Acknowledgements

In the past few years of editing the information contained in this book, the author has received inspiration from many people and he would like to thank everyone who has participated in the reprinting of this book. Special thanks are due to the following individuals: Kachina Domenick, Lauren Lupo, Houston Johnson, Alexander Yuan, Ron Surman, Rosko Rosoff, Joan Spiegel, Richard Pitt, Noel Szychowski, Joseph Buttimer, Peter Brodhead, Glenn and Irene Ingram, Greg Cooper, Paula McDonald, John Jezewski, Toraku Yui, Ananda Ruchira, Bryan Murphy, Shelley Murphy, Vema Murphy, Jayion Carter, Abdul Hayy and Rana Holdijk, Cheyanne West, Kuldeep Jain and Sant Rajinder Singh.

Special thanks go to Kachina Domenick, whose assistance on this edition was invaluable and much appreciated. Also thanks to my Qigong students for helping to keep the author in good health and spirits during this project. The author would like to thank everyone who has purchased books and tapes or attended any Homeopathic or Qigong seminars in 2005 and 2006, your support is greatly appreciated.

Publisher's Note

Dr Murphy is one of the most well known teachers of homeopathy. He has extensive teaching and clinical experience including his years spent as the chairman of the Homeopathic Department at the National College of Naturopathic Medicine in Portland.

'Murphy is one of the earliest "seminar" teachers, and is responsible for introducing many people to homeopathy. His teaching style has been described as "laid-back" and he brings a clarity to the interrelation between philosophy, materia medica and repertory' as quoted by Julian Winston.

We have earlier also published the second edition of this book which has received a tremendous response from the Indian subcontinent. We now hereby present to the profession the third edition of Lotus Materia Medica. This covers 1400 remedies on 2214 pages. It is the most vast and elaborate materia medica ever written in homeopathy. Reading materia medica is always a challenge as remembering so many symptoms from so many books is not an easy task, as one will have to refer to different books for different remedies. This book serves the purpose of giving a comprehensive information on almost all the drugs of homeopathy at one place. The alphabetical schema of the sections in a drug has been followed to keep in line with the repertory style.

This book is one of the very important contributions to the homeopathic literature written by one of the present stalwarts of the field. We hope that the Indian readers will benefit from this publication.

PREFACE TO THE THIRD EDITION

Lotus Materia Medica

This is the third edition of the Lotus Materia Medica which was first published in August of 1995. The third edition of the *Lotus Materia Medica* was designed to be a complete rewrite and major upgrade of the *second edition*. My attempt has always been to create a modern and easy-to-use materia medica for homeopaths to use in daily practice, while still remaining accessible for use at home and in the classroom.

The changes made in this 3rd edition comprise my attempts to build on that philosophy. *Lotus Materia Medica* contains hundreds of new remedies and thousands of new updates and additions.

The *Lotus Materia Medica, third edition* was updated to be a more clinical, practical and easy-to-use reference guide to the vast homeopathic materia medica. After editing the *second edition*, I continued to add more modern terminology, cross references and corrected any errors that were found. The final step was to systematically survey the homeopathic and herbal literature for reliable additions and updates. The highest priority was to find more clinical information relevant to modern homeopathic, naturopathic and herbal practice.

The writings of Allen, Anshutz, Boericke, Burnett, Clarke, Cooper, Hale, Hahnemann, Hering, Julian, Paracelsus, Phatak and Radamacher formed some of the major resources from which the remedy monographs were compiled, formatted and updated. Each remedy is reviewed as to its pharmacy, folklore, historical uses, keynotes, generals, provings, case histories and toxicological reports.

Also, traditional herbal lore and information from the ancient medicine was consulted, especially on the use of herbal and spagyric tinctures as therapeutic agents and general tonics.

The result is the *third edition* of *Lotus Materia Medica*, which contains more modern terminology and diseases. Over 200 new remedies, and thousands of new additions and updates, along a small lightweight book for convenient use. Homeopathic Remedy Guide has been redesigned to better complement the Homeopathic Medical Repertory also written by Robin Murphy, ND.

Similar abbreviations and terminologies were used for both books and the alphabetical schema used in the remedy monographs was designed to relate to the chapters in the Homeopathic Medical Repertory. The *third edition* of *Lotus Materia Medica* has been rewritten over the past few years "and the following major changes were made:

Changes to the Third Edition

1. **New Edition** - The Lotus Materia Medica's subtitle has been renamed: '*Lotus Materia Medica: 1,400 Homeopathic and Herbal Remedies*'. This new name was given to represent the 200 new remedies added in the third edition.
2. **New Format** - Lotus Materia Medica has been completely re-formatted. The single column plan is replaced with a two column format. This was done to make the book easier to read and to make more space available for adding new remedies to the book.
3. **New Editing** - Thousands of minor and major corrections have been made in the third edition of this book. Errors in spelling, grammar and formatting have been corrected. Also the sentence and paragraph structure was updated and improved.
4. **New Updates** - New cross references with more updated and expanded clinical information added to many remedy monographs.
5. **New Remedies and Updates** - New Remedies added from modern provings. Also additions from

Allen, Boericke, Boenninghausen, Burnett, Clarke, Grimmer, Hahnemann, Hering, Julian, Kent, Knerr, Kunzli, Nash, Phatak and many more.

Changes to the Third Edition

6. **Updated Remedy Abbreviations** - The remedy abbreviations of this edition have been updated to match the abbreviations in the Homeopathic Medical Repertory.
7. **New Remedy Gradings** - The new remedy gradings for the *Lotus Materia Medica 's Repertory* display the strongest remedies in the following manner: CALC., (4 points), bold-capitals and underlined; CALC., (3 points), bold-capitals-type; *calc.*, (2 points), bold-italics-type; calc., (1 point), plain-small-type.
8. **New Remedies** - Over 200 new remedies were added to this edition. Many new homeopathic provings, herbal remedies, etc. were added in this edition.
9. **New Repertory** - A new clinical repertory has been added to the back of the book.
10. **New Remedy Index** - This expanded list includes the full latin names and common names for many homeopathic and herbal remedies.
11. **New Homeopathic-Herbal Glossary** - A new glossary of Homeopathic, medical and herbal terminology has been added to this edition.
12. **New Homeopathy-Herbal Directory** - Homeopathic and Herbal Resources. A listing of Homeopathic and herbal schools, organizations, pharmacies, bookstores, etc.
Abbreviations: The abbreviations used in this book are:
agg. = aggravated by, worse from or symptoms increased by.
amel. = ameliorated by, better from or symptoms decreased by.
N. O. = Natural order.

The response to previous editions of *Lotus Materia Medica* has been very positive throughout the past 12 years. This demonstrates the need that has existed for many years for a modern materia medica of homeopathic and herbal remedies.

I profoundly thank everyone who has supported this work and I hope this third edition of *Lotus Materia Medica* will be helpful in the study and practice of homeopathic and herbal medicine, worldwide. I welcome any suggestions for corrections and improvements that can be put into any future editions of this work.

INTRODUCTION

Lotus Materia Medica: 1,400 Homeopathic and Herbal Remedies

The word 'materia medica' originates from the Latin word of 'mater' which means materials and 'medica' which refers to their use in medicine, therefore a materia medica translates as a Book of Medicines. The first Homeopathic Materia Medica was created by Hahnemann which he called the Materia Medica Pura, which translates as the Book of Pure Medicines. Homeopathic remedies were pure because their true medicinal actions were determined via provings not from theories or speculations. These energy medicines were also 'purified' of their earthy matter by the homeopathic method of potentizing substances via dilutions, triturations and succussions.

The Lotus Materia Medica is a book of Natural Medicines, because the homeopathic and herbal remedies have an affect on health and disease by enhancing the vital state of a person. Once the constitutional vitality is increased the healing forces become activated and health can be restored and fortified. This book contains over 1,400 of these Natural Medicines from the homeopathic and herbal materia medicas.

The writings of Allen, Anshutz, Boericke, Burnett, Clarke, Cooper, Hale, Hahnemann, Hering, Julian, Paracelsus, Phatak and Radamacher formed the major resources from which the remedy monographs were compiled, formatted and updated. Each remedy is reviewed as to its pharmacy, historical uses, keynotes, generals, provings, case histories and toxicological reports. Also, traditional herbal folklore and information from the ancient medicine was consulted, especially on the use of herbal and spagyric tinctures as therapeutic agents and general tonics.

Lotus Materia Medica: Book Outline

1. **Preface** - Acknowledgements and publication information. Updated information about this edition.
2. **Introduction** - Outline of Remedy Monographs. Homeopathic and Herbal prescribing.
3. **Table of Contents** - Outline of Book. Remedies Lists.
4. **Homeopathic Remedy Guide** - Homeopathic and Herbal Monographs A to Z.
5. **Nature's Repertory** - Clinical Index. Remedy Groups.
6. **Remedy Index** - Common and Latin Names, Synonyms.
7. **Remedy References** - Homeopathic and Herbal References.
8. **Homeopathic-Herbal Glossary** - Homeopathic and Herbal Terminology.
9. **Homeopathic-Herbal Directory** - Homeopathic and Herbal Resources. Homeopathic Schools, Bookstores, Publishers, Pharmacies, Organizations, etc.

Outline of Remedy Monographs

Title - The standard Latin botanical or chemical name, Sub-title - the common name or the remedy's traditional name.

Pharmacy - The remedy's abbreviation is found as it is written in the **Homeopathic Medical Repertory**. The remedy's Latin and common names are given. The abbreviation N. O., stands for Natural Order or botanical family of the plant. Geographic location. How the remedy is prepared, by tincture or trituration. What parts are used to make the remedy. *Historical doses*: This section reviews the doses that have been used of the particular remedy, in a tincture, trituration or potencies. All remedies can be used in potency, but only the non toxic plants should be used for the spagyric and herbal tinctures. Remedies with possible spagyric or herbal uses are marked in the table of contents by underlining the remedy's Latin Name.

Clinical - In the clinical section is an alphabetical list of disorders and conditions that the remedy has helped in the past and present. The disorders in *italic type* are known to have been historically cured by the remedy.

Herbal - This section, shows the herbal remedy's folklore and traditional uses. The medical,

herbal or history of the remedy, clinical experiences, herbal signatures, poisonings and case histories are reviewed. This section gives the botanical information of the remedies.

Homeopathic - The homeopathic section gives the remedy's therapeutic and general uses. The remedy's affinities for organs, systems or tissues are covered and the major keynote, general and particular symptoms, plus the pathological uses of the remedy are given. Information from the homeopathic provings are included.

Mind - This section reviews the mental and emotional symptoms or states. Personality, ego and behavior. Mental functions such as, attention, memory, concentration, reason, thoughts, intellect. Emotions, such as fears, moods, weeping, anxieties, worries, depression, grief, frights, anger, hate, impulses, delusions, delirium, obsessions, gestures. Also, perceptions, self confidence, beliefs, insanity, etc.

Sections - This section of the monograph is an alphabetical schema of anatomical and physiological topics. *Abdomen, Back, Blood, Bones, Brain, Breasts, Causations, Chest, Constitutions, Coughing, Ears, Eyes, Face, Female, Food, Head, Heart, Kidneys, Larynx, Limbs, Liver, Lungs, Male, Mind, Modalities, Mouth, Muscles, Neck, Nerves, Nose, Rectum, Skin, Sleep, Stomach, Stool, Teeth, Temperature, Throat, Tongue, Urine, Vertigo.*

Comments - This section of the book includes historical and modern commentaries, folklore, case histories, remedy reviews, homeopathic provings, etc. Real life experiences and stories from the past are discussed from a practical point of view.

Relations - This part of the remedy monograph gives the various relationships which remedies can have with one another. For example there are antidotal, complementary, remedies which follows each other well and other relationships. *Compare:* Here the homeopathic or herbal remedy is compared with other remedies with similar symptoms or therapeutic uses. This section can be used to study similar remedies or to give new ideas for other remedies to consider in complex cases.

References - This section gives the major homeopathic or herbal references for each remedy's outline or commentary that is presented. The name of the author where the original material came from is listed. A list of all sources is found in the back of the book.

Homeopathic Remedies

Homeopathic remedies are energy medicines prescribed on the principle of similarity. Remedies that are in opposition to the immune response are antipathic or allopathic. Sympathy reflects the principle of likes cures likes. There is a sympathetic relationship between the action of the remedy on healthy persons, the provings and the therapeutic action On disease.

Homeopathic remedies contain prana or qi, (vital energy), they are pure prana remedies. When prana is suspended in a fluid or dry medium it can be potentized through a series of dilutions and succussions. The higher the potency means the prana of the remedy has become more pure and more exalted in its healing energy. Therefore these remedies work deeper and last alot longer in their action. Homeopathic remedies have gentle power to restore or to heal. Their function is to neutralize disorders and to arouse the Vix Medicatrix Naturae, (the healing power of nature).

Higher states of vitality and health is a natural consequence of giving the proper homeopathic remedies. The goal in natural therapeutics is to always do the least and also to emphasize hygiene in all chronic disorders. Homeopathic remedies facilitate the self-restoration process. They neutralize the foci of disorder and therefore remove old shocks and traumas to the life principle.

Homeopathic Prescribing Techniques

Acute prescribing - Acute remedies are homeopathic remedies prescribed for acute infections and fevers. Examples: Aconite, Arsenicum album, Baptisia, Belladonna, Bryonia, Chamomilla, Gelsemium, Ferrum phos., Pulsatilla, Pyrogen.

Acute remedies are prescribed in the following manner: (1) Take the acute disease case, consider the keynotes and the major symptoms (2) Diagnose the cause and the type disorder the person has (3)

Find a primary rubric or rubrics in the Homeopathic Medical Repertory such as, influenza, pneumonia, etc. (4) Differentiate the major remedies in the primary rubric, (influenza), by reading them in Lotus Materia Medica (5) Choose the most similar remedy (6) Choose the potency, amount and repetition of the dose (7) Follow-up the case and review to determine if the person needs the same remedy and potency, same remedy and different potency, different remedy and potency, etc.

The 30c and 200c are effective potencies for acute and emergency prescribing. When indicated, follow the acute with a deeper acting chronic remedy or a constitutional remedy to help restore health and prevent relapses.

Chronic prescribing - This refers to giving homeopathic remedies for chronic or long term degenerative diseases and weaknesses. Therefore the goals and method of approaching the case is different than in acute or emergency prescribing. Low potencies are very effective for these long term conditions. The homeopathic remedies can be given in a 6c or a LM/1 potency, one to three times a day for weeks or months at a time according to the case. The frequency can be adjusted to once or twice a day if three times a day is too strong for the patient. If after a period of time the 6c or LM/1, stops affecting the vitality, then go up to the next potency in the scale, like 12c or a LM/2 potency. Homeopathic remedies can be also given in a single dose of a high potency remedy which is repeated only after the improvements have relapsed.

Constitutional prescribing - The proper constitutional remedy will enhance and help maintain the general health. Constitutional remedies fortify people through times of stress or help one to recover from infectious or debilitating diseases. When the vitality is weakened, then one's susceptibility is increased to certain diseases. These homeopathic remedies are prescribed for the genetic vitality of the person. Constitutional remedies are often given to children while they are developing and to the weak and elderly. Some important constitutional remedies are: Bar-c., Calc., Calc-p., Sil., Phos., Graph., Sulphur and Lyc.

Emergency prescribing - Homeopathic remedies prescribed for injuries, bites, burns, shocks and traumas in any form. The important things to know are the causative factors and differentials for each emergency condition. Potency is selected as to availability, severity and how much time you have. The 30c and 200c are effective potencies for first aid, emergency and acute dosage. One dose equals a few of the pellets, tablets or two to four drops of liquid remedies. Take one dose of a 30c, 3 times daily for a few days, or as needed or take a dose of 200c, a few times daily for a few days, again repeat as needed. In severe cases, one may need to repeat the remedy more often if needed.

Epidemic prescribing - The epidemic remedies are found by using the frequent appearing symptoms and strong symptoms of the epidemic disease. The epidemic remedy is given in repeated doses for a short period of time, a few days or longer if needed. These conditions are treated as acute diseases with 30c or 200c, or LM potencies. In case of mass epidemics the use of water potencies is essential. Take a few pellets or drops of the remedy and put it into a bottle of water, (4 or 8 oz. size) and shake well. This bottle can be preserved for long periods if 15% to 20% of the bottle is filled with pure alcohol. Also, each medicated remedy solution bottle can be grafted into new bottles by adding a teaspoon of the original to the new bottle and shaking.

Fundamental prescribing - The fundamental remedies give the personality types of the medicine. In some cases, the fundamental will be the same remedy as it is for the pathological layer. In some cases, the constitutional remedy will cover the fundamental and the pathological layers.

Isopathic prescribing - Isopathically using the 'same' substance potentised as a remedy (rather than a 'similar' substance). These remedies are made from discharges, toxins, allergens and nosodes. Isopathic remedies help eliminate toxic chemicals and heavy metals. If there is a strong history that a certain disease, bacteria or virus caused a person's condition then one would consider giving a isopathic remedy.

Miasm prescribing - Miasms are the tendencies and predispositions to certain diseases, like allergies or infectious diseases. If a person has predisposition to get colds and sore throats, then the acute remedy was given and it worked, but the colds and sore throats keep coming back. Here an anti-miasmatic remedy is indicated like Tub., or Bac.

There are five major miasms: Psora, Cancer, Sycosis, Syphilis and the Tuberculosis miasm.

Miasms can be dormant or active. Miasms can be acquired by a person during their lifetime or miasms can be inherited from the parents. Miasms should not be treated routinely, but only when they are clearly activated or when one gets stalled in a case and there is a miasm present. Gonorrhea and Cancer are the dominant miasms today.

Acquired miasms are very prevalent, because a lot acute diseases get suppressed by drugs. These suppressed diseases can alter one's susceptibility to the environment and lower their vitality. A family history of certain disease patterns helps to confirm, the presence of an active or dormant miasm. Treat the active miasms when ever they show themselves. Let the dormant miasm alone until they become active.

Pathological prescribing - Pathological remedies are given for their similarity to the disease, as opposed to the fundamental and constitutional remedies which are aimed at the person in general. A pathological state should usually be treated first in many cases because it is the source of much suffering and pain. Pathological states are not limited to physical diseases alone. Also, mental and emotional diseases can form pathological layers and diseases. Examples are depression, mania, personality disorders, senility, violence behavior, insanity, etc. Low potencies in repeated doses are effective for severe pathologies like cancer and for those cases in which the patient is taking allopathic drugs.

Tautopathic prescribing - Tautopathically using the 'same' substance potentised as a remedy (rather than a 'similar' substance). These are the remedies made from allopathic drugs or chemicals. Tautopathics are made from cortisone, morphine, penicillin, histamine, etc. If there is a strong history that a certain drug caused a person's condition then one would consider giving a tautopathic remedy.

Herbal Prescribing Techniques

Herbal Tinctures - The herbal tinctures enhance the vitality and act also as specific tonics for weak organs and the vital systems. Herbal tinctures are plant extracts which stimulate the organs or systems of the body. These tinctures are alcoholic solutions of plant materials. Herbal remedies are often given to children while they are developing or to assist people through times of stress. These remedies also help one recover from infectious or debilitating diseases. When a person's genetic vitality is weakened, then one's susceptibility is increased towards certain diseases.

Herbal Tonics - The word tonic means tone as in musical tones. When the right tone is given it acts as a tonic. If continual vital tones are given then we achieve a sound body and a sound mind. Spagyric or Herbal Remedies give the vital tones that revitalize and restore the weak spirit and the elemental body. These are the vitality remedies that will raise up the health of the whole person. Tonic remedies improve the strength and harmony of the organs and vital systems.

The signs of health emerge from prolonged consumption of the spagyric tinctures in small drop doses. Some of the signs of health are: Wakes refreshed in the morning, clear mind, calm emotions, sense of well-being, strength, flexibility, stamina, adaptable, vitality, clarity and harmony in all the vital systems.

Tonics are given in the following manner: Take the remedy bottle and succuss it 5 times or hit it against a hard book. Then take 5 or more drops of the herbal tincture and put in 1 oz. water, this is stirred or shaken and then consumed. Repeat this three to four times per day, between meals. To adjust the spagyric tonic the person can increase the number of drops taken, from 5 drops go up to 10 drops, etc. If the tonic is too strong the person may reduce the amount of times they take the remedy from 3 times to 1 or 2 times a day or decrease the number of drops.

Spagyric Herbal Tinctures - Spagyria is from two Greek words, 'spao', to draw out, to extract, to divide and 'ageiro' to bind, join, combine, gather. The spagyric art translates as plant alchemy, the art of separating, exalting and recombining medicinal herbs and roots. This word was coined by Paracelsus, a medical alchemist of the 16th century. He also created the phrase: Similia similibus curentur, the famous 'likes cures likes' principle of homeopathy. These preparations are from plant origins. Their therapeutic effect is more tonic and nutritive because they contain the mineral rich plant

ashes.

The spagyric herbal tinctures are alcoholic solutions of plant substances. They are prepared by maceration of the plants into pure alcohol and allowing this solution to mature over several weeks. Seven day cycles, usually 14 or 21 days, etc. The work is done at the appropriate planetary day and hour. The mixture is shaken once a week at the right time. After the allotted time has elapsed the mixture is then separated into its liquid and solid components. The plant pulp which most galenic herbalist discard is calcinated, that is, burned to a fine ash. This ash is mineral rich and gives the spagyric a very nutritive and tonic effects. This adds to the remedy an earthy elemental tone to its signature. Thus the spagyric tonics are in a 'stereo mode' while normal herbal remedies are in a 'mono mode'.

Spagyric herbal tinctures are given in the following manner: Take the remedy bottle and strongly shake it 5 times or hit it against a solid object like a book. Then take 5 drops of the spagyric tincture and put in 1 oz. water. This is stirred or shaken and then consumed. Repeat this three to four times per day, between meals. All the spagyric, herbáis and homeopathic remedies in low potencies can be given in this same manner. To adjust the spagyric tonic the person can increase the number of drops taken, from 5 drops go up to 10 drops. If the tonic is too strong the person may reduce the amount of times they take the remedy from 3 times to 1 or 2 times a day. There are many levels of spagyric pharmacy and this is a simple method to begin with. The next level is called Spagyric Essences.

INDEX OF REMEDIES

ABEL MOSCHUS	AGROSTEMA GITHAGO	ANACARDIUM OCCIDENTALE
ABIES CANADENSIS	AIDS NOSODE	ANACARDIUM ORIENTALE
ABIES NIGRA	AILANTHUS GLANDULOSA	ANAGALLIS ARVENSIS
ABROMA AUGUSTA RADIX	ALABASTER	ANANTHERUM MURICATUM
ABROTANUM ARTEMISIA	ALBIZIA JULIBRISSIN	ANDERSONIA ROHITIKA
ABRUS PRECATORIUS	ALCHEMILLA ARVENSIS	ANDROCTONOS AMURREUXI
ABSINTHIUM ARTEMISIA	ALCHEMILLA VULGARIS	ANDROGRAPHIS PENICULATA
ACALYPHA INDICA	ALCOHOLUS	ANEMOPSIS CALIFORNICA
ACCUTANE	ALCOHOLUS	ANGELICA ATROPURPUREA
ACETANILIDUM	ALCOHOLUS SULPHURIS	ANGELICA SINENSIS
ACETICUM ACIDUM	ALETRIS FARINOSA	ANGOPHORA LANCEOLATA
ACETONUM	ALFALFA	ANGUSTURavera
ACHYRANTHES CALEA	ALLANTOIN	ANHALONIUM LEWINII
ACONITINUM	ALLIUM CEPA	ANILINUM
ACONITUM CAMMARUM	ALLIUM SATIVUM	ANISE STELLATUM
ACONITUM FEROX	ALLOXANUM	ANTHEMIS NOBILIS
ACONITUM LYCOCTONUM	ALNUS RUBRA	ANTHOXANTHUM ODORATUM
ACONITUM NAPELLUS	ALOE SOCOTRINA	ANTHRACINUM
ACTEA SPICATA	ALOE VERA	ANTHRAK KALI
ADAMAS	ALSTONIA CONSTRICTA	ANTIMONIUM ARSENICOSUM
ADELHEID AQUA	ALSTONIA SCHOLARIS	ANTIMONIUM CRUDUM
ADLUMIA FUNGOSA	ALUMEN CRUDUM	ANTIMONIUM IODATUM
ADONIS AESTIVALIS	ALUMINUM ACETICUM	ANTIMONIUM MURIATICUM
ADONIS VERNALIS	ALUMINUM OXYDATA	ANTIMONIUM OXYDATUM
ADOXA MOSCHATELLINA	ALUMINUM PHOSPHORICA	ANTIMONIUM SULP. AURATUM
ADRENALINUM	ALUMINUM SILICATA	ANTIMONIUM TARTARICUM
AEGLE FOLIA	AMBER	ANTIPIRINUM
AEGLE MARMELOS	AMBRA GRISEA	APHIS CHENOPODII GLAUCI
AEGOPODIUM PODAGRARIA	AMBROSIA ARTEMISIEFOLIA	APIS MELLIFICA
AESCULUS GLABRA	AMETHYST	APIUM GRAVEOLENS
AESCULUS HIPPOCASTANUM	AMMONIACUM GUMMI	APOCYNUM ANDROSAEMIFOLIUM
AETHER	AMMONIUM ACETICUM	APOCYNUM CANNABINUM
AETHIOPS ANTIMONALIS	AMMONIUM BENZOICUM	AQUA MARINA
AETHIOPS MERCURIALIS	AMMONIUM BROMATUM	AQUA PETRA
AETHUSA CYNAPIUM	AMMONIUM CARBONICUM	AQUA PURA
AGARICINUM	CAUSTICUM	AQUILEGIA VULGARIS
AGARICUS BLAZEIMURILL	AMMONIUM CAUSTICUM	ARAGALLUS LAMBERTI
AGARICUS CAMPANULATUS	AMMONIUM IODATUM	ARALIA HISPIDA
AGARICUS CAMPESTRIS	AMMONIUM MURIATICUM	ARALIA RACEMOSA
AGARICUS EMETICUS	AMMONIUM PHOSPHORICUM	ARANEA DIADEMA
AGARICUS MUSCARIUS	AMMONIUM PICRICUM	ARANEA IXOBOLA
AGARICUS PANTHERINUS	AMMONIUM VALERIANICUM	ARANEA SCINENCIA
AGARICUS PHALLO DES	AMNIOTIC FLUID	ARBUTUS ANDRACHNE
AGARICUS STERCORANIUS	AMORPHOPHALLUS RIVIERI	ARECA CATECHU
AGATHIS AUSTRALIS	AMPELOPSIS QUINQUEFOLIA	ARGEMONE MEXICANA
AGAVE AMERICANA	AMPHETAMINUM SULFURICUM	ARGENTUM CYANATUM
AGAVE TEQUILANA	AMPHISBENA VERMICULARIS	ARGENTUM IODATUM
AGNUS CASTUS	AMYGDALUS AMARA AQUA	ARGENTUM METALLICUM
AGRAPHIS NUTANS	AMYGDALUS PERSICA	ARGENTUM MURIATICUM
AGRIMONY	AMYLENUM NITROSUM	ARGENTUM NITRICUM

ARISTOLOCHIA CLEMATITIS	BANISTERIOPSIS CAAPI	BRACHYGLOTTIS REPENS
ARISTOLOCHIA MILHOMENS	AZADIRACHTA INDICA	BRANDY
ARISTOLOCHIA SERPENTARIA	BACILLINUM	BRASSICA NAPUS
ARNICA MONTANA	BACILLIUM TESTIUM	BROMIUM
ARSENICUM ALBUM	BACILLUS SEVEN	BRUCEA ANTIDYSENTERICA
ARSENICUM BROMATUM	BACILLUS TEN	BRUCELLA MELITENSIS
ARSENICUM HYDROGENISATUM	BACOPA MONNIERI	BRUCINUM
ARSENICUM IODATUM	BADIAGA	BRYONIA ALBA
ARSENICUM METALLICUM	BALSAMUM PERUVIANUM	BUFO RANA

***ABELMOSCHUS HIBISCUS

(Musk-seed)

PHARMACY - abel. Abelmoschus hibiscus. Musk-seed. Musk-mallow. Hibiscus abelmoschus. N. O. Malvaceae. The dried seeds are used for making the mother tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Addison's disease. Anemia. Asthma. Delirium. Dysphagia. Dyspnea. Edema. Glaucoma. Headache. Lymphangitis. Migraine. Neuromyelitis. Paralysis. Polyneuritis. Ptyalism. Stomatitis. Tachycardia. Tetany. Trembling.

HERBAL - Abelmoschus is a shrub found in Egypt, the East Indies and Mexico, where it is known as musk-seed. The branches are downy with long leaf stalks and yellow flowers. The fruits appear as capsules containing numerous kidney bean shaped seeds. They emit a pleasant odor like that of musk and their taste is aromatic.

HOMEOPATHIC - Abelmoschus affects the stomach, uterus, mucus membranes and nerves. Trembling and paresis or even paralysis of the limbs with edema. Trembling or paralysis of the lips and jaw. Feeling of constriction in the chest. Excessive salivation with a feeling of dryness in the mouth. Sleepiness, difficulty swallowing.

MIND - Fears at night. Irrational fear of animals. Fear of animals, insects, flies, spiders, scorpions or snakes. Obsession of being attacked by venomous animals. Delirium with hallucinations.

Chest - Sharp pain in the chest.

Ears - Diminished ability to hear, when descending the stairs.

Eyes - Acute and chronic glaucoma. Detachment of the retina. Scotoma with spots before the eyes, impedes the vision. Tearing pain, as if produced by nail.

Face - Face pale, yellow, itching.

Food - Desire for food and cold drinks (Phos.).

Head - Migraine headaches. Heavy feeling in the head, as if it were being clamped in a vice (Crot-c.).

Heart - Feeling of tightness around the precordial region. Rapid beating of the heart with anguish. Tachycardia.

Limbs - Edema of the hands and legs. **Lungs** - Asthma. Difficult breathing.

Modalities - Worse at night. Worse from descending the stairs (Calc.).

Mouth - Thick, sticky saliva. Excessive salivation, but feeling of dryness in the mouth. Difficulty with speech. Ptyalism neurotic of pregnancy and mercurial stomatitis. Maxillary trismus.

Stomach - Pain in the pit of the stomach. **Throat** - Dysphagia.

RELATIONS - Compare: (1) Staph., which is also a preventive of mosquito bites. (2) Apis, sharp, stinging and searing pains, partial or general edema, absence of thirst. (3) Ars., anxiety with fear of death. Nocturnal restlessness, worse between 1 a.m. and 3 a.m. Edema of the eyelids, especially the lower lid, thirst for small quantities of iced water.

REFERENCES - Julian.

***ABIES CANADENSIS REFERENCES

(Hemlock Spruce)

PHARMACY - abies-c. Abies canadensis. Hemlock Spruce. Canada pitch. Picea alba. Pinus Canadensis. Tsuga canadensis. N. O. Coniferae. Pinaceae. Tincture of fresh bark and young buds. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphthous, ulcers. Burns. Chills. Cholera. Colds. Constipation. Croup. Coughs. Diarrhea. Flatulence. Gangrene. **Gonorrhea. Indigestion.** Leucorrhea. Liver, disorders. Night-sweat. Prolapsed, anus. Prolapsed, uterus. Rheumatism. Stomach, disorders. Uterine, displacements. Vertigo. Vomiting.

HERBAL - A strong decoction of the bark of this tree is beneficial in leucorrhea, prolapsed uterus, prolapsed anus, diarrhea, etc., administered internally, and used in enema.

It is of service as a local application in gangrene, and in aphthous, and other oral ulcerations.

The essence (oil) of hemlock is diuretic and highly stimulant. As a liniment this oil has been used in croup, rheumatism, and other affections requiring a stimulating local application.

Dr. W. K. Everson states it to be a superior remedy in gastric irritation to allay vomiting in cholera morbus, etc. The dose is 5 or 10 drops in water, every 10 or 20 minutes, until relief is afforded.

It is likewise of value in passive hemorrhages, and is useful topically in scalds and burns. General asthenic state, with feeble digestion, vascular weakness, and pale mucus membranes. Broncho-pulmonary irritation, with profuse secretions. Coughs and colds. Renal torpor. Pyrosis and gastric irritation with vomiting and diarrhea. Never to be used in inflammatory or sthenic conditions.

HOMEOPATHIC - Marked symptoms in mucus membranes and stomach, a catarrhal condition of the stomach

is produced. Characteristic cravings and chilly sensations. Useful for women with uterine displacements, probably due to defective nutrition with debility and lack of tone.

The skin is cold and clammy, hands cold, very faint. Respiration and heart action are labored. The right lung and liver feel small and hard. **Great appetite**, tendency to overeat. **Gnawing, hungry, faint feeling** in epigastrium. Wants to lie down all the time.

MIND - Easily fretful or quiet and careless. Patient wants to lie down all the time on account of nervous weakness and feels faint. **Abdomen** - Flatulence disturbs the heart's action. Sick feeling in the bowels.

Burning and distention in abdomen with palpitations. Rumbling in the bowels after eating, with great appetite.

Back - Pain behind the right shoulder blade. Weak feeling in sacral region. Feeling as of cold water between the shoulders.

Eyes - Sensation as of a sty in outer canthus of left eye.

Female - Uterine displacements. Sore feeling at fundus of uterus, relieved by pressure. Prostration, wants to lie down all the time. Sensation as if the uterus is soft and feeble.

Food - Great appetite. **Tendency to eat far beyond capacity for digestion**. Craving for meat, pickles, radishes, turnips, and artichokes. Craving for coarse food, such as pickles, radishes, turnips, etc. Canine hunger with torpid liver.

Head - Feels light-headed, tipsy.

Heart - Action of the heart labored. Increased action of the heart with distention of the stomach.

Limbs - Hands cold, shrunken. Lies with the legs drawn up. Very faint, as if top of head were congested. Twitching of the muscles.

Liver - Sensation as if the liver were small and hard, as if bile were deficient.

Lungs - Breathing labored. Sensation as if the right lung were small and hard.

Kidneys - Urinates frequently day and night. Straw colored urine.

Mouth - Dryness of the mouth.

Rectum - Burning in rectum. Constipation.

Sensations - A feeling as if the right lung and liver were small and hard, pain beneath right scapula. The patient lies with the legs drawn up. Shivering as if the blood turned to cold water. Uterus feels soft.

Skin - Clammy and sticky.

Stomach - Catarrhal condition in the stomach, increases the patient's hunger. **Gnawing, hungry, and faint feeling** in the epigastrium. Distention of the stomach and epigastrium, burning.

Temperature - Cold chills, as if blood were ice water (Aeon.). Chills run down back Cold-water feeling between shoulders (Am-m.). Skin clammy and sticky. Night sweat (Chin.).

Vertigo - Tipsy feeling, a swimming of the head, light-headed.

COMMENTS - According to Hale, Abie: c. cured a light-headed feeling, attendee with a gnawing, hungry and faint feeling at epigastrium. A craving hunger which, if gratified, was followed by distention of the stomach and hard beating of the heart.

RELATIONS - Compare: (1) Aeon. Chin. Am-m.

REFERENCES - Boericke. Clarke. Phatak.

***ABIES NIGRA

(Black Spruce)

PHARMACY - abies-n. Abies nigra. Black Spruce. Double Spruce. Picea mariana. Picea nigra. N. O. Coniferae. Pinaceae. North America. Tincture of gum. **Historical dose:** Tincture and all potencies.

CLINICAL- Backaches. **Belching**. Bone aches. Chills. **Constipation**. **Coughs**. Depression. **Dyspepsia**. Fevers. Heartburn. Hemorrhages. Hypochondriasis. Indigestion. Intermittent fever. Malaria. Menses, delayed. Rheumatic pains. **Stomach, disorders**. Stomach, pain. **Tachycardia**. **Water brash**.

HOMEOPATHIC - Abies-n has been used in many diseases, when they are associated with stomach symptoms. The dyspepsia caused by abuse of tea or tobacco has been cured by it.

Characteristic sensation in the cardiac end of the stomach or in the esophagus, **"as if a hard body, as a hard-boiled egg had lodged there."** Where this symptom is present, whether in dyspepsia or lung disease with or without hemoptysis, constipation, Abies- n. will be the most likely remedy. Patients describe this sensation, as if a hard lump is felt in the pit of the stomach or in the lung, which he wants to cough out.

Wakeful at night with hunger. Rheumatic pains and aching in bones. Abies-n in **dyspeptic troubles of the elderly** with functional heart symptoms, also after tea or tobacco. Distress in the head with flushed cheeks often accompanies the dyspeptic symptoms of this remedy.

"Pain in the stomach always comes after eating," said Guernsey. **Constipation**. Worse after eating. In lung disease when the sensation is as if there was a hard substance to be coughed up. Feeling in the

epigastrium as if food were lying there (Puls., Bry.).

MIND - Very low spirited, unable to think or study. Hypochondriasis.

Back - Pain in small of back. Rheumatic pains and aching in bones.

Causations - Useful in indigestion in those who abuse tea drinking, tobacco smoking or tobacco chewing.

Chest - Painful sensation, as if something were lodged in the chest and had to be coughed up. Lungs feel compressed, cannot be fully expanded. Worse from coughing. Water brash succeeds cough. Choking sensation in throat.

Ears - Pain in left external meatus.

Female - Menstruation delayed for three months.

Food - Exceedingly hungry and wakeful at night. **Great craving for food at noon and night.** Total loss of appetite in morning.

Head - Hot with flushed cheeks. Low-spirited. Dull during the day, wakeful at night. Unable to think.

Heart - Heavy, slow beating of heart. Sharp, cutting pain in heart. **Tachycardia** and bradycardia.

Limbs - Rheumatic pains and aching in the bones.

Lungs - Easily gets out of breath. Difficult breathing, worse lying down.

Modalities - Worse after eating.

Mouth - Offensive breath.

Rectum - Constipation.

Sleep - Sleepy during the day. Wakeful and restless at night with hunger. Very bad dreams.

Stomach - Indigestion. Belchings. **Pain in stomach always comes on after eating.** Sensation of a lump that hurts. **As if a hard-boiled egg** had lodged in the cardiac end of stomach. Distressing constriction just above the pit of the stomach, as if everything were knotted up.

Temperature - Alternate heat and cold. Chronic intermittent fever with pain in stomach.

Throat - Choking sensation in throat. Sensation of something sticking in esophagus toward its lower end.

COMMENTS - Clarke after giving *Abies nigra* to one patient, he noted that the coldness around the stomach was removed and general chilliness greatly lessened.

RELATIONS - Compare: (1) Lump in stomach. Chin., Bry. Puls. (2) *Nux-v.* Kali-c. Chin., has the lump under the sternum, but higher up. (3) *Alsoother Conifers* - *Thuja.*, *Sabina*, *Cupressus* - painful indigestion.

REFERENCES - Boericke. Clarke. Phatak.

*** **ABROMA AUGUSTA RADIX**

(Olat Kambal)

PHARMACY - *abrom-aug.* *Abroma augusta* 'radix. Olat kambal. Perennial Indian hemp. Devil's Cotton. Abrome. N. O. Sterculiaceae. Tincture of leaves, roots. **Historical dose:** Tincture and all potencies.

CLINICAL - **Aching, pains.** Amenorrhea. **Colicky, pains.** Constipation. Cough. Debility. **Dysmenorrhea.** Dysentery. Edema. Emaciation. Headaches. Hoarseness. Insomnia. **Itching. Leucorrhea.** Malaise. **Menstrual, colic. Menorrhagia. Throbbing, pains.** Vertigo.

HERBAL - *Abroma augusta*, indigenous to India, is an evergreen large shrub or a small tree with drooping branches. It grows wild in India's warmer regions, but is also cultivated in gardens for its beautiful deep scarlet flowers. The roots and bark are used as an emmenagogue.

HOMEOPATHIC - The proving, carried out from 1970-1973 by the Central Council for Research in Homoeopathy, consisted of 40 provers and 20 controls. Dr. D. N. Ray. of Calcutta, made a short proving in 1919 and Kishore made one in 1972, all provings are included in the drug picture.

General debility. Feeling of weakness after stool. Tingling and numbness, feeling of warmth and burning. Trembling, lethargy, weakness, uneasiness, drowsiness and heaviness in the whole body.

Body aches particularly in the joints, aggravated by rest, during movement. Malaise, with feverishness, cough. Emaciation and weight loss with general debility. Edema and puffiness in the whole body, first appeared in face and eyes with eruption, aggravated from heat or motion, ameliorated by cold, rest.

MIND - Peevishness. Anxiety. Restless with dislike for everything. **Quarrelsome.** Easily excited and easily angered. Contradiction is unbearable. Irritability, moroseness. Indifference, vacantness. Sadness of mind. Feeling of joy. Immoderate laughing from trifles.

Abdomen - Gripping pain in the abdomen with dysentery, aggravated in the evening. **Colicky pains.** Dislikes a tight band around the abdomen, brings on suffocative attack, with soreness near right hypochondrium.

Rumbling and ineffectual urging for stool. Flatulent distension of upper abdomen with moderate urging before stool. Feeling of warmth in upper abdomen.

Back - Aching, lameness and sharp pains in lumbar region. Bubbling sensation in left lumbar region. **Sore, bruised pain** in lumbar region, worse morning on rising, better motion. Aching or tingling in the nape of the

neck. Pressure and constriction in the nape of neck.

Chest - Aching pain in the whole chest. Burning in chest. Sharp pain in left infra-clavicular region with catching of breath. Stinging pain in left side of the chest. Aching pain in the left intercostal muscles. Catching pain in the right lower chest with weakness and tiredness, worse movement.

Ears - Pain and soreness with stitching sensation inside the right ear, worse evening, better during the day.

Eyes - Redness of eyes without pain or discharge, ameliorated from cold application. Itching in the right eye with redness, better rubbing the eyes. As if foreign body is lodged in the eyes. **Heaviness of upper eyelids.** Watery exudation with redness of left eyeball. Burning in eyeballs with vertigo. Sore pain, aggravated by sunlight, ameliorated by closing the eyes. Aching pain in right eyelid. Agglutination, redness and swelling of eyelids.

Female - Amenorrhea. **Dysmenorrhea.** Menses scanty or copious. **Menstrual colic and heavy bleeding.** Pain in the lower abdomen, with delayed and scanty menstrual flow. Menses with dark colored clots. **Leucorrhea with pain in the back and lower abdomen.** Yellowish, white offensive leucorrhea. Leucorrhea, thin,

acid, whitish discharge. Pain in right ovarian region, better hot applications. Thin, profuse leucorrhea in emaciated young girls.

Food - Voracious appetite. Loss of appetite. Dislike for food with heaviness of abdomen. Increased thirst for cold water with dry mouth. Thirstlessness. Aversion to smoking. Aversion to starchy food. Desire for fish, juicy things. Desire for sweets, Desires coffee and tea. Desires salty foods, sour foods.

Head - Headaches with heaviness and dull aching pains. **Aching and throbbing pains.** Burning sensation, better application of cold water. Tingling pain. Heaviness in forehead. Sharp pain in forehead, ameliorated by pressure. Bursting pain. Dullness, dizziness, and heaviness in forehead, ameliorated by bathing. Throbbing pain in temples. **Heaviness, aching pains.** Dull pain in vertex, warmth in vertex. Sensation as if being pressed with a blunt object over the supraorbital region.

Heart - Heart, palpitations with undesirable feeling of distress inside the chest, better lying quiet.

Kidneys - Urination followed by weakness and exhaustion. Fishy odor of urine.

Limbs -Aching in the limbs with weakness. Aching pain in shoulder joints. Tenderness in flexor, pronator group of muscles of forearm. Trembling, burning pain in left hand. Paresis, numbness and tingling in right lower extremity with anxiety, insomnia and restlessness. **Heaviness of limbs.** Tiredness in thighs. Aching pain in the knee joints. Lameness and stitching pain. Drawing pain in calf muscles.

Lungs - Shortness of breath with sense of suffocation, with fever, worse during inspiration, lying down on left side. Dry and barking cough. Suffocative cough. Cough with expectoration, whitish or yellowish, salty, mucoid, sticky, thin or thick. Lumpy sputum resembling boiled starch, easily hawked up, worse at night. Must support the chest during cough. Sensation as if the respiratory tract would be torn out.

Male - Lack of sexual desire in males.

Mouth - Dryness of tongue and lips. Sore pain due to the ulceration of the corners of the mouth. Tenderness and swelling of gums, worse chewing, better cold application. Aching pain with swelling of the gums, worse when eating or from any attempt to move the jaw. Stitching pain in gums on right side.

Nose - Sneezing with weakness. Burning in the nose with fever and coryza. Profuse coryza, thin, watery, bland discharge with sneezing. Sensation of obstruction of nostrils at night. Thick, yellow, mucopurulent discharge with weakness.

Rectum - Inactivity of rectum. **Obstinate constipation.** Constipation and headache. Ineffectual desire for stool and rumbling inside abdomen. No desire for stool with pain in abdomen. Hard nodular stool. Weakness after stool. Unfinished sensation after each stool. Constipation with hard, scanty stools. Insufficient, and straining with stools. Stools hard balls like sheep dung.

Skin - Intense itching all over the body, with pimple-like eruption. **Dryness and burning sensation of skin,** worse washing in hot water. Dry small vesicular and papular eruptions (resembling prickly heat) with black discoloration on different parts of the body. Itching without eruptions on the whole body, particularly thighs, during undressing, night, better open air.

Sleep - Insomnia. Sleepiness. Sleep in short naps. Restless tossing in bed with sensation of warmth, ameliorated by hard fanning. **Sleep disturbed by dreams.** Vivid dreams about accidents. Dreams of robbers and dreadful incidents. Dreams of extreme thirst. Dreams as if somebody is calling him by his name.

Stomach - Eructations, ameliorated by passing flatus. Heaviness in epigastrium with disgust for food and headache. **Feeling of emptiness.** Sharp pain in epigastrium. Colicky pain in the epigastrium with fullness of stomach. Nausea while taking food with watery stool, aggravated while eating.

Temperature - Heat all over the body at night with constant chilliness, body aches and sweat, aggravated at night. Temperature ranges between 99° to 100° F. Thirst at night, with fever.

Throat - Dryness at night, with great thirst. Hoarseness of voice. Soreness with tickling sensation and dry cough. Stinging pain in the left side of throat with headache. Stitching pain on right side of the throat with sore pain. Burning in throat with tickling cough aggravated in the evening.

Tongue - Bitter taste. Stinging pain in tongue, worse at midnight, from warm application. Heaviness and soreness of tongue.

Vertigo - Vertigo and giddiness with headache, worse lying down. Vertigo with nausea.

Vision - Blurred vision with aching pain in lids, aggravated by sunlight and bright light.

COMMENTS - In the female pro vers Abroma showed a capacity to relieve menstrual pains and to reduce the tendency to heavy bleeding. None of these provers had a history of leucorrhea but during the proving yellowish white leucorrhoea with offensive odour and pain in the lower abdomen was recorded.

In menstrual disorders it can be compared with Pulsatilla and Viburnum. Pulsatilla patients are generally mild and weep easily, whereas in Abroma the patient is bad-tempered and easily angered.

RELATIONS - Compare: Puls., Vip., Bry. Mag-p. Ph-ac. Lac-ac. Uran-n. Syzygium.

***ABROTANUM ARTEMISIA

(Southernwood)

PHARMACY - abrot. Abrotanum artemisia. Southernwood. Lady's Love. Artemisia abrotanum. N. O. Composite. Southern Europe. Tincture of fresh leaves and stems. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. **Angioma.** Arthritis. Ascarides. Brain, congestion. Chlorosis. Contractions. Dyspepsia. Emaciation. Epilepsy. **Gastralgia.** Gout. Hydrocele. Indigestion. Influenza. **Malnutrition. Marasmus.** Nervousness. Nosebleeds. Otorrhea. Peritonitis. **Pleurisy.** Restlessness. **Rheumatism.** Sleeplessness. Spinal congestion. Typhoid. Worms.

HOMEOPATHIC - The most prominent symptom of Abrot. is the emaciation in lower limbs. It has also an intense indigestion and morbid appetite. There are burning, gnawing, constricting pains and sometimes vomiting of offensive matters.

Marasmus, especially of lower limbs only, yet with good appetite. Marasmus of children. **Malnutrition with a failure to thrive.**

The face is wrinkled, pale, old looking, feels cold, blue rings around eyes. Oozing of blood and moisture from navel of newborn. Nosebleed and hydrocele in boys. Chlorosis.

Phagedenic diseases. Contractions of limbs from cramps or following colic. Sudden aching pain in back better by motion. Symptoms are worse at night and in cold air.

A peculiar sensation is as if the stomach were hanging or swimming in water. Weak, sickly feeling, when excited, trembling. Great weakness after influenza (Gels.. Kali- p.). A pressing sensation remaining after surgery upon the chest for hydrothorax or empyema (Calen.).

Ill effects of suppressed conditions, especially in gout. Tuberculous peritonitis. Exudative pleurisy and other exudative processes.

Metastasis of states and symptoms. Metastasis of rheumatism from joints to heart, to spine.

Rheumatism from suddenly checked diarrhea. cannot move her head, arms or limbs and suffers much pain, no swelling.

After suppressed gout. Gout, painful and inflamed wrists and ankle joints. Joints stiff with pricking sensation. Painful inflammatory rheumatism before swelling. Aggravation of hemorrhoids, when rheumatism improves.

MIND - Feebleness and dullness of the mind. Easily fatigued by conversation or mental effort. No capacity for thinking, as if all bodily and mental power were gone. Thinks brain is softening. Indolence, aversion to physical exercise. Gloomy, desponding.

Exceedingly peevish. Ill-natured, irritable and violent. Cross, anxious and depressed. Excited, loquacious, feels like shouting. Taciturnity. Feels she would like to do something cruel, no humanity.

Abdomen - Weak, sinking feeling in bowels.

Hard lumps are felt in different parts of abdomen. **Bloated and distended.** Tuberculosis peritonitis. Blood and moisture oozing from navel of newborn.

Back - Sudden aching pain in the back, worse night, better motion. Pain in lumbar region extending along spermatic cord. Pain in sacrum with hemorrhoids. Back weak with ovarian pain.

Chest - Pain across chest, sharp and severe in region of heart, rheumatism. Pleurisy, when a pressing sensation remains in affected side, which impedes free breathing (Aeon., Bry.).

Constitutions - Suited to disorders of newborn children, especially boys. Children with emaciation, especially of legs. Marasmus. Digestive weaknesses in the elderly.

Eyes - Blue rings around dull-looking eyes. Hollow eyed, sunken features.

Face - Dry, cold, wrinkled skin, as if old, with marasmus. **Angioma of the face.** Acne, comedones with emaciation. Pale, hollow-eyed appearance.

Female - Menses suppressed. Darting pain in left ovary. Back weak with ovarian pain. Twitching in both ovarian regions, seems to extend to back.

Food - Gnawing hunger and whining. Craving for bread boiled in milk. The **appetite is great, ravenous while emaciating.** Emaciation progresses with good appetite. **Marasmus. Loss of appetite.** Food passes undigested.

Head - Cannot hold the head up on account of weakness of neck. Brain feels tired after conversation or mental effort. Veins distended on forehead. Scalp sore, especially left side, itching.

Heart - Metastasis of rheumatism to heart. Pulse weak and small.

Limbs - Lame and sore all over. Inability to move the limbs, due to rheumatism. Pain in shoulders, arms, **wrists and ankles.** Joints stiff and lame. Marasmus of lower limbs only. **Legs are emaciated.** Contraction of limbs from cramps or following colic. Painful contraction of limbs (Am-m.). Chilblains itch, frostbitten limbs. Cold, prickling, numb, fingers and toes. Gout in wrists and ankles.

Lungs - Raw feeling. Impeded respiration. Dry cough following diarrhea. Cold air causes a raw feeling in respiratory tract.

Male - Hydrocele of boys.

Modalities - Better from loose stools. Better motion. Worse in cold air. Worse at night. Worse foggy weather. Worse wet weather. Worse from checked secretions, especially diarrhea.

Mouth - Slimy taste, acidic.

Nose - Nosebleeds. Dryness of nose.

Rectum - Alternating diarrhea with constipation. Food passes undigested? Rheumatism after suddenly checked diarrhea. Destroys worms, especially ascarides (Ciña). Protruding hemorrhoids with burning from touch. Hemorrhoids appeared and became worse as rheumatic pains abated. Frequent urging, bloody stools, worse as rheumatic pains abate.

Skin - Flabby and loose skin. Furuncles. Falling out of hair. Skin becomes purplish after suppression of eruptions. Itching chilblains.

Sleep - Restless, frightful dreams.

Stomach - Cutting, gnawing, burning pains, worse at night. **Gastralgia.** As if stomach is swimming in cold water. Indigestion with vomiting of large quantities of offensive fluid.

Temperature - High fever, rheumatism. Hectic fever with chilliness, very weakening, and marasmus.

COMMENTS - Characteristic metastasis and marasmus. "Metastasis" is an idea in homeopathy that's not limited to cancer. Metastasis means something disappeared and reappeared. Rheumatic fever followed by sore throat is also known as metastasis. If the throat cleared up but was followed by joint problems, that's a case of metastasis.

Keynote metastasis (Plat.), with a mental state alternating with a physical one. Metastasis in homeopathy is synonymous with "suppression" if there was outside interference. It's perceiving the alternation of states in the person. All the rubrics that say "alternation with..." are metastasis rubrics.

Useful for suppression, can correct the . suppression in some cases. Indicated when a disorder has moved from one area and then to another.

Disorders often go to the intestines. Alternation of constipation and diarrhea. Crohn's disease, colitis, and irritable bowel syndrome.

A very powerful children's remedy for malnutrition, malassimilation, failure to thrive, marasmus (Aeth.), colitis and rheumatism. May have a big appetite and still lose weight. Can be emaciated with poor food assimilation (Iod., Cina). Especially useful when failure to thrive is accompanied with muscular weakness.

Loss of muscular strength, of muscle tone. Flaccid. Difficulty holding up head, in older children.

Metastasis of mumps with a large swollen parotid gland, often metastasizes to the testicles or the breasts (Puls., Carb-v.).

Clarke cured with Abrot. indigestion with vomiting of large quantities of offensive fluid (in a middle-aged woman).

RELATIONS - Compare: (1) Scroph., Bry., Stell. (2) Benz-ac in gout. (3) Iod., Nat-m. in marasmus. (4) Agar, Chin, Led, Nux-v. **Follows well:** Aeon and Bry in pleurisy.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***ABRUS PRECATORIUS

(Crab's Eye Vine)

PHARMACY - abr. Abrus precatorius. Crab's eye vine. Jequirity. Indian liquorice. N. O. Leguminosae.

Papilionoideae. India. Tincture of trituration of the seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Cancer. Conjunctivitis. Epithelioma. Fever. Granular lids. Keratitis. Lupus. Malaise. Ophthalmia. Ulcers. Tumors.

HERBAL - Abrus precatorius is a climbing plant, a native of India, but has been introduced to the Western tropics. It was discovered by the natives of Brazil, who gave it the name Jequirity.

The Treasury of Botany notes that Abrus has small nearly globose seeds, which are of a brilliant scarlet color with a black scar indicating where they were attached to the pods. The seeds are used for necklaces and as a standard of weight under the name of Raté.

Abrus was the plant employed by Professor Nowack to determine weather and telluric forecasts owing to the extreme sensitiveness of its leaves to atmospheric disturbances.

HOMEOPATHIC - Abr. acts chiefly on the eyes, skin and mucus membranes. The general effects are headache, pain in the limbs, fever, and high pulse. Malaise. The roots are used in the same manner as licorice roots. **Eyes** - Epithelioma, lupus, ulcers. Granular lids. Purulent conjunctivitis inflammation spreads to face and neck. Granular ophthalmia. Keratitis.

Head - Headache.

Limbs - Pain in limbs.

Skin - Erysipelatous inflammation of skin. Lupus. Indolent ulcers.

Temperature - High temperature and high pulse.

COMMENTS - Shoemaker, of Philadelphia, gave a series of striking cures with the remedy. He showed it to be useful for disorders of the skin showing great cell growth, lupoid conditions, epithelioma and sloughing ulcers.

In a case of ulcerative lupus of both sides of the nose, which was cured by five applications, the first was followed by an enormous amount of inflammation, accompanied by malaise, high fever, which lasted until the crust began to dry.

The preparation he used was made by decorticating two hundred grains of the beans by slightly bruising and crushing them in a mortar, the red hulls were carefully picked from the cotyledons.

The latter were put in a bottle and covered with distilled water. They were macerated for twenty-four hours, then transferred to a mortar and thoroughly triturated to a smooth paste.

Sufficient water was then added to make the whole weight 800 grains. Prepared in this way it was like an emulsion and was applied to the surface to be treated with a large camel hair pencil or mop.

The application of this emulsion to ulcerated surfaces was almost painless, but soon (often within an hour) there was much irritation and inflammation, the edges became red and infiltrated, surrounding tissues edematous and shining.

In the course of from six to twelve hours a desiccated curass-like crust formed which cracked in twenty-four hours more and the discharge escaped freely. This went on for five or six days, the quantity of discharge diminishing. The crust then separated or was removed by water dressing and disclosed healthy granulations. If any unhealthy granulations were left, the application was repeated.

Shoemaker wrote, "This treatment exercises a destructive action on unhealthy granulated conditions followed by a constructive change. Also promoting under the protective cover of the exudation which it causes, a rapid development of healthy skin and tissue."

But it must be used with caution, for he noted, "It may give rise to erysipelatous inflammation and if used on weak and irritable patients cause great constitutional disturbances."

RELATIONS - Compare: (1) Jequiritol in cases of trachoma and pannus to engraft a new purulent inflammation. The poisons contained in Jequirity seeds are almost identical in their physiological and toxic properties with the similar principles found in snake venoms.

REFERENCES - Boericke. Clarke.

***ABSINTHIUM ARTEMISIA

(Common Wormwood)

PHARMACY - absin. Absinthium artemisia. Common Wormwood. N. O. Compositae. Europe (Not to be confounded with Artemisia vulgaris, which is also called wormwood). Tincture of fresh young leaves and flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Brain, congestion. Chlorosis. Chorea. **Convulsions.** Delirium. Dyspepsia. **Epilepsy. Facial, twitching.** Headaches. Hysteria. Insanity. Insomnia. Impotency. Kleptomania. **Mushrooms, poisoning.** Nervousness. Opisthotonos. Otorrhea. Paralysis. Restlessness. Spinal congestion. **Tremors.** Typhoid.

HOMEOPATHIC - Absinthium has been proved, but a number of the symptoms were taken from observations made on absinthe drinkers. It causes hyperemia of brain, medulla and spine, more intense when combined

with alcohol. Those who take absinthe are liable to hysterical manifestations.

This drug produces a perfect picture of **epileptiform seizure**. **Convulsions are preceded by trembling**, the patient makes grimaces, bites tongue, foams. Marked **tremors** of nerves, tongue and heart.

The giddiness and epileptiform attacks are the most important of the symptoms. **Sudden and severe, giddiness, epileptiform seizures**. Delirium with hallucinations and loss of consciousness. "A peculiar vertigo on rising with a tendency to fall backward."

Attacks occur in rapid succession.

Useful remedy for nervousness, restlessness, excitement and sleeplessness in children. Cerebral irritation, hysterical and infantile spasms come within range of this remedy.

This remedy has been used **for mushroom poisonings**. Opisthotonos. Intoxication. Chorea. Paralysis of inner organs.

MIND - Loss of memory. Forgets what has recently happened after and before convulsion. Wants nothing to do with anybody. Foolish look on face. Hallucinations. Frightful visions. Kleptomania. Insanity. Patient walks about in distress, seeing all sorts of demons. There is exhilaration followed by horrible delirium (Bell.), patient obliged to walk about (Art-v., Cham, and Cina. are better moving about).

Abdomen - Nausea, apparently in region of gallbladder. Bloated around waist and in abdomen, as after ague. Immense accumulation of flatulence in abdomen, wind colic. Liver feels swollen. Pain in spleen, it feels swollen.

Chest - Sensation of weight on chest. Irregular, tumultuous action of heart can be heard in back.

Constitutions - Younger and elderly patients. Chlorosis.

Ears - Discharge from ears after headaches. Otorrhea, especially after hemicrania.

Eyes - Pupils dilated unequally. Injected conjunctiva. Pain in eyes. Itching. Heavy lids.

Face - Foolish look. Rush of blood to the face. **Spasmodic facial twitching**. Makes grimaces and foams at the mouth in epilepsy. Face blue.

Female - Darting pain in right ovary. Premature menopause. Pains in uterus. Chlorosis. Promotes menses.

Food - Loss of appetite, loathing of food.

Head - Confusion in head. Dull occipital headaches (Gels. Pic-ac.). Wants to lie with the head low. Congestion of the brain and spinal cord.

Heart - Tumultuous action, heartbeats can be heard in back. Tremors of the heart felt toward the back.

Kidneys - Constant desire to urinate. Very strong odor, like horse's urine, deep yellow orange color (Kali-p.).

Limbs - Spasms of the body and limbs. Pain in limbs. Paralytic symptoms. Feet very cold.

Lungs - Cough with liver complaints.

Male - Spermatorrhea with relaxed, enfeebled parts. Impotency.

Mouth - Jaws firmly fixed. Bites his tongue in epilepsy. Tongue trembles, feels as if swollen and too large. Tongue thick, protruding, can scarcely talk. Tongue trembling, feels paralyzed.

Nerves - Falling down, as in epilepsy. Unconsciousness with distortion of the features, followed by spasms of the body and limbs. Bloody foam at mouth and biting of the tongue. Stupidity and the loss of memory afterwards. Opisthotonos, with grinding teeth, followed by stupor. Paralysis of inner organs.

Sleep - Sleeplessness, typhoid with congestion of base of brain. Nervous excitement and sleeplessness in children.

Stomach - Uncomfortable, irritated feeling of stomach. Food lies heavy. Stomach feels cold and oppressed. Nausea, retching, eructation.

Throat - Scalded feeling in the throat. Sensation as if a lump.

Vertigo - Vertigo on rising, with the tendency to fall backward.

COMMENTS - Clarke wrote about a case of epileptic vertigo with signs of constant cerebral and spinal congestion, nausea and tendency to frequent vomiting, persistent tremors, epileptic attacks of hysterical character and opisthotonos. Absinth, first in the tincture and later in 3c, completely cured.

Halbert regarded Absin. as of special service in cases of epilepsy where consciousness is not entirely lost. The characteristic symptoms include a sudden and severe giddiness, epileptiform seizures, delirium with delusions and loss of consciousness. For some time after the attack there is a loss of memory.

RELATIONS - Compare: (1) Alcohol, Agar., Artemisia, Hydrocy. acid. Ciña, Cicuta.

REFERENCES - Boericke. Clarke. Phatak.

***ACALYPHA INDICA

(Indian Nettle)

PHARMACY - acai. Acalypha indica. Indian Nettle. Cupameni. Indian acalypha. N. O. Euphorbiaceae. East Indies. Tincture of fresh plant. The fresh plant is macerated with two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Bloody expectorations. Chest, pain. **Coughs.** Diarrhea. Emaciation. Flatulence. Hemoptysis. **Hemorrhages.** Jaundice. **Lung, cancer. Tuberculosis.**

HOMEOPATHIC - Acai, is a remedy having a marked action on the alimentary canal and respiratory organs. The herbal tincture of the Acai, is a specific in **hemorrhage from the lungs.** Hemoptysis. Acai, is indicated in incipient tuberculosis with hard, racking cough, **bloody expectoration,** arterial hemorrhage, but no febrile disturbance.

All hemorrhages are **aggravated in the morning.** Very weak in the morning, gains strength during the day. Progressive emaciation, sense of weight in the stomach with sense of burning, flatulence and sputtering diarrhea.

Abdomen - Burning in the intestines. **Sputtering diarrhea with forcible expulsion of noisy flatus.** Bearing down pains and tenesmus. Rumbling distention and griping pain in abdomen. Rectal hemorrhage, worse in morning.

Chest - Dullness of chest on percussion, constant severe pain in chest.

Constitutions - Tubercular constitution. Hemorrhagic diathesis.

Heart - Pulse soft and compressible.

Lungs - **Dry, hard coughs, followed by hemoptysis,** worse in morning and at night. **Expectorates pure blood** in the morning and dark clotted blood in the evening. Cough most violent at night. **Lung cancer** with violent coughs followed by bloody expectoration or **pure blood.**

Modalities - **Worse in mornings.** Cough is aggravated at night.

Rectum - Diarrhea. Flatulence and sputtering diarrhea.

Skin - Jaundice. Itching and circumscribed furuncle-like swellings.

Stomach - Burning, sense of a weight in the stomach.

COMMENTS - Dr. Tonnere of Calcutta, India, seems to have been the first to call attention to this plant as a remedy. It first appears in a small work. Additions to the Homeopathic Materia Medica, collected and arranged by Henry Thomas, M. D. and published in London in the year 1858:

Thomas employed a 6x dilution in three cases of tuberculosis. In one case, there was a tuberculous affection of the upper portion of the left lung of two years' standing. Hemoptysis had been going on for three months, the expectoration had been pure blood in the morning, dark lumps of clotted blood in the evening, and the fits of coughing were very violent at night.

In this case, all homeopathic remedies had been tried unsuccessfully, then Thomas accidentally discovered the virtues of the Acalypha Indica, that remedy having been given him by a native for jaundice.

Henry Thomas said, "I prepared the mother tincture upon the homeopathic principle and" took 10 drops, which brought on a severe fit of dry cough, followed by spitting of blood. After having noted all the symptoms experienced by myself and finding that they were nearly all similar to those of my patients."

Thomas gave six drops of the 6x dilution in half a tumbler of water. A spoonful was to be taken every half hour, beginning immediately at 9 a.m. At 6 p.m., the blood had stopped. He continued this for eight days and the blood never reappeared. The patient improved and auscultation proved **the disease decreased. Thomas was hopeful** to effect a cure.

In one case of passive hemorrhage from the lungs, after Arnica was used with little benefit, Acai, benefited and then failed, after which the use of Arnica entirely stopped the hemorrhagic flow.

Grimmer stated that "Lung cancer with a violent cough which followed by bloody expectoration or of pure blood, bright in the morning, dark and clotted in the evening. Dullness of chest on percussion, constant severe pain in chest. Progressive emaciation with a sense of weight in the stomach with burning. Flatulence with a sputtering diarrhea."

RELATIONS - Calc, is an antidote to the Acalypha. **Compare:** (1) Mill., Phos., Acet-ac., Kali-n. (2) Also, compare Meri., Mane, and other Euphorbians. (3) Ham., ip., Aeon.

REFERENCES - Anshutz. Boericke. Clarke. Grimmer. Thomas.

***ACCUTANE

(Isotretinoin)

PHARMACY - accu. Accutane. Isotretinoin. Allopathic drug for acne. **Historical dose:** All potencies.

CLINICAL - **Acne.** Allergies. Anemia. **Birth, defects.** Bleeding. Bruises. Chest pain. Colitis. Conjunctivitis. Cysts. **Depression.** Diarrhea. **Dry, skin.** Edema. Emaciation. Eye, disorders. Fatigue. Hair, problems. Headaches. Hematuria. Hepatitis. Herpes. Incoordination. Itching. Joint, pains. Liver, disorders. Nausea. Night blindness. Nosebleeds. Palpitations. Photophobia. Rashes. **Skin, disorders. Suicidal.** Sun. sensitivity. Sunburns. Vertigo. Vomiting. Weakness. Wounds.

HOMEOPATHIC - Accutane, a chemical cousin of vitamin A, is prescribed for the treatment of severe,

disfiguring cystic acne that has not cleared up in response to other drugs such as antibiotics. It works on the oil glands within the skin, shrinking them and diminishing their output.

Accutane can cause **severe birth defects**, including **mental retardation** and physical malformations. Some people taking Accutane have experienced headaches, nausea, and visual disturbances caused by increased pressure within the skull. Swelling of the optic nerve.

Abnormal hair growth or loss. Allergic reactions. Chest pain. **Delay in wound healing**. Dry nose. Fatigue. Flushing. Liver disorders. Pinkeye.

Stomach and intestinal discomfort. Suppression of growth. Swelling due to fluid retention. Weakness. Weight loss.

Abdominal pain. Dizziness. Dry or cracked lips. Facial flushing. Incoordination and clumsiness. Headache, vomiting. Bleeding from the rectum. Severe diarrhea. Inflammatory disease of the bowels.

MIND - Accutane may cause depression or other mental problems. Nervousness. Emotional instability. Depression. Obsessive and compulsive disorders. **Mental retardation**. Self mutilation. Aggressive and violent behaviors.

In some cases, it has prompted thoughts of suicide. **Suicidal depression**. Some patients taking Accutane have had thoughts about hurting themselves or putting an end to their own lives. Some people tried to end their own lives.

Abdomen - Colitis. Bowel inflammation and pain. Pancreatitis.

Blood - Anemia. Bleeding from, gums, rectum, and nose. Changes in blood sugar or cholesterol levels.

Ears - Hearing problems.

Eyes - Conjunctivitis. Night blindness. Photophobia. Vision problems. Decreased night vision. Decreased tolerance to contact lenses. Swelling of the optic nerve.

Face - Facial flushing.

Female - Menstrual changes.

Head - Headaches.

Heart - Stroke. Irregular heartbeats. Sudden drop in blood pressure (causing unconsciousness).

Kidneys - Blood in urine. Urinary discomfort.

Limbs - Joint pains. Calcification of tissues. Tendon and ligament problems. Peeling palms or soles. Nail disorders.

Liver - Liver disorders. Hepatitis.

Mouth - Dry, mouth. Cracked and bleeding lips. Bleeding gums.

Nose - Dry, nose. Nosebleeds.

Perspiration - Profuse sweating.

Rectum - Bleeding. Diarrhea.

Skin - Dry, fragile skin. Severe cystic acne.

Rashes. Skin infections. Sun sensitivity.

Sunburn sensitive skin. **Delay in wound healing**. Abnormal hair growth. Bruises easily. Herpes. Itching. Changes in skin pigmentation.

Sleep - Drowsiness. Difficulty sleeping.

Stomach - Nausea. Vomiting.

Temperature - Flushing.

Vertigo - Dizziness.

RELATIONS - Compare: (1) Aur.

REFERENCES - Murphy.

***ACETANILIDUM

(Antifebrinum)

PHARMACY - Acetan. Acetanilidum. Antifebrinum. Formed from aniline. Exalgine is a derivative from this Methylacetanilid and has almost identical action. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. Asthma. Collapse. Cyanosis. Edema. Fainting. Palpitations. Thrombosis.

HOMEOPATHIC - Acetan, was used as a sedative and antipyretic for various forms of headache and neuralgia in doses of one to three grains.

Acetan, depresses the heart, respiration, blood pressure and lowers the temperature. Destroys red blood corpuscles, pallor. Cyanosis and collapse. Increased susceptibility to cold. Albuminuria with edema of the feet and ankles.

Several cases of thrombosis of the lower limbs from heart weakness have followed its use. Antifebrinum and Exalgine have produced symptoms of collapse and cyanosis, in some instances fatal, with great rapidity. One

patient experienced, after taking Exalgine, a sensation that his head was so large that it seemed to occupy the whole room.

Eyes - Pallor of optic discs, contracted visual field and shrinking retinal vessel, mydriasis.

Head - Enlarged sensation. Fainting. Moral depravity. Given for migraines and in order to reduce fever.

Heart - Weak heart, irregular heartbeat with blue mucus membranes.

Lungs - Difficult respiration, as in a bad attack of asthma. As if the diaphragm ceased working.

RELATIONS - Compare: (1) Antipyrin., Anilinum, Glon.

REFERENCES - Boericke. Clarke.

***ACETICUM ACIDUM

(Acetic acid)

PHARMACY - acet-ac. Aceticum acidum. Acetic acid. Vinegar. Glacial Acetic Acid. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Ascites. **Anemia. Anesthetics, poisoning.** Anxiety. Ascarides. Birthmarks. Burns. Corns. Croup. **Debility.** Delirium. **Diabetes.** Diphtheria. **Dropsy. Edema. Ebullitions. Emaciation.** Fevers. Hydrophobia. Nevii. Narcotics, poisoning. Sausage, poisoning. Scalds. Scurvy. Skin, cancer. Stings. Stomach, cancer. Tuberculosis. Varicose, veins. Warts.

HOMEOPATHIC - **Antidotes the effects of anesthesia** (Phos.). For dullness or grogginess since anesthesia, with memory problems or chronic fatigue (Phos., Chlf., Nitro-o.).

Keynote waxy pale skin, anemia and severe water brash. The water brash is of a sour regurgitation during pregnancy (Carbo- v., Nat-p.). Intense thirst, burning in throat, nausea, retching and sour rising as met with in cases of cancer and debility. Used in the past as a tonic and to increase digestion.

Profound anemia with some dropsical edema symptoms. Great debility, frequent fainting, dyspnea, weak heart, vomiting, profuse urination and sweat. Hemorrhage from any part. Varicose swellings. **Emaciation and debility.** Especially indicated in pale, lean persons with lax, flabby muscles. **Dropsy of abdomen and legs, anasarca, great thirst, pale, waxen skin.** Edema, peripheral edema associated with anemia or protein loss through the urine.

Acetic acid has the power to **liquefy albuminous and fibrinous deposits.** Dissolves cancer cells.

W. Owens noted that it was useful for epithelial cancer internally and locally. Sycosis with nodules and formations in the joints. Hard chancre, the 1x solution will soften it and cause the formation of pus.

Changes gangrenous ulcers, hospital gangrene, prevents decomposition of animal matter.

There are gnawing, ulcerative pains in stomach, pain and burning in abdomen. Profuse, exhausting diarrhea.

Ebullitions. Diabetes. Scurvy. Putrid and hectic fevers with night sweats.

MIND - Irritable. Very dull and low-spirited. Grieves much, sighs often. Horrible attacks of anxiety with difficult breathing. Borrows trouble, worried about business affairs. Grieves about his sickness and the children. Does not know her own children. Forgets what has recently happened. Confusion of ideas. Alternate stupor and delirium.

Abdomen - Distention of the abdomen, colicky pains. Inflammation of bowels during dentition. Abdomen feels as if sunken in when lying on his back. Frequent watery stools, worse in morning. **Tympanitic.** Ascites. Hemorrhage from bowels.

Back - Myelitis, with profuse urine, the pain in the back **relieved only by lying on the abdomen.**

Blood - Hemorrhages from nose, lungs, stomach, bowels, and uterus. Passive hemorrhages. Blood coagulated in veins. Blood vessels contracted. Varicose swellings. Chlorosis, anemia.

Constitutions - Suited to children and old people. For lax, pale, lean anemic persons.

Face - Pale, waxen, emaciated. Expression wild, pupils dilated. Bright red flush on both cheeks. Left cheek red during fever. Sweat on forehead in spots.

Female - Excessive menses. **Hemorrhages after labor.** Nausea of pregnancy. Metrorrhagia with great thirst after childbirth. Breasts painfully enlarged, distended with milk. Threatening abscess of the breast. Anemia of nursing mothers. Breast milk impoverished, bluish, sour, child droops, lose flesh, gets marasmus.

Food - Greatest burning thirst, with diabetes or dropsy. Insatiable even by taking large quantities. Thirsty with dry lips, which peel off in flakes. No thirst with fever. Cold drinks disagree. Loss of appetite. Disgust for salted things and cold victuals. Bread and butter disagree. Vegetables, except potatoes, disagree.

Head - Blood rushes to head with delirium. Temporal vessels distended. Child does not let its head be touched. Heaviness and dull pains in forehead and vertex. Headache from abuse of tobacco, opium, coffee, or alcohol.

Kidneys - Large quantities of pale urine. Diabetes with great thirst and debility (Ph-ac.).

Limbs - Emaciation. Edema of feet and legs with diarrhea. Varicose swellings.

Lungs - Hoarse, hissing respiration. **Difficult breathing, cough when inhaling.** Croup. Membranous croup.

Irritation of trachea and bronchial tubes. False membrane in throat. Profuse bronchorrhea. Putrid sore throat (gargle). Hurried and laborious breathing. Rattling in chest.

Male - Weakening emissions, semen passes at stool. Prepuce thickened, fissured, can't be retracted and itches fearfully. Sexual passion, but feeble erection.

Mouth - Teeth feel dull, breath foul. Scorbutic ulcers, toothache. Sour taste. Epithelium of mouth quite white. Tongue pale and flabby.

Nose - Nosebleed especially from a fall or blow. Liable to frequent catarrhal attacks.

Rectum - Hemorrhages from bowels. Constipation, with great thirst and excess of pale urine. Chronic diarrhea of emaciated children. Diarrhea with great thirst and swelling of legs and feet. Diarrhea with colic pains. Ascarides.

Skin - Pale, cold, waxen, and edematous. Burning, dry, hot skin or bathed in profuse sweat. Diminished sensibility of the surface of body. Varicose swellings. Scurvy, anasarca. Bruises, sprains. Stings, bites, etc. Tetters-like eruptions. Nevi, warts, corns.

Sleep - Sleepless.

Stomach - Burning water brash and profuse salivation. **Fermentation** in stomach. Vomits after every kind of food. Epigastric tenderness. Sour belching and vomiting. **Violent burning pain in stomach and chest**, as of an ulcer, followed by coldness of skin and cold sweat on forehead. Stomach feels as if had taken a lot of vinegar. Scirrhus of pylorus. Indurations in stomach. Cancer of stomach.

Temperature - Hectic with drenching night sweats. Red spot on left cheek. No thirst in fever. **Ebullitions**. Sweat profuse, cold. Low fever with night sweats. Putrid and typhoid fevers.

Throat - False membranes in throat. Hoarse with laryngeal irritation. Children thirsty, but swallow with difficulty. Diphtheria. Hissing respiration, with rattling in the throat.

Vertigo - Vertigo with feebleness and fainting.

COMMENTS - A plump and blooming young woman took a small glass of vinegar daily to reduce size. She soon lost flesh and color. In a month, cough set in with white concocted phlegm, fever. Dyspnea, night sweats, anorexia, dropsy, diarrhea and death. The lungs after death were found stuffed with non-suppurating tubercles. A Oeiman, after working twelve months in a vinegar factory, had to leave from indigestion, dyspnea and ready fatigue.

Equal parts of vinegar and hot water make a refreshing sponge-down for many conditions of fever with or without perspiration. Acetic acid is often given in drop doses: five drops in four ounces of water, take two or three times a day. It was also used in the past as a tonic and to increase digestion. Acet-ac. is useful homeopathically for anemia.

RELATIONS - Acetic acid is antidotal to all anesthetic vapors. Counteracts sausage poisoning. Follows China off. after hemorrhages. **Compare:** (1) Am-a. - profuse saccharine urine, patient is bathed in sweat. (2) Benzoin oderiferum - night sweats. (3) Ars., Chin., Dig. (4) Liatris - anasarca in heart and kidney disease, dropsy and chronic diarrhea.

REFERENCES - Boericke. Clarke. Phatak.

***ACETONUM

(Acetone)

PHARMACY-aceton. Acetonum. Acetone. It is also called dimethyl ketone, 2-propanone, and beta-ketopropane. Dilutions. **Historical dose:** All potencies.

CLINICAL- Birth, defects. Coma. Confusion. Headaches. Menstrual, disorders. Nausea. Unconsciousness. Vertigo. Vomiting.

HOMEOPATHIC - Acetone is used to make plastic, fibers, drugs, and other chemicals, as well as to dissolve other substances. Exposure to moderate to high amounts of acetone can irritate your eyes and respiratory system, causing dizziness. Headaches. Light-headedness. Confusion. Increased pulse rate. Effects on blood. Nausea and vomiting. Shortening of the menstrual cycle in women.

Very high exposure may cause loss of consciousness and coma. Swallowing very high levels of acetone can result in unconsciousness and damage to the skin in your mouth. Skin contact can result in irritation and damage to the skin. Dizzy. Light-headedness. Tobacco smoke, smell of nail polish remover aggravates.

Health effects from long-term exposures are known mostly from animal studies, they include kidney, liver, and nerve damage, increased birth defects, and lowered ability to reproduce (males only). It is not known if these same effects occur in humans.

COMMENTS - Acetone is used to make plastic, fibers, drugs, and other chemicals. It is also used to dissolve other substances.

It occurs naturally in plants, trees, volcanic gases, forest fires, and as a product of the breakdown of body fat.

It is present in vehicle exhaust, nail polish, tobacco smoke, and landfill sites. Industrial processes contribute more acetone to the environment than natural processes.

REFERENCES Murphy.

*****ACHYRANTHES CALEA**

(Herb of Fever)

PHARMACY - achy. Achyranthes calea. Herb of fever. Herba du Tabardilla de Puebla. N. O. Amaranthaceae. Mexico. Tincture of the whole dried plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Chickenpox. Encephalitis. Glomerulonephritis. Infectious diseases. Kidney abscess. Measles. Meningitis. Neuritis. Psittacosis. Pyelonephritis. Rubella. Scarlet fever. Septicemia. Typhoid fever.

HERBAL - In herbal medicine, the plant is used as a diaphoretic and a febrifuge. The mother tincture is prepared by using the whole, fresh plant, dried.

HOMEOPATHIC - The homeopathic proving is the work of Dr. De Legarreta, on himself and volunteers. Similar to Aconite in fevers, but of a larger range, also adapted to typhoid states and intermittents. Fever with dry skin. Temperature between 38°C and 40°C. Feeling of heat, which increases when resting.

Muscular pains in the long muscles. Fatigue with need for rest. Sensitive to change in barometric pressure. Face red, swollen as after long exposure to the sun. Muscular rheumatism. Muscular stiffness.

Acute congestive states, feverish with torpor and indifference towards the environment. Congestive, throbbing headache. Dryness and burning of the mucus membranes and of the skin. Acute osteomyelitis in adolescents.

MIND - Desire to be alone in a state of calm, answers in monosyllables. Apathy and indifference towards the environment. Torpor with sudden starting from sleep to return again to a state of torpor. Mental effort tires him and he puts it off until later. Chi Idren have nightmares and awake panic-stricken.

Depression. Fear of suffering. Low morale with uneasiness, twinges of conscience, religious preoccupation. Desire to set his conscience right, begs forgiveness and tends to excuse himself for his errors. Suffocates with the intense heat, wants immediate relief. Needs to be well covered despite the feeling of heat of which he complains. Annoyed by light, ameliorated in the dark with the presence of a third, silent person.

Abdomen - Acute epigastric pain from the cold. Acute hemorrhaging pancreatitis. Acute gastritis, colitis, enterocolitis and cholecystitis. Experiences no need for defecation. Feeling of repletion.

Back - Feeling of aching, bruising heaviness of the back and the loins. Feet and hands burning. Acute pain in the back and neck. Cold sweat on the back. Torticollis. Lumbago.

Breasts - Acute mastitis. The breasts are sensitive to the touch.

Chest - Oppression with the need for deep, repeated inhaling. Pain in the pectoral muscles, in the intercostal spaces. Thoracic pain in the pre-sternal and precordial regions.

Ears - Itching, heat and dryness of the auditory canal. The auricle of the ear bright red and tense. Cannot bear noise. Acute congestive otitis media. Acute mastoiditis.

Eyes - Bright, sensitive to light. Feeling of sand in the eyes. Impression of burning in the eyes, watering. Eyes bloodshot, giving a terrifying appearance. Eyelids are hot, heavy, drooping, eyelashes turn upwards. Eyes infected, yellow mucus secretion eased by cold compresses. Painful eyeballs, relieved by pressure of the fingers on the eyeball. Dacryocystitis, blepharitis, conjunctivitis, keratitis and iritis.

Female - Dryness and burning in the vagina. External genital organs relaxed. Menses sometimes relieve the general condition. Vulvulitis, Bartholin's, vaginitis, metritis and salpingitis.

Food - Needs to drink to slake thirst. Thirst for cold water, which seems to taste bad. Indifference to food, aversion to solid food.

Head - Severe congestive frontal headache. Beating in the temporal arteries. Strange noises in the head. Headache worse when touched, eased by compression of the head or by placing a heavy pillow on the head.

Heart - Regular yet slow heartbeats, steady with a low, strong and full pulse. Dry pericarditis. Aortitis, syphilitic or atheromatous. Aneurysm of the aorta. Temporal arteritis. Arteritis. Myocarditis. Cardiotonic.

Kidneys - Acute glomerulonephritis. Pyelonephritis. Kidney abscess. Bladder tenesmus, burning in the urethra. Frequent, pressing emission of small quantities of hot, clear urine, which when still, takes on a reddish tint. Urethritis.

Limbs - Acute joint rheumatism. Muscular rheumatism. Acute osteomyelitis in adolescents. Hands and feet also perspire.

Lungs - Breathing is difficult, breaths short, noisy and fast. A light cough, catarrhal and very tiring. Bronchopneumonia. Pneumonia. Pleurisy.

Male - Penis hot and flaccid. Scrotum congested with veins standing out. No sexual desire, aggravated by the cold. Ejaculation rare, erection incomplete. Burning in the urethra after ejaculation. After acute testicular surgery.

Modalities - Better from strong pressure. Better calm, and rest. Worse from movement. Worse cold, damp. Worse on the left, but not exclusively.

Mouth - Hot and dry. Dry, burning tongue. Aphthae, from exposure to the sun or indigestion. Muscular pains in the masseter and zygomatic muscles, which force the mouth to remain open.

Nose - Nose dry, blocked and painful. Black secretion, relief from flowing. Nosebleed on the left side when blowing the nose. Maxillary sinusitis. Frontal sinusitis. Ethmoiditis.

Skin - Skin dry, burning, impression of goose flesh when moving. Burning redness of the skin. Malignant lupus erythematosus. Painful dermatitis.

Temperature - Fever after sudden changes of temperature. Temperature level from 38°C to 40°C.

Throat - Dry, burning throat. Needs to swallow often in order to moisten the throat. Prickling in the throat after a cold drink. Hoarseness, difficulty in speaking in cold weather.

COMMENTS - *Achyranthes calea* is found in Mexico. This herbaceous plant produces a round stem, which, while young is green, but which takes on a bluish-red hue When fully grown. The stem is gnarled and rugged, the leaves oval, spear-shaped and smooth. Small, hermaphrodite flowers with a fruit crowned by a pistil, the pericarp is fine and membranous with reddish dots.

RELATIONS - Compare: (1) *Aeon.* - Dry, burning skin, but anxious restlessness with a fear of death. (2) *Bry* - Severe inflammation of the mucus membranes, acute prickling pains aggravated by the slightest movement, ameliorated by pressure. (3) *Rhus-t.* - Generalized aching. Constant need to change place tongue with red triangle at the tip, painful stiffness of limbs, skin red with vesicular itching eruptions. (4) *Pyrog.* - Prostration and agitation. Dissociation between pulse and temperature. Cadaverous odor of perspiration and discharges.

REFERENCES - Boericke. Julian.

***ACONITINUM

(Aconitine)

PHARMACY - aconin. Aconitinum. Aconitine. Alkaloid of Aconite. Aconitia. N. O. Ranunculaceae. An alkaloid obtained from the roots and stems of *Aconitum napellus*. **Historical dose:** All potencies.

CLINICAL - Blindness. Chills. Convulsions. Deaf. Dyspnea. Ears, noises. Esophagus, spasms. Eyes, strained. Hemisphera. Hydrophobia. Liver, disorders. Neuralgia. Paralysis. Spasms. Spleen, enlargement. Tetanus. Tongue, disorders. Trismus. Vomiting.

HOMEOPATHIC - The knowledge of this alkaloid is chiefly derived from cases of poisoning and over-dosing. On local application, first there is a sensation of warmth, then burning with sharp pains and itching. Finally there is numbness and anesthesia.

In one poisoning case, vomiting recurred every two or three minutes and was performed by a sudden jerking action of abdominal muscles, accompanied by a loud shout, probably dependent on a sudden contraction of the diaphragm.

Every attempt to swallow was followed by the spasms, like hydrophobia, but they were not renewed by the sight of water. The slightest touch renewed the spasms.

The numbness, tingling, prickling and heat of the Aconite provings are produced by the alkaloid, but with increased intensity. Tingling sensation. Tinnitus aurium. Heavy feeling as of lead, pains in supra-orbital nerve, ice-cold sensations creep up, hydrophobia symptoms. Aconitine should be helpful in cases of hydrophobia cases, whether of the convulsive or the paralytic kind.

The senses are disordered or lost, including the sight, hearing, and smell.

Symptoms set in with great rapidity and develop with extreme intensity. If recovery occurs it is rapid and complete. There is relaxation of the limbs and every exertion aggravates the symptoms. Worse by mental exertion, by agitation, or touch. Erect position causes nausea.

MIND - Anguish with the fear of death. Intellect perfect, even vivid. Flow of ideas sluggish, long reflection impossible. Power of attention impaired. Feels like one sleeping and dreaming. Forgetfulness and trembling of limbs.

Abdomen - Rumbling in bowels. Sudden contraction of diaphragm. Liver and spleen greatly enlarged.

Ears - Sense of pressure in ears. Roaring in ears. Complete deafness.

Eyes - Strained feeling in eyes. Pupils dilated (both from internal and external use). Complete blindness, accompanying dilatation of pupils, sight returning when pupils contract. Vision hazy with giddiness and nausea. Pupils insensible to light.

Face - Fullness in cheeks and temples gradually changing to painful sense of tension, formication and prickling. Face tense and swollen. Creeping sensation in face and forearms. Peculiar drawing, stretching, pressing sensation in cheeks, upper jaws, forehead.

Head - Fullness in the head with noises in the ears. Head and face ache, often darting pains in face, sometimes

accompanied by vomiting. Hemiparesis has been cured. Weight about head, unable to hold it up.

Heart - On entering a warm room, pulse is more frequent, then sinks far below normal, small, weak intermittent. Sounds of heart only heard at apex.

Kidneys - Copious diuresis. Difficulty in voiding urine. Dysuria and occasionally retention with hypogastric pain.

Limbs - Weakness, trembling, burning, creeping, tingling, and numbness of limbs.

Liver - Liver and spleen greatly enlarged.

Lungs - Respiration difficult. Oppressive anguish in precordial region. Sighing breathing.

Mouth - Burning on tip of tongue and lips. Burning, constricting, acrid, dry sensation in mouth and fauces. Tongue stiff. Taste disagreeable and disgustingly bitter or completely lost. Taste impaired. Teeth more sensitive when biting. Salivation.

Skin - General formication.

Sleep - Somnolence. Sleep disturbed. Throws himself continually around in bed.

Stomach - Belchings immediately. Severe vomiting, recurring every two or three minutes, from a sudden jerking action of abdominal muscles accompanied by a loud shout. Nausea induced by erect position. Vomiting relieves all symptoms. Warmth most marked in region of stomach.

Temperature - Surface cold, sweating and quite pale. Intense coldness. Head and face became suddenly warm, warmth extended over rest of body, was more intense in region of stomach and was accompanied by sweat.

Throat - Burning anguish in throat. Constriction and burning from mouth to stomach. Every attempt to swallow followed by spasms like hydrophobia but not renewed by sight of water. Difficulty of swallowing and a pain in back of neck and behind jaws in parotid region. Burning in gullet as if a hot coal were there.

Vertigo - Vertigo and confusion with ringing in ears, falls almost immediately. With giddiness, dimness of vision and muscular weakness.

COMMENTS - Found in all species of Aconite except Acon-1. German Aconitine is amorphous, French Aconitine is crystalline and 170 times stronger than the German.

Morson's "English Aconitine" is a secret preparation believed to be made from Acon- f. The alkaloid in Acon-f. differs somewhat from ordinary Aconitine chemically and is called pseudo-Aconitine. The Aconitine of T. H. Smith of Edinburgh is probably identical with Morson's.

Symptoms often proceed from below upwards. "A tingling, prickling sensation, running up leg to spine and head and tingling of fingers." "Ice-cold sensation creeps up from his feet." Fear of death, anguish intense chilliness, feeling of sickness, constricting burning sensation, extending from mouth to stomach. Twitchings and spasms over whole body, especially in face. All symptoms are better by vomiting.

In one poisoning case, the blindness was coincident with sudden dilatation of the pupils and sight partially returned as the pupils contracted. A heavy feeling as of lead all over the body. All parts except head and stomach feel as if filled with lead. Neuralgia of fifth cranial nerve. Creeping on face with feeling of swelling and tension. Pains in supra-orbital nerve were especially prominent.

Postmortem examinations showed the spleen very much enlarged, posterior part of liver dark and almost black. Kidneys hyperemic.

RELATIONS - Compare: (1) Aeon. (2) Hydrophobia, (rabies) symptoms, Bell., Canth., Hyos., Lach., Fagu.

REFERENCES - Boericke. Clarke.

***ACONITUM CAMMARUM

PHARMACY - acon-c. Aconitum cammarum. Aconitum neomontanum. Aconitum intermedium. Aconitum stoeckianum. N. O. Ranunculaceae. Tincture of fresh root. **Historical dose:** All potencies.

CLINICAL - Apathy. Belching. Catalepsy. Eruptions. Headaches. Memory weak. Neuralgias. Paralysis. Pollutions. Salivation. Subsultus tendinum. Tongue, paralysis. Twitching. Vomiting.

HOMEOPATHIC - The main symptoms of Aconitine are reproduced in Acon-c. It has been used for headaches with vertigo and tinnitus. Also cataleptic symptoms, formication of tongue, lips and face. Subsultus tendinum. Twitching.

Aconitum cammarum has formication that begins on the tongue and lips and spreads to the face and finally over the whole body, with this there is distortion of features and dry skin. Headache, worse from bending the body forward. Face pain accompanied by tinnitus aurium and vertigo.

Walking causes weariness and, if continued, causes pains in elbows, knees and hips. Violent belchings, inclination to vomit without vomiting, spasmodic contraction of stomach and abdominal muscles.

Great sensitiveness to light. Erections and pollutions without voluptuous dreams. Small papules and vesicles on lower limbs, filled with serous fluid, very painful. Memory weakened, sense of touch diminished.

MIND - Apathy and indifference. Thought and power of concentration disturbed. Memory weak. Rage. Fear.

Abdomen - Burning in abdomen and sensation of ants crawling around in it.

Face - Black and blue color of face, blue swollen lips. Most remarkable sensation contraction of face.

Heart - The pulse is frequent, afterwards depressed, slow, irregular and intermittent.

Mouth - Paralysis of tongue. Salivation. Fuzzy sensation where the crawling was. Taste and sensation diminished.

Throat - Voice hoarse and rough. Respiration slow, difficult with sensation as if chest and throat constricted.

REFERENCES - Boericke. Clarke.

*****ACONITUM FEROX**

(Himalayan Aconite)

PHARMACY - acon-f. Aconitum ferox. Himalayan Aconite. Indian Aconite. Aconitum heterophyllum. Bisch. Bikh. Ativisha. N. O. Ranunculaceae. Himalayas, most poisonous species. Tincture of root. **Historical dose:** All potencies.

CLINICAL - Anxiety. Burning pains. Cheyne- Stokes. Chill. Dyspnea. Gastralgia. Neuralgia. Numbness.

HOMEOPATHIC - Aconitum ferox is the most poisonous species known, containing the greatest proportion of Aconitine from the Himalayan Mountains. Rather more violent in its actions than Aeon, napellus.

Acon-f. was proved by Dworzack, who also proved Aconitine. The Ferox developed burning pains in greater intensity than the alkaloid, more intense mental activity followed by greater depression. It is more diuretic and less anti-pyretic (fever).

In Aconitum ferox, there was marked suffering. Anxiety and fear of suffocation from paralysis of respiratory muscles, obliged to breathe half-sitting up with head resting on palms of hands. Rapid respiration. Cheyne-Stokes breathing. Cardiac dyspnea, neuralgia and acute gout. Dyspnea. Pain in occiput and neck.

MIND - Very active mind, sequence of ideas rapid, talked constantly, remembered easily. Incapable of any mental work, even the simplest addition, comprehension and understanding became confused.

Abdomen - Rumbling in bowels, constant gurgling.

Kidneys - Frequent and very copious evacuations of urine

Limbs - Gait tottering, remarkable weakness in lower limbs, especially right.

Lungs - Dyspnea increased to such a degree that he was obliged to breathe half-sitting up with head resting on palms of hands, constantly feared suffocation from respiratory paralysis.

Modalities - Better cold drinks. Better sitting up. Better warm food. Worse coffee.

Mouth - Tongue almost insensible, feels like a piece of raw leather in mouth. Tongue covered with a thick yellowish-white fur. Violent burning in mouth (in two minutes), renewed by eating, better by drinking cold water.

Rectum - Two half-watery, dark, not copious stools.

Sleep - Sleeplessness. On waking, violent burning in mouth and throat, warmth in stomach, dull sensation in head.

Stomach - Pressure in stomach with pain. Warmth in stomach. Violent drawing pain in region of stomach and sacral region, soon spreading over the abdomen, worse by pressure on epigastrium. On pressing in stomach, an internal, dull pressing pain.

Temperature - Icy coldness of body, objective and subjective, no amount of wraps and external warmth relieved. Desire to get warm drove him to get out of bed and sit near stove. Tottered to stove, warmth was pleasant, but vertigo, trembling, oppression and nausea ensued and compelled him to return to bed. Fierce heat on forehead, cheek and hands with sensation as if numerous glowing hot wires were stuck into him, better by perspiration.

Throat - Violent burning in pharynx.

COMMENTS - The proving caused a formication that spread over whole body, least noticeable on parts that had been cold. Worse or excited by, change of temperature or motion. It caused a painful unrest so that he could not possibly lie quietly more than a few minutes.

Getting up set up all the train of symptoms, which were better immediately on lying down. Benumbed sensation, as if he had on gloves, on pinching cheeks no pain felt, seemed to walk on woolen carpets.

RELATIONS - Compare: (1) Curare and Phos. have similar lung paralysis. (2) Achyranthos - Cheyne-Stokes breathing. (3) Eranthis hym-nalis, Winter Aconite acts on solar plexus and works upwards causing dyspnea.

REFERENCES - Clarke.

*****ACONITUM LYCOCTONUM**

(Great Yellow Wolfsbane)

PHARMACY - acon-1. Aconitum lycoctonum. Great yellow wolfsbane. Aconitum tely-phorum. Badgers bane.

N. O. Ranunculaceae. Tincture of fresh plant when coming into bloom. The only aconite which does not contain Aconitine. **Historical dose:** All potencies.

CLINICAL - Allergies. Constipation. Coughs. Diarrhea. Glands, enlargement. Hodgkin's disease. Liver disorders. Mastitis. Pork, effects. Strangury.

HOMEOPATHIC - The symptoms of Aeon, lycoctonum, while resembling those of the other Aconites in some respects, show a marked absence of the cutaneous nerve disorders so prominent in their provings.

Swelling of the cervical, axillary glands and breasts. Clarke has used it with good effect in cases of scrofulous glands and even where Hodgkin's disease has been suspected.

Itching of eyes, nose, anus, and vulva. The skin of the nose is cracked. There is a cough leaving a taste of blood in the mouth. Diarrhea after eating pork.

MIND - Anxiety. Distraction. Dread of work. Instability of ideas. Laughter. Mania. Ferocity. **Abdomen** - Right hypochondrium has bruised pain, tearing pain, starting. When breathing both hypochondria feel bruised. Sensation of compression in diaphragm. Anxiety, with beatings in abdomen. Sharp pain after drinking milk.

Back - Swelling of the cervical glands. The neck seems to grow larger. Swelling of the neck on one side only. Pressing pain at the nape of the neck. Shivering in the back. Jerking in the region of the kidneys.

Breasts - Swelling of the breast glands.

Ears - Purulent discharge from ears, redness behind them.

Eyes - Sharp pain in eyes from without inward. Painfulness of lids. Itching in lids. Pressure on lids and difficulty of raising them. Smarting in canthi, dryness at inner canthus.

Face - Face pale, shining. Pain of excoriation around mouth. Pain in facial bones.

Tension in facial muscles. Hard pimples of face and lips. Skin of face becomes light brown. Numbness of jaw like incipient paralysis, better by compression and by drinking wine.

Female - Itching at vulva. Fetid menstrual blood. Excoriation of bend of thigh after menses. Leucorrhea, viscid.

Food - Strong relish for dainties, fruits, and cabbage. Increased relish for tobacco in a smoker. Aversion to food in general, especially fatty things and milk, they cause uneasiness. Keen hunger very soon satisfied. Constant thirst even when drinking. Burning thirst. Thirst at night.

Head - Sharp pain in head extending across eyes. Sensation as if a nail were driven into head when moving it. Hammering in temples. Pain like rheumatism in scalp worse by touch.

Kidneys - Desire to urinate with copious emissions. Urging with ineffectual efforts. Hot, turbid urine, depositing a white sediment. .

Limbs - On stretching legs, hamstrings feel as if shortened. Jerking in legs. Itching at ankles in evening. Sharp pain at instep when standing. Eruption of hot, red, slightly painful spots on legs and toes. Swelling of axillary glands. Pressure, sharp pains in shoulder joints. Tearing pain in elbow joints. Stiffness in elbows and wrists. Sensation of fullness in hands. Sweat on hands.

Modalities - Worse in afternoon (Lyc.), Better mental exertion. Better after wine. Better during digestion, especially of pork and onions.

Lungs - Difficult respiration. Slight cough with watery expectoration. After a slight chill, leaving a taste of blood in the mouth.

Mouth - Clayey, astringent taste.

Nose - Itching on nose, sensitiveness, lacerations. Compression at root of nose. Skin of nose cracked. Mucopurulent discharge from nose.

Rectum - Constipation, anus feels as if strongly contracted. Diarrhea with violent cutting after eating pork. Whitish stools. After stool, pain in anus as if there was a crack there, shivering. Cramp at anus. Itching at anus. Tenesmus during night.

Sleep - Drowsiness, he sleeps too long. Aberration of hearing during sleep. During sleep, numbness of the parts he lies on.

Stomach - Painful belchings. Belchings are rancid like rotten eggs, acid, with weight on stomach. Hiccough. Inclination to vomit after eating with shivering, vertigo. Vomiting of mucus on getting out of bed, yellowish after drinking with copious urination.

Teeth - Burning pain in upper teeth. Pressing in teeth. Tearing in lower teeth when opening mouth. Gums bluish, ulcerated.

Temperature - Goose bumps. Chilliness of one side only as soon as he is uncovered. In morning external coldness with feeling of heat. Coldness alternating with heat, succeeded by sweat. During fever, pale face, strong appetite, thirst, pain in bowels, restlessness. Sweat continues after fever.

Vertigo - Vertigo with nausea.

RELATIONS - Compare: (1) Cist, Lap-a., Con., Iod., Spong., Lyc., Carb-an. (2) Puls, in bad effects of pork.

***ACONITUM NAPELLUS

(Monkshood)

PHARMACY - acon. Aconitum napellus. Monkshood. Wolfsbane. Common Aconite. Aconitum virosum. N. O. Ranunculaceae. Tincture of whole plant with root when beginning to flower. **Historical dose:** All potencies.

CLINICAL - Amaurosis. Amenorrhea. Anger. **Anxiety.** Asthma. Blindness. Breast-feeding, disorders. Bronchitis. Catalepsy. Catheter, fever. Chickenpox. **Chills.** Cholera. Cholera infantum. **Colds.** Colic. Conjunctivitis. Convulsions. Cough. **Croup.** Cystitis. Dengue fever. Dentition. Diarrhea. Dropsy. Dyspepsia. Dysentery. Dysmenorrhea. Ear, disorders. Enteritis. Erythema. Esophagitis Eye. disorders. Face, flushing. **Fears. Fevers. Fright, effects.**

Glossitis. Gonorrhea. Headaches. **Heart, attack.** Heart, disorders. Hemorrhages. Hemorrhoid. Hip joint, disease. Hodgkin's disease. **Influenza.** Jaundice. Labor, pains. Laryngitis. Lumbago. Lungs disorders. Mania. Mastitis. Measles. Meningitis. Menstruation, disorders. Milk leg. Miscarriage. Mumps. Muscle, pains. Myelitis. Nephritis. **Nervousness.** Neuralgias. **Nightmares.** Numbness. **Otitis media. Palpitations. Panic, attacks.** Paralysis. Peritonitis. Pleurisy, pain. Pneumonia. Puerperal fever. **Purpura miliaris.** Quinsy. Remittent, fever. Roseola. Scarletina. **Shock.** Sleeplessness. Stiff-neck. Strokes. **Tachycardia.** Tetanus. Tetany. Throat, disorders. Tingling. Tongue, disorders. Toothache. **Traumatic, fever.** Tuberculosis. Urethra, stricture. Urethritis. **Urine, retention.** Uterus, prolapsed. Vaccination. effects. Vertigo. Whooping, cough. Yellow fever.

HOMEOPATHIC - Acon, is useful in emergencies and acute diseases. It grows up in the high mountains where there is a lot of wind, storms and activity. Complaints and tension caused by **exposure to dry, cold weather, winds**, draft of cold air, or checked perspiration. Marked affect on the serous membranes and muscular tissue. Major remedy for inflammation and fevers. A state **of fear, shock, anxiety**, anguish of mind and body. **Physical and mental restlessness.**

Acute, sudden and violent illness with high fever. Rapid action, symptoms set in with great intensity, specifically heart attacks, influenza, certain fevers and acute inflammations. Attacks of sudden fear, anxiety and even blindness. Sudden and great sinking of strength. Sudden chills or fever.

Ailments of immune system, especially if caused by suddenly checked sweat or by dry cold air, storms or cold winds. Painful, hot, swollen glands. Neuritis with tingling. **Influenza and colds.**

Complaints from very **hot weather**, especially summer diarrhea. Localized blood congestions and inflammations. Tension of arteries, emotional and physical tension. Burning in internal parts. **Tingling, coldness and numbness.** Does not want to be touched.

Muscular rheumatism with high fever. Joint rheumatism, much fever, restlessness and anxiety. Swellings are red and hot (Bell.), or pale, shifting from one point to another. Shooting, cramps, cracking, loss of power, and drawing pain in joints and tendons.

MIND - Mental and emotional shocks. Never well since a fright or shock. **Ailments from fright.** Fear of death and dying, great anxiety. **Nightmares, phobias, panic attacks.** Nightmares after horror stories or movies. Tendency to be startled. Fright followed by panic and shock.

Complaints come suddenly and with great intensity, often with an overwhelming fear of death. **Great fear, anxiety and restlessness** accompany every ailment. **Fears the future.** Panic and anxiety. **Fear of death.** Believes that he will soon die, predicts the day. **Anxiety about heart.**

Forebodings and fears. Panic attacks with restlessness. Agoraphobia. Afraid to go out of the house. Fears a crowds, crossing busy streets. **Terror stricken.** Fears of public speaking. Fear of narrow places. **Fears of going to doctors and dentists.** Anticipation. Fear of the dark. Fear of ghosts.

Oversensitive to pain. Pains are intolerable, drive him crazy. **Despair from the pains.** Impatient, beside himself from intensity of pain. Reproaches others for mere trifles.

Inconsolable anxiety. Ailments from anger, from chagrin, child has spells of rage. Desires company. Ideas haunt him, can't get rid of them. Confusion, as after drunkenness. Stupor alternating with restlessness. Delirium and high fever with anxiety, worry, fear and desperation. Nocturnal delirium. Desire for light. **Restlessness and tossing about.** Loquacity, speech hurried. Fitful moods, laughing, singing, then sad and fearful. Mania to ridicule.

Music is unbearable, makes her sad (Ambr.). Imagination acute. Clairvoyance. Thinks his thoughts come from the stomach. Thinks that parts of his body are abnormally thick. Feels as if what had just been done was a dream.

Abdomen - Colic, forces to bend double, yet no position relieves. Wind colic after taking cold. Hot, tense, tympanitic. **Sensitive to touch.** Abdominal symptoms better after warm soup. Burning in umbilical region. Hot distended. Incarcerated hernia with bilious vomiting. Burning and cutting pains in intestines. Intestines as if paralyzed, inactive, worse about transverse colon. Loins as if bruised. Burning pain in umbilical region.

Umbilical region hard, swollen.

Back - Chilliness and formication down back. Numb, stiff, painful. Numbness in lumbar region. Crawling and tingling, as if bruised. Stiffness in nape of neck. Pain in the back, prevents taking deep inspiration. Bruised pain between shoulders and in sacrum. Burning, shooting pain in spine. Sharp pain between scapulae, on deep breathing. Slightest touch of spine causes spasms. Spinal meningitis after injury or checked sweat.

Bladder - Cystitis. Burning pain in urethra. Hematuria. Urethral chill. Urine suppressed, bloody. Anxiety always on beginning to urinate. Urination painful, difficult, drop by drop. **Retention with screaming and restlessness** and handling of genitals. Retention or suppression of urine in newborn due to cold exposure. **Retention of urine after childbirth.** Splashing sensation in region of bladder, during urination. Tenesmus and burning at neck of bladder.

Breasts - Mastitis. Milk fever with delirium. Increase of milk in breast. Breasts hot. Milk scanty.

Chest - Constant pressure in left chest. ■ Violent congestion of blood in the chest.

Oppression of the chest when moving fast or ascending in heart disease. Blood comes up on hawking. Sharp pain in chest. Lancinating pain through chest. Tingling in chest after coughing. Pressive weight and burning under sternum.

Constitutions - Children. Plethoric persons of a lively character, bilious and nervous constitutions, high color, brown or black hair, are specially suited to Aeon. Persons leading a sedentary life, plethora, etc.

Cough - Cough with nervous excitability. **Hoarse, dry, croupy cough**, loud, labored breathing. Cough better lying on back. Cough from walking in open air. Child grasps at throat every time he coughs. Cough, dry, short, hacking. **Cough worse at night and after midnight.** Short, barking, ringing or whistling cough, worse every inspiration, at night. Loud, rough, croaking cough, on expiration. Croupy, dry, coarse, suffocating cough. Hemoptysis from mental excitement, wine or exposure to dry, cold air. Cough from tobacco smoke. Cough awakening from sleep. Cough worse after taking cold, drinking cold water.

Ears - **Otitis media.** External ear hot, red, painful, swollen (Bell.). **Earache with pain** (Bell., Cham.). Tickling and sharp pain in the ears. Tingling and buzzing in the ears. Sensation as if drop of water in left ear. Ringing, humming or roaring noises. **Sensitive to noises, music is unbearable.** Left ear deaf, with buzzing in whole head.

Eyes - Red, inflamed. Bloodshot. **Pain and inflammation after surgery. Injuries to eyes.** Conjunctivitis. Inflammation from foreign bodies, dust, cinders. Ingrowing eyelashes. Eyes glitter, stare, watery. **Eyes feels dry and hot.** Shooting pain in eyeballs. Sensation as if sand in eyes. Swelling of the eyes. **Eyelids swollen, hard and red.** Aversion to light. Can't bear reflection of sun from snow. Profuse watering **from reflection of snow.** Profuse lachrymation after exposure to dry, cold winds. Asthenopia from straining eyes. Pupils contracted then dilated.

Face - **Anxious** expression. Hippocratic. Face red, hot, flushed, swollen. Pale alternating with red. Burning, lips and tongue, as after eating pepper or smoking. Lips black, dry, peeling off. One cheek red hot other pale and cold (Cham., Ip.). **Neuralgia, especially on left side with restlessness.** Tingling, cheeks and numbness. **Tingling and numbness.** Heavy feeling of the whole face. Sweat on side of face lain on. **On rising, the red face becomes deathly pale.** Jaw, pain.

Female - Dysmenorrhea has to bend double, but better in no position. Menses too profuse. Menses with nosebleed. Menses too protracted, late. Frenzy, fury on appearance of menses. Amenorrhea during puberty. **Suppressed menses from fright, cold.** Ovaritis from sudden checked menstrual flow. Ovaries congested and painful. **Impending miscarriage from fright or vexation.** Active uterine hemorrhage. Sharp, shooting pains in uterus. Prolapsed uterus. Labor-pains violent. **After-pains with fear and restlessness.** Suppressed lochia. Leucorrhea copious, tenacious, yellowish. Vagina dry, hot, sensitive.

Food - **Excessive hunger and thirst**, but eats slowly. Lively sensation of hunger, renewed soon after eating. No appetite, loathing of food, qualmishness. Aversion to tobacco. Better warm soup. Better wine. Anxiety better cold drinks. **Desires beer, wine.** Desires brandy, bitter drinks. Worse after iced cold drinks. Milk disagrees. **Intense thirst.** Thirst for cold water. **Thirst burning, unquenchable, during all stages of fever.** Thirst for beer during fever. Thirsty during labor. Everything tastes bitter, except water.

Head - Fullness, pulsating. **Hot, heavy, bursting sensation.** Burning, undulating sensation. Head excessively hot. **Congestive headaches.** Intracranial pressure (Hed.). Burning headache, as if brain were moved by boiling water (Indg.). Violent squeezing or bursting pain in forehead. Pulsation in forehead. Sensation on vertex as if hair were pulled or stood on end. Nocturnal furious delirium. Meningitis. Brain affections of children. Formication of scalp better heat. Scalp sensitive to touch. Scalp sensitive to cold air, strong wind. Sunstroke from sleeping in rays of sun.

Heart - Heart feels swollen. Hypertrophy of **heart. Heart attacks with anxiety and fear.** Dreadful oppression and anxiety about heart. Oppression about heart with burning flushes along back. Heart pains into left shoulder,

worse sitting erect. **Tachycardia. Palpitations with anxiety, after fright.** Palpitations fainting and tingling in fingers, pain down left arm. **Palpitations during fever.** Palpitations from motion, on waking. Palpitations from smoking. Arterial tension. Temporal and carotid arteries felt when sitting. **Pulse fast, full, hard, tense and bounding.** Pulse quicker than heartbeat. Pulse sometimes intermits. Pulse shaking, forcible and tumultuous. Pulse wiry, very irritable.

Kidneys - Anxiety on beginning to urinate. Sharp pains in region of kidneys. Stinging and pressing, in renal region. **Scanty, red, hot, painful urine.** Kidney region sensitive with shooting pains. Profuse urination with profuse perspiration and diarrhea. Agonizing dysuria. Profuse urination with profuse sweat and diarrhea. Diuresis with headache or profuse sweat. Brown, burning urine, with brick-colored sediment. Urine fiery, scalding hot, red or dark-colored.

Limbs - Numbness and tingling. Numbness of the left arm, tingling in fingers. Shooting pains. Icy coldness and insensibility of hands and feet. Arms feel lame, bruised, heavy, and numb. Arms hang down limp. Red finger tips (Cact. Crot-h., Kalm., Tab.). **Hot hands and cold feet.** Twitching of fingers and toes. Rheumatic inflammation of joints, worse at night. Red, shining swelling, very sensitive joints. Legs powerless, feel tired during repose. Hip joint and thigh feel lame, especially after lying down. Knees unsteady, disposition of foot to turn (Aesc.). Weak and lax ligaments of all joints. Painless cracking of all joints. **Bright red hypothernar eminences on both hands.** Sensation as if drops of water trickled down the thigh. Jerking of left or arm. Palms hot. Sharp pains in inflamed joints. Trembling.

Liver - Pressure in the region of the liver, with obstruction of breathing. Burning pain, shooting, stinging and pressure in the liver region, with difficult respiration. Painful sensibility to touch in the region of the liver. Jaundice in newborn children. Jaundice from fright.

Lungs - Asthma after suppression of acute rash. Asthma from active hyperemia of lungs and brain. Hot feeling in lungs. Awakening with danger of suffocation, from tickling in throat. Anxious breathing hard, sits erect. **Oppressed breathing on least motion.** Agony, sits straight up, can hardly breathe. Deep, slow, sighing. Very sensitive to inspired air. **Shortness of breath.** Shortness of breath during sleep. Pleurisy. Stitches through chest. **Croup with fever.** Sensation as if lungs will not expand. **Bronchitis. Pneumonia.** Rusty, thin, frothy, white mucus streaked with bright blood. Sputum absent. Scanty expectoration, falls in round lumps, dark cherry-red, in pneumonia. Blood comes up with hawking. Thin, gelatinous sputum, worse mornings and during day.

Male - Crawling and stinging in glans penis. Orchitis, testicles feel swollen and hard. Bruised pain in testicles, swollen, hard. Stinging and crawling in glans. Scrotum drawn up. Skin of left side of scrotum studded with minute vesicles, with a humid discharge. Frequent erections and emissions. Painful erections. Sexual desire decreased, with relaxed parts, tingling in parts. Fits of lasciviousness. Emissions even after sex.

Modalities - Better in open air. Better from rest. Better warm sweat. Better wine. Better sitting still. **Worse from fright, shock.** Worse violent emotions, shock and vexation. **Worse from being chilled by cold winds.** **Worse dry weather.** Worse sleeping in the sun. Worse warm room. Worse evening. **Worse at night.** Worse while sweating, Worse pressure, touch. Worse lying on affected side. Worse getting into bed. Worse noise, music. Worse tobacco smoke. Worse inspiration. Worse light. Worse dentition. Worse during menses.

Mouth - Burning, biting pain in mouth. **Numb, dry and tingling.** Lips black, dry, peeling off. Tingling, numbness, burning of lips. Tingling on coughing and swallowing. **Gums hot and inflamed.** Everything tastes bitter except water, which has bad taste. Trembling and temporary stammering. Dry burning heat in mouth.

Mouth - Breath cold, in cholera. Breath hot. Orifices of salivary ducts sore, as if corroded. Accumulation of water in mouth. Saliva generally diminished. Saliva frothy, streaked red, sweetish. Trembling and temporary stammering.

Nose - Frequent sneezing. Coryza, much sneezing, throbbing in nostrils. Coryza with headache, roaring in ears, fever, sleeplessness. Hot water runs from nose. **Pain at root of nose.** Hemorrhage of bright red blood. **Mucus membrane dry.** Posterior nares as if dry. **Nose stopped up, dry or with but scanty watery coryza.** Numbness with nosebleed. Nosebleed, bright red blood. **Smell acutely sensitive.**

Perspiration - Bad effects from suppressed sweat. Profuse sweat, wants to uncover. Sweat on uncovered parts or affected parts. **Sweat on parts lain on.** Cold or sour sweat. Cold sweat and icy coldness of face. Drenching sweats. Profuse sweat with copious flow of urine and diarrhea.

Rectum - Pain with nightly itching and stitching in anus. **Cholera.** Frequent, small stool with tenesmus. Cholera discharges with collapse, anxiety and restlessness. Constipation. Bleeding hemorrhoids (Ham.). Itching and sticking at anus. Sensation as if a warm fluid escaping from the anus. Pain from seatworms.

Skin - Red, hot, swollen, dry, burning. Miliary eruptions. **Itching relieved by stimulants.** Itching unchanged by scratching. Rash like measles. **Purpura miliaris.** Goosebumps. Formication and numbness. Papular erythema. Erythema from sun's rays. **Dry, hot skin.** Skin as if ice water on it. Rash of children. Spots like flea-

bites.

Sleep - Starting up in sleep. Sleeplessness with restless and tossing about. **Sleeplessness caused by fear, fright or anxiety.** Sleeplessness with fear of the future. Nightly ravings. Insomnia of the elderly. **Children cry and complain, sleepless and restless (Ars., Cham.).** Spasmodic yawning. Nightmares. **Anxious dreams.** Dreams caused by fear, fright or anxiety. Long dreams with anxiety in chest. Vivid dreams of day's occurrences.

Stomach - Pressure in stomach with dyspnea. Burning from stomach to esophagus. Tension in stomach better eructations. Painful hiccough. Nausea and sweating before and after loose stool. Projectile vomiting. Drinks, vomits and declares he will die. Vomiting of clear water, on sitting up. **Vomiting with fear, heat, profuse sweat and increased urination.** Hematemesis. Vomiting, bilious, mucus and bloody, greenish. Vomiting of lumbrici.

Stools - Bilious diarrhea of infants with colic. Diarrhea from getting wet. Slimy stools alternating with constipation. Claycolored stools. Involuntary stools, on passing flatus. White stools with red urine. **Stools of pure blood.** Slimy, grass green or white stools, worse hot days and cold nights. **Green stools like chopped herbs.** Frequent, small stool with tenesmus. Dysentery. Watery diarrhea in children on hot days, restless and sleepless.

Teeth - Toothache from cold or dry, cold winds. **Teeth sensitive to cold.** Toothache in sound teeth. Throbbing in teeth and head. Grinding of the teeth. **Gums hot and inflamed.** Constantly moves lower jaw as if chewing. Sensation as if teeth would fall out. Cold feeling in incisors.

Temperature - Cold stage most marked. Coldness and heat alternate. Evening chilliness soon after going to bed. **Cold waves pass through him.** Chills down back. Chill passes through him in waves. Chill or coldness alternating with heat. Chilly if uncovered or touched. Shivering ascends from feet to chest. Dry burning heat in eyelids, nose, mouth, throat, lungs and palms, must uncover. **High fevers.** Dry burning heat, red face. Fevers with mental anguish, restlessness. **Thirst and restlessness.**

Throat -Acute inflammation of the throat with high fever. Dark redness of throat. Chokes on swallowing, talking. Tingling in the esophagus. **Burning and stinging pains.** Stinging pain in throat when swallowing. Scraping, tingling sensation of strangling, burning and pricking in the throat. **Red, dry, constricted.** Numbness and pricking. Sensation of contraction in the throat. Inability to swallow, with hoarseness. **Hoarseness with pain when talking.** Hoarseness after speaking or singing. Voice husky, can scarcely speak. Croup with fever. Croaking voice. Laryngitis with fever. Larynx very sensitive. Uvula as if elongated. Tonsillitis. Tonsils dark red. Tonsils swollen and dry.

Tongue - Burning vesicles on tip of tongue. Tongue feels as if swollen. **Tongue coated white** (Ant-c.). Tongue coated thick yellow white. Tongue swollen. **Tongue tip tingles.** Middle of tongue as if dry and numb. Sensation as if cold air passing over tongue. Tongue dry, red on sides, centre thinly coated white. Tongue red and dry.

Vertigo - **Vertigo, worse on rising** (Nux-v. Op.), and shaking head. Vertigo on rising from bed. Vertigo on getting up from one's seat. Vertigo on stooping or moving. Sensation of intoxication or dizziness in the head, loss of consciousness. Vertigo with inclination to fall to right side. Vertigo with nausea and vanishing of sight. Vertigo from fright, anger. Vertigo after a shock. Vertigo from heat of sun.

Vision - Dim vision or vision entirely lost. **Lost vision after fright or shock.** Optical illusions in dark colors or black. Flicker- ings make him anxious, fears he might touch people passing by. Total blindness after catching cold. Sparks, with burning and twitching in eyes. Obscuration of vision, when shaking head. Black spots and mist before the eyes.

COMMENTS - Aconite is a tall, upright plant that has dark blue flowers, 4-5 feet tall. Aeon, grows in the damp and covered parts of almost every mountainous country in north or middle of Europe, especially in Switzerland, Germany and Sweden. It grows in high altitudes where there is a lot of wind, storms and activity. It is a very poisonous herb, vinegar in large doses is antidotal to the toxic effects. Aconite in potencies above the 4c is a perfectly safe medicine for any age.

Before Hahnemann's time Aconite had a reputation as a sudorific and in cases of rheumatism, sciatica and tumors, but it was not until Hahnemann proved it that its properties were really understood. Aconite was the remedy by means of which Hahnemann was able to meet most of the conditions, which in his day were treated by bloodletting.

Dr. Hughes has remarked that the condition to which Aeon, is homeopathic is one of tension. Emotional and mental tension, as shown in fright or fear and its consequences, anxiety and fear of death, tension of the systemic vessels, as in the effects of a chill.

Asiatic cholera and hemorrhages. Muscular tension, as in tetanus. Tension of involuntary muscles, as in heart spasms. Tension of the semi-involuntary muscular apparatus of respiration, as in asthma.

Hahnemann described it as a tempest, Kent, too. This is the idea of the remedy, it's a storm that has a sudden

onset and a sudden dissipation. Keynote sudden onset, a major trigger for this is shocking fright. Violent reactions to fright or weather conditions.

Teste related a remarkable case of an Englishman who had been obliged to take a long sleigh journey in North Russia in midwinter. He suffered thereafter for two years from violent paroxysms of palpitations and acute stitching pains in the heart region, threatening brain strokes.

Aneurysm had been diagnosed by leading physicians in England and on the Continent. Teste localized the affection to neurosis or spasm of the pectoralis major muscle and proved his diagnosis by promptly curing it with Aeon.

Chill and fever. Fevers with restlessness and tossing about, often accompanied with anxiety that sometimes leads to fear of death. Aeon, can ward off serious results from chill, fright, injury or surgical operation.

It was the feverish restlessness of the Aeon, provings that led Hahnemann to infer its similarity to fever states. It is the presence of this restlessness, anxiety, fear and exalted sensibility that are its leading indications in cases of all kinds.

High fevers, sudden surges of body temperature. Inflammatory fevers (Bell, is also inflammatory, Pyrog. and Bapt. are septic). Fevers with wakefulness, anxiety, red and flushed.

"Clean" and functional fevers, no tissue changes, no mucus, no toxic symptoms. Can have thirst with the fever. The skin is dry and hot.

The four keynotes are fear, fright, fast, and fevers. It's a remedy for a lot of fears (Ars.) and any acute problems. Fright followed by speechlessness or shaky trembling speech, shaking of the hands and limbs, dilated pupils, and the patient may be frozen with fear and shaking.

Panic with shaking and trembling. Frail, faint, and anxious. Sudden surges of adrenaline through the body leading to shaking, trembling, fear, panic. Panic attacks with numbness and tingling of fingers or down the arms, in the extremities. Attacks with feeling of anxiety, heart palpitations, fainting. Fear, not that they're going to die (Ars.), but that they're dying right now. Conditions after fright. Hypersensitivity after a near death situation. Fright leading to shock and panic. Fainting and heart attacks where the main feature is fear.

Fear and apprehension. Dread of crossing streets. Fear of the dark, fear of ghosts. Good for agoraphobia, fear of going outside of the house. They have chronic fears of fatal disasters, fear that something will happen, that they can't go out of the house because they will get into an accident.

The senses are heightened with sensitiveness to pain and a feeling of numbness in parts. Sensation as if bound tightly in the limbs and in other parts (Cact.). Plethora may be classed under increased blood tension. Active, bloody congestions of all kinds, especially those following a chill.

Intolerance to music. Patients may imagine some part of body is deformed, imagine they do all their thinking from the stomach and predict the hour of their death. They sometimes go so far as to predict the day and hour of death (clairvoyance). Extreme sensitiveness to light and sound and all sensations.

Extreme sensitivity to pain (Cham., Coff.). Pains are intolerable, driving to desperation. Tearing, cutting, burning, sharp, stabbing pains, with restlessness, accompanied by numbness, tingling or formication.

Cannot bear the pain, cannot bear to be touched, cannot bear to be covered. Burning pains (Phos.). Feel the blood rushing everywhere. The child or the person screams with pain. Pain causes fright, specifically from heart attack or any acute pain. Frozen from the pain and what that pain means.

Bending double relieves the colic and dysmenorrhea pain (Coloc.). Motion aggravates the pains in muscles, joints and stiffness. There is a great and sudden sinking of strength, fainting on attempting to get up, with anxiety, restlessness, numbness, tingling, formication.

Hemorrhage and shock due to sudden hemorrhaging of bright blood, causing giddiness, faintness, panic (Aeon., Bell., Phos.). Active hemorrhages in stout, full-blooded people. Passes almost pure blood in stool. In hemoptysis the blood comes up with great ease by hemming and coughing, bright red in large quantities from cold, dry winds. Bleeding with great fear, anxiety and palpitations.

Toothaches are one-sided with red cheek on same side. Severe toothaches where the teeth are sensitive, painful and the person is in a panic.

Inflammations of the eyes from cold, injury, foreign objects, dust, surgical operations, scrofulous inflammation with enlarged glands. Blindness.

Hirsch of Prague recorded two such cases, one in a man of thirty who went to bed well, having walked home in rough and stormy weather after spending the evening in a hot room. Aeon. 3c was given and the following night he perspired freely and in the morning his sight was restored.

Hirsch himself suddenly lost his sight while bathing in hot weather. He took Aeon. 3c in water as he had given it to his patient. In two hours he began to perspire and after a six-hours' sleep awoke well.

Every inspiration increases the cough. Tingling sensation in the chest after coughing. Unquenchable thirst, everything tastes bitter except water (Chin.). In croup, the child grasps the throat with every coughing fit. Dry,

hacking cough especially from being exposed to a dry, cold wind

Worse exposed to hot weather or cold weather. Coldness, numbness and tingling characterize the paralyzes and neuroses. Facial paralysis from exposure to cold, dry winds. Sunstroke. Diarrhea from heat and sun exposure.

Headaches caused by exposure to the sun, also heat rashes. Headaches are generally better in open air, worse in warm room, toothache and cough worse in open air. Better from uncovering, the bed is intolerable. Worse chill with fever. Sweat on affected or covered parts.

After exposure to cold, croup, severe colds and respiratory problems, bronchitis, infants get pneumonia, and it can go to facial paralysis. Worse cold, dry wind, sudden onset, numbness and tingling of the limbs all keynotes of Aconite. Chills with ailments. Asthma from exposure to cold, dry weather that brings out panic, worse around midnight. Earaches from exposure to cold and wind.

In general, for croup, heart attacks, acute bronchitis and colds, and tonsillitis. Sometimes strep throat. First aid for fright. Infantile pneumonia with sudden onset. Childhood diseases with fevers and restlessness, meningitis. Retention of the urine, especially in newborn infants.

Generally aggravated at night, particularly about midnight.

RELATIONS - Aconitum napellus is related in its action to the other Aconites and to Aconiti- num, and also to the Ranunculaceae, Act-r., Act- sp., Paeon., Podo., Ran-b., Staph. **Antidoted by:** Acet-ac., Alcohol, Paris. Acids, wine and coffee, lemonade and acid fruits modify its action. **Antidotes:** Cham., Bell., Coff., Spong., Petr., Nux-v., Sep., Sulph. **Compare:** (1) Similar to Ars., Bell., Calend., Ferr-p. (2) Cham, and Coffea intense pain and sleeplessness. (3) Agrostis acts like Aeon, in fevers and in inflammations, also, Spiranthos. (4) Bapt. or Pyrogen in high fevers with sudden onset. (5) Puls., Lyc., Sec. and Camph. are also better from uncovering. (6) Cham., Hep. and Coff. - intolerance of pain. (7) Chin. - white stool. (8) Gels. - effects of bad news, fright, anger. (9) Nux-v. and Bry. - diarrhea from anger. (10) Bry. - effects of cold, dry winds. (11) Sulph. is the chronic of Aeon., it will often complete an action that Aeon, begins, and will cure cases in which Aeon, is apparently indicated but fails to relieve. **Complementary to:** Coff. - in fever, sleeplessness, intolerance of pain. Am. in bruises, Calend. injury to eye. Sulphuroften completes a cure begun with Aconite. **Follows well:** Am., Coff., Sulph., Verat.

***ACTEA SPICATA

(Baneberry)

PHARMACY - act-sp. Actea spicata. Baneberry. Herb Christopher. Radix christophoriana. N. O. Ranunculaceae. Europe and Asia. Tincture of root obtained in autumn. **Historical dose:** Tincture and all potencies.

CLINICAL -Arthritis. Cancer, stomach. Fright, effects. Headaches. Hepatitis. Insomnia. **Joint, pain.** Pleurisy. **Rheumatism.** Toothache. **Wrist, pain.**

HOMEOPATHIC - Rheumatism (Cimic.), particularly affecting the small joints and wrists (Caul.). **Rheumatism of the wrist**, particularly the right wrist and arm. Joints are swollen and pains are worse by touch and movement. Slight fatigue causes swelling of the joints. Violent tearing, drawing and tingling pains. Pains are worse from touch and motion.

Rheumatism like pains in the face. Pains mning from decayed tooth to temples. Symptoms are liable to appear from fright and fatigue. Shortness of breath on exposure to cold. Old age. Hypersensitive to cold, weakness. Paralytic weakness of affected part. Pulsations over whole body, especially liver and kidney region. Cardiovascular spasms. Hepatitis. Pleurisy.

MIND - Fearful, starts easily, confused. Fear of death, especially at night in bed. Furious delirium, also during the fever. Effects of exertion of mind, fright, or mental anxiety.

Abdomen - Spasmodic retraction. Sticking pain and distention of hypogastrium. Pain and tenderness in liver region.

Constitutions - Weak, nervous, cold sweat. Rheumatic diathesis. It is especially suited to men (Cimic. to women).

Ears - Twitching pain on sneezing or blowing the nose.

Eyes - Objects seem colored blue. Sharp pains through eyes into head.

Face - Violent pain in upper jaw, running from teeth through malar bones, to temples. Perspiration on face and head. The cheek he lies on sweats. Yellow around mouth. Lips are chapped. Submaxillary glands hurt when chewing.

Female - Menses suppressed by fright or cold.

Food - Hunger with aversion to food. More appetite in morning. Disgust for food. Shuddering after drinking.

Head - Rush of blood to head, excited by drinking coffee. Throbbing in brain. Pain from crown to between eyebrows, heat in forehead, pain in left frontal eminence as if bone were crushed. Itching of scalp alternating with heat. Warm sweat on head. Small pimples on scalp.

Heart - Urging sensation in heart towards abdomen and region of liver with great anxiety at night.

Kidneys - Throbbing in region of kidneys. Urine deposits a white sediment. Kidney stones.

Limbs - Tearing pains in loins. **Rheumatic pains in small joints, wrist**, fingers, ankles toes. **Swelling in joints from slight fatigue. Wrist swollen**, red, worse any motion. Paralytic weakness in the hands. Lame feeling in arms. Pain in knee. Sudden lassitude after talking or eating.

Lungs - Short, irregular breathing at night, while lying. **Great oppression. Shortness of breath on exposure to fresh air.** Difficult inspiration, stitches in the epigastrium.

Modalities - Worse from change of weather or temperature. Worse cold air. Worse night. Worse touch. Worse light exertion. Worse fatigue and mental exertion.

Mouth - Increased salivation. Fetid odor. **Nose** - Nose red at tip, fluent coryza.

Sleep - Obstinate insomnia, sleeplessness, unable to rest (Coff.).

Stomach - Tearing, darting pains in epigastric region with vomiting. Cramp-like pains in stomach and epigastrium with

Actea spicata difficult breathing. Sudden lassitude after eating. Sour vomiting. Cancer of the stomach with tearing, drawing pains.

Temperature - Shuddering after drinking. Shuddering followed by fever during which vomiting supervenes. Belching during the chill.

Throat - Throat sore when speaking, when breathing cold air.

Vertigo - Dizziness, forehead feels empty when stooping. Vertigo with tearing headache, better in open air.

COMMENTS - Rheumatism, arthritis, osteoarthritis. Rheumatoid arthritis, arthritis of the small joints, wrists, fingers and toes (Caul.). Rheumatism, weakness, trembling, spasmodic action of muscles. Epileptic and hysterical convulsions. Sharp pains in various parts. Pains come on suddenly, pains like electric shocks.

Boericke said, "Rheumatic remedy of the small joints and specific for wrist rheumatism." "Worse touch and motion" and "oppression of the chest and shortness of breath."

Grimmer wrote that it had been successfully used in cancer of the stomach. Sour vomiting after drinking with tearing, darting pains in epigastric region. Increased salivation, fetid odor from mouth.

Vertigo - Vertigo, fear of death, especially when in bed at night. Furious delirium, also during fever, mental anxiety. Bad effects from fatigue and fright.

RELATIONS - Compare: (1) Cimic., Caul., Led. (2) Other Ranunculaceae, Am., Bry. (3) Caul. - Rheumatism of fingers. (4) Lyc., Rhus t., Ruta, Sal-ac., and Stict. - Small joints. **Complementary:** Caul., Coloc., Sabin., Stict., Viol-o.

REFERENCES - Boericke. Clarke. Grimmer. Murphy. Phatak.

***ADAMAS

(White Diamond)

PHARMACY - adam. Adamas. White Diamond. **Historical dose:** All potencies.

CLINICAL - Aphonia. **Backache.** Belching. Bladder, disorders. Bone, pains. Brain, tumors. Chilliness. Cold, sores. Constipation. Coughs. Cramps. Diarrhea. Dyspnea. Fever. Fever, blisters. **Flatulence.** Hair, loss. **Headaches.** Heat. Hemorrhoids. Hyperactive. Insomnia. Itching. Leucorrhea. Moles. Nausea. Nightmares. Nosebleed. Numbness. Palpitations. Photophobia. Pimples. Skin, dryness. Sprained joints. Stiffness. Tingling. Tonsillitis. Varicose, veins. Vertigo. Vomiting.

HOMEOPATHIC - Adamas has associations with the word "Adamantine" meaning unbreakable, impenetrable, impregnable. The Greek word "adamas" means "unyielding, invincible."

Chilliness. Feeling very cold and shivering inside, deep down in bones is freezing cold. Body temperature unusually warm. Sensation of heat all over, all day.

Increased appetite and thirst. Loss of appetite. Craving for coffee, fruit, smoked salmon. Unrefreshing sleep. Frightful dreams. Dryness of skin. Whole body is sensitive, bones aching, skin hurts.

MIND - Irritable and taciturn. Anger towards friends, loved ones. Irritated easily by words and gestures. Does not like to work. Resentful towards others. Does not want to be seen. Aversion to company, talking. **Desire to be alone.** Feelings of worthlessness. Loss of self confidence. Critical of others and self. Hard to be pleased.

Mind feels cloudy. Feels separated and detached. Indecision. Does not stick to one decision. Forgetful. Weak memory. Poor concentration. Fumbles in speech with difficulty in getting at certain well-known words. Makes mistakes in speaking. Spelling mistakes. Mixing up words. Mistakes in speech. Slurred speech. Lethargic in morning.

Anxiety about health. Anxiety felt in stomach. Fear of driving car, obsessed with crashing and accidents and death, fear of breast cancer. Despair about their recovery. Delusion they have two pairs of hands, two pairs of arms.

Impatient and intolerant. **Hurried and impatient.** Feels rushed, so much to do. Feels overwhelmed. Hyperactive, since beginning of proving. Very excitable as if about to lose control. Sensitive to music. Tearful and oversensitive.

Feels trapped and helpless. Sad and moody. Mood swings. Despair. Lack of joy. Depressed and body feels heavy. Desire for order, everything needs to be in its place. Fastidious. Feels disorganized. Obsessed with trifles.

Abdomen - Bloated abdomen. Much smelly, nausea-inducing **flatulence**. Muscles aches, worse cough, worse movement. Shooting pains in lower abdomen in the evening. Needle like cutting pains. Sharp pain, left hypochondria upwards to left breast and inner left upper arm. Groin hurts when coughs.

Back - Back cold in bed. Chilliness down the back, waist, shoulder blades and spine. Backache, very painful, better heat of bath. Feels better when lying down. Dull aching across back of shoulders, neck with pressure downwards. **Severe backache** while walking. Pain aching across lumbar region. Low back pain. Sharp shooting pains.

Bladder - Sharp bladder pain across pubic bone above penis. Very dark, orangey brown urine. **Diminished urination.** Urine smells ketonic.

Breasts - Breasts feel enlarged. Fizzy feeling in right breast. Shooting pains through right breast, like needles.

Chest - Spot above left breast. Contracting feeling in chest. As chest if expanded, opened up. Heat rising from chest to face. Pain in base of left ribs corresponding with pain of left vertex. Sharp pain under ribs. Tight chest with cough.

Coughs - Racking, distressing cough. Incessant, exhausting, constant cough. Deep, barking cough. Coughing up bloody mucus, felt cold and clammy. Suffocative cough, difficult to inspire.

Coughs - Cough with chill, shivering and heaviness in limbs, head and eyes. Loose cough with tight chest. Coughing up bloody mucus. Cough with catarrh in nose and throat. Spasmodic cough, better from sips of cold water. Cough, worse deep inspiration, worse morning, aggravated from cold air or drinks. Burning pain with cough. Sharp pain on coughing. Explosive, wet, violent cough. Vomiting from coughing. Wet cough. Cough from anger.

Dreams - Dreams of friends betraying him and felt disappointed. Dream of protection, violence, murder. Dreams of betrayal, conspiracy, lies and deception. Dreams of traveling, water, babies. Dreams of cliffs and chasms.

Ears - Sensation as if ears were filled with water. Buzzing in both ears. Hearing is very sensitive. Hearing impaired.

Eyes - Sticky eyes on waking, eyes watery. Bloodshot. Heat and heavy sensations. Itching, eyes. Photophobia. Twitching. Very tired with gritty eyes. Sensation as if something in the eyes.

Face - Redness of face with burning dry heat. Deep ache in right jaw. Numbness left side of face when in cold air. Dark rings under the eyes. Blemishes on face like spots underneath the skin.

Female - Menses scanty. First day of period very painful. Uterus feels heavy, full aching. Uterus feels as if hanging, suspended in space. Ovarian pain, cramping both sides. Stabbing, knifing pains through abdomen and groin, as if knives were cutting up inside vagina and womb. Severe pulling, as if being dragged down physically by pelvic bone. Pains worse during morning, and when eating. Eruption on right labia with white head. Vagina and labia itching, hot and burning. Voluptuous itch in vagina. Leucorrhea, thick, white, bland vaginal discharge. Heat in vagina with soreness at start of menses. Desire for sex diminished. Aversion to sex.

Food - Aversion to cream, fats, milk. Aversion to white wine. Desires alcohol, cheese, coffee. Desires fruit, dried fruit, sparkling drinks. Desires seafood, fish, smoked salmon. Desires starchy food, potatoes. Desires vegetables, green vegetables. Desires wine, red wine. **Worse from alcohol.** Cold drinks aggravate coughs.

Head - Headache and hunger. Dull and aching pains. Headaches with nausea. Headaches, worse exertion. Hair falling out. Scalp itching and dry. Heat sensation in vertex. Pain over eyebrows. Sharp pains in head. Head feels heavy and congested.

Heart - Heart palpitations. As if heart skips and jumps a beat. Palpitation with anxiety all through day.

Limbs - Cold arms. Chilliness. Hands hot and clammy. Burning pain in ankle. Sensation of heat on soles of feet. Cramp in calves during sleep. Heavy feeling in my arms. Aching pain in wrists and elbows. Sharp pains like pins in hand. Numbness. Sprained joints. Stiffness. Tingling in legs. Varicose veins. Wrists feel weak.

Lungs - Dyspnea. Difficulty breathing in. Burning in lungs on breathing in. Wheeze like a high-pitched whine on breathing. Wheezing and struggling for breath like asthma. Gasping for air on inspiration, during and after coughing fit. Sensitive bronchi.

Male - Penis sore. Low sex drive.

Modalities - Better sunshine. Better fresh air. Worse cloudy days. Worse winter.

Mouth - Dry mouth and throat. Fever blisters. Cold sores. Lips very dry, sore and chafed. Bottom lip cracked in middle, split open. Rawness of palate. Offensive breath better after glass of water. Increased salivation.

Neck - Sore neck, very stiff, aching, better lying down and stretching. Cricking of neck.

Nose - Nosebleed. Catarrh white, stringy, thick and glossy, worse evening. Postnasal catarrh. Sinuses feel full and congested.

Perspiration - Body odor smells acidic. Perspiration smells garlicky. Hot sweats during day.

Rectum - Urgent desire to pass stool. In the morning has to rush for stool. While going to sleep sudden urging for stool. **Much flatulence**. Constipated, dark, round balls. Skin around the anus is raw and sore. Hemorrhoids. Hot itch in anus. Diarrhea, feel weak and drained afterwards. Diarrhea, preceded with gripping cramps. Loose, watery stools. Stool extremely pale. Hard, small stools. Unfinished feeling with bowel movement.

Skin - Dryness of skin. Pale skin. Large, painful cold sores in left corner of upper lip. Moles. Pimples, very sore, red and elevated. Dry, brownish-red eczema-like rash. Itching with redness, especially after a bath. Skin very painful, feels prickling and cold. Itchy pimples on right arm. Bumps and spots on left side of face.

Sleep - Insomnia. Waking frequently. Sleep unrefreshing, awoke tired. Deep yawning. Restless, sleep.

Stomach - Belching. Burning sensation. Cold sensation in stomach. Nausea and distention with headache. Nausea at thought of milk in tea since proving. Feel sick when eating or drinking, worse in morning. Feel nauseous but hungry. Vomiting from coughing. Bruised soreness in epigastric region.

Teeth - Grinding teeth. Teeth feel sharp. Pains in back molar teeth. Bruised sore feeling above right upper canine tooth, worse cold air, pain extends up into the jawbone.

Temperature - Chilliness down the back, waist, shoulder blades and spine. Icy cold body generally. Skin felt icy, freezing. Shaking with cold when sitting still. Chill, unable to keep warm, must go to bed. Cold shivers all over body. Fever, sudden onset. Fever with shaking, heat, sneezing and coughing.

Throat - Sore throat, better eating or drinking hot things. Sensation of needles pricking in throat. Adenoids and tonsils sore from coughing. Tonsils red and inflamed. Aphonia.

Tongue - Burning sensation down the middle of tongue. Tongue feels swollen on the left side. Tongue is coated, white.

Vertigo - Dizzy, worse sitting down, better eating. Sensation on closing the eyes, as if rotating clockwise. Vertigo on closing eyes, floating feeling in head.

COMMENTS - Although extremely hard, diamond is very brittle, being able to tolerate great pressure, yet being sensitive to violent jarring or shock. It will likely to be a remedy that aids recovery from psychological or physical trauma, recent or past.

RELATIONS - Compare: (1) Plb-i.

***ADELHEID AQUA

(Mineral Springs at Heilbrunn)

PHARMACY - adel. Adelheid aqua. Mineral Springs at Heilbrunn. Adelheidsquelle. Contains among other substances, Iodine, Bromine, Alumina, Natrum, etc. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Glands, disorders. Goiter. Scrofulous, disorders.

HOMEOPATHIC - This water has been used for hundreds of years for goiter, scrofulous troubles of various kinds, enlarged glands, etc.

MIND - Mental confusion. Reading fatigues them (Nat-m., Ruta). Much trilling and tra-la- ling. which formerly she never did.

Abdomen - Ache in upper abdomen wakes him. Lower abdomen became thick and protruding. Loud rumbling, grumbings and noises in the lower part of the abdomen after every eating or drinking, especially after pears.

Chest - Chest is tired. The whole chest is painfully sensitive, as if inflamed.

Eyes - Eyes feel swollen, as after taking cold, without redness.

Face - Cheeks became full and the face red, was formerly thin and pale.

Food - Increased appetite. Appetite for potatoes and sour fruit. Aversion to meat and roasted articles. Unusual thirst. After drinking water, the appetite increased and then became conversational and lively.

Head - Confusion of head, better in open air.

Limbs - Small, hard indurations in the palm of the hand, very near the last joint of the fourth finger, adherent to the bone. After rising in the morning, cramp in left calf twice disappeared after going around.

Male - Testicles sensitive.

Mouth - Salivation, especially nights.

Neck - Swollen thyroid gland, but not the cervical and inferior maxillary glands.

Nose - Nosebleed and much tossing about the bed at night (lod.). Nosebleed after beginning to take the waters the second time.

Rectum - Diarrhea, watery, clear brown, then yellow and watery, four or five times a day with much offensive flats, no pains.

Skin - Hard pimples with a red inflamed areola, itching somewhat with a yellow, pustular apex, somewhat moist on scratching it off (like small boils), on neck, chest, fingers and toes (Sil.).

Stomach - Painful flatulent distention in pit of stomach.

RELATIONS - Spirit-nit-dulc., antidotes. Coffee drinking relieved the attacks, especially the rumblings. Nat-c. relieved the diarrhea. **Compare:** (1) lod., Nat-c., Nat-m., Sil.

REFERENCES - Allen.

***ADLUMIA FUNGOSA

(Climbing Fumitory)

PHARMACY - adlu. Adlumia fungosa. Climbing fumitory. Fumaria fungosa. N.O. Papaveraceae.

CLINICAL - Bladder, disorders. Chilly. Constipation. Dyspnea. Flatulence. Headache. Impotence. Infertility. Kidney, stones. Nail, disorders. Nausea. Nightmares. Meteorism. Palpitations. Rash. Styes. Vertigo. Weakness.

HERBAL - Fumaria species have long been valued as medicinal herbs for chronic skin rash and kidney stones, in which its success was ascribed to its sweat-inducing capacity, as well as its blood-purifying effect by means of the urinary organs.

French and German physicians prefer it to most other medicines as a purifier of the blood.

Sometimes the dried leaves are smoked in the manner of tobacco, for disorders of the head. The plant was also believed to be useful in infertility.

HOMEOPATHIC - Sense of weakness, must lie down. **Great weariness towards end of afternoon, must lie down.** Chilliness, yet better open air. Pain extends to left scapula or to left arm. Meteorismus from smoking. Slow growth of nails.

MIND - Causeless sadness. Sadness and joyless for days. Difficult concentration. Mistakes in writing. Euphoria when weariness subsides.

Abdomen - Flatulence. Distended sensation in abdomen and rumbling. Pressure in hepatic region. Pressing pain in epigastrium after eating, better lying on abdomen. Sensation of weakness in abdomen at 11 p.m.

Chest - Oppression in left side of chest.

Eyes - Styes, lower lidofright eye. Swelling of lower lid of right eye.

Female - Sexual power diminished.

Food - Desires cold milk. Better cold food. Worse beer, fats, sausages. Intolerance to fatty food. Nausea from sausage.

Head - Headache, worse 3 a.m. Headache better fresh evening air, better rainy weather. Headache and nausea and vertigo. Congestion of head and face from flatulence pressing upward. Right-sided headache.

Heart - Palpitations of heart.

Limbs - Pain in finger joints.

Lungs - Dyspnea. Sensation of breathlessness.

Male - Sexual power diminished. Impotence. Too quick ejaculation.

Modalities - Better fresh evening air. Better lying on abdomen. Better pressure. Better coffee. Worse evening. Worse after exposure to heat of sun. Worse 3 a.m. Worse afternoon, 2 p.m. to 5 p.m.

Mouth - Discoloration of tongue. Tongue coated white.

Rectum - Constipation, difficult discharge of soft stool. Ineffectual urging and straining. No stool for days. Frequent urging in afternoon, but passes only yellow mucus. Flatulence and soft stool. Meteorism. Frequent stools at 4 p.m. to 6 p.m. Hard, knotty stool. Soft, light-colored stool.

Sleep - Disturbed sleep. Wakes at 3 a.m., tosses about and finally falls asleep again. Restless sleep from constipation during daytime. Falling asleep difficult from palpitations of heart. Sleepiness during daytime, worse in afternoon, irresistible desire to lie down. Frequent waking with tormenting thoughts. Nightmares. Frightful dreams, even during short afternoon naps.

Stomach - Pressing pain in stomach after meals. Nausea and pain in epigastrium extending to left scapula. Nausea from smoking. Nausea from beer. Nausea better after eating.

Vertigo - Vertigo on slight exertion. Vertigo with headache and nausea.

REFERENCES - Bayr. Grieve.

***ADONIS AESTIVALIS

PHARMACY - adon-ae. Adonis aestivalis. N. O. Ranunculaceae. **Historical dose:** All potencies.

CLINICAL-Dyspnea. Heart, disorders. **Heart, weakness.** Pulse, rapid.

HOMEOPATHIC - This plant was examined by Italian doctors as to its therapeutic value and Albertoni reported in its favor. His experiments were made on animals and sick and healthy people.

Neither of these species of Adonis has been proved in homeopathy. There were some attempts to prove Adonis vernalis, but the results were very meager. It seems to cause irritation of the bladder, strangury, etc., but all cardiac medicines do that.

In cases of **insufficiency of heart action**, with feeble, irregular, rapid pulse, diminished arterial pressure, dyspnea and diminished excretion of urine. The administration of the plant in substance produced, in a few days, the return of normal pulse, increase of the pressure of the blood, and disappearance of the respiratory oppression. The quantity of urine increased from eight hundred to three thousand cubic centimeters in a day.

COMMENTS - These good results were not obtained in cases in which the organs susceptible to the influence of Adonis, such as the kidney epithelium, muscular fiber and the nerve apparatus of the heart, had already retrograded to too great an extent.

The dose is 4 to 8 grains a day, given in substance or infusion. The effects manifest themselves about the third day.

REFERENCES - Hale.

***ADONIS VERNALIS

(Pheasant's Eye)

PHARMACY - adon. Adonis vernalis. Pheasant's eye. N. O. Ranunculaceae. Infusion or tincture of fresh plant, an extract, Adonidin. **Historical dose:** Tincture, five to ten drops of the tincture. All potencies.

CLINICAL - Albuminuria. Ascites. Dropsy. **Dyspnea.** Fatty, degeneration. **Heart, disorders.** Hydrothorax. Myocarditis. Rheumatism. Tinnitus.

HERBAL - Adonis, like Crataegus and Convallaria, is a popular herbal heart tonic. It is used as a heart tonic after rheumatism, influenza or kidney infection. Adonis is not cumulative in action. Compensatory hypertrophy of heart in cardiac stenosis and mitral regurgitation.

Adon, regulates the pulse increases the contracting power of the heart with increased urinary secretion. It is valuable in cardiac dropsy, hydrothorax, ascites and anasarca.

HOMEOPATHIC - Adonis has not been proved, but the indications for its use have been defined from experience. Indications include rapid and feeble action of the heart, dropsy, scanty urine with albumen and casts. Valvular disease and cardiac asthma. There is no record of its uses in the potencies.

Adonis acts predominantly on the heart when it is affected after rheumatism, influenza or nephritis, where the muscles of the heart are in the stage of fatty degeneration. Pains wander from place to place.

Regulates the pulse and increases the power of contractions of heart with more urinary secretions. **Low vitality with weak heart** and slow, weak pulse. Most valuable in cardiac dropsy.

Hydrothorax, ascites or anasarca.

MIND - Anxiety about the heart. Apprehension.

Abdomen - Dropsy. Faint feeling in epigastric region with vertigo better out of doors. As if a heavy weight in bowels. Sensation as if intestines would break on bending.

Back - Spine and neck stiff, aching pain with tired feeling. Stiffness of left cervical region and spine.

Ears - Tinnitus.

Eyes - Pupils dilated.

Food - Appetite, easy satiety after a few bites. Gnawing hunger. No thirst.

Head - Feels light headed. Aches across front of head. **Pain from occiput around temples to eyes.** Scalp feels tight. Pain in occiput, extending to eyes, around temples.

Heart - Weakness of circulatory system and dropsy. Dropsy. Murmurs, valvular disease. Arrhythmia. Heart failure. Mitral and aortic regurgitation. Chronic aortitis. Fatty heart pericarditis. Rheumatic Endocarditis (Kalm.).

Precordial pain, palpitations and dyspnea. Marked venous engorgement. Fatty heart. Myocarditis, irregular heart action, constriction and vertigo. Weak, fatty, arrhythmic heart. Precordial pain, palpitations and dyspnea. Trembling and palpitations. Pulse rapid, irregular.

Kidneys - Nephritis. Urging to urinate. Albuminuria, urine scanty, oily pellicle on urine.

Limbs - Aching in nape. Spine stiff and aching. Edema.

Lungs - Cardiac asthma (Queb.). Frequent desire to take a long breath. Feeling of weight on chest. Difficult breathing, worse touching back. Dry tickling, cardiac cough.

Modalities - Better from exertion. Better walking open air. Worse from cold. Worse lying down.

Mouth - Slimy. Tongue dirty, yellow, sore, feels burnt. Sensation as if tongue were scalded.

Skin - Vesicles on the skin.

Sleep - Dozing as soon as eyes are closed. Falling asleep and palpitations. Sleeplessness with rambling thoughts or horrible dreams. Restless with horrible dreams.

Stomach - Heavy weight sensation. Gnawing hunger. Faint feeling in epigastrium. Better out of doors.

Vertigo - Faintness and vertigo, better open air. Vertigo, worse turning or moving head quickly. Vertigo on lying down. Vertigo on rising. Vertigo with palpitations.

COMMENTS - Cash gave great relief to "a water-logged patient of seventy-four" with mitral regurgitation with one-grain doses of Adonidin at eight-hour intervals after the failure of Ars. and Dig. Urinary secretion rose from half a pint to 21/2 pints in 24 hours. Breathing was relieved, sleep returned.

RELATIONS - Compare: (1) Conv., Crat., Dig., Strop.

REFERENCES - Boericke. Clarke. Phatak.

***ADOXA MOSCHATELLINA

(Moschatel)

PHARMACY - adox. Adoxa moschatellina. Moschatel. N. O. Caprifoliaceae. Adoxaceae. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - This remedy has been used in the past for general prostration. Nervous tremors in some persons. Sleepiness. Vertigo and headaches. Weariness of the eyelids. Dryness of the pharynx and esophagus. Qualmishness in the epigastrium.

RELATIONS - Compare: (1) Gels. Caust. (2) Dig., Conv., Strophan.

REFERENCES - Allen.

***ADRENALINUM

(Adrenal Glands)

PHARMACY - adren. Adrenalinum. Adrenal glands. Extract of adrenal glands. Sarcocod. Tincture or trituration. **Historical dose:** All potencies.

CLINICAL - Addison's disease. Adrenalgia neuralgias. **Allergies.** Angina pectoris. **Asthma.** Bronzed skin. Debility. Hematuria. Hemorrhages. Hyperemia. Neuralgia. Palpitations. Tachycardia.

HOMEOPATHIC - Adrenaline or Epinephrine, the active principle of the medulla of the suprarenal gland, is employed as a chemical messenger in the regulation of the activities of the body in fact. Its presence is essential to the activity of the sympathetic nerves.

Adrenaline appears to possess a very powerful local action over dilated blood vessels. When injected into the circulation, blood pressure rises, the arteries being contracted. The general muscular system is affected, a slight stimulus producing prolonged contraction.

Adrenalin has been suggested in acute congestion of lungs. **Asthma.** Addison's diseases and Grave's diseases, Arteriosclerosis, chronic aortitis, angina pectoris, hemophilia, chlorosis, hay fever, serum rashes, acute urticaria, etc.

Adrenalin's chief therapeutic use depends on its **vaso-constriction** action, therefore a most powerful and prompt **astringent and hemostatic** and invaluable in checking capillary hemorrhages from all parts, where local or direct application is feasible including the nose, ear, mouth, throat, larynx, stomach, rectum, uterus, and bladder.

Clinically effective **inallergies**, neuralgia, **bronzed skin**, debility, hematuria, palpitations, tachycardia, hyperemia, exceedingly rapid pulse, loss of strength, wasting. May well be needed in cancer patients with adrenal disturbance. Prolonged contraction of the general muscular system. Great loss of strength, rapid emaciation. Rapid pulse and irregular intermittent heartbeats. General marked anemia.

MIND - Despondent and nervous. **Ailments from overwork and stress.** Apathy. Lack of interest in anything. No ambition. Disinclination for mental work. Absence of mental stamina and will power. Anxious and restless. Distracted easily. Aversion to mental activity. Cannot concentrate thoughts.

Abdomen - Rumbling in the intestines, borborygmus.

Back - Pain especially on the left side, better by sitting up straight or lying straight.

Ears - Aching in the left ear accompanies the headache, sharp pain in both ears at times. Itching and tickling in right ear, better by boring into ear with finger.

Eyes - Strained feeling as though he wanted to open them wide or press upon them. Pain in the right eye. Pressure on the eyes. Hyperemia of the conjunctiva. Aching in eyeballs, better by pressure and rubbing.

Face - Feels flushed but is not red. Flushes of heat over face and head, flushed throughout evening.

Food - Appetite increased. Ravenous hunger. Less thirst than usual. Thirst at times for large quantities,

increased in the evening.

Head - Hot headache in left side, extending to right. Headache, worse by reading and in the morning, with a feeling as though the eyes were strained. Frontal headache with congested nose and eyes. Burning heat in head. Headache extending all over head. Severe pain, better by pressure on the eyes. Headache with nausea and heat in face without redness. Neuralgic headaches. Brain feels swollen as though it were too large for skull. Flushes of heat in the evening over face and head.

Kidneys - Strong odor, hot and scalding, frequent, profuse, pale. Burning before and during urination. Sudden urgent desire to urinate. Amount of urine decreased, solids increased. Crystals of sodium oxalate increased while sodium urate appeared during the proving and was very prominent, no casts.

Limbs - Slight rheumatic pains coming and going down leg. Arms and legs go to sleep easily, numbness and tingling from below upwards. Corns on the toes. Aching in limbs on waking in the morning, aching in the calves. Rheumatic pains in left elbow and little finger on waking. Legs tired and ache, especially in the calves and below the knees. Ankles feel weak and tired. Painful swelling on first finger of right hand, resulting in a felon. Tired aching in arms and legs on waking. Dull pain in arms and legs.

Lungs - Cough from irritation in suprasternal fossa. Expectoration of gelatinous mucus, which is hard to detach. Increase of respiratory movements, soon followed by suffocation and death from paralysis of medulla and pneumogastric.

Male - Sexual desire increased without erections. Erections, lascivious dreams all night causing waking from sleep. Emissions in early morning without any bad effects.

Mouth - Bad taste on waking. Mouth filled with dark brown mucus, which has nasty taste. Tongue coated white, red edge and tip. Tongue clean anteriorly, mouth dry. Tongue coated white at times posteriorly.

Nose - Congested, full feeling in nose. Gelatinous mucus drops from the posterior sinuses, difficult to detach. On going out into the cold air had a copious, watery nasal discharge. Slight stuffiness in the nose with full feeling at the root of the nose.

Rectum - Passage of foul flatus. Stool loose, brown, semi-solid, passed quickly with fetid odor. Sudden spluttering diarrhea, all over in a minute, followed with burning in anus.

Sleep - Great sleepiness and drowsiness. Sleepy in evening and after a good night's sleep. Dullness and sleepiness from 3 p.m. to 6 p.m.

Stomach - Belching after meals. Sensation of nausea as though he would vomit. Pain in stomach passing from right to left, coming and going suddenly. Nausea before meals, though appetite is good after beginning to eat.

Throat - Much hawking to clear throat. Vocal cords inflamed, laryngeal catarrh, profuse secretion from the pharyngeal glands of whitish gelatinous mucus which was difficult to loosen. Right side swollen and sore, red and inflamed, worse by swallowing.

COMMENTS - Leading features include bronzing of the skin, loss of strength, wasting, and exceedingly rapid pulse. It has cured a case of hematuria accompanied by pain in the adrenal region.

Adrenaline has cured a number of cases of Addison's disease and has arrested others. It has been used locally in cases of hyperemia of the conjunctiva, dissipating it almost immediately and thus rendering operations possible.

Dr. P. Jousset reports success in treating, homeopathically, cases of angina and aortitis, sub-acute and chronic, when Adrenalin has been prescribed per os and in infinitesimal dose. The guiding symptom is a sensation of thoracic constriction with anguish. This, with vertigo, nausea and vomiting have been produced by the drug. Abdominal pain. Shock or heart failure during anesthesia.

Adrenaline causes very prompt rise of blood pressure by its action on nerve endings in the vessel wall.

***AEGLE FOLIA

PHARMACY - aegle-f. Aegle folia. N. O. Rutaceae. Tincture of the leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. **Ascites.** Asthma. Beriberi. Bites. Bronchitis. Colic. Constipation. Coughs. Diarrhea. **Dropsy.** Dysentery. Edema. Fever. Gonorrhea. Headaches. Heart, disorders. Hemorrhages. Hemorrhoids. Impotency. Indigestion. Influenza. Jaundice. Kidney stones. Leprosy. Liver, disorders. Phlegm. Pneumonia. Rabies. Ringworm. Water brash.

HERBAL - In Bengal, the leaves of this plant are kept in the drinking pot of patients suffering from dropsy with the belief that drinking this water will accelerate the cure.

The leaves of the Aegle-f. are used by the Sannyasi (monks and ascetics) of India to suppress sexual desires and excitement (Agn.) as they have found it produces sexual impotency. For seminal weakness and

impotency.

HOMEOPATHIC - Dr. Pramada Prasanna Biswas of Padna, Bengal, made a short proving of this drug using a preparation from the leaves.

This remedy destroys phlegm, and is useful for fevers associated with catarrhal symptoms. Generally useful for bowel complaints. Diarrhea and dysentery. Alternating diarrhea and constipation, it acts as a mild stimulant to the intestinal mucus membrane. It can act as a laxative for existing constipation. Intestinal colic.

Dropsy, particularly when due to heart disease. Continued fever associated with dropsy, especially of children. Dropsy in certain parts or throughout entire body. Bruised pains. Diminished appetite. Sensation of heat worse movement, better rest. Weakness.

Leprosy. Bites from venomous animals such as snake, rabid dog and scorpion. Coughs, asthma, gonorrhea. Jaundice, ascites associated with liver disorders. Bleeding piles. Hemorrhages. Anemia. Kidney stones. Diseases of heart and hemicrania.

MIND - Mistakes in spelling. Anxiety with heat and bruised feeling. Lack of concentration while studying.

Abdomen - Pain, gripping in the lower abdomen, worse after eating. Gripping pain in abdomen, worse sitting, better from walking.

Back - Eruptions in scapular regions of back, red, small pimples, painful with thick white pus, itching worse covering, rubbing. better open **air. Pain, lumbarregion.** Bruised pain, worse sitting, walking.

Chest - Sharp pain, worse during cough.

Eyes - Pain, soreness in the right eye, worse deep inspiration, sunlight, pressure. Sensation, as if sand in the eye. Watery discharge, left eye, better closing eyes. Agglutination of eyelids, worse morning.

Face - Jaw, aching with soreness in throat worse chewing. Jaw, right soreness and tenderness with enlarged cervical lymph nodes on the right side worse chewing, swallowing, better warmth.

Food - Appetite diminished with bad taste in mouth. Appetite diminished during fever. Appetite, increased with increased thirst and sleepiness. Thirst for large quantity of water at short intervals. Desires rice, meat, milk.

Head - Heaviness of head. Heaviness, better aftertea. Heaviness of head with sneezing, malaise, chilliness. Heaviness with soreness in right eye. Heaviness, with throat pain. Heaviness with thirst. **Pain in frontal region better open air, better pressure.** Bursting pain, in forehead. Pressing pain in the right frontal region, with profuse sweat all over the body.

Kidneys - Kidney stones. Urine yellow.

Limbs - Bruised pain, shoulders, hips, knee joints with sleepiness worse motion, better pressure. Aching pain in the right hand worse movement of hand, holding anything by hand, better pressure. **Pain in the knee joints worse motion.** Eruptions, both hands, pimples like, painful worse touch, pressure, better cold bathing. Eruptions, lower limbs with itching, worse covering, warmth, better open air, undressing.

Lungs - Dyspnea, worse inspiration.

Mouth - Bitter taste in mouth. Salivation, profuse. Taste, bad with diminished appetite. Taste, bitter. Thick yellow coating on the tongue during fever. Tongue flabby with imprints of teeth on edges. Tongue thick, moist and yellow coating.

Nose - Watery discharge bland, white, worse bathing, change in temperature, better hot inhalation. **Coryza, bland white or watery discharge.** Sneezing with heaviness of head, malaise, chilliness. Sneezing worse pungent odor. Tickling sensation with thin watery, bland discharge. Thick, bland and yellowish discharge with profuse salivation, disturbed sleep.

Perspiration - Profuse sweat, all over the body, followed by weakness. Profuse, offensive sweat.

Skin - Pimple-like eruptions. Eruptions, papular, dark red, painful. **Urticaria with itching.** Urticaria with redness and swelling with restlessness. Itching, worse warmth, covering, better cold bathing, undressing.

Sleep - Sleepiness day and night with uneasiness. Sleepiness with increased appetite and thirst.

Stomach - Nausea, vomiting with weakness. **Nausea at the sight of food.** Vomiting of watery fluid containing food particles, sour smelling.

Stools - Semi-solid stool with diminished appetite and bad taste in mouth.

Temperature - **Fever with weakness, diminishedappetite.** Heat worse at midnight with bursting pain in forehead. **Fever without chill worse at night.** Fever with thirst for large quantities of cold water.

Throat - Pain, bruised, amel. hot drinks. Pain, stitching with dry cough worse during deglutition, amel. hot drinks. Soreness, worse swallowing. Soreness with aching in jaw worse chewing.

Vertigo - **Vertigo worse lying down.**

Vertigo worse physical exertion, better lying down. **Vertigo worse on walking and standing.** Vertigo with darkness before eyes.

COMMENTS - An anti-psoric remedy, historically used for skin diseases such as itches and ringworm. An anti-bilious and febrifuge remedy.

Headache due to congestion. Headache between 4 a.m. and 8 p.m. (Lyc.). Heat in the vertex appears in the evening, relieved by eating something. In the afternoon and evening, flushes of heat come out from the eyes and face, and in the ear. All these symptoms disappear after eating.

Irregularity or disorder of the stomach, abdomen is distended and flatus passes with a loud sound, worse in the afternoon. Water brash. Accumulation of wind in the lower abdomen. Constipation with flatus (Lyc.). Indigestion, abdominal colic, piles and constipation (Nux-v.). Chronic gastrointestinal catarrh with flatulent colicky pains. Decreased quantity of urine.

Slight pain in the back and lumbar region that is worse in the afternoon. All pains in the limbs are aggravated after four p.m. Beriberi, with a full, strong and regular pulse (Dig., with irregular or intermittent pulse). Swollen upper eyelids. Anasarca, ascites and edema of all sorts. Full, strong and regular pulse (Bell.).

Chronic fevers associated with hepatic and splenic disorders, with swollen feet, burning in the eye, face, hands, and feet, no appetite, diminished urine, and cough. Continual fever. Fever with swelling in the hands, legs and face. Catarrhal fevers in children. Fever with dropsy and diarrhea. Influenza, with fever and swollen face and eyelids. Bronchitis and pneumonia.

Lt. Col. R. N. Chopra asserted that none of the preparations appear to possess any specific therapeutic properties to cure either amoebic or bacillary dysentery, but its efficacy is certain in chronic cases with the keynote symptoms.

Ghose noted the case of Babu Sarat Chandra Jana, aged 28, who had sudden swellings of his legs and feet on March 2, 1932. His urine was examined, but there was no albumen present. The urine became scanty and high-colored. Pain over the hepatic region. Giddiness of head and heart palpitations.

Ghose prescribed Boerhaavia Diffusa in drop doses to be taken thrice daily. The medicine was continued for six days and the patient got rid of the swelling and other complaints within ten days.

Ghose had a second case, Babu Santiram Roy, aged 28, who had an epidemic dropsy on May 30, 1932. He was treated by several well-known allopaths of Calcutta, but nothing could lessen the swelling. Ghose was called in on June 14.

The patient complained of a terrible headache, principally on the right side. Preexisting liver derangement, at the time it was congested and painful to touch or pressure. Swollen hands, feet and abdomen. Scanty, high-colored urine.

Cough with thick, white mucus expectoration. Throbbing pain in the cardiac region felt off and on. Ghose prescribed Boerhaavia in 2-drop doses thrice daily. He was cured within a month.

Ghose cured more than 30 cases of epidemic dropsy with the help of this new drug.

Aegle marmelos contains almost all the identical therapeutic properties ascribed to Aegle folia.

REFERENCES - Ghose.

***AEGLE MARMELOS

(Bel Fruit)

PHARMACY - aegle. Aegle marmelos. Bel fruit. Bael fruit. Bael tree. N. O. Rutaceae. **Historical dose:** Tincture and all potencies.

CLINICAL - **Allergies.** Asthma. Backache. Bronchitis. Coccygodynia. Conjunctivitis. Constipation. Coryza. **Dermatitis.** Diarrhea. Dyspepsia. Dysentery. Dysmenorrhea. Eczema. Headaches. Hoarseness. Infertility. Intermittent fever. Laryngitis. Lumbago. Migraines. Palpitations. Polyps, nasal. Rheumatism. **Rhinitis.** Ringworm. Scabies. Spring catarrh. **Stomatitis. Styes. Vertigo.**

HERBAL - The aegle marmelos tree is indigenous to India and is found wild all over the Sub-Himalayan forests, in Bengali, in Central and South India, and in Burma. It is also cultivated to a great extent.

Different parts of the bel tree are used in Ayurvedic medicine. The root bark is used in the form of a decoction as a remedy in hypochondriasis, melancholia, intermittent fever and palpitation of the heart.

It constitutes an ingredient in the "Dasam-ul" or ten roots used by the Ayurvedic physicians. The leaves are made into a poultice and applied to inflamed parts. The fresh juice is bitter and pungent, and when mixed with water is praised as a remedy in catarrh and feverishness.

The fruit, both green and ripe, is used against diarrhea and intestinal conditions. For diarrhea and dysentery the roasted or sun-dried unripe fruit cut in slices is general used. The astringent rind of the ripe fruit is employed in dyeing and tanning and it is also used medicinally.

Ayurvedic physicians note that the ripe fruit is nutritious, delicious, aromatic, alternative and a laxative. It is given with sugar candy to prevent the growth of piles and to remove habitual constipation.

When taken in excess it often causes flatulence. Syrup of ripe fruits is used in dyspepsia. The root bark is a refrigerant, and is given in fevers and asthma, with palpitations of the heart.

In native practice, a poultice of the leaves is applied to the chest in acute bronchitis.

The decoction of the Aegle leaves is given in asthma, a marmalade of bel fruit is a household remedy for diarrhea and dysentery.

HOMEOPATHIC - A proving of Aegle marmelos was done by the Central Council for Research in Homoeopathy of the Ministry of health and family welfare. Government of India, giving a good array of symptoms. It showed a marked affinity for the gastrointestinal tract, skin and upper respiratory tract though it has also evoked symptoms from head, eyes, genitalia, back and extremities.

A study to clinically confirm the symptoms elicited during provings is in progress and the data obtained so far show its positive application in **vertigo, styes, rhinitis, stomatitis and dermatitis**. Nocturnal seminal emission with amorous dreams.

Backache and cramps in calf muscles. Lachrymation and burning in eyes, better closing eyes. Allergic conjunctivitis. Styes, especially when accompanied with stitching pain and sensation of dust particles in eyes with lachrymation (Sulph., Staph.). Aphthae with difficulty in eating.

MIND - Disinclination to talk. Disinclination to work, with sadness. Irritability. Hypochondriasis. Melancholy.

Abdomen - Pain in abdomen around umbilicus. Rumbling in abdomen with diarrhea and increased thirst.

Back - Backache, better lying down worse, turning in bed. Pain in right lumbar region, worse walking, stooping. Pain in coccyx, worse getting up, better walking, lying down.

Chest - Burning sensation in chest. Eruptions, small round patches on chest itching, burning, worse from bathing, sun, and friction of clothes.

Eyes - Redness of eyes, worse from straining. Stitching pain in eyes. Swelling of both upper eyelids. Sensation as if dust particles in right eye, worse touch. Stye in the left lower eyelid. Burning lachrymation with irritability and disinclination to talk. Blurred vision in left eye.

Face - Small eruptions on forehead and cheek. Black, raised eruption on chin.

Female - Dysmenorrhea with pain in the back and legs, worse sitting. Menses dark, blackish.

Food - Thirst increased. Appetite increased, with pain in abdomen.

Head - Bursting pain, better from tea, sleep. Pain as if beaten by hammer, with anger and disinclination to talk, worse after sleep. Hammering pain, left side, worse looking at an object or after sleep, better from closing eyes and in the afternoon.

Limbs - Pain in knee and ankle joints, with sadness and disinclination to work, better pressure, bathing, and sitting, worse walking. Sensation as if legs were being cut. Pain and weakness in left leg, cramping pain worse flexing knee, sitting. Pain in left leg worse walking, feels as if stretched. Pain in calf muscles. Itching on both lower limbs.

Male - Nocturnal seminal emissions.

Mouth - Pain in teeth. Itching over tongue with aching. Aphthae.

Nose - Coryza with sensation of heat in whole body and thirstlessness. Coryza with achiness. Sneezing with itching in nostrils, watery discharge. Thick, white nasal discharge. Burning in right nostril with raw and red surface.

Rectum - Constipation. Loose stool. Profuse, yellowish semi-solid stool. Odorless stool with pain and rumbling in abdomen, increased thirst.

Stomach - Sinking sensation in stomach, not relieved by eating.

Throat - Pain, constricting with difficult speech. Voice heavy and hoarseness, worse from talking. Pain in throat and in the right ear, worse morning, evening. Stitching pain, worse swallowing, drinking and eating.

Vertigo - Vertigo with tendency to fall forward. Vertigo with constipation. Vertigo better lying down. Vertigo worse walking, sitting and standing.

COMMENTS - R. N. Khory, in the Materia Medica of India, noted many traditional uses for Aegle. Aegle marmelos is held sacred by the Hindus, and its leaves are presented to Shiva as an offering by the devotees. It is often planted near the temples. The Hindus consider it an emblem of fertility and a very auspicious plant.

No herbal remedy has been longer and better known or appreciated by the inhabitants of India than the bel fruit. Two kinds of fruit are available in the market: a small, wild variety and a cultivated variety. The full-grown fruit of either variety, when it just begins to ripen, is best for medicinal purposes.

The unripe or half-ripe fruit is regarded as an astringent, digestive, stomachic and is said to be an excellent remedy for diarrhea owing to the presence of tannins or mucilaginous substances. It is said to be particularly useful in chronic diarrhea. It is sometimes used in combination with opium by ayurvedic practitioners.

The fruit is also sliced and a configure made from it. which is commonly used by Hindu physicians in the treatment of diarrheas and dysentery.

The ripe fruit is sweet, aromatic and cooling. When taken fresh, it possesses laxative properties. The dried pulp is pale orange or flesh colored, and when mixed with water, yields a pleasant orange-colored food which

has mild astringent properties.

Sadness. Gloomy and pessimistic. Feeling of an inner void. Indisposition to talk. Indifference to own mistakes. Fear of getting depressed, wants to escape the daily routine and go on holiday.

Delusion of lying in an open grave, that is being filled in. Floating sensation, as if walking on cotton. Delusion as if head were filled with pudding, or with lead. Wants to be dressed in black. Experiences no anxiety but feels resigned and peaceful.

Back - Drawing pain in scapulae as from having carried heavy loads.

Breasts - Burning pain in nipples, nipples very sensitive to touch.

Cough - Dry, hacking cough.

Eyes - Sensation of dryness, worse draft of air. Burning pain in eyes, and dryness. Twitching of right lower lid. Diplopia, worse thinking about it and excitement, better relaxation.

Female - Burning pain in ovaries at time of ovulation. Sexual desire increased.

Food - Appetite increased. Loss of appetite. Thirst for lukewarm water. Aversion to smell of food. Aversion to smell of onions. Desires chocolate. Desires lukewarm water. Desires salt, sour, sweets. Desires for chocolate. Worse smell and sight of food. Better milk. Better eating. Better milk.

Head - Congestion to head and hot ears. Sensation as if head were filled with cotton. Headaches, better cold applications. Headache and sensation as if walking on cotton. Sudden headache, ceasing suddenly.

Limbs - Heaviness in legs. Tingling legs at night, worse cold, draft of air and lying down, better motion and warmth.

Male - Sexual desire increased.

Modalities - Better eating. Better rest. Better warmth. Better motion. Worse smell and sight of food. Worse cold, cold draughts. Worse cold drinks. **Worse right side.** Worse morning on awaking. **Worse evening.** Worse pressure. Worse motion.

Mouth - Pappy taste in mouth, in morning. Salivation in morning.

Nose - Sensitive to smell of onions and food in general. Coryza, with clear discharge. Coryza with scanty discharge of white mucus, worse warm room, better cold air. Coryza with sneezing on awaking and in evening.

Rectum - Constipation, stool soft and sticky. Fatty stools.

Skin - Dry skin and desquamating. Itching.

Stomach - Nausea, better diversion, eating and motion. Pressing pain in stomach, better milk. Nausea in morning, worse sight and smell of food. Pressing pain in stomach and nausea, better eating, better rest. Sensation of a stone after drink

Throat - Scraping in throat.

Vertigo - Transitory. Vertigo lying down.

Vertigo better sitting.

REFERENCES - Mattitsch.

***AESCULUS GLABRA

(Ohio Buckeye)

PHARMACY - aesc-g. Aesculus glabra. Ohio Buckeye. Fetid Buckeye. N. O. Sapindaceae. Hippocastanaceae. States of North America watered by Ohio River. Tincture of the whole ripe fruit without the shell. **Historical dose:** Tincture and all potencies.

CLINICAL - Constipation. Cough. Cramp in stomach. **Hemorrhoids.** Meningitis. Paralysis. Proctitis. Speech, thick. Vertigo. Wryneck.

HOMEOPATHIC - Aesculus glabra, like the horse chestnut, has a marked action on the rectum. In cattle, it produces wryneck and paresis of hind limbs.

Produces hard, knotty stools, very painful. Very painful, dark purple, external hemorrhoids with constipation, vertigo and portal congestion. Dark purple hemorrhoids with lame back, weakness of sacrum and lower limbs. Proctitis.

Fullness and heaviness of the head without pain, the sight may be dim or lost, eyes fixed and expressionless. The tongue is as if lame, speech thick. Cough produced by sudden irritation of throat. Sensation as of a feather tickling the throat, causing hawking and raising of mucus finally streaked with blood. Impaired vision. Paresis.

MIND - Confusion with vertigo, often followed by stupefaction and coma.

Back - Wryneck. Great lameness and weakness of the back.

Eyes - Eyes fixed and dead, expressionless. Sight dim or lost.

Limbs - Trembling of lower limbs. Lower limbs lame, paralysis. Strong tendency to contraction of legs. Trembling. Spasms and convulsions, followed by lameness.

Lungs - Cough from sudden irritation of throat, sensation as of a feather tickling the throat, causing hawking and raising of mucus finally streaked with blood.

Mouth - Speech thick and tongue as if lame.

Rectum - It has hard, knotty stools, very painful. Dark purple hemorrhoids with lame back and lower limbs. Proctitis.

Stomach - Nausea with loathing of food and vomiting. Distention (in cattle). Full sensation. Cramp-like pain.

Vertigo - Vertigo with staggering, reeling, unconsciousness. Vertigo with full, heavy head, dim sight, thick speech, nausea and vomiting, faintness towards evening.

REFERENCES - Boericke. Clarke.

***AESCULUS HIPPOCASTANUM

(Horse Chestnut)

PHARMACY - aesc. Aesculus hippocastanum. Horse chestnut. Hippocastanum vulgaris. N. O. Sapindaceae. Hippocastanaceae. Northern India and North America. Tincture of ripe kernel, trituration of dry kernel. Tincture of fruit with capsule according to Hering is the best. **Historical dose:** Tincture and all potencies.

CLINICAL - Anal, problems. Ankylosing, spondylitis. Arthritis. **Backache.** Constipation. Coughs. **Glandular, swellings.** Headaches. **Hemorrhoids.** Hernia. **Hip joint, disease.** Intermittents. Jaundice. Joints, pain. Liver, disorders. Lumbago. Malaise. Palpitations. Prostate, disorders. **Rheumatism. Sacral-iliac pain.** Taste, altered. Throat, disorders. Tongue, disorders. Uterine prolapse. **Varicose, veins. Venous stasis.**

HERBAL - In some districts it is a popular custom to carry a chestnut in the pocket as a preventive for hemorrhoids..

HOMEOPATHIC - The action of this remedy is most marked on the lower bowels, producing engorged **hemorrhoidal veins** with the characteristic backache and absence of **constipation. Hemorrhoids**, with much pain but little bleeding. **Venous stasis** in general. **Varicose veins** of a purple color.

Many of the symptoms which Aesc. produces are due to a deranged liver or reflex from hemorrhoids. Everything is slowed down, digestion, heart, bowels, etc. Torpor and congestion of the liver and portal system with constipation. **Fullness in various parts**, dry, swollen mucus membranes.

This remedy has great affinity for the pelvis, hips, the sacro-iliac joint and sacrum problems. **Sacro-iliac**

problems since an injury or a fall. **Degenerative hip disease.** Arthritis of the hip. Aching pains in hips and pelvis. Sore muscles, mornings on waking and on motion.

Glandular swellings. Aesculus produces sensation of **heat, dryness, stiffness and roughness** in throat, nose, anus, etc. Throat symptoms with hemorrhoid conditions. Mucus membranes **dry, swollen, burn and feel raw.**

Joints weak. The back aches and gives out. Backache, lumbo-sacral region aches. **Walking greatly aggravates all symptoms.** When walking feet turn under. Soles feels sore, tired and swell. Hands and feet swell and become red after washing, feel full.

MIND - Aesc. patients are despondent, gloomy and irritable. Irritable, unable to fix his attention. **Depressed and irritable.** Extremely irritable. Loses temper easily. Feels miserably cross. Gloomy and despondent.

Malaise. Dullness of head and mind, fullness at root of nose. **Dullness, sluggishness on waking in morning, on waking at night.** Mistakes in localities. **Wakes up with confusion of mind,** bewildered, especially the children. Doesn't know where she is nor whence came the objects around her.

Abdomen - It has a marked action on the veins of the lower bowels and pelvic organs causing engorged hemorrhoids. Pain at umbilicus. Jaundice, throbbing in hypogastrium and pelvis. Throbbing in abdomen, especially hypogastrium. The most intense action is on the lower bowel and pelvic organs. Veins of portal system are also engorged producing soreness and fullness of the liver and abdomen.

Back - There is a characteristic backache which unfits the patient for business. **Backache of sacrum and hips, worse walking or stooping.** Pains are sticking or flying all over, hot like lightning. Lameness in neck, aching between shoulder blades. Back region of **spine feels weak,** back and legs give out. Pain as if back will break. Has to make repeated efforts at rising, worse walking and stooping. Aching in lumbar and sacral regions with stiffness in the back, almost impossible to walk.

Chest - Feels constricted. Heart's action full and heavy, can feel pulsations all over. Laryngitis, coughs **depending on liver disorders,** hot feeling in chest, pain around heart in hemorrhoid subjects. Feels constricted, hot feeling in chest.

Constitutions - Bilious temperament. Anal troubles. Menopausal years. Varicose veins. For persons with hemorrhoidal tendencies who suffer with gastric, bilious or catarrhal troubles.

Eyes - Eyeballs feel heavy, dull, hot and sore with lachrymation with **enlarged blood vessels.**

Female - Constant **throbbing behind symphysis pubis.** Leucorrhoea with **lameness of back across the sacro-iliac articulation,** dark, yellow, sticky corroding, worse after menses.

Food - Loss of appetite. Considerable thirst. Nausea from tea.

Head - Headache dull, confused, aching as from a cold. Pressure in forehead with nausea, followed by stitches in right hypochondrium. Pain from occiput to frontal region with bruised sensation of the scalp, worse in the morning. Neuralgic stitches from right to left through forehead, followed by flying pains in epigastrium. Bruised pain in occiput to the frontal region with flushes of heat over occiput, neck and shoulders.

Heart - Pain around heart in hemorrhoid subjects. Audible palpitations, when pulsation extends to limbs.

Kidneys - Frequent, scant, dark, muddy, hot urine. Pain in kidneys, especially left and ureter.

Limbs - Degenerative hip disease. Arthritis of the hip. Aching pains in hips and pelvis. Bruised pain affecting sacrum and hips. **Takes repeated efforts at rising from seat, worse walking and stooping.** Aching and soreness in limbs, in left acromion process with pain shooting down arms, fingertips numb. **Weak feeling in sacro-iliac joints,** as if legs would give way. Paralytic heaviness of arms, spine, feet.

Limbs - Hands and feet swell and become red after washing. Spine feels weak.

Liver - Tenderness and fullness in region of liver. Soreness and fullness in liver region, the abdomen is sore to touch. Jaundice with bileless stools. Dull aching in liver and epigastrium.

Male - Discharge of prostatic fluid at every stool and urination. Testes as if sore. Testes itch. Drawing pain in left testes. Dull and heavy shooting pain through penis. Shooting pain in right testes. Seminal emissions with amorous dreams.

Modalities - Hemorrhoids better from bleeding. Better in summer. Better in cool, open air. Better bathing. Better continued exertion. Better kneeling. Worse from winter, cold air, cold seasons. Worse after washing. Worse morning. Worse on waking. Worse afternoon. Worse after eating. Worse after stool, urinating. Worse motion. Worse standing. Worse lying. Worse stooping. **Worse walking,** which aggravates all symptoms.

Mouth - Thickly coated tongue, tongue and mouth feel as if scalded. Cannot control the tongue so as to form words rightly. Toothache, lower molar, worse warm drinks, better holding cold water in mouth. Salivation. Taste sweet, bitter, metallic. Teeth as if covered with oil.

Nose - Dry inspired air feels cold, **nasal passages sensitive** to it. causes burning, rawness and fluent coryza and sneezing. Pressure at root of nose. Membrane over the turbinate bones distended and boggy. Obstruction of nose due to hepatic disorders. Congestive catarrh.

Rectum - Anus raw, sore. **Burning in anus with chills up and down the back.** As if a bug crawling from anus. Constipation, hard, dry, knotty, white stools. Pains long after stools. **Feels full of small sticks.** Much pain after stool with prolapse. **Hemorrhoids** with sharp shooting pains up the back. **Hemorrhoids** blind and bleeding, purple, painful. Hemorrhoids external, worse standing and walking, worse during menopause. Irritation caused by ascarides and aids their expulsion.

Sleep - Disposition to stretch and yawn. Drowsy, falls asleep easily. **On awaking, knows not where she is.** Awakened by burning pain in stomach. Sore and tired in morning on awaking. Sleepless from thoughts continually crowding on mind.

Stomach - Heartburn and gulping up of food after eating. Weight of a stone with gnawing, aching pain, most manifest about three hours after meals. Pressure as from . a stone with gnawing, aching pain, about three hours after meals. Desire to vomit with constant distress and burning.

Stool - Large, hard, dry stools. Stools first part hard and black, then white and soft.

Temperature - Chill at 4 p.m. Chilliness up and down back. Evening fever, 7 to 12 p.m., skin hot and dry. Sweat profuse and hot with the fever.

Throat - Hot, **dry**, raw, stitching pain into ears when swallowing. Swollen glands. Follicular pharyngitis connected with hepatic congestion. **Veins in pharynx distended** and tortuous. Throat sensitive to inspired air, feels excoriated and constricted, burns like fire on swallowing in afternoon. Feeling of roughness, dryness, stitching or burning like fire on swallowing. Neuralgic pains in the fauces. Hawking of ropy mucus of sweetish taste.

Vertigo - Vertigo when sitting and walking. Slight vertigo while sitting, worse rising from seat. Vertigo with sensation as if he had to balance the head.

COMMENTS - Disordered liver. Soreness and fullness in the liver region, the abdomen is sore to the touch. Jaundice with bileless stools. Throbbing in abdomen, especially hypogastrium. The most intense action is on the lower bowel and pelvic organs. Malaise, dullness of head and mind, fullness at root of nose. Follicular pharyngitis with dryness, burning, roughness, contraction in throat.

Keynote use for hemorrhoids, blind or bleeding, relieved by bleeding. Large, swollen hemorrhoids, like a bunch of grapes. Feeling of dryness in rectum as if little sticks or splinters were pricking the folds of the mucus membrane with weak feeling in sacroiliac joints, as if legs would gave way.

Constipation, large, hard stools, followed by feeling of prolapse of rectum. Boericke noted fullness in the rectum, pain in the anus as if sticks stuck up the rectum.

General aching in lumbar and sacral regions with stiffness in the back, almost impossible to walk. Tearing pain in the small of the back and hips. Great affinity for the hips, the sacroiliac joint, for sacrum problems.

"Hip joint disease," "dislocates easily." May palliate for hip dysplasia. Degenerative hip disease, arthritis of the hip, bursitis. Deep, sore, aching pains. Characteristic worse from rising from a seat. Paralytic feeling in the hip and sacrum, feels weak, lame, and stiff. Ankylosing spondylitis, rigid back that aches and is sore.

For the back giving out during pregnancy, with a white leucorrhea. Ruptured disks, herniated disks, prolapsed disks, with radiating pains. Sacroiliac and lumbosacral problems with aching down both thighs, the backs of the thighs, and strong aching in the back.

Varicose veins (Ham.). "Venous stasis," the veins in the body are weak, producing hemorrhoids and varicose veins. Veins have lost tone and swell up with blood.

RELATIONS - Compare: (1) Aesc-g., Aloe, Coll., Merc., Nux-v., Podo., Sulph. (2) Phyt. - throat dry, more often in acute cases. (3) Aloe, Collinsonia. Nux-v. Sulph., Puls. (4) Arg-n. has also pain in sacroiliac joints and sensation as if the bones were loose. (5) Ne- gundium americanum. (6) Kali-bi. - throat, but Aesc. h. has not the stringy mucus. (7) Phyt. - follicularpharyngitis. **Complementary:** Carb-v., Lach., Mur-ac. Nux-v. antidotes the hemorrhoidal symptoms. **Follows well:** Coll., Nux-v., Sulph.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***AETHER

(Ether)

PHARMACY -aether. Aether. Ether. Etherum. Ethyl oxide. Ethylic ether. Sulfuric ether. **Historical dose:** All potencies.

CLINICAL - Bronchitis. Catalepsy. Convulsions. Cough. Delirium tremens. Hiccough. Mania. Meningitis. Nausea. Vomiting.

HOMEOPATHIC - Ether is the well-known anesthetic and the effects are those observed in patients under the action of its vapor, administered for the purpose of operation in habitual ether drinkers and on some who have voluntarily experimented with the drug upon themselves.

Ether is closely allied to alcohol, it possesses very similar intoxicating properties, produces visions, frequently

pleasurable, hallucination and in some instances a persistent maniacal condition.

Convulsions, spasms and a cataleptic state. Chilliness. Bronchitis is a common after result of ether anesthesia and Belladonna has been observed to be the best antidote for this.

Macerator reported the cure of a woman of 60, who had been confined to bed for weeks with severe neuralgia of the head, raised welts on the scalp like ridges accompanying the pain. Ether 200c cured quickly.

MIND - Exhilaration, furious excitement, flushed face. Pleasant dreams of rapid flight through the air, gorgeous visions and unearthly music. Frightful dreams, fancied he heard the ringing of his own funeral bell. Low-spirited, fearful of some disease, desponding. Loss of consciousness.

Chest - Extreme coldness of the chest, wants it covered. Tightness, irritation and pain.

Ears - Sounds indistinct, seem far off, yet resound violently in the ears.

Eyes - Eyes suffused, lids closed, conjunctive injected. Pupils dilated. Dim vision as if mist or thin cloud before eyes.

Face - Face flushed.

Head - Meningitis. Temporal arteries enlarged, beat violently. Head drops to one side or is thrown back. Severe neuralgia of head with raised welts on scalp.

Heart - Excitement and invigoration of heart's action. Pulse full and bounding.

Limbs - Paralysis of lower limbs.

Lungs - Violent cough from stinging or heat in bronchia. Expectoration of blood. Breathing is quickened, stertorous. Congestion of lungs and brain.

Mouth - Mouth often open. Salivation, slight frothing at mouth. Pronunciation difficult and indistinct.

Stomach - Hiccough persistent. Nausea. Vomiting.

Vertigo - Dizziness, headache with partial blindness follow ether anesthesia.

REFERENCES - Boericke. Clarke.

***AETHIOPS ANTIMONIALIS

PHARMACY - aethi-a. Aethiops antimonialis. Hydrargyrum stibiato sulfuratum. Aethi-a. is made by triturating two parts of sulphuret of antimony with one of quicksilver. **Historical dose:** All potencies.

CLINICAL - Corneal, ulcers. Otorrhea. Scrofula.

HOMEOPATHIC - Aethiops antimonialis is often more effective than Aethiops mercurialis in scrofulous glandular swellings, eruptions, otorrhea and eye affections, corneal ulcers.

REFERENCES - Boericke.

***AETHIOPS MERCURIALIS

(Black Sulphide of Mercury)

PHARMACY - aethi-m. Aethiops mercurialis. Blacksulphide of mercury. Aethiops mineralis. Mercurius sulphuratus niger. Hydrargyrum sulfuratum nigrum. Mercurius cumkahl sulph. Trituration. Made by triturating two parts of sulfuret of antimony with one of quicksilver. **Historical dose:** All potencies.

CLINICAL - Ophthalmia. Otorrhea. Scrofula. Skin disorders. Syphilis.

HOMEOPATHIC - Clarke has confirmed its utility in many aggravated skin disorders. Aethiops Mercurialis has not been proved, but it has been used with success in scrofulous, herpetic, eczematous eruptions and discharges. Favus-like eruptions.

Eruptions from fright. Painful, irritating, scabby eruptions of face. **Scrofulous disorders.** Scrofulous ophthalmia and otorrhea offensive. Hereditary syphilis. It seems to combine the powers of its various components.

RELATIONS - Compare: (1) Calc., Sil., Psor. (2) Aethiops Antimonialis.

REFERENCES - Boericke. Clarke.

***AETHUSA CYNAPIUM

(Fool's Parsley)

PHARMACY - aeth. Aethusacynapium. Fool's parsley. N. O. Umbelliferae. Europe. Tincture of whole flowering plant. **Historical dose:** All potencies.

CLINICAL - Attention deficit. Anasarca. Brain, weakness. Cholera infantum. Colic. Coma. **Convulsions.** Cough. Delirium. Diarrhea. Dyspepsia. Ear, discharge. Ecchymosis. Emaciation. **Epilepsy.** Eye, disorders. Gland disorders. Headaches. Herpes. Hiccoughs. **Idiocy.** Infantile, paralysis. Insomnia. **Malnutrition.** **Marasmus.** Mental, retardation. Mental, retardation. **Milk, allergy. Pyloric, stenosis.** Stomach disorders. Trismus. **Vomiting, projectile.**

HOMEOPATHIC-Aethusacynapium affects the brain and nervous system, connected with gastrointestinal

disturbances. Keynote violent action. **Violent vomiting**, violent convulsions, violent pains, violent delirium. In epileptiform spasms, the thumbs are clenched, face becomes red, **eyes turned downwards**, pupils dilate and staring, foams at mouth. There is great weakness of mind or body.

Inability to digest milk (Nat-c.). Diarrhea, with marked **aggravation from drinking milk** and poor circulation.

Improperly fed babies (Calc-p.). Patient cannot stand, sit up or hold the head up. Children who lack the power to hold their heads up with no particular ailment, sometimes they can't even stand or bear any weight on their limbs. Want of power to stand up. Sharp pains. Parts feel screwed together.

Weak, nervous and prostrated from overwork. Prostration with somnolence. Profound prostration and stupor and lack of reaction, even speechless. Anguish, crying and expression of uneasiness and discontent. Useful for children's summer complaints and diseases during dentition.

MIND - Mind and body become weak. Brain fatigue from over study. **Inability to think, to fix the attention**. Awkwardness. Mental, retardation. Attention deficit. Idiotic children. Idiocy may alternate with furor and irritability. Weepy, worse as disease progresses. Stupefaction during vertigo.

Fear before sleep to close eyes lest he should never wake. Examination failure from sense of incapacity. Unable to read after overexertion of mental faculties. **Restlessness, anxious and crying**. Irritability, especially in open air. Irritability during headache.

Feels different from other people. Reserved people with inwardly strong emotions. Feels unconnected to other people. Loners. Great sadness when alone. Lives in his own sentimental world. **Loves animals**, talks to animals, looks after them with unnatural passion.

Delirium, better perspiration. Unconscious, delirious. Fancies herself lost on waking. Hallucinations. Delusions of animals. Delirium, sees cats, dogs and rats. Wants to jump out of bed or out of the window.

Abdomen - Cold internal and external with aching pain in bowels. Colic, exhaustion and drowsiness. Colic, followed by vomiting, vertigo and weakness. Black bluish swelling, coldness of abdomen, subjective and objective with coldness of legs with aching in bowels better warm application. Bubbling sensation around navel.

Back - Small of back as if in vice, aching. Want of power to stand to hold up head. Swelling of glands around neck like string of beads. A feeling as if pain in back could be better by straightening out and bending stiffly backwards.

Chest - Crampy constriction in chest. Stitches in left side of chest.

Constitutions - Suited to infants, teething children and cholera disorders of children and the elderly.

Ears - **Feel blocked**, better by inserting the fingers and drawing the parts apart. Sense of something hot from ears, as if something hot steaming out. Hissing sound.

Eyes - **Eyes drawn downward**, squinting, pupils dilated. Brilliant and protruding. Cornea sunken. Objects seem larger or double. Photophobia, chronic. **Swelling of meibomian glands**. Rolling of eyes on falling asleep.

Face - Sunken, pale, **puffed**, red-spotted, collapsed. Expression anxious, full of pain. **Linea nasalis** marked blue white pallor about the lips, puffed, spotted, red.

Female - Sharp pains in sexual organs. Pimples on external parts, itching on getting warm. Menses watery. Swelling of breasts with sharp pains.

Food - Burning thirst with total loss of appetite. Desires wine, but aggravated from it. **Intolerance of milk**. Nibbling appetite. Regurgitation of food long after eating. Digestion affected from brain exhaustion.

Glands - Lymphatic glands swollen like strings of beads.

Head - Head feels confused. Head or brain feels as if bound up or in a vise. **Occipital pain** extending down spine, better lying down and by pressure. Head symptoms relieved by expelling flatus (Sang.), and by stool. Cannot raise head. **Hair feels pulled**. Squeezing headache with vertigo worse walking and looking upward. Dizzy and drowsy.

Heart - Violent palpitations with vertigo, headache and restlessness. Pulse rapid, hard and small, not rhythmical.

Kidneys - Cutting pain in bladder with frequent urging. Pain in kidneys.

Limbs - Want of power to stand up or hold head up. Weakness of lower limbs. Fingers and thumbs bent inwards or clenched. Numbness of hands and feet. Violent spasms. Sensation as if arms had become much shorter. Heaviness, weakness, contraction of fingers. Excoriation of thighs on walking.

Lungs - Difficult, oppressed, anxious respiration, crampy constriction. Short breath interrupted by hiccup. Suffering renders the patient speechless. Cough causes pain in head.

Male - Right testicle drawn up with pain in kidney.

Modalities - Better in open air. Better from walking in open air. Better by conversation and company. **Worse from milk**. Worse coffee. Worse wine, drunkenness. Worse frequent over eating. Worse from 3 a.m. to 4 a.m. Worse evenings. Worse warmth. Worse summer. Worse warmth of bed. Worse cold water. Worse over

exertion. Heat causes all eruptions to itch intolerably.

Mouth - Dryness. Aphthae in the mouth. Tongue seems too long. Burning and pustules in the throat with difficult swallowing. Speech slow, embarrassed. Speechless. Bitter taste, of onions, cheese, sweetish in morning.

Nose - Nose stopped up with much thick mucus. **Herpetetic eruption** on tip of nose. Frequent ineffectual desire to sneeze. Alae nasi drawn in.

Rectum - Cholera infantum, child cold, clammy, stupid with staring eyes and dilated pupils. Cholera disorders in old age. **Undigested, thin, greenish stools.** preceded by colic with tenesmus followed by exhaustion and drowsiness. Yellow, green, slimy diarrhea. Obstinate constipation, feels as if all bowel action is lost.

Skin - Excoriation of thighs when walking. Easy perspiration, **surface of body covered with clammy sweat. Lymphatic glands swollen. Itching eruption around joints** better from heat. Skin of hands dry and shrunken. Ecchymosis. Anasarca. Whole body may be blue, black.

Sleep - Disturbed by **violent startings** or cold perspiration. Dozing after vomiting or stool. Child is so exhausted, it falls asleep at once. Rolling of the eyes or slight convulsion on falling asleep. **Limpness and deep sleep after vomiting, with a deathly nausea.**

Stomach - **Intolerance of milk**, vomiting as soon as swallowed or in large curds.

Hungry after vomiting. **Regurgitation, about an half hour after eating.** Nausea at sight of food. Painful contraction of stomach. **Violent vomiting** of a white frothy matter. **Projectile vomiting.** Vomiting of frothy matter white as milk or yellow fluid. **Pyloric stenosis.** Retching. Vomiting **with sweat and great weakness**, accompanied by anguish and distress, followed by sleepiness. Stomach feels turned upside down with burning feeling up to the chest. Tearing pains in the stomach extending to esophagus.

Temperature - **Great heat, no thirst.** Profuse, cold sweat. **Must be covered during sweat.** Sweating, on slightest physical effort.

Throat - Sensation of constriction, preventing swallowing. Stinging in the throat. Soft palate red, swollen. Pungent heat in mouth and throat.

Vertigo - Vertigo, with sleepiness, can't raise the head. **Vertigo with drowsiness with palpitation, head hot after vertigo ceases.**

COMMENTS - Ingesting Aethusa plant matter causes severe projectile vomiting. There is also gripping with diarrhea, vomiting, crying. Guernsey said Aeth. is invaluable for adults who complain of regurgitation of food an hour after it has been taken.

Copious vomiting in adults with a great feeling of distress, can't tell what the distress is about, but it still exists. A peculiar expression of great anxiety and pain. Linea nasalis, a surface of pearly whiteness on upper lip bounded by distinct lines from wings of nose to angles of mouth.

Inability to hold down any food. Severe spasmodic vomiting. Malassimilation. Also for vomiting during pregnancy that's very spasmodic and projectile. Good for projectile vomiting, pyloric stenosis, failure to thrive in children.

Keynote intolerance to milk in any form. Milk allergies in children with vomiting and spasm (Nat-c., has gas, bloating and diarrhea). Vomiting of everything taken, especially milk, which is ejected in yellowish or greenish curds. Great weakness and exhaustion after vomiting, the child is so

exhausted they fall asleep at once. Wakes hungry, eats and vomits again. "Hungry after vomiting."

Epilepsy in children with emaciation, mal-assimilation and failure to thrive. Epileptic spasms (Cup.), the thumbs are clenched, the head is drawn back and the eyes go down. Epilepsy with foaming, pupils fixed and dilated. Prostration and sleepiness after attacks. Convulsions with cold limbs.

Sensation of swelling in the head and face on entering a room, sunken cornea, and eyeballs convulsed and directed downwards. Sensation of swelling in hands after walking. Lancinating pains. Swelling of breast or axillary glands with sharp pains. Prostration, stupid.

Tetanus. Alcoholism, with tremors, shaking, malassimilation and emaciation. Late learning to walk. Backward children with muscle weakness, stumbling, falling, late speech. Poor mental and brain development and coordination.

Characteristic inability to think or fix the attention. Stupor, in some cases alternating with a furor. Hallucinations. Delirium, sees cats and dogs. Wants to jump out of bed or out of the window. Irritability, especially in open air. Somnolence.

Clarke sent single doses of Aeth., at rare intervals with great relief, to a little child in an orphan home who suffered from severe headaches and inability to fix his attention on his lessons. The little boy asked for the remedy himself subsequently on a return of the old symptoms.

Clarke gave it to an undergraduate preparing for an examination with complete success. He had been compelled to give up his studies, but was able to resume them and passed a brilliant examination.

Guernsey said "The mental symptoms peculiar to children and frequently of adults, are, great anguish and crying. As the disease progresses the patient becomes more and more retired in his disposition and more inclined to weep."

RELATIONS - Compare: (1) Ant-c., Calc., Ars., Cic. (2) Athamantha - confused head, vertigo better lying down, bitter taste and saliva. Hands and feet icy cold. (3) Cic., Con., Oena., Ant-c. and Calc. - vomiting of milk. (4) Are., Asar., Cupr., Ip., Op. **Complementary:** Calc., Sil. **It antidotes:** Opium, and is antidoted by vegetable acids. Teste places Aeth. in the Sulphur group with Cic., Con., Aster., Bov., Lob., Merc., Kreos.

REFERENCES - Boericke. Clarke. Phatak.

***AGARICINUM

(Agaric Acid)

PHARMACY - Agarin. Agaricinum. Agaric acid. It is obtained from the fungus Boletus laricis (White Agaric) and is a white crystalline powder. Triturations and dilutions. **Historical dose:** All potencies.

CLINICAL-Cataracts.**Chorea.** Emphysema. Erythema. Heart, weakness. Neuralgias. **Neuritis.** Tic douloureux.

HOMEOPATHIC - This remedy is employed in severe cases of **chorea**. Useful for the sweats of tuberculosis, it should be given before retiring. The dose may be repeated once or twice during the night.

Heart dilation, when complicated with emphysema. Fatty degeneration. Weakened heart action from acute diseases and old age, when attended with profuse perspiration and erythema.

Agaricin should be studied when the symptoms are crossed over the body. **Chorea.** There is marked twitching of the eyelids, spasmodic movements from simple involuntary motions and jerks of single muscles to a dancing of the whole body.

Trembling of the limbs, soreness of the spine and redness of the eyes. Involuntary movements cease during sleep, symptoms are worse during a thunderstorm.

Neuritis. The parts are red, hot and swollen. There are burning, itching and cramps of the hands and feet. There is twitching of the muscles of the hands and feet. The sleep is restless and disturbed.

COMMENTS - Royal reported that the 3x of Agarin. given three times daily cured a most violent case of Tic douloureux of the left side of face after Ars., Mag-p. and Bell, had failed. A slight touch would cause the paroxysms to recur.

RELATIONS - Compare: (1) Agar.

REFERENCES - Blackwood.

***AGARICUS BLAZEIMURILL

(Brazil Mushroom)

PHARMACY - agar-b-m. Agaricus blazei murill. Brazil mushroom. Tincture of fresh fungus. Also used as a powder and food. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. Angina pectoris. Asthma. Athlete's, foot. Atopic, dermatitis. Breast cancer. Bronchitis. **Cancer.** Colds. Constipation. Cystitis. Dermatitis. Eczema. Hay fever. Heart, disorders. Hemorrhoids. **Immune, weakness.** Infections. Influenza. Insomnia. Kidney, disorders. Leukemia. Lymphoma. Psoriasis. Prostate, enlargement. Raynaud's disease. Rhinitis. Septicemia. Skin, cancer.

HERBAL - An agaricus mushroom found in the highlands of Piedade, Brazil. The inhabitants in Piedade enjoy long and good health with very few degenerative disease. The people there rarely suffer from cancer, heart disease, stroke, diabetes, arthritis, allergies, asthma, eczema, ulcers, etc.

In the 1960s, a Japanese descendant living in Brazil visited Piedade and made the observation that the people there eat a special kind of mushroom which is not found anywhere else. He sent samples of the mushroom to Japan for study and cultivation.

About the same time, two scientists from America also visited Piedade and made a similar observation. They proceeded to analyze the nutritional content of the Brazilian mushroom and published the results in scientific journals in 1965.

Experiments showed that not only the Agaricus mushroom is an effective cancer fighter, but also that it is the best cancer fighter among all the medicinal mushrooms known. The mushrooms fight cancer by enhancing the body's own immune system rather than directly trying to kill off the cancer cells. It is therefore as safe as any food substance can be.

Subsequent studies showed that the Agaricus mushroom has a powerful normalizing effect of all body physiological functions.

That is why that clinically it has been effective against many health problems afflicting mankind.

Blood - Raynaud's disease. Septicemia.

Cancer - Breast cancer. Hodgkin's lymphoma. Leukemia. Lymphatic cancer. Ovarian cancer. Skin cancer.
Heart - Angina pectoris. Heart tonic. High blood pressure, and low blood pressure. Hardening of the arteries.
Kidneys - Kidney infection. Kidney failure.
Lungs - Chronic bronchitis. Hay fever, allergic rhinitis, and asthma.
Rectum - Constipation and hemorrhoids.
Skin - Athlete foot. Eczema. Atopic dermatitis. Psoriasis. Skin cancer.
Sleep - Insomnia.

COMMENTS - Dr. Alexander Yuan of Hong Kong reported on this agaricus mushroom noting its usefulness for blood purification, cold hands and feet, frozen shoulder, hangovers. Neck and shoulder pain and low back pain.

Chronic debility. Collagen disease. German measles. Frequent colds and influenza, lack of energy. Insomnia, weak concentration. Pale, sallow complexion. Hyperactivity and improved athletic performance, among other benefits.

RELATIONS - Compare: (1) Care.

REFERENCES - Murphy. Yuan.

*****AGARICUS CAMPANULATUS**

PHARMACY-agar-epn. - Agaricus campanu- latus. Agaricus ovalis. A rare species, found in England on dung. N. O. Fungi. **Historical dose:** All potencies.

CLINICAL - Asthenopia. Backaches. Belching. Constipation. Delirium. Diarrhea. Flatulence. Hemorrhoids. Jaundice. Neuralgias. Palpitations. Spasms. Toothache. Trembling. Twitching. Vertigo. Vomiting.

HOMEOPATHIC - Poisonous doses produce violent vomiting and diarrhea with numerous nervous phenomena, tonic contractions of smooth muscle fiber, increased glandular and mucus secretions, and persistent anemia of nerve centers from spasm of arterioles.

Chorea-like spasms. Vertigo and general intolerance of the sun. Heavy weight in occiput. A very irritable and sensitive spine. Asthenopia with flickerings. Twitching of eyes and lids.

Gastro-enteric inflammation, with excessive, inodorous flatulence. Irritable bladder. A host of neuralgic pains everywhere, mostly splinter-like, burning and shooting. Particularly valuable in burning of the skin as from a frostbite, especially on the ears and feet.

Chorea-like twitchings of various fibrillae and even groups of muscles. Tremblings, external and internal. Flesh feels bruised, or as if frostbitten, sensitive to touch and to cold air.

General aggravation from walking in the open air. ameliorated when warm in bed. Pains in the limbs may disappear on motion, and return during rest. Symptoms often appear crosswise, as in right arm and left leg, etc. Shooting, splinter-like pains everywhere.

MIND - Delirium, attempts to escape. Incoherent talking. Aversion to mental work. Confusion and vertigo, aggravated by heat of sun.

Abdomen - Flatulent distention, rumblings, cutting, griping, stitches, and tension.

Back - Stiffness and soreness of nape. Backaches. Bruised and strained feelings. Deep stitches, burning, itching along spine and limbs. Spine sore to the touch and on stooping. Extreme pain and soreness in lower dorsal regions, becoming a pulsating on motion. Severe pains in the spine, boring, stitching, drawing, and soreness, mostly in lower dorsal region. Back pains, aggravated by walking in open air.

Bladder - Irritable bladder. Sharp pains. Burning on urinating. Not profuse urine. Lemon-colored urine, discharge of sticky mucus.

Chest - Numerous pains, tearing, pinching, tensive, stinging, burning. Constriction, oppression, heaviness. Rawness.

Ears - External ear burns and itches, as if it had been frozen. Twitchings of the auricular muscles. Numerous ringing and other noises within the ear.

Eyes - Twitching of lids and eyeballs. Margins of lids red, agglutinating. Vision dim on attempting to use the eyes. Flickering, type wavers, with itching and burning.

Face - Pale. Twitching of the muscles. Pains lancinating, tearing in the cheek.

Female - Violent pressing, tearing pains in back and abdomen with the menses. Pruritus pudendi.

Head - Drawing in bones of forehead, to the root of the nose. Shooting pains, mostly in the sides of the head or in small spots. Feeling of icy coldness on the head.

Heart - Palpitations. Tumultuous action. Irregular, intermittent pulse, ameliorated by coffee.

Limbs - Limbs weary and heavy. Trembling. Twitching. Shooting pains, shifting. Pains often ameliorated by motion.

Male - Sexual desire without erections.

Modalities - Better by motion. Better by coffee. Worse by walking in open air. Worse from heat of the sun.

Mouth - Dryness on salivation. Sweet taste. Toothache, neuralgic, aggravated by open air. Splinter-like pains in the tongue. Splinter-like pains through the jaws. Upper lip chapped, smarting, dry, with burning vesicles. Lips twitch.

Nose - Clear water runs from the nose, without inflammatory symptoms.

Perspiration - Profuse inodorous sweat, often localized to the chest. Oily sweat.

Rectum - Burning. Hemorrhoids.

Respiratory - Convulsive paroxysms of cough, sudden, ends with repeated sneezing. Expectoration of balls of mucus. Difficult respiration as if chest were full. Deep breathing and sighing. Noisy respiration at night.

Skin - Jaundice. Redness, stinging, burning as if frostbitten. Itching. White nodular elevations, with intense itching and burning.

Sleep - General sleepiness, especially after eating.

Stomach - Unnatural hunger, in evenings. Belching, empty. Numerous sensations with spasmodic contractions, irritable spine. Pains, gnawings, boring, cramps, and fullness.

Stool - Emission of much inodorous gas. Watery diarrhea. Constipation.

Temperature - Chilliness on motion, in the air, or on lifting the clothes. Burning heat on different spots, mostly local.

Throat - Constriction of larynx. Sharp pain extends through right eustachian tube to ear. General dryness. Contractions. Feels swollen externally, hands feel tight.

Vertigo - Vertigo, aggravated by heat of sun.

RELATIONS - Compare: Agar. Agar-cps., Agar-em., Agar-ph., Agar-st., Amanita verna.

REFERENCES - Allen.

***AGARICUS CAMPESTRIS

(Common Mushroom)

PHARMACY - agar-cps. Agaricus campestris. Common mushroom. Psalloita campestris. N. O. Fungi.

Historical dose: All potencies.

CLINICAL - Abdominal pain. Abscesses. Boils. Cold. Colic. Cramps. Delirium. Dyspnea. Fever. Gangrene. Inflammatory swellings. Nausea. Pulse, weak. Quinsies. Vomiting.

HOMEOPATHIC - Agaricus campestris is the common mushroom. This mushroom, common in the North America and in Europe, is esculent, stem only two to three inches high.

COMMENTS - Poisoning symptoms. Slight delirium. Eyes sunken, with livid circles. Face humid, hippocratic. Tongue red and parched. Skin cold, covered with cold sweat. Greenness of the skin. Formation of abscesses, which discharge a thin, ill-conditioned pus, and pass rapidly into suppuration and gangrene.

Abdomen retracted. Great abdominal pain at intervals. Severe colic. Nausea. Purging and vomiting of liquid matter.

Pulse hard, weak, rapid, irregular. Pulse feeble. Respiration irregular. Severe cramps. Kind of tertian fever. Somnolency.

RELATIONS - Compare: Agar. Agar-cpn., Agar-em., Agar-ph., Agar-st., Amanita verna.

REFERENCES - Allen.

***AGARICUS EMETICUS

PHARMACY - agar-em. Agaricus emeticus. Russula emetica. N. O. Fungi. A small acrid species, found in woods in Europe. Tincture of fresh fungus. **Historical dose:** All potencies.

CLINICAL - Anxiety. Belchings. Cold sweat. Diarrhea. Gastritis. Heartburn. Vertigo. Vomiting. Weakness.

HOMEOPATHIC - The symptoms of Agar-em. resemble those of the other Agarics, but while cold water aggravates the symptoms of Agaricus muscarius it speedily and permanently relieves those of Agar-em. Violent burning pains in the stomach.

There is a sudden and violent **craving for ice-cold water** during the worst attacks of anxiety, which gives gradual relief. **All symptoms better from cold water.** Violent vomiting with anxious sensation, as if the stomach hung on threads which would be momentarily torn in two with ice-cold sweat of face. Gastritis with cold sweat and a vomiting sensation.

Sudden great weakness. Severe vertigo, one must be carried to bed, is not able to sit or stand. Faintness worse by moving head. **Faintness worse by smelling vinegar**, which is unbearable.

MIND - Attacks of anxiety. Anxiety in stomach.

Abdomen - Distended abdomen. Constantly increasing pain in abdomen.

Eyes - Lachrymation from odors. Lasting weakness of eyes.

Food - Sudden, violent **desire for ice-cold water**, during the worst attacks of anxiety, which gives gradual relief. Dislike for wine and meat, relieve by cold water.

Modalities - **Better from cold water**. Worse from odors. **Worse by smelling vinegar**.

Mouth - Nauseous taste in mouth. Sharp burning in mouth.

Nose - Sneezing from smells.

Pulse - Pulse rapid, exceedingly weak.

Stomach - Violent vomiting with anxious sensation, with ice-cold sweat of face. Violent burning pain in stomach. Painful pressure in stomach, followed by frequent belchings, repeated attempts to vomit. Constantly increasing anxiety in stomach. Stomach so sensitive that one could not touch it, nor cough.

Vertigo - Vertigo, so severe that one must be carried to bed is not able to sit or stand.

RELATIONS - **Compare:** Agar. Agar-cpn., Agar-cps., Agar-pa., Agar-ph., Agar-st., Amanita verna.

REFERENCES - Allen. Boericke. Clarke.

***AGARICUS MUSCARIUS

(Fly Agaric)

PHARMACY - agar. Agaricus muscarius. Fly agaric. Amanita muscaria. Bug agaric. Champignon fou. N. O. Fungi. Grows in Europe, Asia and America in dry places, especially in dry pine woods. Trituration of the carefully dried-up cap. Tincture of the fresh fungus. **Historical dose:** All potencies.

CLINICAL - Acne rosacea. **Alcoholism**. Blepharospasm. Brain, softening. Bunion. **Chilblains**. Chorea. Coldness. Cough. Cramps. **Delirium tremens**. Epilepsy. Fever, enteric. **Frostbite**. **Gangrene**. Headaches. Hyperpyrexia. Hypothermia. Itching. Jaundice. Lachrymal, fistula. Lichen. Lumbago. Menses, painful. Meningitis. Myopia. Neuralgias. **Nosebleeds**. Numbness. Nystagmus. Paralysis. Rheumatism. Sacrum, pains. Sebaceous tumors. Sexual excess, effects. Spinal, Irritation. Spleen, disorders. Tics. Toothaches. Tremors. Tuberculosis. **Twitching**. Typhoid fever. Typhus.

HOMEOPATHIC - Agaricus contains several toxic compounds, the best known of which is muscarin. The symptoms of poisoning do not develop at once, usually twelve to fourteen hours elapse before the initial attack. Agaricus acts as an intoxicant to the brain, producing more vertigo and delirium than alcohol, followed by profound sleep with lowered reflexes.

Agaricus is used in many parts of the world for making an intoxicating drink. We find in **alcoholism** a sphere for its action and also in all states of delirium, mania and even idiocy. Cerebral excitement, as found in delirium of fevers, alcoholism, etc. The delirium is to make verses and prophesy, also silly merriness and incoherent talk with mania, kisses companions.

Frostbite and chilblains, itching, redness and burning. Bunions. **Sensations if pierced by needles of ice**. Sensitive to pressure and cold air. **Violent bearing down pains**. Symptoms appear diagonally as **right arm and left leg**. Pains are accompanied by sensation of cold, numbness and tingling.

General paralysis. Jerking, **twitching**, trembling and itching are strong indications. Epilepsy with great exertion of strength. Chorea, **twitching ceases during sleep**. Various forms of neuralgia and spasmodic disorders and neurotic skin troubles are pictured in the symptomatology of this remedy.

Agar, is a spleen medicine, causing stitch in the side and it has cured stitch in runners, enabling them to run further. Anemia. Incipient tuberculosis is related to the tubercular diathesis. Offensive breath, belchings and stools. Sweat may be oily, but is not offensive.

MIND - Mental depression, languor, indifference. Disinclination to work, confusion. Indisposed to perform any kind of work especially mental. Cannot do anything new, cannot do routine work, or does the opposite. Slow in learning to walk and talk. Awkward and clumsy.

Morose, self-willed, stubborn. Selfish behavior. **Alcoholism**. Dull and dizzy as if drunk. **Delirium tremens**. Reveals secrets. Pressure on spine causes involuntary laughter. Aversion to being touched.

Hyperactive, clumsy children without any fear or idea about danger. Fearlessness, recklessness and thoughtlessness. Convulsions after being scolded (Ign.).

Makes many revengeful plans. Confusion of mind on waking in morning, better after eating. Knows no one, throws things.

Hysteria after sexual excesses. Memory active, in evening.

Fears to be left alone lest he injure himself **inafrenzy**. **Fear of cancer**. Preoccupied with death, dying, graveyards. Fear of ghosts. Fear after going to bed. Pities herself.

Delirium of fevers. Delirium characterized by makes verses, singing, shouting and muttering, rhymes and prophesies. **Increased cheerfulness, courage, loquacity, exalted fancy**. Hilarious. Embraces and kisses hands.

Delirium with much twitching. **Fearlessness**. Sings, talks incoherently, but does not answer. **Loquacity**,

changes rapidly from subject to subject, but does not answer.

Great mental excitement and incoherent talking, immoderate gaiety alternates with melancholy. Perception of relative size of objects is lost. Physical strength is increased, can lift heavy loads. Delirium begins with paroxysm of yawning.

Sings, talks incoherently, changes rapidly from subject to subject, but doesn't answer. **Full of ecstasy.** Furious or raging delirium. Screaming, raving, wants to injure himself.

Abdomen - Burning in abdomen. Flatulent distention of abdomen. Sharp pains in **spleen** (Cean.), and abdomen. Sharp pain in the splenic region in runners. Colic. Cutting, griping pains in bowels. Rumbling and fermenting in bowels. Profuse, inodorous, hot flatus. Sensation of writhing. Abdomen as if empty, hollow or cold.

Back - Painful weakness and soreness. Shooting, burning pains along spine. **Pain with sensitiveness of spine to touch**, worse in dorsal region. Aching in back after dinner. Burning pains along the spinal cord. **Pain as if hot and cold needles stabbed into spine.** Painfulness along spinal cord when stooping. Painful pulsation in spinal canal. Lumbago, worse in open air. Crick in back and neck. **Twitching of cervical muscles.** Spine seems short. Muscles of back feel tight, as if they would break on bending. As if cold air were spreading along back. As if cold water were running down back. **Spinal irritation, due to**

Agaricus muscarius sexual excesses. Sacrum as if beaten or dislocated. Swelling of cervical glands.

Breasts - Metastases from suppressed milk to the brain, abdominal troubles etc. Nipples, itch and burn, look red during pregnancy.

Causations - Blood poisoning. **Frostbite.** Mental exertion or excitement, over-exertion. Fright. **Alcoholism**, sexual excess, subjective symptoms arising after sex.

Chest - Anxiety in chest. Stitches under short ribs, left side. Sharp pain behind sternum most at end of expiration. Sharp pain in right lung while walking. Severe burning in chest. Chest as if too narrow. Chest as if too full of blood. Chest as if sprained, worse deep breathing. Burning, biting pimples on chest.

Constitutions - Light hair, skin and muscles lax. Old people with indolent circulation. Venous weakness. Diarrhea. Alcoholics, especially with headaches. Mushrooms are forbidden by Grauvogl to persons with the **hydrogenoid constitution.** The patients are exceedingly sensitive to cold and damp.

Cough - Cough with rattling of mucus, without expectoration. Dry cough after dinner. **Cough ends in a sneeze.** Spasmodic coughing at night after falling asleep. **Cough with expectoration of little balls of mucus.** Has to sit up in bed, or cough takes his breath. Has to sit down when cough comes. Violent attacks of coughing that can be suppressed by effort of will, worse eating, pain in head while cough lasts. Convulsive, hacking cough, with anxious sweat.

Ears - Itching in the ears with redness and burning pain, as if they had been frozen. Twitching of the muscles about the ears with noises. Rattling, fluttering in tympanic cavity. Sharp pains in left mastoid process. Excessive secretion of wax. Very acute hearing. Feels worse from hearing people talk. Dull hearing.

Eyes - Eyes as if weak, without having exerted them. Asthenopia from prolonged strain. **Spasms** of accommodation. **Twitching of eyelids and eyeballs** (Cod.). Oscillating eyeballs. Heat in eyes. Lids heavy, as if stuck together. Eyelids thick, dry, burning red, itch and agglutinate. Inner angles very red. Gum in canthi. Narrowing of space between eyelids. Nystagmus, squint. Swelling of tear gland. Vesicles or ulcers on cornea. Lachrymation from smells or coughing. Sensitive to light, even candlelight. Pupils dilated.

Face - Face, blue and puffed. Grimaces. Idiotic expression. **Facial twitching.** Muscles feel stiff. Face itches and burns. Lancinating, tearing pain in cheeks, as of splinters. **Neuralgia, as if cold needles** ran through nerves or sharp ice touched them. Pricking in chin, as from needles. Herpetic eruptions. Pimples changing to vesicles filled with yellow serum. Burning and smarting on lips. Faceache with toothache. Jaws clenched. Eruption about mouth in growing children given to licking of lips.

Female - Spasmodic dysmenorrhea. Laborlike cramps, must lie down. Menses too profuse, earlier. Menses with titillation in genital organs and desire for sex. Tearing, pressive pain in genitals and back, with itching. **Severe bearing-down pains, especially after menopause.** Bearing down pains on lifting. Leucorrhea, dark, bloody, excoriating, patient is unable to walk. Leucorrhea, with much itching, with sexual desire. Complaints following childbirth and sex. Itching, with sexual desire. Sexual excitement.

Food - Loss of appetite after sex. Thirsty all the time. Much hunger, but no relish for food. Better from coffee. Better for an hour after eating while he is so exhausted, but great sleepiness **remains. Alcoholism.** Craving for alcohol. Worse after tobacco. Worse tea and coffee. Wine causes indisposition to work. Coffee accelerates pulse. Meat causes heartburn. Prunes causes pressure in stomach. Smelling vinegar causes faintness. Smell of vinegar unbearable. Drinking cold water aggravates.

Head - Head in constant motion. **Headache must move head to and fro.** Falling backward, as if a weight in occiput. Lateral headache, as if from a nail (Coff., Ign'). Dull headache from prolonged deskwork.

Headache, must move the head to and fro. **Headache with nosebleed.** Headache with thick mucus discharge. Headache better after stool or urination. Headaches of alcoholics. Aching in vertex. Head drawn towards shoulders. **Pain in small spots.** Cold spots on head. **Icy coldness like icy needles or splinters.** Sharp, tearing, aching and boring pain in occiput. Neuralgia with icy cold head. Desire to cover head warmly (Sil.). Twitching and stitches, more on left side. Scalp tender, sensitive. Itching nettle-rash on scalp.

Heart - Anxious sensation of pressure in heart. Irritable heart of tea and coffee drinkers, and tobacco smokers. **Irregular, tumultuous palpitations** after tobacco. Heart region oppressed, as if thorax were narrowed. Oppression on bending body down. Palpitations with redness of face. Palpitations during sex and depressed afterwards in both the sexes. Pulse intermittent and irregular.

Kidneys - Lameness in left kidney, sore to touch. Stitches in urethra. Stitches and burning while urinating. Sudden and violent urging to urinate. Frequent urination. Viscid, glutinous, mucus from urethra. Urine, flows slowly or in drops, has to press for passing urine. Urine, cold, profuse, colorless, clear, lemon colored. As if a cold drop of urine were passing. Urine scanty and dark.

Limbs - Stiff all over. Pain over hips. Rheumatism better motion. Weakness in loins. Uncertain gait. **Frostbite.** Hands and feet very sensitive to cold. **Itching of toes and feet as if frozen.** Cramps in hands and feet. Cramp in soles of feet. Joints feel as if dislocated. Pain in shin. Neuralgia in locomotor ataxia. Muscular soreness. Paralysis of lower limbs with spasmodic condition of arms. **Trembling and twitching.** Numbness of legs on crossing them. Paralytic pain in left arm followed by palpitations. Tearing painful contractions in the calves. Rheumatism better motion.

Liver - Sharp pains in liver. Cirrhosis. Liver weakness from alcohol.

Lungs - Dyspnea while walking, has to stand still to get breath. Suffocative fits with anxiety and fainting. Labored, oppressed breathing. Difficult, noisy breathing. Frequent deep sighing. Dyspnea with rapid beating of heart. Impeded breathing at night, from closure of nose by thick mucus. Rapid breathing, with heat all over and sweat, most in face. **Easy expectoration offloculi or balls of mucus.** Large brown lumps. Mucus, worse mornings.

Male - Burning in urethra during sex, worse ejaculation. Sexual desire increased. After sex, great debility, profuse sweat, burning and itching of the skin, tension and pressure under ribs. Hot seminal discharge. Premature ejaculation. Testes painfully retracted. Old gleet. Complaints after sexual debauches.

Modalities - Better from moving about slowly. Worse from open air. **Worse cold orfreezing air.** Worse cold weather. Worse before a thunderstorm. Worse sun. Worse morning. Worse after eating. **Worse after sex.** Worse from touch. **Worse debauchery, alcohol.** Worse mental exhaustion. Worse fright. Worse during menses. Worse pressure on dorsal spine.

Mouth - Aphthae on roof of mouth. Herpes on lips. Burning and smarting on lips. Offensive breath. Froth at mouth. Swelling and bleeding gums with pain. Angles of mouth droop from paralysis, saliva runs out. Twitching. Sweet, bitter taste. Taste sweet, sharp and bitter. Increased flow of acrid saliva. Salivation during menses. Thirsty all the time. Indistinct, jerky speech.

Nose - Redness of nose. Nervous nasal disturbances. Hay fever, itching of nasopharynx and ears. **Itching internally and externally.** Spasmodic sneezing after coughing, sensitiveness, watery discharge. Inner angles very red. Fetid, dark, bloody discharge. **Nosebleeds in elderly people.** Frequent sneezing without coryza. Flow of clear water without coryza. Redness. Obstruction on stooping. Sensation of soreness in nose and mouth.

Perspiration - Cold sweat on face, neck, chest. Sweats easily. Sweats on alternate sides. Night sweats. Copious sweat when walking, or from least exertion. Greasy sweat, but not offensive. Sweats from anxious palpitations of heart. Sweats during stool.

Rectum - Crampy colic, with passing wind. Sharp itching in rectum. **Itching,prickling in rectum and anus, as from worms.** Biting in rectum after emission of flatus. Flatus hot. Emission of much inodorous gas. Constipation with rumbling in bowels duringpregnancy. Hemorrhoids. Writhing in rectum. Burning in anus. Warm feeling in anus. Anus as if completely closed. Dysentery.

Skin - Miliary eruptions with severe itching and burning. **Burning, itching, redness and swelling, as if frozen.** Pimples, hard like small fleabites. Chilblains. Angioneurotic edema, rosacea. Swollen veins with cold skin. Circumscribed erythematous, papular and pustular and edematous lesions. Itching changing place on scratching. Itching over affected part. Skin pains, when cold. Miliary eruptions with intolerable itching and burning. Slight blow causes ecchymosis.

Sleep - Sleeplessness from rush of ideas. Restless from violent itching and burning. On falling asleep, **starts, twitches and awakens often.** Drowsy in daytime. Unpleasant dreams awaking from sleep. **Paroxysms of yawning.** Frequent yawning before pains or spasms as a concomitant. Yawning followed by involuntary laughter. Vivid dreams. Anxiety as if suffocating in dreams. Nightmares of dead people and graveyards.

Stomach - Empty belchings, tasting of apples. Flatulent distention of stomach. Profuse inodorous belchings. Eructation, empty, tasting of apples or of rotten eggs. Belchings and hiccoughs. Eructations alternating with hiccough. Burning in stomach about three hours after a meal, changing into a dull pressure. **Gastric disturbance with sharp pains in liver region.** Nervous disturbances with spasmodic contractions, hiccough.

As if a

lump in epigastrium. Vomiting, bitter with prostration with stitches in rectum and groin.

Stools - Fetid stools. Pappy stools with cutting in abdomen and passing of wind. Very hard stools, at first hard and knotty, then soft, finally diarrheic. Diarrhea with much fetid, garlicky odor flatus. Diarrhea of children with grass green, bilious stools. Diarrhea, morning after rising.

Teeth - Teeth sensitive to touch, pressure, or while chewing. Teeth as if too long. Tearing pain, pulsating, worse cold air. Shooting pain from right upper teeth up to right side of head. Teeth worse, when abdomen gets better. Toothache at beginning of menses and during. Swelling and bleeding gums, with pain.

Temperature - Chills or sweats easily. Chills with warm face, hands and feet. Very sensitive to cool air. Chilliness in open air, strikes through whole body. Shiverings over body, running from above downward. Goosebumps. Violent attacks of fever in evening. Burning spots.

Throat - Stitches along eustachian tube to ear. Feels contracted. Small solid balls of phlegm thrown up. Dryness of pharynx, swallowing difficult. Scratching in throat, cannot sing a note. Burning, cooling feeling. Pressure as from a foreign body sticking in throat, not better swallowing. Dryness and constriction of pharynx. Induration of tonsils and other glands.

Tongue-Tremulous tongue (Lach.). Tongue coated white. Tongue dry, one side numb with vertigo. Tongue as if dry and contracted, as after an astringent. Splinter like pains in tongue with salivation. Sharp pain, soreness or burning at tip of tongue. Bad taste at root of tongue. Tip of tongue studded with small dirty yellow aphthae.

Vertigo - Vertigo in morning. **Vertigo from sunlight.** Vertigo from heat of sun. Vertigo with palpitations. Vertigo on walking. Vertigo reeling as if drunk. Vertigo with tendency to fall forward. Vertigo with stupefaction and burning in vertex. Vertigo after menses. Vertigo from yawning.

Vision - Double vision (Gels.). Dim and flickering vision. Flickering vision while

writing. Shortsighted. **Reading difficult, as type seems to move to swim.** Focal distance changes while reading. Dim vision as from a mist. Vibrating specters. Muscae volitantes, brown. Yellow, brown or black spots before left eye.

COMMENTS - Mushrooms are among the articles of diet forbidden to persons of the hydrogenoid constitution, in which the patients are exceedingly sensitive to cold and damp. Agreeing with this, in the provings of Agaricus is a great sensitiveness to cold air. In skin disorders and brain exhaustions, give the lower potencies. A left-sided remedy.

Talcott considered Agar, the most similar to general paralysis of all the remedies, with exalted notions of grandeur and power, hilarity and excitement followed by depression, confusion, imbecility.

Ludicrous behavior, poor perception. Causes delirium, mania and idiocy. Very talkative and loquacious, and tend to be alcoholics (Lach.). Creative, tendency to poetry, prophesy. Incoherent speech. Silly, may have a confused mind, can't think. States of ecstasy and trance. Wants to kiss and embrace everyone (Hyos.).

Mania with great displays of strength. Confusion in the brain as if semi-intoxicated. Tendency to use alcohol or drugs, spaced out, low energy. Disintegrated personality. Severe mood changes, irritability. May alternate between two states, one of being silly, foolish and manic and the other being depressed, sad and indifferent and the states may alternate.

Worse in the morning and during the daytime. Spacey, awkward. Dull, stupid, poor memory. Can't function during the day, relieved at night. Energy in the evening, they become more fluent, increased intellect. Worse mental exertion in general.

Marked and persistent vertigo with constant impulse to fall backward. Very sleepy after meals. Twitching about eyes and face, redness without heat, puffy and distorted. Visual defects along with twitches, may have blurring vision or twitching in the left eye.

Facial twitches, trigeminal neuralgias, tic douloureux.

Spasmodic twitchings throughout body, followed by tremulousness, finally relaxation and exhaustion. Don't twitch during sleep. Drops things. Hands fly open uncontrollably. Arm may snap or twitch without their knowing it (Nux-v.).

Muscular jerking and twitching, good for chorea. Spinal problems associated with twitching or brain problems associated with a retarded mind. Spasms and twitches due to spinal disease, arthritis or injury to the spine. Twitchings are especially marked in the eyes, eyelids and facial muscles. Blepharospasm and tic convulsif.

Awkward people. Ankylosing spondylitis. Spine is as stiff as a board, as if spine would break (Tub., Rhus-t., Nat-m.). Severe arthritis of the spine. Shooting, burning pains in the spinal cord, as if the whole spine is on

fire. Tingling deep in the spine. As if hot or cold needles are being stuck in the spine. For cold spots along the spine or very tender places that cannot be touched.

Numbness of the extremities from some spinal problems. Pain in the sacrum followed by general paralysis symptoms, numbness in the limbs. Burning up and down the spine (Phos.). Back and neck feel dislocated, or for slipped discs with severe pain (Bry., Rhus-t.). Formication of the skin as if bugs are crawling under the skin (Cocain.).

Symptoms in extremities are as if the blood was cut off to the feet or hands, severe numbness, tingling, biting, burning of the extremities, as if they are on fire. Spasms and then burning pain and numbness in their legs, intermittent claudication. Better moving, worse rest. Burning cold, numb, twitching. Awkward walk.

Feet feel so cold as if they are frozen, like blocks of ice. Frostbite. Ailments since frostbite or sensation as if frozen. Poor circulation where the hands and feet turn blue, then burn as if on fire. Chilblains, loss of blood to the extremities. Spasms in the arteries and cuts off the blood. Chilblains, worse heat. Creeping, crawling sensations, formication, itching.

Peripheral vascular disease when the blood vessels in the extremities have deteriorated to the threat of gangrene.

Compromised blood flow. Typhoid states. Epilepsy. Brain disorders and fever with rolling of the head.

Pain as if touched or pierced by needles of ice is very characteristic.

Diagonal symptoms, right side and left forearm (Lac-c.). Electric-like shocks with jerking, spasms and twitching, painful. For bone aches as if they would break.

Peculiar headaches, "throbbing headache with sensation of stiffness of muscles of face. Dull, drawing headache in the morning, extending into root of nose with nosebleed or thick mucus discharge. Pain as from a nail in right side of head." Face feels stiff with the headache.

Chilly remedy, worse cold weather, cold air, drinking cold water. They can also have sun headaches (Nat-m.). Worse from storms. Better in the evening, better warmth and better motion.

Ravenous appetite with bolting of food. Desire for eggs, sweets and salt. Used for sudden, morning diarrhea that smells like sulphur (Aloe, Sulph., Rumx.). For diarrhea in children that is grass green (Cham.).

Worse after sex (Ph-ac., Sil.), may have more pains and twitches. Sexual desire enormous and enthusiastic with relaxed penis and impotence.

Bearing down pains in the pelvis as if everything will come with acrid, vaginal discharge with itching of the vagina. Also for spasmodic chronic hiccups (Nux-v.) and herpes on the lips that burn and smart. The nervous patients requiring Agar, pass little urine (opp. Ign.), though the bladder may be irritable.

Clinical for alcoholism, intoxication, hangovers, DTs, the shakes. Worse alcoholic or for "old drunks", spasms, twitches or convulsions, frothing at the mouth with arching of the back (Nux-v.). Muscle quivers and delirium tremors. Disordered speech in alcoholics. Lost continuity of speech.

Children with retarded development. Late learning to walk and talk. For children who have slow minds or mental retardation. Fainting and twitching of children.

Or twitches and spasms ever since puberty or a shock. Excitement brings on twitches and spasms. Uncoordinated children, they stumble, fall, and drop things. It's hard for them to learn.

Very anxious about their health. Fear of cancer (Ars. Nit-ac., Phos. Kali-ar.). Preoccupation with spookiness, fear of ghosts. Talk and dream about the dead, are obsessed with coffins.

RELATIONS - Agar, stands between Stram. and Lach. **Antidote:** Absin., Coff., Camph. **Compare:** (1) Agar-cpn., Agar-cps., Agar-em., Agar-pa., Agar-ph., Agar-st., Amanita verna. (2) Muscarine, Atropia exactly opposes Muscarine, resembles Pilocarpine in action. (3) Tamus - chilblains and freckles. (4) Cimic., Cann-i., Hyos., Tarant-h. (5) Bov., Stict, Act-r., Cann-i., Op., Stram. - alcoholism, chorea. (6) Coff. - ecstasy. (7) Cic. - spasm of eyes. (8) Cod. - spasm of the eyelids. Mygal., Tarent., Verat. - icy-cold feeling in head. (9) Ars. - hot needles, Agar, ice-cold needles.

***AGARICUS PANTHERINUS

(Spotted Amanita)

PHARMACY - agar-pa. Agaricus pantherinus. Spotted amanita. N. O. Fungi. **Historical dose:** All potencies.

CLINICAL - Coma. Convulsion. Delirium. Diarrhea. Fatigue. Mania. Spasms. Trembling. Twitchings. Vertigo.

HOMEOPATHIC - Agaricus pantherinus is a brownish species (not reddish, like Agaricus muscarius), found in woods or pastures in England and in the United States, not considered poisonous.

General **overpowering sense of fatigue**. Extreme lassitude and torpor. Problems coordinating muscular movements. Convulsive movements. Loss of power. Monosyllabic answers, with annoyance. Vertigo. Loss of consciousness. Violent general spasms. Violent convulsive twitchings of the muscles of the face and limbs.

Restless tossing about. **MIND** - Delirium. Maniacal disposition to rave.

State of consciousness resembling coma. Loss of memory.

Eyes - Eyes partly open. Conjunctiva injected. Red eyes.

Face - Face congested.

Food - Some loss of appetite.

Head - Great heaviness of the head. Heat in the head.

Limbs - Trembling of the hands.

Lungs - Respiration stertorous and irregular. After a few deep inspirations the respirations became weaker and weaker, until at last they ceased entirely for about a quarter of a minute, then there were again deep inspirations.

Mouth - Lips tremble.

Rectum - Slight diarrhea.

Sleep - Invincible drowsiness. Stupor. During sleep, respiration embarrassed, face congested and of a livid hue, pulse rather slow.

Throat - Difficult swallowing.

RELATIONS - Compare: Agar. Agar-cpn., Agar-cps., Agar-em., Agar-ph., Agar-st., Amanita vernus.

REFERENCES - Allen.

*****AGARICUS PHALLOIDES**

(Amanita Bulbosa)

PHARMACY - agar-ph. Agaricus phalloides. Amanita bulbosa. Agaricus bulbosa. Amanita phalloides. N. O. Fungi. Europe and North America. Tincture of fresh fungus. **Historical dose:** All potencies.

CLINICAL - Chills. Cholera. Chorea. Cold. Collapse. Coma. Cramps. Convulsions. Delirium. Diarrhea. Gastritis. Malaise. Trismus. Urine, suppression. Vomiting.

HOMEOPATHIC - Agaricus phalloides is a small stinking fungus common in Europe and North America. The poison is a toxalbumin, resembling the poison in the rattlesnake and the poison excreted by the cholera and diphtheria germs. It acts on the red blood corpuscles, dissolving them so that blood escapes into the alimentary canal and the whole system is drained.

The amount of this toxic principle is small, even handling specimens and breathing the spores affects some people unpleasantly.

The poison is slow in development, even twelve to twenty hours after taking it the patient feels all right.

Symptoms generally begin with vertigo, followed by violent choleraic symptoms with rapid loss of strength, with death preceded by stupor and spasms on the second or third day. Symptoms observed in poisoning cases give a complete picture. Extreme prostration and chilliness, the sweat is cold, marked hippocratic face, the tongue is cold and there is violent thirst.

Debility, prostration. Malaise. Staggers as if intoxicated and with odd gestures, labors to express his sufferings but cannot articulate a syllable. Violent convulsions. Slight convulsive motions in the legs and arms, which generally extend to the muscles of the trunk and cause irregular distortions of the whole body. Constant restlessness.

Very frequent bilious vomiting. Incessant cramps in stomach. Hard, tense abdomen. Frequent whitish watery stools or bilious, bloody stools.

The urine is suppressed, the voice is hoarse. Pulse small intermittent, hardly perceptible. The limbs are cold and there are violent cramps in legs, feet and calves.

Fatty degeneration of liver, heart and kidneys, hemorrhages in lungs, pleura and skin. Lethargic but mentally clear. Sudden changes from rapid to slow and from slow to rapid breathing. Intense thirst for cold water, dry skin.

Extreme collapse. Cholera, cramps in stomach, cold limbs, urine suppressed. Vomiting and purging. Continuous urging to stool, but no gastric, abdominal or rectal pain.

MIND - Mental excitement for three days after taking them. Delirium with faint indistinct dreams. Very averse to lying down.

Restlessness and impatience lead him to make frequent attempts to walk about, but without any fixed object or design. Complete consciousness until death. Stupor. Coma and rattling respiration before death.

Abdomen - Violent pains in epigastrium, which spread rapidly over the whole abdomen, greatly worse by pressure. Abdomen tense, swollen, painful. Unendurable pain in hypogastrium and lumbar region.

Eyes - Eyes sunken, weak and lusterless. Pupils much dilated.

Face - Deathlike pallor, face sunken, cyanotic. Nose and mouth dry. Anxious countenance, hippocratic. Tetanic closure of jaws with at times grating of the teeth.

Head - Frightful pains in head.

Kidneys - Suppression of urine.

Limbs - Cold limbs. Skin of limbs lost its elasticity. Upper limbs swell and become livid, fingertips livid. Cramps of the legs of the calves of the feet with drawing back of the limbs.

Lungs - Respirations short.

Modalities - Worse from pressure.

Mouth - Teeth and gums black. Cold tongue.

Breath cold. Trismus. Speech slow, difficult. Stammering.

Perspiration - Sweat cold.

Pulse - Small and intermittent, hardly perceptible, slow and somewhat irregular, hard and frequent. Pulse full and rapid (later action).

Rectum - Anus inflamed. Frequent, bilious, whitish stools as in Asiatic cholera. Frequent, watery, bloody stools.

Skin - Body covered with livid spots.

Sleep - Somnolence.

Stomach - Violent pain in epigastrium, worse pressure. Violent thirst, nausea, vomiting, then diarrhea. Pains in stomach and hypogastrium followed by anxiety and vomiting. Incessant cramps of stomach. Very frequent mucus and bilious vomiting. Vomiting of an offensive greenish-colored fluid of blood.

Temperature - Marked chilliness. Skin cool, afterwards hot.

Throat - Dry throat. Constant burning sensation in the pharynx after vomiting. Voice hoarse.

Vertigo - Vertigo always on rising up without loss of consciousness.

COMMENTS - General cholera symptoms are developed, as with Agar, muscarius. At times, the development of choleraic symptoms saves the patient. Chilliness predominates.

Prominent convulsions. Mental excitement, which has in some cases lasted for three days. Sometimes there is stupor, at other times consciousness remains until death.

The effects do not come on until ten or twelve hours after taking the drug (Colch.).

RELATIONS - Compare: Agar. Agar-cpn., Agar-cps., Agar-em., Agar-pa., Agar-st., Amanita verna.

REFERENCES - Boericke. Clarke.

***AGARICUS STERCORARIUS

PHARMACY - agar-st. Agaricus stercorarius. N. O. Fungi. **Historical dose:** All potencies.

CLINICAL - Coma. Convulsions. Delirium. Headache. Twitching. Vertigo. Vomiting.

HOMEOPATHIC - Thomas Stevenson M. D., writes in Guy's Hosp. Reports, vol. xix, p. 418: R. M., age thirty-nine years, ate food with Agar-st. in it. In half an hour he complained of nausea, some oppression in his breathing, and of severe pain across the forehead, with giddiness.

His wife then noticed a strangeness in his appearance, and that in attempting to walk he kept his eyes fixed on the ground and guided himself with difficulty. He was, however, quite conscious of everything, and opened a book to see if he could read, but found that he was unable to make out any of the letters.

When outdoors he continued to suffer severely from the pain across the forehead, with giddiness, and in addition experienced a feeling as if something was continually over his head, or as if passing "through an arcade." He staggered much.

About 11 p.m. after more than three hours, Mr. Hicks was called to see him. Hicks found him sitting down in a semi-state of stupor, with pupils dilated and inactive, and the pulse slow and feeble, from 55 to 60. On being roused and made to get up he looked completely bewildered, staggered as if tipsy, and said he could not recognize the things in the room, nor the room itself as that which he usually occupied.

He now became more restless, threw his arms about, and seemed anxious to be continually moving from place to place. He also appeared to be somewhat convulsed, with twitching of the muscles of the face, and complained of pickings in his hands, and of a feeling as if they were swelling. He suddenly became more excited, and rushed wildly out of the house into the street. He was found in a neighbor's house, considerably prostrated after his exertions, and in a very lethargic state.

Twenty grains of Zinc sulphate were now administered, and in a short time vomiting ensued, much dark fluid with numerous pieces of fungi being brought up. For a short time afterwards he expressed himself as feeling better, and was allowed to be taken to the door of the cottage.

Almost immediately afterwards, as if moved by a sudden impulse, he again rushed wildly out, but after going a short distance stopped suddenly, as if bewildered. Emetics were again administered and the stomach pump used, and in the course of a few hours he gradually recovered, though feeling much prostrated.

He said that during the whole time he was quite conscious of what was being done, but that at times he felt

drowsy and inclined to sleep. When the convulsive paroxysms came on he felt wild and excited, with an irresistible desire to move about and to run. He had no pain in the stomach or bowels at any time, nor did the feeling of oppression of his breathing continue after the first symptoms.

RELATIONS - Compare: Agar. Agar-cpn., Agar-cps., Agar-em., Agar-pa., Agar-ph., Amanita verna.

REFERENCES - Stevenson.

***AGATHIS AUSTRALIS

(Kauri Tree)

PHARMACY - agath-a. Agathis australis. Kauri tree. **Historical dose:** All potencies.

CLINICAL - Asthma. Backache. Bulimia. Catarrh. Colic. Coryza. Coughs. Diarrhea. Flatulence. Hay fever. Headaches. Heat, flushes. Hysteria. Lachrymation. Lassitude. Leucorrhea. Monomania. Numbness. Photophobia. Salivation. Sneezing. Tooth, decay. Toothache. Twitching.

HOMEOPATHIC - Breathing deep ameliorates. Becomes cold easily. Heat flushes with numbness, waves of heat. Sensation of heat on surface of the body, of energy moving up the body. Heaviness sensation. Lassitude, in the afternoon, walking in open air ameliorates.

Waves of numbness. Usually painful complaints are painless. Prickling sensation. Sluggishness. Worse exposure to the sun. Tingling, trickling sensation, like drops. Twitching. Desires to walk. Wavelike sensation. Pins and needles sensations. Muscular weakness. Weariness in the afternoon.

MIND - Mental power increased. Memory active for past events. Yearning for things long past. Abundant ideas. Restlessness. Irritable. Monomania. Tranquility, serenity, calmness. Spaced-out feeling. Stupefaction with sleepiness. Vague thoughts.

Clearness of mind alternating with dullness, with sleeplessness. Dullness, as if drunk, in the afternoon. As if mind enveloped in a fog. Mental exhaustion, brain fog. Confused memory. Memory loss. Weakness of memory. Forgets what was about to do or say. Memory weakness for everyday things, words. Mistakes about left and right sides, in speaking, writing. Transposes words and uses wrong letters, figures. Studying and reading difficult. Erroneous thoughts. Mental confusion. Confusion as to his identity, sense of duality.

Anxiety for the world. Anxiety in chest and heart region. Cares, full of worries. Desires death. Thoughts of death. Despair of recovery. **Discontented with himself.** Disgust.

Fear of being alone. Fear of poverty. Forsaken feeling. Feels friendless. Aversion to company. Indifference, apathy. Self-loathing, contempt. Remorse. Helpless feelings. Detached. Discouraged. Insecurity. Hatred. Yearning, longing for things lost.

Moods are changeable. Weeping and tearful mood. Weeping and laughing at same time. Loquacity. Cheerful, exuberant and talkative. Ceaseless, childish, hysterical laughing, excessive. Laughs easily, everything seems ludicrous.

As if intoxicated. Gay delirium, exhilaration. Impulsive. High-spirited. Excitement. Audacity. Childish behavior. Makes strange faces. Curses.

Bulimia. Lascivious, lustful. Tendency to lie. Oversensitive. Sensitive to noise. Sensation of being old. Quarrelsome with her family. Quiet disposition. Resignation. Sadness from a dream. Heaviness, sensation alternating with clearness of mind. Dancing ameliorates mental symptoms.

Abdomen - Sensation of something alive, movements. Bubbling sensation. Painful distension. Flatulence. Fluttering sensation. Gurgling in the evening. Heaviness as from a load. Aching, dull pain. Pain as if clutching with nails. Clawing, cramping, gripping pain. Pains extending downward. Sharp pain in the sides, in the evening. Rumbling in daytime, evening, as if diarrhea would come on. Stopped sensation. Twitching and jerking in sides. Colic during diarrhea.

Back - Backache. Aching pains in dorsal region, scapulae, spine, lumbar region, sacrum. Boring pain, extending to right shoulder, in dorsal region, scapulae. Burning pain in dorsal region, right scapulae, between scapulae. Cutting pain as if stabbed. Stabbing pain in vertebrae. Digging pain on right side. Lancinating pain in dorsal region. Pain as if someone is poking. Painful stiffness, in sacral region. Tension in dorsal region, scapulae. Twitching. Backpains extending to arms, elbow, lower limbs, shoulder, thighs, wrist.

Bladder - Constant urging to urinate, with **thirst. Long, copious**, increased urination, brown, dark brown, brown-yellowish, dark, yellow-dark, straw yellow.

Breasts - Pain in breasts, worse evening, night. Cutting, stitching pain, at night.

Chest - Anxiety in chest and heart region. Constriction, tightness, dryness, oppression. Pains evening in bed, at night. Pain from pressure on chest. Pains on sides, left. Burning pain in the sternum, pressure aggravates. Pressing pain in sternum. Cramping pains, under ribs, sides. Cutting, stitching pain, in ribs, sides, evening and night, extending downward. Sore, bruised pain, particularly ribs. Tearing pain and tension in lower ribs.

Cough - Dry, tickling cough, from irritation in larynx. Persistent cough.

Ears - Coldness as from a draft. Formication. Noises in ears like bell of a clock. Ringing in ears. Boring, lancinating, stitching pains. Stopped sensation, afternoon. Heat on one side, left ear very hot.

Eyes - Filmy. Pain in right eye. Itching in the corners of eyes. Itching canthi, eyelids. Photophobia, during headache. Involuntary desire to close the eyes. Heaviness, pressure sensation. Lachrymation. Burning, cutting, sore, stinging pains. Sensation as from a foreign body.

Face - Sensation of collapse. Pale, flushes easily. Stupid expression. Red face. Sensation of forehead wrinkled. Herpetic eruptions about lips, nose. White pimples. Itching, scratching ameliorates, particularly of cheeks. Aching pain, pressing, pulling sensation.

Female - Menses black, inky, pitch-like. Menses too early, and frequent, every two weeks. Menses too short. Clutching and relaxing sensation of uterus. Offensive leucorrhea, like ammonia, old cheese. Leucorrhea yeast-like, thin, watery, transparent. Vagina pain. Burning pain *in ovaries*. *Cramping, grasping pain in* uterus. Drawing pain. Lancinating pain, vagina. Piercing pain in pubic bone. Sore pains. Sore vagina. Sharp pain in labia, uterus, vagina. Sexual desire diminished, wanting or increased, insatiable. Swollen before and during menses.

Food - Appetite increased, with menses. Appetite ravenous, canine hunger. De-

Agathis australis sires bread, meat, fried food, juicy fruits, chocolate, sweets, cold drink and water, and beer in the morning. Aversion to vegetables. Thirst, at night, on waking. Extreme thirst for large quantities.

Head - Tension headaches. Photophobia during headache. Sensation of a current of air passing through head. Boiling sensation on forehead. Congestion, constriction, tension. Empty, hollow sensation. Headaches in the morning, ceases toward evening.

Limbs - Awkwardness. Coldness at night in bed. Cold hands, knee, leg. Cramps in forearm and hand. Heaviness sensation of thigh. Itching on hands, fingers, thighs, knees, ankles. Sensation of lightness. Lumps in elbows, ankles. Numbness in forearm, wrist, ankle. Pain in right shoulder, forearm, and wrist. Aching pain in upper limbs, elbow, legs, wrist, heat ameliorates. Knee aches in evening. Burning pain in forearm. Drawing, pressing pain in shoulder, extending to nape of neck. Shooting pain in upper limbs, shoulder, elbow, wrist. Sore, bruised pain. Wrist as if sprained. Swelling of ankle. Tingling in the forearm, thigh, knee. Tingling in the foot, extending upwards. Twitching in the knee.

Lungs - Anxious, asthmatic breathing. Periodical dyspnea, dyspnea after vexation. Breathing irregular, slow, stertorous. Difficult breathing, as from dust, in the evening, night, worse mental exertion.

Modalities - Worse exposure to the sun. Worse mental exertion.

Mouth - Itching. Salivation, morning in bed. Herpetic ulcers, on lips, around mouth. Painful, sore, smarting ulcers. Dental caries, decayed, hollow teeth. Toothache, pain in roots. Sensation of lips swelling.

Neck - *Itching. Stiffness in neck, region.* Swelling in nape of neck. Tension in cervical region.

Nose - Hay fever with asthmatic breathing. Hay asthma, with sneezing. Catarrh. Coryza, Sneezing, constant, frequent, paroxysmal. Sneezing in sunshine. One sided nasal discharge, at night. Bloody discharge in the morning. Dripping discharge. Gummy discharge. Agglutination of nostrils in the morning. Cracks in nostrils. Dryness inside nose, night, painful. Itching. Nasal obstruction, one sided, in morning and night. Pain in root. Tip of nose swelling, in morning and evening. Tingling inside on blowing the nose. Acute smell.

Perspiration - Profuse. Sweetish odor.

Rectum - Diarrhea in afternoon, evening, night. Itching. Rectal pain with diarrhea. Stinging pain with stool. Stools mushy, soft, thin liquid.

Skin - Herpetic eruptions, itching. Heat sensation. Itching, prickling. Herpetic ulcers. Itching, painful, swollen ulcers.

Sleep - Unrefreshing sleep. Bad sleep, disturbed easily by dreams, thoughts. Frequent waking from dreams. Restless from dreams. Semi-conscious. Sleepiness in forenoon, afternoon. Sleepiness with detached sensation and vagueness.

Stomach - Disordered stomach. Belching, gurgling, nausea. Heaviness after eating. Clawing, prickling pains.

Throat - Choking sensation as if grasped. Dryness of throat, worse morning. Dryness after expectoration. Sensation of a foreign body in esophagus. Esophagitis. Sore pain on swallowing. Sensation of swelling. Thick sensation

Tongue - Sensation as if tongue enlarged. Tip numb, swollen.

Vertigo - Floaty feeling. Tendency to fall forward.

Vision - Acute, clear, bright and lucid vision. Blurred and foggy. Blindness.

REFERENCES - Gray. Norland.

***AGAVE AMERICANA

(Century Plant)

PHARMACY - agav-a. Agave americana. Century plant. American aloe. N. O. Amaryllidaceae. Agavaceae.

Tincture of freshchopped leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Gonorrhea. Hydrophobia. Scurvy. Stomach, pain. Strangury.

HERBAL - The fermentedjuice of Agave americana is the Mexican intoxicating beverage "**Pulque.** " The plant has a local reputation as a remedy for hydrophobia. Indicated in stomach ache and painful erections in gonorrhea.

HOMEOPATHIC - Agav-a. is an unproved remedy. According to Hansen, Agav-a. is indicated in scurvy, stomachache and gonorrhea. Hydrophobia. Scurvy, pale countenance, swollen and bleeding gums. Strangury. The legs covered with dark purple blotches, swollen, painful and hard. Appetite poor, bowels constipated.

MIND - Quarrelsomeness, excitement, fright inability to swallow, great anxiety.

COMMENTS - A striking case is quoted by the Homeopathic Recorderfrom El Siglo Medico. A boy developed the classical symptoms of hydrophobia four and a half months after being bitten. He showed quarrelsomeness, excitement, fright, inability to swallow, small frequent pulse, and great anxiety.

Finally swallowing was impossible, restraint had to be used to prevent him from biting his nurses in the hospital. As a last resource, a piece of Agave was offered to the boy by the doctor in attendance, cut from a hedge of the plant with which the hospital grounds were fenced.

To the astonishment of all, the boy reached for it and ate it greedily, almost without chewing. By evening a decrease in the violence of the nervous attacks was manifest, though they remained as frequent as before. The improvement was slow but steady.

On the fourth day he took some nourishment. but also continued chewing Agave and swallowing the juice. On the fifth day he recovered consciousness but still demanded Agave. On the eighth day he said he did not want any more as "it tasted too bitter and caused a burning in the mouth." He had no further symptoms of the disease.

RELATIONS - Compare: (1) Anhalonium, Lyss., Lach.

***AGAVE TEQUILANA

PHARMACY - agav-t. Agave tequilana. Agave rígida. N. O. Amaryllidaceae. Agavaceae. Pulque and Tequila are drinks made from the plant. Tincture of whole **plant. Historical dose:** Tincture and all potencies.

CLINICAL-Alcoholism. Anorexia. Cancerous conditions. Chronic invalid syndrome. Drug addictions. Emphysema. Hypopituitarism. Laryngitis. Memory, lost. Migraine. Silicosis. Tubercular conditions.

HERBAL - The agaves belong to the Amarylli- daceaeafamily.Their appearance isreminiscent of aloes. The plant is used in the preparation of a popular drink, "pulque." which is obtained by the fermentation of the plant and a liqueur, "Tequila," obtained by distillation. Roughly 170 varieties of agave are in existence and, for the most part, they originate from Northern and Central America.

HOMEOPATHIC - General fatigue, weakness and muscles pains. Anorexia. Insomnia. Erratic rheumatic pains. Impotence. Ovarian pain. **Alcoholism** and alcoholic polyneuritis with mental troubles. Desire for alcoholic drinks. Migraine, notably alcoholic. Hypopituitarism, impotence or amenorrhea with genital and mammary atrophy. Laryngitis and bronchitis. Tuberculosis. Emphysema. Silicosis.

MIND - Sadness and pessimism. Desire for the unattainable. Unsatisfied, unrealistic desires. Alcoholism with mental troubles. Voluble state, excitable. Jokes, asks questions is humorous.

State of nervous irritation, stammers, shouts, becomes violent, even aggressive. Hypomania, a state of exaltation, exaggerated over-activity, followed often by a period of depression. Temporary amnesia following the excited state. Dazed state.

Back - Rheumatic pain in the lumbar region and lower limbs.

Ears - Itching of the auditory canal with the urge to scratch with the first object that comes to hand. Buzzing in both ears. Diminution of auditory acuity. Eczema of the auditory canal. Deafness.

Eyes - Conjunctival congestion and itching of the eyelids. Diplopia and impeded vision, more intense in one eye than the other. Burning sensation in the eyes, resulting in rubbing. Blepharitis. Dacryocystitis. Choroiditis.

Face - Feeling of heat about the face, even though he is pale.

Female - Ovarian inflammation and pain. Acute bilateral pain in the ovaries. Weak, painful menstrual flow. Menstrual stomachache relieved by drinking alcohol. Painful Menstruation.

Food - Total lack of appetite. Desire for alcoholic drinks.

Head - Headache when turning the head from one side to the other. Heaviness and slight headache, eased by pressing the head between the hands.

Limbs - Leg cramps, especially when lying down. Rheumatic pains in different places, aggravated by movement. Short, frequent bouts of arthritis and peri-arthritis often accompanied by nodules both intradermal and beneath the skin.

Liver - Cirrhosis, alcoholic or atrophic.

Lungs - Dilatation of the bronchi. Cough with sticky, yellow-green sputum. Profusion of glairy secretion, which makes breathing difficult. Forcing the subject to sleep almost upright in bed. Laryngitis with tracheitis.

Male - Intermittent pain in the testicles, as if result of contusion. Incomplete erection, but ejaculation in spite of the flaccidity of the penis. Low sexual desire. Impotence. Epididymitis with orchitis, tubercular or syphilitic. Cyst, epididymis.

Modalities - Worse from movement. Worse alcoholic drinks.

Nose - Dryness of the nasal mucus membrane. Formation of sticky nasal scabs which block and are difficult to expel and which make breathing painful. Difficulty in wiping the nose, the scabs come off, causing great pain. Nose blocked at night, alternating from one side to the other. Ozaena. Sinusitis.

Sleep - **Insomnia** becomes worse after drinking alcohol. Disturbed dreams, having a bearing on the day's events and of an obsessive nature.

Stomach - Heartburn, hyperacidity of the stomach. Acid dyspepsia. Diffuse hypertrophic cirrhosis from the alcoholic causes. Feeling of emptiness in the stomach, compulsion to eat, but no hunger.

Throat - Dry throat. Difficulty in swallowing as a result of constriction in the neck. Hoarse voice.

Vertigo - Slight vertigo and troubled vision.

COMMENTS - The Homeopathic proving was directed by De Legarreta using 3x, 15 drops three times a day. In his first proving, he used the mother tincture, prepared from the plant itself. In the second proving, the remedy was prepared from Tequila liqueur.

The symptomatological table was the same in both cases. De Legarreta recommends 15 drops of 3x in the morning, fasting as a preventive treatment for alcoholism, causing aversion to alcoholic drinks.

RELATIONS - **Compare:** (1) Bryonia - Dryness of the mucus membranes, severe biting pains, better by pressure and rest, aggravated by the slightest movement. (2) Lachesis - Sad, melancholic in the morning, the sleep disturbed, cannot bear any constriction. Extreme loquacity, especially in the evening. Antidote against the bad effects of alcohol. (3) Ran-b. - Antidote against the bad effects of alcohol. Stinging pain in the eyes. Vesicular eruptions which resemble herpes.

***AGNUS CASTUS

(Chaste Tree)

PHARMACY - agn. Agnus castus. Chaste tree. Vitex agnus castus. Verbena verticillata. N. O. Verbenaceae. Found on the shores of Mediterranean, Provence and Greece. Tincture of ripe berries. **Historical dose:** Tincture and all potencies.

CLINICAL - Abuse, **sexual. Agalactia.** Anus, excoriation. Ascites. Breast-milk. Chronic fatigue. Debility. Depression. Dislocations. **Fatigue.** Gonorrhea. Gouty, joints. Gums, ulcerated. **Hormonal, disorders. Impotency. Infertility.** Knees, coldness. Leucorrhea. **Masturbation.** Memory, weak. Mouth, ulcers. Neurotic. Photophobia. **Premature, aging.** Rheumatism. Spleen, swelling, induration. Sexual, melancholy. **Sexual, weakness. Sprains.** Strains. Tachycardia. Testicles, disorders. Toothache. **Weakness.**

HERBAL - The Vitex Agnus Castus of the Alchemists, the "**chaste berry**" from this tree is taken as a herbal tonic for the sexual organs and hormones. Agnus castus is for low sexual vitality with corresponding mental depression and loss of nervous energy.

The Chaste Tree was used in ancient times by both men and women to suppress their sexual desire. It was used by the Greek monks centuries ago to lower their sex drive.

HOMEOPATHIC - Agnus produces its chief effect on **sexual organs** of both the sexes. General debility and depression of vital power are marked. **Impotence and infertility** in both sexes, but more pronounced in men. History of repeated gonorrhea or masturbation. **Impotency and premature old age** from loss of sexual power. Nervous debility in unmarried persons.

Weakness from masturbation habit. **Gnawing itching in all parts, especially eyes.** Tachycardia caused by tobacco in neurotic young men. A remedy for sprains and strains.

MIND - Absent-minded, and forgetful. Distraction of mind. Inability to fix attention when reading. **Bad memory.** Unable to recollect things has to read a sentence twice before he can comprehend. Forgetful of purchases, goes off and leaves them.

Depression. Nervous depression and mental forebodings. Fear of death. **Great sadness with a fixed idea of approaching death** (Aeon.). Sad and despairing, repeats that he will soon die. Desires death. Doubts if anything had existence.

Changeable, moods. Indifference to everything, alternating with cheerfulness. Lack of courage. Discouragement alternating with haughtiness. Lethargy alternating with frenzy. Exhilaration alternating with

sadness.

Neurotic. Peevish. Inclined to get angry. Premature old age with apathy and melancholy. **Mental ailments from sexual excesses, masturbation.** Sexual melancholy. Self-contempt from sexual abuse (Staph.). Aversion to sex. Sexual thrill absent from excessive masturbation. Illusion of smell, herring, musk. Starting during sleep.

Abdomen - Ascites. **Abdomen distended after meals.** Incarcerated flatus. Abdomen sensitive to pressure. Rumbling in abdomen during sleep. Violent contracting pain coming suddenly in morning. Spleen swollen, sore. Swelling and induration of spleen, often with soreness, after intermittent fever. Nausea with **sensation as if intestines were pressed downwards.** Bowels as if sinking down, wants to support bowels with hands. Flatus smells like urine, remaining long on clothes.

Back - Creaking noise in vertebrae. Pain in sacrum, from flatus. Sharp, deep pain on and near coccyx. Sharp pain near sacrum.

Breasts - Agalactia. **Breast-milk absent**, with sadness. Milk scanty or entirely suppressed. Deficient secretion of milk in lying-in women (Calc-p.).

Chest - Sensation of dryness in chest. Hard pressure in the region of the sternum, especially during a deep inspiration. Pressure in xiphoid cartilage. Hard pressure in right axilla and upper arm, worse touch or motion.

Constitutions - It corresponds to lymphatic, syphilitic constitutions. Premature old age with apathy and melancholy. Nervous debility in unmarried persons. Impotence and gleet in old offenders.

Cough - Coughs during the evening. Coughs in bed, before going to sleep. Coughs with raising of blood, followed by copious mucus. Coughs in paroxysms. Coughs with palpitations and epistaxis. Coughs when inhaling cold air.

Ears - Roaring in the ears. Hardness of hearing.

Eyes - Gnawing itching in eyes. Corrosive itching over and on eyebrows and lids, and below eyes. Sensation as if one had received a blow on eye. Burning pain when reading in evening. **Pupils dilated** (Bell.). Photophobia. Dim vision before menses.

Face - Corrosive itching on the cheeks. Formication in cheeks. Tearing under right lower jaw. Long sharp pain followed by fine pricking itching. Rending, tearing pain under alveoli of right lower jaw. Erysipelas on left cheek, spreading from nose over face and head.

Female - Menses are suppressed with abdominal pains. Bearing down pains. Suppressed menses. Scanty menses. **Infertility** with suppressions of menses and no sexual desire (Sep.). Swelling of uterus. Leucorrhea staining yellow, transparent. Relaxation of genitals with leucorrhea. Transparent vaginal discharge passes imperceptibly from the very relaxed genital. Retained placenta. **Ailments due to masturbation, sexual excesses.** Sexual thrill absent from excessive masturbation. **Aversion to sex.**

Food - Appetite lessened. Food makes him feel uneasy and replete. Only the most simple food agrees. Relishes food, but it doesn't agree with him. Warm food and drink cause teeth to ache. Thirst during heat. Thirstlessness, and aversion to all drink.

Head - Headache before menses. Tearing pain with pressure in the temples and forehead, worse during motion. Pain in the temple, as from a blow. Heaviness in the head and pressure, as if the head would fall forward. Pain in the vertex. Tension and chilliness in the scalp, which is warm to the touch. Biting-itching on scalp, worse evenings and when falling asleep.

Heart - Hysterical palpitations with nosebleed in women. Tachycardia caused by tobacco in neurotic young men. Slow and weak pulse, often imperceptible. Palpitations during cough.

Kidneys - Passes more urine, frequently. Pain in bladder. When urinating, pain in kidneys. Red, turbid urine with burning and pressure in urethra. Gets up twice at night and even once during siesta to urinate.

Limbs - Inflammatory, rheumatic swelling of joints. **Sprains and strains.** Gouty nodosities. Hard pressure in right axilla and upper arm, worse from touch and motion. **Strains from lifting a little too much.** Swelling of the finger joints, with arthritic, tearing pains. Heaviness of right foot, as from a weight. Joints as if dislocated. Feels bruised all over. Cold hands, cold knees, even in bed. Joints easily twisted. Feet easily turn under when walking on stone pavement. Rheumatic and gouty nodosities on joints.

Liver - Aching in region of liver worse touch.

Lungs - Dyspnea worse evening. Dyspnea on going up stairs. Tough, hanging mucus like a rag in fauces.

Male - Itching of genitals. Testicles, cold, swollen, hard and painful. Penis small, flaccid. **Drawing pain along spermatic cords.** Loss of prostatic fluid on straining. Gleety discharge. Yellow discharge from urethra. Aversion to sex. **Impotence with genitals cold and relaxed.** Impotence, after frequent attacks of gonorrhea, syphilis. No erections. Penis so relaxed that voluptuous fancies excite no erection. Feeble erections without sexual desire. Impotence, with morning erections only. Spermatorrhea with impotence. **Ailments**

Agnus castus due to masturbation, sexual excesses. Sexual desire almost lost. **Sexual desire gone** (Sei.,

Con., Sabal.). Scanty emission without ejaculation.

Modalities - Better scratching. Better pressure. Worse from over lifting, sprains. **Worse from sexual excess.** Worse from seminal losses. Worse from masturbation.

Mouth - Mouth very dry. Saliva viscid and tough, drawing out in strings. Ulcers in the mouth and on the gums. Metallic, coppery, bitter taste. Boils. Tongue coated white.

Nose - Hard ache on dorsum of nose, better pressure. Soreness and pain in left side of nose. Illusion of smell, herring, musk.

Perspiration - Sweats, almost only on the hands, when walking in the open air. Sweats easily. Pungent smell, causes dullness and headache. Sweats followed by vomiting and trembling.

Rectum - Anus excoriated. Deep fissures of the anus, often giving pain when walking. Flatus smells like urine, remaining long on clothes. Sensation as of subcutaneous ulceration near the anus, only while walking. Difficulty of passing soft stools. When pressing at stool, discharge of prostatic fluid. Corrosive itching of the perineum. Sensation as if diarrhea would set in, when standing.

Skin - Corrosive itching on different parts of the body, better by scratching, but soon returns. Itching around the ulcers, in the evening. Yellow tint of skin.

Sleep - Sleeplessness. Awakening often, as if alarmed, starting. Anxious dreams. Amorous dreams.

Stomach - Only the most simple food agrees. Belchings, smell like urine. Pinching pain when sitting bent over. Nausea in pit of stomach after eating. Nausea in pit when standing. Nausea as from eating fat food.

Stools - Stools soft, recede, difficult. Diarrhea of children. Chronic diarrhea of adults.

Teeth - Teeth are painful when touched by warm food or drink. Throbbing, tearing pain in left eyetooth. Small boil near tooth, very painful to touch.

Temperature - Chilliness, internal with -trembling, the external skin is warm. Chill alternating with heat. Chilly all over, but only hands feel cold to touch. Much chilliness, with cold hands. Flushes of burning heat, principally in the face, with cold knees in the evening in bed.

Throat - Corrosive itching in pit of throat. Voice as if passing through wool. Voice has no timbre.

Vertigo - Vertigo before menses. Vertigo from loss of vital fluids.

COMMENTS - Great sadness with a fixed idea of approaching death, especially after confinement when milk fails to appear. Deficiency of milk with despair of recovery. Absent-minded. Drowsiness.

Illusion of smell, like herrings or musk. Ulcers in mouth and on gums. Tearing pain in lower jaw. Toothache from hot food or drink. Swelling and induration of spleen. Rumbling of flatus during sleep.

Discharge of prostatic fluid while straining at stool. Suppressed menses with abdominal pain. Leucorrhea staining yellow. Infertility. Pain as if dislocated in joints. Joints easily twisted. Rheumatic and gouty nodosities on joints.

Hahnemann became interested in this remedy when he read that the Chaste tree was used by the Greek monks centuries ago to stop their sex drive. They would take tincture doses and they took so much that their testicles and genitals would atrophy.

In Boericke there are descriptions of shrinking and atrophying, "Testicles, cold, swollen, hard, and painful," "lower sexual vitality," and "corresponding depression."

Useful for people who have over exerted themselves sexually, a promiscuous period, and since have lost sex drive, very apathetic. Emaciated, pale, blue circles around their eyes with dilated pupils. Sexual neurasthenia. Sexual melancholy, depression about not having a lover, gloom, moroseness. All sexual desire is gone. Impotence. History of repeated gonorrhea or promiscuity. The genitals are cold and relaxed, can get no erection.

History of cures of chronic spermatorrhea, chronic dribbling of semen and prostatic fluid because of the weakness in the whole area. Women's abhorrence or aversion to sexual intercourse and infertility (Nat-m., Ph-ac., Sep.).

RELATIONS - Agnus is the only proved member of the Verbena family, though the Labiate or Mint family are closely allied. Teste groups it with Mur-ac. and **Hyos.** **Antidoted by:** Camphor, Nat-m. - headache, strong solutions of table-salt. **Compare:** (1) Sei., Con., Nat-m., Sep., Sabal., Ph-ac., Camph, Lyc. OInd. (2) Leucorrhea staining yellow, Nux-v., Chel., Carb-an., **Kseos.** **Followed well by:** Ars., Bry., Ign., Lyc., Puls., Sulph., Sei.

***AGRAPHIS NUTANS

(Bluebell)

PHARMACY-agra. Agraphisnutans. Bluebell. Wild hyacinth. Endymion nutans. Scilla nutans. N. O. Liliaceae. Hyacinthaceae. Tincture of fresh plant and growing shoots. **Historical dose:** Tincture and all potencies.

CLINICAL - Adenoids. Catarrh. Chill. Deafness. Diarrhea. **Glands, enlarged.** Tonsillitis.

HOMEOPATHIC - Agraphis is one of the remedies introduced by Dr. Cooper. The plant grows in sheltered places, and Dr. Cooper gave "better from shelter" as a leading indication. It partakes of the characters of the lilies and corresponds to catarrhal conditions.

Clarke regarded it as one of the leading remedies in cases of adenoids. Dr. Cooper noted "**Adenoids with enlarged tonsils, frequently accompanying dentition.**" He cured with it mucus diarrhea following a suppressed cold. Obstruction of the nostrils, especially from adenoids and throat deafness. **Enlarged tonsils, adenoids, throat deafness.** The action of it is felt towards the root of the nose. Catarrhal conditions.

Patient is prone to take cold on exposure to cold winds (Aeon.). Mutism of childhood unconnected with deafness. Chill from cold winds (Sil.). Mucus diarrhea from cold. Throat and ear troubles with **tendency to free discharge from mucus membranes.**

Rectum - Mucus diarrhea following a suppressed cold.

Throat - Adenoids with enlarged tonsils. Throat deafness.

RELATIONS - Compare: (1) Hydr., All-c, Calc-p., Sul-i., Calc-i. (2) All-s., Squil.

***AGRIMONY

(Bach Flower Essence)

PHARMACY - agr-b. Agrimony. Agrimonia eupatoria. The flowering stalks are floated in a bowl of water and left in the sun for several hours. The water imbued with healing power is used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy, or some other alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water.

HOMEOPATHIC - Agrimony, along with Centaury, Walnut and Holly, belongs to the group of "**Over sensitivity to Influences and Ideas,**" as classified by Bach. These four remedies help those who are distressed or overly influenced by disturbing factors, powerful impressions in their environment.

Agrimony has been used as an herbal remedy for liver troubles. Liver disturbances may exist. Craving for stimulants is a frequent indication. Restlessness in mind and body. Anxieties and worries. Internal disquiet, nervousness and hurried. Agrimony will greatly ease pain in a patient who is smiling despite pain and internal torture.

Suppression, over-compliance and denial of emotions.

MIND - Desire to not let others down and burden them with their personal problems. Intend to spread cheer and uplift others. Tendency not to express strong emotions which could bring disharmony or strife to oneself or others. Resentment and antagonism nonetheless build up within and may find release unexpectedly in spiteful remarks or in masked, aggressive behavior.

Unsettled and restless mind, prone to be distracted. Inner cares and worries. Anxieties build up, restlessness and a sense of dissatisfaction. Grief or other forms of disappointment. Resentment or guilt which are not being worked through. Unresolved conflicts or trauma. Inner restlessness, a sense of boredom. Often finds some relief in drugs, entertainment, or other forms of diversion. Quarrels distress and bring unhappiness.

REFERENCES - Bach.

***AGROSTEMA GITHAGO

(Corn Cockle)

PHARMACY - agro. Agrostema githago. Corn cockle. Lychnis githago. N. O. Caryatides. Caryophyllaceae. Trituration of the seeds, which are poisonous and contain Saponin. Preparations of an active principle Githargin. **Historical dose:** All potencies.

CLINICAL - Gastritis. Paralysis. Tenesmus. **HOMEOPATHIC** - Knowledge of this plant is derived almost entirely from cases of poisoning in persons who have eaten bread containing the seeds.

Agrostema's active constituent is Saponin. Agrostema causes violent sneezing and sharp burning taste, burning in stomach, which extends to esophagus, neck and breast. Sensations of burning. Vertigo, headache and coma. Impaired locomotion, difficulty remaining erect.

Back - Tearing along spine.

Head - Headache. Sensation of heat and burning rises into vertex from left lower jaw, almost makes her crazy. Vertigo.

Mouth - Dry and hot. Palate has red margin. Burning on palate in a short time.

Rectum - Constipation with tenesmus. Diarrhea with tenesmus. Burning in bowels and rectum.

Stomach - Nausea and vomiting. Burning from stomach along esophagus to throat and in chest. Knife-like

pains in stomach at times.

RELATIONS - Compare: (1) Lath., Sec.

REFERENCES - Clarke.

***AIDS NOSODE

PHARMACY - aids. AIDS nosode. **Historical dose:** All potencies.

CLINICAL - AIDS. Bites. Breast, tumors. Chills. Coryza. Cystitis. Emaciation. Fevers. Headaches. Heartburn. Hypertension. **Memory, weakness. Nosebleeds. Ovaries, pain. Palpitations.** Sinusitis. **Toothaches.** Trembling. Wounds.

HOMEOPATHIC - Sluggishness of the body. Coldness of affected parts, lack of vital heat. Heat sensation. Hypertension. Intoxication, after. Stitching pain. Relaxation of connective tissue. Restlessness. Stiffness. Trembling, quivering, tremulous weakness. Wavelike sensations. Bites and wounds.

Headaches with nausea. **Ovaries aching pain**, worse evening, on the right. Cystitis. Low or diminished sexual desire. **Palpitations with anxiety.** Weakness during menses. Weakness with nausea. Rheumatic pain.

MIND - Awkward. **Mentaldullness. Slowness** of mind. **Forgetful, weak memory.** Prostration of mind. **Concentration is difficult**, worse afternoon, studying. Mental confusion. Confusion as to his identity. Mistakes at work, when writing. Awkward. **Timidity.** Bashful, want of self-confidence. Pathetic, helpless feelings, self pity. Insecure. Weak character. Introspective.

Anxiety. Fear of authority, death, failure, high places, of infection, of closed places, poverty. **Aversion to company**, yet fear of being alone. **Desire for solitude** alternating with desire for company. Consolation ameliorates. Discontented.

Irritability alternating with cheerfulness, with discouragement. Irritability from difficult concentration. Offended easily, sensitive to reprimands. Ailments from anger. Anger towards husband. Desire to kill everyone he sees. Least provocation would enrage him. Indifference, apathy, particularly in the afternoon, evening. Indifference to loved ones. **Want of sensitiveness.** Hardhearted, inexorable. Suspicious.

Stupefaction, as if intoxicated. Persistent thoughts. Pertinacity. Vanishing of thoughts. Calmness alternating with sadness.

Seriousness. **Wants to be quiet.** Mildness. Laziness.

Alternating moods. **Crying**, from many causes. **Forsaken feeling.** Sensation of isolation. Feels unloved, estranged from loved ones. **Sympathetic.** Causeless sadness. **Dwells on the past.** Exalted love for humanity. Lovesick.

Excitement. Exhilaration. **Optimistic.** Extravagance. Desires activity. Playful, frivolous. Mischievous. Shameless. Loquacity. Wants to be naked, because it is natural. Industrious, mania for work. **Restlessness.** Hurry, haste.

Automatic conduct. Unconsciousness. Time appears shorter or longer, passes too quickly or too slowly. Everything is strange, as if in a dream. **Delusions that she has lost her shell and protection. Delusions of floating in air.** All, barriers between him and others are removed. Beautiful delusions of youth, beauty, love and peace. **Sees bubbles popping**, rising to the surface. As if brain was moving, wavering, or as if a heavy lump in the left side of brain.

Abdomen - Pain, distension, heat. Abdomen pain after anger. Cramping, griping pain. Lancinating pain. Sore pain on motion, pressure aggravates. Contraction left side. Lancinating pain in inguinal region. Sore pain, near inguinal region. Pain in the hypogastrium, iliac region. Pain, left side extending to right. Stitching pain, in evening, morning, in left iliac region. Tension in inguinal region. Offensive, yellow discharge from umbilicus. Passing flatus with distension. Cramping, griping pain, before stool.

Back - Boils in dorsal region, scapulae. Pain lumbo-sacral region, in the morning, on stooping. Aching pain, dorsal region, left scapulae. Sore pain. Stitching pain after kneeling. Tension in dorsal region, scapulae.

Bladder - Cystitis. Painful, frequent urging to urinate. Ineffectual urging to urinate. Urging to urinate, night, midnight. Cutting pain when not urinating. Urethral pain after urination. Copious, brown-reddish urine.

Breasts - Breast tumors. Breast pain during cough. Breast cancer, left. Sensitive nodules.

Chest - Constriction on left side. Asthmatic constriction. Fullness of chest. Painful oppression. Cutting pain ribs, left side. Pain as if sternum was punched. Perspiration, axilla, evening.

Dreams - Dreams followed by fear. Amorous dreams, having sex with several people. Dreams of animals, dead, injured, suffering, wild. Dreams of old friends, boyfriend, childhood home. Beautiful, big, ornate, palatial buildings, churches. Buildings are neglected outside but beautiful inside. Being buried alive with explosives. Dreams of infections, AIDS. Dreams about children, babies, looking after or rescuing children. Trapped inside acrytal. Teeth falling out. Being bitten by dogs, snakes or toads. Dreams of people on fire. Hair falling out or turning white. Dreams of jewels, rings, diamonds, knives, magical gifts, music. Dreams of danger, storms, war.

Dreams of difficulties on journeys. Horrible dreams, robbers, shooting, police, violence. Dreams of being pursued, rape. Nakedness. Crowds of people. Flying an airplane. Dreams of tunnels, train, foreign country, stairs, banisters

Ears - Aching pain. Fetid, offensive, yellow discharges. Itching external ear. **Noises in ear. Buzzing**, ringing, night. Soreness ear, meatus, left ear. Pain on yawning, right ear.

Eyes - Discharges, morning, watery, yellow. Aching pain, left. Discoloration, red inner canthi. **Dryness. Itching**, left eye, inner canthi, eyelids. **Lachrymation left eye**. Sore pain with itching, left. Stitching pain about the eyes, left. Eye pain, touch aggravates. Eyes sensitive to touch. Swelling, left inner canthi, on waking.

Face - Acne on lower lip. Red eruptions on cheeks, nose. Herpes about the lips. Red, white pimples. Rash on the chin, warmth aggravates.

Female - Bland, bloody, watery, thin, yellow leucorrhea. Bright red menses, mingled with dark clots. Menses copious, at night. Menses too late, too short. Menses painful

on waking. **Ovaries pain**, worse evening, right. Aching pain in right ovaries. Low or diminished sexual desire.

Food - **Thirst** for small quantities and often. Thirst from drinking cold water. Thirstless. Appetite diminished. **Appetite increased**. evening, night, before midnight, morning on waking. Insatiable appetite. Desires bitter drinks, chocolate, fish, ice cream, milk, peaches, sweets. Aggravated from alcoholic drinks, easily intoxicated. Worse from beer, coffee, bread.

Head - Feeling of cotton wool in head, with slight vertigo. Constriction sensation. Enlarged sensation, head feels inflated. Formication, vertex. Heaviness sensation, smoking aggravates. Perspiration of scalp, forehead. Pulsating, temples, right, vertex, morning on waking. Swollen feeling, vertex.

Headaches - Bursting pain, morning on waking. Cutting pain, above left eyes. Headaches with nausea. Forehead pain extending to occiput, neck, nose or teeth, in morning. Pain behind the eyes. Pain extending to neck region. Pain forenoon, morning on waking. Headaches preceded by disagreeable dreams. Pulsating pain. Stitching pain, forehead over left eye, sides, in morning on waking. Feels well especially before the headache attack.

Heart - Palpitations at night. **Palpitations with anxiety**.

Kidneys - Cutting pain extending to back. **Larynx** - Voice hoarseness.

Limbs - Eruptions, rash, red patches or blotches on leg, calf. Pustules, rash. **Heat in limbs**. Heat in right hand, left knee, at night after going to bed. One hand cold the other hot. Coldness, right foot. Perspiration at night and on waking, on feet and hands. Itching, as of insect bites, on legs, toes. Rheumatic pain. Sciatica, particularly on the left side, better from warmth and slow motion. Crushed, cutting, dislocated pain, particularly in joints. Cramping in legs, calves, especially when sitting. Limbs, shoulder is stiff in the morning, tension in the limbs, better from motion. Aching pain in lower joints, sore, bruised pain. Stitching pain in lower limbs after kneeling. Pain extends to groin, inner side of thigh. Pain in wrist when grasping. Stitching pain in toes. Tingling in upper limbs, worse left, at night. Heavy sensation **in lower limbs. Numbness** on feet and hands, in the morning. Lameness of the forearm. Joint pain, particularly hips and knees, worse motion. Trembling in left knee, weakness as if knees would knock together. Relaxed joints.

Lungs - Respiration difficult, after exertion, during palpitations. Wheezing. Tickling cough at night.

Male - **Sexual desire diminished**. Erections, wanting, morning. Eruptions, pimples, pustules on the penis. Cutting pain in penis after urination.

Modalities - Better after stool or urination. Better lying. Worse in the afternoon. **Worse on waking in the morning**. Worse after sleep. Worse during menses.

Mouth - Numbness about mouth. Sore pain, gums. Sore pain, palate. Ulcers, mouth, ulcers. **Jaw pain**. left. Sore, bruised lower jaws. Stitching pain, jaws. Convulsions, spasms of jaws.

Neck - Constriction. Eruptions, pustules. Sensitive to slightest touch. Sensation of rope around neck. Cannot bear anything tight around neck and waist, clothing aggravates. Swelling of cervical glands. Pain neck during menses. Perspiration. Prickling sensation. Tension cervical region on waking.

Nose - Bleeding eruptions on nose when touched. **Coryza**, from change of temperature. Clear discharge. Crusts, scabs, inside nose. Discharge thick, viscid, tough, in evening. **Nosebleeds**, bright red blood, clotted, coagulated. Nosebleeds, left side, morning, in bed, on waking, periodic and profuse. **Nose itching**. Obstruction, morning on waking. Burning, smarting pain. Sore pain, worse touch. **Painful sneezing**, with nosebleed, from dust. Tingling inside nose.

Rectum - Constipation. Flatus. Frequent, ineffectual urging and straining. Sudden diarrhea, in afternoon, evening. Involuntary stool. Dry or watery stool. Soreness, pain during and after stool. Rectal fissure. Hemorrhage from anus after difficult stool. Itching, in the evening.

Sleep - **Unrefreshing sleep**. Anxious, **restless sleep**, from activity of thoughts. **Heavy sleep. Sleeps on back**, with arm over head. Sleeps curled up like a dog, with lower limbs stretched out, or with one leg one

stretched out the other drawn up. Waking difficult, too early, too late. Weeping on waking. Prolonged sleep. Sleepy in the afternoon, morning.

Skin - Itching and burning, at night. Insect stings.

Stomach - Fullness, heaviness after eating little, in the morning. Soreness, pain, in the epigastrium, in the morning. Heartburn. Cramping before stool.

Teeth - **Toothache, worse left**, in incisors, upper teeth. Aching pain, extending to eyes, forehead, nose, left side. Sensitive teeth, tender to cold water. Sensation of loose teeth.

Throat - **Dryness**, painful on waking. Disposition to hawk from dryness. **Sensation of a lump**, on swallowing. Watery mucus, at night, on waking. Rawness, sore pain. Sore throat, in the morning, worse at night, on the left, better warm drinks. Difficult swallowing. Tickling in throat.

Vertigo - Vertigo accompanied by heaviness in the eye, in head. Sensation of ascending, as if floating, as if intoxicated. Vertigo looking at revolving objects, as if everything were turning in a circle. **Vertigo on rising**, while sitting up in bed, lying, walking, after looking into mirror. Vertigo in morning.

Vision - Colors before the eyes, black stripes, blue squares, blue stripes, blue spots, green-yellow, in the morning.

RELATIONS - **Compare:** (1) Ars., Care. Syph. (2) Echi., Nit-ac., (3) Bapt., Bry., Gels., Hyos., Lach.

***AILANTHUS GLANDULOSA

(Tree of Heaven)

PHARMACY - ail. Ailanthus glandulosa. Tree of Heaven. Ailanthus altissima. Chinese Sumach. N. O. Simarubaceae. Eastern Asia. Cultivated as a shade-tree in North America. Tincture from flowers beginning to open. **Historical dose:** All potencies.

CLINICAL - Acne. Chancre. Coryza. Diarrhea. Diphtheria. Dysentery. **Headaches**. Meningitis. Mumps. Post-partum fever. Rash. Rheumatic fever. Raynaud's disease. Sepsis. **Scarlatina**. Streptococcus, infections. Syphilis. **Tonsillitis**. Typhoid fever. Typhus fever.

HOMEOPATHIC - Ailanthus acts upon **blood** disorganizing it and producing conditions like low fevers, low types of eruptive diseases and hemorrhagic diathesis. Mucus membranes become hemorrhagic and ulcerative (Lach., Ars.). Rapid prostration. **Malignant and suppressed scarlatina**. General stupor with sighing. Sepsis. Low types of eruptive diseases, diphtheria. Raynaud's disease.

Lividity, stupor, fetor and malignancy. Thin, acrid discharges. The **skin appears livid or purplish**, face dark as mahogany. Hot, sordes, throat swollen, purple, livid. Purpled appearance of the skin. Rash coming out in patches. Eruptions which are slow in appearing. Rashes often return annually.

Follicular tonsillitis, streptococcus infection. Hemorrhagic diathesis. Low adynamic forms of disease with extreme prostration torpor, vomiting. Prostration at the outset of a disease. The patient is stupid, dull, delirious, weak. Semi-conscious, delirious, weak pulse, general torpor and prostration. Diarrhea, dysentery and **great weakness**.

MIND - Confused mind, mental depression. Stupor or stoic indifference, with sighing. Dullness, must read a subject several times or figures over and over again. All the antecedents are forgotten. Constant muttering delirium with sleeplessness and restlessness. Raging delirium with brilliant eyes.

Abdomen - Tenderness over liver region.

Burning in the stomach and bowels. Tympanites.

Back - Neck tender, and very much swollen. Constant sharp pains through small of back and hips.

Chest - Stitching and aching in chest. Burning in right lung, contracted feeling in left. Chest feels strapped, or as if air-cells stuck together.

Constitutions - Suited to nervous, sensitive persons. Bilious temperament. Stout and robust. Hemorrhagic diathesis.

Ears - Pain in ear when swallowing. Parotid glands tender and enlarged.

Eyes - Conjunctivitis, smarting, aching, lachrymation, purulent discharge. Suffused and congested, startled look when aroused. Photophobia. Pupils dilated and sluggish.

Face - Mahogany colored, dark and swollen. Chronic speckled spotted face, a kind of acne. Face sallow, jaundiced, blue circles around eyes. Face red and hot, covered with a rash. Purplish face. Lips are swollen, cracked, ulcers near commissures.

Female - Malignant puerperal fever. Vomiting of pregnancy.

Food - No appetite, everything tastes insipid, sight of food makes her worse, disgust for food. Hunger and distressing sense of general emptiness during chill. Thirst for cold drinks, brandy.

Head - **Frontal headache** with drowsiness, dizziness and red-hot face, cannot sit up. Faint on rising up or

vertigo worse lying. Passive congestion headaches. **Suffused, dilated eyes**, photophobia. Face dusky. Thin, **copious, ichorous**, bloody nasal discharge.

Heart - Rapid, small pulse, weak, frequent, and irregular. Dull pain and contracted feeling in region of base of heart and through center of left lung.

Kidneys - Urine scanty, suppressed, passed unconsciously.

Lungs - Breathing hurried, irregular, heavy. Dry, hacking cough. Lungs sore and tired. Deep, exhausting cough, with violent fits until sputum is raised. Sputa is blood- mixed, yellow, bitter, worse morning. Aphonia. Croupy choking.

Male - Sore on prepuce, looking like incipient chancre.

Modalities - Better from hot drinks. Better when lying on right side. Worse from suppressions. Worse raising up or sitting up. Worse walking, motion. Worse sight of food.

Mouth - Tongue dry and brown, parched and cracked. Tongue moist, furred white, tip and edges livid.

Neck - The neck is **tender and swollen**.

Nose - Nostrils congested. Nose dry, secretion suppressed. Coryza, with rawness in nostrils, sneezing. Loss of smell. Thin copious bloody ichorous nasal discharge. Itching and uneasy feeling around the nose.

Pulse - Rapid, small, weak.

Rectum - Diarrhea, dysentery with great weakness. Thin, watery, offensive stools. Passing of involuntary stools with urine. Tapeworms. Sense of insecurity with stool or urine.

Skin - The skin appears **livid or purplish**. Miliary, livid rash, returns annually. Large blisters filled with dark serum. **Irregular, patchy, livid eruptions**, disappearing on pressure. Cold skin. Eruptions in dark, sparse patches, appear slowly, disappear on pressure, but return slowly. Scarlatina maligna. Petechiae. Skin mottled. Crawling all over the body.

Sleep - Drowsy, restless. Heavy, disturbed, unrefreshing.

Stomach - Vomits food speedily during the chill, suddenly and violently when sitting up, with stupor. Peculiar feeling of emptiness in stomach.

Teeth - Tearing in teeth. The teeth are **covered with sordes**.

Temperature - Adynamic fever with weak heart. Cold sweat.

Throat - Diphtheria and tonsillitis. Streptococcus infections. Inflamed, edematous, dusky red. Throat dark and swollen. Tonsils studded with many deep ulcers (worse left), with loose pultaceous discharge. **Much swelling internal and external**. Dry, rough, scraping, choking feeling. Hoarse, croupy voice. **Pain in swallowing** extends to the ears. Dry, foul fauces. Irritation and itching of posterior pharynx.

Vertigo - Dizzy when rising up.

COMMENTS - With the low fever of Ail. there is stupor or indifference with sighing. Constant frontal headache of a neuralgic character. Paroxysmal headache with drowsiness during the day, confused mind, depression. A feeling of fullness everywhere. A sensation of electric current passing from head into limbs was prominent in the provings. The head is burning hot with piercing pains. The parotid glands are sensitive and enlarged. The attacks are characterized by fullness of head with heat, pains burning, darting in temples and occiput, vertigo and nausea.

The throat is severely affected: thick, edematous, dry, choky feeling. Dry, rough, scrapy, worse morning. Livid, swollen with ulcers oozing a fetid discharge. The symptoms are better lying on right side (bronchial affections). Sitting up causes vomiting, dizziness. Motion causes staggering. Toothache is better walking.

RELATIONS-Antidoted by: Alcohol, Rhus-t., Nux-v. **Compare:** (1) Ptel., Xanthoxylae. (2) Am-c., Am., Arum-t. (3) Aloe, - dull frontal headache. Bapt., Bry., Gels., Hyos., Lac-c. Lach., Nit-ac., Nux-v., Phyt., Hydr-ac., Rhus-t., Stram., Echi.

***ALABASTER

(White Gypsum)

PHARMACY - alab. Alabaster. White gypsum. Hydrous calcium sulphate. **Historical dose:** All potencies.

CLINICAL - Backache. Belching. Colds. Colic. Conjunctivitis. Constipation. Cough. Cramps. Eczema. Headache. Hoarseness. Insomnia. Leucorrhea. Moles. Nausea. Sciatica. Sinus, congestion. Sneezing. Tinnitus. Toothache. Vaginitis.

HOMEOPATHIC - Plaster of Paris is so named because of the prevalence of gypsum in the Paris basin where it was originally produced. Plaster of Paris is generally the hemihydrate of Calcium Sulphate - $\text{CaSO}_4 \cdot \frac{1}{2}\text{H}_2\text{O}$. Alabaster is a fine-grained, massive, opaque or translucent variety of gypsum. It tends to be white in color but can be streaked or tinted with brown, red, yellow, green, etc.

Chemically, alabaster is hydrous Calcium Sulphate manifesting as a monoclinic crystal structure. Gypsum is formed by the evaporation of bedded deposits that are precipitated mainly from evaporating saline water. It has been used for centuries for making statues, carvings, ornaments and for decorations. The pyramids near Cairo were originally faced in alabaster, but it is now completely weathered away.

Plaster of Paris (and gypsum plaster) is made by the partial (or complete) dehydration of gypsum by heating or burning. When mixed with water, it gives a plastic paste which can be cast or molded. It eventually sets and hardens due to the chemical recombination of the gypsum with water.

MIND - Rocks violently. Muddled mind. Memory poor. Forgetful. Low self confidence. Indecisive. Feeling very impatient and irritable. Tired physically, bright mentally. Feels depleted. Want to be held, feels vulnerable. Anxious, fretful, worrying. Anxious on waking. Anxious about future. Anxiety about getting breast cancer. Panic attack, anxious and unable to breath. Fear of death. Fear of life. Fear of the dark. Fear of madness. Restless, but mind doesn't feel as though it wants to think about anything in particular. Hard to relax, feels vulnerable, stupid. Sensation as if smiling. Tired and restless having to do lots of things. Thinking about travelling.

Depressed and hopeless. Sad, melancholic, blue. Very moody and impatient. Woke feeling very low. Sensation as if, too much to do, feel sorry for myself, teary. Craves some peace and quiet. Don't like crowds.

Discontented. Intolerant, irritable. Ennui. Panicky and weepy. Irritable and angry with people at work. Anger towards former work colleagues. Feels irritable in the morning. **Abdomen** - Colic. Gripping pain in both sides of lower abdomen. Sudden pains in right abdomen, extending to rectum and extending upwards. Abdominal pain .after eating. Achey and bloated feeling.

Abdomen bloated and tender. Solar plexus feels heavy. Sharp stabbing pain, left side of abdomen. Nausea and pain abdomen after eating.

Back - Neck very stiff. Neck aching. Back aching down spine with pain shooting from lower back down to both ankles. Stiffness down spine. Desire to twist spine for relief. Tingling base of neck at the back. Skin dry and itchy. Pain in upper back, especially right side. Pain sore, nagging, stitching, tender, compressing. Lower back pain. Coldness middle of back. Backache in middle of back, piercing pain. Backache, worse moving around worse sitting.

Bladder - Bladder discomfort. Burning pain. Not passing urine as often as usual.

Breasts - Breast tenderness, worse before menses. Eruptions on outer side of both breasts. Mastitis. Pain in right breast.

Chests - Sides of chest itch. Chest feels tight. Chest and solar plexus feels heavy. Sore pain.

Cough - Weak cough while eating. Cough from a tickle in the throat. Cough with yellow-brown mucus. Tickling cough. Woke in night with coughing and cramping pain right lower leg.

Ears - Very itchy in ear canal. Popping sound in right ear. Right ear burns and feels warm. Achey and sore. Pain deep in right ear. Shooting sensation below right ear extending to nose and eye. Boring sensation in both ears, better rubbing finger in ear. Left ear, shooting pain, at end of conversation. Sensitive hearing to ticking clock. Tinnitus. Ringing in ears. Sounds more acute on left side. Buzzing noise. Hissing noise.

Eyes - Burning sensation outer corner of right eye. Right eye watering. Heavy and aching pain better closed eyes. Eyes sore, as if tired. Aching pain in left eye. As if, conjunctivitis in right eye. Hard to open eyes, scratchy discomfort and watering. Eyes feel very tired, wants to close them. Woke with watering eyes and blocked nose. Sharp pain in right eye on rubbing it in morning. Woke with eyes discharging and gluey, crusted. Eye irritation and puffiness, worse perfumes.

Face - Upper lip hot and burning. Skin very itchy, especially around right eye and cheek. Numbness of upper lip. Skin on face very sensitive. Cheeks warm, especially right side. Bags under eyes after heavy sleep. Face looked pale. Pins and needles sensations in face. Rash on face and neck, red, sore, itchy. Stinging red rash on forehead and right side face.

Female - Cramping in uterus just before period. Bloating and nausea before menses. Menses profuse with clots. Menses scanty. Leucorrhea with fishy discharge. Thrush symptoms, itching and white discharge. Vaginitis. Vagina red and sore. Vaginal irritation better cold water. Discharge, mucus, cream, pale yellow color. Discharge pink again and specks of blood.

Food - No appetite. More thirsty. Craved hot chocolate drink.

Head - Head feels hot. Pressure at back of head in a band running from ear to ear. Headache, back of neck very stiff. Dull ache in occiput extending to temples, worse bending forwards. Temples pounding. Headache all day not better for fresh air or drinking cold water. Head feels full, heavy. Woke with a headache. Pain in head, left side. Headache across forehead and temples. Frontal headache. Light headedness worse moving quickly. Pain in forehead, behind eyes, a nauseating pain. Pain as if brain being squeezed.

Heart - Heart feels as if it's beating faster. Dull, bruised pain in heart.

Limbs - Leg area sensitive. Feels like electric shocks, during menses, running from bottom to ankles. Pain in legs like sciatica, worse bending forward, worse sitting. Sciatica pain worse running. Shooting pains down legs. Hands sensitive to washing. Red blotchy rash on back of hands. Eczema elbows. Twinges of rheumatic pain, left hip. Restless legs. Twitching of legs. Legs feel very tired and heavy. Left knee aches. Pin-prick sensation in right knee. Skin on buttocks dry and flakey, not itchy. Legs felt weak when went upstairs. Tingling in hand. Cramps in limbs. Feet very cold. Legs ache. Aching limbs. Ankles cold.

Lungs - Feels breathless. Wheezy. Yellow, brown expectoration.

Male - Burning pain in the root of the penis and lower urinary tract.

Mouth - Metallic taste. Bitter, taste in mouth. Very dry mouth. Roof of mouth feels a bit greasy. Mouth ulcer in right cheek. Tingling in middle of lower lip. Gums puffy round tooth. Gums bleeding, when brushed teeth. Itchy palate.

Nose - Very itchy inside nose. Colds. Sneezing and runny nose. Nose blocked both sides. Nose tender, feels bashed. Feels broken across bridge of nose. Sensitive to house dust while cleaning. Constant sneezing. Nasal catarrh and sneezing. Lots of mucus in back of throat, nose blocked. More sensitive to smells. Sinus congestion. Tickle on end of nose.

Perspiration - More sweaty than usual, sticky armpits. Less sweaty at night.

Rectum - Rectum feels full, doesn't feel empty even after passing a stool. Windy and loose stools, accompanying right sided (hypochondria) pain. Constipation. Smelly stools. Loose stool, a bit explosive.

Skin - Skin is dry and itchy. Skin feels hot. Red rash, sore, itchy, worse cold weather, better being outside. Stinging red rash on forehead and right side face. Moles, bleeding. Mole with slight prickling, scabbed over. Itchy skin after alcohol, especially legs, worse left.

Sleep - Heavy sleep. Panic attack before going to sleep, fearful not sure of what. Sleeplessness. Restless night. Waking up a lot. Woke with restless legs. Woke very fearful. Woke during the night feeling really depressed and hopeless. Anxious dreams. Dreams of dead people. Nostalgic dreams. Dreams of water. Dreams of work. Lots of different, active dreams. Vivid, intense dreams.

Stomach - Belching. Queasy feeling before breakfast. Rumbling and gurgling. Nausea and pain abdomen after eating. Nauseous and sick feeling. Nauseous at thought of food.

Teeth - Slightly clenching teeth. Pain in left upper molars. Toothache, dull pain. Right upper tooth socket bleeds.

Temperature-Cold and clammy. Feels quite warm. Mild fever. Felt hot.

Throat - Voice hoarse but painless. Voice sounded husky and broken. Laryngitis. Mucus, need to keep clearing throat. Mucus, back of throat. Sore throat. Swollen painful throat, hurts to swallow. Throat sore, both sides, dry and stinging. Woke with painful throat. Dry, burning, raw, difficult to swallow. Feeling something stuck in throat. Throat felt constricted. Mucus running down back of throat. Slight nausea in throat. Tickly feeling at back of throat, extends to left ear, sinuses.

Vertigo - Slight dizziness.

RELATIONS - Compare: Chemically related remedies would be Calc-sulph. (Calcium Sulphate - CaSO_4) and Hepar-sulph. (impure Calcium Sulphide - CaS).

***ALBIZIA JULIBRISSIN

(Mimosa Tree)

PHARMACY-alb-j. Albiziajulibrissindurazz. Mimosa tree. Silk tree. Powderpuff tree. Silky acacia. Pink sins. **N. O.** Fabaceae. Asia. Tincture from flowers, leaves and stems. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. **Anxiety.** Boils. Bruises. Cancer, lung. Carbuncles. **Depression.** Fractures. **Grief.** Heart, disease. Hemorrhoids. **Insomnia.** Pains. Sarcoma. Sores. Sprains. Stress. Swellings. Worms. Wounds.

HERBAL - The Mimosa tree, Albiziajulibrissin, was introduced to the United States in 1745 for use as an ornamental plant because of its unusual, attractive and fragrant pom-like flowers and interesting fem-like foliage. This deciduous tree is attractive to bees, butterflies, and birds.

This is a traditional herb used for depression and irritability. The flower heads are carminative, digestive aid, sedative and tonic.

Mimosa flowers are used internally in the treatment of insomnia, irritability, breathlessness and poor memory. The stem bark is anodyne, anthelmintic, carminative, discutient, diuretic, oxytocic, sedative, stimulant, tonic, vermifuge and vulnerary. It is used internally in the treatment of insomnia, irritability, boils and carbuncles.

Externally, it is applied to injuries and swellings. A gummy extract obtained from the plant is used as a plaster for abscesses, boils, etc., and also as a retentive in fractures and sprains.

The flower of the mimosa invigorates blood, calms the spirit. It's used for acute and chronic depression,

insomnia, poor memory, and irritability. Problems due to constrained emotions, especially when accompanied by poor memory, epigastric pain and feelings of tightness and pressure in the chest.

MIND - Depression. **Anxiety**. Poor memory. Feelings of grief and loss.

Skin - Abscesses. Boils.

Sleep - Insomnia.

COMMENTS - Called the "tree of collective happiness" by the Chinese, mimosa flowers are specifically used for individuals who are experiencing deep feelings of grief and loss.

Micheal Tierra stated that he has used mimosa or albizia flower and bark extract alone or in formula for large numbers of people who might otherwise be given pharmaceutical anti-depressants.

All experienced complete or significant benefit even after a day's use. He recommend taking one half to one teaspoon, three or four times daily. While its flavor leaves something to be desired, it has shown itself to be completely safe and after experiencing its positive effects, one quickly grows used to the flavor.

***ALCHEMILLA ARVENSIS

(Parsley Piert)

PHARMACY - alch-a. Alchemilla arvensis. Parsley piert. Field Lady's Mantle. N. O. Rosa- ceae. Europe. Tincture from leaves and stems. **Historical dose:** Tincture and all potencies.

HERBAL - This is a traditional herb for gravel, kidney stones and urinary infections.

REFERENCES Potter.

***ALCHEMILLA VULGARIS

(Lady's Mantle)

PHARMACY - alch-v. AlchemiUa vulgaris. Lady's Mantle. Mary's Cape. Lionsfoot. N. O. Rosaceae. Europe. Tincture from leaves and stems. **Historical dose:** Tincture and all potencies.

CLINICAL - Bruises. Cuts. Gastritis. Indigestion. Leucorrhea. Menopause. Menstrual, disorders.

HERBAL - AlchemiUa means "Hail to the Alchemists." The leaves of AlchemiUa fold in such a way as to catch the morning dewdrops like jewels. In Iceland this plant is sacred to the Virgin, called Mariastakker, which gives quiet sleep if placed under the pillow at night.

HOMEOPATHIC - AlchemiUa has been used for healing wounds and for women's problems. It is mildly astringent, diuretic and anti-inflammatory. Helps regulate the menses and eases the menopause. Gastritis and enteritis. Used as a douche for leucorrhea.

REFERENCES - Boericke. Clarke.

***ALCOHOLUS

(Ethyl Alcohol)

PHARMACY - aleo. Alcoholus. Ethyl alcohol. Aethanolum. Spirits of wine. Remedy made from commercial spirits of wine, by re-distillation. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcoholism. Coma. Delirium. Dementia. Double vision. Hallucinations. Imbecility. Insanity. Mania. Stupidity.

HOMEOPATHIC - Amid the pleasures of the cup the soldier no longer complains of the campaign, the sailor forgets the dangers of the storm. The weak one grows strong and the despondent bold. The despairing lover leaves his solitude and forgets the indifference of his mistress. From acute alcohol intoxication all weaknesses are exposed and all secrets divulged without reserve, all hypocrisy ceases. Intoxicated persons beget alcoholics.

General excitement of all the senses. Moral and physical exaltation.

Transition from delirium tremens into permanent mania with hectic fever or dropsy.

A feeling of vague and unaccountable dread. Sadness often constant through the whole disease (delirium tremens). Staggering, uncertain gait. Coma, that changes to paralysis of the brain in persons of an apoplectic habit.

Sexual powers at first increased, then diminished. Impotence, want of sexual power. Irregular menstruation. Abortion in the first months. The children of alcoholics may grow up dull, indolent, stupid and become intemperate. Inclination to obesity. Diminished perspiration.

MIND - Mind disturbed, difficulty fixing the attention. General intellectual enfeeblement. Impaired memory. Absence of the senses and of reason. Restlessness and anxiousness, tries to disguise. Solitude and repose in bed increase the anxiety.

Mania with excessive irritability, excited by slightest causes. Mania with disposition to commit murder or start

a fire. Impatience of contradiction. Unreasonable inclination to quarrel. Exhilaration. Increased self-esteem and importance. Feels insulted and abused by one's friends. Melancholy, weeping. Depression. Inclination to commit suicide.

Delirium. Rapid and incoherent talk. Thinks himself pursued. Screaming, singing and immoderate merriment. Feeling unusually strong and rich. Various hallucinations of sight, hearing, smell and sensation. **Abdomen** - Sense of pressure in both hypochondria. Swelling of spleen. Recti muscles of abdomen become rigid and prominent. Ascites. Rumbling and growling in intestines. Inflammation of the intestines and stomach. Flatulence. Colic pains. Intestinal hemorrhage.

Back - Veins of neck swollen. Temporal and throat arteries throb, jugular veins turgescient or protruding. Weakness, finally in muscles of back, cannot even sit erect.

Chest - Hydrothorax. Emphysema. Congestion of lungs. Sensation of warmth in chest. Tension of chest. Burning sensation back of the sternum.

Constitutions - A sanguine, choleric temperament, sentimental and passionate. Weak-nerved person shows blunted senses and childish. The phlegmatic temperament remains passive and rather falls from his chair before giving loud evidences of his intoxication.

Ears - Dryness in external meatus. Acute sense on hearing. Hearing blunted, perception of sound lessened. Confusion on sounds. Roaring in ears, especially after spasms or with vertigo. Ringing, buzzing or rushing sound in the ears, frequently accompanied with dull, diffused headache. Illusions of hearing. Imaginary voices and sounds.

Eyes - Eyes injected. Red and excited, watery eyes. Eyes fiery, brilliant, fixed and wild. Rigid, gleaming look. Bright and animated or suffused and soft. Spots in the eye and dimness of vision. Catarrhal inflammation of the eyes. Roughness of the margins of the lids. Contraction of the pupils, drooping lids and coma. Effusion and swelling below the eyes. Conjunctiva more or less jaundiced. Yellow tinge of the sclerotica. Dilated and almost insensible pupils. Vision weak, cannot use eyes, objects flicker and become dim. Cannot read or write. Aversion to light. Black before eyes. Flashes of light before eyes. Muscae volitantes in clouds, before the eyes. Double vision. Visual hallucinations.

Face - Distorted face. Face bloated, without expression, stupid, silly. Redness of the cheeks and nose. Face red and swollen. Tetters in the face. Eruption in the face, bluish-red or white vesicles and pimples.

Food - Mania for alcoholic drinks, pepper and other heating things. Longing for spirituous liquors and, if not speedily gratified, becomes raving or has convulsions. At first no desire to eat, afterwards, ravenous hunger. Loss of appetite. Aversion to food and alcoholic drinks. Thirst before breakfast and through the day, often excessive.

Head - Head dull, clouded and hazy. Effusion of water into the membranes and ventricles of the brain. Softening of the brain. Pressing headache, causing stupidity. Drawing in the head. Dull, diffused headache with a buzzing or rushing sound in the ears. Sensation of fullness at the crown and back of the head or at the temples.

Heart - Valvular insufficiency. Organic difficulties of the heart and the large vessels. Hypertrophy of the left side of the heart. Increased activity of the heart and arteries. Pulsation of the heart and arteries violently increased, hard and full. Increased heat and rapidity of action in the heart. Very excited action, violent throbbing of the heart. Palpitations of the heart. Pulse nearly always accelerated, sometimes small and empty, sometimes full and even rather hard.

Kidneys - Sensitiveness, aching and pain in the region of the kidneys.

Limbs - Sudden startings of the limbs, as from electrical shocks. Trembling of limbs. Increased warmth, then coldness. Creeping sensation (formication) under the skin of the hands and feet. Weakness and relaxation of the muscles of locomotion, first in fingers and hands, especially in thumb and index-finger, extending all over both limbs. Limbs numb, as if paralyzed and extremely sensitive to touch and motion.

Liver - Heat, weight and soreness in the region of the liver. Inflammation of the liver. Cirrhosis.

Lungs - Sensation of heat in the larynx. Catarrhal bronchitis. Accumulation of mucus in the air-passages. Disposition to clear the throat. Hoarseness. Sobbing. Hacking, dry cough. Coughing blood. Accelerated breathing. There was a sense of impediment to respiration. Heavy, labored breathing. Snoring respiration. Asthma. Asphyxia.

Modalities - Worse when lying down. Worse when quiet at night.

Mouth - Grinding the teeth. Tongue fissured from middle to the edges, furred or sometimes denuded of epithelium. Papillae at tip of tongue enlarged and red. Sore and dry condition of the tip of the tongue. Dry, red, glazed tongue. Tongue covered with yellow slime in the middle, the margins clean. Tongue smooth and red with tendency to stick to the teeth or roof of the mouth. Tongue moved with difficulty. Convulsive motions of the tongue with stammering and inarticulate speech. Dry state of

the mouth. Offensive smell from the mouth. Froth in mouth. Sour, salty or bitter taste in the mouth in the morning. Bitter taste in the mouth. Illusions of the sense of taste. Stammering speech.

Nose - Redness of the nose and cheeks. Redness of the nose, especially at the tip. Vessels of the skin congested. Swelling and inflammation. Red pimples or tubercles. Lining membrane of the sinuses inflamed and ulcerated. Bleeding of the nose. Illusions of the sense of smell.

Rectum - Hemorrhoids and varicose veins. Bleeding hemorrhoids. Paralysis of anus. Feces compact, knotty, black or light gray. Stool black, bilious, slimy and bloody, thin and clay colored. Diarrhea mucus or mealy. Diarrhea often alternating with constipation. Involuntary excretion of stool and urine.

Skin - Skin smutty or yellowish-gray. Jaundice. Skin soft and flabby. Skin becomes dry and hard. Sense of dryness, heat and evident fullness of swelling of the exposed parts of the skin, as the hands and face with general sensation of heat. Tormenting eruption, exceedingly itching, rough, scaly patches. Eczema and prurigo. Acne rosacea. Skin does not heal readily. Large indolent, blue-looking boils or carbuncles. Varicose ulcers.

Sleep - Irresistible sleep. Deep sleep, frequently accompanied by rattling breath. Lethargic with snoring respiration, intermittent pulsation of the heart. Restless sleep. Starts from his sleep with anxiety and restlessness. Insomnia, the patient tosses from side to side during nearly the whole night, getting only broken snatches of sleep and often with frightful dreams.

Stomach - Belchings, sour or foul. Belchings of water. Eructation like rotten eggs. Nausea and vomiting mucus and water. Vomiting of sour and offensive smelling matters. Hematemesis. Fullness and distention after eating. Burning heat in

stomach. Pressure in the stomach. Sense of oppression and weight. Weakness of the stomach. Constriction, uncomfortable tension and pressure in epigastrium.

Temperature - Great inclination to sweat. Sweat easy at first. Sweat profuse, cool, sticky, sour smelling, sometimes warm. Increased perspiration moderates intoxication. Sensation of cold with paleness of the body. Fevers. Evening exacerbations. An agreeable warmth spreads over the body. General sensation of heat with increased action of the heart and dryness of the skin.

Throat - Throat red and feels stiff. Granulations on the posterior wall of the throat, also on the base of the tongue. Engorged appearance of the veins of the fauces. Redness, dryness and heat. Aphthous ulcers in the throat. Gangrenous ulcers. Throat full of tough mucus, difficult to hawk up. Paralysis of pharyngeal muscles. Paralysis of the muscles of swallowing. Sensation as if something lodged in the esophagus. Strong efforts to clear the throat or belch or vomit, bring up blood or bloody mucus. Painful swallowing.

Urine - Frequent need to urinate, finally incontinence. Involuntary excretion of urine and stool. Increased quantity of urine. Lessened secretion of urine. Retention of urine. Urine scanty at first, yellowish or deep red, then more copious with sediment. High-colored urine. Albuminous urine. Urine acid, contains serum and bile. Bloody urine.

Vertigo - Attacks of vertigo with sudden faintness and reeling or falling down, but no twitchings. Violent vertigo, nearly changing to a stroke. He staggers while walking and standing. Momentary attacks of vertigo.

COMMENTS - Frenzy, accompanied by violent convulsions. Drunkenness with various manias. Much inconsiderate, confused talking. Talkativeness, by which confessions are drawn from him. Ashamed of his intoxication. Sweet outpourings of friendship and tender confessions. Shamelessness. Moral degradation. Stubbornness. Quarrelsomeness.

Grudges long since forgotten are renewed. Forgetfulness.

All desires and inclinations become uncontrollable. Indescribable serenity of mind with cheerfulness, which the face expresses. Lively imagination. Rapid flow of thought, but he cannot keep his attention fixed continuously on one subject. Immoderate bursts of laughter. Cheerfulness.

Mental inquietude. Dread arising from actual delusions. Believes he is falling, even when on solid ground. Apprehension of nearby evil. Religious ravings, they address confidential and irreverent discourses to the Deity. Absurd fancies. Confuses one person with another.

Dancing, convulsive gestures, like chorea. Convulsions with a feeling as if something in the head is twisted and turned. Convulsions begin in one extremity, can be confined to one side, head can draw back, teeth clench, eyes distorted. Hysterical paroxysms. Epileptic attacks, generally coming on while standing. Epilepsy returns after every excess in drinking. Convulsive-like epileptic attacks.

The whole body trembles, commonly after exertion. Tottering and shaking. Trembling of the whole body. Twitchings or jerkings in muscles on sitting or lying, not in standing, especially on changing position. Persistent muscular tremor, first developed in the limbs.

Muscular inquietude inability to keep the limbs or the body still without a special effort of attention. Drawings in muscles like electric shocks. Trembling and paralysis as usual consequences of a stroke. General paralysis

after delirium tremens. Marked sensory paralysis.

Power of directing and coordinating the muscles lessened. Muscular tone and power greatly lessened. The body loses its mobility and becomes more and more destitute of muscular power. Emaciation, want of strength with continued want of appetite. Prostration of the whole body.

Premature old age, face becomes pale and wrinkled, features relaxed, eyes dim, lips pale, the hands and the rest of the limbs tremble, gait unsteady. Indolence of body and mind. Frequent swoons. Hyperesthesia.

This numbness is usually superficial, sensitive to deep pressure, sometimes sensitiveness of the whole body is blunted.

Pain and neuralgic tearings, cuttings. Very marked, continuous buzzing or thrilling, passing from above downwards and through the whole system. Sensitiveness to the fresh air, shudder and frost.

***ALCOHOLUS SULPHURIS

(Liquor Lampadii)

PHARMACY - alco-s. Alcoholus sulphuris. Liquor lampadii. Carburet of sulphur. **Historical dose:** All potencies.

HOMEOPATHIC - Homoeopathic Provings by James W. Metcalf, M. D. It may prove useful in some forms of sick headache, especially when the pain commences in the forehead, and extends to one or the other temples. Scrofulous affections of the eyes and lids. Twitching of the eyes and lids, such as occurs in scrofulous, nervous, and verminous children. Some rheumatic and neuralgic affections of the face.

Chronic rheumatism, prurigo, and impetigo. Chronic pharyngitis. Irritation of the pharynx, with much hawking and spitting. Gagging cough from the irritation of an elongated uvula, especially when these symptoms occur in bilious and dyspeptic subjects.

Chronic irritation of the pharynx and larynx, with constant desire to hawk and spit, with hoarseness and short cough. May prove helpful in the first stage of tubercular disease of the lungs. It may prevent the tendency to irritation and congestion of the upper parts of the lungs which to readily lead to the fresh deposit of tubercles in consumptive patients.

Pyrosis, heartburn, and various dyspeptic and bilious derangements. Flatulence, bilious and flatulent colic, and congestion of the liver. It is one of the few drugs which seem to exert a specific action upon the cecum. Cured a case of chronic diarrhea, appearing every four or six weeks, attended with colic, the evacuations were liquid, frothy, yellowish, sour, and attended with tenesmus.

Abdomen - Great inflation of the abdomen, with rumbling of wind and tearing colic. Colic pains after eating. Slight wind-colic from time to time, with desire to urinate. Colic pains with loose stool and flatulence. Paroxysm of disagreeable pain in the left lobe of the liver. Soft stool, preceded by pain in the left lobe of the liver, and followed by pains in the cecal region.

Chest - Sensation of heat in the chest, congestion in the upper part of the lungs. Oppression, fullness in the chest. Slight stitches and pains about the chest.

Ears - Pain in the ears as if some one were striking upon the tympanum with a dull instrument.

Eyes - Burning and itching of the lids. Pustules on the lids, lasting four days. Dilatation of the pupils, with quickness of the pulse. Abundant secretion of whitish yellow mucus in the eyes. Lachrymation of the eyes. Twitching and trembling of the muscles of the eyes and lids.

Face - Redness and puffiness of the face, heat of the face and hands. Lancinating and tearing pains in the cheeks, extending up to the temples and lasting two months.

Fever - Great internal heat, with coldness of the hands and feet. General heat, headache, quick pulse, cramps in the calves of the legs and toes, without much thirst, and no perspiration.

Head - Pain in the forehead, which draws towards the left temple and remains there for two hours. Pressive frontal headache, lasting almost all day, and accompanied with transient pains in the temple. Drawing and tearing pain, stretching from the forehead to the temples, lasting all day, more severe in the room and during rest, relieved by walking in the open air. Dull pain in the frontal region, with nausea and heaviness of the whole head. Thumping pain in both temples. Violent pressive pain in the right temple, with malaise, desire to vomit, and rumbling of wind in the bowels.

Larynx - Heat and irritation of the larynx, hoarseness and irritation of the larynx. with continual desire to hawk. Cough provoked by a tickling at the bifurcation of the bronchi. Slight dry cough.

Limbs - Pains in and eruption upon the arms and legs.

Mouth - Dryness of the lips and mouth, irritation of the cavity and isthmus of the pharynx, followed by a sensation of contraction in the larynx, with gagging cough and quick breathing. Gum boils. Pasty, disagreeable

taste in the mouth, with foul taste of the pharyngeal mucus. Bitter sharp taste in the mouth, or very repulsive acrid taste, or sweetish putrid taste. Great accumulation of saliva, with sweetish taste. Very frequent spitting. Pale red swelling of the uvula and vellum Burning and scraping in the pharynx and esophagus.

Skin - Sharp itching and stinging in different part of the skin, as if from nettles. Itching in various part of the skin, much aggravated by scratching. Bleeding and burning of eruptions when scratched (prurigo). Eruptions of impetigo on the back of the hands, the pustules are seated on the inflamed red base, contain a yellowish cloudy serum, and form thick yellowish scabs.

Sleep - Sleep. Sleeplessness from headache, dryness of the skin and general unpleasant heat, so that he is obliged to rise and bathe himself.

Stomach - Stomach. Very abundant eructation, sour burning, acrid regurgitations (pyrosis) occurring one or two hours after eating. Continual acid regurgitations. Regurgitations of air with nausea, discharge of flatulence upwards and downwards. Burning in the stomach and hepatic region. Heat in the epigastric region, which ascends and occupies the whole chest. Violent heat, ascending from the stomach to the head. Fullness in the stomach, with eructations, yawning, desire to vomit, and dizziness.

Stool - Liquid stools. Slimy, watery diarrhea, with violent pain in epigastrium. Sudden diarrhea, after having dined with good appetite. Violent diarrhea, with tenesmus and sour evacuations.

COMMENTS - Lampadius, in 1796, while distilling a mixture of pyrites and charcoal, procured a clear liquid in the receiver, which he named Alcoholus sulphuris, or the Alcohol of Sulphur. It consists of one equivalent of Carbon and two of Sulphur.

***ALETRIS FARINOSA

(Star Grass)

PHARMACY - alet. Aletris farinosa. Star grass. Blazing grass. Colic root. Unicom root. N. O. Hemodoraceae. Melanthiaceae. North America. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Abortion. Anemia. Colic. Constipation. Convulsions. Debility. Dysmenorrhea. Dysuria. Emaciation. Endometritis. Fainting. **Fatigue.** Fever. Hemorrhoids. Hysterical colic. Indigestion. Labor-like, pains. Leucorrhea. Menorrhagia. Miscarriage. Muscle, pain. Pregnancy, vomiting. Infertility. Uterus, pain, prolapse.

HOMEOPATHIC - Star grass is said to be the most bitter of all plants. Aletris farinosa particularly affects the female organs. Produces an anemic, relaxed condition, especially of the female organs. Useful for chlorotic girls and pregnant women.

Many symptoms appear in the uterine sphere including uterine atony. Sensation of weight in uterine region and tendency to prolapse. Hemorrhages. Menorrhagia, black clots, fullness and weight. Menses are profuse and premature with labor-like pains or amenorrhea, debility from loss of fluids, protracted illness. Leucorrhea with debility. Obstinate vomiting of pregnancy. Habitual tendency to miscarriage. Infertility.

Characterized by weariness of body and mind. The patient is **fatigued and tired all the time**, suffers from prolapse, leucorrhea, rectal distress, etc. Marked anemia. Fainting attacks with vertigo. Sensation of weight in occiput as if it would draw the head back. Parts feel heavy. Lack of appetite, in connection with uterine disorders. Disgust for food, nausea, constipation. The least food distends the stomach. Marked emaciation.

MIND - Mental power and energy weakened. Cannot concentrate mind. Confused feelings. Fainting with vertigo.

Abdomen - Colic settling in lower colon, better passing flatus. Scanty, diarrhetic stools. Pain, better bending backwards.

Back - Sensation as if back would break just above waist. Backache with dragging in sacral region, with stringy, colorless leucorrhea.

Constitutions - Suited to chlorotic girls and pregnant women. Weak, emaciated people.

Ears - Feel as if open through from one to the other.

Female - **Premature and profuse menses with labor-like pains** (Bell., Cham., Kali- c., Plat.). Menorrhagiaprofuse, black with clots. Retarded and scanty flow (Senec.). Copious menses followed by copious, watery oozing between periods. Leucorrhea white, stringy, due to weakness and anemia. Uterus seems heavy. **Prolapse uterus** with pain in right inguinal region. **Habitual tendency to miscarriage.** Muscular pains during pregnancy.

Food - **Want of appetite** with weakness.

Head - Weight in occiput, as if it would draw the head backwards. Vertigo with fainting, sleepiness, vomiting or purging.

Kidneys - Involuntary urination on walking fast or sneezing.

Limbs - Chronic rheumatism. Dropsy. Leg (right) feels paralyzed below knee, numb, could not bear weight on

it.

Lungs - Cough before menses.

Modalities - Better from passing flatus. Better bending backwards. Worse from loss of fluids.

Mouth - Much frothy saliva.

Rectum - Loads up with feces-paretic condition. Large, hard, difficult stool, with great pain. Fearful pain during passing stools, as if forcing a passage. Constipation, as from rectal atony.

Stomach - Want of appetite, disgust for food. Least food causes distress. Flatulent colic. Nervous dyspepsia. Obstinate vomiting of pregnancy. Nausea better by coffee, by dinner with pressure in forehead.

malnutrition, including neurasthenia, syphilis, insomnia, or nervous digestion. **Anorexia** nervosa. Cancer with emaciation.

Failure to thrive in children. **Deficient breast-milk**, it increases the quality and quantity of milk in nursing mothers. If a baby has failure to thrive, give Alfalfa to the mother and child, the breast milk improves, the mother gets stronger and the baby gains weight.

Pronounced urinary action. Diabetes insipidus and phosphaturia. Useful to allay the bladder irritability of prostatic hypertrophy. Rheumatic diathesis.

Weakness, enervation, exhaustion, prostration, infirmity. Muscle weakness. Convulsive movements. Desires sweets. Sympathicotonia. Worse in the evening, from 6 to 9 p.m.

A concentrated Alfalfa tincture should exercise an influence similar to that of Avena sativa. An herbal infusion used in three cases produced the same results as the alcoholic preparations.

MIND - Alfalfa induces a mental exhilaration of buoyancy. Cheerfulness. Vivaciousness. A general feeling of well being, feels clear and bright, so that all blues are dissipated. **Exhilaration**. Mirth, hilarity, liveliness. Clearness of thoughts.

Morose, sulky, cross, fretful, ill humored, peevish. Sadness, despondency, melancholy. Depression from disappointed love. Hypochondriasis. Aversion to mental work. Bad dreams from emotional causes. Bulimia.

Prostration of mind, mental exhaustion, brain fag. Dull, drowsy, stupid (Gels.), gloomy and irritable, worse during evening. Slowness. Mental dullness, sluggishness. Difficulty thinking and comprehending.

Abdomen - Distension. Flatulence with distention. Pain from passing flatus. Shifting, flatulent pain along colon several hours after meals. Frequent loose, yellow, painful stools with burning flatulence. Colitis. Chronic appendicitis. Inflammation, peritonitis, enteritis. Dropsy, ascites, with scanty urination. Cramping, griping pain. Passing flatus aggravates.

Back - Backache.

RELATIONS - Compare: (1) Chin., Hydr., Sabin., Senec., Sep. Tril. (2) Helon. - False Unicorn, not to be confounded with Alet. (3) Dios. - colic worse bending forward. (4) Caust., Puls., Ferr., - discharge of urine during cough. (5) Alum. - constipation, grasps the seat tightly, despairs of having a stool. During stool terrible pains as if a passage were being forced, Alet.

REFERENCES - Boericke. Clarke.

***ALFALFA

(Medicago sativa)

PHARMACY - alf. Alfalfa. Medicago sativa. California clover. Lucerne. N. O. Papilionoi- deae. **Historical dose:** Tincture and all potencies.

CLINICAL - **Anorexia**. Appendicitis. **Appetite, loss**. Ascites. Breast-feeding. Bulimia. **Cachexia**. Cancer. Chemotherapy, effects. Colitis. Diabetes. Diarrhea. Dropsy. **Emaciation**. Exhaustion. Fatigue. Flatulence. **Hypoglycemia**. **Insomnia**. **Malnutrition**. Marasmus. Neurasthenia. **Nutritional, disorders**. Polyuria. Prostate, hypertrophy. Radiation, effects. Rheumatic, diathesis. Syphilis. **Weakness**. Weight, loss.

HERBAL - This is a leguminous plant, cultivated from ancient times and highly prized as a pasture and forage plant. Those who have observed its influence when employed as a forage for stock must have been impressed with the favorable results.

All of the provers, except one, noted three things in particular: an increased appetite so they could not wait for their regular meals, an increased amount of urine and urea, and a general sense of well-being. Causes **mental exhilaration**, increases energy and stamina.

Alfalfa favorably influences nutrition, evidenced in **"toning up"** the appetite and digestion. Acts as a fat producer, corrects tissue waste. Improves appetite and digestion, mental and physical vigor returns with weight gain.

HOMEOPATHIC - Metabolic regulator. Lack of appetite or aversion to all food. **Emaciation**. Disorders characterized by

Bladder - Bladder irritability. Urging to urinate, morbid desire. Frequent urging to urinate.

Breasts - Breast milk, absent or disappearing.

Constitutions - Anorexic, emaciated, broken down constitutions. Cancer diathesis.

Ears - Stuffed feeling in Eustachian tube (Kali-m.) at night, clear in morning.

Eyes - Aching in and above the eyes.

Face - Flushed.

Female - Increased desire. Menses coming earlier than usual.

Food - Increased thirst. **Appetite wanting with weight loss.** Sensation of hunger at all times. Appetite is increased. **Malnutrition.** Desire for sweets. Sometimes ravenous appetite. **Hypoglycemia,** must stop and have something to eat in the middle of the morning. Hungry in forenoon (Sulph.).

Head - Dull, heavy feeling in occiput in and above the eyes, worse toward evening. Violent headache. Pain in the left side of the head. Dull heavy feeling comes on about 2 p.m. and gradually increases until 6 p.m., starts at the occiput and becomes severe.

Kidneys - Kidneys are weak, frequent urging to urinate. Polyuria (Ph-ac.). Increased elimination of urea indican and phosphates. Inactivity. Suppression of urine, anuria.

Male - Enlarged prostate gland. Prostatic hypertrophy.

Rectum - Painless, yellow diarrhea, accompanied with flatus and attended with burning. Stools loose and more frequent than usual. Stools two or three times daily. Pasty, papescent stools.

Sleep - Slept better than usual, especially in early morning, it induces quiet, reposeful and refreshing sleep. Insomnia. Sleeplessness during convalescence.

Stomach - Emptiness, weak feeling, faintness, goneness. Hungry feeling not ameliorated by eating. Nervous indigestion.

Urine - Profuse urine, increased. Scanty. Sediment, increased indican, phosphates. Sugar in urine.

COMMENTS - Dr. Houts gathered the fresh Alfalfa leaves, but obtained good results from the use of dried leaves which still retain a green color. Using these, he made an infusion which he gave to patients suffering from backaches.

He found it especially indicated if they were passing small quantities of water while suffering from rheumatic symptoms or backache with muscular aching, with an excessive quantity of uric acid and urates secreted.

Dr. Fearn of Oakland wrote that its action was very soothing upon the kidneys and urinary apparatus. He believed that it could be prepared for human food to as good, if not better, advantage than for animal food.

Dr. Ben Bradley of Hamlet, Ohio, believed that alfalfa is one of our upcoming remedies. He reported a case where a woman had seven children born apparently strong and well, but when they reached the age of eighteen years they wasted away and died.

When the last girl was taken with the symptoms of which the others had died. Dr. Bradley made a saturated tincture of Alfalfa seed concentrated, fully saturated and gave her ten drops four or five times a day. This is reported to have increased her weight from 99 to 133 pounds. She recovered good health.

Mr. D. aged 41, a chief clerk in the general offices of one of our railroad companies, had complained for several months of losing flesh. His appetite was poor, he did not relish his food. There was present an abnormal thirst, a loss of flesh and polyuria.

The quantity of urine for twenty-four hours was eighty ounces, specific gravity 1008. Nothing abnormal apart from an excess of indican. The prostate was enlarged and sensitive to pressure. He complained of some irritation upon urination.

Five drops of the tincture was prescribed four times a day. After two weeks he sent a message for a supply stating it had greatly benefited him. He called at the end of two months having gained ten pounds, the urine at this time was practically normal in quantity. The appetite was fine and he considered himself in a normal condition.

Mr. G, aged 29, complained of a loss of weight and appetite, excessive thirst, polyuria and mental depression. This syndrome had been gradually developing for the past year.

Physical examination showed a man of medium size, emaciated. Heart action weakened. Prostatic portion of urethra hypersensitive. The urine was greatly increased in quantity and of low specific gravity, free from casts and albumin, phosphates were increased.

Five drops of the tincture before each meal and on retiring gradually relieved the condition so that in three months he considered himself well.

RELATIONS - Compare: (1) Avena Sat., Hydr.. Dipodium punct. (2) Ars., Gels., Kali- p., Ph-ac., Zinc.

REFERENCES - Anshutz. Boericke. Clarke. Murphy

*****ALLANTOIN**

(Glyoxyldiureide)

PHARMACY - alian. Allantoin. Glyoxyldiureide (C₄H₆N₄O₃). Allantoin is a white, odorless, crystalline powder (when isolated). **Historical dose:** All potencies.

CLINICAL - Acne. Burns. Canker, sores. Diaper rash. Fever blisters. Rashes. Skin, disorders. Stretch, marks. Sunburn. Ulcers. Wounds.

HOMEOPATHIC - Allantoin is a botanical extract of the Comfrey plant and is used for its healing, soothing, and anti-irritating properties. Allantoin helps to heal wounds and skin irritations and stimulate growth of healthy tissue. This extract can be found in anti-acne products, sun care products, and clarifying lotions because of its ability to help heal minor wounds and promote healthy skin.

Abate stretch marks naturally. Promotes wound healing, speeds up cell regeneration, and has a keratolytic (skin-softening) effect. Allantoin has been termed a cell proliferant, an epithelization stimulant, and a chemical debrider.

It is said to clean away necrotic tissue,

hastening the growth of new healthy tissue. Since Allantoin stimulates new and healthy tissue growth, healing epithelization may take place.

Allantoin has been also termed a counter irritant that helps alleviate the untoward skin-irritation effects of certain cosmetic ingredients such as soap and detergent surfactants, oils, and acidic or alkaline materials.

It produces its desirable effects by promoting and speeding up the healthy, natural processes of the body. It helps the skin to help itself.

It has long been known to enhance the efficacy and desirability of cosmetic creams and lotions by its action as a skin protectant.

Allantoin has also been incorporated into shampoos, lipsticks, shaving creams, suntan products, bath foams, hair gels, baby powders and various aerosol preparations. Most recently, Allantoin has been used in various dental preparations such as toothpaste and mouthwash.

For the temporary protection of minor cuts, scrapes, burns and sunburn. Helps prevent and temporarily protects chafed, chapped, cracked, or wind-burned skin and lips.

Relieves dryness and softens cold sores and fever blisters. Helps treat and prevent diaper rash. Protects chafed skin. Minor skin irritation associated with diaper rash and helps protect from and seal out wetness.

REFERENCES - Murphy.

*****ALLIUM CEPA**

(Red Onion)

PHARMACY - all-c. Allium cepa. Red onion. N. O. Liliaceae. Alliaceae. Tincture of the onion. Tincture of whole fresh plant gathered from July to August. **Historical dose:** Tincture and all potencies.

CLINICAL -Allergies. Anus, fissure. Ascites. Catarrh. **Colds. Coryza.** Coughs. Diarrhea. Earache. Facial paralysis. Feet, easily galled. **Hay fever.** Hernia. Influenza. Itching. Laryngitis. **Neuritis.** Neuroma. Otitis. Panaritium. Pneumonia. Sinusitis. **Sneezing. Traumatic, neuritis.** Whitlow. Whooping cough. Worms. Yellow fever.

HOMEOPATHIC - Allium cepa covers more symptoms of **common colds and hay fever** than any other remedy. Anyone who has cut up raw onions for cooking knows the irritation upon the eyes and nose. Onions cause active sneezing and lachrymation. If the homeopathic principle of cure is true, it ought to be a good remedy for coryza, and it is.

All-c. affects the mucus membranes of nose, eyes, larynx and bowels, causing increased secretions. **Hay fever and coryza** with **acid nasal discharges** and laryngeal symptoms. Burning of the eyelids, nose, mouth, throat, bladder, skin. Acute colds from **damp cold weather.** Coughs, colds or headache, worse in warm room, better in open air, worse again on returning to warm room. Eye discharges may be bland.

Cough caused by tickling in larynx, constant inclination to hack in order to relieve it. It has cured violent catarrhal laryngitis, hoarse cough with feeling as if it would split and tear the larynx, causing watering of eyes. Cough from inhaling cold air. Nasal secretion is acid, secretion from eye is bland.

Traumatic neuritis. Neuralgic pains like a **fine thread**, following amputations or injuries to nerves. Thread-like pains in the face. Left-side facial paralysis. Wounds do not heal. Singer's coryza. Neuroma. Senile gangrene. Sensation of glowing heat in different parts of the body. Symptoms go from left to right. The feet are aggravated by walking.

The toothache is better by cold air or cold washing. Picking or sucking teeth improves the toothache. Sensation of glowing heat on different parts of the body. Desires raw onions. Strangulated hernia has been known to follow the eating abundantly of cooked onions. A raw onion eaten just before going to bed is a popular remedy for sleeplessness.

MIND - Anxious about their health. Despair of recovery. Fear that pain will become unbearable. Melancholy.

Indefinable anxiety. Indolence in morning. Confusion of mind, after coffee, wine.

Abdomen - Rumbling offensive flatus. Pains in left hypogastrium. Colic sitting, moving about. Very offensive flatus. Belching with rumbling and puffing up

of the abdomen. Violent cutting pain in the left lower abdomen, with frequent desire to urinate. Pains in liver region. Abdomen distended, rumbling, urging, and finally diarrhea.

Back - Intense pain in nape of neck. Pain under right shoulder blade. Chills run down the back with frequent urination, followed by heat and thirst.

Causations - Damp cold wind, weather causes colds and toothache. Colds of spring, hay fever of August, epidemics of spasmodic cough in autumn. Wet feet. Eating spoiled fish, cucumbers, salads. Injuries. Shooting pains after surgical operations.

Constitutions - Especially adapted to phlegmatic patients. Psoric and allergic constitutions.

Ears - Earache, shooting pain in Eustachian tube. Aching extending to throat. Itching in ears from allergies. Otitis media. Discharge of pus from the ear. Hardness of hearing.

Eyes - Itching, biting, burning in the eyes. Eyes red, sensitive to touch. Flow of tears. Much **burning** and smarting lachrymation. **Sensitive to light**. Eyes suffused and watery, profuse, **bland lachrymation**, better in open air. Burning in eyelids, worse coughing, wants to rub them. Sensation as if eye were hanging by a string or torn. Nearobjects seem distant, while yawning. Letters appear smaller. Swelling around the eyes.

Face - Thread-like pains in face. Paralysis of left half of face, also in limbs of same side. Facial neuritis.

Food - Thirst. Canine hunger. Appetite, increased or diminished. Strong craving for raw onions, cannot take any other nourishment.

Head - Dull headache, with coryza. Catarrhal headache, in forehead, **worse in warm room**, towards evening. Headache ceases during menses, returns when flow disappears. Aching in forehead, extending to eyes and face, better free running coryza. Electric shock passes through head. Skull bones numb. Pain in occiput and down the neck.

Kidneys - Sensation of weakness in bladder and urethra. Frequent and copious urination. Increased secretion of urine with coryza. Strangury after wet feet. Dribbling of urine in elderly people. Urine red, with much urging and burning in urethra.

Limbs - Joints feel lame. Panaritium. Painful disorders of the fingers about the nails, red streaks running up the arm. Limbs, especially arms feel sore and tired. **Neuralgia of stump**. Bad effects from getting feet wet. Ulcers when skin is rubbed off by the shoes especially on the heels. Sore feet from long walking.

Lungs - **Hacking cough on inhaling cold air**. Acute bronchitis. **Oppressed breathing** from pressure in middle of chest. Constricted feeling in region of epiglottis. Violent catarrhal laryngitis, the hoarse cough seemed to split and tear the larynx. Much sneezing and coughing.

Modalities - Better in open air. Better cold room. Better bathing. Better motion. **Worse in a warm room**. Worse damp weather. Worse spring. Worse wet feet. Worse afternoon and evening. Worse lying down. Worse singing. Rest aggravates, feels better from motion.

Mouth - Bad odor from the mouth and throat.

Nose - Fluent coryza with headache, cough and hoarseness. Way/ever (Euphr., Sabad., Psor.). Allergies every August. Spring coryza. **Nose drips**. Acrid discharge, when singing. **Sneezing**, especially when entering a warm room. Constant sneezing with profuse acrid coryza. Burning and smarting in the nose. Burning pain in edges of nose and lips. **Profuse watery discharge with sneezing**. Acrid burning discharge. **Nasal discharge excoriating the nose and upper lip**. Feeling of a lump at root of nose. Coryza, headache, cough and hoarseness. Copious acrid watery discharge from nose, with bland watering of eyes. Polyps. Nosebleed. **Sinusitis**. Sensitive to odors of flowers and the skin of peaches. Nose stopped, nasal voice. Common colds becomes laryngitis.

Rectum - Diarrhea after midnight and in the morning. Flatus very offensive. Hemorrhoids, tearing, jerking pains in anus. Stitches in the rectum. Cracks at the anus. Itching at the anus. Worms.

Skin - Redness, nettle rash, measles, scarlatina, when the complaints are characterized by the coryza symptoms. Prickling as from pins. Sensation of glowing heat on different parts of the body. Red streaks running up arm. Felon after childbirth.

Sleep - Yawning in deep sleep or with headache and drowsiness and cramp in stomach. Wakes at 2 a.m. Gaping in deep sleep. Dreams of being near water, of battles, precipices, deep wells, of storms, high waves, Annoying dreams in convalescents.

Stomach - Sour belching. Nausea, coming from stomach up the throat into the fauces. Weak, empty feeling in stomach. Pressure in stomach. Pain in region of pylorus.

Temperature - Fever with rumbling in the abdomen, coryza, and thirst. Flitting heat over whole body, and thirst. Coldness alternates with heat during catarrh. Sweats easily and copiously.

Throat - Hoarseness. Sensation as of a lump in the throat. **Tickling in larynx.** Expectoration of a lumpy mucus through the posterior sinuses. **Sensation as if larynx is split and torn.** Pain in throat extending to the ear.

COMMENTS - Coryza with frequent sneezing and profuse acrid discharge, corroding upper lip and nose. Lachrymation, also profuse, but bland (Euphr. is the reverse). The action of All-c. seems to be primarily in the nose (Euphr., in the eyes).

Allium Cepa is irritating discharge with burning and itching, from a cold, flu, allergies and hay fever. The nose, the back of the throat, the palate and the throat are itching and burning.

A keynote is that the upper lip is red and irritated. Frequent sneezing (Ars.), with discharge. Strong symptoms from the nose, profuse sneezing (Nat-m.). Another keynote is itching in the back of the throat that drips into the larynx and causes hoarseness and change of voice. Burning in the larynx and voice box.

Allergic asthma. A hay fever that was suppressed with antihistamines that went into the lungs (Ars., lod.).

Nash found it particularly useful in children when the profuse coryza or cold extended to the bronchial s with much mucus coughing and rattling of mucus.

RELATIONS-Antidotedby: Am. - toothache. Cham. - abdominal pains. Roasted coffee will remove onion breath. **Compare:** (1) Euphr., Wye., Sabad., Arundo, All-s. (2) Aeon., Puls., Gels. (3) Nux-v. - coryza recurring in August. (4) Verat. - colic with despondency. (5) Thuj. - offensive breath and diarrhea after eating on. ions. (6) Lach. - left to right. (7) Calen.. Hyper.neuritis, amputation pain. **Complementary:** Phos., Puls., Sars., Ther., Thuj. **Incompatible:** All-s., Aloe, Scilla. **Followed by:** Calc, and Sil. in polyyps.

***ALLIUM SATIVUM

(Garlic)

PHARMACY - all-s. Allium sativum. Garlic. **N. O.** Liliaceae. Alliaceae. Tincture of fresh bulb. **Historical dose:** Tincture and all potencies.

CLINICAL - Alopecia. Asthma, periodical. Bronchiectasis. Bronchitis. Catarrhs. Chest, complaints. Colic. Colitis. Constipation. Coughs. Coxalgia. Dandruff. Deafness. Diabetes. Diarrhea. Dropsy. **Dyspepsia.** Fevers. Hams. Headaches. **Hemoptysis.** Hemorrhoids. **High blood pressure.** Hoarseness. Mensfrual. Menorrhagia. Ophthalmia. Prolapsed anus. Retained, placenta. Rheumatism. Ringworm. Salivation. Scurvy. Skin, disorders. Sprains. **Tuberculosis.** Vertigo. Whitlow. Worms.

HERBAL - Garlic has been used as a condiment from ancient times and also as a remedy against worms and fevers. It has a reputation of lowering the blood pressure.

HOMEOPATHIC - All-s., though closely related to All-c., is incompatible with it and not very like it in action. It produces headache in connection with digestive troubles and menstruation. Heavy headache, can hardly open eyes, better onset of menses, worse after.

Teste cured with it chronic dyspepsia in old, fleshy persons, whose bowels were deranged by the least irregularity of diet. He also greatly relieved cases of diabetes mellitus with it. Periodical asthma, a case of permanent dyspnea, rheumatism of hip, swelling of breasts after weaning.

Characteristic respiratory symptoms include a cough, giving rise to fetid breath (Caps.). Bronchial catarrh with profuse, gelatinous, difficult mucus expectoration. Cough when smoking.

All-s. has vaso-dilatory properties. It acts directly on intestinal mucus membrane increasing peristalsis. Colitis with pathological flora. Adapted to fleshy subjects with dyspepsia and catarrhal disorders. High livers.

Patients who eat a great deal more, **especially meat**, than they drink. The digestion is disordered by slightest irregularities in diet. Pressure in epigastrium and transverse colon, better by pressure and sitting bent. Pain in hip, psoas and illiac muscles.

Stings and bites. Dropsy after protracted intermittent in marshy districts. The child is drowsy, lifeless, extremely pale, bowels torpid, will not walk and the legs do not grow as rapidly as rest of the body.

Breasts swollen and painful to touch. Profuse menses. During menses there is soreness of vulva and thighs.

Pulmonary tuberculosis. Hemoptysis. Cough and expectoration diminishes, temperature becomes normal, weight is gained and sleep becomes regular.

MIND - Anxiety and impatience. Sensitive. Fears he won't recover, that he won't able to bear any medicine. Fear of being poisoned. Fear he will never get well. Impulse to run away. Wants many things, pleased with nothing. Weak memory. Sadness when alone. Weeping during sleep.

Abdomen - Pressure in upper abdomen, better by sitting bent and pressing with both hands. Colic from flatus, twisting and pinchings around navel. Emission of fetid flatus. Everything seemed to drag downward. Weight in hypogastrium, immediately after a meal.

Back - Red spots like ringworm on the back. Itching between shoulders. Tearing, cutting pain in sacrum, in

morning. Simple pain in coccyx.

Breasts - Breasts swollen and tender during menses. Swelling of breast after weaning. Dull stitches in right breast. Breasts sensitive to touch. Eruption of red blotches between the breasts and around the nipples.

Causations - Drinking bad water, gluttony, meat eating.

Chest - Darting pain in the chest which prevents sleep. Pain in left chest with dark urine. Chest complaints worse after eating.

Constitutions - Rather a gourmand than a glutton. Suited to persons who are disposed to excesses at the table, have strong constitutions, dark complexions, firm flesh, though occasionally disposed to obesity. Persons who eat a great deal more than they drink. Suited to fleshy people and those used to high living.

Ears - Catarrhal deafness. Hardened earwax and crusts (Thuj.).

Eyes - Catarrhal ophthalmia at night, smarting, burning and lachrymation, agglutination, returns every night when he tries to read. Tarsi sore with irritation.

Face - Spots on face. Lips are dry. Sharp pain on one side of the face.

Female - Eruption in vagina, on breasts and vulva during menses. Menses profuse, too early. Headache and dizziness lessen as the flow becomes established. Soreness of vulva and thighs during menses. Suppurating pimples on vulva. During menses extensive excoriations of skin of internal portions of thighs. Retained placenta.

Food - Voracious appetite. Thirst. Hunger and emptiness in stomach without appetite. Desire for butter. Digestion is disordered by slightest error in diet. Complaints from bad water, gluttony.

Head - Heavy, pulsation in temples. Headaches before menses, ceases during, worse after menses. Heaviness in forehead. Dull pain in occiput in morning, while lying on the back. Headache with mucus in the throat in dyspeptic subjects. Dandruff.

Heart - Leaping beats of the heart. High blood pressure.

Kidneys - Urine increased. Whitish very abundant urine, becoming cloudy from nitric acid. A kind of diabetes. Dark brown with copious sediment.

Limbs - Rheumatism of hip. Tearing pain in hip. Pain in psoas and iliacus muscles, worse crossing legs. Painful contraction in arm. Pain in forearm, seems as if paralyzed. Burning, then moisture in palms. Skin peels off the hands. Tearing pains in fingers extending below the nails. Weakness in lower limbs, painful weariness in the thighs. Pain as from a sprain in ankle joint, in toe joints. Tingling in feet, burning in soles, stiffness in feet.

Lungs - Difficult breathing as if sternum compressed. Periodic asthma. Constant rattling of mucus in bronchials. Cough in the morning after leaving bedroom with mucus expectoration. Coughing when smoking. Sensitive to the cold air. Painful irritation of windpipe when coughing. Cough seeming to come from stomach. Dry cough after eating. Bronchiectasis with fetid expectoration. Great difficulty in expectorating a glutinous mucus. Expectoration of thin, yellowish, purulent-looking blood-streaked mucus of putrid odor.

Modalities - Better from sitting bent. Worse from change of temperature. Worse pressure. Worse drinking bad water. Worse gluttony. Walking aggravates pains in limbs. Every step causes excruciating pain in intestines. Worse in evening and night. Worse in morning on waking.

Mouth - Much sweetish saliva after meals and at night. Tickling sensation in the lower teeth. Swelling of lower gums. Dryness of palate. Hot taste in mouth, from throat, strongly reminding him of garlic.

Nose - Coryza rather dry than fluent, with pressive pain from above the root of the nose. Smarting at junction of ale nasi and face. Blowing blood from the nose in the night.

Rectum - Constipation with constant dull pains in bowels. Expels flatus. Stool first fecal, then watery and hot. Involuntary stools. Diarrhea with cuttings in abdomen and loins. Hemorrhoids. Prolapsed anus. Worms.

Skin - Loose, dry, wilted skin. Skin sensitive. Swelling with itching and burning. Red spots, on hands, on chest, on back. Herpetic itching burning, red or whitish spots on a swollen surface.

Sleep - Drowsiness after a meal. Muscles twitch on falling asleep. Sleep prevented by stitches on chest, weight on stomach, or thirst. Coldness felt in sleep and awakening him frequently. Dreams of water and storms. Anxious dreams, continuing after waking.

Stomach - Burning belchings. Slightest error in diet disturbs the stomach. Sensations of cold and or hot ascending esophagus. Burning in stomach, very sensitive to the least pressure. Weight in stomach which prevents sleep. Pressure inward as from a stone in epigastrium.

Temperature - Chilliness on one side only. Shivering before midday and in evening. During coldness, redness of face. Vomiting during the fever. Sweat in afternoon. Sweat acrid, causing itching, fetid.

Throat - Sticky feeling in throat with dryness, tickling, heat, and raw feeling in larynx. Sensation as of something cold rising in throat. Sensation as of a hot and smarting vapor rising in the throat. Mucus accumulations in the throat in the morning.

Tongue - Tongue pale red papillae. Sensation of a hair on tongue or throat.

Vertigo - Vertigo while reading. Vertigo on looking steadily at anything for a long time. Short-lasting vertigo, and only on rising from a chair.

COMMENTS - Pain, pressure from within outward (Bry.), stinging or stinging and burning or stinging with paralytic weakness, tearing and crampy. Sometimes they increase gradually to a high point and then decrease gradually (Sulph., Stann.). "Hair" sensation on tongue, worse reading. Copious sweetish saliva. The hip is the seat of many rheumatic pains.

Tearing in hip. Pain in psoas and iliac muscles worse least movement, though he can lift the limb with the hands. Aggravation from reading (Cina.).

Vertigo, brought on by looking long and steadily at anything. This is probably, in essence, the same modality as worse by reading. Catarrhal ophthalmia returning every night on trying to read. Coryza, moist, dry, thin, fluent with pressive pains above root of nose. Scurvy gums, sore mouth.

RELATIONS - Antidoted by: All-c., Lyc. **Compare:** (1) Ars., Senega, Kali-n. All-c. (2) Ornithogalum umbellatum - stomach disorders. (3) Bry., Caps., (fetid breath with cough). (4) Coloc. - colic, hip-pain, Ign., Kali-bi. (ropy expectoration, hairy tongue). (5) Rhus-t. and Hyos. (fear of being poisoned), Lyc., Nux-v., Seneg. **Complementary:** Ars. **Incompatible:** Aloe., All-c., Scilla.

***ALLOXANUM

(Meoxalylurea)

PHARMACY - allox. Alloxanum. Meoxalylurea. Allopathic drug. It takes the form of rhomboid crystals soluble in alcohol and insoluble in water. The anhydrous crystals are dark yellow in color, the hydrogenized crystals are colorless. **Historical dose:** All potencies.

CLINICAL - Aerophagy. Alcoholism. Aphthae. Arthritis. Bedwetting. Blood, disorders. Cardiac neurosis. Catarrh. Conjunctivitis. **Diabetes.** Diarrhea. Dysentery. Dyspepsia. Dysuria. Ecchymosis. Eczema. Glossitis. **Glycosuria.** Headaches. **Hypoglycemia.** Insomnia. Laryngitis. Leucorrhea. Myopia. Narcolepsy. Nausea. Neuralgia. Neurasthenia. Nightmares. Numbness. Osteoporosis. **Pancreas, disorders.** Pharyngitis. Pimples. Poly-neuritis. Purpura. Rheumatism. Toothache. Toxemia. **Toxic diabetes.** Vaginitis. Varicose veins.

HOMEOPATHIC - Alloxan was discovered accidentally by Dum and his collaborators in 1943. The toxicological action can be seen at the level of the pancreas, the kidneys, the liver, the lungs and in the blood. In animals, diabetes mellitus is provoked or, in other words, alloxanic diabetes. There would be a rapid degeneration if the islet Beta cells responsible for the production of insulin.

The homeopathic proving of Alloxan was undertaken by Templeton on two occasions, in 1949 on six provers, when the potencies 6c and 30c were tried out, and in 1951 on nine provers and seven controls.

Lack of heat and vital reaction. Disturbed sleep with nightmares. General indifference. Need for solitude. Dryness of digestive mucus membranes. **Diabetes mellitus.** Excessive thirst and frequent urination. Joint pains in the lumbar, sacral and ileocecal regions. Neuralgia of the tongue. Toothache.

Acrid dyspepsia. Spontaneous ecchymosis and eruption of itching pimples. Sensation of body being dispersed into different parts. Osteoporosis and muscular weakness. Decrease of phosphoremia and increase of phosphates in the blood. Glycosuria without hyperglycemia.

MIND - Great forgetfulness. Forgets places, names, things just done, just heard. Loss of short-term memory. Spelling mistakes. Words don't register. Mistakes in spelling. Dyslexia. Silly mistakes in writing simple words. Silly sort of attitude to serious things.

Alcoholic poly-neuritis with mental troubles. Paranoia. Sadness and tearfulness improved by solitude. Need for solitude and uneasiness about the future. Weeping better when alone.

Indifference towards the surrounding environment. Indifference to conversation. Indifference to loved ones. Indifference to work.

Irritable with people, talking, loud voices. Irritability from noise. Fits of anger. Hurried. Dogmatic. Dictatorial. Impatient, taps foot with impatience. Quarrelsome. Hurried, others move too slow. Wants to dash about, wants to do everything quickly.

Confusion as to his identity, as if head was being lifted off. Delusion, as if head were separated from body (Psor.). People talking seemed miles away. Voices seemed far away. Keeps washing hands.

Abdomen - Abdominal distention with profuse rumbling. **Toxic diabetes.** Ileocecal pain, aggravated by bending forwards and by movement. Sensation of a band around abdomen.

Back - Stiffness better stretching. Pain and cervical stiffness, aggravated in bed, ameliorated by stretching. Cramping pain in the shoulder blade, cutting pain, aggravated by drinking. Lumbar rheumatism. Arthritis of the

spine, preventing movement. Pain in the lower lumbar region, worse in bed, in kneeling position and by standing, better by hot weather. Pain in lumbar region worse cold weather. Pain in lumbo-sacral region extending down legs.

Bladder - Feeling of fullness in the bladder. Coldness in bladder, worse draft of air. Sensation as if bladder is swollen. Incontinence on hurrying to get up, on sneezing. Bedwetting.

Blood - Reduction in the number of phosphates in the blood plasma, normal presence of glucose in the blood, azotemia. Reduction of sedimentation rate.

Chest - Feeling of a heavy weight on the chest. Heaviness better menses. Stitching pain better menses.

Constitutions - The subjects are often phosphoric and very weak. Subjects nervous, uneasy, anxious.

Ears - Deep, drumming pain inside. Itching of the auditory canal. Eczema of the outer ear.

Eyes - Conjunctivitis. Eyelids red, burning and itching. Eyes painful, especially as a result of light and after reading, ameliorated by closing the lids. Sight dim with patches and bright spots. Myopia. Dim vision and twitching of eyelids, on waking (Cycl.). Sparks like fragments of fire.

Female - Inflammation of the vulva and vagina. Feeling of swelling in the vagina, especially after standing for a long time. White leucorrhea, non-irritating, but increasing with the approach of menses. Sensation as if vagina were swollen, worse standing.

Food - Feeling of hunger, quickly sated. **Hypoglycemia**. Aversion to salt. Desire for cold drinks, refreshing things. Excessive thirst and feeling of dryness. Worse cold drinks, warm drinks. Better warm drinks.

Head - Feeling of constriction and heat in the head, which is cold to the touch. Heaviness of head on waking with sensation of the hair being pulled. Headache better ascending steps, better closing eyes, worse couching, worse hot room. Headache from hunger, but eating does not relieve. Headache worse laughing, better talking, better travelling.

Heart - Pain as of a punch in the precordial region. Shooting pain in the heart, worse when walking. Retro-sternal cramping pain. Cardiac neurosis.

Kidneys - Kidney pain on the left side on urination. Dysuria. **Glycosuria**. Frothy urine, burning as it passes down the urethra. Frequent urination by day. Waking from urging to urinate, morbid desire. Sudden urging, can't hold urine for long.

Limbs - Cramp in the calves and toes in bed. Aching with shivering in the arms, legs, ameliorated by stretching out, aggravated by the cold and by standing. Chronic joint problems. Chronic rheumatism of the hip. Heaviness and prominent veins in the legs. Varicose veins. Varicose hemorrhage. Itching of leg followed by ecchymoses. Numbness of arms when raising them. Numbness of legs when crossing them.

Liver - Pain in liver on breathing, after eating, better eating, better pressure. Pulsating in liver. Bubbling in region of liver.

Lungs - Breathing difficult after meals.

Modalities - Better from climbing stairs.

Better closing eyes. Better eating, but if hungry, there is no improvement. Worse by dust, smells. Worse heat. Worse coughing. Worse laughter. Worse physical or mental exertion. Worse noise. Worse left side. Worse between 4 p.m. and 5 p.m.

Mouth - Breath smells like apples. Salty taste on lips. Sweetish taste on lips. Corners of lips cracked. Dry, chapped lips. Lowerjaw painful. Toothache, aggravated by sweet things. Tip of tongue painful.

Small, superficial ulcers on the mouth and palate. Bitter, acrid taste, sweet taste on the lips. Mouth dry.

Nose - Acute catarrh of the nasal mucus membrane with streaming, sometimes from the right side, sometimes from the left. Aggravated by dust, smells and heat. Catarrh from dust. Sensation of heat in nose on inspiration. Smell in nose as of musty books.

Rectum - Diarrhea, worse between 6 a.m. and 9 a.m., leaving a burning excoriation in the anus. Feeling of insufficient evacuation. Stools clammy and sticky, blood-streaked. Fullness after stool.

Skin - Dry, cracking eczema. Ecchymosis. Rheumatoid purpura. Purpura without fever, beginning suddenly with large, benign ecchymoses. Hands dry, chapped. Spontaneous bruising of the fingers and legs. Skin dirty, with eruption of itching pimples.

Sleep - Troubled sleep with dreams, nightmares. Sleepwalking, somnambulism. Insomnia until 2 a.m. Sleep disturbed by dreams. Dreams of accidents. Dreams being chased by a horse. Dreams of resurrection. Dreams of death of a friend. Dreams of bandits, robbers. Dreams of rats, toads, frogs in the bed. Dreams of being followed or falling. Dreams killing with a knife. Dreams being imprisoned. Dreams of sermons.

Stomach - Nausea before meals and heavy, aching feeling after. Nausea when travelling.

Throat - Acute and chronic laryngitis and pharyngitis. Dry, painful on the left side with burning, grating pain. Swallowing painful, improved with a hot drink. Throat pain better drinking, better expectoration, worse singing, when talking.

RELATIONS - Compare: (1) Uranium nit. - Excessive thirst, morbid hunger, emaciation. Polyuria. (2) Ph-ac. - Apathy, indifference towards everything, weakness, headaches, diarrhea, abundant urine, seminal discharge, weakness of vertebral column. (3) Arg-n. - Apprehension. Sadness. Weakness of legs. Feeling of a splinter of wood sticking in the pharynx. Urinary incontinence by day and by night, desire for sweet things to eat.

REFERENCES - Julian.

***ALNUS RUBRA

(Red Alder)

PHARMACY - aln. Alnus rubra. Red alder. Alnus serrulata. Alnus glutinosa. Black alder. Tag alder. Common alder of Europe. N. O. Cupuliferae. Betulaceae. Tincture of the bark. Tincture of the young shoots. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Glands, enlarged. Gleet, hemorrhage. Herpes. Impetigo. Leucorrhea. Psoriasis. Rheumatism. Scrofula. Syphilis.

HERBAL - The bark-tincture of Aln. is used by herbalists as an 'alterative' in scrofulous conditions in chronic skin affections, rheumatism, syphilis, gravel and gleet.

Aln. has some reputation as a remedy for skin affections, glandular enlargements and indigestion from imperfect secretion of gastric juice. It stimulates nutrition and thus acts favorably upon strumous disorders, enlarged glands, etc.

HOMEOPATHIC - Among its indications are leucorrhea with erosions which bleed easily, amenorrhea with burning pains from back to pubis and hematuria. Ulcerated mucus membranes of mouth and throat. Fingers covered by crust caused by pustules, disagreeable odor. Indigestion from imperfect secretion of gastric juice.

Female - Leucorrhea with erosions of cervix, bleeding easily. Amenorrhea with burning pains from back to pubis.

Skin - Chronic herpes. Enlarged submaxillary glands. Eczema, prurigo. Purpura hemorrhagica. Poison oak, used topically.

COMMENTS - The plant grows in swamps and marshes. Not to be confused with certain of the Rhamnaceae, which are also popularly called Alders.

Cooper, who used a fresh plant tincture of Alnus glutinosa, noted the "Pain in rectum after stool." and "heaviness in head as after being drunk the night before."

Hale gave, as particularly indicating it, "Eruptions on the skin alternating with diseased conditions of mucus membrane."

REFERENCES - Boericke. Clarke. Cooper.

***ALOE SOCOTRINA

(Common Aloes)

PHARMACY - aloe. Aloe socotrina. Common aloes. Aloe ferox. Aloe succotrina. N. O. Liliaceae. Aloaceae. Trituration or solution in spirit of the gum of the leaves. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Abdomen, plethora. Alopecia. **Anal, weakness.** Backache. Bronchitis. Cholera. **Colic. Colitis.** Constipation. Coryza. **Cough Diarrhea Dysentery.** Earache. Flatulence. Gleet. Gonorrhea. Headaches. **Hemorrhoids.** Hysteria. **Incontinence.** Insomnia. Jaundice. **Lumbago.** Nausea. Nosebleed. Onanism. Pimples. **Proctitis.** Prostate, disorders. Sacrum, pain. Skin, disorders. Tenesmus. Tuberculosis. Uterus, prolapsed. Varicose veins. Vertigo. Vomiting.

HERBAL - Aloe socotrina is one of the oldest and most famous remedies. It is in worldwide use as a purgative and forms a leading ingredient in a large number of patent medicines for regulating the bowels and menstrual functions.

HOMEOPATHIC - Aloe has the anti-psoric property of throwing out internal complaints to the skin. It causes congestion of various parts, especially abdomen, pelvic organs and head. Especially suitable to lymphatic and hypochondriacal patients. Bad effects from sedentary life or habits. Dissatisfied and angry about himself, alternating with lumbago.

Aloe affects **abdominal veins**, causing **congestion, relaxation in rectum**, liver, colon and pelvis. The rectal symptoms are usually very strong. Prolapse rectum. Burning in rectum. Heat internally and externally. Pulsation in rectum after eating.

Portal congestion. **Hemorrhoids like a bunch of grapes**, better cold bathing. Burning and stitching in anus and rectum from hemorrhoids, preventing sleep. Hot stool and flatus.

The child goes around the house, dropping little hard, round, marble-like stools. Diarrhea, after eating oysters in the hot season, or of beer drinkers. A lot of mucus is passed with pain in rectum, after lumpy, watery stools.

Rumbling, gurgling in bowels, sudden urging, **sense of insecurity** then hurriedly passes a gushing watery stool. Uncertain whether gas or stool will come. Diarrhea with pain in the rectum after stool. Lienteric stools. **Anal weakness**, oozes mucus. Stools escape with flatus or when urinating. Stools, mushy, lumpy, watery, gelatinous, bloody, solid stools passed involuntarily, urging to stools with passing flatus only.

Aloe has a diarrhea that is worse in the early morning (Sulph). Diarrhea worse immediately after eating, worse from walking (Aesc., Thuj.), or standing (Sulph.). Feeling of insecurity of bowels on passing gas or before stool (Phos.).

Periodic headaches which alternate with lumbago. Sensation of fullness in the parts. **Heavy, dragging**, as of a load. Drawing, downward sensation. Discharges, gelatinous, post nasal, stools, etc. General weakness and weariness. Heat external and internal.

Aloe has been used successfully in the treatment of tuberculosis by giving the pure juice. Carroll Dunham cured a heavy frontal incapacitating headache in an old man occurring in winter and alternating with a diarrhea which occurred in summer when he was free from headache. Dunham also cured incontinence of urine in an old man with enlarged prostate with the diarrhea.

MIND - Ill humor, especially in cloudy weather or with constipation. Taciturn after eating. Sense of insecurity. Discontented, better evening. **Dissatisfied and angry about himself**. Sadness in morning, better evening. Hates people, repels everyone. Thinks that she would die in a week.

Fright at slight noises. Restlessness and fear. Fear of men. Exhaustion alternating with activity. Disinclination to mental labor. Life is a burden. Aversion to labor. Lassitude alternating with great mental activity.

Children, with much emotions, chat and laugh.

Hysteria. Extremely excited during pain. Easily excited, angry, revengeful. Wants to destroy object of wrath, better tea or mild stimulants. Trembling from musical sounds and other noises. Imagines that persons are stepping hard or quickly. Time passes too slowly.

Abdomen - Heaviness in hypogastrium. Colic before and during stool. **Abdominal pains better from passing burning, offensive flatus**. Colitis. Dragging down in abdomen. **Abdomen feels full, heavy, hot, bloated**. Weak feeling, as if diarrhea would come on. Great accumulation of flatus, pressing downwards, causing distress in lower bowels. **Sensation as if plug between symphysis pubis and coccyx** with urging to stool. Twisting, griping pains, must sit bent forward. Soreness in sides. **Rumbling, gurgling in bowels, sudden urging**. Pain around navel, worse pressure. Pain from navel to rectum. **Bloated abdomen, more on left side, or along colon and worse after eating**. Pulsating pain around navel. Pelvis as if filled with hot water.

Back - Backache. Pain in lumbar region, worse moving. Sharp pain through sacrum, extending to loins. **Lumbago alternating with a headache and hemorrhoids**. Pain in sacrum, worse while sitting, better moving about. Creeping sensation beginning in sacrum, until it was a creeping in bones over whole body. Heaviness and pressure in sacrum worse sitting, better moving about.

Causations - Sedentary habits, poor diet.

Chest - Congestion to the chest. Breathing impeded by stitches in the left side of the chest. Front of chest feels sore on deep inspiration. Weakness of chest.

Constitutions - Adapted to weary people, the aged and phlegmatic, old beerdrinkers. Suited to old people, to women of relaxed phlegmatic habit, to persons of lymphatic or hypochondriac temperament. Allen said it's adapted to weary people with very broken down constitutions and elderly people. Menopausal years.

Coughs - Cough in winter, with itching. Coughs when she would sit down. Cough when standing, or stand up. Cough after sitting, with lachrymation. Dry, irritative, hacking cough with metallic taste in mouth. Cough with scratching in throat. Cough with sharp pain right side of larynx.

Ears - Cracking when chewing when mov-_{ing} jaw. Sudden explosion and clashing in left ear. Tinkling as of some thin, shivered, metallic globe in head. Sticking in left ear, later in right. Earache during menses. Internal and external heat.

Eyes - Lachrymation. Congestion of eyes. Pressure in orbits. Compelled to make small during pain in forehead. **Pain deep in orbits**. Flickering before eyes. **Redness of eyes with yellow vision**. Closes eyes partially from pain in forehead. Pain as if in muscles, worse right side.

Face - Lips dry, cracked, swollen, pustular, sore at corners. Lips markedly red, bleed-_{ing}. Pain while yawning or chewing. Heat of the face when excited, or during headache. Face pale during cloudy weather. Lips moist, white, scaly.

Female - Menses too early, last too long and too profuse. Menstrual flow increased, dark and clotted. Prolapse uterus. Bearing down in rectum, worse standing and during menses. Uterus feels heavy, cannot walk much on that account. Labor-like pains in loins, extend down legs. Menopausal hemorrhage. Heavy congested uterus with labor-like pains, felt in groins and hips worse standing and during menses. Leucorrhea of bloody mucus, preceded by colic. Dysentery after childbirth.

Food - No appetite. **Hungry during diarrhea.** Hungry after stools. Thirst with dryness of mouth, awakens at night. Aversion to meat. Desires juicy things, fruits. **Desires apples. Desires salty food.** Beer causes diarrhea. Beer relieves pains in anus. Diarrhea after eating oysters. Diarrhea from vinegar. Vinegar relieves colic. Sour food doesn't agree.

Head - Dull, pressive pain, worse heat. Headache alternates with lumbago. Headache alternates with intestinal and uterine

disorders. Headaches are above forehead with heaviness in eyes, must partially close them. Headache better closing eyes. Headache after stool. Headache with heaviness of eyes and nausea. **Headaches worse heat, better cold applications.** Heavy pressure on vertex. Clinking in head as from some thin-slivered glass, extending to ears. Headaches with gastrointestinal irritation and coldness of lower limbs. Congestion to head, compelling one to sit up. Congestion to head and face during stool. Sensitiveness of scalp in spots. Alopecia with chronic headaches. Dryness of hair.

Heart - Strong beat of heart occasionally. Pulse accelerated. Pulse weak, suppressed after vomiting. Pulse slow in afternoon.

Kidneys - Incontinence in aged, bearing- down sensation and enlarged prostate.

Every time on passing urine, feeling as if thin stool would escape with it. Burning pain when urinating. Frequent urging, worse at night or in afternoon. Urging so quick he can scarcely retain urine. Scanty, hot and high colored urine. Urine with much mealy sediment or slimy. Urine copious, pale, after stool. Urine saffronyellow, becoming cloudy.

Limbs - Lameness in all limbs. **Drawing pains in joints.** Sensation of weakness in the joints of the hands and feet. Sensation as if joints, bruised or dislocated. Pricking, dull twitching in joints. Paralytic drawing in muscles. Soles are painful when walking on the pavement. Cold hands with warm feet. Heaviness of right arm. Weakness of wrist-joints. Weakness of ankle-joint. Varicose veins.

Liver - Fullness in region of liver, pain under right ribs. Tension in the region of the liver. Uneasiness, heat, pressure, and tension in the region of the liver. Pain in the liver, worse on standing, so that he bends forward. Sharp pains in the liver, when drawing a long breath. Chronic types of jaundice with bilious states, the tongue is coated, breath foul, and a sensation of fullness and heaviness in hepatic region.

Lungs - Difficult respiration with sharp pains from liver to chest. Whistling in throat, as if something had fallen into trachea. Yellow, tenacious mucus. Spits up blood.

Male - Offensive sweat on genitals. Epididymis sensitive, to touch or while walking. Penis shrunk and testicles cold. Scrotum relaxed. Prostate enlarged. Involuntary emissions during siesta. Itching of prepuce. Erections after urinating. Premature ejaculation. Sexual irritability after eating, after waking (in children). Increased sexual desire with erections.

Modalities - Better from cool open air. Better cold applications. Better passing flatus. Better closing eyes. Better taking tea or stimulants. Worse in early morning. Worse evenings. Worse summer. **Worse heat.** Worse hot damp weather or hot dry weather. Worse after eating or drinking. Worse after dysentery. Worse yawning or chewing. Worse stepping hard. Worse evening. Worse standing or walking.

Mouth - Dry mouth, with increased thirst and greater redness of the lips. Lips dry, peeling off, cracked, bleeding. Metallic, bitter or sour taste. Bitter, nauseous taste. Taste like ink or iron. Yellow spots in mouth. Accumulation of saliva in mouth. Sickening smell from mouth. Increased salivation. Inflamed sore spots in mouth and inside of cheeks. Palate swollen. Concave edges of teeth seem sharp and hurt tongue.

Nose - Coldness of tip. Nosebleed in morning on awakening. Full of crusts. Nosebleed from nose after waking. Coryza with burning and pain in nose. Sneezing causes stitches in umbilical region. Redness of nose in open cold air. Dryness of nose in morning, in bed.

Perspiration - Cold sweat after stool. Sweat smells strong. Offensive sweat on genitals. Sweats at night. Sweats after drinking.

Rectum - **Every morning, on rising, has a hasty desire for stool.** Must run from bed to toilet. Diarrhea, drives him out of bed. Diarrhea from cold, damp room. **Diarrhea in hot, damp weather.** Diarrhea when walking or standing. Diarrhea after

Aloe socotrina chagrin. Hospital diarrhea. Colic and diarrhea. Cholera. **Rumbling, gurgling in rectum, sudden urging.** Sensation of weakness and loss of power of anal sphincter. **Sense of insecurity in rectum,** when passing flatus. Uncertain whether gas or stool will come. **Urging to stool as soon as he eats, or immediately after eating and drinking.** Constant bearing down in rectum, bleeding, sore and hot, relieved by cold water. Hemorrhoids protrude like grapes. **Hemorrhoids bleed often and profusely.** Hemorrhoids very sore and tender, better cold-water application. Hemorrhoids with soreness and constant bearing down in rectum. Burning and sharp pains in anus and rectum, from hemorrhoids, preventing sleep. **Burning in anus and rectum.** Burning, copious flatus. Constipation with heavy pressure in lower part of abdomen. **Pulsation**

in rectum and sexual irritation. Dysentery, after childbirth. Fistula in anus.

Skin - Itching, especially of legs. Spots which, when scratched, pain and become sensitive. **Itch appears each year, as winter approaches.** Golden colored skin. Furuncles with disordered liver. Ointments aggravates burning (Sulph.). Pimples on abdomen. Spots which, when scratched, become sensitive.

Sleep - Drowsy, dozing in morning. Spasmodic jerks when falling asleep. Sleeplessness from itching and burning in anus. Insomnia, cannot get to sleep for a long time, thoughts crowd upon him and keep him awake. Awakened by thirst. Awakened by urgency to urinate. Dreams of soiling himself. Oppressive dreams. Dreams of danger, could not cry out.

Stomach - Bitter, acrid or sour eructations. Tasteless belchings with oppressions in stomach. After eating, flatulence and nausea with a headache. Pain in pit when making false step. Sensations as if vomiting were coming on, from rising of flatulence toward throat. Fullness in stomach, followed by distension. Nausea with headache. Nausea with empty feeling in stomach. Nausea with pain at umbilicus. Vomiting of blood.

Stools - Feces and urine escape together, can't pass one without the other. Child goes around house, dropping little hard round marble-like stools. Stool passes without effort, almost unnoticed. Lumpy, watery stool. **Jelly-like stools** with soreness in rectum after stool. **A lot of mucus with pain in rectum after stool.** Stool escapes with flatus or when urinating. Stools mushy, lumpy, watery, gelatinous. Stools bloody. Stools small, brownish, slimy, half fluid. Stools bright yellow.

Temperature - Chill with coryza, in the cold open air. Chill at stool. Shivering. Cold hands, warm feet. Internal heat. Heat in spots, on scalp or face. Heat flushes with anxiety and restlessness.

Throat - Thick lumps of tough mucus. Varicose condition of veins in pharynx. Dry, scrapy feeling. Hawking of thick lumps of jelly-like mucus. Raw and swollen feeling in throat. Fauces raw, hot, as if burned. Scraping in larynx. Voice husky, hawking.

Tongue - Dry tongue. Yellow ulcers on the tongue. Severe fine stitches in under part of tongue when moving it. Tongue coated yellowish-white. Tongue stiff, dry, red. Inflamed sore spots on tongue.

Vertigo - Vertigo with sense of insecurity. **Vertigo on moving.** Vertigo as if everything whirled with her, worse going up stairs or turning quickly. Vertigo with anxiety when moving.

Vision - Flickering vision with heat of face. Flickering vision during headache. Yellow vision. Sees yellow rings moving before eyes, with redness of eyes. Dim vision while writing.

COMMENTS - This is Aloe socotrina, not Aloe vera. Keynote incontinent stool, and an early morning sudden urge to diarrhea or stool. Colitis, irritable bowel, and dysentery.

Uneasiness and pains in the liver region. Fullness, heaviness, heat and inflammation. The whole abdomen is painfully sensitive to touch. Rumbling. Feeling as of a plug wedged in between pelvis and coccyx. Abdominal colic. Burning gas, heaviness in the rectum. Strong relationship to Sulphur.

Sudden and continued desire to go to stool. Tenesmus, weak rectum with forceful stool. Desire for stool after each meal (Ars., Chin., Lyc., Podo., Trom., and Ferr. when it's while still eating).

Rumbling and cramping in abdomen before and during stool. The hard stool falls out without being noticed, urging to stool while passing water, every time on passing water feeling as if stool would pass. A hard stool may be passed involuntarily. "Stool passes unnoticed."

Nash noted the case of a child, constipated from birth, who screamed all the time he as being held to stool, could not pass it even after an enema. Yet when not trying, he passed solid pieces in bed without knowing. Cured with Aloe 200c.

Involuntary soft stool while passing wind. With the diarrhea, flatulency, pinching in abdomen, pain in back and rectum and chilliness. Flatus offensive, burning, copious, much flatus with small stool. Burning in anus with passing of flatus.

Lack of confidence of the sphincter ani (Cimic.). Stools like mush, bright yellow, gray, hot, undigested. Mucus and blood in feces. Profuse with jelly-like lumps. Watery stools, worse standing or walking. Watery stool containing lumps "like frog spawn."

Bilious, yellow fecal, bright yellow diarrhea, great rumblings in bowels and escape of much wind. Worse morning and evening in damp weather, from overheating after cold taken in damp room, after chagrin.

Diarrhea driving one out of bed very early in morning (Sulph). Diarrhea with sense of insecurity (Phos.). Faintness after stool with cold sweat. Gripping may (Nux-v.), or may not (Merc.), cease after stool. Heaviness, heat, pressing, burning in rectum. Itching, burning, pulsating as from fissures at anus.

After stool there is a cutting, feeling as if more would come, protruding hemorrhoids. Hemorrhoids that protrude like a bunch of grapes, constant bearing-down in rectum, bleeding, sore, tender, hot, better by cold water.

Periodic headache which alternates with lumbago. Darting pains in left temple worse every step. A peculiar dull, heavy, pressing pain in forehead. Worse all exertion, especially mental. Pressure in vertex and forehead as from a weight. Heaviness in the eyes (All-s.). Compelled to make the eyes small during pain in forehead.

In females, pain in hypogastrium as if menses coming on. Labor-like pains drawing into legs. Menses too early and too profuse. During menstruation there is a headache, better by application of cold water, earache, pain in small of back, and pressing down in rectum. Fullness in pelvis. Leucorrhea of bloody mucus preceded by colic. Pain in small of back, worse sitting or awaking at night, better moving about. Lumbago alternating with headache.

RELATIONS - Aloe is related to All-c., All-s., Agave., Scilla, Colch. **Antidoted by:** Sulph., Mustard, Camph. relieves for a while, Lyc., and Nux-v. relieve the earache. **Compare:** (1) Sulph. similar in many symptoms, and is of equal importance with Sulph. in chronic diseases with abdominal plethora. (2) Kali-bi., Lyc., All-s. (3) Ail. - dull, frontal headache. (4) Gamb. - diarrhea. (5) Am-m. - abdominal and diarrhetic symptoms. (6) Nux-v. - gastric abdominal and uterine troubles: bad effects of sedentary habits. (7) Aesc. - hemorrhoids. (8) Merc., - dysentery. (9) Podo. - alterations between head symptoms and abdominal symptoms. **Complementary:** Sulphur.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***ALOE VERA

(Aloe Barbadensis)

PHARMACY - aloe-v. Aloe vera. Aloe barbadensis. Aloe vulgaris. **Historical dose:** Tincture and all potencies. Use the Aloe vera gel externally or internally.

CLINICAL - Acne. **Burns.** Colitis. Diabetes. Diarrhea. Poison oak. Radiation, burns. Scars. **Skin, disorders.** Stomach, ulcers. Sunburn. Tuberculosis. **Ulcers.** Wounds.

HERBAL - Topical applications of the gel from the Aloe vera leaf have been used since ancient times **for burns and skin problems.** The gel can also be taken internally for diabetes, stomach ulcers, colitis or as a general tonic. Aloe has been used successfully in the treatment of tuberculosis by giving the pure juice.

RELATIONS - Compare: Calen.

REFERENCES - Murphy.

***ALSTONIA CONSTRICTA

(Bitter Bark)

PHARMACY - alst-c. Alstonia constricta. Bitter bark. Native quinine bark. N. O. Apocynaceae. Australia. Tincture of the **bark.** **Historical dose:** Tincture and all potencies.

CLINICAL - Anemia. Breast-feeding, disorders. Breast-milk, excessive. **Debility.** Diarrhea. **Dysentery.** Fevers. **Indigestion.** Intermittent fever. Leucorrhea. Lienteria. Malaria. Nausea. Palpitations. Pregnancy, vomiting. Rheumatic pains. Ulcers. Uterus, debility. Weakness.

HERBAL - Alstonia constricta is an exceedingly bitter herb. It grows in India and the one from Malabar are probably similar in effects to Alstonia scholaris. It has been used as a **tonic after exhausting fevers.** Locally, it has been for ulcers and rheumatic pains.

HOMEOPATHIC - Alstonia was proved by Dr. Cathcart of Australia, who found it produce great debility and prostration or low fever often with diarrhea. Characteristic gone sensation in stomach and sinking in abdomen with debility. Malarial disease with diarrhea, dysentery, anemia, and feeble digestion.

Dr. Dietz gave the following as leading indications: debility from lack of digestive power in the stomach or general assimilative power. Tongue generally has a dirty white coat, especially at base, though it may be clean. Nausea, worse morning, before breakfast or at irregular times, when depending on reflex irritation from pelvic organs.

Food seems to remain in stomach a long time undigested. Diarrhea of undigested food immediately after eating, has to leave table before finishing a meal. This symptom was cured by Alst. c. lx in a patient who had taken a great deal of iron.

Violent purging and cramps in bowels. Heat and irritation in lower bowels. Camp diarrhea, bloody stool. **Dysentery.** Diarrhea from bad water and malaria. **Painless watery stools** (Phos-ac.). Diarrhea immediately after eating.

Leucorrhea and bearing-down worse by walking. Swollen feeling in right ovarian region. Sharp shooting pain from left side of stomach through to back (spleen).

RELATIONS - Compare: (1) Similar in action to Alstonia scholaris, the Dita bark of India and Malabar. (2) Ars., Chin. - similar in diarrhea, chronic dyspepsia and debility. (3) Hydr., Ferr-cit., Chin.

REFERENCES - Boericke. Clarke.

***ALSTONIA SCHOLARIS

(Dita Bark)

PHARMACY - alst-s. *Alstonia scholaris*. Dita bark. Satwan. N. O. Apocynaceae. India. Tincture of the bark.

Historical dose: Tincture and all potencies.

CLINICAL - Anemia. Cramps. Debility. **Diarrhea**. Dysentery. **Indigestion**. Intermittent fever. Malaria. Ulcers.

HERBAL - *Alstonia scholaris* is an exceedingly bitter herb. It grows in India and the one from Malabar are probably similar in effects to *Alstonia constricta*. Dita the active principle is anti-periodic like quinine, but without unpleasant effects. **A tonic after exhausting fevers**. Topically used for ulcers and rheumatic pains.

HOMEOPATHIC - Malarial diseases with diarrhea. Dysentery, anemia, feeble digestion, are the general conditions suggesting this remedy. Characteristics are the gone sensation in stomach and sinking in abdomen, with debility.

Diarrhea immediately after eating. **Diarrhea from bad water**. Cramps in bowels with violent purging. Irritation and heat in lower bowels. Camp diarrhea. Bloody stool. Dysentery. Diarrhea from malaria. **Painless watery stools** (Ph-ac.).

RELATIONS - Compare: (1) Similar in action to *Alstonia constricta*, the bitter bark of native quinine of Australia. (2) Ars., Chin. - similar in diarrhea, chronic dyspepsia and debility. (3) Hydr., Ferr-cit., Chin.

REFERENCES - Boericke. Clarke.

***ALUMEN CRUDUM

(Potash Alum)

PHARMACY - alumn. *Alumen crudum*. Potash alum. Potassic-Aluminic Sulphate. Trituration of the crystallized double sulphate of Aluminium and Kalium. Trituration of the pure crystals. **Historical dose:** Trituration and all potencies.

CLINICAL - Alcohol, effects. Alopecia. Anus disorders. Asthma. Backaches. Breast, cancer. Bronchitis. Catarrh. **Cancer**. Chilblains. Colic. **Constipation**. Coughs. Diabetes. Diarrhea. Dysentery. Eczema. **Emaciation**. Epithelioma. Esophagus, stricture. Eye, disorders. Eyes, surgery. **Fungus**. Glands, indurated. Gleet. Gonorrhea. **Hemorrhages**. Hoarseness. **Indurations**. Itching, skin. Lead, colic. Leucorrhea. Locomotor ataxia. **Nausea**. Noma. Otorrhea. Palpitations. Paralysis. **Paralytic, weakness**. Polyps. Scurvy. Skin, rough. Strabismus. Teeth, operations. Throat, disorders. Typhoid. **Ulcers**. Uterus, disorders. Uvula. Vaginismus. Vertigo. **Vomiting. Weakness**.

HOMEOPATHIC - The well-known astringent action of Alum, gives a leading indication for its use in practice. On the other hand, it is equally available for the states of relaxation, which corresponds with its secondary action.

Stools as hard as stones. No desire for stool for days. Aggravated constipation and hemorrhage from bowels during the course of typhoid. **Cancer of uterus and rectum** with the most **obstinate constipation**. Constrictions and contractions of sphincters and various parts.

Tendency to **induration of glands** and other tissues. Tongue, rectum, uterus etc., are hardened, ulcers with indurated base. Indurations following inflammation. Lupus or cancer of nose. Scirrhous of the tongue.

Paralytic weakness of all the muscles of the body with typhoid. Relaxation of muscles.

Prolapsed uterus and rectum, excruciating pains. **Sensation of dryness and constriction**. Mental paresis, dysphagia especially to liquids.

Sluggish action of muscles, hemorrhages of various kinds, large clots in typhoid, relaxed mucus membranes, relaxed uvula, hoarseness and bronchial affections, diarrhea. Sensitive to cold, exposure to air causes roughness and chaps in the skin. Yellow bland discharges.

Useful after operations on the eyes and teeth. **Hemorrhages from leech bites, extracting teeth**, etc. Parenchymatous bleeding from mouth, gums, nose, uterus. Hemorrhages of dark blood. Mucus membrane dry in nose, on tongue in mouth, larynx. **Emaciation**. Joints of arms, hands and feet feel bruised.

MIND - Nervous tremors from bad news. Doubting people. Lactophobia. Desires to remain in bed. Fear of falling. Spells of rage, attacks people.

Thinking about disease causes palpitations. **Anxiety at night**. Anxiety at night with nausea and headache. Sadness in morning. Weeping in morning.

Abdomen - Colic worse by walking, with fullness and heaviness. Potter's colic, lead colic. Abdomen retracted, better from pressure. Contractive sensation deep in pelvis with complaints of rectum and bladder.

Back - Sensation as if cold water were poured down back, with headache. Backache in evening on both sides of spine, with every deep inhalation. Weakness of spine in evening.

Bladder - Irritable bladder alternating with pain in vertex. Catarrh of bladder, mostly with the aged. Discharge of mucus from urethra. Itching of orifice of urethra.

Breasts - Sore, inflamed nipples. Induration of cervix and breasts (Carb-an., Con.). Breast cancer.

Causations - Bad news. Operations on eyes, on teeth.

Constitutions - Adapted to elderly people, especially bronchial catarrhs. Disease of bladder. Children with profuse bronchial catarrh.

Coughs - Cough in morning before breakfast, better after. **Dry cough, in evening after lying down.** Chronic morning cough of elderly people. Cough from tickling in larynx caused by talking.

Ears - Heat in both ears and left side of face at night. Purulent otorrhea. Hears every noise in sleep.

Eyes - **Wild look with spells of rage.** Bruised feeling on pressure or by moving eyelids. **Spots on cornea.** Prolapse of iris after cataract operation. Right eye squints towards the nose. Varicosities of conjunctiva. Purulent ophthalmia of infants. Itching burning on border of lower lids. Dilated pupils. Diplopia by candlelight. Sees double by candlelight.

Female - Induration of cervix. Left ovary affected. Menses scanty, watery. Hands weak, drops things during menses. Chronic gonorrhea, yellow with little lumps along urethra. Weight and prolapse of uterus. **Affections of left ovary with troublesome constipation.** Chronic yellow vaginal discharge. Leucorrhea and emaciation with yellow complexion. Vagina very sensitive, and narrowed by swellings of various size. Vaginismus. Itching. Aphthous patches in vagina (Caul.). **Bleeding after childbirth.**

Food - Appetite increased, even with fullness in stomach. Loathes food. **Emaciation.** Thirst, throat dry and increased appetite with heat in stomach, better by drinking cold water, intense with fever. Mouth dry, but no increase of thirst.

Head - Alopecia. Rush of blood to head. Headache, better drinking cold water. **Burning pain and weight on vertex,** better ice-cold cloths pressed on the part. Headache shooting through temples with nausea, better drinking cold water. Jerking pain in left forehead, evening. Pains coming and going, from place to place. Headache in morning on awaking.

Heart - Palpitations worse from thinking of her disease. **Palpitations from lying down on right side.** Palpitation from mental excitement. Pain from heart to lower part of right leg. **Dilatation of heart.** Strong pulsation through whole body.

Kidneys - Frequent and painful urging with painful passing of small quantities of urine. Must urinate every hour or two, night and day. Diabetes mellitus. Urine passed with difficulty. **Oily iridescent film on urine.** Urine falls down perpendicularly (Hep.). **Urine scanty, clear flow, containing lumps of blood.** Urine sediment slimy, tough or membranous. Scanty, reddish urine in colic.

Limbs - Bruised pain in joints of arms, hands and feet. **Weakness of all muscles,** especially arms and legs. Constricted feeling around limbs. Cold hands and feet during pain in stomach. Chilblains.

Lungs - Asthma. Croup and bronchitis. Catarrh of chest. Hemoptysis. Great weakness of chest. Difficult to expel mucus. Copious ropy, expectoration in morning in elderly persons. Ropy sputa. Atonic hemoptysis.

Male - Eczema on the back of penis and scrotum. Erections while at dinner. Frequent emissions. Gonorrhea, gleet. Shooting pain from middle line of belly, as along a thread, down into penis. Cutting pain in left side of penis.

Modalities - Worse from cold, except headache, which is relieved by cold. Worse during sleep. Worse lying on right side. Worse bad news.

Mouth - Mouth dry, without thirst. Dryness of mouth, tongue and throat. **Taste bitter, sourish, astringent.** Taste sweetish. Disgusting after-taste. Spreading ulcers in mouth. Noma. Profuse salivation, mercurial in origin or not.

Nose - **Nasal polyps,** left side with rough skin all over the face and body. Lupus or cancer on nose. Dryness of nostrils and choanae. Nosebleed.

Rectum - **Constipation of the most aggravated kind,** as in cancer of uterus and rectum. No desire to stool for days. Violent ineffectual urging to stool. No ability to expel stool. **Marble-like masses pass, but rectum still feels full.** Itching after stool. Itching in anus. Long lasting pain and smarting in rectum after stool, also hemorrhoids. Yellow like an infant's, fetemorrhage from howe/s. Wematemesis of hard drinkers. Passes large clots.

Sensations - Sensation of dryness. Sensation of constriction, as if a cord or band around limbs in paralytic states. ;

Skin - Skin roughens and chaps after exposure to cold air. Skin dry. Eczema. Proud flesh, chilblains, indolent ulcers. **Ulcers with indurated base.** Indolent ulcers. Scorbutic ulcers. Indurations resulting from chronic inflammations. Glands inflame and harden. Furuncles on body, on thighs. **Fungus granulations.** Alopecia. Epithelioma. Veins become varicose and bleed.

Sleep - Many complaints come on during sleep, like nightmares. Light sleep, hears every little noise. Can't get to sleep on account of orgasm of blood. Sleeplessness from fever. Disturbed by nightmare, at 4 a.m.

Stomach - Burning heat, better by drinking cold water. Sinking sensation, better by eating. The pain is better by pressing on stomach. Nausea with faintness and weakness. **Attacks of nausea in morning before**

breakfast. Vomits large quantities of glairy mucus or tough, colorless slime. **Vomiting of everything he eats.** Vomits blood. Habitual vomiting in alcoholics.

Teeth - Teeth loose. Teeth and gums scorbutic. Gums swollen, inflamed, spongy. **Profuse bleeding after extraction of tooth.**

Temperature - Chill during nausea. Coldness followed by headache. Coldness of skin followed by heat and tingling. Coldness during pain in stomach, followed by heat with rush of blood to head, can hardly hold it up. Furious delirium. Fever with intense thirst, nausea, etc. Internal heat throughout body. Heat in forehead. Warmth creeps over abdomen.

Throat - Tendency to throat colds. **Burning and severe pains.** Hoarseness worse from talking. Aphonia. **Enlarged and indurated tonsils** from frequent colds. Every cold settles in throat. Mucus membrane red and swollen. Throat relaxed. Throat sore and dry when swallowing fluids. **Uvula inflamed and enlarged.** Uvula elongated, **relaxed. Scraping** in throat **with** cough.

Tickling in throat. Burning pain down the esophagus. Constriction, spasms of esophagus, liquids can scarcely be swallowed.

Tongue - Dryness of tongue. Tongue dry, black. Tongue burning in evening. Tongue sour feeling, stitches worse at tip. Tongue clean, except a slight coating of slime on back part. Scirrhus of tongue.

Vertigo - Vertigo with weakness in the pit of stomach, better opening eyes, turning on right side. Vertigo when lying on his back.

COMMENTS - The Alumn. patient is very sensitive to cold, exposure to air roughens and chaps the skin. Slight scratches bleed. Bleeding after tooth extraction. Catarrhal conditions prevail throughout.

Sensations of dryness and contraction. Contractive sensation in abdomen and pelvis and retraction of abdomen as in lead colic. Paralytic states with the sensation as if bound with a tight band.

Tendency to indurations whenever inflammations occur. Scirrhus indurations, indurated glands. Pains are insupportable. Attacks come and go suddenly, periodically.

Many complaints come on during sleep, like nightmares. Turning on right side improves the vertigo. Lying on right side brings on palpitations. There is sensitiveness to all sorts of weather changes and especially to cold. W. P. Wesselheft cured bronchitis characterized by scraping from upper sternum to throat with free expectoration of thick, yellow mucus, paroxysmal cough, morning cough with gagging.

Aching in chest and in the lower part of the back in region of lower ribs. Profuse expectoration with a scraping pain, for scraping coughs are usually dry. All-c. had helped the preliminary sneezing and coryza.

RELATIONS - Antidoted by: Cham. - cramps in abdomen. Nux-v., Ip. - nausea and vomiting. Sulph. **Antidote to:** Lead poisoning, calomel and other mercurials, Aloe - vomiting blood. **Compare:** (1) Alumina, Alum, Aloe. - rectum. (2) Caps. - long uvula. (3) Ferr. - relaxed abdominal walls, prolapsed uterus. (4) Kali-bi. - stringy discharges. (5) Merc. - prolapsed uterus, vagina, rectum, tenesmus. (6) Merc-c., Mur-ac., Nit-ac., Nux-v., Op., Plat. - lead poisoning. (7) Plb., Rat., Stann., Sulph., Sul- ac., Zinc - eyes.

REFERENCES - Boericke. Clarke. Grimmer.

***ALUMINUM ACETICUM

(Aluminum Acetate)

PHARMACY - alum-acet. Aluminum acetate. Solution. **Historical dose:** All potencies.

CLINICAL - Hemorrhage. Skin, infections. Uterus, weak. Wounds.

HOMEOPATHIC - Aluminum acetate arrests hemorrhage from inertia of uterus. Externally, it is used as a lotion for putrid wounds and skin infections.

REFERENCES - Boericke.

***ALUMINUM OXYDATA

(Aluminum Oxide)

PHARMACY - alum. Aluminum oxydata. Aluminum oxide. Argilla. Pure clay. Oxide of Alum. Trituration. //ivtorica/rfo.se.'Trituration and all potencies.

CLINICAL - Aluminum, poisoning. Alzheimer's Disease. Anus disorders. Boils. **Brain, weakness.** Bubo. Catarrh. Chlorosis. **Colds. Colic. Constipation. Cough.** Cracks. Debility. **Dehydration.** Dementia. Disappointment. **Dryness.** Dysentery. Dyspepsia. Eczema. **Emaciated. Eyes disorders. Fatigue.** Fissures. Fistulas. Headaches. Hernia. Lead, poisoning. **Leucorrhea. Locomotor ataxia. Memory, loss.** Muscles, weak. Nails, disorders. Otorrhea. **Ozaena.** Paraesthesia. **Paralysis.** Pregnancy, disorders. Prostatorrhoea. Ptosis. Scrofula. Senility. Strabismus. Taste, disordered. Tetters. Throat, disorders. Trismus. Typhus.

HOMEOPATHIC - Alumina causes **dryness of skin and mucus membranes,** eyes, throat, rectum etc. Irritability and relaxation. It affects the **cerebro spinal axis** causing disturbances in coordination and tendency

to **paretic muscular states**.

Alumina paralyzes the bowels in the same way as lead poisoning to which it is an antidote. **Constipation with dry stool**. Obstinate constipation. Lack of urge. Must strain in order to pass a stool. Small and soft stools are passed with great difficulty. Straining to pass even a soft stool, can only evacuate bowels when standing. Strains as if abdomen and rectum were paralyzed. Painful evacuations with spasms of the colon. Must strain at stool in order to urinate. Urine is slow in passing.

Painter's colic. Pregnant women and children with constipation. **Constipation from artificial baby foods**. Elderly people with constipation, lack of vital heat or prematurely old with debility. Sluggish functions, heaviness, numbness and staggering. Functions become sluggish, actions are delayed, sensory impressions reach the consciousness slowly.

Alumina produces irritation of mucus membranes with dryness or extreme secretion and paralysis of involuntary muscles, like its relative Alumen. It affects the rectum, the nervous and muscular systems generally.

Degeneration of spinal cord. Paraesthesia. Paralysis of the internal rectus muscle of the eye, causing squint. Also ptosis. Drawing, pains appear in the limbs, a sensation of constriction in several organs. Locomotor ataxia. Boenninghausen cured a case of ataxia with Alum.

Craves dry rice and dry food. **Worse from starch, especially potatoes**, salt, wine, vinegar, and spirits. Patient is thin, inactive, wants to lie down, but it increases the fatigue. Exhaustion after talking, after menses. Disposition to colds in the head and belchings in spare, dry, thin subjects. Tendency to induration. Vertigo on closing eyes.

MIND - Senility and dementia. Absentminded. **Memory weak or loss**. Forgets things, loses their way. Alzheimer's disease. The consciousness of reality and judgment is disturbed. Timid. Makes mistakes in speaking and writing. Inability to think coherently. Slowness in answering questions and vague replies. Cloudiness and drunken feeling alternating with pain in kidneys.

Alternating moods. Always groaning, moaning, worrying, fretting. Sneers at everything. **Contrary**. Grumbles. Obstinate. Peevish. **Hasty, hurried**. A feeling of hurry follows, things do not move fast enough. Hasty, but slow of execution, hence makes mistakes in speaking and writing. Contemptuous laughing. Laughs and talks between paroxysms of spasms.

Depressive mental states. **Low-spirited**. Everything is viewed in sad light. Ill effects of disappointments. Ailments from anger. Sad, apprehensive, wants to get away. Mental symptoms mostly come on in the morning on waking. Depressed on awakening. Involuntary weeping.

Great stupor with fear of falling forward. Fears loss of reason (Med., Calc.). **Anxiety of conscience, as if guilty of a crime**. Impulses. Fears his own impulses. Desire to kill at the sight of a knife or a gun. Suicidal tendency or impulses when seeing a knife or blood.

Confusion as to personal identity. When he sees or states something, he has the feeling, **as though another person had said** or seen it, or as though he was placed in another person and could see only them. Things seem unreal. Time passes slowly. Illusions of being larger, numb, smooth, heavy. Sensation as if he would fall forwards, which he greatly fears.

Abdomen - Abdomen as if hanging down heavily, when walking, worse afternoon. **Left-sided abdominal complaints**. Colic whenever the body is exposed to a chill. Cutting pain better warmth. **Lead colic**. Colic in morning. **Painter's colic** (Plb.). Protrusion and incarceration of inguinal hernia. Pressing in both groins toward sexual organs. Sticking pain from below upward. Sharp pains in region of inguinal ring. Shooting pain in region of spleen. Big-bellied children. Flatulence. Reaching too high strains abdominal muscles.

Back - Backache as if bruised. Pain along spinal cord with paralytic weakness. Gnawing pain. **Sensation as if hot irons were thrust through lower spine**. Violent sharp pain in middle of back. Back feels bandaged by a cord.

Back - Shooting in right side of neck. Throbbing in lumbar region during stool. Sudden sharp pain, like a stab in lower part of back, with feeling as if she could not straighten spine. Swelling of glands of left side of neck. Itching in nape and of throat. Cervical muscles drew head back during sleep.

Breasts - Nipples itch, burn, look irritated and inflamed during pregnancy.

Causations - Anger, disappointments. Bodily exertion, lifting.

Chest - Congestion of blood to chest and head, with redness of face. Chest feels constricted, worse sitting bent or stooping.

. Violent oppressive pain, worse at night. Chilliness in chest. Soreness of chest on talking, on lifting. Chest as if too large.

Constitutions - Psoric persons. Infants, constipation, especially when artificial food is used. Big-bellied children. Suited to persons of sedentary habits who suffer from chronic ailments to constitutions with

diminished animal heat. Spare habit, dry, thin subjects. Elderly people, hypochondriacal or suffering from chronic diseases, especially catarrhs. Puberty, chlorosis with longing for indigestible substances. Elderly people with lack of vital heat or premature old age with debility.

Coughs - Coughs soon after waking in morning. Coughs on talking or singing, in morning. Constant, dry, hacking cough, interrupts breathing. Cough on talking or singing. **Morning cough.** Coughs with sneezing. Coughs from elongated uvula. Dry hacking cough from tickling in throat or irritability in larynx, worse morning, worse using voice. Coughs at times with dyspnea, vomiting or even involuntary escape of urine. **Continued dry, hacking cough with vomiting and arrest of breathing.** Dry cough at night, with dryness of throat. Coughs with much expectoration. Cough causes pain in right temple and vertex.

Ears - Sharp pain in ears, evening or night. Eustachian tube feels plugged (Kali-m.). Heat and redness of one ear. Purulent discharge. Humming, roaring. Crackling noises and buzzing in ears when, chewing

Aluminum oxydata or swallowing. Sound as of large bells. Sensation as if something lay before ear. Buzzing as if outside ear.

Eyes - Burning pain on waking with photophobia. Chronic conjunctivitis. Eyes are inflamed, burning, agglutination at night, lachrymation during day. Hot or acrid tears. Eyes feel cold. **Granular lids or chronic blepharitis.** Itching in canthi and lids. Photophobia in morning. Ptosis. Strabismus. Eyelids are weak, falling. Upper lids difficult to raise as if powerless. Eyelids thickened, dry, burning, smarting. Double squint, worse teething. Inclination to stare. Eyes better from being bathed. Eyelashes fall out.

Face - Gloomy, pale, or red alternating with pale. **Old look, dusky, wrinkled.** Coppery cheeks. Feels as if albuminous substance had dried on it. Sensation as if white of egg or a cobweb on face. Rush of blood to face after eating. Tearing and lancinating in malar bone. Twitching of lower jaw. Involuntary spasmodic twitchings of the lower jaw. Maxillary joints feel tight, while chewing or opening mouth. **Lips dry, chapped.** Blood-boils and pimples. Nodules or boils on face and nose. Rubs face all the time.

Female - Menses preceded by headache, colic. Menses too early, short. **Menses scanty, pale, followed by great exhaustion** (Carb-an., Cocc.). Girls, dried up and wrinkled, at puberty. It takes a woman all her time to recuperate from one menstrual period to the next. **Leucorrhea acrid, profuse, transparent, ropy.** Acrid, corrosive leucorrhea, with burning in genitals. Leucorrhea with burning, runs to feet. Leucorrhea, worse during daytime and after menses. Leucorrhea relieved by washing with cold water. Intolerable bearing down pain. Severe painful swelling in ovaries, very sensitive to touch. Painful throbbing in left side of vagina. Tickling and itching in genitals with strong sexual desire. Sexual desire decreased.

Food - Irregular appetite. No desire to eat. **No appetite, food has no taste.** Thirst all day. Meat has no taste. **Aversion to meat** (Graph., Arn., Puls.). **Aversion to beer.**

Aversion to potatoes. Abnormal cravings for coarse food, indigestible things. **Desire for starchy foods.** Cravings for chalk, charcoal, dry food, clean white rags, tea or coffee grounds. Desires fruits, vegetables, dry rice. Desires cloves, acids. Desire for coffee. **Worse from potatoes.** Potatoes causes bitter eructations. Onions causes soreness of throat. Hypoglycemia. Worse when hungry causes trembling and weakness. Worse tobacco smoke.

Head - Headache better by lying quiet in bed. **Chronic catarrh of head.** Sharp, burning pain in head with vertigo, worse in morning, but relieved by food. Throbbing headache with constipation. Pressure in forehead as from a tight hat. Vertex painful to touch. Inability to walk except with eyes open. Violent sharp pains in the brain with nausea. Increased pulsation of temporal arteries. Headache, as if one were dragged by the hair. Falling of hair. Scalp itches and is numb. Itching of scalp with dry, white scales. Dry hair.

Heart - Palpitations and shocks at heart. Wakes at 4 a.m. to 5 a.m. with anxiety at heart, better after rising. Palpitations irregular, large and small beats alternate.

Kidneys - Muscles of bladder paretic, **must strain at stool in order to urinate.** Pain in kidneys with mental confusion, worse dancing. Frequent desire to urinate in old people with slow flow. Difficult starting. Fears he will wet the bed. Retention with dribbling. Smarting while urinating. Feeling of weakness in bladder and genitals.

Limbs - Pain in arms and fingers, as if hot iron penetrated. Arms feel heavy, as if paralyzed, short, go to sleep. Legs feel asleep, **Especially when sitting with legs crossed.** Locomotor ataxia. **Staggers on walking.** Legs feel numb, especially when sitting cross-legged. **Heels feel numb** when stepping. Soles tender, on stepping, feel soft and swollen. Pain in shoulder and upper arm. Gnawing beneath fingernails. **Brittle nails.** Gnawing under nails. Spinal degeneration and paralysis of lower limbs. Festination. Inability to walk except when eyes are open or in daytime. Totters if eyes were closed. Soles are painful on

Aluminum oxydata stepping on them, as if they were too soft and on walking. Cramps when crossing legs. Bones feel squeezed.

Liver - Soreness over liver, on stooping. Tearing pain from liver to hip. Painful sensibility of the liver on stooping, followed sometimes by shooting pains.

Lungs - Arrested breathing by copious, thick, tenacious, saltish mucus. Rattling, asthmatic breathing, worse coughing. Wheezing, with tough mucus in larynx. Sneezing interrupts breathing, worse after waking in the morning. Dyspnea, with spasmodic pains in stomach and hypochondria. Dyspnea when lying on back, better when turning on side. Getting tired from exerting voice aggravates. Hoarse, aphonia, tickling in larynx, wheezing, rattling respiration. Sudden loss of voice on taking cold.

Male - Prostatic discharge. Voluptuous itching or tickling in genitals. Pains in the perineum during sex and while erection continues. Left testicle hard and very painful. Light yellow pus from urethra, causes itching of glans penis. Priapism at night. Sensation of weakness in penis. Increased sexual desire, followed by loss of power. Involuntary emissions when straining at stool.

Modalities - Better evenings. Better open air. Better moderate exertion and temperature. Better damp weather. Better cold. Better washing. Better as day advances. Worse periodically. Worse on alternate days. Worse dry weather. Worse full and new moon. Worse in afternoon. **Worse from warmth of room orbbed.** Worse from artificial food. Worse potatoes, starch, salt. Worse tobacco smoke. Worse from speaking. Worse when waking. Worse sitting. Worse after menses, sex. Worse lifting, exertion.

Mouth - Dry and sore. Musty bad odor from mouth. Gums sore, bleeding. Tensive pain in articulation of jaw when opening mouth or chewing. Mouth feels dry with increased saliva. Tingling, itching on tongue.

Nose - Disposition to head colds. Nasal catarrh with scanty secretion and obstructed nostrils. Discharge of thick yellow mucus. Pain at root of nose. Sense of smell diminished. Fluent coryza with frequent sneezing. Redness of nose. **Point of nose cracked, red.** Nostrils sore, worse touch. Nosebleed with pressure in forehead and congestion to eyes. **Scabs with thick yellow mucus.** Tettery redness. **Ozaena atrophica sicca.** Membranes distended and boggy. Septum of nose swollen, red, and painful to touch.

Perspiration - Inability to perspire. Sweats at night, toward morning most profuse in face. Sweats frequently only on right side of face.

Rectum - Inactive rectum and bladder. **Severe, obstinate constipation.** Constipation of infants (Coll., Psor., Paraf.) and elderly people. Constipation in women of very sedentary habit. Rectum sore, dry inflamed, bleeding. Itching and burning at anus. Pulsating pain in anus. **Even a soft stool is passed with difficulty. Great straining.** Pains from rectum to ankle. Can only pass stool when standing. **Evacuation preceded by painful urging long before stool and then straining at stool.** Pressure and sense of excoriation in rectum after a small, hard stool. Hemorrhoids worse evening, better after night's rest. Diarrhea on urinating. Diarrhea, worse on alternate days. Corroding diarrhea during menses. Stools of small balls, hard knots. Stools with bright clots of blood. **Hard, dry, knotty stools with no desire.** Stool like sheep dung. Stools covered with mucus.

Sensations - Sensation of constriction. Pulsations are felt in various parts and pains go upwards.

Skin - Dry, tettery, itching eruptions, worse winter. Eczema. Dry, rough, cracked skin. Chapped and dry tettery. Itching, burning, over seat of pain. **Intolerable itching when getting warm in bed.** Must scratch, until it bleeds. Intolerable itching with constipation. Brittle nails. Brittle skin on fingers. Veins distended. Itching and formication with flatulence, dry stools or diarrhea. Ulcerated surface secretes yellow-brown, badly smelling pus. Slightest injuries of the skin smart and become inflamed. Skin symptoms, worse winter, full and new moon.

Sleep - Sleepy in morning. Frequent waking. Sleeplessness forepart of night. Restless sleep, turns frequently, feels too warm, lies uncovered in unrefreshing slumber. Anxious, restless with confused dreams. Dreams about thieves, ghosts. Dreams of boats foundering. Nightmares. Many dreams before menses, on awaking face hot, headache and palpitation.

Stomach - Belchings, sour and acrid. Heartburn, stomach feels constricted. Chronic eructations for years, worse evening. Heartburn with profuse salivation. Distension of stomach. **Potatoes disagree.** No desire to eat. **Can swallow but small morsels at a time.** Feels food, whole length of esophagus. Constriction of esophagus. Pain lasting 3 hours after meals. Nausea, with faintness. Frequent nausea and inclination to vomit. Pain, as from excoriation, in the pit of the stomach. Vomiting with hacking cough. Vomiting of food, mucus or bile.

Teeth - The teeth covered with sordes. Teeth feel long, pain extends to other parts down larynx, neck, shoulders.

Temperature - Chill with great thirst. Chilliness, better open air. Shivering, even when near a fire. Chill at night, in bed, not able to warm oneself. Chill all over during stool. During the day chill, fever during the night. Heat with itching. Fever towards the evening with chilliness. Fever at night with anxiety and sweat.

Throat - Irritable and relaxed throat. Looks parched and glazed. Clergyman's sore throat in thin subjects. Dry **and sore throat.** Food cannot pass, esophagus contracted. Feels as if splinter or plug were in throat. Thick, tenacious mucus drops from posterior sinuses. **Great dryness which induces frequent clearing of throat in evening.** Dry, feels full of sticks or constricted, food cannot pass. Constant inclination to clear the throat.

Tightness from pharynx down to stomach as if food could not pass, can swallow but small morsels. Swallowing painful, worse solids. Better from empty swallowing, warm drinks. Elongated uvula from condiments creating irritating things, talking or singing. Throat sore from eating onions. Uvula hangs down.

Vertigo - Vertigo in elderly people with atheromata or earthy deposits on the cerebral or cardiac arteries. Vertigo with nausea, better after breakfast. Worse talking, on closing or opening eyes, before breakfast. Vertigo with white stars before the eyes. Eyes suddenly went out of focus, one has to wait for normal vision, better wiping eyes.

Vision - Objects look yellow. White stars before eyes, with vertigo. Dim vision obliged to wipe eyes constantly, with sensation as if lids would adhere in corners. Fiery spots. Farsighted. Dim vision as if through mist or as if feathers before eyes. Glittering vision after blowing nose.

COMMENTS - Alum, and Plb. (Lead) antidote each other in homeopathy. They're very similar in their pathologies, but Plb. is more severe and painful. The action of Alum, is slow in developing and the remedy must not be changed quickly. Teste grouped Alum, with Sep. and Cop. He considered it the chronic of Sep. as Sil. is of Puls.

A remedy for the elderly and feeble, especially in senile dementia. Pathological memory loss, confusion over their own identity, slowness of mind. A lot of fears, confusion. Great general fatigue, even after a short walk, but chiefly after speaking. Frequent stretching while sitting. The buttocks go to sleep while sitting. Drags the legs, especially the left one.

Sensations are slow in being transmitted to the centers. Keynote delayed nervous reaction. Spinal diseases, local motor ataxias. Slow onset of nerve degeneration, paralysis of the lower limbs with emaciation, wrinkled face and dry skin. Incoordination of the limbs, loss of control of limbs. Tottering gait.

Several painful symptoms appear after the midday meal and continue until evening, when they disappear or are replaced by others which begin only then.

On the other hand, the pains which appear in the morning or in the evening are abated after eating.

Trembling, convulsive movements of the limbs and head, spasms with tears and laughter alternately. There is exaltation of the whole nervous system. Trembling of the whole body with a desire to lie down.

Catarrh with dryness of mucus membranes, The throat looks parched and glazed. The nose is stopped, feels dry and the point of it is cracked. Alum, has the fish-bone sensation in the throat on swallowing. There is profuse leucorrhea running down to the heels, sometimes excoriating.

Itching eruptions, worse from warmth of bed. Eruptions of all indurations, ulcers. Granular eyelids. Hairs fall out all over body. The skin of the face feels as if covered with dried white of egg or as if a cobweb was on it. Fissures.

Severe dryness of the skin and face where the face is wrinkled, symptoms in children where the children's skin wrinkles, ages and dries out. Alum, in physical doses is a drying agent. The first symptom is that the hair dries and flakes, the skin dries. It affects the fluid balances in the body.

Burning pains in the back are common, especially a sensation as if a hot iron were forced through the lower vertebrae. There are pulsations in various parts. The pains go upward. Upper left, lower right affected (opposite of Lyc.). The symptoms are worse on alternate days, periodically. Keynote as if a hot poker is stuck in the spine.

Another keynote is potatoes and starch disagree, especially affects constipation. Constipation of nursing children from being fed artificial food and bottle-fed babies. Aggravated by hot, dry weather, and the moon phases. Worse heat of the bed, worse after menses. Dryness without eruptions. Desires indigestibles like chalk, sand, dirt (Calc., Tarant.).

RELATIONS-Antidote to: Lead.Antidotedby: Bry., Nat-m., Cham., Ip., Camph. **Compare:** (1) Bry. Plb. (2) Aluminum chloridum. Pains of loco-motor ataxia. Lower trits in water. (3) Slag Silico, Sulphocalcite of Alumina 3x - anal itching, hemorrhoids, constipation, flatulent distention. (4) Sec., Lath., Aluminum acetate solution. (5) Alumen, Arg-n. (clergyman's sore throat, paralysis), (6) Bar-c. - hypochondriasis of elderly, constipation, Bry., Calc., (7) Con. (old people, squint), (8) Ferr. - chlorosis, relaxed abdomen, disgust for meat, etc. (9) Ferr-i. - profuse transparent leucorrhea. (10) Graph. - chlorosis, skin rough, chapped, itching, nails, blepharitis, etc. (11) Lach. - sad on waking, menopause. (12) Ruta - loss of power of internal recti. (13) Sepia - irritable, tearful, ozaena, scanty menses, puberty, prolapsus uteri, inactive rectum, weakness in urinary organs, etc. (14) Sil., Sulph., Zinc. - inner canthus, granular lids, worse from wine. **Complementary:** Bry. Plb. **Follows well:** Bry., Lach., Sulph.

*****ALUMINUM PHOSPHORICA**
(Aluminum Phosphate)

PHARMACY - alum-p. Aluminum phosphoric. Aluminum phosphate. Solution. **Historical dose:** All potencies.

CLINICAL - Asthma. Boils. Bronchitis. **Constipation.** Diabetes. Diarrhea. Hair, loss. Headaches. Hemorrhages. Hyperventilation. Ingrowing, toenails. Leucorrhea. Lung, disorders. Mental, prostration. Migraines. Osteoporosis. **Paralysis.** Petechia. Rickets. Shocks. Somnambulism. Strokes. Tuberculosis. Vertigo. Vomiting.

HOMEOPATHIC - Burning pains. Feeling of numbness and cobwebs. Constriction. Discharges watery, scanty, acrid. Dryness. Hemorrhages of bright red blood. Cerebral hemorrhage. **Paralysis, ascending.** Onesided paralysis from hemiplegia. Shocks.

Weakness and nervousness. Diabetes. Strong desire for the open air which relieves. Sensitive to cold which aggravates. Sensitive to thunderstorms. Bruised, burning, pressing pains, worse morning and night.

Electric shocks, worse after sleep. Boils on nates and thighs. Ingrowing toenails. Standing is extremely tiresome. Extreme thirst, except during fever.

MIND - Mental prostration. Confusion of mind. Apathetic. Extreme weariness. Irritable. Suited to mental breakdown after overwork or overstudy. Mental exertion aggravates. Chronic effects of grief. Nervous and anxious. Worse from thinking of their symptoms.

Easily frightened. Fear of being alone. Fear of dark. **Fear of thunderstorms.** Fear of twilight. Fear of future, disease. Fear of death of family and friends. Fear of knives, blood. Fear of insanity. Fear of own impulses. Fears come and go suddenly.

Ailments from mental work. Anxiety and perspiration. Nervous, restless. Hurried. Discontented. Timid, yielding. Complaining, moaning and groaning. Slow to act and answer. Apathetic and depressed. Mental confusion. Lamenting over imaginary misfortune. Suicidal.

Alternating moods. Excitement alternates with dullness. Abundant ideas, clearness of mind, alternates with deficiency of ideas. Indifference alternates with excitement. Ailments from sexual excesses. Weeping in morning on waking (Alum.). Frequent crying.

Bladder - Ineffectual, fruitless, urging at night. Frequent urination at night.

Chest - Pain after herpes zoster. Palpitations of heart after menses.

Ears - Ears hot and red. Sensation of flapping in ears.

Face - Face sickly, bluish red. Sensation of white of egg dried on it.

Female - Excoriating leucorrhea. Menses too early, short. Menses profuse. Menses pale blood. Tiredness after menses.

Food - Extreme thirst. Aversion to warm food. Aversion to meat, fish, oysters. Aversion to beer, salt. Aversion to cold drinks, cold food. Aversion to milk, potatoes, tobacco. Desires dry food, rice, starch. Desires coffee, spices. Desires fish, salt. Desires fruit, sour foods. Better warm drinks. Worse from potatoes, milk. Worse from artificial food. Worse warm

food, warm drinks. Worse cold drinks, cold food. Worse from tobacco. Worse alcohol.

Head - Pain in sides of head. Migraines. Loss of hair. Headache after sleep. Headache, worse warm room. Pain in occiput. Pain in sides. One sided headaches. Pressing pain, worse pressure. Pressing pain in occiput at night (Sulph.). Pressing pain in temples at night.

Limbs - Bone problems. Growing pains. Rickets. Osteoporosis. Tingling fingertips. Weakness of thighs. Weakness of knees.

Lungs - Lung disorders. Hyperventilation. Bronchitis. Asthma. Tuberculosis.

Modalities - Better from open air. Better pressure. Better lying on left side. Better damp weather. Worse from cold. Worse motion. Worse from jar, walking, stepping. Worse from lying. Worse standing. Worse from sexual excess. Worse from mental exertion. Worse from thinking of symptoms. Worse dry weather. Worse 9 a.m. and 9 p.m. Worse winter.

Mouth - Mouth dry. Breath offensive, even putrid.

Nose - Nasal discharge, green. Pain, worse pressure. Lost of smell.

Perspiration - Perspiration little or none.

Rectum - Diarrhea. **Constipation,** dry, hard stools, no urging or great urging. Stool has to be removed by artificial means. Green stools. Hard, tough and greasy stools (Caust.). Knotty stool.

Skin - Itching eruptions worse warm room (Sep.). Dry, peeling skin. Rough skin with cracks. **Itching,** scratching until it bleeds. Petechia. Loss of hair.

Sleep - Sleeping on right side, amel. Short sleep. Somnambulism. Worse on waking. Dreams of death. Dreams of falling. Dreams of robbers.

Stomach - Vomiting worse drinking.

Vertigo - Vertigo in morning, on closing eyes. Vertigo, falling, worse closing eyes. Vertigo tendency to fall

forwards.

RELATIONS - Compare: (1) Alum., Sil., Alum-sil.

REFERENCES - Boericke.

***ALUMINUM SILICATA

(Aluminum Silicate)

PHARMACY - alum-sil. Aluminum silicata. Alumina silicate. Kaolin. Chinese clay. Porcelain clay. Bolus alba. Andalusite rock. Alumina 63, Silica 37 parts. Kaolin is disintegrated Fei spar. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Brain, disorders. Chest, soreness. Convulsions. Croup. Diphtheria. Lead poisoning. Nose, soreness. Spinal disorders.

HOMEOPATHIC - According to J. Landesmann, Alum-sil. is a remedy for croup and bronchitis. Aegidi was the first to use Alum-sil. in cases of croup. In old-school practice it was used "as **a completely inert powder**" in the same way as fuller's earth and also as a basis for making pills.

Alum-sil. is a deep acting remedy for chronic complaints of brain, spinal cord and nerves. Weakness, especially spinal. Aching and burning in spine. Formication, numbness, pain in all limbs.

Constriction, of orifices. Aching and burning in spine. Formication, numbness and pain in all limbs. Epileptiform convulsions. Coldness during pains. Venous distention.

Croup in the lower portion of the larynx or upper part of the trachea, which may be recognized by the much more laboring and sawing respiration.

Chest - Excessive soreness along trachea and chest. **Soreness**, cannot stand percussion. Catarrh of chest, pain, raw feeling. Feeling of great weakness in chest. Stitching pains.

Head - Congestion of brain. Constriction of scalp. Pain in head, better heat, perspires. Pain in forehead. Pain in eyes, flickering. Frequent coryza. Swelling and ulceration of nose.

Limbs - Heaviness, jerking, numbness, aching and pains.

Lungs - Spasmodic cough with purulent viscid expectoration. Gray sputa. Capillary bronchitis. Larynx and chest sore. Membranous croup, extends down trachea. Husky voice, metallic, rasping breathing and suffocative cough.

Lungs - Croup dipping down into trachea, heavy, labored, sawing respiration.

Modalities - Better warmth. Better fasting. Better resting in bed. Worse cold air. Worse after eating. Worse standing. Worse towards evening. Worse in the night.

Nose - Itching and burning. **Yellow discharge. Sore, scabby**, stopped up. Nostrils feel sore, scabs form in nose, scanty and blood-streaked secretion.

Skin - Dryness of skin. Formication along course of nerves, veins feel full and distended. Sore to touch and pressure.

Throat - Membranous covering of left side of throat of right side.

COMMENTS - Landesmann confirmed its efficacy and related a case as an example. After Aeon., Hep., Spong., Bor., Phos. and Iod. had failed to relieve, Alum-sil. 6c, four or five globules every half-hour, rapidly removed the laboring, sawing respiration and the child was out of danger.

According to Farrington, a leading indication is internal soreness along trachea and the upper part of the chest, the child will not be touched. The use appears to be from the clinical side entirely. Alum-sil. 30c relieved symptoms of lead poisoning in a case of Clarke's.

RELATIONS - Compare: (1) Alum., Sil., Kali-bi., Spong., Iod., Hep., Aeon. (2) Fuller's Earth.

REFERENCES - Boericke. Clarke.

***AMBER

(Fossil Resin)

PHARMACY - succ. Amber. Fossil resin. Succinum purum. Amber oil. (A mineralized fossil resin not to be confused with Ambergris, Ambra). Trituration. Solution of the non-rectified oil prepared by dry distillation of Amber. Solution of Succinic **acid. Historical dose:** All potencies. Drop doses of the oil.

CLINICAL - Asthma. Fears. Globus. Hayfever. Hiccough. Hysteria. Leucocythemia splenica. Spleen disorders.

HOMEOPATHIC - The fossil resin known as Amber has been used in folk medicine by many cultures.

Dr. Morris Weiner tested Amber, which he prepared himself from Amber, by dry distillation. The fumes of the crude acid, he said, are inflammable and produce asthma, cough, sneezing, weeping, dropping of watery mucus from nostrils, pain in chest and headache.

On this indication he treated thirty persons suffering from hay fever, and cured them all, saving them the necessity of making an annual exodus. He gave one or two grains of the 3x trituration of Amber diluted in

twelve teaspoonfuls of water, a teaspoonful every two hours.

Burnett wrote in Diseases of Spleen, that the Amber non-rectified oil is used as an organ remedy in spleen affections, especially when accompanied by nervous and hysterical phenomena. Burnett noted it for hysterical convulsions in women.

The crude oil is a thick, brown liquid having a strong empyreumatic odor. It is a powerful local irritant and has been used with success as such in lumbago, rheumatism and sciatica.

Amber produces many nervous and hysterical symptoms. Asthma. Fear of trains and closed places. Affections of spleen. Symptoms of collapse, the patient aborted, but recovered.

Heaviness externally. Lassitude. Lie down, desire to. Pulse slow. Trembling externally. Twitching. Weakness, daytime afternoon. Weakness after walking.

MIND- Absorbed mentally. Dullness of mind. Stupefaction. Concentration difficult. Forgetful. Feels constantly as if he had forgotten, something. Memory, weakness. Mistakes in time, confounds the present with past. Disoriented. Abstraction of mind.

Confusion of mind. Confusion as to sexual identity. Confusion, knows not where he is. Confusion of past and present. Confusion, as if in a dream. Speech slow. Expressing oneself difficult.

Mood, alternating. Anger. Offended easily. Averse to being disturbed. Aversion to company, yet fear of being alone. Irritability from conversation. Irritability from noise. Dictatorial. Contemptuous. Hatred of men. Wants to fight. Censorious. Attempts to escape. Suspicious. Fastidious. Sadness after midnight, amel. Desires to attack others.

Loathing, of life. Grief. Unfortunate, feels. Sadness from disappointed love. Lovesick. Sentimental. Homesickness. Forsaken feeling. Helplessness. Estranged feelings. Sensation of being isolated. Despair of life. Weary of life. Suicidal thoughts.

Pities herself. Weeping easily. Weeping from menopause. Weeping during menses, during regrets. Weeping from sickness. Weeping when telling of her. Answers in monosyllable. Aversion to answering. Indisposed to talk others.

Anxiety in daytime, morning. Panic attacks with feelings of electricity. Starting startled. Frightened easily. Fear of conscience. Fear of color black. Fear of everything. Fear of dark. Fear of death. Fear from flying in airplane. Fear in insanity. Fear of narrow places. Fear of trains and closed places. Fear of shadows.

Want of self-confidence. Excitement, excitable. Restlessness. Conviction of death. Desires death, Sensation as if dying. Aversion to the color black. Charmed by orange purple. Contented with himself.

Impressionable. Senses acute. Sensitive to all mental impressions. Sensitive to external impressions. Sensitive to music. Sensitive to noise. Sensitive to reprimands and criticism. Sensitive to reproaches. Sensitive to rudeness.

Desire to frighten others. Gossiping. Haughty. Desire to hide. Reproaches himself. Hysteria. Impatience. Indifference. Sensation as if she could easily injure herself. Intolerance. Introspection. Jestings. Desire for sunlight.

Full of cares. Cautious. Remorse. Childish behavior. Coquettish. Aversion to men. Aversion to conversation. Thinking of complaints aggravates. Aversion to certain persons. Aversion to being touched. Aversion to washing.

Serious. Ardent. Religious affections. Thoughts intrude of the past. Tormented thoughts. Time, appears slower. Clairvoyance. Affectionate. Amorous disposition. Veneration for the sun. Singing. Shuns the foolishness of men.

Delusions, she is beautiful. Delusions, things look beautiful. Delusions, has lost affection of friends. Delusions, impression of division, between himself and others. Delusions, put him into a fury, rage. Delusions sees black objects. Delusions, everything seems unreal.

Delusions, surrounded by enemies. Delusions, as if just waking from adream. Wrong, everything seems. Coma, unconsciousness. Delusions, she would fall if she did not hold onto something. Delusions, has neglected his duty.

Abdomen - Flatulence. Gurgling. Rumbling. Cramping pain, must bend double. Cramping pain before menses. Hypochondria. dragging, bearing down pain. Eruptions, itching. Trembling.

Back - Itching. Backache, motion amel., stretching amel. Backache, turning head agg. Aching pain in cervical region. Lumbar region sore and bruised. Stiffness. Neck pain, sides. Neck stiffness. Back weakness after walking.

Bladder - Frequent urination at night. Urine burning.

Chest - Pains in chest. Constriction in chest.

Pain in sternum during cough. Sore bruised pain in ribs, left side.

Cough - Dry cough. Hard cough. Tight cough. Cough, worse, from smoke, tobacco.

Dreams - Nightmares. Frightful dreams. Dreams of monsters. Amorous dreams. Animal dreams. Awake while dreaming. Dreams of old friends. Dreams of being late. Dreams of being pursued. Dreams of being lost. Dreams of death and decay.

Ears - Sensation of fullness. Heat, flushes.

Itching. Pain, behind the ear, touch aggravates. Inside sore. Stopped up. Hearing. Acute.

Eyes - Unable to keep the eyes fixed steadily. Granular. Heaviness sensation. Itching from cats, with lachrymation. Lachrymation, daytime. Lachrymation in cold air. Lachrymation when laughing. Opening the eyelids difficult. Burning pain when looking at the fire. Pressing pain left eye. Stinging pain. Sharp pain, left eye. Photophobia. Pupils, contracted. Desire to rub eyes. Styes. Swollen, lids. Twitching, around eyebrows left. Weak eyes.

Face - Discoloration, red. Expression, old looking. Itching. Numbness. Pain, jaw left pulsating, jaw left. Tension, jaw left. Twitching eyes, below. Twitching corners of mouth. Wrinkled skin.

Female - Menses copious. Menopause, during lying amel. Frequent late menses. Menses painful protracted. Metrorrhagia during menopause. Aphthae, vagina. Heat, flushes during menopause. Sexual desire, increased. Weakness during menses.

Food - Appetite, diminished easy satiety. Appetite, wanting with headache. Desires fruits. Desires sweets.

Head - Headaches. Congestion of head. Constriction, forehead vertex. Formication, vertex. Heat in occiput, temples. Heaviness sensation of forehead. Numbness. Headache, better after eating. Headaches from fasting. Headache above the eyes. Headaches from cold air. Pulsating in temples. Headaches, worse light. Headaches better lying, pressure. Itching.

Limbs - Awkwardness, lower limbs. Coldness. Electrical current sensation. Formication of legs. Heaviness sensation. Itching of shoulder hand, back of legs, feet. Jerking. Numbness. Pain, Wandering, shifting pains in left shoulder, while walking. Aching pain. Cramping pain in shoulder. Sore bruised pains. Stiffness of joints, shoulders, arms, hands. Tension in shoulders. Trembling of limbs. Twitching. Weakness, limbs.

Lungs - Asthma. Asthmatic from contact with cats. Congestion of lungs. Deep desire to breathe. Difficult breathing in daytime, morning. Difficult breathing, lying amel. Difficult breathing, after walking. Chronic bronchitis. Incipient tuberculosis. Whooping cough.

Male - Formication of genitalia. Masturbation, disposition. Aching pain in testes. Sexual desire, increased in morning.

Modalities - Better open air. Desire for open air. Aversion to bathing. Worse air, draft. Worse food, alcohol. Worse fats. Worse spices. Worsesweets. Worsecloudy weather. Mental symptoms, worse before or during menses.

Mouth - Bleeding, gums when cleaning them. Dryness in mouth. Neuralgic pain in gums. Salivation. Taste, acrid.

Nose - Coryza. Nasal congestion. Discharge, copious watery. Dryness. Itching, inside. Own body odor agreeable. Nasal obstruction. Pressing, rawness pain. Sinusitis. Tingling, tip of nose. Sneezing, dropping of watery mucus from nostrils.

Rectum - Diarrhea, daytime. Diarrhea after eating. Painless diarrhea. Brown stools, like chocolate. Light colored stools. Mushy stools. Orange stools. Thin stools. Watery stools.

Skin - Formication. Itching. Sensitive.

Sleep - Disturbed. Sleepiness daytime lying, inclination to lying down. Sleeplessness, midnight, after. Waking night, midnight after, 4 a.m. Anxiety, as from early frequent.

Stomach - Cramping pain, eating amel. Dull pain. Persistent hiccough. Belching. Fullness after eating, ever so little hunger, during. Heartburn after sugar. Indigestion. Fasting, amel. Lying down, amel. Nausea on waking. Nausea on eating. Nausea, daytime, morning. Nausea after eating. Nausea after amel. Violent vomiting.

Teeth - Pain left side. Filled tooth, in a. Upper teeth, right molar. Left molar. Wisdom teeth. Neuralgic pain, left side. Pulsating. Sore.

Temperature - Chilly. Lack of vital heat. Coldness of neck.

Throat - Choking sensation. Burning pain, rawness sore, left side. Globus.

Vertigo - Vertigo in morning on rising. Vertigo on closing, eyes. Vertigo, tendency to fall. Vertigo, as if intoxicated. Vertigo, lying down, necessary. Vertigo, with nausea. Vertigo, on rising from seat. Vertigo from stooping. Vertigo as if rocking. Vertigo with swaying. Vertigo turning in bed. Vertigo on washing hair.

Vision - Dim vision, alternating with bright. Blurred vision. Bright vision. Flickering vision, around outside range of vision. Foggy vision. Weak vision.

COMMENTS - Amber enters into the composition of "Roche's Embrocation," and "Haarlem Oil," and has a popular reputation as a remedy for whooping cough when rubbed into the spine night and morning. A tablespoonful dose, said Murrell, caused persistent vomiting, diarrhea and symptoms of collapse and the patient aborted.

These observations are of value in relation to Burnett's experience. He added half a scruple of Amber oil to six ounces of Acornwater. They do not mix chemically, but by shaking each time a dose is taken the required division and potency is attained.

Burnett's keynote is "painful spleen disorders where there are convulsive attacks ■ such as the hysterical and hypochondriacal often have."

Burnett related in his book a most remarkable case of "chronic enlargement of the spleen with hyperesthesia, head pain, Dyspnea orthopnea, convulsions" in a young lady "towards the end of her teens."

After years of treatment, Burnett concluded from Rademacher's account of Amber oil. that it might provide the remedy. Amber oil was given in five-drop doses three times a day. In forty-eight hours the convulsive attacks ceased for good and all the phenomena slowly leucocythemia.

A keynote of Burnett's is "Fear of trains and close places." His dose is five drops of Amber oil three times a day.

RELATIONS - Compare: (1) Succinic acid. - Hay fever. Paroxysmal sneezing, dropping of watery mucus from nostrils, asthma. Inflammation through respiratory tract, causing asthma, chest pains, etc., itching of eyelids and canthi and nose worse drafts. (2) Ars-i., Arundo, Wye., Sabad, Sinapis.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***AMBRA GRISEA

(Ambergis)

PHARMACY - ambr. Ambra grísea. Ambergris. Morbid secretion of the whale. Trimration and tincture. Most probably a morbid product found in the Sperm Whale or floating in the sea. Not to be confounded with Amber Suc- cinum. **Historical dose:** Trimration, Tincture and all potencies.

CLINICAL - Anus, irritation. **Asthma.** Bashfulness. Brain, softening. Cardiac asthma. Convulsions. Coughs. Deafness. **Emaciation.** Face, pimples. Forgetful. **Hearing, impaired.** **Hypertension.** Hysteria. Jaundice. Melancholy. Menstrual, irregularity. Music, intolerance. Nervousness. Nosebleed. Nymphomania. Prurims vulvae. Puerperal convulsions. Ranula. Reaction defective. Spleen, pain. Tympanites. **Vertigo.** Weakness.

HOMEOPATHIC - Ambr. produces faintness (Mosch.), nervousness, jerks and twitches. Reflex action is increased. In old age, helpful for asthma and colds.

Ambr. affects the nerves, causing nervousness, twitches and jerks. A great remedy for the elderly people with impairment of all functions. Weakness, coldness and numbness, usually of single parts, fingers, arms, etc. Also for patients **weakened by age or overwork**, who are anemic and sleepless. **Emaciation.** Weakness of upper parts of the body with trembling of lower part.

There is defective reaction in nervous patients. Sensation of icy coldness in abdomen. **Extreme nervous hypertension.** Patients are worn out, yet over-impressionable. **Music aggravates symptoms.** External numbness of whole body in the morning and weakness.

Symptoms suddenly change places. Onesided complaints call for it. Numbness and torpor of the whole body especially in the morning. Coldness of the body with twitching. Tearing in muscles and joints often on one side. Adapted to hysterical subjects or those suffering from spinal irritation with convulsive cough, belching, etc. Coughs are worse when many people are present.

Slight or unusual things aggravates the breathing and the heart, start the menses etc.

MIND - The patient has an embarrassed feelings. **Bashful state** is very characteristic. Intensely shy, blushes easily. Cannot do anything in presence of others. Embarrassed in company, **cannot have others present during urination and stool** (Nat-m.).

The memory is impaired, slow comprehension. Forgetful. Awkward. Dread of people and desire to be alone. Dwells upon unpleasant things. Melancholy, sits for days weeping. Dreamy. Time passes slowly. Thinking difficult in the morning with old people. Cannot understand what one reads.

Music causes weeping and trembling. Sad. Despair, loathing of life. Fantastic illusions. Bashful, blushes easily. Loss of love of life. Restless, excited, very loquacious. Hearing others talk or talking himself affects him. Aversion to laughter. As if in a dream.

Flitting, flighty talker, modem society girls. Jumping from one subject to another, never waiting to have first question answered. Fixed disagreeable fancies. Imagines diabolic faces, sights.

Abdomen - Flatulence. Incarcerated flatus.

Tension and inflation of the abdomen, principally after eating and drinking. Sensation of coldness in the

abdomen. Sweat on abdomen and thighs. Pressive pain in the epigastrium. Heaviness in the belly. Cutting pains with diarrhea. Pain in the spleen, as if something were torn off. Flatulent colic in the night.

Back - Pressive, drawing pain in the neck and back. Heaviness in the back, with pain in the belly, as if the intestines were compressed. Shooting pain in the loins. Stiffness in the loins after sitting long.

Causations - Shock due to business failure or due to the deaths, one after another, in the family. Effects of domestic shock, business worry. Loss of near relatives. Imaginations.

Chest - Oppression felt in the chest and between the scapulae. Sensation of rawness in the chest. Itching in the chest and in the thyroid gland. Rheumatic pain, as from a bruise in the chest.

Constitutions - Suited to excitable, nervous children. Young, modern society girls. Nervous persons. Lean persons. Elderly people with a nervous and bilious temperament. **"Dried-up"** nervous persons. **"Thin, scrawny women."** Hysterical subjects who are weakened by age and overwork to the elderly with impairment of all functions.

Ears - Hardness of hearing with cold sensation in abdomen. Deaf in one, roaring and whistling in the other.

Eyes - Stitching in the eyelids as if a sty were being formed. Eyelids, heavy, cannot open them though awake. Spots float before the eyes after sewing.

Face - Twitching of the facial muscles. Cramps in lips, lips hot. Left cheek red. Flushes of the face, jaundiced color. Embarrassed look. Tetanus, lockjaw in newborn.

Female - The sexual desire is increased. Nymphomania. **Itching of pudendum with soreness and swelling.** Menses too early and too profuse. Itching in labia. Profuse, bluish leucorrhea, worse at night. **Discharge of blood between periods, at every little incident,** worse after hard stools, walking a little longer etc. Lying down aggravates uterine symptoms.

Food - Thirstlessness. Want of appetite.

Head - Pressure on front part of head with mental depression. **Tearing pain in upper half of brain.** Brain, feels loose, falls to side when on. Softening of brain. Rush of blood to head, when listening to music. **Hearing impaired.** Profuse bleeding from teeth. Hair falls out. Confusion in occiput, also sprained feeling in. Headache worse blowing nose.

Heart - **Palpitation with pressure in chest as if from a lump lodged there or as if the chest were obstructed.** Conscious of the pulse. Palpitations in open air with pale face. Anxiety in heart.

Kidneys - Cannot pass urine in presence of others. Pain in bladder and rectum at the same time. Burning in orifice of urethra and anus. **Feeling in urethra as if a few two drops passed out.** Burning and itching in urethra while urinating. **Urine turbid, even during emission,** forming a brown sediment. Urinates more than drinks. Urine sour during whooping cough. Burning, smarting, itching in vulva during urination.

Limbs - **Cramps in hands** and fingers, worse grasping anything. **Arms, numbness.** Left leg becomes quite blue during menses. Twitching of limbs with coldness of body during sleep. Cramps in legs and calves. Limbs go to sleep easily. Finger nails brittle. Drops what one is carrying. Coldness of hand (left) with headache. Sore and raw between thighs.

Liver - Aching in small spot in the region of the liver, better pressure. Liver pains, pressive.

Lungs - Asthma of elderly people and of children. Asthma with eructation of gas. **Asthma when attempting sex.** Wheezing in the chest. **Nervous spasmodic cough** with hoarseness and eructation, on waking in morning. Worse in presence of people. **Hollow, spasmodic and barking cough,** coming from deep in chest, then eructation. Tickling in throat, larynx and trachea, chest oppressed, gets out of breath when coughing. Choking when hawking up phlegm. Bluish, white expectoration. Cough worse music, talking, reading aloud, lifting weight. Loss of breath from cough. Cough with emaciation.

Male - Voluptuous excitement of and itching in genitals. Voluptuous itching of scrotum. Parts externally numb, burn internally. Violent erections without voluptuous sensations. Impotence.

Modalities - Better slow motion. Better in open air. Better lying on painful parts. Better cold drinks. Worse music. **Worse presence of others. Worse from any unusual thing.** Worse embarrassment, agitation, worry. Worse thinking of problems. Worse in morning. Worse from over lifting. Worse warmth, warm room, warm milk.

Mouth - Profuse bleeding from the gums, offensive breath. Insipid or rancid taste. Sour mouth, worse after milk. Salivation with cough. Small growths under tongue. Ranula.

Nose - Nosebleed, while washing face in the morning, during menses. Stoppage mostly at night, must breathe through the mouth, with chronic coryza.

Rectum - Flatulence, cannot have others present during urination and stool, worse during pregnancy. Constipation during pregnancy and after delivery. Frequent ineffectual urging for stool. Large flow of blood with stools.

Sensations - Sensation of coldness, numbness in spots or of single parts, fingers, arms etc. with twitching.

Itching with trembling and flushing. General pulsation.

Skin - Itching and soreness, especially around genitals. Numbness of skin.

Sleep - Retires tired, wakeful as soon as touches the pillow. **Cannot sleep from worry, must get up.** Anxious dreams. Coldness of body and twitching of limbs during sleep.

Stomach - **Distention of stomach and abdomen** after midnight. Sensation of coldness in abdomen. After eating, cough and gasping, and a feeling as if food did not go down into the stomach. Belching with a violent, convulsive cough. Acid belching like heartburn. Heartburn from drinking milk.

Temperature - Frequent flushes of heat at short intervals. Sweat on slightest exertion especially on abdomen and thighs.

Throat - Sensation as if a plug in throat with difficulty swallowing. Sore, raw from exposure to air, worse motion of tongue.

Vertigo - Senile vertigo with weakness in head and stomach. **Senile dizziness.**

COMMENTS - The pelvic organs are painfully influenced. There is voluptuous itching on the scrotum and some rawness below the thighs in the male. In the female, there is a discharge of blood between the periods at every little accident, as straining at stool or extra work. Severe itching on pudenda. During urination, itching, tickling, burning of vulva and urethra. Nymphomania with discharge of bluish white mucus. After childbirth, obstinate constipation and tenesmus with bashfulness, cannot make the attempt to stool if any one is present, even the nurse.

There is a tickling, spasmodic cough. Cough excited by speaking. Night cough. Cough followed by copious belching. Itching in chest. The limbs go to sleep easily. Fingernails are brittle. Sweat on slightest exertion. Sleepless from worry, retires tired, wakeful as soon as touches pillows.

RELATIONS - **Antidoted by:** Camph., Coff., Nux-v., Puls., Staph. **Antidote to:** Staph. - especially the voluptuous itching of scrotum, Nux-v. **Follows well:** Moschus frequently follows advantageously. **Compare:** (1) Ol-suc. - hiccough. (2) Sumb., Cast., Asaf., Croc., Lil- t. (3) Moschus (faintness, hysteric asthma), (4) Castor., Asaf., Psor. and Valer. (defective reaction), (5) Coca (bashfulness), (6) Kali- br.. Nux-v. (increased reflexes), (7) Nux-v. (thin, nervous persons), (8) Ars. - Asthma, Phos. - asthma, nervous excitability, "irritable weakness," slender build, (9) Bov. - flow of blood between the periods. (10) Lach, and Sep. - worse from over lifting. (11) Coff., Chin., Ign., Sulph., Puls., Staph., (12) Sec. - scrawny women. **Related remedies:** Bar-c, Ign. Do not confound with Amber succinum.

REFERENCES - Boericke. Clarke.

***AMBROSIA ARTEMISIEFOLIA

(Ragweed)

PHARMACY-ambro. Ambrosiaartemisiefolia. Ragweed. Roman wormwood. Hog-weed. N. O. Composite. America. Tincture of fresh flower heads and young shoots. **Historical dose:** Trituration. Tincture and all potencies.

CLINICAL - **Allergies.** Colds. Coryza. **Diarrhea.** Dysentery. **Hay fever.** Itching. Lachrymation. Nasal, congestion. **Nosebleed.** Sinus, congestion. Whooping cough.

HOMEOPATHIC - Ambrosia is a remedy for lachrymation, **hay fever** and intolerable itching of the eyelids (Euphr.). Nosebleeds. Stuffed feeling in nose and head. Some forms of whooping cough. The respiratory tract in its entire length stopped up.

Hay fever with itching, watery eyes. Sneezing to the point of nosebleeds. Hay fever with a tickling cough, can go into asthma. Allergic asthma. **Severe allergies to ragweed.** Reactions to allergy shots or drops for ragweed allergy. Also as a preventative, given before ragweed season, if person has a strong history.

Good for children with nondescript stuffy noses and no symptoms or modalities (Aeon.). **Manyforms of diarrhea, especially** during summer months, also dysentery. Loose stool (Ars.).

Eyes - Redness. Smart and burn. **Hay fever with itching, watery eyes.** Lachrymation. Intolerable itching of eyelids.

Lungs - Respiratory tract is congested. Irritation of trachea and bronchial tubes with asthmatic attacks (Aral., Eucal.). Wheezy cough. Whooping cough.

Nose - Nasal, congestion. **Allergies.** Coryza. Watery coryza, sneezing, watery discharge. **Hay fever.** Sinus, congestion. **Nosebleed.** Stuffed up feeling of nose and head.

Rectum - Loose stool (Ars.). Many forms of diarrhea. Summer diarrhea. Dysentery.

COMMENTS - The fresh leaves and flowers are pounded to a pulp and macerated with two parts by weight of alcohol. In the 1889 Homeopathic Recorder, Dr. C. F. Millspaugh, wrote "Of late years much attention has been called to the species of the genus Ambrosia (the Rag Weeds) as being, through the agency of their pollen, the cause of hay fever."

Dr. E. T. Marsh and another experimenter suffered severely from symptoms of coryza and hay» fever while working with the pollen of this plant. Ambrosia should therefore be of service in similar disorders.

RELATIONS - Compare: (1) In hay fever: All-c., Euphr., Sabad. (2) Wye., Succ-ac., Ars-i., Arund.

REFERENCES - Boericke. Clarke. Murphy.

***AMETHYST

(Gemstone)

PHARMACY - ameth. Amethyst. Gemstone. **Historical dose:** Tincture and all potencies.

CLINICAL-Amblyopia. Ataxia. Backaches. Headaches. Insomnia. Migraines. Tinnitus. Trembling.

HOMEOPATHIC - Affects the nervous and endocrine systems, useful in states of nervous tension where the five senses (especially hearing) are overtaxed. Helpful when the hormonal system is affected by excessive adrenalin, creating mood swings and nervous excitation followed by exhaustion.

Profoundly affects sleep patterns, can soothe troubled sleep or induce somnolence in the insomniac. Has been found effective in easing mental disorders where there is too much excitement of the senses.

Nervous tension with an inability to relax. For damaged nerves in the spinal column, especially where the neural pathways are interrupted causing difficulties in relaying sensations or when nerve pains become all consuming, causing the patient to be unable to function normally.

Internal trembling, especially felt in the legs. When exhaustion has set in and nerves no longer respond as efficiently as they should. In low potency, follows well after Mag. Carb. For those who feel the need of stimulants to revive them or to "steady their nerves," bringing them to the point of addictiveness. Addiction rooted in nervous tension and psychic fears. Fear of addiction.

Deeply syphilitic. Nervous diseases such as motor neuron disease, MS and ataxia. Likely to make an improvement on the quality of life in patients suffering these conditions. Arthritic conditions.

MIND - Anxiety and tension. Fear of not being able to achieve all that one sets out to do. Lack of confidence in ability to complete allotted tasks, especially true in those who feel called to a spiritual or caring profession. Sense of thwarted mission where the difficulties seem to be self generated and self perpetuated. Sense of having "done all this before and now I'm getting it wrong again!" Too tired to be able to finish tasks or fulfill role properly due to excessive tension (Oak.).

Negative outlook. Becomes withdrawn and intense when anxious or displeased. Apprehensive of his own position in a general state of difficulty where others are involved. Wonders what will become of him. Tries but finds it difficult not to betray his inner sense of preoccupation and unease. Deeply affected by sad news.

Inexplicable fearfulness, held in the solar plexus. Fears of being overburdened, of becoming too anxious and fixated on one thing to the exclusion of everything else, and of the past and what may come back to influence the present. Deep sense of longing, particularly in connection with places which make one feel spiritually "at home." In cases where one would expect to find despair but instead there is deep pathology.

Difficulty relaxing. Tense and miserable from lack of sleep, nervous tics or tremors from night watching. Indecisive, forgetful, cannot hold many ideas in the mind at the same time so becomes limited to routine functioning. Feels cut off from the real world, floats off into a state of dreaminess. Reluctant to face reality, especially after great tension.

Abdomen - Trembling in the abdomen.

Back - Backaches. Pains in cervical area which extend down the spine, worse emotional turmoil. Tension in the lumbar region with sciatic type pains in either leg. Feels the top half of the spine (or body) is unconnected with the bottom half. Persistent symptoms after manipulative treatment on the spine. Patient enjoys massage and goes for a lot of it but it never holds for long.

Bladder - Tendency to frequent urination. Has to get up at night to pass water, especially worse 3 a.m. to 4 a.m. Cannot drink late at night without having to rise. Must hurry to pass water once the urging is there. Needs to be advised to drink more water as this will ease the tension in the bladder and slow the frequency of urging.

***AMMONIACUM GUMMI

(Gum Ammoniac)

PHARMACY - ammc. Ammoniacum gummi. Gum ammoniac. N. O. Umbelliferae. Gum- ammoniac is obtained from Dorema Ammoniacum. Trituration of the gum. **Historical dose:** Trituration and all potencies.

CLINICAL - Appendicitis. Asthenopia. Asthma. **Bronchitis.Eyes, disorders.** Dyspnea. Glands, disorders. Heart, disorders. Hemorrhages. Hydrocele. Panaritium.

HOMEOPATHIC - The heartbeats too strong, worse lying on left side. Great accumulations of mucus. There are many rheumatic pains in the limbs and loins. Marked sensitiveness to cold, worse in cold weather.

Stitches were prominent in the provings. Stitches in the cecum at 7 p.m., alternating with pains elsewhere.

Appendicitis. Diminished secretions from the mucus membranes, then increased. A remedy for the **elderly and feeble**, especially in chronic bronchitis.

Stars and fiery points before the sight. Sees smoke in circles. Dim sight from a blow on the head, from excessive reading. Sensation of burning and scratching in neck and esophagus. Hydrocele.

Hemorrhages that causes abundant serous discharges. Dropsical complaints.

Gout not developing in usual form of attacks, but disturbing general health. Scrofulous tumors or enlarged joints.

MIND - Ill humor.

Constitutions - Suited to bronchial disorders in old people brought on by cold weather.

Eyes - Dim sight. Stars and fiery points float before eyes. Easily fatigued from reading.

Food - Want of appetite.

Head - Catarrhal headache due to closure of frontal sinuses.

Heart - Heartbeats stronger, extends to pit of stomach.

Lungs - Coarse rattling of chest in elderly **people. Difficult breathing.** Chronic bronchial catarrh. Large accumulation of pus and feeble expectoration, worse from cold weather. Mucus tough and hard.

Throat - Throat dry, worse inhaling fresh air. Full feeling, burning and scraping sensation. Immediately after eating, sensation as if something stuck in esophagus, causing swallowing.

RELATIONS-Antidotes: Bry., Am. **Compare:** (1) Senega., Ant-t., Bals-p.

REFERENCES - Boericke. Clarke.

***AMMONIUM ACETICUM

(Ammonia Acetate)

PHARMACY- am-acet. Ammonium aceticum. Ammonia acetate. Spiritus Mindereri. Aqueous solution.

Historical dose: All potencies.

CLINICAL - Diabetes. Fever. Sweat.

HOMEOPATHIC - This is a very old medicine in great use in old-school practice for **"fever mixtures."**

Ammonium aceticum has been experimented with by Wibmer, who experienced the following symptoms:

"Scraping in throat. Increased warmth in abdomen in the skin, especially of face. Heaviness in the head."

"Bathed in sweat" is a leading indication. It causes profuse flow of urine, said to contain sugar.

REFERENCES - Boericke. Clarke.

***AMMONIUM BENZOICUM

(Ammonia Benzoate)

PHARMACY - am-be. Ammonium benzoicum. Ammonia benzoate. Solution in distilled water. **Historical dose:** Trituration and all potencies.

CLINICAL - **Albuminuria.** Dropsy. Gout. Indigestion. Ranula. Rheumatism.

HOMEOPATHIC - One of the remedies for albuminuria, especially in the gouty. The chief symptoms are that the head feels heavy, dull and stupid. Scanty, smoky urine. Right kidney sensitive to pressure. Gout with fluid in great toe joint or with deposits in the joints.

Back - Pain across sacrum with urgency to stool. Soreness in region of right kidney.

Face - Bloated, swollen eyelids. Swelling under tongue like granula.

Head - Heavy, stupid feeling.

Kidneys-Urine is smoky, **scanty. Albuminuria.** Albuminous urine and thick deposits. Urinary incontinence in the aged.

RELATIONS - **Compare:** (1) Ter., Benz-ac., Ammonia salts, Caust. (2) In albuminuria - Kalm., Helon, Merc-c., Berb., Canth.

REFERENCES - Boericke. Clarke.

***AMMONIUM BROMATUM

(Ammonia Bromide)

PHARMACY - am-br. Ammonium bromatum. Ammonia bromide. Ammonium hydrobromicum. Solution in distilled water. **Historical dose:** Trituration and all potencies.

CLINICAL - Ciliary neuralgia. Coryza. Cough. Epilepsy. Kidney, pains. Larynx, catarrh. Nails, biting. **Obesity.** Ophthalmia, scrofulous. Ovaries, disorders. Pharyngitis. Pterygium. Whooping cough.

HOMEOPATHIC - This salt has been well proved by A. M. Cushing. Nervous constitutions. Markedly affects the eyes and ovaries. In the morning, the eyes are red and sore with mucus in corners (worse left eye). Dull pain in left ovary, with hard swelling. **Obesity.**

Indicated in laryngeal and pharyngeal catarrh. Chronic laryngeal catarrh of speakers. Sudden strangling, suffocating, cough. Suffocating sensation before epilepsy. Irritable feeling in fingernails, better by biting it. Constrictive pain in head, chest, legs.

Eyes - Edges of lids red and swollen, also Meibomian glands. Eyeballs feel large. Pain around eyes into head.

Head - Cerebral congestion. Feeling of a band above ears. Sneezing, thick nasal discharge.

Lungs - Sudden, short cough, strangling. Tickling in trachea and bronchial tubes. Wakes at 3 a.m. with cough. Feels suffocated, continuous cough, when lying down at night, sharp pain in lungs. Whooping cough. Dry, spasmodic cough on lying down.

Modalities - Better from warmth and warm drinks. Worse in open air. Worse cold air. Many symptoms occur on waking. Worse 3 a.m.

Throat - Smarting in mouth. Tickling in throat with *inclination to dry, spasmodic cough, especially at night*. Burning in fauces. White, sticky mucus. Chronic speakers' catarrh.

COMMENTS - The mucus of Am-br. is apt to be stringy. A sudden desire to cough, so sudden it causes strangling. Sudden, short cough when rising in morning from accumulation of mucus in throat. Cough at 3 a.m. Indicated in epilepsy when the aura begins with a fainting or suffocating sensation at epigastrium, rising up both sides of sternum to throat.

There is an irritable feeling under fingernails, better only by biting them. Must walk about for fear of suffocation.

RELATIONS - Compare: (1) Hyos., Con., Arg-n., Kali-bi.

REFERENCES - Boericke. Clarke.

***AMMONIUM CARBONICUM

(Ammonia Carbonate)

PHARMACY - am-c. Ammonium carbonicum. Ammonia carbonate. Sal volatile. Sesqui carbonate of Ammonia. Solution in distilled water. **Historical dose:** Trituration and all potencies.

CLINICAL - Anxiety. Asthma. Bedwetting. Bronchitis. Colic. Cough. Dislocations, pains. Emphysema. Erysipelas. **Fainting.** Goiter. Gums, sensitive. **Heart, weakness. Hemorrhages.** Hemorrhoids. Hysteria. Lungs, edema. Measles. Military eruptions. **Nosebleeds.** Nose, disorders. **Obesity.** Parotiditis. **Pneumonia.** Rickets. Scarletina. Spotted fever. Sprains. Sternum, pain. Toothache. Uremia. Whitlow.

HOMEOPATHIC - Am-c. has a condition of poor oxygenation that underlies a large proportion of its symptoms. This remedy is found in rather stout patients who are always *tired and weary, catches colds easily*. Those that suffer from cholera-like symptoms before menses. **Obese patients with a weak heart,** wheezing, feel suffocated.

The venous under-oxygenated condition of the medicine again appears in the excessive sleepiness produced in the daytime. Sleepiness with many conditions. Mucus membranes of the respiratory organs are especially affected.

Tickling cough. Bloody expectoration accompanying the cough. Asthma. Cough from 2 a.m. to 5 a.m. Anguish at heart, palpitation and faintness. Pain as from fatigue (hip joint, legs, thighs). Pains as from dislocation or sprain (wrist, great toe). Pain as of contraction of tendons. Numbness and stiffness of arms and hands. The pains are ulcerative, shooting, digging.

Chilly with great sensitiveness to cold, open air. Worse in wet, stormy weather, from washing, from wet poultice, better by warmth. Right-sided, and a venous medicine. Worse at night, 3 a.m.

Hemorrhagic. Bleeding hemorrhoids, at every menstrual period bleeding from rectum. Nosebleed, especially in the morning, on washing, after a meal. Menses are premature and copious, the blood dark (colic and pains in loins or toothache accompanying). Scorbutic condition, the muscles are soft and flabby, teeth drop out, hemorrhages, hectic. There is the scorbutic condition of bleeding gums.

Old age problems. Uncleanliness in bodily habits. Erythema, then vesication. Finally gangrenous degeneration. Very sensitive to cold air. Great aversion to water, cannot bear to touch it. Too frequent and profuse menses. Lymphatic and parotid gland swollen and indurated. Hard swelling of parotid and cervical glands. Pains are bruised and sore. There is internal raw burning. Malignancy. Prostration from trifles.

Lies down from debility or soreness of whole body. Malignant scarlatina with somnolence, swollen glands, dark red sore throat, faintly developed eruption. Uremia. **Heaviness in all the organs.** Swelling of parts, glands, etc. Discharges are hot, acrid, adherent. Prostration from trifles.

MIND - The mental faculties are slow, weak memory, heedlessness, absence of mind. Sadness, disposition to weep. Timidity. Apprehensive. Ill humor. Heedless and unruly. Forgetful, gloomy during **stormy weather**. Vacant mind. Loss of memory, worse vexation. Talking and hearing others talk affects them greatly.

Sad, weepy, unreasonable. Tendency to make mistakes in speaking, writing and calculating. Depressed with weakness of intellect. Aversion to work. Peevish, fretting, as if crime has been committed. **Uncleanliness**

(Sulph.). Great aversion to water, cannot bear to touch it.

Timidity of character. Sadness, with disposition to weep. Apprehensions and anguish in the evening. Anxiety with weakness and nightmares. Disgust with life. Ill humor in the morning. Morose. Disobedient and unruly. Excessive gaiety. Heedlessness.

Great absence of mind and weakness of memory. Tendency to make mistake in speaking, in writing, or in calculating. Impairment of the intellectual faculties. In the night there are dreams of specters of death and attacks of anguish.

Abdomen - Flatulent, painful colic. Flatulent hernia. Colic with pain between the scapulae. Pain in the abdomen, with diarrhea. Spasmodic colic with nausea, and accumulation of water in the mouth. Noise and pain in abdomen.

Back - Pains in the lumbar region and pains in the nape of the neck. Painful swelling of the glands of the neck and of the axillary glands. Goiter. Drawing tension in the back and in the loins.

Blood - Hemorrhages are dark and thin. Hemorrhagic diathesis from fluidity of blood and dissolution of red blood corpuscles, tendency to gangrenous ulcerations. Hemorrhages are dark from nose, gums and bowels.

Causations - Ill effects of charcoal fumes. Nosebleed comes on when washing the face.

Chest - Shootings in the chest and in the sides. Feeling of fatigue in the chest. Congestion towards the chest. Heaviness in the chest, as from congestion of blood to the chest. Burning in the chest.

Constitutions - Adapted to overweight patients with weak hearts, wheezing and a suffocated feeling. Suited to scrofulous children, stout and sedentary women. Women who are always having recourse to the smelling-bottle. Most of the carbonates are suited to states of obesity.

Ears - Hardness of hearing. Shocks through ears, eyes and nose, when gnashing teeth. Itching above the ears, spreads over the whole body.

Eyes - Burning of eyes with aversion to light. Eye strain (Nat-m.). Burning and dry. Prolonged use of eyes cause asthenopia with appearance of yellow spots on looking at white objects. Flood of tears. Large black spots float after sewing. Pain in the eyes better afternoon sleep. Sore canthi.

Face - Boils and pustules during menses. Corners of the mouth are sore, cracked and burn. Cracks and burning in lip. Hard swelling of the cheek.

Female - Itching, swelling and burning of pudendum. Copious leucorrhea, burning, acrid, watery. Aversion to the other sex. Irritation of clitoris. Menses **toofrequent, profuse**, early, copious, clotted, black, colicky pains and hard, difficult stool with **fatigue**, especially of thighs, yawning and chilliness. Cholera-like symptoms with menses. Menses flow more at night, then dyspnea or weakness.

Food - Continual thirst, no appetite, excepting for bread and cold food. Great hunger and appetite, yet a small quantity satiates. Unconquerable appetite for sugar.

Head - Obstinate headache. Headache with nausea. Pulsating forehead, better pressure and in a warm room. Shocks, through head, eyes, ears and nose, on biting. **Violent headache**. Full, bursting pain in forehead. Brain seems loose. Hammering, pressure, and beatings in the head. Headache, as if from carbonic acid gas. Soreness of the scalp and of the hair. Itching in the head. Falling off of the hair.

Heart - **Heart weakness**, collapse, wakes with difficult breathing and palpitations. Audible palpitation with fear, cold sweat, lachrymation inability to speak, loud breathing and trembling hands. Angina pectoris. Circulation becomes sluggish and under-oxygenation of blood produces **lividity, weakness** and drowsiness. Vitality becomes low, lack of reaction.

Kidneys - Frequent desire, involuntary at night. Involuntary urination towards morning. Tenesmus of bladder. Urine, white, bloody, sandy, copious, turbid and fetid.

Limbs - Parts lain on become numb. Tearing in joints relieved by heat of bed inclination to stretch limbs. Hands cold and blue, distended veins. Ganglion. Fingers and hands swell, when arms are hanging down. Whitlow. Panaritium, deep-seated periosteal pain. Right arm heavy and weak. Cramps in calves and soles. Big toe painful and swollen. Felons in the beginning. Heel painful on standing. Tearing in ankle and bones of feet, better when warm in bed. **Inclination to stretch limbs**. Tearing pain better by heat of bed.

Right foot numb. Aching in bones, better change of weather.

Liver - Pressure, pain as from excoriation and burning in the hepatic region. Piercing shootings in the liver, when seated in the evening.

Lungs - Increasing difficulty in breathing, it wakes him, better cool air. Hoarseness. Chest feels tired. Emphysema. **Much oppression in breathing**, worse after any effort and **entering warm room** or ascending even a few steps. Asthenic **pneumonia**. Slow labored, stertorous breathing, bubbling sounds. Winter catarrh with slimy sputum and specks of blood. Pulmonary edema. Rattling in chest but gets up little. Cough every morning about three o'clock with dyspnea, palpitation, burning in chest, worse ascending. Cough after influenza. Congestion of lungs. Expectoration of pure blood after cough.

Male - Itching and pain of scrotum and spermatic cords. Persistent erections without desire or violent sexual desire without erection. Seminal emissions, frequent after sex.

Modalities - Better from pressure. Better lying on painful side right side, abdomen, and on stomach. Better in dry weather. Better eating. **Worse cold, cloudy days. Worse damp cold, wet weather.** Worse open air. Worse evenings. Worse new moon. Worse from applications. Worse washing. Worse 3 a.m. to 4 a.m. Worse during menses. Worse falling asleep. Worse motion. Worse chewing, pressing teeth. Worse bending down.

Mouth - Great dryness of mouth and throat. Vesicles on tongue. Taste sour, metallic. Cracking of jaws on chewing. Tender, bleeding gums. Mouth and throat dry. Vesicles on tongue. Burning, hindering eating and speech. Swelling inside cheek.

Nose - Profuse watery coryza. Discharge of sharp, burning water. **Stoppage at night with long continued coryza.** Continuous urging to sneeze. **Cannot breathe through nose. Snuffles** of children. Inability to blow the nose in children. **Nosebleeds** if hands or face are washed after eating or on waking. Ozaena, blows bloody mucus from nose. Tip of nose congested. Boil on tip.

Rectum - Constipation with hard, dry stools. Stools difficult, hard and knotty. **Bleeding hemorrhoids, worse during menses.** Itching at anus. Protruding hemorrhoids worse after stools or without stools, better lying, cannot walk. Discharge of blood before and after stools. Dark acrid diarrhea.

Skin - Red or mottled skin. Erysipelas in the elderly with brain symptoms. Malignant scarlatina. Violent itching and burning blisters. Scarlet rash. Miliary rash. Faintly developed eruptions from defective vitality. Eczema in the bends of limbs, between legs, about anus and genitals.

Sleep - Sleepiness during the day. Starts from sleep, strangling. The sooner one goes to bed the better one sleeps.

Stomach - Pain at the pit of stomach with heartburn, nausea, water brash and chilliness. Flatulent dyspepsia. Great appetite, but easy satisfaction.

Teeth - Loose or blunt teeth. Toothache during menses. **Pressing teeth together sends shocks through head, eyes and ears.**

Temperature - Coldness. Burning heat with thirst.

Throat - Enlarged tonsils and glands of neck. Burning pain all down throat. Tendency to gangrenous ulceration of tonsils. Diphtheria when **nose is stopped up**, membrane extends to upper lip.

Vertigo - Vertigo, on reading in a sitting posture, in the morning or in the evening, sometimes with nausea.

COMMENTS - Am-c. is for those who lead a sedentary life, have a slow reaction generally and are disposed to frequent use of the smelling-bottle. Am-c. is adapted to stout women who are always tired and weary, take cold easily in winter and suffer from cholera-like symptoms before menses and who lead a sedentary life. Dr. Gallavardin has cured uncleanness in bodily habits with Am-c.

Swelling of glands. Headache worse in morning with nausea. Hammering, pressing, bursting, as if contents would start through forehead. Feeling of looseness of brain, as if it fell from side to side, which-

ever way the head was moved. Burning in eyes, dryness, black spots, sparks, myopia, cataract, catarrh. Muscular asthenopia from prolonged use of the eyes with appearance of yellow spots on looking at white objects. Pterygium.

Nausea, vomiting, fullness, water brash, worse after eating. Flatulence. Slow, hard evacuations in small pieces. Hemorrhoids during menstrual period.

Miliary eruptions. Dry tetters, excoriations, ulcerations, phagadenic. Restlessness, paralytic weakness. Great prostration with falling temperature. Gout in great toe. Heel painful on standing.

Weak heart, palpitations from the least exertion, state of hypoxia. Heart weakness since congestive heart failure, peripheral edema, hypotension, low blood pressure. Great shortness of breath, fainting spells. Feel weak and have heavy sensations in body. Poor circulation. Flush and faint from odor or emotional upset.

Severe weakness of the lungs since pneumonia (Phos., Kali-c.).

RELATIONS - Antidoted by: Am., Camph., Hep., Vegetable acids, Fixed oils. **Antidotes to:** Rhus and stings of insects, poisoning from charcoal fumes. **Compare:** (1) Ant-t, Carb-v, Glon, Lach, Mur-ac. Rhus-t. (2) Ammonias, Ant-t., Ars. (3) Aur. - crushing weight on sternum, but Aur. has less somnolence and less venous congestion. (4) Lach. - to which Am-c. is inimical. (2) Phos., Puls., Sulph. **Inimical to:** Lach, similar in action.

REFERENCES - Boericke. Clarke.

*****AMMONIUM CAUSTICUM** (Ammonia Hydrate) **PHARMACY** - am-caust. Ammonium causticum. Ammonia hydrate. Spirits of Hartshorn. Hydratum ammonia. Solution of the gas in water. **Historical dose:** All potencies.

CLINICAL - **Aphonia.** Chills. Cyanosis. Esophagitis. **Exhaustion.** Hemorrhages. **Fainting.** Nephritis. Rheumatism. Sloughing of tissue. Snakebites. Thirst. Thrombosis. Timidity. Ulcerations. Vomiting.

HOMEOPATHIC - The symptoms of caustic ammonia closely resemble those of the carbonate. The caustic nature of the drug is exemplified in the burning sensations experienced, especially in the throat, gullet and rectum.

Am-caust. is a powerful heart stimulant. In a case of poisoning in a man who took a mouthful of a strong solution of **"household ammonia"** by mistake, there was great swelling of mucus membrane of mouth and throat. Stertorous breathing, voice muffled and husky, later, cough with bloodstained expectoration. One night there was headache and delirium and at the same time the urine contained albumen and hyaline casts.

Am-caust. is for **fainting**, thrombosis, hemorrhage, snakebites, chloroform narcosis, may be given by inhalation. The edema and ulceration of mucus membranes produced by this powerful drug have been utilized as guiding symptoms for its use, hence in membranous croup with burning in esophagus.

A good remedy in **aphonia, weak voice low**. Speech broken. Aphonia with debility or with burning rawness in throat. Great oppression of breathing, the patient gasps for breath.

Excessive exhaustion and muscular debility. Shivering with chills. Rheumatism of shoulders and thighs muscles, hemorrhages occur from mucus surfaces. White patches on tongue and inner side of cheeks. Intense thirst and violent ejection of stomach contents.

MIND - Timidity, great tendency to take fright. Great excitement in evening.

Food - Worse after eating or drinking.

Limbs - Rheumatism of shoulders. Skin hot and dry.

Lungs - Difficult breathing. Accumulation of mucus with incessant coughing. Uvula covered with white mucus.

Nose - Nasal diphtheria with burning excoriating discharge.

Throat - Loss of voice. Burning rawness in throat. Spasm of the glottis with suffocation, patient gasps for breath. Pain in esophagus on breathing deeply. Scraping and burning in throat and esophagus.

RELATIONS - Compare: (1) Am-c., Caust.

REFERENCES - Boericke. Clarke.

***AMMONIUM IODATUM

(Ammonia Iodide)

PHARMACY - am-i. Ammonium iodatum. Ammonia iodide. **Historical dose:** Trituration and all potencies.

HOMEOPATHIC - Ammonium Iodatum is indicated when Iodine has but partially relieved its cases of laryngitis and bronchitis, catarrhal pneumonia, edema of lungs.

Dull headaches, especially in young people. The face is stupid, heavy. Vertigo and Meniere's disease. Laryngitis and bronchitis, catarrhal pneumonia, edema of lungs.

RELATIONS - Compare: (1) Iodine. (2) Ammonium tartaricum - dry hacking cough after every cold.

REFERENCES - Boericke. Clarke.

AMMONIUM MURIATICUM

*** (Ammonium Chloride)

PHARMACY - am-m. Ammonium muriaticum. Ammonium chloride. Sal ammoniac. Trituration on aqueous solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Anosmia. Bronchitis. Colds. Constipation. Coryza. Cough. Diarrhea. Eyes, inflammation. Fatty tumors. Feet, pains. Glands, enlarged. Hemorrhoids. **Hoarseness.** Liver, disorders. Melancholy. Menstruation, disorders during. Obesity. Pneumonia. Sciatica. Scurvy. Spleen, pains. Sprains. Stumps, neuralgia. **Tonsillitis.** Tonsils, swelling. Ulcers.

HOMEOPATHIC - Am-m. is less prominently a right-side medicine than Am-c., Guernsey regarded it as rather left-sided. Both cause paralytic weakness, both are worse in open air. Am-m. has better from warm bath. Am-c. has greater sensibility to cold and to damp weather than the muriate. Both have itching eruptions of all kinds, drowsiness by day with indolence, shivering in the evening.

Am-m. affects **mucus membranes** increasing the secretion in the **lungs** and gallbladder ducts. Am-c. has fat all over. Fatty tumors. Large buttocks. Obesity. Body fat but the legs are thin.

A state of prostration bordering on a typhoid state is produced by this remedy. Tendency to irregular circulation, blood seems to be in constant turmoil, pulsations.

Many symptoms are accompanied by cough or **profuse glairy mucus** discharges with liver trouble. It causes ulceration and ulcerative pains, also dislocation-like pains and tension as if tendons were contracted. **Boiling sensation.**

Many groups of symptoms are accompanied by cough, **profuse glairy secretions.**

Am-m. causes ulceration and ulcerative or festering pain. Neuralgic pains in the stumps of amputated limbs. Hemorrhages. Boiling sensation. Tension and tightness, as if the muscles or tendons are too short in groins,

hamstrings, lumbar region etc.

MEND - The mental state is very similar to Am- c. The muriate has perhaps more melancholy and disposition to tears than the other and it has, peculiar to itself, "**antipathy to certain persons.**" **Fear of** darkness (Stram.), which is not noted under Am-c. Am-m. covers the consequences of grief. **Desire to cry, but cannot** (Nat-m.). Melancholy and apprehensive, as from internal grief. Involuntary, aversion to certain persons (Nat-c.).

Abdomen - Stitches in spleen, while eating or in the morning, with difficult breathing. Pain around navel. Abdominal symptoms appear during pregnancy. Excessive fatty deposit around abdomen. Much flatus. Tense sprained feeling in groins, must walk bent. Groins feel swollen and sore.

Back - Swollen cervical glands. Sore sprain or icy coldness between scapulae, not relieved by warmth. Fatty swelling on nape, extending from ear to ear. Lumbago. Backache, as if in a vise when sitting. Bruise pain in coccyx when sitting.

Causations - Grief.

Chest - Oppression of chest. Pulsation, burning spots in chest.

Constitutions - Adapted to obese and sluggish patients who have respiratory troubles. Adapted to patients who are overweight, puffy and tired with thin limbs, who always feel tired and sore.

Eyes - Mist before eyes in bright light. Optical illusions in incipient cataract, capsular cataract. Flying spots, yellow spots, before the eyes.

Face - Inflammatory face ache. Mouth and lips sore and excoriated. Pale. Lips burning like fire. Lips dry, shriveled cracked, must moisten them with tongue. Burning eruptions, better cold application.

Female - Menses, too early, too free, dark, clotted. **Menses flow more at night.** Prolapsed uterus. Pain as if sprained in left side of abdomen during pregnancy. Diarrhea, greenish mucus stools and navel pain **during menses.** Diarrhea, vomiting with menses. Leucorrhea like white of an egg (Alum., Bor., Calc-p.), with pain about the navel. Brown, slimy leucorrhea after **every urination.**

Food - **Loss of appetite and thirstless- ness. Sometimes extreme thirst,** mostly evenings. Thirsty for lemonade. Want of appetite alternating with canine hunger.

Head - Brain paralysis. Hair falls out with itchiness and dandruff. Feels full, compressed, worse mornings. Heaviness in the forehead, pressive pain towards the root of the nose with a sensation, as if brain were torn.

Kidneys - Profuse and frequent urination. Urging yet a few drops pass, until next stool when it flows freely. Profuse ammoniacal smelling urine.

Limbs - Chronic sprains. Pain as from ulceration in fingertips. **Shooting and tearing** in fingertips and toes. Ulcerative pain in heels, fingertips. **Contraction of hamstring tendons.** Hamstrings as if too short, pain on walking. Sciatica, **worse left, sitting, better lying.** Neuralgic pain in amputated limbs. Tense sprained feeling in the groins, must walk bent. Offensive sweaty feet. Pain in feet during menses. Large buttocks.

Liver - Chronic congestion of liver. Cough with liver symptoms.

Lungs - **Hoarseness and burning in larynx.** Dry, hacking, scraping cough, worse lying on back or right side. Stitches in chest. Cough with profuse salivation or with liver symptoms. Cough loose in afternoon with profuse expectoration and rattling of mucus.

Lungs - Cannot breathe from coughing. Scanty secretions. Noisy, rattling tenacious mucus in chest. Cough worse lying on back or right side.

Modalities - Better from open air. Better rapid motion. Better walking crooked. Head and chest worse morning. Abdominal symptoms worse afternoons. The skin, limbs and fever worse evenings. Worse walking erect. Worse periodically. Worse night. Worse from 2 a.m. to 4 a.m.

Mouth - Slimy. Burning blisters on tip of tongue.

Nose - Sneezing. **Loss of smell.** Free **acid, hot watery discharge** corroding the lip and closing one nostril. **Obstructed, stuffy feeling,** constant and unavailing efforts to blow it out. Nose sore to touch, ulcerative pain in nostrils. As of a rough body, obstructing upper sinuses. Sneezing aroused her from sleep with shooting pain in the nape of the neck as far as the shoulders. Coryza in children with bluish discharge. Itching.

Rectum - Burning, smarting in the rectum during and for hours after stools. Itching hemorrhoids, soreness with pustules. Stinging in perineum. Hemorrhoids after suppressed leucorrhea. Scanty, hard, **crumbly stool** or covered with glairy mucus, changing color and consistency. Green mucus stools alternate with constipation. Blood from anus or diarrhea during menses.

Skin - Itching on various parts of the body, especially in the evening. Blisters on various parts. Intense burning better cold applications. Bleeding eruptions. Peeling of skin between fingers and wrists. Profuse night sweat. Sweats by every motion.

Sleep - Erotic dreams. Anxious, fearful dreams. Starts out of sleep.

Stomach - Regurgitation of food. Nausea with bitter water brash, worse eating with shuddering. Gnawing burning, stitching in stomach, extending to right axilla and upper arm. Empty sensation in, but no desire to eat

anything. Epigastric pain immediately after eating. Cancer of stomach. Stricture of esophagus.

Temperature - Chilly as often as he wakes. **Chilliness in evenings after lying down** and on waking, without thirst. **Prevailing fever.** Heat in palms and soles. Sub-acute, low fevers due to unhealthy climate.

Throat - Tonsillitis. Throbbing in and swelling of tonsils, can scarcely swallow. Sore spot behind uvula, relieved by eating. Internal and external swelling of throat with **viscid phlegm.** So tough, it cannot be hawked up. Slimy.

COMMENTS - Am-m. acts specially also on the forehead. The muriate has fullness in head, weight in forehead. Burning in eyes in twilight or in morning with photophobia. Keratitis. Ulceration in corners of mouth.

Sensation in stomach as if fasting, which nevertheless feels full, worse after breakfast. Intermittent pains in both hypochondria. Stitches and burning in liver region. Stitches in spleen, worse sitting. Tension in either groin. Shootings in scapula and ice-cold sensation between scapulae, unrelieved by external wraps.

In the fever, chilliness predominates. Choudhury cured with it a case of intermittent fever characterized by absence of thirst in all stages. Constipation and hemorrhoids with bleeding at stool. Sore, smarting hemorrhoids. Hard stool covered with mucus, mucus secretions generally increased.

Menses too early and too copious (Am-c.), with pains in loins. Vomiting, diarrhea and neuralgic pains in feet during period. Coryza, acrid, watery, scalding hot with cold feeling between shoulders. Loss of smell. Cough and asthmatic symptom worse evening and at night and worse in open air.

Pain as from ulceration at fingertips. Neuralgic pains in stumps of amputated limbs (All-c.). Ulcerative pains in heels (ulcers from friction All-c.). Sciatic pain as if tendons were too short. Worse sitting or walking. Tension in legs on lying. There is improvement when walking crooked, worse on walking erect. Most symptoms are worse at night and from two to four a.m.

RELATIONS - Antidotes to: Bitter almonds, Coffea, Nux-v., Caust. A hot bath relieves aggravation caused by Am-m. **Compare:**

¹ 1) Cale., Caust., Seneg. (2) Mag-m, Nat-m., Valer, and Mur-ac. - pains in feet and heels. (3) Rhus-t. - sprains, worse sitting. (4) Seneg. - fat people. (5) Sep., Sulph. - in "aversion to darkness." (6) Calc., Carb-an., Stront., Valer., and Stram.

REFERENCES - Boericke. Clarke.

***AMMONIUM PHOSPHORICUM

(Ammonia Phosphate)

PHARMACY - am-p. Ammonium phosphoricum. Ammonia phosphate. Hydro-diamonic phosphate. Solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Facial paralysis. Gout. Joints, concretions.

HOMEOPATHIC - Allen said Am-p. has been used with success in some cases of facial paralysis. This salt has been used in cases of chronic gout with nodes of urate of soda on the joints.

For chronic gouty patients, uric acid diathesis. Bronchitis. **Nodosities of the joints of the fingers** and backs of the hands. Facial paralysis. Pain in shoulder joint. Tightness around chest. Heaviness of limbs, unsteady tottering gait. Coldness from least draft of air.

Head - Sneezing with excessive running from nose and eyes, **only in morning.**

Kidneys - Rose-colored sediment.

Lungs - Deep rough cough with greenish expectoration.

REFERENCES - Boericke. Clarke.

***AMMONIUM PICRICUM

(Ammonia Picrate)

PHARMACY - am-pic. Ammonium picricum. Ammonia picrate. Picric acid and its combinations are very powerful medicinal substances of the nitric acid group. **Historical dose:** Trituration and all potencies, third trituration.

CLINICAL - Bilious headache. Periodical neuralgia. Vertigo. Whooping cough.

HOMEOPATHIC - Am-pic. is intensely bitter and, like Pic-ac. and other picrates, has a strong action on the liver. Hale commended

Ammonium picricum in congestion of brain and spinal cord.

Heavy, pressive pains in occiput and mastoid region, on sides of head to temples and eyes. Periodic bilious headache (Sang., Cimic.). Occipital headache (Am-pic.), proceeding down the spine and also a pain traveling the reverse way. Neuralgia. Face darkly flushed. Mind obtuse, disinclined to labor. Malarial fever. Whooping cough. **Head** - Periodical neuralgia in **right side of occiput**, boring extends to ear orbit and jaw. Periodic bilious headaches (Sang.).

Vertigo - Vertigo on rising.

COMMENTS - Hale noted a case he cured with Am-pic. It concerned a middle-aged woman, short, stout, florid, who, every six or eight days, would wake in the morning with violent pain in occipital region, heaviness of head, and vertigo on rising. Pain, worse on getting up, extended over sides of head to temples and eyes. In the afternoon, she had nausea and vomiting of sour bilious matter.

Another case concerned a doctor who had been thrown from his carriage and injured about the back of his head. He seemed more frightened than hurt. In a few days, however, he noticed that on turning in bed or stooping or on any sudden motion he would be seized with a "wild feeling" in the occiput, trembling beating of heart with intermission and great alarm. Am-pic. completely relieved him after other medicines had been given in vain.

Allen noted the indication "Periodical neuralgia in right side of occiput, boring extending to the ear orbit and jaw' vertigo on rising, especially in irregular menstruation."

Clarke gave great relief with Pic-ac. in a case of spinal paresis in which a pain rising up the spine into the head was complained. Clarke thought it was the Pic-ac. element in this ammonia salt that accounts for its action in these cases of Hale's.

REFERENCES - Boericke. Clarke. Hale.

***AMMONIUM VALERIANICUM

(Ammonia Valerianate)

PHARMACY - am-val. Ammonium valerianicum. Ammonia *valerianate*. **Historical dose:** Trituration and all potencies.

HOMEOPATHIC - Am-val. is a remedy for nervous, hysterical people suffering with neuralgia headaches and insomnia. Great nervous weakness is always present. Hysteria. Neuralgia headaches and insomnia. Pains in cardiac region. Functional disturbances of the heart, tachycardia.

REFERENCES - Boericke.

***AMNIOTIC FLUID

(Amnii liquor)

PHARMACY - amn-1. Amniotic fluid. Amnii liquor. Tincture of the liquid obtained by aseptic puncture.

Historical dose: All potencies.

HOMEOPATHIC - Amniotic fluid is a clear, or limpid, yellowish-white fluid with flocculates. Alkaline or neutral reaction. May contain lanugo, or epidermal cells. May contain pepsin, diatase, fibrinase and anti staphylococci. Hypotonic. Composition is similar to blood serum, urea 18.25 mg%, uric acid 4.51 mg%, chlorides 5.93 mg%, creatine 2.33 mg%, CO₂, 34.77 vol.%. Source of the organ of secretion is not known. Its role is supportive, and also probably nutritive, it surrounds the embryo.

The provings, published by P. Schmidt in The Journal of the American Institute of Homeopathy, 20:236-248, 1927, consisted of 7 provers and used "one dose of liquor amnii 30c." Schmidt noted that "This remedy seems to act essentially on the head, abdomen and the menstrual periods. It seems to suit better the feminine temperament."

MIND - Increased mental activity. Tends to overwork, industrious. Mania for work. Irritability. Restlessness, nervousness. **Abdomen** - Pain in abdomen.

Head - One-sided headaches. Pains in sides of head.

Female - Menstrual disorders.

Sleep - Disturbed sleep. Restless during sleep. Tossing about in the bed.

COMMENTS - Hering related a case of a soldier who, while carrying a wounded comrade, was struck by a spent bullet in the epigastrium. He became pale and weak, "felt the wind knocked out of him" and laid down. A drop of Liquor ammon. in water relieved at once.

REFERENCES - Schmidt.

***AMORPHOPHALLUS RIVIERI

(Chinese Umbel)

PHARMACY - amor-r. Amorphophallus rivieri. Chinese umbel. N. O. Spaciflora order and the Araceae family. The tincture is made from the stem, the flower and the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Cancer, uterine. Cholera morbus. Dysmenorrhea. Headaches. Infantile, cholera. Leucorrhea. Menopause. Metritis. Metrorrhagia. Typhoid fever.

HERBAL - Amor-r. is an herbaceous plant, growing from 30 to 60 cm high. The starchy rhizome is edible, dried or roasted. This plant flowers only once every seven years, although the cycle may vary in a greenhouse.

The whole plant is regarded as medicinal.

HOMEOPATHIC -The proving was the work of Dr. Proceso Sanchez Ortega of Mexico. The provings report weight loss, morbid hunger, bodily swelling and puffiness, and loss of ability to copulate. Repulsive appearance, general puffiness and the stupefied look of enervation.

Feeling of exhaustion, apathy. General discomfort with extreme exhaustion. General uneasiness, extreme weariness. Feels ill, needs to remain in bed. Feverish with intestinal colic. Burning sensation of the orifices and in the throat with numbness of the limbs.

Gastric and intestinal complaints with tiring diarrhea. Female genital complaints with difficult, painful menses and purulent leucorrhea. Burning sensation in the female genitals. Acute or chronic salpingitis.

MIND - Looks bewildered, dazed, exhausted. Total indifference and apathy. Semi-conscious state, does not react. Anxiety and fear.

Abdomen - Intestinal rumbling.

Eyes - Sight weak.

Female - Burning sensation in the vagina and cervix. Painful menstruation with pains in the sacrum and lumbar region, feeling of exhaustion and flow of dark blood. The menses is prolonged, with the blood decomposed, greenish and irritating. Fetid leucorrhea with a greenish, purulent appearance. Irritating leucorrhea with discharge of thick pus. Inflammation of the Bartholin glands. Metritis before menopause, with profuse menstruation and metrorrhagia. Uterine cancer.

Food - Intense thirst. Discomfort during naps, although the food had settled. Cannot bear alcoholic drinks.

Head - Persistent frontal headache, spreading at first to the right temple and then the left. Head pains by day in the morning and afternoon. Periodic head pains, every eight days and throughout the day until bed-time.

Modalities - Better from nourishment. Worse from alcoholic drinks.

Rectum - Normal stools or diarrhea, coffee-colored, preceded by abdominal pains. Diarrhea every two hours with tenesmus, fatigue and weakness.

Stomach - Burning in the stomach, causing great discomfort. Heaviness of the stomach when eating, which disappears after three to four hours. Nausea, especially on waking, ameliorated by nourishment. Nausea at the sight of food. Acidity after introducing food to the stomach.

Vertigo - Slight vertigo, especially while walking and the sensation of walking crookedly.

RELATIONS - Compare: (1) Ars. - Prostration, violent vomiting after drinking, diarrhea with burning, black stools, excoriation around the anus. Painful menses with black blood and burning, putrid, corrosive leucorrhea. (2) Verat. - Prostration and feeling of coldness, vomiting and diarrhea, painful menses. (3) Camphora - State of collapse, feeling of general cracking, cannot bear to be covered, even though the body may be ice-cold.

REFERENCES - Julian.

***AMPELOPSIS QUINQUEFOLIA

(Virginia Creeper)

PHARMACY - ampe-qu. Ampélopsis quinquefolia. Virginia creeper. American Ivy. Vitis quinquefolia. N. O. Vitaceae. Tincture of plant. Decoction of chopped inner bark. *Historical dose:* Tincture and all potencies.

CLINICAL - Cholera. Dropsy. Hoarseness. Hydrocele. Kidney, dropsies. Vomiting.

HERBAL - S. M. Worthington cured with it kidney dropsies that had resisted other treatment and a case of hydrocele. He found the decoction to be the best preparation.

HOMEOPATHIC - Our knowledge of Ampe- qu. is due to observations on two children poisoned by chewing the leaves. They were quickly seized with violent vomiting and purging with considerable tenesmus, then collapse, sweating and faint pulse, then deep sleep for two hours from which they were aroused by the return of the vomiting and purging. Pupils were dilated for hours after commencement of attack.

Hansen gave as an indication: "Chronic hoarseness in patients who were scrofulous in their youth."

Kidney dropsies, hydrocele and chronic hoarseness in scrofulous patients have been benefited by this drug. Cholera symptoms. Generally worse about 6 p.m. Dilated pupils. Left coastal region sore and sensitive. Elbow joint pains, back sore. Soreness of all limbs. Vomiting, purging with tenesmus. Rumbling in abdomen.

REFERENCES - Allen. Boericke. Clarke.

***AMPHETAMINUM SULFURICUM

(Amphetamine)

PHARMACY - amphet. Amphetaminum sulfuricum. Amphetamine. *Historical dose:* All potencies.

CLINICAL - ADHD. **Anorexia.** Anhyth- mia. Constipation. Dermatitis. Diarrhea. Dizziness. Dryness. Dyslexia. Emaciation. Fatigue. Headaches. Heart, disorders. **Hyperactivity.** **Insomnia.** Narcolepsy. Nausea. Nervousness. Palpitations. Tachycardia. Tourette's, syndrome. Vasculitis. Vomiting. Weight, loss.

HOMEOPATHIC - Tourette's syndrome, uncontrolled movements of the head, neck, arms and legs. Trembling. Hyper-reflexia. Vasculitis. General fatigue. Weight loss. Sexual changes of libido. Increased perspiration. Hyperthermia.

MIND - *Nervousness and restlessness*. Irritability. Mental depression. Psychosis. Euphoria. False sense of well-being.

Eyes - Blurred vision.

Female - Changes in libido.

Head - Headache.

Heart - Arrhythmia. Tachycardia. Palpitations with chest pain.

Limbs - Uncontrolled movements of the head, neck, arms and legs.

Male - Decreased sexual ability. Changes in libido.

Mouth - Dryness of mouth. Unpleasant taste.

Rectum - Constipation. Diarrhea.

Skin - Dermatitis.

Sleep - Narcolepsy. Insomnia. Drowsiness.

Stomach - Loss of appetite. Nausea. Stomach cramps or pain. Vomiting.

Vertigo - Dizziness. *Light-headedness*.

REFERENCES - Murphy.

***AMPHISBENA VERMICULARIS

(Lizard)

PHARMACY - amph. *Amphisbaena vermicularis*. Lizard. N. O. Lacertilia. Snake-like lizard without limbs. The jaw containing the poison is removed and triturated. **Historical dose:** Trituration, Tincture and all potencies.

CLINICAL - Constipation. Cramps. Debility. Depression. Headache. Hernia. Jaw, pains. Toothache.

HOMEOPATHIC - Mure is the authority for its effects. It is prepared from the jaw as well as the poison of the animal and has symptoms indicating action on bone like that of Silica.

Amph. acts markedly on the jaws, causing swelling and pain, especially in the right jaw, worse by air and dampness. Many kinds of severe headache, pains are frequent. Eruptions of vesicles and pimples. Right-sided action. Generally aggravated from motion.

MIND - Boredom. Depression. Tender sadness, which disposes one to be gentle and meek. Sadness and lassitude in the morning. Impatience.

Abdomen - Protrusion of umbilical hernia. Tearing pain at the navel, all day. Lancination in the navel, as from a stiletto. Suppuration of inguinal hernia. The hernia is painful and air is felt in it.

Back - Violent pain in the whole of the vertebral column, worse when walking, moving the arms or stooping.

Ears - Pain in the meatus, as if air were rushing in.

Eyes - Weariness of the eye in the evening, with pain and pricking when looking at the light. Constriction of the right eye, as if strung together with a cord. Sensation as *of a grain of sand in the right eye*. Constant twitching at the upper eyelids, especially the left. Pain at the inner canthus of the right eye, as if a sty would form. Shooting pain in the left eye. Lachrymation and constriction of the left eye.

Face - Prickling and heat at the right malar eminence. Painful and large pimple on the left side of upper lip, suppurating. Pains in the right lower jaw and considerable swelling, aggravated by air and dampness. Dull pain in the right lower jawbone.

Head - Horrible headache with sensation as if the feet were in the brain. Weight in the forehead and parietal regions. Repeated beating at the right side of the forehead, as if hailstones fell upon it. Lancination and pain all through the right side of the head. Sweat about the head.

Limbs - Breaking out of little pimples, especially on the forearm. Painful swelling of the arm. Painless drawing up of the legs. Cramp in the left leg, it remains behind in walking, as if paralyzed.

Modalities - Better from evening. Better from itching the eruption. Worse in morning. Worse walking. Worse turning around. Worse itching the eruption. Worse toothache. Worse pains in lower jaw. Worse weariness of the eyes. Worse from sadness or lassitude.

Mouth - The teeth feel elongated and set on edge, especially the right lower molars. Toothache is worse in the afternoon and evening. Chewing is painful, but not the contact of liquids.

Rectum - Constipation.

Skin - Acute acne rosacea. Painful and large pimples on the left side of the upper lip, suppurating. The miliary acne rosacea spreads over the chest, neck and back with itching. Breaking out of little pimples, especially on the forearm. Gradually, a white vesicle forms on pimples. Pimples discharge a clear serum after which the eruption dries up.

Sleep - Wakes at midnight for ten consecutive nights. Disturbed sleep.

Stomach - Chilliness and pains at the epigastrium.

Throat - Swelling of tonsils. Swallowing is difficult, cannot swallow saliva.

Vertigo - Vertigo, as if one would fall towards one side and is then impelled towards the opposite side by a contrary oscillation. Dizziness when turning around.

RELATIONS - Compare: (1) Hecla lava, Heloderma, Silica.

REFERENCES - Allen. Clarke.

***AMYGDALUS AMARA AQUA

(Bitter Almond)

PHARMACY - amygd-am. Amygdalus amara aqua. Bitter almond. Amygdalus communis amara. N. O. Rosaceae. An ounce of alcohol is added to a pound of bitter almonds, then six pounds of water are added and distilled down to three pounds. Hydrocyanic acid is formed by the action of water on the amygdaloids.

Historical dose: Tincture and all potencies.

CLINICAL - Asthma, Coma, Diphtheria. Epilepsy. Headache. Syncope. Tetanus. Urticaria.

HOMEOPATHIC - The symptoms of Amygd-am. are not very distinguishable from those of Hydrocyanic acid. Jerking, hesitating, stuttering speech. Dark red palate and fauces. Swallowing impossible. Vomiting of undigested food and bile.

Cough with soreness of chest extending down to stomach. Stitches under left nipple, going deep in, making exhalations more difficult. Convulsive and at intervals very short respiration with fear of suffocation.

Heaviness in forehead (Laur.). Head drawn backward. Congestion of vessels of brain and general effusion on both hemispheres, dura matter gorged. Opisthotonos. Dullness of left half of the head (Hydr-ac., right). Venous system gorged with dark liquid blood. Blood, muscles and bile of a violet color. Snoring. Surface cold, clammy, pale or blue.

Convulsions. Most violent convulsions, which last almost three-quarters of an hour. The convulsions returned after a quarter of an hour, but less violently. General tetanus. Complete opisthotonos.

Excessive languor. General debility from seven bitter almonds. Feeling of weakness, as if the muscular vigor was deficient and he would fall down. Fainting. Syncope. Death in thirty minutes. General malaise. Weight on the eyes and in the limbs.

MIND - Mild delirium. The patient stammers incoherently. Appearance of intoxication. She is so much affected that she can hardly utter a word (after four hours). The feelings were deeply affected, she began to weep. Extreme anxiety. Falls down unconscious.

Loss of consciousness of voice and of motive power. Senseless. Coma with stertorous respiration and involuntary stool, but she revives suddenly and looks wildly at her. **Abdomen** - Abdomen relaxed, soft, hardly of natural warmth. Pains in abdomen. Colicky pains, which increase, until the abdomen is distended like a balloon.

Chest - The chest heaved spasmodically and its movements were hurried. Oppression of chest. Several transient stitches and pains.

Ears - Ears white and cold. Humming in the ears.

Eyes - Sunken eyes. The eyes are turned upwards. Eyes glassy. Brilliancy of the eyes. Eyes wide open and motionless. Eyes are closed, cold. Spasmodic movements, especially of the eyelids. Upper eyelids convulsed. Eyeballs protruding from their sockets. Eyes open and rolling from side to side. Contracted pupils. Pupils widely dilated and insensible to light. Motionless pupils. Dimness of sight.

Face - Face becomes deadly pale. Face yellowish-gray and moist. Lips bluish, white and cold. Countenance is very flushed. Spasmodic distortion of the features. Frequent convulsive action of muscles of face and neck. Sardonic laughter, joyful countenance, sparkling eyes.

Head - Heaviness and confusion of head and of thought. Head drawn between shoulders. Violent headache. During the forenoon a sense of heaviness in the forehead. Slight pressure in forehead. Sense of weight and oppression on top of head.

Heart - Heartbeats very feebly. Beat of heart feeble, sometimes intermittent.

Kidneys - Scanty and painful urination.

Limbs - Limbs were completely lax and fell lifeless when lifted. Unsteadiness on the limbs. Upper and lower limbs cold. Could not stand on legs. Formication in the legs with staggering gait. Knees flexed on the abdomen. Heaviness of limbs and whole right thigh.

Lungs - Short, panting respiration, suffocative attacks. Breathing stertorous and at long intervals. Breathing slow and gentle. Respiration heavy. Difficult respiration.

Male - Penis shriveled.

Mouth - Tongue dry and coated. Mouth tightly closed. Froth at the mouth. Breath smells of bitter almonds.

Neck - Swelling and undulatory motion in the jugular veins, the carotids beat quickly and fully.

Nose - Nose white and cold.

Pulse - Pulse strong, frequent and wiry. Pulse at first small, frequent and intermittent, then slow and regular. Pulse slow, vibrating, small, flickering. Diminished pulse, scarcely perceptible.

Rectum - Copious, but especially watery evacuations. Stool seldom.

Skin - Skin blue and bluish-red, especially on scrotum, where it was blue and almost greenish-yellow. Wheals over the whole skin. Urticaria with fever.

Sleep - Yawning with irresistible tendency to sleep. Drowsiness. Inclined to sleep the afternoon. Depression in the afternoon and evening. Inclination to sleep soundly and deeply through the night, difficult to rouse. Deep, stertorous sleep.

Stomach - Nausea and vomiting of food. Vomiting of a bitter, viscid substance, bile smelling strongly of prussic acid.

Temperature - General coldness. Surface cold and clammy.

Throat - Increased discharge of mucus from the larynx. Hoarseness caused by scraping in the larynx. Swallowing is impossible. Burning sensation in throat. Excessive burning heat in laryngo-pharyngeal region.

Vertigo - Vertigo, as if gradually passed off by noon. Vertigo in strong air. Vertigo, as if intoxicated, followed by sudden death (from taking many bitter almonds).

COMMENTS - Farrington noted "Very brilliant appearance of the eyes without corresponding mental expression. Eyes drawn to left side. Burning heat in laryngo-pharyngeal region. Sharp pains through tonsils."

RELATIONS - Antidoted by: Op. - convulsions., strong coffee, cold water poured over head. **Compare:** (1) Laurocerasus, Hydr-ac., Op. - spasms, stertor, slow pulse, stupor. (2) Stram., Tab., Ant-t. (3) Lach., Naja (heart).

*****AMYGDALUS PERSICA**

(Peach Tree Bark)

PHARMACY - amygd-p. Amygdalus persica. Peach tree bark. Persica amygdalus. Persica vulgaris. N. O., Rosacea, Amygdalae. Fresh infusion or tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Gastric and intestinal irritation. Hemorrhage. Morning sickness. Nausea. Vomiting.

HERBAL - Outside the old herbalists, the virtues of the bark and leaves of the peach tree have received little attention. The infusion is made by taking of the bark one part and of boiling distilled water ten parts. Infuse in a covered vessel for one hour and strain. The tincture is made by pounding the fresh bark of the twigs to a pulp and macerating in two parts by weight of alcohol.

HOMEOPATHIC - Amygdalus persica is a most valuable remedy in vomiting of various kinds including **morning sickness**. Constant nausea and vomiting. Irritation of eyes. Ischuria and hematuria. Hemorrhage from the bladder. Gastric irritation of children, no form of food tolerated. Loss of smell and taste. Gastric and intestinal irritation when the tongue is elongated and pointed, tip and edges red.

COMMENTS - Dr. Oliver S. Haines of Philadelphia contributed his experience: "Apropos of the remarks made by Dr. C. C. Edson upon the efficacy of infusion of peach bark in the gastric irritability of children, we might mention the following authentic case:

"For an adult the dose is five drops and in urgent cases repeat every five to ten minutes until the symptoms subside after which give it at intervals of one to four hours as indicated.

"After ten years use I am thoroughly convinced that any physician once giving it a thorough trial will never again be without **it** Of course, it is not a specific for all "**Upheavals of the inner man,**" but will I think meet more indications than any other known remedy of its class.

"An infant during its second summer, had been much reduced by acute dyspeptic diarrhea. A marked feature of this case was the persistent vomiting of all food. The stomach would tolerate no form of baby food with or without milk. The child's parents had consulted some eminent physicians of our city. The child had been given homeopathic remedies. None of the remedies chosen seemed to produce the desired effect. After a consultation it was deemed best to send the infant to the mountains. The change aggravated its condition.

"While the parents hourly expected their baby would die, it was suggested that they send for an old practitioner living in the mountains near at hand. "This man had a local reputation as a saver of dying babies. His prescription was as follows: Two or three fresh peach leaves were to be put in a cup of boiling water, the infant to receive a "**drink** " of this infusion at frequent intervals.

"The effects of this were remedy as remarkable in this case as in the case narrated by Dr. Edson. Our child soon retained food and eventually recovered. It seems this ancient disciple of Aesculapius had long used peach leaves and regarded them as possessing specific virtues."

Anshutz noted "Dr. C. C. Edson wrote in the Chicago Medical Times. 1890: Some ten years ago I had a little patient whose principal difficulty seemed to be an inability to retain anything whatever upon its stomach. It would vomit up promptly everything I gave it and I had given it everything I had ever heard of and also had eminent council, but it was no go, I was literally at my rope's end.

"At this juncture an elderly lady neighbor, one of "the good old mothers," timidly suggested an infusion of peach bark. I started to find the coveted bark, which I was fortunate enough to procure. I prepared an infusion, gave the little patient a few swallows and presto ! the deed was done, the child cured. It tiffs aítñe indications of the leaves and many more. It fills the indications of hydrocyanic acid, ipecac or any other anti-emetic.

It will more frequently allay the vomiting of pregnancy than any remedy I have ever tried. And nearly every case of retching or vomiting (except it be reflex) will promptly yield under its use.

"In recent cases I have very rarely had to give the second prescription to relieve morning sickness. I was visiting a doctor in Quincy, while there he told me he was afraid he would have either to make a lady abort or let her die from the fact that he had failed to stop her vomiting. I happened to have a sample of the medicine with me, I gave it to him, he took it to the lady and in a few days he reported her well. I may say like Dr. Edson, it is a standard remedy with me. I have found it very useful in hemorrhage from the bladder.

"Some of my lady patients find it very good in nervous headache. I have used the tincture prepared from the leaves, but it is far inferior to that prepared from the bark of the young shoots. A medical friend was going to see a lady who had morning sickness, he told me he had thought of advising her to use popcorn, I handed him a small bottle of my Amygdalus and told him to take a couple of ears of corn in his pocket and try both. The next time I met him he said my medicine had done the work."

RELATIONS - Compare: (1) Amygd. - pains through tonsils, throat dark, difficult swallowing, vomiting, cough with sore chest.

***AMYLENUM NITROSUM

(Amyl Nitrite)

PHARMACY - aml-n. Amylenum nitrosum. Amyl nitrite. Iso amyl nitrite. Dilution with alcohol. **Historical dose:** All potencies.

CLINICAL - Angina pectoris. **Anxiety.** Blushing. Chorea. **Circulation.** Convulsions. Dyspnea. Epilepsy. Exophthalmos. Flushings. Headaches. **Heart, attack. Heart, disorders. Hiccoughs. Hot, flushes. Hypertension.** Hysteria. Menopausal, disorders. **Palpitations.** Seasickness. Sunstroke. **Yawning.**

HOMEOPATHIC - The Nitrite of Amyl was introduced into medicine by the old school as a remedy for angina pectoris and was supposed to act by lessening arterial tension. Vasomotor nerves are affected by Aml-n causing dilatation of all arterioles and capillaries, thereby flushing of face, heat and throbbing in the head are produced.

Homeopathic provings have shown that, in some cases at any rate, Aml-n. has a specific action. Also in paroxysms of asthma, chloroform asphyxia inhalation of the Aml-n. will give immediate relief. For this non-homeo- pathic application, two to five minims (put up in pearls) dropped on a handkerchief and inhaled may be required.

The most striking action of the drug is the **deep facialflushing** it causes and the **pulsation all over the body.** Superficial arterial hyperemia. **Palpitations** of the heart and similar conditions are readily cured by it. Amyl-n. is for all conditions where the **blood vessels are contracted**, as in angina pectoris. Headaches accompanied by cold, pallor, etc. **Hiccoughs and yawning.** Seasickness. Often relieves temporarily epileptic convulsions. Weak and emaciated.

The flushings and other discomforts at menopausal are helped. **Hot flashes.** Flushing heats, followed by drenching sweats are marked symptoms. Cerebral vessels dilate. Weak, emaciated, walking with tottering gait inclined to go to one side when walking. Rigid muscles of limbs. Child has convulsions.

Worse since exposure to the sun, heat stroke, vascular headaches, severe palpitations, and the keynote is a sudden rush of blood to the head with palpitations (Glon.).

MIND - Confused feeling after congestion to head. **Anxiety, as if something bad might happen, must have fresh air.** Anxiety can't sit still. Shrieking before convulsion. Melancholy. Mental confusion and a dreamlike state. Trancelike state, everything seems unreal. Increasing sense of stupefaction. Unconsciousness, inability to swallow.

Abdomen - Oppression near liver. Crampy, colicky pains, rumbling.

Blood - Intense surging of blood to face and head, later veins turgid (Bell.). **Rapidly dilates arteries and quickens but weakens circulation.** Venous and arterial blood are of same hue. **Hypertension.**

Chest - Pain and constriction around the heart. Dyspnea and asthmatic feelings. Great oppression and fullness

of chest, spasmodic, suffocative cough. Aching backward along the left floating rib. Feeling as if a weight on sternum. Sensation of swelling of front of chest.

Constitutions - Nervous, sensitive women and men.

Ears - Throbbing in the ears, bursting, burning. Ears hyperemic.

Eyes - Exophthalmic goiter from grief. Protruding, starting eyes, conjunctiva injected. Ciliary neuralgia, eye injected, face or cheek suffused. Objects appear pea-green or yellow. Sight blurred, wavering. Aching eyes in sunlight, trembling and wavering of objects, lachrymation and sneezing.

Face - Easy flushing or blushing of the face, on slightest emotion. Chewing motion of the lower jaw. Smacking of lips as if in act of tasting. Neuralgia of fifth pair of nerves.

Female - Hemorrhages after-pains with facial flushing. **Menopausal headache and flushes of heat** with anxiety and palpitations. Neuralgia during menses. Convulsions immediately after delivery.

Food - Loss of appetite.

Head - **Bursting sensation** in the head and ears. Throbbing in head. **Surging of blood to head and face** with fiery red face. Sensation as if blood would start through skin with heat and redness. Throbbing. Migraine with pallor, worse left side

Heart - Aching pain and constriction around the heart. **Angina pectoris** with great anxiety. **Tumultuous action of the heart**. Pain and constriction around heart. Fluttering of heart on least excitement. Full, soft pulse. **Violent beating of the heart and carotids** with sense of constriction. The heart has an irregular, rumbling sort of sound. Precordial pain extending to right arm.

Kidneys - Increased quantity of urine increased, with sugar in it.

Limbs - **Constant stretching for hours**.

Veins of hands dilated, pulsations felt in fingertips.

Lungs - Constriction in throat extended to the chest, with dyspnea and asthmatic feeling in larynx and trachea. Asthma. Hastens and deepens the breathing. Suffocation and cough in paroxysms.

Modalities - Better from open air. Better exercise. Better in open air. Better cold water. Worse from menopause. Worse slight causes, emotions. Worse from heat. Worse closed or warm room.

Sleep - Repeated yawning in coma. Yawns profoundly and repeatedly. Stretches almost constantly, it is almost impossible to satisfy the desire. Stretching and yawning with hiccough.

Stomach - Hot, burning sensation in stomach. Hiccough and yawning with stretching. Nausea with dryness of throat. Crampy pains in epigastrium. Fullness and pressure with belching.

Temperature - **Flushings, followed by sweat at menopause**, sometimes followed by cold and clammy skin with profuse sweat. **Abnormal sweat after influenza**. Throbbing throughout whole body.

Throat - Constriction, collar seems too tight. Choking feeling in the throat.

Vertigo - Great confusion of the head, with vertigo and drowsiness.

COMMENTS - The specific heart symptoms of Aml-n. are the sensation of swelling of the chest as if convex, with a feeling as if the lower end of the sternum made a deep depression bent in towards the spine.

Precordial anxiety. Accelerated intensified beating of the heart. Oppression and tumultuous action. Constriction (relieved by Cact.) and aching pain. Strong, full pulse. Eyes protruding, staring. Exophthalmic goiter from grief. Flushing of face. Flushing on least emotion.

Nash has cured "chronic blushing on least excitement mental or physical" with it. Heat, redness, turgidity. Choking feeling, collar feels tight. Tremor and weakness of limbs.

Better open-air exercise, cold water and cold air. Worse in a warm room.

Other prominent symptoms include anxiety as if something might happen, and a desire for fresh air. Throbbing in head. Bursting-out feeling in ears. Smacking of lips as if in act of tasting. Munching movement of lower jaw as if the wing. Constriction of throat and heart from actual fright ran to window for air. Intense fullness in head, sensation of rushing to vertex.

"Impending apoplexy." Threatened apoplexy. Flushing of the face, heat and throbbing, palpitations. Boericke said, "Flushings followed by sweat at menopause," hot flashes with a red face during menopause (Lach).

Boericke also notes "chloroform asphyxia," antidote for chloroform.

RELATIONS-Antidotes: Cactus, Stry., Ergot. **Compare:** (1) Bell., Glon., Lach.

***ANACARDIUM OCCIDENTALE

(Cashew Nut)

PHARMACY - anac-oc. Anacardium occidentale. Cashew nut. N. O. Anacardiaceae. West Indies. Tincture of the black juice between outer and inner shell. **Historical dose:** All potencies.

CLINICAL - Allergies. Blisters. Coms. Dysentery. Erysipelas. Hypochondriasis. Imbecility. Itching. Melancholy.

Ophthalmia. Paralysis. Rhus poisoning. Ringworm. Smallpox. Warts.

HERBAL - The Anac-oc. nut is kidney-shaped, that of Anae, is heart-shaped. The juice has been used locally as an application for coms, warts, hard excrescences, ringworm and obstinate ulcers.

Anac-oc. has been applied to the face to remove cuticle and produce a fresher and more youthful appearance. If hands are not washed carefully after handling nuts, they cause itching and painful, burning swellings wherever they touch skin.

The effects of the cashew nut are known through instances of poisoning. It acts powerfully on the skin, causing erysipelas,

blisters and swelling. It has been used as an antidote to Rhus poisoning. One woman received a swollen face from exposure to fumes when roasting nuts.

HOMEOPATHIC - Anac-oc. causes weakness of memory and mind like Anae. Scirrhus swellings. Hard excrescences. Proud flesh. Tearing pain in left side of head. Burning and itching of ears and face. General paralytic state. Paralysis and imbecility. Tongue painfully swollen.

Erysipelas, vesicular facial emptions, anesthetic variety of leprosy, warts, coms, ulcers, cracking of the skin on soles of feet. Itching almost intolerable, umbilicated vesicles as in smallpox. The erysipelas spreads from left to right and it cures erysipelas spreading from right to left, Paralysis with imbecility.

MIND - Difficulty with thinking. Did not know his surroundings. Weak memory. Melancholy. Hypochondriasis. Apathy. Loss of will, cannot control voluntary muscles. Paralysis with imbecility.

Ears - Swelling of ears with burning and itching.

Eyes - Scrofulous ophthalmia.

Face - Erysipelas over whole face from applying juice to destroy marks. Swelling of face with itching and burning, next night after handling nuts. Face swollen, features not discernible.

Female - When juice is applied during menses, it causes erysipelas of the face. Uterine complaints and dropsy.

Head - Head falls forward, difficult to keep it up. Tearing headache on left side.

Kidneys - Increased urination.

Limbs - Large blisters filled with a yellow fluid are raised on hands, followed by desquamation. Warts. Coms.

Male - Stimulates sexual desire. Testicles swollen when touched with hands after handling nuts.

Mouth - Drinks run out of mouth. Aphthae. Cannot speak, only mutters unintelligible sounds. Painfully swollen tongue from handling nuts.

Skin - Corroding or dry tetters. Red itching spots like nettle rash (Rhus-t.), spreading from left to right. Used as a vesicant, it

causes itching and burning, then gradual reddening and swelling, followed by vesicles which become pustular. These are large and flat at first and gradually become confluent and break, the epidermis peels off, but leaves the surface swollen, hyperemic and suppurating for days. Proud flesh.

RELATIONS - Antidoted by: Rhus-t., Iodine locally. **Compare: (1) Anae**, orien. (2) Similar to Canth., Mez. - as a vesicant. (3) Crot-t., Rhus-rad., Rhus-tox. (4) The tincture of Iodine was found useful as a local application to parts affected.

REFERENCES - Boericke. Clarke.

***ANACARDIUM ORIENTALE

(Marking Nut)

PHARMACY - anac. Anacardium orientale. Marking nut. Malacca bean. Semecarpus anacardium. N. O. Anacardiaceae. East Indies. Trituration of layer between shell and kernel of heart shaped nut. **Historical dose:** All potencies.

CLINICAL - Abuse, effects. Alcoholism. Al- zheimer'sdisease. Amnesia. Anxiety. **Bipolar. Brain, disorders.** Brain, weakness. Constipation. Coughs. Debility **.Delusions. Dementia.** Dermatitis. Dysmenorrhea. Dyspepsia. Eczema. Elephantiasis. **Fears.** Hallucinations. Headache. Hearing, disorders. Heart disorders. Hemorrhoids. **Humiliation.** Hypochondriasis. Hypoglycemia. Hysteria. Insanity. Lichen planus. **Manic depression. Memory, loss. Mental, disorders.** Mental, weakness. **Multiple, personalities.** Neuralgia. Neurasthenia. Nervous. Palpitations. Paralysis. Pemphigus. **Phobias. Poison, ivy. Religious, mania.** Rheumatism./Wins, **poisoning.** Self-abuse. Senile, dementia. **Schizophrenia.** Skin, diseases. Smell, illusions. Spinal, disorders. Stiff neck. Strokes. Tendonitis. Urticaria. Vesicular eruptions. Vomiting, pregnancy. Whooping cough. Warts. Writer's cramp.

HERBAL - The nut is heart-shaped, hence its name Anacardium orientale, and perhaps this may be taken as the **“signature”** of its courage imparting properties. Found in Asia, native of East Indies and found in mountainous dry

Anacardium orientale forests. Juice in the external rind of nut is used. Excellent ink made from this nut.

Indians after depriving the nut of its external rind and juice roast and eat it with much relish. The juice which is in cells under the rind is of such acidity that it is used by natives to burn off warts, condylomata and other excrescences and keep down excessive granulation in ulcers.

Ancient writers recommended it chiefly in mental diseases - loss of memory, nervous disorders. Abuse of this drug is harmful leading to madness. Poisonous, acrid, vesicant, purgative and narcotic properties prevail in varying degree throughout the order.

Anacardium has many features in common with its botanical relatives, the different species of Rhus, especially in its action on the skin, muscles, and joints, but it has also very distinct features of its own.

HOMEOPATHIC - Anacardium acts on the mind, nerves, muscles and joints. Its skin symptoms are similar to Rhus-t. and it has proved a valuable **antidote to poison oak and ivy**. Syphilitic patients often suffer with these conditions.

It is used for neurasthenics, such have a type of nervous dyspepsia, relieved by food. Physical and mental lack of power. Special senses are weakened. **Sensation of a plug** in various parts-eyes, rectum, bladder, etc., also of a band. Empty feeling in stomach. Intermittent symptoms.

Gnawing hunger, desire to nibble, hypoglycemia. **Great emptiness in the stomach with weakness and irritability**. Worse from fasting or missing a meal. **Better after eating**. Indigestion, pain is worse when digestion is complete, lasts until the next meal, then better for some time (Nux-v.). **Eating temporarily relieves all discomfort**. Dyspepsia. Constipation.

Headache worse by mental exertion, better by eating. Stiffness of neck, worse beginning to move. The senses are either too weak or too acute and there are sense illusions, a light has a halo, optical illusions in dark colors, illusions of hearing, illusions of smell: burning tinder, pigeon's dung.

Trembling, on slight exertion, worse knees or arms. Emaciation. Paresis of muscles subject to volition. Paralytic condition. Diseases of spinal cord. Heaviness and fullness of the whole body after piano playing. Cramp like pains in muscles. **Contraction of joints**. Injured or strained tendons.

MIND - Anacardium has won for itself a reputation for the **"fear of examinations"** and allied conditions. **Mental disorders**. There is physical and mental lack of power. **Brain fatigue**. Aversion to work, wants to lie or sit continually. **Nervous exhaustion from overstudy**. Special senses are weakened, sight, hearing touch etc. Cowardly. **Lack of confidence** in himself or others. Lack of self-esteem.

Absent-minded. Senile dementia. **Bad memory**. Impaired memory. Loss of memory from fright or mortification. **Forgetfulness makes her low-spirited**. Suddenly forgets names of those around her. Forgets what she has seen. Vanishing of thoughts, deficiency of ideas and loss of subject without knowing it. Alzheimer's disease.

Phobias. Apprehends trouble from everything. Fear of impending misfortune. Anxiety about every trifle. Hypochondriasis. Anxiety when walking, as if pursued. Fear of examinations in students. Fear of the future. Fear of paralysis. Refuses to eat for fear of being poisoned. Fastidious, can't rest when things are not in proper place.

Extremely irritable, passionate and contradictory. Angry and depressed. **Very easily offended**. Excessive anger at slight offence, breaking out in violent behaviour. Irresistible desire to swear and curse. **Tendency to use foul, violent language**. Malicious, seems bent on wickedness. Great propensity to **curse, swear and blaspheme** in persons not usually known to curse. Hard hearted, cruel. Unsociable. Absence of all moral restraint.

Profound depression and hypochondriasis, with tendency to use violent language. **Manic depression**. Forsaken feeling. Estrangement from individuals and society. Shuns people. **Victims of verbal, physical and sexual abuse**. Despairs of getting well. Feeling of helplessness. **Ailments from humiliation, punishments**. Mental dullness and gloom after sexual indulgence. There is a tendency to suicide by shooting (Ant-c.).

Schizophrenia (Lach.). Alcoholism. Suspicious and jealous (Hyos., Lach.). **Religious mania**. Senseless talk. Internal conflicts. **Contradictory impulses**. Conflicted over sexual desire, intense desire or aversion to sex. Sexual perversions. Clairaudient. **Hears voices**, of persons far away, spirits or dead people. Hears voices behind her. Hears voices saying he is going to die.

Fixed ideas and delusions of various kinds. There is no reality in anything, all appears as in a dream. Hallucinations. Delusion he is under superhuman control. **Delusion that a demon and an angel sit on his shoulders telling him offensive or good things**. Delusion that he is double. Seems to have two wills, one good, one bad. **Feels as if he had two wills, one commanding him to do what the other forbids**. Delusion that her husband is not her husband, her child is not hers. Delusion that the mind and body are separated. Sees everybody's face in mirror except his own.

Abdomen - Abdomen full and distended.

Colic. **Pain as if dull plug were pressed into intestines.** Rumbling, pinching and griping, especially with flatulent colic. Pain as if a dull plug were pressed into intestine. Hardness of abdomen.

Back - Lumbago with painful stiffness. Dull pressure in the shoulders, as from a weight. Stiffness at nape of neck, down back and pain worse motion. As of a heavy weight on sides of neck and back. Tearing pain between scapulae.

Causations - **Abuse, verbal, physical and sexual.** Checked eruptions. Examinations. Fright. **Humiliation.**

Chest - Anxiety in region of sternum. Pressure in chest, as from a dull plug. Oppression of chest with internal heat and anxiety, driving him into open air. Rawness and scraping in chest. As if contracted, while walking, during headache. Itching on chest. Violent eczema on chest and throat. Redness of skin, with little vesicles itching intolerably.

Constitutions - Anae, is suited to neurasthenic patients. Suited to manic-depressives. Ill-natured children. Elderly senile people. Frequently indicated in depressed, nervous and paranoid people. Hypochondriacs. Women during pregnancy, gastric and nervous disorders.

Cough - Cough excited by talking in children after fit of temper. Cough after eating with vomiting of food and pain in occiput. Cough then yawns and sleeps. Paroxysms of coughing every three or four hours. Cough more violent every other or every third day. Violent cough with loss of smell and taste.

Ears - Pressing in the ears as from a plug. Otorrhea. Itching in ears. Painful swelling of external ear. Catarrh of eustachian tubes. Hard of hearing. Imagines whispers in the ears. Humming. Roaring.

Eyes - Eyes as if swollen, but without pain. **Pressing pain like a plug** on upper orbit. Lachrymation during coryza. Lids so swollen he can hardly see. Great sensitiveness to light. Dim vision as if looking through mist.

Objects appear too far off. Optical illusions in dark colors. Threads and black spots before the eyes. Shortsighted. Pupils first contracted, then dilated.

Face - Redness of face, in mania. Blue rings around eyes. Face pale with sunken eyes. Expressionless, wild, childish. Eczema of face and neck. Violent burning pain. Tetters around mouth. Rough, scaly skin. White, scaly herpes. Twitching of mouth in sleep.

Female - Frequent but scanty menses with spasmodic pain in abdomen. Pressing pain in uterus, with pain in abdomen. Vaginitis. Leucorrhea with itching and excoriation of the parts. Leucorrhea with soreness and itching. Much loss of blood after miscarriage. Melancholy after childbirth. Morning sickness. Nausea during pregnancy better eating.

Food - **Loss of appetite** with fever and skin symptoms. Loss of appetite, alternating with violent hunger. Refuses to eat for fear of being poisoned. Food tastes flat and offensive. Bitter taste in mouth after smoking tobacco. Everything tastes like herring-brine. Thirst for milk with sweat all over. **Thirst during fever.** Constant thirst, yet drinking takes breath away.

Head - Gastric and nervous headaches. Hot head, with icy-cold hands and feet. **Headache worse by mental exertion, better by eating.** Headache from strong smells. **Pressing pain, as from a plug,** in forehead, occiput, temples or vertex. Pressing pain worse coughing, deep breathing after mental exertion. **Headaches, better after a meal.** Headaches, better falling asleep. Vertex as if constricted. Violent pressure in right or left temple. Throbbing in occiput. Tearing pain during hard labor. Baldness. Itching and little boils on scalp.

Heart - Restless feeling at heart. Double stitch at the heart, passing into lumbar region. Beating in bloodvessels. Palpitations with coryza in the aged. Sharp pains in heart during inspiration, at night. Rheumatic pericarditis with double stitches.

Kidneys - Constant desire to urinate. Frequent urging with but small discharge. Frequent urination at night. Frequent discharge of clear watery urine, deposits, turbid, clay colored sediment.

Limbs - Tired feeling. Paralytic weakness. Knees feel paralyzed or bandaged. Pressure as from a plug in the glutei. Pain in ankle, as if sprained worse stepping. Painful thumping on the middle upper arm (left). Cramps in the calves worse walking or rising from a seat. Cramps from toe to instep from heel up calf. Dry hands. Fingers swollen with vesicular eruption. Writer's cramp. Neuralgia in thumb. Warts on palms and hands.

Lungs - Asthma, hysterical, ends in flow of tears. Breath stops, on coughing or swallowing. Dyspnea in children who have an uncontrollable temper. Attacks of suffocation. Sweetish, flat tasting mucus. Purulent, tenacious mucus. Greyish-yellow mucus. Expectoration only during day.

Male - Sensation of burning in the penis during and after urination. Cutting pain along penis. Prostatic discharge during the stool. Voluptuous itching of scrotum, exciting sexual desire. Seminal emissions without dreams. Enjoyment absent during sex. Sexual excesses and perversions.

Modalities - Symptoms disappear during dinner, but begin anew after two hours. **Better from eating.** Better lying on side. Better from rubbing. Better heat, hot bath. Better being in the sun. **Worse from mental exertion.** Worse emotions, anger, fright, care. **Worse from abuse and mortification.** Worse on application of hot water. Worse stepping hard. Worse motion. Worse drafts, open air. Worse cold. Worse hours after eating. Worse

rubbing, scratching. Worse from talking. Worse morning. Worse evening to midnight. Worse from checked eruptions. Worse strong smells.

Mouth - Bad breath and taste. Taste lost. Flat offensive taste. Painful vesicles, fetid odor. Tongue feels swollen and stiff, impeding speech and motion with saliva in mouth. Tongue white, and rough like a grater. Ulcers in mouth. Burning around lips as from pepper. Painful vesicles.

Nose - Chronic coryza, with loss of smell and discharge of purulent mucus. Frequent sneezing, followed by coryza and lachrymation. Violent coryza with palpitation especially in the aged. Soreness in nostrils. Red pustule in right nostril on septum. **Sense of smell perverted.** Smell lost or acute. Illusory smell of burning tinder.

Perspiration - Sweats better while eating. Clammy sweat on palms especially left. Sweats in evening, on head, abdomen and back, even when sitting quiet. Cold sweat with internal heat.

Rectum - **Rectum seems powerless.** Bowels inactive. Soft stool passes with difficulty. **Ineffectual desire. Rectum as if plugged up.** Spasmodic constriction of anal sphincter. **Itching of anus.** Painful hemorrhoids. **Moisture from rectum.** Hemorrhage during stool. Stools of very pale color. Stools mushy, bloody, brown, liver-like. Painless stools.

Sensations - **Sensation of a plug** in various parts. Sensation as if a **dull pressure**, is repeated from time to time. Sensations of a band or hoop.

Skin - Itching worse scratching. **Intense itching.** Eczema with mental irritability. Neurotic eczema. Skin insensible. Dermatitis. Lichen planus. Ulcer on forearm. Urticaria. Promotes expulsion of splinters. **Eruption like that of poison-oak** (Xero., Grind., Croto-t.). Weals, exuding a viscid, yellowish fluid. **Vesicular eruption, swelling.** Yellow vesicles. Blisters discharging a yellowish transparent liquid. White herpetic spots. Smallpox like eruptions. Warts on palms and hands.

Sleep - Spells of sleeplessness lasting for several nights. Sleeplessness from restlessness, itching. Vivid dreams. Anxious dreams. Dreams of fire. Dreams of dead bodies, tombs.

Stomach - Gastric pain, better by eating, but worse again after 2 to 3 hours. **Empty feeling in stomach.** Spasmodic pain. Hiccough. Weak digestion with fullness and distention. **Eating relieves dyspepsia.** Rumbling and fermentation. Heartburn after eating soup. Swallows food and drinks hastily. Eructations, nausea, vomiting. Nausea in morning with empty feeling in stomach. Morning sickness. Nausea with retching. Vomiting of food during pregnancy, better eating. Better from vomiting.

Teeth - Toothache on taking something warm in mouth. Tearing pain in lower incisor, worse contact with tongue and in open air. Teeth of lower jaw seem most affected. Bleeding of gums upon slight rubbing. Swelling of gums.

Temperature - Easily chilled, better sunshine. Chills even in a warm room. Chilliness internal with external heat. Chills over back, as if cold water were poured over it, with heat of face. Internal chills with hot breath. Heat from 4 p.m. until evening, passing off after supper. Heat of upper body with cold feet. Internal shiverings and hot breath. Heat of left side.

Throat - Apt to Choke when eating or drinking. Firm tough mucus in fauces.

Suppuration of tonsils. Sensation as if blunt plugs in throat. Sensation of scraping in throat. Sensation of rawness, during cough. Pressure pain or aching near larynx. Voice hoarse and deep. Rattling in trachea when lying on side.

Vertigo - Vertigo worse walking, stooping and rising from stooping. Vertigo objects seem too distant. Vertigo as if turning in a circle. Vertigo with blackness before eyes. Vertigo as if surroundings or self were tottering.

COMMENTS - Characteristic pressing or penetrating pain as from a plug, which may occur in any locality in connection with neuralgias, ear disorders and hemorrhoids.

Alzheimer's disease (Staph., Hyos.), may be accompanied with personality changes. Brain fatigue. Marked loss of memory. Deafness with loss of memory. Fear of exams and failure.

Cough better by eating. Whooping cough with a gasping and drowsiness after the cough. Morning sickness, better by eating, but returns soon after. Symptoms generally better by eating, recur two hours after. Intermittent symptoms.

"The attacks ceased for one or two days and then continued again for a couple of days." Guided by this indication alone, Custis cured a case of sleeplessness in a pregnant woman with Anacardium 200c. "Spells of sleeplessness lasting for several nights."

Disorders of the palms of the hands. There are warts even on the palms. Skin eruptions in general (Rhus-t.). Bayes' indications are "brain fatigue before examination," "nerve-exhaustion from over-study." "nervous prostration from seminal emissions," or sexual excess. Conflicted over sexual desire, intense desire or aversion to sex.

Paralyzed feeling in knees. Sensation as if knees were bandaged. Sensation of a hoop or band around the

body or about any part is a leading symptom. Sensation of a blunt object anywhere.

It has been used with success in diseases of the spinal cord with this sensation and the feeling of a plug in the spine, worse by any

motion which causes a pain as if the plug were sticking still further in. Kent noted it for tendonitis.

Paranoid schizophrenia, multiple personalities (Plat.), manic depression (Lach.), symptoms of Lyc. and Nux-v. combined and intensified. Keynote separation of the will, "delusion" that there's an angel on the right shoulder and a devil on the left shoulder.

The moral consciousness becomes polarized. Keynote that they can hear voices telling them to do evil. Moral struggle to fight impulses to hurt people. Rubrics are "lack of moral feeling," "godlessness," not lack of religious feeling, but a feeling that they can't be punished. Impulses so strong they shake and tremble. Misanthropy. Deep, suppressed anger and humiliation. History of hard-tempered and low confidence. Inner antagonism.

Delusions of sight and smell, fears of spirits, demons, paranoia, hallucinations. Hears voices, keynote. Irresistible desire to curse and swear, can be used for Tourette's syndrome (close to Plat., but Plat. talks about sex.).

Religious mania (Verat., Lach.). Feels that he is possessed. Become frightened of their anger, of their own hardness and uncompassionate nature, moral conflicts, turn to religion to restrain themselves. Fear of losing control. Dramatic alteration of moods, deep guilt and torment about their soul and salvation alternating with a mania, maliciousness and impulsiveness.

Clarke cured with it a man who had a smell of burning wood in his nose, remaining after influenza.

RELATIONS - Antidotes: Grind., Coffea, Jug-c., Rhus-t, Eucalyptus. **Compare:** (1) Anae, occidentale, Rhus-t., Cypr., Chel., Xero. (2) Cereus serpentina - swearing. (3) Com., Rhus-t., Rhus-v. (4) Ant-t., Apis, Cori-r., Ferr., Iod., Jug-c., Lyc., Nit-ac., Nux-v., Ph-ac., Plat., Urt-u., Puls., Nat-m., Caust. (5) Thuj. - fixed **ideas. Related remedies:** Ign., Lyc, Plat, Rhus-t. Platina follows well. It is an antidote to Rhus-t. if there are gastric symptoms, or symptoms going from right to left.

***ANAGALLIS ARVENSIS

(Scarlet Pimpernel)

PHARMACY - anag. Anagallis arvensis. Scarlet pimpernel. Weather-glass. Red'chickweed. N. O. Primulacae. Tincture of whole fresh plant. The fresh plant of the scarlet-flowered variety, gathered before the development of the flowers is pounded to a pulp and subjected to pressure. The expressed juice is mingled with an equal part by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Active mind. Amblyopia. Cataract. Constipation. Convulsions. Dropsy. Epilepsy. Gonorrhea. Gout, hemorrhoids. Headache. Hypochondriasis. Hysteria. Itching. Mania. Neuralgia. Nosebleed. Rheumatism. Ringworm. Skin, unhealthy. Snakebites. Syphilis. Tetters. Ulcers. Wounds.

HERBAL - The Greek name of the plant means to laugh out loud. It produces great exhilaration and overactivity of mind. Great hilarity. An ancient medicine for hydrophobia and dropsy. It is a vulnerary of some importance. Like the Primula obconca, Anagallis has a marked action on the skin, characterized by great itching and tingling everywhere. Possesses power of softening flesh and destroying warts. Ill-conditioned ulcers. It favors expulsion of splinters. Anagallis has been used for snakebites and ulcers.

HOMEOPATHIC - Skin itches all over, becomes dry and rough. Tetters. Vesicles in groups. Ulcers and swellings on joints. Bran-like, ring-shaped tetters on face. Eruption on chest. Skin of hands dry, stick and dirty-looking.

Soreness on chest with pain. Pains in joints going from place to place. Rheumatic and gouty pains. Dropsy. Tensive drawing ascending from left shoulder to nape of neck (Eup-per.). Pain and tightness in bend of left knee.

Tickling and itching in left ear. Dull pains in gums accompanied by very hard stools. Sensation on tongue as if something cold were placed on it. Dryness and scraping in throat. Scraping, scratching of larynx and trachea with hoarseness, worse after eating. Syphilis with nosebleed, deranged mind, pain in small of back and itching skin. Tickling prickling along urethra orifice agglutinated. Tearing in spermatic cord.

MIND - Great hilarity, exhilarated feeling. Cannot collect his thoughts while listening on account of jovial feelings. Mind very active. Despondency. Great prostration after mental exertion.

Abdomen - Distended with wind, weak feeling in abdomen.

Causations - Mental work causes great prostration (Pic-ac.).

Constitutions - Psoric, allergic constitutions.

Eyes - Pain in right eyeball, worse from touching lids.

Head - Headache over supra-orbital ridges with rumbling in bowels and belchings, better from coffee. Sick

headache. Pain in facial muscles.

Kidneys - More or less irritation in urethra inclining to sex. Burning pain on urinating with agglutination of orifice. Urine passes in several streams, must press before it passes. Urine is dark, straw-colored, urine escapes in divided stream (Thu.).

Limbs - Rheumatic and gouty pains. Pain in shoulder and arm. Cramp in ball of thumbs and fingers.

Modalities - Better from coffee, relieves headache. Burning in urethra before and during erection, ceases during sex. Worse by touch. Worse after eating.

Mouth - Viscid saliva in mouth, raised by coughing, water in mouth with tearing pains in molars.

Neck - Tensive drawing, ascending from left shoulder to nape of neck, worse from raising and extending arm.

Nose - Nosebleed. Violent sneezing, expelling lumps of yellow phlegm. Running water from nose. Copious secretion of yellow phlegm.

Pelvis - Violent pain in sacrum when lifting a slight load.

Skin - *Itching*, dry, bran-like eruption, especially on **hands and fingers**. Palms especially affected. **Ulcers** and swellings on joints. Rough, dry, bran-like tetter in rings. Groups of small vesicles, smarting and itching, oozing a yellowish-brown

lymph, which soon turns into a scurf, new vesicles appearing beneath. Promotes expulsion of splinters (Hep.).

Stools - Hemorrhoids. Offensive flatus. Stools soft and pappy, watery diarrhea. Stools hard like stone, knotty.

Teeth - Pain as from cold.

RELATIONS - **Compare:** (1) Primula obcon. Anagallis contains Saponin. (2) Similarto Cof- fea - joyous, excited. (3) Picric acid - prostration after mental exertion. (4) Cyclamen - sneezing. (5) Lith. - cough skin, ringworm. Sep., Tell. (6) Puls. - chilliness, catarrhs.

***ANANTHERUM MURICATUM

(Cuscut grass)

PHARMACY - anan. Anantherum muricatum. Cuscut grass. Andropogon muricatus. Andropogon squarrosus. Vetiver. Viti-vayr. N. O. Gramineae. India. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Abscesses. Aphonia. Boils. Cancer. Chancre-like sores. Colic. Erysipelas. Glandular inflammation. Hair, loss. Herpes. Hydrophobia. Sycosis. Syphilis. Tic convulsive. Tic douloureux. Tumors. Ulcers.

HOMEOPATHIC - A medicinal grass cultivated in the Markarettas Islands, East India. Anantherum has produced a state of drunkenness and intoxication. Farrington noted it for "Erysipelas with much swelling of arms and legs, darkred or bluish eruptions with tendency to suppurate."

Anantherum is a skin remedy of high order. Abscesses, boils. Abscesses, ulcers and fissures on arms and hands. Tumors of breast, ulcerated indurated.

Herpes and ulcers or scabs on scalp. Tumors, wart-like growths on eyebrows. Falling off of eyebrows and beard. Chancre-like ulcers on penis. Eruptions like itch or lichen. Ulcers at labial commissures. Pustules like smallpox on vulva. Syphilis.

Severe neuralgic headache, as if bells moved about in head, as of steel arrows from forehead to nape. Pains in facial bones as if crushed or ulcerated. Convulsive tic. Plugged sensation. Glandular swellings especially of sub-maxillary and cervical glands. Swelling of tonsils, constriction of throat, inability to swallow. Painful swelling of various parts extending to suppuration.

MIND - Sadness and restlessness with fear of death and the future. Sheds tears easily. Dread of society. Seeks solitude and obscurity. Apathetic. Anger with desire to strike and destroy. Quarrelsome, but after being angry he often regrets what he has done. Jealousy. Foolish joy and absurd complacency.

Changes in his mood and turn of thought. Ardent desire to travel. Blunted intellect and loss of memory. Haste in all his actions. Persistent fear of death during all his suffering. Monomania, as for rowing about in a boat, dressing or walking out in a grotesque manner, always frequenting the same places and doing the same things.

Abdomen - Cramps, lancination and digging in the region of the spleen with loss of respiration. Spleen as if ulcerated and hypertrophied. Burning in the whole abdomen, as if he had erysipelas. Inflammation and swelling of the abdomen, very painful. Abdomen inflated, tense and hard, with tympanitic sound on percussion. Colic, cramps and tearing pains in the abdomen, sensation as if there were a red-hot iron in it.

Breasts - Breasts swollen indurated, nipples excoriated. The breasts are atrophied and become soft. Heat and pain in the breasts, as if they had been gashed with a penknife. Inflammation and swelling. Congestions of the breasts as from accumulation of milk. Lancinating, pulsating and pressive pains. Excoriation of the nipples.

Constitutions - Psoric and allergic constitutions.

Ears - Very copious secretion of cerumen. Heat and smarting in the lobes of the ears. Fissures in the lobes of the ears. Noises, murmurs and hissing in the ears.

Eyes - Heat and burning in the eyes. Pressure and painful stitches in the eyes. Photophobia. The eyelids are inverted and as if scarified. Abundant secretion of mucus and considerable lachrymation, especially in the open air. Trembling of the lids.

Eyes - Swelling and ulceration of the lachrymal glands. Weakness of the eyes.

Face - Face yellowish or red, enlarged inflamed and congested. Face pale, transparent and white as wax. Face gray, cold and frozen looking and paralyzed. Face emaciated, bluish, cyanotic, contracted, shrunken with hollow eyes.

Female - Scirrhus-like swelling of cervix. Prolapsed uterus. Sterility, as from atrophy of the ovaries. Swelling of the uterus. Menstruation very painful and copious, the blood generally bright or light-colored. Menstruation retarded, the blood dark, thick, followed by fetid leucorrhea. Suppression of menses. Menstruation frequent and painful. Great itching and burning in the vulva. Whitish and reddish eruptions on the vulva. Leucorrhea watery, clear or milky and of very bad odor. Thick, purulent, yellow or green leucorrhea.

Food - Morbid hunger, wakes up in night to eat, as if he had a tapeworm. Burning, unquenchable thirst. Longing for aromatic drinks.

Head - Pains pierce brain like pointed arrows, worse in afternoon. Herpes, ulcers and tumors on scalp. Wart-like growth on eyebrows. Boils and tumors on tip of nose.

Heart - Burning and sensation of weight in the heart with sadness, anguish and fear of death. Stitches and formication in the heart with great anxiety.

Kidneys - Turbid, thick urine, full of mucus. Bladder cannot hold smallest quantity. Involuntary. Cystitis. **Constant urging to urinate** with stitches and crushing pains in the kidneys. Frequent emission of urine, which is turbid or soon becomes so. Sensation of a numbness and obstruction in the kidneys and bladder were always full and swollen.

Liver - Sensation of heat and of congestion of the liver. Cramps in the hepatic region with sensation as if it were full of painful tuberosities.

Male - Excoriations on the prepuce and urethral meatus. Secretion of a thick substance of very strong odor, between the glans and prepuce, which are swollen.

Burning, stitching and pinching in the penis. Syphilitic-looking pimples on the penis with intense pains, traversing from one part of another.

Modalities - Coffee at first worse, then better. Wine and coffee aggravates the toothache.

Mouth - Tongue fissured, as if cut on edges, copious salivation. Constant inclination to clench the teeth. Sensation of cold in the teeth with heat in the gums and the whole mouth. Burning in the teeth, gums and lips, as if they were burned. Gum-boils. Very painful pimples on the tongue with itching and burning.

Rectum - Very long-lasting constipation, followed by dry, brown, bulky stools, then diarrhea. Obstinate constipation with fever, heat, thirst, sweat and debility. Stools difficult, large and hard, knotty like sheep-dung, passed with difficulty, even after the use of injections.

Sleep - Restless sleep with cries, starting up, movements of the limbs and anxious dreams. Comatose sleep with disturbing dreams and snoring. Prolonged sleep in the morning with inclination to lie abed late. Sleep with frequent dreams, alternate coldness and heat and burning of the whole body, intense thirst and fright.

Stomach - Obstinate, convulsive hiccough. Burning in the stomach, as if it were on fire. Excessive and almost continual secretion of phlegm. Vomiting of the food and of bile, with hunger even after eating. Vomiting of food and often of blood after meals. Vomiting of acrid, burning matter, followed by bile and blood. Pains in the stomach with cold sweats on the face and back.

Skin - Itching. Offensive foot sweat. Diseased and deformed nails. Herpes. **Abscesses**, boils and **ulcers**. Erysipelas. Chancre-like sores.

COMMENTS - Burning and stitches. Thirsty, but cannot drink. Burning heat alternating with icy coldness in gullet, as of something alive in gullet. Involuntary urination when walking and during sleep.

Formication as from ants. Ulcers yellowish, violet, swollen, everted, syphilitic.

Discharges from ulcers are foul, foul breath and belchings. Sexual desire increased by every attempt to satisfy it until driven to onanism and madness.

RELATIONS - Compare: (1) Staph., Merc., Thuja.

REFERENCES - Boericke. Clarke.

PHARMACY - ander. Andersonia rohitika. Pliaghathi. N. O. Mediaceae. Stem and root bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Biliousness. Debility. Fever. Glands, enlarged. Gonorrhea. Heat, flushes. Jaundice. Leucorrhea. Liver, enlarged. Malaria. Nausea. **Spleen, disorders.** Spleen, enlarged. Vomiting.

HERBAL - Rohitaka is a large tree and is generally found in many districts of Bengal. It also grows in Assam, Sylhet and Cachar and also in Western India. Burma, Malacca and some other places this plant can be found. Rohitaka has been named by Ayurvedic physicians as Pliaghathi meaning thereby that it does away with all splenic disorders.

The Ayurvedic physicians have found it to be alternative, astringent and tonic. They prize it as an excellent remedy in the enlargement of liver and spleen, in corpulence and enlarged glands and also in general debility. They have also recommended it in gonorrhea.

Chakradatta. Charaka and other ayurvedic authorities have recommended it in the splenic affections, mucus gonorrhea, and leucorrhea. they have also found it efficacious in hepatic affections and derangements as well. They have recommended it for jaundice, dropsical swellings, chronic fevers and some other diseases.

HOMEOPATHIC - Dr. Pramada Prasanna Biswas of Padna, Bengal, personally proved this drug. The following symptoms set in while it was proved:

MIND - Easily angered. Mistakes in spelling take place. Memory become dull and disordered. Cannot fix mind on any subject or matter.

Abdomen - Heat is felt in the lower abdomen. Pains are felt in the right and left hypochondrium. Enlargement of both liver and spleen and burning sensation is felt here.

Eyes - Eyes, burn.

Face - Face, eyes, burn. Flushes of heat come out of the face.

Head - Heat in the head, especially on the vertex. Giddiness of head. Feeling of warmth or heat in the head, specially on the frontal region. Sensation of pain in the temples associated with heat which is relieved by cold breeze or cold application. Burning sensation is felt in the eyes and face.

Limbs - Hands and feet burn. Burning sensation is felt there. The patient feels great relief if body coverings are thrown off.

Modalities - Open air, cold breeze or cold application generally mitigates or relieves all pains, specially burning of the body.

Mouth - Heat comes out of the mouth. Insipid taste in the mouth. In the morning taste becomes bad and bitter.

Stomach - Burning sensation is felt in the stomach with urging for vomiting. Sensation of heat is felt in the stomach and spasmodic colic due to indigestion ensues. Nausea and vomiting. Also an attempt at vomiting. Water comes out of the mouth.

Temperature - There is feverishness with headache with frontal pains. During fever aching pains are felt. Body becomes hot. Face, eyes hands and feet burn.

COMMENTS - It is alternative, astringent, and tonic, given in enlarged gland, as liver and spleen, in corpulence and in general debility. (R. N. Khory, Materia Medica of India, vol. II, p. 118)

R. N. Chopra in his Indigenous Drugs of India, p. 461, says: "It is an aperient used in enlarged glands, liver and spleen diseases and corpulence."

It is a splendid remedy in all disorders of the spleen, either enlarged or painful.

It is also an excellent medicine in all hepatic derangement.

In chronic slow malarial fevers associated with the enlargement of the spleen and liver its action is supreme. It is particularly useful for patients with bilious temperament.

Fever with headache and burning temperature. Fever with headache and burning sensation of eyes, face, hands and feet, they desire to have cold breeze or cold application which ameliorates all burning sensations experienced by them.

There is constipation which is a characteristic symptom of the drug. There is no desire for food. Taste of the mouth is insipid or bitter. The patient feels laziness while getting out of the bed in the morning.

***ANDROCTONOS AMURREUXI

(Scorpion)

PHARMACY - androc. Androctonos amurreuxi hebraeus. Scorpio europaeus. N. O. Scorpionida. Arachnida. A scorpion of West Asia. Tincture of animals. **Historical dose:** All potencies.

CLINICAL - Apathy. Backache. Constipated. Fatigue. Headache. Hemorrhoids. Memory, weak. Nausea. Nightmares. Salivation. Strabismus. Tetanus.

HOMEOPATHIC - The scorpion was a major remedy in ancient Egyptian medicine. A proving of scorpion is

written in the medical papyruses, which give a vivid description of Isis allowing herself to be stung to determine the effects of the medicine.

A proving on a middle eastern scorpion was conducted by Jeremy Sherr. Most provers were between age 25 to 40 years old. The symptoms are from the provings and effects of the stings.

Pain and swelling of the injured part are first experienced followed by sleepiness, prostration and possibly tetanus. Strabismus has been observed in some cases and the pupils are dilated.

The bitten part is very swollen with violent pains lasting from one to three days. Heat and pain at bitten spot, sleepiness, sneezing, rest

lessness, later, abundant saliva, meteorism, later, trismus or tetanus. Complete prostration. Always acute pains in and diminished temperature of the part bitten. Scorpion stings are attended with a certain amount of danger, especially for children.

MIND - Forgetful. Absent-minded. Mind dull and foggy, better while moving and walking. Difficulty applying self. Lack of concentration with daydreaming and difficulty in mental exertion. Mind blank when concentrating. Unable to think of more than one thing at a time. Mistakes in writing and spelling. Speech slurred, answered with difficulty. Conversation difficult.

Weariness. Tired and apathetic. Felt detached, very interested in little things. Dreamy and staring. Felt disconnected from the human race, as if everyone were another species. Depressed and destructive. Aversion to things she usually enjoyed. Averse to work.

Very changeable moods, one moment extremely friendly, nice and amiable, then irritable. Incredible upsurge of energy, felt very high, then low, then high again. Great swings of mood, better from eating. Clumsy. Accident-prone. As if drunk, with increased sexual desire. Desire to be out in the country.

Hurried, restless. Impatient watching others. Time seems to go slowly. Irritable, snappy, oversensitive to noise and bright lights, can't bear music. Argumentative, critical. Feels resentful and abused. Great hostility to those around him. Assertive, impatient, aggressive. Angry with her children and family. Terrible uncontrollable temper. Wanted to kill her husband and children.

Panic-stricken. Fear, as if something terrible would happen. Overwhelmed by terror, panic and fear. Terrified of dogs, fearful while driving. Anguish and worry, anxiety for no reason. Anxiety about health. Anxiety for self, friends and the world, with continual sighing.

Despairing, tearful mood, could see no way out. Sadness and confusion. Feels sorry for herself, better crying. Sympathetic, took on otherpeople's problems. Desires company and sympathy. Indisposed to talk and averse to company. Disappointed with people.

Abdomen - Short, sharp, strong, stabbing cramps below ribs. Clinching feeling of panic in abdomen, as if nearly had ^{o1} an accident. Ache in lower abdomen.

Pains in intestines feel bruised and sore.

¹³ Pain in morning, in a horizontal line in ¹³¹ ' ' intestine, headache alternates with pain in ^h ' the abdomen. Pain in liver, a deep stitch, TM worse exertion, movement, walking fast. [^] Pain upper abdomen, above naval in the ³¹ morning.

Back - Feeling of cold in back while in bed. Sudden and tremendous pain and stiffness. Pain, cramp and stiffness left side-neck.

^{**1} Pain between scapulae extending down spine. Numbness and tingling at middle edge of left scapula. Aching and bruised sensation in sacral region. Backache, worse sitting or beginning motion. Pain radiates to sides, pelvis, diaphragm. Feeling of weight in back as if the affected vertebrae were made of lead. Pain in one vertebra. Sharp pain in back, worse breathing deeply.

Breasts - Felt as if breasts were very big. Held breasts, then walked around massaging breasts.

Chest - Anxiety in chest. Pressure, compression on chest. Oppression as if a cushion were inside chest cavity, pressing organ ["] down to spine. Sensation of expansion of chest. Pain in left breast and lymph glands. Itching axilla.

Dreams - Oppressive dreams before waking. Feeling of jealousy. Vague, troublesome dreams, later part of sleep. Dreams are confused, angry, busy, erotic, frightful, violent, guilty. Dreams of a car crash, climbing ladders, bus steps. Dreams of naked women, of being attacked and murdered. Dreams of past events, of events not yet taken place. Dreams of water, of orange and red walls, of toilets and feces. Dreams of people's heads chopped off, that she was weighing them.

Ears - Sharp pain in ears, down canal, as if a sharp pencil was pushed down into the ear. Pressure inside ears. Pain, aching in left ear, extending to the jaw and moving to the back of the right ear. Discomfort, tickling and ringing in left ear. Itch in left meatus of ear. Wave-like sound within and around ears, worse at night. Loud ringing in the ears. Blocked ears, with slight deafness. Hearing dull, as if cotton wool in ears.

Eyes - Pupils dilated. Strabismus. Aversion to sunlight. Eyes water, red and smarting. Eyes sore and hot, feel

strained. Eyelids inflamed. Eyes small, puffy, lusterless and tired. Flashes of blue pinpoints on objects when suddenly moving head or bending down. Flashing ripples when closing eyes in bed. Focusing eyes difficult, can focus on distant objects, but close objects are blurred. Eyes sticky, woke with eyes stuck together. Desire to close the eyes. Eyes are heavy, aching and tired.

Face - Cold sores. Face pale and hollow, drained. Face dark purple, rings around the eyes. Top lip cracked, burning at corners. Sore painful patch in right hand corner of lip, as if would crack. Dry and cracked lips. Cracked lips bleeding after cold wind. Trismus. Jaw aches, worse movement of jaw.

Female - Menses early, short. Pain dragging during menses, worse than usual. Pain gathering, as if parts were in an iron grip, lasting one hour. Sharp, griping pain shooting from uterus to bowel. Pain during menstrual period, extending down back of legs. Pain bearing down during menses. Pink-brown vaginal discharge with dull dragging in sacral region. Sticky yellow vaginal discharge. Genital area felt painfully oversensitive. Pressing pain in ovarian region on urinating, better urinating, worse pressure. Extremely passionate, increased desire. Felt amorous in a giggly, sentimental way, as if drunk. Felt sexually aroused all day. Increased sexual desire which is purely physical rising from irritation of genitals.

Food - Appetite increased even after a meal. Eats little but often. Loss of appetite. Extreme thirst. Thirst, but does not drink. Thirst for cold drinks. Aversion to food. Slight aversion to tobacco. Aversion to courgettes, which left an unpleasant taste and nausea. Craves chocolate.

Food - Desires crusty brown bread. Desires ^{nul} hot drinks, milk. Desires raw vegetables, b, salad. Desires warm milk, which ameliorates.

Head - Headache from the sun. Headache, better for alcohol. After exposure to cold (^{uj} wind, slight neuralgic pain in left occiput, ₃ extending to left jaw, worse inclining head 4_i forward. Dull pain in occiput and vertex, ^{bn} as of a tight cap. Tightness in occiput and ₇ general dullness in head. Sharp pressing ^{g_n} pain, in left occiput, worse on listening ^{2n_i}, intently, better when not concentrating. ^{nk}. Pain from back of head to over left eye.

Pain in left occiput sharp. Throbbing left temple over eye. Headache in temples. Boring pain in right temple. Head feels delicate, worse sudden movement. Throbbing pain in right temple on movement, ^{bn}, sensitive to touch. Throbbing, above and behind left temple. Pressure feeling in the head, settling in the left temple.

Head - Headache alternating with nausea. ^v Pain in the head with vomiting and shiver- ing hands. Migraine during menses with very dim- vision, vomiting and debility. ^{..} Dull headache. Head pain poking on ^{i_r} outside, worse bending forward. Dull ⁿ, congested feeling, upper left side of head. ^{n_j} Itch in forehead. Head pain, vertex and ^{\$_n}, forehead, feels hot. Heat and cold in the ^{y_i} head at the same time. Head pain across [^] vertex and sides. Sensation of pressure. ^{j_i}, Head pain across forehead, like a rope ^w tightening with a feeling of weakness. ^{.ci}, coming and going in waves. Head pain, ^u better lying flat on back with head over ^s the side of the bed, or lying with head ^{•t}. raised. Head heavy, better cold, dry air.

Crackling and creaking in head, behind ears and above neck, when walking in the cold wind. Numbness sides of head. Pain bridge of nose. Dull sensation between the eyes, better shutting the eyes. Head feels heavy, better shutting eyes. Pressure on the top of head, left side. Pain front and top of head. Sensation as if head rolling, eyes closing, tightness in head and mild heat, especially forehead. Pain, heaviness ^z around head.

Heart - Palpitations on waking. Palpitations on lying down to sleep. Violent heartbeats, audible and visible. Felt heart pounding after urination.

Kidneys - Woke at night with desire to urinate. Frequent urination. Unfinished feeling, slight burning, dribbling after. Increased desire to urinate, more after lying down. Urge to urinate, passed a few drops with cutting pain in bladder and pubic bone. Frequent urination, large quantities. Urging to urinate, sudden, incomplete. Passes drops after urinating, worse bending. Feeling of incontinence. Pink, orange urine. Bruised pain.

Limbs - Beaten sensation in bones and joints, especially large joints. Pains, better stretching, worse movement, worse lying still. Desire to move and stretch during fever. Bruised sensation in limbs. Felt as if he had the "flu." Hands shivering in cold. Hands turn blue in cold. Feet icy cold. Heavy limbs, especially legs. Knees and ankles feel like jelly. Hands shaking. Shaking knees. Felt pins and needles in hands and arms, as of hot water on skin. Thighs burning and itching. Small boils on thighs. Jerking of left arm. Abscess in finger, below nail bed. Purple band under nails on nail bed. Numbness in hands and fingers. Stiff hands and hips. Pains stitching left upper shoulder. Sharp pains joints, worse exertion. Sensation as if had strained tendons. Limbs aching in the morning, thighs sore and heavy. Cramps in calves in bed at night. Sharp pain around ankle. Heels painful to stand. Pains in soles, very painful to stand and painful to walk. Awkward, drops things, trips easily.

Lungs - Breathing difficult 9:00 p.m., gradually worse, felt as if chest wouldn't expand properly. Had an urge to take deep breath, but couldn't. No pain, but felt as though muscles weren't working properly. Sensation mat air goes to head. Unproductive cough, little mucus. Tickling, dry cough.

Male - Increase in sexual power and desire. Thoughts of women from many y ears ago, that he had not seen

for years. Sexual

desire in presence of any woman. Felt as if he would explode with sexuality. ^{1st} Masturbated frequently. Intensely erotic ^ dreams. Intense orgasms.

Mouth-Saliva abundant. Mouth dry, as after alcohol, metallic taste. Mouth wet, yet very thirsty. Strange taste in mouth when outside and breathing through mouth. Ulcer, on right inner cheek, white center. Ulcer on the right side of mouth, a hard lump the size of a grain, stinging. Sensitive aching feeling in gums, lower right side at back _{no} of mouth. Sides of mouth sort.

Neck - Neck glands feel enlarged. Large, blind, red spot on right side of neck. Pain in neck left side. Sharp pain left side of t neck, moving to right side. Tension in neck and shoulders, with ache in lower back, worse sitting.

Nose-Frequent sneezing with nasal obstruction, coryza. Musty, catarrhal smell, as of an old book. Itch in nose, must poke and scratch. Sneezing, with pain in tooth. Coryza fluent. Bloody discharge on blowing nose. Post-nasal catarrh. Discharge clear, ip p running, thick, white, yellow. Discharge alternating sides, worse warmroom, better j, open air. Large red spots on nose.

Perspiration - Profuse perspiration at night, morning. Perspiration on waking. Perspi- ^, ration, worse in a warm room, from stress.

Perspiration does not ameliorate.

Rectum - Anus itching. Pain in anus, feels ill. Vesicles on anus, extremely sensitive, worse touch. Severe pain around anus and m rectum, worse after stool, better pressure.

Meteorism. Hemorrhoids, painful, hard, swollen, worse walking, worse sitting. Rectum raw, cracks radiating outwards and up crease to lower back. Rectal pain with desire to vomit. Pain shooting upwards, prickling and sticking, prevents sleep. Urging constant and productive for stool. Urging for stool as if diarrhea would come on but it didn't. Gripes and rumbling, with burning sensation in anus. Dry stool, constipated, abdomen bloated. Very constipated, one difficult bowel motion a week. Stool hard, which is unusual. Feeling of diarrhea in bowels and abdomen, as if diarrhea would ex

plode. Diarrhea, brick red, explosive, hot, painful, smell of rank fish. Bowel action greatly reduced from 3 to 4 times to 1 per day. Sensation of parts above rectum in an iron fist, closing in on parts and dragging them down, better gentle motion, bending double, hot bath, worse touch.

Skin - Skin pale, red, sore, itching eruptions, worse 9 p.m., better by midnight. Red, sore, painful itching on soles of feet and palms, around the veins, alternating sides or on both sides.

Sleep - Sleepiness. Tired, could do nothing. Utterly exhausted, could hardly stay awake, could hardly think nor move. Could not remain awake enough to drive the car. Very tired, needed longer than usual afternoon nap. Tired, morning, rises late. Unrefreshed sleep, slept till late. Better after one half hour. Sleepy feeling, reluctant to get out of bed, exhausted. Very tired after evening meal, slept. Tired at night despite rest in day. Slept very deeply. Restless sleep. Great difficulty falling asleep on account of unpleasant pictures crowding in, became fearful. Wide-awake till after midnight, although physically tired. Woke many times at night with sweating, feeling heavy and confused. Awoke early and could not get back to sleep. Woke more relaxed. Slept on back during acute headache and vomiting episode (normally sleeps on side). Slept on abdomen without a pillow on left side of face With right arm curved around head.

Stomach - Anxiety in stomach. Felt absolutely dreadful, violent stomach pains, nausea and dizziness, lasting from 7:00 a.m. to 11:00 a.m., better in the afternoon. Returning at 6:00 p.m. and lasting till 9:00 p.m., then fine. Sickly pain, rising and falling, combined with hunger, better lying down. Pain in the stomach. Slight discomfort in stomach above naval, with sharp pains. Short sharp strong, stabbing pains and cramps below ribs, coming in spasms all through the day. Sensation as if stomach was screwed up into a ball which moved around. Empty belchings. Nausea and dizziness, worse orange juice, better hot drinks. Nausea after fish, chicken. egg yolk.

Stomach - Nausea beginning in stomach ¹⁷ and progressing downwards, better eating. Nausea at thought of food, better ?ⁿ after deciding not to eat. Nausea, worse exertion, motion, in a moving car, standing and sitting up, better lying down, hot water " bottle. Nausea with lack of appetite and ^ • great thirst for warm drinks. Nausea in the ^ afternoon and evening, after eating even ^ small quantities. Nausea from pain in anal cracks. Awoke with nausea and urging to stool. Desire to vomit, but passed bile only. Vomiting and retching. Violent vomiting, an orange-red color which was similar to ^ the color of his diarrhea.

Teeth - Pain in teeth, worse eating, cold food, drinks, or air, better warmth.

Influenza, sore throat radiating to ears, dryness in mouth, eyes and throat, tickling in throat, sneezing, nose running, clear phlegm, fr eyes heavy. Great thirst. Tired, lethargic, desires to lie down. Feels warm. Fever at night, worse uncovering. During the

fever, whole body bruised and sore, as if beaten. Unable to get comfortable in i' bed, had to change position frequently. ^r Fever, very hot, perspires. Fever, hot and ^h cold in turns. Fever, sudden onset. Skin hot to touch. **Throat** - Sore throat, in the evening, better by morning, better from beer. Throat feels rough, sore, better hot drinks. Prickling pain from throat to ear, worse empty swallowing and on waking, better warm drinks and hawking. Throat feels blocked, tickling and sore, worse swallowing. De- ' ' sire to swallow, as if something stuck in ^ the throat which she felt she could move V externally. Uncomfortable sensation in throat with desire to swallow. Throat dry, painful on swallowing, worse speaking, with coarseness and cough. After sex, *'' ' woke with dry throat and a cold. Dry ^P throat with extreme thirst for cold water which ameliorates. Throat dry but thirst

less. Throat dry with tickling on left side. Plugs of green catarrh in throat, worse in the evening and morning and better during the day. Thick and yellow catarrh in throat. Catarrh on tonsils, must clear throat. External throat sensitive to closing, which makes head feel hot.

Tongue - Pain in the tongue. Tongue sensation as if hot needles. Root of tongue and soft palate felt sore and enlarged, better for cold water. Tingling and numbness of tongue.

Vertigo - Vertigo, worse **first** movement, better continued motion.

COMMENTS - Symptoms from the provings included feeling less nervous before an event than usual. Hearing is acute. Menopausal panic attacks, with sweats and palpitations, worse lying in bed, better sitting up or walking around. Desires cold drink, white wine, fruit, especially oranges. Desires fresh air, which ameliorates, or aversion to air. Must get fresh air with hot flushes.

Permanent tiredness and fatigue. Less dryness of skin. Itch after bathing better. Sleeplessness. Woke very gently. Strong smell of coffee. Itching and soreness in vagina after intercourse. Small horny-like growth with spikes on right little toe. Severe pain, worse touch, worse pressure, could not wear shoes. Worse at 9:00 p.m. Palpitations on waking disappeared. Frequent urination.

Stiffness in morning improved. Although usually short sighted and astigmatic, he had short spells of clear vision. Vision is acute, can see for miles. Things she would normally feel guilt about dont bother her.

Felt unusually well all day. Woke more relaxed and calm than for months, slept late (throughout whole proving). Felt more energetic, self assertive and confident. She had lots of energy, worked hard and exercised. She was very bouncy and happy to be busy.

Felt good, hajjiy, satisfied with life, happier and freer in her relationship. Felt expansive and good. Sense of being "centered." Felt euphoric, relaxed, "spaced out." Feeling extremely calm. Her patience surprised her. Extremely alert. Pretended to feel well, although sick.

A feeling of great energy and confidence, a magnetic state, his emotions were more intense than ever before. In his love affair, he surrendered to his feelings for the first time, and his girlfriend commented that this was the most intense relationship she had ever had.

Desired alcohol and drugs, a feeling of wanting to escape. It seemed as though he was a different person, very similar to the way he had been in adolescence, but in a much more powerful manner. .

These emotions were so intense he wanted to rip his chest apart to let them out. He lost all control over his emotions, which seemed to come from a deep and distant part of himself, a darker side. He desired to continue the proving for the rest of his life.

Although he experienced acute nausea, headache and dizziness, he felt calm and happy, not upset by his illness, detached. Felt fed up with all activities he normally enjoyed. Felt ddthched from every thing, as in a dream, reactions slowed down a lot. Feeling of separateness, usual sense of urgency gone. Felt detached from her stomach cramps. Felt she should be busy but couldn't.

Felt despondent and directionless in the evening. In the evening, felt as if in a numbness, "thoughts, feelings, buzzing and confusing me. I feel entirely alone, that I am viewing the world through one hole, for it all seems just a picture, and the rest of the world share a different view finder together. I don't want to join theirs though." Stomach pain ameliorated as headache starts. Headaches and mental state ameliorated with appearance of sexual symptoms.

All colors seemed bright. Nose, discharge yellow-orange. Vomit, orange-red. Diarrhea, brick red. Urine, pink-orange. Stayed awake till early morning, brain racing, enjoyed himself tremendously.

Felt as if he had taken drugs. His friends thought so too. Desired drugs. Warm drinks ameliorate throat. Warm milk ameliorates. Alcohol ameliorates headache. Beer ameliorates throat. Coffee ameliorates. Cold food and drink aggravates pain in teeth. Eating ameliorates lethargy. Eating ameliorates swings of mood. Eating aggravates pain in teeth. Orange juice aggravates.

Hemorrhages on cutting herself, blood dark and clotted quickly. Heaviness feeling all over. Exhaustion, lethargy and fatigue. Exhausted, run down, better for fresh air. Lethargy worse during menses. Lethargy better shutting eyes. No strength, feels sagging all over, limp and weak.

Feet seem to drag. Lassitude in evening, better lying down, better short sleep. Weakness with trembling. Nausea worse for motion. Sitting or first movement aggravate backache. -

Walking aggravates vertigo. Walking and movement ameliorate mentally and generally,. Gentle motion ameliorates pain in rectum. Constant change of position ameliorates back. Moving car aggravates nausea and vomiting. Riding in car ameliorates. Occupation ameliorates.

Numbness, tingling and nausea throughout body, during fear. During fever the whole body bruised and sore as if beaten, unable to get comfortable in bed, had to change position frequently and slightly, else felt seized up. Restless.

Extreme mental and physical anguish with restlessness, could not be still for a moment. Beaten sensation in bones and joints, especially large joints, better stretching, worse movement and lying still. Pains poking. Pains radiating outwards. Pains sharp.

Right to left, pain in throat. Left to right, pain in knees. Left to right, ears ringing. Alternating sides, red, painful, itching eruptions on soles of feet and palms. Alternating sides, nasal discharge. Felt hot so uncovered, then cold so covered, then hot so uncovered.

Gentle heat over whole body. Sensation of heat. Warm room aggravates. Warm room aggravates nasal discharge. Hot bath ameliorates pain in cracks around anus. Body warm to touch but feels chilly. Cold, feels. Cold dry air ameliorates. Wet, sore throat after getting. Cold wind causes neuralgia in head. Wind aggravates. Desired and relished being in a strong wind. Tremor. Loss of weight.

Coffee, did not antidote. Bruised sensation, cannot get comfortable in bed.

Tiredness, sore throat, thirst, photophobia and headache. Abscess on small toe, pain stinging and burning, worse from heat and touch.

***ANDROGRAPHIS PENICULATA

(Kalmegh)

PHARMACY - androg-p. Andrographis peniculata. Kalmegh. N. O. Acanthaceae. The entire fresh plant.

Historical dose: All potencies.

CLINICAL - Abscesses. Boils. Catarrh. Constipation. Cough. Debility. Diarrhea. Dysentery. Dyspepsia. Fever. Flatulence. Headache. Intermittent, fever. Jaundice. Kala-azar. Uiver, disorders. Malaria. Vomiting. Worms. Wounds.

HERBAL - Common in India, specially in Bengal. It is an annual plant, 1 to 3 feet high, common in hedgerows throughout the plains of India from Lucknow to Assam. It is also cultivated in gardens in some parts of India.

The shrub is well-known under the name of Kalmegh and forms the principal ingredient of household medicine called alui which is extensively used in Bengali.

The macerated leaves and juice together with certain spices are made into little globules, which are prescribed for infants to relieve griping, irregular stools and loss of appetite.

The roots and leaves have also reputation of being a febrifuge, tonic, alternative and anthelmintic.

In general debility, dysentery and certain forms of dyspepsia associated with gaseous distension of the bowels, the decoction or infusion of the leaves have been used with satisfactory results.

Ayurvedic physicians used it with success singly or as a principal ingredient with other medicines in worms of children, vomiting of children. Infantile liver, enlargement of

liver and spleen. Fever with the enlargement of liver and spleen. Fever with constipation. Fever in malaria.

Fever in infantile liver. Fever in kala-azar of children, and also in boils, abscesses and septic wounds.

The people of India prize it to be a highly efficacious remedy in all sorts of liver complaints from very early times.

The Ayurvedic physicians of India use it in enlarged liver or any derangement of liver, especially in children with jaundiced skin or without it, in the first stage of cough and cold, in the general debility and in convalescence after a long - continued fever. They also employ it in cutaneous ailments.

In intermittent fevers, the fever comes on daily between 8 and 9. a.m. or between 10 a.m. and 12 noon. During fever there is slight thirst. **Loose stools, catarrh, cough and pain in the hepatic region** are the accompanying symptoms. There may be constipation in place of diarrhea.

Burning sensation in eyes, face hands and feet, especially in the palms are keynote symptoms for its administration. During fever the patient is disinclined to move, desire to keep quiet, during fever there is intermingling of chilliness and burning sensation.

Sometimes the patient likes cold applications. Sometimes he dislikes them, in this way contradictory and conflicting symptoms manifest themselves.

It is generally used in an attack of remittent or intermittent fever where there is double accession of the seizure associated with predominance of bilious symptoms and headache. In some cases, headache may be absent. In show fevers of children with derangement or enlargement of liver, it is very useful. In infantile jaundice where eyes and urine have become yellow, it is used with efficacy. It is excellent remedy in chronic fever associated with the enlargement of liver and spleen along with burning of hands, feet, eyes and face, and headache. Its efficacy is found also in kala-azar of infants. The following are the principal guiding symptoms of Kalmegh: Sensation of heat and burning in hands and feet, mental depression and despondency, bad taste in the mouth, bitter and putrid taste over the tongue, constipation, scantiness of stools, changeableness of symptoms, heaviness of the whole body for which the patient walks slowly.

The patient wants to wash the hands and the feet with cold water in order to be relieved of the burning sensation felt over the parts, he feels considerable relief from cold, he does not desire to move. .

Kalmegh is a domestic medicine for flatulence and diarrhea of children and it is also used for worm symptoms as it is considered to be anthelmintic. It is used in torpidity of liver, neuralgia, dyspepsia, in general debility, in convalescence after fevers and in the fully developed stage of dysentery. In short, Kalmegh is a sovereign remedy for the above mentioned ailments.

HOMEOPATHIC - Dr. Pramada Prasanna Biswas, of Patna and Dr, N. Sinha made provings of tills drug. Both the provings are, no doubt, incomplete and fragmentary, bit they cannot be brushed aside with indifference. They lead us to think that it will urn out to be an excellent remedy in our materia medica.

MIND - Despondency. No desire to do any work. No desire to talk. Restlessness. Easily angered.

Abdomen - Heaviness of abdomen. Heat and burning of abdomen.

Chest - Burning in chest.

Eyes. Redness of eyes. Yellowish tinge of eyes.

Fever - Double type of fever is a grand characteristic of this drug fever is associated with slight chilliness, heat remaining all along, heat marked with burning sensation all over the body. Burning sensation is relieved by cold air and application of cold water. Intermittent and remittent fevers and almost specific in the fever which comes on with double accession. Fever comes on after 1F a.m. and again appears at 7 p.m. or 8 p.rh.

Head - Giddiness of head. Throbbing pain on the occiput, sometimes very painful. Heaviness of head. Frontal headache.

Headache and thirst.

Liver - Enlargement of liver. Liver painful to touch. Pain felt over liver on pressure. Many disorders of liver. Jaundice, infantile derangement of the liver and its enlargement.

Modalities - Cold waterrelieves the burning sensation of the body ; sweat also relieves these symptoms; all symptoms are worse during fever; there is an intermingling of contradictory symptoms.

Mouth - Bitter taste in the mouth. White coating of the tongue.

Nose. Watery discharge **from** the **nose**. Symptoms of catarrh present. Occasional sneezing.

Rectum - Jaundice and constipation manifest themselves. Ineffectual urging of stool. Loose stools, loose bilious stools. Constipation. Frequent urging for stool, but no evacuation takes place. Blackish hard stools. Y ellow loose stools of infants. Sometimes constipation, sometimes easy motion. Tendency to costiveness.

Stomach - Occasional eructations.

Throat - Burning in throat. Dryness of throat.

Urine - Urine high-colored, in infantile jaundice. Urine is thick and yellow. ..

RELATIONS - Compare: Chin., Chin-ars.

Small hard patches on the outer side of the right forearm. Loss of hair with scaly, scabby formations on the scalp. Erysipelas. Acrocyanosis. Strumous edema. Knotted erythema.

Sleep - Sleep after meals. Sleep not very good, irregular with Sensation of heat, persistently disturbed. Sleep lasts only a short

while. Agitated dreams, dreams of death, funerals, falling into deep, black pit.

Temperature - Perspiration appears fairly quickly and chill disappears, takes off woolen clothes. Perspires easily. Varying chilliness, at times cold, then with hot flushes.

Throat - Tension in the thyroid region with blocked, stifled sensation.

COMMENTS - "Case (1) Francine D., 28, came for a consultation on 28/10/74, for a hormonal problem. She began menstruation at 17 and since then has always had irregular periods, up to 5 or 6 days late. Menses are weak, scanty with bright red or brown blood and painful. Between menses, yellowish-green leucorrhea.

"She has been receiving allopathic hormone treatment for 5 years after an examination which revealed the right ovary to be large, smooth and white. Feels tired on waking up, tendency to be constipated, dreams a great deal, complains of dorsal pains.

"Anxious, legs heavy. She has scoliosis, small breasts, gastric ptosis, slight acrocyanosis and infiltrated ankles. She says she has not been receiving hormone treatment for several months.

"Prescription of 25 drops of Radix-Angelicae-Sinensis in 3x on waking up. 15 drops of Radix-Angelicae-Sinensis in 7c on going to bed. Condition generally improved, feels better. Stools regular sleep better and fewer dreams, no tiredness on waking, lost a little weight, which pleased her, 52 kilos, arterial tension 14/8.

"As for menses, she had one period on 8th December 1974, but it was still a little painful. Then on 22nd January 1975, normal, copious and, above all, painless. We maintained the original prescription.

"Case (2). D. St., age 24, came on 9th September 1974. Began menses at 9, always had painful, scanty menses with black, clotted blood. Operated on in January 1972 for a right sided hydrosalpinx and menstrual cycle did not improve afterwards. While, milky leucorrhea, feels swollen intercourse painful.

"Prescription Radix-Angelicae-Sinensis, 3x in the morning, 7c in the evening. The menstrual cycle was restored and she had periods on 27th September, 25th October, 20th November, 21st December 1974 and then 22nd January 1975, 18th February and 22nd March 1975. No more leucorrhea, regular, painless intercourse, no more swelling, regular stools.

"Case (3). Myriane F..., 26, came on 13th July 1974 with obesity and rare, irregular menses. Here is a pattern of her periods when taking Radix-Angelicae-Sinensis, 3x and 7c: 18th July, 30th August, 3rd September, 4th October, 14th November, 19th December, 24th January. She was 1.67m tall, weighing 65 kilos at 13/7/74 and 59 kilos at 24/2/75.

"She is now very well. In fact, these three cases are only given as indications. A closer clinical and biological study is necessary in order to demonstrate its value. We must also point out that a greater dosage of 25 to 50 drops, two to Three times a day, can be given in cases of benign breast tumors or secondary amenorrhea, especially after cessation of taking the birth control pill."

RELATIONS - Compare: (1) Aranea Diadema - Hydrogenoid tendency, faintness, menses with pains in the lumbar and sacral regions, periodicity and feeling of increase in size and weight of the upper limbs. (2) Aristolochia Clematitis - Affinity for the female genital organs. Menses scanty, irregular joint pains, strumous edema. (3) Histamine hydrochlor. - Thyroid type with pain in the left ovary, burning, cramping pains in the scrotum, joints and muscles, burning, itching, red papules on small areas of the skin. (4) Mandragora Radix - Euphoria, alternating with depression, libido disturbed, menses early or late, leucorrhea and lumbar pains, herpestic vesicles on the face.

CLINICAL - Audio-visual, hallucinations.

Brain-fag. Delirium. Delusions. Depersonalization. Depression. Goiter. Headaches. **Hearing, disorders.** Hysteria. Insomnia. **Intoxication.** Megrim. Mental, weakness. Neuralgia. Paraplegia. Senses, disordered. Ptosis. Pupils, dilated. Schizophrenia. Suicidal, tendencies. **Vision, disorders.**

HERBAL - The Anhalonium plant from which the mescal buttons are obtained grows in barren and rocky soil

in the valley of the Rio Grande. It is used by some Native American tribes in their religious ceremonies. In the ceremonies the constant beating of tom-toms is an essential feature.

HOMEOPATHIC - Anhalonium has been recently tested and a notable proving was made by Dr. Wier Mitchell. It is a cardiac tonic and respiratory stimulant. It weakens the heart and produces insanity.

The chief feature of the drug's action is the production of colorful visions of overpowering brilliancy, associated with moving shapes of fantastic design, the motion being regulated somewhat in time by music.

It makes "each note upon- the piano a center of melody which seems to be surrounded by a halo of color pulsating to the rhythm of the music." Hyperesthesia of all the senses. Acute sensitivity to changes of the weather.

Feeling of cold over the body. General increase in muscular tone. Hypersecretion of the thyroid gland. Hysteria. Allergic persons with hypersensitivity. Loss of sex drive (Sep.). Insomnia. Anxiety and neurosis. Melancholy. Chronic hallucinatory state. Schizophrenia. Impression that the self is double. Suicidal tendencies. Basedow's disease (Goiter).

MIND - Anhalonium is a remedy for brainweakness, **audio-visual hallucinations** with colored brilliant visions. It causes a form of **intoxication** accompanied by **wonderful visions, remarkably beautiful and varied kaleidoscopic changes** and a sensation of increased physical ability. Visions of monsters and various gruesome forms. "Delirium.

Loss of contact with the outside world and escape into a fantasy world. Loss of conception of time. Distrust and resentment. Lazy contentment. Gloomy, sad, dull. Irrational, sudden changes of mood. Egocentric introversion. Noises and touch are perceived through colored vision.

Depersonalization, does not know his identity. Diminution of willpower, apathy and slow reactions. Passive **state. Existential anguish**. Impression that objects and his whole body are transparent, sees his own internal organs. Memories exalted.

Ears - Exaggerated reverberation of ordinary sounds. Impressions of sound and visions heightened by any marked stimulation of skin.

Eyes - Pupils dilated. Ptosis. Accommodation impaired. Troubled vision, accommodation and perception. **Visions in all colors**. Fantastic visions of surpassing brilliance, moving in designs. Moving scenes, dances, affected by beating time. Natural objects seem more brilliant, shadows deepened, flickering of lights greatly exaggerated?

Face - Disinclined to make the slightest movement, eyelids droop, they scarcely move the lips and jaws in articulating. **Head** - Headaches with disturbed vision.

Frontal headache with visual zigzags. Occipital headache, with disturbed vision. Persistent ache and tired feeling in occipital region.

Limbs - Burning sensation of the limbs. A fine tremor in lower limbs.

Lungs - Breathing shallow.

Modalities - Better lying down. **Worse on closing eyes**. The nausea and faintness were worse on movement. There is great disinclination to move.

Mouth - Great difficulty in talking, partly from paralysis of the tongue, partly from slowness of thought.

Nerves - Motor incoordination. Extreme muscular depression increased patellar reflex. Paraplegia. Neuralgias, trigeminal of the ophthalmic nerve, the maxillary nerve, frontal nerve and naso-ciliary nerve.

Nose - The air seemed filled with vague perfume. Smell blunted, could not tell whether or not tincture of asafetida was a perfume.

Sleep - Insomnia and hysteria. Drowsiness, followed by consciousness of unusual energy.

Stomach - Nausea, worse on movement, entirely better on lying down.

Vertigo - Faintness. Vertigo, brain tired.

COMMENTS - One prover, Havelock Ellis said "I first cut up the Peyote buttons into small fragments and poured on boiling water twice, a single infusion is inactive." He noted a distinct slowing of the pulse, slight faintness and shallow breathing, but there were none of the terrible heart symptoms of the other Cacti.

Other symptoms are loss of conception of time, occipital headache, tired feeling in head, nausea. Tremor of muscles increased knee-jerk and loss of power of coordination. Extreme muscular depression, don't want to stir, whole body feels relaxed. Lazy contentment. Fine tremor in lower limbs before the visions, unable to walk without assistance, can with difficulty sit up.

RELATIONS - Compare: (1) Cann-i. - time sense disordered, fantastic visions. (2) Gels. - paralysis of accommodation. (3) Bell., Stram., Op., Pic-ac., Pip-m., Coff., Coca. (4) Plat. - objects seem small and distant. (5) Psor. - better lying down. (6) Agave. (7) The intoxication of Anhalonium is similar to that of Cannabis Ind. and Oenanthe.

***ANILINUM

(Amidobenzene)

PHARMACY - anil. Anilinum. Amidobenzene. Amidobenzol. A secondary product of coal tar obtained by reduction of nitrobenzene. **Historical dose:** Trituration and all potencies.

CLINICAL - Anemia. Anorexia. Cancer. Cholera. Cyanosis. Eczema, rubrum. Tumors.

HOMEOPATHIC - The symptoms of Anil, have been observed on working people poisoned by inhalation of the fumes and on persons who have worn an aniline-dyed article next the skin.

The symptoms are in¹ many respects like those of Arsenicum. There is vomiting, purging, bursting headache, and epileptiform attacks. **Face has a purple hue.** Marked cyanosis, swelling and irritation of the skin.

Profound anemia with discoloration of the skin, blue lips, anorexia, gastric disturbances. Pain in penis and scrotum with swelling. Cancerous growths. **Tumors of urinary passages.** Giddiness and pain in head.

COMMENTS - In old-school practice, injections of aniline blue have been used with some success to destroy cancerous, growths, aniline having a marked affinity for cell nuclei, hence its use in staining microscopic specimens.

In Anil, poisoning cases, évacuants, the inhalation of oxygen, and the free use of stimulants, including brandy, ammonia, chloric ether, cold infusions to the head, and mustard plasters on legs and thighs, have been used with success.

RELATIONS - Compare: (1) Glon., Ars., Pyrog., Phenacetinum. Antifebrinum.

***ANISE STELLATUM

(Star Anise)

PHARMACY - anis. Anise stellatum. Star anise. Chinese anise. Illicium stellatum. Illicium verum. N. O. Magnoliaceae. Illecebraceae. Tincture of seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Catarrh. Colic. Convulsions. Cough. Dyspnea. Hemoptysis. Lungs disorders. Stomach, catarrh. Rheumatism. Thigh, pain. Vomiting.

HERBAL - Illicium is a genus of Magnoliaceous shrubs or low trees with smooth entire leaves, exhaling when bruised a strong odor of aniseed, owing to the volatile oil contained in minute pellucid dots, which may be seen by the aid of a lens. The star anise fruit is used throughout China, Japan and India as a condiment and is chewed in small quantities after a meal to sweeten the breath.

Anis, has a local repute as a stomachic and carminative and should be remembered in the treatment of flatulent conditions. It has been used for the so-called three months colic, especially if it recurs at regular hours, with much rumbling in abdomen. Colic of babies.

HOMEOPATHIC - The Anis, provings were made by Franz and Mure. Both showed the action of the drug on the nose, mouth and stomach. Franz had many symptoms on the face, especially lips, skin and limbs.

Characteristic **pain in region of third rib.** about an inch or two from the sternum, generally on right side, but occasionally on left. Frequent cough with this pain. Purulent tracheal and gastric catarrh of old alcoholics. Old asthmatics. Vomiting, epileptiform convulsions with biting of tongue.

Abdomen - Three months colic, especially if it recurs at regular hours, bowels disturbed. Violent wind colic. Rumbling in abdomen. Pain in spleen region.

Back - Pain in back and chest. Cramp-like drawing, as from a cold in left side of dorsal vertebra.

Chest - Pain in region of third rib, about one or two inches from sternum, generally on right side, but occasionally left. Pain

about junction of third rib with cartilages, hemorrhage, coughs, congestion and enlarged liver.

Ears - Buzzing in ears. Ringing in ears followed by sleep. Itching over left ear, going off when touching the place.

Face - Stinging sensation in upper lip, as if blood would press out, better from touch. Dryness of upper lip, which is drawn closer to teeth. Burning in inner surface of lower lip with sensation as if it had gone to sleep.

Food - All food, except rye brea'd. tastes too salty or bitter, yet appetite is good. Rye bread tastes good, its odor is refreshing. Satiety after eating but little.

Head - Pains in head, better evenings, worse mornings.

Heart - Palpitations with aphthae and weakness.

Limbs - Jerking and tearing in bend of left elbow and at same time in palm, a feeling as if an arter[^] had been injured by a blow. Pressure back [^]f right hand, between the two middle metacarpal bones, as though something fiard lying between them, worse pressing hand against anything hard, not by touch. Left thigh feels as if broken in the middle while sitting, it disappears on standing.

Lungs - Dyspnea in old asthmatics. Feeling of emptiness after coughing. Frequent cough with pain. Spitting blood in small quantities and with pus-like phlegm, pain in right chest. Whitish expectoration. Tough and viscous phlegm with old alcoholics. Dyspnea. Pain near third intercostal cartilage. Cough with pus-like phlegm. Palpitation with aphthae. Hemoptysis.

Modalities - The pain in thigh is worse sitting, better rising. Pains in the head are worse in morning, better in evening.

Mouth - Tongue covered with aphthae, most on edges. Edges of tongue folded like little bags.

Nose - Acute catarrh. Water discharge from nostrils. Warm, smarting sensation in nose, succeeded by sneezing. Sharp stitches in tip of nose, beneath lip. Acute catarrh. Burning and numbness of inner lower lip.

Rectum - Stools bilious, compact and dark-colored.

Skin - Stitches as with pins in left palm, between first and second fingers, better by scratching, but afterwards return with burning. Dull, painful stitches in skin of lower forearm. Crawling, itching stitches in right palm. Itching in front and above left ear, better by touch.

Sleep - Sleepless at nightfall. Disturbed sleep.

Stomach - Nausea in stomach, extends to chest, then ceases. Nausea with gagging and inclination to vomit. Bloating of stomach, acidity.

Temperature - Heat from abdomen to stomach and chest, running over different places and abating during day.

Throat - Touch, viscid phlegm from stomach with old alcoholics.

COMMENTS - A very remarkable symptom of Franz' has been confirmed by Flora A. Waddell. A man suffering from rheumatism of two years' duration came limping into Dr. Waddell's office, asking if she could do anything for his limb. He complained that when he sat down he couldn't rest in that position at all.

Asked why, he replied: "Whenever I sit down my limb feels as if broken off right here," pointing to the middle of his thigh. He said he often got up to straighten himself in order to make sure. He also had some pain in his arm and severe "sore pain" in his back. Anis. 30x cured all the symptoms.

Mure's Anis, symptoms were noted on head, abdomen, chest and back. Tough white expectoration appears to be a characteristic and there is pain in region of third rib. about one or two inches from sternum (junction of rib with its cartilage), generally on right side, but occasionally on the left.

RELATIONS - Compare: (1) In chest pains, Pix, Menth-pu. (2) **IA&gn-g. Compatible after:** Aeon, and Bry. in hemoptysis.

REFERENCES-Boericke. Clarke.

***ANTHEMIS NOBILIS

(Roman Chamomile)

PHARMACY - anth. Anthémis nobilis. Roman chamomile. Chamomilla romana. **N. O.** Composite. Infusion of flowers or tincture of whole plant when beginning to flower. **Historical dose:** Tincture and all potencies.

CLINICAL - Ascarides. **Colic.** Coryza. Dyspepsia. Headache. Liver, congestion.

HERBAL - Anth. is the common chamomile used domestically in the form of a tea made of the flowers. It is not to be confounded with Chamomilla Matricaria.

HOMEOPATHIC - Burnett recorded a case in which violent gastric disturbance and headache were caused by the tea, and Berridge proved the tincture. In Burnett's case there was great coldness and chilliness inside abdomen.

Berridge had feelings of coldness generally and sensitiveness to cold air and the touch of cold things, but slight exertion caused heat and perspiration. Gastric disturbances with coldness. Sensitive to cold air and cold things.

Abdomen - Colic. Gripping and **chilliness inside of abdomen** and into legs.

Kidneys - Bladder feels distended. Frequent urination.

Liver - Aching in region of liver.

Lungs - Coryza with much lachrymation, sneezing and discharge of clear water from the nose. Symptoms worse indoors. Constriction and rawness of throat. Tickling cough, worse in a warm room.

Male - Pain along spermatic cord, which feels full, as if has varicose veins.

Rectum - Itching of anus with white puttylike stools.

Skin - Itching of the soles, as if from chilblains. Gooseflesh.

RELATIONS - Compare: (1) Cina. (2) Chin, is "useful after abuse of chamomile tea when hemorrhage from uterus results" (Hering).

REFERENCES - Boericke. Clarke.

***ANTHOXANTHUM ODORATUM

(Sweet Vernal Grass)

PHARMACY - antho. Anthoxanthum odoratum. Sweet vernal grass. N. O. Gramineae. Europe and America. Tincture of fresh flowering herb. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. Coryza. Hay fever.

HERBAL - A popular remedy for hay fever is "**hay tea**," a decoction made of hay itself. Antho. is used both externally and internally, with success on its effects produced by the pollen grains on those subject to hay fever. Seasonal allergies.

RELATIONS - Compare: (1) All-c., A

rs., Naph., Sabad., Psor. (2) Anan., Avena, Arund., Lol. (3) Sac-alb.

REFERENCES - Boericke. Clarke.

***ANTHRACINUM

(Anthrax Nosode) .

PHARMACY - anthr. Anthracinum. Anthrax nosode. Air alcoholic extract of the anthrax poison prepared from the spleens of affected sheep. **Historical dose:** All potencies.

CLINICAL - Abscesses. Acne. Anthrax. Bites. **Boils. Blisters.** Bubo. Cancer, pains. **Carbuncles.** Cellulitis. Chills. Coma. Delirium. Depression. Ecchymosis. Edema. **Erysipelas. Gangrene.** Gangrenous, ulcers. Glands, swollen. **Fever.** Hemophilia. Hemorrhages. Hydrophobia. Injuries. **Malignant, pustules.** Parotiditis, gangrene. Phlegmonous, inflammation. **Prostration.** Pustules. Quinsy. Septic, fevers. Septicemia. Smallpox. **Splenic, fever.** Sycosis, barbae. Ulceration. **Ulcers.** Weakness. Whitlow. Wounds. Zymotic fevers.

HOMEOPATHIC - Anthracinum was introduced into homeopathic practice by Lux, a veterinarian, long before the experiments of Pasteur. The potential anthrax nosode is the best remedy for the disease from which it is obtained, "**splenic fever**" in animals and "**malignant pustule**" in human beings. Epidemic spleen diseases of domestic animals and in septic inflammation, **carbuncles and malignant ulcers.**

This nosode is a very valuable remedy in malignant or septic inflammation of connective or cellular tissue. It produces boils or boil-like eruptions, carbuncles, malignant ulcers, abscesses, bubo, where there is purulent focus. For **boils** and boil-like eruptions, acne. **Succession of boils or carbuncles.** Suppurating, burning abscesses, fetid pus. Recurrent abscesses.

Abscess of nasal septum. Quinsy. **Gangrene**, dissecting wounds. Offensive gangrenous ulcers. Parotiditis. Foul secretions. Ulceration, sloughing **and intolerable burning. Hard, stony** swelling in region of right lower jaw and submaxillary gland. Anthrax quinsy. Whitlow and sloughing. Glands painfully swollen. **Black or blue blisters.** Foul erysipelas and gangrenous erysipelas, cellulitis.

Septicemia. Hemorrhages are thick, black tar-like from any orifice. Glands swollen, cellular tissue edematous and indurated. **Terrible burning with great prostration.** Black and blue Wisters. Insect stings. Bad effects from inhaling foul odors.

Induration,, cellular tissue, glands, muscles. Lymphangitis. Inflammation after surgery. Injuries, blows, falls and bruises. Injuries to bones, fractures. Compound fracture. Pain in cancerous affections. Burning pain, external. Pyemia. Swelling of glands. Trembling, paroxysmal. Benign tumors. Angioma. Fungus hematodes. Hemangioma. Atheroma. Steatoma.

Disorganization of blood. Congestion of blood. Convulsions, spasms, particularly in alcoholics. Clonic spasms. External dropsy. Weakness, enervation, exhaustion, prostration, infirmity. Weakness during fever. Weakness from perspiration. Wounds. Bites of dogs, poisonous animals. Snakes bites. **Ailments from inhaling foul odors.** Poisoning with sewer gas.

In the treatment of carbuncles, remember the prescription of the prophet Isaiah for King Hezekiah's carbuncle i.e., the pulp of a fig placed on a poultice and applied.

MIND-Anxiety, with fever. Confusion of mind. Disinclined to work, aversion to mental work. Depression, with debility and chill. Silent grief. Irritability, restlessness, nervousness, at night. Sadness, despondency, depression, melancholy.

Delirium and excitement during fever. Oversensitive. **Presentiment of death.** Thinks she feels death approaching. Hydrophobia. Makes animals howl, bite, run about, become greatly excited, followed by paralytic symptoms. Collapse, unconsciousness, coma.

Abdomen - Distension. Swelling of the abdomen. Colicky pains. Bellyache with chill. Rumbling noises. Abdominal soreness, in epigastrium with vomiting, cold limbs, dull head. Intestinal anthrax. Mesenteric glands enlarged, size of a walnut. Dark red carbuncle in the omentum. Bubo. Burning, smarting pain.

Back - Axillary glands swollen. Eruptions. **Carbuncles.** Opisthotonos.

Blood - Septicemia, blood poisoning. Tendency to hemorrhage. Blood does not coagulate, hemophilia. Bleeding from orifices. Bleeding, clots, dark, ropy, tenacious. Rapidly decomposing blood.

Chest - Sensation as if diaphragm were pushed forward. Sensation of anxiety and constriction, in the præcordia. Swelling of axillary lymphatic tissue.

Ears - Ringing in ears. Swelling of ears.

Eyes - Dilatation of pupils. Pale yellowish or greenish swelling. Pale redness above the brows along the forehead.

Face - Acne, boils and pustules. Parotiditis gangrenosa, after scarlatina. Abscess, lips.

I Cancer. Gland under chin painfully swollen. I len. Tearing pain. Earthy discoloration. I Red face and nose. Swelling, face glands, lymphatic tissue. **Erysipelas**. Indurations. Sycosis barbae.

Food - Appetite wanting. Diminished appetite with fever. Loss of appetite with chills and gastralgia. Aversion to eggs, odor of eggs. **Excessive thirst, but can hardly swallow**. Thirst with fever.

Head - Dullness in head as from narcotics. Headache, as if a smoke with a heating pain was passing through the head. Headache with chill. Carbuncles on head, near the ears or temples. Swelling of head. Cerebral hemorrhage. Erysipelas. Swelling of dura mater.

Heart - Heartbeats frequent but weak. Soft, scarcely frequent pulse. Blood does not coagulate.

Jaws - Tearing pain in lower jaws. Lockjaw, trismus. Stiffness in jaws. Stony swelling around lower jaw.

Kidneys - Kidneys swollen with edema. Suppression of urine, anuria. Swelling.

Limbs - Burning pains. Coldness of lower limbs. Cramps. Severe pains in limbs and joints with the fever. Convulsions, spasms. Tetanic spasms of upper limbs.

1, Cracked skin. Arms and hands covered with a crusty eruption, full of cracks. Felon with sloughing, severe torturing pain and great prostration. **Boils, blisters, and vesicles. Pustules**. Whitlow. Gangrene from burns or scalds. Gangrenous ulcers. Ulcers with black base on lower limbs. Swelling of limbs. (

Liver - Liver engorged. Congestion, liver. **Lungs** - Cyanosis.- Breathing frequent, laborious and spasmodic.-

Male - Erections, troublesome. Erections, continued, priapism.

Mouth - Flabby taste. Dark red, bloody ecchymoses of mouth. Hemorrhage, oozing of blood. Abscess, lips. Pustules, lips. **Black, lips**. Erysipelas, lips. Offensive odor from mouth. Mouth could not be opened. Induration of salivary, submaxillary glands. Inflammation of parotid gland. Saliva increased. Cancer of glands, salivary, submandibular. Swelling of salivary, submaxillary glands.

Nerves - Epileptiform convulsions. Paroxysms of trembling. Clonic spasms, trismus or opisthotonos. Tetanic spasms in upper limbs. Debility and depression, with pain in the limbs.

Nose - Eruptions, inside nose, boils, furuncles. Nose swollen and red, fetid smell from it. Bloody mucus membranes of nose. **Red discoloration of nose extending to cheek**. Coryza. Discharge, offensive, fetid. Smells putrid odors, imaginary and real. Swelling, nose.

Perspiration - Sweat all over with debility. Night sweats. Cold sweats. Debilitating, exhausting sweats. Sticky, viscid sweats. Perspiration, suppressed.

Rectum - Vomiting followed by a painless, often bloody diarrhea. Diarrhea with fever. Diarrhea painless. Cholera-like collapse. Diarrhea with bellyache. Retarded stool. Stools, white. Mucus, slimy stools. Odor, putrid. Pasty, papescent stools. Sputtering stools.

Skin - Itching with dry skin. Dryness. Ecchymosis. **Boils, painful**. Blood boils. **Carbuncles, burning**. Edema, ulcers, gangrene, sloughing whitlows. Blackish eruptions. **Black or blue blisters**. Crusty oozing eruption. Sloughing ulcers. Smallpox. Bluish spots, with burning. Red spots. Erysipelas. Pustules and vesicles. Gangrene from burns or scalds. Gangrenous ulcers. Ulcers, cancerous. Ulcers with offensive discharges.

Sleep - Sleeplessness because of the pain. Sleepless, restless and irritated at night. Delirium with sleepiness. Sleep short, not refreshing, more like a stupor. Comatose. Unrefreshing sleep.

Spleen - Spleen, complaints of. Enlarged spleen. **Epidemic spleen diseases of cattle or horses**.

Stomach - Belching with nausea, and inclination to vomit. Nausea and vomiting with chill. Vomiting of bilious and slimy masses. Vomiting followed by diarrhea. Pressure and burning in the region of the stomach. Burning pains. Vomiting of bile, mucus.

Temperature - **Creeping' chills**. Debility with chills. **Chills, alternating with heat**. Great weakness with fever. Fever with diarrhea. Continued fever, typhus fever. Typhoid fever, with rapidly sinking pulse, loss of strength, fainting, delirium. Puerperal fever. Septic fevers. Zymotic fevers.

Throat - Right tonsil painful. Anthrax quinsy. **Malignant sore throat**. Swallowing difficult. Bleeding, oozing, tonsils. Sore throat. Tonsillitis. Swelling, edematous.

Tongue - Tongue often furred, with a thick brown coat, dry.

Urine - Pale urine. Profuse, increased urine. Scanty urine. Watery, clear as water.

Vertigo - Dizziness with headaches. Vertigo with loss of consciousness.

COMMENTS - Great restlessness. Debility and depression with pains in limbs and general sense of malaise, followed by disturbance of the intestines. Restlessness. Clonic and tetanic spasms. Exhaustion and collapse.

Terrible burning pains.

Malignant boils. Severe boils that are very painful, with a tendency toward gangrene or cancer, or that refuse to heal (Tarant., Sil., Hep., and Bell.). Boils that come in crops all over the body. Keynote severe burning pains (Canth.). Ulcers with terrible burning. Induration of tissues. Hypersensitivity to the least touch, so they can't wear any clothes.

Completely exhausted, think they feel death. Collapse, with difficulty of breathing, loss of consciousness, death. Cyanosis, asphyxia and the most extreme collapse, followed by death in all cases of bleeding. Hemorrhage of dark blood (Croc.), keynote black, stringy hemorrhages.

RELATIONS»- Antidoted by: Camph., Ars., Rhus-t., Sil.? Lach., Carb-v., Puls., Kreos., Carb-ac., Sal-ac., Apis. Similarto: Ars., which it often follows. Tarent-c. **Compare:** (1) Ars., Tarent-c., Carb-v., Pyrog., Lach., Crot-h., Hippozaen, Echi. **Follows well:** Ars. - burning and ulceration, Ph-ac. **Followed well by:** Aur-m-n. - periosteal swelling of lower jaw, Sil. - cellulitis. •

REFERENCES - Boericke. Clarke. Murphy.

***ANTHRAKÓKALI

(Anthracite Coal) ₁₃₁.

PHARMACY -anthro. Anthrakokali. Anthracokali. Anthracite coal of certain kind, dissolved in boiling caustic potash. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Decay. Cracks. Diabetes. Diuresis. Ecthyma. Eczema. Gout. Herpes. Impetigo Lichen. Nostrils, cracked. Priapism. Prurigo. Rheumatism. Scabies. Scrofula. Sycosis. Urticaria.

HOMEOPATHIC - Anthracokali has been used in skin affections, scabies, prurigo and chronic herpes. Chronic cracks and ulcerations of nostrils. Papular-like éruptions with a vesicular tendency, especially on scrotum, also on hands,

tibia, shoulders and bottoms of the feet.

Eruptions decrease with the full of the moon. Intense thirst and diuresis, diabetes. Chronic rheumatism, gout, decay, scrofu- losis. Bilious attacks, vomiting of bile. Tympanic distention of abdomen.

Abdomen - Inflation of the abdomen, as in tympanitis, colic. - - > .wn.

Female - Menses beyond the usual period.

Food - Anorexia, nausea and vomiting. Increased appetite. Burning thirst, before sweat. Insatiable thirst. At first no appetite, but soon after it grew sharper.

Kidneys - Increase in the secretion of urine. Abundant flow of pale urine without sediment. Burning in the urethra while passing water, or itching at the orifice. Retention of urine. > ₁₃₁ 33 * 4 3 33 3 3 3 -<.

Male - Frequent erections. ; -j-₁₃₁ 33 Jr > **Mouth** - Dryness of the mouth, foul tongue.

Nose - Chronic cracks and ulcerations of nostrils.

Rectum - Black stools, evacuations like pap, with colic and borborygmi, diarrhea, which continues several days.

Skin - Increased activity of the skin, nettle rash. Chronic erysipelas. Purulent pimples, like papules, with considerable itching.

Sleep - Sleeplessness with agitation and excited pulse.

Stomach - Retching, vomiting of bile, and of black mucus. Sensation of heat in the stomach. Cramps of the stomach.

Temperature - Shivering, alternating with heat, followed by gentle perspiration, and quickness of the pulse. Redness and heat of the skin, disappearing on sweating. Perspiration all over the body.

Throat - Dryness of the throat, with internal heat, extending to stomach, swallowing slightly impeded.

RELATIONS - Compere: (1) Compare the Carbons. (2) Rhus-t., Dulc. (3) Ferr-i. -eczema impetigenoides. (4) Antimonies.

***ANTIMONIUM ARSENICOSUM

(Antimony Arsenite)

PHARMACY - ant-ar. Antimonium arsenicosum. Antimony arsenite. Arsenicum stibia- tum. Stibium arsenicosum. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthma. Catarrhal pneumonia. **Dyspnea. Edema. Emphysema.** Heart weakness. Influenza. Low, appetite. **Lung, disorders.** Myocarditis. Ophthalmia. Pericarditis. Pleurisy. Pneumonia. Sciatica. Tuberculosis.

HOMEOPATHIC - Ant-ar. has a combination of Antimonium Tart, and Arsenicum symptoms. Ant-ar. is said to affect preferably upper left lung. **Emphysema with excessive dyspneaandcough**, much mucus secretion. Dyspnea, worse on eating and lying down. Sense of weakness..

Catarrhal pneumonia associated with influenza. Mattes said it is equally effective in right-side effusions in old pneumonias and catarrhal pneumonias in children in old pleuritic effusions and in pericardial exudations. Loss of appetite. General sick feeling.

The cough is worse by eating and on lying down. Pleurisy especially of left side with **exudation** and pericarditis with effusion. Rush of blood to head. Inflammation of the eyes and edema of the face. Wandering pains in sciatic nerves. Myocarditis and cardiac weakness.

COMMENTS - Boericke said "emphysema with excessive dyspnea," difficulty in breathing, cough with a lot of mucus. Catarrhal pneumonia associated with influenza. Other lung disorders, tuberculosis. Worse on eating and lying down, low appetite. Sense of weakness. Pleurisy, especially of left side, with **exudation** and pericarditis with effusion.

RELATIONS - Compare: (1) Other antimony salts. (2) Ars., Aur., Lach., Puls. - wandering pains, Sulph.

REFERENCES - Boericke. Clarke. Murphy.

***ANTIMONIUM CRUDUM

(Native Sulphide of Antimony)

PHARMACY - ant-c. Antimonium crudum. Native Sulphide of Antimony. Antimonium sulphuratum nigrum. Stibium sulfuratum nigrum crudum. **Historical doye:** Trituration and all potencies.

CLINICAL - Acne. Alcoholism. **Amenorrhea.** Anus, irritation. Arthritis. Backache. **Belching. Blepharitis.** Boils. Bunions. **Callosities.** Catarrh. Chills. Chorea. Constipation. Corns. Deafness. Diarrhea. Dyspepsia. Eczema. Emaciation. Feet, sore. Fever. **Food, allergies.** Freckles. **Gastrointestinal, disorders.** Gout. Grief. Gum rash. Headaches. Heartburn. Heatstroke. Hemorrhoids. Hoarseness. **Horny, growths.** Hysteria. **Indigestion. Leucorrhea. Marasmus. Nails, fungus.** Nails, split nausea. Nettle rash. Nosebleed. Nymphomania. Obesity. Otorrhea. Premenstrual, syndrome. **Proctitis.** Prolapsed, rectum. Red gum. Remittent, fever. Rheumatism. Skin, disorders. **Stomach, disorders.** Suicidal. Sunstroke. Tendons, inflamed. Tongue, coated. Toothache. **Urticaria.** Vertigo. Voice, low. Vomiting. **Warts.** Whooping cough.

HOMEOPATHIC - Ant-c. is pre-eminently a stomach and skin remedy. It corresponding to constitutions with tendency to growths and rough scaling skin with horny patches. These horny patches are very tender, the patient can hardly bear to walk on them. **Fungus under nails.** Nails tend to grow in splits. **Warts.**

Boericke said, "**thickly coated white tongue are. true guiding symptoms.**" Fishy sures on corner of the mouth that split and crack (Petr.). Lips are dry and cracked, usually at corners. **Thickly coated tongue, white, milky-white or like whitewash evenly laid.** The edges may be red and sore. Sore, cracked and crusty nostrils and corners of mouth.

Chronic indigestion. Patient can have a big appetite, **eats beyond the capacity of his digestion** or without discrimination, the mental and skin symptoms can be due to this disturbance. Exceedingly weak condition of the body.

Abnormal hunger, not relieved by eating, emptiness of epigastrium and want of animal heat. **Gastric derangements, with a tongue coated thickly white, with different complaints.** Disgust for all foods. Nursing children throw up a little sour milk as soon as they take the breast or bottle, then refuse to nurse again (Aeth. after vomiting the child then sleeps and wakes hungry).

Heartburn, gas. Food allergies, especially

to sour wines and vinegar. Intolerance to all wine. In one case it produced a feeling of intoxication like that of alcohol, so that the patient refused to take any more of it.

Chronic complaints that are traceable to suppression of eruptions or ulcers. Effects of suppressed eruptions.

Worse by heat (Apis, b Puls., Cham., Sec., Camph.). **Worse from cold washing,** cold water and cold food. Cannot bear heat of sun.

An absence of pain, where it would be expected. Rheumatism and gout if parts are inflamed are swollen. Gout with stomach symptoms. Acute gout having left deposits with gastric symptoms. Inveterate chronic gout without fever. Dark hemorrhages. Dropsical swelling of whole body.

Mucus membranes generally affected. Swelling pain and redness of glands. External parts turn black, dry gangrene. Obesity of young people. Tendency to grow fat. Marasmus of children. Emaciation. Glandular obstructions. Scrofula. Fungus articularis. Metastasis of gout and rheumatism causing gastric catarrh. Anasarca.

MIND - Excessive irritability and fretfulness, with a thickly-coated white tongue. Fretful cross and peevish. Adults are sulky, do not wish to speak with anyone. Angry at every little attention. Homesickness. Weeping and impressionable.

Nervous hysterical girls and women, who are overcome by mellow light from stained-glass windows. **Sentimental mood by moonlight.** Dreamy, sentimental. Amativeness. **Ill effects of disappointed love, grief.**

Ecstasy and exalted love. **Love sick**, with sulkiness. Sulky, doesn't want to speak with anyone. Either **sentimental or cross and touchy** during; diarrhea and before menses.

The child is cross, but will scream at every little attention (Cham, wants to be carried). **Child cannot bear to be touched or looked at** (Nat-m.). Can't bear to be washed or touched. Anger when touched. **Peevishness, worse touch or consolation**. Very sentimental, easily moved, more so in the adult. Nymphomania during suppressed menses. Disposition to start, even at slight noises.

v. Excitability. Anxious reflections in relation to one's present and future. Can be anxious about their fate, health and future. Cross and contradictory, whatever is done fails to give satisfaction. Sleepy and weary. Talks in rhymes or verses, taciturn. So - busy with oneself one forgets to urinate or defecate, eats only when asked. Loathing of food, bathing etc.

Great sadness and woeful mood. Sorrowful, irritable humor. Distrustful. Suicidal depression. Inclination to shoot himself, at night he is obliged to get out of bed because he can't free himself of the idea. Loathing, disgust for life. Abject despair, wants to commit suicide by drowning. Mental symptoms are worse from suppressed eruptions (Mez.). Suicidal thoughts drive him out of bed.

Abdomen - Inflation of the abdomen with a sensation of fullness, chiefly after a meal. **Abdomen very much distended, with much rumbling**. Colic with loss of appetite, hard stool, red urine. Sensation of emptiness in the abdomen, as after violent diarrhea. Sensation of swelling and of hardness in the inguinal region, on its being pressed. Incarcerated flatus. **Flatus in the abdomen with rumbling and bor-borygmi**. Cutting in bowels with watery diarrhea. Violent cutting pains, sometimes with want of appetite, red urine and hard stools. Pinching pain and sensation as if diarrhea would come on.

Back - Itching and pain of neck and back. Violent pain in small of back when rising, better when walling. Coccyx heavy. Swelling of cervical glands. Spasmodic drawing, in muscles of nape, reaching to scapulae. Backache evening after lying down and in morning. Backache worse stooping, exerting arms and turning head to left. Spasmodic stitches in right scapula when sitting.

Causations - Ill effects of disappointed love, grief and suppressed eruptions. Hot weather or sun. Getting overheated, Overeating.

Chest - Stifling oppression and paralytic orthopnea. Shootings in the chest, when -c¹ drawing breath and at other times. **Itch- 5o ing of chest** with oppression. Pain, as if contusion in the pectoralis major, on raising the arm and on pressure. Sharp pain under left breast. Burning pain in the chest oP with heat. Pains during fever. Oppression and pressive pains, more right side. Sharp pains in chest when exhaling. Burning and sticking pains. Severe itching upon chest continuing all day.

Constitutions - Suited to infants and chilids dren with coated, moist, white tongues and in the elderly. Hydrogenoid constitutions.

Tendency to grow fát. Constitutions with tendency to rough scaling skin with horny **zu** patches. A scrofulous medicine.

Cough - Cough in paroxysms, as if arising from abdomen, first paroxysm always most severe, subsequent ones weaker and weaker, until the last one only resembles a hacking cough. Burning with dry cough and dyspnea. Burning at every cough. **Cough in hot sun**. Cough with hot breath. Cough shaking whole body, with involun- L_t tary escape of copious urine. **Cough on coming into warm room**. Cough from cold air. Cough with burning sensation in chest, -w itching of chest, oppression. Looking into os: fire aggravates cough. Cough after rising in morning.

Ears - Redness and swelling, pain in eusta- h chian tube. Ringing and deafness. Moist eruption around ear. Otorrhea. Deafness, J i. as if bandaged or a leaf lying on ear.

Eyes - Dull, sunken, red, itch inflamed, agglutinated. **Canthi are raw, fissured** and cracked, red and moist, Itching in canthi, **Chronic blepharitis**. Pustules on cornea and on the margins of the lids. Looking into the fire causés cough. Inflammation of lachrymal glands and ducts. Chronic sore eyes of children. Photophobia. Dried mucus in corners. Eyes worse glare of snow.

Face - Acne worse near fire. Dry lips. Eczema about mouth. Pimples, pustules and boils on face. Eruption like nettlerash. Freckles. **Yellow crusted eruption on cheeks and chin**. Sallow, haggard or sad. Cracks in the comers of the mouth. Comers of lips and nostrils cracked and sore. Burning, stinging on chin, as from a hot spark. Small, sore, honey colored granules on chin. Sharp pain in left cheek when exhaling. Twitching of facial muscles. Heat and itching on cheeks. Submaxillary glands swollen.

Female - Menses too early and profuse. Premenstrual syndrome. Toothache before **menses**. **Amenorrhea**. Menses suppressed from cold bathing. **Menses suppressed** with feeling of tenderness of the ovaries, pressure in womb as if something would come out during menses. Painful ovaries in love sick girls. Leucorrhea watery, acrid, lumpy. Nymphomania from checked menses. Excited, genitals itch. Nausea, vomiting with diarrhea, all during pregnancy. Hemorrhoidal affections during pregnancy. Tenderness of ovarian region, with

nausea, vomiting and white tongue. Irritable, painful ovaries of hysterical girls who are dreamers, who suffer from unrequited affections. Watery vaginal discharge causes smarting down thighs.

Food - Loss of **appetite** with disgust for food. **Great desire to eat, but gets no strength.** Appetite does not return after severe illness. Food leaves an aftertaste or causes constant belching. Good appetite with burning at pit of stomach. Diminished appetite in summer owing to heat. Loathing of food with a bitter taste. **Long-lasting loss of appetite with disgust for all food.** Hunger early on waking without appetite, eating does not better it. **Desire for acids, sour pickles.** Desire for cucumbers, sour, wine, vinegar. Desire for beer with chill. Intense thirst with dryness of lips, more at night. Patient is a gross feeder, a glutton, he eats beyond the capacity of his digestion or without discrimination.

Head - Headaches, worse in vertex, on rising ascending. **Headaches from disordered stomach.** Headache worse with candy or acid wines, fruits, fats, ascending stairs. Headache from alcoholic drinks. Suppressed eruptions. Heaviness in forehead with vertigo, nausea and nosebleed. **Headaches from bathing in cold water.** Headache after stopped coryza. Headache with great loss of hair. Itching of the head with falling of hair. Tendency to take cold about surface of head. Heaviness in forehead with vertigo, nausea and nosebleed. Lentil-sized, flat tubercles here and there on scalp, painful to pressure, crawling sensation around them. Rush of blood to head, followed by nosebleed.

Heart - Violent palpitations. Pulse extremely irregular, now accelerated and again slow. Pulse changing every few beats. Slow pulsation during fine prickling headache.

Kidneys - Urine is turbid and has a foul odor, as cutting urethra while urinating. Tenesmus of bladder rouses him from sleep at night. Urination is frequent, profuse with burning and backache. Involuntary urination, on coughing. Gritty sediment. Frequent urination with much mucus, intense burning in urethra and backache during emission.

Larynx - Heat in larynx in open air. **Voice harsh and badly pitched.** Voice, lacks control, harsh, badly pitched better using it. Aphonia from overheating. Laryngitis, Rough voice from over use. Hoarseness after cold water bath. Great weakness or entire loss of the voice, chiefly on becoming warm. Sensation of a foreign substance in the larynx with inability to expectorate. Violent spasm in the larynx with sensation of excoriation.

Limbs - Lassitude, tremulous fatigue and heaviness of all limbs. Twitching of muscles. Jerks in arms. Limbs weak during headache. **Arthritic pain in joints of fingers. Horny or split nails. Nails brittle,** grow out of shape. Horny growth under the nails. Skin beneath nails painfully more sensitive. Discolored nails. **Horny warts** on hands and soles. Weakness and shaking of hands in writing followed by offensive flatulence. Painful stiffness of knee. Pustules on thighs. Inflamed corns. Pain in heels. Painful inflammation of the tendon of elbows with great redness and curvature of the arms. Shiny elbows. **Callosities on soles.** Skin on soles withered on account of foot sweat. **Feet very tender, covered with large horny places.** Rheumatic pain, in legs. Numbness of legs during rest and while sitting. Weakness and shaking of hands in writing, followed by offensive flatus. Crippled feet.

Lungs - Deep, sighing, as from fullness of chest, afternoon and after eating. Unequal breathing, during sleep. Oppression coming from stomach. Constriction almost to suffocation. Spells of sighing. Difficult breathing, with raised shoulders. Respiration deep with sighing. Expectoration of large quantities of mucus, exhausts the patient.

Male - Eruption on scrotum and about genitals. Impotence. Atrophy of penis and testicles. Biting, itching of scrotum with eruptions. Excited sexual desire with uneasiness of the whole body. Nightly pollutions with or without voluptuous dreams. Itching of penis, of tip of glans. Erections when getting warm in bed, with sleeplessness.

Modalities - Better in open air. Better moist warmth. Better during rest. Better lying down. Worse in evening. Worse at night. Worse moonlight. Worse water, wet poultices. **Worse cold bathing, cold water** (on head). Worse dampness. Worse radiated heat. **Worse heat from sun.** Worse from acids, vinegar. Worse sweets, wine, pork. Worse **overeating,** debauches. Worse after getting drunk. Worse rising up. Worse ascending stairs. Worse touch.

Mouth - Aphthae. Dryness of mouth. Gums bleed easily. Taste bitter. Pappy taste. Salivation, taste salty. **Tongue coated thick white, as if whitewashed.** Canker sores. Sore feeling and redness on border of tongue. Much slimy mucus. Pimples around the mouth. Rawness of palate, with expectoration of much mucus.

Nose - Fluent or dry coryza. **Nostrils** - **chapped and covered with crusts.** Stuffed nose in a heated room. **Eczema of nostrils, sore, cracked and scurfy. Nosebleed and** headache. Nosebleed, evenings with rush of blood to head. Feeling of coldness on inhalation. Nose painful when breathing.

Perpiration - Hot sweat. Perspires at same interval every other day. Sweats in morning but when awaking, causes shrivelling of to - fingertips. Sweat soon disappears and followed by dry heat. Cold, clammy sweat from motion. Sweats during rheumatic pains. Sweats during headache.

Rectum - Anal itching. Burning, itching and fissures in the anus. Diarrhea alternating with constipation. Acrid diarrhea. Diarrhea in summer. Diarrhea, worse during headache. Diarrhea with much belching. **Hemorrhoids**, bleed and running with burning and tingling. Mucus hemorrhoids, prickling and burning with continuous mucous discharge from anus, staining yellow. **Catarrhal proctitis**. Flow of black blood from the anus. **Abuse of laxatives**. Constipation in heat of summer, in bed Soreness in rectum as if an ulcer has been torn open, during stool. Expansive pressure in the rectum during stool as if an ulcer had been torn open. Burning furunculus in the perineum. Rectal hemorrhage with solid stools, hemorrhoids. Boils on perineum, burning around them.

Skin - Freckles become numerous. **Eczema with gastric derangements**. Pimples, vesicles and pustules, pimples and vesicles as from stings of insects. Pustules here and there with brown scurf. Eruptions worse heat of stove, etc. Sensitive to cold bathing. Thick, hard, honey-colored scabs. **Urticaria**. Urticaria, white with red areola, itching fearfully. Itching when warm in bed. Itching of skin, feels sore when scratched. Skin diseases during pregnancy. Measles-like eruptions. Dry gangrene. Scaly, pustular eruption with burning and itching, worse at night. Callosities from slight pressure, ulcers become fistulous. Deep, spongy ulcers. Smooth warts. **Warts** (Thuj., Sabin., Caust.).

Sleep - Great sleepiness during day. Deep unrefreshing sleep, can hardly rise in morning, so tired. Sleepy and weary. **Drowsiness in elderly people**. Strong inclination to sleep during the day, chiefly in the evening or morning. Waking with fright during the night. Frequent waking from itching here and there. Sleeplessness with shivering over left side. Dreams, anxious, horrible, voluptuous or painful. Dreams full of quarreling. Anxious dreams, as if he were to be hurt. Horrible dreams, about mutilation of men. Coma with, delirium.

Stomach - Digestion disordered easily. Heartburn, nausea, vomiting. Burning, spasmodic pains, driving to despair. **Gastric derangements, with tongue coated thickly white, with different complaints**. After nursing, the child vomits its milk in curds and refuses to nurse afterwards and is very cross. Great desire to eat, but no strength to do it. **Eructation tasting of the ingesta**. Gastrointestinal complaints from bread and pastry, acids, sour wine, pork, cold bathing, overheating, hot weather. **Constant belching**. Gouty moves to stomach and intestines. **Indigestion, chronic**. Sweetish water brash. **Bloating after eating**. Sensation of emptiness in stomach. Stomach seems to be always overloaded. Stomach is painful to pressure. Nausea with diarrhea. Loathing nausea, and desire to vomit. Vomiting, worse eating or drinking, without nausea or relief. Nausea ceases, vomiting continues. Vomiting, fearful with convulsions, which nothing can stop. Vomiting of slimy mucus and bile.

Stool - Stools composed entirely of mucus. Hard and loose stools, with nausea. Stools watery, containing undigested food. Diarrhea after acids, sour wine, baths, overeating. **Diarrhea alternates with constipation**, especially in elderly people. Diarrhea, watery with cutting pains. Urgent inclination to go to stool. Stools composed entirely of mucus, pappy. Constant secretion of yellowish-white mucus by the anus. Difficult evacuation of hard stools, the feces are too large in size. **Stools of hard lumps mixed with watery discharge**. Diarrhea during summer after nursing.

Teeth - Gums detach from teeth, bleed easily. Grinding of teeth, when sleeping in sitting position. Pains in hollow teeth. Toothache worse touching tooth with tongue, better walking in open air. Teeth not so sore it seems one can hardly bear the dental operation. Toothache in hollow teeth, worse night, touching tooth with tongue causes pain as if nerve were torn. Sharp pains in tooth when inspiring air. Toothache before menses.

Temperature - Chill predominating during day. Violent chill, shaking, toward noon, with thirst. Chill over back, feet cold as ice, with sweat on rest of body. Chill at every motion, with cough. Chill after vomiting. Chill before menses. Chilly even in warm room. Disturbances of stomach during apyrexia in intermittent fevers. Intermittent fever with disgust, nausea, vomiting, belchings, coated tongue, diarrhea. Hot sweat. Great heat from little exercise, especially in the sun. Heat and thirst after sweat. Fever at night. Body hot, limbs cold, during cough. Fever with desire to sleep and want of thirst.

Throat - Much thick yellowish mucus from posterior sinuses. Hawking in open air. Great heat in the throat while moving in the open air. Sensation as if a foreign body had lodged with constant desire to swallow.

Vertigo - Confusion of head, as after long labor in the cold. A feeling of intoxication.

Vertigo with nausea and nosebleed. Vertigo with nausea and confused feeling, as if drunk. Vertigo during headache. Vertigo from deranged stomach.

COMMENTS - Restlessness and jerking of muscles. Slight noises startle. Nosebleed with vertigo after headache after rush of blood to head. Gastric and remittent fevers and fevers of children with great thirst and the characteristic white tongue. The fever runs higher at night. Tendency to take cold about head. ., Scrofulous ophthalmia, canthi especially affected (Graph, the whole margin).

Otorrhea. Moist eruption behind ears (Graph.). Itching of the scalp and hair falling out.

Fungus infections or deformity of the nails, calluses from pressure, corns, painful bunions, painful warts and

horny warts (excrescences). Good for warts that grow next to the nail and bleed and irritate. Thickened skin, spots on the nails, nails that split, "crippled nails." Arthritis and deformative arthritis of the fingers and toes. Constipation and other intestinal disorders. Severe gastric flu with a white tongue. Chronic indigestion. Diarrhea which alternates with constipation, often found in old people, "stomach weak, digestion easily disturbed in old people." Anal fissures (Graph., Sil.). Continuously oozing hemorrhoids, staining linen. General symptoms are worse heat of sun, sun gives headache, worse bathing or change of weather. Intoxicated easily from wine (Zinc., Chin., Caps.), face flushes after a couple sips. May cough if they look at a fire or will be aggravated by radiant heat. Worse from heat, but great sensitiveness to cold. Suitable to the hydrogenoid constitutions. Tendency toward obesity.

A student, 17, had twenty-three warts on right hand and thirty-four warts on the left hand. Mainly on backs and fingers, but a few on interior surface of fingers. In addition, inflammation of eyelids. Ant-c. 200x cured her of warts in 7 weeks.

Dr. M. Jousset has recorded a severe case of chorea which resisted all the usual remedies and was cured with Ant-c. prescribed on the digestive symptoms, particularly the characteristic white tongue. Ant-c. corresponds in a sense to the swine, as Ars. does to horses and Puls. to sheep.

RELATIONS - Antidote to: Stings of insects. **Antidoted by:** Calc., Hep., Merc. Bry. **Compare:** (1) Nat-m., Ant-t., Antimonium Chlo-ridum. (2) Kermes mineral - Stibiat sulph. rub. - Bronchitis. (3) Also Puls, Ip., Sulph. (4) Aethi-a., Am-m., Apis, Bry., Graph., Ran-b., Rhus-t., Vario., Cham., Chin, and Hep., Rhus-t, Sep. and Spig. (5) Sulph. - Averse to be washed, digestive condition, loaded tongue and worse from warmth in summer complaints. (6) Stram. - averse to be looked at. **Complementary:** Squil., Sulph. Follows well: Puls., Ip. Followed by: Puls., Merc., Sulph.

***ANTIMONIUM IODATUM

(Antimony Teriodide)

PHARMACY - ant-i. Antimortium iodatum. Antimony teriodide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthma. Bronchitis. Colds. Coughs. Pneumonia. Uterus, hyperplasia.

HOMEOPATHIC - Recommended by Hale in cases of uterine hyperplasia, also in cases of humid asthma, bronchitis and other pulmonary disorders. Inability to raise the sputum, especially in the aged and weak patients. Pneumonia. Stage of resolution of pneumonia slow and delayed.

In sub-acute and chronic colds in chest which have extended downwards from head and into the bronchial tubes in the form of hard, croupy cough with a decided wheeze.

Indicated by frequent spells of coughing with expectoration of frothy, white or thick ;i yellowish mucus. Loss of appetite and strength. Moderate febrile action. Coated tongue. Yellowish discoloration of skin and conjunctive, sweaty. Dull and drowsy.

REFERENCES - Boericke. Clarke.

***ANTIMONIUM MURIATICUM (Antimony Chloride)

PHARMACY - ant-m. Antimonium muriaticum. Antimony chloride. Butter of antimony. Antimonium chloridum. Stibium muriaticum. Triturations. **Historical dose:** Trituration and all potencies.

CLINICAL - Abrasions. Cancer. Lip cancer. Nausea. Prostration. Vomiting.

HOMEOPATHIC - Ant-m. is unproved. Poisoning symptoms show a stupor insensibility, collapse and cold, clammy surface. Inactive

pupils, sunken, lusterless eyes. Nausea and vomiting, burning pains in throat and stomach, frequent abortive efforts to defecate.

Ant-m. has been used in cases **of cancer of the lower lip**. Mucus membranes destroyed. The tissues and peritoneum covered with flocculent matter easily scraped off, they are soft and readily torn. Mouth to jejunum becomes black. Abrasions. Great prostration of strength.

MIND - Stupor, but from which he could be aroused by questions. Stupor with cold feet. Insensibility.

RELATIONS - Compare: (1) Other antimony salts. (2) Acids, Ars., Carb-v. (3) Con. - cancer of lower lip and ineffectual urging to stool.

REFERENCES - Boericke. Clarke. Grim-

***ANTIMONIUM OXYDATUM

(Antimonious Oxide)

PHARMACY-ant-o. Antimonium oxydatum.

Antimonious oxide. Antimony sesquioxide. Fumes from antimony works. Trituration. **Historical dose:** All potencies.

CLINICAL-Bloody urine. Cough. Diarrhea. Dyspnea. Headache. Impotence. Intermittent, fever.

HOMEOPATHIC - Great relaxation of the whole organism.

Abdomen - Distended by incarcerated gases.

Back - Sharp pains in the sacro-lumbar region.

Bladder - Pains and urging at neck of bladder, and burning in the urethra during urination. Discharge of a few drops of mucus from the urethra. Gonorrhealike discharge from the urethra. Urine of a deep orange-yellow color, almost red. Deep-red and bloody urine, causing burning in the urethra, from which exuded a whitish mucus after cessation of the bloody urine. |

Chest - Very great constriction of the chest, with stitches. Sharp stitches through the chest, towards the shoulders and back. Violent stitches in chest, with dry cough.

Head - Lightning-like stitches through the . head backward, which suddenly disappear, while the headache in the forehead - > remains. Slight headache increases to an r.p intolerable degree.

Lungs - Cough violent, shattering, dry, with stitches in chest. Cough dry, painful, it. finally ends in a difficult expectoration of tenacious mucus. Respiration difficult, with mucus and sibilant rales over the chest.

Male - Penis flaccid. Complete impotence, no ejaculation of semen, and even no erections. Atrophy of testicles and penis. Pains in the testicles.

Mouth - Tongue coated white.

Rectum - Diarrhea, with griping pains in abdomen. Stools troublesome, frequent, consisting of food evacuated soon after eating.

Skin - Pustular eruption on lower abdomen, neck, body. Eruption thickest on genitals, in the bends of the limbs, on nates, and especially on thighs and scrotum. Pustular elevations, like pocks, on the scrotum.

Temperature - Very profuse and debilitating sweats during sleep. Very tormenting, pouring sweat, every time after sleeping, followed by great exhaustion. Complaints assume the form of intermittent fever.

REFERENCES - Murphy.

***ANTIMONIUM SULPHURATUM AURATUM

(Gold Sulphuret of Antimony)

PHARMACY - ant-s. Antimonium sulphuratum auratum. Gold sulphuret of antimony. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne. Amaurosis. **Bronchial, catarrh. Catarrh.** Constipation. Corneal spots. Diarrhea. Indigestion. Iris, protruding. Itching. Lung, congestion. **Nasal, catarrh. Nosebleed.** Pneumonia.

HOMEOPATHIC - In its provings, the most notable effects were produced in the eye and chest As with the other Antinomies, there is disordered digestion, gsty mouth and taste in morning.

Chronic nasal and bronchial catarrh. Increase of tough mucus in larynx and bronchi, respiration difficult. Dry, hard cough with passive congestion of upper lobe of left lung. Nosebleed on washing. Itching on hands and feet.

Burning in head with eye complaints. Amaurosis (commencing). Spots on cornea and hypopion. Acne.

Abdomen - Pressure, tension and fullness in abdomen. Umbilical region sensitive. Violent colic and rumbling around navel.

Eyes - Amaurosis, commencing. Spots on cornea. Iris protruding through cornea.

Face -Pustular acne.

Food - Loss of appetite, almost a loathing of food.

Head - P^{ress}ive pains. Burning pain in head, with eye complaints. Reddish swelling behind right ear, leaving a redness and scurfiness.

Kidneys - Urine increased, dark red.

Limbs - Itching on hands and feet. Arms heavy in morning. Boring and tearing pain in arms and hand-joints. Swelling of fingers..

Lungs - Accumulation of tough mucus in bronchi and larynx. Tickling in larynx./n- **creasedmucus** with fullness in bronchials. Respiration difficult, pressure in bronchi with constriction. Dry, hard cough, no expectoration.

Congestion of upper lobe of left lung. Winter coughs, patient is sore all over. Pneumonia, when hepatization occurred and resolution failed to take place. Increased mucus sputum, mixed with blood of a sweetish taste. Passive congestion of upper lobe left lung with hard, dry cough.

Male - Pustular eruption on scrotum **with** much itching. .

Mouth - Metallic taste. Pasty mouth **and** taste in morning.

Nose - **Nosebleed on washing the face.** Increased secretion in nose and throat. Loss of smell. |

Rectum - Passage of much flatus with sudden urging, followed by a solid stool at first, then bright yellow and pasty stool.

Constipation. Feces hard and passed with difficulty.

Skin - Acne, pustular variety. Itching on hands and feet.

Sleep - Deep sleep. Wakes after midnight with dull headache. Wakes with restlessness and sexual desire. Awoke suddenly with heavy, confused head, pressure in stomach, difficult breathing. Sleep dreamy.

Stomach - Pressure and fullness in stomach and abdomen, umbilical region sensitive.

Stool - Passage of much flatus with sudden urging, followed by a stool, solid at first then bright yellow and pasty, afterwards violent colic and rumbling around navel. Constipation, feces hard and passed with difficulty.

Throat - Increased secretion in nose and throat. Rough and scrappy feeling. Metallic styptic taste. Burning or heat in fauces. Mucus from throat becomes offensive to smell. Pressure in throat as if a plug stuck in it. Scratching, rough feeling in throat in morning. Tickling in larynx. Accumulation of tough mucus in larynx and bronchi.

RELATIONS - Compare: (1) Other Antimonies. (2) Aur. - chest, Ars., Ferr., Merc-sulph., Sulph. (3) Am-c. - nosebleed after washing.

REFERENCES - Boericke. Clarke.

***ANTIMONIUM TARTARICUM

(Tartar Emetic)

PHARMACY - ant-t. Antimonium tartaricum. Tartaremetic. Tartrate of Antimony and potash. Trituration and solutions. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. Alcoholism. Aphthae. **Asphyxia**. Asthma. Bilharziasis. Bilious disorders. **Bronchitis**. Catarrh. Chickenpox. **Chills**. Cholera. Cholera morbus. Colic. **Coughs**. Croup. Delirium. Delirium, Tremens. Dyspepsia. **Emphysema**. Eruptions. Eyes, inflamed. **Gaspings**. Gastric disorders. Headache. Hematuria. Hydrocephalus. Impetigo. Intermittent fever. Laryngitis. Leucorrhea. **Lumbago. Lungs, disorders**. Lungs, paralysis. Muscle pain. Nausea. Parkinson's disease. Plica polonica. **Pneumonia**. Psoriasis. **Pustules**. Rheumatism. Ringworm. Smallpox.

Stiff-neck. Sycosis. Synovitis. Taste, altered. Thirst. Tongue, coated. Tremors. Vomiting. Warts. Weakness. Whooping cough.

HOMEOPATHIC - Tartar emetic of the Alchemists. Ant-t. resembles closely Ant-c. and the other Antimonies in its action, though the modalities differ. Ant-t. was the favorite emetic historically, and consequently it is one of our best remedies in states of nausea. The nausea is as intense as that of Ip., but less persistent and is better by vomiting.

A correspondent related the case of an apprentice who had been employed for a week making up "**cough-balls**" and diuretic balls for horses, both containing powdered antimony. He had been cautioned not to inhale the powder, but his employer believes he did. At the end of the week he was seized with an illness due, his employer thinks and no doubt correctly, to the antimony.

Affects the mucus membranes especially of the bronchials and lungs. Ant-t. has many symptoms in common with Ant-c., but also many peculiar to itself. Cyanosis, depression of vital power.

Rattling of mucus with little expectoration. Great accumulation of mucus with coarse rattling, impeded respiration and labored heart action, defective oxygenation in the circulation of blood.

Complaints arising in digestive sphere. Gastric disorders of alcoholics and gouty subjects. **Cholera morbus**. Patient becomes **increasingly weak, sweats, become drowsy and relaxed with lack of reaction**. Prostrated in mind and body. Sensation of coldness in blood vessels. **Bilharziasis**. Ant-t. acts indirectly on the parasites by stimulating the oxidizing action of the protective substance. Lumbago. **Chills and contractures** with pain in muscles.

Chronic trembling of head and hands, as in Parkinson's disease. Trembling of whole body, great prostration and faintness. Warts on glans penis. Convulsive twitching. Convulsions when eruptions fail to appear. Ant-t. is homeopathic to dysuria, strangury, hematuria, albuminuria, catarrh of bladder and urethra, burning in rectum, bloody mucus stools, etc.

Nursing infants let go the nipple and cry out as if out of breath. Child continuously wishes to be carried erect, unwilling to be looked at or touched. Children have convulsions if attention is thrust upon them. Clings to attendants.

MIND - Great despondency. Fear of being alone. Fretfulness, whining and crying, before the attack of sickness. Bad mood. Frightened, at trifles. Muttering, delirium and stupor. Stupid on awakening.

Melancholic, complains of numerous sufferings. Despairs of his recovery. Anxious, despairing. Anxiety during nausea. Peevish, whining and moaning. Child will not be touched without whining. **Can't bear to be looked**

at. Child clings to those around, calls for help in a hoarse voice, with cough. Restlessness in children, better being carried about. Dreads being left alone, lest he should be very nervous. Contradiction between mind and will. Pitiful whining before and during attacks. Hopeless and despairing when awake. Clings to attendants. Apathy or easily annoyed, wants to be let^{al} alone. Furious delirium. Talking to himself. Boldness. Desire to bite. Wild gaiety, •"towards evening. Consciousness wanes on closing eyes.

Abdomen - Burning pain in abdomen. Feels •" as if full of stones. Painless rumbling. Flat- -(H ulence, with rumbling in bowels. **Violent -^ colic with drowsiness.** Colic, as if bowels would be cut to pieces. Spasmodic cough, much flatus. Sharp, cutting colic before n« stool. Colic around umbilicus, better after stool. Pressure in abdomen, especially on i stooping forward. Pain in the groins and ht' cold creeps before menses.

Back - Lumbago. **Violent pain in sacrolumbar region.** Slightest effort to move may cause retching and cold, clammy sweat. Worse lifting. Sensation as if **a heavy load was hanging on end of coccyx**, dragging downwards all time. Twitching of muscles, limbs tremulous. Vertebrae seem to rub against each other. Cramp in gi muscles of neck. Burning in back.

Causations - Effects df anger (cough) or vexation. Ill effects of vaccination when Thuj. fails and Sil. is not indicated.

Chest - Rattling of mucus in the chest when breathing. Velvety feeling in chest. Burning sensation in chest, which ascends to throat. Paralysis of the lungs. Anxious oppression of the chest, with a sensation of heat, which ascends to the heart. Rheumatic pain in the left side of the chest. Miliary eruption.

Constitutions - Suited to old people and children. Gouty subjects and alcoholics with gastric disorders. Hydrogenoid type constitutions. Torpid and phlegmatic constitutions. Worn-out constitutions.

Coughs - Gasping for air, before every attack of cough. **Coarse, loose, rattling cough.** Cough followed by vomiting or sleep worse anger. **Lungs seems full of mucus yet less and less is raised.** Must sit up to breathe or cough. Coughs and yawns alternately. **Coughing and gasping.** Cough excited by eating with pain in chest and larynx. Cough and dyspnea better lying on right side (opposite Bad.). Child bends backwards with cough.

Ears - Roaring. Fluttering before left ear, as from a large bird. Warmth of left ear. Tearing pain. Twitching in right ear.

Eyes - Eyes sunken, surrounded by dark circles. Eyes bloodshot. Weak, tired eyes. Eyeballs as if bruised. Dim, swimming eyes. Burning and smarting pain. Tearing pain in eyes. Collection of mucus in margins of lids (in pneumonia). Conjunctivitis with much lachrymation. Pustular eruptions on the conjunctiva. Lachrymation when yawning. Flickering, sparks before the eyes. Eyes staring. One eye closed. Strabismus. Rheumatic ophthalmia.

Face - Anxious, despairing expression. Face pale and sunken. Pale, bluish or twitching with cough. **Pale face, covered with cold sweat.** Sickly, sunken. Burning heat of face. Burning pain as from hot coal, on right side of chin. **Incessant quivering of chin and lower jaw** (Gel^.). Tearing pains. Pustules, leaving ugly blue-red scars.

Female - Menses of watery blood. Menses too early, weak and only for two days. Leucorrhea of watery blood, worse sitting. Severe bearing down pain in vagina.

Female - Chronic metritis with feeling of weight tugging at coccyx. Eruption of çb- pimples on the genital organs. Pustules "" on external genitals. Itching of pudenda.

Puerperal convulsions, better after the child is born.

Food - Appetite diminished. Loss of appetite, anorexia. Disgust for food during pregnancy. Food seems tasteless, tobacco has no taste. Aversion to milk. Aversion to all kind of nourishment. **Desires apples, í fruits and acids**, which disagree. Desire for cooling things after vomiting. Great disgust for whiskey. Worse sour things St* and milk. Thirstlessness. **Thirst fir cold water, little and often.** Difficult swallow- V ing of liquids.

Head - Confusion in head in morning, b. Numbness of head, with stupefaction -" and drowsiness. Band-like feeling over f' forehead. Headache as from a band compressing (Nit-ac.). Hydrocephalus.

Trembling of head, wflile coughing. As of a lump in forehead. Head better in open air, washing with cold water and motion. Head bent back. Headache with vomiting.

Wave-like increase and decrease of pain H ' in forehead. Head hot and sweaty. Scalp .sa - very sensitive. Child will not be touched S' without whining.

i **Heart** - Great precordial anxiety with vom- i iting of mucus and bile. Palpitation with H uncomfortable hot feeling. Palpitations -e with loose stools. Paralytic depression tv of heart. Weak quick pulse. Sensation of w . coldness in blood vessels. Sensation as if ,1» heart were strained. Rheumatic dilatation of heart. Pulse rapid, weak, trembling. Pulse full and slow, or contracted and s. hardly perceptible.

Kidneys - Sharp pains in region of kidneys !• on moving arms. Burning in urethra during n< and after urinating.

Last drops bloody with V ■ pain in bladder. Urging increased. Catarrh of bladder and urethra. Stricture. Involuntary emission of urine. Red urine, which forms blood-red filaments after standing. Deep-brown, acrid, turbid urine.

Limbs - Acute 'articular rheumatism. Rheumatic and bruised pains. Twitching of muscles. Trembling of the hands. Fin

gertips icy cold or dead, numb, dry and hard. Restless arms. Feet go to sleep on sitting. Dropsy of synovial membranes. ' * Dropsy of the legs and knee joint (left).

Calves as if sore. Tension in hamstring when walking. Synovitis. Joints swollen. Jerking up of limbs during sleep with loose stools. Weakness of all limbs. Constant inclination to stretch.

Liver - Liver region sensitive to touch.

Lungs - **Asphyxia from drowning.** Asphyxia neonatorum, child breathless and pale when born. Gasping inspirations, v expirations long and slow. **Edema and impending paralysis of lungs.** Unequal breathing, abdominal breathing. **Suffoca- , tive shortness of breath,** before cough or alternating with cough. Hoarseness. **Great rattling of mucus, but very little is expectorated.** "Death rattle." Rapid, short, difficult breathing. Feels as if he **would suffocate, must sit up. Emphysema of the aged.** Capillary bronchitis, pneumonia, pleuro-pneumonia. Bronchitis. Bronchial tubes overloaded with mucus. **Severe pneumonia, last stages.** Gastric or bilious pneumonia. Complete hepatization. **Expectoration copious, thick, white.** Velvety feeling in chest. Dyspnea relieved by eructation. As if a leaflet seems to close the trachea. **Lungs seems full of mucus yet less and less is raised.** Atelectasis. Hydrothorax. Percussion sound tympanitic.

Male - Pain in testicles after checked gonorrhea. Orchitis. Warts on glans penis. Excitation of sexual system. Pustules on genitals-and thighs. Syphilis.

Modalities - Better cold open air. Better from sitting erect. Better lying on right side. Better vomiting. Better belching and expectoration. Better motion. **Worse from warmth.** Worse warmroom. Worse wraps. Worse warm weather. Worse overheating. Worse cold dampness. Worse from anger. Worse lying, sitting down. Worse rising from a seat. Worse motion. Worse morning. Worse sour things and milk.

Mouth - Aphthae around mouth. Itching vesicles on lips. Upper lip drawn up. Lips dry and scurfy, or cracked. **Spits all the time.** Copious accumulation of saliva in the mouth. Copious salivation during *' pregnancy, nausea. Mouth and lips swollen and excoriated. Mouth remains open ⁱⁱⁱ after yawning. Bitter, flat taste. Mouth ¹⁶ so sore, can scarcely swallow, morning ^{if} after rising.

Nose - Nostrils widely dilated. **Alae nasi flapping.** Stoppage of nose alternating ¹ ■ ' with fluent coryza. Violent fluent coryza with frequent sneezing. Ulcerated nostrils. Loss of smell and of taste. Uncontrollable nosebleed with spongy gum^ Nosebleed followed by fluent coryza with sneezing. Nose dry and pointed.

Perspiration - **Copious cold clammy ' ■ sweat** with great faintness. Affected parts sweat most profusely. Sticky sweat. Very copious sweat without relief. Sweats with influenza.

Rectum - Sharp pain in rectum. Burning at anus after loose stool. Constipation, alternating with diarrhea. Desire for stool ineffectual though bowpls- seem full and pressing. Diarrhea and vomiting. Diarrhea in pneumonia, smallpox, and other erup- >' tive diseases, especially if the eruption has been suppressed. Involuntary evacuations. Palpitations during stools. Cholera morbus. Cholera when vomiting is copious and there is coldness, and threadlike or trembling pulse.

Sensations - Sensation of weight or heaviness in many parts, head, occiput, coccyx, limbs. Sensation of coldness in blood vessels.

Skin - Delay ed or receding eruptions. Eruption fails to appear and convulsions set in. Vesicular eruptions over whole body. Itching in the skin. Itching pimples, and miliary eruption. Itching around ulcers. **Pustular eruption,** leaving a bluish-red mark. Rash mixed with small vesicles and pustules. Rash after vaccination. Smallpox. Thick eruptions like pocks. Eruptions like scabies. Barber's itch. Chickenpox. Smallpox. Impetigo., Blue eruptions. Warts.

Sleep - Sleepiness during sweat. Irresistible inclination to sleep with nearly all complaints. **Great drowsiness with all complaints.** Drowsiness from warmth.

Yawning with many complaints. Electriclike shocks on falling asleep. Cries during sleep with fixed eyes and trembling. Lies on back with left hand passed under head. Trembling during sleep. Heavy, anxious dreams. Dreams, clearly remembered in morning on waking.

Stomach - Great sensitivity' of stomach. Throbbing and pressure. Belchings like bad eggs. Eructations empty, acid, bitter, salty. Violent hiccough. Dryness of esophagus. Cramps in stomach. Sinking at stomach. Fullness and heaviness. Nausea produces fear with pressure in precordial region. **Nausea, retching and vomiting.** Nausea with deathly faintness and prostration.. **Nausea comes in waves.** Nausea with weakness and cold sweat. Vomiting forcible, then exhaustion and sleep. **Frequent vomiting of bitter, sour substances.** Violent retching. Vomits with great effort. Vomiting better lying on right side.

Stool - Mucus stools, grass green. Bloody feces. Diarrhea in eruptive diseases. Watery, slimy, bloody diarrhea. Diarrhea with vomiting. Diarrhea with flatulence. Diarrhea of alcoholics. Very offensive diarrheic stools. Stools yellowish-brown. Stools thin, bilious. Stools with heat at anus. Stools slimy, like yeast. Stools of cadaverous smell.

Teeth - Violent toothache in morning. Rheumatic pain of intermittent type. Gums bleed. Gums spongy, with nosebleed. Teeth covered with mucus. Dentition with catarrhal hyperemia.

Temperature - Coldness, trembling and chilliness. Cold creeping chills before menses. Chills as if cold water was poured over one. Chills from within outward. Chills with trembling, worse going into open air. Chill alternating with heat, during day. Intense heat. Intermittent fever with fatigue. Burning sensation. Heat coming from heart.

Throat - Aphonia. Voice weak and changed in evening. Hoarseness in morning, worse talking. Rattling of mucus when coughing or breathing. Much mucus in throat with short breathing. Swallowing painful or impossible.

Throat - Roughness in throat with sensation as if a small leaf obstructed trachea on hawking. Throat, mouth and tongue as if tense. Sharp pain in throat. Burning in fauces. Rapid swelling of tonsils and cervical glands. Child grasps at larynx during cough. Larynx painful to touch.

Tongue - Difficult, even painful, to move tongue. Tongue flaccid, dry. Imprints of teeth on border of the tongue. Tongue red, dry in middle, red in streaks. **Coated, pasty, thick white with red edges.** Tongue moist, clean, or loaded with a brown coating.

Tongue moist and yellow in middle.

Vertigo - Dizziness with cough. Vertigo with dullness and confusion. Vertigo alternates with drowsiness. Vertigo from lifting head from pillow. Fits of vertigo with sparking before the eyes. Vertigo must lie down. Vertigo with dimness of vision and pressing headache. Vertigo with violent chills.

COMMENTS - Tiering said that Antimonium Tartaricum was the invention of the Alchemists. Tartar emetic. It has been used as a poison, similar to Arsenic, usually someone would be dead in 12 to 24 hours. It has a very strong affinity for the lungs and stimulating the secretions of the mucus membranes.

Chest disorders with a great accumulation of mucus with coarse rattling and inability to raise it. "Lies with head back." "A child coughs when angry." Heath cured a case of whooping cough in a child who was very fretful before the cough. The mother said that if the child got angry she immediately had a fit of coughing. "Cough at 4 a.m." is another indication.

Last stages of pneumonia, severe rattling in the lungs, and white, thick mucus. Asthma with white, thick mucus, wet asthma (Puls.). Chronic bronchitis in the elderly with a rattling cough and white, thick mucus that's hard to expectorate. Drowning victims, pulmonary edema, Infantile pneumonia.

For children who get colds often and it goes to the chest with a great accumulation of mucus. Sometimes indicated after gas poisonings, if the gas caused irritation to the mucus membranes and mucus comes

up (Carb-v., Bry., Ant-t.). For emphysema when caused by an irritant causing loss of lung space (Sil.).

Respiratory distress due to constriction and mucus in the lungs. There is a great accumulation of mucus in the lungs. The sputum is thick and ropy but it is white and more sticky like glue. No expulsive power. Noisy breathing with severe wet cough. Weakness of the bronchioles where they can't expectorate, can be used chronically. The nostrils flare because they can't breathe. Suffocating, choking because of the mucus.

Gastric and bilious complaints. Constant nausea. Nausea felt in chest (Puls.). Nash found Ant-t. the nearest thing to a specific in cholera morbus, the indications being "nausea, vomiting, loose stools, prostration, cold sweat, stupor or drowsiness."

Deathly nausea (Ip., Puls.). Difficulty vomiting, just like expectoration. They strain, a lack of explosive power. Vomits whatever is eaten. Vomits thick, white, ropy mucus, may have blood or slime in it. Also produces ulcers, ulceration of the mucus membranes. Ulcers that bleed and then they vomit blood.

The tongue has a thick, white, pasty coat with red papillae showing through. Intense nausea and vomiting with great effort with perspiration on forehead. Fullness and sensation of stones in abdomen, especially when sitting bent forward. Anxiety felt in the stomach, apprehension in the stomach. Sensations of a weight or heaviness in the abdomen or various parts of the body. The abdomen is distended, severe cramps or cutting pains.

There is heat about heart and warmth rising up from it. Coldness in the blood vessels. Generally cold hands and feet. The face is pale or cyanotic and the breathing stertorous. Severe weakness from lack of oxygen, tired from coughing. Oppression of the chest.

Great drowsiness or sleepiness with cough and congestion in the lungs (Op., more of a stupor). Can palliate or bring them back if it's possible.

Drowning victims and newborns who are not breathing, or for any severe respiratory problems going into respiratory failure (Carb-v.). Coma. -

Arthritis in the smaller joints. Sensation of weight or heaviness in many parts, head, occiput, coccyx, limbs. Pulsations in all the blood vessels. Chronic trembling of head and hands (as in Parkinson's disease). "Sycotic" skin. Clarke verified a symptom given in Hering, "warts at the back of the glans penis." Leprosy, chickenpox, smallpox and impetigo, worse after smallpox vaccination. It has been used instead of vaccines for preventive purposes and a prophylactic power has been claimed for it (Vario.). The terrible backache of smallpox is paralleled by the back-pains of Ant-t., which Clarke found to correspond to more cases of lumbago than any other remedy.

Worse by warmth, but not the excessive sensitiveness to heat and sun of Ant-c. and some of the rheumatic symptoms are better by warmth. Cough worse from warm drink, lying in bed, especially becoming warm there. Suffocates in a warm room, want fresh air (Puls.). Greatly aggravated by the sun. Cough is worse after anger and worse after eating.

Thirstlessness, lost any desire for fluids (Puls., Ip.). May vomit water if they try to drink it. As if they have enough fluid already (Apis.). Crave apples- and acid fruits, but may be aggravated by sour food or wine, causing severe diarrhea. Great aversion to milk or are aggravated by milk. Loathing of food.

Peevishness, whining and crying (Cham.). Restless, apprehension and agitation. Dullness and bewilderment of head as if benumbed. Irritable, don't want to be looked at or talked to or touched. The whole body feels tender. Children may want to be carried and cling to their mother or may scream on being touched, keynote that they do not want to be bothered. Coughing fits at 4 a.m.

The child looks pale, sunken eyes and have dark rings around the eyes and they have periodic cold sweats. The child cries and may jerk during sleep.

Difficulty nursing and breathing at the same time. Better when held upright and hit on back to break up the mucus.

Children are very anxious and timid, especially in the evening, as if they are anticipating the night because it is so bad for them. They lay down and get congestion and coughing fits. They have apprehension about the future, but it's more the upcoming night. Elderly may feel despair of recovery.

Etiology can be cold, damp weather that seems to bring out the mucus.

RELATIONS - Antidoted by: Asaf., Chin., Cocc., Con. (pustules on genitals), Ip., Laur., Opium in large doses is the best antidote in poisoning, Puls., Sep. **Antidotes:** Bar-c., Bry. (dyspepsia), Camph., Caust. (dyspepsia), Puls., Sepia. Ant-t. differs from Merc, in producing a purely local action on the mouth similar to its action on the skin. The action of Merc, on the mouth is indirect. **Compare:** (1) Aeon. - croup, Aeth. and Ip. - expression of nausea, Am-c. (2) Ars. - asthma, heart symptoms, gastric catarrh, Bry. - pneumonia, worse left, Ant-t. worse right has nostrils dilated. (3) Verat. - colic, vomiting, coldness, craving for acids. Ant-t. has more jerks, drowsiness, urging to urinate, Verat. more cold sweat and fainting. (4) Op. - cough with drowsiness and yawning, Sang. - pneumonia, face livid. (5) Ip. - Ant-t has more drowsiness and tendency of lungs to collapse. (6) Thuj. - effects of vaccination when Thuj. fails and Sil. is not indicated. Ant-t. develops smallpox pustule, Thuj. dries it up. **Compatible:** Phos. in hydrocephalus, worn-out constitutions, laryngitis, pneumonia. **Follows well:** Sil. in dyspnea from foreign substances in larynx, Puls, (nausea in chest gonorrheal suppressions), Ter. (symptoms from damp cellars), Variolinum.

REFERENCES - Boericke. Clarke. Murphy.

***ANTIPYRINUM ¹

(Phenazone)

PHARMACY - antip. Antipyrinum. Phenazone. Antipyrine. Phenyl-dimethyl-pyrazolon. A product of coal tar through Toulon. Solution and trituration. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Bedwetting. Cheyne-stokes, breathing. Dysmenorrhea. Eczema. Edema. Epilepsy. Erythema. German measles. **Hallucinations. Headache.** Heart paralysis. **Lachrymation.** Menses, suppressed. Mind, deranged. Nausea. Nosebleed. Pemphigus. Scarlatina. Throat, sore-. **Tinnitus.** Toothache. **Urticaria.** Vomiting.

HOMEOPATHIC - Antipyrine is known from the poisonous effects it produced in old-school practice. Many fatal cases were recorded and there can be little doubt that its injudicious use determined a fatal issue in many cases that have remained unrecorded.

Antipyrine's action is very like that of Acetan, in producing collapse, but it has more effect on the skin, causing scarlat rash and edema. It is one of the drugs that induce leucocytosis, similar to ergotine, salicylates and tuberculin.

Antipyrine acts especially on the vasomotor centers, causing dilation of the capillaries of the skin and

circumscribed patches of hyperemia and swelling. In large doses, it causes profuse perspiration, dizziness, cyanosis, somnolence, albumen and blood in urine. Acute erythema multiform.

MIND - Fear of going insane. **Hallucinations of sight and hearing.** Nervous anxiety, **Ears** - Pains and buzzing. **Tinnitus.**

Eyes - Puffiness of lids. Conjunctiva red and edematous with **lachrymation.** Red spots (Apis).

Face - Edema and puffiness. Red and swollen.

Female - Itching and burning in vagina. Dysmenorrhea. Menses suppressed. Watery leucorrhea.

Head - Throbbing headache. **Headache under ears with earache. Sensation of constriction.** Flashes of heat.

Heart - Faintness with sensation of stoppage of heart. Throbbing throughout the body. Rapid, weak, irregular pulse.

Kidneys - Diminished. Penis black.

Lungs - Cheyne-Stokes respiration. Aphonia. Oppression and dyspnea.

Mouth - Swelling of lips, tongue Burning of mouth and gums. Ulceration of lips and tongue, vesicles and bullae. Small lump in cheek. Bloody saliva. Toothache along lower jaw.

bierves-Generalprostration. Epileptiform seizures. Contractures. Trembling and cramps. Crawling and numbness. _

Nose - Fluent coryza. Nasal mucus membrane swollen. Dull pains in frontal sinus.

Skin - **Erythema**, eczema, pemphigus. **Intense itching, urticaria**, appearing and disappearing suddenly with internal coldness. Angioneurotic edema. Dark blotches on skin of penis, sometimes with edema.

Stomach - Nausea and vomiting, burning and pain.

Throat - Painful when swallowing. Expectoration of fetid pus. Abscess, white false membrane. Sensation of burning.

COMMENTS - A young female patient who took Antipyrine on her own account whenever she thought she might be going to have a headache, developed intense dysmenorrhea (to which she was not subject) with depression.

This was only removed after she had discontinued the drug. Later, she took Phenacetin with result that an eruption of erythema appeared on both cheeks, which peeled after a few days and recurred persistently.

It would seem that the drug is homeopathic to some forms of neuralgia. One patient had Cheyne-Stokes respiration. Erythema appears first on face and arms, last on legs.

Hansen mentioned its use in bedwetting and nosebleed. Better from hot drinks.

RELATIONS - **Antidotad by:** Bell. The symptoms are much intensified in persons addicted to coffee in excess.

Compare: (1) Anilinum - skin symptoms. (2) Aeon. - numbness, rapidity of attack. (3) Acetan., Ars., Chloral.

***APHIS CHENOPODII GLAUCI

(Aphids)

PHARMACY - aphis. Aphis chenopodii glauci. Aphids. Chenopodii glauci aphid. N. O. Insecta. A tincture is made of the aphids grown on the Chenopodium glaucum. **Historical dose:** Tincture and all potencies.

CLINICAL - Chills. Colic. Coryza. Cough. Diarrhea. Headache. Rheumatic, pains. Sneezing. Tenesmus. Toothache.

HOMEOPATHIC - The insect partakes of the properties of the plant it lives on. Chenopodium glaucum being a popular colic remedy and allied to the Polygonaceae, Rheum and Rumex. Aphis is peculiar in being the only remedy which has toothache better by sweat, though Cham, has general better by sweat.

Coryza with burning and biting on margins of nostrils, especially of septum. Increase of violent toothaches in bed, only relieved from a general warth sweat breaking out.

Cutting in atxiomen and rumbling of flatus. Ineffectual urging in bladder and rectum. In the morning urging after rising, several mush-like stools with pinching, burning in anus with urging. Flatus accompanies stool. Thin stools with slime and spots of dark blood.

Abdomen - Rumbings of flatus in the abdomen. Emission of gas. Frequent pinching pains in the abdomen. Cutting and pinching pains with borbory gmi. Congestion of blood towards the abdominal viscera.

Back - Pain in the left shoulder blade.

Ears - Tearing pains, sometimes in one ear, and sometimes in the other.

Eyes - Burning heat in the eyelids during several evenings.

Face - Color pale, yellowish, heat in the face, with head confused as by coryza, at night. Dry lips, sometimes especially in the morning.

Food - No appetite for meat and wheat bread, with chilliness. Increased thirst from sensation of dryness in

throat. Much thirst in evening, second week.

Head - Head confused in the evening with transient heat in the face. Pressure and tightening in the forehead or occiput,

increased by motion. Tearing shooting in the head.

Kidneys - Tearing shooting in the bladder. Irritation in the urethra, compelling frequent urination. Frequent secretion of a frothy urine, deep yellow. Urine red, brownish, frothy, depositing during the night a thick, yellowish sediment. Burning in the urethra, especially at the orifice, while urinating.

Limbs - Rheumatic pains. Bruise-like pain of the limbs. Tearing shootings in the shoulders and the upper part of the arms. Pulling and tearing above the knee in the morning. Weariness in the legs. Coldness of the feet, extending to the knees. Burning lancinations in corns.

Lungs - Expectoration of mucus. Voice frequently rough and smothered, removed by hawking. Frequent irritation in the larynx, which compels coughing. Dry cough, provoked by irritation in the throat.

Male - Voluptuous excitation of the glans penis.

Mouth - Painful vesicles at the end of the tongue. Dryness of the mouth and of the throat. Increase in the secretion of saliva. Scraping sensation in the palate.

Nose - Pain of excoriation in the nostrils. Violent sneezing. Coryza, with burning and smarting at the edges of the nostrils and at the septum. Fluent coryza.

Rectum - Loose evacuations of the consis- ' tendency of liquid pap. Flatulency before and after a stool. Liquid, mucus-like stools in the morning, with spots of blood. Tearing shooting in the rectum.

Sleep - Sleeplessness at night, without much pain. Lascivious dreams with pol- ¹ lutions. , - -

Teeth - Toothache with tearing shootings, i Nocturnal tearing pains in the teeth, with tearing shootings above the face towards morning. > „ ., A -

Temperature - Frequent chills on the whole surface of the body, chiefly of the z back. Burning in the palms of the hands. ' Tendency to perspire in the morning. Hot I .^ sweat or general perspiration. . Uir,w ! SWtilq HUA ' ruíüi: ! - iAWvim»»»» «WW. I noi Cito Ht; >< rroijcivmsfirri zaMsbotq)i '■

Throat - Secretion of frothy- mucus in the mouth and throat. Scraping and burning, as from acrid substances. Sensation of dryness and increase of mucus secretion.

RELATIONS - Compare: (1) Aeth. - stool after rising, pinching, cutting before, urging after. (2) Nat-s. - stool after rising with discharge of wind. (3) Nux-v. - frequent urging in rectum and bladder. (4) Gels. - chills up and down the back.

REFERENCES - Boericke. Clarke.

***APIS MELLIFICA

(Honey Bee) .

PHARMACY-apis. Apismellifica. Honeybee. **N.** O. Insecta. Hymenoptera. Apium virus is honey-bee venom. Tinctures are made of the whole bee and of dilutions of the poison with alcohol. **Historical dqpe:** All potencies.

CLINICAL - Abscess. Albuminuria. **Allergic, shock. Allergies.** Amenorrhea. Ankles, swelling. Asthma.^ee stings. "Bladder, disorders. Carbuncle. Chancre. Constipation. Cystitis. Diarrhea. Diphtheria. Dissection, wounds. Dropsy. Dysmenorrhea. **Edema.** Erysipelas. Erythema, nodosum. Eyes, disorders. Gangrene. Goiter. Gout. Hands, swelling. Heart, disorders. **Hives.** Housemaid's knee. Hydrocephalus. Hydrothorax. Injuries. Intermittent fever. **Itching.** Joints, edema. **Kidney, diseases.** Laryngitis. Lymphangitis. **Meningitis.** Menstruation, disorders. Metrorrhagia. Miscarriage. **Nephritis.** Nephrotic, syndrome. **Nettle rash.** Otitis. **Ovaries, cysts.** Ovarian, tumors. Panaritium. Pannus. Peritonitis. Phlebitis. Photophobia. Pleurisy. **Premenstrual syndrome.** Prostatitis. Puberty. Punctured, wounds. Rosties. Rheumatic pains. Scarlatina. Self-abuse. Staphyloma. **Stinging, pains.** Strokes. Suppressed eruptions. Surgery, effects. **Swellings.** Sycosis. Synovitis. Syphilis. Throat, sore. Thrombosis. Tongue, edema, ulceration. **Toxemia. Throat swollen.** Tumors. Typhus. **Urticaria.** Urethritis. Vaccination. Varicose veins. Variola. Wounds.

HOMEOPATHIC - Apis acts on cellular tissue of eyes, face, throat, ovaries, causing edema of skin and mucus membranes. In the **serous membranes** of heart, brain, pleura etc. it produces inflammation with effusion.

- **Allergic reactions to bee or wasp stings.** The effects of a bee sting, **burning, stinging,** smarting, prickling, sharp pain with **excessive swelling,** are the leading symptoms for the selection of this remedy.

The well-known effects of a bee's sting: burning, stinging, sharp pains with excessive swelling, give leading keynotes for its employment in a great variety of conditions. **Allergic edema of face, eyelids,** lips, mouth and throat. Burning, stinging itching. Redness and swelling with stinging and burning pain in eyes, eyelids, ears, face, lips tongue, throat, anus, testicles. -

The **stinging pains** appears in many diseases and conditions, causing the "cry cerebral" in acute hydrocephalus and meningitis. **Sudden shrill cries** in hydrocephalus and meningitis. Extreme sensitivity to

touch. General **bruised, sore pains** is marked of brain, **abdomen**, ovaries, bladder. Stinging pains in hemorrhoids. Edema of the throat may be accompanied with stinging pains. Burning symptoms (Ars.), worse by heat.

Apis produces serous inflammation with effusion, membranes of brain, heart and pleuritic effusion. **Swelling or puffing up of various parts, edema**, red rosy hue, stinging pains, soreness intolerance of heat and from the slightest touch. Afternoon aggravation are some of the general guiding symptoms. The pains are sudden that extort cries.

Acute inflammation of kidneys and other parenchymatous tissues are characteristic pathological states corresponding to Apis. **Constricted** sensations. Sensation of stiffness and as-of something torn off in the interior of the body. Prostration even to faintness. .

Trembling jerking and twitching. Symptoms go from right to left. Numbness. Thrombosis. Lymphangitis. Inflammation of kidneys, bladder. Paralysis after diphtheria and other severe diseases.

MIND - Great anxiety^ restlessness and fidgety. Fussy and fidgety, hard to please. Fear of being poisoned. Dread of apoplexy. **Constant whining** in children. Cannot bear to be left alone . **Restlessness and constantly busy.** Ailments from hearing bad news. **Weeping**, cannot help crying, all day and night without any cause.

Absent-minded with impaired memory.

Cannot concentrate mind on attempting to f read and write. Stupor with sudden sharp cries and startings.

Awkward, drops things readily. Listless, cannot think clearly. Couldn't bring his thoughts to bear on t anything.

Apathy and indifference. Indifference, says nothing ails him. Indifference with dull- ? ness of head. Nothing seems to satisfy, all wrong and out of place. Fruitless activity.

Irritable, excitable and sehsitive. Fickle and inconsistent behavior. Childish, silly behavior in women after delivery. **Hysterical girls at puberty.** Borrows trouble about everything. **Jealous, fidgety, hard to please.** Jealous, fright, rage, vexation, grief. Foolishly suspicious. Whining.

Muttering delirium alternating with stupor. Declares she is well, during delirium. Sudden shrill, piercing screams. Mania from sexual irritation. Sexual mania alternating with stupor in women. Premonition of death. Sensation of dying. Lost of consciousness.

Abdomen-- Dropsy of abdomen. Burning, pain and tenderness in epigastrium. **Sore, bruised pain**, on pressure, when sneezing. **Extremely tender.** Rumbling in abdomen. Violent cutting pains. Peritonitis. Swelling in right groin. Ulceration of navel in newborn. Inguinal hernia. Sensitivity of ileocecal region.

Back - Back of the neck stiff. Back as if tired and bruised. Rheumatic pain in back. Burning pressing in coccyx worse when Sii sitting down. Back tired and bruised.

Scapulae as if lame. Cervical glands t n swollen. Violent pain in sacrum, could not sit. Dragging-pain in lumbar region 11 with ovarian and uterine diseases.

Bladder - Great irritation at neck of bladder with frequent and burning urination. Burning and soreness when urinating. **Cystitis.** Dysuria with stinging pains. **Last drops m burn and smart.** Incontinence of urine bn worse night, coughingJJeienZion **of urine y in newborn.** Stitching in urethra, with **r.** bedwetting. **Suppressed urine.** Tenesmus Uu during and after urination. Cannot urinate .n without a stool. Difficult, frequent or slow urination, must press to pass urine, in prostatic affections.

Breasts - Breasts swollen and hard. Child nurses by day .refuses at night. Milk diminished. Stinging burning pains in breasts. Breast tumors. Cancer of breasts. Breast burning, stinging, swelling, hardness and suppuration. Erysipelas of breast.

Causations - Allergens. Grief. Fright. Rage. Vexation. Jealousy, the queen bee is the most jealous thing in nature. Hearing bad news, mental shock. Suppressed eruptions.

Chest - Pains from below ribs going upwards. Burning or soreness below ribs. Hydrothorax. Burning stinging pains throughout entire front of the chest. Hydrothorax after pleurisy. Chest feels as if beaten or bruised.

Constitutions - Psoric and allergic constitutions.

Cough - Severe cough before midnight. Croupy cough with ringing sound. Dry cough with gagging. Cough with soreness of upper part of chest. Very dry cough. Spasmodic cough morning and evening. Dry cough with gagging, worse lying on left side. Cough with tickling behind pit of throat.

Ears - Redness and swelling of both ears. External ear red inflamed, sore. **Stinging pains.** Raises the hand to the back of ear with each scream. Scarlatinal otitis. Ten- ^ sion about ears. Violent j>ain in left ear, when chewing. Shooting, burning pain. Pain in ears, when swallowing. Impaired hearing. Deafness.

Eyes - Allergic puffy eyelids, swollen, red, and edematous like water bags. Burning, stinging and shooting pain in eyes. Conjunctiva is bright red, puffy. **Lachrymation hot.** Photophobia, yet covering intolerable. Everted lids. **Sudden piercing pains.** Pain around orbits. **Serous exudation, edema and sharp pains.**

Keratitis with **intense chemosis of ocular conjuction**. Cornea opaque. Perforating corneal ulcer. Staphyloma of cornea. **Suppurative inflammation of eyes**. Cannot look fixedly at any object or cannot read in artificial light. Fistula lachrymalis. Squinting.

Eyes -Myopia. **Styes**. Asthenopia during éruptive fevers. Ophthalmia.

* **Face - Red, hot, swollen** with piercing pains. Waxy pale and edematous. Lips bluish, edematous, upper. **Bee stings**. Erysipelas with stinging burning edema. Extends from right to left. Expression happy, terror stricken or apathetic. Jaws stiff, with stiffness of tongue. Paralysis of right side with right eye closed. Desire for washing face with cold water. Formication and prickling in face.

Female - Amenorrhea of puberty. **Premenstrual syndrome with water retention**. Menses suppressed with mental and head symptoms, especially in young girls. **Hysterical girls at puberty**. Menses last a . day or appear at intervals of one day. Dys- ' menorrhea with scanty discharge of slimy blood or with ovarian pains. Dysmenorrhea, with severe ovarian pains. Bearing-down, as if menses were to appear. Great tenderness over abdomen and uterine region. Metritis. Metrorrhagia profuse with heavy abdomen, faintness, stinging pain. Menorrhagia with the miscarriage. Leucorrhea, profuse, acrid, green. Edema of labia, relieved by cold water. **Ovarian cysts**. Soreness and stinging pains. Ovaritis, worse in right ovary. **Ovarian tumors, with stinging pains**. Ovaries numb or congested with suppressed menses. Pains in ovaries, worse sex. **Toxemia**. Miscarriage during early months. Uterine hemorrhage during pregnancy. Dropsy in later parts of pregnancy with puerperal convulsions. Mania in women from sexual excesses or suppressed menses.

Food - Thirstless with edema, dropsy. **Craving for milk** (Rhus-t.). Better from milk. Craving for sour things. Child nurses by day, refuses at night.

Head - Chronic sick headache. Sudden stabbing in head. **Sharp shrieks**. Bores head into pillow and screams out. **Hydrocephalus** enlargement of head. **Rolling of the head** from side to side in hydrocephalus. V Boring of the head backward in pillow in **meningitis**. Inability to hold the head a up in meningitis. **Stinging pains**. Numb, tired headache, better pressure. Flow of tears with headache. Fontanelles sunken. Fontanelles reopen. **Brain feels very tired**. Heat, throbbing, pains, better on pressure and worse on motion. Aching in forehead and temples. Dull, heavy sensation in occiput, as from a blow. Erysipelas of scalp. Painful hair. Musty head sweat. Head feels swollen. Hair- falls out, bald spots. Apoplexy.

Heart - Heart troubles with great feeling of suffocation. Heart stitches backward from apex. Violent palpitations, shake the whole body. Palpitations of heart from scanty secretion of urine. Insufficiency of mitral valves. Organic heart disease. Blowing sound with the diastole. Pericarditis. Pulse is hard small intermittent and quick, weak.

Kidneys - Sore or bruised feeling over region of kidneys. Nephritis. **Acute nephritis, urine scanty or suppressed**. Hyperemic state of kidneys. Burning and soreness when urinating. Frequent and involuntary urine. Stinging pain and strangury. **Scanty, high colored urine**. Urine loaded with casts. Urine milky in hydrocephalus. Albuminuria. Urine profuse, more than he drinks. Urine turbid after standing. Coffee ground sediment. Urine clear and colorless during dentition. Urine of greenish hue. Urethra as if scalded.

Limbs - Edematous. Synovitis. Felon in the beginning with burning, stinging throbbing pains. Knee swollert. shiny, sensitive, sore with stinging pain. Feet swollen and stiff. Feel too large. Rheumatic pain in back and limbs. Tired, bruised feeling. Numbness of hands and fingertips. Hives with intolerable itching. Palms hot. Edema of hands. Limbs-, immovable, heavy, numb.. Feet numb and stiff. Legs and feet waxy, pale swollen and edematous. Trembling-of hands and feet. Nails feel loose. Hemiplegia from severe mental shock. Staggers when eyes are shut.

Lungs - Asthma with hives. Dyspnea from allergic reactions. Breathing hurried and difficult. **Panting breathing**, feels every breath would be his last. Air hunger. Edema of larynx. Feels **as if he could not draw another breath**. Suffocation, short, dry cough, supra-sternal. Painful shock in head and chest from every cough. v, Larynx drawn in. Hoarseness. Expectora- >t J. tion sweetish.

Male - Affections of prostate gland. Dropsy zll of the scrotum. Hydrocele and cysts. n, Testicles painful when touched. Frequent and long-lasting erections. Swelling of testicles, worse right. Violent itching and j redness of scrotum, sore to touch. Sexual desire increased or diminished. Discharge of prostatic fluid. Gonorrhea, copious secretion of thin, ichorous discharge. Gonorrhea with burning, stinging pain. Large boils on pubes. Swelling of foreskin.-

Modalities - Better from cool air. Better cold applications. Better cool bathing. Better uncovering. Better slight expectoration. Better motion. Better sitting erect. **Worse from heat in any form**. Worse hot weather. **Worse heat of room**. Worse heat of fire. Worse hot drinks. **Worse hot bath**. Worse warm bed. Worse pressure. **Worse touch, even** of hair. Worse in late afternoon. Worse after sleeping in closed ' ' and heated rooms. Worse

right side. Worse pressure. Worse after sleep. Worse lying ¹ down. **Worse from suppressed eruptions.**

Worse at 4 p.m.

'Mouth - Scalding in mouth and throat. •^ Bitter taste. Fetid breath. Viscid, tough, ' ⁵¹ frothy saliva. Gums swollen. Lips swollen, b' especially upper. Membrane of mouth and " throat glossy, as if varnished. **Red, shining** ⁴ **and puffy** like erysipelas. Vesicles. Raw, burning and painful stinging blisters.

Dryness of mouth.

Nose - **Red, swollen** inflamed nose with sharp pains. Coldness of tip of nose. Boils in nostril, better cold. Nostrils red and ^ burning. Bridge of nose puffy. Coryza, * worse warmth. Coryza with feeling of swelling in nose. Thick, white, fetid, mucus discharge, mixed with blood. Copious nosebleed towards morning.

Perspiration - Sweat slight with sleepiness. Perspiration breaks out and dries r up frequently. After perspiration, nettle rash, also with shuddering.

Rectum - **Anus seems open.** Anus is sore, swollen with profuse hemorrhage. Anus feels raw, remains open. Prolapsed anus. Hemorrhoids with stinging pain after confinement. **Cholera infantum.** Cannot urinate without a stool Constipation, feels as if something would break on straining. Feels tight as if to break, on straining at stool. Electric shocks in rectum before urging to stool.

Sensations - The burning is like hot needles. Sensation of constriction. Sensation of stiffness and as of something torn off the interior part of the body.

Skin - **Bee stings, insect bites.** Swellings after bites Or stings. Nettle rash. Edematous swellings. **Allergic dermatitis.** Sudden puffing up of whole body. **Hives,** burning, stinging and itching. Rosy red, sensitive, sore skin. **Stinging pains.** Scarlatina. Erysipelas with sensitiveness and swelling, rosy hue. **Urticaria like bee stings, or stings from other insects, with intolerable itching at night.** Boils. Carbuncles with burning, stinging pain (Ars., Anthr). Rough eruptions or stinging-like spots on skin. **Large urticaria.** Skin dry, hot, alternating with gushes of sweat. Nettle-rash in warm weather, when one can't sweat.

Sleep - Very drowsy. **Great inclination to sleep** but cannot from nervous restlessness. Drowsiness during fever. **Screams and sudden starting during sleep.** Kicks off covers during sleep. Yawning after coughing. Dreams full of care and toil. Dreams of being busy going from place to place. Travelling dreams. Flying dreams. Unpleasant dreams.

. **Stomach** - Belchings that tasting of ingesta worse drinking water or flow of water. Bitter or acrid belching. Soreness in the pit of stomach when touched. Gastroenteritis. Nausea and vomiting. Neither eats nor drinks for weeks. Vomiting of frothy mucus. Vomiting with diarrhea. Vomiting of food, bile.

Stool - Profuse hemorrhage from anus. Dark, fetid stool, worse after eating. Bloody, painless stools. Stools odorless. Stools, blackish-brown, green or whitish.

Stool - Stools, odorless or offensive involuntary worse motion. Diarrhea, watery yellow orange-yellow or tomato-sauce like stools. Stools, olive-green, slimy.

Teeth - Sudden involuntary biting teeth together. Grinding of the teeth. Gums as if numb. Gums swollen. Gums bleed easily. Swelling and redness of gums and si cheek. Sore and stinging pain in teeth.

Dentition. Teeth covered with yellow mucus or brown sordes.

Temperature - Chill, anticipating with dyspnea, urticaria, desire to uncover, alternate with heat. Heat of one part coldness of another. **Thirstless during fever.** Thirst -t during chill. **Burning heat,** but chilly -bi ' when moved. **Afternoon chill with thirst, .■>, worse on motion and heat.** Worse from heat with smothering feeling. Sleeps after the fever paroxysm.

Throat - Tonsillitis with skin eruptions. Tonsils are swollen, fiery red, stinging .J'. pain, **while** swallowing, better cold drinks.

Ulcers on tonsils. **Swollen throat from allergic reaction.** Constricted, stinging pains. **Uvula swollen,** sac-like. Sandy, ,t glossy or translucent better cold, swollen inside and outside. Throat purple. Angina. Diphtheria with early prostration, dirty membrane, edema of uvula. Throat sore, v. swallowing painful worse solids, sour or hot substances. Sensation as if fishbone in throat. Vasculargoitre.

Tongue - Tongue as. if scalded, red hot, trembling. **Cancer of the tongue.** Tongue fiery red, swollen, sore and raw with vesicles. Tongue feels raw. Tongue hangs out or cannot be protruded. Tongue as if wooden. **Stinging blisters along edge of tongue.** Dryness of tongue. Tongue red at tip. Tongue coated white. Tongue trembles, catches in teeth. Tongue first covered thickly white, later covered with a brown crust.

Vertigo - Vertigo with sneezing worse lying or closing eyes. Vertigo with nausea and headache. Vertigo-as if she would fall. Vertigo with obscuration of sight, nausea and disgust for food.

Vision - Obscured vision, in meningitis cerebrospinalis. Could only observe light coming in at window when turning herself towards it. Whitish grey mist. Weak vision, with feeling of fullness in

eyes. Blindness better stool. Myopia. Objects appear too large. Could see better at night than in daytime. Diplopia after meningitis. Whirling. Indistinct vision, as if a skin were drawn over eye.

COMMENTS - Acute remedy for anaphylactic shock from bee stings, jellyfish, nettles, scorpions, from drugs, from allergic reactions especially to strawberries and to certain foods.

In a severe case, their face swells, first the eyes swell, then the face swells, and then the throat swells. It's also for hives, itching, burning, stinging hives from insect bites, from certain foods, severe allergies. Chronic treatment can lessen sensitivity (Vesp., Carb-ac.).

Burns or sunburns with stinging pain, worse heat, or burns with water-filled blisters.

Has been used for eczema, skin cracked and painful, burning, swollen, suppurating, worse wafer. PMS with acute, severe edema, water retention, irritability, emotional sensitivity. Right sided ovarian cysts, especially if so painful it's about to burst. Appendicitis.

Acute nephritis with stinging pains. Good for urinary retention, cystitis, bladder infections (Canth.). Bladder feels full and urethra is swollen so urine comes out in painful drops. Pelvis feels full. For puncture wounds when the arm swells, vaccinations. Joint pain from arthritis or injury, the joint swells up.

Toxemia in pregnancy, women have protein in the urine and high blood, pressure. Inflammation of the body cavity like peritonitis or fluid collecting around the heart, for meningitis, for hydrocephalic children, for painful inflammation of the scrotum. Brain cry, high pitch shrill, due to inflammation and on the brain. Never well since meningitis (Bell.).

Originally used for edema. Often edema from the immune system or the kidneys, the histamine is released, the tissues swell. Better heat, look for the stinging pains and

worse heat in some type of allergic reaction or bite or sting or some kidney failure type of problem.

Apis has great sensitiveness of the surface to touch. General soreness, every hair is painful to contact. Great debility as if he had worked hard is compelled to lie down.

Tired and bruised feeling. Great restlessness and fidgetiness (the Ars. restlessness is more from mental anxiety).

Trembling, jerking and twitching. One half of the body twitching, the other lame or paralyzed. Hemiplegia. Apis is more a right-sided medicine, symptoms proceed from right to left (Rhus-t. left to right) and from above downwards. .

Stiffness of lower jaw, soon amounting to <- a sense of complete fixation. This stiffness extended to tongue and throat, rendering speech difficult and unintelligible and causing a condition of extreme discomfort. The stiffness being accompanied by a feeling of in ■ constriction, which excited a single, spasmodic, hacking cough at short intervals.

Some difficulty in breathing, especially S' in inspiration. These symptoms were accompanied by a terrible restlessness.

On a later occasion there was dyspnea, face purple, head thrown back. The same symptoms as above recurred, but the throat ^{0.1} ' was more swollen and the distress extended below the larynx to the upper part of the lung, 'which soon became very sore and sensitive. ' An hour after the sting on this occasion a violent cough came on.

It seemed to be excited by the constrictive feeling in the throat, but it reached down to the sore place in the lungs, causing great "" distress. It was a deep, hard, ringing cough, lasting without intermission for three hours.

"Traces of the cough and soreness lasted for months.

Hni '

Apis has slow action and must not be changed too soon. Increased flow of urine shows it is having a favorable effect. The dropsies of Apis are characterized by a waxy hue of skin, whitish or yellowish, transparent swelling of eyelids, bag-like swelling under eyes, surface of body sore, bruised or burning. In cardiac dropsy the feet swell after walking and are intolerably sore and burning.

In chest disorders there is sensation of contraction (Lach.) and inability to lie down. Tension, swelling and stiffness of limbs. This tight sensation is manifested in another symptom: sensation in abdomen as if something tight would break if too much effort was made to void a constipated stool. Aversion to tight things like Lach. Prostration even to faintness. Paralytic weakness. Paralysis after diphtheria and other severe diseases.

Nervous, restless, over-sensitive or hot and drowsy with or without thirst. Worse from touch or pressure (though the head is better by pressure). Apis has a sensitiveness to heat, especially to heated rooms (Puls., Iod., Kali-i. Sec., Sulph.), worse by warmth of bed. Cold water better. Thirstlessness, there's no desire to drink. Can have fever with thirstlessness.

A keynote is the eyes swell from allergic reactions. The person feels hot, the area is swollen. Sensation as though it would burst, skin becomes very sensitive. Dry skin. Wandering pains. Described as a red-hot needle stuck in and moved around. Shrieking out with pain, keynote. The eyes are glassy, the face is hot and puffy.

Bobs head back and forth Worse bathing, better cold applications. Fears suffocation. Aggravated by heat, congestion and stuffy room (Puls.). Often has *0 choking feeling because the throat swells n up. Dreams of flying from place to place.

Induced jealousy. Arching back of neck.

RELATIONS - Antidotes: to medium doses and poisonings, Nat-m. in all forms, sweet oil, onions. Ammonia, Lach., Ledum. Ip., also powdered Ip. applied locally. **It antidotes:** Canth., Iod., Chin., Dig. **Compare:** (1) Apium virus - auto-toxemia with pus products. (2) Puls., Zinc., Canth., Lach. (3) Vespa and snake venoms. (4) Apoc., Acet-ac. - dropsy. (5) Aeon., Urt-u. Anae. - ubicaría. (6) Am. - bruised, sore conditions. (7) Ars. - typhoid, gangrene, dropsies, scarlatina, urticaria, chills. (8) Bell. - meningitis, sore throat, erysipelas, scarlatina. (9) Brom. - swelling of ovary during menses. (10) Bry. - meningitis rheumatism. (11) Canth. - bums, erysipelas, urinary symp-

toms. (12) Euphrasia -conjunctiva. (13) Ferr., Graph., Hep., Hyos., Iod. - synovitis. (14) Lach., Lyc., Merc., Nat-a., Nat-m. - chills, urticaria, tension in ovarian region. (15) Rhus-t. - eyes, but Apis has less tendency to suppuration, vesicular erysipelas but darker than Apis and spreading left to right. Apis right to left, typhoid, restlessness, but Apis is more fidgetiness. **Complementary:** Nat-m. the chronic of Apis, Am., Ars., Hell., Merc-cy., Puls. **Inimical:** Rhus-t in eruptive diseases. **It follows well:** Bry. when cephalic cry appears. Hell, when torpor sets in, Iod., Hep., Merc., » **Lyc.,Sulph.Is followed well by:Graph.,tetter** çi on ear lobe. Kali-bi., scrofulous ophthalmia. ' ? , Ars., hydrothorax. Phos. diphtheria. Stram., mania. Lyc., staphyloma, Sulph., hydrothorax, pleurisy, hydrocephalus. Iod., swollen knee.

***APIUM GRAVEOLENS

(Common Celery)

PHARMAC V- ap-g. Apium graveolens. Common Celery. N. O. Umbelliferae. Tincture of ■' * seeds. Tincture of sticks. **Historical, dose:**

Tincture and all potencies.

CLINICAL - Fidgets. Headache. Heartbum. s' Otorrhea. Post-nasal catarrh. Rumination.

Toothache. Urine, retention. Urticaria.

HERBAL - Ap-g. contains a soporific active principle.

HOMEOPATHIC - A proving of tincture of celery seeds produced an unpleasant feeling i./ at stomach with belchings tasting of celery.

Heartbum. Spitting up of food. Gone feeling 'i at pit of stomach lasting for hours and partially ? relieved by eating.

Effects of eating the root include the most obstinant retention of urine during the fol- . .^m lowing day and night, which could only be relieved by the catheter. Another person ^{^H} observed an inability to sit still or lie still in bed from feeling of **"fidgets,"** could not keep mind from thinking.

Allen mentioned "Profuse discharge from granulating ulcers intense constriction over sternum with drawing feeling through to back on lying down," as having been cured by it.

Hering cured with Ap-g. an old abscess near the umbilicus.

Obstinate retention of urine, throbbing headaches and heartbum. Swelling of throat, face and hands. Rheumatic pain in muscles of neck, and in sacrum. Growing pains. Hunger for apples. Dysmenorrhea with sharp, short pains, better flexing legs.

Urticaria, which always appearing with shuddering, intense, stinging, itching, with rapid change of location. Pressure in stomach preceding urticaria and relieved when it appears. Toothache in left molars, better by holding cold water in the mouth. -

MIND - Depressed, energetic, feeling of fidgets. Cannot keep mind from thinking.

Abdomen - Sore, sharp sticking pain as if stool was coming on. Nausea increases :-: with pains.

Back - Muscles of back of neck painful on motion, sore to pressure. Dull pain in sacrum with slight bellyache. Pain in sacrum more to left side extending to lumbar region. Red, intensely itching blotches on left sacral region.

Chest - Can count heartbeats by hearing and feeling it in chest.

Constitutions - Sycotic constitutions.

Ears - Partial deafness, worse left, painless pulsation. Troublesome otorrhea.

Eyes - Eyeballs feel as if sunken into sockets.

Female - Sharp sticking p^ins in both ovarian regions, left, better bending over, by lying on left side with **legs flexed.** Tender nipples.

Food - Desire for oranges, oatmeal.

Head - Headache, better eating. Eyeballs feel sunken. Itching in eyes. Itching and smarting in inner canthus of left eye.

Kidneys - Obstinate retention of urine, could only be relieved by catheter.

Limbs - Growing pains in right leg during night. Burning on inside of thighs. Raw, excoriated surfaces on inner thighs. Red, itching blotches on foot and ankle.

Lungs - Tickling, dry cough. **Intense constriction over sternum** with drawing feeling through to back on lying down. Throat swollen, dyspnea. Tickling in top of windpipe causing dry cough. Wheezing breathing during the night.

Mouth - Sore spot on tip of tongue. Dull, sore pain on upper and lower teeth. Toothache, better by cold water.

Nose - Nostrils stuffed with pain in forehead.

Tough, pearl-colored discharge from nostrils. Sudden dropping of mucus into nostrils. Tickling in right nostril with watery discharge and sneezing.

Rectum - Diarrhea, sharp pain in left iliac region going over to right. Urgent, well-formed stools during the day. Before stool, sharp pain from abdomen directly into rectum.

Skin - Itching blotches, burning, creeping sensation. Profuse discharge from granulating ulcers. Urticaria with shuddering.

Sleep - Unrefreshed sleep. Sleepless, wakes from 1 to 3 a.m. Eating does not help sleep. Not fatigued from loss of sleep.

Stomach - Unpleasant feeling at stomach. Belchings tasting of celery. Heartburn. Spitting up food. Sore feeling at pit of stomach lasting for hours and partially relieved by eating.

Throat - Soft palate and fauces sore, dark red and swollen. Air rushing down posterior sinuses, hurts back of throat.

COMMENTS - In proving under the direction of W. P. Wesselheft, a remarkable symptom was "A dull ache in sacrum worse when lying down, better when moving about." Another symptom was "sensation as if both eyes were sunken back into their sockets." Throbbing headaches, worse by slightest motion, better by rest, mostly left-sided.

***APOCYNUM ANDROSAEMIFOLIUM

(Spreading Dogbane)

PHARMACY - apoc-a. Apocynum androsaemifolium. Spreading dogbane. N. O. Apocynaceae. Tincture from the root. **Historical dose:** Tincture and all potencies.

CLINICAL - Diarrhea. Dropsy. Nausea. Neuralgia of face. Rheumatic pains. Vomiting. Wandering rheumatism. Worms.

HOMEOPATHIC - Acute rheumatism with great stiffness. General rheumatic pains. Flying pains in different parts. Its pains are of a wandering nature with much stiffness and drawing. The pains go from above downward, are worse when breathing and on turning to left side.

Itching of body and face. Profuse sweat of whole body. Swollen sensations. Trembling and prostration. Worms. Everything smells or tastes like honey.

It has been proved in large doses, its most prominent symptoms included "Heaviness with great desire to sleep. Trembling of the body. Prostration and trembling. Swollen sensations of face and body. Swelling of hands and feet, showing its relation to dropsical states like Apoc. can. and Stroph." **Face** - Twitching in face. Violent pain in left zygoma.

Female - Profuse menstruation lasting eight days with violent, pressing pain.

Head - Pains and stiffness in back of head and neck.

Kidneys - Profuse flow of clear urine.

Limbs - Violent pains in all the joints. Much pain in knee and right shoulder. Pain in toes and soles. Tingling pain in toes. Cramps in soles. Profuse sweat with violent heat in soles (Sulph.). Swelling of hands and feet.

Mouth - Pains in all teeth of left lower jaw. Delightful taste in the mouth.

Nose - Everything smells like honey.

Stomach - Vomiting and purging, better from copious evacuation.

COMMENTS - Healed cured with it rheumatic gout, "Acute pains in the joints attended with cramps, bilious stools and flying pains in the teeth. The tincture in drop-doses has been known to expel ascarides and other worms." It has been used, for expelling kidney stones and gravel.

RELATIONS - Compare: Benz-ac. (2) Also Apoc. Bry. Iris., Colch., 'Alst., Strooh.

***APOCYNUM CANNABINUM

PHARMACY - apoc. Apocynum cannabinum.

Indian hemp. American hemp. N. O. Apocyn- aceae. The whole fresh plant, root included, should be used for making the tincture. **Historical dose:** Tincture and all potencies.

CLINICAL-Alcoholism. Anasarca. Arrhythmia. **Ascites.** Bedwetting. Bright's disease. ρ Catarrh. **Cirrhosis. Congested heart failure.** $\dagger$ Coryza. Diabetes insipidus. Diarrhea. **Dropsy, Edema. Heart, disorders. Heart, dropsy. Hemoptysis. Hydrocephalus. Hydrothorax. Hypotension. Kidney, dropsy.** Menorrhagia. Metrorrhagia. **Mitral, regurgitation.** Nausea. Neuralgia. Scarletina. Snuffles. Tobacco heart. **Tricuspid, regurgitation.** Typhus. Urinary, difficulties. Vomiting. **Watery, stools.**

HOMEOPATHIC - Provings were made with fresh plant tinctures or fresh or powdered root tinctures or infusions. Watery infusions with just enough spirit to keep them from fermenting are said to be more efficacious than tinctures. The clinical effects of Strophanthus and η ; , the symptoms produced on patients to whom (fn it has been given in large doses, clearly show the relationship between it and Apocynum.

Both produce intense gastric disturbance, j extreme depression of the heart's action and both control dropsical effusions and produce diuresis.

Apocynum depresses the heart, kidneys and intestines, relaxing sphincters. **Hypotensive, low bloodpressure.** Arrhythmia. **Congested heart failure with ascites.** Relaxation of sphincters. **Mitral and tricuspid regurgitation.** A diminished frequency of the pulse is a prime indication.

Apocynum is a useful remedy for general dropsies with or without organic disease. Increases secretions of mucus and serous membranes and acts on cellular tissue, producing edema and dropsy and on skin causing diaphoresis. Swelling of every part of the body with scanty urine and sweat, feels if he could only StVeat he would get well.

Urinary troubles, especially suppression and strangury. An effective remedy for

dropsies, edema, ascites, anasarca and hydrothorax. Dropsy with great thirst, but water causes pain or is vomited after typhus, scarlatina, cirrhosis. Dropsy after hemorrhage, quinine. Dropsy of serous membranes. Acute inflammatory dropsy.

Acute alcoholism. Useful for the digestive complaints of Bright's disease with nausea, vomiting, drowsiness, and difficult breathing.

In acute hydrocephalus, the child lies in stupor with automatic motion of one arm and leg. Paralysis of left side, one eye motionless other rolling. Weakness is marked. Excretions diminished, especially urine and sweat. Rheumatic stiffness.

MIND - Acute or chronic alcoholism. Confusion of mind during fit of pain. Can't think. Bewildered, nervous, low-spirited. Faints when raised from pillow. Restlessness, nervousness at night.

Abdomen - Bloated. **Ascites,** often with chronic diarrhea. Distention after a moderate meal. Dropsy after scarlet fever. Dropsy after abuse of quinine.

Chest - Oppression about epigastrium and chest.

Constitutions - Sanguine constitutions.

Eyes - Hot and red, as if sand in them. One eye motionless and other rolling.

Face - Bloated worse lying down, passes off after sitting up. Face pale, covered with cold sweat in diarrhea. Dry, lips, mouth.

Female - Amenorrhea with bloating of abdomen and legs. Metrorrhagia with nausea, fainting, vital depression. Uterine hemorrhage, blood expelled in large clots or sometimes in fluid state. Hemorrhage at menopause. Ovarian tumor. Cough during pregnancy. , . -

Food - Great thirst with hydrothorax. Great thirst, but water disagrees, causing pain or is immediately thrown off. Thirst on walking.

Head - Dull ache^ Hydrocephalus with stupor, vision lost, forehead projecting, sutures open, stage of exudation.

Heart - Heart's action is depressed. Mitral and tricuspid regurgitation. Rapid and feeble, irregular cardiac action, low arterial tension, pulsating jugulars, general cyanosis and general dropsy. Pulse, slow, fluttering, irregular or intermittent.

Kidneys - This remedy acts upon **urinary organs,** producing diuresis and removing the dropsical effusions. **Kidney dropsy.** Urine is copious, scanty. Bedwetting in old men. Bladder much distended. Turbid, hot urine with thick mucus and burning in urethra after urinating. Little expulsive power. Dribbling. Strangury. Retention of urine with paralysis of lower limbs.

Limbs - Rheumatic condition. Joints stiff, especially on moving in the morning. Constant involuntary motion of one leg and one arm. Fingernails of bluish red m color. Aching in both knees. Edema of feet, ankles, and legs.

Lungs - Sighing. Short, dry cough. **Breathing is short and unsatisfactory,** difficult. Hydrothorax.

Hemoptysis. Violent hoarse cough, worse at night. Cough short, dry, loose and rattling.

Male - Prostate gland enlarged. Penis and scrotum swollen, dropsical.

Modalities - Better from warmth. **Worse from cold weather.** Worse cold drinks. Worse from uncovering. Worse lying. Worse after sleep. Worse on waking in the morning. Diarrhea is worse immediately after eating. Food or water is immediately ejected, though hungry.

Mouth - Dry tongue, immoderate thirst. Tongue coated. Constant spitting, increase of mucus and saliva. .

Nose - Long continued sneezing. Snuffles of children (Samb.). Chronic nasal catarrh with tendency to acute stuffiness with dull, sluggish memory. Dull headache. Takes cold easily, nostrils become congested and blocked up easily. Filled with thick yellow . mucus in morning, snuffles of infants.

Rectum - Diarrhea with dropsy, yellow, painless, noisy, gushing stools. Feeling as if anus is open and stools run through out. **Watery stools**, flatulent with soreness in anus, worse after eating.

Perspiration - Sweats when the skin moistens. Clammy sweats. Body covered with large drops of cold sweat.

Skin - Rough, dry. Cannot sweat.

Sleep - Great restlessness and little sleep. Drowsy in afternoon, restless at night. Stupor. Desire to sleep, but inability to do so. Drowsy before and after nausea and vomiting.

Stomach - Nausea with drowsiness. **Excessive vomiting.** Dull, heavy, sick feeling. Oppression in epigastrium and chest, impeding breathing (Lob.). Sensation of sinking in the pit of stomach after profuse urination, diabetes insipidus. Uremic vomiting.

Vertigo - Dizzy. Piercing pain in right temple followed by vertigo. Vertigo suddenly, appearing and disappearing.

COMMENTS - The dropsies of Apocynum are general dropsies with or without organic disease, swelling of every part of the body, cardiac dropsies. It's specific for edema related to a weak heart, **congestive heart failure. Edema of the heart, pericardium and the limbs.** The ankles are swollen because of heart problems. History of heart attack and weak heart ever since (Am-c., Crat.). **Hypotensive, low blood pressure.** Ascites, mitral and tricuspid valve regurgitations (Naja). Alcoholism, delirium tremens. Bright's disease, chronic nephritis. Kidney effect is considered secondary to the heart.

Apoc. causes an intense sinking sensation, drowsiness and a bewildered state of mind. Dizziness, hemorrhages. The excretions are diminished, especially urine and sweat.

Hydrocephalus has been cured with it, "Child lying in stupor with constant involuntary motion of one arm and leg." "Paralysis of left side, one eye motionless, one rolling."

Three cases of neuralgia of the right side, groin, hip and, in one case, region of right kidney, have been cured with this remedy. All were violent, extorting cries. In one case the pain set in very suddenly and the slightest jar aggravated. |

Hale said the kidneys are the peculiar seat of the operation of the drug and that it is in kidney dropsies that it is especially curative. It has cured diabetes insipidus with "a sense of sinking in the pit of the stomach with great debility."

Hemorrhages, especially menorrhagia and hemorrhages at the change of life have been cured with it. Hale has found it restore the menses when given in cases of dropsy.

Boericke said to use "tincture (ten drops three times daily)." Less effective in potency (like Echi., Equis., and Crat.).

RELATIONS - Compare: (1) Apoc-a., Alst, Stroph., Acet-ac. (2) Apis, - thirstless in dropsies. (3) Ars., Bell., Bry., Chin., Colch. (4) Dig. - dropsy, slow pulse. (5) Elat., Hell. - hydrocephalus, ascites. (6) Aloe, Ambr. and Trom. - diarrhea. (7) Kali-caust., Lyc., Merc., Merc-sulph. (8) Sulph., Nux-v., Squil., Ign., Curare, Spig., Verat. (9) Strophanthus - extreme cardiac depression with intense gastric disturbance, dropsy. (10) Aralia Hispida.

REFERENCES - Boericke. Clarke. **Murphy.**

***APOMORPHINUM ...

(Morphine Alkaloid)

PHARMACY - apom, Apomorphinum hydrochloric. Morphine alkaloid. Apomorphinum muriaticum. Papaveraceae. Alkaloid from decomposition of Morphine by Hydrochloric Acid. Solution. **Historical dose:** All potencies.

CLINICAL-Alcoholism. Constipation. Drug, habit. Faintness. Headache. Heartburn. Hysteria. Insomnia. **Morning sickness. Nausea.** Opium, habit. Pregnancy, vomiting. **Seasickness.** Vertigo. **Vomiting.** Water brash.

HOMEOPATHIC - Apomorphine contains the emetic properties of Opium. The chief power of this drug lies in the speedy and effective vomiting that it produces, which becomes a strong guiding symptom to its homeopathic use. It causes very rapid vomiting, most rapid when injected subcutaneously. Vomiting without

previous nausea.

Alcoholism with constant nausea, constipation and insomnia. Drowsiness. Faintness. Specific for severe **morning sickness**. Keynote is obstinate, severe morning sickness with a lot of saliva and water brash.

The vomiting is preceded by nausea, lassitude and increased secretion of sweat, saliva, mucus and tears. The peculiar vomiting with its suddenness, completeness and the absence of pain or continued nausea. Pneumonia with vomiting.

Back - Pain between shoulder blades. , x Eyes - Dilated pupils.

Head - Hot feeling all over body, especially head.

Stomach - **Nausea and vomiting**. Violent inclination to vomit. Empty retching and headache, heartburn.

Reflex vomiting of pregnancy. , , ,

Vertigo - Dizziness. **Seasickness**.

COMMENTS - Apom. has been used with success in cases of sympathetic vomiting and from pressure of a tumor on the brain.

Halbert has given Apom. 3x with success in a desperate case of combined alcoholism and opium addiction. The symptoms were constant nausea, constipation insomnia, delirious headache, extreme emaciation, pronounced hysteria.

Boericke mentions alcoholism, seasickness, and vomiting, nausea, increased salivation and sweat, nausea and vomiting.

RELATIONS - **Compare:** (1) Opium, Hyos., Ip., Ant-t., Cer-ox.

***AQUA MARINA

(SeaWater)

PHARMACY - aq-mar. Aqua marina. Sea water. Isotonic plasma. Marine plasma. Aqua marina is a sea water taken some miles from the coast of Dieppe and some depth below surface, filtered and diluted with twice as much pure fresh water. Dilutions. **Historical dose:** Tincture and all potencies.

CLINICAL - Addison's disease. Anxiety. Biliousness. Constipation. Coryza. Eczema. Emaciation. Flatulence. Gastroenteritis. Goiter. Headache. Hypoglycemia. Hyperthyroid. Loeffler's syndrome. Lupus. Lymphadenitis. Nausea. **Phlegm**. Polyneuritis. **Seasickness**. Seaside, effects. Thyroid problems. Tuberculosis. Varicose, ulcers.

HOMEOPATHIC - Aqua marina is a great **blood purifier and vitalizer**. Potentized seawater in weakness, lack of reaction, symptoms are worse by the seaside. For the treatment of diseases of skin, kidneys and intestines. Lymphadenitis. Goiter. Lupus, eczema, varicose ulcers. Scrofulous disorders of children. Gastroenteritis and tuberculosis.

Aq-mar. acts primarily on the blood, as in toxic, scrofulous conditions, enteritis. It helps detoxifies in cancer cases.

Aq-mar. has been principally used in high potencies for the effects of **residence near the sea**, which causes biliousness, constipation, headache, etc. It has been used in wine glassful doses and also in potencies as a remedy **for seasickness**. **Worse** at seaside or on the sea. Subject anxious and in a feverish state with fetid sweating and head pains. Thoracic pains and back pains, cough with watery or mucus sputum tasting of rust. Neuralgic pains down right temple and forehead. Face ache left side, cold water intolerable. Sensation of a hair or fishbone in throat, tickling and urging to swallow, causing cough, which does not relieve.

Pain on swallowing, extending to ear and temples. Nausea. Severe nauseous sensation in stomach and abdomen.

"Constant hawking and raising of phlegm tough and white like cotton."

General and genital weakness, despite arousal of desires. Vesicular rashes. Alcoholic polyneuritis with mental troubles. Addison's disease. Emaciation. Hypoglycemia. Overactive thyroid. Hyper-secretion from the thyroid. Perspiration. Trembling. Fatigue in the morning, feeling feverish at 10 a.m.

MIND - Absent-minded. Slowness of mind. Intellectual concentration difficult. Feels tormented. Agitated. Tormented by lewd thoughts. Fear of madness. Impression of being spied upon. Finds salvation in religion.

Anxiety aggravated by talking. Anxiety in company. Anxiety by iced drinks. Anxiety worse perspiration. Anxiety improved between 2 p.m. and 4 p.m. Delusion of being watched (Ars.). Aversion to bathing.

Abdomen - Flatulence, sensitivity, pain at the sides of the ribs. Spasmodic colitis. Intestinal parasites. Epigastric pain, aggravated at the tip of the xyphoid cartilage. Pains at 11 p.m., worse by pressure and agitation. Pain better exercise (Coloc.).

Back - Vertebral column affected. Pains in the neck, back and thorax, stiff, heavy or prickling pains. Aggravated by hot drinks, heat, pressure contact. Pain at the nape of the neck with stiffness and difficulty in turning the head. Arthritis of the spine. Arthrosis of the spine. Arthritis of the scapula and shoulder.

Chest - Thoracic pain situated at the level of the third intercostal space, right against the sternum. Pain the lowest three intercostal spaces in the morning when rising, worse with pressure. Pain at the tip of the shoulder blade in the evening.

Constitutions - Hypersensitive subjects, tubercular with a congestion of the veins and mucus membranes in the phosphoric or carbo-phosphoric type with an unstable nervous system.

Ears - Stinging pain in right ear in the evening. Transient stitches. : iw.iZ

Face - Face ache on left side of upper and lower jaw, extending under lower jaw to right side. The pain was acute like toothache. Cold water was intolerable.

Food - Appetite and thirst increased, especially at 11.30 a.m. after eating. Aversion to fish. Desires salt, farinaceous food. Worse salt, cold drinks. Better salt, ice cold drinks.

Head - Headaches with vertigo, aggravated by pressure, eating, heat, movement, improved after sleep. Localized head pains in the forehead and occipital region and felt when thinking about them. Occipital headaches, vertigo, buzzing in ears, with visual and psychosomatic complaints. Acute, pressure, neuralgic pain above right frontal portion of head (from inhalation by an atomizer). Severe neuralgic pains . down right temple and above right frontal protuberance, very acute and vanishing without a trace, appearing after ten or thirty minutes in left side of neck (near edge of trapezius muscle# (immediately from inhalation by an atomizer), j, >H

Limbs - Pain in the right arm from the elbow to the fingertips. Pain in the lower limbs, tenderness.at the limbs. Offensive smelling perspiration of the hands, feet and axilla. Pain on exerting pressure on muscles. Trembling of the limbs. Involuntary movement of the legs when they are touching the ground.

Liver - Slight hepatic deficiency.

Lungs - Early tuberculosis. Loeffler's syndrome. Morning cough with cold, watery sputum. Rusty, dirty taste at the back of throat. Difficulty expectorating. Expectorations mucus like cotton.

Male - Libido maintained, but- sexual impotence. Seminal discharge followed by weakness, sleepiness and the need to stretch out as a result of muscular pains. Impotence. Increased sexual desire without erections.

Modalities - Better from eating. Better rest. Worse from movement. Worse pressure and heat>Worse afternoon and evening. Worse neuralgic pain in anterior portion of head. Pain in right ear, worse evening. Face pain, worse cold water. Aversion to bathing.

Mouth - White, yellowish mucous. Lips dry, especially at night, split in the middle of the lower lip. Breath fetid, spitting of blood and burning in the mouth. Pain on swallowing, ameliorated by gulping, aggravated by cold drinks. Red rash, painful around the chin. Mucus like cotton (Puls.). Pain as from a splinter.

Nose - Coryza with watery flow, blocking the left nostril. Coryza better tea. Feeling of having a cold at the root of the nose only. Thick, fetid mucus, falling into the back of the throat. Aggravated after eating, by respiration and sleep. Burning and heaviness in the eyelids. Spasmodic rhinitis. Purulent rhinitis. Frontal sinusitis. Obstruction first of right nostril, then of left. Sneezing in morning on waking.

Rectum - Heaviness, pain before and during defecation, even when stools soft. Anal burning, heavy bleeding when first going to stool. Stools, hard at first, then soft in great quantities. Evacuation of small worms.

Skin - Itching of the toes, the inner side of the thighs and the bends of the arms and legs. Vesicular rash on the face, cheeks and chin. Fetid sweating of the feet and hands. Acrocyanosis. Eczema of the palms.

Stomach - Epigastric pain, aggravated by pressure and hot applications. Seasickness. Nausea and nauseous sensation in stomach and abdomen with eructation of wind.

Throat - Sore throat after eating. Pain in the right tonsil, improved by pressure and sleep. Throat congested, especially on the left and trickling of mucus. Mucus fetid when swallowing. Sensation as if a small substance were in the throat causing a desire to cough, but not benefited by coughing. Pain on swallowing, extending into ear and temples.

Vertigo - Vertigo with buzzing in ears. Vertigo with visual disturbances and occipital headaches.

COMMENTS - Aqua marina been used for thyroid problems because of the iodine content of seawater. For people aggravated by seawater, headaches, constipation and seasickness. Mentals are slow and apathetic. Great fatigue in the morning (Mag-m., Nat-m). Neuralgic pains in the face. Great weakness after sex. They have offensive perspiration (Sil.), offensive sweat on hands, feet, and under the arms.

Seeping of fetid mucus, worse when getting up in the morning. Sore throat with sensation of foreign substance in throat. Pain in the right tonsil, aggravated after eating, ameliorated by pressure and during the night.

Acute, paroxysmal, neuralgic pain in right anterior portion of head all the afternoon and evening (from inhalation by atomizer).

RELATIONS - Compare: (1) Nat-m. (2) Chlo- rum - but in addition to its chief ingredient, seawater contains in solution every inorganic substance in the world, also Silica marina.

***AQUA PETRA

(Mineral Springs)

PHARMACY - aq-pet. Aqua petra. Rock water. The mineral springs of Chase and Brittingham. **Historical dose:** All potencies.

CLINICAL - Asthma. Coughs. Headaches. Photophobia.

HOMEOPATHIC - The Philadelphia Journal of Homeopathy, Vol. II (1853-1854), page 615, published "Proving of Aqua Petra, From the Mineral Springs of Chase and Brittingham," by D.S. Kimball, M.D.

Kimball's symptoms included an afternoon headache, with fever, eyes that burn and smart, especially the edges of the lids, and ears that itch, the right one snaps on chewing. Throat rough and scrapy. Aching in the lumbar region with weakness. Weakness and lassitude. Full and rapid pulse.

Passing of much flatus towards morning. Aching and faint sense extending from the abdomen to the throat.

Urine that is pale, watery, scalds and has little odor, with burning in the urethra during and after passing urine.

Asthmatic breathing. Cough around 10 a.m. and 2 p.m. Expectoration white at first, later yellow and tenacious.

Difficult, dark yellow expectoration. **Saffron yellow colored** expectoration. Frothy, foamy, opaque, thick, with pieces in it. Transparent, viscid, watery expectoration.

REFERENCES – Murphy

***AQUA PURA

PHARMACY - aq-des. Aqua pura. Alchemical water. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies, Arthritis. Brain tumors. Cancer. Chronic fatigue. Immune disorders. Lung diseases. Kidney disorders. Tumors.

HOMEOPATHIC - Aqua Pura has been used for broken down constitutions and hopeless cases. Shortness of breath, exhaustion, multiple allergies. All kinds of cancer. Chronic fatigue. Lung weakness. Kidney failure.

RELATIONS - Compare: (1) Ars., Cadm-s., Care., Thuj., Kali-p. Sil.

REFERENCES - Murphy.

***AQUILEGIA VULGARIS

(Garden Columbine)

PHARMACY - aqui. Aquilegia vulgaris. Garden columbine. N. O. Ranunculaceae. Tincture of fresh wild plant in bloom. **Historical dose:** Tincture and all potencies.

CLINICAL - Clavus. Dysmenorrhea. Globus hystericus. Hysteria. Insomnia. **Sleeplessness.** Vomiting.

HOMEOPATHIC - Hansen gave the following indications for this unproved drug, "Clavus hystericus during menopause with vomiting of green substance, especially in the morning. Globus hystericus."

Nervous trembling of body, sensitive to light and noise. **Sleeplessness.** Dysmenor-rhea of young girls. Menses scanty with dull, painful, nightly increasing pressure in the right lumbar region.

Women at menopause with vomiting of green substance, especially in the morning.

RELATIONS - Compare: (1) Aeon., Cimic. and other Ranunculaceae.

REFERENCES - Boericke. Clarke.

***ARAGALLUS LAMBERTI

(White Loco Weed)

PHARMACY - arag. Aragallus lamberti. White loco weed. Rattle weed. **Historical dose:** Tincture and all potencies.

CLINICAL - Double vision. Locomotorataxia. Paralysis.

HOMEOPATHIC - Aragallus lamberti acts principally on nervous system, producing a bewildered, confused state. Symptoms of incoordination and paralysis. Tired in the morning. Diplopia. Burning in eyes. Cracking lower lip. Locomotor ataxia.

MIND - Mental confusion and apathy. **Bewildered.** Difficulty in concentrating mind, absent-minded. Cannot study. Lack of ambition. Great depression, worse in morning or evening. Desires to be alone. Cross, irritable. Restlessness and aimless wandering.

Limbs - Must concentrate his mind on walking. Weakness of limbs. Pain in left sciatic nerve. Cramps of muscles on front of leg while walking.

Lungs - Weight on chest in region of ensiform cartilage. Constriction as of a wide band. Soreness of chest under sternum. Oppression.

Throat - Aches. Feels full. Sore with nausea. Pharynx dark, swollen, glazed.

RELATIONS - Compare: (1) Astragalus and Oxytropis, two varieties of Locoweed, also Bar-c.

REFERENCES - Boericke. Clarke.

***ARALIA HISPIDA

(Wild Elder)

PHARMACY - aral-h. Aralia hispida. Wild elder. N. O. Araliaceae. Solution. **Historical dose:** Tincture and all potencies.

HERBAL - Aral-h. is a valuable diuretic, useful in dropsy of the cavities, either due to hepatic or kidney disease with constipation. Urinary disorders, especially with dropsy.

REFERENCES - Boericke. Clarke.

***ARALIA RACEMOSA

(American Spikenard)

PHARMACY - and. Aralia racemosa. American Spikenard. N. O. Araliaceae. Grows in rich woodlands throughout North America. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - **Asthma.** Coryza. **Cough.** Diarrhea. **Hay fever.** Hemorrhoids. Leucorrhea. Nausea. Prolapse, anus. **Sneezing.**

HERBAL - Aralia was used by the old herbalists as a remedy in tuberculosis and coughs, and for leucorrhea and other female complaints when the secretions are acrid or suppressed.

HOMEOPATHIC - The homeopathic uses have been chiefly based on a proving by Dr. S. A. Jones, in whom it developed an attack of asthma. Jones also experienced diarrhea and prolapsed rectum, soft, yellow stools, and an aching pain in the rectum after stool, extending upwards on the left side. Pain in rectum worse lying on side lain on.

Patient is weak, relaxed and exhausted.

Biliousness. **Asthmatic conditions with cough aggravated on lying down.** Acrid mucus secretions. Drenching sweat during sleep. Extreme sensitiveness to drafts.

The characteristic cough, according to Burnett is: "a fit of coughing occurring before midnight, either immediately on lying down or more commonly after a short sleep." Cough occurring at 11 p.m. after a short sleep.

MIND - Fear of lung disease cannot be shaken off.

Female - Menses suppressed. Foul smelling leucorrhea, acrid with pressing-down pain. Lochia suppressed with tympanites.

Liver - Pain from liver to right scapula.

Lungs - Asthmatic condition with coughing, worse lying down. **Dry cough coming on after first sleep**, about middle of night. Raw, burning feeling behind the sternum. Asthma on lying down at night with spasmodic cough, worse after first sleep with tickling in throat. Constriction of chest, **feels as if a foreign body were in throat.** Obstruction worse in spring. Whistling breathing. Salty expectoration feels warm in mouth. The least current of air causes sneezing with **copious watery, excoriating nasal discharge of salty acrid taste.**

.Mouth - Aphthae. As if foreign body in throat. Nausea in throat.

Modalities - Better from lying with head high. Better sitting up. Worse from drafts. Worse 11 p.m.. Worse after a short nap.

Nose - **Hay fever. Frequent sneezing**, worse least drafts with copious, watery excoriating nasal discharge.

COMMENTS - Loud wheezing respiration coming on immediately on lying down at midnight. Loud inspiration, more difficult than expiration. Right lung more affected than the left.

On turning to left sided, left side seemed affected and right side became quite free. As the attack passed off phlegm came more freely, had a salty taste and felt warm in the mouth.

RELATIONS - **Compare:** (1) Gins., Hed. (2) Calc. - turning on one side, symptoms go to that side, relieving opposite side. (3) Rumex - cough at 11 p.m. (4) Chlorum - opposite of Aral, inspiration easy, expiration difficult. (5) Pecten jacobaeus - humid asthma. Quick, labored breathing. Constriction of chest, especially right side. Asthma preceded by coryza and burning in throat and chest. Attack ends with copious expectoration of tough, frothy mucus. Worse at night. (6) Ars-i., Naph., All-c., Rosa, Sabad., Sinapis.

Complementary: Lob.

REFERENCES - Boericke. Clarke.

***ARANEA DIADEMA

(Papal Cross Spider)

PHARMACY - aran. Aranea diadema. Papal cross spider. Diadema aranea. Araneus diadematus. N. O. Arachnida. Araneae. Europe. Tincture of the whole animal. **Historical dose:** Tincture and all potencies.

CLINICAL - Acroparesthesia. Allergies. Bones disorders. Cancer. Catalepsy. **Chills**. Colic. Diarrhea. Dysmenorrhea. Dyspepsia. **Hemorrhages**. Headache. Hemoptysis. Intermittent fever. Leucocytosis. **Lung, cancer**. Malarial cachexia. Menstruation, irregularities. Neuralgia. Obesity. Polycythemia. Polyuria. Punctured, wounds. Rickets. Scorbutic, disorders. Scurvy. Spleen, disorders. Toothache. Tuberculosis.

HOMEOPATHIC - Grauvogl is our chief authority for the use of Aranea. The spider poisons powerfully affect the nervous system (Tarent., Mygal.). It is one of the leading remedies for the hydrogenoid constitution as described by him and for intermittent fevers and other intermittent disorders.

By hydrogenoid constitution, Grauvogl meant an abnormal sensitiveness to damp and cold and inability to live near fresh water, either rivers or lakes, or in damp, chilly places. This gives the worse from bathing, from the damp weather, localities or habitations, worse drawing in cold air.

Aran, is the remedy for the constitution favorable to malarial poisoning, where every damp day or place favors chilliness. There is **abnormal susceptibility to dampness and cold**. Patient feels cold to the very bones, cannot get warm enough. Coldness not relieved by anything.

Inability to live near fresh water, rivers, lakes or in damp chilly places (Dulc., Nat-s.).

Characteristic **periodicity, coldness**, and great susceptibility to dampness. Feeling of faintness with nausea, vertigo, trembling and cold sweating. Chilliness followed by little or no fever. Chill not better by external warmth, no sweat with fevers. Shivering, cold sweats. Palpitations. Head and feet cold. Face congested and burning. Rush of blood to the head.

Chill and neuralgia attacks at the same hour every day, every other day, week, month or regular period. Attacks are violent and sudden. Loquacious with painful attacks beginning and ending abruptly. Aggravation from mental exertion, amelioration from pressure on head.

Periostitis. Punctured wounds. **Feelings as if parts were enlarged and heavier**. Wake up at night with hands feeling twice their natural size. Exhaustion, must lie down.

Swelling of the spleen after malaria suppressed by quinine, malarial attacks worse in wet rainy weather, severe attacks of neuralgia after malaria suppressed by quinine. Neurosis. Periodic neuralgia. Parkinson's syndrome. Acroparesthesia at night. Radicular neuritis. Toxic or viral polyneuritis. Facial neuralgia. Obesity with fat and water retention.

Hemorrhage. Violent hemoptysis of bright red blood in debilitated subjects, bathing and damp places aggravate, coldness as if the bones were made of ice. Pains are like electric shocks. Headache relieved by smoking tobacco. Toothache after lying down at night. Creeping as of ants all over the body. Many symptoms occur on the right side.

MIND - Nervous. Great inner unrest, irritability, fear of death. Stays awake late, uneasiness and the need to move about. Confusion of mind, **better by smoking in open air**. People and objects seem unreal. Speech is perceived as if far away. Alternately, happy and depressed. Despondent, longs for death. Claustrophobia.

Abdomen - Distention of abdomen. Enlarged spleen. Colic returns same hours. Heaviness in lower abdomen, as of a stone. Pain better by rubbing.

Abdomen - Heaviness and sensation of repletion in the intestines with rumbling, repeated at the same hour each day. Shooting pains going from the gallbladder towards the appendix.

Back - Back icy.

Blood - Polycythemia. Leucocytosis.

Chest - Pain in intercostal nerve from nerve endings to spine. Bright red hemorrhage from lungs (Mill., Ferr-p.).

Constitutions - Hydrogenoid constitution, subject to neuralgia as a result of humid cold. Hemorrhagic diathesis.

Ears - Pricking pain in the right ear and Eustachian tube, spreading towards the left ear. Buzzing in the ears.

Eyes - Double vision. Heat and glittering before eyes, before headache. White is perceived as yellow.

Face - Face pale, yellowish color. Pain in right trifacial nerve from periphery inwards. Cheeks feel as if swollen during toothache.

Female - Menstrual blood has a smell of ammonia. **Menses, too early, too copious**, accompanied by pain in the lumbar and sacral regions, which is aggravated at the end of the period. Lumbar, abdominal neuralgia with vomiting and yawning during menstrual cycle.

Food - Desire for milk and feeling of being soothed greatly. Thirsty.

Head - Head numbed, head pains, **improved by smoking**. Daily headaches, improved by fresh air. Feeling of ants on the nape of the neck. Pain in the trigeminal nerve and occipital nerve.

Heart - Palpitations.

Limbs - Stinging pains in all the joints. Arms and legs feel as if asleep. Bone pains in limbs. Pain in **os calcis**, better continued motion. **Sensation of swelling** and of parts going to sleep. Numbness of parts supplied by

ulnar nerve. Arms and legs feel numb. Bones cold, as if made of ice. Ulcer on heel. Limbs feel heavy. Dull, gnawing aching in the bones of the limbs, on the right side. Pain in the right hip and right knee. Arthritis. Arthrosis.

Lungs - Hemoptysis, bright red. Irritated cough with huskiness.

Kidneys - Acute glomerulonephritis. Nephrotic syndrome. Urine strongly yellow in color. Polyuria. Strong smell of ammonia in the urine. Proteinuria. Oxalate, urate and phosphate crystals. Urochrome and guanidine present.

Modalities - Better smoking tobacco. Better in open air. Better movement. Better in the fresh air. Better summer and pressure. **Worse from cold, damp weather.** Worse cold bathing. Worse late in afternoon. Worse at midnight. **Exact periodicity.** Periodic recurrence at the same time of neuralgic pains and cold shivers. Worse from mental strain, especially of head pains.

Mouth - Sudden violent pain in teeth at night immediately after lying down. Feeling of cold toothache (incisors) in the cold air, pains recur at the same time each day. Bitter taste, better smoking.

Nose - Nose red, copper color.

Rectum - Violent attacks of diarrhea, vertigo and faintness. Stools liquid, accompanied by abdominal pains, improved by rubbing the abdomen. Stools glairy or yellow with repulsive odor. Diarrhea, alternating with constipation.

Sensations - **As if enormous enlargement** or numbness of parts, worse on waking or he wakes with such a feeling.

Skin - Yellow color of the face. Small fissures and cracks. Small vesicles which burst easily and dry immediately. Formation of abscesses. Slow healing of small wounds.

Sleep - Sleep disturbed, waking often and feeling that the hands and forearms are fat and swollen, as if enlarged. Anxious dreams, painful awakening. Restless and waking, as if hands and forearms were swollen and heavy.

Stomach - Cramps after eating a little, epigastrium painful to pressure. Nausea. Stomach pains, as though it would burst. Noisy eructation, either tasteless or tasting rotten and repulsive.

Temperature - **Coldness with pain in long bones** and feeling of stone in abdomen at the same hour daily. **Chilly day and night**, always worse during rain. No sweat.

Throat - Throat painful, red and swollen. Prickling, burning pains in the throat.

Vertigo - Vertigo, even when in bed. Vertigo with flickering before the eyes.

COMMENTS - Grimmer said **cancer of lungs** with hemorrhage, cases based on the tubercular miasm.

Hydrogenoid constitution. Abnormal sensitiveness to damp and cold, inability to live near fresh water, lakes, rivers, etc. or in damp, chilly places (Nat-s.. Thuja.). Very sensitive to dampness and rainy weather. Marked periodicity of symptoms, clock-like regularity, annual recurrence of symptoms and conditions.

Vascular and cerebral tension with insomnia, feverish agitation, clouding of consciousness. Neuralgia at regular intervals, especially of the trigeminal region, occipital nerve and of the limbs.

Gastric and intestinal complaints, as well as genital and urinary complaints, mostly cramping pains. The patient thinks his illness is improved by smoking, but the symptoms always recur at the same hour.

Hemorrhages from many parts, from wounds. Punctured wounds. Exhaustion. Pains like electric currents. Great desire to lie down, many symptoms better lying down. Sensation of swelling in many parts, head, face, hands of numbness of coldness as if bones were made of ice.

RELATIONS - It antidotes: Chin., Quinine, Merc. **Antidoted by:** Smoking tobacco. **Compare:** (1) Cedrón. Mygale, Tela, Theridion, Tarent., Ip., Nux-v. (2) Ars. - intermittents and bone disorders. (3) Lachesis - has greater loquacity and hypersensitivity to light touch, cannot bear the any constriction, better after menses. (4) Cedrón - intermittents of hot climates, Aran, of cold climates chiefly. (5) Apis - Very sharp pains, which are worse by heat and partial or generalized edema, occurring suddenly. (6) Form-ac. - Its action is directed towards cutaneous and mucus allergies, for exudative tendencies. Action on neuritis, arthritis or arthrosis. (7) Paris Quad. - Neuralgias and Barre-Liéou's syndrome. (8) Hypericum.

REFERENCES - Clarke. Grimmer. Julian.

***ARANEA IXOBOLA

(Cross-spider)

PHARMACY - aran-ix. Aranea ixobola. Cross-spider. America. Tincture of the whole animal. **Historical dose:** All potencies.

CLINICAL - Alcoholic polyneuritis. Facial neuralgia. Goiter. Hashimoto's disease. Muscle pain. Neurasthenia. Neuritis. Psychosis. Thyroiditis.

HOMEOPATHIC - Aranea Ixobola is a Cross-spider which lives in Europe, but was imported from America.

Pooch examined the venom, which comes from the Cheliceræ. The dried venom represents 30% of the original poison.

J. Mezger undertook a homeopathic proving in 1952 at the Robert Bosch Hospital in Stuttgart, at the time when Dr. Otto Leiser was director there. Thirty-two provers, of whom seven were women and all were doctors, participated.

Action was directed to the digestive system, principally the liver and gallbladder. Neurotropic and vascular action, both central and peripheral. Extreme inner disquiet. Euphoria, depression. Overwhelming need to smoke. Hypersensitive senses of smell and hearing. General and localized feeling of coldness.

Shaking, sensation of inner trembling, need to move about. Spasmodic contracture of the unstriped muscles. Arterial congestion, spasms of the digestive passages. Spasms of the striped muscles. Cramps, tremors, and clonic spasms.

Rheumatic pains. Neuritis with abnormality of cerebrospinal fluid. Painful pulsations of the heart and large vessels. Pain in the liver and gallbladder. Thyroid complaints. Spasmodic instability of the nerves, vessels and muscles. Parathyroid deficiency and tetany. Toxic adenoma of the thyroid. Hashimoto's disease, sub-acute thyroiditis with goiter. Spasmodic cardiovascular complaints. Psychotic, digestive and hepatic disorders.

MIND - Absent-minded. Mental exertion aggravates. Answer, answers snappishly. Snappish. Impolite. Hurried. Restlessness, better open air (Arg-n.). Witty talk. Delusions, everything seems unreal. Delusions of being smaller. Time passes too slowly, appears longer.

Euphoric state, as if he had drunk wine. Teasing disposition and the need to speak. Melancholy, weariness of life. Irritable. Must make a great effort not to be impolite or rude.

Incapable of mental concentration inattentive, wants to do nothing. Must make an effort to set to work. Need to move about, feels better in the fresh air. Inner disquiet and hastiness, nothing is finished quickly enough for him. Neurosis from anguish. Mania and depression.

Abdomen - Distension of right hypochondrium. Pain better bending backward. Immediately after meals, nausea with feeling of repletion and heaviness in the hepatic region. Pain in gall bladder. Biliary colic. Sharp, shooting pains in the gallbladder.

Back - Stiffness at the nape of the neck, occurring suddenly and spreading towards the trapezius muscles and the shoulders. Acute pain in the lumbar region, requiring him to stop work for several days.

Chest - Angina pectoris.

Constitutions - Tubercular condition in phosporic, nervous subjects.

Ears - Hypersensitive to noise.

Female - Menses too early by a week, preceded by blood-streaked leucorrhea. Disorders of libido.

Food - Aversion to fats and rich food. Desires cheese, meat. Strong desire for sugary foods, which are easily digested. Desires sweet food, tobacco. Worse alcohol, fats and rich food. Worse wine. Better coffee, tobacco. Worse by fatty foods, especially pork fat, and alcohol.

Head - Hot feeling in the head and vertigo. Deafening or stinging headache, especially right-sided, worse when bending down or after alcohol, better in fresh air or smoking a cigarette. Headache after mental effort. After copious urination, headache disappears.

Heart - Palpitations of heart immediately after lying. Palpitations extending to epigastrium. Strong palpitations and squeezing feeling. Pressure and tingling in the precordial region. Tachycardia and neurosis with strain in those who worry. Aortic deficiency of arterial origin. Pulse is felt in the carotid artery and abdominal aorta, worse when lying down and resting, better, when moving and after drinking coffee. Acceleration of the pulse.

Kidneys - Overpowering need to urinate and increased or reduced volume of urine. Polyuria.

Limbs - Numbness of single parts. Coldness of painful parts. Pain in left leg, sciatica, better motion. Trembling of hands increased. Rheumatic pains in all the joints, especially in the arms, legs and shoulders. Left-sided sciatic pain after standing for a long time, better by moving the legs. Heavy feeling in the arms, especially the right arm and swollen feeling with clumsiness of the right hand. Numb feeling in the forearm and left hand.

Lungs - Persistent, irritating cough and feeling of soreness in the respiratory passages, every breath is painful. Dry feeling in the trachea and intense thirst after cold drinks. Chronic tracheitis. Chronic asthma. Miller's asthma (false croup).

Male - Low libido with cold genital organs. Increased libido with insufficient erection.

Modalities - Better from drinking coffee and smoking cigarettes. Better motion. Better in fresh air. Better walking. Better getting up. Better leaning backwards. Better lying down and stretching out fully. Better after expelling gas and going to stool. Worse from rest. Worse cold. Worse alcohol. Worse in the morning. Worse warm and wet weather.

Mouth - Dry feeling in the mouth and pharynx, sometimes localized on one side only. Bleeding gingivitis,

cracking of the lips, aphthae.

Nose - Sharpened, perverted sense of smell. Irritation of the mucus membranes in the nose. Watery discharge. Hypertrophic

Aranea ixobola rhinitis.

Rectum - Sometimes constipation, but more often pale yellow diarrhea with a repulsive odor. Explosive evacuation and immediately the feeling of not quite having emptied the intestines.

Skin - Cracked lips. Chapped fingers. Acne of the scalp, at the hairline. Desquamation of the hands and nose like that following scarlet fever. Seborrhea of the nose. General itching worse when scratched or from pressure. Erythema like fleabites. Varieties of lupus erythematosus, simple or exanthematic. Eczema treated by inoculation of impetigo. Psoriasis of the scalp and hair. Rosy pityriasis. Pityriasis characterized by pimples with a hair in the center.

Sleep - Sleep long in coming, followed by a rush of thoughts and inner unrest. Remains awake for several hours during the night. Sleep disturbed by worrying or frightening dreams. Dreams of quarrel with a friend. Dreams of the death of a close relation or husband. Dreams of violence.

Stomach - Vomiting after drinking alcohol. Vomiting, worse wine (Ant-c.).

Temperature - Constant chilliness, despite staying in a warm room, but no sign of catarrh. Feet cold, not gaining heat when moving. Sweating over the whole body, especially after eating soup. Sudden flushes of heat with headaches and sweating on the forehead. Sweating at night, which wakes him.

Throat - Itching of the throat and difficulty swallowing, as if he had an inflammation, ameliorated by hot drinks. Constant need to scratch the throat and occasional grayish-white sputum. Pulsating in throat with palpitations.

Vertigo - Vertigo with a hot feeling. Vertigo with nausea.

COMMENTS - Hypertrophic cirrhosis without jaundice. Viral hepatitis. Atony of the gallbladder. Acute inflammation of the gallbladder. Gallstones. Chronic cholecystitis without the formation of stones. Cirrhosis of the bladder and enlargement of the spleen. Fibrocystic disease of the pancreas. Chronic pancreatitis. Cystic fibrosis of the pancreas.

RELATIONS - Compare: (1) Viscum Album. (2) Tarent. - Nervous complaints with restlessness, anxiety, need to run. palpitations and suffocation, sexual excitement. (3) Theridion - Nervous hypersensitive and intolerance of the slightest sound. Left-sided thoracic pain, nausea and vertigo from closing eyes.

REFERENCES-Julian.

***ARANEA SCINENCIA

(Gray Spider)

PHARMACY - aran-s. Aranea scinencia. Gray spider. N. O. Arachnida. Araneae. A gray spider found in Kentucky on old walls. Does not spin a web, N. O. Arachnida. Tincture. **Historical dose:** All potencies.

CLINICAL - Debility. Eyes disorders. Headache.

HOMEOPATHIC - Aran-s. has been proved in 1c and 2c dilutions. One remarkable symptom noticed was **"Constant twitching of under eyelids,"** which brings this spider into line with the chorea of Mygale.

Eyes inflamed, weak, watery, lids swollen. Rather profuse flow of saliva, sweet taste in mouth. Dull, stupid headache of considerable intensity, especially in upper back part of head, unable to rest for it, could not collect thoughts with it. Felt as if he had been drinking. All symptoms worse in a warm room.

RELATIONS - Compare: (1) Spiders generally. (2) Tela, Agar. (3) Carb-v. - worse warm room, also Puls., Apis, Sulph.

REFERENCES - Boericke. Clarke.

***ARBUTUS ANDRACHNE

(Strawberry Tree)

PHARMACY - arbu. Arbutus andrachne. Strawberry tree of the Levant. N. O. Ericaceae. Tincture of young shoots. **Historical dose:** Tincture and all potencies.

CLINICAL - Arthritis. Eczema. Gout. Lumbago. Rheumatism. Urine, disorders.

HOMEOPATHIC - The strawberry tree sheds its bark annually, which gives the signature of its use in skin cases. Arbu. is one of Dr. Cooper's remedies. He cured several cases of eczema with it and observed that it produced pains in the joints of a gouty or rheumatic character. Noting these symptoms, he was led to give it in certain inveterate cases of arthritis.

For eczema associated with gouty and rheumatic symptoms. Arthritis, especially larger joints. Lumbago. Symptoms shift from skin to joints. One patient who was benefited by the remedy had worse in North- East winds. The larger joints are principally affected and the slightest movement sets up inflammation.

Bladder symptoms. In one case, the patient noticed that it **"cleared his urine."** Arbutin has a reputation among

the allopaths as a urinary remedy. Arbutus is allied to Uvaursi, which belongs to the Ericaceae.

RELATIONS - Compare: (1) Arbutin, Led., Bry., Kalm.

***ARECA CATECHU

(Betel Nut)

PHARMACY - arec. Areca catechu. Betel-nut. Areca-nut. N. O. Palmae. Palmaceae. Trituration of the nut. Triturations and solutions of the twoalkaloids. Arecoline and Tenaline. **Historical dose:** Trituration and all potencies.

CLINICAL - Helminthiasis. Myopia. Parasites. Salivation. Tapeworms. **Worms.**

HERBAL - The betel-nut is in very common use in the East as a masticatory for sweetening the breath and hardening the gums.

The chief medical use of the Areca nut has been in helminthiasis in dogs, but it is not altogether without danger. According to F. Hobday. Tenaline is a much safer and more certain anthelmintic than Arecoline. He advises a dose of one minim of the solution to the pound-weight of the animal, either given pure or with a little water. It is not to be given by injection.

The Hydrobromate of Arecoline has been used to cause contraction of the pupil. It acts more promptly and more energetically than Eserine, but its duration of action is shorter.

Increases the amplitude of pulsations of the heart. It arrests the heart's action in diastole in poisonous doses and in non-toxic doses increases the amplitude of the pulsations without increasing their frequency.

Acts also as a salivatory, according to Ricapet, it surpasses Pilocarpine as such. Serviceable in glaucoma.

Useful for **worms and parasites**. It promotes the contractibility of the intestines and as a tinea-fuge it requires no additional laxative. It should be given in pills coated with gelatin or keratin.

***ARGEMONE MEXICANA

(Prickly Poppy)

PHARMACY - arge. Argemone mexicana. Prickly poppy. Argemone ochroleuca. N. O. Papaveraceae. **Historical dose:** Tincture and all potencies. Fresh juice is applied to ulcers and warts.

CLINICAL - Bright's disease. Colic. Rheumatism.

HOMEOPATHIC - Argemone mexicana has been used for rheumatic disease associated with Bright's disease. Colicky cramp and spasm of bowels. Painful neuro-muscular conditions, preventing sleep. Rheumatism. Left knee stiff and painful. Feet swollen. Weakness.

Female - Menses suppressed. Diminished sexual desire with weakness.

Head - Throbbing headache in eyes and temples. Head hot. Throat very dry, pain on swallowing.

Kidneys - Passes less urine. Changing color.

Modalities - Worse at noon, weakness.

Stomach - Feels sick like vomiting. Gripping in pit of stomach. No appetite. Belching and passing gas.

REFERENCES - Boericke. Clarke.

***ARGENTUM CYANATUM

(Silver Cynaide)

PHARMACY - arg-cy. Argentum cyanatum. Silver cyanide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Angina pectoris. Asthma. Cough. Cramps. Esophagus, spasms.

HOMEOPATHIC - As a result of inhaling fumes while silvering with "**Argentine**" a woman experienced some severe poisoning symptoms, among the most prominent were in the throat.

Scraping in throat. Sense of constriction and burning. Violent pain in supra-sternal fossa and under the sternum every time she turned to one side. Suffocative attack. Respiration difficult and short.

Constant dry, spasmodic cough, allowing her to articulate but one word at a time. Painful cramps in feet. The face and tongue were very red. Weakness. Painful cramps in feet.

Arg-cy. has been helpful in cases of **cancer of the tongue and larynx**. Angina pectoris. Asthma, severe spasmodic cough. Cramps. Spasms of the esophagus.

REFERENCES - Boericke. Clarke.

***ARGENTUM IODATUM

(Silver Iodide)

PHARMACY - arg-i. Argentum iodatum. Silver iodide. Trituration. Wistorica/ztose.-Tnturation and all potencies.

CLINICAL - Catarrh. Hoarseness. Paralysis. Syphilis.

HOMEOPATHIC - Hale suggested Arg-i. as a remedy for conditions presenting symptoms of both the silver or the iodine components.

In practice, Hale found Argentum iodatum of great value in disorders of the throat, pharynx, larynx and bronchia in some peculiar mental disorders, glandular affections, catarrhs and disorders of the heart.

***ARGENTUM METALLICUM

(Silver Metal)

PHARMACY - arg. Argentum metallicum. Silver metal. Silver leaf. Precipitated silver. Silver, (Ag., At. Wt. 107.66). Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Anklosing spondylitis. Bedwetting. Blepharitis. Brain-fag. **Cartilage, disorders.** Chlorosis. Conjunctivitis. Cough. Diabetes. Emaciation. Encephalomyelitis. **Epilepsy.** Epithelial, disorders. **Exostosis.** Keratitis. Headache. Heart, disorders. Hip joint, disease. Hysterical, joints. Influenza. Joints disorders. Laryngitis. **Leucorrhea. Menopausal, hemorrhage.** Osteomyelitis. Osteoporosis. Ovarian, cysts. Ovaries, disorders. **Rheumatism.** Uterus, cancer, prolapsed. Tuberculosis. Voice, loss.

HOMEOPATHIC - Luna of the Alchemists. Argentum metallicum corresponds to deep-seated insidious disease. In the mental sphere it affects the intellect more than the disorders.

Headache of businessmen. Left-sided headache as if in brain substance. Headache and dyspepsia induced by mental agitation, nursing the sick, mental exertion. The more deeply seated the troubles are the more likely are they to be painless.

Argentum metallicum affects all the cartilages and hence all joints and bones with tearing and bruised pains, tenderness and weakness, painful, so-called **"hysterical"** joint, joint rheumatism without swelling, pain in rib cartilages and especially the left.

Exostosis on skull. Affects nerves causing convulsive and spasmodic effects. **Epileptic attacks** followed by delirious rage jumping about, striking those near.

Argentum metallicum acts upon joints and their components, bones, condyles, cartilages and ligaments. Arg-m. **thickens the tissue especially cartilages.** Emaciation, a gradual drying up, desire for fresh air, dyspnea, sensation of expansion and left-sided pains are characteristic. The larynx is also a special center for this drug. Emaciation. Symptoms appearslowly, but progressing, deeply penetrating. Decay.

Malfunctioning of the pituitary gland, the optic thalamus, the ovaries and testicles. Infectious encephalomyelitis, caused by influenza. Parkinson's disease. Sensation of electric shocks and nervous trembling over the whole body. Sleeping sickness. Twitching, contraction and trembling of limbs, needs to get up and walk about.

Secretions of mucus membranes are **thick**, gray or tenacious or like boiled starch. Lies down on account of tiredness and weakness. Pains gradually increase, become violent then suddenly cease, worse by touch. Painless twitching or electric-like shocks. Pains are accompanied by polyuria. Cramps in muscles, limbs feel powerless. Bones are painful, tender. Sore rawness.

MIND - Forgetful. Loss of control over mind andbody. Loss **of mentalpower.** Total diminution of memory and difficulty in concentrating. **Mental exertion aggravates.** Mental agitation causes headache and indigestion. Neurosis from worry. Worried, feverish, more or less hasty. Hypochondria. Anxiety about health. Fear of apoplexy during palpitations. Nightly fears in children. Restless anxiety which drives him from place to place. Hurried feeling.

Cries for a long time about trifles, weary, sad, pitiful state. Cries from nervous irritation with talkativeness, agitation and mental strain. Talkative or disinclined to talk in society, changes subjects. Hasty, deceitful. Bars out all sympathy for friends.

Loquacity in daytime. Takes on all sorts of whims often does strange and unaccountable things. Constant feeling of being drunk. Increased cheerfulness and disposition to talk the whole time.

Melancholy. Depressive psychosis. Maniacal and depressive state. Pre-senile and senile dementia. **Delirium after epilepsy.** Cerebral inhibition, following psychological stress. Delirious rage with jumping about and striking those near, after epileptic attack. Starting as if electric shocks through body during sleep, wakening her. Time passes slowly.

Abdomen - Loud croaking with hunger in abdomen. Painful soreness of abdomen, worse riding in a carriage. Abdominal distention. Noisy rumblings in the bowels like frogs croaking with drawing, cutting pains. Feeling as though a live worm were coming out of the anus.

Back - Severe backache, must walk bent with oppression of chest. Icy cold feeling near sacrum.

Causations - Onanism. Sunstroke.

Chest - Raw, sore feeling when coughing. **Great weakness in the chest** (left), stitches in chest impeding breathing, while reading aloud or talking. **Feeling of raw spot near supra sterna fossa**. Boil near the last rib, Pain in left lower ribs. Neuralgic pains along the entire border of left lower rib. Aching and shooting pains in the right side of the chest and sternum. Prickling pains in different areas of the chest.

Constitutions - Suited to thin patients with hollow eyes, pale skin, tendency to tubercle, decay, cancer, deep ulcers, imbecility. It is adapted to tall thin irritable people.

Ears - Itching of ear lobes, has to scratch until it bleeds. Shooting pain in the left ear, spreading to the brain. Blocked feeling in the right ear. Sub-acute ear infection. Diminution in auditive acuity. Buzzing in the ears.

Eyes - Itching in eyelids and canthi. Abundant purulent discharge. Lachrymal stricture. Eyelids and tarsi become thick. Eyelids red and thick. Obscurity of vision. Violent itching of the corners of the eyes. Blepharitis with eyes closed. Catarrhal, purulent conjunctivitis. Follicular conjunctivitis. Ulcerated keratitis. Iritis.

Face - Pale, sallow with weakness. Red. Sudden heat with palpitations. Pain in facial bones.

Female - Ovaries feel too large. Pain in left ovary. Ovarian cysts, tumors. Bearingdown pain. Prolapse uterus with pain in left ovary and small of the back, extending in front and downwards. **Eroded spongy cervix**. Palliative in scirrhus of uterus. **Menopausal hemorrhage**. Sore feeling throughout abdomen. Scirrhus of uterus.

Leucorrhea, foul, excoriating, bloody water. Palpitations during pregnancy.

Food - Want of thirst, even during hot stage of fever. Desire for wine. Aversion to even the thought of food. Appetite very much increased, hungry after eating a full meal. **Great hunger. Hungry in morning, giving her nausea**. Appetite good, at times loss of appetite with aversion to smoking.

Head - Dull paroxysmal neuralgia over left side, gradually increasing and ceasing suddenly. **Headfeels empty, hollow**. Pain between left eye and frontal eminence. **Exostosis on skull**. Crawling and emptiness in head. Scalp very tender to touch. Drilling, boring headache.

Heart - Stops, then trembles, then throbs, better inspiration. Palpitations with cardiac unrest, better by lying on left side. **Palpitations** during pregnancy, better deep inhalations. Pulse intermittent and very irregular during palpitation.

Kidneys - Frequent urination, polyuria. Diuresis. **Urine profuse, turbid**, sweet odor. Diabetes, if there is swelling of the ankles. Urine like whey of sweet odor. Chronic urethritis. Frequent need to urinate and profuse emission of urine. Yellowish- green urinary secretions. Chronic cystitis. Hydronephrosis. Pyelonephrosis. Pyelitis. Proteinuria and glycosuria.

Limbs - Rheumatic disorders of joints, especially elbow and knee. Involuntary contractions of fingers, partial paralysis of forearm, writer's cramp. **Swelling of ankles**. Arms feel powerless. Legs weak and trembling worse descending stairs. Calves feel as if too short on going down stairs. Swelling of ankles (Diabetes). Writer's cramps. Limbs feel numb or stiff. Burning in corns.

Lungs - Easy expectoration of gray, gelatinous or starchy mucus. **Cough from laughing**. Hectic fever at noon. On reading aloud, must hem and hawk. Alteration in timbre of voice. Fits of coughing with violent expectoration of mucus resembling cooked starch.

Male - Crushed pain in (right) testicles. Clothing increases pain when walking. **Seminal emissions without sexual ex**

citement and erection. Frequent urination with burning. Yellowish green discharge. Frequent emission of sperm at night. Testicular pain, on the left side, as if bruised. Impotence and nightly seminal discharge. Sterility. Loss of libido. Inflammation of the glands and prepuce. Orchitis. Tumors of the testicle. Acute and chronic inflammation of the prostate gland.

Modalities - Better in open air, cough. Better at night when lying down (opposite Hyos.). Better from motion. Better coffee. Better wrapping up. Worse from touch, pressure. Worse toward noon. Worse 3 p.m. to 6 p.m. Worse from using voice, speaking, singing. Worse from mental strain. Worse cold damp. Worse riding in carriage. Worse from lying on back. Worse sitting, stooping. Worse from entering warm room. Worse in the sun.

Mouth - Dry feeling in the mouth, although the tongue is moist. Stomatitis and gingivitis. Bringing up of thick, sticky, grayish, gelatinous mucus in the morning.

Nose - Copious flow of nasal mucus. Exhausting coryza with sneezing. Violent fluent coryza with frequent sneezing, causing exhaustion. Nosebleed with tickling, worse blowing nose. Nostrils blocked with or without sneezing. Boils on the nose. Adenoids. Chronic rhinitis. Nasal polyps. Lupus of the nose.

Perspiration - Sweats only on abdomen and chest. Sweats during and after meals. Sweats after midnight.

Rectum - Vomiting during stool. Stools soft, passed several times during the day.

Skin - Nervous itching, crawling, tickling on various parts. Itching, burning sensation spread unevenly over the surface of the skin without the need to scratch. Tingling sensation, as if an insect were crawling over the skin. Rosy pityriasis. Prurigo. Itching. Senile pruritus.

Sleep - Electric shocks on dropping to sleep. Nausea in dreams. Sleep disturbed by terrifying dreams, which leave him worried on waking. Sleeping sickness.

Stomach - Feeling of hunger and empty stomach in the morning. Burning in stomach, ascending to the chest. Anxiety and pressure in the pit of stomach. Appetite increased or repugnance to all food. Hiccough on smoking. Nausea in dreams.

Temperature - Hectic fever at noon. Feeling of cold and shivers by day and night. Very high temperature between 11 a.m. and 1 p.m.

Throat - **Hoarseness** and aphonia, worse using voice. Larynx feels sore and raw. Total loss of voice in professional singers. **Worse from use of voice.** Hawking, viscid, **gray, jelly-like mucus** and throat sore, on coughing. Chronic pharyngitis. **Profuse and easy morning expectoration.** Tension in throat worse yawning. Fauces numb. Abscess on the tonsils.

Vertigo - Attacks of vertigo on looking at running water. Whirling, as if drunk. Vertigo on entering a room after a walk. Worse entering warm room. Vertigo with intoxicated feeling.

COMMENTS - The muscular system is affected with cramps in limbs, calves feel too short going downstairs, stiffness, numbness, electric-like shocks in joints and limbs, painless twitchings. The heart is especially \ affected, frequent, spasmodic, though painless twitchings in whole heart muscle, worse lying on back, fears having a stroke.

Sensation as if heart stood still, followed by trembling, then irregular violent throbbing. Palpitation, at night during pregnancy. In social interaction, disinclined to talk, discouraged (Reaction from this is a great inclination to talk, mind very clear.) Frontal headache of businessmen. Headache increasing gradually and ceasing suddenly, at acme as if a nerve being torn, usually left side.

Sticky saliva and mucus expectoration, which is easy. Secretion like boiled starch from the mucus membranes, or there may be a thin and at the same time thick yellow or greenish discharge.

Great hunger even after a full meal. Extreme dryness of mouth, tongue sticks to palate. This symptom with the polyuria

Argentum metallicum points to diabetes in which Arg. is particularly indicated if there is swelling of the ankles. Spasmodic bedwetting at night. Effects of onanism: impotence, atrophy of penis, bruised pains in testicles. Pains in left ovary, feels enormously swollen, prolapse of uterus (scirrhus). Metrorrhagia, large lumps with violent pains, worse by every motion. Arg-m. acts more on the left side than the right, left ovary is affected. "Prolapse uterus with pains in left ovary."

Juvenile disorders of growth in bones. Fracture of the tip of the second metatarsal bone. Fracture of the scaphoid and tarsal bone. Fracture of the anteriortibia. Deforming arthritis of the hip. Vertebral arthritis.

Prominent tenderness. Tearing pressure and pains in the bones. Joint rheumatism without swelling. Parts feel bruised when pressed on. Hoarseness of singers and speakers, worse speaking or singing. Laughing causes cough. Restless sleep, electric shock through body wakens her.

Very specific for the ligaments and cartilage infections, fibrositis, condylitis (Arg-n.). Severe laryngitis is a keynote, clergyman's sore throat.

RELATIONS - Teste classes Arg-m. with Mere, and with Ars. **Antidotes:** Merc., Puls., Zinc., Pall, (ovaries, Pall., right, Arg., left). Stann. - cough excited by laughing. **Antidoted by:** Merc., Puls. - an occasional dose of Puls, favors action of Arg-n. in ophthalmia. **Compare:** (1) Arg-n. - Anxious unrest with great hastiness. Irritation of the mucus membranes with nervous and muscular weakness. Phobias. (2) Alum., Calc, Plat., Puls, Sei., Sep., Stann., Zinc. (3) Med. - Amnesia for recent facts. Hasty and fidgety, burning of the heels. Itching secretions from the skin and mucus membranes, smell of brine. Joint pains improved at the seaside. Ameliorated by resting in 'knee-chest'position. (4) Psor. - Demineralized weak, chilly. Anxious with periodic migraines and offensive eruptions. (5) Ampélopsis - Chronic hoarseness in scrofulous patients. **Follows well:** Alum., Plat. **Followed well by:** Calc., Puls., Sep.

REFERENCES - Boericke. Clarke. Julian. Murphy.

***ARGENTUM MURIATICUM

(Silver Chloride)

PHARMACY - arg-m. Argentum muriaticum. Silver chloride. (AgCl).Trituration. **Historical dose:** Trituration and all potencies.

HOMEOPATHIC - Violent urging to pass urine which must be attended to immediately. Drawing in skin on outer side of left thigh and inner condyle of right elbow. Boring in outside of right ankle and side of right foot.

Tearing in left thumb and hand. Pressing pain in forehead, worse stooping, better coughing. Drawing pain in skin of left temple as of contraction. Tearing in right upper jaw and right eyelid, with stitches.

Eyes - Pain on the right lower orbital border. Tearing below the right eye. Violent stitching in the right lids. Violent stitches in the skin of the right lid.

Face - Tearing in the upper jaw. Tearing in the right upper jaw.

Head - After 4 p.m., frontal headache again, especially on stooping. Awoke with pressing in the forehead, which lasted till 4 p.m.; increased on stooping, relieved by coughing; once, in the open air., even nausea appeared with a more violent attack of the headache, which, in general, was not always equally severe in a given time, but sometimes decreased remarkably, then again without cause, became suddenly very violent. Heaviness and pressure in the frontal bone, with heat in the forehead; increased on stooping; more violent at times, and lasting till he went to sleep. 9:30 a.m. tearing in the frontal bone; again at 4 p.m. Drawing in the skin of the left temple, as if it were contracted. Tearing in the left temple. Tearing in the vertex and in the occiput. Tearing on both sides of the occiput.

Limbs - On walking, drawing in the skin on the external side of the left thigh; drawing in the skin above the inner condyle of the left elbow-joint. Tearing in the left shoulder. Drawing in the skin above the inner condyle of the right elbow. On the evening, boring on the sides of the right foot. Boring

outside of the right ankle. Pressing deep in the right leg, on sitting, lasting several minutes, and often returning.

Kidneys - Very frequent and violent urging to urinate; much urine. Violent urging to urinate, with dark yellow, and very acrid urine. Remarkably violent urging to urine, which had to be obeyed speedily; much clear urine passed; again in an hour, and several times afterwards, until 4 p.m. In the night, very frequent urination; urine as usual in quality and quantity. Frequent and copious urination, but with less urging.

Mouth - Taste slightly metallic, inclining to bitter.

Throat - Convulsive contraction in the pharynx.

REFERENCES - Boericke.

*** ARGENTUM NITRICUM

(Silver Nitrate)

PHARMACY - arg-n. Argentum nitricum. Silver nitrate. Lunar caustic. Trituration and solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Acidity. Addison's disease. Anemia. **Anticipation. Anxiety, attacks.** Chancre. Chemosis. Dyspepsia. Epilepsy. Belchings. Erysipelas. Eyes disorders. Flatulence. **Fears.** Fright. Gastric ulcer. Gonorrhea. Hands, swelling. Headache. Heartburn. Herpes zoster. Impetigo. **Incoordination.** Locomotor ataxia. **Melancholy.** Neuralgia. **Ophthalmia, neonatorum. Panic, attacks.** Paralysis. Prostate, enlargement. Scarletina. Smallpox. Spinal irritation. Syphilis. Taste, altered. Throat disorders. Tongue ulcerated. **Trembling.** Warts.

HOMEOPATHIC - It was the use of Argentum nitricum in ancient times in the treatment of epilepsy which led to the production of the lamentable cases of lead-colored pigmentation of the skin called Argyria.

Arg-n. has **irresistible desire for sugar**, which at the same time aggravates. Kent related a case illustrating this. A nursing infant had a grass-green diarrhea which failed to yield to Merc., Ars., and Cham. At last Kent discovered that the mother ate a pound of candy a day.

Arg-n. was given and the candy stopped and the child soon got well.

Grimmer used it for Addison's disease, lead-colored pigmentation of the skin. Mental symptoms are important indications for the use of the remedy, nervous fears and restlessness with trembling hands, **skin cancers.**

In Arg-n. the neurotic effects are very marked, many brain and spinal symptoms presenting themselves which give certain indications for its homeopathic employment. Symptoms of **incoordination, loss of control** and want of balance everywhere, mentally and physically, **trembling** in affected parts. Emaciation is progressive. Paraplegia. Ascending paralysis. Parts seem **enlarged** or bound up. Pains increase and decrease gradually. The cases of epilepsy calling for this drug are those caused by fright or occurring at the menstrual period. For days or hours before the attack the pupils are dilated and after the attack the patient is very restless and has trembling of the hands.

Impulse to walk very fast (Lil-t.). Suitable to businessmen, students. Very characteristic is the **great desire for sweets**, the splinter-like pains and free muco-purulent discharge in inflamed and ulcerated mucus membranes. Sensation as if a part were expanding and other errors of perception are characteristic. Pains increase and decrease gradually.

Muco-purulent discharges and **splinter like pains.** Faint and tremulous. Flatulent state and prematurely aged look. Explosive belching, especially in neurotics. Upper abdominal disorders brought on by undue mental exertion. Paraplegia, myelitis and disseminated sclerosis of brain and cord. **Intolerance of heat.** Sensation

of a sudden pinch (Dudgeon). Destroys red blood corpuscles, producing anemia.

MIND - Nervous impulsive and hurried, yet timid and anxious. Panic and anxiety attacks. Dreads ordeals. **Anticipation, apprehension and fear**, when ready to go to doctor, dentist, church, etc. Diarrhea from anticipating upcoming events. **Performance, anxiety**. Examinations, fear of taking tests. Thinks that all his undertakings will and must fail.

Fears, phobias and anxieties. Fears projecting corners of buildings and high buildings. **Fear of heights**. Fearsome. **Fear of flying in airplanes**. Fear of impending evil. Fear of crowds. Fear of dark. Claustrophobia. Fear of fainting. Fear of being too late. Fear of failing. **Fear of having a panic attack**. Fear of losing self-control.

Peculiar mental impulses. Impulse to jump when crossing a bridge or from a window. **Impulsive, wants to do things in a hurry** (Lil-t.). Walks rapidly from anxiety.

Fear of passing a certain point of high buildings. Imagines he cannot pass a certain point (Kali-br.). The sight of high buildings makes him giddy and causes him to stagger, it seems as if houses on both sides of street would approach and crush him.

Tormented by strange ideas and emotions. Irrational, does strange things and comes to strange conclusions, does foolish things. Hidden irrational motives for actions. **Delusion he is despised**. Thinks about killing himself.

Obstinate, against whatever was proposed, he had the queerest objection. Errors of perception. **Time passes slowly** (Cann-i.). Time seems short, wants to do things in a hurry, must walk fast, etc. Brain fog. Memory weak. Perversion of senses. Indifference while in company. Loss of ambition.

Melancholic, apprehensive of serious disease. Fear of some incurable disease. Forsaken feeling. Sensation of isolation. Desire to talk. Hesitates, falters in speech in gait, etc. Childish talk. Talks about his sufferings. Talks of one subject. Believes that all his undertakings will fail. Weeps, says he is lost beyond hope.

Abdomen - Rumbling, gurgling. **Flatulence causing distention and bursting of abdomen**. Loud, explosive belchings discharged upwards and downwards. Shivering through bowels, extending up the back. **Colic with much gas and distention**. Constriction in bowels, as if tightly tied with a band. Sharp ulcerative pain on left side, below short ribs. Cutting pain with loud rumbling. Spasms of diaphragm.

Back - Much pain. Spine sensitive with nocturnal pains (Ox-ac.). Paraplegia. Posterior spinal sclerosis. Pain in the small of the back worse rising from sitting better standing or walking. Throbbing in spine or weak spine. Glands of the neck indurated. **Weakness in sacro-iliac symphysis as if bones were loose**. Heaviness in sacrum, as before menses. Glands of neck indurated.

Breasts - Sore nipples from nursing.

Causations - Anticipation. Apprehension, fear or fright. Eating ices. Mental strain and worry. Masturbation and sexual excesses. Intemperate habits. **Sugar**. Tobacco.

Chest - Angina pectoris with nightly aggravation. Intense spasm of chest muscles. Feels as if a bar were around chest. Painful spots in chest. Pain in the chest on putting boots. As if weight of stone in middle of the sternum.

Constitutions - Withered up and dried constitutions, especially when associated with unusual or long continued mental exertion. It corresponds to Grauvogl's carbo-nitrogenoid constitution (Sulph., Cupr.) in higher to the hydrogenoid or sycotic constitution. Hysterical nervous persons, headaches from mental causes characterized by dullness of head. Women with menstrual disturbances. Cachectic state. Scrawny, feeble, dried-up-looking women. Guernsey put it, "withered and dried up by disease. A child looks like a withered old man."

Cough - Cough is worse laughing, stooping, smoking, ascending stairs before menses. **High notes causes cough**. Suffocative cough, at noon. Cough when angered.

Ears - Tearing pain in ears. Sharp pain from right to left ear, with congestion to head. Buzzing in ears with vertigo. Ringing with deafness. Whizzing in left ear, with feeling of obstruction and hard hearing. Fullness and ringing.

Eyes -Acute conjunctivitis. Great swelling of conjunctiva, **discharge abundant and purulent**. Eyestrain from sewing, worse in warm room. Aching, tired feeling in eyes, better closing or pressing upon them. Useful in restoring power to the

weakened ciliary muscles. **Inner canthi swollen and red**. Photophobia in warm room. Ophthalmia neonatorum. **Painful purulent ophthalmia**. Chronic ulceration of margin of lids, sore, thick, swollen. Unable to keep eyes fixed steadily. Opacity of cornea. Ulcer in cornea. Pterygium of pink color. Blepharitis, thick crusts on eyelids. Pupils dilated. Chemosia. Eye symptoms worse with abdominal symptoms.

Face - Sunken, old, pale and bluish. Face yellow, dirty looking. Old man's look, tight drawing of skin over bones. Sickly, sunken, grayish of muddy color. Infraorbital neuralgia, left side. Prosopalgia, almost taking away

eyesight. Drops of sweat on face.

Female - Pain in stomach and spasmodic contraction in chest before menses. Menses scanty with dyspnea. Menses, irregular too soon too late or last one day only. Menses with headache. Metrorrhagia with nervous weakness at menopause, also of young widows and childless women. Leucorrhea profuse with erosion of cervix, bleeding easily. Leucorrhea mucus, bloody, corroding, yellow and profuse. Prolapsed uterus. Uterine hemorrhage, two weeks after menses, painful disorders of left ovary. Ovaries painful with pains radiating to sacrum and thighs. Itching of skin and flushes of heat during menopause. Disposition to miscarriage. Infertility. Puerperal convulsions. Orgasms at night. Sex painful, followed by bleeding.

Food - Desire for cheese and salt. Loss of appetite. Appetite good, but every kind of food disagrees. **Hypoglycemia.** Eating relieves nausea but aggravates stomach pain. Better after warm drinks. Better sourthings, smoking. Better after alcohol. **Great craving for sweets. Craves sugar, which disagrees.** Desires for cheese and salt. Desires ice cream, fat and sweets. Craves plum sauce. Worse from coffee. Worse cold drinks

Head - Excessive congestion to head, with throbbing carotids. Migraine followed by debility. **Emotional upsets causes appearance of migraine attacks.** Migraine, head feels much enlarged.

Head - Nervous headache with **coldness and trembling.** Headaches, worse mental exertion, dancing, better tight bandaging. Head as if in a vise. **Sensation of expansion.** Brain fatigue with general debility and trembling. Aching in frontal eminence with **enlarged feeling in corresponding eye.** Boring pain, **better on tight bandaging and pressure.** Itching of scalp. Hemicrania, bones of head feel as if separated. As if skull bones were separated. Headache ends in vomiting. Headaches of hysterical young women, delicate literary persons. Itching, crawling sensation on the scalp.

Heart - Angina pectoris. Organic heart troubles of business men, students and brain workers. Burning feeling in region of heart. **Anxiety with palpitations** and throbbing throughout the whole body. Palpitations with nausea. **Palpitations, worse lying on right side** (Alumn.). Palpitations, worse riding in car, better pressing by hand. Unpleasant sensation of fullness about the heart better fresh open air. Sensation as if heart would stop beating, when sitting quietly. Pulse is irregular intermittent.

Kidneys - Violent pain from kidney to bladder, worse touch, motion and deep inspiration. Touching region of kidneys increases pain. Urethra inflamed with pain, burning, itching, pain as from a splinter. Emission of a few drops after having finished. **Urethritis with pain, increased gonorrhea, priapism, dysuria, bloody urine and fever.** Early stage of gonorrhea, profuse discharge and terrible cutting pains, bloody urine. Urging to urinate, urine passes less easily and freely. Retention of urine. **Sugar in urine.** Divided stream. Urine passes unconsciously, day and night. Yellow bloody urine. Urine is highly colored, dark red with albumin. Urine scanty and dark.

Limbs - Lassitude and weariness of forearm and legs with trembling. Cannot walk with eyes closed. Trembling with general debility. Trembling of hands, cannot write. Numbness of arms. Numbness of fingertips, ring and little fingers. Fingers half

Argentum nitricum clenched, cannot be separated. Paralysis with mental and abdominal symptoms. Weakness, rigidity or twisting in calves. Walks and stands unsteadily, especially when unobserved. Post-diphtheria paralysis (Gels.). Chorea-like convulsions, with the legs drawn up, arms jerked outwards and upwards. Peripheral neuralgias. Edema of legs. Legs feel as if made of wood or padded. Paraplegia after debilitating causes. As if a weight hanging to coccyx.

Lungs - Asthma, worse summer, cold weather or taking cold. Asthmatic attacks from going up stairs or bodily exertion. Suffocative cough, as if from a hair in throat. Dyspnea. **Craves fresh air.** Many people in a room seem to take away his breath. Panting, quick, sibilant breathing. Rawness, soreness, high up in trachea worse coughing. Crowded rooms takes away his breath. Desire to take deep breath which aggravates the dyspnea. Craves fresh air. Asthma, worse in summer in cold weather or taking cold.

Male - Chancre like ulcers, on the prepuce. Testes drawn up high. Genitals shrivel. Desire waning. Cutting in urethra with painful erection. Sex painful, urethra as if put on stretch or sensitive at orifice. Impotency. Erection fails when sex is attempted. Cancer-like ulcers. Ulcers on prepuce.

Modalities - Better from open air, fresh air. **Better cool air, cold, cold bath.** Better from hard pressure. Better motion. Better belching. Better from bending double, pressure. **Worse from emotions. Worse anxiety, apprehension. Worse fear or fright.** Worse from suspense. Worse from mental strain and worry. Worse warmth in any form. Worse at night. Worse from cold food, cold drinks. Worse ice cream. **Worse sugar, sweets.** Worse after eating. **Worse leftside.** Worse in a room in closed, small places. Worse lying on right side. Worse looking down. Worse from drinking, crowds. Worse from warmth in any form. Worse before and during menses. Worse from riding. Worse thinking intently.

Mouth - Feter from mouth. Taste coppery like ink. Canker sores. Stringent, sour or bitter-sour taste. Food

escapes from mouth during chewing. Cannot talk, spasms of muscles of tongue and throat. Stammers. Tough mucus in mouth. Ptyalism. Lips dry and viscid, without thirst. Lips tremble while speaking. Lips blue.

Nose - Nasal bones painful as if bruised. Nasal discharge like boiled starch. Discharge of whitish pus, with clots of blood. Nosebleed during menopause. Loss of smell. Violent itching. Coryza with chilliness, lachrymation and headache. Violent itching, rubs it. Ulcers in septum.

Perspiration - Sweats in morning or at night. Profuse sweat on the face in beads. Sweat and chilliness as soon as he gets warm in bed.

Rectum - **Diarrhea from emotions**, worse immediately after eating and drinking. **Diarrhea from anticipation**. Diarrhea after any emotion with flatulence. **Nervous diarrhea after sugar candy**. Diarrhea of children after weaning. **Fluids go right through him** after sweets. Constipation, alternates with diarrhea. Hemorrhoidal pain in morning. Itching of anus. Tenia or threadworms.

Skin - Brown, tense and hard. Drawing in skin, as from a spider-web or dried albuminous substance withered and dried up. Irregular blotches. Ulcers, angry, deep with hard edges. Warty granulations. Adherent crusts. Bedsores. Bluish-black eruption. Scarlet fever.

Sleep - Drowsy stupor. Sleepless from fancies before his imagination. Ailments from long, wearisome, fatiguing night watching. Restless sleep, awakes almost every hour, disturbed with many dreams. Horrible dreams of snakes, wakes in fright. Dreams he is hungry. Dreams of sexual gratification.

Stomach - Alcoholic gastritis. **Belching** with most gastric ailments. Ineffectual effort at eructation. Gastroenteritis. **Flatulence, painful swelling of stomach**. Enormous distension. Painful spot over stomach that radiates to all parts of the abdomen. Gnawing ulcerating pain.

burning and constriction. Trembling and throbbing in stomach. Enormous distention. Ulcerative pain in left side under ribs. **Ulceration with radiating pain**. Deathly nausea during headache, not better after vomiting. Nausea, retching, vomiting of glairy mucus. Astringent sour or bitter vomiting. Vomiting with diarrhea and violent colicky pains.

Stool - Stools, shreddy, mucus, turning green like chopped spinach. Watery, noisy, flatulent stools. **Stools, green like chopped spinach** with shreddy mucus and enormous distention of abdomen, very offensive.

Teeth - Gums tender and bleed easily. Pain in healthy teeth. Teeth pain worse chewing, cold things, sour things.

Temperature - Chills with nausea. Chilly- when uncovered, yet feels smothered if wrapped up. Chilly with many complaints. Chills with cold hands and feet. Constant chilliness up back and over shoulders. Intermittent fever, with hemorrhage from lungs. Fever with no thirst.

Throat - Burning and dryness in fauces and pharynx. **Much thick mucus** in throat and mouth causes hawking. Raw, rough and sore. Uvula and fauces dark red. **Sensation as if a splinter in throat**, when swallowing, breathing or moving the neck better cool drinks. Dark redness of throat catarrh of smokers with tickling as of hair in throat. **Strangulated feeling**. Swallowing difficult. Chronic induration of tonsils. Food lodges in pharynx. Smoker's catarrh with sensation as of a hair in throat. Loss of voice. Chronic laryngitis of singers. Raising the voice causes cough, **high notes cause cough**. Chronic hoarseness.

Tongue - Red streak down middle of tongue. Tongue has prominent papilla. Tongue tip is red and painful. Tongue furred with clean edges. Aphthae on edges of the tongue. Tongue coated white.

Vertigo - Vertigo with buzzing in ears and with nervous disorders. Vertigo before epilepsy. **Vertigo looking down from heights**. Vertigo with transient blindness. Vertigo worse closing eyes. Vertigo with cerebral congestion.

Vertigo - Vertigo at sight of high buildings.

Vision - Spots before the vision. Blurred vision. Distorted vision. Misty vision. Diplopia, from rush of blood to head. Sight worse by candlelight, than by daylight. Black motes, before right eye. Dim vision on thinking intently, with headache. Grey spots and serpent-like bodies moving before eyes. Vanishing vision must constantly wipe away mucus. Farsighted. Paralysis of accommodation from errors of refraction.

COMMENTS - Among the key symptoms of Arg-n. are great tremor, nervous feeling, and sensation as if being squeezed in a vice. Feeling of constriction in various parts as if a band of iron around chest or waist.

A feeling as if the body or some part of the body was expanding. Migraine with feeling as if head were enormously enlarged, better tightly bound. Defective coordination. Paralysis of motion and sensation, a peculiar numbness accompanied with hyperesthesia. Sensation of a splinter sticking in various parts. Burning sensations.

In allopathic practice the dyspepsia for which it is given is worse before food, when the stomach is empty. The opposite condition is the leading indication in homeopathic practice. Gowers recorded a case in which the use of Arg-n. for stomach trouble caused (like lead), drop-wrist, gout and albuminuria.

E. P. Brewer recorded a proving in which the prover, a young man, took on three consecutive days one grain

a day of Arg-n. triturated with sugar of milk. A number of motor and sensory symptoms were elicited, reminding Brewer of locomotor ataxia for which it has been used with success by old-school practitioners.

This use also has led to many cases of ar-gyria. Among the symptoms of this proving were "Mental operations sluggish, continued thought required special effort, but exertion of mind did not aggravate the heaviness and fullness of head. Lower limbs fatigued, as if they would suddenly fail him. Loss of ambition. Building air castles by day: monstrous dreams by night."

Other symptoms were sore throat with white patches, rheumatic pains in (left) wrist and finger joints with external tenderness of bony prominences, pain on rising in right sacroiliac notch. Sore muscles of neck and back. Urticaria spots in various parts.

In poisoning cases complete loss of consciousness insensibility and convulsions have occurred. Some of the notable digestive symptoms are: "Irresistible desire for sugar. Fluids go right through him." Belching accompanies most gastric disorders.

Green stools are remarkable. Green mucus like chopped spinach in flakes. Stool turning green after remaining on diaper. Stool expelled with much spluttering. Stool shreddy, red, green muco-lymphoepithelial substance. There is a pain in the small of the back, better on standing or walking, but severe when rising from a seat (Sulph., Caust.). Mucus membranes affected, purulent and bloody discharges, membranous diarrhea with agonizing pains. Epithelium affected (cancers). Intestinal catarrh with shreddy membranous discharges is often cured by Arg-n.

Most symptoms are worse night, very nervous at night. Worse at night or in morning on rising (epileptic attacks). Day half more cough, night half more diarrhea. Worse on awaking. At 11 a.m. nervous attacks better by stimulants. Chill down back every day at noon. A large number of symptoms appear on the left side.

Grimmer notes that it's used along with Natrum Mur to antidote the effects of silver nitrate cauterization. For example, of the nose, and sometimes they do the uterus, the cervix, to stop bleeding, any place. Parkinson's paralysis, or disorders after stroke, loss of motor control, especially on left.

Good for multiple sclerosis. Addison's disease, lead-colored pigmentation of the skin. Mental symptoms are important indications for the use of the remedy, nervous fears, an restlessness with trembling hands, skin cancers. Severe blood sugar problems, acute or chronic sugar poisoning, hypoglycemia, diabetes.

Consider Arg-n., a left-sided Lycopodium. Voracious, canine desire for sweets. Bingeing on sweets. Can become angry or irritable after sugar. Also craves salt. Another keynote is gas and bloating, then low blood sugar. They can have a splinter-like sensation in the throat.

It's specific for laryngitis. Hoarseness, sore throat. Epilepsy from frights. Diarrhea from anxiety. Headache from over studying, eye strain. Conjunctivitis, looks like raw meat, pus green and yellow in color.

Major phobias. Panic attacks when low blood sugar. They have a lot of fears of fainting, fears of having a fit in public, fears of epilepsy, the general idea is fears of losing control.

Fear of something bad happening, "impending doom." Superstitions, rituals, conspiracy paranoia. "Fear of being poisoned," anxiety over health. Fear of death, may predict their own death (Agn.). In late stages, fear of their own thoughts. Tormenting thoughts and impulses, repeating thoughts.

Over-active mental plane, anticipation leading to worry. For anticipation, stage fright to the point here they get diarrhea (Gels., Aeon.). Gastrointestinal symptoms with anxiety. Vertigo due to anxiety.

Concentration problems, brain degeneration, early senility with strong imaginations. Symptoms worse at night. Hasty walk, keynote, they walk so fast that the upper body is leaned forward. Neurological deficiencies and incoordination of walking, staggering gaits.

Keynote craving of sugar, which aggravates. The aggravation of the sugar is as strong as their craving. Sugar causes headaches, anxiety, irritability, and low blood sugar. Severe gas and bloating. Craves salt and strong cheese (Puls., Ign., Rhus-t.). Worse heat, skin may be cool, but they think they are hot (Sec.).

Desires company, open, forward with a lot of vitality. Strong emotional nature. Impulsive, instinctive expression of emotions. Happy, easy-going high sexual power. High sex drive, loss of erection or premature ejaculation due to overexcitement and

anticipation.

RELATIONS-Antidoted by: Am-caust., effects of tobacco. Nat-m., Ars., Milk. **Antidotes to:** Puls., Calc., Sep., next in importance, Lyc., Sil., Rhus-t., Phos., Sulph. **Compare:** (1) Ars., Merc., Phos., Puls. (2) Arg-cy. - angina pectoris, asthma, spasm of esophagus. (3) Argent, iodat. - throat disorders, hoarseness, gland affected. (4) Argent, phos. - an excellent diuretic in dropsy. (5) Arg-oxyd. - chlorosis with menorrhagia and diarrhea. (6) Arg-m. - acts on cartilages, Arg-n. more on mucus membranes, skin, bone and periosteum and is suited to herpetic patients. (7) to Aur., Cupr., Kali-bi., Lach., Merc., Merc-c., Merc-i., Nairn., Nit-ac., Thuja. (8) In complaints from pressure of clothes like Calc., Bry., Caust., Lyc., Sars., Stann. (9) In congestive headaches like Glon. and other Nit-ac., Hep., worse by cold, Arg-n. worse in warm room. (10) Puls. is its nearest analog. **Inimical:** Coff.

(it increases the nervous headache). **Follows well:** Bry., Spig. (dyspepsia). Spongia (goiter), Caust. (urethral affections), Verat-a. (flatus). **Is followed well by:** Lyc. (flatus).

***ARISTOLOCHIA CLEMATITIS

(Common Birthwort)

PHARMACY - arist-cl. Aristolochiaclematitis. Common birthwort. Aristolochia infesta. N. O. Aristolochiaceae. Europe, South America, Asia. Tincture of the root. **Historical dose:** Trituration and all potencies.

CLINICAL - After-pains. Amenorrhea. Anorexia. Arthritis. Bedwetting. Bronchitis. **Chills.** Colic. Cystic mastitis. Cystitis. Depression. Dysmenorrhea. Eczema. Enteritis. Hormonal imbalances. Insomnia. Laryngitis. Mastitis. Menopause. Metritis. Nephritis. Premenstrual syndrome. Rheumatism. Spasmodic colitis. Sinusitis. Vaginitis. Varicose veins. **Vertigo.**

HERBAL - Aristolochia Clematitis, of the Aristolochiaceae family, grows in Southern Europe and South America. Its active principle is clematine, which is identical to the Aristolochia or the Serpentarin as well as to non-purified Aristolochic acid. Aristolochic acid causes menorrhagia, tends towards miscarriage, and has a toxic action on the kidneys

and liver parenchyma as well as intestinal mucus membranes.

"Aristos" means better, "locheia" means giving birth. Used in popular medicine to induce birth or stimulate the menses. Also as a diuretic, and against rheumatism. In high doses it is an emetic and cathartic. In South America, some Aristolochia are used for blindness.

HOMEOPATHIC - The proving by Mezger made use of the spring rhizome. The experiment was carried out by eighteen provers, of whom thirteen were women. The potencies 5x, 2x, 12x and the mother tincture were used in the proving. The experiment lasted for twelve weeks.

It produced excess of estrogen hormones. Marked effect on the urinary passages, kidneys, venous system, skin. Irregular menses. Premenstrual insomnia with agitation and congestion of the pelvis. Joint pains improved by movement. State of fatigue, or the opposite. **Worn out with vertigo, chilliness,** slightly improved by heat. Hunger pangs and need to eat despite feeling nausea. Tendency to plumpness.

MIND - Sensation of solitude. Fear for the future. Rejects company. Psychosomatic complaints tending towards depression, especially in women who are going through the menopause (Sep.). Depression, ameliorated by fresh air and menses. Mental condition aggravated before and after periods, clearly ameliorated during menstrual flow.

Abdomen - Colic. Spasmodic colitis.

Enteritis. Abdomen distended, painful, before and during menses.

Breasts - Pain and feeling of hardening of the left breast. Pain in the breast. Cystic mastitis.

Chest - Chest feels hard, like a breastplate.

Constitutions - Hormonal imbalances. Subjects of a nervous constitution, with extreme sensitivity, and who cry easily. Tubercular conditions of the "worn-out" type.

Eyes - Watery aggravated by light, reading. Burning and itching.

Female - Brown discharge, watery flow. Eczema of the vulva. Sensual itching, aggravated before menses, ameliorated during menses, aggravated after menses. Menses absent, late or short, Blood black, with clotting. Varicocele. Dysmenorrhea. Infrequent menses. Amenorrhea. Metritis. After-pains with laryngitis. Vaginitis.

Food - Anorexia, nausea with vertigo and cold sensations.

Head - Diffuse headaches, improved in the fresh air and by cold, damp compresses. Congestive headache (Bell.).

Kidneys - Pain in the kidneys and bladder with a frequent urination. Bedwetting, especially in older women. Incontinence and compelling need to urinate. Pyelitis. Cystitis. Albuminuria with white discharge.

Limbs - Arthritis in women, with menopause. Rheumatism of the knee. Limbs cold, with chilblains, skin discolored or red. Legs heavy before menses. Joint pains improved by movement, aggravated in the sitting position. Fingers and toes swollen before menses. Swollen, distended varicosities before menses. Varicose veins.

Lungs - Bronchitis. Angina, laryngitis with hoarseness. Morning cough, thorax painful on left side.

Modalities - Better during menses. Better from elimination of secretion. Worse from suppression. Worse before and after menses.

Mouth - Mouth painful, with cracked corners of the lips. Teeth painful, aggravated by cold food, ameliorated by hot food.

Nose - Sinusitis. Coryza in the morning, improved by getting up, by fresh air. Watery flow, improved between 8 a.m. and 9 a.m.

Rectum - Rectum prolapsed after eating. Rectal weakness. Mucus diarrhea, hemorrhoid bleeding between stools, which contain mucus.

Skin - Varicose eczema. Acrocyanosis in young girls. Burns, also for external use in compresses of liquid extract at 15%, diluted 1:50 in water.

Stomach - Acrid dyspepsia.

Temperature - *Chilliness*.

Throat - Throat discolored, yellow, dry.

Tonsils inflamed, swallowing painful. Laryngitis.

Vertigo - Vertigo with headache in the morning, worse when leaning forwards.

RELATIONS - Compare: (1) Puls. - close therapeutic relationship, acting on the same type of patient. (2) Calen. - which is also an excellent healing plant. (3) Rhus-t. - also shows amelioration from movement.

***ARISTOLOCHIA MILHOMENS (Brazilian Snake-Root)

PHARMACY - arist-m. Aristolochia mil- homens. Brazilian snake-root. Aristolochia cymbifera. Aristolochia glandifera. N. O. Aris- tolochiaceae. Tincture of the *ttowers*. **Historical dose:** Tincture and all potencies.

CLINICAL - Achilles tendon. Diabetes. Extravasations. Heart, pain.

HOMEOPATHIC - In a proving by Mure, prominent among the key symptoms were sharp and pricking pains in various parts. Pain at apex of heart stopping breath. Excoriations of lips and gums. Cramp-like pains in left Achilles tendon.

Stitching pains in various parts. Pain in heels, burning in anus and frequent irritation. The whole leg is covered with *large irregular patches formed by extravasated blood*. Pain in back and limbs. Stiffness of legs. Itching and swelling around the malleoli.

The mouth is pasty in the morning. Anorexia. Flatulence in stomach and abdomen. Colic followed by diarrhea. Burning at anus. Disturbed rest. Disgusting dreams. Head burning hot. Great thirst and bitter mouth, makes water more frequently than usual.

RELATIONS - Compare: (1) Aristolochia Serpentaria.

REFERENCES Clarke.

***ARISTOLOCHIA SERPENTARIA

(Virginia Snake-Root)

PHARMACY - arist-s. Aristolochia serpentaria. Virginia snake-root. Serpentry. N. O. Aris- tolochiaceae. Trituration of dried *roots*. **Historical dose:** Tincture and all potencies.

CLINICAL - Colic. Diarrhea. Dyspepsia. Flatulence. Poison oak.

HOMEOPATHIC - Aristolochia serpentaria was proved by Jorg's provers and others. Chief effects were noticed in the gastro-enteric organs, nausea, vomiting, abdominal distention, flatulence and urging to stool. Increased, and afterwards lost, appetite. Symptoms of intestinal tract, diarrhea, meteorism. Flatulent dyspepsia. Distention and cutting pains in abdomen.

Irritation of the urinary and genital organs with frequent desire to urinate. Disturbed rest, also heat of the head (Arist-m.). Brain congestion. Symptoms like those of poison oak.

MIND - Peevish mood. Disinclination for work.

Abdomen - Colic in umbilical region. Distention, rumbling, uneasiness, cutting pains, with emission of flatus, belchings which relieve. •

Back - Pressive pain in nape of neck.

Head - Sticking in forehead extending to base of brain. Increased warmth of head.

Kidneys - General irritation of urinary and genital organs. Violent desire to urinate with great increase in quantity of urine. Frequent desire but only a little brownish urine passed.

Mouth - Copious salivation with frequent spitting.

Stomach - Increased appetite, yet able to eat little, since the first morsels satisfy. Loss of appetite. Nausea and vomiting, vomiting did not cease until the stomach was entirely emptied. Distended feeling as if too full. Heaviness better by emission of much flatus.

Stool - Distressing itching about anus. Frequent desire with evacuation of more gas than feces. Frequent desire for stool with evacuation of scanty, hard, tenacious feces with much flatulence.

REFERENCES - Clarke.

***ARNICA MONTANA

(Leopard's Bane)

PHARMACY - am. Arnica montana. Leopard's bane. Brusiewort. Fallkraut. Fall herb. N. O. Composite. Tincture of whole fresh plant. **Tincture of root. Historical dose:** All potencies. Arnica should not be used externally where there is broken skin. For torn and lacerated wounds, Calendula can be used locally.

CLINICAL - Abscess. **Aching, pains.** Back, pains. Baldness. Bedsores. **Black eye. Blows. Boils.** Brain disorders. Breath, fetid. Bronchitis. **Bruises.** Carbuncle. Chest, disorders. Chorea. **Concussions. Contusions.** Coms. Cramp. Diabetes. Diarrhea. Dysentery. **Ecchymosis.** Exhaustion. Eyes, disorders. **Falls. Fatigue.** Gout. **Head, injury.** Hematemesis, **Hematoma.** Hematuria. Headaches. Heart, disorders. Impotence. **Influenza. Injuries.** Labor, pains. Lumbago. Mastitis. Meningitis. Mental shock. Miscarriage. **Over-lifting. Over-working.** Paralysis. Pleurodynia. Purpura. Pyemia. Rheumatism. **Shock.** Spleen, pain. **Sore, pains. Sprains.** Stings. Strains. **Strokes.** Suppuration. **Swellings.** Taste, disorders. Thirst. **Trauma. Traumatic, fever.** Tumors. Typhoid. Voiced disorders. Whooping cough. Wounds. Yawning.

HERBAL - Growing on the mountains, Arnica may be said to possess a native affinity to the effects of falls. As its German name. Fallkraut, attests, its value as a vulnerary has been known from remote times. It may be said to be the traumatic par excellence.

Ussher noted that the local use of Arnica produced an extraordinary growth of hair on a limb. This suggested the use of an oil mixed with Am. lx in a case of baldness, which was followed with marked success.

Clarke once ran a piece of wire into the tip of one of his fingers, causing paralyzing pain. He applied Am., 1 x at once and the pain was better instantly seeming to be wiped out from the point of injury up the arm.

HOMEOPATHIC - **Trauma and its effects, recent or remote** is met by Arnica as by no other single drug and the provings bring out the appropriateness of the remedy in the symptoms it causes. Tumors in many parts, following injury, have been cured by Arnica including scirrhus tumors of the breast. Nervous disorders as chorea after falls.

Trauma in all its forms, and the recent or remote effects injuries are covered by this remedy. It produces conditions upon the system quite similar to those resulting from **injuries, falls, blows, contusions.** Compound fractures. Mental or physical shocks.

After **traumatic injuries,** overuse of any organ, strains. Tinnitus aurium. It affects blood, causing putrid and septic conditions. **Putrid phenomena.** Septic conditions, prophylactic of pus infection. Strokes with a red, full face. It is especially suited to cases when any injury, however remote, seems to have caused the present trouble. Trauma of grief, remorse or sudden realization of financial loss.

Arnica is disposed to cerebral congestion. Marked effect on the blood. Acts best in plethoric, feebly in debilitated with impoverished blood, cardiac dropsy with dyspnea. A muscular tonic. Thrombosis. Hematocele.

Influenza with sore bruised muscles. Limbs and body ache as if beaten, joints as if sprained. **Bed feels too hard or full of lumps.**

Great prostration, with a tired feeling. Discharges are **foul,** breath, taste, flatus, stools etc. Tendency to tissue degeneration, low septic conditions. Abscesses that do not mature. Typhoid, septic fevers. Recurring boils. Thrombosis. **Sore, lame, bruised feeling.** Rheumatism of muscles and tendons, especially of back and shoulders. Aversion to tobacco. Vaginitis in females and impotence in males from excessive sexual indulgence.

MIND - Arnica is used after severe mental stress **or shock. Mental or emotional shocks. Never** well since a trauma, fright or grief. History of severe physical trauma with chronic men-

tal or emotional effects. **Accident, trauma victims.** Nervous, can't bear pain, whole body oversensitive.

Fear of being touched or injured. Feels like a wounded animal. **Fear of the approach of anyone.** Fear of sickness. Fear of instant death with heart distress. Fear at night. Fear on awakening. Agoraphobia. Fear of open spaces. Fear of crowds, public places.

Violent attacks of anguish, anxiety with angina pectoris (Aeon.). Easily frightened, unexpected trifles cause him to start. Hypochondriacal anxiety. Fear remains at night after fright (Op.). A sudden fear that rouses one from sleep at night especially after an accident (Op.).

Head injury or strokes that effect mental functions. Morose, repentant mood. Overworked and exhausted. Indifference to work. **Depression from injuries to the head (Nat-s.).** Forgetful, what he reads quickly escapes his mind. Absent-minded. Forgets the word he is about to say. Unconscious. When spoken to answers correctly, but relapses. Coma. Muttering delirium. Delirium tremens.

Morose, delirious. Nervous and mental shock. Sits as if in thought. **Says there is nothing the matter with him.** Feels well in serious cases, because of shock. **Sends the doctor home.** Wants to be left alone. Prays quietly for her soul. Stupor, with involuntary discharge of feces, typhoid. Stupor, loss of sight and hearing, from concussion of brain.

Abdomen - Colic, with retention of urine. Colic, resembling dysentery. Cramps from epigastrium down over the bowels, then foul stools. Tympanitic distension. Distended with offensive flatus. Flatus smelling of rotten

eggs. Bruised pain, in sides of abdomen. Sharp pains from side to side. Sharp thrusts through abdomen. Sharp pain in region of spleen, taking away breath. Swashing in abdomen as from water.

Back - Backache from muscle strain, overuse. Great soreness and pain in back, as if bruised or beaten. **Back sore and aches, worse overlifting.** Agonizing pain in back and hips before urination.

Bruises on back from injuries, blows. Violent pain, in spine, as after sudden rising up after long stooping. Cervical vertebrae tender. Muscles of neck weak, head falls backwards or any side. Sacrum as if beaten.

Bladder - Retention of urine in bladder from over exertion after labor. Urine retained, with aching and pressing in bladder. **Bladder affections after mechanical injuries.** Bladder tenesmus with very painful urination. Tenesmus of bladder with diarrhea. Bladder feels full and sore, the pressure of urine hurts him. Cutting pain in orifice of urethra at end of urination. Infants scream from pain in bladder. Constant dribbling of urine after labor.

Breasts - Sore nipples. Mastitis from injury. Tumors of breast from injury (Bell-p., Con.). Violent after-pains, worse nursing.

Causations - Mechanical injuries. Fright, financial loss, anger. Overuse of any organ. Surgical operations. Insect stings. Splinters.

Chest - Burning or rawness in chest. Sharp pains under false ribs. **Bruised, aching sensation in chest on walking.** Sensation as if all ribs were bruised, when coughing. Bones and cartilages of chest are painful, worse motion, breathing or coughing. Heavy sensation lower chest. Sharp pains in chest, taking the breath away, better pressure. Pain in intercostal muscles. Pleurodynia (Ran-b.. Bry., Cimic.).

Constitutions - Adapted to sanguine, plethoric persons, disposed to cerebral congestion. Persons easily made train-sick or seasick. It is suited to persons who are sensitive to mechanical injuries and who feel the effects of them long after. Teste noted it for plethoric red-faced persons.

Cough - Cough produced by weeping and lamenting. Dry cough from tickling low down in trachea. Cough causes bloodshot eyes or nosebleed. **Violent, spasmodic cough with facial herpes.** Cardiac cough, paroxysmal, at night during sleep, worse exercise. **Whooping cough, child cries before coughing.** Cough after measles. Cough in sleep without waking.

Ears - Shooting in and around ears. Blood from ears. Suppurating otitis with stupor. Cartilages of ears as if bruised. Bruised pain in external ears. Sensitive to shrill noise. Sensitivity to loud **sounds. Hearing impaired from injury to the head.** Dull hearing, after concussion. Hardness of hearing. Deafness after typhus. Noises in ear caused by rush of blood to the head. Humming.

Eyes - Bloodshot. Eyes sunken. **Black eye from injury.** Traumatic ulceration with much hemorrhage into anterior chamber. Expedites absorption of clots, in retinal hemorrhage. Bruised iris after cataract operations. Bruised, sore feeling in eyes after close work. **Eyes feel tired and weary after sightseeing, moving pictures.** Lachrymation burning. Photophobia. Right eye protrudes, looks larger than left. Must keep eyes open, dizzy on closing them. Photophobia. Pupils contracted, dilated.

Face - Face hot and red, with cold legs. **Sunken,** very red, pale. Acne sore and painful. Bruised pains. Chilliness during headache. Herpes in face. Ruddy, congested, bluish red in strokes, fevers. Lower jaw hangs down, paralysis. Redness and burning of one cheek. Cheeks puffed, red. Swelling of parotid gland during measles. Throbbing and stinging pain, in swollen cheeks.

Female - Menses, early, hot, profuse. Uterine hemorrhage from mechanical injury after sex. Hemorrhages bright red or mixed with clots. Bloody discharge between menses. Ulcers of uterus with a tendency to bleed. Labia painfully swollen. Prolapsus caused by concussion. Ovarian region feels as if sprained, obliging her to walk bent. Threatened miscarriage from falls etc. Soreness of the whole body during pregnancy. Feeling as if fetus were lying **crosswise. Cannot bear fetal movements,** cause nausea and vomiting. **Labor pains, weak or ceasing.** Bruised parts after labor. Soreness and lameness of parts after delivery. Puerperal fever. Violent after-pains, worse breast-feeding.

Food - Loss of appetite. Loathing very sight of food. Canine hunger. Loss of appetite and sourness of stomach of brandy drinkers, creates a disgust for brandy. Aversion to milk and meat. Aversion to broth, smoking tobacco. Longing for vinegar. Desires sour, alcoholic drinks. Constant desire to drink, but knows not what for, as all drinks are offensive. Thirst with dry mouth.

Head - Hematoma. Head injury. Headaches from injury to head. Meningitis from injury to head. Periodical attacks of migraine. **Hot head with a cold body.** Brain feels tired. Burning in brain. Confused, sensitivity of brain with sharp, pinching pains. **Stroke victims,** with loss of consciousness, involuntary evacuations from bowels and bladder, paralysis. Head as if too large. Headache as from a nail. Headaches from strong emotions. Cold spot on the forehead. Burning or hot spots on vertex. Head throws backwards while walking. Baldness. Recurring boils on scalp. Scalp feels contracted.

Heart - Sudden pain as if heart is squeezed or had got a shock. **Strain of heart from violent running.**

Weakened heart muscles. Palpitations after any exertion. **Palpitations after any shock or injury.** Palpitations shake the whole body. **Angina pectoris**, with severe pain in elbow of left arm. Sharp pain in heart. Heart pains, left to right. Horror of constant death with cardiac distress at night. Cardiac dropsy with distressing dyspnea. Fatty heart and hypertrophy. Pulse feeble and irregular. Weak fluttering of pulse. Pulse hurried. Pulse quicker than beat of heart.

Kidneys - Cutting pain in kidneys. Piercing pain, as from knives plunged into kidneys, with chilliness and inclination to vomit. Involuntary dribbling with constant urging. Has to wait a long time for urine to pass. Urine has dark brick-red sediment. Bloody urine from mechanical causes. Urine in small quantity, staining napkin yellow-brown. Red urine in liver complaint. Scanty, red urine, very offensive. Brown clear urine which immediately becomes whitish and turbid.

Limbs - Sore and bruised limbs. **Soreness after overexertion.** Sprained and dislocated feeling. Lame feeling. **Great fear of being touched or approached.** Pain in back and limbs, as if bruised or beaten. **Limbs ache as if beaten.** Everything on which he lies seems too hard. **Bed feels too hard.** Heaviness in all limbs. Deathly coldness of forearm. **Joint, muscle pain from injury.** Cannot walk erect, on account of bruised pain in pelvic region. **Sore, aching muscles with influenza.** Gout. Rheumatism begins low down and works up (Led.). Rheumatism, from exposure to dampness, cold. Rheumatism from excessive muscular strain. Cramps in the fingers, writer's cramp. Pain in arms better hanging down. Want of strength in the hands on grasping. Veins of hands distended. Knee joints suddenly bend when standing. Feet numb.

Liver - Sharp pain in region of liver; painful when turning in bed. Pressure in region of liver. Pain from liver through left chest and down left arm.

Lungs - Asthma with inclination to move about. Asthma with sleeplessness before midnight. Asphyxia neonatorum. Dyspnea with hemoptysis. Short, panting breathing. Children lose their breath when angry. Raw, sore feeling in morning. Pneumonia, approaching paralysis. Can't expectorate, but must swallow whatever is loosened by coughing. Bloody expectoration. **Hemorrhage after mechanical injuries.** Offensive, green, purulent, blood-streaked expectoration. Spitting up of black, thick, viscid blood, or bright red, frothy blood, mixed with mucus and coagula. Pneumothorax from external injuries. **Pleurisy after mechanical injuries.** Pleurodynia (Bry., Ran-b., Cimic.).

Male - Genitals bruised and much swollen. Swelling of penis and scrotum, bluish-red. Hot swelling of scrotum after injury. Spermatic cords painfully swollen. Relaxed testicles. Hematocele. Phimosis from friction. Hydrocele caused by a bruise. Violent continued erections often waking. Seminal emission during caress. Impotence from sexual excess or abuse. Erysipelas of scrotum.

Modalities - **Better from lying down.** Better lying outstretched. **Better with head low.** Better motion. Better clear, cold, stimulating weather. Worse evening and night. **Worse from injuries. Worse from falls, blows, bruises, shock.** Worse jarring, noise. Worse after labor, over-exertion, sprains. Worse least touch. Worse motion. Worse rest. Worse alcohol, wine. Worse damp cold. Worse after sleep. Worse coal gas. Worse lying on left side.

Mouth - Soreness of gums after teeth extraction (Sep.). Dry and thirsty. Bitter taste (Coloc.). **Taste as from bad eggs. Fetid breath.** Taste disgusting, putrid, slimy. Bad taste after operation. Empyema of maxillary sinus. Bright red, puffy fauces. Saliva diminished. Swallowing is prevented by sort of nausea as if food would not go down. Heat in lips. Lips burn, swollen and cracked. Lower lip trembles, while eating.

Nose - Bruised, from above downward. Swelling of nose. Nosebleeds after injury. Nosebleeds after every fit of coughing after washing face, dark fluid blood. **Nose feels sore, cold.** Violent sneezing from overlifting. Nose feels sore, cold. Post-nasal drip. Catarrh of antrum. Burning pain in typhoid fever. Nosebleeds during typhoid fever. Ulcerated nostrils. Empyema of maxillary sinus.

Perspiration - Sour sweat at night. Sour or offensive sweat, sometimes cold. Several transitory sweats all over at night, with anguish. Worse when sweating. Sweat partial on front of body. Sweat followed by faintness.

Rectum - Flatus smelling of rotten eggs. Sensation of rumbling in rectum, without stools. Obstinate constipation after a blow on epigastrium. **Straining of tenesmus in diarrhea.** Dysentery with dysuria, in summer and autumn. Diarrhea at night, with cutting in intestines. Diarrhea of tuberculosis, worse lying on left side. Prolapsed anus, worse after walking for few minutes only better washing the whole body. Cramps in rectum, while standing. Anus as if bruised. Burning along perineum during urination.

Skin - Ecchymosis. **Bruises from injury.**

Every little injury makes bruises. **Black and blue spots.** Eruptions after trauma. Red, hot, edematous. Hot, hard, shining swelling, from insect stings. Dusky, mottled. Acne indurata, characterized by **symmetry in distribution.** Very sore acne. Itching, burning, eruption of small pimples. After scratching, itching begins somewhere else. Tingling and itching which moves from place to place. **Crops of small boils** (Ichthy., Sil.). Carbuncles. Bedsores. Petechiae. Erysipelas. Scarlet fever when the eruption doesn't come out. Erythema

nodosum. Corns. Varicose ulcers.

Sleep - Unrefreshing sleep. Involuntary stools during sleep. **Sleepless and restless when overtired.** Can't fall asleep, fantastical illusions while lying awake. Frequent yawning in evening, without sleepiness. Yawning before chill. Comatose drowsiness, awakens with hot head, drops to sleep as he **answers. Nightmares.** Horrors in the night. When dreaming sees black forms of spectres, ghosts, spirits. Dreams of death. Dreams of being buried alive, suffocation. Dreams of mutilated bodies. Anxious and terrible dreams, awakes in terror, then sleepless. Awful dreams, of robbers and murderers.

Stomach - Belchings, tasting of bad eggs after coughing. Eructations of bitter mucus. Oppressive gases pass upward and downward. Stomach distended with wind. Pain in stomach during eating. Pinching, spasmodic griping pain in stomach. Pressure as from a stone. **Feeling as if stomach were pressing against spine.** As if a lump in stomach. Hiccough. Motion sickness. Nausea with burning and scratching in throat. Retching at night. Fetid vomiting. Vomiting of dark, red coagulated blood. **Vomiting of blood after injuries.** Vomiting of food, mixed with blood.

Stools - Dysenteric stools with muscular pains. Brown or white diarrhea. **Offensive, brown, bloody, putrid involuntary stools.** Stools look like brown yeast. Must lie down after every stool. Stools are bloody, foamy, purulent, acrid involuntary during sleep. Ribbon-like stools, from enlarged prostrate or retroverted uterus. Stools consisting of bloody, slimy mucus, with urging and violent bellyache. Undigested stools.

Teeth - Swollen jaw after dental work. **Pains after dental work, injuries.** Soreness of gums after teeth extraction (Sep.). Gums sore, swollen during dentition. **Sore and aching after trauma.** Beating and tingling in gums, during toothache. Throbbing, toothache. Excruciating, cutting, tearing, in teeth.

Temperature - Chilly with heat and redness of one cheek. Coldness of part lain on. Thirst during chill. Must uncover but it chills him. **Shivering over whole body.** Shivering, as if dashed with cold water. Internal chills with external heat. Heat and redness of head with coolness of rest of body. Internal heat, feet and hands cold. Head or face alone hot, body cold. Heat flushes, with thirst. **Influenza fever.** Intermittent fever. Typhoid fever. Septic and traumatic fevers.

Throat - Acute tonsillitis, swelling of soft palate and uvula. Bright red, puffy fauces. Burning, when swallowing. Stinging in back of throat. Raw, sore feeling. Crackling in trachea, when lying down. **Hoarseness from overuse of voice.** Hoarseness, worse exertion, colds or getting wet. Hoarseness early in morning. Voice deep or low, muttering.

Tongue - Tongue dry, almost black. Biting, burning and scraping at root of tongue. Tongue, dry, almost black. Red stripe down centre of tongue. Tongue coated white. Tongue coated yellow. Tongue dry with brown streak down middle.

Vertigo - Chronic vertigo, objects whirl about especially when walking. Vertigo of the elderly. Vertigo with nausea, vomiting and diarrhea. Vertigo worse walking, sitting erect, closing eyes. Vertigo worse, head injury. Vertigo during headache. Vertigo on rising and on moving.

Vision - Diplopia from trauma, muscular paralysis, retinal hemorrhage. Diplopia, with vertigo, on looking downward. High objects appear to lean forward and about

to fall. Flickering, worse reading or writing, with headache. **Lost vision, after a violent blow.** On reading, print seems to dance in a fog and vanish, must rub eyes. Muscae volitantes. Obscured, lost vision, during headache.

COMMENTS - Arnica is allied to wounds and cures hemorrhages of many kinds including strokes, dilatation and rupture of small bloodvessels. Vomiting, coughing, purging, accompanied by streaks of blood in vomit. Extravasation of blood into the conjunctiva as in whooping cough. Hemorrhages into the tissues of internal organs or the skin.

An odd symptom of Arnica is "coldness of the nose." A case of facial (left) neuralgia, face swollen, dark red, very painful to touch, was cured with Arnica (radix), the guiding symptom being "cold nose." Patient had bitter taste, was very excitable and worse at night.

Effects of violent cough or sneezing, the child cries before cough comes on (or with the cough) in whooping cough. Chronic bronchitis when patients have bruised, weak aching in the chest or great sensitiveness of the chest on exertion or walking.

Arn. affects the left upper extremity and the right chest. Putrid excretions (Bapt.), putrid breath, fetid sweat. Incessant passing of stool and urine in putrid states.

Nash gave "Stupor with involuntary discharge of feces and urine." "Fears being touched or struck by those coming near him." "Putrid smell from mouth." "Bruised, sore feeling in uterine region, cannot walk erect." "While answering falls into a deep stupor before finishing." "Head alone or face alone, hot, rest of body cool."

"Many small boils, painful, one after another, extremely sore." "Suddenness" is a feature of Arn. pains and action. P. P. Wells related a cure of double pleuro-pneumonia in a child with sudden stabbing pains on both

sides of the chest almost preventing breathing. Arnica instantly caused a violent aggravation, the next instant relief was perfect and the child fell asleep breathing naturally.

Keynote sore, bruised feeling. Bluish discoloration, bruising, better cold applications. The bed feels too hard. Fatigue, "fear of being approached," an animal-like fear of guarding a wounded area. Can believe nothing is wrong when severely injured, sign of shock (Op.). Patient may be irritable and want to be left alone. Can have amnesia, or nightmares after injury or loss of confidence since injury. Intermittent fear of death.

A major goutremedy, afraid of joints being touched. Good for flus and mono when there is a sore, achy feeling all over. Also acute muscle fatigue in athletes. Superficial tissue trauma. Boils that feel sore and bruised.

Comas from trauma and injury. Any fever with a sore, bruised feeling. For chronic weak joints after repeated injuries. Shock due to trauma or shock from the injury itself. For grief and financial shock.

Good for overexertion. It's also used for trauma from blows from blunt instruments, sprains. For post-stroke victims, for injuries and hematomas. For heart attacks from overexertion. For internal bleeding. Achi- ness and weakness from the weight of the baby in pregnant women. For people who have a tendency to bruise easily.

Vertigo, worse head injuries and strokes. Also for severe illness when the patient goes into the stupor stage. Good after dental work. For vomiting of blood after injury to the abdominal region or injury to the uterus.

Sensitive to cold damp weather, and hot sun. Worse from touch. Alcohol will aggravate the condition, but may crave alcohol to relieve pain. Also worse tobacco. Sensation worse after an adjustment to spine (Ruta., Rhus-t.).

RELATIONS - Antidotes: Camph. Vitex trifolia. **Compare:** (1) Aeon., Bapt., Bell-p., Ham., Led., Rhus-t. Hyper., Symph.. (2) Abrot., Absin., Calen., Cham., Cina, Gnaph. (3) other Composites. (4) Am-c., Crot-t. - swashing in abdomen. (5) Ars., Bapt. - typhoid states, Bapt. "feels ill," Arn. "feels well." Bry., Rhod., Ruta., Sul-ac. **Complementary:** Aeon., Ip. **Follows well:** Aeon., Ip., Verat., Apis. **Followed well by:** Aeon., Ars., Bry., Ip., Rhus-t. **Antidote to:** Am-c., Chin., Cie., Ferr., Ign., Ip., Seneg. **Antidoted by:** Camph., Ip. (to massive doses),

Coffee (headache), Aeon., Ars., Chin., Ign., Ip. (to potencies).

***ARSENICUM ALBUM

(White Oxide of Arsenic)

PHARMACY - ars. Arsenicum album. White oxide of arsenic. Arsenic trioxide. Solution and trituration.

Historical dose: Trituration and all potencies.

CLINICAL - Abscess. Acne rosacea. **Albuminuria.** **Alcoholism.** **Allergies.** Amenorrhea. **Anemia.** Angina pectoris. Anorexia. Anthrax. **Anxiety.** Aphonia. Aphthae. Ascites. **Asthma.** Atrophy. **Bronchitis.** **Burning, pains.** **Cachexia.** **Cancer.** Cancrum, oris. Carbuncle. Cecum, disorders. Chills. Cholera asiatica. Colds. **Colitis.** **Coryza.** Coughs. Croup. Cyanosis. Dandruff. Delirium tremens. **Despair.** Diabetes. **Diarrhea.** Diphtheria. Dropsy. **Dysentery.** Dyspepsia. Ears disorders. Eczema. **Emaciation.** Endometritis. Enteric fever. **Epithelioma.** Erysipelas. Eye, disorders. Face, eruptions. Fainting. Fatigue. **Fears.** **Fevers.** **Food, poisoning.** Gangrene. Gastric, ulcers. **Gastritis.** **Gastroenteritis.** Glandular, swellings. Gout. Hay asthma. **Hay fever.** Headaches. Heart, disorders. **Hepatitis.** Herpes zoster. Hodgkin's disease. Hydrothorax. Ichthyosis. **Influenza.** **Intermittent fever.** Jaundice. Kala- azar. Kidney, diseases. Leucorrhea. **Leukemia.** Lichen. Lips, epithelioma. Locomotor ataxia. Lung disorders. Lupus. **Malaria.** Malignant, pustules. Measles. Menstruation, disorders. Miliary, eruptions. Myelitis. **Nausea.** Nettle rash. **Nephritis.** **Nervousness.** Neuralgias. Numbness. Paralysis. Peritonitis. Pityriasis. Plethora. Pleurisy. Pleurodynia. **Pneumonia.** Prostration. Psoriasis. Purpura. Remittent, fever. **Restlessness.** Rheumatism. Rickets. Ringworm. Scarlatina. Sciatica. Scrofulous, disorders. Sea-bathing. Seasickness. **Septic, fever.** Sneezing. Stomach, disorders. Strains. Suppuration. Throat, sore. **Tobacco habit.** Tongue, disorders. Traumatic, fever. Typhlitis. Typhus. Ulcers. Uremia. **Vomiting.** **Weakness.** Whooping cough. Worms. Wounds. Yellow fever.

HOMEOPATHIC - Grimmer stated that Ars. helped **cancer, epithelioma,** lupus, pernicious anemia have yielded to the power of this potent medicine. Typhus and pernicious types of malaria present a fair picture of the range and character of the sickness this remedy has cured.

Arsenicum album is a very deep acting remedy, affecting every organ and tissue. Ars. acts on the nerves producing inveterate neuralgias and multiple neuritis better heat. All-prevailing **anxiety, exhaustion and restlessness** with nightly aggravation, are most important. Great exhaustion after the slightest exertion.

Burning pains. Burning relieved by heat. Seaside complaints (Nat-m., Aq-mar.). Pains are maddening, **burning likefire,** hot needles or wires, better warmth. Acute and chronic bums. Sudden intense effects.

Sudden great weakness from trivial causes. **Very restless,** restless even in affected part, even stupor is interrupted by fits of restlessness with anxious moaning.

Fear, fright and worry. **Dying patients**, Ars. gives quiet and ease to the last moments of life when given in high potency. **Cancer pains**. The prostration seems to be out of proportion to the rest of his illness. Anemia and chlorosis. Low vitality. **Putrid cadaveric odors**. **Emaciation**. Gradual loss of weight.

Asthma, worse after getting colds in midsummer. Asthma, worse around midnight. Unable to lie down, **fears suffocation**. Anxious, must sit up, worse from odors, laughing, ascending, turning in bed or receding - ing eruptions, better coffee or sweet water. **Hay fever**. Air-passages constricted from allergies. **Shortness of breath**. Suffocative catarrh. Whistling, wheezing breathing.

Ars. should be thought of in ailments from alcoholism, Ptolemaic poisoning, stings, dissecting wounds, chewing tobacco. **Food poisoning**. Ill effects from decayed food or animal matter, odor of discharges is putrid in complaints that return annually. Injurious effects of fruits, especially more watery ones.

Discharges of mucus membranes are **acid, thin and scanty, coryza**, saliva, sweat etc. Weakness and emaciation is rapid. Degenerative changes. Gradual loss of weight from impaired nutrition. Reduces the refractive index of blood serum (also Chin, and Ferr-p.). **Malarial cachexia**. Septic infections and low vitality. Green discharges. Unquenchable thirst. Infantile Kala-azar.

Infections. **Alcoholism**. Frequent fainting. Destructive process, carbuncles, gangrene, cancer, malignancy. **Dropsy, pale, baggy, swellings**. Restlessness, then becomes drowsy. Eruptions undeveloped or suppressed.

MIND-Clinging, anxious and desperate. Begs for help. **Extremely nervous and anxious**. Deep insecurities and fears. Desires company, fears to be left alone. **Restlessness, changes place continually**. Inclined to complain and whine to those about her. Indecisive. Weeps and whines, but speaks little.

Full of worries about trifles. Anxiety about the future. **Anxiety about health**. Anxiety about others. **Anguish and restlessness**. Anxiety on waking from frightful dreams. Anxiety during headache. Anxiety, better motion. Anxiety about trifles.

Fear of death, yet tired of living, worse night. Fear of starvation. Fear of financial loss, poverty. **Fear of diseases**. Fear of getting cancer. Fear of catching an infection. Fear of germs, viruses. Fear of being poisoned. Fear of being left alone (Phos., Puls.). Fear of violence. Great fear with cold sweats. Fears something may have happened to relatives.

Children are capricious, want to be carried, want to go from father to mother to nurse (Cham.). Lacks courage. Frighten easily. Desires to be carried fast. Desires company, fears to be left alone. Clings to parents.

Obsessive compulsive disorder. **Fastidious, upset about disorder, dirt, germs**. Obsessed with order and tidiness. Sensitive to disorder and confusion. Suspicious. Miserly. Selfish and her desires exceeds her needs. Inclined to malice and satire.

Clinging to a doctor, needing reassurance. Exaggerating symptoms to assure attention. **Domineering and demanding**.

Angry with himself and others. Faultfinding and reproaches others. Irritability alternating with despondency. Irritability and restlessness during headache.

Melancholy. Despair of **recovery**. **Despair drives him from place to place**. Thinks it useless to take medicine. Consolation aggravates. Moaning and groaning, walks about wringing hands. Groans, moans and weeps during menses.

Insanity. Delirium tremens, cursing and raving, vicious. **Mania, wants to be held**. Fixed ideas. Tormenting thoughts. Suicidal impulses, mania, determined to commit suicide, he suffers so. Fear of being left alone, lest he do himself bodily harm (Nat-s.). Has no rest anywhere, rolls about on floor and despairs for his life.

Hallucinations of smell and sight. Delusions, body will putrefy. Sees ghosts day and night. Sees vermin, throws away bugs by handfuls. Carphologia. Imagines house full of thieves, jumps and hides. Fears he has murdered somebody. Self-torture, pulls her hair, bites her nails, tears at own body. **Abdomen** - Peritonitis. Ascites and ana

sarca. **Gastroenteritis**. Coldness and chilliness in abdomen. Abdomen swollen and painful. Rumbling in bowels. Periodical colic. **Burning pains**. Crampy pains in bowels. Cutting pains. **Violent pains in abdomen with anguish**. Violent squeezing and constricting, in umbilical region. Intussusception with pain in abdomen. **Liver and spleen enlarged and painful**. Spleen is enlarged in malarial fever, kala-azar. Pain as from a wound in abdomen on coughing. Gnawing, burning pains like coals of fire, relieved by heat. Epigastrium sore, tender. Ulcer above navel. Peritonitis. Swelling of inguinal glands.

Back - Burning pains in back (Ox-ac.). Weakness in lumbar region. Bruised pain in small of back. Cold, chill creeps up back. As if warm air streaming up spine to the head. Drawing in of shoulders. Stiffness of the back ascends from coccyx to nape. Neck stiff, as if bruised or sprained. Sacrum as if broken. Small of back as if broken, with hemorrhoids.

Back - Cervical glands enlarged, felt like a series of hard nodules under skin. Ulceration of sacrum after

typhoid.

Bladder - *Acute cystitis, with violent burning pains.* Dysuria. Burning in urethra during urination. Burning at commencement of urinating. Bladder as if paralyzed. Atony of bladder in old **persons**. **Retention of urine.** Retention of urine after confinement. Great desire, but passes no urine. Bedwetting, nocturnal.

Blood - Leukemia, especially in children. Blood is disorganized causing pernicious type of anemia and severe septic conditions. Hemorrhages, of black offensive blood.

Breasts - Burning in breasts, better motion. Mastitis.

Causations - Ill effects of food poisoning, eating ices, poor diet, watery fruits tobacco, quinine, sea bathing and traveling, mountain climbing. Care, grief, fright, ptomaine poisoning, financial loss, poverty. dissecting wounds.

Chest - Angina Pectoris. Chest as if raw or excoriated. Chest as if too narrow. Tightness of chest, as if bound with a hoop. **Tightness of chest, with great anxiety and restlessness.** Burning or coldness in chest. **Darting pain through upper third of right lung.** Sharp pain in chest when coughing. Sharp pain, in sternum. Oppression, worse stormy weather. Yellowish spots on chest.

Constitutions - It is suited to the full plethoric habit. Psoric constitutions. Nervous constitutions.

Coughs - Coughs dependent upon asthma, cyanosis, heart diseases. Cough worse after midnight, worse lying on back. **Cough with great exhaustion, collapse, anemia, nervous irritability.** Dry cough alternating with loose. Cough dry at night, better sitting up, worse drinking. Cough dry, as from sulphur fumes. **Cough after drinking.** Cough excited by smoking. **Coughing spells preceded by great anxiety and restlessness.** Cough with bloody sputum. Deep, dry, unceasing cough. Hemoptysis with pain between shoulders, burning heat all over.

Ears - Rash and heat about ears. Skin within, raw and burning. Roaring in ears during a paroxysm of pain. Ringing. Buzzing and singing, during attacks of intermittent and during apyrexia. **Thin, excoriating, offensive otorrhea.** Discharges of cadaverous odour, profuse, ichorous. Yellow discharge from right ear, with dryness of nose; hearing not weakened. Difficult hearing, for the human voice only. Unusual sensitiveness to sound. Impaired hearing, with humming in ears. Sensation as if ears were stopped up.

Eyes - Sunken or protruding. **Burning in eyes with hot, acrid lachrymation.** Edema around eyes. **Corrosive tears, making cheeks and eyelids sore.** Agglutination of lids. Eyelids red. ulcerated, scabby, scaly, granulated. Spasms of the eyelids. Stinging pain, when trying to open lids. Corneal ulceration. **Intense photophobia,** better external warmth. Sensitive to sunlight. Ciliary neuralgia with fine burning pain. Left-sided infraorbital pain. Blue spots in white of eye. Bluish circle around cornea. Scrofulous ophthalmia. Conjunctiva is injected, yellow. Conjunctiva looks like a piece of raw beef. Falling of eyelashes. Scrofulous ophthalmia. Ophthalmia of children. Pterygium, with dryness of lids. Pupils contracted or dilated.

Face - Expression of agony. Edematous swelling of face. Swollen, pale, yellow, **cachetic,** sunken (Acet-ac.). Haggard or distorted, hippocratic. Old look in children. Face is covered with cold sweat. **Tearing, needle-like pains, burning.** Angry, circumscribed flush of cheeks. **Burning, stinging pains as from red-hot needles.** Twitching of facial muscles. Black dots, acne. Pimples and vesicles, with acrid discharge. Pimples and vesicles, itching, burning, worse at night, in cold air, better warmth. Swelling of glands of lower jaw, with bruised pain. Cancerous ulcers on face.

Female - Amenorrhea. Scanty pale menses. Menses too profuse and too soon. Dysmenorrhea, better heat. Menses suppressed in weak, tired careworn women. Sharp pain in rectum during menses. **Menorrhagia** with black blood. Dark hemorrhages between menses. Thin, whitish, offensive discharge instead of menses. Profuse acrid, yellowish, thick leucorrhea, worse standing, passing flatus. **Leucorrhea, acrid, burning offensive, thin.** Pain as from red-hot wires, worse least exertion, causes great fatigue, better in warm room. Burning, throbbing, lancinating in uterine region. Ovaritis. **Burning in ovarian region.** Sharp pain in right ovary. Pressive, sharp pain in ovary into the thigh, which feels numb and lame worse motion or bending. Dryness of vagina. Itching of genitals. Promotes expulsion of moles. Increased sexual desire at menses. Cancer of uterus. Polyps on cervix.

Food - Loss of appetite with thirst with nausea. **Food poisoning with diarrhea.** Cannot bear the sight, smell or thought of food. Aversion to sweets, butter, fats, meat. Aversion to farinaceous food, beans and peas, gruel. Desire for something refreshing, strengthening, stimulating. Desires acids, sour things, brandy, coffee. Desires milk or warm drinks, tea. Craves fat, even lard or olive oil. Craves lemon, pungent things, acid fruits. Craves rye bread, alcohol, wine, brandy, warm food. **Worse from of bad meat, bad water, and watery fruits.** Dyspepsia from vinegar, acids, ice cream, ice water, tobacco. Worse from vegetables, melons, fruits. Worse after ice cream, sour beer, alcoholic drinks, cheese, fruits. Worse after salt fish, salt meat. Hives worse shell fish. **Colic after spoiled sausages.** Colic after rotten cheese, or moldy cheese. Worse quinine, chewing tobacco. Irritable heart in smokers and tobacco-chewers. **Intense, thirst.** Unquenchable thirst. **Desires warm**

drinks. Drinks little and often, craves ice-cold water or warm tea. Thirst for warm drinks during fever.

Head - Headaches relieved by cold, other symptoms worse. **Periodical headaches, with burning pains with restlessness.** Hemicrania with icy feeling of scalp and great weakness. Pain over left eye. Throbbing, stupefying, burning pains. Pulsating in forehead, with nausea. Aching in occiput. **Pain alternates between head or stomach.** Headache, alternating with colic or liver complaint. Headache with vomiting of bile. Sensitive head in open air. Restless head, it is in constant motion. Walks with head thrown backwards. **Scalp itches** intolerably. Circular patches of bare spots, rough, dirty and covered with dry scales, nightly burning and itching. Dandruff. Scalp very sensitive cannot brush hair. Hair becomes gray early. Falling out of hair. Scabs on hairy scalp. Chronic eruptions filled with pus. Tinea.

Heart - Angina pectoris, sudden tightness above heart. Heart pains into neck and occiput with anxiety, difficult breathing, fainting spells. Cramp in heart. Hydropericardium. **Palpitations with anguish, worse lying on back.** Palpitations ascending stairs. Palpitations, pain, dyspnea, faintness. Palpitations with tremulous weakness **after stools. Palpitations, worse night.** Beats audible. Visible pulsations. Weak heart, trembles. **Irritable heart in smokers and tobacco chewers.** Dilatation. Cyanosis. Fatty degeneration. Right ventricle hypertrophied. Pericarditis after suppressed measles or scarlatina. Valvular disease with intermittent pulse. **Pulse more rapid in morning** (Sulph.). Pulse, accelerated, quick and small. Pulse, quick and weak. Pulse, threadlike, small. Pulse, very frequent and irregular, sometimes imperceptible.

Kidneys -Albuminuria. Nephritis. Bright's disease. Diabetes. Uremia, with vomiting, colic, spells of suffocation. Feeling of weakness in abdomen after urination. Urine black as if mixed with dung. Urine is scanty, burning involuntary. Epithelial cells, cylindrical clots of fibrin and globules of pus and blood. Urine, dark brown. Urine, dark yellow, turbid. Sediment of red sand. Urine, mixed with pus and blood. Urine like thick beer, rotten smell. Glycosuria. Hematuria. Abscesses in kidneys.

Limbs - Weariness of limbs. **Excessive weakness and exhaustion of limbs obliging him to lie down.** Trembling of hands of limbs.

Limbs - Twitching, spasms, weakness, heaviness, uneasiness. Limbs heavy. Paraplegia with atrophy. Paralysis with contraction of limbs. Sciatica better walking and hot applications. **Burning pains.** Paralysis of lower limbs with atrophy. Drawing pain from elbow to axilla. Tingling in fingers. Fingers cannot be extended. Nails blue, discolored. **Restless feet.** Uneasiness in lower limbs, must move feet constantly or walk about. Feet weak, weary and numb, edematous. Wooden feeling in soles. Sore pain in ball of toes, while walking. Toes bend downwards. Cramps in calves. Swelling of feet. Peripheral neuritis. Diabetic gangrene. Ulcers on heel (All-c., Lam.). Ulcers on finger tips with burning pain. Ulcers on soles and toes.

Liver - Hepatitis from badfood or poisoning (Phos., Nux-v.). Compression pain in the region of the liver. Burning pain in liver, better from warm drinks. **Liver and spleen enlarged and painful.** Induration of liver.

Lungs - Air-passages constricted. Allergies. **Hay fever.** Asthma when fatigued. **Asthma from suppressed eruptions.** Asthma, worse taking cold in mid-summer. Asthma with pale, cold **face. Asthma about 2 a.m.** Whistling, wheezing breathing. Wheezing with cough and frothy sputum. **Asthma, worse around midnight.** Hysterical asthma from every little excitement. Suffocative catarrh. Unable to lie down, fears suffocation. **Suffocative attacks during sleep, must sit up.** Dyspnea, worse from odors, laughing, ascending. **Shortness of breath.** Dyspnea, turning in bed or receding eruptions. Dyspnea, better coffee or sweet water. Pleurisy with tendency to syncope. **Pneumonia from taking cold.** Pneumonia during a fatiguing journey. Hydrothorax. Pulmonary edema. Emphysema. Gangrene of lungs, with green ichorous sputum. **Expectoration scanty, frothy.** Expectoration thick, yellow, green, bitter, salty. Frothy expectoration, looking like beaten white of egg. Very tenacious mucus in lungs. Bloody expectoration. Mucus streaked with blood.

Male - Scrotum edematous. Erysipelatous inflammation of scrotum. Rawness of scrotum, with a bluish look. Testes swollen. Hydrocele. Epididymitis. Syphilitic ulcers with burning, stitching. Painful swelling of genitals, with gangrene. Glans blue, red, swollen and cracked. Glans blue, red, swollen and cracked. Chronic herpes. Serpiginous ulcers on genitals. Emissions during diarrhea stools. Sexual power lost. Increased desire.

Modalities - Better from company. Better heat, warm drinks and food, warm wraps. **Better hot dry applications.** Better from motion, walking about. Better lying with head elevated. Better sitting erect. Better sweating. Better open air. **Worse periodically.** Worse by the seashore. Worse wet weather, cold damp. Worse from cold air. Worse ices, cold drinks or food. Worse right side. Worse lying on affected part. **Worse exertion. Worse around midnight.** Worse after midnight. Worse 11 p.m. to 2 a.m. Worse every 14 days, yearly. Worse quinine, alcohol, tobacco. Worse eruptions undeveloped or suppressed.

Mouth - Swollen bleeding gums, painful to touch. **Ulceration of mouth with dryness and burning heat.** Bloody saliva. Metallic taste. **Gulping up burning water.** Bites tumbler while drinking. Dryness of mouth. **Aphthae in mouth.** Fetor oris. Bitter taste, water after eating and drinking. Mouth tastes, sour, foul, salty, sweet in morning. Speech rapid, lisping. Eruptions on lips. Sore lips and ulcers in mouth. Lips covered with

brown slime. Constant licking of dry, cracked lips. Cancer of lips. Epithelioma of lips. Lips black, livid. Formication on lips.

Nerves - Paralysis. Trembling, jerking, convulsions and chorea twitchings. Epilepsy, suddenly becomes unconscious with convulsions.

Nose - Acne of nose. Allergies. **Hay fever and coryza**, worse in open air, better indoors. **Thin, watery, excoriating** discharge. Nose feels stopped up with fluent coryza. Coryza with hoarseness and sleeplessness.

Burning and itching. Sneezing with biting watery coryza. **Sneezing with-**

out relief. Nose colds descend to chest. Dryness of nasal cavity. Cold sores in nose. Knotty swelling of the nose. Scabs in nostrils. Nosebleed after fit of passion or vomiting. Dyspnea felt in nose. Lupus. Offensive smell before nose. Smells of pitch and sulphur alternately. Cannot bear the sight or smell of food.

Perspiration - Cold, clammy sweats. Cold sweats, on face. Sweats with great thirst, dyspnea or exhaustion. Sour, offensive, copious sweats. Sweats on going to sleep, better after a little sleep. Sweats in bed. causes faintness. **Sweats relieves, rheumatic pains**. Sweats in morning without relief. Sweat, stains brownish, yellow. Sweat at end of fever. Sweats with aversion to uncover. Weakening sweats, even to fainting.

Rectum - **Burning pain and pressure** in rectum and anus. Dysentery, cholera, in children. Cholera with intense agony, prostration and burning thirst. Tenesmus. Ineffectual urging to stool. Fetid flatus. **Diarrhea from alcoholic abuse or spoiled meat**. Diarrhea of a cadaverous smell, scenting whole room. **Diarrhea with coldness of limbs and face, vomiting, prostration**. Diarrhea copious, smell of rotten eggs. Constipation, with pain in bowels. Acute prolapsed anus. Painful, spasmodic protrusion of rectum. Dark, offensive hemorrhages from bowels. **Hemorrhoids burn like fire, relieved by heat**. Itching and eczematous eruptions around anus. Skin excoriated about anus. Anus red and sore.

Skin - Eczema. Oversensitiveness of skin. **Skin symptoms alternate with asthma or internal disorders**. Itching, burning, swellings, edema. Intense itching after suppressed eruption. Skin peels off in large scales. Brownish-white spots on skin. Dry, rough, scaly, dirty, shriveled. Skin like parchment. Desquamation. **Eruptions, papular, dry, rough, scaly, worse cold**. Spots, blue, black, white. Pimples, vesicles, burning violently. Hives, worse eating shellfish. Urticaria, with burning and restlessness. **Urticaria with burning and restlessness**. Miliary eruptions.

Petechiae. Malignant pustules. Anthrax. **Poisoned wounds**. Scirrhus. Gangrene. Phagedena. Carbuncles. Psoriasis. Skin cancer. Epithelioma. Ulcers, with burning, cutting pain and bloody offensive discharge. Ulcers with high edges, discharging black, coagulated blood. Painful sensitiveness of old ulcers. Sensation of coldness in ulcers.

Sleep - Disturbed, anxious, restless. Sleeps with hands over head. Must have head raised by pillows. Suffocative fits during sleep. **Sleeplessness from anxiety, nervous exhaustion, restlessness**. Sleeplessness till 3 a.m. Talks in sleep. Awakened by pains. Shocks on dropping to sleep. Violent starting with twitching, trembling of limbs during sleep. Drowsy. Sleeping sickness. Yawning with stretching of limbs. Dreams of death. Dreams of dead persons. Dreams full of care, sorrow and fear. Dreams of thunderstorms. Dreams of fire, black water, darkness. Dreams of misfortunes and vexations.

Stomach - Anxiety in pit of stomach. **Sick from of bad meat, water, vegetables, melons and watery fruits**. Dyspepsia from vinegar, acids, ice cream, ice water, tobacco. **Heartburn**. Belching, gulping up of acid and bitter substances which seem to excoriate the throat. Hiccough, frequent. **Burning pain**. Burning as from red-hot coals in stomach. Qualmishness. Gastritis. Burning pain in stomach better by sweet milk. Stomach extremely irritable, seems raw, as if tom. **Stomach cancer** (Hydr.). Induration in stomach. Stomach pain from slightest food or drink. **Food poisoning with nausea, vomiting**. Nausea with sweetish taste in mouth. Nausea with heat. Vomiting with diarrhea. Nausea, retching and vomiting after eating and drinking. **Cannot bear the sight or smell of food**. Vomiting of clear water. Vomiting of blood, bile, green mucus. Vomiting brown-black mucus mixed with blood. **Ice cold water distresses the stomach and is vomited immediately**. Vomit, first water, then thick, glairy, or grass-green mucus, lastly blood.

looking skin in human beings are keynote indications for the remedy. In this connection, the effects on the crew of the ship named Zion may be mentioned, which carried arsenic as a portion of its cargo.

This was exposed somewhat to the sun's rays and the crew noticed a peculiar smell. Soon they all began to notice themselves growing stout and on reaching Philadelphia from England they had all gained much, one to the extent of two stones in weight.

Characteristic great fear of death, extreme restlessness, marked weakness, rapid loss of weight, coldness and lack of vital heat, nightly aggravations, especially after midnight, 2 a. m. to 4 a. m., extreme burning pains, marked tendency to ulcerations and destruction of tissues, low types of disease, malignant fevers, such as typhoid.

Restlessness, even the stupor is interrupted by fits of restlessness with anxious moaning. Patients are anxious,

full of the fear of death, restlessness compelling them to frequently change their position.

Nervous affections, notably chorea. Jerks and starts on falling asleep. Irritability, desperately angry, almost furious. Despair, hopelessness, unutterable misery. The irritability and sadness of malarial cachexias of the cachexias of quinine, mercury and syphilis.

Low types of disease, typhoid states. Inflammations of great intensity with tendency to destruction of tissue. Burning, sharp pains. Burning is another leading characteristic of Arsenic. The peculiarity of the "burning pains" is that they are better by heat (herein comparing with Caps.).

Ars. affects the entire digestive tract. The lips are so dry and parched and cracked that the patient often licks them to moisten them. The mouth is aphthous, ulcerated or gangrenous. The burning in the throat is better by eating or drinking hot things. On the other hand, cold food and cold drinks, worse stomach irritations, hence Ars. is of signal use for effects of eating ice and drinking ice water.

According to Teste, Ars. is suited to the effects of excess of vegetable diet, melons, strawberries and fruits in general, especially

watery fruits. The stomach is so irritable that the least food or drink causes distress or vomiting or stool or both together. Abdominal pains are intense, causing the patient to turn and twist. Hemorrhoids are exceedingly painful as if burning needles plunged in.

States of lowered vitality. The prostration of Ars. is remarkable. With it there is the desire to move or to be moved constantly. The patient is exhausted from the slightest exertion. Exhaustion is not felt while lying still, but as soon as he moves he is surprised to find himself so weak. The prostration seems out of proportion to the rest of his illness. Must lie down. Exhaustion from hill climbing, breathless, sleepless.

Thirst for little and often (Ant-t., Lyc.), wants it very cold and immediately rejects it (Phos. as soon as it becomes warm). Before and after the cough of Arsenic there is an attack of asthma (Phos.).

Acute coryza and hay fever. The fluent coryza is corrosive, reddening the upper lip and has more burning than either Merc, or All-c.

Worse out of doors and better in warmth (compared to All-c.). Predominantly rightsided. The neuralgias affect the right side most. The right lung has acute, sharp, fixed or darting pain in apex and through upper third of right lung. Right lung is more affected than the left, also the right side of the abdomen, hence typhilitis.

Good for controlling dropsical conditions, especially in cases of hydrothorax. It has been called the "liquid trochar," on account of the expeditious way in which it will remove a watery effusion. The patient cannot lie down, must sit up to breathe, anxious, restless, worse about 1 a.m. Puffiness is one of its characteristics and from this to dropsy.

All mucus membranes are irritated. The skin is cold and clammy. Scurfy eruptions. Bran-colored scales on head coming down to forehead.

Epithelioma of the lips and closely corresponds to the cancerous diathesis. Many cures of cancer have been reported under its use, both in crude and in potencies.

When the subjective symptoms of Ars. are present, it will cure in the potencies. When the similarity is more crude, the lower potencies will be required. In cancer cases the Ars. appears to act directly on the cancerous tissue and cancerous elements in the system.

Hemorrhagic, it acts on both blood and blood vessels. Varicose veins burn like fire. Anemia, chlorosis, pyemia. Weakened states resulting from blood loss, as venesection, metrorrhagia, hemoptysis.

Intermittent fevers and chills. Clarke once treated some members of a family who all had attacks of fever of short duration, recurring regularly every six weeks from living in rooms papered with arsenical papers. Its periodicity comes every day, every third or fourth day, every fortnight, every six weeks, every year.

There is pronounced night aggravation, pains with restlessness. Worse near midnight and after midnight, worse 3 a.m. There is worse from cold and damp, better warmth. Ars. loves warmth like Nux-v., Psor., Hep., Sil., Mag-m. and other hydrogenoid remedies. It is differentiated from Sulph., Ant-c., Iod., Apis and Puls. Ars. hugs the fire and likes warm wraps.

Good for food poisoning, pesticide and chemical poisoning, bad water, acute or chronic. The first symptom is diarrhea. Grimmer noted its use for cancer, epithelioma, lupus, and pernicious anemia.

Typhus and pernicious types of malaria present a fair picture of the range and character of the sickness this remedy has cured.

A major asthma remedy. Good for the flu when they despair over their recovery. Good for cancer, pains of cancer, and the reaction to the diagnosis of cancer. Effective for palliative care of dying patient. Minor diabetes remedy. Good for emaciation, periodic fevers and sweating, especially for AIDS patients. Malaria, yellow fever, dysentery.

Burning pains, the chest, the colon, the rectum burn. Better hot drinks and better warmth. Worse 11:00 at night until 2:00 a.m. They get a lot of asthma attacks and anxiety then. They're very chilly in general.

Fastidiousness, concerned with cleanliness and order, particularly the elderly. Fear of death and dying. Agonizing, tormenting fear of dying. Fear of cancer and AIDS. Obsessive, tormenting fears of getting infections. Despair, fear of being incurable. Fear of suffocation, the dark, being alone, poisoned. Worse right side, better heat and warm drinks. Better company. Sips, drinks often. Restless because of anxiety.

Etiology can be from suppressed skin rash. Serious disease, near death experience can make them feel vulnerable. Emotional deprivation, lack of love, shock of abandonment, sense of intense loss. Can be material loss, sense of being in a dangerous situation, poverty, war.

Behavior stems from underlying needs and sense of loss and feeling threatened. Can become stingy and possessive, insecure. hoarders, manipulative, controlling. Instability, concerned with creating stability, safety. Can become self centered, possessive, dependent on others because of this. Much of their concern is about their health, hypochondriacs. Can become paranoid, hostile, leading to depression or anger.

RELATIONS -Antidotes of potencies: Camph., Chin., Chin-s., Ferr., Graph., Hep., Iod., Ip., Nux-v., Samb., Tab., Verat. Op.. Carb-v., Antidotal to lead poison. **Chemical Antidotes:** Charcoal, Hydrated Peroxide of Iron, Lime Water. **Antidotes to poisonous doses:** milk, albumen, demulcent drinks, followed by emetics of mustard, Sulphate of Zinc or Sulphate of Copper (Tartar emetic is too irritating). Castor oil is the best purgative.

Antidote to: Carb-v., Chin., Ferr., Graph., Hep., Iod., Ip., Lach., Merc., Nux-v., Phos., Samb., Stry., Tab., Verat. **Compare:** (1) The restlessness of Ars. differs from that of Mag-c. must get out of bed and walk the floor to relieve pain. The fear of death is not that of Aeon., but is an anxiety and a feeling that it is useless to take medicine as they will surely die (more like Agnus). (2) Bry. drinks much seldom, Ars. little and often, Ars. eats much at a time, Bry. often and little. (3) Ars. stibiatum 3x - Chest inflammations of children, restlessness with thirst and prostration, loose mucus cough, oppression, hurried respiration, crepitant rales. (4) Cenchris

Stool - Involuntary stools and urine. Diarrhea, slimy, green mucus, with tenesmus. Dysentery dark, bloody, very offensive stools. **Small offensive, dark stools with much prostration.** Stools, worse at night, after eating and drinking from chilling stomach. Stools, like rice water. Stools, foul, small, involuntary. Stools, acrid, burning, black, mucus, with much prostration. Stools, first dark green feces, afterwards dark green mucus. Stools, like dirty water. Stools, of blood and water. Stools, black, acrid and putrid.

Teeth - Unhealthy, swollen, easily bleeding gums. Gums, painful to touch. Grinding of the teeth in sleep. Neuralgia of teeth. Teeth feel long and very sore. **Toothache, worse after midnight, better warmth.** Painless throbbing in roots of teeth. Teeth become loose, sensitive to pressure and cold water. Dentition with nightly restlessness. Gums and teeth covered with brown or black slime.

Temperature - Internal chills with external heat and red cheeks. Sensitive to cold, yet better in open air. Body cold as ice (Verat.). **Coldness in spots.** B1 ue nails and lips during chill. Waves of icy coldness in blood vessels or intense boiling heat. Externally cold with internal burning heat. Chills irregular, shaking, craves hot drinks during chill, dyspnea. **Fever at night, with anxiety, restlessness.** High fever, hectic fever. Septic fevers. It is a prophylactic for malaria, yellow fever. Influenza. Delirium, worse after midnight. Great heat about 3 a.m. Typhoid fever. Sordes. Intermittent fever. **Paroxysms incomplete with exhaustion.** Great restlessness. **Complete exhaustion.** Heat as of hot water in veins or they burn like lines of fire.

Throat - **Sore throat, better warm drinks.** Dryness with soreness, scraping and burning. Swollen, edematous, constricted, burning, unable to *swallow*. **Burning pain in throat.** Everything swallowed seems to lodge in esophagus. Nausea in throat. Malignant sore throat. Blueness of external throat from distension of veins. Diphtheria membrane, looks dry and wrinkled. Ulceration with swollen submaxillary glands. Constriction of larynx during cough. Burning in larynx and trachea. Aphonia. Voice weak, trembling, uneven, hoarse. Voice rough, hollow. Spasm of glottis. Sudden catarrh, threatening suffocation at night. Gangrenous croup.

Tongue - Tongue dry, clean and red, stitching. **Burning pain in tongue.** Tongue ulcerated bluish white. Edge of tongue red. Tongue takes imprint of the teeth. **Tongue burning, trembling, stiff.** Tongue coated, white, yellowish, brown, black. Swelling about the root of the tongue.

Vertigo - Vertigo with a loss of consciousness. Vertigo during coughing fits. Vertigo in asthmatics. Vertigo before epilepsy. Vertigo with confusion. Vertigo with humming in ears. Vertigo of malarial origin. Vertigo during pregnancy. Vertigo when closing eyes, as if he would fall.

Vision - Dim vision during headache. Snow dazzles, with lachrymation. Vision, everything appears green. Sees as through a white gauze. Flickering vision. Horizontal half-sight, only objects in lowest part of field of vision could be seen.

COMMENTS - The Arsenic habit of the Styrian mountaineers has arisen from the discovery of its power of strengthening the muscles both of the limbs and of the breathing apparatus. The arsenic-eaters of the Tyrol can take as much as a few grains of white arsenic or the sulphide, every two days. They maintain that it imparts a sense of invigoration and enables them to carry enormous loads up steep mountains.

According to one account it is resorted to by populations who live on vegetable food almost exclusively. "It strengthens the muscles, helps to digest our coarse bread and potatoes and allows us to breathe freely and easily."

It is difficult to say how far this is a directly "**tonic**" effect and how far curative of the dyscrasia generated by the conditions of life. The fine skin and glossy hair of the young women among the arsenic-eating people is remarkable and is comparable to the fine coats of arsenic fed horses.

On the other hand, "**staring coat**" in animals and "**dry, rough, scaly, unhealthy-**

contortrix, Iod., Phos., Chin., Verat., Carb-v., Kali-p. (5) Epilobium - intractable diarrhea of typhoid. (6) Hoang Nan. (7) Atoxyl. - Sodium arseniate 3x, sleeping sickness, commencing optic atrophy. (8) Sarcolactic acid - influenza with violent vomiting. **Complementary:** Carb- v., Phos., Thuja, Secale. All. sat., Phos. **Follows well:** Aeon., Agar., Arn., Bell., Cham., Chin., Ip., Lach., Verat. **Followed well by:** Aran., Nux-v., Iod., Sulph., Rhus-t. follows well in skin affections, especially in cases treated allopathically with large dose of arsenic.

REFERENCES - Boericke. Clarke. Grimmer. Murphy.

***ARSENICUM BROMATUM

(Arsenic Bromide)

PHARMACY - ars-br. Arsenicum bromatum. Arsenic bromide. **Historical dose:** Trituration, all potencies.

CLINICAL - Acne. Cancer. Constipation. Diabetes mellitus. Herpes. Intermittent fevers. Locomotor ataxia. Neuralgias. Tumors.

HOMEOPATHIC - Ars-br. has proven a great anti-psoric and anti-syphilitic remedy. Hansen said it is useful for "Acne rosacea with violet papules on the nose. Diabetes mellitus."

Herpetic eruptions, syphilitic growths, glandular tumors and indurations. Carcinoma, locomotor ataxia and obstinate intermittent fevers. **Acne rosacea** with violet papules on nose, worse in the spring. **Acne** in young people.

Great restlessness, wants to be carried continually. Larynx and trachea invaded; the effort to breathe causes profuse sweating. Irregular brownish stripe on center of tongue, more toward base. Great thirst for large quantities.

COMMENTS - Anshutz's best successes were in obstinate cases of syphilis, in the first stages of tabes dorsalis, in the convalescence from exhausting acute diseases, in gastric suppurations inactivity of bowels, tardy digestion, constipation.

In those cases where Chin-s. failed in intermittent fevers, he prescribed Ars-br. twice daily, four drops, each time in a full glass of water. Gradually diminishing it to one daily dose and in four weeks.

Even the most obstinate cases yielded to this treatment. The patient felt encouraged by his increasing vigor, the fever-cakes disappear, the bowels moved regularly and appetite left nothing to be desired. Those mean obstinate cases of intermittent fevers often appearing in the form of unbearable neuralgias, yielded more rapidly to it than to the Quinine.

Anshutz noted the case of "S. T., age 46 years old, contracted syphilis some years ago and was relieved of it by mercurial treatment and by Zittman's decoction. About six years ago he felt out of sorts and a papular eruption appeared on forehead, temples and especially at the root of the nose. Though treatment was immediately instituted, still in a few weeks the face of the patient was covered by ugly, foul-smelling crust.

"Cod liver oil was now taken internally and applied externally until the scurfs fell off and the eruption concentrated on three points. For six months that treatment was kept up, but after being omitted for a few weeks, the eruption spread again to its former extent. Every treatment was tried in rotation without the least benefit.

"In the spring 1856 he entered my clinic. In the center of the forehead, at the root of the nose, on both eyebrows on the temples and right cheek there are moist herpetic eruptions covered with crusts, exuding on least pressure an acrid, burning discharge, with easily bleeding.

"Around these eruptions the skin is injected, reddened interspersed with a large network of veins. Cough and expectoration hint to a beginning of tuberculosis, an heirloom in the family. Little appetite, disturbed digestion, tardy defecation and evening fever.

"He is ordered Solutio Ars-br. twice a day, four drops in a glass of water and already after two weeks the eruption begins to dry up, appetite returns and bowels are regular.

"After two months two crusts fall off and the skin under them is soft, shining, somewhat red. About July all eruption had gone and the cough greatly improved."

He continued by noting that "Ars-br. is also a powerful remedy in diabetes mellitus and insipidus, cured cases where the patient had already been reduced from 138 pounds to 98 and where the urine could be condensed,

by boiling into syrupy consistency.

"A diabetic patient needs fresh pure air if he wishes to get well, confinement in a room or in the office prevents the action of any treatment, for it needs ozone to reduce the sugar of the blood into carbonic acid and water.

"Let the patient take three drops thrice daily in a glass of water and after a week the insatiable burning thirst will be quenched and these doses must be continued until the quantity of sugar in the urine is reduced, when the remedy might be taken twice a day and continued for a long time." **REFERENCES** - Anshutz. Boericke. Clarke.

***ARSENICUM HYDROGENISATUM

(Arseniuretted Hydrogen)

PHARMACY - ars-h. Arsenicum hydrogenisatum. Arseniurettedhydrogen. Arsenic hydrogen. Solution in distilled water. **Historical dose:** Trituration and all potencies.

CLINICAL - Collapse. **Hematuria.** Hemorrhages. Hiccough. Menses, suppressed. Prostration. Sneezing. Urine, suppressed. Vertigo. Vomiting. Yellow fever.

HOMEOPATHIC - Ars-h. was used by Drysdale as a substitute for Arsenic in the collapse stage of cholera. The symptoms set in suddenly but developed slowly. In poisoning cases, death often took place in the second week and one person, who recovered, suffered seven weeks.

Though like Ars. in general symptoms, the gas has symptoms of its own. The general action is the same, but more accentuated. A striking case of sudden suppression of menses was cured with Ars-h. after failure of Ars. Anemia. Anxiety, despair. **Hematuria** with general blood disorganization. Hemorrhages from mucus membranes. Urine suppressed, followed by vomiting. The prepuce and glans of penis are covered with pustules and round superficial ulcers.

Collapse. Coldness, prostration. Sudden weakness and nausea. Skin becomes dark brown.

MIND - Mental activity much impaired. Indifference on hearing most important news. Discouraged. Impeded in talking, answers very slowly. Answers abruptly, shortly. Changeable. Starting during sleep. Thinking of water irritates, as if he would have to vomit, nauseates him.

Anxiety, restlessness with great prostration of strength. Anxious feeling before chill. Full of care and fear about complaints when getting awake at night. Fear of death when alone. Excitable, wants to talk constantly. Impatience. Loud complaining about unbearable pains in spine.

Abdomen - Distension of abdomen during chill. Gurgling noise, Incarcerated flatus. Sensation as from a stone lying in abdomen. Glowing heat in abdomen with cold limbs. Violent cutting pain in region of navel, paroxysmal. Colic with vomiting, before midnight. Burning pain through whole alimentary canal. Softening of spleen. Pain in loins during vomiting.

Back - Sensation as if something were sticking below right scapula. Glow in back after chilliness. Backache causing loud lamentations. Tearing pain in neck during chill. Pressure between shoulders. Crawling over shoulders and back. Shuddering over single parts of back. Violent pain in lumbar region. Violent pain in sacrum. Stiffness of neck and between scapulae.

Chest - Constriction of chest, during chill. As if whole thorax were laced tightly, with rapid breathing. Sore, raw, over whole chest. Crawling, as if warm drops running over chest. Glowing sensation in chest after chilly feeling. Pain in middle of sternum, worse walking about. Pressure over whole chest with great anxiety.

Eyes - Eyes sunken, broad, blue circles around. Eyes lustreless. Conjunctiva reddened during chill. Heaviness of lids, have to be lifted up with fingers. Blue light before right eye when falling asleep. Dim vision.

Face - Expression of extreme anxiety. Painfully distorted features. Face looks old and bears an expression of pain. Face copper-colored, or dark red. Chilly feeling in face, followed by a glow. Yellowish face at beginning of chill. Pain in maxillary joints, when first opening mouth. Heat in face. Face edematous, worse evening. Face greatly changed. Very painful twitching. Lips colorless. Upper lip sore with chill.

Food - Less appetite, eats without relish. Loss of appetite. Violent thirst and a dry tongue. Much thirst. Sensitive to tobacco. Sweet things taste too sweet.

Head - Head dull and benumbed. Pressure in forehead. Heaviness. Pressing, stupefying sensation at night. Headache above forehead. Pressure in right frontal sinus. Pressure above eyebrows with numbness. Violent pressive frontal headache, worse at night. Head worse warmth. Pain in upper and back part of head when coughing. Pain in forehead during chill.

Heart - Knocking, thumping, in heart, deep in chest. Pulse frequent. Pulse quite imperceptible. Pulse intermits when awaking at night, with anxiety and thoughts of death.

Kidneys - Heat and burning over kidney region. Unpleasant sensation of pressure in region of kidneys. Urging to urinate. Urine dark red and a thick clot of pure blood is formed. Pressure in kidneys with desire to urinate. Large quantities of pale urine. Scanty, foaming urine in morning. Inky urine. Urine very dark, orange-colored.

Limbs - Coldness of limbs.

Liver - Liver painful to pressure.

Lungs - Frequent, with pain in perineum. Talking worse. Coming from front upper part of chest. Coughing causes sweating.

Male - Sensation of numbness. Unbearable pain in both groins. Pain in symphysis pubis, sensitive to touch. Pain in left side of penis. Sexual irritation on glans penis. Whole foreskin and glans covered with little blisters containing pus. Small round flat ulcers.

Modalities - Worse dampness. Worse before thunderstorm. Worse from motion.

Mouth - Mouth hot and dry, little thirst. Bitter taste, with great prostration. Contracting. Sensation of numbness, like a cold feeling. Increased salivation. Ammoniacal odour of breath.

Nose - Unpleasant crawling in nose causes sneezing. Nose as if deadened. Nose feels as if dried up. Violent sneezing. Nose cold, must be wrapped up in warm cloths. Tickling up in nose, causes sneezing. Bloody mucus from nose. Nose and lips somewhat excoriated.

Perspiration - Sweats in large drops on face and whole head. General, warm sweat, after midnight. Attacks of night sweat. Sweats on falling asleep.

Rectum - Urging as to diarrhea. Copious passage of wind and looseness. Frequent bilious stools. Constipation with feeling of heaviness and stiffness, like a weight. Stool with vertigo, weakness and crawling. Weak sensation, as if relaxed. Sensation as if diarrhea would fall out, evening. Thumping, knocking, in region of perineum, near anus. Tearing pain in perineum. Tearing pain upward in anterior wall of rectum.

Skin - Dark brown skin all over.

Sleep - Can't get to sleep for a long while, feels as if he had to move about. **Total sleeplessness.** So drowsy that he can hardly open his eyes. Sopor between attacks of vomiting. Moaning in sleep. Sleep interrupted by headache. Sleep interrupted by slightest noise. Sleep disturbed by wind colic towards morning. Frequent starting while falling asleep. Very pleasant, poetical dreams. Dreams he was praying. Dreams of people going and arriving.

Stomach - Irritability of stomach. Burning pain. Weary feeling in stomach with pressure in temples. Belching with taste of food eaten. Spasmodic eructations of tasteless gas. Violent cutting pain in stomach. Pressure in epigastric region during chill. Pressure of hand causes dull pain in pit. Hiccough following eructations. Tormenting hiccough. Incessant retching and vomiting.

Stomach - Vomiting with pain in loins. Vomiting liquid, first bilious and afterwards coffee-colored. Vomiting of green, bitter mucus during colic. Vomits large masses.

Temperature - Chills while walking. Chilly and weak while attempting to rise. Glowing heat in abdomen and cold limbs all night. Much heat and burning in different parts of body.

Throat - Burning and constriction in throat, followed by irritability of stomach. Squeaking voice. Whispering voice. Voice has lost its timbre, sounds as if broken, but not hoarse.

Tongue - Tongue enlarged. Tongue deep, irregular ulcer. Tongue nodular swelling. Sensation of numbness in the tongue. Pricking on tip of tongue. Tongue slimy. Tongue yellow. Yellowish furred tongue during chill. Back part of tongue greyish- white.

Vertigo - Swimming sensation in head and whole body. Violent vertigo, on going up stairs. Vertigo, staggers against sides of stairs. Vertigo with general weakness. Vertigo, with nausea and vomiting. Vertigo, with pressure in frontal sinuses.

RELATIONS -Antidotedby: Am-a. **Compare:** (1) Ars. (2) Sinapis - breathing. (3) Nux-v. - fever, drinks containing sulfuretted hydrogen.

REFERENCES - Boericke. Clarke.

***ARSENICUM IODATUM

(Arsenic Iodide)

PHARMACY - ars-i. Arsenicum iodatum. Arsenic iodide. Ought to be prepared fresh and protected from light. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Abscess. Acne rosacea. AIDS. **Allergies.** Amenorrhea. Anemia. Aneurysm. Angina pectoris. Aphonia. Arteriosclerosis. Axillary tumors. **Breast, tumor.** Bronchitis. Broncho-pneumonia. **Bubo. Cachexia.** Cancer. Catarrh. Coryza. Coughs. **Debility.** Diarrhea. Diphtheria. Dropsy. Dysentery. Dyspnea. Eczema. **Emaciation. Epithelioma.** Fever. Gastritis. **Goiter. Hayfever.** Heartburn. **Heart, disorders.** Hectic, fever. Hydrothorax. **Hyperactive, children. Ichthyosis.** Influenza. Laryngitis. Leucorrhoea. Leukemia. Lichen. Liver, disorders. **Lung, cancer.** Lungs, disorders. Measles. Myocardial, degeneration. Nasal, catarrhs. Otitis, media. Otorrhea. Pernicious, anemia. Pharyngitis. Pleuritis. **Pneumonia.** Prostration. Psoriasis. Pyemia. Rheumatism. Scrofulousophthalmia. Syphilis. **Tuberculosis.**

Ulcers. Vertigo. Vomiting. Weakness.

HOMEOPATHIC - Produces most characteristically **excoriations of mucus membranes**, like all arsenical preparations. The discharge irritates the membrane from which it flows and over which it flows. The discharge may be fetid, watery and the mucus membrane is red, angry, swollen, itches and burns.

Ars-i., produces marked emaciation, fatty degeneration, debility, night sweats. Tuberculous and anemic conditions are benefited by it. Also hypertrophy and weakening of heart muscle (degeneration).

It will be indicated by a profound prostration, rapid, irritable pulse, recurring fever and sweats, emaciation. Tendency to diarrhea. Hectic fever and debility. Enlargement of the spleen. Bad effects of malaria or quinine. Threatened pyemia (Pyrog., Meth-b).

In Ars-i., we have a remedy most closely allied to manifestations of tuberculosis. In the early stages of tuberculosis, even though there is an afternoon rise in temperature, Ars-i. is very effective.

This remedy is for tuberculosis with hoarse, racking cough and profuse expectoration of a purulent nature and attended with cardiac weakness, emaciation and general debility. Scrofulous glands. Drenching night sweats. Ars-i. should be thought of when the discharges of mucus membranes are persistently acrid, profuse, thick, gluey, yellow like honey in chronic disorders and thin in acute conditions.

Discharges cause burning on the parts on which they flow. Influenza, **hay fever**, old nasal catarrhs and catarrh of middle ear. Swelling of tissues within the nose. Hypertrophied condition of eustachian tube and deafness.

Acrid coryza, influenza, hay fever. There is marked burning in the eyes, nasal passages, mouth and pharynx. Thin, acrid, watery discharges from anterior and posterior nares. Watery discharge drops from tip of the nose. Aphonia. Slight hacking cough, dry stopped nostrils.

Has been use in cancerous affections and in all stages of syphilis. **Cancer of breast** after ulceration has set in. **Epithelioma and lung cancers** based on tubercular disease. Epithelioma of the lip. Axillary tumors. Great emaciation.

Weakness and debility. Heart weakened by chronic lung disorders. Arteriosclerosis. Fatty degeneration of the heart. Myocarditis. Myocardial degeneration. Senile heart. Chronic aortitis. Feeble irregular pulse.

Disorders of the blood and glands are pronounced. Pernicious anemia. In amenorrhea with anemic palpitations and dyspnea. In chronic pneumonia, when abscess is about to form. Pneumonia following influenza. Chronic pneumonia with abscess in lung.

MIND - Excitable. Hurried. Impatience. Anxiety about **health**. **Restlessness at night**, driving out of bed. **Hyperactive children**. Oversensitive to noise. Oversensitive to sensual impressions. Averse to being spoken to. Unable to study. Study causes headache. Worse from mental exertion. Sudden impulse to kill.

Abdomen - Abdomen hard and distended with flatus, which is constantly discharged. Large quantities of flatus. Bellyache, better after stools. Chronic splenic enlargement. Enlarged mesenteric glands. Painful swelling in right groin on extending leg. Severe cutting pain in abdomen.

Back - Burning heat in lumbar region, as if clothes were on fire. Soreness of back and neck.

Breasts - Lump in breasts, worse touch. **Cancer of breast** after ulceration has set in. Nipple retracted. Emaciation of breasts.

Chest - Burning heat in chest. Axillary tumors.

Constitutions - Suited to those with a tendency to allergies, hay fever and asthma. Tubercular constitutions.

Cough - Hacking cough with dry and stopped up nostrils. Cough dry with little difficult expectoration. Frequent, short, suppressed cough. Frequent cough, worse exertion and at night. Cough often loose, with muco-purulent expectoration.

Ears - Otitis media with fetid, corrosive discharge. Hypertrophy of eustachian tube, deafness from. Sharp pain in ears and forehead when riding in a sharp cold wind. Thickening of tympanum, after scarlet fever.

Eyes - Scrofulous ophthalmia. **Burning, acrid coryza**. Eyeballs feel heavy. Smarting about eyes. Weakness of eyes, with burning pain. Secretion of meibomian glands.

Face - Sallow complexion. Pinchedcadaver- ous face. Purple, livid hue of skin. Aching in malar bones. Cancer of lips.

Female - Foul, bloody, yellow irritating leucorrhoea with swelling of labia.

Food - Intense thirst with desire for cold water which is ejected at once.

Head - Study, mental exertion causes headache. Dull heavy headache, across forehead or occiput. Unpleasant feeling in head, like a bad cold. Stunning pain above eyes and root of nose. Severe pain in forehead. Hyperemia of brain, with cold feeling in scalp. Head covered with an inflammatory scaly eruption.

Heart - Weak heart. Arteriosclerosis. Myocardial degeneration. Senile heart. Fatty degeneration of heart. Chronic aortitis. Pulse rapid, irritable. Pulse rapid, feeble, weak, irregular. Oppression in warm room, with anxiety in region of heart.

Limbs - Cold limbs. Heaviness of limbs with weariness. Pain in humerus, worse from writing. Clothes feel cold better walking. Tired, weary feeling in calves of both legs while kneeling.

Lungs - Asthma. **General wheezing on first lying down.** Breathing too rapid, even when at rest, increasing in rapidity on exertion, soon becoming an audible wheezing. Chronic bronchitis. **Catarrhal pneumonia with muco-purulent expectoration, dyspnea, night sweats.** Pneumonia that fails to clear up.

Lungs - Broncho-pneumonia after influenza. Rales and crepitation. Pleuritis. **Short of breath, air hunger.** Feeble respiration. **Expectoration, yellow-green, foul.** Muco-purulent and occasionally stringy mucus. Pulmonary tuberculosis. Tubercular pleurisy.

Modalities - Better from open air. Better after eating. Worse from dry, cold weather. Worse windy, foggy weather. Worse any exertion. Worse in rooms. Worse apples. Worse tobacco smoke. Worse when hungry. Worse lying on the painful side. Worse warm south winds.

Mouth - Breath fetid.

Nose - **Hay fever.** Swollen nose. Burning, acrid coryza. Coryza with dyspnea. **Thin, watery, excoriating discharge from anterior and posterior sinuses.** Drips water, which is hot. green, acrid, reddens upper lip. Irritation and tingling of nose constant desire to sneeze (Pollanin.). Aggravation by sneezing. Frequent sneezing, but unsatisfactory. **Chronic nasal catarrh,** profuse thick, yellow **discharge. Nasal membrane sore and excoriated.** Nasal ulcers. Postnasal catarrh. Colds with hunger. Violent, acute influenza.

Perspiration - Debilitating night-sweats. **Drenching night-sweats** with weakness..

Rectum - Continual aching in anus with seeming inability to keep sphincter closed. Diarrhea and dysentery, stools scalding, white. Urging in morning after moving about. Diarrhea not at night. Almost constant copious watery diarrhea.

Sensations - Sensations of heaviness occurs in many parts.

Skin - Dry, scaly, itching. Psoriasis. **Marked exfoliation of skin in large scales,** leaving a raw exuding surface beneath. **Enlarged scrofulous glands.** Eczema of the beard, watery, oozing, itching, worse washing. **Ichthyosis.** Acne is hard, indurated base with pustule at apex. **Venereal bubo.** Eczema of beard worse washing.

Sleep - Restless sleep. Constant yawning. Sleeplessness from headache.

Stomach - Pain and heartburn. Intense thirst, water is immediately ejected. Pain in stomach, afternoons, with rising of flatus and a greasy fluid. Pain in stomach worse rising after sitting. Pain in epigastrium. Vomiting an hour after food. Distressing nausea and vomiting.

Temperature - Chilly, cannot endure cold. Influenza. Recurrent fever and sweats. Emaciation.

Throat - Hoarseness. Aphonia. Raw burning pains. Burning in pharynx. Thick membrane from fauces to lips. Chronic follicular pharyngitis. Goiter. Diphtheria. Tonsils swollen. Enlargement and inflammation of tonsils and posterior part of uvula during coryza.

Tongue - Tongue slightly furred.

Vertigo - Vertigo with tremulous feeling, especially in the elderly.

COMMENTS - This is a synthetic remedy, its iodine element makes the person hot and adds an affinity for the glands, so it's a warm-blooded glandular remedy. Good for fever with swollen glands. Acute sore throat with burning and swollen glands, worse heat.

In chronic, watery diarrhea in tubercular subjects in cases of emaciation with good appetite. This remedy can be continued for some time. Clinically, it has been found advisable in tuberculosis to begin with about the 4x and gradually go lower to the 2x trituration, 3 times a day.

Also for hay fever and allergies, usually will look like an infection with swollen glands and fever, not an allergy. Psoriasis (Kali-ar). Affinity for the thyroid, hypothyroid conditions. Good for AIDS patients with emaciation, fever, swollen glands.

Eczema of the beard, psoriasis, diarrhea of phthisis. Emaciation with good appetite. Always chilly, feeble respiration. Chronic splenic enlargement after intermittents or quinine.

RELATIONS - Antidote: Ars., Bry. relieved pain and heartburn. **Compare:** (1) All-c., Ars., Sang., Tub., Kali-br. Ant-i. (2) In hay fever. Aralia, Naphthalin., Rosa, Sang-n. (3) Bac. in acrid discharges, Nit-ac., Ail., Arum-t., Ars., Ars-m. and Ars. salts. (4) Useful after Sulph.

in tuberculosis pulmonalis and after Conium is sensitive lump in breast. **Complementary:** Kali-i. Phos.

***ARSENICUM METALLICUM

(Arsenic Metal)

PHARMACY - ars-met. Arsenicum metallicum. Arsenic metal, (At. Wt. 749) Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Apathy. Constipation, Coryza. Diarrhea. Eye disorders. Hemorrhoids. Headaches. Itching. Sciatica. Skin, disorders. Syphilis.

HOMEOPATHIC - The symptoms of Ars-met. are very like those of Ars., but not entirely. The following are the most peculiar: symptoms recur every 14 days, coryza every 21 days. Pains extend from one part to another or leave one part and appear in another. Attacks come suddenly and go slowly or vice versa. General weakness and debility. Thinking of symptoms aggravates. Many symptoms appear on right side. Swollen feeling of parts. Enlarged or swollen feeling of brain, head, eyelids, hands and fingers. Syphilis wakes up after being many years dormant. Itching in many parts, skin peels off in small scales. Cutting, burning, stinging pains.

MIND - Memory weak for what he has read, has to read everything two or three times before he comprehends it. Thinking of symptoms aggravates. Moody, doesn't wish to see anybody. ***Desire to be alone.*** Depression with exhaustion. Low spirited. Sad with tearful eyes, but can't weep, even during most painful events. Fear of being poisoned.

Annoyed by visions, causing her to cry. Fearful visions of spectres in bright daylight. Sees threatening people after her and screams horribly. Feels as if she has to run away. **Abdomen** - Bloated abdomen. Pain in spleen down to groin. Red rash on abdomen. Painful swelling in right groin. Pulsation in navel.

Back - Chilliness in neck, during headache. Numbness and lameness sensation of right lumbar region. Pain in spine between scapulae. Sharp pain behind scapulae. Crawling sensation on back. Feeling as if a furuncle would form. Weakness of neck. Itching in neck during coryza.

Breasts - Itching of breasts. Pain in breast extends to hip and spleen.

Chest - Chilliness extending into chest. Pulsation under sternum. Small blisters filled with blood on left side of chest. Sensation as if a heavy load were lying on chest.

Ears - Numbness below ears.

Eyes - Eyes, red, swollen and watery, burn with coryza. Hot and corroding lachrymation during coryza. Pterygium, with enlarged bloodvessel. Eyes weak. Can't look into bright light. Eyes painful after reading, sewing. Eye pain from walking in wind.

Face - Face bloated, red and hot, during coryza. Red, itching, burning and swollen. Stiffness in lower jaws when biting. Twitching in left lower jaw.

Female - ***Menses too early and too long- lasting.*** Menses too scanty. Heat in uterus and vagina. Burning when touched.

Pains in uterus and vagina during menses.

Food - No appetite. Aversion to wine and alcoholic drinks. Great desire for brandy or alcoholic drinks. Worse after brandy.

Head - Writing and thinking aggravates headaches. Headache over eyes, with chilliness. Head feels too large. Left-sided headache up to eyes and into ears. Headaches, worse stooping and lying down. Edematous swelling of forehead. Laughing aggravates. Falling off of hair.

Heart - Pains in region of heart after mental disturbances. Sharp pain in heart. Can lie only on left side in heart disease. ***Pulse accelerated in morning*** (Sulph.).

Limbs - Limbs feel heavy.

Liver - Sore pain in liver goes through to shoulders and spine.

Lungs - Great difficulty in breathing, with sneezing, coryza, lachrymation.

Kidneys - Hot urine in evening. Red, sandy sediment.

Male - Itching on scrotum. Itching on glans. Prepuce swollen. ***Chancres with burning pain.*** Offensive sweat on genitals.

Modalities - Better darkness. Better pinching, sitting erect. Washing helps the itching - of anus. Cold bathing helps the itching of face. Worse stooping. Worse light. Worse on waking in morning. Worse lying on left side (heart). Worse thinking of symptoms. Worse right side. Hot bathing aggravates the pain in hip.

Mouth - Dry mouth. Hot breath. Mouth sore and ulcerated. Lips dry and hot. Gums swollen and sore. Gums feel as if scalded, with salivation. Gums painful when touched.

Nose - Coryza with hot face, itching and hoarseness. Coryza, burning hot water runs from nose, excoriating edges of nostrils. Sore nose. Thick, yellow discharge. Violent itching in tip of nose.

Rectum - Diarrhea, burning watery stools with relief of pain. Sore feeling in rectum, better very hot water, not by cold washing. Intense itching at anus, followed by crawling.

Skin - Itching, has to pinch spot. Skin peels off in small scales. Bluish-red eruptions. Rash and red smooth spots. Red spots over whole body. Small furuncles in face.

Sleep - Great drowsiness in morning. Falling asleep on sitting down. Very sleepy, but can't fall asleep. Dreams of danger on the water.

Stomach - Hot eructations as of bile, with throbbing through whole body. Pressure in region of stomach. Empty retching and ■cutting in belly. Nausea towards morning. Nausea with headache, in morning.

Temperature - Chilliness on occiput, neck and chest.

Throat - Hoarseness during coryza. Sore throat during coryza. Violently inflamed throat, with pain when swallowing, worse right side. Angina with much heat in throat and several little ulcers. Itching of external throat.

Tongue - The tongue coated white and shows imprint of the teeth. Tongue white.

slimy, furred.

RELATIONS - Antidoted by: Bell., Nat-c. **Compare:** (1) Iod., Merc., Nat-c. in syphilis, Nux-v. - drowsy after sound sleep. (2) Rhus-t. - pain in back, hips, etc., Sulph. (pulse), Ars. (3) Useful in pterygium after failure of Nux- v. and Spig.

REFERENCES - Boericke. Clafké.

***ARSENICUM SULFURATUM FLAVUM

(Arsenious Sulphide)

PHARMACY - ars-s-f. Arsenicum sulphuratum flavum. Arsenious sulphide. Orpiment. Arsenic trisulph. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Decay. Children, emaciated. Diarrhea. Gonorrhea. Indigestion. Jaundice. Laryngeal, tuberculosis. Strokes. Walking, late.

HOMEOPATHIC - Orpiment of the Alchemists. The two sulfides of Arsenic orpiment and Realgar have been used in a somewhat general way in cases combining the strong symptoms of both elements. Independent observations and provings have been made with the two salts.

Grimmer called Ars-s-f. an arsenicum that effects the skin and mucus membrane strongly, malignant and regular ulceration, especially of the stomach, which is the seat of severe burning pains with vomiting and diarrhea. There are symptoms of the two components, there is intense torturing anxiety and apprehension with restlessness.

Ars-s-f. has the burning pains and sensations of both Ars. and Sulph., stitching, tearing and rheumatic pains moving from place to place. Lameness, staggering, trembling. Spasms, colic, vomiting and diarrhea. Annoying twitching. General debility. Chafing of skin about genitals and behind ears of children.

Needle pricks from within outwards in chest, also on forehead, right side. Sticking behind the ear. Difficult respiration. Leuco- derma and squamous syphilides. Sciatica and pain around the knee.

MIND - Apprehensi ve. Intense torturing anxiety and apprehension. Obstinate. Touchy, hasty and restless. Discontented. Aversion to being spoken to. Vanishing of thoughts.

Abdomen - Violent griping pain with convulsions. Violent colic. Swelling of abdomen.

Back - Pain in lumbar vertebrae when moving. Back constantly cold.

Food - Loss of appetite. Aversion to fat, rich food and meat. Desires coffee, sweets, warm food and drinks. Extremely thirsty.

Head - Great weakness in head. Stroke. Needle-like stitches in right frontal region. Forehead cold.

Limbs - Sciatica with pain around knee. Knees pain and totter. Feet burn. Feet cold, offensive sweat.

Lungs - Difficult breathing.

Male - Gonorrhea with terrible pains, discharge copious, yellow, constant, burning day and night along entire urethra with restlessness.

Modalities - Better by steam or hot water. Better lying down. Marked periodicity (Ars., Sulph.). Worse every afternoon and evening.

Mouth - Taste bitter. Tongue furred, yellow-white, stiff, swollen. Dry mouth with disgust for all nourishment. Mouth and throat dry. Herpetic ulcers. Teeth pain as if loose, when chewing food.

Nose - Dry nose. Sneezing.

Rectum - Diarrhea with colic, backache and tenesmus. Diarrhea daily 8 a-m. and several times during day, but not at night. Stool like water, green and slimy and terribly offensive.

Skin - Skin itching, dry, cracked, cracks. Skin scaly and blackish. Leucoderma. Eruption on outer side of left wrist, also on inner side.

Sleep - Starting in sleep, also in falling asleep, as if he would fall out of bed. Restless at night, excited, dreams with seminal emissions.

Stomach - Indigestion. Burning and gnawing in stomach with vomiting and diarrhea. Cramp in stomach with fainting, colic, vomiting, diarrhea. Violent, persistent vomiting. Vomiting of offensive bile relieves.

Temperature - Hectic fever without thirst. Chronic intermittent fever, worse every afternoon and evening. Terrible heat at night.

RELATIONS - Compare: (1) Ars., Sulph. (2) Calc. - children slow in learning to walk. (3) Ars-s-r.

REFERENCES - Boericke. Clarke. Grimmer.

***ARSENICUM SULFURATUM RUBRUM

(Arsenic Sulphide)

PHARMACY - ars-s-r. Arsenicum sulphuratum rubrum. Arsenic sulphide. Realgar. Arsenic disulfide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne. Diarrhea. Eczema. Furuncles. Gastritis. **Influenza.** Neuralgia. Psoriasis. Sciatica.

HOMEOPATHIC - The Realgar of the ancient Alchemists. The Red Sulphide of Arsenic was introduced and proved by Neidhard, but it has been used somewhat empirically on indications borrowed from its two components.

Clarke found Ars-s-r. useful in many cases of influenza and its sequelae, especially sciatica. **Influenza with intense catarrhal symptoms**, great prostration and high temperature, purulent discharges. Burning pains, as if coals of fire in stomach, worse drinking cold water. External heat. Bone pains.

Chilly even before a hot stove. Restless sleep with very vivid dreams. Psoriasis, acne and sciatica. Itching in various parts. Pellagra. Convulsions. Itching in various parts. Numbness. All symptoms worse at night. Worse on waking (headache).

MIND - Crossness, irritable and acts with more energy. Indisposed for mental or physical exertion after meals.

Abdomen - Dull pain in bowels. Feeling of fullness. Violent colic with terrible vomiting. Large bluish spots.

Back - After rising in morning a heavy pressing pain, extending from tip of coccyx to anus, soreness of coccyx.

Chest - Chest pains. Wakes at 5 a.m. with sharp cutting pain. Commencing between cartilages of 5th and 6th ribs. Extending inwards and upwards deep into chest. Slightest motion aggravates, had to limit respiration as much as possible.

Ears - Sensations of fulness and pressing outward in right ear. Snapping sound in ear corresponding to pulsation of temporal artery. Ear feels hot. Redness and burning of ear. Tingling similar to frost-bite.

Head - Severe continued pain extending deep into brain in right frontal region, also in right ear, worse by stooping and exercise, better cold application, 5 p.m. Waking often with dull pain in forehead over eyes, extending over top of head to crown. Pain commencing at back of head, extending around sides. Neuralgia right side of face, nose, jaw and through temple.

Heart - Occasional sharp pains through base of heart impeding respiration.

Limbs - Rheumatism from right shoulder down arm as if in bone. Pain in right hip with lameness of leg. Severe pain in left tibia. All joints immovable after recovery from the poison.

Mouth - Bitter taste on waking.

Rectum - Pain in anus worse by efforts to stool or urination, bearing-down would cause heavy sickening sensation.

Stomach - Burning in stomach like coals of fire, worse drinking cold water, could not bear least pressure on region of stomach. Sharp cutting pain in left abdominal region after each meal. Weight and gnawing in stomach.

Stool - Diarrhea, yellow, mushy stools in morning early after getting up and in the evening before going to bed, constant tenesmus in anus.

Throat - Hoarseness with accumulation of thick, tenacious mucus in throat. Mucus membranes of mouth and throat inflamed. Right tonsil enlarged. Intolerable itching in throat inducing short, dry, expulsive cough.

COMMENTS - J. Meredith cured with Ars- s-r. mainly, a young girl who suffered from occipital headache, profuse, repulsive,

Arsenicum sulf, rubrum nauseating nasal catarrh, leucorrhea, pelvic pains, menstrual troubles and general anemic appearance.

T. N. McLaughlin reported much success in skin cases, especially in cases of psoriasis and also of eczema, acne and furuncles. He gave Ars-s-r. in tablets of 2x trituration. He found patients who could not tolerate Ars. could take Ars-s-r. without any unpleasant symptoms and with marked curative effect. There was no gastric or intestinal irritation in any of his cases.

RELATIONS - Compare: (1) Ars-s-f., Caps.

REFERENCES - Boericke. Clarke. Grimmer.

***ARTEMISIA ANNUA

(Sweet Wormwood)

PHARMACY - art-a. Artemisia annua. Sweet wormwood. Sweet Annie. Qing hao. N. O. Compositae.

Historical dose: Tincture and all potencies.

CLINICAL-Fever. Intermittent fever. **Malaria.** Parasites. Stomach, problems. Worms.

HERBAL - This herb has been used in China to treat malaria and fevers. Artemisinin is an alkaloid extracted from the plant that is being used as an anti-malarial drug. It reduces fevers and destroys the malaria organism. *Artemisia annua* has been used in tinctures, powders and teas. It is of special use in those areas where anti-malarial drugs like quinine are no longer effective.

HOMEOPATHIC - Art-a. has not been proved homeopathically. Clinically it has been used to treat fevers, stomach problems, and parasites.

RELATIONS - Compare: (1) Ars., Chin., Art-v.

REFERENCES - Boericke. Clarke. Grimmer.

***ARTEMISIA VULGARIS

(Mugwort)

PHARMACY - art-v. *Artemisia vulgaris*. Mu- wort. Wormwood. Beifuss. N. O. Compositae. Tincture of fresh root. **Historical dose:** Tincture and all potencies. Locally and internally is injurious to eyes.

CLINICAL - Anorexia. Catalepsy. Chorea. Convulsions. Cramps. Dysmenorrhea. Eclampsia. **Epilepsy.** Hydrocephalus. Hysteria. Masturbation. Miscarriage. Sleepwalking. Twitching. Worms. Vertigo.

HOMEOPATHIC - Like the other *Artemisias*, this remedy has a prominent place in convulsive diseases. Some reputation as a remedy for epileptic conditions and convulsive diseases of childhood and girls at puberty. Acts better when given with wine than with water.

Excitable and irritable before attack of epilepsy. **Epilepsy after fright or grief after a blow on the head** with menstrual disturbances with teething.

Attack accompanied or followed by profuse offensive sweat, by seminal ejaculations. Profuse sweat, having a peculiar fetid, cadaverous or garlic-like odor is a characteristic of the remedy.

Attacks frequently repeated, then followed by a long interval of rest. **Petit mal.** Epilepsy without aura after fright and other violent emotions. Epilepsy after masturbation. Several convulsions close together. Irregular or deficient menstruation with epileptic convulsions.

Violent cramps in abdomen with irregular insufficient menstruation. Nervous chlorosis with very dry skin. Chorea with inability to swallow. Colored light produces dizziness. Worms. Right side convulsed, left paralyzed.

MIND - Complaints from fright. Catalepsy after fright. **Epilepsy after fright or grief.** Weak-minded with epileptic fits. **Excitable before the attack of epilepsy.** Sudden whining. Stupor after convulsions.

Peevish and inclined to weep. Very much vexed, irritable, depressed. Walks in the street, suddenly stops, stares into space often mumbles a few words, becomes normal and

Artemisia vulgaris remembers nothing. Kleptomania. Inclination to steal.

Abdomen - Violent cramps in abdomen.

Causations - Blow on head. Fright, grief or bad news. Masturbation.

Constitutions - It has a prominent place in convulsive diseases of childhood and girls at puberty.

Eyes - Colored light produces dizziness. Pain and burning of vision, better rubbing, worse using eyes. Eyes turned up before attack.

Face - Twitching in the face, mouth drawn to left Face looks older.

Female - Irregular or deficient menstruation with epileptic convulsions. Profuse menses. Violent uterine contractions. Spasms during menses. Prolapsed uterus. Nervous chlorosis, with very dry skin. Violent contractions of pregnant uterus, threatened miscarriage. Checked lochia. Eclampsia.

Food - Hunger, but cannot get the food down.

Head - Drawn back by spasmodic twitch- ings. Head bent backwards and sideways. Congestion of brain. Sharp shooting pains through the head.

Kidneys - Urine increased, yellowish. Obstinate strangury in a child.

Limbs - Over-fatigue or weakness of the feet after long walks or long illness.

Lungs - Rattling breathing with the spasms. Breathing checked, suddenly a deep inspiration ends the attack, catalepsy.

Male - Nightly pollutions. Seminal ejaculations with the spasm.

Mouth - Mouth drawn to left. Chewing motion of gums, grinding teeth. Lower jaw pressed forward. Bites tongue in spasms. Speech unintelligible, can utter but single words, and these only with great exertion.

Perspiration -Profuse sweat, smelling like garlic. Sweats during epileptic attacks. Sweating is a sign of relief. Warm sweat all over, most on occiput.

Rectum - Greenish diarrhea. Passes feces and urine with the spasms. Worms.

Sleep - Sleepwalking. Gets up at night and works, but remembers nothing in the morning (Luna.. Kali-p.).

Stomach - Nausea and vomiting. Cramps in stomach.

Teeth - Grinding of teeth, forth at mouth, thumbs drawn into fist, eyes half open, drawn upwards.

Temperature - Chilly, feels unwell with drawing in limbs Coldness of body.

Throat - Swallowing difficult, food escapes from the mouth.

Vertigo - Vertigo caused by colored lights, but not by white light. Epileptic vertigo.

COMMENTS - Convulsions of nursing or teething children. Epileptic spasms, after cooling off, while overheated from dancing. Epilepsy from menstrual disturbances. Nightly epilepsy with violent trismus injuring teeth. During epileptic attacks violent sweat of offensive odor. Long and deep sleep after a fit. Sleepwalking. Congestion of the brain and spine. Hydrocephalus.

RELATIONS - Compare: (1) Absin. - nearest relative. (2) Abrot., Cina, Cham., Am., Mill. (3) Cic. - staring, jerking head, etc. (4) Cina - eyes. (5) Apis, Hell. (6) Bufo - irritable before fit, Caust., Ruta, Sec. (7) Bry. - chewing motion of jaw. **Compatible:** Stram., Puls., Aur. **Follows well after:** Aeon., Bell., Bry., Hell., Cina, Iod.

REFERENCES - Boericke. Clarke.

***ARUM DRACONTIUM

(Green Dragon)

PHARMACY - arum-d. Arum dracontium. Green dragon. Arisaema dracontium. N. O. Araceae. North America. Tincture of root before flowering or after the ripening of the seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Coughs. Croup. Headaches. Hoarseness. Impotency. Influenza. Itching. Laryngismus stridulus. Pharyngitis. Sore, throat. Urticaria.

HOMEOPATHIC - Arum-d. has the irritating properties of Arums generally. It has been well proved by Dr. C. P. Hart and tested clinically as well.

Asthmatic attacks from cold. Croupy, hoarse cough with sore throat. Laryngismus between 12 a.m. and 2 a.m., attacks every week or ten days. Pharyngitis with sore, raw and tender throat. Swallowing develops and worsens the throat symptoms.

Dryness and smarting. Throat raw and tender. Hawking. Continual disposition to clear throat by hawking and coughing. Hoarseness on awaking in morning, expectorates thick mucus. Expectoration of thick, heavy, yellowish-white pus. Rattling of mucus on full expiration.

Chronic itching. Eruption of pimples or species of lichen, on nose, a patch of urticaria on right arm near elbow. The symptoms move about and from side to side, especially right to left.

MIND - Great languor and depression of spirits, with asthma at night.

Abdomen - Rumbling and much flatus. Pain in bowels from incarcerated flatus.

Cough - Loose cough with dry soreness of throat, worse at night lying down. Cough from laryngeal irritation, worse at night and when lying down. Croupy, hoarse cough with sore throat. Rattling cough in larynx and swelling of air passages, threatening suffocation.

Head - Heavy, shooting pain in ears, aching pain behind right ear.

Heart - Heart beats so violently as to shake walls of chest.

Kidneys - Irresistible desire to pass urine, burns and smarts.

Male - Frequent and copious emissions of urine. Great diminution, mostly an entire absence of sexual desire. Penis flaccid and relaxed. Fine shooting pains in course of left spermatic cord.

Lungs - Asthmatic at night. Asthma from cold. Oppression of breathing. Rattling of mucus. Paroxysms of dyspnea with considerable secretion of mucus in larynx and trachea. Expectoration thick, heavy.

Rectum - Flatus with eructations. Copious, semi-liquid stool with much flatus. Bilious stools with aching in abdomen and burning in rectum.

Skin - Urticaria and other eruptions. Neurotic eruptions.

Throat - Constant disposition to clear throat. Hoarseness, excess of mucus in larynx. Dry, sore, worse swallowing. Raw and tender throat. Laryngismus.

RELATIONS - Arum italicum. Arum maculatum. **Compare:** (1) Calad., in skin affections, Arum-t. (2) Useful after: Colch. and Ant-t. in laryngismus.

REFERENCES - Boericke. Clarke.

***ARUM DRACUNCULUS

PHARMACY - arum-dru. Arum dracunculus. Dracunculus vulgaris. N. O. Araceae. Southern Europe. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Nettle rash. Pricking pains.

HERBAL - Arum-dru. is commonly cultivated in gardens. It has a fetid smell which is apt to cause headache. A styptic metallic taste at back of mouth was observed after pounding the root and tearing up leaves and stems.

HOMEOPATHIC - Pricking, mingled with intolerable itching in fingers, as if hand plunged among nettles. On

rubbing the fingers together, a sensation follows, as if a vast number of stings were driven perpendicularly into them.

REFERENCES - Boericke. Clarke.

***ARUM ITALICUM

PHARMACY - arum-i. Arum italicum. N. O. Araceae. Southern Europe. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Brain-fag. Colic. Fever. Headache. Hoarseness. Itching.

HOMEOPATHIC - Dr. Paul Pitet is the authority for this medicine. He used it for brain-fatigue with headache in occipital region.

The chief symptoms observed were headache, chiefly in occiput, worse in damp weather. Dull pain in brain from least intellectual effort. Colic in umbilical region with diarrhea. Smarting and tearing pains in rectum during stool. Burning behind sternum. Burning in fingers, worse by pressure.

Skin covered with milium vesicles. Prickling and formication as from hundreds of needles on fingertips. The colic is worse by

wine, brandy, coffee. Itching is worse 6 p.m. Hoarseness at 9 p.m. Damp weather worse. Unconquerable drowsiness in morning. Copious night sweat, especially on chest, smelling of ivy.

RELATIONS - Compare: (1) Aeth., Pic-ac. (2) Anae. - brain-fag.

REFERENCES - Boericke. Clarke.

***ARUM MACULATUM

(Cuckoo-pint)

PHARMACY - arum-m. Arum maculatum. Cuckoo-pint. Arum vulgare. N. O. Araceae. Tincture of fresh tuber or com. f. historic 'Z<fose.' Tincture and all potencies.

CLINICAL - Ascarides. Asthma. Catarrh. Coryza. Hoarseness. Nasal, polyps. Prolapsed anus. Scorbutus. Swallowing, constant.

HOMEOPATHIC - Leading symptoms include inflammation and ulceration of mucus membranes. Violent irritation of nose and eyes. Pain left side of nose. Nasal irritation with polyps. Bleeding from mucus membranes and cavities. Violent convulsions. Great physical depression and lassitude. Irrepressible inclination to sleep after meals, the face becoming redder than usual during sleep.

Tongue swollen, pricking, stinging, burning, excoriated. Burning, stinging pains in mouth and lips **"as with a hundred needles."** Tickling and burning in throat. Sensation of a swelling in left side above larynx. Hoarseness. From abdomen ascending to chest an oppression over whole chest with hot breath, it then rose into throat. Burning, constricting pain in stomach. Ascaride. Prolapsed anus.

MIND - Anxiety and fear. Hypochondriacal. Melancholy and depressed. Taciturn.

Abdomen - Sensation of emptiness after breakfast in the abdomen, as after vomiting with contraction in the abdomen, as from anxiety and fear. Severe aching between the navel and the hip, especially when standing upright, lying on the side, or drawing a deep inspiration, with great sensitiveness of the part affected to external pressure.

Eyes - Aching in left eye.

Female - Menses profuse.

Head - Migraine. Headache in left temple and forehead. Headache with dyspepsia.

Kidneys - Clear, watery urine, exhaling a smell of burned horn and depositing a cloudy sediment.

Lungs - Phlegm in the respiratory organs. Violent tight cough with a scanty expectoration. Bloody expectoration. After much coughing, expectoration of mucus streaked with yellow.

Mouth - Gums bleed readily. Tongue so swollen he could not swallow.

Nose - Violent irritation of nose and eyes.

Rectum - Diarrhea. Ascarides. Prolapsed anus.

Skin - Redness and erosions of skin. Blisters. Eczema.

Sleep - Redness of face during sleep. Almost uncontrollable sleepiness, an hour after dinner.

Stomach - Pains in stomach on pressing it. Burning, constricting pains. Vomiting of blood.

Throat - Pain in the throat with difficult deglutition, as if from constriction in the esophagus with constant inclination to swallow after drinking, sensation as if something were attached to the epiglottis. Obstinate hoarseness. Pressure in the larynx. Tickling with inclination to cough.

RELATIONS - Antidoted by: Sweet oil, milk, butter. Gum relieves pungent effect on mouth. **Compare:** (1) Arum-t. Arums.

REFERENCES - Boericke.

***ARUM TRIPHYLLUM

(Jack-in-the-Pulpit)

PHARMACY - arum-t. Arum triphyllum. Jack-in-the-Pulpit. Arisaema atropurpureum. Indian turnip. N. O. Araceae. North and South America. Tincture of fresh tuber or corm. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. **Acrid, discharges.** Brain, inflammation. Clergyman's sore throat. Delirium. Diphtheria. Glandular, swellings. **Hay fever.** Headache. **Hoarseness.** Jaw-joint painful. Laryngitis. Mouth, sore. Scarletina. Tongue, cracked. Typhoid fever. Voice, hoarse.

HERBAL - Arum-t. is the most important of the Arums. Arum maculatum, Italicum, Dracontium, have the same action as the Triphyllum. They all contain an irritant poison, causing inflammation of mucous surfaces and destruction of tissue.

HOMEOPATHIC - Dr. Lippe, who is one of the greatest authorities on this remedy, said it should not be given low or repeated often. **"Bores head in pillow"** is an indication when the brain is involved. Kent pointed out that almost all the discharges are acrid and cause irritation of orifices.

The hoarseness is that of public speakers who, after long exertion, get cold (as from a draft) and suddenly are unable to finish (Rhus-t. the hoarseness is at the beginning and passes off by using the voice.).

Well marked irritating properties, excitable and irritable in mind and body. Raw, bloody surfaces appear on lips, on mouth, on nose, etc. Rawness with itching. **Discharges are acrid, causing painful sore, rawness and burning** of parts.

Acrid, mucus membranes of mouth, **throat** and larynx. **Irritating to the nose and throat.** Prominently affects the left side. Headache, worse from hot coffee, from too hot clothing.

Children lose their appetite, do not want to play, lose flesh, have headaches. **Picks the nose and lips** until they bleed. Corners of mouth sore, cracked and bleeding also, **"picking ends of fingers" and "boring nose"** Especially side of nose. Tongue cracked and bleeding. Urine scanty or suppressed. Bores head into the pillow. Jerking shooting pain.

Patient passes into unconsciousness and slides down in bed. This with its scarlet rash suggested its appropriateness in cases of scarlatina of malignant type in which it has met with great success. An indication of its curative action in scarlatina is the urine becoming more abundant and watery.

MIND - Restlessness, tossing about in bed. Nervous, bites nails until fingers bleed. Restlessness or irritability. Excessively cross and stubborn. Great delirium. Delirium, bores in nose, picks at one spot or at dry lips. Forgetful. Absence of mind, giddy.

Abdomen - Sensation of emptiness after breakfast. Severe aching between the navel and the hip, with great sensitiveness of the part affected to external pressure. Contraction in the abdomen, as from anxiety and fear.

Back - Stiff-neck, with intolerable pressing headache. Pain in region of atlas vertebra, extending to right side. Sore, moist places on coccyx.

Chest - Raw feeling in chest. Lungs sore.

Eyes - Quivering of upper left eyelid. Heavy, sleepy. Aversion to light. Quivering of left upper lid. Catarrh of lachrymal sac, bores into side of nose.

Face - Face feels chapped, as if from cold wind, feels hot. Lips dry, swollen, cracked, corners of mouth sore, bleeding, cracked, picks them. Face swollen. Swelling of submaxillary glands.

Female - Cutting pain in either ovary. Menstrual blood darker. Menses checked for two months, returned.

Food - Loss of appetite.

Head - Bores head into pillow. Child puts hand on back of head and cries during headache. Headache from too warm clothing, from becoming hot and hot coffee. Violent headache, pressing on right or both sides, worse from hot coffee, better after dinner, and after breakfast. Head burning hot. Tinea capitis.

Kidneys - Very scanty secretion of urine. Uremia. Frequent discharge of abundant pale urine. Clear, watery urine and smelling like burnt horn, and depositing a cloudy sediment.

Lungs - Accumulation of mucus in trachea. Cough hurts the throat and annoys the patient. Voice, hoarse, squeaky or breaks. Hay asthma.

Male - Tearing pain in right testicle, sometimes extending to abdomen, comes and goes suddenly. Smarting at end of penis. **Modalities** - Worse from over use of voice.

Worse talking, singing. Worse from cold winds. **Worse northwest wind.** Worse cold wet. Worse heat. Worse lying down.

Mouth - Raw feeling at roof and palate.

Lips chapped and burning. Lips dry, swollen, cracked corners of the mouth sore. **Corners of mouth sore and cracked.** Picking lips until they bleed. Mouth painfully raw, sore inflamed. Aphthae. Saliva profuse, acrid, corroding.

Nose - Soreness of nostrils. **Constant picking at nose until it bleeds** or picking at lips, fingers, until it is sore, especially children. Nasal obstruction with fetid discharge, sneezing worse at night. Large scabs high up on right side of nose. **Hay fever** with pain over root of nose. Coryza, discharge blood-streaked, watery. **Acrid, excoriating discharge**, producing raw sores. Nose completely stopped with fluent, acrid discharge, **must breathe through mouth**.

Rectum - Diarrhea, typhoid-like. Stools like corn meal. Stool dark brown, watery, thin, acrid. Thin feces escape from anus, and keep the parts raw and burning.

Skin - Dry heat of skin. Scarlet rash, **raw, bloody surfaces** anywhere. Itching of fingers and toes. Eruptions leave a brilliant red stain. Pemphigus. Impetigo contagiosa. Erythema of scarlet rash, skin peels afterwards. Itching of scarlet eruption.

Sleep - Sleeplessness from soreness of mouth or itching of skin. Starting during sleep.

Stomach - Sensation of emptiness, as after vomiting, with contraction.

Throat - Clergyman's sore throat. **Hoarseness**. Laryngitis. Expectoration of much mucus. Voice uncertain, uncontrollable. Worse talking, singing. **Constricted and swollen, burns, raw**. Constant hawking. Raw, sore, painful on clearing or coughing, yet grasps and wants to scratch it. Swelling of glands on throat and neck.

Tongue - Tongue sore, red papillae elevated. Tongue red, sore, whole mouth raw. Tongue cracked and bleeding. Strawberry tongue.

Vertigo - Vertigo and fullness. Vertigo with absence of mind. Light-headed, sleepy.

COMMENTS - One of the first indications for this remedy is the appearance of raw, bloody surfaces, which may be on the lips, buccal cavity, nose, back of ear, etc. Burning in many parts, ear, lips, tongue, palate, throat, anus, lungs, upper arms.

Child has headache, puts hand on back of head and cries. A raw spot appears on the lip, corners of mouth, or on the nose. Emitting one drop of blood, urine scanty, this raw spot may occur on the hand when the child bores and digs at it. Dull headache, upper part feels cold, as if open and without covering.

Keynote irresistible desire to pick the nose (Cina), from inflammation of the nerve endings in the nose. Hay fever or coryza that leaves ulcers and sores on the upper lip. For hoarseness and laryngitis, "speaker's sore throat." Raw feeling in the palate and throat, burning.

RELATIONS - Antidoted by: Buttermilk, Lac-ac., Acet-ac., Puls. **Compare:** (1) Am-c., All-c. (2) The other Arums and Calad. (3) Ail.- scarlatina, depressing, stupid, drowsy sleep. (4) Cina - boring nose. (5) Am-c. - acrid discharge from nose in scarlatina, but right parotid more decidedly affected in Am-c., drowsiness is very marked. (6) Am-m. (scarlatina), Arg-n. (scarlatina, painful red blotches left side of tongue). (7) Ars., Canth., Caps. (8) Castor. - nasal discharge watery and acrid but with violent tearing pain at root of nose. (9) Caust., All-c., Crocus - elevated papillae, but tongue white. (10) Hep., Hydr-ac., Iod., Kali- i., Lach., Lyc., Merc., Mez., Mur-ac., Nit-ac., Phyt., Sang., Sil., Sulph. (11) Useful after: Hep., Nit-ac., Caust., Seneg. **Complementary:** Nit-ac. **Incompatible:** Calad.

***ARUNDO MAURITANICA

(Reed)

PHARMACY - arund. Arundo mauritanica. Reed. Italian grass. Arundo donax. N. O. Gramineae. Mediterranean. Tincture of the root sprouts. **Historical dose:** Tincture and **all potencies**.

CLINICAL - Allergies. Catarrh. Coryza. Coughs. Dentition. Diarrhea. Dyspnea. Ear, discharge. Edema. **Hay fever**. Hair, loss. **Itching**. Nasal, discharges. Ophthalmia. Pustules. Scrofulous, ophthalmia. **Sneezing**. Stomach, pain. Urine, deposits. Vertigo.

HOMEOPATHIC - Arundo is a reedy grass and the tincture is made from the root-shoots. It has not been tested much clinically, but its chief sphere has been proved to be in catarrhal conditions. Chagon is the authority for the pathogenesis.

Hay fever, beginning with **burning and itching of palate and conjunctiva**. Catarrhal states. Constant watery diarrhea of nursing or teething children. Urine deposits much red sand. Mouth excoriated. Thirst. Coryza and snuffing. Pain in liver. Purulent discharge from the ear.

MIND - Dullness of mind. Indifference to painful sensations. Absence of ideas. Anxiety better open air. Anxiety from coughing. Anxiety from accumulation of mucus in bronchi. Lascivious fancies. Laughs easily, a stupid hilarity.

Abdomen - Movement as from something alive in abdomen. Flatulence, pain at pubic region. Pain in liver. Pricking in spleen. Acute pain at umbilicus.

Back - Acute pain under left scapula. Jerking in neck, crawling on left side of it.

Breasts - Excessive secretion of milk causes pain in left breast. Burning and pain in nipples.

Chest - Pricking in chest.

Ears - Burning and itching in auditory canals. Eczema behind ears. Purulent discharge from ears. Sound of little bells in ears.

Eyes - Ophthalmia in children. Blepharitis. Pricking, itching, burning in conjunctiva. Undulating luminous openings appear wherever he looks. Fluttering luminous objects. Cannot look up.

Face - Erysipelas on right cheek. Pricking in point of chin.

Female - Early, profuse, long-lasting menses, dark, clotted blood. Sexual desire with vaginal itching. Violent desire for sex or aversion to it. Pains start from left *side of jaw, extending to shoulders and loins* and finally settling on pubis, burning like fire.

Food - Want of appetite. Constant thirst, after waking in morning. Thirst during fever. Food tastes insipid. Water has a bad taste. Craving for acids.

Head - Itching, falling off of hair. Hair falls off entirely in children. Roots of hairs painful. Pustules. Pain in occiput, extends to right ciliary region. Deep seated pain in sides of head. Painful undulation in frontal region. Scurf.

Heart - Pricking in arteries. Abnormal movements of heart. Oppression of heart.

Kidneys - Burning on urinating. After urinating, weight, burning, and itching in urethra. Red sediment (Lyc.), red sand in urine.

Limbs - Itching, burning. Edema of hands and feet. Pain in limbs as if tightly bandaged. Burning and swelling of soles. Copious and offensive sweat of feet.

Lungs - Accumulation of mucus in bronchi causes anxiety. Catarrhal cough. Dyspnea, cough, bluish expectoration. Sputa at first bluish, then white, and alternates. After expectorating, bruised feeling in pit of throat. After cough, burning in the epigastrium, with the larynx obstructed.

Male - Pain in spermatic cord after sex. Sexual desire, lascivious ideas, frequent erections. Difficult breathing after sex.

Mouth - Bleeding of gums. Ulcers and exfoliations in the commissures. Fissures in tongue. Pain in sublingual glands. Salivation. Burning and itching of palate.

Nose - Hay fever begins with burning and *itching of palate* and conjunctiva. **Annoying itching in the nostrils and roof of the mouth** (Wye.). Coryza, loss of smell (Nairn.). **Sneezing, itching of nostrils.**

Perspiration - Tendency to sweat. Motion causes profuse sweat.

Rectum - Burning at anus. Constant diarrhea of nursing or teething children (Cham., Calc-p.). Greenish stools. Stools at first hard, soon become loose. Stools followed by burning at anus. Pricking at anus. Hemorrhoids and prolapsed rectum.

Skin - Eczema, itching and crawling, especially of chest, upper limbs. Fissures in fingers and heels.

Stomach - Coldness in stomach. Longing for acids. Wants to belch but cannot. Burning in esophagus.

Throat - Globus hystericus. Pit of throat as if bruised after expectoration. Burning and pain on swallowing. Obstruction prevents swallowing.

Vertigo - Vertigo on getting out of bed.

COMMENTS - Hay fever remedy, keynote itching in the nostrils. Loss of smell (Puls., Sabad.). Itching of the upper palate, raw and sore, try to scratch palate with their tongue (Wye.).

Burning itching in auditory canals, coincides with pain in sublingual glands. The inflammation of ears begins with shooting pains in concha, extends to external meatus, finally with itching and discharge of blood. Hay fever. Pain at root of nose.

Coryza with snuffling. In the beginning, water runs from nose, later, green mucus and thick, white, slimy masses, with sneezing, pieces of indurated greenish mucus.

RELATIONS - Compare: (1) Anthroxantum. (2) Anan., Lolium. (3) All-c., Sil., Sulph., Calc., Lyc., Sabad., Psor.

REFERENCES - Boericke. Clarke. Murphy.

***ASAFOETIDA

(Gum of the Stinkasand)

PHARMACY - asaf. Asafoetida. Gum-of the Stinkasand. Ferula asafoetida. Narthex Asafoetida. Scorodosma foetida. N. O. Umbel- liferae. Tincture of the gum resin, obtained by incision from the living root. **Historical dose:** Tincture and all potencies.

CLINICAL - Asthma. Belching. **Bone, diseases.** Breast-feeding. Chorea. **Decay, bones. Diarrhea.** Dyspepsia. Fainting, easily. **Flatulence. Globus, hystericus.** Headaches. Heart, disorders. **Hypersensitiveness. Hysteria.** Iritis. Mercury, poisoning. Neuralgias. Obesity. Orbital, neuralgia. Ozaena. Syphilis. Tympanitis. Ulcers. Whitlow.

HERBAL - The fetid smell of Asafoetida may be regarded as one of its **"herbal signatures."**

HOMEOPATHIC - Fetid discharge from the nose, bones affected. **Offensive discharges.** Watery stool of most disgusting odor, profuse and greenish, fetid flatus. Belchings smelling like garlic. Flatulent hysteria. Characteristic sensitiveness to touch.

Flatulence and spasmodic contractions of stomach and esophagus with **reverse peristalsis**, everything comes up, nothing goes down. Excessive abdominal distention and sensation as if everything in the abdomen would burst through the mouth. After belching of wind, strong rancid taste in mouth. Sinking sensation at epigastrium, worse 11 a.m. Hysteria from suddenly suppressed discharges.

Deficient milk with over sensitiveness after confinement. Decay of bones, especially in the syphilitic organism, with **extreme sensitiveness** and terrible throbbing, nightly pains. Glands all over the body are hot and throb. Pain, as if a nail or plug driven in.

MIND - Dissatisfied with oneself. Irritable, complains of her troubles. **Irritability during menses, alternating with indifference.** Changing moods, fits of joy with burst of laughter. Fickle, cannot persevere in anything. Wants now one thing, then another.

Great excitability and sensitiveness, yet with complete indifference to everything. Ill-humor. Apprehensive. Fear arising from abdomen. Fear from stomach. Apprehension of dying. Fears paralysis or softening of brain. Hysterical and hypochondriacal. **Magnifies her symptoms.** Craves sympathy. **Hysteria from suddenly suppressed discharges.** Hysteria with much trouble about throat or esophagus, clutches throat. Walks hither and thither.

Oversensitiveness, mental and physical. Faints from emotional excitement or disturbance. Faintness from noise or from being in crowded streets. Fainting during pain. Faints when he thinks that he has taken medicine. Faints almost without cause in a closed room.

Abdomen - Great distention. Flatulence, sudden, pushing upwards. Flatulent colic with abdominal pulsations.

Hysterical flatulence. Bowels seem knotted. Flatus

passing upwards, none downwards. Heat in spleen and abdomen.

Bones - Periosteum painful, swollen, enlarged. Decay of bones and deep ulcerations. Ulcers affecting bones, thin, ichorous pus. Fits of hard, violent throbbing. Pains are pressive, sharp, stitching, extending outwards, associated with numbness. Pains change place and are better by touch. Aching, boring in bones. Darting pain and decay in bones.

Breasts - Breasts turgid with milk, when not pregnant. **Deficient milk with oversensitiveness.** Galactagogue, in sensitive, hysterical women.

Causations - Ill effects of checked skin eruptions or suppressed discharges. Neuralgia of stump after operations. Nervous disorders from suppressed skin eruptions. Most pains are accompanied by numbness in the affected parts.

Chest - Spasmodic tightness, as if lungs could not be fully expanded. Palpitation more like a tremor.

Constitutions - Suited to nervous and hysterical people, phlegmatic, scrofulous and syphilitic who have taken much Mercury. Though the patient is of full habit and stout aspect yet he is intolerably nervous and **oversensitive.** Clumsy children. Obesity.

Ears - Offensive otorrhea with boring pains in mastoid bone. Mastoid disease with pain in temporal region **with pushing out sensation.** Offensive, purulent discharge. Hardness of hearing.

Eyes - Orbital neuralgia, better pressure and from rest. Iritis and intra-ocular inflammations with boring, throbbing pains at night. Stitches under left frontal eminences. Boring pains in and around eyes. Syphilitic iritis. Superficial corneal ulcer with digging pains, worse at night. Eyelids stick to balls. Numbness about eyes, ulceration of cornea. Syphilitic iritis.

Face - Puffy, purple as if heated. Small tubercles in the cheek. Swelling of the lower lip. Numbness of bones.

Female - Menses too early too scanty, last for a short time. **Irritability during menses, alternating with indifference.**

Bearing down in the genital especially while riding in a carriage. Labor-like pains in uterine region, with cutting and bearing down. Leucorrhea, profuse, greenish, thin offensive. Swelling and inflammation of genitals. Excited sexual desire. Uterine ulcer, sensitive and painful. Miscarriages.

Food - Ravenous hunger. Disgust for all food. Aversion to beer. Beer tastes slimy. Desire for strong, cooling food. Desire for wine. Fat food causes indigestion. Heat in face after eating. Diarrhea after eating. Want of thirst. Fever without thirst.

Head - Headaches in occipital region, better stool. Irritable, complains of her troubles, sensitive. **Pressive pain from within outward.** Boring pain above eyebrows.

Heart - Palpitations more like a tremor. Heart seems full, distended. Reflex heart symptoms of nervous origin.

Kidneys - Urine brown and of pungent odor. Spasms in bladder during and after urination.

Limbs - Pain and tenderness in tibia intolerable, worse night. Cannot work on account of backache. Cold

swelling around ankles. Convulsive tremors better by holding.

Lungs - Asthmatic attacks at least once in a day, worse bodily exertion, sex, satisfying meals. Spasms of the glottis, alternating with contraction of finger and toes.

Male - Needle like stitches in penis. Fainting after seminal emissions.

Modalities - Many symptoms appear while sitting and are better in open air. Touch relieves pain in head, on touch pains cease or change place. Scratching relieves itching. Worse at night. Worse leftside. Worse during rest. Worse warm applications, warm wraps. **Worse after suppressions.** Worse mercury. Worse noise. Worse sitting. Worse after eating or drinking.

Mouth - Greasy, rancid taste. Constant chewing with frothy saliva from mouth, chorea.

Nose - Offensive discharge from the nose. Syphilitic ozaena with very offensive purulent discharge. **Decay of nasal bones** (Aur.). Tension over nasal bones with numbness.

Perspiration - Cold, moist skin. Cold sweat on limbs. Sweats during vertigo. Sweats with drowsiness.

Rectum - Distended, griping with hunger. Obstinate constipation. Pain in perineum, as if something dull pressed out. **Diarrhea, extremely offensive with meteorism** and regurgitation of food. Diarrhea, stools dark, watery with disgusting odor. Only mucus is passed.

Skin - Suppressed skin symptoms produce nervous disorders. Itching, better scratching, ulcers painful on edges. Eruptions of vesicles. Bluish ulcers with highly sensitive edges. Itching better scratching. Old scars turn purple and ulcerate. Foul burrowing pus.

Stomach - Explosive belchings smelling like garlic and rancid in taste. Violent gastralgia, cutting and burning in stomach and region of diaphragm. Great difficulty in bringing up flatus. **Flatulence and regurgitation of liquids.** Sensation of emptiness and weakness with distention and beating in the stomach and abdomen. Forcible eructation of gas. Gurgling and rolling of flatus, which escapes afterwards with loud and difficult eructation. **Pulsation in the pit of stomach**, perceptible to the hand or even visible.

Temperature - Chills runs over body. Chills with coldness and dryness of skin. Chills every day between 3 p.m. and 4 p.m. Coldness and trembling. Chill alternating with heat. Chills during faintness. Heat of face after dinner. Fever with anxiety and sleepiness. Fever without thirst. Heat in toes. Heat of face, with cold hands and feet, and chills of back.

Throat - Sensation as if peristaltic motion were reversed and esophagus were driven from stomach to throat. Sensation as if a ball rises in throat. **Globus hystericus.** Everything presses towards throat. Spasms of gullet and stomach.

Vertigo - Vertigo with violent pressing in head. Vertigo with vanishing of sight. Vertigo with sweat on forehead and limbs.

COMMENTS - Asafoetida has hiccup-like contractions of diaphragm. Griping pain below navel while standing. Heat in spleen and abdomen. Stitches in right hypochondrium towards the diaphragm.

Affects the left side generally, left side of abdomen, left hypochondrium, left side of neck and nape, left arm, left leg. Hysterical restlessness and anxiety. Eyes inflamed, dry sensation, better in open air.

Characteristic bruised, sore and sensitive bones of the orbits. Iritis after abuse of mercury (Merc, has less sensitiveness). Decay of bones, bone diseases. Multiple nodes on the roof of mouth, discolored, bone deeply involved.

Periosteal disorders ending in ulcers which are so sensitive that no dressing is tolerated. Pressing pains in various parts, especially pressure from within outwards, worse in room, better in open air.

Used for foul flatulence where it is a social, cultural problem. Lingering odor. Regurgitation and bad-smelling and bad-tasting burps. Belchings, the taste stays in their mouth for hours or even days. Used in tincture for giardia and parasites with the symptom of foul smelling flatus.

RELATIONS -Antidotes: China, Merc. **Antidoted by:** Puls., Caust., Camph., Chin., Merc., Valer. **Compare:** (1) Aur, Chin, Lach, Merc, Sumb, Valer. (2) Compare family relations: Am-c., Cic., Con. (3) **Similar to:** Arg-n. - better open air, Aur. - bone diseases, iritis, Castor., Chin., Caust., Crot-t. (whooping cough), Hep. - sensitiveness round ulcers, faints from pains, (4) Mosch., Mang, and Kali-i. (5) nodes: Mang., bluish, Kali-i., pink, pain unbearable. Asaf, the nodes are multiple and discolored. (6) Ign., Merc., Phos., Puls., Thuj., Valer.

Complementary: Caust. Puls.

***ASARUM CANADENSE

(Wild Ginger)

PHARMACY -asar-c.Asarum canadense.Wild ginger. N. O. Aristolochiaceae. Tincture of the rhizome.

Historical dose: Tincture and all potencies.

HOMEOPATHIC - Colds followed by amenorrhea or gastro-enteritis. Suppressed colds. Headache from

suppressed nasal catarrh. Watery, irritating discharge from the nose. Frequent and profuse menses. Miscarriage in the early months. Relieves excessive pain in labor.

REFERENCES - Boericke. Hale.

***ASARUM EUROPÆUM

(European Snake-root)

PHARMACY - asar. Asarum europæum. European Snake-root. Asarum officinale. Asarabacca. Hazelwort. Wild Nard. Wild Nath. N. O. Aristolochiaceae. Mountainous woods in Europe. Tinctures of root and whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcoholism. Anus, prolapsed. Asthenopia. Catarrhs. Cough. Deafness. Diarrhea. Dysmenorrhea. Eyes, affections, operations. Faintness. Fidgets. Headache. **Hypersensitive.** Hysteria. Leucorrhea. Levitation, sensation. Prolapsed rectum. Typhus. Vertigo. Vomiting.

HOMEOPATHIC - Before Hahnemann's time, Asarum was little known except as an emetic. Hahnemann's proving brought to light some unique characteristics, including that cold air and cold washing ameliorates many of the symptoms.

With a single dose of Asar. 200c, Clarke cured a case of sub-acute inflammation of eyes and lids which had lasted some months after an attack of influenza, the symptoms were better in open air and by washing in cold water.

Deschere reported a case of dysmenorrhea in a nervous, fidgety woman of twentyseven, who had intense backache during first two days, so severe that she could not move. It often rose to the dorsal region, when it would take away her breath. Cured with Asar. 50c, one dose every evening.

Hypersensitiveness of nerves. Scratching on silk or linen, rattle of paper is unbearable, even the idea that someone might scratch with fingertip or nail produces a disagreeable thrill, through him. Nervous affections, loss of vital energy with **excessive nerve sensitivity. Always feels cold.** Cold shivers from any emotion. Sensation of lightness of the limbs.

Pains and spasmodic muscular actions. Useful for the darting pains remaining after operations on the eyes. Nervous deafness and asthenopia. Tension and contractive sensations. Pressure, tension and contractive sensation are also leading features, patient thinks that his whole body or single parts were being pressed together. Mucus discharges are glairy. For alcoholics.

MIND - Inability to think. Deficiency of ideas better vomiting. Thoughts vanish with drawing pressure in forehead. Thoughts vanish as when falling asleep. Vacant feeling on attempting to concentrate mind. No desire to do anything, from stupid feeling in head.

Nervous irritability and exaltation. **Sensibility increased, even from mere imagination.** Feeling of lightness as if floating, when walking in the L, en air. Delusion he is hovering in air like : spirit. **Thinks she is gliding through the air** when she walks.

Oversensitive to slightest noise. Cold shivers from any emotion is also a marked symptom. Ill-humor. Sadness, with weeping. **Nerves on edge.** Great merriness alternating with occasional momentary quiet or gloominess. Aversion to sex, kissing and embracing. Wrings hands. Very sensitive to violence.

Abdomen - Oppression around navel, three or four times after each meal, lasting one hour. Pain in region of descending colon, with discharge of stringy mucus.

Back - Paralytic pain in muscles of nape of neck. Weakness with staggering.

Chest - Sharp pressure in region of last ribs as with the back of a knife. Pain around both lungs as if they were constricted by a wire. Frequent stitches in both lungs during inspiration.

Constitutions - Nervous constitutions. It is suitable to people of sedentary habits who shrink from cold or always feel cold. Literary, sedentary people who are sick and chilly.

Ears - Painfully sensitive hearing. Sensation as if plugged up with coryza. Sensation as if skin were stretched over external ear (right). Catarrh with deafness. Heat of external ear. Noises.

Eyes - Watering and burning of the eyes. Feel stiff, burn, feel cold. Better in cold air or water, worse sunlight and wind. Asthenopia. Darting pains in the eye after operations.

Face - Warm feeling in face better cold washing. Burning, stinging, on cheeks. Cutting pain with cramp at joint of lower jaw. Dryness of inner side of lower lip.

Female - Menses too early, long lasting, black. Violent pain in small of back. Tenacious, yellow leucorrhea. Violent pain in small of back at the appearance of menses, scarcely permitting her to breathe, worse motion. Threatened miscarriage from excessive sensibility of nerves.

Food - Want of appetite, even nauseated by food. **Craving for alcohol.** Smoking tobacco tastes bitter.

Head - Compressive headache. Tension of whole scalp, cannot bear combing, hair painful (Chin.). Coryza with sneezing.

Limbs - Lightness of all the limbs. Gurgling sensation in patella. Weakness with staggering.

Lungs - Nervous, hacking cough. Short respiration. Asthmatic breathing, worse odors and cold. Both lungs as if constricted by wire. Stitches in larynx better cough.

Modalities - Better from cold bathing of face. Better washing. Better in damp and wet weather. Better on wetting affected parts. Worse in cold dry weather. **Worse from penetrating noise.** Worse emotions. Worse retching.

Mouth - Accumulation of cold watery saliva in the mouth with nausea. Tobacco tastes bitter when smoking. Clean tongue. Disgusting taste.

Nose - Coryza with sneezing. Sharp aching pain above root of nose. Bloody mucus from nose. Dry coryza, left nostril stopped up. Tickling in nose, causing a sneeze, and discharge of clear fluid. Violent sneezing.

Perspiration - Sweat is sour, easily excited. Sweats easily, especially on upper body. Sour sweat in axillae. Sweats after lying down in evening.

Rectum - **Strings** of odorless, yellow mucus pass from bowels. Diarrhea of tough mucus. **Undigested food in stools.** Stools worse after eating or drinking. Gelatinous or shreddy mucus in stool. Mucus colitis. Prolapsed rectum.

Sleep - Great drowsiness by day. Short breath by night. Frequent yawning, great drowsiness. Nightly vexatious dreams, about humiliations. Restless sleep.

Stomach - Flatulence, belching and vomiting. Horrible feeling at epigastrium on waking in the morning, alcoholics. Nausea, worse after eating. Accumulation of cold, watery saliva. Violent empty retching. Violent vomiting with diarrhea and violent colic.

Temperature - Chilliness, single parts get icy cold. Cold feeling not better by covering or heat of room.

Vertigo - Great faintness. Elderly people with weak constitutions, who get dizzy easily. Lightness as if floating.

Sensation that she is gliding through the air, when she walks.

COMMENTS - Sensation as though whole body or single parts were being pressed together. Pain as from contraction in forehead, temples and behind ear with watering and burning of the eyes, worse afternoon, better when sitting and by washing. Pressure, tension and contractive sensations. Plugged sensation.

Sensation of skin stretched over right external ear. Deafness. Eyes inflamed, bleary, staring. Weak sight, worse bright light. When reading, sensation as if eyes would be pressed asunder. Accumulation of cold watery saliva in mouth. Hunger in early morning. Constant nausea. Vomiting with diarrhea and violent colic. Stool of jelly-like mucus.

Menstrual colic. Headache before and after menses. Violent pain in small of back which scarcely permits her to breathe, at beginning of menses. Heat, especially of face and in palms of hands. When retching, all symptoms worse except dullness of the head, which is better.

Vertigo as if floating, or can't feel the ground, particularly in the elderly (Calc.). Can get faint or lose sensations in their legs. Sensitive to odors and noises. Can crave alcohol. Also a geriatric remedy for weak constitutions, easily dizzy (Ambr., Con.).

RELATIONS - Antidotes: Camph., vinegar and vegetables acids. **Compare:** (1) Aeon., Arg-n, Castor, Ther. (2) Aloe. - stringy stools, Camph. - choleric, Cupr., Hep., Ip. - choleric, Merc. - stringy stools. (3) Nux-v., Phos., Podo., Puls, and Sul-ac. - stringy stools, Sep., Stram., Tab. and Verat. - choleric. Asaf. - oversensitiveness. (4) Sticta, Calc., Cann-i., Gels., Thu-j., Ol-j. - levitation. Mosch., Tarent., Meph., Zinc. - fidgety feet. (5) Ip., especially in diarrhea, Sil., Nux-v., China. **Complementary:** Caust, Puls, Sil. **Followed well by:** Bism.

REFERENCES - Boericke. Clarke.

***ASBESTOS

(Silicate Mineral Fiber)

PHARMACY - asbes. Asbestos. Silicate mineral fiber. Asbestos is a term applied to some mineral silicates present in a fiber form. There are many members of the family: common among these are blue asbestos (crocidolite), white (chrysotile) and brown or grey asbestos (amosite). Other forms of asbestos include anthophyllite, and tremolite, which are present in some commercial talcs. Trituration. f/iviorica/ **dose:** All potencies.

CLINICAL - Asbestosis. Anemia. Ascites. Bronchitis. Cancer. **Dyspnea.** Emphy- sema. Fibrosis. Hoarseness. Lung, cancer. **Mesothelioma.** Nausea. Pleural, effusion. Pneumonia.

HOMEOPATHIC - Asbestos is a mineral fiber that was commonly used in a variety of building construction materials for insulation and as a fire retardant. The most dangerous asbestos fibers are too small to be visible. Once they are inhaled, the asbestos fibers can remain and accumulate in the lungs. Breathing high levels of the fibers can lead to an increased risk of lung cancer, mesothelioma (a cancer of the chest and abdominal linings), and asbestosis (irreversible lung scarring that can be fatal). Symptoms of these diseases do not show

up until many years after exposure.

The most common symptoms of asbestos exposure are shortness of breath, coughing, and chest pain. **A dry crackling sound in the lungs while inhaling.** Pains in the lower back or sides of the chest. Persistent coughs, loss of appetite, weight loss, and recurrent bronchitis or pneumonia.

Less common symptoms may include fever or night sweats. Ascites or fluid buildup in the abdomen, weight loss, nausea, difficulty with bowel movements, anemia, and foot swelling.

Abdomen - Ascites. Peritoneal cancer. **Back** - Pains in lower back.

Chest - Pains in sides of chest.

Lungs - Breathing difficulties. Cancer.

Shortness of breath, which increases overtime. Increased sputum. Chronic and persistent coughs. Coughing up blood. Scarring of lungs and pleura. Pleural effusion.

Food - Loss of appetite. Weight loss and fatigue. Nausea.

Throat - Hoarseness.

COMMENTS - Asbestos has been known and used for as long as 4,500 years. Many centuries ago, Finnish peasants mixed it in pottery and sealed cracks in their log huts with it. The ancient Romans wove asbestos fibers into fabrics to make towels, nets and even head coverings for women.

In the early 1900's, doctors in Europe knew that asbestos workers were dying from respiratory ailments. In 1924, Dr. W. E. Cooke reported in the British Medical Journal cases of pulmonary fibrosis (asbestosis) in workers employed in the asbestos industry.

RELATIONS - Compare: (1) Sil. (2) Cob., Rado.

***ASCLEPIAS CORNUTI

(Milkweed)

PHARMACY - asc-c. Asclepias cornuti. Milkweed. Silkweed. Asclepias syriaca. N. **O.** Asclepiadaceae. North America. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Allergies. Bronchitis. Catarrhal fever. Diaphoresis. Dropsy. Dysmenorrhea. **Hay fever.** **Headaches.** Indigestion. Influenza. Menses, scanty. Miscarriage. **Neuralgia.** Pleurisy. Rheumatism. Uremia. Uterine pains.

HOMEOPATHIC - Asclepias cornuti is a remedy for dropsy, hepatic, kidney or after scarlet fever. It causes diaphoresis and augments the urinary secretion. Dropsy after heart disease. Uremia. Intermittent, pressing-down uterine pains.

Acts especially on the nervous system and urinary organs. Nervous headache, as if a sharp instrument were thrust through from one temple to the other with vomiting, followed by sweating or profuse urination. Belching of food with its proper taste.

Influenza, catarrhal fever, bronchitis, hay fever. Headache from checked sweat or retention of effete matters. Uterine pains are intermittent, pressing with threatened miscarriage. Coldness of surface after vomiting. Diaphoresis, profuse sweat. Acute rheumatism confined to large joints with much pain and swelling.

Abdomen - Flatulent colic. Rumbling in abdomen, as if diarrhea would set in. Pain and soreness in abdomen, with or without distension. Stitching and aching pains, in left side of abdomen.

Back - Cutting and aching about lowest dorsal vertebra.

Female - Intermittent, bearing-down, labor-like pains, pressing from sacrum to hypogastrium. Scanty flow. Suppression of menses.

Food - Increased appetite, vomiting and headache with constipation. Great appetite even a few hours after a meal.

Head - Constriction across forehead. **Feels as if a sharp instrument were thrust through from temple to temple.**

Head - Nervous headache after suppressed perspiration, followed by **increased urine with increase of specific gravity.** Headache from retention of effete matters in system.

Heart - Action of heart lessened, pulse slow. Feeble pulse after vomiting.

Kidneys - Ardor urinae. Increased flow of urine. Pale-colored urine with light specific gravity. Increase of solid matters in urine.

Lungs - Increase of the bronchial secretions. Burning and tickling in fauces. Pain in left side of chest on deep inspiration (pleurisy).

Male - Tickling sensation at the end of the penis.

Perspiration - Diaphoresis, profuse sweat.

Rectum - Diarrhea with nausea and vomiting with excoriation of the anus. Copious stools of soft, fluid

consistence, yellowish in color and attended with some griping pain. Constipation, pain in right side, lower limbs, loss of appetite.

Sleep - Drowsy, sleepiness, hard sleep during the night.

Stomach - Excessive nausea with violent headache, violent vomiting and retching. Severe and long-continued vomiting. Sensation of rawness in the stomach and pain.

Temperature - Coldness of the surface of the skin and feeble pulse.

Throat - Burning and tickling in the fauces with nausea and headache.

Tongue - Tongue covered with a white fur.

Vertigo - Vertigo, dullness and stupidity. Vertigo with headache.

RELATIONS - Compare: (1) Cimic., Bry., Colch., Asc-t. (2) Asclepias Vincetoxicum.

REFERENCES - Boericke. Clarke.

***ASCLEPIAS INCARNATA

(Swamp Milkweed)

PHARMACY - asc-i. Asclepias incarnata. Swamp milkweed. N. O. Asclepiadaceae. North America. Tincture of the rhizome. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Asthma. Catarrh. Diarrhea. Dropsy. Dysentery. Dyspnea. Leucorrhea. Rheumatism. Syphilis. Worms.

HERBAL - Asclepias Incarnata is diuretic, stomachic, anthelmintic, and in very large doses, emetic. When it is used anthelmintic, the powder of the root has been employed, in doses of ten to twenty grains per day.

As a diuretic in dropsy this herb is of considerable value. It strengthens the heart. Often relieves the heart distress caused by infiltration of the tissues, especially the difficult breathing.

HOMEOPATHIC - Catarrhal discharges. Dropsy with dyspnea. Catarrhal inflammation of the respiratory organs. Dysentery and diarrhea. Leucorrhea. Rheumatism from cold. Dropsies.

COMMENTS- Dr. Tully, of New Haven, has found it useful in catarrh, asthma, syphilis, rheumatism, and worms. Dr. Fowler, of New York, speaks in the most unequivocal terms of its virtues in amenorrhea. Dr. A. C. Jones, of Philadelphia, has given it in several cases of suppressed menstruation, without benefit. Dr. Hale, of Michigan, thinks it is the Asclepias syriaca which is so useful in amenorrhea, and not the Asclepias incarnata.

***ASCLEPIAS TUBEROSA

(Pleurisy Root)

PHARMACY - asc-t. Asclepias tuberosa. Pleurisy root. Butterfly-weed. N. O. Asclepiadaceae. North America. Tincture of fresh root. **Historical dose:** Tincture and all potencies.

CLINICAL - Alopecia. Asthma. Bilious fever. **Bronchitis.** Catarrh. Chancre. Colic. Coughs. Diarrhea. Dyspnea. **Dysentery.** Flatulence. Headaches. Heart **disorders.** **Influenza.** Marsh, fever. Ophthalmia. Pericarditis. Pleurisy. Pleurodynia. **Pleuro-pneumonia. Pneumonia.** Rheumatism. Scrofula. Syphilis.

HERBAL - Asc-t. is said to be diaphoretic and expectorant, without being stimulant. In large doses, it is often a cathartic. It is thought, by the herbal doctors, to act prominently on the cutaneous system, stimulating the capillary circulation, promoting diaphoresis.

HOMEOPATHIC - Asclepias tuberosa has been used **for bronchitis and pleurisy.** Marked action on the chest muscles, which has been verified. Also effective in autumn dysentery with painful diarrhea, griping and tenesmus.

Increases the secretions of skin, serous and mucus membranes. Catarrhal states from cold and damp weather.

Bronchitis and pleurisy. Pains in lungs better bending forward. Stitches in left side shooting over to right and up to left shoulder. Profuse perspiration in **pneumonia** and **pleuropneumonia.**

A general eliminative remedy, acting specially on the sweat glands. **Influenza** with pleuritic pains. Cutting pain behind sternum intercostal spaces near sternum tender to pressure. **Catarrhal complaints from cold and damp weather.** Bilious marsh fever on rice plantations. High fever with hot sweat.

Sick headache with flatulence in stomach and bowels. Dyspepsia. Sensitive to tobacco. Unfit for business because of pain in bowels and frequent stools. Irritation of larynx with huskiness, grip with pleuritic pain. Diarrhea or rheumatic conditions. Muscular and joint rheumatism with stitching pains, dark red urine and hot, perspiring skin.

MIND - Dullness of mind with difficult thinking. Languid and dull all day both in body and mind. Memory weak. Mood changes, without any cause. Cheerful mood. Excessive dejection. Fretful and peevish.

Abdomen - Flatulence after meals. Colic pains from flatulence. Colic on going upstairs. Rumbling in the bowels with uneasiness, or sharp, cutting pains and soreness. Burning borborygmi. Dull pain in bowels on pressure.

Emission of fetid flatulence.

Back - Stiff-neck on waking. Sharp pains in back and between the shoulders. Pains shooting from left chest into left shoulder. Sharp pain in loins near sacrum, lumbago.

Breasts - Sharp pains shooting from left nipple downward, with stiffness of left side of neck. Pain beneath left nipple with palpitations.

Chest - Warm feeling in chest. **Pleurisy**. Pleurodynia. Acute pleuritic pain in right side, with dry, hacking cough, and scanty mucus expectoration. Chest pains better bending forward, worse lying, breathing. Pains worse 4 a.m. and 4 p.m. Spaces between ribs close to sternum tender. Pain in lower chest, diaphragm.

Constitutions - Hydrogenoid type, which corresponds to catarrhal complaints, worse from cold and damp weather.

Eyes - Eyes look dull, fatigued, and heavy, as after a long illness. Ophthalmia, with itching and pain in eyes. Feeling of sand in the eyes. Vision disturbed, large spots before the eyes.

Face - Hippocratic face after violent diarrhea. Yellow complexion. Vesicles on lips. Itching of lips.

Female - Profuse menses. Menorrhagia with violent bearing down pain.

Food - Loss of appetite, especially in morning. Insatiable hunger. Sensitive to tobacco.

Head - Headache better after footbath. Headache in the morning on rising. Headache pressing deeply on the base of the skull. Pain in the forehead from coughing. Alopecia.

Heart - Pericardial effusion. Constrictive pain in the heart. Tenderness to pressure over heart. Sharp pains, like pricking of a needle in region of heart. Pulse slightly accelerated.

Kidneys - Sharp pain in urethra, excoriation of glans penis in several places with bloody and purulent secretion. Urine very red, looks as if blood were in it.

Limbs - Rheumatic pain in all the joints. Rheumatic pains that affect the body diagonally, or left upper and right lower or the opposite. Pains near wrists. Joints give sensations as if adhesions being broken up on bending. Itching of thighs and buttocks but no eruption. Pain in right hip. Corns painful.

Lungs - Short of breath and weak on walking. **Bronchitis and pleurisy**. Dry cough, throat constricted, causes pain in head and abdomen.

Lungs - **Breathing painful**, at base of left lung. Humid asthma, worse after eating, worse after smoking a little. Oppression and difficulty of breathing, in paroxysms, like asthma. Catarrh with frontal headache and sticky yellow discharge.

Male - Flabbiness, perspiration, and insipid smell of genitals. Excoriation of glans penis in several places with a bloody discharge, better by bathing with urine. Chancre. Weakness, erection without desire.

Modalities - Worse in morning. Worse on rising. Worse by motion. Worse by coughing. Worse from tobacco. Worse from motion. Worse deep breathing. Worse lying down. Worse rising up. Worse coughing.

Mouth - Breath smells like pepper. Tough yellow coating on tongue. Taste, putrid of blood. Teeth yellow-coated. Bleeding of the gums. Tongue covered with a tough yellow coating.

Nose - Sticky yellow nasal discharge, Snuffles of children. Fluent coryza with much sneezing. Blowing of blood from left nostril. Itching of the nose. Snuffles of children.

Rectum - Autumnal dysentery. Tenesmus. **Catarrhal dysentery with rheumatic**

pains. Diarrhea is worse in winter. Stools with a feeling as stream of fire passing through abdomen. Soft and fetid stool. Early morning diarrhea. Winter diarrhea. Stools like white of eggs, yellow, green, clammy, enveloped in froth, like moss. Stools smell like rotten eggs or burn like fire. Constipation after diarrhea.

Skin - Vesicles, pimples, and pustules all over the body, especially on arms, legs, and face, itching.

Sleep - Drowsy. Uneasy, restless sleep. Troublesome dreams.

Stomach - Fullness, pressure, weight. Belchings. Nausea, and efforts to vomit, in the morning when rising. Stomach pains, burning, disagreeable weight. In evening, violent stomach pain after supper. Cramps.

Temperature - Chill towards noon, with cold feet though room is warm. Feverish afternoon. High fever with hot sweat. Rheumatic, catarrhal, bilious marsh fevers of rice plantations.

Throat - Slight constriction of throat, and pricking in larynx.

Vertigo - Feeling of drunkenness with weakness of sight after smoking a very little. Swimming of the head with dullness behind forehead.

COMMENTS - Sharp, stitching, pricking pains, worse by motion. Sensitive to tobacco. Pain in forehead and abdomen from coughing. Gripping and sharp peritoneal pains, worse by pressure. Excessive weakness, walking seems impossible.

Dyspnea. Hard cough, dry or hoarse, croupy with tight breathing and constriction of larynx and acute pleuritic pains. Warm feeling in chest. Pain like pricking of a needle in region of heart. Contracting pain in heart. Sharp pains, starting from left nipple downward with stiffness of left side of neck.

Increased secretions of skin, serous and mucus membranes. Catarrhal states from cold and damp weather.

Bronchitis and pleurisy (often will follow Bry. in pleurisy cases), coughing and pain in the chest and pain on breathing. Pains in lungs, better bending forward.

Stitches in left side shooting over to right and up to left shoulder. Profuse perspiration in **pleuro-pneumonia**.

RELATIONS - Compare: (1) Ant-t. (2) Asclepias Incamata. Periplocagrecia - Cardiac tonic, acts on circulation and respiratory center, accelerating the respiration in a ratio disproportionate to pulse. (3) Agar., diagonal pains. (4) Bry., Verat. Relieved pains with stool at night. (5) Dulc. - worse cold and damp.

REFERENCES - Boericke. Clarke.

***ASCLEPIAS VINCETOXICUM

(Swallow-wort)

PHARMACY - asc-v. Asclepias vincetoxicum. Swallow-wort. Vince. N. O. Asclepiadaceae. **Historical dose:** All potencies.

CLINICAL - Dropsy. Diabetes.

HOMEOPATHIC - Asclepias vincetoxicum is a gastro-intestinal irritant. Producing vomiting and purgation. Asc-v. is useful in dropsy, diabetes, great thirst, and profuse urination.

REFERENCES - Boericke.

***ASIMINA TRILOBA

(American Papaw)

PHARMACY - asim. Asimina triloba. American papaw. Anona triloba. Paw Paw. Custard Apple. N. O. Anonaceae. Tincture of ripe and unripe fruit, green leaves, bark and root. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne. Aphthae. Carbuncle. Cramp. Diarrhea. Fever. Glands, enlarged. **Hoarseness.** Scarlatina. Throat, sore. Vomiting.

HOMEOPATHIC - The Anonaceae, to which Asimina belongs, are allied to the Magnolia family. From eating the unripe fruit, five children developed high fever, sore throat and a scarlet eruption with diarrhea, one of them eventually having a carbuncle.

Asimina produces a series of symptoms much like scarlet fever, sore throat, fever, vomiting, scarlet eruption. Tonsils and submaxillary glands enlarged with diarrhea. Fauces are red and swollen. Face swollen.

In provings, the mouth, throat and stomach are irritated. Drinks much, desire

for ice cold things and worse after eating. **Hoarseness talks with difficulty.** Languid, drowsy irritable.

Acne. Itching in evening on undressing. Thick, yellow nasal discharge in morning. Hard, flaky, dark grey and often offensive nasal discharge. Cramps in chest.

RELATIONS - Compare: (1) Caps., Bell., Ill. (Colic).

REFERENCES - Clarke.

***ASPARAGUS OFFICINALIS

(Garden Asparagus)

PHARMACY - aspar. Asparagus officinalis. Garden asparagus. N. O. Liliaceae. Tincture of young sprouts. **Historical dose:** Tincture and all potencies.

CLINICAL - Coryza. Coughs. **Cystitis.** Diabetes. Dropsy. Gravel. Heart disorders. Hydrothorax. **Kidney, disorders.** Kidney, stones. Migraine. Nasal catarrh. **Palpitations. Polyuria.** Pulse, weak. Rheumatic, pains. Urinary disorders.

HERBAL - Asparagus has a marked and immediate action on the urinary secretion. Like other liliaceous plants it acts on the kidneys, heart and dropsical effusions.

HOMEOPATHIC - Cystitis. Frequent urination with fine stinging in the meatus, followed by stitches out of the urethra. After urinating, burning in urethra with sensation as if some were still passing. Increased urine, beer-brown without sediment. Urine is strong smelling, odor peculiar, deposits greasy sediment on sides of vessel, gravel.

Severe coryza and nasal catarrh with profuse secretion of thin, whitish fluid from left nostril, afterwards right. Frequent violent sneezing. Copious discharge of tenacious mucus from the throat, not easily loosened, but brought up by hawking or paroxysms of cough.

Weakness and cardiac depression with dropsy. Rheumatic pains, especially about left shoulder and heart. Fullness in chest, hydrothorax. Visible violent palpitations, while sitting, with anxious restlessness increased by motion or ascending with oppression of chest.

Pulse weak, slow, irregular. Pain at left acromion process, under clavicle and down left arm. Constant desire to be carried about in the arms.

MIND - Constant anxiety and apprehension. Anxiety with palpitations of the heart and ill humor. Calmness of the mind. Fretful and peevish. Disturbed by trifles.

Abdomen - Sensation of fullness in the abdomen, pinching in the umbilical region, at night with painful sensibility to the touch. Inflation of the abdomen, frequent emission of wind.

Back - Pain near the shoulders on touching the part, rheumatic pain between the shoulders. Sensation, as if something passed through kidneys and penetrated to the abdominal vertebrae, on the patient sitting down. Shootings pains, especially below the left shoulder blade. Pains in the region of the false vertebrae.

Chest - Oppression of the chest, especially when writing. Dyspnea brought on by motion, on going upstairs. Pressure on the chest. Emptiness within, with weight on the chest. Severe shooting pain across the right side when sitting down. Hydrothorax.

Eyes - Darting and tingling in the eyes, sight more piercing.

Face - Paleness of the face. Increase of heat in the face, cheeks burning.

Female - Menses continue a day beyond the usual time.

Food - Thirst increased. Feeble appetite. Fullness and oppression after eating and drinking. Vomiting of food taken evening before. Palpitations after eating.

Head - Aching in forehead and root of nose. Morning migraine headaches with scotoma. Aching pain in the temples, aggravated by pressure, weight in the forehead.

Heart - Irregular beating of the heart, rapid, redoubled. Heartbeat almost imperceptible. **Palpitations with oppression of chest.** Palpitations, which are visible and audible even during very gentle movements with agitation and anxiety. Palpitations from

Asparagus officinalis motion and on ascending the stairs, worse when seated. Shooting pains in the region of the heart after a meal. Pulse slightly accelerated, feeble, intermits, weak.

Kidneys - **Frequent urination with fine stitches in orifice of urethra**, burning of peculiar odor. Kidney stones. **Cystitis** with pus, mucus and tenesmus. Urgent inclination to urinate. Frequent and scanty emission of urine, preceded by a sensation as if a foreign body were in the urethra. Diminished secretion of urine, burning in the urethra.

Limbs - Rheumatic pain in back, especially near shoulder and limbs. Pain at acromion process of left scapula under clavicle and down arm with feeble pulse. Pain, as of dislocation in the right hip joint, which causes lameness. Shootings in the knees, at night afterwards under the left patella, on being seated. Bruise-like pains. Severe drawing pains in the calf of the right leg, in the morning, on waking and on extending the limb, cramps in both calves.

Lungs - Great oppression in breathing. Frequent sneezing, hawking with irresistible inclination to cough, but without any power to detach mucus, paroxysms of coughing, which compel the patient to rise from his seat, abating after breakfast, violent cough, attended by oppression of the chest and copious expectoration of mucus. Violent cough inducing retching.

Male - Excitation of sexual appetite, dartings in the glans penis.

Mouth - Taste insipid, sweetish (as of copper), softness of the saliva, as if it were mixed with blood.

Nose - Coryza with profuse, thin fluid.

Rectum - Bilious diarrhea with pain as of excoriation in the anus, colic and dragging in the groins.

Stomach - Belchings, flatulency in the stomach, nausea in the morning, on waking. Vomiting of food, mixed with bile and slimy matter afterwards diarrhea of bile and of fecal matter.

Throat - Throat feels rough with hawking copious, tenacious mucus from throat. Abundant secretion of mucus in the throat, a constant rattling of mucus in the chest with roughness in the throat.

Urine - Urine loaded with phosphates and the urate of ammonia in kidney dropsy. Gravel passes in small quantities with the urine. Straw colored urine, scanty, soon becomes turbid with little white specks. White flaky sediment, the urine deposits a fatty sediment on the sides of the vessel. Urine brown or clear with a fetid smell, a peculiar smell from the urine.

Vertigo - Vertigo in forehead, head confused, as during an attack of vertigo, dizziness in the forehead, followed by aching in the temples.

COMMENTS - Aspar, is a prostate and kidney remedy. The old homeopaths used to give it in tincture for the tendency to form kidney stones or history of kidney stones. Sediment in the urine, urine is gritty and painful. Boericke noted it for cystitis and lithiasis, the predisposition to kidney stones. Diabetes. Dropsy. Heart disorders. Urinary disorders.

RELATIONS - **Antidote:** Aeon., Apis. **Antidoted by:** Aeon, (prostration, feeble pulse, pain in shoulder), Apis.

Antidote to: Coffea. **Compare:** (1) Conv., Sars., Am., Aur-m., Cann-i., Dig., Spig. (2) Althea - Marshmallow, contains asparagin, irritable bladder, throat and bronchin. (3) Physalis Alkekengi. Dig., Sars., Spig.

REFERENCES - Boericke. Clarke.

***ASPARTAME

(Aspartyl-phenylalanine)

PHARMACY - aspart. Aspartame. Aspartylphenylalanine- 1 -methylester. Artificial sweetener. **Historical dose:** All potencies.

CLINICAL - Abdominal Pain. Allergies. Arthritis. Attention deficit disorder. Asthma. Brain, cancer. Blood sugar problems. Cancer. Chronic fatigue. Convulsions. Depression. Diabetes. Diarrhea. Edema. Epilepsy. Headaches. Hives. Hyperglycemia. Hypertension. **Hypoglycemia**. Insomnia. Itching. Lupus. Memory weakness. Migraines. Multiple sclerosis. Nausea. Rashes. Vertigo. Vomiting.

HOMEOPATHIC - Aspartame is an artificial sweetener and neurotoxin. It chemically breakdowns into very toxic by-products including formaldehyde, formic acid, and methanol. The homeopathic indications are based on Aspartame's many toxic side effects and provings.

Epilepsy. Seizures and convulsions. Autoimmune diseases. Increased susceptibility to infections. Weak immune system. Allergic reactions. Lupus. Pains appear suddenly. Pain in spots. Stabbing pains. Sharp pains. Hypertension. Blood sugar problems. Hypoglycemia and hyperglycemia. Weariness, worse in evening.

MIND - Mental confusion with headache. Confusion while talking. Poor concentration. Poor memory. Difficulty thinking. Anxiety attacks. Phobias. Depression. Marked personality changes.

Mental prostration. Desires activity. Delusion that he has been poisoned. Mental dullness with headache. Exhilaration. Forgetful during headache. Grief.

Industrious. Indifference during headache. Indifference to important things. Indifference to usual intellectual occupation. Indifference to irritating, disagreeable things.

Irritability, alternating with indifference. Irritability to her family. Irritability, headache amel. Laughing. Loquacious.

Memory weakness for what he is about to do. Memory weakness of memory for what he is about to say. Memory weakness for proper names. Mistakes in speaking, using wrong words. Mistakes in work. Mistakes in time, days of the week.

Prostration of mind - headache, during. Reproaching himself. Senses acute. Time appears longer, passes too slowly. Tranquillity while performing tasks. Untidy. Weakness of will.

Abdomen - Hypogastrium pain. Sharp pains in abdomen. Painful spot beneath navel.

Back - Burning pains in lumbar. Heat in lumbar region on waking from sleep, radiating to body. Aching pain in cervical region. Neck stiffness, creaking as if bones need oiling.

Bladder - Urging to urinate.

Breasts - Sharp pain in left breast.

Chest - Constricted sensation. Oppression of chest. Sore pains. Sharp pains on breathing. Sharp pains between the ribs.

Ears - Heat in ears. Itching in meatus. Hearing loss. Tinnitus.

Eyes - Glassy, appearance. Bloodshot eyes. Sensation of a hair in eye. Itching of inner canthi. Eyes staring. Acute vision. Foggy vision. Vision loss.

Face - Dryness of face. Corners of mouth cracked. Eruptions around the mouth. Heat in spots. Bone pains. Stinging pain. Pain in cheeks.

Female - Menses delayed. Menses protracted. Sharp pains in uterus.

Food - Lack of appetite. Appetite increased in morning. Errors in diet aggravates. Aversion to sweets. Desires for sweets.

Head - Heaviness sensation. Bursting pain, better after eating. Cutting pain in forehead. Pains in forehead extending to eyes. Headache worse from light. Headaches are left sided.

Heart - Rapid heartbeat. Palpitations.

Limbs - Heaviness in upper limbs while writing. Tremors. Numbness and tingling of limbs. Sharp pain in lower limbs, motion amel. Sharp pain in knees. Ankle weakness while walking. Knee suddenly gives way while walking (Ruta).

Lungs - Asthmatic reactions. Difficult breathing while eating. Desire to breathe deeply. Difficult breathing after exertion. Chronic cough. Dry cough.

Modalities - Better open air.

Mouth - Saliva frothy, offensive, thick. Salivation profuse. Taste, acute. Burning pain in tongue. Tongue yellow. Ulcer of gums.

Nose - Smell, acute. .

Rectum - Constipation. Insufficient urging to stool. Diarrhea. Hard stools. Long, narrow stools. Offensive

smelling stools.

Skin - Itching in scars. Hives. Itching. Rashes.

Sleep - Insomnia. Sleepiness. Dreams of dead children.

Stomach - Nausea and vomiting. Diarrhea. Stomach distension. Emptiness in stomach after breakfast. Eructations. Heartburn. Retching with cough.

Temperature - Lack of vital heat. Sensation of heat.

Throat - Dryness of throat. Sensation as if a foreign body in throat.

Vertigo - Vertigo when turning head or moving quickly. Vertigo while walking.

RELATIONS - Compare: (1) Ars., Care., Phos.

(2) Formaldehyde. Formic acid. Methanol.

REFERENCES - Bocock. Murphy.

***ASPEN

(Bach Flower Essence)

PHARMACY - asp-b. Aspen. Populus tremula. Small twigs with leaf buds and clusters of flowers, which are the catkins, are boiled for half an hour. Both the male catkins, which are gray with tinges of red anthers or yellow pollen, and the smaller, gray female catkins are selected. The water is subsequently strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle (add brandy or another alcohol if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - The remedy Aspen belongs to the group of **“For Those who have Fear,” as** determined by Bach. The other fear remedies are Rock Rose, Mimulus, Cherry Plum and Red Chestnut.

Aspen can greatly benefit those unable to fall asleep due to their fears of letting go. Sleeping disorders and insomnia due to nightmares of an eerie, haunting kind.

Foreboding and anxious disquiet in mind and body. In panic disorders, when no apparent reason can be given for the attacks (Cher-p-b, Rock Rose). Anxiety attacks marked by the typical, vague fears with shaking and trembling. Anxiety about death. Mental and emotional withdrawal. Dejected or haunted in appearance.

MIND - In the Aspen state, the mind is overly receptive and too easily impressed. Primordial fears and feelings of doom. Delusions, superstitions, omens, fateful encounters, prophesies and ghost stories.

Some people develop personal rituals to establish a sense of protection.

Forebodings are vague and may be solely imaginary. Intuitive, spiritual or psychic paths of personal development may lead people into the Aspen state. Aspen is indicated in states of fearful delusions and paranoia when fears are based on imaginary content with haunting features.

REFERENCES Bach.

***ASTACUS FLUVIATILIS

(Crawfish)

PHARMACY - astac. Astacus fluviatilis. Crawfish. Cancer astacus. Cancer fluviatilis. River crab. N. O. Crustacea. Europe. Tincture from whole animal. **Historical dose:** Tincture and all potencies.

CLINICAL - Biliousness. Colic. Cough. Diarrhea. Fever. Swelling of cervical glands. Intermittent fever. Jaundice. Liver complaints. Nettle rash. Neuralgia. Shivering. Stomach disorders. Toothache. Tumors.

HOMEOPATHIC - The well-known effects of shellfish, as well as of other fish, in producing nettle rash is exemplified in Astacus more than all other varieties. The lacquer workers of the East have discovered that the river-crab is the best antidote to the effects of Rhus-t., which they employ in their craft.

The liver is markedly affected and a great characteristic is “nettle-rash with liver complaint.” Pain and tenderness of the liver, jaundice, stools of pipe-clay color. Jaundice in children. Skin symptoms. **Urticaria**, with liver complaints. Itching of various parts. Stinging pains are felt in various parts. Nervous crawls over body.

Crusta lactea with enlarged lymphatic glands. Enlarged glands of the neck in children and the elderly. Tumors. Gout from drinking alcohol. Inward chilliness and sensitiveness to air, worse uncovering. Violent fever with headache, glowing red face inward chilliness.

MIND - Melancholic mood. Apprehensiveness with anxiety in chest. Slight delirium during nettle-rash.

Abdomen - Constricts and may completely close both the duodenum and especially the opening of the gall duct into the duodenum.

Liver - Cramps in liver region. Liver inflamed, worse pressure.

Lungs - Cough, better when walking, but returns as soon as he sits down.

Modalities - Worse from air, uncovering.

Skin - Itching in various parts. Nettle rash over whole body. Crusta lactea with enlarged, lymphatic glands. Erysipelas and **liver infection with nettle rash**. Jaundice.

Temperature - Violent fever with headache, red glowing face. Inward chilliness, very sensitive to air, worse uncovering, violent fever with headache.

RELATIONS-Antidotedby: Aeon. **Compare:**

(1) Calc., Rhus-t. Apis, Homarus. Chloral, Nat-m. (2) Bombyx - Caterpillar, Itching of whole body, urticaria.

REFERENCES - Boericke. Clarke.

***ASTERIAS RUBENS

(Red Starfish)

PHARMACY - aster. Asterias rubens. Red starfish. N. O. Radiata, Echinodermata. Tincture of fish. **Historical dose:** All potencies.

CLINICAL - Acne. Axillary, tumor. **Breast, cancer.** Cancer. Chorea. Colic. Constipation. Convulsions. Epilepsy. **Gland, disorders.** Headaches. Heart, disorders. Hemorrhoids. Herpes zoster. Hysteria. **Insomnia.** Neuralgia. Psoriasis. Salivation. Scabies. Strokes. Sycosis. Tetters. Tongue, paralysis, swelling. Ulcers. Uterus, disorders. Vertigo.

HOMEOPATHIC - The starfish was used by Hippocrates in uterine diseases. This shows its pathogenic relationship to Sep. and Murx. It is also an ancient remedy for epilepsy and stroke.

Aster, has been successful in curing **breast cancers with nightly sharp pains**. Drawn back feeling in eyes. Nipples feel drawn in. **Breast cancer.** Increased sexual desire, sexual excitement.

Powerfully affects the brain and the head, causing severe congestion with red face, strokes.

This remedy produces disturbances of the circulation with pulsations and congestion in head, womb, chest. Sexual desire increased, sexual excitement. A pushing-out sensation in womb, impeding walking (Sep.).

Petroz used Asterias rubens successfully in old skin affections, old ulcers and in cancers. He found that it only acted on the latter when on the left side. H. C. Allen mentions it as a remedy for acne having small puncta with black tips and small red bases.

Nervous disorders include neuralgia, chorea, hysteria and epilepsy. Epilepsy is preceded by twitching over whole body. Chorea, quiet only when the hands are in the pockets. Left-sided symptoms. Symptoms are worse at night, by motion and in cold, damp weather. Tears ameliorate the mental state.

MIND - Easily excited by any emotion. Weeps from least emotion. Sense of impending misfortune. Fears bad news. Fear of apoplexy at night, with feeling as if head would burst. Fear of fainting with sensation of fullness in chest.

Melancholy alternating with cerebral excitement. Cannot bear contradiction. Indifference. Unwilling to think or work. Clearness of mind when headache disappears.

Irritability, necessity of quarrelling with somebody. Irritability before convulsion. Impatience in house. Sadness, desire to weep.

Anxiety during sleep after menses. Feeling of extreme anxiety from noon to 3 p.m. Nervous agitation with erotic thoughts and sexual desire.

Insanity during menopause. Delusion he is under control of strangers. Hallucinations of hearing voices, away from, among strangers. Loss of consciousness in epilepsy.

Abdomen - Shocks of dull pain in the right side of abdomen and near umbilicus. Incarcerated wind. Violent colic, with shuddering, alternating with flushes of heat in the face. Alternate swelling and sinking of the abdomen during the twenty- four hours. Sensation of pressure on lower abdominal organs. Tearing, drawing pain in abdominal walls.

Back - Scrofulous ulcer left neck. Pulling, drawing in the back and sacrum.

Breasts - **Breast cancer even in ulcerative stage.** Neuralgia of left breast and arm (Brom.). **Acute, lancinating, or smarting pains** in breast tumor, entirely depriving her of rest at night. Nodes and induration of breast gland. Dull aching, neuralgic pain in breast region (**Con.**). **Nipples retracted.** Breasts swell and painful, worse left. **Left breast feels as if pulled inward.** Pain from breasts extends over inner arm to end of little finger. Slight eruption between breasts. **Axillary glands swollen hard and knotted.** Rash or furfuraceous eruption between breasts.

Chest - Enlarged axillary glands, worse at night and in damp weather. **Axillary glands swollen hard and knotted.** Ulceration with sharp pains, piercing to scapulae. Pain under sternum and in muscles of precordial region. Full feeling in chest with fear of fainting. Violent itching spot upon chest. Itching in right axilla. Pain under sternum. Lancinating pain.

Constitutions - A remedy for the sycotic diathesis, flabby with **red face**. Flabby lymphatic constitution.

Ears - Lightning-like stitches in the meatus auditorius. Violent reports in the ears. Noise in the ears as from waves. Noise of rushing water. Dullness of hearing in the right ear.

Eyes - Drawn backwards. Winking of eyelids. Heat and redness in the eyes, weary look. Difficulty of bearing the light. Eyes are drawn backwards. Edges of eyelids reddened. Photophobia. Light fatigues eyes. Twitching of lids.

Face - Red, flushed face. Redness of face, precursor of apoplexy. Acne. Pimples on side of nose, chin and mouth. **Disposition to pimples at adolescence.** Pimples, black tips with small red bases. Neuralgia. Livid discoloration of face, during epileptic attack with falling.

Female - Jerking or distress in uterus. Colic and other sufferings cease with appearance of flow. As if something were passing out of uterus. As if something protruded behind uterus. Pushing sensation in uterus. Twitching of uterus. Vagina moist with feeling of ease. Violent and constant sexual desire, not better by sex, with nervous agitation with disposition to weep. Sexual desire increased, worse mornings in bed.

Food - Loss of appetite. Uncertain appetite. Dullness of taste. Aversion to meat. Desires cold drinks. Desires highly seasoned food, strong cheese. Desires liquors, tea. Great desire for cold drinks. Worse from coffee.

Head - Face red, with throbbing carotids. Rushes of blood to head with throbbing. **Sensation as if head would burst, precursor to stroke.** Sensation as if head would split. Shocks in brain, throbbing. **Heat in head, as if surrounded by hot air.** Bones of skull and scalp sore. Pain in occiput, right side. Emptiness in the head. Severe pressure in forehead. Boring pain, above left eye. Burning pains in head. Soreness of whole scalp during severe headache.

Heart - Palpitations, pulse hard and frequent. Strong and frequent beating of the heart, jerking palpitations. As if heart had ceased to beat, with dull, prolonged heartbeats. Anxiety at the heart. Violent beating in right carotid artery. **Pulse hard, full, frequent.**

Kidneys - Heat in the urethra while the urinating. Frequent urination with copious, clear urine. Thick, viscid urine. Urine profuse. Urine thick and slimy.

Limbs - Gait unsteady muscles refuse to obey the will. Numbness of hand and fingers of left side. Numbness of hands, with coldness of the arm. Lassitude and great weakness of the lower limbs. Pain in the left hip. Pain in the joints of the foot. Feeling in all limbs as if beaten, most in arms, when walking in open air. Restlessness in limbs worse covered or in warm room.

Lungs - Short breath with pain in chest when inhaling. Cough with expectoration, morning in bed. Easy hawking of greyish-black mucus during forenoon.

Male - Sexual desire increased, erotic thoughts. Frequent erections during sleep or in the morning.

Modalities - Better appearance of menses. Worse from coffee. Worse at night. Worse cold damp weather. Worse left side. Worse from heat, motion. Worse during menses. Worse from contradiction. Malaise is worse heat.

Mouth - Acute and pressing stitches in the upper teeth. Swelling of the tongue. Pulling pains in the tongue. Heaviness of speech. Profuse flow of saliva. Dry, hard, exceedingly painful pimples on lower lip. Loss of taste. Shooting pain in tongue. Difficulty to move tongue, aversion to speak. Talking difficult with profuse salivation.

Nerves - Gait unsteady, muscles refuse to obey the will. Epilepsy, preceded by twitching over whole body.

Nose - Nosebleed, sneezing and coryza in the morning on waking. Sneezing and coryza in morning on awaking. Pimples on sides of nose and chin.

Rectum - Severe constipation. Ineffectual urging. Obstinate constipation. Stool like olives. Stool hard, round balls. Diarrhea preceded by colic. Diarrhea, watery brown stools gushing out with force. Heat in the rectum. Bleeding hemorrhoids.

Sleep - Sleeplessness from nightly pains. **Insomnia.** Disposition to sleep after reading a moment. Late falling asleep and late getting up. Agitated sleep, tossing about. Sleep quiet but not refreshing. Many dreams. Dreams about persons and events. Dreams, images vivid and lifelike. Dreams, sees and hears people as if she was awake.

Skin - Acne with black tipped puncta, small red base. Dry, harsh skin, earthy appearance. Destitute of pliability and elasticity. Itching spots. Psoriasis and herpes zoster worse left arm and chest. Eruption on thighs and insteps of small itching vesicles which tear easily and form superficial ulcers. Ulcers with sensitive edges, fetid discharge. Scabies. Tetters.

Stomach - Frequent belchings. Dull or constrictive pain at the precordial region.

Frequent forcible eructations in morning. Nausea. Distress in pit, with great debility.

Temperature - Shivering with sleepiness, followed by hot skin and restless night. Fever followed by coldness. Violent heat, in head, then over whole body. Increased general heat. Heat alternating with cold.

Throat - Dryness and heat in throat. Sore throat with constriction in morning on awaking. Pressing irritation of

the throat. Dull pain apparently all along the esophagus.

Throat - Rough sensation in larynx causes cough.

Vertigo - Vertigo, transient, when walking. Vertigo with insensibility of lower limbs. Sudden attacks, like shocks in head. Vertigo, precursor of apoplexy.

COMMENTS - Asterias powerfully affects the mind and head, producing symptoms strongly suggesting a stroke.

The face is red and there is strong congestion to the head, which is hot and feels as if surrounded by hot air. Certain forms of cerebral congestion with obstinate constipation. Electric shocks in the head. Nightly sharp pains in the breasts have led to its successful use in cases of breast cancer.

Teste noted that the malaise is worse by heat. Great desire for cold drinks. Coffee worsens all the symptoms and excites them anew several days after they have disappeared.

Breast cancer in the upper-left quadrant, which is the most frequent place to get breast cancer. Cancer of the left breast that has metastasized to the axillary glands of the armpit. Tumors of the nipple.

Characteristic severe lancinating pains which are worse at night. Sharp, darting pains. Bearing down pains. May complain of a sensation of the breast being drawn inward. Sharp pains that extend to the scapula. Severe, dull, aching pains in the breast. Pains can be related to hormones, can be worse premenstrually. Substernal pains.

Cancer pains, inflamed and swollen glands (Con.). Axillary glands are swollen, indurated and knotted.

Knotted in the left side of the neck. Pain extends down the left arm. Swollen breast, can have ulcerations.

The affected breast may develop a red spot that suppurates premenstrually. At times it will become inflamed and discharge with an offensive odor coming out.

For stroke patients, or threatened stroke or epilepsy (Bell., Glon.). They get a red, congested face and are excitable, apprehensive with fears.

Weeping ameliorates the mental state. Worse at night, cold, and motion. Desire cold drinks. Aggravated by coffee. They are very excitable, weepy, and fear something bad will happen, fear of getting bad news or misfortune (common symptoms of cancer patients).

RELATIONS-Antidotes: Plb., Zinc. **Antidoted by:** Plum., Zinc. **Compare:** (1) Care., Con., Carb-an., Ars., Cund., Murex. Sep., Astac., Homarus, Eryth., Crot., Grat., Gamb., Jatr., Thuj., Bell..Lil-t./b/fows we//: Bell..Carb-an.. Con., Sil., **Suiph.'Caic.Incompatible:** Coffee, Nux-v. (Ip. relieved after Nux-v. aggravated.) Teste includes Aster, in the Sulphur group of anti-psorics.

***ASTRAGALUS EXCAPUS

PHARMACY - astra-e. Astragalus excapus. N. O. Papilionoideae. Tincture of the fresh plant with flowers and seeds. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Migraine. Neuritis. Syphilis. Tabes.

HERBAL - Astra-e. is a leguminous plant which grows in the Canton of Valais. It is a small, herbaceous plant with a short stem and downy leaves. When mature, it has an oval fruit.

HOMEOPATHIC - There is no homeopathic symptomatology for this remedy. The symptoms which follow are from O. A. Julian's toxicology and clinical experimentation.

Alternation of mental and pulmonary complaints. Dyspnea and respiratory spasm. Falls easily and has tension disorders of the organs. Giddiness. Pressing pains in the temples, in the maxillary sinuses. Shooting pains above the right eyebrow. Painful sensation of fullness in the left temporal and maxillary regions.

General paralysis. Cerebral softening. Paretic weakness of the lower limbs. Incoordination of movements, walking difficult of an ataxic type. Paretic walk and pressing temple and maxillary pains. Neuritis of syphilitic type. Tertiary syphilis.

MIND - Unstable moods, excites quickly and loses his dash and assurances easily. Mental confusion in nervous subjects. Psychological state, sees as through a fog. Bewilderment, worse in the morning.

Chest - Weakness of the chest.

Constitutions - Psoric and allergic constitutions. Tubercular types. Nervous, uneasy types with depressive or obsessive tendencies.

Food - Anorexia. Emaciation.

Limbs - Sensation of formication on the right foot from the heel towards the toes. Icy coldness in the left calf. Tumors on the maxillary bones and jaw. Juvenile dystrophy and the bones. Multiple myelomata of the bones. Raynaud's syndrome. Arteritis.

Lungs - Difficulty in breathing, choking sensation, groping for breath. Asthma. Emphysema. Slow, difficult respiration and small or thick plugs of sputum. Rhonchi and bronchial wheezing.

Nose - Permanent head cold with watery, abundant flow, sometimes burning and excoriating. Sinusitis.

Stomach - Burning all along the esophagus. Empty feeling in the stomach with failing and debility. Crises of gastric tabes. Hiatus hernia.

RELATIONS - Compare: (1) Arg-m. - Paretic type with cramps, chronic laryngitis and pharyngitis. (2) Ars-i. - Chronic coryza inflammation of lymphatic glands and bronchitis, weakness and rapid emaciation. (3) Tuberculinum - Gradual emaciation, headache as though restricted by a headband, nasal and pharyngeal congestion, cough with thick, yellow sputum, sweating. (4) Syphilium - Obsessions, loss of memory, nightly aggravation, especially of the pains in the bones, coughing.

REFERENCES - Julian.

***ASTRAGALUS MENZIESII

PHARMACY - astra-me. Astragalus menziesii. N. O. Leguminosae. Papilionoideae. Tincture of leaves.

Historical dose: Tincture and all potencies.

CLINICAL - Emptiness, sensation. Facial bones, painful. Headache.

HOMEOPATHIC - After eating some of the green leaves of Astra-me., J. Selfridge experienced burning in his pharynx esophagus, and stomach. Fullness in right temple and right upper jaw, slight nausea with shivering and chilliness, dizziness and fullness of the head.

Astra-me. has weakness and sense of emptiness in stomach, eating relieved empty sensation, but not the weakness. Pressive pains in both temples, slight pain in left maxilla and aching in right maxilla with pressure in both bones.

REFERENCES - Boericke.

***ASTRAGALUS MOLLISSIMUS

(Purple Loco-Weed)

PHARMACY - astra-mo. Astragalus mollis- simus. Purple loco-weed. Woolly loco-weed. Loco-weed. Papilionoideae. **Historical dose:** Tincture and all potencies.

CLINICAL - Mania. Vision, weakness.

HOMEOPATHIC - Purple Loco-Weed causes irregularities in gait, paralytic disorders. Loss of muscular coordination.

Affects animals like the effects of alcohol, tobacco, and morphine in man. After acquiring a taste for the plant, the animals refuse every other kind of food. In the first stage, a period of hallucination or mania with defective eyesight during which the animal performs all sorts of antics.

Second stage brings emaciation, sunken eyeballs, lusterless hair and feeble movements. After a few months, the victim dies from starvation.

Head - Fullness in right temple and upper jaw. Pain over left eyebrow. Dizzy. Pressive pain in temples.

Face - Painful facial bones. Pain and pressure in maxillae.

Limbs - Purring sensation in right foot, outer side from heel to toe. Icy coldness of left calf.

Stomach - Weakness and emptiness. Burning in esophagus and stomach.

RELATIONS - Compare: (1) Aragallus Lam- berti - White Loco-Weed, Rattleweed, Bar-c., Oxytropis.

REFERENCES - Boericke.

***ATHAMANTHA CRETENSIS

PHARMACY - atha. Athamanta cretensis. Athamanta oreoselinum. Peucedanum oreoselinum. Grundheil" N. O. Umbelliferae. Tincture of fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Head, confused. Headache. Indigestion. Vertigo.

HOMEOPATHIC - Athamanta was proved by Franz and has produced some peculiar symptoms. There is a dull, befogged condition of brain, recalling Aethusa. A stupefaction and confusion rises like a vapor from the lower part of occiput, on motion and walking. Vertigo, better lying. Sleep heavy and profound, prolonged in the morning to later period than usual.

Pressur  and numbness of head and upper teeth. Pressure on one eyeball from below upward. Bitter taste and bitter mucus in air passages. Icy coldness of feet and hands.

RELATIONS - Compare: (1) Umbelliferae, especially Aethusa.

REFERENCES - Boericke.

***ATISTA INDICA

(Ban Nimbu)

PHARMACY - atista. Atista indica. Ban Nimbu. Glycosmis pentaphylla. Correaroot. **Historical dose:** Tincture

and all potencies.

CLINICAL - Biliousness. Chill. Chlorosis. Colic. Cough. Dysentery. Fever. Jaundice. Rheumatism. Snake, bite. Spasms. Tonsillitis. Worms.

HERBAL - Description: A small evergreen, glabrous, fragrant shrub. Flowers small white, fragrant in erect terminal or lateral pufo jscent. Fruit a berry, white pink or blue.

In the opinion of Ayurvedic physicians it causes rheumatism and is a useful medicine in bilious complaints, cough, worms, jaundice, fever and chlorosis. Lt. Col. R. N. Chopra in his Indigenous Drugs of India, has written that its "Root is used in snake-bite".

HOMEOPATHIC - Proving was done in March, 1997, by Dr. Kati Kumar Bhattacharjee, homeopath.

An excellent remedy in breaking and stopping fevers which appear on alternate days or on every third day with or without malarial infection.

MIND - Memory weak. Vigorless, indifferent mood.

Abdomen - Flatulence, colicky pain, griping pain round the navel. Unbearable pain in the umbilicus making the patient senseless. Biliary colic.

Face - Spasms of facial muscles.

Food - Canine hunger, aversions to liquid food and strong desire for lime juice.

Head - Gnawing pain in the temple generally on one side.

Limbs - Weakness in the muscles of the legs, legs' go to sleep' they seem to give way at every step; cramping while getting straight.

Male - Sexual desire almost nil. Erections at night without any lascivious talk prior to it.

Mouth - Dryness, unbearable thirst during hot stage.

Rectum - All sorts of worm complaints. All types of dysentery with colic felt at navel.

Sleep - Transient, unrefreshing sleep.

Throat - Tonsils swollen, pain and inflammation persist for a few weeks after the fever is over.

Temperature - Chill without thirst. Heat with intense thirst. Every alternate day, third day fever. Fever at 5 a.m.

REFERENCES - Desai.

*****ATRA-ROBUSTUS**

(Sidney Funnelweb Spider)

PHARMACY - atra-r. Atrax robustus. Sidney Funnelweb Spider. Australia. Arachnida. **Historical dose:** Tincture and all potencies.

CLINICAL - Earaches. Exophthalmic goiter. Glaucoma. Headaches. Insomnia. Mental exhaustion. Neuralgias. Tubercular states. Worms.

HOMEOPATHIC - Atra-r. is a venomous spider, a spinner mygale from Australia. Its bite produces a serious toxic syndrome, atraxism, which is characterized by a phase of excitement followed by a period of stupor and sleepiness with hypothermia. Death comes after a phase of intense agitation with salivary and lachrymal secretions.

Sankaran undertook the proving in 1969, at the suggestion of D. W. Everitt of London. There were four provers, of whom one acted as control. The potency used was 30c, at the rate of one daily dose for a month.

Gets up in the morning with a feeling of fatigue which then gradually disappears. Feeling of general exhaustion. Sensation of protrusion of the throat and eyes. Asthenia of the body. Drawing pain in the ears. Weakness of the lower limbs, predominantly on the left.

MIND - Mental exhaustion in the evening. Incapable of doing the least physical or intellectual exercise.

Abdomen - Pain around the umbilical region, starting in the morning. Pain worse after breakfast, from leaning backwards, walking, standing, improving with pressure, lying on the stomach or leaning forwards.

Ears - Drawing sensation in the outer ear as if pulled by a string. Impression of tugging behind the ears, passing from left to right.

Eyes - Eyelids stuck together in the morning. Pain below the left orbit when lying down. Heavy, yellowish-white secretion during the night. Eyeballs painful with feeling of protrusion, especially on the left side.

Face - Neuralgia of the face and under the orbits.

Kidneys - Urine slightly irritating. Frequent urination at night. Feeling in the bladder of not being empty after urination. Last drop hot and irritating.

Limbs - Sudden sensation of weakness in the limbs, especially the legs. Need to lie down and condition improved by continual pressure. Joint pains in the knees.

Lungs - Cough with thick, greenish sputum which comes up easily.

Modalities - Better from pressure, lying on the stomach. Worse from walking. Worse standing still. Worse leaning backwards.

Nose - Nasal discharge of thick, yellowish liquid, sometimes black and sticky.

Sleep - Insomnia until 1 a.m.

Throat - Feeling of obstruction in the throat, worse when lying on the back. Throat red, dry, painful, especially on the left side and when swallowing. Dryness of the throat not improved by drinking water, worse from drinking cold drinks. Feeling of protrusion of the thyroid cartilage.

Vertigo - Feeling of vertigo, lasting only a short while in the evening, around 7 p.m.

RELATIONS - Compare: (1) *Aranea Di adema* - Exhaustion with strong desire to go to bed. Icy cold feeling in the bones. Drilling pains in the heels. (2) *Spigelia* - Pains in the eyeballs, as if the eyes were too big for the sockets. Neuralgic pain starting at the back of the head, spreading to the frontal region and ending above the eye, especially the left side.

REFERENCES Julian.

***ATROPINUM PURUM

(Atropine)

PHARMACY - *atro. Atropinum purum aut sulphuricum. Atropine. N. O. Solanaceae.* Atropine is an alkaloid of *Belladonna*. The effects of the Sulphate of Atropine, the preparation most in use, are included. Solution.

Historical dose: Trituration and all potencies.

CLINICAL - Bedwetting. Blepharospasm. Convulsions. Epilepsy. Eyes, disorders. Gastric ulcer. Locomotor ataxia. Mania. Neuralgias. Pancreatitis. Peritonitis. Spinal irritation.

Stammering. Tetanus. Vision, disorders. Torticollis.

HOMEOPATHIC - Atropine, as the most active principle in *Belladonna*, produces most of the characteristic effects of that drug, but at the same time the two are not identical. Atropine has shown an affinity for the pancreas, which relates it to *Iod.*, *Kali-i.* and *Iris*. It can produce a hypersensitivity of the sensory nerves.

Numerous eye symptoms. All kinds of illusions of vision. Motes seen over every thing. All kinds of illusions of sight. Everything appears large (*Plat.*, opposite). On reading, words run together, double vision, all objects seem to be elongated.

Clarke once cured with *Atro.* a woman who had an appearance of shadows passing over whatever she looked at.

Difficulty of speech. Frequent stuttering. especially at difficult to pronounce words. Indistinct articulation, rapid and chattering.

Great dryness of throat, almost impossible to swallow. Chronic stomach disorders with great pain and vomiting of all food. Peritonitis. Hypochlorhydria, heartburn. Eustachian tube and tympanic congestion. Affinity for the pancreas. Hyperacidity of stomach. Paroxysm of gastric pain, ovarian neuralgia.

Mind - Sad and morose, preferring solitude and a dark room to society of friends. Fear of her condition being observed. Meddlesome. Mistakes in localities, in time. Rambling speech. Speech embarrassed, loud, slow, unintelligible in sleep. Wandering thoughts. Mirthful.

Frightful delirium. Delusions, sees frightful images. Delusions sees people in room at bedside. Delusions familiar things seem strange. Answers to imaginary questions. Refuses obstinately to swallow anything or to answer questions in any way than by a grunt.

Back - Constant burning in back. Large portion of spine so sensitive that she cried out on pressure. Painful affections from spinal irritation.

Chest - Burning under sternum.

Ears - Morbid sensitiveness to sounds and objects.

Eyes - Sharp neuralgic pains in and about eyes. Neuralgic pain. Eyelids heavy and difficult to keep open.

Corneal ulcers with spasmodic winking. Irritability of eye. Conjunctivitis with lachrymation. Dim vision with dilated pupils. Vertical diplopia, apparent object below real one.

Face - Deep red distorted face. Deathly pallor.

Female - Severe cutting or drawing pains, in left ovary, extorting screams, must bend double. Left ovary swollen and tender during menses. Puerperal convulsions.

Food - Appetite often considerable, sometimes absent. Thirst after vomiting.

Head - Periodical headache, coming on suddenly, increasing rapidly, until intensely severe. Dull pain in temples. Sticking pain in back of skull and over eyes, worse every motion, stepping. Severe headache beginning in occiput, passing over right side, locating over eyes. Headache with flushing of face and head. Headache with rush of blood to head. Sensation as if head were screwed up. Headache of epileptics. Headache with great weakness.

Kidneys - Congestive states of kidneys. **Chronic albuminuria.** Involuntary urination, but scanty discharge of urine.

Limbs - Throwing about limbs. Spasms worse when disturbed. Gouty affection of right wrist, with stiffness. Clenching of thumbs. Involuntary movements of hands towards head. Locomotor ataxia. Edema of legs.

Mouth - Pappy taste. Dryness of mouth and throat. Unability to speak from dryness of mouth, tongue nearly adherent to roof of mouth. Dryness of mouth after two hours suddenly gave way to a viscid, acrid secretion, very highly offensive odor.

Rectum - Diarrhea with constipation. During stool, felt badly weak, terribly nervous, with general sweat.

Sleep - Drowsiness with tendency to quiet dreams and delirium. Somnolence with nervous startings. Prolonged yawning. Restless sleep, sleeps only towards morning. Sleep much disturbed by gastric pains. Starting as if frightened on falling asleep.

Stomach - Constant burning under stomach. Constant retching and empty eructations, immediately after eating. Nausea with pressure at stomach. Vomiting of food. Fluttering in stomach. Vomiting seldom with nausea. Vomiting at times extremely violent. Stomach very sensitive to pressure.

Teeth - Grinding of teeth.

Throat - Burning from coughing. Dark red, husky hue. Difficult swallowing from great dryness. Voice husky. Dryness of larynx causes dry cough and difficult swallowing.

Tongue - Tongue seems partially paralyzed, speech indistinct, rapid and chattering. Tongue hard, parched and cracked. Tongue coated white.

Vertigo - Vertigo on rising in morning. Vertigo on turning head suddenly.

RELATIONS - *It antidotes:* Muscarine and Op. It is **Antidoted by:** Op. and Phys. **Compare:** Like Bell., it is a right-side medicine.

REFERENCES - Boericke. Clarice.

***AURUM ARSENICUM

(Gold Arsenate)

PHARMACY - aur-ar. Aurum arsenicum. Gold arsenate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Anemia. Anxiety. Aortitis. **Cancer.** Chlorosis. Depression. Headaches. Lupus. Syphilis. Tuberculosis.

HOMEOPATHIC - Aur-ar. was first used by Chrestien in cases of tuberculosis. Later it has been used by others in syphilis, especially chronic syphilitic headaches, chlorosis, anemia, **cancer**, chlorosis, lupus.

The first effect of the Aur-ar. is to cause rapid increase of appetite. The peristaltic contractions of stomach and intestines are excited and absorption accelerated. Blood, glands and bones are centers frequently involved.

MIND - The depression of Aurum metallicum and the anxiety of Arsenic are often present in cases needing this remedy. Weary of life,

wants to jump out of window. Averse to being spoken to. Always in a hurry and excited. Impatient and restless. Neglects his family and children. Fault-finding and critical.

Constitutions - Cancer based on the tuberculosis miasm or syphilitic constitution.

Eyes - Pupils contracted.

Face - Face hot with suffering expression.

Food - Increase of appetite. Aversion to food and meat. Desire for alcoholic stimulants. Desire cold drinks and milk.

Head - Chronic syphilitic headaches.

Lungs - Dyspnea, desire for open air. Tuberculosis.

Modalities - Better heat, warm bed. Better summer. Worse open air. Worse cold, wet weather. Worse mental and physical exertion.

Mouth - Breath offensive and putrid. Grinding of teeth at night.

Stomach - Bitter eructations.

REFERENCES - Clarke. Grimmer.

***AURUM BROMATUM

(Gold Bromide)

PHARMACY - aur-br. Aurum bromatum. Gold bromide. Trituration. This is an unproved salt of gold. **Historical dose:** Trituration and all potencies.

CLINICAL - Epilepsy. Headaches. Heart, disorders. Migraine. Neurasthenia. Night terrors. Sleepwalking.

HOMEOPATHIC - Aurum bromatum was recommended by Dr. E. M. Hale as being superior to other preparations of gold, especially in certain nervous disorders of an epileptiform character, such as migraine, night terrors, sleepwalking.

Valvular diseases of the heart and hypertrophy, attacks of faintness with coldness and feeble pulse alternating with attacks of congestion and red face with palpitations. In headaches with neurasthenia, megrim, night terrors, valvular diseases.

COMMENTS - Hale writes: "In the physiological hypertrophies of young persons at puberty, of pregnant women, and at the climacteric period, I prefer the bromide of gold in the 6x trituration. It will prevent the pathological hypertrophy which often threatens."

"Besides the class of disorders enumerated, this preparation of gold is very useful in reflex mental affections from uterine or ovarian irritation. I do not consider the suicidal despondency a necessary symptom. It is often indicated in just the opposite state when there is exalted sensitiveness, great mental exhilaration and unnatural gaiety."

REFERENCES - Clarke. Hale.

***AURUM IODATUM

(Gold Iodide)

PHARMACY - aur-i. Aurum iodatum. Gold iodide. **Historical dose:** Trituration and all potencies.

CLINICAL - Arteriosclerosis. Larynx spasm. Leucorrhea. Lupus. Myomata uterus. Osteitis. Ovarian, cysts. Ozaena. Palpitations. Pericarditis. Senile paresis. Syphilis. Thyroid, enlarged. Valvular, diseases.

HOMEOPATHIC - Aur-i. is another unproved gold salt brought forward by Hale and used by him with success in cases of chronic pericarditis, valvular diseases, arteriosclerosis, ozaena, lupus, osteitis, ovarian cysts, and myomata uterus. Senile paresis.

Obstruction of nose, thick, yellow, purulent, offensive discharge. Nostrils ulcerated. Strong desire for and feels better in open air. Constriction of chest. Tumultuous palpitations. Thyroid enlarged, right side, pulse rapid, eyes protrude. Ravenous appetite. Extreme thirst. Constipation. Aching in testes. Induration of uterus and ovaries. Leucorrhea with thick, yellow discharge.

MIND - Excited. Restlessness. Sensitive to noise. Aversion to company.

REFERENCES - Clarke. Hale.

***AURUM METALLICUM

(Gold Metal)

PHARMACY - aur. Aurum metallicum. Gold metal. Aurum foliatum. Foliatum colloidal. Gold, (Au, At. Wt. 1968). Trituration. **Historical dose:** Trituration, Tincture and all potencies.

CLINICAL-Alcoholism. Amenorrhea. Angina pectoris. Anthropophobia. **Arteriosclerosis.** Ascites. Asthma. Bone, disorders. Breath, offensive. Colic. **Depression.** Double, vision. Dropsy. Dyspnea. Ears, disorders. Erysipelas. Exostosis. Eye, disorders. Fatigue. Flatus. Fevers. Glaucoma. Gonorrhea. **Grief.** Headaches. **Heart, disease.** Hemorrhages. Hemorrhoids. Hemiopia. Hepatitis. **Hopelessness.** Hydrocele. **Hypertension.** **Infertility.** Inguinal, **hernia.** **Insomnia.** Jaundice. Leucorrhea. Lipoma. Locomotor ataxia. Melanosis. Mercurial poisoning. Miscarriages. Nasopharyngeal catarrh. Night terrors. Obesity. **Orchitis.** **Otorrhea.** Ozaena. Palpitations. Paralysis. **Photophobia.** Pining, boys. Pustules. Scrofula. Smell, disordered. **Suicidal, depression.** **Syphilis.** Testicles, affections. Tongue, nodules. Tuberculosis. Tumors. Uterus, disorders. Vaginismus. Vertigo. Vision, disordered. Warts. Weakness.

HOMEOPATHIC - Sol of the Alchemists. This use of gold as an anti-venereal and anti- scrofulous remedy is very ancient, but has been forgotten until rediscovered by homeopathy.

Gold profoundly affects the entire organism, exercising a solvent action on the tissues, producing ulcerations and the disappearances of new growths. It is one of the best antidotes to mercurial over-dosing and especially in cases of syphilis. Scrofula and bone decay. Produces rushes of blood and hemorrhages. **"Worse from sunset to sunrise."**

Ulcers which attack the bones. Warts, scrofulous, syphilitic, mercurial. Exostosis, decay, nightly bone pains, especially cranial, nasal and palatine. Glands swollen in scrofulous subjects. Palpitations and congestions. Frequently indicated in secondary syphilis and for the effects of mercury.

Ascites often in conjunction with heart disorders. Ozaena. Sexual hypersensitivity. **Arteriosclerosis.** High blood pressure. Nightly paroxysms of pain behind sternum. Sclerosis of liver, arterial system, brain.

Shelton has recorded effects on girls working with gold leaf, including the occurrence of a "thick leucorrheal discharge, not offensive, white or yellowish, occasionally profuse invariably worse by walking."

MIND - Mental states of great depression. No remedy produces more **acute mental depression** than Aurum met. There is a condition of **melancholy, hopelessness and profound depression.** Acute depression. Future looks dark. Hopelessness with heart disease. Want of self-confidence and thinks others have none which makes her unhappy.

Complaints after grief, fright, anger, disappointed love, contradiction, reserved displeasure. Ailments from unusual responsibilities. Duty-bound. Workaholic, industrious, always busy and working, never finished. **Grief and depression.** Financial loss. **Hopelessness.** Aggravation from strong emotions. **Forsaken feeling.** Sadness when alone. Homesickness.

Despondent and great desire to commit suicide. Profound despondency, with increased blood pressure. Loss of love of life. **Disgust of life and thoughts of suicide.** Despair from pain, wants to jump out of window. **Talks of committing suicide.** Every opportunity is sought for self-destruction. **Tendency to suicide and longing for death.**

Mental derangements. Weak memory. Melancholy, imagines he is unfit for this world, never can succeed. She does everything wrong. Thinks had neglected something, her friends, her duty. Pining boys, low spirited, lifeless, weak memory. Self-reproach, self-criticism. Feeling of selfcondemnation and utter worthlessness. Peevish and vehement at least contradiction. ateful and quarrelsome. Dictatorial. Grumbling. **Boredom.** Indisposed to talk. Vexed mood. Enraged by least contradiction. **Oversensitive to contradiction,** resulting in explosive fits of anger and violence. Anger at absent persons. Hatred of persons who had offended. Trembling when he can't

Aurum metallicum satisfy his anger.

Changing moods. Brooding melancholy, alternating with irritability and moroseness. Excitement and confusion. Hysteria, laughs and cries alternately. Weeping when meeting people. Weeping, because he imagines he has lost the affection of his friends.

Anthrophobia. Great fear of death. Fears the least noise. Fear of persons intruding. Frightened easily on falling asleep.

Oversensitive to pain, to smell, taste, hearing and touch. **Hypersensitive to noise,** causes excitement, confusion. Excitement about absent persons during pain. Loquacity. Constant rapid questioning without waiting for reply. Rapid questioning without waiting for a reply. Speaks continually in questions. Cannot do things fast enough.

Delirium with exaltation of strength. Religious mania, imagines herself irretrievably lost. Violent hysteria, with desperate actions, thrashes oneself about. **Weeping, praying and self-reproaching.** Delusion has neglected his duty and deserves réproach. Imagines to see obstacles in his way everywhere. Wrings the hands.

Abdomen - Ascites with heart disorders.

Colic, with sensation of great uneasiness and inclination to evacuate. Incarcerated flatus. Abdomen inflated. Grumbling and rumbling. Right hypochondrium hot and painful. Swelling and suppuration of inguinal glands. Inguinal hernia of children. Tendency of hernia to protrude. Swelling and suppuration of the inguinal glands. Frequent gas, very fetid wind.

Back - Stinging pains in small of back. As if lower spine bulged backwards. Lumbar muscles painfully stiff, thigh cannot be raised. Swollen cervical glands like knotted cord. Tension in neck as if muscles too short, even at rest, worse stooping. Pains, drawing and acute, in the back and sometimes so violent as to prevent any motion of the limbs.

Bones - Destruction of bones like secondary syphilis. Pain in bones of head, lumps under scalp, exostosis with nightly pains in bones. Decay of nasal, palatine and mastoid bones. Soreness of affected bones, better in open air, worse at night.

Causations - Ill effects of grief, fright, anger, disappointed love, contradiction, reserved displeasure. Prolonged anxiety, unusual responsibility. Loss of property.

Chest - Aching in left side of the chest. Crushing weight under sternum, worse ascending. Stitches in the sternum. Constrictive oppression of the chest. Pain, as if there were a plug placed under the ribs. Much congestion in the chest. Oppression of chest with faceache. Inflammatory swelling of axillary glands.

Constitutions - Suited to sanguine people with black hair and dark eyes, olive-brown complexion. Syphilitic and mercurial patients. When syphilis is implanted on the scrofulous constitution.

Constitutions - It is adapted to nervous, hysterical women, girls at puberty. Also light-haired scrofulous persons. Pining boys and old age. Old people with heart disease. Persons who are low-spirited, lifeless, weak memory, yet sensitive to pain, which drives them to despair.

Cough - Cough from want of breath at night. Cough with tough yellow sputum on awaking in morning. Dry, nervous spasmodic cough, peculiar to women from sunset to sunrise. Cough from want of breath, at night.

Ears - Congestion to ears. Burning, prickling, itching. Decay of the mastoid process. **Obstinate fetid otorrhea** after scarlatina. Flow of fetid pus from the ears. External meatus bathed in pus. Labyrinthine disease due to syphilis. Menière's disease. Nerve deafness with embarrassed speech. Oversensitive to noise, but better music. Hardness of hearing with embarrassed speech. Humming, buzzing and rushing in the ears. Roaring in the ears.

Eyes - Orbits feel sore. Feels tense. Violent pains in bones around eye (Asaf.). Intestinal keratitis. **Vascular cornea**. Pains from without inward. **Sticking pains inward**. Trachoma with pannus. Glaucoma. **Extreme photophobia**. Constant lachrymation. Styas. Eyes better moonlight and after active muscular exercise.

Face - Anxious expression. Inflammation of the bones of the face. Congested, bluish-red. Face puffed, and shining as if from sweat. Tearing in zygoma. Mastoid and other facial bones inflamed. Red eruption, which peels off, on the forehead and on the nose. Painful swelling of the submaxillary glands. Parotids swollen, painful to touch. Swelling of the cheeks.

Female - Amenorrhea with great sadness. Delayed menarche. Menses too late, and scanty or absent. Before menses, swelling of axillary glands. Uterine troubles worse reaching high with arms. Uterus enlarged and prolapsed. Induration and ulceration of the womb from repeated miscarriages. **Uterine disorders with depression**. Prolapsus uterus with heaviness in abdomen. Prolapsus uterus, with backache, worse during menses. Vaginismus. Great sensitiveness of vagina. Burning-smarting of vulva. Labia majora red, swollen. Leucorrhea profuse and corroding. Leu- corrhea yellow, thick white, not offensive. Leucorrhea, worse walking. **Infertility**, also of those women who are mentally depressed on account of their barrenness. Depression during pregnancy. Despair from labor pains. Labor pains make her desperate. Suppressed breast-milk.

Food - Loathing of food. Bulimia. Loss of appetite in pining boys. Appetite and thirst increased with qualmsiness. Excessive hunger and thirst. Aversion to meat. Craves nothing but sour things. Desire for milk and coffee. Desire for alcohol, wine. Desire bread, delicacies such as pastries. Water tastes foul. Worse after drinking. Worse after wine.

Head - Rush of blood to head. **Violent pain in head, worse during the night**, outward pressure, causing confusion. Roaring in head. Vertigo. Tearing through brain to forehead. Pain in bones extending to face. Congestion to head. Head hot, full. Headache of students with precordial anxiety and flushes of heat to the head. As if air passed over the brain. Exostosis with boring pain. Lumps under scalp. Baldness from syphilis. Boils on scalp.

Heart - Angina Pectoris. Oppression at the heart. **High blood pressure**. Carotids and temporal arteries throb visibly. Valvular

lesions of arteriosclerosis. Heart feels loose on walking. Palpitations compels him to stop. Violent palpitation, at puberty. **Sensation as if heart stopped beating** for two or three seconds, immediately followed by tumultuous rebound with sinking at the epigastrium. **Palpitations with rush of blood to chest**. Heart bruised, sore worse suppressed foot sweat. Aortic disease. Fatty degeneration of heart. Hypertrophy. Endocarditis. Carotids and temporal arteries throb visibly. **Pulse rapid, feeble, irregular**. Pulse small but accelerated.

Kidneys - Nephritis with cardiac and hepatic diseases. Painful retention of urine with urgent inclination to urinate. Pressure on the bladder. Constant urging. Urine turbid, like buttermilk. Urine scanty, greenish- brown. Urine with thick mucus-like sediment. Frequent emission of watery urine. Hematuria. Urine increased, pale.

Limbs - Holds the left arm during attack of palpitations. Nightly leg pains. All the blood seems to rush from head to lower limbs. Dropsy of lower limbs. Orgasm, as if blood were boiling in all veins. Paralytic, tearing pains in joints. Knees weak. Pains in both the knees as if tightly bandaged. Paralytic feeling in legs. Nails turn blue. Trembling feet. Hot bruised soles, at night. Cold foul foot sweat.

Liver - Liver region hot and painful. Hepatitis. Liver with heart symptoms. Jaundice of pregnancy.

Lungs - Asthma, from congestion to chest. Cardiac asthma with weak pulse, mental depression and great debility. Asthma worse open air. Suffocative attacks, with spasmodic constriction of chest. Dyspnea worse laughing, at night. Always takes a deep breath and cannot get enough air. Frequent, deep breathing, stitches in sternum. Accumulation of mucus in the trachea, which is expectorated with difficulty. Tough yellow mucus, on awaking in morning.

Male - **Pain and swelling of testicles**. Chronic induration of testicles. **Atrophy of testicles in boys**. Undeveloped testes. Itching of scrotum. Hydrocele of children.

Orchitis. Chronic induration of testicles. Epididymitis. Sarcocoele. Flow of prostatic fluid, with flaccidity of the penis. Bubo. Chancre. Condylomata around corona glandis. Violent erections. Sexual desire greatly increased. Nocturnal erections and pollutions. Ulcers on scrotum.

Modalities - Better from cool, open air. Better cold bathing. Better becoming warm. Better music. Better walking. Better moonlight. Worse from emotions, depressing affections. Worse mental exertion. Worse in cold weather. Worse when getting cold. **Worse cloudy weather, winter**. Worse at night. **Worse sunset to sunrise**. Worse mercury, alcohol, iodide.

Mouth - Aphthae on mouth. Copious saliva. Saliva sweetish. Fetid smell of the mouth, like rotten cheese. Foul breath in girls at puberty. Taste putrid or bitter. Metallic taste. Milky or sweetish taste, foul even to water. Ulceration of gums. Ulcers on palate. Inside of mouth blistered. Gums swollen, dark red, bleeding. ■

Nose - Nose red and swollen. Inflammation of nose. Decay with fetid discharge, purulent, bloody. Red, knobby

tip of nose. Ozaena. Snubbed. **Ulcerated, painful**, swollen, obstructed. Boring pains in nose, worse at night. **Horrible odor** from nose and mouth. Putrid smell from nose. Fetid discharge, purulent, bloody. Complaints from strong odors. Sensitive smell (Carb-ac.).

Perspiration - Cold sweat and damp all over. Sweat about genitals. Copious general perspiration. Early morning sweats, mostly about genitals. Profuse sweat in endocarditis.

Rectum - Fetid flatus. Constipation, stool very large in size, or very hard and knotty. Constipation better during menses. Copious stool. Offensive stool during pregnancy. Stools offensive, painful, greyish, ashy. Diarrhea alternating with constipation. Nightly diarrhea with burning in the rectum. Hemorrhoids with rectal catarrh. Hemorrhoids bleed during stool. Prolapse of rectum during menses. Warts around the anus.

Skin - Acne. Large red pimples. Lipoma.

Violent itching. Indurations under the skin, like wheals. Pustules in the face and on the neck and chest. Formication, here and there, over the body. Transient but intense itching of the abdomen, hips, knees, arms and wrists. Fine papular eruption on face. Deep ulcers. Warts.

Sleep - Weary, but cannot rest or sleep. Sleeplessness after midnight. **Chronic insomnia with depression**. Nocturnal mumbling in the form of questions. Sobs aloud in sleep. **Moaning and crying out in sleep**. Sobs aloud in sleep. Disturbed by sexual excitement. Drowsiness after meals. **Awakened by bone pains with despair**. Unrefreshing sleep.

Sleep - Fatigue and weakness in the morning on waking. Vivid, frightful dreams. Frightful dreams. Restless sleep, with anxious dreams. Dreams of thieves. Dreams of dead, death and corpses. Dreams towards morning.

Stomach - Swelling of epigastrium. Burning at stomach and hot belchings. Burning, drawing, and cutting pain, pressure. Pain in the stomach, as if from hunger. Uneasiness in the epigastrium. Stinging pain when touching stomach. Nausea from mental labor. Sour eructations.

Teeth - Decay of teeth. Toothache, with heat and congestion in the head. Looseness of the teeth. Sensation as if too long. Ulcers in the gums, with swelling of the cheeks. Toothache worse at night, worse drawing cold air into mouth. Gums swollen, dark red, bleeding.

Temperature - Painfully sensitive to cold, shivering in bed. Febrile chills over the whole body, while in bed in the evening. Coldness of the entire body, with bluish color of the nails, nauseous taste, with inclination to vomit. Heat of the face, with cold in the hands and feet.

Throat - Voice nasal. Stitches when swallowing, pain in glands. Decay of the palate. Drinks come through nose. Stinging in throat when swallowing. Tonsils swollen and ulcerated. Red and swollen tonsils.

Tongue - Aphthae on tongue. Tongue swollen, with scirrhus-like hardness. Flabby taste with clean tongue. Tongue trembling

and dry. Tongue leathery, hard. Tongue dry and coated. Tongue coated at back. Ulcers on tongue. Warts on tongue.

Vertigo - Stupefaction during vertigo. Vertigo when stooping. Vertigo as if turning in a circle, better on rising. Vertigo as if drunk when walking in open air, feels as if he would fall to left, must lie down.

Vision - Double vision. **Hemiopia, upper half of objects invisible**. Hemiopia from straining eyes. Yellow crescent bodies floating obliquely upward. Sees fiery objects. Sees fog or smoke before eyes. Everything looks blue. Black spots, flames, sparks before the eyes. Irregular pupils. Optical illusions in bright colors.

COMMENTS - Boring pains and burning stitches predominate. The head is giddy, full, hot. Rush of blood to the head. Vertigo as if turning in a circle when stooping, goes away on rising. As if drunk when walking in the open air. Sensation as if a current of air were rushing through the head if not kept warm. Bones of skull painful, especially lying down.

Vertical half-sight. Fiery sparks. Decay of mastoid process of bones of nose. Ozaena. In the abdominal region there is swelling of liver, jaundice (Merc.). Hernia inguinal or umbilical and in children. Onanism.

The sexual organs are markedly affected. Induration of testes. Undeveloped testicles in puny boys. Swelling or neuralgia of testicle. Uterus prolapsed and indurated, the weight of it causes prolapses. The chloride of gold and sodium acts more powerfully in these conditions.

Suffocative attacks with oppression of chest. Anxious palpitations from congestion to the chest. Palpitation with anguish and tremulous fearfulness. Pain in heart region extending down left arm to fingers. Boring pains in bones, worse at night.

Hysterical spasms with laughing and crying alternately. Hypersensitive to all pains. Great ebullitions with congestion to the head and chest and palpitation of the heart.

Frightful dreams, sobs aloud when asleep. Chilliness predominates, shivering in open air, coldness of hands and feet, sometimes lasting all night. Heat, only in the face.

Perspiration in the morning hours, mostly on and around the genitals. Paralytic drawing in the limbs in the morning when awaking and on getting cold.

Severe heart disease, arteriosclerosis, cerebral arteriosclerosis, high blood pressure, with depression. Sensation of the heart not beating or getting heart pains or that it is beating too fast. Fear of heart disease. Also for arthritis or for the ill effects of gold shots. Tennis elbow. Sinus infections, breaking down in nasal septum. Late stage syphilis. Chronic, severe, unrelenting insomnia that no medication can help. Hair falls out. Suicidal depression or severe depression with no hope of recovery. Giving Aurum is giving a ray of hope back, that the actual remedy is like potentized light, because in their life there's no light or hope.

May have history of attempted suicide from financial loss, from the loss of money and property, loss of love. Manic depression. Suicidal tendencies from pain. Kent describes losing the will to live as the deepest illness one can have

Religious mania with deep guilt (Nairn.). Depression after death of a loved one. Over investment, possessiveness followed by loss. Over responsible, strong sense of duty and loyalty.

Keynote insomnia, drives a person crazy, particularly in the elderly. Geriatric remedy for people who feel they've lost their purpose or value in life, but act stoic. "Hippocratic countenance," as if their face was chiseled out of stone. Flat tone to voice, can have lack of emotion but with a happy façade.

Pathologically independent and can have difficulty expressing themselves. Resigned to depression. Introverted. Kent gave the etiologies as prolonged anxiety, grief, and unusual responsibilities that were heaped on someone and they failed. Financial loss, abuse of mercury as a medicine, or a history of suppressed syphilis.

Craves sunshine, finds dull, cloudy days unbearable. Depressed, dejected, tired of life, discontented.

Depression worse at night. Deep self-con-

demnation, guilt complex, easily frightened, feels worthless. Restless, hurried, fidgety.

Quarrelsome, may have wild outbursts of rage followed by remorse, worse contradiction. Sensitive to pain and cold. Chilly, likes to be wrapped up but may still like fresh air. Worse from sunset to sunrise. May have a history of syphilis, especially if there is bone pain. Worse grief or emotional stress.

RELATIONS - Antidoted by: Bell., Chin., Cocc., Coff., Cupr., Merc., Puls., Spig., Soln. **Antidote to:** Merc., Spig., Chronic effects of alcohol, Kah-i. **Compare:** (1) Aur-ars. ***AURUM MURIATICUM

(Gold Chloride)

PHARMACY - aur-m. Aurum muriaticum. Gold chloride. **Historical dose:** Trituration, Tincture and all potencies.

CLINICAL - Albuminuria. Amaurosis. Angina pectoris. Anus, fistula. Asthma. Brachial neuritis. Bubo. **Cancer.** Decay. Condylomata. Dropsy. Eczema. Fistula. Gland, disorders. Gonorrhea. Hair, loss. Heart, disorders. Hemorrhage. Hemorrhoids Indurations. Infertility. Leucorrhea. Liver, disorders. Morvan's disease. Multiple sclerosis. Ophthalmia. Ozaena. Periostitis. Pudenda, over-sensitiveness. Spinal, sclerosis. Spleen, enlarged. Syphilis. Tuberculosis. Uterus, tumors, Uterus, hemorrhage. Vaginitis. Voice,, hoarse. **Warts.**

HOMEOPATHIC - Gold salts, like mercury salts, dissolve organic tissues, they stimulate the heart more, but act on fluid tissues less powerfully than mercury. This salt has been proved.

The symptoms are mostly identical with 'hose of the metal, but some are peculiar

or more pronounced in the one than in the other. The Muriatic element is seen in the heart symptoms, violent palpitations, sore aching, heaviness and sensation of rigidity in heart, hyperemia from heart disease.

Aurum muriaticum is a sycotic remedy, causing suppressed discharges to reappear. Marked catarrhal and glandular disorders. Burning, yellow, acrid leucorrhea. Heart symptoms, glandular affection. Warts appear on various parts on tongue, genitals. Sclerotic and exudative degeneration of the nervous system.

Indescribable weariness in whole body. Sclerotic and exudative degenerations of nervous system. Hypertrophy of all the fingers. Drawing pains in various parts, especially the limbs.

Multiple sclerosis, pains and tremors, it will often help in sclerotic and exudative degenerations. Valuable in menopausal hemorrhages from the womb. Diseases of frontal sinus. Stitching pain in left side of forehead. Weariness, aversion to all work. Drawing feeling in stomach.

MIND - Great depression of mind. **Suicidal disposition**, with frequent weeping. Tired of life. Everything is disagreeable, dreary, even nature around. Sadness, as when homesick. Sad, as if a great misfortune

impended. Aversion to weeping. Ailments after mortification. Laziness, aversion to all work. Desires company. Irritable without cause.

Great restlessness, changes his position every moment. Restlessness, nervousness better open air. Great anxiety with palpitations. Full of whims and notions. Delusion that he has every disease. If left alone thinks of nothing but of one's ailments and becomes more out of humor. Anger when thinking of his ailments. Starting from sleep, on waking as if suffocated.

Abdomen - Distension of abdomen. Redness, heat, itching and biting at umbilicus. Spleen enlarged. Abdomen sensitive to touch. Swollen abdomen. Ascites. Stiffness in region of groins. Swelling of inguinal glands.

Back - Tension in dorsal vertebrae. Dull drawing pain in neck while sitting. Burning, pricking, cutting pains and stiffness

in back. Very severe backache.

Causations - Ill effects of chagrin, fright, vexation.

Chest - Anxious contraction of chest. Pressure under sternum. Pleuritic pains left side of chest, changing place.

Constitutions - In this remedy the sycotic miasm unites with the syphilitic and psoric miasms to produce constitutions that are feeble and prone to degenerative diseases. Suited to the lymphatic, scrofulous constitutions.

Cough - Short, dry cough, in paroxysms. Frequent hard cough, with white sputa mingled with threads of blood. Frequent, loud sounding cough. Loose, with thick yellow sputum.

Ears - Burning and itching behind ears worse night. Tinkling sound in ears followed by deafness, as if interior of ears were large and empty. Buzzing in left ear and sensitivity. Ringing and roaring in ears. Music relieves. Redness of ears. Scurf behind ears.

Eyes - Sudden blindness after childbirth. Neuralgic pains in left eye. Scrofulous phlyctenular ophthalmia. Chronic inflammation of margins of lids. Fistula lachrymalis. Burning, pricking, itching and tickling in eyes and lids. Red sclerotics. Burning heat and prickling. Lachrymation. Difficulty in keeping eyes shut. Lids agglutinated in morning. Chronic inflammation of edges of eyelids.

Face - Acne rosacea. Red face. Pale face with red spots. Hair falling out of eyebrows and head. Exostosis of right cheekbone. Induration of lips. Burning like pepper on lips. Cancerous ulcers on lips. Painful swelling of maxillary glands.

Female - Amenorrhea. **Suppressed menses**. Menses too early and profuse, blood acrid, excoriating. **Painful induration of os uteri**. Metritis. **Gonorrheal discharge with swelling of both groins**. Hemorrhage from the uterus at menopausal. Constant discharges from vulva. Burning stitching of vulva. Heat and itching in vagina. Leucorrhea, light yellow, especially mornings. **Vaginitis**. Leucorrhea and red pustules on labia before menses. Leucorrhea acrid.

excoriating thighs with itching of genitals. Gonorrheal discharge with swellings in each groin.

Food - Slow digestion. Appetite increased or lost. Thirst. Disgust for sweetened coffee. Coffee, tea, wine aggravates.

Head - Head hot, limbs cool. Cold sensation on vertex. Dullness in head. Drawing pain in forehead. Constant burning in whole head. Burning in forehead. Throbbing pains in left temple. Tearing pain in bones of skull. Head feels insensible. Pressure on brain, along sagittal suture. Congestion increasing to delirium. Tickling itching on forehead. Falling out of hair, eyebrows and beard.

Heart-Angina pectoris. Sharp pains above the heart. Palpitations with anxiety, worse emotions. Palpitation when thinking about his diseases. Heartbeats increased, too strong. Rheumatic endocarditis. Irregular heartbeats with severe constriction of chest.

Kidneys - Burning on urinating. Urine feels as if too hot. Incontinence of urine. Tenesmus of bladder. Kidney pain with pale, clear urine. Burning, tickling and heat in urethra. Scanty urine. Turbid urine with brick-red sediment.

Limbs - Morvan's disease, hypertrophy of fingers. Swelling of the wrists with tension on reversing the hand and lacerations in grasping an object, tearing pains in middle finger after meals. Legs swollen and very tender along inside of tibia. Exostosis. Periostitis after typhoid.

Liver - Induration of liver with dropsy.

Lungs - Loud cough with thick yellow expectoration. Asthma worse at night. Impeded breathing, from pressure on chest. Difficult breathing, from stagnation of blood. Suffocation at night.

Male - Diminished virility. Increased desire. Exhausting erections. Violent itching of glans penis wakes him at night. Drawing along spermatic cord. Painful drawing in left testis extends towards inguinal ring, recurring by paroxysms. Chancres. Condylomata. **Syphilitic gonorrhea**. Excrescences from glans up to sacrum. Warts on prepuce.

Modalities - Better from cold washing, weather. Better gentle motion. Worse from ascending stairs. Worse from warmth, throws off bed-covers.

Mouth - Dryness of mouth. Increased saliva, frequent desire to swallow. Metallic taste. Mouth filled with aphthae. Flat, bad taste. Taste entirely lost. Burning itching and biting in mouth.

Nose - Offensive, watery discharge, irritating upper lip. Pressing pain in nose. Ozaena scrofulosa. Tirigling, burning and itching in nose. Redness and inflammation with itching. Red swelling with ulcerated nostrils. Dry yellow crusts. Sensation of stoppage. Deep crack in alae nasi. Sudden running of pus from nose. Blowing of blood from nose. Snuffles. Nostrils stuffed up with hard crusts.

Perspiration - Copious sweats, offensive smell. Copious sweats, cold. Promotes - sweat in smallpox.

Rectum - Obstinate constipation. Hemorrhoids, bleeding during stool. Condylomata at anus. Excoriation at anus and between thighs. Fistula. Diarrhea after eating. Diarrhea, worse night after eating with pain in bowels. Frequent fluid stools. Stools, greyish-white, yellow, watery.

Sleep - Yawning after eating. Sleepy by day, even at work. Comatose sleep. Sleeplessness from excitement. Sleeplessness from palpitations. Frequent starting. Dreams with sadness. Tormenting dreams.

Stomach - Gastritis. Putrid eructations and nausea. Hot feeling in stomach. Cramps. Burning, cutting, stitching in stomach, cramps. Nausea, distension. Fullness of stomach, after eating. Nausea, worse fasting, better after breakfast. Painful drawing in pit worse eating, drinking. Vomiting of a green fluid.

Temperature - Violent chill and fever. Hectic fever, with dropsy, after scarlatina.

Teeth - Looseness of teeth. Front teeth sensitive. Dental fistula. Toothache with thrilling pains. Great tenderness of gums with salivation. Gums inflamed or white, bluish.

Throat - Scraping and pricking in throat. Hoarseness, speaking difficult. Dyspnea, sensation in larynx as if closed. Laryngeal disorders in syphilis and mercurio-syphilis. Frequent desire to swallow, feeling of a plug in throat. Suppurating ulcer on tonsil.

Tongue - Redness, dryness and excoriation of tongue. Cancer of the tongue. Tongue hard as leather, hardly movable. Indurated tongue, warts, cancer, ulcers. Induration after glossitis. Yellow coated tongue. Warts on tongue.

Vertigo - Vertigo as if walking in air.

Vision - Slow accommodation for near or far objects. Sudden blindness in childhood. Sudden blindness after scarlatina. Pupils don't react to light. Letters disappear in evening when reading at candlelight. Paper seems white, as if not printed upon.

COMMENTS - Grimmer said that the patient needing this medicine is sensitive to heat and relieved in wet weather, he is as restless as Arsenicum and as depressed as Aurum. **Cancerous warts** on the tongue and genitals have been cured with this medicine.

Aur-m. is particularly valuable in hemorrhages from the womb at menopausal and after, which are frequently of syctic origin. Violent chill and fever. Hectic fever. Sensitive to heat and relieved in wet weather, restless (Ars.).

Depressed (Aur.), with suicidal conflict. Will discuss and plan suicide, but fear of it. Both "desires death" and "loathing of life." Boericke noted this conflict, similar to Nat-s., but with Nat-s. they are constantly trying to restrain themselves. For Aur-m., the plans content them, a wonderful secret that they can rely on.

Catarrhal and glandular disorders are marked. Warts appear in various parts, on the tongue, on the genitals. Digestion is slow. Diarrhea after eating.

A syctic remedy, causing suppressed discharges to reappear.

Halbert gave Aur-m. 2x with much success in cases of sclerotic and exudative degeneration of the nervous system. He narrated a case of disseminated sclerosis, the result of a fall, one of exudative localized meningitis and one of Morvan's disease greatly improved under its use.

This patient, a male cook, had hypertrophy of all the fingers. In some of them this had progressed until the painless whitlows appeared.

Analgesia and anesthesia were present and some atrophy of the muscles of the hand and arm. Brachial neuritis appeared to be the causative factor in the case. Remarkable improvement occurred under Aur-m. 2x.

RELATIONS - Antidoted by: Bell., Cann-i., Merc. Sulphur springs are incompatible. **Compare:** (1) Aeon., Am-c., Arg-m., Arg-n., Ars., Aurum met. Bell., Cann-i., Ferr., Glon., Hecla., Lyc., Merc., Nit-ac., Phos., Plat., Sil., Sulph.

***AURUM MURIATICUM KALINATUM

(Potassium Chloroaurate)

PHARMACY - aur-m-k. Aurum muriaticum kalinatum. Potassium chloroaurate. Double Chloride of Potassium

and Gold. **Historical dose:** Trituration and all potencies.

CLINICAL - Uterus, hemorrhage induration.

HOMEOPATHIC - An unproved gold salt, recommended by Dr. Burford and others as the best preparation of gold in cases of uterine induration and hemorrhage.

RELATIONS - Compare: (1) Aur-m-n., Hydrin-m.

REFERENCES-Clarke.

***AURUM MUR. NATRONATUM

(Sodium Chloroaurate)

PHARMACY - aur-m-n. Aurum muriaticum natronatum. Sodium chloroaurate. Double Chloride of Gold and Sodium. **Historical dose:** Trituration and all potencies.

CLINICAL - Amaurosis. Amenorrhea. Arteriosclerosis. Ascites. Bright's disease. Bubo. Cancer. Cervicitis. Chancres. Cirrhosis. Dyspepsia. Erysipelas. **Gastroenteritis. Fibroids.** Hemorrhoids. Hair, loss. Headaches. Hectic fever. Hypertension. **Indurations.** Infertility. **Jaundice.** Leucorrhea. Miscarriage. Nephritis. Ovarian, tumors. Prolapsed, uterus. Psoriasis, syphilitica. Rhinoscleroma.

Scrofula. Sycosis. Syphilis. Syphilitic, ataxia. Tongue, disorders. Tuberculosis. **Tumors.** Ulcers. **Uterus, indurations. Uterus, tumors.** Warts.

HOMEOPATHIC - This double salt of sodium and chloride of gold shows more of the syphilitic miasm present, carcinoma on a syphilitic base. Burnett stated that Aur-m-n. has more power over **uterine tumors** than any other remedy.

Anshutz wrote, "Never have I observed gold so startling in its action as in the following case: The patient is a type of the scrofulous habit, reddish hair, pasty complexion, thick nose, coarse features.

"About thirty years of age. He has had the misfortune of being infected by syphilis and the still greater ill-luck of being treated by mercury and iodine to excess. All these circumstances conjoined helped to produce a complication of morbid conditions which would put medical art to a severe test."

A case of rhinoscleroma was reported cured by Aur-m-n. in 5x by Kranz-Busch. Old cases of rheumatism or gouty pains. Scrofula. Burnett considered it to have more power over uterine tumors than any other gold preparation. Aur-m-n. has been proved, but it has been chiefly used on general Aurum indications.

Aur-m-n. has **induration** of one part, softening of another. This remedy has a pronounced effect on the female organs. **Fibroids of uterus.** Enormous induration of an ovary. Cancer of breast and uterus. Cancerous warts on tongue. Corrosive leucorrhea, pustules on genitals.

Arteriosclerosis. High blood pressure due to disturbed functions of the nervous system. Warts on tongue. White stools with jaundice. Swelling of testicle. Bright's disease. Old cases of rheumatism and gouty pains. Hepatic cirrhosis. Interstitial nephritis.

Affections of the bones and glands. Boring pains are very marked in the pathogenesis of this salt, over left eye, skull, chest, tibia and bones generally. Periosteal swelling on lower jaw. Psoriasis syphilitica. Chancres, ulcers, warts. Bubo. Syphilitic ataxia.

MIND - Depression and anger. Ailments from anger. Hysteria. Mental activities are disordered. Feeling of unrest and impatience. Reproaches, himself. Yielding. Anxiety of consciousness. Remorse. Ailments after reproaches.

Ailments from grief. Fear of failure and rejection. Cautiousness. Fear of undertaking anything new. Fear of strangers. Compulsive disorders. Sarcastic. Self pity. Tendency to daydream.

Abdomen - Coldness in abdomen. Dropsy. **Gastroenteritis.** Pressure in the right hypochondrium. Dropsy without fever but threatening suffocation.

Back - Cracking in cervical vertebrae on bending head. Burning and drawing, tension and pressure in muscles to left of nape extending to shoulder, worse bending head to right, at times unbearable during rest. Pustular eruption on back.

Causations - Vexation (jaundice).

Constitutions - Suited to Carbo-nitrogenoid and mercurio-syphilitic constitutions.

Eyes - Amaurosis. Ophthalmia, scrofulous, cancerous, at the same time, nose scurfy.

Face - Ulcers in cavities of upper jaw. Pallor of face. Ulcer in right corner of mouth.

Female - Indurated cervix. Chronic metritis and prolapsed uterus. Uterus fills up whole pelvis. Leucorrhea with spasmodic contraction of vagina. Leucorrhea, corroding the parts. Ovaries indurated. Ovarian dropsy. Enlargement of ovary. Sub-involution. Ossified uterus. **Fibroids of uterus. Uterus, tumors.** Scirrhus cancer of uterus. Carcinoma of breast and uterus. Pustules on genitals. Miscarriage from uterine indurations. Ulceration of neck of womb and vagina. Ulcers with induration of uterus.

Fever - Remarkable coldness of back. Remarkable heat in skin. Sweats only on right side, left (affected) side

of head remains dry. Excessive perspiration.

Food - No appetite in jaundice.

Head - Hair falls out. Every morning pressure over eyes, pains in forehead, dullness in head, lasting until afternoon, better in evening, nasal discharge bloody, fetid.

ichorus. Continual humming in head with beating of carotids. Violent headache, in left side of head, mostly over eye.

Heart - Palpitations of young girls. Irregular heartbeats with anxiety and short breath, while sleeping. Severe violent beats of the heart with sensation of pressure while standing.

Kidneys - Dark urine in jaundice. Turbid urine.

Limbs - **Rheumatism or gouty pains.** Burning in skin of right axilla. Pressure in right deltoid. Boring and pressing pains in arms and elbow-joints. Boring pain in bones. Painful stitching in fingertips. Boring pains in thighs, knees, tibia (first right then left). Boring in both sides right Achilles tendon when sitting. Stitches in tips of toes in bunion.

Liver - Hepatic cirrhosis. Pressure in liver region. Jaundice after vexation.

Male - Ulcers on foreskin, warts around them. Ulcers on glans eating deeply. Chancre on internal surface of prepuce. Bubo in fold of groin.

Modalities - Worse in cold, wet weather. Worse from October to spring (headache). Worse by rest.

Mouth - Redness and swelling of palate behind upper incisors. Salivation. Bitter taste. Fetid odor from mouth.

Neck - Burning pain in skin of nape. Heat in nape rising into head and cheeks.

Nose - **Ulcers, caries.** Ozaena. Nose swollen, hard, shining (scrofulous), if he takes cold, erysipelas sets in. Destruction of nasal bones. Scurfy, oozing tetter on nose.

Perspiration - Sweats only on right side. **Excessive sweats.** Suppressed sweats.

Rectum - Clay-like feces. Hemorrhoid which protrudes and is painful. Stools hard. Feces like whitish clay.

Skin - Intolerable itching all over body, sores followed by an eruption of little lumps, several covered with dark-looking scabs. Jaundice. Deep-spreading syphilitic ulcers on skin.

Teeth - Teeth get loose, look dirty, gums recede.

Throat - Swelling and inflammation of fauces. Small blisters on fauces.

Tongue - Burning, stitches and induration. Burning on tip of tongue. Tongue coated white in jaundice. Warts on tongue.

COMMENTS - Hale considered this the most active of all the preparations of gold. In toxic doses it causes "**violent gastroenteritis**" **accompanied** by cramps, convulsive trembling insomnia, priapism and insensibility. In pathogenetic doses it causes epigastric pain, nausea, loss of appetite and constipation. The constipation is like that of Hydr., being accompanied with catarrh.

Hale used it with success in nervous dyspepsia with a tendency to diarrhea after eating in gastric and duodenal catarrh with or without jaundice.

He stated that the primary effect of the salt is to cause congestion, irritation of the uterus and ovaries, sub-acute metritis, ovaritis, profuse and premature menses, habitual abortion, nymphomania, ulceration of uterus, cervicitis. For these, the potencies are suitable.

The secondary effects are "Atonic amenorrhea, scanty and delaying menses, deficient sexual desire, infertility from ovarian torpor, ovarian dropsy," for these, Hale recommended the lowest triturations.

He suggested its use in puerperal mania with sexual excitement, ovaritis, gastrointestinal irritation and suicidal impulses. Also in corresponding states in men.

Aur-m-n. is a specific for asymptomatic ovarian tumors and asymptomatic fibroids.

RELATIONS - **Compare:** (1) Arg-n., Ars., Bad., Bry., Crot., Con. (2) Graph., Hep., Iod., Kali-bi., Kali-i. (3) Lyc., Merc., Nit-ac., Phos., Sulph., Thuj.

REFERENCES - Boericke. Clarke. Grimmer. Murphy.

***AURUM SULPHURATUM

(Gold Sulphide)

PHARMACY - aur-s. Aurum sulphuratum. Gold sulphide. Auric sulphide. **Historical dose:** Trituration and all potencies.

CLINICAL - Bedwetting. Goiter. Head, nodding. Impotence. Jaundice. Breasts disorders. Nightmare. Nose, swelling. Parkinson's disease. Pruritus vulvae. Staggering.

HOMEOPATHIC - This valuable gold preparation has been used with success in Aurum met. cases with some Sulphur indications.

Aur-s. has been proved and the most striking symptoms include constant nodding of head. Lancinations in occiput. Redness and swelling of nose, crusts, dry coryza, great sensitiveness to least contact.

Sensitiveness to touch was observed in other parts. Inclined to vomit after eating. Bedwetting. Impotence. Lancinations in penis. Heaviness in genitals. Heat, lancinations and itching of vulva. Swelling of the breasts, painful to touch. Cracked nipples, sharp pain in point of nipples. Thick yellowish leucorrhea, especially in morning. Staggering gait. Weariness. Frightful dreams. Indurations, ulcerations around nose, lips and genitals with intense itching of skin. Parkinson's disease, constant nodding of the head. Affections of the breasts, swelling pain, cracked nipples with sharp pains.

MIND - Desire for solitude. Disgust for life.

Breasts - Swelling of breasts, painful to touch. Cracks on nipples.

Eyes - Redness of eyelids. Morning agglutination. Styne near outer canthus. Photophobia.

Face - Cracked lips.

Female - Thick, yellowish leucorrhea, especially in the morning. Irregular menstruation. Sensitiveness of uterus to touch.

Head - Constant nodding of head. Continual rush of blood to head. Lancinations in occiput. Itching of scalp, worse night. Burning and smarting of scalp. Falling out of hair.

Heart - Palpitation when ascending a height.

Kidneys - Nocturnal bedwetting. Thick, yellow, red and sandy urine.

Lungs - Nightly paroxysms of loud cough. Hard cough with scanty expectoration of pure blood. Suffocating attacks at night.

Male - Frequent erections with desire for embrace, but ceasing immediately. Impotence.

Mouth - Redness, swelling and bleeding of gums. Aphthae.

Nose - Redness and swelling of nose. Crusts on nose. Sensitiveness to least contact.

Sleep - Troublesome frightful dreams of thieves of assassins.

Stomach - Great thirst. Watery belchings tasting of ingesta. Frequent hiccough. Very slow digestion.

Throat - Swelling of thyroid.

REFERENCES - Clarke. Grimmer.

***AVENA SATIVA

(Oatstraw)

PHARMACY - aven. Avena sativa. Oatstraw. Common Oat. N. O. Gramineae. Tincture of fresh plant in flower. The fresh green plant, gathered in August is pounded to a pulp and macerated with two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL -Addictions. Alcoholism. Amenorrhea. Brain, fatigue. Cholera. Chorea. Coffee. **Colds. Coryza.** Debility. Delirium, tremens. **Drug, abuse.** Dysmenorrhea. Endocarditis. Epilepsy. Headaches. **Heroin.** Impotency. **Insomnia.** Influenza. Masturbation. Nervous, disorders. **Neurasthenia. Opium, morphine, addiction.** Palpitations. Sexual, weakness. **Sleeplessness.** Spermatorrhea. Tobacco. Tuberculosis. **Weakness.**

HERBAL - Aven, improves the nutrition of brain and nervous system. One of the best tonics for debility after exhausting diseases. Valuable in enabling a patient to overcome the morphine or heroin habit.

Aven, has been used in substantial doses of 5 to 15 drops of the tincture in a large number of cases of nerve weakness. The only symptom that has been observed to be caused by it is a pain at the base of the brain from 20-drop doses.

BANISTERIOPSIS CAAPI

(Ayahuasca)

PHARMACY - bani-c. Banisteriopsis caapi. Ayahuasca. Spirit Vine. Yagé. Psycho- tria viridis. N. O. Malpighiaceae. South America. Amazon. **Historical dose:** Ail potencies.

CLINICAL - AIDS. Allergies. Asthma. Autism. Cancer. Chronic, fatigue. Clairvoyance. Delusions. **Digestive, problems.** Drug, abuse. Emphysema. **Hallucinations.** Insomnia. Kyphosis. Malnutrition. Nausea. Numbness. Parkinson's, disease. Scoliosis. Sexual, abuse. Vomiting. Worms.

HERBAL - Ayahuasca, commonly called **yagé**, or **yajé** in Colombia. **Ayahuasca** in Ecuador and Peru. Inca "vine of the dead, vine of the souls," **aya** means in Quechua "spirit," "ancestor," "dead person," while **huasca** means "vine," "rope," and **caapi** in Brazil. Ayahuasca brew is prepared from segments of a species of the vine **Banisteriopsis**, a genus belonging to the **Malpighiaceae**.

HOMEOPATHIC - Tiredness, exhaustion, debility. Unable to move from tiredness. Shakiness and disorientation. Unable to recover one's energy with rest. Feelings of detachment, poor memory and vagueness with the exhaustion. Rushes of energy which are associated with raised heartbeat and that cause some anxiety. Heightened sensitivity of all senses, mostly vision and hearing.

Muscular soreness and weakness from tiredness. Limbs go to sleep, pins and needles sensations. Tightness,

tingling, aching, and drawing in the spine. Numbness and general malaise. Anesthesia. Muscle wastage. Tissue necrosis. Easy dislocation of joints. Crumbling of bone tissue.

Digestive tract malfunction. Poor assimilation and metabolism. Imbalance of bowel flora causing psychological symptoms such as depression. Pains can be sharp, sudden on appearance and quick to go, tend to be worse night. Autism. Ailments from injuries, worse spine or the head. AIDS. Cancer. Chronic fatigue. Parkinson's disease. Strong history of drug abuse. Multiple allergy syndrome.

MIND - Confusion of mind. Cannot think straight. Difficult concentration, comprehension. Dullness, sluggishness. Mistakes about time. Memory weakness. Forgetfulness. Thoughts intrude and crowd around each other. Tormenting, persisting thoughts. Amorous thoughts.

Clear-sighted, increased precision of mind. Sensitive to all external impressions. Senses are acute. Oversensitive to light, noise, shrill sounds, sad stories. **Charmed by colors, especially red.** Easily startled. Moods are changeable, variable, swings between extremes of rage and well being. Impulsive. Restless, nervous. Impatient, hurried, everybody moves too slow.

Stressed mentally and emotionally. Full of worries, forebodings. Insecure. Anxious, desperate. Anxiety from palpitations, on waking. Anxiety about salvation. Overpowering panic attacks. Prolonged anguish and fear which has heightened every sense.

Irritability from any disturbance, when questioned. Fastidious. Obstinate, headstrong. Rage, fury. Impulse to kill. **Anger during meetings.** Jealousy associated with sexual excitement. Suspicious, mistrustful.

Weeping, causeless. Pessimistic. Dwells on past disagreeable events. Homesick, nostalgic. Sadness, depression, crying difficult. Ailments from grief, sorrow. **Grief of the deepest kind.** Forsaken feeling. Worse from consolation, company. Aversion to company. Indifference, apathy towards friends. Despair of life. Unmitigated misery. Suicidal thoughts. Loquacity alternating with sadness. Loss of self-control.

Feelings of being disconnected, worse fatigue, stress, anxiety or fear. Inability to feel connected to the mother. Desire for sympathy. Inability to remember childhood. Loss of purpose. Sense of uselessness and frustration at not being able to find one's path. Sense of having been derailed. Work fatigues easily. Sympathetic, compassionate.

Fear that something bad will happen. Fear of insanity, of losing self-control. **Fear of crossing a bridge,** of falling. Fear of ghosts, evil. Fear of impending death, feels as if soul were escaping from body. Fear of terrible dreams.

For acute coryza, take 20 drop doses in hot water hourly for a few doses.

HOMEOPATHIC - Selective action on brain and nervous system, favorably influencing their nutritive function. Leading indications are nervous exhaustion, sexual debility, and general weakness. **Sleeplessness with nervous exhaustion and weakness.** Chronic insomnia. Delirium tremens.

Drug addictions. Bad effects of **morphine or heroin addiction.** Addicted to cocaine, marijuana, nervines, tranquilizers or sedatives. Alcoholism. **Insomnia due to drugs or alcohol.** Post-diphtheria paralysis. Rheumatism of heart.

Colds and coryza. Nervous palpitations. It is useful in nervous exhaustion, sexual debility, debility after exhausting diseases. Weakness of the mind when due to masturbation or sexual irregularities.

Nervous states of the female and male sexual systems. Nervous tremors of the aged. Parkinson's disease, chorea and epilepsy.

MIND - Prostration of mind, mental exhaustion, brain fag, with sleeplessness. Symptoms from mental or physical overwork. **Mental exertion aggravates.** Dullness, sluggishness. Difficulty of thinking and comprehending. Inability to keep mind on any one subject.

Nervous exhaustion in brain workers, or from worry and anxiety. **Difficult concentration from masturbation.** Brain fatigue with sleeplessness. **Morphine or heroin addiction.** Alcoholism, dipsomania to help withdrawal. Hypochondriasis.

Constitutions - Nervous constitution.

Female - Amenorrhea. Dysmenorrhea with weak circulation.

Head - Nervous headache at menstrual period with burning at top of head. Occipital headache with phosphatic urine. Aching deep in brain. Vertex headache during menses.

Heart - Inflammation of heart, carditis. Endocarditis. Rheumatic heart. Palpitations.

Limbs - Numbness, as if paralyzed. Weakness, twitching, trembling of hands. Strength of hand diminished. Numbness, insensibility. Paralytic weakness. Rheumatic pains.

Male - Disposition to masturbation.

Troublesome erections, wanting. **Seminal emissions** aggravates. Seminal emissions without erection. Spermatorrhoea. Impotency after sexual excesses. Diminished sexual desire.

Nose - Coryza. Acute colds. Watery discharge. Rhinitis.

Rectum - Cholera. Diarrhea.

Sleep - *Chronic insomnia*, worse during convalescence. *Sleeplessness* after worry, mental exertion, *after influenza*, from weakness. Insomnia, aggravated by exhaustion, alcohol. Sleeplessness in alcoholics, with delirium tremens.

Urine - Sediment, phosphates increased.

COMMENTS - Aven, is pre-eminently an anti-neurotic, quieting the nervous system to a remarkable degree. Its special sphere of action seems to be upon the male sexual organs, regulating the functional irregularities of these parts perhaps as much as any remedy can.

Aven, is indicated in the sleeplessness of the weak and elderly. Also for children who are nervous and weak. It is a most useful remedy in all cases of nervous exhaustion, general debility, nervous palpitation of the heart insomnia inability to keep the mind fixed upon any one subject. More especially when any or all of these troubles is apparently due to nocturnal emissions, masturbation, or sexual over activity.

This is a specific remedy for drug addiction, mainly heroin and morphine, but also tobacco, cocaine, marijuana and valium. Boericke noted it for alcohol addiction.

It is one of the most valuable means for overcoming morphine addiction. In most cases in which the habit has not used more than four grains daily the opiate may be abruptly discontinued and even substituted without any serious results.

If a larger quantity than this amount has been taken for some time, it is better to gradually reduce the daily dose of morphine in the usual manner, simply prescribing the Avena in addition. The latter should be given in the same dose, as a rule, regardless of the amount of morphine taken.

In other words, it is not necessary to increase the Avena as the opiate is withdrawn. When the quantity of morphine has not exceeded four grains daily it should be stopped at once, as stated above and Avena given in its stead in fifteen-drop doses, four times a day in wine glassful of hot water.

By this method the disagreeable aftereffects will be much less than though the dose of morphine is gradually reduced and the patient will find life quite bearable, as a rule, at the end of a week.

Avena sativa should always be given in appreciable doses of the tincture. Fifteen drops three or four times a day, well diluted, will usually meet the case. It may be given in doses of from five to sixty drops in rare instances. It should, however, never be given in larger quantities than twenty minims unless the patient is thoroughly accustomed to the remedy and has found the usual dose insufficient.

Otherwise, there is danger of getting the physiological effect of the drug, which is pain at the base of the brain. When this symptom makes its appearance the medicine should be discontinued for a day or two and then given in reduced doses.

There seems to be no danger whatever of forming the habit of taking this remedy, as it can be suddenly abandoned at any time without evil consequences, even when given in large quantities. In one case it was prescribed in sixty drop doses, night and morning, for one year and then abruptly stopped. Nothing was substituted, without bad effects.

Whenever a quick action is desired and in all cases where Avena is given to overcome the morphine habit, it should be prepared in hot water. It is also a good plan to prescribe it in this fashion wherever indigestion complicates the case.

Anshutz employed this drug in his private practice for a number of years with the most gratifying results. He has very rarely found it to fail when indicated and on account of his high opinioii of the remedy he has taken great pleasure in thus bringing it prominently to the attention of the medical profession.

RELATIONS - Compare: (1) Alfalfa - general tonic similar to Avena sativa. Alfalfa, also for scanty and suppressed urine. (2) Passiflora, Valerian.

REFERENCES - Anshutz. Boericke. Clarke. Murphy.

***AZADIRACHTA INDICA

(Neem Bark)

PHARMACY - aza. Azadirachta indica. Neem bark. Margosa bark. Nim. Melia azadirachta indica. Antelaea azadirachta. N. O. Meliaceae, Tribe, Melieae. India and Burma. Tincture of the bark. The fresh bark is pounded to a pulp and macerated in two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Acroparesthesia. Amnesia. Boils. Constipation. Depression. Diarrhea. Eczema. Gonorrhea. Hypochondria. *Intermittent, fever.* Leprosy. Leucorrhea. *Malaria.* Miscarriages. Quinine, effects. Rheumatism, acute. Senile dementia. Spleen, congested. Typhoid fever. Vomiting. Worms.

HERBAL - Azadirachta Indica is a large tree. The leaves, bark, wood, roots, fruits and every part of this tree, are *intensely bitter*. The vast range of its action is chiefly due to azaserine, margocine and catechin, the three active principles found in this tree.

This is an Indian remedy from very ancient times. The bark, known as Margosa bark, is the best-known medicinal portion. The tincture for the provings were made from the bark by Dr. P. C. Majumdar of Calcutta, India.

Majumdar contributed a synopsis of Aza. According to Ayurveda, the different parts of this tree possess different medicinal properties. Sanskrit authors agree that Azadirachta Indica bark, though very disagreeable in taste, is generally used with success.

The Neem tree is used for treatment of bacterial, viral, fungal infections and for the **treatment and prevention of malaria**. Its action on fevers is well-known in India, the native physicians use Neem as the principal substance in their febrifuge medicines. It is especially useful in cases previously maltreated with quinine.

In Kenya the tincture of Neem in the 2x dilution has been used as a treatment for three weeks to neutralize the malaria organism from the body. A decoction of fresh leaves is used as a favorite wash to cure old ulcers of long standing.

It removes within a short time the sloughs and promotes the healing. The fruit is purgative, demulcent and is used in some forms of skin disorders.

A kind of oil is produced from the seed of ripe fruits and this oil is said to cure leprosy, eczema and some other obstinate skin diseases. Neem is also praised by some of the allopathic physicians for its tonic, anti-septic, astringent and anti-periodic properties.

HOMEOPATHIC - Aza. has been used in cases of lassitude, thirst, cough, fever. Loss of appetite, helminthiasis, boils, bilious derangements. Catarrh, vomiting, skin diseases, hiccough, gonorrhea. Its leaves are used in some forms of ophthalmic diseases, parasites, worms and disorders brought on by deranged bile or from the use of poisonous things.

Aza. is used in a variety of complaints, especially of the eyes, digestive derangements and skin disorders. An afternoon fever and rheumatic pains in various parts are caused by this remedy. Pain in sternum and ribs in back and shoulders and limbs.

Giddy on rising, headaches, scalp sensitive, eyes burn, pain in right eyeball. Heat, pricking and aching in hands. Loss of memory. Thirsty for large quantities of water at long intervals. Tendency to miscarriage. Copious leucorrhea.

MIND - Mind, weak and dull, full of anxiety inactive. No desire to go out or walk out. Depressed. Mistakes in writing and spelling words. Senile dementia. Hypochondriasis. Amnesia. Loss of memory. Forgetful. **Abdomen** - Great uneasiness in the abdomen, with flatulent rumbling in the bowels, twisting pain in the epigastric region, no tenderness in the abdomen, clutching pain in the umbilical region, obliging to bend forwards, which affords some relief. Abdomen a little distended, passing of offensive flatus. Painful tension in the hypochondria region.

Back - Itching of the body, especially the back, worse in the open air and in the afternoon. Pain and aching at the nape of the neck.

Chest - Pain in sternum and ribs. Aching in the lower part of the right chest below the nipple. Stitches in the chest. Crampy pains in the lower part of chest. Transitory stitches in the chest, especially in the right side. Cramping pains at the base of the lungs.

Constitutions - Nervous or rheumatic constitutions.

Ears - Buzzing in the ears. A peculiar cracking sound is heard in the ear like tickling with a feather, which is increased on opening the mouth.

Eyes - Burning, dull and heavy. Pain in the eye, from slightest pressure. Red, sunken, congested, with slight coryza. Sense of pressure in the right eye.

Face - Flushing and heat in the face. Pale. Alternating heat and pallor of the face.

Female - Copious leucorrhea. Metritis of the cervix. Metrorrhagia. Recurring miscarriages.

Fever - Fever commences with very slight chill or without chill at 4:30 p.m. and abates at 7:30 p.m. Afternoon fever. Glowing heat and burning, especially in the face, eyes, palms of the hands and soles of the feet, in open air.

Food - Thirsty for large quantities of water at long intervals. Keen appetite. Desires cold drinks and sweets.

Head - Right-sided headache with throbbing of the temporal artery and pain in the right eyeball, worse in the open air. Scalp and hair painful and sensitive to the touch.

Heart - Pulse rapid and strong, or rapid and weak. Pulse is quick and hard, feeble.

Kidneys - Urine purple in color. Urine scanty and high colored and scalding, urine white, clear and copious, urine of strong odor.

Limbs - Numbness of the limbs, as if the limbs are paralyzed. Rheumatic pains in the lower limbs. Gnawing in the legs. Strength of the hand diminished. Burning of the hands and soles of the feet. Numbness of the hands only, especially the right hand.

Lungs - Sighing, breathing at intervals. Hot breath, rapid respiration. Short dry cough in the afternoon. Violent cough with thick, white, jelly-like sputum, which is difficult to expel. Cough after bathing. Cough with grayish expectoration, thick sputa. Cough with tasteless white sputa.

Male - Great excitement of sexual organs. Sexual desire a little diminished.

Modalities - Worse in the open air. Worse in the afternoon.

Mouth - No thirst, but mouth is clammy, water has relish, good taste. Mouth is bitter. A painful burning sensation, as if scalded, is felt on the sides and surface of the tongue, papillae seem to be enlarged and prominent. Putrid taste in the mouth. Saliva coming out which tastes salty. Slight difficulty in deglutition, especially water and meat.

Neck - Pain and debility in the nape of the neck.

Nose - Running of watery fluid from the nose.

Perspiration - Copious sweat, especially on the forehead, neck and upper part of the body. Sweating commences on the forehead, gradually extending towards the trunk, no sweat in lower part of the body.

Rectum - Diarrhea, no satisfaction after stool. Feeling after stool, that the rectum is not empty. Constipation with ball-like stools which are hard and small, alternating with diarrhea. Insufficient, constipated, stools hard, small and knotty, stools hard. Copious, soft, semi-solid stools.

Skin - Itching of various parts of the body without the appearance of any eruption. Sudamina on the back.

Sleep - Insomnia and agitation in bed. Wakes frequently. Dreams of fights and quarrels in the second half of the night. Sleeplessness and tossing in the bed, dreamy and interrupted sleep at night.

Stomach - No thirst, appetite very acute and keen. Very great thirst for large quantity of cold water, at long intervals. Heartburn and water brash. Uneasy sensation in the thorax.

Throat - Bitter taste in the throat. Slight hoarseness. Left-sided sore throat.

Vertigo - Sensation of drunkenness, especially on lifting the head and around 10 a.m.

COMMENTS - The most peculiar feature of the proving is the fever, which commences with a very slight chill or none at all, at about 3 p.m. to 4:30 p.m. and abates around 7:30 p.m.

Glowing heat and burning, especially in face, eyes, palms of hands and soles of feet in open air.

Sweat copious, commencing on forehead, gradually extending towards trunk, no sweat on lower part of body.

RELATIONS - **Compare:** (1) Cedrón, Chin., Ars., Nat-m. (2) Guarea. (3) Ars. - Prostration, anxiety, restlessness. Cadaverous odor of secretions. Aggravation from 1 a.m. to 3 a.m. (4) Chin. - General weakness from loss of liquid. Thirst for large quantities of water. Hemorrhaging from the mucus membranes. Sensitive scalp. (5) Sulph. - Quarrelsome with grandiose ideas. Burning pains, weakness in the morning. Need for fresh air and fear of water. Morbid alternations. (6) Med.- Forgets names and recent events. Restlessness, precipitation, desire for drinks. Irritating leucorrhea. Breasts cold. Heels sensitive. Sleeps in knee-chest position.

REFERENCES - Anshutz. Boericke. Clarke.

***BACILLINUM

(Tuberculosis Nosode)

PHARMACY-bac. Bacillinum. Tuberculosis nosode. A nosode prepared from human tuberculous sputum. Nosodes. **Historical dose:** All potencies.

CLINICAL - Addison's disease. Alopecia. **Asthma. Bronchitis. Colds. Coughs. Dyspnea.** Eczema. Growth, defective. Headache. Hydrocephalus. Idiocy. **Infections.** Insanity. Joints, disorders. **Lung, disorders.** Meningitis. Melancholy. Night-sweats. **Phlegm.** Pityriasis. Pyorrhea. Quinsy. **Ringworm.** Scrofulous, glands. Teeth, defective. Tabes, mesenterica. **Throat, sore. Tonsillitis. Tuberculosis.**

HOMEOPATHIC - Bacillinum is a nosode of tuberculosis named and first described by Dr. Burnett, for whom it was prepared from tuberculosis sputum by Dr. Heath. As this preparation has been experimented with separately, its symptoms are given apart from the other nosodes of tuberculosis. Useful as an intercurrent remedy.

Bacillinum has been used for the treatment of tuberculosis, generally causing the sputum to decrease and less become less purulent. Tubercular meningitis. It has a **disposition to catch colds and sore throats.** Respiratory and lung weakness. **Chronic reoccurring sore throats and coughs.** Glands of the neck are enlarged and tender. Night-sweats.

Bacillinum is indicated for the weak lungs of elderly people and for children with chronic catarrhal conditions and attacks of suffocation at night with difficult cough. Suffocative catarrh. **The patient expectorates very little.** Chronic catarrhal conditions of the lungs when bronchial mucus and dyspnea are present. Tubercular meningitis. Ringworm.

Dr. Burnett has shown that ringworm of the scalp and pityriasis versicolor on the body are indications of

tubercular diathesis and they respond to this remedy. He cured a case of insanity and ringworm.

Tuberculosis patients are better in dry sunny climates in mountains areas and in the pine forests. Sunlight helps to prevent tuberculosis, also there has been many cures of tuberculosis via sunbathing and the milk diet, which these patients crave.

Dr. Cartier has found it particularly useful in cases where there was excessive mucopurulent bronchial secretion threatening to occlude the lungs. It should be compared with Bacillinum testium, Tuber. Bovinum, Tuber. Aviaire and Tuber. Koch.

MIND - Taciturn, sulky, snappish, and irritable. Does not want to be disturbed. Fretful ailing, whines and complains. Great weakness. Morose. Depressed and melancholic, even to insanity. Tendency to be frightened, fear of dogs.

Abdomen - Abdominal pains, enlarged glands in groin. Tabes mesenterica, grinds teeth, indurated and swollen glands. Spleen region bulging out. Inguinal glands indurated and visible, excessive sweats, chronic diarrhea.

Back - Glands of neck enlarged and tender. Sensation of damp clothes on spine. Very sharp pain in left scapula, worse lying down in bed at night, better by warmth.

Chest - Sharp pain in precordial region arresting breathing.

Constitutions - Tubercular constitutions. For cases stemming from a tubercular inheritance with extreme soreness of affected parts, patients of rheumatic tendencies with syphilitic taints in the bloodstream, general muscular soreness.

Ears - Otitis after sore throats.

Eyes - Eczema of the eyelids.

Face - Indolent, pimple on left cheek, breaking out from time to time and persisting for many weeks.

Food - Poor appetite.

Head - Severe headache, deep in, recurring from time to time, worse shaking head. Terrible pain in the head as if he had a tight hoop of iron around it. Meningitis. Ringworm. Alopecia areata.

Kidneys - Increased quantity of urine, pale with white sediment. Rises several times in the night to urinate.

Limbs - Trembling of hands. Hands blue. Pain in left knee while walking. Tubercular inflammation of knee.

Lungs - Weak lungs. **Humid asthma**. Colds with sore throats. Hacking cough. Hard cough, shaking patient. Coughing, more during sleep, but it did not waken him. **Catarrhal dyspnea**. Muco-purulent expectoration of bronchitis. Congestion of the lung. Tuberculosis. **Bubbling rales and muco-purulent expectoration**. Coughing, that wakes him in night, easy expectoration. Expectoration of non-viscid easily detached, thick phlegm from air passages.

Modalities - Worse night and early morning. Worse from cold air.

Nose - Nasal congestion. Coryza.

Perspiration - Night-sweats.

Rectum - Sudden diarrhea before breakfast, with nausea. Obstinate constipation with offensive flatus. Severe hemorrhages from bowels. Stitching pain through hemorrhoids. Passes much ill-smelling flatus.

Skin - **Ringworm**. Pityriasis. Eczema. Glands enlarged and tender.

Sleep - Absolute sleeplessness. Talks in sleep. Drowsy during day, restless at night. Many dreams.

Stomach - Windy dyspepsia, with pinching pains under ribs of right side in breast line.

Teeth - Pyorrhea. Aching in teeth, especially lower incisors, very sensitive to air. Grinds teeth in sleep. Imperfectly developed teeth. Favors falling off of tartar of teeth.

Temperature - Flush of heat, some perspiration, severe headache. Fever, with emaciation, abdominal pains and discomfort. Restless at night, glands of both groins enlarged and indurated, cries out in sleep, strawberry tongue.

Throat - Tickling in fauces, compelling cough. Pricking in larynx with sudden cough.

COMMENTS - In the provings, a constant symptom was a severe headache, deep in, worse by motion. Also a slight cough with easy expectoration of phlegm. Tends to do better in chronic cases of tuberculosis, as compared to acute cases.

There are leading indications for it when present in combination with other disorders. An inter-current course of Bacillinum will often make a wonderful change in patients who have a personal or family history of chest disorders. Bacillinum is an acute miasm remedy for Phosphorus and Calcarea constitutions in particular.

Grimmer used it for cases stemming from a tubercular inheritance with extreme soreness of affected parts, patients of rheumatic tendencies with syphilitic taints in the bloodstream, general muscular soreness.

Dr. Young recorded the cure of several cases of cretinism. A case of insanity with pityriasis yielded rapidly to the remedy. Pityriasis has been cured by it when all attempts to kill the body lice by chemicals were useless. Clarke has found an eczematous condition of the margins of the eyelids a strong indication for it.

Bacillinum is made from tuberculosis bacilli, and Tuberculinum is from bovine tuberculosis. Tuberculinum is a deeper and more chronic remedy. Bacillinum tends to be more for acutes, but there's a lot of overlap. If a Bacillinum case keeps relapsing, follow with Tuberculinum. Miasmatic remedy, history of tuberculosis in family. Good for children or adults with a tendency to get colds and sore throats frequently, particularly if they react well to acute remedies, but keep coming back. For children who get a cold at every change in the weather. Often swollen glands in the throat. Weight on the chest (Phos.). Mucus in the lungs, bronchitis. Good for the elderly with a tendency to colds and bronchitis. Lingering colds. The majority of the symptoms are gone, but a lingering cough or sore throat. Nondescript coughs.

Ringworm (Sep., Thuj., Tell.), and the tendency to ringworm. Diarrhea, especially with a cold, sore throat (Ars.).

RELATIONS - Compare: (1) Phos., Dros., Mercury. Its effects seem to be identical to that of Koch's Tuberculinum. Both are useful in the tubercular diathesis before tuberculosis has developed. In the early stages of tubercular disease of glands, joints, skin and bones. (2)

Psor. (3) Bac-t. (4) Ant-t., Iod., Lach., Ars-i., Myosotis. **Complementary:** Kali-c., Calc-p., Lach., goes with this remedy very well. **Follows well:** Levico, 5-10 drops, follows as an intercurrent where much debility is present (Burnett).

REFERENCES - Boericke. Clarke. Mur-

***BACILLIUM TESTIUM

PHARMACY - bac-ts. Bacillinum testium. Nosode prepared from human tuberculous testicle. **Historical dose:** All potencies.

CLINICAL - Bedwetting. Inguinal glands, disease. Leucorrhea. Lipomas. Mesenteric glands, disease. Pneumonia. Testicles, tubercles. Tuberculosis. Tumors.

HOMEOPATHIC - This preparation has been used by Burnett; it has a more direct relation to the lower half of the body than the pulmonary Bac., but it is not an exclusive distinction.

Tuberculosis. Pneumonia. Inguinal glands and mesenteric glands are affected. Eruptions in inguinal region. Abscesses with suppurations. Benign tumors or lipomas. Bedwetting with a weak bladder. Frequent urination. Excoriating leucorrhea, smells like fish brine. Testicles have tubercles. **Picking in the nose** with fingers.

Abdomen - Cracks on surface of abdomen and groin. Eruptions in inguinal region. Pain in gallbladder.

Back - Soreness and pain in coccyx. Fatty tumors on neck.

Constitutions - Tubercular constitutions.

Chest - Pneumonia. Perspiration of axilla.

Tumors, lipoma.

Female - Itching, acrid discharges. Leucorrhea is excoriating, greenish offensive like fish brine. Menses are painful, dysmenorrhea.

Food - Appetite wanting, worse mornings. Aversion to bread, eggs, tea, tomatoes. Desires chocolate, fried fish, sweets. Nausea and vomiting.

Head - Forehead pain.

Kidneys - Urination, frequent. Carbuncle, vascular bleeding, tumor of urethra.

Limbs - Eruption in the bends of joints.

Eczema. Felon, panaritium. Flat, pointed warts on hands. Rheumatic pains in thighs and knees.

Lungs - Asthmatic breathing. Morning cough.

Modalities - Worse at the seaside. Worse during the summer months.

Mouth - Odor offensive. **Cracked**, middle of lower lips (Nat-m.).

Nose - **Picking** the nose. **Boring** in nose with fingers. **Catarrh**.

Rectum - Diarrhea. Itching.

RELATIONS - Compare: (1) Bac., Cina, Tub.

REFERENCES - Boericke. Clarke.

***BACILLUS SEVEN

(Bacillus Asiaticus)

PHARMACY - ba-sv. Bacillus seven. Bacillus asiaticus. Bacillus cloacae. Bacillus freundii. **Historical dose:** All potencies.

CLINICAL - Asthma. Arthritis. Backache. Bronchitis. Cardiac arrest. Constipation. Deafness. Exhaustion.

Fatigue. Fibrositis. Flatulence. Hemorrhoids. Mental fatigue. Menorrhagia. Metrorrhagia. Myocardial, weakness. Osteo-arthritis. Osteoporosis. Quinsy. **Rheumatoid, arthritis. Rheumatism.** Senility. Tonsillitis.

HOMEOPATHIC - This remedy is so named as it was the seventh non-lactose fermenting type of bacillus

observed in the laboratory. As it did not confirm to any of the previously known groups, it was given the number "Seven."

Extreme mental and physical fatigue. Its site of action is the neuro-muscular junction. Unfit for mental exertion, leading to extreme physical exhaustion. Asthma, catarrh, sticky mucous. Low blood pressure and myocardial weakness.

Flatulence, fullness after food. Feeble urinary flow, loss of sexual function, premature senility. Rheumatic nodules. Backache, cannot stand long. Faints easily. Sensitive to cold. All the symptoms can be related to general lack of nerve and muscle tone.

MIND - The outstanding symptom is mental fatigue, a feeling of unfitness for any mental effort, which produces a sense of extreme physical exhaustion. **Tense and tired.** The thought of doing anything is sufficient to exhaust him.

Abdomen - Flatulence. A sense of fullness after food, flatulence and distention of the stomach. Flabby abdomen. Pain in liver region.

Back - Backache, cannot stand long without feeling of faintness. **Fibrous rheumatism of neck and back,** abdominal muscles, shoulders and arms. Spinal osteo-arthritis.

Chest - Some pain.

Constitutions - More suitable for the elderly and the debauch.

Ears - Catarrhal deafness.

Eyes - Thrombosis central retinal vein. Eyes closed, lasted one week.

Face - Dark, pale, puffy. Angio-neurotic edema.

Female - Pain in vulvae, no leucorrhea. Menorrhagia and metrorrhagia.

Food - Averse to fat.

Head - Dull headaches.

Heart - Myocardial weakness. Sudden cardiac arrest. Slow pulse rate, often with lowered blood pressure.

Kidneys - Feeble urinary flow.

Limbs - Poor muscle tone. Joints swollen and painful. **Fibrositis.** Fibrous rheumatism thighs. Limbs stiff.

Osteo-arthritis of the **knees.** Left hip fixed, arthritis. Rheumatoid arthritis, knees and ankles. Stabbing pain in hip. Pain shoots up and down leg. Cramps in leg at night. Pes planus. Feet painful. Gout in left toe. Wrists and ankles immobile. **Rheumatism of the wrists.** Ganglion right hand. Fingers swell. Blood vessels burst in fingers.

Lungs - Asthma. Bronchitis. Bronchial catarrh, tough sticky mucus, difficult to raise. Worse at 2 a.m. (Kali-c).

Male - Loss of sexual function. Premature senility.

Modalities - Sensitive to cold to drafts and cold, damp air. Backache, better heat and rest. Worse damp and cold. Worse on commencing to move.

Neck - Stiff neck "cracks like a nut." **Fibrositis of neck and shoulders.**

Nose - Nasal catarrh.

Perspiration - Excessive perspiration.

Rectum - Constipation. Hemorrhoids. **Skin** - Cracks in knuckles, fingertips, palms.

Circinate eruption hands, palms, hot, nippy and scaly. Paronychia fingers.

Sleep - Light sleeper. Wakes 2 or 3 a.m. Takes hours to fall off to sleep.

Stomach - Belching.

Throat - Tonsillitis. Quinsy.

Vertigo - Tendency to syncope after sudden exertion. Faintness on standing long and after sudden exertion.

COMMENTS - Rheumatoid arthritis shoulders, elbow, wrists. Relaxed fibrous tissue with tendency to the formation of "rheumatic nodules".

RELATIONS - This bacillus has a closer relationship to the two halogens, **Bromine** and **Iodine** often in combination with Potassium. **Compare:** (1) Bromine, Iodine and particularly the Kali salts, especially Kali-c. (2) Among remedies related to this nosode are many iodides. (3) Calc-f.

REFERENCES - Paterson

.

BACILLUS TEN

PHARMACY - ba-tn. Bacillus ten. This is so named as it was the tenth non-lactose fermenting type of bacillus observed in the laboratory. **Historical dose:** All potencies.

CLINICAL - Allergy. **Asthma.** Anorexia. Cough. Dermatitis. Headache. **Itching. Leucorrhea.** Nasal catarrh. Paronychia. Pruritus, ani. **Pruritis, vulvae.** Rheumatism. **Ringworm.** Vomiting. **"Warts."**

HOMEOPATHIC - Allergy to drugs given for asthma.

MIND - Anxious. Overactive mind. Irritable and depressed.

Abdomen - Pain in gallbladder.

Back - Pain in left iliac fossa and right iliac fossa.

Chest - Panniculitis, chest wall. Lipoma, lower ribs

Food - Anorexia. Averse to egg, bread, tomato, tea and to breakfast. Aggravated by eggs and fat. **Craves sweets, chocolates, fried fish.**

Female-Pruritis vulvae. Leucorrhea, fishy odor, greenish, corrosive. Groin skin is raw, dry and cracked. Urethral caruncle.

Head - Headache in forehead, left eye.

Kidneys - Frequent urination.

Limbs - Tenderness coccyx. Rheumatism of thigh. Rheumatoid arthritis left knee. Paronychia.

Lungs -Asthma. Cough, worse in the morning, sputum difficult.

Mouth - Spongy gums. Offensive breath.

Neck - Fatty cyst.

Nose - Nasal catarrh.

Rectum - Bowel motion first thing in the morning. Sluggish bowel motion. Pruritus ani.

Skin - Warts on hands, numerous flat or pointed (after working with pickled hams). Dermatitis of skin flexures.

Ringworm. Perspiration in axilla.

Stomach - Nausea, vomiting.

REFERENCES - Paterson.

***BACOPA MONNIERI

(Brahmi)

PHARMACY - baco. Bacopa monnieri. Brahmi. Water Hyssop. Thyme-leafed gratiola. Moneywort. Herpestris monniera. Moniera euneifolia. Lysimachia monnieri. N. O. Plantaginaceae. Historical dose: Tincture and all potencies.

CLINICAL - Anemia. Ascites. Biliousness. Blood, disorders. Diarrhea. Epilepsy. Fevers. Indigestion. Leprosy. Leucoderma. **Memory, disorders**. Scabies. Spleen. Syphilis. Tumors. Ulcers.

HERBAL - Bacopa monnieri is a perennial, creeping herb whose habitat includes wetlands and muddy shores. It commonly grows in marshy areas throughout India.

Bacopa monnieri is an herb used in India for memory, epilepsy, and as a mild sedative. It has been used for centuries to treat epilepsy, improve memory capacity, increase concentration, and reduce stress-induced anxiety.

Traditionally, it was used as a **brain tonic** to enhance memory development, learning, and concentration, and to provide relief to patients with anxiety or epileptic disorders.

Patients taking Bacopa say that they can better handle difficult mental tasks and stress. It improves the memory. Increased learning abilities. Protects the brain from the effects of aging. Alleviate anxiety. Mental and brain fatigue. Attention-deficit disorders.

The plant has also been used in India and Pakistan as a cardiac tonic. Digestive aid. Improves respiratory function in cases of broncho-constriction.

According to Unani medicine, it is bitter, aphrodisiac, good in scabies, leucoderma, syphilis etc. It is a blood purifier and useful in diarrhea and fevers.

Bacopa is bitter, pungent, heating, emetic, laxative and useful in bad ulcers. Also used to treat anemia, ascites, enlargement of spleen, biliousness, indigestion, inflammations, leprosy, tumors, etc.

COMMENTS - In India, this herb has also been used traditionally to consecrate new born babies in the belief that it will stimulate the intelligence. Studies suggest bacopa may improve intellectual activity in children.

Recent research has focused primarily on Bacopa's cognitive-enhancing effects, specifically memory, learning, and concentration, and results support the traditional Ayurvedic herbal claims.

Also, research on anxiety, epilepsy, bronchitis and asthma, irritable bowel syndrome, and gastric ulcers also supports the traditional uses of Bacopa.

***BADIAGA

(Freshwater Sponge)

PHARMACY - bad. Badiaga. Freshwater sponge. Spongilla fluviatilis. Trituration of the dried sponge gathered in autumn. **Historical dose:** Trituration and all potencies.

CLINICAL- Basedow's disease. **Breast, cancer**. Bruises. Buboos. Catarrh. Chilblains. Cracks. **Coryza**.

Coughing. **Dandruff**. Edema. Eyes, pains. Glands disorders. Hay fever. Headache. Hemorrhoids. Heart disorders. Indurations. Influenza. Metrorrhagia. Ophthalmia. Neuralgia. Palpitations. Paresis. Rheumatism. Roseola. Scrofula. **Soreness**. Syphilitic, buboes. Syphilis. Tibia, pain. Thyroid, disorders. Tonsillitis. Whooping cough.

HOMEOPATHIC - Badiaga is the Russian name for the river sponge, which is a popular Russian remedy. Among the peculiar symptoms and indications are headache with aching in backs of eyeballs, 2 p.m. to 7 p.m., worse motion. Severe headache in vertex better night, returning severely after breakfast. Headache with inflamed eyes. Pains in eyeballs extending to head.

General soreness of muscles and tissues, feeling as if beaten, worse motion and friction of clothes with sensitiveness to cold. Soreness of anterior muscles of legs, toes bend while walking as if extensors were paralyzed. Left cheek and malar bone sore to touch. Sharp pains in stomach, liver, below scapulae, urethra, chest.

Swollen glands. General paresis. Influenza. Basedow's disease. Syphilis, bubo, roseola. Buboes. Infantile syphilis. Chronic rheumatism, worse by cold, especially in cold air. Chancres suppressed by cauterizations. Breast cancer.

Cough, causes sneezing, profuse coryza, coming from nostril with a gush. Occasional severe fit of coughing ejecting viscid mucus, flying out of mouth. Cough caused by tickling in larynx as if a particle of sugar was dissolving in throat, better in warm room. Pleuritic stitches in chest, neck and back.

Tremulous palpitations, worse lying right side. Palpitations after pleasurable emotions. Edema. It has lessened a hard, cellular swelling of both legs. Sharp stinging in back of right heel, worse least pressure.

MIND - Mind generally clear, active in spite of headache. Palpitations after pleasurable emotions. Desire for mental work.

Abdomen - Sharp pain with a bounding movement in region of liver. Indurated inguinal glands. Syphilitic buboes.

Back - Stitches in nape of neck, scapula. Pain in small of back, hips and lower limbs. Very stiff neck. **Muscles and skin sore**, as if beaten.

Breasts - Indurations. **Breast cancer** (Aster., Care., Con., Carb-an., Plum-i.).

Ears - Slight sounds are very accentuated.

Eyes - Eyeballs tender, aching in eyeballs. **Twitching of left upper lid**. Intermittent sore pain in eyeball, coming on at 3 p.m. Neuralgia of eyeballs extending to temple.

Face - Blue color under the eyes.

Female - Metrorrhagia, worse at night with feeling of enlargement of head (Arg-n.).

Food - Much thirst.

Head - Headache, better at night after sleep. Dull, dizzy feeling in head. Sensation of enlargement and fullness. Pain in forehead and temple, **extending to eyeballs**, worse in afternoon. Headache with inflammation of eyes.

Dandruff. Scalp sore, tetter-like.

Heart - Tremulous palpitations. Heartbeats are felt from chest to neck, worse lying on right side. Indescribable bad feeling about the heart with soreness and pain, flying stitches all over.

Lungs - Cough, worse in afternoon, better in warm room. Cough excited by sweets, candies etc. **This mucus flies out of mouth and nostrils**. Whooping cough with thick yellow expectoration, flies out. Hay fever with asthmatic breathing.

Male - Syphilis of infants. Chancres. Buboes.

Modalities - Better by heat, warm room. Worse from cold air. Worse stormy weather. Worse afternoon. Worse pressure and touch.

Mouth - Hot. Breath hot.

Nose - **Coryza**, sneezing, watery discharge with asthmatic breathing and suffocative cough.

Skin - Sore to touch. **Freckles**. Cracks. Raised and discolored scars.

Stomach - Sharp pain in pit of stomach, extending to vertebra and scapula.

Throat - Tonsils inflamed, swollen, worse swallowing solids.

COMMENTS - J. A. Biegler cured a case in which a woman had, off and on for months, a severe pain in her right eyeball, which extended to her forehead over the eye, then to her temple, always worse in the afternoon. Scalp sore, dry, itching, scurf, tetter.

RELATIONS - Compare: (1) Merc, similar but opposite generals. (2) Hydr., Phyt., Con. (3) Seneg. - cough caused by sneezing, opposite of Bad. (4) Grind. - respiration ceases on falling asleep. (5) Spong. - cough with much sneezing. Kali-c. - phlegm flies from mouth. (6) Calc-s. - indurations, Carb-an. - indurations, buboes. (7) Cist. - scrofula. (8) Clem., Hep., Iod., Kali-i., Lach., Merc., Merc-i., Nit-ac., Sil., Sulph. **Complementary:** Iod., Merc., Sulph. **Followed well by:** Lach.

REFERENCES - Boericke. Clarke.

***BALSAMUM PERUVIANUM

(Balsam of Peru)

PHARMACY-bals-p. Balsamum peruvianum. Balsam of Peru. Myroxylon Pereire. Myroxy- lon peruvianum. Peruvianum, balsamum. N. O. Leguminosae. Caesalpinioideae. Tincture of the balsam that flows from the stems. **Historical dose:** Tincture and all potencies.

CLINICAL - Bronchitis. Catarrh. Cracks. Diarrhea. **Hectic, fevers.** Nosebleed. Scabies. Tuberculosis. Ulcers. Vomiting.

HOMEOPATHIC - Peruvian Balsam has been proved by Lembke. It has been chiefly used empirically in catarrhal tuberculosis or bronchial catarrh with copious purulent expectoration. Sputa thick, creamy, yellowish white, loud rales, night sweats, hectic.

Bals-p. is useful in bronchial catarrh with copious, purulent expectoration. **Debility and hectic fever.** Cracks of nipples and fingers.

Chest - Cough, mucus and purulent expectoration. Tuberculosis of mucus type, vomit in lungs. Loud rales in chest (Kali-s., Ant-t.).

Kidneys - Scanty urine, with much mucus sediment. Urination more frequent and copious. Catarrh of bladder (Chim.). Sticking and cutting in urethra.

Limbs - Oppressive pain in right wrist. Severe pain in left tibia. Boring in right tibia.

Lungs - Bronchitis and tuberculosis with **muco-purulent, thick, creamy expectoration.** Tuberculosis of mucus type, vomit in lungs. Very loose cough, mucus and purulent expectoration.

Nose - Profuse, thick discharge. Chronic, fetid, nasal catarrh. Bleeding from right nostril. Ozaena with ulceration. Eczema with ulceration.

Perspiration - Night-sweats.

Stomach - Vomiting of food and mucus. Catarrh of stomach.

Stool - Mucus diarrhea. Copious liquid stool, painless. Passage of blood with normal stool.

Temperature - Hectic fever and nightsweats with irritating, short cough and scanty expectoration.

Throat - Scraping in larynx in forenoon, dry cough. Continued scraping of fauces.

COMMENTS - Hale used it with success in "chronic, purulent, fetid anterior or posterior nasal catarrh with or without ulceration." He said that a cerate of the Balsam is the best application next to Glycerol of Aloes for indolent ulcers, cracked nipples, cracks in fingers and palmar surfaces of hands or fissured and chapped lips. Bals-p. is used locally as a stimulant to raw surfaces in indolent ulcers, scabies, cracked nipples. Promotes granulation, removes the fetid odor. A one percent solution in alcohol or ether may be used with the atomizer in respiratory disorders.

Internally, it is used as an expectorant in chronic bronchitis. Used externally for killing scabies. All parts affected are gently rubbed with it at night and a bath taken in the morning. A single application is sufficient.

RELATIONS - Compare: (1) Balsamum Tolutanum. (2) Oleum Caryophyllum - oil of cloves in profuse expectoration, 3 to 5 minims in milk or capsules.

REFERENCES - Boericke. Clarke.

***BALSAMUM TOLUIFERUM

PHARMACY -bals-t. Balsamum toluiferum. Balsamum tolutanum. Balsam of Myroxylon toluifera. N. O. Caesalpinioideae. **Historical dose:** Tincture and all potencies.

HOMEOPATHIC - Chronic bronchitis with profuse expectoration.

RELATIONS - Compare: (1) Ant-t., Balsam of Peru, Bac.

REFERENCES Boericke.

***BAMBUSA ARUNDINACEA

(Bamboo)

PHARMACY-bamb-a. Bambusaarundinacea. Barpboo. N. O. Gramineae. **Historical dose:** All potencies.

CLINICAL - Acne. Ankylosing spondylitis. **Arthritis.** Backache. Belching. Colds. Constipation. Cystitis. **Depression.** Diarrhea. Dyspepsia. Gingivitis. Headaches. Heartburn. Indigestion. Influenza. Insomnia. Joint, pains. **Leucorrhea.** Motion sickness. Nausea. Neck, pain. Neuralgic, pains. Nightmares. **Post-partum, depression. Rheumatism.** Ringworm. Sciatica. Spinal, injuries. **Stiffness.** Tendonitis. Torticollis. Tuberculosis. Vertigo. **Vomiting.**

HERBAL - In folk medicine, the leaves have been used to treat blood diseases and inflammation. The hardened material inside bamboo has been used for tuberculosis, asthma and leprosy. The shoots are said to

be an appetite stimulant and digestion aid.

The root has been used for ringworm. The juice from the flowers has been used for earache and deafness. Some modern studies confirm its anti-inflammatory and anti-tumor effects and its action on the uterus.

HOMEOPATHIC -Arthritis and rheumatism. Back pain and sciatica. Spinal injuries. Tension and **stiffness of joints, worse from damp**, cold weather. Clumsiness and awkwardness. Radiating pains. Wandering and wave-like pains. Numbness and tingling. **Post-partum depression** (Sep.). Generally chilly, better from warmth and worse cold and damp.

MIND - Everything seems uncertain. Emotionally sensitive, vulnerable. Yielding disposition. Sadness with weeping. Crying over trivial things. Conscientious about trifles. Capricious. Restless, tosses about in bed. Startled as from a fright.

Cannot handle things anymore, overwhelmed by stress. Mental exhaustion, brain fog. Anxiety, felt in chest. Anxiety during vertigo. Anxiety of conscious. Bites nails. Anxiety about the future, finances. Worries about money. Depression with a strong fear of poverty.

Fear of impending disease. **Fear of something wrong in her head.** Fear of brain tumor, epileptic convulsions. **Fear of lumps in breast.** Fear of something wrong in head, Fear of being observed. Fear of saying something wrong. Fear of vertigo. Hypochondriasis.

Moods changeable, variable. Jealous. Brooding. Domineering. Morose, sulky, cross, fretful, ill-humor, peevish. Anger from noises. Cursing, swearing. Quarrelsome, scolding. Averse to being disturbed. **Irritable towards husband, children**, better in the evening. Irritable, when spoken to. Easily offended. Sensitive to reprimands, criticism.

Post-partum depression. Depression with a feeling that they would never get well again. General feeling of betrayal and desertion. **Forsaken feeling.** New mother feels stressed, drained, overwhelmed, and trapped. Feelings of helplessness. Pities herself. Feels inferior, poor self confidence. Timidity about appearing in public. Discontented, dissatisfied with himself, everything. **Desire for change.** Ennui, boredom. **Feels cut off from life.** Indifference, apathy to everything. Sadness alternating with indifference. Depression before menses, in morning on waking, **afternoon, worse 4 pm.** Desire for solitude.

Mental dullness, sluggishness. Difficulty thinking and comprehending. Concentration difficult while driving, studying, reading, writing.

Confusion of mind in morning, as if in a dream. Mistakes about time. **Confounds the days of the week.** Mistakes in writing, omitting letters. Absent-mindedness. Memory weakness, from mental exertion. Forgetful. Delusions, imagines that she is alone in the world. **Blames her partner for her bad mood.** Imagines he is deceived, deserted, forsaken. Delusions everything will fail. Imagines he has ruined his health. **Delusions, that left and right side are not the same.**

Delusions that body parts are distorted. Foolish behavior. Attempts to escape.

Abdomen - Gas and bloating. Obstructed flatulence. Rumbling noises. Biliary complaints. Tenderness in the gallbladder region.

Back - Backaches. Spinal injuries. Ankylosing spondylitis. Burning along the spine. Stiffness and tension. Cramping, aching and dragging pains. A knotted feeling in the back. Heat waves, flushes. Numbness and tingling. Sacroiliac pains. Coccyx pain, after injuries, stiffness. Stiffness, shoulders. Neuralgic and rheumatic pains, shoulders.

Bladder - Cystitis, from taking cold. Dragging pains. **Pain comes in waves.**

Causations - Ailments from anger, vexation, suppressed anger, anticipation, foreboding, excitement, wounded pride, honor.

Chest - Sensation of a lump near sternum. **Ears** - Hissing noises in ear. Stopped sensation. Pulsation during headache.

Eyes - Blinking. Itching, swelling of eyelids.

Face - Acne. Painful pimples. Numbness. Pain in facial bones.

Female - Dysmenorrhea. Profuse menses. Suppressed menses. **Offensive leucorrhea. Post-partum depression**, accompanied by a stiff neck, back pain or sciatica (Cimic.). Prolonged lochia. Menstrual problems after childbirth. Excoriation of cervix. Tearing pain in ovaries.

Fever - Influenza (Rhus-t.).

Food - Strong aversion to fat and to beer. Desires wine, cheese spicy foods. Desires stimulants, like coffee. Worse from fats, beer and wine.

Head - Headaches are worse from physical exertion, cold wind, and bending the head forward. Pressing pain.

Heart - Stitching, burning pain and stiffness. Dragging sensation in heart region.

Limbs - Rheumatic pains. **Stiffness, worse from damp**, cold weather. Sciatica, as if painful electric currents

running down the sciatic nerve to the hollow of the knee. Sharp, stitching pains. Numbness and tingling. Twitching of limbs. Radiating pains. Wandering and wave-like pains. Icy cold hands and feet. Weakness and heaviness. Swelling of the ankles.

Limbs - Weak ankles. Burning in the soles of the feet. Icy cold feet. Weakness of the hand, difficulty in writing. Contractions and spasms.

Liver - Pressing pain.

Male - Atrophy, shriveled genitals. Troublesome erections. Priapism.

Modalities - Pains are better from rest, heat, hot drinks. Worse in the morning on waking, Worse from cold and damp.

Mouth - Profuse salivation. Gingivitis.

Neck - **Stiffness, worse from damp**, cold weather. Tension in neck. Very difficult to turn the neck. Torticollis.

Nose - Colds. Nasal congestion. Dryness and numb. Sensitive to odors.

Perspiration - Profuse night-sweats. **Odor of sweat, like fresh coffee**. Offensive, sweetish sweats. Sticky, viscid sweats.

Rectum - Anal, itching. Constipation, with soft stool. Diarrhea, like gushing water. Greasy and fatty stools. Involuntary stool.

Skin - Excoriation. Itching during sleep. Painful scars. **Sensitive to hot water**. Stings, from insects.

Sleep - Insomnia. Sleeplessness, from an overactive mind. Constantly turning ideas over in the mind. Wakes 3:30 a.m. to 4:30 a.m. Confused dreams. Nightmares. Dreams of accidents, misfortune, disease, deaths. Dreams of animals, water. Dreams children, old friends. Dreams of teeth falling out. Amorous dreams.

Stomach - Belching. Heartburn, worse from excitement, beer. Indigestion. Dyspepsia. Empty, weak, hungry feeling. Nausea from

odors. Nausea with headaches. Motion sickness. Lump sensation. **Vomiting after nuts**. Vomiting, evening.

Teeth - Toothaches, pain worse from sweets.

Temperature - Alternating fever and chills. Chilliness, worse at night. Shaking, shivering with chills.

Throat - Sore throat. Tonsillitis. Tonsils, suppuration. Coldness sensation. Redness. Lump, plug sensation. Mucus, tenacious, difficult to hawk up. Difficult swallowing. Hoarseness. Roughness sensation. Ulcerative pain.

Tongue - Burning, raw pains. As if tongue was burnt. Formication. Tingling and prickling sensations. Metallic, offensive, sour, putrid taste.

Urine - Dark color, frothy, foamy urine. Profuse, increases amounts urine. Scanty urine. Strong, putrid odor, like rotten eggs, sulphur.

Vertigo - Vertigo with staggering. As if intoxicated. Worse from looking downward. Motion sickness.

Vision - Double vision. Foggy, dim vision.

Blurred vision with lachrymation.

COMMENTS - Bernd Schuster related several cases of his experiences with Bamb-a. The first concerned Karen, a 29-year-old mother, who could not look after her 12-week-old baby because of severe headaches. The baby was delivered by caesarian and her headaches started shortly afterwards.

Initially, the pain was felt only when she shook her head or cleaned her teeth, but by the time the baby was three weeks old she could only lie down. She could not bear the sound of her child crying. Pain was better if she lay down or supported her head. There was a feeling of heaviness or enlargement of her head. Menstruated immediately after childbirth.

Irritable. She said she wished her little boy would get lost. Then she laughed and said she didn't mean it and then cried and said, I feel guilty enough about not looking after him properly. After being given Bamb-a., her head and neck pain did not return and her mood improved markedly

The second case concerned Lisa, a 35-

year-old new mother, who reported "The stress of the birth completely changed me. It was difficult. I am nervous and a wreck. Breastfeeding makes me feel weaker while nursing I have a terrible feeling. My mood is the same as when my mother died. I always weep when I am nursing. I feel empty, miserable, depressed, drained of all my energy."

She was completely stressed and almost felt persecuted by her crying baby. She lay in bed all day. She was afraid to be solely responsible for the child. "I imagined the relationship with the child to be closer, but I need someone to help me I need more support."

After being given Bamb-a., Lisa was more at ease with her baby; the weakness, emptiness and depression have gone and she had more energy. She found it easier to tell friends how she really felt and to accept help. The third case concerned Judy, a 38- year-old mother of two, who suffered from headaches, backaches, sciatica and a feeling of stiffness in the morning, all of which were worse for three days before her period. She had been diagnosed with postnatal depression in the past. She described it as "feeling down."

"My children are not babies any more, but still everything to do with them depends very much on me. My husband is never there. My parents have now moved here and they are always wanting something. And I have to do a lot of jobs physically which women don't usually do. They all come to me when they want something but no one ever asks if they can help me. It bothers me for the future if I get ill, no one will be there for me."

She has had other homeopathic remedies and chiropractic, which both worked well, but it was not until she was given Bamb-a. that her mood improved profoundly, she changed the dynamics in her relationships and her pain and stiffness disappeared.

RELATIONS - Compare: (1) Sep., Puls., Placenta. (2) Rhus-t., Dulc., Cimic., Eup-per.

***BANISTERIOPSIS CAAPI

(Ayahuasca)

PHARMACY - bani-c. Banisteriopsis caapi. Ayahuasca. Spirit Vine. Yagé. Psycho- tria viridis. N. O. Malpighiaceae. South America. Amazon. **Historical dose:** All potencies.

CLINICAL - AIDS. Allergies. Asthma. Autism. Cancer. Chronic, fatigue. Clairvoyance. Delusions. **Digestive, problems.** Drug, abuse. Emphysema. **Hallucinations.** Insomnia. Kyphosis. Malnutrition. Nausea. Numbness. Parkinson's, disease. Scoliosis. Sexual, abuse. Vomiting. Worms.

HERBAL - Ayahuasca, commonly called **yagé**, or **yajé** in Colombia. **Ayahuasca** in Ecuador and Peru. Inca "vine of the dead, vine of the souls," **aya** means in Quechua "spirit," "ancestor," "dead person," while **huasca** means "vine," "rope," and **caapi** in Brazil. Ayahuasca brew is prepared from segments of a species of the vine **Banisteriopsis**, a genus belonging to the **Malpighiaceae**.

HOMEOPATHIC - Tiredness, exhaustion, debility. Unable to move from tiredness. Shakiness and disorientation. Unable to recover one's energy with rest. Feelings of detachment, poor memory and vagueness with the exhaustion. Rushes of energy which are associated with raised heartbeat and that cause some anxiety. Heightened sensitivity of all senses, mostly vision and hearing.

Muscular soreness and weakness from tiredness. Limbs go to sleep, pins and needles sensations. Tightness, tingling, aching, and drawing in the spine. Numbness and general malaise. Anesthesia. Muscle wastage. Tissue necrosis. Easy dislocation of joints. Crumbling of bone tissue.

Digestive tract malfunction. Poor assimilation and metabolism. Imbalance of bowel flora causing psychological symptoms such as depression. Pains can be sharp, sudden on appearance and quick to go, tend to be worse night. Autism. Ailments from injuries, worse spine or the head. AIDS. Cancer. Chronic fatigue. Parkinson's disease. Strong history of drug abuse. Multiple allergy syndrome.

MIND - Confusion of mind. Cannot think straight. Difficult concentration, comprehension. Dullness, sluggishness. Mistakes about time. Memory weakness. Forgetfulness. Thoughts intrude and crowd around each other. Tormenting, persisting thoughts. Amorous thoughts. Clear-sighted, increased precision of mind. Sensitive to all external impressions. Senses are acute. Oversensitive to light, noise, shrill sounds, sad stories. **Charmed by colors, especially red.** Easily startled. Moods are changeable, variable, swings between extremes of rage and well being. Impulsive. Restless, nervous. Impatient, hurried, everybody moves too slow.

Stressed mentally and emotionally. Full of worries, forebodings. Insecure. Anxious, desperate. Anxiety from palpitations, on waking. Anxiety about salvation. Overpowering panic attacks. Prolonged anguish and fear which has heightened every sense.

Irritability from any disturbance, when questioned. Fastidious. Obstinate, headstrong. Rage, fury. Impulse to kill. **Anger during meetings.** Jealousy associated with sexual excitement. Suspicious, mistrustful.

Weeping, causeless. Pessimistic. Dwells on past disagreeable events. Homesick, nostalgic. Sadness, depression, crying difficult. Ailments from grief, sorrow. **Grief of the deepest kind.** Forsaken feeling. Worse from consolation, company. Aversion to company. Indifference, apathy towards friends. Despair of life. Unmitigated misery. Suicidal thoughts. Loquacity alternating with sadness. Loss of self-control.

Feelings of being disconnected, worse fatigue, stress, anxiety or fear. Inability to feel connected to the mother. Desire for sympathy. Inability to remember childhood. Loss of purpose. Sense of uselessness and frustration at not being able to find one's path. Sense of having been derailed. Work fatigues easily. Sympathetic, compassionate.

Fear that something bad will happen. Fear of insanity, of losing self-control. **Fear of crossing a bridge**, of falling. Fear of ghosts, evil. Fear of impending death, feels as if soul were escaping from body. Fear of terrible dreams.

Disoriented. Sense of unreality. Feels as if intoxicated, drugged. Blissful. Cheerfulness. Euphoria. Tranquility, serenity, calmness. Thoughtless. Out-of-body states. Feeling of lightness. Fearlessness. No conception of

time. Incorrect judge of sizes.

Trance. Clairvoyant and clairaudient. Telepathic phenomena. Psychic abilities that may be illusory. Hears voices or receives psychic messages. False messages. Pride about psychic abilities, may be deluding themselves.

Delusions, visions and hallucinations on closing eyes. **Floating in air**, that he is a bird, of flying, that he has no weight.

Delusions that body parts are immaterial, that the head is separated from body, that the mind and body are separated.

Religious delusions, that he lost his salvation, of gods, goddesses, angels, devils, ghosts, spirits. Frightful images, phantoms. **Delusions of dangerous animals, crocodiles, tigers**. Delusions of leopards, reptiles, snakes. Delusions of seeing monsters.

Visions of suffering, cruelty, torture, of being at war. Delusions of danger, of being surrounded by the enemy, of being watched, that another person is in the room. Delusions

-of events long past. Delusions that death is approaching, **about the death of others**.

Abdomen - Flatulence. Malabsorption and malnutrition from defective gut.

Back - Injuries to the spine and coccyx. Tension in the neck. Scoliosis and kyphosis.

Dreams - Exhausting, frightful or joyful dreams. Unremembered dreams. **Dreams of animals**, reptiles.

Dreams of crossing bridges, flying, **musical instruments**, music, food. Amorous, lewd, lascivious, sexual dreams. Dreams of previous events, old friends, people not seen for years. Dreams of anger of cruelty, enemies, death, dying, war, being taken prisoner, strife, being wounded.

Ears - Hears acutely. Hears as if from a distance.

Eyes - Acute vision or blurred. Sees images superimposed on whatever is being looked at. Doubts what is seen, has to look again.

Female - Total loss of libido after use of hallucinatory drugs. Heightened libido, which can lead to excessive masturbation. Excessive libido in those who enjoy it as if it were only a spiritual experience. Sex with detached feelings. Sexual abuse followed by a crippled sex-life. Difficult, prolonged or late periods.

Food - **Craves alcohol, stimulants** such as coffee and tea. No appetite, would prefer to do without food.

Head - Sensation of being stuffed up with cotton wool. Heat in the vertex or cold as ice.

Heart - Congenital heart disease. Real or phantom pains. Raised heart rate. Palpitations.

Kidneys - Weak kidneys. Frequent urinary infections or pains in the kidneys.

Limbs- Muscle wasting. Poor extension and abduction of limbs due to inelasticity of tendons and ligaments.

Poor circulation, coldness and numbness of extremities. Possible remedy for gangrenous states.

Lungs - Restricted breathing from emotional disturbances. Emphysema. Asthma, chronic constricted airways.

Male - Prostate trouble relating to impotency. Total loss of libido after use of hallucinatory drugs. Heightened libido, which can lead to excessive masturbation. Excessive libido as if it were a spiritual experience. Sexual abuse followed by a crippled sex-life.

Perspiration - Offensive, strong, sweetish odor.

Rectum - Constipation, ineffectual urging and straining.

Sleep - **Sleeps as if dead**. Full of dreams. Many and varied dreams. Dreams seem more real than life. Desire to go back into the dream to continue it. Insomnia, from drug abuse or from over-use of sleeping pills.

Stomach - Sensitive stomach, reacts to many foods. Nausea and vomiting after stimulant food and drink. Feels relieved from vomiting. Nausea and vomiting with anxiety and dread.

COMMENTS - Ayahuasca has been noted to produce lethargy, immobility, a desire

to close the eyes and a sense of withdrawal from the environment. Visions or dreams, most commonly of snakes which portend either good or evil: they appear either with an open mouth that threatens to swallow, or in motion. Results are different among non-native users.

Extreme spiritual fear, often followed by giddiness, nervousness, nausea and sometimes vomiting accompanied by profuse sweating.

Flashes of light, which can be followed by a bluish haze on closing the eyes.

General lassitude and a heightened awareness and appreciation of colors. Deep and dream filled sleep. On waking there is a common urgency to pass diarrhea. The net result of the whole experience is one of peace of mind and a physical purging.

Sleep-like trance, in which the person would want to keep the eyes closed, but in which there would be a sense of alertness with greatly increased intensity of awareness and insight into metaphysics or into personal problems of the moment.

Users described various themes, including the separation of soul and body separate, often with a sense of flight, sometimes at high speed. Visions of jungle animals. Mystical visions of angels, Christ or the Devil.

Clairvoyance, vision of a future event. Visual experience of an event from the past that in some way illuminates the present.

RELATIONS - Compare: Anae., Ahal. Op.

REFERENCES - Murphy. Wansbrough.

***BAPTISIA CONFUSA ACETICA

(Australian Baptisia)

PHARMACY - bapt-c. Baptisia confusa acética. Australian baptisia. N. O. Leguminosae. Papilionoideae. Acetum of stem and leaves. **Historical dose:** Tincture and all potencies.

CLINICAL-Dyspnea. Headaches. Oppression. Spleen pain. Typhoid. Vision, weak.

HOMEOPATHIC - Pain in the right jaw and oppression in left hypochondrium, producing dyspnea and a necessity to assume an erect position.

COMMENTS - J. Meredith noted his experience

with this shrub. He showed symptoms including congestion of the forepart of head. Weak vision. Hectic flush after tea. Right molar felt too long, worse by pressure intermittent, right jaw (later both jaws) stiff and painful at joint. Sciatica left side. Appetite increased, more energy for mental work. Improved sleep.

He was also relieved of a distressing symptom, that has troubled him for many months, and for which the ordinary Bapt. tincture in any preparation had failed to relieve. He described it as "a really distressing left hypochondrium oppression, fullness and actual dyspnea, impelling me to assume an erect position."

This oppression would continue half the night. The distress was located either in the spleen or splenic curve of the colon. It was uninfluenced by eating. Bapt-c. seemed to relieve the symptom very rapidly, causing something to move to the left and downwards, after which he went to sleep.

A case simulating typhoid was rapidly relieved by the remedy, showing its relation to Bapt. tinct.

REFERENCES - Boericke. Clarke.

***BAPTISIA TINCTORIA

(Wild Indigo)

PHARMACY - bapt. Baptisia tinctoria. Wild indigo. N. O. Leguminosae. N. O. Papilionoideae. North America. Tincture of fresh root and its bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Appendicitis. Biliousness. **Blood, poisoning.** Brain, softening. Cancer. **Delirium.** Delusions. **Diarrhea.** Diphtheria. Dysentery. **Epidemic, influenza.** Enteric fever. Esophagus, stricture. Eye disorders. **Fevers.** Gallbladder, disorders. **Gastric, fever.** Headaches, bilious. Hectic, **fever. High, fever.** Hysteria. **Infections. Influenza. Intestinal toxemia.** Mumps. Miscarriage, threatened. **Plague. Prostration. Putrid, discharges.** Relapsing, fever. **Septic, fever. Septicemia. Sewer gas, poisoning.** Shivering. Stomatitis. Strokes. Tabes mesenterica. Tinea capitis. Tongue, ulcerated. **Toxemia.** Tuberculosis. **Typhoid fever. Typhus.** Vaccinations. Variola. Worms.

HOMEOPATHIC - Baptisia, the wild indigo of America, has its reputation as a remedy for **typhoid fever**. In low potency it increases the resistant power of the body against typhoid.

In one case, that of an old man, food could be swallowed and retained some days, but not on others. He had always liked very hot food. The esophagus was red and granular. Bapt. 12c cured.

Hale considered it specific in threatened miscarriage from mental depression, shock of bad news, watching, fasting or low septic fevers. Patients in these conditions often complain of "**dreadful sinking at the stomach,**" fetid breath and other symptoms of Baptisia.

Many cases of tuberculosis are relieved by this remedy when the symptoms and type of fever correspond. It has cured hysteria with prostration, numbness and fear of paralysis, wanting to die, rubbing hands continually, restlessness.

Baptisia tinctoria has the ill effects of anti-typhoid serum vaccinations. It affects the blood, causing septic conditions, like low fevers and malaria poisoning. The symptoms of this remedy are of an asthenic type, simulating low fevers, **septicemia conditions** of the blood, malarial poisoning and extreme prostration.

Restlessness, does not sleep quietly, wants to be on the move. **Indescribable sick feeling all over.** Tired, bruised, sick feeling in all parts of the body. Great languor, wants to lie down. Weak and tremulous, as if recovering from a severe illness. Prostration with disposition of fluids to decompose. **Great muscular soreness and putrid states are present.** All the secretions are offensive, breath, stool, urine, sweat, etc.

It has proved specific in a large number of cases is **epidemic influenza.** Besotted look, bleary eyes, aching head, sore throat, pains and soreness all over the body and profound prostration.

Chronic intestinal toxemia of children with fetid stools and belchings. **Foul odor** of the body, breath of excretions, stools, sweat, urine etc. Brown, sordes, stools, menses.

Discharges, stools, hemorrhages etc. are dark in color, fetid. Dark spots appear upon the body. Mucus membranes that become dark. Ulceration of the mucus membranes, especially of the mouth, with tendency to putrescence.

Feeling of **soreness, heaviness and aching of muscles. Prostration is rapid**, bed feels too hard on account of soreness of muscles, yet he feels too weak to move.

Lifeless body but restless mind. Restless, always rubs the hands, hysterical. Insensitive to pain. Parts feel numb or too large. Bed sores. Intermittent pulse, especially in the elderly. Numbness, prickling and paralytic feeling over the whole body, especially left side.

MIND - Dull and confused mind. Inability to think. Mind wanders as soon as eyes are closed. **Confusion, as if intoxicated.** Ideas confused. Aversion- to mental and bodily exertion. Hopeless of recovery and certain of death. Melancholia with stupor. Indifference, doesn't care to do anything. Aversion to hear conversation about sickness or injuries. Falls asleep while answering or does not complete his sentence.

Delirium, wandering, muttering. Wild, wandering feeling. Bewildered. Sense of duality. Illusion of divided personality. **Thinks he is broken or double and tosses about the bed trying to get pieces together.** Imagines his limbs are talking to each other. Sensation as if some person touched him gently while dozing.

Parts feel separated. Worse when thinking of pains in various parts of body.

Abdomen - Distended and rumbling. Fullness and distention of the abdomen. Severe colic in umbilical and hypogastric region. **Intestinal toxemia.** Soreness of abdomen in region of liver. Right side markedly affected. Right, iliac region sensitive. Pain in region of spleen. Abdominal muscles sore on pressure. Sharp, rheumatic pains in groins, worse from walking. Glands of left groin swollen, painful on walking.

Back - Back and hips very stiff, ache severely, worse walking. Symptoms radiate from small of back. Back sore and bruised. Feels as if lying on board. Neck tired, cannot hold it easy in any position. Dull pain in sacrum. Pain in sacrum around hips and legs. Bedsores. Stiffness and lameness of neck muscles, worse on moving head. Rheumatic pains in muscles of back, followed by burning.

Breasts - Dull stitches in left nipple.

Chest - Constriction and oppression of the chest. Weakness of chest. Sharp pains in center of sternum. Weight and oppression in precordial region, with a feeling of unsatisfied breathing, afternoon.

Ears - Ears feel hot and burn, yet cold to touch. Soreness in right ear, running down neck. Roaring in ear, with mental confusion. Dull hearing. Early deafness in typhoid conditions. Delirium with almost complete deafness.

Eyes - Blood vessels congested, eyes look red, inflamed. Eyes feel swollen. **Eyelids heavy.** Half closed. Cannot bear light. Feeling as if eyes would be pressed into head. Eyeballs feel sore with great confusion of sight. Visually, everything appears to move. Severe pains in eyes on reading, compelling to stop. Partial paralysis of lids. Photophobia, eyes burn, but don't water. Chronic ophthalmia.

Face - Anxious, frightened look. Dusky, stupid. **Besotted look.** Dark red. Heat and redness of face. Sweats on face and forehead. Face and whole head feel numb. Pain at root of nose. Burning, prickling of left side of face and head. Cheeks burn. Muscles of jaw rigid. Cracked, bleeding lips. Pain in left parotid gland. Lower jaw drops.

Female - Menses too early and too profuse. Threatened miscarriage from mental depression, shock, night-watching, low fevers. Lochia acrid, fetid. Puerperal fever. Stomatitis of nursing mothers.

Food - No appetite. Constant desire for water. Great thirst. Loss of appetite. Averse to nourishment and stimulants. Child can drink nothing but milk. All symptoms worse from beer (Kali-bi.).

Head - Congestive headache. **Headache, as if intoxicated.** Dull, bruised feeling in occiput. **Headache, fever and delirium.** Frontal headache, with pressure at root of nose. **Headache, with stupor and confusion.** Excitement of brain, with delirium at night. Feels too large. **Heavy, numb feeling in head.** Brain feels sore. As if a blow or heavy pain on occiput. Vertex feels as if would fly off. Brain feels sore. Skin of forehead feels tight, seems drawn to back of head.

Heart - Heartbeats seem to fill the chest. Feeling of greatly increased frequency of heart's pulsations, seem to fill chest. Audible palpitations. Pulse first accelerated, then slow and faint.

Kidneys - Sharp pain in region of right kidney. Shooting pain in left kidney. Burning when urinating. Increased secretion of urine at night. Urine is scanty, dark red, alkaline and fetid. Light-green urine. Uremia.

Limbs - Muscles ache, sore and bruised pains. Feels as if lying on a board, changes position often. **Bed feels too hard**, worse in region of sacrum. Great weakness, especially in lower limbs. Stiffness and pain, aching and drawing in arms and legs. Wandering pains in all the limbs with dizziness. Bedsores.

Liver - Soreness over region of gallbladder with diarrhea. Pain in liver, from right lateral ligament to gallbladder, can scarcely walk. Constant pain in stomach and liver, worse walking, hot sensation, heavy aching in liver. Pain in liver region on going upstairs.

Lungs - Asthmatic oppression of chest, with frequent yawning. Bronchial asthma. Craves air. Afraid to go to

sleep on account of **sense of suffocation** and nightmares. Snoring. Awakes with great difficulty of breathing. **Lungs feel tight and compressed.** Breathing difficult from weakness of chest, worse on waking, better standing. Cough from tickling in throat.

Male - Dull pain in right groin and testicle. Orchitis. Pressing pain in testes as if squeezed.

Modalities - Better drinking liquids. Better open air. Better motion. Worse from open air, cold wind. Worse autumn. Worse hot weather, humid heat. Worse fog. Worse indoors. Worse from pressure. Worse on waking, walking. Worse mental exertion. Worse swallowing solids. Worse during sleep.

Mouth - Mouth and tongue very dry in fevers. Filthy taste with flow of saliva. Flat, bitter taste. Foul or bitter nauseous taste. **Putrid, offensive breath.** Breath fetid. **Can swallow liquids only,** least solid food gags. Lower jaw drops. Sore mouth of nursing child. Thick speech. Soft palate swollen. Putrid ulcers with salivation. Saliva viscid. Ulcers in the mouth. Sordes on lips. Dark red, tumid mouth and throat.

Nose - Dull pain at root of nose. Nosebleed of dark blood. Sensation of fullness, edema. Sneezing and feeling as after a severe cold. Thick mucus from nose. Right nostril stopped up. Illusion of smell of burnt feathers.

Perspiration - Fetid sweat. Beginning of typhus when the nervous symptoms predominate, causes sweat to break out and relieve. Typhus with sweat on forehead and face.

Rectum - **Intestinal toxemia** of children with fetid stools and belchings. Constipation with fullness of abdomen. **Offensive diarrhea day and night.** Diarrhea sudden, horribly foul, mushy, painless, dark or bloody stools. Aphthous diarrhea. Very fetid exhausting diarrhea. Dysentery of the elderly people with pain in limbs, small of back and rigors. Painless dysentery with fever. Stricture from hemorrhoids. **Stools very offensive, thin, dark, bloody.** Stool like sheep dung, dry and crumbling. Stool papescent, with large quantities of mucus.

Sensations - As if bruised or beaten all over the body. Bed feels too hard, makes him feel sore and bruised. Feels as if lying on a board, changes position.

Skin - Livid spots all over body and limbs. Burning and heat in skin (Ars.), worse in face. Eruption like measles or urticaria. Confluent smallpox, tardy eruption. Foul,

Baptisia tinctoria gangrenous, eating syphilitic sores. Putrid ulcers with stupor, low delirium and prostration.

Sleep - Fears going to sleep on account of nightmare and sense of suffocation. **Drowsy, stupid and languid, slides down in bed.** Drowsiness, can only keep awake by great effort. Falls asleep when answering a question. Lies curled up like a dog on one side. **Sleepless and restlessness.** Sleeplessness with wandering of mind. Weary, as if he had not slept enough. Cannot get herself together, feels scattered about bed. Troubled with dreams, but inability to remember them. Nightmares and frightful dreams.

Stomach - Gastric fever. Can swallow only liquids. Cramp in stomach, evening. **Constriction at cardiac orifice.** Cardiac orifice contracted convulsively. Ulcerative inflammation of stomach and bowels. **Dreadful sinking feeling in the stomach.** Pain in epigastric region. Feeling of hard substance (Abies-n.). Nausea with eructations, followed by painful vomiting. Easy vomiting. Sudden attacks of vomiting and diarrhea, with fever. Vomiting due to spasm of esophagus.

Teeth - Sordes on the teeth and lips. Teeth and gums sore, ulcerated. Gums oozing of large quantities of blood on pressure with finger.

Temperature - Chill with rheumatic pains and soreness all over body. Chilly with soreness of body. **High fever, sudden onset.** Sweat relieves. **Gastric influenza.** Typhoid and cerebral forms of fever. Shipboard fever. Heat all over with occasional chills. **Septic fevers.** The whole surface hot and dry with occasional chills, mostly up and down the back. **Typhoid fever.** Hashes of heat, feeling as if sweat would break out. Uncomfortable burning all over surface, especially face.

Throat - Aphonia. Larynx sore to touch, painful swallowing or speaking. **Septic sore throat.** Fauces red, dark, putrid ulcers. **Painless sore throat and offensive discharge.** Numb inside but sensitive outside. Mucus rattles in throat. **Can swallow liquids only, least solid food**

gags. Spasms of gullet. **Constriction** at cardiac orifice of esophagus. Constrictive feeling in throat causing frequent efforts at swallowing. Dark redness of tonsils and soft palate. Tonsils and soft palate dark red and swollen. Sharp pain in right tonsil. Ragged ulcers in the throat.

Tongue - Burning at root of tongue. **Tongue feels burned.** Tongue feels thick. Brown down the center, cracked, sore, ulcerated. Tongue is dry, glistening edges. Yellow- brown coating in center, edges dark-red and shining. Tongue cracked, bleeds, heavily coated. Numb, pricking sensation in tongue. Root of tongue feels numb.

Vertigo - Confused, swimming feeling in head. Vertigo, with paralysis of eyelids. Vertigo, with severe nausea. Vertigo with a weak feeling, especially of lower limbs and knees. Vertigo as if intoxicated, worse walking. Vertigo, pressure at root of nose.

COMMENTS - Stupor, falls asleep while being spoken to, confused as if drunk. Cannot keep his mind together, a wild wandering feeling. This scattered feeling is further exemplified by the illusion that the body is double,

limbs separated and conversing with each other. Can't sleep because body seems scattered about and cannot collect pieces. Indifferent and apathetic.

There is a dull, heavy sensation in the head with drowsiness and heavy eyelids. The head feels large with a numb feeling of head and face. Bruised headache, as if soreness in brain, bruised feeling in occiput, heavy feeling at base of brain with drawing in of cervical muscles. Frontal headache with pressure at root of nose. The neck is tired, cannot hold head easy in any position. The jaw drops, prostration.

The eyes cannot bear light, burn, are weak, painful on reading. Weight on eyes, eyeballs sore, feels lame on moving eyes. Blear-eyed. Lids partially paralyzed. An illusion of smell "as of burnt feathers" has been caused and cured by it. Pain in left parotid gland.

Flat, bitter taste. Tongue swollen, feels numb, speech difficult. Whitish yellow coating and feels burnt or scalded. Dry, parched, brown center, cracked and ulcerated. Canker

sores in mouth. Ropy saliva. Sore mouth in nursing children. Thirsty. Sore throat with abscessed tonsils and pus (Merc.). Painlessness is a feature in the sore throat, putrid, painless, dark ulcers.

Esophagus feels constricted down to stomach, can only swallow liquids, cases of convulsive contraction of esophagus and cardiac orifice with regurgitation of food have been cured by it. Nausea, retching and vomiting. For food poisoning from bad water.

Gastric flus with nausea, loss of appetite and diarrhea (Nux-v., Ars.). Sinking, gone feeling.

Pain in liver and gallbladder. Pain in spleen, in right iliac region, in groin, swollen glands. Soreness of abdominal muscles in right iliac region. Fetid, exhausting diarrhea, dysentery in autumn or hot weather. Bleeding from the colon, dark, offensive blood. Worms.

The urine is high-colored, scanty, alkaline, and fetid. Orchitis, squeezed pain in testes.

Lumbar backache. Feels as if lying on a board, bed feels hard. Pain in sacrum. Weakness of lower limbs. Much prickling and numbness in left foot. Numbness and soreness. Excessive drowsiness. Bedsores with offensive discharge (Hyper., Led.). Offensive, putrid discharges, like something is decomposing. The sweat is putrid, cadaver-like odor.

Threatened miscarriage (Pyrog., Caul.), from overexertion, excitement, emotional stress, morning sickness, or lifting.

Sudden onset septic fevers. Overall feeling of toxicity. Drugged look, "besotted appearance," "dusky appearance." Septic infection from blood poisoning from an infected wound, or after childbirth or surgery. Good for toxic flu.

On a spectrum, Gelsemium is the mild toxic flu. then Baptisia, then Pyrogen for the most toxic. The first keynote is a bad taste in the mouth, foul mucus in the back of the throat.

Used in the past as the primary remedy for typhoid, contemporary interest for AIDS, as they share many symptoms. Possible remedy for toxic fever with an AIDS case, with diarrhea, emaciation, and chronic recurring fever.

RELATIONS - Compare: (1) Echinacea angustifolia is perhaps its nearest analog. (2) Gels., Am., Ars., Pyrog., Bry. or Ars. may be needed to complete the favorable reaction. (3) Ailan- thus differs, being more painful. Bapt. more painless. (4) Rhus-t., Mur-ac., Hyos., Kali-m., Lach., Mur-ac. and Nit-ac.. **Follows well:** Ars. **Followed well by:** Ter., Nit-ac. Ham., in typhoid Nux-v., Op., Rhus-t. Sil. has like Bapt., ability to swallow only liquids like milk, but unlike Bapt., Sil. has aversion to milk.

REFERENCES - Boericke. Clarke. Mutphy. Phatak.

***BAROSMA CRENULATUM

(Buchu)

PHARMACY - baros. Barosma crenulatum. Buchu. Barosma betulina. Barosma sanatifolia. N. O. Rutaceae, genus, Diosmee. South Africa. Tincture of dried leaves. **Historical dose:** Tincture and all potencies.

CLINICAL - Bladder disorders. Calculus. Catarrh. Gravel. Leucorrhea. Prostate, disorders.

HERBAL - The leaves of several species of Barosma contain in vitae a volatile oil, having a warm camphor-like taste and an odor something like mint.

HOMEOPATHIC - Buchu has a markedly specific effect on mucus membranes and especially on the genito-urinary system, closely resembling that of Sabal, Populus, Copaiva and Thuja. There are no provings of the remedy and the only uses made of it have been with the tincture.

Muco-purulent discharges. Hale gave as indications chronic disorders of genito-urinary organs with muco-purulent discharges, abundance of epithelium mixed with pus and mucus corpuscles.

Irritable bladder with catarrh or gravel with spasmodic stricture. Prostatic disorders. Vaginal leucorrhea. Undue secretions from

mucus follicles of urethra, seminal vesicles or prostate produced by excessive sex or masturbation.

RELATIONS - Compare: (1) Cop., Thuj., Pop., Chim. (2) Diosm.

REFERENCES - Boericke. Clarke.

***BARYTA ACETICA

(Barium Acetate)

PHARMACY - bar-acet. Baryta acética. Barium acetate. Trituration. **Historical dose:** Trituration and all potencies, second and third trituration.

CLINICAL - Forgetful. **Paralysis.** Rheumatic pain.

HOMEOPATHIC - Hering and Hahnemann combined the two, Baryta acética and Baryta carbonate. Hering said there is hardly any difference between the two and certainly none in the symptoms cured. Bar-a. produces paralysis beginning at the limbs and spreading upward (Con.). Pruritus of aged.

MIND - Absent-minded. Forgetful. Foggy mind. Childish and stupid. Lack of self confidence. Wavering long between opposite decisions. Weak mind.

Back - Lumbago. Fine stitches in neck. Suppurating pimples. Spinal disease with tinea capitis.

Eyes - Immovable pupils.

Face - Feeling of cobweb in face. Cadaverous pallor. Pale face. Drawn features, eyebrows rather drooping. Dark redness of cheeks. Mouth arawn to one side.

Head - Tinea capitis. Very disagreeable formication and pricking under skin of head and face.

Heart - Dull, deep sounds of heart. Pulse very small and frequent.

Kidneys - Frequent urination. When appetite improved and thirst lessened, urinary secretions became very considerable. Clear and abundant urine. Incontinence of urine and feces.

Limbs - Crawiing pain with burning stitches. **Paralysis of limbs.** Rheumatic pain in muscles and joints. Drawing pain down whole left leg.

Liver - Sensation as of a ball in liver. Region of liver as if swollen and cold.

Rectum - Involuntary stools. Rumbling in bowels. Diarrhea. Semi-liquid stool followed by constipation.

Lungs - Breathing gradually more and more embarrassed. Imperfect and very frequent respiration. Respiratory sound almost inaudible. Inability to cough, to expectorate. Inability to articulate words.

Skin - Skin cool and rather moist. Skin covered with profuse sweat.

Sleep - Wants to sleep all the time. Restless sleep. Moaning and muttering during sleep.

Stomach - Retching. Nausea followed by sudden and very copious vomiting of bile. Severe attacks of very copious vomiting. Vomiting almost regularly every hour for twenty-four hours.

Tongue - Cold tongue, somewhat black. **RELATIONS - Compare:** (1) Bar-c., Bar-m. **REFERENCES** - Boericke.

***BARYTA CARBONICA

(Barium Carbonate)

PHARMACY - bar-c. Barytcarbonica. Barium carbonate. Bar-c. with which are included symptoms of Baryta acética. Trituration of carbonate. **Historical dose:** Trituration and all potencies.

CLINICAL - Amenorrhea. **Aneurysm.** Arteriosclerosis. Asthma. Atheroma. Atrophy. Baldness. Brain disorders. Bronchitis. **Down's, syndrome.** Dwarfish, children. Colds. Cysts. Dyspepsia. Emaciation. Esophagus, spasms. **Fatty tumors. Foot sweats. Glandular, swellings.** Hemorrhoids. Heart, disorders. High blood pressure. Impotency. Leucorrhea. **Lipomas.** Marasmus. Memory, defective. **Mental, retardation.** Ophthalmia. Palpitations. Paralysis. Parotiditis. Photophobia. **Prostate, enlarged.** Quinsy. Sarcoma. **Senile, dementia. Strokes.** Throat, sore. **Tonsillitis. Tonsils, enlarged.** Tumors. Warts. Vertigo. Waterbrash. Wens. **HOMEOPATHIC** - Bar-c. is especially indicated in infancy and old age. Dwarfish children and childish old people. Elderly people who are overweight. It has cured a case of fetid foot sweat with spells of despondency, seeking solitude, sobbing and crying.

Bar-c. has cured tumors of several kinds. Induration in the breasts. Sarcoma in neck with burning. Fatty tumors, especially about the neck. Swelling and induration of glands.

Has cured baldness in young people, tinea, wens. The scalp is very sensitive to touch. Enlarged glands in occiput and neck. It has proved curative in the habitual colic of children who do not thrive, enlarged mesenteric glands. Hungry, but refuses food, painful swallowing.

It's a cardio-vascular poison acting on the muscular coats of heart and vessels. Arterial fibrosis. Blood vessels soften and degenerate, become distended and aneurysms, ruptures and apoplexies result.

Affects glandular structures and useful in general degenerative changes, especially in coats of arteries and senility. Many cases of **aneurysm** have been cured with Bar-c. It corresponds to the atheromatous condition.

For those liable to **take cold easily**, sore throat from cold, glandular disorders. There is a tendency to **enlargement of the glands** with indurations especially tonsils, cervical and **prostate**. Takes cold easily and then **always have swollen tonsils**. Catarrh of posterior sinuses with frequent nosebleeds.

This remedy brings aid to scrofulous children, if they are backward mentally and physically. Dull, and apathetic. **Down's syndrome, delayed development**. Marasmus. Dwarfish, they do not grow and develop. Scrofulous ophthalmia with a swollen abdomen. Persons subject to quinsy, which is prone to suppurate, gums bleed easily.

Diseases of old men when degenerative changes begin in cardiac and cerebral vascular. Old men who have **enlarged prostate** or indurated testes. Offensive foot sweats. Very sensitive to cold. Very weak and weary, must sit or lie down or lean on something. Averse to meeting strangers.

Often useful in the dyspepsia of the young who have masturbated and who suffer from semina' emissions together with cardiac irritability and palpitations. Cysts. Sarcoma with burning. Vascular softening and dilation, aneurysm, ruptures, strokes. **Lipomas, fatty tumors**. Emaciation of persons who were well nourished. Prostration, weariness, constant inclination to lie down, sit or lean on something. Upper half of the body feels stiff and numb. Too tired even to eat. Paralytic effects.

MIND - Increasing mental weakness. Beclouded mind. Difficult concentration. **Irresolution**. Confusion. Idiocy. **Senile dementia. Slow mental grasp**. Loss of memory tries to recollect past events. Forgets her errand or word in her mouth. **Slow, inept and backward**. Thinking of ailments worse. Mental dullness. Irresolute. Lost confidence in himself. Mental functions loss after a stroke.

Bashful. Timid. **Cowardly**. Shy of strangers. Aversion to strangers, shuns, avoids strangers and unfamiliar faces. Dread of strangers. Mistrustful. Hides behind the furniture and keeps the hands over the face, peeping through the fingers. Easily frightened and afraid of strangers. Childish and thoughtless behavior, worse since a stroke.

Idiocy. Whining mood. **Silly**, absurd. **Mental retardation**. Children cannot remember to learn. Slow in learning to talk. **Difficult concentration in children**. Talking mania during menses in young girls. Child does not want to play but sits in the corner doing nothing. Excessively busy, without any aim.

Anxiety about future. Anxiety about domestic affairs. Censorious, critical. Conscientious about trifles. Grief over trifles. Suspicious that people are talking about her. Imagines being criticised and laughed at. Thinks one is being laughed at and made fun of. **Homesickness**. Oversensitiveness of all senses. Heedless. Loquacity during menses. Sadness about trifles. Exaltation of fancies at night.

Abdomen - Habitual colic of children who do not thrive and though apparently hungry refuse food. **Children with large abdomen**. Hard and tense, tender, distended with emaciation of body. Colicky pains. Pain in abdomen swallowing food. Colic with hunger, but food is refused. As if intestines fell from one side to other on turning in bed. Mesenteric glands hard and swollen.

Back - Burning in back. **Glands swollen** in nape and occiput. Weakness of spine. Pulsation in back after emotions. Bruised pain between scapulae. **Indurated cervical glands, like knotted cords**. Stiffness in sacrum. Throbbing in back after emotions. Fatty tumors upon the neck. Chronic torticollis. Itching on lumbar region. Cramp in neck.

Causations - Ill effects of checked foot sweat. Vaccinations.

Chest - Sharp pain in chest, worse inspiration. Pains in the chest, mitigated partly by belching and by external heat. Sensation of soreness in the chest. Fullness and pressive heaviness, especially when ascending. Chest as if sore when coughing. Pain in axillary glands, which are swollen. Chest sensitive to pressure. Itching and burning stinging in moist, pustular eruption on chest.

Constitutions - Marked influence on the **growth** especially of children and old people, who become childish. In children the growth is retarded, they become dwarfish mentally and physically. Children are late coming into maturity to take on their responsibilities and do their work. It is a remedy for early senility and when degenerative changes in old men begin in heart, brain and vascular system.

Cough - Dry suffocative cough in old people, full of mucus but lacking strength to expectorate. **Cough after getting feet wet, or least exposure to cold air**. Cough is worse every change of weather (Seneg.). Cough worse in the presence of strangers, eating warm food. Chronic cough, in scrofulous children, with swollen glands and enlarged tonsils.

Ears - Hardness of hearing. **Crackling noise**, worse swallowing, walking. **Glands around ears painful and swollen**. Itching in ears. Eruptions on lobes of ears. Eruption on and behind ears. Suppuration of middle ear. Reverberation on blowing nose. Roaring in right ear. Buzzing and jingling.

Eyes - Burning and pressure in eyes after exerting vision. Feeling of sand in eyes. Redness of conjunctiva, with swollen lids. Itching in eyes. Photophobia. Pressure deep in eyes, better looking downward. Light dazzles and hurts eyes. Opaque cornea. Agglutination of lids. Eyelids are granular, thickened. Pupils dilate and

contract quickly. Cataracts (Calc-p., Phos., Sil.).

Face - Expression stupid and vacant, always whining. Tension as from a cobweb (Alum.). Sensation as if white of egg had dried on face. Parotitis after scarlatina. Face deep red with purple lips and great congestion of the blood. Prosopalgia. Eruption on the face. Lips dry and cracked. Swelling of upper lip, with burning pain. Lips pendulous. Acute pain in the joint on closing the jaws. Swelling of the submaxillary glands, with induration.

Female - Amenorrhea. Menses scanty, last only one day. Before menses, pain in stomach and lumbar back. Menses of long duration. Tearing pain in vulva. Leucorrhea, immediately before menses. Genitals feel numb. Atrophy of ovaries and breasts.

Food - Loss of appetite, though food has natural taste. Food has a sour taste. Hungry, but refuses food. Sudden disgust while eating. Aversion to sweet things, fruits especially plums. Desire for sweets. Worse after warm food. Better from cold diet. Weakness of digestion. Thirst during chill.

Head - Head sensitive to cold, disposed to catch cold when washing head. Brain feels loose, better cold air. Heavy pressure over eyes. Stitching pain when standing in sun. Pulsation in temples. Crawling over scalp, as from ants, in spots. Wens on scalp. Dry eruptions or moist crusts on the scalp. Tension as if skin were too tight. Hair falls out. Baldness of vertex. Premature baldness, even in very young men.

Heart - Arteriosclerosis. High blood pressure. **Aneurysm**. Cardiac symptoms after suppressed foot sweat or after masturbation. Heart feels bruised, sore. Palpitations and distress in region of heart. Palpitations

Baryta carbónica when lying on left side, when thinking of it. Palpitation felt in head. Violent, long- lasting palpitations. Pulse full and hard. Pulse, slow, small.

Kidneys - Burning in urethra on urinating. Every time patient urinates, his hemorrhoids come down. Urging to urinate, cannot retain the urine. Renewed straining after urination, with dribbling of urine. Frequent urination. Passes much urine at night. Urine is dark brown, scanty.

Limbs - Pain in axillary glands. Pain in deltoid on raising arms. Limbs feel numb. Numbness from knees to scrotum, better when sitting. Fingers numb. Pain in joints, burning pains in lower limbs. Trembling of feet and hands while writing. Cold, foul foot sweat. Pain in the knees, while kneeling. Cold, clammy feet (Calc.).

Fetid foot sweats. Toes and soles sore, soles painful when walking. Soles feel hot or bruised at night during sleep.

Lungs - Asthma of old people, worse wet, warm air. Chronic bronchitis. Oppressed, breathing with anguish. Paralytic aphonia. Larynx feels as if smoke were inhaled. Lungs feel full of smoke. Paralysis of lungs in elderly people.

Male - **Enlarged prostate gland**. Flabby genitals. Genitals feel numb. Indurated testicles. Small retracted testicles. Impotency. Premature emissions. Diminished desire. Erections when riding. Erections only in morning before rising. Falling asleep during sex. Painful nodes in breast in old fat men. Moisture and soreness between scrotum and thighs. Sweats about scrotum.

Modalities - Better walking in open air. Better cold food. Better warm wraps, warm atmosphere. Better when alone, standing. Worse while thinking of symptoms. Worse company. **Worse mental exertion, emotions**. Worse raising arms. Worse sitting. Worse lying on painful side. Worse left side. Worse from cold air, cold damp. Worse cold exposure to feet and head. Worse washing. Worse odors. Worse warm food and after eating. **Worse suppressed foot sweat**. Headache is worse from heat of sun or being near a warm stove.

Mouth - Mouth feels numb. Sour, bitter taste. Whole mouth filled with vesicles, especially inside the cheek. Saliva runs put, while asleep. Dribbling of saliva at dawn. Feter oris, unnoticed by himself. Awakes with dry mouth. Sudden accumulation of water in mouth. Much tough mucus in mouth.

Nose - Dry, sneezing, worse blowing it. **Coryza with swelling of upper lip and nose**. Coryza worse mornings. Tip and edges of nose are painful. Sensation of smoke in nose. Discharge of thick, yellow mucus. Frequent nosebleeds. Nosebleeds before menses. Scabs around wings of nose. Smell sensitive.

Perspiration - Sweats on single parts, one hand, one foot, Sweats on one side of body, face. **Fetid foot sweats**. Stinking sweat of feet. **Worse suppressed foot sweat**. Debilitating at night.

Rectum - Burning in anus and rectum during stool. Crawling in rectum. Ascarides. Hemorrhoids protrude while urinating. Shooting pain in hemorrhoids. Constipation with hard, knotty stools. Diarrhea with lumbar ache. Diarrhea, with bloody mucus. Anus sore and moist. Oozing at anus. Anus as if excoriated.

Skin - Acne. **Lipomas**. Cysts. Whitlows. Intolerable itching and tingling over the whole body at night. Sensation like the pricks of burning needles, itching and crawling sensations. Burning sarcoma. Excoriation and oozing in several parts of the skin. Injuries in the skin heal with difficulty. Swelling and induration of the glands. Warts.

Sleep - Sleepy and can't sleep. Sleepiness in the daytime. Sleepiness and weariness on slightest exertion. Talking in sleep, awakens frequently, feels too hot. Twitching during sleep. Sleep, agitated. Frequent waking and anxious dreams. Almost constant dreaming, causes anxiety at night.

Stomach - Sensitivity of stomach. **Spasms of esophagus** as soon as food enters esophagus, causes gagging

and choking (Merc-c., Graph.). Pain and weight immediately after a meal with epigastric

Baryta carbónica tenderness (Kali-c.). Pain while fasting and after eating. Sore spot in stomach. Weak digestion of old people with possible malignancy, better cold food. Dyspepsia of young masturbators or with seminal emissions. Long-lasting nausea. Morning sickness and vomiting. Vomiting fluid, water and chalk, followed by prostration. Waterbrash, hiccough and eructation, which relieves pressure as of a stone.

Teeth - Rapid decay of teeth. Gums bleed and retract. Gums hurt when touched. Toothache with swelling of gums. Toothache, worse before menses. Involuntary chattering of teeth. Fistula dentalis. Abscesses at roots.

Temperature - Strong disposition to chilliness. Chilliness relieved by external heat. Flushes of heat, more at night.

Throat - Submaxillary glands and tonsils swollen. **Takes cold easily with stitches and smarting pain.** Tonsils inflamed with swollen veins. **Suppurating tonsils from every cold.** Enlarged tonsils. **Quinsy.** Smarting pain when swallowing, worse empty swallowing. Feeling of a plug in pharynx. **Tendency to tonsillitis.** Can swallow liquids only. Sudden waterbrash. Sore throat with salivation. Throat troubles from over use of voice. Stinging pain in tonsils, pharynx or larynx. Submaxillary gland swollen. Much burning in throat. Chronic torticollis.

Tongue - Tongue, weak, hard, cannot speak. Paralysis of tongue. Smarting, burning, in tip of tongue. Burning soreness or vesicles on tip or under the tongue. Tongue as if swollen, with dryness, early in morning. Tip of tongue cracked and sore. As if blisters were on side of tongue.

Vertigo - Vertigo with confusion, in morning. Vertigo when standing in the sun, sharp pain extending through head. Vertigo of elderly people. Vertigo with nausea, worse stooping. Vertigo when lifting arms up.

Vision - Amblyopia. Gauze before eyes. Fiery sparks before eyes in dark. Sparks before eyes in dark. Diplopia. Weakness of sight caused by old age. Flying webs and black spots. Optical illusions, generally in bright colors. Sees everything as in a fog when closing eyes and pressing balls. Sees a cloud before left eye. Weak vision, worse during day, evening. Weak vision in candlelight

COMMENTS - A paralytic condition runs throughout the pathogenesis. There is paralysis of mind and body. Mistrust, lack of self-confidence, aversion to strangers. The child does not want to play.

Deficient memory. Children cannot remember and learn. Sensation as if the brain is loose.

Vertigo with nausea from stooping, or when lifting arms up in old people. Pressure and sticking in brain at vertex, on waking.

Rough, dry and herpetic eruptions on the face. Dark redness. Tension of whole face as if egg white had dried on it, as if a cobweb (Bar-acet.), over face, temples and scalp. Painful swelling of parotid and of submaxillary glands. The sense of smell is very acute, may have an illusion of the smell of pine smoke. Nosebleed before menses. The tongue is paralyzed. Salivation, saliva runs out during sleep.

The digestion is weak after eating. Pressing in the stomach, pain in hard, swollen abdomen. Stomach feels sore while eating, it feels as if the food had to force its way through some raw place.

The anus is sore and humid. Hemorrhoids protrude with urination as well as stool. Constipation with hard, knotty stools, hemorrhoids, burning and soreness. The paralytic condition appears in the sexual organs. Soreness and moistening between scrotum and thighs. Impotence. Enlarged prostate.

Paralytic condition of the respiratory organs. Feeling in the larynx as if inspiring smoke or pitch. Hoarseness and loss of voice from cough, mucus in larynx and trachea. Suffocating catarrh and paralysis of lungs in old people. Sensation as if lungs are full of smoke.

There is a spasmodic cough, like whooping cough, from roughness and tickling in the throat and the pit of stomach. Cough is worse evening until midnight. Worse after getting feet cold, exercise, lying left side, cold air, thinking of it.

Palpitations with soreness of heart, worse lying on left side, worse thinking of it. Violent, long-lasting palpitation felt in head. Palpitations worse on exertion. Slightest exertion makes him feel tired and sleepy. Aneurysm and atheroma.

Marked pulsation in the back. Stiffness and tension in small of back in the evening, especially while sitting, allowing one to neither rise nor bend backwards. Painfulness of arms and swelling of axillary glands. Cold feet. Fetid perspiration of feet. Corns with burning and stinging. Burning and drawing pains are frequent in lowerlimbs. Tearing in limbs with chilliness. Tension and shortening of muscles

Intolerable irritation all over like prickings and tingling, waking him at night. Itching, sore and humid skins. Warts. General soreness and sensitiveness. Small wounds ulcerate and get very sore. Offensive sweat of one side (mostly the left). Cold, clammy feet (Calc.). Chilliness predominates. Left side much affected. After eating, so weak cannot raise his hands. Too weak to masticate.

Down's syndrome, delayed development. Slow learning, slow speech, slow walking and coordination, delayed dentition. Difficulty making connections between words and objects, communication problems. Weak

long-term memory, forgetfulness, poor attention span. Simian fold, a straight line across the palms.

Retarded development of growth, or of a specific organ. Stimulates the growth hormone (Pituitin. 6x) if child is still growing. Also for pituitary tumors. Growth could be stopped by trauma, vaccination, or shock. Delayed development of the genitalia, especially the ovaries and the testicles. Undescended testicles (Aur., Clem.).

Very shy, gentle, and docile. They have very poor self-confidence. Inability to make decisions. The Bar-c constitution has floppy hands and feet, and giggling, spacey eyes. Simple mindedness. Symptoms of autism, dreamy. Never leave childish state, dependent.

Dumbfounded look on their face, clumsy, dull. Can have night terrors (Calc.).

Post-apoplectic in the elderly, when they revert to a childhood-like states. They become very shy and sensitive and can't make decisions. Also from epilepsy or head injury. Elderly have poor memory and indecision, some of the symptoms of Alzheimer's. Premature senility. Can have high blood pressure, swollen glands. Hormonal problems which age them quickly. Both the elderly and children need a specific routine, structure, to be happy. Children can have recurring tonsillitis (Bar-m.). Tendencies to colds, with swollen glands. A lot of adenoid problems. Can have skin problems. Chilly. Can get emaciation easily, especially after infections. Lymphatic problems with a history of glandular problems. They have an enlarged abdomen (Sil., Calc., Sanie.). Offensive foot sweats (Sil., Nit-ac., Graph., Calc.).

Clarke cured an advanced case of thoracic aneurysm with the 3x. A case has been recorded in which Bar-c. removed from an old man a pain that came suddenly in the hollow of the knee and ran down the back of the leg like a thin stream of hot fluid or molten metal running down under the skin.

RELATIONS - Antidote for poisonous doses: Epsom salts. **Antidoted by:** Ant-t., Bell., Camph., Dulc., Merc., Zinc. **Compare:** (1) Dig., Rad-br., Arag., Oxyt., Astrag. Alum. (2) Ant-t. - paralysis of lungs. (3) Bell., Calc. - scrofulosis, coryza, etc. Calc-i. - large tonsils, Caust. - paralysis, Cham., Chin. (4) Con. - old people, Dulc. - catching cold, Fl-ac. - old people, Iod. - glands, Lach., Lyc. (tonsils). (5) Mag-c., Merc. -colds, glands, diarrhea, Nat-c., Phos., Puls., Sep. (tinea), (6) Sil. - glands, fetid foot sweat, but Bar-c. lacks the head-sweat of Sil. and Sil. has self-will instead of the weak-mindedness of Bar-c. (7) Sulph., Tell. **Compatible:** after Scilla. Ars. Before and after Sulph. **Complementary:** Dulc., Silica, Psor. **Incompatible:** Calc.

***BARYTA IODATA

(Barium Iodide)

PHARMACY - bar-i. Baryta iodata. Baric iodide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Breast, cancer. Cancer. Glands, enlargement. **Indurated, glands. Leucocytosis.** Ophthalmia. **Quinsy.** Tumors.

HOMEOPATHIC - Bar-i. has been used empirically, especially in cases of glandular enlargement and new growths. The indications are suggested by its two elements. This remedy is used clinically for enlarged and **indurated glands** especially the tonsils and breasts.

Bar-i. has been used in breast cancer, breast tumors, **breast cancer after trauma** (Arn., Bell-p., Calen., Con.). Tumors and cancers following blows or other injuries (Con.), cuts, punctured wounds, or abrasions.

Acts on the lymphatic system, **increased leucocytosis. Quinsy.** Strumous ophthalmia with tumefaction of cervical glands and stunted growth.

Modalities - Better from cold open air. Worse from walking.

COMMENTS - Grimmer noted that Bar-i. has been used **for breast cancer**, breast tumors and **enlarged glands. Breast cancers after trauma.** Tumors and cancers following blows or other injuries, cuts punctured wounds, abrasions. Indications are from the provings of the two remedies making up the compound.

RELATIONS - **Compare:** (1) Aeon, lycotomum - swelling of cervical, axillary and breast glands. (2) Lapis, Con. Merc., Iod., Carb-an.

REFERENCES - Boericke. Grimmer.

***BARYTA MURIATICA

(Barium Chloride)

PHARMACY - bar-m. Baryta muriatica. Barium chloride. **Historical dose:** Trituration and all potencies.

CLINICAL - **Aneurysm.** Anus, abscess. **Arteriosclerosis.** Asthma. **Bronchial, disorders.** Convulsions. Deafness. Dyspepsia. Fistula. **Glandular, swellings.** Gleet. Gonorrhea. Headache. Hypertension. Idiocy. Influenza. Leucorrhea. Mania Mumps. Multiple sclerosis. Nymphomania. Otorrhea. **Pancreas, induration.** Pancreatitis. Paralysis. Paresis. Quinsy. Scrofula. Infertility. Testicles, disorders. Tinea capitis. Tinnitus. **Tonsillitis.** Tumors. Vertigo.

HOMEOPATHIC - The symptoms of Bar-m. are like those of the other Barium salts, but it

has a distinct character of its own. Convulsions are more marked in the muriate. Many cases of aneurysm have been benefited by Bar-m. Both elements have a strong action on the heart and arteries. It has cured whizzing and buzzing in ears, noises on chewing and swallowing.

In one poisoning case, that of a girl, the instant she swallowed the solution she exclaimed that she was on fire; vomitings, convulsions, pain in the head and complete deafness supervened and death in an hour.

Bar-m. causes vascular degeneration, causing hypertension when high systolic pressure with a comparatively low diastolic is present with cerebral and cardiac symptoms. Arteriosclerosis (Aur., Sec.), and cerebral disorders due to this condition. Increased tension of pulse. Vertigo, due to cerebral anemia and noises in ears. Acts on the lower digestive tract, especially rectum, on muscles and joints, giving stiffness and weakness as from walking too much. Indurated and **narrowing of the cardiac orifice with pain**, immediately after eating, and epigastric tenderness.

Multiple sclerosis of brain and cord. **Voluntary muscular power gone but perfectly sensible**. Paresis after influenza and diphtheria. **Icy coldness of body with paralysis**.

Convulsions. Convulsive attacks occur periodically with starting and excessive tossing about. Electric shocks with convulsions.

General feeling of lassitude in the morning, especially weakness of the legs with muscular stiffness. Great weakness, wants to lie down. Enlargement of the glands and induration tonsils, pancreas. Chronic hypertrophy of the tonsils.

Nymphomania and satyriasis. In every form of mania when the sexual desire is increased. Children who go around with their mouth open and who talk through the nose. Child lies on the abdomen all the time to shun the light. Stupid appearing, hard of hearing. Headaches, but without acute crisis, occurring in old people, heaviness rather than pain.

MIND - Answers confusedly as if thinking of something else. Anxiety in evening. Irresolution. Sense of oppressive anxiety. Sadness in morning. Dejection and dread of men. Suspicious. Talking in sleep. Sexual mania in every form when sexual desire is increased.

Dullness of mind. Stupid appearance. Idiocy. Startles easily. Children are inattentive when studying, sit in corners and give confused answers. Indisposition to play in children.

Abdomen - Distressing throbbing in abdomen (Sei.). **Induration of pancreas**. Abdominal aneurysm. Inguinal glands swollen.

Back - Enlargement and induration of cervical glands. Pains in the back. Eruption at the nape of the neck.

Chest - Catarrh with heat. Heat in the upper part of the chest. Oppression.

Constitutions - Useful in old age and childhood, when mental and physical dwarfishness is present (Bar-c.). Acts on parotid glands and pancreas. Suited to scrofulous children. Attacks of tonsillitis occurring in spring and autumn.

Ears - Earache, better sipping cold water. Offensive otorrhea. Inflates middle ear on blowing nose. Hard of hearing. Noises on chewing and swallowing or sneezing. Whizzing and buzzing.

Eyes - Eyes fixed and immovable. Pupils

dilated and insensible, with fixed look. Blennorrhoeal of the eyes, of the ears, and of the nose. Shuns light, child lies all the time on its face.

Face - Pulling pains in the muscles of the face. Painful nodosity at the point of the nose with slight pricking. Parotids swollen.

Female - Induration of ovaries. Tumor or atrophy of ovaries. Infertility. Menses too early. Pains as from a bruise, in the pelvis. Leucorrhoea. Nymphomania.

Food - Loss of appetite. Thirst.

Head - Headache with vomiting. Heaviness of head in elderly people. Very purulent eruptions on the scalp. Scabby eruptions on the head and neck.

Heart - Throbbing of the heart accelerated. Palpitation of the heart. Irregular heartbeats, pulse scarcely perceptible.

Kidneys - **Great increase in uric acid**, diminution of chlorides. Frequent, involuntary, and painful urine. Very offensive urine, yellowish, with whitish sediment.

Limbs - Toes cramp up, better drawing up the limbs. Fatigue of legs as from long walk with stiffness of joints.

Lungs - Weak voice. Dry cough. Great accumulation and rattling of mucus with difficult expectoration.

Facilitates expectoration. Senile asthma. **Bronchial disorders of elderly people** with cardiac dilation. Chronic cough of scrofulous children.

Male - Frequent emission of semen. Swelling of the testes. Buboec after suppressed gonorrhoea.

Mouth - Swelling of the salivary glands and palate. Tongue loaded. Tongue and mouth dry. Feter of the mouth, as if from mercury. Putrid taste in the mouth, also of food.

Nose - Coryza. Sneezing in sleep without waking.

Perspiration - Increased perspiration. Cold sweat.

Rectum - Spasmodic pain in rectum. Feces slimy, jelly-like with blood. Stools white, hard as stones. Easy evacuation. Chronic, painless diarrhea or diarrhea with violent colic.

Skin - Burning and pricking in excoriated places. Small, itchy eruptions on the head, nape of the neck, abdomen, and thighs. Glands are inflamed and ulcerated. Hemorrhage.

Stomach - Burning pain in the stomach. Sensation of heat, ascending from the stomach to the chest and head.

Gone feeling at epigastrium. Retching and vomiting. Vomiting in the morning, with anxiety. Vomiting of a small quantity of water, with nausea.

Temperature - General dry heat, night and day. Redness and heat of the face. Pulse frequent and full. Tertian fever.

Throat - Suppuration of tonsils after every cold. Swallowing difficult. Tonsillitis. **Tonsils enlarged and infected.** Uvula elongated. Paresis of pharynx and Eustachian tubes with sneezing and noises. Throat feels too wide open. Varicose veins of throat.

Vertigo - Vertigo due to cerebral anemia and noises in the ears. Vertigo, swimming before the eyes, things turnaround. Head confused and heavy.

COMMENTS - Periodical attacks of convulsions with excessive excitement of the limbs. Idiocy. Mania with increase of sexual desire, "in every form of mania as soon as the sexual desire is increased." Offensive otorrhea. Parotid glands hard and swollen, especially right. Earache is better by sipping cold water. Deafness. Great salivation and odor from mouth as from mercurialization. Swelling of salivary glands. Disposition to tonsillitis. Great indigestion. A hardness below the stomach to left, from which paroxysms of dyspnea come. Induration of pancreas. Distressing throbbing in abdomen with abdominal aneurysm.

RELATIONS - Compare: (1) In sclerotic degenerations, especially of spinal cord, liver and heart. Plb. met. and Plb-i. (2) Aur-m. (3) Con. - indurations of abdominal glands. (4) Iod., Kali-i. and Iris (pancreas). Sei. (pulsations in abdomen). (5) Useful after Ars. in extravasations of blood. (6) The vomiting is antidoted by Absinthe.

REFERENCES - Boericke. Clarke.

***BARYTA SULPHURICA

(Barium Sulphide)

PHARMACY - bar-s. Baryta sulphurica. Barium sulphide. **Historical dose:** All potencies.

CLINICAL - Arteriosclerosis. Cancer. Dementia. Emaciation. Glands, swelling. Growth, disorders. Headaches. Hemorrhoids. Leucorrhea. Tonsillitis. Varicose veins. Weakness.

HOMEOPATHIC - Arteriosclerosis. Pressing pains. Weakness. Emaciation. Dwarf growth. Swelling of glands. Cancer of the glands. Tonsils swollen and inflamed. Pain in heart, radiating to throat. Varicose veins.

MIND - Dementia. Idiocy. Retarded development. Very anxious, especially during fever. Suspicious. Timidity, bashful. Anxiety. Fear of people. Cowardice. Anthropophobia. Always in a hurry. Loss of willpower. Marked irritability.

Ears - Roaring in ears. Hearing impaired.

Eyes - Eyes worse light. Vision dim on exertion of eyes.

Female - Leucorrhea copious, smarting.

Food - Cannot bear hunger. Craving for salt, sour, pickles. Desires sweets and chocolate.

Head - Itching of scalp. Headaches. Pain in sides of head. Throbbing in the occiput or in whole head.

Limbs - Corns sore, sting, burning, painful. Small warts, stinging pain.

Modalities - Desire for and better open air. Better walking in open air. Worse morning. Worse forenoon, night. Worse hearty meals. Worse bathing. Worse before and during menses. Worse lying on left side.

Nose - Nose dry, internally.

Rectum - External hemorrhoids. Constant moisture at anus.

Sleep - Restlessness sleep.

Stomach - Pressing in stomach after eating.

REFERENCES - Murphy.

***B.C.G.

(Myobacterium Tuberculosis Vaccine)

PHARMACY - beg. B.C.G. Myobacterium tuberculosis vaccine. Tuberculosis bovine vaccine. Nosodes. Vaccinations. **Historical dose:** All potencies.

CLINICAL - Abscess. Adenitis. Anorexia. Asthma. Blepharitis. Bronchitis. Catarrh. Chilliness. **Colds.** Conjunctivitis. Cystitis. Dysthyroidism. Dysuria. Eczema. Emaciation. Eosinophilia. Erythema, nodosum.

Fatigue. Gland, disorders. Granulomas. Hematuria. Hypersensitive. Hyperthyroid. Hypochondriasis. Hypotension. Ichthyosis. Incontinence. **Insomnia.** Keratitis. Leukocytosis. **Lung, disorders.** Lupus, vulgaris. Lymphadenitis. **Lymphogranulomatosis.** Malaise. Melancholy. Nausea. Nocturia. Osteomyelitis. Peritonitis. Pleuritis. Pleurodynia. Pneumonia. Pulmonary, granulomas. Sore, throat. Tonsillitis. **Tuberculosis.** Tumors, benign. Urticaria. Vaccinations. Vertigo. Vomiting. Weakness.

HOMEOPATHIC - BCG, or Bacille Calmette-Guérin, is a vaccine for tuberculosis. BCG is used in many countries with a high prevalence of TB to prevent childhood tuberculous meningitis and miliary disease. However, BCG is not generally recommended for use in some countries because of the low risk of infection with Mycobacterium tuberculosis, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine's potential interference with tuberculin skin test reactivity.

Leukocytosis. Eosinophilia. Lymphadenitis. **Lymphogranulomatosis.** Inflammation of glands, adenitis. **Tuberculosis of glands.** Dysthyroidism with tendency to hyperthyroidism. Benign tumors. Hypotension. Malaise. Emaciation. Lack of vital heat. Weakness and exhaustion. Tendency to take colds. Intoxication. Tobacco, aversion to .smoking his accustomed cigar. Ill effects after vaccinations.

MIND - Mental excitability. **Exaggerated cares and worries.** Sensitive, oversensitive. Restlessness and nervousness. Prostration of mind, mental exhaustion, brain fag. Dull-

ness, sluggishness, difficulty of thinking and comprehending. Memory weakness. Loss of memory. Easily irritated, angered, depressed. Any noise annoys him. Hypochondriasis. Anxiety, vertigo, feeling that death is imminent. Presentiment of death. Depressive psychoneurosis. Sadness, despondency. Melancholy.

Abdomen - Abdominal pain. Peritonitis, enteritis. Colitis. Cramping, griping pain. Stitching, sticking, pains.

Back - Backache.

Bladder - Cystitis. Dysuria. Hematuria.

Paralysis of the bladder. Incontinence. Nocturia.

Chest - Pleurodynia. Chest pains. Oppression of the chest, sternum.

Constitution - Constitutional emaciation, especially in tubercular types. Phosphoric or carbo-phosphoric types. Hypersensitive, nervous, uneasy, restless.

Coughs - Dry cough. Exhausting cough.

Hacking cough. Hoarse cough. Whooping cough.

Ears - Stitching pains, worse left.

Eyes - Catarrh. Blepharitis. Conjunctivitis.

Interstitial keratitis. Swelling, eczema on the eyelids.

Face - Discoloration pale. Dry lips. **Pain in left cheekbones, worse chewing.**

Female - Diminished sexual desire.

Food - Anorexia. Wanting appetite. Appetite increased, hunger in general.

Head - Brain feels dull. Headache in school children, students, and over-worked intellectuals. Headaches with disturbed sleep. Sensitive scalp. Heaviness sensation.

Heart - Oppression of heart. Palpitations.

Limbs - Joint pains, worse in small joints.

Cramps in toes, lower limbs.

Liver - Stitching, sticking pains, worse lying down.

Lungs - Asthma in children. Bronchitis. Pneumonia. Pleuritis. Pulmonary granulomas. Pulmonary infections.

Male - Diminished sexual desire.

Modalities - Better from cold application.

Better lying down. Better after eating. Worse from physical or mental exertion. Worse evening. Worse 6 p.m. to 9 p.m.

Worse 9 p.m. to 5 a.m.

Mouth - Cracks in corners of mouth. Bitter, pasty taste.

Neck - Inflammation of lymphatic tissue. **Neck pain, better motion.** Pain in cervical region on turning head to right.

Nose - Icy coldness. Dryness inside. Sneezing. Prolonged, chronic coryza. Chronic rhinitis. Nasal obstruction, better open air, worse in a room. Polyps.

Rectum - Constipation. Rectal, anal fissures.

Skin - Dry skin, with fissures. Scaly skin, ichthyosis. Abscess with recurrent discharge. Granulomas. Lupus vulgaris. Histiocytoma. Hidradenoma. Urticaria. Erythema nodosum. Erythema multiforme. Red papules.

Sleep - Sleeplessness after midnight. **Insomnia in school children.** Sleep disturbed by dreams. Restless sleep.

Stomach - Slow digestion. Stomach distension. Nausea, worse in the morning, on and after rising, better after

eating. Retching, gagging with distention. Vomiting.

Temperature - Chills. Fever. Flu-like symptoms.

Throat - Sore throat. Tonsillitis. **Pain in tonsils on swallowing, worse right.** Scraping.

Tongue - Coated, discolored yellow, white tongue. Bitter, pasty taste.

Vertigo - Vertigo, feeling that death is imminent. Dizziness.

COMMENTS - Made from a stock of Myobacterium tuberculosis of the bovine variety. The vaccinating mother-stock suspension of the homeopathic attenuations is made from a film of this bacillus, cultivated on a background of Santon fluid.

A Hahnemannian Proving was conducted by O. A. Julian in 1960-61 on six provers, using the 5c, 7c, and 9c (1977). Symptoms included extreme fatigue, persistent asthenia, and a heavy head, with diffuse pain in the occipital region. Head dull, face pale. Dry skin, with fissures.

Dry, tiring cough. Pleurodynia. Frequent head colds, eyes red, earache. Glandular infections. Extreme chilliness. Chilly, cannot bear noise, headaches, with disturbed sleep.

Rare fever, lasting only a short time.

Anorexia, persistent nausea. Tubercular conditions in thin types, always tired, and with chronic constipation.

Asthenic, thin, hypersensitive, constipated type. Aversion to cigarettes.

Julian noted "in clinical practice, B.C.G. is shown to be a polycrest, and has a definite value in all para-tubercular and psychosomatic cases. It is worthy of replacing the nosode Marmoreck."

RELATIONS - **Compare:** Tub., Bac., Phos.

REFERENCES - Julian. Murphy.

***BEECH

(Bach Flower Essence)

PHARMACY - beech-b. Beech. Fagus syl- vatica. The remedy is prepared by the boiling method. Small twigs and male and female flowers, they are found on the same tree, are boiled for half an hour. The boiled water is strained and used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC - Together with the remedies Rock Water, Vine, Vervain and Chicory, this remedy belongs to Bach's group of **Over-care for Others' Welfare**. These five remedies deal with attitudes of control and over-care towards others.

People in need of Beech may appear haughty and rigid in body posture, in some cases, frequently raised eyebrows can be observed. Faultfinding, criticism and intolerance are predominant traits. The attitude may also be less condescending, more nagging and dissatisfied.

In the treatment of persecutory delusions or paranoid personality disorders, Beech lessens the tendency to overly criticize others and fit them into a specific image with threatening features (Holly-b., Will-b.).

MIND - Bach described the indications for the remedy, "The mind is narrowed in perception, tolerance and judgment, although one believes

oneself to have the right attitude and capacity for assessment. This results in self-deception. The ego raises itself above others with the selfappointed right to assume critical judgment on another's expression of life. It is a state of arrogance, an attempt to impress upon others one's own standards of assessment considered special or perfect.

"Judging others creates superiority and those criticized are held low, condescended against. Oftentimes, one actually does not want them to measure up to one's own perfect style, so that one may continue to consider oneself special. The mind does not want others to move up in standard and it gives more personal satisfaction to keep them in their place.

"There is often an underlying sadness, a personal loss of a more perfect reality that is mourned. To have personal perfect standards and finding reality wanting implies a loss, a sense of being let down. In many cases, if grief was not allowed to be fully worked through there may develop a Beech state. The event or person is criticized or rejected, instead of mourned."

REFERENCES Bach.

***BELLADONNA

(Deadly Nightshade)

PHARMACY - bell. Belladonna. Deadly Nightshade. Atropa belladonna. N. O. Solanaceae. Europe. Greece, Italy, Britain. Tincture of whole plant when beginning to flower. **Historical dose:** All potencies.

CLINICAL - Abscess, Acne. Airsickness. Amaurosis. Bladder weakness. **Boils.** Brain disorders. Bronchial

glands, disease. Carbuncle. Colic. Constipation. Convulsions. Cough. Croup. **Delirium. Dehisions.** Diarrhea. **Diplopia.** Dysentery. **Ear, disorders. Epilepsy.** Erysipelas. **Eye, disorders. Exophthalmic, goiter. Fevers.** Glandular, swellings. Goiter. Gout. **Hallucinations.** Hemorrhoids. **Headaches.** Heart, disorders. **High, fevers.** Hydrocephalus. **Hydrophobia.** Hyperemia. **Infections.** Influenza. Intestinal fever. Kidney disorders. Lung, disorders. **Mania. Mastitis.** Measles. **Meningitis.** Menses. Mumps. **Otitis media.** Neuralgia. Nymphomania. Paralysis.

Peritonitis. Phlegmasia alba dolens. **Photophobia.** Pleurisy. Pneumonia. Pregnancy, disorders. Puerperal mania. **Rabies.** Rheumatism. **Rheumatic, fever.** Roseola. **Scarlet fever.** Sleep, disorders. Strangury. Strokes. **Throbbing, pains. Throat, sore.** Tongue disorders. **Tonsillitis.** Tuberculosis. .Ulcers. Uterine disorders. **Vaccinations.** Vertigo.

Whooping cough. Worm fever.

HOMEOPATHIC - Bell, acts upon brain and nerve centers, producing twitching, convulsions and pain. Produces an active congestion, furious excitement, perverted special senses. **Glands swollen, tender, red.** Marked action on the vascular system, skin and glands.

Hot, red face, semi-stupor, every little while starting or jumping in sleep as if it might go into convulsions. Excited mental state, hyperesthesia of all senses, delirium, restless sleep. **Spasms, shocks, jerks and twitching. Constrictions** occur in parts of the body like throat, vagina etc. or in ^ whole body.

Fullness, congestion especially to head, and **swelling. Pains are throbbing, sharp, cutting, shooting** or clawing of maddening severity, coming and going in repeated attacks. **Severe neuralgic pain,** that come and go suddenly (Oxyt.).

Violent attacks and sudden of onset. Complaints come suddenly. **Hot, red skin, flushed face, dilated pupils, throbbing carotids. Marked burning heat, bright redness and dryness.** Red streaks. Hot body, part, etc. Discharges are hot and scanty. Hot hemorrhages.

Convulsive movements. Epileptic attacks are followed by nausea and vomiting. Spasms are followed by prolonged unconsciousness. Throws the body forwards and backwards, chorea. Convulsions commence in the arm.

Scarlet fever, also as a prophylactic. **Exophthalmic goiter** with extreme thyroid toxemia. **Sensitive to light, noise, jarring.** Dry mouth and throat with aversion to water. No thirst. **Hydrophobia.**

Right sided symptoms. Good for children (Cham.).

MIND - Acuteness of all senses. Overactive mind. Changeable moods. Quarrelsome. Constant moaning. Disinclined to talk. Memory impaired. Forgets in a moment what he was about to do. Mental confusion, worse motion. Mind disordered so that speech didn't correspond to thought. Mistrustful. Hides things.

Anxious and confused. Fears she is about to die. **Fear of imaginary animals.** Fright, with weeping. Starts in fright at approach of others. . **Fear of dogs.** Anxiety during menses. Anxiety during sleep.

Stupefaction with congestion to head and dilated pupils. Hypochondriac depression. Consolation aggravates. Sadness, with indifference. Suicidal disposition while walking in open air. Weary of life, with desire to drown herself. Rather desires death than fears it. Weeping and screaming, worse consolation. Loss of consciousness.

Wildly delirious. Delirium, furious, rages, bites, strikes. Rage, doesn't know his relatives. Delirium wants to escape or hide himself. Delirium, better after sleep. **Rage during headache.** Restlessness during headache. Delirium with quick movements. Delirium with springing out of bed.

Violent delirium with livid face, injected and protruding eyes, dilated pupils, strong pulsation in carotids, full, hard, frequent pulse and inability to swallow. **Imagines himself dreaming when awake.** Carphologia, picking at bedclothes as if looking for something lost, with confused muttering. Hands constantly in motion, tries to catch things in air.

Desire to escape or hide himself. **Mania,** rages, bites, strikes. **Very restless.** Spits on faces of other people. Tendency to dance, laugh, sing, whistle. Plays antics. Excitable, easily weeps. Disposed to tear things to pieces. **Hydrophobia.** Abhorrence of liquids. Liquid poured out makes her furious.

Delirium, sees frightful images. Fear of imaginary things, wants to run away from them. **Delusions, hallucinations, sees monsters, hideous faces.** Imagines he sees ghosts, hideous faces and various insects. **Horrible visions in the dark.**

Visions of fire. Sees black animals, dogs, wolves, etc. **Sees faces on closing eyes.** Praying. Rage leading to violent deeds. Insanity with increased strength.

Abdomen - Flatulent colic. Distended, hot abdomen. **Extren-- sensitiveness to touch,** bedclothes, etc. (Lach.). **Cramps and colic,** as if a hand has clutched some parts. **Colic pains, comes quickly and goes quickly.** Bearing down in abdomen as if all the viscera would protrude through genitals. **Tender, swollen abdomen.** Transverse colon distends and protrudes during abdominal colic. **Colic from gall-stones.** Cutting pain in epigastrium, better bending backwards. Cutting pain across, stitches in left side of abdomen, when

coughing, sneezing or touching it. Clawing pain around the navel. Incarcerated hernia. Itching on abdomen. Pain in splenic region, worse sneezing, coughing, touch.

Back - Back feels broken. As if lumbar region would break. Pressure on dorsal region, most painful. Lumbago with pain in hips and thighs. Curvature of lumbar vertebrae. Hyperemia of spine, with difficulty in walking. Pain in sacrum. **Swelling of glands of neck.** Sour smelling sweat only on neck. Stiff neck and shoulder (right). Pain in nape, as if it would break.

Bladder - Cystitis. **Retention of urine** with paralysis of bladder. Postpartum retention of urine. Sensation of motion in bladder as of a worm. Bladder region is sensitive. Dull pressing pain in bladder during night. Shooting pain in bladder when moving. Incontinence, continuous dripping.

Breasts - Breasts feel heavy, hard and red. **Mastitis with throbbing, redness.** Red streaks radiate from nipple. Tumors of breast, pain worse lying down. Discharge of milk from women not pregnant. Erysipelatous inflammation of breasts, worse from weaning.

Causations - Ill effects of hair cutting, head getting wet. Sausages. Sunstroke. Walking in the wind or a draft.

Chest - Burning pain in right chest. Pressive pains in chest. Sharp pain in chest when coughing. Constriction across chest, as if pressed inwards from both sides. Heat

in sternum. Corroding, gnawing, beneath cartilages of last ribs, right side. Swelling of axillary glands. Eruption of scarlatina begins on throat and chest.

Constitutions - Suited to plethoric persons with red face and to conditions where there is local plethora, inflammatory states with pain, throbbing, shiny redness as in acute gout. Suited to the bilious, lymphatic temperament. Light hair and complexion, blue eyes. It grows in dry limestone soils and is the acute correlative of Calc. Its influence is felt more in intelligent and plethoric persons who are jovial and entertaining when well, but violent when sick, therefore a great children's remedy.

Cough - Barking cough, whooping cough with pain in stomach before attack, with expectoration of blood.

Tickling, short, dry cough, worse at night. Cough, worse fine dust in air, yawning. Cough with pain in left hip. Stitches in chest when coughing. Child cries before cough. Cough with stiffening of body. Tickling, short, dry, worse night. Dry, barking cough, sometimes spasmodic, caused by scraping or pain in larynx. Violent cough in sleep, with grinding of teeth.

Ears - **Otitis media.** Otorrhoea. Hematoma auris. Inflammatory swelling of ears. **Hot, sensitive and painful ears.** Bulging and red eardrums. **Child cries out in sleep,** throbbing and beating pain deep in ear, synchronous with heartbeat. Tearing pain in middle and external ear. **Pain causes delirium.** Earache worse least noise. Parotid gland swollen. Acute conditions of eustachian tube. Noises in ears. Humming, roaring, ringing noises. Hearing very acute. Intolerance of noises. Autophony, hearing one's voice in the ear. Impaired hearing from taking cold. Deafness, as if a skin were drawn over ears.

Eyes - **Pupils dilated.** Throbbing deep in eyes on lying down. Eyes feel swollen and protruding. **Staring, brilliant, conjunctiva red, dry.** Burning, shooting pain in eyes. **Photophobia,** worse artificial light. **Conjunctivitis, with great inflammation.** Sensation as if eyes were half closed. Eyelids swollen, congested, feel

sore. Squinting, spasms of lids. Everted lids. Fundus congested. Exophthalmus. Lachrymation like brine. Ciliary neuralgia appearing and disappearing suddenly, with photophobia and congestion. Sudden ophthalmia. Eyeballs in constant motion. Mydriasis, resulting from nervous headache. Inflammation of optic nerve and retina. Strabismus. Yellow sclera. Ulcers or spots on cornea. Thickening of cornea.

Face - Becomes pale and red alternately. **Red, hot, swollen and shining face.** Face mottled, bluish red. Swelling of upper lip. Facial neuralgia with twitching muscles and flushed face. Spasmodic distortion of mouth (risus sardonicus). Convulsive motions of muscles of face. Lowerjaw, as if drawn backwards. Cutting, tearing pain, worse right side. Parotid glands swollen. Pustules on face. Sweats only in face.

Female - Amenorrhea, with congestion to head. **Menses bright red, too early, too profuse.** Menses gushing. **Menses and lochia very offensive and hot.** Ovarian pain with appearance of menses. Flow of blood between periods. Dragging around loins. **Painful menstrual cramps with bright red flow.** Cutting pain from hip to hip. Badly smelling hemorrhages. Hot gushes of blood. Metritis. **Violent bearing down towards genitals,** as if everything would fall out, better standing and sitting erect, worse lying down. Spasmodic contractions of uterus. Ovaritis. Leucorrhea, white mucus with colic. Bearing down pain with leucorrhea. Dryness and heat of vagina. Rigidity of the cs. Labor pains come and go suddenly or ceasing. Diminished lochia. Afterpains, confinement. Retained placenta. Hemorrhage after confinement or after miscarriage. Menopause with sudden hot flushes.

Food - Loss of appetite. Distaste for acids, coffee, beer. Aversion to meat and milk. **Desire for lemonade or lemons** (which agree). Desire sour food, vegetables, sweets. Craving for undigestible things. Craving for snuff. Beer causes internal heat. Desire for lemonade during headache. Headache from abuse of coffee.

Shortness of breath after drinking coffee. Bread tastes sour. Wine aggravates dyspnea. **Great thirst for cold**

water. Dread of drinking, abhorrence of liquids. Drinks in sips. Thirst for water changed into thirst for beer.

Head - Rush of blood to head, pulsation of cerebral arteries, throbbing in brain. **Congestive headaches with a red face.** Meningitis. Sunstroke. Vascular headaches. **Throbbing, hammering headache,** worse temples, motion. Headache better letting hair down, laying the hand on head, bending head backwards. Much throbbing and heat. **Pain, fullness, especially in forehead,** occiput and temples. Headache from suppressed catarrhal flow. Sensitive to least contact. Sudden outcries. **Headache, worse light, noise, jar, lying down and in afternoon,** better by pressure and sitting in a semi-erect posture. Headache worse on right side and when lying down. **Headache worse from having hair cut.** Hydrocephalus with boring of head in the pillows, head drawn backward and rolls from side to side. **Head sensitive to drafts and cold or washing hair.** Feeling in the brain like swashing of water, rises and falls in waves. Cold sensation in head at the middle of the forehead. Sinusitis, maxillary or frontal. Pulls her hair. Hair splits, is dry and comes out. Hematoma.

Heart - Heart seemed too large. **Throbbing in carotid and temporal arteries.** Throbbing all through body. Bubbling at the region of the heart. Violent palpitations, reverberating in head with labored breathing. Palpitations from least exertion. Gurgling at heart, when going up stairs. Pressure in cardiac region, arresting breath and causing anxiety. Dichrotism. Rapid but weakened pulse. Pulse full, hard, tense. Pulse slow, thready, irregular.

Kidneys - Stinging, burning pain from region of kidneys to bladder. Acute urinary infections. Involuntary urination, on lying down or when standing or at night, when sleepy during day. **Frequent and profuse urination.** Hematuria where no pathological condition can be found. Spasmodic, crampy pains along ureter, during pas-

sage of kidney stones. Urine scanty with tenesmus. **Urine dark and turbid.** Urine loaded with phosphates. Fiery red urine. Urine deep red, with white sediment. Urine turbid like yeast, with reddish sediment. Urine copious, pale and watery.

Limbs - Joints swollen, red, shining with radiating red streaks. Jerks, spasms, or trembling in limbs. **Cramping pains of limbs.** Spasms. Heaviness and paralytic feeling in limbs. Shifting rheumatic pains. Shooting pains along limbs. Phlegmasia alba dolens. **Cold limbs.** Lies or sits with feet crossed, cannot uncross them. Weakness and tottering gait. Involuntary limping. Violent convulsions, distortions of all muscles.

Liver - Acute pain in liver region, extending to shoulder and neck, worse lying on it. **Gallstone colic.** Jaundice with stones in gall bladder.

Lungs - Asthma in hot, damp weather. Asthmatic attacks with sensation of dust in lungs. Difficult, short, quickrespiration. Respiration oppressed, unequal. Cheyne- Stokes respiration (Cocain., Op.). **Moaning at every breath.** Oppressed, quick, unequal breaths. Heavy and stertorous breathing. Dyspnea after rising in morning, better open air. Bloody mucus, in morning, with bloody taste in mouth.

Male - Testicles hard, drawn up, inflamed. Weakness and relaxation of genitals. Nocturnal emissions with relaxation of penis. Nocturnal sweat of genitals. Flow

• • of prostatic fluid. Prostatitis. Hypertrophy of prostate. Soft, painless tumor on glans. Drawing pain in spermatic cord during urination. Increased sexual desire, with great inclination to masturbation. Diminished desire.

Modalities - Better from light covering. Better wrapped up well in a warm room. Better bending backward, semi-erect. Betterrestin bed. Better standing. Better from leaning head against something. Better bending or turning the affected part. Worse from heat of sun. Worse if heated. **Worse drafts on head.** Worse getting hair cut. Worse washing head. Worse after taking cold. Worse from light, noise. Worse jar ring. **Worse checked sweat.** Worse touch. Worse company. Worse pressure. Worse motion. Worse from hanging down affected part. Worse afternoon. Worse lying down. Worse looking at shining objects. Worse running water. Worse morning, afternoon. Worse 3 p.m., 11 p.m. Worse after midnight. Worse night.

Mouth - Dry and hot. Mouth feels scalded. Hot breath. Taste salty, sour, bitter, pappy, offensive. Chewing or sucking motions of the mouth. Scraping in mouth and throat. Mouth as if constricted. Soft palate bright red and swollen. Thick whitish mucus in mouth and throat, with constant inclination to hawk and swallow. Lockjaw. Stammering speech. Hemorrhage from mouth and nose. Salivation worse lying down. Increased flow of saliva.

Nose - Drying in nose, fauces, larynx and trachea. Red and swollen. Tip of nose, shining red and burning. Tingling in tip of nose. **Nosebleeds with red face.** Coryza, mucus mixed with blood. Fluent coryza from one nostril only. Frequent sneezing with tickling in nostrils. Imaginary odors. Offensive smell in nose as from herring brine or sour beer. Odor of tobacco intolerable. Nostrils and corners of lips ulcerated.

Perspiration - Hot sweat. Sweats on covered parts. Perspiration, dry only on head. All over, dry only on head. Perspiration of chest at night, during menses. Cold sweat on limbs.

Rectum - Stinging pain in rectum. Spasmodic stricture. Straining and urging to stool, with scanty evacuations. Hemorrhoids with back pain as if breaking. Hemorrhoids more sensitive with backache. Violent itching with

constrictive sensation in anus. Prolapsed anus (Ign., Podo.). Shuddering during stool. Mucus membrane of anus seems swollen and pressed out. Diarrhea with bearing down pain in uterus. Diarrhea worse motion (Rheum and Crot-t.). Escape of faeces when passing flatus.

Skin - Skin hot, moist alternating with dry. **Dry and hot skin.** Skin imparts a burning sensation to the examining hand. Swollen, sensitive, scarlet, smooth skin.

Intense dermatitis. **Bright, red,** glossy. Redness of whole body, with quick pulse. Erythema, pustules on face. Erythema, very sensitive. **Alternate redness and paleness of the skin.** Indurations following inflammations. Acne rosacea. **Scarletfever.** Intense erysipelatous fever, with inflamed swellings, passing even into gangrene. Urticaria during profuse menses. Eruptions resembling measles. **Boils,** returning every spring. Red scaly eruptions. Suppurative wounds.

Sleep - Sleep prevented by fever, anxiety. Sleeplessness with drowsiness. Kept awake by pulsation of blood vessels. Moans and tosses about in sleep. **Jerks during sleep.** Kicks in sleep. Restless, crying out, gritting of teeth. Screams out in sleep. **Staring when closing the eyes during sleep.** Sleeps with hands under the head (Ars., Plat.). Heavy sleep with hot skin. Restless, crying out, grinding of teeth. Kept awake by pulsation of bloodvessels. Screams out in sleep. **Sees frightful visions on closing eyes,** dreams of quarrels, fire, robbers, assassins. Frequent yawning. Waking at night full of fear. Woken constantly by fearful dreams and twitching. Frightful dreams. Dreams of quarrels. Dreams of fire, robbers, assassins. **Dreams of falling.** Vivid dreams, but can't remember them. Dreams of swimming.

Stomach - Burning pain in stomach. Pain in stomach extending to shoulder and throat worse pressure. Constriction, pain runs to spine. **Cramps in stomach.** Spasms of stomach. Spasmodic pain in epigastrium. Painless throbbing and beating at pit. Violent hiccoughs. Spasmodic hiccough with sweat and convulsions. Esophagus is dry, feels contracted. Nausea and vomiting. Empty retching. Uncontrollable vomiting. Vomits everything with paleness and weakness. Vomiting of mucus. Vomiting of bile and mucus. Vomiting of undigested food. Hematemesis with ringing in ears, red cheeks.

Stool - Dysenteric stool in lumps like chalk. Retarded stools. Involuntary stools. Stools are thin, green, dysenteric or contain

chalky lumps. Stools thin, green mucus. Stool sometimes bloody. Diarrhea of green mucus and blood after a haircut. Stools clay-colored, chalky white. Stools with granular, slimy mucus, smell sour.

Teeth - Throbbing pain in teeth. Pain becomes intolerable. Toothache, better biting. Toothache with red, hot face and throbbing in head. Teeth feel on edge. Teeth feel elongated. Toothache with earache. Gums as if ulcerated. **Grinding of teeth.** Heat and redness of gums during dentition. Painful swelling of gums. Gumboils. Bleeding of gums.

Temperature - Chill alternating with heat. Chill without thirst. Feet icy cold. Shuddering during stool. Shivering chills running down back. **Burning, pungent, steaming, heat.** Distended blood vessels. Skin hot, but moist and dry alternately. **High fever without thirst. Hot head with cold limbs.** Burning, pungent, steaming heat with internal coldness. **Delirium and fever.** Internal heat, with anxiety and restlessness. Fever with redness and puffiness of face.

Throat - **Dry, red, hot throat.** Dry throat, as if glazed, angry-looking congestion (Gins.). Throat feels constricted. **Redness, worse on right side.** Tonsils enlarged. Spasms in throat. **Tonsillitis worse right side.** Chokes easily, things go down wrong way. Swallowing difficult, worse liquids. **Sore, bright red throat with fever.** Muscles of swallowing very sensitive. Must take a drink to swallow solid food. When swallowing, bends head forward and lifts up knees. Sensation of a lump. **Larynx feels sore, very painful.** Larynx feels as if a foreign body were in it with cough. **Laryngitis.** Painless hoarseness, voice loss. **High piping voice. Spasms in throat.** Urging to swallow with choking. Scraping sensation. Hypertrophy of mucus membrane. Clutches at throat during epilepsy. Aversion to tight collars.

Tongue - Tongue is red, hot, swollen and painful. **Strawberry tongue.** Edges of tongue red. Red streak in middle of tongue, wider at tip. Tongue hangs out of the mouth in children. Forepart of the tongue cold and dry. **Tongue hot, dry, red, cracked.** Tongue white centre with red edges. Tongue difficult to move, scalded feeling. Papillae of tongue of deep red color. Tongue covered with white clammy fur. Trembling of tongue when protruded.

Vertigo - Vertigo with falling to left side or backwards. Vertigo, worse stooping and rising from stooping. Vertigo with vanishing of sight and flickering before eyes. Vertigo with rush of blood to head, roaring in ears, dim vision, etc. Vertigo on motion, on turning over in bed.

Vision - Diminished vision from doing fine work. Lost vision after severe congestive headache. Attacks of blindness, then yellow vision. Clouded vision before menses. **Diplopia.** Triopia. Squinting, spasms of eyelids. Moonlight blindness. Lines appear crooked when reading. Objects appear upside down. Objects appear double, and seem to revolve and run backwards. Sees red flashes before vision. Flickering, sparks. Bright

sparks. Farsightedness. Amblyopia.

COMMENTS - Cases of Belladonna poisoning have frequently been mistaken for cases of scarlatina. Can control and act as a prophylactic for cases presenting a smooth, even, red surface. When such an epidemic is about, those who may be exposed to infection may obtain almost certain immunity by taking Belladonna two or three times a day.

A striking picture of Bell, is sometimes seen in cases of worm-fever. Lutze reported a case of a pale, feeble child, aged 3, who awoke, or at least sat up, at night in bed screaming, could not be pacified. Wet the bed at night, passed worms now and then. Cheeks and ear-tips were brilliant scarlet, other parts of the face, especially around the mouth, were white as snow.

Eyes brilliant, staring, pupils dilated. Skin dry and hot like fire. On being spoken to, flew into a violent rage. Cina 200c ameliorated. Bell. 100,000c cured permanently.

Corresponds to the symptoms of "**airsickness**" in aviators. Can be given as a preventive. Has cured a very severe headache in a nervous man that occurred whenever he was exposed to tobacco smoke.

An enormous number of the symptoms of Bell, are developed in and from the head and sensorium. The pains of Bell, run downwards, away from the head (Sil. and Gels, have a pain running up the back). Characteristic heat, redness and burning.

All the symptoms come and go quickly. Predominantly a right-side medicine. Worse lying down. May want something bitter or sour with their fever. They like lemons and are thirsty in general for cold water. Generally aggravated at 3 p.m. and 9 p.m.

Great general sensitiveness and also sensitiveness of the special senses. Sensitive to light, to slightest noise, to motion or jar as when someone touches the bed. Photophobia. Mania, rage, disposition to bite, scratch and tear things. Fantastic illusions when closing eyes. Dull and sleepy, half asleep and half awake. Delirium with fevers, especially with kidney infections. Hallucinations.

Chilly. Sensitive to changes from warm to cold, to drought of air, to damp weather, to chilling from having the head uncovered or having the hair cut. Better from being wrapped up warmly in a room.

Remarkable quickness of sensation or of motion, the eyes snap and move quickly. The pains come and go suddenly no matter how long they may last. Pains are throbbing, burning and stabbing, "stabbing from one temple to the other." Throbbing pains anywhere in the body.

Head pains, headache. Headache with flushed face and brilliant eyes, dilated pupils. Feeling in brain like swashing of water. Throbbing, pulsating headache with beating arteries and violent palpitation of the heart. Congestion of blood to the head. Migraine headaches, vascular headaches, where all the blood rushes to the head. Palpitations, feels as if head would burst. Headache from sudden exposure to cold air or the sun (Aeon.). Sun headache.

Blood congestion. The blood rushes to one part of the body and becomes hot and throbbing. Congestion, inflammation, throbbing blood vessels. Hemorrhaging, nosebleeds, uterine bleeding. The blood may feel hot. Vertigo, mostly at night on turning over in bed or when getting up in the morning, also when walking and on every change of position. Starting, twitching or jumping in sleep. "Sleepy, but cannot sleep." Moaning in sleep. Marked spasms and twitchings. Neuralgias and cramps. Convulsions. Epilepsy. Spasms from congestion or heat. Meningitis with sudden onset, high fever, dilated glassy eyes, rolling their head back.

The face is purple, red and hot, or yellow. Redness and pallor alternate. Skin is "uniform, smooth, shining, scarlet redness, so hot that it imparts a burning sensation to the hand of one who feels it. Sweat on covered parts only." Burning rashes, smooth and shiny. Scarlet fever.

Acute sinusitis, especially with nasal discharge that dries up (Kali-bi.) and throbbing. Bronchitis. Strep throat, ear infections. Earaches that come on fast with a high fever. Photophobic with earache.

Tonsillitis, throat and tonsils are red (Ars.). The mouth is exceedingly dry without thirst. Stinging in esophagus, worse swallowing or talking. Esophagus feels contracted. Affinity for sore throats, especially for children. May have swollen glands, high fever.

Vision disorders. Child has glassy eyes. Eye injuries (Aeon., Calen.) with inflammation, pain and photophobia. Pupils are dilated and the eye gets red and hot. Very sensitive to light. Sparks before eyes.

Cough short, dry, tickling (Rumx. and Phos.). Whooping cough with crying or pains before the attack, flushed face, nosebleed and bloody expectoration.

Paralysis of lungs and heart (vagus nerve). Violent palpitation of heart. Stitches in chest. Swellings of breast with bright red streaks radiating from center of inflammation. Rheumatism worse by motion. Sweat on covered parts only.

"Tenderness of abdomen, worse by least jar. Pressing downward as if contents of abdomen would issue through vulva, worse mornings often associated with pain in back as if it would break."

Lumpy stool, like chalk. Spasmodic contraction of anus, obstinate constipation. Involuntary stool and urine. Bladder infections with congestion. Cramps and spasms on trying to urinate. Bleeding hemorrhoids, back pains as if breaking. Sensation of a hand clutching intestines. Stitches in spleen. Appendicitis, acute pancreatitis, gallstone colic.

The menstrual flow is hot, light color or bad smell. Ovarian cysts, especially on the right. Bearing down symptoms, stabbing pains (Sep.). Pelvic inflammatory disease with severe cramps and high fever.

Can be used prophylactically or to treat rabies, or bad reaction to rabies shot (Lyss., Hydrophoinum). Appropriate in hydrophobia.

The almost absolute deafness in cases is noteworthy in connection with Dr. Cooper's cure of a very chronic case of deafness with single drop doses of Bell.

RELATIONS - Calc. is often required after Bell. Antidotes to Belladonna: Camph, Coff., Op., Aeon. **Compare:** (1) Glon., Hyos., Stram. (2) Sanguisorba officinalis - Profuse, long-lasting menses, especially in nervous patients with congestive symptoms to head and limbs. Passive hemorrhages at menopausal. Chronic metritis. Hemorrhage from lungs. Varicose veins and ulcers. (3) Mandragora - A narcotic of the ancients. Restless excitability and bodily weakness. Desire for sleep. Anti-periodic properties like Chin, and Aranea. Useful in epilepsy and hydrophobia, also Cetonia. (4) Hyos. - less fever, more agitation, Stram. - more sensorial excitement, frenzy. (5) Hoitzia - A Mexican drug, similar in action to Bell. It useful in fever, scarlatinal eruption, measles, urticaria, etc. High fever with eruptive fevers. Dry mouth and throat, red face injected eyes, delirium.

Complementary: Bor., Hep., Merc., Nat-m. Calc. Especially in semi-chronic and constitutional diseases.

Incompatible: Acet-ac.

REFERENCES - Boericke. Clarke. Mur- phy.

***BELLIS PERENNIS

(English Daisy)

PHARMACY - bell-p. Bellis perennis. English daisy. N. O. Composite Tincture of whole fresh flowering plant.

Historical dose: Tincture and all potencies.

CLINICAL - Acne. **Aching, pains.** Arteriosclerosis. Artery diseases. Boils. **Blows.** Brain, softening. **Breast, tumors. Bruises.** Cancer. Carpal tunnel syndrome. Conjunctivitis. Debility. Ecchymosis. Exudations. **Falls. Fatigue.** Giddiness. Gout. Headaches. Hematoma. Hemorrhages. Hemoptysis. Herpes.

• Indigestion. **Injuries.** Joint, pains. **Lameness.** Masturbation. Miscarriages. Menopause. Muscle, pains. Mydriasis. Neuragias. Neuritis. Organ, injury. **Over-work.** Pregnancy, complaints. Psoriasis. Railway spine. Repetitive strain. **Rheumatism.** Sleeplessness. Spleen, disorders. **Sprains. Sore, pains.** Stasis. Stomatitis. **Strains. Strokes. Swelling. Tendonitis. Trauma. Tumors.** Uterus, fatigued. Uterus prolapsed. Varicose, veins. **Venous, stasis.**

HERBAL - The old name of "**Wound-wort**" or "**Bruise-wort**," shows one of the main spheres of the action of Bellis and allies it in action with its fellow composites. Arnica and Calendula. The daisy is a flower that is repeatedly trodden upon and always comes up smiling afterwards. Being the "**day's eye**" may be the sign of its propensities for waking too early.

Burnett said "It is a princely remedy for old laborers, especially gardeners." Overworked old laborers and workmen, head sufferings of elderly working gardeners, commercial travelers, railway spine. Burnett generally gave it in the mother tincture.

HOMEOPATHIC - Dr. Burnett is the chief authority for its homeopathic uses. "It acts very much like Arnica, even to the production of erysipelas." He has cured with its aid several cases of tumors originating in a blow.

"**Stasis**" and "**fatigue**" are the principal notes of the action. Exudations and swellings of many kinds. Fagged womb. Varicose veins. The giddiness of elderly people (cerebral stasis).

Bell-p. acts upon the muscular fibers of the blood vessels. Lameness of joints, as if sprained. Debility of limbs after gout. Venous congestion due to mechanical causes. Arteriosclerosis. Vascular cerebral sclerosis.

Venous stasis, swelling, varicose veins. Hemorrhages.

Injuries to the deeper tissues. Septic wounds to the internal organs, after major surgical work (Calen.).

Sprains and bruises (Arn.). Near and remote **effects of blows, falls, accidents.**

Soreness, swelling due to injuries. Injuries to the nerves with intense soreness, better by cold bathing. Feeling of bruising of the whole body, especially the back. **Tumors or cysts from injury.** Exhaustion with need to move, which eases the pain. Muscular and joint pains. Pain in the right deltoid muscle.

Rheumatic symptoms. Pains are hard, aching, squeezing or throbbing. Unbearable pain that drives to distraction, worse heat better cold. Patients feel tired and exhausted, desire to lie down. Trigeminal neuralgia. Development of chronic conditions that may become cancerous.

Trauma of the pelvic organs from kicks, blows and surgery. **Sore, bruised feeling in the pelvic region, worse**

since childbirth. It removes the ill effects of excess of masturbation.

Externally in nevi. Acne. **Boils all over.** Acrid pus, destroying hair. Belchings.

MIND - Impulse to move. Ideas slow, difficult. Very excitable, makes himself noticed by those around him. Insomnia between 3 a.m. and 5 a.m. Dreams of anger.

Abdomen - Abdominal muscles lame. **Soreness of abdominal walls.** Soreness of abdomen in pregnancy. Fullness about the spleen. Sharp pain in spleen. Spleen sore, enlarged. Bloated, rumbling in bowels. **Injuries, blows to abdominal organs.** Post-operative pain and ecchymosis. Sharp pain in the right iliac cavity. Polyps of the buccal and intestinal mucus membranes. Pain in the appendix. Chronic appendicitis.

Back - Sore, aching pains. Backache from overlifting and strain. **Sprains with great soreness.** Backache or strain during pregnancy. Lumbago from physical labor. Falls on **coccyx. Railway spine.** Itching on back and flexor surface of thighs.

Breasts - Breasts and uterus engorged. **Breast tumor or cancer after injury.**

Causations - Ill effects of **cold drinks.** exposure to wet or getting chilled when overheated. Affections due to cold wind. Blows, falls, injury, accidents, surgical operations. **Childbirth.** Overexertion, overwork.

Chest - Angina pectoris.

Constitutions - Suited to old gardeners, farmers, laborers and commercial travelers. Carbo-fluorica types with tendency to visceral ptosis, laxity of the ligaments and hemorrhages.

Eyes - Eye injury or strain. Catarrhal conjunctivitis. Conjunctivitis with excoriation and irritating discharge.

Female - Painful menses. Injury to female organs. Uterus prolapsed. Prolapse of the bladder and vagina. Uterus tumors. Pelvic cramping pain, spreading to the back. **Uterus feels sore, as if squeezed.** Tendency to hemorrhage. Viscous, irritating leucorrhea. **Injuries, blows to pelvic organs.** Feeling of downward pressure in the uterus. **Soreness of uterus.** Metrorrhagia. Metritis. Cervicitis. **Varicose veins with pregnancy.** Uterine strain, soreness from prolonged standing or pregnancy. **Inability to walk during pregnancy.** Sore, aching pains after childbirth.

Food - Insatiable hunger. Desire for exotic food. Effects of cold or iced drinks when heated.

Head - Headache from occiput to top of vertex. Forehead feels contracted. **Bruised soreness.** Shooting pain. Head heavy on waking with feeling of blood in the head. Attack of migraine with pain in the eyes and watery nasal secretion. Drawing pains in the head and around the trigeminal region. Headache better by holding the head tightly. Itching around scalp and over back, worse from hot bath and bed.

Heart - Enlargement of heart. Rhythmic anomalies. Irregular pulse. Extra systole. Palpitations. Spasms and precordial pain, spreading to the right shoulder. Coronary thrombosis. Angina pectoris. Non-inflammatory lesion of the myocardium. Cardiac neurosis.

Limbs - **Injuries, blows, strains to limbs.** Muscular and joint rheumatism. **Sprains with great soreness.** Joints sore, muscular soreness. Hematoma. Tendonitis. **Bruised, aching, sore pains from injury or strain.** Post-traumatic and rheumatic myalgic **pains. Rheumatism** in old laborers. **Swellings from injuries.** Pain down anterior of thigh. Wrist feels contracted as from elastic band around joint. Carpal tunnel syndrome. Repetitive strain. **Hip pains, worse exertion.** Itching on back and flexor surfaces of thighs. **Varicose veins with bruised sore feeling.**

Liver - Tingling in the hepatic region. Chronic inflammation of the gallbladder.

Lungs - Acute bronchitis. Hemoptysis. Pulmonary atelectasis.

Modalities - Better from continued motion. Better pressure. Better cold applications. Better heat and food. **Worse from injuries, blows, sprains.** Worse exertion, lifting. Worse surgical operations. **Worse left side.** Worse immobility. **Worse touch.** Worse hot bath. Worse warmth of bed. **Worse becoming chilled when hot.** Worse before storms. Worse cold wind. **Worse cold baths, cold drinks.**

Mouth - Stomatitis. Angina. Pain in the tongue and mucus membranes of the mouth. Small ulcerations and cracks and chapping of the lips. Lip herpes. Burning sensation on the tip of the tongue and edges of the tongue are red. Improved by drinking cold water. Toothache improved by heat. Impression that the teeth are too long. Dental neuralgia.

Nose - Watery, irritating secretion. Loss of sense of smell. Nosebleeds. Sinusitis. Rhinitis.

Rectum - Diarrhea and large amounts of gas. Yellow, painless diarrhea, foul odor, worse at night.

Skin - Ecchymosis, swelling, very sensitive to touch. **Bruises and swellings.** Venous congestion due to mechanical causes. Hematoma. Acne. Herpes. Red papules and blisters. **Boils with itching and burning sensation.** Skin dry, cracked. Itching, aggravated by heat in bed and in a hot bath, improved by the cold. Exudations and swellings. Anthrax. Seeping eczema. Nevus.

Sleep - Sleeplessness due to sore, aching pains. Wakes early in morning and cannot get to sleep again. Dreams of anger.

Stomach - Indigestion or stomach ache. Acrid dyspepsia. Aerophagy. Heavy feeling, vomiting, acrid belching.

Cannot bear the weight of clothing on the stomach. Worse cold drinks. Worse when overheated, touch. Pain improved by eating and by pressure. Vomiting, or regurgitation.

Temperature - Fever with shivering.

Throat - Pain on swallowing, feeling of itching in the throat. Huskiness. Feeling of rawness of the mucus membranes, heavy cough. When coughing, feels a sharp pain the thorax. Acute and chronic laryngitis.

Vertigo - Vertigo in elderly persons with cerebral stasis. Headaches with vertigo, improved by fresh air and by leaning over.

COMMENTS - Marked action on the female sexual organs, especially on engorged uterus and breasts. It relieves troubles of pregnancy including the inability to walk, varicose veins, weakness of bladder, constipation, hemorrhoids, prolapses. Given after childbirth, it will relieve pain and bleeding, help the sore, bruised tenderness of uterine area.

Bearing down pains, sense of weight or a ball in the uterus or rectum, weak bladder or uterus since childbirth (Sep.). Mechanical symptoms, the "heavy, tired womb." For toning the uterus after many births. For profuse bleeding or weakness in the uterus since pregnancy, miscarriage or abortion, with muscle soreness and bruised feeling. Sensation of being kicked, deep soreness (Arn.).

Near and remote effects of blows, falls, accidents (trauma). Tumors or cysts from trauma. For sports injuries with chronic aches and pains, or arthritis in the joints from overexertion and bending. Tennis elbow, sprains. Aches and pains in the elderly and laborers are worse with weather changes.

Stasis and stagnation. Loss of tone after injury or trauma, especially to soft tissue. Sleeplessness from overwork. Fatigue from masturbation. Tired feeling with desire to lie down. Can cause sleeplessness. Waking at 3 a.m. "Waking up too early in the morning and cannot get to sleep again."

Stitches in spleen. For severe injury to spleen, sore and enlarged, knife-like pain, area becomes congested and bluish. It has produced acne, boils, rheumatic pains, giddiness. Headache from occiput to front, contracted feeling in front brain. A pain in inner side of right arm as if a boil were developing.

Ill-effects of sudden, wet chill to heated stomach or body surface (Rhus-t.). Keynote "effects of cold or iced drinks when heated," dyspepsia, amenorrhea, skin disorders, rheumatism from this cause. Pre-eminently left-side medicine.

Burnett had a case of a tumor in the abdomen after injury to a rib. It became inoperable, he gave Bellis tincture, and seventeen days later the tumor was gone. He also gave it as a remedy for debility following acute attacks of gout, classing it with Vanadium of which it is a complement in degenerative states, as brain softening and atheroma of arteries.

Bell-p. has been observed to cause dilatation of the pupil when used locally.

RELATIONS - Compare: (1) Compare with Am. - aggravation from the slightest touch and from movement. (2) Calen., Hyper., Con., Ars., Ham., Staph. (3) In effects of brain fag, Pic-ac. Vanad. - degenerative states. (4) Ign. - Unstable, nervous, weeping easily. (5) Sepia - Affects of childbirth. After pains.

***BENZOICUM ACIDUM

(Benzoic Acid)

PHARMACY - benz-ac. Benzoicum acidum. Benzoic acid. It is obtained by sublimation from Gum benzoin or from several aromatic hydrocarbons. Tincture or trituration. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - Asthma. **Bedwetting.** Bladder, disorders. Bunions. Cracks. Diarrhea. Eye, tumors. Ganglion. Gonorrhea. **Gout.** Joints, disorders. **Kidney, disorders.** Knee, pain. Rheumatism. Sycosis. Throat, sore. Tongue, sore. Tonsils, enlarged. Ulcers. **Uric, acid Urine, offensive.** Wens.

HOMEOPATHIC - The leading keynote is the occurrence, as a concomitant of any morbid condition, of **strong smelling urine**, generally also dark. It produces and cures symptoms of a **uric acid diathesis** with highly colored and very offensive urine and **gouty symptoms**. Patient gives out a very strong urine-like odor. Symptoms fluctuate according to the fluctuation of urine. Urination profuse and scanty alternately.

Gouty and asthmatic. Painful gouty nodes. Kidney insufficiency. Joints crack when moving. Hygroma, bunions. Meniere's disease. Marked action on the metabolism.

Pains suddenly change their locality but are mostly felt in the region of the heart or they alternate with urinary symptoms. Pains alternate with heart symptoms. Chilly, symptoms are worse in open air, by uncovering, better by heat. Symptoms appear left side first, then right. Child wants to be nursed in the arms, will not be laid down.

MIND - Activity of mind while at work, followed by anxiety. Fear following hurry. Anxiety while sitting. Anxiety while sweating. Omits words in writing. Child cross, wants to be nursed in arms, will not be laid down.

Depression. Prone to dwell on unpleasant things in the past. Shudders if he sees anyone deformed. Delusion

hears confused voices, worse swallowing or walking in open air. **Abdomen** - Cutting about navel, better stool. **Back** - Pressure on spinal column. Coldness in sacrum. Dull pain in region of kidneys, worse wine. Trembling in lumbar region.

Chest - Chest very tender. Cannot tolerate pressure of clothes on chest. Pain in region of heart.

Constitutions - Gouty constitutions.

Ears - Noise, as of confused voices in ears, worse swallowing or walking in open air.

Face - Copper-colored spots. Red with little blisters. Circumscribed redness of cheeks.

Female - Prolapse of uterus with foul urine.

Head - Headaches when urine becomes scanty. Throbbing in temporal arteries, causes puffing around ears. Noises when swallowing. Ulceration of tongue. Swelling behind ears (Caps.). Cold sweat on the forehead. Pricking, puckered constriction of mouth, bluish and bleeding gums. Wens.

Heart - Pains change places, but are most constant about the heart. Awakes after midnight with violent pulsation or burning at heart.

Kidneys - *Urine is hot, dark brown, strong foul odor* of horse urine, ammoniacal. Excess of uric acid. Cystitis. **Kidney insufficiency.** Kidney gravel, stones. Dribbling of urine. Retention of urine in infants.

Bedwetting, the sheets are stained brown. **Offensive urine of old men.** Bladder catarrh from suppressed gonorrhea.

Limbs - Gouty deposits. Joints crack on motion. Rheumatic gout, nodes very painful. Tearing with stitches. Cracking, pain and swelling in knees. **Pain in Achilles tendon** at the os calcis with pain in heart, when stepping on foot. Ganglion, swelling of the wrist. Bunion of great toe. Tearing pain in great toe.

Liver - Stitching in liver region.

Lungs - Hoarse in morning. Asthma with rheumatic complaints. Asthmatic cough, worse night, lying on right side. Hard, dry cough, followed by expectoration of green mucus.

Modalities - Better from heat. Better profuse urination. Worse from open air, Worse cold. Worse changing weather. Worse by uncovering. Motion aggravates most symptoms, but headache is worse at rest and toothache is worse lying down.

Mouth - Involuntary biting of lower lip, while eating. Tongue, spongy on surface with deep cracks and spreading ulcers. Mouth and throat symptoms are better eating. Toothache worse lying down.

Nose - Itching of septum. Pain in nasal bones. Seems to smell cabbage, dust or something stinking.

Perspiration - Profuse sweat without relief. Night sweats. Sweat with aromatic odor.

Rectum - Frothy **offensive, liquid**, lightcolored like soapsuds, bowel movements mostly windy. Stitches and **constricted** feeling. Puckering constriction of rectum. Itching and watery elevations around anus. Copious grayish stools like soap suds of a pungent urine-like odor, very foul, white.

Skin - Red spots. Itching with agreeable sensation on being scratched, but leaving a burning.

Stomach - Sweat while eating, pressure in stomach, sensation of a lump. Vomiting of salty or bitter substance.

Temperature - Hands, feet, back, knees cold, as from a cold wind. Chilliness, cold sweat. Internal heat on awakening.

Throat - Sensation as of a lump, swelling and constriction better eating.

Vertigo - Vertigo inclination to fall sideways.

COMMENTS - Ganglion of wrist and bunion of great toe have been frequently cured with Benz-ac. In these cases, an ointment of the 3x is a useful external adjunct. Asthma has been cured by it, especially in rheumatic persons. "Most of the symptoms appear on the left side, but may subsequently come on the right." Inclination to dwell on unpleasant subjects and shuddering on seeing anyone deformed.

Inflammation of bronchi and lungs with great tenderness of chest, cough worse night, lying on right side.

Long-continued, dry cough after suppressed gonorrhea. Sensation of lump (as of food) in pit of throat of swelling and constriction. Throat symptoms are better by eating. Tongue is spongy on the surface with deep cracks and spreading ulcers.

Watery, light, very offensive stools (in children), stools like soapsuds with usually strong-smelling urine. Shivering before stool. Bedwetting at night, urine dark, strong-smelling, heavy, hot, smelling like horse's urine. Gout (Colch.), kidney infections, with strong-smelling and offensive urine (Nit- ac.). Joints are red and swollen, sensitive to the touch, gout can migrate. Tearing and stitches in great toe, especially right (gout). Swelling and pain of right knee. Gouty concretions. Kidney stones or gravel in the urine, or for the tendency to form gravel. Uric acid diathesis (Colch., or Urt-u. in tincture).

RELATIONS - **Antidoted by:** Copaiva. **Compare:** (1) Nit-ac. - urine smelling like horse's. (2) Calc., Am-c. benz., Sabina, Tropeleum, Garden Nasturtium, (fetid urine). (3) Cop., Ferr., Zinc., Tropeolum. (4) Useful in gout after Colch. after abuse of Copaiva. (5) In suppression of gonorrhea in bedwetting after failure of Nitrum.

Incompatible: Wine, which aggravates pains in kidneys, drawing in knees, etc. Useful after Colch. fails in gout

after Copaiva in gonorrhea.

*****BENZOINUM ODERIFERUM**

(Spicebush)

PHARMACY - benzo. Benzoinum oderiferum. Spicebush. Fever-bush. Lindera benzoin. Laurus benzoin. Benzoe. N. O. Lauraceae. Tincture of twigs. **Historical dose:** Tincture and all potencies.

CLINICAL - Fever. Hair, oily. Hip, pain. Vertigo.

HOMEOPATHIC - The symptoms of Benzo., as shown in a short proving, somewhat resemble those of Laur. Sense of touch fine, quick and pleasant. The hair is oily. Feverish.

Empty sensation at the stomach and lower part of bowels. Wakes from sleep with a sick feeling in stomach and bowels, tired feeling, turns often in bed at night.

MIND - Unpleasant, fearful feeling.

Head - Hair oily.

Limbs - Hips feel crushed. Pains in knees.

Feet and legs cold up to knees, remained cold in bed.

Modalities - Worse after sleep. Worse on lying down. Head swims with sinking sensation, which makes lying down in bed unpleasant.

Stool - Soft stool, with pain before stool in lower bowel.

Urine - Urine more frequent, small quantity, dark color, had to rise twice in night to urinate.

Vertigo - Head swims with sinking sensation, worse lying down.

RELATIONS - Compare: (1) Laur. (2) Lach. - worse after sleep.

REFERENCES - Clarke.

*****BENZOLUM**

(Benzol)

PHARMACY - benz. Benzolum. Benzol. Ben- zinum. Benzene. Coal naphtha. Benzoline. A product of distillation from coal tar. Tincture with alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Coma. Dysentery. Fever. Headache. Insomnia. **Myeloid, leukemia.** Photophobia. Sweat. Typhoid fever. Vision disorders.

HOMEOPATHIC - Our knowledge of this medicine is derived from observations on a worker in a rubber factory, who for weeks had his hands and arms daily bathed in benzine and drank water impregnated with it.

Benz, affects the blood. In the provers it resulted in **^decrease of the red and increase of white cells**. It may to be of use in acute myeloid leukemia. Patients are tired and nervous. Pain travels from below upwards. Striking eye symptoms. Sense of falling through bed and floor. Hallucinations, epileptiform attacks, coma and anesthesia.

MIND - Hallucination as of a great white hand appeared to him in darkness.

Eyes - Illusion of vision with wide-open eyes. Twitching of lids. Photophobia, objects blurred. Aching in eyes and lids. Marked dilation of pupils. Failure to react to light, particularly daylight.

Head - Sense of falling through bed and floor. Dizzy. Tired and nervous. Pains from below upward. Pressing feeling in head. Frontal headache to root of nose. Right-sided headache.

Limbs - Heavy limbs and cold legs, exaggerated knee-jerk. Pains from below upward.

Male - Swelling of right testicle. Severe pain in testicles. Itching of scrotum. Profuse urination.

Modalities - Worse at night, right side.

Nose - Profuse fluent coryza, especially in afternoon. Violent sneezing.

Skin - Eruption like measles. Perspiration on side not lain upon. Itching all over back. **COMMENTS** - Benz, caused a profound disturbance of mind and body, weeping at trifles, irritability, pain darting upwards in occiput. Could not turn eyes upward without severe aching and throbbing.

A sort of clairvoyant state in which a great white hand appeared to him in the darkness, coming outspread towards his face, causing him in terror to scream for the watcher. A sense of falling through the bed and floor. Insomnia and visual illusions. Pains travel from below upward (headache, pain in anus), chills.

RELATIONS - Compare: (1) T. N. T. (2) Benzin. - Petroleum ether, not as pure a compound as Benzene, (Benzol). It is the same, but with a mixture of various hydrocarbons. Oxyhe- moglobinemia. It seems to exercise a special influence on the nervous system and the blood. Physical weakness, cramps, exaggeration of kneejerks, nausea, vomiting, dizziness. Heaviness and coldness of limbs. Tremor of eyelids and tongue. (3) Benzin, dinitricum.

REFERENCES - Boericke. Clarke.

***BENZOLUM DINITRICUM

PHARMACY - benz-d. Benzolum dinitricum. Di-Nitrobenzol. A crystalline substance obtained from the further action of Nitric Acid on Nitrobenzol at higher temperatures. Solution in alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Amblyopia. Anemia. **Color-blindness.** Impotence. Peripheral, neuritis. Retinitis. **Scotoma.** Spastic paralysis, Urine, black.

HOMEOPATHIC - Benz-d. is used in the manufacture of the higher explosives. The effects on workers were recorded by Simeon Snell in the British Medical Journal of March 3, 1894. The symptoms observed strongly resemble those of Benz-n.

The most obvious results of poisoning by skin absorption are changes in the red blood corpuscles and liver degeneration. Anemia with a murmur in the pulmonary artery. Headaches, giddiness, staggering, with numbness and paralytic sensations. Impotence in men. Distaste for tobacco. Dyspnea was marked in all, accounting partly for the inability to smoke.

Amblyopia, color-blindness, retinitis, **"a small central scotoma for red and green."** Field of vision contracted. The retinal veins were found much engorged, probably part of the general venous engorgement and cyanosis. The blood is altered and turned black, and the urine is black without containing blood.

MIND - Delirious, complaining of great pain in head. Raving behavior and unconscious from 5 p.m. to 10 p.m., the doctor gave him up, but he recovered.

Eyes - Blindness. **Color-blindness, central scotoma for red and green.** Disc pale, grayish, edges defined, retinal vessels full, especially the veins. Retinal hyperesthesia. Veins much larger than the arteries. Conjunctive jaundiced.

Face - Face pale, lips blue. Face bluish, asphyxiated look.

Head - Giddiness, compelling to sit down. Reels as if drunk, even fell off a stool when sitting, stumbled getting into a train. Could not walk many yards without falling. Occipital headache, unable to work on account of headache. Frontal headache with delirium. Color of hair altered from golden to a sort of red.

Heart - Engorgement of venous system. Bruit in pulmonary artery. Pulse very frequent (115), small and compressible. Anemia. Blood black.

Kidneys - Urine dark like ink.

Limbs - Want of sensation in arms and legs, prickly feeling. Legs numbs to knees and arms to elbows. Stiffness about hands and feet, especially the fingers. Hands and feet cold, feet numb and sore. Fingertips feel cold to the touch, though she herself is not aware of it.

Lungs - Breath very short, rendering smoking very difficult. Short breath with giddiness. Asphyxia.

Male - Sexual desire lost, power diminished (restored when taking liquid strychnine after leaving off the work).

Stomach - Intolerance of alcohol, **"it made him feel so bad."** Occasional nausea and vomiting.

RELATIONS-Antidotedby: Strychnine. **Compare:** (1) Benz., Benz-n., Hydr-ac., Ars.

REFERENCES Clarke.

***BENZOLUM NITRICUM

(Nitro-benzene)

PHARMACY - benz-n. Benzolum nitricum. Nitro-benzene. Essence of Morbane. Artificial Oil of Bitter Almonds. Prepared by heating Benzol with Nitric Acid, the oily fluid formed is washed and rectified, it is miscible with alcohol and has an odor of bitter almonds. Solution in **alcohol.** **Historical dose:** Tincture and all potencies.

CLINICAL - Amaurosis. Convulsions. Cyanosis. Diuresis. **Epilepsy.** Nystagmus. Respiration, slow. Strabismus. Tetanus. Trismus.

HOMEOPATHIC - Nitro-benzene is a very poisonous substance and our knowledge of its action is due to numerous cases of poisoning that have occurred. Slows the respiration until death occurs.

Rolling of eyeballs in their vertical axis, pupils dilated. Nystagmus. Blue lips, tongue, skin, face, conjunctive and fingernails.

Flapping of nasal alae. Burning taste in mouth. Burning in throat and stomach. Sweat on forehead and face. Whole body covered with profuse cold sweat. Secretions smell strongly of bitter almonds. Nausea, vomiting of food eaten. Pains in abdomen. Involuntary evacuations.

Paralysis of all limbs. Faintness, sinking, convulsions, twitchings, stupor. Head drawn backward and to the left side in spasms. Punctiform ecchymoses. Dark, black blood, that coagulates with difficulty. Venous blood, hyperemia of the brain and general venous engorgement. Respiration very slow, difficult, sighing. Cold skin, pulse small, weak, breathing slow and irregular, unconsciousness, symptoms of apoplectic coma.

MIND - Loquacity, following drowsiness, soon passing into stupor. Extreme mental excitement, soon became unconscious with inarticulate, confused speech.

Ears - Violent roaring in ears and sounds.

Eyes - Eyes staring. Rolling of the eyeballs in their vertical axis. Constant turning of the eyeballs, inward and outward in a slow, regular motion with the visual axes perfectly parallel. Constant slow movement of eyeballs from left to right under closed lids. Nystagmus. Great injection of conjunctiva of bulbs. Eyeballs seemed enlarged. Strabismus. Pupils dilated, insensible to light. Distorted vision and flashes of strange light and colors.

Head - Head drawn backwards and to the left in spasms.

Kidneys - Diuresis, urine brownish red, odor of bitter almonds. Urine and feces passed involuntarily.

Limbs - Paralysis of all limbs. Twitchings in hands and feet. Arms spasmodically flexed, sometimes extended afterwards relaxed.

Lungs - Dyspnea. Snoring. Sighing, frequently interrupted. Breathing, slow, difficult.

Mouth - Tongue white and swollen, thick and soft. Burning taste, followed by numbness and tingling of tongue and lips. Tenacious saliva. Stammering speech.

Neck - Stiff-neck, trismus and twitchings in masseter muscles.

Pulse - Pulse rapid, weak, irregular, scarcely perceptible. Pulse full and slow.

Rectum - Involuntary evacuation.

Skin - Skin cold and livid, bluish-gray. Punctiform ecchymosis. Bruised spots, bluish-black, beneath scalp and on gluteal muscles.

RELATIONS - Compare: (1) Benzin., Amyg. am., Camph. Hydr-ac.

REFERENCES - Boericke. Clarke.

***BERBERIS AQUIFOLIUM

(Oregon Grape)

PHARMACY - berb-a. Berberis aquifolium. Oregon grape. Mahonia. Mountain grape. N. O. Berberidaceae. The fresh root and stem is pounded to a pulp and macerated in two parts by weight of alcohol. Fluid extract or tincture of root. **Historical dose:** Tincmre and all potencies.

CLINICAL - Bilioussness. Bladder, stones. Blisters. Bronchitis. Eczema. Face, roughness. Headache. Herpes. Kidney, stones. Leucorrhea. Nausea. **Pimples.** Pityriasis. Psoriasis. Pustules. **Scald, head.** Spleen disorders. Stomatitis. Syphilis. Typhoid. Voice disorders.

HERBAL - Berberis aquifolium belongs to the Mahonia group of the Barberry family. It has been used by eclectics in chronic syphilis, chronic skin diseases in scrofulous cachexia and for removing pimples from the faces of girls.

A tea made of the leaves of Berb-a. Mahonia has a local reputation in the **mountain typhoid** of the Rockies and the provings of Berb-a. show febrile symptoms and a marked action on the spleen. It has a reputation for making "**a new man of an old one.**"

Hale reported a case of very advanced secondary syphilis cured with it and some characteristic cases of psoriasis. In all these conditions Berb-a. tincture has been given in 5 to 10 drops doses.

HOMEOPATHIC - Keynotes include an intense, pulsating headache in the forehead. Nausea, vomiting. Pains in the bladder. Rheumatic pains in the joints of the hands and in the lumbar and sacral regions, worse at night. Pruritus and psoriasis-type eruptions. The skin becomes dry, rough, scaly, pimply. Clears the complexion. Eruptions on scalp extending to face and neck. Acne. Psoriasis. Dry eczema.

For chronic catarrhal affections, secondary syphilis. Hepatic torpor, lassitude and other evidences of incomplete metabolism. Stimulates all glands and improves nutrition. Heavy feeling in the stomach, liver and bladder. Pains in the region of the bladder. Rapid peristalsis.

MIND - Unhappiness and depression, sometimes coming on suddenly. Hysterical crying at frequent intervals. Nervous, restless. Disinclined to move or do anything, dullness, stupidity.

Abdomen - Uneasy feeling without desire for stool. Pain in the hypogastrium. Bilioussness and waxy, jaundiced hue. Intense burning in spleen and feeling as if pounded. Distressing soreness in spleen.

Back - Pain in the dorsal vertebrae. Pain in the sacrum.

Breasts - Breast tumor with pain.

Chest - Oppression and weakness of upper part of chest. Burning heat in lower left lung.

Constitutions - Psoric and the sycotic constitution. Biliary types and allergic reactions. Types with a predominance of allergies with chronic mesenchymal poisoning.

Eyes - Feeling that the eye is falling from the socket. Conjunctiva injected. Sensation of film before eyes. Eyes look hollow and weak, as if tired, burning feeling and aching as from strain.

Face - Acne. Blotches and pimples. Clears the complexion. Waxy, yellowish white skin. Flashes of heat to

cheeks. Pinched expression.

Female - Slight burning in vagina, bearing-down pains and aching as if menses about to come on.

Food - Anorexia, aversion to food. Hunger, even soon after eating, without desire for food. Sudden nausea after eating.

Head - Sensation of a band just above ears. Bilious headache. **Scald head**. Scaly eczema. Cramping pains located in the

Berberis aquifolium forehead, spreading towards the occiput. Sensation that the hair is stiff. Pulsating vascular pains.

Kidneys - Stitching, crampy pains, thick mucus and bright-red, mealy sediment. Frequent need to urinate in small quantities. Pain in the region of the kidneys, worse when seated, with frequent need to urinate and burning pain in the bladder. Urine increased or decreased in quantity.

Limbs - Rheumatic pain in the joints of the hands and fingers with slight swelling of the joints between the phalanges. Sense of numbness and feeling as if there was no strength of will to lift the part. Pain severe as after a heavy blow. Peculiar prickling as from electricity on back of hand and outside forearm. Rheumatic tensions and stiffness of legs.

Lungs - Bilious colds, expectoration yellow and then greenish. Dry, irritating cough. Scanty, tenacious, blood-streaked expectoration.

Male - Drawing and pressure in testicles.

Modalities - Better from cold water. Worse in the evening and at night. Aggravation from rest at night, but also from prolonged movement.

Mouth - Fetid breath. Blisters on the edge of the tongue. Tongue thickly coated, yellowish-brown, pasty white, feels blistered. Bilious taste after eating. Soreness in lower teeth and salivary glands.

Nose - Stuffy feeling, with discharge of greenish-yellow mucus. Itching within nose with desire to sneeze.

Rectum - Large, dark stools. Hot, bilious diarrhea. After loose stools, light-colored, constipated stools. Stools too large, expelled with difficulty.

Skin - Acne. **Pimples with a dry, rough, scaly skin**. Dry eczema. **Eruption on scalp extending to face and neck**. Psoriasis. Glandular induration. Pruritus, at first in localized places, then spreading over the whole surface of the skin. Appearance of rashes, blisters, pustules, papules, urticaria. Amelioration from washing in cold water.

Sleep - Drowsy in daytime.

Stomach - Heartburn. Burning in stomach.

Nausea and severe straining to vomit. Nausea and hunger after eating.

Temperature - Diurnal rise of temperature and pulse. Flashes of heat and burning of palms. Flashes of heat to cheeks.

Throat - Dry throat. Throat choked with mucus. Voice rough and somewhat hoarse. Voice seemed cut off, as if a damper had closed. Lack of timbre in voice.

Vertigo - Dizzy sensation, worse sleeping or moving.

COMMENTS - J. D. W. C. in the Recorder, 1896, detailed his personal experiences with doses of 10 to 15 drops a day. On the third day he felt nausea and dull-headed. Later, there was straining to vomit without vomiting. Then came a peculiar headache, strong compression, as if a band of iron two inches wide passed entirely around head just above ears. It kept growing tighter and tighter.

Strong black coffee relieved this after a time, but left him tremulous in nerves and unsteady in gait. Even after that, a single drop of Berb-a. on the tongue was sufficient to avert an attack of biliousness when threatening, and saved him much trouble of the kind to which he had formerly been liable.

Clarke verified its usefulness in second-^{ary} syphilis.

RELATIONS - Compare: (1) Sulph. - Principal remedy for allergy with burning pains, need for cool air, but aggravation from washing or bathing. Pain in the lumbar and sacral regions with stiffness. Dry, scaly, itching rashes. (2) Psor. - This is a principal nosode remedy for allergic conditions. Chilliness, itching, sometimes fetid eruptions. Subject aggravated by the cold, but the eruption is aggravated by the heat in bed. Occipital and frontal migraine improved by eating. (3) Ars. - Burning pains improved by heat. Nightly aggravation between 1 a.m. and 3 a.m. Scaly, burning, itching rashes, improved by hot, damp compresses. (4) Carb-ac., Euonym., Berb., Hydr.

REFERENCES - Anshutz. Boericke. Clarke. Julian.

***BERBERIS VULGARIS

(Barberry)

PHARMACY - berb. Berberis vulgaris. Barberry. N. O. Berberidaceae. Britain. Tincture of the bark of the root.

Historical dose: Tincture and all potencies.

CLINICAL - Aphthae. Arthritis. Bilious **attack. Bladder, disorders.** Chills. Colic. Coryza. Cystitis. Diarrhea. Duodenum, catarrh. **Dysmenorrhea.** Dysuria. **Eczema.** Fevers. Fistula. **Gallstone, colic. Gallstones.** Gravel. Heartburn. Hematuria. Hemorrhoids. Her- **pes, . Itching.** Jaundice. Joint, disorders. **Kidney, colic. Kidney, disorders. Kidney, stones.** Knee, pain. Leucorrhea. Liver, disorders. Lumbago. Menstrual complaints. **Nausea. Nephritis. Neuralgias.** Ophthalmia. Oxaluria. Polyps. Prostate, enlarged. Rheumatism. Sacrum, pain. Side pain. Spermatic cords, neuralgia. Spleen, disorders. Tonsillitis. Tumors. **Urinary, disorders.** Vaginismus. Venous, stasis. Vertigo .

HERBAL - The usual preparations of *Berberis vulgaris* are made from the root bark. Affections of liver and kidneys are strongly marked, but *Berb.* is a medicine of wide range.

HOMEOPATHIC - *Berb.* is often useful in arthritic and hepatic disorders with urinary, hemorrhoidal or menstrual complaints. Venous stasis occurs in the pelvic region, causing hemorrhoids. It acts upon the urinary organs, when there is tendency to the formation of kidney stones.

Berb. causes **inflammation of the kidneys** with hematuria. Marked pain in the region of the kidneys, hence its use in kidney and bladder troubles. **Severe pains from kidney stones.** Gallstones and bladder catarrh. Sharp or tearing, **bubbling pains in region of kidneys,** worse stooping and rising again, sitting or lying, better standing.

Violent sticking pains in bladder, extending from kidneys into urethra with urging to urinate. The emission of urine is frequently accompanied by pains in thighs and loins. During urination burning in urethra or bladder, pressure in bladder, cutting, burning or stitches in urethra.

Dragging or sharp pains in spermatic cord, extending into testes.

Affects the liver markedly, promotes the flow of bile. Useful for fleshy persons with good livers, but with little endurance. **Gallstone colic,** followed by jaundice. Sticking pain in region of liver and gallbladder shooting up to left shoulder, worse by pressure.

Pains rapidly change their locality and character. **Pains are radiating from one point,** shooting outward or all over, sticking, burning, smarting, soreness. Pains may be felt all over body, emanating from small of back. Spinal irritation. Cold feeling in prepuce, glans, testes and scrotum.

Movement aggravates complaints (*Bry.*). Sharp pains are frequent and a **bubbling sensation.** Bubbling and sharp pains are characteristic. A bubbling feeling as if water were coming up through the skin. Tearing, burning pains or bubbling sensation in joints.

Rapid changes of symptoms. Thirst alternates with thirstless, hunger and loss of appetite. Chills and fever. Coldness of body with hot face, commencing 11 a.m., burning heat in afternoon, worse during night.

MIND - The mental condition of *Berb.* is one of indifference, apathy. Aversion to the darkness. Melancholy, inclination to weep. Fretful humor with weariness of life.

Patient is mentally and physically tired, not inclined to do anything. Mental work requiring close thinking is very difficult, the least interruption breaks the chain of thought. Vanishing of thoughts when interrupted. Objects seem twice as large as natural.

Apathetic. Indifference and pensiveness, with disinclination to speak. Anxiety before sleep in evening. Anxiety while sitting, standing or moving. Sees terrifying apparitions in twilight, especially children. Desires death during menses.

Abdomen - Burning in or under skin of abdomen. Rumbling in bowels. Colic pains from gallbladder to abdomen, worse pressure. Torn loose feeling in the epigastrium. Sharp pains in front of kidneys extending to liver, spleen, stomach,

Berberis vulgaris groins. Cramplike contraction in splenic region. Sticking deep in ileum. Pressure and tension in groins, as if a hernia would develop. Sharp pain in region of umbilicus. Severe pain in inguinal region. Varicose veins near right inguinal ring.

Back - Back as if beaten, disabled or stiff. **Bubbling sensation** in back. Tearing, sticking with stiffness, which making rising difficult. Numbness, bruised sensation. Lumbago (*Ant-t.*, *Rhus-t.*). Post-operative pain in lumbar region. Soreness with sharp pains, with frequent urination. Stitches in the spine. Constant pulsating, sharp pains in sacrum. Sharp pains in neck and back, worse respiration. Pustules. Pimples on scapulae. Inflammation of the glands of the neck.

Bladder - Cystitis. Burning pains in bladder region. Dysuria, frequent urination. Urethra burns when not urinating. **Pain in the thighs and loins on urinating.** Cutting and burning in urethra during and after urinating. Sensation as if some urine remained after urinating. Crampy, contractive, or aching pains in bladder, when bladder is full or empty. Burning in urethra during menopause. Constant urging, with pain in neck of bladder, mostly burning and scanty discharge.

Breasts - Pressure in breasts, especially at nipple. Sensation as if breasts were swollen, after menses.

Pressure behind left nipple.

Chest - Oppression of the chest, especially at night, with violent flowing of the coryza. Painful shootings in the left side of the chest. Sensation of excoriation in the chest. **Tearing, sharp pains in chest and region of heart.** Stinging, pulsating, pressing or tensive pains in muscles of chest. Pimples on chest and scapulae. Itching, smarting and burning in axillae. Itching returns after scratching, with smarting stitches or burning.

Constitutions - Acts well in fleshy persons with good livers, but with little endurance. Prematurely old and worn out men and women. Old gouty constitutions. Suited to bilious diathesis. Cases where kidney or bladder symptoms are prominent.

Ears - Itching with small pustules on the outer parts of the ears. Heat alternating with coldness of external ear. Sensation of coldness or bubbling in ears. Stopped up feeling with pressure. **Beating or fluttering noise in ear.** Nodes on auricle. Throbbing and roaring. Acute and shooting pains in the interior of the ear and in other parts. Sharp pains in the ear. Small tumor, size of hazelnut, under and behind ear, enlarged gland.

Eyes - Conjunctivitis, with inflamed lachrymal caruncle. Dryness of eyes with burning and redness of conjunctiva. Aching and sensation of burning in the eyes. Eyes sunken with dark-bluish circles around. Burning and dryness in the eyes, which are dull. As if sand between the lids and eyes. Eyes feel cold as from a cool wind with lachrymation on closing the eyes. Shootings in the eyes. Itching in the canthi, eyebrows, and eyelids. Ophthalmia. Painful eyes on reading by candlelight. Sensitive to the sunlight. Shuns light.

Face - Face hot and red. Sunken cheeks and eyes with bluish circles. Dirty gray, pale, sickly. Bilious. Greenish face, with blue rings and pink eyes. Sensation as if cold drops were spurted into the face when going into the open air. Dryness of the lips. Sensation of tingling on the lips. Burning in lips. Suppurating acne.

Female - Menses, consisting of gray mucus or brown blood. **Menses, with pain in kidneys and chilliness, pain down thighs.** Scanty menses, of black drops of filthy slime. Menses, watery blood or brown. Gray mucus replaces menses. Dysmenorrhea with blood looking like gray serum. **Dysmenorrhea, with pains radiating in every direction.** Leucorrhea. grayish mucus with painful urinary symptoms. Acrid leucorrhea, very prostrating. Neuralgia of ovaries and vagina. Pain changes sides. Vagina sensitive. Vaginismus. Vulvaitch- ing and burning. Pinching constriction in mons veneris, contraction and tenderness of vagina. Burning and soreness in vagina. Urinary symptoms with menses and leucorrhea. Cutting pain during sex. Enjoyment absent during sex. Prostration

Berberis vulgaris after sex. Desire diminished. Suppressed sexual desire with long delayed orgasm.

Food - Appetite either increased or decreased. Excessive appetite, almost like bulimia. Very slow digestion. Acid, bitter taste, especially after a meal. Want of appetite, with bitter, bilious taste. Food appears insipid. Alcoholic drinks aggravates. Thirst and dryness of the mouth.

Head - Dullness of head, as from coryza. Confusion and heaviness of the head. Frontal headache. Cold sensation in right temple. Cold temples. Chilliness in back and occiput. Heat in head from exertion. Skin of head and face as if numb. **Headache, worse by movement, better in open air.** Headache with hepatic or rheumatic arthritic complaints. **Headache with affections of urinary organs.** Darting and shooting pains in the head after changing the locality. Sensation as if the head were becoming larger. **Sensation of a tight cap pressing upon the whole scalp.** Tearing pain in auricle and gouty concretions. Pustules in the tissues of the head and in the face.

Heart - Squeezing with shooting pains in the region of the heart. Frequent palpitations. Sharp pains about the heart. Very painful contracting, shooting pain in region of heart. Pulse becomes very slow. Pulse slow and weak. Pulse full, hard and rapid.

Kidneys - **Radiating, shooting pains** from kidneys into bladder. **Kidney colic from kidney stones.** Pain from kidney, extending along ureter or to liver, stomach, spleen, arresting breathing. **Bubbling sensation** in region of kidneys. **Kidney stones.** Burning, soreness in kidney region. Stinging, burning, gnawing, on small spot near kidneys, worse hard pressure. **Sensitiveness in region of kidneys** so great that any jarring motion, riding in a wagon, jumping from it, was intolerable. Clear discharge from meatus before urinating. **Urine with thick mucus and bright-red.** Urine turbid, yellow. Urine red, mealy, sandy or slimy sediment. **Passes small calculi.** Urine smells like coffee. Urine blood-red.

Limbs - **Bruised feeling in limbs.** Rheumatic paralytic pain in shoulders, arms, hands and fingers, legs and feet. Swelling of joints. **Neuralgia under fingernails** with swelling of the finger joints. Sensation of cold on outside of thighs. Heels pain, as if ulcerated. Sharp pains between metatarsal bones as from a nail when standing. Pain in balls of feet on stepping. Intense weariness and lameness of legs after walking a short distance.

Liver - **Liver troubles with stickingpains in region of gall bladder.** Shooting, aching pains in the hepatic region, increased by pressure. Pressure in the liver. **Gallstones.** Sharp pain in region of gallbladder, worse pressure, extending to stomach. **Gallstone attack with severe pains.** Violent stabbing, in region of liver,

taking breath, must bend over. Catarrh of the gallbladder with constipation and yellow complexion.

Lungs - Increased deep breathing, with dry cough. Shortness of breath when going up stairs. Obstruction of breath when raising arms. **Gallbladder or kidney colic arresting breathing.** Short, dry cough with sharp pains in chest. Expectoration of a quantity of thick, yellow, jelly-like mucus.

Male - Genitals cold and sweaty. **Neuralgia of spermatic cord and testicles.** Constricting pain in testicles. Testicles drawn up. Smarting, burning, stitching in testicles in prepuce and scrotum. Itching on scrotum. Pain changes sides. Prostate gland enlarged, with pressure in perineum. Prepuce and glans cold and numb. Penis hard and contracted, bends upwards. Suppressed sexual desire. Straining during and after ejaculation of semen.

Modalities - Better after urination. Better open air. Worse from motion. Worse jarring. Worse stepping hard. Worse rising from sitting, Worse fatigue. Worse urinating. Worse twilight. **Worse standing**, it brings on, or increases, urinary complaints. Worse deep pressure.

Mouth - Aphthae. Burning and acrid taste in the mouth. Bitter taste. Offensive metallic odor from mouth. Sticky, viscid, foamy, saliva like cotton (Nux-m.). White, sticky tongue, viscid salivaresembling soapsuds.

Diminished saliva. Ugly bluish-red spots in mouth. Gums dirty gray. Small white nodes in the gums. Teeth feel as if too long or too large.

Nose - Dryness in the nose. Crawling and itching in nostrils. Pricking pain in tip of nose. Coryza with the yellowish serum discharge, afterwards of purulent. Obstinate catarrh of left nostril. Catarrh whitish, yellowish, or greenish mucus, especially in the morning. Titillating irritation to sneeze. Drops of blood from left nostril.

Perspiration - Everything excites sweat.

Rectum - Constant urging to stool. Diarrhea painless, clay-colored. Burning and smarting in anus and perineum. Bearing down pain in anus and in sacrum. **Changingstools.** Scanty, thin-formed stool, hard or soft. Hard stools, like sheep dung, with burning in the anus. Stools are dirty gray, smarting tough, watery with jaundice. Tearing pain around anus. Fistula in anus, itching with chest complaints. Copious hemorrhage from anus after increased exercise. Hemorrhoids. Herpes around anus.

Skin - **Itching, burning and smarting, worse scratching**, better cold applications. Small pustules over whole body. **Eczema of anus and hands.** Eruptions leave a brown stain. **Circumscribed pigmentation** following eczematous inflammation. Red marbled spots changing into brown spots. Boils, hastens suppuration and prevents return. Flat warts.

Sleep - Sleepiness during the day. Restless sleep, disturbed by burning itching of the skin or by anxious dreams. Frequent waking, and fatigue, as from want of sleep. Sleep greatly prolonged. Unrefreshing sleep. Difficult awaking in morning, followed by headache, exhaustion, and want of recollection. Anxious dreams.

Stomach - Bitter eructations. Heartburn. Eructations, without bad taste or smell. Bilious risings. Frequent eructations alternating with yawning. **Nausea before breakfast, better after.** Pains from stomach to back, or the reverse. Shiverings in the epigastrium. Burning, shooting pains in the stomach. Sticking or whirling pain in gastric region.

Teeth - Teeth as if too long or too large. Pain as if gums were torn, or teeth pulled out. Scraping, gnawing pains. Tearing pain in left upper molar. Piercing pain in hollow tooth of lower jaw. Sharp pains. Gums dirty grey. Small white nodes in gums. Dingy red edges of gums. Gums bleed easily. Sore gums during dentition.

Temperature - Chilly. Cold sensation in various parts, as if spattered with cold water. Cold single parts. Chills as if in bones, with warmth of skin. Chills before dinner, with ice-cold feet. Chills in region of kidneys. Warmth in lower part of back, hips and thighs. Heat in the hands and head in the afternoon, continuing for several days. Typhoid and putrid fevers.

Throat - Inflammation of the tonsils and pharynx, with swelling and fiery redness. Hoarseness with soreness. Sensation of plug in the side of the throat with dryness. Scratching and burning as from sand in throat. Tonsillitis. Pain in tonsils, when speaking or swallowing. Polyps of larynx.

Tongue - Tongue feels scalded. Vesicles on tongue. Painful pimple on tip. Tongue smarts when touched. Slimy furred tongue.

Vertigo - Vertigo, with sensation of fainting and great weakness. Vertigo on stooping and on making use of the arms. Feeling of intoxication and giddiness.

Vision - Dim vision, all objects looking dark, as if through a veil, or running together. Dim vision with itching around eyes and in face, preceded by incipient catarrh, succeeded by itching on legs.

COMMENTS - There is great weakness like fainting after a walk, with perspiration and heat on the upper part of the body, cold, pale, sunken face and oppression of breathing. Great relaxation with disinclination to do anything. Great sleepiness during day and after dinner. Vertigo and heaviness.

Heat of head after dinner or in afternoon. Puffy feeling in head, as if it were becoming larger. Scalp tense. The face is pale with a dingy gray tinge, sunken cheeks. Deep-set eyes, surrounded with bluish and black-gray

border. Mouth dry and sticky, painful white blisters on tip of tongue.

Darting and shooting pains often changing their localities, worse movement, better open air. Changeable pains. Dry mucus membranes. Discharges or skin is dirty gray. Cold feeling in the bones, eyes, ears etc. Numbness insensible to extreme heat and cold. Metatarsus and metacarpus feel sprained. Neuralgia under fingernails. Lumbago, pains extend from back, around body, down leg, with red sediment in urine. Many old troubles in the back. Sufferings worse by fatigue. Aching in small of back, worse sitting or lying in the morning on awakening.

Chest affected after operations, hemorrhoids, fistula, etc. The pit of the stomach is puffed up. Gnawing pain in right hypochondrium, shooting up to left scapula. Pains shoot down from tenth rib to navel. Burning in either inguinal region (especially right).

Constipation, stool like sheep-dung. Diarrhea. Hemorrhoids with itching or burning, particularly after stool, which is frequently hard and covered with blood. Anal fistula with painful pressure in perineum, extending deep into pelvis (left side).

Nephritis, acute kidney infections, kidney pain from passing a stone, kidney colic from polyhephritis. Numbness, stiffness and lameness in kidney region. Great sense of weakness in kidney region, after exertion. Kidneys are worse walking, especially down stairs, worse jar, bubbling sensation.

Bladder infections with achy kidneys, burning on urination, worse motion (Bry.). Cramping pain while urinating with urinary infection. Profuse amount of urine alternating with little urine.

Frequent urging to urinate. Urine is dark yellow and red, becoming turbid, copious, mucus sediment or transparent, jelly-like or reddish, bran-like sediment. Urine slimy when passed, depositing copious foamy yellowish sediment. Greenish urine depositing mucus.

A liver remedy and gallstone colic with the same pain as passing a stone from the gallbladder, sharp pain that radiates.

Gallstone colic with jaundice. Absence of pleasurable sensation during sex, in women. Uterine symptoms and leucorrhea associated with painful urinary symptoms. Dysmenorrhea, pains radiating in all directions down thighs, etc. Vagina intensely painful, reddened. Violent pain in back with menses, which are too scanty.

Guernsey admirably summed up Berb. "Affects particularly the lumbar region, kidneys, uterus. The patient is sometimes unable to tell the exact locality, but the pain is somewhere in the back and shoots up the back or into the spermatic cord or testes, bladder, buttocks or legs.

"The pain may shoot up or down or both ways. Pains may be felt all over the body, emanating from the back, the pains are of a sticking, pricking, sharp or jerking character, flying about now here and there. There is often a bubbling sensation in the region of the kidneys."

On the indication "tumors and sessile growths," Ozanam cured a case of polyps of the vocal cords, red with a sessile base. Thuja had failed. Berb. 200c was given at first with good effect, the potency being gradually reduced with increasingly good effect until the growth disappeared entirely under the 1x.

B. Simmons verified a symptom of Berb. A gentleman of 52 complained of rheumatic pains in his legs and loss of walking power. After he had walked a short distance, he was compelled to stop from a feeling of intense weariness, heaviness, lameness and stiffness of the legs, which felt sore as if bruised. A single dose affected a complete cure, improvement commencing on the fourth day.

Stuart Close recorded the cure with Berb. 200c of a woman who had cutting, burning pains in the balls of the feet on stepping. On standing with most of the weight on the heels, she had no pain. On rising in morning, there was a sensation in soles as if stepping on needles.

***BERYLLIUM METALLICUM

PHARMACY - beryl. Beryllium metallicum. Glucinium metallicum. **Historical dose:** Trituration and all potencies.

CLINICAL - Allergic conditions. Cancerous conditions. Chronic fatigue. Dermatitis. Eczema. Emphysema. Erythema nosodum. Gingivitis. Kidney stones. Lichen planus. Lipomas. Myocarditis. Sarcoidosis. Stomatitis. Tubercular conditions. Tumors.

HOMEOPATHIC - Beryllium, a light metal closely resembling Aluminium, was isolated in 1828 by Bussy, thirty-one years after Vauquelin's discovery of the oxide which he named glucinium, because of the sweet taste of its salts. Beryl exists in America, especially in Columbia; Madagascar; Russia and France.

The homeopathic symptomatology was undertaken by Templeton in 1951-52 on seven provers, using the 3x, 6x, 7x, 12x, and 30c. Some symptoms can be attributed to the fluorine if it is a question of impure beryllium containing beryllium fluoride.

The usefulness of the remedy should be noted for kidney stones with hyper-production. It is especially a remedy for respiratory deficiency with audible heartbeat.

Slight fever with gradual weight loss. Gradual emaciation and sub-febrile state. Anorexia. Faintness with weakness of the legs. Asthenia. Sleepiness, desire to eat, general weakness, rapid pulse.

Throbbing headache and pain going from the left to right mastoid.

Dyspnea, dry cough, painful with bloodstained sputum, difficult to expectorate. Dorsal and lumbar pains, as if produced by needles. Disorders of the bones of the limbs. The skin is weeping, burning with an itching eruption.

Acrid, abrasive coryza. Tendency to skin tumors.

Abdomen - Diaphragmatic hernia. Chronic pancreatitis. Fibrocystic disease of the pancreas.

Back - Lumbar osteoarthritis. Pain in the back, aggravated by bending head forwards and lying down. Stitching pain and cold feeling in the dorsal and lumbar region.

Blood - Hyperchromic anemia. Increase of leucocytes. Elevation of calcium. Elevation of total protein. Elevation of the sedimentation rate. Albumin-Globulin ratio inverted.

Chest - Angina pectoris. Burning pain behind the sternum.

Eyes - Conjunctivitis with photophobia. Catarrhal conjunctivitis. Follicular conjunctivitis.

Face - Facial neuralgia.

Food - Capricious appetite. Anorexia, followed by keen appetite, which improves the condition. Aggravation from the sight or smell of food from riding in a bus. Aversion to sweets.

Head - Beating or bursting headache, improved by fresh air, lying on the painful side and aggravated by the least movement. Occipital pain extending to the mastoid. Pain from one mastoid to the other, from left to right.

Heart - Rhythmic anomaly. Rheumatic myocarditis. Sclerous myocarditis. Cardiac palpitations and feeling of thoracic constriction.

Kidneys - Porphyrins increased in urine.

Limbs - Rheumatism. Pain in the arms as if bruised. Buttocks cold. Clubbed fingers. Blue discoloration of the hands. Sarcoidosis of the bones. Deposits around the inter-phalangeal joints.

Liver - Liver weakness and deficiency. Acute inflammation of the gallbladder and bile ducts. Chronic cholecystitis with or without stones.

Lungs - Respiration painful, aggravated by movement. Deep, dry, painful cough, aggravated by bending backwards, from smoke, better in a very warm room. Sputum streaked with blood. Cyanosis, cough accelerating the respiratory rhythm. Spasmodic cough with pain behind the sternum. Appearance similar to tuberculosis or sarcoidosis. Pulmonary sarcoidosis. Pulmonary tuberculosis, early stage. Emphysema. Tracheitis and bronchitis. Capillary bronchitis. Dilation of the bronchi. Pneumoconiosis.

Modalities - Better from the cold and fresh air. Worse from physical exercise. Worse heat. Worse movement.

Mouth - Lips dry, cracking. Small ulcerations on lips and tip of tongue. Ulcers of the mouth and tongue. Glazed appearance of the palate. Stomatitis, gingivitis. Lichen planus of the mouth.

Nose - Acute and chronic rhinitis. Seasonal rhinitis, hay fever. Acrid, excoriating coryza, improved in the open air, aggravated in a warm room. Bruised pain inside the nose.

Rectum - Painful, explosive stool, worse by breathing in.

Skin - Nodules and papules, itching and burning. Development of granulomata and papillomata. Hypodermic sarcoids. Lichen planus. Eczema. Dermatitis. Erythema nosodum. Tumors, syphilitic, tubercular or parasitic. Cysts and lipomas.

Stomach - Capricious appetite, nausea at the sight or smell of food and from traveling in a bus.

Temperature - Feverish, goose flesh, shivering, aggravated by the slightest movements.

Throat - Shiny, painful, burning, pain going from left to right mastoid. Constant need to swallow. Stridulous laryngitis. Chronic non-specific laryngitis. Tubercular laryngitis. Polyps and papilloma of the larynx.

COMMENTS - The extraction of the metal is made from the iron ore, beryl, which is ground and roasted, usually with sodium fluoro-silicate. The double fluoride of Be and Na thus obtained is transformed into beryllium oxyfluoride. The metal is isolated by electrolysis in the presence of barium.

Oxidized beryllium can also be treated with sulfuric acid and transformed into Be sulphate from which glucinium is extracted, the latter can be used directly in the manufacture of alloys or to pure Be after treatment by ammonium fluoride.

Workers are exposed at different stages of preparation to the inhalation of fine particles of dust and noxious fumes, formed particularly by fluoride derivatives as well as derivatives of glucinium.

Beryllium is used in, among other things, the manufacture of light bulbs, radio and TV sets' incandescent casings, glass making and ceramics and synthetic precious stones.

Accidental poisoning can occur during the crushing process or the thermal treatment necessary to produce the powders. Chronic berylliosis is essentially caused by its insoluble compounds, especially beryllium, zinc manganese silicate.

These compounds are dangerous because of their fumes and particularly the dust particles, even at a rate lower than half a milligram per cubic meter.

The finer dust particles, are particularly noxious. These form veritable aerosols, which spread over a distance (which explains cases near factories) and which impregnate worker's clothes easily (this explains cases in the family, resulting from brushing the clothes).

The element causes proliferation in the mesenchyme, which ends in the formation of alveolar granuloma. This in turn causes difficulty in the diffusion of oxygen through the alveolar walls with subsequent anoxaemia.

The fixation is above all made in the ethmoid bones and is permanent. It is of the same nature and rapidity in the liver and kidneys, but less prolonged. Elimination is brought about through the urine, at first rapid and profuse, then slow and sparse.

In a subject who died from berylliosis, Martland showed spectrographically that beryllium was present, especially in the kidneys and skeleton.

RELATIONS - Compare: (1) Bry. - Aggravated by movement with a dry, painful cough. (2) Lach. - Failing from cardiac weakness, suffocation, dry, rending cough.

REFERENCES - Julian.

***BETA VULGARIS

(Beet-root)

PHARMACY - beta. Beta vulgaris. Beet-root. Sugar beet. N. O. Chenopodiaceae. Tincture of the juice.

Historical dose: Trituration and all potencies.

CLINICAL - Catarrhal. Tuberculosis.

HOMEOPATHIC - The salt of Betainum hy- drochloricum obtained from the beet root itself seems to be the best adapted to tuberculosis patients. Children with tuberculosis yield very quickly to the action of the remedy. Influences chronic catarrhal states and tuberculosis.

REFERENCES Clarke.

***BISMUTHUM SUBNITRICUM

(Magistrate of Bismuth)

PHARMACY - bism. Bismuthum subnitri- cum. Magistrate of Bismuth. Bismuthum oxidum. Precipitated Sub-Nitrate of Bismuth. The oxidum of Hahnemann and Kent. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Abdominal surgery, vomiting after. Anemia. Angina pectoris. **Cancer.** Cholera. Colds. Coughs. Cystitis. Delirium tremens. Diaphragm, inflamed. Flatulence. Gangrene. Gastralgia. Gastritis. Headaches.

Hemorrhages. Nausea. Nosebleeds. Phlegmasia alba dolens. **Stomach, cancer. Stomach, cancer. Stomach, disorders.** Stomatitis. Toothache. **Ulcers. Vomiting.**

HOMEOPATHIC - Bismuth, including the sub-nitrate, was used by alchemists to prepare the "**Magistrate of Bismuth.** " According to Teste, Bism. corresponds to slow digestion with fetid belchings. It is hardly ever indicated where belchings are not odorous or sour.

Bism. exerts its chief action on stomach and alimentary canal, causing irritation and catarrhal inflammation of the digestive tract.

Gastric disorders with **vomiting, purging and prostration.** The surface of the patient is generally warm. In summer complaints of children there is cadaverous smell of flatus or stool. Desires company, child holds on to its mother's hand.

Gastralgia, not associated with catarrh (Nux-v.). Stomach pain is accompanied by habitual constipation without vomiting or with vomiting of insipid, ropy mucus. The stools are preceded by crampy, pinching pains in the stomach.

Cancer of the stomach, nausea after every meal relieved by cold drinks. **Water is vomited as soon as it reaches the stomach,** violent belching with a putrid smell. Violent retching and vomiting of bile and brownish fluid with extreme pain. Burning, griping, sharp with dull pain in back or spasmodic vomiting.

Oppressive anxiety, with a small pulse, vertigo and prostration. Hemorrhage of dark blood. Prostration. Pains

are tearing, pinching, burning, and screwing. Sensation of heaviness in internal parts. Ailments after abdominal surgery.

MIND - Apathetic. Fickle minded, begins this, then that, holds but a short time to any one thing. **Anguish, never long in one place or position.** Restlessness.

Discontented and dissatisfied. Complains about his condition. Irritability in daytime, better evening. Fear of being alone on waking. Solitude is unbearable. **Desire for company.** Children hold on to mother's hand.

Abdomen - Flatulence. **Distended abdomen.** Abdomen bloated in ridges. Rumbling along colon. Pinching pain in lower abdomen with rumbling.

Back - Boring and burning pains. Tensive pressure on right side of neck near cervical vertebrae. Pain in left side of back, as after stooping too long. Pressure in spine better bending backward.

Chest - Angina pectoris, pain around heart, left arm to fingers. Burning and piercing in the chest and back. Flushes of heat in chest and head. Aching in right half of chest, near sternum. Pressure and squeezing across the chest. Hot, burning, constriction of the chest.

Ears - Pressure and drawing pains in left external meatus.

Eyes - Aching of the eyeballs. Thickened mucus in both canthi. Secretion of mucus in the corner of the eyes. Stupor, with mist before the eyes. Foggy, dim vision, during vertigo.

Face - Earthy, blue around the eyes. Aching pain in cheekbones, better running about and holding cold water in mouth. Face pale and cold. Face pain alternating with gastric pain.

Female - Menstrual blood dark, pitchy.

Food - Intolerable thirst. **Craves cold drinks,** which are vomited.

Head - **Headache alternates with stomach pain.** Neuralgic pain, as if torn by pincers involves face and teeth, worse eating, better cold. Cutting or pressure above right orbit extending to occiput. **Headache extending to the root of nose.** Pressure in occiput, worse motion with heaviness. Headaches return in winter. Cutting pain in brain.

Heart - Angina pectoris, pain around heart, left arm to fingers. Violent heartbeat.

Kidneys - Urine, frequent, watery, copious and pale. Emission of urine entirely suppressed.

Limbs - Cramps in hands and feet. Tearing in wrist. Paralytic weakness, especially in right arm. Tearing in fingertips under nails (Berb.). Itching erosion near tibia and back of feet near joints. Dry palms and soles. Limbs cold. Blue color of forearm and thigh.

Lungs - Dyspnea, from burning, constriction in chest. Cough, day and night with copious expectoration. Pinching in middle of diaphragm, extending transversely through chest. Dark, bloody or blood- streaked.

Male - Aching pains in the testes. Gonorrhea. Nocturnal pollutions without dreams. Pressing, aching in the (right) testicle. Seminal emissions with lascivious dreams.

Modalities - Better from cold drinks. Better cold applications. Better bending backwards. Worse motion. Worse from eating, over eating. Worse when alone.

Worse summer, winter.

Mouth - Metallic, sweetish, sour taste on back part of tongue. Taste bitter. Inflammation of mouth, with whitish excoriations and fissures. **Gums swollen.** Profuse salivation, teeth loose. Constant secretion of a brownish, thick saliva. Tongue coated white, swollen. Black, gangrenous looking wedges on dorsum and sides of tongue.

Nose - Nosebleeds, with dark blood. Heaviness at the root of the nose.

Perspiration - Surface covered with warm sweat.

Rectum - Painless discharge of blood from rectum. Cholera infantum, when the body remains warm. **Cholera morbus and summer complaint, when vomiting predominates.** Watery diarrhea with a putrid smell. Painless diarrhea with great thirst and frequent urination and vomiting. Stools papescent, foul, watery, smell cadaverous. Prostration after stool.

Skin - Burning, smarting in the skin. Ulcers, gangrenous black, bluish. Dry gangrene, parchment-like.

Sleep - Frequent waking, as if in a fright. Sleepy in morning, a few hours after eating. Restless on account of voluptuous dreams, with or without emissions. Drowsy while working. Starts in sleep, thinks that he is falling, awakes in a fright. Unrefreshing sleep. Lascivious, vivid dreams, sometimes without, frequently with seminal emissions.

Stomach - Eructation after drinking. **Burning, feeling of a load.** Will eat for several days, then vomit. Bilious vomiting after eating. **Slow digestion with fetid belch- ings.** Pain from stomach through to spine. **Gastritis, better from cold drinks,** but vomiting when stomach becomes full. Stomach pains, better bending backwards. Pressure as from a load in one spot, alternating with burning, crampy pain and heartburn. Atrophy of stomach. Stomach hangs down, hard lumps are felt below navel. Nausea after eating or nursing. Nausea and pressure in stomach after eating, during headache. **Stomach cancer,** vomiting brownish water. Vomits with convulsive gagging and pain. **Water is**

vomited as soon as it reaches the stomach. Vomits all fluids. Vomiting with vertigo and prostration. Bilious vomiting, after eating. **Vomiting and purging**, with great prostration, flatulence, white tongue and cadaverous stools.

Teeth - Gums swollen, with pain like excoriation. Pressive, pains. Toothache, better from cold water in the mouth, worse when it becomes warm (Coff.).

Temperature - Chill with deathly coldness of whole body. Chilliness intermittent, periodical. Coldness of the whole body, externally. Great heat. Flushes of heat, especially on head and chest. Intermittent fever, small pulse.

Throat - Inflammation of the throat. Burning pain in the throat, sometimes insupportable. Difficult swallowing of fluids, which return through nose. Sore throat, awaking at night and paining very much, with short cough and retching. Ulceration of uvula with burning and tearing.

Vertigo - Giddiness in the morning. Vertigo from violent exercise. Vertigo as if the brain were turning in a circle. Violent vertigo with pressing pain in forehead.

COMMENTS - Grimmer wrote that it's good for stomach cancer, nausea after every meal relieved by cold drinks, water is vomited as soon as it reaches the stomach. Great affinity for disorders of the right upper limb or forehead. The patient is restless, moving about, anxiety. Desires company (Phos.).

Violent risings of a putrid smell with violent retching and vomiting of bile and brownish fluid with extreme pain. Pressing heaviness with stomach pains. Headache alternating with gastralgia.

The pains are chiefly piercing, tearing, burning, cramping and screwing. There are tearing pressing pains in the bones of the hands and feet, spasmodic disorders Of the muscles of face and limbs.

Sensation of heaviness in inner parts. Oppressive anxiety, small pulse, vertigo and prostration. Hemorrhage, with dark, pitchy blood. Anemia, with an itch-like eruption. Corrosive itching on side of tibia. Gangrene and gangrenous ulcers, bluish or dried, parchment-like.

Craves cold drinks, which ameliorate symptoms, but aggravates after it warms up. Cold drinks and cold bathing improve the headache and toothache. Summer complaints. Headache returning in winter. Motion relieves most symptoms, but aggravates some headaches. Pressure in spine is better bending backward.

O. W. Smith verified "Pain in stomach, better bending backward and eructation, tasting of food eaten twenty-four hours before."

Teste cured with the oxide a wearing, nightly cough in a hysteric woman and a case of sub-acute cystitis with irregular paroxysms of crampy pains in the bladder, also a case of phlegmasia alba dolens (left). Petroz cured another such case.

RELATIONS - Antidotes: Nux, Caps., Calc. Bismuth is **Antidoted by:** Calc., Caps., Coff., Nux-v. Is isomorphic with: Ant-c., Ars., Phos. Useful after: Euonymus (headache). **Compare:** (1) Phos. - vomiting, Bism. vomits immediately, Phos. vomits water as soon as it becomes warm in stomach. (2) Ant-c. - vomiting, white tongue, gastritis. (3) Ars. - anxiety, gastritis, cancer, gangrene, vomiting. (4) Bell. - gastralgia, cancer, flatus in ridges. (5) Bry. - toothache, gastritis. (6) Calc., Caps., Chin., Ign., Kali-c., Kreos. (7) Lach. - sore throat, sleep, ulcers. (8) Lyc., Merc. (9) Nux-v. - gastralgia, urging to stool. (10) Plb. - abdomen in ridges, gastralgia, better bending backward, heart disease. (11) Puls., Rhus-t. - better by motion. (12) Sep., Sil., Staph.

REFERENCES - Boericke. Clarke.

***BIXA ORELLANA

PHARMACY - Bixa orellana. **Historical dose:** Tincture and all potencies.

CLINICAL - Eczema. Elephantiasis. Leprosy.

HERBAL - Bixa is a South American herb that's related to the Chaulmoogra plant, recommended for leprosy, eczema and elephantiasis.

REFERENCES - Boericke.

***BLATTA AMERICANA

(American Cockroach)

PHARMACY - blatta-a. Blatta americana. American Cockroach. Periplaneta americana. Kakerlac insignis. N. O. Orthoptera. Trituration of insect with milk sugar. **Historical dose:** Trituration and all potencies.

CLINICAL - Asthma. Dropsy. Jaundice.

HOMEOPATHIC - Mure, who proved Blatta-a., noted that it developed symptoms of jaundice, yellow sclerotics and complexion. Ascites. Various forms of dropsy. Extreme weariness. General prostration and weariness on going upstairs.

Blatta-a. has been used as a remedy for dropsy and has a popular reputation in jaundice. Pain shifting from back to shoulder blade. Acute pain in chest with want of breath (Blatta.). Heat in urethra when urinating

(Canth.).

RELATIONS - Compare: (1) Blatta.

REFERENCES - Boericke. Clarke.

***BLATTA ORIENTALIS

(Indian Cockroach)

PHARMACY - blatta. Blatta orientalis. Indian Cockroach. Periplaneta orientalis. N. O. Orthoptera. Trituration of whole insect with milk sugar. **Historical dose:** Trituration and all potencies.

CLINICAL - **Asthma. Bronchitis.** Colds. **Coughs. Dyspnea.** Emaciation. Obesity. Lockjaw. **Lung, disorders.** Lung, weakness. **Mucus. Pneumonia. Suffocation.** Tuberculosis. Unconsciousness.

HOMEOPATHIC - Blattaorientalis was found accidentally to relieve asthma in a patient who took tea in which a cockroach had been infused. More effective in low potencies for acute attacks, the higher potencies being given in the more chronic stages.

Asthma, especially when associated with bronchitis (after Ars., when it is insufficient). Acts best in stout and corpulent patients. Much pus-like yellow mucus. **Threatened suffocation threatened by great accumulation of mucus.**

Asthmatic fits at night, coughs during the day with slight expectoration and hurried breathing.

Bronchitis and tuberculosis, with short- nessofbreath. **Cough withdyspnea** in bronchitis and tuberculosis. Chronic bronchitis. Colds that bring on bronchitis with fever, may develop into asthma. Emaciation.

MIND - Anxiety about health.

Chest - Chronic inflammation of bronchial tubes.

Constitutions - Obesity, suited to corpulent people. Malarial cases and cases worse in rainy weather. Asthmatic constitutions.

Limbs - Weakness in hollow of knee.

Lungs - Severe chronic asthma. Shortness of breath. Difficult breathing, better from expectoration.

Suffocation from great accumulation of mucus. Purulent tough, viscid, yellow mucus. **Cough with dyspnea.** Pneumonia. Bronchitis and tuberculosis. Spasmodic cough at short intervals with slight expectoration.

Modalities - Worse from dust. Worse during the rain. Worse winter

COMMENTS - Asthma with a lot of mucus and rattling, yellow brown phlegm (Nat-s.). Bronchitis with yellow mucus, difficulty breathing. Keynote worse dust (Sil.), sensitivity to dust (Poth.), especially in dry climates. Great oppression of the chest, "as if a weight or a heaviness on the chest," with asthma. "Feeble lungs," totally inability to expectorate the thick, yellow mucus (Hydr.).

Easier breathing with head bend forward or supporting head with elbows while sitting. Must sit up in bed. Loud, coarse wheezing, like a saw through pinewood. Spasmodic, debilitatingcoughs.Greatfearof suffocation and dying. Lack of ambition to live, great weariness in this remedy.

Clammy, cold sweat. General swelling of the body. Tends to stooped shoulders, barrel-chest. Bronchial spasms. Locked jaws. Unconsciousness.

Used in tuberculosis epidemics, especially the last stages. Characteristic lung weakness, the doctor would have to put their ear next to the person's mouth to hear the case (Stann.).

Aggravated at 9:00 p.m. (Cham., Bell.).

Dr. Ray recorded a case, one of the first for this remedy, in which a man had a 25-year history of severe asthma cured with Blatta. He was emaciated, had nightly attacks, troublesome cough and very frothy mucus. Worse lying down. Stooped shoulders and a stiff neck. Despaired, feeble, could not expectorate, speechless, so weak he could not talk (Stann.).

Anshutz recorded 4 cases concerning the use of Blatta. The first, "A young man, aged thirty-four, had been suffering from asthma for some years. He was invariably worse during the rains and the winter and chronic bronchitis was almost a constant accompaniment. He tried allopathic and lots of patent drugs with only temporary amelioration of the trouble. At last in November, 1888, he came to my office.

"On examination of his chest I found there was a chronic bronchitis. He said that slight difficulty of breathing with hacking cough used to trouble him every night, besides a cold would be followed by a severe attack of asthma, so its periodicity of recurrence was irregular. I treated him with Ipecac, Arsenicum alb., etc. The first-named medicine did him the most good, but he never got entirely well.

"In July, 1889 I put him under tincture Blatta orientalis 3x, drop doses, three or four times daily. Under its use he began to improve steadily and had only two or three attacks of asthmatic fits since he used this drug, which were promptly relieved by the same drug in 1x potency.

"Euphrasia off. was prescribed for his cold whenever he had it. He is free from all trouble for the last year and

a half. His general condition is so much changed that there is no apprehension of the recurrence of his former illness."

The second case, "A shoemaker, aged forty-two, robust constitution, has been suffering with asthma for three or four years. He came to my office on the 6th of November, 1890. He had been getting asthmatic fits almost every night since October last. During the day a troublesome cough comes with slight expectoration and hurried breathing,

made him unable to attend his business.

"Tincture *Blatta orientalis* lx, one drop doses, six times daily, was given. The very first day he perceived the good effect of the medicine and continued the same for a month, when he got well and discontinued the medicine. He has been keeping well ever since."

Anshutz's third case concerned "A gentleman, the keeper of a common shop, aged forty-four, belonging to a village, had been suffering from asthma for the last eight years and had always been under treatment of native kabiraj (medical men). In June, he came to the city and I was called to see him on the 14th of June to treat him for his asthma. The day previous he had an attack, for which he took no medicine. Each of his attacks usually lasted four or five days.

"I gave him *Blatta orientalis* 1 x trituration., one grain every two hours and left him six such powders to be taken during the day. He took them and felt better the next day. He stayed here two or three days more and when well he wanted to proceed home, which was some couple of hundred miles.

"He took with him two drachm phials of *Blatta orientalis*, one of lx and the other of 3x trituration. He continued the 3x, one grain doses, two or three times daily, for a month and discontinued afterward. He had no more asthmatic fits.

"In January last, 1891, I had a letter from him, thanking me for his recovery and asking for some of the same medicine for a friend of his, who had been suffering from asthma. The friend of his who used the same drug, *Blatta orientalis*, was equally benefited."

The fourth case, "Mrs. Datta, a thin lady, aged thirty-eight, mother of several children, had been exposed to cold, which brought on an attack of bronchitis with fever. This in the course of a fortnight, developed into a regular fit of asthma.

"She was all this time treated by an old school physician, but when the husband of the lady saw that she was daily getting worse and a new disease crept in, he made up his mind to change the treatment, I was called to see her in the morning of the 8th of June, 1890.

"She became very much emaciated, could not take any food, had fever with acute bronchitis, hurried respiration, difficulty of breathing, this she was complaining of bitterly, owing to which she could not lie down in bed, but had to sit up day and night. There was a prolonged fit of spasmodic cough at short intervals with slight expectoration, but these coughing fits would make her almost breathless.

"This was the first time I prescribed *Blatta orientalis* lx in a case of asthma with fever and acute bronchitis. It answered my purpose well. She had only ten powders during the day and passed a comparatively better night.

"Next morning when I saw her she was better except the coughing fits, which were continuing as before. The same medicine was repeated. On the 10th of June she had no asthmatic trouble at night, but there was not much improvement in her cough, Ant-t. and Bry. were needed to complete the cure."

*****BOLDO FRAGRANS**

PHARMACY - bold. Boldo fragrans. Boldus peumus. Peumus boldo. Ruizia fragrans. Nyctaginaceae. Tincture of the leaves. **His- torieal dose:** Tincture and all potencies.

CLINICAL - Abscess. Asthma. Bladder, atony. Bronchitis. Catarrh. Cholecystitis. Constipation. Gallstones. **Liver, disorders.** Lung, disorders. Malaria. Pulmonary, edema.

HOMEOPATHIC - Bold, has been used for cholecystitis and biliary calculus. Atonic states of stomach and intestinal canal. Bitter taste in mouth. No appetite. Constipation. Hypochondriasis. Exhaustion.

Burning weight in region of liver and stomach. Liver disorders following malaria. Abscess of liver. Congestion of liver. Burning weight in liver and stomach. Painful hepatic diseases. Asthma, bronchitis, catarrh and edema of lungs.

REFERENCES - Boericke. Clarke. i

*****BOLETUS LARICIS**

(White Agaric)

PHARMACY - bol. Boletus laricis. White agaric. Boletus purgans. Agaricus laricis. Larch agaric. Polyporus

officinale. N. O. Fungi. Trituration. Tincture of the dried mushroom. **Historical dose:** Trituration and all potencies.

CLINICAL - Chills. Diarrhea. Dysentery. Faintness. Fever. Gallbladder, disorders. Headaches. Intermittent fever. Liver disorders.

HOMEOPATHIC - Burt proved the crude substance and the third trituration. The gastroenteric irritation common to the fungus was very well marked. Motion will aggravate the headache. Disposition to yawn and stretch when chilly. Great restlessness after midnight. Faintness after stool. Aching distress in all joints.

MIND - Very gloomy and despondent. Irritated at the least trifle. Absent-minded.

Abdomen - Aching in liver and umbilicus. Severe cutting pains in abdomen every few minutes. Dull, aching distress in umbilicus and loud rumbling in bowels all night. Severe, aching pain just below stomach, causing great faintness.

Back - Chilliness along spine with frequent hot flashes of fever. Dull, aching distress in back and legs.

Eyes - Agglutination of eyelids morning with dull, aching pains in eyeballs.

Face - Hot and flushed with severe frontal headache. Hands hot and dry.

Head - Head feeling very light and hollow with deep frontal headache and great faintness.

Liver - Heavy dragging pains in liver, more in right lobe. Dull, burning distress, drawing, aching in right lobe of liver with frontal headache. Sharp cutting pains in right lobe of liver and whole dorsal region on full inspiration. Sharp cutting pains near gallbladder. Burning distress in region of gallbladder all afternoon with sharp pains in stomach and heavy aching in liver.

Mouth - Teeth and gums very sore.

Perspiration - **Profuse perspiration at night** with hectic chills and fever. Sweat is light and without relief. Night-sweat in tuberculosis.

Rectum - Thin, yellow pasty stool, mixed with something looking like oil in large and small drops. Black, lumpy, dry stools mixed with bile, blood and mucus, with high fever. Lienteric. Straining after stool.

Skin - Hot and dry, especially in palms. Itching more between scapulae and on forearms.

Stomach - Constant nausea and vomiting. Feeling in fauces as if would vomit. Great faintness at epigastrium. Severe cutting pains in stomach.

Temperature - Quotidian intermittent fever. Chilliness along spine with frequent, hot flashes. Yawns and stretches when chilly. Severe aching in shoulders and joints and small of back. Waking at midnight in a profuse perspiration.

Tongue - White coat, thick yellow coat showing marks of teeth. Taste is flat, coppery, unnatural of all food, lost.

COMMENTS - Anshutz noted two cases. The first consisted of a case of fever. "Intermittent fever: Type Quotidian Duplex. In a large lymphatic woman, weight about 180 lbs., aged thirty-nine. November 4th. For the last five weeks has had the ague. At first it was simple quotidian. Took quinine, which broke it for four days, when it returned took quinine in massive doses, which checked it for one week.

"It returned two weeks since in the form of a double quotidian. The chill comes on every day at 10 a.m. and 5 p.m. The chill lasts from one to two hours each time, hands and feet get icy cold, chills run up and down the spine with severe pains in the head, back and limbs, followed by high fever for three hours and then profuse sweat.

"Tongue furred whitish yellow with large fissures in the tongue, flat, bitter taste, has had no appetite for five weeks, craves cold water all the time, bowels rather costive, has nausea during every chill, but no vomiting, very weak, can only sit up about one hour in the morning.

Great depression, cried during the whole examination, face very much jaundiced.

"Treatment: Ars. 2c, every two hours, for three days. It produced constant nausea and lessened the chills, but aggravated the fever. I then determined to try the Boletus 1c, two grains every two hours. Took two doses when the chills came on, she then ceased to take the medicine until 5 p.m.

Took three doses and then fell asleep. 8th. She says she is feeling a little Better continued treatment, 10 a.m., commenced to have a severe diarrhea, an effect of the medicine, discontinued the powders until 5 p.m.

"The fever did not come on until 3 p.m., had no chill, fever lasted three hours, perspired profusely all night, slept well for the first time in a number of weeks. 9th. Feeling much better. Fever came on at 4 p.m., had no chill, fever lasted four hours, nausea all the evening, sweat all night. 10th. Feeling quiet well. Had no more fever, but had night sweats for a week after. Convalescence was very slow, she had no more fever it was three weeks before she felt perfectly well.

"This case demonstrated the fact to us that the Boletus is superior to our greatest remedial agents in the case of intermittent fevers. I believe if I had not been acquainted with the therapeutic properties of the Boletus I would have been compelled to treat this lady every few weeks for two or three months with our usual remedies."

His second case, "Intermittent fever: Type quotidian. November first, Mrs. B., aged fifty-six. Temperament nervous. Three weeks since had an abscess in left ear, which made her quite sick for a week.

"Since then has had fever every afternoon and night. Feels chilly whenever she moves. Walking produces nausea. Does not perspire any. Tongue coated white. Loss of appetite, bowels loose. Very restless at night, cannot sleep any, getting very weak, keeps to her bed most of the time. Gave Boletus laricis. She had the fever but one day after."

RELATIONS - Compare: (1) Boletus luridus. Boletus satanas. Cocc. (head hollow). (2) Agaricin, active constituent of Polyporus officinale - tubercular and other enervating night-sweats 1-4 to 1-2 grains doses, also in chorea in dilatation of heart with pulmonary emphysema, fatty degeneration, profuse perspiration and erythema.

REFERENCES - Anshutz. Clarke.

***BOLETUS LURIDUS

PHARMACY - bol-lu. Boletus luridus. Boletus nigrescens. N. O. Fungi. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Delirium. Meteorism. Pain. Sub- sultus tendinum. Urticaria tuberosa.

HOMEOPATHIC - Poisoning effects show delirium, sunken features, cold sweat, and aviolet color of nose and lips. Intense thirst with a loss of stool, subsultus tendinum, urticaria tuberosa, and violent pain in the epigastrium.

REFERENCES - Boericke. Clarke.

***BOLETUS SATANUS

PHARMACY - bol-s. Boletus satanas. N. O. Fungi. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Cramps. Debility. Diarrhea. Dysentery. Faintness. Vomiting. Weakness.

HOMEOPATHIC - There are two fragmentary provings of this fungus and observations on six persons poisoned. It produces gastro-intestinal disturbances very similar to its two relatives.

Dysentery, vomiting, great debility. Faintness while vomiting. Cold sweat over whole body. Cold limbs, spasm of limbs and face. Sudden sensation through all his limbs as if he would be attacked with a stroke. Violent and extremely painful cramps in the muscles of the limbs and face.

MIND - Fear and restlessness.

Abdomen - Obstinate tension of abdomen. Sunken and frightfully painful abdomen.

Eyes - Sparks before eyes, alternating with obscure vision.

Mouth - Troublesome dryness in mouth and throat.

Rectum - A profuse diarrhea of blood and of the mucus lining of the intestines. Watery evacuations.

Stomach - Unquenchable thirst. Sudden desire to vomit, no nausea between attacks. Vomited twenty times in three hours. Frightful pain in stomach.

Throat - Violent burning and scraping in throat.

REFERENCES - Boericke. Clarke.

***BOMBYX PROCESSIONEA

(Procession Moth)

PHARMACY - bomb-pr. Bombyx processionea. Procession Moth. Thaumetopoea processionea. N. O. Lepidoptera. Tincture of caterpillars. **Historical dose:** Trituration and all potencies.

CLINICAL - Delirium. Fever. Itching. Tubercles. Urticaria.

HOMEOPATHIC - Contact with the caterpillars or the emanations from a nest of them causes intense irritation. Large, hard tubercles with a red areola formed, so thick as to leave hardly any space between. Sometimes they are formed in a linear manner, most marked near joints.

In one case, that of a boy who shook a large number of the caterpillars from a tree onto his naked breast, it caused an itching so severe that the boy had to run home for assistance, then fever, somnolence, delirium and finally death ensued.

Burning heat of skin. Sensation as if a foreign body were under the skin. Itching of whole body. Itching, in evenings, not relieved by anything. In one victim it caused frequent waking at night and dreams that his arms were being cauterized and arrows thrust into the muscles.

RELATIONS - Compare: (1) Apis, Astac. fl., Rhus-t.

REFERENCES - Boericke. Clarke.

***BORAX VENETA

(Sodium Biborate)

PHARMACY - bor. Borax veneta. Sodium biborate. Natrum biboracicum. Trituration and solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. **Aphthae. Aphthous, ulcers.** Chilblains. Colic. Collapse. Coms. Coryza. Cystitis. Dentition. Diarrhea. **Dysmenorrhea.** Ear, discharge. Emaciation. Entropion. Erysipelas. Ey es, disorders. Finger, joints. Finger, ulcers. **Galactorrhea.** Headache. Hematuria. **Herpes, simplex.** Herpes zoster. Infertility. Leucorrhea. Marasmus. Menstruation, painful. Nephritis. Nipples, sore. Nose, disorders. Pleurisy. Pleurodynia. Plica, polonica. **Psoriasis.** Screaming. **Seasickness.** Sore, throat. Taste, disordered. **Thrush.** Trichinosis. **Ulcers.** Urine, offensive. Vertigo.

HOMEOPATHIC - The nervous symptoms are very characteristic and have frequently been verified, especially in the therapeutics of children. Useful in epilepsy. **Sensitiveness to sudden noises**, as a distant shot, which causes violent starting. Gastro-intestinal irritation. Eructation, when painful parts are pressed.

Dread of downward motion in nearly all complaints. Symptoms are worse going down stairs. **Seasickness** when the downward motion is felt most: "Every time the ship goes down, everything in me comes up." Child screams when nurse puts it into cot or when she rocks it.

Aphthous mouth ulcers of the mucus membranes. **Thrush. Herpes of the mouth.** Salivation, nausea, vomiting. Aphthae, mouth of child feels hot to mother's nipple, child lets go nipple and cries with pain and vexation, or else refuses breast altogether.

Painful nursing, pain after nursing, empty feeling in breasts, they ache because they are empty, keynote better by pressure. Mother's milk is thick and tastes badly. Poorly nourished, soft and flabby, children. General emaciation. Marasmus.

Skin and mucus membranes shriveled. Child screams before urinating from inflammation of mucus membrane. Colic, diarrhea, collapse, albuminuria, casts and bladder spasms. Diarrhea with pain or soft yellow stools accompanying aphthae. Hematuria.

Discharges are thick, hot, biting. Clear, copious, albuminous, unnaturally hot leucorrhea. Favors easy conception. Infants cyanotic from birth.

Heat in single parts, mouth, vagina, palms etc. Sticking or drawing pains internal intercostal, soles etc. Skin eruptions. Parts which are usually red turn white. Sensation of cobweb, on hands, face. Restlessness in afternoon. Delirium, visual changes.

MIND - Great anxiety and sleepiness. **Dread of downward motion, causes anxiety.** Afraid of falling. Excessively nervous, easily frightened. **Fear of thunder.** Fear of being infected by some contagious disease. **Fear of falling.**

Sensitive to sudden noises. Startles from hearing bad news or from excitement. **Easily frightened and startled with least noise.** Frightened easily at sneezing. Starting at hawking, at sneezing. Oversensitive to noise during labor. Violent fright from sound of a gun, even at a distance.

Fretful, ill-humored, irritable and discontented. Irritability. Fault finding. Changes from one business to another from one room to another. Confusion, better after stool. Disposition to be angry, with ill humor and passion. Becomes vehement and swears. Does not wish to do anything. Dread of labor.

Fidgety, fickle. Irritable before stool, cheerful and happy after. Babies cry and scream, when nursing or before passing stool or urine. Children awake, suddenly, scream, hold the sides of cradle without any apparent cause. All the mental symptoms are better at 11 p.m. Laughing alternating with weeping.

Abdomen - Colic with tendency to diarrhea after smoking tobacco. Accumulation of flatus in the abdomen, and frequent escape of wind. After every meal inflation of the abdomen with diarrhea and colic. Belly soft, flabby, sunken. Distention after eating, vomiting. Pain as if diarrhea would set in. Pulling from spleen to chest. Catch in

groin on coughing. Stitching pains in the groins before or during menses.

Back - Pain in back, inability to stoop. Sharp and drawing pains between the shoulder blades. Furunculus in the armpit. Itching and crawling, aching or burning in the sacrum, when seated or stooping.

Breasts - **Galactorrhea**, flow of milk, which curdles speedily (Calc., Con., Bell.). **When nursing, pain in opposite breast.** Empty feeling in breasts after child nurses with stitches better compressing. Mother's milk is thick and tastes badly. Aphthae so tender they prevent child nursing.

Chest - Pain in chest, better lying on back, washing with cold water, or pressure. **Sharp pains in chest** with inspiration and cough. Pleurodynia, worse upper part of right chest. Sticking pain in chest (intercostal), worse coughing, inspiration, yawning or any physical exertion. Sneezing with violent shootings in right side of the chest.

Constitutions - Suited to the period of dentition, to persons with light hair, lax skin and muscles, wrinkled skin, consequences of getting cold in cold and wet weather, riding, or eating fruit.

Ears - Inflammation and swelling of the ears. Shootings in the ears, with pain as of excoriation. **Very sensitive to slightest noise**, not so much disturbed by louder ones. Buzzing and murmuring in the ears. As if ear opened and closed.

Eyes - Itching in the eyes. Redness about eyes. Pressure on the eyes. **Eyelashes turn inward**. Entropion. Gummy, crusty, sticky eyelids. Granular eyelids. Eyelids inflamed, lids cut against eyeball. Visions of bright waves. Sparkling before the eyes when writing. Sensitivity to candlelight.

Face - Erysipelas in face. Pale, earthy with suffering expression. Swollen with pimples on nose and lips. Puffy face, bluish in infants. Cobweb sensation. As of a bug crawling over lip. Anxious during downward motion.

Female - Labor pains with frequent belchings. Leucorrhea, like egg whites, with sensation as if warm water was flowing. **Menses too soon, profuse**, with gripping.

nausea and pain in stomach extending into the small of back. **Membranous dysmenorrhea**. Itching of vulva and eczema. Sensation of distention in clitoris with sticking. Indifference to sex. Infertility. Easy conception.

Food - Appetite moderate, especially at supper. Loss of taste. Thirst in the morning. Desire for acid drinks, sour things.

Head - Headache, with shootings in the ears. Headache with nausea and trembling of the whole body. Fullness in the head, and pressure above the eyes. Hot head in babies. Hair tangled, cannot be separated, as in plica polonica (Vine.).

Heart - Violent palpitations. Feels as if on right side and being squeezed. Infants cyanotic from birth.

Kidneys - Nephritis. Cystitis. Urgent inclination to urinate. Frequent emission of urine even in the night. Ineffectual urge to urinate. Hot acrid, smarting urine of pungent smell. Child afraid to urinate, screams before urinating (Sars.). Small red particles on diaper.

Limbs - Want of strength, especially in joints. Limbs tremble at 10 a. m. As if warm water running down thighs. Weakness in calves. **Sharp pains in sole**. Pain in heel. Burning pain in great toe, inflammation of balls of toes. Eczema of toes and fingers with loss of nails. Feeling as of cobwebs on hands. Palms hot. Itching on back of finger joints and hands. Throbbing pain in tip of thumb.

Lungs - Shortness of breath, worse ascending stairs, stitches on speaking. Arrest of breathing when lying, is obliged to jump and catch breath, which causes pain in right side. Dry, hectic cough, caused by a tickling and scraping in the throat. Hacking and violent cough. Expectoration, blood streaked or moldy taste and smell.

Male - Indifference to sex, low sexual desire. Erections, with painful tension, on waking in the morning. Gonorrhea. Chancres studding prepuce. Sticking, sore pain, worse when touched.

Modalities - Better at 11 p.m., evening, cold weather, pressure. **Worse from downward or upward motion**, rocking,

being dangled up and down. Worse from cold, wet. Worse least uncovering. Worse warm weather. Worse fruit. Worse smoking. Worse after menses.

Mouth - Mouth hot and tender. **Aphthous ulcers** in the mouth and on the tongue, which bleed easily. Aphthous after taking sour or salty food. **Oral thrush**. White fungus-like growth. Dry cracked or puffy indented tongue. Bitter taste in the mouth on eating or on swallowing the saliva (Bry., Puls., Cupr.). Palate, hard and wrinkled, as if burnt, pains when chewing, while nursing in children.

Nose - Itching in the nose with tingling. Acrid coryza. Nostrils ulcerated. Dry scabs in the nose. Sneezing. Stoppage of nostrils alternately with lachrymation. Red nose of young women (Nat-c.). Red and shining swelling with throbbing and tensive sensation. Tip swollen and ulcerated. Blood follows on blowing the nose. Accumulation of thick and greenish mucus in the nose.

Perspiration - Perspiration during the morning sleep.

Rectum - Burning in rectum during stool. Pain as if diarrhea would result. Stools, turning green or persistently green like boiled starch. Mucus diarrhea, then weakness. **Loose, pasty, offensive stools in children**. Stools slender. Diarrhea offensive, preceded by colic, mucus stools with aphthous sore mouth.

Skin - Unhealthy skin, slight injuries suppurate. Wilted, wrinkled skin. **Skin, dry**, festers easily, won't heal. **Psoriasis**. Eruptions on fingers and hands, itching and stinging eczema. Whitish pimples with areola. Ulcerations on feet from rubbing of shoe or boots. Herpes (Nat-m., Rhus-t.). Erysipelatous inflammation with swelling and tension. Chilblains relieved in open air.

Sleep - Anxious cries of children during sleep with convulsive movements of the hands. Child cries out in sleep, as if frightened (Bell.). Voluptuous dreams, dreams of sex. Cannot sleep on account of heat, especially in head. Starts from deep as if to fall. Sleepiness during the day and sleeplessness at night.

Stomach - Fullness and pressure in the stomach after having eaten fruit, pears and apples. Gastralgia, reflex from uterine troubles. Belchings, on pressing painful part. Nausea, when thinking hard with trembling of body and weakness of knees. Vomiting of sour mucus after drinking. Pain in the region of stomach after heavy lifting.

Stitching, extending to small of back. Sweat on stomach.

Teeth - Toothache, worse wet weather, better by smoking. Shooting pains in decayed teeth. Pressive tingling in the teeth, immediately after supper or breakfast. Ulcers in the gums with swelling of the cheek. Bleeding gums. Painful gumboil.

Temperature - Flushes of heat. Shivering, shuddering or cold with trembling. Chilliness especially during sleep. Thirst before or during the cold, or else after the sweat. Heat in the evening in bed, with shivering on being the least uncovered.

Throat - Dryness in the throat. Hoarseness in the throat with drawing shootings on coughing and sneezing. Tenacious mucus in the throat with difficult expectoration.

Vertigo - Fits of vertigo with fainting. Vertigo, with fullness in the head. Vertigo, worse from ascending stairs or any elevation.

COMMENTS - A piece of borax, the size of a pea, dissolved in the mouth, acts magically in restoring the voice in cases of sudden hoarseness brought on by cold and frequently for an hour or so, it renders the voice silvery and clear. It has even cured "**shot-shyness**" in sporting dogs.

Herpetic eruptions, pleuritic symptoms (upper right chest) and cough with expectoration of a mushy, moldy odor. Parts usually red turn white. White fungus-like growths. Stitching pains predominate. Starts with pain. Cobweb sensations. Restlessness with ebullitions, especially after talking with nausea.

Sore muco-cutaneous surfaces. Ingrown eyelashes. Otorrhea and inflammation of auricle, "starts with the pains." Nostrils ulcerated, soreness, pain and swelling of

tip of nose. For oral thrush, oral candida. Aphthous ulcers, round and white, like canker sores. Thrush in AIDS cases, with or without aphthous ulcers.

Dysmenorrhea with excessive pain during flow. Leucorrhea preceding and following menses, albuminous, acrid (Graph.).

For infected or cracked nipples while nursing. For babies with sores from nursing (Nat-m., and Sul-ac.), hot and burning. Diaper rash, ulcers and sores around the rectum, candida rashes of the anus. Diarrhea, offensive stools, excoriating. Child screams out in sleep, wakes frightened and clinging.

Laughter alternating with weeping. Idles through the afternoon, does not really get to work, changes from one business to another from one room to another. Fretful, ill humored, indolent and discontented before easy stool in the afternoon, after it, lively, contented and cheerful. Excessively nervous, a slight noise arouses. Patients tend to pale, earthy, fleshy and flabby.

RELATIONS - Antidoted by: Cham., Coffea. **Compare:** (1) Calc., Bry., Nux-v., Bry., Lyc., Merc., Puls., Rhus-t, All-c., Sil., Sanicula, Sulph., Sulphuric acid. (2) Ars., Bell., Graph., Ign., Kali-bi., Phos. (3) Am-c. and Mag-m. - right nostril stopped. (4) Calc. - inclination to breathe deeply. (5) Kali-bi. - tough mucus. (6) Aur. and Puls. - laughter alternately with weeping. (7) Sars., Lyc. (8) Benz-ac. - strong urine, crying before urination, but these three have gravel: with Borax it is from inflammation of mucus membrane. (9) Arum-t. - sore mouth, Graph. - trichiasis. (10) Bell. - hot leucorrhea. (11) Sep. - small ulcers about joints. (12) Bar-c. - cobweb-sensation. (13) Nat-s. - cheerful after stool. **Incompatible:** Acet-ac., Vinegar, Wine.

***BORIC ACIDUM

(Boric Acid)

PHARMACY - bor-ac. Boricum acidum. Boric acid. Solution of crystals in **alcohol**. **Historical dose:** Trituration and all potencies.

CLINICAL - Antiseptic. Colds. **Conjunctivitis**. Dermatitis. **Diabetes**. Dermatitis. Edema. Erythema. Eyes, disorders. Headache. Impetigo. Edema. Menopausal, flushings. Kidney colic. Vomiting. Whitlow. Wounds.

HOMEOPATHIC - Bor-ac. has been largely used as an antiseptic dressing for wounds, as a lotion for the eyes and whitlow, and as a wash in catarrh of the bladder. Arrests fermentation and putrefaction. It is much less irritating than Carbolic acid, but it has also produced skin eruptions.

Bor-ac. affects the skin causing an extensive exfoliative dermatitis.

Pain along ureters with frequent urination. Edema around the eyes. **Diabetes**. Tongue dry, red and cracked.

Coldness (Helo.). Cold saliva. Vagina cold as if packed with ice. Useful in menopausal flushing.

Eyes - Conjunctivitis. Edema of tissues around eyes.

Female - Menopausal flushings (Lach., Amyl-n.). Vaginal coldness, as if packed with ice.

Kidneys - Frequent urination with burning and tenesmus.

Modalities - Better from walking in open air.

Skin - Exfoliating dermatitis. Multiform erythema of trunk and upper limbs.

COMMENTS - Poisonings and provings with Bor-ac. have caused headache, vertigo, noises in the ears,

prostration, cold saliva, vomiting of tough, greenish stuff, uncontrollable vomiting, hiccough, pasty stool, pain in region of ureters or increased urine and increased call to urinate, albuminuria, and an erythematous eruption on face, body and thighs followed by pearly vesicles on face and neck.

Three cases of poisoning have been reported from packing the vagina with the dry acid, kept in by tampons until liquefaction took place. Symptoms included formication of hands and feet, later of face.

Sad spirits, great nervous depression. Burning skin, became swollen and charred and all motions were painful. One case went into collapse, temperature subnormal, sighing and weeping by turns. Prominent coldness, vagina felt "cold as if packed with ice."

In the 3x potency. Cooper found it give great relief in menopausal flushings.

One woman took 30 grains of boric acid per day for a month, when there appeared a multiform erythema of trunk extending to upper limbs, at the same time there appeared a painful swelling of upper lids with conjunctivitis and photophobia.

Finally the edema was so intense as to close the eyes and give the appearance of sclerosed tissue. The symptoms began to abate when the Bor-ac. was discontinued and disappeared in a week.

RELATIONS - Compare: (1) Bor., Carb-ac. (2) Kali-bi. - tough mucus.

REFERENCES - Boericke.

***BORON METALLICUM

PHARMACY - bor-met. Boron metallicum. Boron metal. **Historical dose:** Trituration and all potencies.

CLINICAL - Anemia. Aphthae. Arthritis. Bronchitis. Conjunctivitis. Constipation. Cystitis. Diarrhea. Ear, infections. Eczema. Epilepsy. Gastritis. Herpes. Joint pains. Leucorrhea. Mastitis. Motion sickness. Nausea. Osteoporosis. Parkinson's disease. Sterility. Vertigo. Vomiting.

HOMEOPATHIC - Retarded development, late walking, late talking, late being toilet trained. Growth disorders. Hair tangled. Nails drop off. Anemia.

Dizziness with feeling of falling backwards or sliding down, as if in a lift. Parkinson's disease. Epilepsy. Watery, sometimes green discharges.

MIND - Mentally confused. Slow mind. Disoriented. Lack of concentration. Forgetful. Dementia. Confusion of identity. Sympathetic. Obsessive behavior. Psychosis caused by stress. Delirium.

Nervous, and restless. Timid, unsure of themselves. Indecisive. Low self confidence. Fear of failing. Doubts oneself. Easily discouraged. Desire support from others. Listless and apathetic. Gloomy disposition. Suicidal. Startled easily from sudden noises. Vague fears. Fear of the unknown. Fear of diseases, infections, germs. Fear of death. Fear of going down stairs. Delusions voices that tell them who they are and what they should do.

Bladder - Cystitis. Inflammations of bladder. Bladder spasms.

Breasts - Mastitis. Inflammation of breasts, pain on the opposite side from the one the baby is suckling from. Late birth, child prefers the right breast.

Chest - Sharp pains in chest.

Ears - Ear infections. Sensitive to noises.

Eyes - Conjunctivitis. Inverted eyelids.

Face - Face pale, tip of nose red.

Female - Menses frequent, profuse, with stomach and back pains. Sterility. Clitoris painful and swollen, eczema. Leucorrhea white, sticky and stringy. Leucorrhea like egg-white. Sexually immature. Low estrogen levels.

Food - Aversion to lettuce, fruit, meat, vegetables. Desires apples, pears, potatoes, sweet, cheese, bread. Worse from fruit, pears, bananas, wine, coffee, sour, salt, coffee. Worse fats.

Kidneys - Crying before urination. Urine contains blood and protein.

Limbs - Osteoporosis. Joint pains. Pain at tip of thumb, soles and ball of feet.

Lungs - Bronchitis. Hard cough. Sharp pains in lungs. Lungs feel as if pressed in.

Male - Atrophy of testes. Sexually immature. Low testosterone levels.

Modalities - Better after stools and urination. Better crying. Worse loud noises. Worse 8 am. Worse downward motion. Worse going down stairs. Worse elevators. Worse chlorine. Worse cold weather. Worse damp weather. Worse thunder.

Mouth - Infections in mouth, aphthae, thrush. Herpes on lips. Salivation aggravates. Taste and smell of fungus. Fissured tongue, red and bleeding. Fungus taste.

Rectum - Constipation. Diarrhea. Stools soft with mucus.

Skin - Cobweb sensation on skin. Eczema around mouth, on cheeks, fingers and toes.

Sleep - Sleeps a long time. Talking during sleep.

Stomach - Gastritis. Inflammations of the stomach. Stomach acidity. Nausea on exertion. Vomiting. Motion sickness.

Vertigo - Dizziness with feeling of falling backwards or sliding down, as if in a lift.

REFERENCES - Scholten.

*****BOTHRUPS LANCEOLATUS**

(Yellow Viper)

PHARMACY - both-1. Bothrops lanceolatus. Yellow viper. Lachesis lanceolatus. Vipera jaune. Fer-de-lance. N. O. Crotalide. Martinique Island. Solution of the poison in glycerin. Potencies in rectified spirit. **Historical dose:** All potencies.

CLINICAL-Abscesses. Amaurosis. Anthrax. Aphasia. Blindness. **Blood, clots.** Bones, necrosis. Day-blindness. Edema. Emaciation. Erysipelas. Gangrene. Hematemesis. Hemiplegia. **Hemorrhages.** Lockjaw. Lungs, congestion. Lymphangitis. Nervous, trembling. **Paralysis. Phlebitis.** Pulmonary, congestion. Septic, fever. Septicemia. Snake, bites. Thrombosis. Trembling. Tongue, paralysis. Wounds.

HOMEOPATHIC - The venom of the yellow viper is a coagulant, therefore it is expected to be useful in thrombosis and thrombotic disorders.

After being bitten in the little finger of one hand, paralysis began in the fingertips of the other hand and extended over the whole of that side. Intolerable pain in right great toe (patient bitten in left thumb). Marked diagonal course of symptoms.

Ozanam noted some peculiar symptoms, including amaurosis. Day blindness, can scarcely see her way after sunrise. Deep gangrene, dissecting, bones laid bare and necrotic.

Bothrops lanceolatus

Hemorrhages from every orifice of the body. Black spots. Blindness from hemorrhage into retina. Pulmonary congestion, oppressed breathing and bloody expectoration. more or less profuse. Hemorrhages from the wounds.

Great lassitude and sluggishness. Nervous trembling. Syncope. Sudden or rapid debility and emaciation. Slight shivering, followed by profuse sweat. Aphasia, inability to articulate, without any tongue problems. Hemiplegia, with aphasia. Paralysis of one arm or one leg only.

MIND - Persistent hypochondriasis. **Mental symptoms after having a stroke.** Behaves as if he had a stroke. Aphasia, inability to articulate. Forgetful of words while speaking. Mistakes, using wrong words. Stupor, as if intoxicated. Anguish. Stupor, syncope. Unconsciousness, coma.

Abdomen - Tympanitis.

Back - Opisthotonos.

Blood - Septicemia. **Hemorrhages from every orifice of the body.** Blood being fluid and black. Lymphangitis. Dissecting gangrene. **Blood clots.** Thrombosis.

Constitutions - Broken-down and hemorrhagic constitutions, septic states.

Eyes - Conjunctival hemorrhage. Blindness from hemorrhage into retina. Day- blindness. Amaurosis without any notable pupillary dilatation.

Face - Swollen and puffy. Besotted expression. Swollen, injected, cyanotic. Lockjaw.

Head - Hemicrania, stupor, vertigo. Migraine headaches. One-sided headaches.

Heart - Heart pains. Precordial pains, syncope. Frequent, tight pulse.

Kidneys - Hematuria.

Limbs - Abscess, leg. Edema. Heaviness, lower limbs. Paralysis of the right leg. Paralysis of the right arm. Muscular tissues are filled with black blood. Numbness. **Phlebitis.** Consecutive necrosis. Suppuration, leg. Varicose veins. **Leg is badly infected after surgery for varicose veins.** Swollen veins. Gangrene, toes, legs. Gangrenous ulcers.

Lungs - Bloody expectoration, pneumonia. Pulmonary congestion, oppressed breathing and bloody expectoration, more or less profuse. Spitting of blood.

Modalities - Worse on right side.

Mouth - Trismus. Aphasia, inability to articulate words, while the tongue retains all its functions.

Nerves - Hemiplegia. Nervous, trembling.

Perspiration - Clammy sweats. Profuse sweats. Chills with abundant sweats. Abundant cold sweats at the beginning and end of the malady.

Rectum - Tympanitis and bloody stools.

Skin - Formication and itching. Burning pains. Skin bluish, as from deep and extensive contusion. Skin yellow, as in yellow fever. Blackish skin. Swollen, livid skin, cold with hemorrhagic infiltration. Anthrax. Gangrene.

Lymphatics swollen. Malignant erysipelas. Septic wounds and ulcers. Scars, bleeding and break open. Wounds heal slowly.

Sleep - Tendency to sleep, somnolence; coma, deeper and deeper until death.

Stomach - Intense hematemesis. Epigastric distress. Nausea and vomiting. Black vomiting. Gastric mucosa is red and dotted.

Temperature - Septic fever. Coldness. General heat. Chills with abundant sweats.

Throat - Red, dry, constricted, swallowing difficult, cannot pass liquids.

COMMENTS - The main idea of Bothrops is thrombosis and phlebitis. Tendency to form blood clots (Lach.). Eizayaga used this remedy for clots in the legs, specifically for clots that form in the veins in the legs, and then go somewhere else. Also for "milk leg," phlebitis in nursing women.

RELATIONS - **Compare:** (1) Other snake poisons, notably Lachesis. (2) Bell, has nightblindness. (3) Toxicophis. Trachinus.

REFERENCES - Boericke. Clarke. Mur- phy-

***BOTULINUM

PHARMACY - botul. Botulinum. Bacillus botulinum. Toxin of Bacillus botulinum. Nosodes. **Historical dose:** Trituration and all potencies.

CLINICAL - Albuminuria. Aphonia. Bulbar paresis. Coma. Constipation. Convulsions. Diphtheria. Diplopia. Dizziness. Dysphagia. Dyspnea. Eye, disorders. Food, poisoning. Hydrophobia. Muscular, weakness. Mydriasis. Paralysis. Ptosis. Vision, disorders. Strabismus. Vomiting.

HOMEOPATHIC - Botulism is classified under the heading of meat poisoning. Meat infected by it has no putrid odor, though a characteristic rancid smell is described. Fish, as well as any sort of preserved meat, may form a suitable medium for its growth.

The symptoms of poisoning set in 24 to 36 hours after taking the infected material. Vomiting is usually the first symptom, but the gastro-intestinal tract is little affected in patients attacked by the bacillus botulinus and its toxin.

There is generally constipation rather than diarrhea. Following the first vomiting a train of nerve symptoms develop. Eye symptoms, ptosis, double vision, blurred vision, mydriasis, strabismus, paralysis of accommodation.

Botulism poisoning produced a clinical picture of bulbar paresis. Repeated suffocative attacks have been often observed and after large doses convulsions. General muscular weakness, successive dryness and hypersecretion of the buccal and pharyngeal mucus membranes.

Aphonia, and retention of urine. Difficulty in swallowing and breathing, choking sensation. Weakness and uncertainty in walking, **blind staggers**, dizziness. Thickening of speech. Cramping pain in stomach. **Masklike expression of face**, due to weakness of facial muscles. Severe constipation.

COMMENTS - The therapeutic applications spring from the recorded symptoms. The drug is to be thought of in hydrophobia, bulbar paralysis and allied affections, diphtheritic paralyses, and the dyspnea attacks and coma of diabetes.

Paroxysmal dyspneas occurring in various diseases, in so far as they are central in origin, should be aided by Botulinum, and it is interesting to note that it is precisely repeated attacks of dyspnea that Dr. Schepens has found himself able to cure with the drug.

His first recorded case is that of a lady of 70, with arteriosclerosis, slight albuminuria, and a small pleural effusion, who suffered from nocturnal dyspnea attacks of an alarming kind. Phos., Ars., Lach., Spong., and Hyos. all did little or nothing. After fifteen days Botul. 30c was given, one dose.

Short aggravation followed by amelioration ensued. The dose was repeated in two days' time, and the same phenomena occurred, but the improvement was more marked. In another two days another dose, and no more, was required. Nine days from the first dose the effusion had disappeared, and albuminuria and attacks of dyspnea followed suit.

The second patient was a man of over 50. An erysipelatous eruption of the right leg disappeared under Apis, lod., and Kali-i., but when the patient returned to work he was at once attacked by paroxysms of dyspnea, preventing him from lying down and causing great distress. Traces of albumen were found in the urine. Rhus-t. and Lach, did little.

Botul. 50c, two doses within an interval of two days, caused amelioration, after two days more, Botul. 30c, one dose. The next day the albumen had disappeared. One more dose after four days was all that was required, and the patient returned to work restored fully to health.

RELATIONS-Compare: Bell., Bry., Rhus-t., Sulph., Agar., Hydr-ac., Lach., Ant-t. Ars., Phos., and Tab.

***BOVISTA LYCOPERDON

(Puff-Ball)

PHARMACY - bov. Bovista lycoperdon. Puff ball. Bovista gigantea. Warted puff-ball. Lycoperdon bovista. N. O. Fungi. Trituration. Tincture of the spores of the mushroom. **Historical dose:** Trituration and all potencies.

CLINICAL - Absent minded. **Acne.** Asphyxia. Boils. Chills. Coccyx, itching. **Colic.** Constipation. Corns. Cough. Cysts. Diabetes mellitus. **Diarrhea.** Ear, eczema. Eczema. Fever. Flatulence. Ganglion. Gleet. **Headache.** **Hemorrhages.** Heart, disorders. Herpes. Hiccough. Jaundice. Joints, disorders. Leucorrhea. Menstruation, disordered. Metrorrhagia. Morning sickness. Nausea. Neuritis. Nosebleed. Ovarian, cysts. Ovaries, disorders. Palpitations. Pellagra. Rheumatic, disorders. Scurvy. **Stammering.** Tetters. Tongue, ulcers. Tumors. **Urticaria.** Vertigo. Vomiting. Warts. Whitlow. Wounds.

HOMEOPATHIC - Clarke stated "This globular fungus, which, according to report is eaten in Italy before it is ripe, becomes filled, while ripening with a black dust that breaks the husk which contains it with a slight noise." Corresponding to this signature, "bloated, puffy condition of body surface," and a sense of "enlargement," leading features of the Bov. pathogenesis include flatulent distention and noisy passage of flatus. Guernsey added "We may always think of Bov. when we see a very 'tettery' person, one who has tetters here and there, all over the body. These tetters may be either moist or dry."

The puffball exerts its influence on the **circulation**, causing relaxation of the capillary system, thereby **ptoducinghemorrhagic diathesis**. There is a general puffiness, bloated condition of body surface, which produces easy indentations with a blunt instrument (scissors etc.). Eczema-like eruption. Herpes. Marked languor and lassitude.

Laxity, especially felt in joints, which seem loose. Great weakness of the joints (has cured where Rhus-t. seemed indicated and failed). Nervous joints. Enlarged or swollen feeling in head, heart, etc.

Stage of numbness and tingling in multiple neuritis. Asphyxia due to charcoal fumes. Effects of over-exertion and application of tar locally.

MIND - Awkward in speech and action, drops things. **Everything falls from hands.** Absentminded. Weak memory. Inattentive. Slowness of understanding and comprehension. Dullness, with restlessness.

Alternating moods. Laughs and cries alternately. Sensitive, takes offense at everything. Ill-humor, aversion to all things. Quarrelsome. Wants to fight. Fear of insanity on waking from a dream. Irritable, takes everything amiss.

Confusion on waking. Confusion while standing. Confusion when stooping. **Enlarged sensation** (Arg-n.). Stares vacantly into space. Sad when alone. Cheerful in company. Mental symptoms from sexual excesses.

Abdomen - Bloatedness of abdomen. Cannot bear tight clothing around the waist. Flatulence or rumbling with constipation. Pain around umbilicus. Abdominal colic, with bright red urine. Flatulent colic. **Colic relieved by eating** and bending double. Offensive flatus. Sharp pain through perineum towards rectum and genitals. Coldness sensation moving about in abdomen. Ulceration in bowels.

Back - Pain in the back with heaviness after stooping. **Tip of coccyx itches intolerably.** Pain and stiffness of back after stooping. Stiffness of neck in morning. Shooting pains between the shoulders are better from bending, straightening up. Sharp pains in neck.

Causations - Antidotes effects of charcoal fumes.

Chest - Oppression of chest, as from constriction, with desire to loosen clothes. Sharp pains in various parts of chest. **Sweat in axilla, onion smell.** Burning in outer chest.

Constitutions - Hemorrhagic diathesis. Adapted to old maids with palpitations and stammering children.

Ears - Boil in right ear with pain, worse swallowing. Discharge of fetid pus. Indistinct hearing, misunderstands much

Bovista lycoperdon that is spoken.

Eyes - Eyes look weak and dim. Inflammation of eyelids, with nightly agglutination. Pressure in orbits. Vertical half-sight. Objects seem to be nearer than they really are. Stares at one point. Loss of vision from paralysis of optic nerve.

Face - Frequent violent alternations of color. **Acne**, worse in summer, due to use of cosmetics. Cheeks and lips swollen. Crusts about corners of mouth. Twitching of muscles, before asthma. Pale swelling of cheek after toothache.

Female - Burning pain in genitals. Menses too early. **Menses too profuse, worse at night.** Menses every two weeks, much dark and clotted blood. Soreness of pubes during menses. **Traces of menses between menstruation.** Leucorrhea a few days before or a few days after menses. Leucorrhea like white of egg, when walking. **Leucorrhoea acrid, thick, tough, greenish**, leaving green spots on linen worse while walking after

menses. Metrorrhagia. **Cannot bear tight clothing around waist** (Lach.). Ovarian cysts. Voluptuous sensation.

Food - Excessive hunger, even after meals. No appetite for cooked food, desire for bread only. Desire for brandy, wine, milk. Hot food relieves. Worse spirituous liquors, wine, cold food. Confusion from spirituous liquors, after wine. Thirst for cold drinks. Thirst during chill and heat.

Head - Dull, bruised pain in brain. Confusion on waking. Staggering, confusion and numbness in head after sex. **Tension headaches**, worse early morning, open air, lying. Stupefying headache in forehead and vertex.

Sensation as if head were enlarging, especially of occiput. As if wedge is pressed in occiput. Scalp itches, worse warmth, sensitive, must scratch until sore. Falling out of hair. Scalp tender to touch.

Heart - Heart feels enormously large. Palpitations as if heart working in water. Palpitations with tremor of hands, worse bathing, excitement. Palpitations worse after eating. Palpitations with restlessness, nausea and headache. Palpitations

Bovista lycoperdon during menses. Visible palpitations of the heart.

Kidneys - Frequent desire to urinate, even immediately after urination. Diabetes mellitus. Stinging, itching, burning in urethra. Bright red urine. Urine bright yellow. Urine with slowly forming cloud, turbid. Urine like loam water. Urine with violet sediment.

Limbs - Great weakness of all joints, clumsiness with her hands, drops things from hands. Weariness of hands and feet. Moist eczema on back of hand. Weak hands. Heavy, painful legs. Itching of feet and legs. **Tip of coccyx itches intolerably**. Edematous swelling of (right) foot even years after a sprain. Edema of joints after fracture.

Lungs - Asthma preceded by twitching of facial muscles. Shortness of breath on moving the arms. Viscid expectoration. Spasmodic laughing and crying with asthma. Dry cough, caused by tickling in throat and chest. Cough after coming into room from cold air. Loose cough in evening, dry in morning.

Male - Increased sexual desire. Reeling and confusion in head after sex.

Modalities - Better from bending double. Better eating, hot food. **Worse before and during menses**. Worse hot weather, getting warm. Worse full moon. Worse from cold food, coffee, and wine. Worse at night. Worse after eating. Worse when blowing nose. **Easily intoxicated, worse wine**.

Mouth - Putrid taste. Stammering when reading with inability to pronounce several words rapidly. **Stammering** (Stram., Merc.). Mouth dry, as if sand were in it. Numbness. Increased saliva. Offensive odor from mouth. Gums bleed easily on sucking them. Bleeding after tooth extraction. Lips chapped, cracked, crusty. Pale swelling of upper lip. Scurf and crusts about nostrils and corners of mouth. Corners of mouth sore.

Nose - Nose stopped up, cannot breathe, worse lying down. Scurf and crusts about nostrils and corners of mouth. **Discharge from nose, stringy**, tough. Watery coryza with dizziness. Bleeding of nose and gums. Nosebleed with menstrual irregularity, or from trauma. Bleeding early in the morning (during sleep), a few drops escape on sneezing.

Perspiration - **Sweat in axilla, onion smell**. Sweats in morning, most profuse on chest.

Rectum - Offensive flatus. Flatulence or rumbling with constipation. Constipation. Fruitless urging to stool. **Sharp pains through perineum towards rectum and genitals**. First portion of stool is hard, latter part thin and watery. **Diarrhea worse before and during menses**. Chronic diarrhea of elderly people, worse at night and early morning. Diarrhea, better after breakfast. Itching in rectum, as from worms.

Skin - Eczema, red, burns, itches, disturbs sleep. **Eczema, moist formation of thick crusts**. Jaundice of newborns. Pellagra. Itching on getting warm. Itching eruptions, oozing, forming thick crusts or scabs with pus beneath. **Urticaria on excitement** with rheumatic lameness, palpitations and diarrhea (Dulc.). Urticaria covering whole body with diarrhea or metrorrhagia. Urticaria on waking in the morning, worse from bathing. Pimples cover the entire body. Scurvy. Herpetic eruptions. Shooting pain in corns and warts. Blunt instruments leave deep impression on the skin. Tetter, moist or dry, red, scabby eruptions.

Sleep - Spasmodic yawning before asthma, morning sweat in bed. Night Great drowsiness in afternoon and early evening and after eating, rest disturbed by burning and itching of nettle-rash. Restless sleep with many anxious, frightful dreams.

Stomach - Empty eructations. Intolerant of tight clothing around waist. Hiccough before and after dinner. Sensation as if a lump of ice in stomach. Pressure and fulness in pit. Nausea better breakfast. Nausea with chilliness, whole forenoon. Morning sickness, vomits only water. Vomits watery fluid.

Temperature - Chills with pain. Chills after going to bed at night. Chill predominating, even near a warm stove. Chills all

night: Shivering in evening, spreading from back. Shuddering alternating with flying heat. Fever with thirst, anxiety and restlessness. Fever heat during sleep.

Throat - Burning pain in throat. Sharp pain in throat before asthma. Sore throat with scratching and burning in

esophagus. Scratching sensation in larynx with viscid mucus. Rawness in larynx, mornings, with catarrhal speech. Hoarseness in morning, with scraping in throat.

Tongue - Soreness or ulcers on edges of tongue. Burning in tip of tongue early in morning on waking. Cutting pain in tongue, before asthma. Numbness of posterior portion of tongue early in morning on waking. Tongue feels almost like wood.

Vertigo - Vertigo with feeling of stupidity in head on rising. Vertigo and confusion of head after sex. Vertigo, falls over, momentarily unconscious in morning. Sudden attacks of vertigo while standing.

COMMENTS - Relaxation of entire capillary system. The heart feels enormously large. Hemorrhagic diathesis. Hemorrhage from menstrual irregularities, from trauma. Hemorrhage between the periods. Menstrual flow occurring only or chiefly at night. Ovarian cysts.

Puffy condition of the body, surface instruments (e.g., scissors) indent the fingers in an unusual degree. Sweat of axilla, smells like onions. Early morning sweat, worse on chest. Many symptoms are worse in early morning, including the diarrhea. Sensitive to touch, cannot bear clothing. Sensitive to drafts, chilliness predominates.

Warts and corns with shooting pains. Ebullitions with great thirst. "Itching at top of coccyx." The corners of the mouth are broken out. Numb, pithy feeling in mouth. There is stuttering and stammering speech. Awkwardness, misapplies words in speaking and writing.

Colic, causing the patient to bend double (Coloc.), better by eating, sometimes accompanied by voiding of red urine.

M. L. Sircar recorded a striking cure of such a case with Bov. 3x, the pain being griping-twisting intermittent, starting be-

low umbilicus and diffusing itself towards epigastrium, some constipation, urine scanty and reddish. Nothing gave relief except eating.

Teste observed psoric eruptions appear on the hands and feet of a patient to whom he gave Bov. for a headache. He cured with it "red, crusty eruptions on thighs and bends of knees of eighteen years' duration." It disappeared for weeks, reappearing in hot weather and at the full moon.

W. S. Gee recorded a case concerning a widow, 55. She had an eruption, which she thought to be erysipelas, on her right foot. . Some years before, she had an eruption on her left foot, which discharged much water and was "cured" by the use of a salve. A few months later, the left knee became affected and the limb was amputated above the joint.

The current eruption was fiery red, covered with yellowish-brown scales, thick as an old-fashioned wafer. There were also rheumatic pains in the leg. After Rhus-t. had been given without benefit, she was cured with Bov. 4c.

Dr. Gee elicited additional symptoms including "Occasional spells of short breathing, especially from working with the hands. Frequent desire to urinate, even immediately after urinating. Sleep disturbed by burning and itching and also by anxious, frightful dreams, headache when waking from sleep."

Lilienthal noted "moist vesicular eruptions with formation of thick crusts"; Bov. was given with steady improvement and eventual cure.

A case of cyst in the broad ligament was cured. It was accompanied by metrorrhagia, flow at night or early morning, easily provoked from slight over-exertion during menses. Could bear nothing tight around body. Menses were preceded and followed by diarrhea. Acrid, corrosive leucorrhea, flowing at night only, follows menses.

RELATIONS - It antidotes: Effects of Tar applied locally. **Compare:** (1) Calc., Cic., Rhus-t., Sep., Phos., Puls., Staph., Sulph., Verat., Bell., Bry., Carb-v., Caust., Kali-c., Lyc., Merc., Nat-m., Sil., Spig., Stront., Valer. Aur., Puls., Lyc. (2) Stram. - laughter alternately with weeping. (3) Ars., Lyc., Sulph. - sinking immediately after eating. (4) Bufo - sensation as if heart in water. (5) Zinc. - worse from wine. (6) Coloc. - colic better bending double. (7) Am-c. - poisoning by charcoal fumes. (8) Stram. - stammering. (9) Ambra - hemorrhage between periods. (10) Sec., Ust. **Followed well by:** Alum., Calc., Rhus-t., Sep. Teste puts Bov. in his Sulphur group. **Antidoted by:** Camph. Bov. antidotes coal tar applications. Suffocation from gas. After Rhus-t. in chronic urticaria.

***BRACHYGLOTTIS REPENS

(Puka Puka)

PHARMACY - brach. Brachyglottis repens. Puka puka. N. O. Eupatoriaceae. New Zealand. Compositae. Tincture of green leaves and flowers. **Historical dose:** Tincture and all potencies.

CLINICAL- Albuminuria. Back, **pain. Bright's disease.** Cystitis. Dysmenorrhea. Nephritis. Writer's cramp.

HERBAL - The Maoris use the leaves to apply to old sores and ulcers. Horses eating young shrubs lose all

power over their hind legs and spine.

HOMEOPATHIC - Brachyglottis was proved by C. L. Fischer. A large number of symptoms were produced in all regions of the body, but few have been tested clinically.

Kidney and bladder symptoms predominate. **Bright's disease.** Produces symptoms of albuminuria. Urgency in passing urine, pain in neck of bladder. Pain in bladder after urinating. Pain in urethra and stinging in penis. A large quantity of pale-colored urine voided of low specific gravity and containing albumen.

Causes lassitude, weakness, and flesh loss. **Fluttering sensation** (Calad.). Throbbing pains. Pains in back and limbs. Oppression of chest. Writer's cramp. Chilliness predominates. Itching in ears and nostrils.

Dysmenorrhea with fluttering in abdomen, right ovary has been cured with it.

Abdomen - Isolated throbbing in left groin. Fluttering sensation in abdomen. Feeling as if something rolling about.

Back - First dorsal vertebra sore to touch. Cutting under left shoulder. Aching in lumbar region. Isolated throbbing in right side of back. Feeling as if whole back would contract backward and muscles of neck were affected.

Bladder - Cystitis. Sense of swashing in bladder. Pressure in neck of bladder, urging to urinate. Soreness in urethra, feeling as if urine could not be retained.

Chest - Pains flying about chest and precordial region. Throbbing in sternum.

Ears - Tingling, itching, pricking in ears. Throbbing about right ear, from ear to eyes, and throat to neck.

Eyes - Soreness around eyes, as if bruised. Dim sight during pressure in forehead.

Face - Twitching in left side of face (evening). Soreness right zygomatic process. Flushed face. Face ache left side, submaxillary glands affected.

Female - Fluttering in region of ovary. Dysmenorrhea with fluttering in abdomen and right ovary.

Head - Cold sensation and tightness about scalp. Throbbing in left temple. Headache over left or right eye. Headache and faceache become very severe and prevent sleep during night.

Kidneys - Bright's disease. Nephritis. Urine contains mucous, cells, albumen and casts. Passing urine preceded by pains in bowels. Urine abundant, contains mucus and albumen.

Limbs - Great weakness in limbs, weariness and prostration. Cramp in fingers, thumb and wrist when writing, soreness extending along flexor carpi ulnaris.

Lungs - Oppression of breathing, better by sighing.

Male - Throbbing in penis and desire to pass urine, pressure in bladder.

Mouth - Pain, numbness, pricking, soreness of tongue. Heat in mouth. Toothache right side.

Nose - Nostrils, sore, itching. Irritation in nose.

Rectum - Ineffectual urging for stool. Diarrheic stools in evening. Tendency to diarrhea. Constipation. Evacuation of dry feces with sore, constrictive pain in anus. Feces like balls and knotty. Dry stool, like balls, evacuated with sore, constrictive pain in anus, evening.

Sleep - Great sleepiness during day with constant yawning. Restless and sleepless nights. Talking in sleep. Sleeplessness after waking. Confused dreams. Full of dreams.

Stomach - Nausea in stomach. Fluttering. Soreness in evening. Throbbing in stomach. right side.

Temperature - Chilliness and shivering. Coldness of hands and feet. Nervous chills.

Throat - Soreness, rawness, scraping in throat, worse by swallowing.

Vertigo - Vertigo with flushed face. Vertigo with pain in forehead.

RELATIONS - Compare: (1) Helon., Merc-c., Plb. (2) Apis - soreness, stinging in urethra, Am. - bruised, sore feeling. (3) Bov. albuminuria, Helonias, Merc-c. - albuminuria, urging to urinate and defecate. (4) Nux-v. - urging to urinate and defecate. (5) Op. - constipation, Plb. - feces like balls, painful urination, albuminuria. (6) Eupatoriaceae.

REFERENCES - Boericke. Clarke.

***BRANDY

(Spirit of Wine)

PHARMACY - bran. Brandy. Spirit of wine. Aqua vitae. Tincture. **Historical dose:** Tincture and all potencies.

CLINICAL - Bums. Colds. Indigestion. Insomnia. Shock. Toothaches. Wounds.

HOMEOPATHIC - Brandy is distilled wine - wine with most of the water removed - which changes the taste and makes the alcohol content higher.

"Brandy" is derived from brandywijn, a word of Dutch origin for "burnt". Created in a still to leave the water and remove the alcoholic vapor which condenses back into liquid form as it cools. In other languages too, it is the burning that is the essential feature.

Concentrated spirits of wine were used in ancient Greece and Rome, both as an antiseptic and as a primitive

anesthetic.

From the 12th to the 14th centuries alchemists in Europe began experimenting with the distillation of many items, but medicines were still mostly given as infusions or decoctions of single herbs. Arabic writings and universities in Spain began to influence Christian schools of medicine in Italy and France.

Two contemporary 13th century Spanish alchemists, Arnold de Villanova and Raymond Lully, introduced wine spirits, which they called aqua vitae (water of life), as a solvent into European medicine.

This later became known as brandy, shortened from the Dutch term for "burnt wine." In the 14th century during the Black Death brandy began to be used as a medicine by itself. It was thought of as a polycryst, a remedy of many virtues.

Brandy is a stimulant, tonic and has restorative powers. Teaspoon doses of brandy were given to patients with low fevers, typhus. Sleep aid, helps prevent and treat colds. Warms the body and improves the circulation.

RELATIONS - Compare: (1) Aleo., Vitis.

REFERENCES - Murphy.

***BRASSICA NAPUS

(Rape Seed)

PHARMACY - brass. Brassica napus. Rape seed. Cole seed. Wild com. Wild kale. N. O. Cruciferae. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL-Amenorrhea. Arthritis. Bulimia. Carpal tunnel. Contractures, joints. Cough. Cramps. Dropsy. Dysphagia. Edema. Gangrene. Insomnia. Jaundice. Liver, enlargement. Myalgia. Nails, shedding. Numbness. Pes, equinus. Raynauds disease. Scleroderma. Scurvy. Ulcers. Wasting, muscles. Weakness.

HOMEOPATHIC - Our knowledge of the toxic effects of Brassica napus is derived from the experience of the Irish famine during which people ate it freely.

Brass, has all the symptoms of impoverished blood, such as growth of downy, colorless hair. Dropsical swellings, scorbutic mouth, voracious appetite.

Tympanitic abdomen. Skin blotches like bums. Dropping off of nails and gangrene. Weariness, strength loss. Wasting, extreme weight loss. Jaundice.

MIND - Irritability. Anxiety. Depression. Distress. Memory disorders

Abdomen - Enlargement of liver. Tympanitic abdomen. Enlargement of spleen. Liver disease.

Back - Pitting edema.

Chest - Pulmonary edema. Chest wall restricted from motion. Pain. Pulmonary hypertension.

Cough - Non-productive cough.

Eyes - Sicca syndrome, reduced or no lachrymation with consequent dryness and inflammation of conjunctiva.

Face - Edema. Scleroderma. Swollen to an enormous extent, the distended state of eyelids and upper lip producing great deformity. Bum-1 like blotches on nose and forehead (also hands and feet), varying from discoloration to ulceration.

Female - Transient amenorrhea.

Food - Appetite increased, sometimes voracious.

Head - Alopecia. Very distressing frontal headache and tension.

Kidneys - Urine deficient and irritating.

Limbs - Chronic pain. Hands and feet dry and shrunken, with blotches of a deep red, like bums, on backs of hands and dorsa of feet, the fingers and toes being frequently cold and livid, ulceration, loss of nails. Myalgia. Contractures, joints. Claw-hand. Hands, feet. Genu-flexum. Pes Equinus. Raynauds disease. Cramps, muscles. Wasting, muscles. Arthritis. Arthralgia. Loss of reflex. Weakness. Numbness. Carpal Tunnel Syndrome. Tenderness.

Lungs - Pneumonia. Dyspnea, worse exertion. Respiratory failure.

Mouth - Mucus membrane of mouth and throat inflamed, ulcerated in parts, gums spongy.

Rectum - Bowels torpid.

Skin - Sallow and muddy-looking, covered with downy hair. Edema. Pitting edema. Tenderness. Itching. Blotches, deep red, like bums, on backs of hands, feet, nose and forehead, varying from simple discoloration to most troublesome ulceration. Destruction of cuticle and dropping off of nails. Gangrene. Skin rash. Maculopapular rash. Jaundice. Scleroderma. Hyperaesthesia. Hypoaesthesia. Atrophy. Hyperpigmentation.

Sleep - Sleep disturbances. Insomnia.

Throat - Dysphagia. Mucus membrane of mouth and throat inflamed, ulcerated in parts, gums spongy.

Vision - Xerophthalmia.

COMMENTS - Allen gives this account of Brass, poisoning: They all exhibited indications of deteriorated health, the hue of the skin being uniformly sallow and muddy-looking, totally different from the brown

discoloration caused by exposure to the sun, the surface was always covered with that colorless downy hair, so characteristic of what the country people here call "impoverished blood."

An edematous state prevailed generally of the whole body, but always of the face and lower extremities, the former sometimes being swollen to an enormous extent, the distended state of the eyelids and upper lip especially producing remarkable deformity

The abdomen was tympanitic. The bowels torpid. The mucous membrane of the mouth and pharynx was inflamed, and in some parts ulcerated, and the gums spongy. The appetite was usually greater than natural in some cases voracious. The urinary secretion was deficient and irritating, and that of the skin suspended.

Very distressing frontal headache and tension was also complained of, but the most curious symptom, next to the edematous appearance of the patient, was the state of the hands and feet, which were dry and shrunken, with blotches of a deep red, re

sembling burns, on the backs of the hands and dorsum of the feet, the fingers and toes being frequently cold and livid.

Similar blotches existed on the nose and forehead, and these varied in their consequence from simple discoloration to ulceration of a most troublesome description, terminating in loss of the cuticle, and dropping off of the nails, with a marked disposition in the aggravated cases to gangrene.

***BROMIUM

(Bromine)

PHARMACY - brom. Bromium. Bromine. (Br, At. Wt. 799). Halogens. Must be prepared fresh, as it is predisposed to rapid deterioration. Solution in distilled water. **Historical dose:** Tincture and all potencies.

CLINICAL - Aphthae. **Asthma.** Breast, cancer. Bronchitis. Cancer. Coughs. Croup. **Diphtheria.** Dysmenorrhea. Emaciation. Emphysema. Encysted, tumors. Fainting. Feet. pain. Fistula lachrymalis. **Glands, enlargement.** Goiter. Heart, diseases. Headache. Laryngismus. Migraine. Mwmps. Nosebleeds. Palpitations. Parotid gland. Parotid, induration. Respiration, disorders. Scrofula. Seaside, effects. Strokes. Testicles, induration. Throat, sore. Tonsils, enlarged. Tonsils, inflamed. Trachea irritation. Tuberculosis. Tumors, breast. Ulcers. Uterus, air in. Vagina, air in. Vertigo. Vomiting.

HOMEOPATHIC - Bromine forms a leading constituent in the mineral waters of Kreutzach and Wood hall. Bromine is useful in scrofulous children with enlarged glands, which are swollen and indurated, but seldom suppurate. Like the other Halogens, Bromine is a strong antiscorbutic.

Marked effects on the respiratory tract, especially larynx and trachea. Constriction and membranous formation occur in larynx, spreading upwards. A sense of suffocation. Cough, worse entering warm room Nosebleed, accompanies many problems especially those pertaining to chest and respiratory tract. s'

Excoriating discharges. Profuse sweats and great weakness. Weak and easily overheated, then sweaty and sensitive to drafts. Fainting. Tremulous all over. Tendency to spasmodic attacks. Emaciation. Headache worse from drinking milk or from stooping.

Boring pains in bones. Cancer. Breast cancer. Enlarged and indurated glands. **Glands which become hard, but seldom suppurate. Left-sided mumps.** Complaints from being over-heated. Complaints are worse at seaside, sailors coming ashore suffer from asthma, which is relieved when they go to sea again.

MIND - Much anxiety of the mind. Fears a stroke. Fear of ghosts. Quarrelsome. **Very bad humor.** Takes no interest in the household duties. **Loss of ideas.** Forgetfulness. Aversion to any kind of work, even reading.

Sad. Indifferent. Low spirited, inconsolable. Does not feel normal, but cannot tell why. Sits alone in her room without doing anything. Looks constantly in one direction without saying anything.

Desires to be carried. Crying and lamentations, with hoarse voice. Cheerful mood, desire for mental labor. Visions when in the dark. Expects to see something jump around the floor. Delusion that strange persons are looking over patient's shoulder and that she would see someone on turning.

Abdomen - Tympanitic abdomen, bloated.

Enlargement and induration of spleen. Passage of much wind.

Back - Neck stiff. Goiter. **Glands of neck much swollen.** Encysted tumors on sides of the neck. Aching at inner border left scapula. Boring in spinous processes of different vertebrae. Glands of neck enlarged. Cystic tumors on both sides of neck.

Breasts - Tumors in breasts with sharp pains, worse left. Sharp pains from breast to axilla. Sharp, shooting pains in left breast, worse pressure. Suppression of menses in scirrhus breasts. Hard, uneven tumor in right breast.

Chest - Violent cramping of chest. Chest pains run upward. **Cold sensation when inspiring.**

Constitutions - Suited to scrofulous children with enlarged glands. Blue-eyed, fair people, especially children with thin, pale, delicate skins and very light hair and eyebrows to scrofulous constitutions. Blondes.

Ears - Hard swelling of the parotid gland, warm to touch after eruptive fevers. Noise in ears.

Eyes - Lachrymation with swelling of tear glands. Pupils dilated. Protruding eyes. Flashes before eyes. Darting through the left eye.

Face - Ashy gray. Pale, red, alternating. Swelling and hardness of parotid gland, feeling warm to the touch. Suppuration of left parotid, swelling remaining hard and unyielding. Sensation of cobweb. Seems drawn to a point at nose.

Female - Menses, bright red blood. Menses flow passive with much exhaustion. Dysmenorrhea. Depressed before menses. Queer ill feeling a few days before menses. Menses too early, too profuse, with membranous shreds. Violent contractive spasms before or during menses. Chronic ovaritis. Dull, constant pain, in left ovary. Swelling of ovaries. Itching in vagina. Flatus from vagina, noisy. Vagina as if sore. Suppression of menses in scirrhus breasts. Prolapsed uterus, with mental derangement.

Food - Desire for acids, which aggravate and cause diarrhea. Water tastes salty.

Head - Head congested, fears a stroke. Headache worse drinking milk, stooping. Headache in sun, passes off in shade. Headaches, deep in the vertex with palpitations. Megrim of left side, worse stooping, especially after drinking milk. Headache, worse heat of sun and from rapid motion. Sharp pain through eyes.

Heart - Hypertrophy from gymnastics with palpitations. Cutting pain running upwards, with heart disease. Violent palpitation worse lying on left side. Nervous palpitations with nausea with headache.

Kidneys - Constant desire to urinate with tickling sensation in tip of urethra. Dribbling of urine with burning, after urinating. Urine scanty and dark. Urine turbid, deposits a whitish sediment adhering to vessel. Urine leaves a red coating on vessel. Urine contains large flakes of white mucus. High colored urine with eczema.

Limbs - Icy cold forearms or hands. Boring pain in one or both tibiae. Left arm, lame in cardiac affections.

Lungs - Whooping cough. **Dry cough with hoarseness and burning pain behind sternum.** Suffocative fits, choked, croupy or wheezing cough, with palpitations. **Spasmodic cough with rattling of mucus** in the larynx, suffocative. Thick white expectoration. Spasms of glottis. Croup after febrile symptoms have subsided. Fibrinous bronchitis. Bronchial tubes feel filled with smoke. Wants to take a deep breath, but it excites cough. Lungs feel coated with down. Every inspiration provokes cough. Colds start in larynx, go upward and downward. Deep hoarseness if heated. Difficult and painful breathing. Larynx is cold. **Laryngeal diphtheria**, membrane begins in larynx and spreads upward. Dyspnea with great swelling. **Asthma, difficulty in getting air into lung** (Chlor, in expelling air). Asthma of sailors going ashore. Better at sea.

Male - Swelling and induration of testes, worse slight jar. Sharp pain in glans and sides of penis. **Swelling of left testicle, with sore pain, or sensation of coldness.** Increased sexual desire. Nightly emissions.

Modalities - Better from any motion. Better exercise. Better riding on horseback. Better at sea. Better from nosebleed, shaving. **Worse from warmth. Worse damp warm.** Worse Worse overheating. Worse from evening, until midnight. Worse when sitting. Worse in warm room. Worse heat of sun. Worse chilled when hot. Worse cold and damp weather and cold air. Worse water or diet. Worse from sea bathing. Worse dust. Worse draft. Worse lying on left side.

Mouth - Dry, parched. Aphthae with affection of eyes. Water tastes salty.

Nose - **Tickling, smarting, as from cobwebs.** Fan-like motion of ale (Lyc.). Nosebleed, relieving the chest. Stoppage of right nostril. Long continued, obstinate coryza. Acrid, burning coryza, with violent sneezing and soreness of the nose. Pressure at root of nose.

Perspiration - Sweats from least exertion or exercise. Sweats on palms. Viscous sweat, with cool skin.

Rectum - Painful hemorrhoids with black stool. Hemorrhoids, bleed, intensely painful, worse application of cold or warm water. Diarrhea after eating oysters and sour things.

Skin - Acne, pimples and pustules. Boils on arms and face. **Glands stony, hard, especially on lower jaw** and throat. Hard goiter (Spong.). Gangrene.

Sleep - Great drowsiness when reading. Continued yawning in respiratory troubles, with drowsiness. Full of dreams and anguish, jerking and starting during sleep, full of fantasy and illusions, difficult to go to sleep at night, cannot sleep enough in morning, trembling and weak on awaking.

Stomach - Sharp burning from tongue to stomach. Pressure like from a stone. Stomach pain, better eating. Sour things disagree. Vomiting like coffee grounds, bloody mucus. Aversion to customary tobacco smoking.

Temperature - Chills with yawning and stretching, repeated every other day, as a chilliness, and cold feet. Chills on alternate days, with cold feet. Internal burning heat, as if between skin and flesh.

Throat - Tonsils, swollen, deep red, with network of dilated blood vessels. Pain, worse swallowing fluids than solids. Feels raw, evening with hoarseness. Tickling in trachea during inspiration. Hoarseness coming on from

being overheated. Even a small goiter oppresses. Stony hard, swollen glands. Diphtheria.

Vertigo - Dizzy when crossing a stream of water. Vertigo worse on bridge. Vertigo at the sight of running water. Vertigo with nosebleed. Vertigo with a tendency to fall backward.

COMMENTS - Migraine, chiefly on left side, worse from stooping, especially after drinking milk. Sensation deep in the brain as if vertigo would come on. Vertigo with a tendency to fall backward, worse at the sight of running water or if he put his foot on a bridge, worse in damp weather. Vertigo with nosebleed.

The glands (thyroid, testes, maxillary, parotid) are swollen and indurated. Tubercu- losis, especially of right lung. Hypertrophy of the heart and palpitations. Pain in heart going up to axilla. Exertion causes oppression at heart.

Soreness and crusts inside nose. Nosebleed accompanies many affections, especially of chest. There is a peculiar headache with coryza. Loud emissions of air from the vagina.

Particularly affects the internal head, left side. Predominantly a left-side medicine. Better at the seaside (opposite Nat-m.), but worse in sailors when coming ashore.

Guernsey noted that cases of diphtheria begin in the larynx and run up. In croup with all the croupy sound, there is a loose rattling in the larynx with the breathing and coughing, but no choking in the cough, as there is in Hepar sulph.

RELATIONS -Antidotes: Am-c., Camph. Salt inhibits the action of Brom. **Antidoted by:** Camph.. Am. c., Mag-c., Op. Useful after: Iod., Phos.. Spong. **Compare:** (1) Iod. - but Iod. has worse morning, dark hair and eyes. (2) Chlorum, Lach., Spong., Fl-ac., Hep., Apis, Arg-n., Chin., Con., Coff., Cina., Cupr., Lyc., Merc., Phos. (3) Rhus-t. - cardiac hypertrophy, also Spong., Am. from over-exertion. (4) Sep., Sulph., Ant-t. (5) Puls. - blondes. Fear of ghosts or visions, also, Aeon., Ars., Carb-v., Phos., Sulph. (6) Con., Aster., Hydrobromic acid.

Compatible: Arg-n. - generally after Brom. Kali-c. - emphysema.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***BRUCEA ANTIDYSENTERICA

(Angustura Spuria)

PHARMACY - bruc. Brucea antidysenterica. Angustura spuria. Angustura falsa. Nux vomica cortex. N. O. Loganiaceae. Bark of Nux vomica or angustura falsa. Tincture or trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Abdomen, throbbing. Belches. Borborygmi. Headaches. Hypochondriasis. Pain. Tetanus.

HOMEOPATHIC - Although the Brucea symptoms are similar to the pathogenesis of Nux-v., the bark has been experimented with independently. The homeopathic preparation of Nux-v. is prepared from the seed. Brucea contains strychnine, and the symptoms are included in the pathogenesis of Stry. and Nux-v..

Paralyzed lower limbs, worse least touch, **cries for fear of being touched**. Tetanic spasms with undisturbed consciousness, worse from noise or liquids. Painful jerking of legs, cramp-like pain in knees, rigid and lame limbs of paralytics.

Disposition to stretch the limbs and to yawn. Great weariness when walking. In the evening, nervous excitement, trembling and tottering when walking. Painful sensation of fatigue in the limbs. Pinching in several parts of the limbs. In the evening, stiffness in the joints and acute drawing pains in the limbs with shootings in the head in the ears and in the chest. "Headache with extreme drowsiness, disappearing in evening."

"Sensation of throbbing in pit of stomach and in entire abdomen." For the pain in the passing of kidney stones or gallstones.

MIND - Irritability, augmented in the evening. Dejection, with want of sleep. Taciturnity and hypochondriasis. Gloomy, melancholy humor with indolence and lassitude. Sad and gloomy on waking in the morning.

Abdomen - Throbbing felt in the abdomen. Painful pinching in the abdomen. Squeezing, as from claws in the abdomen J followed by frequent, small, slimy evacuations. Borborygmi in the abdomen. The pains in the abdomen cease after the first

evacuation. Shootings in the umbilicus after the evacuations. Loose evacuations, followed by fainting, which enforces lying down.

Back - Sensation of squeezing in the back.

Chest - On breathing, sensation of great weight on the whole chest. Oppression of the chest with chilly disposition and great sensibility in the open air. In the morning, pain as from a bruise on the outside of the chest, with tight pains on breathing deeply. Pains like excoriation in the interior of the chest, especially in bed at night, which are most violent when lying on the side.

Eyes - Dull and swollen eyes. Eyes red in the corners, in the evening. Eyes red and burning in the morning. Itching in the eyelids. Painful sensation in the eyes, as from sand, rendering it necessary to rub them.

Face - Mealy, itching tetters on the face, followed by peeling off of the skin. Paleness in the face. Slight

convulsive, rapid movements in the lips.

Fever - Sweats on walking, with shiverings, which appear chiefly during rest. Chilly disposition and aversion to the open air. Shivering and excessive coldness.

Food - Weak appetite, food at dinner and breakfast appears insipid. After a meal, violent beating of the heart, aggravation of headache, fermentation in the intestines and inclination to evacuate.

Head - Headache, aggravated by sitting, as well as after eating. Shootings in the head, aggravated by walking, especially in the sun. Heaviness and confusion in the head with sleepiness, disappearing in the evening. Digging, crawling in the top of the head. Headache in the evening after having walked a while in the sunshine. Headaches behind the eyebrows, which seem to be swollen.

Limbs - Pains, as of fatigue, in the thighs and loins. Cramp-like pain in the back of the hand. Miliary eruption, red, raised and itching on the back of the hand and on the body. In the evening, sensation of paralysis in the thigh. Weariness in the

knees. Curvature of the joint of the foot, so that one walks almost on the anklebone. Sensation of burning in corns.

Mouth - Acute pains in the teeth and gums, especially on drinking cold water. Accumulation of saliva in the mouth, forcing one to spit continually. Dryness and burning pain in the gullet, as if from rancid fat.

Rectum - Evacuations too soft, in too small quantity, and of too light a color. Strong disposition to loose evacuations with colic and flatulency. Loose evacuations in the morning and in the evening. Itching in the anus in the evening.

Sleep - Sleepiness during the entire day, especially when seated, in the morning, early in the evening, and particularly in the afternoon. Sleepiness alternately with want of appetite. Sleep full of dreams, with ebullition of the blood. Sleep troubled with confused or frightful dreams.

Stomach - Clammy taste. Empty belches. Sensation in the stomach, as if nothing had been eaten for a long time. Sensation of burning, heat in the pit of the stomach. Sensation of throbbing in the pit of the stomach and in the entire abdomen. Pressure in the stomach, immediately after eating or drinking. In the evening, attack of nausea with cramp-like pains in the abdomen, vomiting of food and loose evacuations with great prostration.

Vertigo - Vertigo, which occasions falling in the evening.

COMMENTS - Under the name of Brucea antidysenterica, a quantity of Nux-v. bark got upon the drug market and was at first supposed to be Angusturabark. Many poisonings ensued before the mistake was discovered and the bark received the name Angustura falsa in contradistinction to the true Angustura.

RELATIONS - Compare: (1) The following also have drowsiness with headache: Gins., Hera., Nux-m., Nat-s., Sulph. (2) Gels. - difficult to keep the eyes open.

REFERENCES Clarke.

***BRUCELLA MELITENSIS

(Brucella Nosode)

PHARMACY - brucel. Brucella melitensis. Brucella nosode. **Historical dose:** All potencies.

CLINICAL - Anorexia. Backaches. Brucellosis. Chills. Cirrhosis. Coma. Constipation. Depression. Emaciation. Epilepsy. Faintness. Fatigue. Fever. Glands, swollen. Headaches. Hemochromatosis. Insomnia. Intermittent, fever. Joint, pains. Muscle, pain. Perspiration, excessive. Undulant, fever. Vertigo. Weakness. Weight, loss.

HOMEOPATHIC - Brucellosis, also known as undulant fever or Mediterranean fever, is caused by the bacterium Brucella. Undulant fever derives its name from the undulating, or up-and-down, temperature. Brucella bacteria infect cattle, goats, camels, dogs, and pigs. Transmission of the disease to humans occurs by contact with infected meat, the placenta of infected animals, or ingestion of unpasteurized milk or cheese. The illness may be chronic and persist for years.

Acute brucellosis may begin with mild flu-like symptoms with fever, chills, sweating, muscle aches, joint aches and malaise. Fever spikes occur every afternoon to levels around 104° Fahrenheit.

Common symptoms include fever and chills, excessive sweating, weakness, weight loss and fatigue. Loss of appetite. Anorexia, emaciation. Febrile state with profuse sweat, at night, from the least effort. Headache. Insomnia. Vertigo. Faintness.

Muscular and joint pains, especially of the lower limbs. Back pain. Joint and muscle pain. Swollen glands and lymph nodes. Vesicular eruptions. Abdominal pain. Enlarged liver. Constipation, dry and hard stools.

Weariness in the morning with strong desire to sleep. Pricking pains everywhere. Wandering diffuse pains particularly in lumbar region, in thighs, hips, better by motion. Alternation of symptoms, for example the joint pains disappear and cough appears. Periodical complaints, worse in winter, spring, summer, every 2 to 4 weeks.

MIND - Changes mood and behavior. Emotional instability. Irritability and nervousness. Apathy and

indifference. Depression. Coma.

Abdomen - Abdominal pain.

Back - Feeling of coldness with shivers in the back. Back pain. Pains in lumbar region, better by motion.

Glands - Swollen glands and lymph nodes.

Limbs - Muscular and joint pains, especially of the lower limbs.

Liver - Cirrhosis. Enlarged liver.

Modalities - Better by occupation. Better in company. Better motion. Better heat, particularly of the sun. Worse from prolonged exercise. Worse when rising from sitting. Worse when motionless. Worse after alcohol, eating. Worse from changes of temperature or weather. Worse warm room. Worse hot summer. Worse damp, wet. Worse storms. Worse in morning.

* Worse from sea, wind.

Perspiration - Excessive sweating.

Rectum - Constipation, dry and hard stools.

Skin - Blotches and rashes. Vesicular eruptions.

Temperature - Fever and chills. Chills with shivers. Fever, with profuse sweat, depression.

Vertigo - Vertigo with loss of sight and feeling of coldness.

COMMENTS - Roger Schmidt recorded two cases, published in Annales Hom. Fr., No. 2. 1959. The first case concerned M. W. R., a butcher who was 43 years old. He called on Schmidt on the 18th October, 1948, for a fever of 103.4 F in the evening which he's had for three days. Profuse sweat on the upper part of the body, preceded by shivering, which jerks him from head to foot. Restless during the fever, hungry, and has the desire to drink cold water.

While telling Schmidt his history, he noted having been treated for acute brucellosis in 1935, and that half of the workers of the same firm were affected. At that time, M. W. R. stopped his work for a year. The fever, he said caused his hair to fall out, but it, fortunately, grew back.

In 1940 and 1941, he had two new attacks that were treated by serum. In 1949, he relapsed again, complicated with anemia, and was treated by penicillin and vaccines. He told Schmidt that since that time he has always felt weak.

Gels. 6c ameliorated the fever in 24 hours. The temperature did not rise above 99.5° F. One week later, the patient had diarrhea with profuse sweats, rapidly ameliorated by Chin. 6c.

During the next month, he gained 8 pounds and was feeling better. Schmidt's intention was to complete the cure by the nosode, but he did not get the chance because, in order to resume his work, M. W. R. was forced to see the doctors who treated him before.

Schmidt's second case concerned Mrs. H. B. of San Diego, married, age 69. She came to see Schmidt in September 1950, complaining of some gastric troubles, which she had for several months. She was also suffering from gas, vomiting, regurgitations, and a stubborn constipation.

She was constantly depressed and weak, nervous, restless and had shiverings. She felt sudden weakness, had vertigo by the least movement. While she was young she suffered from a perforated appendix. Physical examination was negative, except for a distended abdomen.

After her return to San Diego she asked Schmidt to prescribe by mail. Ars., Sulph., Nux-v., Carb-v., Kali-p., and Carbo-s. all did her some good, but the variety of remedies showed that the case was jumbled when it was difficult to get a simillium.

Finally in July, 1951, Schmidt had the idea that this may be a case of Brucel. The sudden attack of fever and sweats, weight loss (seven pounds), and the persistence of some symptoms indicated the diagnosis.

Schmidt gave her Brucel. 10m. Without any delay, the patient informed Schmidt that this was the first remedy that gave her almost instantaneous result. She soon took up weight, but after six weeks she complained anew of serious vertigo and the stubborn constipation. She was given

Brucel. 30c, and for 3 months her condition was satisfactory.

On December 6th, 1951, her fever returned with profuse sweat and abdominal pains. Schmidt gave her Brucel. 10m, which caused a moderate aggravation but clearly ameliorated during the next two weeks, with a maximum temperature of 100° F during the day, which ended in a long period of amelioration lasting for 3 years.

RELATIONS - Compare: (1) Nat-m. - Emaciation with anemia, cachexia, depression, headaches, constipation, sensitiveness to cold, desire for salt, mapped tongue. (2) Gels. - General weakness with tremblings; headache with heaviness; weakness of limbs, slow pulse. (3) Ferr-p - Febrile states with full, rapid and soft pulse, thirst and sweats that does not ameliorate.

REFERENCES - Julian. Murphy.

***BRUCINUM

(Brucine)

PHARMACY - brucin. Brucinum. Brucine. An alkaloid obtained from the bark and seeds of *Strychnos nuxvomica*. N. O. Loganiaceae. Tincture or trituration. **Historical dose:** All potencies.

CLINICAL - Headaches. Paralysis.

HOMEOPATHIC - Lepelletier noted that Brucin. caused sudden jerking, especially of the lower limbs, spreading generally, but not accompanied by trismus or tetanus, and not extending to the esophagus and pharynx as with *Strychnia*. Twitching in the paralyzed as well as healthy muscles. A fever of short duration ends the attacks, after which deep sleep comes on.

RELATIONS - Compare: (1) Stry., Nux-v., *Brucea antidys*.

REFERENCES - Clarke.

***BRYONIA ALBA

(Wild Hops)

PHARMACY - bry. *Bryonia alba*. Wild hops. *Bryonia dioica*. White Bryony. N. O. Cucur- bitaceae. Tincture of root procured before flowering. **Historical dose:** Tincture and all potencies.

CLINICAL - Alcoholism. Amenorrhea. Anger, effects. Angina pectoris. Ankle, injuries. **Appendicitis. Aphthae. Arthritis. Asthma. Backache. Biliary attack.** Bones, broken. Brain disorders. Breast-feeding, disorders. Breast inflamed. Bronchitis. Cancer. Chills. Chlorosis. Constipation. Coryza. **Coughs.** Dehydration. Dentition. Diaphragm, rheumatism. Diarrhea. Dropsy. Dyspepsia. Eczema. Edema. Enteric fever. Gastroenteritis. Glaucoma. Hemorrhages. Hands, swollen. **Headaches.** Heart, pain. Hernias. Hiccoughs. Hydrocele. Hydrocephalus. **Influenza. Injuries.** Intermittent **fevers. Jaundice. Joints, pain.** Knee, injuries. Liver, disorders. Lumbago. **Lymphangitis.** Mastitis. Measles. Meningitis. Menstruation, vicarious. **Migraine.** Milk fever. Muscle pain. Nephritis. Nosebleeds. Ovaritis. Peritonitis. Phlegmasia alba dolens. **Pleurodynia. Pleurisy. Pneumonia.** Pregnancy. Puerperal fever. Pyuria. Relapsing fever. Remittent fever. **Rheumatism.** Scarlatina. Sciatica. Spina bifida. Stiff-neck. Strokes. Suppressed, eruptions. Tongue, coated. Toothache. Trachea, pain. Tuberculosis. Vertigo. Waterbrash. Whooping cough. Yellow fever.

HERBAL - The common Bryony of England is the *Bryonia dioica*, which has been substituted for the *Bryonia alba* and has probably identical properties, but the *alba* alone has been proved, and consequently this should always be dispensed. *Bryonia dioica* is a popular remedy for "black-eye" as a local application.

HOMEOPATHIC - Bry. is one of the polycrest remedies of the homeopathic Materia Medica. Less rapid in its action than *Aeon.*, but it goes deeper in its effects and often takes up the work where *Aeon.* leaves off. It not only disorders the circulation, but alters the blood itself. Vicarious bleeding. Corresponds to fevers of almost all kinds, especially rheumatic, typhoid, bilious and remitting.

Affects on all serous membranes and the viscera they contain, causing inflammation and exudation. **Mucus membranes are all dry.** Discharges are scanty and adherent. Dryness everywhere, of mouth, throat etc. **Dry hacking painful coughs** in pleurisy, pneumonia. **Streaks of red in lymphangitis.** Dry, parched lips and mouth. **Excessive thirst,** bitter taste in the mouth.

Rheumatic pains and swellings, dropsical effusions into synovial and serous membranes. Aching in joints and muscles. **Injury of the joints** (when *Arn.* fails). Every spot in the body is painful to pressure. **Pains are bursting,** stitching or heavy sore, going backwards, **tearing, worse by motion, better rest.** Stitching pains in the chest. Muscles become hard after neuralgia.

Pressure headaches. Severe headaches. **Bursting, splitting headaches.** Vertigo from raising the head. Physical weakness, on slightest exertion. Dropsical swellings gradually increase as the day progresses and disappear during the night. Sensitive epigastrium and feeling of a stone in the stomach. Stools large, dry, hard. Complaints develop slowly but forcibly. **Aggravation from motion, movement** of all kinds. Avoids even the movement of the eyes, raising head from pillow causes faintness, nausea and vomiting. **Better from pressure,** from lying on painful side. Rightsided effects. Tendency to great **irritability** and bad temper.

Children dislike to be carried or raised. Persons who over-eat or eat excessively of meat, and have strong constitutions.

MIND - Effects of anger, fright, chagrin or pain. **Exceedingly irritable,** everything puts him out of humor. Very morose, ill-humored. Ugly in behavior. Easily angered, with biliousness, headache, dyspepsia. Quarrelsome. Worse from arguments, which will give them a headache and pain.

Capricious, hard to please and satisfy. Desire for things that are rejected when offered (*Cham.*, *Calc-p.*). Desire for things that can't be had. Weeping mood, with headache and other complaints. Hasty disposition. Easily startled, during headache. Restlessness, wants change.

Determined. Taciturn. Aversion to being disturbed. Intolerance of contradiction. Contradiction causes anger. Irritability during menses. **Wants to be let alone.** Aversion to company. Desire to be independent, difficulty asking for help. Aversion to being touched.

Fright, fear and vexation. Apprehension and dread for future. **Talks of business.** Worried about money and the future. **Fearful of poverty.** Fear of thunderstorm. Insecure. Despair of being cured with fear of death. Worry about their health. Despair of recovery. Anxiety better open air.

Mental state, better from cool temperature, wants windows open. Oversensitiveness of senses to external impressions. **Child dislikes to be carried or to be touched.** Dullness of mind. Weakness of mind, so that his ideas disappear. Delirium, wants to go home, thinking he is not there.

Abdomen - Distension of abdomen with colic after eating. Abdomen very sore to touch, with constipation. Appendicitis. Peritonitis. Gastroenteritis. Abdominal wall very tender. Gripping, pinching colic. **Burning, sharp pain, worse from pressure, coughing, breathing.** Movements, loud rumbling or a gurgling and soreness and dragging downward. Pain from movement of flatus. Epigastrium, tender, throbbing. Groin sore before menses.

Back - Complaints from over lifting, concussion. Backache from over lifting. **Severe painful back injuries, worse any motion.** Scapular numbness or pain going to epigastrium or from left scapula to heart. **Slipped disks with sharp pains.** Lumbago, worse stooping. **Sharp pains and stiffness in lumbar region.** Pain in the small of back worse walking or turning. Sharp pain in lumbar region during cough. Backache from sudden changes of weather. **Vertebrae out of place causing much pain and immobility.** Joints and muscles of lumbar region stiff and tender, preventing motion and stooping, worse standing or sitting, better lying. Brachial neuragia.

Back - Painful stiffness of neck, worse motion. Drawing and stiffness in muscles of right side of neck. Cervical glands sore to touch. Spina bifida.

Breasts - Pain in breasts at menstrual period. Mastitis, stony hard breasts. **Breasts hot and painful, hard.** Abscess of breasts. Milk fever. Swollen breasts.

Causations - Ill effects of anger, fright, chagrin. Complaints from taking cold drinks in hot weather. Alcohol. Gluttony. Suppressed eruptions and discharges. Constipation. Broken bones, joint injury, wounds. Cold winds.

Chest - Angina pectoris. Holds chest or presses the sternum when coughing. **Sharp pains in chest, worse motion, deep breathing and coughing.** Sticking pain, in chest, better pressure or lying upon painful side. Sticking pain in sternum when pressing upon it. Heaviness beneath the sternum extending towards the right shoulder. Internal heat in chest. Sharp pains in cardiac region. Sharp pain from left to right side of chest, during inspiration. Rheumatism of muscles of chest. Ribs sore, as if beaten.

Constitutions - Suited to a robust, firm fiber and dark complexion with tendency to leanness and irritability. Gastro-bilious- rheumatic constitutions. Choleric, bilious tendency with firm fleshy fiber. Adapted to nervous, dry, slender people.

Cough - **Dry, hacking cough** from irritation in upper trachea. **Cough, dry, hard, very painful,** at night as if from stomach. Cough with sneezing. **Coming into warm room excites cough** (Nat-c.). Cough with feeling as if head and chest would fly to pieces. **Very painful coughs must hold the chest.** Nausea excites cough, and coughing often excites vomiting. Coughs with gagging, without nausea. **Cough with sharp pains in sides of chest.** Cough compels patient to spring up in bed involuntary and immediately. Whooping cough. Coughs, worse motion, talking and laughing. Painful coughs with bronchitis, pleurisy, pneumonia.

Ears - As if stopped-up. Otorrhea following inflammation. Boil in front of ear. Vicarious bleeding from ears. Intolerance of noise. Aural vertigo. Roaring, buzzing, ringing, humming in ears. Chirping, as from locusts. Humming in left ear. resembling pouring of water over a dam.

Eyes - Eyeballs sore. Burning in eyes, inflammation, worse warmth. Pains behind the eyeballs. Glaucoma. Pressing, crushing, aching pains. Aching and pulsation in left orbit. Lachrymation during day, especially in the sun. Lids swollen and puffed. Sore to touch. **Sore when moving eyes.** Sharp pain like a needle going through eye. Itching and burning of margins of lids. Sensation as if sand in eyes. Gout shifting to eyes. Aversion to light, especially sunlight.

Face - Dark red, hot, bloated. Yellowish paleness. Heat of face with redness and thirst. Redness of face after getting angry. Face bluish-red, during difficult respiration. Lips, dry, as if burnt, parched, cracked, wants to moisten them. Picking of lips. Burning of lower lip in old smokers. Chewing motions in brain disorders of children. Twitching in corners of mouth. Small nodules and induration. Tetters in face.

Female - Menstrual irregularities with gastric symptoms. Menses, dark, foul. Menses too early, too profuse, worse from motion, with tearing pains in legs. **Menses suppressed with vicarious discharge or splitting headache.** Frequent bleeding of nose at appearance of menses. Ovaritis. **Inter-menstrual pain with a great abdominal and pelvic soreness** (Ham.). Pain in right ovary as if torn, extending to thigh (Lil-t., Croc.). Sharp

pains in ovaries on taking a deep inspiration, very sensitive to touch.

Food - Craves what he cannot relish. Loathing for food. Canine hunger after nausea. Irritability after eating. Aversion to greasy food. Aversion to milk, but when he takes it he relishes it. **Great desire for coffee, wine and acid drinks.** Desire for meat, oysters, sweets. Desire for warm drink, and better by it. Worse bread. Cabbage causes diarrhea. **Sauerkraut, cabbage, potatoes and other vegetables, disagree.**

Worse warm drinks, which are vomited. Gastric derangement after old sausages, old cheese, cabbage, sauerkraut, fruit, turnips, salads, milk, etc. Drinks hastily and eagerly. **Thirst, for large quantity of cold water,** also for warm drinks, which ameliorate.

Head - Gastric, rheumatic, congestive, bilious headaches. **Migraine headaches, worse on any motion,** even that of the eyeballs, better from closing eyes. Pressure in head, as if brain were too full, worse sitting. **Bursting, splitting headache,** as if everything would be pressed out. Bursting pain, with dry, parched lips. **As if hit by a hammer from within, worse from motion, stooping, opening eyes.** Pain over left eye, pressive, going to occiput, then spreading over whole body. **Severe sharp pains in head, worse motion.** Headache in occiput. Headache from ironing. Headache when constipated. Frontal headache, frontal sinuses involved. Bones drawing in towards zygoma. Vertex as if bruised. Headaches better from tying up head. Mental exertion aggravates head pains. Rheumatic pains, in cold, damp, wet seasons. Scalp very sensitive, can't bear even a soft brush, every hair pains. Dandruff, rough and uneven. **Hair very greasy.** Cold sweat on head.

Heart - Angina pectoris. **Sharp pain in cardiac region, worse motion.** Sharp pain, cramp in region of heart, worse walking, motion or slightest exertion. Heart beats violently and rapidly. Palpitations with dyspnea. Fluttering and palpitations on going up stairs. Burning in veins. Endocarditis. Pulse frequent at night, slower during day. Pulse tense and hard. **Pulse full and quick.** Intermittent pulse with strong orgasm of blood.

Kidneys - Pain in region of kidneys. Involuntary urination during exertion. Involuntary discharge of urine from cough. Burning and cutting pain before urination. Burning in urethra, when not urinating. Urination frequent, but scanty. Obligated to rise at night to urinate. Urine, red, brown, like beer, scanty, hot. Urine whitish, turbid.

Limbs - Joints with sharp and tearing pains, worse on least movement. **Sprained, injured and painful joints, worse motion.** Severe pain from broken bones. **Joints red, swollen, hot.** Swelling of elbow. Painful stiffness of limbs. **Pains in joints and limbs better warmth.** Every spot is painful on pressure. Constant motion of left arm and leg with sighing (Hell.). Sciatica, better lying quietly and on painful side. Knees stiff and painful. **Ankle or knee injury, swollen, painful and worse motion.** Knees totter and bend under him when walking. Hot swelling of feet. Pins and needles in soles, preventing walking. Ulcers on fingers and toes. Weariness and heaviness in all limbs.

Liver - Liver heavy, swollen, sore, tensive, better lying on it. Jaundice. Symptoms of inflammation of liver. Burning and sharp pain in hepatic region.

Lungs - Bronchitis. Asthma. Paroxysms of asthma, at night. **Pleurisy with sharp pains, worse motion.** Difficult, quick respiration, worse every movement, caused by sharp pains in chest. Croup and pleuro-pneumonia. **Dyspnea, must sit up, worse after eating or drinking, with sharp pain in chest.** Dyspnea painful, so that he could not talk. Sighing and sobbing. Dyspnea with rapid breathing. Wants to take deep breath, but cannot or it excites cough. **Pneumonia with painful cough.** Rusty, tenacious sputum. Brick colored, blood-streaked sputum. Sputum like lumps of jelly. Tough mucus in trachea, loosened only with much hawking. Yellowish mucus. Dry, friction sound.

Male - Sharp pains in right testicle and spermatic cord. Sharp pains in testicles when sitting. Red, itching eruption on glans penis. Increased sexual desire.

Modalities - **Better from lying on painful side. Better from pressure.** Better bandaging. **Better rest, being quiet.** Better drawing knees up. Better sitting up, descending. **Better from cold things.** Better cold food or drink. **Better cool open air.** Better cloudy, damp days. Better heat to inflamed part. Better exhaling.

Modalities - **Worse from least motion.** Worse lying on the painless side. **Worse raising up, stooping. Worse coughing, deep breathing. Worse exertion, touch.** Worse from dry cold or heat. **Worse becoming hot. Worse in room.** Worse hot weather. Worse drinking while hot. Worse from eating, vegetables, acids. **Worse from anger, vexation.** Worse calomel. Worse suppressions. Worse taking cold. Worse 3 a.m. to 4 a.m. Worse evening, 9 p.m. Worse in the early morning. Worse summer.

Mouth - **Dryness of mouth, tongue and throat with excessive thirst.** Offensive smell from mouth, with hawking of offensive, tough mucus. **Taste bitter,** cannot swallow food, better cold drinks. Soapy, frothy saliva. Burning in lower lip in old smokers. **Lips parched, dry, cracked.** Sore mouth in infants, child does not want to take hold of breast, but after mouth becomes moist it nurses well.

Nose - Fluent coryza, watery or greenish. Headache following checked coryza. Descending colds. Dry nasal catarrh. Coryza with shooting and aching in the forehead. **Vicarious nosebleeds,** when menses should appear. Nosebleeds in pregnancy. Nosebleeds in the morning relieving the headache. Swelling of tip of nose,

feels as if it would ulcerate when touched. Inflamed and ulcerated nostrils. Boils. Sneezing between coughs. Loss of smell.

Perspiration - Sweat, sour or oily after slight exertion. Easy, profuse perspiration. Profuse sweat at night and in morning. Suppressed sweat, during confinement and ill-effects therefrom. Oily sweat. Sweats in short spells and on single parts. Perspiration relieves.

Rectum - Burning in anus with stools. Burning in rectum during evacuation of stool and urine. As if a plug in anus. **Constipation**. Hard stool passed with great exertion, with confusion of head. Constipation on going to sea. Constipation of nursing babies and lying-in women. Constipation during pregnancy. Diarrhea after castor oil. Diarrhea alternating with constipation. Diarrhea after suppression of exanthemata. Aching hemorrhoids. Passage of offensive flatus. Prolapse of rectum during stool.

Skin - Dry skin. Skin, yellow, pale swollen, dropsical. Slow development or sudden receding of rash in eruptive fevers. **Undeveloped measles**. Burning, itching eruptions. Itching, better scratching, worse walking rapidly. Erysipelas. Seborrhea. Nettle-rash. Red elevated rash, like eruptions, over whole body. Rash, better getting warm in bed. Hard nodes in various parts of body. Cold feeling in putrid ulcers.

Sleep - Drowsy, starting when falling asleep. Sleepiness during and after stool. Frequent yawning the whole day. Somnambulism. Restless sleep before midnight. Sleeplessness on account of heat and thirst. Sleeplessness from crowding of thoughts. **Sleeps on back**. Kicks covers off. Talks irrationally when he first wakes out of sleep. Dreams of hard work. Dreams about household affairs, business of the day. Anxious dreams and screaming out. Dreams of dispute and vexation.

Stomach - Dyspeptic ailments during summer heat. Burning pain in stomach. Tasteless eructations. **Stomach sensitive to touch**. Throbbing in pit. **Pressure in stomach after eating, as of a stone**. Soreness in stomach when coughing. Shooting pain, with belching. Sharp pain in stomach on motion, arresting breathing. Numbness in stomach. Constant nausea with constipation. **Nausea and faintness when rising up**. Nausea lying on right side. **Nausea and vomiting from slightest motion**. Bitter vomiting of bile and water, immediately after eating. Vomiting of blood. Vomits solid food only. Vomiting of bitter, musty or putrid liquid, which leaves a similar taste in mouth. Worse warm drinks, which are vomited.

Stools - **Stools, large dry, very hard**. Stools, as if burnt. Stools, brown, thick, bloody. Stools, loose, painless, undigested. Stools, **worse in morning**, worse from **moving**, worse after being heated from cold drinks, worse every spell of hot weather.

Involuntary stool during sleep. Yellow, mushy stools. Lumps of tough mucus after stools. Gushing diarrhea, worse in the morning, on rising, eating cabbage. Stools offensive, bilious, acrid, smelling like old cheese.

Teeth - Gums pain as if sore and raw, with painful loose teeth. Aching of gums with teething children (Dol.). Toothache when coughing. Toothache, better cold water, worse brushing teeth. Jerking pain when smoking or chewing tobacco. Toothache about 3 a.m. Teeth feel too long. Toothache, as if an exposed nerve in a hollow tooth was in pain from cold air.

Temperature - Chilliness predominates. Chill with external coldness, dry cough, stitches. Chill with hot head and red face, worse warm room. Chill after anger. Coldness and rigors during stool. Dry burning heat, with worsening of all symptoms. Blood seems hot. Fever with desire to uncover. Rheumatic fever and typhoid fever marked by gastro-hepatic complications. Painful continued fevers.

Throat - Hoarseness, worse in open air. Dryness, sticking on swallowing, scraped and constricted (Bell.). Hawks brown lumps with effort. Dryness and rawness of throat worse in warm room. Back of throat seems swollen. Aphthous patches, recurring. **Sharp pain when swallowing**. Pressive pain in right tonsil. Pain, pressure and soreness in trachea, pain worse talking and smoking. Soreness in larynx and trachea. Tough mucus in larynx and trachea, loosened only after much hawking, worse coming into warm room. Voice nasal or raised.

Tongue - Dryness of tongue. Dry, white, filthy tongue. Aphthae on tip of tongue. Tongue coated yellowish, dark brown. Tongue coated heavily white in gastric derangement. Tongue coated along centre, red at base. Trembling of tongue. Tongue thinly coated yellow, with longitudinal fissure. White tongue with red edges.

Vertigo - Aural vertigo (Aur., Nat-sal., Sil., Chin.). Vertigo, nausea, confusion. **Vertigo, dizzy or faint on rising up**. Vertigo felt in occiput. Vertigo, as though

all objects are whirling. **Vertigo worse on least motion**. Vertigo, as if sinking deep down in the bed, better cold. Vertigo, as if brain were turning around. Vertigo on turning head or on stooping.

Vision - Dim vision. Every object appears covered with rainbow colors, followed by photophobia. Letters run together when reading. Bluish haze.

COMMENTS - Primary distinguishing symptoms are a slow onset of a disease, dryness of the mouth and skin and a thirst for cold drinks. Any complaint is worse motion, patient will immobilize affected area, frozen with pain.

Intermittent fever, chill mixed with heat. During chill, head hot, cheeks deep red, decided thirst, generally for large quantities at long intervals, sweat worse by least motion, sour or oily. Fever with a stupid, drowsy condition or mild delirium in which the patient has the delusion that he is somewhere else and "wants to go home." Chilliness predominates.

Dry, burning heat as if blood burning in veins. Sweat profuse at night and morning, sour or oily.

Headache or neuralgia in (left) side of head and face, better from hard pressure and cold applications, worse moving. Dull headache, frontal or bursting, splitting. Headache is worse by any motion or by the concussion of cough, and it goes from the front to back of head. The headache of alcoholics, of over-feeding or constipation. Nausea and faintness when rising up, better when lying still.

Migraines with splitting, sharp pain, throbbing nausea and vomiting. They want to go into a dark room and be left alone. Sensation of hammers hitting their head (Nat-m.). Better hard pressure, can be worse light touch. Worse motion, light, sound, any stimulation. Headache with bursting pain, as if their head will explode. Eye movement can cause severe pain, occipital pain is sharp. With sinus headache, sinuses become dry.

Dry mucus membranes, especially those of the mouth and stomach, deficient secretion. Serous membranes are inflamed, the seat of sharp, stitching pains, worse from motion.

later on there is exudation.

Muscles are inflamed and sore. Flu with soreness and aching in the joints, pain, worse motion.

The respiratory organs and heart are profoundly affected. Lungs are dry, good for dry, hacking cough that goes into the chest in pneumonia and bronchitis. Respiration becomes worse with deep breathing, try to breath as little as possible. Cough, worse morning. "Frequent desire to take a long breath, must expand the lungs" Want open, fresh air, felt better in cold air.

Hemorrhages. Nosebleeds, especially in the night, 3 to 4 a.m., which is characteristic. This may or may not be preceded by a sense of fullness in the head. Nosebleeds consequent on suppression of the menses is characteristic.

Mouth very dry, tongue coated white down the middle, the edges may be quite clean, later it becomes yellow with bitter taste. Lips are dry and cracked.

Toothache, better by pressing head into pillow, by cold applications. Tendency to chew lips, pick nose or cracked lips, or grind teeth. Brain disorders with a constant motion of the mouth as if chewing. Dirty wash-leather, foul tongue, congested eyes, bitter nausea.

Food lies at the epigastrium like a stone, better bringing up wind. The digestion is worse in summer. Symptoms worse after a meal. A coarse feeder. Bry. is a gourmand (Nux-v., an epicure). There is intolerance of vegetable food. Everything tastes bitter. Gastric derangement "absolutely requires water as a dissolvent." Thirst for large quantities. Burning thirst, for cold drinks, worse from beer. Dehydration in the GI, causing constipation, and joint, causing arthritis.

"Belchings of tasteless gas." Sour stomach. Constipation, atony of the bowels. Stool large, dry, hard, brown or black, as if burnt or charred, crumbling (Plat, has sticky, tenacious stool, sticks to rectum). Stools smell of old cheese. Can have no desire to stool. Diarrhea worse in the morning.

The liver is tender and inflamed. The kidneys also are inflamed, the urine being dark red without deposit (from excess of coloring matter). Appendicitis with nausea, vomiting, fever and rebound tenderness (Bell.). Mastitis, hard, tender. Left ovarian pain, better lying on painful side.

Dropsical swellings, swellings of the legs, sensitive to touch. "Joints red, swollen, stiff with stitching pain from slightest motion." Synovial swellings. Symptoms are worse with stiffness.

Ankle injuries, the slightest movement causes severe pain. Trauma injuries. Low back problems, slipped disks. Whiplash where the neck is frozen with pain and they don't want to be touched, will immobilize neck as movement causes great pain.

Fixation due to pain worse from motion. Worse with any effort, they move only because there is pain. Will cling to support. Lying on the painful part keeps the part at rest. There is also an intense headache, dull throbbing or sharp stabbing pains, sharp pain in or over eyes. Head greasy, scalp tender, eyeballs tender. All their symptoms become worse at 9 p.m. and 3 a.m.

Irritable. Constantly finding dissatisfaction. Hasty speech. Dreams of the occupations of the day. The child kicks the covers off. Often of a dark complexion and hair, choleric, bilious tendency with firm fleshy fiber, tendency to great irritability and bad temper.

Clarke cured a case of congenital hydrocele with Bry.

Van den Berghe found Bry. singularly curative in chlorosis, with diarrhea and constipation. Diarrhea occurs in the morning "as soon as he moves" from cold drinks in warm weather, on every spell of hot weather.

Teste took Bryonia as the type of a group which includes All-s., Lyc., Dig., Nux-v., Coloc. and Ign. All these act with much more power on carnivorous than on herbivorous animals. They are thus appropriate to persons who

over-eat or eat excessively of meat and have strong constitutions, "persons accustomed to rich living with rich blood, firm resisting flesh." Teste regarded the digestive canal, and more particularly the stomach, as the principal seat of the action of Bry.

A case of facial eczema was cured with it in an infant five months old, presenting the additional symptoms of constipation, peevish, fretful, thirsty, face and lips are cracked and sore. The child scratched continually. The mother had a similar eruption for some years and it disappeared suddenly at the sixth month of her pregnancy.

RELATIONS-Antidotes: Aeon., Cham., Nux- v.. Bryonia is **Antidoted by:** Aeon., Alum., Camph., Cham., Chel., Clem., Ign., Mur-ac., Nux-v., Puls., Rhus-t., Seneg. Teste found by accident, Ferr-m. the best antidote in his experience. **It antidotes:** Alum., Chlorum, Chin., Frag., Merc., Rhus-t. **Compare:** (1) Asc-t., Kali-m., Ptelia. (2) The Cucurbitaceae - all have belching with unaltered taste of food. (3) Aeon. - pallor on rising up. Aeon, has more restlessness and tossing about is full of fears, Bry. must keep still. (4) Amm., Ant-c. (nausea, vomiting and diarrhea, aversion to milk), Am. (hemorrhages, wounds, soreness all over, also Bapt.), Ars. (unlike Bry. drinks often and little and eats seldom but much), Asc-t. (pleurisy). (5) Bell, (delirium, hasty speech, hasty drinking. Bell, has headache worse lying down, Bry. must lie down, Bell, has worse lying on painful side, Bry. better lying on painful side. (6) Bell, has **"chewing motion of jaws"** but without the dry, cracked lips of Bry.). (7) Calc, like Bry., Chin, and Bell., has **"as soon as he closes his eyes sees all sorts of objects "**, Carb-v. (miliaria), Caust., Cham., Ign., Ip. (miliaria). (8) Kali-c., chest affections, sharp pains in right hypochondrium shooting up into chest, sharp pain coming from lower lobe right lung, but Kali-c. has not necessarily worse by motion. (9) Kreos., Lach., Lyc., Merc., Nat-s. (morning diarrhea), (10) Nat-m. - headache in morning, oily, sour sweat on face, Bry. on head generally, cracked lips, Bry. and Nat-m. gowelltogetherand are often complementary. **Complementary:** Alum., Rhus-t. Alum, is the **"chronic"** of Bry. and Kali-c. and Nat-m., hold a similar but less pronounced relation to it. **Complementary:** Upas when Bryonia fails. Rhus-t., Alumina.

REFERENCES - Boericke. Clarke. Mutphy. Phatak.

***BUFO RANA

(Toad Poison)

PHARMACY - bufo. Bufo rana. Toad poison. Bufo satytiensis. Bufo vulgaris. N. O. Bufonide, Batrachide. Europe, Asia, Japan. Solution of the poison expressed from the cutaneous glands on the back. **Historical dose:** Tincture and all potencies.

CLINICAL - Brain, softening. Brain, tumors. **Breast, cancer.** Buboes. Cancer. Carbuncles. Convulsions. Decay. Dropsy. Chorea. Convulsions. **Dropsy. Epilepsy.** Gout. Heart disorders. Imbecility. **Impotency.** Intermittent fever. Leucorrhea. Lumbago. **Lymphangitis.** Malignant pustules. **Masturbation, effects.** Meningitis. Nosebleed. **Panaritium.** Paralysis. Parkinson's disease. Pemphigus. Phlegmasia alba dolens. Plague. Sciatica. Self-abuse. **Septic, lymphangitis.** Skin disorders. **Spasms.** Stammering. Suppuration. Whitlow.

HOMEOPATHIC - Mureprovedthecommon variety, Bufo rana and the Brazilian toad, Bufo Satytiensis. Shakespeare was correct in speaking of the toad as having **"sweltered venom. "**

The poison is excreted by glands in the skin of the back. **"Quintessence of toads "** figured largely in the therapy of Salmon's Doron Medicon (1583), where it is commended as a **"Specific in the Dropsy. "** Homeopathic provings and poisonings have shown that this reputation is founded on fact.

The chief laurels of Bufo have been won in the treatment of epilepsy. Bojanus cured many cases, and no medicine has served better in the treatment of this disease.

Few people who have witnessed a characteristic epileptic seizure can have failed to notice the curiously toad-like aspect assumed by the subject.

The epileptic seizure and the status epileptic give the clearest correspondence to the Bufo range of action. Epilepsy is often found among the effects of self-abuse in the young.

Remarkable action on nervous system and sexual organs.

Epileptic symptoms. Epileptic seizures occur during night, connected with sexual sphere. Variety of symptoms occur before epileptic spasms. Seizures at the time of menses in women when sexual desire is excited in young men due to onanism or during sex. Falls down unconscious with a blood-curdling scream. Bufo is indicated in epilepsy when the attacks occur during sleep at night. The patient may or may not be awakened by the attack, if not, when he does awaken he will have violent headache. Epileptic symptoms worse warm room.

Symptoms of Parkinson's disease. Convulsions from suppurative conditions. Fetid discharges and exhalations. Injuries to fingers, pain runs in streaks up the arms. **Septic lymphangitis,** due to injuries, when pain runs up in streaks. Striking rheumatic symptoms. As if a peg in joint.

Marked periodicity, quartan fever. Dropsy. Paralysis. Carbuncle. Bubo. Causes low grades of inflammatory action, fetid exhalations and discharges. Cancer. Severe late cancer conditions. Clarke has removed the fetor in hopeless cases of cancer with this remedy.

Affects circulation, causing heat flushings, burning in different parts. Anesthetic spots on skin. Marked uterine symptoms. **Spasms in children after nursing**, angry or frightened mother. Causes a desire for intoxicating drink and produces impotence. Extremely sensitive to light and noise, the latter is intolerable.

MIND - Confusion and loss of memory, bordering on imbecility. Prematurely senile. Great weakness of memory, idiotic. The mind remains childish, only the body grows. Of use in feeble-minded children. **Feeble-minded**. Idiocy, silly, titting. Talks nonsense, then angry if not understood.

Anxious about health. Fears animals, strangers. Fear of mirrors in room. Biting nails. Nervousness and trembling worse open air. Music is unbearable. Lamenting alternating with crying. Easily laughs or cries. Cries much with epilepsy. Easily startled.

Sad, restless. Sadness on waking. Dullness better evening. Walks the floor and wrings the hands. Ill-humour after menses. Irritability in morning on waking. Irritability at night after retiring. Irritability after menses.

Delirium or apathy, with hot head. Stupor and inability to speak. Deceitfulness. Rage while alone. Propensity to bite. Howling, impatient, nervous, imbecility. Longs for solitude, yet dreads being alone.

Anger before convulsions. Stupor between convulsions. **Unconsciousness after convulsions**.

Moral depravity. Derangements of the sexual sphere. Depravities due to bad inheritance. **Desire for solitude to practice masturbation**. It arouses lowest passions, patient is not only low minded but develops low type of disease also.

Abdomen - Colicky pain after drinking milk, and after smoking. **Violent colic with convulsive movements of jaws and limbs**. Sensation as if cold balls running through bowels. **Buboes in groins**. Convulsive movements in abdomen after spasms. Spasms end by convulsive movements in abdomen. Epileptic attacks originate in abdomen.

Back - Jerks in nape of neck, epileptic attacks. Lumbago, worse rising up or least motion. Swelling of bone, size of a fist. Decay of dorsal vertebrae. Stiff neck after sleep.

Breasts - Mastitis. Bloody oozing from nipples. Bloody milk. **Breasts cancer**. Induration in breast glands. Violent pain in breasts, worse at night. Palliative in cancer of breasts. Offensive bloody discharge from breast.

Chest - Sensation as if chest and heart were constricted. Burning like fire in chest. Rapid motion of diaphragm.

Constitutions - Feeble-minded children. Prematurely senile.

Cough - Suffocative. [11] From any emotion. From burning or stitches in larynx. At night, provoked towards 3 or 4 AM by tickling in larynx, which he feels only at this hour. In consequence of cold feet. Violent, with vomiting. Dry, with sharp pain or burning in chest.

Ears - Music is intolerable (Ambr.). Every little noise distresses. Purulent otorrhea, ulceration and bleeding of external ears. Heartbeats reverberate in ears, in meningitis. Pains worse cold washing. Swelling of ears and parotids.

Eyes - Eyes red, injected. Itching, swollen, painful. Eyes sunken during epileptic attack. Burning, itching and ulceration of lids. Left eyelid paralyzed. Little blisters form on eye. Right eye open, left nearly closed. Eyeballs rolled upward and to left before attack. Strabismus. Aversion to the sight of brilliant objects. Pupils dilated.

Face - Face greyish. Burning and redness of swollen face. Lips black. Face bloated and distorted, mouth and eyes convulsed. Bathed in sweat during spasms. Sweat runs down face. Momentary hot flushes of face. Phlegmonous erysipelas, which leaves face deformed. Cold water causes pricking of face.

Female - Menses too early, too copious. **Epilepsy with menses**. Menses with headache. Menstrual pains run into legs. After menses, ill-humored. Offensive, bloody discharge, clots. Watery leucorrhea. Offensive purulent leucorrhea. Burning and swelling in ovaries and uterus. Burning heat and sharp pain in ovaries. Hydatids in ovaries. **Ulceration of cervix**, with burning pains. Tumors and polyps of the womb. Milk-leg. Veins swollen. Cord like swelling from groin to knee, milk leg. Sexual excitement with epileptic attacks. Cancer of uterus. Veins swollen. Swelling and great sensitiveness of ovarian region.

Food - Desire for sweet drinks. Desire for sugar-water. Longing for brandy, delights in getting drunk. Aversion to food and drink.

Head - Face bathed in sweat. Congestive headaches with flushed face. Pillow hurts occiput. Pressure like two iron hands holding temples. Headaches after breakfast. One-sided headaches, worse by light and noise. Numbness of brain before epileptic attack. **Headache with epilepsy**. Head at first drawn to one side, then backwards before an attack. Lancinating pain in occiput, inclining head to fall backward, in meningitis. Violent orgasm in head. Profuse sweat on head. Hair falls out. Sensation as if hot vapor rose to top of head.

Heart - Feels too large. Heaviness about heart. Rapid heart action in exophthalmos. Palpitations with

headache during menses. Constriction about heart. Palpitations after eating. Palpitations with nausea. Palpitations on awaking. Heart seems to float in water or air. Sticking pain about apex of heart. Palpitations and oppression from walking fast. Paralysis of heart. Pulse more rapid and threadlike as epileptic attacks multiplied.

Kidneys - Burning pain in kidneys, with oppressed breathing and faintness. Involuntary urination. **Hematuria in childbed.** Frequent discharge of pale urine. Suppression of urine. Urine brown, offensive.

Limbs - Trembling of limbs. Limbs become stiff, numb. Cramps in limbs worse cold air. Bruised pains, trembling, cramps, arthritic swellings. Arms go to sleep easily. Swelling of hands and arms, burning pains.

Lymphangitis, red streaks under skin. Staggering gait. Feeling as if a peg were driven in joint. **Panaritium**, swelling blue-black around nail, pain in streaks up arm. Sciatica. Contusive pains in arms, legs and loins, during motion. Arthritic pains, worse after sleep. Swelling of bones. Epileptic attacks preceded by restless movements of limbs and body.

Liver - Enlargement of liver. Pulsating, pain in liver like an abscess, with vomiting of bile.

Lungs - Burning like fire in lungs. Suffocative cough. Asthma. Difficult breathing from compression of larynx, trachea and heaviness of chest, must sit up or bend forward. Anxious, difficult, gets shorter and shorter, during fever. Dyspnea, pants like a dog. Mucus or bloody expectoration, or pure blood, raised most in morning and evening, with sensation of cold in chest.

Male - Buboes. Disposition to fondle organ (Hyos., Zinc.). **Disposition to masturbation.** Effects of onanism. Involuntary emissions. **Impotence**, ejaculation too quick. Spasms during sex.

Male - Semen is discharged too quickly, without pleasurable sensation, sometimes with cramps or painful heaviness in limbs.

Modalities - Better from cold bathing. Better putting feet in hot water. Better cool air. Better bleeding. Worse from warm room. Worse sexual excitement. Worse from masturbation. Worse least motion and injuries. Worse on waking. Worse with a full moon.

Mouth - Burning in mouth, as from acid, worse cold water. Bloody saliva. **Constant licking of lips.** Fetid odor from mouth. Stuttering and stammering, angry when not understood. Falling out of teeth. Convulsions after extracting teeth. Mouth wide open before epileptic attack. Ejection of frothy, bloody saliva from mouth during epileptic attack.

Nose - Nosebleed with flushed face and pain in forehead. Better after nosebleed. Nosebleed almost producing faintness. Sneezing in evening, when going to bed. Coryza, pimples on upper lip. Discharge of greenish-yellow, putrid mucus, worse evening. Mucus descends into posterior nares. Ulcerated, burning nostrils. Loss of smell.

Perspiration - Profuse sweat, oily, on head and face. Profuse sweat with weakness. Sweats during spasms. Sweats during sleep, towards morning. Cold sweat. Copious, clammy sweat, on hands and arms. Sweats during epilepsy.

Rectum - Dysentery with delirium, headache and sleeplessness. Bowels torpid. Ascarides. Hemorrhoids, discharging bright red blood. Stools white. Difficult, hard stool, with cold body and hot head.

Skin - Itching and burning. **Lymphangitis, red streaks under skin.** Patches of skin lose sensation. **Pustules, suppuration from every slight injury.** Pustules, tetters and eruption of small nodules. Pemphigus. Yellow bullae, yellowish, corrosive fluid oozes out. Blisters on hands occurring annually. Blisters on palms and soles. Large yellow blisters. **Epidemic, infectious carbuncles.** Carbuncles. Goose bumps. Ulcers with burning pain. Anthrax.

Chilblains. Yellowness of skin.

Sleep - Irresistible sleepiness after eating. Drowsy, but can't sleep, from agitation, constantly turning in bed. Sleepiness after smoking in forenoon. Comatose after spasms. Sleepy after meals. Sleepiness after having been in open air. Constant yawning, can't keep lids open. Starting in sleep, awakens as if frightened. All symptoms worse on waking.

Stomach - Burning pain in stomach. Weak, faint feeling in stomach. Eructations, as from rotten eggs. Nausea and vomiting from nervous excitement. Vomiting after drinking. Yellow fluid in vomit. Vomiting of blood and bile.

Temperature - Coldness and shivering, with moist skin, nervousness and trembling, worse going into open air. Fever with apathy or delirium, and cold feet. Burning heat in various parts. Limbs burning hot during fever.

Throat - Convulsive and constrictive motion in throat, with sensation like a stone there. Dryness in throat, impeding swallowing, in morning. Difficult swallowing, can hardly swallow saliva. Burning, excoriation in larynx. Bleeding fissures, causes quick, jerking cough.

Tongue - Tongue is cracked, bluish black. **Lapping of or playing with tongue.** Paralysis of tongue, lapping motion before the attacks. Bites tongue. Dry tongue.

Vertigo - Vertigo, as if house was turned upside down. Vertigo with heaviness of head. Vertigo, as if floating

or swimming in water or air. Dizzy, drunken feeling after dinner.

Vision - Dim vision, with itching in eyes. Can't bear sight of brilliant objects. Objects appear crooked. Objects appear as if seen through a veil.

COMMENTS - Bufo provokes the tendency to the practice, or even causes impotence. The Indian women of Brazil are aware of this last property and administer the venom to their husbands in food or drink when they wish to free themselves from their marital attentions.

L. Guthrie told a story of an Italian peasant, apparently dying of dropsy, whose wife, weary of the interminable length of his illness, thought to hasten his end by putting a toad into his wine. The man was completely cured. According to Lippe, Bufo is especially indicated in epilepsy when the attacks occur during sleep at night. The patient may or may not be awakened by the attack, if not, when he does awaken he will have a violent headache.

Epileptic symptoms are worse in warm room, but there is also great sensitiveness to cold air and wind. Epilepsy that's worse with a full moon. For epilepsy in children with delayed development (Bar-c.). Keynote masturbation in children or with epilepsy.

Lymphangitis. Swollen glands, buboes, particularly in groin and armpits. May go systemic, pus and suppuration. Infection leading to swollen glands and fever (Carban.). **"Low state,"** decomposition, breakdown in tissues with pus and septic states. Difficult to heal. Cancers with deterioration (Kreos.) in the late stages.

Greasy skin, foul discharges and odors. Carbuncles, boils, large water-filled vesicles (bullae). Marked periodicity, quartan fevers. Hemorrhages. Boericke noted a **"desire for solitude"** in order to masturbate.

Guernsey commended it in panaritium where the pain runs in streaks, all the way up the arm. Also when the fingers have been injured and look black, with pains running in streaks up the arm.

E. E. Case reported a cure with Bufo cinereus of "nosebleed daily for several weeks with flushed face, heat and pain in forehead better by the bleeding, there was also easy, perspiration in general, apt to be offensive, especially on the feet."

RELATIONS - Antidoted by: Lach., Seneg. **Compare:** (1) Bar-c., Aster., Salamand. (Epilepsy and softening of brain). (2) Cubeb, in convulsions from low grades of suppuration.

(3) Ars., Canth., Lach, and Tarent, in epilepsy aura starting in solar plexus. (4) Art-v., Calc., Nux-v., Sil., (5) aura starting in arm, Lach., Sulph. (6) in chorea, patient cannot walk, must run or jump, Kali-br., Nat-m., as if heart in water, Bov., (7) in masturbation, impotence, etc., Hyos., Merc., Sulph., (8) in malignant pustule, Anthrax., Ant. c., Lach. (9) in bullae, panaritium, etc.. Hep., Lach., Ph-ac., Sil., Dios. (10) Head drawn to either side, Camph. **Complementary:** Salamandra. Helo., Am- phisbena is complementary in epilepsy and brain-softening (Hering).

***BUNIAS ORIENTALIS

PHARMACY-buni-o. Bunias orientalis. N. O. Cruciferae. Tincture of the seeds. **Historical dose:** Tincture and all potencies.

CLINICAL - Adenitis. Allergies. Amaurosis. Arthritis. Asthma. Brachial neuralgia. Cancer. Coccydynia. Congenital malformations. Dyspnea. Eczema. Emaciation. Fever. Headaches. Hoarseness. Hodgkin's disease. Intermittent fever. Leucorrhoea. Menorrhagia. Metrorrhagia. Nausea. Neuralgia. Neuritis. Proteinuria. Scars. Syphilitic, adenitis. Tubercular, adenitis. Vertigo.

HERBAL - Bunias abiennial plant, measuring up to 120 cm. It flowers in May and June, and grows near lucerne fields and along the roads all over Europe.

Prinzing used the seeds of the Norwegian stock of the plant in homeopathic potencies. His attention was drawn towards this plant after learning that a doctor in the North was using Bunias to treat cancerous subjects with interesting results.

HOMEOPATHIC-The homeopathic clinical proving involved one hundred and three patients during a period of two years, and a series of forty patients observed for ten years. The remedy as found to be suitable for tubercular and sycotic types with arthritic neurotic tendencies, for women with syphilitic afflictions, and especially for cancerous subjects.

Allergic, psoric or syphilitic conditions, pre-cancerous conditions. Hodgkin's disease. Intermittent attacks of fever, beginning with a fit of shivering at around 11 p.m. chattering teeth, heat and ending in the morning.

Brachial neuralgia. Pains go around in circles, quickly change place, burning, stinging or cramping. Diffuse nerve pains, behind the mastoid process, the top of the radius top of the fibula the end of the 12th rib. Neuralgia of the left sciatic nerve.

The sudden appearance and disappearance of all symptoms. Rapid emaciation of no apparent reason, (pre-cancerous condition). Tiredness, weakness, loss of vitality. Every difficult previously overcome with ease is

now arduous and faced with gritting of the teeth. Need to lie down after a few hours work. Cannot stay awake in the evening.

Sensory complaints decreased vision and hearing. Feeling of stabbing the chest. Sensation that the head is increased in size of swelling in the upper part of the body in the hand. Feeling of coldness in the head, stomach, fingers and back. Sensation of lightness and of hovering in the air, then of falling violently into a bottomless pit.

Itching eruption followed by adenitis. Subacute infections of rheumatic or of the female genital organs. Neuritis and neuralgia.

Irregular menses, nauseating leucorrhea. Abnormal pregnancy. Children weak puny, premature, syphilitic types. Babies born with congenital malformations.

Profuse bleeding after birth with large placenta. Scars. Bloodstained lochia continuing for three to four months.

Vulvar varicosity during pregnancy. Metrorrhagia during menopause.

MIND - Neurotic condition with anguish and unrest. Irrational anxiety, can lead to suicide. Depressive psychosis in the pre-cancerous subject. Psychological exhaustion. Depressed. Depressive psychosis, which can end in suicide.

Abdomen - Copious flatulence during the day.

Constitutions - Psoric and allergic constitutions. Cancerous, syphilitic conditions.

Ears - Tinnitus-like bells ringing, or water boiling.

Eyes - Visual complaints. Sees clouds or black circles before the eye. Temporary amaurosis.

Female - Menses painful, irregular, abundant or scanty flow with purplish blood and clotting. Infrequent menses. Headaches and dyspnea before menses. Vulvar congestion with red-brown coloring. Vulvar eczema. Irritating leucorrhea, yellow or brownish, foul-smelling, nauseating. Menorrhagia in young girls. Pre-menopausal menorrhagia. Metrorrhagia through premature placenta or hematoma behind the placenta. Abnormal pregnancy.

Kidneys - Urine irritating of a strong odor, albuminous or streaked with blood. Proteinuria. Indol in urine. Bacteria in urine.

Limbs - Bouts of rheumatoid arthritis with swollen joints. Localized edema, coming and disappearing suddenly, on the back of the hand, collarbones and axillae. Coccydynia.

Lungs - Sharp, sudden hoarseness. Dyspnea. Asthma, appearing suddenly at the age of 40. Wheezy respiration, dyspnea, sensation of restriction in the chest, pain on the left side of the sternum.

Modalities - Better from walking. Better changing position. Better open air. Worse at night. Worse on the side of the body compressed for a long time. Worse on left side. Worse from over-exertion. Worse from heavy, fatty foods.

Rectum - Stools suddenly turn to diarrhea in attacks lasting 2-3 days, then reverting to normal. Attacks of constipation with hard stools, difficult with nausea. Tendency to sudden appearance of hemorrhoids.

Skin - Eruption of red spots or vesicles, redbrick or pale purple in color, located on the nose, cheeks, palms, forearms, thighs, legs. Vesicles on the tip of the tongue, the periphery of the mouth and around the anus. Itching eruption, aggravated by scratching. Pruritus premonitory to malignant adenitis.

Sleep - Sleep light, disturbed, frequently woken. Tosses and turns constantly from one side to the other to fall asleep exhausted when the morning comes.

Temperature - Fever every 21 days in short attacks, coming between 11 p.m. and 12 p.m. with shivering, thoracic pains on the left side, weakness and vomiting. Two to four hours after the shivering comes sweating, which soothes.

Vertigo - Vertigo with a feeling of uncertainty, coming suddenly, lasting only a short while in the early morning.

RELATIONS - Compare: (1) Bapt. - Considerable nervous depression, face red, bewildered, extreme agitation, putrid-smelling breath, fetid diarrhea, lived marks on the body and limbs. (2) Syph. - Pains in the bones, at night, appearing and disappearing slowly. Breath fetid and painless constipation or diarrhea in the morning. Profuse, acrid, yellowish leucorrhea. (3) Syph. - Changing moods, difficulty in assembling thoughts, loss of memory, especially for proper nouns. (4) Ars. - Rapid prostration, anxiety, agitation, cadaverous odor of the secretions, aggravation at night between 1 a.m. and 3 a.m. (5) Sec. - Post-partum hemorrhage. Hemorrhage of black blood in exhausted women.

***BUTHUS AUSTRALIS

(Scorpion Venom)

PHARMACY - buth-aust. Buthus australis. Scorpion venom. Buthus prionuris. Androc- tonos funestus. Buthus occitanus. Algerian scorpion. Common yellow scorpion. N. O. Arachnida. Tincture is prepared from the

scorpion venom. **Historical dose:** Tincture and all potencies.

CLINICAL - Chills. Fever. Headaches. Hypotension. Prostration. Salivation.

HOMEOPATHIC - *Buthus Australis* is a scorpion belonging to the arthropod order of the arachnid class.

The scorpions are insects distinguished by the division of their bodies into three sections: the head and thorax, the pre-abdomen (seven segments) of the same form as the head and thorax, and the post-abdomen (six segments), mistakenly called the tail, which is very mobile and ends with a venomous, curved sting.

The chelicerae have three joints, the last sections forming the pincers. The leg-jaws are very long and end in fat pincers. These animals are viviparous, carnivorous, feed on insects and spiders, which they catch with their pincers and have a defense organ.

Azam first carried out a proving on himself by taking one drop of pure venom orally. A second proving was undertaken by Azam and carried out with the help of eight pro vers (three women and five men), using the 6x potency for thirty days. Only four provers continued to the end of the thirty days.

Symptoms included an inhibition of will power and reduced activity. Head heavy, frontal headache. Vertigo on walking. Excessive salivation. Attacks of fever with shivering. Limbs are cold with burning pain in the skin. Upset by climatic changes with mental depression and shivering.

Anguish, thoracic constriction. Sensation of a piece of wood nailed between the heart and lungs. Hypotension in infectious conditions. Infectious conditions with fever, shivering, prostration, aggravated at night. Respiratory difficulty during pulmonary or cardiac illnesses.

MIND - Intellectual work arduous or trying. Alternating moods, at times loquacious, at times taciturn, sometimes prostrate, sometimes restless. Irresistible need to speak. Anguish. Indecision and worry. Weepy. Fear of the future, especially after 7 p.m. Sensation of being in a dream.

Abdomen - Pain and chill.

Back - Cervical muscular pains and stiffness of the nape of the neck.

Eyes - Red, weeping with photophobia. Eyeballs sunken. Strabismus.

Head - Throbbing headaches, wandering, very intense.

Heart - Feeling of heat in heart of a piece of wood nailed between heart and lungs.

Limbs - Trembling of the limbs. Hands cold, especially during shivering. Walking painful, and the legs seem to want to move backwards instead of forwards.

Lungs - Difficult respiration, palpitations. **Male** - Erection not achieved.

Modalities - Better from eating, rest. Worse from effort, intellectual work. Worse in the late afternoon. Worse when shivering. Periodicity is worse yearly.

Mouth - Profuse salivation. Difficult swallowing.

Nose - Sneezing.

Rectum - Diarrhea.

Skin - Red spots. Formication. Itching. Cold sweating, especially at night. Sensation of coldness, like icy needles pricking the skin. /

Sleep - Strong feeling of fatigue, sleepiness and insensitivity.

Throat - Constriction in the throat.

Vertigo - Vertigo on walking.

RELATIONS - Compare: (1) *Lach.* - Aggravated by lying down. Spontaneous hematoma. (2) *Merc.* - Excessive salivation and tongue has a yellowish coating, which retains the imprint of the teeth. (3) *Apis* - Sensation of being pierced by red hot needles, but with a predominance coldness at the limbs and sensation of icy needles. (4) *Verat.* - Sensation of icy coldness. (5) *Sil.* - Throbbing headache, weeping, sneezing, difficulty in swallowing, chilliness, shivering and sweating, but without the feeling of a piece of wood nailed between the heart and lungs.

REFERENCES - Julian.

*****BUTYRICUM ACIDUM** (Butyric Acid)

PHARMACY - but-ac. Butyricum acidum. Butyric acid. A volatile acid obtained chiefly from butter, being found there in the form of an ester, a triglyceride, and as such constitutes the chief fat of butter and milk. **Historical dose:** Tincture and all potencies.

CLINICAL - Ankylosing spondylitis. Anorexia. Belching. Cervicitis. Cramps. Dysidrosis. Dysuria. Edema. Flatulence. **Foot sweat.** Gingivitis. Headache. Leucorrhea. Onychomycosis. Palpitations.

HOMEOPATHIC - Butyric acid occurs in the animal organism under a variety of conditions. It constitutes the chief fat of butter and milk. Butyric acid set free by fermentation causes a rancid taste and the odor of contaminated butter.

When milk sours, milk sugar is converted into lactic acid by the lactic ferment of various bacteria. The lactic

acid is then acted upon by butyric acid ferment contained in the air.

It may be present in the gastric contents under abnormal conditions, with a markedly diminished hydrochloric acid secretion. In excessive fermentation in the enteric tract, butyric acid may be formed in significant amounts. Abdominal flatulence. Tremendous formation of gas in the whole belly, much belching of gas, a great deal of gas is passed at the call to stool, which in many cases fails to come.

Marked straining at stool. Stools are small like lumps. Intermittent belly cramps which are below the umbilicus. Pain in the ileocecal region. Complete loss of appetite. Fetid leucorrhea. Offensive sweating of the soles of feet.

MIND - Anxiety and fear. Worries over trifles. Constant fear and nervousness. Impulsive thoughts of suicide, brooding.

Abdomen - Gastric and abdominal flatulence. Cramp in abdomen below umbilicus. Bowels irregular. Atony of the liver and stomach. Epigastric and peri-umbilical pains, awaking at about 2 a.m. Pain in the ileocecal region with feeling of cramp, relieved by expulsion of gas.

Back - Tired feeling and dull pain in small of back, worse walking. Pain in ankles and up back of leg. Pain low down in back and limbs. Ankylosing spondylitis. Morbus coxae senilis.

Female - Foul-smelling leucorrhea, like horses urine. Purulent cervicitis. Dysuria.

Food - Anorexia. Poor appetite.

Head - Headache makes him apprehensive about trifles, worse going upstairs or rapid motion. Dull, hazy ache of head.

Heart - Palpitations, aggravated by eating, with a feeling of abdominal plethora.

Kidneys - Urgent and pressing need to urinate, especially for women. Urine malodorous, smelling like asparagus. Amorphous urate deposits.

Limbs - Dull aching of lumbar and sacral regions, worse standing, spreading towards the hip. Dull aching of arms, legs and calves. Cold feet, with abundant, fetid perspiration. Edema of the feet during menses.

Modalities - **Worse at night.** Worse fast walking. Worse going upstairs. **Worse during menses.**

Mouth - Fetid odor in the mouth. Profuse salivation. Gingivitis. Gums tinged with blood. Gingival secretions, which are offensive smelling and more profuse during menses. Painful gums, worse during menses.

Perspiration - Perspiration on slight exertion. **Profuse, offensive foot sweat.**

Rectum - Sudden nocturnal cramps with an urgent need to go to stool. **Offensive smelling stools**, chestnut or light yellow in color. Feeling of heaviness in rectum with pain in the anus. Stool accompanied by pain and straining.

Skin - The fingernails crumble away. Sudamina. Dysidrosis of the palms and soles. Onychomycosis.

Sleep - Sleep disturbed, owing to digestive complaints. Pronounced sleeplessness, dreams of serious nature while asleep.

Stomach - Much gas in stomach and bowels. Cramps in pit of stomach, worse at night. Stomach feels heavy and overloaded.

COMMENTS - The following provings were conducted at the Hahnemann Hospital of Philadelphia, upon students at that institution. The students took the 3 c potency of the remedy every two hours; in all, the proving was carried on for approximately seven weeks.

The remedy induces a peculiar effect on the superficial part of the body. Pronounced and awfully malodorous foot sweat.

Students at the Hahnemann College often had to constantly change their socks, a thing quite foreign to the provers under normal conditions.

Crumbling away of the fingernails. Aggravated backache.

All the symptoms are decidedly worse at night. Pronounced sleeplessness.

RELATIONS - Compare: (1) Bapt. - Putrid smelling breath. Fetid diarrhea and putrid stools. Mental confusion, illusion that the body is double. (2) Verat. - Prostration intense delirium, feeling of chill running over the whole body and cold sweating on forehead, hands and feet. Abdominal colic with copious diarrhea, followed by extreme weakness. (3) Nux-m. - Dryness of the mucus membranes, thirst, gastric and abdominal distention. Constipation with difficulty in expelling stools. Amenorrhea with leucorrhea.

REFERENCES - Anshutz.

***BUXUS SEMPERVIRENS

(Box Tree)

PHARMACY - bux. Buxus sempervirens. Box tree. N. O. Euphorbiaceae. Tincture of the young leaves and twigs. **Historical dose:** All potencies.

CLINICAL-Abdomen, pains. Coldness. Convulsions. Diarrhea. Dizziness. Paintings. Nausea. Rheumatic pain.

Sleepiness.

HOMEOPATHIC - Paintings. Strong forcing pains, like those of labor, in the lower part of the abdomen, which varied greatly in intensity, and lasted from twenty or thirty seconds to a minute or longer.

Pretty frequent desire to urinate, but no increase in amount of urine emitted. Slight increase in frequency of pulse. Slight degree of nausea on one or two occasions.

Senseless and unconscious, with ice-cold hands and feet, half-closed eyes, dilated pupils, respiration very slow, almost imperceptible, action of the heart intermitting, scarcely perceptible, anus relaxed, wide open, limbs relaxed. He fell to the ground unconscious, with loud cries and convulsions.

MIND - Mental and physical prostration. Emotional. At times, painful weeping, with grinding of the teeth. Sadness. Wakes in bad humor. She seemed to have some consciousness, as was shown by the look of her eye when her name was called aloud.

Abdomen - Labor like pains in lower abdomen.

Ears - Noise in the ears, extending to the occiput, like letting off steam.

Eyes - Dimness of sight. Optical illusions.

Food - Appetite when beginning breakfast, but it suddenly ceases after taking a little milk.

Head - Giddiness of the head. Weight in the head, especially the top of the forehead, at 4 p.m.

Kidneys - Sudden pain, with lancination, in the urethra, above the fossa navicularis, for two minutes.

Limbs - Rheumatic pain in the right thigh. Trembling of the knees and of all the limbs with violent emotion, when hearing others talk about the disease he is afraid of having. Weakness of the knees when going upstairs. Swelling of the ankles, less at night.

Mouth - Clammy mouth, with bad breath. Bitter mouth.

Perspiration - Profuse sweat during sleep, ceasing on waking. Very fetid sweat under the axilla and on the scrotum.

Rectum - Tenesmus and pressure in the sphincter ani, with pricking, but ineffectual urging to stool. Diarrhea in the morning. Unusually easy stools. Watery, greenish, fetid stools. Copious, light colored, watery, fetid stools.

Sleep - Sleepiness. Drowsiness in daytime. Falls asleep late. Distressing dreams, about wanting to save an asphyxiated child, whose parents will not let him treat it. Dreams about a conflagration, with small flames.

Stomach - Violent vomiting and purging. Heaviness in the stomach all night, relieved by applying the hands. Borborygmi. Vague and transient, but very acute, pains in the stomach.

Temperature - Coldness and shrinking. The whole head, especially the nape of the neck, is cold. Face and limbs cold. Icy coldness under the shoulder-blades, in bed, even when well covered up. Coldness even to the marrow of the bone.

Vertigo - Dizziness. Paintings.

RELATIONS - Compare: Gels., Chin.

REFERENCES - Desai.

***CACAO

(Cocoa)

PHARMACY - cac. Cacao. Cocoa. Theobroma cacao. N. O. Sterculiaceae. Tribe, Buettnerieae. Trituration of the seeds. **Historical dose:** Trituration and all potencies.

CLINICAL - Aneurism. Angina pectoris. Apoplexy. **Atheroma.** Asthma. Bladder, paralysis. Brain, congestion. Bronchitis. Diaphragm, rheumatism. Dropsy. Exophthalmic goitre. Fistula. Hematuria. Hemoptysis. Hemorrhage. Headaches. Heart, affections. Heart, hypertrophy. Intermittent fever. Lungs, hemorrhage. Melancholy. Menstruation, painful. Malaria. Neuralgia. Otitis. Ovaries, inflammation. Ovaritis. Pneumonia. Prostate, affections. Rheumatism. Sunstroke. Traumatic fever. Vaginismus.

HERBAL - Theobroma is Greek for "Food of the Gods". Mayan Indian legend has it that the cocoa tree was a gift from the gods. The Mayas believed the drink made from the cocoa seeds would nourish them after death. The Aztecs believed cocoa would relieve their fatigue and stimulate their mental and psychic abilities.

The Spanish invaders were surprised to find that the cocoa beans were valued more than any other substance, even more than gold. The Aztecs used a chocolate drink as a base in many of their medicinal formulas. The Aztec nobility used the chocolate drink flavored with vanilla and spices as a pleasurable drink.

HOMEOPATHIC - The main ingredients of chocolate are caffeine, phenylethylamine, theobromine and theophylline. Feeding with waste Chocolate led to fatal poisoning in calves. The animals showed excitement, stared about in all directions, walked with exaggerated strides and had convulsions. One calf died, possibly from heart failure.

Allen noted, "In explaining the nutritive value of Cacao, we must take into account the presence in this

substance of a special

alkaloid, theobromin, whose physiological effects are identical with those of caffeine and thein.

"Which, retarding the organic waste in the same way as the active principles of coffee and tea, place Cacao high up among the preservative substances or those that check tissue-waste."

"By placing ourselves under the influence of a decoction highly charged with aromatic principles and made from powdered Cacao well roasted, we ascertained that this beverage produces an excitement of the nervous system similar to that caused by a strong infusion of black coffee.

"Since these effects are insignificant if a decoction of the raw bean is employed. It is natural to attribute them to the aromatic essences that are developed in the Cacao by the process of roasting. A still wider difference is observed when we compare the effects on the circulation respectively produced by a decoction of powdered Cacao roasted and one of the same substance in a crude state.

"The former case indicated an excitement of the circulation, as shown by an accelerated pulse, with an increased fullness and diminished arterial pressure.

"When, on the other hand, an infusion of the raw bean is made use of, the action of the theobromin predominates and an entirely different character of pulse is the result, as may be placed beyond doubt by examining the results, obtained from a single individual."

Causation - Damp. Disappointed love. Sun.

Sensations - *Finger were enlarged on waking.* Grain of sand under skin. *Worm under skin which ran away when touched.*

COMMENTS - Allen stated "In order to ascertain the effect of the active ingredients, contained in Cacao, (aromatic essences and theobromin) upon the nervous system. It was necessary to separate those ingredients, as far as possible from the fatty substances (cacao butter) of which the beans are so largely composed. With this view, we prepared a decoction of powdered Cacao in boiling water and conducted our experiments with this liquid.

RELATIONS - Compare: (1) Chocolate, Coffea, Thea.

REFERENCES - Allen. Desai.

***CACTUS GRANDIFLORUS

(Night-blooming Cereus)

PHARMACY - cact. Cactus grandiflorus. Night-blooming Cereus. Cereus grandiflorus. Cactus selenicereus. N. O. Cactaceae. Mexico. West Indies. Tincture of youngest, tender stems and flowers collected in summer.

Historical dose: Tincture and all potencies.

CLINICAL - Aneurysm. **Angina pectoris.** Atheroma. Asthma. Bladder, paralysis. Brain, congestion. Bronchitis. Colic. Diaphragmitis. Dropsy. **Dysmenorrhea.** Ear, inflammation. Exophthalmic, goiter. Fevers. Fistulas. Goiter. Hematuria. **Hemorrhages.** Headache. **Heart, attack. Heart, disorders.** Indigestion. Intermittent, fevers. Lungs, hemorrhage. Melancholy. Menstruation, painful. Malaria. Neuralgias. Otitis media. Ovaritis. Pneumonia. Prostate, disorders. Rheumatism. **Spasmodic, pains.** Stroke. Sunstroke. Traumatic fever. Vaginismus.

HERBAL - Given as a **heart tonic**, it will benefit a large number of cases of weakened and painful heart. Atheromatous arteries and weak heart. General weakness and prostration. Irregular circulation, causing violent congestion or localized pulsations. Congestion in the esophagus, bladder, etc. Used as an herbal tonic for heart patients with a history of constricting pains.

HOMEOPATHIC - Cactus affects the entire organism powerfully. but its internal operation is on the heart and circulation. In congestive violence it rivals Aeon., which is one of its antidotes. The pains are unendurable, they extort screams. Sadness, apprehension, fear of death and a tendency to be easily frightened characterize the mental state, as they do many conditions of heart disease.

Constriction, periodicity and spasmodic pains. "As if an iron band had prevented its normal movements," or "heart as if compressed, and as violently struggled to burst its bonds." Whole body feels **as if caged, each wire being twisted tighter.** It affects the circular muscles, thereby producing **constricting pains in the heart**, throat, chest, bladder, rectum, vagina, and neck.

"Fluttering and palpitation of heart, worse when walking or lying on left side." Pain and numbness in left arm accompanying heart disease. "Heart disease with swelling of left hand only." "Numbness of left arm."

Hemorrhagic remedy, favors formation of clots speedily. Hemorrhages (nose, lungs, rectum, stomach). Bloody congestions, which are in a way a counterpart of the constrictive sensations.

"Periodical attacks of suffocation with fainting, cold sweat on face and loss of pulse." Pulseless, panting and prostration. Low blood pressure from weakness of heart. Congestions, irregular distribution of blood.

Sharp pains in diaphragm and girdle pain around its attachment, with indigestion. Hot gushing into chest. Toxic

goiter with cardiac symptoms. Dropsical disorders.

Weakness and coldness of limbs. Twitching of muscles and sensation of constriction produced by touching the affected part. "Rheumatism of all joints, beginning in upper limbs." The pains are very sharp, causing the patient to cry out. "Heavy pain in vertex like a weight."

Great periodicity, neuralgic pains occur periodically. Chill at same hour every day, 11 a.m. or 11 p.m. Many symptoms are worse at night. Menses cease at night.

MIND - Melancholic, taciturn, sad, ill-humored. Sadness and melancholy. Cries, knows not why, worse from consolation. Screams with pain. Love of solitude. Weeping, without knowing why, worse consolation.

Fear that something bad will happen. Easily frightened. Fear of death. Fear of heart disease. Screams with pain. Anxiety on waking. Irresistible inclination to weep. Believes that his disease is incurable. Fears some organic lesion of heart which will cause sudden death. Easily frightened on waking.

Wishes to be alone and not to speak to anyone. Slowness, always behind hand. Impulse to do strange things. Irritability,

worse consolation. Sadness during menses. Sensitive to music, noise. Talk of others aggravates. Weeping before menses. Difficulty in expressing ideas when writing.

Delirium at night, ceases on awaking, but returning in sleep. Feels she is dying and thinks she will not live till morning, but has no fear of death. Unwilling to answer. Easily frightened, often awakes in a fright. Felt much alarmed on waking, but could not tell cause of alarm.

Abdomen - Colic with loose stool. Intense burning in abdomen. Sharp pain, shooting through diaphragm and up into chest. As if a cord was tied tighter and tighter around attachment of diaphragm, taking his breath away. Pain and bearing-down in lower abdomen.

Back - Exophthalmic goiter. Cold in back and icy cold hands. Rheumatism of the shoulder. Pain under left shoulder blade with palpitations. Lumbar muscles tender on pressure and stiff, especially on first moving after repose.

Breasts - Inflammation of breasts. Mastitis. Breast tumor.

Causations - Ill effects of sun, dampness, disappointment in love, or grief.

Chest - **Constriction**, acute pains and stitches in chest. **Constriction as if bound, hindering respiration**. Oppressed breathing as from a weight on chest. Angina pectoris with suffocation, cold sweat and an iron-band feeling. Palpitation, pain shooting down left arm. Diaphragmitis with great difficulty of breathing. Continuous rattling of mucus in chest.

Constitutions - Sanguine constitutions.

Ears - Pulsation in ears. Hearing diminished by the buzzing in the ears. Singing, ringing in ears.

Eyes - Bloodshot eyes. Exophthalmic goiter. Dimness of sight, cannot see at a distance, objects seem obscured.

Face - Face, red bloated, emaciated. Pale. **Right-sidedfacialpain, constricting** pains, returns at same hour daily (Cedr.).

Female - Constriction of vagina preventing sex, vaginismus. Constriction in uterine region and ovaries. Pulsation in ovarian region. **Dysmenorrhea**, pulsating pain in

Cactus grandiflorus uterus and ovaries. Vaginismus. Menses early, dark, pitch-like (Cocc., Mag-c.), cease on lying down, with heart symptoms. Menses lumpy, black, too soon. Painful menses, extorting loud cries. Menstrual disorders with heart symptoms.

Food - Appetite good, digestion weak. Complete loss of appetite, stomach rejects everything. Aversion to meat, of which he was fond.

Head - Headache if misses a meal (Ars., Lach., Lyc.). **Sensation as of a weight on vertex**. Right-sided pulsating pain. Headache worse by seeing opera, noise, light. Periodic pains, compressive and pulsating.

Congestive headaches, threatening a stroke. Blood vessels to the head distended. Feels as if head were compressed in a vice.

Heart - **Feels clutched and released alternately by an iron band** or feels it expand and contract, seems to turn over. **Constriction**, very acute pains and stitches in heart. Pain in apex, shooting down left arm.

Palpitations, worse lying on left side, at the approach of menses, during the day, while walking, from disappointed love. Palpitations with vertigo, dyspnea, flatulence. Pulsations increase on holding the breath.

Endocarditis with mitral insufficiency together with violent and rapid action. Murmurs, excessive pulse rate, increased precordial dullness, enlarged ventricle. Pulse feeble, irregular, quick without strength. Low blood pressure. Heart disease with edema of left hand. As if heart would fly to pieces on holding the breath. Hypertrophy. **Aneurysm of large arteries and heart**. Heart weakness and arteriosclerosis. Tobacco heart.

Kidneys - Constriction of neck of bladder, causing retention of urine. Urine suppressed in fevers. Hemorrhage from bladder. Clots of blood in urethra. Irritation in urethra. Constant urination. Hematuria, urination prevented

by clots in vagina in females. Urine passes by drops, with much burning. Profuse urine of a straw color. Urine has deposits of red sand.

Limbs - Rheumatic pains, in shoulders, upper and lower arms, in hips down to feet, worse in rest and in motion, and in all positions. Left arm numb. Pain in left arm down to fingers. Fingers tingle. Icy cold hands. Edema of left hand in heart disease and of feet, extending to knees. Hands soft, feet enlarged. Restless legs.

Liver - Engorgement of liver due to heart disease.

Lungs - Difficulty breathing. Oppression of breathing, going up stairs. Periodical attacks of suffocation with fainting, sweat on face and loss of pulse. Inflammation of diaphragm with difficulty in breathing. Chronic bronchitis with rattling of mucus. Hemoptysis with convulsive, spasmodic cough. Cough from heart disorders. Catarrhal cough with much viscid expectoration. Cyanotic infants.

Male - Prostatic affections, weight in anus.

Modalities - Better from open air. Better pressure on vertex. Worse from lying down on left side, on occiput. Worse exertion. Worse walking, and going upstairs. Worse from 11 a.m. or 11 p.m. Worse night. Worse noise, light. Worse heat, sun's rays, and damp. Worse from fasting. Worse after eating, as a weight in stomach.

Mouth - Loss of taste for food, with nausea. Tongue purple, thick, brown sordes on teeth. Prickling on point of tongue. Very offensive breath. Dryness of tongue, as if burnt.

Nose - Profuse nosebleed, but soon ceases. Fluent coryza.

Pulse - Pulse, irritable intermittent, feeble. Irregular and intermittent action after forceps delivery.

Rectum - Constipation, hard and black stool. Diarrhea, watery, mucous, bilious. Hemorrhoids, swollen and painful. Sensation of great weight in anus. Itching in the anus. Pricking as from a pin in anus, better slight friction. Fistula in anus with violent palpitation of heart. Hemorrhages from bowels in malarial fevers and with heart symptoms.

Skin - Dry, scaly herpes on the outside of the elbow and on the right internal malleolus.

Sleep - Sleeplessness, on account of strong

pulsations in different places. **Frightful dreams**, lascivious, of falling. Awakes in fright.

Stomach - After eating, weight and distress in stomach. Gastro-enteritis. **Constriction**, burning pulsation or heaviness in stomach. Vomiting of blood. Pulsation in celiac artery behind the stomach. Nausea in the morning, lasting all day. Acrid, sour fluid in stomach, which rises in throat and mouth.

Temperature - Coldness predominates, cold sweat with great anguish. Chilly, not worse by covering. Persistent **subnormal** temperature. Fever every day at same hour. Coldness in back and icy cold hands. Intermittent paroxysms about midday (11 a.m.), incomplete in their stages, accompanied by hemorrhages.

Throat - Suffocative constriction at throat with full, **throbbing carotids in angina pectoris**. Constriction of esophagus, must drink to swallow. Needs much liquid to get food down. Feeling of warmth about throat and chest. Scraping sensation at soft palate.

Vertigo - Vertigo, worse deep breathing or exertion. Vertigo from blood congestions to head.

COMMENTS - Snader considered Cact. especially indicated where the heart is weak and the arteries atheromatous. This was confirmed by a correspondent of the Hom. World (July, 1898), who, finding his temporal arteries swollen and hard to the touch took several doses of Cact. lx with the result that in a few days they became normal. Snader used the lower potencies in this condition.

A case of angina pectoris was cured by the 30c with a sensation as though a swarm of hornets were going from pectoral region to heart.

Choudhury reported a case cured, the characteristics included "Chill severe, 11 a.m., thirst, headache, body hot, no separate heat."

Heat with thirst and short breath. At times there is entire absence of sweat.

Keynote constricting pain. The chest feels tight, and keeps getting tighter as their breath

goes away. Feels like a hand has reached into the chest and grabbed the heart and is squeezing (Spig., as if a hot burning knife is being stabbed into the heart and pulled out repeatedly, with a pain shooting down the arm).

Heart attack (Lat-m.). Tendency to a heart attack with high blood pressure, chest pain, shortness of breath, with constriction. After a heart attack, with shortness of breath and tightness in the chest.

Tendency to get out of breath and get tightness in the chest (acute or chronic). In some cases, even the throat goes tight. Heart symptoms tend to the left side. Heart pathologies, regurgitation and failure of the valves, tightness and shortness of the breath, suffocated feeling, heart murmurs, palpitation, high or low blood pressure.

Neuralgia around the ribs and heart, feels as if the rib cage or the heart is wrapped with wire and someone is twisting the end of the wire and tightening the wires around the heart. Oppression of the chest (Phos.).

Constriction anywhere in the body. Constriction in the ovaries. Uterine cramps where the uterus feels constricted as if a band is wrapped around it, or as if a hand is grabbing the uterus, squeezing and letting go repeatedly.

Facial neuralgias where the face feels squeezed in together and painful, more often right (Spig., more often left). They constantly look in the mirror to see if they can actually see their face being constricted. Headaches with constricting pain, as if there's a band being tightened: Sunstroke. Many fears (Ars.), fear of death and dying.

Used as an herbal tonic for heart patients with a history of constricting pains. Used in a 30c or 200c for a person with an active heart attack. Low potencies can help to strengthen the heart.

-ELATIONS - Antidoted by: Aeon., Camph., Chin., Eup-per. **Compare:** (1) Dig., Spig., Conv., Kalm., Naja, Magn-gr. (2) Cer-b., Cer-s., Opun-v. (3) Coc-c. (4) In mental symptoms - Dig., Lach. (5) In congestions to head - Bell., Glon. (6) In pain and pressure in head - Arn., Carb-v., Cor-r., Iod., Nux-v., Op., Spig. (7) Weight in vertex - Aloe., Alum. (8) In heart affections - Aeon., Cimic., Amyl-n., Arn., Bell., Bov., Crot-h., Dig., Eup-per., Kalm., Lach., Lil-t., Naja, Puls., Spig., Zinc, (as if a cap over heart). (9) Constrictions of chest - Zinc., Kali-chl., Cadm-s., Alum., Bell., Bov., Am., Kali-n., Lach. (10) Constrictions - Stram., Murx., (uterus), Kali-c., (vagina) . ***CADMIUM BROMATUM

(Cadmium Bromide)

PHARMACY - cadm-br. Cadmium bromatum. Cadmium bromide. Trituration or solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Cancer. Diarrhea. Heartburn. Indigestion. Strokes. Throat pain. Tumors. Vomiting.

HOMEOPATHIC - Cadm-br. should be compared to Cadm-s. Three persons experimented with Cadm-br., it produced a burning sensation in mouth, gullet and stomach. Goose flesh. Diarrhea.

Clinically Cadm-br. has been used for apoplexy, threatening stroke and predisposition for strokes. Cerebral hemorrhage. Pulse, imperceptible. Throat pain. Sore throat, pain worse after swallowing.

Stomach pain after lifting. Burning pain in stomach. Burning pain as from an ulcer. Vomiting of blood. Bloody vomit. Sudden vomiting. Cancer of the bowels. Tumors.

COMMENTS - Allen stated: "I found both ladies vomiting severely and complaining of extreme pain and burning sensation in the stomach.

"Mrs. R. who also purging freely, though her daughter was not. The vomiting and purging lasted fully five hours and during a part of the time the pulse was imperceptible in either patient. After this period the symptoms ameliorated and they both fell asleep.

"For several days they were both confined to their beds and were obliged to be extremely careful as to what they took into their stomachs. Mrs. R. has since suffered with some cerebral symptoms which betoken a tendency to strokes. A severe burning sensation in the mouth, esophagus and stomach, which lasted perhaps an hour."

REFERENCES - Allen. Clarke.

***CADMIUM FLOURATA

(Cadmium Flouride)

PHARMACY - cadm-f. Cadmium flourata. Cadmium flouride. Cadmium fluoricum. **Historical dose:** Trituration and all potencies.

CLINICAL - Adenoma. Bowel, cancer. Cancer. Prostate, cancer. Rectal, cancer. Tumors.

HOMEOPATHIC - Grimmer wrote: "Cadmium flourata is a remedy that helped one case very much, a late case of cancer of the prostate. There was no question about the diagnosis, which was made by an eminent pathologist in Chicago. The patient was at the point of death.

"I sent my assistant out to see him and get a blood sample. Every test showed the presence of cancer. I never saw this patient, so I didn't report the case, but the doctor informed me there was a big pulsating mass. He could feel it through the patient's rectum and said it was undoubtedly cancer, very far advanced. He didn't think the man would live more than a few days. Nevertheless, we gave him cadmium flour.

"This man lived for a year and part of the time the function of the bladder was restored. He gave up his catheter

for quite a while and subsequently used it only occasionally. He left us because he was dissatisfied with his progress. He was an old man and had been put in much more comfort. I lost track of him after a year, but at the end of that year he was better in every way."

REFERENCES - Grimmer. Murphy.

*****CADMIUM IODATUM**

(Cadmium Iodine)

PHARMACY - cadm-i. Cadmium iodatum. Cadmium iodine. **Historical dose:** Trituration and all potencies.

CLINICAL - Anal, itching. Bowel cancer. Cachexia. **Cancer.** Constipation. Gland, cancer. **Gland, disorders.** Goiter. Emaciation. Ileus. Necrosis. Pancreatic cancer. Palpitations. Pruritis ani. Radiation, poisoning. Rectal, prolapse. Spleen, cancer. Thyroid, cancer. **Thyroid, disorders.** Tumors. Ulcerative colitis. Ulcers. Uterine, cancer.

HOMEOPATHIC - Grimmer said this remedy is a powerful anti-syphilitic as well as anti- psoric and anti-sycotic. All the Cadmiums cover the three miasms of Hahnemann.

A great remedy **for the glands**, the cervical glands of the neck, the tonsils, the thyroid, the mammary glands. The entire lymphatic system, the testicles, and the ovaries.

Cancer of the glands with emaciation. Thyroid, cancer. Bowel cancer. Pancreatic cancer. Spleen, cancer. Tumors of glands.

The liver, the spleen, and the pancreas are sooner or later involved under the influence of this remedy. Constipation. Frequent desire to stool, tenesmus. Abdomen bloated. Anal itching with constipation. Itching of anus and rectum felt during the day only.

Characteristic hatred, hates everybody and everything. Atheistic and hateful with a high degree of self-pity.

Aggravated from extreme heat, as well as from extreme cold. As a rule, the patient becomes less chilled than when under the influence of other Cadmiums due to the iodine component of the remedy.

COMMENTS - Grimmer had a patient with some of the above symptoms, together with an ulceration of the transverse colon, which cleared up, under Cadm-i. He lost his hatred, became quite human and kind, and gained greatly in weight.

REFERENCES - Grimmer.

*****CADMIUM METALLICUM**

(Cadmium Metal)

PHARMACY - cadm-met. Cadmium metallicum. Cadmium metal (At. Wt. **48**). **Historical dose:** Trituration and all potencies.

CLINICAL - Aluminum, poisoning. Anemia. Bacillary, dysentery. Backache. Blood, poisoning. **Cancers. Chemotherapy, effects.** Chlorosis. Colic. Colitis. Constipation. Coughs. Depression. Diaphragmatic, hernia. Diarrhea. Dyspepsia. Dysentery. Emaciation. Enterocolitis. **Fatigue, chronic.** Headaches. Hemorrhoids. Indigestion. **Influenza.** Liver, weakness. Lupus, erythematous. Migraines. Nausea. Pharyngitis. **Radiation, poisoning.** Tuberculosis. Vomiting.

HOMEOPATHIC - Cadmium met. comes between zinc and mercury with an atomic weight of 48. The toxicology indicates vomiting, loss of appetite, emaciation. Sneezing and coughing with profuse secretion from the respiratory and ocular mucus membranes.

Cadmium met. and other chemical combinations of cadmium have proved curative in many cases of stomach and intestinal cancer.

Many of these cases were caused by irritative actions of alumina toxin resulting from aluminum cooking utensils. The water supply of many cities and towns has been treated with aluminum fluoride, exposing the public to a potent carcinogenic agent that has the potential to activate the disease in all those with inherited tendencies to it.

Cadm-met. and Cadm-o. are the most effective antidotes against the alumina toxins.

The blood changes, anemia and the gastrointestinal tracts are especially affected by the alumina poison. When absorbed by the lungs and intestines, cadmium causes lesions on the pulmonary and digestive epithelium.

Fatigue, with lassitude like influenza, dull aching all over. State of indifference, desire to be alone, improved by appearance of a skin eruption. Anemia. Nausea and vomiting.

Diarrhea with soft stools and the sensation of a foreign body in the rectum. Sneezing, coughing, muco-purulent sputum. Sneezing with influenza and tickling at the back of the throat. Influenza-type rhino-pharyngitis.

MIND - Hypersensitive. Nervous and restlessness. Irritable. Impulsive irritability, on the verge of insanity in its violence, alternating with deep depression.

Depressive psychosis with fear of cancer (Care.). Loathing of life. Despair. Hopeless and apathetic, all joy is

gone. Averse to people. Averse to certain kinds of music. Averse to noise.

Concentration difficult. Mental exertion aggravates. Mistakes, saying and doing the wrong things. Makes simple mistakes. Weak memory. Indifference, does not want to see anyone. Apathy after influenza. Indifference to work.

Abdomen - Diaphragmatic hernia. Colitis and enterocolitis. Bacillary dysentery. Abdominal distention with pain in the region of the umbilicus and epigastrium, better by eating, bending double.

Back - Backache, pain in the scapula.

Blood - Acquired hemolytic jaundice. Anemia. Anemia and chlorosis in young girls. Infantile hereditary anemia.

Breasts - Breasts feel enlarged and sore.

Causations - Aluminum or radiation poisoning.

Chest - Constrictive pain behind the sternum, especially when coughing.

Constitutions - Pre-cancerous. Chronic infection of the reticuloendothelial system. State of psychosomatic, *post-influenza exhaustion*.

Ears - Buzzing and painfully sensitive. Old ear discharge with pain.

Eyes - Sensitive to light. Eyelids painfully sensitive and burning, worse when reading and in a hot room.

Food - Insatiable hunger, with nausea aggravated by jarring. Loss of appetite.

Head - Extreme, neuralgic headaches with maddening pressing pains throughout the head, extending to eyes and ears. Occipital headaches with vertigo, buzzing in ears, visual and psychosomatic complaints. Headaches, the pains come and go suddenly.

Headaches accompanied by nausea. Headache worse by shaking the head, movement. Headache worse reading, sustained intellectual activity, and in the morning on waking. Headaches, better by cold compresses, holding the head, and eating.

Heart - Intense squeezing pain in the region of the heart, with a sense of weakness.

Kidneys - Frequent urination.

Limbs - Numbness of the feet and hands when sitting. Paraesthesia at the limbs. Weakness. Heaviness of the limbs. Trembling of the feet and hands. Feet burning, formication.

Lungs - Difficult respiration, especially with the slightest movement. Cough with muco-purulent, sometimes blood-streaked sputum. Acute bronchial and pulmonary diseases.

Modalities - Better from eating. Better pressure. Better bending double. Better cold application, and with the appearance of an eruption. Worse in the morning. Worse from waking. Worse left side. Worse movement. Worse mental effort.

Mouth - Teeth yellow. Mouth dry, lips itching.

Nose - Sneezing.

Rectum - Constipation with hemorrhoids, aggravated by passing stool. Soft diarrhea with sensation of a foreign body in the rectum. Diarrhea of black, musty stools with intestinal pains. Constipation with clay-colored stools.

Skin - Sensation of heat or burning in small areas of the skin. Localized itching. Erythema, dry eruption, papules, vesicles. General fatigue, diminishes with the appearance of eruption on the skin. Lupus erythematosus. Tuberculosis with papules, nodules, vesicles and purpura. Sclerous lichen (isolated or grouped papules, sclerodermic in appearance). Chronic pustular dermatitis, spreading away from the center.

Sleep - Dreams of sickness, causing worry after waking. Dreams of running without reaching anywhere.

Stomach - Acrid dyspepsia. Indigestion. Odors and other unpleasant stimuli induce nausea, even thinking of them.

Temperature - Goose bumps. Shivering without fever. Cold even when near a fire. Glandular fever. Mononucleosis.

Throat - Throat dry in the morning, improved by eating.

Vertigo - Vertigo while looking at moving pictures. Vertigo with a sensation of something taking the breath away. Objects recede and return.

COMMENTS - The first proving was carried out by Burdach in 1827 with a half grain, and later by Petroz. The proving was undertaken again at the instigation of the International League of Homeopathy in 1947 and a report was created by Gutman in 1951. The proving was made on thirty-eight provers, using the 2c, 3c, 6x, 12x and 30c potencies.

In another connection, MacFarland made a proving on four female provers using the Skinner potencies, 10m and 50m. Templeton experimented on nine provers with 2c, Pahud on sixteen provers with 2c, 3c, 6x, 12x and 30x.

Violent vomiting attack with headache, alternating of heat and coldness. Some pressing pains in the liver and spleen. Vomiting of bile and acid. More frequent urination, discoloring the toilet bowl brownish or a deep lemon color, very difficult to wash from the bowl.

Hemorrhage of the bladder and rectum was cured many times by Dr. Grimmer, especially when dark-colored blood with small clots was present. Bright red hemorrhages have also been observed.

Grimmer had a case: "Severe neuralgic pains in the face with plugged sinus, followed by facial paralysis, after large doses of quinine and aspirin, cured with one dose of Cadm-met. 10,000c."

RELATIONS - Compare: (1) Cadm-s. (2) Bry. - Also aggravated by movement, constipated intensely thirsty. (3) Ars. - Agitation with anxiety, burning ameliorated by heat.

REFERENCES - Grimmer. Julian. Murphy.

***CADMIUM OXIDATUM

(Cadmium Oxidate)

PHARMACY - cadm-o. Cadmium oxidatum. Cadmium oxidate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Aluminum, poisonings. Arthritis. Asthma. Cancer. Chills. Dyspnea. Emaciation. Fever. Influenza. Neuritis.

HOMEOPATHIC - Cadm-o. is the most active of the cadmiums and has a wide range of action in chronic and intractable conditions of cancer. Useful for degenerative diseases of heart and kidneys and many forms of arthritic and nerve inflammations.

Indispensable and unequalled as an antidote to the alumina toxins which stem from the use of aluminum cooking utensils, as well as from the toxins resulting from water softeners in which aluminum chloride is used. Those who use the water treated with aluminum chloride for cooking and drinking purposes are sure to suffer from the ill effects of aluminum poisoning, and when so affected will not respond to curative remedies until this toxin is antidoted and eradicated completely from the system. This poison acts like one of the basic miasms of Hahnemann as the patient will not get well until it is entirely removed.

COMMENTS - Grimmer noted a case in which the patient suffered from chronic asthma, despite having excellent homeopathic treatment over a long period of time with only short acting palliation of the asthmatic attacks, which gradually became more intense and wearing.

The patient was greatly reduced in weight and strength with an ever-increasing dyspnea, which made him very depressed with despair of recovery. Then it was discovered that he was poisoned with chronic aluminum from using aluminum cooking ware for a long time.

A dose of Cadm-o. 30c, and later a 200c, brought quick relief which was superseded by an attack of what appeared to be the symptoms of a viral influenza.

In this condition a perfect picture of Hep. was presented. Chill, fever and copious sweat, must be covered in all stages, no relief from sweat. Hep. 30c brought complete relief of the asthma for several weeks without a break and the patient rapidly regained weight and strength.

REFERENCES - Grimmer. Murphy.

***CADMIUM SULPHURATUM

(Cadmium Sulphide)

PHARMACY - cadm-s. Cadmium sulphuratum. Cadmium sulphide. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Aluminum, poisoning. Anorexia. Aphthae. **Asthma. Blood poisoning.** Boils. **Cancers. Chemotherapy, effects.** Chilblains. Chilliness. Chloasma. Cholera. Colon, cancer. Coma. Drug, overdose. Emaciation. Erysipelas. **Facial paralysis.** Hair, loss. Herpes. Insomnia. Lead, poisoning. Liver, damage. **Nausea. Opacity, cornea. Ozaena.** Poisonings. **Polyps. Prostration. Radiation, effects. Stomach, cancer.** Stomach, disorders. Strokes. Toxic, exposure. Tympanites. U leers. Vaccinations. Vertigo. **Vomiting.** Weakness. **Yellow fever.**

HOMEOPATHIC-The major use of Cadm-s. has been as an antidote to the severe side effects of toxic cancer therapy, especially, chemotherapy and radiation treatments, which can cause weakness, emaciation, nausea, vomiting, liver damage, hair loss, anorexia and which speeds up the time of death.

Cadm-s. chief action centers on the stomach and respiration. Important gastric symptoms. Symptoms corresponding to very low forms of disease. Useful for the last stage of diseases which runs death ward. A notable anti-psoric.

Side effects of **chemotherapy and radiation treatments. Stomach cancer** with persistent nausea and vomiting. Cholera **and yellow fever**, when there **is emaciation, vomiting and extreme prostration.**

Burning and cutting pain in the stomach. Intense nausea, retching, gagging, vomiting, bringing up tough mucus. Extreme exhaustion and prostration with vomiting. Black

vomit. The least thing touching the lips will excite vomiting. Pitchy taste, food tastes like salt. Acts well in

alcoholics.

Facial paralysis from the cold winds. **Chilliness and coldness** even when near the fire. Patient must keep quiet. Lies with the head low and the hands under it. Restlessness.

Skin blue, yellow, scaly, cracking, damp, suppurating herpes, and chilblains. Formication between the skin and deep tissue. Itching of skin, at night in bed, when touched when cold, better scratching, which causes a voluptuous feeling.

Cutting pains in the joints. Starting of the limbs. Numbness of parts, nose, head etc. Paralyzed parts painful or crawling in. Weakness remaining after epileptic attacks of one arm and one leg. Weakness of affected parts with goose bumps.

MIND - Dullness of mind, unconscious. Horror of solitude and work. Apprehension at the approach of anybody. Excessive irritability. Anxiety, before stool. Effects of anxiety or fits of passion. Restlessness worse sunlight. Fear of others approaching him. Smiling in sleep. Moaning during sleep. Nervousness during headache. Anxiety. Vexation. Fits of passion aggravates symptoms in general. Unconsciousness between attacks of cough.

Abdomen - Sore, tender, tympanitic. Pain in abdomen with vomiting. Coldness. Stretching in the sides. Compressed feeling, pressure, bruised pain. Pulsation. Lancinations in the left hypochondria. Gripping in the lower bowels.

Back - Pain in muscles of neck. Back pain as from the efforts to vomit.

Breasts - Inflamed nipples. Erysipelas of the breasts.

Causations - Chemotherapy, radiation poisoning. Vaccinations. Lead or other toxic poisoning. Grief.

Chest - Chest contracted with asthma. Drawing. Feeling of dilatation or contraction. Feeling as if the lungs adhered to the chest. Swelling of the external chest. Weakness of the chest. Rheumatic pain. Painful blows. Tingling in the chest. Beating near the heart. Chest symptoms.

worse squatting.

Constitutions - Cancer miasm and toxic constitution. Broken down constitution from cancer, chemotherapy or radiation treatments.

Ears - Pressure behind the ears. Lacerating pain. Lancinating pain in ears. Abnormal hearing, alternating with abnormal vision. Sounds echo in the head. Clucking noises in the ears.

Eyes - Hollow eyes. **Opacity of cornea** from injuries or inflammation. Blue circle around eyes. Lachrymation, hot ' tears. Blepharitis. One pupil dilated the other contracted. Swelling of conjunctiva. Scrofulous inflammation of eyes. Idiopathic chronic conjunctivitis. Night blindness. Cannot read small type.

Face - Gloomy countenance. Vexed look. Grayish complexion. Drawing pain in face. **Facialparalysis**, left side, worse cold air, cannot close the eyes, difficult talking and swallowing, distortion of the mouth. Crawling sensation in the face. Trembling of lower jaw. Spasmodic motion of the upper lip. Swelling of the lips. Yellow spots on the cheeks and nose.

Food - Thirst, with heat in bed at night. Craves little drinks of cold water that are vomited at once. Nausea and vomiting after eating.

Head - Inflammation of the brain. Strokes. Heat in head. Lancinations, hammering, digging pains. Drawing pains in head. Tingling in head. Heat in head. Pulsation in the temples. Pain in the vertex. Congestion to head, with pains cutting like knives. Rolling of head, with open eyes, in cholera infantum. Inflammation of brain. Apoplexy. Herpes on temples.

Heart - Palpitation with constriction of chest.

Kidneys - Rawness and soreness in urethra. Urine mixed with pus and blood. Gripping in the region of the kidneys.

Limbs - Rheumatism. Boring and digging. Suppuration of the axillary glands. Stretching of the arms. Swelling of the arm-bones. Tension in the forearm. Gnawing in the hands. Tearing pain in the metacarpal joints. Jerking of the fingers.

Lancinations in the joints and in the toes. Numbness of the thighs. Trembling in the knee. Pressure in the knee. Tearing pain in the legs. Cramp of the calf. Pain, as if sprained. Heaviness of the feet. Chilblains.

Liver - Region of liver sore.

Lungs - Suffocation on dropping to sleep. Cough with loss of consciousness. Cough with agitation, red face, pain in the stomach or vomiting of bile. Interrupted breathing during sleep On waking, want of air.

Modalities - Better eating and rest. Worse from raising up. Worse least motion. Worse carrying burdens. Worse ascending stairs. Worse walking. Worse swallowing. Worse after sleep. Worse in morning. Worse from stimulants. Worse after intoxication. Worse from vexation. Worse in sunshine. Worse open air. Worse cold, cold air. Worse itching of skin when cold.

Mouth - Difficult swallowing. Salty, pitchy taste. Salivation. Aphthae on the lips. Stringy and offensive exudation

on mucus membrane. **Tongue, dirty brown or black.** The symptoms of the mouth are aggravated during deglutition. Salty belching.

Nose - Tightness at the root of the nose. Obstruction of the nose by swelling. Numbness of the nose. **Ozaena.** Nosebleed. **Polyps,** boils. Caries of the nose. Lacerating pain in the nose. Nostrils ulcerated. Decay of nasal bones. Ulcerative, cancerous smell.

Rectum - Clots of blood from bowels. Bloody, black and offensive stools, gelatinous, yellowish green, semi-fluid with urinary suppression.

Skin - Blue, yellow, sallow, scaly, cracking. Chloasma, yellowish stains on nose and cheeks, worse exposure to sun and wind. Itching when touched and during cold, ameliorated by scratching, which excites a voluptuous feeling. Chilblains. Goose bumps after drinking, with hot hands, heartburn.

Sleep - Sleeps with open eyes. Somnolence with broken dreams. Moaning and smiling during sleep. Nightmares. While asleep, the feet are agitated by shocks. Stops breathing on going to sleep, wakes up suffocating. Fears to go to sleep again.

Protracted sleeplessness (Care., Cocc.). Sleepiness in the forenoon. Drowsiness when sitting.

Stomach - Intense nausea with pain and cold. Burning and cutting pain with retching and gagging. Violent **nausea,** retching. **Black vomit,** like coffee grounds. Vomiting of mucus, green slime, blood, with great prostration and tenderness over the stomach. Least thing touching lips will excite nausea and vomiting. Stomach symptoms worse carrying burden, better quiet. Stomach cancer, with persistent vomiting.

Temperature - **Icy coldness** (Camph., Verat., Helo.), Goose bumps after drinking or with hot hands. Coldness, even when near the fire, with heat in the hands. Coldness after sleeping and after walking. Fever, before midnight. **Yellow fever** (Crot-h., Carb-v.). Sweat in the axilla and the palms.

Throat - Chilliness and aching. Sore throat, constant tickling, gagging and nausea, worse from deep breathing. Dysphagia. Esophagus is constricted (Bapt.).

Vertigo - Faintness on rising. Vertigo, room and bed seem to spin around.

COMMENTS - Cadmium sulphuratum is found in nature in intimate association with Zinc, which it resembles in action, but it acts more powerfully. Cadm-s. is a cross between Bry. and Ars. It has the desire to keep quiet of Bry. with the exhaustion and stomach irritability of Ars.

A major cancer remedy. Affinity for cancers of the GI tract, cancers of the esophagus, the stomach, the liver, and the colon (Cadm-met. for bone cancers, Cadm-i. for glandular cancers). Nausea and vomiting in cancer cases. For the ill effects of radiation and chemotherapy. Extreme prostration and fatigue after chemotherapy or radiation, emaciation, sunken features, cachexia.

Nausea, intensified by motion. Vomiting of acid or yellow substances. Black vomit, occurs in severe zymotic diseases. Vomit like coffee grounds. Vomiting during pregnancy, when other remedies fail. Pernicious forms of vomiting, of black blood from chronic ulcers or cancer of the

Cadmium sulphuratum stomach. Nausea and vomiting with cold perspiration bathing the face and cutting pains in the abdomen.

Ulceration of the stomach in alcoholics (Ars.). Beer aggravates the gastric complaints. Salivation, with bitter burning in the mouth and throat, fetid breath, ulcers with dryness, and burning constriction of the throat.

Characteristic coldness, all complaints are made worse from becoming cold, or from cold changes in the weather. Icy coldness even when near a fire. Goose bumps, with hot hands, or after drinking. Sweat in axilla. Effect of a drought or cold air in checking sweat.

Weakness and tiredness, accompanied by a cachectic state that stimulates the cachexia of advanced cancer cases or pernicious anemia. Increased irritability. Horror of solitude and of work.

Ozaena and polyps. Cutting, sharp pains, sense of constriction. Opacity of the cornea, loss of vision. Protracted sleeplessness, insomnia. Sleeps with eyes open, stops breathing on going to sleep. Awakens suffocating after sleep.

RELATIONS - Followed well by: Care., Bell. - rolling of head with open eyes in cholera infantum, Carb-v., Lob. inf. In cancer - Hydr., Ars. In yellow fever - Nit-ac. In nausea of pregnancy - Alet. **Compare:** (1) Cadm-ox., Cadm-br. - pain and burning in stomach and vomiting. (2) Cadm-i. - Itching of anus and rectum felt during the day only, constipation, frequent desire, tenesmus, abdomen bloated. (3) Zinc., Ars., Carb-v., Verat. (3) Zinc, but in Zinc, the action is primarily on brain in Cadm. primarily on stomach. (4) in constriction across chest with palpitations, Kali-chl. (5) weakness, nausea, vomit and burning, Ars. (6) black vomit, disorders of alcoholism, Ars., Lach, in nausea and retching. Asar., Bry., Crot-t., Cupr., Nux-v., Podo., Ant-t. in deathly nausea, Ip., Tab., greenish gelatinous vomit.

REFERENCES - Boericke. Clarke. Grimmer. Murphy.

(Nata)

PHARMACY - caesal. Caesalpinia bonducella. Nata. Fever nut. Bondue nut. N. O. Leguminosae. **Historical dose:** Tincture and all potencies.

CLINICAL-Asthma. Hemorrhage. Leprosy. Tuberculosis.

HERBAL - Nata is a well-known wild shrub of India. It grows near the sea-coast in all hot countries, the extensive distribution being due probably to the transport of the seeds by oceanic currents. It is pregnant with climbing prickly points and the shrub is commonly found all over Bengali, Bombay and practically the whole of southern India. The plant has been known for a long time to the Hindu and Mohammedan physicians to contain excellent medicinal properties.

The seeds are considered in India and Persia to be "very hot and dry" and they are found to be very useful in dispersing swellings, arresting hemorrhage and warding off infectious maladies. The seeds, roasted and powdered, are employed for hydrocele internally and externally. They are also used internally in curing leprosy. The powdered seeds mixed with black pepper are found to be febrifuge and anti- periodic and are used in chronic fevers. The fixed oil expressed from the seeds is emollient and is employed as an embrocation for the purpose of removing freckles from the face, also as a cosmetic and used also to arrest discharges from the ear. A decoction of the roasted seeds is employed against consumption and asthma.

HOMEOPATHIC - Extreme weakness is felt after the remission of fever, so much so that the patient is averse even to have any talk. There is no inclination to do any work. Always likes to sleep. Lies quit with closed eyes. No desire to leave bed.

After the remission of fever the patient feels extreme weakness, is disinclined to do any work. There is no desire to talk even. The patient likes to lie down quietly in bed with closed eyes.

The fever appears between 8 a.m. and 10 a.m. or between 2 p.m. and 4 p.m. In the afternoon fever there is no thirst, but in the morning fever there is thirst in hot stage.

The above symptoms are generally observed in intermittent fevers, but in remittent fevers of malarial origin it is also used with benefit.

MIND - Mental depression. Lack of enthusiasm.

Abdomen - there is gurgling in the lower abdomen, sometimes liquid, slimy stools are passed by the patient.

Back - Drawing pains are felt in the back after cold bath.

Eyes - Before the appearance of fever and during its invasion terrible pains are felt in the eyes as if they are burnt; they are relieved by the application of cold water; eyes are sunken and bloodless.

Fever - It is very irregular in appearance. It may come on any time; fever appears with chilliness and shivering one day and again on another day it appears in the afternoon with slight chilliness. The character of fever is changeable. It is generally felt with chilliness and shivering. Thirst is generally felt in the stage of heat; the stage of sweat lasts for a short time only, sweat breaks out over face, chest, neck, shoulder, the fever does not last more than 6 hours.

Food - Desire to take boiled rice and other hard substance and meat. Aversion to take any liquid food. No desire to take bath.

Head - During fever terrible pains are felt over both the temples of head, relieved by wrapping them up or by pressure.

Liver - The lower lobe is enlarged; before fever sometimes uneasiness in the hepatic region is felt or sometimes slight pain is felt there.

Mouth - During hot stage of the fever thirst is felt; thirst for cold water; face is flushed during fever.

Nose - Hot breath; during fever frequent and hurried respiration takes place.

Skin - Dry, dirty, blackish coloured. Small eruptions like mosquito bite appear on the skin, which disappear generally.

Spleen - Enlargement and hardness of spleen exist and it is painful to touch.

Stool - Hard, saffron colored stools. Stools are sometimes liquid and yellow coloured.

Tongue - Slight white coating on the tongue appears; bloodless white tongue; tongue is moist, but there is thirst.

REFERENCES - Ghose.

***CAFFEINE

(Coffee Alkaloid)

PHARMACY -caffé. Caffeine. Alkaloid of Cof- fee arabica. Coffine. Trituration of the alkaloid and also of the Citrate of caffeine. **Historical dose:** Trituration and all potencies.

CLINICAL - Anxiety. Brachialgia. **Diuresis.** Dizziness. **Headaches.** **Insomnia.** **Nervousness.** Neuralgias. **Polyuria.** Pulmonary edema. Restlessness. Trembling.

HOMEOPATHIC - A crystalline alkaloid, it is a direct heart stimulant and diuretic. One of the best stimulants of the vaso-motor centers. Dropsy depending on cardiac insufficiency. Cardiac insufficiency in pneumonia and other infectious diseases. Myocardial degeneration.

Caffeine raises the blood pressure, increases pulse rate and stimulates the heart muscle, hence a support in extreme feebleness or threatened failure. Stimulates the respiratory center, nerve centers and **increases diuresis**. Acute pulmonary edema. Brachialgia and other neuralgias characterized by **nightly aggravations**.

COMMENTS - A proving has been made with this alkaloid, but has brought out no symptoms not included in the pathogenesis of Coff. Marked pulsation of the arteries on the head and temples. Sparks before eyes, roaring in the ears. Vomiting with relief of all symptoms.

The Citrate of caffeine, which is used in allopathic practice, has occasioned dangerous poisonous symptoms in a number of cases. The most characteristic include restlessness and dizziness, inability to keep erect. Palpitations. Violent precordial anxiety. Very rapid pulse.

Abdominal pulsation. Violent trembling of all the limbs. Grating of the teeth. Features expressive of great anxiety. Constriction of the neck and throat, recurring periodically every fifteen minutes.

RELATIONS - Compare: (1) Aeon., Cham., Coffea, Nux-v, Cypr. (2) Caffeine and plants containing it, as Cacao, Kola, Thea, etc.

REFERENCES - Boericke. Clarke.

***CAINCA RACEMOSA

(Brazilian Chiococca)

PHARMACY - cain. Cainca racemosa. Brazilian chiococca. Chiococca densifolia. Chiococca racemosa. N. O. Rubiaceae. Brazil. Tincture of dried root bark. **Historical dose:** Tincture and all potencies.

CLINICAL - Albuminuria. Ascites. Bright's disease. Cough. Dropsy. Dyspnea. **Fatigue**. Kidney, pain. Nephritis. Ophthalmia. Polyuria. Spleen, pain. Traveling, effects. Weakness.

HOMEOPATHIC - Cainca is related botanically to Chin., Ip., and Coff. Clinically, it is very like Apoc. Marked urinary symptoms. It has been given with success in dropsies, especially when associated with dry skin.

General fatigue and weakness. It removes fatigue from riding on horseback too long. Much weakness after dinner, so as to make him lie down. Abdomen sensitive to the touch. Albuminuria with dyspnea on lying down at night. Ascites and anasarca with dry skin. Polyuria while traveling. Slight uneasiness.

MIND - Feeling of anxiety with increased warmth of the lower abdomen.

Abdomen - Stitches in and through the ; spleen. Warmth about the umbilicus. Fullness, inflation and uncomfortable feeling in the abdomen. After eating, perceptible pulsation of abdominal aorta during rest. Gurgling and rumbling in the abdomen and bowels. Slight colic with borborygmi. Cutting pains in abdomen before evacuation of the bowels. Pain under the umbilicus with desire to go to stool.

Back - Pain in region of kidneys, better lying bent backward.

Chest - Constriction and pressure on chest. Peculiar shooting and beating pain over the trunk. Dartings in the right side of thorax. Piercing pain in the middle part of the right side of the chest. Pricking pain in the lower third of the right side of the chest, with feeling of weight.

Ears - Intolerable hissing in the ears. Roaring and buzzing, as if from a swarm of insects in the air.

Eyes - Burning in the eyes. Increased sensibility of the eyes. Photophobia. Edema of left upper or right lower eyelid. Pressure in the eyeballs from above downwards and from below upwards. Sensation as if the eyeballs were pressed upwards, with troubled vision for five minutes, returning after half an hour.

Face - Heat of the face.

Food - Appetite good in the evening. Absence of appetite. Less appetite than usual for dinner. Thirst.

Head - Very violent headache. Severe headache, particularly in the occiput, forbidding reading and every intellectual exertion. Heaviness of the head. Heaviness, pressure and uneasiness of front of head. Piercing pain in right temple. Pressure in the sinciput. Darting pains in right half of sinciput. Feeling of weight and pressure in occiput.

Kidneys - Constant desire to urinate. Polyuria while traveling. Urine fiery. Burning pain in urethra, especially glandular portion.

Limbs - Pricking pain in left hand. Stretching of lower limbs. Heaviness of the lower limbs. Feeling of lassitude in soles of feet. Constant pressure in the lower third of the under part of right foot. Acute pricking under nail of great toe.

Lungs - Tickling cough with tough, greenish-gray expectoration, waking him at 3 a.m.

Male - Drawing in of testicles and spermatic cord. Pain worse during passage of pungent-smelling urine. Horridly excited sexual impulses. Fearful, lascivious dreams with erections, restlessness, awakened by an emission.

Modalities - Better in evening. Better rest. Better after diarrhea. Worse from motion. Worse ascending stairs. Worse from waking. Worse in the morning. Worse siesta. Worse from 4 p.m. to 6 p.m.

Mouth - Offensive smelling breath. Considerable salivation, or saliva no longer seemed to be secreted. Perverted taste, the whole mouth bitter. Mucous, insipid taste. Drug tasted like apple-wine, first sweetish, then bitter and burning. In the evening, tearing pains in the teeth of the upper jaw.

Nose - Violent catarrh of thin mucus, excoriating the nose, especially in the daytime.

Rectum - Frequent calls to stool with escape of nothing but air. Burning at the anus. Tickling in the anus, obliging him to scratch frequently.

Sleep - Yawning with stretching of limbs. Sleepiness in morning. Desire to sleep. Sleepless during the whole night. Restless sleep, with lascivious dreams. Somnolence.

Stomach - Dryness of the throat, trembling of the hands. Belchings, as after small doses of tartar emetic. Much tasteless belching. Nausea and vomiting. Violent vomiting from three spoonfuls. Vomiting and slight shivering, for half an hour. Feeling of cold in the epigastric region.

Temperature - Heightened temperature of the body. Warmth all over. Moist skin, sweating even when at rest. Perspiring more easily than usual, particularly in the evening.

Throat - Voice hoarse and hollow. Ulcers in the throat to the Eustachian tube. Distressing dryness in throat. Obligated to hawk often from irritation of the throat. Burning and grating pain in throat. Scraping in throat, forcing him to cough. Rawness of throat, with taste like that of pepper. Dry, burning heat in the pharynx, at first with sensation as if from pepper. Feeling of itchiness and scraping. Dysphagia. Cold feeling down the esophagus.

Tongue - Tongue coated with mucus. Tongue exceedingly dry with a white and very dark coating. Tongue furred white.

Vertigo - Symptoms of giddiness and sickness. Giddiness, with vomiting, or on going up stairs.

RELATIONS - Antidoted by: Colch., Rhus- t. (gastralgia), Verat. Cainca follows well: Ars. **Compare:** (1) Apocynum, Ars., Bry. (2) Similar to Coffea in relieving effects of fatigue, also Am.

REFERENCES - Boericke. Clarke.

***CAJUPUTUM OLEUM

(Cajuput Oil)

PHARMACY - caj. Cajuputum oleum. Cajuput Oil. Oleum cajuputi. Oleum wittnebianum. Melaleuca leucadendron. White Tea Tree. Weeping Paperbark. N. O. Myrtaceae. Solution of the oil in rectified Spirit.

Historical dose: Tincture and all potencies.

CLINICAL - Cholera. Colic. Coughing. Deafness. Diarrhea. Dropsy. Dyspnea. Epilepsy. Emptions. Esophagus, stricture. **Flatulence.** Gout. Headaches. Heartburn. Hiccoughs. Hysteria. Menstruation, disorders. Paralysis. Rheumatism. Tongue, disorders. Toothaches. Urinary, disorders. Vertigo.

HERBAL - Cajuput oil distilled in water from the leaves of Melaleuca leucadendron. Cajuput Oil acts like Cloves Oil, it has a reputation as a local application in rheumatism and also in cases of dysmenorrhea. Cajuput has cured obstinate hiccoughs from the slightest provocation, talking, laughing, eating or any motion. Symptoms appear and then disappear suddenly, come at 5 a.m., disappear on eating. Many symptoms are worse at night. Smoking causes desire to vomit.

HOMEOPATHIC-The homeopathic proving of Caj. showed a characteristic **sensation of enlargement.** A feeling of being too large all over, as if head as large as half a bushel. Feeling as though could not get himself together (Bapt.), could not get his clothes for a time, though they were quite near.

Nervous symptoms, some reflected from the female sexual organs. Persistent choking sensation of hysteria, nervous dyspnea, nervous distention of the bowels. Earache and face ache, the lobe of the ear is red, alae nasal turn red, nose appears swollen.

Neuralgic affections, not inflammatory.

Flatulence and disorders of the tongue. Gout. Nervous dyspnea. Copious perspiration. A measles-like eruption with intense itching. Sensations as if poisoned. As if the arms were tied to the body, heavy, useless. Numb feeling all over.

MIND - Feeling as if he did not want any one to speak. Feel sad and downhearted, as if could cry. Want to walk in a slow and very dignified manner and prefer to walk alone. Can't think of anything, ideas come slow. Can't bear to do any work or study. Feels stupefied and completely intoxicated all the afternoon.

Abdomen - Flatulent colic, tympanites (Tereb.). Nervous distention of the bowels. Gripping pain in the bowels on riding. Spasmodic cholera.

Chest - Sharp, steady pain. Soreness. Pain across the chest, in the right lung.

Ears - The lobes of the ears are red and the upper portion remains natural.

Face - Sensation of burning in the face. Yellow appearance, feels puffy, rough to the touch. Can't hurt the skin

of the face by pinching it. Pain through the left malar bone. Stiff, dry feeling in the jaws, with neuralgic pains in the malar bones and severe headache all over the head, on waking at 5 a.m. Prosopalgia with the severe headache.

Food - No appetite or thirst. Good appetite, can eat anything, but feels unnatural when eating, the eating seems to be performed mechanically

Head - Feels much enlarged. As if he could not get himself together (Bapt.).

Kidneys - Urine smells badly, like cat's urine. Urine diminished in quantity and has a milky, light-colored appearance.

Limbs - Joints feel enlarged with some pain. Sensation in the arms as if they were tied to the body. Arms feel tired and heavy. Weakness and aching pain in both knees.

Lungs - Severe coughing and strangulation. Coughing almost makes one vomit.

Male - Erections with great desire for an embrace. Erections all night, in the morning, without the least sexual desire. Penis shriveled and shrunk. Loss of sexual

Cajuputum oleum desire (Sep.).

Modalities - Better in open air. Better from pressure. Better lying down. Worse at night. Worse about 5 a.m. Worse from bending forward. Worse riding. Worse itching, and scratching.

Mouth - **Spasmodic stricture of esophagus.** Persistent sensation of choking. Constricted sensation on swallowing solid food. Much water in the mouth, wants to spit a great deal. Profuse flow of saliva. Constant inclination to spit and hawk up large quantities of tough white mucus, can feel drawn through the sinuses. Cool and not unpleasant sensation in the mouth and pharynx. Taste in the mouth of lye. Salty taste after intense thirst. Acrid taste in the pharynx and esophagus for a few minutes. Speech thick and slow.

Nose - Nose is most prominent.

Rectum - Diarrhea, watery, yellowish. Diarrhea by day. and worse by night, bowels moved often.

Skin - An eruption as thick as measles, all over the arms and body. Intense itching, aggravated by scratching.

Sleep - Tired and sleepy. Amorous dreams without emissions. In dreams, felt disposed to swear and act rowdy.

Stomach - **Hiccough**, on slightest provocation.

Temperature - Feels cold, cold sweat all over the body. Profuse and weakening sweat.

Throat - Burning in the throat down to the stomach. Burning in the lower part of the pharynx. Burning in the esophagus, as if there was lye in it. Can hardly swallow. Esophagus feels sore. Voice hoarse, as if taken cold.

Tongue - Tongue moist, looks white and rough, like a calf's tongue, feels as if it were scalded and as if the skin would peel off. **Tongue feels swollen**, fills whole mouth.

COMMENTS - The pro vers of Caj. experienced a "Feeling as if I did not want any one to speak to me" (after twenty-four hours). Did not want to be spoken to, particularly from men. Felt better in the society of ladies, "can laugh and make free with the women (am naturally bashful)," (after two hours).

"Feel sad and down-hearted, as if I could cry (after two hours). I do not want any one to speak to me, nevertheless

I like to be where I can see persons and hear their talk. Can't bear to look inside the books I usually study, can think of a thousand things in a minute (one hour after first dose, second day).

"Want to walk in a slow and very dignified manner and prefer to walk alone (one hour second dose, second day). Can't think of anything, ideas come slow, can't bear to do any work or study (one hour after second dose, second day). Can't think of study (eight day). Felt stupefied and completely intoxicated all the afternoon (after second dose, fifth day)."

RELATIONS - **Compare:** (1) Bov. - swollen sensations. Plantago - earache toothache. Colch. - gout and rheumatism. (2) Aeon. and Bell. - effects of checked sweat. (3) Bapt.. Nux-m., Asaf., Ign., Eucal.. (4) Eugeniacyo- phyllacea (cloves), Eugenia jambos and the Brazil-nut tree belong to the same order.

*****CALADIUM SEGUINUM**

(American Arum)

PHARMACY - calad. Caladiurp seguinum. American arum. Arum seguinum. Dumb cane. Dieffenbachia seguine. N. O. Araceae. South America. Tincture of whole fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - **Asthma.** Dropsical, swellings. Gonorrhea. Impotence. Masturbation. Mosquito. bites. Nymphomania. **Itching. Pruritus, vulvae.** Spermatorrhea. Threadworms. **Tobacco, habit. Tobacco, poisoning. Typhoid.** Typhus. Worms.

HOMEOPATHIC - Like the other Arums, Caladium has an intensely irritating effect on the mucus membranes

and skin and produces many burning sensations. Caladium seems to lessen *ihcravingfortobacco*. Mosquito bites that itch and burn intensely.

Marked action on the genital organs and itching of this **region. Itching of the vagina. Pruritus vulvae** in females, which may sometimes be due to thread worms finding their way into vagina inducing masturbation and sometimes nymphomania.

Lascivious thoughts in men, but impotent. Masturbation and its results. Nocturnal emissions occurring either without dreams or with non-sexual **dreams. Spermatorrhea**. The glans penis is flabby from masturbation. Prepuce, if drawn back, remains so from loss of contractility.

Dryness of parts, which are usually moist. Coldness of single parts and inclination to lie down, with aggravation on lying on left side. Great desire to lie down and aversion to motion, but if he makes the effort he is strong enough.

Asthma, alternating with itching rash. Asthmatic complaints. Catarrhal asthma, mucus not readily raised, but giving relief when it comes up. Tobacco heart.

Fever with drowsiness. Sweet odor of sweat. Attacks like fainting after writing and thinking, when lying down or when rising. Unable to walk with closed eyes. **Dread from motion**. Slightest noise startles from sleep.

MIND - Refuses to take medicine. Very careful about health. Fear of catching disease. Afraid of his own shadow. Forgetfulness. Foolish boldness. Nervous excitation. Restless, cannot control himself after smoking. Nervous and craves tobacco.

Abdomen - Sensation as of a long worm writhing in transverse colon.

Causations - Gonorrhea. Masturbation. Tobacco habit, poisoning.

Constitutions - Suited to persons of lax, phlegmatic temperament.

Ears - Sensitive to noise. Slightest noise starts from sleep.

Eyes - Eyes are closed, even while walking in open air.

Face - Sensation as of a cobweb or crawling.

Female - **Itching of vulva and vagina** (Ambr., Kreos.). Itching from pinworms or with pregnancy. Voluptuousness. Itching leading to masturbation, with burning. Cramp pains in uterus at night. Sexual weakness or neurasthenia.

Food - Eats without hunger and drinks without thirst. Thirstless for days. **Craving for tobacco**.

Head - Headaches and mental states of smokers. Very forgetful, does not know about the occurrence of things. Confused headache with pain in shoulder, pressure in eyes and forehead, extremely sensitive to noise, throbbing in ear. Numbness in side of head.

Heart - **Tobacco heart**. Heart weakness.

Kidneys - Urine offensive, scanty.

Limbs - Weak, cannot get out of bed. Hands numb. Cannot walk or stand with closed eyes.

Lungs - Catarrhal asthma, mucus not readily raised, but better expectoration. Hard cough with asthma. Impeded breathing. Sighing respiration. Larynx seems constricted. Fear of going to sleep. Lung cancer.

Male - Erections when half-asleep, cease when fully awake. **Impotency**, relaxation of penis during excitement. Impotency after gonorrhea, with mental depression. **Spermatorrhea**. No emission and no orgasm during embrace. Atonic pollution. Prepuce retracted after sex. **Pruritus**. Organs seem larger, puffed, relaxed, flaccid, sweaty. Genitals cold (Agn.). Thick skin of scrotum. Glans very red, like a rag.

Modalities - Better after sweat. Better after sleeping in the daytime, short nap. Better cold air. Worse from sudden noises. Worse sexual excess. Worse tobacco smoking. Worse motion. Worse falling asleep. Worse lying on left side. Worse warmth. Aversion to cold water, but bathing with cold water improves itching.

Mouth - Food eaten seems too dry, must drink to swallow. Milk tastes sour. Red, dry stripe down center of tongue, widening towards tip. Saliva like egg white.

Nose - Discharge of bloody mucus on blowing nose.

Skin - Itching rash alternates with asthma. **Burning sensation**. Erysipelatous inflammation. Sweet sweat that attracts flies. Insect bites burn and itch intensely. Feels rough and dry. Burning in spots, must touch the part, but cannot scratch them.

Sleep - Groans and moans anxiously, loudly in sleep. Vivid dreams.

Stomach - Belchings. **Stomach feels full of dry food** with asthma. **Fluttering sensation**. Burning in the stomach, worse deep breathing, taking tea or chocolate. Gnawing in orifice of stomach, which prevents deep breathing and belchings. Acrid vomiting. Thirstless, tolerates only warm drinks.

Temperature - Cold single parts, feet. Sweat of sweetish odor, attracting flies. Low fevers. Falls asleep during fever, wakes up when it stops.

Vertigo - Vertigo, as if rocked, worse closing eyes and lying down.

COMMENTS - Tobacco heart, tobacco craving, tobacco addiction. Some results for lessening addiction, but often difficult case management. Caladium will lessen the cravings and help with the withdrawal (Lob., Nicot., Fumeris Tabacum). Treatment can cause nausea when smoking, or the patient can develop an allergy to tobacco smoke.

Asthma and emphysema from cigarette smoking. Lung cancer with a history of cigarette smoking. Constriction of the peripheral blood vessels causes coldness of the limbs, weakness of the heart, blood pressure problems. Motion sickness.

H. N. Martin gave a picture: "Caladium is similar to Lycopodium, the patient wants to lie down always. Better from sweat, opposite of Merc., and better after short sleep, opposite of Lach. Perspiration attracts flies. Genitals relaxed and perspire. Patient afraid to go to sleep and doesn't know why. Itching of vulva with burning."

RELATIONS - Compare: (1) Caps., Phos., Caust., Sei., Lyc. (2) Ikshugandha - sexual weakness, emissions, prostatic enlargement. **Incompatible:** Arum triph. **Complementary:** Nit-ac.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CALCAREA ACETICA

(Calcium Acetate)

PHARMACY - calc-acet. Calcarea acética. Calcium acetate. Tincture. **Historical dose:** Trituration and all potencies.

CLINICAL - Anus, itching. Bronchitis. Cancer, pains. **Coughs.** Dysmenorrhea. Dyspnea. Headaches. Migraine. Vertigo.

HOMEOPATHIC - Calcarea acética was one the first of the lime preparations proved by Hahnemann. The symptoms of Calc-acet. are generally identical with those of Calc., both are prepared from oyster shells and are included in the pathogenesis of that medicine.

Calc-acet. has had brilliant clinical results in inflammations of mucus membranes characterized by **membranous exudation**, otherwise its action and application is like the carbonate.

Cancer pains. Stupefying, pressive pains in the forehead with compression of the whole head. Dulling of the senses while reading, obliged to stop reading.

MI.ND - Anxieties and worries. Confusion of the mind.

Chest - Constrictive, anxious sensation in chest.

Eyes - Senses obscure while reading.

Female - Membranous dysmenorrhea (Bor.).

Head - Migraine with great coldness in head and sour taste. Frontal headache, stupefying, pressing pain. Head feels compressed.

Lungs - Violent spasmodic cough. Rattling expiration. **Loose cough with expectoration of large pieces** like casts of bronchial tubes. Difficult breathing, better bending shoulders backward.

Rectum - Severe itching of the anus. Profuse, painless, not exhausting diarrhea.

Stomach - Sour, offensive belchings.

Vertigo - Vertigo when walking in the open air.

COMMENTS - Allen's Handbook mentions that Calc-acet. cured some cases of membranous dysmenorrhea and also cases of violent spasmodic cough ending in the expulsion of casts of bronchial tubes (Calc.).

It has been used in the excruciating pains of open cancer (Calc-ox.).

Clotar Muller cured many cases of megrim with Calc-acet. The indications he relied on were "Sour taste in mouth, sour belchings, sensation of coldness in the head and of emptiness. Head pain one-sided, affecting the right eye, which was red, causing lachrymation."

RELATIONS - Compare: (1) Calc., Brom., Bor. (2) also Calc-oxal. in excruciating pains of open cancer.

REFERENCES - Boericke. Clarke.

***CALCAREA ARSENICOSA

(Calcium Arsenite)

PHARMACY - calc-ar. Calcarea arsenicosa. Calcium arsenite. Tricalcic arsenite of lime. Diarsenite. Trituration.

Historical dose: Trituration and all.

CLINICAL - Acidity. **Albuminuria. Alcoholism.** Anemia. Anger. Ascarides. Asthma. Belching. **Cancer. Chilliness.** Cholera. Cirrhosis. Colic. Constipation. Delusions. Diarrhea. Dropsy. Embolus. **Epilepsy.** Gastric, ulcer. Headaches. **Heart, disease.** Heartburn. Indigestion. Intermittent fever. Kidneys, disorders. Leucorrhea. Liver, disorders. Malaria. **Nephritis.** Obesity. **Palpitations. Pancreas, cancer. Pancreas, disorders.** Proteinuria. Spleen, disorders. Stroke. Tuberculosis. Tumors. Typhoid. Vertigo.

HOMEOPATHIC - Calcarea Arsenicosa was prepared and proved by Hering in the 4c dilution in 1848.

According to P. C. Majumdar, it is the most efficient remedy in the infantile enlarged liver and spleen of India. In albuminuria cases, there is great sensitiveness of the kidney region. Cholera with impeded respiration from heart embolism.

Epilepsy with rush of blood to the head before attack, aura felt in region of heart, flying sensation. Epilepsy with heart disease. Flying sensation or swimming sensation, as if feet did not touch the ground.

Affections of spleen and mesenteric glands. **Nephritis** with great sensitiveness in kidney region. Dyspnea with feeble heart.

Hemoglobin and red corpuscles are low. Chronic malaria.

Fleshy women at menopause with **slightest emotion causing palpitations**. Children with enlarged liver and spleen. Complaints of alcoholics after abstaining (Carbn-s.). **Chilliness**.

MIND - Great mental depression. Depression and anger. **Anxiety about future**. Desire for company. Confusion of mind. **Dullness of mind**, unable to digest any subject. Unable to attend any business on account of headache. **Restlessness after midnight, 3 a.m.** Delirium in evening in the dark.

Delusions and illusions. Wonderful visions passing before eyes, often an indescribable feeling of health, "as if in heaven." It seems to be a great many different things but lasts only a second, it passes like lightning, but is infinitely much.

Abdomen - Colic with looseness of bowels. Very painful shooting, cutting pains across abdomen going from right to left. **Pancreatic diseases**, with albuminuria. Relieves burning pain in cancer. **Burning pain in cancer of pancreas**. Sensation as if diarrhea would appear, soon after colicky pain around navel with pressure downward. Sensation as if a hernia would be forced out. Swollen inguinal glands with tearing pain in legs.

Back - Pain and stiffness near nape of neck. Stiffness of neck with headache, on waking in morning. Violent backache, throbbing, drives out of bed. **Violent pain between shoulders and sacrum**. Frequent shooting pain in lumbar region. Backache during pregnancy. Backache extends to lower limbs.

Chest - Burning heat in chest. Chest feels as if beaten. Sneezing with jerking, shooting pain near left side of sternum, region of 4th and 5th ribs. Dull pressure on chest with roughness of throat.

Constitutions - Suited to lymphatic, scrofulous and tuberculosis constitutions. Overweight women, approaching menopause. Obese persons. Complaints of alcoholics after leaving off alcohol.

Eyes - Blue rings around eyes. Violent pain in right eye and above it. Letters seem to run together.

Face - Face swollen, especially about eyes with albuminuria. **Paleface and blue rings under eyes with palpitations**. Tearing pain in upper and lower jaw. Face hot during palpitations.

Female - Amenorrhea. **Scanty menses**. Bearing down pain and uterine prolapse. Bearing down pain during pregnancy. Prolapsed vagina during pregnancy. Albuminuria during pregnancy. Offensive, bloody leucorrhea. Cancer of uterus. Burning pain in uterus and vagina.

Food - No appetite, can only enjoy soup. Thirst for cold water. **Desire for soup. Desire for wine or other spirituous drinks**. Worse after slightest error in diet. **Worse eating which often causes eructations and vomiting**. Worse after drinking wine. Worse after sweet potatoes.

Head - Headache causes feeling of lameness in whole body. **Congestion to head before epileptic attack**. Dull, stupefying pain. Rush of blood to the head with vertigo. Weekly headaches. **Headaches better lying on painful side**. Headache, goes to side not lain upon. Headache with palpitations, increase and decrease together. Headache worse after slightest error in diet. Benumbing headache, mostly around ears. Sharp pain in forehead. Burning pain in head, first left then right side. Swelling of temples. Head hot, in albuminuria.

Heart - Attacks of pains in heart, and fear of suffocating. Constriction of heart like a rush of blood to left chest, with palpitations and urging to stool. **Constriction of heart before an epileptic attack**. Constriction and pain in region of heart, suffocating feeling. Palpitations and heart pains before epileptic attack. **Palpitations with oppression of chest, disturbing sleep**. Palpitations, oppression, throbbing and pain in back extending to arms. **Pains in region of heart and fearful palpitations**. Beat of heart very strong in albuminuria. Pulse intermittent, every fourth beat regularly.

Kidneys - Burning pain with scanty urine. Nephritis. **Albuminuria and dropsy**. Passes urine every hour. **Kidney region**

sensitive to pressure. Soreness in region of kidneys from drinking wine, with scanty, burning, albuminous urine. Urine containing very much protein.

Limbs - **Edema of lower limbs with albuminuria**. Inflammation of veins of lower limbs. Weariness and lameness of lower limbs. **Pains in upper limbs before epileptic attack**. Pain in left hand and arm before epileptic fit. Cold hands and fainting after pain in spermatic cords. Heat of hands before palpitations. **Back of hands edematous with albuminuria**. Feet feel as if heavy. Neuralgic pain in left knee. Tearing pain in legs, with swelling in groin.

Liver - Enlarged liver and spleen in chronic malaria in children.

Lungs - Dyspnea and feeble heart. Burning heat in lungs. Feeling as if he would suffocate with palpitations. Asthma. Every night an attack of difficult breathing. Shaking cough of whole chest, caused by a tickling in upper part of throat. Copious hawking of tough white phlegm.

Male - After drinking wine, pain in groins and in spermatic cords.

Modalities - Better rest. Better open air. Better mental exertion but worse after. Worse from slight exertion. Worse errors in diet. Worse cold air. Worse menopause. It is a chilly medicine, the symptoms being worse in cold weather, worse when out of doors.

Mouth - Copious saliva. **Salivation with tasteless belching.** Garlicky taste in mouth when swallowing. Flat unpleasant taste, sometimes metallic, sometimes alkaline. Sour taste. **Itching on upper lip.** Lips dry with albuminuria. Burning on tip of tongue. **Tongue dry with albuminuria.** Pains in decayed molars, extending to ears, recurring weekly.

Nose - Sneezing with fluent coryza in morning. Running catarrh at 3 a.m. with restlessness, sweat and sleeplessness. Catarrh in head before breakfast with spitting of mucus, which falls down from choanae. No phlegm through nose, only from choanae. Crusts in choanae.

Perspiration - Sweats at night, worse after 3 a.m.

Rectum - Burning during stool. Urging to stool with palpitations and oppression of chest. Diarrhea after midnight. Diarrhea, worse sweet potatoes or yams. Infantile diarrhea. Loose stools and colic. Loose stools during pregnancy. Stool with ascarides. Stool with itching at anus from evening until midnight. Stool tardy, but not hard. Hard and difficult stool for months.

Sleep - Drowsy and weary, with sensation of fullness under short ribs. Desire to sleep in middle of day, with heavy legs. Very restless sleep at night, disturbed by headache and palpitations. Turns from one side to another. Rolls about all night, sleeps and wakes, with asthma. After 3 a.m., sleepless, restless and perspiring. Dreams of people he had not seen for years.

Stomach - Anxiety in stomach. Acidity of stomach. Burning heat in stomach. Belching with saliva and beating of heart. Pressing pain as if to belch, ending with a sudden beat of heart. Food seems to lie in stomach without digesting. Sensation as if stomach was expanded, during fever. Digging pain in pit. Nausea when sitting down. Waterbrash with sour taste.

Temperature - Marked malaria. Chilly. Chills crawl over back towards arm and chest. Fever in afternoon, with sensation as if abdomen was puffed up. Fever with much thirst for cold water and loss of appetite in evening. Heat in chest during palpitations.

Throat - Sore throat with sour taste in mouth. Dryness in pit of throat with roughness of voice. Scratchy sensation in throat. Sensation as if a scab was in upper part of throat. Burning in esophagus as from pepper. Burning in throat after belching, with garlicky taste when swallowing. Pressing pain in throat with sour taste and waterbrash. **Loses voice and afterwards consciousness, before an epileptic attack.** Drawing as with a thread from larynx backwards.

Vertigo - Vertigo before epilepsy. Vertigo when moving head. Violent rush of blood to head with vertigo. Flying sensation or swimming sensation, as if feet didn't touch ground.

COMMENTS - Calc-ar. is a synthetic remedy that combines a Calcarea person with Arsenicum mentals and burning pains.

Great affinity for the pancreas. Pancreatitis and pancreatic cancer (Hydr., Con., Phos.). Burning in the solar plexus. Liver and spleen somewhat enlarged. Nephritis. Alcoholism.

Vertigo when moving the head. Flying or swimming sensation, as if feet did not touch the ground. Sudden, fleeting visions. Rush of blood to head before an epileptic attack. Epilepsy with heart disease.

Headaches move from front of head to back, worse mornings, going out of doors. Worse on aspect opposite to the one lain on, whether front or back or either side. Weight on vertex, later on occiput.

Well-marked fever symptoms, intermittent, remittent. Hectic fever and masked malaria. Marked chilliness, originates inwardly with a sensation as if skin and adjoining parts were hot. Chilly cramps over back towards arms and chest. Night sweat after 3 a.m.

RELATIONS - Antidoted by: Carb-v. (palpitations), Glon. (headache), Puls. - headache, tearing pains in the face. **Compare:** (1) Lith. - mental symptoms, palpitations. (2) Graph. - obesity. (3) Glon., Puls., Sep. (4) Sulph. - headache. (5) Ars. - alcohol drinking., Nux- v. - desire for wine. (6) Kali-i., Phos. - gastric ulcer. (7) Ars., Ip. - asthma. (8) Carb-v., Dig., Glon. and Lith-c. - heart. **Compatible:** Con., Glon., Op.. Puls. Acts well in: Cases which have been heavily dosed with Quinine.

REFERENCES - Boericke. Clarke. Murphy.

***CALCAREA BROMATA

(Calcium Bromide)

PHARMACY - calc-br. Calcareo bromata. Calcium bromide. **Historical dose:** Trituration and all potencies.

CLINICAL - Brain, congestion. Diarrhea. Fretfulness. Insomnia. Irritability. Sleeplessness. Vomiting.

HOMEOPATHIC - Calc-br. is an unproved remedy, recommended by Hale for a variety of children's complaints. Suited to children who are of lax tissue, lymphatic, nervous and irritable.

Calc-br. is for children that are nervous and irritable with gastric and cerebral irritation. **Tendency to brain diseases.** Insomnia and cerebral congestion. Vomiting and diarrhea. Fretfulness. It removes inflammatory products from uterus.

Constitutions - Both Bromine and Calcareo are suited to fair-haired and fat children, the combination appears to intensify the effect.

RELATIONS - Compare: (l) Bell., Aeth., Calc., Care., Brom., Kali-br.

REFERENCES-Clarke.

***CALCAREA CARBONICA

(Calcium Carbonate)

PHARMACY - calc. Calcareo carbónica. Calcium carbonate. Calcareo ostrearum. Conchae praeparatae. Impure carbonate of lime. Including symptoms of Calcareo acética and Calcareo ostrearum. A trituration of the middle layer of oyster shells. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL- Abdomen, large. **Abscesses.** Acidity. Alcohol, effects. Anemia. Ankles, weak. **Arthritis.** Beard, sycosis. Birthmarks. **Bone, diseases.** Breast-feeding, defective. Breasts, swollen. Decay, bones. Cataract. Chilblains. Colds. Coryza. Coughs. Coxalgia. Cracks. **Cramps.** Croup. Crusta lactea. Debility. Delirium **tiemens. Dentition. Diabetes.** Diarrhea. Dropsy. Dyspepsia. Ear, disorders. **Epilepsy.** Epulis. Eye, disorders. Fever, intermittent. Fistula. Gallstones. Glandular swellings. Gleet.

Goiter. Gonorrhea. Gout. Headaches. Hernia. Herpes. Hydrocephalus. Hysteria. Impotence. Insomnia. **Joints disorders.** Kidney, colic. Leucocythemia. Leucorrhea. Lupus. **Malnutrition.** Melancholy. Menstrual, disorders. Milk-fever. Miscarriages. Muscles, pain. Neuralgias. **Nightmares. Obesity.** Osteomyelitis. **Osteoporosis.** Paralysis. Parotiditis. Peritonitis. Perspiration. Plethora. **Polyps.** Prosopalgia. Psoriasis. **Ranuh. Rheumatism. Rickets.** Ringworm. Stones. Teeth, decayed. Toothaches. Tuberculosis. Tumors. Typhoid. Urticaria. Uterus, disorders. Varicose, veins. Vertigo. **Walking, late.** Warts. Whitlow. **Worms.**

HOMEOPATHIC - Calcareo carb, is the chief remedy of Calcium compounds. This **constitutional remedy** is one of the polycrest remedies and ranks with Sulph. and Lyc. at the head of the **anti-psorics**. It is essential to a correct appreciation of the Homeopathic Materia Medica that these three medicines should be thoroughly known, as these are, in a sense, the standards around which the rest are grouped.

All three have a very wide range and deep action. They have many symptoms in common, but Calc, is somewhat sharply distinguished from Sulphur in that it is a chilly remedy, the patient seeking warmth, while the Sulph. patient is worse by heat and better by cold.

Cold, clammy feet, **"as if there wet damp stockings on,"** (Sulph. has hot, sweaty feet). The **"sinking sensation"** common to all three is most marked with Sulph. at 11 a.m., with Lyc. at 4 p.m., and with Calc, at any time.

Calc, is closely allied to Bell., Nux-v., Puls, and Rhus-t. in its action. Like many of the other carbonates. Calc, corresponds to persons of soft tissue with tendency to be fat. Hydrogenoid and sycotic constitution Sensitive to cold and damp, and early morning aggravation. Warts and polyps.

The chief action of Calc, is centered in the vegetative sphere, the keynote being impaired nutrition, the glands, skin and bone, being instrumental in the changes wrought. It alters the blood, causing anemia.

The calcium metabolism is active during childhood and becomes defective after middle age. Improper assimilation of calcium gives rise to defective nutrition of glands, bones and skin. Calc, is a definite stimulant to the periosteum.

Calc, patients are generally fat, fair, flabby, perspiring, cold, damp and sour. Great sensitiveness to cold weather, patients are **susceptible to cold.** Cold, moist air chills through and through, takes cold easily especially in chest. Chilliness is aggravated from contact with water.

Out of breath easily. **Sweating is easy,** partial, on head, chest during sleep. Muscles and skin become fat or flabby, patient grows heavier, but not strong. Great weakness on ascending stairs, on walking, from talking (chest feels weak), or excitement. **A jaded state, mental or physical, due to overwork.** In epilepsy the aura spreads up from solar plexus, or as of a mouse running up the arm or down epigastrium to uterus or limbs.

Tendency to strain the muscles and joints easily. Parts laid on become numb. Cramps in muscles which draw limbs. Muscular atrophy. **Abscesses in deep muscles. Polyps and exostoses.** Polyps, nasal, uterine etc. cysts. Osteomyelitis. Osteoporosis.

Malnutrition. Improper nutrition and indigestion. **Glandular swelling** below the jaw and in the neck. Pituitary and thyroid dysfunction. **Discharges are profuse often sour**, stools, sweat, odor of the body, saliva etc. Tendency to the formation of gallstones and kidney stones. Early stage of tuberculosis of lungs with tickling cough, fleeting chest pains, nausea, acidity and dislike for fats. Varicose veins, burning in veins. Raised blood clotting factors (Stront.).

Diarrhea, tremors after burns. Generally feels better when constipated. The diarrhea is generally worse in afternoon. Painless hoarseness, worse in morning.

Swelling and pain in the breasts before the menstrual flow begins (Con.). Menses are scanty or absent with chilliness and cold, clammy feet. Suppression of menses in women after working in water. Bearingdown pains. Fibroids and cysts. Ovarian or uterine pains, right side, extending down thighs, worse on reading or writing (left side, Lil-t.).

Children crave eggs, eat dirt and other indigestible things. Prone to diarrhea. Emaciated children with a big head and belly. **Slow in teething**, walk late. **Complaints of teething children**, convulsions, sour diarrhea. Children do not put their feet down on the ground. Dull, lethargic children, do not want to play. Nightmares, **dreams of monsters**.

MIND - Rumination «ad worry. **Overworked and exhausted**. Sits and thinks about little affairs that amount to nothing. **Worries about all their responsibilities and duties**. **Apprehensive**, worse towards evening. Anxiety with palpitations. Desire to weep, to go home. Suspicious. Cautious. Low-spirited. Apathetic. Depressed. Melancholic or doubting moods. Hopeless of ever getting well.

Forgetful, confused, misplaces words and expresses himself wrongly. Averse to work or exertion. Inability to apply himself. Learns poorly. Easily frightened or offended. Fears of being observed. Fears of misery, **misfortune**, disaster, contagious disease, insanity. Fear excited by reports of cruelties. **Fears loss of reason**.

Children are self willed, obstinate. Child is afraid of everything it sees. **Nightmares and poor sleep**. Imagines someone in their room. **Fear of monsters**. Irritable, cries about trifles, borrows trouble. Visions of fire, murder, rats and mice in delirium. Feels as if she would run up and down, and scream. Sits and breaks sticks etc. all day long.

Abdomen - Increase of fat in abdomen.

Large and hard abdomen. Sensitive to slightest pressure, cannot bear tight clothing around the waist. **Distention** with hardness, better slightest pressure. Cutting pain in swollen abdomen. Colic with coldness of thighs after stopped coryza or with cold feeling in abdomen. Incarcerated flatulence. Peritonitis when pain better by cold application. Twisting or cramps about umbilical region. Umbilical hernia. The navel is sore, excrescences like proud flesh in infants. **Inguinal and mesenteric glands swollen** and painful.

Back - Pain as if sprained, can scarcely rise, from over lifting. Cannot sit upright in the chair from weakness of back. Neck pains, worse lifting. Neck stiff and rigid. Pain between shoulder blades, impeding breathing. Rheumatism in lumbar region, weakness in small of back. Vertebrae, feel loose, painful on pressure. Curvature of dorsal vertebrae.

Breasts - Breast tender and swollen, before menses. Hot, swelling breasts. Severe stitches in breasts, when nursing. Milk too abundant, disagreeable to child. Deficient breast-feeding with distended breasts in lymphatic women. Nipples, cracked, ulcerated, very tender.

Bones - Faulty development of bones. **Open fontanelles**. Curvatures, bone growths, rickets. Osteoporosis. Growing pains (Calc-p.).

Causations - Ill effects of overwork, worry, fright. Poor nutrition, alcohol. Aging. Loss of vital fluids. Suppressed sweat, eruptions, or menses. Strains, over lifting. Affections of stonecutters.

Chest - Sharp pains in chest, going backwards. **Chest very sensitive to touch, percussion or pressure**. Weak feeling in chest, cannot even speak.

Constitutions - Anti-psoric constitutional remedy. Persons of scrofulous type, who take cold easily, with increased mucus secretions, children who grow fat, are large-bellied with large head, pale skin, chalky look. Fat, flabby children rather bloated than solid, pale but flushing easily. **Leuco-phlegmatic temperament**, disorders caused by working in water.

Ears - Throbbing, cracking in ears, stitches, pulsating pain as if something would press out. Scrofulous inflammation with **muco-purulent otorrhea and enlarged glands**. Purulent offensive discharge and enlarged glands. Eruption on and behind ear (Graph., Petr.). Polyps which bleed easily. Aching, when blowing the nose and coughing. Perversionsofhearing. Illusory noises, on swallowing, chewing. Cracking noises in ear. Deafness from working in water or quinine. Sensitive to cold about ears and neck.

Eyes - Lachrymation in open air and early in morning. Lachrymal ducts closed from exposure to cold. Itching of lids, swollen, scurfy. Suppurating fistula. **Spots and ulcers on cornea**. Cataract. **Dilatation of pupils**. Sensitive to light. Cannot read in gas light, feels as if she squinted. Dimness of vision, as if looking through a

mist, by constant reading, writing etc. Far-sighted. Sees visions on closing eyes, besides field of vision. Easy fatigue of eyes. Ophthalmia in newborn after taking cold.

Face - Pale, puffy, pasty, with deep-seated eyes, surrounded by dark rings. Old, wrinkled. Swelling of upper lip in the morning with cracks and bleeding. Submaxillary glands swollen. Crusta lactea, itching, burning after washing. Goiter. Itching eruptions on chin. Itching of pimples in whiskers. Pain from right mental foramen along lower jaw to ear. Chewing and swallowing in sleep in children.

Female - Before menses, headache, colic, chilliness and leucorrhea. Cutting pains in uterus during menstruation. **Menses too early, too profuse, too long**, with vertigo toothache and **cold, damp feet**. Menses late in fat, flabby girls with palpitation, dyspnea and headache. Absence of menses in plethoric women from fright. Infertility with copious menses. Mental excitement brings on dysmenorrhea or causes menses to rectum. Burning and itching before and after menstruation. Thick, milky, gushing or yellow leucorrhea, worse during urination with itching and burning. Uterine polyps. Uterus easily displaced. Sex followed by sweat and prostration. Itching and burning in genitals. Much sweat about genitals. Increased sexual desire, easy conception. Clumsy, awkward and tired during pregnancy. Cramps in toes or soles during pregnancy.

Food - Poor diet and nutrition. Loss of appetite, but when he begins to eat, he relishes it. **Loss of appetite when overworked.** Repugnance to hot food. Raven-ous hunger. **Cravings for eggs**, ice-creams, salt and sweets. **Craving for indigestible things**, dirt, chalk, coal, pencils. Aversion to meat, milk, boiled things, **fat**. Worse after eating, smoked meats, milk, or when fasting. Thirst for **cold drinks**.

Head - Head hot with pale face, with mental exertion. **Icy coldness** in and on the head, especially right side. Cold spots on head. **Vertex icy cold**. Burning in vertex after grief. Sense of weight on top of head. Headache with cold hands and feet. Headache from over lifting, from mental exertion, with nausea. Chronic hydrocephalus. **Big head with large hard abdomen**. Open fontanelles, head enlarged. **Much perspiration, wets the pillow**. Sweat with palpitations. Itching of the scalp. Scratches head on waking. Falling of hair.

Heart - Weakness. Palpitation at night, after eating. Palpitations with a feeling of coldness, with restless oppression of chest, after suppressed eruption.

Kidneys - Kidney colic. Irritable bladder. Bedwetting, incontinence when walking. Urine, dark, brown, bloody, sour, foul or of strong odor. White urinary sediment with milky urine. Polyps.

Limbs - Trembling, weakness. Creeping on the limbs like a mouse. Tearing in muscles. Clumsy, awkward, easily falls. Joints as if sprained. Old sprains. Tired from short walk. Rheumatoid pains, as after exposure to wet. Arthritic deformans, nodosities. Arms, weak, lame. Hands numb, when grasping. Want of mobility of fingers. Sweat of hands. Chapped hands. Cold, clammy hands, knees. Swelling of joints, especially knee. **Cramps in calves** when stretching out leg at night. Feet turn inward, while walking. **Soles of feet raw**, burning. **Cold, damp feet**, feel as if damp stockings were worn. Sour foot-sweat. Feet feel cold and dead at night. **Weakness of ankles** in children. Children are late in learning to walk.

Liver - Liver region painful when stooping. **Gallstone colic**.

Lungs - Painless hoarseness, worse in the morning. **Short of breath**. Emphysema. Habitual cough. Tickling cough as from dust or feather in throat. Cough, worse inspiration, playing on piano, eating.

Suffocating spells, tightness, burning and soreness in chest, **worse climbing upstairs** or slightest ascent, must sit down. Ulcers or abscesses in the lungs. Expectoration only during the day, thick, yellow, sour mucus. Purulent, loose, sweet, expectoration. Bloody expectoration with sour sensation in chest. Scanty, salty expectoration. Longing for fresh air (Puls.).

Male - Increased sexual desire with retarded erections. **Frequent emissions**. Burning with seminal emission. Seminal discharge premature. Sex followed by profound weakness, vertigo, irritability, lameness of back and knees, headache and sweat. Itching and burning in genitals. Impotence from sexual abuse or from overindulgence. Hydrocele of children.

Modalities - Better from dry climate and weather. Better inspiring fresh air. Better uncovers during fever. Better after breakfast. Better from lying on painful side, on back. Better sneezing, rubbing, scratching. Better wiping or soothing with hands. **Worse from bathing**. **Worse working in water**, cooling off. Worse walking in open, **cold, raw air**. Worse wet weather, change of weather. Worse from exertion, mental or physical. **Worse ascending**. Worse standing. Worse lifting, or stooping. **Worse from pressure of clothes**. Worse letting limbs hang down. Worse eyestrain. Worse light. Worse looking fixedly at any object. Worse looking upward. Worse turning the head. **Worse from dentition**. **Worse milk**. Worse worry. Worse puberty, menopause. Worse at full moon or new moon. Worse at solstice. Worse after midnight. Worse in early morning, on waking.

Mouth - Bleeding of gums. Persistent **sour taste**. Mouth fills with sour water. Offensive smell. Ranula under the tongue. Epulis, soft, painless. Tongue dry at night, does not like to talk. Burning pain at tip of tongue, worse anything warm taken into stomach.

Nose - Nosebleed, in children inclined to be fat. Nostrils, **dry, sore, ulcerated**. Polyps with loss of smell.

Swelling at root of nose. Offensive odor in nose, offensive yellow discharge. Coryza with polyuria.

Sneezes, frequently without a cold. **Takes cold at every change of weather.** Catarrhal symptoms with hunger, coryza alternates with colic. Senile catarrh. Swelling of the nose and upper lip in children.

Rectum - Feels best when constipated. Stool large and hard, whitish, watery, sour. Diarrhea of fetid, undigested food with ravenous appetite, particularly in children. Diarrhea, chronic after burns. Persistent tenesmus after dysentery. Prolapse of anus and burning, stinging hemorrhoids. Hemorrhoids, painful when walking better sitting. Crawling and constriction in rectum. **Worms**, tapeworms, **pinworms**, roundworms.

Sensations - Pain as if the parts would burst, were pressed or pushed asunder. As **if cold, damp stockings were on the feet.** Creeping on the limbs like a mouse. Pain as if sprained in outer parts. Sensation of dust in inner parts as the eye, bronchial tubes. Pricking, darting, jerking, trembling, itching better by scratching.

Skin - Cold, like a snake, flaccid, unhealthy. Visible quivering of skin from head to foot, followed by giddiness. Psoriasis. Glands swollen. Unhealthy, ulcerating, flaccid. Small wounds do not heal readily. Nettle rash, better in cold air. Warts on face and hands. Milk white spots. **Petechial eruptions.** Recurring blood boils. Boils. Chilblains.

Sleep - Drowsy in early part of evening. Frequent waking at night. Insomnia due to worry. **Same disagreeable ideas arouses from light sleep.** Night terrors (Kali-p.). Starts at every noise, fears that she will go crazy.

Nightmares in children, scream after midnight and cannot be pacified. Dreams of the dead, **of monsters.**

Stomach - Heartburn and loud belching. **Frequent sour belchings, sour vomiting** of curdled milk. Cramps in stomach, worse pressure, cold water. Swelling over pit of stomach like a saucer turned bottom up. Pain in epigastric region to touch. Hyper-chlorhydria (Phos.). Aggravation while eating. Drinking water, if ever so little, causes nausea, but not if iced. Sensation as if rising something to head.

Stools - Chalky, gray or green, watery stools. Stools at first hard, then pasty, then liquid. Stools, worse eating and drinking. Undigested stools.

Teeth - Difficult and delayed dentition. Toothache, worse cold air or hot things.

Temperature - Chill with thirst. **Chill at 2 p.m., begins internally in stomach region.** Coldness, icy in different parts of the body, of affected part. Internal heat with external coldness and sweat. **Fever with sweat.** Hectic fever. Sweat cold, partial. **Night sweats, especially on head,** neck and chest. Heat, at night during menses.

Sweat over head in children, so that pillow becomes wet. Pulse full and frequent.

Throat - **Swelling of the tonsils** and submaxillary glands, with stitches on swallowing. Difficult swallowing. Hawks salty mucous. Small ulcers spreading up to palate. Uvula, swollen, edematous. Goiter. Parotid fistula.

Vertigo - Vertigo on ascending (especially running) and when turning head, worse looking upward. Vertigo with many conditions, worse scratching head, after epilepsy. Tendency to fall to left, to either side, backward.

COMMENTS - Calcium carbonate is the foundation of the structure of our body. One of the dominant constitutions today, it has a profound influence, particularly on growing children.

There's a strong complementary relationship between Calc. and Bell. Calc. has a tendency to go toward Bell, acutes, especially tonsillitis and fevers. It's also closely related to Puls. Calc acutes can become Puls, cases, particularly in children. Adults have a tendency to become Rhus-t., especially the elderly. Calc. can deal with residue from many of these complaints.

Helpful for teething problems, bone problems, spinal problems, and flabby muscles. Children with slow development, a tendency to be sluggish. Tendency to sore throats, swollen glands, and earaches.

Colic. Constipation in babies (Alum.). When constipated, the child cries, moans, does a lot of body movements, and then they pass a large stool. Babies sweat on

the back of their head, and they smell sour. Their stool and sweat smell sour, their pillow smells sour.

Insomnia in babies. Nightmares, especially about monsters. Fears, particularly vulnerable and susceptible to watching frightening movies or news (Phos.).

Apprehensive state of mind. Fear of losing reason, that people will notice her mental confusion. Fears she has some fatal disease, especially heart disease. Great desire for order and structure, fear of losing control. Great sense of responsibility, happy when working.

Shuddering and dread as evening draws near. Sees visions on closing eyes (useful in delirium tremens). Cries out, twitches, grasps at flocks, restless and anxious though unconscious (nervous and typhoid fever), beside herself with anguish, on the borders of acute mania. Evil foreboding, talks of mice, rats, murders. Forgetful.

Abnormally sleepy or sleepless. Wakes at 3 a.m. and cannot get to sleep again, tosses about. Horrible phantasms. The child wakes in the night screaming and cannot be pacified, in the morning remembers nothing of it. Chews and swallows in sleep. Frightful dreams of sickness, death and smell of corpses. Insomnia, especially in the elderly. Aversion to darkness.

Slow in movements (Sulph., quick and active). Exhaustion on exertion or excitement, though he may feel well before. Exhaustion in the morning. Cramp in legs at 3 a.m. Tendency toward arthritis. Disposition to strain a

part by lifting heavy things.

Scrofulous diseases of bones, spinal curvature, rickets. Swellings. Sciatica, after working in water. Rheumatic and gouty conditions from wetting. Joints crack and crepitate as if dry. Inclination to stretch and put the shoulders back, but straightening aggravates the rheumatism.

Neuralgias and paralyzes. Twitching. Internal trembling sensation on awaking. Fainting, coming on in the street with sensation of something rising from stomach to head. Talking causes a feeling of weakness that compels him to desist.

Epilepsy has an aura spreading up from the solar plexus in which case the convulsion comes on immediately. It may be like a mouse running on the arm, or it may run down from epigastrium into uterus or limbs. Epilepsy from fright, suppressed eruptions and discharges, sexual excesses. Characteristic rush of blood to head, a sensation of something rising up from epigastrium to head.

Sensations of heat and burning. Heat in and on the vertex. Head sweats profusely, wetting the pillow. Sweat chiefly on occiput and forehead (Sil. sweats all over). Better uncovered during the heats (Lyc., opp. of Sil.). Hot breath with heat in mouth.

Sweats relieve. Bloody sweats. Sweats may be sour or odorless. Sour body smell. Burning in soles of feet at night, burning in back of hands. Sour or odorless foot sweat. Soft, cold and moist hands, a boneless hand, inclined to chap.

All the symptoms are made worse by taking cold. Great sensitiveness to cold, damp air. Dread of open air. Cannot bear sun. The slightest change of weather aggravates. Dread of bathing and water. When a cold wind strikes the body it immediately runs to the teeth, causing them to ache.

Rough, scaly skin, inclined to chap. Cracks. Chilblains from wetting. Eruptions, behind right ear. Pricking corns, polyps, cysts, in the leuco-phlegmatic constitutions.

Scrofulous glands. Enlarged and hard lymphatic glands. Swelling of cervical and bronchial glands. Hypothyroidism (Sep.).

Related to the pre-tubercular stage of tuberculosis, especially suited to disorders of the right apex. Stitching in chest and sides of chest when moving and when lying on affected side. Cough when going into a cold room, from chilliness. Tickling cough, sensation of feather in throat. Rattling in the chest, miller's and stone-cutter's tuberculosis, old suppurating cavities.

Sinking sensation. Icy coldness in abdomen. Malnutrition. Ravenous hunger and feeling of emptiness immediately after a meal and in the early morning. Headache from hunger.

Nausea after drinking water, even ever so little, but not if iced. Nausea when fasting.

Craving for eggs, starchy grains, sweets. Craving for indigestible things like chalk, coal, etc. Children with pica. Milk disagrees, sour vomiting of large curds. Inability to swallow solids. Chronic disease of left tonsil, feeling of lump in left side of throat, pain from left tonsil to ear. Semi-lateral swelling of tongue. Ranula.

Sourbelchings. Sour diarrhea. Crawling in rectum as from worms. Burning in rectum. Weight in lower rectum. Ardor urine, offensive urine. Stools hard and pasty, like chalk or clay, offensive, undigested. Flatulence or gurgling in right hypochondrium.

Impotence, penis cold and relaxed. Good for weight gain after pregnancy and menopause. Milk leg, better by elevating the limb, worse hanging it down.

Sensation as if in a dream. Sensation of levitation. Vertigo, especially in the elderly.

Dr. Van den Neucker cured a baker of paralysis of both arms with Calc, and also a case of paralysis with many symptoms of locomotor ataxia in a lymphatic blonde girl of nineteen.

Cooper cured psoriasis of the palms with it.

Guernsey said "this remedy is particularly adapted to the real leuco-phlegmatic constitution. Where we find a large head, large features, pale skin with a chalky look and (in infants) open fontanelles, we may think strongly of Calc."

According to Guernsey, Calc, is in general a right-side remedy, particularly the right external head, right eye, right face, right abdominal ring, sexual organs on the right side, right back, right upper limbs. Left side neck and nape of neck, left chest, left lower limbs.

Alexander Villers cured with Calc. 200c a case combining many of the features of the remedy. The patient, a woman, age 20, was very despondent through long-continued depressing circumstances, became very nervous.

She was companion to an exceedingly deaf lady, whose voice was high-pitched.

This, with the strain on her voice to make herself heard, caused headache throughher temples, better from rapid motion of head.

Outdoor exercise was accompanied by hard pressure on chest, which only belchings seemed to relieve. Constipated bowels. Menses every fortnight with backache and great prostration. Under the remedy, repeated

at rare intervals, the menses came on monthly, headache and pressure on the chest disappeared.

RELATIONS - Antidoted by: Camph., Ip., Nit-ac., Nit-s-d., Nux-v., Sulph. **Antidote to:** Bism., Chin., Chin-s., Dig., Mez. (headache), Nit-ac., Phos. **Compare: (1)** Calc-o-t., Calc-ar., Calc-p., and other Calcareas., Lye., Sulph. - differs in being worse by heat, hot feet. (2) Sil., Calc-f., Calc-p., Calc-br. (3) Lime-water and Calc-caust. (4) Calc-calcin.-calcinatadoyster- shell a remedy for warts. (5) Calcarea ovorum - Toasted egg-shells., Calc, lactic. (6) Calc, lacto-phosph. (7) Calc-mur. (8) Arn. (strains, etc.), Ars. (swollen mesenteric glands). (9) In ardor, urine Sep., burning and cutting, Canth., cutting. (10) loss of fluids Chin., Sulph. (11) Leucorrhea, acrid or bland - Graph., Sulph. (12) Acid stomach - Chin., Lyc., Sulph., Puls., Rob. (13) Waking at 3 a.m. - Bellis, Nux-v., Kali-c., Ars., Sep. (14) swelling and painfulness of breasts before menses- Kali-c., Lac-c., Con. (15) Dread of losing senses - Lyc., Med., Nux-v., Sulph. (16) Ravenous hunger - Ars., Calc., Ciña., Iod., Sil., Staph. (17) Rhus-t. is a very close analogue of Calc., Bell., Dulc., Nux-v., Puls., and Rhus may be regarded as the acute satellites of Calc. **Complementary:** Bell., Rhus-t., Lyc., Sil. Calc, is useful after Sulph. where the pupils remain dilated. When Puls, failed in school girls. **Incompatible:** Bry. **Follows well:** Cham., Chin., Con., Cupr., Nit-ac., Nux-v., Puls., Sulph. (especially if the pupils dilate). **Followed well by:** Lyc., Nux-v., Phos., Plat., Sil. **REFERENCES** - Boericke. Clarke. Murphy. Phatak.

***CALCAREA CAUSTICA

(Lime-water)

PHARMACY - calc-caust. Calcarea caustica. Lime-water. Aquacalcis. Quicklime is slaked in distilled water. Afterwards alcohol is added and the clear liquid decanted. **Historical dose:** Tincture and all potencies.

CLINICAL - Back, pains. Coccyx, pain. Corns. Heel, pain. Hoarseness. Jaw, disorders. Malar bones, pain. Neuralgia. Paralysis. Rheumatism. Spleen, disorders. Stiff-neck. Tapeworm. Toothaches.

HOMEOPATHIC - Lime-water has an ancient repute in allaying inflammation of many kinds. Extensively proved, it rapidly dispelled all inflammatory action in cases of appendicitis and removed all suffering in an aggravated case of hemorrhoids.

Marked difficult thinking. Confusion in the head. Vertigo, as if room turning in a circle. Sticking, tearing, throbbing pains in various parts. Pain in right eye as if a foreign body were in it. Burning and tearing in eyes. Tearing in right cheekbone and in right articulation of jaw.

Mucus in throat, burning, sensation as if a bone were sticking in it. Burning in stomach. Tapeworm passes. Hoarseness with pain in throat, rawness in trachea and cough. Stitches in chest. Stiffness and tearing in all regions of back and in coccyx. Tearing in either shoulder down arms. Tearing in left Achilles tendon, left heel. Sticking in corns.

Worse from working in water, "pains in hands and feet after a foot-bath." Worse from hanging down limb. Toothache every night, 2 a.m. Fuzzy sensation in the teeth and other parts.

MIND - Very difficult thought. Weary and peevish on waking, as if he had been intoxicated.

Abdomen - Sticking in both hypochondria, especially severe in left. Pain in left side of region of spleen, as if a ball were turning on its axis. Constrictive pain in abdomen, griping, stitches. Violent stitches in small intestines when bending forward.

Back - Violent pains in scapulae, extending into small of back when sitting, worse on inspiration. Tearing between the shoulders. Tearing in both scapulae, between shoulders, then through neck and occiput as far as forehead. Sensation in both shoulder blades as if they were fuzzy and had gone to sleep (8 p.m.). Pain in small of back, on waking better by moving about. Pressive, drawing pains, sticking, tearing in small of back. Tearing in coccyx.

Chest - Sternum feels oppressed, pressive sticking under, stitches across. Stitches in left chest.

Eyes - Burning in eyes, in evening by candlelight. Pain in right eye as if foreign body under upper lid in eye, on rising in morning.

Face - Tearing in right cheekbone. Violent pain, swelling, stiffness of right joint of jaw. Lips unusually red.

Female - Menses eight days too early.

Head - Confusion of the head, especially left side. Throbbing in frontal sinus, better by contracting skin of forehead.

Limbs - Trembling in limbs, could not continue work, better by eating a piece of bread. Rheumatic pain alternating in all the joints. Wandering pains. Tearing in shoulders, arms and axilla. Paralyzed condition of right hand. Stitches and tearing in left wrist. Severe tension in lower limbs. Stitches in hip joints. Tearing in knees in right side of right tibia down to toes in left Achilles tendon in left heel. Sticking in a corn. Pains in hands and feet after a foot bath.

Lungs - Feeling of rawness in trachea, cough. Cough with stitches in chest, expectoration of mucus and blood.

Mouth - Mouth offensive, palate feels as if mucus was upon it, but none is expectorated.

Neck - Tearing in nape. Stiffness of neck of back of neck of all neck muscles.

Rectum - Three thin stools before breakfast and one immediately after. Thin, pasty stool with much mucus. Painful stool, as if a nail were scratching in anus. Passed many pieces of tapeworm. Hemorrhoids. Sticking, tearing motions in rectum ex-

Calcareae caustica tending towards anus. Crawling in rectum and anus.

Skin - Rash-like eruption on forehead. Biting, itching vesicles, on neck and back extending later to occiput and behind ears.

Sleep - Restless, many dreams, nightmare. **Stomach** - Severe hunger three hours after eating. Nausea followed by vomiting of some fluid.

Teeth - Severe toothache every night, 2 a.m., as if tooth was fuzzy and too large with tensive pain in left ear as if something was sticking in it. Teeth feel too large, fuzzy.

Temperature - A violent chill with chattering teeth 7 to 7.30 p.m.

Throat - Mucus in throat, difficult to raise, almost causing vomiting. Hawking of granular, glutinous material like cooked rice. Burning in fauces and esophagus caused by water. Sensation as of a bone sticking in pharynx.

Throat - Stitches in larynx, left half. Hoarseness with pain in throat.

Vertigo - Vertigo, as if room turning in a circle, thinks she will fall from chair.

RELATIONS - Compare: (1) Besides the Calcareas, Rhus-t. - pain in joint of jaw. (2) Mez. and Mag-c. - pain in malar bones. (3) Valer. - pain in heel. (4) Pic-ac. and Sep., (loins). (5) Hep. and Nit-ac. - bone sensation in throat.

REFERENCES - Clarke.

***CALCAREAE CHLORINATA

(Chlorinated Lime)

PHARMACY - calc-chln. Calcareae chlorinata. Chlorinated lime. Hypochlorate of lime with Calcium chloride and a varying amount of Hydrate of Lime. **Historical dose:** Trituration and all potencies.

CLINICAL - Boils. Carbuncles.

HOMEOPATHIC - This preparation has only been used as a local application, for boils and carbuncles, chiefly in the preparation of the Liquor Calcis Chlorate of the British Pharmacopeia.

REFERENCES - Clarke.

***CALCAREAE FLUORATA

(Calcium Fluoride)

PHARMACY - calc-f. Calcareae fluorata. Calcium fluoride. Calcareae fluorica. Fluorspar. Fluoride of Lime. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Adenoids. Aneurysm. Blood, tumors. **Bone, disorders. Bone, deformities. Bone, spurs.** Breast, indurations. Bums. Cancer. **Cataract.** Catarrh. Childbirth. Cold, sores. Corneal, opacities. Cough. **Croup.** Dental, problems. **Exostosis.** Flatulence. **Glands, enlarged.** Goiter. Hemoptysis. Herpes. Hodgkin's, disease. **Hydrocele. Induration.** Joints, **cracking. Keratitis.** Liver, **disorders. Lumbago.** Nodes. Ozaena. Periosteitis. Post-nasal, catarrh. Rickets. Sarcoma. **Scoliosis.** Spavin (horses). Strains. Syphilis. Teeth, deformed. Toothache. **Tumors.** Ulcers. **Varicose, veins.**

HOMEOPATHIC - Calc-f. is Schiessler's "**bone salt.**" It is found in the surface of bones, the enamel of teeth, in elastic tissues, and in the cells of the epidermis. A powerful tissue remedy for hard, stony glands, varicose veins and malnutrition of bones.

Calc-f. has cured lumbago after the failure of Rhus-t. Lumbago from strains, worse after rest, better after moving a little and from warmth. Tendon and joint disorders, especially weakness after injury (Ruta.). Joints give way easily. Tendons have nodules and growths after injury or overuse.

Disperses **bony growths.** Bone spurs and tumors. Ulcerations of the bone, fistula. Periosteitis of lower jaw, ribs etc. Deficient enamel of teeth (Sil.). Nails hypertrophied. General stiffness. Weakness in the morning. Feeling of fatigue all day. Numbness in different parts.

Tendency to adhesions after operations (Calen.). **Indurations of stony hardness,** tonsils, tumors, neck after injury, margins of ulcers. Hard knots in breast. **Induration threatening suppuration.** Grass green discharges. Stinking pus.

Arteriosclerosis, threatened stroke. Veins dilate and become varicose, inflamed. Tuberculosis.

Glands enlarge and become stony hard. Goiter. X-ray, radiation burns. **Cataract.** Congenital hereditary syphilis manifesting itself in ulceration of mouth and throat, decay and necrosis with boring pains and heat in parts.

MIND - Depression, anxiety, indecision. Groundless fear of financial loss, fear of poverty.

Abdomen - Flatulence, during pregnancy. Sharp pain in hepatic region. Dull weight and discomfort in right hypochondrium.

Back - Scoliosis. **Chronic lumbago** from strain, better motion and warmth. Lumbago, worse on beginning to move and ameliorated on continued motion. Tired aching, as from a long ride, with restlessness. Pain in lower part of back with burning. Bone tumors. Exostoses.

Blood - Vascular tumors with dilated blood vessels. **Varicose or enlarged veins.**

Bones - **Bony growths**, bone spurs. Bone deformities. Osteo-sarcoma. Exostosis after injury.

Breasts - Hard knots in breasts. Hard glands in the female breast. Breast nodes, tumors.

Constitutions - Sluggish temperament. Congenital syphilis manifesting itself in ulceration of mouth and throat.

Ears - **Chronic suppuration of middle ear.** Chronic otorrhea (Sil.). Calcareous deposits on eardrum, sclerosis of temporal bone with deafness, ringing and roaring.

Eyes - **Cataract.** Cornea opaque in spots. **Keratitis.** Flickering and sparks before the eyes, conjunctivitis.

Subcutaneous palpebral cysts. Aching in eyes, better closing and pressure.

Face - Hard swelling on jawbone. Hard swelling on the cheek with pain or toothache. Small, hard, cold sores on lips.

Female - Excessive menses. Prolapsed uterus. Bearing-down, dragging pains in uterus and thighs. Flatulence in pregnant women. After-pains from feeble contractions.

Head - Cracking noise in head, disturbing sleep. Cephalhematoma of newborn infants (Sil.). Blood tumors of newborn infants. Hard excrescences on the scalp.

Ulcers on the scalp with callous, hard edges.

Heart - Arteriosclerosis. Aneurysm. Valvular disease. Fibroid deposits about the endocardium. When the tuberculosis toxins attack the heart and blood vessels.

Limbs - Cracking in the joints. **Easy joint dislocations.** Exostoses. **Bone spurs.** Synovial **sv/Mings. Swellings and indurated enlargements**, having their seat in the tissue and ligaments, tendons of joints. Bursitis. Chronic synovitis of knee joint. Recurrent fibroids in the hollow of the knee. Hip joint disease. Cold wrists and ankles. Ganglia or encysted tumors at the back of the wrist. Gouty enlargements of the joints of the fingers. **Enlargement of femur in infants.** Rickets.

Lungs - Difficulty in breathing, as if epiglottis is nearly closed. Hoarseness after laughing or reading aloud.

Croup. Spasmodic cough. Cough with expectoration of tiny lumps of yellow mucus with tickling sensation and irritation on lying down.

Male - Induration of testes. Hydrocele. Syphilis, chancre.

Modalities - Better by rubbing. Better continued motion. Better warm applications. Better heat, and warm drinks. Worse from beginning of motion. Worse during rest. Worse sprains. Worse cold, wet. Worse changes of weather. Worse from damp weather, but better from fomentations.

Mouth - Periosteitis of lower jaw.

Neck - Goiter. Indurated cervical glands of stony hardness.

Nose - Cold in the head, stuffy cold, dry coryza. Copious, offensive, thick, greenish, lumpy, yellow nasal catarrh. Ozaena. Atrophic rhinitis, especially if crusts are prominent.

Rectum - Itching of anus, as from pinworms. Fissure of the anus and intensely sore crack near the lower end of the bowel. Fistula. Bleeding hemorrhoids with pain in sacrum. Internal or blind hemorrhoids frequently with pain in back, generally far down on the sacrum and constipation. Much wind in lower bowels, worse with pregnancy. Diarrhea in gouty subjects. Stools, gushing, watery of fetid odor.

Skin - Cracked, dry, hard, alabaster white. Scar tissue, adhesions after operations. **Indurations are stony hard.** Suppurations with callous, hard edges. Indolent, fistulous ulcers, secreting thick, yellow pus. Hard, elevated edges of ulcer, surrounding skin is purple and swollen. Fissures or cracks in the palms of the hands or hard skin. Whitlow. Warty growths. Birthmarks.

Sleep - Vivid dreams with sense of impending danger and weeping. Jumps out of bed in a dream. Unrefreshing sleep.

Stomach - Weakness and daintiness of appetite. **Acute indigestion from fatigue** and brain-fag. Flatulence. Hiccoughs (Caj., Sul-ac.), when one hawks of mucus. Nausea and distress after eating in young children who are overtaxed by studies. Vomiting of infants of undigested food.

Teeth - **Deficient enamel of teeth** (Sil.). Gum-boils with hard swelling on the jaw. Looseness of the teeth in their sockets, with or without pain. Toothache with pain if any food touches the tooth.

Throat - Tonsils rough and irritated, forming plugs of mucus. Hypertrophy of Luschka's tonsil. Follicular sore throat. Pain and burning in throat, better by warm drinks, worse cold drinks. Relaxed uvula, tickling referred to larynx.

Tongue - Cracked appearance of the tongue, with or without pain. Induration of the tongue, hardening after

inflammation.

COMMENTS - Bone deformities and bone tumors, bony growths, bone spurs. Tendency for the vertebrae to slip, curvatures of the spine. Bone cancer, cysts, spinal weakness, joint weaknesses. Bone and ligament disturbances. Tendency toward weak ligaments. Diseases where the ligaments are very weak, where the hands, arms, or feet don't function. Marfan's disease.

Calcium deposits in tissues. Tendonitis with calcification, calcified pituitary glands, calcifications in eardrums. Deposits in arthritic joints, fingers deformed with calcium deposits. Dental and enamel problems. Senile cataract. Spots on cornea.

Glandular problems, indurated tonsils and adenoids. Cephalhematoma (Sil.). Ozaena. Herpes, hard and small on lips. Prickly, burning, suffocating sensation in throat. Hemoptysis, causing contraction of the blood vessels. Bleeding hemorrhoids.

Local pains and symptoms can be ameliorated with heat and warm application, but hot weather aggravates. Generally warm-blooded. Worse change of weather with arthritis, stiffness that's better motion (Rhus-t.). Vivid dreams of death. Fear of poverty, indecisiveness.

A giant-celled sarcoma of upper maxilla causing the deformity known as "frog-face" was very greatly relieved by Calc-f. in a short space of time after Silica failed to make much impression.

Dr. Seigne had several cases where the child's teeth were turning yellow and the enamel was falling off. Using the Calc-f. cell salt, he had the child's parents rub it into the teeth, and the enamel grew back.

One prover. Dr. Sarah N. Smith, had among other symptoms a peculiar and constant one in the head: a sort of creaking, straining and drawing like the noise of a cornstalk fiddle, greatly interfering with sleep.

Dr. Sarah Hogan gave Calc-f. with complete success in a case of flatulency in a pregnant woman.

The patient passed through the labor quite easily, whereas the previous labor had been very difficult. In many other cases Dr. Hogan found the remedy facilitate labor. She found flatulency a marked indication for the remedy independent of pregnancy.

G. P. Hale with the 3x, removed induration after typhlitis, also encysted tumor of eyelids. He regarded induration threatening suppuration as a marked indication. Induration in the epigastric region after a kick from a horse was cured, also indurated glands of stony hardness.

W. P. Wesselheft cured two cases of syphilitic periosteal swelling, one on the right radius, one on the left ulna, one sensitive, one not, one patient was male, dark, the other was blonde, female. Each case received a dose of Calc-f. 100,00c.

RELATIONS - Compare: (1) Con., Lap-a., Bar-m., Hecla, Rhus-t. (2) Calc.sulph-stibiata- acts as an hemostatic and absorptive in uterine myoma. (3) Mangifera indica - varicose veins.

(4) Calc-p. - ozaena, suppuration of bones. (5) Nat-m. - cold sores. (6) Sil. - Swellings on skulls of infants, suppuration of bones, Ph-ac.

(7) Cacodylate of Soda - tumors.

***CALCAREA HYPOPHOSPHOROSA

(Calcium Hypophosphite)

PHARMACY - calc-hp. Calcarea hypophosphorosa. Calcium hypophosphite. Hypophosphite of lime. Trituration and solution. **Historical dose:** Trituration and all potencies.

CLINICAL - Angina pectoris. Arteries, disorders. Asthma. Congestion. Debility. Dyspnea. Emaciation. Headache. Paralysis. Sweating. Tuberculosis.

HOMEOPATHIC - This salt was proved by A. R. Barrett and a friend, who each took one grain of 2x trituration. Calc-hp. is to be preferred when it seems necessary to furnish the organism with liberal doses of phosphorus in consequence of continued abscesses having reduced the vitality.

Indicated in those persons who become pale, weak with violent drenching sweat, rapidly emaciate with extreme debility, on account of vital losses or continued abscesses. Emaciation of children. Loss of appetite, rapid debility, night sweats.

Great fullness and oppression around heart, fullness throughout thorax and head, veins of upper parts and upper limbs stand out like whipcords. Dyspnea, must have air. Tuberculosis, diarrhea and cough, acute pains in chest. Mesenteric tuberculosis. Bleeding from lungs, angina pectoris, asthma, affection of arteries. Veins stand out like whipcords.

Dull, heavy pressure from top of head between frontal and occipital bones, pain generally increased with increasing depression. Pallor of skin. Habitually **cold limbs**. Acne with pustules. Profuse sweat all over. Complete loss of muscular power with loss of desire to move.

MIND - Excitable nervous and sleepless. Talks rapidly and easily angered.

Abdomen - Sore throbbing in spleen. Mesenteric tuberculosis.

Chest - Veins stand out like whip-cord. **Ears** - Frying or sizzling in ears.

Heart - Angina pectoris.

Limbs - Habitually cold limbs.

Lungs - Acute pain in chest. Tuberculosis cough. Bleeding from the lungs. Asthma. Bronchitis.

Modalities - Worse from vital losses. Worse cold wind.

Rectum - Diarrhea of tuberculosis.

Skin - Exhausting night sweat (Merc.). Acne with pustules all over the body.

Sleep - Starts in sleep.

Stomach - Ravenous hunger, worse two hours after meals better when stomach is full. Loss of appetite.

COMMENTS - Has cured attacks of pain occurring two hours after meals, relieved by a cup of milk or light food.

With the first trituration, Nash cured a boy of eight who had several abscesses in and around the knee joint. The tibia was ulcerated and the ragged edge of the bone protruded through the surface. There was emaciation, loss of appetite and he was as pale as a corpse. The appetite returned at once in great force.

RELATIONS - Compare: (1) Calc-p., Calc-i., Glon., Bar-c. (2) Kali-c. - excessive sweating, weakness, pallor, Cact. - heart and arteries.

REFERENCES - Boericke. Clarke.

***CALCAREA IODATA

(Calcium Iodide)

PHARMACY-calc-i. Calcareaiodata. Calcium iodide. Iodideoflime.Historica/dose:Tritura- tion and all potencies.

CLINICAL - Adenoids. **Breast, tumors.** Cancer. Catarrh. **Croup.** Cysts. Flatulence. Glandular, swellings. Goiter. Headaches. Osteomalacia. **Pneumonia.** Polyps. Scrofulous, disorders. Thyroid, disorders. **Thyroid, tumors. Tonsils, enlarged.** Tuberculosis. **Ulcers.** Uterine, fibroids. **Varicose veins.**

Calcarea iodata

HOMEOPATHIC - Calcarea iodata has a short proving, it has been used on the indications suggested by its two components in the diseases named. It is similar to Bar-i. in its action on enlarged glands.

Indicated for **enlarged tonsils** honeycombed with little crypts. Induration of glands. **Thyroid tumors and cysts.** Thyroid gland enlargements about time of puberty. For the treatment of scrofulous disorders.

Weariness of the whole body. Secretions inclined to be profuse and yellow. **Croup.** Adenoids. Uterine fibroids. Polyps of nose and ear. Indolent ulcers accompanying varicose veins. Headache while riding against a cold wind. Profuse sweat.

MIND - Indifference and indolence.

Abdomen - Rumbling in the bowels with discharge of wind. Constant evacuation of large quantities of wind downward. Slight pain in the abdomen.

Breasts - Indurated growth in breasts, movable, painful on pressure and on movement on arm.

Constitutions - Flabby children subject to colds.

Ears - Numbness and ringing in the ears.

Eyes - Pain over the eyes.

Head - Headache while riding against cold wind. Light-headed. Catarrh, worse at root of nose, sneezing, very little sensation. Constant, severe and dull headache, forehead and temples, worse stooping. Sharp, piercing pain in right temple. Falling out of hair.

Limbs - Dull, heavy lameness in the external portion of the right arm, with numbness of the hands and fingers. Tired feeling in the lower limbs, especially in the calves of the legs. Pain across the anterior surface of the upper third of both thighs, as if he had been beaten.

Lungs - Chronic cough. **Pneumonia.** Pain in chest, difficulty breathing after syphilis and mercury. **Croup.** Hectic fever with green, purulent expectoration.

Mouth - Dry, furred feeling on lips and tongue. Mouth and gums burn like fire. Bitter taste in the mouth, but not disagreeable, like myrrh. Astringent taste in mouth, like alum. Taste at first sweetish, afterwards slightly astringent and metallic.

Neck - Stiffness of the back of the neck.

Skin-Indolentulcers, with varicose veins.

Easy perspiration. Copper colored and papular eruption. Tinea, favus, crusta lactea. Swelling of the glands. Skin is cracked.

Stomach - Inclined to belch wind. Slight hiccough. Slight nausea.

Throat - Enlarged tonsils filled with little crypts. Thyroid enlargement about the time of puberty. Adenoids.

Vertigo - Light-headed. **Sensation as if the head wasn't there.** Giddy headache.

COMMENTARY - The main use for this is tonsil and thyroid problems. Thyroid cysts (Thuj.), goiters, and thyroid tumors, especially since a treatment of radioactive iodine. Hyperthyroidism. Large tonsils and adenoids. Thyroids enlarge at puberty. Indurated glands. Generally warm-blooded.

Kent named Calc-i. and Calc-sil. as the remedies for delusions of seeing dead people or dreaming of dead people.

C. L. Nicholls cured a number of cases of breast tumors with the 3x, nodular tumors, movable, tender to touch, painful on moving arm.

RELATIONS - Compare: (1) Agraphis - adenoids with enlarged tonsils. (2) Sulph-i. follows both Agraphis and Calc-i. (3) Acon- 1. - swelling of glands, Hodgkin's disease. (4) also Calc-f., Sil., Merc., Iod. (5) Calc., Bar-c., Calc-p., Carb-v.

REFERENCES - Boericke. Clarke. Murphy.

***CALCAREA MURIATICA

(Calcium Chloride)

PHARMACY - calc-m. Calcarea muriatica. Calcium chloride. Chloride of lime. Rademacher's Liquor is 1 part to 2 of distilled water of which take 15 drops in half a cup of water, five times **didiy.** **Historical dose:** Tincture and all potencies.

CLINICAL - Abscess. Belchings. Boils. Convulsions. Diarrhea. Eczema. Edema. Faintness. Gastritis. Glandular swellings. Impetigo. Iritis. Nausea. Paralysis. Pleurisy. **Ringworm.** Scrofula. **Vomiting.**

HOMEOPATHIC - In scrofulous cases, Calc- m. promotes the action of mercury. Under its use, glandular swellings and indurations soften and disappear, hence its use in swollen glands and boils.

Calc-m. in the form of the liquor (1 part of 2 of distilled water), was one of Rademacher's "**Stomach Remedies**" and was used with great success by him in cases of obstinate vomiting. He gave 15 drops of the liquor in half a cup of water five times a day.

Rademacher's indications were vomiting of all food and drink, vomiting when no food had been taken, jaundice, and pain in the left hypochondrium. He also found it indicated in gastric pain, bloating and belchings.

Faintness, anxiety and weakness. Trembling and giddiness. Respiration quick and snoring. Increased secretion of mucus, perspiration and urine. Nausea and vomiting. **Vomiting of all food and drink with gastric pain.** Diarrhea. Tender precordium.

Accelerated pulse. Cold sweats, convulsions, paralysis. Glandular swellings. Angio-neurotic edema. Pleurisy with effusion. Boils. Eczema. Eczema in infants. **Ringworm of the scalp.** Impetigo.

COMMENTS - C. W. recorded a remarkable instance of the action of this remedy. A scrofulous and rheumatic woman had suffered from abscess of cornea, followed by rheumatic iritis and a dense opacity was left. An old-school practitioner had treated her with mercury during two years in a vain endeavor to "touch her mouth."

C. W. put one grain of Calc-m. in an 8-oz. bottle and directed the patient to take a tablespoonful three times a day. The medicine had not been taken ten minutes before she felt it at her fingers' ends. The mercurial action was evoked and she was in bed a fortnight, terribly salivated. The condition of the eye was unchanged.

RELATIONS - Compare: (1) Calc-i., Calc- chl., Nat-h.

REFERENCES - Boericke. Clarke.

***CALCAREA OVI TESTAE

(Egg-shell)

PHARMACY - calc-o-t. Calcarea ovi testae. Egg-shell. Ovi testa. Testa praeparata. Trituration of the shell, not including the lining membranes. **Historical dose:** Trituration and all potencies.

CLINICAL - Backache. Leucorrhea. Warts.

HOMEOPATHIC - Calc-o-t. has the general properties of Calc., but it has been little used clinically. This preparation of Calcium has been used in preference to others in cases of simple bland leucorrhea and warts.

Backache, as if broken in two. Leucorrhea. **Backache with leucorrhea.** Tired feeling. Effective in controlling suffering from cancer. Warts.

COMMENTS - Water in which eggs have been boiled is popularly supposed to have the property of causing warts if brought in contact with the hands. This suggests Calc- o-t. as possibly the best Calcarea preparation to prescribe in cases of warts.

REFERENCES - Boericke. Clarke.

***CALCAREA PHOSPHORICA

(Calcium Phosphate)

PHARMACY - calc-p. Calcareo phosphorica. Calcium phosphate. Phosphate of lime. Tricalcium phosphate. A mixture of the basic and other phosphates of lime, made by dropping dilute phosphoric acid into lime water. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - **Adenoid, growths.** Anemia. Ankles, weak. Back, weakness. Bedwetting. **Bones, disorders. Bones, fractures.** Brainfog. Bright's disease. **Broken bones.** Cholera infantum. Chorea. **Colds. Colic.** Cretinism. Debility. **Dentition, slow.** Diabetes. Dyspepsia. Emissions. Epilepsy. Face, boils. Fistula. **Fractures.** Gleet. Gonorrhea. **Growing, pains.** Headaches. Hernia. Hydrocele. Joints disorders. Leucorrhea. Lumbago. **Malnutrition.** Nymphomania. **Osteomyelitis. Osteoporosis.** Polyps. Rheumatism. **Rickets.** Sexual, mania. Spermatorrhea. Spina bifida. Stiff-neck. Strabismus. Testicles, swollen. Throat, sore.

Calcareo phosphorica Tobacco habit. Tonsils, enlarged. Toothache. **Tuberculosis.** Uterus prolapsed.

HOMEOPATHIC - Calc-p., while resembling Calc., has a very distinct individuality. It has been proved and tested clinically and, having been adopted by Schüssler as his leading "**anti-psoric**," a number of valuable indications have been added by him and his followers.

Generally emaciated (Calc. is generally fat). Dirty-white or brownish (Calc. is chalky-white). Large abdomen (Calc.), but flabby. Craves the salt of smoked meats, and "**fat bacon**."

Stools are green and slimy, or hot and watery, with fetid flatus (Calc.), sometimes green, generally watery, white and mixed with curds. Open fontanelles, especially the posterior (Calc., the anterior only). The skull is thin and soft, almost cracks like paper when pressed upon.

Affects the **nutrition of bones** and glands. The **bones become soft, thin and brittle. Osteoporosis. Osteomyelitis.** Spinal curvatures (Calc-f., Sil.). Promotes ossification of bones in the **non-union of fractures** (Symp.). It has a special affinity where bones form sutures or symphysis. Bone diseases.

Arthritis. Rheumatism. Shifting pains. A slight draft causes rheumatic pains, every cold causes pains in joints and sutures. Sensation of **crawling and numbness.** Trembling or trembling hands with pain or other complaints. Coldness or soreness in spots, vertex, eyeballs, tip of nose, fingers etc.

Predisposition to glandular and bone diseases. Glands are swollen. **Enlargement of tonsils,** acute and chronic. Addison's disease. Tendency to perspiration and glandular enlargement (Calc.). Discharges are albuminous. Shortness of breath. Tuberculosis. Diabetes when the lungs are affected. Symptoms are worse from any change of weather.

Malassimilation. Poor nutrition. **Rickets. Growing pains. Slow development of teeth.** Slow walking, neck too thin and weak to support head. Indicated in anemic children who are peevish, flabby, have cold limbs and feeble digestion. Anemia after acute diseases and chronic wasting diseases. Chlorosis.

Dyspepsia, pain better for a short time by raising wind. When fasting, the pain goes to the spine. **Child suffers from colic after every feeding.** Feeling as if one ought to raise wind and could not. Dyspepsia with indescribable distress in region of stomach, only temporarily better by eating.

MIND - Mental anxiety. Effects of mental strain (Nat-m., Kali-p.). **Moaning and irritable, hard to please.** Complaints are worse when thinking of them. Prostration of mind from talking. Mistakes in repeating words. Writes wrong words, or same words twice. Lack of memory. Weak memory, inability to exert mentally. Forgetful after grief and vexation (Ign., Ph-ac).

Great depression. **Ailments after bad news.** Unpleasant news brings him beside himself. **Ailments from grief, disappointed love.** Vexation and disappointment after grief. Homesickness. Sentimental. Indignation at unpleasant dreams. **Involuntary sighing.** Shuns society and seeks solitude, desires to be quiet and alone. Suspicious. Jealousy. **Discontentment.** Sadness in girls before puberty. Weeping worse consolation.

Fear of hearing bad news. Anxiety during palpitations. Fear of thunder storms. Anxiety for others. Adverse to company. Over reactive, can be irritable and upset easily. Discontent, peevish, restless, bored easily.

Changeable moods. **Temper tantrums.** Sensitive and offended easily. Children are peevish and fretful. **Obstinate and hard to please.** Slow comprehension. **Mental dullness in children.** Difficulty in performing intellectual operations. Cretinism. Idiocy of children. Slow learning to talk.

Dullness and obtuse. **Irritability worse consolation.** Irritability during dentition. Irritability during headache.

Dissatisfaction. Restlessness. **Constant desire to go from place to place** (Tub.). Boredom. Always wants to go somewhere. **Desire to travel.** Wants to be at home and when at home wants to go out, goes from place to place. Censorious, fault-finding. Nymphomania before menses. Confusion on waking in morning.

Abdomen - Colic, soreness and burning around navel. **Colic,** at every attempt to eat, by taking ice cream, cold water or fruits. **Child suffers from colic after every feeding.** Cutting, pinching, sharp pains, followed by diarrhea. Flatulent colic. Bellyache better passing wind, after stool or after leucorrhea. Gripping pain and rumbling in bowels before menses. Burning pain in abdomen. **Sunken and flabby.** Aching soreness and pain around navel, better passing fetid flatus. Oozing of bloody fluid from navel of infants. Festering navel. Empty,

sinking sensation around navel, or in whole abdomen. Motion in abdomen, as of something alive. Abdominal wall as if numb. Abdominal wall quivering or aching. Warm feeling in groins. Pressure and soreness in left side. Weak, sinking feeling in abdomen, with leucorrhoea.

Back - Backache, worse stormy weather. Backache with uterine pains. **Backache with menses.** Throbbing or jerking, below scapula. **Curvature of the spine to the left.** Violent pain, worse least effort, screams with pain. Lumbar vertebrae bend to the left. Rheumatic pain from draft of air with stiffness and dullness of head. Sacrum numb and lame. Soreness in sacro-iliac symphysis, as if broken (Aesc.). Spina bifida. Pott's disease. Drawing pain in back and limbs, with yawning, stretching, bending backward. Aching, pressure, tearing, soreness and shooting pains in coccyx. Violent stitch at a small spot between left ilium and sacrum, from slightest motion.

Bladder - Painful sensation in neck of bladder, like that when having the stream suddenly stopped. Pain in bladder, worse when empty. Sore aching pain in bladder, worse after urination. Pressing pain, most on right side of bladder. Shooting pain in mouth of bladder. Violent pain, in bladder and prostate with weak stream of urine. Cutting and burning, in urethra, after urinating in males. Pressing down, before urination. Drawing in bladder, extends upward, while urinating. Pressing and cutting pains after urinating, in females.

Breasts - Infant wants to nurse all the time and vomits easily. Breasts sore to touch. **Child refuses breast, milk tastes sour or salty.** Milk acid, watery, thin, neutral. Nipples aching, sore. Breasts feel as if larger, as during last half of pregnancy. Weakness after prolonged nursing. Tumors in breasts (left), in men. painful on pressure. Tumors in breasts, painful sensation on pressure. Breasts, sore, feel large. Sexual desire increased during breast-feeding.

Bones - Weak bones, slow to heal. **Osteoporosis.** Brittle bones. Demineralization of bones. **Slow ossification, non-union of bones. Rickets.** It has an affinity where bones form sutures or symphysis, pain, burning along sutures. **Broken bones. Boneinjuries. Delayed healing of broken bones.** Pains in joints and bones. **Growing pains.** Delayed growth of bones. Osgood-Schlatter disease. Osteogenesis imperfecta. Paget's disease. Osteomyelitis, acute or chronic (Calc.).

Causations - Ill effects of over-growth. Broken bones, lifting, operations for fistula. Over study. Grief, disappointed love, bad news. Sexual excess or irregularities. Getting wet. Poor diet.

Chest - Chest sore. Pain through lower left lung. Pain in chest from drafts. Sore pain in sternum. Sharp pain, through sternum. Aching pain in chest with soreness to touch. Sharp pain, right side, coming and going. Sharp pain, takes breath away, worse breathing deep. Clavicle sore. Pressing ache in chest. Shooting pain, in left chest. Pains where cartilages and ribs meet. Ulcer over sternum or clavicle. Hard, bluish lumps in axilla.

Constitutions - Patients, especially children, are delicate, tall, thin or scrawny with dirty brownish skin. Suited to scrofulous, gouty constitutions. Anemic children who are peevish, flabby, have cold limbs and weak digestion, they start convulsively when lying on back better lying on side. They lose breath when they are lifted.

Cough - Suffocative cough, better lying down. Cough during dentition. Cough worse sitting up, better lying down.

Calcareo phosphorica Whooping cough, obstinate cases. Dry, short cough, with soreness and hoarseness. Cough with yellow expectoration, more in morning. Cough with fever, dryness and thirst. Cough from 6 a.m. to 6 p.m. Chronic, of consumptives, who suffer with cold limbs.

Ears - Defective hearing. Sudden swelling of external ear. Coldness of tips of ears, nose and chin. **Cold feeling in ears,** followed by throbbing, heat and hard hearing. Noises in ears after stools. Tearing, in ears when the weather changes to cold. Aching, pressing, tearing or rending in and around ears, most behind, or below. Burning, on a small spot over right ear, highly sensitive to slightest touch. All bones around ears ache and hurt. Sudden swelling of external ear. Singing or other noises in ears. Inner and outer ear swollen, red, sore, itching, hot. Excoriating discharge from ears. Burning itching of outer ear in warm room. Pimples on ears.

Eyes - Cool feeling behind the eyes. Conjunctivitis during dentition. Eyes red, capillary vessels visible in streaks from corners to cornea. Sensation as if something in eyes, worse thinking of it. Diffused opacity in cornea following abscess. Eyes pain, as if beaten. Hot feeling in lids. Squinting. Cannot use the eyes in gas-light. Sweat of brows and lids. Lachrymation, worse when yawning. Light, candlelight or gaslight, hurts the eyes. Misty vision. Letters change into little black points, or small round grey spots. Shimmering, glittering, fiery circles. Veil over eyes.

Face - Pale, yellowish, earthy, full of pimples. Acne in anemic girls at puberty (Calc-pic). Coppery face, full of pimples. Cold sweat on face. Upper lip swollen, painful, hard and burning. Pains in face, in upper jaw bone. Pains in face, with every spell of cold weather. Neuralgia at night in cold air, sensitive to pressure, worse exertion, better heat. Aching, sore, in region of parotid gland. In processus zygomaticus. Heat in face, in evening. Heat in with chill or other complaints.

Female - Girls slow in maturing. Effects of taking cold during first menses. Menses, early, scanty. Menses,

every two weeks, excessive, bright. Late menses, when blood is dark, sometimes first bright then dark. Menses during lactation, with sexual excitement. Dysmenorrhea. **Menses with violent backache.** Eruption, worse during menses. **Leucorrhea like egg white,** worse morning. Burning leucorrhea, albuminous from one term to another, follows pain in abdomen. Prolapsed uterus in debilitated women, worse while passing urine or stool with menses with rheumatic pains. Uterine spasms. Uterine polyps. Uterus, heavy, weak or aching. Uterine displacement with rheumatic pains. Crawling, voluptuous in genitals. Sexual desire increased before menses. Clitoris erect after urination, with sexual desire. Voluptuous feeling as if parts, with increased sexual desire. Nymphomania with aching, pressing or weakness in uterine region (Plat.). Pressure upward over mons veneris. Pressing, drawing and sore feeling as if menses should appear. Abnormal cravings during pregnancy. Weariness in all limbs during pregnancy.

Food - Great hunger with thirst. Much thirst, with dry mouth and tongue. **Craving for bacon, ham, salted or smoked meats.** Craving for raw, salty, piquant food. Desire for tobacco smoking, which helps the headache. Craving for salami, sweets. Abnormal cravings during pregnancy. Colic from ice cream, cold water or fruits. Irritability after coffee. Nausea from smoking, after coffee. Confusion after coffee. Wheat bread tastes bitter. Juicy fruit or cider causes diarrhea. Drinking cold water causes cutting in abdomen.

Head - Delayed closure or reopening of fontanelles. Skull soft and thin, cracking like paper, worse at occiput. **Headache of school children** near puberty, with diarrhea. Headache, **worse near the region of sutures.** Headache, **worse from change of weather.** Depression on occipital bone. Cannot hold the head up, it wobbles. Burning, worse near sutures. Headache in occiput, down spine better cool bathing or sneezing. Headache with abdominal flatulence. Sensation as if brain was pressed against skull. As of ice in occiput. Head hot, with smarting of roots of hair. Cold or sore vertex. Hydrocephalus. Can't hold head up, it wobbles. Throbbing in forehead during menses. Congestion of blood to head during menses. Headache with diarrhea. Perspiration on scalp during sleep. Impetigo on scalp. Bald spots on head.

Heart - Dropsy from heart disease. Palpitations with trembling weakness in calf. Sharp cutting, shooting, pains in region of heart, interrupts breathing. Palpitations with anxiety, followed by trembling weakness, particularly of calves. Feels beating of pulse, not frequent but quick, while sitting, feels it in nape and left chest.

Kidneys - Urine increased with sensation of weakness. Pain in region of kidneys, worse blowing nose or lifting. Urine increased, with sensation of weakness. Frequent urging to urinate. Dark urine, warmer than usual and of a penetrating odor. Diaper reddish-yellow. Increase of urine, with flocculent sediment.

Limbs - Aching in all limbs, with weariness. **Broken bones. Delayed healing of broken bones.** Pains in joints and bones. Pains flying about in all parts of rump and limbs, after getting wet in the rain. **Growing pains.** Gouty fingers and toes becoming painful in cold weather. Weary limbs when going upstairs. Rheumatism in cold season. Rheumatism after every cold. Stiffness and pain with cold, **numbfeeling,** worse any change of weather. Crawling and coldness. Cold limbs with digestive troubles. Fingers sore. Pain, burning along edges of nails. As of a splinter under the nails. Trembling of arms and hands with many complaints. Hard bluish lumps in axilla. Buttocks, back and limbs asleep. Weakness of the hips. Hip joint disease. Fistulous ulcers on ankle joint.

Lungs - Breathing more frequent, short and difficult. Child loses breath on being lifted up. Suffocating attacks in children after nursing worse after crying. Suffocative cough, better lying down. **Involuntary sighing.** Rattling of mucus in lungs. Must scrape mucus from larynx before one can sing or talk. Tuberculosis with cavities with night sweats, yellow expectoration. **Tuberculosis with emaciation.** Obstinate whooping cough.

Male - Stitching pain in perineum extending to penis. Erections while riding in carriage without desire. Shooting pain in root of penis and bladder. Chronic gonorrhea, in anemic subjects. Gonorrhea, gleet discharge, sharp pain in urethra and prostate. Swelling of testicles. Scrotum sore, oozing a fluid. Itching of scrotum with sweating, soreness and pimples. Sexual desire increased with some, with others decreased. Weak feeling in sexual organs after stools.

Modalities - Better in summer. Better warm, dry atmosphere. Better lying down, rest. Better lying on abdomen during restless night. Worse from exposure to damp, cold weather. Worse changes of weather. Worse drafts, cold. Worse melting snow. **Worse from dentition. Worse puberty. Worse mental exertion.** Worse when thinking of symptoms. Worse loss of fluids. Worse from motion. Worse lifting. Worse pressure. Worse ascending. Worse fruits, cider. Worse mornings, evenings. Worse artificial light. Worse getting wet in rain.

Mouth - Sore spot inside of right cheek. **Adenoid growths.** Disgusting taste, worse in morning. Bitter taste in morning, with headache. Bitter taste particularly of wheat bread. Flabby sweetish taste. Bitter taste at beginning of menses. Tongue swollen, numb, stiff, with pimples on it. Tip of tongue sore, burning, little blisters on it. Tongue coated white at root, most in morning. Dryness of mouth and tongue, into choanae, with or without thirst.

Neck - Neck painful from drafts. Rheumatic pains in neck from slight draft of air, with stiffness and dullness of head. Neck weak, thin, head bobs about. Neck too slender to support head. Weak, thin neck, head bobs about. Cramplike, in neck, first one side, then the other. Aching in sides of neck, up to ear, worse pressure, and when *Calcareea phosphorica* turning neck.

Nose - **Tip of nose is icy cold.** Tip of nose itching. Polyps, large, pedunculated. Fluent coryza, forenoon. Coryza with salivation. Coryza, fluent in cool room, stopped in warm air and out-doors. Biting stinging pain in frontcorner of left nostril, later right nostril. Sneezing and lachrymation. Sneezing and soreness on edges of alae. Nose swollen, with sore nostrils or ulcers. Nosebleeds in afternoon.

Perspiration - Sticky sickly sweat worse head and throat, at night. Perspires on various parts at night, waking out of sleep. Copious sweat at night, on single parts. Sweats towards and in morning.

Rectum - Abscess and boils near or about anus, discharge blood and pus. Itching in anus, worse evening. Bleeding after hard stool. Offensive flatus. Tendency to diarrhea from juicy fruits. Diarrhea during dentition with much flatus. Diarrhea from vexation. Diarrhea, containing white points or flakes/ Diarrhea like pus, scanty with much flatulence. Disposition to intestinal worms in anemic or weakly patients. Stitches in rectum toward anus. Shooting pain in anus. Fistula in anus, alternating with chest symptoms. Fistula of anus, in persons who have pains in joints with every spell of cold, stormy weather. Fissure of anus in tall, slim children. Hemorrhoids, oozing watery fluid all the time. Hemorrhoids, painful, external, send one to bed, itch, burn, discharge a yellow pus. Sore feeling in anus when getting up in morning. Daily watery, very hot stools. Copious soft stool in morning. Soft stool, passed with difficulty. Stools, green, slimy, **hot**, sputtering, undigested with **fetid flatus**.

Skin - Dry skin, moist on hands. Dark, brown, yellow. Itching and burning, as from nettles. Itching, biting, most on places years before affected. Pimples in region of joints. Fistulous or scrofulous ulcers, slow to heal. Cholesteatoma. Tetters on lower legs, peeling off, scaling. Furuncles from ulcers. Ulceration from mustard poultice. Scars from amputation ulcerate.

Carcinosin

Female - Frequent menses, too early, too soon. Bleeding between menses. Imaginary pregnancy. Increased sex drive. Disposition to masturbation, too frequent or too early. Uterine bleeding after sex. Flatus from vagina. Ailments since menopause. Encysted tumors. Ovarian cysts. Uterine fibroids and tumors. Cancer.

Food - Capricious, changeable appetite. Ravenous or wanting appetite. Desires **chocolate**, coffee, sweets, sugar, **fat**, eggs, butter, cheese, cream, milk, ham fat, bacon, and smoked meat. Desires raw potatoes and onions, garlic, vinegar, fruit, soup, salt and pepper, **spicy foods**, farinaceous food, **food that makes him worse**. Aversion to soup, sweets, fat, butter, eggs, ice cream, rich foods, alcoholic drinks, coffee, meat, salty food, and fruit. Aggravated from alcoholic drinks, wine, coffee, milk, eggs, fat, meat, fruit, rich food, salty things; sweets. Thirst for large quantities. Desires cold drinks, cold milk, warm drinks, alcoholic drinks, wine.

Head - Constriction and contraction sensation in brain. Heaviness in forehead. **Head injuries** (Nat-s.). Swelling of brain. Tired feeling with headache. Headaches on sides. Pressing pain in right side of temples. Headaches after excitement of emotions. Headache deep inside brain. Deep aching in brain. Headaches after injuries, after childbirth. Throbbing, pulsating in brain. Pulsating pain in forehead, extending to eyes, above the eyes or behind them. Worse windy, stormy weather and physical exertion.

Heart - Constriction, grasping sensation. Sighing breath, causing the heart to constrict. Palpitations, audible, tumultuous, violent and visible. Palpitations in the afternoon, 2 p.m. to 6 p.m.

Kidneys - Frequent urination, involuntary at night. Albuminous and bloody urine, contains granular casts. Nephritis. Kidney diseases.

Limbs - Weakness, numbness and aching, especially in the thighs. Twitching of limbs and individual muscles. Rheumatic pain

in joints. Ganglion. Sciatica. Varicose veins in lower limbs. Weakness of thigh, better exertion. Pain in lower limbs, better warmth of bed. Aching pain in thigh, better exertion. Numbness of thigh, better exertion or nap. Pain in legs, better from heat, warmth of bed, gentle exertion, quick motion, after a short sleep. Warts on soles of feet, hands, palms. Crippled or distorted nails, hangnails. Itching eczema eruptions on hands. Abnormal hairiness of arms and legs. Sudden heaviness of upper arms. Twisting sensation in upper limbs. **Liver** - Hepatitis infectious. Enlarged and weak liver. Cirrhosis of liver, hereditary. **Lungs** - **Deep desire to breathe**. Yawning.

Difficult breathing, after running. Asthma and recurring bronchitis. Asthma, after fright, wet weather, in morning, forenoon, 10 a.m. Chronic pneumonia in children. Cough, worse from talking, laughing, yawning, undressing or dressing, cold air, tickle in throat. Expectoration is bloody, spitting blood.

Male - Increased sex drive. Disposition to masturbation, in children. Troublesome or wanting erections. Condylomata.

Modalities - Better from open air. Better during thunderstorms. Worse from warm room. Worse weather

extremes. Worse air at seashore. Worse full or new moon. Approaching storms can either ameliorate or aggravate.

Mouth - Aphthae. Patches of white discoloration. Putrid taste in mouth. Sensation of lumps on palate. Soreness in palate, worse hot drinks. Prickling in palate, worse in morning and evening. Papillae absent at tip of tongue. Ulcers on edges of tongue. Pressing in gums. Burning vesicles on gums. Stammering speech.

Neck - Hypothyroid. Goiter. Induration of glands. Swelling of thyroid. Clothing aggravates.

Nose - Recurring sinusitis. Catarrh of sinuses. Catarrh in cold weather. Hay fever, allergies. Frequent, recurrent coryza. Excoriating, thick, yellow discharge. Persistent, recurrent nosebleeds. Varicose veins.

Sleep - *Children cry and moan in sleep.*

Constant stretching and yawning. Sleepiness during day, before menses. Yawning, with irresistible drowsiness all day. Cannot get awake in early morning. Disturbed sleep, worse before midnight. Drowsiness gloomy mood, inability to think, headache, ringing in ears, sweat in face, prostration of limbs. Nightmares. Vivid dreams of late events or last readings. Dreams of travelling. Dreams of fire.

Stomach - **Weak digestion**, every bite hurts the stomach. Chronic stomach or abdominal pains of schoolchildren. Heartburn. Burning in pit after belching. Burning at stomach and rising of water into mouth. Infant persistently vomits breast milk or other milk. Infant wants to nurse all the time and vomits easily. Stomach feels expanded. **Much flatulence**, temporarily relieved by sour belchings. Faint feeling in stomach, with too early menses. Nausea on attempting to scrape larynx. Nausea, rising from pit when moving, better rest. Nausea followed by headache and lassitude. Retching from hawking up mucus. Vomiting, while hawking mucus with trembling hands.

Teeth - **Delayed dentition**. Teeth develop slowly. Retarded dentition, with emaciation. Convulsions without fever during dentition. Teeth sensitive to chewing. Hollow teeth sensitive to cold air. Teeth, soft. **Teeth decay easily** (Calc-f.). In eye and stomach teeth. Shooting pain in molars. Tearing, boring pain, at night, worse warm and cold things. Toothache worse warm and cold things.

Temperature - Easily chilled. Chilly with pains. Chills up the back, but heat down the back. Fever with dentition. Dry fever, in evening, hot breath, noticeable beating of heart, mouth and tongue without thirst, yawning, stretching.

Throat - Sore aching in throat, feels hollow. Sore throat with tickling cough in evening, worse after going to bed. It hurts to swallow saliva, not food. Burning in pit of throat. Pain and burning from other parts towards throat. Burning in larynx following burning at back of tongue. **Tonsillitis**.

Swollen tonsils, cannot open mouth without pain. **Chronic enlargement of tonsils** in scrofulous subjects.

Adenoid growths. Throat feels hollow. Sensation of weakness in throat. Dryness in throat at night. Sore throat with fluent coryza. Hawking up phlegm late in evening, at night and in morning, with gagging. Hoarseness and cough, day and night. Must scrape mucus from larynx before one can sing or talk. Catarrhs in scrofulous or gouty constitutions.

Vertigo - Vertigo in windy weather. Vertigo and loss of memory during dinner. Vertigo, worse constipation. Staggering when rising from a seat. Vertigo on motion. When walking in open air. Vertigo of old people. Dizziness when getting up, or rising from sitting. Vertigo with dull headache, nausea, complaints of eyes, neck, aching limbs. Vertigo during menses.

COMMENTS - Affects the parathyroid glands, which affect calcium metabolism. Paget's disease, Osgood-Schlatter disease, osteoporosis, osteomyelitis, acute or chronic (Calc.). Brittle bones.

In a case of osteogenesis imperfecta, Calc-p. lessened the frequency of broken bones and helped to strengthen the bones. Helps to heal broken bones (Symph., Calcfl if the broken bone begins to decay). For both remedies, make sure that the bones are correctly set before giving the remedy.

For problems associated with bony structures, calcium deficiency related to bone, bone marrow problems and anemia. Defective bone growth, bones thin and brittle. Brittled matrix. Lack of structure and cohesiveness, curvatures (Calc., Sil.).

Flat feet and feet that are turning in too much (Calc.). Growing pains. Slow bone growth, fontanelles not closing properly. Scoliosis, weak tender feet. Stiffness on the neck and knees. Teething delayed and painful.

Children with a lot of glandular problems, adenoid and tonsils problems. Stunted growth. Enlargement of tonsils, acute and chronic. Tumor of the parathyroid gland, hyperparathyroidism.

Useful in cases of fistula and when fistula has been operated on with the symptoms appearing elsewhere. Fistula alternating with chest symptoms.

Shortness of breath. Involuntary sighing. Contraction of chest and difficult breathing, evening until 10 p.m., better lying down, worse getting up. Constant stretching and yawning. Crying out in sleep. Cannot get awake in morning.

Keenote moaning. Moaning in fevers. Children that are peevish and have chronic discontent. Hyperactive,

hard to please, irritable, emaciated, and scrawny. Sunken features and blue circles around the eyes.

There is a weak, sinking sensation in the hypogastrium and a sinking, empty feeling in the epigastrium. Poor assimilation problems, may have poor nutrition. Rickets, thin and weak. Flabby stomach (Bar-c.. is hard). Aggravation from fruits, resulting in diarrhea.

Prolapsed uterus, worse during stool or urination. Aching in uterus, cutting through to sacrum. Cream-like leucorrhea. Burning in vagina with pain on both sides of the bladder and uterus, burning like fire up into chest. Flushes of heat and faintness, sweats easily. Profuse sweats (less than Sep.). Menses are profuse and the patient is weak and tubercular.

Nymphomania, all organs in erection with irresistible desire, particularly before menses. Voluptuous feeling, as if all the parts were filled with blood, pulses in all the parts with increased desire after urination.

Grauvogl considered it the most important remedy in chronic hydrocephalus and he gave it as a prenatal remedy during pregnancy to women who had previously borne hydrocephalic children.

Chills, run upward. Hering states: 'The chills run up the back, terrible muscular jerks in body, which almost throw him out of his chair.' Cold sensation in the limbs as if cold water poured over them, creeping numbness pains and coldness, electric-like shooting pains. Very sensitive to draft. Worse from cold, wet weather. Every exposure increases the rheumatic pains and uterine distress.

Etiologies include a large stress resulting in a decrease of vital energy, like grief, separation, death. They may get sick after not enough sleep (Cocc.). Slow to learn, due to structural problem (Bar-c., neurological). Headaches worse from studying and concentration.

RELATIONS - Compare: (1) Calc., Sil., Phos., Calc, hypophos. (2) Cheiranthus - effects of cutting wisdom teeth. (3) Conchiolin. - Mother of pearl - has a wide range of action in bone affections, especially when the growing ends are affected. Osteitis. (4) Cham., Ign. Psor., Sulph. **Complementary:** Ruta., Hepar.

REFERENCES - Boericke. Clarke. Murphy.

***CALCAREA PICRICA

(Calcium Picrate)

PHARMACY - calc-pic. Calcarea picrica. Calcium picrate. Picrate of calcium. **Historical dose:** Trituration and all potencies.

CLINICAL -Boils. Ear, boils. Fatigue. Phlyctenules. Prostration. Skin, disorders. Styes.

HOMEOPATHIC - Houghton noted that the extreme prostration of Picric acid is relieved by this salt also. Picric acid and all its salts are curative in states of intense prostration and fatigue. Indicated by clinical experience for peri-follicular inflammation.

Recurring or chronic **boils**, particularly when located on parts thinly covered with muscle tissue, as on shinbones, coccyx, or the auditory canal. Minute and excessively painful boils in meatus. Dry, scurfy accumulation and exfoliation of epithelial scales. Styes, phlyctenules.

REFERENCES - Clarke.

***CALCAREA SILICATA

(Calcium Silicate)

PHARMACY - calc-sil. Calcarea silicata. Calcium silicate. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Anal fistula. Atrophy. Cataracts. **Chilliness. Cold.** Cornea, ulcers. Diabetes. **Dropsy. Emaciation.** Epithelioma. Flatulence. Goiter. Hydrocele. Leucorrhea. Lupus. Polyps. Scrofula. Ulcers. Uterus, prolapsed. **Weak.**

HOMEOPATHIC - This preparation of Calcarea silicata has been used by Ussher in the 1x and 6x potencies in cases of atrophy of children. He found it succeeded where Sil. failed in these cases and in corneal disorders. It causes absorption of corneal exudations. Indicated by ulcers with punched-out edges.

Kent said it cured cataracts, polyps, goiter, epithelioma and lupus. Diabetes mellitus. Hydrocele. Useful in restraining malignant ulceration in the breasts.

Calc-sil. is a deep, long acting medicine for complaints which come on slowly and reach their final development after long periods. **Weak, emaciated, cold and chilly**, worse from being overheated, generally sensitive. Atrophy of children.

Aversion to the open air. **Lack of vital heat.** Very sensitive to the **cold.** Extreme sensitiveness to drafts. Catching colds constantly. Thick greenish-yellow expectoration. Abscesses, catarrhal discharges, ulcers, are marked with thick, greenish-yellow pus. **MIND** - Absent-minded. Inability to concentrate. Confusion of mind in the morning. Irritable, irresolute. Lacks self-confidence. Discontent and despair. Weary. **Fearful.** Anxiety about health. Fear of brain lesion. Discouraged about her disease, thinks it an incurable disease. Excitable and easily

angered, worse after anger. Consolation irritates.

She sits long in one place and looks into space and does not answer when spoken to. Passive delirium, talks and acts like one insane. Talks to people who have long been dead. Mutters foolish things.

Abdomen - Slow digestion, slow action of bowels and liver. Dropsy of the abdomen, enlarged liver. Distention of the abdomen after eating. Flatulence with much rumbling and fullness.

Back - Back feels cold and there is a sensation of coldness in back of neck and sacrum. Hard aching in the back, when rising from a seat. The spine is sore to touch. Stiff neck.

Breasts - Useful in restraining malignant ulceration in the breasts. Excoriation of the nipples. Suppressed or absent milk.

Chest - Pain in chest walls. Constriction of chest. Eruption on chest. Pain in chest during cough, on inspiration, deep breathing.

Constitutions - Hydrogenoid constitution. Constitutional condition in patients suffering from epilepsy, making the fits lighter and farther apart.

Ears - Offensive, purulent, thick and greenish yellow discharge. Itching deep in ears. Noises in ears, cracking in ears when chewing. Increased wax in ears.

Eyes - Corneal exudation. Eyelids are agglutinated with pus. Cataracts. Itching of the eyes. Lachrymation in open air. Paralysis of the optic nerve. Photophobia.

Face - Very pale, an earthy color. Lips bluish, dry and cracked. Red face during headache, circumscribed red cheeks. Eruptions of the face, acne, boils, comedones, eczema, herpes, pimples.

Female - Menstrual flow absent or suppressed, painful and irregular. Flow between periods. Leucorrhea, painful and irregular menses. Uterus is heavy, prolapsed. Ulceration of labia, vagina.

Food - Great thirst. Aversion to food, especially to meat and milk. Some desire for sour things, milk. Many complaints worse from cold food and cold drinks.

Head - Coldness of the head, especially of occiput and vertex. Congestion of the head at night. Constriction of the forehead. Eruptions on the scalp, crusts, eczema, pustules. Perspiration of the whole scalp.

Kidneys - Sudden ineffectual urging. Frequent urination during the night. Involuntary urination during sleep.

Limbs - The muscles, tendons and joints are weak and easily strained. Stiffness of all the limbs, joints. Heaviness of all the limbs. Gouty nodosities. Cramps in hands, lower limbs, calves, feet, soles, toes. Boils on the upper limbs. Cracked hands and fingers. Nails have ceased to grow.

Lungs - Difficult respiration. Breathing fast, asthmatic. Chronic irritation of air passages. Coughs with coldness, weakness, emaciation, worse from cold air. Coughs in tubercular subjects. Copious expectoration, greenish-yellow, bloody.

Male - Enlarged and tender prostate gland. Emission of prostatic fluid when straining to pass stool. Erection at night without thought or dreams. Eruptions on the prepuce. Hydrocele and induration of testes. Foul sweat on genitals.

Modalities - Worse from change of weather. Worse from warm to cold. Worse cold air. Worse becoming cold. Worse after becoming cold, and cold, wet weather. Great aggravation from being overheated. Worse after sex. Worse exertion. Worse motion.

Mouth - Mouth covered with aphthae. Very dry, but at times copious mucus. Offensive, even putrid odor from the mouth. Bad taste, alkaline, bitter in the morning, metallic, putrid, sour. White coated tongue. Tongue is very sore. Difficult speech. Swollen gums and tongue. Bleeding gums.

Nose - Head colds, catarrh of nose and posterior sinus, discharge thick, yellow, hard crusts. Extreme dryness inside, of nose. Nosebleed, bright red blood, on blowing nose. Polyps.

Rectum - Extreme constipation with inactivity of the rectum. Difficult stool, paralyzed feeling in rectum. Constriction of anus. Stricture of the rectum. Fistula in anus. Painless diarrhea. Dysentery with bloody, scanty stools.

Skin - Cold and blue, very sensitive. Cracked skin. Dry, burning skin and inability to perspire. Burning of the skin after scratching. Pimples, comedones, wens. Eczema and herpes. Psoric eruptions. Pimples, pustules, and red rashes. Warts painful, hard. Liver spots.

Sleep - Restless sleep. Easily startled during sleep. Shrieks during sleep. Confused, amorous, frightful, fantastic dreams. **Dreams of the dead**, of death, murder, disease, fire, anger.

Stomach - Anxiety in the stomach. Sinking

Calcareae silicata sensation at pit. Sensation of coldness, especially when empty. Flatulence and distention after eating. Heartburn. Hiccough. Vomiting and belchings. Vomiting bile, black blood, food, mucus and watery substances.

Teeth - Loose teeth, feel too long. Decay of the teeth. Pain in the teeth at night. Very sore when chewing.

Temperature - **Cold all the time, lack of vital heat.** Cold sweat mostly on the limbs. Hectic fevers. When

perspiring, a slight draft or cold air will suppress the sweat and he becomes lame and the symptoms in general are worse. Marked periodicity in many symptoms.

Throat - Inflammation of the throat, pharynx and tonsils with dryness and redness. Constant effort to clear the throat. Lump in the throat. Splinter-like pain on swallowing.

Vertigo - Vertigo, in morning, on rising, after rising, in evening, while lying, looking upwards, from mental exertion. Vertigo with a tendency to fall backward during headache.

COMMENTS - The silicate of lime is a very deep-acting remedy. It acts profoundly upon the skin, mucus membranes, bones and glands. Marked emaciation, especially in children who have inherited tuberculosis.

Great weakness, especially in the morning on waking, after least exertion, from mental exertion, or walking in open air. Great nervous weakness. Weakness, night sweats and seminal emission. The least exertion prostrates and increases many symptoms. Stiffness in body, back and limbs when cold, after exertion and after sweating. Wet weather brings out all his sufferings.

Hemorrhage from throat, nose, larynx and chest. Swelling from dropsy and inflammation, swelling of affected parts, of glands with hardness. Mucus secretions increased and greenish-yellow.

RELATIONS - Compare: (1) Ars., Tub., Bar-c., Iod. (2) Fl-ac., Lap-a.

REFERENCES - Boericke. Clarke. Kent.

***CALCAREASULPHURICA

(Calcium Sulphate)

PHARMACY - calc-s. Calcarea sulphurica. Calcium sulphate. Plaster of Paris. Gypsum. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL -Abscesses. Anus, abscess. **Boils.** Buboës. Burns. Carbuncles. Chilblains. Concussion. Conjunctivitis. Cornea, ulceration. Cough. Crusta, lactea. Cysts. Deafness. Dropsy. Dysentery. Eczema. Fistula. Gland, swellings. Gonorrhea. Headaches. Hemorrhages. Injuries. Lupus, vulgaris. **Pimples.** Pneumonia. Polyps. **Pustules.** Scarlatina. **Skin, disorders.** Spermatorrhea. Syphilis. Tonsillitis. Tumors. Ulcers.

HOMEOPATHIC - Calc-s., which is an impure sulphide of calcium, has a wide sphere and deep action in suppurative processes. Calc-s. is closely related to Hep. It is Dr. Schiessler's connective tissue remedy, and most of the indications for its use are derived from his clinical experience.

Calc-s. affects glands, mucus membranes, bones and skin. **Mucus discharges are yellow, thick and lumpy.** Abscess formation. Recurrent or running **abscesses.**

Tendency to suppuration. Suppurative processes come after pus finds a vent. Pus is thick, yellow, lumpy, bloody. Burns and scalds after suppuration starts in. Malignant growth after ulceration has set in. Torpid glandular swellings.

Tendency to form pus easily. Every cut or scratch will suppurate, create pus. Boils with a lot of pus, boils all over the body (Calc-pic.). Tendency to get boils. Severe acn  s with yellow pus coming out and leaving pock marks.

Eczema and torpid glandular swellings. Cystic tumors. Fibroids. Ulcers, malignant, corneal, deep. Fistula. Cutting pains. Poor reaction. Infants with bloody coryza, diarrhea or eczema. Lupus vulgaris.

MIND - Confusion from mental exertion. Forgetful after eating. Loses memory and power of thought suddenly, after lunch. Sits and meditates over imaginary misfortune. **Changeable moods.** Liveliness and good spirits change to grief and melancholy, afternoon and evening. Sad in morning, but mirthful in evening. Inclination to weep during perspiration.

Hurndfeeling. Anx  r  y in **evening.** Anxiety in bed, at night, better open air. **Timidity.** Fear of birds. Sometimes a desire to walk, to attend to something, as soon as she sets out to do it the desire is gone.

Easily angered, followed by weakness. Jealousy. Despises those who do not agree with him. **Irritability in evening.** Lamenting because he feels he is not appreciated. Grumbles that others do not understand him.

Abdomen - Colic with rumbling. Colic with diarrhea. Coldness and distension of abdomen after eating. Pain in right side of pelvis, followed by weakness, nausea and pain in stomach. Sensations in lower part of abdomen as if skin was too tight, with pain. Pains in liver region, in right side of pelvis, followed by weakness, nausea and pain in stomach. Bubo  s, to prevent suppuration.

Back - Curvature of lumbar spine, difficult to sit up. Pains across back of neck. Pains in lower part of back. Chronic pain in os coccygis was greatly aggravated.

Chest - Pain in sternum, becoming so much worse that she was obliged to double up. Pains across chest. Pains in chest with headache. Abscess in axilla.

Constitutions - Psoric and allergic constitutions.

Ears - Deafness with discharge of matter from the middle ear, sometimes mixed with blood. Chronic otorrhea.

Otorrhea after scarlet fever, pus thick, bloody and offensive. Otorrhea with sore and enlarged parotids. Flow of dark wax from right ear. Otitis after a slap on ear. Pimple on top of right ear. Pimples around ear.

Eyes - Inflammation of eyes, evening and night. Conjunctivitis with discharge of thick, yellow matter. Conjunctiva yellow. Eyes red like raw beef. Red, itching tarsi. **Inflammation of the eyes with discharge of thick, yellow matter.** Sensation as if eyes were sunken, during menses, during headache. Cornea smoky. Deep ulcers on cornea. Ophthalmia neonatorum.

Severe inflammation in canthi. Smarting pain in inner canthi. Injury to eye from a splinter with pus formation. Twitching of eye muscles. Sees only one-half of an object. Diplopia. Occasional blindness, with twitching of eyelids.

Face - Exceedingly pale, sickly appearance. Flushes with heat. **Pimples and pustules on the face.** Many tender pimples under beard discharge blood or oily transparent matter. Herpes. Boils. Darting pain in right side of face. Soreness of right parotid gland, better walking in open air. Swollen hard pimple on left cheek.

Female - Menses late, long-lasting, with headache, twitching, and great weakness. Vaginitis. Thick, white leucorrhea. Itching high up in vagina. Mastitis, when pus begins to form or to prevent suppuration. Twitching during menses. Cutting pain in right ovary.

Food - Excessive appetite and thirst. No appetite for meat. Craves stimulants to overcome the weakness. Desires for both sour and salt. Desires sweets, acid fruit, green fruit. Desires tea, claret, green sour vegetables and fruit. Diarrhea after maple sugar.

Head - Chronic and periodic headache, worse looking up. Severe frontal headache, worse after dinner. Ache across forehead and in vertex. Headache from concussion. Tearing pain around whole head, with nausea. Pulsating headache from becoming cold, better cold air. Painful pimples on scalp leave a yellow scab. Hard tender swellings in scalp in edge of hair, bleeding when scratched. Boil over left eye. Scald head of children, with purulent, yellow discharge or crusts.

Heart - Pains from anterior of heart down extending to lower part of thigh.

Kidneys - Pyelitis. Chronic nephritis. Pain in kidneys. Severe pain, followed by pus in urine, which weakens one rapidly. Catarrh of bladder. Copious, yellow pus in urine. Red urine with hectic fever.

Limbs - Pains in joints. Chilblains, when suppurating. Swelling of phalanges of fingers. Burning in soles with hectic fever. **Burning, itching of soles of feet.**

Inflammation and swelling of little finger. Whitlow when suppuration begins. **Weakness of legs.** Weariness in knees after walking. Lameness in inner part of left knee when in bath. Pains in lower limbs worse stretching limb. Sciatica. Stitches in knee. Inflammation of hip-joint. Suppurative stage of hip disease. Painful stiffness of legs. Legs tender to touch. Feet slightly swollen and tender.

Liver - Pain in region of liver.

Lungs - Asthma with hectic fever. Difficult breathing, worse evening and night. Difficult breathing, worse ascending, cough and lying, better cool air. Short-breathed, constipated and cachectic. Pneumonia, late stage.

Empyema, pus forming in lungs or pleural cavities. Rattling of mucus in lungs. Choking croup. Cough with purulent and bloody sputum and hectic fever. Chronic cough with tuberculosis. Purulent, bloody expectoration. Catarrh with thick, lumpy, white-yellow or pus-like secretions.

Male - Gonorrhea in suppurative stage. Chronic syphilis. Spermatorrhea with impotence.

Modalities - Better from open air. Better bathing. Better eating. Better local heat. Better uncovering. Worse from drafts. Worse cold, wet. Worse touch. Worse heat of the room. Worse standing. Worse walking fast.

Mouth - Inside of lips sore. **Gumboils.** Gums bleed while brushing teeth. Soreness, left side of roof as if burned, while eating. Sour, soapy, acrid taste. Taste bitter. Sour, soapy, acrid taste. Blister-like sores on right lower lip. ulcerate, ooze bloody matter. On outer lower lip a raw sore, forming a scab. Cracked lips. **Swollen cheek with toothache, if suppuration threatens.** Pains in right upper jaw, with swollen and tender gums about a decayed molar. Toothache, molar sensitive to cold air, water. Toothache with swollen cheek. Toothache after dark and in sleep. Toothache first worse cold water, soon better.

Nose - Influenza and sneezing, better open air. Cold in the head with thick, **yellowish, purulent secretion**, frequently tinged with

Perspiration - Profuse, with an offensive smell. Sweat during sleep.

Rectum - **Constipation** and inactivity of the colon, without desire or urging. Inactivity of rectum. Constipation better at the seashore. **Black, dry, hard**, tarry- looking stool. Pain like a splinter after stool. Pulsation sensation. Constriction, closure and general pain, better bending, pressing, warm drinks. Worse from itching and scratching. **Hemorrhage** from anus. **Hemorrhoids.** Rectal fissure, fistula. Con- dylomatas. Prolapsed rectum in children. Diarrhea in children from excitement, emotions. Worm complaints in children.

Skin - **Café-au-lait spots.** Brown, liver spots. **Moles and nevi.** Boils. Warts. Excrescences. Itching, without eruptions, worse undressing. Psoriasis. Eczema in children. **Keloids.** Acne on face, back and chest.

Ecchymosis. **Wounds** are slow to heal. Ulcers. Bed sores. Lupus, erythematosum. Purpura hemorrhagica.

Sleep - Chronic or acute insomnia, causeless. Insomnia from grief, mental activity. **Sleeplessness from anticipation or anxiety**. **Sleeplessness** from nursing loved ones. Child must be carried or rocked to sleep. Deep, heavy sleepers. **Sleeps in the knee-chest position** or on the right side. Sleeps on abdomen. Sleeps with arms over head. Genu-pectoral position during sleep, on knees with face forced into pillow. Children sleep on their knees and elbows. Restless sleep, but ameliorated from short naps (Phos.). **Unrefreshing sleep**. Waking after midnight, 4 a.m., from dreams. Wakes early and frequent, as from a fright, from shocks through the body or twitching. Worse from interrupted sleep.

Stomach - Anxiety in pit. Pain on bending double, from coughing, worse hot drinks, better pressure. Indigestion. Belchings. Heartburn in children. Congenital stenosis. Stomach ulcers. Nausea, from motion, in the morning, at beginning of menses, during menses. Persistent nausea during pregnancy. Periodic vomiting, alternating with diarrhea. Vomiting from anticipation. **Cyclic vomiting** in infants, bulimia.

Malnutrition due to effects of additives. **Teeth** - Decayed, hollow teeth. Toothache.

Grinding of teeth during sleep.

Temperature - High fevers of unknown origin. Influenza, constantly relapsing, never well since. Acute or chronic mononucleosis. Recurrent history of glandular fever. Rheumatic fever in childhood. Fever after vaccinations.

Throat - Sore throat, in morning, better cold drinks, worse warm drinks. Scraping in throat before able to speak. Chronic hoarseness. Clears throat before speaking. Lump sensation in larynx. Lump in throat, worse from empty swallowing, at night, on waking, and from heat, better cold. Pain on empty swallowing. **Enlargement of tonsils**. Recurrent tonsillitis.

Vertigo - Rising from stooping.

COMMENTS - Phatak stated "A nosode prepared from Carcinoma is claimed to act favorably, modifying the cases in which there is a history of carcinoma or the disease itself exists. Can be used as an intercurrent remedy along with indicated."

Clarke used it more frequently than any other as a miasmatic remedy. Clarke had met with a suicidal tendency in several cancer patients, the cancer nosodes may be appropriate in mental cases, especially where the heredity points that way.

Burnett had a number of different cancer preparations and followed his instincts largely in their use and selection. He used Care, in treating depraved inherited conditions in children, such as infantile self-abuse, with good effects, which Clarke later confirmed.

Kent used Care, for cases of incurable cancer with sharp, burning, tearing pains. He claimed it would palliate the cancer for years, although it would not cure it.

Foubister studied 200 pregnant women who had cancer and, later, their children. The children had a tendency to birthmarks and to blue sclera, a blue spot in the white of the eye, or blue shading in the white of their eye. Useful for deep pigmentations, strawberry angioma. Can prevent keloids.

blood. Bloodstreaked mucus from left nostril after a bath. One-sided discharge from nose. **Yellowish discharge from posterior sinuses**. Sneezing, better open air. Bloody coryza in infants. Excoriating watery coryza in open air, better in-doors and after washing with cold water. Coryza on right side after a bath, better outdoors. Edges of nostrils sore. Quivering on root of nose. During day right nostril discharges watery mucus, left dry, at night vice versa. Scanty phlegm, mostly from posterior nares, morning and evening. Posterior nares closed, watery coryza from anterior.

Perspiration - Foul, cold foot sweat. Easy sweating, worse coughing. Profuse sweats with hectic fever.

Rectum - Constipation with hectic fever. Constipation with difficult breathing. Diarrhea of children with discharge of pus or bloody pus. Diarrhea with pain in abdomen and from change of weather. Diarrhea after maple sugar and from change of weather. Purulent diarrhea mixed with blood. **Painful abscesses about the anus**. Anal fistula. Pus-like, slimy discharge from the bowels. Stools, coated white. Moisture about anus causes itching and smarting.

Skin - Unhealthy skin. Cuts, wounds, discharging pus, do not heal readily. **Boils and abscesses**. Skin affections with yellowish brownish or greenish scabs. **Skin suppurates easily**. Many little pimples under the hair, bleeding when scratched. Dry eczema in children. **Acne with pus filled pimples**. Eczema, eruption has yellowish scales, and there are many pimples and points of suppuration. Skin cracked in winter, especially the hands after washing. Scarlet rash. Scarletina with excessive swelling of soft palate. **Yellow, purulent crusts or discharge**. Purulent exudation in or upon the skin. Yellowish scabs. Many little pimples under the hair, bleeding when scratched. Dry eczema, worse in infants.

Sleep - Starts from sleep, as if wanting air. Sleepy during day, wakeful at night. Before going to bed, pain in head. Internal lassitude after siesta. Dreamed she had a

convulsion from fright, awoke screaming and much exhausted.

Stomach - Indigestion on least provocation. Pains in stomach and burnings. Nausea during vertigo. Nausea during headache. Nausea during pain in pelvis. Sensations of weakness in stomach.

Temperature - Chills beginning in feet. Hectic fever, caused by formation of pus. Averse to covers when cold. Dry heat at night. Easy sweating, worse coughing. Hectic fever with cough and burning in soles.

Throat - Last stage of ulcerated sore throat with discharge of yellow matter. Tonsillitis. Suppurating stage of tonsillitis, when abscess is discharging. Discharge of pus is anticipated. Pharynx red and sore, tonsils affected.

Tongue - Slightly puckered sensation at base of tongue. Tongue seamed with a deep red line. Glossitis, when suppuration begins. Tongue flabby, resembling a layer of dried clay. Yellow coating at base.

Vertigo - Vertigo better open air but worse walking fast. Vertigo while walking. Dizzy in head and weakness. Vertigo with deathly nausea.

COMMENTARY - Calc-s. is a synthetic remedy, useful for a Sulph. and Calc, states. Similar to Hep., which is calcium sulphide (this is calcium sulphate), it's useful for following Hep., or dealing with residue.

Better in open air, better walking in it, desire for it (Hep. cannot bear the slightest exposure). Worse from change of weather (Hep.). Calc-s. has not the excessive sensitiveness to touch found in Hep.

Nash cured a case of suppurating kidney with it. Hansen recommended it in dry eczema in children. Has cured cystic tumors, fibroids and polyps.

RELATIONS - **Compare:** (1) Calen., Hep., Kali-m. (2) Nat-s. - post-scarlatinal dropsy. (3) Sil. - hard or suppurating glands, ulcers of cornea tonsillitis, mastitis, frostbite. **Follows well:** Kali-m., Nat-s., Sil..

***CALCULUS RENALIS

(Kidney Stones)

PHARMACY - calcul-r. Calculus renalis.

Kidney stones. Calculi urinae. Lapidus renalis. Calcarea renalis. Renal calculi. (Urate of lime, or phosphate of lime, kidney stones) Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Arthritis. Arthritis, nodosities. Bladder, stones. Gout. Gravel. Joints, nodosities. **Kidney, pain. Kidney stones.** Rheumatism. Rigg's disease. Teeth, tartar. Uric acid, stones. Urinary gravel. Vomiting.

HOMEOPATHIC - Bredenoll considered the kidney stones, tartar on the teeth and arthritic nodosities very similar morbid products. Calcul-r. is reported to be peculiarly beneficial in Rigg's disease of the teeth. Arthritic nodosities. It is called for in gouty conditions : in. renal calculi and nodosities of fingers.

Lessens the tendency to the accumulation of tartar on teeth, gravel and kidney stones. Useful where teeth acquire abundant tartar with inflamed gums. **Horrible anguish and pain from kidney stones.** Frequent desire to urinate. Urinary gravel. Urine is turbid and bloody. Vomiting of mucus, bile ingesta. **Joints** - Arthritis nodosities. Stiffness.

Rheumatism.

Kidneys - Severe pain in region of kidneys.

Kidney colic. Violent lancinating, sore or pinching pains. **Kidney stones.** Uric acid stones.

Teeth - Tartar on teeth. Rigg's disease.

COMMENTS - The Hom. Recorder of Aug., 1895, reprinted a paper by Dr. Bredenoll of Erwitte in which he gave his experience with this remedy in his own case of intense kidney colic with the passage of uric acid stones.

One of these stones was triturated in the proportion of 5 parts to 95 of milk sugar. Of this, he took 1/2 grain doses for a considerable time, resulting in the formation of stones ceasing. The tartar which had formed on his teeth dropped off, and a nodosity of stony hardness disappeared from the extensor tendon of the right middle finger.

Dr. Bredenoll writes: "In November, 1837,

I was suddenly attacked with vomiting, accompanied with violent lancinating, sore or pinching pains in the region of the left kidney. The horrible anguish and pain which I experienced extorted from me involuntary screams, I was writhing like a worm in the dust.

"A calculus had descended into the ureter and had become incarcerated in it. Repeated doses of Nux-v relieved the incarceration and I distinctly felt that the calculus was descending towards the bladder. After twenty-four hours of horrible suffering the vomiting ceased. The pain became duller and was felt in the region where the ureter dips into and becomes interwoven with the tissue of the bladder.

"It continued for three days and then disappeared all of a sudden (the stone had not got into the bladder). Thirty-six hours afterwards the calculus entered the bulb of the urethra. I felt a frequent desire to urinate, the urine was turbid and bloody, until at last a calculus of four grains made its appearance in the urine.

"After this I frequently passed gravel and stones, at times with slight, at times violent pains, sometimes accompanied with vomiting, I kept the larger stones with a view of using them hereafter as a curative agent.

"Professor Nasser of Bonn, where my son studied medicine at the time, has analyzed the stones and has found them to be urate of lime. He advised me to take Merc-d. and the Sulphate of soda for some time, it is scarcely necessary for me to say that I did not follow his advice.

"On the 15th of February, 1839, I felt the precursory symptoms of a new attack, which really did break out in all its fury on the 16th and continued on the 17th and 18th. I now took 5 grains of my kidney stones to be triturated in my presence with 95 grains of sugar of milk, according to the fashion of Hahnemann and took 1/2 grain in the evening of the 17th, another 1/2 grain in the morning of the 18th.

"On this day I passed very turbid urine with a considerable quantity of gravel, however in the region where the ureter dips into the bladder, I experienced an uncomfortable sensation, but was well otherwise.

"On the 19th I was obliged to visit a patient at the distance of two miles, on my journey I felt that the calculus was descending into the bladder, the urine which I emitted shortly afterwards was very turbid and bloody.

"That same evening after returning home, I left the stone in the bulb of the urethra and on the morning of the 20th it came off during stool, but unfortunately got lost among the excrement.

"To judge from my feeling it must have been larger than any of the preceding stones and also rougher, for its passage through the urethra was very painful and followed by an oozing out of blood.

"The uncomfortable feeling in the region of the left kidney never disappeared completely, it became especially painful when pressing upon that place, when riding on horseback or in a carriage, when taking exercise or turning the body.

"It seems to me that the whole pelvis of the kidneys must have been full of gravel and stones. I now took 1/2 grain at intervals of eight days, the result was that I passed gravel and small stones at every urination.

"On the 30th of November my condition got worse and I continued to take 1/2 grain of Calcul-r., at longer or shorter intervals, until October 18th, 1840. After this period I ceased to pass any gravel and I felt entirely well. On the kidneys must have been full of gravel and stones. I now took 1/2 grain of Calcul-r., another dose on June 3rd.

"On June 17th precursors of another attack, on the 18th vomiting accompanied by all the frightful circumstances which I have detailed above, the vomiting of mucus, bile ingesta, continued at short intervals until the 26th, my tongue was coated with yellow mucus and my appetite had completely disappeared.

"Bry., Nux-v. and Puls, relieved the gastric symptom, on the 26th in the afternoon, I passed a calculus of the size of a pea. I now resumed the use of Calcul-r. in 1/2 grain doses, at irregular intervals.

"On the 23rd of October I passed a stone of the size of a pea without vomiting, there were no other precursory symptoms except

the uncomfortable feeling in the region of the kidneys a few days previous. I have felt well ever since and free from all complaint, although I continue the occasional use of 1/2 grain of Calcul-r., lest I should have a relapse.

"Every time I took a dose of Calcul-r. I found that the so-called tartar on the teeth became detached a few days afterwards. A short while ago a nodosity, hard as a stone, which had appeared on the extensor tendon of the right middle finger, about nine months ago and which threatened to increase more and more, disappeared."

***CALEA ZACATECHCHICHI

(Dream Herb)

PHARMACY - calea. Calea zacatechchichi. Dream herb. Bitter grass. Leaf of God. N. O. Compositae.

Historical dose: Tincture and all potencies.

CLINICAL - Dreams. Dysentery. Fever. Gastrointestinal, disorders. Nausea. Nightmares. Vertigo. Vomiting.

HERBAL - Calea zacatechchichi is a medium sized shrub that has reportedly been used by the Chantal indians of Mexico as a hallucinogen. Its dried leaves are used before sleep to increase dreaming. Its effects are not well documented.

HOMEOPATHIC - Calea actions during wakefulness were tested in five subjects after several inhalations and the administration of an infusion.

With high doses, effects included: sensations of well-being and light-headedness, difficulty in bringing events to mind, somnolence, and an intensification of visual imagery, but only with the eyes closed.

Symptoms include lack of physical stamina. Nausea and vomiting. Severe leg cramping. Swelling of the limbs with rash on the feet, between toes. Swelling in the hands, with redness on the fingers. Severe bitter taste in mouth. Drowsiness, mild vertigo.

Euphoria. Mental clarity. It alters the perception of time so that it appears that time is passing more slowly.

Makes one feel more 'in control' of things. Vivid dreams. More lucid in dreams. Dreams seem more realistic.

RELATIONS - Compare: Salv-d. Anh.

REFERENCES - Buttimer. Murphy.

***CALENDULA OFFICINALIS

(Pot Marigold)

PHARMACY - calen. Calendula officinalis. Pot Marigold. N. O. Composite. Tincture of leaves and flowers. Calendula Succus is made from the fresh plant juice. **Historical dose:** Tincture and all potencies. Locally, use tincture for all wounds, one of the greatest healing agents. Also as an injection in leucorrhea internally.

CLINICAL - Abrasions. Abscess. Balanitis. Breast, infection. Bubo. **Bums.** Carbuncles. Chilblains. Cornea, injuries. **Cuts.** Deafness. Erysipelas. Eyes, injuries. Fever. Fistula. Glandular, swellings. Gunshot, wounds. **Injuries.** Jaundice. **Knife, wounds. Lacerated, tissue.** Muscle, tears. Nails, inflamed. Nipples, sore. Perineum, tears. **Puncture, wounds.** Septic, wounds. Sunburn. Suppuration. **Surgery, effects.** Tetanus. **Ulcers.** Uterus, inflammation. Uterus, cancer, discharge. Varicose, ulcers. Whitlow. **Wounds.**

HERBAL - Calen, belongs to the same family as those other great vulneraries: Am. and **Bdl-p. The greather balanti-septic, itrestores** the vitality of an wounded part, making it impregnable against the forces of putrefaction. Indicated in lacerated and suppurative wounds.

Unlike Arnica, it has no irritating property capable of producing erysipelas, it is therefore suitable to all cases of injury where the skin is broken. Calendula is all the dressing needed for any open wound or severe laceration. It takes away the local pain and suffering.

Hot lotions are generally preferable to cold, as they conserve the vitality of the injured parts. Hot compresses in pneumonia. Hot fomentations, when intermittently applied, are far better than poultices as applications to forming abscesses. If they

Calendula officinalis do not abort the process, they favor the maturation and ultimate healing.

Kent noted that Calen, tincture cannot be ignored in injuries, in cuts with laceration, surface or open injuries. Diluted Calendula used locally will keep the wound odorless, will reduce the amount of pus and favor granulation in the very best possible manner. Thus it assists the surgeon in healing up surface wounds.

A correspondent of the Hom. World, 1891, "C. W.," mentions that a friend of his who chewed for a few minutes a Calen, leaf noticed that it entirely removed for some days the difficulty of passing water such as is commonly met with in old men.

The application of a sponge saturated with a hot solution of calendula after delivery gives the greatest comfort to the patient.

HOMEOPATHIC - Calen, has not been largely proved, but very definite fever symptoms have been elicited. Fever and chills. Goose bumps. Cases of jaundice have been treated with it successfully.

Calen, acts on muscles, spine, liver and skin. **A most remarkable healing agent, applied locally or given internally in potency.** Exhaustion from loss of blood and excessive pain.

Calen, is used for open, torn, cut, lacerated, ragged or suppurating wounds. Wounds raw and inflamed. Wounds painful as if beaten. Pain is excessive and out of all proportion to injury. The parts around the wound become red, with stinging in the wound during the febrile heat. Flesh wounds.

Rapid healing of wounds. **Wounds, cuts, abrasions, lacerations, broken skin surface.** Promotes healthy granulations and rapid healing by first intention. Prevents scar tissue formation. Arrests bleeding from wounds, especially to scalp, mouth.

Both prevents and heals infection, pus formation. **Antiseptic for sores, abscesses, infection at the site of a wounds.** Pain appears or is worse after bandage is put on. Muscle injuries.

Give Calen, before and after surgery. Exhaustion from blood loss or pain. **Pains after cuts or surgery.** Ruptures of muscles,

tendon. Fractures or compound fracture. Head injury or concussion. **Stab wounds.** Penetrating wounds into joints. Soft tissue injuries.

Useful for open wounds, parts that will not heal, ulcers, etc. It is useful in preventing excessive suppuration and putridity, both keep septic germs from sores and wounds (Sul- ac). Prevents pyemia. Prevents gangrene. Calen, has the power to produce local exudation and helps to make the acrid discharge healthy and free.

Burns, scalds, sunburns. Caesarean operation. Constitutional tendency to erysipelas.

General pallor and insensibility. Nearly all symptoms appear with a chill. Deafness. Catarrhal conditions. Hemostatic after tooth extraction. Neuroma. **Great disposition to take cold, especially in damp weather.** Sensitive to damp or open air. Cold hands. Paralysis after a stroke. Cancer, intercurrent remedy.

Valuable in healing or reproducing bone. Sensation as if he would faint, with movements in stomach and abdomen. Feels best when walking about, or when lying perfectly still. Moving causes pain, even after the

wound is dressed, rheumatism worse motion.

MIND - Great irritability. Easily frightened. Fretful, sleepy, dreamy. Extremely nervous. Starts with fright. Dread of something bad happening. Bulimia. Anxious, morose and solicitous during the chill.

Abdomen - Epigastric distention. Stretching and dragging in groin. Sticking in the left side of the abdomen. Movements in abdomen causes faint feeling. Gripping and anxiety in abdomen during stool. Constant soreness of abdomen and tenderness in left iliac region. Enteritis from foreign body. Dull, coarse stitches in middle of right side of abdomen, on moving. Boring, digging, deep in region of navel, when walking.

Back - Bruised pain at angle of right scapula. Tearing with pressure between the scapulae. **Pains after back surgery.** Pain under the right scapula. Rheumatic drawing in the right side of neck. Pressive drawing pain, between scapula.

Causations - Burns. Cuts, punctures, stabs. Wounds. Surgery.

Chest - Pressure on last rib, left side. Drawing pressure in left side of chest, also in sternum. Stitches in right side of chest. Nausea felt in chest. Ribs ache as if pressed together. Pressure and oppression in left side of chest, in evening, when lying in bed. Stitches in right side of chest. Axillary glands sore to touch. Axillae very hot.

Constitutions - Constitutional tendency to erysipelas.

Ears-Rupturedeardrum. Deafness, worse in **damp** surroundings, with eczematous conditions. Hears best on a train and distant sounds. Hearing acute.

Eyes - Eyewash for irritations, abrasions, infections, conjunctivitis. Eye inflammation after trauma. **Scratched cornea.** Injuries to the eyes which tend to suppuration. **Eye pains after surgery.** Blenorrhea of lachrymal sac, yellow vision. **Lacerated and incised wounds of eyes.** Eyes black and blue from extravasated blood. **Foreign objects** in the eye. Traumatic conjunctivitis, keratitis and iritis. White of eye inflamed, with pressive headache, in forehead, temples. Pupils dilated. Dryness and biting in margin of lid, as from smoke. Lid very much swollen. Wounds of eyelids and brows badly treated with plasters and where suppuration takes place.

Face - Face puffy, much swollen under eyes. Eruption of small vesicles in left corner of lips and on right side of mouth. Lips as if swollen. Burning and stinging. Submaxillary glands swollen and about to suppurate, painful on touch. Drawing, tensive pains, in gland behind left ramus of lower jaw, on moving head.

Female - Menses suppressed with cough. Menorrhagia. Chronic cervicitis. **Warts on cervix.** Os lower than natural. Profuse offensive watery discharge after forceps delivery. **Vaginal tears after childbirth.** Hypertrophy of uterus. **Lacerated vagina from childbirth, sex, surgery, wounds.** Sensation of weight and fullness in pelvis. Stretching and dragging pain in pelvis. Pain on sudden movements. Uterine pain after taking cold. Cancer of womb

with bleeding. Ruptures of cervix and perineum during childbirth. Excoriated and cracked nipples.

Food - Hunger immediately after nursing. Hiccough when smoking. Bulimia. Diminished appetite for dinner, though he relishes food when he eats. Drinks much at night with fever. Aversion to drinks. Crawls on back from cold drinks.

Head - Pains after mechanical injuries. Concussion of brain. **Lacerated scalp wounds.** Hemorrhages in scalp wounds. Compound fractures of skull. Dull, pres- sive sensation in occiput. Dull headache, as after a debauch. Fungus of cranium. Tearing pains. Sensation of a weight on brain. Submaxillary glands swollen, painful to touch. Pain in right side of neck. Pain and heat in forehead after eating.

Limbs - Drawing, pressive pains in wrists and ankles during rest. Wounds about joints. Pains after surgical operations, to prevent caries or necrosis. **Torn tendons and muscles.** Cold hands and feet. The axillary glands are painful to the touch. **Varicose swellings and ulcers.** Foot crushed, erysipelas and gangrene. Pressure and drawing tension in the hand. Tearing, burning in the calf. Spasmodic drawing of the foot, when sitting.

Lungs - Cough with green expectoration, hoarseness, with distention of inguinal ring. Great efforts made to inflate lower lobes of lungs, which were only successful when sitting up. Breathing easier after fever abates.

Kidneys - Frequent urination, with emission of pale, clear, hot, and even burning urine. Tearing in the urethra during the chilliness. Has to urinate often at night. Urine suppressed. Urine colorless as water. Urine is very hot and burning. Urine suppressed, passes less than half her usual quantity of urine.

Male - Excoriation of prepuce after sex.

Modalities - Better from walking about. Better lying perfectly still. Better warmth. **Worse in damp. Worse heavy, cloudy weather.** Worse during chill. Worse evening.

Mouth - Bitter phlegm in mouth. Bleeding gums. **Bleeding after tooth extraction.** Pains after gum surgery.

Nose - Coryza in one nostril, with much green discharge.

Rectum - Stools curdy. Frequent almost entirely mucus stools. Stool in morning, preceded by gripping and anxiety in abdomen, with chill. Diarrhea with vomiting of food, with heartburn. Constipation. Perineal abscess.

To close the wound after operation. Ruptures of perineum.

Skin - Topical treatment of fissures, varicose ulcers, bedsores, gangrene. Stinging and cutting pains. Skin feels warm to touch. Jaundice. **Yellow skin**. Goose bumps. Slough, proud flesh and raised edges. **Burns and scalds**. Erysipelas (use topically). **Promotes favorable scar tissue with least amount of suppuration**. Ulcers, irritable and inflamed. Sloughing of tissues from wounds, ulcers. Varicose ulcers, painful, as if beaten. **Excessive secretion of pus from ulcers or wounds**. Wounds, ulcers with surrounding parts red.

Sleep - Restless at night, can rest in no position. Wakes continually. Must urinate frequently and drinks very much. Feels as if he would fall from a height, when falling asleep.

Stomach - Hunger immediately after nursing. **Heartburn**. Nausea in chest. Vomiting. Sinking sensation. Hiccough, when smoking. Sinking feeling. Movements in stomach causes faint feeling. Vomiting with pain in uterine region, after taking cold. Induration in stomach and uterus.

Temperature - Shivering and shaking chill from drinking. Violent chill after trauma. Feels shivery and has a kind of gooseflesh, while skin seems warm to touch. **Coldness, a great sensitiveness to open air**. Shuddering in back. Heat in evening. After dinner, heat in face, hands and feet.

Throat - Scalds, burns of throat. **Injuries to air passages, in form of cuts or lacerations**. Foreign bodies in air passages. Bitter phlegm in throat. Painful swelling of submaxillary gland, worse on moving head. Pressure in throat when swallowing. Wounds of esophagus, to prevent esophagitis. Foreign bodies in esophagus having produced laceration. Voice stronger and deeper as soon as fever heat abates, in evening.

COMMENTS - Calendula, largely diluted with water, is highly esteemed by many physicians as a dressing for lacerated wounds, ulcers, and burns. Burns are dressed by applying muslin cloth saturated with dilute calendula night and morning. The cloth should be kept constantly saturated with the agent. It is also used as an injection in vaginal and uterine leucorrhoea.

Useful for surgeries, given before and after. Hemorrhage, cuts that keep bleeding and won't heal. Sharp stinging, cutting feelings, redness and rawness. Very good for preventing septic wounds (Pyrog., once septic situations have set in). Torn or wounded muscles. Bedsores.

Hansen noted it for open wounds, very sore and painful, difficult granulation, tendency to inflammation and suppuration. Useful for burns when applied topically (Canth., Urt-u.). Good as local application in phlegmonous erysipelas.

For severe nerve pain (Coff., Phos. is numb and tingling). Nerve injury (when Hyper, fails). Excessive pain out of proportion to the injury (Coff.). Pain under right scapula, or bruised feeling under the right scapula.

Can be used as an eyewash for bloodshot eyes from dust or irritation (Euphr.). Injuries to the eyes from foreign objects and irritants. Tendency to catch colds. Carious root toothache. An excellent hemostatic in tooth extractions and for gum surgery.

Very acute hearing. Hypersensitive hearing (Coff.). Deafness from inflammation. Boericke noted it as being specific for ruptured or torn eardrums (Thiosin. is for eardrum adhesions and ossification of the bones, Kali-m., if deafness is caused by blocked Eustachian tubes).

Ulcers, heartburn, bleeding ulcers. Bleeding hemorrhoids, internally is best. Diuretic (urine feels hot like Bell.). Nodosities in breast. Helpful for episiotomies, the stinging, cutting pains. Hemorrhage after childbirth. Bad ulcers of

Calendula officinalis os uteri. Offensive leucorrhea. Ludlam recommended it in chronic endocervicitis and scrofulous ulcerations with much purulent leucorrhea. Useful topically after childbirth.

Jahr, who was in Paris during the Coup d'Etat of 1849, treated a number of cases of gunshot wounds with comminuted bones and saved several limbs by means of Calen. It prevented suppuration and pyemia. In some cases of carbuncle it acts with great promptitude, subduing pain and fever. In obstetric practice it is invaluable. Calen, as been used in Germany in tincture on cancer areas. It helped to stop the spread of cancer and helped to reabsorb it.

Almost all the symptoms appear during the chilly stage of the fever, he feels most comfortable when walking about or else when lying perfectly still.

Cooper said that calen, is worse in cloudy weather. Drinking causes a shaking chill or creeping crawls, even during heat. Very sensitive to cold air. Restless, can't get comfortable in bed. Fear of some overwhelming calamity.

C. R. Crosby gave it internally in the 3x potency, as well as externally. He had excellent results from its use as a hot compress (an ounce to the pint) in pneumonia and other inflammations.

C. W., himself a pharmacist, noticed the following effect on himself when making the fresh-plant tincture: "There was such a feeling as if some overwhelming calamity was hovering over me as to be almost unbearable.

"Three years ago, just after making the tincture, my old enemy the gout nipped me in the middle of the spine

and in three days spoiled all my powers of walking and then the dreadful feeling became very much exaggerated." His experience led him to conclude that Calen, has an action on the spinal cord.

RELATIONS - Antidote: Chel., Rheum. **Antidoted by:** Am. **Compare:** (1) Staph., Am., Ars., Bry., Calc-s., Carb-an., Carb-v., Ham., Hep., Hyper., Led., Nit-ac., Phos., Rhus-t., Ruta, Sal-ac., Sul-ac., Symph. (2) in deafness: Ferr-pic., Kali-i., Calc., Mag-ac, Graph. **Compatible:** Am., Ars., Bry., Nit-ac., Phos., Rhus-t. **Complementary:** Hep. Calendula contains much nitrogen and phosphoric acid. **Followed well by:** Am., Hep. **Incompatible:** Camph. **Follows well:** Ars. i.

***CALOTROPIS GIGANTEA

(Madar Bark)

PHARMACY - calo. Calotropis gigantea. Madar bark. N. O. Asclepiadaceae. East India. The root-bark is called Mudar, Mirdar, Yercum. Tincture or trituration of bark of root. Tincture of the milky juice or gum. **Historical dose:** Tincture and all potencies.

CLINICAL-Anemia. Dysentery. Feet,pains. Fevers. Hand, pains. Leprosy, tubercular. Lupus. **Obesity. Syphilis.** Tuberculosis.

-HERBAL - The expressed juice, root and bark have been extensively used in the East for their emetic, sudorific, alterative and purgative qualities. The fresh juice is considered a valuable remedy in skin disorders.

HOMEOPATHIC - Calotropis has been used with marked success in the treatment of **syphilis** (following Mercury), elephantiasis, leprosy and acute dysentery. Pneumonic tuberculosis. Tuberculosis. Increases the circulation of the skin. Has a powerful effect as a sudorific.

In the secondary symptoms of syphilis, where Mercury has been used but cannot be pushed safely any farther, it rapidly recruits the constitution, heals the ulcers and blotches from the skin and perfects the cure. **Primary anemia of syphilis. Heat in stomach** is a guiding symptom. **Obesity**, while flesh decreases, muscles become harder and firmer.

A short proving brought out a weak, tired feeling, coldness, dizziness, pain and confusion in head, nausea and vomiting of bile.

Frequent urination, pain, soreness and redness of thigh, pain in both legs, swelling of knees, and stiffness and inability to walk. Pains in hands and feet, first left then right, worse movement or putting weight on them.

COMMENTS - Dr. Gramm of Philadelphia used the tincture with great success in cases of syphilis when Mercury can no longer be given, in the anemia of syphilis, secondary syphilis. A sense of warmth in the scrobiculus cordis is a leading indication for the remedy.

In one case of severe and advanced syphilis with enormous thickening of the ends of all the nails, Calo, effected a cure. The remedy was given in one- to five-drop doses of the tincture or in pellets saturated with equal parts of the tincture and 95 percent alcohol. **RELATIONS** - Coffee caused vomiting when before there was only nausea, but antidoted many effects. Camph. also antidoted. **Compare:** (1) Merc., Kali-i., Berb-a., Sars. (2) Asc- c., Asc-t. (3) Ip. - emetic. (4) Berb-a. - syphilis.

REFERENCES - Boericke. Clarke.

***CALTHA PALUSTRIS

(Cowslip)

PHARMACY - calth. Calthapalustris. Cowslip. Marsh marigold. N. O. Ranunculaceae. Tincture of fresh shoots and flowers. **Historical dose:** Tincture and all potencies.

CLINICAL - Cancer. Itching. Pemphigus. Uterine cancer.

HOMEOPATHIC - This is an unproved remedy, but it has irritant properties like the other Ranunculaceae. Hansen gave as indications: "Pemphigus, bullae are surrounded by a ring, much itching. On the third day they are transformed into crusts."

Cooper used it with excellent effect in a case of uterine cancer, giving single doses of the tincture at long intervals.

REFERENCES - Boericke. Clarke. Hansen.

***CAMPHORA

(Camphor)

PHARMACY - camph. Camphora. Camphor. Laurus camphora. N. O. Lauraceae. A gum obtained from Laurus camphora. Solution in rectified spirit. **Historical dose:** Tincture and all potencies, tincture in drop doses, repeated frequently or smelling of Spirits of Camphor.

CLINICAL - Angina, pectoris. Anxiety. Asphyxia, neonatorum. Bedsores. **Chills. Cholera. Colds. Colic.**

Collapse. Congestion. Convulsions. Coughs. Cramps. Delirium. **Diarrhea.** Epilepsy. Eruptions. Erysipelas. **Fevers.** Gonorrhea. Heart, disorders. Hematuria. **High, fever. Influenza.** Measles. Memory, loss. Nausea. Priapism. Rheumatism. Sexual, mania. Shiverings. Sleeplessness. Snakebites. Spasms. Strangury. Taste, disordered. Tetanus. Tobacco, habit. Twitching. Urethra, stricture. Urine, suppression. Vomiting.

HOMEOPATHIC - Marked coldness, cramps and convulsions with mental anguish. Affects the digestive tract and cerebro-spinal nerves, urinary organs and nose. For colds and chills. Scrofulous, weakly, irritable children are especially affected.

Shock. **State of collapse.** Sudden collapse from over-powering influences acting on nervous centers. Sunstroke with ebbing vitality, fainting spells, cold sweat and icy cold body.

First stages of a cold with chilliness and sneezing. Very sensitive to cold and to touch. Great sensitiveness to cold and cold air, which worse pains, takes cold easily. **Icy coldness** of the whole body, sudden sinking of strength, pulse small and weak. Low blood pressure after operations, if temperature is subnormal.

Patient will not be covered, notwithstanding the icy coldness of the body, or wants them off and then on alternately with internal burning heat and anxiousness. Limbs cold with cramps.

Camph. has a direct relationship to muscles and fascia. Local rheumatic disorders in cold climates. Awkwardness. Trembling and extreme restlessness.

Pain better while thinking of it. Cracking of joints. Distention of veins.

Convulsions with blue lips, froth at mouth and lock-jaw. Epileptiform convulsions. After effects of measles.

Violent convulsions with wandering and hysterical excitement. Tetanic spasms.

Camph. achieved classical fame in **cholera epidemics.** In some epidemics, Camph. given early has cured a majority of the cases treated, whether it was given as drop doses of the tincture or in the 30c.

In the collapse of cholera it corresponds rather to the initial chill before either vomiting or diarrhea. The tongue is cold. If he can speak, the voice is either high pitched or husky. Coldness (Verat.), with marked nausea and vomiting, upper lip drawn up.

Acts on the genito-urinary sphere (similar to and antidotes Canth.). Strangury and priapism.

MIND - Afraid of his own thoughts, wants to be diverted from thoughts of himself. Fears to be left alone. Does not like any one near him. Memory lost. Most pains are felt during a half-conscious condition and disappear when thinking of them. Worse from inattention.

Insensibility, vanishing of all senses or anxiety. Awkwardness. Nothing satisfies. Delirium. Mania, religious, puerperal. Wants to jump out of bed or window. Excited, talks constantly, scolds in indecent language.

Feeling that she is going to die, relieved, when she finds herself alive. Attacks of anguish at night. State of frenzy, hysterical, scratches, spits, bites, tears her clothes. Screams and calls for help. Closes her eyes and answers no questions.

Abdomen - Cramps in the abdomen.

Cutting colic at night. Bellyache as if diarrhea would follow. Drawing pain, as from a bruise. Sensation of fullness in the abdomen. Cold or of burning heat in the epigastrium and in the abdomen.

Back - Tension and stiffness of the neck. Drawing stitches between shoulder blades. Pressure in small of back. Sensation as if cool air was blowing on back.

Causations - Ill effects of shock from injury, operations, sunstroke, snakebites. Vexation.

Chest - A cold feeling in chest followed by cold breath. Dry feeling at bifurcation of trachea. Cramps in the chest. Shootings in the chest.

Ears - Heat and redness of the ears, especially in the lobes. Abscess in the meatus with deep redness and pressive shooting pain.

Eyes - Fixed, staring, turned upwards or outwards, pupils dilated. Sensation as if all objects were too bright and glittering. Objects appear too bright or move to one side with ajerk. Eyes protrude with mania. Eyes deeply sunken.

Face - Pale, haggard, **anxious**, distorted, **bluish**, cold. Cold sweat. Pale and red by turns. Distorted. Grimaces. Upper lip retracted. Lockjaw. Froth or foam at the mouth.

Female - Menses too profuse, or absent. Sexual desire increased. Hot flushes with coldness of abdomen and limbs, at menopause. Labor-like pains. Weakness of sexual system.

Food - Bitter taste of food, especially of meat. Dislike and repugnance to tobacco smoke. Excessive thirst.

Head - Influenza, headache with catarrhal symptoms, sneezing, etc. Cold sweat. Head sore. Feels knotted up. Beating pain in cerebellum. **Occipital throbbing, synchronous with the pulse**, better standing, when deprived of sexual intercourse. **Fleeting stitches in temporal region and orbits.** Head is drawn to one side (in spasms). Pains run from head to fingertips.

Heart - Anxiety at heart. Spasmodic stitches in region of heart. Precordial distress. Palpitations, after eating. Pulse, weak, not perceptible, frequent, small.

Kidneys - Burning and **strangury** with tenesmus of the neck of the bladder. Retention with full bladder. Hematuria.

Limbs - Rheumatic pain between the shoulders. Difficult motion. Numbness, tingling and **coldness**. Cramps in calves. Cracking in joints. Feet cold, pains as if sprained. Icy cold feet, ache as if sprained. Fingers stiff, open, distorted. Thumbs drawn backwards.

Lungs - Asphyxia neonatorum. Asthma, worse from bodily exertion. **Breath cold**. Breathing anxious, oppressed, sighing, quiet, deep and slow, snoring. Cutting, cold feeling deep in windpipe, causes a slight cough. Hoarse, squeaking voice. Suspended respiration. Violent attacks of dry cough. Suffocative dyspnea.

Male - Sexual excitement. Chordee. **Priapism**, during dreams Nightly emissions. Satyriasis. Impotence.

Modalities - Better from free discharges, sweat. Better warmth. Better thinking of it. Better drinking cold water. Worse motion. Worse contact. Worse mental exertion, shock. Worse night. Worse when half asleep. Worse from cold air, drafts. **Worse suppressions**.

Mouth - Breath fetid in the morning. Cold breath. Foam at the mouth. Abundant accumulation of a viscid and slimy saliva. Tongue cold, flabby, trembling, bluish. Speech, broken, feeble, hoarse. Boiling hot tea seems cold.

Nose - **Cold and pinched**. Inhaled air seems cold. **Persistent nosebleed with** goose bumps. Stopped up, sneezing. Fluent coryza on sudden change of weather. Coryza in old age.

Rectum - Black stools, involuntary. Rice water stools. **Asiatic cholera** with cramps in calves, coldness of body, anguish, great weakness, **collapse**, tongue and mouth cold.

Skin - Dryness of the skin. Skin, bluish and cold, with coldness of the body. **Old looking**, pale, blue, livid. Cannot bear to be covered (Sec.). Erysipelas. Sequelae of measles. Skin sensitive, even to the slightest touch.

Sleep - Comatose sleep. **Insomnia** with cold limbs. Trembling and extreme restlessness.

Stomach - Pressive pain in pit of stomach. **Coldness**, followed by burning. Burning in stomach, in abdomen. Little vomiting or purging with dry collapse. Vomiting of bile or blood. Sour, bilious vomiting in the morning. Strong pressure in the epigastrium.

Teeth - Toothache, as if from swelling of the sub-maxillary glands. Toothache better beer. Sensation of lengthening of the teeth. Acute shocks in the roots of the incisors. Painful looseness of the teeth.

Temperature - Pulse small, weak, slow. Cold perspiration. **Icy coldness of the whole body**. Shaking chill with cold skin, wants covers during the hot stage only. **Congestive chill**. **Tongue cold**, flabby, trembling. Sudden inflammatory fevers with rapid alternation of heat and cold, followed by rapid prostration. Heat or sweat, better covers. Sweats when covered, body becomes cold when uncovered. Chilly, below scapula, before colds.

Throat - Soreness in the throat on swallowing. Dry, scraping sensation of the palate. Burning heat in the throat. Constriction of larynx, feeling as if throat tied.

Vertigo - Vertigo, with a tendency to unconsciousness, feeling as if he would die.

COMMENTS - Camphor has a special place in homeopathy because it's the major antidote of the remedies along with coffee. Camph. corrects spoiled cases and antidotes most of the medicines, especially from the vegetable kingdom.

Useful as a heart stimulant for emergency use. Give drop doses on sugar as often as every five minutes.

Hahnemann gave it as a remedy for cholera along with Cupr. and Verat. (Cupr. has spasms and cramps, Verat. has voracious thirst), and used it prophylactically. Useful for dehydration. Rice-water stools. Collapse and coldness (Carb-v.).

Internal heat and external coldness. Great coldness of surface with sudden and complete prostration of the vital forces. Feeling as if a cold wind were blowing over body. For all kinds of sudden internal pains arising from chill or other causes.

Tetanic spasms, with drawing up the corners of the mouth, showing the teeth (like NUXT-v. and Phyt.), and coldness. Spasmodic movement of head, head drawn to right side, rest of body relaxed, unconscious.

Spasmodic drawing of head laterally or backwards with deathly coldness.

Erysipelas spreading to central membranes. Eruptions. Soft parts drawn in. Skin painfully sensitive.

Salzer said the cases calling for it are those in which "arterial spasm," with difficult breathing (spasm of pulmonary arteries), coldness and lividity are the leading features.

In the form of the ordinary Camph. pilules, Clarke found it an excellent remedy for sleeplessness. In this, as in its effect on colds, it resembles Aeon.

RELATIONS - Antidotes: Opium, Nit-s-d., Phos. Camph. has very important antidotal relations. Camphorantidotesormodifies the action of nearly every vegetable medicine-tobacco, opium, worm medicines, etc. It is **Antidoted by:** Op., Nit-s-d., Dulc. and Phos. It antidotes: Am-c., Canth., Carb-v., Cupr., Lyc., Squil., Nat-m., so-called worm-medicines tobacco, bitter almonds and other fruits containing prussic acid. Also the

secondary disorders remaining after poisoning with acids, salts, metals, poisonous mushrooms, etc. **Compare:** (1) Cupr., Ars., Verat., Aloe. (2) Carb-v. - coldness from undeveloped exanthema, collapse, nosebleed, dark, persistent, low hemorrhages generally. (3) Canth., Dulc. (4) Sec. - skin cold with desire to uncover. (5) Lyc. - head drawn to one side, Lyc. to left, Plb. and Stram. to right, Bufo to either. (6) Op. - narcotism, heart disorders. (7) Phos. - anguish and burning in cholera. (8) Nit-s-d., Squil., Verat. (9) Teste puts Camph. in his Belladonna group with Agar., Lach., Cedr., Stram., Tab. and others. **Complementary: Canth. Incompatible:** Kalin. Nitrum. Tea, coffee and lemonade, as a rule, do not interfere, but sometimes coffee worse.

REFERENCES - Boericke. Clarke. Murphy.

***CAMPHORA BROMATA

(Camphor Monobromide)

PHARMACY - camph-br. Camphora bromata. Camphor monobromide. Monobromata. A compound in which one atom of hydrogen of the camphor has been replaced by one of bromine. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Cholera infantum. Chordee. Convulsions. Delirium tremens. Eczema. Gastric, catarrh. Hysteria. Impotence. Influenza. Irritation, skin. Nervous, excitability. Neuralgia. Parkinson's disease. Sleep, disorders. Spermatorrhea.

HOMEOPATHIC - Dr. Cooper found Camph- br. of wide utility in all cases where nervous excitability is present. He has given it chiefly in single doses of 3x trituration. Hale noted it for hysteria, weeping and laughter alternately.

Nervous excitability. Headache in women and young girls due to mental excitement and excessive study. Delirium tremens. Parkinson's disease. Cholera infantum and infantile convulsions.

Chordee. Neuralgia of testes and prostate. Impotence. Spermatorrhea. Nightly emissions. Painful erections. Suppression of breast milk. Intensifies the action of Quinine and renders it more permanent.

MIND - Sense of direction is lost. Directions appear reversed, i.e., north seems south and east seems west.

Nervous excitability. Mental excitement and excessive study. Hysteria, weeping and laughing alternately. Trance-like state.

COMMENTS - In a case reported by Dr. E. M. Beard, a young man suffered from gastric catarrh in paroxysms which were induced by the sight of physical deformity, the touch of a cold, clammy hand and the mention of odors, the actual presence of which did not affect him.

Complete relief was afforded by 3 gram doses of Camph-br. every 3 or 4 hours.

The drug, however, set up some singular symptoms including: directions appeared to be reversed, north seemed south and east seemed west, innumerable black flies

Camphora bromata seemed to be flitting over the field of vision, he was sleepless and when he did sleep it was restless and vexed with ghastly dreams. The reversal of directions lasted many days and the strain on the faculty of attention was so torturing that he became prostrate in mind and body.

***CANCHALAGUA

(Centaury)

PHARMACY - canch. Canchalagua. Centaury. Erythraea chironioides. Erythraea chilensis. Centaurium chironioides. Venusta centaury. N. O. Gentianaceae. Chile, Peru. Tincture of whole plant when in flower. Must be made from the fresh plant. **Historical dose:** Tincture and all potencies.

CLINICAL - Chills. Constipation. Influenza. Intermittents. Nausea. Sleeplessness.

HERBAL - Canch. has been used extensively as a fever remedy and bitter tonic (Gent-b.), anti-malarial and anti-septic.

HOMEOPATHIC - Dr. Richter proved Canch., experiencing symptoms including a congested feeling in the head, scalp tight, felt as if drawn together by India rubber. Stitches, pain, buzzing and roaring in ears.

Indicated in severe intermittents of hot countries, and influenza. General sore, bruised feeling, nausea and retching. The skin becomes wrinkled like a washer woman's.

Sensation of drops falling from and upon different spots. Constipation, hard, knotty stools. Chills repeatedly down back worse in bed, at night. Sleeplessness. After the proving, a cold wind could be borne better than before.

Head - Congested. Scalp feels tight, head feels as if bound, burning in eyes, buzzing in ears.

Skin - Wrinkled like a washerwoman's. Scalp **feels tight, as if drawn together by** India-rubber.

Temperature - Chill all over, worse in bed at night. Sensitive to cold, trade-winds. General sore and bruised feeling, nausea and retching.

RELATIONS - Compare: (1) The Gentians, Chin., Ip.

REFERENCES - Boericke. Clarke.

***CANDIDA ALBICANS

(Thrush Fungus)

PHARMACY - cand-a. Candida albicans. Thrush fungus. Monilia albicans. N. O. Fungi, Ascomycetes, Endomycetidae, Saccharomycetaceae. **Historical dose:** All potencies.

CLINICAL - Candidiasis. **Flatulence.** Indigestion. Leucorrhea. **Thrush.** Vaginitis.

Abdomen - Rumbling and gas in the abdomen. Flatulence. Bloating abdomen. Loud rumbling in abdomen while lying.

Female - Leucorrhea. Vaginitis.

Mouth - Thrush.

RELATIONS - Compare: Cand-p., Carbo-v, Chin., Lyc., Sul-ac.

REFERENCES - Murphy.

***CANDIDA PARAPSILOSIS

(Thrush Fungus)

PHARMACY-cand-p. Candida parapsilosis. N. O. Fungi, Ascomycetes, Endomycetidae. Saccharomycetaceae. **Historical dose:** All potencies.

CLINICAL - Candidiasis. **Flatulence.** Headache. Indigestion. Itching. Leucorrhea. **Thrush.** Vaginitis. Vertigo.

HOMEOPATHIC - Candida parapsilosis is a common yeast-like organism that has been implicated in human infection. It has been recovered from respiratory secretions, urine, gastric washings, blood, vagina, oropharynx, skin, transtracheal aspiration, stool, pleural fluid, ear, and nails.

It is implicated in the following human infections: Endophthalmitis, endocarditis, vaginitis, mycotic keratitis, external otomycosis, paronychia, and fungemia. In the vagina, it is found less frequently than Candida albicans and Torulopsis glabrata and is only rarely associated with vulvovaginal candidiasis as it is a less adherent organism.

The people most infected with Candida are those with natural defences depressed by excessive use of antibiotics and steroids or by certain diseases or operative procedures. Oral candidiasis is called thrush.

MIND - Very tired and scatter-brained. Total 'loss of mind': seeing red lights and thinking they were green. Spacey and poor concentration. Unusually irritable. Explosive anger at minor incidents - as though their rights were being infringed upon. Mind races and words come out in wrong order or mispronounced. **Abdomen** - Bloating, fullness, cramping of abdomen. Bloating with flatulence.

Female - Egg-white leucorrhea. Dripping discharge.

Food - Increased appetite. Great thirst. Desires salt, garlic, pickles.

Head - Wakes with a headache. Banging sensation. Frontal constriction. Lightheaded feeling. Itching of scalp, dry, flaking, reddening spot along hairline. Eczema-like patches on hairline. Red, scaly and itching.

Heart - Sensation of arrhythmias with light-headed feeling. Prominent, quick heartbeat which reverberates through the chest.

Modalities - Better open air. Worse direct sunlight.

Nose - Stuffiness of nose.

Skin - Eczema-like patches. Red, scaly and itching.

Stomach - Bloating, fullness, cramping of stomach.

Vertigo - Vertigo and hot flushes.

RELATIONS - Compare: Cand-a., Carbo-v, Chin., Lyc., Sul-ac.

REFERENCES - Brown. Lange. Murphy.

***CANNABIS INDICA

(Indian Marijuana)

PHARMACY - cann-i. Cannabis indica. Indian marijuana. Hashish. Bhang. Ganja. N. O. Cannabinaceae. East India. Tincture of young leaves and twigs. **Historical dose:** Tincture and all potencies.

CLINICAL-Absent-minded. Anxiety. **Backache.** Catalepsy. Chordee. Clairvoyance. Delirium, tremens. Delusions. Diabetes. Dysmenorrhea. Epilepsy. Flatulence. Fears. Gonorrhea. Headache. Infertility. Insomnia. Intoxication. Kidney, disorders. Mania. **Memory, weak.** Menorrhagia. Miscarriage. Nervousness. Paralysis. Paranoia. Prostatitis. Satyriasis. Stammering. Uremia. **Urinary, disorders.**

HERBAL - The use of Cann-i. in the East as an intoxicant gives the leading note of its sphere of action. Cannabis sativa and Cannabis indica are botanical ly identical, the difference in their properties is solely due

to the difference of soil and climate in which they are grown.

HOMEOPATHIC - Cann-i. produces a **state of exaltation** with sublime visions, delusions and hallucinations in great variety. **Time seems too long**, space illimitable. Paranoid. Apprehensive of approaching death. Fixed ideas. Fear of becoming insane or losing control. Horror of darkness.

Great desire to lie down in the daytime. Thoroughly exhausted after a short walk. Felt so weak that he could scarcely speak and soon fell into a deep sleep.

Soothing influence in many nervous disorders like epilepsy, mania, dementia and irritable reflexes. Catalepsy. Delirium tremens, trembling. Hallucinations. Tendency to become furious. Nausea, unquenchable thirst. Feels weak and all gone to nothing. Diabetes. Exophthalmic goiter.

MIND - Remarkable hallucinations and imaginations. **Exaggeration of the duration of time and extent of space**. Misperceptions of time and space. **Time seems too long, seconds seem ages. A few miles an immense distance**. Heat and cold sensations of the body. Loss of identity. Clairvoyance. Imagines himself in a room of which the

walls gradually close in upon him. Double consciousness, subconscious or **dual nature state**.

Absent-minded. Poor short-term memory. Poor concentration and foggy mind. **Sudden loss of memory**. Inability to fix his thoughts on one subject. **Forgets what he intends to write or speak**. Sudden loss of speech, begins a sentence but cannot finish it. Lazy but restless. Chronic insomnia due to over activity of the mind.

Drug-induced spaciness, pathologically happy state. Full of fun, mischief and laughs. **Uncontrollable laughter**. Extremely happy and contented, nothing troubles.

Emotional excitement, rapid change of moods. **Exaltation of spirits** with excessive loquacity. Stammering and stuttering. Constantly theorizing. Fixed ideas. Ideas crowd upon each other. Lost in thoughts.

Great agitation, anxiety and nervousness. Mania, must constantly move. Panic attacks, paranoia. Anguish, better in the open air. Constant fear of becoming insane. Horror of darkness. Fear of approaching death. Depression, constant fear of becoming insane. **Abdomen** - Throbbing here and there.

Rumbling in bowels at night. Flatulence, on rising in morning, with headache. The abdomen feels swollen, better by belching. Sensation of extreme tension in abdominal vessels feel distended to bursting. Sensation as if something alive in abdomen (Thuj.).

Back - Backache, worse during menses, which occur every two weeks and are scanty. Warmth in spine extending to head. Torticollis, chin drawn to the sternum. **Pain across shoulders and spine, must stoop, cannot walk erect**.

Breasts - Stitches extending from both nipples through chest.

Chest - Oppression of chest with deep, labored breathing. Feels suffocated, has to be fanned.

Ears - Aching, throbbing and fullness in both ears. Extreme sensitiveness to noise, very acute hearing. Noise like boiling water, buzzing and ringing. Periodical singing in the ears during a dreamy spell, ceasing when he came to himself.

Eyes - Eyes bright and shiny. Injection of vessels of conjunctiva of both eyes. Glaucoma. Jerking in corner of the eye and eyelids. Fixed gaze. Weak vision. Twinkling, trembling and glimmering before the eyes. Letters run together when reading. Sees objects outside of visual field. Visual clairvoyance.

Face - Dejected, careworn, wearied, exhausted appearance. Drowsy, stupid look. Skin of face, especially of forehead and chin, feels as if drawn tight.

Female - Menses with violent uterine colic with dysuria. **Menses profuse**, dark, painful, without clots. Backache during menses. Spasmodic uterine pains returning like labor pains, great agitation and sleeplessness. Sexual desire increased in infertile women or with dysmenorrhea. Infertility (Bor., Sep.). Threatened miscarriage in eighth month, burning on urination with purulent discharge.

Food - Increased appetite. Ravenous hunger. **Craves sweets. Very thirsty for cold drinks**.

Head - Violent headaches and hallucinations. Vertex seems to open and shut, worse noise. Head seems separated from the body. Feels **as if top of head were opening and shutting**. Shocks through brain (Aloe., Coca.). **Involuntary shaking of head**. Uremic headache. Headache with flatulence. Migraine attack preceded by unusual excitement with loquacity. Pain in the whole right side of the head. Throbbing and weight at occiput. Heavy pressure on the brain, forcing him to stoop. Dull, heavy, throbbing pain with sensation as from a blow, on back of head and neck.

Heart - Palpitations, awaking from sleep. Piercing pain with great oppression. **Pulse very slow** (Dig., Kalm., Apoc.). Pressing pain in the heart with dyspnea the whole night. Sensation as if drops were falling from the heart. Stitches in the heart, accompanied by great oppression, the latter relieved by deep breathing.

Kidneys - Dull pain in region of right kidney. Pain in the kidneys when laughing. Bunting, aching or sharp stitches in the

kidneys. Urging to urinate, but cannot pass a drop. Must wait some time before the urine flows, strain. The

urine **dribbles** out after the stream ceases. Must force out the last few drops with the hand. Profuse, colorless urine, can have mucus. A white glairy mucus may be squeezed from the urethra. **Burning and scalding or stinging pain** in the urethra before, during, and after urination.

Limbs - Weariness in limbs and stiffness and aching in knees, almost paralysis. Thrilling through arms and hands, and from knees down. **Entire paralysis of the lower limbs**. Pain in soles and calves, sharp pains in knees and ankles, **very exhausted after a short walk**. Paralysis of the right arm. Coldness of right hand with stiffness and numbness of right thumb. On attempting to walk, intensely violent pain as if treading on spikes, which penetrated the soles and ran upward through the limbs. Shooting pains in the joints of the toes of the left foot, worse in great toe, aching and stitching pain in ball of left great toe.

Lungs - Humid asthma. Chest oppressed with deep, labored breathing. Rough cough with scraping immediately under the sternum. Great effort to take a deep inspiration.

Male - Sexual desire increased. Satyriasis, priapism. Prolonged thrill. Erections not caused by amorous thoughts. Violent painful erections. **Backache** after sexual intercourse. Oozing of white, glairy mucus from glans. Chordee. Sensation of swelling in perineum or near anus, as if sitting on a ball. Penis relaxed and shrunken. Itching in the glans penis. Sharp pricking like needles in urethra, so severe as to send a thrill to cheeks and hands. Gonorrhea without pain with a very profuse yellowish-white discharge. Feeling as if discharge in urethra.

Modalities - Better from walking about outdoors. Better fresh air. Better cold water. Better rest. Worse from coffee, liquor and tobacco. Worse lying on right side. Worse mornings.

Mouth - Gritting and grinding of teeth while sleeping. Tongue is white, thick, frothy and sticky saliva. **Dryness of the mouth and lips**. Lips feel as if glued together. Every article of food is extremely palatable. Stammering and stuttering speech.

Rectum - Sensation in anus as if sitting on a ball. Painless, yellow diarrhea.

Sleep - Sleepy but cannot sleep. Chronic insomnia. Excessive sleepiness, sound sleep with melancholy dreams. Jerking of the limbs while sleeping, causing him to awake. Talks during sleeps. Gritting teeth during sleep. Catalepsy. Nightmares every night as soon as he falls asleep. Dreams are prophetic, of dead bodies, danger and perils to be encountered. Erotic dreams with erection and profuse seminal emission.

Stomach - Pain in the cardiac orifice, relieved by pressure. Suffocative feeling while eating. Distention. Pyloric spasm.

Temperature - Loss of vital heat. General chilliness. Coldness of the face, nose and hands after dinner. Profuse sticky sweat, standing out in drops on his forehead.

Throat - Throat is parched, accompanied by intense thirst for cold water.

Vertigo - Chronic vertigo, as of floating off the ground. Worse on rising with stunning pain in back part of head. Sensation as if the room were falling in pieces about her. **COMMENTS** - Cann-i. inhibits the higher faculties and stimulates the imagination to a remarkable degree. A major remedy for drug flashbacks, fears, phobias or panic attacks since a drug overdose. DTs. Clairvoyance and clairsaudience.

A condition of intense exaltation in which all perceptions and conceptions, all sensations and emotions are exaggerated to the utmost degree. Hypersensitivity of all the senses. Extreme sensitivity to noise, can hear a whisper in adjoining room and is irritated from it. Startles easily. Fear of loss of control.

Sensation of levitation. Sensation as if in a dream. Vertigo on rising with stunning pain in back part of head. Cann-i. removed a vertigo in which the patient felt as if the house were falling in ruins about her.

Starting, talking, nightmares, during sleep. Grinds teeth while asleep. Wants to sleep but cannot (Gels.). Palpitations, awakens from sleep. Stitches in heart with oppression, better deep breathing.

Dryness of the mouth. Stammering and stuttering. Thirst for cold water, worse warm, stuffy rooms. Craves sweets. Useful when treating hypoglycemia related to smoking marijuana.

Affects the urinary and generative organs. History of kidney problems, cystitis, or gonorrhea. Constant dull pain in region of right kidney. Pains in kidneys when laughing. Sensation in anus as if sitting on a ball, as if anus and part of urethra were filled by a hard, round body.

Frequent urination with burning pain in evening. Urging and straining, but cannot pass a drop. Burning, scalding or stinging in urethra before during and after urination. Dribbling of urine (Thuja., Sabah, Sep.). Urine loaded with slimy mucus after exposure to damp and cold.

Backache worse during menses, which occur every two weeks and are scanty. Very profuse, painful, dark menstruation, but without clots. Tendency to get vaginitis.

Catalepsy. Tingling of paralyzed parts. Paralysis of lower limbs and right arm. Muscle cramps and weak knees. Headache with flatulence, lasts until flatus can be passed up or down, throbbing of occiput. Scalp sore feeling, crawling on vertex, sensation as though skin tightly stretched over bones of face. Weight at occiput from which pains start up sides of head to temples and vertex. Warmth of spine extending to head.

Sensation as of brain boiling over and lifting cranial arch like a lid, opening and shutting sensation. Shocks through brain on regaining consciousness. Guided by this symptom, Clarke removed a "noise like a crash or explosion during sleep."

Nash related the case of a woman suffering from cardiac dropsy, who, when relieved of the latter, suddenly lost the power of speech. In answer to a question she could begin a sentence, but could not finish it as she could not remember what she wished to say. She was very impatient about it, would cry, but could not finish the sentence, though she could signify assent if any one did finish it for her. Cann-i. cured rapidly.

In one case of overdose the observer experienced a modification of this: absolute forgetfulness of the thought, speech or acts of the previous moment, startled by hearing the echo of the last words of a sentence he has just spoken. Having suggested a walk to a companion and meeting him at the street door, wondered why they were there. Afterwards, he could remember everything. **RELATIONS - Compare:** (1) Cann-s., Bell., Hyos., Stram., Lach., Agar. (2) Anhalon. - time sense disordered, time periods enormously overestimated, thus, minutes seem hours. (3) Cann-s. - in extreme sensitiveness to noise. (4) Nit-ac. - to jarring and rumbling of wagon in street. (5) Coff. - to all sounds. Borax - slightest noise, fall of door latch, rumpling of paper, rustling of silk. (6) Asar. - to scratching of linen or silk or even the thought of it. (7) Levitation -Asar., Calc., Cocc., Ph-ac., Sil., Stict., Sulph., Thuja. (8) Asif in adream - Ambr., Anae., Calc., Con., Cupr., Med., Rheum., Stram., Valer., Verat., Zinc. (9) Horror of darkness - Am-m., Bar-c., Calc., Carb-an., Phos., Stram., Stroph., Valer. (10) Noise like a crash or explosion in head - Aloe.

***CANNABIS SATIVA

(Marijuana)

PHARMACY - cann-s. Cannabis sativa. Marijuana. Hemp. European hemp. American hemp. N. O. Cannabinaceae. Tincture of male and female flowering tops. **Historical dose:** Tincture and all potencies.

CLINICAL - Ascites. Asthma. Cataract. Choking. **Cystitis.** Fatigue. Forgetful. Glaucoma. **Gonorrhea.** Headache. Hysteria. Infertility. **Impotence.** Leucorrhea. Memory, weak. Miscarriages. Nausea. Nephritis. Nosebleeds. **Opacity, cornea.** Ophthalmia. Palpitations. Paralysis. Phimosis. Pleurisy. Pneumonia. Post-partum hemorrhage. **Polyuria.** Priapism. **Sexual, disorders. Stammering.** Teranus.

Trachea, mucus. Urethral discharges, caruncle. Vaginitis. Vomiting.

HERBAL - Cann-s. and Cann-i. are similar, the difference in their properties is solely due to the difference of soil and climate in which they are grown. Cann-s. has less pronounced mental symptoms and head symptoms and the eye and genito-urinary symptoms are more so than Cann-i.

HOMEOPATHIC - Cann-s. seems to affect especially the **urinary and sexual organs. Acute and chronic gonorrhea,** especially when the patient walks with the legs apart. **Sexual excitement** in both the sexes. Threatened miscarriage from too frequent sexual intercourse or complicated with gonorrhea. Vaginitis.

Characteristic sensations as of dropping water. Choking in swallowing, things go down the wrong way. Great fatigue from having spoken or written. Feels exhausted after a short walk. Feet feel heavy on going upstairs. Acute drawing and contractive, pressive pains with sensation of paralysis. Drawing pains in regions of kidneys extending into inguinal glands with anxious sensation of nausea at epigastrium.

Tetanus, chiefly in the upper limbs and in the trunk. Paralysis with tingling of the affected part. Unendurable fine stitching over whole body, as from a thousand needle points, at night, when sweating from warm covering, better uncovering.

MIND - Confusion of thought and speech. **Stuttering and stammering.** Embarrassed speech, at one time words are wanting, at another the voice fails. **Very forgetful cannot finish the sentence.** Vanishing of thoughts, want of words. Wavering speech, hasty, incoherent. Speech stops with anxiety and agony on account of pain in the back. Many errors in writing.

Ideas seem to stand still, he stares in front of him is absorbed in higher thoughts, but is unconscious of them. **Time seems too long.** Thinks everything is unreal, **as if in a dream.** Voices including her own, seem to come from a distance, her own voice seems strange, as if it were somebody else speaking. Clairvoyance.

Loquacity. Laughs immoderately, at mere trifles. Laughs and weeps. Ecstatic, heavenly. Fixed ideas. Mania, sometimes happy, sometimes serious or furious. Sadness and indifference. Irresolution and uncertainty. Moaning and crying. Disposition to be easily frightened or irritated. Fear of going to bed. **Abdomen** - Pain as from a bruise in the intestines. Hard and painful swelling of the liver region. Cramp-like pains in the epigastrium. Sensation of soreness. Shuddering sensation, as if cold water were running through abdomen. Painful jerks. Shaking of the intestines, as if they were detached, when the arms are moved. Shocks and pressure towards

the outside in the regions of the groins. Pulsation of abdomen from within outward.

Back - Pains in the back, which impede speech and suspend respiration. Shooting pains between the shoulder blades. Pressure towards the outside in the sacral region and coccyx.

Chest - Weight on chest, rattling wheezing breathing. Shootings in the bottom of the chest, especially on breathing, speaking or during movement.

Ears - Throbbing and pressure in the ears, that disappears when one is stooping and reappearing when raising the head again. Hears voices, bells, music. Buzzing in the ears and sensation as if a skin were before them.

Eyes - Glaucoma. Pressure from back of eyes, forward. Eyeballs ache. Cataract from nervous disturbances, abuse of alcohol and tobacco, patient feels deeply approaching blindness. Gonorrheal ophthalmia. **Opacity of cornea.** Scrofulous eye troubles (Sulph., Calc.). Cramp-like pulling in the eyes. Misty sight. Weakness and confusion of sight, on viewing objects either distant or near. Appearance of a circle of whitish flames before the eyes.

Face - Paleness of the face. Heat of the face and redness of the cheeks. Tingling, itching and smarting in the face, as if from salt. Twitching of the muscles of the face.

Female - **Acute gonorrhea.** Threatened abortion, complicated with gonorrhea or on account of frequent sexual intercourse. **Leucorrhea.** Infantile leucorrhea. Amenorrhea, also with constipation. Profuse menstruation. Miscarriage with convulsions. Great sexual excitement with infertility.

Food - **Desires sweets and cold drinks.** Every article of food is extremely palatable. Aversion to meat, of which she was fond.

Head - Headache, as if there were a stone pressing upon it. Sensation of a heavy weight on the vertex. Pressure and tension on the temples. Pressure on root of nose. Congestion in the head, throbbings in the brain, cheeks red and hot with pulsation. Sensation at the scalp, as if something were creeping on it and as if drops of cold water were falling on the head.

Heart - Great anxiety of heart. Painful tension in the heart with palpitations of the heart and anxiety. Beatings of the heart, which are felt lower than their ordinary place. Pulse weak, slow and scarcely perceptible. Pericarditis. Inflammation of the heart. Sensation as if drops were falling from the heart.

Kidneys - Inflamed sensation with soreness to **touch.** **Acute gonorrhea,** urethra sensitive, walks with the legs apart. Kidney colic and pains. Pain in kidney, while laughing. Painful urging. Must strain to urinate, has to wait for some time before the urine flows, dribbles after flow ceases. **Scanty burning urine passed drop by drop.** Urination in split stream. **Burning while urinating, extending to bladder.** Urine scalding with spasmodic closure of sphincter. Stitches, zigzag pain along urethra. Urethral caruncle (Eucal.), phimosis. Stoppage of urethra by mucus and pus. Discharge of yellow, watery mucus from the urethra (gonorrhea). Urine, turbid, white or reddish and as if mixed with blood and pus. Incontinence of urine. Ejection of a kidney stone on urinating. Retained urine with constipation.

Limbs - Pain in the limbs, worse deep breathing. Pain, as from a bruise in the shoulder and forearm during movement. Entire paralysis of lower limbs. Cramps in the thighs, the calves of the legs and the hams. Weakness, staggering and pains of the knees. Displacement of the patella on going up the stairs. Pulsation and stretching pain in the feet and in the joints of the foot, as after a long walk. Spasmodic contraction of the Achilles tendon with violent pains. Cramps in the hands and the fingers. Sudden paralytic weakness of the hand with trembling on laying hold of an object and inability to hold it firmly.

Lungs - Suffocative attacks. Humid asthma. Difficulty in breathing and palpitations, **then must stand up.** As if there were a weight on the chest, with wheezing and rattling in the bronchials. Difficulty of respiration with uneasiness in the throat, worse lying down. Rattling breathing. Inflammation of the lungs, with greenish vomiting and delirium. Cough with green viscid, bloody, expectoration. Cough, violent and dry.

Male - **Sexual desire increased.** Priapism. Strong sexual desire or aversion to sex. Erections without amorous thoughts. Erections with tensive **pains.** **Acute gonorrhea.** Itching and inflammatory swelling of the prepuce, glans and penis with deep redness and phimosis. The penis feels sore and burnt when walking, walks with legs apart. Cold genitals. Dragging, aching in the testes and tension in the spermatic cord, when standing upright. Swelling of the prostate gland.

Modalities - Better from fresh air. Better cold water. Better rest. **Worse from urinating.** Worse after a meal. Worse coffee, liquor or tobacco. **Worse darkness.** Worse at night. Worse after midnight. Worse open air, and heat. Worse from exercise, exertion. Worse talking. Worse walking. Worse going upstairs. Worse touch. Worse lying down.

Mouth - Grinding of teeth in sleep. **Dryness of the mouth** with viscid saliva and absence of thirst. Saliva, white, thick, frothy. Eruption on the border of the lips.

Nose - Swelling of the nose with copper- like redness. Stupefying pressure on the root of the nose. Heat and

dryness of the nose. Nosebleed, preceded by a sensation of burning in the nose.

Rectum - Diarrhea, accompanied by cramplike pains in the abdomen. Pressure in the rectum towards the outside. Sensation as of cold water running from the anus. Constipation and hard feces.

Sensations - As if hot water were poured over him. **As if drops of cold water were falling on the head, from anus, or from heart.** As if pinched with pincers in back. Pressure as with a sharp point in coccyx.

Skin - At night, pricking and sensation of burning over the whole skin, as if from boiling water.

Sleep - Sleepy, but cannot sleep. Frightful or erotic dreams. Dreams of the dead. Sensation of greater fatigue on waking in the morning, then when going to bed in the evening. Sleepy during the day.

Stomach - Empty risings. Regurgitation of acrid substances of a bitter sourness. Attack of violent cramps in the stomach. Nausea with inclination for food. Vomiting with sensation of strangulation from the epigastrium to the throat. Vomiting of green bile. Pain in the stomach, on being touched, as if it were ulcerated, better by eating. Aching, pinchings and cuttings in the epigastrium and in the upper part of the stomach.

Temperature - Typhoid fevers, where strangury exists. Shuddering, shivering with thirst. Uneasiness and external cold. Coldness of the body with heat in the face. Heat only in the face. Burning heat over the whole body at night.

Throat - Cannot control voice. Loss of voice. Accumulation of tenacious mucus in the larynx with scraping and difficulty of breathing.

Vertigo - Vertigo, sensation of dropping water on head. Attacks of vertigo on walking or when standing for some time to such an extent as to cause falling. Sensation as if intoxicated.

COMMENTS - In Cann-i., the drug state is often the etiology, but Cann-s stands on its own. Closely related to Med. And Thuj., will often follow Med. Boericke said that lemon juice antidotes Cann-s.

Strong affinity for the genital area and infections. High sex drive (Med.). Acute gonorrhea remedy, with spaciness and a history of drug use. Yellow-green discharges.

Urethral symptoms with burning and smarting (Canth. has more tenesmus). Mucus in urine, burning on urination. The bladder feels full. Non-specific urethritis. Pain in right kidney. Cramps of any kind. The urethra is very sensitive to touch and pressure, the patient cannot bear the legs close together. Urethral caruncle. Phimosis.

Dry mouth, craves sweets, thirst for cold water. Hypoglycemia. Sensitive to stimulants. Limbs feel weak and heavy. Glaucoma. Cataract and opacities of the cornea, gonorrhea of the eyes. Eyeballs aches, pressure in back of the eyes.

Sudden changes from agitation to restless to calm. Distortion in perception, spacey, bad memory. Better with fresh, open air and cold water on their face.

RELATIONS - Antidotes: Camph., Lemon juice. Antidotes of large doses: lemon juice, Strychnia, Camph., Merc. **Compare:** (1) Cann- i., Thuj. Med., Canth., Petros. (2) Sars. - worse going up stairs. (3) In phimosis - Merc., Sulph., Nit-ac., Sep., Thuj. Rhus-t.. Sabin. (4) as if something alive in abdomen - Croc., Thuj. (5) Apis, Cop., Cimic., Kali-n. (6) Hedysa- rum - gonorrhea and inflammation of penis. **Compatible:** Bell., Hyos., Lyc., Nux-v., Op., Puls., Rhus-t., Verat.

REFERENCES - Boericke. Clarke. Murphy.

***CANTHARIS VESICATORIA

(Spanish Fly)

PHARMACY - canth. Cantharis vesicatoria. Spanish Fly. Lytta vesicator. Meloe vesicatorius. N. O. Insecta, Coleoptera. Tincture or trituration of whole insect. **Historical dose:** Trituration, tincture and all potencies.

CLINICAL - **Bladder, infections.** Blisters. **Burns.** Chordee. **Cystitis.** Diphtheria. Dysentery. Eczema. Emissions. **Erysipelas.** Eyes inflammation. Gastritis. Gonorrhea. Herpes zoster. **Hydrophobia. Kidneys, disorders.** Mania. Neuralgia. Nymphomania. Ovaries, disorders. Peritonitis. Pleurisy. Pregnancy, disorders. Retained, placenta. Satyriasis. Scarletina. **Sexual, mania.** Spermatorrhea. Strangury. **Sunburn.** Thirst. Throat, sore. Tongue inflammation. Urine, abnormal. Vesicles.

HOMEOPATHIC - Commonly known as Span- ish fly, Canth. belongs to the animal kingdom and finds its most prominent sphere of action in exciting the animal passions. There is anger in a very acute degree amounting to paroxysms of rage and a corresponding condition of the bodily tissues.

Rapid and intense action. Characteristic **irritation.** Hypersensitiveness of all parts. **Burns and scalds.**

Vesication. Erysipelas, blisters. Burning, stitches, shooting pains and exudation are the indications. **Pains are cutting, smarting or burning, biting** or as if raw, causing mental excitement. **Raw, burning pains.**

Inflammations are violently acute or rapidly destructive in the mucus and serous membranes. Violent inflammation of the whole gastro-intestinal canal, especially lower bowel. Puerperal convulsions. Inflammations are often associated with bladder irritation.

In any condition when the urine is scanty, cutting and burning. Intolerable, **constant urging to urinate. Dysuria** with any other complaints. Painful urination, as a concomitant in any diseased condition. Acute nephritis.

Gastric, hepatic and abdominal complaints, **aggravated by drinking coffee**. Gastric derangements of pregnancy.

Inflammation of sexual organs, causing frenzied delirium. Amorous frenzy, unbounded sexual desire. Sexual weakness and excitability. **Sexual excitement during pains**. Expels dead fetus, placenta, promotes fecundity. Discharges are bloody, acrid, watery, tenacious. **Hemorrhages**. Serous effusions. Sudden attacks of weakness that takes the voice away. Hemiplegia of (right) side with aphasia. Convulsions with dysuria and hydrophobic symptoms. Moles.

MIND - Great restlessness, obliging him to move constantly. **Anxious restlessness**, ending in rage. Paroxysms of rage with crying, barking, biting and worse by bright objects, by touching the larynx, drinking cold water. Despondent and low-spirited, says she must die. Weeping aggravates.

Furious delirium. Delirium, with dread. Acute mania after erysipelas. Wildness. Excessive sexual desire, not better by sex. **Acute mania**, generally of a sexual type, amorous frenzy, fiery sexual desire. Sings lewd songs. Striking at imaginary objects about him.

Fear of mirrors in room. Constantly attempts to do something but accomplishes nothing. Insolent, contradictory mood. Disposition to contradict. Irritable, dissatisfied with every one and everything. Whining and complaining, with anxious restlessness, worse motion, better lying quiet.

Exceedingly sensitive to all impressions. Uneasiness day and night, with hot head. Strange ideas crowd on him against his will. Prattles about genitals, urine, feces. Delusion bed were raised. Insanity with increased strength. **Sudden loss of consciousness** with red face.

Abdomen - Pain in loins with incessant desire to urinate. Violent burning pain through the whole intestinal tract, with painful sensitiveness to touch.

Back - Emprosthotonos and opisthotonos. Pain in loins with frequent desire to urinate.

Bladder - **Acute severe cystitis. Constant desire to urinate**. Urging to urinate from smallest quantity of urine in bladder. **Intolerable tenesmus**. Burning, cutting pains before, during and after urination. Severe burning pains in bladder. **Intense burning pain in urethra**, worse motion, better lying on back. **Violent burning, cutting pains** in neck of bladder. Atony of bladder from long retention of urine. Gripping in bladder. Heaviness in bladder, feels sore on slightest motion. **Terrible pains from being catheterized**. Bladder pains, worse drinking, even small quantities of water. Burning pains when urinating and when not. Must double herself and scream from fearful cutting pains in urethra.

Breasts - Breasts painful, with dysuria.

Chest - Chest pains better belchings. Burning pains in chest. Stitches in chest, at sternum (Bry., Kali-c., Squil.). Pleurisy, as soon as effusion has taken place.

Ears - Sensation as if wind were coming from ear or hot air. Bones about ear painful (Caps.).

Eyes - Objects look yellow. Yellow vision (Sant.). **Fiery, sparkling, staring look**. Burning in eyes.

Face - Pale and wretched, death-like appearance. Expression of extreme suffering, terror or despair. Hot and red. Jaws tightly closed, acute mania. Itching vesicles on face, burning when touched. Erysipelas of face with burning, biting heat with urinary symptoms.

Female - Retained placenta (Sep.), with painful urination. Expels dead fetuses, membranes, etc. **Nymphomania** (Plat.). Pruritus with strong sexual desire, at menopause. Leucorrhoea with sexual excitement, causing severe itching and masturbation. Puerperal metritis with inflammation of bladder. Menses too early and too profuse, black. Swelling of vulva with irritation. Constant discharge from uterus, worse false step. Cutting burning in ovaries, ovaritis. Sharp, tearing pain in os coccyx.

Food - Disgust for everything, drink, food, tobacco. Thirst unquenchable. Burning thirst, but aversion to all fluids. Aversion to **water. Aggravation from drinking coffee**. drinking the smallest quantity increases pain in bladder and is vomited.

Head - Burning in brain. Sensation as if boiling water in brain. Head heavy, aches from bathing or washing. Hair falls when combing.

Heart - Palpitation, pulse feeble, irregular, tendency to syncope. Pericarditis with effusion.

Kidneys - **Acute nephritis**. Nephritis with bloody urine. Diabetes insipidus. Bright's disease. Kidney colic. Kidney region very sensitive. Kidney pains and urging to urinate, steadily increasing in severity. Dropsy. **Urine, burning, scalding with cutting pains and intolerable urging**. Strangury. Violent paroxysms of cutting and burning in whole renal region, with painful urging to urinate. **Urine is passed drop by drop, dribbling**. Bloody urine. Membranous scales looking like bran in water. Urine jelly-like, shreddy. Paroxysmal cutting and burning, in both kidneys, the region very sensitive to slightest touch.

Limbs - Knees totter when ascending steps. Ulcerative pain in soles, cannot step. Tearing in limbs.

Lungs - Voice low, weak feeling. Tenacious mucus in air passages. Pleurisy with **exudation**. Dyspnea, palpitation, frequent, dry cough. **Tendency to syncope**. Short, hacking cough, blood-streaked, **tenacious** mucus.

Male - Painful swelling of genitals. Priapism. Pulls at penis. Sexual desire increased not better by sex. Bloody semen. Pollutions. Burning in urethra after sex. **Strong desire**, painful erection. Pain in glans. Gonorrhea with priapism.

Modalities - Better from rubbing. Better warm applications. Better warmth. Better rest. Worse during or after urination. Worse drinking cold water or coffee. Worse sound of water. Worse bright objects. Worse touch, especially the larynx.

Mouth - Tongue covered with vesicles, deeply furred, edges red. Swollen tremulous tongue, edges raw. **Burning in mouth, pharynx and throat**. Vesicles in mouth. Grinding of the teeth with lockjaw. Saliva disgustingly sweet.

Rectum - Dysentery, mucus stools like **scrapings of intestines**. **Shreddy burning stools with** tenesmus of rectum and bladder, with shuddering after stools. Bloody with **burning, tenesmus and shuddering after stool**. Dysentery or diarrhea with dysuria. Constipation with retention of urine. Desire for stool while urinating. Cutting in rectum partially better by flatus, entirely by stools.

Skin - **Burns and scalds** with rawness and smarting, relieved by cold applications, followed by undue inflammation. Severe sunburns. Eruptions burn when touched. Dermatitis with bleb formation. Eruption with mealy scales. **Vesicular eruptions**, turning black with burning and itching. **Erysipelas**, vesicular type with great restlessness. Secondary eczema about scrotum and genitals, following excessive perspiration. Tendency to gangrene. Burning in soles of feet at night.

Stomach - Burning sensation of esophagus and stomach (Carb.). Very sensitive, **vio- lentburning**. Vomiting of blood-streaked membrane. Violent retching and vomiting. Sensitiveness over stomach, slightest pressure produces convulsions.

Temperature - Chilly, as if cold water poured over him during stool. Cold hands and feet, cold sweat. Urinous sweat, on genitals. Soles burn.

Throat - Burnt after taking hot food. As if on fire. Burning in mouth, pharynx and throat. Scalding feeling. **Great difficulty when swallowing liquids**. Painfully constricted, aphthous ulceration. Full of blisters. Very **tenacious mucus** (Kali-bi.). Violent spasms reproduced by touching larynx.

Vertigo - Vertigo, worse in open air.

COMMENTS - In Canth., the pains are burning and sharp, sharp along the course of a nerve. Tyler wrote that it was "Another vehement drug of storm and stress, tamed by Hahnemann." **Burns and blisters**. Severe pain from burns. The part may be treated with a lotion containing a few drops or pills of the Canth. 30c or 200c to the ounce of water, a dilution given internally.

An ointment made with the 3x is a good application for herpes zoster.

Useful for bladder infections (Staph.), with a constant, severe, painful urging, cutting in the urethra (Sars.). Hematuria, blood in the urine, with a severe bladder infection. Pus in the urine. Can pass only a few drops like molten lead. Strangury. Cutting, burning pains from the kidney down to urethra. Irritation of all grades. Worse from a catheter.

The pains are burning and sharp, sharp along the course of a nerve. Neuralgia of head and face from taking cold with loud screams and jerking of muscles. The slightest touch or approach aggravates the mental symptoms. Violent spasms reproduced by touching larynx.

It acts on the brain, producing inflammation of the tissues. Irritation on the skin and serous membranes. Pleurisy with effusion. Diphtheria, inflammation of throat, severe burning, constriction, thirst with aversion to drinking.

The face is generally pale or yellowish with an expression of deep-seated suffering. Erysipelas commencing in nose. The eyes are bright, pupils widely dilated. Conjunctivitis where the eye has burning pains, clawing at the eye (Euphr.).

Pain in abdomen, colic-like, doubling the patient up, cutting, burning, lancinating. Dysenteric stools with tenesmus. Violent dysentery, painful dysentery, with burning on passing the stool with blood and mucus. Extreme superficial sensitiveness in hypogastrium (especially when the bladder is full), attended with unbearable tenesmus of bladder. Inflamed stomach. The sexual appetite is aroused to the point of mania.

H. N. Guernsey observed that Canth. is almost always the remedy for whatever other sufferings there may be, when there is as well frequent urination with burning, cutting pain or if cutting burning pain attends the flow, even when urination is not very frequent.

Guernsey noted that "Canth. expels moles, dead fetus, placenta, promotes fecundity." He also pointed out that

Canth. should be studied in treating disorders of the airpassages when the mucus is tenacious.

Guernsey gave as the special indications in rabies and hydrophobia as "moaning and violent cries interspersed with barking." Glassy eyes, dilated pupil, flushed face, and the person is in a violent frenzy. Worse from dazzling objects and by water, completing the hydrophobia picture.

Nash recorded a case in which this observation led him to make a cure. Kali-bi. had completely failed to relieve a woman who had long suffered from bronchitis. The mucus was profuse, tenacious and ropy. One day the patient mentioned that she had great cutting and burning on urinating, which she was obliged to do very frequently. Canth. made a rapid cure.

Canth. has cured a case of malarial cachexia in which the symptoms were always worse when the urine was scanty.

RELATIONS-Antidotes: Aeon., Puls. Camph. antidotes the strangury and retention of urine of Canth., Apis the cystitis, Kali-n. the kidney symptoms. For its throat symptoms it is nearest to Capsicum. Canth. is **Antidote to:** Camph., V inegar, Alcohol. **Compare:** (1) Apis, Staph., Ars., Merc-c., Bell. (2) Cann-s. - more burning and smarting, Canth. more tenesmus. (3) Petros. - sudden urging, Caps, Puls. - retained placenta, Ars. - delayed urination after childbirth. (4) Erections, those of Canth. prevent urination, those of Thuj do not. (5) Merc. - semen mixed with blood, Sars. (urine burns like fire, shreddy particles and blood in it). Arum, Am., Rhus-t., Ran-s. (6) Teste classes Canth. with Senega and Ph-ac. in his Conium group. (7) Cantharidin - Glomerular nephritis. (8) Vesicaria - urinary and kidney remedy. Smarting, burning sensation along urethra and in bladder with frequent desire to void urine often with strangury. Cystitis irritable bladder. (9) Fuschina - Nephritis with albuminuria. Redness of ears, mouth, swollen gums, deep, red urine, red, profuse diarrhea with severe abdominal pains. (10) Androsace lactea - urinary troubles, diuretic, dropsy. **Compatible with:** Bell., Merc., Phos., Puls., Sep. **Complementary:** Camph. **Incompatible:** Coffea.

***CAPSICUM ANNUUM

(Cayenne Pepper)

PHARMACY - caps. Capsicum annuum. Cayenne pepper. N. O. Solanaceae. South America. West Indies. Tincture of the dried pods. **Historical dose:** Tincture and all potencies.

CLINICAL - Amaurosis. Asthma. Brain, irritation. Delirium tremens. Cough. **Delirium tremens.** Diarrhea. Diphtheria. Dysentery. Ear disorders. Esophagus, stricture. Colic. Gland, disorders. Hemorrhoid. Headache. Heartburn. Hernia. **Homesickness.** Intermittents. Lungs, disorders. **Mastoiditis.** Measles. Mouth, ulcers. Neuralgia. Nose, disorders. Obesity. Paralysis. Pleuro-pneumonia. Pregnancy, disorders. Rectum, diseases. Rheumatic gout. Rheumatism. Sciatica. Scrofula. Seasickness. **Stomatitis.** Throat, sore. Tongue, paralysis. Trachea, tickling. Urine, disorders. Whooping cough. Yellow fever.

HERBAL - Capsicum should be studied in connection with the other great members of the Solanum family, Bell., Stram., Hyos., Dulc., Solan, carolin., Solan, nig., Solan, tub. (Potato) and Lycoper. (Tomato).

HOMEOPATHIC-The well-known burning effects of red pepper is a leading indication for its use. **Burning pains**, wherever they occur, demand that Caps, should have consideration, if there are no other determining symptoms in favor of another remedy. Burning, worse from cold water.

Pains are **burning, smarting**, pungent or strangling, threadlike, worse by cold water. Burning and pungent pains, worse by application of cold water. Burning, pungent sensation in face worse by slightest draft of cold air. Burning pains and general chilliness.

Burning in throat. Burning blisters in roof of mouth (diphtheria or gangrene). Constriction of throat, spasmodic closure. Throat pain when not swallowing. Burning in rectum, tenesmus. Burning in bladder. Burning on urination.

Fever. Redness of the skin, scarlet eruption (Bell.). Mucus membranes become dark, red, spongy or ooze bloody mucus. Mucus

Capsicum annuum membranes have a sensation of **constriction**.

Disorders of bones. Pains in bones of face. Inflammation of petrous bone. **Mastoiditis.** Marked tendency to suppuration in every inflammatory process. Deep abscesses. Discharges are very foul.

Violent pains in various places, now here now there. Muscle pain, aching and jerking of muscles. Neuralgias. **Sensation of soreness** and constriction. Sensation as if cayenne pepper were sprinkled on parts. Sensation as if parts go to sleep. Shuddering during pain or drinking.

Lack of reaction, particularly in persons of lax tissue. Sluggish circulation. Hemorrhages. Bodily irritability. Parts pinched remain in raised position for a long time.

Extreme sensitiveness to cold and damp (Dulc.), aggravates most symptoms. Shuns open air, dreads uncovering, dreads air. especially a draft. Better from heat. Patients who cannot get to sleep without a hot

bottle at their back. Spirits become lower as body becomes cooler. Symptoms generally appear on left side. A general **uncleanliness of body**.

Thirsty, but drinking causes shuddering. Absence of thirst during heat. Prostration and feeble digestion of alcoholics. Abstainers from accustomed alcohol.

MIND - Capricious and changeable mood. If she wants a certain thing, she will oppose, if proposed by someone else. **Homesickness with red cheeks and sleeplessness with hot feeling in fauces**. Homesickness with sleeplessness and disposition to suicide. **Sentimental, nostalgic moods**.

Peevish, irritable, angry, easily offended. **Irritability during chill**. Confusion during chill. Peppery disposition. Always on the lookout for insults. Obstinacy. Refractory, especially children. Wants to be left alone. Red cheeks after emotions, fever.

Alternating states, laughs and weeps by turns is now jocose and sings, but becomes angry from slightest cause. Clumsy. Awkward, runs **'Moeverything.Delirium tremens**. Alcoholism. Dreads any kind of exercise.

Anxiety and fear, as though he was going to die. Fearfulness. Fear of slightest draft.

Fear of being censured. Frightened easily on waking. Awakens with fright, screams, and remains full of fear. Sensitive to noise. **Abdomen** - Flatulent colic. Colic about umbilicus with mucus stools. Violent pulsations of arteries in abdomen.

Back - Lumbar pain after stools. Pain in sacrum with hemorrhoids and dysentery. Pain in the back while drinking water. Sensation as if cold water dropping down back.

Causations - Homesickness.

Chest - Constriction of chest, arrests breathing.

Constitutions - Suited to those of lax tissues, weak, lazy indolent, fat, red, clumsy, awkward and of unclean habits. Such persons are opposed to physical exertion, averse to go outside of their routine and get homesick easily. Old people who have exhausted their vitality, especially by mental work and poor living. Persons react poorly and are afraid of cold. Abstainers from accustomed alcohol.

Ears - Swelling and pain behind ears, inflammation of mastoid. Mastoiditis. Otorrhea and mastoid disease before suppuration. **Tenderness over the petrous bone**, extremely sore and tender to touch (Onos.). Hot ears. Burning and stinging in ears. Otalgia, then deafness. Tympanum perforated. Sub-acute inflammation of Eustachian tube with great pain. Ear affections during pregnancy.

Eyes - Objects appear black. Eyes prominent, with burning and lachrymation during cough.

Face - Red, but cold, or pale and red alternately. Pain in fine line coursing along the nerve. Lips, swollen, cracked, burning.

Female - Menopausal disturbances with burning of tip of tongue. Pushing or sticking sensation in ovarian (left) region with disorders of menses. Uterine hemorrhage near the menopause, with nausea. Sticking sensation in left ovarian region.

Food - Craves stimulating, pungent things, wants a bracer. **Much thirst, but drinking causes shuddering**. Desire for coffee, but it nauseates. Vegetables cause flatulence.

Head - Bursting headache, worse coughing, better heat, movement, lying with head high. Hot face. Red cheeks. Face red, though cold (Asaf.).

Kidneys - Strangury, frequent, almost ineffectual urging. **Burning in orifice**. Comes first in drops, then in spurts, neck of bladder spasmodically contracted. Thick, white creamy discharge from urethra, with gonorrhea. Drinking excites urination and stool. Meatus everted.

Limbs - Joints crack, stiff, painful on beginning to move, pain as if paralyzed. Sciatica, worse bending backwards and coughing. Leg (left) atrophied with violent pain. Staggeres when walking. Pain from hips to feet, worse coughing. Tensive pain in the knee.

Lungs - Pain at apex of heart or in rib region, worse touch. Dry, hacking cough, expelling an offensive breath from lungs. Dyspnea. Explosive cough. Feels as if chest and head would fly to pieces. Ribs seem dislocated.

Pain in distant parts on coughing, bladder, legs, ears, etc. Wants to take deep breath, thinking that it would relieve all her symptoms. Too weak to cough out expectoration. Asthma with redness of face, worse ascending. Hoarseness in singers and preachers. Threatening gangrene of lung.

Male - Coldness of the scrotum, with im- potency, with softening and dwindling. Atrophy, softening of testes with loss of sensibility, spermatic cord shriveled. Prepuce swollen. Cramps in testes after emission. Trembling of the whole body during amorous caresses. Gonorrhea with chordee, excessive burning, pain in prostate.

Modalities - Better from continued motion. Better heat. Better while eating. **Worse from slight draft**, even warm. **Worse cold air**. Worse cold water. Worse uncovering. Worse dampness. Worse bathing. Worse touch. Worse from empty swallowing. Worse drinking. After eating, the throat or excited urination is worse, in alcoholics. Rest aggravates some forms of headache and improves others. Motion causes headache as if skull would split, as if bruised,

asthma, chilliness, stiff joints to crack. Ascending causes asthma.

Mouth - Stomatitis. Tongue greenish at base. Burning in tip of tongue. Vesicles or flat painful aphthae. Gums, hot, spongy, retracted. Saliva increased. Taste, foul like putrid water, sour to food. **Fetid odor from mouth.** Herpes of lips (apply one drop of the mother tincture.).

Nose - Red but cold, tip very hot. Nosebleed in the morning in bed.

Rectum - Dysentery. Mucus diarrhea. Bloody mucus with burning and tenesmus, drawing pain in back after stool. Small, hot, burning stools. **Thirsty after stool with shivering,** worse drinking. Stinging pain during stool. Burning, **bleeding from hemorrhoids** with soreness of anus.

Skin - Burning. Bloated, flabby.

Sleep - Sleeplessness from emotions, homesickness or cough. Sleepy after meals. Yawning by day. As if falling from a height during sleep.

Stomach - Much flatulence, especially in debilitated subjects. Vomiting, sinking at pit of stomach. Water brash. Acid dyspepsia, burning or trembling in stomach or icy coldness or as if cold water.

Temperature - Coldness with ill-humor. Chilly with the pains. Thirst before chill. **Shivering after drinking.** Chill begins in back with violent thirst, but shivers from every drink with excruciating backache. Chill alternating with heat, mounting to head, then sweat. Coldness of affected part. Sweats easily. Cold sweat on thighs. Fevers after emotions with homesickness. Must have something hot to back.

Throat - Burning, smarting in throat. **Hot feeling in fauces.** Constriction of throat with urging to swallow. Inflamed uvula and palate, swollen, elongated and relaxed, feeling as if it were pressing on something hard.

Pain and dryness in throat extending to the ears. **Sore throat of smokers and drinkers.** Paralytic dysphagia. Hot, pungent air comes up from the throat, tasting foul when coughing. Pains when coughing.

COMMENTS - A case of poisoning in a worker in a capsicum-plaster factory brought out a severe chill with shaking and it ended in an intense coryza.

Mastoiditis. Glossitis. Cystitis. Dysentery (Canth.). Bloody mucus. Hemorrhage, helps stop blood flow. Ulcers and burning. Herpes, where there is a smarting, burning sensation on the sores. Characteristic cough with fetid breath or bad taste. Cough causing splitting pain in head. Chill at 10:30 a.m., beginning between shoulders and running down back.

Homesickness (Calc-p., Ign., Nat-m.). Weight loss, insomnia, loss of appetite, depression. "Pining." A lot of sighing, respiration-

Clarke cured completely with a few doses of Caps., an Australian girl of florid complexion, who had come to London to study and who was quite incapacitated by homesickness.

Delirium. Successful in delirium tremens, mostly in drachm doses of the tincture, given in milk or tincture of orange peel. Equal parts of tincture of Caps. and glycerin make a liniment for external use in many cases of chronic rheumatism and neuralgia.

Caps. 30c brought speedy relief in a case of tympanites following laparotomy, the concomitant symptoms included cold nose and limbs and cyanosis.

RELATIONS - Antidoted by: Calad., Camph., Cina, Chin., Sul-ac. or vapor of burning sulphur. It antidotes: Effects of Alcohol, Coffee, Opium or Quinine. **Compare:** (1) Am., Bell., Bry. - headache from cough, Canth. - burning pains, throat symptoms, dysentery, urinary symptoms. (2) Psor. - lack of reaction, despair of recovery, Caps. in persons of lax tissue. (3) Lach - thirst before chill, continues into chill, drinking Worse also Elaps. (4) Nat-m., Carb-v. and Meny. (5) intermittents, Nat-m. is the "**chronic**" of Caps. (6) Carb-an. and Nit-ac. - inflammation behind ears, Aur. and Nit-ac. preferable in abscess, Sil. in chronic suppuration. (7) Ph-ac. - homesickness, Caps. has red face. (8) Ars., Alum., Carb-v., Lyc. have burning pains better by heat. (9) Merc., Nit-ac., Sulph. have passage of blood from bowels. (10) Crot-t. after drinking urging to stool. (11) Hell. - colic with spasm of bladder. (12) Plat. - burning, pungent pain in face, worse slightest drought of air, warm or cold. (13) Puls., Lyc., Bell. (14) Centaurea - surging of blood, homesickness intermittent fever.

Compatible: Bell., Lyc., Puls., Sil.

***CARBO ANIMALIS

(Animal Charcoal)

PHARMACY - carb-an. Carbo animalis. Animal charcoal. Made from charred ox-hide. Contains Calc-p. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne, rosacea. Aneurysm. As-phyxiation. Appetite, disordered. Belchings. **Breast, cancer.** Breast-feeding. **Bronchitis.** Bubo. **Cancer.** Cataract Constipation. Coccyx, pain. Cough. Empyema. Face, eruption. Gangrene. **Glandular, indurations.** Hemorrhoids. Headaches. Homesickness. **Hookworm.** Hypertrophy. Legs, pain. Leucorrhea. Lumbago. Nose, disorders. Otorrhea. Pancreas, indurated. Perspiration,

altered. Pleurisy. **Pneumonia**. Polyps. **Scrofula**. Strabismus. Syphilis. Tongue disorders. Trachea, disorders. **Ulceration**. Uterus, cancer. Vision, disorders.

HOMEOPATHIC - Carb-an., or animal charcoal, is made from charred ox hide, it contains Calc-p. in small quantity. The Carbon group all have putrid discharges and exhalations. All act on the skin, causing intertrigo and excoriations and Carb-tcl. is said to cause fatty liver (Phos., Kreos., Chlf.).

Carb-an. is often indicated in the **last stage of cancer, pneumonia, bronchitis, tuberculosis**. Breast cancer with burning, drawing pains through breast. Right chest is most affected. Uterine cancer, burning pains down thigh. **Tendency to malignancy**.

Glands enlarge slowly and painfully, burning. Glandular enlargements with catarrhal states, flatulency and asphyxiation. Painful swelling, lancinating, cutting and burning (Con., Merc-i-f.). **Glands are indurated**, veins distended, skin blue. Glands are stony hard. Neglected buboes.

Marked tendency to induration of glands and tissues. Indurations after inflammations.

Ulceration and decomposition. Hemorrhages. Gangrene. Offensive secretions. Discharges are acrid and foul. Slow, hard, painful processes. Sensations of looseness, crawling as of bugs.

Stitch remaining after pleurisy (Bry.). Venous stasis, blue skin. Local **congestions without heat**. Copper-colored eruptions. Constitutional syphilis. Gummae.

Paralysis of muscles of feet and hands. Patients are susceptible to colds and easy sprains. Easily strained from lifting. **Hookworm** disease (Thymol.).

Especially adapted to scrofulous and venous constitutions. Suited to weak, broken-down constitutions and to the infirmities of old age or those prematurely aged. After debilitating disease with feeble circulation and lowered vitality. Weakness of nursing women, they weep while eating, unable to walk even across the room.

MIND - Alternations of mood and overexcitability, alternating with fretful sadness. Sadness in morning. **Aversion to company**. Desire to be alone, sad and reflective. **Avoids conversation**. Weeps during meals. Whining.

Cheerfulness alternating with sadness. Homesickness, longing for the past. Homesickness in morning. Forsaken feeling in morning. Anger about former vexations, about past events.

Easily frightened. Fear of the dark, worse on closing eyes. Anxiety at night with orgasm of blood. Fear of suffocation on closing eyes. Frightful images before sleep. Starting on falling asleep.

Stupefaction, with vertigo, has to close eyes, when rising after stool. Confusion better epistaxis. Confusion in morning, did not know whether he had been asleep or awake. Difficulty in expressing ideas when writing. Hastiness. Irritability in morning, with heavy and dull head.

Abdomen - Great distention after a operation. As of a hard body in groin (left) worse sitting, better pressure and passing flatus. Feeling of coldness rising into the throat. Induration of pancreas. Neglected bubo.

Back - Coccyx feels bruised, burns when touched, worse sitting or lying. Coldness and aching in lumbar region with cough.

Breasts - Weakness of nursing women. Darting in breast, **painful indurations** in breast, especially right, while nursing, arresting breathing. Hard painful nodes in breast. **Last stages of breast cancer**.

Causations - Ill effects of eating spoiled fish or decayed vegetables. They are over affected by small vital losses. Sprains.

Constitutions - Constitutional syphilis. Suited to old persons, greatly debilitated, especially when there is venous plethora and blueness of skin. Persons whose vitality becomes low on account of some serious or deep seated diseased condition or loss of fluids.

Ears - Parotid gland swollen. Otorrhea with swelling of mastoid. Sharp pain. Hearing confused, **cannot tell direction of sound**. Ringing in ears, when blowing the nose.

Eyes - Pains down through (right) eyeball. Sensation as if something lay above eyes, so that she could not look up. As if eyeball were loose in the socket. Objects seem to be far off. Dimness of vision when reading. better rubbing eyes. Senile cataract.

Face - Bluish cheeks and lips. Copper colored eruptions. Acne, large number of pimples.

Female - Menses too early, frequent, long lasting, dark, clotted, putrid, **followed by great exhaustion**. So weak can hardly speak (Cocc.). Flow only in the morning (Bor., Sep.). Leucorrhea, watery, burning, biting. Worse walking or standing, stains linen yellow. Nausea of pregnancy, worse at night. Offensive lochia (Kreos., Rhus-t., Sec.), thin, long lasting, with numb limbs. Right ovary seems a heavy ball. Burning in vagina and labia. Indurated os with burning. Uterine hemorrhage with disorders of glands. **Cancer of uterus**, burning pain down thighs, pelvic bones pain on sitting.

Head - Rush of blood with confusion. Headache, As if skull had been split or blown to pieces, must press it with both hands, better eating. Brain feels loose, worse motion and coughing. Throbbing headache after menses. Sensation as if something lay above eyes so

that she could not look up.

Heart - Palpitations when hearing singing in church or in public places. Coldness in precordial region with goose bumps.

Limbs - Axillary glands, swollen, indurated. **Night sweat** fetid and profuse. Wrist pain. Hands numb with chest disorders. Joints weak, easy dislocation. Ankles turn easily. Pain in hip joints at night. Pain in coccyx, burns when touched. Straining and over-lifting produces a great debility Easy discoloration.

Lungs - Nervous dyspnea. Suffocation or closing eyes. Pleurisy, typhoid character with remaining stitch. Ulceration of lung: with feeling of coldness in lungs. Cough with discharge of greenish pus. Sputum dark, brown tough, syrup-like.

Male - Syphilis. Bubo.

Modalities - Better in warm room. Better from laying hand on affected part. Worse from slight causes. Worse losses of vital fluids. Worse after or during menses Worse from sprains. Worse lifting. Worse touch. Worse taking cold. Worse dry, cold air. Worse after shaving. Worse while eating. Cough is worse lying on right side Throbbing headache worse in open air Weakness worse during menses.

Mouth - Salty or sour water runs from the mouth. Knotty indurations in the tongue Bites cheeks while eating. Teeth loose worse chewing and least cold. Toothache better eating salty things.

Nose - Hard, red, swollen, hot with itching pimples and desquamation. Brown strip across the nose. Nose swollen, tip bluish small tumor on it. Fluent coryza with loss of smell with yawning and sneezing.

Rectum - Anus sore. Moisture, oozing from anus and on perineum.

Skin - Unsightly scars from eruption Spongy ulcers, copper-colored eruption. Acne rosacea. Chilblains, worse in evening in bed and from cold. Warts on hands and face of elderly people, with bluish color of limbs. Burning, rawness and fissures, moisture. Bubo.

Carbo animalis

Sleep - Full of vivid fancies. Talks, groans, sheds tears in sleep. Talking and weeping in sleep.

Stomach - All food distresses the stomach. Repugnance to fat food. Eating tires patient. Weak, empty feeling in stomach. Burning and griping. **Weak digestion, flatulence.** Heartburn. Retching, vomiting, hiccough with stomach cancer. Sensation of coldness around the stomach better rubbing and pressure. Nausea from smoking, which causes aversion to tobacco. Nausea, worse at night, of pregnancy. Faint gone feeling in stomach not better by eating in nursing women. Poisoning.

Temperature - Hot flushes. Sweat, foul, exhausting, at night, staining yellow.

Throat - Raw feeling like heartburn, better eating.

Vertigo - Vertigo after shaving, better reeling. Vertigo followed by nosebleed.

COMMENTS - Carb-an. is animal charcoal (Carb-v. is plant ash) and has similar effects as Bufo. Swollen glands with suppuration. Glands become indurated, have bluish color. Often used in the last stages of cancer with decomposition of tissue and sloughing off of tissue. Swollen inguinal glands that suppurate. Inflamed axillary glands. Buboes.

Affections from loss of animal fluids, especially nursing women. Weakness of nursing women, can hardly walk across the room. "Gone" feeling from loss of fluids. Too weak to eat. Weeps when eating.

Aversion to dark. Aversion to cold (Carb- v. to heat). Sensations of coldness, particularly in chest, about stomach. Coldness of the stomach, better pressure from hand.

Nausea at night. Hunger in early morning. Emptiness, not better by eating (Carb-v. better eating). Constipation where patient thinks bowels will be moved but only wind passes.

Discharges are ichorous, but the discharge from hemorrhoids is odorless. Secretions stain yellow, particularly sweat and leucorrhea.

Ichorous otorrhea and swelling of the periosteum over the mastoid bone. Hearing is confused, cannot tell the direction from

which sounds come. Carb-an. 3x trituration has been used for ear polyps.

Hoarse, suffocating cough producing a shaking of the brain as if it were loose. Expectoration is greenish, purulent offensive (Carb-v. yellow, more fetid). Tip of nose red or blue. Disagreeable smoothness of the teeth. Smothering feeling on closing eyes. Feeling of looseness of eyes in sockets, on motion or coughing. Far-sighted (Carb-v. is near-sighted). Objects seem farther apart and brighter.

Neuralgia of the bone. Injured coccyx, with a dragging, bruised pain, burning when touched. Gnawing pains in tibia (during the night), such as usually followed cold feet. Lumbago when walking, standing and lying, feels as if the back were broken.

A. W. K. Choudhury reports a case of cough of two years' duration in an unhealthy boy of twelve, cured by Carb-an. The symptoms were: "Cough evening and morning or after lying down, especially at night, thick or frothy whitish or yellowish sputa, sweetish when thick, worse lying on right side, worse from exposure to air to

which he is very sensitive. Great tendency to catch cold."

RELATIONS - Antidoted by: Ars., Camph., Nux-v. Vinegar. **Antidote to:** Effects of Quinine. **Compare:** (1) Thymol., Badiaga, Sep., Sulph., Plb. iod. (2) Calc-p. - nearest analog, Carb-an. contains Calc-p. (3) in indurations, suppurations etc., Bad., Brom. (4) loss of fluids. Chin. (5) Graph., nostrils adhere to sepm. (6) Phos., gone feeling, loss of fluids induration of cervix, pressure on back, groins and thighs during menses. (6) Cocc. has similar weakness and prostration as Carb-an. (7) Puls., Sil. (8) in vertigo with nosebleed. Sulph. (9) aversion to darkness, Am-m., Bar-c. Calc., Stroph., Stram. (10) hunger in early morning, Ant-c., Asar., Calc.. Sabad. (11) swelling behind ear, Caps., Aur. (12) burning pains, Caps. (13) weakness of nursing women, Olnd.

Complementary: Calc-p.

REFERENCES - Boericke. Clarke. Murphy.

***CARBO VEGETABILIS

(Vegetable Charcoal)

ARMACY - carb-v. Carbo vegetabilis. 'egetable charcoal. Carbo ligni. Contains npure carbon. Trituration.

Historical dose: nturation and all potencies.

.INICAL - Acidity, Acne. **Air hunger.** anemia. Angina Pectoris. Aortitis. Apho- iia. **Asphyxiation.** Asthenopia. **Asthma, elching. Body, cold.** Breast, erysipelas. **Hood, loss. Breathing, labored.** Bronchitis. Sums. Carbuncle. Catarrh. Chilblains. **Chilis. Cholera. Coldness.** Colds. **Collapse. Coma.** Constipation. Cough. Deafness. Debility. **'dehydration.** Diarrhea. **Digestion, weak.** Distention. Dysentery. Dyspepsia. Em- rhysema. Erysipelas. **Fainting.** Feet, cold. **Flatulence.** Gangrene. Hair, loss. Headache. Heart, diseases. **Heartburn. Hemorrhages.** Hemorrhoids. **Hypothermia.** Influenza. Intermittents. Intertrigo. Irritation. Laryn- gitis. Lungs, congested. Measles. Mumps. Nosebleeds. Esophagitis. Orchitis. Otorrhea. Pneumonia. Pregnancy, disorders. Purpura. Scabies. Scurvy. Shiverings. **Shock.** Sleep, disorders. **Stomach, disordered.** Stomatitis. Trachea, dryness. Tympanites. Typhus. Ulcers. **Vitality, low.** Yellow fever. **Weakness.**

HOMEOPATHIC - Carb-v., or vegetable charcoal, is itself a product of **imperfect oxidation** and disintegration, which are the keynotes of this remedy. It contains small quantity of Kali-carb., potassium carbonate.

Provings with the crude Carb-v. and the potentized substances showed that the latter were much more powerful in their effect on the organism. These brought out the fact that there is an exact correspondence between the effect of crude charcoal and potentized Carb-v. Both are anti-septic and deodorant.

The deodorant and disinfectant properties of charcoal in bulk had already been discovered when Hahnemann was at work on the Materia Medica. Its a deodorant, disinfectant and anti-septic properties are more enhanced in potencies. The signs and symptoms of decay and putrefaction are the leading indication for its medicinal use.

Carb-v. antidotes the effects of putrid meats or fish, rancid fats, salt or salt meats, and also the pathogenic actions of Chin., Lach, and Merc. Decomposition of food in the stomach, putrid diseases and ulcerations, symptoms of imperfect oxygenation of the blood.

Carb-v. acts upon the **venous circulation** and capillaries. **Hemorrhage**, blood dark, oozing from shock after surgical operations, persistent for hours or days. Hemorrhage from any mucus surface.

The blood seems to stagnate, causing blueness, coldness and ecchymoses. **Body becomes blue, icy-cold. Vitality becomes low** from loss of vital fluids. Bacteria find a rich soil in the nearly lifeless blood stream and sepsis and typhoid states ensue. Putrid (septic) condition of all its affections, coupled with a burning sensation. Very debilitated. **Almost lifeless**, but the head is hot, coldness, breath cool, pulse imperceptible, oppressed and quickened respiration. **Must have air, must be fanned hard, must have all the windows open.** Cold, but wants air to be fanned or thirst for cold water. **Faints easily, is worn out.** Tremulous.

Always **weak, sick and exhausted**, but those states may occur suddenly. **State of collapse** in cholera, typhoid or other grave diseases. When the patient is almost lifeless, cold body, breath cold, pulse imperceptible, respiration quickened.

Lack of reaction after some violent attack, violent shock, violent suffering. Never well since. Patient seems to be too weak to hold out. **Persons who have neverfully recovered from the effects of some previous illness.** Weakness from grave or serious diseases, from effects of drug and disease, or from obstinate complications.

Septic conditions. Lymphatic glands, are swollen, indurated or suppurating. Gangrene, humid, senile. Thick, acrid discharges. Ulcerations, aphthous. **Blueness and decomposition. Flatulence, fetor.**

Sensation of fullness. Sense of weight, as in the head (occiput), eyes and eyelids, before the ears in the stomach and elsewhere in the body. General bruised soreness, old catarrhs. Bedwetting, which is worse in morning after the first sleep.

Burning itching on skin. Frozen limbs. Chilblains, excoriations between toes. Numbness of parts lain on.

Burning, sense of weight or heavy aching in bones, ulcers etc. Tinea capitis or scald-head. Scalp very sensitive, feels as if bruised.

Whooping cough with pain at base of brain. Excessive gagging cough in the morning, compelling him to vomit everything, immediately after breakfast (Dros.).

MIND - Confusion, which makes thinking difficult. Confusion better mental exertion. Torpor and indolence. Slow thinking, worse in morning on waking. Sudden loss of memory. **Indifference to everything he hears or sees.** Indifference, hears everything without pleasure or pain. Indifference to music which he loves.

Sluggish, slow, lazy. Peevish, irritable and inclined to anger. Anxiety in evening, could scarcely remain lying still. **Anxiety in morning** on waking. Anxiety on closing eyes. Restlessness in company. Indolent. Irritable. Dejected. Child wishes to vent itself in rage, strikes, kicks, bites, in worm affections.

Oversensitive to noise. Timidity about appearing in public. Aversion to presence of strangers. Fear of people. Easily frightened or startled. Aversion to darkness. Fear of ghosts. Fear of accidents. Sees frightful images in the dark.

Abdomen - Greatly distended, especially upper part, worse lying down, better passing wind. **Flatulent colic**, forcing the patient to bend double. Obstructed flatulence, giving rise to complaints. Pain as from lifting a weight. Abdomen feels as if hanging down, walks bent. Cannot bear tight clothing around waist and abdomen. Epigastric region very tender. Ailments from intestinal fistulae. Abdominal sufferings, worse from the smallest portion of food.

Back - Severe pain in small of back, with a sensation of a plug, unable to sit down, had to put a pillow under it when lying. Burning behind shoulder.

Breasts - Lumps in breasts with indurations of axillary glands. Breasts, hard, swollen with impending abscess. Prostration after nursing.

Causations - Carbon monoxide poisoning. Blood loss. Shock. Surgery. Effects of alcohol, meat, fish, especially if tainted, ice-water, vegetables, salt or salt meats. Disorders from high living and especially butter-eating.

Chest - Heavy sore or weak chest, on awakening. Burning in chest with hemoptysis. Brown yellow spots on chest. Sore ribs.

Constitutions - Suited to atonic conditions where there is lack of reaction. The typical Carb-v, patient is fat, sluggish, lazy and has a tendency to chronicity of complaints. Complaints of old people. Persons who have never fully recovered from the effects of some previous illness. School girls and boys are sluggish, slow to learn, suffer from night terrors, will not sleep alone or go to bed in the dark.

Ears - Deafness or otorrhea, following exanthemata. Ears dry. Something heavy seems to lie before the ears. Deficient or badly smelling yellow wax. Mumps with metastases.

Eyes - As of heavy weight on eyes. Hemorrhages from eyes with congestion to head. Vision of floating black spots. Burning in eyes. Muscles of eyes painful when looking up. Pupils do not react to light. Asthenopia.

Face - Face blue, cold with cold sweat. Puffy, cyanotic, **pale, hippocratic**, pinched (Cupr., Op.). Mottled cheeks and red nose. Twitching upper lip. Brown or black looking, cracked lips.

F female - Too early and too copious menses, pale blood. During menstruation, burning in hands and soles. Menorrhagia, burning across sacrum, passive flow. Leucorrhea, thick, greenish, milky, causing itching and burning, worse before menses. Feels best with a free leucorrhea. Sore, hot, itching, swollen, vulva. Vulva swollen, aphthae. Varicose veins on pudendum and yulva with burning, bluish ulcers. Vaginal fistula, burning pains.

Food - Aversion to **fat things**, meat and milk, which causes flatulence. Aversion to the most digestible and the best kind of food. Desire for salty, sour things or sweet things, coffee. Worse from brandy.

Head - Cold sweat on forehead. Head hot with cold limbs. Takes cold in head easily. Dull, compressive, heavy. Headaches, worse occiput, worse overheating, lying or pressure **of hat, over-indulgence**. Pimples on forehead and face. **Hair, sore, falls off easily** in handfuls, after severe illness, after childbirth. Scalp itches when warm in bed. Hat pressed upon head like a heavy weight.

Heart - Continuous anxious palpitation, worse eating, sitting. Thread-like, weak and small, intermittent pulse. Burning around the heart. Pulsation throughout the body.

Kidneys - Albumin, protein in the urine. Nephritis, septic or from alcohol. Urine, copious, clear yellow or thick and whitish. Diabetes. Bedwetting at night. Urine, suppressed in cholera and retained from standing on the cold pavements.

Limbs - Heavy, stiff, feel paralyzed. **Limbs go to sleep**. Want of muscular energy, joints weak. Burning pain in bones and limbs. Numbness when lying on limbs. Pain in shins. **Cold from knees down**. Cramp in soles. Feet numb and sweaty. Foul foot sweat, worse walking. Toes red, swollen. Senile gangrene of fingers and toes with fiery burning vesicles, oozing bloody water. Paralytic weakness of the wrists and of the fingers, when

seizing anything. Arms weary when writing.

Liver - Pain in liver. Jaundice from over eating or eating too rich food.

Lungs -Asphyxiation. Breathing, laborious, quick and short, worse walking. Wants to take a deep breath. Breath cold, **must be fanned**. Cheyne-Stokes breathing in organic heart disease. Destructive lung diseases. Cough with itching in larynx, spasmodic with gagging and vomiting of mucus. **Cough with burning in chest.** worse in evening, in open air, after eating and talking. **Spasmodic cough**, bluish face, offensive expectoration. Occasional

Carbo vegetabilis spells of long coughing attacks. Wheezing and rattling of mucus in chest. Expectoration with retching. Expectoration is very thick, sticky, yellow and profuse. Hemorrhage from lungs. Neglected pneumonia. Whooping cough, especially in the beginning, with bluish face, and its complications. **Asthma in aged with blue skin. Hoarseness, worse evenings**, talking, evening oppression of breathing, sore and raw chest. Roughness in larynx with deep rough voice.

Male - Discharge of prostatic fluid, while straining at stool. Itching and moisture at thigh near scrotum. Seminal discharge too soon during sex, followed by roaring in head. Swelling of testes from metastasis of mumps.

Modalities - Better from belchings. Better elevating feet. Better cool air. Better from fanning. **Worse from high living, rich food.** Worse decayed food. Worse from poultry, fat food, butter, coffee, milk, **Worse wine.** Worse icy drinks. **Worse from warmth**, warm, damp weather, humid, cooling off. Worse walking in open air. Worse cold night air, frosty, wind on head. Worse extremes of temperature. **Worse from depletions. Worse exhausting diseases.** Worse dissipation. Worse suppressions. Worse over lifting. Worse pressure of clothes. Worse old age. Worse reading aloud, singing.

Mouth - Breath cold. Bad smell from mouth. Bitter, sour, taste. Increased saliva. Tongue, cold, black, swollen, covered with white, yellow-brown mucus. Aphthae, bluish, black ulcers with burning. Loose teeth. Tooth pain while eating hot or cold things. Teeth very sensitive when chewing. Scorbutic gums. Blood oozes from gums when cleaning teeth. Gums retracted and bleed easily, painful while chewing. Gums black. Pyorrhea.

Nose - Nosebleed in daily attacks with pale face. Bleeding after straining, with pale face. Tip of nose red and scabby, itching around nostrils. Eruption in corner of nose. Varicose veins on nose. Descending colds. Nose cold, hay asthma. Coryza with cough, especially in moist, warm weather. Sneezing from irritation in larynx, worse blowing nose. Ineffectual effort to sneeze.

Rectum - Hot, moist offensive flatus. Itching, gnawing and burning in rectum and anus. **Acrid, corrosive moisture from rectum.** A musty, glutinous moisture exudes. Excoriation of anus. Soreness, itching, moisture of perineum, especially at night. Discharge of blood from rectum. Burning varicose veins (Mur-ac.). **Bluish**, white, burning hemorrhoids, pain after stools. Ineffectual urging, even soft stool passed with difficulty. Frequent, involuntary, putrid, cadaverous smelling stools, followed by burning. Feces escape with flatus. Painful diarrhea of old people.

Skin - Blue, cold and bruised. Purpura. Wounds heal and break out again. Marbled with venous over-distention. Moist skin, **hot perspiration.** Fine moist rash with burning. Burning in various places. Itching, worse on evening, when warm in bed. Bedsores, bleed easily. Foul ulcers, indolent, burning and bleeding. **Varicose ulcers**, bleeding easily, pus smells like asafetida. Ulcers heal and break out again. Ichorous, offensive discharge. Tendency to gangrene of the margins. Senile gangrene beginning in the toes. Carbuncles (Ars., Anthr.). Varicose veins during pregnancy. Falling out of hair from a general weakened condition.

Sleep - Unrefreshing. Awakes often from cold limbs especially cold knees. Comatose sleep with rattling in throat. Frequent yawning and stretching which seems to agree. Horror during sleep.

Stomach - Burning in stomach, extending to back along spine, with coldness. **Contractive pains extending to chest with distention of abdomen.** Epigastric region is very sensitive. Faint empty feeling in stomach, not relieved by eating. Loathes even the thought of food. Crampy pains forcing patient to bend double. **Digestion slow, food putrefies** before it digests. **The simplest food distresses.** Distress comes on a half-hour after eating. Rancid, sour **or putrid belchings.** Belchings after eating and drinking, temporary relief from belching. **Heartburn.** Water brash, asthmatic breathing from flatulence. **Heaviness, fullness and sleepiness**, tense from flatulence, with pain, worse lying down. Stomach ulcers, cancer. Vomiting of blood. Nausea in the morning. Stomach pain of nursing women.

Temperature - Icy coldness, unilateral of tongue, knees, legs, foot, at night. Coldness with thirst. Chill begins in forearm. Cold worse coughing. Alternate chill and heat. Warm head and cold limbs. Internal burning heat, at heart, chest with cold icy skin and cold sweat. Burning in various places. Yellow fever. Hectic fever, exhausting sweats. Sweats easily, on eating. Sweat sour on face.

Throat - Sensation as if closed. Aphthous, sore. Hawking of bloody, black mucus. Painful on swallowing food.

Vertigo - Vertigo with nausea and tinnitus. **COMMENTS** - Suited to conditions where there is lack of reaction (Op.) to low states of the vital powers, where the venous system is engorged. Lack of reaction in pupils (Op.).

For near death states. "The corpse reviver." In India, they say it pulls back souls from the jaws of death. Comas (Op., Chin.). Diabetic comas. Usually given for the last stage of processes. Last stage of pneumonia, cyanotic, weak, debilitated, faint.

Shock from heart failure (Arn. first). Never well since a traumatic accident where they feel weak and sluggish. Hypo-oxygenation, with shortness of breath, varicose veins, hemorrhoids, gas and bloating. Weakness after hemorrhage.

Listless and indifferent. Feebleness. Collapse (Camph.), with short, shallow breathing. Collapse with cold knees. The patient sinks and breaks out in a cold sweat, faints and collapses from weakness and lack of air (Aeon., Ign., or Gels, if from emotional trauma).

Debility of greater intensity than Carbo an. in children or old people after exhausting diseases. Great debility as soon as he makes the least effort. Debility following childbirth, causing falling out of hair.

Cannot be aroused, cannot think, so weak they cannot lift their head off the pillow (Stann. is weak in the chest, can barely speak).

Frequent hemorrhages. Nosebleeds or hemorrhage from throat in dysentery. Hemorrhage from the bowels, lungs. Dyspnea, from chronic aortitis. Congestive symptoms like those of poisoning by carbonic acid. Pulse thready, face pale, covered with cold sweat, desire to be fanned, anxiety without restlessness.

Fever, intermittent, hectic, typhoid, yellow fever and cholera. In intermittents of long standing where quinine has been abused. Thirst only during chill. Feet ice-cold up to knees. Heat in burning flushes. Sweat sour or offensive. Weak, befogged mind.

Characteristic coldness. Worse from warmth. Great desire for air, must be fanned. Cold breath (cholera), cold knees, cold, but wants to be fanned.

Dull headache in occiput with confusion of mind, proceeding from occiput to forehead, dull, heavy aching over eyes in warm room, buzzing in ears, very sensitive to pressure of hat. Hippocratic countenance. Vertigo from stomach with fainting, especially at meals.

Burning pains (Carb-an.), especially in the limbs, with varicose veins. Numbness of limbs. Lividity, mottled skin. Round ulcers. Indolent gangrene. Varicose veins of arms, legs, vulva.

Catarrh from warm, moist atmosphere. Cough is worse on entering cold air from a warm room. Hoarseness from damp air, worse morning or evening. Cough caused by a sensation as if sulphur fumes were in larynx.

Menorrhagia and metrorrhagia with burning pains across sacrum and spine. Corrosive menstrual discharge, strong pungent odor. Premature and profuse menses. Headache during menses. Preceded and followed by leucorrhea. Greenish yellow leucorrhea, worse in morning. Leucorrhea excoriates. Perineum moist, raw, oozing. Itching, burning soreness and smarting at vulva and anus. Hemorrhoids.

Excessive accumulation of gas in stomach and intestines. "Stomach feels full and tense from flatulence. Great pain in stomach on account of flatulence, worse especially on lying down." Weak digestion with much flatulence, better by eructation. Flatulence accompanies many other complaints, including asthma and heart disorders.

Heaviness in the stomach, full feeling and burning. Aversion to fat, meat, and milk, which causes flatulence. Desire for coffee (which does not relieve), for acids, for sweet and salt things.

Guernsey considered Carb-v. especially suited to cachectic individuals whose vital powers has become weakened. In cases where disease seems to have been engrafted on the system by reason of the depressing influence of some prior derangement.

A. H. Birdsall recorded a typical case of Carb-v. intermittent. "A man, 36, had fever eight months, partially suppressed by Arsenic and Quinine. Type, tertian. Headache for one or two hours before chill.

"Chill always from 9 to 10 a.m., beginning in feet and hands, spreading over body, nails very blue. Thirst with chill. Cold stage lasts two to three hours, followed immediately by hot stage, much heat in head and face, which is flushed red, thirstlessness. Sweating stage short, sweat sour.

"Apyrexia: Sweats easily, especially from least warmth, awakens in morning always with slight sour-smelling sweat. Weak, dispirited, flatulent. A single dose of Carb-v. cured. There were only three more attacks, each of diminished intensity."

A carbon ointment made by carbonizing a wine cork by plunging it into a clear fire and then, in its still glowing state, into Vaseline and mixing thoroughly is regarded as a sovereign remedy in anal irritation and hemorrhoid troubles.

RELATIONS - Antidoted by: Ars., Ambra, Camph., Coff., Lach., Nit-s-d., Ferr. (Teste). **It antidotes:** Effects of putrid meats of fish, rancid fats, salt or salt meats. Chin., Lach., Merc. **Compare:** (1) Raph. in flatulence. Caust., Lach., Eup-per., Phos. and Rumex in hoarseness, Rumex is worse 4 a.m. and 11 p.m. Caust. worse in morning from dry cold. Carb-v. worse evening from damp evening air. (2) Camph., China in hemorrhages intermittents, hectic disorders of alcoholics, Ip. in hemorrhages and intermittents, Meny.

in intermittents with coldness of legs. (3) Op., Sulph. and Psor. in deficient reaction. (4) Sul- ac. in dyspepsia of alcoholics. Carb-v. has more putridity, Sul-ac. more sourness. (5) Phos. in easily bleeding ulcers, Puls., bad effect from fat food and pastry, Sulph. in acrid-smelling menses, erysipelas of breasts, Ars. and Bellis in effects of ice-cream and ice-water in hot weather. (6) Nux-v. in dyspepsia, easily angered, effects of debauchery. Nux-v. is thin, spare, yellow, wiry, Carb-v sluggish, stout, lazy. (7) Sec. in hemorrhages, cold breath, coldness worse by warmth. Calc., Carb-an. and Stram. in aversion to darkness. (8) Lach, in weak digestion. Lach, craves milk, Carb-v. has aversion to it. Intolerance of clothing around waist intermittent fever, flashes of burning heat without thirst. (9) Sep. in bearing-down in rectum and vagina. Carb-v. has strong odor of menses which Sep. has not. (10) Rhus-t. in strains in typhus, Colch. in cholera, coldbreath, prostration. Cupr. (11) Carboneum - Spasms commencing in tongue, down trachea and limbs. Tingling sensation. (12) Lyc., Ars., Chin., Carb-v. contains potash. **Complementary:** Chin., Dros., Kali-c. - stitches in heart.

***CARBOLICUM ACIDUM

(Carbolic Acid)

PHARMACY - carb-ac. Carbolicum acidum. Carbolic acid. Phenolum. Phenol. Monoxy benzine. Phenic acid. Phenyl alcohol. Solution in rectified spirit. **Historical dose:** Trituration and all potencies.

CLINICAL - Acne. **Allergic, reactions. Anaphylactic, shock. Backache. Bee stings. Belchings. Burns. Carbuncles. Cholera. Colds. Constipation.** Diabetes. Diarrhea. Dysentery. **Dyspepsia.** Eczema. Erysipelas. Flatulence. Gangrene. Heartburn. Hydrocephalus. Influenza. Intermittent, fever. Irritation. Leprosy. Leucorrhea. Meningitis. Neuralgias. Pneumonia. Psoriasis. Pityriasis, versicolor. **Prostration** . Scarlatina. Smallpox. Smell, disordered.

Stomach, disorders. Toothaches. Ulcers. Uremia. Uterus, displacements. Vomiting.

HOMEOPATHIC - Carb-ac., like the Carbons, is a powerful anti-septic and its use as such in surgery has led, incidentally, to the poisoning of both patients and surgeons. These experiences have provided a number of the symptoms indicating its medicinal use.

Carb-ac. is a languid, painless, foul and destructive remedy. Acts primarily on the central nervous system. It affects the mucus membranes, heart, blood and respiration. Stomach symptoms are also important.

Marked **prostration**, even paralytic with loss of sensation and motion. Collapse. Stupor. Paralysis of sensation and motion. Feeble pulse and depressed breathing. Death due to paralysis of respiratory centers.

Malignant and septic conditions. Physical exertion brings on abscess somewhere. Discharges are foul, burning. Putrid discharges (Bapt.). Bloody discharges. Scarlet fever with marked tendency to destruction of tissue internally and fetid odor.

Terrible pains coming and going suddenly. **Pricking, burning sensation.** Trembling with an uncertain, staggering walk. Arthritis.

Mental and bodily languor, disinclination to study with headache like a band.

Very marked **acuteness of smell. Increased olfactory sensibility.** Spasmodic coughs. **Allergic reactions to bee stings** (Apis). In cholera when Verat. is indicated but fails.

MIND - Mental and bodily languor. Disinclination to do any mental or physical work. Unfit for study, as reading aggravates all symptoms. Periods of mental abstraction. Mental exertion aggravates. Unconsciousness.

Absent minded, starts when spoken to. Difficulty of remembering passed events. Forgetful, can't remember anything, becomes easily confused. Starts to do something and forgets it. Entire disinclination to study, what he had accomplished seemed very trifling.

Very irritable. Fear of impending disease at night in bed. Sense of bewilderment. Mental and physical exhilaration. Constantly agitated, moaning continuously and occasionally uttering a piercing cry. recognizes no one, acute hydrocephalus.

Abdomen - Flatulence. Colic of nursing infants. Soreness of hypochondria worse motion. Abdominal muscles sore.

Back - Aching between scapula. Pains in loins, worse straightening up and better pressure. Stitching pain, in right side of neck. Drawing in muscles of neck. **Severe pain, in lumbosacral region.** Soreness of muscles of back and limbs.

Bladder - Frequent urination. Irritable bladder in old men. with frequent urination at night, of prostatic nature. Straining on passing urine.

Eyes - Severe orbital neuralgia over right eye. Contraction alternating with dilatation of pupils in hydrocephalus. Neuralgic twitching in eyeballs. Photophobia during headache.

Face - Dusky face. **Pale about nose and mouth.** Face pale, pinched, with cold sweat. Face cyanotic. Lips covered with a white membrane. **Swelling of face and tongue from bee stings.** Twitching in cheeks and

temples. Lupus.

Female - Discharges always offensive (Nit- ac., Nux-v., Sep.). Pustules about vulva containing bloody pus. Severe backache across loins with dragging down thighs, from uterine displacement. **Painful swelling of left ovary**, worse walking in open air. Induration of cervix. Erosions of cervix, fetid, acrid discharge. Thick, irritating leucorrhea, causing itching and burning (Kreos.). Leucorrhea in children (Cann-s., Merc., Puls., Sep.). Puerperal fever with offensive discharge.

Food - Appetite lost. Cheerful while eating. **Desire for stimulants and tobacco**. Desire for whiskey. Nausea from cold water. Hiccough after dinner.

Head - Orbital neuralgia over right eye. Headache, better from green tea, while smoking. Headaches appearing at the time of menses. Tight feeling as if compressed by a rubber band (Gels.). As of a hot ball in forehead. Tender scalp.

Heart - Heart worse after indiscretion in eating. Stitches in region of heart. Palpitation. or violent action of heart at night. Bellows murmur over mitral valves. Organic valvular heart disease. Thready pulse. Pulse rapid, weak or intermittent, irregular.

Kidneys - Tired sensation in renal region. Urine, scanty, green. Urine alkaline. Urine scanty and red, in scarlatina. Urine dark, almost black. Albuminuria. Urine contained albumen in meningitis. Urinated freely an excessive quantity of saccharine urine. Diabetes.

Limbs - Cramps in fore part of leg, close to tibia, during walking. **Stiffness of limbs, hydrocephaloid**. Cold hands and feet. Gnawing pains in shin bones. Arthritis.

Modalities - Better from smoking. Better strong tea. Better rubbing, binding. There is intolerance of a warm room, but also sensitiveness to cold air which aggravate many symptoms. Worse from jar. Worse reading. Worse pregnancy. Worse combing hair.

Mouth - Intensely foul breath with constipation. Burning in mouth to stomach. Lips dry, cracked, painful or black.

Nose - **Smell very acute**. Putrid discharge. Ozaena with fetor and ulceration. Influenza and resulting debility.

Perspiration - Profuse, cold sweat. **Profound prostration, collapse and bathed in cold sweat**. Clammy sweat on head, face and hands. Profuse sweat with restlessness. Sweats at night

Rectum - Constipation with retraction of abdomen. **Constipation with very offensive breath**. Passes mucus from anus while urinating. Fetid, rice water diarrhea. Thin, black, putrid diarrhea. Bloody, like scrapings of intestines. Shreddy stools. Great tenesmus.

Skin - Burning, itching vesicles and pustules. Bloody vesicles or pustules. Burns tend to ulcerate. Erysipelas.

Sleep - Very sleepy.

Stomach - **Fermentative dyspepsia** with bad taste and breath. Heat rises up esophagus. Constant belching, nausea, **vomiting**.

heartburn. Flatulent distention of stomach and abdomen. Painful flatulence often marked in one part of the bowel. Nausea and vomiting during pregnancy, from seasickness, cancer. Dark, olive green vomit. Sore stomach.

Temperature - General chilliness and coldness of surface. Chills runs from head downward. Chilly sensation while in a warm room. Chilly in open air.

Throat - Glazed. Fauces red and covered with exudation. Uvula whitened and shriveled. Ulcerated patches on inside of lips and cheeks. **Burning in mouth to stomach. Putrid discharge**. Almost impossible to swallow.

Diphtheria, fetid breath, regurgitation on swallowing liquids, but little pain (Bapt.). Face dusky red, white about mouth and nose. Rapid sinking of vital forces.

Vertigo - Vertigo, felt as if staggering, like a drunken man. Giddiness, not better closing eyes. Vertigo on going up and down stairs, better walking fast in open air, worse sitting down. Vertigo with fear of falling, trembling.

COMMENTS - Anaphylactic shock from bee stings (Apis, Hist.). The skin is inflamed, and other symptoms appear with burning, tingling, itching and numbness. Pains come suddenly. Burning, pricking, sticking pains. Numbness and twitching.

Profound prostration and fatigue, convulsions, collapse, cold, clammy sweat. Constant yawning. Palpitations of the heart at night. Putrid discharges.

The urine is very dark, black or black olivegreen, grass or olive-green. Great flatulent distention of the abdomen with belching of wind. Desire for stimulants. Vomiting in alcoholic, in pregnant women, with violent frontal headache.

Many poisoning cases show pneumonia. single or double, affecting the bases principally. Gangrene has been caused by the application of 2 to 5 percent solutions, prescribed by Dr. Streintz.

Fahnestock observed a case of poisoning from inhaling the fumes. The patient, a woman, feeling ill, ran across the street to a neighbor's.

Before reaching the house she fell prostrate, pale, gasping for breath.

When taken in, she had to be propped up in order to breathe, trembled all over, wanted her hands held, "pricking like needles," all over body, unable to raise right arm. Cold hands and feet. Wanted a drink of water every few minutes, nausea but no vomiting, pain in lumbar region. Symptoms lasted four hours.

Allen noted that it relieved cases of cancer of the stomach, and epithelioma of the cheek and nose with hemorrhages.

Deschere found Carb-ac. 30c of great service in uterine displacements with or without discharges but these, if present, are always offensive. The symptoms first relieved are the agonizing backache across the loins with a dragging sensation down the buttocks into the thighs.

Cooper regarded it as specific in influenza in the 3x for the attack and 30c for resulting debility.

Dr. Proctor recorded a brilliant cure of a double basal pneumonia with drop doses of the B. P. solution after failure of more commonly used remedies. Nervous dyspepsia of intensely painful character has frequently been cured by it.

R. K. Ghosh found it admirable in cases of cholera where V erat. seems indicated and fails. There is intolerance of warm room, but also sensitiveness to cold air which aggravates many symptoms.

Ghosh also reported great improvement in a case of diabetes when the remedy was given for something else.

Proell recorded his own case of idiopathic erysipelas affecting the back of the right hand, first three fingers and arm with violet-colored swelling and roughness. Rhus-t. removed the fever, but did nothing to stop the erysipelas. Carb-ac. 30c did so promptly.

RELATIONS - Antidote: Alcohol, Vinegar, Chalk, Iodine. Glauber's Salt in watery solution. **Compare:** (1) Apis, Gels. Merc. and Sulph. (2) In band-like headache, Ars., Carb-v., Chin, and Kreos. (3) in bums, ulcers, unhealthy offensive discharges, Pic-ac. (4) Ant-t. and

Vario, in smallpox. (5) Chrysarobin, locally in ringworm of the scalp, 5-10 per cent, in glycerin and alcohol. Equal parts. (6) Ars., Kreos., Carbo, Guano. - Violent headache as from a band around head. Itching of nostrils, back, thighs, genitals. (6) Symptoms like hay fever, All-c, Ars. **Incompatible:** Glycerin and vegetable oils. In bums from carbolic acid, Elias Price found milk give immediate relief. He suggests A draft of milk in poisoning cases. **REFERENCES** - Boericke. Clarke. Murphy.

***CARBON TETRACHLORIDE

PHARMACY -carb-tcl. Carbon tetrachloride.

Historical dose: Trituration and all potencies. **CLINICAL** - Hookworms. Parasites. Worms. **HOMEOPATHIC** - Carbon tetrachloride is a **worm antiparasite remedy** of great potency. It has shown itself to be the best vermifuge for treatment of hookworm in a country where this disease predominates.

It gives little discomfort to the patient, is palatable, requires no preparation of the patient and, when pure, is apparently not toxic in homeopathic doses, all of which features are of advantage in a popular campaign.

COMMENTS - Dr. Lambert, in Suva, Fiji, noted the usefulness of Carb-tcl. for hookworms, he employed it in 50,000 cases.

W. G. Smillie and S. B. Pessoa of Sao Paulo, Brazil, also found Carb-tcl. to be extremely efficient in removing hookworms. A small dose given to adults has been proved to remove 95 percent of all the hookworms harbored.

REFERENCES Boericke.

***CARBONEUM

(Lamp-black)

PHARMACY - carb-n. Carboneum. Lamp- black. Amorphous carbon obtained from the chimney of a coal-oil lamp. Trituration. **Historical dose:** Trituration and all potencies.

CLINICAL - Convulsions. Sore throats. Tetanus. Tongue, spasms.

HOMEOPATHIC - This substance was proved by Dr. Burt in the 1x trituration. Carbn. produced sore throat, a great craving for acids, and a peculiar convulsive attack.

The attack began with spasms, commencing on the tongue, passing down the trachea to the lungs which prevented him from breathing for about two moments, then gradually left and went to the stomach, arms, hands and legs. It took four persons to hold him, two at his hands and two at his feet.

Spasms both tonic and clonic. Lasted two hours then gradually ceased. The hands had no feeling in them, they were closed and could not be opened. Wrists perfectly pulseless, hands shriveled and cold. At 2 p.m., the spasms came on very suddenly, the same as the first time, but not so violent.

The spasms did not affect the lungs this time, but were much harder in the stomach. Lasted three hours then gradually ceased. He seemed at the point of death. The spasms left him so weak that he could not lift his hand to his head nor sit up.

RELATIONS - Compare: (1) Carb-an., Carb-v., Carb-h., Carb-o., Nux-v., Aeth., Oena.

REFERENCES - Boericke. Clarke.

***CARBONEUM HYDROGENISATUM

(Carburetted Hydrogen)

PHARMACY - carb-n-h. Carboneum hydrogeni- satum. Carburetted hydrogen. Ethylene. Olefiant gas. Solution in alcohol. **Historical dose:** Trituration and all potencies.

CLINICAL - Eyes, convulsions. Strokes. Tetanus. Whooping cough.

HOMEOPATHIC - This carbon gas, which was experimented with by Sir Humphrey Davy, produces a condition almost resembling a stroke attack. Illuminating gas is a complex gas, carburetted hydrogen being the leading ingredient.

It was a popular custom to take children suffering from whooping cough to breathe the air at a gas-works. A case has been recorded in which an accidental escape of gas in a child's bedroom affected a prompt cure of its whooping cough.

Stupor, comatose, surface cold and completely insensible. Spasm as in lock-jaw. Arms flexed at elbows. Trismus. Involuntary stools and urine. Steady and extreme oscillation of the eyeballs. Eyes distorted. Lids half closed. Dark bodies moving before eyes. Pupils insensible to light.

MIND - Stupor. Extraordinary sensation of contentment. All thoughts appear in a moment as if seen in an inner mirror.

Back - Violent spasm in the extensors of the back.

Eyes - Eyes distorted, half closed. Eyeballs oscillate steadily, synchronously with breathing. Dark bodies moving before eyes.

Face - Staring look. Face turgid. Cheeks flap. Some degree of trismus, interrupted by yawning.

Head - Pressure in brain. Excruciating pain in forehead and between eyes.

Heart - Beating of the heart scarcely perceptible. Pulse strong, rapid, regular, or small and extremely weak.

Limbs - Spasmodic stitching and trembling of limbs, felt paralyzed.

Lungs - Voice feeble and indistinct. Paroxysms of cough. Dyspnea. Violent tearing pains in thorax.

Modalities - Better by open air (convulsions).

Rectum - Involuntary passage of stool and urine. Stools rice-water, thin feces mixed with dark blood and mucus.

Skin - Skin icy cold. Sweating copiously, sweat smells of gas.

Sleep - Sleep prolonged and very deep, interrupted by cramps in jaws and toes.

Stomach - Violent cramps in stomach. Nausea and vomiting.

Vertigo - Vertigo, worse going into open air. Vertigo with nausea, loss of memory and sensation.

RELATIONS - Compare: (1) Chloroform, Ether, Amyl-n., Carboneum.

REFERENCES - Boericke. Clarke.

***CARBONEUM OXYGENISATUM

(Carbonous Oxide)

PHARMACY - carb-n-o. Carboneum oxygenisatum. Carbonous oxide. Solution in water. **Historical dose:** Trituration and all potencies.

CLINICAL - Coma. Cramps. Headache. Herpes zoster. Paralysis. Pemphigus. Sciatica. Trismus.

HOMEOPATHIC - The effects of Carb-o. have been noted in persons poisoned by the gas. Carb-o. produces a state like intoxication. The person is confused, stupid. Loss of consciousness. Anesthesia, but the slightest touch with a hot iron recalls sensibility.

Great sleepiness lasting for several days interrupted by cramps in cheeks and toes. Convulsions and cramps.

Great coldness of surface, hands icy cold. Marked improvement of symptoms, especially of chest in open air.

RELATIONS - Compare: (1) Carb-h.

REFERENCES - Boericke. Clarke.

***CARBONEUM SULPHURATUM

(Carbon Bisulphide)

PHARMACY - carb-n-s. Carboneum sulphu- raturum. Carbon bisulphide. Alcohol sulphuris. Alcohol lampadii. Solution in rectified spirit. **Historical dose:** All potencies.

CLINICAL - Acne. Amblyopia. Anemia. Bums. Clergyman's sore throat. **Coal gas, effects.** Color-blindness. Glandular, swellings. Goiter. Gout. Heartburn. Hemiplegia. Hernia. Herpes. Impetigo. **Impotency.** Lead, poisoning. Liver, disorders. Memory, lost. Meniere's disease. Muscular, atrophy. Noises, head. Rheumatism.

Scabies. Scalds. Sciatica. Spinal sclerosis. Strokes. Tetanus. Tinnitus. **Toothache.**

HOMEOPATHIC - Carb-n-s. combines many characters of its two elements. It was first brought into notice by its effects on workers in rubber works. This remedy has a deep and disorganizing action and an immense range of action and symptomatology.

Lack of vital heat. Sensitive to warm, damp weather. Worse from warmth. Sensitive patients, worse cold, wasted muscles

Carboneum sulphuratum and skin and mucus membranes anesthetic. Tabes. Anesthesia of skin and mucus membranes.

Chronic rheumatism. Sciatica. Paralysis with intense congestion of nerve centers. Sensory difficulties in limbs. **Diminished sensibility** of arms, hands and feet. Peripheral neuritis. Tremor. Muscular weakness Ataxia. Strong increase of mechanical muscular irritability. A feeling of vibration and trembling in whole body, particularly in hands.

Burning, tearing, jerking, and stitching pains, apt to return at regular intervals for a long time. Pains come and go quickly.

Special affinity for eyes. Disturbance of sight and sensibility. Vision better in evening, in twilight, after eating.

"Toothache brought on by warm food" (Caib-v., Sulph.). Ringing in the ears with poor hearing.

Eruptions of herpes and impetigo, discharges excoriating and producing violent itching. Herpetic diathesis.

Flatulency (Carb-v.) and abdominal soreness (Sulph.). Diarrhea every four to six weeks. Digestive disorders of extreme severity. Periodic diarrhea, comes every six weeks. Incontinence of urine.

Inability to sleep. Sleep is restless with tossing in bed. Giddiness. **Impotence.** Chronic lead poisoning. Useful in patients broken down by abuse of alcohol.

MIND - Irritable, anxious intolerant, stupor. Sluggishness of mind. **Confusion during headache.** Memory lost. Dullness in children. Childish behavior. Idiocy and childishness.

Anxiety in morning, on waking. Anxiety in bed. Anxiety at night. **Oversensitive to noise.** Fear while walking in the dark.

Changeable mood. Extravagant gaiety or destructive anger. Dementia alternating with excitement. Great excitement at night has to be confined. Doesn't know what to do with things in the hands.

Hallucination of sight and hearing. Visions of magnificent grandeur. Delirium, with incoherent talking. Singing.

Delusions, surrounded by enemies. Delusions he is about to receive an injury. Delirium talks

Carboneum sulphuratum of money.

Violent, vehement. Desire to strike. Biting. **Sought for things lying before them.** Cheerful, free from care, after wind passed. Suicidal disposition, throwing himself from a window.

Abdomen - Distention with soreness and rumbling. Flatulence, better after stool. Rumbling and flatulent complaint, twisting, rolling and rumbling as if diarrhea would set in. **Cutting pain in bowels.** Abdominal walls as if bruised and sore. **Pain with wandering swellings as from flatus.** Navel drawn inward, with pain. **Strangulated hernia.** Gripping pain around navel with urging to stool. Liver troubles, with edema of feet.

Back - Rheumatic, with stiffness of neck. Pains in lumbar region and loins. Sensation of weight between scapula, compelling to bend forward. Sensation as if dislocated.

Bladder - Cramping, in bladder and neck of bladder. Urging to urinate, passes but few drops at a time. Urging to urinate with burning in urethra and tenesmus in neck of bladder.

Causations - Ill effects of coal gas.

Chest - Sharp pains under short ribs. **Flying sharp pains and burning in chest,** quickly passing over, but frequently returning. Oppression and fullness in chest. Constriction, as if expiration were impeded, better deep respirations, better in open air, worse ascending steps. Warmth and fullness in chest with difficult breathing.

Constitutions - Broken-down, weak constitutions.

Coughs - Cough from irritability of larynx. Cough after lying down. Cough from tickling in posterior part of palate, straining the chest and making it sore. Cough from heartburn.

Ears - Sharp pain in ears after stool. Pain in left ear on swallowing. Sharp pain in right ear. Ears feel obstructed. Deafness, as if ears were obstructed by a fixed substance. Hearing impaired. **iVoises in head.** Tinnitus aurium.

Meniere's disease. Buzzing and singing noises like an Aeolian harp.

Eyes - Eyes sunken, fixed, expressionless. Sunken eyes, with gray rings. Itching. Inflammation, followed by atrophy of optic nerve. Asthenopia and dyschromotopsia. Myopia. Cloudiness and atrophy of optic disc. Central scotoma. Retinal congestion, optic disc pale. Optic neuritis advancing toward atrophy. Arteries and veins congested. Reading causes lachrymation. Lids heavy. Lids sore on moving, quivering.

Face - Face pale, with clammy sweat. Face pale, with flushes of heat. Expression bewildered and as of one demented. Eruption on nose and cheeks similar to acne of drunkards. Tetters-like eruption on left cheek, from scratching with fingernails; spreads and is covered with yellowish- brown scabs, disfiguring the face; almost

unbearable on account of continued itching. Pushes the lower jaw far forward, and gnashes with it against the upper one. Lips dry and burning.

Female - Atrophy of ovaries. Labor-pains too weak.

Food - Ravenous appetite. Appetite lost. Hunger with aversion to eating. Great thirst. Desire for beer. Aversion to meat. Worse tobacco, wine and beer. Worse from alcohol. Drunken, unconscious from whiskey.

Head - Headache as from a tight cap. Dull muddled feeling in forehead. **Noises in head.** Constriction of forehead and occiput. Pressure pain in forehead. Violent pain, increasing till it causes confusion of mind. Brushing hair is painful. Itching on head. Head sinks forward in walking. Single nodules on head, sore to touch. Headache and dizziness.

Heart - Anemic murmur. Murmur of first sounds extended along great vessels.

Kidneys - Tickling in forepart of urethra and sensation as if something would run out. Cutting, smarting and burning during urination. Urination painful and slow, with tenesmus, even bloody urine. Can't retain urine long. Urine albuminous, turbid.

Limbs - Emaciation. Paralysis. Trembling. Sore, bruised limbs. **Edema.** Anesthesia of arms and hands. Sciatica. Cramps in limbs. Lightning-like pains with cramps.

Carboneum sulphuratum Flying pains, returning regularly for a long **time. Progressive neuritis.** Hemiplegia of right side. Formication, tingling as from electric currents. Pain in lower limbs with cramps and formications. Gait unsteady tottering, worse in dark. **Tearing in limbs, coming and going, now in one and again in another limb.** Feet insensible. Fingers swollen, insensible, rigid, stiff. Herpes on dorsal surface of hands.

Lungs - Breathing difficult. Emphysema. Asphyxia from alcohol or coal gas. **Expiration hot.**

Male - Burning in urethra with erections. Atrophied testicles. Scrotum shrivelled and drawn up. Desire lost, parts atrophied. Frequent, profuse nocturnal emissions. At first, sexual desire increased, then lost. Impotence.

Modalities - Better in open air. Better warm drinks. Worse after breakfast. Worse at night. Worse from slightest motion. Worse walking. Worse bathing. Worse during and after eating. Worse at night. Worse from warmth.

Mouth - Anesthesia of mouth and tongue. Sweetish, foul, bitter, sour, pappy, metallic taste. **Neuralgia of teeth.** Toothache brought on by warm food. Hawking of salty mucus. Tongue cold. Tongue burning, stiff. Lispings, stammering speech like that of a child. Ulceration of the lips. Lips blue, moist, with convulsive movements.

Nose - Eruptions on nose. Sneezing with sensitiveness in chest. Tip of nose burns, as if raw, and is quite red. Tickling in point of nose with irritation to sneeze. Nosebleed. Smell is lost.

Perspiration - Sweats after much walking. Sweat, relieves the headache. Suppression of usual sweat.

Rectum - Itching and burning at anus. Constipation with belching. Constipation with herpes. Diarrhea. Fetid diarrhea alternating with constipation. **Very offensive and frequent passage of flatus.** After stool, headache, stitches in ears, pressure in stomach, burning pain, weakness and trembling. **Stool not increased, but accompanied by tenesmus.** Stool of yellow, frothy, sour-smelling fluid, nights. Stool with retraction of umbilicus and tenesmus. Stool thin, papescent and small.

Skin - Anesthesia. Burning, itching. Ulcers. Small wounds fester. Skin cancer. Furunculosis. Chronic skin diseases with much itching. Eruptions on face, red, elevated. **Vesicles on a red, inflamed and swollen base.** Vesicles contain an opaque, yellowish fluid, which forms thick, yellowish scabs, sometimes the discharge excoriates and produces violent itching.

Sleep - Sleep is restless with tossing in bed. Deep morning sleep with anxious, vexatious dreams.

Stomach - Sour eructations after coughing. **Sour eructations and passage of much sour flatus,** better belching. Distension, better noisy eructations. Burning pains. Heartburn, worse pressure. Sensations of warmth in stomach. **Flying sharp pains in region of stomach.** Stomach as if tied together. Stomach painful to external pressure. Pressing, sharp pains of short duration, radiating to cardiac region. Loud belching.

Nausea, with fainting spells. Nausea, better eructations or vomiting. Vomiting of food with glairy mucus.

Vomiting of bitter water. Inclination to vomit when entering a room or going into open air.

Temperature - Coldness, during headache. Feverish attacks, during headache.

Throat - Burning in throat extending to stomach. Tickling in back of palate after lying down, causes violent, dry cough. Sensation as if a hair has lodged in throat. As if a piece of bone has lodged in esophagus. Sharp, contracting pain. Scraping feeling in throat with fine stitches. Goitre. Voice feeble, of a deep tone. Hoarseness. Irritation to hawk. Heat in larynx, scratching and scraped feeling. Clergyman's sore throat.

Vertigo - Sudden attacks of vertigo while sitting.

Vision - Dim vision, objects fade away. Myopia. Loss of vision, progressive with central scotoma. Vision greatly impaired. Everything seems in a fog. Color blindness, red and green, not for white. Vision better evening, twilight, after eating. **COMMENTS** - In the Medical Argus, H. H.

Crippen collected, from several sources, instances of workers intoxicated with Carb-n-s.

Carb-s. combines many characteristics of its two elements. It was brought to notice by its effects on workers in rubber works. Pains come and go quickly. The periodicity shows itself, as in diarrhea, which comes every six weeks.

The worse from warmth common to Carb-v. and Sulph. shows itself in Carb-s. A feeling of vibration and trembling in whole body, particularly in hands. Carb-s. has the flatulence of Carb-v. and the abdominal soreness of Sulph.

In many cases, the action on vision was very marked. Myopia, asthenopia, achromatopsia, dyschromatopsia. Cloudiness and atrophy of optic disc. Optic discs pale. Central scotoma for light and colors. Retinal congestion. Arteries and veins tortuous. Veins are distended and arteries contracted. Everything seemed in a fog, as if a spider's web over objects, green or red.

One patient had complete right side hemiplegia, following sudden loss of consciousness, blindness of right eye and great impairment of vision of left.

Loss of memory, especially for words, was a very frequent symptom. Delusions were common: "Heard voices and believed he had committed a robbery," "sensation of a hole close by into which he was in danger of falling." One acute case concerned a girl, aged 15, who was employed in vulcanizing works, and was exposed to the fumes one whole day. Before this, she had, from smaller exposures to the fumes, frontal pains and heaviness of the head.

After this, the pains became more violent and were accompanied by painful contraction of masseters, then by stiffness of neck and vertebral column, finally of legs and arms. The contracture was generalized, but nowhere complete, though the jaws could not be separated. Ulcerative stomatitis ensued and tartar accumulated on the teeth.

E. Case cured with Carb-s. 30c in a slender, nervous woman, a "Sensation, as of a weight between the scapulae, compelling her to bend forward. Throbbing in the dorsal spine as if a heart were beating there. Constipation with ineffectual urging to stool, hemorrhage of bright blood from rectum after stool. Itching of anus after stool, also in the night. Feet swollen, hot and throbbing in the evening."

RELATIONS - Compare: (1) Kali xantate - Similar in action. Acts on cortical substance, loss of memory, marked blood degeneration, impotence and senility. (2) Tuberculinum, Radium, Carbo-v., Sulph., Caust., Salicyl, ac., Chin. (3) In eye symptoms, vision - Benz- d-n. (4) Thyr. - in progressive diminution of sight with central scotoma. (5) Caust., Chin., and Nat-sal. in Meniere's disease, Carb-v. in flatulence. (6) Sulph., Lyc. - sensitiveness of abdomen. (7) Anae. - hears voices. (8) Cann- i. - opening and shutting sensation in head. (9) Kali-bi., Sil. (10) Sulph. - hair sensation in throat.

***CARCINOSIN

(Cancer Nosode)

PHARMACY - care. Carcinosis. Cancer nosode. Carcinosis Foubister. Carcinosis Burnett. Carcinosisinum. Carcinosis was originally made from the discharge of a breast cancer. **Historical dose:** All potencies.

CLINICAL -, Abuse. AIDS. **Allergies. Anticipation.** Arthritis. Asthma. Attention deficit syndrome. Autism. **Breast, cancer. Cancer.** Cirrhosis. Constipation. **Diabetes.** Down's syndrome. Dwarfishness. Emaciation. **Fatigue, chronic.** Fibromyalgia. **Flatulence.** Fright. Grief. **Head, injuries. Hemophilia. Hemorrhoids.** Hepatitis. Hernia. Hodgkin's disease. Hormonal, imbalance. Humiliation. Hyperactivity. **Immune, deficiency. Influenza. Insomnia. Keloids.** Lipoma. Lymphogranulomatosis. Mastitis. Melancholy. Moles. Mongolism. **Mononucleosis.** Nightmares. **Night-watching. Obsessive-compulsive disorder.** Osteomyelitis. Osteoporosis. Ovarian, cysts. Pernicious, anemia. Pneumonia. **Polyps.** Rape. Rheumatoid, arthritis. Sexual, abuse. Sinusitis. Spondylitis. **Thalassemia.** Tuberculosis. **Vaccination, effects. Whooping cough.** Worms.

HOMEOPATHIC - A nosode prepared from breast cancer by Foubister. Carcinosis acts favorably and modifies all cases in which either a history of cancer can be elicited or symptoms of the disease itself exist.

Care, can be used as an **intercurrent remedy.** Indicated in constantly changing symptoms and states.

Contradictory and alternating states. Many symptoms similar to AIDS, periodic high fevers, swollen glands, emaciation, chronic severe insomnia, diarrhea.

Cancers. Tumors, benign, cystic, fibroids. Lipoma. **Cancerous affections,** hereditary, breast cancer. Cancer of the breast glands with great pain. Induration of the uterus and cervix. History of cancer in the Family;- **Keloids.** Prevents keloid formation. **Polyps.**

Cancerous cachexia, emaciation. Emaciation from cancer or progressive muscular disease. Hodgkin's disease, lymphogranulomatosis. Osteitis, chronic osteomyelitis. **Brittle bones** (Calc-p.).

Childhood diseases too severe, absent or too late. Child's development is arrested. Dwarfishness.

Malformations, mongolism. Down's syndrome.

Hemophilia. Hemorrhages from orifices of the body. Pernicious anemia or family history. **Thalassemia.** Ailments from blood transfusions. Retinal hemorrhage. Veins are prominent all over body. Varicose veins.

Chronic fatigue. Excessive **weariness and fatigue.** Low blood sugar, causing fatigue, revived from sleep. Trembling in morning on waking. Chronic insomnia from no apparent cause (Coff.).

Complaints due to anticipation. Antidotes the ill effects of vaccinations (Thuj., Sil.).

Tendency to inflammation. Inflammation of joints, rheumatoid arthritis. Rheumatism. Physical exertion, aggravates or ameliorates. Pains, constricting, throbbing internally. Offensive discharges, hemorrhages and pain. Discharges, acrid, thick.

Mononucleosis, never well since. **Pneumonia,** never well since. **Tuberculosis,** prophylaxis, hereditary. Sycosis. Syphilis. Glandular fever. Glands are enlarged, tubercular, open. **Multiple allergies.** Allergy to foods, and chemicals.

Diabetes insipidus. **Diabetes mellitus,** hereditary. Indigestion, accumulation of gas in stomach and bowels. Worms. Obesity.

Phobias. Sea-bathing aggravates. Aversion to bathing or washing. Hot flashes of menopause with perspiration. Good health before the paroxysms. Annual periodicity. Symptoms on one side or alternating sides (Lac-c.).

MIND - Passionate people who **over-extend themselves.** **Sympathetic.** **Desires dancing and music.** **Desire for travel.** Restless, feel hurried. Bored easily. Difficult concentration. Autism. Mental retardation. Hyperactivity. Attention deficit syndrome. **Fastidious.** Obsessive-compulsive disorder.

Anxiety of what might happen. Fears of the unknown, death, dark, or being alone. Fears of failure, of exams, heights, crowds. Fear of not being able to accomplish their goals. Chronic nightmares and night terrors. **Fear of getting cancer** or that they have cancer. Fear that they have an incurable disease. Worry about health.

Loves the excitement of thunderstorms (Sep.), or a fear of thunderstorms (Phos.).

Foubister observed that people who lived under **severe fear for long periods** of time often needed this remedy, chronic terror or fearful situations, never well since fearful time. **Sexual abuse and for abusive relationships.**

History of emotional suppression and deep guilt (Staph.). History of **nursing a loved one** with some chronic, debilitating disease. Closed emotionally. Ameliorated from weeping, aggravated by suppressing tears. Worse reprimanded or reproached. Worse with consolation.

Abdomen - Flatulence. Inguinal, hernia in children. Chronic, ulcerative colitis. **Burning pains like fire** in the ascending colon. Right iliac region painful. Constrictive pain, better bending. Cramping pain, better bending double. Pains, worse

from 4 p.m. to 6 p.m., better pressure and bending forward, hot drinks.

Back - Spondylitis. Eczema. Pustules. Formication. Itching, thoracic region, between scapula, while undressing. Pain, right side of neck on turning head. Pain, right lumbar region. Twitching of muscles.

Breasts - Violent tension in breasts, before menses. **Swelling and tenderness before menses.** Induration. Chronic mastitis. Breasts changes shape. **Breast cancer,** especially with a family history of cancer. Nodules. Retraction of nipples. Discharge from nipple like bloody water.

Causations - Family history of cancer. Loss of sleep, night-watching, nursing of loved ones. Overwork or exertion. Emotional shocks, grief, anticipation. Sexual abuse victims. Vaccinations. Ailments from windy weather.

Chest - Swelling of axillary glands. Constriction. Oppression of chest, on inspiration. Tuberculosis. Lipoma, left side, non-malignant. Acne. Eczema on sternum.

Constitutions - Cancer miasm.

Coughs - Morning cough while dressing, worse bathing. Coughs, worse from eating, inspiration, laughing, shaving, singing. Tickling in throat-pit causes cough. Coughs, on becoming warm, when entering a warm room from open air. **Whooping cough,** early in life, hereditary, ailments ever since.

Ears - Boils inside, alternately one ear, then the other. Eruptions in meatus. Otitis media. Inflammation, right lobe. Noises in ears. Stopped up sensation.

Eyes - Soreness in eyes. Weakness of eyes. **Bluish tinge or spots on sclera,** especially in children. Blueness of iris. Cornea ulceration. Retinal bleeding, diabetes. **Blinking.** frequent winking. Twitching of lower eyelids, eyebrows. Stinging pain, lids, upper. Stitching in upper lids. Recurrent styas. Eyelashes long and silken.

Face - Brown, **cafe-au-lait spots,** copper colored, pale. Heat flushes in the face, during menopause. Bluish lips. Stiffness of lower jaws. Facial paralysis. Twitches, tics with frequent blinking of the eyes. Acne. Herpes on upper lips and nose.

Female - Frequent menses, too early, too soon. Bleeding between menses. Imaginary pregnancy. Increased sex drive. Disposition to masturbation, too frequent or too early. Uterine bleeding after sex. Harus from vagina.

Ailments since menopause Encysted tumors. Ovarian cysts. Uterine fibroids and tumors Cancer.

Food - Capricious, changeable appetite. Ravenous or warning appetite. Desires *chocolate*, coffee, sweets, sugar, *fat*, eggs, butter, cheese, cream, milk, ham, far. bacon, and smoked meat. Desires raw potatoes and onions, garlic, vinegar, fruit, soup, salt and pepper, *spicy foods*, farinaceous food, *food that makes him vomit*. Aversion to soup, sweets, fat. butter, eggs, ice cream, rich foods, alcoholic drinks, coffee, meat, salty food, and fruit. Aggravated from alcoholic drinks, wine, coffee, milk, eggs. *fat*. meat, fruit, rich food, salty things, sweets. Thirst for large quantities Desires cold drinks, cold milk, warm drinks, alcoholic drinks, wine.

Head - Constriction and contraction sensation in brain Heaviness in forehead. *Head in jars* (N at - s.). Sensing of brain. Tired feeling with headache. Headaches on sides. Pressing pain in right side of temples. Headaches after excitement of emotions. Headache deep inside brain. Deep aching in brain. Headaches after injuries, after childbirth Throbbing, pulsating in brain. Pulsating pain in forehead, extending to eyes, above the eyes or behind them. Worse windy, stormy weather and physical exertion.

Heart - Constriction, grasping sensation. Sighing breath, causing the heart to constrict. Palpitations, audible, tumultuous, violent and visible. Palpitations in the afternoon, 2 p.m. to 6 p.m.

Kidneys Frequent urination. involuntary at night. Albuminous and bloody urine, contain* granular casts. Nephritis. Kidney diseases.

Limbs - Weakness, numbness and aching, especially in the thighs. Twitching of limbs and individual muscles. Rheumatic pain

in joints. Ganglion Sciatica. Varicose veins in lower limbs. Weakness of thigh, better exertion. Pain in lower limbs, better warmth of bed. Aching pain in thigh, better exertion. Numbness of thigh, better exertion or nap Pain in legs, better from heat, warmth of bed. gentle exertion, quick motion, after a short sleep. Warts on soles of feet, hands, palms. Crippled or distorted nails, hangnails. Itching eczema eruptions on hands. Abnormal hairiness of arms and legs. Sudden heaviness of upper arms. Twisting sensation in upper limbs. Liver - Hepatitis infectious. Enlarged and weak liver. Cirrhosis of liver, hereditary. Lungs - *Deep desire to breathe*. Yawning.

Difficult breathing, after running. Asthma and recurring bronchitis. Asthma, after fright, wet weather, in morning, forenoon. 10 a.m. Chronic pneumonia in children. Cough, worse from talking, laughing, yawning, undressing or dressing, cold air. tickle in throat Expectoration is bloody, spitting blood.

Male - Increased sex drive. Disposition to masturbation, in children. Troublesome or wanting erections Condylomata.

Modalities - Better from open air. Better during thunderstorm.* Worse from warm room. Worse weather extremes. Worse air at seashore. Worse full or new moon. Approach! ing storms can either ameliorate or aggravate.

Mouth - Aphthae. Patches of white discoloration. Putrid taste in mouth Sensation of lumps on palate Soreness in palate, worse hot drinks Prickling in palate, worse in morning and evening Papillae absent at tip of tongue. Ulcers on edges of tongue. Pressing in gums Burning vesicles on gums. Stammering speech

Neck - Hypothyroid. Goiter. Induration of gland* Swelling of thyroid. Clothing aggravates.

Nose - Recurring sinusitis. Catarrh of sinuses. Catarrh in cold weather. Hay fever, allergies. Frequent, recurrent coryza. Excoriating, thick, yellow discharge. Persistent, recurrent nosebleeds. Varicose veins.

Perspiration - Profuse, with an offensive smell. Sweat during sleep.

Rectum - *Constipation* and inactivity of the colon, without desire or urging. Inactivity of rectum. Constipation better at the seashore. *Black, dry, hard*, tarry- looking stool. Pain like a splinter after stool. Pulsation sensation. Constriction, closure and general pain, better bending, pressing, warm drinks. Worse from itching and scratching. *Hemorrhage* from anus. *Hemorrhoids*. Rectal fissure, fistula. Condylomata. Prolapsed rectum in children. Diarrhea in children from excitement, emotions. Worm complaints in children.

Skin *Café-au-lait spots*. Brown, liver spots. *Moles and nevi*. Boils. Warts. Excrescences. Itching, without eruptions, worse undressing. Psoriasis. Eczema in children. *Keloids*. Acne on face, back and chest. Ecchymosis. *Wounds* are slow to heal. Ulcers. Bed sores. Lupus, erythematous. Purpura hemorrhagica.

Sleep - *Chronic or acute insomnia*, causeless. Insomnia from grief, mental activity. *Sleeplessness from anticipation or anxiety*. *Sleeplessness from* nursing loved ones. Child must be carried or rocked to sleep. Deep, heavy sleepers. *Sleeps in the knee-chest position* or on the right side. Sleeps on abdomen. Sleeps with arms over head. Genu-pectoral position during sleep, on knees with face forced into pillow. Children sleep on their knees and elbows. Restless sleep, but ameliorated from short naps (Phos.). *Unrefreshing sleep*. Waking after midnight, 4 a.m., from dreams. Wakes early and frequent, as from a fright, from shocks through the body or twitching. Worse from interrupted sleep.

Stomach - Anxiety in pit. Pain on bending double, from coughing, worse hot drinks, better pressure. Indigestion. Belchings. Heartburn in children. Congenital stenosis. Stomach ulcers. Nausea, from motion, in the morning,

at beginning of menses, during menses. Persistent nausea during pregnancy. Periodic vomiting, alternating with diarrhea. Vomiting from anticipation. *Cyclic vomiting* in infants, bulimia.

Malnutrition due to effects of additives.

Teeth - Decayed, hollow teeth. Toothache. Grinding of teeth during sleep.

Temperature - High fevers of unknown origin. Influenza, constantly relapsing, never well since. Acute or chronic mononucleosis. Recurrent history of glandular fever. Rheumatic fever in childhood. Fever after vaccinations.

Throat - Sore throat, in morning, better cold drinks, worse warm drinks. Scraping in throat before able to speak. Chronic hoarseness. Clears throat before speaking. Lump sensation in larynx. Lump in throat, worse from empty swallowing, at night, on waking, and from heat, better cold. Pain on empty swallowing. *Enlargement of tonsils*. Recurrent tonsillitis.

Vertigo - Rising from stooping.

COMMENTS - Phatak stated "A nosode prepared from Carcinoma is claimed to act favorably, modifying the cases in which there is a history of carcinoma or the disease itself exists. Can be used as an intercurrent remedy along with indicated."

Clarke used it more frequently than any other as a miasmatic remedy. Clarke had met with a suicidal tendency in several cancer patients, the cancer nosodes may be appropriate in mental cases, especially where the heredity points that way.

Burnett had a number of different cancer preparations and followed his instincts largely in their use and selection. He used Care, in treating depraved inherited conditions in children, such as infantile self-abuse, with good effects, which Clarke later confirmed.

Kent used Care, for cases of incurable cancer with sharp, burning, tearing pains. He claimed it would palliate the cancer for years, although it would not cure it.

Foubister studied 200 pregnant women who had cancer and, later, their children. The children had a tendency to birthmarks and to blue sclera, a blue spot in the white of the eye, or blue shading in the white of their eye. Useful for deep pigmentations, strawberry angioma. Can prevent keloids. There can be a cancer miasm if cancer is on one or both sides of the family. Useful for children with multiple miasms. Indicated remedies don't work, or there is a short amelioration and needs repeating, with a strong history of cancer, diabetes, tuberculosis or gonorrhea.

Etiology can include trauma, frights, grief, physical injuries, vaccinations and attacks on the immune system. Hormone use. Grimmer thought that cancer came from living or thinking wrongly.

Foubister made an observation that people who lived under severe fear for long periods of time often needed this remedy. Sexual abuse and abusive relationships, particularly if it leads to suppressed emotions. Chronic insomnia. Phobias. Glandular fever, mononucleosis and chronic fatigue.

Down's syndrome. History of severe acute infections in the child, especially whooping cough and pneumonia, and the child never totally recovered. Asthma in children, worse from vaccinations. Antidotes the ill effects of vaccinations (Thuj.). Worms.

Similar to many polycrest remedies. Better from naps (Phos.). Better or worse by the seashore. Better dancing (Sep.). Craves cold drinks (Phos.). Moles, birthmarks and freckles (Thuj.). Fastidiousness (Ars.). Enjoys thunderstorms (Sep.).

RELATIONS - Consider this remedy when other well indicated remedies don't work or the improvement doesn't last. *Compare*: (1) Tub., Thuj., Med., Syph., Sep., Nat-m., Calc-p., Dys-co., Lyc., Phos., Psor., Ars., Ars-i., Puls., Sulph., Op., Alum., Staph. (2) In cancer - Ars., Hydr., Bufo, Con., Phyt., Aster., Scirr. (3) Phos., Sep., Ars., Med., Thuj., Cocc.

***CARDIOSPERMUM HALICACABUM

(Balloon Vine)

PHARMACY - cardi-h. *Cardiospermum hali- cacabum*. Balloon vine. N.O. Sapindaceae.

CLINICAL - Allergies. Belching. Cramps. *Exhaustion*. Heartburn. Heat, flushes. Nasal, congestion. Nausea. Sinusitis.

HOMEOPATHIC - Excessive physical irritability and painful, sore muscles. *Lassitude*. Tired, sore feeling in arms and legs and desire to stretch. *Exhaustion, torpor, listless*. Flushes of heat. Desire for open air.

Allergic skin eruptions caused by drugs, detergents, insect stings. Increased lachrymation. Burning pain in eyes, worse night. *Congestion and obstruction of nose and sinuses*. Copious discharge from nose. Nasal discharge clear, gray, bloody, or thick and yellow.

Nausea worse morning, worse after eating. Heartburn and eructations worse night (Rob.) Constricted

sensation in chest, better lying down.

MIND - *Great mental sluggishness and apathy.* Mental dullness. Weakness of memory. Increased forgetfulness, particularly for things related to work.

Hurried in occupation. Nervous and restlessness. Desire to bite nails. Aversion to company. Desire for company. Causeless weeping.

Abdomen - Gurgling. Itching, umbilicus.

Cramping pain in evening. Cramping at night, in bed. Cramping after eating.

Chest - Constriction in chest, better lying down. Pain in chest after drinking cold juice. Sore pain before menses.

Eyes - Itching better rubbing.

Food - Aversion to coffee. Desires potatoes. Worse strawberries.

Head - Headache in forehead. Headache in temple Pain in temple extending to root of nose. Pulsating.

Limbs - Coldness of hands; of feet. Cramps in toes. Offensive perspiration of feet. Pulsation in soles of feet. Swelling of feet before menses.

Mouth - Dryness. Chapped lips. Numbness of tongue. Pain in tongue, as if burnt.

Nose - Sneezing in morning on waking. Sleep - Dreams of dogs. Strange dreams.

Vertigo - Vertigo better after eating. Objects seem to move.

Vision - Sees objects beside field of vision.

REFERENCES - Murphy.

***CARDUUS BENEDICTUS

(Blessed Thistle)

PHARMACY - card-b. *Carduus benedictus.* Blessed thistle. *Cincus benedictus.* *Centaurea benedicta.* Carline thistle. N. O. Composite. Tincture of whole plant when in flower. *Historical dose:* Tincture and all potencies.

CLINICAL - Amaurosis. Asphyxia. Coma. Diarrhea. Dysphagia. Esophagus, stricture. Eyes, disorders. Fevers. Headaches. Hoarseness. Joints, cracking. Varicose, veins. Vision, disorders.

HERBAL - Indigenous to the Mediterranean region and brought to Central Europe as a medicine as early as the Middle Ages, where it is still cultivated. The Carline thistle has an enormous root and purple composite flowers surrounded by radical spinous leaves. Flourishes on dry stony ground and wasteland.

This thistle was used externally for wounds, especially burns. It is said to have obtained its name 'benedictus' from its high reputation as a heal-all, being supposed even to cure the plague. It is a basic ingredient of the Benedictine Liqueur and other bitter tonics, stomach bitters.

HOMEOPATHIC - The provings by Rückert showed a prominent sensation of contraction which occurs in many parts. Twitchings and disturbance of vision, flickerings, *muscae volitantes.* *Blackness before eyes for a short time.* Eyeballs feel larger.

The gastro-abdominal disturbances of Card- m. are observed in a less degree in Card-b. Disordered taste, dysphagia. Yawning and hiccup. Cutting pains in abdomen, vomiting and diarrhea.

Burning runs through the proving. *Bitter burning* in the stomach, as if it were much deranged. Burning in hands after sweat. Burning in the arms on exerting them. Tension in tendons. Cracking and aching in joints. Aching, cutting pain. Red, and afterwards, yellow, spots on the skin.

The respiratory sphere is strongly affected and there is pain and contractive sensation in the trachea with hoarseness. Inspired air feels cold. Feeling as if buccal cavity were contracted. Slight swelling of the veins.

Modalities - Worse by motion. Worse touch. Worse walking. Worse stretching the limbs.

COMMENTS - Two fatal cases of poisoning were recorded, a boy and a girl, from eating the thistle root. In the girl's case, there was stertorous breathing, drowsiness, retching without actual vomiting, asphyxia and coma. After death the tongue protruded slightly between the lips, pupils were greatly dilated, there was evidence of general venous congestion. In the boy's case, the veins of the brain were extremely congested.

RELATIONS - *Compare:* (1) Card-m., Bell., Atro. - vision. (2) Chin, and Sal-ac. - noises in ears. (3) Agar. - twitching of eyelids.

REFERENCES Clarke.

***CARDUUS MARIANUS

(St. Mary's Thistle)

PHARMACY - card-m. *Carduus marianus.* St. Mary's Thistle. *Silybum marianus.* N. O. Composite. Tincture or trituration of the seeds. *Historical dose:* Tincture and all potencies.

CLINICAL - Alcohol, abuse. Asthma. *Biliousness.* Bronchitis. *Cirrhosis.* Constipation. Debility. Diaphragm, high. Dropsy. *Edema.* *Fever.* *Gallstone, colic.* *Gallstones.* Headaches. Heartburn. Hematemesis. Hemoptysis.

Hemorrhages. Hemorrhoids. *Hepatitis*. Influenza. Intermittents. Jaundice. Kidney, stones. *Liver, disorders*. Melaena. Metrorrhagia. Nausea. Neuralgias. Nosebleeds. Pleurisy. Rheumatism. Salivation. Sciatica. *Spleen, disorders*. Tuberculosis. Typhlitis. Ulcers. *Varicose, ulcers*. *Varicose, veins*. Vomiting. Waterbrash.

HERBAL - Rademacher, the medical alchemist, found Card-m. to be a primarily liver remedy, all its manifestations originating in some disorder of the liver. Burnett agreed, noting that it is primarily a liver and spleen remedy.

HOMEOPATHIC - The action of this remedy is centered in the *liver and portal system*, causing soreness, pain, and jaundice. It has a specific relation to the vascular system. Useful for a history of a toxic liver. It establishes a healthy flow of bile, and helps reduce the tendency for reformation of gallstones.

Chronic liver weakness and *cirrhosis of the liver*, especially with ascites, a water-filled abdomen, and edema. Cirrhosis with swollen legs and varicose veins. Liver enlargement in the transverse direction (Chel. is more vertical). *Gallstone colic*. Jaundice. *Hepatitis* with hot flashes, flushing of heat.

Damaged liver (Nux-v.). May help liver cancer. Dropsical conditions depending on liver disease and when due to pelvic congestion. Hemorrhages, especially connected with hepatic disease. Bilious fever. Infection of the gallbladder.

Liver headaches (Sang., Chel.), migraines, often worse on the right side. Liver disorders associated with lung disorders. Influenza when liver is affected. Low blood sugar. Never well since mononucleosis or hepatitis. For the abuse of alcoholic beverages, especially beer.

Characteristic bitter taste in the back of the mouth. The tongue has white down the center with a red tip. *Portal stasis*. Hemorrhoids with itching, burning in the rectum, dark urine.

Spleen disease (Cean.). Associated with digestion problems and with a bitter taste in the mouth. Vomiting of bile-like substances. Chronic heartburn, fatigue after eating. Drawing pain up the abdomen, from the umbilicus to the solar plexus. Rumbling in the abdomen, clay-colored stools, blood in the stool.

Diseases of miners associated with difficult breathing, asthma (Sil.). Debility, fatigue, worse eating and riding with frequent yawning. *Varicose veins and ulcers*. Stitching, drawing, burning pains.

MIND - Melancholy with liver disorders. Joyless, apathetic. Despondency. Disposition to become angry. Hypochondriacal. Forgets what he has just intended to do.

Abdomen - Sluggish peristalsis in colon. Fullness and soreness in hepatic region, with moist skin. Distention with rumbling, cutting pains. Painless flatulence in small intestine. Pain in region of liver. Cutting pain in bowels, changing from place to place. Stitches in spleen, worse on inspiration, stooping. Stitches in small intestine, better pressure. Sensation of motion in intestines on expiration, around navel. Pressure with sensation of warmth in small intestine, on left side of abdomen. Pulsation in abdomen.

Back - Sensitiveness in dorsal and cervical vertebrae. Drawing pains in back. Drawing, tearing, burning in left shoulder blade.

Chest - Pain in chest going to shoulders, back, loins and abdomen with urging to urinate. Stitching pains in lower right ribs and front, worse moving, walking. Pain during breathing. Stitches in chest, from left nipple to right downward. Diaphragm high.

Constitutions - Choleric constitutions.

Eyes - Pressure as if eyeballs were pressed against side of orbits. Burning and pressure in eyeballs and lids.

Face - Earthy, yellowish-gray, dirty or florid complexion. Heat in face. Weak upper lip.

Female - Menses too profuse or suppressed. Metrorrhagia. Chronic uterine hemorrhage with portal derangement.

Food - Poor appetite. Voracious appetite. Aversion to salt meat. Abuse of beer. Great fatigue after eating. Low blood sugar. Soups salted as usual tasted insipid, at other times well salted food is repugnant.

Head - Headache better eating. Headache shortly before meals, disappearing after eating. Dull frontal headache with foul tongue. *Liver headaches*. Bilious headaches. Burning and pressure in head. Constriction, contractive feeling skull, over eyebrows. Pain in left parietal bone.

Heart - Pain, pressure, and stitches in region of heart. Oppression on deep breathing.

Kidneys - Urging to urinate. Pressure on bladder, producing dribbling of urine after unavailing urging to stool. Strangury. Burning at meatus, in urethra. Urine, cloudy, golden-colored, turbid. Kidney stones.

Limbs rheumatic pains in right deltoid. right arm. Pain in hip joint spreading through buttocks down the thighs, worse stoopⁿ8' with difficult rising. Weakness f_el_t in feet, especially after sitting. Drawing Pæⁿ *ⁿ muscles. Cramp-like pain in muscl^{es} of arms, hands, calves, and feet.

Liver - L^{*ver}, engorged, swollen laterally, painful to pressure. Hyperemia of liver. Pains in region of liver, with dizziness, b_ad taste in mouth and jaundiced skin. *Cirrhosis of liver with general edema*. *Jaunie* ^with dull headache, bitter taste in mouth, and white tongue. Left lobe is very sensitive. *Gallstones*. Gallstone diseases with an enlarged liver. *Terrible attacks of gallst^{one} colic*. Swelling of gallbladder with painful tenderness. Stitches

in liver, worse lying on left side. Liver disorders cause lung diseases, causing hemoptysis. Tense when lying on right side, worse pressure. Crawling sensation.

Lungs - Asthmatic respiration. Asthma of miners. Cough with stitches in sides of chest with bloody sputum. Expectoration of pure blood, mucus mixed with blood. Splenic or hepatic cough.

Modalities - Better from bleeding. Worse from lying on left side. Worse motion. Worse touch. Worse eating. Worse beer. Worse cellars.

Mouth - Bitter taste. Collection of water in mouth- Smooth sensation of mucus membrane of palate, as though covered with fat.

Nose - Burning in right nostril. Tickling, first in right, then left nostril, with watery discharge- Habitual nosebleed. Sudden profuse nosebleed, relieving vertigo.

Perspiration - Sweat on forehead and back after meals. Sweats over whole body, with lassitude, on awakening.

Rectum - Burning pain in the rectum and anus, which interferes with sitting. Itching. paste-like, clay stools. Bright yellow stools- Constipation. *Stools hard, difficult, knotty, alternates with diarrhea*. Bleeding hemorrhoids. Prolapse of rectum. Profuse diarrhea due to rectal cancer. Melaena. Stools either bileless or black.

Skin - *Varicose veins and ulcers*. Broken or hard thrombosed veins. Itching on lying down at night. Eruption on lower part of sternum.

Sleep - Restless sleep with frequent awakening and many dreams. Nightmares from lying on back. Fatigue with yawning. Uncontrollable yawning.

Stomach - Bitter taste. Sour eructations. Repeated belchings of air with burning in esophagus. Burning as of acidity. Sensation of emptiness. *Pressure in the stomach*. Gripping pain. Colicky pain with waterbrash. Stitches in left side of stomach, near spleen (Cean.). Sour contents of stomach and intestines. *Nausea, retching and vomiting* of green acid fluid or blood. Nausea with salivation. Hematemesis. Tendency to attacks of bilious vomiting. Continual nausea with desire to vomit. Vomiting of pregnancy.

Temperature - Chill and fever with jaundice. Chilliness at night, worse uncovering. Chilliness on awakening with strong urge to urinate. Epidemic influenza. Bilious fever.

Throat - Irritation in posterior part of larynx causing cough. Fauces as if rough and dry, with scraping, causes coughing. Swallowing painful. Larynx as if dry. Pressing pain on speaking and swallowing.

Tongue - Tongue furred. Tongue white, white center, red tip and edges. Tongue white-coated on side, and weak.

Vertigo - Vertigo with tendency to fall forward, better by nosebleed.

COMMENTS - G. F. Laidlaw gave a condensed translation of Rademacher's remarks about Card-m.: "He regards hematemesis as most frequently due to chronic disease of the spleen, less frequently to disease of the liver. People who have long suffered from pains in the left hypochondrium are apt to vomit blood after which they are relieved.

"Rademacher regards the bleeding as often beneficial and says it should not be checked too soon. In the treatment of hematemesis he says it is best to use a remedy that acts on the epigastric region without irritating the stomach and interfering with the healing of the lesion. Such a remedy he found in a decoction of the seeds of Card-m.

"He used to give Opium before, but this, he says in some people 'produces an array of symptoms similar to those seen in severe hemorrhage and might aggravate the condition.'"

Rademacher added: "It is probable that many small hemorrhages of the stomach escape notice because there is no vomiting and that it is in this manner that obscure abdominal complaints are sometimes suddenly relieved or cured."

Burnett related the case of a girl of sixteen who had severe attacks of vomiting for three months with pains in abdomen. The vomiting was relieved by remedies symptomatically related, but the pains were not.

An examination showed the "liver and spleen both very much enlarged so that they seem to fill the abdomen." Card-m. tincture in 5 drop doses, night and morning soon cured the patient.

Dudgeon gave an account of Windelband and Kunze's experience with the remedy. Windelband, in treating a woman for chronic swelling of the liver with Card-m., incidentally cured at the same time some "colossal varicose ulcers."

This experience led Dudgeon to cure a large number of similar cases with the same remedy. He also cured cases of gastrointestinal catarrh, nosebleeds, metrorrhagia, hemorrhoidal flux, dependent on portal congestion. Tenderness of the liver, bilious fever, symptoms resembling peritonitis and stitch-in-the-side have been cured by it.

Kunze commended the remedy in cases of stomach spasms, contractive pains, vomiting occurring at the climax, cold rising from precordium to throat, feeling of spasmodic constriction, pressive, shooting pain in right

side of abdomen spreading to back or shoulder.

Kunze cured with it pains in the hepatic and splenic regions accompanied with hemoptysis, or expectoration of viscid, lumpy mucus, and evening fever. Even tuberculosis pituitosa has been cured by it. Local muscular rheumatisms dependent on liver disease.

E. A. Cook gave Card-m. 1c to a patient

suffering from liver congestion, swollen veins of legs, hemorrhoids and headache with great benefit to all the symptoms.

On the second day the patient developed new symptoms, which she had never had before and which alarmed her greatly : "Great giddiness with inclination to fall forward and a sudden and profuse nosebleed followed by great relief."

A striking cure by Card-m. in "Miner's Disease" is recorded by Proell.: "An old miner in the gold mines of Bockstein suffered from the so-called "*Bergsucht*" (miner's disease). His chief symptoms were: earthy complexion, eyes dim, hardness of hearing, mucus coating on tongue, loss of appetite even for his favorite food and tobacco.

"Great dyspnea and palpitations on going up-hill, spleen and stomach distended, with much gas eructated, constant borborygmus, constipation alternating with diarrhea, but the latter more frequent, evacuations gray, urine scanty and pale, skin dry as if withered, great weakness, pulse slow and weak.

"Especially remarkable was the disposition of this man. Formerly cheerful, he is now joyless and apathetic, the most important events he took no notice.

"He was given the tincture of Card-m., a few drops four times a day. Unable to effect any alteration in his food, drink or regimen.

"A month after this he returned looking much better. On asking him how he was, he replied: 'You have made a new man of me.' Almost all the former symptoms had disappeared and given place to the opposite.

"His complexion was fresh, his eyes sparkled, he was cheerful, wished to live and work, had good appetite, motions brown, more urine passed, pulse normal. He said for the first time he knew what it was to be well and he remained so for many years."

Proell also recommended it in disorders of the liver, spleen and kidneys caused by abuse of alcoholic beverages, especially beer. He related two cases, one in a cook who had symptoms of cirrhosis of the liver and general dropsy which made her features

unrecognizable, and one in a worker in a brewery who developed dropsy.

Both were cured by the tincture. The brewery man, thinking the remedy was intended to be purgative and thinking the 4 drops prescribed would not be sufficient took the whole amount, 2 1/2 drachms, at one dose, without markedly bad effects and was quickly cured.

Proell added that Card-m. is indicated where there is a relaxed state of the mucus membrane of the stomach. Evidenced by flatulence and diarrhea, especially when the stools are clay-colored. Much fatigue is experienced, worse after eating, when riding, on awaking, frequently accompanied by yawning.

Chilliness is prominent, on awaking, at night, worse uncovering. Coldness of knees. Head very sensitive to cold. Sweating of forehead and back after meals. Stitches, drawing pressure are prominent, also radiating pains, constriction, band-sensation and cramps.

RELATIONS - *Compare*: (1) Lyc., Chel. Chion., Nux-v., Podo. (2) Card, benedictus - strong action on eyes and sensation of contraction in many parts, stomach symptoms similar. (3) Merc., Bry., Aloe. (4) Bry. - nosebleed.

***CARLSBAD AQUA

(Carlsbad Springs)

PHARMACY - carl. Carlsbad aqua. Carlsbad Springs. Carlsbad. The Waters of the Sprudel Springs and Muhlbrinnen Springs. It is a very complicated solution containing the sulphite, bicarbonate and chloride of sodium in preponderating quantity with carbonates, sulfates, phosphates, fluoride and oxides of calcium, magnesium, strontium, ferrum, manganum, potassium, aluminum, silicon and carbon, with traces of iodide and bromide of sodium of caesium, rubidium, lithium and boric oxide. Carlsbad, Dilutions. *Historical dose*: Tincture and all potencies.

CLINICAL - Blushing. Constipation. Cramp. Debility. Diabetes. Gout. *Hot, flashes*. Rheumatism. Sciatica. Sprains. Urination, urgings.

Weakness.

HOMEOPATHIC - Carl, is famous for its action on the liver and in the treatment of obesity, diabetes and gout. Clarke found Carlsbad in the potencies responded admirably to its indications.

General weakness with discomfort. General anxious sensation as if blood in artery would stagnate, with constant flushes of heat. Pains are dislocated and spraining, drawing, tearing, stitching, burning, dull shocks and jerks.

Sensation of weakness, prostration, so that she trembled and could hold nothing securely. Tired, dejected, sluggish, anxious trembling. Great liability to take cold. *Hot flashes. Flushes of heat all over*. Periodicity, effects repeated after from two to four weeks (Ox-ac., Sulph.). Itching on various parts.

In homeopathic doses, Carl. is useful in weakness of all organs. Weakness of all organs of organs of speech. Weakness of bladder, stream weak and slow, only passed with assistance of abdominal muscles. Weakness of rectum, stool slow and only passed with help of distant parts of intestinal canal. Constipation.

MIND - General anxious state. Excited and peevish. Feels weak and incapable. Poor self confidence. Discouraged and anxious about domestic duties. Discouraged before menses. Homesickness. Irritability.

Absorbed, buried in thought. Anxiety in the house, better open air. *Confusion better walking in open air*. Excitement over trifles. Sympathetic, weeping from sympathy with others. Sensitive, affected to tears by the sorrows of others.

Difficult thinking, indisposition to all mental exertions. Absent-minded, forgets names. *Aversion to reading*. Difficulty writing, often omits letters.

Abdomen - Pressing, pinching in the hypochondria. Twitching in jerks. Burning pain in spleen. Sensation of ring stretched around abdomen.

Back - Drawing pain in nape of neck and shoulder blade. Stiffness, paralysis, pressure. Heat and burning and at times a shudder over back. Tensive and pressing pains from small of back.

Chest - Heaviness, fullness, oppression, anxiety. Peculiar sensation of oppression in lower part of chest, as if lung had not room enough to expand. Stitching in chest. Weakness in the chest while writing.

Ears - Increased warmth in ear, which itches. Fine twitching from Eustachian tube to tympanum. Humming, roaring, ringing. Transient loss of hearing.

Eyes - Heat streams from eyes with burning and pressing in them. Violent pressure above orbits. Twitching, quivering in upper lids. Excessive lachrymation, worse using eyes. Eyes weak, watery, lids agglutinated. Cannot do fine, near work. Objects swim before sight. Appearance of black spots swimming about.

Face - Face yellow, sallow, changes color. Red and hot. Pain in zygomatic process, feels as if cobwebs were on it.

Female - Three days after cessation of menstruation, discharge of lumps of tenacious black blood. *Hot flashes*. Leucorrhea.

Food - Appetite and thirst much increased. Head - Aches with swollen temporal veins (Sang.), better motion in open air. Rush of blood to head, with heaviness and confusion. Pressing, stupefying, tearing headache. Throbbing and beating in head. Hair falls out.

Heart - Painfulness in heart, frequent transient stitching and painful drawing. Tension and contraction in heart region.

Kidneys - Stream weak and slow, only passed by pressing abdominal muscles. Frequent urging with discharge of copious, watery urine. Brick red sediment. Tenacious, like frog-spawn. Urine stains linen dark yellow.

Limbs - Cracking in all the joints. Trembling and crawling. Restlessness of limbs, with yawning. Sensation of falling asleep, stiffness. Going-to-sleep sensation in fingertips. Heaviness of the arms after writing, with coldness. Varicose of superficial veins of lower limbs.

Lungs - Frequent hawking of mucus. Sensation of soreness, sensitiveness, scraping and tickling. Difficult breathing on ascending steps.

Male - Testicles swollen without sign of inflammation, pressive pain.

Modalities - Better in open air. Better on motion. Even the headaches are better by motion. Worse morning and evening. Worse after lying down in bed. Worse after eating and drinking. Worse on ascending.

Mouth - Offensive smell from mouth. Sour or salty taste. Clayey, pappy taste with salivation. Flow of saliva and frequent spitting. Dryness of whole mouth, especially roof, as if dried up, with increased thirst.

Nose - Catarrh of nose and throat, with hoarseness. Frequent sneezing, blowing out thick mucus. Swelling of nasal veins. Habitual bleeding of nose. Nosebleed on suppression of menses. Loss of smell after stoppage of nose.

Perspiration - Sweats more easily. Stains linen yellow.

Rectum - Burning in rectum with constant pressure. Feces held back. Stool slow and only passed by much abdominal pressure. Mucus diarrhea. Stools green, or dark green. Discharge of bloody mucus, with itching. Bleeding from hemorrhoids. Shooting pain. Gallstones passed.

Sleep - Constant yawning and sleepiness, worse after a meal. Frightful dreams with tossing. Dreams are not

remembered.

Stomach - Sensation of emptiness. Pressure and heaviness after eating. Heartburn (Carb-v.). Frequent belching, sometimes smelling and tasting of the food, sometimes very bitter. Hiccough and yawning at same time, worse after drinking and eating. Nausea with salivation and shuddering.

Teeth - Thick, pappy mucus coating on teeth.

Gums painfully swollen. Teeth loosen and fall out. Prominent teeth. Tearing in roots of upper molars, worse after every meal. Toothache, worse cold or warmth.

Throat - Hoarseness and roughness of voice. Constantly hawking up of much mucus.

Tongue - Tongue coated white, with offensive smell from mouth.

Vertigo - Dizzy confusion and heaviness, worse after eating, better open air. Momentary attacks of vertigo, had to hold himself up. Vertigo with turning as if in a circle, better open air.

COMMENTS - The action of Carl, has been observed on some healthy persons, but the bulk of the symptoms, many of which are strikingly peculiar, have been obtained from patients under treatment. They are, however, characteristic and have furnished the indications for many homeopathic cures.

W. J. Guernsey cured with it sciatica in an old man with a cramp in his left ankle. About a month after ceasing the remedy the patient complained that he felt paralyzed in the loins for several hours after rising from bed, better as the day advanced. This was a new symptom very like the Carlsbad effects.

Noted periodicity, effects repeated after two to four weeks. The skin has red spots and streaks, frequently burning like fire. Pimples and pustules. Crawling and prickling on various parts with sweat breaking out. Itching on various parts. Much itching and increased sweat of genitals.

Increased sensitiveness of the skin. Sensitiveness to cold air, great liability to take cold. Frequent alternations of shuddering, chilliness and heat. Flushes of heat all over, especially in face with sweat on forehead. Heat of head with redness of face and creeping shudders. Sweats more easily. Sweat stains linen yellow.

RELATIONS - *Compare:* (1) Nat-s. - sensitive to cold. (2) Carb-an. - sweat staining yellow.

(3) All-c. - lachrymation, Nux-v. - worse after eating, Puls., Carb-v. - better in open air. (4) Bell., Glon. - headache. (5) Anae., Apis, Nux- m., Ph-ac. - absent-minded. Aloe. - cracking in head.

REFERENCES - Boericke. Clarke.

*****CARYA ALBA**

(Shell bark)

PHARMACY - cary. Carya alba. Shell bark. Shag bark. Hickory. N. O. Juglandaceae. Tincture of nuts. *Historical dose:* Tincture and all potencies.

CLINICAL - Hemorrhages. Purpura. Scurvy.

HOMEOPATHIC - Like Juglans Regia and Juglans Cinérea, Carya alba appears to possess anti-scorbutic properties. An exclusive diet of the nuts for three or four weeks in a girl seven years old, produced pronounced symptoms of scurvy. Hemorrhages from all surfaces, on the least excoriation of skin, very dark blood gushed out. Blood gushed from gums, nose, ears and other parts.

RELATIONS - *Compare:* (1) Am., Carb-v., Phos., Merc., Ham., Bry., Rhus-t. (2) Cit-1. and the Juglandaceae.

REFERENCES - Boericke. Clarke.

*****CASCARILLA**

(Sweet Bark)

PHARMACY - case. Cascarilla. Sweet bark. Croton eleuteria. N. O. Euphorbiaceae. Tincture of dried bark. *Historical dose:* Tincture and all potencies.

CLINICAL - Anemia. Anus, bleeding. Backache. Colic. Constipation. Cough. Diarrhea. Dropsy. Hemoptysis. Hemorrhages. Intermittents. Vomiting.

HERBAL - Cascarilla has a family similarity to the other Euphorbian plants. Case, acts prominently on the digestive tract, constipation.

HOMEOPATHIC - The leading symptoms include a sensation of swelling deep down in throat. Accumulation of mucus in throat. Hunger after meals and a feeling of emptiness. Aversion to the smell of tobacco smoke.

Abdominal symptoms are better by warm drinks. Feeling of movement in abdomen as if hot water undulating there. The concussion of every step is felt painfully in the stomach. Marked *inclination to vomit*. Griping preceding morning stool. Boils in inguinal region. Constipation. Diarrhea with backache and lassitude.

Abdomen - Tension and pressure on the hypochondria. Movement in the abdomen as if hot water were undulating there. Flatulent, aching colic.

Back - Backache and weakness, muscles pained violently.

Chest - Hemoptysis. Stitch upwards on left side.

Ears - Buzzing in the ears. Internal and external heat of the ears.

Food - Desire for hot drinks. Aversion to tobacco smoke. Hunger after meals.

Mouth - Roughness of the tongue. Bitter taste in the mouth. Aversion to tobacco smoke.

Rectum - Constipation, stools hard, covered with mucus (Graph.). Bright blood with stool. Diarrhea alternating with hard, lumpy stool, with backache and lassitude, preceded by griping. Gnawing pain high up in rectum.

Stomach - Heat in the stomach and burning pain in the epigastrium. Pressure on the stomach, as if from fullness. Pain in the stomach as from concussion. Pain in stomach as from a shock. Nausea and vomiting. Pressing colic.

Throat - Sore throat on swallowing, as if from an internal swelling.

COMMENTS - Marked lassitude and muscular weakness. Backache and weakness. Inclination to lie down. Sleep with clear consciousness. Heat with thirst from warm drinks (intermittents). Short, dry cough from tickling in trachea, hemoptysis. Stitch upward in left side of chest.

Constant slight urging with gnawing pain high up in rectum. Constipation, stools hard in pieces, covered with mucus. Passes bright blood with or without stool in large quantities, causing weakness.

RELATIONS - Compare: (1) Crot-t. - better from warm drinks. (2) Chin. - effects of loss of blood intermittents. (3) Graph. - mucus with stools.

REFERENCES - Boericke. Clarke.

***CASSIA SOPHERA

(Senna Sophera)

PHARMACY-cassi-s.Cassiasophera. Senna sophera. Senna esculenta. N. O. Legumino- sae, Caesalpinioideae.

CLINICAL - Dyspnea. **Knee, pain.** Osteoarthritis.

HERBAL - Cassia sophera is indigenous to India and has been frequently used by ancient Indian physicians for its efficacy in respiratory disorders. Its Sanskrit name 'Kasamarda' which means 'Destroyer of Cough.'

An effective herbal laxative is made from the senna pods, and leaves. The purgative constituents are closely allied to those of Aloes and Rhubarb. The active substances are glycosides called sennosides. Senna pods have a milder effect and have fewer side-effects than Senna leaves.

The main effect is an increase in intestinal peristalsis and a reduction in the water absorption of the intestinal wall, which leads to accelerated stools.

Side effects, especially from fresh senna leaves, are intense cramp, excessive abdominal cramps, and irritation of bladder and uterus.

Senna should not be administered to people who suffer from hemorrhoids or enteritis. Their use during pregnancy or the lactation period is not recommended because of their excretion via the mother's milk.

HOMEOPATHIC - Two provings were undertaken by the Indian Central Council for Research in Homoeopathy. The first proving (1972-74) included 21 males and 9 females, the second (1974-76) 24 males and 13 females. Both provings were carried out with the mother tincture, 30th and 200th centesimal potencies.

MIND - Anxiety about future. Causeless anxiety. Anxiety and restlessness. Fear to go to sleep lest heart would stop beating. Anxiety and fear of losing his way home. Forgetful of duties and of facts. Forgets to lock his room. Changeable moods. Intolerant of contradiction. Angry when contradicted. Desire to be alone. Desire to lie down quietly. Aversion to talk to others.

Abdomen - Fldtulence and distension of abdomen, worse morning, evening, better after eating, drinking water. **Intense abdominal cramps.** Squeezing, crampy, colicky pain in right hypochondrium, worse after eating, worse fatty foods. **Colicky pain** worse changing position, bending forward. Colicky pain better fasting, gentle pressure and rest. Colicky pain worse lying on right side, better lying on left side.

Back - Backache in dorsal region, scapula, worse cold air, better heat of sun, pressure. Pain in lumbar region, worse bending forward, better pressure. Sensation of heaviness in cervical region, worse bending forward, better pressure. Perspiration at cervical region during fever.

Bladder - Irritation of bladder.

Chest - Chest pain with coughs. In the proving the chest pain was confined to the left side.

Cough - Dry cough worse lying on right side. Cough with pain in chest. Cough and thick, yellow expectoration. Cough worse in morning and evening. Cough better from warmth.

Ears - Aching pain in ears, worse eating. Heat flushes in ears during vertigo.

Eyes - Itching of upper lids, worse sunlight, better cold applications. Heaviness of eyelids, better cold open air. Burning pain in eyes, worse motion, pressure, warmth. Burning pain in eyes, better lying down, after sleep, cold applications. Pain in eyes, worse bending head forward, better closing eyes.

Food - Diminished appetite. Excessive hunger. Thirstlessness. Thirst for large quantities of water at frequent

and long intervals. Thirst for small quantities of water at frequent intervals. Aversion to bread. Desires curd, eggs, pickles. Desires salty things, sweets. Desires warm drinks, warm food. Better milk. Better hot tea. Better cold drinks. Worse fatty foods.

Head - Dull pain in temporal and frontal

regions. Headaches, worse heat, daytime. Headaches, better cold applications, tight bandaging. Bursting pain in forehead, worse motion, exertion, stooping, Bursting pain in forehead, better pressure, tight bandage, open air, lying down. Hammering pain in forehead, worse heat, better gentle pressure. Sensation of heat in forehead, worse sun, better cold bath. Heaviness sensation, worse talking, better keeping quiet. Heaviness in forehead, worse evening, exertion, stooping. Heaviness in forehead, better morning, lying down, pressure. Heaviness in occiput, worse exertion, warmth. Heaviness in occiput, better washing head with cold water, better lying down, pressure.

Limbs - *Pain in knee joints*, worse first movement, rising from seat, better continued motion, pressure.

Lungs - Difficult breathing, worse dust, smoke. Dyspnea, worse winter, change of weather. Dyspnea, worse cold drinks, walking. Thick, yellow expectoration.

Modalities - Better rest and pressure. Better lying quietly. Better cold, cold applications. Better cold air. Better cold drinks. Worse warmth. Worse motion (pains).

Mouth - Dryness of mouth and increased thirst. Excessive salivation and impaired taste.

Nose - Nasal obstruction at night, worse cold. Nasal obstruction, better daytime, warmth. Followed by watery nasal discharge. Profuse, thin, watery, bland discharge. Dryness of nose in morning, followed by watery discharge during daytime.

Perspiration - Profuse perspiration, face and axilla. Unclean smell from the body. **Rectum** - Ineffectual urge to pass stool.

Constipation, no urge for 3 to 4 days. Stool passed after great straining.

Skin - Eruptions, like ringworm on thighs. Itching, worse night, better scratching.

Sleep - Disturbed sleep. Sleeplessness before midnight.

Stomach - Excessive hunger and gnawing sensation in epigastrium, better eating, milk. Nausea preceded by vertigo.

Teeth - Pain in teeth and gums with earache, worse eating, pressing teeth together.

Throat - Dryness better sipping cold water. Sensation of heat spreading over whole body, better cold drinks. Burning pain, worse cold air, cold applications, swallowing, better hot tea.

Vertigo - Vertigo better lying down. *Vertigo with a tendency to fall forward or backward*. Heat flushes in ears during vertigo. Dim vision during vertigo. Nausea preceded by vertigo.

Vision - Blurred vision during menses. Dim vision during vertigo, better cold applications.

COMMENTS - Clarke mentions for Senna: "a nasty unclean smell from the body."

"Of 16 patients presenting unspecific pain in the knee joints, with the modalities mentioned above, 15 were relieved after taking Cassia. This indicates its possible use in osteoarthritis." (Central Council).

"Although dyspnea was observed in a prover during the course of proving, the modalities have only been obtained and confirmed during the clinical studies." (Central Council).

"While proving the vertigo symptom was accompanied by a tendency to fall forward, the clinically confirmed symptom was accompanied by a tendency to fall backward." (Central Council).

RELATIONS - *Antidotes*: Nux-v., Cham. *Compare*: (V)*Bry*. Kali-c., Nux-v. (2)Senn., (Cassia acutifolia., Cassia angustifolia., Cassia obovata).

REFERENCES - Central Council. Clarke. Murphy.

***CASTANEA VESCA

(Chestnut Leaves)

PHARMACY - cast-v. Castanea vesca. Chestnut leaves. Castanea vulgaris. N. O. Cupuliferae. Fagaceae. Tincture of leaves gathered in summer. *Historical dose*: Tincture and all potencies.

CLINICAL - Coughs. Diarrhea. Lumbago. *Whooping cough*.

HOMEOPATHIC - Cast-v. has been proved by Dr. H. C. Houghton and three others. Cast-v. has cured whooping cough, early stage, violent.

Castanea vesca spasmodic, very dry ringing cough.

Slight acrid feeling in throat. Desire for warm drinks. Very thirsty. Very free sweat after drinking. Loss of appetite. Sensitive abdominal walls. Soft stools of short, small pieces like chopped tape, accompanied with severe pain and rumbling, pain better by stool. Diarrhea. Thickurine. Lumbago, weak back, can hardly straighten up.

RELATIONS - *Compare*: (1) Pertussin, Whooping cough - when symptoms return again after being allayed.

(2) Am-br., Dros., Meph., Naph., Am-br.

REFERENCES - Boericke. Clarke.

***CASTOR EQUI

(Rudimentary Thumbnail of the Horse)

PHARMACY - cast-eq. Castor equi. Rudimentary thumbnail of the horse. Triturations are made from the scales of rudimentary thumbnail of the horse. **Historical dose:** Trituration and all potencies.

CLINICAL - Breasts, swollen. Coccyx, pain. Fainting. Epilepsy. Nails, disorders. **Nipples, cracked. Nipples, ulcerated. Psoriasis. Skin, disorders.** Warts.

HOMEOPATHIC - This is a very ancient remedy and was proved and introduced into homeopathy by Hering. The clinical experience of Hering and his fellow-provers has shown this to be highly useful remedy in **cracked and ulcerated nipples.**

Cast-eq. especially acts on the **nipples, the nails and bones**, causing pains in right tibia and coccyx. General action on thickening of the skin and epithelium.

Nails become brittle and fall off. Chapped hands.

Affects principally female organs, especially the nipples. **Cracked and ulcerated nipples** of nursing women, excessively tender, cannot bear the touch of clothing. Warts on forehead, breasts. **Psoriasis of the tongue.** Bones, especially tibia and coccyx are painful. Fainting. Epilepsy. Desire to smoke tobacco.

MIND - Unusual laughter about things not funny.

Abdomen - Colic with urging wakes him in the morning, followed by a very thin, watery, somewhat burning stool, with passage of offensive flatus. Pain in left inguinal region.

Back - Weakness of spine. Pain in coccyx, worse every evening, while sitting.

Breasts - Breasts swollen, sensitive, worse descending stairs. Nipples almost hanging. **Cracked, sore nipples in nursing women**, excessively tender, cannot bear touch of clothing, even in neglected cases, ragged. Swelling of breasts. **Violent itching in breasts.** Reddened areola.

Chest - Burning pains on chest.

Ears - Sensation of dryness in left ear, compelling to scratch. Twitching, internally in left ear.

Eyes - Frequent twitching in right eyelid. Itching in canthi.

Face - Sensation as if trismus. Transitory, burning, prickling pain in face and also on body. Prickling and heat on both cheeks. Dry lips with thirst in evening.

Food - Sense of hunger, even after eating, during coryza. Lack of appetite during headache. Desire to smoke tobacco. Great accumulation of saliva, immediately after eating. Soon after pains in teeth, loud rumbling in abdomen.

Head - Sensation as if occiput had gone to sleep. Scalp goes to sleep, numb. As if something crawling in hair. Pressure in forehead. Pressive pain in temples. Deep pressure in occiput. Headache with vertigo and nausea, sour stomach and lack of appetite.

Heart - Peculiar sensation about heart as of something alive struggling.

Limbs - Repeated pain in right tibia. Arms and legs sore as if beaten. Pain in left elbow and right knee. Right wrist-joint as if sprained. **Very brittle nails.** Crumbling of fingernails from slightest knock against them.

Mouth - Burning, on front of tongue. **Psoriasis of the tongue.** Pain in hollow teeth of left side, must pick them.

Nose - Pressive pain in nasal bones. Coryza, fluent, with constant sensation of hunger, even after eating

Rectum - Urgent stool, preceded by colic and passage of flatus.

Skin - General action on thickening of the skin and epithelium. Warts. **Psoriasis.** Nails drop off. Brittle nails.

Sleep - Restless sleep with numbness of right arm. Sleepiness in early evening. Stretches arms up over head and cracks fingers during sleep. Restless sleep, with many dreams. In winter dreams of fresh fruit hanging on trees.

Stomach - Repeated empty eructations.

Throat - Disagreeable, sick feeling in larynx.

Vertigo - Vertigo, headache and nausea in mornings, sour stomach and lack of appetite.

COMMENTS - General action on thickening of the skin and epithelium. Principally affects the female organs. Cracked and ulcerated nipples (Sars., Sil., Petr., Calen.), especially of nursing women. Nipples excessively tender, cannot bear touch of clothing.

Chapped hands. Fainting. Epilepsy. Desire to smoke tobacco. Psoriasis of tongue. Warts on forehead and breasts. Burnett cured with it a case of wart on forehead.

RELATIONS - Compare: (1) Calc-ox., Hipp., Cast., Mosch. Graph. (2) Hep. relieves the sore nipples. (3) Thuja. has removed warts caused by Cast-eq.

REFERENCES - Boericke. Clarke. Phatak. Murphy.

***CASTOREUM CANADENSE

(Beaver Secretion)

PHARMACY - cast. Castoreum canadense. Beaver secretion. N. O. Rodentia. Tincture of secretion, found in preputial sacs of beaver. Castoreum when fresh is yellow and of the consistence of syrup, when dry it is dark red or brown and of the consistence of hard wax. **Historical dose:** Tincture and all potencies.

CLINICAL - Amenorrhea. Chorea. Colic. Convulsions. Day-blindness. Digestion, disordered. Dysmenorrhea. Eclampsia. Epilepsy. Flatulence. Hernia. **Hysteria**. Ileus. Menstrual colic. Paralysis. Pregnancy, vomiting. Prostration. Reaction, deficient. Sexual, disorders. Sycosis. Tetanus. Typhoid. Typhus. Warts. Yawning.

HOMEOPATHIC - Caspari proved Russian Cast., Nenning, that of Southern Europe. Teste remarked that Cast, has been regarded as a resinous substance and he observed, moreover, that the beaver feeds almost entirely on the resinous bark of pine trees. In Siberia, beavers feed on the bark of the birch, which may make a difference in the effects of Cast, from different countries.

Cast, is a great remedy for hysteria. **Weakness and lack of reaction.** Marked prostration. Nervous palpitations. **Nervous women** who do not recover fully, but are continually irritable and suffer from debilitating sweats. Constant yawning. Restless sleep with frightful dreams and starts.

Day blindness, cannot endure the light. Spasmodic disorders after debilitating diseases. **Creeping, tingling sensation, worse sleep.** Chorea. Epilepsy. Fibrillar twitch- ings. Heaviness of the whole body. **Pains are better by pressure, rubbing.** Reflex uterine effects, are nervous and spasmodic. Menstrual colic with pallor and cold sweat. Feeling of fullness in the stomach as if too much had been eaten.

MIND - Irritability. Easily sheds tears. Melancholic and full of anxious longings.

Abdomen - Colic or other abdominal complaints, accompanied with yawning. Colic with weakness, better pressure.

Back - Pain as from excoriation, in the sacral region and back. Drawing pains in nape of the neck.

Chest - Stitches in chest, heat as if fire were burning in it.

Constitutions - Suited to nervous women with pains, cramps, and weakness after severe illness. Hysterical individuals. Abdominal soreness. Nervous attacks when the aura starts from abdomen.

Ears - Acute dragging in the ears. Tinkling, buzzing, and gurgling in the ears, dispersed by boring the ear with the finger.

Eyes - Day blindness. Cannot endure the light.

Female - Pain commences in middle of thighs. Violent, cutting dysmenorrheal colic with a few drops of blood, then cold sweat. Amenorrhea with a painful tympanites.

Food - Repugnance to food and constant nausea. Violent thirst, could not drink enough.

Kidneys - Frequent emission of urine, with burning thirst, day and night. After the emission of urine, desire to vomit with disgust.

Limbs - Nocturnal dragging in shoulders and arms. Spasms of hands and feet. Hands hot with swelling of veins. Weakness of the lower limbs.

Lungs - Breathing is short, difficult. Short breath when ascending. Slow, deep inspiration with short expiration.

Male - Seminal emissions with great excitability.

Modalities - Better from pressure. Worse from emotions. Worse cold. Worse during menses. Worse debilitating diseases.

Mouth - Tongue, swollen, twitching. Round pea-like elevation in center of tongue with redness around. Tongue sensitive to touch or food, with drawing pain towards hyoid bone.

Nose - Obstruction of the nose. Flow of aqueous, acrid, corrosive mucus from the nose.

Rectum - Summer diarrhea with green, mucus stools.

Sleep - Constant yawning as accompanied symptom. Yawns in sleep. Restless sleep with frightful dreams and starts.

Stomach - Regurgitation of a bitter acidity. Vomiting of white, bitter mucus. Sensation of contraction and pain of ulceration.

Teeth - Toothache when eating, provoked by cold and mitigated by hot things. Toothache with acute drawing pains. Swelling of the gums at night, with acute pulling in the temples.

Temperature - Predominant chilliness. Chilliness with icy coldness in back. Exhausting sweats after fevers.

Throat - Hoarseness, with disposition to clear throat. Dryness of esophagus. Burning pain in the throat, as from heartburn.

COMMENTS - Cast, resembles Ambr., Mosch., Ign. and Valer. Teste placed Cast, in the Thuj. group with Plat,

and Bism. Teste concluded from analogy that Cast, would be an anti- sycotic, and he proved his point by initiating with it the cure of a case of pedunculated vegetations around the anus in a hysterical young woman. Thuj. completed the cure.

Teste quoted from Trousseau and Pi- deux the following indications, which he confirmed:

(1) Amenorrhea, accompanied with painful and tympanitic swelling of the abdomen. We mean the cases where only a few drops of blood escape from the uterus with a sort of uterine tenesmus.

(2) The cases of colic to which Castoreum seems to be principally adapted are of the nervous kind, that seem to be particularly seated in the small intestine. They are accompanied with paleness and cold sweats, a sudden sinking of strength, as if the very principle of life had been struck down.

They are without any alvine evacuations, come suddenly after lively emotions, a cold on the bowels or by the feet, as after long exposure to a cold rain.

Cast, causes jerking in small groups of muscular tissues, a sensation of heaviness of whole body, trembling of limbs.

RELATIONS -Antidote: Colch. **Compare:** (i) Ambra, Mosch., Mur-ac., Valer.

REFERENCES - Boericke. Clarke.

***CAULOPHYLLUM THALICTROIDES

(Blue Cohosh)

PHARMACY - caul. Caulophyllum thalic- troides. Blue cohosh. Squaw root. Leontice thalictroides. N. O. Berberidaceae. Tincture or trituration **of mol. Historical dose:** Trituration, tincture and all potencies.

CLINICAL - After-pains. Amenorrhea. Aphthae. Bearing-down, pains. Breast, pains. Chloasma. Cholera, morbus. Chorea. Dysmenorrhea. **False, labor.** Feet, disorders. Gonorrhea. Hands, disorders. Infertility. **Labor, pains.** Leucorrhea. Menopause. Menorrhagia. Menstruation, disorders. **Miscarriages.** Ovarian, neuralgia. Paraplegia. Pityriasis. Pregnancy,

Caulophyllum thalictroides disorders. Premature, labor. Rheumatic, gout. Rheumatism. **Thrush.** Trembling. Uterine, spasm. **Uterine atony. Weakness.**

HERBAL - Caul., the Blue Cohosh, is closely related in action to Cimic., the Black Cohosh, though they belong to different families of plants.

HOMEOPATHIC - Caul, has only had one proving, by Dr. Burt, the majority of the indications were derived from tradition and clinical experience.

Caul, acts most markedly on the female generative organs and on rheumatic states. **Lack of tone of the uterus.** Left ovarian and left infra-breast pains. Leucorrhea in young girls or during pregnancy. Complaints due to uterine disorders.

Bearing-down pains. Uterine spasms (Sep.). **False labor pains.** During labor, when the pains are deficient and the patient is exhausted and fretful. **Labor pains are weak or irregular,** they cease from exhaustion or they are too painful.

Internal trembling with weakness. Exhaustion and general debility. Reflex symptoms having a uterine origin, like headaches, hoarseness, rheumatism, vomiting, cramps and spasms. Hysterical or epileptiform spasms at puberty, during dysmenorrhea. Chorea at puberty.

A rheumatic remedy, especially acting on **small joints. Erratic pains** flying about from place to place, drawing, cramping, shooting, rheumatic in character, ending in neck which gets stiff. **Thrush,** locally and internally. Paraplegia from disorders of the uterus. Paraplegia after childbirth.

MIND - Nervous. Excitable. Fretful, irritable and apprehensive. Easily displeased.

Abdomen - Drawing pains in the right side over the liver. Severe colic. Pain in the umbilicus.

Back - Rheumatic stiffness of neck. Severe drawing in sternocleidomastoid, drawing head to left. Dull pains in lumbar region.

Causations - Childbirth. Miscarriages. **Constitutions** - Rheumatic constitutions.

Eyes - Drawing pains over the left eye.

Eyes aching, with a feeling of something

under the lids. Profuse secretion of tears. **Face** - Moth spots on forehead, with leucor- rhea. Heavy upper lid, has to raise them with fingers, with leucorrhea.

Female - **Habitual or threaten miscarriage** from uterine atony (Helon., Puls., Sep.). **False labor pains. Labor pains are weak or irregular,** they cease from exhaustion or they are too painful. Revives labor pains and furthers progress of labor. Spasmodic and severe pains, which fly in all directions, shivering without progress. **Extraordinary rigidity of os** (Bell., Gels., Verat-v.). After-pains. Profuse and prolonged lochia. Menorrhagia after hasty labor, flow very profuse. Profuse menses, late. Violent, intermittent cramping pains with little flow. Dysmenorrhea. Uterus retroverted. Irritable vagina, spasmodic intense pains. Leucorrhea with

moth-spots on forehead. Profuse acrid leucorrhea, often in little girls. Needle-like pains in cervix. Placenta is retained.

Head - Headaches from uterine or spinal troubles. Headaches over left eye, pressure behind eye, severe by spells, worse stooping, from light, from noon until night.

Limbs -Rheumatism of small joints. Severe drawing, erratic pain and stiffness in small joints, fingers, toes, ankles, etc. Aching in wrists. Sore nodes on finger joints. Cutting pain in fingers joints on closing hands. Erratic pains, changing place every few minutes. Aching, sore lower limbs, before menses. Paraplegia after childbirth.

Lungs - Hoarseness and loss of voice. Panting breathing.

Male - Sharp, stinging pains in glans penis. **Modalities** - Worse from pregnancy. Worse suppressed menses. Worse open air. Worse coffee.

Mouth - Aphthae. Thrush. Tongue coated white. Teeth feel sore and elongated.

Neck - Stiff, with head drawn to left. **Nose** - Drawing pains in the nose.

Rectum - Stool, soft white. Watery stools, great quantity.

Skin - Chloasma, on neck. Discoloration of skin in women with menstrual and uterine disorder. Hot and dry skin.

Stomach - Cardialgia, spasms of the stomach. Dyspepsia with spasmodic symptoms. Frequent gulping of sour, bitter fluid, with vertigo. Vomiting of uterine origin.

Temperature - As if too full of blood. High fever.

Throat - Pain in the fauces. Frequent inclination to swallow.

COMMENTS - Threatened miscarriage due to uterine atony, with a history of habitual abortion or miscarriage. Weak, atonic uterus (Sep.). Inertia of the uterus. False conception or pregnancy. Sterility with a history of uterine atony or a prolapsed or weak uterus.

Can be used for tendency to miscarriage, long ineffectual labor, weakness after childbirth, postpartum depression, but not in general during pregnancy because it can stimulate labor.

Labor with a full feeling, bearing down with a rigid os, severe labor pains accompanied by severe exhaustion. Exhausting labor, weak pains. Ineffectual labor (Puls.), false labor, premature labor. Rigid os, will not dilate further during labor, with thirst (Gels, is not thirsty, Bell., Verat-v.).

¹ Lack of expulsive power where the placenta is retained, internal trembling. White, milk-like vaginal discharge after childbirth that persists for weeks with exhaustion. Postpartum hemorrhage with passive oozing coupled with exhaustion, venous hemorrhage.

Cervical erosion with a milky white discharge and choline fatigue. Cervicitis (yellow-green discharge. Thuja.), indurated cervix (Con.). Extreme fatigue and uterine weakness (Helon., keynote is they have a consciousness of the womb). Antispasmodic.

Menstrual cramps with severe fatigue and exhaustion, labor-like pains. Drawing pain in the thigh, feels heavy and tired. Vaginitis with bearing down pains in the uterus, acrid and burning leucorrhea. Exhausted with vaginitis, thirsty. Menopause and hot flashes with weakness (Sep.).

Chorea at puberty. Problems at puberty, including weakness, menstrual cramps that come since first menses (Puls.). Was given, with some success, for chloasma and pityriasis versicolor, curing dysmenorrhea at the same time.

Great nervous excitement, tremulous weakness over whole body. Sleepless and restless, but exhausted. Can scarcely speak. Sleepless, restless, nervous, recalling the effects of coffee, which is incompatible with it. Generally chilly and wants warm clothing.

Arthritis in the smalljoints, fingers, wrists, toes and ankles, especially if since childbirth or menopause, or since some problem with the uterus. Painful, swollen joints during pregnancy. Drawing pains in the joints with the menstrual cramps, as though the tendons had contracted.

Rheumatic disorders of the small joints and muscles. Pains are intermittent and paroxysmal and fly about from place to place, generally worse at night. Erratic, wandering pains from joint to joint, stiffness in the fingers. Joints are swollen and painful. Stiff neck.

Nash regarded "internal trembling" as a strong characteristic when associated with the weakness, he cured long-continued passive hemorrhage associated with these symptoms.

Nash prescribed Caul. 3c for a woman of forty, seven months pregnant, who was attacked with severe pain and swelling of all the finger joints, wrapping them in mustard was the only thing that relieved her sufficiently to allow her to get sleep.

Caul, relieved the finger pains, but caused such severe labor-like pains that it had to be discontinued for fear of causing miscarriage. The bearing-down then ceased and the finger pains returned and continued until delivery, when they ceased for a few days.

Then the lochia increased to a flooding, a passive, dark, liquid with great weakness and internal trembling.

Now the terrible finger pains returned. Afraid to give Caul., other remedies were tried, but in vain. At last Nash gave Caul. 200c, which rapidly cleared up the whole case.

RELATIONS - Compare: (1) Viol-o. - rheumatic carpal and metacarpal joints. (2) Cimic., Sep. (3) Gels, in dysmenorrhea, it is like Gels, and follows it well. (4) Puls, in labor-pains, but the mental condition is opposite, Cimic. (5) Bell, in intermittent and paroxysmal pains, Calc. - leucorrhea in little girls. (6) Lil-t., Lach., Sulph., Ust. and Vib-od. in left ovarian and infrabreast pains. (7) Mag-m. in uterine spasms, Bry. in rheumatism. (8) Sec., Sep., Goss. **Incompatible:** Coffea.

REFERENCES - Boericke. Clarke. Murphy.

***CAUSTICUM

(Caustic Potash)

PHARMACY - caust. Causticum. Caustic potash. Causticum Hahnemanni. Hahnemann's tincture of acris sine kali. Potassium hydrate. Obtained by distilling a mixture of slaked lime and a solution of potassium sulphate. Tincture with spirit. **Historical dose:** Tincture and all potencies.

CLINICAL - Acne rosacea. Amaurosis. Arthritis. **Bell's palsy.** Bedwetting. Bladder, disorders. Bronchitis. Bums. Cataract. Chorea. Coccyx, pain. Constipation. Convulsions. Cough. Deafness. Dentition. Diphtheria. Ears, otorrhea. Emaciation. Epilepsy. Eye, disorders. **Facial, paralysis.** Fistula. Goiter. Hemorrhoids. Headaches. Heart, disorders. Heel, blistered. Herpes, zoster. Hip, disease. Impotence. Influenza. Intermittent, fever. Intertrigo. **Laryngitis.** Lead, poisoning. Leucorrhea. Locomotor, ataxia. Meniere's, disease. Menstruation, disorders. **Muscle,pains.** Nails, crippled. Neuralgias. **Paralysis.** Pemphigus. Pregnancy. Prostatitis. Ptosis. **Rheumatism.** Scabies. Scrofula. Skin, eruptions. Smallpox. **Stammering. Strokes.** Syphilis. **Tendons, contracted.** Throat disorders. Tongue, paralysis. Ulcers. Urethritis. Urine, disordered. Varicose, veins. **Voice, lost.** Warts. Whooping cough.

HOMEOPATHIC - Caust. is one of the great polycrest medicines for chronic diseases. The chemical composition is still uncertain though it is considered to be potassium hydrate or caustic potash.

Caust. acts upon the nerves, motor and sensory and on muscles voluntary and involuntary of bladder, larynx and limbs.

Chronic rheumatic, arthritic and paralytic disorders. Characteristic **burning, rawness and soreness.** Indicated in tearing, drawing pains in the muscular and fibrous tissues with deformities about the joints.

Chronic rheumatic disorders cause contraction of tendons and deformities about the joints. Stiff joints. Restlessness at night with tearing pains in joints and bones and faint-like sinking of strength.

Progressive loss of muscular strength, tendinous contractures. **Weakness, loss of muscular strength,** causing increasing uncertainty of control over the muscles, finally ending in **paralysis of single organs** or parts. **Local paralysis,** vocal cords, muscles of swallowing of tongue, eyelids, face, bladder and limbs. Paralysis from exposure to cold. Post-diphtheria paralysis. Paralysis from lead poisoning. Cold water tones the paralysis.

Trembling. Convulsions. Chorea in nervous girls, worse during menses. Cramps here and there. Epilepsy, runs in circle, then falls down, at puberty. Restlessness at night, especially the legs are constantly on the go. Catarrhal disorders of the air passages. Seems to prefer dark-complexioned and rigid-fibered persons. The skin is of a **dirty white sallow** with warts, especially on the face. Fissures from least provocation, about wings of nose, lips, anus etc.

Emaciation, due to disease, fright, worry, grief and of long lasting illness. Children are slow in learning to talk and walk. Awkward at talking, chewing, walking. Broken down seniles. Patient is susceptible to both cold and heat.

MIND - Timid, nervous, anxious. Reticent. **Anxiety of conscience** as if she had committed a crime. **Night watching, nursing loved ones,** keeping late hours and missing sleep from taking care of someone (Phos. and Cocc.). **Over sympathetic.** Lacks control, balance.

Melancholy. Sadness. Taciturn and distrustful inclined to fits of anger with scolding. Hopeless, despondent, wants to die. Whining mood. Looks on the dark side. Suspicious, mistrustful. Weeps. Laughs before, with or after spasms. Convulsions from suppressed eruptions.

Grief, feels betrayed (Ign.). Bitter, emotionally caustic. Holds grudges. Weakness, ailments from long-lasting grief, sudden emotions.

Foreboding. Fear of impending doom, that something bad is going to happen (Calc.). Full of fearful fancies, worse at twilight. Sees fearful images when closing eyes. Fear of the dark and fear of being alone (Phos.). Vexed with business worries.

Cannot tolerate to seeing injustice (Staph.). Affected by bad news, makes them angry and motivated. Obsessive motivation for a cause, politics and injustice. Idealistic, more focused than Nat-m. Disappointed

easily and argumentative (Ign.). Ambitionless.

Absent-minded. Memory fails. Confounds letters and syllables. Mental fatigue and paralysis. Mental exertion causes symptoms, such as stitches in temples, tension in head and scalp, especially forehead to temples. Thinking of complaints aggravates them, especially hemorrhoids.

Children are overly concerned about other people and oversensitive. Inquisitive and intelligent. Can get frustrated and feel powerless. Child does not want to go to bed alone, least thing makes him cry.

Insanity with mental confusion. Very sensitive to light and noises, also better cold drinks (Phos.).

Abdomen - Enlarged abdomen in children.

Colic, spasmodic. Pain radiates to back and chest, better bending double, worse least food. Painful swelling of the navel. **Back** - Back pain goes forwards or to the thighs. Pain in spine, worse swallowing. Stiffness between shoulders. Pain in hips, worse coughing. Bruised, darting pains around coccyx. Cramps in lumbar region and buttock. Dull pain in nape of neck. Stiffness of neck or back on rising from a chair, could scarcely move the head. Torticollis.

Breasts - Disappearance of milk from fatigue, night-watching or anxiety. Nipples, sore, cracked, surrounded with herpes.

Sticking pain below left breasts, dysmenorrhea. Violent itching about breasts in nursing women.

Causations - Ill effects of burns and scalds, fright, grief, worry, sorrow, night watching.

Chest - Chest tight sore, vest seems tight. Mucus under sternum, which he cannot reach. Pain in chest with palpitations.

Constitutions - Anti-psoric, anti-sycotic and anti-syphilitic. It is one of Grauvogl's hydrogenoid remedies, hence is a chilly medicine. Suited to dark-haired persons with rigid tissue, delicate skins. Adapted to broken down, worn out senile persons. Lymphatic torpid temperament.

Ears - Ringing, roaring, pulsating, with deafness. Meniere's disease. Words and steps re-echo. Chronic middle-ear catarrh and great accumulation of earwax. Thick gluey purulent discharge. Burning in ears, they become red.

Eyes - Paralysis of ocular muscles after exposure to cold. Paralysis of one eyelid (right). Heavy drooping eyelids. Ptosis (Gels.). Weakness of recti muscles. Diplopia, better looking to right. Continuous eye pain with inclination to touch and rub the eyes, which seems to relieve the pressure in it. Profuse acrid tears. Vision obscured as from gauze, on blowing nose. Sparks and dark spots before the eyes. Objects look large. Cataract with motor disturbances. Rolling of eyes, epilepsy. Eyes remain open without winking, paralysis. Eyelids quiver. Inflammation of eyelids, ulceration. Warts on eyebrows. Fissures in canthi.

Face - Face yellow, sickly looking. Feels furry. Eruptions. Warts. Cramps in lips. Pain in facial bones. Pain in jaws with difficulty in opening mouth. Prosopalgia better cold water. **Facial paralysis** (right) worse opening mouth. Dental fistula.

Female - Menses cease at night, flow only during day (Cycl., Puls.). Menses late and profuse. Anxiety, sadness and weakness during menses. Dreams during menses. Dysmenorrhea with tearing pains in back and thighs. Leucorrhea, smelling like menses. Leucorrhea. profuse, flow during night with great weakness. **Aversion to sex.** Uterine inertia during labor. Smarting in the pudendum after urination.

Food - Feels hunger, but appetite vanishes at the sight of food, or with thought or smell during pregnancy. Aversion to sweets. Worse after eating fresh meat, smoked meat agrees.

Head - Painless commotion in the whole head. Pain in right frontal eminence. Sensation as of an empty space between the forehead and brain, better hot application. To and fro or nodding motions or turning to right. Tight scalp. Stitches in temples on mental exertion. Nausea and vomiting or blindness during headache, then paralysis. Small, soft, round nodes on scalp or glabella.

Heart - Palpitation with pain in chest, burning and languor.

Kidneys - Paralysis of bladder from long retention of urine and consequent incontinence. Retention of urine after labor after surgical operations. **Involuntary passage of urine, on coughing**, walking, blowing nose, sneezing. Involuntary during first sleep at night, or from slightest excitement. Insensibility of urethra while passing urine. Burning in urethra when urinating, worse after sex. **Urine dribbles or passes slowly.** Urine is passed better sitting. Urine, black, cloudy, white. Itching of meatus.

Limbs - Twisting and jerking in limbs, chorea. **Paralysis of single parts.** Paralysis of deltoid, cannot raise hand to head. Paralytic feeling in the right hand with paralysis of tongue. Heaviness and weakness. Dull, tearing pain in hands and arms. Unsteadiness of muscles of forearm and hand. Numbness of hands. Trembling of hands. Contracted tendons. Cracking and tension in knees, stiffness in hollow **oiknee**. **Burning in joints.** Tearing joints. Arthritis deformans. Rheumatic tearing in limbs, better from the warmth, especially heat of bed.

Disposition to stretch, bend or crack the joints. Cannot walk without suffering. Left-sided sciatica with numbness. **Unsteady walking and easily falling.** Weak ankles. Restless legs at night. Pain like electric shocks in legs. Itching on dorsum of feet. Cannot stand on heels. Cramps in calves, feet toes and Achilles tendon. Writer's cramp. Whitlow of great toes. Slow learning to walk.

Lungs - Wandering chest pains, better pressure, worse sneezing. Oppressive breathing while talking and walking. Tightness or scraping in chest. Cannot lie down at night. Purring in chest. Sore streak in larynx. Pain in the larynx, worse blowing nose. Aphonia or hoarseness with pain in chest, worse morning, stooping, better talking. **Difficulty of voice** of singers and public speakers (Royal). Short breath, before coughing. Cough, hollow, hard, dry, incessant. Cough from tickling in throat pit of larynx. Cough at night, morning, worse stooping, heat of bed, cold air, better sips of cold water. Cough during pregnancy. Cannot cough deep enough, expectoration, slips back again, scanty, greasy, ropy like soapsuds, must be swallowed.

Male - Increase of smegma about the glans. Semen bloody during sex. Red spots on penis. Bruised soreness in testes.

Modalities - **Better from cold drinks** (even chill). Better damp wet weather. Better washing. Better warmth of bed. Better gentle motion. **Worse in clear fine weather. Worse dry cold air.** Worse winds, drafts. Worse extremes of temperature. Worse change of weather. Worse 3 a.m. to 4 a.m. Worse evenings at 6 p.m. to 8 p.m. Worse twilight. Worse darkness. Worse exertion. Worse stooping. Worse motion of carriage. Worse taking hold of anything. Worse bathing in the river in summer. Worse after stool. Worse from suppressed eruptions. Worse coffee, fats, sour things.

Mouth - Bites inside of cheek from chewing. Fatty taste. Recurrent abscess in gums, dental fistula. Teeth, feel loose, elongated, ache, worse from cold or warmth. Swelling in side of cheek or induration. Swelling at root of tongue. Paralysis of tongue with indistinct speech, words seem to jerk out. Tongue, red in middle, sides coated. Painful vesicles on tip. Rheumatism of joint of lower jaw.

Nose - Coryza with hoarseness. Sneezing in the morning. Thick yellow or greenish- yellow discharge. Nostrils ulcerated. Nosebleed during spasms. Pimples on tip of nose. Scaly nose. Old warts.

Rectum - Sore and burns. Small hard pustules around anus. Large hemorrhoids impeding the stools worse walking, standing and when thinking of them. Fistula with pulsation and pain in perineum. Anus prolapses on coughing. Itching in anus better cold water. Partial paralysis of rectum. Cramps in rectum on stooping, with desire for urination. Rectum insensible to solid stool. Stools, hard tough, covered with mucous, shines like grease, soft and small, size of goose quill (Phos.). Stool passes easily when standing. Constipation with frequent ineffectual urging. Diarrhea from cold.

Skin - Old burns that do not get well. Ill effects from burns. Pain of burns. Cracks, ulcers. Soreness in folds of skin, back of ears, between thighs. Skin prone to intertrigo during dentition. Warts, seedy, large, jagged, bleeding easily, ulcerating, on fingertips, nose, lids, brows. Itching. Scars freshen up, old injuries reopen.

Sleep - Yawning, when listening or paying attention to others. Yawning and stretching. Very drowsy, can hardly keep awake. Sleeplessness with dry heat. Frequent movements of arms and legs during sleep. Laughs and cries during sleep. Wakes with slightest noise.

Stomach - Greasy, taste, belchings. Water brash, salty. Acid dyspepsia. Feels as if lime were burning in stomach. Pain in stomach from ice water. Sensation of a ball rising in the throat. Sour vomiting followed by sour belchings. Vomiting of blood at night. Fresh meat causes nausea, smoked meat agrees.

Temperature - Coldness, not better by warmth. Coldness, left sided of diseased part with pain. Flushes of heat. Sweat about 4 a.m., profuse, on slight exertion, open air. Heat from 6 to 8 p.m.

Throat - Urging to swallow continuously as if the throat were too narrow. Swallows the wrong way or comes through nose.

Difficulty in swallowing from paralysis of throat, unable to hawk out mucus, swallows it. Scraping, burning, rawness in throat. Throat symptoms worse stooping.

Vertigo - Vertigo during sleep, at night in the morning, while lying down, on stooping, from looking up, during menstruation.

COMMENTS - The weakening effect of potassium in allopathic overdosing is well known and was strongly brought out in the Causticum provings.

Caust. is good for neurological problems with the neck, degeneration of the nerves, vertebrae, with brachial neuralgia, stiffness, and muscle weakness in the neck. Bell's palsy. Facial paralysis. Parkinson's disease. Weakness resulting from long standing grief or disease.

Paralytic weakness. Paralysis of single nerves or single parts. Paralysis of both the voluntary and involuntary muscles. Ptosis, facial paralysis, paralysis of tongue of limbs of vocal cords of bladder of rectum, lead paralysis. Facial paralysis from cold drought, neuralgia of right cheekbones to mastoid process, worse at night.

Convulsions, cramps, starting, restlessness, twitching. Contraction of flexor tendons. Trembling. Torticollis,

spasm of the neck (Lachn.). Dupuytren's contracture. Epilepsy, when fit occurs in sleep and urine escapes. Chorea, the right side is more affected than left, words seem to be jerked out. Restless legs at night. Arthritis with burning and stiffness. Jaw joints affected with rheumatism. Carpal tunnel syndrome. Rheumatism tends to stiffen joints and contract limbs. Neuralgic and rheumatic affections, tearing, drawing pains. Tendons can be indurated and thicken. Stiffness of the joints and neck (Rhus-t.) Keynote pains are raw, burning, sore, and tender.

Headache that draws and tears through the body. Sensation as if there was an empty space between the bone of the skull and the brain, better by warmth. Headache, cannot keep upper eyelids up. Ptosis of the eyelids. Eyelids droop, weakness of the muscles (Gels., Sep.).

Vertigo, excitement of brain and spine incapable, tends to fall forward or sideways (locomotor ataxia) with anxiety, weakness in head, sight as if through a fog, skin dry and hot, constipation.

Intermittent fevers, "sweat coming after the chill without intervening heat." Marked periodicity. Periodic, paroxysmal attacks, twice a day to every two, three or four weeks an attack, at new moon.

Sickly, sallow, low-spirited expression. Skin is dirty-white. Eruptions on scalp behind ears. Weakened and emaciated appearance, especially about the face, the abdomen is large. Glandular indurations. Scrofulous children. Scrofulous inflammations about eyes, ears and scalp.

Nails are crippled. Old, large inflamed and indurated warts, on hands, close to the fingernails, face, and margins of eyelids. Burning itching on face, discharging acrid fluid which forms crusts. Burns due to caustic chemicals, chemical burns (Canth., Urt-u.).

Eustachian tubes with tinnitus and reverberation. Sounds re-echo unpleasantly, an ordinary voice sounds loud. Hoarseness with dry cough and redness of fauces, the result of weather or catching cold, worse in morning. Dry, hollow cough with mucus on chest, patient cannot expectorate, must swallow the phlegm raised. Cannot cough deep enough for relief. Accumulations of mucus in larynx and fauces, catarrh of throat.

Rawness and burning down throat and trachea. Laryngitis, hoarseness and speech problems, especially stammering and stuttering in children (Nat-m.). Semi-paralysis of the tongue where the child stutters and stammers and cannot talk right (Merc.). Aphonia, paralysis of vocal cords. Difficult swallowing of liquids.

Constant sensation as if lime was burning in stomach with water brash. Pressure and fullness in abdomen as if it would burst, much worse by food. Griping, cutting, better by bending double, worse after least food or tightening clothes, menstrual colic (Coloc.).

Spasm of rectum prevents walking. "Passes stool best standing." Obstinate constipation (paralysis of rectum), stools covered with shiny coating of mucus. Hemorrhoids, unbearable by walking, thinking of them, touch. Well-marked aggravations of anal symptoms. Painful pustules near anus discharging pus, blood, serum.

Paralysis of bladder. Itching at orifice of urethra. Itching scrotum, cannot retain urine. Difficult, frequent urination with spasm of bladder. Tendency for urine to escape during the day from any extra exertion, laughing, walking. Bedwetting, especially during first sleep, worse winter, better in summer. Coughing expels urine. Dribbling of the urine. Urine is irritating and burning (Canth.) Prostatitis and urethritis.

Blood with semen. Sexual appetite in women is abolished (Sep.). Constant indifference, except after the period. Sadness during period. Menses too early, too abundant. After menses, a little blood passes occasionally, smelling badly. Nursing women lose their milk after exertion or loss of sleep.

Slow learning to talk and walk and stumbling on attempting to walk.

Nash cured a severe case of prosopalgia with Caust. The patient was emaciated and debilitated by long suffering, pains came in paroxysms and were of a drawing nature. She had suffered from eczema at times before the neuralgia appeared. Sulph. had been given in vain. Caust. 200c rapidly cured.

Guernsey commended Caust. in the aftereffects of burns and scalds. Patients say, "I have never been well since that burn." Its caustic properties may be its "signature" here. Guernsey gave "sensation as if lime were being slaked in the stomach."

Macfarlan confirmed: "Sudden severe pains commence in the left hip joint, lasts a short time, feels as if it had been injured, legs very sore or rather the lower limbs ache and feel tired." "Forearms in front very sore to touch and pressure, muscles of limbs sore generally."

Kraft cured cases of incontinence following over-distention of the bladder owing to want of opportunity to attend to the call to urinate at the time, such as occurs in shop

Causticum girls and schoolgirls, who cannot leave their tasks.

RELATIONS - Antidoted by: Asaf., Coff., Coloc., Dulc., Guai. - in rheumatic contractions, Nit-s-d., Nux-v.

Antidote to: Asaf., Chin., Coloc., Euphr., Plumb. (Lead poisoning), type-poisoning, abuse of Merc., and Sulph. In scabies. **Compare:** (1) Rhus-t., Ars., Am-p. - facial paralysis. (2) Calc. - images on closing eyes. (3) Nat-m. and Sep. - Spurting of urine with cough. (4) Rhus-t. - rheumatism from damp and cold, but with Rhus-t. there is restlessness and better from motion. Caust. has restlessness at night only. (5) Eup-per. - hoarseness

worse in morning, influenza with aching all over body, has more soreness on chest than, Caust. (6) Sal-ac., Chin., Carb-s. - Meniere's disease. (7) Staph., Coloc. - anger and colic. (8) Bar-c. - mental weakness, paralysis, worse damp weather. (9) Sep. - Enuresis in first sleep, in deep sleep, Bell., Sulph. (10) Sars. - Urine, especially in women, is passed without patient's knowledge. (11) Bell., Hyos., Ign., Lach., Lyc. and Phos. - difficult swallowing of liquids. (12) Calc., Carb-an., Phos., Stroph. and Stram. - Fear of darkness. (13) Gels. - Ptosis, paralysis, faint-like weakness and trembling, blindness. (14) Aeon. - paralysis from cold. (15) Kali-bi. - blindness with headache, Kali-bi. has blindness better, as headache worse. **Complementary:** Carb-v., Staph., Coloc., Petros. Merc, assists the action of Caust. and vice versa in smallpox, **(Teste).Incompatible:** Acids, Coff., Phos.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

***CEANOTHUS AMERICANUS

(Red Root)

PHARMACY - cean. Ceanothus americanus. Red root. New Jersey Tea. N. O. Rhamnaceae. Tincture of fresh leaves. The fresh leaves are pounded to a pulp and macerated in two parts by weight of alcohol. **Historical dose:** Tincture and all potencies. Locally as hair tonic.

CLINICAL - Anemia. Bronchitis. Diarrhea. Dyspnea. Heart, disorders. Intermittent, fever. Jaundice. Leucorrhea. Leukemia. Menses, suppressed. Metrorrhagia. Neuralgia. Side, pains. **Spleen, disorders. Splenitis.**

HERBAL - This remedy has a special **affinity to the spleen**, which enlarges enormously.

HOMEOPATHIC - **Enlargement of spleen** and liver (Chin.). **Deep-seated or cutting pains** and fullness in region of spleen. Painful inflammation, enlargement of spleen, either alone or with other disorders. Low spirits with splenic affection. Headache on the right side with spleen pain. Pain in left hypochondrium with dyspnea, diarrhea.

Ague cake of malaria. Marked blood pressure reducing powers. Active hemostatic, materially reducing the time for blood clotting. Anemic patients where liver and spleen are at fault. Leukemia.

Periodical neuralgia. Chilliness, principally down back, shivering, rigors, must sit over fire, worse in cold weather. Chronic bronchitis with profuse secretion. Weight loss. A left-sided remedy generally.

MIND - Apathy. **Low-spirited, fears he will become unfit for work.** Great nervous excitement with chilliness and loss of appetite. Felt as if nerves were shaken, at dinner could scarcely hold knife and fork. Don't care feeling all the time, cannot work.

Abdomen - Deep-seated pain in left hypochondrium. Unable to lie on left side. Pain in liver and back. Pain in left side, with leucorrhea and chilliness. Sensitiveness in umbilical region with desire to relax abdominal muscles. Whole abdomen moves with beat of heart. Bearing-down in abdomen, worse after eating.

Back - Carotids throbbing in neck. Pain under right scapula. Dull pain in lumbar region. Constant dull pain in kidneys and up back. Chilliness down back. Weakness in small of back and legs.

Chest - Soreness behind the sternum. Constricted feeling in chest.

Constitutions - Sanguine constitutions.

Eyes - Eyes feel too large, lids swollen. Dry sensation of cornea, with a dull pain in orbital region.

Face - Cheeks and ears feel hot with cold fingers.

Female - Profuse, thick, yellow leucorrhea, with pain under left ribs. Weakening leucorrhea. Menses, ten days too early and

very profuse. Menses every two weeks. Metrorrhagia with spleen pain.

Food - Loss of appetite. Craving for something sour. Cannot eat pastry. Thirst for water, but it made him sick.

Head - Headache, right side with pain in region of spleen. Head seems to move with every beat of the heart. Head feels as if the brain were too large. Dull frontal headache, better lying down. Crackling sensation.

Heart - Palpitations and dyspnea with enlarged spleen. Pulse full and very strong, heart's pulsations visible through the clothes. Heartbeat so hard it shook him all over. Chest feels too small for heart.

Kidneys - Sharp pain above pubes in region of bladder, before urination. Constant urging to urinate. Urine is quite green, contains bile, strong odor, frothy. Urine is alkaline with increased phosphates, high specific gravity, trace of sugar. After urinating, feeling as if all had not passed. Pain in back and irritation of urethra.

Limbs - Pains down forearms and fingers. Weakness of knees, must lie down. Dull pains in anterior part of thighs.

Liver - Full feeling in region of liver. Pain in liver, worse lying on right side, beginning immediately after dinner.

Lungs - Congested feelings in lungs. Chest sore internally, worse deep inspiration. Violent dyspnea.

Male - Syphilitic complaints.

Modalities - Great weakness on walking or standing. Aversion to move, feels too weak. Worse from cold

weather. Worse lying on left side. Worse motion.

Mouth - Aphthous disorders of mouth and fauces. Mouth dry. Tongue, white coat down center. Tongue looks dirty. Food tasteless, unless highly seasoned.

Rectum - Continual bearing-down in rectum with constricting sensation, particularly with diarrhea. Dysentery. Light brown stool with loud flatus.

Sleep - Awake all night. Sleeplessness. Dreamed of snakes, robbers.

Spleen - Chronic hypertrophy of spleen. Enormous **enlargement of the spleen. Deep-seated or cutting pains** and full-

ness in region of spleen. **Splenitis**, pain all up the left side. Severe pain in region of spleen with low spirits. Dull pain in region of spleen.

Stomach - Wanted to drink water, but it made him sick.

Temperature - Shivering, loss of appetite and nervous excitement. Rigors at frequent intervals. Intermittents with splenic enlargements. Cheeks and ears hot with cold fingers. At 4 p.m., six chills in succession with constant chilliness up and down back after chill very hot, fever, pulse 120, throbbing carotids.

Throat - Throat dry, raw sensation on swallowing.

Vertigo - Vertigo on turning in bed.

COMMENTS - Burnett, following Hale, is our chief authority for Cean. Great affinity for the spleen in tincture or in potency. Good for trauma to the spleen, enlarged spleen, painful spleen in any blood disease or dying patient. Stitching pains, sharp pains in the spleen. Large and painful spleen.

Diarrhea and dysentery (compare Cas-s. and other Rhamnee) have frequently been observed in patients taking Cean. for spleen disorders. Leucorrhea, profuse, thick, yellow, with pain in left side.

Malaria, intermittent fevers and chills, and for severe cases where the spleen will swell. Peripheral edema with swollen spleen. **Leukemia with enlarged spleen.** Blood diseases including anemia and platelet problems. Pain generally on the left.

Cean. was proved by I. C. Fahnestock, but its place had already been made clear by clinical use and definite clinical symptoms have been observed.

Fahnestock's two provers took repeated doses of the tincture and both had severe symptoms. One had malaria five years before, treated with quinine. This prover suffered more acutely than the other and in the end had to be treated. Nat-m. 30c soon put an end to his symptoms. The other prover had practically identical, but less severe, symptoms.

Commonly used during the American Civil War. Dr. Hale, a homeopathic surgeon, gave Cean. in tincture and potency for his

many cases of ruptured spleens from bayonet wounds and gunshots.

Dr. Hale said, "During the late Civil War I used this plant for splenitis, and was so well satisfied that I've been using it for six years on every case. I do not remember using anything else for an enlarged spleen. I have used it in the worst cases I ever saw from infancy to old age. I've yet to hear of its failure. However serious, it will help the swollen, enlarged, infected spleen."

P. C. Majumdar cured with Cean. 3x a case which had been diagnosed as heart disease, there were palpitations and dyspnea on exertion. Majumdar found the spleen enormously large.

R. K. Ghosh cured many cases of suppression of menses and leucorrhea in patients from malarial districts. Menses too profuse and too early with pain in left side. Cannot lie down for pain in left side.

RELATIONS - Antidote: Nat-m. **Compare:** (1) Cedr., Myric., Bell-p., Agar., Berb., Chin., Nat-m. (2) Ox-ac. - pain in left side. (3) Case. - diarrhea, syphilis. (4) *Tinosporacordifolia* - a Hindu medicine for chronic cases of fever with enlarged spleen. (5) *Polymniauvedalia*, Bears- foot - acute splenitis with tenderness over left hypochondriac region, spleen enlarged, ague cake. Vascular atony, tissues sodden, flabby and non-elastic. Enlarged glands influences all ductless glands. (6) *Ceanothus thrysiflorus*, California Lilac - pharyngitis tonsillitis, nasal catarrh, diphtheria. Tincture internally and as a gargle. **Follows well:** Cean. is followed well by: Berb., Con., Myric., Querc.

***CEDRON

(Rattlesnake Bean)

PHARMACY - cedr. Cedrón. Rattlesnake bean. *Simaruba ferroginea*. *Simaba cedrón*. N. O. *Simarubacae*. Tincture of seeds. Tincture of pure bean scraped on wound. **Historical dose:** Tincture and all potencies.

CLINICAL - Ague. Cerebrospinal, meningitis. Ciliary, neuralgia. Chorea. Convulsions. **Epilepsy, menstrual.** Glaucoma. Gout. Hydrophobia. Hysteria. **Intermittent, fever.**

Malaria. Neuralgias. Neuritis. Rheumatism. **Snakebites.** Stings. Toothaches.

HERBAL - Cedr. is particularly useful in tropical or in damp, warm, marshy countries. Malarial disorders of damp, warm, marshy countries. The seeds from Panama has accounts **of antidoting snakebites** when chewed immediately after being bitten. It also heals snakebites and the stings of insects, with tincture of pure bean being scraped on the wound.

HOMEOPATHIC - Petroz and Teste introduced Cedr. into homeopathic practice, because of its powers of **antidoting snakebites** and also of its traditional reputation in intermittent fevers.

Clock-like periodicity is the most marked characteristic of this remedy. It has been found curative in malarial affections, especially neuralgias. **Neuralgias occurring at exact periodicity.** Hysterical spasms regularly night and morning. Chills in persons returned from tropical climates.

Mania. Complaints after sex, chorea ' in women, neuralgia in men. Trembling.

Numbness of the whole body. Convulsions during menses. Chorea after menses. Lec- tophobia. Bluish-red face, forearm to elbow and hands and feet cold, sweat beneath axilla and on chest.

MIND - Nervous excitement, followed by depression. Restlessness, as driven from place to place. Lectophobia. Body heavy, mind depressed. Mental symptoms are worse at night. **Abdomen** - Abdomen hard and distended. Stitches in spleen and liver. Flatulence, colic and cramp. Borborygmi (left side).

Back - Stiff neck, pains all along spine. Pain in neck and loins on rising in morning. Pain under scapuli and in pelvis.

Causations - Antidotes the effect of snakebites and stings of insects.

Chest - Oppression. Sharp, darting-cutting pains under floating ribs and scapula.

Constitutions - Adapted to persons of an excitable nervous temperament, especially to females.

Ears - Tinnitus. Hardness of hearing at night.

Eyes - Eyes red. Burn like fire. Shooting over left eye. Severe pain in eyeballs with radiating pains around the eye, scalding lachrymation. Periodic supra-orbital neuralgia. Pain over the eye, worse sex. Iritis, choroiditis. Objects appear red at night and yellow by day.

Face - Animated red face. Flying heat of face alternating with chills. Tumid face, pupils much dilated. Prosopalgia (right). Wandering pains, spasmodic distortion of muscles. Lips cold, bluish, dry during menses.

Female - Many symptoms appear after sex and during the menses. **Epilepsy during menses.** Leucorrhea in place of menses. Ptyalism and leucorrhea after menses. Genital excitement at daybreak with discharge like leucorrhea and swollen breasts with pain. Puerperal eclampsia.

Food - Longing for cold drinks in some, for warm in others. Great thirst during menses. Loss of appetite.

Head - Orbital neuralgia. Roaring in ears produced by quinine. Stammers after sex. Crazy feeling from pain across forehead, worse working on black. Pain from temple to temple across eyes. Whole body feels numb during headache. Head feels as if swollen. Pain over whole right side of face, coming on about 9 a.m.

Heart - Palpitations and hurried breathing with headache. Irregular action. Pulse quick and full with animated, red face. Pulse uncountable.

Kidneys - Pain in kidneys. Burning along ureter and in urethra. Feeling as if a drop of urine in urethra or a constant dripping from it.

Limbs - Acute, sudden pain in ball of right thumb up arm to shoulder, same in right foot to knee, causing her to drop to the floor. Dropsy of knee joint. Sharp pain in joints, worse feet and hands. Pain in ball of right foot, extending to knee. Shingles with radiating pain.

Lungs - Difficult respiration with partial loss of voice, recurring at different intervals. Suffocative fits recurring regularly every day 10 to 12 o'clock. Suffocating fits, worse after sex, sleep, better by eating.

Troublesome cough every morning at six, lasting two hours. Respiration much affected after sex. Breath cold.

Male - After sex, pain over left eye. Gonorrhea-like discharge, lasting three days. Gleet with formication over whole body. Desire with firm erections, all night, on waking.

Modalities - Better from standing erect. Worse periodically. Worse at the same hour. Worse open air. Worse before a storm. Worse lying down. Worse after sleep.

Mouth - Prickling itching of tongue. Painful pricking of tongue with sensation of heat. Feels paralyzed. Difficulty of speech. Stammering after sex. Mouth and tongue dry, breath fetid during menses. Profuse ptyalism after menses.

Nose - Point of nose cold with chilliness and yawning, 9 a.m. Profuse secretion. Glassy-looking mucus or thin, clear, acrid.

Rectum - Involuntary stool during chorea attack. Ineffectual urging.

Sleep - Yawning and stretching. Drowsy, sometimes very profound sleep. Restless, frequent waking. Worse after sleep. Dreamed of pleasant social interviews with female acquaintances. Dreamed of quarreling with a dead sister and other dead friends, cried about it and awoke with sensation of a stone in the stomach.

Stomach - Nausea with distention of the stomach. Sensation as of a stone on stomach.

Teeth - Toothache every night during menses with bleeding gums. Sudden toothache in left upper molars. Sensation as if cold air touched the teeth on inspiration.

Temperature - Malaria. Quotidian or tertian fever with marked regularity. **Regular paroxysms of fever, coming at same hour**, commencing every day 6 p.m. by chills in back and limbs or cold feet and hands. Excitement before chill. Chill with congestion to head, hands, feet and nose remain icy cold. Shivering and chill, followed by profuse perspiration every evening. During sweat, coldness and heat irregularly intermingle. Hot stage, dryness, heaviness of head, redness of face, burning heat in hands, pulse full and accelerated, thirst with desire for warm drinks.

Throat - Larynx constricted and tender. Intermittent laryngitis. Burning and constriction, difficult swallowing. Prickling and tingling in throat and fauces, extending some way down esophagus. Pain on small spot next root of tongue, as of a foreign body, worse from pressure.

COMMENTS - Characteristic clock-like periodicity in the recurrence of the symptoms. Rapidity of action (Bell.). Fevers of low, marshy regions in warm seasons and tropical countries. Chills in persons returned from tropical climates. Intermittent fever commencing the same hour every day or every other day. During the fever, there is a red face in the hot stage, thirst with desire for warm drinks. Profuse perspiration. Excitement before chill. General debility, languor and fainting. Malaise.

Predominance of nervous symptoms. Trembling. Accurately periodic neuralgias. Swollen sensations, numbness of the whole body. Enlarged sensation. Sensation as if paralyzed. Strong sexual excitement. Epileptiform convulsions during menses. Complaints after sex (chorea in women, neuralgia in men).

A large number of symptoms appear on left side, but right side of head, face, right elbow and right deltoid are affected. Worse after sleep, lying down, night, open air, before a storm. Better standing erect. Objects appear red at night, yellow by day.

Teste reported a case in which Hellert was bitten by a coral snake. "During the few seconds which it took him to take the antidote out of the little bag which he wore suspended around his neck, he was seized with violent pains at the heart and throat, but he had scarcely chewed and swallowed a small portion of Cedrón of the size of a small bean, when the pain ceased as by magic. An oppression and general prostration remained.

"He chewed another portion of the same fruit and applied it to the wound externally and in another quarter of an hour all he felt was a slight colic, which disappeared

Cedrón

after eating a little. This colic was followed immediately by a copious evacuation of a substance that looked like curdled milk, white with a slightly yellowish tint." Other cases were also reported.

Halbert related a case of malarial fever in a soldier. Chills and fever were clock-like in regularity of recurrence. Liver and spleen were much enlarged.

Anemia was extreme and there was this additional peculiarity: intermittent stomach pain occurring with the febrile crises.

In conjunction with these conditions there was a manifestation of chorea symptoms involving face and shoulders mostly, the twitchings being troublesome in the inter febrile state. Often there were debilitating hysterical spasms, the heart became irritable and sometimes irregular.

After other remedies had failed to make any impression, Cedr. cured in only three weeks, the improvement setting in immediately.

RELATIONS - Antidoted by: Lach., Bell. **Antidote to:** Lach. **Compare:** (1) Ars., Aran., Bell., (2) Cedr. removes roaring in ears of Chin. Bell, removes "Objects appear red at night, and yellowish by day" of Cedr., (3) Ars. and Sabad. - complaints return same hour every day. (4) Aran. - ague when chills predominates.

REFERENCES - Boericke. Clarke. Murphy. Phatak.

*****CEMENT**

PHARMACY - cem. Cement. Cement rock. The preparation for possible use is made by triturating a good cement with sugar of milk on the decimal scale. **Historical dose:** Trituration and all potencies.

CLINICAL - Eczema. Cement maker's itch. **Itching.**

HOMEOPATHIC - Cement maker's itch is an occupational disease, entirely distinct from ordinary itch, being neither parasitic nor contagious, but produced by the chemical or mechanical action of the cement upon the skin.

Some physicians have attributed the corrosive action to calcium carbonate and to sulphuric acid. Fresh cement, however, does not contain carbonate. It is questioned whether slaked lime or even partly slaked lime will produce this effect. Masons working with lime mortar are seldom, if ever, attacked with cement maker's itch. The quantity of sulphuric acid in cement is very small.

Cement maker's itch and ordinary itch have one symptom in common: **intense itching, especially at night.**

The itching appears to be increased by the heat of the bed and also is more annoying in summer than in winter. Scratching may produce infected wounds and swelling. It is likely to be followed by eczema and other complications.

The managers of cement works should always require their workmen to wear cotton gloves and garments tightly fastened at the neck and at the wrists. Cement workers on arches or ceilings should wear masks. Both gloves and masks should frequently be washed.

REFERENCES - Anshutz.

*****CENCHRIS CONTORTRIX** (Copperhead Snake)

PHARMACY - cench. Cenchris contortrix. Copperhead snake. American copperhead. Ancistrodon mokeson. Ancistrodon contortrix. Agkistrodon piscivorus. N. O. Ophidians. Crotalida. North America. Solution of venom.

Historical dose: All potencies.

CLINICAL - Amaurosis. Catarrh. Coma. Diarrhea. Dyspnea. Eyes, swelling over. Headaches. Heart, disorders. Lethargy. Leu- corrhoea. Menorrhagia. Nightmare. Ovary, pain. Palpitations. Restlessness. Throat, disorders. Vulva, eruption.

HOMEOPATHIC - Cenchris has the main features of all the serpent poisons. Cench. is a wonderful restorative and deep acting remedy. Like Ars., it has a dyspnea, mental and physical restlessness, thirst for small quantities of water. Needs clothing loose (Lach.).

Coma, semi-consciousness. Insensibility of cornea. Swelling of upper lip. General swelling, paralysis. Cold, clammy sweat. Increased sexual desire in both sexes. Ineffectual attempts to recline. Right ovarian region painful.

MIND - Forgetful. Memory lost. Dreamy, absent-minded. Marked alteration of moods, vivid dreams. Took the wrong car without realizing where she was going. When riding in the car, rode past the place she intended to get off at. **Time passes too slowly.** Lethargy.

Anxiety, feels she will die suddenly. Anxiety in evening in bed. Anxiety while lying. Presentiment of death. Fear of apoplexy. Jealousy. Quarrelsome from jealousy.

Suspicious, thinks her husband is going to put her in an insane asylum, every day, 3 p.m. to 8 p.m., for ten days, yet knew it was a delusion. Delusion of being in two places at the same time.

Abdomen - Intolerance of tight clothing.

Eyes - Swelling like bags over eyes and under brows. Redness of margins and twitching. Aching and itching in eyes. Left eye waters from cough. Dim vision. Insensibility of cornea.

Face - Expression bloated, besotted. Face sallow. Burning face. Blue circles around eyes.

Female - Increased desire. Yellow leucorrhoea. Pain in right ovary. Herpetic eruption on labia. Menstrual flow very profuse, light with dark clots.

Head - Aching pain in left frontal eminence and left side of teeth. Swelling around eyes, aching and itching in eyes.

Heart - Feels as if heart were distended or swollen to fill the whole chest. Strongly conscious of heart. Palpitations. Hard aching and sudden sharp stitching in heart. Throbbing or fluttering under left scapula. At 3 p.m., sensation of fluttering followed by feeling that heart fell down into abdomen. Then, pulse feeble with heat lasting until after midnight.

Lungs - Hard, dry, tickling cough, worse 3 p.m., even causing escape of urine.

Male - Violent sexual desire.

Modalities - Worse on waking. Worse lying down. Worse pressure. Worse in the afternoon. Worse evening and all night.

Nose - Catarrh, scabs, obstruction.

Sleep - Vivid, horrible and lascivious dreams, cannot be shaken off during waking hours.

Stomach - Nausea better by ice, worse by water, causes vomiting.

Stool - Diarrhea early in morning, on waking. Stool, gushing, frequent, watery, at first without pain, after several hours, great pain before the motions.

Temperature - Chill or fever beginning in afternoon.

Throat - Accumulation of glossy, thick, tough mucus. Difficult empty swallowing, but easy swallowing of solids and liquids. Warm drinks grateful.

COMMENTS - Marked alternation of moods. Dreamy absentmindedness. Swelling above eyes, below brow like an over-hanging bag of water. Diarrhea with pain before stool, stool papescent, cold but not chilly. Yellow leucorrhoea. Pain in right ovary. Herpetic eruption on labia.

Hard, dry, tickling cough, worse 3 p.m. Restlessness and sense of suffocation, palpitation, sensation of dying. Chokes, must lie with head drawn back. Tight clothing is unbearable.

Chill or fever beginning in afternoon. Feeling as if whole body were enlarged to bursting, worse in region of heart. "Awoke with throbbing in vulva and anus, followed by a dull aching in the sacral region, better by walking about."

RELATIONS - Compare: (1) Ars., Lach. (2) Clotho Arictans - Puff Adder - Should have a great sphere of usefulness in many conditions where excessive swelling in leading feature.

REFERENCES - Boericke. Clarke.

***CENTAUREA TAGANA

PHARMACY - cent. Centaurea tagana. N. O. Compositae. Tincture of root. **Historical dose:** Tincture and all potencies.

CLINICAL - Coryza. Diarrhea. Eyes, inflammation. Fevers. Homesickness. Influenza. Intermittent, fever. Vision, vanishing.

HERBAL - The Centaurea are allied to the thistles. Dr. Chagon, Duc de Sorentino, experimented with the root of Cent.

HOMEOPATHIC - Marked symptoms of congestion. **Blood surges painfully at every movement.** The symptoms are worse at night, in the morning on waking, by movement, during and after urinating. Better by eating.

COMMENTS - Allen reported a case in which a bright servant-girl who took it seemed stupefied for several days. The earliest symptoms appeared a quarter of an hour after taking the medicine, viz., those of the arms together with dull pains in the hypogastrium, shiverings and general heat, especially on forehead, which was covered with sweat.

These were followed by a stupefying pain in temples, frontal protuberances orbital arches and eyes. Next came dimness of sight, appetite alternating with nausea, increase of saliva and vomiting, running of the nose, lachrymation, belchings, rapid sinking of strength, general uneasiness, confusion of mind, weariness, dull sunken eyes, spasmodic sweating, itching and pricking in the skin, drowsiness and thirst.

A state of reaction after four or six hours brought some quiet. Next day, in the forenoon or towards evening, the above symptoms reappeared but with less violence and some of them assumed a periodic form.

Then ensued coryza, colic, diarrhea, fevers of various types, pains in the arms, dry cough, etc. The action ended with the symptoms of catarrh of angina and of fever in the forenoon and with confusion and pain in the forehead. This gives a general idea of the action of this remedy.

RELATIONS - Compare: (1) Bell., Cedr., Card-b., Card-m., Glon., Chin.

REFERENCES - Clarke.

***CENTAURY

(Bach Flower Essence)

PHARMACY - cent-b. Centaury. Centaurium umbellatum. Pick the flowers, put them in a bowl of water and let them sit in the sun for several hours. The water imbued with healing power is used as medicine. **Historical dose:** Take two drops from the stock bottle into a one ounce dropper bottle, (add , brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle.

take a few drops straight into the mouth or as needed in a little water or juice.

HOMEOPATHIC -Centaury belongs toBach's group of **Over sensitivity to Influences and Ideas**, along with Agrimony, Walnut and Holly. Lack of stamina may be apparent, people may not seem fully invigorated or empowered. Weakness in the mind, emotions and body. The psychosomatic diseases of hypertension (Will-b.), hyperthyroidism (Verv-b.), insulin dependent diabetes, soft tissue rheumatism and rheumatoid arthritis (Chic-b.).

In a mental illness, when excessive submissiveness and attempts to please others are part of the underlying dynamic. Dependent personality disorder (Cer-b.). Over-compliance and disregard of one's own needs (Oak-b.). One gives others priority over oneself, seeing their needs first and de-emphasizing one's own.

MIND - The mind is easily impressed with the needs and demands of others, to the point of wishing to do good and be of service. The balance of perception is tilted in favor of others. Feelings of guilt and loyalty may further bind and narrow one's way.

Life may seem more drudgery than adventure. A mistake of the service-oriented person is to overlook growing personal weakness and exhaustion. As needs of others seem predominant, one's own needs assume less importance and one's health and strength may be undermined slowly. Serving others may be a refuge for some, a binding up of one's identity with a positive attitude, a way to build self-esteem and find approval by others.

Sadness due to unfulfilled potential or unanswered needs. Disappointment, resentment or frustration in the

helpful person due to insensitivity and neglect.

Lacks the courage to make their needs known, or their ethical principles may prevent them from entertaining resentful impulses. Can't assert their needs to others.

*****CEPHALANTHUS OCCIDENTALIS**

(Crane Willow)

PHARMACY - ceph. *Cephalanthus occidentalis*. Crane willow. Button bush. N. O. Rubiaceae. The fresh bark of branches and roots is pounded to a pulp and macerated in two parts by weight of alcohol. **Historical dose:** Tincture and all potencies.

CLINICAL - Constipated. Intermittent, fever. Nightmares. Rheumatic, fevers. Sore, throat.

HOMEOPATHIC - The item given below was contributed to the American Observer. 1875, by Dr. E. D. Wright. "Cures of intermittent fever, quotidian and tertian fever, sore throat with quinsy it had very good effect. Rheumatic fevers with soreness of the flesh. A worker fell in the river. Cold and inflammatory fever was cured quickly.

"Proving of one-half ounce in a day. First day: raw, sore throat, nervous and excited. Felt light and easy, happy. The bowels were constipated.

"Second day: with the same dose. Dreams about fighting, quarreling. Sleep was restless and tossing over. Joints of the fingers lame. Gripping pains in the lungs in body and limbs, especially in the joints toothache. Bowels loose, stool offensive. Hemorrhoids."

REFERENCES - Anshutz.

*****CEPHALANDRA INDICA**

(Telakucha)

PHARMACY - cephd. *Cephalandra indica*. Telakucha. Bimba. N. O. Cucurbitaceae. Historical dose: Tincture and all potencies.

CLINICAL - Abscesses. Biliousness. Boils. Carbuncles. Cough. **Diabetes**. Dropsy. Dysentery. Fever. Glands, enlarged. **Glycosuria**. Headache. Hemorrhage. Jaundice. Skin, diseases.

HERBAL - Telakucha is a perennial creeping herb with long tapering tuberous roots and deep green leaves. It is found to grow abundantly in a wild state in Bengal and in other parts of India. It possesses a smooth green fleshy fruit whose taste is very bitter.

When the fruit becomes ripe its color

becomes scarlet and its taste becomes sweet and it is sometimes eaten as a vegetable. It possesses the reputation of being an excellent remedy in reducing the amount of sugar in the urine of patients suffering from diabetes mellitus and mitigating their other sufferings.

According to Dhanvantariya Nirghanta, it is a good medicine for fever, dropsy, hemorrhage of the stomach. Jaundice and flatulence. It suppresses urine.

According to Rajnirghanta, it is bitter, cures cough and vomiting, excellent remedy for blood poisoning, arrests hemorrhage of the stomach.

The Ayurvedic physicians of India use the extracted juice of the leaves to allay the burning pains of poisonous boils and carbuncles, and for general burning pains. It is also used by them in bloody dysentery and in biliousness. They also use it in diabetes mellitus.

HOMEOPATHIC - Dr. Sarat Chandra Ghose, introduced this remedy to homeopathy and he conducted the first provings. He found *Cephalandra indica* an effective remedy for **diabetes mellitus** and insipidus.
