

mucus, with cough. Gluey, rusty yellow expectoration, mingled with blood streaks, dislodged with difficulty and sticks fast to handkerchief.

Male - Testicles swollen and indurated. Painless swelling of testicles with offensive sweat. Offensive sweating of genitals. **Orchitis.** Hydrocele. Sarcocoele. Twisting pain in spermatic cord. Senile hypertrophy and induration of prostate. Prostate gland swollen and indurated. Incontinence in old men with prostatic enlargement. Atrophy of testes with loss of sexual power. Hypertrophy of testicles, with sexual excitement.

Modalities - **Better from cold, air,** walking about in open air, bathing, eating. Worse sitting up, ascending, exertion, touch, pressure, right side. Worse from warmth, **heat of room,** wrapping up, rest, night, when quiet in warmth, talking, fasting. Worse during certain moon phases.

Mouth - Offensive odor from mouth. Profuse, fetid, soapy, sweet saliva. Metallic, salty, soapy, sour taste, with purulent stools. Mouth filled with mucus on waking in morning, with putrid taste, not better washing mouth with water. Aphthae with putrid smell and profuse, fetid salivation. Foul ulcers and salivation. Glands on inside of cheeks intensely painful as if sharp vinegar in mouth. Little blisters on gums. Gums loose and bleed easily.

Nose - Red and swollen. Profuse, sudden sneezing with dripping of hot water. **Nasal catarrh thin, excoriating.** Sneezing with sudden, violent influenza. Acute influenzas with hot, watery discharge, pain at root of nose and over frontal sinuses. Dry coryza becomes fluent in open air. **Fluent, hot coryza** with general heat of skin. Blowing of much yellow mucus from nose. Chronic fetid discharge. Discharge of mucus from posterior nares. Pain at the root of the nose and frontal sinuses. Nose stopped up. **Acute nasal engorgement with high blood pressure.** Descending colds. Tendency to ulceration. Nosebleeds. Loss of smell. Alae nasi as if spread wide apart.

Perspiration - Debilitating, sour-smelling sweats. Cold, viscid sweat. Sweats easily. Sweats with inclination to uncover. Profuse night sweats with great emaciation and debility. Sweats, better in early morning.

Rectum - Burning and itching in anus. Hemorrhoids protrude and burn, worse heat. Constipation with ineffectual urging, better by drinking cold milk. Constipation alternating with diarrhea (Ant-c.). **Chronic diarrhea of an exhausting character.** Chronic morning diarrhea of emaciated, scrofulous children. Fatty diarrhea from pancreatic affections. Dysenteric mucus stools without feces. Stools, whitish, frothy, whey-like, fatty, cheesy or lenteric, pancreatic disorders. Stools of watery, foaming, whitish mucus. Stools hard, knotting, dark-colored, blackish. Hemorrhage at every stool.

Skin - Clammy, moist, hot, dry, dirty, skin. Yellow and withered skin. Brown spots on skin. Skin turns brown in Addison's disease. Thickening of epidermis. Nodosities on skin. Tendency to papulae, small boils and abscesses. Acne. Urticaria. Impetigo scrofulosa. Herpes. Ringworm. Fungus articularis after measles. Syphilis with ulceration of skin. Bleeding ulcers. Ulcers with copious pus, bloody and corroding. Anasarca of cardiac disease. Itching and pimples in old scars. **Scars break open.** Glands enlarged.

Sleep - Restlessness, prevents sleep. Sleeplessness after midnight. Restless sleep with vivid or anxious dreams. Dreams of eating.

Stomach - Gastric derangement with constipation. Pulsation, throbbing in the pit of the stomach. Bitter taste to solid food, not drinks. Hiccough. Sour eructations with burning. Empty belchings, as if every particle of food were turned into gas. Sharp pains in stomach. Nausea, with spasmodic pain in stomach. Vomiting of bile with violent pain in stomach. Vomiting of first water, then food. Vomit tasting salty, oily. Vomiting greasy substances.

Teeth - Gums swollen, red, inflamed, softening, receding from teeth. Gums loose and bleed easily. Absorption of gums and alveolar processes. Small ash-colored ulcers on gums. Teeth yellow and covered with mucus in morning.

Temperature - Shaking chilliness, in warm room. Cold chills run up back. Hands, nose, feet icy cold. Cold feet the whole night. Chill alternating with heat. Flushes of heat all over the body, heat waves to head. Marked fever, restlessness, red cheeks, apathetic. Hyperpyrexia or external coldness with anxiety or stupor. Hectic

fever. Internal heat, with coldness of skin. Heat with inclination to uncover.

Throat - Great hoarseness or complete aphonia. Constriction, impeding deglutition. Burning and scraping in throat. Raw and tickling feeling provoking a dry cough. Uvula swollen. Edema of glottis. Larynx feels constricted. **Pain in larynx.** Laryngitis with painful roughness, worse during cough. Child grasps throat when coughing (Samb.). **Croup caused by long-continued damp weather.** Ulcers in throat, with swelling of glands of neck. Enlargement of tonsils and of glands of neck. Submaxillary glands swollen. Hypertrophy of thyroid gland. Goiter, hard with sensation of constriction. Diphtheria. Rough voice. Voice has a deep, hoarse, rough sound, becoming continually deeper.

Tongue - Tongue covered with thick brown, leather-like coating. Tongue brown in center, white at edges. Tongue moist, with mucus streak at sides. Tongue, hypertrophied, painful, nodular or fissured. Sweetish taste on tip of tongue.

Vertigo - Vertigo, worse from stooping, in warm room. Vertigo on active exertion. Vertigo with throbbing headache, with throbbing all over body. Rising aggravates, and causes faintness. Confusion in head, with aversion to earnest work. Very weak and tremulous.

Vision - Obscured vision like a veil before eyes. Optical illusions in bright colors. Small sparks, while sewing. Flimmering. Diplopia.

COMMENTS - Scrofulous and syphilitic indurations, effusions, tumors and goiters. Affinity for the glands and thyroid. Hypertrophy of the glands, and emaciation of the body. Hyperthyroidism. Goiters of the thyroid, exophthalmic goiter (Grave's disease), where the eyes bulge out. Indurated goiters, thyroidcysts, swollen thyroid. Facial paralysis and epilepsy, following suppression of goiter.

Tumors with keynote hardness and atrophy. Emaciation or enlargement of the glands. Hyperactivity with swollen glands. Affinity for salivary glands and pancreas, especially when there is a diarrhea of milky, whey-like stools.

Indurations or atrophy of testes, ovaries and uterus. Ovarian, uterine and cervical cancer. Atrophy of the breasts. Characteristic one breast larger than the other. Failure to thrive in infants with emaciation and swollen glands, always hungry. Emaciation of single parts.

Keynote ravenous eating, yet emaciation. Increases or decreases appetite. Severe hypoglycemia. Canine hunger. Severe ranges of blood sugar, with erratic, manic behavior. Can get violent and angry when hungry. Burning pains, better eating.

Produces atrophy of nerve and brain tissue, as well as of other tissues. Acute hydrocephalus. Pleuritic effusions. Tubercular disease, tabes mesenterica, pulmonary tuberculosis, tuberculosis of rapidly-growing young people, thin and dark.

Pneumonia and tubercular disorders with lung consolidation. Dyspnea, cough with blood-streaked expectoration, tickling all over chest, weakness and emaciation. Symptoms worse in a warm room. Croup or for a croupy cough (Spong., Brom.).

Heart disorders. Palpitation from the slightest cause, like lightning. Sensation as if being squeezed. Hypertrophy. With the heart symptoms there is a "gone," exhausted feeling and the patient is scarcely able to breathe or walk.

Excessive weakness. Nervousness, restlessness, twitching, subsultus tendinum. Sense of trembling in inner parts. Fainting on going upstairs.

Vertigo with throbbing in the head, agitated, vivid dreams and restless sleep. Nocturnal sweat, pulse quick, small, and hard.

Rheumatism. Growth defects, curvature of bones, in children's ailments (follows Calc. well). Characteristic hot-bloodedness. Sensitive to heat.

Irritable, cross. Anxious, apprehensive. Extremely restless, hurried, must move about. Tearful and sad. Shuns persons. Effects of amorousness and disappointed love. Averse to all intellectual labor.

Excessive mental excitement. Panic attacks. Irresistible impulse to run. Feels she will fall if she walks. May be useful for AIDS when there is psychosis with swollen glands and emaciation. Impulse to murder.

Clarke saw it given with excellent effect in the lower potencies when swollen and deformed joints have been left behind after an attack of acute rheumatism.

He used it with excellent effect in the case of a young woman who had a nervous shock and had lost all appetite and desire to live. She was much emaciated and had quietly made up her mind to starve herself to death.

Clarke gave five drops of Iod. 3x in a wineglass of water half an hour before meal-times and her appetite returned with such vigor she could not choose but eat and was soon restored to a normal mental and bodily state.

c. S. McKay noticed lumbrici passed by an infant who had tasted iodine accidentally and used the

experience in another case, giving a dilute solution (one part of the tincture to three of water of this three drops every three hours) and produced the expulsion of lumbrici when Sant, had completely failed.

Grimmer wrote that when it is indicated it cures cancer of the breast and uterus.

Nash noted that Iod. is one of the remedies affected by the moon's changes. In cases of goiter where it is indicated, he gave a powder of Iod. 100.000c. every night for four nights after the full moon.

RELATIONS - It antidotes: Merc. **Follows well:** Merc., Hep. (croup), Ars. **Followed well by:** Arg-n., Calc., Merc. Phos., Puls. **Complementary:** Lyc., Bad. **Compare:** (1) Thyr., Hep., Merc., Phos. (2) Abrot., Nat-m., Sanie., Tub. (3) Brom, has light hair and complexion, Iod. dark. (4) Bor. - carrion-like odor of ulcers. (5) Chlor., Nat-m. - ravenous appetite yet gets thing - Nat. m. especially about the neck. (6) Kali-i. - talkative as if from alcohol. (7) Bar-c. - tabes mesenterica, extreme hunger, emaciates, talkative, averse to strangers, Bar-c. suited to dwarfish persons, has not the intolerable crossness of Iod., which is worse than that of Ant-c. (8) Alum. - apprehensive, fears. (9) Apis - in joint effusions, sensitiveness, hydrocephalus. (10) Cact. and Spig. (11) Hydr. - uterine affections.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***IPECACUANHA

(Ipecac Root)

PHARMACY - ip. Ipecacuanha. Ipec root. Cephaelis ipecacuanha. Psychotria ipecacuanha. Uragoga ipecacuanha. N. O. Rubiaceae. Tincture and trituration of the dried root. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Anemia. Anorexia. Asthma. Bronchitis. Catarrh. Chills. Cholera. Cholera, infantum. Colic. Convulsions. **Coughs. Cramps.** Cyanosis. Deafness. Diarrhea. Drug, addictions. **Drug, poisoning.** Dyspepsia. **Dyspnea. Dysentery.** Enteric, fever. Eyes, disorders. Fever. **Food, poisoning.** Gallstone, colic. Gastric, ulcer. Gastritis. **Gastroenteritis.** Hematemesis. **Hemorrhages. Hemorrhoids. Hemoptysis.** Hysteria. Indigestion. Intermittent, fever. Menstruation, disorders. **Migraine.** Miscarriage. **Morning, sickness. Nausea.** Nosebleeds. **Opium, habit.** Opisthotonos. Pityriasis. Pneumonia. **Poisonings.** Pregnancy, disorders. Remittent, fever. Salivation. Spasms. **Stomach, disorders.** Tetanus. Toothache. Tuberculosis. **Uterine, hemorrhage. Vomiting. Whooping, cough.** Worm fever. Yellow fever.

HERBAL - Ipecac is likely to be of help wherever ailments are associated with the presence of constant nausea. Ipecacuanha wine has a well-known emetic effect. Mixed with oil, powdered ipecac has been used to vesicate the skin and, diluted, the tincture is used for the bites of insects, bee and wasp-stings.

In material doses, it produces violent irritation of the skin and, between the acts of vomiting, an uncontrollable desire to scratch.

HOMEOPATHIC - Persistent nausea and vomiting. Profuse salivation with nausea. Constant desire to vomit. Disgust for food, empty vomiting, vomiting of bile or blood. Not better by vomiting. Immediately after vomiting, instead of relief, there is the desire to vomit again. Characteristic feeling "as if the stomach were hanging down relaxed." Tongue is clean, or not very dirty.

Affinity for the pneumo-gastric nerve, producing gastro-intestinal disturbances and respiratory disorders with **continuous nausea.** Nausea and shortness of breath usually accompany most of the complaints. **Bright red, gushing hemorrhages with nausea.** Discharges are foamy and profuse.

Spasmodic disorders. Opisthotonos and emprosthotonos. Body rigid, stretched out, followed by spasmodic jerking of arms towards each other. Awkward, stumbles against everything. Tetanic spasms from swallowing tobacco. Infantile convulsions. Convulsions in whooping cough from suppressed exanthema from indigestible food.

Oversensitive to heat and cold. Faints suddenly in summer or hot room. **Morphine or heroin addiction** (Aven.). Especially indicated in fat children and adults, who are feeble and catch cold in relaxing atmosphere, warm, moist weather.

MIND - Mental depression. Sad, morose. Dejected mood. Peevish, irritable, scornful mood. Impatient, fretful. Full of desires, but do not know what they want. Hard to please. Holds everything in contempt. Disgust with everything. Haughty. Censorious, critical. Intolerance of noise.

Wrapped in thought, taciturn. Moaning and sighing with the fever. **Anxiety during fever.** Restlessness during the fever. Awkward and stumbles against everything. Shrieking before convulsions. Child cries and screams violently and incessantly.

Delusion he is unfortunate. Hypochondriasis. Disposition to slander. Ailments from anger, mortification, vexation and reserved displeasure. Irrascible, restless, angry in suddenly appearing spells.

Abdomen - Cramps with nausea and vomiting. Flatulent colic with frequent loose stools. Colic of children with diarrhea, restlessness, screaming and tossing about. Cold drinks or ice cream causes colic. Abdominal

colic after sour or unripe fruit, beer, etc. Clawing pains as from a hand clawing intestines. **Cutting pain worse around the navel.** Inguinal hernia. Gripping, drawing or cutting pain about the navel. Pinching pain. Sharp pain from navel to uterus. Diaphragm, as if pressed between two stones.

Back - Tetanic spasms of back which bends the back backwards or forwards. Pain in back, during urination. Shooting from kidney region into thighs. Cramps between scapulae during motion.

Causations - Ill effects of vexation, reserved displeasure. Injuries, loss of blood, suppressed eruptions. Morphine, opium and heroin addictions. Quinine. **Foodpoison- ing.** Indigestible food, rich food, pork, pastry, fruits, candy, ice cream.

Chest - Constant constriction in chest and larynx, worse least motion. Chest seems full of phlegm, but does not yield to coughing.

Constitutions - Suited to stout persons of lax tissue, to fair people, to women and children, to emphysematous persons, to persons who have a history of nosebleed or other blood loss. Indicated in fat children and adults who are feeble and catch cold in warm wet weather.

Cough - Suffocative, paroxysmal cough. **Cough incessant and violent with every breath. Cough with nausea and vomiting,** or vomiting without nausea. Dry cough caused by tickling in upper part of larynx. Dry, spasmodic cough, after coryza. Cough producing sonorous and bubbling rales. Suffocative, strangling cough with much mucus accumulated in bronchia. **Henjoptysis.** Cough with spitting of blood, worse from least effort. Cough during fever. Whooping cough with nosebleed and bleeding from mouth. Child becomes stiff and blue or red in face, stiffens out with cough. Cough in teething children. Dry, spasmodic coughs of elderly persons, coming on in fits.

Ears - Cannot endure the least noise. Coldness and chilliness of the ears, during the fever.

Eyes - Inflamed, red eyes. Red circle around cornea. Yellow sclera. Dilated pupils. Eyes fixed and turned to right. Conjunctivitis. Ulcers of cornea or conjunctiva. Pustular inflammation of cornea and conjunctiva. Cornea dim. Profuse, gushing lachrymation with nausea. Shooting pains through the eyeball. Twitching of eyelids. Lids red and swollen after catching cold. Eyes tire from near vision. Cannot move eyes without nausea. Nausea from looking at moving objects. Photophobia without redness of eyes. Light, candlelight aggravates.

Face - Puffed or sunken. **One side of face hot, the other cold.** Pale, blue about the eyes or lips, white linea nasalis. Redness of the skin around the mouth. Lips blue during chill. Lips covered with small aphthae and eruptions. Rash in the face. Pityriasis. Periodical orbital neuralgias with some lachrymation, photophobia and smarting eyelids. Convulsive startings of the muscles of the face.

Female - Menses too early and too profuse. **Menses with cramps and constant nausea.** Scanty menses with great weakness. Menses return every two weeks. Prolapsed uterus worse during menses. Great debility and leucorrhea during intervals of menses. **Uterine hemorrhages, profuse, bright red,** steady flow or gushing with nausea and gasping with each gush of blood. **Pain from navel to uterus.** Cutting pain in uterus from left to right. Dragging sensation towards uterus and anus. **Nausea and vomiting during pregnancy. Threatened miscarriage,** often with sharp or pinching pain around umbilicus. Hemorrhage following labor or after miscarriage. Hemorrhage from placenta previa. Arterial bleeding from partial separation of placenta. Laborpains spasmodic, cutting across from left to right with nausea and clutching about navel. Labor pains running downward.

Food - General loss of appetite as from weakness of stomach. **Great disgust and loathing of any sort offood.** No appetite, earthy taste, stomach feels relaxed, nausea. **Nausea from smell of food.** Violent hunger when nausea is over. Thirstlessness. No thirst during chill, but much thirst all through fever. Stomach disordered by rich food, pork, pastry, fruits, candy, ice cream. **Food poisoning.** Desires or adverse to sweets and dainty things. Worse cold drinks, black coffee, sour beer, smoking tobacco. Worse from fats, ice cream, pastry, pork, unripe fruit, salads. Cold drinks or ice-cream causes colic. Cold water worsens spasmodic cough.

Head - Cold sweat on forehead. Heat and throbbing in head, with red cheeks. Aching pain, pressure in forehead. Throbbing in forehead. **Migraine or gastric headaches with nausea and vomiting. Headaches with nosebleed.** Headache as if brain compressed. Bones of skull feel crushed or bruised. Pain, bruised feeling in brain. Pain in occiput, worse vomiting during chill. Shooting pain in vertex. Pain in the occiput and the neck. Headache over left eye. Pain extends to teeth and root of tongue. Stinging pain with heaviness of head. Hydrocephaloid, fontanels open.

Heart - Pain in heart, followed by dryness of mouth and great thirst. Pulse large and soft. Pulse accelerated but weak, sometimes imperceptible.

Kidneys - Shooting pain from kidney, down the thighs to the knees. Ineffectual urging to urinate. Burning in urethra during urination. Red, scanty urine. Urine turbid, with red sediment. Hematuria with nausea and cutting in abdomen and urethra, with oppression in chest and short breath.

Limbs - **Pains in limbs during chill.** Numbness, as if joints had gone to sleep. Shocks in limbs on falling

asleep. Body stretched stiff, followed by spasmodic jerking of arms towards each other. Pains as if bruised in all the bones and joints. Femur as if dislocated on sitting down. Cold hands and feet. Coldness of one hand, other is hot.

Lungs - Cyanosis. **Dyspnea with constant constriction in chest.** Attacks of difficult shortness of breathing. **Gasps for air at open window.** Difficult expiration. Sighing. Shortness of breath as from inhaling dust. Suffocative attacks from foreign substance in wind pipe. Threatened suffocation from accumulation of mucus. Asthma with skin disease. Humid asthma from damp or sudden changes in weather. Spasmodic asthma after suppressed eruptions. Croup. Bronchopneumonia. Pneumonia. Bubbling rales. **Loose, coarse rattle in chest without expectoration.** Suffocative cough, child becomes stiff and blue in the face. Continued sneezing, coryza, wheezing cough. **Bleeding from lungs with nausea,** feeling of constriction, rattling cough. Hemoptysis from slightest exertion (Mill.).

Modalities - Better from open air, rest, pressure, closing eyes, cold drinks. **Worse from drugs, morphine.** Worse after overeating, vomiting, lying down, motion. Worse from mixed or rich foods, ice cream, pork, veal, candy, fruits, berries, raisins, salads, lemon peel. Worse cold, winter, dry weather, **warmth, damp,** external heat, periodically. Catarrh, asthma and chill are worse in warm, moist wind. Summer heat or hot room causes fainting.

Mouth - Mouth moist with much saliva. Saliva increased. Earthy, bitter, sweetish, bloody taste. Smarting pain in mouth and on tongue. Child thrusts its fists into the mouth and screams during dentition.

Nose - **Nosebleed, bright red blood.** Nosebleed during cough, headache, every time the patient takes cold. Coryza with stoppage of nose and nausea. Discharge of thin mucus with cough and expectoration. Sneezing. Itching of nose. Loss

Ipecacuanha of smell.

Perspiration - Cold, clammy. Hands and feet drip cold sweat. Very profuse sweats, mostly during night. Sweats with redness of one cheek and paleness of the other. Hot sweats, sudden attacks in room. Sour sweat with turbid urine. Sweat stains yellow. Profuse perspiration after quinine.

Rectum - Rectal pain so great that it nauseates. Itching at anus. Hemorrhoids bleeding very profusely. Diarrhea after overloading stomach with sweets or fat pastry. Diarrhea from taking cold, due to chill or from emotions. Amoebic dysentery with tenesmus, while straining. Dysentery with head hot and cold legs. Cholera infantum. Beginning cholera infantum, with nausea, vomiting, colic, diarrhea. Autumn diarrhea. Diarrhea of teething children, yellow, white or green discharges. Worm and parasites.

Skin - Pale, lax. Miliary rash. Erysipelas. Itching, unchanged by scratching. Itching with nausea, scratches until he vomits. Suppressed rash or eruptions. Delayed eruption in scarlatina. Rash in lying-in women. Herpetic eruptions.

Sleep - Sleeplessness. Shocks in all limbs on going to sleep (Ign.). Restless, unrefreshing sleep. Eyes half open during sleep with moaning and groaning. Starting during sleep. Loss of sleep that causes nausea and fatigue. Frightful dreams, with frequent starts and terror during sleep. Yawning and stretching.

Stomach - Stomach feels relaxed, as if hanging down. **Sinking sensation in stomach.** Pressing pain in stomach. Indescribable pain and sick feeling in stomach. Violent clutching and cramping pains. Attacks of cramps. Dyspepsia. Gastritis, inveterate cases, not even a drop of water will stay down, continuous gagging.

Gastroenteritis. Eructations with rumbling in abdomen. Hiccoughs. **Food poisoning.** Loss of appetite and frequent nausea. **Horrid nausea, not better vomiting.** Nausea, copious salivation, violent itching in the skin and empty risings. **Constant nausea and vomiting** with pale, twitching of face. Incessant retching with vomiting of watery fluids and cutting pain in belly. **Vomits blood, bile, food, mucus.** grass-green mucus, black matter like pitch. Hematemesis of children. Bilious vomiting. Vomiting with thirst, sweat, and bad breath.

Nausea and vomiting with menses, cramps, during pregnancy. Nausea from smell of food, from looking at moving objects, from slightest motion or cough. Retching, especially after drinking anything cold or after smoking. Constant nausea and retching of hysterical women. Vomiting of infants at the breast. Morning vomiting in weakly persons who are affected by worms.

Stools - Mucus fetid diarrhea, worse at night. Stools, brown, grass or yellow green, lemon colored. Stools, painless, fermented frothy or bloody, slimy, pitch-like. Stools covered with red, bloody mucus, or lumps of mucus. **Stools like frothy molasses** with griping at navel. Stools spurting out with much flatus. Stools very offensive, putrid smelling.

Teeth - Teeth chatter, with chill. Toothache, with a jerk radiating to temples, better while eating. Toothache in a hollow tooth as if it would be torn out.

Temperature - Chill alternating with heat. Short chill with long heat. Internal chill, with external heat. Chill and much heat, nausea, vomiting, and dyspnea. **Chill with nausea, vomiting,** great lassitude, weariness, oppression of the chest. Chills, up and down back. Coldness of upper part of body. Anxious dry heat in evening.

Heat with or without thirst. **Fever with nausea and vomiting.** Catarrhal or gastric fevers. Intermittent fever, irregular cases after quinine. Infantile remittent fever. Suppressed or mixed intermittents, nausea in all stages. Relapses with improper diet.

Throat - Sore throat, as from swelling of the pharynx. Difficult swallowing, as from paralysis of the tongue and of the gullet. Fauces, stinging, rough, sore, and dry. Pressure in throat with pains in diaphragm. Deep red color of tonsils and pharynx. Tickling in upper part of larynx. Croup. **Gagging and choking.** Spasms of vocal cords. Spasm of glottis, with

Ipecacuanha blueness of face and coldness of limbs. Spasmodic contractive sensation in the throat.

Hoarseness, especially at end of a cold. Complete aphonia. Voice hollow.

Tongue-Tongue clean, not coated. **Tongue.** dry, yellow, white, pale. Red, pointed tongue. Tongue coated in middle, edges red. Flat taste, with white, thickly coated tongue. Smarting pain on tongue.

Vertigo - Vertigo with tottering and staggering. Vertigo when walking, when turning around, during pregnancy.

Vision - Obscuration of vision. State of vision constantly changing. Blue and red halo around light. Optical illusions in bright colors. Spasm of accommodation from weakness of ciliary muscle.

COMMENTS - The stomach disgust of the remedy is depicted on the countenance, which expresses nausea. Sickly, disgusted appearance. The corners of the mouth are drawn down. Blue rings around the eyes.

Deathly nausea (Tab.). Constant nausea, not ameliorated by vomiting. Can vomit blood. Salivation and vomiting of white, stringy mucus. Vomiting can lead to shudders with a chill, severe spasms, convulsions. Can be sleepy after vomiting.

Desire for fresh air, thirstless while nauseas (Puls.). Any condition with concomitant nausea and vomiting. Vomiting after pregnancy. Sensation as if the stomach is hanging down (Sep.).

Corresponding mental state, "moroseness and contempt for everything," "disdainful humor." Irritability in adults, crying and screaming in children. Restless and exhausted (Ars.). Disgust. Sensitiveness (Chin.), over sensitive to heat and cold. Better by touch.

Exhaustion and an achy, bruised feeling. Sore pain in the shoulder blades. Bone pains in the head and elsewhere. Pains as if bones were all torn to pieces. Keynote cutting pains in the left side of the abdomen over to the right. Peripheral neuritis. Generally a left sided remedy.

Intermittent headaches. Migraine headaches. Bruised feeling, severe prostration. Headache "as if bruised, all through the bones of the head and down into the root of the tongue." Pain extending to roots of teeth.

Headache with nausea. Gastric headache, originating in the stomach, nausea precedes the headache and persists throughout. Desire to lie perfectly still. Meningitis with vomiting and a high fever. Tetanus, lockjaw with severe spasms and retching.

Marked periodic action. Intermittent fevers (Eup-per.). Characteristic nausea through all the stages. Stages can be completely mixed up, short chill, followed by long fever. Can have a pain in the upper back between the shoulder blades with fever (Gel. has a chill).

Violent dyspnea with wheezing and great weight and anxiety about the præcordia. Threatened suffocation from accumulation of mucus. Loss of breath, pale, stiff and blue. Strangling with gagging and vomiting of mucus, bleeding from nose or mouth. Coughing up mucus, gagging. Must stand by the window to get oxygen. Worse damp weather and changes in weather.

Pneumonia and bronchitis with severe shortness of breath with rattling mucus (Ant-t.). For bronchitis in infants with coarse rattling in the chest. Concomitant respiratory and gastric symptoms. For emphysema in the elderly. Suffocative respiration (Spong.), but wet.

Asthma with a breathless feeling, nausea and vomiting, with thick, yellow mucus (Lob., Ars., Ant-t., Ant-c.). Dry, spasmodic, constricted, asthmatic cough. Whooping cough. Characteristic spasmodic rigidity in whooping cough.

Sub-acute inflammation of the cornea with intense pain. Pustular conjunctivitis, especially in children. Inflammation with tearing pain and gushing of tears. Photophobia. Violent neuralgia of eyeballs, shooting in the head with gushes of tears, nausea, etc.

Hemorrhage with bright, red blood (Phos.). Gushing blood, with sinking feeling and nausea (Ferr. is weak and flushed with gushing). Nosebleeds with a sensation of nausea and sinking, or nosebleeds from coughing and sneezing attacks.

Uterine hemorrhage. Threatened miscarriage, with a sharp pain around the umbilicus, running downward to the uterus. Miscarriage due to spasmodic vomiting. Spotting blood before contractions. Hemorrhage after childbirth with bright red blood, nausea, disgust and weakness.

Metrorrhagia after confinement with a low pulse, nausea. Steady flow of bright red blood, which may soak through the bed to the floor or may run over the foot of the bed. Constant nausea and discharge of blood before

the proper period. Menstrual cramps with nausea and vomiting, must lie still in bed. Copious menses. Bloody diarrhea associated with nausea and vomiting. Constant urge to stool, tenesmus. Stools can be bloody, burning, offensive, watery. Severe colic that is associated with dysentery. Suppressed skin eruptions that go to the stomach and bowels and cause severe colic.

Stomach symptoms worse from ice cream, pork, and rich, fatty foods (Puls.). Bad taste in the mouth. The thought, smell or idea of food causes patient to gag and choke. Anorexia.

Heroin withdrawal symptoms. J. R. Haynes used Ip. as an antidote to the opium and morphine addiction. He gave five drops of Ip. tincture for every grain of morphine, or its equivalent in heroin or opium, which the patient has been accustomed to take.

Jahr recommended that in all cases of intermittents in which no other remedy is particularly indicated Ip. should be given. It will either cure the case or bring out more indications for another remedy.

Clarke frequently found this advice useful. As most intermittents have been treated with quinine, it is thought the antidotal properties of Ip. may have good effects.

Allen noted that Ip. dilutions have helped granulations of the eyelids.

Cooper cured an immense uterine fibroid with persistent painful irritation of the skin. There was constant retching and vomiting, made worse by eating. Vaginal irritation with thick leucorrhea and a feeling of desperation.

Dr. Nancy T. Williams cured several cases of gallstone colic on the symptom "external chilliness with internal heat," with Ip. 6c. The relief was prompt and lasting.

Dr. Edwin Muskett noted its specific use for malignant pustule and anthrax, used locally and internally.

Hahnemann considered it a short-acting medicine.

RELATIONS-Antidotedby: Am., Ars., Chin., Copperfumes. Dulc., Ferr., Laur., Op., Sul-ac., Tab., Ant-t. **Compare:** (1) Lob., Emetin., Ars., Tab., Cham., Puls., Ant-t., Squil, Conv. - colic and diarrhea. (2) In asthma, Lob., Blatta. (3) Typh. - dysentery, diarrhea and summer complaint. (4) Euph-hy. - very similar to Ipecac. Irritation of the respiratory and gastro-intestinal tracts and female organs. (5) Lip. - persistent dry, hard, bronchial cough-asthma and chronic bronchitis. **Complementary:** Cupr., Am.

***IPOMOEA PURPUREA

(Morning Glory)

PHARMACY - ipom. Ipomoea purpurea. Morning glory. Convolvulus duartinus. Bind-weed. **N. O.** Convolvulaceae, family. The mother tincture is prepared from the dried bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Anorexia. Backache. Bilious, vomiting. Catatonia. Cholecystitis. Delirium. Epilepsy. Fever. Flatulence. Headache. Insomnia. Jaundice. Kidney, colic. Kidney, disorders. Worms.

HOMEOPATHIC - Ipomoea is used solely as a drastic purgative in allopathic medicine; not one homeopathic treatise mentions it as a remedy for constipation.

Castro carried out a proving in 1940, using the potencies 1x, 2x, 3x, at the rate of 1-200 drops per day in progressive doses.

Symptoms included fever, agitation and mental confusion. Delirium with hallucinations, excitability, and mumbling. Predominant irritation of the brain. Epilepsy. Catatonia. Insomnia and delirious dreams.

Neuromuscular and arthritic pains. Aching in top of right shoulder, in small of back

Ipomoea purpurea and limbs. Pain in left lumbar muscles on stooping. Kidney disorders with pain in back. Kidney colic. Much abdominal flatulence. Bilious vomiting.

MIND - Desire for solitude. Sadness, tears, hypersensitive to noise. Intense anxiety with palpitations. Prostration. Loss of memory. Delirious dreams. Nocturnal terror in children, especially in the worm-ridden.

Abdomen - Abdomen distended. Sharp cutting pain in abdomen above umbilicus. Rumbling and grumbling in epigastric region and lower bowels. Rumbling of flatus with pain in the colon. Sensation of heat in the epigastrium before passing stools. Cholecystitis. Biliary sycosis syndrome.

Back - Heaviness of the back and neck, aggravated at night, on going to bed. Pain, aching in lumbar region. Pain in first dorsal vertebrae. Itching over left scapula.

Chest - Thoracic spasms. Feeling of laryngeal and pectoral constriction.

Constitutions - Suited to neuro-bilious, hypersensitive types, prone to epileptiform fits. Useful for phosphoric types, syphilitic.

Ears - Buzzing noise in ears.

Eyes - Smarting pain in eyes. Itching of internal canthus of left eye. Pupils dilated.

Food - Anorexia. Aggravated by and aversion to fatty foods, meat and milk.

Head - Great heaviness of head. Headache first in right, then in left temple. Headache with a unilateral perspiration. Itching of scalp.

Heart - Palpitations with anxiety and hysterical spasms. Pulse accelerated with extra systole.

Kidneys - **Severe pain in left kidney with nausea and occasional vomiting.** Kidney pain spreading towards the left ureter. **Kidney stones.** Kidney disorders or gravel with pain in back. Kidney colic, predominantly on the left side.

Limbs - Limbs cold, sweating, heavy. Joints painful. Muscular spasms with fatigue. Pain in the left lumbar muscles on bending down. Aching in top of right shoulder. Pain in left shoulder and arm.

Lungs - Irregular breathing. Disposition to cough with sneezing.

Modalities - Better from lying down. Worse in the morning, at night, from fatty foods.

Mouth - Mouth discolored, with a bad taste. Feeling of swallowing his tongue.

Nose - Smarting and dryness in nostrils. Purulent discharge from nose. Very acute sense of smell.

Rectum - Rectal tenesmus. Stools soft, orange-yellow in color.

Skin - Skin discolored, yellow, dry, despite cold sweating. Viral jaundice.

Sleep - Nocturnal aggravation, forcing him to get up.

Stomach - Acrid dyspepsia. Hiccoughs, thirsty for cold water. Yellow-green vomiting.

Temperature - Chilliness alternating with backache. Flushes of heat, followed by copious sweat. General fever with total insomnia, cold sweats and contracture of the jaw muscles.

Throat - Pain in left tonsil. Throat dry, constant need to swallow, but swallowing difficult.

Vertigo - Vertigo with nausea, ameliorated by lying down.

RELATIONS - Compare: (1) Cresol. (2) Stram. - hallucinations, delirium with talkativeness. (3) Hyos. - delirium, strips himself. (4) Agar. - muscular jerks in the lower limbs. (5) Nux- v. - abdominal distention, neuromuscular over excitability.

***IRIDIUM METALLICUM

(Iridium Metal)

PHARMACY-irid. Iridiummetallicum. Iridium metal. At. Wt. 193.10. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Abscesses. Amenorrhea. **Anemia.** Axilla, abscess. Bronchitis. Cancer. Cerebral, hemorrhage. Cramps. Eczema. Epilepsy. **Exhaustion.** Gout. Headache. Heart, disorders. Hemiplegia. Lupus. Multiple sclerosis. Nephritis. Neuralgias. Numbness. Paralysis. Parkinson's disease. Rheumatism. Septicemia. Spinal, paresis.

Trembling. Urticaria. **Uterine, tumors. Weakness.**

HOMEOPATHIC - Iridium is a rare metal of the platinum group, found in platinum ore. It is one of the heaviest known substances. It shares with Osm., Pall, and Plat, a place in the treatment of rheumatism and gout.

Boring, contracting pains. Sensations of being swollen, blown up, heavy, full. Shocks and twitching. Epilepsy, clonic, tonic, tetanic. Spinal paresis. Numbness and paralysis. Trembling. Parkinson's disease. Multiple sclerosis. Lupus.

Anemia with decreased red corpuscles. **Exhaustion after disease.** Weakness, nervousness and restlessness. **Weakness after influenza.** Cerebral hemorrhage. Congestion of blood. Affections of bones, necrosis and inflammation. Abscesses. Septicemia. Intestinal putrefaction. Trypanosoma infections.

Glands swollen, inflamed, indurated. Problems with testes and ovaries, inflammations, cancer, cryptorchism.

Uterine tumors. Sterility, amenorrhea, metrorrhagia. Nephritis of pregnancy. Children who are puny, weak-limbs and grow too fast.

MIND - Facilitates mental labor. Forgetful. Difficult concentration. Sensation as if mind were void. Confusion, loses his way in well-known streets. Feeling of self confidence.

Anxiety on waking, as if something bad is going to happen. Clinging to persons. Bites nails. Averse to being disturbed. Irritability from noise. Weeping after anger. Sadness, better walking in open air.

Abdomen - Dragging pain as if menses would come in abdomen.

Back - Spinal paresis, especially for the aged and after disease. Weariness in back and limbs. Weakness of cervical region, as if it could not support weight of head.

Breasts - Piercing, gnawing pains in breasts.

Chest - Sensation of iron band around chest.

Ears - Feeling of numbness in ears and throughout the body lasting a short time. Heat of ears when lying down. Sounds seem distant.

Eyes - Eyes red, heavy. Eye inflammations. Itching in morning on waking. Desire to close the eyes. Feeling

as if eyes were being affected from below upward. Ingrown eyelashes. Far sighted. Visual disturbances.

Face - Face swollen. Sensation of swelling in morning on rising. Sensation of elongation of left side of face. Numbness of lips. Stinging pain in the left malar bone. Pain, pressure in right malar bone. Animated expression.

Female - Swelling of ovaries without dropsy. Corroding and suppurating ulcers of uterus, bluish patches on uterus. Uterine tumors with suppuration. Sterility. Amenorrhea, metrorrhagia.

Food - Desire for carbonated drinks. Aversion to brown bread. Worse from cold drinks, oranges.

Head - Right side of scalp sensitive. "Wooden" feeling in right side of head. Heaviness of head like liquid lead. Swashing sensation. Numbness in occiput. Pains in middle of occipital bone. Open air and noise seem to bruise the head. Pain, like cold metal pressing across forehead. Neuralgia of head especially temples, drives one crazy.

Heart - High blood pressure. Heart weakness, infarction. Heart failure, pain. Pulse, too fast, too slow, full, weak, irregular. Sensation as if an iron rod is standing straight in the heart region.

Kidneys - Weakness in kidney region. Nephritis during pregnancy.

Limbs - Neuralgia of the limbs. Dislocated feeling in left hip joint and dull pain toward left gluteal region. Pressing in groin and left thigh. Tension in both thighs, especially left. Achilles tendon painful, aggravated by walking. Achilles tendon torn from jumping.

Lungs - Difficulty breathing deeply. Short of breath, aggravated from climbing the stairs. Hoarse cough, worse talking. Profuse, thick, yellowish discharge. Chronic laryngeal catarrh.

Mouth - Increased saliva, with sensation in malar bones, which is more perceptible on left side. One-sided white discoloration of tongue.

Stomach - Cramps in stomach.

Nose - Posterior sinuses feel raw inflamed. Bridge of nose painful, feels too narrow. Profuse, watery coryza, better indoors. Ozaena. Profuse, thick, yellowish discharge.

Vision - Colors look brighter. Everything looks golden. Zigzags, in shape of circle.

COMMENTS - A. J. Tafel took 20 grains of the 3c trituration. He experienced a number of symptoms, all within two hours of taking the dose.

Prominent among them were a sensation of numbness in ears and throughout the body. A feeling as if they eyes were being affected from below upward. A feeling as of a triangle in face, the base formed by the two malar bones, the apex in the vertex. Cramp-like contractions in the right calf. The majority of symptoms appeared on the left side.

Laboucher said it is "admirable in all cases of anemia." He claimed it was better than Chin, for the aged and persons exhausted by disease, for puny, weak-limbed children and for those who grow too fast. He mentioned a particular alternation of symptoms or reaction. Painful weakness of lower limbs and kidney region, followed by a favorable reaction, self confidence and facilitated mental labor.

Laboucher gave Irid. in the 4c potency, Pall. in the 3c, Plat. in 2c and Osm. in the 1c. He said Irid. is superior to Pall., Plat. and to Osm. in uterine tumors.

RELATIONS - Compare: (1) Plat. Pall., Osm.. (2) In uterine diseases, Aur. and Aur-mur. (3) In exhaustion after disease, Chin. Irid-m.

REFERENCES - Boericke. Clarke.

***IRIDIUM MURIATICUM

(Iridium Chloride)

PHARMACY - Irid-m. Iridium muriaticum. Iridium chloride. **Historical dose:** Trituration and all potencies.

CLINICAL - Headache. Salivation.

HOMEOPATHIC - Irid-m. produces salivation and stiffness of the jaws followed by head and nervous symptoms. Congestion of sinuses and bronchials. Headache worse right side, heavy feeling as of liquid lead. Dragging pain in lower back.

REFERENCES - Boericke.

***IRIS FLORENTINA

(Orris Root)

PHARMACY - Iris-fl. Iris florentina. Orris root. White flag. N. O. Iridaceae. Tincture of fresh rhizome. **Historical dose:** Tincture and all potencies.

CLINICAL - Convulsions. Delirium. Diarrhea. Headache. Hemiplegia (r.).

HOMEOPATHIC - Iris-fl. gives an odor of violets to the breath and communicates to vinegar a flavor of raspberries, hence is used in the manufacture of raspberry vinegar.

Powdered orris root has been used as an application to the hair and in some young girls has produced violent

symptoms.

Headaches and giddiness occurred on waking in the morning. Complete paralysis of the right side. In one case, convulsions and delirium from which complete recovery did not take place for three months.

RELATIONS - Compare: (1) Verat., Sabad., Iris.

REFERENCES Clarke.

***IRIS FOETIDISSIMA

FARMACY - iris-foe. Iris foetidissima. N. O. Iridaceae. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Headaches. Hernia.

HOMEOPATHIC - Iris-foe. was proved under Serridge's direction. One prover, Dr. Crocker, chewed a piece of the root, another took the tincture, one experienced symptoms from potentizing the drug and later the 14c dilution. The rest took very high potencies.

The prover who chewed the root experienced a burning feeling in mouth and fauces extending to stomach, not relieved by cold water or anything else. A number of pains were felt in the head.

RELATIONS - Compare: (1) The arums and the other irises.

REFERENCES-Clarke.

***IRIS GERMANICA

(Blue Garden Iris)

PHARMACY - iris-g. Iris germanica. Blue garden iris. Root also used to make orris root. N. O. Iridaceae. Tincture of fresh rhizome. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Dropsy. Freckles.

HERBAL - The fresh root of Iris-g, Iris-fl. and the common yellow iris, Iris pseudo-acorus, have been much used in dropsies and violently cathartic. Diarrhea. The juice has also been used for the removal of freckles from the skin.

REFERENCES - Clarke.

***IRIS TENAX

PHARMACY - iris-t. Iris tenax. Iris minor. N. O. Iridaceae. Oregon. Tincture of the lower or bulbous stems. Tincture of the whole plant. **Historical dose:** Tincture and all potencies.

CLINICAL - **Appendicitis.** Fever. Headache. Homesickness. **Ileo-cecal, pain.** Intermittents. Mania. Perityphilitis. Sleeplessness. Stomatitis. Vomiting. Xerostoma.

HERBAL - The herb Iris tenax "grows very luxuriantly in the clay ground and on the hillsides of Oregon." The tissue of the plant is so strong that it was used by Native Americans for making cord and weaving into bags, etc.

HOMEOPATHIC - Dr. George Wigg of Portland, Oregon proved Iris-t. in the later part of 1885. He published the proving under the name of Iris minor. This, as Heath later showed, is a local name only, its true botanical name is Iris tenax.

Dr. Wigg particularly noted the absence of saliva with dry mouth. Burning in eyes without tears. Pain in one tooth only. Itching and burning of scalp without eruption. Chill at 2 p.m. **Painful spot in ileo-cecal region.** Bilious vomiting, burning sensations (Iris.). Deathly sensation at point of stomach. Appendicitis. Gloomy, cast-down, homesick feeling.

MIND - Gloomy, cast-down, homesick feeling.

Abdomen - Appendicitis. **Pain in ileo-cecal region.** Pains from adhesions after surgery.

Modalities - Sweet oil and camphor ameliorates burning in mouth and throat. Worse by sucking in cold air, (burning in mouth and throat). Hot applications aggravates pain in bowels. Cup of tea aggravates vomiting. Worse on waking.

COMMENTS - Dr. Wigg, age 44, took 5 drops to 1x of the strong tincture. A female prover took repeated doses of Iris-t. 2x and 3x. The order in which the symptoms occurred in Dr. Wigg's case is roughly as follows:

In the first fifteen minutes, there was burning in the mouth and throat. This passed off in the night, but was intensified by each fresh dose. After the second dose, taken early the next morning, the burning was reproduced, followed two hours later by dry mouth and absence of saliva.

This was followed by a mental gloom and homesick feeling, increasing towards midnight. Headache in temples. Itching and burning of the scalp. Toothache. Sinking, all gone feeling. Abdominal pains, diarrhea. Desperate exhaustion compelling him to keep in bed. Hard chill followed by rise of temperature.

Wigg noticed the all-gone feeling particularly on standing up, on walking in the morning. Cold water did not improve the burning in mouth and throat. A cold pillow improved pain in the temples.

The acute pains in the bowels passed off in the night, but for fourteen days there was a tender spot over the ileo-cecal region and the bowels did not act normally for ten days.

In the female prover, it produced a strange

sensation in her mind: she thought some of her friends had died, the next day she was unusually cheerful.

The most remarkable symptoms were the "fearful pain in the ileo-cecal region and the hard chill at 2 p.m."

These indications led to the cure in the two following cases:

The first case concerned Miss A., a schoolteacher, who had for several years a pain beginning in right eye, extending to the right half of her head. When the pain was most severe, she vomited a quantity of green bile. When she did not vomit she had nausea and chill between 2 and 3 p.m. The pain passed off in sleep at night. It always began on Saturday, before rising.

Iris-t. 30x every six hours commencing on Friday morning, was given and quickly cured after Iris., Aloe, Cimic. and Kali-bi. had failed to give much relief. The relief from Iris-t. was so marked the patient thought she had received morphine.

The second case concerned Mr. E., who drank a large quantity of buttermilk while in a state of perspiration after walking thirty miles over a mountainous country in August. Four hours after, he was taken with fearful pain in ileo-cecal region. This caused a deathly sensation at his epigastrium. Finally he vomited much dark green bile without relief.

An old school doctor was called in and diagnosed obstruction with probable death in four days. He lingered three weeks and was brought home to Portland where Dr. Wigg saw him and diagnosed typhilitis, badly treated. Pressure on the ileo-cecal region caused the death like sensation at stomach pit. Pain continued until he vomited a cupful of dark green bile. He was somewhat constipated.

Under Iris-t. 15x every three hours he commenced to improve at once and in two weeks was back at his business.

RELATIONS - Compare: (1) Effect on cecal region - Am., Ars., Lach., Sil. (2) Headache - Gels., Grat., Iris., Kali-bi., Ign. (3) Burning not worse by cold, Caps. (4) Homesickness - Caps., Ph-ac.

REFERENCES - Clarke.

***IRIS VERSICOLOR

(Blue Flag)

PHARMACY-iris. Iris versicolor. Blue flag. Iris hexona. N. O. Iridaceae. Tincture of fresh root collected in early spring or autumn. Trituration of the resinoid. Irin or Irisin. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Cholera. Colic. Diabetes. Goiter. **Headaches.** Indigestion. Leucorrhea. **Migraines.** Morning sickness. **Nausea.** Neuralgia. Pancreas, disorders. Rheumatism. Sciatica. Thyroid, disorders. **Vomiting.**

HOMEOPATHIC - Sick headaches. **Gastric or hepatic sick headaches** with blur before the eyes at the beginning. **Migraine headaches.**

Great nausea and vomiting. **Vomiting sour or bitter substances,** excoriates the throat. Vomiting of stringy, glairy, ropy mucus, hangs in strings down to receptacle on the floor.

Burning of mouth, tongue, and throat, can go into stomach, even the anus if there is diarrhea. Affinity for the digestive tract, gastro-intestinal mucus membranes, thyroid, **pancreas,** and salivary glands.

Liver and pancreas affected, producing profuse secretions, which are sour, acrid and burning. Increases the flow of bile. Oily nose, greasy taste and fatty stools. Cholera infantum and cholera morbus. Symptoms set in suddenly, with a rapid elimination.

MIND - Mental depression. Despondency. Low- spirited. Dullness of mental faculties. Weak memory. Inability to fix the mind on any subject. Wandering thoughts while writing. Muttering. Laughs at own actions.

Ill humor. Censorious. Easily vexed. Irritable mood, disposed to find fault, particularly in morning. **Restlessness at night.** Nervous fretfulness. General appearance of anguish. Fear of approaching illness.

Abdomen - Cutting pain. **Burning in epigastric region, with tenderness, vomiting of food. Awful burning in region of pancreas.** Sharp griping pains in the bowels. Flatulent colic. Colicky pain before each spell of vomiting and purging. Colic, better by bending forward, better by discharge of flatulence. Pain in the abdomen, better by discharge of flatus.

Back - Stiffness in the back, increasing on sitting down. Crampy, in right lumbar region.

Chest - Rheumatism in muscles of chest, with acid indigestion. Cutting pain in left side as if ribs were pressing against lung.

Cough - Dry cough caused by tickling in larynx with a dry, smarting or burning sensation in throat.

Ears - Roaring, buzzing. **Ringings in ears with deafness.** Aural vertigo with intense noises in ears.

Eyes - Sunken with blue circles. Redness of conjunctiva. Inflammation of eyelids, from cold. Burning in internal canthus. Violent supra-orbital pains. Periodic visual disturbances, blindness, hemiopia. with headache.

Face - General appearance of anguish. Pustular eruptions on face, around nose, lips and cheeks, secreting a bloody, irritating matter. Dry, cracked lips. Neuralgia after breakfast, beginning in infra-orbital nerve and involving whole face. Neuralgic pains in right side of face.

Female - Neuralgia and rheumatism of uterus. Menses regular, but excessive. Leucorrhea. Morning sickness of pregnancy, vomits sour or bitter, with protracted nausea, profuse ropy saliva, tenderness over stomach.

Food - Hunger with inability to eat. Loss of taste and appetite. Bitter, putrid taste. Nausea and empty belchings, from irregularities of diet. Chronic indigestion of milk. Intense and urgent thirst during diarrhea.

Head - Dullness of the head. **Chronic pain in forehead. Dull throbbing or shooting pains in right side of forehead.** Tired headache from mental exhaustion (studying, sewing), worse coughing, cold air, better gentle motion. Headache begins with blurring of vision, after relaxing from a mental strain. **Frontal headache over left eye with nausea. Headache alternating sides.** Headache as if a band around head. Severe pains, through temples and over

eyes, with vertigo, nausea and vomiting. Shooting pain in temples with contractive feeling of the scalp. Scalp feels constricted. **Sick headaches** with diarrhea, in bilious subjects, worse rest, begins with a blur before eyes. Reflex headache from acid stomach or irritation of stomach from acid secretion. **Neuralgic pain usually begins over one eye.** Neuralgic pain, one-sided, with gastric symptoms. Right temples affected. Pustular eruption on scalp. Scabs, yellow matter oozing from under crust, with matted hair.

Heart - Accelerated pulse.

Kidneys - Burning along the length of urethra after urination. Cutting and pricking pain in urethra while urinating. Urine very high colored and scanty. Profuse, clear urine with headache. Diabetes.

Limbs - Sharp tearing, shifting, in joints. Shooting, laming pains along limb. Sciatica, as if left hip joint were wrenched. Pain extends to popliteal space. Gonorrheal rheumatism.

Liver - Liver sore. Pain in the region of the liver, worse from motion.

Male - Coldness and itching of parts. Coldness and relaxation of scrotum. Excitement of genitals reflex from excessively acid stomach. Nocturnal emissions with amorous dreams. Secondary gonorrhea or gleet.

Modalities - Better from gentle, continued motion. Worse in evening, night, after midnight, 2 a.m. to 3 a.m. Worse from mental exhaustion, rest, hot weather. Worse periodically, weekly, spring and autumn.

Mouth - Burning in mouth and fauces as if on fire. Feels greasy, burnt or scalded. Stomatitis, with burning pain in mouth and fauces. Tongue burns or feels cold. **Greasy or sweetish taste.** Flat taste. Loss of taste. Profuse flow of saliva (Merc., IP., Kali-i.). Ropy saliva, drops when talking. **Profuse salivation during headache.** Salivation after diphtheria, with swelling of parotids. Saliva tastes greasy, slimy. Mouth and tongue feel scalded. Slight toothache in a warm room. Ulcers on mucus membranes of cheeks.

Nose - Oily. Constant sneezing.

Perspiration - Perspiration over the whole body, but principally in the hypochondria. Sweat smells of vinegar.

Sleep - Sleeplessness. Starting in sleep.

Stools - Stools watery, with burning at anus and through intestinal canal. **Stools, bilious, acrid, watery, burn like fire.** Stools thin, tinged with bile, copious, in a continuous stream. Stools, green, undigested, mushy, pappy with fetid flatus. Stools, fatty, fetid or coppery smelling.

Rectum - Acute mucus enteritis. **Constipation** with gastric derangement. Constipation succeeded by thin, watery diarrhea. **Sudden attacks of diarrhea. Painless cholera morbus.** Periodical night diarrhea with pain and green discharges. Summer diarrhea occurring in hottest part of season. Urging to stools with headache, facial neuralgia and pain in teeth. Burning at anus during stool. Burning after stool. Anus feels sore as if sharp points sticking in it. Distressed feeling as if rectum is prolapsed. Hemorrhoids.

Skin - **Great itching at night.** Fine eruption, showing black points after scratching. Eczema with nightly itching. Herpes zoster and gastric derangements. Psoriasis, irregular patches with shining scales. Psoriasis on knees, elbows and body. Pustular eruptions on scalp and face, around mouth.

Stomach - **Burning of whole alimentary canal,** not better by cold drinks. Burning distress in stomach and pancreas, with watery diarrhea and great prostration. Sour, bitter belchings. **Continuous nausea.** Nausea from riding, overexertion. **Vomiting with burning pain.** Vomiting of sweetish water, sour, bloody, bile. **Bitter, acrid, watery, sour vomiting. Vomiting during headache.** Periodic vomiting spells, every month, six weeks, lasts for two or three days. Protracted nausea and vomiting during pregnancy. Vomiting of sour milk in children.

Temperature - Chills with sleepiness. Chilliness during the whole night. Chills over whole body, even when well covered. Head and face cold. Fever followed by chill, with cold hands and feet. Bilious and typhoid fevers. Fever with muttering delirium and bilious diarrhea.

Throat - Heat and smarting in throat. Burning from fauces to stomach, better inhaling cool air or drinking cold water. Shooting pains in tonsils extends to ears. Vomit excoriates throat. Thyroid disorders. Goiter.

Vertigo - Aural vertigo with intense noises in ears. Immediate dizziness with pressure in forehead. Slight giddiness, coming on suddenly while walking within doors.

COMMENTS - Migraine headaches, worse on the left side, over the left eye (Thuj., Anae.). Sick headaches, associated with dietary allergies. Sensation of a nail over the left eye, pain as if being driven into supraorbital arch (Thuj., Sang, on right). Constipation preceding the migraine (Bry.). Buzzing and ringing in the ears associated with the headaches.

Affinity for the pancreas (Spong., Con., Phos.). Diabetes. Characteristic burning. Stomach troubles accompanied by burning of tongue, throat, esophagus and stomach, and burning of the anus if diarrhea is present.

Nausea and vomiting, loss of appetite, constipation. The vomiting is not always sour, but may be bitter or sweetish. Profuse saliva. Vomit or saliva may be white, stringy, or ropy (Ip.).

Nash once had a case of stomach trouble in a middle-aged woman. She had frequent attacks, vomiting a stringy, glairy mucus which was very ropy. The vomit would hang in strings from her mouth to the receptacle on the floor.

Then the vomit became dark colored, like coffee, she became very weak, vomited all nourishment. She also had profuse secretion of ropy saliva.

Thinking she had cancer of the stomach, she made her will and set her house in order to die. Kali-bi. was given with no benefit, but Iris cured her completely in a short time and she remained well.

RELATIONS -Antidote: Nux-v. **Compare:** (1) Iris-fl. - delirium, convulsions and paralysis. (2) Iris-fa. - headache and hernia. (3) Iris-g. - Blue Garden Iris - dropsy and freckles. (4) Pancreat. (5) Pep. (6) Ip., Podo., Sanguin., Ars., Ant-c.

REFERENCES - Boericke. Clarke. Nash. Murphy. Phatak.

***ITU

PHARMACY - itu. Itu. Resina itu. Brazil. Solution in alcohol of the resin. **Historical dose:** Tincture and all potencies.

CLINICAL - Ears, noises. Hernia. Muscae, volitantes. Stiff-neck. Toothache. Vulvitis.

HOMEOPATHIC - Itu is one of the remedies proved by Mure. All he tells about the source of it is that "This resin, which comes to us from the province of St. Paul is used empirically for hernia."

Symptoms include a sudden report in the ear, with frightful pain extending to teeth for several minutes, repeated as many as eight times in a day, profuse sweat after the reports. Earache when the least dampness sets in. Toothache worse after a cold drink. Chilliness at hypogastrium, especially in evening.

***JABORANDI

(Pilocarpus Jaborandi)

PHARMACY - jab. Jaborandi. Pilocarpus jaborandi. Pilocarpus pennatifolius aut microphyllus. The alkaloid is pilocarpine. N. O. Rutaceae. Tincture of fresh leaves. Tincture of dried leaves and stems. **Historical dose:** Tincture and all potencies, third potency.

CLINICAL - Alopecia. Asthenopia. Baldness. Bronchitis. Burns. Cataract. Ciliary, spasm. Diarrhea. Dysmenorrhea. Erysipelas. **Exophthalmic, goiter.** Eye. disorders, Eye, surgery. **Eye-strain. Gland, disorders. Glaucoma. Hair, loss.** Heart, disorders. Hot, flushings. Hypermetropia. Leucorrhoea. Menopause. Miliaria. **Mumps. Nightsweats. Perspiration, excessive.** Pregnancy, salivation. **Salivation, excessive.** Scalds. Snakebites. Strabismus. Tuberculosis. Worms.

HERBAL-Jaborandi is a South American tree growing up to twenty feet high. It is used by South American natives as an antidote to snakebites of the Trigonoccephalus group.

HOMEOPATHIC - A few minutes after a dose of Jab., the face, ears and neck become deeply flushed and drops of perspiration break out all over the body, the mouth waters and saliva pours out in an almost continuous stream.

A single dose often produces enormous amounts of sweat and saliva, not infrequently half a pint. The observation of its action on the skin and salivary glands led to extensive provings.

A powerful glandular stimulant, it produces hypersecretion from upper respiratory tract and salivary glands. Increases lachrymal, nasal, bronchial and intestinal secretions to a lesser degree.

Abnormal sweats, perspiration, salivation . Heavy night sweats, hot flushes. **Night sweats** of tuberculosis patients. Sweat only on the left side, dry on the right. Drawing pain in joints during perspiration.

Exophthalmic goiter with increased heart's action and pulsation of arteries, tremors and nervousness, heat and sweating, bronchial irritation. Acts upon the thyroid and its sudorific action may be due to it.

Limits the duration of mumps. Mumps when metastasized to the testes, causing infertility, metastasized to the breasts. Never well since mumps (Morbill., Parot.).

Pronounced action in the eyes, it has been found to be useful in many conditions of eye weakness, especially hypermetropia, ciliary spasm, convergent strabismus and after operations for strabismus. Mydriatic properties. Miosis. Glaucoma.

Headaches, more on the left side. Headaches worse at noon every day. Pains appear gradually and disappear gradually. Symptoms are generally more on the left.

Kidney disease, especially with uremia, eliminating both water and urea. Nausea. Stomach distress, better from eating. Scarlatinal dropsy. Contra-indicated in heart failure, in post-puerperal uremia, and in senile cases.

MIND - Mental confusion. Dullness of mind. Cheerfulness, gaiety. Very nervous and tremulous. Disinclination to speak. Desire to kill loved ones. Fixed idea that she will murder all her family with a hatchet.

Abdomen - Empty, gone feeling. Cutting in lower abdomen. Severe pains over pubes with strong desire to pass water, which relieved. Ailments of the pancreas.

Breasts - Milk absent or deficient. Milk increased, too profuse.

Chest - Sticking in chest. Pain in chest and around heart. Pressure on chest with anxiety, palpitation and pain in region of heart. Anxiety in chest with oppression, preventing sleep.

Ears - Serous exudation into tympanic cavity. Tinnitus. Nervous deafness, better in noise. Noises and vertigo.

Eyes - Tension in eyes. **Pupils contracted, do not react to light.** Glaucoma. Atrophic choroiditis. Vitreous opacities. **Eyestrain** from whatever cause (Ruta.). **Eye pain from exertion of vision at fine work.** Eyes easily tire from slightest use. Sensation of heat and burning in eyes during exertion.

Smarting pain in eyes. Lachrymation during coryza, headache. Irritation from electric or other artificial light. Staring eyes. Irritability of the ciliary muscle. Periodic strabismus. Spasms of the accommodation while reading. **Near-sighted.** Hyperopia. Exophthalmos, protrusion of eyes. Squints, convergent after surgery. Lids twitch.

Face - Redness of face and of ears. Pallor with heat of face and throbbing of temporal arteries. **Mumps**, especially when metastasis to the testes. Inflammation of parotid gland.

Female - Menses, start with coldness, throbbing in head and pelvis, and backache. Menses scanty, congested head, dry skin. Leucorrhea. Edema of pregnancy. Puerperal convulsions in a stupor, threatened suffocation from inability to swallow excessive quantity of saliva. Heat and dryness of vagina during labor. Labor pains ceasing or sluggish. Flushing at menopause.

Food - Good appetite. Hunger disappeared and he could not eat. Urgent thirst.

Head - Empty, hollow sensation in head. Headache every day about noon. Headache from straining eyes. Headache with smarting and pain in eyeballs. Pulsating in temporal vessels, at vertex. Throbbing pain in vertex and front of head. Pain in lower part of occiput. Light hair turns black. Baldness.

Heart - Pain in heart region. Oppression of chest. Nervous cardiac disorders. Violent ebullitions to heart and chest. Palpitations, during perspiration. Pulse is irregular, dicrotic. Irregularity, weakness and rapidity of action. Cyanosis, collapse.

Kidneys - Scanty, pain overpubes with much urging. Burning in urethra with urging to urinate. Urine dark. Urine increased during the sweat.

Lungs - Edema of lungs. Breathing difficult, hurried. Slow, sighing respiration. Bronchial mucus membrane inflamed. Loose cough. Much inclination to cough and difficult breathing. Frothy or profuse, thin, serous expectoration.

Male - Orchitis from metastasis of mumps. Orchitis with incipient bronchial trouble.

Modalities - Worse left side, exertion of eyes, exhaustion, start of menses, cold. Nausea worse motion of eyes.

Mouth - Tension in salivary glands. **Profuse salivation with profuse sweating**, with dry skin. Saliva viscid like egg white, or stringy but not viscid. Constant spitting of alkaline saliva. Saliva contained a notable quantity of urea. Salivation during pregnancy. Dryness of mouth.

Nose - Copious nasal discharge. Coryza and perspiration (Merc.).

Perspiration - **Excessive perspiration from all parts of the body.** Sweat on forehead, then over whole body, then chiefly on face, legs and feet. Sweat breaks out on the face and upper part of the chest. Sweats with palpitations, general pulsations and tremors. Copious sweating with chilliness, with salivation, with diarrhea (Verat.). Nervous sweats. Semi-lateral or unilateral sweat. **Night-sweats.** Perspiration in bed. **Hot flushes and sweats.** Perspiration during menopause. Sweat contains urea. Perspired easily before taking, but did not sweat during the proving.

Rectum - Constipation. Hard stools. Diarrhea with flushed face and profuse perspiration. Diarrhea during daytime. Stools are watery, yellow. Frequent, undigested, gushing, weakening, papescent, and large and painless stools. Passage of threadworms.

Skin - Redness of skin. Persistent dryness of skin. Dry eczema.

Sleep - Sleepiness. Profound sleep in daytime. Fell asleep while sitting reading. **Night-sweats.** Perspiration in bed. Did not sleep well on account of restlessness, with pressure on chest and hurried breathing. Distressing dreams towards morning. Dreams of accidents and fights, waking him twice a night.

Stomach - Thirst in morning on waking. Hiccough, before vomiting. Nausea, sudden and retching often with hiccough Vomiting after supper. Nausea worse motion of eyes. Nausea on looking at objects moving, vomiting, pressure and pain in stomach. Stubborn vomiting of pregnancy. Nausea during menopause.

Temperature - Chilly up and down back at 7 p.m. Shivering. Chilliness with sweat. Cold limbs. Heat flushes, at menopause, with profuse sweat, nausea and vomiting.

Throat - Exophthalmic goiter with increased heart's action, pulsation in arteries, tremors and nervousness. Swelling of submaxillary glands (Merc., Calc.). Dryness at back of throat. Soreness and smarting of throat.

Vertigo - Headache with vertigo. Vertigo with nausea after exertion of vision. Vertigo as if head were too light, on moving or looking at objects.

Vision - **White spots before eyes.** Everything at a distance appears hazy. Vision becomes indistinct every few moments. Focal distance changes while reading. Dim vision, better looking sideways (Chin-s.). Retinal images retained long after using eyes.

COMMENTS - Sandesberg noticed that the internal use of Jab. and pilocarpine in cases of detached retina and choroiditis seemed to occasion opacity of the crystalline lens. He treated a horse for iridochoroiditis and large opacities of the vitreous with infusion of Jab. leaves and injections of Pilo. The disease was quickly arrested, the vitreous cleared up completely, but during the first week the crystalline lens became opaque.

Jab. has been used as a remedy for baldness and it forms the principal ingredient in some of the popular hair restorer tonics. In a number of patients taking it, white hair and blonde hair have been observed to turn black. Jab. has a reputation for stimulating breast secretions. A case is quoted from the Lancet in which a woman whose milk had ceased for a fortnight received ten drops of the fluid extract every four hours. The secretion of milk was re-established, but the patient began to suffer from extreme nervous excitement accompanied by a fixed idea that she should murder her family with a hatchet.

The drug was stopped and these symptoms disappeared, and with them, the activity of the breast glands.

Bell commended it in diarrhea with gushing. painless stools, flushed face, profuse salivation and sweat, and intense thirst with dark urine that is scanty or profuse.

Cooper saw Jab. cause violent leucorrhoea as well as a discharge of threadworms. He noted its use in relieving "a feeling of coldness and faintness and neuralgic throbbings in head and pelvis with a backache" when the period begins. He suggested treating with a drop or two of Jab. in hot water.

The Hom. News, February, 1900, quoted an incidental cure of dysmenorrhoea in a woman, age 23, who received five-drop doses of Jab. for increased eye-tension which rapidly disappeared. The patient noticed that she passed the next menstrual period without pain though she usually had to spend two to four days in bed. The drug was continued in smaller doses and the improvement was maintained.

Hale commended its use in women or young girls who always have dry skin, scanty menses and a tendency of blood to the head.

Duncan aborted erysipelas by painting the tincture on the part four to five times daily. A sharp smarting is the first effect, followed by a more agreeable, soothing sensation. For burns, scalds and some forms of eczema and psoriasis.

One patient, after having been injected with pilocarpine, complained of great sensitiveness to cold, constantly taking cold and bronchitis, the skin became irritable.

Dudgeon recorded a case of a man, 45, who rose at an early hour and went to the other side of his bedroom to get a dose of Nux-v. 3c for some fancied derangement of his stomach. On coming back to bed he was seized with a sudden, violent, crimson flushing of the face followed almost immediately by profuse perspiration, beginning in the face and head and extending all over the body.

This was followed by extreme coldness of the limbs and sickness terminating in the vomiting of sour mucus.

The attacks recurred every quarter of an hour throughout the day. Not only was he unable to get out of bed, he could not raise himself up in bed or lie otherwise than on his right side without the most distressing giddiness and a feeling "as if he should die." Pulse 60, regular and strong, temperature below normal.

Ten drops of Jab. 1c were mixed in half a tumbler of water and a dessert spoonful given immediately and repeated every half hour. After the second dose the attacks ceased and he was able to take bread and milk without sickness. He had a good night's rest and was perfectly well the next day.

RELATIONS - Compare: (1) Amyl-n., At-rop., Phys., Lyc, Ruta. (2) Piloc. - Meniere's disease, rapidly progressive tuberculosis with free hemorrhages, profuse sweating, 2x trituration. (3) Atropine is the antagonist to pilocarpine in dose of one one-hundredth grain for one-sixth of pilocarpine.

REFERENCES - Boericke. Clarke. Murphy-

*****JACARANDA CAROBA**

(Brazilian Caroba Tree)

PHARMACY-jac-c. Jacarandacaroba. Brazilian caroba tree. Caroba tree. Jacaranda procera. Bignonia caroba. Jacaranda Brasiliensis. N. O. Bignoniaceae. Jacarandae. Tincture of fresh flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Anal, itching. Balanorrhea. Chancre. Chordee. Coryza. Gonorrhea. Morning sickness. Muscular, rheumatism. Phimosis. Rheumatism. Syphilis.

HERBAL - "There are several species of Jacaranda," especially Jacaranda procera, "that have the reputation of being curative in syphilis" notes the Treasury of Botany. Mure proved Jacaranda caroba, and the symptoms of the proving certainly confirmed this.

HOMEOPATHIC - Jac-c. has a reputation in venereal diseases and rheumatism. The urinary and sexual symptoms are important.

Rheumatic symptoms, pains in the limbs. Lancinations in the heart. Morning sickness. Itching at anus.

Hering confirmed symptoms including tearing pains affected the whole organism when urine contacts a chancre. Prepuce much swollen, could not be drawn over glans, on attempting to do so, copious discharge of yellowish green pus. Chordee in gonorrhea. Dull pain under sternum on raising head and drawing breath.

Abdomen - Painful stitch in the right and left side of navel. Acute pain at the hypo- gastrium when pressing upon it. Swelling of the right groin, painful to touch.

Back - Pain in nape. Neck so painful that the head cannot be turned to right. Stiffness in loins.

Chest - Dull pain under the sternum on raising head and drawing breath. Prickling under the sternum.

Ears - Flapping in the ears, as of wings. Stoppage and heat in the left ear, with burning, digging pain extending to the left nostril.

Eyes - Eyes pain, are inflamed and watery.

Food - **Food tastes insipid, nausea while eating.**

Head - Fullness in the head. Pain, as if a plug were pressing on the right side of the forehead. Dull pain between the forehead and right temple. Coryza with heavy head.

Heart - Sensation as if the heartbeat was in the pit of the stomach. Sharp pain in region of heart. Painful stitch at the heart, extending to the right side. Stitch at the heart, which seems to beat slowly.

Kidneys - Urethra inflamed, discharge of yellow matter.

Limbs - Morning soreness and stiffness of muscles. Weakness of lumbar region. Gonorrheal rheumatism. Gonorrheal and syphilitic arthritis. Rheumatic pain in right knee. Itching pimples on hands.

Male - Heat and pain in penis. Painful erections. Chordee. Itching pimples on glans and prepuce. Discharge of yellowish white liquid from the prepuce. Prepuce painful and swollen. The prepuce cannot be drawn back. Phimosis. Suppuration between the glans and prepuce. Acute pain in the left testicle when walking. Heat and swelling of the scrotum. Syphilis. Chancroid.

Mouth - Dry mouth in the morning in bed. Mouth dry and clammy. Raw pain at the left side of tongue. Food tastes flat or acid.

Nose - Sneezing and fluent coryza. Coryza, with heaviness and weariness at the vertex, forehead, and eyes.

Rectum - Constipation. Acute pain with lancinations in the anus. Prickling around the anus. Itching at the anus while sitting. Excrescence at the anus.

Sleep - Restless sleep with frightful dreams.

Stomach - Fullness at the pit of the stomach, with hurried breathing. Pressure at the pit of the stomach. Painful stitch between the pit of the stomach and the umbilicus. Nausea when eating.

Temperature - Internal chill. Dry, prickling heat all over.

Throat - Sore and dry. Vesicles in pharynx. Sore throat with constrictions of the pharynx and difficult swallowing. Constrictive sensation at the throat.

Vertigo - Vertigo on rising with heavy forehead.

COMMENTS - Mahony confirmed symptoms including "Food tastes insipid, nausea during eating." Motion aggravates. Symptoms come on when walking, raising head, sitting.

J. S. Whittinghill cured several cases of muscular rheumatism characterized by a peculiar soreness and stiffness of muscles in the morning.

RELATIONS - Compare: (1) Thuja. - gonorrhea, rheumatism. (2) Cor-r. - red and sensitive chancre and

chancroids. (3) Jac-g.

REFERENCES - Boericke. Clarke.

***JACARANDA GUALANDAI

PHARMACY - jac. Jacaranda gualandai. N. O. Bignoniaceae. The driedleaves are crushed and macerated in five parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Ophthalmia. Rheumatism. Syphilis. **Ulcers.** Vertigo.

HERBAL - Dr. J. S. Whittinghill contributed the following from the Eclectic Medical Journal concerning Jacaranda: "Of this South American remedy the Dispensatory says it is used in Brazil and other South American countries for syphilis, sometimes under the name Carroba."

HOMEOPATHIC - Jac. has syphilitic symptoms, especially of the eyes and throat. Chancroids. **Atonic ulcers.** Dark, painless diarrhea. Weakness of memory and inability to study.

Back - Weakness of the lumbar region.

Eyes - Pains and inflammation of the eye with redness, more marked in the left eye. Sensation of sand in the eyes. Ophthalmia, which begins in the left eye with lachrymation and night agglutination of the eyelids. Syphilitic-like ophthalmia. Weakness of sight.

Male - Pain in the penis. Increased secretion of urine. Gonorrhea with a discharge which stains the linen a dirty yellow color. Chancroids.

Rectum - Diarrhea with dark mulberrycolored stools without pain or tenesmus, but with mucus.

Throat - Pain and burning of the larynx, when laughing or reading aloud. Small vesicles in the pharynx.

Vertigo - Vertigo on rising after stooping, with momentary loss of sight and sensation of heaviness in the forehead.

COMMENTS - Dr. J. F. Con vers, of Bogotá, found Jac. to be useful in certain kinds of rheumatism. He noted the case of one patient who suffered from rheumatism for about 10 years, and never became serious. Sometimes she was nearly relieved from it. She lost a good deal of sleep due to it.

Her wrist would become painful and very weak from ordinary labor. She complained of being stiff and had pain from any motion, particularly in the morning. She needed assistance dressing. Upon sudden motion, she had the sensation of the muscles tearing and being bruised, painful on pressure.

Convers gave her different remedies as they seemed to be indicated with no result. He thought there could be nothing lost by trying Jac. and did so. In a few days, she was entirely relieved of muscular pains.

Six weeks after, her symptoms returned, but a second dose again relieved and the pains did not return.

Con vers tried Jac. on three other patients with the same peculiar morning stiffness and soreness. All were relieved in a few days and experienced no further muscular pains.

Convers used the mother tincture at 5 drops per dose and the 3x dilution of it in the treatment of gonorrhea and chancroids with the great success.

Anshutz noted that it is a complementary and antidote to Merc.

REFERENCES - Anshutz. Boericke. Clarke.

***JADE

(Nephrite)

PHARMACY - jad. Jade. Nephrite. Jadeite. Jade is found in two varieties. Jadeite and Nephrite and comes in a wide range of colors including white, lavender, red, brown, yellow, orange, blue, and green, each color said to relate more specifically to certain ailments or organs. **Historical dose:** The gem mother tincture diluted can be applied externally and given internally. Four to Eight drops of Jade Essence in a cup of pure water. Repeat as needed.

CLINICAL - Asthma. Detoxification. Eye, disorders. Gastric,pains. Heartburn. Kidney, disorders. Kidney, stones.

HOMEOPATHIC - The Portuguese, who brought home jade pieces from their settlement in Canton, China, called jade ***pedre deilharga***, or stone of the loins, because they believed it to be strong medicine for kidney ailments. Jade objects brought back to Spain from the new world were called by the Spanish version of this phrase ***pedra de hijada***. This became the French ***ejade*** and then, finally, jade. Jadeite is from the Spanish, *pedra de ijada*, "stone of the side," because its supposed to cure kidney ailments if applied to the side of the body.

Suggested healing properties common to all colors of Jade include, ability to mellow one's existence, rid negative thoughts and energy, soothe the mind. Thus making tasks

seem easier and less complicated. Strengthen the body's filtration and cleansing systems. Develop a greater

capacity for love, and assist in the removal of toxins. Also said to be a very protective stone.

Jade was known as the kidney stone, and it was widely employed as a remedy for renal disease. It was worn over this organ to break up kidney stones. Powdered and mixed with gold and silver, jade strengthened the lungs, the vocal organs, and the heart and prolonged life.

A potion of jade, rice, and dew was employed to harden bones, make muscles more supple, calm the mind, and purify the blood. Taken regularly, this prescription eliminated hunger and thirst as well as sensations of heat and cold.

Believed to protect the body from decay, jade was used for embalming. When worn around a child's neck jade would guard against infantile disease. It also was worn to relieve gastric pains and heartburn, to calm asthma, and to aid childbirth. Four grains, dissolved in wine, relieved bile.

Suggested healing properties common to all colors of Jade include, ability to mellow one's existence, rid negative thoughts and energy, soothe the mind making tasks seem easier and less complicated, strengthen the body's filtration and cleansing systems, develop a greater capacity for love, and assist in the removal of toxins. Also said to be a very protective stone.

Health, wealth, longevity stone. Ancient Chinese used also for courage, wisdom, justice, mercy, emotional balance, stamina, love, fidelity, humility, generosity, peace, harmony. Lungs, heart, thymus, immune, kidney and blood detoxification, nervous system. A gentle, steady energy.

Increases fertility, longevity. Provides wisdom when evaluating issues or problems. Brings needed energy. Improves concentration. Encourages education. Considered a "Dream Stone." Benefits eye disorders, kidney stones and female discomfort.

COMMENTS - The ancient jade carved in China was what we today call nephrite jade: an amphibolite mineral. In the 19th Century

, it was discovered that the material from the new world was not the same mineral as the jade from China. The mineral from Central America, a pyroxene, was called jadeite to distinguish it from the original nephrite.

Because of its smooth even texture, jade has long been a preferred material for carving. The most common shape is the flat donut-shaped disc called a pi, which is commonly worn as a necklace. The Emerald Buddha, the sacred image that is enshrined at Wat Phra Kaeo in Bangkok, Thailand, is actually beautiful green jadeite. Good fortune, prosperity. A peaceful stone for centuries of primary importance to the people of the Orient (where it is considered to be one of the most importance symbols of purity and serenity). The Chinese referred to jade as the musical stone, because of the melodic tones it makes when struck.

For centuries, jade was thought to be a single gemstone, but in 1863 two types were recognized: jadeite and nephrite. Jade, Venus: Chinese Stone of Heaven. Since at least 2950 BC, jade has been treasured in China as the royal gemstone, yu. The character for jade resembles a capital I with a line across the middle: the top represents the heavens, the bottom the earth, and the center section, mankind.

The word yu is used in Chinese to call something precious, as in English we use gold. Jade was thought to preserve the body after death and can be found in emperors' tombs from thousands of years ago. One tomb contained an entire suit made out of jade, to assure the physical immortality of its owner. For thousands of years, jade was a symbol of love and virtue as well as a status symbol.

RELATIONS - Compare: Aurum Met. Nat. Mur. Rose Quartz.

REFERENCES - Murphy.

***JALAPA

(Ipomoea Jalapa)

PHARMACY - jal. Jalapa. Ipomoea jalapa. Ipomoea purga. Exogonium purga. Convolvulus purga. N. O. Convolvulaceae. Mexico. Trituration of dried root. **Historical dose:** Tincture and all potencies.

CLINICAL - Anus, soreness. **Colic.** Coryza. **Diarrhea.** Gout. Fainting. Restlessness.

HOMEOPATHIC - Jalapa, the well-known purgative of old school practice, had a short proving by Jeanes. Allen cured a case of "coryza in an infant, violent attacks of crying and intense pain, quiet during the day, but screaming all night."

Colic and diarrhea. Severe abdominal pain, "**as if the abdomen would be cut to pieces,**" severe griping, cutting pains. Pain is better by belchings of frothy matter and flatulence.

Cutting colic before and during the stool. Stools are watery, sour smelling and bloody. Stools, watery, muddy or sour, bloody. Infantile diarrhea with general coldness, blueness of face. Pain in sigmoid flexure.

General coldness and blueness of the face. Restlessness and anxiety. Great weakness with fainting fits, excessive uneasiness and tossing about of limbs. Symptoms are worse at night. A child may be quite **quiet all day, but screams and tossed about all night.**

MIND - Great restlessness with anxiety. Fainting fits, weakness. Quiet all day, but screams and tossed about

all night. Weeping in sleep, good during day. Screams and restless all night. Shrieking in children.

Abdomen - Abdomen distended. Pain in middle of abdomen and in region of left superior flexure of colon. Pain in right hypochondrium. Pain in cecum. **Colic**, violent pain in small intestines, as if abdomen would be cut to pieces. Inflammation of intestines. Severe griping, cutting pain in bowels, worse at night. Flatulent rumbling in bowels. Flatulence and nausea.

Back - Severe pain about superior margin of left scapula.

Ears - Humming in ears.

Head - Violent headache. Pain in head, smarting in skin of forehead.

Kidneys - Pain and pressure in region of bladder.

Limbs - Excessive uneasiness and tossing about of limbs. Aching in arms and legs, mostly right side. Pain in thighs. Pain in large joint of great toe. Smarting on inside edge and at root of left great toenail with heat, tearing and pulsation. Burning of soles of feet.

Male - Thrilling sensation in urethra while urinating.

Modalities - Worse night, belchings.

Mouth - Dryness of lips. Tongue, smooth, glazed, dry, smarting and biting. Stinging on tongue and in fauces.

Perspiration - Great disposition to perspiration of head and superior parts of body.

Rectum - Pinching and griping. **Severe cutting, griping pain in bowels**. Cutting colic before and during stool. Watery diarrhea, thin, muddy stools. Stools, violent, excessive, bloody, watery, with weak pulse, sour smelling, with great restlessness and anxiety. Infantile diarrhea, general coldness, blueness of face. Pain in sigmoid flexure of colon. Soreness of anus.

Stomach - Flatulent and frothy belchings with abatement of pain. Nausea.

Temperature - General coldness and blueness of face. Febrile attacks.

COMMENTS - Nash cured with Jal. 12c a desperate case of enterocolitis in which there was screaming all day as well as all night. With the screaming there was constant body contortions, bending forward, backward and sideways alternately.

RELATIONS-Antidotes: Elat., Cann-s. **Compare:** (1) Camph. - diarrhea with coldness. (2) Coloc. - colic. (3) Iris-t. - pain in cecum.

REFERENCES - Boericke. Clarke.

***JASMINUM OFFICINALE

(White Jessamine)

PHARMACY - jasm. Jasminum officinale. White jessamine. N. O. Jasminaceae. Some botanists include jasmine in the Oleaceae. Jasminum should not be confounded with Gelsemium, the "Yellow Jessamine," or "Carolina Jessamine," which belongs to a different order of plants. Tincture of red berries. **Historical dose:** Tincture and all potencies.

CLINICAL - Coma. Convulsions. Lockjaw. Tetanus. Vomiting.

HOMEOPATHIC - W. H. Hull recorded the case of a boy who ate the red berries, causing vomiting, convulsions, tetanus and comatose state. Symptoms went from above downwards and from left to right.

Muscular movements were observed first about the eyes and face, especially on the left side, towards which eyes and facial muscles were directed. The movements became generally more severe, going from head to left arm, then to left lower limbs, until finally the whole body was thrown into violent convulsions.

At one time the spasms were chiefly opisthotonos, when the whole surface was congested almost to a blackened hue, most marked about the muscles of the head and throat, jaws locked, trismus complete, better by a bath. The body was weak and almost helpless for a few days. Lay on the floor in a fainting fit. Perfect insensibility. Surface cool.

MIND - Comatose condition. Perfect insensibility.

Eyes - Pupils immoderately dilated.

Face - Face pale. Muscular movement first above eyes and face, especially left side towards which eyes and facial muscles were directed.

Lungs - Breathing somewhat bronchial but of unusual frequency.

Pulse - Slow and feeble.

Stomach - Vomiting. Slight emesis after first sleep.

COMMENTS - The Treasury of Botany stated that the bitter leaves of Jasminum floribundum are used in Abyssinia against tapeworms. In India, the bitter root of Jasminum angustifolium, powdered and mixed with the powdered root of Acorus calamus, is considered an excellent application in ringworm.

*** JATROPHA CURCAS

(Purging Nut)

PHARMACY - jatr. Jatropha curcas. Purging nut. Atrophacurcas. Physic nut. N. O. Euphorbiaceae. West Indies. Tincture and trituration of **seeds**. **Historical dose:** Trituration, tincture and all potencies, third to thirtieth potency.

CLINICAL - Blepharospasm. Borborygmi. **Cholera**. Cholerine. Constipation. Cramps. **Diarrhea**. Eyelids, inflamed. **Food, poisoning**. Heels, sensitive. Hiccough. Mouth, ulceration. Skin, disorders. Tympanites. Vomiting. **Worms**.

HOMEOPATHIC - Jatr. is one of the most active of the Euphorbians and strongly resembles Croto-t. in its action, especially in the urgent gushing stools and the irritation and pimples of the skin. It is also an active purgative, affecting the stomach and intestines.

Kent described the sphere of Jatr. in cholera, noting that "The characteristic is rice water discharge, it has vomiting and purging, more or less sweat, more or less cramps. Suppression of urine, the great prostration, syncope and rapid onset peculiar to cholera and it has this to differentiate it from all other remedies. The vomiting and purging and evacuations are thick, albuminous, lumpy instead of thin and watery."

Jatr. corresponds more to the earlier stage than to the collapse stage of cholera. Predominant cramps, gripping cutting pains, sensation as if balls were rolling together in abdomen. Violent cramps that draw the muscles of calf flat. The patient writhes about in bed with pain.

Sudden desire for stool and constant noise of liquids in abdomen, especially left side. Marked and peculiar gurgling, like water. **Much noise in the abdomen as if a bottle was being emptied**, followed later by a thin stool or by profuse gushing stools. Rice water stools.

Vomiting, easy, albuminous. Hiccough followed by copious vomiting. Unquenchable thirst. **Food poisoning**. Icy **coldness** of the whole body, especially lower limbs.

MIND - Apathy. Indifference to pain. Anxiety and anguish, with burning in stomach and coldness of body.

Abdomen - Abdomen swollen and sore to touch. Tympanites. Pain in hypochondria, deep in abdomen, behind the navel. Gripping, sticking, in abdomen. **Lancinating, stinging pain with the colic**. Colic with rumbling in abdomen, better walking in open air. **Distended with gurgling noises**. Much noise in abdomen, as if a full bottle was emptied, followed by thin stool. **Noise like the gurgling of water** during the fecal discharge. Sensation as if balls were rolling together in abdomen.

Back - Stiffness of muscles of nape of neck and forehead. Bruised feeling muscles of back and chest. Stiffness in lumbar region.

Chest - Constriction in chest with anxiety, preventing sleep. Violent aching pain in left clavicle. Sticking from above downwards, deep in chest behind sternum. Pain in region of left third rib inside the nipple.

Ears - Burning hot ears with heat in the back part of the head.

Eyes - Itching and smarting of margins of lids. Twitching of left upper lid. Bright and dark spots before eyes. Black points before eyes.

Face - Hot face and head, chilliness in the back. Pale face with blue margins around the eyes. Painful cracked lips.

Female - Vomiting during pregnancy.

Food - Great thirst. Violent, unquenchable thirst, not satisfied by drinking water. Dreads to drink on account of nausea. **Food poisoning**.

Head - Heat and heaviness of the head. Heat in head, face and ears. Stupor with yawning and nausea. Headache with nausea and vomiting. Violent pressing pain in the temples, ceasing in open air and re-appearing when entering room. Stiffness of muscles on forehead and neck.

Heart - Feeling of sinking and nausea in the precordial region, followed by soft stool. Violent palpitation, shaking the chest, when moving slowly about the room. Pulse is irregular, small thready and intermittent, greatly slowed. Almost pulseless.

Kidneys - Violent urging to urinate. Urine pale yellow, frothy.

Limbs - Muscles of limbs contracted by violent spasms. Pain in the limbs and joints. Cramps in muscles, especially calves, legs and feet. Pain in ankles, feet and toes. Heels sensitive.

Liver - Pain in region of liver and under right scapula to shoulder.

Lungs - Painful pressure right side of larynx at night, waking him, not worse by touch. Respiration quick, panting, difficult. Short, hacking, persistent cough. Hollow cough.

Male - Aching in genital as after excessive sexual intercourse. Drawing in genitals, extending along inner side right thigh to navel.

Modalities - Better by placing hands in cold water. Worse summer, walking in open air, morning, pressure,

touch, covering. Patient seeks to cool himself by throwing off covers and lying on ground. Headaches are worse in a room.

Mouth - Metallic, bloody taste with much spitting of saliva. Increased accumulation of thin saliva. Long continued pain and burning of the tongue. Numbness of tongue with heat and dryness of mouth. Mouth feels as if scalded.

Nose - Ulcers in the nose and mouth. Itching of the nose while eating.

Rectum - **Loud noise in abdomen like gurgling of water**, associated with coldness, cramps, nausea and vomiting. First stage of cholera, before collapse. **Diarrhea, forced discharge**. Sudden, profuse, watery, rice-water stool, gushes from him like a torrent. Very copious, mushy stools with quantities of lumbrici and threadworms. Constipation. Stitches in anus and rectum.

Skin - Pimples on wrist, back of hand, cheek, back of neck, bend of right thigh. Itching and slightest tension around mouth. Itching between fingers in palms, between toes in bed at night, first worse then better by rubbing.

Sleep - Excessive drowsiness. Restlessness at night on account of rush of thought and palpitations. Attacks of anxiety at night, not permitting sleep.

Stomach - Heat and burning in stomach with crampy, constrictive pain in the epigastrium. **Food poisoning**. Belchings of air. Hiccough, followed by copious vomiting. **Very easy vomiting**, of a large mass of dark green bile, with acrid feeling from throat. Nausea and vomiting, brought on by drinking water. Vomiting during pregnancy.

Temperature - Chilliness and clammy perspiration. Coldness of the whole body, mottled blue. Chilliness in the back, cold hands, blue nails, with heat in the mouth, throat, face and head.

Throat - Burning in the mouth and throat, followed by dryness. Spasmodic constriction in throat, ascending from stomach.

Vertigo - Giddiness, followed by unconsciousness and delirium.

COMMENTS - Diarrhea associated with coldness, mottled blue surface, cold sweat. Sudden desire for stool. Diarrhea accompanied by copious and easy vomiting of watery, albuminous, ropy liquid. Water is almost immediately vomited. Cholera. Suddenly occurring summer diarrhea.

Mouth dry, itching between toes, at night. Profuse, watery diarrhea after midnight. In the morning, stools, headache, are worse. Metallic bloody taste, much spitting of saliva. Farrington noted that it is useful in cases of suppressed measles.

RELATIONS - Compare: (1) Camph., Verat., Gamb., Crot-t. (2) Jatr-u., Sponge nettle - edema and cardiac paresis.

REFERENCES - Clarke.

***JATROPHA URENS

(Spurge Nettle)

PHARMACY - jatr-u. *Jatropha urens*. Spurge nettle. Tread softly. N. O. Euphorbiaceae. Southern United States. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Cardiac, paresis. Edema.

HOMEOPATHIC - According to Allen, this is the most poisonous plant known. He quoted, from the Kew Gardens Quarterly, the experience of Mr. Smith, who touched his wrist against the fine bristly stings of the plant while reaching over it. He experienced numbness and swelling of the lips. His circulation stopped and Smith soon fell unconscious, the last thing he remembered were cries of "Run for the doctor!"

COMMENTS - Other *Jatropha* include *Jatr. glauca*, or *Jatr. glandulifera*, of the East Indies. It has a curious nodulated, gouty looking stem. When crushed, the seeds yield an oil that is used as an external application against rheumatism.

REFERENCES - Clarke.

***JOANESIA ASOCA

(Ashoka Bark)

PHARMACY - joan. *Joanesia asoca*. Ashoka bark. *Jonosia asoca*. *Saraca indica*. Bark of an Indian Tree. N. O. Caesalpinioideae. Tincture of bark or seeds. Dried bark. **Historical dose:** Tincture and all potencies.

CLINICAL - **Amenorrhea**. Constipation. Dysmenorrhea. Emaciation. Fibroids. Headache. Hemorrhoids. Hysteria. Leucorrhea. Menopause. Menorrhagia. Metrorrhagia. Nausea. Palpitations. Uterine, disorders. Vomiting.

HERBAL - *Joanesia* is a noted plant in India and its therapeutic properties in curing and alleviating all sorts of

menstrual troubles and uterine disorders date back from antiquities. Long-lasting costiveness, occasional headache and vertigo associated with uterine derangements are some of the marked symptoms of the drug. Joanesia is a sovereign remedy for amenorrhea or scanty menses with intolerable pain and burning sensation during the passage of urine. In dysmenorrhea its efficacy has been verified by several homeopaths of our country.

The Ayurvedic physicians prize it as an uterine tonic. It imparts a healthy tone and an all round strength to the uterus which has been weakened by long-lasting disorders of the uterus.

In the cure of leucorrhea its action can never be questioned and upon bloody leucorrhea, whether acute or chronic, it exerts an exhilarating and permanent curative action which sometimes appears to be a miracle. It removes weakness and physical emaciation to the females suffering from long - lasting uterine complaints, or due to those causes.

It is generally considered to be an astringent medicine and uterine sedative. It is said to possess a stimulating effect on the endometrium and on the ovarian tissue.

Joanesia is extensively employed in uterine ailments especially menorrhagia which is the outcome of uterine fibroids and other causes.

In cases of bloody leucorrhea its efficacy is sure and pronounced. Menstrual flow appears too soon, is copious and lasts long and this sort of flow makes the female very weak, anemic and bloodless, she experiences burning sensation all over the face and eyes suffers from pain in the lumbar region and constipation.

Joanesia is considered by competent authorities to be an excellent remedy for the eradication of the above complaints. Asoka will be found to be a grand medicine if the menstrual flow be stopped for any cause and for which colicky abdominal pains supervene.

HOMEOPATHIC - Joanesia was introduced by Dr. N. D. Ray, of Calcutta. Extensive sphere of action on female organs. Amenorrhea and metrorrhagia.

The remedy is principally used by the native physicians of India for menorrhagia, metrorrhagia, leucorrhea from delayed menses or in the place of menses. Infantile leucorrhea, child getting thin and emaciated in spite of getting usual nourishment.

Joanesia has been found to be an excellent medicine for the complaints appearing at the time of menopause. For barrenness it is generally used with success.

In bleeding piles, its efficacy has been verified. In bleeding piles, the color of the blood is red. the patient experiences severe pain and stiff feeling in the back and suffers from constipation, there is burning sensation while passing urine, and there is also burning of the hands, feet and eyes in the evening.

MIND - The patients are generally affectionate, nervous, sentimental, gloomy and religious. Good-natured, affectionate. Absentminded. Timid. Easily weeping, easily excitable, easily fatigued. Disinclination to work. Not very imaginative.

Changeable thoughts. Satisfied with small things. Slow to understand. Disposition to take cold easily, feels better in the open air. Impatient. Cannot bear sufferings. Hysterical exaggerates sufferings.

Abdomen - Hard distended abdomen, pain on pressure, passage of foul-smelling wind, eructation, flatulent colic, worse in the evening, soreness in lower abdomen or pelvis.

Back - Coldness between shoulders. Pain along spine, radiating to abdomen and thighs. Pain at the apex of the neck along the spine. Pain in sacrum and in back radiates on both sides of the abdomen and down the thighs.

Bladder- Irritable bladder. Bladder irritable, desire for frequent passage of urine. Tenderness of bladder.

Chest - Tight feeling across the chest.

Ears - Pains in ear. Hardness of hearing especially after catarrhal or severe cold.

Eyes - Pain in the eyeballs. Redness of the conjunctiva. Burning and itching sensation. Styes on upper lids. Profuse lachrymation. Short-sightedness. Great sensibility of eyes to light. Supra-orbital pains on one or both sides. Great photophobia. Tired feeling in the eyes with least exertion, such as reading and staring at an object.

Face - Paleness of the face, alternately with heat and redness of the cheeks. Pimples on the face.

Female - Menses suppressed and irregular. Headache due to suppression of menses. Severe headache due to scanty flow of menses with severe pain all over the lower parts of the abdomen, pain in back and thighs. Menstrual colic. Delayed and irregular menses. Menstrual discharge scanty, pale and watery, sometimes bad odor and blackish, slightly clotted and painful. Leucorrhea. Amenorrhea at puberty with headache, palpitation, hysteria, loss of appetite, constipation. Pain in ovaries before the flow. Congestive feelings in pelvic organs as before menses. Pain in both ovarian regions. Pain in the sacral region, better on the appearance of menses with free flow. Menorrhagia.

Food - Want of appetite and dislike for food. No desire for food, eats little. Thirsty. Desire for sweets. Desire for acid and sour things. Drinks large quantities of water. Disinclined to take milk, which when taken agrees

well.

Head - Stupefying headache, frontal headache, worse sometimes on right temple and sometimes on the left. Unilateral headache. Reflex uterine congestive headache. with scanty menstrual discharge relieved by free flow, nausea, vertigo, disinclination for food or drink, periodical headache, better after bathing, sweat of forehead, relieved of all symptoms in the open air, heaviness of the whole head. Congestive headache, better open air and by free flow.

Heart - Palpitations. Pain in the region of the heart. Pulse quick, full and hard. Accentuated first sound. Palpitations, worse on movement or walking or bending forward.

Kidneys - Urine scanty, bloody, passes frequently. Involuntary urination at night in bed. Profuse emission of watery urine, pain in loin.

Limbs - Weakness in limbs. Shifting pain from place to place. Pains in small joints. Numbness of the limbs. Pain along the thighs.

Lungs - Respiration hurried. Difficulty in breathing when walking, worse in the afternoon and evening. Hacking throat cough.

Male - Testicles swollen, drawing pain in the spermatic cords, itching in the scrotum, discharge of prostatic fluid, emission at night with or without dreams.

Mouth - Dryness of the mouth, excessive thirst, drinks large quantities of water at a time, tongue coated with thick, white or brown coating, bleeding of the gums, toothache.

Nose - Nasal catarrh, sneezing, profuse watery discharge from the nose. Nostrils sore. Obstruction of the nose. Loss of sense of smell. Ulceration of the nostrils. Profuse bleeding from the nose of red color.

Rectum - Hemorrhoids. Obstinate constipation. Feces are hard. Large stool and passed every third or fourth day. Evacuation difficult, pain before stools. Stools are covered with slime or mucus. Pains on the back. Soreness in anus. Blind or bleeding piles. Protrusion of hemorrhoids with itching, smarting and pain.

Sleep - Disturbed sleep. Sleeplessness. Fearful dreams. Dreams of traveling.

Stomach - Excessive nausea, sometimes vomiting. Vomiting of bile. Bilioussness. Pain in epigastrium. Colicky pain.

Temperature - Chilliness without thirst. Dry heat with restlessness. Redness of cheeks. Flushed face, running from the nose, catarrhal symptoms.

Throat - Redness of the throat, tonsils and uvula, sore throat, easily takes cold, troublesome throat cough.

REFERENCES - Boericke. Clarke. Ghose.

***JUGLANS CINEREA

(Butternut)

PHARMACY - jug-c. Juglans cinerea. Butternut. Juglans cathartica. N. O. Juglandaceae. North America. Tincture of bark of root. Triturations of the resinoid Juglandin. **Historical dose:** Tincture and all potencies, tincture to third potency.

CLINICAL - Acne. Angina pectoris. Axilla, pain. Chest, pain. Gallstones. Coryza. Dropsy. Eczema. Erysipelas. Erythema nodosum. Gallstones. **Headaches.** Herpes. Hydrothorax. Impetigo. Lichen. Migraines. Pemphigus. Ringworm. Rodent ulcer. Scapula, pain. Scarletina. Tetters. Vision, lost.

HOMEOPATHIC - The butternut and the black walnut (Juglans nigra) are the American representatives of the walnut family. It has a reputation as a mild cathartic. Applied to the skin, the juice causes reddening and blistering. It was successfully used in camp diarrhea and dysentery in the early American wars. The green rind, rubbed on tetters and ringworm, has a reputation for curing them.

Jug-c. and Jug-r., or Nux Juglans, have both been proved and studied. With both, the digestion is disordered, accompanied with other acute symptoms, including headaches. These are followed by chronic skin disorders. Sharp, **occipital headache**, usually associated with liver disturbance. Pain in chest, axilla and scapula with suffocative sensation. Feeling as if all internal organs were too large, especially those of left side. Gallstones. **Faulty elimination** that produces jaundice and various skin eruptions. Itching is worse when overheated from exercise.

MIND - Absent-minded. Confusion. Difficulty concentrating. Dull feeling, cannot remember anything that was read. Depression of spirits. Aversion to company. Want to do nothing but eat and sleep.

Abdomen - Soreness in region of liver.

Stitches in hepatic region, and under right scapula. Pain in the hypochondrium. Heavy pain in umbilical region. Flatulent pain in different parts of abdomen. Burning in abdomen after stool.

Back - Muscles of neck rigid, lame. Pricking up and down spine. Pain in lumbar vertebrae. Pain between scapula. Sticking under right scapula on stooping.

Chest - Pain in left chest. Retro-sternal pain. Angina pectoris. Oppression at chest, hindering long breathing

with cutting pains in lungs. Tuberculosis with great emaciation. Dropsy of chest, of rheumatic origin.

Eyes - Eyes red and swollen. Inflammation, with pustules on lids and around eyes. Eyes burning in afternoon. Feeling in eyes as if drawn together. Loss of vision on sudden motion, with faint-like giddiness.

Face - Pallor. Erythematous redness with dry, burning sensation.

Food - Ferocious appetite. Thirsty, wants to drink all the time.

Head - Dull, full head. Head feels enlarged. Dull headache, better when getting up. **Sharp, occipital headache.** Severe headache, can hardly see. Eruption on scalp. Itching of scalp, intense, must scratch constantly. Pustules on lids and around eyes.

Kidneys - Frequent and copious urination, with burning, smarting, with a headache.

Limbs - Aching pains in the limbs. Sharp, rheumatic pain in shoulders and wrists. Pain in right axilla in afternoon. Pain in elbows and knees. Cramp-like pain in hip at night. Pain in thighs and left knee in forenoon. Occasionally sharp pain in calves.

Lungs - Expectoration of very tenacious mucus, raising a quantity of dark blood.

Modalities - Better getting heated, exercise, scratching, rising in the morning. Worse walking, chest pains. Going up hill causes retro-sternal pain. Stooping causes pain in scapula and back.

Mouth - Acrid feeling in mouth and throat. Coppery taste. Tongue coated white, yellow in the morning. Dryness of root of tongue and fauces. Burning and pricking in mouth and throat. Swelling of submaxillary glands, worse right. Soreness in region of tonsils, externally.

Nose - Tingling in nose, sneezing. **Coryza, preceded by pain under sternum,** with threatening suffocation. Copious, bland, thick mucus discharge.

Rectum - Constipation, with griping in umbilical region. Constipation preceded by diarrhea. Diarrhea with burning in anus before and after stool. Yellowish- green stools with tenesmus and burning at anus. A drastic purge, producing irritation and inflammation of mucus membrane of bowels. Bilious, copious, frequent, painless stools. Loose stool, smelling like onions. Camp diarrhea.

Skin - Jaundice with pain about liver and right scapula. Red-like flush of scarlatina. Erythema and erysipelatous redness. **Itching and prickling when heated.** Eczema, especially on lower limbs, sacrum and hands. **Pustules.**

Sleep - Constant yawning, without sleepiness. Sleepiness. Sleeplessness after 3 a.m. Sleep restless, light, unrefreshing. Dreams are vivid, frightful.

Stomach - Burning in stomach. Sinking in stomach extends to abdomen, with headache. Atonic dyspepsia with much belchings and flatulent distention. Nausea in morning. Nausea worse at night.

Temperature - Chilliness, alternating with flashes of heat. Chilliness along spine, beginning in back when near the fire, without coldness of flesh.

Throat - Sore throat in forenoon with roughness on swallowing. Faoes dry. Pain in right side of fauces. Burning in pharynx.

Vertigo - Vertigo with slight nausea. Slight vertigo with sinking faint feeling in stomach extending to abdomen.

COMMENTS - Scrofulous and scorbutic conditions. Rheumatic pains. Characteristic sharp shooting pain in occiput. Headache, with frequent urination and burning. Morning headaches (Nux-v., Bry., Chef, Iris.). Disturbance of the digestive organs (Iris.). Pains in liver and right scapula. Epigastric sinking, extending to the abdomen, with a headache. Acute diarrhea.

Dark, clotted hemorrhage from the lungs (Jug-r., from the uterus). Acute pains and numbness in the axilla (Jug-r. affects the skin and glands of the axilla).

Eruptions. Scarlatina. Rodent ulcer. One patient who was taking Jug-c. for acne developed all the symptoms of angina pectoris.

RELATIONS - Compare: (1) Juglin. - duodenal catarrh, bilious diarrhea. (2) Chef, Bry., Iris.

REFERENCES - Boericke. Clarke.

***JUGLANS REGIA

(Walnut)

PHARMACY - jug-r. Juglans regia. Walnut. Nux juglans. N. O. Juglandaceae. Tincture of leaves and of rind of green fruit. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Anus, burning. Axillary glands, suppuration. Chancre. **Eruptions.** Exhaustion. Eyes, pain. Favus. Flatulence. Headaches. Herpes. Levitation, sensation. Menorrhagia. Purpura. Ringworm. Skin, disorders. Scurvy. Spleen, pain. **Styes.** Syphilis.

HERBAL - The Treasury of Botany noted, "Its plantation should not be too near dwellings, as some persons are affected by the powerful aroma of its foliage. It was said that in the golden age, when men lived upon acorns, the gods lived upon Walnuts and hence the name of Juglans, Jovis glans or Jupiter's nuts".

HOMEOPATHIC - Excited, as if intoxicated in the evening in bed and a feeling as if the head were floating in the air, or as if flying. Sharp pains in the forehead (Jug-c. in the occiput). Muscles relaxed. **Prominent skin eruptions.** Exhaustion and disinclination for the usual business.

MIND - Mental indolence. Disinclined to talk or argue. Inattention when reading and disinclination to work. Peevishness. Discontented in evening. Excited in evening in bed as if intoxicated. Feeling as if the head were floating in the air.

Abdomen - Fullness, bloated, tension and heaviness in the abdomen. Pain in epigastric region with distention of abdomen. Drawing with pressure in region of spleen. Pain above umbilicus.

Back - Stitches in sacral region. Violent stitches in the small of the back, causing one to tremble.

Chest - Oppression. Sticking in lungs not dependent on motion or respiration. Itching on the sternum.

Ears - Aching and fullness in right, then left ear, followed by a discharge of pus from both ears. Burning in left ear, then redness and swelling. External ear inflamed, with painful sores. Eruption behind ears of children.

Eyes - Burning in eyes. Pressive pain above eye (left) worse by motion. **Styes.** Feeling of coryza.

Face - Swelling of left cheek and upper lip.

Female - Menses preceded by pressive drawing pains in the abdomen, worse by motion, accompanied with general exhaustion and loss of appetite. Menstruation early, too profuse, discharge of a large quantity of black, pitch-like clots.

Food - Unusually great appetite without increase of thirst. Thirstlessness while eating and aversion to wine. Appetite lost. Thirst increased. Aversion to tobacco smoking in the evening.

Head - Confused, feels as if head were floating in air. **Occipital sharp pain.**

Kidneys - Frequent desire to pass water from loss of tone of sphincter. Constant urging and involuntary dribbling. Copious urine, but no thirst. Urine scanty, clear, dark red.

Limbs - Drawing pain, as if sprained. Paralyzed feeling in legs and knees with weakness. Sticking and itching in right leg and right fingers.

Male - Frequent erections day and night. Burning in penis after sex.

Modalities - Worse by motion. Worse after fat food, evening, at 9 p.m. and after 9 p.m. Migraine worse by speaking. Pain in abdomen worse by laughing. Warmth of bed aggravates toothache. Itching, worse at night. Rash aggravated by undressing, washing.

Mouth - Tongue coated white in morning with bitter, slimy taste. Salivation. Tearing in hollow teeth, worse warmth of bed.

Rectum - Stool twice a day, preceded or accompanied by pain in abdomen. Thin, soft, large, hard, difficult, scanty stool. Large stool, then burning pain and pressure in anus. Stool delayed. Constipation. Itching at the anus in the evening, with stitches, compelling one to walk about.

Skin - Comedones and acne of the face. Itching and eruptions of small red pustules. Pimples on face, red pimples on face, neck, shoulders and back. Scalp red and

itches violently at night. Crusta lactea with soreness around ears. Chancre-like ulcer. Axillary glands suppurate.

Sleep - Yawning in afternoon with stretching. Sleepiness. Inability to sleep after dinner, though inclined to do so earlier than usual. Restless sleep with frightful dreams.

Stomach - Fullness and bloated of the stomach. Burning in stomach. Hiccough more violent after eating. Belchings are violent, frequent, loud, tasting as after eating fat. Nausea at 6 a.m. and after supper. Vomiting, woke suddenly vomited food eaten four hours before, then slept without further trouble.

Throat - Aphonia or great hoarseness. Hawking of much mucus.

COMMENTS - Severe flatulence and bloating of the abdomen. Affects the spleen more than the liver (opposite of Jug-c.). Diarrhea and many rectal and anal symptoms. Hemorrhagic, blackandclottedblood (Jug-c., Cary.), particularly uterine hemorrhages. Inflammation and ulceration in the male sexual organs.

Pronounced skin symptoms. Scrofula. Scabs on the arms and in axilla. Symptoms go from the right axilla to the left.

Farrington said Jug-r. is one of the best remedies in "tinea favosa, especially in the scalp behind the ear, itching is intense at night so that the patient has difficulty in sleeping."

Clotar Miiller, who experienced the axillary skin symptoms in his own person, had never suffered from a skin affection before. One of the provers was cured of an itching eruption of the legs from which he had suffered in winter for four years, the itching commencing as soon as he began to undress.

Many of the symptoms closely resembled syphilis and the affection of the cheek in one of the provers was actually diagnosed as syphilitic by a doctor who saw him in Miiller's absence. The left side of head, face and abdomen were mostly affected. Axillary symptoms proceed from right to left.

In one case, a nurse poisoned her left arm some years before from septic and possibly syphilitic cause,

inflammation of

Jugions regia the axillary glands ensued, first of the left then of the right, leaving an eczematous itching condition. The glands of the groin also became affected.

Elaps. 200c relieved the bulk of the conditions, but there was still a little irritation occasionally in the axilla and Jug-r. 2c three times a day was given.

Five days after beginning the Jug-r., an eruption of minute vesicles appeared on her back, itching a great deal. It extended up the center of her back from sacrum to mid-dorsal region, spreading out below, tapering above. She had scratched holes in two places.

The rash was worse after washing. All soreness and irritation had gone from the arms and axilla. The rash was antidoted with Rhus-t. 2c. She had no more trouble with her glands.

Muller observed, "In the digestive organs it causes derangement and irritation, which simultaneously call forth abnormal symptoms in other organs, especially in the head. After this action, which is brief, appear various exanthematous symptoms, which appear late and run a chronic course."

RELATIONS-Antidotedby: Rhus-t. **Compare:** (1) Jug-c., Cary. (2) Rhus-t. - skin. (3) Graph. - tinea favosa behind ears. (4) Rumex - rash worse undressing. (5) Mez., Merc. (6) Cean. - spleen. (7) Lyc. - flatulence.

Follows well: Elaps. - axillary affections, black hemorrhages. Sulph. - head hot, cold limbs. Grind. - pain over left eye.

REFERENCES - Boericke. Clarke.

***JUNCUS EFFUSUS (Soft Rush)

PHARMACY-junc. Juncuseffusus. Softrush. Common rush. Juncus communis. N. O. Juncaceae. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Backache. Calculus. Catarrh. Dropsy. Dysuria. Flatulence. Headache. Kidney, diseases. Rheumatism. Scars disorders.

HERBAL - According to Nowack and Rinks, Juncus is a diuretic and has been used in dropsical, kidney stones and kidney diseases. Hartmann used the tincture with success in dysuria, strangury and ischuria. In Livonia, a decoction is used for stone and gravel.

HOMEOPATHIC Junc-e. was proved by Dr. Whale, producing a number of symptoms. The exact preparation used in the proving was not recorded. Fresh plant tinctures should be used in any further experiments.

The most notable symptoms were **bubbling sensations** in various parts. A number of pressive and sticking pains were noted in the chest. Pulling in cervical vertebrae in neck muscles. Rumbling of flatus in abdomen; abdominal symptoms were markedly better when flatus was emitted.

Rheumatic pains worse by rest, on left side, appeared or were worse at night and came on again in morning and evening. Worse flexing parts, bending sideways. Better stretching out arm. Chilliness worse on uncovering. Better by motion.

RELATIONS - **Compare:** (1) Rhus-t. - worse rest and uncovering, better stretching. (2) Berb. - bubbling sensations. (3) Sil. - scars.

REFERENCES - Boericke. Clarke

***JUNIPERUS COMMUNIS

(Juniper Berries)

PHARMACY - juni-c. Juniperus communis. Juniper berries. N. O. Gymnosperm of the Conifer. Cupressaceae. Juniperus. Tincture of fresh ripe berries. **Historical dose:** Tincture and all potencies.

CLINICAL -**Allergies.** Cedar, fever. **Coryza. Coughs.** Dropsy. Dysmenorrhea. **Hay fever.** Hemorrhages. Nephritis. Pyelitis.

HERBAL - Gin owes its distinctive properties to the oil of juniper berries, perhaps explaining why the spirit is in such popular repute as a remedy for dysmenorrhea. It has a very powerful action on the kidneys and has cured cases of kidney dropsy.

HOMEOPATHIC-Juni-c. has not been proved, but sufficient is known of its action to warrant its inclusion and to show the analogy between its action and that of Sabina.

Hale commended it in certain coughs with scanty, loaded urine. He said German doctors used juniper in gastric affections, abdominal flatulence and colic. Catarrhal inflammation of kidneys. Dropsy with suppression of urine. Elderly persons with poor digestion and scanty secretion of urine. Chronic pyelitis.

Chest - Painful ribs and sternum from coughing attacks (Bry.).

Kidneys - Nephritis. Strangury, bloody, scanty urine, violet odor (Tereb.). Weight in kidney region. Pyelitis. Kidney hyperemia (Eucal.).

Lungs - Severe, painful coughs. Cough with scanty, loaded urine.

Male - Prostatic discharge.

Nose - Coryza. Hay fever. Allergies. ***Violent sneezing from cedar pollen.***

Comments - Hale wrote, "I have known cases of dysmenorrhea and uterine hemorrhage cured by the common Juniper, and I have treated some kidney and bladder difficulties with Juniper. The popularity of pure gin in dysmenorrhea is owing to the effects of the oil of Juniper berries which it contains.

"In domestic practice, an infusion of Juniper leaves and berries is used successfully in amenorrhea and dysmenorrhea, as well as retention, suppression, and other urinary troubles.

"In some cases of dropsy, a tincture of the berries, or the oil of Juniper, will act on the kidneys favorably after the failure of other medicines.

"We ought to have provings of the common Juniper, and give it a place in our Materia Medica. I would also suggest that the tincture be made from equal parts by weight of the fresh berries and green leaves. The Oil of Juniper of commerce is made from the berries alone.

"German physicians make much use of Juniper in gastric complaints, in abdominal flatulence, colics, and even in some hepatic affections. I know that the 3x of Oleum juniperus is useful in certain coughs, with scanty urine, loaded with solid matters."

RELATIONS - Compare: (1) All-c., Wye., Sabin., Tereb.

***JUNIPERUS VIRGINIANUS

(Red Cedar)

PHARMACY - juni. Juniperus virginianus. Red cedar. N. O. Gymnosperm of the Conifer. Tincture of fresh twigs. Tincture of twigs and berries. Tincture of the oil. ***Historical dose:*** Tincture and all potencies.

CLINICAL - Chilliness. Comatose. Convulsions. Cystitis. Delirium. Dropsy. Dysuria. Eyes, twitching. Fever. Nausea. Pyelitis. Strangury. Strokes. Tetanus. Uterine, hemorrhage. Vomiting.

HOMEOPATHIC - The effects of Juni. have been largely observed on women who have taken it to stimulate the uterus or bring on the menses. A number of fatal cases have occurred from overdose of the herb.

The patients passing into violent convulsions, followed by an apoplectic or stroke condition, insensibility and collapse. Hands at times clenched. Jaws firmly fixed. Staggering. Comatose sleep. Chilliness. Rigors followed by fever. Considerable fever and pain, similar to labor pains. Sweats. Pulse very irregular.

Persistent dragging pain in back. Hyperemia of kidneys. Pyelitis and cystitis. Dropsy of the aged with suppressed urine. Violent tenesmus of bladder. Constant urging to urinate. Dysuria, burning, cutting pain in urethra when urinating. Uterine hemorrhage.

Mind - Emotional during the paroxysm of fever. Fright. Raved incoherently. Delirious. Insensible state. Moaning.

Abdomen - Abdomen swollen and hot.

Complained of intensity of pain in abdomen. Pain in the bowels. Thirst.

Bladder - Cystitis. Violent tenesmus of bladder. Constant urging to urinate. Dysuria, burning, cutting pain in urethra when urinating.

Eyes - Eyes bloodshot. Sclerotic congestion. Pupils dilated. Eyes glare and twitch. Eyes felt as if bursting from their sockets.

Face - Very red, swollen and livid face. Veins of the face, head, and neck fully distended. Ecchymosis.

Female - Uterine hemorrhage.

Food - Great thirst.

Head - Head felt as if enclosed with an iron band.

Kidneys - Hyperemia of kidneys. Pyelitis. Great difficulty in passing urine.

Rectum - Violent purging. Bowels loose.

Skin - Skin dry and parched.

Sleep - Deep, comatose sleep.

Stomach - Considerable distension and tenderness at pit of stomach. Stomach pain. Sick and distressed in stomach. Nausea and vomiting a black and then a greenish matter. Heartburn.

Throat - Fauces in spots denuded of their mucus covering.

REFERENCES - Allen. Clarke.

***JUSTICIA ADHATODA

(Malabar Nut)

PHARMACY-just. Justiciaadhatoda. Malabar nut. Adhatoda vasica. Vasika. Singhee. An Indian Shrub.

Acanthaceae. Tincture of the fresh leaves. **Historical dose:** Tincture and all potencies.

CLINICAL-Allergies. Appetite, loss. Asthma. Blood, spitting, Bronchitis. Colds. Constipation. **Coryza.** Coughs. Depression. **Dyspnea.** Fevers. **Hay fever.** Jaundice. Pneumonia. **Sneezing.** Thirst. Tuberculosis. Vomiting. Whooping cough.

HERBAL - The Ayurvedic physicians of India prize justicia. They are so very sure of its efficacy that they call it Vaidyamata, i.e. mother of physicians. They claim that no death can occur from cough of any kind if Vasika can play its role and find time to display its healing virtues.

HOMEOPATHIC - Dry, spasmodic, constricted cough. Violent **dyspnea** associated with the cough. Threatened suffocation. Whooping cough, with breath loss, pale, stiff and blue, and rigidity of the body. Cough with tightness of chest, as if it would burst with bronchial rattle, obstruction of breath and sneezing. Vomiting with the cough, no food or drink is retained. Dry mucus membranes, especially of the mouth and throat, with thirst. Tough expectoration. Acute catarrhal conditions of the respiratory tract, particularly in the beginning. Colds.

Coryza, fluent, acrid with violent sneezing, coughing or asthmatic attacks. **Fits of sneezing** with lachrymation and loss of smell and **taste. Allergies and hay fever.** Bronchitis, pneumonia. First stages of tuberculosis, with spitting of blood. Hoarseness.

Functional derangements of the liver. Jaundice. Thirst. Great loss of appetite. Obstinate constipation.

Stiffening out, trembling and convulsions with cough or fever. Puffy hands and feet in morning. Chilliness. Fever. Marked oversensitiveness to external impressions.

MIND- Irritability, easily angered. Bad humor. Anxious and discouraged. Depression of spirits. Averse to conversation. Sensitive to external impressions.

Chest - Tightness across chest, as if it would burst.

Coughs - Cough with sneezing. Dry cough from sternal region all over chest. **Paroxysmal cough** with suffocative obstruction of respiration. **Whooping cough.**

Eyes - Lachrymation.

Head - Hot, full and heavy head.

Limbs - Puffy hands and feet in morning.

Liver - Jaundice. Liver weakness. Liver pains.

Lungs - Acute catarrhal conditions of the respiratory tract. **Severe dyspnea with cough.** Obstruction of breath and sneezing. Asthmatic attacks, cannot endure a close, warm room. Bronchitis and pneumonia. **Rattling in bronchi.** Tough mucus. Tuberculosis.

Modalities - Worse in a close room, from dust, noise, eating.

Mouth - Mouth is dry. Loss of taste.

Nose-Allergies and hayfever. Profuse, fluent coryza, with constant sneezing. **Coryza with cough.** Fits of sneezing with lachrymation and loss of smell and taste.

Stomach - Nausea and vomiting.

Throat - Hoarseness, larynx painful. Dry and painful during empty swallowing. Tenacious mucus.

COMMENTS - Blackwood wrote, "This one of the most ancient drugs in India, the most highly valued by Ayurveda. Its field of use is in colds, coryza, cough of any kind, vomiting, bronchitis, pneumonia, tuberculosis, spitting of blood. Fevers, jaundice, loss of appetite, and constipation. These ailments are what the ancient physicians use it for."

It was proved by two men, twenty-seven and thirty-two years of age; their symptoms were later clinically verified. Proving symptoms included catarrh, violent sneezing, watering eyes, profuse coryza, loss of appetite, vomiting, liver pains, hoarseness and very painful suffocative cough with blood streaked mucus and high temperature.

Ghose recorded a case of coryza. "My son had an attack of cold. He had fluent coryza, with constant sneezing; there was hoarseness with swollen nose; there was stoppage of nose at night; there was also thirst; no appetite existed; there were occasional coughing fits, but no expectoration ensued.

"I prescribed Justicia 1 x every three hours. After administration of the third dose he fell asleep. He came round within three days. From the second day there was no hoarseness."

Ghose also recorded another case of coryza. The son of Babu Bhupati Choudhuri, of Bhowanipore. suffered from a severe attack of cold. Copious fluent coryza, accompanied by violent coughing, the eyes were somewhat swollen and watered all the time; he was feverish. Ghose prescribed Just, 1x every three hours, and he was fully cured within two days.

RELATIONS - Compare: (1) Seems to come between All-c. and Euphr.

REFERENCES - Anshutz. Blackwood. Boer- icke. Clarke. Ghose.

***KALI ACETICUM

(Potassium Acetate)

PHARMACY -kali-acet. Kali aceticum. Potassium acetate. Acetate of potash. Kali acetas. Solution in distilled water. **Historical dose:** Tincture and all potencies.

CLINICAL - Diabetes. Diarrhea. Dropsy. Headaches. Hemorrhoids. Urine, alkaline.

HOMEOPATHIC - Kali-acet. is well known in allopathic practice as a diuretic and, to a lesser degree, as a cathartic. Derivatives have been used in cases of dropsy, chiefly ascites and hydrothorax. The homeopathic uses are chiefly in cases of over-secretion of urine and in diarrhea.

The provings have brought out a preponderance of abdominal and urinary symptoms. Great disturbance in the circulation of fluids in the tissues (Acet-ac.). Gripping diarrhea. Increased flow of urine, which was more watery and alkaline. Bleeding of hemorrhoids.

Weakness, trembling, profuse perspiration, especially about the head. Trembling and anxiety in whole body of transient duration. Symptoms generally worse in morning, but there was a headache, worse 4 p.m.

Abdomen - Unnatural distention of abdomen after dinner. Gripping. An indefinite gnawing pain lasting an hour. Gnawing sensation in abdomen which lasted until evening. Pains in region of umbilicus, lasting until going to bed, when they suddenly disappeared.

Head - Dull headache in morning. Headache about 4 p.m. Much perspiration of head.

Kidneys - Urine very much increased in quantity and very watery. Urine strongly alkaline, sweetish odor, yellow color, ammoniacal.

Limbs - Extreme weariness and trembling in all limbs in morning. Great weariness of all limbs, with some headache, disappearing half an hour after an afternoon nap.

Rectum - Bleeding hemorrhoids, several times during day. Diarrhea. Two stools in evening.

Stomach - Constrictive, dull pain in stomach, extending to low down in abdomen, gradually disappearing after two hours. Dull, pressive, pinching and constrictive pain in epigastric region, coming on a few minutes after each dose and lasting an hour.

Temperature - Much perspiration on head, especially from 11 a.m. to 1 p.m. Profuse perspiration, very offensive during exertion.

RELATIONS - Compare: (1) Acet-ac., Kali-c., Am-a. (2) Lyc. - worse at 4 p.m.

REFERENCES - Clarke.

***KALI ARSENICOSUM

(Potassium Arsenite)

PHARMACY - kali-ar. Kali arsenicosum. Potassium arsenite. Fowler's solution (the form in which Kali-ar. has been tested, consists of 1 part arsenious acid, 1 part carbonate of potash, 3 parts compound tincture of lavender, and 95 parts distilled water). Dilutions should be made from this. **Historical dose:** All potencies.

CLINICAL-Anxiety, attacks.Asthma. Bright's disease. Cancer. Deafness. Diarrhea. Dropsy **Eczema.** Emaciation. Epithelioma. Exophthalmus. Eye, disorders. Faintness. Herpes, zoster. Jealousy. Measles. Melancholy. Miliary, rash. Lung, disorders. Neuralgias. Neurasthenia. **Palpitations. Panic, attacks. Psoriasis.** Skin, disorders. Tongue, neuralgia. Tremors. Varicose, veins. Ulcers.

HOMEOPATHIC - It is not possible to separate entirely the pathogenesis of Kali-ar. and Ars. Kali-ar. is the favorite form in which arsenic is prescribed by the allopaths, consequently the bulk of observations from overdosing are due to this preparation, named **Liquor arsenicalis**, considered arsenic and nothing else.

Much of our knowledge relating to this remedy comes to us from the effects of overdosing and protracted use of the medicine on patients suffering from chronic skin and blood diseases. The arsenic symptoms predominate.

Epithelioma developed in a patient after prolonged treatment with allopathic Kali-ar. for psoriasis.

During treatment for right-sided herpes, patients noted color changes in their eyes and skin. Sclerotics became thick and yellow instead of clear and bluish. The iris, which was blue, became gray. Skin, instead of being fair and florid, became muddy and older looking.

Tendency towards **anxiety and skin diseases.** Restless, nervous. Great weakness. Emaciation, anemia. Faintness. Neurasthenia. **Chilly and sensitive to cold.** Cannot get too warm even in summer. Tremors. Sudden noise or touch throws the whole body into a tremor.

Inveterate skin diseases, malignant tendency. Intolerable itching, worse undressing, walking, warmth. Chronic eczema. Psoriasis. Herpes zoster, measles, miliary rash. Epithelioma. Numerous small nodules under the skin. Gouty nodosities. Rheumatic, gouty and syphilitic pains. Varicose veins. Dropsy.

Cauliflower-like excrescences of os uterus with flying pains, foul smelling discharges and pressure below the pelvis. Black leg ulcer running bloody, foul water with cutting, burning, itching and dyspnea. Phagedenic ulcers,

deep base and turned up edges.

Burning in throat. The tongue burns, numb. Tongue neuralgia. Exophthalmos, eye affections. Deafness. Aching in stomach. Passes much gas, then diarrhea. Bright's disease. Palpitations with nephritis. All the sufferings are worse at night.

MIND - Morose and quarrelsome. Scolding, retired and discontented. Jealous. Anguish. Face looks frightened and anxious. Startled, fixed look, protruding brilliant eyes. **Anxiety and panic attacks. Anxiety about health.** Anxiety on going to bed. Anxiety with difficult breathing. Hysteria.

Fears felt in the stomach. **Fear of getting a life threatening disease**, of high blood pressure. of having a stroke, **of heart disease**, of getting cancer. Fear in a crowd, of being alone, of death, dying, of being murdered, poisoned. Fear of thieves, burglars, at night, of evil. Fear that something bad will happen. Superstitious.

Mental and physical restlessness. Excitable. Great nervousness. Oversensitive to noise, especially to voices. Starting from noises. Timidity. Capriciousness. Concentration difficult. Confusion. Weak memory.

Depression, melancholy. Sadness when alone. Despair of recovery. Suicidal disposition. Apathy. Indifferent to everything, scarcely answered questions addressed to her or replies to them in a peevish tone. Aversion to answering questions. Behaves like a mad person. Delusion head is enlarged. Sudden impulse to kill.

Abdomen - Burning pain in bowels, unquenchable thirst, belly tense and painful involuntary watery stools with sense as if a red-hot iron were in anus. Frequent griping pains in bowels and constant desire for stool, considerable tenderness in whole abdomen, which is distended.

Back - **Backache with sciatica**, worse pressure. Much pain and tenderness down spine.

Ears - Otorrhea. Ear discharge bloody, fetid and yellow.

Eyes - Startled look with protruding, brilliant eyes, pale face and sunken cheeks. Eyes red. Whites of eyes look thick and yellow. Jaundice. The blue iris becomes gray. Dark discoloration around orbit. Inflamed, itching of conjunctiva. Conjunctiva glassy. Right eye weaker, watery, as after weeping. **Swollen lower eyelids.** Heat and itchiness of lids, followed by swelling and tenderness. Eye sensitive to light.

Face - Face pale and waxy. Complexion muddy. Puffy under eyes. Old looking. Nodular eruption on face, boils. Furfuraceous eruption on beard.

Female - Cauliflower excrescences of uterine cervix with flying pains, foul smelling discharge and pressure below pubis. Menses absent. Milk entirely arrested.

Food - Appetite lost. Aversion to fat, meat. Intense thirst. Drinks in small sips. Desires sweet, sour, vinegar, fruits, lemon, refreshing food. Desires mustard, spices, milk, coffee, warm food, fat. Worse from milk, ice cream, sour, fruits, melon, strawberry, alcohol, spoiled food.

Head - Headache from gastric causes or catarrh. Headache in left parietal bone, as if it was sore and pressed upon by hand. Headaches worse after eating, lying, motion and noise. Headaches better sitting, external heat, hot drinks and wrapping up head. Head as if heavy and enlarged. Constricted feeling in head, as if there was a wound in the bone that was being scratched. Crusta lactea. Behaves like a crazy person.

Heart - Heart attacks with anxiety and fear. **Palpitations with anxiety and fear.** High blood pressure from worry and fear. Weak heart. Pulse weak and contracted, small, scarcely perceptible, rapid.

Kidneys - Urine scanty with pellicle.

Limbs - Gouty nodosities, worse change of weather. Crampy feeling of lower limbs with partial loss of motion and sensation, livid in places, tending to slough. Aching pain in right shoulder and elbow, followed by herpetic eruption. Knees bent up so he could not move his feet. Swollen ankles. Palms and soles speckled over with corns. Varicose veins of legs. Ulcers on legs with general psoriasis. Black ulcer on leg, running bloody, foul water, with cutting, burning, itching and dyspnea.

Lungs - Anxiety with difficult breathing. Asthma with panic attacks. **Asthma, rapid, anxious breathing, worse 2 a.m. to 3 a.m.** Asthma better from sitting, worse lying down. Pneumonia with stitching pains in pleura.

Modalities - Better on rainy days. Aversion to open air. **Worse touch**, lying down, warmth of bed, warmth, cold feet, noise. Worse after midnight, from 1 a.m. to 3 a.m.

Mouth - In middle, towards tip of tongue, a smooth, red spot with troublesome burning and numbness. Toothache, better heat, worse eating, cold drinks and during menses. Pulsating and tearing pain, radiates to ears, head and temples. Gums swollen and tender.

Nose - Colds. Hay fever. Sneezing. Watery, acrid discharge. Sinusitis. Chronic nasal catarrh. Nasal discharge bloody, burning, excoriating, offensive, greenish, thick or yellow.

Perspiration - Sweats when walking.

Rectum - Discharge of much gas, followed by diarrhea. Violent diarrhea. Cholera. **Diarrhea worse after midnight**, from milk. Stools white, watery, frothy. Foul odor, with cramps. Sensation as of a red-hot iron in anus. Hemorrhoids, bleeding, external and internal, worse walking.

Sensations - The head feels larger. Protrusion of eyeballs. Burning and numbness of tongue. Tongue feels

too large. **Anxiety felt in solar plexus.** Sensation of a ball rising from the pit of stomach to throat causing suffocation. As if a red-hot iron were in anus.

Skin - Dry, scaly, wilted skin. Acne, pustules worse during menses. **Chronic eczema, intolerable itching, worse from warmth,** walking, undressing. **Psoriasis,** lichen. Psoriasis in numerous patches, with great itching. Discoloration of skin after psoriasis. Numerous small nodules under skin. Phagedenic ulcers. Fissures in bends of arms and knees. Skin cancer, where suddenly an alarming malignancy without any external signs sets in.

Sleep - Restless and anxious sleep. Sleeplessness, worse 1 a.m. to 4 a.m. Sleeps with hand over the heart. Nightmares, vivid dreams.

Stomach - Anxiety feeling with palpitations from pit of stomach. Empty feeling in stomach. Sinking at epigastrium with faintness. Weight in stomach after eating. Sensation as of a ball rising from pit of stomach to larynx threatening suffocation, better by loud belching. Nausea and vomiting. Constant pain and nausea after food, frequent vomiting of ingesta.

Temperature - Cold temperature on skin. Fever with lassitude.

Throat - Some gastric cough and frequent raking of throat and fauces of a mucopurulent secretion mixed with specks of blood. **Burning in throat.** Sensation in throat and larynx as if forced asunder.

Throat dry and sore. Throat constricted with copious flow of saliva. Complete aphonia, following skin affection.

Tongue - Tongue clear, whitish, red like raw beef. Tongue coated on edges only with mucus stripes. Tongue swollen, felt too large in mouth, numb. Neuralgic or burning in tongue. Smooth red spot in middle of tongue toward tip that burns and is numb.

Vertigo - Vertigo while walking in the open air.

COMMENTS - Cases of Kali-ar. poisoning with massive doses present nothing to distinguish them from cases of other arsenical preparations, but Kali-ar. has had a short proving and a number of cases of allopathic provings are on record.

Jonathan Hutchinson recorded a number of cases of right-sided herpes. One of his patients observed that, while taking Kali- ar., her sclerotics became thick and yellow instead of clear and bluish. The iris, which was blue, became more gray. Her skin, instead of being fair and florid, became muddy and older looking.

This was a mystery to Hutchinson as he usually gave Kali-ar. to make the skin clearer, but he was compelled to record the fact, though he did not apparently perceive the homeopathic solution of the mystery.

Hutchinson also noted cases of epithelioma developing after prolonged medication with Kali-ar. for psoriasis. In another case, an attack of measles was almost exactly mimicked.

Useful as a backup for Ars., particularly if Ars. palliates or stops working.

Skin symptoms with a tendency toward malignancy. Psoriasis. Herpes. Itching, worse at night, on undressing, and by warmth. Lupus. Indicated for the burning pains of dying cancer patients. Deafness associated with constant sickness.

Asthma, worse 2 a.m. to 3 a.m. (Ars. worse 11 p.m. to 2 a.m.). Sinus problems. Shortness of breath, hyperventilate with panic. Weak from going up stairs (Calc., Sil.).

Fainting spells and fear of fainting (Gels., Arg-n.). Pulsations in the body followed by shaking and trembling. Sinking sensations. Fevers and shaking chills. Migraines, or fear of getting migraines, causing panic.

Panic stricken (Aeon.). Panic attacks, fear of having a panic attack. Chronic hypochondriacs, fear of heart attack, high blood pressure, stroke or cancer. Fear of death. Agoraphobia, claustrophobia. Superstitious (Arg-n., Zinc, Rhus-t., Ars.). Suspicious of others. Periodic rushes of adrenaline, pheochromocytoma. Ailments after fright.

Panic with a burning or energy in the solar plexus area (Kali-c., Ign., Calc., Care.). Better when distracted from panic attacks or fears. Despair over recovery. Desires company, insecure (Ars.). Hypersensitive to surroundings (Phos.). Chilly, sensitive to drafts.

Restless and sleepless. Anxiety about dead people or dreams about dead people. May dream of fire and wake up in a panic that the house is on fire. Can lie on their left and hold their heart when they sleep. May get palpitations when sleeping on the right.

Lump rising from the stomach to the throat. Thirsty, but aggravated by cold drinks. Desires sweets, warm drinks.

Marked periodicity (Ars.), symptoms were worse every other day in the morning, mind symptoms worse every third day. Worse after midnight, on right side. The right-sidedness of Ars. was reproduced in the right-sided herpes, repeatedly noticed by Hutchinson, but there was a left-sided headache.

RELATIONS - In some cases of overdosing, Kali-i. proved antidotal. For other antidotes see Ars., which it greatly resembles and with which it must be compared. **Compare:** (1) Ars., Lev., Nat-a. and other arsenic compounds. (2) Chin. - periodicity. (3) Cic., Op. - fixed eyeballs. (4) Rumx. and Jug-r.-worse when undressing.

(5) Iod., Kali-bi., Merc-c., Kali-c.

***KALI BICHROMICUM

(Potassium Bichromate)

PHARMACY - kali-bi. Kali bichromicum. Potassium bichromate. Red Chromate of Potash. Bichromate of Potash. Potassium dichromate. Potasse bichromas. Solution in distilled water. Trituration. **Historical dose:** All potencies.

CLINICAL - Acne. Anemia. Asthma. Blotches. Bone, disorders. Bronchitis. Burns. Cachexia. **Catarrh.** Coccyx, pain. Conjunctivitis. Constipation. Cornea, opacities. **Colds.** **Coryza.** **Descemetitis.** Duodenum, ulcers. Dyspepsia. Ears, inflammation. Emaciation. Epilepsy. Eyes, inflamed. Farcy. Gastric, ulcer. Glanders. Gleet. Gonorrhea. Gout. Hay fever. **Headache.** Intermittent, fever. Intestines, ulceration. Iritis. Keratitis. Leucorrhea. Lumbago. Lupus. Measles. Menopausal, flushes. **Migraines.** **Mucus, plugs.** Mumps. **Nasal, congestion.** Neuralgia. Nightmares. Nodes. Nosebleeds. Nose, soreness. Obesity. Ophthalmia. Ozaena. Polyps. **Post-nasal, catarrh.** Pruritus, vulvae. **Rheumatism.** Rhinitis, atrophic. Sciatica. Scrofula. **Sinusitis.** Smell, illusions. Sun-headache. Sycosis. Syphilis. Throat, sore. Tobacco, intolerance. Trachea, disorders. Ulcers. Urethritis. Warts. Whooping cough.

HOMEOPATHIC - Kali-bi., with the other chromium preparations, Chr-ac. and Chr-ox., was introduced into the Materia Medica by Dr. J. Drysdale. All chromium salts are derived from potassium bichromate, which is manufactured in large quantities from chrome-iron-ore. The association of chromium with ferrum is noteworthy. The bichromate is largely used in dyeing, calico-printing, wood staining, photography and as a solution for producing the current in electric batteries. Many symptoms were obtained from workmen engaged in the preparation of the salt, some of which had been noted before Drysdale studied the drug.

Drysdale published his first proving in 1844 in the British Journal of Homeopathy. The Austrian Society proved it the following year.

Kali-bi. has an affinity for the mucus membranes of the air passages, nose, pharynx, stomach and duodenum. Keynote **thick, sticky, ropy, stringy, tough, yellow, green mucus** discharges. The mucus adheres to the part and can be drawn out in strings. Formation of crusts on mucus membranes and skin. Membranes look furred.

Catarrh of pharynx, larynx, bronchi and nose and **atough, stringy, viscid secretion** is produced. **Perforation of the nasal septum.** Chronic atonic catarrh. Ozaena. Shooting from root of nose to external angle of eye, begins in the morning, increases to noon, and ceases toward evening.

Itching in vagina, ear, lungs etc. **As if a hair on tongue**, in nostrils etc. Sore throat. Yellowness of discharges, eyes, vision tongue etc. Keratitis and iritis. Epilepsy, ropy saliva from mouth during convulsions. Dilatation of stomach and heart.

Ulcers on the skin, mucus membranes and bones. Ulcers with dark dots, deep, perforating, round, punched out with over-hanging edges or thick crusts. Septic or peptic ulcers. Stubborn suppurations, inflammations. Polyps. Bone-pains and nodes.

Pains wander from part to part. Diagonal pains. **Pains migrate quickly** from place to place and finally attack the stomach. **Pains occur in small spots.** Pains appear and disappear suddenly. Sharp stitching pains. Neuralgia, daily at the same hour. Weakness and weariness after pains. Cracking of joints.

Alternating and shifting conditions. Headache alternates with blindness. Rheumatic pains alternate with gastric symptoms or with dysentery. Ascending symptoms, gastric pains, chills, heat etc. Plastic or fibrous exudations spread downwards. Sensation of heaviness in different parts.

Indolent or sluggish reaction in many conditions. Diseased conditions progress slowly but deeply, causing great weakness bordering on paralysis but little fever. More adapted to sub-acute rather than the violent acute stage.

Sickly, chilly and cachetic. Affections of autumn and spring. Complaints of hot weather. “

Great liability to take cold in open air,” and “moderately cold air is felt very unpleasantly.” Eruptions begin in warm weather (opp. Rhus-t.). Sun headaches.

Secondary and tertiary syphilis. Syphilitic rheumatism. Kali-bi. as “chrome-water” was also remarkably successful. It been used as a local application for ulcers in very weak solutions, about 1 to 2,000.

MIND - Mentally ill-humored and low in spirit. Listless. Indifference to business affairs. Indolent, aversion to mental and physical exertion. Weak memory, vanishing thoughts. **Impatience.** Irritability, **sadness, better after eating.**

Anxiety arising from chest. Anxiety before menses. Anthropophobia. Avoids human society. Doesn't recognize his relatives. Senseless staring at an object. Feeling as if losing their reason. **Talks to himself.** **Abdomen** -

Stitches in region of liver and spleen, through to spine. Feeling of constriction from liver to shoulder (right). Cutting pain in abdomen, soon after eating. **Cutting pains to loins**, cannot walk, extends to groins. Chronic intestinal ulceration with vomiting and emaciation. Painful retraction, soreness and burning. As if something eating in bowels.

Back - Violent aching. Stiffness of neck worse bending head forward. Stabbing pain from third cervical to fifth dorsal vertebra. Stitches at lower angle of left scapula. Aching in back and down left side into hip. As if something cracked across sacrum, worse stooping. Pain in coccyx and sacrum extending up and down, worse walking, sitting and touching it. Coccyx pains before urination, better after. Cutting through loins, cannot walk.

Bladder - Continuous desire to urinate during day. Frequent discharge of watery urine, of strong smell, awaking him at night. Burning in urethra. Stitches in urethra after urinating. **After urinating a drop seems to remain which cannot be expelled**. Urethra becomes clogged up. Suppression of urine following cholera.

Breasts - Milk is stringy, watery. **Causations** - Ill effects from indulgence in beer and malt liquor.

Chest - Pressure and heaviness on chest, as from a weight. Stitches in sides of chest. Pain at trachea bifurcation, on coughing from mid-sternum to back. Burning, pain at sternum. Rawness under sternum. Itching behind sternum, causes violent, racking, paroxysmal cough.

Constitutions - Adapted to fat, fair, fleshy, light complexioned persons, subject to catarrhs or with syphilitic or scrofulous history. Suited to sluggish people and fair-haired, fat persons, especially fat, chubby children.

Ears - Redness. Eruption covering both ears. Violent tickling in ears. Sharp stitches in ears. Swollen ear with tearing pains. Pulsating in ears at night, external meatus swollen and inflamed. Stinging from external meatus into internal ear. Lancinating pain, chronic suppuration. Thick, yellow, stringy, fetid discharge. Tympanum perforated. Ulcers upon tympanum. Stitches in left ear and left parotid gland, during headache.

Eyes - **Descemetitis** with only moderate irritation of eye. Dense opacities of cornea. Ulcers on cornea, no pain or photophobia. Conjunctiva, yellow, puffy, covered with yellow-brown spots. Conjunctivitis, granular lids with pannus. Iritis with punctate deposits on inner surface of cornea. Slight pain with severe ulceration or inflammation (Con. opposite.). Ropy and yellow discharge. Eyelids, swollen, winking during convulsions, itching, granular. Eyelids twitch on opening. Supra-orbital neuralgia, right side. Photophobia only by daylight.

Face - Pale, yellowish, blotchy, red, florid. Acne (Kali-br., Kali-ar.). Mumps on the right side. Sweat on upper lip. Bones sensitive, especially beneath orbits.

Female - Menses too early, with vertigo, nausea and headache. Menses with suppression of urine or red urine. Membranous dysmenorrhea. **Yellow, green tenacious leucorrhea**. Leucorrhea, acrid, yellow, ropy with pain across sacrum. Leucorrhea that can be drawn out in long strings. Subinvolution of uterus. Prolapsed uterus, worse hot weather.

Pruritus of vulva, with great burning and excitement. Itching, burning of vulva with sexual excitement. Soreness and rawness in vagina. Swelling of genitals. Vomiting during pregnancy.

Food - Desire for acid foods and drinks. **Desires beer** and malt liquors, but they aggravate. Dislikes water. Cannot digest meat. Overeats.

Head - Periodical headaches with vertigo and nausea. **Headaches, over eyebrows**, preceded by blurred vision. Headache with persistent retching and vomiting of food, bile. **Migraines in small spots and from suppressed catarrh**. Violent headache from occiput to forehead if nasal discharge ceases. Blindness, followed by violent headache, over eyebrows or outward along the brows. Headache, worse from cold, sinus congestion. Headache better pressing at the root of the nose, better from warm soup. Sensation as if a solid block in forehead. **Sinus headache with stopped-up sensation in nose**. Violent shooting pains from root of **nose. Aching and fullness in glabella**. Sharp pains in bones. **Bones of head feel sore**. Frontal pain, usually over one eye. Dull, heavy throbbing above eyes, as if head would burst. Supraorbital neuralgia, right side. Eczema of scalp, raw and oozing a thin moisture which dries into yellow scabs. Eruption of painful small boils on back of head.

Heart - Weak heart. Dilated with kidney lesions, insufficiency of aortic valves. Pricking in region of heart. Cold feeling around heart (Kali-n.). Pressure on heart after eating. Pulsation felt in all the arteries. Palpitations with rattling in throat, during cough. Pulse irregular, small, contracted, with nosebleed.

Kidneys - Heaviness sensation in kidneys. Constant aching. Shooting in kidney region with suppressed urine and prostration. Sharp shooting, first in left then right kidney. Congestion of kidneys. Nephritis with scanty, albuminous urine and casts. Pyelitis, urine with epithelial cells, mucus, pus or blood.

Limbs - Pain, swelling, stiffness and crackling of all joints. Pains fly rapidly from one place to another (Kali-s., Puls.). **Pains in small spots** (Ox-ac.). Wandering pains along the bones, worse cold. Bones feel sore and bruised. Tearing pains in tibia. Shin bones, painful, periostitis from blow. **Very weak limbs**. Paralytic weakness of hands. Syphilitic rheumatism (Mez.). Rheumatic pains worse eating. Rheumatic pain in hip joints and knees. Heaviness of legs. Left-sided sciatica, better motion and flexing the leg, worse standing, sitting or lying in bed.

Pain in tendons of muscles of calf, as if stretched, causes lameness. Achilles tendon swollen and tender. Left ankle as if dislocated. Pain along border of the foot. Soreness of heels when walking.

Liver - Soreness in right hypochondrium, fatty infiltration of liver and increase in soft fibrous tissue.

Lungs - Acute capillary bronchitis. Chronic bronchitis. Bronchial dilatation with fetid breath and expectoration. Dry, metallic, hacking cough. Cough with pain in sternum, extending to shoulders, worse when undressing.

Profuse, yellow expectoration, very glutinous and sticky, coming out in a long, stringy and very tenacious mass. Cough better expectoration. Membranous croup, extending to larynx and sinuses. Asthma worse from sex. Wheezing, panting on awaking, then cough which forces him to sit up, bent forward. Wheezing at night after whooping cough. Wheezing with retching and expectoration of tough mucus, which can be drawn in strings to the feet.

Male - Pricking and itching at glans penis. Itching and pain of penis with pustules. Ulcers with paroxysmal stitches, aggravated at night. Syphilitic ulcers with cheesy, tenacious exudation.
